

O games 1951

Chapter 1951 Retreat into the sealed area!

Lin Tianhao has a map of mountains and seas, as well as some other treasures that can accommodate living beings.

There are also some other adventurers who can accommodate living creatures, so it is not difficult to take away all the adventurers of Ragnarok.

From the moment he discovered that the seals in this sealed area would loosen, it was already a dead end for Lin Tianhao.

Everyone was mobilized very quickly.

In just three days, Lin Tianhao was the only one left during the entire Ragnarok.

Take one step.

Lin Tianhao escaped into the ground.

After coming in, Lin Tianhao began to comprehend the laws of the origin of the soul.

To be precise.

From the moment he planned to take everyone into the sealed area, Lin Tianhao had already been comprehending the laws of the soul's origin.

Because the level of the soul's origin law is closely related to what Lin Tianhao will do next.

This sealed place is indeed powerful and can prevent others from entering.

As for why they wanted to let Marshal Fatian know about this place, it was because he had to know, so that they would have a glimmer of hope.

He wanted to gamble that Marshal Fatian had a conscience and would not do anything extreme.

If Lin Tianhao brought everyone here directly, what would the Alet Galaxy army do if they couldn't find them?

Hunt wild monsters to strengthen yourself.

According to Lin Tianhao's speculation, killing the wild monsters on Blue Star will still accelerate the loosening of the seal of this sealed place.

If the army of the Alet Galaxy slaughters the wild monsters on the blue star at will, it won't take too long for the seal to be completely destroyed.

But if Marshal Fatian knew the problem, he might not do that.

According to Marshal Fatian, he didn't want to fight either.

If they were all hiding, Marshal Fatian could have ordered someone to dig three feet into the ground instead of hunting wild monsters.

The edge of the solar system.

Xiumoxu Mei Wang appeared behind Grand Marshal Fatian and said respectfully, "Grand Marshal, they have all retreated. What should we do next?"

Marshal Fatian stared at the direction of Blue Star with deep eyes.

"What do you think?"

Xiu Moxu Mei Wang hesitated for a moment and said:

"Dig three feet into the ground, find the barrier, and break it."

Hear the words.

Marshal Fatian couldn't help but laugh.

"Then it's settled. I remember the super base Snow Empress built was moved away, but it was one of Snow Empress's former bases after all. Let's dig from there."

"Yes." Xiu Moxu Mei Wang bowed.

Marshal Fatian waved his hand, signaling King Mei to retreat.

After the Charm King retreated, Marshal Fatian murmured.

"I should thank you."

As soon as he finished speaking, an angry voice sounded.

"Fatian, what's the point of digging three feet underground? What did the Snow Emperor tell you underground? Don't forget the decision from above!!"

Along with the sound came a strange man with eight eyes and six ears.

Holding a black Zen staff, he walked up to Marshal Fatian and smashed the staff heavily on the ground, creating a deep hole.

"You want to pretend to obey but actually disobey?!"

Marshal Fatian sighed quietly, "It may seem like we're attacking the Galaxy World, but in reality, we're the prey, right?"

The weirdo's six golden eyes narrowed slightly, "What nonsense are you talking about?"

"The attack on the Galaxy World is to strengthen our Arlet Galaxy!"

"This place is rich in resources, and the indigenous people are weak..."

Marshal Fatian sneered, "Snow Queen, do you look like an aboriginal?"

"Gui Ye Wuqing, does he look like an aboriginal?"

"Glasses, like the Aboriginals?"

"There are also Fat God Invincible, Jin Delan, Canzhu Butian Shao, Bingxue Lanling, Once Upon a Time There Was a Mountain, etc. Are any of these people indigenous?"

"Others can't see it, but you can't see it?"

The six-eyed monster's hand holding the scepter trembled slightly, "Fatian..."

"That's not something we can decide."

"What we have to do is follow the orders from above and do our part."

Marshal Fatian waved his hand and said, "Isn't what I'm doing now just my job?"

The six-eyed monster wanted to say something, but was interrupted by Marshal Fatian.

"Even ants struggle to survive, let alone us?"

"I don't want so many people in our Arlet Galaxy to die in obscurity!!"

The six-eyed weirdo snorted coldly and scolded:

"You think you can do whatever you want just because the adults aren't there to keep you in check?!"

The words fell.

The six-eyed monster turned and tried to leave.

Marshal Fatian immediately turned around and stood in front of the six-eyed monster.

"You want to fight me?" asked the six-eyed monster.

Marshal Fatian shook his head, his tough expression collapsed and took on a hint of pleading.

"Please, give us a chance."

"Naive!" shouted the six-eyed monster.

"Do you think the people above you don't know what you're doing here?"

"I don't know if your guess is correct, but you know one thing very well: as long as we complete the tasks assigned by our superiors, the only ones who will die will be those ordinary soldiers, not us!"

"But aren't those ordinary soldiers human beings?" Marshal Fatian's voice was a little anxious.

The six-eyed monster swung the Zen stick in his hand down again and stared at Marshal Fatian with anger.

But when the words came to his lips, he swallowed them back.

He walked up to Marshal Fatian and his expression relaxed.

"Fatian, I understand how you feel."

"If your guess is true, do you think you can protect it?"

"As a human being, think less and do more, and you won't be so tired."

Marshal Fatian held his breath, and he hesitated several times to speak, but finally his eyes became firm.

"Save as many as you can, do your best, and leave no regrets."

The six-eyed freak chuckled, "You're just leaving yourself with regrets!!"

.....

The sealed place underground.

Lin Tianhao sat cross-legged, trying his best to improve the laws of his soul's origin.

at the same time.

He also let Gu Limu Changqing continue to devour the power of misfortune to enhance his own soul power.

Strengthening soul power will also help Lin Tianhao improve the origin laws of his soul.

It just so happens that Lin Tianhao is now in this barrier, and he can use the laws of the origin of the soul to deduce what is happening outside.

The first thing to deduce is naturally the movements of the Alait army.

What surprised Lin Tianhao was that these guys had not yet slaughtered the wild monsters on Blue Star, but were digging the earth, trying to find a barrier.

"It seems that my bet was right."

When Lin Tianhao brought Marshal Fatian here, he was betting that the other party would not do anything extreme.

As for the reason.

Part of the reason was that once these monsters broke the seal, the galactic world was destroyed, and he couldn't explain it.

Another part is that Lin Tianhao felt that the top mortal powerhouses in the Alet Galaxy probably didn't want to fight.

But because of the plan from above, they had to fight.

Ever since learning about the layout of many top powers in the galactic world, Lin Tianhao's thoughts on this war have undergone subtle changes.

Chapter 1952 You won't suffer any loss by joining Fan Palace!

Although Lin Tianhao is still not sure what those super powers want to gain by planning their layout in the galaxy world.

The so-called share of the pie should not be the equipment and skills.

There must be something else in the galactic world that they want to obtain.

Or...

In the Arlet Galaxy, they have what they want.

There was no answer, so Lin Tianhao simply stopped thinking about it.

wait!!

Now is the best time to do it.

Just like that, half a month passed.

Lin Tianhao and his companions spent one hundred and fifty days in this sealed place.

outside.

Those guys in the Alet galaxy still chose to continue digging the earth.

This is good news, but Lin Tianhao also knows that Marshal Fatian cannot hold on for too long.

Because those big shots wouldn't let them get away with it so easily.

I just don't know how long Marshal Fatian can hold on.

While making such calculations, Lin Tianhao continued to devour the power of misfortune and comprehend the laws of the soul's origin.

At the same time, he was also constantly hunting monsters to improve his proficiency in Heavenly Punishment.

Besides.

Lin Tianhao also did not forget to continue looking for things to help him awaken his bloodline.

At the same time, his Divine Flame Nine Refinements can also be considered for improvement.

In the mountain and sea map.

Lin Tianhao successfully found the old Eastern Taoist priest! !

The treasure related to Qilin in his hand had an attribute of luck +1000, so Lin Tianhao never really asked for it.

But now the situation in the galactic world has become increasingly out of control, and Lin Tianhao needs to improve himself in the shortest time possible.

therefore.

Even though it might be a little inappropriate to do so, Lin Tianhao still wanted to do it.

When the old Eastern Taoist learned that Lin Tianhao was looking for him, he already knew Lin Tianhao's purpose.

"Xue Di, I know what you want, and I can give it to you." The old Eastern Taoist was very direct.

Lin Tianhao remained calm. The old Eastern Taoist could agree so readily, so there must be some additional conditions.

"but....."

The old Eastern Taoist raised his lips, "I need you, Snow Emperor, to lead us back to Ragnarok and continue to fight against the Alate Galaxy."

Just listen to this.

Lin Tianhao's first thought was that this old Eastern Taoist was also one of the people deployed by those major forces in the Milky Way world.

"You should have seen the monsters here. If you keep fighting, the monsters here will break out of the seal, and the Galaxy World will be completely finished." Lin Tianhao said.

The old Eastern Taoist lowered his voice, "Xue Di, don't you see clearly? Whether they are finished or not, what does it have to do with us?"

A cold light flashed in Lin Tianhao's eyes, "Of course it has something to do with me. I hold the Human King Order and enjoy the fortune of the human race. There is no way I can just sit back and watch."

The old Eastern Taoist was stunned for a moment, then said doubtfully:

"Xuedi, are you really confused or just pretending to be confused? The luck of the human race in the Galaxy World is only with you temporarily, you can't take it away."

That's it.

The old Eastern Taoist seemed to have thought of something and scolded:

"Xuedi, you asked us all to come here, don't you think you want to eat alone?"

"Eating alone?"

Lin Tianhao sneered, "In today's Galaxy world, I can't get what I want, and I have to eat alone."

Judging from the old Eastern Taoist's current reaction, he should know what he wants to obtain by coming to the Galaxy World.

"You do not know?"

"you are not?"

"Impossible! If you didn't have the support of a superpower behind you, you wouldn't have made it this far."

Lin Tianhao smiled slightly, "Then which superpower do you belong to?"

"That can't be said." The old Eastern Taoist shook his head.

Lin Tianhao raised his hand and pressed down in the air, forcing the old Eastern Taoist to his knees.

"If you have this attitude, then I will have no choice but to kill you and send you to the list of gods."

The old Eastern Taoist stared at Lin Tianhao coldly, "You are breaking the rules."

"I don't know what the rules are!!"

"I have my own rules!!"

The old Eastern Taoist couldn't tell whether Lin Tianhao was happy or angry in his eyes. He knew in his heart that Lin Tianhao was probably not joking.

"I'm from Dongwangzhuang. If you really don't know anything, you won't know my name even if I tell you."

"Give me the thing." Lin Tianhao continued.

If the Old Eastern Taoist was a normal adventurer, Lin Tianhao might feel a little psychologically burdened if he robbed him directly.

But he is not like that. He came to the Galaxy World to get a piece of the pie.

"Snow Emperor, please give others a way out..."

"Pfft-"

Lin Tianhao used the power of the Golden Dao Realm to cut off the arm of the old Eastern Taoist priest from a distance.

"I don't like to hear nonsense."

The old Eastern Taoist took a breath of cold air, raised his hand and threw out a gray-white Qilin horn.

"Xue Di, I'll give you the things, but if you keep acting like this, it'll all be over sooner or later, right?"

"Are you threatening me?" Lin Tianhao asked back.

The old Eastern Taoist clenched his fists and said, "I'm just speaking the truth. It's not a threat."

Lin Tianhao raised his hand and patted the Old Eastern Taoist on the shoulder. The powerful force knocked the Old Eastern Taoist to his knees.

"I won't take your things for nothing. Join the Fan Palace and become a disciple of the Fan Palace."

"you--"

The old Eastern Taoist priest was furious.

Joining the Fan Palace is equivalent to becoming a slave of the Snow Emperor.

"My Fan Palace is the largest force in the Galaxy World. Would it be unfair for you to join Fan Palace?" Lin Tianhao asked.

The old Eastern Taoist wanted to say something, but was glared back at by Lin Tianhao's cold eyes.

After only a moment's hesitation, he nodded.

If you join the Mortal Temple, you can live. If you don't join the Mortal Temple, you will definitely die! !

As long as you are alive, there is still hope.

What's more, he has Dongwangzhuang behind him. Even if there is a super power behind Xue Di, it can still be negotiated.

"Yes, this is the disciple token of the Fan Palace. You really won't suffer any loss."

Lin Tianhao handed the old Eastern Taoist a token.

After getting the token, the old Eastern Taoist's eyes obviously changed subtly.

"What exactly do you want to get by coming to the Galaxy World?" Lin Tianhao asked.

"Elemental essence."

"Although the Galaxy World and the Alet Galaxy are both small worlds, many of the characteristics of these two small worlds are the same as those of the main world's divine realm."

"Same as the Divine Realm?" Lin Tianhao was slightly surprised.

"Yes."

The old Eastern Taoist nodded and said, "Your Excellency may not know that the endless starry sky, billions of small worlds, their world elements are not complete."

"And most of them have relatively single attributes, such as the small world of water and the small world of fire. It's difficult to find a world with such a complete range of elements as the Milky Way World and the Alet Galaxy."

Lin Tianhao pondered and said:

"If you just want to collect elemental essences, you can go directly to other small worlds to collect them."

"A single element is not allowed, but the ones you have here are not allowed."

"Especially the creatures in these two worlds. They only exist in theory. Under normal circumstances, creatures like those in your two worlds cannot be born."

Chapter 1953 The specialness of the two worlds!

"Are the people from our two worlds very special?" Lin Tianhao asked.

The old Eastern Taoist replied as a matter of course:

"Of course it's special. Every creature in your two worlds is almost a full element."

"Gold, wood, water, fire, earth, yin and yang, wind, thunder, ice, and other elements are all there!!"

"Master Palace Master, you may think this is natural, but you must know that other creators, when trying to create a life form that possesses two or three elements at the same time, will explode due to instability."

"Even if they succeed, most of them are deformed."

This speed was somewhat beyond Lin Tianhao's expectations.

"We have conducted many experiments before. Of course, I'm not talking about myself. We in Dongwangzhuang and other superpowers have also conducted in-depth research on the creatures in your two worlds."

"But the final result is that we still can't understand it. The complexity of your body structure and the distribution ratio of various elements are much more complicated than we imagined."

"Especially the distribution ratio of elements. Even for twin brothers, the ratios of the major elements in their bodies are different."

"After our research proved fruitless, we changed our strategy to directly copy your elemental essence. This is also the main purpose of our coming here."

Lin Tianhao frowned slightly, "Then you won't provoke a fight between our two worlds."

"If I don't do anything, the replication will be too slow. I came earlier and even changed my identity on Blue Star."

"The little bit of elemental essence that can be copied is totally insufficient."

"By the way, copying the essence of an element requires the death of the other party, so the more people who die, the better."

Lin Tianhao took a deep breath and said, "You big shots are really not human beings. You let so many people die for your own purposes."

"However, you can also seek out the Source of Tao. He created this world and naturally knows how the creatures of this world were created."

The old Eastern Taoist shook his head. "That's not the case. We've looked for them. We found that the people who created the Arlate Galaxy and the Milky Way World are a couple."

"They created these two worlds and then disappeared."

"As for the God of the Source of Tao you mentioned, he simply came from behind and managed this world, but he is not the creator of this world."

Lin Tianhao frowned, "But didn't he create three thousand gods and demons?"

"That's right. There are more than three thousand gods and demons. He also created some gods."

"But don't you notice a problem? Each of the three thousand gods and demons he created has a single attribute."

"Creating a living being with a single attribute is not a difficult task in the Divine Realm."

The divine realm didn't seem as beautiful as he had imagined.

"You have already copied a lot of elemental essences, it's time to stop!!" Lin Tianhao said.

The old Eastern Taoist said helplessly:

"Master Palace Master, we can't just stop doing this just because we say so."

"There are too many superpowers behind this war, and their foundations are too strong."

Lin Tianhao frowned, "After saying so much, we and the people of the Alet Galaxy are just abandoned pawns, using our lives to achieve your goals."

Hear the words.

The old Eastern Taoist couldn't help but say:

"Master Palace Master, we are actually the same. I don't think you are a native of the Galaxy World."

"I've heard people mention this before. Besides replicating elemental essences, some people have also come to the Galaxy World. They send their family's geniuses here to take over human bodies, and then live and grow in human ways."

"These people have deeper plans, but my abilities are limited, and I don't know what their plans are."

Lin Tianhao felt a little complicated.

He once thought that the Alata Galaxy was an enemy, an enemy that would never give up! !

Later, he felt that he was too special, and the conflict between the Aleta Galaxy and the Milky Way World was intended to train him.

Perhaps it's because he has a super family behind him that planned all of this.

Then, when he met Lin Xiaoyu, Lin Tianhao's faith began to waver.

And now.

Canzhu Bu Nian Shao and the old Taoist from the East, their words once again overturned his three views.

Lin Tianhao used to regard those guys in the Alate Galaxy as his mortal enemies, and his inner thought was that he must eradicate the Alate Galaxy no matter what.

But with the recent events that happened one after another, Lin Tianhao realized that the ones who should die were not those guys from the Alete Galaxy.

Rather, it is those high-ranking figures and powerful superpowers with deep roots who are planning all this behind the scenes.

"Master Palace Master, I have already joined the Mortal Palace. Based on my knowledge, I really don't recommend you learn too much."

"Just smoothly promote the war between the Galaxy World and the Alet Galaxy. Your rewards in the future will definitely not be small."

Lin Tianhao laughed jokingly, "Then...how many people will be left in the Galaxy World?"

Lin Tianhao doesn't care much about what's happening in the Alata Galaxy.

But in the Galaxy World, Lin Tianhao didn't want to give up easily.

"Master Palace Master, the Dongwang Manor behind me is completely unranked among the superpowers deployed in the Galaxy World."

Lin Tianhao sighed. He used to be so arrogant that he felt that with his own strength, it would not be difficult to turn the tide and save the galaxy world.

Even though the battle started and the Alate Galaxy sent out so many top warriors, Lin Tianhao still felt that he could hold on, it was just that his opponent was a little stronger.

But now...

Lin Tianhao felt more and more insignificant.

even.....

He felt that the next plan he had prepared seemed to be useless.

In Lin Tianhao's framework, Marshal Fatian pretended to be confused and did not slaughter wild monsters in large numbers, but there must be other people behind the Alate Galaxy to push this matter forward.

And at that time, he had no choice but to give up this place.

If he wanted to give up, Lin Tianhao could use his seventy-two transformations and his soul power to disguise himself, blend into the army of the Alate galaxy, and then wait for an opportunity to escape.

But now...

Such an idea also seems ridiculous.

With those super powers spying on him from behind, he might be fine in this sealed place, but once he leaves here, his seventy-two transformations of disguise will be too ridiculous in the eyes of those source gods, source masters, and even higher beings.

"Do you know who else is part of the layout of those super powers in the galactic world?" Lin Tianhao asked.

While speaking, Lin Tianhao also took out the Qilin horn.

Continue to awaken your bloodline and see the subsequent improvements.

With the Qilin horn in his hand, that mysterious feeling appeared again, and Lin Tianhao directly integrated the Qilin horn.

"Ding, you've gained the Qilin Horn bonus: Divine Attribute Perception +200 million, Fire Attribute Perception +200 million, Health +200 billion..."

Chapter 1954 Bloodline awakening degree 50%!

"Ding, you have gained the power of the Qilin, and your bloodline is awakening..."

"Ding, because your bloodline is too high, the Qilin power can only awaken part of your bloodline..."

"Ding, congratulations, your bloodline awakening is successful, and the current awakening level is 50%."

When the blood awakening degree reached 50%, Lin Tianhao's second effect of immortality also appeared.

Lin Tianhao checked the second effect of immortality, and his eyes lit up.

Immortality: Unknown.

Effect 1: Your body is immortal, your soul is indestructible, and you will enter a state of immortality. No matter how much damage you suffer, you will be able to recover. The time required to recover depends on the severity of the injury.

Effect 2: You can choose to reincarnate randomly. When your body and soul cannot recover in a short time, you can choose to randomly turn to any place outside the Hundred Thousand Star Region. (Number of reincarnations: 9.)

Note: Reincarnation only retains talents, bloodlines, and memories. Other attributes, equipment, skills, and magical powers will disappear. Please use with caution.

.....

The second effect is the super skill of escaping in desperate situations.

But it is only the effect of immortality 2.

With this skill, he can run away at any time.

But the problem is.

After he ran away, he couldn't take the map of mountains and seas with him, and that would be tantamount to seeking death.

After seeing Lin Tianhao finish using the Qilin Horn, the Old Eastern Taoist answered Lin Tianhao's question.

"Master Palace Master, the people that our major forces have arranged in the Galaxy World don't know each other, but we can actually tell from some of their behaviors."

"If you want to get a piece of the pie, you can't be too mediocre."

Lin Tianhao nodded slightly. It made no difference whether he said it or not.

He also knew that if he wanted to investigate people planted in the galactic world by other superpowers, the best way was to start with those masters.

"Do you have any people planted in the Alate galaxy?" Lin Tianhao asked.

"I do not know."

The old Eastern Taoist shook his head. "But based on my understanding of them, there must be."

Lin Tianhao waved his hand. It seemed unlikely that he would get more information from the old Eastern Taoist.

Since he could not get any useful information from the old Eastern Taoist for the time being, Lin Tianhao prepared to collect flames.

of course.

Lin Tianhao mainly felt that the skills of refining weapons and pills could be used for a lifetime, and improving the Divine Refining Nine Flames would also be helpful for his future cultivation.

And if he controls enough fire, it can be used to great effect against the enemy.

The first person Lin Tianhao found was Canzhu Buniang Shao.

of course.

While looking for Canzhu Buniu, Lin Tianhao did not give up looking for something to awaken his bloodline.

Now the only thing in Lin Tianhao's hands that can awaken his bloodline is the Xuanwu Suantian Armor.

However, the Xuanwu Suantian Armor is still of great use to Lin Tianhao now, so Lin Tianhao does not plan to use it for the time being.

"You want the flame in my hand?"

Canzhu was not young, but his face darkened when he heard Lin Tianhao's words.

"Xuedi, everyone has some trump cards of their own. My flame is my trump card..."

Lin Tianhao knew that Canzhu was no longer young and would not agree easily. "I only want one wisp to improve my skill proficiency."

Canzhu hesitated for a moment, but finally nodded.

"My flame is called the Dao Flame of Extinction, and it belongs to the Heavenly Dao level. Although you are powerful, you may still be injured if you force yourself to come into contact with it."

"I'll give it a try."

Lin Tianhao smiled faintly, activated the Divine Nine Flames and began to contact the Dao Flame of Annihilation.

The Nine Refinements of the Divine Flame can help subdue flames, and Lin Tianhao's fire resistance is now very high.

Therefore, it was not difficult to subdue the Dao Flame of Silent Destruction. In just one or two minutes, Lin Tianhao had subdued the Dao Flame of Silent Destruction.

Subsequently.

Lin Tianhao saw the list sent by Xuan Mingyang, Luo Qinyun and others.

When he was looking for Canzhu Bu Nian Shao, Lin Tianhao had already contacted Xuan Mingyang and Luo Qinyun, asking them to count the people who possessed special flames.

Now the number of people on the first list has exceeded three thousand.

Lin Tianhao kept looking for these people. He only took a wisp of fire from each person, which did not cause much damage to them.

As Lin Tianhao's Divine Flame Nine Refinements fused more flames, his proficiency increased rapidly.

at this time.

Lin Tianhao's reputation as the Snow Emperor was reflected, and most people were very happy to share a wisp of Lin Tianhao's flame.

A small number of people were reluctant, but they did not refuse.

After all, Lin Tianhao didn't ask for much.

and.

For every person who gives Lin Tianhao the flame, Lin Tianhao will exchange something from the Mortal Palace to compensate them.

Lin Tianhao's current contribution value to the Fan Palace has reached an astronomical figure, and exchanging some things casually will not have much impact on him.

With the entire Ragnarok as the background, the efficiency of taming the flames is extremely high.

In just half a month, Lin Tianhao's Divine Flame Nine Refinements was upgraded to nine stars, not far from ten stars.

This reminded Lin Tianhao of the Hongmeng Alchemist he had met before.

He still has the fragments of the Hongmeng Alchemist's job transfer and the fragments of the Hongmeng Pill recipe in his hand.

And the Hongmeng Dan Ding.

Although restricted by the rules, Lin Tianhao could not obtain the Hongmeng Dan Ding directly, but after Lin Tianhao resurrected the Shapai Poison Emperor, the Hongmeng Dan Ding was in the hands of the Shapai Poison Emperor.

Just don't know.

Do the so-called rules and restrictions still exist in the current galactic world?

of course.

The Hongmeng Dan Ding is a good thing, but without the Hongmeng Alchemist secondary profession, it is still a little lacking in quality.

Now all the NPCs of Ragnarok are here, and the Poison Emperor of Sand Sea is his own man.

So... can he create a bug to make the Hongmeng Dan Ding release the pre-tasks for the job change to Hongmeng Alchemist?

Then he completed the job change through other NPCs and became the Hongmeng Alchemist. Combined with the Hongmeng Dan Ding and the Shenyang Jiulian, it was equivalent to taking off directly.

Lin Tianhao summoned the Poison Emperor of Sand Sea and asked him to call out the Hongmeng Dan Ding.

The Hongmeng Dan Ding has its own consciousness. Whether this idea is valid depends on the meaning of the Hongmeng Dan Ding.

After knowing Lin Tianhao's thoughts, the Poison Emperor of Sand Sea couldn't help but feel a little surprised.

In this situation, Lin Tianhao did not consider how to become stronger, but actually set his sights on the Hongmeng Dan Ding.

"Xue Di, do you want to change your profession to Hongmeng Alchemist?"

After learning of Lin Tianhao's thoughts, the spirit of the small tripod's face inexplicably darkened.

"Isn't it possible?" Lin Tianhao asked.

The spirit of the little tripod shook its head and answered irrelevantly:

"Xuedi, are you planning to run away?"

"Run away? Why do you say that?" Lin Tianhao said.

"Switching to a super god-level secondary job at this time will not have a big impact on the overall situation, but it will be of great help to you in your journey to other places."

Chapter 1955 Evil Spirit Alchemist!

Lin Tianhao said very seriously:

"If there is still a chance, I will not run away."

"I want to change my job because I don't have any higher-level breakthrough methods now."

The spirit of the little tripod said helplessly:

"Indeed, after growing to your level, you may be able to improve further, but even if your attributes increase by tens of thousands or even hundreds of thousands every day, the improvement in your combat power will be minimal."

Lin Tianhao hesitated for a moment before he slowly said:

"Then I wonder if the method I just proposed is feasible."

The little cauldron spirit nodded gently, "It's feasible."

"The rules and restrictions here have been weakened to the point of being almost non-existent. In fact, you don't even need to complete the quest to get the job transfer scroll."

Lin Tianhao's eyes lit up.

"Then this sealed place is really extraordinary."

Lin Tianhao had tested Qingtianyuanzhu before, and judging from Qingtianyuanzhu's reaction, she probably didn't know about this place either.

In other words.

She couldn't even find this place, so let's see how things develop next.

The ideal situation would be to stay here for ten years and survive the ten-year battle to defend the galactic world.

"Okay, just in case, you should give me the task and I will complete it." Lin Tianhao said.

The spirit of the small tripod nodded slightly and took out a scroll for the pre-job change task.

"Xue Di, you can take a look at the mission."

Lin Tianhao took the scroll of the pre-job change task and began to look at it.

Hongmeng Alchemist job change pre-task scroll: Super God Level.

Mission requirements: Kill ten evil alchemists who use living beings as a guide to refine evil pills. Their crimes are unforgivable.

Current progress: 0/10.

Abrasion resistance: Indestructible.

Lin Tianhao raised his eyebrows slightly. This task was indeed not too difficult.

Using living creatures to refine pills is a very obvious feature. As long as Lin Tianhao is willing, he should be able to find it.

Thinking like this.

Lin Tianhao asked Xuan Mingyang, Luo Qinyun and others if they knew any alchemists who used living beings to make elixirs.

This question indeed has an answer.

In both Dragon Country and the United States, there are adventurers who have transformed themselves into such alchemists.

This type of alchemist is called a living being alchemist. Using living beings to refine pills will increase the probability of successful pills and enable one to gain higher proficiency, which is conducive to quickly improving the alchemist's grade.

This feature is exactly the same as the task given by the small tripod spirit.

"Please help me contact them. I want to meet the alchemist who transferred them to a new job."

Lin Tianhao did not reveal his real purpose.

Xuan Mingyang found a total of thirty-seven adventurers who changed their professions to become living alchemists.

According to Xuan Mingyang, these thirty-seven people are only a small part of the living alchemists.

He is considered to be a relatively high-level living alchemist that they can find.

When these living alchemists saw Lin Tianhao, they were all a little nervous.

The main reason is that Lin Tianhao is too strong and the pressure he puts on them is too great.

"Don't be nervous. I came to you because I want to ask you, is your secondary profession really a Living Alchemist?"

According to the spirit of the small cauldron, these evil alchemists are called evil spirit alchemists, not living spirit alchemists.

Hearing Lin Tianhao's words.

The thirty-seven living alchemists present became even more nervous.

Finally, a wizard named Nuonuo wants to eat chicken spoke slowly.

"Xue Di, our secondary profession is indeed not called Living Spirit Alchemist, but Evil Spirit Alchemist."

"But we only use wild monsters to make elixirs, and we haven't done anything harmful to the world."

After Nuonuo finished talking about eating chicken, Lin Tianhao was also communicating with the spirit of the small tripod using his spiritual thoughts.

"Xue Di, she said so, but the effect of the evil spirit alchemist using wild monsters to make pills is only about one tenth of the effect of using humans to make pills."

"Unless your faith is extremely strong, there will come a day when it will fail."

Lin Tianhao did not deny it, as the saying goes, money can move people's hearts.

Ten times the profit, this is very tempting.

There will definitely be people who take risks.

"None of you have ever used humans to refine pills?" Lin Tianhao asked.

Nuonuo wanted to eat chicken and was the first to shake his head, "No."

The others also shook their heads in denial, but some of them were obviously avoiding eye contact and had strange expressions.

"But I heard that the profit from using humans to refine pills is ten times that of using wild monsters to refine pills." Lin Tianhao said.

The words came out.

The expressions of the thirty-seven people present changed slightly.

Even Xuan Mingyang, who was watching from a distance, was shocked.

He holds a high position and has seen many people and things.

He was naturally well aware that the temptation brought by this tenfold profit was immeasurable.

"We all have the most basic conscience. Even if that day really comes, the objects of refinement will only be enemies like the army of the Alate Galaxy." said Nuonuo wants to eat chicken.

Lin Tianhao waved his hand, "I hope what you said is true."

"Can you tell me who taught you the profession of Evil Spirit Alchemist?"

Nuonuo wanted to eat chicken, but after a moment's hesitation, he said:

"Old Demon."

"We have discussed this privately. Everyone's secondary professional mentor is the old demon Cang."

Lin Tianhao frowned. There were so many people, but only one mentor.

Then it would not be so easy for him to kill ten evil alchemists.

Unless... take action against these guys in front of you.

Just now, when Lin Tianhao mentioned using humans to refine pills, it was obvious that some people looked away...

However, as an adventurer, Lin Tianhao still doesn't intend to do so.

"Where is he?" Lin Tianhao asked.

"do not know."

Nuonuo wanted to eat chicken and shook his head, "After the old demon helps us change our profession, he will disappear."

"We obtained the secondary profession of Cang Lao Mo in different places in the Shanhai Empire."

Lin Tianhao was not surprised, as the identity of Cang Lao Mo, the evil spirit alchemist, was a bit sensitive.

It's normal for him to be cautious.

"As far as I know, you are only a small part of the evil spirit alchemists. The other evil spirit alchemists were also helped by the old demon to change their profession?"

"Not bad." Nuonuo nodded again.

"Not all of them, we have two groups with over 500 people, all of them are evil spirit alchemists."

"Their secondary professional mentors are all old demons."

Xuan Mingyang took a few steps forward and said softly:

"This evil spirit alchemist is so special, and it's a bit abnormal to teach so openly."

The more special and precious the hidden profession or hidden sub-profession is, the fewer there are.

What's more, this evil spirit alchemist is evil in nature, so it is reasonable for him to select a few of his disciples.

There is probably something wrong with teaching so many secondary professions at once.

"Haven't you ever thought there's a problem here?" Lin Tianhao asked.

Nuonuo wanted to eat chicken and said with a wry smile:

"Boss Xuedi, we are just ordinary adventurers. There are not many opportunities for us to turn things around."

"It's a high-level hidden secondary profession like the Evil Spirit Alchemist. If you come across one, it's considered an opportunity. Who would refuse it?"

Chapter 1956: Shimi Palace: The Old Demon!

"You stay here first, and don't spread the news that I'm looking for you, otherwise..."

That's it.

Lin Tianhao exuded a fierce aura.

"Don't worry, Boss Xue Di, we won't say anything nonsense." Nuonuo wanted to eat chicken said.

Lin Tianhao asked Xuan Mingyang to arrange someone to keep an eye on them, and then he went to find Luo Qinyun.

More than fifty evil spirit alchemists have gathered here at Luo Qinyun.

The evil spirit alchemists in the United States are similar to those in Dragon Country.

Their mentors are all old demons.

The old demon Cang has developed more than a thousand adventurers in the United States, and these are the ones that can be counted. If those that have not been counted are included, the number may be more than two thousand.

Lin Tianhao raised his eyebrows slightly, something seemed to be wrong.

A high-level hidden secondary profession, and an evil one at that, who would be willing to spread it on such a large scale?

Not long after.

Xuan Mingyang and Luo Qinyun sent some more information to Lin Tianhao.

It's not just Dragon Country and the United States, there are adventurers in some other countries who have transformed themselves into evil spirit alchemists.

The number counted by the Blue Star Alliance has exceeded eight thousand.

Lin Tianhao carefully examined the physical conditions of these evil spirit alchemists and found nothing special.

When asked about the small tripod spirit, the little tripod spirit couldn't explain it either.

But Lin Tianhao's intuition told him that there must be something fishy going on.

Even Lin Tianhao suspected that this old demon had some rules that allowed him to enhance his secondary profession by teaching it.

If you want to know the answer, you have to find the location of the old demon Cang.

"Evergreen."

Lin Tianhao called out Gu Limu Changqing and asked him to use the Xuanwu Tianjia to calculate the location of the old demon Cang.

But the result was destined to disappoint Lin Tianhao.

Xuanwu could not deduce any information from Tianjia.

Even the saints of the Heavenly Dao can calculate it, but they cannot calculate the location of the old demon Cang. The answer is about to come out.

This old demon is also a person planted in the galactic world by other super powers.

This is an unexpected gain, but it is also a big trouble.

but.

Lin Tianhao still has a way.

That is the same as the previous search for Xiu Moxu Mei Wang, by deducing the location of the latest evil spirit alchemist, the location of Cang Lao Mo can be determined.

The effect is also immediate.

Because the old demon Cang seems to be still expanding the number of evil spirit alchemists unscrupulously.

In addition, he was now in the map of mountains and seas, so in less than an hour, Lin Tianhao found the old demon Cang.

When the old demon Cang discovered that it was Lin Tianhao, his eyes narrowed slightly.

"Xuedi, what can I do for you?"

Lin Tianhao directly took out the disciple token of Fan Palace.

"We are currently recruiting talents in the Fan Palace. Would you like to join us?"

The old demon waved his hand to refuse, "I'm used to being alone and idle, and I don't want to join any forces. I can only decline your kindness, Snow Emperor."

"Then let's talk about something else. You've been spreading rumors about evil spirit alchemists, letting them use humans to make elixirs. What crime should you be held responsible for?"

The old demon shook his head repeatedly, "Xue Di, this is nonsense. When I taught them the Evil Spirit Alchemy Technique, I told them to use wild monsters to make pills, but I never told them to use humans to make pills."

Lin Tianhao remained noncommittal. "No matter what you say, I only believe what I see."

"If you have nothing else to say, by all means go."

When the words fell.

Lin Tianhao now had a carving knife in his hand.

Seeing that Lin Tianhao was so determined to take action, the old demon couldn't help but look gloomy.

"Xuedi, aren't you being too overbearing by acting this way?"

Lin Tianhao raised the carving knife in his hand and said, "If this is your last words, then you have to go on your way."

"stop!"

The old demon growled, "Xue Di, what do you want?"

Lin Tianhao tossed the disciple token of the Mortal Palace in his hand, "What do you think?"

The old demon's eyes kept changing, and he could see Lin Tianhao holding a disciple token in one hand and a carving knife in the other.

He knew that if he didn't make a decision, he would die.

"I join the Fan Palace."

For the old demon Cang, being alive is more important than anything else.

If someone else threatened him like this, he might have resisted a bit.

But Lin Tianhao is well-known, and he is not naive enough to think that Lin Tianhao will not really take action.

"Welcome to join the Fan Palace." Lin Tianhao said with a smile.

The old demon did not resist the constraints of the power of rules.

"Greetings to the Lord of the Palace."

The old demon bowed to Lin Tianhao.

Lin Tianhao waved his hand and said with a smile:

"Which faction are you from?"

The old demon Cang was slightly stunned. He thought Lin Tianhao would ask about the evil spirit alchemist.

But I never thought it would be such a problem.

"Shimi Palace."

The old demon Cang said a name that Lin Tianhao had never heard of.

"From the endless starry sky, or from the divine realm?" Lin Tianhao asked.

"The Endless Starry Sky and the Shimi Palace cultivate with living beings, which has always been frowned upon. If we were in the Divine Realm, we would have probably been destroyed."

"Then what is your purpose in coming to the Galaxy World?" Lin Tianhao asked.

"Preaching and practicing."

"I believe you have already discovered that I have taught many evil spirit alchemists."

"The human race is very special. If we cast a wide net now, we might find something unexpected."

Lin Tianhao stared at the old demon Cang for a while. His purpose was different from that of the old Eastern Taoist.

It seems that the purposes of various major forces coming to the galactic world are not necessarily the same.

"They say the more bizarre the technique, the more powerful the practitioner."

"How about you, the evil spirit alchemist?"

"good."

The old demon Cang said modestly:

"I can refine some elixirs that can improve soul power. These are of a certain grade, but they can basically only be used by mortals."

"As for the degree of improvement, it is directly proportional to the number and quality of living beings."

Lin Tianhao frowned slightly. This seemed to be similar to the elixir that Xuanxu Country was good at refining.

Perhaps for the strong ones in the divine realm or even higher levels, physique, soul, and rank are the roots of everything.

As for the higher levels, it should be things like the speed of enlightenment, merit, and luck.

However, it is still somewhat unrealistic to use elixirs to achieve special attribute improvements such as merit and luck.

"Do you know that there are other super powers that have planted people in the Galaxy World?" Lin Tianhao asked.

"do not know."

"Don't even mention other superpowers. I don't even know if there are other people in our Shimi Palace."

"There are too many people eyeing the Galaxy World pie, so those above them will act more cautiously."

"Then do you know that there are other alchemists who use living beings to make pills?"

According to the mission of the small cauldron spirit, there are at least ten evil spirit alchemists among the NPCs.

These evil spirit alchemists can't all be the same as the old demon Cang.

"There are quite a few evil spirit alchemists who use living beings to make elixirs. Even the name of evil spirit alchemist is something I stole from another evil alchemist faction."

Hear the words.

Lin Tianhao's eyes lit up, "Then do you know where these real evil spirit alchemists are?"

Chapter 1957 The 9th level of the Soul Origin Law!

"I know. There aren't many true evil spirit alchemists. They usually have one master and two or three apprentices."

The old demon was thoughtful, "They are truly evil spirit alchemists who use humans to make elixirs."

Lin Tianhao frowned, these evil alchemists really deserved to be killed.

"Evergreen."

Lin Tianhao didn't waste any words, and Gu Limu Changqing didn't ask any more questions. After being called out by Lin Tianhao, he activated the Xuanwu Suantian Armor.

These local evil alchemists had their underwear stripped off in front of Xuanwu Suantianjia.

Lin Tianhao could have used the Book of Life and Death to lock and kill them, but he didn't do that. Instead, he searched for them one by one and killed them at a targeted point.

Lin Tianhao discovered a huge benefit from killing these real evil spirit alchemists.

That is the blessing of the power of merit.

And benefiting from the skill effect of rewarding good and punishing evil, Lin Tianhao accumulated a huge amount of merit after killing these evil alchemists.

And he can give these merits to others by rewarding good and punishing evil.

Lin Tianhao dealt with the ten evil alchemists in less than twenty minutes.

The mission of the small tripod spirit was completed so easily.

But Lin Tianhao was not in a hurry to change his job to Hongmeng Alchemist, but continued to accept the task of making Hongmeng pills.

The spirit of the small tripod also helped Lin Tianhao to fix the bug.

The mission requirement is still just to hunt down the evil alchemist.

Lin Tianhao can continue to hunt down evil alchemists and store the power of merit, which is the best of both worlds.

Besides.

After killing these evil alchemists, they dropped quite a few pills.

Soul Pill: Special.

Usage requirements: None.

Effect: Permanently increases soul power by one million.

Abrasion resistance:100.

(Note: This item is a one-time consumable and disappears after use.)

Life Pill: Special.

Usage requirements: None.

Effect: After use, the maximum health value is permanently increased by 10 million.

Abrasion resistance:100.

.....

This is a relatively common elixir, and there are also elixirs that permanently improve other attributes.

The bonus of each of these pills is not very high, but the key point is that Lin Tianhao did not see the concept of drug resistance in the attribute description.

In other words.

These pills can be used repeatedly.

However, the cost of refining these pills is the human race, and their replicability is too poor.

In this regard, Lin Tianhao felt that the pills made by the alchemists of Xuanxu Country had too great an advantage.

Lin Tianhao completed the tasks of the Hongmeng Dan recipe and the Hongmeng Dan Ding at the same time.

Including the mission of the Hongmeng Alchemist, there are three in total, all of which are completed in the hunt for the evil spirit alchemist.

The harvest is not small.

But changing jobs has become a big problem.

Because of the super god-level hidden career transfer altar, he couldn't move in here.

In other words.

If Lin Tianhao wants to continue changing his job, he must leave the sealed place.

But if he leaves rashly and switches to a super god-level hidden profession, it would be no different from seeking death.

Lin Tianhao can only wait now.

As long as he has time, his soul power will become higher and higher, and the laws of the origin of the soul will also be able to continue to improve.

now.

Lin Tianhao can only use the tactic of procrastination. As for how long he can procrastinate, that all depends on fate.

time flies.

Lin Tianhao continues to explore the value of these NPCs, while looking for other super powers to place people in the galactic world.

Lin Tianhao would take away those people with high sin values that he met along the way without any mercy.

Time passed as Lin Tianhao continued to struggle like this.

In the blink of an eye, half a year has passed!!

Half a year passed in the outside world, while Lin Tianhao and the Ragnarok people had been hiding here for five years.

this time.

Lin Tianhao is busy and fulfilled.

During this period, Lin Tianhao gained a lot and made tremendous progress.

The Law of Soul Origin broke through the eighteenth level and reached the nineteenth level, which is six levels higher than the Law of Space Origin.

Lin Tianhao's all-powerful body played an indispensable role in achieving such a huge improvement.

In addition, Lin Tianhao continued to absorb the power of misfortune, and his soul power was also increasing rapidly.

And the enlightenment points provided by the heaven and earth to Lin Tianhao were smashed, which is why Lin Tianhao was able to move so fast.

and.

Because of the body of all laws, the longer the time drags on, the more beneficial it is for Lin Tianhao.

And just after Lin Tianhao's soul origin law reached the nineteenth level, the pattern of Blue Star changed.

Marshal Fatian seemed to have been sidelined, and the Alait army began to frantically slaughter the wild monsters of Blue Star. The purpose of this move was obvious.

Lin Tianhao observed the changes in the sealed area.

As the wild monsters were quickly slaughtered, Lin Tianhao could already feel the seal here loosening.

"I don't know if it's enough for me to escape." Lin Tianhao said lightly.

He had no chance to change his super god-level hidden secondary profession of Hongmeng Alchemist, so he could only find a way to run away.

just.

He wants to run away, will he have a chance?

In the words of the old Eastern Taoist, if he gave up on these people from Ragnarok, he might still have a chance to escape.

But if he took them with him, the probability of successfully escaping would be less than one in ten thousand.

This one in ten thousand chance was not because of Lin Tianhao, but because of the conflicts among the bigwigs above, which gave Lin Tianhao the opportunity.

The Alait army began to slaughter monsters day and night. At this rate, the seal here would be broken in a month at most.

At that time, these monsters will break the seal.

Lin Tianhao immediately asked Xuan Mingyang, Luo Qinyun and others to hold a Blue Star Alliance meeting, and also gathered some high-level leaders of Ragnarok.

There is only one purpose.

That is to discuss countermeasures.

What to do next?

Since there is an immortal being, Lin Tianhao is not panicking. He is confident that he can escape.

the most critical.

Or how other human races escaped.

"The Arlet Galaxy army has finally begun to move. We can't hold them back any longer. At this rate, the seal here will be broken within a month."

"I can use my 72 transformations to take you away, but if someone higher up interferes, I'm afraid we'll be discovered."

.....

Lin Tianhao simply expressed his speculations and some ideas.

After hearing Lin Tianhao's words, the chief commanders and top adventurers of various countries, and even some top figures of Ragnarok, began to discuss.

Some of them had tried to deal with the sealed monsters, and the result was naturally no surprise.

No matter how these monsters are killed, they will be resurrected within three seconds.

"Brother, I actually have always had an idea."

Just as they were whispering to each other, Lin Qingqing spoke first.

"I, along with several others like Gui Ye Wuqing, are all the reincarnations of the Azure Sky Origin Master."

"If that doesn't work, then we'll use a suicidal fighting method to force the Blue Sky Source Master to die!!"

Chapter 1958 Retreat and fight!

Lin Tianhao's expression changed, and before he could speak, Lin Qingqing continued:

"The Azure Sky Origin Master can't just sit there and watch us all die. As long as she takes action, this battle can be brought to another level."

Lin Tianhao shook his head. "Even if the Azure Sky Origin Master takes action, other superpowers will also have strong men who will fall. The final direction of the situation will be even more difficult to predict."

"Then drag it on."

The commander-in-chief of the Xiong Kingdom gritted his teeth and spoke.

"We have no better choice. With Xue Di's ability, we have to drag him away!"

"As long as we delay long enough, there will still be hope for the future."

The American commander shook his head, "Drag?"

"Let these monsters out, they won't even stand a chance!!"

Over the past few years, these guys have gained some understanding of what these monsters are like.

They all knew that if these monsters were released, no one would be able to stop them.

Resurrection in three seconds, strength above the ninth level.

The number exceeds ten trillion.

"Whether we go out to fight, stay here, or follow Xue Di's advice and use the 72 transformations to get out."

"It seems that nothing can change the outcome of these monsters breaking the seal."

Luo Qinyun looked around at everyone, "So, we only have two countermeasures!"

"First, find a new home, abandon the galaxy, avoid confronting these monsters head-on, and avoid the army of the Arlet Galaxy."

"The second one, confrontation, I personally don't agree with, because if we want to confront, it means that we not only have to fight against the army of the Alite Galaxy, but also against these unkillable monsters."

Luo Qinyun's words hit the nail on the head.

As she finished speaking, Xuan Mingyang's voice rang out again.

"We actually have another way, which is to negotiate with the Alite Galaxy and end this dispute through a small-scale fight."

The US commander-in-chief spoke slowly.

"The endless starry sky is extremely dangerous. If we set foot there lightly, even one wrong step could lead to eternal damnation."

"Unless the Snow Queen can break through the Divine Realm and then enter the Saint Realm after leaving the Galaxy World without suppressing her realm, it will be difficult for us to survive in the Endless Starry Sky."

The commander-in-chief of the Xiong Nation shook his head. "At least we cannot accept the demands made by the Alet Galaxy. That would be tantamount to us unilaterally declaring surrender."

.....

Lin Tianhao listened to their chatter without interrupting.

What Luo Qinyun said actually makes sense.

Retreat or fight!

They can only choose one of the two.

"Besides, you may think it's too simple."

"As long as we leave the Milky Way world, the saints of the Alite Galaxy, the saints of the Heavenly Dao, and even more powerful beings can take action."

"Do you think Xue Di can escape from their hands?"

"I personally recommend the fourth method, the Fire Plan!"

"Xuedi has unlimited potential. Let him take the most promising group of people from our Galaxy World away."

What Commander-in-Chief Xiong Guo said was actually what Lin Tianhao was most worried about.

If he leaves the Galaxy World, it would be equivalent to openly destroying the layout of those super powers.

Under such circumstances, how could those superpowers let them leave safely?

and so.

To leave the Galaxy World, he could only do as the commander-in-chief of the Bear Country said, and take a small number of people with him to preserve the fire of the Galaxy World.

"Actually, we have another plan."

Lin Tianhao spoke calmly.

"That means uniting the people of the Alete galaxy and suspending the battle."

"Their demands for small-scale battles are so excessive. How could they agree to suspend the fighting?"
The US commander-in-chief shook his head.

Although the other commanders did not say anything, judging from their expressions and attitudes, they all felt that this was something unlikely to happen.

"Xuedi, I know what you want to do, but I want to remind you that if you succeed in this move, it will push the Galaxy World into another abyss."

Canzhu Bu Nian Shao said earnestly.

Lin Tianhao naturally understood the meaning of "Canzhu is not young anymore".

If he could reach an agreement with the Alata Galaxy, would the super bosses above agree?

To anger those super bosses is tantamount to seeking death.

"Actually, I think we can move the battlefield to other planets in the galaxy, or even right inside Ragnarok."

"You believe that those super powers in the Alite Galaxy don't want real monsters to appear either."

Lin Tianhao frowned, this seemed to be a solution.

If the battlefield is moved and the bloodshed and sacrifice are not on Blue Star, this problem can be easily solved.

"Let's go out and talk to them."

"You stay here first. I hope the negotiations go smoothly."

Lin Tianhao did not plan to bring them with him, because he did not rule out the possibility that there were super powerful people in the Alate galaxy who were targeting him.

He is immortal and has the ability to reincarnate elsewhere, so he doesn't mind doing so.

"Great Marshal Fatian, would you like to talk?"

Lin Tianhao came to the ground and amplified his voice.

This sudden sound alarmed the army of the Alate galaxy, and they also discovered Lin Tianhao's identity.

only.

But no one dared to contact Lin Tianhao rashly.

Because they all knew how terrifying Lin Tianhao was. If he was unhappy, these ordinary troops would be cannon fodder.

"I am now in command of the Arlet army. Talk to me if you have anything to say."

A slightly muddy voice sounded.

Subsequently.

Lin Tianhao saw a tall six-eyed monster walking towards him.

He glanced at Lin Tianhao and said, "You can call me Marshal of the Divine Eyes."

Lin Tianhao frowned slightly.

His guess seemed to be correct. Marshal Fatian did not want to fight, and the change now happened because Marshal Fatian could no longer withstand the pressure.

"Talk to him? Can you make the decision?" Lin Tianhao asked.

"Of course." Marshal Divine Eye said with some pride.

Lin Tianhao smiled noncommittally, "Since you can make the decision, please ask Marshal Fatian to come out. I have something to discuss with him."

Hearing Lin Tianhao's words, Marshal Divine Eyes' expression couldn't help but darken.

"What? Don't you have the ability to get Marshal Fatian out?" Lin Tianhao asked.

Marshal Divine Eye snorted coldly, "Snow Emperor, you are nothing but a bunch of stray dogs. You have no right to negotiate."

Hearing this,

"is it?"

Lin Tianhao looked at the Marshal of Divine Eyes with some provocation.

"Aren't you afraid that I will reveal the truth to the public?"

The words fell.

All server speakers sounded instantly.

"All servers, everyone, please be warned! There are over 10 trillion immortal monsters sealed beneath the Blue Star. Continuing to kill will break the seal. Once the monsters break free, everyone will die!"

"All-server loudspeaker..."

.....

Under Lin Tianhao's control, the loudspeakers in the entire server never stopped.

Spend gold coins?

Sorry, gold coins are just a string of cold numbers to Lin Tianhao, there are too many to count!!
