

I Have 108 Older Sisters #Chapter 351 – 400

Read I Have 108 Older Sisters Chapter 351

?Chapter 351 – Chapter 351, Superpower Attack

Thank you readers!

However, Yu Tian smiled calmly and said, "Who I am has nothing to do with you at this moment!"

As he spoke, Yu Tian transferred 500,000 yuan to Michelle. Under her surprised gaze, he said, "Leave this place and live in seclusion,

"Also, remember, as long as you can see people wearing black suits and sunglasses, stay away from them. After you've settled down, if there's a chance, I'll call someone to help you. Also, don't Call Yourself Michelle anymore. Change your name to Catherine!"

Michelle couldn't even accept this. She said in horror, "Why do you want me to do this? I don't even know your name!"

Yu Tian didn't want to waste time explaining. He got up and said, "Do as I say. My name is developer!"

After saying that, Yu Tian left the restaurant without looking back.

Michelle held her forehead. She still didn't understand what all this had to do with her?

Yu Tian strolled through the bright neon lights. At this time, his phone rang, and the phone specifically reminded him of the word 'encrypted'.

After the call was connected, he smiled disdainfully and said, "You're even more timid than a needle. Is there a need to use encrypted methods to make a call?"

On the other side of the phone was Chu Wen, the special CEO of the Chu family in the Super Nation Metropolis.

At this time, she was sitting in the luxurious office, gently opening her cherry lips. With a lazy and noble voice, she said gently, "This is super nation. Everyone wants to know who I'm calling"

"I've already found the information you asked for. PBG's department is very mysterious. They don't have a fixed office location. The person in the photo you sent me is called Joseph. He's a cold-blooded killer of PBG"

“Fortunately, we know that he's in a manor in the wealthy district of Mai City. This should be his office!”

Yu Tian smiled in satisfaction and said, “Why didn't you send me a video? Do you feel unsafe or do you feel ugly? Are you afraid that I, your future husband, will see it?”

Chu Wen's beautiful eyebrows flicked, and her cold and elegant face was smeared with a layer of blush.

She chuckled and said arrogantly, “The 108 Sisters of the Chu family are all yours, including me. If you want to see me, come to the metropolis. I swear that you will definitely be shocked!”

“But now, you should hurry up and deal with those inconceivable fellows. I did all this behind the family's Back!”

This woman really knew how to talk

Yu Tian laughed out loud and said disdainfully, “Everything in the Chu family is up to me. Once I'm done here, I'll definitely go to the metropolis. I want to see just how shocked you can make me!”

Chu Wen smiled sweetly and said, “Alright, this is our agreement. If you don't come, I'll say in the group chat that you're in Super Nation and watch people stripping all day long!”

This move was really F * cking vicious.

After hanging up the phone, Yu Tian had already arrived near the manor.

He first took a look from afar.

Yu Tian realized that the manor was actually not very big. There was a swimming pool in the courtyard, a garden, and the villa was just a higher point. That was all.

Thinking about it, this was very normal. PBG was a mysterious department. The more hidden it was, the safer it was.

Nick must be here. He had to save him while Nick was still alive.

But the prerequisite was that he could not reveal his identity. He had to put on some makeup first.

Yu Tian turned to look at another villa, a faint smile hanging on the corner of his mouth.

Soon, Yu Tian took a set of clothes, a towel, a hat, and sunglasses from the villa whose owner had not returned.

Looking at the masked man in the mirror, Yu Tian nodded in satisfaction.

He then came to the front of the villa and focused his mind. When he felt the molecular structure of the villa, Yu Tian clenched his fist.

The villa suddenly began to shrink.

The people in the room were dumbfounded. Mike, who was taking a shower, found that the bathroom was shrinking. This guy jumped out of the window naked.

In the secret room, Joseph, who was about to attack Nick, reacted quickly. He grabbed Nick's clothes and jumped out of the villa.

Those who reacted slowly and those who were sleeping did not have time to jump out of the room. They were like pieces of meat in a blender, squeezed into blood by the shrinking villa.

It was not until the villa had shrunk to the size of a grain of rice that the frightened people found the masked man outside the yard.

Joseph immediately shouted, "Where is he? Kill this developer!"

The crowd took out their jammers and rushed towards Yu Tian desperately.

However, Yu Tian did not leave. Instead, he rushed towards the crowd.

More than a dozen jammers fired interference waves at Yu Tian at the same time. However, in the next second, the crowd was dumbfounded.

Their brainwave jammers had no effect on this masked man.

Two of them thought that there was something wrong with the jammers. Before they could reactivate them, Yu Tian had already arrived in front of them. With a casual punch, the two of them flew a few meters away at the same time.

Mike and Joseph's faces turned purple. Not only could this developer shrink objects, but he was also immune to the interference of brainwaves. The most terrifying thing was that he had such powerful strength.

Joseph said in extreme shock, "This is impossible. No developer can have three skills!"

At this time, Yu Tian had already arrived in front of Nick with ease. As if he was carrying vegetables, he carried Nick in his hand and turned around to leave.

Joseph, who was on the verge of tears, took out his weapon. Just as he was about to fire at Yu Tian, the weapon immediately shrank and trapped this guy's finger in the trigger. The pain was heart-wrenching. How was he supposed to fire?

He could only watch as Yu Tian disappeared into the night with Nick, unable to retaliate.

Mike, who was still naked, said with a cold expression, "Who is this developer? Why don't we have any information?"

Joseph said in horror, "This person has completely ignored PBG. Mike, we have to go back to the headquarters immediately. The appearance of this person is not something we can face!"

Mike nodded and said in a low voice, "Prepare the helicopter. We are going to the Metropolis Now!"

At this moment, in a park, Yu Tian untied the rope on Nick's body and took off the towel and sunglasses on his face.

"It's you?" Nick was even more shocked. So he was also a developer, and such a powerful developer.

Yu Tian threw away the towel and sunglasses and said indifferently, "So, I'm not your enemy. Tonight, the people of PBG went there. It was definitely a

coincidence, and I saved you. I just want to know where Monica is."

Speaking of Monica, Nick was still on guard. He asked in a low voice, "I know you were invited by Chu Hui, but why did you look for Monica?" This guy really had a lot of questions.

Yu Tian could only patiently explain to him.

But Nick helplessly shook his head and said, "I don't know where Monica is, but I know who can help us!"

?Chapter 352 – Chapter 352, Strange Skills

Thank you readers!

Nick brought Yu Tian to a very hidden parkour club.

The people here did not show any courtesy to Yu Tian's arrival. They even thought that Yu Tian should not be here at all.

Yu Tian also saw a great hatred in the eyes of those people, as if he had killed their parents.

Nick explained to Yu Tian in a low voice, "This is a private club. Not everyone can enter. The reason why they hate you so much is because they haven't seen how powerful you are!"

Needless to say, Yu Tian understood what Nick meant.

To put it simply, it was to show off.

However, Yu Tian did not find any ability to show off on them, except for the unusual clothes they were wearing.

At this time, a man wearing a nose ring, earrings, lip ring, and even a metal ring around his neck came up to the two of them, he sneered unhappily and said, "Nick, don't you know that this is a private place and strangers are not allowed to come here?"

"How dare you bring an Oriental Guy Here? Since when is it up to you?"

Nick tried his best to be polite and said, "We are here to see Dori. If you want to fight, today is not the time!"

"Any time is the time!" The man with the piercer looked at the indifferent Yu Tian with contempt and said disdainfully, "Here, there is no room for outsiders to speak."

"Don't think that I don't know why you are here? Don't you want to get a share of the benefits from Dori? But Dori won't give any benefits to anyone now because we are here..,"

"You, especially an Easterner like you, should find a way elsewhere. Dori has enough subordinates, and they are all trash like Nick!"

Yu Tian just looked at them indifferently. When he found that he was standing on the same high ground, these people were even less than ants.

Although he still didn't know why Nick brought him here, it was clear that the person called Dori must be a key figure.

He shook his head disdainfully, like a glass of clear water, and said indifferently, "I just want to see Dori. I don't want to waste time with you!"

As soon as Yu Tian spoke, his aura was completely different. Nick looked at his back, like a robot who had received the order to retreat, and took a few steps back.

The man with the piercer put away his explosive smile and opened his arms, as if he wanted to embrace death, he said disdainfully, "What else can we do? We have twenty people here, and each of them can make you kneel in front of us like a dog at any time,

"If you

Before he could finish his words, Yu Tian strode forward and elbowed the man's face.

After a few fierce hits like a missile, the man's head was like a tree branch that was swept up by a strong wind.

It was impossible for him to even lie down. Yu Tian then pulled off the nose ring on the man's head one by one.

As the flesh and blood rolled, the man's screams tore the hearts of everyone behind him and shocked them.

Yu Tian still said indifferently, "If Dori doesn't come out to see me, I'll put these rings on each of your faces!"

The Man with the rings was so scared that he was out of his mind.

Nick, who was behind him, said helplessly, "I told you not to provoke him. It's a waste of those rings. How about giving them to me?"

At this moment, a black shadow suddenly jumped in front of Yu Tian from a high altitude. It was so fast that it was like a phantom.

Yu Tian felt a flash in front of his eyes. The bald man who landed in front of him turned around and used a head-sweeping kick.

Although this speed was fast enough, it was still a little slow in Yu Tian's eyes.

Seeing the man's flaw, Yu Tian also lifted his leg and kicked.

However, what surprised Yu Tian was that he seemed to have hit a wisp of smoke and directly passed through his body.

"Damn, what is this setting?"

In the moment of surprise, the head-sweeping leg had already arrived in front of him. Yu Tian easily dodged back and launched another attack, but he still could not hit this guy's body.

Seeing this, Nick hurriedly went up to stop him, "Dori, don't do it, he is not our enemy!"

Dori felt that it was impossible for him to easily hit Yu Tian. At most, the two of them would be considered a draw.

Therefore, he took a step back and frowned. His eyes were filled with anger as he said in a low voice, "He injured my people. How do you say that?"

Yu Tian snorted and said disdainfully, "There's nothing to say. If you treat me as an enemy, then let's talk about enemies. If you treat me as one of us, then let's sit down, have a drink, and say what we should say."

These words made Dori hesitate for a moment. Before he could say anything, a dark-skinned, fashionable girl wearing knee pads and a ball cap jumped over the railing and said nervously, "C'PBG's people are outside!"

The girl's words were like stones falling into the water, stirring up a wave of fear.

Before everyone could react, dozens of men in black broke into the door and surrounded everyone.

The man with the piercer, whose face was covered in blood, immediately raised his hand and knelt on the ground like a mouse seeing a cat. He shouted, "I'm one of your people. Don't kill me, don't kill me!"

Dori cursed angrily, "This bastard, I really want to kill him!"

At this time, a middle-aged man with a scar on his eyebrows and biting his lips said coldly and arrogantly, "This is the PBG Gleason team. The gathering is over."

"Don't resist us, or you will know how powerful the Brainwave Jammer is. Now listen to my order. Men in a row, women in a row, sissies in a row!"

Yu Tian looked back at Nick and asked helplessly, "Is this also the base of your developers?"

Nick spread his hands and said, "You are right, but this place is not entirely a developer. There are many people who work for Dori, such as the man with the Piercer!"

At this time, Gleason came in front of Dori and said with disdain, "Last time, you were like a dog in front of me, biting your tail and disappearing without a trace. This time, you're biting your own crotch!"

"Don't even think about disappearing under my eyes!"

Dori looked at Gleason unwillingly and mocked, "You should still remember who left the scar on your face. This time, let's be civilized and let the others leave. I'll go with you!"

Gleason casually took out his brainwave jammer and sneered, "I'm the boss here now. It's not up to you to decide. Who here will leave? That would have to make me think that this is the choice I should make!"

"But today, I'm in a bad mood. A small team of PBG was killed by someone. There's also a developer called Nick who seems to be with you.. Now, Tell Me, who is Nick?"

?Chapter 353 – Chapter 353, Brain Control

Thank you readers!

Dori did not even think about Gleason's request. He said firmly, "There's no one here that you want!"

The man with the piercer jumped out at this time. He pointed at Nick and said with a grimace, "He's talking nonsense. This person is Nick. He also brought a guy from the eastern country!"

This guy was a complete lackey. He was so angry that Dori was about to rush up and make a move. However, Gleason suddenly turned on the Brainwave Jammer. Under the fierce stimulation of the electric waves, all the developers fell to the ground with their hands covering their heads in pain.

The non-developers were so scared that they retreated to the side.

The ball-hat girl fell directly at Yu Tian's feet. She was in so much pain that tears flowed out.

Yu Tian's sympathy was tormented by the girl's pained expression. He lowered his head and asked, "How do you feel? Do you want me to help you?"

The girl said in extreme pain, "If you want to do something, please hurry up!"

At this moment, Gleason came up to Yu Tian and said arrogantly, "If you're not a developer, then go stand over there. Don't be an eyesore here. If you make me unhappy, I'll treat you as a developer right now!"

Yu Tian touched his chin and smiled indifferently. "How do you know that I'm not a developer?"

"What did you say?"

Gleason looked Yu Tian up and down in surprise. Then, he said disdainfully, "You said that you're a developer. That's a joke. Do you really think you're a God?"

"Get out of my way right now. Don't let me see your disgusting face again! After saying that, Gleason's lackeys rushed over, wanting to push Yu Tian away.

However, what everyone didn't expect was that with just a few punches and kicks from Yu Tian, these lackeys would all crawl on the ground.

Gleason looked at Yu Tian in shock. It turned out that this guy was quite good at fighting.

However, what Gleason didn't expect was that with a wave of Yu Tian's hand, the brainwave disruptors in the hands of each PBG member would mysteriously disappear.

Bean-sized beads of sweat seeped out from Grissom's forehead.

It was now completely certain that the Easterner in front of him was indeed a developer, and an extremely terrifying developer at that.

Even the Brainwave Jammers couldn't do any harm to him. What the hell was this thing?

Let's take the opportunity to leave now. What are we waiting for?

Grissom thought of this and turned around to leave.

Dori, who had already gotten up, didn't plan to give him the chance to leave. He just kicked him.

Dori almost forgot about this guy. Now that he saw him, he laughed coldly.

The man with the piercer directly knelt on the ground and pleaded, "They forced me to do this. Dori, give me a chance. I really did not mean to betray you!"

Unfortunately, his pleas didn't make Dori hesitate at all. He grabbed his neck and used force, killing him.

Yu Tian looked at the time and said impatiently, "How much longer do you want to kill? I don't have time to watch you kill people!"

Dori slowly turned to look at Yu Tian, but his eyes were no longer full of hostility like before. Instead, there was a hint of respect.

“Monica!” Yu Tian said straightforwardly, “This is the reason why I came here and helped you kill PBG. Now everyone here owes me!”

Hearing this name, Dori frowned slightly and said in a low voice, “Now many people want to find Monica, including me. So, I can't help you this time!” Yu Tian was still somewhat disappointed. Dori's eyes were very calm. Yu Tian knew that he was not lying.

Then what was the value of staying here?

Just as he was about to leave, the ball-hat girl took the initiative to come to his side and said in a low voice, “Thank you for saving us today. Dori is an impolite person. Just Don't blame him!”

Dori was not only an impolite person, but also a very narrow-minded man.

Seeing that Yu Tian was chatting with the ball-hat girl, dori shouted,

“Amantha, we should leave this place!”

Amantha nodded slightly, then turned her head to look at Yu Tian meaningfully before leaving with Dori and the others.

With that glance, amantha used her skill to send a telepathic message to Yu

Tian.

“I can help you find Monica. I'll contact you later!”

After everyone left, Yu Tian asked Nick to stop following him. Obviously, Nick couldn't help him. Instead, he had to protect him.

Most importantly, the developers were troubled by the PBG people. No one could be trusted now.

Especially those who tried to get close to him. He must not let them know his whereabouts. That was the safest way.

Yu Tian found a hotel.

It was almost ten o'clock at night. Amantha had said that she would contact him, so she should find a secret place.

Outside the hotel, there was a sea of waves. The environment here was really good.

At this moment, there was a light knock on the door.

When the door opened, Amantha looked at him with a smile and said gently, "I finally got rid of Duli!"

As she spoke, Amantha walked into the room. She liked the environment here even more than Yu Tian.

She took off her ball hat and shook her long hair. This scene made Yu Tian feel particularly sexy.

However, feelings were only feelings. Some things could not be taken seriously.

This was especially so for Amantha's skills. She could actually let her thoughts enter other people's minds. In other words, wouldn't it be very easy for her to control someone?

The skills of these developers were very strange. If she was not careful, she would fall into their trap.

And not only does Amantha take off her hat, she turns around and takes off her clothes..

?Chapter 354 – Chapter 354, The Clairvoyant

Thank you readers!

Amantha was about to take off her clothes when she spoke. Yu Tian was a little confused.

What was going on? They had only known each other for less than ten minutes. wasn't that a little fast?

While Yu Tian was still in a daze, Amantha walked toward the bathroom with ease. Her perfect figure was extremely sexy under the light.

She didn't care about Yu Tian's passionate gaze. Instead, she used a very artistic posture to show off her perfect figure.

When the water curtain fell, Yu Tian woke up from the slight confusion.

He leaned against the bathroom door and asked indifferently, "How do I find Monica?"

Amantha wiped the water droplets off her face like a rose that had just come out of the water. She smiled and said, "Not now. Monica is protected by the developers. Whoever gets close to her will be attacked by the developers.

"Almost all the people in PBG are looking for Monica, and she is the key person of all the developers. If you want to see her, don't worry. I am also looking for an opportunity...

"My skill is that I can transmit sound through my brain. There is no limit to the distance. Even if she is on the other side of the Earth, I can let her hear my voice!"

Yu Tian blinked his eyes and said doubtfully, "You have this skill. Can't you do it at any time? What are you waiting for?"

Amantha wrapped the towel around her body. When she passed by Yu Tian, Amantha gently caressed his face.

Her gaze was like looking at her lover again.

Yu Tian felt that this was very normal. Very few women would not like his charm.

Amantha, on the other hand, did not show any signs of shyness as she laid on the bed and said charmingly, "Because there are isolators around Monica. They can block out all thoughts and the detection of certain devices.

"But the isolators have a time gap. Every morning, they have an hour of blank space in their brain. This is the weakness of developers. Every developer has it, including you!"

Yu Tian had never heard of this before. He asked curiously, "The weakness of developers? What is that?"

Amantha seemed to like this topic. She sat up and smiled, "Human brain development has natural rules. If you go beyond this range, there will be a lot of disadvantages.

Otherwise, wouldn't everyone become a developer? Of course, the difference here was the basic IQ. Which meant that you would not become a developer.

Monica was the first person in the world to develop using a device. Her basic IQ was originally 50, but after using the first-generation development device, although her brain had been developed to 35% ...

but it could no longer be developed. This was the weakness of the first-generation device. Everyone who used the first-generation device could only develop it once, and after that, it would be impossible to continue developing!

The first-generation instrument also had a weakness. Its radiation value was particularly high. Many developers would turn into idiots or even idiots when they were developing it.

Those that could be developed would also have certain injuries in the body. Therefore, at this time, Dr. Kroger, who was Monica's father, developed the second-generation instrument. However, this kind of machine could only be said to be close to perfection, "It's not completely perfect!"

"F * Tian frowned and shouted in disbelief, "I also use a F * cking first-generation machine. Doesn't that mean that my body has the same drawback as You Said?"

AMANTHA slowly said, "Is that so? If you want to find a clairvoyant, I know a clairvoyant. If you are willing to treat her to a midnight snack, she will be especially willing to help you!"

"Let alone a midnight snack, even a big meal is not a problem. Let her come now!"

While waiting for the clairvoyant to arrive, Yu Tian called Chu Hui again.

After the call was connected, Yu Tian said angrily, "There is something wrong with the first-generation equipment, and you still want me to use it. Aren't you afraid that your future husband will be turned into an idiot by that machine?"

Chu Hui smiled indifferently. "If we're wrong, Amantha should be by your side, right? She's not a simple woman. You have to be careful of her brainwave control.

"Also, her boyfriend is Dori. You have to be more careful of this person. Do you remember what I told you before about those people who want to leave the developer Alliance?" "Dori and Samantha are one of them,

"They deliberately approached you in order to get you to join their organization. As for the first-generation machine, although there is something wrong with it, it doesn't mean that it will hurt everyone.

"You are my husband. Do you think I will hurt you?"

Yu Tian narrowed his eyes slightly and said indifferently, "Is there anything else I don't know?"

"There are a lot of things!" Chu Hui chuckled. "But these aren't secrets. Soon, you will know all the inside information, and you will know what you should do!"

"You can also use AMANTHA. Her brainwave control can help you find Monica, but only if you don't tell her that you know me!"

The phone was cut off, and someone knocked on the door.

Amantha, who was wearing a towel, opened the door. Yu Tian looked over and saw a young girl in a black silk short skirt flash into the room.

After hugging amantha, Tiffany looked at Yu Tian and said in an appreciative tone, "You're the eastern developer Who beat up PBG, right,

"You're so handsome. Do you have a girlfriend?" "Or have you already had sex with Amantha?"

Yu Tian smiled faintly. He had hundreds of girlfriends, but he didn't know which one she was referring to.

But now was not the time to talk about that.

He turned around and sat on the sofa. "You're the clairvoyant? Now, take a look at my body. Are there any injuries?"

Just as Tiffany was about to activate her skill, someone knocked on the door again.

And it was very strong. It looked like someone was trying to break into the room.

Samantha frowned slightly. Just as she opened the door, a black shadow floated into the room.

Yu Tian looked up. It was Dori.

The guy didn't say anything. Before Samantha could say anything, he raised his hand and gave her a slap in the mouth.

Amantha fell to the ground, blood dripping from the corner of her mouth. She looked at Dory in horror and said angrily, "Dory, this has nothing to do with

But Dory was even angrier. He said with anger, "You're wrong. As long as you're still my man, you shouldn't be here. You're courting death!"

Then, he turned around and looked at Yu Tian coldly. He gritted his teeth and said, "I always thought that you wouldn't come to take my benefits, so I let you go last time. But now, I don't want to let you go anymore.. Come On!"

?Chapter 355 – Chapter 355, The Terms Of The Exchange

Thank you readers!

This guy, Dori, wanted to do it as soon as he entered the room, which made Yu Tian feel a little ridiculous.

Who would want to do it with him like an idiot? Who would want to know whether their body was damaged or not?

Therefore, in the face of Dori's provocation, Yu Tian only said indifferently, "I'm not in the mood for you. I'll give you a chance. Get out of here. If you continue to dawdle like an idiot, I'll kill you directly!"

Dori was already on the verge of exploding in anger, especially when he thought of the scene between Amantha and Yu Tianshuang. His heart completely exploded.

Without saying anything else, he directly launched an attack.

This guy was like a stream of smoke, landing in front of Yu Tian. His angry fist smashed toward Yu Tian with waves of killing intent.

Yu Tian narrowed his eyes impatiently. He originally didn't want to fight with him, but he insisted on seeking death. Did he really think that he was afraid of his ghost skills?

From a physical point of view, smoke was also a kind of structure. It could easily change into certain shapes, but its mass and weight could not be changed.

After fighting with him last time, Yu Tian had already considered this point. Therefore, when Dori

i

's fist came, Yu Tian easily dodged it. Dori was like a mad dog that had lost its rationality, chasing after Yu Tian and continuing to fight.

Seeing that his fist was about to swing again, Yu Tian suddenly threw his backpack and put it on duo Li's arm.

Before duo Li could withdraw his fist, he immediately tightened the opening of his backpack and quickly retreated.

This move made duo Li's angry eyes turn into fear. His illusory skill could only be used in an instant. If it was beyond a distance, it would be impossible to recover.

Yu Tian jumped two meters away in the blink of an eye. The moment duo Li recovered his original body, one of his hands disappeared.

Fresh blood spurted out from his broken arm. The pain made duo Li's face turn cold, and he was in a complete mess.

Yu Tian did not give up either. This time, he took the initiative to launch an attack.

Duo Li faced the powerful Yu Tian. He did not know what to do. He covered his arm and turned to run.

However, he was punched through by Yu Tian's heart.

However, Dori's body turned into smoke again. Yu Tian lifted his backpack and put it around Dori's head. Then, he turned around and jumped two meters away.

When Dori's body recovered, it was dark all around. He could only see his hand, but not his body.

When he realized that his head was in Yu Tian's backpack, his mind suddenly went blank.

His body also fell to the ground with a thud, scaring Samantha and Tiffany so much that they both retreated in fear.

Yu Tian threw his backpack to the side and seized the moment when Samantha was surprised. He grabbed her neck and said coldly, "You asked Dori to come, didn't you?"

Samantha's pupils shrank in fear. She hurriedly begged, "No, it must be the tracker. If I asked him to come, why would he come to see you? Can you calm down?"

However, Yu Tian didn't believe her. He snorted and said, "You're lying without even blinking. You obviously want to borrow my hand to help you get rid of Dori so that you can continue to act pitiful in front of me."

"You even used me to help you get some of Dori's things. You're really good at this trick!"

Amantha, who was hit in the vital spot, immediately stared into Yu Tian's eyes. She started to use brainwave control skills, trying to control Yu Tian to let go of her.

Her dreamy voice sounded in Yu Tian's mind. Yu Tian pinched her even harder and said disdainfully, "My basic IQ is 100%. You want to play with me with that Little Trick of yours? You're still too inexperienced!"

This time, Amantha was really desperate. She begged, "Please let me go. Everything you said is right, but I can really help you find Monica. Take it as a condition of exchange!"

Tiffany, who was standing on the side, also said nervously, "Yu Tian, Amantha can really help you, and she wants to kill Dory. We all know that guy is a damn bastard!"

[a€?Not only amantha, every developer who knows about him wants him dead. You just did it for real. If other developers know that Dory was killed, they will celebrate for a few days!a€?

Yu Tian let go of amantha and said coldly, a€?You should have told me before that so that I would be prepared. It makes it look like I slept with his woman and fought with my life!

He felt that Tiffany's explanation was acceptable. At least for now, he still needed Amantha's help to find Monica. As for the rest, he would see it later.

Amantha thanked Yu Tian gratefully and said while putting on her clothes, a€?It's not safe here anymore. Tiffany, we're going to your place. Only your place is safe now!a€?

However, there was still a headless man in the house. Yu Tian asked, a€?Do you have any means to clean dori?a€?

Tiffany said, a€?Leave it to me. I know Zerg. They will clean up every single hair

Soon, Yu Tian followed them to a quiet place. If Tiffany didn't say that this was her home, Yu Tian would have thought that she had come to a garbage dump.

Tiffany's home was in the middle of a pile of garbage. It was a simple wooden house.

The house was decorated elegantly, but everything was old. Tiffany put away the underwear on the bed and smiled. a€?At least there are a lot of things here that can be used for free!a€?

Yu Tian felt very tired. He lay down on the bed and asked curiously, a€?I thought developers wouldn't be short of money. After all, not everyone can have your skill!a€?

After covering the curtains and dimming the lights, Samantha said in a low voice, a€?We can't use our skills on ordinary people. Otherwise, the people of PBG can find you at any time.

a€?Sometimes, we can't even find a proper job. We can only go to the richer developers, such as Dori. His father is a rich man here!a€?

Tiffany, who was making coffee, said, a€?So, we usually have to look at Dori's face. But later, we found out that he just wants to use us to help him make money, or to help his father make money.

a€?And every time we use our skills, we will be discovered by the PBG people.

Every time, a developer will be killed by the PBG people!a€?

Yu Tian felt that he still did not know enough about these developers. He thought that with their skills, they would be invincible. Who knew that they could not live as well as a normal person? This was meaningless.

He shook his head helplessly and asked, "Tiffany, can you see through my body now to see if there are any injuries?"

Tiffany passed the coffee to him and her eyes suddenly turned red. She looked at Yu Tian from head to toe.

Tiffany said in surprise, "This is impossible!"

Chapter 356 – Chapter 356, The Information Was Accurate

Thank you readers!

Tiffany said in disbelief, "Not only is your body not damaged at all, but it's also as sturdy as a toilet ring that can withstand the weight of 500 pounds."

"What exactly is your body made of?" "I even saw some red things rampaging in your blood vessels. Oh My God, what kind of monster did I see?"

For Yu Tian, as long as there was no damage, it was fine. As for the red things that she mentioned, they were her own Qi of cultivation.

How could these people who only knew how to add onions in their hamburgers know such high-end things?

Therefore, Yu Tian said disdainfully, "If your clairvoyance ability can be used in other places, then it will be pretentious. For example, you can always know what color underwear other people wear and how much cash they have in their pockets!"

Tiffany said disdainfully, "I activated my ability so that I can surpass myself, not to see what other people wear. Now, let's think about how we can find Monica."

Yu Tian didn't want to waste time with her. Tiffany could lose control at any time. She was afraid that she wouldn't be able to let go of the secrets in her body and go out to eat those hard garbage cans.

She directly took out a stack of cash and threw it to her. She said indifferently, "You can follow me in the future. Money is like trash outside. You can have as much as you want!"

This really moved Tiffany. She wanted to confirm whether what Yu Tian said was true or not. She repeated, "Is what you said true? As long as I follow you, I want to eat a six-layered burger,

“You can drink a barrel of coke, right?”

Yu Tian really didn't want to waste time. He said helplessly, “Can't you have a bigger outlook on life? Hurry up and buy some food and drinks. I'm so hungry that I want to eat people!”

After Tiffany left excitedly, Yu Tian asked Amantha.

“When can you connect to Monica's brain waves?”

“Tomorrow morning. Now we can only wait!” Amantha spread her hands helplessly.

Yu Tian directly turned over and lay on the bed, quickly falling asleep.

Looking at Yu Tian's handsome face, Amantha's eyes revealed a trace of admiration.

In the blink of an eye, the next morning, AMANTHA began to try to enter Monica's brain.

Soon, Amantha, who had her eyes closed, seemed to be talking to herself. “Monica, PM Amantha. Our Savior has appeared. His name is Yu Tian, and he's the expert that Chu Hui invited.”

His basic IQ is 100% , and he is the only one who is not affected by the PBG brainwave interference device. He wants to see you, or perhaps it is the best way to protect you!”

Then, Amantha suddenly changed her tone and asked warily, “You want to see me? What do you want?”

Yu Tian was stunned. Why did Amantha suddenly act like a lunatic?

Tiffany quickly reminded him, “Monica is asking you now. This is also Amantha's skill. You can just answer directly!”

Yu Tian nodded and said, “I want to see your father, Dr. Kellogg. I want to use his second-generation brain development equipment to develop my brain to 200% ,

“You are Dr. Kellogg's daughter. Only you can help me. In return, I can let you get rid of PBG Forever!”

Monica said without hesitation, “I can't help you. I'm not the daughter of Dr. Kellogg. You'd better find someone else!”

As soon as she said that, AMANTHA opened her eyes abruptly and looked at Yu Tian helplessly, “She refused to accept my brainwaves!”

Yu Tian didn't care about that now. He was just wondering if Chu Hui's information was true or false?

Thinking of this, he immediately called Chu Hui. After the call was connected, he asked directly, "Monica said that she doesn't know Kellogg at all. Is the information you gave me true?"

Chu Hui said indifferently, "Sometimes, I don't even want to say that I'm a member of the Chu family. That's from an emotional point of view. Monica is Kellogg's first experimental subject."

"Monica doesn't want to be a developer, so in Monica's heart, she never wants anyone to know her identity. So I can tell you with certainty that Monica definitely knows where Kellogg is."

Yu Tian felt that this was also a consideration, so he hung up the phone and turned to ask Samantha.

"Can you know Monica's location? I want to see her in person!"

Amantha shook her head and said, "If Monica doesn't want me to know, I won't know!"

This was not the answer that he wanted. Yu Tian snorted and said proudly, "No matter what method I use, no matter how much money I spend, I don't care even if I buy this country!"

"I just want to know where Monica is!"

Tiffany asked in surprise, "Oh my God, how much money do you have?"

Yu Tian said disdainfully, "Two-thirds of the world's wealth, I can use it however I want!"

His words shocked Tiffany and Samantha. Tiffany asked, "I will follow you for the rest of my life. I will do whatever you want me to do. You can look at anyone's underwear!"

Yu Tian was not in the mood to talk nonsense. He had wasted enough time in Super Nation. He did not want to stay in this garbage heap for even a second.

Samantha thought for a moment and said in a low voice, "If you are willing to spend money, you can hire a tracker!"

"What kind of tracker is it? Is the quality trustworthy?" Yu Tian asked in confusion.

Tiffany smiled and said, "A tracker can track the scent of anyone. Their nose is more sensitive than a dog's. Even if someone farted ten kilometers away, they would be able to smell what these people are eating!"

Yu Tian nodded and said, "Okay, let's find the trackers!"

The three of them left the garbage dump. Under the cover of the night,

Amantha brought the two of them to a bar a few kilometers away. It looked like a very popular bar.

Amantha explained in a low voice, "I know a tracker who often drinks here. If we are lucky, we will be able to see him!"

Yu Tian was too lazy to enter such a place, so he asked Tiffany to use X-ray to see if the person Amantha mentioned was inside.

Tiffany went to the empty place behind the bar and activated his skill..

Chapter 357 – : Chapter 357, The Use Of Skills

Thank you readers!

Tiffany quickly discovered that the tracker was comparing himself to a few beauties in a bar.

He had no choice but to go to a bar now. Yu Tianxian went to the nearby area to withdraw a bag of cash. Since the tracker liked money so much, he would be satisfied.

Just as he arrived at the bar's entrance, he was stopped by the gatekeeper.

This guy with a big head on his shoulder spoke rudely, he even said disdainfully, "Can't you see that everyone else is lining up? There are no VIPs here. You can either go line up or throw your butt somewhere else!"

Yu Tian turned his head and looked. There was indeed a long line at the bar's entrance.

Because they wanted to cut the line, they let those who were lining up shout in disgust, "This isn't an oriental restaurant. You can eat rice at any corner. Go to the back and line up!"

"Even if you have two girls with you, you can't be pretentious here!"

"Get a room. Find a bigger bed. It's better than doing it while peeing in the bathroom of the bar!"

Bighead laughed and said, "Do you hear that? This is a place to spend money. You should save your money and buy these two girls an egg fried rice and a sausage!"

Hearing this, Yu Tian didn't even have the mood to talk. He just calmly took a step back and patted Samantha's butt.

Samantha grimaced in pain and said angrily, "Yes, I know!"

After saying that, Samantha directly looked into Big Head's eyes. Under the control of Brainwave, big head suddenly stopped smiling and opened the door, inviting Yu Tian and the other two to enter.

Then, big head seemed to have gone crazy. He banged his head against the wall until his head was bleeding and he was unconscious.

The people in the queue didn't want to do that. They had been standing here for so long, but they still couldn't get in. How could they just cut the queue?

Without saying anything, these people rushed into the bar and started fighting with the other gatekeepers.

Yu Tian didn't care about that at all. He was a developer now, so why wouldn't he use his skills?

The bar was filled with music, smoke, and flashing lights. There were dancing beauties everywhere, and rich people who drank too much.

No wonder they had to line up to have fun. It was indeed very tempting.

Under the lead of amantha, the few of them passed through the hormone-filled dance floor and came to a booth full of futuristic sci-fi.

Yu Tian looked at the stalker. He was in his thirties and wore a suit. His nose was especially big, as if there was a hammer hanging on his face.

When he saw amantha, he said frivolously, "Amantha, you're finally willing to come with me. If it wasn't for that Guy Dori, we would have eloped long ago!"

Amantha's face turned slightly red. She didn't want this guy to talk nonsense in front of Yu Tian. She hurriedly stopped him, "Graeme, we want you to help us find someone!"

Graeme's eyes fell on Yu Tian, but then on Yu Tian's backpack. The smell of money made him feel very excited.

Yu Tian took out a few stacks of money and threw them on the table. Tiffany then said to the girls, "Okay, take the money and get out of here. You Vixens make money faster than men in bed!"

The girls took the money and left happily. Graeme laughed and said, "Tiffany, you are still so humorous and sexy. And this gentleman, I have to treat you to a drink!"

After the few of them sat down, Yu Tian really couldn't stand the atmosphere here. He felt as if he couldn't breathe.

He simply threw his backpack in front of Graeme and said indifferently, "I want to know where Monica is. All the money here is yours!"

But Graham laughed and said slowly, "You know I'm a developer, but I won't live in the sewer and garbage dump like other developers,

instead, I can freely enjoy the good time in the bar without worrying about the hunting of PBG guys? That's because PBG people sometimes ask me to help them find people.

In other words, I'm just a businessman. I provide services not only to developers, but also to PBG, and even to other mystery departments, including Mrs. Lawrence's search for her lost dog,

and to wives who want to know if their husbands are working hard and not gasping in some woman's bed. So, my price is very high,

Especially Monica. In order to find her, the people of PBG even searched through the garbage cans in the kitchen of the bar. If you can give me ten million, or I can consider helping you!"

After saying so much, didn't he just want to collect more?

Things that could be bought with money were not considered things at all.

Yu Tian immediately took out his phone and said indifferently, "Your Account!"

Graham was even more excited. This was the price he wanted the most, and Yu Tian actually agreed so readily.

With this money, he could be carefree for the rest of his life.

Especially when he saw the number of ten million, Graham was so excited that he couldn't sit still. He raised his cup and thanked, "You really are!"

Before he finished his sentence, Yu Tian said expressionlessly, "I don't need you to judge me. Now I need you to tell me where Monica is."

Graeme wiped the sweat from his forehead and said to the new boss, "If you want me to track Monica, it's no problem. As long as you can provide me with something that she used, it will be fine!"

Samantha whispered in Yu Tian's ear, "He's not talking nonsense. That's the way of all trackers. Fortunately, I know where Monica used to live. We can go and look for her!"

Yu Tian nodded and stood up, saying to Graham, "Wait here, I'll go and find something for you!"

Graham spread his hands and smiled, "I'll listen to your orders at any time!"

Yu Tian and the others had just left when a few men in black surrounded Graeme.

Then, Joseph, the PBG assassin, sat directly across from him.

Graeme was not afraid. Instead, he smiled and said, "Mr. Joseph, we haven't seen each other for a long time. Let me treat you to a drink!"

Joseph looked at him coldly and said gloomily, "The reason you can sit here and drink as you please is because our PBG has put you out of the hunting mission!"

But this doesn't mean that you can stay cool forever. Now, I need to know where Monica is.

As he spoke, the man in black beside him took out a palm-sized bag from his bosom, which contained a few strands of Monica's hair.

Graham took the bag and thought in his mind, now they all want to find Monica, why do I only make money from one person? Why not make PBG together..

Chapter 358 – Chapter 358, You Can't Give Up

Thank you readers!

Graeme planned to play a dangerous game, so he gently put the bag on the table and said with a faint smile, "Without the help of certain developers, the existence of PBG would be extremely difficult,

and I can sit here not because of the gift of your PBG, but because of our deal. In the few years since the first developer appeared, I have provided you with more information,

"More than the entire intelligence department of PBG combined. To put it simply, many people want to know Monica's whereabouts, and I only offer the highest price,

“If you can give me 15 million, I will consider giving you Monica's location!”

Hearing this, Joseph just sneered. The men in black pressed Graeme on the table, scaring the surrounding customers away with screams.

Joseph didn't care about this at all. PBG was the most powerful department in the country. He could blow up this place if he wanted to.

Therefore, he took out a dagger and put it on Graham's neck. He said gloomily,

“What I Want is not a deal, but your answer!”

Graham was really a little scared. His skill could only be used to find others, but it didn't have any offensive or defensive ability.

If Joseph wanted to kill him now, it would only be a matter of minutes.

The plan seemed to have failed, so it was better not to think about making money now. Survival was more important.

So Graeme immediately raised his hands and compromised, “Okay, that's enough strength. You win. I will tell you Monica's location!”

Joseph motioned for his men to let go of him.

Then, Graham picked up his hair and put it under his nose to sniff carefully. Monica's smell immediately formed in Graham's mind.

At this time, Graham seemed to be being extracted from his soul. He couldn't help but twitch. And every time he twitched, a place where Monica had been would appear in his mind.

Until the last place appeared, two streams of blood suddenly spurted out of Graham's nose.

Joseph grabbed his collar and asked through gritted teeth, “Where's Monica?”

Graeme panted heavily in pain and said intermittently, “There are isolators around her. I only saw her previous position in the valley of wind!”

Joseph pushed him away and signaled to his lackeys. The men in black immediately dragged Graeme out of the back door of the bar. One of them took out a dagger and stabbed Graeme in the neck.

It was not until Graeme fell in a pool of blood that the men left silently.

At this moment, Yu Tian had already gotten what Monica had used and rushed back to the bar, but Graeme was gone.

Hearing the people in the bar talking, Yu Tian rushed to the backyard, but Graeme was already dead. There were staff members who were taking the dead Graeme away.

Yu Tian clenched his teeth and punched the wall, making a hole in the wall.

The light from the hole shone on the pool of blood. Yu Tian suddenly noticed that there were a few words written on the side of the pool of blood.

He quickly went over to take a closer look. Although the words were crooked, he could tell that they meant 'southern Gary'.

Southern Gary was a bigger city than this place. Could Monica be in southern Gary?

This was left behind by Graeme before he died, so there should be no mistake.

Thinking of this, Yu Tian brought the two girls directly to the airport and took the nearest flight to southern Gary.

As soon as they arrived at southern Gary Airport, Chu Wen called Yu Tian and said helplessly, 'Yu Tian, the senior executive of PBG just left my office. His meaning is very simple..,

he wants you to leave Super Country immediately. Otherwise, all our businesses in super country will be closed. The loss of money is nothing, but this senior manager also said..,

'If you continue to look for Monica, their people in the eastern country will immediately make a move against Chu Hui!'

Yu Tian knew that the Chu family had no choice on Chu Hui's side. Even if all the businesses in the world were closed, it did not matter. However, he could not let any of the 108 sisters have any accidents.

However, he was about to see Monica. There was no reason for him to give up now.

Thinking of this, he said indifferently, 'I will leave Super Nation, but not now. I will be able to see Monica very soon. Even if the boss of PBG stands in front of me now, don't even think about letting me leave!'

After a moment of silence, Chu Wen said helplessly, 'I can't do anything to you. I can buy you another 24 hours. When that time comes, whether you see Monica or not, you have to leave immediately.'

“I know that this makes you lose face, but for the sake of the 108 sisters, you have to suffer this once, okay?”

Since he had already said so, what else could he not do?

Yu Tian chuckled and said arrogantly, Sure, why not? But tell that executive on my behalf that I'm very unhappy this time. It's best if I don't see anyone from PBG again, or else I will kill anyone I see!

After hanging up the phone, Yu Tian felt that his mood was terrible. Even the bright sunshine in southern Gary could not make the darkness in his heart disappear.

He immediately turned to ask Samantha.

“Graham said that the last place Monica appeared was here. How do we find her?”

Samantha thought for a moment and said, “We'll first go to the developer's safe house here. Maybe we can get the information we want!”

That was a good idea. No matter what, he had to know where Dr. Kellogg was within twenty-four hours?

It was not easy to find the safe house. Yu Tian knew that the developers were no different from ordinary people in a crowd.

Moreover, the developers had a rule that they could not use skills on ordinary people.

“I don't know what the F * cking rule is. If you can't use skills, then why do you need skills? Are they just for fun?”

Yu Tian looked helplessly at the endless stream of people around him and complained in a low voice.

Tiffany said, “Boss, don't be anxious. At this time, my skills are like the eyes that you can see through any skirt. The developer's brain is different from the brain of an ordinary person,

“In terms that you can understand, the developer's brain is red. The brain of an ordinary person is colorless. Let's first find a high place and I can see if there are any developers in the crowd!”

Yu Tian smiled indifferently. “Then let me see how many panties you can show me with your eyes!”

On the roof of a building, Tiffany turned on the X-ray function and looked at the ground.

As time passed, Yu Tian was so bored that he was about to fall asleep. However, Tiffany did not discover anything.

Yu Tian yawned and said helplessly, "Can your trick work? I'm about to fall asleep!"

At this time, Tiffany suddenly said, "I found something.. That person is the developer!"

Chapter 359 – Chapter 359, The Isolator

Thank you readers!

What surprised Yu Tian was that this developer was also a young lady. Her figure was superb, and the number of times she turned her head was very high.

As a developer, she actually dared to show off like this. Was she not afraid of being discovered by the people of PBG?

However, Tiffany sneered and said, "Don't be fooled by his appearance. He is actually a man!"

Yu Tian blinked his eyes and asked curiously, "How do you know?"

Tiffany pointed to her own eyes and said disdainfully, "Women are also lascivious. Do you think that only men are willing to look at women, and women are also willing to look at men?"

"What's so good about men?" Yu Tian asked disdainfully.

"Size!"

Yu Tian was convinced and didn't want to continue arguing with her. The few of them followed the developer into a shopping mall.

In the shopping mall, Yu Tian discovered that the developer's skills were really interesting.

He thought that there was a problem with the system, but in the end, they had to sell the goods to him at an extremely low price.

When he had just changed the price of a dress, Yu Tian suddenly said from behind him, "If you go to play cards, no one will be able to beat you!"

The developer suddenly turned around and looked at Yu Tian warily. He asked in a low voice, "Are you a developer?"

“Nonsense!” Yu Tian said disdainfully, “Don't you know the rule that developers can not lay their hands on civilians? You are still unscrupulously changing the price here. You are so crazy that you even changed your own gender!”

“Developers have to live too. I don't care about the BULLSH * T rules. Every developer is doing this. What Do You Care?” The developer's wariness towards Yu Tian had completely turned into anger.

Yu Tian couldn't be bothered to waste time with him. He directly used his mind to make all the things in his hands disappear.

Before the developer could speak, Yu Tian said indifferently, “Are you F * cking trying to show off by making all your clothes disappear? When the time comes, let everyone see your stupid chair. That will be fun!”

This really scared him. He hurriedly said, “What do you want?”

“Take me to the developer's safe house that you know of. I want to see your boss!”

Y

“Yu Tian directly requested.

The developer thought for a moment. He was not his opponent. If he went to the safe house and his partners fought together, he definitely had no chance of winning.

Therefore, under the lead of the developer, a few people walked out of the mall one after another. They turned and walked to the front of his safe house.

Yu Tian looked up and saw that the safe house was located in a high-rise building. Judging from the surrounding environment, this should be a place that only rich people could afford to live in.

They had placed the safe house here. It seemed that they had used their skills to earn money quite a lot. This was because this was a rich area, and it would not make others feel suspicious. They really knew how to choose.

After entering the safe house, the developers all stood up and looked at Yu Tian and the others with hostility. One of them, a middle-aged man with a light beard, said warily, “Morris, who did you bring back?”

Morris took off his wig, and his voice became that of a man. He said, “Darren, they are obviously here to cause trouble. I need help, so I can only bring them back here!”

As soon as he said that they were here to pick a fight, the developers were ready to fight. Darren said disdainfully, "Morris, you made the right choice. Let these guys see how good we are!"

Seeing that their performance had reached this point, Yu Tian couldn't help but say disdainfully, "What on Earth developed your brains? Why are you all so stupid?"

"If I want to fight, do you think Maurice has the chance to come back here?"

"I came here to make a deal with you. I want to know where Monica is. If any of you can provide me with useful information, I will give this person ten million!"

Maurice and the others frowned and looked at each other in confusion. Yu Tian didn't seem to be joking.

Darren was silent for a moment. He first invited Yu Tian to sit down and then said very seriously, "There are a lot of people who want to know where Monica is, especially the people from PBG"

"Although I also heard that Monica is in southern Gary, I have never seen her before. There are many safe houses like ours in southern Gary, and the Monica that you are looking for is in one of them!"

Yu Tian said impatiently, "What you're saying is nonsense. I know that Monica is in southern Gary, or else I wouldn't have come here. I want her exact location. If you want to make money, help me find this!"

Darren fell into silence again. When his eyes moved slightly, he was also thinking about how to earn this money.

After thinking for a moment, he said in a low voice, "Although I don't know where Monica is, I know that recently, all the isolators in southern Gary have disappeared. They should be protecting Monica,

"I know one of the isolators. I can take you to him. As for whether you can find Monica or not, I can't do anything about it!"

That was a good idea. Yu Tian nodded and said calmly, "If this person can provide me with useful information, you can also get ten million!"

Yu Tian got up and wanted to go to the isolator with Darren. Samantha grabbed Yu Tian's sleeve and reminded him in a low voice, "All the developer skills are useless around the isolator. Be careful!"

So there was such a setting?

But Yu Tian didn't care about that. Even if he didn't have any skills, it was easy to play as a developer.

Soon, they arrived in front of an ordinary house in the suburbs of South Gary.

Darren gently knocked on the door. Soon, a low voice came from inside the house. "Who are you looking for?"

"Benson, it's me, Darren. Open the door!"

What did this guy put behind the door?

After the sound of moving tables and chairs, the door opened, revealing a young man's face. He looked at the people outside the door warily.

Darren said helplessly, "Let us talk inside. You are an isolator. Any developer skills are useless. What are you afraid of?"

However, Benson's gaze fell on Yu Tian's face. His gaze was cold as he said, "No, I know who you are and what you want. But I can't help you. Now get out of Here!"

After saying that, Benson was about to close the door. In order to earn that money, Darren could not let Benson close the door. He took a step forward, directly knocked open the door and held Benson down.

Everyone entered the room one after another. Yu Tian ordered Darren not to make things difficult for Benson. He was not a B * Stard of PBG. He just wanted to ask where Monica was. There was no need to make such a grand scene..

?Chapter 360 – Chapter 360, Human Or Monster

Thank you readers!

Benson pushed Darren away and said angrily, "Don't you dare think of getting anything from me!"

Yu Tian sat directly in front of him and said with a faint smile, "You're right, there's nothing worth taking from you, except for those pitiful memories in your mind. Now they're Mine!"

Benson's face was filled with a cold smile as he said indignantly, "No developer can use a skill in front of me. I would like to see how you can take away my memories!"

Needless to say, Yu Tian already knew that the so-called isolator was actually a BUG in the development equipment.

He moved his finger slightly and threw out a golden needle. Before Benson could react, the golden needle had pierced into his forehead.

Under everyone's surprised gazes, Yu Tian smiled indifferently and said, "It feels good, right? It doesn't hurt or itch, but your memories have been gradually disappearing since you were young,

"In a few minutes, all your memories will disappear. At that time, you won't even remember how to poop. Do You Want Me to Stop Now?"

Benson was already surrounded by endless fear. His memories were slowly being extracted, and even his body could not help it. There was nothing more painful than this.

He hurriedly pleaded, "Stop, I'll bring you to Monica!"

Yu Tian smiled, then pulled out the golden needle and stabbed it into the back of his head.

Benson thought that Yu Tian did not keep his word and wanted to continue torturing him.

However, the moment the golden needle entered his brain, the extracted memories returned.

Only then did he know that Yu Tian was helping him. He could not help but be moved. "Thank you!"

Yu Tian put away the golden needles and said indifferently, "I don't want to hurt anyone, including Monica. Take Me to him now!"

Before he finished his sentence, all the lights in the room were suddenly turned off.

Just as everyone was in shock, several dazzling beams of light suddenly shone through the window. Following that, a group of armed men directly broke through the door and shouted loudly, "PBG attack team, everyone get down immediately!"

Before Yu Tian could speak, a developer behind Darren turned around and was about to run away. The attack team immediately opened fire.

Everyone watched as the developer was turned into a sieve in the blink of an eye and died.

Samantha and Tiffany hid behind Yu Tian in fear. Meanwhile, Darren and the others raised their hands, indicating that they would not resist.

They could not use any developer skills at the moment. In front of the isolator, Benson, they could not use any skills at all.

However, the target of these attack team members was not Darren. Instead, they aimed all their weapons at Yu Tian.

The attacker at the front shouted at the top of his lungs, "You, get down now, or we will open fire!"

In such a tense situation, Yu Tian rubbed his nose in disgust and said, "I am standing right in front of you. Why are you shouting? Spit on my face!"

The attacker completely ignored Yu Tian and even reached out to press him.

Spitting all over his face was already very disgusting to Yu Tian. Now, he actually wanted to make a move?

Yu Tian was definitely not used to his bad habit. He grabbed his arm and threw it out of the window.

The other attackers followed that guy's gaze and looked out of the window.

Then, they suddenly surrounded him and were about to make a move together.

Yu Tian snorted coldly and activated his psyche power. All the attackers' weapons instantly disappeared.

Before they could regain their senses, Yu Tian narrowed his eyes slightly. The equipment of each attacker began to shrink, and the faces of these attackers turned black.

Darren, Benson, and the others who saw this scene were all stunned.

Yu Tian was not affected by the isolator and could still use the developer's skill. Was he a human or a monster?

Just as the attackers were about to be strangled to death by the equipment, a gloomy voice came from the door, "Mr. Yu, I don't think our misunderstanding is that deep, even if you kill them, it won't change anything. How about we have a drink?"

As soon as he finished speaking, Joseph walked in from the door and shook the wine in his hand.

Yu Tian snorted disdainfully and said, "Make your people disappear in front of my eyes!"

The skill dispersed, and the attackers panted in fear. They supported each other and left.

Joseph and the others connected the power to make the room look more natural. As for Samantha, Darren, and the others, they went upstairs to wait.

At this time, Joseph poured two glasses of wine and said expressionlessly, "We misunderstood because we are looking for the same person, but not for the same request,

"You just want to use the second-generation brain developer, and we want to completely destroy Kellogg's Plan!"

Yu Tian didn't want to listen to this nonsense at all. Instead, he said disdainfully, "What does it have to do with me? You either say something useful, or get out of here with your wine!"

Joseph's zombie-like face actually squeezed out a smile that was uglier than crying. He said helplessly, "You should calm down and listen to me briefly.

"Moreover, I will only say these words to you, the developer who is not affected by the Brainwave Controller and the brain developer!

He picked up his glass and took a sip of wine. Then, he lit a cigar and took a deep puff.

Yu Tian was disgusted. He said with a look of disgust, "Are you here to talk or to enjoy yourself? Do you need me to ask someone to put a basin of Bath Water for you and then ask someone to give you a Bath?"

Joseph spread his hands and said, "Don't worry. You Should Listen to me first.

I told you about the origin of another version of the developer. At that time, Kellogg and Chu Hui's father worked together to develop the first-generation brain developer!

Yu Tian was shocked. Chu Hui had never told him this.

After a moment of silence, the atmosphere became tense. Joseph continued,

"The first person to experiment with the device was Chu Hui's father, Chu

Yang. At that time, he was an engineer at the World Brain Research Association,

he was also a good classmate of Dr. Kellogg. You should know that Chu Yang did not lack funds. In this aspect, they had outstanding achievements in developing the first-generation brain development device,

moreover, Chu Yang was the first to develop the brain. However, due to the instability of the device, Chu Yang was still lying in the most luxurious hospital in the metropolis. He had been asleep for more than ten years,

“The second person to develop the apparatus was Dr. Kellogg's daughter, Monica. After that, more developers appeared. Up until now, there have been about ten million people!

At this point, Joseph shook his head in surprise and sighed. “Ten million people with all kinds of magical skills. What a terrifying existence is this?”

“But no one will stop them. In Dr. Kellogg's words, all he did was to allow mankind to achieve the best evolution,

“What a beautiful reason, but Kellogg's real thought is something else!”

I Have 108 Older Sisters #Chapter 361 - Read I Have 108 Older Sisters Chapter 361

?Chapter 361 – Chapter 361, Top-Secret Information

Thank you readers!

Joseph took a deep breath of the smoke, and his expression became even colder.

Under Yu Tian's cold gaze, he said softly, “Kellogg's second-generation brain developer can control the minds of developers and make them obey his orders!”

This was shocking enough. Yu Tian felt that Kellogg's trick was very high.

Think about it. Whoever could control ten million developers was equivalent to controlling half the world, or even the entire world.

At this moment, Joseph used the radio to ask his assistant to bring his briefcase over.

He let Yu Tian see a top-secret document first.

Yu Tian opened the first page of the document and it was Chu Hui's information.

The content showed that Chu Hui had been completely controlled by the second-generation instrument. She was using her identity as a member of the Chu family to recruit more developers for Kellogg.

Moreover, there were absolute reasons to believe that Chu Hui had been brainwashed. Before using the second-generation instrument, she would often visit Chu Yang. However, after using the second-generation instrument, she had never gone there.

Seeing this, Yu Tian was puzzled. If Chu Hui wanted to recruit him, why didn't she just let him use the second-generation instrument? Why did she let him come to super country to personally look for Kellogg?

This didn't make sense.

Very quickly, Yu Tian found an answer in this document.

Just as Joseph said, "Kellogg is unable to brainwash the developers under the first-generation equipment. Moreover, the IQ of this batch of developers is extremely high, and it's very difficult to control them,

just like Monica, after she accepted the brain development, she completely broke away from Kellogg. Therefore, two factions appeared among the developers. One was the traditional developers with Monica as the main force,

these people were all the developers under the first generation of instruments, and there were also the radical developers with Kellogg and Chuhui as the main force. They were all followers brainwashed by Kellogg,

chuhui asked you to come to super country because she wanted to use you to eliminate the traditional developers, and we PBG wanted to find Monica, not to kill her, but to use her to fight against Kellogg,

"But because the traditional developers advocate freedom, they don't think we are doing this for their own good. So far, at least hundreds of thousands of PBG people have died at the hands of the developers,

"If we don't continue to let people die, no one will be able to stop Kellogg. If necessary, we will kill Chu Hui and cut off Kellogg's funds!"

Hearing this, Yu Tian was extremely surprised.

These documents were definitely not fake. Moreover, Joseph had no reason to play tricks with him. This was not beneficial to him.

On the contrary, it was Chu Hui who had played him. This fucking looked really interesting.

Joseph followed and said in a deep voice, "Sir Yu Tian, your appearance should have surprised PBG and Kellogg because you are an exception!"

“In more than ten years, no one has been able to be like you, unaffected by both developers and PBG. Your appearance will definitely bring about important changes to the pattern of developers.”

“Of course, I also know that you already know where Monica is, and our PBG people are not interfering. If you can find Kellogg, that would be even better, but your time is limited.”

“If you can't take care of Monica by this time tomorrow, you have to leave this place. Otherwise, our people in the eastern country will have to kill Chu Hui.”

We are not threatening you,

“Because according to our intelligence, Kellogg is secretly mobilizing developers to prepare to launch an attack on this country. Chu Hui is the provider of all the funds. We have to do this!”

In the end, they all wanted to use Yu Tian. Be it Chu Hui or PBG, they were all the same. No one was better than them. However, they had overlooked one point.

Could they really use Yu Tian?

Thinking of this, Yu Tian chuckled and said indifferently, “Thank you for providing me with such wonderful information. You've been telling me what you want to do and what you don't want to do?”

But you don't know what I want to do?”

Joseph looked at him coldly and asked, “What do you want to do?”

Yu Tian snorted, raised his hand and clenched his fist, and said domineeringly, “Anyone who stands in my way will die!”

This imposing manner made Joseph feel a chill in his heart. Indeed, no one could stop him, unless it was a god.

After saying that, Yu Tian got up and called Samantha and the others. Under Joseph's helpless gaze, he swaggered away.

When he came to a quiet place, Yu Tian suddenly stopped and turned to look at the crowd. He asked indifferently, “Who here has used the second-generation equipment?”

The crowd looked at each other and shook their heads silently.

Tiffany explained, "You can't ask that. The difference between the second-generation and the first-generation is that the area of the brain affected is different from the location. The first-generation only develops the left or right brain,

the second generation develops the entire brain. There are both left and right brains. Why are you asking this? And that guy from PBG, what did he tell you?"

Yu Tian smiled indifferently and said, "What else can I say? He told me not to show off in Super Country and not to interfere in their work. He also said that the second generation is better than the first generation developers!"

They could not explain the inside story to them yet. Everyone also believed what Yu Tian said.

At this time, Yu Tian smiled and said, "Let's go and find Monica First!"

When everyone stepped forward, Yu Tian gently grabbed Tiffany's hand and said in a low voice, "Let's see which one of them is the developer of the second-generation instrument!"

Tiffany nodded slightly and immediately activated the clairvoyance skill. After shooting a circle, she said in a low voice, "Amantha, Benson, they are both second-generation developers. What's Wrong?"

Yu Tian shook his head and smiled faintly. "Nothing. Let's Go!"

No wonder Monica didn't believe in him. In fact, she didn't believe in Amantha. But as a second-generation developer, how did Benson manage to get by Monica's side?

After thinking carefully, Yu Tian understood a little.

Kellogg must have deliberately let Benson stay by Monica's side in order to eliminate the first-generation developers. It was to restrict them from using their skills.

As they spoke, Benson led them to a manor that looked like a vacation villa from the outside. Under the eaves of the wooden villa, there was a row of slightly fluttering lanterns, it looked very festive.

Benson walked to the door, turned around and said, "Monica is here. Can I leave now?"

Yu Tian nodded with a smile and said, "Of course you can leave, but I have a question that I want you to tell me!"

Benson looked at Yu Tian warily and said coldly, "What do you want to know?" "That you were killed by me. Will that Old Bastard Kellogg Know?"

As soon as he said that, Yu Tian exploded with killing intent, scaring Benson until his legs went soft..

?Chapter 362 – Chapter 362, Don'T Start Over

Thank you readers!

Before Benson could make a sound, Yu Tian snapped his neck with a snap.

Everyone gasped in shock.

Was he trying to kill Benson?

Yu Tian clapped his hands and turned to look at Samantha. Even though Yu Tian's gaze did not change, it still scared her so much that she slowly stepped back.

Yu Tian curled his lips and said coldly, a€?Kellogg must know that I killed Benson, right? Then help me pass a message to hima€|a€?

a€?My name is Yu Tian, Chu Hui's future husband. From now on, I will eat you and all your second-generation developers like a piece of cake!a€?

Everyone was confused. What did Yu Tian discover?

Amantha's face was filled with fear. However, she followed Yu Tian's words and sent a mental message to Kellogg.

At this moment, Yu Tian stabbed the golden needle into amantha's forehead with lightning speed. In an instant, amantha collapsed to the ground.

Tiffany was so scared that she covered her mouth tightly. Darren and the others were all sweating profusely.

It was now clear that Yu Tian was going to kill a second- generation developer.

Yu Tian retrieved the golden needle and walked into the villa.

The isolators protecting Monica wanted to stop Yu Tian, but Monica, who was at the stairs, stopped them.

Yu Tian turned to look at Monica. She was only 18 years old. She was sexy and had a sexy figure. Her blonde hair was draped over her shoulders. Yu Tian felt his nose burn.

Monica looked at Yu Tian calmly and said slowly, a€?If you want to get the second-generation development equipment, I can't help you. Only some second-generation developers will know where Kellogg is!

He glanced at her two round and beautiful legs under her short skirt and said indifferently, "Now I have to change my plan. I plan to join your side and fight against that old fart of yours with you!"

However, Monica seemed to have seen through the mortal world. She shook her head slightly and turned around to sit on the windowsill.

The leaves outside the window were a little lonely and sad, just like Monica's gaze at the moment.

Yu Tian asked Tiffany and the isolators to wait outside. He also sat in front of the window and looked at the withered garden with a deep gaze, he said indifferently, "Sometimes, it's not our choice. This is fate. We can't do it again no matter what!"

Monica retracted her gaze and looked at Yu Tian's determined side profile calmly. She said sadly, "I just want to live in my world!"

"Your world hasn't been created yet because you haven't forgotten what you've lost. The loneliness of looking at yourself and feeling sorry for yourself can only make you feel even more sorrowful!"

Yu Tian was not only talking to her, he was also talking to himself.

He slowly turned his head and gloomily looked at her, who was shimmering with tears. He said in a deep voice, "It's time to do something. I will provide you with everything. As long as you stay by my side, you will be safe!"

"I won't let PBG, the second-generation developer, Hurt You!"

Monica nodded and ran into Yu Tian's arms, feeling wronged. The sense of security and warmth in Yu Tian's arms made her feel very relaxed.

Yu Tian hugged Monica and gave Chu Hui a call at the same time.

Chu Hui was as calm as usual. She asked, "Hubby, have you found Monica?"

"No, Monica is smarter than I thought!" Yu Tian and Monica looked at each other, then, he said, "I plan to go back first. When I have enough information and the people of PBG won't disgust me, I will come back!"

"It can only be like this now. The people of PBG have also come to the eastern country. In order to prevent them from chasing after the developers, it's better for you to come back!"

After hanging up the phone, Yu Tian said to Monica in a low voice, "Now, apart from you and me, there's also Tiffany. You Can't trust anyone. Go Pack Your Things First, then follow me to the eastern country!"

Monica had no objections. Yu Tian called Tiffany and the others into the house and gave Darren 10 million first, letting him leave with the isolators.

After that, Yu Tian, Tiffany, and Monica prepared to head to the airport.

But at this moment, Yu Tian suddenly heard a flurry of footsteps coming from outside.

Tiffany immediately turned on her x-ray vision and whispered, "It looks like we have guests. There are quite a few of them. Each of them is a second generation developer!"

Before she finished her sentence, more than a dozen men broke into the house. Yu Tian glanced at them indifferently.

These men were extremely valiant, and their fur was especially thick. If they were not wearing clothes, they would have thought that they were a bunch of dogs that had rushed into the house.

The Man with two red eyes at the front said fiercely, "Monica, Dr. Kellogg asked us to bring you home. Now come with us!"

Monica snorted coldly and said, "Stop Dreaming. I Won't go with you!"

The man was like an enraged beast, grinning and howling. He then said angrily, "If you don't come with us, then we can only kill you!"

At this point, Yu Tian interrupted, "Both sides, wait a moment, let's talk. What are you always shouting for? Your ears are ringing. If you say it, do you think I can let her go with you?"

The Beast Man looked at Yu Tian coldly and said through gritted teeth, "There's no one we can't kill, and no one can resist the order of our werewolf group. Get lost!"

So these people were all werewolves. Yu Tian asked in puzzlement, "Could it be that these people who can turn into dogs at any time are also developers? are those western myths true or false?"

Tiffany said helplessly, "Hurry up and kill them. Otherwise, whoever they bite will turn into dogs!"

Before he finished his words, the bodies of more than ten men seemed to be about to explode. Their muscles expanded rapidly, and their hair stood on end. All of them turned into werewolves and rushed toward Yu Tian and the others.

Yu Tian just shook his head helplessly. It was good to be a dog. He was baring his teeth and looking for death.

At this moment, a werewolf suddenly jumped towards him.

Yu Tian easily raised his hand and grabbed the werewolf's neck. With a little strength, he broke the struggling werewolf's neck.

Following that, a few more werewolves rushed forward.

Yu Tian turned around and looked at Monica and Tiffany. Protecting them was the most important thing.

Seeing that a werewolf was rushing towards them, Yu Tian was quick-witted. He threw the wine cup on the table towards Monica and Tiffany.

The cup grew bigger and bigger in the air, directly enveloping the two of them. A werewolf bumped his head into the cup and actually knocked out a few of his teeth.

Yu Tian took advantage of this opportunity and easily dealt with all the werewolves surrounding them.

But at this moment, the werewolf that was the berserk man turned into punched a hole in the wine cup and opened his mouth to bite Monica.

In a flash, Yu Tian couldn't save her even if he wanted to

However, in the next second, Monica's eyes suddenly turned white. A blinding light pierced through her eye sockets and directly hit the violent man..

?Chapter 363 – Chapter 363, Don'T Want To Help Her

Thank you readers!

Monica shot a beam of light and turned the berserk man back into his human form. Even his hair fell off and he was kicked to the ground by Tiffany.

The berserk man curled up on the ground in fear and weakness. Yu Tian finally understood that Monica's skill was actually the purification developer.

It had to be said that this skill was really unique. He just didn't know if it would work on him or not.

At this moment, Monica complained with grievance, a€?Didn't you say that you would protect me? I was almost attacked by him!a€?

Yu Tian's face turned red and he said indifferently, "Sometimes, you have to rely on yourself. Moreover, your skill is like wiping glass. You can wipe anyone who pretends to be better than you. What's there to be afraid of?"

Without wasting any more words, the few of them rushed to the airport. Yu Tian's idea was to return to the eastern country. However, Monica said in a low voice, "I have to go to the metropolis to meet someone. Give me one day!"

Since he was going to meet Chu Wen, he decided to take the opportunity.

The plane landed at the Metropolis International Airport in the early morning.

Yu Tian was very shocked by the prosperity of this super city, but now was not the time to play. He had to accompany Monica to meet an important person.

After passing through the bustling downtown area, Monica brought the two of them to a residential area.

Yu Tian narrowed his eyes and looked around. The people living here were all of color, and it looked very chaotic.

Monica stopped in front of a simple restaurant. She was a little hesitant and also hesitated whether to enter the restaurant.

Yu Tian looked at the time and said impatiently, "Can we hurry up? Could it be that we are here to see the smoking woman in the house?"

"She is my mother!" Monica said in a low voice.

Yu Tian and Tiffany were a little surprised. The skinny, sunken-eyed, wrinkled lady standing behind the cashier was Monica's mother?

But they were already here, how could they not see her?

Yu Tian said indifferently, "You should go and see her. I also want to have a date here. Let's not disturb each other!"

After saying that, Yu Tian immediately called Chu Wen.

At this time, Monica had already walked into the restaurant. However,

Monica's mother, Catherine, didn't have a good expression toward Monica, instead, she said coldly, "Aren't you supposed to stay by your father's side?"

"What are you doing here?"

“I just want to see you!” Monica said sadly.

Catherine, on the other hand, sneered and lit a cigarette. While smoking, she teased, “I’m really grateful that you haven’t forgotten about me. You just want to see my current situation, right?”

“Now you’re satisfied. Compared to your father, I’m now Old and ugly. If I hadn’t given birth to you in the past, I would be living very well now,

“And the reward you gave me is to laugh at me at this moment and help your father, the bastard doctor, to mock me!”

Yu Tian sat at the side. This was Monica’s choice. It had nothing to do with her. She just had to watch.

Just as Monica was about to speak, a man in his forties wearing a dirty chef’s uniform with a messy beard appeared.

Seeing that Catherine was talking to Monica, he felt as if he had seen the angriest scene in the world. He said angrily, “What are you doing, Catherine? This bitch hasn’t ordered anything to eat. Why aren’t you going to work?”

Catherine was very afraid of the man’s anger. She said to Monica with a cold face, “This is my current husband. I don’t want to see you again. Get out of Here!”

Monica was completely disappointed. She turned around and wanted to leave, but the man suddenly stopped her and said loudly, “You are the bastard that Catherine gave birth to. Catherine is living and eating in my place,

but she can’t make me feel good. You are her daughter. You seem to be a rich man. Now I need you to compensate me for all of Catherine’s expenses in my place, and then take this son of a bitch, “Get away from me!”

As he spoke, the man grabbed Catherine’s hair and pressed her head heavily on the table, like meat pressed against a board.

Catherine’s face was Numb, as if she had long been accustomed to this kind of treatment.

Monica saw that her mother was being bullied, and she was furious. She lifted her backpack and threw it at the man.

“Let go of my mother, you B * Stard!”

Yu Tian continued to read the newspaper on the table. He still did not want to interfere.

The man ignored her attack. Instead, he said fearlessly, u If you don't give me compensation, I'll show you how I usually deal with this B * Tch!a€?

Catherine finally revealed a frightened expression and pleaded loudly, a€?No, Rudolf, please don a€?t Do That!a€?

Rudolf didn't listen at all. He used his foot to open Catherine's thigh and casually picked up a dough stick and smashed it heavily between Catherine's legs.

Catherine screamed and collapsed on the ground. Monica's eyes were red as she rushed up to tear that beast into pieces.

But Rudolf laughed wildly, a€?You want to feel it too, don't you?a€?

As he spoke, Rudolf was about to pull Monica's hair, but at this moment, Yu Tian's eyes suddenly flashed. His body moved, and in the blink of an eye, he arrived behind Rudolf and grabbed his arm.

Then he pulled hard, and with a crack, Rudolf's ghostly cry was like that of a pig being slaughtered.

Yu Tian did not let go. Monica picked up the noodle stick and smashed it down on Rudolf's pants.

The noodle stick that was as thick as a bowl was broken. Rudolph could not even make a sound because of the pain. He held his pants and fell to the ground.

However, what Monica and Yu Tian did not expect was that Catherine actually stopped Monica, she scolded, a€?Get lost. If you hit my Rudolph again, I will kill you. Get lost from me. I never want to See You Again!

Yu Tian snorted and said to Monica, who was stunned, a€?This is why I don't help her. You are no longer her daughter!

After saying that, Yu Tian dragged Monica out of the restaurant. Tiffany picked up Monica's backpack and kicked Rudolph a€?s stomach.

It was a waste not to kick him anyway.

Yu Tian looked at the time. There were still five hours before the flight took off. He first took them to Chu Wen's hotel to rest and meet Chu Wen.

For this date, Chu Wen had reserved the most luxurious room in the hotel.

At the hotel entrance, a well-dressed waiter helped to carry the bag and helped to check in. He walked into his room. Outside the French window was the entire metropolis. The scenery was very stunning.

However, the waiter coughed lightly and signaled Yu Tian to give him a tip. Don't just focus on the scenery and not understand anything..

Chapter 364 – Chapter 364, Other Services

Thank you readers!

Yu Tian turned around to take a look and asked inexplicably, "Why? Do you want to stay for dinner?"

The waiter revealed a look of disdain. He could afford such an expensive room, but he couldn't afford to tip. What was this?

He then stretched out his finger and made a gesture to count the money. He thought that Yu Tian should understand now, right?

Yu Tian did understand, but he hated this kind of behavior.

Tipping was voluntary. If not, how could he stand here and ask for it? Wasn't this acting like a Hooligan?

He then sat down on the sofa and said indifferently, "If I don't want to give you a tip, are you still planning to stay here today?"

The waiter's face, which looked like a pair of pants, wore a disdainful smile and said in a low voice, "Of course not. It's just that we deserve to provide you with service."

"Every guest who comes here knows the rules of this place, except for those who have never stayed in a high-class hotel!"

Yu Tian narrowed his eyes and said coldly, "Didn't the hotel let you work here and pay you to provide services to the guests? Don't tell me you don't have a salary here?"

The impatient waiter who Yu Tian asked shook his head in disdain and said, "I don't have to ask you to give me a tip. This is your identity, and with a tip, you can get additional services."

"Of course, if you give up on asking us to provide you with service, just pretend that I didn't say anything. After all, you're not the first stingy guy I've met!"

After saying that, the waiter turned around to leave, but Yu Tian stopped him and said indifferently, "Go and call your manager over!"

"Do you want to complain to waiter smiled disdainfully and said, "If you're not in a hurry, you can do that. But if you're in a hurry, don't wait!"

"The manager does not work here all the time. Usually, even we rarely see him. Even if we do, he would not waste a few hours of his coffee and sleep time" want to hear you say something common!

Yu Tian still said indifferently, "So, this hotel is only managed by staff like you?"

"Of course!" The waiter said proudly, "We get paid, but we have to work for a few people. Fortunately, this is just a hotel. We guarantee that every room has electricity, water, and new sheets. That's enough."

"What else do you want?" "Do you want to put a woman in every room, or an aunt who can change your diapers at any time?"

Just as the waiter was fooling around, the doorbell rang.

The waiter turned around and opened the door. He was stunned on the spot.

The person standing outside the door was the owner of the hotel, Chu Wen. Even the corridor was filled with black-shirted bodyguards wearing sunglasses.

He hurriedly stood to the side obediently. Chu Wen walked into the room with a smile and stretched out her arms to give Yu Tian a tight hug.

The waiter was dumbfounded on the spot.

Yu Tian stroked Chu Wen's silky long hair and said indifferently, "I think the rules of this hotel need to be changed!"

Chu Wen blinked her sexy big eyes and asked in puzzlement, "Why?"

As soon as she finished her words, Chu Wen looked at the sweating waiter at the door and immediately understood.

So she asked gently, "You can change it however you want. After all, everything here is yours!"

"Call the manager and the higher-ups of this hotel first!"

As soon as Yu Tian gave the order, Chu Wen's secretaries immediately made a few calls.

At this time, Yu Tian looked at the waiter again and said disdainfully, [a€?Now, I want to hear what kind of extra services you provide to the guests!

The waiter stammered, a€?Yes, it's like this, sir. Oh No, boss, I mean extra service, including helping you find a girl, the location of the restaurant, Shoeshine, and changing better bed sheets and so on!

Yu Tian snorted coldly and said disdainfully, a€?I knew it. Now get out of here. You are no longer a member of this hotel!

Before the waiter could say anything, he was dragged out by the bodyguards.

At this time, the hotel manager and the higher-ups all came to the room. Chu Wen would definitely give Yu Tian face.

She held Yu Tian's arm in front of everyone and introduced, a€?This is my fianc??, and he is also the owner of all the investment businesses of the Chu family in Metropolis!

Everyone looked at each other in shock. The manager asked, a€?The boss asked us to come. What are your orders?a€?

The corner of Yu Tian's mouth curled up slightly and he said coldly, a€?I don't have any orders. I just don't like you guys. From now on, you are no longer a person here!

The manager was suddenly shocked. He asked in confusion and anger, a€?Did I do something wrong? And you can't do that. We have a contract!

Yu Tian laughed and said, a€?You just can't do anything with a contract. Now Scram!a€?

At this moment, the manager couldn't stand it anymore. He turned around and asked Chu Wen, a€?Boss, is this true? Are you going to let him fool around?a€?

Chu Wen spread her hands helplessly and said with a smile, a€?I've said it before. He's the boss, and I'm only his fianc??. Now, please leave. I want to be alone with my husband!a€?

As soon as she finished speaking, the bodyguards rushed in and chased everyone out.

Yu Tian was feeling great now. As soon as he turned around, he was shocked.

Chu Wen had actually taken off all her clothes. Her fiery figure and slender legs were like a seductive fist, hitting his face and almost giving him a somersault.

Not only that, Chu Wen even said charmingly, a€?I want to be one of the 108 sisters. I don't want others to be ahead of me!a€?

Yu Tian wiped his face with all his might and said with a frown, "You can snatch it, but I'm not in the mood right now. Put on your clothes first. It's very cold in this room!"

Chu Wen came up to him and put her arm around his neck. She said gently,

"Then can you give me some warmth?"

He hurriedly removed her arm and said hesitantly, "I'm also cold, but it's just enough to calm us down. Take back your passion first. I have something to tell you!"

Facing such passion, Yu Tian tried his best to suppress his anger. However, Chu Wen would not give up until she got her hands on him. She pestered Yu Tian with all kinds of temptations.

In the end, Yu Tian could not stand it anymore. He carried Chu Wen to the bathroom and poured cold water on her.

Five minutes later, the two of them sat on the bed facing each other and sneezed. Chu Wen said aggrievedly and angrily, "Are you human?" "Nonsense, what are you if not Tian said proudly, "I can't do this now. It's not the time yet!"

Chu Wen snorted coldly and said disdainfully, "You're talking nonsense. You just don't want us to drag you down and tie you down with our feelings before you become a powerhouse. Isn't it the time? Don't tell me you're picking the time to do this? What is this?"

Yu Tian smiled helplessly. Chu Wen had really seen through him..

?Chapter 365 – Chapter 365, Irreversible

Thank you readers!

Chapter 365:, irreversible

No matter what, Yu Tian still insisted on himself. Before he became the strongest, the most he could do was to kiss her on the lips.

Now, even protecting them was difficult. How could he be in the mood to think about anything else?

At this moment, Yu Tian's phone rang. It was Tiffany. The phone was particularly noisy. It seemed like Monica was arguing with someone.

Needless to say, Yu Tian immediately changed his clothes and went downstairs to Tiffany's door. He heard Catherine complaining, "Now Rudolph is injured and kicked me out,

and you are enjoying yourself here. I should be the one living here. You have to give me the rest of my life's expenses. This is what you owe me. You and Kellogg abandoned me, and now you have to make it up to me!

Monica said calmly, "I don't have a father, and I don't have a mother either. Don't even think about getting anything from me. Please leave!"

However, Catherine said in a tone that seemed like she should, "Don't even think about chasing me away. If you don't give me 100,000 yuan, I won't leave this place. This is what you should give me!"

When she heard this, Yu Tian directly pushed the door open and entered. When Catherine saw Yu Tian, she was still a little afraid.

Yu Tian looked at her shameless appearance and knew that Rudolph must have asked her to come.

Monica's mood could be considered to have stabilized when Yu Tian arrived.

Catherine then shamelessly said, "I know that you are Monica's man. You injured her stepfather. You have to compensate me. Otherwise, I won't let Monica Follow You!"

Yu Tian said indifferently, "I'll show you. Do you want it? Get out, or I'll throw you out!"

If she was a good mother, not to mention 500,000, even 50 million wouldn't be a problem.

She didn't even care about her shameless face, and she still wanted compensation?

Catherine naturally didn't want it. She shouted hysterically, "You are all heartless bastards, just like Kellogg. He is a devil, and you are also devils!" At this moment, the door was suddenly kicked open. Rudolph came with a few thugs.

He felt that he had too many people, so why should he be afraid of Yu Tian?

This guy held his head high and looked at Yu Tian as if he was about to die.

"You don't want to compensate me, right? Buddy, I have too many people this time. You have to listen to me. Now I want a million. Otherwise, I Will F * Ck Monica in front of You!"

Yu Tiandu couldn't help but smile bitterly. He said helplessly, "So what if you have more people? You have the ability to make the entire Metropolis F * Ck"

Rudolf sneered and came to Monica's side. He said frivolously, "You must have more taste than Catherine. This Bitch is only fit to be licked by me. Now I can't stand it anymore. Why Don't you just stay here!"

Before he finished his words, he heard a few thuds behind him.

This guy turned around and saw that the thugs were already lying on the ground with blood spurting out of their noses and mouths.

Before he could be shocked for a moment, Yu Tian's Fist had already landed on his face. It went straight from the bedroom to the washroom.

Even the wall had a hole, and this guy died immediately.

Yu Tian shook his fist. Some people deserved to die. If they dared to touch his reverse scale, they couldn't let him live.

Catherine was scared silly. Her dark eyes were filled with fear.

He was a person Who didn't have a dream. Now, he didn't even have a soul. At this moment, Chu Wen brought her bodyguards to the room. She had seen this kind of scene many times. She immediately ordered the bodyguards, "Make them all disappear!"

The bodyguard did not say a word. He went up and dragged Rudolf and the rest out.

Yu Tian pointed at Catherine and said indifferently, "And her. This woman has gone crazy. Don't let her continue being a ghost!"

Chu Wen frowned slightly. It seemed like Yu Tian had never laid a hand on a woman. How could this be?

Monica still stopped him, "Forget it. Let her leave. After all, she is my mother!"

Yu Tian did not want to do anything to her at all. He just wanted Monica to feel that she owed him a favor.

At the same time, Yu Tian also knew that Monica could only use him and could not ask for anything.

When she targeted Kellogg, she would do the same to Catherine and would not let him kill her.

Therefore, this plea made Yu Tian extremely unhappy.

He nodded indifferently and said, "Alright, I'll listen to you this time. Get Ready, we should set off!"

After saying that, Yu Tian got up and left the room with Chu Wen.

Tiffany saw through everything and helplessly said to Monica, "You shouldn't beg him. Your enemies are your family. If one day you face your father, what will you choose?"

Monica calmly said, "I've thought of it. If it was in front of me, I would definitely stop it. If I can't see it, then I don't have to think about it. There is no need to stop it. Just pretend that I don't know anything!"

After all the preparations were done, Yu Tian and the rest boarded the plane under the personal escort of Chu Wen.

After flying for more than ten hours, Yu Tian had been sleeping. He didn't want to say anything to Monica, Tiffany, and the rest.

He didn't have to think about all this, but there was one person who gave Yu Tian a headache just thinking about it.

Chu Hui had already been controlled by Kellogg. How could he wake her up? If the second-generation brain development device had an irreversible effect on the human body.

In other words, Chu Hui would always be his enemy.

If he forced her to return to her original appearance, which was impossible, he might as well use her to find Kellogg.

This was the best method, or only Kellogg knew how to reverse the situation.

When the plane landed at the airport, it was already 10 o'clock in the morning.

Chu Qing brought everyone to personally welcome them.

Chu Hui stood among the crowd and looked at Yu Tian with a smile. However, this smile seemed particularly strange to Yu Tian.

However, Yu Tian did not say anything. There was no need for him to say such nonsense.

Therefore, he specially introduced Monica and Tiffany to Chu Hui.

Chu Hui smiled and said to Monica, "We finally meet. This time, you are able to come here alive because of my husband. You should go and thank her,

"Of course, I have also arranged a job for you. Now, all the developers in the world want to have faith in you. I hope that you can lead all the developers to resist PBG together,

"So that every developer can have real freedom and enjoy the rights of this world. I think that's what you're pursuing!

Monica didn't quite understand what Chu Hui meant, so she still looked at Yu Tian with puzzlement.

Yu Tian, on the other hand, smiled indifferently and said, "You're right. Now That I'm also a developer, there's nothing to say about getting rid of PBG. Now let's Go Eat.. I've had enough of the fast food on the plane!"

?Chapter 366 – Chapter 366 Was A Little Tired

Thank you readers!

Chu Meng, who was in the crowd, narrowed her eyes and looked at Yu Tian with a smile. She felt that his smile was especially forced. He must have had his own thoughts.

Therefore, during the meal, Chu Meng dragged Yu Tian to the side alone and said slowly, "What on Earth are you thinking? During the time you were not in Linhai, Chu Hui had come into contact with many people"

"The family also gave an order for you to keep an eye on Chu Hui. Do you have any plans in mind?"

Yu Tian touched his chin and said with a disdainful smile, "What plans can I have? They are all highly intelligent people now. I can't even guess their thoughts"

"Since we're talking about this, I really want to know who is the person closest to Chu Hui?"

Chu Meng turned on her computer and showed Yu Tian a few photos she had taken.

The photo was taken at a western restaurant. A handsome blond man in a black suit was pouring Chu Hui a drink. His eyes were filled with adoration and his actions were intimate.

At the same time, Chu Meng also took photos of them entering and leaving the hotel.

“In just a few days, they met secretly more than a dozen times. There was even one at night. Although I don't want to tell you this, from the perspective of the family, I still have to tell you this!”

Yu Tian didn't believe what he saw. Or rather, what he saw might not be the same as what actually happened. If Chu Hui really had something to do with this man, then the Chu family wouldn't exist anymore.

Chu Hui was a highly intelligent person. She would definitely weigh the pros and cons.

But who was this man?

She still wanted to know.

Yu Tian asked indifferently, “Where is this man staying? Bring me to see him! Chu Meng nodded and didn't reject Yu Tian's request. The two immediately left the restaurant without even greeting each other.

Soon, the two arrived at a high-class hotel. This was the hotel that Chu Hui had come to in the photo.

This hotel was also the property of Tianhai Group, so when Yu Tian and Chu Meng walked into the hotel, the staff immediately stood up respectfully.

The lobby manager hurriedly went up and asked, “Good evening, CEO Yu. Do you want to rest or do you have other instructions?”

Yu Tian smiled and said, “Help me look up a guest's information!”

Soon, the blonde man's information appeared in front of Yu Tian.

Yu Tian took a quick look. This man's name was Adonis, and he was from Super China. He came to Linhai with Chu Hui and had been staying in this hotel for several days.

When he saw this, Yu Tian turned around and whispered to the lobby manager, “You’ve never seen me here before. You Don't know what happened!”

The lobby manager immediately understood what Yu Tian meant. He hurriedly nodded and said, “Yes, I didn't see anything!”

He was a smart man. Yu Tian smiled appreciatively and said, “Not bad. You'll be promoted to general manager soon !

His words made the lobby manager so happy that his snout was coming out from his nose.

Yu Tian then called brother long.

“Brother long, bring some people to the hotel and bring me someone. His name is Adonis and he’s a foreigner. Don't take his life, just kidnap him!”

Brother long chuckled softly and said, “No problem, I'll bring some people over now!”

After hanging up, Yu Tian walked away. Chu Meng asked curiously, “That guy is your love rival, don't you want to kill him yourself?”

Yu Tian shook his head helplessly and said, not knowing whether to laugh or cry, “How can you be sure that he is my rival in love? I don't even care, what do you care.”

“Besides, not every one of the 108 women in the Chu family can become my wife. I don't want to force every sister to marry me. If you don't even marry me, then I'll be happy.”

“To be honest, I'm tired. I want to do something for myself. My pair of fragile wings are almost bald from exhaustion. Please do me a favor and don't create more trouble for me!”

Chu Meng was a little afraid. If Yu Tian had the intention to give up on the Chu family, then the Chu family would be like an iceberg under a raging fire, ready to collapse at any time.

When he walked out of the hotel, Yu Tian looked up and thought to himself, “If you're also a developer and you dare to touch my people, I’ll see what you can tell me. If you're not a developer, I’d like to see what your intentions are.”

Now that he was also a person with a high IQ, sometimes he had to play a little trick and not just do it recklessly.

Soon, Brother Long arrived at the hotel and rushed into the room.

Adonis, who was drinking, was shocked. Before he could say anything, Brother Long went up and punched him.

Adonis was beaten until his nose and mouth were bleeding. He shouted at the top of his voice, “What do you want? I don't know you!”

Brother long sneered, “I don't know you either. But now that you have provoked my boss, I have to know you. Guys, don't just watch. Put this guy in a box and carry him away!”

The thugs rushed up, first beating him up and kicking him, then stuffing him into a box and carrying him out of the room. Brother Long then sent a message to Yu Tian.

“It’s all done, very smoothly!”

Yu Tian just walked into the villa and frowned when he saw the message.

That guy was really not a developer. This was really interesting.

The next morning, Chu Hui found out that Adonis had been kidnapped.

She pretended that she was going to the mall, greeted Yu Tian, and left the villa in a hurry.

Yu Tian Winked at Chu Meng, who nodded and immediately followed.

After Chu Hui arrived at the hotel, she called the lobby manager to her side and asked as calmly as possible, “What happened here yesterday? How did my good friend get kidnapped? Did you see who did this?”

The lobby manager smiled and said, “I’m sorry, miss. I didn’t see anything yesterday. The hotel’s cameras were undergoing a system upgrade yesterday, but they didn’t capture anything. It seems that I can’t Help You!”

Chu Hui frowned slightly. It was impossible for the lobby manager not to know that there was no other way to leave this place apart from the front door and the back door.

It was also impossible for him not to see what was happening. Adonis was a man after all. Even if someone kidnapped him and struggled, someone would still be able to hear him.

Someone must have given the lobby manager an order first?

“Could it be Yu Tian?”

Thinking of this, Chu Hui turned around and left. Chu Meng, who was hiding in the dark, called Yu Tian and said, “She looks very angry. She seems to have sensed something. If I’m not wrong, she must have gone to see you!”

Yu Tian, who was sitting in the office of Xinghe technology company, said calmly, “But I don’t want to see her!”

?Chapter 367 – Chapter 367, Anger

Thank you readers!

Chu Meng was right. Chu Hui had indeed come to galaxy technology.

Chu Hong stopped her at the office door and frowned. "What are you doing here? Didn't you go to the mall?"

Chu Hui smiled lightly and said, "There's nothing to go to the mall. I just wanted to see what my husband is doing. Is He in the office?"

"No!" Chu Hong said expressionlessly, "Before you came, president Yu just went out. I don't know when he will come back. If you have anything to say, you can tell him at home tonight!"

"Oh, if that's the case, then I'll go back First!"

Since Chu Hong had already said so, it must be because Yu Tian didn't want to see her. It was useless to force her. It was better to leave first.

After she left, Chu Hong walked into the office and asked inexplicably, "What's wrong with the two of you? I feel like you hate seeing her. Did you have a fight?"

Yu Tian logged into the game, at the same time, he said softly, "The last thing I want to do now is to have a fight. It's a waste of time and energy. I don't want to see Chu Hui for the next few days. Also, get the higher-ups of the clan to come here immediately!"

"Aha?" Chu Hong was shocked when she heard this. What happened to Yu Tian? What did Chu Hui Do? Make him so angry.

In Yu Tian's eyes, his words meant everything. Since he had already said it, he had to do it.

At this time, Yu Tian had already logged into the game, but he saw an overwhelming number of players.

He used creator mode to check the number of people online. There were actually 15 million people online.

The game's Prosperity Index had already reached 500%

Following that, Yu Tian returned to his own club, Galaxy's dream.

What was even more shocking was that the club was already level 10. There were actually more than a million people who had joined this club.

His name was still the boss of the club, followed by Little Cutie.

Now, Little Cutie's level had already reached level 50, becoming the number one in the entire server.

The club even had benefits. If a newcomer joined the club, he would receive 100,000 game coins as support.

At this moment, a player saw Yu Tian's figure and immediately shouted in the world channel.

“Oh my God, the boss of Galaxy Dream Is Here!

“What did you say? Is He the boss of this game? where is he? I want to see this god!”

“He is in the conference hall of our club. The members of the club should hurry back. The God Is Here!”

The Little Cutie immediately teleported back to galaxy dream. Through the screen, Yu Tian could feel her excitement and excitement.

Moreover, she immediately sent a private message to Yu Tian.

Yu Tian casually opened the private chat channel and smiled, “Well done. Now you have become the number one in the entire server, and I am still a newcomer!

The little cutie said sweetly, “You're making fun of me again. If it weren't for you, how could I have become the number one in the entire server? I don't even know how to thank you. You've given me the greatest joy in my life”

“If it's possible, can we meet up? We can go anywhere in the hotel!

Yu Tian shook his head helplessly. If he wanted to make a date, it would still be her turn. Stop joking around.

He easily changed the topic and said, “Let's talk about the club. How Do You

Feel Now?”

The little cutie quickly said, “Of course it's the biggest club in the entire server. Now we have a total of 5-7 million members, and most of them are recharge players. Now, Galaxy Dream can earn over a million dollars every day!

Yu Tian knew about this setting. Du Tianci had once told him that players could recharge the club to increase the strength of the club. Of course, they would set some special items for the club.

For example, Supercars, helicopters, special weapons, and so on. These things could not be bought in ordinary shops.

He then asked, "The pressure of being number one is definitely great. Is there anyone who wants to go against us?"

"Of course there is, and there are many of them. Among them, the one who often finds trouble with us is that young master wen. However, with his current strength, he is no match for us. I don't even put him in my eyes!"

The little Cutie in confident tone was particularly sexy.

Moreover, she also said in a low voice, "Nowadays, many people regard me as a goddess. Every day, there are many people in my live broadcast room who give me presents. There are even some rich people who want to spend a night with me. Don't tell me that the man in my heart doesn't want to spend a night with me? I'll open the room, and I'll also provide dinner and a bath and massage service. Do you want to give it a try?"

Why did this girl seem to have lost control?

Yu Tian said helplessly, "Can you calm down? It's just a game. You Don't have to take it so seriously. Moreover, you know my fiancée. If she knew that you were flirting with me, she would blow up the game!"

While they were talking, the door of the office was suddenly pushed open. Chu Hui ignored Chu Hong's attempts to stop her and forced her way in.

Yu Tian immediately cut off the private chat channel and logged out of the game.

He let Chu Hong make some coffee first and then said to Chu Hui, "What do you have to say to me that you can't say at home at night?"

"Where is Adonis? Why did you do that?" Chu Hui said angrily.

Yu Tian spread his hands and asked in confusion, "Who is Adonis? I don't know this person. What did I do?"

Chu Hui rushed to the desk and punched it. She gritted her teeth and said, "Stop pretending in front of me. You are the one who kidnapped Adonis. We are just classmates in the university!"

He wasn't a developer. Why did you do this to him? "Now I want you to let him go immediately. Otherwise, I'll hate you to death!"

Yu Tian smiled indifferently and said coldly, "It seems that you have quite a lot of secrets. Don't you know that you're in Linhai to avoid PBG's pursuit?"

"You actually asked your university classmates to come here to accompany you. If you didn't tell me, I wouldn't have known. But what I want to know now is that it's so simple for him to come here to accompany you?"

"So your life is so lonely. Do you need a man to accompany you at all times? You really disappoint me. I'll tell you one last time. I don't know who Adonis is. Don't disgust me here. Get Out!"

Chu Hui was very shocked. Yu Tian actually used such a tone to talk to her and even told her to get out.

She clenched her fists tightly, and with a thought, she directly controlled the computer on the table and smashed it towards Yu Tian.

Yu Tian didn't even move and let the computer smash his body into pieces.

Chu Hui was also very shocked. Why didn't Yu Tian Dodge?

However, the moment the computer shattered, the sky above the Chu family manor in the imperial capital became extremely dark.

The head of the Chu family, Chu Aotian, suddenly raised his head. This was the anger of the Yu family..

?Chapter 368 – Chapter 368, Rebellion And Slaughter

Thank you readers!

Chu Aotian and the higher-ups of dozens of families hurried to the courtyard and knelt on the ground.

At this moment, a thunderous roar sounded in the air.

"The Chu family has disobeyed our Lord. Do You Want to suffer the wrath of the Lord?"

This voice was like a knife, piercing into Chu Aotian's heart. He was so scared that Aotian and the others were trembling.

He hurriedly kowtowed on the ground and said with a trembling voice, "The Chu family definitely doesn't have the guts to do this, please enlighten us, master!"

The thunderous voice sounded again.

“The Chu family's management is chaotic, and they have no respect for their elders. Chu Hui colluded with outsiders and attacked Master Yu Tian. Such a helpless act is unforgivable. As a form of punishment, kill a thousand people of the Chu family. If you don't repent, kill a thousand more!”

suddenly covered their hearts and spat out blood. They fell to the ground and died.

At the same time, over a thousand members of the Chu family were killed all over the world.

Chu Aotian's eyes turned red. Those were his clansmen. However, in the eyes of the Yu family members, they were just ants. This was a fate that could not be changed. No matter who it was, their existence was only for Yu Tian.

The Darkness in the sky gradually faded, and the sound of thunder could no longer be heard.

Meanwhile, the anger of the Yu family had already spread from top to bottom.

Almost all of the 108 sister groups were flooded with comments.

Yu Tian also received this news and was extremely shocked.

Chu Hui's furious action had caused the lives of thousands of people in the Chu family to be lost.

Meanwhile, Chu Hui covered her mouth in fear. She had no idea that her action would cause such a brazen massacre.

Now, she really knew fear. The fear in her heart made her fall weakly to the ground.

At this moment, Yu Tian's phone rang. It was from Chu Aotian.

This was the first time Chu Aotian had called her. Yu Tian picked up the phone casually.

Chu aotian said sadly, “Master, please forgive us for our mistakes. From now on, I will change the rules of the Chu family. Please calm down, Master!” Yu Tian could hear the anger and fear in his voice.

The punishment his family had given them was indeed a little heavy, but he couldn't change anything. He didn't even have time to react.

He said helplessly, “I don't know if it was right or wrong this time, but there must be a reason for the punishment. Chu Hui is right in front of me now. I have already asked the people of the Luo Jue tribe to come over.”

[a€?But before that, she must stay by my side because I still have a problem that I need her to solve!a€?

Chu Aotian immediately said, a€?Everything is up to the Lord!a€?

After hanging up the phone, Yu Tian slowly looked up at the terrified Chu Hui and said angrily, a€?Are you satisfied now? You single-handedly killed thousands of people in the Chu family. You did a really good job.

Kellogg must be very satisfied too, right? Isn't this what you all want to Do? Chu Hui, right now, I'm not only disappointed in you, I a€?m even despairing. I

should have killed you..,

a€?But when I think of the other 107 sisters of the Chu family, it's not worth it at all. You're not even worthy of their sacrifice. Now, I a€?m giving you a choice. You can either tell me where Kellogg is?

[a€?Or from now on, you can scam to the lost tribe. You can forget about this for the rest of your life. When you see this world again, I a€?ll give you the time to choose!

Chu Hui lowered her head in silence. It was clearly a choice, but she felt that she didn't have any other choice. She didn't even have a way out.

Yu Tian's words were very firm, and the other 107 sisters had already scolded her until she was in pieces.

Now, she was the biggest traitor of the Chu family. Thousands of people had lost their lives because of him. It was really not worth it.

However, she did not want to betray Kellogg. After all, they had the same dream and pursuit.

There was also Adonis, the man she loved. Although she had not given him anything, she definitely could not let him die at Yu Tian's hands.

Thinking of this, Chu Hui slowly said, a€?I can not betray anyone. If you want me to go to the tribe of extinction, I have no other requests. I only hope that you can let Adonis leave,

a€?I can also tell you very clearly that I do love Adonis, but I didn't betray you. I'm still a complete girl now!a€?

Yu Tian didn't want to hear any nonsense from her. He shook his head impatiently and said, a€?This has nothing to do with me. I don't want to hear it either. Just make your own choice. Now Get Out!a€?

Chu Hui turned around and walked out of the office helplessly. However, when she was at the door, she saw the Chu sisters glaring at her angrily.

Chu Qing, who had the most fiery temper, raised her hand and gave a big slap.

Even Chu Xin, who usually had the best temper, looked at her with disgust and said coldly, "Who are you letting down? Why are you doing this? Do you know that thousands of people in the Chu family have lost their lives for You?"

"If it weren't for the fact that you can't die, I would have killed you with my own hands right now!"

Chu Meng, who was standing at the side, snorted coldly. "Why are you talking so much nonsense with her? Even if I don't kill her, I won't let her have a good time either. I'll disfigure her face right now and make her the ugliest among the 108 sisters!"

"Uglier than her heart, and even more disgusting!"

As she spoke, Chu Meng took out a dagger and was about to stab her in the face.

Chu Hui turned around and left. She controlled the tables and chairs around her with her mind and threw them at the sisters mindlessly.

Just as she ran to the door, Chu Rou, who was drinking milk tea, conveniently threw milk tea at Chu Hui's face.

The sisters rushed up and gave her a series of punches and kicks.

In order to prevent her from concentrating and controlling objects with her mind, Chu Meng ruthlessly pulled her hair and said angrily, "Is that all you can do? Come on, continue to control those tables and throw the chairs at us!" As she spoke, Chu Meng picked up the dagger and was about to cut her face.

At this moment, Yu Tian's voice sounded behind everyone.

"What are you doing? She's your sister too. The blood flowing in your bodies is the same. Do you really want to kill her?"

Chu Qing gritted her teeth and said, "She doesn't even treat us as sisters, so why should we care? Thousands of people in the Chu family lost their lives because of her. Doesn't she deserve to die?"

Yu Tian said coldly, "Even if she deserves to die, it's not up to you to make a move. Let her go immediately. I don't want to see her again. Tell her to get lost immediately!"

This was an order. Thousands of people in the Chu family had lost their lives because they disobeyed Yu Tian's order.

Chu Qing had no choice but to let her go.

Chu Meng was still on top of her. She kicked her hard and scolded angrily, "Get

Lost, you B * TCH. I'll cut your face off one day!"

Chu Hui, whose face was badly bruised, bit her lips and slowly got up, limping away from the company..

?Chapter 369 – Chapter 369 Was Also The Developer

Thank you readers!

Yu Tian looked at Chu Hui's back and felt uncomfortable.

108 sisters had 108 different fates. Not every sister would live according to their will.

Even if this was their fate, there were many people in this world who didn't accept their fate.

Wasn't he one of them?

After Chu Hui left, Yu Tian sighed and said in a low voice, "Chu Hui's brain was controlled by someone. What is she doing now? She might not even know"

"It's wrong for you to treat her like this. After all, she's your sister. We can't abandon her yet. I'm only doing this so that the person who controlled her will appear immediately"

"Only then can we make Chu Hui regain her senses immediately and become your true sister. However, my family doesn't seem to know the reason behind this. In order to avoid another massacre..,

"Now, we all need to understand what we're doing. If this continues, more people from the Chu family will be killed. If they know that the last one of you is dead, what meaning does the Chu family have to live?"

At this point, Yu Tian also left the company, leaving the sisters behind to look at each other.

Now, they were getting more and more confused about Yu Tian's thoughts.

In an abandoned factory in the suburbs, Yu Tian met Adonis.

At this moment, Adonis, whose face was bruised and swollen, was still trembling in fear.

When Yu Tian stood in front of him, Adonis pleaded even more fearfully, "Mr. Yu, I know what I did was wrong. Please let me go. There's really nothing between me and Chu Hui. We just love each other,

"But we didn't even hold hands. Please let me leave for this reason!"

Brother long sneered and said, "Boss, it seems that this guy is not lying. We have been messing with him since last night, but he has always said so!

Yu Tian only nodded slightly, but he still touched his chin and said with narrowed eyes, "Love each other? You guys are so romantic. It's not impossible to leave alive. I didn't want to kill you at all. I just feel a little strange. Can you answer me one question?"

Adonis hurriedly nodded, as if he saw the hope of living.

Yu Tian asked, "You just met Chu Hui. Do you know her identity at this time?"

"I know. When we met in university, I knew that she was a member of the Chu family, so I never had the courage to do anything to her. Because I'm afraid of her family, so you should believe me, was especially straightforward.

However, this answer made Yu Tian even more confused. He grabbed

Adonis' hair and asked coldly, "Since you know that she is from the Chu family, you still dare to follow her here. You sure have guts!"

But now, I see that you are a coward. What You Said and what you did are somewhat contradictory. Since you don't have the guts to do anything to her, then why did you come here?

"From what I see, everything you said is a lie. You and Chu Hui are not university classmates, and it's impossible for them to love each other. You must be someone sent by Kellogg to monitor her, and you are also a developer. Am I right?"

Adonis was slightly stunned, but then he felt very funny. He said aggrievedly,

"I really don't know what you are talking about. What is a developer? Oh My God, what have I met?"

Yu Tian chuckled and said indifferently, "It's okay if you don't say it. I will soon know whether you are a developer or Not!"

As soon as he finished speaking, Tiffany stood in front of Adonis. She immediately activated her x-ray vision and carefully observed Adonis's brain.

A few seconds later, Tiffany turned to Yu Tian and said with certainty, second-generation developer!

Yu Tian directly kicked Adonis in the chest. However, Adonis was no longer as weak as before. Instead, after being kicked, he was able to stand steadily in front of everyone.

He even laughed maniacally, "Yu Tian, you're really smart. You can even see this. You even brought a clairvoyant with you. However, do you think that this will allow me to give you something?"

"You're underestimating me. You really have a lot of questions. But now, I'm guessing that the question you want to know the most is what skills I have. That's right, I should show you my skills!"

"Let you bastards see my strength!"

Brother Long and the others had no idea what he was talking about, but Yu Tian was very clear that before this fellow displayed those inexplicable skills, he should ask brother long and the others to leave this place as soon as possible.

However, before he could warn them, Adonis suddenly raised his arms, and ten fierce flames shot out from his ten fingers.

Yu Tian pulled Tiffany and quickly retreated. Brother Long, who had quick reflexes, also lay on the ground and rolled to the side.

Those thugs did not have the ability to dodge so quickly. In the blink of an eye, they had turned into a pile of fireballs.

Adonis shouted arrogantly while spitting fire, "Yu Tian, if you have the guts, Don't hide. Come and fight with me. I'll show you my ability. You're just a first generation developer. Even if your basic IQ is 100% .

"I won't put you in my eyes. If you don't come and fight with me today, I'll burn this city down!"

At this moment, Yu Tian whispered to Tiffany, "You go out first. Leave this place to me!"

Tiffany nodded and quickly left the factory.

Yu Tian looked around and saw an old wooden box behind Adonis.

At this moment, Yu Tian concentrated his mind and made the wooden box instantly grow bigger. It directly hit Adonis a€?back.

At the same time that Adonis was knocked to the ground, Yu Tian rushed to his front and raised his foot to stomp down.

However, Adonis' reaction was also very fast. He spat out a flame in the direction of Yu Tian.

Yu Tian dodged and suddenly threw out the golden needle in his hand, accurately piercing Adonis a€?neck.

Adonis felt his breathing tighten. When he wanted to raise his hand again, he felt that his entire body had lost control. He could only lie on the ground, unable to make any movements.

He did not want to pay attention to him now. He immediately picked up a broken bag and, together with brother long, put out the fire on the thugs. Brother Long felt that his mind was already numb. Everything he saw was like a movie.

Yu Tian also ordered, a€?No matter what you see, don't tell the others. Immediately get someone to send them to the hospital. Do you understand what I mean?'

Brother long hurriedly nodded, wiped his cold sweat and said, a€?Am I Dreaming?a€?

Yu Tian laughed and said, a€?Yes, this is a dream!a€?

?Chapter 370 – Chapter 370, Programming Memory

Thank you readers!

Yu Tian did not want to waste any more time with Adonis. He first gave him the most unbearable pain in the world, making him cry out in despair amidst the tearing pain. Then, he asked coldly, a€?What is Kellogg's Plan?a€?

Adonis was already unable to defend against the erosion of the pain. His face was pale as he said with a trembling voice, a€?He needs Chu Hui to provide funding. The development of the third-generation instrument requires a large amount of funds and resources,

a€?In the entire world, only the Chu family has the ability to do so. This is also the reason why Kellogg injected programming memory into Chu Hui!a€?

a€?Programming memory? What is this?a€?Yu Tian asked in puzzlement.

“It’s a pre-made memory. When the second-generation instrument is used to develop the brain, a part of the memory will be extracted from the developer’s memory, including data, images, and so on. After being modified..,

the memory will be re-injected into the developer’s mind, just like how Chu Hui and I never knew each other before, but now I am the so-called university classmate that she likes. This is the programming memory!”

Yu Tian was so angry that he wanted to stomp him to death. Even his own woman dared to program the memory. It was really not worth it to die.

He gritted his teeth fiercely, grabbed Adonis’s hair, and said angrily, “You’re also a second-generation developer. Could it be that your memory was not programmed? How Do You Know All This?”

Adonis could not bear the pain. He panted and said, “I have programmed memories too, but I don’t know what these altered memories are. I just want to get more wealth through Kellogg.”

“So, I know a lot of Kellogg’s Data!”

“Then where is he?” Yu Tian asked coldly.

“He changes his position every day, and there are a large number of isolators and interlopers around him. Unless he actively lets you know, no one will ever know his position!”

Now there was nothing left to ask, and Adonis had no value to live. Yu Tian directly broke his neck. This was the best way to set him free.

Yu Tian looked at the dead Adonis indifferently, and he still felt pity for Chu Hui.

What choice did a person whose memory had been altered have?

If she was not Chu Hui, and her backer was not the Chu family, perhaps she was still a carefree little girl.

He had to help Chu Hui regain her initial memories, and the lives of the thousands of people from the Chu family would be on Kellogg’s head.

Yu Tian met Chu Hui at a bar.

She was a little drunk, Chu Meng and Chu Yue who had been following her all this time despised her very much. Chu Meng said to Yu Tian in disgust, “This is the most disgusting mission I’ve ever received, don’t tell me you still don’t want to give up..,

“Are all the women in the world dead? Do you really have to be entangled with her?”

Chu Yue also said impatiently and coldly, “The Chu family sent a message. This time, the 1,000 people were killed randomly. The parents of several sisters were among them.”

“Didn't you check the group chat?” “Now, the 107 sisters Hate Chu Hui to death. If you really want to do something, then let the people of the Luo Jue tribe throw her into that dark place!”

Yu Tian was too lazy to explain. He only said indifferently, “Stop wasting time with me. I know how to do it. You Don't have to teach me. Let's go over there and have a drink first. Then, we'll see who is unhappy and give him a good beating.”

“I will go and say a few words to Chu Hui. Don't disturb us!”

Unable to stop Yu Tian, Chu Meng said angrily, “I'm unhappy with you. Can I give you a good beating?”

Yu Tian suddenly turned around and hugged Chu Meng's face. He kissed Chu Meng so hard that he almost gave her a kiss.

On the other side, Chu Hui poured the empty glass and ordered the bartender, “Hey, pour me more wine!”

The bartender shook his head helplessly. This beauty couldn't do anything. She was drinking here in broad daylight. It was a waste of her figure.

Just as he was about to pour her wine, Yu Tian covered the glass.

Chu Hui turned her head and saw that it was Yu Tian. She said disdainfully, “You still think I am not ugly enough. What else do you want?”

Yu Tian pushed the glass aside and said indifferently, “I don't want to talk nonsense with you. With Your IQ, you can completely understand what I'm saying. Your memory has been programmed, which is why you're the current you.”

“If you still want to be one of the 108 sisters of the Chu family, how do you think you can repair your memory?”

Although Chu Hui was a little drunk, she still asked in disbelief, “Programmed memory? How is that possible? Are you saying that my memory has been programmed?”

Yu Tian said impatiently, "Almost all the memories of the second-generation developers have been programmed. You are just one of the more important people because Kellogg needs you to provide funding for him."

"Now that his third-generation devices are also being developed, without your funding, his development will not be able to continue. Therefore, he might make a move on the other members of the Chu family,

"Although your memories have been altered, it's not a loss of memory. Your Life's pursuit, your feelings for the Chu family, and so on, will not change. Therefore, I want to give you another chance to help you restore your memories,

"But you know, this kind of restoration, perhaps only you know what to do. Now that I've said what I should say, you can either choose to leave with me, or you can continue to be drunk here!

Yu Tian did not want to say any more nonsense. He got up and walked out of the bar. He had already given the opportunity, could he seize it? It was up to Chu Hui to make her own choice.

Chu Hui was half awake. She believed what Yu Tian had said because the second-generation development equipment itself was harmful to the brain.

In the past, she thought that this kind of damage was caused by radiation. But now she finally understood that this kind of damage was actually a kind of programming to memories, a kind of damage to emotions.

If her memories were really programmed, then everything that she was doing now turned out to be wrong.

The 1,000 people of the Chu family had all died because of this mistake.

Now, he could only try his best to make up for this mistake, if there was still time to do so.

Thinking of this, Chu Hui immediately got up and left the bar with Yu Tian.

The sky above the city was covered with a dark curtain of rain. Rain curtains flowed down from the phantom-like windows.

Chu Hui said slowly, "We have a resource in our hands now, which is the first-generation development instrument. I need a few people. If they are willing to help me, they will be able to restore my altered memory!

Yu Tian nodded and said indifferently, "You can have anyone you want now, but you have to speed up. Kellogg has gone completely crazy without any funding"

“If the third-generation device isn't developed, this guy can swallow diapers..

Now, who are the people you're looking for? “Let's try our best to seize the time!”

I Have 108 Older Sisters #Chapter 371 - Read I Have 108 Older Sisters Chapter 371

Chapter 371 – Chapter 371, The Rules Of The Family

Thank you readers!

Chu Hui gave Yu Tian a list of five outstanding experts in the field of brain research.

Just as they were discussing how to invite these experts, Chu Qing called and said helplessly, “The people from the Luo Jue tribe are here. They want to see you. They're at the Tianhai Group Right Now!”

“I'll go and take a look now!”

Yu Tian immediately activated the Black Phantom and arrived at the Tianhai group half an hour later. Together with Chu Hui, they met the two middle-aged men from the Luo Jue tribe in the meeting room.

When Chu Qing introduced them, the fear in her eyes was very clear.

Yu Tian, on the other hand, had a relaxed expression on his face. Through Chu Qing's introduction, one of them was called Chu Wuyuan, and the other was called Chu Zhenzhe. Their auras were faintly drifting, and they were definitely experts. In fact, their strength was not inferior to his.

The Chu family's extinction division was the most indifferent division. It was normal for experts to be in charge, so Yu Tian didn't find it strange at all.

Chu Wuyuan, on the other hand, only showed a trace of respect to Yu Tian on his face. Then, he said expressionlessly, “My lord, this time, we must bring Chu Hui back to the extinction division no matter what!”

Otherwise, the anger of the entire Chu family wouldn't be able to be appeased, or even suppressed. The elites of a thousand families would be killed in an instant. Although this is the fate of the Chu family, they died for Chu Hui. This is unforgivable!”

At this point, Chu Hui was speechless and could only lower her head in shame.

Even though she felt wronged in her heart, she did not even have the right to speak in front of the management of the Luo Jue tribe. She could only place all her hopes on Yu Tian.

However, Yu Tian smiled indifferently as if this was not worth mentioning. He said disdainfully, "I don't have any objections about letting Chu Hui go to the Luo Jue tribe. You Don't have to tell me this! "

Chu Wuyuan and Chu Zhenzhe looked at each other. In the past, Yu Tian should have strongly opposed it, but why was he so happy this time?

It was useless to think too much. Chu Wuyuan stood up and said coldly, "Since the master has no objection, let's Take Chu Hui back to the imperial capital now!"

Yu Tian spread his hands and chuckled, "Sure. I already said that I don't have any objection. I'm just giving you two a reminder. Chu Hui's memory was modified. This was not her original intention"

"Moreover, there are countless people who are acting like they're competing with the Chu family or on the way. They're prepared to fight for the Chu family as if their underwear had been snatched away!"

"If Chu Hui were by my side, those people might be able to restrain themselves a little. Now, it's your decision!"

As soon as he finished speaking, Chu zhenzhe snorted coldly, "Master, our lost forever tribe isn't a weakling. We can trample on anyone. We've played with all kinds of experts, but we've never known what Fear Is.

"If these people want to play with us, the absolute fall tribe will definitely accompany them to the end. However, Chu Hui must come back with us.

Otherwise, we won't be able to speak to the clan,

"If there are people who really want to die, then we'll definitely help them. Protecting the clan's honor is also our responsibility. We don't have to rely on you alone for everything!"

Chu Wuyuan had the same expression as well. He slowly said, "The honor of the clan and the rules of the clan can not be broken. Chu Hui must return to the Luo Jue tribe with us. This is not negotiable,

"You are the Master of the Chu clan, so you should protect the honor and rules of the clan with us. Am I right?"

Yu Tian naturally understood what he meant. Since he had already said so much, there was no way he could allow it.

If they let Chu Hui follow them to the Luo Jue tribe, the Chu family would definitely be attacked by Kellogg. At that time, even more people would die.

Therefore, no matter what, they couldn't let Chu Hui leave with these two pretentious people. This was for the honor of the Chu family.

At this moment, a few men in black with briefcases in their hands walked into the Tianhai Building one after another.

Their faces under the sunglasses were filled with killing intent and coldness.

The security guard had never seen these people before, and he felt that they were not good people. He stepped forward and stopped them, "Sirs, you are?"

Before he could finish his sentence, a man took off his sunglasses, and his blood-red eyes suddenly glared at the security guard.

The security guard felt his vision suddenly turn black, and following that, two burning pain appeared in his eyes.

When the other security guards saw this, they were scared out of their wits. This security guard's eyeballs had been burned off, and there were two black holes on his face. He was extremely terrifying.

The black-clothed man put on his glasses, turned around, and walked into the elevator.

The security guards immediately called all the security guards of the Tianhai Group and immediately went into emergency mode. Chu Qing received the news at the same time and immediately said to Yu Tian, "Someone broke into Tianhai and injured a security guard!"

Yu Tian, on the other hand, was very calm. He said indifferently, "Let's continue. There's no need to pay attention to them!"

Chu Zhenzhe wanted to prove his strength. He suddenly stood up and said, "Outrageous. They actually dared to come to the Chu family's territory to find trouble. I'll go and see who exactly they are."

If he wanted to go, he could go. Yu Tiancai wouldn't stop him. If he killed one, he would lose one.

Moreover, these people came for Chu Hui. Kellogg, that Old Fart, wanted to play hardball, so he took this opportunity to kill him.

At this time, Chu Qing had already turned on the big screen in the conference room and connected it to the security camera. Soon, she saw the five men in black walking out of the elevator.

Chu zhenzhe also happened to come to the corridor and stood in front of the five men. He said coldly, "What do you want to Do?"

The few of them did not say a word. One of the men suddenly raised his hand and shot out a shockwave.

Chu Zhenzhe's reaction was also fast. He dodged and followed like a Roaring Beast. He raised his fist and rushed into the crowd, punching and kicking.

Seeing this, the corner of Yu Tian's eyes only moved slightly. These developers were all attack-type, and they could actually shoot out a shockwave? If they had the ability, they could create a powerful root.

At this moment, a black-clothed man suddenly stretched out his hand and pressed down. Chu zhenzhe seemed to have been tripped by someone and fell heavily to the ground. The black-clothed man then turned his elbow and pressed Chu Zhenzhe firmly to the ground.

Chu Zhenzhe struggled and could not escape. He was about to be killed by the fire-eyed black-clothed man. At this moment, a violent force erupted from behind him and directly knocked down two black-clothed men.

So it was Chu Wuyuan.

Yu Tian slightly narrowed his eyes. Chu Wuyuan's inner energy was so violent that his level was definitely not below his. If he used this person well, he would definitely be a good helper for him in the future.

He could not think that just because others were powerful, they were just pretending to be strong. Being able to use all the experts by his side was the true strength.

At this time, Chu Wuyuan glared at the man in black and said gloomily, "How Dare You Act so presumptuously here? Do you think the Chu family has no one?"

The Man in black behind fiery eyes walked toward Chu Wuyuan.

"You're courting death!"

Chu Wuyuan snorted and used his inner strength to punch.

However, the man in black didn't even Dodge and let the Fist hit his body.

The next second, Chu Wuyuan was shocked..

?Chapter 372 – Chapter 372, The Clan'S Order

Thank you readers!

Not only Chu Wuyuan, even Yu Tian was shocked.

This black-clothed man's body could actually convert power. The power that Chu Wuyuan had hit him with had all been transferred to the wall beside him, directly creating a hole in the wall.

Just as Chu Wuyuan was shocked, the man suddenly stood to the side. A shock wave suddenly appeared and smashed into Chu Wuyuan's heart.

Just this move had sent Chu Wuyuan flying several meters away, causing him to vomit blood.

When she saw this, Chu Qing wanted to know what Yu Tian was thinking? Should she help him or not.

However, Yu Tian was no longer in the conference room.

When she looked at the big screen again, Yu Tian had already arrived at the corridor. He was calmly saying to Chu Wuyuan, a€?You can't use brute force to fight with these animals. This move of yours is like a dog biting its tail. You haven't killed anyone yet, but you've already lost your mind!a€?

Chu Wuyuan was still unconvinced. He clutched his chest and said furiously, a€?If you have the ability , then go ahead. Don't make sarcastic remarks here!a€? a€?Isn't this nonsense? Why else would I come here? To Watch You get beaten up?a€?Yu Tian gave him a disdainful glare and turned to look at the few men in black.

The fire-eyed man did not make a move. He knew that this young man was Yu Tian, an expert, so he first said coldly, a€?We Only Want Chu Hui. You'd better not stop us. We don't want to have any conflict with you! a€?

Yu Tian laughed and said proudly, a€?Chu Hui is my wife. Are You All Idiots? Why would I Hand Chu Hui over to you?a€?

Another man in black said coldly, a€?Do you think that we are giving you another choice? I know that your name is Yu Tian, and you are a developer of a generation. But you are an enemy of us. You are an idiota€|

a€?Don't waste your breath with us. Do you want to Hand Chu Hui over to us or not?a€?

Yu Tian angrily shouted, "I don't want to waste my breath on you!"

Since it was all nonsense, what else was there to say?

The men in black immediately took action.

However, Yu Tian did not even blink. He casually took out the brainwave jammer that he had snatched from the PBG and easily pressed it.

The interference wave burst out. The three men in black painfully held their heads and rolled on the ground.

Chu Wuyuan and Chu Zhenzhe, who were beside them, were stunned.

It was just a pen-like thing. With just a casual press, it had taken care of the men in black.

Yu Tian even turned around and pretended to be proud of himself, "Did you see that? To deal with these animals, you have to have some means. Your Fists are useless. Everyone has to wear underpants. What are you two still looking at? Take advantage of their weakness now and take their lives."

Chu Wuyuan and Chu Zhenzhe finally reacted. They rushed forward and dealt with them one by one.

At this time, the security guards arrived. Yu Tian immediately ordered them to get rid of the few people and do it cleanly.

After returning to the meeting room, Yu Tian said proudly, "You two see that? You are not a match for these developers. If I hand over Chu Hui to you, it will be equivalent to harming you.

"Chu Hui will stay by my side for now. After I restore her memory, I will naturally tell the patriarch. You Two don't have any objections, right?"

After the previous scene, Chu Wuyuan and Chu Zhenzhe finally experienced the so-called developer's ability.

If they thought about it carefully, they were really no match for them, or at least not yet.

Chu Wuyuan sighed and said sincerely, "We won't insist anymore. I will naturally tell the patriarch about it. Thank you for saving us this time. If you need us in the future, you can tell us anytime!"

Yu Tian slowly stood up and said with a smile, "We are all on the same side. There's no need to be so polite. You two have just arrived at Linhai, so there's no need

to be in such a hurry to go back. Just stay here for a few days and take it as a vacation for yourself!

The two gladly accepted Yu Tian's suggestion and stood up to take their leave.

After that, Yu Tian handed the information of the five experts to Chu Qing.

“Invite these people to Linhai. No matter what conditions they offer, we can agree to them, but the time must be fast!”

Chu Qing glanced at them briefly and nodded. “No problem. I will make the arrangements right away!”

Just as Yu Tian was about to say a few more words to Chu Hui, Chu Xin suddenly walked into the meeting room and said nervously, “Uncle Long is here. He wants to see you!”

Yu Tian frowned slightly. Uncle Long, this old man, was usually not willing to appear. He actually came to Linhai. He must have something important to say to him.

This person must be seen no matter what. In his heart, he always treated uncle long as his elder.

Thinking of this, Yu Tian asked in a deep voice, “Where is Uncle Long? Take Me to see him!”

Chu Xin turned around and said while pushing the door, “In Wanghai Resort, we have already booked the entire resort. Let's Go There Now!”

An hour later, Yu Tian and all the Sisters of the Chu family in Linhai arrived at Wanghai resort.

Although Uncle Long was the butler of the Yu family, he was also extremely noble.

After meeting, uncle long knelt down on one knee to Yu Tian and said respectfully, “This old man greets young master!”

Yu Tian hurriedly went forward to help him up and said with a smile, “Uncle Long, you don't have to be so polite. Please take a seat quickly!”

The two of them sat down in front of the wooden table surrounded by flowers. Yu Tian couldn't wait to ask, “Uncle Long, did you come to Linhai this time with news of my family?”

Uncle Long nodded slightly, but his expression was especially solemn. He sighed before he could say anything. Then, he slowly said, "The family did indeed let me bring you some news. After you found out about your identity for such a long time"

However, no children were born. The 108 sisters of the Chu family couldn't be so monogamous in love as they grew older and for various reasons,

"This time, the family's punishment to the Chu family is also a reminder to you. If you are unable to continue the family line with the 108 sisters, then the Chu family will have no value to exist, "The 108 sisters and everyone in the Chu family..,

"Will immediately disappear from this world. If you are unable to complete the mission, then you will have no destiny. This is an order personally given by the head of the Yu family. Because right now, the hope for the continuation of the Yu family is in you,

"Can the family be strong? This is especially crucial!

When he heard this, he felt a little strange for the entire day. Whether a family could be strong depended on how many children they had. What kind of strange setting was this?

Uncle Long drank a mouthful of tea and looked at Yu Tian with his deep gaze. He said in a deep voice, "Everyone has their own destiny. You are the hope of the Yu family. Whether this family can be strong or not depends on you.

"Therefore, you only have two months. In these two months, you have to have a descendant first. Otherwise, the family will punish the Chu family!"

However, Yu Tian shook his head slightly and chuckled..

?Chapter 373 – Chapter 373. I Don'T Care About It

Thank you readers!

Yu Tian felt that this was a rehash of the same old story, so he didn't want to express it too much. He said indifferently, "Uncle Long, I haven't become the strongest person in this world yet"

In the past, I thought that this task was very simple. But now, I realized that the resistance in front of me was everywhere. Sometimes, it even made me feel like I couldn't be in two places at once. How could I have the mood to have a child with someone else.

If you really want me to be strong, then don't increase the pressure on me in this aspect. I know myself well. At least for now, I can not follow the orders of my family,

even if I really do that, then I don't know when I will be able to become a truly strong person. I have to give myself some pressure and also give myself some goals, "Only then can I become a true powerhouse,

"Only then will I have the ability to protect my woman and my child. Not Yet!"

Uncle Long nodded slightly. He understood Yu Tian's thoughts and his current situation.

However, there was not much time left for Yu Tian to become a powerhouse in such a difficult situation.

The old man slowly stood up and walked to the front of the garden. He looked at the flowers in front of him and said in a deep voice, "It's good that you have such aspirations. However, the family is also under a lot of pressure right now.

Compared to the enemies of the family, your enemies are simply not worth mentioning. If you can't even solve this small problem, how will you be able to control the entire family in the future?

If you choose not to fight for it, then you might as well just die. But you have to live, because no one is willing to accept it. This isn't just a simple loss or gain. This is the honor of a family,

when the family is under the invisible pressure, and you are here, wasting your time for some ants, what you are doing is wrong. Some people, you don't have to waste your time with them, "You just have to erase them from this world,

"You should spend more time on how to understand what it means to be truly strong? "You don't need to play with their intelligence. There are many things that you don't need to use your thoughts on,

"You don't even need to think about anything. You just have to erase them. You should understand what I mean!"

Uncle Long slowly turned around and looked at Yu Tian with a deep gaze , he continued, "If you continue like this, not only will you not be able to increase your strength, but you will also be further and further away from becoming a powerhouse.

"There is a saying that goes like this: once you succeed, thousands of bones will wither. Every true powerhouse will step on the corpses of others to climb up. Someone has to be your stepping stone. What you have to do is not to care!"

Yu Tian understood uncle Long's meaning. It was nothing more than feeling that he was a little slow when dealing with certain people. He would kill them if he had to. That was what a true expert should do.

He picked up the tea and handed it to Uncle Long with both hands. He smiled and said, "I understand Uncle Long's meaning. But sometimes, can I really decide whether someone lives or dies?"

Uncle Long shook his head helplessly and said proudly, "You don't need to doubt it. You just need to do it. I've already said what I should have said to you. If you can't bring hope to the family"

"Then the family won't place their hope on you. At that time, the family will always find a person to replace you. And when that person appears, you will have no value to exist.

"I'm not saying this to scare you. In front of the clan's honor, everything can be chosen. I'm already old. If I say too much, I'll feel tired. My head will be tired, and my heart will be tired.

Just like the current Chu clan. They already don't have much ability to withstand the blows of others. But you still have time. Think about what you should do. I don't know when we'll meet again.

"However, I do know that the scene of our meeting will either be in the family, or I will be on my way to send you to your funeral. Don't go against the wishes of the family. You Don't have the strength yet!

At this point, Uncle Long slowly poured the tea in his cup onto the ground. Then, he stuffed the cup into Yu Tian's hand and left the garden without looking back.

Looking at Uncle Long's back, Yu Tian frowned slightly.

Now, Yu Tian finally understood why Uncle Long wanted to see him personally. He wanted to tell him that his enemies were not only those ants, but also stronger opponents.

Moreover, there was another person who was thinking about how to replace him. As for who this person was, although Uncle Long did not say it clearly, this person definitely existed.

This person's influence in the family was also very great, and his identity was definitely not below his own.

However, this was the only information available at the moment, and Uncle Long was unwilling to tell him more.

Then, he should also consider how to reverse the current situation, and the only way seemed to be to have children.

But he still did not want to have children now.

Once he did that, it would be equivalent to compromising with the clan. No matter what he wanted to do, he would have to look at the clan's face.

That wasn't the fate he wanted.

Thinking of this, Yu Tian smiled indifferently and walked out of the garden. If the clan wanted him to make a choice, he would definitely tell the clan.

“I don't Care!”

In the blink of an eye, it was noon the next day. Chu Qing invited all the experts over.

Yu Tian brought Chu Hui and after meeting the experts , he briefly explained his thoughts.

Chu Qing pointed at the white-haired old man and said to Yu Tian in a low voice, “His name is Kong Minchang. He is the most experienced and the oldest among these experts.

He has outstanding achievements in the field of brain cells!”

Although Kong Minchang was in his seventies, he looked very energetic and spoke with confidence.

“To be honest, we are not unfamiliar with what you have said. Although we have not completely studied this field, there are many academic reports in the world that have already studied this field.

“But we have never heard of the memory programming that you have mentioned. This still requires time to study!

Yu Tian chuckled and said indifferently, “Others have already done the research for you. In a while, my people will tell you some of the research information. You only need to develop some equipment based on this foundation.”

“As for the funding and venue, you don't have to worry. I will provide you with the best.. Even if you want some aunts to serve you, or you need a sauna and massage every day, I will be able to satisfy you, “The only thing I can not give you is too much time!”

?Chapter 374 – Chapter 374: Making Money Is Possible

Thank you readers!

The experts looked at each other. What lay before them was like an endless sea. They had already swam into the sea, and there was still everything they wanted to know in this sea.

Why didn't they do it?

This was also an opportunity for them, wasn't it?

Kong minchang gritted his teeth and nodded. He said firmly, "If that's the case, then we'll do our best!"

There was no need to say anything else. Yu Qian immediately asked Chu Qing to arrange everything they needed.

At this moment, Yu Tian's phone rang. He looked down and saw that it was Nanhua Dongmeng Calling.

Chu Qing could tell from Yu Tian's gaze that this guy had something up his sleeve. She gritted her teeth and asked coldly, "Who called you? Is it those vixens you provoked outside again?"

Yu Tian said helplessly, "You're the president of the Chu family's Tianhai Group after all. Can't you be a little more civilized? What's a Vixen? Can't it be something else?"

Chu Qing couldn't be bothered with him. She first arranged for a few experts to go to the hotel to rest.

At this time, Yu Tian also picked up the phone. Nanhua Dongmeng's somewhat lonely voice sounded from the phone.

"Brother Tian, do you have time now? Can We meet up?"

Yu Tian did not even think about it and blurted out, "I definitely don't have time. I'm so busy that I don't even have time to go to the bathroom. I just do whatever I want. If you have anything to say, let's just say it over the phone!"

Nanhua Dongmeng was silent for a moment before she said awkwardly, "When I'm playing games, I also do live broadcasts. The people who join Our Gang will listen to my commands in my live broadcast room."

"But now, Young Master Wen has set up a live broadcast platform, and he has also set up a lot of female streamers to carry out live broadcasts of their talents and games. A lot of people from our gang have gone to that live broadcast platform,

“There are also a lot of people who give tips to that live broadcast platform. On the contrary, my live broadcast room, which used to have thousands of people live streaming each time, now only has a few dozen people.

“Moreover, most of the members of Our Gang have jumped to young master

Wen’s gang. I feel very uncomfortable and want to go out and have a drink with you to relax!”

Yu Tian slightly narrowed his eyes. Young Master Wen’s actions were a bit too much. He clearly did not put him in his eyes and did not give him face.

Originally, he did not want to participate in these conflicts in the game, but young master Wen invested so much in the game. Wasn’t it because he wanted to control the players in the game and then use this to blackmail the server?

Anyway, he still had some free time, so he nodded and said, “In half an hour, we’ll meet at Sunny nightclub!”

He hadn’t been to the nightclub for a long time, so he took this opportunity to see what his sister had done to the nightclub.

Half an hour later, Yu Tian saw Nanhua Dongmeng at the door of Sunny nightclub.

She looked particularly haggard, as if she had not slept for a long time. Even her eyes were a little dark.

Nanhua Dongmeng saw that Yu Tian was still a little wronged. Tears were hanging from the corners of her eyes. She said sorrowfully, “Everything was fine, but that young master Wen is really too hateful!”

She only nodded slightly and chuckled, “Hurry up and wipe your tears. Those who don’t know will think that I’m playing hooligan with you. Let’s go in and talk!”

When the security guard saw that the boss had arrived, he hurriedly radioed Yi Xueyue and Yu Qi’er.

Therefore, when Yu Tian walked into the nightclub, Yi Xueyue and Yu Qi’er greeted him with a smile.

After introducing each other, Yu Qi’er only gave a simple glance at Nanhua Dongmeng. She was neither cold nor enthusiastic.

There were too many women who wanted to hang out with Yu Tian. It was all for the sake of some money. Meanwhile, Yu Tian was just playing along with them. It was

impossible for him to have anything to do with any other women other than the 108 Sisters of the Chu family?

The business of the nightclub had always been so good. It was only evening, and the nightclub was already packed with people.

Moreover, under the management of Yi Xueyue , there were many new girls in the nightclub.

It was a fancy business to begin with, and Yi Xueyue was also an absolute expert. Countless girls were willing to follow her wholeheartedly.

Therefore, the business of this nightclub was extremely popular every day. There were even people lining up in the hall to wait for their seats.

Because the private rooms were already full, Yu Tian could only bring Nan Hua Dong Meng to the office.

At this moment, Nan Hua Dong Meng was still in shock. She sat down and said excitedly, "So this nightclub is also yours. I came here to play with others once before. The expenses here are really high!

One day, she looked at the time and said indifferently, "In the future, if you like to come here to play, you can just mention my name. But we're not talking about this now. Let's talk about your livestream room!

Nanhua Dongmeng took a sip of her drink and slowly said, "I originally wanted to earn some extra money while doing livestreams. As long as someone is willing to give me gifts, at least I can earn some living expenses or something."

"But now, Young Master Wen has specially set up a live broadcast platform and has done a lot of publicity. Most of the live streamers in the game are now on his live broadcast platform."

"It doesn't matter if I earn money or not, but this affects the development of the game. Every day I play the game, I feel very uncomfortable. Tian "Ge, you have to think of a way to let that young master Wen know that this is wrong!

Yu Qi'er, who had been sitting at the side, supported her chin with her hand and remained expressionless. After hearing this, she said, "The live streaming platform is very profitable now. Just the commission alone can earn a lot of money.

"Currently, there are many live streaming platforms in the country. Every live streaming platform earns a lot of money. However, the live streaming of the game is not the main body. Many people go for beautiful women. There is a good saying..,

“If you want to be popular, show your legs. If you want to earn money, show your feet. If you want to reward more, you have to twist your waist well.”

However, there are not many people who play games!”

Yu Tian looked at Yu Qi'er curiously and said with a frown, “Do you have anything that you don't study? You even know so much about streaming platforms?”

Yi Xue Yue smiled charmingly and explained on behalf of Yu Qi'er, “Actually, when I'm not busy, I often read books and have a wide range of contacts. In the future, he will definitely become a capable consultant for you!”

Yu Qi'er chuckled and said proudly, “There really isn't. I don't know. Brother, you're almost out of date now. When you're free, you should take a look at the current fashion and Trends!”

“I don't have that kind of time!” Yu Tian said disdainfully, “I have that kind of time. It would be great to find someone to fight with. I don't have that kind of idea to watch a live broadcast.”

“But speaking of making money, if the live broadcast platform is so awesome, then let's make one too. I'll call Du Tianci first and ask him to come over for a drink with me. I'll see if he has any experience in this area.. Sometimes this guy is very smart and has many ideas!”

?Chapter 375 – Chapter 375 Required Quite A Lot

Thank you readers!

Du Tianci arrived at the Sunny nightclub as fast as lightning. This was a good opportunity for Yu Tian to treat him to a drink. How could he miss it?

After a few glasses of red wine, he started to talk more.

“Boss, there's no problem with the live broadcast platform. There aren't any technical requirements for this thing. We can set up a server and an APP. With the addition of the computer, we can act like hooligans!”

Yu Tian smiled indifferently and said, “Act like a Hooligan? What you're saying is as if I set up a live streaming platform just to act like a hooligan. If I want to act like a hooligan, why would I need to set up a live streaming platform?”

Du Tianci narrowed his eyes and said unwillingly, “You can act like a hooligan when you fight, but in this aspect, you're really just watching the show outside the door. Video Entertainment Software emphasizes on a kind of recommendation algorithm,

“In fact, in the end, it's just collecting users' information and viewing habits, and the platform automatically makes recommendations. This is like peeping into your privacy and letting you see more of other people's privacy,

“For example, if you like to watch beautiful women, as long as you've seen one, or liked, collected, followed, and so on, the software program will record your hobbies. In the future, the videos that will be recommended to you will all be in this aspect!

So that was the case. Yu Tian really did not understand what was going on.

Du Tianci added, “Also, there is the quality of the streamers. Nowadays, when a streamer is not popular, she can do whatever you want her to do. After she becomes popular, she will put on all kinds of airs and ask for gifts. In less than three sentences, she wants gifts,

“No matter how many times you give her, she will be an idiot. However, this kind of streamer has a benefit. She can make money for herself and also for the live streaming platform. The platform is eager for these streamers to put on airs. The more they earn, the more the platform will earn,

“Moreover, some streamers have all sorts of private operations after adding a player's v. Dating, getting a room, and online shows are all very normal. In the end, it's all for the sake of making money, and also for the sake of being popular ,

“Therefore, streamers don't have many good things. If you have money, you'll be your father. If you don't have money, just click on Red Heart and add a follow. People will look down on you!”

When he said this, Nanhua Dongmeng, who was beside him, shot him an unfriendly glance.

This fellow killed a whole ship of people in one go. Could it be that all streamers were like this?

Yu Tian chuckled. His thoughts were different from du Tianci's.

Being a streamer was also a type of occupation, and being a player was also a

type of consumption mode. If you let them have a good time, wouldn't it be normal for them to spend some money?

If they didn't want to spend money after having a good time, that would be acting like hooligans.

Thus, Yu Tian decided, “It sounds very interesting. Then I'll invest some money. We'll also set up a live broadcast platform!

Yu Qi'er said in surprise, "Brother, are you really going to do it?"

"Of course. Why Not? This is also to earn money!"

Yu Tian slowly got up and came to the window. Looking at the colorful world in front of him, he said indifferently, "If everyone wants to eat this cake, then let's see who has a big mouth. Tianci, go back and make some arrangements. Tomorrow morning, I'll announce my decision!"

Du Tianci did not say anything else. With galaxy technology and Yu Tian's strength, he had the ability to easily take down a live streaming platform. Now, it was up to Yu Tian to decide what to do?

Nanhua Dongmeng was the happiest. If this live streaming platform became popular, she would also become one of the earliest internet celebrities. As expected, by clinging onto the legs of a rich man, it would be much easier to ascend to the heavens.

Right at this moment, Chu Qing called. Her tone was very urgent as she said, "Many people were injured!"

Yu Tian frowned and asked coldly, "Are you guys injured?"

Chu Qing's heart warmed. She said in a low voice, "Only Chu Rou suffered some superficial injuries. The other employees were seriously injured and have already been sent to the hospital!"

"Don't worry, I'll Rush Back Right Now!"

After hanging up the phone, Yu Tian was thinking, who did this? They actually dared to make a move on the Tianhai organization?

Yu Tian sat in the Black Phantom and the phone rang again.

This time, it was an unfamiliar number, and it was from Super Nation. Yu Tian immediately picked it up.

A hoarse voice sounded.

"Mr. Yu, I'm a second-generation developer. My name is Finello, and I'm speaking to you on behalf of Dr. Kellogg. Previously, I was the one who asked someone to do the Tianhai organization's matter, and it was just to give you a reminder."

"A reminder that you know that in order to get what we want, we can do whatever we want, and our requirements are very simple. Chu Hui, Monica, and 100 billion!"

Yu Tian was especially calm at this moment. He had long thought that Kellogg would continue to act pretentious, but he had never thought that they would actually dare to play with him like this.

He smiled indifferently and said, "You want quite a lot of things, but I don't want to give you any of them!"

Finello let out an ear-piercing laugh like a ghost and said, "Believe me, you definitely don't want to do this, because we already have all the business information of the Chu family in the world,

"We can attack the business structure of any Chu family anytime, anywhere, including the most enviable 108 sisters. If you can bear it, then next..., I'll randomly pick one of the Chu family's sisters to attack,

"Think about it, this is really exciting!"

Yu Tian did not want to waste his breath on him. It was impossible to compromise. Kellogg's appetite was not that small. If he only needed funds, he did not need Chu Hui.

He only wanted to use Chu Hui to blackmail the Chu family and himself. In the future, he would slowly provide him with everything he wanted.

Therefore, no matter what, he could not agree to his request.

However, not agreeing did not mean that he had to go against him. The enemy was in the dark, and he was in the open. Now was not the time to act openly.

Yu Tian chuckled and said, "I can consider your request, but right now, I can't give you an answer. Find yourself a place and have a drink first. Then, find a girl to flirt with!"

Finello said, "Mr. Yu, what you don't lack the most right now is money, but what you lack the most is time. You only have twenty-four hours. After that, it will be even more exciting!"

After hanging up the phone, Yu Tian frowned slightly and said coldly, "Finello, Kellogg, you guys are playing well with me. Fine, you want to play, right? Then let's see who can play until the end!"

Then, Yu Tian came to the Tianhai building.

Yu Tian originally didn't want to show his face in front of the reporters, but he rolled his eyes and squeezed through the crowd to the entrance of the building.

At this time, a reporter shouted, "Mr. Yu, is it man-made?"

Yu Tian chuckled and said, "Of course not!"

Chapter 376 – Chapter 376, Self-Confident Technique

Thank you readers!

As he spoke, Yu Tian's gaze swept across the crowd. The developer who had planted the bomb must be looking at him with great enjoyment.

In the crowd, a cold and expressionless blonde girl turned around and left the moment her gaze met Yu Tian's.

The corners of Yu Tian's eyes fluttered as he thought to himself, "Your figure is so good, but it's a pity that you're a developer. On account that you're a woman, I'll give you a chance to leave this time! Think of it as a long-term plan to catch a big fish."

In the conference room of the skysea building, Yu Tian used a golden needle to heal Chu Rou's external wounds.

At this time, Chu Qing said angrily, "They actually dare to mess with my skysea building. I think they don't want to live anymore. Fortunately, there aren't too many losses this time. Otherwise, even if I turn the sky upside down, I won't let them go!"

Yu Tian said with a distressed expression, "You don't even know who your opponent is. Who are you doing this with? You'd better send a message to your sister group First and tell my sisters to pay more attention to security for the next few days!"

After saying a few more words, Yu Tian quickly arrived at the secret research and Development Center.

This place was originally meant to develop a pharmaceutical factory, but now it was specially used to develop first-generation development equipment. Monica and Tiffany also lived here.

Yu Tian saw that the security level here was especially high. The security guards who wore black suits on the surface were all family mercenaries that Chu Qing had asked Chu Ai to send over from the imperial capital.

It was said that each of them had come from the battlefield and were very valiant.

Yu Tian walked into the R & D Center and saw Chu Hui, Kong Minchang, and the others studying how to change the settings of the instrument.

Seeing Yu Tian, everyone stood up and greeted him.

Yu Tian smiled and said, 'Everyone, don't stand on ceremony. I'm just here to check on your progress. How's the research going?'

Chu Hui shook her head helplessly and said with shame, 'The complexity of this instrument is beyond my imagination. It seems impossible to change its settings!'

Kong minchang said dejectedly, 'This is the first time I've seen such a complicated machine. If I didn't see it with my own eyes, I really don't believe that there is such a machine in the world.'

Yu Tian didn't want to listen to this nonsense at all. It was a waste of time.

He raised his hand to touch the machine and then asked, 'What kind of difficult problem have you encountered now? It's best if you tell me in a simple and concise manner. This isn't an academic report. It's too abstruse. I can't understand it either!'

Chu Hui explained, 'It's very simple. Some of the manufacturing of this machine is irreversible. I've tried to use all kinds of methods to crack it, but it still doesn't work. It can only develop the brain, but it can't change memories!'

Yu Tian understood what she meant.

At the same time, he also felt that these people were a little silly.

'I'm curious. Why do you want to change ?? Tian's question made everyone unable to answer.'

Seeing them all staring at each other, Yu Tian chuckled and continued, 'Memory programming is just a special function of the second-generation instrument, even though I've never seen the so-called second-generation instrument,

'Why do you insist on changing it? Why Don't you add this function? Wouldn't it save more time?'

Chu Hui was enlightened immediately and said excitedly, 'Yes, why didn't I think of this? But, if you want to add this function, the technology is also very complicated. This requires a strong program computing ability!'

Yu Tian smiled disdainfully and said, 'I can find someone to help you. You just need to take out the design model!'

In the blink of an eye, it was evening. A Chu family's private plane slowly landed in the airport.

Chu Xuan, who was wearing a black t-shirt and shorts, walked out of the airport under everyone's eyes.

Yu Tian took off his sunglasses and waved at her.

On the way to the R & D Center, Yu Tian briefly told her what she needed to do.

Chu Xuan listened as she looked at the scenery outside the window. Suddenly, she asked, "Were you born here?"

Yu Tian nodded and said indifferently, "That's right. This beautiful city gave birth to the strongest person in the world, but that's not the point. We're pressed for time now."

"If you can't complete the calculation of the program by this time tomorrow, the 108 sisters of the Chu family might be attacked. I don't need to tell you what the situation will be like then. It will definitely be very lively!"

At this moment, Yu Tian suddenly realized that someone was following him.

The woman in the black supercar was the woman from the Tianhai building today.

She clearly wanted to follow him to the research and Development Center.

Yu Tian's lips curled into a smile.

Such an obvious intention was really meaningless. After all, she was a developer. Couldn't she have kept it a secret?

Thinking of this, Yu Tian suddenly made a turn, and the Phantom Ghost directly swung its tail 180 degrees.

It was for Chu Xuan, and she almost spat it out. She cursed angrily, "Are you crazy? Do you think this is a tank?"

At this moment, Yu Tian was brushing past the blonde girl, and he raised his eyebrows at her with disdain.

The blonde girl only gave a cold and arrogant smile. She also made a 180-degree turn, and after a puff of black smoke came out from the ground, she caught up with her.

Yu Tian did not care about this at all, and continued to accelerate.

Chu Xuan held the handle tightly, bared her canine teeth, and said in fear and anger, "Hey, can you slow down? Are you crazy? In front, in front, ah! you have to slow down!"

Yu Tian was absolutely confident in his own skills. Even the experts on the stage were almost scared to death by him. Could it be that he couldn't win against a woman? How interesting.

However, the blonde girl's skills were also exceptionally good. She maintained the same speed as him, shuttling and swinging in the fleeting light and shadows.

Yu Tian felt particularly excited. With a flick of his tail, he steadily entered an alley that was less than five meters wide and continued to speed up.

At this moment, a flaw appeared in the blonde beauty's technique. Although she also rushed into the alley, she still bumped into the wall, causing sparks to fly.

She was very angry and accelerated in an attempt to bump into Yu Tian's Phantom.

However, Yu Tian smiled indifferently. Another negative 75 degree corner appeared in front of him. This was an extremely challenging corner.

When Chu Xuan saw this, she was so scared that she closed her eyes.

However, Yu Tian easily turned this corner without even a millimeter of error.

The golden-haired woman at the back did not have enough vision. Just as she was about to hit the Phantom, she suddenly turned and disappeared.

Before she could slow down, she hit her head against the wall. The violent vibration caused her to spin.

When she woke up a little and climbed outside, Yu Tian honked the horn, looked up at her, smiled, accelerated, and disappeared in the blink of an eye..

?Chapter 377 – Chapter 377, Instrument Testing

Thank you readers!

At this time, Chu Xuan grabbed Yu Tian's hair, opened her mouth, and bit it. It was done by Yu Tian, and she almost hit the telephone pole.

He pushed this crazy woman away and said helplessly, "You are a dog. Can't you talk properly? Look at the bite marks on your chin!"

"You deserve it. Don't you want to die? I'll bite you to death!" Chu Xuan said proudly.

Yu Tian frowned and said, "You're the one who's playing with your life. Last time, Chu Hui smashed my computer, and 1,000 people from the Chu family died. Now that

you've bitten me, aren't you afraid that 1,000 more people from the Chu family will die?a€?

Chu Xuan snorted coldly and said, a€?I don't care. Who told you to scare me!a€?

The two of them came to the R & D Center. After meeting each other, Chu Xuan immediately began to write the program according to the model provided by Chu Hui.

At the same time, the blonde beauty with a bloody head took a taxi and said in a low voice, a€?Go to the Cherry Blossom Hotel!a€?

The master looked at her and asked kindly, a€?I think you should go to the hospital!

She didn't say anything. She touched the blood on her head, then put her hand into her short skirt, took off her stockings, and covered her head.

This sexy action almost made the master's nose bleed.

Back at the hotel, Finello sent a video request.

She first wiped the blood on her forehead, and then connected to the video.

In the video, a white-haired middle-aged man looked at her coldly and said in a hoarse voice, a€?Luoya, it looks like you failed!a€?

Luoya's expression was indifferent, and she did not say anything.

Finello was silent for a moment. Yu Tian was a master, and Luoya was no match for him.

Finello sneered and said, a€?I don't care what you do. You must not affect our mission. You just need to do the job I gave you well. Don't forget, I am your master. You have to listen to me.

a€?If you ruin Dr. Kellogg's plan, I will kill you with my own hands. Tomorrow, I want you to destroy Yu Tian a€?'s villa. I will tell you one last time, don't provoke Yu Tian unless you don't want to live anymore!a€?

After the video was cut off, Luoya gritted her teeth. She had lost all her face today.

She had once been a high-ranking commander of the Russian Alfa Special Forces. No matter how powerful the enemy was, she had seen it all before. However, this Yu Tian was really difficult to deal with.

No matter what, she could not let other developers look down on her. No matter what, she had to make Kellogg look up to her.

In the blink of an eye, it was the next morning. Chu Xuan had already completed the software test and had a perfect connection with the brain development instrument. Everything was running smoothly.

Chu Hui had also analyzed the data of the instrument. The frequency of the brain waves was perfect.

Kong minchang said to Yu Tian worriedly, "CEO Yu, although the instrument is normal now, it has not been tested. The principle is to stimulate the deep memory lines in the brain to restore the altered memories.

"If it succeeds, of course it can restore the memories, but if it fails, not only can it not restore the lost memories, but all the memories may disappear!

Yu Tian was silent for a moment before he thought of an idea.

"Can we do an experiment with small animals first?"

Everyone looked at each other, kong minchang said helplessly, "It's like this, CEO Yu. What you said is not impossible, but what we are doing now is to restore the memories. If the memory of the object itself exists, it will have no effect!"

"Isn't That Easy? I can first make them lose part of their memory, and then we can do it!"

Yu Tian said it very easily, but Kong Minchang and the other experts, even Chu Hui, thought that Yu Tian was just a fantasy.

One of the experts even said with a mocking tone, "How is that possible? Are you saying that you can use a hammer or something to hit an animal's head?"

If we do that, we might really be able to make them lose their memories, but we don't know if they'll be able to live!"

The others also let out soft laughter. They felt that Yu Tian's idea was really too simple.

However, Yu Tian did not care about what they thought. He smiled indifferently and said, "Previously, you guys did not know that there were brain development equipment and developers. Now, don't you all believe it?"

If you haven't seen it, how do you know that it's impossible? Someone get me a dog!"

Everyone stopped smiling. They saw a special confidence on Yu Tian's face.

Since that was the case, then let's see how he could make a dog lose its memory.

Soon, the security guard brought a silly dog. That silly dog had no idea why he brought it here? It even looked at Yu Tian curiously.

At this moment, Yu Tian asked the security guard, "Is this your dog? What's its name? What hobbies do you usually have? What do you like to eat? What are your habits?"

The security guard thought for a moment and said with a smile, "It's called silly. It's two years old, and its biggest hobby is to run behind the female dog. It likes to eat sausages, and its habit is to pee immediately when it sees any kind of black dog!"

Yu Tian nodded slightly and asked this because he wanted to test silly after it lost part of its memory.

At this moment, Yu Tian immediately took out a golden needle and pierced it directly into silly's ear.

Just as everyone was surprised, silly, who was still alive and kicking, suddenly stopped moving. Its expression was as if it had been slapped.

A few seconds later, Yu Tian immediately took out the golden needle and said smugly, "I've deleted 20% of its memory now. Do you have a sausage? Give it one!"

The security guard took out the sausage in disbelief and placed it next to Dumby's mouth. This dumby looked at the sausage with a questioning gaze and did not take a bite.

This scene completely shocked everyone.

Yu Tian asked the security guard to find a black dog for Dumby to look at. In the end, dumby stopped peeing and forgot about the whole habit.

At this time, Kong minchang said in disbelief, "My God, how did you do it?"

Yu Tian smiled indifferently and said, "To me, it's very simple, but to you, it's very complicated. But that's not the point. I made this dog's left brain lose part of its memory,

you can use the instrument to try to repair his left brain. If you can succeed, then our changes to the instrument will also be successful. Everyone, hurry up and start now!

Since that was the case, everyone was convinced and began to adjust the device.

Then, they performed a series of memory repairs on the dog.

Chu Hui was always observing the data of the device, and Chu Xuan's software was running normally.

A few minutes later, Yu Tian asked the security guard to carry the dog on the ground. Everyone gathered around, hoping for a miracle.

The security guard took out another sausage and threw it to silly.

After smelling it, silly threw the sausage into his mouth..

?Chapter 378 – : Chapter 378 Met The Requirements

Thank you readers!

The first test was successfully passed. Everyone applauded excitedly.

Following that, the security guard pulled the black dog in front of dummy. When dummy saw the black dog, he lifted his leg and peed. All his habits had been completely restored.

Kong minchang said excitedly, "We succeeded. This device is completely useful. It can effectively restore memories. This is simply a miracle. It's a miracle created by Mr. Yu!"

Everyone was very supportive of Kong Minchang's words. If it weren't for Yu Tian, they would still be wondering how to solve the problem of the device restoring memories.

And these problems were easily solved in front of Yu Tian's intelligence.

Yu Tian didn't care about their applause and praise at all. Right now, he was in a race against time. If he couldn't let Chu Hui restore her memories immediately, then the other plans wouldn't go smoothly.

Thinking of this, Yu Tian turned around and encouraged Chu Hui, "Now we can try to restore your memory. I believe in the joint efforts of all of us. Are You Ready?"

Chu Hui nodded her head in an advanced manner and said without thinking, "It has been hard on all of you for my memory. Now, let's start restoring my memory!"

Then, Chu Hui took a deep breath and sat down on the chair in the instrument.

Kong Minchang and the others hung the instrument on Chu Hui's head.

After Chu Xuan received Yu Tian's instructions, she immediately started the software.

The other technical experts also started to observe the data.

At this moment, Chu Hui's mind was extremely chaotic. Many things that were originally familiar became extremely unfamiliar, especially the memories of Dr. Kellogg and Adonis. It was like an illusory dream.

It was so real in the dream, but when she woke up from it, everything became illusory.

Some things that she had forgotten appeared in her memories, just like the words Kellogg had said to her after she used the second-generation device for the first time, as well as the honor of her father, the Chu family, after she developed her IQ.

Including her fate with Yu Tian, and so on, all the memories suddenly returned to her mind.

When Chu Hui suddenly opened her eyes, tears involuntarily flowed down her face.

She murmured with grievance and sadness, "Oh God, what did I do?"

Yu Tian hurriedly came up to her and gently held her in his arms, he comforted her, "You didn't do anything. You didn't do anything wrong. Everything was done by Kellogg. Now that you've recovered your memory, you're back to the original Chu Hui!"

Chu Hui looked at Yu Tian affectionately and said with tears in her eyes, "Thank you, Yu Tian. You helped me recover my memory, but I still treated you so badly. I even made the Chu family lose a thousand lives for me!"

"What should I do to make up for my mistake?"

Yu Tian said indifferently, "Now, I really need you to do something. Dr. Kellogg asked Finello to launch a full-scale attack on the Chu family!"

"His condition is that I give you and Monica to him, including 100 billion. Otherwise, he will attack the 108 sisters. Fortunately, he doesn't know that you have recovered your memory!" "This is exactly what we can use!"

Chu Hui immediately understood Yu Tian's meaning and said without thinking, "I will listen to everything you say, but Kellogg is not a simple person. Our plan must be detailed and perfect in order to trick him!"

Yu Tian nodded and said, "I think so too. Let's go and see Monica now and see what she has to say. But I think it will be difficult to convince her to go to Kellogg. Moreover, Monica is not stable now. There are many aspects that I don't completely trust her!"

"Let's see her first. At least we can know what she is thinking?"

At the same time, Luo Ya also appeared near Chu Qing's villa.

At the same time, Finello, who was far away in Super Nation, also called Yu Tian.

When Yu Tian saw the phone number, he first gave Chu Hui a look. Then, he picked up the phone and said with a faint smile, "Mr. Finello, you're really early. You slept with a few women yesterday. are your legs weak now?"

Finello said coldly, "It's already night here. I want to know your decision now. Before you say it, I have to remind you that your current thoughts will determine the life and death of many people,

"And I hope that your decision will satisfy me, so that everyone will be happy!"

Yu Tian laughed and said disdainfully, "I'm very happy that you're dead, but you can't die yet. But soon, you'll die in my hands. As for your request, of course, I can fulfill it."

After all, this is for the 108 sisters of the Chu family. You Bastard, you really know how to take advantage of others' weaknesses. However, I like you very much. If I'm free, I'll definitely have a drink with you!"

Finello was a little excited. His hoarse voice trembled as he said, "So you agreed to my request?"

"Yes, I agreed to it. However, I have a condition. That way, we'll be fair!" "What condition do you asked, puzzled.

Yu Tian chuckled and said, "As I said before, I'm doing this for the 108 sisters of the Chu family. They are my future wives, so my condition is that after Chu Hui completes your mission, I hope that she can return to my side safely,

"If you can't do this, then I, Yu Tian, swear to you that I will do nothing for the rest of my life. I will kill second-generation developers like you and Kellogg every day. Do you agree or not?"

Finello frowned slightly. Kellogg did not tell him what kind of important role Chu Hui played in the plan? But it was no big deal to agree to Yu Tian now.

When Kellogg developed the third-generation instrument, there was no need to be afraid of Yu Tian's ability at all.

Thinking of this, finello nodded and said, "I can promise you with my life that I will definitely let Chu Hui return to your side in one piece. After all, we only want money, not human lives,

"We also don't want to make you an enemy, so you don't have to worry so much!"

Yu Tian said proudly, "That's right. We are a deal in itself. This is only fair. In the afternoon, I will let Chu Hui and Monica take the earliest flight to Super Nation. I will also let them take the 100 billion!"

Finello said, "Then it's a deal. I will personally go to the airport to pick them up. I hope we can have a happy cooperation this time!"

Although he said it so easily, Yu Tian wanted to tear this Finello into pieces.

However, he still said very easily, "Since our cooperation has been achieved, then can you get rid of all the developers who are here? I see them waving in front of me. It's very annoying.. Please let me be happy!"

?Chapter 379 – Chapter 379, Continue To Attack

Thank you readers!

Finello readily agreed to Yu Tian's request and said with a smile, "Now that we are partners, I will naturally not let them continue to disturb you. In fact, I have already given them the order to leave,

you Don't have to worry about this anymore!"

Yu Tian really did not want to waste any more time with him and directly hung up the phone.

Finello also gave Luo Ya an order at the same time.

"We have reached a deal with Yu Tian, and the attack plan has been canceled. Now, all of you rush back to Super Nation and wait for a New Order!"

Luo Ya gritted her teeth. She had already made preparations to attack, but now she wanted to give up.

Thinking about Yu Tian's smug look last night, Luo Ya's heart was filled with hatred.

She turned around and wanted to give up, but she really couldn't bear to give up this opportunity.

After much thought, Luo Ya decided not to follow Finello's orders anymore. No matter what, she had to let Yu Tian know how powerful she was.

Any-vvay, Kellogg's side also wanted Yu Tian to die. She would complete this plan ahead of time and treat it as a gift for Kellogg.

Thinking of this, Luo Ya narrowed her eyes coldly. She picked up a palm-sized stone beside her and threw it at the villa.

It was just an ordinary stone, but with the help of Luo Ya a€?s skills, it completely turned into a bomb. The moment it hit the villa, it exploded with a loud bang.

Chu Qing and the others in the villa fell to the ground the moment the explosion occurred.

Chu Meng and Chu Yue reacted the fastest. They immediately jumped out of the window and into the backyard.

At that moment, Luo Ya picked up another stone and threw it at the villa again.

Following that, there was another explosion. The entire luxurious villa collapsed into half after two explosions.

Chu Qing and the others in the house rushed to the basement desperately.

At the time of the third explosion, Chu Xin was about to close the door to the basement when the wood shavings from the explosion pierced deep into her shoulder, causing blood to flow.

Chu Rou and Chu Qing pulled her down forcefully.

At this time, Chu Meng opened her crossbow and saw Luo ya throwing rocks from the side of the villa. Without saying anything, she raised her hand and shot an arrow.

Luo Ya was caught off guard and her arm was pierced by the crossbow arrow.

She turned around and wanted to leave, but Chu Yue also jumped over and kicked her stomach.

Luo Ya retreated quickly. Before Chu Yue could attack again, she picked up a stone and threw it at Chu Yue.

Fortunately, Chu Yue was extra cautious and did not touch the stone. He dodged it directly.

When the rock landed on the ground, it exploded immediately. The powerful shockwave flipped Chu Yue to the ground.

When Luo Ya was about to throw the rock again, dreamy also rushed up and raised her crossbow to shoot.

The crossbow was shot at Luo Ya at lightning speed.

After dodging, Luo Ya threw the rock and turned to run.

If she didn't have to dodge the shockwave of the explosion, Chu Meng really wanted to shoot a few more arrows at her.

Chu Yue rubbed her aching arm and said coldly, "Let's not chase after them for now. Let's hurry up and see if Chu Qing and the others are injured. I'll call Yu Tian Now!"

Yu Tian was discussing with Chu Hui how to get Monica to agree to his request and head to superpower.

After receiving Chu Yue's call, Yu Tian's anger was immediately ignited.

He directly dialed Finello's number, and as soon as the call was connected.., Yu Tian immediately cursed, "Didn't we agree on a deal? Are You F * cking going to play hoodlum with me? Didn't you say that you've already retreated your second-generation developers.

Just a few minutes ago, my villa was attacked by your developers, and the person who attacked us was that blonde woman. Finello, listen to me carefully, now that your people have injured my woman..,

our deal can not be carried out anymore. From now on, I will take out a trillion yuan and give it to all the mercenaries in the world, including PBG. I want them to hunt you down endlessly,

pass a message to Kellogg for me. If I don't kill him, I will write the word "Yu Tian upside down!"

Finello was completely stunned. He hurriedly explained, "Mr. Yu Tian, I think this is a misunderstanding. Are you sure that the person who attacked you is our developer?"

"A woman who can explode just by throwing stones, who else could it be but you developers? In this world, only shameless developers like you can turn those ordinary stones into bombs at any time!"

"You still dare to tell me that she isn't your second-generation developer? Stop joking with me. Finello, the battle between US will start from now on!"

Yu Tian Ren Hung up the phone immediately after saying that. He really did not want to continue talking to him.

He rushed back to the villa as quickly as possible.

Yu Tian's heart was already in extreme pain when he saw the injured Chu Xin.

Among the women around him, Chu Xin was the one who he had the most feelings for.

In order to not let him worry about him, Chu Xin kept comforting him. "It's Alright, Little Brother. It's just a little blood loss. Don't be sad and don't be angry!"

Yu Tian didn't say anything else. He directly picked up Chu Xin and found a relatively complete room. He gently placed her on the bed and took out a golden needle to treat her wound.

Soon, the wound was healed. There wasn't even a scar left.

Chu Xin, who was touched, directly hugged Yu Tian and gently kissed his lips.

This was a form of love and also a form of gratitude. Chu Xin was really glad that she had Yu Tian in her life.

Yu Tian gently stroked her long hair. After a passionate kiss.., he said with heartache, "Go to the gym when you have time. If such a situation happens again in the future, you can still run faster. Otherwise, you'll get hurt easily if you're so fat!"

He didn't know whether to laugh or cry as he said to Chu Xin. He gave him a hard punch and said coquettishly, "You're the one who's fat. My figure is so well-proportioned. Don't You Like It?"

Yu Tian grimaced and said, "I like it, but the key is that I'm afraid that it will hurt a little when I press on it. You'd better go and exercise. It's good for you!"

While they were flirting, Luo Ya held her injured arm and went back to the hotel. However, as soon as she entered the door, she was surrounded by a few men in black.

One of the men in black directly showed her the video of Finello.

At this moment, Finello was extremely furious. He cursed, "I've already given you the order to cancel the attack Why are you still attacking? You're treating my orders like trash,

who gave you the right to make decisions on your own? Do you know what you're doing? Making Kellogg and the entire second-generation developer's plan void,

not to mention, Yu Tian has decided to spend a trillion yuan to specifically attack us developers.. Can you withstand his anger?"

?Chapter 380 – Chapter 380, Recovering Her Memory

Thank you readers!

Loya clenched her teeth and clutched her arm. She was a little regretful now. She had not thought things through calmly back then, but what else could she say now?

Even if she had her own reasons, Finello would not believe her. He would not even give her a chance to speak.

The furious finello also said furiously, "For the sake of the second-generation developer and to appease Yu Tian's anger, I have decided to hand you over to Yu Tian. What does he want to do to you? You can not disobey him!"

"Even if he kills you, you deserve it. Who asked you to disobey my orders and launch a brazen attack? This is also an order from Dr. Kellogg. You've done so many stupid things, and you can only bear it yourself!"

Loya looked at Finello in extreme shock and said in disbelief, "You actually want to hand me over to Yu Tian? Everything I've done is for the sake of the developer. Am I wrong in doing this?"

"You are just a slave under me. What rights do you have? What right do you have to make decisions on my behalf? Have you forgotten your own identity? You are a woman who has been abandoned by others!"

"If it wasn't for my pity for you, you would be nothing now. You are even worse than trash. I gave you a second life and made you a developer. I am your master!"

"If I told you to die, you would have to die. You Can't have any thoughts that go against me. Now, I'm going to hand you over to Yu Tian. If you can balloon Yu Tian's forgiveness, maybe you don't have to die.

"If Yu Tian Won't forgive you, then you will have to die for the second generation of developers. This is your destiny. This is what trash like you should do. Now, get in front of Yu Tian right now, I never want to see you again!"

Luoya shook her head in despair. She did not expect that everything she had done would be rewarded in such a way.

If she had known earlier, she would not have done it for the developers and Kellogg. They were not worth it at all.

At that moment, the video was cut off. A few men in black beside her rushed forward and pressed her to the ground.

No matter how hard she struggled, the few developers turned a blind eye to her. They took out ropes and tied her up firmly. They squatted down and carried her out of the room.

While Yu Tian was considering how to deal a blow to the second-generation developers, the Dusty Chu Qing walked into the room and said excitedly, "Hubby, I think you should go outside and take a 100k!"

When everyone arrived at the garden, they saw Luo Ya on the ground.

Chu Meng saw that it was her and was about to make a move.

Yu Tian hurriedly stopped her, "Don't make a move first, ask her clearly first!"

Chu Yue said coldly, "What else is there to ask? It's this woman who made our villa look like this. Do you still pity her?"

It could not be said that she was pitiful. Yu Tian was thinking about how he could use these people to deal with Kellogg.

Hence, he said calmly, "The second-generation developers are all like Chu Hui. Their brains are controlled by others. Before recovering her memories, it's useless to tell them anything!"

Chu Hui also said, "Yu Tian is right. Before I recovered my memories, I also treated Yu Tian as an enemy. But everything was wrong. Our memories and our minds have been changed,

we don't even know what we're doing. Everything is Kellogg's fault. We should recover its memories first, then we can learn more useful things. Even if you kill her now..., it's useless.

"Since they're willing to give her to Yu Tian, that means they don't care if she's dead or alive. Don't you agree?"

Chu Meng asked, "Then what should we do now?"

Yu Tian rubbed his chin and narrowed his eyes. "Take her to the R & D Center first. We'll talk about the rest after she recovers her memories!"

Two hours later, Luo Ya was just like Chu Hui from before. She sat on the ground with tears in her eyes, completely unable to believe the memories that had been restored in her mind.

She held her head in pain and burst into tears.

Yu Tian and the others stood silently on the side. She needed to vent her anger now and cry to her heart's content so that she could calm down.

Luo Ya cried for half an hour before she slowly raised her head, she said sadly, "I'm sorry. I really don't know why I did that. All I can think about is hatred for all of you. Those damn people, what did they do to me?"

"They changed your memories," said Yu Tian softly. "They even took control of your memories. It's not your fault. Now, can you tell me your identity? Or We can help you take revenge together!"

Chu Hui took a hot towel and gently stuffed it into her hand. Then, she comforted her softly, "It's all in the past. Now, you are your true self. You can say whatever you want. We are willing to be your best listeners!"

She wiped the tears off her face, Luo Ya then said slowly, "I am a high-ranking commander of the Russian Alfa Special Forces. My name is Luo Ya. My last memory is that I went to the superpower country to carry out a secret mission,

the mission's content was to assassinate a person called Finello. However, Finello took me to meet a person. This person was Kellogg. He also promised them to carry out the development of the second-generation brain development equipment,

after that, I remembered that Finello was my master, and Kellogg was also my commander and commander. I had to obey their orders unconditionally, including coming to the eastern country to assassinate you!"

Yu Tian came over and asked, "Do you still remember when you used the second-generation development equipment?"

"A week ago, because my mission was to help PBG, assassinate non-Finello, and this mission was accepted ten days replied.

Yu Tian followed up with another question, "Then do you still remember where you were? W

here you saw Finello, Kellogg, and where their second-generation instruments were? Can you remember all of this?"

Roya nodded and said firmly, "Yes, I remember that it was a small island, near the superpowers' waters. There were no roads there, and you could only enter by boat or helicopter ,

"At that time, I also looked at the coordinates of this small island. It's in the southern region of the supernation, a hundred and fifty nautical miles away from southern Gary!"

Yu Tian clapped his hands hard. This time, he could finally do it to his heart's content.

Chu Hui immediately opened the map and soon found the small island.

Yu Tian looked down and said proudly, "So it's here. Kellogg, Wait for me. I'll go over now.. See How I will deal with You!"

I Have 108 Older Sisters #Chapter 381 - Read I Have 108 Older Sisters Chapter 381

Chapter 381 – Chapter 381 Was Very Profitable

Thank you readers!

Just as Yu Tian made his decision, Finello's call came in.

He said straightforwardly, "Mr. Yu, you've already received my explanation. I didn't give Luoya any order to attack. All of this was her own decision. I hope that our deal can continue!"

Yu Tian smiled indifferently and said, "Not everything is up to you. The situation is under my control now. Before I decide whether or not to continue to cooperate, you'd better not come and disgust me!"

Yu Tian, who didn't want to say any more nonsense, directly hung up the phone.

Now that the initiative was in his hands, he could also buy himself more time to prepare.

Finello helplessly threw the phone on the messy desk, and his gaze became colder and colder.

The Ducks that had been in his hands had flown away. Kellogg was especially angry. If he couldn't get the funds, Kellogg would go crazy.

At this moment, Kellogg sent him a video.

Just as he thought, Kellogg was extremely furious. Even the corners of his mouth were trembling. He said coldly, "I gave you the most important job, but you ruined everything,

"Even if your IQ was developed to 100% , you would still be such an idiot. Now, I want you to head to the eastern country immediately. I Don't care what you do. I don't care even if you destroy this country,

i want you to kill Yu Tian and bring back Chu Hui and Monica. If you can't grasp this opportunity, then you can go to Hell, you bastard!"

Finello was so scared that cold sweat was seeping out from his hair. His lips trembled as he said, "I understand, Dr. Kellogg. Now, I will set off for the eastern country. I will definitely do a good job on this mission!"

The video was cut off. Finello looked at his palm, which was full of sweat.

Time always moved forward. In the blink of an eye, the next morning, Yu Tian arrived at the galaxy company as usual. The meeting was supposed to be held, but a day had already passed.

Du Tianci saw Yu Tian coming to the company and hurriedly called Nanhua Dongmeng and the people from the development department to the meeting room.

Yu Tian did not have much time to waste here. At the beginning of the meeting, he said straightforwardly, "The name of the live broadcast platform is called clear sky video. I will make three investments, a total of 10 billion"

"My request is that the content, quality, image, shopping mall, and so on of the video platform be simple and clear. Especially the content, make a comprehensive classification and join our platform's streamers,

"Moreover, it's an exclusive streamer. In the previous year's time, they will enjoy a full-gift income model. Moreover, on top of that, the platform will also provide 20% of their salary!"

Du Tianci grinned and raised his hand to interrupt Yu Tian, then, he said, "CEO Yu, then how are we going to earn money? If we give all the gift income to the streamer, that's acceptable. Then, we even give money to the streamer. Do you really have so much money that you have nowhere to spend it?"

Yu Tian chuckled and said, "Who said that we don't earn money? You guys only see me spending money, but you can't see the point of earning money.

This can't be blamed on you guys. After all, that's all your IQ is."

"Think about it. When Qingtian video becomes the most popular and best video entertainment platform in the world, where will its value be reflected?"

Everyone looked at each other. Even Chu Hong, who was sitting at the side, had a face full of doubt.

Yu Tian looked at their dumbfounded expressions and shook his head helplessly. "Whether it's the six-dimensional code, games, or video platforms, they are all for the foundation of the entire business empire"

Although the Chu family had invested in many areas, this was only an inch in front of us. With the help of the video platform, they could put more products on the video platform. This kind of advertising model and cultural model..,

not to mention investing 10 billion, even 100 billion was worth it. What we need to do is to use the existing platform to control the world's shopping and

consumption patterns. How much money will we earn then? Can you calculate it?

Du Tianci looked at Yu Tian with admiration and said with understanding, "Oh my God, how much money will we earn then?"

Chu Hong said excitedly, "Then we have to recruit live streamers from all over the world!"

Yu Tian said with satisfaction, "That's right. Our slogan for the live streamers is to create tens of thousands of internet celebrities, but our benefits are only for those capable live streamers,

"If a live streamer is too shabby and can't even earn 200 yuan a month, then they won't be able to enjoy any benefits. Therefore, this benefit can only be given to live streamers who can create hundreds of thousands of traffic every month!"

At this point, Yu Tian stood up and said indifferently, "Recently, I've been feeling very bored. I plan to go abroad for a few days. Before I set off, I want to see the video platform officially Go Online!"

Du Tianci immediately expressed his stance.

"No problem. The technology department will be able to finish the software this afternoon. Then, Longwen can hang it on the six-dimensional code for internal testing!"

Chu Hong added, "Okay, leave the publicity to me!"

Yu Tian nodded and left the conference room in a confident manner.

When the publicity for the Qingtian video appeared in an overwhelming manner, it immediately shocked young master wen.

Especially when he saw the host recruiting benefits, his eyebrows exploded. He was so angry that he smashed his computer into pieces.

Young Master Wen's mother, Xiaoling, heard the voice and hurriedly ran into the study. She said in surprise, "Baby Son, what happened to you? Who Made You So Angry? Tell Mom!"

Xie Wen gnashed his teeth and said, "I just invested in a live broadcast platform, and that galaxy technology also got one to compete with me. I Can't wait to kill that Yu Tian!"

Seeing her son's anger, Xiaoling hurriedly comforted him, "Baby son, don't be angry. Mom will call your father immediately and ask him to go and talk to that Yu Tian. Tell him not to compete with my baby son."

"No one can steal the business my son wants to do. I'll call him right now!"

Xie Wen didn't know what to say. He pushed Xiaoling out of the room and wanted to be alone. What kind of sin did he do in his previous life to meet such an ignorant mother?

Xiaoling didn't know who Yu Tian was. As a pampered woman, she knew which shoes were expensive and which clothes were sexy. She wanted to show off her status as a rich wife when she attended the party.

However, no one could bully her precious son. The future Xie Wen would be the best. As a mother, she definitely couldn't watch her son being oppressed.

Thinking of this, she immediately called Xie Chai Yue and said directly, "Do you know someone called Yu Tian? This guy actually dared to compete with our son. Is he worthy?"

"No one can get involved in the business our son wants to do. Immediately get someone to talk to that Yu Tian and ask him to give up on any live broadcast platform!"

When Xie Chai Yue heard Yu Tian's name, his heart tightened and he immediately turned on his computer..

?Chapter 382 – Chapter 382, Other Methods

Thank you readers!

Xie Chai Yue listened to Xiaoling's nagging while looking at the promotional advertisement of the Qingtian video platform. He was dumbfounded at that moment.

If he had known earlier that Galaxy Technology's Yu Tian would also set up a video platform, he would not have let that bastard Xie Wen do it even if he was beaten to death.

That Prodigal Bastard's entire video platform investment was less than 20 million yuan, but the publicity that Yu Tian had done was already in the hundreds of millions.

"Shut up!"

Xie Chai Yue angrily interrupted Xiaoling's words and growled, "Immediately tell that B * Stard Xie Wen to shut down the live streaming platform. From now on, he can't go anywhere, or I'll beat him to death!"

The phone hung up with a click. Xiaoling looked baffled and snorted, "You don't care, right? Then I'll take care of it myself. I don't believe that Yu Tian is more powerful than my son!"

At that moment, Yu Tian was in his office, discussing with Chu Hui, Chu Meng, Chu Yue, and the others how to get rid of the island in the simplest and most direct way.

Chu Meng thought for a moment and said, "The information I've collected is that this island called Ton was bought by a rich man a long time ago. Now it's an independent island, and it's not under anyone's control!"

Yu Tian then enlarged the satellite map, and the small island appeared clearly on the computer screen.

On the five-meter-high satellite image, Yu Tian had a rough view of the island.

The small island was not very big. It was an island that extended out from the southern Cali Trench, and it was less than 20,000 square kilometers.

The island was covered in dense vegetation, and the terrain was relatively complicated. There were also large numbers of mercenaries on the island.

Behind the island, there were many ships and even several luxury yachts.

Yu Tian adjusted the angle of the image. In the middle of the island, there was a building that looked like a power plant. However, more than half of it had not been built yet, and there were no workers working.

Various construction machines were scattered around the construction site.

Chu Hui explained, "The second-generation machines need a very strong power supply, and the third-generation instruments need even stronger power. This is the nuclear power plant built by Kellogg. Perhaps because of the funding, we can't continue to build it now!"

A nuclear power station?

Yu Tian blinked and said disdainfully, "This old fart really knows how to show off. He even dares to build a nuclear power station. I really want to drown him with a mouthful of saliva!"

Chu Yue added, "Whether this nuclear power station is built or not, we can't use this method to carry out this mission. If this nuclear power station has been added with nuclear fuel?"

"If we use large-scale weapons to attack, it will definitely cause pollution. It's not worth it to pollute a large area of the sea just for him alone!"

Her words had indeed touched Yu Tian's heart.

Yu Tian's original idea was to directly use the Chu family's influence in the surroundings to use large-scale weapons to directly kill him.

But now he had to think of another way. At the very least, he had to know how far the nuclear power plant had been built. Could it be used to attack with large-scale weapons?

After thinking about it for a long time, Yu Tian finally decided.

"It seems that it's necessary to take a look at this island personally. If this nuclear power plant didn't add nuclear fuel, it would be much easier. If there's nuclear fuel in it, then we can use other methods to destroy it!"

Everyone looked at each other. Chu Hui said worriedly, "Although Kellogg didn't develop the third-generation instrument, the second-generation instrument is always in operation. It will produce many developers every day."

"As you know, the skills of every developer are different. There are even many abnormal skills. If you go to the island personally, the risk will increase. Why don't we choose another way?"

Another method?

Yu Tian shook the corner of his eyes. What Chu Hui said was also a choice. The simplest way was to find someone who knew this island very well. As long as he could get the information, it would be much easier to destroy it.

But where could he find such a person now?

At this moment, an argument broke out outside the office. A woman said loudly, "Let Yu Tian come out to see me. I want to see how capable he is to dare to compete with our family's Xie Wen!"

Yu Tian was a little puzzled. Who Was Xie Wen? He had never heard of this person before.

At this moment, Chu Hong stood up and said, "You guys continue. I'll go and take a look!"

Outside the office, Xiao Ling crossed her arms and looked at Chu Hong arrogantly. She said arrogantly, "I want to see Yu Tian, not you, you vixen!"

Chu Hong frowned slightly and said expressionlessly, "Please watch your mouth. This is galaxy technology company. I'm Yu Tian's secretary. If you have anything to say, say it to me!"

Xiao Ling snorted coldly, she said disdainfully, "I just want to ask you, what right do you have to compete with my son? My Son is running a live broadcast platform, and you guys are also running it. Now, I demand that you immediately remove your live broadcast platform and only let my son run it alone, otherwise, I will let my old Xie teach you guys a lesson!"

In the office, Yu Tian finally understood. So this woman was young master Wen is mother.

Hearing what she said, Yu Tian felt that it was especially laughable.

He could just let Chu Hong handle it. He then said to Chu Meng and the others, "If we can get a key person, we can save a lot of time. Or, I don't have to personally go to that island!"

Chu Hui said, "Or we can go and see Monica. There are many generations of developers who want to come to the eastern country. Or, this is an opportunity we can take advantage of!"

Yu Tian nodded and looked at the door of the office. He chuckled and said, "Let's wait for that shrew outside to leave first. This woman, did she suffer some kind of stimulation? Give it back to their old Xie!"

"I didn't kill that Young Master Wen. Their family should really thank me!"

Outside the office, Chu Hong also sneered, she said helplessly, "Oh, since your old Xie is so powerful, then I'd like to see if he can destroy our galaxy company or make our Tianhai group listen to him!"

"Or do you think that our entire Chu family group has to give way to that so-called young master Wen?"

"Alright, just you wait!"

Xiaoling snorted coldly and immediately called Xie Chai Yue.

The call was picked up and Xiaoling said angrily, "Old Xie, I am at the Galaxy Company now. Hurry up and bring your people over. I want to let them know that the Xie family is not to be trifled with!"

Xie Chai Yue was so scared that he almost fell off his chair. He said with his eyes wide open, "Are you fucking crazy? What are you doing in the Galaxy Company? Do you want to die?"

"Aiya, stop talking nonsense. Hurry up and bring some people here!" Xiaoling directly hung up the phone. She looked at Chu Hong coldly and thought, "I'll teach you a lesson later!"

And Chu Hong but helplessly smiled..

?Chapter 383 – Chapter 383, Do Whatever You Want

Thank you readers!

In less than 15 minutes, Xie Chai Yue arrived at the galaxy company in a hurry.

Xiao Ling saw that her husband had arrived and became even more confident. She snorted coldly and said, "Old Xie, you have to let them know how powerful you are. Tell them to immediately remove that live broadcast platform and let our son do it!"

Xie Chai Yue's face turned black, but Chu Hong narrowed her eyes and looked at him. Then she asked coldly, "You are Xie Chai Yue. Which Company are you from? What business do you do?"

"I, that..." Xie Chai Yue was so scared that he stuttered. He knew that his stupid woman today was simply courting death for what she had done here.

If he really angered the Chu family, he could only bear the pain and give up his love. He could just throw this stupid woman out and let her solve it herself.

Therefore, he turned around and gave Xiaoling a big slap. He said furiously, "Who told you to come here? How come I've never found you so stupid?"

"Do you know how much the market value of this galaxy technology group is?"

"They can kill us all with just a strand of hair. What do you think you're doing?"

Xiaoling covered her swollen face and looked at Xie Chai Yue in surprise. She finally understood why she had been slapped?

Xie Chai Yue also scolded angrily, "Do you know who the boss of Galaxy technology is? He's from the world's number one family, the Chu family, which controls one-third of the world's wealth,

"The money your stupid son invested is not enough to open a bottle of wine.

How stupid do you think you are? Are you willing to learn a little?"

Xiaoling was completely dumbfounded. She didn't believe what others said, but she completely believed what Xie Chai Yue said.

She grabbed Xie Chai Yue's arm and said in horror, "I, I really don't know. You never told me. I thought they were just a small company"

"Besides, I'm doing this for my son. I really didn't mean to do this. Old Xie, you have to save me!

Xie Chai Yue shook off her hand and pushed her to the ground. He said angrily,

"Go to Hell. No one can save you now. I told you a long time ago, but you didn't listen!"

At this moment, the door of the office opened. Yu Tian walked out slowly with the girls.

Xie Chai Yue was so scared that he hurriedly moved to the side, unable to even raise his head.

Yu Tian didn't even look at them and directly ordered Chu hong, "Don't let them affect everyone's mood at work here. Make it seem like we're the ones bullying them!

Chu Hong immediately nodded and said, "Alright, Chief Yu. I'll take care of it immediately!

Xie Chai Yue hurriedly went forward, he smiled apologetically and said, "Chief Yu, my name is Xie Chai Yue. I apologize to you on behalf of my son and that stupid woman. After I go back, I will immediately get that bastard to get out of Dongfang country and go to school abroad. I will not let him come back within ten years!

Yu Tian looked at the time impatiently and said indifferently, "Tell it to my secretary!

With that, Yu Tian left with the girls. He didn't want to waste any time on him.

Chu Hong added, "Mr. Xie, we have our own rules. If everyone is like you and can come and make trouble whenever they want then what will we become?

"You can leave now. I will ask the Tianhai group to settle it later!

Xie Chai Yue's legs turned to jelly. The Tianhai Group was the largest financial group in Linhai, controlling more than 80% of Linhai's industries. Even his own company had large-scale projects invested by the Tianhai Group.

This time, he was truly dumbfounded by that bastard and that stupid woman.

If the Tianhai group cut off all the projects, his company could close down.

However, Chu Hong didn't give him any chance to explain or fight for them. She directly asked the security guards to send them out of the company.

Xiaoling seemed to have lost her soul. She followed Xie Chai Yue home like a dog.

Xie Chai Yue didn't say a word. He pulled out his leather belt and kicked open the door of the study.

One scream after another sounded in the study. Xiaoling sat weakly on the sofa. She didn't want to stop him anymore.

Xie caiyue only collapsed to the ground after Xie Wen was beaten to a pulp.

Even if he was beaten to death now, it would be of no use. The Tianhai Group had already cut off his project and could announce the closure of the company at any time.

At this moment, Yu Tian was in the villa in the backyard of the R & D Center. He was laughing with Monica and Tiffany. "aren't the two of you tired of staying here all day?"

Tiffany also said helplessly, "It's Monica, Okay? She stays in the villa all day.

It's as if the world can drop a bomb if she leaves even half a step!"

Monica complained, "The last thing I want to do now is to go out and wander around. There are many generations of developers who want to see me. I don't even know what to do now.

Yu Tian said disdainfully, "What's so great about that? If you want to see them, then go ahead. Isn't that what you should do?"

Even though she said that, Monica still had a lot of grudges in her heart.

Her silence made Yu Tian shake his head helplessly and said indifferently, "I'll treat you guys to go out and play. We can go out to eat, sing, and dance. If you like, you can even fight with others!

Monica thought for a moment and nodded. "If you accompany us, we can consider it!

“Then what are we waiting for? Let's Go!”

They had just left the R & D Center when someone took photos of them not far away.

The photos were quickly sent to Finello.

After taking a closer look, Finello whispered to a bearded man beside him, “Whether I can satisfy Kellogg this time is up to you, Asaka!”

Asaka licked his lips and said frivolously, “Let's make a deal. I'll help you deal with Yu Tian, and you'll let me deal with Hui Hui. I Can't help it anymore. I'm going to vent my fury on that little girl!”

Finello said seriously, “Yu Tian is not as simple as you think. You must be careful when dealing with him. This mission is especially important. There must be no mishaps!”

“Leave it to me. Don't you know my strength? No matter how hard he is to deal with, Yu Tian has no chance of survival with me. For the sake of that little girl, I will do my best!”

With that, Asaka left the hotel with a cold smile.

Yu Tian brought the two girls to a western restaurant for a meal. While eating, he said, “Monica, you have to do something. You Can't stay in the room all day, as if you were abandoned by someone!”

You have to pull yourself together. It's better to be on steroids.. You have to have a passion for life!

?Chapter 384 – Chapter 384: Treat Me To A Meal First

Thank you readers!

Yu Tian drank a mouthful of red wine and said, “You should now recruit all the developers who want to follow you to your side. I can provide you with the funds,

“This is the so-called passion. You can train these developers well and then take them with me to F * ck your father. Right now, your father is like a son of a B * tch, hiding on a small island,

“I'm preparing to launch an attack on this small island. On the premise of killing your father, I'll destroy his third-generation equipment. What a dream to pursue!”

Tiffany said with a frown, “So your dream is to fuck her father? Is that all you have?”

Yu Tian snorted coldly, "It's already good enough that I can fuck her father. That old fart is like a madman, creating some perverted developers all day long. And these developers are like wild dogs, peeing everywhere, making the stench unbearable,

"He even wants to pee on the Chu family's head. If I don't fuck him, who else will he fuck?"

Hearing Yu Tian say this, Monica really couldn't bear to listen anymore. She said coldly, "Can you listen to me for a moment? I know you want to protect the Chu family, but Kellogg is still my family after all."

"I'm not ready to do this yet. I need time. You Can't force me to do as you say.

This is what I agreed to before I came here with you!"

Yu Tian shook his head helplessly and said indifferently, "When you've thought it through, Kellogg will probably blow up the moon. If we can't destroy his plan before then, this old man will probably dry up the sun,

"In short, you have to win over those developers to your side first. Leave the rest to me. You just need to make them believe in you and let them know that they will definitely have a future if they follow you!

Monica did not say anything. She did not know whether this was right or wrong. She was still feeling conflicted in her heart.

At this moment, Asaka also walked into the restaurant. His aura immediately caused Yu Tian's gaze to fall on him.

This guy weighed at least 200 pounds. He had a bald head and a full beard. He did not look like a normal person no matter how one looked at him.

Of course, Yu Tian did not think that he was crazy. Instead, he saw a hint of provocation in this guy's eyes.

Tiffany, who was sitting at the side, had long used her x-ray vision skill to see that this guy was a developer.

She just wanted to remind Yu Tian, but Yu Tian smiled indifferently and said in a low voice, "I know. This guy is just looking for death. Ignore him. We will eat what we should eat!"

Asaka sat directly opposite Yu Tian. He first looked at Monica and Tiffany with disdain and then said gloomily, "You are Yu Tian, your weight is not enough for me to eat more meat in one meal."

I am really curious, how did you kill those developers before?

Yu Tian did not want to waste time with him, so he took out the Brainwave Jammer and gently put it on the table. He smiled indifferently and said, "This is the thing that is used. You must know that it is called the Brainwave Jammer. [The invention of PBG. When I activate it, your bucket-like head will immediately feel the greatest pain in the world. Then, I will stuff it into your butt,

"Then, I will kick you like a ball from this luxurious and romantic restaurant to the latrine outside!

Asaka laughed coldly and shook his head. He said disdainfully, "This

Brainwave Jammer of yours can no longer cause any harm to us. In fact, PBG is using a fifth-generation brainwave jammer now, the one in your hand can only wipe your ass when you take a shit!

Since he had said so, Yu Tian did not care about this. He picked up a napkin and wiped his mouth. Then, he smiled and said, "This is a place for eating, not a place for fighting. Why don't we go out and fight?"

ASA also nodded and said, "I think so too, but I want to eat something here now. You Treat Me!

Yu Tian shrugged and said, "Order whatever you want. His abalone is good, and the girls like donuts. Do you want some?"

That guy didn't say anything. He called the waiter and ordered a table full of dishes.

While eating, he said, "Kellogg is very dissatisfied with you, especially you.

Monica, Dr. Kellogg put a lot of hope on you. He even wanted to personally give you the strawberries he planted when you got married,

"But you're here with Yu Tian, the developer's biggest enemy. What are you thinking? Don't tell me you really want to make an enemy out of your biological father?"

Monica said expressionlessly, "I have my own thoughts and plans. You Don't have to worry about it!"

Asaka looked at Yu Tian again, he sneered and said, "Actually, you shouldn't have become a developer at all. This world is not something you can control. Moreover, you won't get anything from here, except for the blow that developers like us have dealt you,

[a€?Of course, I can also give you the best choice. Let me take them away. Hand over the 100 billion that you promised Finello to me at the same time, and I'll let you die a quick death!a€?

Yu Tian's face showed disdain as he said disdainfully, a€?Do your parents know that you're so pretentious? It doesn't matter if you want to eat or drink. You Act like you've never died!a€?

Asaka wiped his mouth and laughed, a€?I have to thank you for treating me to this meal, so I'll let you die a quicker death!a€?

With that, the guy got up and walked out of the restaurant.

Yu Tian smiled and stood up as well. Monica grabbed his hand and said lovingly, a€?I'll go with you. If you can't beat him, I can purify him immediately!a€?

[a€?I don't want to fight him at all. You can purify him immediately. If we have time to fight, let's Go Sing!a€?

Monica nodded and followed Tiffany to the nearby park.

At this time, Yu Tian really wanted to see What skills Asaka had to show?

Asaka slowly turned around and took off his shirt, revealing his muscles.

However, Yu Tian could see many scars on his skin.

At this moment, Asaka slammed his fists together, and his two hands grew bigger. In the blink of an eye, he slapped Yu Tian.

It turned out that this guy's skill could make his limbs grow bigger, and his strength would also become stronger.

When Yu Tian was dodging, this guy hit the ground so hard that a huge pit was formed.

Asaka's movements were especially agile. He was like a gorilla. With both hands on the ground, he jumped up and his feet also became bigger. He stomped fiercely on Yu Tian..

?Chapter 385 – Chapter 385, There Was No Right Or Wrong

Thank you readers!

It had to be said that this guy's skills were indeed very domineering, and his strength was also very strong. Yu Tian could not even go head-to-head with him.

Yu Tian pondered. Since Monica had a purification skill, he did not need to waste this energy to fight with her.

Thinking of this, he directly jumped behind Monica.

Asaka, who was like a muscular man, laughed wildly, "Is this all you can do? Come and fight with me. Don't be like a timid mouse, hiding everywhere. Are You Afraid?"

If you are afraid, kneel down and Kowtow to me. Beg Me to let you die a quick death!"

Yu Tian patted Monica's shoulder and said indifferently, "You really want me to fight with him?"

Monica suddenly raised her head and looked at Asaka. A dazzling light shot out from her eyes. This light shone on Asaka completely.

Asaka felt his strength suddenly disappear quickly.

His enlarged hands and feet were also shrinking rapidly. Even his muscles and bones began to soften because he couldn't bear the weight of his body.

He looked at Monica in extreme shock and shouted, "Monica, what are you doing? I'm helping you. Assistant immediately. Monica, Dr. Kellogg will not let you off!"

When the light disappeared, Asaka collapsed on the ground. All his skills had been purified. At this moment, he was even worse than an ordinary person.

Yu Tian walked closer to him and laughed, "How do you feel now? Do you feel like you're being spoiled by an aunt?"

"You should know now, right? Why should I let Monica stay by my side? It's because of her existence that all the developers in this world can disappear. A world without you second-generation developers..."

"Is a perfect world!"

Asaka said weakly, "Yu Tian, don't be happy too early. I'm just one of all the developers. The third-generation developers will be created soon. At that time, even you won't be their opponent!"

"This world will eventually belong to us. This is the inevitable evolution of mankind. Even if you kill me today, it won't change anything. Finello brought a total of five experts, and I'm just the weakest one!"

“Today, you beat me. It doesn't mean anything. It only proves that you're a coward who can only hide behind a girl!”

Yu Tian frowned slightly. It turned out that the good-for-nothing, Finello, had also come.

It seemed that God was on his side. Just as he was thinking of finding someone who understood the island, Finello came to him on his own initiative.

He chuckled, touched his chin, and said with disdain, “No matter what, you can't see these anymore!”

With that, Yu Tian used a golden needle to turn Asaka into a vegetable.

Following that, Yu Tian immediately called Chu Meng and ordered, “Finello is here too. He has a few developers with him. Find his location immediately!” Chu Meng said, “It looks like it's getting more and more fun. Leave it to me, I'll arrange it right now!”

She hung up the phone, Tiffany said worriedly, “Yu Tian, Finello is one of Kellogg's right-hand men. He's helped a lot in the development of the second-generation machine. You have to be careful of him, this guy can do anything!”

Yu Tian smiled indifferently and said disdainfully, “Compared to him, I can do more!”

At this time, it was already evening. The setting sun in the sky was emitting rays of beautiful afterglow.

Monica sat by the lake sadly, quietly watching the calm lake water.

Yu Tian bought a bunch of meat skewers and a few beers at a nearby barbecue stall?

He came to Monica's side and said with a smile, “Stop feeling sorry for yourself. Do you want some meat skewers?”

Monica turned around and asked, “Am I doing the right thing or the wrong thing?”

Yu Tian did not want to listen to her. He said impatiently, “There is no right or wrong in this world. Everyone lives for themselves, and everyone pursues their own things.”

“Let's not talk about these more profound things. I think it's particularly slow-moving. If you want to do it, do it. If you don't want to do it, I'll still say it. I Won't force you to do it.”

But I must fuck that Old Bastard of yours. You've seen it. This old man is making enemies around me without hesitation. It's as if my life is particularly quiet and he doesn't like it!a€?

As he spoke, Yu Tian stuck the kebab on the ground and drank a big mouthful of beer. Then he said, a€?I'm going to the hotel later to meet that piece of trash, Finello,

a€?If he can provide me with useful information, maybe I don't have to go to

South Gary. If not, I a€?ll set off tomorrow night. I hope you'll go with me then, a€?No matter how many generations of developers they are, they shouldn't die. They're all innocent. As long as you purify them, you can keep them alive. Of course, you can choose not to go with me,

a€?At least, you won't see how your father will be played to death by me.

Monica gently covered her head. She was extremely conflicted and had no choice.

Late at night, Yu Tian arrived at the hotel where Finello was staying alone and knocked on the door.

The moment Finello opened the door, he was stunned. However, he was still very gentlemanly and invited Yu Tian into the room.

Yu Tian was very generous. He sat down on the sofa and said proudly, a€?Why didn't you inform me before you came? At least I a€?m treating you to a meal as a host!a€?

Finello did not quite understand Yu Tian's meaning. Instead, he said slowly, [a€?What do you want to drink? Why don't we get straight to the point and tell each other what we think. After all, I'm looking forward to meeting you this time!a€?

a€?If that's the case, why did you let Asaka go and seek death? Now that this guy is useless, it's said that you have other developers by your side. In my opinion, you don't look like you want to talk to me at all. You're clearly provoking my patience!a€?

Hearing this, Finello suddenly frowned and said coldly, a€?I just want Asaka to remind you. I don't mean anything else. After all, we've already reached a deal before, but it was destroyed by someonea€|a€?

a€?I still want to seize this opportunity. I think you think so too!a€?

Yu Tian shook his head and said, a€?My current thought is how to have a child with my wife. But since you have said this, I have a different deal for you!a€? [a€?What looked at Yu Tian with puzzlement.

a€?a€?Of course it's a deal with your Tian said with a faint smile..

Chapter 386 – Chapter 386, Information Received

Thank you readers!

Finello seemed to want to hear more about Yu Tian's deal.

Yu Tian stood up and went to the window. He said calmly, "There are always people who want more from this world, but they don't want to give what they have to others, such as Kellogg,

"Have you ever thought that everything you have done is just to serve Kellogg's personal dream? At the same time, you should also know how much he can give you after he gets it?

In my opinion, it seems like there's nothing at all. Even if you can save your own life, it's not very certain. Why Don't You Come and serve me? I only need the information of the Torne Island,

after that, you can get more money than you can spend in several lifetimes. I can also provide you with special protection until I kill Kellogg. What do you think?"

Finello was tempted. He still couldn't resist the temptation of wealth, but he didn't believe that Yu Tian could give him so many benefits.

So he narrowed his eyes and said, "How do you guarantee my safety? This is the question I want to know. If you just want to use me, then I can't agree to it!"

Yu Tian suddenly turned around and said proudly, "Kellogg will die in my hands no matter what, and your choice now determines how much benefits you can get by then."

This reason was very simple, because I will not give up on killing that old Fart Kellogg. I will not even let him die so quickly. I will torture him bit by bit until he breaks down and then kill him..., doesn't this sound very interesting?

And most importantly, Monica supports me. There is a large batch of developers now ready to join Monica's side. Think about it, how long can Kellogg Last?"

Finello frowned and gulped down a glass of wine. This choice made him a little scared, but it was especially exciting.

What he said was what he wanted, and what he had always wanted.

This was the only chance he had, so he had to seize it no matter what.

Thinking of this, Finello stood up and said, "Mr. Yu Tian, I'm not a developer, so I'm sober. I like this deal very much. The price of the information is 10 billion world coins. You can know everything about Ton Island!"

Yu Tian smiled smugly and immediately transferred 10 billion world dollars to Finello.

When Finello saw the string of numbers, he was so excited that his hands were trembling. Then, he said excitedly, "I also need you to provide me with absolute security!"

This guy's request was also acceptable. Yu Tian said indifferently, "This is no problem. Before I kill Kellogg, you can't even die if you want to. What's the problem?"

Finello wiped his forehead, then he said, "There are a thousand mercenaries on Ton Island. They have very advanced heavy weapons. Kellogg originally wanted to build a nuclear power station, but due to funding and other reasons, it's only half-built now,

the other reason was that there was no way to buy nuclear fuel, but the second-generation development equipment was still working normally. The power supply came from the underground power generation equipment on Ton

Island, the second-generation development equipment was relatively large and the technology was extremely complicated. At the same time, it required many people to operate it in order to carry out its work. The only tools that entered and left Torne Island were ships, in order to develop the third-generation equipment, Kellogg did not only rely on the Chu family. He also contacted many wealthy people in the world. Kellogg provided them with high-iq business talents. The wealthy people provided him with funds and other resources,

including nuclear fuel, many wealthy people or private organizations with this technology were prepared to provide Kellogg with funds. The meeting was to

be held in five days, in order to make these wealthy people believe in his ability, he wanted me to bring Monica and Chu Hui to Ton Island. But I knew that this was an impossible task!"

When Yu Tian heard this, he asked, "Then, do you know how all the second-generation developers in the world get their orders?"

Finello said straightforwardly, "They all use second-generation devices. Every second-generation developer has a brainwave connection with the device.

Kellogg can directly use the device to issue orders to everyone!"

Basically, there was nothing left to ask. Yu Tian had an idea in his mind.

He slowly stood up and said indifferently, "Now you come with me. I'll bring you to a safe place."

There was nothing to waste time on now. Yu Tian sent Finello to the R & D Center. With Monica here, no second-generation developer would be able to get anything cheap here.

Yu Tian still decided to go to Ton Island personally. Even if there was no nuclear fuel, he could not use large-scale weapons.

This was because he still needed to use the second-generation development equipment to find all the second-generation developers.

Chu Hui was the first to object. She said very seriously, "There are a thousand mercenaries and hundreds of developers. You are alone. Even if you can fight, how many can you kill?"

"There will always be a time when you run out of energy. If you want to go, let me go with you!"

Yu Tian smiled bitterly and said helplessly, "When you were sleeping, did you fall off the bed and become a retard? Kellogg wanted to get you even in their dreams, but you took the initiative to go with them?"

"Besides, what can you do if you go? While I was doing Kellogg, you cooked for me and covered me with the quilt? You should quickly stay here quietly. I will go to Torne Island alone, and I will be back in time to Peel!"

Since she couldn't stop Yu Tian, Chu Hui could only tell him to be careful.

Before they left, Yu Tian called Chu Wen first and asked her to prepare something for him.

The next evening, the plane slowly landed at the Metropolitan International Airport.

Chu Wen personally welcomed him at the airport. After they met, Chu Wen said particularly gently, "I feel like I'm picking up my husband from work. But this time, you're risking your life. What can I say?"

You definitely won't listen to me to stop you!"

Yu Tian laughed out loud and hugged Chu Wen's neck. He pressed against her breathing and said, "Then don't Stop Me. First, get me some food. Then, bring me to see something. The food on the plane is like feeding a dog!"

Chu Wen shook her head helplessly and complained, "When you're risking your life, don't forget that there are 108 women waiting to marry you behind you. Don't let those sisters who haven't seen you in person become widows!"

"Can you stop wasting?" Tian said coldly, "I'm going to kill people, not to seek death. Hurry up and get some food. I still have to catch a plane later!"

It was because she liked Yu Tian's domineering attitude that Chu Wen smiled charmingly and said, "The more you yell at me, the more excited I get!"

Yu Tian grinned.. What kind of personality did this woman have?

?Chapter 387 – Chapter 387, No Need For Thanks

Thank you readers!

After eating and drinking, Chu Wen brought Yu Tian to a freighter at the port under the escort of dozens of bodyguards.

Yu Tian looked up and saw that the freighter was full of armed men with veils on their heads and weapons in their hands.

At this moment, a middle-aged man wearing a combat suit with a cold expression walked down from the freighter with dozens of people.

After the two sides met, Chu Wen's bodyguard handed two heavy suitcases to the middle-aged man. After opening them, they were filled with money.

Chu Wen gently held Yu Tian's arm and said to the middle-aged man coldly and arrogantly, "Loens, this is fifty million international coins. As long as my man can come back alive, you will get another fifty million!"

Loens looked at Yu Tian expressionlessly and said gloomily, "We will not land on the island. We will only provide fire support, but I will call a guide to help him!"

He held Chu Wen's hand tightly. It was a little cold, just like the sea breeze blowing on his face. He hoped that he could use the temperature of his palm to make her feel warmer.

Chu Wen leaned on his arm and said in a low voice, "You must come back alive."

Let Me Be Your First Woman!

Yu Tian smiled indifferently and said, "Then you have to fight for this position. There are already many people who have reserved it, but I can consider making your position a little earlier!"

After saying that, Yu Tian looked at the time and stood up. u I should set off. You should go back and take a hot bath and have a good rest!

Chu Wen really wanted to sit like this forever, but Yu Tian's back was so determined that he did not even turn his head.

It was only when the ship turned into stars in the sky that Chu Wen tugged at her collar and left the port dejectedly.

On the ship, no one spoke, making Yu Tian feel as if he had boarded a ghost ship.

At this time, Celovvyn said coldly from behind him, a€?We have to sail for ten hours. You'd better go to the cabin and rest!

Anyway, there was nothing to see in the sea. Yu Tian turned around and smiled, a€?Do you have anything to drink?a€?

Salomon didn't want to say anything more and just turned around and left.

Yu Tian felt that it was especially laughable. This Woman's temper wasn't small. Didn't they say that female pirates were very passionate?

Why did the female pirates he met seem like they had been played by someone and didn't give him any money.

The cabin was still very warm and quiet. Yu Tian lay on the bed and gradually fell asleep as the ship shook.

As if she had just fallen asleep, Yu Tian was suddenly jolted awake by the violent shaking of the ship.

The shaking of the ship was especially large, and the chairs swayed back and forth in the cabin.

Looking out of the window, Yu Tian was greatly surprised.

It turned out that the ship was sailing in a violent storm, lightning, and huge waves.

He immediately followed the shaking ship to the bridge. Lornes was personally controlling the ship and did not even look at Yu Tian.

On the deck, more than a dozen people were standing in the heavy rain, and the shaking body of the ship was fixing two containers.

Yu Tian looked out with the swaying lights, and selovine was among them.

At this moment, she was tightly holding onto a rope, and the muscles on her arms were also bulging, making her look extremely exhausted.

At this moment, a huge wave hit the bow of the ship, and the container was directly pulled toward the stern.

The few people who were holding onto the rope were all thrown into the sea, and Cellowen was also thrown out of the ship.

She held onto the rope tightly so that she did not fall into the water.

However, not far away, another huge wave came crashing over.

Yu Tian had already determined that this wave, which was dozens of meters tall, would hit the boat, and Celowyn would be able to feed the fish.

While Celowyn was swaying back and forth, she couldn't hold on any longer.

She looked at the huge wave that was about to hit her, and not only was she not afraid, she was disgusted, as if this world was so detestable.

But at this moment, the rope in her hand was pulled by someone.

Salowen looked up and saw that it was actually Yu Tian.

At this moment, Yu Tian was calmly and handsomely pulling the rope in the middle of the storm. Salowen's heart moved slightly, as if the ice had melted a little.

Salowen stood on the deck of the boat, and the huge wave hit the hull of the boat violently.

The violent shaking and shaking caused the two of them to fly into the air.

Yu Tian's reaction was extremely fast. He grabbed the rope, turned around, and grabbed Salomon Wen again.

The waves hit the two of them heavily, but Salomon Wen felt that Yu Tian's hand was so powerful that he didn't even need to think about it. He would abandon himself because he couldn't hold on, or just so that he could live.

The surface of the sea gradually calmed down. Yu Tian wiped the sea water off his face and said indifferently, "If I had known earlier, I would have taken the plane. What a load of Crap!"

Salomon said coldly, "Don't think that I will thank you. I don't know how to save people, and I don't need anyone to save me!"

Her words were quite domineering, and Yu Tian did not care about her gratitude at all. He said coldly, "Don't think that I saved you just because I want your gratitude. I just don't want to find another guide!"

After saying that, Yu Tian walked towards the cabin.

She gritted her teeth, and her eyes were still cold. She would never thank anyone.

Early in the morning, the ship anchored five nautical miles away from Ton Island.

Lornes came to the cabin and said coldly with an expressionless face, "Now you have to swim there by yourselves. I will only wait here for three days. When you don't come back, I will immediately start the ship!"

As he spoke, Lornes put the radio on the table and said, "We will provide you with firepower here. If you need it, you can contact us with this!"

Yu Tian picked up the radio and said indifferently, "Listen well to me. If you dare to leave before I come back, don't even think about living!"

When facing the murderous Yu Tian, a trace of fear flashed in Lornes' eyes.

Although he was a pirate, he was a man of his word.

He did not explain anything and just turned around to leave.

Yu Tian snorted and also came to the deck.

?Chapter 388 – Chapter 388: Chop Down The Trees

Thank you readers!

All the equipment had been prepared, including selovine. The weapons and machetes were all hung on her body.

Yu Tian smiled disdainfully. These things were useless, especially in front of the second generation developers. These weapons could only be a burden.

After putting on the equipment, the two of them jumped into the sea one after another and swam towards Torne Island.

At this moment, the mercenaries on Torne Island also saw the ship through their binoculars.

However, he didn't care at all. It was originally a shipping route, and there were many ships coming and going. Moreover, it was a cargo ship, so there was no need to care about it.

An hour later, under the water, Sellowen took a gentle breath of oxygen and turned around to tell Yu Tian to follow her.

Yu Tian looked up and saw that the island was right in front of him.

He followed Sailorwen all the way into a crack under the island and climbed up along the crack. It was actually a cave entrance.

The two of them silently took off their equipment. Sailorwen came to the cave entrance, pushed aside the weeds, and carefully looked out.

Yu Tian looked at the map. Their current location was in the middle of the island, less than two kilometers away from the base.

Moreover, the satellite map showed that there were quite a number of mercenaries in the vicinity, and there were even two mercenary camps.

Celouryn pointed at one of the camps and said, "Do you see that tent? Under that camp is the ventilation system of the base. Where can we enter the base from."

Yu Tian smiled bitterly and said, "It's daytime now. The weather outside is so good that we can even sunbathe. Do you think those mercenaries in the base can let us pass smoothly?"

However, Sailorwen didn't say anything. Instead, she took out a silencer and twisted it on her weapon.

This was the f * cking rhythm of doing it.

Yu Tian hurriedly stopped her and said, "Calm down first. It's just some mercenaries. We don't need to fight to the death with them. We can use other methods to make them leave."

Sailorwen coldly said, "What method?"

"No matter what method, it is much better than you going up and doing it. If you don't do it well, you will be raped instead. Can you not be so Tian indifferently said."

She disdainfully said, "Don't you have other methods?"

"Wrong!" Yu Tian smiled confidently and proudly said, "I can make them leave the camp without moving. Do you dare to bet with me?"

[a€?What do you want to asked coldly.

Yu Tian chuckled and said, a€?Kiss me. If I win, you kiss me. If you win, I kiss you !

Salomon thought that something was wrong. Whether she won or lost, it seemed like she was at a disadvantage. She was so angry that she directly aimed her weapon at Yu Tian.

But in the blink of an eye, the weapon was grabbed by Yu Tian. With a few simple moves, it turned into a ball.

This move had really shocked Salomon Wen. Why was Yu Tian's grip so strong?

However, Yu Tian touched his chin and said proudly, a€?You won't be able to use these things. Now, you wait here and wait for my signal. When I tell you to go over, you go over!

When Salomon Wen saw Yu Tian's lightning-fast speed, he was a little dumbfounded.

The distance from the cave entrance to the camp was two hundred meters.

Even the world flyers had to complete it in about seventeen seconds. However, Yu Tian only used less than five seconds, including climbing up a tree.

a€?How can there be such a fast person in this was extremely incredulous.

Yu Tian, who was jumping on the tree, quickly observed his surroundings and thought to himself, a€?Damn, why do I feel so excited now?a€?

Usually, he was just putting on an act. This was his first time encountering such a scene, so he treated it as a training experience.

The camp was just a dozen meters away. There were more than ten mercenaries resting in the camp. Some were drinking, and some were cleaning their weapons.

Seeing this, Yu Tian jumped on the ground and walked into the camp generously.

Seeing this, Salomon became nervous. He wondered if this guy was crazy. What was he doing without hesitation? Does he want to die?

The mercenaries in the camp looked at Yu Tian strangely. A bearded mercenary frowned and said, a€?Hey, Buddy, who are you? What do you want?a€?

Yu Tian said indifferently, a€?The meeting is about to start. Kellogg asked me to see how your work is going.a€?

But the bearded mercenary still asked cautiously, "I have never received orders in this area, and I didn't know that an Easterner would come to my camp to give me orders. I will ask Kellogg now!"

Just as the mercenary picked up the radio, Yu Tian's thoughts moved slightly, and the radio suddenly expanded. In the blink of an eye, it turned into a huge radio that weighed hundreds of kilograms, almost smashing the bearded mercenary down.

Everyone was so frightened that they all retreated. The bearded mercenary even shouted in shock, "F * ck, you're a developer!"

These mercenaries were not afraid of anything, but of these developers. They were like ghosts, able to create any kind of inexplicable scene. They could even make some mercenaries dig a hole and bury themselves.

Whoever they provoked, they should not provoke these developers. That was equivalent to being tired of living and looking for death without any hesitation.

In the distance, Salomon's eyes were about to split open from shock.

That damned radio, how did it become so big? Was this magic?

Yu Tian said indifferently, "Now you should know who I am. Kellogg asked me to arrange a job for you. He wants to hold an open-air wine party at the corner of the coconut tree. Go over and cut down that coconut tree!"

The bearded mercenary asked in horror, "He just wants us to chop down the trees, right?"

"Hurry up and go! If you want to make me angry, I will make your butts as big as this" Tian said coldly.

These mercenaries were so scared that they were stupefied. They hurriedly picked up their axes and went to chop down the trees without hesitation.

Yu Tian found it funny in his heart. Up until now, his skill could only transform things, but not people.

When the mercenaries in the camp had gone to chop down the trees, Yu Tian turned around and waved his hand at Celwyn who was at the entrance of the cave.

Celwyn forced herself to calm down. When she arrived at the camp, she asked, "Are you a human or something?"

Yu Tian said disdainfully, "Cut the crap. Am I not a human or a ghost? Now, before those idiots can react, hurry up and bring me to the base!"

She thought for a moment and decided to bring Yu Tian into the tent. She opened the floor and jumped into the ventilation duct.

The duct was very narrow. She could only crawl forward on her knees. Yu Tian was at the back while she was at the front.

Yu Tian smiled evilly as he admired Salomon's posture. It turned out that women could be so sexy when climbing the duct.

Salomon did not know what Yu Tian was thinking. Soon, they arrived at an exit.

She carefully opened the vent and looked down to make sure no one was there. Then she nimbly jumped down the pipe..

?Chapter 389 – Chapter 389 Suddenly Disappeared

Thank you readers!

At this time, the two of them had successfully entered the base. Celowyn said in a low voice, "We are now in their basement. Next door is the base's generator. We can kill this generator"

"Before the backup generator generates electricity, we can sneak into the base. But now we have to wait for a while. In half an hour, the mercenaries outside will go to the restaurant upstairs to drink coffee"

Yu Tian then stretched his body and looked at Serowen coldly. He asked in a low voice, "How do you know so much about this place? Even if you were born here, you can't be so clear about when they drink coffee, right?"

Serowen suddenly turned his head and asked cautiously, "Are you suspecting me?"

He chuckled and said, "To be honest, yes. If my suspicion is correct, then you can't leave this room. I have already entered the base, so I don't need you at any time"

The air became oppressive, and Selowen's face slowly turned from cold to angry red, after a long while, she said fiercely, "This was originally my home. This room that you saw was originally where my father stored his tools!"

When she said this, Yu Tian frowned slightly and asked, "This is your home. Why did you leave? Where's your father?"

His words seemed to uncover the deepest painful memories of celowyn , making her cold gaze even more painful.

She slowly said, "That year, when I was 15 years old, my father bought this island. He was an excellent botanist, and he wanted to grow the best plants in the world here,

my mother was also a botanist. They planted a lot of crops on this island, and our life was very happy. Every day, I would follow them and read books in the Fragrant Garden, we would listen to music together!

But one night, a large group of people with weapons came to this small island. They destroyed all the plants that they had painstakingly planted. My father was killed by them in the process of fighting them, and my mother, in order to let me leave alive, was also killed by those mercenaries. I left this small island alone, leaving my former home. I was only on a small boat, drifting for a long time,

just when I was about to starve to death, I met a group of pirates. They saved me, and that was how I became who I am now. Every room here, every inch of land, was deeply imprinted in my memory,

including the laughter of the past, every happy afternoon, and every ray of warm sunlight. I will never forget this for the rest of my life. From the moment I lost it, I vowed to kill all those demons,

"This is why I know this place so well. It is my beautiful memory, and also the most painful teardrop in my heart!

Yu Tian listened quietly and said indifferently, "I can help you!

However, Celowyn shook her head firmly and said, "I don't need any help. I have the ability to take everything back. I want to kill those bastards with my own hands and let them wash my memory with blood!

Everyone had memories, right? Moreover, good memories and painful memories would haunt you for the rest of your life.

Even yourself was the same. You learned the memories, but you would never forget them.

Half an hour passed very quickly. Sailorwen leaned behind the door and listened carefully. Then, she said in a low voice, "Now that they have all left, we can also leave this place!"

After saying that, Celowin gently opened the door and made sure that there was no one in the corridor outside. Then, she went to the room next door.

The generator was right in front of her. Celowin raised her knife and was about to cut it.

Yu Tian hurriedly stopped her and said helplessly, "I said that you were stupid, but you didn't want to hear it. That was just an ordinary dagger. You thought it was the Green Dragon Crescent Knife?"

As he spoke, Yu Tian's mind moved slightly and immediately shrunk the generator to the size of a grain of rice.

The power supply of the entire base was suddenly cut off. The development device that was working at the exact core of the base suddenly stopped working.

The developer in the device screamed in extreme pain. All the brain cells were dying quickly, and the developer soon lost his breath.

A bespectacled expert hurriedly shouted, "What's going on here? Why is the power cut off?"

Kellogg, who was in a luxurious office, suddenly looked out of the window.

He frowned and said coldly, "That generator can work for 50 years. If no one destroys it, there's absolutely no possibility of a power cut!"

As soon as he said that, he immediately picked up the radio and said in a voice that was close to a roar, "Who is watching the generator today? Are you trash drinking coffee again?"

"Immediately go and see what happened to the generator that day. I think you all don't want to live anymore, right?"

The mercenaries became nervous and immediately rushed to the basement.

However, when they saw the scene on the TV, they were all shocked speechless.

Kellogg's Roar continued on the radio. A mercenary said to the radio with a trembling voice, "Dr. Kellogg, our generator is gone!"

"Are you kidding me? How could such a big generator be gone?" Kellogg scolded angrily, "You Trash, are you drunk again?"

The mercenary swallowed his saliva in fear and swore,

u

I didn't drink a drop of alcohol today. The generator is indeed gone!

Kellogg frowned. Who could have done this?

Could there be another developer in the base? But such a big generator, how could it disappear just like that? Even if it was a developer, it couldn't be done so cleanly.

Thinking of this, he immediately ordered, "XII the mercenaries have returned to the base. There must be an outsider here. Find this person!"

The bearded mercenary who was chopping down trees also heard this order. He immediately took out his radio and said, "Dr. Kellogg, do we still need to continue chopping down trees?"

Kellogg asked in bafflement, "What tree? Who told you to chop down trees?"

"It was an easterner. He said that this was your order. He told us to come to coconut horn and cut down the tree!"

Kellogg was shocked. Could This Easterner Be Yu Tian?

This was unlikely. How did he sneak into the base? The defense around the island could be said to be the best. could he have grown wings and flown?

"Find this Easterner immediately. You can kill him without asking for permission!"

After saying this, Kellogg immediately got up and went to the development base..

?Chapter 390 – Chapter 390 Was Very Exciting

Thank you readers!

Kellogg pondered as he walked. How did Yu Tian get into the base?

Who else would come with him?

The whole group seemed to have turned upside down. Everyone was looking for that Easterner. Not only were there mercenaries, but there were also countless second-generation developers.

At this moment, Yu Tian was led by Sellowen to a room that was covered in dust.

"This was my room!" She said in a low voice

Yu Tian saw pictures of Selowen when she was young on the wall. At that time, she was smiling happily. Time had changed, and now, all she saw was death and cruelty.

Selowen didn't want to recall those memories. She gently pushed the bed open and opened a secret passage under the bed.

“My father was also a researcher of the ancient castle. When he built this castle, he left behind many secret passages. In the past, we often played hide-and-seek here!” After recalling for a moment, she turned on her flashlight, she jumped into the secret passage.

Yu Tian asked in a low voice, “Where does this secret passage lead to?”

“They built a laboratory here,” she said in a low voice. “The last time I came here, they placed a lot of machines in the laboratory. This secret passage leads to that laboratory!”

The laboratory she was talking about should be the room where the brain development equipment was placed.

This guide was really useful, saving him a lot of time.

When they went through the secret passage, Yu Tian could even hear the chaotic footsteps outside. Although it was only a wall away, no one knew that they were here.

In a corner of the secret passage, Serrowen gently moved a photo frame. Through a small hole behind the photo frame, they could see the entire corridor.

Yu Tian leaned on it and looked carefully. He just happened to see Kellogg turn the corner and walk down the stairs.

Kellogg seemed to have sensed something. He suddenly turned around and looked at the painting on the wall.

The content of the painting was of a medieval man. His gaze was very sharp.

Yu Tian, who was behind the wall, hurriedly blocked the small hole.

Kellogg came in front of the painting and looked at it coldly. Suddenly, he stretched out his hand and knocked on the painting.

There was an echo behind the wall.

At the same time, Yu Tian frowned. Kellogg had already discovered this secret passage and the mercenaries would be here soon.

Kellogg slowly retreated as well. He seemed to have sensed the rising killing intent behind the wall.

Yu Tian gritted his teeth and punched a hole in the wall.

Kellogg was shocked. he shouted while running, “He's Here! He's Here!”

Yu Tian jumped onto the corridor while Kellogg ran down the stairs.

At this moment, a large group of mercenaries rushed up and raised their weapons, ready to shoot.

Yu Tian willed all the weapons to disappear instantly and followed up with a punch.

The powerful force swept through the corridor and flipped the mercenaries to the ground.

These small fries were not worth his time.

Yu Tian directly walked past them and chased after Kellogg.

Kellogg, who had already run into the courtyard, called over a large group of second generation developers.

These people were all prepared to make a move in front of the door. As long as Yu Tian appeared, they would immediately use their skills to launch all kinds of attacks.

However, after a long time, there wasn't even a shadow behind the door.

Kellogg frowned and stared at the door with a cold gaze. He ordered, "Get a few people to go over and take a look. If he's behind the door, kill him immediately!"

A valiant developer came to the door without hesitation and punched the ground.

A powerful force followed the ground all the way to the door frame. The entire door suddenly shattered.

After a layer of dust, there was still nothing inside the door.

Kellogg gritted his teeth in hatred. he shouted loudly, "Yu Tian, I know you're inside. You're courting death. There's no way you can leave this island alive,

where did you get the courage? "But you came here alone. Since you don't want to live anymore, I "ll let you die a horrible death today!"

Yu Tian didn't hear what he said at all. At this moment, Yu Tian had already followed cellovin along the secret passage and arrived next door to the laboratory.

He wouldn't go and fight with those idiots. There were their people everywhere. If he walked out rashly, those developers would give him a headache.

He would let them act cool outside. He would first get the information of those developers and destroy the development equipment.

Kellogg cursed for a long time, but Yu Tian still didn't appear. He suddenly remembered the secret passage and hurriedly ordered, "Go to the lab immediately!"

Everyone immediately rushed to the backyard.

At this time, Selovine had already opened the exit of the secret passage, and Yu Tian directly stood in the lab.

When the dozen or so experts saw Yu Tian who suddenly appeared, they were shocked.

Yu Tian grabbed one of the experts' neck at an extremely fast speed. With just a little bit of force, the expert's neck was broken.

The remaining experts were scared out of their wits and their hair stood on end.

Yu Tian clapped his hands and said coldly, "It's very simple. I want the information of all the developers. You can live if you hand it over to me!" One of the experts was so scared that he was showing off.

Since that was the case, Yu Tian did not need to ask anyone else. He walked directly to the expert and said indifferently, "The information must be with you, right? Hand them over to me!"

The expert was so scared that his head was buzzing. Just as he turned around to get the information, a black shadow suddenly floated in from outside the door. Following that, a cold light flashed and the dagger directly stabbed towards Yu Tian.

The speed of this black shadow was extremely fast. It was as if his entire body was wrapped in a layer of black smoke.

Yu Tian dodged the dagger and wanted to attack. The black shadow quickly retreated. In the blink of an eye, it floated to Yu Tian's side and the dagger slashed down once again.

It was only at this moment that Yu Tian realized that this developer's skill was actually speed.

His speed was so fast, but he was also exceptionally agile.

Yu Tian threw a few punches, but none of them hit the target. Every time, this guy would quickly dodge them.

At this moment, a few more developers rushed in from outside the door. One of the developers' eyes suddenly turned blood red.

As long as he saw something, it would immediately burn up.

Yu Tian's clothes had a few holes burned through by him.

Celowyn, who was scratching on the side, was stunned when she saw this scene. These people were simply like monsters.

At this moment, Yu Tian smiled excitedly.

Kellogg's voice sounded from outside the door. He said proudly, "Yu Tian, give up. or I can give you a good choice. You Can't change anything. Even if you destroy the entire island..,

"You can't Stop Me from developing the third-generation device.. At that time, this world will be mine!

I Have 108 Older Sisters #Chapter 391 - Read I Have 108 Older Sisters Chapter 391

?Chapter 391 – Chapter 391, Artillery Attack

Thank you readers!

Yu Tian looked at the developers surrounding him with disdain and said with a calm smile, "Kellogg, you won't be able to develop a third-generation device because you'll soon be trampled under my feet!"

Kellogg angrily ordered, "Kill him!"

The developers immediately launched an attack.

Previously, they had taken advantage of him, but now, Yu Tian didn't want to waste any more time.

First, the speed developer rushed towards Yu Tian without any hesitation. However, a huge chair suddenly appeared in front of him. Before he could dodge, he crashed into the chair, and his head was instantly covered in blood.

Behind him, the fiery eye developer activated his mind and looked at Yu Tian.

However, Yu Tian pulled the speed developer in front of him. Under the attack of the skill, the speed developer instantly turned into a burnt skeleton.

The moment the fire eye developer was shocked, a metal cup that was taller than a person suddenly smashed onto his head.

With a muffled bang, his brain was smashed into pieces.

However, a large number of developers still wanted to rush into the house. Yu Tian kicked the cup and blocked the door.

Taking this opportunity, Yu Tian turned around and grabbed the neck of the expert. He said coldly, "Where's the information?"

The expert was frightened. He immediately pulled out a USB from the device and said fearfully, "The things you want are all here!"

Yu Tian took the USB. With a murderous look in his eyes, he directly broke the expert's neck.

Everyone here deserved to die, regardless of whether they were developers or not.

Following that, Yu Tian activated his mind and turned the entire second-generation device into the size of a fist. He stuffed it into his backpack, grabbed sellowen, and quickly rushed into the secret passage.

Halfway there, Yu Tian grabbed Salomon again and whispered, "Let Lornes launch an attack immediately. If he sees anything outside the tree, blow him LIP!"

Salomon immediately took out the radio and pressed the frequency code. He said urgently, "Lornes, fire immediately!"

On the ship, Lornes, who was quietly drinking coffee while listening to music, immediately had a long-lost excitement on his cold face.

At this moment, the once famous commander of the battleship had returned to his soul.

He slowly got up, picked up the loudspeaker, and shouted, "Guys, our time has begun. Bring out all our weapons!"

An ordinary ship turned into a battleship in a second.

The deck of the ship was opened, and seven long-range cannons were quickly raised. The missile launchers at the stern of the ship were opened one after another.

Especially the two containers. When they were all opened, there were actually two folding-wing attack helicopters inside.

The fuselage of the helicopter was clearly engraved with the words

made by C27-chuyan group'.

Lornes used the binoculars to observe Torne Island, and calmly ordered, "Target, the middle area of Torne Island, cover and Attack!"

They were originally rough pirates, but now they were all well-trained soldiers. They were really good at using cannons.

Following that, seven cannons fired at the same time.

The cannonballs shot out of the cannonballs. In the fluctuation of the air, they turned into streaks of light that tore through the sky and accurately landed on the island.

The base turned into a sea of fire in the blink of an eye. The mercenaries and most of the developers were blown away, and countless people died.

Yu Tian, who was in the secret passage, smashed the wall with one punch and jumped into the backyard. Just then, a cannonball landed beside him. The violent explosion created a high temperature in an instant, which made

Salomon Wen lie on the ground. However, Yu Tian only blocked her face.

Then, he cursed loudly, "What the F * ck! These damn pirates!"

With the toughness of her body now, as long as the cannonball didn't land in her stomach, she wouldn't be harmed.

However, Cellowen could not do it. A cannonball had almost made her forget her gender. Yu Tian pulled her up and ordered, "Your mission has been completed. Now go to the retreat point and wait!"

She grabbed Yu Tian's arm and asked anxiously, "What About You?"

"There are still people waiting for me. Tell Lornes to blow up all the ships around the island. Not even a fly can leave this place!" Yu Tian ordered and turned around and rushed to the front yard of the castle.

At this moment, Kellogg, whose face was covered in blood, looked at the Burning Sea of fire in front of him and thought that he would definitely not be able to defend this place.

If it was a ground battle, his mercenaries and developers would be invincible.

However, facing such a fierce bombardment, and there were no heavy weapons on the island to defend against, he could only watch as the island was blown up and sunk.

Therefore, it was time to retreat.

Kellogg immediately brought more than a dozen developers to the beach. However, they found that all the ships had been blown to pieces, especially the luxury yacht that was worth tens of millions of dollars. It was also sinking. "Where is our helicopter?" Kellogg remembered that there was a helicopter that usually transported items.

"It's at Coconut Tree Corner!" The developer said nervously.

At this moment, Yu Tian's voice suddenly sounded behind them.

"Kellogg, do you think you can still leave this place?"

Everyone suddenly turned around. Yu Tian was resting comfortably on a tree trunk, looking at them indifferently.

"If I want to leave, even God can't Stop Me!" Kellogg snorted coldly and ordered, "Kill him for me!"

The developers bared their teeth and rushed towards Yu Tian.

Kellogg took the opportunity to rush towards coconut tree corner.

These developers were not aggressive and were easily dealt with by Yu Tian.

He clapped his hands and shook his head helplessly. Why did Kellogg refuse to accept his fate.

At this time, Kellogg had already rolled and crawled to Coconut Tree Corner. He could see the helicopter from afar.

At this moment, some mercenaries were preparing to use the helicopter to leave. The propellers had already turned.

At the same time, the two helicopters on the ship slowly rose into the air. The pirates sitting in the cabin saluted Lornes on the bridge. The helicopter turned gracefully and rushed towards the island.

When Yu Tian rushed to the coconut tree corner, the helicopter had already risen into the air and left.

"F * ck, its legs are pretty fast!"

He could have used his mind to control the helicopter, but if he did that, his wish to step on Kellogg would become a pretense and he would be smacking himself in the face.

At this moment, the two c27s blocked the front of the transport plane.

Kellogg's eyes suddenly widened. The red-headed rocket on the C27 was fired directly.

The front part of the transport plane was blown to pieces.

The rest of the fuselage caught fire and fell to the ground. Several mercenaries were thrown out.

Kellogg also closed his eyes. If he could live, he would live. If he couldn't live, he would die. He couldn't do anything now.

When the helicopter was less than five meters from the ground, a strong force lifted the helicopter into the air.

Kellogg suddenly opened his eyes and looked down. It was actually Yu Tian..

?Chapter 392 – : Chapter 392, The Invisible Man

Thank you readers!

The helicopter was held in mid-air by Yu Tian's powerful internal energy. Kellogg was so angry that his teeth were itching.

He picked up the weapon under his feet and fired at Yu Tian.

However, not a single bullet hit Yu Tian.

At this moment, Yu Tian suddenly withdrew his internal energy and the helicopter fell heavily to the ground. Kellogg was also jolted out of the helicopter and fell directly under Yu Tian's feet.

Before he could raise his head, Yu Tian stepped on his face and said proudly, a€?I said that I would step on you, so I must do it. What are you saying now?a€?

Kellogg was angry and scared. He said with a trembling voice, a€?Yu Tian, what exactly is the reason for you? If you want to, you have the ability to control this world, but why did you do it?a€?

Yu Tian smiled indifferently and said, a€?Because I have nothing to do, I want to kill a few old farts for fun. Are you unhappy? I Won't waste time with you. Now, go to the other world and continue developing your equipment!a€?

After saying that, Yu Tian was about to kill him. But at this moment, Monica appeared behind Yu Tian inexplicably and pleaded, a€?Yu Tian, don't kill him, Please!

Yu Tian suddenly turned around. Monica was looking at him with tears on her face. Her tearful eyes were full of pleading.

This was really annoying.

He said with annoyance, "How did you get here?"

At this moment, Tiffany stood up from the bushes and explained, "I'm a developer who knows the invisibility skill. We have been following behind you the whole time. It's just that you didn't notice it." "We even saw you shaking when you peed!"

As he spoke, a figure slowly appeared beside Yu Tian.

He turned his head and saw that the developer was a beauty. The leather jacket was so tight on her body that it was extremely sexy.

The unique charm of the oriental beauty made her look even more charming.

The beauty looked at Yu Tian with a calm smile and said in a soft voice, "My name is Meng Xiaoyu. When you peed, the two of them looked at me, but I didn't!"

Yu Tian said with a sad face, "Okay, you followed me all the way. Is it to study how I pee? If you like to watch, I'll give you two hours to watch,

"But Kellogg must not live!"

Monica cried out in pain, "He's my father, Yu Tian. You Can't do this. Even if he deserves to die, I can't just watch him die!"

Yu Tian narrowed his eyes coldly. Kellogg must die, and he must not be turned into a vegetable.

For those strange second-generation developers, they had the ability to recover Kellogg's memories, just like how they had recovered Chu Hui and the others' memories.

However, just as Yu Tian was about to make a move, Kellogg started laughing maniacally. He broke free from Yu Tian's stomp and slowly sat up.

He looked at Monica with a look of tender love in his eyes. He slowly said, "Monica, I did all this for you. When you were five years old, there were cell breaks in your brain,

"Unless you carry out cell repair, you would not be able to live. Therefore, Chu Yang and I collaborated to develop a brain repair device. At that time, our idea was to repair your brain cells,

[a€?If we succeed, we can save more people like you. And during the experiment, we were surprised to find that this device can activate more brain cells and make the human body stronger!

At this point, Kellogg's hand was trembling with blood. He took out a photo of Monica when she was young.

a€?After the first generation of the machine was developed, Chu Yang wanted to develop his own brain. In the end, his basic IQ was not enough. In the end, 97% of his brain cells were killed and he became a vegetable,

a€?He is our benefactor. Without Chu Yang's support, I would not have been able to create the machine myself. You would not have been able to live until now, so I wanted to save him. At the very least, I wanted to wake him up.'

a€?As for Chu Hui a€?'s brain cells, they can be transplanted into Chu Yang's brain. However, this can only be done with a third- generation device. On the other hand, PBG is unscrupulous in killing developers for their own benefit.

a€?None of us have harmed anyone. We only want to save my daughter.

However, they treat these as weapons that I want to dominate the world. Since they think so, then I'll just dominate the world. a€?

a€?But everything is a joke of fate. Who knew that Yu Tian actually existed in this world!a€?

Kellogg laughed self-deprecatingly, but Yu Tian looked at him indifferently.

What he said earlier really made him want to stop killing him. But what he said later, this old man still had to die.

Monica held Kellogg in her arms and cried, a€?Father, I have never hated you. I will not let Yu Tian kill you!

However, Kellogg said firmly, a€?Monica, you must remember that I love you! a€?

As soon as he said that, Kellogg suddenly took out a weapon from his waist and held it against his chin as he fired a bullet.

In a burst of blood, Monica shouted at the top of her lungs, a€?No, father, noa€|a€?

Yu Tian also shook his head helplessly. This guy did not die by his hands in the end. However, this was also good. At least Monica would not hate him.

However, Tiffany leaned close to Yu Tian's ear and whispered, "Yu Tian, do you think Monica won't hate you? If you didn't attack the island, Kellogg wouldn't have died!"

He looked at Tiffany in confusion. He didn't understand what she was trying to say?

Tiffany narrowed her eyes coldly and said, "Kellogg is dead. Monica is the leader of the developers. If she hates you, then this battle will never end. You have to kill her!"

Yu Tian was shocked by Tiffany's words. He had never thought of killing Monica. She was already pitiful enough. How could he treat her like this?

He reprimanded coldly, "Are you crazy? She is Monica, not Kellogg. She doesn't want to dominate the world. If she hates me, then let her hate me. Do you think I care about this?"

Meng Xiaoyu also came close to the two of them. She looked at Monica who was crying not far away and said coldly, "Yu Tian, Tiffany is right. In terms of relationships, your thoughts are correct"

However, the current generation of developers had vowed to listen to Monica's orders. If she became a second Kellogg, it would be even harder to kill her. At least Kellogg didn't have any skills,

however, she was different. She was a person with skills, and as she grew, her skills would become more and more powerful. Previously, she could only purify developers. However, on the way here, Tiffany and I discovered that..,

she could actually still interfere with electrically charged objects. Do you still remember when you were rescuing serovine, the ship tilted? At that time, she was the one who was interfering with the ship. I was sure that she did it on purpose, fortunately, Tiffany and I stopped her, and she said she didn't know what she was doing, but Tiffany and I didn't believe it!

?Chapter 393 – Chapter 393, Buy Whatever You Want

Thank you readers!

Yu Tian frowned. Although he believed what Tiffany said to Meng Xiaoyu, it was impossible for him to kill Monica.

Even if Monica could really become his enemy.

Tiffany saw Yu Tian's dilemma and volunteered, "If you can't do it, I'll help you!"

Yu Tian didn't say anything. At this moment, he felt like he was wandering on the edge of a cliff, and it was difficult for him to make a choice.

He thought that everything was under his control, but at this moment, he realized that there were still many things in this world that he couldn't control.

At this time, Monica had already put down the cold Kellogg and slowly stood up to look at Yu Tian and the others.

Even if he was sad now, he couldn't let his father come back to life. This was his life.

Yu Tian gritted his teeth and walked closer to Monica. He held her in his arms.

Tiffany and Meng Xiaoyu looked at each other in disbelief. Yu Tian was still unable to jump out of the whirlpool of emotions. This was his weakness.

At this moment, tears of pain fell from Monica's sad eyes again. She said sadly, "I still couldn't let him live. This is all my fault!"

Yu Tian comforted her, "Don't think about it. At least he didn't die in my hands. I know you hate me in your heart, but I have to do this. This is also my fate. It can not be changed!"

Monica looked up and looked at Yu Tian's eyes pitifully and aggrievedly. She said in pain, "I don't want to hate anyone. I hope that there will never be hatred. There will be no death, and there will be no killing!"

"Enough people have died. They should all live well, right?"

Hearing this, Yu Tian frowned slightly again. Monica's current thoughts were completely different from what Tiffany had said.

He hugged Monica tightly in his arms and whispered into her ear, "When you were on the ship, what did you do?"

Monica shook her head in confusion and said, "I didn't do anything. We were hiding at the bottom of the cabin. I just remembered that I was very sleepy at that time, so I slept for a while. When I woke up, they asked me the same thing!"

"I really don't know what I did?"

Yu Tian nodded and said indifferently, "That's enough. You were just sleepwalking at that time. You even took off your clothes and wanted to dance on the table. Nothing else!"

"AH? I've never sleepwalked before!" Monica was shocked. When did she start sleepwalking?

At this time, Selovine had already waved at them from the helicopter. It was time to retreat.

The helicopter took off. Yu Tian looked at the small island under his feet that was emitting thick smoke. He rubbed his chin and thought about a question.

Did Tiffany lie to Meng Xiaoyu, or did Monica really not know what she had done?

Soon, the helicopter landed steadily on the ship.

Lornes was still very excited. With binoculars around his neck, he smiled and said, "I thought you would let me sink the entire island. I was especially willing to do that!"

"But now, we have to leave this place. The battleships of the superpower will appear here soon. We Are Pirates Now!"

Yu Tian nodded and said, "Let's set the anchor and go straight to the metropolis. Ask someone to get me some food. I'm so hungry that I can eat the

Celowyn quickly prepared the food.

Yu Tian sat at the dining table on the deck of the ship and drank a cup with everyone. Then, he smiled at Lornes and said, "I didn't expect this ship to have such valiant combat strength. Do you have any thoughts of cooperating with me for a long time?"

Lornes did not understand what Yu Tian meant by cooperating. He asked in puzzlement, "Are you still going to blow up the island?"

"There aren't that many islands to blow up. This one makes me feel disgusted!" Yu Tian said disdainfully, "But the next time I ask you to blow up something, it will definitely be better than this island,

"As long as you promise to be on call, I will guarantee that you will have endless money. If you want an aircraft carrier, I can buy it for you!"

Lornes was so excited that he almost dropped his wine glass, he asked, "Mr. Yu, is what you said true? If you can provide me with funds and let me have better warships, I can provide you with the best firepower in this world!"

Yu Tian chuckled and nodded. "I never joke with men. It's as if I'm gay. All you have to do is nod and agree!"

What else was there to think about? Lornes stood up and swore, "I'm willing to follow Mr. Yu!"

"Very good!"

Yu Tian immediately took out his phone and sent a message to the 108 sisters group.

"Sisters, my brother wants to buy an aircraft carrier. Is there anyway.

The sisters group exploded.

"Brother, do you want to buy a rocket? and an aircraft carrier? Are you crazy?"

"There's no problem with an aircraft carrier. We can build one ourselves, but it's not as simple as you think!"

"I support you. As long as little brother wants it, I will definitely buy it for you!"

These words were not what Yu Tian wanted to hear. At this time, someone in the group sent him a private message.

Taking a closer look, it was a video request from Chu Yan.

After the call was connected, an extremely beautiful woman with big eyes, double eyelids, oval face, and wavy hair was looking at Yu Tian with a smile. Her voice was like a drizzle as she said, "Little brother, how are the two armed helicopters?"

What helicopters? Yu Tian turned around and looked. It turned out to be the two c27s.

It was only now that Yu Tian saw the words "Chu Yan's industrial manufacturing". Only then did he understand that Chu Yan was actually a manufacturer of large-scale weapons.

He chuckled and said, "It's just a little slanted and a little loud. The others are still alright. Why, can you buy an aircraft carrier?"

Chu Yan immediately transferred her laptop to Yu Tian and explained,

"Actually, we have been carrying out aircraft carrier research and development projects for a long time,

"But at the moment, we are only providing technical and financial support. The benefit is that we can obtain the investment and development rights of certain countries' large-scale projects. This may sound a little complicated, but it is also very simple,

“We provide them with weapons to help them stabilize their position and let us make money. Therefore, Chu Yan's industrial manufacturing is like a piece of art. No matter from any angle, it is perfect!”

Yu Tian listened quietly and chuckled. “Compared to these, I think you are a piece of art. Don't always sit behind the desk. Get Up and let me take a look at your legs!”

Chu Yan's face turned red and she said shyly, “If you want to see it, come to Xi en. I'll let you see it enough. But now we’re talking about an aircraft carrier.”

“Can you be more professional?”

“Okay, be more professional. Say It!” Yu Tian took a sip of wine and looked at Chu Yan with a smile, thinking that he must go to Xi en to see it.

It was not for anything else but to see with his own eyes how powerful Chu Yan's confident legs were..

?Chapter 394: – Chapter 394, Impossible To Change

Thank you readers!

Chu Yan's current attitude was even more domineering than Chu Qing's. After all, she was the CEO of a group with tens of thousands of employees. Her words were also powerful.

“The surrounding of an aircraft carrier requires the assistance of the entire fleet, including destroyers, supply ships, and so on. The annual cost is in the billions, and above the aircraft carrier, there is also the need for carrier-based aircraft, etc..”

“And our Chu family only makes weapons, but does not use weapons. Right now, there are many people in the world watching the Chu family. If we suddenly control a fleet, it will shock the world in minutes!”

“So, brother, I advise you to give up this idea. It is simply impossible to achieve!”

However, Yu Tian did not think so. If he wanted to become a powerhouse, he had to first make the impossible possible.

He said indifferently, “Don't waste your time with me. Just answer me if I can buy an aircraft carrier!”

Chu Yan was silent for a moment. Even the master could not change his master's decision. She could only say helplessly, “The Xi en country had already developed an aircraft carrier a few years ago. Now, it can be used in the water, however, because of the economy of this country, we can not invest in expensive expenses. We can only

put this aircraft carrier in the shipyard. Or, we can buy it. However, the premise is that we must have sufficient reasons, before we are opposed..., we can buy it. Otherwise, the Xi en country will not sell it to you!

Yu Tian nodded and smiled. "This is very easy. Leave it to me. After I stay in the metropolis for a few days, I will go to the Xi en country. At that time, we will have a bath together!"

Chu Yan did not know what to say. She could only cut off the video and ignore him.

However, Yu Tian did not care about this at all. He put away the phone and smiled at Lornes. "It seems that you still have to play the role of a pirate for a few more days. When you arrive at the Metropolis, you will immediately head to Sean. When you arrive, wait for my orders!"

Lornes raised his wine glass and said firmly, "I will listen to your orders!"

In the evening, the ship steadily leaned against the port. Yu Tian got off the freighter. Chu Wen directly gave him a hug and cried, "I thought I would never see you again!"

Yu Tian said disdainfully, "Don't talk nonsense. I'm standing here, aren't I? You talk as if you're going to become a monk. Take Monica and the others back first. I have a date. I'll go back myself later!"

After the arrangements were made, Yu Tian wanted to leave. However,

Celowyn still said from behind, "Yu Tian!"

This call contained deep affection and reluctance, as well as gratitude and gratitude.

He turned around and smiled. "Sometimes, we all have to taste a lot of bitterness. The best memories are the sweetest. Keep them in your heart. When you're feeling uncomfortable, take them out and taste them!"

"We'll meet again. There's no need to say anything now. Remember what you need to remember. Forget what you need to forget!"

The corners of Selo Wen's eyes were moist. She nodded gently and watched Yu Tian's figure disappear. Her tears could no longer stop flowing down.

On the way to the restaurant, Yu Tian used Chu Wen's notebook to open the

USB drive.

The information inside was very comprehensive. Not only were there blueprints for the second-generation equipment, but there were also information about the first and second-generation developers.

Yu Tian copied the blueprints and then deleted the original documents, as well as Monica, Tiffany, and Meng Xiaoyu's names.

When they reached the entrance of the hotel, Joseph of PBG and the team leader , Max, were already waiting at the door.

After sitting down in the restaurant, Yu Tian threw the USB to Joseph and said indifferently, "Kellogg is dead. The second- generation instruments have been destroyed. Here is the information of all the first-generation and second-generation developers!

Max and Joseph were extremely shocked. They said almost at the same time, "Kellogg is Dead?"

"Yes, he gave himself a bullet, and his head was shattered!" Yu Tian took a sip of wine and smiled. "Other than me, there will be no more developers in the future!"

"Every person on this USB is dead. You PBG have a job to do this time!"

Max frowned and asked, "What do you want to exchange this for?"

Yu Tian snorted and said, "I want you to stay away from me. When I see you, I feel like I can't even take a shit. and listen well, you two. I hope that we will never meet again. Otherwise, when we meet again, it will be the time for you to be killed by me!"

The two of them felt a chill in their hearts. They did not want to see Yu Tian, but if they had no choice, they still had to see him.

At this point, Yu Tian stood up and said indifferently, "This red wine is like horse piss. I don't like it. You two drink it yourselves!"

Until Yu Tian's figure disappeared, Joseph wiped the cold sweat on his forehead and said, "He has indeed given me a lot of pressure!"

Max narrowed his eyes and said gloomily, "He is also a developer. If he has mastered something, it will be a hundred times scarier than Kellogg.."

"We can't do anything to him now, but that doesn't mean that we will always have to listen to him. When our ultimate weapon is successfully developed, he will also die!"

An hour later, Yu Tian had already taken a shower in Chu Wen s bathroom.

Chu Wen showed Yu Tian her newly bought black silk pajamas without any reservations.

Yu Tian's blood was boiling, but he still couldn't let go of the obsession in his heart to have the beauty in front of him.

However, Chu Wen had made up her mind. She wanted to take down Yu Tian tonight. It was like stirring the calm water of a lake, causing ripples in Yu Tian's heart one after another.

However, Yu Tian suppressed the eruption of the volcano, causing his nose to look like it was smoking. He simply plunged into the bathtub.

Chu Wen angrily grabbed his hair. It seemed that this young man would not obediently listen to her unless she forced him.

Hence, she also jumped into the bathtub and hugged Yu Tian tightly.

The water droplets were like blooming flowers, splattering everywhere. Yu Tian helplessly shouted, "Do you have the nerve to say that you are a woman?" Chu Wen snorted coldly, "Do you have the nerve to say that you're a man?"

Yu Tian bared his teeth and shouted angrily, "What the F * Ck are you doing? I'm calling for someone!"

"Go ahead, the more you call, the more excited I get. Come on, call, why don't you.."

Yu Tian couldn't take it anymore and directly pointed at Chu Wen's neck. Chu Wen immediately fainted.

"Oh my God!" Yu Tian climbed out of the bathtub impatiently and carried Chu Wen to the bed. Only then did he heave a sigh of relief.

Every woman in the Chu family was stronger than the last.

When Chu Wen woke up, she would probably pester him. Thinking of this, Yu Tian hurriedly put on his clothes and left the room.

When he came to the courtyard, he saw Meng Xiaoyu drinking beer alone in the starry sky.

Yu Tian went over and picked up the beer and drank it.

But at this time, Yu Tian suddenly looked around the villa..

?Chapter 395 – Chapter 395: I Just Want To Sleep

Thank you readers!

At the same time, Meng Xiaoyu also noticed the strange things around her. Even the air was filled with a cold murderous aura.

Yu Tian said in a low voice, "Let me see your skills!"

She said proudly, "I can make you invisible within five meters of me!"

After saying that, Meng Xiaoyu pointed at her forehead. Yu Tian lowered his head to look at his body and said in puzzlement, "This doesn't change much!"

"Who's invisible and can't even see themselves?" Meng Xiaoyu said helplessly, "Now you're in stealth mode. Go and act unscrupulously, but you can't leave within five meters of me!"

As soon as she said that, the five second-generation developers approached the villa.

These five people were very cautious and didn't make any sound. They came to the front of the villa, and one of the developers in a suit punched the ground.

The ground instantly cracked and extended all the way to the villa. The villa, which looked like an ancient castle, was directly blown in half.

Yu Tian turned around and saw that Chu Wen's room was in the middle of the crack. This woman had fallen into the basement together with the bed.

He was immediately furious and snorted coldly, "ck, hitting my wife? You're courting death!"

With Meng Xiaoyu's assistance, the two of them silently came to the side of the few of them.

The Man in the suit took a deep breath and was about to hit the ground again. The moment his buttocks were raised, Yu Tian aimed at the key point and directly gave an uppercut kick.

After being kicked by this second-generation developer, a heart-wrenching scream sounded. His entire body flew into the air and fell heavily to the ground, dying on the spot.

The remaining developers immediately looked around in horror, wondering if they had seen a ghost? What the Hell killed that guy?

At this moment, Yu Tian struck one of the developers with a heavy punch.

How could he dodge when he couldn't even see him? With just one punch, that Guy's head split open.

The other three turned around and ran. Yu Tian struck out with three golden needles at the same time, one each, turning them into vegetative states in an instant.

He thought that after killing them, he could continue drinking beer.

However, that cold murderous aura was still lingering around.

This meant that there was still a developer hidden around, and this developer was an expert.

Yu Tian looked around at the same time and saw a middle-aged man wearing a leather coat walking out of the darkness expressionlessly.

He first looked at the few people on the ground, then looked around in puzzlement.

A smile hung on Yu Tian's lips. He was now in stealth mode, so he could do whatever he wanted.

Just as he was about to make a move, the middle-aged man suddenly touched his earphones and looked at Yu Tian's position. Then, he shot out an extremely violent electric current.

Without any preparation, the electric current directly hit Yu Tian's body.

He was not afraid of anything. Even if the high-voltage electric current hit his body, it would not be a big deal. However, Meng Xiaoyu, who was behind him, could not do it. She was sent flying several meters away by the electric current and fainted on the ground.

The moment Yu Tian appeared, the middle-aged man snorted coldly and said, "Do you think that I can't see you just because you're invisible? Today, I'm going to take revenge for Dr. Kellogg. Go To Hell!"

Yu Tian snorted coldly and said, "Then let's see if you have the ability to do

As soon as he finished speaking, the middle-aged man released another electric current.

Yu Tian, who was already prepared, rolled on the ground. As he dodged, he picked up a stone and threw it at the middle-aged man.

With a thought, the palm-sized rock instantly turned into a huge rock that weighed hundreds of tons.

The middle-aged man instinctively retreated to avoid the huge rock. However, at this moment, Yu Tian had already arrived behind him. He punched the back of this fellow's head and killed him.

After confirming that there were no developers around, Yu Tian hurriedly helped Meng Xiaoyu up and used a golden needle to treat her injuries.

Soon, Meng Xiaoyu slowly opened her eyes. The first thing she said was, "In this world, there is only one kind of developer who can see the invisible me."

"That is the clairvoyant!"

Yu Tian frowned slightly. What she said was very likely Tiffany.

He clearly remembered that before the middle-aged man attacked, there was the action of holding the earpiece.

Thinking of this, the two of them came to the middle-aged man. Yu Tian took out his phone from his body and looked at the number, but he did not see it.

Yu Tian immediately dialed the number back, but he could not get through.

At this time, Chu Wen also woke up. Seeing the scene in front of her, she was so scared that she screamed.

Yu Tian quickly jumped into the basement, took off his clothes, and put them on for her first. Otherwise, her sexy underwear would be a joke.

Meanwhile, Monica and Tiffany had also come to the courtyard. They were definitely shocked, but this was normal. Second-generation developers were all over the world. Now, everyone thought that Yu Tian had killed Kellogg, so they had to take revenge on him.

Yu Tian gave Meng Xiaoyu a look, telling her not to ask Tiffany for now. They couldn't be sure that it was Tiffany. If it wasn't for her, asking this would definitely hurt her self-esteem. When she thought that she couldn't take it lying down, she would bang her head against the wall.

When everyone arrived at the hotel, Yu Tian said indifferently, "Stay here for now. Wait until the room is repaired before you go back!"

Chu Wen was afraid that those people were just pretending. She called the mercenary group over and surrounded the entire hotel.

Yu Tian was just about to sleep when someone knocked on the door. He thought it was Chu Wen, but when the door opened, it was Meng Xiaoyu.

After entering the room and sitting down..., meng Xiaoyu was still a little angry as she said, "I think it's Tiffany because I don't know how she appeared. Sister Chu Hui told me that she's someone I can trust, but how can I trust her now?" He had not expressed his stance all this while. Meng Xiaoyu thought he was thinking, so she asked, "Tell me, what do you think?"

Yu Tian yawned and said, "I want to sleep now. Let's talk tomorrow. Come, let's go to bed!"

Meng Xiaoyu was so angry that she stomped her feet and got up. "Who wants to sleep with you? You Sleep Alone!"

After saying that, Meng Xiaoyu slammed the door and left.

Yu Tian was so sleepy that he fell asleep immediately. He slept until noon the next day. If Chu Wen had not knocked on the door, he would still be sleeping.

Chu Wen entered the door and said anxiously, "This is the suit and tie I bought for you. Come with me to attend the World Diamond Exhibition. This is important to my company.

"My jewelry company occupies one-third of the market value in Metropolis.

For this exhibition, I have taken several famous diamonds from my company,

"If we can win the first place in this competition, in the next few years, we can continue to cooperate with the diamond oligarchs in East Africa!"

Yu Tian stretched his body and said sleepily, "I'm not going. I'm not in the Mood!"

Chu Wen's bad temper immediately flared up. She rode on Yu Tian's body and beat him up. Yu Tian had no choice but to nod and say, "Alright, stop pulling.

"That's hair, not grass.. I'll Go, Alright?"

?Chapter 396 – Chapter 396, Creating A Surprise

Thank you readers!

On the way to the exhibition, Chu Wen gave Yu Tian a detailed introduction of how important this exhibition was to her business in the metropolis.

Yu Tian was confused. He had no idea why Chu Wen insisted on attending such a jewelry exhibition?

At this moment, Chu Wen slowly said, "In the metropolis and the entire superpower, I have a total of 158 jewelry stores. Their total value is more than 100 billion international coins, occupying one-third of the market share,

"Our main supplier is the diamond oligarch from East Africa. His name is Gray Harry. There are simply too many people in Super Country who want to cooperate with him.

"But what he wants is also talented people. Our Chu family naturally will not let him go. This exhibition will be attended by every broadcasting company in Super Country,

"The more people sell, the more money they make. Gray Harry will work with them. Don't you think it's very interesting?"

Yu Tian was about to fall asleep when he heard that. What kind of nonsense was this.

If you want to sell things, just sell them. Why do you have to use that pitiful amount of vacation time of yours.

How great would it be to have the time to sleep in a hotel.

While they were talking, the two of them arrived at the venue of the exhibition. It was a high-end business center in the Metropolitan Wall District.

At this time, the exhibition had just begun. Yu Tian saw many socialites and wealthy people pretending to be very gentlemanly as they walked into the building.

Chu Wen naturally held onto his arm and walked into the building under the flash of a group of reporters.

Yu Tian realized that the exhibition was really quite big. The entire hall, which was thousands of meters long, was filled with glass cabinets of all kinds.

Almost all of the famous jewelry stores in Super Nation had attended the exhibition.

Because this was an exhibition, everyone was free to shop, so the scene was particularly noisy.

At this time, many people saw Chu Wen and Yu Tian and started to discuss.

"Hey, guys, that Oriental woman is here. It's said that she booked the best seats here today and brought all her belongings!"

"I've seen her things before. They're just ordinary diamonds, nothing special!"

"This is a competition. Small companies like us are already lucky to have a seat. Don't you know? Adosa and Trissy's seats are also very good.

“And I feel that their exhibits seem to be more competitive!”

While everyone was talking, Yu Tian also got some information. The Adoxia and Triste were probably the other two-thirds.

While they were talking, the two of them came to the display cabinet, and the managers hurriedly reported to Chu Wen.

“Miss Chu, up until now, we haven't sold a single diamond. The price of Adoxia's diamond is much lower than ours. It has already sold for more than seven million!”

“Trissy is a century-old shop in Super Nation. Many people are supporting them. Now, they have sold almost ten million. Miss Chu, I think we should lower the price!”

“I think so too. Miss Chu, our diamonds are indeed not as good as theirs. If they were in a jewelry shop, these diamonds might be very popular, but here, they are really very ordinary!”

Chu Wen, on the other hand, smiled very calmly, she said indifferently, “Don't be anxious. The exhibition has only just begun. Moreover, you should have confidence in your own things. I didn't pay you to come here just to tell me this!”

Yu Tian could see clearly from the side. Compared to the display cabinets, Chu Wen's side was indeed not very popular.

At this moment, a sharp-jawed man with shifty eyes came to the front of the crowd and greeted them with a fake smile, “Chu Wen, you're late today. Could it be that you want to give us a surprise?”

Chu Wen's expression was obviously disgusted by this guy. She said patiently,

“I'm creating surprises every day, but when I see you, I feel surprised. Mr.

ADOSHA, you seem to be very happy today!”

So this guy was one of Chu Wen's competitors, that Adosha.

Yu Tian looked at his appearance and almost laughed out loud. It was as if there was something extra about him.

ADOSHA said very proudly, “I am indeed very happy, because today, the person who will sign the cooperation agreement with Grehari will definitely be me. After all, we have been working together for many years, so this time, we will naturally not talk about anything else.”

“Gray Harry has given enough face to others. He was going to sign the contract with me directly, but for the sake of your face, he still held this competition.

“But now it seems that the winner will definitely be me!

Chu Wen just smiled disdainfully and said impatiently, “You don't really think you can win, do you?”

Adossa laughed and said arrogantly, “I have proof for what I said. First of all, the three most powerful jewelry companies in Super Nation, except for you, me, and Jester—

Let's talk about you first. Don't think that your jewelry store is the largest in the entire super country. Because of that, you have a lot of customers. The few diamonds you have are not enough to sell—

“Look at the display cabinets that you have now. It shows the problem. You are just eating the capital of the design, and there is nothing interesting about those diamonds. Therefore, you and I have no competition!”

At this point, this guy looked at the display cabinets on Cuisart's side and sneered, “Although Cuisart is a hundred-year-old shop, even older than my grandmother, the things she sells are old-fashioned,

“She's just taking advantage of the feelings of those old-timers and old families. That market is very limited. Don't look at how much he sells now, but it's not much higher. Therefore, he's no longer competitive with me.

I was different from you. I had been working with Gray Harry for many years. The best diamonds in the world dug out from East Africa would be sent to me. I also let Gray Harry earn more money,

this time, the one working with him will definitely be me. Because only I know what Gray Harry wants to see. You guys are no different from blind people here!”

Yu Tian was about to fall asleep listening to him talk about this. Chu Wen was also very impatient. She only said coldly, “Since you guys are working so well together, then why is Gray Harry holding this exhibition?”

“Do you really think that he's doing this for the sake of other people's face? In fact, even smart people can see that he wants to kick you aside and make more money,

don't think I don't know what you're capable of.. In the last year, your jewelry company's total turnover, was less than 200 million, while my company, in terms of profit alone, has already exceeded 7 billion, do you really think you can surpass us?”

?Chapter 397 – Chapter 397, Stand Up For Her

Thank you readers!

Ah Duo Sha was beaten up by Chu Wen, and he was speechless on the spot. His face, which was like a compass, alternated between black and white. For a long time, he did not say anything that could be effectively refuted.

In the end, he just snorted coldly and turned to leave.

When Yu Tian saw this, he swept his gaze over the diamonds in the counter. There was indeed nothing interesting about them. Moreover, each diamond was exceptionally small in size. The largest one was only half the size of an egg.

He shook his head helplessly and said indifferently, a€?No wonder they came over to show off to you. These things of yours are really a little unpresentable. Look at those diamonds. They're not even as big as the rice grains I eat. What's the meaning of this?a€?

Chu Wen also said helplessly, a€?The best diamonds in the world are all in East Africa. Meanwhile, Gray Harry has been working with Adossa all these years. I can only go to Central Africa and pick up some decent diamonds to sell,

so, this time, I Must Get Gray Harley's contract!

Her words were quite forceful, but Yu Tian felt that it would be a little difficult for Chu Wen to win the contract with just this.

At this moment, there was another commotion in the crowd.

Yu Tian turned his head to look It was a middle-aged woman wearing a black dress. The wrinkles on her face couldn't be covered even if she used the best makeup in the world.

Chu Wen introduced, a€?She's the president of the Trieste Jewelry Company, Trieste. She's a very tough woman!

However, Yu Tian smiled disdainfully and said, a€?No matter how tough she is, she's just an old lady. How strong can she be? If you have the guts, practice the dragon tail swing for me. Do you believe that you can break her old leg?

Chu Wen didn't know whether to laugh or cry. She was already so old, yet Yu Tian wanted her to practice the divine dragon tail swing. What was Yu Tian Thinking?

As cuisite entered the venue, the exhibition became even more lively.

Cuisite greeted many people. Even adosa smiled and said a few words to her. However, she didn't speak to Chu Wen. She seemed to treat Chu Wen as a small fry who didn't have much strength.

Chu Wen was not angry about this. There was no need for that. They were all here to compete. Being angry would not solve any problems.

Now, everyone seemed to be laughing at Chu Wen's side. Even the most trashy jewelry company could sell a few necklaces, but there were not many people who came to see Chu Wen's side.

This was how business was. The more people there were, the better the business would be. The fewer people there were, the less people would come to see.

The crowd was also discussing among themselves.

“Did you see that? Chu Wen's display case didn't even sell a ring. This is a disgrace!”

“The strength of the Chu family is not bad, but in the competition of the market, strength is not of much use!”

“I really want to help her, but do any of you know who the man beside her is? They seem to be very close!”

Everyone looked at Yu Tian, but they did not know the identity of this man and how powerful he was.

Some people even felt that it was a waste of resources for Chu Wen to follow a man like Yu Tian.

Chu Wen did not care about the gazes of those people. She still held Yu Tian's hand and said with a smile, “Actually, winning or losing is nothing. Even if there are no diamonds from East Africa, my jewelry company is still very profitable!”

Yu Tian did not believe that these were the words from her heart. If she was really that open-minded, she might as well not participate in this exhibition.

Why would she have to suffer the anger of those trash here?

However, since she was Chu Wen's man, she should stand up for Chu Wen.

After thinking about it casually, Yu Tian had an idea in his heart.

He held Chu Wen's hand and went directly to the reporters' gathering area. Under the puzzled gazes of Chu Wen and the others, Yu Tian smiled indifferently and said, “Dear reporters, Chu Wen jewelry company has just made a decision!”

The moment he said that, the reporters immediately became spirited and gathered around the two of them.

Before Chu Wen could say anything, Yu Tian also smiled and said, "As long as you are married today, you can come here and receive a pair of 24-carat diamond rings for free!"

The entire crowd was shocked, and Chu Wen's eyes widened in shock. What was Yu Tian trying to do? Giving away a diamond ring? Was he crazy?

The reporters were even more shocked. One after another, they asked, "Sir, is this the decision of Chu Wen's jewelry company?"

"Really? Is It All Free?"

"Do you have any other conditions?"

Yu Tian said indifferently, "There are no conditions. As long as you have the information about today's wedding, you can receive the diamond ring!"

This piece of news instantly blew up in the metropolis.

Although Chu Wen didn't say anything at that time, she still pulled Yu Tian aside and asked in puzzlement, "That's a diamond, not a glass ball. Why did you give it away for free?"

Yu Tian said disdainfully, "It's very simple. It's just to increase popularity and get free publicity. But don't think that you'll lose money. On the contrary, we'll still make money. Just wait and see!"

Chu Wen really doubted what Yu Tian said. Would it really work?

But now, she didn't have time to think about this. After the news was broadcast, at least a hundred couples who were getting married today, and those who couldn't afford diamond rings, rushed to the business center in a hurry.

In front of the display case, it was surrounded in the blink of an eye.

Plus, the reporters also joined in, and the scene almost went out of control.

Adossa, Astor, and the others looked on as if they were watching a joke.

Everyone was mocking and ridiculing them.

"Giving it away for free? They really have no money to spend. In order to increase their popularity, they are going all out!"

“So many people came to get the diamond rings. Chu Wen jewelry company will lose a lot this time!”

“They are just fooling around. They actually want to give it away for free? Is the price of the diamond rings so cheap?”

Yu Tian kept his word. As long as he provided information, he would immediately give a pair of diamond rings to them.

Those who received the diamond rings were jumping up and down in joy. They hugged and kissed to celebrate. There were even some who cried to express their gratitude to Chu Wen and Yu Tian.

More and more people came to get the diamond rings. Some of them were not supposed to get married today, but in order to get the diamond rings, they even changed the date.

The manager at the counter had been calculating all this time, but he cut in and whispered to Chu Wen, “Miss Chu, stop fooling around. Now that we have already given away diamond rings worth hundreds of millions, do we still have to continue giving them away?”

Moreover, we don't have any more in stock now. Even if we do it first, it's Too Late!”

Chu Wen said this to Yu Tian, but Yu Tian chuckled and said indifferently, “If you don't have it, then do it first. What's The Big Deal?”

But Chu Wen said awkwardly, “But we don't have enough diamonds!”

?Chapter 398 – Chapter 398, Was It True Or False

Thank you readers!

Seeing that more and more people were coming to collect the diamond rings, and that all the diamond rings brought to the exhibition had been given away, Chu Wen had no choice but to say to Yu Tian, “Now we can't give them away anymore. We don't have enough diamonds!”

However, Yu Tian casually picked up a diamond necklace and threw it into his backpack. Then, he pulled Chu Wen aside and asked in a low voice, “Do you have those diamond craftsmen or something?”

Chu Wen nodded and said, “Of course I do. What do you want?”

“Let them come here and make a diamond ring on the spot!” Yu Tian said very casually.

However, Chu Wen smiled helplessly and said, "We don't have enough diamonds. Do you want to make glass?"

"Who said that there aren't enough diamonds?" Yu Tian opened his backpack as he spoke.

Chu Wen lowered her head and looked into the backpack. She was stunned.

The diamond necklace in Yu Tian's backpack was as big as a fist. All the diamonds added together weighed dozens of kilograms.

Chu Wen was very familiar with diamonds. With a casual glance, she knew that these diamonds were not glass. They were definitely genuine diamonds.

"Oh my god, Yu Tian, are you a human or a god? How did you do it?" Chu Wen asked in shock.

"How did I do it? I Can't explain it to you. You just know that I can still make this diamond bigger, but if others saw it, they would probably shit their pants in fear. So, are the diamonds enough now?"

Chu Wen smiled excitedly and said, "Of course it's enough, and it's especially enough!"

When Yu Tian took out those giant diamonds, everyone was shocked.

It was especially so for Adosha, Cuisi, and the others. They had made jewelry all their lives, but they had never seen such a large diamond.

Many people even thought that the pile of diamonds that Yu Tian took out was actually glass.

That was because there was no such thing as a large diamond in the world.

The more they looked at it, the more they felt that it was strange. Everyone gathered around, and Adosha first mocked and ridiculed them.

"Miss Chu Wen, the publicity that you guys did was indeed very exciting and very shocking, but I feel that you have to have the ability to do it. Didn't you say that everyone would be given a pair of diamond rings?"

"I'm just thinking about one question. Do you have enough diamonds to make a diamond ring? Or now you're planning to use glass instead of diamonds?"

As soon as she finished speaking, a burst of jeers erupted from the surroundings.

Cuisite also said with disdain, "Miss Chu Wen, your actions are really too childish. Don't you know that we are all in the diamond business?"

"The foundation of this business is to be able to distinguish the real from the fake. The Big Glass You took out does look like diamonds, but who would believe it, how could there be such a big diamond in this world?"

The reporters kept flashing the diamonds.

Everyone started discussing after hearing what Trissy said.

"You're absolutely right. If there are such large diamonds in this world, and there are so many of them, then the diamonds are worthless!"

"That can't be true at all. Of course, everyone here, apart from those who came to take advantage and get a free diamond ring, knows a lot about diamonds. How can that be true?"

"Chu Wen jewelry company has lost a lot of face this time. Even if you want to replace it with glass, don't make it so obvious. They can't wait to use fake ones here!"

"Then I'm thinking, are the jewelry stores selling fake ones as well?"

Looking at them sitting there vividly, Yu Tian just smiled indifferently. He didn't want to waste his breath on these people. He just handed all the diamonds to Chu Wen and let her tell everyone.

Chu Wen walked in front of everyone confidently and said proudly, "Who said that before? We are all diamond makers. First, we can distinguish between real and fake!"

"So I would like to ask everyone, if this is fake, will I take it out here for you to see? And which one of you has seen the diamonds in my hand? Who has appraised it?"

"Before you have seen it clearly, you have already determined that these diamonds are fake. What basis do you have to say that? Since you are all experts in this field, why don't we appraise it now,"

"If these diamonds are fake, I swear on my jewelry company that I will immediately withdraw from the metropolitan market and close all the jewelry stores. From then on, I will never make jewelry again!"

Adossa chuckled as if he had already determined that those diamonds were fake. He said disdainfully, "Is there a need to appraise them? Don't tell me you want to use this opportunity to do free publicity?"

“However, what you said is acceptable. If these diamonds are fake, then our future business will be even better!”

Yu Tian felt that it was very strange. Just how badly did Chu Wen Ruin these people? Why did she seem to treat her as an enemy?

It was just taking out a few large diamonds. Those people wanted nothing more than to bombard her with rocket launchers. Was there a need to be so angry and so pretentious?

At this moment, Cui Si said coldly, “Is it real or fake? Let's not make this decision now, or let our appraisal experts see it. Won't we know when the time comes?”

Moreover, it will also make many people believe who is right and who is wrong.”

As soon as she finished speaking, the two appraisal experts brought by Cui Si walked out of the crowd and took the initiative to request to appraise these diamonds.

Chu Wen was not only confident in the diamonds, but she was also confident in Yu Tian.

Although she didn't know how Yu Tian had conjured the diamonds, she was absolutely confident that Yu Tian wouldn't be able to create a fake illusion.

Thus, she generously handed the diamonds to the two experts and let them appraise them in public.

When the experts picked up the diamonds, their actions weren't very gentle.

Because they all felt that these diamonds could not be real.

But when they used a magnifying glass to see the diamond's texture, hardness, and other data, there was no problem at all, the two of them opened their mouths wide in surprise.

One of the experts seemed to be possessed, shaking his head and saying in an unconfident manner, “This can't be real, this absolutely can't be real. How can there be such a big diamond in this world?”

The other expert stared at the diamonds with his mouth agape. His expression was as if he had seen a ghost.

However, their reaction made everyone even more shocked.. Adossa came behind the two of them and asked, “What exactly did you see? Are these things real or fake?”

?Chapter 399 – : Chapter 399, The Appearance Of A Miracle

Thank you readers!

After the experts carefully appraised these diamonds, they were able to confirm that the largest diamonds in the world were all real. Because of this, they were not only surprised by the existence of these diamonds, they were even more surprised that this was a miracle.

When diamonds were discovered in this world, while people pursued precious items, they also determined the value of the collection and the value of the diamonds themselves.

Therefore, diamonds were the most luxurious thing in the world. However, it was impossible for diamonds to be this big.

This was because during the process of forming diamonds, they were subjected to changes and erosion from the natural world, especially the changes in the geographical environment. These crystals from the natural world became priceless precisely because they were rare.

However, there were a total of fifty-two giant diamonds in front of them. Even if there was only one, it would be a miracle in the world. With so many giant diamonds appearing at the same time, it would definitely shock the world.

Therefore, the experts were completely shocked from the bottom of their hearts. One of the experts said with a trembling voice, "These diamonds are all real. They are all real. Moreover, it has been over a thousand years since today—"

"This can not be man-made. We have used thirty years of our professional career to guarantee that they can not be fake. Oh My God, how can there be such a big diamond?"

As soon as he finished speaking, the entire place was filled with gasps. Adoxa and Cuisi were so shocked that their faces turned black.

No wonder Chu Wen was so calm and confident. It turned out that she had already obtained the world's largest diamond. These diamonds were simply priceless treasures. Just one of them was already priceless.

However, Cuisi, this old lady, was very calm. Just as everyone was exclaiming in surprise, she suddenly said coldly, "I don't believe that these diamonds are real—"

"We are all diamond makers, and we know very well how difficult it is to form diamonds. Under such circumstances, it is impossible to form such a large diamond,

“Because this is completely against the laws of physics, a natural evolution that does not exist. Therefore, I request that these diamonds be cut!”

Everyone, who was like a fence-sitter, immediately supported the old lady's request.

In fact, these people had already seen through it long ago. Chu Wen wanted to use this as an excuse to destroy these diamonds.

Regardless of whether they were real or fake, as long as they were cut open, the size would change, and the Diamonds would be worthless.

Even Yu Tian felt that this old lady was really good at acting pretentious. Moreover, she had used this trick quite well. Since she could destroy the diamonds, she wouldn't let others think that she did it on purpose.

Chu Wen first looked at Yu Tian. After getting his approval, she turned around and said with a smile, “Of course you can cut them. We originally wanted to use these diamonds to make a diamond ring, but I have to tell everyone

“I have many, many more like these diamonds. You must be thinking about how I can obtain so many giant diamonds. I can tell you clearly here,

I mined these diamonds from a special country. Which country and which land?

This is a trade secret. I Can't tell you,

now let's cut the crap. I'll ask the craftsmen to cut these diamonds and make the rings on the spot. You experts can identify them at any time. If they are fake, I'll say it again,

“All my jewelry stores will be closed. I'll never sell jewelry again!

When Yu Tian heard this, the corners of his mouth curled up into a smile.

Chu Wen understood what he meant, and she wanted to say the same thing. With the craftsmen's skilled skills, some of the diamonds were quickly cut into small pieces. All the experts and people who knew diamonds came forward to take a look.

However, no matter how they looked at it, these diamonds were real. Some experts even specially requested a small piece of diamonds from Chu Wen. They used various chemical ingredients to conduct various appraisals, but the final result was still true.

At this point, Adossa and Trissy were completely speechless. They felt as if they had been stabbed in the face by something. The pain was truly unbearable.

The two of them quietly returned to their own display cases. In just a short while, their popularity had been dragged away by Chu Wen's display cases.

There were even a few rich people who offered to buy those giant diamonds on the spot.

They were willing to pay a very high price for such a priceless treasure.

One of the white-haired rich people said sincerely, "It's a waste for such good diamonds to be cut. Their collection value and the value of the diamonds themselves are immeasurable in the future,

"So I want to buy all the remaining uncut diamonds. I'm willing to pay 10 billion for these diamonds!

Chu Wen turned around and looked at Yu Tian. Yu Tian smiled indifferently and said, "Since this gentleman wants to buy them so much, how can I not sell them?"

"Right now, I've only cut 10 of them. And every time I cut one, the value of the remaining diamonds will be even more expensive. So the price I want to set is one billion international dollars per diamond,

"In other words, your ten billion can only buy ten of these!"

The rich man did not hesitate at all. He nodded without thinking and said, "course you can. I think this is very fair. Compared to the value of these diamonds, ten billion is not even worth mentioning!"

After saying that, the rich man paid on the spot. He excitedly took the ten giant diamonds and looked at them with fondness.

After this rich man successfully bought the diamonds, the other rich men couldn't sit still anymore. They all came forward and shouted that they wanted to buy the diamonds.

In less than an hour, the remaining 32 diamonds were all sold. A total of 42 billion was sold.

Chu Wen wasn't someone who had never seen money before. However, when she saw the string of numbers in her bank system, her hands started to tremble.

The cost of this necklace was less than 500,000 yuan, but with a flip of Yu Tian's hand, it earned more than 40 billion yuan.

In comparison, those diamond rings that were given away were not worth mentioning.

So Yu Tian had already thought about it. What was the point of earning money?

Thinking of this, Chu Wen looked at Yu Tian with even more admiration. This man was like a god now. Was there anything in this world that he could not do?

This was her master, the eternal guardian of the Chu family.

In her heart, the most handsome and suave man.

At this moment, that Gray Harry from the East African country also came.

He knew everything that happened in the venue. Therefore, after arriving at the venue, he came directly to Chu Wen, he said with admiration, "Miss Chu Wen, you let me see a miracle. You are the one with real strength, so I intend to give you my contract!

?Chapter 400 – Chapter 400, Very Capable

Thank you readers!

The surprises came one after another, and they only earned tens of billions. This diamond oligarch from East Africa, Gray Harry, had also extended an olive branch to him.

Chu Wen was indeed very excited. She had participated in this exhibition in order to obtain Gray Harry's contract. With the exclusive supply of diamonds from East Africa, her business would earn even more money.

However, just as Chu Wen wanted to express her gratitude, Yu Tian beat her to it and said, "This must be Mr. Gray Harry. Regarding your proposal, we might have to consider it again!"

Today, Yu Tian had surprised everyone one after another.

This time, even Chu Wen looked at him in astonishment. Could it be that he had other ideas?

Gray Harry also frowned. A puzzled expression appeared on his chubby face. He said with some dissatisfaction, "Sir, can you speak on behalf of Chu Wen?"

"Although I don't know who you are, the person I want to work with is Chu Wen, not you. I hope you can understand this. Right now, all the jewelry merchants in the world want to work with me. I'm giving you a chance,

"Do you still want to refuse?"

The venue, which had just quieted down, was now abuzz with discussions.

"He really thinks he's amazing. He actually wants to refuse even Gray Harry.

Just how much courage does this guy have?"

“He just happened to get some good diamonds. Could it be that he thinks that his luck will be with him for the rest of his life?”

“He's just showing off. Rejecting Grehari is the same as rejecting money. He really knows how to say it!”

Adoxa and Trissy looked at each other and were secretly delighted.

If they really rejected GREHARI, then this opportunity would be theirs. It was better for two people to compete than for a group of people. This way, the opportunity would be bigger.

Therefore, they hoped that Gray Harley would be more angry and change his mind.

Chu Wen hurriedly explained, “Mr. Gray Harley, this is actually just a small misunderstanding. My boyfriend doesn't want to reject this contract, he just”

Before she could finish, Yu Tian smiled indifferently and said, “Actually, I really want to reject this contract because I've seen the contents of the contract. I'm not very satisfied with the price of the Diamonds Mr. Gray Harley gave us.

“And the most important thing is that I'm also considering whether or not I need them. Mr. Gregory gave me diamonds because I have enough supply, and the price is many times lower than Mr. Gregory's.

“Only then can I be competitive in the market, right? And I'm not very willing to accept Mr. Gregory's price. The most important thing is that I can also become a diamond supplier and provide the best diamonds in the world, However, my price is much lower than yours. As for why I'm still talking to you here, it's because I want to give you face. After all, everyone wants to make money, so there's still a possibility for us to cooperate, But the premise is that you have to lower your price!”

Hearing this, Gregory laughed coldly.

“This gentleman's words make me feel especially ridiculous. Don't you know that the best diamond production place in the world is only our East African country?”

“I really don't know that there are other countries in this world that can excavate better diamonds than us? For example, those big diamonds that you took out earlier, I think the world only has those..,

“Their value is naturally very good, but unfortunately, there aren't many of them. If you only want to use this to talk to me, I think it's better for us not to waste time on this aspect!”

Yu Tianguo laughed heartily.

“Mr. Gray Harry, how do you know that there are only a few diamonds in the world? Since you want to take a look, then I’ll let you have an eye-opener!”

Speaking up to this point, Yu Tian opened his backpack again and took out five diamonds that were twice as big as before.

When the diamonds emitted an extremely luxurious color under the illumination of the lights, everyone, including Chu Wen, was once again shocked to the point of dumbfoundedness.

Cold Sweat broke out on Gray Harry's forehead as he thought to himself,

“what's going on in this world?”

i

how could there be so many large diamonds? “could it be that this thing is as common as a crab and can be casually picked up??”

Yu Tian gently knocked on the diamond and laughed, “See, Mr. Gray Harry? I have countless diamonds like this, but I’m thinking of everyone's interests,

“I’m not the kind of person who only cares about making money because I

know that everyone's life is not easy. Since we're in this business, then we're all people from the same world,

“So I don't want to sell all these diamonds. Otherwise, the price of diamonds in the world will become the price of cabbage, except for my largest diamonds in the world,

“At that time, Mr. Gregory, your diamonds will not even be as expensive as cabbage. Do you think they will cooperate with you, or with me?”

“But I don't want to destroy this market, and I don't want to break the rules of this world. So I'm asking you to lower the price of your diamonds and sign a contract with me. What do you think?”

Gregory's face was full of coldness. This young man from the eastern country was really too powerful. Regardless of where his diamonds came from, with his negotiating ability, he was already at a disadvantage.

Thinking of this, Gray Harry nodded and said in a deep voice, “I understand what you mean. There are too few masters like you now. I like you very much. As for the price of the diamonds, we can set it again.”

“It’s already time for lunch. Why don’t we sit down and have a drink? We can chat slowly!”

What was wrong with that? He didn’t want to stay here anymore anyway.

Yu Tian readily agreed, “Sure, but I only drink red wine. We can also have a roasted pork leg!”

This transaction was so easily settled by Yu Tian. Chu Wen was completely convinced. If it was her, she wouldn’t have thought of this at all.

She did not expect Yu Tian to think so far ahead. Moreover, he broke the traditional price of Gray Harry and gave her more benefits.

If it were not for Yu Tian’s help, she would not have gotten the contract today.

The more she thought about it, the more she liked Yu Tian. Chu Wen looked at the back of Yu Tian and licked her lips.

“I must be your first woman. Now I’m going to love you to death!”

Chu Wen was about to leave when Adosha came over and said like a grandson, “Miss Chu Wen, I was the one who couldn’t speak before.. I think we can work together!”
