

## Older Man 39

### Chapter 39: You're Hurting Me

In the VIP suite of the hospital, Jiang Yu was resting in the ward.

She was almost fully recovered, but Mo Long still insisted that she stay in the hospital for another day to prevent her condition from relapsing.

"I'm so glad that you're okay, daughter!" Wei Juan and Jiang Ran pushed the door open and entered, pretending to be concerned.

"I'll stay here to take care of you tonight."

It was rare for Jiang Yu to see Wei Juan so considerate, so she couldn't say anything to reject her.

Seeing this, Mo Long tacitly agreed to this matter. "Alright, I'll rest in the bedroom next door. Let me know if there's anything."

Although the people of the Jiang family were very detestable, as long as Jiang Yu still cared about this kinship, Mo Long could still tolerate them.

Jiang Yu nodded. She didn't want Mo Long to work too hard.

Wei Juan and Jiang Ran looked at each other. Soon, Jiang Ran found an opportunity to leave.

This VIP Ward had two bedrooms, a ward, and a kitchen hall. Everything was available.

The cost for a day was over ten thousand yuan.

Jiang Ran glanced at the closed door and thought of what Wei Juan said. She must take down Mo Long, so she immediately went into the other room and changed her clothes.

When she came out, she was already wearing a sexy outfit.

Wei Juan's message came through the phone. "Daughter, I'll watch over Jiang Yu. I won't let her go and cause trouble. Go ahead and take down Mo Long!"

Jiang Ran replied with an OK emoji.

Men generally could not resist the temptation of women. Even if Mr. Mo Long really did not fall for her, as a cripple, he was still at her mercy.

When the time came, the rice would be cooked and Mo Long would be engaged to her. At that time, she would be the most glamorous person at the banquet.

Jiang Ran thought it through and walked to Mr. Mo Long's room. She pushed the door open and walked in, then closed the door again.

The room was dark. Jiang Ran walked gently to the bed and felt a sleeping figure on the bed.

She immediately took off her shoes and quietly got on the bed.

She pounced on the figure.

But before she could touch the figure, she was pressed down on the bed by a hand.

The strength was so strong that Jiang Ran cried out in pain.

"Mr. Mo Long, you're hurting me!" Jiang Ran called out delicately.

In the ward.

Wei Juan's eyes lit up when she heard this voice.

Even Jiang Yu opened her eyes. "I think I heard sister's voice?"

Wei Juan said, "You heard wrong. Go and rest."

Jiang Ran's painful voice came from the other side again. "It hurts!"

Mo Long heard Jiang Ran's voice when he was pushed into the hall by another bodyguard with a wheelchair.

He froze on the spot and looked at the room with a frown.

Because the bodyguard took turns to take care of him, he let one of the bodyguards go in to rest first.

There were originally two bedrooms, and he wanted one for the bodyguard.

But unexpectedly, Jiang Ran came in with her luggage.

Mo Long didn't have time to arrange a new room.

In just a short while, he had just gone to buy supper when he heard a woman's voice coming from the bodyguard's room.

Another bodyguard asked, "Why is Jiang Ran in that room?"

Mo Long thought of something and looked at the door without batting an eyelid.

In the ward, Jiang Yu frowned and was about to get up. "I'd better go take a look. Something happened to my sister!"

Wei Juan thought that the matter was settled and immediately said, "Don't go. Your sister and Mr. Mo Long are more suitable. Don't disturb them!"

"Mom, what did you say?" Jiang Yu panicked and was about to leave immediately, but Wei Juan pressed her against the bed. "With me here, don't think about leaving this room today."

Ran Ran must have succeeded. She would not let Jiang Yu interrupt her at this time.

"Let go!" Jiang Yu's tone was extreme.

At this moment, the door was pushed open and Mo Long entered with a sullen face.

The bodyguard immediately pulled Wei Juan out of the bed.

Wei Juan looked at Mo Long in surprise. When she heard Jiang Ran's voice, which was still in pain, she pointed at Mo Long in disbelief. "Why are you here?"

Then who was the person with Jiang Ran now?

Wei Juan hurriedly pushed the door open and ran out. She kicked open the bedroom door and saw that Jiang Ran was tied up on the big bed.

A bodyguard was standing on top of her with his arms folded.

Seeing everyone enter, the bodyguard's expression turned cold as he said, "This woman suddenly barged in and tried to sneak attack me!"

Wei Juan almost fainted. "My daughter!"

Jiang Yu, who was following behind, shook her head when she saw this scene.

Seeing that Jiang Ran was actually wearing sexy clothes, how could she not realise what was going on!

On the hospital bed, Jiang Ran was crying like a pear blossom in the rain. "Mom, save me!"

She had just pounced over, but she was pushed back onto the bed. She was not willing to let go, so she struggled desperately. In the end, she was tied up by the bodyguard.. He didn't not show any mercy at all.
