?Chapter 251 – Chapter 251, Killing Two Birds With One Stone

Thank you readers!

When he said this, Yu Tian remained expressionless.

It was useless to object. It was even more impossible to persuade them to give up.

Chu Yichen had definitely put in all his effort for this project. How could he give up so easily just because of a few words from him.

If he wanted him to work with them, it was to show his determination. He didn't want to be his enemy.

He also didn't want to be his enemy with the Yu family behind him.

In the eyes of the Yu family, no matter what heaven-defying elements he could create, he could easily wipe them away with a wave of his hand.

So, this fox, Chu Yichen, was thinking of giving the lion's share to him. Then, he would slowly realize his pursuit.

And if he wanted to ruin his plan, he couldn't be too hasty. He had to fully master the core technology of the divine-bestowed elements in order to disintegrate everything.

Thinking of this, Yu Tian took a sip of his wine and nodded with a smile. "It sounds interesting, but I want to know if there are any drawbacks to this element?"

Seeing that Yu Tian had no intention to refuse, Chu Wei hurriedly said, "According to our tests in three years, the divine element is particularly stable in the human body. There are no defects. It can be said to be particularly perfect!"

Chu yichen said excitedly, "For the sake of developing this, I have already invested close to 70 billion. At present, I have already signed cooperation agreements with some people in the European continent.

"In the future, I will provide them with trial elements. The difference between trial and official use is that the trial-use of the god-bestowed elements can only last for a day, while the official one can forever increase the strength of the human body!"

Yu Tian would not believe his nonsense. It was obvious that there was a contradiction.

If the two opposing forces used this element, then who would win in the end?

Seeing that did not speak, Chu Wei displayed an extremely strong ability to observe people's expressions.

She smiled and said confidently, "My Lord, you must be thinking that if both of them used this element, who would be able to control them?"

In fact, we had already thought of this problem. So, while we were developing the element, we also developed a control element of extreme rice.

Extreme rice is the smallest unit of volume in the world. It can only be seen under a microscope that is thousands of times smaller than a bacterium. It will be injected into the human body along with the element,

when the target human body goes out of control or becomes hostile, we will activate the element program, and the element will be diluted instantly!"

Yu Tian was really convinced. He asked helplessly, "How many of you haven't died from working on this game?"

Chu Wei also said with a frown, "Some of you will definitely die. When the god-given elements were just developed into the first generation, the person who was injected went crazy. Even the tank was overturned, and the missile couldn't kill him. Almost half of the city was destroyed!

He was shocked. could his combat strength really be so Valiant?

He asked, "Then how did you kill him in the end?"

Chu Wei shook her head and said helplessly, "Fortunately, it was the first generation of the drug. He only had one day to take effect. When the time passed, he calmed down. Because he couldn't stand the stimulation, he committed suicide!

Hearing this, Yu Tian felt like he was listening to the plot of the Avengers.

Needless to say, Yu Tian stood up and went to the big screen. He raised his head and looked at the screen of the examinees, then, he asked very naturally, "If you want me to join, that's fine too. I need to get the core technology of this element!

Chu yichen frowned slightly. If he was just taking what he needed from Yu Tian, then there would be no trust.

If betrayed him for the sake of benefits, then he wouldn't have any ability to contend with him. He could only watch helplessly as he was abandoned and trampled to death.

Because he had the heavenly tyrant order, the lives of all the members of the Chu family, even those who cooked in the kitchen, including himself, were in his hands.

Seeing that he was unwilling to agree, Yu Tian asked with a cold face, "What? You Don't want to hand it over to me?"

Chu Yichen hurriedly got up and pretended to be very willing to say, "No, you misunderstand me. I want to say that core technology and so on can be handed over to you, but this is not very useful to you."

"Our interests are the most important. Of course, I will immediately give you the core technology!"

After saying that, he immediately gave Chu Wei a look. Chu Wei took out a USB from the password box and handed it to Yu Tian.

"This is all the core technology of the god-given element, but you must take care of it. It's really important. All the commercial spies in the world want it!" Chu Wei warned repeatedly.

Yu Tian threw the USB into his pocket and laughed. He said disdainfully, "Who can take what's in My Hands?"

Then, Chu Yichen rubbed his hands and made a difficult request, "Master, now that you've gotten the core technology, when will you help me become the family head?"

He hadn't even done anything yet, and he was already making a request.

Yu Tian said coldly and arrogantly, "What are you in a hurry for? I've been busy with those women all day, so I don't know much about the upper echelons of the Chu family. Furthermore, I don't know if the divine element will be able to satisfy my request,

I'll let you become the family head after I'm able to control some of the people in the Chu family!"

Chu Yichen was unhappy, but Yu Tian's words were watertight and very reasonable.

The other family members would not agree to change the family head rashly.

Moreover, if Yu Tian did not speak, he would not be the family head.

This was the foundation of the cooperation, and also the reason why he had to cooperate with Yu Tian in the first place.

So, he could only nod his head helplessly and reluctantly said, "Alright, I'll listen to the Lord's wishes. I have a presumptuous request. I hope that Chu Wei can stay by the family head's side."

The fate of the 108 sisters of the Chu family can never be changed. My Daughter is also one of your women. It's better for her to stay!

This old fool really had many ideas.

Letting Chu Wei stay could change her position among the 108 sisters. Secondly, she could keep an eye on their cooperation at all times, killing two birds with one stone.

However, this was very normal. This way, the game was also a little interesting.

If everyone was an idiot, how could they experience their own strength?

Yu Tian nodded and said proudly, "It's okay to stay by my side, but she can't be the president of the Tianhai Group. Go To my galaxy technology and manage my six-dimensional code project!"

As long as she could stay by Yu Tian's side, she could accept anything. Chu Wei said happily from the bottom of her heart, "Okay, no problem. I'll listen to whatever you say. I'll do whatever you want!"

When he said this, Chu Yichen sighed in his heart. His daughter had completely lost her mind for Yu Tian.

Was it really alright to hand this plan to her?

?Chapter 252 – Chapter 252, Counterattack Plan

Thank you readers!

After returning to water bay, Chu Qing brought all her things over and said directly to Yu Tian, "From now on, I'll be the mistress of this place!"

Yu Tian looked at her helplessly. Since they were already engaged, let her be. He only said indifferently, "Sleep early. Tomorrow, you'll continue to be the president of the Tianhai Group!"

Chu Qing was shocked, and then she jumped up excitedly. She said excitedly, "Really? That firewood girl, Chu Wei, is finally willing to get lost?"

"What do you mean get lost?" Yu Tian said with a frown, "I asked her to manage the six-dimensional code project at xinghe technology. She can't leave yet!"

“Why can't she leave? Don't tell me you like her?” Chu Qing asked with a frown.

Yu Tian chuckled foolishly and said, “All in all, the 108 sisters are my women. What's the difference between liking someone and not liking someone? Although Chu Wei doesn't get along with you, she's still one of the 108 sisters. I Can't be so unfair, right?”

“Besides, we're both engaged now. In the future, when we get married, everyone will have to address you as first madam. Isn't that enough for you to Pretend?”

Chu Qing gave him a fierce rebuke and complained, “You're not allowed to curse. I still have to remind you that you can stay, but I must be your first woman. Let's go to the room now. I’ve already made the bed!”

Yu Tian's head buzzed. He thought about it and decided to forget it. He was really not in the mood now. At least, before he completely settled the internal conflict in the Chu family, he absolutely could not let love restrain his strength

He casually took off his coat and calmly said, “Let's talk about it in a few days

I have to think about some problems now. You should go to sleep first!”

Chu Qing did not think too much about it. Since she was already engaged, she had to belong to him anyway, so she instructed, “Then don't Sleep Too Late. I still have to go to work tomorrow. I'm going to Sleep First!”

Yu Tian watched her go upstairs and immediately used the group function of the six-dimensional code to create a chat room. He pulled Chu Meng, Chu Hong, Chu Yue, Chu Ya, Chu Xin, Chu Hui, and Chu Qian into the group.

Chu Xin, who was both beautiful and intelligent, sent a surprised expression and said, “Little brother, do you have any secrets you want to tell us?”

Yu Tian did not waste time. He used words to briefly explain the heaven-bestowed elements and Chu Yichen's plan.

The girls were extremely surprised.

Chu Yue asked, “Why aren't Chu Qing and Chu Rou in the group?”

Chu Xin explained on Yu Tian's behalf, “Are you stupid? Chu Qing's parents have a deep conflict with Chu Wei's parents. If they find out about Chu Yichen's plan, everyone will know about it.

When the time comes, how will my brother start his own counterattack plan? Chu Rou is young, and she has a better relationship with Chu Qing than any of us. If she finds out, Chu Qing will find out too!

Yu Tian was especially pleased. Chu Xin was the one who understood him the best among the 108 sisters. She was practically a confidant.

Chu Ya followed up with a question, "Younger brother, don't you want to cooperate with them?"

Yu Tian typed a few words.

"How can I cooperate with them? I want to become stronger through my own strength, not through some shady means. Besides, the head of the Chu family was chosen by some old monster behind me,

"How can I go against my own family?" "And most importantly, I don't want my strength or their pursuit to create innocent killings. So, I have to make their plan disappear completely!"

Chu Meng sent a smiling emoji and said, "So, our Lord already has a plan?"

Yu Tian smiled indifferently and replied, "Chu Hong, I've arranged for Chu Wei to enter Galaxy Technology. You know what to do, right?"

Chu Hong, who was lying in bed, smiled confidently and replied, "Of course, I'll keep an eye on Chu Wei!"

Then, Yu Tian added, "Chu Meng, you have to go to the plateau. I need to know if the heaven-gifted elements are really that amazing. Although I've obtained the core technology they gave me, I've considered that this thing isn't that valuable.

"The elements have already developed to the third generation. What they gave me might be an earlier version. I need to analyze it to be sure!"

Chu Hui said, "It's very simple. I have a biochemical expert who can help. I'll send her over tomorrow!"

Yu Tian said with satisfaction, "Okay, the last request is that it must be kept secret!"

Just as he sent this message, Yu Tian heard a series of extremely subtle footsteps coming from outside the villa.

Yu Tian put away his phone and turned off the lights as fast as he could. He approached the window and looked out.

Outside the garden, there was a person standing. He looked out through the dim light and saw that it was actually Chu Wennu.

He did not approach the villa, but just stared at it without blinking.

What was this guy doing here?

Yu Tian frowned. He turned around and jumped out of the kitchen window. He quietly went behind slave Chu Wen.

“You're sneaky. Are you trying to steal my Yu Tian spoke, he was already prepared to make a move.

However, Slave Chu Wen did not panic. He slowly turned around. There was not a hint of arrogance in his calm eyes, instead, he calmly said, “Master, I’ve been arranging Chu Wei to be by your side all this time because I want to know about Chu Yichen's plan!”

Yu Tian did not believe what he said. Other than putting on an act, this fellow had no deep impression of him.

Hence, he coldly asked, “What does it have to do with me?”

Slave Chu Wen sighed and said guiltily, “Master, actually, I was specially sent by the master. Usually, I had no choice but to put on an act with you. I have to let Chu Yichen know that I can be trusted. 1’.

The master already knew that he was developing some shameful projects, and he even knew that he wanted to become the master of the family. However, all of this could not have been done without your support. That was why he asked me to gather information, I know that they must have shown you something tonight. Can you tell me about it?”

Yu Tian scratched his nose and said indifferently, “He did show me some things, including the memory of Chu Wei wetting her bed for the first time, and the photos of her driving a tractor to knock down the neighbor's pigsty , etc.

“Do you also want to know these things?”

Chu Wennu was a little helpless. He could only shake his head and said slowly,

“I know you don't believe me, but time will prove me wrong. Sorry to Bother

You, Goodbye!”

After saying that, Chu Wennu turned around and left.

Yu Tian narrowed his eyes and chuckled.

It was as if he was telling the truth. Even the 108 sisters could not be completely trusted, so how could they believe him?

In the blink of an eye, the next morning, Chu Wei arrived at the galaxy company in her business attire and met Chu Hong.

She knew that Chu Hong was Yu Tian's personal secretary and was extremely smart. When she was in lunst, she managed a company with tens of thousands of people and was able to do it with ease.

She still tried her best to follow her thoughts. There was no mistake..

?Chapter 253 – Chapter 253, Hidden Industrial District

Thank you readers!

Chu Wei greeted the lukewarm Chu Hong and took out a set of expensive cosmetics that she had prepared beforehand.

a€?Sister Hong, this is a set of whitening cosmetics that I specially bought for you from Bartley. It's especially good for your skin. Try it out first. If you like it, I'll ask the people over there to buy a few more sets for you!a€?

Chu Hong casually took the cosmetics. She took a quick glance at them before putting them on the desk behind her. Then, she smiled and said, a€?Thank you. Yesterday, CEO Yu told me that you were coming to work,

he asked you to manage the six-dimensional code project. I feel that it doesn't suit you very well. I feel that it's better for you to be CEO Yu's secretary. You can also help me!a€?

Chu Wei felt that she couldn't refuse. Moreover, Chu Hong did this because she wanted to reduce her chances of being alone with Yu Tian.

However, this wasn't a big deal. Now that she had just come to the company, she would listen to her arrangements first.

When she had Yu Tian in her hands, Chu Hong would have to look at her own face.

Thinking of this, Chu Wei pretended to be happy and said, a€?That a€?s for the best. I can learn more about management from sister Hong!

Chu Hong smiled indifferently and pretended to be enthusiastic. a€?That's good.

I thought you couldn't agree. From now on, you can use the desk next to mine!a€?

With that, Chu Hong picked up a stack of documents and went to another department.

Chu Wei smiled coldly and said in a low voice, "What's so great about it? One day , I'll make you kneel down and beg me!

At this moment, Chu Meng and Chu Yue, who had already reached the plateau, disguised themselves as tourists and found the remote village in the evening.

Chu Meng looked at the mountains on her left and right, and then looked at the roof of the world in the distance. She gasped and sighed, "I've always wanted to come here to play, and this time, I finally got what I wanted!

Chu Yue took in a breath of oxygen and said with a splitting headache, "Let's hurry up and find that tribe. After we get the information, let's hurry down. I feel like my breathing is about to stop!"

This was a plateau of more than five thousand meters, and she had just recovered from her injuries. It was already very good that she could hold on.

Chu Meng took out her binoculars and looked at the red col in front of them. She then said, "People here, that tribe is in the col ahead. Hold on, we'll be there soon!"

The two walked for at least ten kilometers and finally approached the col. after turning around the foot of the mountain, a large industrial area suddenly appeared in front of them.

And that tribe was five kilometers away from the industrial area. Smoke was rising from the chimneys.

Chu Yue, who was lying in the snow, said in a low voice, "That industrial area should have been invested by Chu Yichen. We'd better not go near there. It has nothing to do with the mission. Let's go directly to that tribe!"

Chu Meng nodded and took out the heat bar. After drinking it with Chu Yue , the two continued to advance towards the tribe.

After entering the village, Chu Meng immediately sent a video to Yu Tian.

At that moment, Yu Tian was in the nightclub. He told Yu Qi'er about the development of the nightclub. After receiving the video, he immediately told them to leave first. Then, he asked in a low voice, "How do you feel?"

Chu Meng first let Yu Tian look at the hidden industrial area. Then, she said with some excitement, "Our current location is at the edge of the northern border. After walking for ten kilometers, we will leave the northern border and arrive at the Niger,

[a€?The industrial area you saw should be Chu Yichen s. We have already arrived at that tribe. Let's keep the video so that I don't have to introduce it to you!a€? With that, the two knocked on the door of a house.

The one who opened the door was a tanned girl dressed in ethnic clothing. She greeted the two guests with the local etiquette before asking, a€?What are you doing here?a€?

After hearing that, the girl warmly invited the two sisters into the warm room, but there was an unpleasant smell.

After a few simple words, the two sisters learned that the girl's name was Dunzhu. Her parents were working in the industrial area and would only be back in a few days.

Yu Tian was watching from the beginning to the end.

Dunzhu was a diligent and enthusiastic girl. She quickly brought the food up to entertain the two sisters.

If it were anyone else, they would definitely find the black food hard to swallow, but the two sisters smacked their lips.

Yu Tian wanted to know what was so delicious?

Chu Meng asked as she ate, a€?Sister Dengzhu, before I came here, I heard that you guys have a very powerful ritual. It seems to be able to make people invulnerable to weapons and increase their strength. Is it really that mysterious?

Dunzhu poured two cups of hot tea for the two of them, she smiled and said, [a€?That's our harvest festival. It's used to drive away wild beasts and the Devils that spoil food. But after the industrial zone appeared, the people here stopped farming and went to the industrial zone to earn money!

When Yu Tian heard this, he directly asked in the video, a€?What does the industrial zone produce?a€?

Although this place was isolated, Dunzhu also knew about video calls, so she was not surprised. She still smiled and said, a€?Mine ore. My parents and others mine ore every day, and then the people in the industrial zone will buy it!a€? As expected, but Chu Yichen's trick was quite good.

He did not have any conflict with the local tribes, but he could also get what he wanted. This could be used as a reference for Chu Ya.

Chu Yue asked, a€?Sister Dunzhu, let's talk about your harvest festival. How did they get their power?a€?

Dunzhu found it interesting and laughed. "It's not that mysterious. Before the Harvest Festival begins, we'll go to the mountains and ask the mountain god to give us the soil of power,

then, we'll ask the middle-aged men in the tribe to rub the soil on their bodies. After praying, they'll get their power. In my opinion, it's because of the soil, but the people in the tribe don't believe that this is science!

As she spoke, Chu Meng looked at the furnishings of the room and noticed that there was a bookshelf in the corner with many books on it.

Seeing this, she didn't think it was strange for Dunzhu to say the concept of science.

Yu Tian, on the other hand, pretended to be curious and asked, "Does smearing the soil on your body harm your skin?"

Dunzhu shook her head and stopped smiling. "Everyone who smears the soil will go crazy after that. They can even bite a dog to death. The elders say that it's because their bodies have been taken over by the Devil."

"But in my opinion, it must be because of the soil. I have to go to the guru. She's a doctor. She said that the soil is poisonous, but the people in the tribe didn't believe her.

"When the industrial area was built, the guru even tried to stop it. But later, when the Guru went to see a doctor again, she disappeared and never came back!

At this point, Yu Tian could basically confirm that the god-given element was a joke..

?Chapter 254 – Chapter 254, Come And Go As You Please

Thank you readers!

Chu Wei must have deliberately hidden the side effects of the god-given element from her.

She wanted to make herself completely believe that she could use the god-given medicine to save time.

Thinking of this, Yu Tian asked indifferently, "Sister Dunzhu, do you know anything about that industrial base?"

Dunzhu tried her best to make the bonfire between the few of them burn brighter. Her expression was also like a burning flame, flickering with embarrassment and slight anger.

“The people in that industrial base are devils. They used money to tempt the people in the tribe to mine for them, and to the public, they said that this industrial base was only for the production of Medicine!”

If it weren't for the fact that there were innocent natives in the base, Yu Tian really wanted to order Chu Meng to destroy that industrial base.

But he had to start from the bigger picture.

And after he calmed down, Yu Tian also wondered if Chu Wei and the others had already mastered the elemental technology and had overcome the side effects?

Thinking of this, he gently turned off the video.

The surroundings returned to a depressing silence. Yu Tian looked at the red liquid in the cup and calculated in his heart.

“Now I have to know the contents of the USB and their actual test data. Only then will I be able to grasp their weaknesses!”

At this moment, an unfamiliar number called. It was a woman whose voice made people feel very relaxed.

“You must be President Yu. I'm the biochemical expert sent by President Chu Huichu. My name is Wu Minzhen. Perhaps I can help you with something!” Yu Tian said indifferently, “What kind of equipment do you need?”

His straightforwardness made Wu Minzhen feel slightly surprised. She looked at the plane flying across the sky, then she smiled and said, “I just arrived at Linhai. First, I need a place to stay. Secondly, I need a laboratory and a sample of the elements!”

Other things were easy to deal with, but the sample of the elements might be a little difficult.

However, Yu Tian felt that if there was no difficulty, there would be no final straightforwardness.

“Find a hotel to stay first. I will give you the sample of the laboratory and the Elements Tomorrow!”

After hanging up the phone, Yu Tian stood up and looked at the outdoor supplies shop across from him. He smiled indifferently.

It was good to have money. He could buy whatever he needed.

An hour later, the neon lights in Linhai began every night.

Yu Tian quietly stood on top of a row of containers. He used high-powered binoculars to search for the ship from last night in the vast ocean.

The helicopter from yesterday deliberately took him around a few times in order to make him lose his sense of direction.

But how could they have thought of that? Even if they threw him into the maze, he would still be able to find the direction by smelling it.

When the ship appeared in the lens barrel, a smug smile hung on the corner of Yu Tian's mouth.

He then threw a few packages into the yacht that he had prepared. He drove at full power and headed straight for the cruise ship in the surging water.

When he was still two nautical miles away from the cruise ship, Yu Tian turned off all the lights on the yacht, changed into a diving suit, and jumped into the sea with a splash.

The cruise ship was heavily guarded. The heavily armed mercenaries were pacing back and forth in groups of twos and threes. Even if a fish farted, they would have to watch for a long time.

Even so, Yu Tian still successfully sneaked into the cabin.

When he came yesterday, there were two routes. The one on the left was to the control center, and Yu Tian chose the right.

After avoiding a few mercenaries, Yu Tian came to the bottom cabin. Looking around, it was indeed the elemental laboratory.

Most of the people had gone to rest, but only a few were still working.

Yu Tian went behind them silently and entered another cabin.

However, the scene here made Yu Tian very surprised.

There were more than ten cages filled with test subjects who had been injected with elements. Some of their bodies were already beginning to rot, while others were madly smashing the cages.

The occasional howls made this cabin seem like a netherworld.

Yu Tian was not in a hurry to continue moving forward. Instead, he used his phone to take pictures of these test subjects.

This information would definitely be useful.

At this moment, the ship was pushed by the waves and suddenly tilted.

A cage was just in front of Yu Tian. The participant in the cage grabbed Yu Tian by the neck.

Yu Tian felt that the participant's strength was extremely fierce. He was choking himself.

Suddenly, Yu Tian stretched out his two fingers and forcefully hit the participant's shoulder.

Although the test subject was tall and strong, he was still pushed out by Yu Tian with a single finger. He crashed heavily into the cage and even the cage fell to the ground.

Yu Tian rubbed his neck and coldly snorted, Strangling my neck? I've given you some face, haven't I?

The test subject did not understand human language at all and struggled to get up. Yu Tian did not want to waste time with him and continued to enter the next cabin.

However, just as he entered the cabin, he was targeted by five mercenaries with weapons.

One of the mercenaries shouted, Who are you? What do you want?

Yu Tian shrugged and said helplessly, Look at me dressed like this. I'm definitely here to show off. Is there a need to ask?

As soon as he said that, the mercenaries looked at each other in shock.

This was the most confidential and most important location of the entire ship.

The cabinet behind them contained the finished products and samples of the god given elements.

How did this guy in a diving suit get here?

They still wanted to search Yu Tian's body, but this gave Yu Tian the opportunity to make a move.

It happened to be three punches and two kicks. With the addition of the divine dragon tail swing, the mercenaries all fainted on the ground.

Yu Tian clapped his hands and laughed complacently. He casually picked up a few elements, loaded two more pieces of black mineral soil, and turned around to leave.

He smoothly returned to the yacht. When he turned the bow of the yacht, the cries of the crowd could be heard from the yacht.

In a luxurious hotel near the sea, Chu Yichen received a call from the yacht. He suddenly sat up and said in shock and anger, "Take a look at what you've lost. I'll go there right now!"

After hanging up the phone, Chu Yichen frowned deeply and turned on the table lamp abruptly. The moment the blinding light flashed, his eyes became even colder.

"Who did it? who has the ability to come and go freely on my steamer?"

"Could it be him?"

Chu Yichen grabbed his clothes and called Chu Wei as he was putting them on.

Chu Wei had long known that someone had broken through on the steamer. At this moment, she was also considering the same question. When the phone was connected, she whispered, "Who could have done it?"

"It's very likely that it's Chu Wennu. He came here because he wants to know about our project. It must be Chu Aotian who made him do it! However, Chu Yichen's words made Chu Wei feel conflicted.

How could Chu Wennu have such strength?

There were at least five hundred mercenaries on that ship. could he come and go as he pleased?

Thinking of this, Chu Wei suddenly looked out of the window. Her heart was as messy as a floating hairline.

"Is Yu Tian?"

?Chapter 255 – Chapter 255. I Can'T Bear It

Thank you readers!

If it really is Yu Tian, then what should I do?

Chu Wei suppressed the conflict in her heart and got up to leave the room.

After boarding the ship, she and Chu Yichen first went to look at the mercenaries who had woken up.

Chu yichen asked coldly, "What does that person look like?"

The mercenaries, whose faces were bruised and swollen, shook their heads in unison.

The one who could still speak.., he still spoke with some fear, "At that time, he was wearing a diving suit and a pair of diving goggles. It was impossible to see his face clearly. His voice was very calm and arrogant, as if he didn't put anything in his eyes?"

Chu Wei's heart skipped a beat when she heard this description.

Who else could it be but Yu Tian?

Chu Yichen angrily punched the table and said with an extremely cold gaze, "I knew it was slave Chu Wen. Only this damned person would speak like that!"

Chu Wei turned a blind eye to her father's anger. Even if Chu Yichen could think of Yu Tian, she would not hesitate to object.

This was because her fate would not change. She could not become the abandoned woman by Yu Tian's side.

At this moment, Chu Yichen heard that he had lost a few elemental potions. He was so angry that he almost set the cabin on fire.

"Slave Chu Wen, I will not let you off. I will kill you myself!"

Chu Yichen immediately ordered a middle-aged man wearing black gloves and sunglasses, "Go and kill that piece of trash. Get everything back!"

The man was expressionless. Without saying a word, he turned around and left the cabin.

Chu Yichen followed suit and ordered, "Immediately set sail to the high seas!"

Chu Wei suddenly spoke and said slowly, "I have to return to Linhai and continue to stay by my master's side!"

Thinking about how there was no use for Chu Wei to follow him, it was better to let her stay by Yu Tian's side.

As long as Yu Tian supported him and continued to cooperate with him, there was nothing to be afraid of.

That damned slave Chu Wen already had a grudge with Yu Tian to begin with. This was a good opportunity to get rid of him. At that time, he would say that he was helping Yu Tian.

The ship let out a long cry and swam towards the open sea. The helicopter carrying Chu Wei slowly landed near the people in the bay.

After the helicopter left, Chu Wei hesitated for a moment before calling Yu Tian.

At this moment, Yu Tian was taking a shower. He picked up the phone and asked indifferently, "Why are you calling so late?"

Chu Wei heard Yu Tian's indifferent tone and felt conflicted. She forced a smile and said helplessly, "Is that how you talked to those mercenaries today?"

Yu Tian pretended to be dumb and directly denied, "What mercenaries? Can you speak more clearly?"

"Weren't you the one who boarded the ship and took away the god-given Wei asked coldly.

However, he chuckled and said disdainfully, "What's the point of me wanting that thing? I don't want to increase my muscle mass. Are you crazy?"

Even if he didn't say that he had done it, Chu Wei could only shake her head helplessly. Being sandwiched between her father and him was the most uncomfortable thing.

Chu Wei sighed and said helplessly, "Forget it. Just take it that I'm crazy, but I think I should remind you that someone wants to kill Chu Wennu!"

Yu Tian said disdainfully, "What does it have to do with me? I want to fucking kill him. Hurry up and do what you need to do. I'm sleepy. Don't Disturb Me!" With that, Yu Tian hung up the phone.

However, he was also thinking, why did Chu Yichen want to kill Chu Wennu?

Did he think that Chu Wennu took away his elements?

He really couldn't bear to let Chu Wennu take the blame for him.

Thinking of this, Yu Tian immediately stood up from the bathtub.

At that moment, Chu Wennu turned off the lights in the bedroom and got into bed. Suddenly, he heard something outside the window?

He suddenly got up and tiptoed behind the window. He gently lifted the curtain and looked out.

Under the moonlight, the garden of the villa was completely silent. There was not even a shadow.

He shook his head in self-mockery. After pulling the curtain, he turned around and wanted to go to bed. However, there was a sound outside the window. This time, Chu Wennu was sure that there was someone outside the window.

He came to the window again and continued to look out.

But at that moment, a hand suddenly smashed the window and pinched his neck.

Chu Wennu reacted quickly. He grabbed the other party's palm and pulled hard.

However, the other party's strength was even greater than his. Instead, he was pulled out of the window.

The moment he landed, Chu Wennu finally saw the appearance of the person. He said in shock, "It's you, the Ten Thousand Liang diagram. Chu Yichen must have sent you, right?"

Wanliang tu slowly took off his sunglasses, revealing a pair of vicious eyes.

He did not say anything. He took out a dagger from his waist and was ready to attack.

Chu Wennu frowned. Wanliang tu was Chu Yichen's personal bodyguard. His combat strength was extremely valiant.

He had once killed more than fifty mercenaries by himself. His attacks were extremely ruthless.

He was simply no match for him.

Thinking of this, Chu Wennu turned around and ran. Now, he could only compete with him in speed so that he could have a chance to survive.

Before he had even taken five steps, Wan Liangtu's dagger was already close to the back of his head.

In a flash, Chu Wennu suddenly lowered his head, turned around, and threw a punch.

Wan Liangtu turned around easily. Then, his elbow seemed to be bounced off by a rubber band, and directly hit Chu Wennu's fist.

With a crack, Chu Wennu's arm was directly broken, and he fell to the ground.

Wan Liangtu smiled contemptuously, and the dagger directly stabbed toward Chu Wennu's neck.

Because of the pain, Chu Wennu's gaze even became unfocused. He felt a cold blade flash before his eyes, but he didn't even have the ability to dodge.

Just when the dagger was less than half a meter away from Chu Wennu, Wan Liangtu suddenly felt a strange movement behind him. He suddenly turned around, and Yu Tian's fist had already smashed into his mouth.

This violent punch directly smashed Wan Liangtu's red mouth full of good teeth into half.

Wan Liangtu's brain buzzed as he fell to the ground, almost twitching.

The dagger also fell to Chu Wennu's side.

Before this guy got up, Chu Wennu's face was ferocious. He picked up the dagger and forcefully stabbed Wan Liangtu's neck.

Wan Liangtu struggled a few times and completely stopped moving.

Yu Tian's mouth twitched when he saw this. This scene was really eye-piercing.

This slave Chu Wen was really ruthless. He could kill without hesitation. Slave Chu Wen struggled to get up and thanked him from the bottom of his heart.

"Master, if you hadn't come to save me in time, I'm afraid this bastard would have taken my life. He's Chu Yichen's bodyguard. He's very strong!"

Yu Tian laughed disdainfully, "What's the use of being powerful? You'd still be beaten to the ground by me, and you don't have to thank me.. Just treat it as you owe me a favor!"

?Chapter 256 – Chapter 256 Was One Of A Kind

Thank you readers!

After saying this, Yu Tian turned around and was about to leave. He really didn't have any unnecessary words to say to him.

However, Chu wennu hurriedly said, "I'm really a spy. Didn't you ask the family head? Now that Chu Yichen may already know my identity, I Need Your Help!"

Yu Tian thought for a moment. He could still make use of this opportunity.

He didn't care whether he was a spy or not. At the very least, he could distract Chu Yichen and give himself more space to study the divine-bestowed elements.

Thinking of this, Yu Tian chuckled and said, "You don't have to talk nonsense with me. Whether I believe you or not depends on my mood. Since you want me to help you, it's very simple. From now on, you can't show your face."

Not only that, you have to let Chu Yichen know that it was you who killed the ten thousand taels of silver. As for the family head, I'll tell him. You Don't have to worry about it!"

Slave Chu Wen nodded deeply. Since Yu Tian had promised to help him, he would definitely keep his word.

Looking at Yu Tian's back view, slave Chu held his injured arm and turned around to disappear into the night.

The next morning, Yu Tian brought the finished product of the elements to Wu Minzhen's hotel.

Just as he reached the door of the room, he heard a man and a woman arguing in the room.

He leaned against the door and listened carefully.

The people inside were still arguing intensely when he heard a man... he said very slowly, "You came to Linhai on your own, saying that it was for work. I think you deliberately avoided me. Otherwise, why didn't you tell me?"

"Now that I'm here, you're still telling me that you're here for work. which wild man did you come here to see?"

Wu Minzhen said angrily, "You're simply unreasonable. I've already told you that we can't be together. Moreover, I've never promised you anything. Why should I tell you everything I do?"

"Now, please leave my room. If you continue to dawdle with me, I will have to call for help!"

The Man laughed coldly and roared, "Go ahead and call for help. Let everyone see what kind of woman you are. You already have a man, yet you still want to seduce another man outside. Are you worthy of me?"

At this moment, the sound of something being smashed came from the room. It sounded particularly ear-piercing.

When Yu Tian heard this, he immediately broke into the room. He saw a man wearing a flowery shirt. He looked like a deadbeat. He was raising the vase in his hand and was about to smash it onto Wu Minzhen's body.

When he saw the energetic young man who had rushed into the room, the man became even more furious. he shouted angrily, "Who the hell are you? This is our room. Get Out!"

Yu Tian did not even want to talk to him. He directly smashed the vase in the man's hand into pieces with a punch.

The man was so frightened that he trembled on the spot. He said shakily, "What do you want to Do? What does it have to do with you that we, husband and wife, quarrel? Now Get Out!"

Only then did Wu Minzhen realize that this handsome man might be Yu Tian.

She couldn't care less now. She went up and grabbed his arm. She said to the man angrily and loathingly, "Look at him carefully. He is my man. You should give up now, right?"

"Let me tell you, my man is the most powerful person in this city. You'd better not provoke him. Get lost quickly and don't Let Me See You Again!"

The man snorted coldly and said, "Fine, you're good. If you can pretend, we'll see!"

After saying that, the man stepped over the broken vase and left the room. Yu Tian looked coldly at Wu Minzhen. This woman's figure was really F * cking good.

However, she didn't seem to have a temper. A man who was so stubborn could make her so helpless. He had already left and was still holding her arm tightly.

was there a need to be so scared?

After Wu Minzhen released her hand, she explained guiltily, "I'm sorry, CEO Yu. I've made a fool of myself. That fellow's name is Han Wen. He was originally a researcher, but he became addicted to gambling later on!"

Yu Tian came here for the elements, not to listen to her nonsense.

Therefore, he directly interrupted her and said indifferently, "Now, follow me to the laboratory. I've already obtained the sample. I need you to analyze it for me as soon as possible!"

She also felt that she was speaking too much. With Yu Tian's high status, how could he possibly care about her?

Therefore, she immediately took her things and followed Yu Tian to a biological pharmaceutical factory under the Tianhai Group.

That trash called Han Wen had been following them all along.

“You want to get rid of me? In Your F * cking dreams. Even if you can a€?t get that Wui Minzhen, I will still make a fortune on you!”

Soon, the analysis of the elements was done.

Wu Minzhen showed the results of the analysis to Yu Tian and explained, “This drug is made of a special biological element. Under a microscope that is 10,000 times stronger and after special cultivation..,

“Those elements are tiny worms. After they attach themselves to the human body, they will quickly replicate human cells and blood particles, which will stimulate the rapid growth of human cells,

“In the end, the worms will enter the human brain stem along with the blood and devour the human neural network, causing the human body to go out of control!”

Yu Tian knew that this element was basically poison.

At this moment, Wu Minzhen took out another set of data with a very serious expression.

“This is the data I have analyzed on the worms. I'll tell you simply that the body structure of this worm is very complicated. Look at its appearance, it's like a cute fat ball, but its aggression is very fierce.

“The earliest worm recorded in the data is a bacterial worm found in the Arctic 27 , 000 years ago. Their structures are very similar.

“However, the poisonous worms in this element seem to be older. After my observation, these worms move in groups very orderly. They even listen to a certain worm's command'

At this point, Yu Tian looked at the pictures of the worms in surprise and asked in puzzlement, “Are you saying that they have intelligence?”

Wu Minzhen nodded excitedly. This discovery could be said to be unique in the entire world, she continued to introduce, “Chief Yu, you are right. These worms not only have intelligence, but also have terrifying thinking abilities.

After they come into contact with the blood cells of the species, they will quickly attach themselves to the species'neurons. Then, they will produce a secretion that can trigger the neurons, thus controlling the species a€?nerves, after blocking the species a€?brain from issuing all the commands and issuing the commands in place of the brain, the test

subjects would go crazy. It was because the brain was controlled by the worms that the commands conflicted with their own reflexes.

“What's more terrifying is that after the worms control the human body, they have their own unique communication ability.. In other words, they are controlling the human body with their thoughts!”

Chapter 257 – Chapter 257 Was For His Own Use

Thank you readers!

When Yu Tian heard this, he narrowed his eyes slightly.

Chu Yichen, Chu Wei, and the rest had the best biological experts in the world. It was impossible for them not to know the characteristics of these worms.

Since that was the case, why did they continue to develop them?

Were they not afraid that these worms would completely lose control and bring about the destruction of this world?

Wu Minzhen put down all the information and rubbed her forehead, feeling extremely tired. She said in a low voice, “I also found something even more important!”

Something Else?

Yu Tian touched his chin and motioned for Wu Minzhen to continue.

She then turned on the computer and played a simulation video.

The worms were surrounded by a flashing electric current. Every time the electric current appeared, the worms would erupt with secretions, and each time, the eruption would be different.

Wu Minzhen tried her best to use a simple method to say to Yu Tian, “Chief Yu, they can already control the thoughts of these worms. In other words, they can control every person who injects the elements.

Their orders will be to stimulate the worms through the electric current, and then carry out a series of operations. The human body will receive the orders completely without thinking!

Yu Tian seemed to have thought of something.

Could it be that Chu Yichen wanted to use this thing to control the entire world? This guy's appetite was really not small.

Unfortunately, if he knew about this little idea, then it would be impossible for him to succeed.

However, he had to make a choice between benefits and killing Chu Yichen.

Although he did not have such a big idea to control the world, he could not resist benefits either.

Hence, he thought of Wu Minzhen.

This woman in front of him was deeply trusted by Chu Hui. It seemed to make sense. Then, could her ability be used by him?

Thinking of this, Yu Tian asked indifferently, "Can you change the characteristics of this element to make it harmless? And also listen to us?" Wu Minzhen's heart thumped.

Although she felt that Yu Tian was a very dashing and handsome man, he was also a very deep man.

However, she still did not understand his thoughts. Could it be that he also wanted to use worms to control the world?

At this moment, Wu Minzhen seemed to be in a hurry to find the exit of the maze. She asked in astonishment, "Chief Yu, I'm sorry. I don't quite understand what you mean. Don't you want to destroy it?"

"Destroy it? Are you kidding me? Such a good thing will only become a weapon in the hands of those beasts. However, it's in my hands. I can turn it into something useful to humans,

for example, we can use this kind of worm to devour viruses in the human body or other garbage cells. Isn't that better?"

Wu Minzhen's tightly knitted brows slowly relaxed. It turned out that he wanted to benefit the people. Now, there were really not many entrepreneurs like him who had ideals.

Although it was also for the sake of profit, the way he earned profits was to benefit everyone. So why didn't she help him?

She smiled and nodded. She said with great agreement, "So that's what CEO Yu is thinking. Then I will definitely do everything in my power to help you complete this idea!

Yu Tian was waiting for her words. He did not hesitate and directly called the manager of the pharmaceutical factory to his side.

The manager knew Yu Tian's identity. He could flaunt his power in front of others, but in front of him, he had to try his best to be a dog.

Yu Tian did not waste time with him and directly ordered, "From now on, this pharmaceutical factory is mine. Her name is Wu Minzhen, and she is my full representative here. Anything she says is the same as what I said!"

The manager hurriedly nodded without another word, he said very straightforwardly, "I will immediately make arrangements for CEO Yu's orders. From now on, you are the boss here. All of our employees will listen to your and Miss WII's orders!"

After the work was arranged, Yu Tian felt that it was not very convenient for a woman like her to live in the dormitory of the factory.

It happened to be near the pharmaceutical factory, and there was a building that also belonged to the Tianhai Group.

Yu Tian didn't want everyone to know about it, so he gave brother long a call and asked him to go to this building to buy a luxurious mansion for Wu Minzhen.

After leaving the pharmaceutical factory, Yu Tian was considering a question.

was there still a need to let Chu Yichen Live?

If he didn't stop him now, it would be impossible to stop the mass production of this element when the time came.

Yu Tian, who was sitting in the Black Phantom, immediately took out his phone and said something in his group chat.

"The element is more complicated than we thought. Chu yichen may want to use it to control the entire world, so I have to stop him. The best way is to make him disappear completely!"

There was a moment of silence in the group chat. Everyone knew what Yu Tian wanted to do?

The most important thing was that they didn't know how to stop Tian. In other words, Chu Yichen deserved to die.

In the end, it was Chu Hui who said first, "Brother, I support your idea, but I will communicate with the family head first. I believe that he wants to do the

Yu Tian sent a smiling emoji and said, "I don't care about the family head at all. If he really wants to thank me, then don't mention anything about continuing the incense?"

“Also, you have to know that if we can develop the elements into drugs that are beneficial to the human body, this market value will be even more profitable than our current six-dimensional code. This is the most important thing!”

At this moment, on the high seas.

Chu Yichen was sitting in the floating cabin. Cold sweat dripped down his cheeks and all the way to his neck.

The thousand taels of silver had been killed. Chu Wennu didn’t have the strength to do so. And it was impossible for anyone else to do so except for Yu Tian.

And by doing so, Yu Tian was telling him that the cooperation between them didn’t exist at all.

If that was the case, then it was impossible for him to count on Yu Tian to help him take the position of patriarch.

Since that was the case, why should he be afraid of the east and the West?

He stood up and went to the cabin where the finished elemental products were stored. Looking at the boxes of finished elemental products in front of him, he gritted his teeth, he muttered to himself, “Since I can’t rely on others now, then I will use my own hands to fight against this world!”

Then, like a crazy devil, he ordered his subordinates and the researchers behind him.

“Immediately put the finished products of these elements around the world. I want you to inject these elements into the human body in the shortest time possible!”

A researcher looked at him with fear.

“Director Chu, the elements are not stable yet. We don’t know if we can control them on a large scale. Is this really appropriate?”

Chu yichen snorted coldly and said gloomily, “That’s not what I’m thinking about now. I want to obtain the greatest power in this world immediately.. I don’t care even if the world is destroyed!”

?Chapter 258 – : Chapter 258, The Testers Erupted

Thank you readers!

Under Chu Yichen's orders, boxes and boxes of medicine were loaded onto helicopters and sent around the world.

Chu Hui also made a call to Chu Aotian.

If it was someone else's call, Chu Aotian would not pick it up at all, but Chu Hui's call, he had to pick it up.

Once the call was connected, Chu Hui immediately put down her arrogance as a CEO, instead, she said coquettishly, "Dad, you really can sit still now. Yu Tian wants to kill Chu Yichen. If you want to know what you think, you can tell your daughter!"

Chu Aotian felt that this was rather complicated. He scratched his head with a frown and said helplessly, "Chu Yichen still has some influence in the family. Of course, I have no objection to killing him,

however, the premise was that the family's system must not be thrown into chaos because of his death. My idea is very simple. If Yu Tian wants to write, then let him write a few more names!"

Chu Hui smiled and said, "You're really an old fox. You can calculate all the benefits, but you have to give all of Chu Yichen's projects to Yu Tian. Only then will it be fair to him!"

Chu Aotian was so angry that he pouted and said, "Yo, Yo, Yo, Yo, can you be a little reserved? You haven't married him yet and you're already thinking of piling benefits into the family. Are you my daughter or not? Can you think for Father?"

"Father seems to be able to manage such a big family like yours easily. Can't you get some benefits for father too?"

Unexpectedly, Chu Hui laughed and said, "You don't want any benefits. All you want now is to agree to all my requests!"

"How did I give birth to a daughter like you? Hang up on me!"

Chu Aotian hung up the phone angrily and shook his head helplessly. "I really can't keep my daughter when she's older. Now she's only thinking about her husband. I don't even care anymore!"

Then, he wrote down a list of ten people and immediately passed it to Chu Hui.

After Chu Hui received the list, she didn't even look at it and directly passed it to Yu Tian.

Yu Tian looked at the people on the list and a faint smile appeared on the corner of his mouth. He immediately took out the heavenly tyrant order and accepted it as per the list.

The first nine people on the list were scared out of their wits the moment their names were written on the heavenly tyrant order. They died.

At that moment, Chu Yichen was staring at the world map in front of him. His heart was racing as he imagined how he would use the power in his hands after he could control the world?

On Yu Tian's side, he wrote down Chu Yichen's name without hesitation.

By the time the people in the cabin found Chu Yichen, he was already bleeding from all seven orifices. He was not breathing at all.

After Chu Wei received the news, she was extremely shocked and sad.

When she arrived on the cruise ship on the international waters, she only saw her father's corpse lying on the deck of the ship coldly.

In the evening, Chu Wei, who was wearing black clothes and black sunglasses, knocked hard on the Yu Tian family's door.

Chu Qing had just opened the door when Chu Wei placed a dagger on her neck.

“Tell Yu Tian to come see me now, or else I'll die here. I want everyone in the Chu family to die with me and my father!”

Chu Qing was shocked at first, but she quickly calmed down and said domineeringly, “If you want to die, no one will stop you. But if you want the entire Chu family to die with you, do you think that's possible?”

At this time, Yu Tian just happened to return to the villa and saw the dagger in Chu Wei's hand from afar.

He put the black phantom away with ease. With his hands in his pockets, he slowly approached and said indifferently, “Why are you still playing with the knife? Do You Want to Die?”

Chu Wei cried out, “Why did you kill my father?”

Yu Tian didn't want to deny it at all. Instead, he chuckled and said, “This is the order of the family head. I just wrote their names on the Heavenly Overlord Order.”

“Also, do you think your father is still alive?” “Don't you know how complicated the god-given element that you guys developed is?”

“If you let it flow into this world, what a big scene it would be. Haven’t you thought about it?” “I can honestly tell you that if you are not one of the 108 sisters, you should die too!”

Chu Wei was so anxious that she had completely lost her rationality. She said ferociously, “Fine, since you want me to die so badly, then I’ll die right now for you to see. You Can’t guarantee the integrity of the 108 sisters!

As she spoke, she held the dagger tightly and was about to stab it into her neck

Yu Tian shook his head impatiently. He went forward and snatched the dagger. He then gave Chu Wei a slap in the mouth, causing her to be stunned on the spot.

He looked at the dagger and threw it aside. He said coldly, “From now on, that cruise ship is mine. Your industrial base in the Northern Territory is also mine. Even your people are mine!

[“You can live as much as you want and do whatever you want, but you don’t have the right to die because you can’t get permission from me!”

After saying that, Yu Tian didn’t even look at her and went straight into the house.

Chu Wei covered her face and cried. Why did she have to be born in the Chu family? She couldn’t even die.

Although Chu Qing didn’t know what had happened between them? However, seeing Chu Wei

V

s pained look, she couldn’t bear it. She went up to hold her shoulder and said softly, “Come in. I’ll get you a bowl of hot soup to drink. It’ll Make You Feel Better!”

Yu Tian had just sat down. Before he could even take a sip of water, Chu Hui’s call came in. She said solemnly, “It seems that you’re a little late in writing your name. Turn on the computer and look at the International News!

He got up and went to the study room. He turned on the computer and browsed through the news.

Currently, there were more than 20 cities in five countries that had test subjects. Ten cities had been completely paralyzed.

Those testers were almost invincible. No weapon could hurt them.

Yu Tian frowned slightly. He got up and went to the restaurant. He put the computer in front of Chu Wei and said coldly , “Look at how many innocent people have died. Shut them down immediately. Don’t continue!

Chu Wei was also shocked when she saw the ruins, the crying children, and the collapsed high buildings.

She immediately took out her phone and called the cargo ship.

However, no one answered.

Soon, Chu Wei called a researcher.

That guy shouted at the top of his lungs, “Miss Chu, the cargo ship has been hijacked by a group of armed men. They chased every one of us off the ship. We don't know where they are now, and we are all here, waiting for rescue!” Yu Tian heard it clearly, but this was not the time to think about it.

He followed up by asking Chu Wei, whose face was filled with shock and disgust.

“If there is no freighter, is there any other way to turn off those test subjects?”

Chu Wei forced herself to calm down. After thinking carefully, she suddenly stood up..

?Chapter 259 – Chapter 259, Honeymoon

Thank you readers!

Chu Wei suddenly stood up and said solemnly, “Although I can't shut down the testers like this, I can find the location of the ship!”

After saying that, she immediately took out her laptop and connected it to the satellite in space that was specially used by the Chu family. Soon, the location of the ship was confirmed.

At that moment, the location of the ship was in the southern part of the Sea of Somalia.

Yu Tian immediately opened the 108 sisters group and asked, “Does that sister know anything about the Soli Islands? Can she privately chat with me?”

His one sentence caused the group to explode.

“Brother, why are you suddenly asking about the soli islands? Could it be that you chose to spend your honeymoon here with the Qing Girl?”

“You should choose another place. For example, the Sea of love. There are pirates everywhere in Soli. They even stole your underwear!”

“Little brother, why don't you come to my place? There's sunlight and a beach!”

Yu Tian's head hurt. Couldn't these sisters think of something else? Could it be that in their eyes, he was just a good-for-nothing?

He didn't think of anything else all day and just wanted to go on his honeymoon?

At this moment, Yu Tian's phone rang. He received a voice message. It was from Chu Xue.

Chu Qing immediately gave Yu Tian an introduction.

“This is your sister Xue. She has been developing her family's business in Central Europe all these years. She mows sori very well. Listen to what she has to say and you'll have a good idea!”

Yu Tian immediately opened the voice chat. When he first heard Chu Xue's voice, Yu Tian felt that it was like a warm flame in the cold midnight.

Although it was a little hoarse, it was very pleasant to listen to.

Chu Xue first expressed her doubts and said softly, “Brother, why are you asking about this? Is there something you need here?”

Yu Tian gave a simple explanation, but it surprised Chu Xue.

She was not surprised about the use of the ship, but surprised that Yu Tian wanted to take it back himself.

Chu Xue directly sent a video request.

Before the video call was connected, Yu Tian tidied up his hair. Chu Qing was so angry that she scolded in a low voice, “What Are You So smug about?”

The video call was connected, and Yu Tian also saw Chu Xue.

He was puzzled. weren't there any uglier ones among the 108 sisters of the Chu Family?

Why were they all prettier than the last?

The first time Yu Tian saw Chu Xue, he felt that she was noble and pure, like a flower that bloomed in the middle of the night and was quietly fragrant.

However, Chu Xue's expression was very serious. She said in a tone that was close to an order, "Brother, you have to listen to me. You Can't go to Soli..

"Compared to your identity, the whole world is not important. I will immediately arrange for mercenaries to help you get back that ship, and you will stay obediently by the sea"

"You can't go anywhere, do you hear me?"

However, Yu Tian said indifferently, "I have to get on that ship, not only to shut down those beta testers"

"More importantly, I want to know who dares to act so pretentiously. Who Dares to steal my ship?"

Seeing that she could not convince Yu Tian, Chu Xue could only helplessly say, "Brother, if you come here, there is a high possibility of a war!

War? was there a need to make such a big scene?

It was just a ship, was there a need to go so far?

He smiled disdainfully and said, "It's not that serious, right? War? I am not going to fight pirates. I just want to take back my own things!

Chu Xue shook her head and argued, "Brother, the Soli Islands is not as simple as you think. Maybe it's just like your impression. This place is just a bunch of pirates"

"But what you don't know is that the pirates here are just a bunch of lackeys.

The forces behind them are complicated and if they are not careful"

"They might lose their lives here. I still say that your life is more important than the whole world. Can't you think about us?"

Yu Tian really didn't want to waste any more time. He tapped on the table and said without any room for refutation, "I've already decided. I'll set off a while and head to soli. No one can stop me!"

Seeing that Yu Tian still didn't listen to her, Chu Xue could only helplessly agree, Since that's the case, then you come to the United Arab Emirates first. When the time comes, we'll discuss it!"

This was also a good idea. After all, Chu Xue knew soli very well. Listening to her would not be wrong.

At this point, Yu Tian immediately cut off the video and began to pack up the things he had to bring with him.

Chu Qing immediately arranged for a private plane. This was the only thing she could do for Yu Tian.

But this time, she had to let Chu Wei follow. Only she knew how to turn off the worm in the tester's body.

Half an hour later, the private plane roared and rushed into the thick night sky.

At two o'clock the next day, the plane landed steadily at Alibabai International Airport.

To Yu Tian's surprise, not only did Chu Xue come to pick him up, she even brought a few middle-aged men in battle clothes.

When Chu Xue saw Yu Tian, it was as if they had known each other for a long time. She grumbled, "You didn't listen to me. You still came. Let Me Introduce You First!"

With that, Chu Xue introduced the men behind her to Yu Tian one by one.

What surprised him the most was that these people were all high-ranking commanders of mercenaries. Their mercenaries even covered the sea, land, and air.

The middle-aged man called Hamilton said in a very steady and deep voice, "Mr. Yu, it's my honor to be able to serve you. I brought a thousand of them this time."

The best mercenaries in the world. They were all here waiting for orders. The rest of them had also brought their best mercenaries, in total, there are now 5,000 people. Five attack destroyers, 50 Mirage Red fighters, 50 tanks, and large-scale assault weapons. They're all at your disposal!

Yu Tian was shocked and expressionless. He directly said to Chu Xue, "What are you doing? You're not really going to start a war, are you."

Destroyers, tanks, do you have any missiles? I don't need them at all. I've already said that I'm enough on my own!"

Chu Xue let the few people leave first. Then, she said with a frown, "This is the order of the family head. If you follow my orders, there might be more people than there are now."

"You just want to get that ship. The simplest and most effective way is the

“Then why don't we just blow up the ship? Wouldn't it be better? Don't tell me I can bring over 5,000 men and rush onto the ship? What are you thinking? !

After saying that, Yu Tian ignored the angry Chu Xue and walked out of the airport.

However, when he arrived outside the airport, Yu Tian was even more shocked.

In front of him were at least 200 fully armed mercenaries who had sealed off the entire airport's passage.

The civilians who were waiting to board the plane were pushed to the side. No one could pass through.

What was most unbelievable to Yu Tian was that there were actually tanks at the back of the group..

?Chapter 260 – Chapter 260, Special Weapons

Thank you readers!

This scene was beyond Yu Tian's imagination. It was fine to pick him up, but there was no need to make such a big scene.

Those who did not know would think that this was a war.

Moreover, there were many reporters surrounding them, thinking that a certain person had come to the United Arab Emirates?

There were even reporters who began to take photos of Yu Tian. Some mercenaries immediately stepped forward to stop those reporters, and their actions were especially violent.

Chu Xue came behind Yu Tian and said with a smile, “Here, as long as you have money, you can do anything. The Chu family has developed here for more than ten years, whether it's in energy or other fields”

“We all have the most powerful companies, so this scene may be unacceptable to you, but to the people here, this is very normal!”

Yu Tian looked at her in disbelief and said with a frown, “This is still normal. The tanks have already come up. Your dish is really big!”

He did not want to continue wasting time here. Following Chu Xue, under the protection of hundreds of mercenaries, they came all the way to the command center that Chu Xue had specially prepared for him.

All the most advanced command equipment had been fully turned on.

Behind the base was the mercenary base, where a large number of mercenaries were waiting for orders.

In the base, Yu Tian also saw a few senior managers of the United Arab Emirates, but here, they were like slaves.

Chu Xue gave a simple introduction to Yu Tian.

“They are here to coordinate with us. Any investment project we have in the United Arab Emirates is enough to buy half of their country, so you can wreak havoc here as much as you want.

“But the premise is that you can only stay here and can not board the ship!”

Yu Tian said disdainfully, “You think too simply of that ship. Even if you have so many mercenaries, you still can't board that ship!”

Maybe Chu Xue didn't know how powerful the testers on those ships were. To deal with these mercenaries, only a few testers were enough.

However, at this moment, Hamilton expressed a different opinion. It seemed that he did not take Yu Tian seriously when he said that the ship was so powerful.

He chuckled, and the wrinkles on his face seemed to become deeper. Then, he said in a very high voice, “It's just a ship, even if it's an aircraft carrier..,

“My mercenaries can easily occupy it. Mr. Yu, you may not know this, but my mercenaries are selected from the best soldiers all over the world.

“Everyone's combat strength is equivalent to a tank. Moreover, unlike other mercenary bases, we not only give every mercenary the best benefits and treatment”

the same time, we also provide them with the best training conditions, so that their physical fitness will always be at its peak. When they perform missions, they are like a group of wild beasts that have been released from their cages,

“No matter how powerful this prey is, they can easily tear it apart. Mr. Yu, just give us the order now, and then you can sit here and drink coffee with Miss Chu, “Enjoy the wonderful scene!”

Yu Tian didn't know what to say. When the time came, the scene would be wonderful.

However, the ones being torn apart weren't the test subjects, but his mercenaries.

However, the lives of every mercenary shouldn't be thrown away in vain.

He gently put down his backpack and came to the big screen. At this moment, the ship was floating on the surface of the rolling waves.

On the bed, there was no human shadow. It felt like a ghost ship.

The mercenary sitting next to him immediately changed the satellite observation mode and used thermal energy detection.

Yu Tian looked at the ship again. It was like a monster surrounded by red flames.

The mercenary explained in a low voice, "Those purplish-red spots are objects that completely exceed the temperature standard, and those light-red ones are living things. Normally"

The purplish-red ones were usually equipment or machines. The heat they emitted was higher than that of a human body.

"But now, these purplish-red objects seem to be able to move freely at any time. Based on their shapes, we can guess that they might be humans!"

Yu Tian snorted coldly and said with a faint smile, "To be more precise, they are not monsters. I think you have already seen the news. The test subjects that appear all over the world are the monsters on this ship!"

Speaking up to this point, Yu Tian turned to look at Hamilton and laughed, "Do you think your mercenaries, your tanks, and fighter jets will be more powerful than those from other countries?"

Hamilton was a little speechless by the question. The combat strength of those testers was indeed very valiant.

However, before receiving this mission, he had also obtained information about these monsters.

Therefore, he used a very calm laugh to increase his confidence. Then, he said without turning his eyes away, "Mr. Yu, these test subjects are indeed invulnerable. Conventional weapons can not cause any harm to them.

Therefore, this time, we brought a special weapon specially developed by the Chu family's industrial group!

A special weapon developed by the Chu family?

Yu Tian was shocked. Since when did the Chu family start an arms business?

Moreover, judging from Hamilton's confident expression, it seemed like this special weapon was particularly powerful.

Chu Xue continued the conversation and asked the mercenary to put the weapon's information on the big screen.

Yu Tian looked up and saw that the object on the big screen did not look like a weapon at all. From its appearance, it looked more like an extra-large electric drill. Especially the part of the drill bit, it was a glass tube.

Inside the tube was a metal rod as thick as a finger and as long as a chopstick.

Waves of electric current flowed through his entire body from time to time. It looked quite scary.

Chu Xue walked in front of the big screen and gracefully raised her arm. Her charming appearance made many mercenaries present swallow their saliva unconsciously.

She then used her unique voice to introduce to Yu Tian, Strictly speaking, this is not a weapon. It was developed and produced independently by US. It was developed and developed by the underground exploration equipment.

“The energy it uses is the thermal energy ore that we developed in lustre. After special magnifying equipment, it can instantly produce a high temperature of more than 20,000 degrees Celsius.

“Up to now, there is no object on earth that can withstand this temperature, even those impenetrable test subjects!”

Yu Tian suddenly felt that his mind was not quite enough. It was as if he was standing on an endless field, and his eyes could only see a few small trees in front of him..

?Chapter 261 – Chapter 261. First Fight, Then Talk

Thank you readers!

The Chu family was indeed the number one family in the world. Not to mention anything else, just the speed at which they made money was something that almost no other family in the world could compare to.

The thermal ore had only been mined for a few days, and they had actually made such use of this ore.

In an instant, it could produce a high temperature of 20,000 degrees Celsius. Not to mention humans, even ghosts could be burned to death.

Since there was such a powerful weapon, why would he need to F * ck those militants?

Thinking of this, Yu Tian chuckled and nodded with satisfaction. "You really gave me a surprise. This thing is really good. When I go back, give me one too!"

"When I'm free, I'll use it to roast meat and eat it!"

Chu Xue didn't know whether to laugh or cry. In order to develop this thing, the Chu family had invested tens of billions of yuan, but when it came to him, they could only use it to roast meat and eat it. If those developers knew about this, they would be furious on the spot.

At this time, Chu Wei walked to Yu Tian's side and whispered in his ear, "Brother, this kind of weapon seems to be particularly destructive. If it is used on that ship, will it destroy the key equipment?"

"Especially in the lowest cabin of the ship, there is a silver-white suitcase. No matter what, we have to get it. Only with the equipment in that suitcase can we turn off those testers!"

Yu Tian smiled calmly and said, "That's not a problem. You just have to tell me the specific location of that suitcase and let them pay attention when they launch an attack!"

If there was a chaotic battle, no one would pay attention to this thing. Moreover, Yu Tian did not have a clear idea whether this battle would achieve the expected effect.

Hamilton looked at the time and stepped forward with a smile. "Mr. Yu, it's six o'clock at night. It's the best time to attack. It's time for you to give us the order to attack!"

Chu Xue looked at Chu Wei with dissatisfaction. If it wasn't for her father, why would these useless things be so troublesome?

Fortunately, the Chu family had a weapon that they could use. Otherwise, if Yu

Tian were to personally board the ship, the entire Chu family would be worried.

She then said gently to Yu Tian, "Brother, the command is now in your hands. You can freely use all the mercenaries and attack equipment. Start Your Performance Now!"

Yu Tian did not think that this was a performance. If it was just a performance, no one should die.

If this performance was a massacre, it would be the most unacceptable show in the world.

Under everyone's applause and invitation, Yu Tian slowly walked up to the command post. All the mercenaries stood up at the same time and waited for his order.

At this moment, Yu Tian's aura was very strong, as if he had the temperament of a king.

He looked at everyone with dignity and then gave a sonorous and powerful order, "The attack will begin in half an hour. First, the five destroyers will surround that ship!"

If the militants on the ship can give us this ship in good condition, then the attack from behind can be canceled.

If they don't agree, the destroyers will provide cover, and the mercenary troops will use this opportunity to forcefully board the ship. If there are test subjects on the ship who attack the mercenaries, then use special weapons to counterattack them.

"But I need you to mobilize a small team and use the fastest speed to break through their defenses and enter the bottom of the cabin. There's a room labeled DX on the door, and there's a silver-white leather suitcase under the bed inside.

"This is the main point of this mission. No matter what, you have to bring this silver-white leather suitcase back to me, or else the mission will fail. Okay, everyone, begin immediately!"

The command room immediately entered a busy state. A few mercenary commanders, under Hamilton's leadership, began to mobilize their mercenaries.

In the base outside the command center, a large number of mercenaries began to wear their equipment and board the large transport aircraft.

On the surface of the sea, five destroyers, after receiving the order, drove at full speed. After half an hour, they surrounded the ship.

At this time, the air transport plane also arrived above the ship.

When Yu Tian saw this, he immediately ordered the destroyers to broadcast to the ship to see what they wanted first.

Hamilton, who was below, said disdainfully to the other commanders beside him, "It seems that our boss likes to talk. If it were me, I would beat him up first.

"Those people actually dared to hijack the Chu family's ship. They don't even have any respect for our boss. Talking to them like this is nonsense!"

A white-haired commander took a sip of his coffee and said arrogantly, "I even think that we don't need so many mercenaries just to hijack a ship"

"We only need a team of mercenaries with special weapons. They are basically invincible on the ship. Now that we have made such a big scene, other countries will think that we are going to start a war. It's ridiculous!"

They thought that Yu Tian would not be able to hear them if they spoke in a low voice. However, Yu Tian's ears were as sensitive as a radar.

However, he turned a deaf ear to them. The mercenary commanders didn't need to waste time to care about what they said. As long as they could complete the mission, they would say that they were a flower and wouldn't object.

At this moment, one of the destroyers was connected to the ship's radio.

The commander of the destroyers personally said to the controller of the ship, "We are the world's most powerful mercenary organization. Before we launch an attack on you, we only hope that you can understand"

"We do not wish to create a bloody conflict. If you can hand over this ship, I can guarantee that you can leave with dignity!"

After a moment of silence, an old and gloomy voice suddenly sounded in the ship's radio.

"Do you really think that I care about these few destroyers? You are only seeking your own destruction here. The one who should be leaving should be you, and I do not wish to create a bloody conflict..,"

"I just want this ship, not your life!"

When Yu Tian heard this, he felt that it was especially laughable.

Did they really think that controlling those test subjects meant that they could look down on anyone?

Such pretense really deserved to die.

Then there was no need to waste time with them.

Yu Tian snorted and immediately gave the order to attack.

The five destroyers opened fire at the same time. They used process missiles and cannons to bombard the ships.

The mercenaries in the transport planes jumped out one after another.

A large number of helicopters also brought over many mercenaries. In the blink of an eye, they had occupied the deck of the ship..

?Chapter 262 – Chapter 262, The Big Monster

Thank you readers!

Just as the mercenary commander ordered his men to prepare to enter the cabin, all the cabin doors on the ship opened at the same time. More than a dozen beta testers appeared in the sky and rushed toward the surprised mercenaries.

When Chu Wei saw these beta testers, she stood up in horror and said with a trembling voice, “This is impossible, this is completely impossible!”

Yu Tian turned to look at her and asked inexplicably, “Can you explain it more clearly? What do you mean by impossible? What's wrong with these testers?”

Chu Wei pointed at a tester who was attacking a mercenary on the big screen and said, “Look at his arm. Is there a tattoo on it?”

Everyone immediately looked at the Tester's arm. There was indeed a tattoo on it.

Yu Tian said disdainfully, “Don't tell me these test subjects know what personality is?”

“No, it's not personality!” Chu Wei explained nervously, “That's not a tattoo at all, but a protruding blood vessel. The element injected into the tester's body was not developed by us.”

“Or rather, we don't have the ability to develop it yet. who took over this ship at this stage? What exactly are they trying to do?”

At this moment, the dozen or so beta testers threw a large number of mercenaries into the sea. One of the beta testers even blasted a mercenary into pieces with one punch.

As Hamilton watched, the muscles on his face couldn't help but Twitch.

Yu Tian didn't have so much to think about. No matter how many generations this beta tester was a product, they were all enemies now.

Thus, he immediately ordered the use of special weapons to attack.

A black helicopter slowly approached the ship. The two mercenaries controlling the special weapons on the helicopter aimed at one of the testers and immediately fired a thermal wave.

A red laser beam directly pierced into the tester's body.

The high temperature instantly turned the tester into ashes.

The mercenary on the helicopter shouted excitedly, "We have killed one tester. We are charging the weapon now. In ten seconds, we will attack the next tester!"

"Huh,

Yu Tian frowned slightly. The weapon actually needed to be charged. It needed so much time. Ten seconds was enough for one tester to destroy the helicopter.

He immediately picked up the microphone in front of him and said urgently, "If you don't have it recharged, leave the range of that ship, right now!"

However, Yu Tian spoke quickly, and the other testers moved even faster. One of the testers directly jumped more than 10 meters high and punched the helicopter's body.

The helicopter gave off a puff of thick smoke and fell into the sea.

The excitement that he had was suppressed by the crash of the helicopter.

The cannons on the destroyer continued to bombard the ship. Some of the shells hit the body of the ship.

A large amount of seawater surged into the ship, causing it to sink slowly.

Yu Tian immediately ordered the destroyers to stop shooting. Once the ship sank, all the secrets would disappear.

He turned to ask Chu Xue.

"How many special weapons do we have now?"

"There are only ten in total!" Chu Xue hurriedly replied.

"Let them shoot continuously. Control the time difference in between. Do not stop shooting!" Yu Tian continued to order.

At this moment, more than a dozen helicopters directly flew over the sky of the destroyers and approached the ships.

Each helicopter carried a special weapon. They aimed at the test subjects and began to emit heat waves.

Soon, the test subjects on the ship were all turned into ashes, which could be considered as saving the lives of the mercenaries.

Just when everyone felt a little relaxed, a particularly large whirlpool suddenly appeared on the surface of the sea.

The raging waves in the whirlpool were dozens of meters high, and the water droplets had already hit the helicopters.

Before everyone could see clearly, what exactly was it?

A black dolphin that was 50 meters long, 30 meters wide, and hundreds of tons in weight suddenly jumped out of the whirlpool.

This dolphin's Leap was more than a hundred meters high, and it directly crashed into several helicopters.

Before it fell into the sea, the dolphin swung its tail and smashed a few helicopters that couldn't retreat in time. Then, it fell heavily into the sea, causing huge waves.

Everyone was stunned, and Yu Tian was shocked.

Chu Wei said in extreme fear, "They, they actually injected elements into the animals' bodies!"

Yu Tian's reaction was the fastest. He immediately ordered the helicopters and the destroyers to retreat at full speed.

However, the speed of the mutant Dolphin's attack was extremely fast. With its tough body, it directly smashed through two destroyers.

The remaining destroyers did not have time to turn their heads, and were also sunk.

There was only one helicopter left in the sky. Its special weapon was fully charged, and it directly aimed at the dolphin.

However, the dolphin seemed to have already discovered the mercenary's intentions. It swam desperately in the sea, and its speed was as fast as lightning.

The mercenary had no way of aiming, and could only chase after the Black

Shadow in the sea, looking for an opportunity to attack

However, at this moment, the dolphin suddenly jumped out of the water , and its sharp chin directly smashed the helicopter into two pieces.

The mercenaries and special weapons fell into the sea along with the wreckage of the helicopter.

Seeing this, everyone's faces were filled with disgust.

It could be said that these world's most powerful mercenaries had experienced all kinds of battles.

However, this was the first time they had seen such a strange scene.

The Dolphin's combat strength was too strong. Even the best mercenaries couldn't withstand a single blow from them.

At this moment, more than a dozen beta testers rushed out of the cabin and tore the mercenaries who couldn't retreat in time into pieces. As if they wanted to provoke them, they let out extremely arrogant roars.

Chu Wei and Chu Xue were so scared that their faces turned pale. Fortunately, they were in the sea. If they were on the ground, who could stop such a big monster?

Hamilton and the others felt the dolphin's tail slap on the surface of the sea, creating a huge wave. It was like a heavy slap on their faces.

The mercenary group that thought they were the strongest in the world was simply vulnerable in front of these monsters.

If this was humiliation, then this humiliation would leave a mark on their faces for the rest of their lives.

It made everyone panic and didn't know what to do.

At this moment, the old and gloomy voice sounded again in the command center.

But this time, he laughed arrogantly..

?Chapter 263 – Chapter 263, One-On-One Combat With Monsters

Thank you readers!

After a burst of maniacal laughter, the mysterious man, then, he said proudly, "Now that we've gotten what we want, we're ready to give up on this ship. If you like it, you can pick it up and use it.

“I know that your name is Yu Tian. I also know that your status in the Chu family is very high, but this will soon become history. We have now obtained the most powerful weapon in the world,

“Very soon, the Chu family will no longer be the number one family in the world. This is because what we are going to do next is to launch a full-scale attack on the Chu family!”

Yu Tian narrowed his eyes and said with a disdainful smile, “Is that really the case? So My name is still so famous. Since you know me so well, then you should know..,

“As long as I am here, you can forget about it!”

The mysterious man said coldly, “Now the choice is in our hands. It's only a matter of time before we attack the Chu family. But for you, there's no choice.

“If I were you, I would use the remaining time to enjoy it as much as possible, because what you have to face next is the most painful blow in this world.

The Chu family carried out a greedy plunder of the world. They controlled nearly a third of the world's wealth, and they continued to develop and plunder.

Not only did they destroy the Earth's natural energy, but they also displaced countless people. For us, this is an inevitable counterattack.

We will never compromise and not give up our goal because of your existence. In the end, you will also die at our hands!”

Yu Tian really did not want to listen to his nonsense anymore. He said arrogantly, “Stop pretending. I Don't care about you at all. I Don't care about what you want to do,

“But listen to me carefully. Soon, I will stand in front of you. I Don't care who you are. Even if you are a god from the sky, I will personally kill you,

“Remember what I said to you, you'd better not die in the hands of others!

After saying that, Yu Tian directly cut off the radio, there was no need to waste time talking to them.

Following that, Yu Tian reached out from his backpack, took out the Red Thorn, and put it on his waist. Then he turned around and ordered everyone, “Everyone, stop watching, this is a real war!”

“Prepare a helicopter for me first. I want to board the ship myself!”

Chu Xue's face was gloomy as she stepped forward to stop him, "Are you not listening to me? If I don't let you board the ship, Can't you listen to me? That ship is going to sink now"

"What can you do with a knife that can only be used to peel potatoes?"

Yu Tian turned around abruptly and said coldly with a frown, "I'm doing what I should be doing. Stop talking nonsense and prepare a helicopter for me immediately!"

Chu Xue was helpless and could only nod at the mercenaries around her.

Half an hour later , the ship had sunk halfway, and Yu Tian jumped onto the deck

The hull was very unstable, swaying left and right, and the bow of the ship was slightly tilted.

He completely ignored all of this and walked into the cabin. But at this moment, more than a dozen test subjects rushed out violently.

Everyone in the command center was sweating for Yu Tian, and their hearts were in their throats.

However, Yu Tian's expression was indifferent, as if he was facing a group of children who deserved a beating. Not only was he not nervous at all, he even laughed.

Those beta testers were not in his good mood. Without saying anything, they rushed forward.

However, Yu Tian shook his head helplessly and said in a low voice, "You were once humans"

As soon as he finished speaking, he threw out a few punches. In an instant, the contestants who were hit by the punches were sent flying like kites with a broken string.

Even the body that was invulnerable to knives and spears was broken bones and tendons by this violent force. They died on the spot.

The remaining testers didn't know what fear was at all, and they charged forward without hesitation.

After a series of punches and kicks, more than a dozen testers fell to the ground and died in the blink of an eye.

In the command center, Chu Xue, Hamilton, and the others who saw this scene were so shocked that their jaws almost fell to the ground.

Although Chu Xue had long known that Yu Tian's combat strength was strong, how could she have imagined that his combat strength could actually be so valiant to such an extent.

Meanwhile, Hamilton and the others' faces were covered in cold sweat, and they felt a little weak.

No wonder he became the boss of the Chu family. With just these few punches and kicks, he was completely qualified.

If she had known that he was so powerful, she would not have said those useless nonsense in front of him.

Otherwise, why would she be slapped in the face by his strength now?

At this time, Yu Tian had already walked into the cabin. Those armed men had already left the ship through some unknown means.

However, it allowed him to smoothly arrive at the bottom of the cabin.

However, the cabin labeled DX had already been completely submerged by the water. Yu Tian could only hold his breath and prepare to swim to that cabin.

However, at this moment, his entire body suddenly shook violently, and a deafening muffled sound made Yu Tian immediately understand.

That mutated dolphin was attacking this ship.

The second time, it followed closely behind and directly smashed the ship into two pieces.

The sea water violently poured into the cabin, causing Yu Tian to stagger and fall directly into the whirlpool of the sea water.

When all the sounds were cut off by the sea water, a huge black shadow quickly slid past him.

The whirlpool that was created caused Yu Tian to completely lose control of his body, and he could only drift along with the waves.

The mutated dolphin suddenly turned around, opened its mouth, and charged at Yu Tian.

Its sharp teeth emitted a sinister color in the seawater.

Yu Tian tried his best to stabilize his body. As there was resistance in the seawater, he could not use all his strength with his bare hands. He took out the Red Thorn and held it tightly in his hand.

He saw an opportunity and dodged the Dolphin's attack. At this moment, he stabbed the Red Thorn into the Dolphin's body.

The moment the dolphin appeared in pain, it swam to the surface of the sea with all its might and jumped out of the sea with Yu Tian.

When everyone saw Yu Tian riding on the dolphin, their mouths were wide open in shock.

This scene was like watching a huge movie.

Yu Tian fiercely slid the dagger in his hand. The blood in the Dolphin's body gushed out like a fountain.

The moment the dolphin fell back into the water, Yu Tian fiercely grabbed his wound and continued to stab it with the Red Thorn.

The moment the whirlpool appeared, he had already stabbed the dolphin's head.

When the seawater covered the moment, the Red Thorn also stabbed into the Dolphin's head, followed by its eyes, nose, and forehead.

The dolphin gradually gave up struggling, and finally stopped moving completely..

?Chapter 264 – Chapter 264, Creating An Opportunity

Thank you readers!

The people in the command center were dumbfounded.

It was so easy for Yu Tian to fight such a big monster alone. The strength that Yu Tian displayed was simply heaven-defying.

At this moment, a few helicopters were hovering on the sea surface.

Searchlights were shining back and forth on the sea surface that was dyed red with blood.

At this moment, Yu Tian suddenly rushed out of the water with the silver-white suitcase in his hand.

The helicopter descended the ladder, and with the roar of the propeller, it brought Yu Tian to the nearby land.

An hour later, when Yu Tian handed the suitcase to Chu Wei, the crowd burst into applause.

At this moment, no one was not impressed by Yu Tian's bravery. Hamilton was even more convinced. Without any more nonsense, he immediately went outside with the others to wait.

Chu Xue immediately asked someone to bring the prepared clothes to Yu Tian personally.

However, he was not in the mood to take a shower and change his clothes. Instead, he asked Chu Wei.

“Now that we have the suitcase, can we shut down the testers?”

Chu Wei opened the suitcase and activated the equipment. Then, she said seriously, “The equipment here will be connected to each tester. After that, we can shut down the components in their bodies!”

At this time, the device connected to the satellite and connected to each component at the same time. Soon, all the data of the testers was displayed.

What surprised Yu Tian was that there were hundreds of testers all over the world.

He wiped the water stains on his face and ordered indifferently, “Turn them off immediately. Don't let these testers ruin this poor world!”

After Chu Wei entered a string of passwords, she immediately pressed the switch to shut down the components.

At the same time, all the testers who received the order to shut down suddenly had their minds blank and no longer made any offensive moves.

Seeing this, Yu Tian finally felt slightly more relaxed.

He didn't say any more nonsense and immediately got up to take a shower and change his clothes. Then, he asked Chu Xue to prepare the plane.

Chu Xue asked in confusion, “Now that the test subjects have been closed, why are you in such a hurry to go back? It's rare to come to the United Arab Emirates, Can't you play for a few more days?”

Yu Tian sighed and smiled helplessly, "I want to play too, but someone just won't give me the time. Those people who have the elemental sample are not very useful!"

"If I want to make a big scene, they have to have ores in their hands. I have to go to the industrial base in the north immediately to take a look. Now, I'm racing against time because I don't want those bastards from unknown sources to win a second time!"

Before she finished her sentence, Chu Xue received a call.

Yu Tian didn't care about the content of the call, but Chu Xue's expression became more and more serious.

After hanging up the phone, Chu Xue was silent for a few seconds before she said with a heavy tone, "Now, the whole world thinks that the divine elements were done by the Chu family, especially those countries that were destroyed by the test subjects,

"Now, they are preparing to denounce the Chu family. This time, our family is under a lot of pressure. The 108 sisters have all received orders. No matter what methods they use, they must suppress the situation!"

Chu Wei was the one who felt the most uncomfortable. If she was not one of the 108 sisters, even if she died 10,000 times, it would not be enough for the Chu family to bear the pressure and losses this time.

Yu Tian casually picked up the coffee and cake and ate them without a care.

Seeing how relaxed he was, Chu Xue shook her head with a bitter smile and said helplessly, "Brother, don't you have a headache at all?"

"A headache? What's the ?" Tian smiled indifferently and said, "This is also inevitable. Those people have said before that they want to destroy the Chu family now. By doing so, they are creating an opportunity for them!"

"When the Chu family is busy with their own affairs, they want to take what they want. The most shameless thing is that they are using the elements to create monsters. In the end, they will still blame it on the Chu family. They are thinking too much!"

With this analysis, Chu Xue and Chu Wei's thoughts gradually became clear.

In their hearts, they both admired and liked Yu Tian.

Especially when he was able to remain calm from the beginning to the end. Not everyone could do that.

Chu Xue poured Yu Tian a cup of hot coffee and asked, "What should we do now?"

Yu Tian stood up and tidied up his backpack. He said disdainfully, "Nothing. Just keep quiet. Before we find the mysterious person behind this, everything we say is nonsense!"

After saying that, Yu Tian turned around and left. Chu Wei quickly followed him.

She knew that Yu Tian did not want to talk to her now, so she decided to follow him quietly.

It took a full 10 hours to get from Lianbai to the Northern Territory.

In these 10 hours, many changes had happened in the world.

However, the information that Yu Tian had was more comprehensive than what had happened in the world.

First, the Chu family asked Chu Xue to take over this crisis.

Second, many countries continued to increase the pressure on the Chu family. They even demanded that the Chu family hand over Chu Wei, compensate them for all their losses, and apologize to the whole world.

The Chu family adopted Yu Tian's strategy and remained silent. However, under the instigation of some people, the whole world started a wave of resistance against the Chu family's business.

Yu Tian smiled faintly when he saw this.

They were just a bunch of clowns. They couldn't cause any big waves.

The plane landed at Hongqu International Airport. Chu Meng and Chu Yue had already made preparations to welcome them. It was a helicopter.

On the way to the industrial base, Chu Meng held Yu Tian's hand and said gently, "After we took over the base, we had already made preparations for defense, but now we still don't know who our opponent is."

"So, in terms of defense, it's also more flexible. I only deployed 500 mercenaries!"

Yu Tian looked at the mountains and the hallucinatory red snow beneath his feet. In the distance, it was as if the world's tallest mountain was right in front of him. It had been silent the whole time.

Chu Wei was the same. She had been here many times when she was building the base.

There were no roads that could be used normally in Alegre. Moreover, the snow was accumulated all year round, and oxygen was as scarce as food.

If the people here wanted to buy daily necessities, they would have to walk dozens of kilometers and take two days to come back.

Even so, the people here would still pray for happiness by kowtowing thousands of miles away.

The appearance of the industrial base had also completely changed the lives of the people of Alegre.

However, this change did not make their lives better, but it made them forget many beautiful traditions.

The helicopter landed in the airport of the industrial base. Mercenaries who had taken over the security were everywhere.

Of course, there were also those who were carrying belts and picking up ores in a sinkhole with a diameter of five hundred meters.

Yu Tian tightened his collar. Although Tian a€?er wasn't as cold as lustre, she was still pretty f * cking awesome.

He looked at the mercenaries and turned to Chu Meng. a€?We don't need so many people.. Leave fifty of them and let the rest leave!

?Chapter 265 – Chapter 265, Tell Them To Stay Away

Thank you readers!

Chu Yue asked in confusion, a€?If we let them retreat and those people attack this place, what should we do?a€?

Yu Tian liked to look at Chu Yue's cold eyes the most. Moreover, she seemed to have put on a silver eyeliner today, which made her look particularly sexy.

He smiled and said, a€?Now that those people have obtained the finished products of the elements, they can create monsters faster than they can pee. These mercenaries are no match for those people at all!a€?

a€?Staying here is suicide. Let them stay away from here!a€?

After saying that, Yu Tian took out his binoculars and threw his backpack to Chu Wei. He said coldly, a€?You said that as a woman, you can live your whole life. Look at the other sisters. When they are free, they go shopping and spend moneya€|a€?

“You are F * cking great. You dug a big pit here and dug so many monsters, and you still need me to clean up the mess for you. From now on, you are my servant girl!”

Chu Wei looked at him with a red face and pouted her small mouth. “So what if I'm your servant? What's The Big Deal?”

Yu Tianxian came to the edge of the sinkhole and looked inside with his binoculars.

At that moment, the sinkhole was densely packed with miners. Everyone was carrying belts and throwing the ores they picked up into the belts.

After picking up enough ores, they would follow the spiraling path of the sinkhole and send them to the recycling center of the base to exchange for money.

Chu Wei explained from behind, “This kind of ore is especially difficult to dig. Sometimes, even if you dig for an entire day, you might not be able to dig out a piece as big as a finger.

“Some of the ores that are dug out are fake and have no value at all!”

Yu Tian listened as he watched. At this time, a group of men and women who were eating by the campfire entered his sight.

The food these people ate was extremely simple and crude. It was dark and he didn't know what it was, but everyone was talking and laughing. On their pitch-black faces, there was hope for the best harvest every day.

A man in his fifties dressed in a national costume with a pitch-black face walked into the crowd, surrounded by a few young people.

The laughter that was originally going on suddenly stopped. It seemed like this man wasn't very popular with them.

However, the middle-aged man did not care about this at all. Instead, he unscrupulously picked up the potatoes on the bonfire, while eating, he said, “Dewang, Loba, you haven't dug any stones for two days. This will affect my income!”

Yu Tian saw this pretentious middle-aged man and turned to ask, “Who is that guy?”

Chu Wei explained, “He is the foreman here. The workers here have to give him benefits to dig stones here. And we can let him manage these workers!”

At this moment, the middle-aged man named Luo Ba slowly raised his wrinkled forehead and complained, “My wife's health hasn't been good these few days. I can't dig stones very well.

“Moreover, there are more and more people digging stones now. Our income is decreasing, and we have to give half of it to you. We've discussed it. If we continue to work, you have to let Abu's people leave, “Or you have to increase our income!”

Everyone nodded and agreed with Loba's words.

Before the middle-aged man spoke, he threw a mouthful of potatoes into the bonfire, causing Sparks to fly, just like his angry eyes.

He snorted lightly and said angrily, “Loba, you are all people from Alegre. Otherwise, I would have told you to get lost. When you came to work with me, the price was agreed upon. I will give you 100 yuan per catty of stones,

“Now that you are telling me this, aren't you afraid that the heavens will know of your black heart and punish you?”

Loba jumped up in excitement. He glared angrily and said loudly, “Jizhen, you are the black-hearted person. The company gave US 500 yuan per catty of stones, but you gave US 100 yuan. The one who will be punished is you!

Everyone looked at Tsering angrily. Back then, tsering had believed in an inhumane beast.

However, tsering sneered and said disdainfully, “You poor people are lazy and ignorant. If it weren’t for me, you would still be sowing those poor crops on those barren lands”

“I've made your income from less than 1,000 yuan a year to over 10,000 yuan now. Aren’t you satisfied?” Trust no one, don’t trust poor people like you.

Especially you, Loba. Last year your father was sick, and I helped you a lot of money. That's because we're both from Alegre, and now you’re talking to me like this,

if that's the case, then I have to tell you something else. My Son, Rabat, has reached the age of marriage. He has taken a fancy to your family, Dondrup, and will propose marriage in a few days!

Raba was shocked and immediately jumped over the bonfire like an angry beast. He grabbed Zairen's collar, he shouted ferociously, “Zairen, you beast. Your son Raba is disabled and now he even needs to be fed,

“You actually let my daughter Dengzhu marry him. Are you worthy of Zaixi's living Buddha's blessing to the people of Alegre? “Your heart is as Vicious as a wild beast!”

A few young men behind tserin rushed up and pushed loba to the ground.

Following that, a series of punches and kicks followed.

Everyone rushed up recklessly, protecting loba as they fought with those young men.

Yu Tian saw this and frowned slightly. He asked Chu Meng in a low voice, "Is the Dunzhu that he mentioned the same Dunzhu that you guys know?"

Chu Meng smiled helplessly, "There are many people with the same name here. Sometimes, if you stand there and shout out a name, a thousand people will agree to it. We have to continue watching this!"

At this time, Ziren tugged at his clothes and shouted, "Everyone, Stop!"

Everyone immediately stood on both sides. At this time, Luo Ba's face was already bruised and swollen, but his eyes were still filled with anger and not the slightest bit of fear.

Tserin looked at everyone coldly. Finally, his gaze fell on Luo Ba's face. He said fiercely, "You can either marry Dong Zhu to my son, or you can take your wife and leave the construction site!"

De Wang, who was standing beside Luo Ba, helped Luo Ba up. He said urgently and angrily, "Now, our fields have already been abandoned. If you let Luo Ba leave, isn't that the same as letting Luo Ba's family starve to death?"

"If you let him leave, we won't do it anymore. All of us will leave!"

Tsering laughed and said disdainfully, "Do you think I'm afraid of your threats? I don't know how many people want this job. If I let someone else do it, I'll earn more. Do you think I'll stop you?"

As he spoke, Tsering turned around and was about to leave, but Loba suddenly picked up a torch and threw it heavily on Tsering's back.

The furious Tsering felt that he had really given loba face. He pulled out the sharp knife at his waist ferociously and rushed towards loba.

?Chapter 266 – Chapter 266, Geological Exploration

Thank you readers!

When they saw Jizhiren's sharp knife stabbing towards Loba, de Wang and the others immediately stepped forward to stop him. "Jizhiren, do you want to kill someone?"

Jizhiren brandished his sharp knife, unable to vent his anger. His eyes burned with anger as he shouted, "He's the one who wants to kill someone. All of you, get out of my way. Today, I'll definitely let him see how powerful I am!"

"Even if I kill him, I'm not afraid. I'm a rich man. I can buy anything!"

Yu Tian could not stand it anymore.

The other party was having a good meal, so he went over to pretend. Now, he even wanted to use a knife. Was he pretending to be crazy?

Thinking of this, Yu Tian picked up a fist-sized stone and shouted angrily, "I'll let you pretend!"

Then, Yu Tian threw the stone at the back of Jizhiren's waist.

At least 30 meters away, Jizhi fell to the ground, and the sharp knife left his hand.

Everyone was surprised. Who threw the stone so accurately? They could go up the mountain to fight wolves.

At this time, Jizhi's follower helped Jizhi up in a hurry.

Before he could stand firmly, Jizhi cursed.

"Who attacked me from behind? Who threw the stone at me? If you have the guts, stand out!"

Someone in the crowd suddenly pointed at Yu Tian and the others and said excitedly, "Look, isn't that the boss of the Industrial Zone?"

As he spoke, Yu Tian had already brought the girls to the front of everyone.

Jizhiren knew Chu Wei. When he saw her angry and cold expression, he immediately lowered his head and did not say anything.

Yu Tian did not even look at him. Instead, he calmly asked Loba, "Is that Dong Zhu who went to school and knows medicine your daughter?"

Although Loba did not know who Yu Tian was, with his temperament and Chu Wei and the others surrounding him, he knew that he was definitely not an ordinary person.

Thus, he hurriedly said, "Yes, she is my daughter. Do you know her?"

"Not really, but your daughter has helped me before. I should repay her!" Yu Tian said with a smile.

The shocked loba asked in puzzlement, "My,' daughter has helped you before?"

Thank you, Buddha. Dundu has set a good example for the people of Alegre.

She is not like Tsering, who was bewitched by the Devil and has a black heart!"

Speaking of this, Yu Tiancai glanced at Jizi Ren with disdain and said indifferently,

O

"How do you feel now?"

Jizi Ren hurriedly pushed his follower away, nodded and bowed. "It's nothing.

If you're happy, you can throw stones at me at any time!"

Yu Tian snorted coldly and said domineeringly, "From now on, don't appear here. I'll be happy. There's no need for any foreman here. Get lost and let me know that you still dare to hang around here!"

"I'll let you become trash just like your son. Do you understand?"

Tsering was scared silly on the spot. How would he dare to refuse?

Moreover, he heard that Dengzhu had helped this person before, so he didn't have any more chances. He agreed and left with his followers like a stray dog.

Yu Tian also announced, "From now on, everyone will continue to work here. We'll buy each catty of stones for 700 yuan. No one can take away your hard-earned money!"

Everyone cheered and danced, giving their thanks to Yu Tian one after another.

Luo Ba, a middle-aged man in his forties, was crying at this moment. He knelt down to Yu Tian and was about to kowtow.

Yu Tian hurriedly helped him up and said helplessly, "Your face is already bruised and swollen. You should go home and let Donzhu take a look at you. If possible, bring Donzhu over. I want to see her personally!"

"Okay, I'll go back and call her right now!"

After saying that, Lombard left the base with powerful steps and went home to call his daughter.

At this moment, Chu Meng's radio rang.

“President Chu, lunch is ready. We can start eating anytime!”

Yu Tian was also hungry. He followed everyone to the dining hall. The table was filled with meat.

He knew that this was a plateau. If one stayed here, they had to eat meat. Otherwise, their bodies wouldn't be able to take it.

As he ate, Chu Meng asked, “Hubby, do you have any plans this time ?

Yu Tian spat out the bone in his mouth and said slowly, “What plans? If those bastards don't come here to snatch the elements, any plans will be useless. Even if they come here to snatch it, they can just do it directly. What plans do they need?”

Just as they were talking, a mercenary walked into the restaurant and reported to Chu Meng, “Boss, our drone found something!

As he spoke, he placed the computer on the dining table, and Yu Tian and the others gathered around to take a look.

Ten kilometers away from the industrial base, there were more than ten tents, some geological exploration equipment, and dozens of people who looked like experts busily moving in and out.

Chu Wei said nonchalantly, “Aren't they just a group of people doing geological exploration? What's The Big Deal?”

Yu Tian glared at her, he said unhappily, “It would be great if all the flesh on your body grew in your head. These people only look alike. Maybe when you turn around, they'll take out a rocket launcher from your pants and blow you up until there's nothing left!

After saying that to Chu Wei, his face turned red and he didn't say anything else.

Yu Tian wiped his mouth and drank a mouthful of soju wine. Then he said, “I have to go over and take a look. If they're those people, kill them immediately!

“Come, order the servant girl to give me the divine weapon, the Red Thorn, in a respectful manner!

Chu Wei was so angry that she threw her backpack on Yu Tian. Without saying anything, she left the restaurant.

Yu Tian didn't know whether to laugh or cry. “What the hell? You Little Servant Girl, you're just pretending!”

An hour later, Yu Tian was lying on a hillside 100 meters away from the tent area, using a telescope to observe carefully.

From the looks of it, these people seemed to come from many countries, and they were indeed doing geological exploration.

The reason was that these people were really very professional, and their exploration equipment was very smooth.

Moreover, there were all kinds of computers, generators, and all kinds of records.

But these could be seen, and as for what was in the tent, it was still unknown. Yu Tian put away his binoculars, and directly got up and walked to the tent area.

Since he had already disguised himself as a tourist who was hiking, they would not doubt him.

The people who were busy exploring greeted Yu Tian warmly when they saw him.

It was very exciting to be able to see people at an altitude of thousands of meters.

At this moment, a man from the eastern country poured a cup of hot coffee for

Yu Tian and said with a smile, "Drink some. It's really not easy for you to climb here alone. It's very dangerous here!"

Yu Tian took the coffee and smiled. "Thank you. I like to explore alone. I don't think you guys are from the same country."

The man also took a sip of coffee and nodded. "Yes, we are from the World Geological Research Association. This is a non-governmental organization. There are more than a hundred geological enthusiasts from over a hundred countries who have joined this organization,

"This time, we are here to explore the changes in the topography of the plateau.. We are expected to stay here for five days before we leave!"

?Chapter 267 – Chapter 267, The Attack Appeared

Thank you readers!

Yu Tian did not see anything strange about this man.

However, he could not be sure that these people were really here for geological exploration.

Hence, he took a sip of coffee and asked, "It's already very late today. Can I set up a tent next to you guys for the night?"

The man smiled without hesitation. "Of course you can. It's safer here!"

With that, the man even helped Yu Tian set up the tent and boiled some hot water for him. He even invited Yu Tian to have dinner with them during dinner.

Yu Tian also knew that the man was half easterner.

His name was Luo Xiaoyi. He had grown up in the west. This time, he had formed a team to explore here.

In the dead of night, the howling of wolves in the distance made the pitch-black night even more desolate.

The exploration team members had already fallen asleep, and from time to time, there would be the sound of snoring.

Yu Tian quietly left his tent, bypassed the people on night duty, and sneaked into the tent where their equipment was stored.

He opened a few boxes, and all of them were filled with equipment used for exploration. There were no weapons or special items.

Just as Yu Tian was about to leave the tent, the ground suddenly shook. It felt like a giant was running.

Before Yu Tian could rush out of the tent, the night watchmen's screams came from outside, followed by deafening roars.

When Yu Tian rushed out of the tent, there were beta testers everywhere. They were like wild beasts, attacking everyone in a frenzy.

In the blink of an eye, blood flowed like a river.

Yu Tian narrowed his eyes and took out a red thorn. With a wave of his hand, he killed a few beta testers.

The remaining beta testers all rushed towards Yu Tian.

"Come at me, I'll let one of you die!"

Yu Tian snorted coldly as the Red Thorn flew up and down. In an instant, more than ten beta testers were all shattered to the ground.

Although the test subjects had been dealt with, the ordinary people had also suffered heavy casualties.

Originally, there were more than fifty people, but now there were less than five people left.

Luo Xiaoyi asked Yu Tian in horror,

C

“What kind of monsters are they? Why are you so powerful?”

Yu Tian did not know how to explain to him, and he was too lazy to explain so much. He only said indifferently, “You're right. This place is very dangerous. You guys should leave this place!”

After saying that, Yu Tian dug out his backpack from the pile of messy tents and was about to leave.

Luo Xiaoyi hurriedly pleaded, “Our helicopter can only arrive at noon tomorrow at the earliest. If you leave, what if those monsters attack us again. Please, help us!”

Yu Tian really did not want to care about them. These beta testers had already appeared. The most important thing now was to return to the industrial base and set up defenses.

However, Yu Tian could not bear to leave them here.

After thinking for a while, Yu Tian could only agree, “Then hurry up. Take your things and follow me!”

Luo Xiaoyi and the others hurriedly took their belongings and followed Yu Tian for ten kilometers before arriving at the industrial base.

When they saw this industrial base, everyone was shocked.

Luo Xiaoyi said in astonishment, “So there's actually such a huge industrial area here. This is too shocking!”

Yu Tian said indifferently, “You guys find a place to rest first. I will arrange a helicopter for you to leave later!”

Luo Xiaoyi looked puzzled at Yu Tian's identity and asked, “Is this industrial area yours? Then why did you tell me that you are a mountain climber?”

“My hobby is mountaineering, can't Tian said impatiently, “Who doesn't have a hobby? In this plateau thousands of meters above sea level, if I don't go mountaineering, can I still dance in the square?”

After saying this, Yu Tian didn't care much and directly asked the mercenaries to invite them to rest.

Then, he woke up Chu Meng and the others from their sleep.

When everyone was gathered together, Yu Tian said seriously, “Tonight, those testers attacked the exploration base and killed dozens of people. I believe that they will attack this place soon!”

Chu Meng and the others looked indifferent. They had seen all kinds of scenes. What was there to be afraid of?

Moreover, Chu Wei still had the silver-white box with her. As long as they attacked, she could shut them down at any time.

Chu Wei had the same thought. She stood up and said, I'll activate the equipment. If there are any other testers who have been injected with the elements, my equipment will be able to detect their presence and their current location, when the time comes, I can shut them all down at any time!”

Yu Tian nodded and said indifferently, “That's fine. If you find anything, inform me immediately. Chu Meng, just in case , let the workers leave the industrial base first,

just treat it as giving them a few days off. Wait until the crisis in the industrial base is resolved, then let them return to work!”

Chu Meng didn't say anything else and immediately got up to make arrangements.

In the early morning, the sky was covered in snow. The air was even colder, and there was a strong gust of wind.

Chu Wei searched for a few hours, but she didn't find any signal.

However, Yu Tian didn't expect it to be so easy. The test subjects from last night had suddenly appeared , and during the fight, he could clearly feel their power erupting, they were different from the test subjects on the ship.

They were even stronger than them.

It was possible that the mysterious people behind them had changed the basic structure of the drug again.

If his speculation was correct, then this detection device was now a piece of trash and had no use at all.

Thinking of this, Yu Tian put his hand next to the bonfire and said in a low voice, "It seems that we can only use hard defense. You guys listen well. If the tester attacks this place"

"When the time comes, you don't have to worry about me. You should worry about yourself. In front of me, you guys are pussies. In front of the tester, you guys are a group of prey that can be torn apart easily,

Chu Yue, who had been silent all this while, suddenly said coldly, "I have a question that I can't figure out. It's these people that you brought back!

Yu Tian immediately stopped her from continuing and gave everyone a look.

Then, he smiled indifferently and said, "Sometimes, if you see too clearly, it becomes unclear. And when you want to see the real thing, you have to pretend to be confused. Everyone knows what I mean, right?"

Chu Meng lay on Yu Tian's knee and said softly, "Hubby, when this life is over, I want to go to the beach and bask in the Sun.. It's too cold here, you'll come with me!

?Chapter 268 – Chapter 268, Destroying The Base

Thank you readers!

However, the attack that everyone had been waiting for did not appear until the next morning.

Yu Tian felt that this was very normal. They knew that they were in charge here. Those test subjects were not their match. Even if they came, they would only be sending themselves to their deaths.

On the other hand, Luo Xiaoyi and the few foreigners could not sit still.

During breakfast, Luo Xiaoyi said with embarrassment, "Mr. Yu, thank you for your hospitality. Our helicopter has come to pick us up. At the same time, thank you for Saving Our Lives!"

This made Yu Tian a little surprised. If Luo Xiaoyi was from that side and wanted to leave before he got anything, it would be a little unreasonable, right?

However, Yu Tian kept his expression calm and smiled, "That's good. I don't need to call a helicopter to send you guys off!"

Luo Xiaoyi looked very nervous, his forehead was full of beads of sweat.

Yu Tian looked around and asked curiously, "Is it very hot in this room? Why are you sweating so much?"

"It's hot, it's very hot. Mr. Yu, I'll go back and pack my things first. When I have the chance, I'll definitely thank you properly!"

After saying that, Luo Xiaoyi stood up, but he knocked the bowls and chopsticks on the table to the ground.

Yu Tian found it especially funny when he saw his terrified expression.

Since he didn't have the guts, why did he still come here to pretend?

Luo Xiaoyi hurriedly bent down to pick up the bowls and chopsticks and stammered, "I'm sorry, I'm sorry. I just got a little excited knowing that I was going to leave this place!"

These words were even more ridiculous in Yu Tian's ears.

He looked coldly at Luo Xiaoyi's eyes and asked softly, "Excited? What are you excited about? But speaking of this, I have a question that I don't understand. Why did those Monsters Attack You Yesterday?"

Moreover, so many people died at that time. Why did only the five of You Survive?

At that moment, Luo Xiaoyi felt as if he had fallen from the sky to the ground. His entire expression was distorted.

Then, he shook his head desperately as if he had gone mad. The sweat and saliva on his face splashed all over the table.

Fortunately, Yu Tian dodged quickly. Otherwise, he would have been sprayed all over himself.

At this time, Luo Xiaoyi also fell to the ground. He stammered and pleaded, was coerced. They coerced me. Save Me, save me!"

Yu Tian realized that something was wrong. He hurriedly went forward to take a look. Luo Xiaoyi's seven orifices were bleeding.

"Poisoned?"

Now, this guy knew the key to everything. He must not let him die.

Yu Tian immediately took out five golden needles and pierced them into a few acupuncture points on Luo Xiaoyi's body.

Although he had controlled the effects of the poison, the effects of the poison had already mixed into his blood and he wouldn't be able to live for long.

However, this time was enough for Yu Tian to obtain something useful from Luo Xiaoyi.

Luo Xiaoyi said intermittently, "They have planted a bomb in the surrounding area. It will explode in two hours!"

However, this was not what Yu Tian wanted to hear. The bomb was not going to explode. This industrial area was not worth much. Even if they blew up the sinkhole, they would still be digging it.

Yu Tian asked, "Who asked you to do this?"

"It was the Phoenix organization. They got the elemental sample and wanted to kill you. As for the Chu family, I don't know why they did this. I only know that this time, they wanted the Chu family to disappear completely.

"I'm not one of them, but for the sake of my family, I had no choice but to do this. They asked me to organize an exploration team and pretend to explore here. After getting your attention, they would launch an attack on us,

"Other than me, those people are all their members. They were also the ones who planted the bombs!

At this point, Luo Xiaoyi vomited blood violently. He did not even close his eyes before he went to report to another world.

Yu Tian immediately gathered all the people who remained in the base.

Needless to say, Yu Tian only gave an order to everyone.

"Everyone, we have a bomb installed here. It will explode in an hour. Everyone, use the helicopter to leave immediately!

As soon as he finished speaking, everyone immediately went back to their rooms to retrieve their personal belongings.

However, the helicopter pilot reported to Yu Tian in a hurry.

"The parts of the helicopter have been damaged. Out of the five helicopters now, none of them can take off. It's impossible to repair them!"

Everyone looked at Yu Tian. At this time, someone had to give them an order, and their backbone was Yu Tian.

Yu Tian was also very calm. He even smiled indifferently and said, "Have fun, I like it. Don't just stand there, let's go to Allerge First!"

This was a good idea, and before they left, Chu Meng asked the mercenaries to get as much food as possible.

This was because from Yu Tian's powerful back view, she could tell that Yu

Tian was especially angry this time.

Once he got angry, it would be a war-level conflict, let alone a world-destroying one. It wouldn't be wrong to plan for the long term now.

An hour later, an earth-shattering explosion came from the industrial base.

Smoke like mushrooms rose among the mountains, and even Alegre was trembling violently.

Yu Tian, who was standing on the roof of Dunzhu's house, stared unblinkingly at the flames.

He wasn't angry. Instead, he felt especially excited.

At that moment, Chu Meng and the others also came to the roof. They all snuggled up to Yu Tian.

Chu Wei felt the most uncomfortable. This industrial zone was personally built by her. Seeing it turn into ruins, the reluctance in her heart turned into tears, rolling down her cheeks and landing on Yu Tian's shoulder.

Yu Tian turned around and immediately teased, "What are you crying for? It's not like you blew up the earth in half. Just destroy it and rebuild it. What's so great about it!"

Chu meng sighed and said, "Rebuilding it is easy, but what about time? You even said you wanted to develop the elements here into medicine. Now that you've filled in the holes, there's no need to develop anything!"

However, that was not what Yu Tian was thinking about. They bombed the industrial zone for themselves.

It was also because of this that there was no reason for them not to know that a few bombs could not kill them. Moreover, what good would it do them if they destroyed the base?

Could it be that they knew that he would definitely come to Alegre?

Thinking of this, Yu Tian pushed the girls away and chuckled. "Everyone, stop wasting time. This time, let's really get ready to start!"

The girls didn't know what Yu Tian meant? Why was it going to be a fight? Yu Tian looked around and said disdainfully, "They just want us to come to Alegre because there are innocent villagers here. They want to use them to blackmail me. This is really a high-level trick!"

Chu Meng scratched her head and said in surprise, "You can even think of this."

"I really admire you. Is that your head?"

Tian snorted and said, "If it's not your brain, then what is it? Stop wasting time. We have no choice now. We have to fight even if we don't want to.. Before they launch an attack, call for a helicopter!"

?Chapter 269 – Chapter 269, Let's See Who's Playing Hard

Thank you readers!

Chu Meng touched Yu Tian's forehead in confusion, then touched her own. She frowned and said, "You don't have a fever. I already said that we're going to fight, so what's the point of having a helicopter?"

Yu Tian rubbed his eyes helplessly and said with a headache, "The villagers here are innocent. Do you have the nerve to watch them be killed by those monsters?"

"Transport the villagers out as fast as possible. I'll wait for them here myself!"

Chu Wei immediately made arrangements. Every second was especially precious now.

Yu Tian asked Chu Meng.

"What kind of organization is Phoenix? Can they act like they're good at it?"

Chu Meng smiled bitterly and said slowly, "What do you mean by 'can they act like they're good at it'? They're quite good at it. They're called the Angel Legion. They're an amateur non-governmental organization that specializes in fighting against the world's top financial groups and families."

"While they're taking a shit, they're thinking about how to trample on these families. What's even more ridiculous is that there are still many people in the world who support them. Otherwise, how can they be called the Angel Legion!"

Chu Yue said helplessly, "Their slogan to the whole world is that they'll never sell their souls for a single person. They'll make all the families that plunder the resources of the world pay the price!

"Because their identities are all top secret. No one knows who they are?
"According to the information we have gathered, we can be sure that these people are extremely rich!

Yu Tian nodded. This reason made sense. Otherwise, how could they pretend to be rich in the whole world without money?

And if the members were all rich, there wouldn't be any traitors.

However, Yu Tian said disdainfully, "I don't believe that they're not doing it for money. Otherwise, wouldn't they be idle? If they don't earn money and work with others all day, what good would it do them?"

Chu Meng sneered and said coldly, "I think the same as you. Aren't they risking their lives for profit? Moreover, they're a non-governmental organization. Even the managers of many countries aren't willing to be enemies with them.

This makes them more and more arrogant. This time, they don't even put you in their eyes. Do you think they are crazy?"

Yu Tian didn't care whether they were crazy or not. If they wanted to see whose fist was harder, then let's compete.

In any case, they had to fight until the end. Otherwise, it would be meaningless.

At this time, the helicopters had already arrived. The villagers of Alegre boarded the helicopters one after another.

Loba let his wife board the helicopter, but he himself had to stay behind to help Yu Tian fight.

Yu Tian did not know whether to laugh or cry. That Loba had been beaten black and blue, yet he still had to stay behind to fight. Who could he defeat like this? At this moment, Dunzhu brought a cup of hot tea to Yu Tian and said very bravely, "I want to stay behind with my father to help you guys. I know medical skills, and I also know how to dissolve those elements!"

Everyone was shocked. Yu Tian also asked in surprise, "Tell me, how do I dissolve them?"

Dunzhu's face was a little red from everyone's shocked expression. He said in a low voice, "This is what my guru taught me. As long as the outer skin of the ore is wrapped and ground into powder, it can dissolve the poison!" !

Back then, when Alegre celebrated the harvest festival, a few people would go crazy. For this, my guru studied for a long time before he discovered this secret!"

Hearing this, Yu Tian smiled indifferently.

So that thing could dissolve elements. Wasn't this a little too amazing?

Chu Wei was an expert in this area. She felt that it was a little unbelievable.

Because there was no scientific basis for this. Moreover, it had never been used. It was just a saying.

Yu Tian had the same thought. He didn't take it to heart at all. He just smiled and asked, "Dunzhu, you're so obsessed with medicine. After my industrial area is built, you can go and work for me!

Dunzhu was so surprised that she did not say anything for a long time. It was Luo Ba who expressed her gratitude on her behalf.

At this time, most of the villagers had already moved away. Only de Wang and the others stayed behind with Luo Ba.

Yu Tian did not force them, he only reminded them, "It's okay to stay. This is your home. No one can stop you from protecting your home. But after a fight, you have to protect yourselves. Don't force it. You are not a match for those monsters!

Just as he was speaking, Yu Tian's phone suddenly rang.

He saw the phone number was a bunch of random code, and he frowned on the spot.

Chu Meng immediately turned on the computer and connected to Yu Tian's phone. She then opened the map, indicating that Yu Tian could answer it.

After the phone was connected, it was the hoarse and pretentious voice from the ship again.

"Mr. Yu, don't tell me that you think that I will definitely send the test subjects to attack Alegre? It seems that you are wrong again this time. I am indeed going to launch an attack, but it is not Alegre.

“As for where I am going to attack, you will soon know that Alegre is not our target. In fact, our mission in the Northern Territory has already been achieved. Your industrial area is still on fire. It looks like... It feels really good!”

Yu Tian laughed indifferently and said disdainfully, “That's all you have. Tell me, what do you want to do next?”

The man sneered and said, “I really like Mr. Yu's straightforwardness. If we weren't on the opposite side, I would really like to have a drink with you. But now, I want to kill you and wipe out the entire Chu family.

I forgot to tell you that we have already grasped the weakness of the Chu family, which is the integrity of the 108 sisters. I don't know what legend is behind this, but I know..., this will allow us to complete our plan as quickly as possible.

You are a person with strength, but your strength is not worth mentioning in the eyes of our Angel Legion, just like we have never taken the Chu family seriously.

“This is also our next plan. Guess which one of the 108 sisters we're going to attack? Why don't you help me choose?”

Chu Meng was still unable to lock onto the location of the signal, even if they used the Chu family's special satellite equipment.

Yu Tian really didn't want to listen to this guy's nonsense anymore. He said coldly, “If you have the guts, then do it. Don't talk nonsense with me. If you have the temper, then kill all 108 sisters of the Chu family.”

“But you must also remember this sentence. As long as I'm alive, I will rip off the heads of every single one of your so-called Angel Legion. I know that you are not afraid of death, so I will also kill your nine clans.

“Listen well to this old man. The war between you and me, Yu Tian, has officially begun now. Let's see who plays ruthlessly. This old man doesn't want to talk nonsense with you. You Can Die Now!

The Man laughed maniacally and said fearlessly, “You must be very angry now, right? But I'm very happy. Then it's a deal.. I want to see how many of the Chu family's 108 sisters you can protect!”

?Chapter 270 – Chapter 270, Beating Up Your Whole Family

Thank you readers!

As she was speaking, Chu Meng suddenly thought of something. She hurriedly leaned close to Yu Tian's ear and whispered a few words.

Yu Tian looked at her excitedly, pinched her chin and kissed her.

It made Chu Meng so happy that she felt a little dizzy.

Yu Tian followed suit and said to the mysterious man proudly, "Did you hear anything? I'm kissing someone. You must want to know why I'm so happy, right?"

"That's because I'll know who you are very soon. You Don't have to ask me why I know. Just wait obediently for me to appear by your side. Then, I'll drink and beat up your whole family!"

The man was silent for a moment. He thought that Yu Tian was just pretending. There were only two people in the world who knew his identity.

Moreover, these two people had never met him before. Even if they were face to face, they wouldn't be able to recognize him.

How could Yu Tian know who he was?

Thinking of this, he said even more brazenly, "Alright, then I'll wait for you to come to my side!"

With that, he directly hung up the phone.

Yu Tian turned his head and immediately asked Chu Meng.

"Is what you said okay?"

Chu Meng made a proud gesture, she smiled and said, "In the market, there's only one company that can block the phone signal as well as our Chu family's and cover such a large area. Moreover, there's only one company that can break through our Chu family's wireless network signal.

"This company is in Hai City. That is Chu Hui's territory. This person must also be in Hai City!"

This meant that this person's target must be Chu Hui.

Without saying anything else, Yu Tian immediately called Chu Hui.

At this moment, Chu Hui was working with the presidents of a few companies on a project. When she suddenly received a call from Yu Tian, she felt that it was a little strange.

When she returned to the office, she picked up the phone and joked, "Brother, you miss your sister. Why didn't you come to see me?"

She was still thinking about this at this time?

Yu Tian said helplessly, "As a woman, can you be a little more serious? Now that there are people from the Angel Legion who want to kill you, I'm in the Northern Territory. I'll be back in ten hours at the earliest."

"After you hang up the phone, immediately activate the highest level of security. Before I go to Hai City, don't leave the company. Close the curtains on the entire floor. Do you understand what I mean?"

Chu Hui had never heard Yu Tian's tone so serious before. She hurriedly agreed, "Okay, I understand. Come back quickly!"

After Yu Tian hung up the phone, Chu Wei had already arranged for the helicopter.

Before leaving Alegre, Yu Tian handed the industrial area to Loba and told him, "The reconstruction will start soon. During this period, you guys have to pay attention to your own safety. I even arranged for someone to provide you with supplies!"

Loba clenched his fists and said firmly, "We will protect the safety of the industrial zone with Our Lives!"

At this time, the helicopter had arrived outside the village. Yu Tian and the others immediately boarded the plane.

Ten hours later, Yu Tian, Chu Meng, and the others arrived at Hai City.

Outside the airport, Chu Meng and Chu Yue left directly by taxi because they had other work to do.

Meanwhile, Yu Tian and Chu Wei arrived at Chu Hui's company half an hour later.

When they met, Chu Hui hugged Yu Tian. Even through their clothes, Yu Tian could hear Chu Hui's terrified heartbeat and a slight tremble.

He smiled and comforted her, "There's nothing to be afraid of. If you want to take your life, you'll have to ask me, Yu Tian, if I agree or Not!"

Chu Hui pulled Yu Tian to sit on the sofa. Because she was afraid, she still refused to leave Yu Tian's arms.

She asked with lingering fear, "Why did the Angel Legion do this? What exactly do they want?"

Yu Tian laughed bitterly and said, "If I knew, I wouldn't be so passive. They've already played me three times now, but Chu Meng has gone to collect information. We'll know who that guy is very soon!"

As he spoke, Chu Meng's call came in. She said angrily, "The people in this company are very vigilant. It seems like they're not that clean either. Conventional methods won't work. I'm going to hack into their company's server!"

"Let's see what kind of tricks they're playing!"

"Be careful. If there's any problem, let me know at any time!" Yu Tian instructed and hung up the phone.

Suddenly, there was the sound of Thunder in the sky. Then, a downpour of rain fell, blurring the bright neon lights of Hai City.

At the entrance of a cargo port, a delivery man came to the door of the guard's room in the heavy rain. He knocked on the closed window and shouted impatiently, "Delivery!"

Y

"

A man standing in the guard's room with a vicious gaze opened the window with a face full of killing intent. He took the delivery and closed the window without saying a word.

The rider did not leave. Instead, he stuck his head out through the window that was covered in rain and looked inside.

He said in puzzlement, "Isn't the delivery ordered by old Han? Who is this person? I deliver delivery every day, but I have never seen this person!"

The Man in the room looked at the rider ferociously. He suddenly opened the window, raised the silencer, and shot the rider in the head.

Then, he dragged the rider into the guard at the fastest speed, threw him with the dead Han, opened the takeout and started eating.

At this time, two containers were dragged outside the door. The man immediately opened the door and let them pass.

At the same time, in the backyard of the company, Chu Meng and Chu Yue opened a sewer cover at the fastest speed and jumped in silently.

Rats and cockroaches were everywhere in the sewer, but the two women ignored them and continued to follow the blueprint in their hands.

They came to a fence and Chu Meng used her flashlight to illuminate a few cables above her head. She said in a low voice, "This is the place. I'll go up and connect the cables. You watch the computer!"

Chu Yue nodded and immediately started the computer. Chu Meng quickly connected to the company's network and followed up with a series of operations.

At this time, many men and women in black came to the cargo hold at the port. Although their skin colors were different, they all had a kind of aura about them, and that was the appearance of all sorts of pretentious people.

Just as everyone was talking, a middle-aged man with white hair and a suit walked up the ladder and onto a simple stage, he then smiled and said in a hoarse voice, "Good evening, everyone. Welcome to this party!"

Everyone gathered in front of him and listened carefully to the man's words.

He spread his hands and continued to smile, "Although this party doesn't have any good wine or beautiful women, I have brought everyone the most shocking weapon in the world. His name is the god-given element!"

As soon as he finished speaking, the doors of the two containers were forcefully opened. One of the containers contained a tester. At this moment, he was forcefully ramming against the modified container, producing a deafening sound..

?Chapter 271 – Chapter 271, Super Killer

Thank you readers!

When the tester appeared, everyone was so scared that they immediately retreated. Someone shouted loudly, "Situ longyi, what kind of monsters did you bring us?"

"They look like zombies!"

"Are you sure this place is safe? They can destroy an entire city alone!"

Situ longyi smiled confidently, "Mr. Glenn is right. Their combat power is even stronger than nuclear weapons. The early tester almost lost control, but after our changes"

As he spoke, situ longyi lightly tapped a button on the computer in front of him.

The two crazy testers immediately quieted down, as if they were dumbfounded and did not move.

Everyone was shocked.

Situ longyi also said loudly, "These testers are completely controllable. You can also give them all kinds of orders, making them invincible killers and bodyguards who can block bullets,

"Even bombs that can destroy cities are up to you. With this weapon, you can control everything. Your gangs and families will no longer need to worry about any attacks from now on, "Even the administrators of the country will listen to you,

"At that time, you will earn endless wealth, have endless money, and play with endless women. This is the best gift I have brought to you today!" Everyone was dumbfounded, excited, and excited.

Someone asked, "Mr. Situ, how much do you want to sell it for?"

"No matter how much it is, I want one first!"

"I want two!"

Situ longyi waved his hand to stop the crowd's enthusiasm and said proudly, "Before I say the price, I have to remind everyone that the factory that can produce this kind of element no longer exists,

"At least in the next five years, it won't be possible. The 50 god-given elements in my hand are the only 50 in the world at present. Therefore, the price is one billion dollars each!"

The enthusiasm that had just risen was splashed with cold water.

Everyone was whispering and discussing. This price was completely unacceptable.

However, situ longyi added, "But I have another option for everyone. You all know that the world's number one family, the Chu family, has 108 sisters. If you can kill one of them, you can get the god-given elements for free!"

These words were enough to shock everyone, causing the entire place to fall silent.

Fighting with the Chu family was more terrifying than destroying a city. They were just gangsters who wanted to earn more money. They had never thought of competing with the number one family in the world.

Not to mention the 108 sisters, any slap from the Chu family could instantly wipe out these small gangs.

Don't even think about it.

Glenn was the first to shout, 'I'm willing to pay a billion dollars to buy it, but I definitely won't make an enemy out of the Chu family. I believe everyone here thinks so!

Everyone nodded in agreement.

Situ Longyi didn't make things difficult for them and smiled indifferently, 'Alright, this is your choice. Of course, I have no problem with it. We can trade at any time. At the end of the party, I welcome everyone to have fun in Hai city!

At that moment, Chu Meng had successfully broken through their firewall and entered the servers of the entire company.

After a round of searching, she confirmed that there was only one phone number that had made the call ten hours ago and the time of the call was exactly the same.

Just as she was about to click on the phone information, the computer network was suddenly cut off.

Chu meng immediately growled, 'F * ck, we've been discovered, let's get out of Here!

With that, she pulled off the network cable, picked up the computer, and quickly left the underground tunnel with Chu Yue.

Just as they left, more than a dozen security guards jumped into the tunnel behind them.

The two people hiding in the bushes had a false alarm and quickly left without a sound.

At this time, Situ Longyi, who was heading to the villa, suddenly received a call from the company's manager.

After the call was connected, the manager said nervously, 'Mr. Situ, our company's server was attacked by a Hacker!

Situ longyi frowned slightly and asked coldly, 'Who did it? Did you lose anything?

The manager panted and said, 'We haven't found any losses yet. This hacker used our underground optical cable to break into the server and deleted the Operation Records. We still don't know exactly what he is thinking!

Since there were no losses, there was nothing to be nervous about.

Situ longyi was silent for a moment before ordering in a low voice, "Change the company's firewall immediately and restore the deleted Operation Records as soon as possible!"

After hanging up the phone, situ longyi slowly closed his eyes and asked his subordinate to turn up the volume of the opera.

Chu Hui's villa.

Chu Meng threw the phone number to Yu Tian while eating instant noodles, she puffed her cheeks and said, "This is the number that called you, but I don't know who this person is yet because I haven't figured it out yet. They've found

Out!

Yu Tian frowned and said, "It's good that he's back. Otherwise, I'll have to drag you guys back. It's so annoying!"

Chu Meng snorted coldly, "Are you still human? We two girls haven't even eaten yet. We went to hack their servers, and you still say such things. Why Are You So Wicked?"

"And this instant noodles, can't you add a sausage or something?" Sister Hui, your family can't be that bad, right?"

Chu Hui was not in the mood to bicker with them now. Instead, she asked in a depressed tone, "Brother, now that we have the phone number, how can we find out who this phone belongs to?"

Yu Tian picked up the phone number and glanced at it, a faint smile hanging on the corner of his mouth.

"It's very easy. I'll call him myself. Previously, he was the one who played me.

This time, I have to play him too. Chu Meng, you know what to do!"

Chu Meng didn't say anything. While eating noodles, she connected Yu Tian's phone to her computer and gestured for him to finish the call.

Meanwhile, Chu Hui immediately called the security department and told them to be ready at any time and wait for her orders.

However, Yu Tian held the phone and narrowed his eyes as he pondered. Chu Meng asked curiously, "Why aren't you calling?"

Yu Tian didn't say anything, but Chu Wei said in a low voice, "I think my brother and I have the same idea. Regardless of who this person is, he has the divine element in his hands, if he activates it, the damage to this city will be immeasurable!"

This was exactly what Yu Tian was thinking about. Although he was excited and hated, he had to remain calm. He couldn't provoke that beast.

Chu Hui asked in a low voice, "Then what should we do now?"

Yu Tian put down the phone, rubbed his chin and smiled. "Actually, it's good that Chu Meng hacked their server today.. We can use this to attack them!"

Chapter 272 – Chapter 272, I Don'T Want To Marry You

Thank you readers!

Early in the morning, Situ Longyi was woken up by a series of text messages.

He opened his phone in disgust and received more than a hundred spam messages.

At this time, the manager's call came in and he said in a panic, "Mr. Situ, all the customers in the company have received spam messages. It's very likely that the hackers yesterday did it!"

Situ longyi frowned slightly and ordered, "Change the frequency of the satellite reception. Turn on the highest security level on the server. I don't want to receive another spam message!"

The manager wiped the sweat from his forehead. He had not slept for the whole night. With dark circles under his eyes, he said, "Mr. Situ, now it's the highest security level. Their methods are very clever!"

"They hid a special disguise code in our server. Our engineers are looking for this code, but it will take time!"

Situ Longyi kicked away the silk quilt on his body. He was extremely angry and scolded, "I spend so much money every month to feed your stomachs. Is this how you repay me?"

"You always want to get time from me, but who will give me my time? Before those customers tear down the company's front door, immediately solve this damn code!"

The manager was already drenched in sweat. He could only promise situ longyi, "Mr. Situ, I will find the code as soon as possible!"

At this time, Yu Tian woke up very comfortably, but the weather was not so pleasant. It was still raining.

The breakfast that Chu Hui had prepared for everyone was still steaming on the dining table, but what Yu Tian wanted to know the most was the data on Chu Meng's side. How was the analysis going.

Chu Meng had been sitting in front of the computer the whole time. Yu Tian could not understand the code on the computer at all, so he could only ask,

C

“Did you find anything?”

She shook her head helplessly and said weakly, “It seems that my skills are not good enough. I need to find a helper!”

Who else could be better than her, Chu Meng?

Other than Galaxy's Du Tianci and RussWs Agatha, Chu Meng was the best computer expert that Yu Tian knew.

Chu Hui, who was holding chopsticks for everyone, also asked in confusion, “Who are you talking about?”

Chu Meng chuckled and stuffed a bun into her mouth as she said, “Don't tell me you also think that the 108 sisters are only good at making money? Then why would they all marry Yu Tian?”

“The 108 of us all have different skills, just like our 58th sister, Chu Xuan!”

Others might not know, but Yu Tian had no impression of this Chu Xuan. He had never even seen this name in the sister group.

He asked with interest, “Let me introduce her. How capable is this No.

Chu Meng followed up with an introduction, “The whole world, including the No. 108 sisters, only knows that she's the President of Xuanhua technology in Shennan City. However, she also has another identity, which is that she's a world-class hacker. He also has a nickname, Wanxiang!

“In this world, there's no network that she can't Hack. Even my skills were taught by her. Hubby, it's up to you to invite her over!

Yu Tian said with disdain, “What? This Chu Xuan has quite a personality, right? Even I can't invite her?”

Chu Hui's face, which had sunk for an entire day and night, finally had a smile on it, and it was a smirk.

She patted Yu Tian's arm and said sympathetically, "Get ready, this girl can make you go crazy!"

Yu Tian grinned and said unwillingly, "Make Me Go Crazy? Do you think that's possible?"

The video that Chu Meng sent to Chu Xuan was quickly connected.

After a few simple greetings, Chu Meng told Chu Xuan about the problems they had encountered.

She even introduced Yu Tian to her.

When Yu Tian first met Chu Xuan, the Chu Xuan in the video looked even younger than Chu Rou. She was like a little girl. Even if he brought her out and said that she was his daughter, people would believe him.

Also, that pair of big, alien-like eyes made Yu Tian wonder if there was something wrong with the video?

Chu Xuan didn't give Yu Tian any face. She blinked and asked, "What benefits do I Get By helping you?"

Yu Tian smiled bitterly and said, "I'm just asking you to help me hack a server. It's not like I'm asking you to destroy the world. What benefits do you want?"

However, Chu Xuan did not put Yu Tian in her eyes at all. She said disdainfully, "There are no benefits. I'm not doing it!"

This girl really had a personality. No Wonder Chu Xin wanted him to be a little prepared.

However, the more this was the case, the more interesting Yu Tian felt Chu Xuan was. He deliberately teased her, "In the future, even your people will be mine. Now, just treat it as letting me inspect the goods. Where did you get all this nonsense from?"

However, Chu Xuan did not care about this at all. She smiled contemptuously, raised her sharp chin, and said arrogantly, "Among the 108 sisters, the one who doesn't want to and will never marry you is me!"

"I only like to eat from my own bowl. I don't want a plate full of other people's saliva. I Won't do a job that has no benefits. If you're not convinced, come and fight me one-on-one. Aren't you very good at fighting?"

Yu Tian was getting anxious as he spoke, but he smiled and said indifferently, "I'm afraid that you can't fight. Usually, the lightest person who has fought me one-on-one will spend the rest of their life in a wheelchair. If you really make me convinced"

"Then show me your skills so that I can look up to you. In the future, when I choose a wife, I'll consider you first!"

Chu Xuan hung up the video without saying a word.

Yu Tian and the other women looked at each other and sighed. "Let's eat first."

"I'm a little hungry!"

After hanging up the video, Chu Xuan turned on her computer.

She casually typed a few lines of code and hacked into the company's servers all over the world.

Her operation was very domineering. Even the highest security firewall could not stop her.

She also quickly cracked the registration information of the phone number and the records of all the servers.

After downloading, Chu Xuan muttered to herself, "You arrogant maniac, I'll show you how Awesome I am!"

After that, she sent all the information to Chu Meng and added a paragraph.

"Tell that self-righteous guy that he owes me a favor. Don't think that I'll forget his disrespect to me today!"

Yu Tian did not take it to heart at all when he saw this.

She was just a little girl. Although she had some skills, it would be best if she was not his woman?

The most important thing was to read the information first.

"Situ Longyi?"

When Yu Tian read out this name, Chu Hui immediately narrowed her eyes and said coldly, "So it's him. Situ longyi is the boss of the company all over the world and has a net worth of hundreds of millions. So he's from Phoenix?"

Who cares who he is? Yu Tian immediately stood up and said, It's good that we know who he is now, but we can't see him yet!

?Chapter 273 – Chapter 273, Buying The Testers

Thank you readers!

Because situ longyi was holding the testers in his hands, it was absolutely irrational to anger him now.

Yu Tian considered that this was hai city, even if it was somewhere else, he couldn't let the testers be activated.

Everyone understood Yu Tian's meaning. The most important thing now was to find the testers, find the drugs, and protect Chu Hui. Everything else was easy to talk about.

At this time, Chu Meng found something in the data.

She placed the computer in front of Yu Tian and smiled. a€?These calls were all made to situ longyi. They are all actual gangsters from all over the world!a€?

Yu Tian patted the back of his head, with a cold face, he said, a€?I was just saying that Felix, isn't It All for money? Situ longyi is going to sell the testers to them and take our family's things to earn his own moneya€|a€?

This guy really knows how to put on a Show!a€?

Chu Hui gave Yu Tian a bun and asked gently, a€?Then what should we do now?a€?

a€?Buy the testers. If we don't buy them, how will we know where they are hiding ?a€? YuTian took a bite of the bun.

In the blink of an eye, it was evening. Situ longyi was enjoying dinner with his family.

Today was his daughter, Situ Dongwan's birthday. Situ Longyi had booked a seat at the best western restaurant in Hai City.

Situ Dongwan was very depressed. What she wanted was not the millions of dollars worth of red wine here and the food made by the world's top chefs.

Instead, she was partying crazily with her peers and showing them her identity and wealth.

However, his father insisted that the whole family sit down and eat together. He spent a lot of time on this dull dinner.

Situ longyi elegantly waved his silver knife and fork. Then, he said to his wife and daughter, who were sitting there, expressionlessly, "It's your good fortune to have food here. Not everyone can have a special custom-made dinner here."

"Don't think that this is enjoyment. In fact, I don't like the food here at all. But sitting here, what I eat is my status, and not those poor people who think that even a glance here is extravagant."

"Dongwan, today is your birthday. What should I give you?"

Situ Dongwan forced a smile and pretended to be obedient. "Daddy, I'm very satisfied to have a meal with you. And you've given me enough gifts. I don't even know what else I want."

At this moment, the waiter came forward to pour them some wine.

Situ longyi still took out a box and handed it to Situ Dongwan.

When he received the gift, his elbow knocked over the glass.

The entire glass of red wine spilled on the table, and a few drops even splashed on her sleeve.

Her obedient expression instantly turned into a cold and vicious one. She stood up and slapped the waiter on the face. She scolded fiercely, "You Trash, you can't even pour wine. You Don't even have the life of a servant!"

Everyone in the restaurant looked at them in shock. The head waiter also rushed over to apologize.

The waiter covered his red and swollen face and said aggrievedly, "Head waiter, it wasn't me who spilled it. It was herself"

Before she finished speaking, Situ Dongwan raised her hand and slapped him again. She scolded angrily, "Are you saying that I wronged you? You're just a waiter. It's your good fortune that I wronged you. Are you not convinced?"

"Foreman, I want her to kneel down right now and lick the wine off the table before apologizing to me. Otherwise, I'll let you all know how powerful I am!"

As everyone pointed at her, the female Foreman's heart was filled with extreme disgust for Situ Dongwan. Looking at her arrogant and arrogant appearance, it was as if her menopause had come earlier.

If she didn't know, she would have thought that someone had played with her and didn't pay.

In the end, it was all because his father was sitting here. Situ Longyi was a member of this restaurant and was very familiar with the owner of the restaurant, so what should she say? Today, the waiter was unreasonable.

Situ longyi just elegantly ate the food in front of him and completely ignored everything that happened around him, as well as his daughter's arrogance and despotism.

If a rich man did not even have the ability to put on a show, how could he be called a rich man?

The female foreman pulled the waitress aside and comforted her in a low voice, "We can't afford to provoke them. You'd better be wronged and apologize to her. Otherwise, they will definitely torture you half to death today!"

The waitress was so wronged that she could not breathe. It was clearly not her fault, so why should she apologize to them?

She shook her head and said, "I won't apologize to them. If that's the case, I won't do it anymore. If you want to bully others because you have money, you Seeing that the waitress did not give her face, situ Dongwan said angrily, "What? You Don't want to apologize to me, right? Very good. If I don't make you kneel and Kowtow to me today, I, Situ Dongwan, will write the words upside down!"

She vented her anger that she could not hold a party on the waiter. Then, in front of situ longyi, she stomped her feet and shook her head coquettishly, "Daddy, Look, now you don't even put me in your eyes as a waitera"

"I won't eat this meal. If this waiter doesn't kneel and Kowtow to me, I Won't eat anymore in the future!"

However, Situ Longyi raised his head and looked at her coldly. He said in a very dignified manner, "You are my daughter. If you can't even suppress a waiter, the one who will be embarrassed is not you, but mea"

"I don't care what methods you use. It doesn't matter if you kill her now. I want you to earn back my face!"

After saying that, he snorted and continued to eat with his head lowered.

It looked like he was blaming situ Dongwan, but everyone around knew that he was encouraging his daughter to do something even more cruel to the waiter.

However, the waiter was not afraid of them at all. He stood there with his head held high and glared at Situ Dongvvan.

Situ Dongwan pointed at the waiter and the foreman and said coldly, "You're not going to kneel and Kowtow to me, Are You? Fine, I will make sure you can't leave this restaurant today!"

As soon as she finished speaking, she took out her phone and called her bodyguard.

Not long after, a few burly bodyguards who had been waiting outside the restaurant walked into the restaurant angrily.

In front of everyone, they unscrupulously pressed the female head waiter and the waiter onto the table.

The waiter screamed for help at the top of her lungs, and the female head waiter also begged bitterly.

"Mr. Situ, it's all our fault today. I apologize to you, and I also apologize to

Miss Situ. Please don't make things difficult for us anymore!"

Situ Dongwan pointed at the wine stains on the table with disdain and said arrogantly, "If you lick them clean, I won't argue with you.. Otherwise, I'll let them lick them for you!"

?Chapter 274 – Chapter 274: Very Angry

Thank you readers!

The customers in the restaurant were pointing at them and were extremely angry.

However, although they were angry, they were just watching the show. There was no need to help them.

Yu Tian, who had been hiding in a corner and pretending to eat, filmed the whole process with a phone.

He thought that Situ Longyi was more pretentious, but his daughter was more pretentious. She was just a waiter and a foreman. was there a need to do this?

If it was not for the sake of the big picture, he would have gone up and taught them a lesson.

At this time, the female foreman said in despair, "Miss Situ, can I lick it? As long as you are happy, I will do anything you want!"

As soon as she said that, the female foreman directly knelt in front of Situ Dongwan and stuck out her tongue to lick the wine on the table.

Situ Dongwan laughed exaggeratedly and pointed at the female Foreman's head. She teased, ULook at your dog face. You're still the foreman. You're just the foreman for a group of dogs. Lick it with all your might and lick it clean!a€?

After scolding the foreman, the shrew looked at the waiter and said arrogantly, a€?And you, the foreman is already a dog. Do you still want to be a lousy waiter?

a€?Now you just want to lick the table. It's impossible. The wine spilled on My Shoes. Come and Lick My Shoes Clean!

Situ Longyi's wife, who had been sitting on the side, could not stand it anymore.

She sighed helplessly and tried to persuade her, a€?Dong Wan, they have already admitted their mistakes. Forget it. Today is your birthday. Don't be unhappy because of them!a€?

However, that shrew did not listen to her advice. Instead, she looked at her with disgust and said sarcastically, a€?You have no right to speak here. You are not my mother. My mother died many years ago, you are just a female dog raised by my father. Just eat your food!

She was scolded by the woman until her face turned purple. Even if there was a crack in the ground, she could still crawl into it.

Not only did situ longyi not stop her, he even nodded and said, a€?My daughter is right. You Don't have the right to care about my daughter. Cherish the opportunity that you can enjoy, you useless woman!a€?

At this moment, the thug used all his strength to press the struggling waiter onto Situ Dongwan's shoes, beating and scolding her.

a€?My Miss asked you to lick her shoes. Are You Deaf? Lick My Miss's shoes clean now, or I will kill you today!a€?

The waiter's screams were so painful that everyone felt their hearts being torn apart.

Yu Tian clenched his fists tightly. Now, they were no longer just putting on an act. They were simply courting death here.

If they couldn't bear it, they would mess up the big plan. Yu Tian slowly loosened his fists.

He remembered the foreman and the waiter in his heart. He would definitely take revenge for them.

She had beaten and scolded them. Situ Dongwan felt extremely satisfied.

She kicked the waiter away and said condescendingly, 'I don't want to see you two dogs here in the future. Now get out of my sight!'

The female foreman was too angry to speak. She gritted her teeth and helped the waiter with a bruised face. The two of them limped out of the restaurant.

Yu Tian followed closely behind them and arrived at the staff lounge.

At this moment, the two women were hugging their heads and crying. The waiter cried and said, 'Sister, who did we offend? Why are they treating us like this? Aren't we human?'

'Just because we don't have money, just because we are waitresses, can they do this?'

The female foreman wiped the tears from the corner of her eyes and forced a smile. 'It's nothing. It's already not easy for us to be able to stay in this city,

'We have to go through all kinds of hardships because we still have to support many people. Whether it hurts or not, whether it's uncomfortable, we have to put it all in our hearts. When you think about how our family members can eat their fill, you'll be happy!'

Yu Tian, who was outside the door, did not feel good after hearing this.

That damn woman was simply too much of a bully. She was about to break down for these two girls.

Thinking of this, he directly pushed open the door and entered, giving the two girls a fright.

Yu Tian said indifferently, 'Don't be afraid. I'm here to help you!'

The female foreman looked at him warily and tactfully refused, 'Thank you for helping us, but we still have to work here in the future and earn money to support our family. As long as they are happy, we are fine. Thank you for your kindness!'

Yu Tian snorted in disdain and said with disdain, 'This is all you have. Others have already stepped on your heads, and you still don't want to resist?'

'Isn't it just a job? What's so great about it? As for why you are so afraid? Also, this hotel belongs to Tiansheng Group, right?'

The female foreman and the attendant looked at each other with tears in their eyes and nodded at the same time. The female foreman said, 'This hotel does indeed belong to Tiansheng group. Our CEO is called Chu Hui. May I ask, sir, who are you?'

Yu Tian smiled indifferently, turned around and sat down on the chair. He smiled softly and said, "I don't know if you have heard of Tiansheng Group's CEO, Yu Tian?"

How could they not have heard of him? Many days ago, Tiansheng group had issued an announcement to every employee.

There was a supreme CEO in the company. His name was Yu Tian. In the future, no matter what employees saw Yu Tian, they had to serve him with the highest etiquette.

Could it be that this young man in front of her was the legendary CEO Yu Tian?

The female foreman looked at Yu Tian in disbelief. Thinking about how she was able to become the foreman, it was already the best luck she had in the past few years.

How could she still see her big boss in this lounge? The waitress directly asked the question in her heart.

"Are You Mr. Yu Tianyu, sir?"

Yu Tian didn't directly answer her question. Instead, he smiled indifferently and said calmly, "It doesn't matter who I am. What's important is what you're going to do next?"

"I'll post all the videos of tonight on the Internet. After that, I'll hold a press conference for you and so on. What you have to do is to recall countless memories of what happened tonight."

From now on, you don't have to work here anymore. Tomorrow Morning, you will report to the Security Department of Tiansheng Group and work as a clerk for a few days. After I have taken care of Situ Longyi and his family of bastards,

you can choose your occupation at any time. Tiansheng group has many good positions for you. Do you understand what I mean?"

The two girls felt like they were in a dream. They even felt a little uncertain.

Although the person in front of them looked impressive and talented, it was still uncertain whether he was Yu Tian or not?

?Chapter 275 – Chapter 275: Solve It Yourself

Thank you readers!

Yu Tian could see the doubt in the two girls' eyes. In order to make them have courage and believe in him, he had to make them believe in him.

Therefore, he smiled and immediately called Chu Hui.

“Sister Hui, who is the manager of Roman restaurant? Tell him to come to the staff lounge to see me immediately!”

In less than ten minutes, the manager of the restaurant and most of the upper management came to the lounge.

They all bowed to Yu Tian and said loudly, “Good evening, CEO Yu!”

At this time, the female foreman and the waitress were so shocked that they were dumbfounded.

However, Yu Tian suddenly slammed the table and stood up. He said angrily, “I think you don't want to work as a manager anymore!”

The middle-aged manager was so scared that his face darkened. Bean-sized beads of sweat trickled down his neck. He said with a trembling voice, “President Yu, I don't know what made you so angry. If it was because we didn't do our job well—”

“Please hit me when you need to, scold me when you need to. We will definitely correct you immediately!”

Yu Tian looked at him with disdain and said coldly, “Where were you when your foreman and waiter were bullied by the customers outside and made them kneel down and lick the shoes of the customers.”

“As the manager of a restaurant, not only do you have to manage this restaurant well, but you also have to protect your subordinates. However, you hid in your office. Is your office that fragrant?”

“Since you like to stay here so much, then you can go home and stay there. This restaurant doesn't need idiots like you. From now on, the foreman will take over the position of manager of the restaurant, and the waiter will take over the position of foreman,

“Now, all of you get the hell out of here. My bladder hurts just looking at you!”

What else could the manager say? He did see the foreman and the waiter being bullied before, but he couldn't afford to provoke the people who bullied them. If he had stepped forward at that time, he would probably be lying in the hospital by now.

But who knew that the CEO of Tiansheng group would also be eating here.

Even if he had something to say now, the other party might not listen.

Thinking of this, he could only turn around and leave the lounge with a bitter face.

The other management executives also left one after another. Yu Tian did not give them the chance to suck up to him at all.

At this time, the female foreman finally reacted. She hurriedly pulled the waitress and directly knelt at his feet, thanking him profusely.

Yu Tian reached out and pulled the two of them up. He said indifferently, "Remember, even if it's a woman, she will still kneel to her parents. She will never blame anyone. This is dignity!"

"Even if we are poor, even if we don't have the ability, we still have dignity. This is the most basic thing. You will report to the Security Department tomorrow. After I settle them, you will return here to continue working!" "From now on, this restaurant will be handed over to you to manage!"

The female head waiter hurriedly nodded and said, "Thank you, President Yu. We will definitely not let you down. What do you need us to do? Just tell us directly. We believe in You!"

Needless to say, an hour later, under the operation of Chu Meng, Chu Hui, and the others, the scene that happened in the restaurant flooded the headlines of the major news media in Hai City. The live broadcast platform was rolling.

In less than half an hour, the number of hits had already exceeded 10 million, and there were more than a million comments.

Moreover, under Chu Hui's special operation, people were criticizing the father and daughter. Even the television station's host was criticizing Situ Longyi and his son during the special news time, all kinds of abuse.

Situ Longyi was extremely shocked. He was just pretending. How could it be so big?

Who was the one who posted this video online?

And it was so fast that it was too late to stop it.

In just a short hour, the father and daughter had become public enemies.

Situ Dongwan was so scared that her face had turned pale. When she was arrogant, she was arrogant. Now that she was scolded so badly, many people even wanted to avenge the foreman and the waiter.

Usually, When she was watching the news, she always felt that this situation was not worth mentioning.

But now, when she experienced it herself, she knew how uncomfortable it was behind the scenes.

She grabbed Situ Longyi's arm and cried.

“Daddy, what should we do now? Everyone seems to hate us so much now. Will I still be able to go out in the future?”

Situ Longyi suddenly turned his head and glared at her coldly. She was so scared that she immediately shut up.

He said with a hoarse voice, “Since you've done it, don't be afraid. Otherwise, don't go and pretend. This time, you can solve it yourself. If you can't, you can just die!”

After saying this, Situ Longyi got up and went back to his bedroom.

Situ Dongwan felt very lonely and helpless, so she called her best friend.

She wanted to get some comfort, but her best friend said angrily, “You've gone too far this time. Even if your family is rich, you can't trample on other people's dignity like this!”

Do you know what you've done? “Now, everyone in the entire sea city is spitting on you. Even I, your best friend, feel ashamed for you.

“Normally, it's fine if you're arrogant and despotic, but I didn't expect you to be such a crazy person. Don't call me again. I don't have a best friend like you, and I've never known you!”

The moment the call was rudely hung up, Situ Dongwan was so angry that she hugged her legs and cried bitterly. Those who didn't know would have thought that it was a ghost.

Every news had its time to lose its heat, but this news didn't lose its heat at all. Instead, the heat was even higher.

A large number of reporters surrounded the entrance of the company the next morning.

The moment Situ Longyi appeared, they surrounded him with all kinds of tricky questions.

“Mr. Situ, do you feel good about trampling on the dignity of others in the restaurant last night?”

“Now the whole country is criticizing you. Do you have anything to say to them?”

“You trampled on the dignity of others. Do you have any thoughts of admitting your mistakes now? What compensation will you give the two girls?”

Situ Longyi did not want to explain at all. Under the protection of the company's security, he strode into the company with a gloomy face and did not say a word.

When he walked into the office, he felt that something was not right.

Why was the office area so quiet today? It seemed that there were fewer employees.

He immediately called the manager and asked angrily, “Where are my employees? Today is not a holiday, who gave them a holiday?”

Chapter 276 – Chapter 276, The Pirate Gang

Thank you readers!

When the managers of all the companies faced Situ Longyi's questioning, they no longer bowed and kowtowed like before. Instead, they said in a very dissatisfied tone, “Situ Longyi, they are not on vacation. They just quit!”

“Because everyone doesn't want to serve a cold-blooded, pretentious, and inhumane boss. Moreover, I also think so!”

Situ Longyi was furious when he heard that. He said coldly, “You don't want to live anymore, do you? I'm the one who authorized you to quit this company. Tell them to come back to work immediately. Otherwise, I'll make all of you regret it!”

The manager laughed without thinking and said, “Mr. Situ, are you blackmailing me?”

“Yes, I am blackmailing you. Think about you poor people. I can give you a chance to stay in this city. You have to sell your lives to me. Now that you dare to give up on me, I'm giving you some face!” Situ Longyi said.

However, the manager was even more determined. He had long been fed up with Situ Longyi's arrogance.

He snorted coldly and said, “I'm sorry, Mr. Situ. We don't need you to give face to us. Anyway, we won't do it this time. I think we don't need to continue our conversation!”

After hanging up the phone, the manager who was in the Tiansheng group's reception room turned around and handed the contents of the phone, as well as the login codes of the entire company's servers, to Yu Tian.

Yu Tian nodded indifferently and said, "Well done. I'll pass this to the reporters outside later. Take This!"

As he spoke, Yu Tian threw a bank card to the manager and said indifferently, "This is 500,000 yuan, the Chu family bank's anonymous card. You can take money anywhere in the world!"

The manager took the card and immediately revealed a greedy smile on his face. He nodded and bowed as he said, "Thank you, President Yu. Thank you, President Yu. If you have any needs, I'll provide them at any time!"

Yu Tian did not want to waste any more time with him. Greedy people were not trustworthy.

Then, he once again threw the contents of the phone call on the internet.

This time, Situ Longyi was even more shocked.

He did not care at all about those customers boycotting the entire company. In any case, he did not rely on this company to make money.

What was shocking was that until now, he realized that someone was deliberately messing with him.

Last night, he was acting pretentious in the restaurant, and today's phone call, as well as those disgruntled employees.

This was clearly someone working behind the scenes.

"Who is this person?"

Situ Longyi frowned. In Hai City, there was no other person who could mobilize all the media except for the Chu family.

"The Chu family? Could it be Yu Tian?"

At this moment, his other special phone suddenly rang, making him stunned.

The phone number was from Super Nation.

Before he picked up the phone, he locked the office door and closed the blinds before he picked up the phone.

The person on the phone said in a slow and deep voice, "Mr. Situ, I heard that you have a super weapon to sell. I think we can talk!"

“Who are you?” longyi would not easily carry out this transaction before he knew more.

“My Name is Bruce. I'm from the pirate gang in the Super Country's Magic City!”
The man explained with a smile.

“I've never heard of this gang!” Situ longyi gently laid on the boss' chair, but his mind was spinning rapidly.

Bruce smiled and said, “Yes, you've indeed never heard of it. Because in the magic city with a population of tens of millions, we're just one of countless gangs!”

“But now, we want to become a gang that everyone knows about. There is nothing better than getting a super weapon. I can't just watch other gangs come and steal my food!”

What he said made sense. Situ longyi considered his phone. If no one introduced it to him, it would be impossible for outsiders to introduce it to him.

Even if a hacker attacked the server, it would be impossible for them to know the encrypted frequency that belonged to them.

Since that was the case, situ long said coldly, “Since you know so much, then you should know the price, right?”

Bruce smiled and said, “Of course I know. A billion meters saber is not a small number. In order to buy your super weapon, there are now thousands of women who are risking their lives to show off their thighs in front of men for this billion meters saber ,

“But what I want to know is, how should we trade?” I am already impatient to get this super weapon and earn back every penny I invested!

Situ longyi narrowed his eyes and said in a hoarse voice, “If you want to get this weapon, come to the eastern country!”

Bruce laughed and said, “In fact, I am already in the eastern country. Although I did not participate in the previous exhibition, my companion said that it was very exciting,

“Now you just need to set a time. Our transaction can be carried out at any time, but the premise is that I want to see the goods!”

Situ longyi thought about it again and again. He really needed the capital now, so this transaction could be carried out.

“Tonight at nine o'clock, at the No. 17 warehouse in Luzui District!” Situ longyi finally decided.

Bruce smiled appreciatively and said, "Mr. Situ, you are a real businessman. I like you very much. See You Tonight!"

After hanging up the phone, Yu Tian, who was sitting in Chu Hui's office, nodded in satisfaction at Bruce.

Chu Hui, who was sitting on the sofa, also said with satisfaction, "Bruce is my financial consultant. He has been in my company for two years. Letting him do this is the best choice!"

Yu Tian did not care about this. He had already made Situ Longyi believe in this deal, but he would never believe that Situ Longyi would believe it so easily.

He was a high-ranking member of Phoenix. If he was such a simple person, the divine element would not have fallen into his hands.

Therefore, Bruce's act had to continue.

Yu Tian thought of this and instructed Bruce, "Now, I need you to act as a real bastard. Before the deal at night, you have to act as a bastard without any scruples!"

Bruce was still a little confused. He asked in puzzlement, "Mr. Yu, I've already exceeded my limit by making this call. How can I act as a bastard?"

"I've never interacted with anyone from the gang. Do I really look like a bastard?"

Yu Tian didn't want to waste his breath on him. If he couldn't even be a bad person, how could he be a good person?

He could just ask him to find a movie about a gang and see what the main characters did.

Yu Tian had other things to do as well. The first thing he had to do was to put on makeup.

He was too young. Moreover, during the transaction, Situ Longyi would easily recognize him. Therefore, he had to make himself look older. At the very least, he had to have a beard..

?Chapter 277 – Chapter 277, He Was Fooled Again

Thank you readers!

Situ Longyi did not trust Bruce very much, so he asked someone to secretly see what kind of person Bruce was?

They were dealing with a super weapon. The slightest carelessness could result in death.

The person who called him quickly sent him a reply.

“This Bruce is a bastard. He doesn't even pay for his meals, and he even beats up women. He even kicked someone's pet dog. He's acting all over the place. He's worse than a bastard!”

Thus, Situ Longyi believed that the B * Stard from the Super Nation usually liked to do this.

At this moment, Yu Tian looked at himself in the mirror. His face was full of beard and his skin was dark. He felt very satisfied.

Now that he couldn't even recognize himself, there was no need to mention others.

Looking at the time, it was already six o'clock in the evening.

Before going to attend that date, he had to do something else.

He had promised to mess with Situ Longyi's family, so he had to keep his word.

However, he didn't need to do this kind of work himself. Chu Hui could settle it with a phone call.

In the blink of an eye, it was nine o'clock in the evening. Yu Tian brought Bruce and the others to warehouse no. 17.

It was originally just a warehouse, but at this moment, it was heavily guarded.

Before entering the warehouse, someone searched them. After making sure that they were not armed, they were allowed to pass through the door.

Situ longyi had been waiting in the warehouse for a long time. At the same time, there were two large containers.

Bruce had never participated in such a transaction. He was just an ordinary employee. Now, he had to participate in a weapons transaction that could destroy the world at any time. His life was simply too exciting.

Situ longyi was not in a hurry to show off the tester after they met and greeted each other.

Because he saw a very flickering gaze in Bruce's eyes, as if he was very afraid.

He laughed coldly and said in a hoarse voice, "Mr. Bruce, you look very afraid. It's just a trade, not to take your life. What are you afraid of?"

Bruce pretended to be calm, but he didn't know that his smile looked very unnatural. He stuttered, "No, nothing. I'm just not used to the food here. They taste too spicy"

"We foreigners still like the sweeter food. Forget it, let's not talk about this. We can start the deal now!"

"No Rush!" Situ longyi said slowly, "I have a habit. Before the trade, I like to have a drink with my partners. The people you brought, let them wait in the other rooms first, after we trade, let them take you away!"

Yu Tian, who was standing behind Bruce, had already noticed the two containers, because they looked out of place in the cargo hold.

It was very likely that the tester was inside.

At this time, Bruce was even more nervous now. Cold sweat covered his face and his body was trembling. He did not even know what to say.

Situ longyi patted Bruce's shoulder and narrowed his eyes. He snorted, "Mr.

Bruce, you look too nervous. Let's go and have a drink first!"

"Okay, okay, then, let's go have a drink first!" Bruce agreed reluctantly.

At this time, a dozen men in black immediately surrounded them and invited Yu Tian and the others to another room.

Yu Tian had been waiting for the opportunity, but now was not the time to make a move.

He just hoped that Bruce could be firm and calm.

However, after taking a few steps, Bruce suddenly turned around and looked at

Yu Tian.

Yu Tian frowned when he saw this. Did Bruce Want to die?

Situ longyi pretended not to see anything and pulled Bruce to sit on the sofa.

Yu Tian was sweating in his heart. He followed the bodyguards to another warehouse.

The bodyguards had no intention of leaving. They stared at them without blinking, as if they were afraid that they would fly away if they blinked.

Yu Tian could not wait here. If they wanted to make a deal, it would be the best time for him to do it himself.

Therefore, he turned around and looked at these bodyguards. Although they looked imposing, they were actually just a bunch of trash.

Just like the few bodyguards that he brought with him, the security guards of Tiansheng group could not be expected to help at all?

On the other side of the warehouse, Situ Longyi stared at Bruce without blinking. He raised his glass and said coldly, "Come, let's have a toast first to celebrate the success of our deal in advance. Let's have a happy cooperation!"

Bruce asked in puzzlement, "We haven't made a deal yet. Are We celebrating now."

Situ longyi took a sip of red wine and sneered, "Before the deal, I have one more question to ask Mr. Bruce. My good friend in Super Country told me that he has never heard of any pirate gang."

"I am very confused now. Can you meet my price and requirements?"

Bruce was nervous and did not know how to answer. He tried his best to control his trembling hand to prevent the wine in the glass from spilling out. He pretended to be calm and said, "If I can't meet your requirements, why would I come here to trade with you?"

"I have brought the money with me. It is with my bodyguards. If we start the transaction now, you will immediately get the one billion dollars!"

Situ longyi pointed at the two containers. His cold eyes were finally covered with a smile.

"The thing you want is inside, but I want to see the money first. Only then can it be considered a real transaction!"

Yu Tian was just about to find an opportunity to make a move when someone came to bring him back to the warehouse.

This was good. It saved him the trouble of making a move himself.

When they arrived at the warehouse, Bruce said, "All the money that I brought is in his hands. Now I want to check the goods. If the goods are fine, our transaction will start immediately!"

Yu Tian understood the moment he heard that. Situ Longyi was afraid that Bruce would not be able to come up with so much money.

This was very easy. He immediately took out the computer that he had prepared beforehand and logged into the financial system. He showed the figure of one billion dollars to situ longyi.

Yu Tian was still very calm as he said, "Mr. Bruce, your money is here. You can make the transaction at any time!"

After Situ Longyi confirmed, he stood up and smiled. "Okay, then let's make the transaction now!"

He immediately ordered the bodyguard to open the container.

Yu Tian turned his head and immediately frowned.

There were no test subjects in the container, but a group of naked women with frightened expressions.

This time, they were fooled by this bastard.

Bruce stood up and asked curiously, "Mr. Situ, is this the super weapon you were talking about?"

Situ longyi laughed shamelessly, "Yes, is there anything more destructive than women in this world?"

?Chapter 278 – Chapter 278, Insanity

Thank you readers!

Yu Tian immediately gave Bruce a look, telling him to immediately give up on the deal.

Bruce spread his hands and turned to situ longyi with dissatisfaction, "Mr. Situ, I don't think it's something I want to buy. I think our deal this time is impossible!"

However, situ longyi suddenly waved his hand, and the surrounding bodyguards surrounded the two of them.

Then, situ longyi sneered and said arrogantly, "I'm in charge here. Our deal has to continue. You have to spend a billion dollars to buy the goods I prepared for you.

After the deal, you can leave. Otherwise, you can keep the money, but you have to stay too!"

Bruce was scared silly on the spot, while Yu Tian remained calm.

It seemed that he had no choice but to make a move now. Since he could not be soft, he might as well play hard.

Thinking of this, Yu Tian pulled out the Red Thorn. Before Situ Longyi and the others could see what he had taken out, a few bodyguards were already stabbed to the ground by the cold flash.

The moment the screams sounded, situ longyi was extremely shocked. These bodyguards were no match for him.

Situ longyi turned around and wanted to leave. However, Yu Tian's golden needle pierced his knee and he fell to the ground with a thud.

When he looked back, the bodyguards were all lying in a pool of blood.

This scene, coupled with the pain in his leg, made situ Longyi's expression distort.

Yu Tian pulled the beard off his face. Situ longyi widened his eyes and shouted in shock, "It's You?"

"That's right, it's me. But I don't want to talk nonsense with you now. Tell me, where are the testers and the divine Tian did not want to waste time.

Situ longyi snorted coldly and said through gritted teeth, "Yu Tian, don't even think about it. Do you think I'm really not prepared at all?"

"I can tell you, but what I want to tell you is that in half an hour, if I don't appear in my villa, the testers will be activated. At that time, the city will be destroyed by those monsters.

"Don't tell me that you don't know the power of those testers. At that time, even if you and the Chu family's wealth were to be sacrificed, you wouldn't be able to compensate for this loss!"

Yu Tian felt extremely bored. Why was he always so slow-witted?

He had to use some means to torture them until they were half dead before they would learn to be obedient.

He casually pulled out the golden needle and said helplessly, "It would be better if we were all straightforward. Why do we have to be so slow-witted!"

After saying that, the golden needle directly pierced into situ Longyi's shoulder.

However, what surprised Yu Tian was that even though he was suffering such intense pain, situ longyi did not compromise at all.

Situ longyi, whose face was distorted due to the pain, said with a determined voice, "Save it. You can forget about getting anything from me. You can either kill me or kneel down and kowtow to me to make me happier!"

"No matter what, you have to prepare to face the attack of the Angel Army!"

Yu Tian smiled disdainfully, "I'm waiting. But now, I have to add something to you !

Yu Tian did not want to waste any more time, so he immediately called Chu Hui.

Not long after, Situ Dongvvan and Situ Longyi's wife were pushed into the warehouse by the security guards.

Faced with the fear of his wife and daughter, Situ Longyi did not care at all. He said without any humanity, "You want to use them to blackmail me? That's impossible. You'd better kill them now!"

Yu Tian said in disbelief, "Are you F * cking crazy? They are your wife and daughter. Although they are usually crazy, they are your biological children. Do you still have any humanity?"

longyi laughed tragically and said hatefully, "How much is humanity worth? When I joined the Angel Army, I had already forgotten what humanity is. Don't talk nonsense with me, do whatever you want to do."

"Don't even think about getting a test subject from me!"

"E * Ck you!"

Yu Tian could also see that this guy was really going all out.

Since that was the case, there was no need to waste words. Yu Tian pulled out five golden needles at once and inserted them all into the back of Situ Longyi' s head.

Instantly, Situ Longyi let out a scream like a ghost, and even his tears turned into blood.

Yu Tian said indifferently, "You won't die, but you will continue to be in pain like this. Life is worse than death. No one can hold on, especially a person without humanity. The pain will make you doubt your life!"

He was absolutely right. Situ Longyi had already lost his mind from the pain.

He begged bitterly, "Don't make me feel pain anymore. I Can't stand it anymore. I Can't Stop the testers. The orders I gave them are dead. If I don't appear in the villa in half an hour"

They will immediately activate the testers. Moreover, I don't even know where the testers and elements are now? a€?For the sake of safety , it's just a rule I made. I can only tell you that they are my subordinates,

a€?One of them is called you Xing Ye. His home is in the civilian area of Hai City. The two containers are also in his hands. I Can't call him now. Before this transaction, he changed his phone number! a€?

When he said this, Yu Tian immediately looked at the time.

There were less than 20 minutes left in half an hour.

Yu Tian didn't say anything. He picked up situ longyi and carried him on his shoulder. He ran out of the warehouse.

Bruce shouted from behind, a€?Hey, Yu, what am I doing?

Who cared about what he was doing? Yu Tian threw situ longyi into the Continental GT and left.

The Continental GT's speed had already reached 270 kilometers. However, with the current time frame, it was impossible to reach Situ Longyi's villa in 20 minutes.

Unless there was no resistance on the road.

At that moment, three helicopters jumped over and cleared the way for him.

Chu Meng, who was sitting in the helicopter, called Yu Tian and said, a€?Hubby, come to the helicopter, it's faster this way!a€?

Yu Tian swung his tail elegantly and the helicopter landed in the middle of the road.

After throwing situ longyi onto the helicopter, Yu Tian jumped into the helicopter as well.

The helicopter shuttled between the tall buildings and landed steadily on the lawn of the villa when there were only five minutes left in half an hour.

After entering the villa, Yu Tian immediately ordered, a€?Situ longyi, I a€?m not going to waste time with you. Tell your men to abandon the plan immediately!a€?

Situ longyi, who had lost a lot of blood, was in a daze now. He weakly pointed at the drawer under the table and fainted.

Chu Meng opened the drawer. It was a phone. Situ longyi wanted to use it to call you Xing Ye.

But now that the guy was unconscious, how was he going to make the call?

Half an hour was almost up.

You Xing Ye, who was hiding in a civilian area on the outskirts of Hai City, looked at the time and turned to a few technicians.. One minute left, prepare to activate the Tester!

?Chapter 279 – Chapter 279, Test Program

Thank you readers!

A few technicians looked at each other. They knew that if they activated the testers control program, the testers in the container would destroy this city.

At that time, who knew how many people would die under their fists.

Their hesitation was met with the wrath of the wandering star industry.

Why are you still hesitating? This is Mr. Situ's order. Do you all want to die?

The technician had no choice but to turn on the control software and start the program when the time was up.

At the same time, in situ Longyi's villa.

Yu Tian was quick-witted. He directly inserted all ten golden needles into Situ Longyi's acupuncture points, causing him to wake up suddenly.

Chu Meng immediately stuffed the phone into his hand and shouted urgently, Call them now, Quick!

Situ longyi, who had just woken up, was still in a trance. He dialed the phone mechanically.

Chu Meng immediately activated the computer software and began searching.

When You Xing ye received the call, he immediately asked respectfully, Mr. Situ, have you returned to the villa safely?

Situ longyi said intermittently, Yes, I have returned to the villa. The activation plan can be canceled. Wait for my order!

Okay, sir, the plan is canceled!

You Xingye hung up the phone, turned around and sneered at the technicians, "This time, you don't have to hesitate anymore. The boss has called. There's no need to activate the test subjects anymore!"

The technicians let out a long sigh. No one wanted to turn this beautiful city into ruins.

At that moment, Chu Meng had already found you Xingye's location.

She immediately showed it to Yu Tian.

"They're actually hiding in the slums in the suburbs, but the terrain there is very complicated. Should we call more people over?"

Yu Tian smiled indifferently and said disdainfully, "I don't like people when I'm fighting. The enemy is an army, and I'm alone too. Call some people over to keep an eye on situ longyi, and I'll go get the divine element back!"

After saying that, Yu Tian turned around and was about to leave, but when he passed by Chu Meng, she hugged him and gave him a passionate kiss.

Yu Tian didn't resist. He knew that Chu Meng was worried about him, and it was just a kiss. It was nothing.

But the key was that Chu Meng wouldn't let go of the kiss.

Yu Tian finally pushed her away. He took a deep breath and said with his teeth bared, "Are you trying to suffocate me?!"

v

"I'm always kissing you gently. What are you doing?"

Chu Meng said affectionately, "I'll wait for you at home. Be careful!"

Yu Tian nodded slightly and turned around to leave.

An hour later, Yu Tian stood in front of the civilian area.

No Wonder Chu Meng said that the terrain here was complicated. It was like a large market.

There were stalls one after another, stalls after stalls. People were rubbing their shoulders and rubbing their palms. All kinds of hawking sounds were heard.

Yu Tian sighed slightly.

In a while, he would be able to deal with those people from the wandering star industry as quickly as possible. Once they had a chance to activate the test subjects, no one here would be able to survive.

As he pondered, Yu Tian walked into the market and soon arrived in front of the residential area where the container was hidden.

There were shops and restaurants everywhere on the left and right, and the container was hidden in the backyard of a restaurant.

It was very lively outside, but the backyard was very quiet. There were a few men in black leaning against the container, smoking and playing with their farts.

Yu Tian easily took care of these men and stuffed them all under the container.

Then, he jumped onto the container, opened the vent above, and looked inside.

There were indeed two testers inside, quietly reading the newspaper.

Yu Tian felt that it was very strange. This tester could even read the newspaper. Didn't they say that after being injected with the elemental medicine, he would lose his mind instantly?

At this moment, one of the testers raised his head and saw Yu Tian.

He stood up excitedly, and Yu Tian immediately prepared to make a move, however, the tester said in a pleading tone, "Please, save me. Please, I still have a wife and children. I don't want to die here, and I don't want to become like this!"

Yu Tian saw that the tester's words were very logical. It was likely that he had not lost his mind.

Therefore, he asked in a low voice, "Do you know who you are now?"

The tester nodded and said, "Yes, I have not lost my memory. The elements that they injected into me only have destructive power on my body, but they will not destroy my nervous system.

"Before they started the attack program, the difference between me and normal people was that I was much bigger than them, and I was once one of the people who developed the element,

"They used me to test the medicine. Now I know very well that they have made a lot of changes to this element and added a program chip. Once they start the program, I will immediately become crazy,

“Moreover, this element has strengthened the hardness of my skin. Not only can it make me invulnerable to weapons, water and fire, but it can also allow me to completely ignore the erosion of cells by time,

[“I only know these things now. I don't know anything else!”]

Just as he was speaking, the sound of footsteps suddenly came from behind. Yu Tian immediately closed the vent and laid down on the container.

You Xingye lit a cigarette and took a deep puff. He suddenly realized that the bodyguards he had arranged to protect the container outside had disappeared.

He immediately shouted a few times, but there was no sound.

At this moment, he threw away the cigarette butt and turned around to run into the room.

However, just as he reached the door, a golden needle pierced his neck.

He covered his throat and wanted to scream, but he couldn't make any sound. Then, his lower body also lost consciousness.

In a trance, he fell to the ground with a thud. In a daze, he saw Yu Tian's figure. He directly passed by his body and walked into the room.

When the technicians saw Yu Tian, they were so scared that they all stood up and hid at the side.

When Yu Tian saw their skinny appearance, he knew that they were no match for him in a fight. He immediately snorted and said, “I don't want to fight with you either. My name is Yu Tian. You must know who I am!”

“Now, I need you to hand over the control program and all the remaining elements to me. You can continue to live!”

A technician opened a box and said in fear, “The control program and the remaining elements are all here.

“But we didn't develop these programs, and most of the elements have been sent abroad. We don't know who is developing these things, but the destructive power is very strong!

When Yu Tian heard this, he asked, “Is this the only control program?”

Thank you readers!

Tech hurriedly nodded and said, "Situ longyi only gave us this. We really don't know if there's a backup or Not!"

Yu Tian did not want to waste time. He immediately asked Chu Hui to mobilize dozens of security guards to move all the information back.

As for the two testers, Yu Tian made a bold decision.

He came in front of the two testers and said to them through the container's fence, "I will not continue to imprison you, but you can only move within a certain range,

"Also, you have to provide us with body samples, including blood samples, at any time. Of course, I will also try my best to restore you to your original appearance!"

The two test subjects nodded without hesitation. Compared to becoming someone else's weapon, this was much better.

After making the arrangements, Yu Tian took the computer equipment and returned to Situ Longyi's villa.

He could not let situ longyi die yet. The Angel Army definitely would not only have this ability.

How much information about the Angel Army could be obtained depended on situ longyi.

Yu Tian threw the equipment on the table.

Situ longyi, who was still in a trance, could definitely recognize this box.

He still lost this time. He lost completely.

Yu Tian smiled proudly and said indifferently, "Guess what this is? I guess you must be feeling terrible right now. When I was in the Northern Territory , how did you pretend to be me?

I mean, look at you, all high and mighty, swinging your pants in the air, and now look at you, all overworked, and I'm sick of you.

So, let's cut the crap and get to the point where you tell me what's going on behind the Angel Army, and maybe if I'm happy, I Can Keep You Alive!

Situ longyi very painful low head, like a thief who has no face to see people , his hoarse tone has long been no cold, but only a plea.

“Although I don't know much, it's enough to exchange for my life. If you can agree to let me leave the eastern country, I'll tell you everything I know!”

Yu Tian proudly crossed his legs and chuckled, “That depends on your goods. Is it Worth the price?”

Situ longyi slowly raised his pale face and said weakly, “The reason I was able to join the Angel Army was because I once attended a charity reception in Cersei,

“Later, a person named Morton took the initiative to get to know me and told me about the economic structure of the world|”

The more Yu Tian listened, the more he felt that he was stalling. He directly interrupted him and said coldly, “The little blood left in your body is unlikely to be able to keep you stalling for more than ten minutes,

“Can we be simpler? Just say who did you give the elemental sample to? “What else do you want to do to the Chu family after the Angel Legion?”

“I gave it to Molton. The Angel Legion will attack the Chu family's business organization in the world until they are no longer the number one family in the world!

Although it was a little vague, it was still acceptable.

Since the elemental sample was in Molton's hands, they could go and find this Molton. If they didn't get the final sample back, they wouldn't win this round.

Yu Tian asked coldly, “Where's Molton?”

“He's in Deep South City!”

As soon as he finished speaking, Yu Tian happily gave him a golden needle, turning him into a vegetable.

Chu Meng, who was behind him, suddenly laughed and said proudly, “You can go by yourself this time. I hope you can take care of that girl Chu Xuan!

At that moment, Yu Tian felt extremely helpless. That D * MN Molton couldn't stay anywhere but Deep South city.

That place was Chu Xuan's territory. He didn't know what had gotten into that B * TCH, but she just didn't like him.

However, he felt helpless in his heart, but he smiled brightly and said disdainfully, “Do I have to screw her? She'll decide on her own when she sees

In the blink of an eye, it was noon the next day. Yu Tian got off the plane and was greeted by a wave of heat.

Deep South was the earliest developed city in the Eastern kingdom. Yu Tian had always wanted to come and take a look Wasn't this a good opportunity?

Just as he walked out of the airport, he was greeted by a tall woman wearing sunglasses. The stifling hot weather made her fan her face as she asked arrogantly, "You Must Be Yu Tian!"

Yu Tian was not used to her behavior. Today, he could be considered to have a hundred billion yuan worth of assets. He was high and mighty, and she looked like a woman who had gone through menopause earlier. Who gave her the courage to talk to him like that?

Hence, he snorted coldly and said, "I've got the wrong person!"

After saying that, Yu Tian walked away. He was too lazy to waste time with her.

Before he came, he had already told Chu Meng and the others that he came to Deep South this time because he wanted to have a clean adventure by himself. However, he still let Chu Xuan know about it.

The woman immediately turned on the photo on her phone and looked at Yu Tian carefully for a long time. She said angrily, "If you're not Yu Tian, then who is Yu Tian? This photo was given to me by our President Chua" She said that the one who looked like Ben Bo'er was you, Yu Tian. Let me introduce myself. My name is Hong Lingya, you

Yu Tian suddenly turned around and said coldly, "That F * cking eye of yours thinks I look like Ben Bo'er? Go back and tell that wretched girl that I don't want to talk to her. Don't F * cking bother me!"

After saying that, Yu Tian walked away and the woman followed him out of the airport. As she walked, she said, "That won't do. President Chu has said that you, a country bumpkin, have definitely never been to such a big city before."

She was afraid that you wouldn't even be able to find a washroom and look for a place to pee everywhere. She asked me to definitely send you to a hotel that you booked. I'm telling you, this job shouldn't have been done by me,

"On such a hot day, I don't want to follow you and get my face tanned. So don't waste my time. In the evening, I still have to accompany our president to attend a cocktail party that someone else is holding for her. Do you understand what I mean?"

Yu Tian didn't know whether to laugh or cry. He had flown more than a thousand kilometers just to come here and pee everywhere?

What the hell was wrong with him?

He waved his hand and stopped a taxi. He turned around and said disdainfully, "I'll tell you one more time. Don't bother me. I don't have time to watch you go Crazy Here!

With that, Yu Tian got into the taxi.

Hong Ling was so angry that she stomped her feet and got into her own ride. Then, she chased after him.

The taxi driver was a little afraid of being chased. He asked with a sad face, "Boss, you've quarreled with a woman, right? I think that girl is not bad. She has good looks and a good figure. What are you not satisfied with?"

What the Hell Is This? I don't even know that shrew, okay?

Yu Tian said coldly, "Find me a better hotel. Cut the crap. If you like it, go ahead. I don't have the hobby of wearing other people's pants!"

The taxi driver grinned and quickly drove Yu Tian to the most luxurious hotel in Shennan City.

Just as Yu Tian wanted to leave, Hong Lingya rushed forward and grabbed him..

Thank you readers!

Hong Lingya's eyes were filled with disdain as she said angrily, "How can you be like this? How can you even come here? Can you even afford to stay here?"

"Our President Chu set the standard for you to stay in a hotel that costs 100 yuan a night, not this kind of luxurious hotel. Moreover, our President Chu said that I must send you there. I don't want to be scolded by President Chu because of you!"

People inside and outside the hotel were looking at the two of them, pointing and discussing.

Even the security guard at the door came over to remind them, "You two, this is a hotel, not a battlefield. You can either get a room or leave. Don't affect the image of our hotel!"

Hong Lingya even said with disdain, "Look, the security guard said that you affect the image of this hotel. What are you still doing here? Enjoy the free air-conditioning. Hurry up and follow me to where you should go and blow on the fan!"

Yu Tian felt that it was ridiculous. He was the master of the Chu family after all. How could he not even have the authority to stay in the hotel?

Moreover, his outfit was worth tens of millions. How could it affect the image of the other party?

He shook his head with a faint smile and said disdainfully, "I'm telling you for the last time. You're wasting your time. I'm not going to indulge your bad habits!"

After saying that, Yu Tian turned around and was about to walk into the hotel.

Hong Lingya took a look. Couldn't she get rid of a country bumpkin like him?

She rolled up her sleeves and rushed up to grab Yu Tian's arm, shouting loudly.

"Someone, take a look. This bastard is a shameless hooligan. He toyed with others and even took their hard-earned money to come to this high-class place to show off. Everyone, come and look at the Hooligan!"

It did not matter if he shouted. Originally, they were watching the commotion from afar. Now, they had gathered around and pointed at the innocent-looking

Yu Tian and scolded him.

"How can you be like this? The Lady is so good. Do you still have any humanity after treating her like this?"

"Looking at how you dress like a dog, so you're just a duck. Are You F * cking wicked?"

"Lady, I'm a taekwondo practitioner. With just a word from you, I'll cripple this bastard. If you don't mind, I can also take over from him. I don't even care if he has a child!"

Yu Tian wanted to laugh when he heard this. He thought to himself, "Chu Xuan, you're such a little girl. You want to play with me, right? Then I'll play with you!"

“If I don't make you kneel at my feet and sing apprehensively, I, Yu Tian, will write the word ‘Yu Tian’ upside down!”

Thinking of this, Yu Tian's shoulder trembled as light as a micron. A hidden force directly collided with Hong Lingya's arm.

Hong Lingya was still feeling proud, but her arm suddenly went numb, as if someone had pushed her. She took a few steps back and directly fell to the ground, her heel broken.

Just when everyone was shocked, Yu Tian said aggrievedly, “Aiyo, you really know how to act. Everyone saw it, right? I didn't even move, and she fell down on her own.

“You just want to do my bed business, do you have to work so hard? I’ve already told you that I don't want to do this, but you're still pestering me. I want you to reduce the price from 1,000 yuan to 700 yuan. Tell me how cheap you are!”

Hong Lingya was already in a mess from the fall. After hearing what Yu Tian said, she became anxious and couldn't understand.

Yu Tian took out 700 yuan in cash and threw it in front of her. He said disdainfully, “Stop acting. I'll give you 700 Yuan and buy a pair of shoes with it. You really have the capital!”

The onlookers immediately pointed their fingers at Hong Lingya.

“So she's a meat maker. I told you. She's wearing a black silk short skirt. You really don't know her heart from her face!

“Her fall was so real that she could even win an Oscar!

“How nice it would be if she used her acting skills to do something serious. What is she thinking doing here?”

Even the security guard came close to Hong Lingya and said arrogantly, “I'll be rude to you if I see you doing business here in the future. Now get lost. Don't embarrass yourself here!

Hong Lingya was so angry that she shook her head and pulled her hair. Then, she took off her high heels and threw them at Yu Tian.

“You Country Bumpkin, you're the one who sells. Your whole family is the one who sells!

Yu Tian ignored her and went into the hotel to check in.

The taekwondo practitioner came over to comfort Hong Lingya and said stupidly, "I don't care what you do. I'll take care of you!"

"Take care of you? Get lost!"

Hong Lingya cursed, got up, and left while everyone pointed at her barefoot. She cried and left.

Yu Tian hummed a little tune and came to the front desk with a smile. "Get me a Presidential Suite!"

The waiter took his ID card with a smile and swiped it. The smile immediately disappeared. He even looked at Yu Tian with special disgust. Then, he called a few security guards around to let them look at the computer.

One of the security guards read as he read, "He is a perverted maniac. He often sneaks into hotels to steal toilet paper and even peeks at old ladies taking a shower. The most shameful thing is that he doesn't even let go of the diapers that they wear!"

When he read this, the security guard looked at Yu Tian in disbelief. He frowned and said, "Do you only lack that little bit of toilet paper?"

Yu Tian really had a headache. He had really forgotten that this wretched girl, Chu Xuan, was a hacker.

There was no internet that she could not access. She was probably laughing until her stomach hurt.

The security guard said, "I'm sorry, sir. We Can't let you stay in our hotel. We don't want to go around the world looking for people's lost diapers!"

Yu Tian did not argue with them. He took back his identity card and smiled,

"Then I'll go to other hotels to steal toilet paper!"

After leaving the hotel, Yu Tian pondered as he walked. Since it was still early, he might as well ask around about that Molton and see what kind of situation he was in.

Situ Longyi said that Molton opened a foreign trade company here, so he went to take a look at the company first.

Soon, Yu Tian arrived at the downstairs of the trading company.

Yu Tian looked up and saw that the building was quite tall. It had at least twenty floors.

However, the trading company only had a small office area here.

This was very normal. Molton was from the Angel Legion. There was no benefit in making a big scene. The more inconspicuous he was, the better he would be able to survive in the upper-class society.

Yu Tian did not want to alert the enemy. Instead, he took out a hundred yuan and threw it at the foot of a security guard. Then, he smiled at the security guard and said, "Hey, brother, you dropped your money!"

The security guard looked down and hurriedly bent down to pick it up. This was a free-for-all. He smiled at Yu Tian and said, "Thank you. If you didn't remind me, I wouldn't have known that I dropped my money!"

Yu Tian waved his hand and said casually, "You're welcome. By the way, is the trading company on the 17th floor still open?"

"Of course, but they're on holiday today. They said that they were going to attend some carnival party tonight.. That foreign boss left at noon!"

Chapter 282 – Chapter 282, Affectionate Carnival

Thank you readers!

Previously, she heard from Hong Lingya that they would be attending a cocktail party at night. Could it be the same cocktail party?

Yu Tian thanked her and left the building. He then found a hotel nearby.

At this moment, Chu Xuan could see Yu Tian's every move clearly.

Seeing Yu Tian walk into another hotel, she sneered with disdain on the corner of her mouth. Then, she tapped on the keyboard with ease and elegance.

The network code instantly entered the hotel's computer.

Yu Tian handed the id card to the waiter, but the waiter couldn't swipe it no matter how hard he tried. In the end, the computer crashed.

The waiter shook his head helplessly and said, "I'm sorry, sir. Let's change to another hotel. Our computers can't swipe it now!"

With that wretched girl playing tricks behind the scenes, how could it be swiped?

Moreover, it would be a waste of energy if qi was constantly being messed with by her. Yu Tian immediately took out his phone and called Chu Xuan.

After the call was connected, Yu Tian asked, "Where is the hotel you booked for

Chu Xuan sneered with pride and said, "In the end, you still have to listen to me. You can go to that hotel, but you can only stay here for two days. Don't think that you'll see me. I'm not one of those idiots from the Chu family!" "I don't even acknowledge you as my master!"

With that, she hung up the phone and sent the hotel's address to his phone.

Yu Tian could only shake his head helplessly and smile bitterly.

Half an hour later, Yu Tian looked up at the small hotel in front of him, then looked left and right.

On the left was the civilian district, and on the right was the big market. Behind him was a pink light room, and there was a woman waving at him.

Yu Tian sighed and walked into the hotel.

Behind a broken window, the owner's family was eating. When they saw Yu Tian, they smacked their lips and said, "The accommodation is fifty, and the rest is twenty!"

Hearing the price, Yu Tian wanted to laugh.

"My name is Yu Tian, and I've booked a room!"

The owner put down the bowl and chopsticks, went to the table, and looked at the computer first.

Yu Tian looked at him and didn't know what he had eaten. His face was full of snot and saliva.

After looking for a long time, there was indeed such a room. The boss casually took out a dirty room card from the drawer. Then, he sniffled and said in a buzzing voice, "Pay the money first. One Thousand Yuan!"

"What do you mean one thousand yuan? Didn't you say that the accommodation is fifty yuan?" Yu Tian glared at him.

"If someone else is 50 yuan, you can have 1,000 yuan. When we booked the room, we had an agreement. If you want to stay, then stay. If you don't, then leave!" The boss looked at him very arrogantly.

Yu Tian nodded helplessly. He took out 1,000 yuan and threw it into the window.

The boss wiped his mouth with the back of his hand. He picked up the money and spat. After counting for a while, he shook his head and said, "No, you have to give me 2,500 yuan!"

“Are you eating like crazy? It was 1,000 before, but in the time it took to fart, it became 2,500. Are You F*cking kidding me?” Yu Tian felt that he was about to explode.

However, the boss snorted and said, “1,000 a day. You booked two days. Tell me how much you want!”

“But it's not 2,500!”

“There are also 500 rooms for service. This is also what you ordered, including two breakfast meals, changing the bed sheets, and two hours of hot water. Are these all free? What a country bumpkin!” The Boss said with disdain in his eyes.

Yu Tian felt that the volcano in his heart was starting to smoke.

But on second thought, he looked up at the camera on the window. Chu Xuan must be watching.

There was no need for him to be angry with this trash.

So he took out 1,500 yuan and threw it into the window to exchange for the room card.

The Boss said while counting the money, “The room is on the third floor. The one with salted fish on the windowsill is it!”

Before he went upstairs, Yu Tian felt that he could already smell it.

He climbed up the dark stairs and opened the dilapidated door. When Yu Tian entered the room, he saw that it was less than five square meters. There was only one bed and a bathroom that required a lot of effort to Pee.

It was not easy to bring a window, but it was filled with salted fish. When the wind blew, the smell was really strong.

Yu Tian comforted himself, “Forget it, there's still a bed. As long as I can

He sat on the bed, and the bed almost collapsed.

At seven o'clock in the evening, the Deep South Night Carnival was officially held at the Deep South Water God Hotel.

Almost all the important people were present.

A large number of reporters were outside the fence of the red carpet, desperately taking pictures of everyone present at the party.

Not only were there celebrities and tycoons, but many popular celebrities were also present.

Yu Tian, who was carrying a backpack, also arrived at the entrance.

There was no security at the entrance, which was pretty good.

He did not think too much about it and stepped onto the red carpet.

After a few steps, people began to discuss.

“Who is this person? To attend such a high-class party, he actually carried a backpack. Why is he so Rustic?”

“He's wearing a suit, so he should be a waiter. But how can a waiter walk down the red carpet?”

“He's not here for free food and drinks, right? There are many people like this nowadays!”

Yu Tian turned a deaf ear. He did not need to care about the gazes of others.

But at this moment, a few men in black rushed over the fence to stop Yu Tian.

The middle-aged man who was standing opposite Yu Tian said seriously, “What are you doing here? Are you here just to carry a bag? Are you here for the banquet? What's Your Name?”

Yu Tian said indifferently, “I'm afraid that I'll scare you to death if I say my name. Get Out of my way! Don't block my way!”

The middle-aged man said with disdain, “Aiyo, you're so arrogant and you scared me to death. Why did you scare me to death? Look, aren't you just a stinky beggar who came here to eat and drink?”

“Tonight, the number one young master of Deep South, the CEO of the Zheng Hong Group, Quan Tianhong, is hosting a carnival for Miss Chu Xuan, the CEO of Ye Xuan Technology Company. Is it something that a good-for-nothing like you can participate in.

“Hurry up and leave this place. Wait in the back. There will be leftovers later, I'll bring you some!”

Yu Tian frowned slightly.

A Night of affection? Why did it sound so ambiguous?

Could it be that this Chu Xuan wanted to court death? As long as she had the slightest intention, the entire Chu family would die in the blink of an eye.

The more it was like this, the more he had to go and take a look.

These guys were really F * cking slow-witted.

If it wasn't for the fear of alerting the enemy, he would have killed these bastards long ago.

Forget it, there was no need to lower himself to their level. He would let them put on an act first, and when the time came, he would let them know who he

Thinking of this, Yu Tian smiled indifferently and said, "All of you, remember this. I reckon that before tomorrow night, all of you will not be able to stay in Deep South!"

After saying that, Yu Tian turned around and left the passageway.

The middle-aged man even sneered and said, "F * ck, you really know how to put on an act. My family has been living in deep south for several generations.

Do you really think that you are a god to leave just like that?"

At this time, Yu Tian had already circled to the back of the hotel..

Chapter 283 – Chapter 283, Knocking Down The Cake

Thank you readers!

There was also security behind the hotel, but these people were just strolling back and forth. Yu Tian easily got past them.

Outside the kitchen, Yu Tian turned on the tap and applied some water to his hair.

Then, he took out a tie from his backpack. As he tied it, he complained, "I don't want to wear this thing. Strangle my neck!"

After getting dressed, Yu Tian walked through the kitchen and directly entered the venue.

At this moment, he was a little shocked.

This scene was really lively. Hundreds of people were wandering around the venue, singing, dancing, drinking, and laughing.

Rows of beautiful women were competing for attention. They wanted nothing more than to drag all the men's gazes onto themselves.

In the middle of the venue, there was a five-meter tall cake with more than ten layers. It was very eye-catching.

Around the cake, there were countless delicacies and no alcohol.

In order to increase the quality, all the waiters were foreign women. Their beautiful stockings and legs were swaying in front of their eyes.

Yu Tian casually picked up a glass of red wine and took a sip.

It felt really good. The price shouldn't be cheap either. For this affectionate carnival, the one called all-day red probably spent a lot of money.

Yu Tian drank as he shuttled through the crowd to look for Chu Xuan. Sure enough, on the other side of the cake, he saw Chu Xuan, who was dressed in a black evening dress and had an extraordinary temperament, surrounded by a group of girls who were complimenting her.

He went around to the nearby area to listen to what they were saying first.

Then, he heard a young girl dressed in a red evening dress say with envy, "Chief Chu, we're really envious of you. You're the daughter of the world's number one family"

"You've even made Ye Xuan's technology flourish. Now, even the richest young master of Deep South, Chief Quan, is going to confess to you. Compared to you, we're like the grass around fresh flowers. We don't even have any color!"

Chu Xuan's face was slightly red. It was obvious that she was flattered. She even said with some shame, "You're too good at talking. I'm just the CEO of a small company. I'm not as amazing as you say!"

Another woman in a short skirt said, "You're not that good. Just the fact that CEO Quan could hold such a big party for you is enough for us to envy for our entire lives."

"Oh right, I heard that CEO Quan is going to formally propose to you today."

You guys have been talking for so long. There are even people who saw you two together at the hotel. It's time to get married!

The other women chimed in, "Yeah, you and CEO Quan are a perfect couple!"

“CEO Chu, you will definitely agree to CEO Quan's proposal, right?”

“Why not? They are the most suitable couple!”

At this moment, Yu Tian deliberately changed his angle and observed Chu Xuan's expression.

He saw that Chu Xuan had been smiling shyly the whole time. She seemed to have tacitly agreed to these people's words.

Yu Tian thought to himself, “F * Ck me!”

This girl was indeed courting death. If she agreed to that whatever proposal today, the next second, the Chu family would be completely destroyed.

And she would even pair up with someone from a hotel?

However, Chu Xuan definitely did not agree to that all-day red something. Otherwise, the Chu family would have long been shut down.

Right at this moment, a man in a white suit with an elegant demeanor walked through the crowd with a smile and arrived in front of Chu Xuan amidst the praise and applause of the crowd.

Yu Tian saw that this man was in his twenties. His temperament was not as good as his, his figure was not as good as his, and his height was not just a little bit inferior to his.

Moreover, this guy's eyes were narrowed when he smiled. One look and one could tell that he was a cowardly person.

What was wrong with Chu Xuan that she would take a fancy to such a thing?

At this moment, Quan Tianhong smiled at Chu Xuan in a gentlemanly manner and said, “Xuanxuan, I've just received a call and neglected you. I'm really sorry. To express my apology and love for you, I've specially prepared a gift for you !

After saying that, he took a white palm-sized box from his lackey, held Chu Xuan's hand, and gently placed it on top.

Everyone suggested that Chu Xuan open it immediately. Chu Xuan smiled and nodded, then opened the box.

As the diamond necklace appeared, everyone immediately exclaimed in surprise.

“Isn't that the moonset flower necklace? It's been on TV before, and it's worth more than 100 million!”

“Such a generous gift, just a random gift is worth 100 million!”

“I don't want to see it anymore. My Heart Aches!”

Quan Tianhong looked into Chu Xuan's eyes without blinking and asked tenderly, “My dear, do you like it?”

Chu Xuan nodded slightly.

The girl dressed in red evening dress reminded loudly, “I like it. Hurry up and put it on me!”

Quan Tianhong held Chu Xuan's hand and went to the cake. He said excitedly , “Everyone, today is a special reception for my beloved, Miss Chu Xuana!”

I know that everyone wants to see a scene right now, and that is a

Before he could finish his sentence, the crowd shouted in unison, “Propose, propose!”

Quan Tianhong smiled shyly and looked at Chu Xuan.

At this moment, Chu Xuan only lowered her head shyly, as if she had long been prepared for this exciting moment.

However, Yu Tian's side was f * cking annoyed.

He thought to himself, “You F * cking like this trash. If you don't want to live anymore, don't bring the entire Chu family with you. I still have to marry most of the 108 sisters. Are you crazy?”

At this moment, the atmosphere was still red.

Yu Tian was thinking about how to stop them.

At this moment, someone patted Yu Tian on the shoulder.

He suddenly turned around. It was Hong Lingya.

Hong Lingya looked at Yu Tian's back and realized that it was indeed him. She was so shocked that she wanted to scream.

Yu Tian looked at her. At this moment, he could not cover her mouth with his hand. There were so many people around. It was hard to tell if she looked good or not.

He could not knock her out. She was proposing to him. If one of them fainted, he definitely could not do it.

Yes, kiss her.

Before Hong Lingya could shout, Yu Tian hugged her head and opened his mouth.

Hong Lingya suddenly widened her eyes, and all the strength in her body suddenly disappeared. She even forgot to resist and even felt a little excited.

Yu Tian squeezed behind the crowd while kissing her. Others thought that they were a couple, so they didn't care.

Moreover, Quan Tianhong also knelt in front of Chu Xuan on one knee. Besides the necklace, she also took out a ring and looked up lovingly at the embarrassed and excited Chu Xuan.

“Miss Chu Xuan, are you willing to accept my undying love for You?” At this moment, Yu Tian kissed Hong Lingya and waved his hand.

A hidden force hit the cake directly.

The dozen layers of the cake fell down with a loud bang amid the screams of the crowd and hit Quan Tianhong, Chu Xuan.

The whole place was dead silent. Everyone was shocked and dumbfounded.

The staff, followers, and bodyguards rushed up and quickly dug out the two of them.

At this moment, the two of them had completely turned into snowmen and were covered in cake.

At this moment, Hong Lingya finally reacted. She pushed Yu Tian away and shouted..

Chapter 284 – Chapter 284 Went Completely Crazy

Thank you readers!

Hong Lingya's shout was particularly ear-piercing at this moment, and it even made the entire venue look at them.

“President Chu, Yu Tian Is Here!”

The scene suddenly became extremely strange.

Chu Xuan, who was covered in cake, looked fiercely at Yu Tian, feeling that her current image had been completely destroyed.

This cake was definitely his doing. He actually made her make a fool of herself in front of the people of Quanshen Nan. It was really too detestable.

At this moment, Quantian Hong, who was also full of anger, also looked at Yu Tian.

Although she did not know who Yu Tian was, she could clearly see the hatred she had for this man from Chu Xuan's gaze.

He then asked in a gloomy voice, "Xuanxuan, who is this person? Do You Know Him?"

Chu Xuan was so angry that she gritted her teeth and did not answer Quan Tianhong's question. She went straight to Yu Tian and said furiously, "What are you doing here? Did I tell you that you are not allowed to see me?"

Why Are You So Shameless? I told you a long time ago that the person I hate the most is you. Now, you even make me feel disgusted!

Yu Tian looked at her indifferently. He was very disappointed with this girl.

108 sisters, 108 kinds of people, 108 kinds of personalities, but he had never found someone as arrogant and ignorant as her.

Did she really think that he wanted to see her?

Moreover, Yu Tian also noticed that the crowd was moving slightly. A few people were leaving the venue.

The foreigner among them was definitely Molton.

He didn't want to alert the enemy, but now he had completely failed.

Yu Tian suppressed the anger in his heart and said coldly, "You'd better clean up the cake on your body first. The person who made you blind will treat you as a candy person and cut you up!"

At this moment, Quan Tianhong walked up to him. He had cleaned up the cake on his face. Although he wanted to maintain his gentlemanly demeanor to his heart's content, image was still very important.

At least in tomorrow's headlines, the way he and Chu Xuan were covered in cake would definitely be laughed at by everyone.

Of course, he could accept all of this. He could wipe his own cake and let others talk about it.

However, the key was that his proposal had been ruined. Moreover, with Chu Xuan's current mood, it was impossible for her to propose again.

She had even cut off her path to the Chu family. The losses were immeasurable.

The more she thought about it, the angrier she became. She whispered in Chu

Xuan's ear, "Go to your room and change your clothes first. Leave this to me!"

Chu Xuan didn't even want to see Yu Tian. She said coldly, "Listen well. I have no patience with you. You Leave Deep South Tomorrow. Otherwise, I will let you know how powerful I am!"

She snorted coldly and turned to leave.

Yu Tian was still as indifferent as ever. His gaze was as if he was watching a child making a scene. He did not want to lower himself to this woman's level.

At this moment, Quan Tianhong threw a paper towel full of cake at Yu Tian's feet. He held back his anger and said, "Introduce yourself. I want to know...",

"How capable are you to make my fiancée so angry."

Yu Tian realized why this guy was so Shameless?

What was his fiancée? Was the ring on Chu Xuan's finger?

He snorted and said arrogantly, "How can you know my name?"

In the midst of everyone's shock, Quan Tianhong sneered and said angrily, "[Then I don't want to know about this. But you should know that you are not welcome here]"

"[You can leave now. Don't make me call people to attack you. I don't want to affect everyone's mood]"

Everyone felt that the originally beautiful scene was ruined by Yu Tian.

They pointed at Yu Tian together with Quan Tianhong.

“Can't you see? This person seems to like Chu Xuan as well. He originally wanted to come here to stop Chu Xuan from getting engaged, but in the end, he backfired. Now, Chu Xuan is even more disgusted with him!”

“Are you kidding me? Chu Xuan likes him? Are you kidding me? Look at this guy's beating nature. How can he compare to Chief Quan? Chief Quan's net worth is over ten billion. What is he?”

“Chief quan is so refined. If it were me, I would have fucked him long ago. Don't you know who you are? How dare you act Pretentious Here!”

When Yu Tian heard this, he just chuckled and said, “Actually, you've been played by Chu Xuan. I'm her fiancé. If you don't believe me, you can ask her parents and her family!”

“Bullsh * T!”

Under everyone's dumbfounded shock, Quan Tian said furiously, “Are you sleepwalking here? You're Chu Xuan's fiancé. Have you never looked in the mirror in your life?”

“I now understand why Chu Xuan is so disgusted with you. It's because you're Shameless!”

At this moment, Chu Xuan, who had changed into a set of clothes, came up to Yu Tian again and said fiercely, “Can you stop dreaming? You're just a trash who wants to cling to our Chu family!”

“If it weren't for the reward from our Chu sisters, you would be nothing. You would never be my fiancé in this lifetime!”

Yu Tian didn't want to argue with them at all. She could say whatever she wanted to say.

Moreover, the plan had already failed. There was no use for her to stay here.

Before leaving, Yu Tian took out his backpack from under the table, but the heavenly overlord order slipped to the ground.

Just as everyone was mocking Yu Tian for being a country bumpkin and carrying a backpack while attending the banquet, Chu Xuan was shocked.

“That is the heavenly overlord token that is in charge of the Chu family's life and death. In the past, when other sisters told me that he had this token, I didn't believe them! No, I must snatch this token from him. I absolutely can not let it stay in the hands of this trash!”

Yu Tian did not think much of it. He threw the medallion into his backpack and turned around to leave.

However, Chu Xuan suddenly called out to him.

“Wait a moment, I still have something to say to you!”

Yu Tian turned around and chuckled. “What? What do you want to say?”

Quan Tianhong had good eyesight. He immediately let the music continue to play and the banquet continued.

Everyone did not want the scene of Quan Tianhong to be too ugly, so they did what they were supposed to do.

At this time, Chu Xuan called Yu Tian to a corner, crossed her arms, and said coldly, “The heavenly tyrant order can not be in your hands. You have to give it to me, and then you have to go back to Linhai immediately. Don't come to Shennan in the future.

I Don't care how good you are with your other sisters. In My Place, you are nothing!”

Yu Tian was a little shocked in his heart. He asked with cold eyes, “Chu Xuan, do you know that you are now creating pressure for the Chu family? Don't you know the rules of the Chu Family?”

Chu Xuan waved her hand and snorted, “I don't care about these things. The family is just using us to make money. I have never asked about their choices and decisions. I have my own world.. No one can care about me!”

?Chapter 285 – Chapter 285, A Little Pity

Thank you readers!

Yu Tian felt that this woman, Chu Xuan, was already beyond redemption. How could the 108 sisters come up with such a thing?

No wonder they wanted him to become the master of the Chu family and save this family.

If there were more people like Chu Xuan, the Chu family would have long disappeared.

There was no more nonsense to talk with her. Yu Tian casually took out the heavenly tyrant token and said indifferently, “If you dare to take it, just take it!”

Chu Xuan took the heavenly tyrant order without thinking and said arrogantly, “You better remember this. You have to leave this place before tomorrow morning!”

“You know that I have the ability to control everything about you. I don't care about that. You'd better not let me attack you. Now you can get lost!”

Yu Tian helplessly spread his hands and sighed, “I originally had other work to do, but now I still have to think of ways to protect your life. Do you think I'm tired?”

“You're protecting me?” Chu Xuan laughed disdainfully.

Standing at the side, Quan Tianhong felt that it was laughable and ridiculed, “Protecting her is my job. What ability do you have to say that you're protecting her?”

“I have the best security company in Deep South. I can give Xuan Xuan the best safety environment. Besides, protecting Chu Xuan is enough for me alone. I can protect her for a lifetime. You should go back to what you were doing.” Just as they were talking, the music stopped abruptly.

The crowd was also in an uproar. Yu Tian turned around and saw a bald man walking toward him under the illumination of the lights.

Behind her were dozens of people, including a middle-aged man and woman. Their faces were extremely solemn.

The crowd immediately hid to the side and looked at the Bald Girl with fear.

They were full of murderous intent.

Chu Qian brought people directly to Yu Tian. Before she could say anything, Quan Tianhong, this idiot, asked angrily, “Who are you? What do you want to do at My Party?”

As he spoke, Chu Xuan saw Chu Qian's parents behind her and was also shocked.

They had always been in the imperial capital. Why did they come to the Deep South today?

Moreover, Chu Qian from the home security department had followed them here. Could it be that they were all here for Yu Tian?

At this moment, Chu Qian looked at Quan Tianhong with an extremely cold gaze. Let this good-for-nothing wait for a while. He would have a good time later.

Following that, she waved her hand and bowed to Yu Tian together with the people behind her. They said in unison, “Master!”

Everyone was so shocked that their jaws almost dropped to the ground. Who Was this young man?

However, Yu Tian smiled and said, "There's no need to be so courteous. Why are you here? This hairstyle, is it still so domineering?"

Chu Qian glared at Yu Tian with a warm and angry look and said in a low voice, "Annoying! I am here this time because of this girl, isn't it?"

Before she could finish her words, Chu Xuan's father said to Yu Tian first, "My lord, this unfilial son of Chu Xuan disobeyed my lord. It's my fault for not teaching him well. Today, I will definitely satisfy you!"

Before Yu Tian could say anything, Chu ran came in front of Chu Xuan with a face full of surprise and murderous aura. He raised his hand and gave her a big, fierce mouth.

Chu Xuan almost fell to the ground after being hit by Chu ran. She covered her disgraced face and cried in grievance, "Father, what right do you have to hit

Chu ran tong's body trembled as he shouted angrily, "Shut your mouth! Hurry up and kneel down to the Lord!"

After saying that, he grabbed Chu Xuan's hair and pushed her down at Yu Tian's feet.

Everyone who saw this scene was so shocked that they could not breathe.

Quan Tianhong wanted to stop her, but when he saw Chu Qian, who was filled with murderous intent, and Chu Xuan's father, Chu Rantong, he chickened out on the spot.

However, Yu Tian shook his head helplessly. In his heart, he still felt a little pity for Chu Xuan.

However, Chu Xuan looked at Yu Tian angrily. She had no intention of admitting her mistake.

What did she do wrong? What right did she have to apologize and admit her mistake?

At this moment, Chu Qian spoke. Every word was sonorous and forceful.

"Chu Xuan, you have disobeyed the master and violated the family rules. The master and the higher-ups of the Chu family are extremely furious. The master has ordered that from now on, you are no longer the president of Ye Xuan Technology Company!"

"Before noon tomorrow, you will enter the Fallen Angels tribe. From now on, you will not be allowed to leave. The master, Yu Tian, will take over all of Deep South Industries. Chu Xuan's parents have failed to raise their daughter properly, causing the family to be humiliated and under pressure!"

“From now on, you will hand over all of your properties, leave the clan, and become a commoner!”

Not only was everyone shocked, even Yu Tian was shocked.

Wasn't this punishment too heavy?

Everything else was fine, but if she were to enter the fallen angels, wouldn't Chu Xuan be completely crippled for the rest of her life?

Chu Xuan was completely dumbfounded. Her mind was blank, and she collapsed to the ground.

The heavenly tyrant medallion in her pocket also fell to the ground.

Seeing the heavenly tyrant Medallion, Chu Ran Tong's last hope of pleading with Yu Tian was completely destroyed.

Chu Qian frowned and grabbed the heavenly tyrant medallion before Yu Tian did. She asked in confusion and fear, “How can this heavenly tyrant medallion be with you? Master, did you give it to her?”

Yu Tian scratched his head and said with a frown, “I gave it to her. She said that she had never seen the heavenly tyrant medallion before. I made her open her eyes!”

Chu Qian smiled coldly and stuffed the heavenly tyrant medallion into Yu Tian’s hand. She shook her head and said, “Don't Fool Me. How important is the heavenly tyrant medallion? Does she deserve to see it?”

She must have used some means to force you to give it to her!”

Yu Tian quickly pulled Chu Qian to the side and said in a low voice, “Just put on an act. How can she be so cruel? Chu Xuan didn't do anything wrong. She shouldn't have thrown it to the extinction division, right?”

Chu Qian was very serious, but she also said helplessly, “I didn't want to do that. The master is really angry this time. He was so angry that he even threw his favorite Teacup.”

“You know the current Chu family. The wind and rain are swaying, and hidden enemies are surging. This Chu Wei's elemental monster hasn't been dealt with yet, and she wants to get engaged to an outsider. This is them trying to make the Chu family suffer.”

“I’m the head of the family's security department. What do you want me to do?”

Yu Tian was speechless.

This Chu Xuan was indeed like this. In her mind, she didn't have any concept of a family.

How could she save her now?

Then, Chu Qian looked coldly at Quan Tianhong, scaring him so much that he hurriedly shook his head and said, "I just like Chu Xuan. If you guys don't agree, I'll pretend that I don't know her!"

Chu Xuan, who was on the ground, suddenly looked at this coward.

She needed him the most now, but he abandoned her at this time.

Yu Tian suddenly thought of a song when he saw this.

"Ah, what a painful realization!"

Chu Qian rebuked him with an expressionless face, "Shut up. You deserve to like the people of the Chu family. You don't even have the right to lick the toes of the dogs raised by the Chu family.

"Don't think that the Chu family doesn't know what you're thinking. Your Zhenghong Group is about to go bankrupt because of a failed investment. Didn't you spend so much effort to get in touch with her just to curry favor with the Chu family?"

"I also have a word for you. From now on, the Chu family will terminate all cooperation with you. Don't think about anything else!"

Yu Tian chuckled. This was acceptable..

?Chapter 286 – : Chapter 286, Stay By His Side For Now

Thank you readers!

Quan Tianhong was dumbfounded on the spot. His heart was in a mess and his mind was blank.

His last hope was the cooperation between the Chu family and himself. Now that the Chu family had terminated all cooperation, his Zhenghong group could only wait to go bankrupt.

This meant that he, the richest man in Deep South, would soon become a penniless beggar.

He could not give up so easily.

Without a word, he knelt at Yu Tian's feet and begged in fear, "I know they all listen to you. It was my fault. I was just pretending!"

"You like Chu Xuan. I will never see her again. I just want to use her to work with the Chu family. I have no feelings for her. Please don't Misunderstand!"

It would be fine if he didn't mention this, but when he mentioned this, Yu Tian was furious.

What kind of person was this? Forget about being a coward, he looked more like an idiot now.

Yu Tian didn't even look at him. He didn't even have the mood to waste a second on him.

A few burly men, under Chu Qian's signal, rushed forward and pulled all-sky red to the side.

When everyone saw this, it was as if they saw aliens fighting.

Every word and action had overturned their thoughts.

But one thing was certain, from now on, Quan Tianhong was no longer a rich man.

Since he had become a pauper, what right did they have to give him face?

Especially those who worked with Quan Tianhong. They immediately took out their phones and called their own company's people, asking them to immediately cancel all their cooperation projects with the Zheng Hong Group.

Yu Tian shook his head indifferently. This was what was meant by "when the wall falls, everyone pushes it down".

That was why it was better to act less pretentious during normal times to avoid being struck by lightning at critical moments.

And there was another person in the crowd who was already out of his mind.

This person was Hong Lingya.

She had always thought that Yu Tian was a country bumpkin, but now that she realized that Yu Tian's status was actually so high, even the members of the Chu family had to bow to him. Thinking about what she had done previously, even the roots of her hair were numb.

Yu Tian turned his head just in time and his gaze landed on her face.

Actually, Yu Tian just happened to see her. However, Hong Lingya, who was beating her heart, thought that Yu Tian wanted to give her a lesson with this glance.

She was so scared that her legs went numb and she almost sat on the ground.

She did not know whether to laugh or cry for Yu Tian. Was there a need to be so scared? He didn't say what he wanted to do to him?

At least he had kissed her for a while before. He didn't have any feelings for her, but he still had the affinity for her lips.

He thought about it and decided not to look at her anymore. What was wrong with scaring her.

At this time, the security brought by Chu Qian had already cleaned up the entire venue and invited all the guests out.

When only his own people were left in the venue, Yu Tiandu said indifferently, "Although Chu Xuan is infuriating, it's not enough to send her to the lost tribe. At least not yet.

"I came to Deep South this time for a dead foreigner called Molton. This fellow has an elemental sample in his hands, and he's also a member of the Angel Legion.

"You all know that this Angel Legion is currently going against your Chu family. If I don't take back the elemental sample in his hands, I don't know what kind of insane actions this fellow will take.

"Chu Xuan has stayed in the Deep South for a long time, so she knows quite a bit about this place. Moreover, her network technology is exactly what I need, so I'll let her stay by my side for now.

"After I've dealt with that damned foreigner, Molton, we'll decide when the time comes!

Chu Qian knew that Yu Tian was deliberately thinking for Chu Xuan's sake and didn't want her to go to the lost tribe. Moreover, this reason was very appropriate, so she could also tell the master what to do.

Therefore, she nodded and said expressionlessly, "Okay, I will tell the master what the Master Wants!

Chu Xuantong also saw Yu Tian's intention. Without saying anything, she immediately knelt at Yu Tian's feet and said tearfully, "Thank you, master. I also promise the master here."

"Chu Xuan will absolutely not have any second thoughts towards the Chu family. This oath can be witnessed by the heavens and the Earth!"

Yu Tian only nodded slightly and said coldly, "Don't be in a hurry to kneel to me. I'll say the ugly words first. From now on, this girl will listen to me,

"If she dares to play those pranks with me again, I'll let her go to the Luo Jue tribe anytime, anywhere!"

Chu Xuantong turned around and gave Chu Xuan a slap. He said anxiously, "The master is talking to you, do you hear me?"

At this moment, Chu Xuan's heart had long been shattered like ice. She could only nod mechanically.

Because now, she no longer had any other choice.

No matter how good her hacking skills were, in the end, she could not escape from the hands of the Chu family. In front of this family's machine, this part of her could be discarded at any time.

This was the fate of the 108 sisters. They would never be able to obtain the happiness and freedom they wanted.

When everyone left the venue, Yu Tian met the middle-aged men in black once again.

These people already knew Yu Tian's identity. The reason why they did not leave was to ask for Yu Tian's forgiveness.

However, Yu Tian did not intend to say anything to them. He only whispered to Chu Qian, "I don't want to see these people again. Tell them to leave this city immediately!"

Chu Qian turned around and gave the security guards a look. The security guards immediately understood. They went forward and dragged the middle-aged men out of the crowd like dead dogs.

Looking at the time, it was almost 10 O'clock at night. They had already alerted the enemy previously. Whether that Molton was still in the Deep South was all unknown.

Therefore, they could not waste any more time. They should go and find that Molton immediately.

Yu Tian turned around and smiled at Chu Xuan. "That's enough, you little girl. Stop worrying here. It's time to work for me. I want to find a dead foreigner named Molton. He's the boss of a foreign trade company."

"He also attended this affectionate carnival tonight, but when I appeared, he left. Now I want to confirm whether he's still in Deep South!"

Chu Xuan was silent for a moment, and then she said coldly, "I can't help you now. My computer is not with me. I can only help you when I go home!"

"Then go home. What are you waiting for? Haven't you eaten enough Tian deliberately angered her.

Indeed, Chu Xuan was angered. She snorted and stomped her feet fiercely. She ignored her parents and left directly.

Chu rantong hurriedly stepped forward to smooth things over. He smiled helplessly and said, "My lord, don't lower yourself to her level. We were the ones who spoiled her for being so willful. I guarantee that she will never be as rude to you as she is today!"

However, Yu Tian said indifferently, "There's no need for that. This is her nature. It Can't be changed.. It's better to let her continue being willful!"

?Chapter 287 – : Chapter 287 Was Not That Fragile

Thank you readers!

Yu Tian and the others arrived at Chu Xuan's villa.

Just as they reached the door, Chu Xuan asked in puzzlement, "What's going on today? Could it be that even those servants went to have a cocktail party? The lights in the house aren't even turned on. What the hell is going on?"

With that, she went forward to open the door.

However, Yu Tian beat her to it and pulled her back.

"What are you doing?" Chu Xuan looked at him with some blame and asked in a cold tone.

"You usually come back so late. Are the lights on in your Villa?" Yu Tian asked in a low voice.

"Isn't that obvious? What's the point of not turning on the lights? It's almost ten o'clock now!" Chu Xuan said disdainfully.

Hearing this, Yu Tian frowned slightly and narrowed his eyes to look at the main doors and windows of the villa.

Then, he ordered everyone, "All of you, step back, now!"

Chu Xuan was particularly unconvinced and said, "What are you doing? This is my home!"

Chu Qian could see from his eyes that there must be something dirty in this villa.

So she stepped forward and pulled Chu Xuan, ordering coldly, "Step back if I tell you to. There's no need to talk so much nonsense."

After saying that, she pulled Chu Xuan along with the others and retreated more than ten meters away.

This could be considered a safe distance. Yu Tian quietly arrived in front of the door.

With a gentle push, a blinding flame suddenly exploded behind the door.

Following that, there was a deafening explosion. The door instantly turned into a piece of wood shavings. The shockwave from the explosion was spraying on Yu Tian's body.

The violent shockwave sent Yu Tian flying a few meters away, and he fell heavily to the ground.

Everyone looked at the flames that soared into the sky in shock and fear.

Chu Qian reacted the fastest. She rushed to Yu Tian in a few steps, picked him up, and shouted at the top of her lungs, "Yu Tian, Yu Tian, Wake Up! Wake Up! What are you all still standing there for? Quickly call a doctor!"

Only then did everyone react. They started to get busy.

But at this moment, Yu Tian rubbed Chu Qian's bald head with all his might. He chuckled and said, "Don't be nervous. I'm not that weak. I Can't be hurt!"

Chu Qian was surprised and happy. She hugged Yu Tian tightly in her arms. Tears flowed down her cheeks and dripped onto Yu Tian's forehead.

This was true love. In an instant, Yu Tian was also touched.

Chu Xuan, who was standing behind the crowd, was completely dumbfounded.

The security guards had already found a fire extinguisher and sprayed it at the flames.

At this moment, Yu Tian also stood up. Looking at his tattered clothes that had been blown up, he smiled disdainfully.

Fortunately, he reacted quickly and used inner strength to protect his body at the moment of the explosion.

Otherwise, he would have been smashed to the ground like the door.

Chu Qian glanced at the villa and said softly, "We can't stay here anymore. It still looks very dangerous. Why don't we go to the hotel?"

Yu Tian shook his head and said with a smile, "There's no rush. Let's go in and take a look first!"

He took the lead and walked into the villa. He looked up and down and finally came to the kitchen.

Those few servants had long been killed and were lying in a pool of blood.

When she saw this scene, Chu Xuan was so frightened that her face turned pale. She subconsciously held onto Chu Qian's hand.

Chu Qian was already used to this kind of scene. She shook off Chu Xuan's hand and said disdainfully, "What's there to be afraid of? You even dared to take the heavenly tyrant order. Why are you afraid of this?"

Chu Xuan said with a wronged expression, "That's just a token. These are all my servants. We usually get along quite well. Who killed them? Why did you kill them?"

Yu Tian picked up the apple on the table and took a big bite. As he ate, he said, "You're wrong. Those people aren't here to kill them, but to kill you. They're just your scapegoats!"

Before Chu Xuan could figure out why he wanted to kill her, Yu Tian suddenly felt a fierce killing intent.

He hurriedly signaled for everyone to keep quiet and immediately fell to the ground.

Then, he jumped out of the window like an arrow that had left the bow.

In the garden behind the villa, it looked very quiet, but suddenly, a tester came out from the flowers and rammed into Yu Tian.

The moment everyone saw the tester, they were all scared silly. Even Chu Qian, who was used to big scenes, sucked in a breath of cold air.

However, Yu Tian only frowned slightly. Seeing the tester ramming into him, he easily raised a hand and punched the tester's heart.

The tester was like a kite with a broken string, flying backward and smashing the fence of the villa into pieces.

However, the tester seemed to not know pain. He got up and rushed towards Yu Tian.

Yu Tian only looked up at the tester indifferently. The corners of his mouth curled into a faint smile.

The moment the tester rushed close, Yu Tian suddenly jumped up and sat on the tester's shoulders. Then, he used his fists to penetrate the ears of the tester and smashed the tester's head into pieces.

The tester fell to the ground with a thud. Yu Tian, on the other hand, put his hands behind his back and snorted coldly, "That's all you've got? Molton, you're nothing!"

After confirming that there would be no more tester, Yu Tian returned to the villa with ease.

He said to Chu Xuan as soon as he entered the door, "See? That's the tester who has been injected with elements. His combat strength is extremely valiant. Fortunately, I'm here. Otherwise, all of you would have died."

"If it wasn't for you sabotaging the banquet tonight, I would have already taken down that Molton. Now that we've alerted the enemy, Molton has taken precautions and started to openly attack us!"

After seeing this scene, Chu Xuan finally began to feel fear in her heart.

She was also extremely regretful that she had sabotaged Yu Tian's plan tonight.

However, there were still some things that he kept in his heart and did not need to say out loud. After that, helping Yu Tian find that Molton was the most important thing. It was useless to say anything now.

Chu Qian also asked, "Brother, what should we do now?"

Yu Tian immediately sat down on the sofa and said coldly, "Obviously, the battle with the Angel Legion in the Deep South has officially begun."

"What we need to do now is to find that Molton as soon as possible. Only by taking him down can we get all the elemental samples back!"

At this point, Yu Tian looked at Chu Xuan with a smile and deliberately teased her, "If you can't find Molton, there will be such a tester to kill you every day."

Tell me, are you afraid?"

Chu Xuan cried on the spot. How could she not be afraid? Those were monsters..

Chapter 288 – Chapter 288, Why Don'T You Do It

Thank you readers!

Seeing Chu Xin's pale face, Chu Qian complained, "Brother, don't scare her anymore. Tell me what we're going to do next."

Yu Tian smiled indifferently and said, "Find a place to sleep. The door here has exploded. What if there are perverts watching you change at night? Anyway, I have a salted fish room. Where are you going to live?"

Chu Xuan was regretting it now that her liver had turned black. She hurriedly said, "Aren't you going to stay with us? What if a monster appears?"

Now she knew fear?

He snorted coldly and said, "Aren't you a hacker? If a monster appears, you can just hack him to death!"

After saying that, Yu Tian picked up his backpack and walked away.

Chu Xuan entered the stupefied mode again. Chu Qian hurriedly pulled her and reminded, "Follow me. Are You Stupid?"

Everyone left the villa in a hurry and followed closely behind Yu Tian to the small hotel.

The boss saw so many people and shouted through the broken window, "Stay at 50 and rest at 30!"

Before Yu Tian could say anything, Chu Xuan immediately ordered the security guard loudly, "Smash it until it can't open the door!"

The security guard didn't care about that. He rushed into the hotel and smashed it from the first floor to the third floor.

Chu Xuan even gave a special order, "Especially that salted fish room. Tear it down!"

The boss was devastated. He could not stop them. In the end, he even picked up a mop and wanted to hit someone. However, the security guards threw him on his back and he fainted on the spot.

Yu Tian did not stop them. If they wanted to smash it, they could smash it. Any-vvay, it was not meant for him.

Didn't that girl smash this place just so that he could live with her?

This move was quite new.

In the end, everyone came to the luxurious hotel. Chu Qian booked the entire floor of the presidential suite.

In the room, Yu Tian didn't want to say anything useless. He immediately got Chu Xuan to use her hacking skills to find Molton.

In this regard, Chu Xuan a€?s ability really surprised Yu Tian.

In less than five minutes, Chu Xuan had cracked all traces of Molton on the Internet.

Even the information about him in the bank was complete.

Yu Tian looked at it carefully.

This Molton was also a rich man. He had ten-digit wealth in the bank

Thinking about the people in the Angel Legion, they were all rich people. This was not strange.

The main thing was where this guy lived. This was the most important thing.

At this time, Chu Xuan connected to the special satellite of the Chu family and checked Molton's residence in real time.

In the end, she found that it was now a construction site.

Yu Tian narrowed his eyes and said in a low voice, a€?After working all night, you want me to watch the migrant workers dance on the roof?a€? Chu Xuan said unwillingly, a€?Why don a€?t you do it and I'll Watch?a€?

He sniffled and said helplessly, a€?You win. Continue!a€?

Yu Tian also knew that Chu Xuan was anxious. Those monsters had really scared this girl. Her hands were still shaking.

Ten minutes later, Chu Xuan opened a file and said to Yu Tian and the others, "Look here. This is a large yacht that Morton bought half a month ago. The address marked here is also that construction site"

"So, this Morton is definitely the one you're looking for!"

Yu Tian took a sip of hot coffee and said indifferently, "Even if you know this, it's useless. Deep South is surrounded by the sea on three sides. This yacht can be found anywhere, but it's still impossible to find!"

Chu Xuan knew that Yu Tian would say this, so she said proudly, "Why are you so stupid? If you search like you said, you definitely won't be able to find it."

"Don't you know that every yacht has its own radio frequency band?"

"This band code is on the yacht's manual. I can connect to this radio code and know its location!"

Hearing this, Yu Tian was energized. He put down his coffee and stood up. "Then what are you waiting for? Do it!"

Chu Xuan did not waste any time. Very soon, she connected to the yacht's radio frequency code. Following a series of operations, the satellite image directly hit a certain area in the Deep South.

Through the satellite, Yu Tian could clearly see that a luxurious yacht was floating on the surface of the sea.

Moreover, the lights on the yacht were on, and there were even security guards on the front and back boards of the yacht.

Therefore, there was at least an 80% chance that Molton was on this yacht.

Seeing this, Yu Tian looked at Chu Xuan and asked, "Do you have a yacht?"

Chu Xuan smiled disdainfully and said proudly, "I have 17 yachts. How many do you want?"

"I want all of them!" Yu Tian said without hesitation, "Each of you drive one, load a harpoon, and surround that yacht for me!"

At two o'clock at midnight, on the calm sea, the searchlights of seventeen yachts and the roar of their engines flashed rapidly.

Yu Tian looked at the lights of the distant city. It was so gorgeous.

“This time is definitely the time for couples to have a happy date, but I still have to beat up a pretentious dead foreigner. What kind of Life Is This?” Chu Qian, who was behind Yu Tian, was trembling in the sea breeze. However, when she saw Yu Tian's determined face, she felt a special warmth in her heart.

An hour later, Yu Tian could clearly see the yacht through the binoculars.

He immediately took out the radio and said to the security guard, “Turn on the high-intensity lights. Hit it at the highest speed and sink it!”

The security guard obeyed and charged at full speed toward the yacht one nautical mile away.

The people on the yacht were shaken by the strong light from all directions, and they couldn't even open their eyes.

Before they could react, a few yachts violently crashed into the yacht.

Under the violent shaking, the yacht was completely deformed from the impact, and the broken hull began to splash into the water.

At this time, Yu Tian also jumped over, picked up the security guard who was in shock, and asked angrily, “Where is Molton?”

The security guard said in panic, “Molton is not on the boat. He hasn't been here for the past few days. If you don't believe me, you can go to the cabin and take a look!”

Seeing that this guy was so scared that he was about to shit his pants, it was impossible for him to lie. Yu Tian also said coldly, “Where is Molton Now?”

“I'm just a boat watcher. How could I know where he lives!” The security guard said helplessly.

Yu Tian pushed the security guard to the ground and looked around the yacht. It was going to sink soon. He could only jump back to his yacht and call Chu Xuan.

“Molton is not on the yacht. You have to keep looking!”

Chu Xuan said indifferently, “I saw it on the satellite. It will be difficult to find Molton now. He must be hiding!”

“Even if he goes underground, I will dig him out. I can be by your side, but I can not be by the 108 sisters' side. If he uses the test subjects to attack the other sisters, who will save Tian said.

Chu Xuan was speechless.. After a long silence, she slowly said, "Don't worry, I will think about it!"

Chapter 289 – Chapter 289: A Sense Of Security

Thank you readers!

It was almost morning when they returned to the hotel.

Yu Tian looked out of the window at the city shrouded in fog. He kept wondering what Molton would do next?

Chu Xuan, who had not slept for the whole night, was still operating the computer with dark circles under her eyes.

During the night, she had logged into the databases of dozens of cities, including the web servers of Molton Trading Company, but all of them were unimportant data.

Chu Qian took a piece of clothing and gently draped it over Yu Tian's back. She said gently, "It's no use waiting like this. Go and sleep for a while!"

How could she possibly fall asleep at this time?

Yu Tian said in a low voice, "Go and get me a cup of coffee!"

After saying that, Yu Tian continued to look at the city in the fog outside the window. His thoughts were just like the fog, becoming blurry and confused.

At this moment, the sound of a cargo ship suddenly came from afar.

This sound was like a sudden thunder in Yu Tian's chaotic thoughts. Yu Tian slapped his forehead hard and said excitedly, "I should have thought of it long ago!"

Everyone in the room looked at him with puzzlement.

Yu Tian walked quickly to Chu Xuan's side and said happily, "Now look at the Molton Company's export information and see if he has any goods to export or import recently!"

Chu Xuan immediately typed on the keyboard and quickly found the information.

As she looked, she said, "You're right. This company has a ship of goods this morning. It's leaving Deep South to Super Nation. The time is 10:00 a.m. !" "

Yu Tian immediately looked at the time. It was six o'clock in the morning. There was no time to lose.

He asked, "What port is his ship at? What are the goods on board?"

"It's at Port Five. According to the information recorded by the customs, it's medical equipment. The total value is more than 200 Xuan said. "Very Tian nodded and continued to smile. "Let's see who owns Port

Five.'

Soon, the information was listed. Chu Xuan said quickly, "The boss of Port Five

Is Chang Zhe, 55 years old. He is the president of the trans-ocean Trading Company. He is worth one billion!"

Hearing this, Yu Tian took off his coat and threw it to Chu Qian. He said indifferently, "Alright, you all should get some sleep. Don't boil it anymore. You have to drink soup and medicine because of the whole endocrine disorder!"

Under Chu Qian and Chu Xuan's dumbfounded gazes, Yu Tian pushed the door open and left.

Especially Chu Xuan. She suddenly felt that Yu Tian was quite warm-hearted and had a special sense of security. It was many times better than that all-day red.

If it weren't for Yu Tian, she would have been in the Chu family's tribe of extinction.

Half an hour later, Yu Tian arrived in front of a high-rise residence called Tiandu Soho.

Chang Zhe lived on the 17th floor of this high-rise.

In such a super-tall building, the security level was very difficult.

The people living here were all elites. Not everyone could easily enter the building.

Moreover, the surroundings of the building were closed. One could only enter through the entrance at the front.

Yu Tian was about to walk into the building. He thought that with his temperament, the security guards would definitely not stop him.

However, one of the security guards frowned slightly and reached out to stop him.

"Sir, are you the owner of this building? How come I've never seen you before? which floor do you live on?"

Yu Tian did not want to waste his time with him.

He spread his hands and chuckled, "You're right. I am not the owner of this building. I'm just looking for someone!"

The security guard did not say anything more, he just asked, "Oh, that's Alright, but we need you to register. At the same time, we need to know who you're looking for. Also, you have to call that person. Only after he agrees to meet you can we let you in!"

Wasn't it just meeting someone? It was so complicated.

But Yu Tian still tried to be a gentleman. If he played hardball here, it would be a waste of time.

So he wrote his name in the register, and then he wrote Chang Zhe's name.

The security guard immediately called Chang Zhe.

At this moment, Chang Zhe, the boss of Port 5, was enjoying breakfast happily.

There were at least a dozen types of breakfast on the table. His young wife didn't seem to be very satisfied with these breakfast.

She said critically, "I eat these every day. Didn't we agree yesterday that we would eat rock candy bird's Nest This Morning?"

Chang Zhe slowly put down the newspaper in his hand and said expressionlessly, "Eat these first. Yesterday, Old Chen told me that Bird's nest isn't very fresh. Today, I will go to the market to buy the best.

"Today, I will eat some abalone and sea urchin porridge. These things are also very nutritious!"

The woman said with dissatisfaction, "You treat me like this. If it were your wife, you would definitely think of all ways to get the best ice-sugar bird's nest for him. I don't understand. How am I inferior to her?"

"If you were inferior to her, why would I be sitting here? Also, don't mention that old woman to me again. I don't want to vomit out all my breakfast!" Chang Zhe seemed to be very angry.

At this moment, the phone rang. After the call was connected, the security guard said very politely, "Good morning, Mr. Chang. There is someone called Yu Tian who wants to see you. May we ask him to come up?"

Yu Tian?

Chang Zhe frowned in confusion. He didn't know this person at all.

It must be those bastards who wanted to take money out of his pocket again. He had seen many people like this.

Usually in the company, there were many people like this who always wanted to sell him some unimportant things.

Now, they actually came to my place. They really didn't know what to do.

Thinking of this, Chang Zhe coldly said, "I don't know this person. Tell him to get lost!"

Downstairs, the security guard hung up the phone and turned to Yu Tian with a smile. "I'm sorry, sir. Mr. Chang said that he doesn't know you. We Can't let you go up. Now, please leave!"

Yu Tian clearly heard what Chang Zhe said.

With his high status, it was already giving him face by taking the initiative to meet him.

In the end, this guy actually treated him as a door-to-door salesman.

Some people just couldn't give him face.

Yu Tian didn't waste time with them and turned around to give Chu Xuan a call.

Chu Xuan was doing a facial mask at the moment. She didn't want her skin to become so old-fashioned after staying up all night.

After picking up Yu Tian's call, she grumbled, "You still want me to sleep? Tell me, what do you want me to do now?"

Yu Tian smiled indifferently and said, "It seems that Chang Zhe doesn't want to see me, so I need you to do me a favor.. You have to let him know my identity so that you can save the most time!"

?Chapter 290 – Chapter 290: Buy Your Port

Thank you readers!

If she didn't let Chang Zhe know her identity, even if she beat all the security guards to death, it would still be a waste of time to go up and see him.

Therefore, letting him know her identity would make everything simple.

Chu Xuan Thought for a moment, then nodded and said, "This is very simple. Wait for me for five minutes!"

After hanging up the phone, Chu Xuan personally gave Chang Zhe a call.

Chang Zhe was flirting with his lover in the restaurant. After picking up the phone, he said impatiently, "I already said that I don't know this person. Why are you still bothering me? You Don't want to work anymore, right?"

Chu Xuan snorted coldly and rebuked angrily, "Boss Chang, who are you talking to? I'm the President of Ye Xuan Technology Company. My name is Chu Xuan. The shipping software used in your port, as well as the network service exchange software used by Your Company...

all of them are provided by my company. You should have heard of my name!"

Chang Zhe suddenly frowned. If it was just that, he would not believe it.

However, he lowered his head and looked at the phone number that Chu Xuan called. The ending number was five sevens.

The elites in deep south, the bosses, the rich, and so on all knew that there was only one phone number in the entire city, and it was Chu Xuan's.

So he hurriedly smiled respectfully and said, "So it's Miss Chu. I thought it was someone who made the sales call. You also know that these people are everywhere now. May I ask, Miss Chu, what business do you have?"

Chu Xuan said straightforwardly, "Since you know who I am now, then you must know the strength of our Chu family. If you want to continue your business, now you need to see that person called Yu Tian downstairs!"

It was this person called Yu Tian again. Chang Zhe asked with puzzlement, "Why do all of you seem to want me to see him? Who is this person?"

"He is someone who even I have to listen to his orders. Even the entire Chu family has to listen to his orders. He took the initiative to see you because he is giving you face. You had better not provoke him. Go and see him now!" Chu Xuan directly hung up the phone.

Chang Zhe hesitated for a moment. Chu Xuan could not be provoked at all, and the Chu family could not be provoked either.

If he said that he would mess with you, then he would mess with you. He would not even give you a chance to retaliate.

Thinking of this, he immediately called the security guards downstairs and invited Yu Tian upstairs.

The security guards looked at Yu Tian in shock. There were not many people who could make Chang Zhe change his mind. It seemed that this person's strength could not be underestimated.

Thus, he went forward and smiled. "Mr. Yu, Mr. Chang called and said that he would like to invite you up. Previously, we had many problems, so please don't take it to heart!"

Yu Tian only nodded slightly. There was nothing more to talk about with them.

Thus, he went straight to the seventeenth floor.

At this moment, Chang Zhe was already standing at the door to welcome him.

He very politely invited him into the house. After taking a seat, Chang Zhe instructed his lover to make a cup of coffee for Yu Tian.

His lover looked at Yu Tian with seductive eyes. If it were anyone else, she wouldn't have bothered to serve them.

However, when she saw Yu Tian for the first time, she felt an itch in her heart and hurriedly went to make coffee.

At this moment, Chang Zhe rubbed his hands and said embarrassedly, "I'm really sorry about before. I didn't know Mr. Yu's identity. I thought he was here to sell my products,

"It's just a misunderstanding. What business do you have, Mr. Yu?"

Yu Tian looked at the time. There were still five and a half hours before ten o'clock. It was best to seize the time and cut the crap.

He looked at Chang Zhe indifferently and said softly, "Actually, it's nothing much. I just want to buy your port. Name a price. We can trade right now!"

Chang Zhe felt a little baffled. This guy came early in the morning and said that he wanted to buy his port. Was this guy really normal?

While he was hesitating, the woman in pajamas put the coffee on the table with exaggerated movements.

The neckline of the pajamas was big to begin with. She even deliberately lowered her body so that Yu Tian could see her more clearly.

However, Yu Tian did not even look at her. She was just a vixen. What was there to see?

He did not even touch his coffee. He was not in the mood to drink coffee now.

At this moment, Chang Zhe lit a cigarette and took a light puff. He even wanted to light one for Yu Tian.

Not to mention smoking, even the smell of the cigarette made Yu Tian feel disgusted.

After he calmed down a little, he continued, "Mr. Yu, I know that you have a high status, but I have no plans to sell the port. If you want to do something through my port..., there's no problem with that!"

Chang Zhe had thought it through thoroughly. Yu Tian suddenly came here to buy his own port. It was definitely not that simple.

Why did he want to buy his own port? What did he want to do with his own port?

If this port was important to him, and he had to buy it, then the price would be easy to negotiate.

However, Yu Tian shook his head slightly and said with a faint smile, "Ask what you should ask. Don't ask what you shouldn't ask. There are core secrets of the Chu family in here, and I can't tell you"

"Let's be simple. You just need to say a price, and we can immediately trade.

Then, you can continue to follow your lover and do whatever you want!"

The woman's heart was brought to life by Yu Tian's words. She hurriedly grabbed Chang Zhe's arm and said while shaking it, "If he wants to buy your port, you can sell it. What are you hesitating for?"

Look at how sincere this gentleman is. Furthermore, he is a member of the Chu family. Not to mention buying your port, even if he wants you to give it to him for free, he would still think highly of you. What are you thinking about? Hurry up and agree!"

As she spoke, she raised her eyebrows and looked at Yu Tian proudly.

However, Yu Tian remained expressionless. He did not thank this woman for her help. On the contrary, he felt extremely disgusted.

Chang Zhe felt even more disgusted. What kind of temperament did this woman have? Did he not understand ?

She must have taken a liking to Yu Tian again.

And now, he could see that if this port was not for sale, it would be impossible.

Since he wanted to buy it, he would give him a sky-high price. Even if he could not afford it, if he could afford it, he could earn a moat.

So he put out his cigarette, he said in a deep voice, "Since Mr. Yu wants to buy my port, then I'll sell it to you for the sake of the Chu family. What's the price? I'll give you the most suitable price. What do you think of one billion?" Yu Tian chuckled.

One billion? Normally, this amount of money could buy ten of his ports.

The throughput of Port No. 5 could only allow five large cargo ships to operate at the same time. It was not considered a large port.

Therefore, Yu Tian said indifferently, "I'll only give you two billion.. What do you think?"

I Have 108 Older Sisters #Chapter 291 - Read I Have 108 Older Sisters Chapter 291

?Chapter 291 – Chapter 291, Money Should Not Be Spent In Vain

Thank you readers!

No one's money came from the wind. Although one billion was nothing to Yu Tian, he absolutely could not be that big head.

Chang Zhe immediately shook his head to express his refusal, but before he could say anything, Yu Tian suddenly stopped smiling and said coldly, "I've wasted enough time here,

"I don't want to waste any more time with you now. If you don't sell my port, then from now on, don't even think about accepting any more cargo ships. I'll buy all the ports around you,

"Until your port closes down, I've said enough to you. Do you want to sell or not? Give me a straightforward answer right now!"

This sentence shocked Chang Zhe. The Chu family indeed had the ability to do so.

Helpless, he could only reluctantly nod his head and helplessly said, "Mr. Yu, you don't have to be so angry. If I sell it to you for 200 million, I'll really lose money,

“But for the sake of the Chu family, I'll sell it to you. Just treat it as a favor to the Chu family!”

Needless to say, Chang Zhe immediately went back to the study to get the agreement.

At this time, that Vixen sneakily looked at the room and directly sat beside Yu Tian.

She even said flirtatiously, “Hello, Mr. Yu. My name is Ah Hong. Nice to meet you. Let's Keep a V. if you have time, let's meet for tea and a meal. How about it?”

Yu Tian did not even look at her. He only said coldly, “I've never used the basin that others use to wash my feet. But since you've helped me before, I'll give you something!”

As he spoke, Yu Tian took out his phone and gave her 50 million yuan.

When she saw that string of numbers, Ah Hong's expression changed. She was so shocked that it was as if she had been electrocuted.

This was 50 million yuan. She wouldn't be able to spend it all in a lifetime.

Yu Tian didn't think much of it. It was only 50 million yuan. However, he didn't give this money for nothing.

He had to keep an eye on Chang Zhe.

This Chang Zhe wasn't as simple as he looked. Furthermore, he was able to work with Molton, so his background couldn't be that clean.

He could easily sell the port to him now, but that did not mean that he would not do anything else.

Thus, Yu Tian calmly said to Ah Hong, “Is there any movement on Chang Zhe's side? You have to let me know. Do you understand what I mean?”

Ah Hong hurriedly nodded. She even held onto Yu Tian's arm and said charmingly, “That's for sure. I don't want to follow this damn old man for a long time. I am now your man. I will do whatever you want me to do!”

Just as they were talking, the sound of footsteps came from the study room. Ah Hong hurriedly returned to her seat and looked at Yu Tian with a smile.

After the agreement was signed, Yu Tian said with satisfaction, “Very good.

Now give your port a call. I'll take over immediately!”

Chang Zhe did not say any nonsense. He laughed in unison and said, "Okay, I'll give them a call now. From now on, this port is yours!"

An hour later, Yu Tian was already sitting in the office of Port 5. The higher-ups came to greet him.

Yu Tian did not want to hear this at all, instead, he ordered everyone, "In the future, everyone will follow me to make a living. I will definitely let everyone eat their fill. But now, I need you to lock a large cargo ship called the ocean liner in the port,

they are not allowed to leave one centimeter. All the crew members on the ocean liner are to be locked in the cargo hold. No one is allowed to leave without my order!"

High cost looked at each other. Although he did not know what order Yu Tian was giving, Yu Tian was his boss now. He would do whatever Yu Tian said.

Therefore, the experts nodded and immediately turned around to make arrangements.

The cargo of the ocean liner had been fully loaded and was loading fuel. When the time was up, they would set off.

At this moment, dozens of port security guards rushed onto the cargo ship and gathered all the crew members. They locked them in the cargo warehouse and only led the captain to his office.

Yu Tian slowly put down the information in his hand and slowly raised his head to look at the bearded captain, he smiled indifferently and said, "I need you to call the Molton Trading Company and tell them that their cargo has been intercepted by the port,

"Ask their boss to personally sign the document before you can leave!"

At this moment, the captain said angrily, "What you're doing is simply too unreasonable. Since there

V

s a problem with the cargo, why did you stuff my crew into the cargo hold?"

Two of them even had diarrhea. Don't you think what you are doing is too shameful?"

Yu Tian chuckled and said disdainfully, "I'm trying to be the boss of the port. I can do whatever I want. Now, you should hurry up and call Morton Trading Company. I really hope that you can leave before 10 O'clock!"

The captain saw that there was no room for discussion. He could only pick up the phone and call Morton Trading Company.

When the trading company received the news, the manager immediately contacted Morton.

On the phone, the manager said helplessly, "Mr. Morton, our ocean-going freighter needs you to personally go to the port to sign the documents before you can leave!"

In a luxurious villa in the suburbs, Morton, who was taking a shower, slowly opened his eyes and said in a deep voice, "There is no problem with those goods, but there is a problem with the port. I will go and solve it!"

With that, Morton hung up the phone. He picked up the red wine beside him and took a sip. He said with a gloomy smile, "You want to use this trick to make me appear? You Are Dreaming!"

Putting down the wine glass, he called Chang Zhe again and sneered, "Mr. Chang, can our cooperation continue? You Don't want to let my freighter leave, do you not want to make money?"

Chang Zhe said awkwardly, "That port is no longer mine. Two hours ago, he was bought by someone called Yu Tian. This Yu Tian is from the Chu family. With my strength, I can't afford to provoke him!"

Morton smiled very easily, then, he said disdainfully, "I see. Then, come and help me solve it. As long as you let my freighter leave, you can get the benefits. After all, we have worked together for so long, and you have made a lot of money!"

Hearing this, Chang Zhe was still tempted.

Why not make money? Wasn't it just a freighter? Although the port had been sold to Yu Tian, the people in the port could still say a few words to him.

So he nodded and said, "I will try my best to help you get it. After all, we are old friends!"

Ah Hong heard their conversation clearly. She immediately sent a message to Yu Tian.

Yu Tian received the message, then laughed..

?Chapter 292 – Chapter 292, A Fight Between Immortals?

Thank you readers!

At noon, Chang Zhe came to the port as expected. When he met Yu Tian, he said with a fake smile, "Mr. Yu, I handled that cargo ship when I was the boss!"

“Although the port has been handed over to you now, I still have to handle this cargo ship. You have to let it leave the port. Otherwise, the losses here won't be counted as mine!”

Yu Tian listened to him quietly and smiled indifferently. “Since boss Chang is talking about this, I might as well tell you why I bought your port,

“Actually, it's very simple. I did it for this ship. or to be more precise, I did it for the owner of this ship. His name is Molton. I think you should be very familiar with this person.

“Then, when the crucial moment comes, you have to tell me where Molton is? “Or you want Molton to come to the port. Otherwise, you won't be able to leave here!”

Chang Zhe's heart skipped a beat. So it turned out that Yu Tian was here for this ship.

But what conflict did he have with Molton? What did it have to do with him?

His face darkened and he said unwillingly, “Mr. Yu, are you mistaken? I've already sold the port to you. What kind of conflict do you have with Molton? It doesn't seem like it's up to me to interfere, right?”

Yu Tian also stopped smiling and said coldly, “Then why did you come here to ask for a ship? Don't think that I don't know about the cooperation between you and Molton!

“I will tell you the truth. Molton is an extremely dangerous person. I Won't beat around the bush with you. I'll give you two choices. Either you call Molton now and ask him to come to the port personally..,

“Or you can tell me where Molton is.”

Looking at Yu Tian's cold expression, Chang Zhe was especially afraid.

He couldn't afford to provoke him. Secondly, he had no reason to blame Molton.

No matter who Molton was, it had nothing to do with him.

Thinking of this, Chang Zhe wiped the cold sweat off his forehead and said in a low voice, “Molton won't come to the port. If there's any conflict between the two of you, do you think he will come?

All I know is Molton's phone number. Where does he live? I have no idea. You are making things difficult for me by asking me this!

The phone number was useless. Chu Xuan already knew Molton's phone number.

But this guy's phone used an encryption system. Even if it was cracked, it would be impossible to know his location.

The only use of this phone was that Yu Tian could call him personally.

Of course, it was Chang Zhe's phone.

However, before the call was made, the port was in chaos.

Yu Tian looked out of the window. There were two testers in the port, wantonly destroying the port.

One of the testers even jumped onto the ocean-going ship and pushed all the heavy containers into the sea.

A few of the harbor workers had already been knocked to the ground by the testers and were unconscious.

Without thinking, Yu Tian smashed the window with one punch and jumped onto the ground.

A tester rushed over.

Yu Tian smiled indifferently and raised his hand to punch the tester, sending it flying several meters away before it fell heavily to the ground.

The tester on the ship directly jumped in the air, wanting to use his body's weight to crush Yu Tian.

Yu Tian turned his head and saw that there was a rope that weighed a thousand pounds beside him.

He chuckled and picked up the rope, throwing it directly at the tester.

The tester was like a bird that had lost its wings. With a plop, he crashed onto the ground. Only then did he want to get up. Yu Tian went up and kicked him, smashing his head into pieces.

The remaining tester let out a howl and raised a container, smashing it towards Yu Tian.

Yu Tian jumped onto the container and exerted force with his feet. The container seemed to be loaded with a force of over 10,000 jin as it suddenly pressed down on the tester's body.

When Yu Tian jumped onto the ground, a large amount of blood flowed out from the container.

In the office, when Chang Zhe saw this, he was so scared that his face was deathly pale.

It was not only because of Yu Tian's strength, but also because of the two test subjects.

They were simply monsters. They could even lift a container. How much strength was that.

What was even more terrifying was that when Yu Tian hit them, it was like an adult hitting a child. He was relaxed and indifferent.

What was going on in this world? Could it be that he was living among a group of gods?

But Chang Zhe quickly calmed down. He was still waiting for dinner.

So he took advantage of the chaos and left the port.

Yu Tian had been watching him for a long time, but she didn't want to stop him. Whether he could find Molton or not, Chang Zhe was the key person. Let him leave first, and they would meet again soon.

The port was badly damaged. It was impossible for the ocean-going ship to leave now.

He first asked the port staff to send the injured people to the hospital and give them the best treatment.

At this moment, on the roof of a high-rise building opposite the port.

Molton put down the binoculars proudly, took a deep puff of his cigar, and exhaled a puff of smoke leisurely.

"Yu Tian, you're just so-so. I thought you had a lot of ability, but now you're being played like an animal by me.

"But don't worry now. I have more fun with you idiots. Do you think I care about an ocean liner? It's not my ship, and it's not my cargo,

"But now, they're yours. If you want to protect the Chu family, then I'll let you do it. Soon, you'll know how idiotic and ignorant your decision was.

"Because you always think that there are only a few people in the Angel Army?
"Do you think that the Angel Army will only rely on people like Situ Longyi to keep up appearances? You are really too self-righteous!"

A foreign beauty who looked like a model stood behind Molton and looked at Molton charmingly, her hoarse voice smiled and said, "Mr. Molton, then next, should we start another plan?"

Molton flicked the cigarette ash and nodded slightly. He said confidently, "Of course. The plan has been prepared for so long. Why not carry it out? Go and make the arrangements now!"

"I want Yu Tian to have no time to care about the Chu family. Then, we can start another plan!"

The model and beauty nodded excitedly. She turned around and left the roof with the sound of her high heels.

At this moment, a helicopter landed on the roof. Molton smiled evilly, turned around and boarded the helicopter, heading straight for the sea.

Yu Tian, who was on the ground, also looked up at the helicopter. However, he did not think too much about it. Instead, he called Chu Xuan.

However, just as the call was connected, Chu Xuan screamed..

?Chapter 293 – Chapter 293, A Very Powerful Chip

Thank you readers!

Chu Xuan's scream gave Yu Tian a fright, and he hurriedly asked, "What's wrong with you?"

"My dark circles! I can't believe they still exist after I put on a mask!"

Yu Tian was extremely helpless, and he said angrily, "I thought you F * cking met the tester. The world is about to be destroyed, and you still care about your dark circles?"

"Now that I have Molton's phone number, can you crack it?"

Chu Xuan said impatiently, "Although I'm the world's most powerful hacker, it doesn't mean that I can crack anything,

"Yesterday, I already told you that Molton's phone has an encryption chip. Unless I can get his phone, it's impossible for me to crack it,

"Even if you call him, I won't be able to find his location. That chip is very powerful!"

Yu Tian was still a little dejected when he said this.

He had thought that his plan was flawless, but he didn't expect Morton to be so clever.

Now, he still had to think about how to find him?

The crane was struggling to lift up the scattered containers. As for the two test subjects, Chu Qian had already ordered people to carry them away.

It was better not to let people see such monsters.

No matter what, the Chu family was a business organization. It was better to let as few people as possible know about the existence of this kind of biological weapon.

Chu Qian also gave a sum of money to the workers who saw the testers.

The workers took the money and completely forgot about the scene at the port in the blink of an eye. Even if there were reporters questioning them, they did not know anything.

At noon, Yu Tian was eating in the restaurant. At this time, a few men in black surrounded a foreign middle-aged man and came to Yu Tian.

Yu Tian did not even look at them. He just lowered his head and ate. If you want to act pretentious, go ahead. In any case, the world was full of pretentious people.

The man saw Yu Tian's arrogance and tried his best to suppress the anger in his heart. He slowly said, "You must be Mr. Yu Tian Yu. My name is Daniel. I'm the representative of the Super Ocean Shipping Company,

"I hope you can give me an explanation. Why can't our ocean shipping ship leave your port? Moreover, a large amount of damage has occurred to the cargo on our ship?

"If you can't give me a reasonable explanation, I'll definitely let you know that provoking us won't do you any good!

Yu Tian slowly raised his head and looked at Daniel disdainfully.

This guy was more than 1.8 meters tall. Standing in front of him, he was like a wall. His expression was even more interesting, as if he had slept with his mother.

He smiled indifferently and gently put down his chopsticks. He said disdainfully, "Why don't you go and find Molton to explain to you? All of this is Molton's doing. Can you ask me if I can ask?"

Daniel looked around, pulled out a chair, and sat directly opposite Yu Tian. He raised his chin, he said arrogantly, "The ocean-going cargo ship belongs to our ocean-

going cargo company. We are only responsible for transporting the goods from the eastern countries to the superpowers.

“As for whose goods and what are they?” It’s none of our business. If this is the explanation you gave me, then I’m very dissatisfied with your explanation.

Now I don’t want to hear any more of your explanation, that your port, must compensate me for all my losses, that you publicly apologize to me, and that you waive all our port fees for the next year.

More importantly, our crew members, who you’ve locked up, you need to get them out of here right now, and you need to give them the best standard of rest until the ship is repaired, and you have to pay 1.7 million dollars for each crew member.

This is the request of our ocean shipping company. I know that you will not agree, so we have already reported our request to the eastern country’s Port Union Association.

If you do not meet our request, the Port Union Association will definitely shut down your port!

Yu Tian only smiled indifferently, then he said disdainfully, “So be it. Do you think I care about this? Besides, if you shut down one port, I’ll open another one. I don’t believe that the Port Union will shut down all the ports in the eastern country.

“Do you think that the Port Union will play this game with you?”

Daniel narrowed his eyes. He did not believe that Yu Tian had such strength.

Since the negotiations had broken down, there was no need to waste any more time. Daniel stood up and said coldly, “In that case, wait for the people from the Union Union to tell you!

After saying this, Daniel turned around and wanted to leave.

After pretending for a while, he still wanted to leave so easily? How was that possible?

Yu Tian chuckled and stopped Daniel.

“Actually, I can agree to your conditions, but I have to see if you have the ability. Since it’s lunchtime now, why don’t we drink some wine? If you can make me drink to my heart’s content, I’ll agree to your conditions. How about it?”

Daniel slowly turned around and looked at Yu Tian suspiciously. He asked, “What you said is true. If I can drink better than you, you’ll agree to my conditions, right?”

Needless to say, Yu Tian directly asked the waiter to serve twenty bottles of 50 -degree burning knives and placed them side by side on the table.

Yu Tian pointed at the bottles and smiled. "Of course, I, Yu Tian, will definitely keep my word. Drink them and I will fulfill your conditions!"

Daniel gritted his teeth. It was not a big deal to just drink some wine.

Compared to asking the Port Union Association to help increase the pressure on Yu Tian, it was much simpler.

Wasn't it just a few drinks? What was so great about it.

Thinking of this, Daniel nodded and said through gritted teeth, "Very good. If I can drink you today, you have to promise me that in the next five years, you will let us use your port for free!"

"For as many years as you want. If you can still stand and talk to me then!" As Yu Tian spoke, he opened a bottle of burning knives and placed it directly in front of Daniel.

Daniel loosened the tie on his neck, picked up the burning knife and began to gulp it down.

This guy's alcohol tolerance was quite good. He drank a bottle of burning knives into his stomach, but his face was a little red.

Then, he could easily say to Yu Tian, "Is this your eastern country's wine? Compared to the whiskey and vodka I drank, it's too different. Now it's your turn to drink!"

Yu Tian did not waste time with him. He had only drunk one bottle, what was there to be pretentious about?

He elegantly picked up a bottle with his fingers and drank it as well. With the same unchanging smile, he said, "Now it's your turn.. Go On!"

?Chapter 294 – Chapter 294, Port Alliance

Thank you readers!

In the blink of an eye, an hour had passed. Yu Tian was still relaxed and at ease, while Daniel could not sit still. After drinking two more mouthfuls, he stuck his head under the table and vomited.

Yu Tian was so disgusted that he covered his nose and said in disgust, "Hurry up and look down to see if you've vomited your stomach out."

Daniel's followers patted and touched him, but Daniel continued to pretend. He pushed them away and held his head high, however, he said unsteadily, "It's impossible for me to vomit my stomach out."

"I was the champion in the Super National Drinking competition. Come, let's continue drinking!"

This guy opened a bottle of burning knife and began to pour it into his mouth as if he was angry with Yu Tian.

However, when he drank half of the bottle, Daniel fell to the ground with a thud. He could not even get up.

However, Yu Tian laughed and said in a relaxed manner, "There is a saying in our eastern country that when you drink, you must drink until you are under the table. How Do You Feel Now? Do you still want to continue?"

At this moment, Daniel could not hear what Yu Tian was saying. His followers hurriedly went forward to advise him, "Mr. Daniel, you can't drink anymore. You seem to have vomited all the acid in your stomach, if you continue to drink, you'll have to go to the Doctor!"

The best thing about Eastern wine was that the more he drank, the more he wanted to act pretentious.

The wine in Yu Tian's stomach had already been dissolved by his internal energy. So now, he just quietly watched Daniel Act pretentious.

As for Daniel, he supported himself with the chair and climbed up again. In the end, his legs went soft and he fell to the ground again. Even the table was overturned.

The people in the restaurant were pointing at him. The people in the restaurant were pointing at him.

"Look at that damn foreigner. Why is he drinking like that?"

"He might be crazy!"

"Look at that young man. He can't drink. Good guy, he drank more than ten bottles. It's like drinking water!"

At this moment, Yu Tian slowly got up and walked to Daniel. He said disdainfully, "How about it? Do you admit defeat? If you don't admit defeat, we'll continue!"

Daniel could no longer speak. When the lackeys saw this, if they continued, Daniel would probably become a lunatic.

One of the men hurriedly said, "We admit defeat. We admit defeat. Now, please let us leave!"

Yu Tian snorted coldly and said proudly, "Since you admit defeat, don't come and disgust me in the future. Now, take this bastard and get lost immediately!" A few lackeys hurriedly helped Daniel up and hurriedly left the restaurant to send him to the hospital.

Yu Tian was just about to pay the bill and leave when the phone suddenly rang.

After the call was connected, an old man's deep voice said, "You must be Yu Tian. I'm from the Port Alliance. My name is Zhou Yiwen."

"Now I demand that you immediately get the ocean liner to leave your port!"

Yu Tian didn't care about him at all. He snorted coldly and said, "The Port Alliance is nothing to me. It's impossible to get the ocean liner to leave, and you'd better not provoke me."

"Otherwise, I'll Make Your Port Alliance disappear too!"

After saying this, Yu Tian directly hung up the phone. It was a waste of time to talk nonsense with them.

At this moment, in the headquarters of the Haishi Port Union, Zhou Yiwen's old face suddenly turned gloomy.

He said to the people in front of him coldly, "Our Port Union was proposed by all the private ports of the eastern country. Our existence is to protect the interests of all the private ports,

"But now, the No. 5 port in the Deep South has stopped the super country's ocean-going freighter without any reason. and the boss called Yu Tian doesn't seem to want to cooperate with us!"

A middle-aged man sitting on the sofa raised his head with a smile and said indifferently, "Actually, our Port Alliance is just a private association to let all the private ports...

"Solve some problems when cooperating with international ports. After all, this is for our own benefit.

However, there was a prerequisite, and that was to join our Port Alliance. Only then would we have the right to manage them. This Yu Tian, I know him. He has a lot of cooperation with the Chu family,

all the ports near the sea are his. We once sent people over to invite him to join our Port Alliance, but they were rejected. Now, he has come to Deep South,

[a€?We still don't know why he wants to stop that freighter, but I believe one thing. He definitely won't just buy port number five, because he doesn't care about money at all. If possiblea€|a€?

[a€?He will buy all the ports in Deep South, so we can't use tough means to fight him. I plan to go to Deep South personally and talk to him calmly. If he doesn't give us facea€|a€?

[a€?We can make a move then. It's not too late to use other means!a€?

Zhou Yiwen felt that what he said was very reasonable. He nodded and said, [a€?Old Xie, I'll leave this to you. You should know that the existence of our Port Alliance is all funded by those ports,

[a€?If we have a conflict with foreign freight companies, it will definitely affect the interests of these ports. So you must convince Yu Tian to join us. Only then can we stabilize our interests!a€?

Xie Haiqing smiled confidently and said, a€?I know all this. Now it's up to Yu Tian to give me face!

At that moment, Yu Tian had already returned to the hotel. When he entered the door, he saw Chu Wei and Chu Meng coming over.

He just casually greeted them and was really not in the mood to talk to them now.

Chu Meng chuckled when she saw how deep Yu Tian was. Hubby, why are you so depressed? Aren't we here to help you?a€?

Yu Tian smiled bitterly. a€?I want to find Molton right now, but this guy is even more cunning than a fox. I Yve already been fooled by him a few times. I'm reallya€|

Yu Tian suddenly looked at Chu Wei. He immediately thought, weren't those testers controlled by software?

And he also had the equipment to control them. could he find Molton through this?

He told everyone his thoughts.

Chu Xuan clapped her hands, she also said excitedly, a€?If they are controlled by radio signals, then I can intercept their signals. As long as the frequency of the signals is the same, I will definitely be able to find the location of the signals!a€?

Yu Tian did not waste any time. He immediately called Chu Hui and asked her to send all the control equipment to deep south immediately.

Chu Hui hung up the phone and immediately arranged for a private plane.

In the evening, all the control equipment was already placed in the hotel room..

?Chapter 295 – Chapter 295. This Was A Good Idea

Thank you readers!

The equipment was quickly installed and Chu Xuan connected her own equipment. Now, she was just waiting for the testers to appear.

However, she couldn't just wait like this. Who knew when those testers would appear?

Yu Tian had an idea. Since he had Molton's phone number, he might as well provoke him.

This idea was supported by everyone. After all, no one would be in a good mood if they kept getting beaten up passively.

Now was the time to put on a show with Molton. This was a great opportunity.

Under everyone's expectant gazes, Yu Tian got through to Molton's phone.

At this moment, Molton, who was on a ship in a certain sea area, saw that it was Yu Tian's phone number. He immediately smiled disdainfully and picked up the phone.

“You must be Yu Tian. I don't know what my defeated opponent is trying to say by calling me? But I still think that you really have time to waste. Have you already tidied up your port? Do you want me to let them mess up again?”

Yu Tian laughed, he said indifferently, “Actually, that's nothing to me. You think that you have the most powerful weapon in the world, but your two test subjects have no chance of survival with me.

“I don't know if you saw the scene at that time. I haven't had enough yet, but those two test subjects died. Can you give me something more exciting?”

“Right now, I feel like all the bones in my body are uncomfortable. Why Don't you give me two more test subjects and let me play with them?”

Molton was not angry. Yu Tian was just using his eloquence. He knew who was uncomfortable.

He chuckled and said in a relaxed manner, "Don't worry. The game will only be interesting if you play it slowly. From now on, the Angel Army will only play with you if we give it our all."

"I also know that you want the elemental sample in my hands right now. I can tell you honestly that as long as you can find me, you can take the last elemental sample in this world."

But the premise is that you don't seem to be able to find me at all. Your experience in playing hide-and-seek seems to be insufficient. For a man who lives off a woman, you are already at the limit of what you can do, what else can I ask you to do?

Listen well, I don't want to waste my time on bickering with you now. You will soon suffer a new round of blows from me to you. I know that my tester is vulnerable in front of you.

"But how many Yu days are there in this world?" "The Chu family has 108 sisters. Do you think you can split 108 yu days?" "This seems unlikely. You

Don't have that much ability, in my eyes, you are just a slave who eats a woman's food while licking the toes of those 108 sisters!"

Yu Tian laughed out loud and said excitedly, "Do you want me to let 108 sisters stand in front of you and let you kill them one by one?"

Situ longyi was even more arrogant than you, but what happened in the end? He still died at my hands. Don't think that you are so amazing.

Because of my existence, you haven't launched a real attack until now. Can you give me some excitement? It seems that you have everything under control, but in fact, you are still like a mouse, being chased everywhere by me?

I don't want to talk to you anymore. I'm calling you to tell you to keep hiding, and I'm not going to put you in my eyes. The angels are not just you,

but they're going to take the hit because of you. When I hang up the phone, I'm going to start an anti-angel Corps Foundation all over the world, and I'm going to put \$100 billion into it,

anyone who can attack your Angel Corps, or provide me with information about your Angel Corps, will receive a large reward from this foundation.

Angel Corps? It's just a joke. In front of money, it's completely vulnerable. Now, there's no need to say it. I and a few Chu sisters are in a hotel in deep south, eating, drinking, playing, singing, and dancing,

[a€?Look at you now. If you have the guts, then let the test subjects continue to attack me. If you don't have the guts, then continue to cower in your shell like a bastard!

Hearing this, Molton's face became gloomier and gloomier.

The Chu family indeed had this strength. 100 billion was nothing to them, but to some people, it was everything.

There would always be people who would not even take their lives for money. On this point, the Angel Army was especially vulnerable.

Moreover, this Yu Tian was really too detestable. He actually wanted to use this method to attack the Angel Army.

Could he give him this opportunity?

Since that was the case, then he would play an exciting game with him.

Thinking of this..., molton sneered and said, a€?Alright, since you think you're so great, then I'll put on a show with you. Don't you want to establish a foundation? Then I a€?I'll let you use this money to rebuild the city in front of you, a€?Soon, I'll let a large number of test subjects enter the city. I'll see how many you can kill!a€?

Yu Tian just smiled indifferently and said, a€?Kill as many as you can. If you have the guts, then do it!a€?

After hanging up the phone, Yu Tian laughed and said excitedly, a€?This old fool fell for it. Xuanxuan, the rest is up to you,

a€?You have to let me be more excited. Don't be nothing all day long!a€? Chu Xuan frowned and said angrily, a€?You are nothing!

At this moment, Molton was gnashing his teeth. He clearly knew that he should not be provoked, but he could not calm down.

Since this was a planned plan, it was better to proceed ahead of time.

Thinking of this, he immediately ordered his men to inject elemental samples into 50 test subjects.

His men said in a low voice, a€?Mr. Molton, after the elemental samples are injected, it will take two hours for the test subjects to complete the mutation.

We are now 150 nautical miles away from Deep South city,

a€?If we want to launch an attack, should we approach Deep South City Now?a€?

Molton nodded and said with a cold snort, "Do you even need to say that? Now get those engineers ready. When the attack is launched, let them carry out the

"Yes, Mr. Molton. We will make the arrangements immediately!"

After his subordinates left, Molton took a deep puff of his cigar, he narrowed his eyes coldly and said, "Yu Tian, let's see what you can do this time. When the time comes, I will make you kneel at my feet and beg me to spare your dog life!"

After the element was injected into the body of the tester, Chu Xuan immediately found the control signal.

She shouted excitedly, "Look, I found it! They are here!"

Everyone quickly gathered around and looked at the map on the computer.

Yu Tian chuckled and immediately decided, "Looks like we are going out to sea to fish again!"

?Chapter 296 – Chapter 296, The Great Shark

Thank you readers!

Yu Tian did not want to waste any more time on Molton.

How good would it be to have the time to play and go clubbing? How good would it be to pick up girls?

The yacht sailed forward quickly. Yu Tian looked back and saw more than fifty yachts following behind. Each yacht had more than ten security guards with harpoons in their hands.

Yu Tian shook his head lightly.

"They are no match for the tester. They are only here to stop Morton from leaving!"

As the city gradually faded away, Yu Tian's expression became more and more calm.

At this moment, Chu Xuan's voice was transmitted into Yu Tian's ears through the radio.

"You are still ten nautical miles away from that freighter. The weather is very good. Remember to wear swimming trunks when you enter the water!"

Yu Tian didn't want to waste any more time. He turned around and nodded at Chu Qian.

Chu Qian immediately ordered all the security guards, "Speed up. When you see the freighter, you only need to stand by a hundred meters away from it. There's no need for you to attack!"

As soon as she finished speaking, all the yachts fanned out, leaving behind a trail of white waves as they headed in different directions.

At this moment, Yu Tian put down his binoculars, and the cargo ship appeared in front of him.

Even during the day, the large cargo ship that was floating alone on the sea still looked very strange.

The yachts quickly surrounded the cargo ship.

The mercenaries on the cargo ship did not panic at this moment. Instead, they felt especially excited at the provocation of these yachts.

In the bridge, Morton looked at those yachts and sneered. He said disdainfully, "Do you really think that I don't know that you are here?"

A man in a combat suit with a cold gaze and a vicious expression stood at the side. He gritted his teeth and said coldly, "Boss, these are just targets. I can easily destroy them!"

Morton shook his head with a cold smile and said confidently, "Yu Tian is also here. His strength is unfathomable. Even the test subjects are not his match. So I plan to let other things play with them first!"

After saying that, he turned to a man in a white coat wearing a gas mask behind him and said, "Have you prepared my gift?"

The man's evil smile floated out of the glass eyes of the mask and followed him quickly to a pool at the bottom of the cabin.

Looking at the shark in the pool, he turned to the technician and nodded.

The technician was more afraid of him than he was of the shark. He hurriedly picked up the syringe and threw a dart at the shark.

Then, the bottom of the cabin opened, and the shark was put into the dark water and disappeared in an instant.

A young technician said with fear, "Dr. Lothar, you can start to control it

Someone immediately put the computer controller in front of him.

Lothar didn't say anything because he didn't know how to speak. Whenever someone spoke to him, it was a deep humiliation.

He stared at the technician who was trembling with fear without blinking.

The technician's clothes were instantly drenched in cold sweat. He hurriedly pleaded, "Dr. Lothar, I, I..

Lothar immediately signaled for him to be quiet. He lived in a quiet world, and everyone around him had to be quiet. Did he want to talk? Then he should talk to the shark.

He directly kicked the man into the pool.

The man screamed and struggled. However, a bloody mouth suddenly appeared in the darkness and swallowed the man in one gulp.

A living person had turned into a pile of fresh blood that was dyed red.

Lothar was extremely excited when he saw the fresh blood. He immediately began to operate the computer as if he was convulsing.

At this moment, Yu Tian was preparing to approach the freighter. However, an extremely large black shadow swam directly under the freighter and the yacht without making a sound.

The yacht was pushed by the dark waves and swayed.

Yu Tian held onto Chu Qian and suddenly frowned. He stood at the bow of the ship and looked underwater. It was completely silent. There was nothing.

The cargo ship did not start. It was just floating on the surface of the sea.

There was no wind in the weather. It was impossible for such a huge wolf to exist.

At this moment, on the yacht not far away, someone suddenly shouted, "Look, what is that?"

Yu Tian followed the voice and looked over. At this moment, a shark that was twice the size of a whale suddenly jumped out of the water, blotting out the sky and covering the sun. It was as if a tall mountain had appeared out of thin air.

Looking at the size of the shark, Yu Tian and the others felt as small as ants.

More than ten yachts were smashed into pieces in an instant. When the shark fell into the water, it stirred up huge waves that soared into the sky.

The waves were like a tsunami, and even the cargo ship was almost overturned.

As for the small yachts, they were directly overturned. On the surface of the sea, there were pieces of the hull and struggling security guards.

When Yu Tian saw this, he narrowed his eyes, picked up the radio, and said indifferently, "Those yachts that can still move, save them immediately and leave this place!"

Just as he was about to speak to Chu Qian, the yachts began to rise rapidly.

Both of them knew that the shark was right below the yacht. It could sink the yacht in the next second.

Chu Qian looked at Yu Tian fiercely. In that instant, she turned all her strong feelings for Yu Tian into one sentence.

"Yu Tian, I love you!"

However, Yu Tian smiled bitterly and said, "We're both about to be swallowed. What the F * CK is there to Love?"

At this moment, the shark rushed out of the water and swallowed the yacht into its bloody mouth.

Yu Tian used his fastest speed to hug Chu Qian and jumped into the cabin.

The moment the shark bit down, Yu Tian grabbed an oxygen tank and kicked open the deck. Following the seawater that was poured into the shark's mouth, they fell into the shark's stomach like they were on a water slide.

After falling into the shark's stomach, without even taking a breath, the fragments of the yacht crashed down.

Yu Tian put up with the fishy stench around him with a distressed expression. He dragged the panicking Chu Qian along with the waist-deep garbage and hid to the side.

Chu Qian even shouted at this time, "Yu Tian, we were eaten by the shark! We were actually eaten by the shark!"

Yu Tian's head hurt from shouting. He said helplessly, "Yes, I know. We were eaten. Moreover, this beast even swallowed the yacht. It's not afraid of choking!"

"Then what should we do now?"

As soon as Chu Qian finished speaking, waves of screams sounded above her head. More than a dozen security guards fell into her stomach along with the seawater.

When they saw Yu Tian and Chu Qian, the security guards surrounded them and greeted each other.

When Yu Tian saw this scene, he suddenly wanted to laugh. Chu Qian asked inexplicably, "Why are you laughing?"

He said indifferently, "If we can't leave, we'll soon become the poop of this shark!"

"You're so disgusting!" Chu Qian gave him a hard slap.

At this moment, Molton, who was on the freighter, laughed excitedly..

?Chapter 297 – Chapter 297, He Had Experience

Thank you readers!

At this moment, Molton felt as if he had the whole world in his hands. He said heroically, "Yu Tian, Oh Yu Tian, you're just so-so!"

Everyone said that you were the guardian of the Chu family, but you were swallowed by a shark. I have to thank you for fulfilling my plan!"

In the luxurious presidential suite of the Deep South Hotel.

The moment Chu Xuan and the others saw Yu Tian being swallowed by a shark through the satellite, they were so shocked that their scalps went numb.

Was Yu Tian dead just like that?

Just as everyone was shocked, they heard a crisp cracking sound.

They turned around and saw that Chu Meng was eating potato chips. Chu Xuan saw that she didn't even have a nervous expression on her face.

Although she didn't like Yu Tian very much, she was still sad to see Yu Tian being swallowed by a shark, but Chu Meng was still in the mood to eat?

She then scolded him with a cold face, "Chu Meng, can you be more careful? Yu Tian was swallowed, yet you still have the mood to eat potato chips. Aren't you sad at all? Aren't you afraid at all?"

Chu Meng laughed loudly, "What's there to be afraid of? If anything, it should be Molton who's afraid. Only a fool like him would think that Yu Tian would be killed by a big shark!"

Everyone didn't understand what Chu Meng was trying to say?

Looking at their wonderful expressions, Chu Meng laughed, "Think about it, that shark is so big that even a yacht isn't big enough to fit between its teeth.

It just swallowed Yu Tian, not crushed him. Moreover, the shark's stomach would expand along with its body, giving Yu Tian enough space to move around,

"Just you wait and see. Yu Tian will soon kill this shark and reappear in front of us!"

At the same time, Molton, who was on the freighter, also praised Lothar. "Doctor, the credit for killing Yu Tian is all yours. The Secret Laboratory you requested will be built very soon, when that time comes, you can have everything you want. You Deserve It!"

Lothar bowed slightly. Although he could not speak, he could not hide the joy in his heart.

No one knew that this element also had a strong ability to repair cells.

After the laboratory was built, he could conduct detailed research and become a normal person.

At that time, even Morton would have to listen to him. This was why he had to work for the Useless Morton.

At this time, Morton pointed in the direction of the deep south and shouted excitedly, "Let's capture that city like pirates!"

The mercenary commander immediately ordered the captain to set the anchor and start the ship.

The hundreds of mercenaries who were waiting in the cabin immediately began to put on their equipment and prepare their weapons.

They were even more excited as they discussed, "Haha, guys, looks like we're going to be rich this time. Boss told us that after we capture the Ye Xuan Technology Building, each of us will get ten million dollars!"

“Once I have 10 million dollars, I will definitely not be a damn mercenary anymore. I want to go to the beach in southern Gary and dance on the beach with hundreds of beautiful women!

I will send my daughter to the best aristocratic school. Every day, I will call over a dozen bodyguards to protect her safety. She can also enjoy eating

Grete's Pizza!

The freighter carried their dreams and began to slowly start.

Lothar took the computer and controlled the shark, letting it follow behind the freighter.

But at this moment, Lothar suddenly realized that something was wrong with the shark.

Its heart was racing, and there was an obvious wound on its stomach.

At this moment, Lothar came to a sudden realization.

Yu Tian was trying to pierce through the shark's body, and the probability of success was 100% .

If Yu Tian broke through, would this freighter still exist?

Thinking of this, Lothar remained calm. While Molton was pretending to be someone else, he quietly returned to his cabin.

He put an elemental sample, cash, weapons, and other information into his backpack. Then, he went to the deck and walked to the helicopter.

The mercenary standing under the helicopter asked in confusion, “Dr. Lothar, where are you going?”

Before he could finish his sentence, Lothar had shot a bullet through the mercenary's forehead.

The helicopter slowly rose into the air. Morton turned his head and saw Lothar's strange mask.

“Where does this bastard want to go?”

Before he could finish his sentence, the ship suddenly shook violently. All the instruments were shaking, and they were damaged. Smoke began to rise from them, and they were on fire.

Before Molton could stabilize his body, the shark's tail hit the deck of the ship.

In an instant, the ship stood up and everything in the cabin slid to the side.

When the ship's tail hit the water again, Molton's head was already bleeding from the impact.

Looking through the window, the shark had already jumped out of the water. On its bleeding back, there was a person standing. It was Yu Tian.

At this moment, the extremely shocked Molton shouted, "Oh my God!"

At this moment, Yu Tian jumped a few times and stood firmly on the shark's neck. The Red Thorn in his hand pierced directly into the shark.

Molton's eyes widened. He saw the shark's violent body ramming into the ship.

Following that, there was an earth-shaking tremor. The side of the ship was completely smashed apart.

The seawater instantly surged into the cabin, and the ship's safety system was activated. All the cabin doors were automatically locked.

The seawater entered every cabin through the air vents. The mercenaries were like crazy as they rammed into the doors, but the cabin doors did not budge at all.

Yu Tian, who was on the shark's body, slashed the red thorn horizontally, directly cutting open half of the shark's neck.

The shark shook its body desperately, but it also broke the remaining half of its neck. The shark's head quickly sank into the water with an extremely ferocious expression.

Air entered the shark's body, but it was allowed to float on the surface of the

At this moment, Chu Qian climbed out with the help of the security guards, gasping for breath.

At this moment, Yu Tian had already jumped onto the sinking ship.

He was very familiar with such a scene.

It was like this the last time he was with the Dolphins, but this time, Morton would not be able to leave alive.

When he kicked open the bridge's door, the mercenary commander still wanted to attack Yu Tian.

Just as he raised his weapon, he was nailed to the wall by Yu Tian's Red Thorn.

Morton, who had collapsed on the ground, was no longer arrogant, excited, and excited. Instead, he looked at Yu Tian as if he had seen a ghost and asked in fear, "Are you even human?"

Yu Tian snorted and said proudly, "You'll know if I'm human after I splash Daddy on your face. Don't waste your breath on me. are the elemental samples all on this ship?"

Moreton smiled helplessly and said coldly, "You won't get anything!"

Yu Tian said disdainfully, "Then I'll find it myself!"

t

"With that, Yu Tian directly punched Molton's face..

Thank you readers!

How could molton withstand Yu Tian's punch? His soul was shattered.

At this time, the bridge was already flooded. Chu Qian, who was standing on the back of the shark, shouted loudly, "Yu Tian, the ship is sinking, come down quickly!"

Yu Tian didn't hesitate and jumped onto the back of the shark.

At this time, a roar came from above and several helicopters came to rescue.

Chu Meng, who was on one of the helicopters, waved at Yu Tian.

Yu Tian climbed up the ladder and immediately said, "Remember the coordinates here and get someone to do the work immediately. You must get all the elemental samples back!"

The helicopter flew quickly towards Deep South under the setting sun.

Chu Meng smiled at Yu Tian and said tenderly, "You won again this time, but you have to watch something!"

As she spoke, Chu Meng turned on the computer.

Yu Tian took a closer look. Before the shark crashed into the ship, a man wearing a gas mask had left the ship in a helicopter.

Chu Meng continued, "This man is called Lothar. Others call him Dr. Lothar. Fifteen years ago, he led the research and development of electromagnetic fission technology. Due to technical reasons, an explosion occurred during the experiment,

"Fifteen hundred scientific and technical personnel died in the explosion. Lothar survived on his own but disappeared. I can say with certainty that Lothar appeared this time because of the elements!

Yu Tian frowned slightly when he heard this.

That meant that he still had an elemental sample in his hands.

Compared to Molton, who was only after money, Lothar looked even more terrifying.

Chu Meng sighed and said helplessly, "When the helicopter entered the suburbs, Lothar disappeared and Chu Xuan couldn't find him either!

Yu Tian smiled indifferently and said disdainfully, "There's no need to look for him on purpose. This guy only took the elemental sample for his own benefit. He also knows that I will definitely stop him!"

"Let's just wait for him to show up on his own initiative. Now I just want to have a good sleep. I'm too f * cking tired!"

As they spoke, the helicopter landed on the roof of the hotel. Chu Xuan and the others came to pick them up in person.

After seeing how Yu Tian killed the shark and sank the ship, Chu Xuan's feelings for Yu Tian became even closer.

He was indeed a super man.

When Yu Tian entered the room, Xie Haiqing from the Port Alliance came to visit.

At first, he didn't want to see him, but Yu Tian felt that it was better to express some things clearly to them.

Thus, he called Chu Meng to invite Xie Haiqing into the house. After they sat down, Xie Haiqing introduced himself first and said very politely, "Boss Yu, actually, the Port Alliance is for the benefit of every port boss,

at the same time, it exists so that every port can operate fairly. Although we had a little misunderstanding before, this definitely won't affect our hope and enthusiasm to invite boss Yu to join the Port Alliance!"

Yu Tian listened to his nagging and was about to fall asleep. Finally, it was his turn to speak, so he asked indifferently, "What are the benefits of joining you?"

And what can I do?"

Seeing that Yu Tian did not explicitly refuse, Xie Haiqing said happily in his heart, "There are many benefits. For example, we can prioritize your port when the other ports reach the peak of their throughput,

moreover, we will give priority to introducing your port to the International Port Alliance!

At this point, Xie Haiqing paused and said, "As for what you need to do, it is very simple. Every year, you need to pay the management fee of 1.5 million for the Port Alliance,

then, you need to follow the rules of the Port Alliance and choose the throughput of the goods. That is to say, you can only accept ships that are within the limits that we allow. You can not accept the cargo ships that we arrange to go to other ports!

Hearing this, Yu Tian snorted coldly and said disdainfully, "I might as well give the port to you. Do you think that I can agree to what you have said?"

Are you stupid or am I stupid? "The port is mine. I can do whatever I want. I'm willing to set fire to it. I like it. Why is your Port Alliance acting like a stinky beggar?"

"I'm going to sleep now. We can meet again. Since I don't like you, I won't make any arrangements. Scram!"

Xie Haiqing was stunned at first. His face was obviously a little red, but he quickly regained his composure. He chuckled coldly and said, "Mr. Yu, Our Port

Alliance doesn't only work with most of the ports in the country,

we especially work with international port alliances and world-renowned large-scale freight companies. If you insist on doing this, then I can only give priority to our member ports,

When the time comes, there will be no freighters coming to your port, and that would be a huge loss. I'm saying this for your own good. I won't leave Shennan now. After you've considered it, you can call me at any time,

"Personally, I very much look forward to working with you, but the premise is that you must learn to listen to others' advice. I think Mr. Yu should understand what I mean. I won't say anything else. See you later!"

After saying this arrogantly, Xie Hai stood up slowly and left the room with Yu Tian's indifferent expression.

Yu Tian just spread his hands and said helplessly,

u

I just want to sleep. This guy purposely came here to show off to me. This port alliance sounds nice, but in reality, it's no different from robbing money.

A Bullsh * t association like him who uses the resources in his hands to blackmail other ports to make money for himself shouldn't exist!

Chu Meng was playing with the phone as she said nonchalantly, 'Someone's playing dumb with you, yet you're still so calm. Do you have any ideas?'

Yu Tian did have his own ideas. He didn't care about whether the port had business or not.

What he cared about was the Port Alliance. How could he get them to stop playing dumb with him?

That Xie Haiqing was just a lackey. Beating him up and scolding him would be of no use. The Port Alliance was the most important thing.

Thinking of this, Yu Tian said to Chu Meng indifferently, 'Help me collect information on this Port Alliance. I want to see how capable they are to even threaten me!'

In the blink of an eye, it was noon the next day. Yu Tian planned to spend a few days in deep south before returning to Linhai. After all, this bustling city was much bigger than Linhai.

He didn't have time to travel normally, so he could only take this opportunity to relax.

However, Chu Meng handed the information on the Port Alliance to Yu Tian.

Yu Tian opened the information in the coffee shop in the ocean pavilion rest area and read it briefly.

The President of the Port Alliance was Zhou Yiwen. He was sixty-five years old this year. In his early years, he worked as a senior consultant in some foreign freight companies.

After he returned to China a few years ago, he founded the Port Alliance Association. So far, there were more than twenty ports in the country that had joined the association. It was said that these twenty ports were particularly profitable..

Chapter 299 – Chapter 299, Make Them Disappear

Thank you readers!

After Yu Tian read through the information, he stuffed them into the trash can and said disdainfully, "I thought they were powerful, but they're just using the resources in their hands to make money for themselves!"

"They want to control my port, and I want to control their port too. Send this information to Chu Hui and ask him to buy all the member ports in the Port Alliance for me!"

Chu Meng didn't agree with Yu Tian's decision. She slowly voiced out her thoughts.

"Actually, there's no need to do that. We don't accept other cargo ships at the port near the sea. We only accept our own cargo ships. The Port Alliance doesn't care about us at all,

"And the cargo ships we go to other cities also have ports that cooperate with us. We don't need to care about this port alliance at all. Why waste that money?"

However, Yu Tian smiled indifferently and said, "Why don't I just say that you have long hair and short knowledge? Do you think that if the people from the Port Alliance don't earn this money, they will easily let go?

"I just don't want to see them putting on a show with me. I don't have the time to deal with them all day long. Spending some money to make them disappear is the easiest thing to do!"

While they were talking, Chu Qing called him.

He hadn't heard Chu Qing's voice for a long time. He really cared about this fiancée of his.

The call went through, but Chu Qing's tone was very urgent as she said, "Do you still remember the medicine specialist called Wu Minzhen that Sister Hui introduced to you? She was stabbed and is being treated in the hospital!

Yu Tian frowned slightly and asked coldly, "Can she die?"

Chu Qing didn't know how to answer either, so she could only say helplessly,

"I don't know yet. She's being treated, but she seems to be seriously injured.

She keeps saying that she wants to see you!"

“She has information on the research and development of elements. I think it's better for you to come back and see her!”

“Okay, I'll go back now!”

After hanging up the phone, Yu Tian immediately ordered Chu Meng, “Prepare a private plane, we're going back to Linhai!”

Chu Meng nodded and immediately got up to make arrangements.

Two hours later, the private plane slowly landed at Linhai International Airport.

Yu Tian's Phantom Phantom had already been placed at the entrance of the airport.

Half an hour later, Yu Tian arrived at the hospital.

Chu Qing had been waiting for him at the hospital. After meeting him, she immediately said, “Wu Minzhen can be considered to have been resuscitated. However, she is still unconscious. My people have already gathered the information. It was done by someone called Han Wen!”

As long as he was resuscitated, it would be fine. Yu Tian did not feel so anxious anymore. He asked indifferently, “Han Wen? I know this person. He is one of Wu Minzhen's pursuers. Do you know where this guy is now?”

Chu Qing shook her head helplessly and sighed. “I don't know where that bastard is hiding now. I have already sent people to look for him, but there is still no news!”

Just as the two of them were talking, Chu Qing received a phone call. After a few simple words, she hung up the phone.

Then, she said very solemnly, “That damn bastard actually got Wu Minzhen's research and development information and wants to sell it to a pharmaceutical factory owner that I know..

“Fortunately, this pharmaceutical factory doesn't have so much money now.

They want to cooperate with me to develop this elemental medicine!”

Hearing this, Yu Tian laughed and said, “Isn't that great? We can find that Bastard. You tell that pharmaceutical factory owner that we can cooperate. Let's Go and buy that information together!”

However, Chu Qing said helplessly, “The owner has already bought the information. He just doesn't have the funds to develop it. If we want it, we have to buy that information back.

“But will the owner of the pharmaceutical factory sell it to us?” “We don't know yet because he has already registered his own patent. That damn bastard.”

“If I see him, I will kill him myself!”

Feeling that it was getting more and more complicated, Yu Tian touched his chin and said with a faint smile, “This is nothing. I don't care whether the patent is patented or not. Take Me to meet the owner of the Pharmaceutical Factory First!”

At noon, Yu Tian met the owner of that pharmaceutical factory in a western restaurant.

The owner looked to be in his fifties. His body was bloated and his head was as big as a bucket. His face was full of evil, giving people the feeling that he was a nouveau riche from the countryside.

No wonder he knew that * Stard, Han Wen. After taking a closer look, he and that B * Stard were the same kind of people.

After taking a seat, Chu Qing introduced Yu Tian first.

“Hubby, this is the boss of the world pharmaceutical industry, Qian Jin man, Boss Qian!”

Qian Jin had a fake smile on his face as he said hypocritically, “I've long heard of Mr. Yuk great name. I never thought that I would be able to sit here and have a meal with Mr. Yu. It's a great honor!”

Yu Tian was not in the mood to talk nonsense with him. He said straightforwardly, “You know that guy called Han Wen?”

“Yes, we met at the Casino!” Qian Jin man did not think too much about it. He smiled and said, “I'm usually willing to play with a little money. I often go to the casino to play a few rounds.”

That day, My Luck was good. I won a lot of money. Han Wen followed me around. After a few rounds, we became familiar with each other. Later, he told me that..,

his girlfriend was developing a particularly good drug and asked me if I was interested in buying it. You all know that I run a pharmaceutical factory, so of course I would make money.

This morning, he gave me the information on the drug. I spent a total of seven million yuan to buy this information. However, my pharmaceutical factory is relatively small, so I don't have the ability to produce and sell it now.

“Everyone in Linhai knows the strength of the Chu family. I want to use this information to cooperate with the Chu family and develop this drug together. However, from what I heard from Mr. Yu, it seems that you also know that Han Yu Tian just smiled indifferently and said disdainfully, “Do you think I know such a person? He's just a thief who took my company's information and stabbed my R & D staff at the same time,

“I'm thinking of how to kill him now. If he dares to take my things, it's equivalent to taking their own lives!”

As soon as he finished speaking, Qian Jin Manke frowned.

Yu Tian's words were meant for him to hear. He had no idea how Han Wen had obtained the information. Now it was obvious that Yu Tian did not recognize it and wanted to take the information back.

However, he had spent a total of seven million. Wasn't his money money?

In any case, Han Wen had already sold the information to him and he had already registered the patent. He could not take it back even if he wanted to.

When he thought of this, Qian Jin man sneered..

?Chapter 300 – Chapter 300, I Have Charm

Thank you readers!

Qian Jin said fearlessly, “Now that I've applied for a patent, I don't have to cooperate with Miss Chu. This drug is the best and most marketable drug I've seen so far,

“You may not know this, but this drug has a strong ability to repair cells and regenerate cells. I can easily make a lot of money by cooperating with any powerful company.

“So, if the two of you really don't have the sincerity to work with me, then we don't have to waste each other's time here!”

After saying that, Qian Jin man laughed coldly and proudly.

Chu Qing's expression became more and more gloomy. Qian Jin Man dared to act pretentious with her. He was simply courting death.

She narrowed her eyes slightly. Just as she wanted to teach this guy a lesson, she was stopped by Yu Tian.

There was no need to talk nonsense with him now. After all, the medical information was in his hands and he had even applied for a patent. It was useless to say anything now.

He first tasted the red wine elegantly and then said with an indifferent smile, "I understand what you mean. Why Don't you give us some time to consider it first? At the very least, we have to make a comprehensive assessment!"

Qian Jinman patted the table lightly and said with satisfaction, "Mr. Yu, you are indeed a reasonable person. I like people like you. Of course, I will give you some time to think about it."

"But it can't be too long. If others know that I have such good medicine, I'm afraid that when the time comes, it won't be your turn to cooperate with me!"

No matter what, he still had to eat. Moreover, Yu Tian had learned an important piece of information from Qian Jinman.

It turned out that the casino that he often went to was actually the casino that he had handed over to Brother Long to manage.

After Qian Jinman patted his belly and left triumphantly, Chu Qing turned around and complained, "Why didn't you let me scold him to death? It's too infuriating. He used our things to threaten us. I've never suffered this kind of anger before!"

Yu Tian wiped his mouth and frowned. "Why are you angry with a dog? Let him gloat first and daydream for a few days. When I find Han Wen, you'll have a chance to enjoy yourself!"

Then, Yu Tian gave brother long a call.

Brother long laughed and said, "The Han Wen you're talking about is quite thin. He wears glasses and has a split head. He looks like a traitor."

Yu Tian added, "That's right. and his eyes are stupid. His expression looks like he's been ruined by many women!"

"This bastard is playing with me right now!" Brother Long looked through the window at Han Wen, who was grimacing in pleasure. He then asked, "I'll hold him here first. You can come now!"

After hanging up, Yu Tian first arranged for Chu Qing to return to the company while he headed to the casino.

On the casino side, Han Wen bought a million worth of chips after losing a few rounds. He casually took out 200,000 and threw it on the gambling table.

The dealer who dealt cards behind the gambling table laughed and joked, "I say, you're rich. Why are you spending so much today? Could it be that you got it from brother long again?"

Han Wen arrogantly flicked his hair and said arrogantly, "Do I still need to get money from him? Who the hell are you looking down on? The impression I give you, can't it be that I'm a rich

"Let me tell you the truth, my girlfriend knows that I like to gamble. Today, she specially gave me seven million to play with and didn't let me win. She was only happy when I lost all my money. She said that only this way can I feel that I have a status!"

Hearing his pretense, he couldn't even put on his pants even if he died. The dealer curled his lips and said contemptuously, "How can someone like you find such a rich woman?"

Han Wen snorted coldly and glared at him. He said unhappily, "What do you know? Do you know that this daddy here is called charming? My girlfriend likes people like me. Do you know who my girlfriend is?"

"She is the most famous Yu Tian here. She was specially hired as an expert. Do you think that she is lacking in money?" "Moreover, Yu Tian likes my girlfriend very much, but my girlfriend is disgusted by him and follows me wholeheartedly. Don't you think that's infuriating?"

The dealer blinked his eyes. Han Wen's words were getting more and more out of hand. He really couldn't listen anymore, so he helplessly reminded him, "Yu Tian is the boss of this casino. Your girlfriend is so powerful. Do you still need to spend money to come here to play?"

Yu Tian heard before Han Wen finished his sentence, he was suddenly shocked and his hands trembled. He asked with a heavy tone, "You said that Yu Tian is the boss of this casino."

"Yes, everything here belongs to boss Yu. It's just that boss Yu has a lot of business and people don't want to manage it, so he left it to Brother Long to manage. You sigh, where are you going? Aren't you going to play anymore?"

"Don't you want your chips?"

Han Wen was so terrified that he didn't have the courage to continue listening. He didn't even want the chips on the table anymore and turned around to leave.

Before he reached the door, he was knocked to the ground by Brother Long's fierce punch.

The people in the casino shut their mouths in surprise. Only the dealer sneered and said, "Are you trying to act Big?"

Brother Long didn't want to affect the business of the casino because of this guy, so he called his men to drag Han Wen, who was scared out of his wits, into the office first and then beat him up again.

Until he beat this guy until his nose and mouth were bleeding and he cried for mercy.

Brother Long looked at him fiercely and said gloomily, "Do you know who you've Provoked? I'll tell you the truth today. If you can walk out of here alive, I'll take your surname!"

Han Wen was so scared that he directly peed his pants and cried, "Brother Long, please let me go. I can give you money. I'll give you five million yuan to buy my life!"

"F * Ck you!" Brother long raised his hand to slap him. Just as he was about to continue beating him, Yu Tian pushed the door open and entered.

The moment he saw Yu Tian, Han Wen was so frightened that he immediately lowered his head. He was afraid to see Yu Tian's murderous gaze.

Yu Tian came to his side and saw how this fellow was being beaten up by others. He felt that it was especially funny.

Yu Tian did not want to talk more nonsense with him. Yu Tian said flatly, "Use your phone to call Qian Jin man. Tell him to come to the casino now!"

How could Han Wen Dare to say no? He quickly took out his phone and called Qian Jin man with a trembling voice.

At this moment, Qian Jin man was in his office flirting with his female secretary.

Seeing that it was Han Wen's phone, he picked it up without hesitation and scolded, "Han Wen, you did well. You actually sold the stolen goods to me.

Moreover, you hurt Yu Tian's people. I think you don't want to live anymore!

Han Wen looked at Yu Tian in horror and tried his best to control his tone as he said, "I'm not afraid. What are you afraid of? I'm waiting for you at the casino. Come over and let's play a few rounds. Don't tell me you don't want to win back the money you used to buy the prescription?"

Qian Jin was a little hesitant. What if Han Wen played him?

But after thinking about it, since the prescription was in his hands, no one could do anything to him! So he agreed, "Okay, I'll go over now!"
