

Oh My God 1561

Chapter 1561: This Was the Deity Realm

Under the white-haired ghost's shocked gaze, the thirty-six thousand pores on Meng Chao's arms unleashed blinding flames at the same time.

It was as if two... no, two hundred ferocious flood dragons were coiling around his arms simultaneously.

When the flames dissipated, two thick and long chains that were almost melted by the flames had already been dragged from the ends of his arms all the way to the ground.

Two heavy sabers were wrapped around the chains.

They seemed to be made of extremely dense cosmic materials from a neutron star.

The blades were not sharp, however, they easily cut into the hard ground as if they were cutting tofu.

They went all the way to the bottom, leaving only the handles of the sabers exposed.

That was not all.

When Meng Chao's cells exploded, the spirit energy that shot out flowed into the earth through the chains and sabers.

The rocks hidden deep in the ground were apparently infected, burned, and stirred by his vitality magnetic field, melting into surging magma.

With Meng Chao's feet as the center.

The ground within a hundred meters was shaking, roaring, and tearing. Soon, intersecting spider web cracks appeared.

Dazzling red brilliance blossomed from the depths of the cracks, turning into bubbles that were thousands of degrees high and containing magma.

Even though the flesh and blood of the undead creatures were extremely tough, they were still not as tough as they used to be.

In the face of the land that was neverending "magma," the ferocious roars a moment ago had turned into wails of fear and trepidation.

There was an undead creature with three monster heads sewn onto it. The creature happened to be where the red cracks were the densest. One moment of carelessness and half of its body fell into the magma created by Meng Chao.

Its flesh and blood were instantly charred.

No matter how the Blood Flower spores stimulated its cells as well as accelerated the division and growth, they tried to cover and replace the charred parts with fresher and more blood-red flesh and membranes.

Large patches of charred marks continued to spread throughout the body of the undead creature like a virus that swallowed a virus.

In just a few seconds, the two heads and three limbs of the undead creature were all dehydrated, split, and disintegrated, turning into countless crispy cinders.

The remaining heads and limbs were not truly 'dead' under the control of the blood-striped fungi cluster. They were still struggling with all their might, trying to escape the entanglement of the magma.

However, a section of red-hot chains suddenly drilled out from the underground magma and wrapped around the body of the undead creature dozens of times like lightning, forcefully dragging it into the depths of the magma.

In the end, the undead creature completely disappeared.

Only a few shrill screams were left. They were sealed on the surface of the magma and kept rolling in the bubbles.

The other undead creatures hesitated.

Although they did not have "Wisdom" in a narrow sense, they were still afraid.

However, the most basic primitive instinct of the carbon-based creatures still made them feel a wave similar to "Fear."

The crisis management program embedded in the depths of the genes gave them an extremely clear and strong command — this man, who was like a torch surrounded by flames, was definitely not someone they should provoke, he was also an existence they could not afford to provoke!

The undead creatures retreated one after another.

However, Meng Chao had no intention of letting them go.

He did not move his feet or hands.

He merely bent and extended his fingers, playing a symphony representing death on the chains.

Magma from the depths of the Earth shot out from dozens of burning cracks in the ground, turning into dozens of fiery whips that entangled all the undead creatures and dragged them into the cracks and magma.

The undead creatures struggled desperately.

The flaming whips were deeply embedded in their flesh and blood, cutting their bones and tearing them into pieces.

With the help of the blood-striped mushroom clusters, more whips and tentacles grew out of the disintegrated undead creatures, trying to break them into pieces and escape separately.

However, Meng Chao's flaming whips also split apart. Like burning roots and branches, they caught up with and entangled every piece of wriggling and screaming flesh and blood again.

A few undead creatures realized that there was nowhere to run, so they could only fight to the death.

They exploded the flesh of the monsters to the extreme.

On their bodies that were as messy as mud, it was as if a hundred man-eating flowers had opened their bloody mouths.

And from their bloody mouths, tens of thousands of blood-patterned mycelium that looked like flower buds and nerve clusters, but were even sharper and more evil, stabbed at Meng Chao like a dense forest of swords and halberds.

Meng Chao still did not Dodge. He allowed the blood-patterned mycelium to stab at his body.

His seemingly unprotected skin was emitting a metallic luster. The spiritual magnet made of Nanorobots had already formed an indestructible line of defense under his skin.

The blood-patterned mycelium kicked an iron plate.

Not only did it fail to invade Meng Chao's body.

Instead, it was entangled, cut off, and swallowed by the spiritual magnet. It was sealed in a sticky, liquid-like metal substance, waiting for Meng Chao's further research.

When Meng Chao had collected enough experimental samples, the 'game' was over.

Finally, he extended his hand and snapped his fingers, ending the 'game'.

The number of fiery whips from the depths of the crevice suddenly increased by three to five times, wrapping every undead creature as solid as a dumpling. They were dragged into the depths of the magma without even letting out a single scream, in a series of "Chi Chi Chi Chi Chi Chi Chi Chi Chi" burning sound, into the curl of green smoke.

Fei is right.

It is indeed a hell of Asura.

But it was built by Meng Chao, specially prepared for the undead Asura Hell.

In the face of Meng Chao's absolute destruction,

Not even half of a strigosae spore escaped.

But that's not the end.

Meng Chao glanced around indifferently.

The assassins who were hiding in the forest were dumbstruck and kept quiet as if they were scared out of their wits. They only cared about shivering.

Other than the commander on the scene who was being suppressed by Meng Chao.

There were seven elite snipers and four heavenly state experts wearing the 'fire qilin' who were still alive.

At the very least, ignoring the fact that their souls had already dispersed, their bodies of flesh and blood were still barely alive.

However, to their horror, they discovered that not only were every bone and muscle fiber in their bodies being pulled by the mysterious expert standing in the center of the magma, whose aura was even more tyrannical than the white-haired ghost's, they were also being pulled by the mysterious expert, they were being suppressed and could not move at all.

Moreover, their communication devices could only emit rustling and beeping noises. They could neither communicate with the outside world nor transmit the unbelievable scenes that they saw, they could transmit even one pixel!

Of course, the commands from the outside world, whether they were required to fight to the end or forcefully activate the self-destructing chips in their bodies, were all blocked.

Then, their vision blurred at the same time, as if they saw billions of tons of magma spurting out of the ground and turning into an overwhelming red tide that was rolling, roaring, and dancing crazily, it covered the entire sky and also covered their entire vision!

Chapter 1562: Shen Yuanbao

The souls of the assassins seemed to have completely melted in the lava.

They could not even let out a muffled groan. Their eyes rolled back and they fell limply to the ground.

The scene was dead silent.

Only the sound of burning flesh and dried branches could be heard.

Between the thick smoke, flames, blood, and broken limbs, the new and old Deity Realm warriors faced each other in silence.

The white-haired ghost's bloodshot eyes reflected a new Deity Realm warrior with tall stature, strength, vigor, and full vitality. It was as if no power could stop him.

This figure reminded the white-haired ghost of himself from thirty to forty years ago.

No, he was more perfect and more powerful than the blind man who was without sight and groping around at that time.

Meng Chao also recognized him through his messy white hair, twisted facial features, and complicated facial expressions.

He was the leader of Universe Corporation, the head of the Shen family, the mining tycoon who once controlled one-third of the crystal ore veins in Dragon City, and one of the top ten warriors in Dragon City. At his peak, he was known as the "Heaven Battering Leopard," Shen Yuanbao!

"It makes sense. The series of conspiracies that happened recently are all related to Universe Corporation.

"And this is Universe Corporation's territory.

"Who else but the head of the Shen family is qualified to 'enjoy' the siege of so many Fire Qilin armors, elite snipers, and super undead creatures here?"

Meng Chao had met Shen Yuanbao several times on business occasions and at the banquets of wealthy families.

However, although they had gone through thick and thin together and made great contributions to Dragon City, they were still members of the younger generation who had just risen to prominence.

Shen Yuanbao and Battle God Lei Zongchao had jointly destroyed and divided the Blood Alliance. They fought their way out of the era of the strong preying on the weak and lawlessness. They established the Survival Committee and built the Supernatural Tower, by restoring order and civilization, Dragon City was able to become such a prosperous and powerful founder today.

Their identities and statuses were far from each other.

Besides, Shen Yuanbao also had a grandson, Shen Yulong, who died in front of Meng Chao and Lu Siya.

Meng Chao and Lu Siya were very close. The towering sky group of the Lu family and Shen Yuanbao's Universe Corporation were competing against each other.

Therefore, Meng Chao didn't have many opportunities to have too many exchanges with this rich and powerful expert of the older generation who had an extremely strong personality and had a mixed reputation in the market.

However, he listed the godly state experts of Dragon City in version 1.0 a few decades ago.

Shen Yuanbao was indeed the one with the most personality and the most difficult to evaluate.

He also controlled one of the most powerful mining groups in Dragon City, Shen Yuanbao, the head of the Lu family, the leader of the Atlas Group, and Lu Zhongqi, who was also the president of the Association of Prospectors in Dragon City.

Lu Zhongqi was born as a mining engineer and was a gentle and elegant academic. He followed the steps step by step and set foot on the road of a mining tycoon.

His cultivation was also the result of being exposed to excessive radiation from different crystal veins during long-term prospecting and mining operations, which led to hundreds of different mutations in his cells. In the end, it was a coincidence and a blessing in disguise.

Shen Yuanbao, on the other hand, was born in the wilderness. At first, he knew nothing about mining.

He only used his unparalleled strength to drive away monsters, suppress zombies, intimidate rival gangs, eliminate the remaining forces of the Blood Union, and occupy a large number of crystal ore veins. He was an out-and-out local tyrant.

Logically speaking, such a local tyrant would be able to live like a fish in the water for a time even in the era of the collapse of order and lawlessness.

When order had been stabilized and the people who had solved the survival crisis had become more and more nostalgic for morality and the law, there would no longer be a place for such a person to stand.

However, the biggest difference between Shen Yuanbao and an ordinary local tyrant was that he was really loyal. He had only earned ten Yuan, yet he was willing to fork out 9.9 yuan to each of his brothers who had helped him before.

At the same time, he also really dared to risk his life. Every time he fought with other gangs for the crystal ore vein and survival resources, he would always be at the forefront, he was the first to receive the sword light, the rain of bullets, and the mysterious supernatural ability at that time.

Even when faced with a behemoth like the Blood Union, who owned a primordial ruin, Shen Yuanbao did not frown at all.

It was as if he was not fighting for money, status, resources, or honor.

He was just enjoying the thrill of taking the lead and charging forward.

On the other hand, in contrast to the image of the local tyrant, Shen Yuanbao also understood the principle of leaving a line in everything and never exterminating people.

When faced with enemies, obstacles, and competitors who were unwilling to submit to him, he would use all kinds of tyrannical or despicable methods to completely crush them.

But as long as the other side is willing to bow, even if bow before, also to Shenjia and Huanyu group caused heavy damage, Shen Yuanbao will let bygones be bygones, give the other side a way out.

There are quite a few competitors who used to be at war with Universal.

Now they are the shareholders of Huanyu Group and the in-laws of Shen Yuanbao's children.

This local tyrant, who had roamed freely in the crystal mining industry, an arena filled with the stench of blood and decay for decades, he seemed to be naturally proficient in the routine of "First breaking a person's spine, and then raising the person with the most favorable conditions."

Also, Shen Yuanbao was very smart.

He knew who to provoke and who not to provoke.

When he could be a little arrogant, and when he should tuck his tail between his legs and behave himself.

When it was time to be greedy, he was like a combination of a big and round hippo and a greedy python, wishing that he could swallow the entire crystal ore vein into his stomach.

But when it was time for him to be greedy, he did not have the mindset of a miser like an ordinary tyrant. Instead, he could spit out the cake that he had swallowed without even blinking.

The simplest example.

Martial god Lei Zongchao was located at the highest point of the transcendental tower, the martial god Temple.

It was built with tens of thousands of finely polished top-grade crystal stones.

The value of each top-grade crystal was astronomical.

And at least half of these top-grade crystals were sold at a low price by the universal corporation or even donated without compensation.

According to the Universal Corporation's official statement, the martial god Lei Zongchao had worked hard and contributed almost everything to Dragon City.

At the same time, he had a high moral integrity. In order to prevent the concentration of power and power, he never overly interfered in Dragon City's military, politics, and economy.

For such a "Number one martial artist in Dragon City," even if Huanyu Group sold everything they had, they had to let him enjoy the best environment for cultivation and treatment. Only then would he be worthy of the spirit of the company and Shen Yuanbao's original intention.

It must be known that at that time, the "Martial god" Lei Zongchao had already passed his peak period because of his serious injuries.

And Shen Yuanbao himself was also one of the top ten experts in Dragon City. Whether it was his position or his fighting strength, he was not inferior to the "Martial god" Lei Zongchao. In terms of power, he might even be slightly better.

However, he still kept his attitude low and won a lot of impression points for himself in front of the public. At the same time, he forced lei zongchao, the "Martial God", to accept his favor.

From this, it could be seen that Shen Yuanbao had gone from being a small hooligan who didn't even know the difference between bronze and red gold, only daring to fight, to becoming one of the two major mining overlords in Dragon City today, it was definitely not as simple as just a pair of fists.

Chapter 1563: The Shen Family's Style

Speaking of which, it was absolutely impossible to stand out in that era where the strong preyed on the weak. Without the support of a great force, it was absolutely impossible.

No one knew how Shen Yuanbao had honed his unparalleled and absolute power.

It was said that Shen Yuanbao had once been swallowed by a huge monster in one gulp. However, he was not completely digested. Instead, he devoured the monster's flesh and blood, relying on the monster's blood and bone marrow. Only then did he cultivate an invulnerable iron body.

There were also people who said that Shen Yuanbao had once been washed away by the great flood. In the murky depths below the torrent, he cultivated in seclusion for several years before he mastered the mysteries of integrating his vitality magnetic field and the planet's magnetic field.

There were even those who said that Shen Yuanbao was the same as Battle God Lei Zongchao. He had gone through life and death in the ancient ruins. He had listened to and comprehended the Ancient Ruins' Summon many times before he was able to build his current status.

No matter what, Shen Yuanbao had grasped absolute strength, united all the factions, attracted all kinds of beauties, recruited many disciples and adopted sons, and produced descendants numbering in the two digits, faintly breaking through the three-digit mark. He had created his own legend that left people tongue-tied, envious, and resentful. That was how he was able to build one of the largest cultivation aristocratic families in Dragon City in just a few years.

Even after the Survival Committee and Supernatural Tower were built, and order, law, as well as morality, returned to the new era of Dragon City, the actions of Shen Yuanbao, the Shen family, and Universe Corporation remained the most difficult to measure and judge.

At the worst, Shen Yuanbao valued friendship and was extremely protective of his own. If anyone dared to violate the interests of the Shen family and the universal group, he would disregard his identity as a godly state expert and pester them to the end, he would not rest until the other party was dead — unless the other party lowered his head, apologized, and was completely convinced.

And the style of the Shen family and the universal group in the commercial competition was also famous for being overbearing and overbearing.

The fight over the crystal ore veins was originally the easiest to turn from a commercial war into a real war.

The Universal Group was able to stand firm in the mining and smelting industry for decades and firmly occupy a large part of the dozens of crystal ore veins with the richest reserves around Dragon City. Naturally, it was impossible for them to be good men and women.

Therefore, the losers in the commercial competition gritted their teeth and cursed the Shen family and the Huanyu Group. It was not unreasonable for them to be a smaller blood union.

When the competition was at its fiercest, there was even a “Loser Union” that collected a large amount of evidence in an attempt to bring down the Shen family and the Huanyu Group. However, they were all resolved by Shen Yuanbao through various black and white means.

By now, the Shen family and the Huanyu group had evolved into the typical “Too big to fail”.

Everyone knew that there was a problem with the Huanyu Group.

However, no one could imagine the consequences of the sudden collapse of the Huanyu group.

As well as who could fill the niche that was left vacant after the collapse of the Huanyu Group.

At the very least, at present, the ore mining and smelting industry in dragon city was still “Atlas” and “Huanyu” standing side by side. The two tigers were fighting each other and were afraid of each other.

In order to win more supporters, both sides had to give up part of their profits. When they did things, they were more or less hesitant.

If Huanyu group collapsed, the most likely situation would not be replaced by a new mining group.

Instead, Atlas would take the opportunity to swallow the large market that Huanyu group had given up and expand into a unique super mining group in Dragon City, monopolizing 50% or even more than 70% of the supply of crystals.

No one wanted to see such a situation where one company was dominant.

Therefore, everyone from the survival committee to the ordinary citizens could only pinch their noses and put up with universal group uncomfortably, continuing to exist arrogantly and arrogantly.

Right, in Meng Chao's memory from his previous life, Universal Group's tyrannical style continued until decades later.

During the 'Colonization War' that swept through the other world, the universe group's corporate equipment was second to none among the nine super enterprises in terms of both scale and quality.

The black skeleton training camp and the Ghost Brigade, to a large extent, used the universe group's corporate equipment as the core and attracted the various super enterprises to join them one by one. Only then did they gradually take shape.

After the initial expedition won a great victory, the Earthlings expanded their territory and obtained a lot of benefits. They occupied a large number of crystal ore veins, and the natives of the other world named them as 'other-dimensional natural disasters'.

The Universal Corporation was also the first major corporation that had the idea of 'occupying the mountain as the king, listening to the tune but not listening to the orders. When the king is outside, his orders will not be obeyed' and so on.

At that time, Huanyu Group had already occupied a large piece of territory outside the monster mountain range in the land of Holy Light, which was rich in resources.

Whether it was the area of control, the population under its rule, or the number of experts and resources, they all surpassed Dragon City, which lived in the monster mountain range, forming a tail that could not be removed and was beyond the reach of the whip.

From then on, Huanyu Group gave priority to its own interests instead of the overall interests of Dragon City.

Many times, before the survival committee had passed a resolution, the Huanyu group had brazenly launched a new military operation.

From then on, all the people of Dragon City were dragged onto the chariots of the Huanyu Group, or the nine Super Enterprises.

In the end, the Huanyu Group and the other eight Super Enterprises, which had been outstanding for a while, ended up setting themselves on fire and seeking their own destruction.

They even implicated the entire Dragon City and had to be buried with them.

Meng Chao did not remember whether Shen Yuanbao was still alive in his previous life.

However, no matter what, the Huanyu Group's corporate culture and even the arrogant and domineering family style of the Shen family were all personally created by Shen Yuanbao.

From this point of view, Shen Yuanbao could not escape responsibility for the future destruction of Dragon City.

However, on the positive side, Meng Chao could not erase Shen Yuanbao's contributions and achievements.

Although he was tyrannical when he seized the market and did everything he could, he was like a cheetah that was always hungry.

However, when faced with zombies, monsters, floods, earthquakes, and all kinds of natural and man-made disasters, Huanyu group was never ambiguous. They had the money to pay, the strength to contribute, and they never considered the cost.

According to incomplete statistics.

During the Monster War, Shen Yuanbao had personally sent his own flesh and blood to the front line and died miserably under the claws and teeth of the monsters. The number of his own flesh and blood had reached double digits.

The number of deaths and injuries of his grandchildren were even more numerous.

As for the various resources that the universal group consumed in the Monster War every year, it was an astronomical figure.

Although the mining and smelting industry was like a knife licking blood, and they had to engage in close combat with the monsters at the front line in order to rob the crystal ore veins.

However, Shen Yuanbao's attitude that he would do anything for Dragon City, even if he had to go bankrupt, did not seem hypocritical at all.

It was still the same saying. What Shen Yuanbao cared about was not money, power, and resources at all.

It was the feeling of snatching money, power, and resources from others, while others had to endure their anger, bow, and obey them.

Snatching money, power, and resources away from them was like playing with old toys.

They could be thrown away by Shen Yuanbao at any time.

Chapter 1564: Strong Dialogue

In Dragon City, powerful Deity Realm individuals had rushed out, entered the monster civilization's ultimate lair, and participated in the decisive battle against the monster mastermind.

Shen Yuanbao had also been at the forefront as the most ferocious, death-defying one.

It was said that he was the first to cause serious damage to the monster mastermind. He had made a seven- to eight-meter-long crack in his opponent's brain.

As for himself, he had also suffered the monster mastermind's crazy retaliation. He ended up becoming one of the most seriously injured among the many Deity Realm warriors.

By the time reinforcements carried him out of the monster civilization's ultimate lair in a flurry of hands and feet, he was like a bloody gourd that was riddled with holes.

Not a single good patch could be found on his body.

His brain had more similarities to an active volcano that was ready to explode at any time along with his skull.

The top medical team in Dragon City spared no expense and spent an astronomical amount of resources to save Shen Yuanbao's life.

However, in the next year or so, he could only stay in the blessed land with rich spirit energy and undergo traditional treatment. He could not control Universe Corporation or even the Shen family.

If Shen Yuanbao had just been a simple and ambitious schemer, his fearless actions would have been pointless.

The monster mastermind had become a turtle in a jar. At that time, there were a total of two-digit Deity Realm powerhouses participating in the siege. Why did he have to be so impatient and rush to the front so as to attract the strongest hatred?

One could only say that human nature was complicated and changeable.

Especially for the Shenyuan leopard, who rose from the grass that was covered in blood and mud in the lawless and chaotic bloody era.

It was hard to tell whether he was a hero or a bastard.

Whether he was a pure and flawless warrior who was willing to sacrifice everything for Dragon City, or a greedy and unscrupulous local tyrant.

Did he do it for Dragon City and all the citizens, or for the Shen family and the Huanyu group, or for no one but his own temporary pleasure.

No matter what was said, there was one thing that could be confirmed on this complicated and changeable great figure.

Meng Chao believed that Shen Yuan Bao had nothing to do with the Blood Alliance.

He was even treated as a thorn in the flesh by the Blood Alliance.

Otherwise, the Blood Alliance wouldn't need to mobilize such a large force and pay such a huge price to kill Shen Yuan Bao.

"It doesn't matter whether Shen Yuanbao is a hero or a bastard in the 'Doomsday Memory'.

"Since he is the target that the blood union will try every means to get rid of.

"In that case, he can become my ally!"

For Meng Chao, who had returned to Dragon City alone and fallen into the treacherous whirlpool, he could not see clearly the complicated development of the situation.

A deity-level ally and the head of one of the nine great cultivation aristocratic families could be of great help.

While Meng Chao was pondering over Shen Yuanbao's attitude and stance in his heart,

Shen Yuanbao was also sizing up this overly young fellow Daoist.

His gaze swept past Meng Chao's skin, which was emitting a metallic luster, as well as his muscles, which were rolling up and down like mountains.

His eyes were filled with surprise, envy, and even a hint of jealousy.

He wasn't jealous of Meng Chao's strength.

He was jealous of Meng Chao's youth.

And the endless possibilities that came from his youth.

In the end, Shen Yuanbao's gaze landed on Meng Chao's face.

This expert of the older generation immediately narrowed his eyes.

"Meng Chao?"

He said in disbelief.

Meng Chao touched his cheek.

He knew that no matter how exquisite his disguise technique was, it would be useless in front of a godly state expert with burning eyes.

The godly state expert's extraordinary vision was comparable to the most advanced X-ray scanner and MRI machine.

It could instantly scan his bone shape and reconstruct his true appearance based on the shape of the bone.

Since he treated the other party as an ally.

Meng Chao did not plan to hide his identity.

"That's right."

Meng Chao smiled and said calmly, "Senior Shen, how have you been?"

In the face of Shen Yuan Bao's burning gaze, Meng Chao did not try to hide his strength.

On the contrary, from his 36,000 pores, scorching air currents that could be seen by the naked eye shot out. These air currents swirled around his body, forming one burning whirlpool after another, it made him seem like an expert that had walked out of lava!

Not only were the surrounding trees withering rapidly under the suppression of Meng Chao's life magnetic field, they were charred, charred, and shattered.

Even the Earth sank slightly, as if the air had become an invisible ten thousand ton hammer.

Shen Yuanbao's expression changed.

Naturally, spiritual flames surged wildly to resist the pressure that Meng Chao had transmitted over.

The atmosphere between the two generations of godly state experts suddenly became tense.

However, Meng Chao had no intention of reducing the pressure.

He knew that he couldn't lower himself to respect the old and love the young when he wanted to deal with an overbearing old senior like Shen Yuanbao.

Even if he lowered himself a little bit, Shen Yuanbao would pounce on him like a hungry leopard and devour him alive, leaving not even a trace of his bones behind.

Only by being more aggressive, more aggressive, more fearless, more willing to do whatever it takes.

To be qualified, to be on an equal footing with each other, to talk about how to cooperate.

Sure enough, the two sides silent confrontation for half a minute, the first Shen Yuanbao can not bear strength.

He was, after all, an old champion who had come to the end of his days.

Just received more than a year of conservative treatment, every day inserted in the body 30 to 50 tubes.

He was barely discharged from the hospital when he was attacked by the fire qilin, the elite snipers, and the undead creatures.

Any expert would have been disintegrated and turned into ashes by the repeated injuries.

How could he continue to tangle with Meng Chao, the rising expert of the new generation?

"Cough, cough, cough, cough, cough, cough, cough!"

Shen Yuanbao coughed violently like a skinny tiger that had fallen into a trap. Although he tried his best to show off his might, he could not resist the power pouring out of the crisscrossing wounds all over his body.

His face was as pale as a sheet of paper, and there was a hint of desolation in his eyes as he muttered to himself, "No wonder, no matter how the nine major companies tried to show our goodwill to your superstar group and indicated that the superstar group could join our circle and form the alliance of the ten major supercompanies of Dragon City. Everyone would control the direction of Dragon City's development together, but the superstar group remained unmoved and insisted on starting from scratch.

"At first, I thought that it was because young people didn't know the immensity of Heaven and earth that they didn't know what was good for them.

"I didn't expect that you, Meng Chao, had grown to such a terrifying level in just over a year.

"No Wonder Your Super Star Corporation didn't even put the nine corporations in your eyes. You insisted on changing the rules of the game and even monopolized the entire Dragon City

Chapter 1565: Possibility of Cooperation

Shen Yuanbao did not hide the hostility in his words.

However, before the new generation of Deity Realm warriors who were rising like the sun, the hostility of this old Deity Realm warrior did not sound threatening. He was just complaining without end.

Meng Chao smiled slightly. "It seems that you have a misunderstanding about our Superstar Company, Senior Shen."

"Misunderstanding?"

Shen Yuanbao gritted his teeth and said, "The Xinhui Business Center incident was caused by your Superstar Company and the Azure Alliance, wasn't it? Nothing like that has ever happened since Dragon City transmigrated! That was how huge of a farce it was!

"I don't understand. We've completely won the Monster War. Dragon City should have entered a period of rapid development. All of us have to work together to prepare for our early conquest of the entire Other World. The nine mega corporations have also sincerely accepted your Superstar Company as one of us. As long as you obey the rules of the game, you'll be able to reap astronomical benefits!

"Why? Why do you have to start your own business and get mixed up with the Red Dragon Army? What's the Azure Alliance? Are you trying to provoke us? Aren't you deliberately stirring up new chaos in Dragon City?"

"Senior Shen, you're wrong."

Meng Chao calmly said, "It looks like you already know about what happened in the Monster market and Xinhui Business Center. You also know how many mid-level and low-level superhumans were gathered in the south of the city last night. They were indignant and furious.

"Fury that can destroy everything is like a raging wave. It is definitely not something that Superstar Company or the Azure Alliance can stir up. There are so many low-level superhumans, and they are not fools who are at the mercy of others. If the rules of the game practiced by the nine mega corporations are really open and transparent, and can benefit the majority of the children of humble families who have no power or influence, how can they explode like a powder keg that has been exposed to the sun for three days and three nights?

"It's not that we deliberately caused new chaos in Dragon City.

"It's that chaos has long existed in Dragon City. It exists in the hearts of the majority of middle-and low-level extraordinary humans, who are weak but have absolute advantage in numbers.

"If we don't find a way to solve our internal problems, not to mention conquering the entire foreign world, even the long-term peace and stability of Dragon City will probably turn into a dream!"

Shen Yuanbao stared at Meng Chao for a long time before he snorted and said, "So, Meng Chao, you came all the way here to teach me a lesson as an obstinate vested interest?"

"I don't dare."

Meng Chao burst into laughter and spoke frankly, "To tell you the truth, although I'm very supportive of the middle-and low-level extraordinaires uniting and making their voices heard, I'm also willing to do everything in my power to represent all the middle-and low-level extraordinaires to challenge and even

challenge the nine Super Enterprises that have ruled Dragon City for too long, to take back our rights and interests.

“But what happened in Xinhui business building, including the establishment of the Azure Alliance, has nothing to do with me.

“In fact, today is the third day that I’ve returned to Dragon City.

“For the past year, I’ve been traveling in the middle and lower reaches of Tiger Fury River, the region known as ‘Tulan Ze’ by the local natives.

“I’ve made some powerful friends in the local area, and as you can see, I’ve also obtained unparalleled strength. I’ve even signed some agreements with local friends that are beneficial to both sides.

“The price is that I know nothing about what happened in Dragon City in the past year.

“I’m also curious about what happened in Dragon City today.”

“Oh?”

Shen Yuanbao narrowed his eyes.

He was seriously considering the authenticity of Meng Chao’s words.

And the power that Meng Chao’s so-called “Local friends” contained.

Gradually, a brand-new light blossomed in his eyes.

“So, you haven’t been hiding in the dark and controlling the Superstar Corporation in the past year?”

Shen Yuanbao mumbled, “Even the establishment of the Azure Alliance has nothing to do with you?”

“You’ve been abandoned?”

“That’s true. Lu Siya is famous for her ambition, her greed, and her audacity.

“Meng Chao, you came from a humble family, and you haven’t experienced the internal strife and intrigue of the rich and powerful sects. Even if you could defeat Lu Siya in terms of martial strength, you would definitely be eaten by her in other aspects. Even if you were sold by her, you would have to count the money for her!”

Meng Chao laughed.

“Senior Shen, I’m sincerely looking for the possibility of cooperation between you and me.”

Meng Chao said, “You don’t have to be so simple and crude to sow discord between me and LÜ Siya, do you?”

Shen Yuanbao also laughed.

He seemed to feel that his sowing discord was indeed a little low-class and unrepresentable.

“Tell me.”

Shen Yuanbao said, "What is the possibility of cooperation between us? Do you want to use the power of the Universal Corporation to help you take back the dominance of the Superstar Corporation?"

"It's just a superstar corporation. It's not worth my trouble."

Meng Chao said, "The possibility of cooperation I'm talking about is to deal with our common enemy."

"Common Enemy?"

Shen Yuanbao narrowed his eyes. "Who's that?"

"These guys."

Meng Chao pointed at the unconscious assassins around him. "The people who tried to assassinate you... I believe senior Shen will be able to tell that they're definitely not sent by the Azure Alliance."

Shen Yuanbao fell into deep thought.

"That's right."

He slowly said, "Although the Azure Alliance's rise is very fast, they don't have enough foundation after all. It's unlikely for them to train so many death warriors in just a short year and equip them with so many of the most advanced and expensive 'Fire Kylin Battle Armors'.

"Moreover, after the Xinhui business building incident, the Azure Alliance's momentum is getting bigger and bigger. They have the upper hand. There's no need for them to make a stupid move and expose the scandal of assassinating a god-level powerhouse.

"Wait a minute. Meng Chao, it's definitely not a coincidence that you're here. Instead, you're following the trail of these assassins. In other words, you know their identities?"

"A little."

Meng Chao said, "They're from the Blood Union."

"The Blood Union?"

Shen Yuanbao was slightly stunned. He said subconsciously, "Didn't the Blood Union fall apart decades ago and be completely destroyed?"

"The Blood Union is just a name. As long as their desires and ambitions continue to grow and become monsters lurking in People's hearts, any ambitious person can form a brand-new blood union."

Meng Chao said, "A few years ago, wasn't there someone who said that the universal group was bullying and dominating the market? It was simply a smaller blood union."

Shen Yuanbao was speechless for a moment.

However, this expert of the older generation was, after all, an ambitious person. He knew the priorities of the matter.

He ignored the sarcasm in Meng Chao's words and said with a serious face, "What exactly is going on? Could you please tell me the whole story, young friend Meng?"

Chapter 1566: Jumping Out of the Three Realms

Meng Chao did not want to provoke this old Deity Realm warrior who was seriously injured but still as ferocious as a mad tiger.

He told him everything that he had seen and experienced after he sneaked into the Red Creek Valley, including the loss of the Red Creek Project, someone pretending to be an orc, detonating the crystal warehouse, and Shen Yulin joining the Blood Alliance.

In the end, Shen Yulin had been killed by the Blood Alliance via remote control, and so on.

Finally, Meng Chao stared at Shen Yuanbao and said, "Senior Shen, the Red Creek Project has a huge problem. The Red Radiance Jade reserve isn't as rich as your company's annual report claims, which was announced to the Financial Transactions Committee and the majority of investors. The raw crystal ore that's mined hasn't been 100% reported to the Supernatural Tower. You haven't obtained trading permission in accordance with the requirements of the Crystal Transaction Law and the Strategic Resource Management Regulations. Are you aware of that?"

Shen Yuanbao listened silently.

Even when he heard the most thrilling and horrifying part, his expression remained unchanged.

Faced with Meng Chao's questioning, the tyrannical leader of Universe Group was silent for a full three minutes before he slowly shook his head and said, "I didn't know."

Meng Chao obviously did not believe him. "Is that so?"

"Don't misunderstand. I have no intention of shirking responsibility."

Shen Yuanbao raised his head. The aura of a warrior who had the air of a scoundrel was unmistakable. "In fact, I don't think that there is anything wrong with what we are doing. Mining the mother lode of crystals is a gamble in the first place. It is common for the actual reserves to be inconsistent with the expected reserves.

"However, the investors, especially the small and medium-sized investors who have taken out their coffins and daily necessities, are all short-sighted and short-sighted. If we tell them the real situation of the mother lode of crystals honestly, it will only scare them away. Instead, it will lead to turmoil in the financial market. In the end, the interests of the small and medium-sized investors will not be harmed?

"It's just a mere Red Creek Project, so be it. As long as you can muddle through the accounts, What's the problem if you make up for it from other projects?

"As for the large number of crystal ores not being reported to the Supernatural Tower truthfully? This is an unspoken rule in the circle!

"Meng Chao, you are now considered a powerhouse. Your Superstar Company is also considered one of the top ten companies in Dragon City's market cap. Just be honest and honestly say that on the path of your Superstar Company's miraculous rise, are you really 100% legal? Absolutely. Can you withstand the scrutiny of a magnifying glass or even a microscope?"

Faced with the questioning of the older generation of godly state experts, Meng Chao was silent for a moment before he said seriously, "I dare to touch my conscience. To be honest, everything that I have done on my way to rise is absolutely legal and can stand the test.

"As for the Super Star Group... The main shares are in my father's hands. I usually don't participate in the daily operations of the company. Besides, after a few mergers and acquisitions, the company is too big and has too many employees. I Can't make such a guarantee on behalf of the entire company."

"Then it's settled!"

Shen yuanbao grinned and said, "People in the jianghu have no control over themselves. We are all people in the circle. We both know the unspoken rules in the circle. Why do we have to pretend to be pure and flawless hotheads?"

"Now, which of the big companies and big figures in Dragon City, which one of them can pat their chest and guarantee that they are 100% legal?"

"How can a fool who is 100% legal cultivate to the heavenly or godly state and become the overlord of a certain domain?"

"In fact, the rules of the extraordinary tower are unreasonable in the first place. The crystal veins that contain heavenly materials and earthly treasures and rich spiritual energy were all snatched back by the strongest experts like us who had their heads on our belts, danced on the fangs and claws of the monsters, and fought with the monsters.

"Why do they have to pay such a high resource tax and transaction tax?"

"According to the Beyonder Tower's statement, 'all strategic resources belong to all citizens of Dragon City'. What motivation do Beyonders have to plunder more resources for Dragon City's civilization in the wilderness or even beyond the Monster Mountains? Wouldn't it be more fragrant if everyone stayed at home comfortably and slept on their beds, waiting for the Beyonder Tower to 'distribute'the resources fairly?"

"After all, Beyonders are also members of all the citizens of Dragon City!"

"Such lofty rules are nothing but Bullsh * T. they can only be used to restrict small and medium-sized enterprises that have not contributed much to Dragon City.

"As for the Superstar Corporation and the Universal Corporation, we can tell from our size that we have contributed greatly to Dragon City's tenacious existence and development. We have made great contributions. Of course, we can not and should not be subject to any restrictions. Instead, we have to 'jump out of the three realms and not be in the five elements'. We have to do whatever it takes to develop in order to continue making greater contributions to Dragon City!"

"Therefore, if I were personally in charge of the Red Creek Creek Creek project, I would not have disclosed the real situation of the project to the investors. I would have also kept a large batch of raw crystals for the training of my own extraordinary individuals. At most, I would have done things more beautifully and not as crudely as the useless juniors.

"It's a pity that I did not know anything about it at all.

“As you know, I’ve been treating my injuries for the past year.

“I know that many news outlets have reported my injuries.

“However, even the most sensational ones have reported less than one-tenth of my actual injuries.

“In fact, after the decisive battle with the monster mainframe, I was in a coma for a full three months. There were a few times when I felt that my soul had passed through the Endless Abyss and returned to Earth, where my dreams lingered.

“After I slowly woke up, it took me another three months to barely regain the ability to stand and walk.

“Under such circumstances, of course, I don’t have the spare energy or thoughts to take care of the matters of the Universal Corporation.

“In the past year, I’ve left the affairs of the Universal Corporation and the Shen family, big and small, to my children and grandchildren to take care of. I’ve been cultivating in seclusion in the secret sanatorium in the depths of the raging waves mountain range.

“I don’t expect to recover to my peak condition. I just hope that I won’t end up like the martial god, Lei Zongchao!”

Meng Chao observed Shen Yuanbao’s expression and felt that he wasn’t lying.

He carefully recalled Shen Yuanbao’s style of doing things.

This supreme expert, who had been tyrannical all his life, was indeed not the kind of rat who would hide his head and show his tail.

Although what he said just now was very shameless and magnanimous.

But in the magnanimity, there was also a bit of helplessness.

Meng Chao’s thoughts flashed, and he instantly understood. “It seems that in the past year, senior Shen’s control over the universal group and even the Shen family has not been as great as before. To put it bluntly, you are the same as me. I don’t know who to believe!”

Chapter 1567: Betrayer

The veins on Shen Yuanbao’s forehead and fist were intertwined and bulging.

It was as if others had seen through him and he had become angry out of embarrassment.

However, he remained silent for a long time. Facing Meng Chao’s spirit flame that was burning even more fiercely than his, he finally let out a long sigh and tried to convince others with virtue.

“That’s right. There are dead branches in a big tree. The Shen family and Universe Corporation have been developing for decades. With their current status and scale, it’s very normal for a few thieves, scum, and traitors to appear.”

Shen Yuanbao lamented, “I’m already old, and I suffered too many serious injuries when I was young. I’ve paid an unbearable price to maintain my Deity Realm.

“Today, although I’m in a better state than Battle God Lei Zongchao, I may burn my life and return to the earth one day.

“I can’t protect the Shen family and Universe Corporation forever.

“Therefore, I have been hiding from the family and corporation’s top management for a few years.

“I have delegated many key businesses in key areas to the younger generation without hesitation.

“Even if the younger generation makes mistakes occasionally, or even crosses the line sometimes, I’ll just observe them quietly and never advise, reprimand, or punish them.

“I just want to observe the abilities and character of these juniors. I want to see who’s suitable to inherit my life’s work, the Shen family, Universal Corporation, and even... some Deity Realm power!

“However, it seems that some of the juniors think that I am old and muddle-headed. They think that I, the Heaven Battering Leopard, am so old that I’ve lost all my claws and teeth. I’m so old that I can neither clench my fists nor lift my saber. I am so old that they can do whatever they want under my nose, but I can’t do anything to them. In fact, I’m so old that I can easily be killed by the assassins they send out?

“Hahahahaha!”

Shen Yuanbao laughed coldly.

His laughter was one of the most terrifying sounds that Meng Chao had ever heard.

“However...”

Shen Yuanbao’s laughter was suddenly upended by a long sigh. His eyes were empty, and his face was filled with sadness as he said, “Even Yan En betrayed me. This is indeed something that I never expected. Yan En, oh Yan En, how could you be so stupid? You have really made yourself stupid to death!”

Meng Chao asked, “Who is Yan En?”

“He’s my personal doctor. He’s also an orphan that I rescued from a ruin that was destroyed by a monster more than 30 years ago and raised with my own hands.”

Shen Yuanbao paused for a moment and said briefly, “At the same time, he’s also the person who poisoned my body.”

Meng Chao completely understood.

The Personal Doctor of a godly state expert was, of course, the person he trusted the most.

The orphan that was rescued from the ruins and raised by his own hands was, of course, more intimate than an ordinary foster son. Their relationship was not inferior to that of blood relatives.

Meng Chao himself had a similar experience.

Up to this day, he had long forgotten that there was no blood relationship between him and his parents. They had condensed into an unbreakable fated community that far exceeded the blood relationship.

Shen Yuanbao and that 'Yan en' should have a similar relationship.

At least, in Shen Yuanbao's eyes, it was a similar relationship.

Therefore, when Shen Yuanbao was seriously injured, he would feel at ease and boldly accept all the treatment plans proposed by this private doctor.

In the end, he fell for the other party's words.

"Where is this 'Yan en'?"

Meng Chao's eyes flickered. "It's highly possible that he's a member of the Blood Union!"

"As I said earlier, he's already dead."

Shen Yuanbao retracted his dejected expression. It was as easy as putting his hand back into his pocket. He said coldly with a straight face, "Of course, I know the importance of keeping him alive. However, in that situation, with so many fire kirins attacking at the same time and me being poisoned, my life magnetic field was extremely unstable. It was very difficult for me to control myself.

"Moreover, even if I don't kill him, as long as I'm not dead, it's impossible for him to survive. Assassinating a godly state expert is the most dangerous gamble. If I don't succeed, I can only die.

"He's a top-notch doctor. There are a hundred ways to kill himself instantly.

"The clue to Yan en has been cut off. However, I'm curious. Since you don't know Yan En, which clue did you follow all the way here?"

Meng Chao composed himself and omitted a lot of details. He talked about the underground black market and the 'giant-toothed crocodile'.

He explained to shenyuan bao, "I can assure you that the Xinhui business building was not planned by the Azure Alliance in advance. It was a chain reaction caused by the eruption of the volcano in the hearts of the middle-and low-level extraordinaires.

"It makes sense. The price of cultivation resources on the black market is three, five, or even seven, eight times more expensive than in the regular market. It is obvious that the middle-and low-level extraordinaires with no background are being slaughtered like pigs. Who doesn't have a lot of grievances?"

"As far as I know, a large part of the genetic medicine and cultivation resources flowing into the black market come from pharmaceutical manufacturers related to the universal group. I wonder if senior Shen is aware of this, and do you think it is fair to do so?"

"... Fair?"

Shen Yuanbao did not answer Meng Chao's question directly, "Young friend Meng, do you know how much people were willing to pay when I was young, in an era where order was broken and lawlessness was rampant, in order to snatch a crystal that was not of high quality but was barely condensed into form?"

“They were willing to risk their lives to kill until their limbs were mutilated, their intestines were pierced through, and their heads were rolling!

“My cultivation resources have all been stepped on by countless people and snatched over by my own fists.

“The other godly state experts in the nine super corporations, and even the martial god Lei Zongchao, are all the same as me.

“Unlike the young people who are full of complaints today, we have never complained before.

“Because after experiencing the cruel era where the strong preyed on the weak and the winner became king, we are very clear that from ancient times to today, from Earth to the Otherworld, there has always been a distinction between the strong and the weak in this world, and there is No ‘fairness’!

“In today’s dragon city, cultivation resources can be placed on the shelves, and they can be bought with money. The question of the highest price is already a very rare fairness since ancient times.

“Sometimes, I really don’t know what these middle-and low-level extraordinaires, who come from humble families, are thinking about.

“Do they expect to be able to buy priceless rare resources without spending a lot of money?

“Do they expect the whole society to Pamper them, let them be pampered, let them be pampered, and let them cultivate to become peerless experts without experiencing any hardships?

“Do they expect the benefits of the nine great cultivation families to be delivered to them instead of their own people?

“Do they really think that they are exactly the same as the descendants of the noble families?

“No way! No Way!”

Chapter 1568: Special Effect Medicine

Clap! Clap! Clap!

Meng Chao clapped.

“What you say makes a lot of sense, Senior Shen.”

Meng Chao spoke in all seriousness. “It’s a pity that you’re heavily injured. I really should have invited you to the Xinhui Business Center’s entrance to face the thousands of unruly superhumans who couldn’t contain their anger. I believe that you would’ve definitely been able to appease their anger by telling them what you said from the bottom of your heart.”

Shen Yuanbao was rendered speechless for a moment.

He mumbled something like “the rabble.”

In the end, he did not fall out with Meng Chao.

He simply said, "Young friend Meng, let's not dwell on issues that can never be resolved. Let's return to the Blood Alliance!"

Meng Chao still needed Shen Yuanbao's cooperation. He did not think that he could change the supreme expert who had been a tyrant for his entire life with just a few words.

He briefly described the discovery that he had made in Tailless Monkey's hiding place.

He only hid Tailless Monkey's name and Ai Lei's existence.

Then, he talked about how he had discovered the Horizon Biotechnology problem through aerial reconnaissance.

He had followed the sewage pipes and traced the source to the secret laboratory that the company was hiding underground. He had also witnessed the extremely dangerous experiments involving the Blood Flower.

Meng Chao said, "Horizon Biotechnology Co. Ltd. is not famous, but its origin is mysterious. According to the information publicly available, the investors and managers are all nobodies. Apparently, they are just puppets pushed to the front. There must be a real mastermind behind them.

"I think that this mastermind must be related to the blood union.

"I wonder, how much does senior Shen Know About Horizon?"

Shen Yuanbao had a weird expression on his face and was in a rare dilemma. "This..."

Meng Chao noticed the awkwardness that flashed across Shen Yuanbao's face. He narrowed his eyes and said, "Why? Does senior Shen Know About Horizon's background very well?"

"Wait a minute. It Can't be that the investor behind Horizon is your universal group, right?"

"Wait a minute. When I mentioned the secret base of horizon and the extremely dangerous blood patterned flower experiment, senior Shen's reaction didn't seem as intense as I had imagined.

"Even when I mentioned that Professor Monster Fei Qingyun was still alive, senior Shen's surprise was rather stiff.

"It can't be that you knew about the existence of this laboratory long ago and that Fei Qingyun was still alive, and that you were helping the Universal Corporation and the Shen family, which is to say, helping senior shen to secretly carry out the research on the blood patterned flower?"

Shen Yuanbao was silent for a moment before he sighed, he said, "Horizon Biology Limited company is indeed a chess piece that the universal group has set up. I also know that this company is carrying out some highly dangerous secret research, but as I said earlier, I have not participated in the actual operation of the company for several years. Therefore, I do not know the specific content and progress of the secret research, and no one has reported to me who exactly is the person in charge of the secret research."

"Why?"

This vague statement did not satisfy Meng Chao. He stared at Shen Yuanbao and said, "Similar research must be reported to the transcendental tower because it is highly dangerous. It can only be conducted under the supervision of the various universities and related laboratories in Dragon City.

"Why didn't you do so?"

"Didn't you already say the reason?"

Shen Yuanbao said, "If we were to report to the transcendental tower, we would have to accept all kinds of supervision. When we conduct research, we would definitely be restricted by many factors. How could it be so easy to produce an epoch-making result?"

"The blood patterned flower is an extremely sharp double-edged sword. When it spews venom without restraint, it can create thousands of zombies and an overwhelming tide of undead creatures.

"But on the other hand, it can also break the life forms that humans have reached the end of. It can help us reach the peak of the godly state, clear the clouds and see the sun, and find a higher peak.

"Meng Chao, an extremely smart and powerful person like you should know how difficult it is to sweep across the entire foreign world with the current torrent of steel. If the foreign world was really so easy to conquer, the doomsday beasts such as the nine-headed diamond dragon wouldn't have to hide in the monster mountains for so long. They would have long rushed out and wreaked havoc on the entire planet.

"There must be some kind of powerful force that has locked all the monsters here, including the apocalyptic beasts.

"Although we have won the Monster War, the current strength of the Dragon City civilization is not ten times or even a hundred times stronger than the monster civilization. In other words, the force that can lock the monster civilization can also lock the Dragon City civilization.

"We need to break through!"

"In order to conquer this mysterious, powerful, and fertile planet, we must break through at all costs.

"Break through the limits of life, break through the limits of civilization, and break through the limits of combat ability!"

"The blood-patterned flower is the 'catalyst' that will help us break through!"

"And my injuries.

"My injuries are too severe. Even after conservative treatment for an entire year, I can only forcibly seal my injuries in my body. I can't even remove half of my injuries and wounds, let alone heal them.

"If this continues, I'll become like the martial god Lei Zongchao in less than a year or so. I'll be able to hide in a small house where I can't see the Sun all day long. Every once in a while, I'll have to wear a thick turtle shell when I go out. If I go all out, I might be scared out of my wits at any moment.

"According to the comprehensive research of the experts of the Universal Corporation, the blood-patterned flower is the only special medicine that has the possibility of curing me.

“Once the research is successful, I won’t be the only one who can be cured. All the god-level powerhouses who were heavily wounded in the final battle against the monster’s mainframe, including the martial god Lei Zongchao, will also be cured!

“Think about it. If all the god-level powerhouses in Dragon City, including the martial god Lei Zongchao, can be cured or even restored to their peak condition, how much will it increase the war potential of our civilization?”

“Faced with such an attractive future, are issues such as declaration, supervision, and compliance still a problem?”

Meng Chao could not help but sneer.

“It seems that senior Shen is still very concerned about the situation in the outside world and the future of Dragon City even though he has been in seclusion to heal his wounds,” Meng Chao said

“Besides, I noticed that when you mentioned Fei Qingyun just now, you used the phrase ‘no one has reported to me who the person in charge of the research of the blood patterned flower project is’.

“I think that ‘no one has reported to you’ and ‘you don’t know’ can not be equated.

“So, you knew long ago that Fei Qingyun was not dead and was working for the universal group, the Shen family, and you, right

“Not just for us.”

Shen Yuanbao corrected Meng Chao. “But also for Dragon City and for all mankind.”

Chapter 1569: An Assassin’s Identity

“For Dragon City and for all mankind, huh? How great!”

Meng Chao sighed. “In that case, you must have done something against Dragon City and the human civilization, Senior Shen. That’s why a loyal person like Fei Qingyun was forced to kill you!”

His words made Shen Yuanbao blush.

After all, no matter how beautifully Shen Yuanbao put it, the Shen family and Universe Corporation had major internal problems. His ability to control the situation had been reduced to the point of no return. Even a blind man could see that.

Shen Yuanbao did not argue with Meng Chao for a long time.

At that moment, he managed to stabilize his injury and stood up shakily.

He walked to the unconscious “field commander” and pressed his bloody palm on his chest.

Electric arcs materialized out of Shen Yuanbao’s palm.

The field commander trembled before his eyelids opened slightly, and his breathing became heavy.

Meng Chao did not stop Shen Yuanbao.

He believed that this ruthless expert of the older generation was more suitable for the job of torture than himself.

Shen Yuanbao's spirit energy flowed into the commander's heart like a stimulant.

It then flowed through his heart and into the blood vessels all over his body.

The commander regained consciousness, and his eyes gradually focused as he stared at Shen Yuanbao, who was right in front of him.

If he had been an ordinary assassin, he would have been scared out of his wits when he faced a Deity Realm warrior whom he had failed to assassinate.

However, this commander on the scene was a tough man. His expression was calm as usual.

Shen Yuanbao looked like he was chewing on an invisible copper pea. His two rows of teeth made gurgling sounds. He said with a stern face, "Do you know who I am?"

The commander on the scene laughed. His smile was like a pool of water that had been ruffled by the Spring Breeze. He nodded and said generously, "I know."

"You know who I am, yet you still dare to make such a big scene. You guys are quite brave!"

Shen Yuanbao said, "I admire a tough guy like you the most. Tell me the mastermind behind this, and I'll give you a quick death!"

The commander on the scene blinked, then shook his head and said indifferently, "I don't know."

Shen Yuanbao revealed an extremely surprised expression.

"Since you know who I am, you must have heard of my methods."

Shen Yuanbao said, "I believe that a good man like you would never be afraid of death. However, death is far from being the most terrifying thing in this world. Believe me, I am proficient in 100 methods that make you unable to live or die. Even a godly state expert would not be able to withstand these methods."

"I absolutely believe that."

The commander on the scene said calmly, "You are indeed a notorious existence in the circle of extraordinaires."

"Moreover, I also believe that I will definitely not be able to withstand your punishment. I'm afraid that it won't be long before my nerves will collapse and I will kneel down and beg for mercy."

"Unfortunately, I really don't know who exactly wants to assassinate you."

"Even if you cut me into a thousand pieces, there's only one thing I don't know."

"You don't even know the identity of the mastermind behind the scenes, yet you dare to listen to the orders of the other party and come here to assassinate a godly state expert?" Shen Yuanbao was shocked.

Meng Chao observed his expression, but he felt that the other party didn't seem to be lying.

"Who are you?"

Meng Chao took half a step forward and asked, "How could you be recruited by an unknown mysterious person to assassinate a godly state expert, the patriarch of a cultivation aristocratic family, and the head of one of the nine Super Enterprises in Dragon City?"

"You should know that such an earth-shaking assassination, not to mention the failure, will end in a tragic end. Even if it succeeds, you will likely be silenced by the mastermind behind the scenes and be cut off from future trouble.

"What kind of price did the other party offer to make you, and so many assassins, take such a big risk?"

The commander on the spot narrowed his eyes and carefully sized up Meng Chao for a long time.

It seemed that he wanted to search in the memory bank for the identity of this guy who came out of nowhere and ruined their plan.

However, after searching for a long time, he still couldn't connect Meng Chao's meticulously disguised face to the many powerhouses in Dragon City.

A hint of confusion flashed in his eyes.

"My name is Ren Tianxiong. I used to be an employee of Huanyu Group."

The commander on the scene didn't lie.

Since the assassination had failed and had fallen into the hands of a godly state expert, he had long lost all hope of survival. All he wanted was a quick death.

Other than not knowing the true identity of the mastermind behind the scenes, he told everything he knew as though he was pouring beans out of a bamboo tube.

Shen Yuanbao did not expect that the other party was actually from his own company. A look of surprise and embarrassment appeared on his face.

He stared at the face of the assassin leader, Ren Tianxiong, and carefully looked at it for a long time. After recalling it in his mind for a long time, a faint impression emerged.

"President Shen, you don't have to think about it. When I was in the universal group, I was just a small character who had just stepped into the heavenly realm. How could I possibly catch the eye of a big shot like you?"

Ren Tianxiong said with a faint smile, "Speaking of which, the universal group treats me quite well. All kinds of treatment are among the best in the same industry.

"However, the work pressure was really great. The competition was really fierce, and the pressure was really fierce.

“At that time, for the sake of the Huanyu group’s rapid development, the basic-level employees like us risked our lives day and night. It could be said that for every penny that the Huanyu group spent on us, we would earn back five and ten dollars for the Huanyu Group.

“We had to cultivate, fight with monsters, and also take care of our own work. Even an iron machine had to exceed the limit of fatigue and cause all kinds of failures, let alone people with flesh and blood?

“Some low-level employees had tough skin and thick flesh, and they were lucky enough to be able to grow together with the universal group.

“However, I was one of the people who couldn’t stand the torment and was unlucky. Because I was too busy and tired during the day, I was distracted during cultivation at night and suffered from internal injuries. As a result, I became mentally deranged and my injuries broke out. I was almost a cripple.

“A piece of trash who was riddled with injuries was naturally not qualified to continue working for Universal Group.

“What was even more unfortunate was that the time and place when I became mentally deranged was not in the company during the day, but in my own home at night. At that time, I had just worked overtime for a full three months and worked hard to complete a big project for the company. Only then could I catch my breath and Rush home before 10 o’clock at night. I was just about to seize my precious time to make up for the gap in my training caused by a few months of overtime work. Who would have thought that I would become mentally deranged?

“Even if I were to go to court, I wouldn’t be able to prove that my mental derangement had anything to do with the company’s long-term overtime.

“So, I had no choice but to sign the contract with the company and receive a small compensation

Chapter 1570: Ren Tianxiong’s Encounter

Meng Chao took a deep look at Shen Yuanbao.

The nine mega corporations of Dragon City were all famous for their high salaries, long working hours, and extreme work pressure.

The employees of the nine mega corporations worked from morning to night every day for three to five weeks straight or even two to three months without rest. It was a common occurrence.

Every night at twelve o’clock, one could go to the financial district or the high-tech development zone to take a look. The brightly lit buildings all belonged to the nine mega corporations.

However, the cultivation of superhumans required a large amount of time without interruption, a body that was well-rested, and an absolutely clear mind.

During the day, they were extremely busy in the company. For the sake of the project targets, they lost a lot of hair and returned home exhausted. Just as they started to cultivate, their superiors would call and raise certain requests. They might even have to cultivate while having a conference call or something.

In such a state, how could a superhuman cultivate?

Therefore, a very strange phenomenon appeared in Dragon City.

Due to the super high salary and the green channel to purchase cultivation resources, the employees of the nine mega corporations could rely on resources to forcibly build up their realms.

However, the probability of their spirit energy deviation was often much higher than the extraordinaires of the “Non-nine supercorporations.”.

Furthermore, this assassin leader named Ren Tianxiong, a former employee of Universe Corporation, was right.

The nine supercorporations all raised a powerful legal team.

They were also inextricably linked to the law enforcement and arbitration organizations in their respective regions.

When recruiting new employees, new employees were often required to sign all kinds of disclaimers, struggle statements, and exemption clauses.

Unless it was during office hours and the employee went crazy on the job.

Otherwise, although the compensation was not small, it was definitely not much. It was impossible to cover the rest of the employee’s life.

“I see.”

Shen Yuanbao ignored Meng Chao’s gaze and said in a deep voice, “So, this is revenge?”

“Revenge?”

Ren Tianxiong laughed. “President Shen, you place too much importance on yourself and the Huanyu Group.

“Although I do have some complaints about the Huanyu group, these complaints are not enough for me to destroy the rest of my life and get entangled with the Huanyu Group.

“After all, I still have my own family and my own life to live.

“Therefore, after I received the compensation, I simply forgot all the grudges and disputes with the Universal Group.

“However, my situation at that time was indeed terrible. Not only was I as weak as an ordinary person, but I also had to bear the high medical fees that ordinary people did not have to bear. The compensation could not last long at all.

“I had no choice but to become a ‘drug tester’.”

Meng Chao and Shen Yuanbao both knew what a ‘drug tester’ meant.

Every year, the major enterprises, universities, and medical institutions in Dragon City had to develop hundreds or even thousands of new gene reagents.

Most of the new gene reagents originated from the monster's body fluids, hormones, or the depths of the Archean ruins.

Naturally, they possessed a certain level of danger.

Therefore, many experiments were needed to confirm the effects before they could be marketed.

After animal experiments and monster experiments were confirmed to be basically harmless, recruiting volunteers to test the drugs was also a necessary process.

Of course, a formal drug test had multiple layers of supervision and protection. It was usually able to ensure that the volunteers' bodies were not harmed.

It was completely different from what the Blood Union did.

"When I was still working at the universal group, I made a lot of friends in the circle. After their introduction, I got the qualification to test drugs from several super companies and major universities, including the Universal Group."

Ren Tianxiong smiled and said, "I just wanted to make some money. I didn't expect that my luck would turn around. When seven or eight kinds of drugs were injected into my body, I didn't know what kind of wonderful chemical reactions happened. They gradually healed my injuries and even allowed my strength to soar. I crossed the threshold of the heavenly state in an instant!"

Meng Chao and Shen Yuanbao nodded at the same time.

The Sequela of Qi Deviation was miraculously cured. Although it was rare to see a person's strength soar by leaps and bounds, it was not unique either.

Ren Tianxiong told them that after the dispute with the universal group the last time, he had already seen through the behavior of the Super Enterprises.

Although he had become a heaven-grade powerhouse and had worked in the universal group for many years, if he applied for another job, there was a high chance that he could join another super enterprise — such as Atlas Group. He could even be promoted, get a raise, and get shares or something, however, he did not want to live such a life of looking up to others.

Therefore, he decided to set up a small company by himself. He found three to five friends who shared the same interests and personally went into the wilderness to hunt monsters.

Although he did not get much, it was fortunate that no one was in charge of him. He also did not need the daily, weekly, and monthly reports. He was burdened with all sorts of performance indicators. He allowed his superiors at different levels to oppress him. He lived a carefree life.

Since that was the case, Meng Chao and Shen Yuanbao didn't understand.

"Since you're living such a carefree life, then who can drive you to assassinate me?"

Shen Yuanbao narrowed his eyes and stared at Ren Tianxiong. "Could it be that the other party is using something to threaten you — your scandal, your career, your family?"

Ren Tianxiong shook his head slowly.

He stretched out his arm and rolled up his sleeves.

Meng Chao and Shen Yuanbao saw that there was a dense red bump on the inside of Ren Tianxiong's elbow.

There were also small white spots on the bump.

It looked both horrifying and disgusting.

"I'm going to die."

Ren tianxiong said calmly, "There is no free lunch in this world. We have to pay a corresponding price for everything we get.

"I once naively believed that the sequelae of my qigong deviation had been completely cured by the chemical reactions brought about by seven or eight pharmaceutical experiments.

"However, I was wrong. I was terribly wrong.

"The chemical reactions of the pharmaceutical experiments merely suppressed the sequelae of my qigong deviation and suppressed it deep into my blood, brain, and internal organs.

"It was like a thick spring. The more it was compressed, the more violent the rebound would be in the future.

"And I didn't realize it at all.

"Carrying the fatal 'spring' in my body, I fought crazily with the monsters in the wilderness. I burned my cells unscrupulously and overdrew my life force. I exploited the potential of my flesh and blood to the fullest time and time again. As I pushed the limits of my life, I also pushed the 'spring'.

"Finally, one day a year ago, my body suddenly collapsed.

"My immune system completely collapsed. My body, which was originally made of copper and iron, became an undefended city. Regardless of whether it was the cold virus from Earth or the mysterious power from another world, they could march straight in without bloodshed
