

Obsessed CEO Throws Himself at Me Chapter 1829

Chapter 1829 Our Child

That afternoon, Susanne was accompanied by Vinson and Arielle to do an MRI scan. Two hours later, the report was out and confirmed that the older woman's tumor was a benign one. It was such a relief for the three of them.

"Mom, Vinson had already arranged for you to be admitted. If nothing goes wrong, I'll operate on you and remove that tumor tomorrow," Arielle informed in a gentle voice as she held Susanne's arm.

"I know. I trust you." With a smile, Susanne patted Arielle's hand.

During the examination, the doctor said that if the tumor weren't discovered in time, it would've turned into a malignant one in the future. When that happened, even an operation wouldn't be able to save Susanne. At most, she would only be able to live a couple more months.

That was why she was very grateful for what Arielle did. If the younger woman hadn't insisted that she went for a checkup, she wouldn't have found out about the tumor.
