

O Summoner 891

Chapter 891 – The Hidden Spring

The rainbow-colored key flew towards the middle of the Chaos Springs where there is only darkness. The rainbow crystal key then emitted its glorious light and nourished the former floating islands deprived with energy. All the floating islands returned back to their prime but the golems guarding them are absent.

Each of the floating island then started to overflow with elemental energy to the point that it is spilling. One would expect that the spilling elemental energies will drop to the void of nothingness but something magical happened. The excess elemental energies started to stretch towards the rainbow crystal key.

Each of the opposing elements should have become erratic when they clashed against one another, but they were surprisingly calm. Each of the elements should have either depowered their counterpart or strengthen their synergy element but they did not. Each element remained stable and never combined with the other element.

In the end, a chaotic mix of elemental energy started to surge in the chaotic springs. Since Adrian and the others are not in the middle of this magical event, they are not affected by it, but the view is certainly beautiful. It is an event that can only be described as beautifully chaotic.

[You have witnessed the Dance of the Chaotic Elements.]

[You have received the All Elemental Resistance Skill (Minor)]

Skill Name: All Elemental Resistance Skill (Minor)

Tier: Epic

Type: Passive Resistance

Effect: + 5% Resistance to all Elemental Attributes. (This passive skill cannot be enhanced or mastered.)

Cooldown: None

Mana Cost: None

Cast Time: None

The skill that they received from witnessing the event is a great bonus. Despite it only giving 5%, it was plenty because you just needed to watch a magical event like that to obtain the skill. What Adrian is curious is the reason why it is called the Chaos Spring at first because it was not as chaotic as he thought.

The event that happened and the changed topography before him is the clear indicator why it is called the Chaos Springs. The new terrain in front of them consisted of a weird topography where all elements are present with a calm and stable flow from each elemental attribute. It is not chaotic because of raging elements but it is chaotic because the elements are not interacting with each other.

"Let us investigate." Adrian stated as he first let Sirius and Kimat survey the new area.

The elements around the new area have a different feel because they felt solid like the bridges. When Sirius and Kimat safely traversed the new terrain, the group followed. It was a strange sensation being able to walk on all the elements with a great emphasis on the elements that are not tangible.

"This is the perfect area to evolve Kanlaon!" Adrian muttered as this was his real objective in coming to the Chaos Springs.

"We should check all the areas first, Champion Equinox." Tino suggested to which Adrian nodded.

"We should also wait an hour to see if the flow of the elemental energies is always this constant. If we suddenly get blasted with different elemental energies, then we will surely die from the amount flowing in this area." Tina suggested to which Adrian also agreed.

The group waited for an hour while Adrian told Kanlaon to feel all the elemental energies that he can. In fact, Kanlaon's flame and ice orb suddenly became enriched as it is filled with greater power than before. Adrian asked Kanlaon if the flow of the two elemental energies is stable.

"The flow is stable, Master. But...it feels weird as it is not that easy to perceive. I can feel a power like yours preventing the elements from ever coming in contact with each other." Kanlaon replied to which Adrian was shocked.

From his memory, only the Daemos have the ability to manipulate time, space and force. The Fallen should be angels from his memory and they should not have that ability unless the one who created this pocket dimension is a Daemos.

Adrian has heard from Ascalor that the Noblesse often created pocket dimensions as spaces for their solitude. In other words, they made it so that no one can bother them. Pocket dimensions are a great way of having your own space managed by the rules that you set up.

If the Chaotic Springs is indeed a pocket dimension, then the Daemos who created this should be powerful beyond compare. The way that they can separate the elemental energies present in the dimension itself is considered godlike manipulation. Adrian tried to interfere with time, space and force but he got a powerful rejection.

"Master!" Kanlaon stated as he saw that Adrian's right hand suddenly became heavily wounded.

"It is fine. The laws of time, space and force in this place is stable to the point that not anyone can mess with it. It means that the elements here will never fuse with each other. Let us start the evolution process." Adrian stated as he poured a healing potion on his right hand.

"Champion Equinox! We found something strange!" Tino shouted which made Adrian stop his plan for a few minutes.

Adrian got close to the area where Tino is and noticed that it was in the middle of the terrain. Tino then pointed at a small dip in the terrain which would not be noticed unless one is close and really tried hard to survey it. When Adrian went close to the area, two different notifications suddenly popped up.

[Qualification to enter the hidden area has been detected.]

[Do you want to enter the Hidden Spring?]

Adrian stood in place for a few seconds to contemplate what he received. Tina then called him out when they noticed that he was spacing out.

"Sorry about that. I suddenly heard a voice in my head asking if I want to enter the Hidden Spring. Did you two received the same question?" Adrian asked as this was the way to ask an NPC if they received a notification.

"No. I did not receive anything like that." Tina replied.

"I also did not receive anything through telepathy.." Tino replied.

Chapter 892 – The Fallen I

"Why did one I get the telepathic message?" Adrian muttered.

"If there is anything that differentiates us from you then it should be that you possess the Map of the Fallen." Tina raised a valid argument to which Adrian also agreed.

The notification did tell him that he met the qualification and that should be a correct assumption that the Map of the Fallen is the key. Although that would mean that Adrian will need to go inside alone without the help of others.

"I cannot leave them here while I enter the Hidden Spring. If something happens to them while I am inside, then that would be on me." Adrian muttered to himself.

"What would be our next move, Champion Equinox?" Tino asked.

"Our next move would be for both of you to return as I cannot be sure what might happen to both of you if I am not present. Let us move to that area so I can create the gate." Adrian replied.

The twin giants wanted to retort but they knew that Adrian was looking out for them always. They were lucky this time that the opponent was a golem with only limited instructions. If they were to battle an opponent with great intelligence, then both of them knew that they would get hurt or die as a result.

"I am just sending you there because both of you need to report our findings. You can always activate the gate again to enter." Adrian stated to make sure that they do not feel bad about themselves but the two gave a wry smile.

"About that...we were actually told that the gate cannot be used again for another ten days upon use. It needs to charge up natural energy from the sun again to function. It is also one of the reasons why only few survive but this was the first time we read about fighting golems." Tino stated to which Adrian asked more details.

Adrian learned that the gate does not necessarily send them to the Chaos Springs all the time. It can also send the others to another dimension that also bears the name Chaos Springs. All the logs that they have about the Chaos Springs did not talk about fighting golems.

"If that is the case then this chaotic pocket dimension must be connected to other pocket dimensions. They have the same name because the creator probably got lazy in naming them or they named it that way to deter those that do not have the Map of the Fallen." Adrian mumbled.

Adrian then activated Dimensional Teleportation when they were back at the floating island. He could not create the gate in that chaotic terrain as it would fail.

"Tell my companions to enter the gate when you go to the other side. I bet they are also waiting to go from the other side. I can only maintain this gate for ten minutes." Adrian stated as the two passed through the gate.

About five minutes later, Solstice and Lycan entered the portal with a tired expression. Adrian asked them about why they look like that and learned that angels attacked the Kingdom of Magnasupra. The giants were not that keen on healing magic which is why they had to naturally heal themselves. For some reason, their potions could not work on them as they received a debuff from the attack of the angels.

"At the very least, both of you survived and could still come to this place. I am going to investigate the Hidden Spring located in the location over there. The other giants will come back after four days since that will be the time for them to open the portal once more. The portal can only be opened every ten days." Adrian stated.

"Four days? It has been three days when you entered the portal. The angels came the second day and our battle with them lasted until the third day. Has six days pass by here?" Solstice asked.

"If that is the case then this pocket dimension has accelerated time which is twice the time on the main world. It further intensifies the theory that it was a demon that created this pocket dimension." Adrian muttered.

"Anyways, what do you need us to do? You cannot open the portal again?" Lycan asked.

"Having it open costs a lot of mana. I can activate it once more, but the cooldown is still one day. I will invite you guys into my party so that we can get inside the Hidden Spring. At least, I hope that is the case because I cannot bring the twin giants earlier." Adrian stated as he invited the two in a party.

Adrian led Lycan and Solstice to the center of the chaotic area filled with different elements. The two could be seen in awe as the beautiful display of the elements surrounded them. The two could not believe that the elements are also tangible enough for them to step on which is why they jumped and stomped to test its durability.

[Qualification to enter the hidden area has been detected.]

[The entrance to the Hidden Spring has been discovered. Do you want to enter with your party?]

"Yes." Adrian replied.

The moment Adrian answered, all the elements that were moving suddenly stopped. The flow of the elements then surrounded the group and formed a sphere. The next thing that they could recognize is the loss of gravity as they are sure that they are falling down.

The sphere that covered them is made of all the six elements. When they could feel that they have stopped free falling, the elemental sphere made of various elements popped like a bubble. The next view that the group can see is a great and beautiful pasture with a light blue sky.

The beautiful pasture is not the only thing in their sights as two humongous beings that could be said to be monsters are looking at them. These two giant creatures are looking at them with their numerous eyes.

[You are in the presence of The Fallen.]

Chapter 893 – The Fallen II

The beautiful pasture is not the only thing in their sights as two humongous beings that could be said to be monsters are looking at them. These two giant creatures are looking at them with their numerous eyes.

[You are in the presence of The Fallen.]

The two creatures before them are none other than the Fallen. The first angels ever created by the Goddess of Light from the fragments of dead gods. Suffice to say, the two Fallen are vastly different from the angels that are living in the main world.

"To think that we have visitors that is a demon. It seems that the world is not yet overrun by the angels and the seal on the gates of the Silver City hold strong." One of the Fallen stated but they could not see its mouth because it had no mouth.

The Fallen that spoke to them or rather told them telepathically is an amalgamation of three golden rings rotating. Not only did it have three rings rotating as a body, but it also had eyes on the three rings that can move independently. The Fallen also had six pairs of wings that had a length of three meters each.

It also has an aura that made it look like it was continuously burning but it is not hurt by these flames. Inside the three rotating rings is a black infant like figure that is burning in black fire. The three pairs of wings that it has is platinum in color compared to the pure white color that the angels have today.

"It seems that they are speechless. We do look big in our current forms but even that demon is hiding his true form because the world cannot handle his true form." Another Fallen stated.

The Fallen that spoke had four heads that would speak in unison. The voices that it possesses have different tones that are distinct for each its head. It stood a good four meters tall compared to the other fallen that is about six meters tall.

The heads that this Fallen has are that of an androgynous man, a bull, a male lion, and an eagle. It has six pairs of wings that are of different colors per pair. The first pair of wings it has covered its lower body part and is of a gray color. The second pair of wings is the largest with a golden color and is used for it to be able to take flight. The third pair of wings are silver in color and slightly smaller than the largest pair. It seems to be used as a way to keep gliding.

"Greetings, travelers. You are incredibly lucky to enter the Hidden Springs, but I ask that you turn back now. Only our kind are welcome here as it is the only place where we can release our true forms." The Fallen that looked like three golden rings stated.

"You do not need to immediately chase them out. All three of them has Asmodian blood running in their veins but the demon in their group is certainly the one with the highest purity." The Fallen with four different heads stated.

"May I ask why did you trespass in our domain? If your answer is not up to our satisfaction, then we will meet you with incredible force." The Fallen with the appearance of three rings stated with a dark and rumbling voice as if it is the judge of the heavens.

"We only came here because I possess the Map of the Fallen and I wanted to complete it. The moment I entered this place, I already completed the map. If we are disturbing the both of you then

we will just be on our way." Adrian replied as he wanted to escape as his senses were telling him that they were vastly outclassed.

Adrian could not even read their descriptions as all the information on them were question marks. The only thing available for him are the levels of the monsters before them. The level of the two Fallen are four hundred. They were twice the level of Adrian and the others. Adrian even sent the screenshot of their levels to their party chat which made Lycan and Solstice absolutely speechless.

The two Fallen only needed to sneeze and all three of them will probably die. The two Fallen are particularly interested on Adrian as they told him that his true form is sealed because the world cannot handle it. In fact, what the two Fallen said is true because Nether energy is very destructive to the world.

"Little demon, is that the only reason?" The Fallen with the appearance of three golden rings asked once more.

"That is true as I was informed that I can return here once I completed the Map of the Fallen. I even defeated five golems just to reach this point. It was not easy, but I managed to defeat all of them and combine all the crystals to create a rainbow crystal key. We are investigating this chaotic pocket dimension for the giants that can create the gate to here." Adrian answered with absolute honesty.

All of the eyes that are present in the Fallen with the appearance of three golden rings stared at Adrian with intent. Adrian can feel that he was being read like a book as if his soul was laid bare. It was like the feeling of someone looking at you while you are naked.

"You speak the truth, but do you want to know the truth?" The Fallen with the appearance of three golden rings stated.

"I thought it was only devils that cannot lie but it seems that even demons are very honest to this day." The Fallen with four heads stated with great enthusiasm as all four heads had a jovial expression.

"By truth, do you mean why a pocket dimension contains another pocket dimension?" Adrian asked as he could feel that the Hidden Springs is a different dimension, but it was still part of the Chaos Springs.. This can only be done by someone godlike.

Chapter 894 – The Fallen III

"It seems that you have very sharp senses when it comes to dimensions despite being a budding demon." The Fallen with four different heads stated.

"He is also not like any demon before the prime age which means he is special. I can feel both the energies of life and death from him." The Fallen with the appearance of three golden rings stated.

"It seems that introductions are in order. I am a member of the Daemos, Equinox. The woman to my right is a vampire and her name is Solstice. The man on my left is a werewolf and his name is Lycan." Adrian stated as he wanted to know the names of the two Fallen in front of them.

Adrian did not want to awkwardly call them Fallen Number One and Fallen Number Two. He might even call them Three golden rings and Four beast heads if he does not learn of their name.

"I am called Rikbiel." The Fallen with four different heads stated.

"I am called Pahaliah." The Fallen that has three golden rings as a body stated.

"You should have let us introduce ourselves." Solstice stated.

"Yeah. I want to talk to the giant angels as well." Lycan added to which the two Fallen laughed.

Thankfully, the two Fallen did not find offense from being called angels but instead laughed with the interaction of Adrian's group. The group also laughed a bit as it would be awkward if they did not laugh as well.

"From the way you phrased the sentence earlier, it seems that you can get out of this pocket dimension. Why are you not leaving if you can leave?" Adrian asked as he wanted to know the reason why they are staying first compared to how they got here.

"If you wish to learn that then listen to the truth. On why we are called the Fallen and why we rebelled." Rikbiel stated with only his human head.

"Let us start from the time of our creation. Let me ask on what you know about our creation?" Pahaliah stated.

"From what was told and on records, the Fallen are the first angels created by the Goddess of Light, but you were discarded as she did not find all of you beautiful or perfect." Adrian answered.

"You are correct, but we were not discarded because we were not perfect or beautiful. We were discarded because the Goddess of Light feared our power in controlling the light element. She got threatened for our great mastery on light elemental energy and blamed us for being lacking.

She was jealous of the Goddess of Life for creating Asmodians as she was only human as when she was born. She was a high priestess of the King of Twilight, but she was envious of the Asmodians that were the perfect beings. The first wave of attacks from the dark gods made lots of gods fall. The first ones to fall were the great gods that controlled light and darkness.

When she ascended to godhood, her first wish was to create beings more perfect than Asmodians. Beings that will represent light itself, but she was not a goddess of life. It seems that she learned of a rumor that the Asmodians were born from fragments of a god. With this information in mind, she gathered the fallen parts of the Gods of Light or divine beings that have great authority over light.

We, the Fallen, were her first attempt at creation to which a goddess of light should not have jurisdiction over. Since we were made from parts of fallen Gods of Light or divine beings that have great authority over light, we had varying appearances. She also only created fifty of us as she stopped when she could not create the perfect form that she envisioned.

In the end, the goddess of light had to beg one of the goddesses of life to aid her in creating the perfect being in her mind. In just one attempt, she created them, and that race is what you know now as Angels. The war with the dark gods finally intensified and we were used as cannon fodder by that pathetic goddess as she did not want her true children to die.

She also held back the angels on an all-out assault as she wanted the Asmodians to perish. Even if she used parts of gods and divine beings, she could not create the angels on par with the Asmodians. If she could not create the perfect beings, then she will kill off the perfect beings.

The goddess of light might have been our creator, but we are our own beings. We fought as hard as we can back then as we wanted the recognition of our creator back then. It was all for naught as many of us fell and only ten of us remained in the end. Although, it was also during the war that the goddess of light knew of our capabilities.

Since we are made of parts of divinity, our powers grew to almost match that of the Asmodians. Light became our domain to the point that the ten of us that were left are feared whenever light is present. This made the Goddess of Light jealous as she thought that we would replace her when the time comes that we obtain divinity.

She was supposed to give us support when the territory we were defending got attacked but not even one angel came. We were left to die so we made a choice that will save the only ten remaining members of our race. We fled the battle and the territory we were guarding got polluted by the dark gods.

We knew that we will be condemned from fleeing but we still did. Some of us even got tired of fighting and wanted to enjoy a human life. Some returned to fight for another day which the other gods took pity on us and did not blame us for being unable to protect the territory.

A few years fighting the dark gods, the surprise of nature sprung up on the world. A Fallen that transformed into a human managed to procreate to which we had no idea we were able to do. He had three children that had the look of a human when born but their real forms were like us.

Only other Fallen could detect them but they were raised as human children. The first Nephilim was soon born from the union of human looking Fallen and an Asmodian. The next generation of Nephilim are soon born and became another ray of hope for all living creatures.

But there was one goddess not happy with this development, she claimed that she must order the Nephilim as they were children born from her creations. In the end, she almost drove them to extinction. If not for the Nephilim that had the blood of an Asmodian that had mastery over time and space, the Nephilim would have perished in the war.

The war ended but it was not the end for our persecution. The goddess of light commanded the angels left in the mortal plane to kill our kind and the Nephilim. She knew that the other gods will be unable to do anything because they already receded to their divine realms and some gods needed to sleep for a long time.

When the Fallen and the Nephilim are almost wiped out, the strongest of the Nephilim and protector of the slab made a bold sacrifice. With her great power over the elements and even the arcane, she made sure to seal the Gates of the Silver City. She made sure that the angels can no longer go to the main world or return to their beloved city that was crafted by the Goddess of Light herself.

Just like the Goddess of Light wanted, she created the perfect being, but she was not directly part of her creation. She wanted to kill the being that she wanted to create just because she did not personally create it herself. With her remaining strength, she created a string of pocket dimension that we could hide from persecution as there were still powerful angels that were not sealed in the Silver City." Pahaliah narrated.

Solstice could be seen releasing a tear or two while Lycan is full on crying as he was an emotional person when it comes to stories about families. Adrian could also be seen as having watery eyes, but it was halted because he heard of a word that he never thought that he will hear again.

"This slab that the first Nephilim carried, did it have the carving of a tree?" Adrian asked as he also has one piece of this slab as he received it when he became the inheritor of his current job class.

"Yes. The First Nephilim liked the Asmodians more than the angels which is why she had a high position in their community.. She was one of the three that was tasked to escape with the slab that separated the barrier of the mortal and the divine realm.

Chapter 895 – The First Nephilim

"Yes. The First Nephilim liked the Asmodians more than the angels which is why she had a high position in their community. She was one of the three that was tasked to escape with the slab that separated the barrier of the mortal and the divine realm.

She also suffered heavy wounds from pursuers from the followers of the dark gods. In the end, she fell into a deep slumber, and we are the ones who protect her. Her care takers had already passed onto the afterlife, but the God of Death Abaddon assured us that the two Nephilim sisters will find a soul worthy to carry the mark to wake her up." Rikbiel stated.

"Can I see her?" Adrian asked but he was suddenly aimed with vast killing intent that Sirius, Kimat and Kanlaon flew out of his body.

Adrian's soulbounds knew that their master was being targeted. This was a hidden function only available to summoners with deep affection towards their soulbound. The two Fallen were shocked when they found out that Adrian was a summoner as they only knew one Asmodian summoner back then.

He was strange even amongst the Asmodians that do not tie themselves to others when it comes to power. The Asmodian that created the summoning magic system as he felt that he was lonely. The very first summoner who was only known as the Alpha Summoner.

"Are you the inheritor of the Alpha Summoner?" Pahaliah asked as the two's bloodlust suddenly dissipated upon witnessing the power that the soulbounds released. The energy they released was similar to the power of the Asmodian summoner.

"Alpha Summoner? I am the inheritor of the Omega Summoner. That is what his soul has told me at least. He just buzzed me this job class after I said yes. Let me tell you, the headache was not a pleasant experience." Adrian replied with a slight joke to lighten the mood.

"Omega Summoner...I see. No wonder. That should be the case." Pahaliah muttered as he looked at Adrian then looked at Rikbiel as if he got a realization.

"Why are you interested in the slab? Even if you are an inheritor of a great being of the past, you will be eliminated if your answer is not correct." Rikbiel stated but he did not release bloodlust.

"Little Brother, answer the four headed creep and the three floating rings already." Solstice whispered.

"I am asking because I have one of the pieces, but I cannot see its function or description even with my evil eyes." Adrian stated as he took out a slab that is in the shape of an imperfect triangle.

The slab that Adrian owns has the carvings of the roots of the Tree of Life and Death. He already asked the Tree of Life and Death about it and was told that the carvings are its own image. Adrian could even feel that the Tree of Life and Death was a bit haughty and embarrassed when it praised itself as the model for the key that separated the realms.

"He has earned the right to know." Pahaliah stated as he looked at Rikbiel.

"He has. To think that a heavy burden has been passed down to you as well. You must protect that slab with all your life. If the followers of the dark gods know that you have that then you will be hunted down to the ends of the world. You must never bring it out from your personal space unless you are in a place where energy does not leak out." Rikbiel stated with a sigh.

"So...does anyone want to take the slab from me?" Adrian turned and asked Solstice and Lycan.

The two just moved a bit away and did not look Adrian on the eye. Adrian turned towards the two Fallen but they also looked away with all their might despite having multiple eyes. Adrian could only think that this burden has been placed on him, but it is not like he will take out the slab from his inventory.

"Do not tell me that you are going to force me to take the slab from the first Nephilim?" Adrian suddenly muttered as he felt a bigger headache coming his way.

"No! We would never dare. Rather, we cannot give it to you because of a special circumstance." Pahaliah stated.

"Let us show you." Rikbiel stated as the two Fallen suddenly emitted a bright light.

The light filled the surroundings and blinded Adrian, Solstice and Lycan. They closed their eyes due to the harsh light. When they opened their eyes, they can only gasp at the sight before them. Seven individuals were currently trapped in a weird plant.

The weird plant has a bulb made of light the other parts are vines. Connected to this weird plant in the middle is a beautiful woman that had the wings of an angel and demon. She was the First Nephilim that Pahaliah and Rikbiel were talking about. Adrian could feel his blood jump as he knew that this woman indeed has Asmodian, and demon blood like him.

"You are telling that they hid everything from sight just using light." Solstice muttered as this application of light magic is masterful to the point of being godlike.

"Why are the others connected to her?" Lycan asked.

"She is very wounded, and we are using the Lumen Miraculus Plant to share her pain. Only six of us can take turns but she is not waking up nor getting healed fully. We are barely keeping her alive. Even temporal magic cannot reverse the effects of her state. We also tried a relic back then, but it was not effective since it was one of the most power dark gods that inflicted her with her wounds." Pahaliah stated in a sad tone.

"What is her name?" Adrian asked.

"Her name? She is none other than the First Nephilim, Lilith. She has angel blood and Asmodian demon blood in her veins which is why she could master both elemental and arcane magic to perfection.. It did come at the cost of her own health and life."

Chapter 896 – Kanlaon’s Second Evolution I

"Her name? She is none other than the First Nephilim, Lilith. She has angel blood and Asmodian demon blood in her veins which is why she could master both elemental and arcane magic to perfection. It did come at the cost of her own health and life."

Adrian looked at her with eyes full of wonder and could see that she had a teenage form. He knew that Lilith should be thousands of years old, but she retained a fairly young form like most

Asmodians above the age of one hundred. He also saw that she is hugging the slab and was sealed in that position.

The only way for Adrian to get the slab is to unseal her but that is almost close to impossible. The Fallen were talking about a mark but that will be like finding a needle in a haystack. It also seems that only one individual with the mark is available. He also does not know if anyone reincarnated with the said mark already.

"She is sealed with the slab. Thank goodness. That is one headache averted." Adrian stated while wiping his forehead. The others looked at him with weird gazes as they are not sure if someone like him should be protecting something that important.

"As you can see, she is in a state that cannot wake up. We need to find the successor of the mark. We already sent one of our own to search for it, but they needed to take on a human's appearance to blend in. It also meant they sealed their appearance like you." Rikbiel stated.

"Which is why, we came with a decision. Please help us search for the successor of the soul of a Nephilim." Pahaliah stated as a quest notification appeared before the three of them.

QUEST NOTIFICATION

Quest Name: Find the Nephilim Reincarnate

Difficulty: E to SSS

Description: The Fallen believe that a Nephilim has been reincarnated as promised by the God of Death. Find the living being that has the soul of a Nephilim. It is said that this Nephilim will lead the others back to glory and save the First Nephilim from her seal.

Quest Complete Condition: Find the Nephilim Reincarnate (0/1)

Reward: Unknown

Failure Condition: None

Failure Punishment: None

Time Limit: None

"Please find the successor to her powers." Rikbiel stated as he bowed with his large body.

"I will gladly accept but any clues on how I can find the reincarnate?" Adrian asked.

Adrian asked but he was met with silence. He looked at Rikbiel but all four of his heads turned away. He looked at Pahaliah, but all of his eyes started to wander around. They basically gave him a wild goose chase mission that may or may not be completed. It might also be completed by the other Fallen if they find the reincarnate first.

"If the reincarnate shares the soul of a Nephilim, then I might find him or her easily. A Nephilim has a unique soul of two colors." Adrian stated but the two Fallen still did not look at him straight.

"Do not tell me even his or her soul is sealed until he or she awakens?!" Adrian shouted in frustration.

When Adrian said his piece, the two Fallen created small fireworks from coming to the correct conclusion. It might look comedic, but it was greatly aggravating to Adrian who wanted to complete the quest. The search for the successor is basically close to impossible. It is not like the reincarnate will show up on his doorstep and introduce themselves as the one that he is looking for.

"We are sorry for the inconvenience but all we know is that the successor must awaken his soul. We do not know how or when that happens, but he will surely release a great energy wave of light elemental energy. He may also release a great energy wave of the darkness element." Pahaliah stated.

"Why darkness energy? The light energy I get but if the reincarnate is the one that succeeds Lilith, then they should have arcane energy instead." Adrian asked.

"The reincarnate does not necessarily have her power as her power took a great toll on her body. The reincarnate has the power of light and darkness as prophesized." Rikbiel followed up but Adrian knew that they were hiding something.

"Fine. I will come rushing towards the reincarnate when he or she awakens. I will also make sure that the Daemos are aware of a sudden explosion of light and darkness energy." Adrian stated.

"We are eternally grateful to you, Equinox." Both Rikbiel and Pahaliah stated as they expressed their deep gratitude.

=====

Adrian, Solstice and Lycan came out of the Hidden Spring with the help of the two Fallen. They constructed a sphere made of light that made them shot up to the entrance. When they returned back to the Chaos Springs, he immediately summoned Kanlaon.

"It is now time to evolve you my great dragon." Adrian stated as he patted Kanlaon's head.

Adrian took out the items that he needed for the evolution that he is predicting that should happen. He first fed Kanlaon the Wind Dragon Core that he received from the Ryujin. A significant change happened when Kanlaon ingested the dragon core.

The wind element around them became enthralled and gathered around Kanlaon. It was not only that as the fire, water and earth elements also became erratic and gathered around Kanlaon. Adrian could see two more elemental orbs manifesting around Kanlaon.

"There is still no evolution description. I need to move to the next phase since this is not enough." Adrian muttered as he took out two more items.

Adrian took out an orb that is emitting light and another orb that is swallowing light. These two orbs are the Light Dragon Core and the Darkness Dragon core that Adrian received for his participation in the Pandelympics.

Adrian made Kanlaon swallow the two dragon cores immediately. The light and darkness elements that did not get enthralled by Kanlaon suddenly flooded towards him.. Adrian could feel that the elemental energies are overwhelming Kanlaon.

Chapter 897 – Kanlaon's Second Evolution II

Kanlaon swallowed the light dragon core and the darkness dragon core with all his might. The calm light and darkness energy that did not gather towards him suddenly started to surge. The dragon ball that finished manifesting is the Earth Dragon ball that had the color of vibrant green.

The next dragon ball that manifested after the Earth Dragon ball is the Wind Dragon ball. It had a clear gray color with streaks of wind swirling inside of it. The wind elemental energy finally settled in Kanlaon's body when the Wind Dragon Ball manifested.

The next would be the most difficult as Kanlaon needed to manifest the Light Dragon Ball and the Darkness Dragon Ball. The four basic elements were easy because it only needs hard work and little talent to gain mastery over them. The light and darkness element are different as talent is a big deciding factor in order to use it.

There is a reason why the angels are very prideful of their race because they have a body that can perfectly control the light element. Kanlaon is different from others as he is a dragon that has talent to devour other dragons which is a threat to dragon kind. Adrian knew that the ancient dragons are not bothering him because they expect him to come to the festival of the Dragon King.

"The Festival of the Dragon King is only a few months away. I need to strengthen myself in order to make sure that Kanlaon does not get killed." Adrian thought as he knew that not all soulbounds are immortal despite bound to a player.

If a being with high persona were to attack Kanlaon then there is a chance that they could destroy his soul. This is the reason why Adrian needs to strengthen Kanlaon's soul, and he is risking everything for it. The dragons will take kindly to a demon having ownership of a dragon.

The dragons are not moving because they are weakened. Adrian read that the Festival of the Dragon King will nourish the dragon's energy which is why he knew that going there would be a trap. He needed to make sure that Kanlaon will never need to step foot in the territory of the dragons.

When Adrian was staying at the place of the Ryujin's, he came across a legend about a peculiar dragon that is said to be made of all the elements. It controlled fire, water, wind, earth, light and darkness to a masterful degree. This was only a story, but Adrian knew that nothing are just stories in Pandemonium.

"If no dragon is alive that is made up of the six elements, then I will just make one." Adrian stated as he started pouring all his mana towards Kanlaon.

The start of the mana sharing of the evolution phase has begun and Adrian is being wrung dry. He knew this would happen, but he did not think that Kanlaon would be taking too much from him at a quick rate.

"Sorry about this sis and brother-in-law. Charon!" Adrian muttered.

"Sorry about what?" Solstice asked.

"Broth...brother-in-law! Uehehe." Lycan chuckled.

Charon appeared from Adrian's body and attached the chains to Solstice and Lycan. Charon suddenly absorbed the mana from both of them and transferred it towards Adrian. The two could feel their bodies becoming weak from the mana leaving their bodies.

Adrian now had more mana to use to aid Kanlaon. He could see the Light Dragon ball and the Darkness Dragon ball manifesting before them. It was small but the two are starting to propagate into Kanlaon's body. He is now beginning to integrate the light and darkness element.

The Light Dragon ball and the Darkness Dragon ball started to become larger and larger but all of them are about to run out of mana. Adrian had no choice but to use his Primordial energy to compensate for the lack of mana. Adrian did not know that Primordial Energy was very potent that the Light Dragon ball and the Darkness Dragon ball finally formed.

Adrian stopped Charon from sucking mana from Lycan and Solstice when he saw that Kanlaon has perfectly manifested all six elemental dragon balls. He thought that everything is fine, but Adrian suddenly felt something trying to explode from the depths of his soul.

Kanlaon, who seemed fine a moment before, suddenly started to leak the six kinds of elemental energy. The elemental energy that he started to leak became stronger and stronger to the point that he is now in agonizing pain. Adrian could also feel that Kanlaon's soul is starting to get damaged from the strain of housing all elemental attributes.

Adrian then took up the last item that he needs. This item was something that the Tree of Life and Death told him about if he wanted to attempt evolving Kanlaon in the way he described it. An item that is said to be powerful enough to rejuvenate a dying person.

Adrian took out the Gaia's Bead from his inventory. It is a crystal in the shape of a tear drop with a deep blue color. It also had a green hue inside of it that has immense life energy. Adrian thought that he would not need to use it as the Tree of Life and Death told him that he might not need to use it if he was lucky enough.

"Alas, I guess I am not lucky enough to not use it on myself. I just need to find another source of life energy that is in the mythical tier." Adrian stated as he hurriedly pushed Gaia's Bead towards Kanlaon's reverse scale.

The moment Adrian pushed Gaia's Bead inside of Kanlaon's reverse scale, the leaking elemental energies started to stabilize. Not only did it stabilize, but all the elemental energy also that leaked and even those around it started to get sucked inside Kanlaon's body.

[The soulbound, Kanlaon, has completed the requirements for evolution?]

[Would you like your soulbound, Kanlaon, to evolve into the Genesis Dragon?]

"Genesis Dragon? It seems that is the name of the evolution that I unlocked. Yes!" Adrian answered.

As soon as Adrian agreed, all the elemental energy in the Chaos Spring started to accumulate towards Kanlaon. Adrian thought that he was just seeing things, but he noticed that the elemental balance in the Chaos Spring faltered a little.

"I might be seeing things as an effect of mana deficiency." Adrian thought as he could see that Kanlaon is wolfing down the elemental energies around him.

About an hour later, Kanlaon no longer absorbed elemental energies in his body. Adrian could also feel that Kanlaon is feeling great to the point that his soul is incredibly nourished. Kanlaon looked at Adrian when he finished wolfing down on the elemental energies as he could now see that six dragon balls are floating around him.

[Your soulbound, Kanlaon, will now experience regression in order to be reborn.]

Kanlaon who was thirty meters long started to shrink at a visible rate. Adrian did not know what was happening and started to panic but he calmed down when he read the notification. He did not know what this regression meant but it seems that Kanlaon needs to do it in order to become the Genesis Dragon.

Adrian thought that it might just be Kanlaon returning to being a young dragon, but Adrian is stunned upon seeing a golden egg in front of him. A golden egg that is about two feet tall with six three-inch dragon balls floating around it could be seen. When they thought it was over, a huge wave of elemental energy swept towards them.

Adrian, Solstice and Lycan were sent flying because of the wave of strong elemental energy. Adrian immediately rushed towards Kanlaon who has now transformed into a golden egg. Fortunately, the soul bond is still present, and Adrian could feel that Kanlaon is resting.

"Did Kanlaon turn back into an egg?" Solstice asked as she could not believe it.

She could not believe that a living being transformed back into its birth stage. It is like seeing a chicken transform back to an egg. Lycan also wondered as he did not think that a large dragon would become an egg that has a height of two feet.

"Is it appropriate to ask the question, what happened first? The chicken or the egg?" Lycan stated as he found the situation a big mystery.

"It seems that Kanlaon needed to be reborn in order to evolve. This should be what the old man Pann was mumbling about strong monsters undergoing some sort of rebirth in order to be born stronger. I just did not think that it would happen to Kanlaon." Adrian stated as he finally rearranged his thoughts.

"If that is the case then that is great! Kanlaon will become a stronger being from the way you are describing it." Solstice stated.

"He does but it seems that I need to stay here for a while. Kanlaon is still absorbing elemental energy in order to hatch. When the giants come here, you can return. I will just use a gate to escape when Kanlaon hatches." Adrian stated as he could clearly see the hatching time.

[Current Hatch Time: 10 days]

Chapter 898 – Hatching Kanlaon Again

[Current Hatch Time: 10 days]

Adrian needed to wait for 10 days just to hatch Kanlaon safely. He does not know if it will exactly happen at ten days' time, but he will not leave this pocket dimension for ten days. Who knows what anomaly might happen if he leaves for just one second?

Interestingly enough, the Fallen have told him that the Chaos Springs will revert back to its original state after a hundred days. Adrian wanted to eagerly learn the time magic that can revert a place to its original state but the Fallen told them that it was only possible because of the unique state of the Chaos Springs.

The Fallen told him that each floating island is made up of an elemental core. Each of these islands are indeed made up of elemental cores that fill up the whole place with their energies. The energies

that Kanlaon is absorbing is coming from these elemental stones that are the sizes of the large islands.

"It seems that elemental magic is easily raised in this place. My darkness magic is steadily being raised to a frightening degree." Solstice stated.

"I agree. Even werewolves like me that is not focused on magic is steadily increasing the mastery." Lycan added.

"It is great that you can do that. While here I am just creating talismans that I barely even use." Adrian stated as he cannot increase his mastery over arcane magic in the Chaos Springs.

"You sell them like hotcakes anyways. You must return to your territory the moment Kanlaon hatches. We need to make sure that you invest all that money wisely. The others are already taking the materials needed to construct the things that you need in the territory." Solstice stated as she eagerly wanted to visit the territory.

"I know. I am just waiting for everyone to gather so that I can create the guild." Adrian stated.

After a few more days, the giants followed after and joined the three. Solstice and Lycan returned back to the main world. They also started to search for clues regarding the Nephilim Reincarnate. They did not know if this was an NPC or a player. But Adrian strongly believed that it was a player because it involved a promise from the God of Death.

The giants explored the Chaos Springs as well but returned when they knew the circumstances. Only the giants that do research are left. It seems that they will return with Adrian when he activates the portal. Adrian is entirely focused on the egg hatching which is why time flew fast.

Fortunately, Adrian could summon his soulbounds when he logs out and leave them to guard Kanlaon's egg. This was only possible because the current Chaos Springs is considered as a safe zone. Adrian logged back in on the tenth day just to be sure that he witnesses Kanlaon's rebirth.

[Current Hatch Time: 1 minute]

Adrian waited for the countdown to drop to zero. As soon as the countdown became zero, Kanlaon's egg suddenly started to crack. The scaly golden egg started to shake and even the small dragon balls around it started to spin.

The egg started to fully crack, and a cute dragon head poked. A golden dragon head came out of the egg with eyes that twinkled in six different colors. Kanlaon has been reborn into the existence known as the Genesis Dragon. But Adrian could feel that the new appearance of his dragon looked like a baby triceratops.

Kanlaon looked like his baby form back then, but his golden scales are a bit lack luster. His scales might be gold in color, but it did not shine like gold. The six dragon balls also swirled around him playfully and he was really cute since even his mind regressed back to a child.

Adrian picked him up, but he could feel the definite weight that Kanlaon possesses. He checked every inch of Kanlaon's body to make sure that he is fine. When nothing out of the ordinary could be seen, he decided to see the description of the Genesis Dragon.

Name: Kanlaon

Monster Race: Dragon

Species: Genesis Dragon

Level: 1

Health: 100%

Mana: 100%

Stamina: 100%

Description: It is said to be the ancestor of all the elemental dragons. It is said to be one of the first dragons created by the Mother of All Dragons, Tiamat. It has perfect mastery of all elements as it is said that it comprises of the elements itself.

Also considered as dragon royalty, it will be revered by all dragon species. Low Ranked Dragon Species are afraid of even raising their head around it. It also has great authority when it comes to Elemental Dragons. Even the Dragon Kings are said to treat any Genesis Dragon with great respect.

[Kanlaon has gained the skill Genesis Dragon Breath.]

[Kanlaon has gained the skill All Elemental Resistance.]

[Kanlaon has gained the skill Genesis Dragon's Reverse Scale.]

[Kanlaon has gained the skill Genesis Dragon Scale.]

[Kanlaon has gained the skill Master of All Elements.]

"Why did you revert back to level 1!?" Adrian stated as he hugged Kanlaon while crying tears of pain.

Adrian could not believe that Kanlaon reverted back to level one and wanted to report it to the developers. It was really difficult trying to raise him to level 200, but he reverted back to level one. Adrian could not power level Kanlaon as well since you must be at least 50 levels near the monsters in a dungeon. Even with Adrian's Asmodian's Prestige, he cannot raise Kanlaon back to level 200 in a month. Seeing that Adrian is despairing, the cute Kanlaon rubbed his face towards Adrian to cheer him up.

"Let us look at your abilities at least." Adrian muttered as he looked at the skills that Kanlaon possesses.

Skill: Genesis Dragon Breath

Tier: Legendary (Can be evolved)

Type: Active Skill

Effect:

-Deal 150% of the Genesis Dragon and the summoner's total magic damage per second in the area around them.

-The end of the Genesis Dragon Breath will have a cone shape area of effect splash that will deal 75% of the Genesis Dragon's magic damage.

-15% chance to inflict burn on the enemies affected by the Genesis Dragon Breath

-15% chance to inflict frost on the enemies affected by the Genesis Dragon Breath

-15% chance to inflict petrification on the enemies affected by the Genesis Dragon Breath

-15% chance to inflict a one second stun on the enemies affected by the Genesis Dragon Breath

-15% chance to inflict curse of weakness (decrease stats by 10%) on the enemies affected by the Genesis Dragon Breath

-15% chance to inflict mark of light (deals increased 10% damage) on the enemies affected by the Genesis Dragon Breath

Cooldown: 3 minutes

Mana Cost: None

Duration: 30 seconds

Cast Time: Instant

Skill: All Elemental Resistance

Tier: Mythical

Type: Passive Resistance Skill

Effect:

- Reduce damage from fire element by 80%
- Reduce damage from water element by 80%
- Reduce damage from earth element by 80%
- Reduce damage from wind element by 80%
- Reduce damage from darkness element by 80%
- Reduce damage from light element by 80%
- Reduce damage from advance elements by 50%

Cooldown: None

Mana Cost: None

Duration: None

Cast Time: None

Skill: Genesis Dragon's Reverse Scale

Tier: Mythical

Type: Passive Skill

Effect:

-Skills and attacks that hit the reverse scale will be increased by 1.2 times.

Cooldown: None

Mana Cost: None

Duration: None

Cast Time: None

Skill: Genesis Dragon Scale

Tier: Mythical

Type: Passive Skill

Effect:

-All physical and magical attacks will be reduced by 50% when it comes in contact with the Genesis Dragon's body

Cooldown: None

Mana Cost: None

Duration: None

Cast Time: None

Skill: Master of All Elements

Tier: Mythical

Type: Passive Skill

Effect:

- Can control the six elements of nature [Fire, Water, Earth, Wind, Light and Darkness.]

- Increased damage when using the six elements of nature by 50% [Fire, Water, Earth, Wind, Light and Darkness.]

Cooldown: None

Mana Cost: None

Duration: None

Cast Time: None

Adrian suddenly found a sizeable rock or cliff and raised Kanlaon. All that was missing in that scene were the numerous dragons shouting or roaring. The giants that were researching there could make up for the lack of audience.

"What is the Champion Equinox doing?" One of the giants whispered.

"I do not know but it must be some sort of ritual that demons use when a newborn comes." The other giant replied.

"We better just clap and celebrate a momentous occasion then. He is our only way out of this place, so we better not get on his bad side." The leader of the research team stated as she proceeded to clap.

Adrian's mind is filled with thought of gratitude as this was a dragon that is truly the ancestor of elemental dragons. Just with Kanlaon's resistance skill, he could basically be said to be immune from damage due to the two passive skills that he has acquired.

"I do not care anymore if you become level one.. If you have all these mythical skills then I will be eternally grateful."

Chapter 899 – Back To The Start I

Adrian happily activated the Dimensional Teleportation skill when the giant researchers were done surveying the Chaos Springs. Adrian also warned them to not return back to the Chaos Springs after the reset as they would need to face all of the golems again or be sent to a different pocket dimension.

They were only able to meet Adrian because he was inside the Chaos Springs. Adrian also hid the fact that there was another gate to the Silver City in the Hidden Spring. The Fallen told him to never tell a soul about it or else the angels will definitely decimate the kingdom of the giants.

Adrian also strictly warned them that they should never open the gate. It would leak energy again that attracted the angels. The giants thanked Adrian for the information about the Chaos Spring. Adrian only told them that the Fallen are protecting a Nephilim which made the giants even more assured to never open the gate.

Without Kanlaon to ride down the bean stalk, Adrian used his wings instead to descend back to the ground. AS he was descending, he decided to look at the thing that he was rewarded when they safely reached the Kingdom of Magnasupra.

Item Name: Random Treasure Chest

Type: Consumable

Tier: Epic to Legendary

Description: Gives a random item or component that has the rank of either Epic or Legendary. It will disappear once it is opened, and the item or component will appear inside the user's inventory.

Chances: Legendary (30%) Epic (70%)

"Might as well open it now." Adrian muttered as he opened the Random Treasure Chest while descending.

A bright light flashed, and a new item is immediately added to Adrian's inventory. He looked at the tier and became happy that it is of the Legendary Tier. It seems that his Luck stat affected the probability of getting the item.

Item Name: Beast Experience Booster Bar

Type: Consumable

Tier: Legendary

Effect: Increases the experience acquisition rate of the fed monster by 200% for a specific duration.

Description: A booster bar made up of different ingredients that will help monsters grow quickly once eaten. It has a delicious taste that will make some monsters crave for more. It could also be used as bait for monsters hiding. It has a delectable smell that attracts monsters in a one-kilometer radius.

Duration: 3 days

"It is the best thing that I need to bring Kanlaon back to level 200 in a flash. I would use this on him when reaches level 150." Adrian thought as he almost reached the base of the bean stalk.

Adrian used Polymorph on himself and changed his appearance to that of a human. He was greeted by the mages guarding the entrance of the bean stalk. He also visited the royal family before ultimately going back to his own territory.

====

Adrian returned to his territory and reported to the elders that there is a child of royalty blessed by the twin gods. He told this because it is his duty as a champion to protect those that are blessed by the gods he serves.

He already had infinite contribution when it comes to the Church of the Twin Gods because he is the champion. Adrian is basically the boss of the elders as he is one of the representatives of the Twin Gods. When he reported the circumstances of the child, one elder, two priests and three paladins started to depart for the Kingdom of Suburiasi.

The first thing that Adrian did upon returning to Avalon is to find Old Man Pann. He wanted to check if Kanlaon definitely is healthy. The old man practically got a sizeable land in Adrian's territory just by talking to Adrian. He did not even pay so Adrian must make sure that the old man helps him when it comes to monsters.

Pann is actually a very famous to players in the territory that start as an elf or dark elf summoners. There were even some people that wanted to go to Avalon just to meet Pann, but they could not freely enter Avalon due to restrictions.

The rumor about Pann started when a dark elf summoner tamed a rare species that he could not evolve. Long story short, Pann saw the rare species that the dark elf summoner had and advised him on the evolution of his monster. Soon, other people started to come to Pann when they have problems with their monsters.

Even now, Adrian could see a crowd of people in front of Pann's new ranch. The people were not entering recklessly because of the guard dog that Pann had. Pann's guard dog is an Orthos that had two heads which spew fire and lightning. It was one of Pann's favorite puppies because it was very obedient.

Adrian just casually walked in the ranch without paying any mind to those that are telling him to stop. The Orthos started to run towards Adrian and the onlookers thought that Adrian was done for but was stunned with what happened. Adrian is now rubbing the Orthos' belly and the two heads barked when they were satisfied.

"I am here to meet the old man, Ort! Let us play again next time. Oh! I know! You can play with Sirius and the others." Adrian stated as he summoned his soulbounds other than Kanlaon to play with Ort.

Adrian summoned his soulbounds in their miniature forms which is why the players did not recognize him. Either way, he only needed to have a quick chat with the old man before going to level Kanlaon anyway. The players were talking with each other about the identity of the human that entered the ranch.

"Old Man? Are you there? Do not tell me that you are already feeling the signs of aging?" Adrian shouted to which the old man opened the door in a loud bang.

"It seems that you are here to bother me once again, brat. What do you need?" Pann stated as Adrian suddenly summoned Kanlaon.

The moment Adrian summoned Kanlaon, Pann's eyes almost burst out of his sockets. He immediately casted a spell that separated them from reality, but it was too late. The ones he did not want to notice had known of the existence that is now Kanlaon.

[The Mother of All Dragons, the Goddess Tiamat, has perceived the existence of a Genesis Dragon.]

"Crap!" Adrian suddenly shouted as he realized what he has done.

The goddess that birthed the dragons is now aware of Kanlaon's existence. Adrian did not think this would happen as it did not happen when Kanlaon evolved into a Frostfire Dragon. Even Pann started berating him about the things that would happen.

"You! If you were going to show me a Genesis Dragon, then you should have warned me. That is dragon royalty! The dragons will definitely come here!" Pann stated.

"I did not know that would happen. Kanlaon evolved in a pocket dimension so I did not think that he would garner that much attention." Adrian replied.

"It is too late. They are already here." Pann stated as two huge western dragons are flying beside Avalon.

When the two huge dragons arrived at Avalon, all the demons on guard started to gather. Even Ascalor came out of the Paradox Planes immediately when someone reported to him of what happened. Adrian already knows what they want but he will never give them Kanlaon.

Adrian immediately mediated and entered his inner most subconscious. Pann thought that Adrian must have thought something to deter the dragons which is why he also summoned some of his pets to protect him. He will have to deal with the Ancient Dragon that arrived as he was the only one that can deal with it.

=====

"Hand over the child!" The largest of the two dragons demanded. It could be said that the two of them are dragon kings but the one who spoke is definitely the leader.

"We do not know what you are talking about." Pann stated as he suddenly appeared beside Ascalor.

"You know what I am talking about Beast Master. Bring us the elemental child." The ancient dragon demanded.

"It seems that you already sensed him, but that child is already tethered to the soul of one of our own. You cannot take the child as you will endanger our child in the process. Also, you do not own the elemental child. Leave now while we are still talking in a civilized manner." Pann stated as he showed his aura that he was hiding.

When the dragons noticed Pann's aura, they backed down a little as he was a Noblesse. Even if Ancient Dragons are said to be equal to a Noblesse, the ancient dragons were still injured from the fight against the Dragon of Gluttony back then. They are not yet at the level to contend equally but that does not mean they will not stop.

"We demand to see the child at least." The ancient dragon stated.

"If that is the case then you are welcome, but you must never take the child.." Pann stated as he also did not want a direct confrontation as even, he is not yet in full power.

Chapter 900 – Back To The Start II

The ancient dragon agreed to leave the Genesis Dragon alone for now in exchange of seeing it. The commotion was big enough for players in Adrian's territory to talk about it and even post their videos in the forums. The sudden transformation of two giant dragons into humanoids also became the topic of the forums and video comments.

The two dragons transformed into two females that are beautiful beyond compare. The smaller dragon transformed into the appearance of a woman in her late twenties with pinkish hair. The ancient dragon transformed into a woman that is in her thirties but incredibly beautiful.

Both of them made the wind shudder as they are dragons that have great control of the wind. It is also the reason why they could easily come to the territory. The smaller dragon is a Wind Dragon, and the Ancient Dragon is a Storm Dragon.

"At least you have the decency to come in your human forms. The twin gods will not take it lightly if you bother their favorite child after all." Pann stated as he also arrived near them.

Ascalor commanded the guards to get back to their usual business as he will personally escort the sudden guests. Business continued but the players could not help but look at the direction of the two dragons and the two of the famous NPCs that can be found in Avalon.

"As expected of the wind dragons, you travel fast. I guess age did not let you down, Bhola." Pann stated as he called the name of the ancient dragon.

"For you to be alive despite the great damage that you sustained, I am even more impressed that you are still alive, old bag of bones." Bhola stated as she seemed to be familiar about Pann.

"Is that the kid that used to hang out with my granddaughter?" Bhola asked as he pointed at Ascalor.

"He did do that when he was quite young. Things were not as troublesome as they are back then than it is now." Pann replied.

"I am more surprised that you demons reclaimed land in the main world. Did you all get bored of the pocket dimension that you were living inside of?" Bhola stated as a little joke.

"We did and it seems that we needed a more proactive approach. When we were busy with other things, the dark gods had already crept themselves in human society before we knew it. The twin gods even chose their champion to be born to our race. It seems that even they who did not like to move hinted that we must make a choice." Pann stated which made Bhola silent as she already knew of the new Champion of the Twin Gods.

The group soon reached Pann's ranch where Adrian is currently waiting for them to appear. The world outside of the ranch became desolate as Pann already shifted the dimension a bit. He made sure to separate his ranch from the main world for the time being.

"Old man! Oh! The other old man is also here!" Adrian stated as he saw Ascalor in front of him.

"Child, let me see the founding dragon." Bhola stated in a gentle tone as she could feel the energy of life and death from the body of the young demon in front of her.

"The old woman is?" Adrian asked which made Bhola's face twitch a bit as this was the first time openly made her feel old. Adrian knew that the person in front of him is an old person because he could see the souls of other beings. This is also the reason why he calls Peridot's adoptive mother as old lady.

"She is Bhola, one of the ancient dragons. She is an eyesore right now, but you can consider her as a guest in your territory for now." Pann stated.

"Did you come to take Kanlaon away?!" Adrian stated in an innocent tone.

"No child. I am merely examining the person that managed to hatch a Genesis Dragon." Bhola stated as she could see the young demon getting teary eyes.

"You are wrong that I only hatched him as I already hatched him twice. I made him that way since dragons already abandoned him back then. I found his egg being transformed into a cursed being by lizardmen." Adrian reiterated just to mention that they do not have any claim towards Kanlaon.

Pann could be seen smirking while Ascalor is holding his laughter. They already knew this side of the young demon as he always made sure that he is on top of the conversation. Just Adrian stating Kanlaon's story in an innocent manner already made Bhola and her servant unable to refute anything.

"Is that true?" Bhola asked as she looked towards Pann.

"It is true. I even helped him hatch that egg back then, but I actually did not know that he would chance upon an abandoned dragon egg. I honestly thought that it was just a drake, but it was a fire dragon that hatched. This is the first time that I heard that you hatched him again though." Pann stated as he wanted to hear the full story from Adrian.

"Kanlaon reverted back to an egg when I fed him his evolution materials." Adrian stated.

"Impossible! A genesis dragon cannot be created or force an evolution to become one. They need to hatch naturally." Bhola exclaimed.

"But Kanlaon reverted back to an egg when he devoured all the evolution materials that I gave him. So, a Genesis Dragon could indeed be created but it seems that my little Kanlaon is just special." Adrian stated as he patted the small golden dragon beside him.

The two dragons could clearly see that it is indeed a Genesis Dragon, but they could not easily believe Adrian's story. In fact, Adrian told them that he made Kanlaon become a Genesis Dragon so that they will lose interest on him.. If they knew that a Genesis Dragon can be created then they will be less likely to demand Adrian to hand him over.
