

I Have 108 Older Sisters #Chapter 401 – 450

Read I Have 108 Older Sisters Chapter 401

?Chapter 401 – Chapter 401, People With Feelings

Thank you readers!

Chu Wen looked at his face expressionlessly and said coldly, "Have you forgotten that we are competitors? If that's the case, how can we work together?"

"Why don't I give you a suggestion? You can go and make it with Trissy, because you definitely stink the same. If you work together, you can stink up the entire superpower. I'm sorry, Mr. Adosha—" "I'm going to sign the contract now!"

After saying that, Chu Wen left very proudly. Adosha's facial features were all twisted together. If he had known that there was an expert behind him, why would he act like that?

The idea of working together was already impossible. Now, he had to think about how to deal with Chu Wen in the future.

On the other hand, Gray Harley had been trained by Yu Tian to be like a dog. The final price was at least 30% lower than before. Even so, Gray Harley was still very happy to sign the contract.

In the next ten years, all the diamonds in East Africa would be handed over to Chu Wen jewelry company.

Yu Tian left after eating. He didn't want to waste any more time here because he had more important things to do.

After returning to the hotel, Yu Tian directly knocked on Tiffany's door.

At this time, Tiffany had just changed her clothes and was preparing to go out to get some food. When she saw Yu Tian, she chuckled and said, "Are you here to treat me to a meal? Looks like I can save a lot of money today!"

Yu Tian put his hand into his pocket and said in a carefree manner, "Eating is so boring. I'll take you out to have fun!"

However, Tiffany blinked her eyes and said in puzzlement, "If you want to have fun, shouldn't you be in the room, on the bed? Why do you want to go out? Don't tell me you have some strange ideas? For example, on the steps of the shopping mall—"

"Or in the crowded park. I didn't expect you to have so much fun"

I

“But I also like it. Let's go out and have fun!”

In terms of acting like a hooligan, Yu Tian had to admit defeat in front of Tiffany.

Yu Tian only brought her to the hotel's restaurant and ordered some food.

Looking at Tiffany's food, she was completely heartless. Yu Tian gently sipped the red wine and then asked indifferently, “Tiffany, actually, I let you follow me not because you have any ability..,

and it's not because you want to be a hooligan with me, but because of a kind of emotion. I like to be immersed in memories, and I remember all the moments that I've experienced.

I still remember when we were in Super Country, you helped me a lot. It was because I couldn't let go of this feeling that I let you follow me. And I also removed your name from PBG's hunting list, I deleted it.

In fact, I don't know whether I did it right or wrong, and I can't guarantee that you will always follow me and won't betray me, but one thing, I think you should be more certain than me,

even if you really betrayed me, and I won't do anything to you, at most I'll spit on your face and tell you to get lost. In fact, I'm such a simple person, do you understand what I mean?"

Tiffany frowned. She didn't understand what Yu Tian was saying at all. She couldn't get used to this kind of oriental expression of deep affection.

So she put down her knife and fork and asked with a frown, “Can I understand that you are expressing yourself to me? Actually, my feelings are not very complicated. In My Heart, I like you very much, and even love you very much,

“If you want to get something from me, you can tell me directly. As for your betrayal, I don't know what you are trying to express?”

“Are you saying that I will betray you?”

Yu Tian nodded and gently put down his wine glass. He slowly said, “Last night, Meng Xiaoyu and I were both in stealth mode, but that second-generation developer still discovered our location,

“According to my understanding, only a clairvoyant can see the invisible person. What I want to know is, is it you?” Before you answer my question, I just want you to understand,

“If you have any difficulties or goals, you can tell me directly. I Won't make things difficult for you, but what I need is your real thoughts!”

Tiffany felt that Yu Tian's words were especially funny, and she didn't know whether to laugh or cry.

She said helplessly, “I'm not the only clairvoyant in the world, and it's impossible for there to be only one invisible person. Why do you think that I betrayed you? This is too unfair to me!

Yu Tian kept looking at her eyes. Tiffany's gaze was very firm. Yu Tian felt that she was not lying, but it was still too early to say that she was not the traitor.

Therefore, he took out the phone that he found on the second-generation developer yesterday and said indifferently, “Give me your phone now. If your phone rings, then from now on, we won't know each other,

if your phone doesn't ring, then I will take it as I have misunderstood you.

I will take you to eat your favorite boiled fish. I can even let you beat me up without any restraint. What do you think of this deal?”

Tiffany put her phone on the table without thinking and said confidently, “1 If you think I have other calls, you can look for them on me right now, you can even go to my room and look for them. You can call that number now!”

When she said this, Yu Tian was not confident. She thought to herself that it would be nice to treat her to a boiled fish meal, but why did she have to get beaten up?

As he spoke, Yu Tian dialed that number.

Although the call was connected, no one picked up. Meanwhile, Tiffany's phone was always silent.

At this point, Yu Tian could basically confirm that Tiffany was not the person who betrayed him.

He threw the phone back into his backpack and smiled helplessly. “I know that a family of boiled fish is especially good. When we return to the eastern country, I will treat you to a meal alone. But did you say that there are other clairvoyants?

“Actually, I always thought that only one person would have each skill, and there wouldn't be a duplicate skill!”

Tiffany chuckled and said proudly, “Just a poached fish? Don't try to interrupt me. You even said that you could let me beat you up, but since I can't Beat You Up, you owe me first!”

“And duplicate skills are the most common among developers. There might even be hundreds of people who have the same skill, but each person can only have one skill. It's impossible for them to have two skills!” This is the weakness of developers!

Yu Tian knew that Tiffany seemed to have something else to say, so he asked indifferently, “Are you talking about Monica?”

Chapter 402 – Chapter 402, Attack The Cargo Ship

Thank you readers!

Tiffany said directly, “That's right, I'm talking about her. When she was on the ship, she did interfere with the equipment and almost caused the ship to fall into the sea,

“Of course, I also believe what she said. At that time, she was in a deep sleep mode and didn't know what she had done?” “But the more it is like this, the scarier it is. You may not know this, but among the developers, there is a particularly dangerous existence!”

At this point, Tiffany looked left and right before saying in a low and strange voice, “Monica belongs to this dangerous existence, and among developers, there has been such a person before,

“We call him the cell lysate. To put it simply, during brain development, due to voltage or other environmental factors, during the development process, the brain cells that should not be stimulated..., were also changed.

As a result, a person would produce two kinds of souls, that is, two people in one body. Paradoxically, this potential soul would resist against its own soul.

There was once such a person among the second generation of developers. During the day, he was a normal developer. He would even help an old granny cross the road and help a beautiful neighbor clean the windows,

however, at night, his other soul would take over his body. At that time, he would be a madman and a murderer. He would kill the old lady who helped him cross the road during the day, he would also kill the beautiful neighbor,

the scariest thing was that during the day, he had self-healing skills. At night, he would have a second skill. However, this was not the scariest thing. What I wanted to say was that cell lysozymes were like zombies, they could transmit this kind of cell lysis,

once they were corroded by this cell lysis, they could become cell lysers at any time. Therefore, Meng Xiaoyu and I deliberately kept a certain distance from

Monica. Now, you should understand why I asked you to kill her at that time?

However, you had feelings, memories, and couldn't bear to kill her. However, you didn't think that if Monica was a chromaffin cell lyser, then her destructive power would be extremely powerful. Even you couldn't stop her.

“Now you should regret it, right?”

Yu Tian frowned. He had heard so much from Tiffany in one breath. Now that he thought about it, his decision wasn't wrong. Was it wrong for a person to have feelings?

Even if Monica was really a cell lyser, at most she would be isolated. No matter what, he wouldn't be able to kill her.

So, Yu Tian said, “It's enough that you know this. Don't let others know. As for Monica, I naturally have my own thoughts. You Don't have to join in!”

Tiffany spread her hands and said disdainfully, “If you want me to interfere, I won't interfere. I'm afraid that she will corrode my brain cells!”

In the blink of an eye, it was evening. Chu Wen returned to Yu Tian's room in the hotel, but she did not see Yu Tian in the room. No one answered her calls. She was so angry that she threw her newly bought underwear on the bed.

At this moment, Yu Tian was in Monica's room. He and Monica were looking at the sky full of stars and talking about each other's feelings.

Very soon, Monica was nestled in Yu Tian's arms and fell asleep soundly.

Yu Tian had been sitting by her side and observing her. He wanted to see if she was a cell lytic.

After waiting for a few hours, Monica had been sleeping soundly. There was no movement at all.

However, Yu Tian did not want to give up. He continued to stare at her.

The next morning, Monica woke up happily. Yu Tian, who had dark circles under his eyes, fell into a deep sleep on the bed.

Monica looked at him in confusion. She wondered why he had not slept the whole night. However, she still gently covered him with the blanket.

Yu Tian slept until the afternoon when the phone suddenly rang. It was Lornes. They had already arrived at the designated sea area and were waiting for Yu Tian's further orders.

They lazily got up, Yu Tian washed his face and said, Hide yourselves well. Tonight, there will be a few Chu family cargo ships passing through that sea area. Your mission is to attack these Chu family cargo ships, but don't sink them.., you just need to make them turn around!

Although Loens didn't understand why Yu Tian did this, since he had sworn to follow him, he would do whatever Yu Tian said.

In the evening, Chu Yan looked at the time and immediately sent a message to Yu Tian.

The cargo ship has set sail. In two hours, it will reach that sea area!

Yu Tian saw this message and replied another one.

A video call?

Chu Yan shook her head helplessly, but she still sent Yu Tian a video call request.

After the video call was connected, Yu Tian licked his lips and chuckled. I bet a hundred dollars that you're wearing black underwear today!

Wasn't this nonsense? She was already wearing black business attire. If she was wearing white underwear, what would it look like?

Chu Yan said disdainfully, Can you be more serious? When will you come to Xi En?

Yu Tian said indifferently, I'll leave tonight. I'll arrive at Xi en tomorrow morning!

Then I'll See You Tomorrow! After saying this, Chu Yan directly hung up the phone.

This little girl, her temper was quite big. When I get to Xi En, I'll see how I train you.

At this moment, five Chu family cargo ships entered the sea one after another.

When Lornes saw these cargo ships through the telescope, he immediately ordered, "Guys, get ready to attack!"

The pirates were still a little surprised. Why did he suddenly give the order to attack?

The weapons rose to the deck one after another. Lornes rushed to give the order, "Target, the cargo ships in front. Don't sink them. Just let them return on fire!"

As soon as he finished speaking, the cannons fired continuously. Deafening explosions rose from the surface of the sea.

The five freighters turned their bows in an emergency. However, they were still riddled with holes from the cannonballs. They only managed to leave the range of the cannons with full power. They could only choose to return.

Loens immediately called Yu Tian.

"Boss, the attack is over. I request your orders!"

At this moment, Yu Tian was about to board the plane. He nodded and said, "Very good. Now, find a place to destroy your ship and wait for my orders!" Loens agreed without hesitation and ordered the crew to immediately set sail.

Soon, the news of the Chu family's cargo ship being attacked by pirates near the sea area of the Xi en country spread like wildfire.

The most shocking news was that the Marine Defense Department of the Sean Nation had never heard of pirates attacking the cargo ship so recklessly in their own sea area..

?Chapter 403 – Chapter 403, Can'T Afford To Fight

Thank you readers!

Sean's country's maritime defense was looking for a senior manager. When Quinn faced the reporters' questions, he was especially lacking in confidence. He could only say ambiguously, "If there really are pirates appearing in our country's waters..,

then our warships will definitely not let them off. As for the rest, we are currently gathering intelligence through various means. I can only say so much to you now. Thank you, everyone!"

After saying that, Quinn left the press conference hall in a flash and went to an empty place. He immediately called Sean's executives.

After the call was connected, a hint of helplessness appeared on Quinn's wrinkled face. He said in a deep voice, "With our current economy, our warships might not be a match for those pirates at all..,

"It's not that we can't fight, but we can't afford to. Right now, we only have dozens of warships. They are all on missions in different seas. Right now, we can't mobilize more warships"

"Even if we have warships, we can't bear the loss of battle!

Pierce, the executive of the Sean Nation, also fell into silence for a full minute, then, he said sadly, "But this time, the pirates attacked the cargo ship of the

Chu family. You know, this country is relying on the investment of the Chu Yan industrial group.

"Before you called me, Chu Yan had already told me angrily that we must attack those pirates no matter what. Otherwise, she would immediately move the industrial group to another country.

Do you know what that means? If we lose this consortium, the economy of this country will completely collapse. We can't afford to lose this time!"

Quinn touched his forehead in embarrassment and said in a particularly uncomfortable manner, "But now we don't have the ability to attack the pirates. Unless she is willing to provide us with funds, only then will there be people who will work hard!

"She has already given us a lot. This time, she will definitely not do as you think. You should try your best to put on an act. At least in the eyes of others, we have still done something"

"As for Chu Yan's side, I will continue to discuss with her. It is said that an absolutely senior manager of the Chu family will come to our country very soon. I hope that we can accept each other's suggestions!

After hanging up the phone, Quinn took out a cigarette and took a deep puff.

Outside the window, it was the aircraft carrier. However, it was like a toy placed in a box. It was completely useless.

If the economy of this country was a little better and if this aircraft carrier could enter the water, it would definitely not allow a group of pirates to be rampant here.

Yu Tian's flight landed at Sean International Airport at seven o'clock in the morning.

The people who came to welcome him were not only Chu Yan, but also Pierce, the executive, and Quinn.

Yu Tian did not even look at the two of them. He first hugged Chu Yan tightly.

On the video, he felt that this woman's figure was good. When he saw her in person, her figure was even better. Especially those two long legs, they were simply perfect and sexy.

However, Chu Yan was not as open-minded as Chu Wen. With her traditional personality, she made him shyly push Yu Tian away. With a red face, he said, "Don't be here. There are so many people watching. Let's talk about it later when we go back, okay?"

The more he said this, the more excited Yu Tian felt. Even he himself did not know why? Chu Yan gave him such a good feeling.

After introducing each other, Yu Tian said to Pierce indifferently, "This time, our ship was attacked by pirates. I personally feel very regretful,

I originally thought that this country was a very safe place. That's why I let the industrial manufacturing group invest here. But now, I'm very disappointed,

"Moreover, up until now, you haven't found that group of pirates. Right now, the goods of Chu Yan's industrial group can not be transported out at all.

Moreover, the losses of those few cargo ships are even more immeasurable, "I hope that you can give me a reasonable solution. Otherwise, we can stop all investments here at any time!

The meeting was like a mountain of pressure. Pierce, who was already in his sixties, nervously wiped off the cold sweat on his forehead, he smiled and said, "Of course, we have already formulated a lot of solutions, but the premise is that we must find those pirates!"

"According to the information we have gathered, those pirates may still appear. We have already mobilized a large number of warships. In the future, these warships will personally escort the Chu family's cargo ship into the high

Yu Tian snorted coldly, he said disdainfully, "So you are only outside the open sea. What if our freighter is attacked by pirates on the open sea again? Is this the best you can do in such a Big Country?"

After saying that, Yu Tian shook his head, grabbed Chu Yan's hand, and walked away.

Pierce and Quinn looked at each other, but they still had no choice but to catch up.

Quinn said as he walked, "Mr. Yu, we've prepared a sumptuous feast to welcome you. As for how we're going to fight the pirates, we can discuss it again!"

Yu Tian said impatiently, "There's nothing more to discuss. If you can't guarantee the safety of our freighter, then we'll change countries or have ourselves to protect ourselves!"

"I'm going to make out with my girlfriend now. I don't have time to eat. Let's talk about it at noon!"

Looking at Yu Tian's back as he left, Quinn sighed helplessly, he turned to Pierce and said, "It looks like this time, he brought us a lot of pressure, but I keep feeling like he wants something from us!"

Pierce said in a very uncomfortable manner, "My blood pressure has already risen. I need to find a place to rest now. As for what he wants, as long as it's something we can give, we can give it to him!"

Half an hour later, Yu Tian arrived at Chu Yan's residence. After entering the door, the two of them were like long-lost lovers, hugging each other tightly once again.

Yu Tian couldn't wait to kiss Chu Yan, as if he was tasting the best delicacy in the world.

Chu Yan's bashful face and sinking gaze were like fire, burning Yu Tian's rationality.

However, at this moment, Yu Tian's phone rang at an inappropriate time.

Yu Tian was so angry that he gritted his teeth and cursed, "As long as I feel good, he will call!"

After the call was connected, Chu Wen's curses rang out.

"Yu Tian, you are a bastard. Why didn't you tell me that you were leaving Super Nation?"

He said helplessly, "108 women, every single one of them is something I have to say. Aren't you exhausting me to death? Don't ask so much. I don't have the time to care about you now!"

Chu Wen was so angry that she cried. She stomped her feet and scolded, "You are a bastard.. Go Be Good with Chu Yan and don't care about me!"

?Chapter 404 – Chapter 404, Buying A Ship

Thank you readers!

After being interrupted by Chu Wen's phone call, the two of them calmed down.

Yu Tian said with a frown, "The passion that was hard to come by is gone now. I have to regenerate it. This is my fate!"

Chu Yan directly leaned behind him and massaged him while smiling, "Alright, stop acting like a child. We have plenty of time, why do we only care about this time?"

Now, we have to think about how we can buy that aircraft carrier? I feel that this isn't too difficult. The Xi'en country doesn't have the economic ability to launch this aircraft carrier,

however, the problem we need to consider now is, after we buy this aircraft carrier, how are we going to build this fleet? And how are we going to buy the other warships?

There are also carrier-based aircraft and so on. Most importantly, we need a commander that we can trust. This commander must have enough ability to command the fleet,

therefore, you can not be anxious. We have to take it step by step. Only then can we build our own fleet!"

Chu Yan had considered everything thoroughly. Yu Tian himself had not thought of some aspects. Therefore, Yu Tian was very glad that he had so many women by his side to help him.

He smiled and said, "What you said is right. Let's take it one step at a time.

First, we will buy the aircraft carrier. As for the other warships, I think the Sean Nation will also sell them to us."

Right now, these things were all luxuries to them. Only the economy could make their country as strong as it was in the past. Therefore, in the face of money, they could sell anything,

"And our weapons are money. We have countless money. Why don't we buy these things? Call Pierce right now and tell him that we can have lunch together!"

Chu Yan nodded and immediately picked up the phone.

In the blink of an eye, it was noon. In a luxurious restaurant, Pierce and Quinn raised their glasses to toast Yu Tian and Chu Yan.

They hoped that they could use this method to make the meal easier.

Yu Tian had a drink with them and said expressionlessly, "Since we're all sitting here, I'll get straight to the point. I want to know, do you have the ability to fight pirates?"

"Before you answer my question, I hope that you can understand that I have a special understanding of this country's economy, so I hope that our conversation will be frank,

"I don't want to hear that nonsense, so let's try to be as simple as possible!

Pierce didn't have the ability to speak, and his blood pressure had always been high. He could only look at Quinn.

But Quinn didn't want to speak either, but now he had no choice. Pierce was his boss after all.

Thinking of this, Quinn said helplessly, "Mr. Yu Tian, I can honestly say that we really don't have the ability to fight pirates now. You're right, even if we have warships..,

"But we really can't fight. Not only because of the economy, but also because of the consumption of weapons and the loss of warships. Our current training is carried out on the basis of saving.., "We haven't even had training for half a year..,

"Those warships are drifting on the sea every day. They look very powerful, but if they really fight, they simply don't have the ability to attack pirates..,

"I'm not afraid to tell you that I, a senior executive of the Marine Defense Department, don't have any ability to command this battle, and no one else has the ability either!"

Everything was under Yu Tian's control. When Quinn said this.., Yu Tian chuckled and said, "I'm really satisfied with your answer. In fact, if we had been so honest earlier, we wouldn't have wasted too much time,

"Since that's the case, then we should go and study how to ensure that our freighter can safely pass through this sea area. But now, you don't have the ability to protect it at all!"

"If those pirates appear again, you will definitely be like rats, finding a place to hide. So I have a suggestion. I heard that you have built an aircraft carrier!"

But because the cost is too high, you can't afford it. So this aircraft carrier has always been in your shipyard. If you really don't have the ability to fight pirates, sell this aircraft carrier to me,

this will not only make you a lot of money, but it will also reduce the pressure on you. After all, at that time, an aircraft carrier in the shipyard would also cost a lot of money,

“If you sell this aircraft carrier to me, not only will you save a lot of money, but you can also guarantee that my cargo ships will not be attacked by pirates again. Isn't that better?”

Pierce and Quinn looked at each other. Yu Tian's proposal was so good that they did not even think of it.

Pierce asked in disbelief, “You really want to buy our aircraft carrier?”

Yu Tian smiled indifferently. “To be more precise, the entire fleet. Not only do I need to buy an aircraft carrier, I also want to buy a destroyer, a carrier-based aircraft, and so on. I can buy anything that you can provide me,

“Moreover, I will also give you a good price so that you will definitely not suffer a loss. My decision is this. If you agree, we can immediately carry out the transaction!”

Pierce lifted his wine glass with a trembling hand and took a fierce sip. Then, he also made a decision and said, “We can sell the aircraft carriers to you. At the same time, we can also provide you with all the warships that the fleet needs ,

“In fact, we can provide you with anything except good carrier-based aircraft. We can even sell you submarines if you want. What this country needs now is money, not these weapons!

“Then name a price!” Yu Tian did not want to waste time. Since they agreed to sell, he would buy it himself.

Pierce discussed with Quinn and made a lot of calls to the other higher-ups. In the end, he decided on a price. The entire fleet, including the two submarines, was sold for 70 billion.

Without thinking, Yu Tian directly transferred 70 billion to Pierce through the Chu family's banking system.

When Pierce saw this number, his high blood pressure almost caused his blood vessels to burst. Even Quinn was very shocked.

The Chu family was really too rich. That was 70 billion. It gave him the feeling that it was as simple as buying cabbage.

If this country was as rich as he was, why would they look at it like dogs.

At this moment, Yu Tian stood up and said, “Then from now on, the fleet belongs to me!

Chapter 405 – Chapter 405, God Of Heaven

Thank you readers!

The 70 billion yuan that Yu Tian had spent on the fleet was extremely important to the country of Sean. At the very least, it would allow many of the country's economic projects to begin immediately.

Pierce and Quinn stood up and expressed their gratitude to Yu Tian with wine. At the same time, Quinn also gave the order for the fleet to be moved.

At noon the next day, an extremely grand transaction ceremony was held at Sean's Lila Hotel.

This shocked many people, especially the sworn enemies of the Chu family, who all expressed their protest.

However, this was the decision of Sheehan. No one could tell them what to do. All the protests and objections were useless.

At night, on the aircraft carrier, Loens led everyone to examine the inside and outside of the aircraft carrier in great detail.

Even Yu Tian felt that Loens was a little too professional, right?

Including the aircraft carrier's weapon system, ejection, power, and so on, he was extremely familiar with them.

He asked in puzzlement, "Loens, I always thought that you were just a pirate.

How do you know so much about aircraft carriers?"

After Loens boarded the aircraft carrier, he had been in a state of excitement. At this time, he still said with some excitement, "This is my dream. Do you know how I became a pirate?"

Yu Tian shook his head indifferently.

"I really want to hear it. Anyway, tonight, I don't want to flirt with girls. I'll just flirt with the aircraft carrier here!"

Lornes lit the pipe in his hand, and a trace of sadness hung in his eyes.

When a trace of sea breeze blew through the window of the bridge, he slowly said, "I used to be the deputy commander of a Super Nation's aircraft carrier fleet, and the commander-in-chief is a complete idiot."

Other than reprimanding the crew members who peeked at the playboy every day, he couldn't do anything else. It wasn't until that time when our fleet was on a mission in the Green Bay Sea area that..,

"Before entering the sea area, I had already predicted that the enemy would launch an attack near the sea area. However, he said that I lacked the courage to fight and wasn't even worthy of being an aircraft carrier commander ,

i knew that he was usually very jealous of my talent and had always wanted to do something to prove that he was stronger than me. This was his chance!"

Yu Tian took a sip of his drink and said indifferently, "So you guessed correctly. Under the command of this idiot, you were attacked?"

"Yes. The enemy forces used all kinds of speedboats to launch a desperate attack. One of the speedboats, which was loaded with tons of explosives, crashed directly into the side of the aircraft carrier, causing the aircraft carrier to enter the water!"

"The power system was damaged and the ejection system could not be used. The carrier plane could not be launched, and that idiot even threw the frigate and the destroyer five nautical miles away from the aircraft carrier,

"If I had not quickly transferred one of the destroyers, that aircraft carrier would have sunk!"

When he said this, Loens' expression had a hint of fear. He had to take a deep puff of his cigarette to calm himself down. Then, he said, "After that, the Superstate's higher-ups were very shocked,

"But this idiot pushed all the blame away. The funny thing is, the higher-ups actually chose to believe him!

Yu Tian asked curiously, "What do you mean by choosing to believe?"

Lornes said coldly, "Even though they knew that he was wrong, they still gave him all the credit for my creation, making him a person that everyone respects. This is because what the higher-ups need is someone who doesn't have any thoughts!"

"Someone who only knows how to be obedient. After all, the destructive power of the aircraft carrier fleet is too powerful. Even an aircraft carrier fleet can easily destroy a country. They don't want a so-called warmonger like me! To control such a super weapon! !

"So, they let me leave the fleet. Many people knew that it was unfair, so they left with me. However, we all need to support our families. Other than warships, we don't know anything!"

“Therefore, we robbed a cargo ship and changed it into a warship. We became pirates in some sea areas. However, the grievance in my heart and my pursuit have never disappeared. Therefore, I want to thank you for making my dream come true!

As he spoke, Lornes bowed sincerely to Yu Tian.

Yu Tian nodded casually and smiled. “I don't need your gratitude. What I need is your domineering aura. I didn't give this fleet to you so that you could use it to protect those cargo ships,

“In some aspects, we are the same. We both like to do things first before we speak. The mission I gave you is very simple. Help me dominate all the seas in the world. In the future, there will be aircraft carrier fleets joining US..

“I have already given Chu Yan industrial manufacture the order for the future. It is to manufacture aircraft carriers, as well as the best fighter jets and weapon systems in the world. Although it will cost a lot of money, it is definitely worth it!”

Loens' blood was boiling when he heard this. He then said, “Then now, you should name this aircraft carrier!”

Yu Tian thought for a moment. The original intention of creating this fleet was to make himself stronger and become the ruler of the world as soon as possible.

Thus, he proudly said, “Let's call it the god of Heaven!”

Although he had a name, Loens still said, “An aircraft carrier without a carrier aircraft is just an ordinary ship. A carrier aircraft is the soul of an aircraft carrier!

Yu Tian chuckled and said, “A carrier aircraft will board the ship tomorrow. Chu Yan industry itself is also the best in the world. The fighter aircraft R & D manufacturer will have fifty CY17 fighter aircraft board the ship tomorrow.

What other problems do you have?”

Loens wiped his sweat. In other countries, it would take at least a few years to launch an aircraft carrier into the water. In Yu Tian's place, it could be done in a few days. This was simply like a miracle?

Not only did they need strong financial support, but they also needed strong technical support. However, Yu Tian had both of these things that others lacked.

After that, Yu Tian and Lornes studied the recruitment of crew members, uniforms, treatment, and so on until the sun slowly rose by the sea.

In the blink of an eye, five days had passed. The fleet was ready. Under Yu Tian's command, the God of Heaven aircraft carrier fleet slowly sailed into the blue sea.

At this moment, Chu Yan gently leaned into Yu Tian's arms and said in a low voice, "Now that you have the world's most powerful attack fleet, I want to know what you are thinking about."

Yu Tian looked around and saw the battleships following the god of heaven. He smiled indifferently and said, "I just want to find an opponent to fight with, or to fight with you. Anyway, I want to fight now!"

Chu Yan was embarrassed. Her face turned red as she gave him a hard rebuke and said, "But you still want to go back to the eastern country, don't you? Moreover, Uncle Long called me yesterday and asked me to tell you"

"You want to make Chu Qing pregnant with your child immediately. There's no time to delay. Can you tell me why Uncle Long wants you to do this?"

Yu Tian said disdainfully, "That old man is so fucking idle. He doesn't even look at his own status. He wants me to have a child with someone all day long.. When I go back, I must tell him!"

?Chapter 406 – : Chapter 406, Giving The Order

Thank you readers!

When Chu Yan heard this, she smiled cutely. She looked at Yu Tian with gentle eyes and said, "Does your strength depend on how many children you have? Why do I feel that it's so funny?"

"Who says so?" Yu Tian said impatiently, "I can fucking give birth to another world? I don't know what my family is thinking."

Forget it. I get a headache whenever I talk about this. Now, I seem to be very powerful, but I know very well that I am only relying on the Chu family to get ahead,

i don't even have any real success in every field. If I want to become powerful, I have to get the first place in every field. This is what I should do!"

Chu Yan knew that Yu Tian was a person with aspirations. She nodded and said, "And what I can do is to support you without reservation!"

This woman was simply too understanding. Yu Tian could not help but kiss her on the lips again. Following that, he panted and said, "If I wasn't afraid of shaking the aircraft carrier, I would have wanted to have a child with you right now!"

He did not know whether to laugh or cry when he told Chu Yan, as if he had a lot of strength.

At this time, Loens came to report and said with a smile, "Boss, everything is normal. Now, you can give me your first order!"

Yu Tian said indifferently, "You guys continue to train in the sea area of the Xi'en country. If you have any needs, you can tell Chu Yan's liaison officer who is staying here at any time."

"When I have other orders, I will naturally tell you. Later, I will go back first.

The fleet will be handed over to you to manage. Remember what I said. Whoever is not convinced, directly fuck him!

Lornes nodded excitedly and said, "Okay, I will immediately order the fleet to open the Route!"

Following that, Yu Tian took Chu Yan's yacht and the group returned to Sean. Yu Tian immediately headed to the airport.

On the morning of the third day, the plane landed at Linhai International Airport.

Yu Tian was in a particularly good mood after taking a detour this time.

Without returning home, Yu Tian went straight to galaxy technology company.

Chu Hong gave a simple report on the series of work and said, "Our live broadcast platform is online. Do you want to take a look?"

Yu Tian took out his phone and downloaded the sunny day video. After installing it, he casually clicked on it. After a series of cool animations, the video software immediately popped up with various recommendations.

He registered an account called Yu Di and randomly clicked into a live streaming room.

"Damn, it's actually a beautiful live streamer!"

Yu Tian took a sip of his drink and looked at it with great interest.

This beautiful live streamer was in her twenties. Her online name was "true self". She had a good figure, good looks, and a glib tongue. At this moment, she was in the midst of strong music, she said excitedly, "Thank you, family members, for your support."

“True self loves to dance to begin with. Family members will give presents to clear sky to help her move up. This platform has just started broadcasting. Everyone knows that this platform is the software of galaxy technology,

“We're currently holding a ranking event. If my family likes true self, they can push me onto the rankings. True Self Thanks Everyone!”

Yu Tian was looking at the text area. There were all sorts of things to say. “Little sister, give me something exciting. I'll definitely give you a great gift!”

“Host, how do I Add V? Is it a big rocket or something?”

“Your figure is really good. Can you take a look at the back?”

Yu Tian did not find it interesting when he saw this. It was no different from other platforms. The host played tricks to earn gifts, while the players played tricks to take advantage of the host.

At this moment, true self really jumped for a short while. However, there were more than fifty people in the live broadcast room, and only a few people had bought some flowers or something. All of them were less than two yuan worth of gifts.

True self saw that the gifts were insufficient, so he did not want to jump with all his might. He simply pulled the chair and sat down, saying, “Family members, our strength is not that great. That Big Brother helped true self to get something big.”

“I'm not even in the top 1,000 right now. Can't you feel sorry for Your Little Sister?”

However, the players clearly didn't want to give her this face. They just said that they wouldn't give her gifts.

They even said, “If you give me some temptation, I'll naturally give you some gifts !

“Let's just talk. Don't jump. I'm afraid you'll be tired!

“Host, can you take a look at your legs?”

True self still insisted on smiling. “That person called Oyster, if you want to see the temptation, that's fine. If you give me a supercar, I'll give you a jump.

Actually, those who always play video games know that.”

Our host only looks at the strength of the gift. If you can afford it, we can afford to play it. It's all for fun, isn't it? If you can't afford it, there are so many requirements. If you're the host, are you going to do it?

“The family members who come to my live stream room, if they like me, then click on the Red Heart and add a follow. If there's a gift, then send it to your sister!”

Seeing this, Yu Tian directly exited the live stream room and clicked into another live stream room.

Yu Tian discovered that these live streamers' faces were like they were carved from the same mold. They all had long faces and pointed chins. They kept asking for gifts.

The live streamer in the live streaming room was called Hong Ling. She was in her thirties and dressed very sexily. The two thighs under her mini mini skirt were round and sexy.

At this moment, she was talking enthusiastically to the people in the live streaming room.

“Family members, in the end, I quite like this platform. The key is that its rules are good. It's unlike other platforms where the live streamers are scammed of players and even the advertisements are scammed!”

This was especially so for the recent appearance of this fight the landlord, that fight the landlord, who could receive red packets at any time, giving this and that. The people who did the advertisements were like F * cking idiots..,

in the end, they were all lying to you to watch the advertisements. There were also two women who did advertisements that made thousands of dollars a day using their mobile phones. I just wanted to ask them, with such lies, won't their conscience hurt?”

The comments section was also full of discussions.

“Sister Ling is right. Whoever believes in those kinds of ads will be an idiot. They don't have ads for Clear Sky Videos!

“They don't have a set way of charging. They're not like other platforms that racked their brains to scam the players' Money!”

“Sister Ling, can you dance for your little brother?”

Yu Tian felt that Hong Ling was right. It was just that her popularity was not high. There were only about 20 people in the live broadcast room.

Hence, in order to thank her for putting in a good word for his software, Yu Tian randomly clicked on a red heart.

Hong Ling immediately thanked her, “Thank you brother Yu di for clicking on a red heart. Those who don't follow, follow the streamer too!

Just clicking on a red heart was enough. Yu Tian immediately changed to another live stream room.

This live stream room was very lively. There were more than 200 people online. The streamer was called infatuated a-list. She was a woman in her thirties.

Her figure and looks were okay, but she was different from the other streamers. This woman was careless and pretended to be crazy, saying everything.

“I want to see some parts of my body. What do you mean by some parts? There are only a few parts of my body.. I don't have some parts!

?Chapter 407 – : Chapter 407, Special Effects Gifts

Thank you readers!

The more open this woman was, the more people would farm gifts. The player named Deep Man, who was ranked first on the list, directly spawned a money tree that was worth 50 yuan.

Yu Tian felt that this animation was pretty good. As soon as the money tree appeared, the entire phone screen started to drop gold coins.

Infatuated line cried out in a coquettish voice, “Thank you, my deep bro, for farming a money tree. My Deep Bro, who is ranked first on the list, is really capable and supports my sister so much. Can't the others learn from my deep bro and also give me the entire money tree?”

“Even if there's no money tree, beer and cakes are fine too. You Can't really eat those things. Just throw them at me!”

When Yu Tian saw this, he also felt that it was quite interesting, so he casually clicked on a red heart.

Infatuation one-liner happened to see it, he casually said, “Thank you,

Emperor Yu, for Your Red Heart. Our Emperor Yu’s name is so domineering. Let's give infatuation something domineering as well. Let's finish off the leaderboard one in one shot. I'll immediately take off my socks and show you my feet!

Everyone echoed, "Emperor Yu, finish him off in one go!"

"The first place isn't hard. You can kill him with just a supercar!"

"Emperor Yu, it feels good to watch the first place. Let's kill him!"

Infatuation line shouted, "Brother Emperor Yu, brother Emperor Yu, say something. Have you gone to learn the scriptures? Look at how everyone is cheering for you. Why aren't you saying something? Why are you so cowardly?"

"Could it be that our sister-in-law is watching you too closely and is holding onto your waist without any pocket money? However, there's nothing to be ashamed of. Most of the people watching the live broadcast are these kind of low-class men who live a lowly life and die a miserable death,

"There are a few people who are like the top rankers in my family who don't care about money at all. Ever since I started the live broadcast, the deep man has been giving me gifts. This is called strength!"

Deep man typed, "Don't compare them to me. I like giving you gifts. I Don't care about the first or second ranking. As long as you're Happy!" "Deep Man is amazing. People with strength are all like this!"

"Why don't you pay attention to me too?"

"Deep man looks like a rich person. Where's Yu Di? Look at his boldness. You're nothing!"

The love-struck first string also laughed and said, "Brother Shen Shen, I'm so touched. Where's Yu Di? I reckon that Yu di is missing and the pressure is too great. However, Yu Di, don't take it to heart. It's all a joke.

"After all, we all have to live. If you have spare money, give me some gifts. I'm grateful to all of you. If you don't have spare money, come to my live broadcast room and give me a red heart. I'm also very happy. Not everyone is as rich as me, Shen Shen Shen."

"When you come to my live broadcast room, we are a family. Those who don't have gifts are all family!"

Yu Tian didn't know whether to laugh or cry when he saw this. He felt that it was fascinating interesting. He had just given a free red heart, but in the end, these people had all gone crazy.

Could it really be that his name had become too domineering?

At this moment, there were still people who were F * cking pretending.

A player who was called free diaper said, a€?Yu Di, the host said it so well. You can even spend a dime on him. You a€?re really not giving him a cent!

As he spoke, this guy consecutively spent 20 beers worth a dollar and instantly rose to the second place on the list.

Love one line shouted excitedly, a€?Thank you for the free beer brother gave me. Look at the few people on my list. I a€?m so excited that I want to Groan!

[a€?Yu Di, this is called buying gifts. If you can't afford it, don't play with it. Miss Lovestruck, don't bother with people like him in the futurea€|a€?

a€?People like him take advantage of you for free. I'm disgusted by people like him who can't even afford to spend 20 yuan!a€?

Infatuated line smiled and said, a€?Any-vvay, it's just that little thing. Otherwise, what else could it be? Isn't It All for that little thing? I still say the same thing. Those who come to my live broadcast are all family. Whether it's free masturbation or spending money to masturbate...

a€?As long as you guys are willing to do it, I'll be happy!

Yu Tian really couldn't be bothered with them. wasn't it just watching a live broadcast? It was 10 to 20 yuan, making it seem like he was going all out.

Thinking of this, Yu Tian gave du Tianci a call and asked for a backstage privilege.

This privilege was incredible. He could close the live broadcast room, receive unlimited gifts for free, and even mute the players, kick the players out of the live broadcast room, and even cancel the host's account.

After the privilege was granted, Yu Tian directly sent a big rocket worth 500 yuan.

The live broadcast room shook, and Yu Di's recommendation to infatuated one appeared in the upper right corner, the number of people in the live broadcast room instantly soared to 700 people.

Yu Tian immediately jumped to the first rank.

Infatuated one was so shocked that he jumped up and shouted at the top of his voice, a€?Thank you, brother Yu Di! This is the first big rocket I received when I came to this live broadcast platform! It turns out that the one with real strength is my brother Yu Di!a€?

Brother Yu Di, I'll send you a private message later and tell you my v. In the future, I
a€?ll help you masturbate before my family members enter my live broadcast room.
Give me, brother Yu Di, the first on the list, a follow!

The deep man, along with the free diapers and others, were all on the other end of the
phone, blushing.

The little gifts that they had received were nothing compared to the big rocket.

Yu Tian typed, a€?So the first rank is really fragile. A big rocket can be directly
shattered. It's meaningless!a€?

What shocked everyone even more was that in the comments section, Yu Di's words
were actually in the top mode, and it was even displayed in red letters.

Everyone, including infatuated line, asked, a€?Yu di, how did you get the Red Letters in
the Top Mode?a€?

Yu Tian frowned slightly and forgot to turn off the special effect of the special privilege.

Since that was the case, he did not care. After all, there was no second person who had
this special privilege.

Thus, he said, a€?You can get this special effect just by charging 100 million!a€?

Love one was extremely shocked and said, a€?Oh my God, 100 million. Brother Yu Di,
how much money do you have? Do you lack a servant? I'll be your maid and wear
vacuum clothes to serve you.

a€?I definitely believe you. This is the first time I've seen a top-level special effect. It's
Real!a€?

Everyone was also discussing.

a€?100 million! How Nice would it be if you gave it to me? Who Did you give it to, Yu
Di?a€?

a€?If you have the ability, did you farm all the Top 10 on the leaderboard?a€?

a€?Brother, I'll follow you in the future!a€?

Yu Tian snorted coldly and typed, a€?I a€?ve never made any gifts below big rockets. I
think it's a waste of time. If I'm in a good mood, I'll keep on making gifts!

Infatuated frontline hurriedly said, "Look at my Yu Di's ability. No wonder his name is so domineering. He's always so domineering. Yu Di, I'll follow you in the future too. I'll definitely make you feel good!"

At this moment, all the lights in the office were turned off and the live broadcast room was frozen.

Yu Tian frowned slightly..

?Chapter 408 – Chapter 408, Everything Was Normal

Thank you readers!

Yu Tian walked out of the office. Not only was the power cut off in the entire company, but there was also no electricity in the entire eastern area of Linhai.

Such a large-scale power cut was definitely abnormal.

Chu Hong said coldly with an expressionless face, "If there's no electricity, we'll be losing power every minute. Let Chu Qing ask!"

However, Chu Qing immediately called.

"I've already called the power supply department. They said it's not a technical problem. It's radiation interference that caused some of the equipment to be completely damaged. They're urgently repairing it now. It's still unclear when the call will come!"

Radiation interference? Yu Tian frowned slightly. This city wasn't nuclear power, so how could there be radiation interference?

Right, wasn't the R & D Center near the power plant?

Thinking of this, Yu Tian immediately left the company and went straight to the R & D Center.

The Phantom Ghost urgently slammed the door of the R & D Center.

Chu Hui, Meng Xiaoyu, and Tiffany were waiting for Yu Tian at the door with heavy expressions. Tiffany said directly, "It's Monica. She sent out interference waves again when she was sleeping."

Chu Hui added, "Now we have basically confirmed that Monica is a cell lysate. Yu Tian, we have to restrain Monica immediately. If her ability is getting higher and higher, no one will be able to stop her!"

Yu Tian only nodded slightly and said indifferently, "I'll go and see her first!"

In Monica's room, Yu Tian stared at Monica who was sleeping soundly without blinking.

No matter what, he couldn't believe that this beauty who was sleeping soundly would emit such a strong interference wave? It caused half of the city to lose its electricity.

Thinking of this, Yu Tian still woke Monica up and said softly, "They said that while you were sleeping, you sent out another interference wave and destroyed the power plant over there!"

The Sleepy Monica only reacted after a few seconds. She suddenly widened her eyes and said in disbelief, "I sent out an interference wave? How is this possible? Why didn't I know?"

Yu Tian sat by the bed and smiled indifferently, "I don't know either, but what they said seemed to be true. I have no choice but to believe them!"

Monica retreated to the corner of the bed and said in fear, "Then what do you want?"

Her actions made Yu Tian not know whether to laugh or cry. He said helplessly, "Do you have to react so strongly? I didn't say what I want to do to you. Those who don't know would think that I want to sleep with you."

"Can We put down the pillow first? Yes, put it down. There's also the blanket that you have tucked in your pants. These can not be used as a weapon. Moreover, I didn't say what I wanted to do to you. Don't be afraid!"

Monica slowly let down her guard. Yu Tian was right. If he really wanted to do something, he would have done it when she was sleeping. Why did he have to wait until now?

She said with an aggrieved look,

Ci

I really don't know. Could it be me? I don't even know why it is like this.

Yu Tian nodded slowly and said, "But now everyone, including me, is doubting you. So, for this, I'm afraid you have to suffer a little!" casually picked up the pillow again.

Yu Tian made a miserable face and said, "Can you not always use that damn pillow as if you can kill a few people with that thing? I said make you suffer because I want you to change a room!" "What Room?" Monica asked warily.

"You'll know later!"

With that, Yu Tian got up and left the room. In the conference room, he said to everyone, found that when Monica is nervous or tired, when she sleeps, there will be brainwave interference, so, I plan to stimulate her to see if she is a cell lysist!

No one had any objections. Chu Hui asked in a low voice, "Then what do you want to do?"

Yu Tian thought for a moment and said with a smile, "Let her go to a dark room. Don't give her any light, food, or water!"

Although this method was a little immoral, for Monica's sake, he could only let her suffer a little first.

When Tiffany pushed Monica into the dark room and tightly closed the door, Monica broke down on the spot.

She slammed the door hard and shouted, "Let go of me, Yu Tian, I hate you!"

In the observation room, Yu Tian looked at Monica on the big screen and whispered, "Hate, it's better than letting you die!"

Monica saw that no matter how she slammed the door, no one paid attention to her, so she simply gave up.

Because there was no light, she could only curl up in a corner and cry softly.

Chu Hui saw that Yu Tian's eyes were also showing some reluctance, so she asked in a low voice, "Why? Do you feel a lot of heartache now?"

Yu Tian said disdainfully, "I didn't hit her or scold her. I was just wondering why she is still not sleeping. How long will it take?"

"We have already placed some instruments around the room and switched the screen to the outside of the room and pointed at some instruments. Now, we can only use generators to provide power to ensure that the research and development base can still function normally."

"These machines can record the interference waves in the air. As long as

Monica sends out brain waves again, we can record it. But I want to know, if Monica is really a cell lysist, what will you do?"

Yu Tian did not speak. It was hard to choose. He did not want to think about it. He had never thought that Monica would be a cell lysist.

At noon, Monica finally lay on the ground and fell asleep.

The machines were all activated, but the data were all normal.

Until evening, Monica woke up in pain, but there was no interference from the brain waves.

Yu Tian looked at Monica on the screen. He gritted his teeth and ordered, "In the next few days, have her stay here. Record it at any time!"

Chu Hui nodded. This was the only thing she could do now. She didn't want Monica to be a lyricist.

Yu Tian didn't want to go home either. He found a room in the R & D Center, lay on the bed, and logged into the video platform.

The server had been restored, and the live stream was normal.

He clicked into a live stream room, and Yu Tian's eyes flashed.

This streamer looked very cold and arrogant. Her name was Hurt Dream. She was singing to the dozen or so people in the live stream room.

What surprised Yu Tian was that this cold beauty had a smoky voice. Her hoarse voice was really good at singing.

However, no one gave her any gifts. There were quite a few people who spouted nonsense.

"Her singing is too good. The streamer is absolutely professional!"

"It gives me goosebumps!"

"The streamer is a singer, right? Otherwise, why would she sing so well?"

At this moment, the song ended. This cold beauty calmly said, "Thank you for your comments. I'm not a professional singer.. I just like singing!"

?Chapter 409 – Chapter 409: An Online Celebrity

Thank you readers!

Someone asked, "The streamer is good-looking, has a good figure, and sings so well. Why aren't there many people in your live broadcast room?"

As she chose a song, she said helplessly, "There aren't many people supporting her. Nowadays, all the streamers like to watch dancing. I only know how to sing. I also want

to make my live broadcast room more popular, but how to sing, only the few of you are listening.â€

â€I have done live streaming on other platforms before, and there aren't many people either. Maybe it's because my singing isn't good. I haven't received a single flower from my live stream until now!â€

Speaking up to this point, she flicked her beautiful short hair and said with a self-deprecating smile, â€Everyone says that this platform makes a lot of money, but I've discovered that it's only when someone supports you that you make a lot of money. If no one supports you, you're nothing. No matter how good your conditions are, it's useless.

â€I can't compare to those big streamers. They earn tens of thousands a day, and those in the top ten of the rankings earn hundreds of thousands a day. It's already good enough for me to earn some money for my meals, but dreams are good, but I still can't afford to hurt them!â€

No matter what she said, the people below still didn't receive any gifts, but they all asked the streamers to continue singing. One guy even asked, â€Make a more explosive song, dance and sing, and usually shoot more leg-revealing jokesâ€

â€Slowly, your popularity will increase!

She only sneered and said, â€I never shoot those jokes. I just want to rely on singing to earn money. If I do that, the people who come to my live broadcast room can not be here to listen to the songsâ€

â€Moreover, I don't have the capital. Those who come to listen to the songs, if they want to receive gifts, they can do it. If they don't want to, I won't force them. Since I have chosen to be a streamer, I have to stick to myself. I Can't give up easily or changeâ€

â€I â€ve been on this live streaming platform for more than ten days, and I've still earned less than ten yuan. I can't not be satisfied. If anyone can support me now, I'll let more people hear my singing,

â€But now, not only is there no one to support me, because I've received fewer gifts and received less red-hearted followers. I can't even get recommended. I can only persevere now!

When she heard this, Yu Tian clicked on her profile picture and looked at her home page.

She was originally from the capital. She wasn't that old either. She was 25 years old, and only had 70 fans and 30 followers. This was indeed a little lacking.

At this moment, the injured dream didn't want to talk to those people. She just watched the show and said some nonsense. She played the music and continued singing.

Yu Tian felt that she had a special feeling when she heard her singing.

Therefore, when she reached the high part of her singing, she directly used a big rocket.

At the same time, traumatized dream was also shocked as if she had seen wrongly. It was only when the big rocket turned into a screen full of colored paper that she shouted excitedly, "Oh my god, this is the big rocket that Yu di gave me!"

"Thank you, Yu Di, for the Big Rocket! Thank you, Yu Di, for the gift that you gave to my sister!"

The number of people in the live stream room rose rapidly, instantly reaching more than 200 people.

Yu Tian did not say anything. He continued to use the big rocket and sent out ten people in a row.

In the midst of everyone's extreme shock, the number of people in the live stream room was pushed to 2,000.

Injured dream was so excited that she was about to cry. She covered her shocked mouth and after a long while, she said with a trembling voice, "Thank you, brother Yu Di, for supporting me so much. Brother Yu Di, how do you think my sister should thank you?"

Those who came to my live broadcast room, please follow brother Yu, who is ranked first on the list!"

The comments section exploded.

"F * CK, 11 big rockets in a row, what kind of strength is this?"

"Is this a prop? How can he send so many gifts?"

"Continue to send them. Send 10 big rockets, we will immediately follow the live streamer!"

Yu Tian said indifferently.

"Live streamer, I like listening to you sing. Sing another one for me!"

Once the top-level special effect was released, everyone was once again surprised.

Someone added, "I know this Yu Di. It's said that she recharged 100 million just to spam a big rocket. In the afternoon, she spam a big rocket at the front line of infatuation,

but the front line of infatuation still wanted to spam, but the server was cut off. That woman was so angry that she tore her clothes off!

"I know. I saw the infatuation segment. It's such a pity. If it weren't for the server, she would have made it into the top 10. When she was filming the segment, she would have cried so much that she was about to cry!"

"If it were me, I would have cried too. I was busy with the gifts. Furthermore, there was no compensation from the server. She has the ability, so no one can afford to offend her!"

At this moment, the injured dream started singing again. This was the best way to thank Yu Tian. Moreover, she also wanted to seize this rare opportunity to let everyone hear her singing.

As for Yu Tian, who was easily worth 100 million, she did not expect to be able to buy much for her. As long as he liked listening to her singing, she would continue singing for him.

Yu Tian was once again touched by her singing. His fingers tapped into it and he continued to buy more rockets.

Now, the entire platform was shocked by Yu Tian.

The number of people in the live broadcast room soared to over 10,000. The number of people who paid attention to the injured dream and her fans instantly exceeded 5,000.

Most of them were positive about her singing. Her singing was indeed beautiful.

The people who were privately chatting with Yu Tian in the comments section had already flooded the screen, but Yu Tian still saw that person called infatuated line spamming the screen to talk to him.

"Brother Yu Di, I'll start the live stream in a minute. You must come. I promise to let you have fun. You must come!"

At this moment, the injured Dream had also sung this song before. She expressed her gratitude to Yu Tian once again, "Thank you, brother Yu Di, for giving me so many gifts. I've only just taken a look. I've already entered the top

100 on the leaderboards."

Brother Yu, this little sister doesn't know how to thank you. If you like listening to my singing, I'll sing for you at any time, whether it's during the live broadcast or at other times!

Yu Tian just smiled indifferently and said, "You continue singing, I'll continue to sing. I'll see if I can get you into the top 10 Today!"

Hurt Dream couldn't hold it in any longer. Her true feelings were revealed, and her tears flowed out. She said emotionally, "Brother Yu, you flatter me so much. Can you tell me where you're from?"

"If you were in Imperial City, I would thank you in person!"

The people in the comments section also joined in the jeering.

"You definitely have to thank me in person. It's best if you get a room to thank

"The host's singing is good, and there are even people who support you. Soon, you'll be an internet celebrity!"

"You'll definitely become famous. If you still can't become famous after spamming like this, then you'd better go and give someone a pedicure!"

Yu Tian continued to browse as he said so. The Big Rockets Rose into the sky one after another. The phones of tens of thousands of people vibrated at the same time.

Moreover, he continued to browse. One after another, he did not sing a single song. Yu Tian had already refreshed more than 200 big rockets.

He forcefully pushed his injured dream into the top 10 of the leaderboards.

Even du Tianci, Yan Longwen, and the others were speechless when they saw this. Du tianci said, "Did you see that? Boss is crazy. He has already sent out millions of gifts. What is he trying to do?"

Yan longvven smiled and said, "He likes to listen to music.. I will learn how to sing tomorrow!"

?Chapter 410 – Chapter 410, There Was Someone Else

Thank you readers!

However, what shocked du Tianci and Yan Longwen was that Yu Tian seemed to want to continue farming.

Du Tianci rubbed his chin and looked at Yu Tian's data. He was a little scared. Although he did not spend money to farm, he wanted to give real money to that injured dream backstage.

If he continued farming like this, it would be like giving money away. He might as well give the money directly.

Thinking of this, Du Tianci immediately stood up and went to Chu Hong's office.

Chu Hong looked down at the documents and asked coldly, "If you have something to say, say it quickly. I'm very busy right now!"

Du Tianci did not waste any time and went straight to the point, "Secretary Chu, boss is a little overboard with the gifts. I called him, but he did not pick up. Why Don't you ask him?"

Unexpectedly, Chu Hong slowly raised her head and said coldly, "Why? Is it your money? He is the president of the company. Why does he need your permission to do anything?"

She immediately blushed and quickly explained, "I really didn't mean that. It's mainly because those streamers are quite sophisticated. I'm just afraid that boss will fall into the Trap!"

Chu Hong glared at him with disdain and said coldly and arrogantly, "First of all, you have to be clear that you're just a technical manager in this company. You just need to manage your technical field well.

"Secondly, what CEO Yu does, he naturally has his reasons. These are not things that a person of your level can ask about. I hope that this is the last time you will say something indecent here. If there's another time, you can just get lost. Get Out!"

He had done this for Du Tianci, and he felt very aggrieved. He could only grit his teeth and leave dejectedly.

When he walked out of the office, Du Tianci scolded himself for being an idiot.

He had a lot of money, so he could do whatever he wanted. Why did he have to pretend to be in this competition? He had been scolded by a woman. This time, he was really excited. wasn't He F * cking free?

At this moment, Yu Tian did not continue to do it. He looked at her ranking and saw that she was already fifth on the overall ranking.

The injured dream could not even continue singing. She sobbed and said, [a€?Thank you, brother Yu Di. Tonight is the most unforgettable night of my life because of my brother Yu Di's support. a€?

a€?I, an unknown little streamer, suddenly entered fifth on the overall leaderboard. I don't know if I can become an internet celebrity, but no matter what, I will thank my brother Yu Di for my entire lifea€|

a€?Everyone in the live broadcast room, listen to me. No matter what needs my brother Yu Di has, I will be the first to appear by his side. Thank you, brother Yu Di!a€?

Yu Tian only smiled indifferently and didn't want to say anything.

He had promoted her to an internet celebrity, and when the time came, he would naturally ask for something in return. However, her fans were still too few. He had only added 20,000 fans after spending an entire night watching,

most of the people in the live stream room were here to watch the show. On the contrary, her fans had inexplicably increased to 150,000.

Therefore, she had to boost her fans to 10 million before she could carry out her plan.

She would leave it at that for tonight and continue to do it the next day.

At this time, the comments section of the live stream room was still extremely popular.

a€?The streamer earned at least five million tonight. Don't say anything else. The streamer should give her body to that Yu Di!

a€?This is really the world of the rich. A gift of five million is enough to cover ten streamers!

a€?The streamer sang to Yu Di's heart. You have to protect your voice!a€?

Yu Tian shook his head in boredom and left the live broadcast room.

The injured dream also left the live broadcast. Five million and seven hundred thousand was transferred into her bank card.

She was so excited that she covered her shocked mouth tightly. Tears were streaming down her face.

It was as if all of this was a dream that she could wake up from at any time.

However, she was also excited to know that this was not a dream. She had really earned 5-7 million.

“I want to change to a better place. I want to buy the best clothes. I want to eat delicious food that I have never been able to afford!”

At this point, she slowly looked at the bright moonlight outside the window and said in a low voice, “Brother Yu Di, thank you. I will never forget you in my life!

Yu Tian, who had never forgotten her, did not care about these things. He closed his eyes and squinted for a while before the door was violently knocked on.

The moment Yu Tian got up and opened the door.., chu Hui said anxiously, “The interference wave appeared and destroyed the power supply system of the entire power plant, but it was not emitted by Monica. According to the instrument records, the interference wave appeared around the power plant!” “Then there must be someone else?” Yu Tian pursed his lips in disdain and said, “Send Monica back to her room first and explain it to her. I'll go to the power plant to have a look!

“Be careful. The interference wave may affect you. Don't try to show off. If you feel that it won't work, run away!” Chu Hui instructed.

“Is it necessary?” Yu Tian didn't believe in this. He didn't care what kind of person it was. He just trampled them to death.

Fifteen minutes later, Yu Tian arrived near the power plant.

At this time, the power plant was about to explode. Thousands of people were shouting and rushing to repair the equipment. However, there was no electricity in the entire city. This was not a joke.

Yu Tian followed the coordinates recorded by the equipment and slowly walked forward. However, he did not even see a shadow.

As he walked, Yu Tian pondered. What was the meaning of this group of developers building a power plant?

Could it be that they were so excited when they saw the generators that they insisted on building them?

Or did they have other plans?

At this moment, Yu Tian smelled a pungent smell of smoke.

This smoker must be nearby.

He looked left and right carefully. Sure enough, there was smoke coming from the bushes not far away.

He was so f * cking free that he even smoked a cigarette?

Yu Tian gently touched him. The guy who was smoking did not hear that someone was approaching him from behind. As he smoked, he said, a€?It a€?s really F * cking easy to smoke. Ah, it's so easy to smoke, aha€|a€?

Yu Tian was so angry that he almost laughed out loud. was this guy smoking or SH * t? Did he have to feel so good?

Without saying a word, he suddenly kicked him.

This guy who was smoking did not know that someone had suddenly kicked him from behind. He was kicked to the ground by Yu Tian.

Yu Tian used quite a lot of strength as well. After being kicked by this guy for a long time, he finally managed to turn his body around and cried, a€?Who the F * Ck attacked me from behind? Do You Want to Die?a€?

He was quite good at scolding people. Yu Tian went up to him and pulled his hair. He said coldly, a€?I kicked him. So what? What else can you do? Look at that Long Guy of yours. He looks like I'm wearing underpants,

a€?What the hell are you doing here in the middle of the night?a€?

Seeing that Yu Tian was younger and fiercer than him, this guy rolled his eyes and said, a€?Can't I smoke here? This is your territory. What do you think I should do if you kick me like this?a€?

He was just a piece of meat. If he didn a€?t show him how tough he was, he would keep pretending to be tough.

Yu Tian smiled indifferently and said, a€?Isn't it easy if you want to smoke? I a€?ll satisfy you!

I Have 108 Older Sisters #Chapter 411 - Read I Have 108 Older Sisters Chapter 411

?Chapter 411 – Chapter 411, Strange Equipment

Thank you readers!

When the guy on the ground saw this, he was so scared that his brain buzzed and he cried on the spot.

a€?What is this thing? Such a big cigarette, are you F * cking a human or a Ghost?a€?

Yu Tian poked the cigarette on his body and said indifferently, "Sometimes, I'm Scarier than a ghost. Smoke this cigarette, or I'll take your life. Smoke It!"

The man was so scared that his limbs were trembling. He said shakily, "Brother, I was wrong. I Can't smoke this cigarette, and I can't put it in my mouth. Brother, how about this? I still have two hundred Yuan in my pocket. You can use it to buy some beer!"

This fellow really knew how to waste time. Yu Tian snorted coldly and said, "You don't smoke, right? Then I'll roll you a cigarette. I'll smoke it myself!"

As he spoke, Yu Tian grabbed his neck and stuffed it into the cigarette.

The man struggled and pleaded, "Brother, no, no. Let's talk it over. There's really no need for that. What do you want? How about this? My shoes are also new today. You can take them all if you like!"

Yu Tian exerted a little more force, but the man couldn't say a word. He struggled to clap Yu Tian's hand.

Yu Tian asked coldly, "You were the one who destroyed the power plant, right? Aren't you a developer? Don't you have brainwave interference? Come on, interfere!"

The man struggled to break free from Yu Tian's hand and lay on the ground. He coughed a lot, but he was even more afraid. The power plant was indeed destroyed by him, but he didn't know what developer or brainwave interference was.

At this moment, Yu Tian saw that he was almost out of breath, so he asked, "This is your last chance!"

From that time until now, the man could tell that the man in front of him was definitely a ruthless character. He almost smoked himself like a cigarette. If he continued to pretend with him, he would lose his life.

He immediately knelt at Yu Tian's feet and said tearfully, "Someone gave me two thousand yuan to bury something around the power plant. I will bury one in the morning and one at night. After the power supply is restored, I will bury another one!"

"Bury Tian asked.

The man immediately took out a palm-sized black electric panel from his backpack on the ground. There was a red light flashing on it.

Yu Tian held it in his hand and looked at it carefully. The structure was extremely complicated. It was definitely not something an ordinary person could make.

He snorted coldly and asked, "Who let you do this?"

"I don't know him either. I was originally a worker in the power plant. I was usually around here, inspecting the underground cables and whatnot. Today, when I was working, a middle-aged man in a suit gave me these three things,

he made me bury them here regularly like I was taking medicine. Then, he promised to pay me two thousand Yuan!

Yu Tian frowned slightly and asked, "Is there anything special about that person?"

"He has a big head, like a big bucket hanging on his shoulder. He even wears a red tie and stutters when he talks. He likes to Pout!

Basically, that was it. Yu Tian snorted coldly and said, "Get lost!"

The man scurried away and disappeared into the night.

Yu Tian brought the electric plate back to the R & D Center and handed it to Chu Hui. He said, "See if you can crack this thing. If you can find out who did it, that would be great!"

Chu Hui nodded and said, "I'll try my best to crack it. You should go comfort Monica. She's in a bad mood!"

Yu Tian simply said this and turned around to leave.

Everyone had to be comforted. Wasn't it tiring?

He had already done enough. Now, he still had to find that big-mouthed man. How could he be in the mood to comfort Monica.

Chu Hui could only shake her head helplessly. Yu Tian's temper was getting weirder and weirder.

When they arrived at the courtyard of the R & D Center, the city in front of them that should have been brightly lit was now pitch black. Only some sparks were flickering.

"What exactly do you want to do?"

This question was really a headache.

If he couldn't figure it out, then he wouldn't think about it anymore. He would find that big-mouthed man first.

He immediately took out his phone and called Chu Xuan. He said indifferently, "Help me do a facial search on Linhai. The man has a particularly big head. Put on a red tie!"

Chu Xuan then hacked into the management system and conducted a comprehensive feature search. In the end, she found two people who were closest to her.

Yu Tian received the information and opened it. One of them could be directly skimmed.

That guy's head was quite big and was also wearing a red tie. However, he was wearing a tie on his bare shoulders. He was obviously a lunatic.

The other one was quite interesting. Moreover, the place where he had appeared recently was actually his sunny night club.

He immediately called Yi Xueyue and said, "Did we have a man with a particularly big head who wore a red tie and stuttered a Little?"

Yi Xueyue was not sure and said in confusion,

u

I've been counting cash with Yu Qi'er in the office. There's no electricity today. We've been using the generator to generate electricity, and there are a lot of people. I'll go and take a look

"Okay, if you find this person, hold him back. I'll go over right now!"

After hanging up, Yu Tian immediately went into the Phantom.

At the nightclub, Yi Xueyue immediately went to the security room and looked at the video. Sure enough, there was this person drinking in the rose room. The one drinking with him was Aini.

She immediately went to the rose room. That big head was obviously a pervert. Not only did he call Aini, but there were also a few other girls drinking with him.

Seeing Yi Xueyue, this guy's eyes were wide open. He said with a deflated stomach, "If I'm not wrong, you, you must be Yi Xueyue. I'm, I'm Wen du Cai. I'm not short of money. Come and drink with me. Drink with me!"

Seeing that his words were so laborious, Yi Xue Yue held back her disgust and said with a smile, "So it's boss Wen. Having a drink is not a problem, but not now. Let My Little Sisters drink with Boss Wen first!"

"When I'm done with my work, I'll definitely come and have a drink with boss Wen!"

Wen du Cai's face darkened, and his face was like a pumpkin mixed with eggplant. He stammered angrily, "No, you don't Give Me Face, right? I know you, your value"

"You, you're the manager of this nightclub. Ordinary people can't hire you, but I have money. I came here today to spend money!"

With that, this guy took out two wads of money from his backpack and threw them on the table. He grinned and said, "Drink with me. The money is yours. Is this brother's strength enough?"

But Yi Xueyue didn't even look at the money. She still maintained a smile and said, "Boss Wen, it's my good fortune that you admire me so much. Logically speaking, since everyone is here to support me, I have to give some face to everyone"

But I can't give some face!"

?Chapter 412 – Chapter 4Thank you readers!

Wen ducai sneered, "You have to give me face. Otherwise, I'll make your nightclub unable to continue. I know who the boss of this nightclub is. Isn't he very powerful?"

"I'm not afraid to tell you today. Soon, his strength will disappear without a trace, just like a crushed bug!"

Yi Xueyue had nothing to be afraid of. On the contrary, the more he said, the better. This was because her phone was always on a video call with Yu Tian. Yu Tian could hear every word he said.

Instead, she smiled indifferently and said, "Oh, is that true? But boss Wen, don't go overboard with your words. My boss runs a nightclub here, so all the nightclubs in Linhai will have to make way for him."

"I really want to hear how boss Wen will make our boss disappear. If what you say is interesting enough, I'll drink this wine with you. How about it?"

Wen ducai had long been fascinated by Yi Xueyue's small figure and swallowed his saliva. Being provoked by Yi Xueyue, he said recklessly, "I'm not, I'm not afraid to tell you. Do you know that the power supply has been cut off twice today?"

It's all because of your boss, Yu Tian. Someone wants to kill him, and this time, he definitely won't live. Very soon, this, this place will belong to me. When that time comes, all of you will be my people!"

These words made Yi Xueyue feel that it was laughable. Could it be that Yu Tian's own strength and the Chu family behind him were so easily shaken?

It was simply like a Fool's dream.

In any case, this fellow did not look very smart. Yi Xue Yue simply sat across from him and laughed, "Is that so? Then I want to hear what this power plant has to do with Yu Tian?"

Wen du stared at the beautiful legs under Yi Xue Yue's skirt. He could not think of anything else and said as if to show off, "Or rather, this is all for Yu Tian.., he, they are all crazy desperadoes. They are here to kill Yu Tian!"

Yu Tian, who was running wildly, suddenly looked to his left and right. So this was the reason for attacking the power plant.

At this time, Yi Xue Yue also felt a little nervous. Wen du Cai didn't seem to be talking nonsense.

She then asked, "So that's the case. Then who wants to kill Yu Tian? There must be an old enemy or something, right?"

Wen Du laughed and said proudly, "It's okay to tell you. Right now, I treat you, you, as my own people. I'm not even afraid of you telling Yu Tian"

Yi Xue Yue nodded and then gave Aini a look.

Aini immediately understood. She raised her wine glass and said admiringly,

"Boss Wen, you're so amazing. I have to toast you no matter what!"

Wen Du was so proud that he lost his mind. He laughed and said, "Okay, I'll drink with you. When Yu Tian dies, this nightclub will be mine. All of you will get benefits!"

However, when this guy drank the wine, his vision turned black and he fell onto the sofa with a plop.

Yi Xueyue picked up the phone at this time and said to Yu Tian in a deep voice, "You heard it, right? Let's see what we can do?"

At this moment, Yu Tian's mind was spinning rapidly. He said indifferently, "This time, it's not someone that can be easily killed. 50,000 mercenaries are enough to fit a stadium. That family is really giving me face"

"Since you're already here, why don't you bring me some local specialties?" "I heard that the whiskey over there is not bad!"

Yi Xueyue didn't know whether to laugh or cry. What time was it now? He still wanted to drink Whiskey.

She shook her head helplessly and asked, "Aren't you afraid at all? This time, your enemies seem to be very strong, and not just against you. They seem to want to make a move against those people from the Chu family,

"You don't seem to be able to deal with them yourself. Were are you now?
"Let's meet and talk about it!

Yu Tian snorted coldly and said disdainfully, "It's useless no matter how many people they send. I hope they have enough people to collect their bodies. We don't have to meet anymore. You protect my sister well!"

"As for that Wen ducai, get him up first. I'll go and see him after I've arranged everything here!

"Okay, you must be careful!"

After hanging up, Yu Tian immediately gave Chu Qing a call.

At that moment, Chu Qing was still sleepy. She asked in a hoarse voice, "What are you doing? Hubby, it's already so late. Aren't you going home?"

"Don't I want to go home? Don't I want to sleep under the warm blanket?"

Thinking of this, Yu Tian said angrily, "Not only can I not sleep, but now you guys can't sleep either. Immediately gather all your sisters and go to the R & D Center as fast as you can."

"Call all the bodyguards and go to the R & D Center. Chu Hui will be there to pick you up!"

"What Qing asked in confusion. She suddenly called in the middle of the night and asked to go to the R & D Center. From Yu Tian's tone, it seemed that he was still a little angry, which made Chu Qing even more confused.

Yu Tian did not want to hide it from her, so he simply explained everything.

When Chu Qing heard this, she was no longer sleepy and was shocked beyond words.

Instead, she was extremely angry and growled, "These bastards don't want to live anymore. They even dare to provoke the dignity of the Chu family. Fine, let them die as many times as they come!"

Yu Tian did not know whether to laugh or cry. He grinned and said, "I should be the one saying this. Look at how many people you speak as if you can fuck. Don't waste your time with me. Bring your sisters to the research and

Development Center first, you'll be safe there. You Don't have to worry about it!"

This was a real battle. Yu Tian felt even more excited.

The more he experienced, the stronger he would become. This was something that no one could stop.

At the same time, on a super cargo ship in the nearby sea area, Selar, who was dressed in combat attire, slowly put on a red beret.

The moment he turned around..,

Selar's gaze was extremely cold. A deep and long scar hung diagonally on his face, making his expression appear even colder and more ruthless.

A woman with an extremely hot figure handed a computer to him..

?Chapter 413 – Chapter 413: No Faith

Thank you readers!

The female mercenary's eyes were filled with admiration. This man in front of her was a true expert. Which woman didn't like experts?

She even said respectfully, "Commander Serar, our advance troops have all arrived at their designated positions. We can also land at any time now. According to the information we have gathered"

"Yu Tian's side has already sent the Chu family's people to the research and Development Center. Our First Battle team has already started to surround the research and Development Center"

"And all of Yu Tian's and Tianhai group's companies are under our control. As long as you give the order, we can immediately launch an attack!"

Serar's gaze was cold as he looked at the computer in his hand. Following which, he slowly raised his head. His gaze, which was like a knife, would always make people shudder in fear.

He raised his head arrogantly and said in an extremely domineering manner, "Guys, you are all people who have come from death, so you are the best soldiers in the world,

although we have never served a country, and we have no faith, because what we need is to fight, and killing is our faith,

this time, our opponent is very powerful. This battle will make us lose many brothers, but it will make us stronger. No matter how powerful the opponent is, they will eventually die at our hands,

“This is what we have to do. This is the value we have been pursuing. I believe that every single one of us here will prove the value of our existence in this battle,

“No matter how powerful Yu Tian is in the outside world, he is just one person. In the eyes of our Devil Army, even if he is a god, we will still kill him!

“Hoha! “Thousands of mercenaries howled like wild beasts at the same time, shaking the entire ship.

Sylar looked at the time, turned around and whispered to the female mercenary, “Has the third power cut not started yet?”

The female mercenary explained in a low voice, “Commander Sylar, it hasn't appeared yet. According to our intelligence analysis, Wen duocai seems to have failed and cut off all communication with us,

“But our damage to the power plant is also very perfect. Now that they haven't restored the power supply, we can land at this time!

Selar narrowed his eyes coldly and said coldly, “IGO and give the order. At the same time, prepare a helicopter for me!

“Yes, Mr. Selar!”

As soon as he finished speaking, all the mercenaries immediately returned to their cabins and began to prepare their equipment.

One of the mercenaries said to his companion beside him, “If there isn't another battle, I feel that my arms and legs are going to rust. I hope that I can personally kill that Yu Tian,

this way, I can also become a commander, just like how Selar did!

His companion put on a bulletproof vest while checking the Gatling heavy weapon in his hand. He smiled disdainfully and said, It's impossible for you to become a commander. You only know how to strip the girls' windows while they are bathing!

“Speaking of which, that woman Linda is getting sexier and Sexier!

As he spoke, this guy licked his lips and said frivolously, "If she wasn't Sylar's assistant, I would definitely ask him out for a drink and then crush a few beds!"

After saying that, the two of them laughed.

At the same time, at the Sunny nightclub.

Snow Moon, who was wearing a tight black leather jacket, said leisurely to Aini, Sisi, and the other ten people who were also dressed up, "We have to help the boss. You've heard it before. There are at least fifty thousand mercenaries outside!"

"If we want to attack the boss, we have to do something?" "Because the boss has done us a favor, we have to repay him!"

Aini said with a solemn expression, "Sister Xue Yue, we have been following you since we were teenagers, and we have always treated you as our own sister. What do you need us to do? Just give us a direct order, and we will definitely not say anything!"

Yi Xueyue tied her hair up, revealing her tender and sexy neck. She said in a carefree manner, "Today, the Dark clan will be red. The patriarch that you all worshiped with me back then..., sacrificing yourself for our Lord, this is our fate!"

After saying that, Yi Xueyue put on a black mask with a woman's face on her head. Then, she picked up the two short moon blades that had gone through the dust, but were still sharp, and tied them to her thighs.

This was her destiny. From the moment she met Yu Tian, her destiny was destined.

This was a rule that had been passed down in the Dark clan for thousands of years. When their master was in trouble, they had to sacrifice themselves unconditionally. Even if they died, they had to do it without hesitation.

Aini and the others also tied the short moon sabers to their thighs.

Every day, they would practice their sabers again and again in the dead of night.

It was for this moment that they could use this weapon to kill the evil in this world.

Yi Xueyue suddenly put the short moon into the scabbard tied to her leg. She turned around and said coldly, "Let's Go!"

Aini and the others jumped into the dark alley from the window.

Yu Tian transferred all the security of the Chu family to the R & D Center.

The most important thing was to protect Chu Qing and the others.

Yu Tian stood on the top of the tallest building and looked coldly at the pitch-black city in front of him.

At this moment, a helicopter whizzed past in the pitch-black night sky.

Yu Tian did not even look at it. He did not know that the person in the helicopter was Sera.

He was only thinking about where the mercenaries were hiding?

What kind of attack would they launch on this city? And what should he do?

“If I were them, my subordinates would control all the companies of the Chu family. Only then would they be able to create the most direct attack!

At this point, Yu Tian immediately opened the satellite map.

There were no obvious signs of large numbers of people moving around Tianhai Group's headquarters or Xinghe technology company.

Even in the other corners of the city, there were no signs of activity.

Could it be that they could also turn invisible?

Seeing this, Yu Tian directly jumped from the roof to the ground. Several hundred meters high, it was as if he didn't exist under his feet. He easily stood on the ground and headed straight for the research and Development Center.

He was the target of those mercenaries. Where would he appear? The mercenaries would appear there.

No, there was no need to deliberately look for them. These idiots would always appear on their own.

Soon, they arrived at the R & D Center. Chu Hui immediately reported, “I have already cracked that electric plate. It is an electromagnetic interference device. Although the technology is not very advanced, its destructive power is particularly strong,

“According to its destructive power, the power plant may not be able to restore the power supply until noon tomorrow!

Yu Tian smiled indifferently and said, “The power plant is not the most important thing. They don't care at all when the power supply will be restored. I don't care either.. Now, I am just waiting to see how they plan to play this game!”

Chapter 414 – Chapter 414, The Attack Began

Thank you readers!

Selar's helicopter landed on the golf course. This place had long been occupied by mercenaries. All the golf course employees had become hostages and were tied up in the restaurant.

A fully armed mercenary wearing a skull mask stepped forward and reported, "Commander, this place has been set up. You can use our dedicated line to command this battle at any time!"

Surrounded by dozens of mercenaries, Sylar walked into the meeting room and looked around.

Radios, big screens, and maps were all in place. More than a dozen technical mercenaries were controlling the computers, and one of them was a bespectacled man, he stood up and saluted, "Commander Sylar, we have completed the invasion of the city management server,

"Now, we can control all the network channels here. Of course, because there is no electricity, some of the servers have not been opened, but those servers are not important."

"Tianhai Group and Xinghe technology company are using large generators to generate electricity. The servers are all open, and now we can control their servers!"

Sylar nodded and turned to look at the hundreds of red dots marked on the map. He said coldly, "They really have a lot of business, but soon, they will disappear from this map!"

Saying this, Sylar ordered Linda, "This time, we are fighting silently. Our goal is to kill Yu Tian and the Chu family,

"This time, we are targeting them. Give the order immediately. Do not harm any innocent civilians. I want every mercenary to attack quickly and covertly,

"We need to plan our retreat route. After the mission is completed, we will retreat immediately. We can not clash with the defense management here,

"Because this is a super country. If we anger this working machine, even if there are ten devil legions, they will not be able to kill us!"

At this point, the sun had already risen in the sky, finally bringing some light to this pitch-black city.

Linda looked at the time. It was already five in the morning. She said in a low voice, "Commander Sylar, do you need to rest? There is still some time before the Attack!"

Sylar put his hands behind his back and looked at the sunlight outside the window. He said coldly, "My soldiers haven't slept. How can I go to sleep by myself? I don't want them to think that I'm superior!"

"Because I was once a mercenary. When I was on a mission, I was tired and even thought of giving up. But after countless life and death experiences, finally realized...",

"As long as we choose to be mercenaries, it's equivalent to doing the opposite of everything in our normal lives. Give the order, and the attack time will be brought forward. Now, begin the attack plan!"

Linda laughed coldly in excitement. "Yes, Commander!"

In another meeting room, Linda proudly said to all the group commanders, "Commander Selar has already given the attack order. Our attack plan will begin immediately. Now, we will carry out the first phase of the Attack!"

The commander-in-chief stood up and nodded, still giving their respective orders.

For this battle, they had carried out a detailed plan for a month. Every detail was repeatedly discussed, every step was precise to every second.

First of all, their cyber attack group had carried out a blanket interference on the entire city's communication system.

This was especially so for the Chu family's network system. The mercenaries that had been prepared earlier had cut off the network cable.

At the same time, the Devil Legion's radio system was activated at the same time, replacing the Chu family's network.

Not only did they control the network, but they also blocked the personal network signals of every single Chu family employee.

Second, under Linda's command, a large number of mercenaries charged into the headquarters of the Tianhai Group and the Galaxy Technology Group, including all the branches of the monks in Linhai. At the same time, they turned a large number of people into hostages.

It was already six o'clock in the morning. All external communications were blocked. The R & D Center and the others had no idea what was going on?

Only Yu Tian felt that this was very abnormal.

He turned on the television. It was full of snowflakes. There were no programs, and he could not find any channels.

He turned on his cell phone. There was no network, and the phone signals were all crossed.

Not only him, but everyone's phone was the same.

Yu Tian narrowed his eyes slightly and chuckled, "This move is not bad. It's quite new. If I'm not wrong, they must be busy outside!"

Chu Qing did not know what Yu Tian was thinking. She asked doubtfully, "You seem to know what they are doing outside. Did you see it?"

"I didn't see it, but I can imagine it. Otherwise, why do you think they blocked our phone signal? Isn't it because they don't want us to have contact with other people?"

"And they have no other actions now, so in my opinion, they may have already occupied our Tianhai Group and Galaxy Company!"

Yu Tian was very confident in her guess.

Chu Hui's expression was solemn. If that was really the case, wouldn't that mean that the R & D Center had already been isolated?

She said with a heavy tone, "If the outside world has already been taken over by them, then only our R & D Center is left. I feel that they will soon launch an attack on this place. We should be prepared to defend!"

Yu Tian shook his head and said with a faint smile, "Don't be afraid. They won't launch an attack on us now because they haven't had enough of showing off yet. All pretenders are like this. They haven't reached a certain level yet."

"They will continue to pretend. What we need to do now is to eat and sleep. Speaking of which, my stomach is a little hungry. Is there anything to eat in the restaurant?"

Chu Qing was now Yu Tian's fiancée. If her fiancée was hungry, she should be the one doing the work. She turned around and went to the restaurant to see if there was anything to eat.

At this moment, Monica suddenly appeared behind Yu Tian and kicked him.

Fortunately, Yu Tian reacted quickly and was not kicked by her. When he turned around, Monica's eyes were red. How long had she cried before she became like this?

He laughed and said, "I know you're wronged, but now that I want to fight with others, I'm really not in the mood to tell you anything else!"

Monica gritted her teeth and said, "That's not what I'm talking about. Those people used me to make you not believe me. They are also my enemies. I want to help you fight!"

Yu Tian smiled helplessly and said, "You really can't help this time. They are not developers. Your purification skills are useless against them!"

However, Monica was not convinced and said, "Who said that? See if they are useful!"

Chapter 415 – Chapter 415, Skill Attack

Thank you readers!

Monica turned around and shouted at the door, "Come in!"

At the opening of the door, five fashionable beauties, Yu Tian, walked in. Judging from the color of their skin, they should be from different countries, and they were all developers.

She turned around and said proudly, "They are all my good friends. We used to be the best partners in superpower. Each of them has their own unique developer skills. Let them fight!"

Yu Tian nodded. It was different with skills. No matter how much they could play a role, it was enough to protect Chu Qing and the others at the critical moment.

He could not be in two places at the same time. He could not deal with the mercenaries while protecting Chu Qing and the others.

At this moment, Sun Chen from the security department rushed into the meeting room and said anxiously, "A large number of mercenaries are attacking us. They are using thermal weapons. Many security guards have been killed!"

Everyone stood up in shock, but Yu Tian remained calm and said calmly, "There's no need to fight to the death with them. Retreat to the building!" At this moment, the sky was dark and there was not a trace of sunlight.

The Devil Mercenary Group launched a fierce and rapid attack on the R & D Center. Under the barrage of heat weapons, a large number of security guards fell in a pool of blood.

All signals were blocked and no support could be called. The management system was hacked, which meant that the R & D Center was completely isolated. The entire city did not know that a battle had occurred in the R & D Center.

The mercenaries had already occupied the outer perimeter of the R & D Center. The building that was dozens of stories tall in front of them was their final target.

The tall commander of the assault team, Dorsa, who carried Gatlin on his shoulder, spat out half of his cigar and enjoyed the smell of blood in the air. He had forgotten how long it had been since he had smelled such a charming smell. The smell was like a stimulant, making him shout loudly, "Guys, there's something I want in that building. Turn this place into our battlefield!"

Begin the attack

As he shouted, hundreds of mercenaries began to fire wildly at the building.

Yu Tian, who was standing at the window of the meeting room on the highest floor, looked indifferently at a beautiful female developer beside Monica.

Her name was Jura, a beautiful 18-year-old girl. She always had a slight smile on her face, as if she was going through an ordinary gathering.

In the rain of bullets, she gently waved her hair and slowly raised her hands.

With a thought, a transparent protective barrier enveloped the entire building.

The bullets could not penetrate it, and even the rockets were not worth mentioning under this protective barrier.

A smile hung on the corner of Yu Tian's mouth.

The mercenaries below were not worthy of him taking action. He would just leave them to Monica and the others to play with.

Dorsa gave the order to stop shooting in shock. Rather than wasting bullets, it was better to think of another way to destroy the strange protective shield.

However, he was the commander. He definitely could not show his shock on his face. He was the spiritual symbol of these one thousand mercenaries. He had to stay calm.

However, the mercenaries were all a little dumbfounded.

They weren't afraid of the cruel battlefield, but this kind of special effects scene that only appeared in movies actually appeared in front of their eyes, causing them to have no choice but to look at Dorsa.

This Mr. Commander put on a relaxed and calm expression and smiled. "Interesting, there's actually a protective shield that exists. Since they want to block us..,

“Then let's cut it open. Jack, it's Your Turn!”

Jack was a special existence in his attack team.

Their explosion and destruction skills were the best in the world. There was no wall that they couldn't break through, and no door that they couldn't break through.

Jack led the team to carefully study the protective shield and said in a low voice, “This seems to be a protective shield created by some kind of energy transmitter. We can use electromagnetic interference bombs!”

Dorsa narrowed his eyes and pondered for a while. There was only one electromagnetic bomb. It was originally intended to be used during the battle with Yu Tian. It could instantly release a powerful destructive energy.

However, without breaking through the protective shield, they wouldn't even be able to see Yu Tian's face.

“Okays!” Dorsa nodded and said, “Let's use electromagnetic bombs!”

Soon, the two mercenaries carried the electromagnetic bomb in the box to the front of the protective shield and carefully opened it.

When Yu Tian saw the bomb, he smiled indifferently and said, “It seems that they want to play something exciting!”

Monica said arrogantly, “As long as it is not the interference equipment of the

PBG, no equipment can break Yura's protective shield!”

As soon as she finished speaking, the electromagnetic bomb had been activated, producing an extremely violent destructive force in an instant.

However, after the dust that filled the sky dispersed, the protective shield was still intact.

Even Jack looked at Dorza in fear. If even the electromagnetic bomb couldn't do it, he had no other means.

Dorza had to light a cigar to hide the shock and fear in his heart.

He had taken the initiative to request to attack the R & D Center. Sylar had given him the best trust, but now he couldn't even break through the protective shield. How could he have the face to explain it to Sylar?

Yu Tian, who was in the meeting room, smiled indifferently. “It seems that they have lost the mood to fight!”

Monica understood what Yu Tian meant. She turned around and ordered a girl who was blowing bubble gum behind Yura, a€?Maggie, it's Your Turn!

A big bubble burst on Maggie

v

s Sexy Lips. She clapped her hands with Monica and said to Yu Tian, a€?IYou owe me oneP

Yu Tian said indifferently, UHow can I give it to you this time?a€?

Maggie looked at Yu Tian flirtatiously and smiled without saying anything.

On the other side, Tiffany tugged at Meng Xiaoyu and said disdainfully, a€?iThat guy is acting like a hooligan again! a€?

At this time, Maggie looked at the mercenaries under her feet and suddenly stopped smiling. Her eyes turned red.

The mercenaries who were thinking about how to carry out this battle were in chaos in large numbers.

Some of the mercenaries were screaming crazily, some were screaming in fear, and there were even large numbers of mercenaries who were desperately shooting wildly, as if the people around them were all terrifying monsters.

In an instant, blood flowed like a river, and hundreds of mercenaries were killed by their companions.

Dorsa had completely lost his grasp of the situation. Before he even knew what had happened, a few bullets had already pierced into his body.

Covered in blood, he raised Gatlin and shot ferociously.

At this moment, Jack jumped on him and stabbed his dagger into his neck.

After killing Dorsa, Jack got up and his forehead was pierced by a bullet.

The bloody scene made Yu Tian's heart skip a beat. Chu Qing and the others simply stopped watching.

Monica lowered her head and whispered to Yu Tian, a€?Maggie's skill can make people's brains feel extreme fear and see distorted monsters.. Yu Tian, are we doing the right thing?a€?

?Chapter 416 – Chapter 416, Magical Attack

Thank you readers!

At this time, what was right and wrong?

If he had the time, he might as well think about how to kill the remaining mercenaries.

Yu Tian looked at Monica indifferently and said firmly, "Why don't you ask them if what they did was right or wrong? I don't even know what happened. They sent 50,000 mercenaries to F * ck me!"

Right or wrong? I might as well F * ck that Selar's father directly!"

Monica was speechless. What Yu Tian said was right.

At this time, it was also quiet outside. Yu Tian saw that there was only one mercenary left and hurriedly shouted, "Leave him alive!"

However, his words were still a little slow. That mercenary shot a bullet directly at his own head.

Yu Tian shook his head with a sad face. He turned around and went downstairs to find Dorsa's radio.

At this time, a woman's voice came from the radio.

"Dorsa, have you occupied the R & D Center? Please respond if you hear me."

Yu Tian chuckled and said indifferently, "Dorsa is dead. I'm Yu Tian. Tell your Sylar to talk to me!"

Linda was shocked and quickly looked at seraph behind her.

At this moment, seraph was not surprised at all. This was very normal. If he could kill Yu Tian so easily, he would not have to bring the entire Devil Army with him.

He took the radio and laughed gloomily, "How Long Can you last?"

Yu Tian said indifferently, "That depends on whether you have the guts to meet me. Don't you want to kill me? Tell me your location and I will take the initiative to let you kill me!"

SERAR sneered and said, "I'm not your battlefield. You "ll soon die where you stand because there are no enemies in this world. All of them have died, including you!"

This guy just wanted to play tactics with me?

Yu Tian didn't waste time with him and directly cut off the radio. Then let's see how capable he was.

He turned around and threw the radio to Chu Hui. He said calmly, "Figure out their position!"

On the golf course, Linda frowned and asked, "Commander Sylar, our plan may have to be changed!"

Sylar's eyes were cold. He said fiercely, "He killed a thousand of my men. Don't think he can laugh so easily. Give him the same reward!"

Yu Tian walked into the meeting room and was about to deploy the next defense when the big screen suddenly had a signal.

It was the Tianhai Group. Hundreds of employees, including Chu Qing's assistant, were all forced into the company's auditorium.

The mercenaries dragged out ten of the company's higher-ups and killed them without even blinking.

Chu Qing was so angry that she cursed, "KB * stard, B * Stard!"

Yu Tian also narrowed his eyes. Although he was angry, it was not the time to be impulsive. It was impossible for anyone not to die in such a big situation.

The idea of looking for reinforcements was immediately canceled. Unless it was an army, it would be an innocent casualty.

However, he did not want to do that. That was something only incompetent people would do. He would fight them to the end and never compromise.

At this moment, the second wave of attacks from the Devil Army also began.

This time, they were much smarter. They knew that there was a protective shield and that there were strange hallucinations. Therefore, their vanguard dug open the drainage pipe of the building and directly emerged from the basement.

After rushing into the building, these crazy mercenaries killed everyone they saw without blinking.

But this time, the security guards were not as easy to bully as before. There were weapons everywhere outside, so they could be used as soon as they picked them up.

But their defense still kept retreating, and at one point, they retreated to the middle area of the building.

The mercenaries even used rocket launchers, bombs, and other heavy weapons.

Yu Tian did not feel anything. He just waited for Chu Hui to crack the radio and find Sylar's location.

As for the mercenaries, Monica wanted Maggie to deal with them. Suddenly, someone behind the crowd said, "Go!"

Yu Tian turned around and saw that it was Luoya who spoke.

Ever since she regained her memory, she had been staying in the research and Development Center.

She came to Yu Tian and said coldly, "I helped you this time, so we're even!"

Yu Tian said calmly, "Be gentle and don't blow up the building. If you don't get killed by the mercenaries, you'll be smashing yourself to death!"

Luo Ya snorted coldly. She knew the power of her attacks.

However, Yu Tian was still a little worried and followed her downstairs.

It was a mess downstairs. Sun Chen was wounded and his face was covered in blood. When he saw Yu Tian coming downstairs personally, he was also excited.

Before Yu Tian could say anything, Luoya picked up a trash can and threw it out.

The trash can turned into a bomb with the help of her mind.

A few mercenaries saw the trash can flying toward them from the sky and mocked, "That's a trash can. Do you think that's a bomb?"

As soon as they finished speaking, the trash can that fell to the ground suddenly exploded. The power was even stronger than a high-explosive grenade, and it directly blew up more than a dozen mercenaries.

Even the walls on the left and right were blasted with a few holes. Yu Tian felt his feet tremble, and he hurriedly shouted, "Sister, be gentler. This building is not sturdy!"

Luoya did not listen to these at all. As long as it was something that could be held in her hand, she would throw it away.

The sound of explosions rang out one after another, causing the mercenaries to run and hide.

In the blink of an eye, dozens of them were killed.

Luoya walked straight down the stairs, throwing things at anyone she saw. The sound of the explosions was deafening.

Soon, she single-handedly pushed hundreds of mercenaries back to the entrance of the basement.

She picked up the rubble and continued to throw it in.

The mercenaries who were blown up retreated recklessly, trampling dozens of people to death.

The underground pipeline collapsed under the violent tremors, and hundreds of mercenaries were buried alive in the ruins.

The ground floor of the first floor of the building collapsed completely. The entire building was trembling violently, as if it was going to collapse at any moment.

It frightened Chu Qing and the others, and they all fell to the ground.

The more Luo Ya fought, the angrier she became. She rushed out of the building with a red face and a thick neck. The mercenaries surrounding the perimeter immediately started shooting.

Jura, who was standing on the roof, immediately added a layer of protection to Luoya.

Yu Tian looked at it from the window. This combination was perfect.

There was no need for more people. The few of them were enough. Luoya, alone, bombarded the mercenaries.

The commander of the second attack group asked with a cold face, "How many bombs does that woman have on her? Why does she throw them without any interruption?"

Another mercenary said, "She doesn't seem to be using bombs. Take a closer look. She seems to be using stones to bombard us. If the stones are in her hands, they will become bombs!"

The commander took a closer look and immediately had a face full of fear. He said in disbelief, "This is impossible!"

?Chapter 417 – : Chapter 417, Do Not Give Up

Thank you readers!

Loya did not give them any chance to react. Under the protection of the protective shield, she directly rushed to the front of the mercenaries, picked up the stone and threw it.

The scene was like being bombarded by a dense bomb. The earth-shattering explosion was earth-shattering.

Seeing that the mercenaries wanted to retreat, Yu Tian snorted coldly and said, "Since you're here and still want to leave, how can it be so easy?"

He went around to the back of the mercenaries. Dealing with these people did not require any complicated moves.

Since Loya was throwing stones, he could use this move himself. Let's see whose move was more fun.

Thus, he picked up a stone and threw it into the air. The moment the stone fell to the ground, it turned into a huge rock that weighed hundreds of tons, smashing the mercenaries into pieces.

The mercenaries who were still alive did not even have the courage to take a look at this scene. They were so scared that they wet their pants.

Yu Tian jumped in front of the huge rock and slammed his palm onto it. The huge rock that weighed hundreds of tons flew out and crushed countless mercenaries to death.

In addition to Luo Ya's bombardment, in the blink of an eye, only a few of the thousands of mercenaries were left. They raised their weapons and knelt on the ground, surrendering.

Yu Tian looked at Luo ya smugly and chuckled, "My skills are pretty good, right?"

Luo Ya said disdainfully, "Your stone won't explode if you throw it. It can only grow bigger. It's meaningless!"

Yu Tian ignored her and walked directly to the mercenaries. He asked coldly,

"Where's your commander? You can live if you tell us!"

One of the mercenaries said with tears in his eyes, "They are all on the golf course. That is our command center. All the attack orders are issued from there!"

As soon as he said that, Yu Tian moved his finger, and the mercenaries were all killed.

They really knew how to find a place to play golf.

Yu Tian snorted and turned to Luoya. "I am going to the golf course now. You Go back and protect my people!"

As long as they killed Sylar, the other mercenaries were nothing to be afraid of.

Sylar had been watching this strange and terrifying battle the entire time.

Everyone in the meeting room was silent, their hearts filled with endless fear.

They had built a very magical battle, which was completely beyond their imagination.

Now, everyone was wondering whether they were here to carry out a mission or to seek death.

Up until now, they had only seen Yu Tian. With a casual attack, he had crushed hundreds of mercenaries to death.

Bullets and heavy weapons were completely useless in front of those freaks.

At this moment, Sylar's face was extremely gloomy and cold. He slowly stood up and said coldly, "Get all the attack teams that are preparing to attack the research center at the periphery to come to the golf course and wait for orders!"

Yu Tian would soon appear here. He ordered the attack teams that had already taken control of Xinghe Technology Company and the headquarters of the Tianhai Group to bring all their key people here!"

The moment the order was given, tens of thousands of mercenaries rushed to the golf course from different directions.

Their actions were extremely secretive. Their weapons and equipment were all packed into their backpacks. They disguised themselves as tourists and blended into the crowd. No one cared about them at all.

Star River Technology, Du Tianci, Yan Longwen, and the others were all kidnapped from their homes by these mercenaries.

Right now, they still did not know what had happened. They were all stuffed into the bus and headed to the golf course.

Sylar found an empty room and took out the revolver that had always accompanied him. He skillfully checked the bullets and the revolver and narrowed his eyes coldly.

From the moment he became a mercenary, he had told himself that as a mercenary, he could never fail. Failure meant death.

No matter what kind of battlefield it was, if you failed in the battlefield, there was no chance of survival.

The enemy would not let you live either. This was a life -and-death world. Only the strong could survive.

Moreover, this mission had already begun. It was impossible to give up halfway. Even if he died here today, he had to continue this mission.

The two previous battles had already shaken the hearts of his subordinates. If they did not give them a firm belief at this time, then this mission would not be able to continue.

At this moment, Yu Tian had already arrived at the surroundings of the golf course.

He first used the binoculars to observe the entire golf course carefully.

He discovered that there were many tourists entering the golf course. These people were particularly sturdy, and their backpacks were especially large. Some of them even revealed their weapons in their backpacks.

Seeing this, Yu Tian only chuckled.

It seemed that Selar was also afraid of him, so he dropped most of his troops into the golf course.

This was even better. He didn't have to waste time and had to kill them one by one.

At this moment, a few buses also entered the golf course. Under the scolding of the mercenaries, du Tianci and dozens of others were pushed into the resting hall of the golf course.

Yu Tian a€?s eyes revealed traces of killing intent. What he hated the most was to use hostages to blackmail him.

Such despicable methods were something only animals like them could do.

Mercenaries were people who had no feelings. In their eyes, there were only two kinds of people. One was alive, and the other was dead.

He had to make a plan first. No matter what, he had to save du Tianci and the others first.

Otherwise, this fight would not be satisfying. He might as well not fight.

In the Devil Legion's command center, Sylar slowly walked into the meeting room and said coldly to all the commanders of the attack teams present, "Our plan has to be changed,

"It is undeniable that our enemy is very powerful, even beyond our imagination. However, this also makes this mission even more exciting,

"All of you are people who like excitement. Just treat the person we are going to kill today as an omnipotent devil. As long as he dies at our hands, we will become the most powerful mercenary troop in the world, "The most powerful mercenary troop,

"In this life, we will always go for it. No matter how powerful Yu Tian is, he will definitely die at my hands. Everyone, go and prepare your defenses. When Yu Tian appears, kill him immediately!

Before he could finish his sentence, a loud noise came from the roof of the meeting room. Everyone looked up in horror and saw that a huge rock had smashed a huge hole in the roof.

The falling floor and the collapsed roof had buried several commanders of the attack teams.

Sylar reacted quickly and dodged quickly. He did not get hit. When he looked back, his assistant Linda had already died under the huge rock.

He narrowed his eyes coldly, his fists cracking..

?Chapter 418 – : Chapter 418, The Developer Appeared

Thank you readers!

Sylar knew that this stone was thrown by Yu Tian. In the previous battle, Yu Tian had used this move to kill hundreds of mercenaries.

This meant that Yu Tian was nearby.

With a ferocious gaze, he rushed into the lounge in a fluster and asked someone to drag du Tianci and Yan Longwen outside.

The mercenaries had never seen Sylar so angry before. They all stood aside carefully.

Sylar aimed his revolver at the back of Du Tianci's head and shouted, "Yu Tian, I know you're here. If you were a man, you would appear in front of me right now,

"Otherwise, I'll let you see with your own eyes how I killed your good friend. This guy is called du Tianci. He's your technical consultant. You made a lot of money with him,

“If you don't show up, I'll blow his head open right now. I'll count to three!”

Du Tianci was trembling all over. He kept begging, “Boss, I don't know Yu Tian very well. I'm just his employee. It's useless even if you kill me. He won't feel sorry for you at all,

“Boss, if you kill me, say something useful. You killed a technical person like me. There's really no need for that!

His nonsense made Sylar even angrier. A revolver hit him on the head and instantly, his head was bleeding.

Du Tianci lay on the ground and screamed like a pig being slaughtered. He thought that a bullet had entered his head.

Yu Tian, who was hiding in the forest far away, still frowned slightly.

Some people were killed. He could accept it, but some people could not.

Du Tianci and Yan Longvven were people who fought alongside her, especially Yan Longvven.

At this moment, although she was afraid, she bit her lips tightly and did not say a word.

Yu Tian could see from her eyes that she was already prepared to die.

Yan Longvven did not want to die at all, but for Yu Tian, if she really wanted her life, then she would give up her life unconditionally.

If it were not for Yu Tian, she would not be where she was today. She would not be working as a secretary or a clerk in some small company. She would be constantly harassed by her boss and looked down on by others.

This was a favor that Yu Tian had given to her. She should repay him.

At this moment, Sylar roared furiously, “Yu Tian, you are a coward. You watched your good friend being killed, but you were indifferent. I always thought that we mercenaries were the only ones without feelings”

I didn't expect you to be even more ruthless than us. Is this your temper? “In my opinion, you're a coward. I'll give you one last chance. If you don't step forward, I'll kill them both immediately!”

Yu Tian gritted his teeth and decided to walk out. However, at this moment, in another direction, a middle-aged man with a few men and women in black walked toward Sylar and sneered, “It's useless for you to kill them”

This would only cause some emotional damage to Yu Tian, but you can't kill him. Don't you think that this method is outdated?

Selar looked at them coldly. The other mercenaries immediately raised their weapons and surrounded them.

The middle-aged man spread his hands and sneered, "Don't be so rash. We are the same as you. We are here to kill Yu Tian."

"The difference is that you're mercenaries, and I'm a little higher in rank than you. Others call us developers, but the one who used stones to turn into bombs to throw you is the developer."

"Of course, Yu Tian is also a developer, but he stands on the opposite side of us. He has become an enemy that we must kill, or we can work together."

"At least we can make that woman who threw stones at you guys casually stop using the same method to attack you guys!"

Sylar ordered the mercenaries to retreat and said coldly, "What is your plan? Tell me!"

The middle-aged man looked left and right, he chuckled and said, "This is not a place to talk. That guy's ears are especially sensitive. I think we should find a quiet place and prepare some drinks for me. Let's talk slowly!"

Sylar thought for a moment. These people seemed to have a special understanding of Yu Tian and his strange people. Perhaps he could use them to kill Yu Tian.

Although he usually disdained to do so, this was a critical moment. As long as someone could help him kill Yu Tian, he would definitely cooperate with them.

At this time, Yu Tian also noticed these developers and felt that this game was getting more and more fun.

Fortunately, du Tianchi and Yan Longwen were dragged back to the lounge. Yan Longwen quickly tore off her clothes to help du Tianchi stop the bleeding.

Yu Tian wanted to hear what these developers had up their sleeves? However, his goal was too big.

If he had known earlier, he would have brought Meng Xiaoyu.

Just as Yu Tian felt that it was a pity, Monica brought the developers, Tiffany, Meng Xiaoyu, and the others to the golf course.

With Tiffany's X-ray vision skill, they quickly found Yu Tian's location.

After meeting up, Yu Tian said excitedly, "You guys came just in time. There are a few developers who are preparing to work with these mercenaries."

Xiaoyu, let's go in and see what their plans are!"

I also want to know what these developers are capable of.

The rest of the people stood in place and waited for orders. After Yu Tian and Meng Xiaoyu activated their invisibility skills, they swaggered into the conference room of the golf course.

When they passed by those mercenaries, those idiots did not discover anything at all.

At this time, the middle-aged man was drinking red wine, he introduced himself, "My name is Graham, I'm a senior of the second generation of developers. Yu Tian killed our spiritual pillar, Dr. Kellogg, and also coerced his daughter, Monica,

"So, we must kill Yu Tian. As far as I know, your previous two attacks have been completely destroyed by Yu Tian's developers,

"So, you're very excited to kill his employees, but it's useless. Not only will you

Tian not feel sorry for you, but he will also launch even more fierce attacks on you,

"And what really makes Yu Tian feel sorry for you are his women. They are in the research and Development Center, but you have transferred all your mercenaries back to the golf course. Originally, you were the attacking side, now, you are on the defensive side. Is this the strength of the Devil's Army?"

Saylor looked at him with a cold expression, he said gloomily, "What is the strength of our army? You Don't need to ask about this. Just tell me directly how you want to cooperate with us.. There's no need to say anything else!"

?Chapter 419 – Chapter 419. Do Something Exciting

Thank you readers!

Graham gently put down his glass and said confidently, "It's actually very simple. You Go to the R & D Center now and launch a frontal attack, and we will attack you at the same time."

We'll use our own means to get into the R & D Center building, and then we'll take down all the women around Yu Tian,

“As long as this plan succeeds, they will obediently kneel in front of us tomorrow. If you let him live, he will live. If you let him die, he will die!”

Selar did not trust Graham. Moreover, this plan sounded more like he was using himself to help them complete the task.

When they got those women and used them to blackmail Yu Tian, what could he get?

Thinking of this, Saylor shook his head and said, “Your plan sounds feasible, but I have a question. How can you let me see Yu Tian being killed?”

“After all, this is also my mission. To us mercenaries, the mission is equivalent to our lives. No matter what, we must do whatever it takes to complete the mission!”

Graham chuckled and said disdainfully, “Do you think you have the ability to negotiate with me now? I can honestly tell you that in front of Yu Tian, these mercenaries of yours...

are just a bunch of trash seeking death. When will I let you all die? It completely depends on Yu Tian's mood. You Can't stop him at all. If it weren't for us, you would have killed the entire city,

you wouldn't have caused any harm to Yu Tian. In the end, you would all be killed one by one by Yu Tian. Do you think you have a choice now?

I've said enough. Now, it's up to you to decide. Are you going to do it yourself or cooperate with us? I just want Yu Tian to die quickly. If you don't cooperate with me...

“At most, I will just waste some more time. At that time, Yu Tian will still die by my hands. What do you say?”

Saylor gritted his teeth. Graham's words were exactly what he felt the most uncomfortable about.

After a careful analysis, these mercenaries of his were really no match for Yu Tian.

Thinking of this, Saylor slowly stood up and said coldly, “No matter what, I want to see Yu Tian killed with my own eyes. Otherwise, we won't cooperate...

“And in my opinion, are you guys Yu Tian's match?” “No one knows now.

This is my condition for working together. What do you think?”

Graham also stood up and said with a cold smile, “There's no problem. I'm a person who likes to promise others. In that case, you can mobilize your mercenaries now!

Yu Tian, who was standing outside the door, was so angry that his teeth were itchy.

Still waiting for them to attack the R & D Center? Stop Dreaming.

He turned around and whispered into Meng Xiaoyu's ear, "Now is the best chance to kill them. How about it? Let's play something more exciting?"

Meng Xiaoyu nodded excitedly and said with a smile, "Okay, as long as they don't have a clairvoyant, I am not afraid of anything!"

"I'm not afraid even if they have a clairvoyant. Don't forget that I'm an offensive developer. If I get angry, even I'm afraid of myself!"

The two mercenaries standing at the door looked at each other in dismay. One of them was already covered in cold sweat as he said in fear, "You also heard those whispers, right?"

The other mercenary swallowed his saliva and nodded, saying, "I thought I was the only one who heard it. Could it be a Ghost?"

At this moment, Yu Tian gently pushed open the door of the meeting room.

The two mercenaries were so scared that they scrambled away.

However, Selar and the others in the meeting room did not notice it at all and continued to study the attack plan.

Yu Tian went behind Graham first and gently pulled out the golden needle. Without saying anything, he directly stabbed it into Graham's neck.

Graham, who was pretending, was suddenly stunned. He did not move and fell straight to the ground.

Everyone in the meeting room jumped up in shock.

One of the female developers said in a low voice, "Invisibility, let's Go!"

However, Yu Tian did not give them a chance to leave at all. He threw out the golden needles one after another.

The developers fell to the ground one after another. Sylar, who was standing at the side, took out his weapon in fear and fired at his surroundings.

He shouted while firing, "Come out! Come out! I want to kill you with my own hands!"

Yu Tian, who had been standing behind him the entire time, smiled. The last golden needle was inserted into the back of his head.

Sylar suddenly felt his vision go black, and then his mind buzzed. All his thoughts disappeared, and all his senses disappeared. He fell to the ground with a thud.

Meng Xiaoyu turned off her invisibility skill, and the two slowly appeared in Sylar's eyes.

At this moment, Sylar's eyes were filled with fear and hatred.

He hated Graham even more. If not for this bastard, he would have been able to kill Yu Tian by now.

However, Yu Tian stepped on his face and said proudly, "How do you feel now? Do you feel weak? Aren't you good at acting? Why are you lying at My Feet Now?"

"I said that I would kill you with my own hands, so I must do it. You always say that your mercenary mission is your life. In fact, it's the same for me..,"

"But before I kill you, I want to let you watch a Good Show!"

After saying that, Yu Tian brought Sylar to a chair and let him look out of the window.

At this time, Meng Xiaoyu activated her invisibility skill again. After meeting up with Monica, she conveyed Yu Tian's intention.

Monica nodded, turned around and whispered to another female developer, "Barbara, let us see your skill too!"

This girl named Barbara nodded slightly and directly started to use her skill towards the sky.

Under the coverage of his skill, all the mercenaries on the golf course were invaded by an extreme sense of sleepiness. They all fell to the ground and fell into deep sleep.

Tens of thousands of mercenaries did the same. Even the employees in the lounge fell asleep on the ground.

The entire golf course, except for Monica and the others, as well as Yu Tian, fell into a deep sleep.

Yu Tian felt that this skill was really good. It could effectively treat insomnia. If he couldn't fall asleep in the future, he would let this woman sleep in front of him for a while. He would definitely sleep well.

At this moment, he looked at Sylar again. This fellow had also fallen asleep.

However, he was woken up by a big slap every day. Sylar did not feel anything at all. He just stared blankly at Yu Tian..

?Chapter 420 – Chapter 420, Removing The Root Of The Problem

Thank you readers!

Yu Tian did not want to waste any more time when he saw how badly Sylar could not afford to live. He immediately broke Sylar's neck.

He had to think about the pain of dying in his hands.

Monica and the others destroyed all the devices that blocked the signal. The entire city's network was restored.

At this time, the power plant was repaired and the power supply was restored.

Yu Tian heard the sound of the city's operation and laughed. This battle was too simple.

At this time, Tiffany came forward and asked, "What about the people outside?"

There were tens of thousands of mercenaries. The entire golf course was full of them. Although they were sleeping, they still held weapons in their hands.

Yu Day thought, or use the power of the Chu family, to deal with these mercenaries.

However, usually the phone will be connected Chu Qing, this time did not get through the phone, Yu Day in the second time, the phone connected, and then was hung up.

"Holy shit!"

Yu Tian fiercely hit a cold shiver, Monica and they all came here, that R & D Center only Luoya and chuhui, if the second generation of developers attack R & D Center at this time, isn't it a one-hit-one-hit-one ?

Without any time to think, Yu Tian rushed out of the golf course, entered the Phantom, and rushed to the R & D Center.

After arriving at the R & D Center, Yu Tian quickly rushed into the building. However, what he saw was a mess. The security guards were all lying in pools of blood. There was no one alive in the entire building.

Yu Tian rushed all the way to the top floor. He finally saw Sun Chen, who was still breathing. He hurriedly used a golden needle to heal him.

However, Sun Chen had lost too much blood. The golden needles could only allow him to live a little longer.

“What exactly Tian asked in a low voice.

Sun Chen said in an extremely weak voice, “Chief Yu, I'm sorry. I wasn't able to protect Chief Chu. They were all kidnapped by a group of black-clothed people. Those people are especially powerful|

They were not afraid of the attack of weapons at all. One of them was extremely powerful. He could kill a person with one punch!

This group of developers made it quite clear that they were playing a trap for him.

They deliberately asked some idiots to make him pay attention. They had made all the women around him disappear. It would have been fine if they had left a cook for him.

After Sun Chen said that, he didn't even catch his breath. With a kick, he died.

Yu Tian wanted to help him close his eyes, but he couldn't do it after doing it a few times.

“If you're willing to keep them open, then so be it. I have to go save some women. I'll burn more beautiful women for you later!”

Yu Tian turned around and looked around. Chu Hui and Chu Xin were both very calm people. If those second-generation developers had suddenly barged in, they would have definitely left some clues behind.

Sure enough, there was a USB drive in a particularly conspicuous position.

After inserting the flash drive into the computer, a pre-recorded video began to play on the big screen.

A man wearing a black suit and a skull mask coldly said to Yu Tian, “We don't want to hurt anyone, including the people from the Chu family,

“We don't want to be your enemy either. We just want to get our second-generation development equipment back. If you agree to the exchange, we will wait for you at the abandoned airport in the suburbs!”

The game was getting more and more advanced, and now they actually wanted the second-generation development equipment. It seemed that they wanted to continue doing what Kellogg was not after.

Fortunately, they knew that Chu Qing and the others were still safe, which was already good enough.

Without thinking much, Yu Tian immediately went to the abandoned airport.

However, while his mind was full of thoughts on how to rescue Chu Qing and the others, Monica and the others on the golf course were also severely attacked by the second-generation developers.

With Meng Xiaoyu's invisibility skill, Tiffany finally ran out of the golf course and immediately called Yu Tian.

At this time, Yu Tian was running wildly on the way to the airport. When he picked up the phone, he immediately asked, "I don't have time to deal with you guys now. I have to go and save Chu Qing and the others. If you guys can take care of that side, come to the airport and help me save them!"

However, Tiffany said helplessly, "Yu Tian, we can't help you this time. After you left the golf course, we were attacked by the second-generation developers,

it was as if all the second-generation developers in the world had come here. Even Monica's purification skill was useless. Now, we don't even know if they are alive or dead!"

Yu Tian suddenly frowned. It seemed like he had underestimated them a little too much. They were clearly playing him back and forth.

After thinking for a while, Yu Tian immediately turned around and headed straight for the golf course.

These second-generation developers wanted to develop the equipment. They wouldn't do anything to Chu Qing and the others, so they were still safe for now.

However, Monica definitely couldn't fall into their hands. She had to save Monica first, and then save Chu Qing.

On the golf course, Monica, Jura, and the others were besieged by dozens of second-generation developers. They didn't have the ability to fight back at all.

Jura used a protective shield to protect everyone with great difficulty while shouting at Monica, "I don't know how much longer I can hold on. They have corruptors. My Protective Shield can't stop them at all. Now we can only kill our way out!"

Monica wiped the blood from her forehead and gritted her teeth, "I didn't expect 10 to come personally. This guy's interference skill is the natural enemy of purification skills."

Before she could finish her sentence, a ball of black mucus landed on the protective barrier, followed by an extremely pungent black smoke. YuWs protective barrier also disappeared at the same time.

At this moment, a thin man slowly walked to a distance not far away and said disdainfully, "Monica, are you worthy of your father? He was killed by Yu Tian, and you are still helping him?"

"If Dr. Kellogg was still alive, you would have lost all your face. However, I don't want to kill everyone. After all, we are all developers. If you are willing to stand on our side...

"And help us deal with Yu Tian, you can leave this place alive today!"

Monica laughed coldly, "Don't make it sound so nice. I Won't help you lunatics. What you second-generation developers want is too evil. I don't have such a big goal!"

A cold killing intent rose in the eyes of the corruptor.

"Since you're courting death, I'll Grant You Your Wish. Now, I'll let you accompany your father!"

As soon as he finished speaking, dozens of second-generation developers surrounded the few people.

There was also a white-haired old man among them. Monica felt a headache when she saw this person.

This guy was the core member of her father Kellogg, I.

His brain has been developed to 75% , is in addition to Yu Tian, the brain development of the most people..

I Have 108 Older Sisters #Chapter 421 - Read I Have 108 Older Sisters Chapter 421

?Chapter 421 – Chapter 421 Was All Done By I

Thank you readers!

I looked at Monica with a gloomy face and said in a hoarse voice, "Your father will be disappointed to see you do this. He was killed by Yu Tian!"

"You are his daughter. You must avenge him and not join him to make an enemy out of us. You know that you will make all the developers feel embarrassed!"

It was useless to say such nonsense. Monica looked at him with disdain and said coldly, "Since I've already chosen to do this, I won't regret it,

"You can do whatever you want. Don't bring me along. In the past, I wouldn't serve my father. Now, I won't serve you. This is my choice!"

Io saw that he couldn't convince Monica, so he snorted and said, "Do you really think that Yu Tian is invincible? I can tell you clearly now that he is like a stone in my hand,

"He can do whatever I want. I don't even have to worry about what he can do to change everything!"

Monica knew that this guy's IQ was very high. Compared to him, her people were nothing.

The most important thing now was to find a chance to leave this place alive. Even if she couldn't leave alive, she had to let Jura, Maggie, and the others leave.

They were here to help her. She couldn't watch them die here.

Under the premise that her strength was completely inferior to others, the only thing she could do now was to use lowly means to make an exchange.

Thinking of this, Monica said with ease, "You just want me to help you get the second generation development equipment. If you are willing to let Jura and the others leave, I will agree to help you!"

However, Io laughed very viciously and said with a murderous look, "Do you think you still have the strength to negotiate conditions now? When your father was alive?"

"I don't have the right to speak in front of him either. Now it's my turn to make the decision. I didn't expect that this old man's daughter would still want to be the boss in front of me. This is really F * cking ridiculous!"

The Corruptor who was standing at the side also sneered and said, "Monica, you still have the nerve to say that you're a developer. Your father gave you an ability, but it didn't make you smarter!"

The structure of this world had completely changed. It wasn't your father's world, nor was it Yu Tian's world, nor was it the world of those stupid managers. Now, it was up to us to decide...

could it be that you didn't even notice this? You really make me feel that you're so laughable, especially you. Do you really feel that you're so amazing?

To be honest with you, you have no idea that first-generation and second-generation developers, will always be opposites. We Can a€?t let you live. You have your father to blame,

because the two machines he developed, are full of conflict. In the process of brain development, he still can't get rid of his desire to get everything,

a€?Therefore, all the second-generation developers were filled with hatred for this world. This is the reason why PBG was born. You so-called first-generation developers think that everything is beautiful,

a€?It's like this world will never be harmed. However, think about it. During the hunting process of PBG, the first-generation developers died many times more than the second-generation developers,

a€?This is because all of you are a bunch of idiots, including Yu Tian!a€?

He said so much in one breath. Even Yula felt a headache when she heard him. She said coldly, a€?What are you waiting for? ua€ ¢ 'hat are you trying to say?a€?

10 also felt that the corruptor was a little talkative. He seemed to have said all the things that should be said and shouldn't be said. There were some words that should be said by himself. This guy was really an idiot.

Just as the Corruptor wanted to continue displaying himself, io directly interrupted him and said coldly, a€?Could it be that your tongue has also been corroded by your saliva?

a€?Go to the side and rest first. It's not your turn to perform here!

The Corruptor's face turned red. He felt that 10 was really not giving him face. He was really embarrassed to strip off his underpants in front of so many people.

However, he didn't have the strength to contend with him now. Otherwise, he would have killed him with a mouthful of saliva.

He could only stand aside obediently and didn't say anything else.

Everyone also laughed at him. This guy who could corrode people even by kissing them, did he really think that he was the boss?

At this moment, under the escort of a few isolators, 10 walked directly to Monica and the others and said proudly, a€?However, what the Corruptor said is still righta€|

a€?Our existence is destined to become a natural enemy. Yu Tian Can a€?t save you, and he can't even save himself. This mercenary attack was my plan, and I successfully used those idiots from the Agras familia€|

“Even if we can't kill Yu Tian, he won't be able to live. Every single one of these 50,000 mercenaries died here with weapons in their hands. How do you think Yu Tian will be able to explain this to them?”

“I also have the Chu sisters in my hands. This is his weakness. Now, all of Yu

Tian's weaknesses are in my hands. Do you think he still has a chance to win? “The reason why I’m letting you live is that I just want to increase my success rate!”

At this moment, Maggie spat out her bubble gum and said coldly, “I’ve really had enough of your nonsense. If you really want to kill him, then let's see if you have the ability to do so.”

As soon as she finished her words, Maggie suddenly launched a mental attack, trying to confuse the surrounding developers.

Although the probability of success was not very high, at least if she did it herself, she would not regret it. If she could let Monica and the others leave alive, then she would have succeeded.

However, when the isolator detected that Maggie had started to use brainwaves, it immediately activated its isolation skill.

Under the coverage of the skill, Maggie's skill had no chance to attack.

No matter how hard she tried, it was all in vain. The skill could not penetrate the suppression of the isolator.

At this time, Vera, who was standing behind Monica, suddenly looked at the isolators and activated her mind.

Everyone's feet began to tremble violently, and all the stones were floating in the air.

Isolator, 10, and the others were shocked. Isolator was actually useless against her?

At this moment, all the rocks shattered into the size of glass balls, and they shot out like bullets.

Monica knew the power of this skill, and immediately pulled Jura and the others to the ground.

When 10 saw Monica and the others like this, he also had an idea..

?Chapter 422 – Chapter 422, Just To Keep Her Alive

Thank you readers!

Vera's skill was so domineering that even the isolator's isolation skill couldn't restrain her.

Monica knew the power of this skill and lay on the ground one after another. When Io saw this, he also lay on the ground at the same time.

However, most of the second-generation developers didn't have time to react. Their bodies were penetrated by the rocks and they fell into a pool of blood.

At this moment, a burly man with a thick build jumped into the air several meters high. Then, like a missile, he smashed towards Monica and the others.

Monica, who was lying on the ground, hurriedly tried to grab Vera. However, she was still one step too late. Vera, who was activating her skills, did not have time to dodge and was smashed into her body by the man.

The energy generated by the man's fall was like a bomb exploding, sending Monica and the others flying. Vera was directly smashed to death.

Monica looked at her companion, who had died in a pool of blood. She was extremely angry and wanted to purify the man's skills.

However, at this moment, the other second-generation developers also used their skills.

In an instant, the sky was filled with light and shadows.

It was like countless bombs were bombarding the ground.

Jura and the others protected Monica. They could not let her suffer any damage because Monica was the hope of the second-generation developers. As long as she could continue to live, the second-generation developers would never be able to succeed.

However, their strength was limited after all. There were too many developers on

s side. Moreover, all kinds of skills made it impossible for them to put up any defense. They could only retreat as fast as they could.

Io gave an order and said gloomily, "Kill Them All. I don't want to see any of them alive. Let them all die!"

All the second-generation developers chased after her and attacked fiercely. While blocking their attacks, Maggie also fell down.

Monica wanted to pull her back, but was hit by a blinding light and fell to the ground, coughing up blood.

The second-generation developers had surrounded her. Just as they were about to attack, Meng Xiaoyu suddenly appeared beside Monica. She used her invisibility skill to pull Monica up and was about to break out of the encirclement.

Monica suddenly disappeared on the spot. 10 only snorted coldly and said,

c

“Invisibility, do you really think that your invisibility skill can gain any advantage from me?”

As soon as he finished speaking, the isolators around him immediately activated their skills. Meanwhile, a woman among the second-generation developers narrowed her eyes coldly and suddenly pushed her hands away.

Monica and Meng Xiaoyu, who were about to leave, were suddenly entangled by the grass that grew on the ground.

Monica fell to the ground again. Meng Xiaoyu was too busy to take care of herself and could not drag her away.

Although they could not see their figures, the grass on the ground had already exposed their position.

Meanwhile, the one who had been watching the corruptor coldly felt that he had finally seen an opportunity to attack. As long as he could kill Monica now, the battle would be over.

He was like a ghost, walking at the edge of the two of them. When he saw an opportunity, he suddenly launched an attack.

He directly spat out a mouthful of black mucus from his mouth.

That night landed directly between Monica and Meng Xiao Yu, corroding a deep pit in the ground.

Fortunately, the invisibility skill had been activated. They could only roughly know the positions of the two of them, but they did not know how they were dodging.

However, the actions of the corruptor reminded the other developers.

They didn't care where they were, they all used their skills and started to bombard the ground.

Jura, who was injured and lying on the ground, saw this scene and recklessly activated his protective barrier skill.

A second-generation developer snorted and directly sent out a shockwave that hit Jura's body.

Jura was like a kite with a broken string. She flew backwards and died the moment she fell to the ground.

Looking at her companions falling one after another, Monica's heart felt like it was being pricked by Needles.

These people were killed by the developers in order to protect her, but there was nothing she could do now.

Meng Xiaoyu's thigh was also injured and bleeding non-stop. It was not easy for her to break free from the restraints of the bushes. She endured the pain on her leg and pulled Monica up to continue breaking out of the encirclement.

However, there were too many second generation developers who had yet to come up. Even if they were invisible, there was no way they could break out of the encirclement.

10 was very proud and arrogant as he sneered, "Monica, don't persist anymore.

You must die here today. This is your choice, isn't it? Just like your father. Since you have chosen those things, you have to bear it!"

"But I won't let you die so quickly. I want you to feel what it means to die under pressure, just like how your damn father once treated me?"

"This is my hatred for you, so you must die!"

Monica bit her lips tightly and pushed Meng Xiaoyu away. She gnashed her teeth and said, "You don't deserve to die for me. Now you can leave by yourself and leave me here. We Can't all die here!"

Meng Xiaoyu didn't listen to this nonsense. She didn't have that choice. Who asked her to appear on this battlefield? Protecting Monica was what she should do now.

She was the hope of all generations of developers. As long as she was alive, a generation of developers had value. Otherwise, they would be like children who had lost their homes. There was no place for them in this world.

So, he grabbed Monica's hand tightly and shouted as if he was ordering her, "Don't talk nonsense with me anymore. There are already so many people dying for you. If I Can't Save You!"

What's the point of those people dying? What's the value of your existence? Don't you know how important your life is to all generations of developers?

Every generation of developers is living for you, but now you are really going to die. Do you think this is the right thing to do? Don't say anything else. Even if I have to throw my life here, I will let you leave alive, now get up and come with me!

Monica's tears flowed down. were these people really worth it? It was all so that she could live.

10 laughed out loud, "Monica, are you still holding on, or are you already dead? Where is your Yu Tian? where is he? This idol that you believe in, the Yu Tian that you worship like a god,

why isn't he coming to save you? Or maybe he is just around, watching you being killed by me. Accept your fate, Monica, this is your fate!

Before he could finish, a calm voice from behind the crowd rang out..

?Chapter 423 – Chapter 423, The Person Who Had The Final Say

Thank you readers!

The sudden appearance of this man the next day shocked everyone, especially Monica. This man had appeared at a time when she needed him the most. This not only brought her hope to live.

It also caused her heart to develop an extremely good impression of this man. It was the wrong occasion. Otherwise, she would definitely rush into his arms and give him a fierce hug.

It made everyone understand that their decision to follow Yu Tian was the right one, and their choice was also the right one.

This was because Yu Tian was not afraid of danger or death when he needed it the most. This feeling was enough to explain everything.

At this moment, Yu Tian said very indifferently, "Try touching her. I will let all of you experience what it feels like to die!"

Ai ou quickly calmed down from his shock. He sneered and said, "You're Yu Tian. I didn't expect you to be so handsome. However, no matter how handsome an eastern man is, you don't have the temperament to be his master."

"On the contrary, no matter where we are, we are the ones who can be the boss. Everything is up to us. For example, right now"

I don't deny that you have the strength, but even if you have the strength, you have to listen to me now, because the key people in your life are all in my hands, as long as I give the order, those people will immediately die,

when you watch them die in front of you, you will know, who is the most important, so the person who is in charge now is me, you should listen to me,

the first order I gave you was very simple, that is to kill Monica, as long as you kill her, I will choose one of the key people, not to die,

then when you give me the second-generation R & D machine, you can let one person live, and when you finish the other tasks I gave you, you will take them all,

this is the order I gave you. You can only do it unconditionally because I understand very well that the Chu family is especially important to you. Losing one of them is a fatal blow to you, am I right?

Yu Tian only smiled indifferently, not taking his words to heart at all.

He wanted to pretend to be the boss in front of him without asking whether he would agree or not. To put it simply, this kind of person was just pretending.

He laughed and said proudly, "In the past, there were people like you who threatened me. They had more chips in their hands than you, and their methods were even more brilliant than yours,

"But everyone had the same result, which was that they all died in my hands. I Won't waste time with you. If you think that the developers are very powerful, then let me see what you are capable of!

10 laughed and said, "It seems that you are still a wild beast that has not been tamed. In that case, I will become your Beast Tamer. Akar, now you will help me tame this wild beast!"

Let him know what it means to listen to his master!"

As soon as he finished speaking, an extremely valiant man came to Yu Tian like a wall.

Yu Tian raised his head and looked at his height. This guy was at least two meters tall, and his weight could reach 400 kilograms.

Akar said in a muffled voice, "I know what your skill is, but it's useless in my eyes. Let's have a real clean battle. Don't let me see your strength!

Let's not talk about a real clean battle first. Yu Tian felt that this guy should be a strength-type developer.

Strength-type was usually divided into attack and defense. Looking at this guy's figure, his defense must be exceptionally high.

If he used a developer's skill to deal with him, it should be useless.

Fortunately, he not only had a developer's skill, but also a nameless technique.

After having an idea in his mind, Yu Tian chuckled and said disdainfully, "Sure, but I like being straightforward the most. I don't want to waste too much time on you,

"So, I'll let you die within a week. But with my status, it's not easy for me to make a move. How about we play a bet?"

Ai ou raised his eyebrows and laughed, "Normally, you don't even have the right to carry my shoes. But today, I'm in a good mood. The feeling of being in control is really good."

"No wonder Dr. Kellogg wants to be the ruler of the world. Now, this dream can only be realized by me. So, I'm giving you a chance to gamble. Tell me, what do you want to bet?"

"If I can defeat him in one move, you have to let Manica and the others leave!" Yu Tian said indifferently.

10 didn't think that Yu Tian could kill Akkar in one move.

Because Akar was his most capable subordinate, his skill was an extremely terrifying explosive power. The explosive power he released in an instant could blow down a building.

Looking at Yu Tian's weak body and his skill that could make objects bigger and smaller, it wasn't even worth mentioning in front of Akar. This kind of confidence could only make him lose faster and more thoroughly.

Therefore.., io said arrogantly, "Yes, your request is not too much. After all, you are here for Monica. If you can make akal kneel in front of you within a week, I will let Monica leave alive."

"But if you lose, you have to kill Monica immediately. Only then will the bet be fair. Am I right?"

Yu Tian nodded and said proudly, "Of course you're right. Otherwise, how can it be called a bet? Only a fair bet is called a bet. Then we don't need to waste time. Let's Start Now!

Everyone immediately stood on both sides. Meng Xiaoyu said to Yu Tian worriedly, "You can really kill that big guy with one move. Look at that bastard's weight. It's like a wall!"

"If you don't have absolute strength, it's really impossible for you to defeat him!"

Monica nodded and said without hesitation, "I believe in Yu Tian's strength. He will definitely be able to kill that Akal. Not just Akal, he will kill every single bastard here!"

Yu Tian frowned and said with a bitter face, "There are some people who can't be killed yet. Otherwise, my women will also be killed. Then this fight will be meaningless!"

"I will naturally kill those who can be killed. Those who can't be killed, I will let them live for another two days. You don't have to be anxious. Let them die!"

On the other side, he also ordered Akkar, long as you can block one of his moves, we will win.. Don't be provoked by him!"

?Chapter 424 – Chapter 424, One Move Is Fine

Thank you readers!

Akar nodded his head in a sullen manner and looked at Yu Tian from the corner of his eyes, he snorted coldly and said, "He wants to defeat me in one move. This is clearly a show of contempt for me. I must teach him a good lesson today and let him know how powerful I am,

"He also wants to kill me in one move. I'll let him see how I can kill him in one move!"

At this time, Yu Tian had already arrived at the center of the arena. He hooked his finger at Akar and said impatiently, "Alright, don't waste your time there. Look at the two of you being so sticky, as if you're gay!"

"Hurry up and come in front of me to Die!"

Akar slowly came in front of Yu Tian and said with disdain, "If you can't kill me in one move, I'll kill you in one move. Today, only one of us can leave this place standing!"

"Don't show mercy to me. I won't be merciful to you either. This is a life and death battle. Those who lose will die!"

Yu Tian didn't want to talk nonsense with him at all. What he liked the most was an instant kill.

From the moment he learned the nameless technique, who in this world could be his opponent?

That technique existed to make him a strong person. Why didn't he use it?

Thinking of this, Yu Tian nodded slightly and said expressionlessly, "Are you ready? Let's cut the crap. Aren't you a defensive type of skill?"

"Now, you better prepare your defense and let me attack you. As long as you can take this punch of mine, then you win!"

Looking at Akar's big head swinging back and forth, one could tell that this guy's IQ was quite worrying. Even if he was a developer with a developed brain, there was a sense of stupidity in his bones.

As expected, Big Er did not disappoint Yu Tian. He even boasted shamelessly, "I didn't expect you to really be able to see through my skills. This is a little interesting!"

"Alright, if you want to try my defense, then you can start now. I'll stand still and let you hit me. Also, don't hit me once. I can let you hit me ten times in a row. If I can move my feet even a little..,

"I'll count it as your win. What do you think?"

This pretense made him want to give Yu Tian a few slaps.

Since he was ready, Yu Tian didn't say anything else and directly pushed the power of the nameless technique onto his arms.

His body was like a bomb. He rushed to the front of Akar as fast as lightning. Even the air was rustling.

Akar directly used his mind to activate his skill, making his body as hard as a rock.

10 also had a contemptuous smile on his face. Akar didn't even need to put Yu Tian in his eyes. He had once used Akar's body as an experiment.

His body was strong enough to withstand the bombardment of missiles. Even if he was tied to his body with all kinds of powerful explosives, they couldn't hurt him at all.

How hard could s fist be? Could he break Akar's body? This was simply a joke. It was simply a fantasy.

However, when Yu Tian's fist landed on Akar's body, the power that exploded in that instant first broke Akar's skin, followed by the muscles under the skin, and finally, the bones. Crack! Crack.

When all the power converged on Ahkar's heart, it exploded even more violently.

Ahkar's body that weighed hundreds of kilograms was like a kite with a broken string. He was sent flying and died the moment he landed. The entire stadium was dead silent. Everyone was stunned.

10%; mind buzzed.

What kind of move did Yu Tian use? Where did his strength come from? Didn't he say that he would use a skill to attack? Why didn't he use that skill that could make things bigger and smaller at any time?

A body that couldn't even be destroyed by missiles and explosives had actually become so fragile under his fist. If that was the case, wasn't it equivalent to Yu Tian's fist?

It was even more violent than a missile than a bomb. was there an invincible strength in his strength?

At this moment, on Monica's side, Tiffany was so happy that she jumped up, she shouted loudly, "Yu Tian, you fought so well. I love you to death. If you are willing, you can kill all those bastards on the opposite side!"

Yu Tian, however, shook his fist proudly and said indifferently, "Now that I have won, can you let Monica and the others leave?"

10 narrowed his eyes fiercely and said with trembling lips, "Of course, I am a person who can keep my word. Since you have won our bet, then they can leave now."

"But for the sake of fairness, I want to have another bet with you. This time, I'll let another person fight with you. You're a wild beast that makes me more and more excited. I Must Be Your Beast Tamer!"

Yu Tian spread his hands and said indifferently, "I especially like betting because it will let me win more. Tell me, what do you want to bet this time?"

"If I win this time, hand over the brain development device. I know it's with you. And if you win, I can let Chu Qing leave the abandoned airport. What do you think?"

He had no choice to begin with, so what could he do about it?

Yu Tian said indifferently, "Of course there's no problem. In my opinion, this is very fair. Moreover, it can also reflect the value of my sissy. A person can exchange for a priceless machine. This is very good..

In that case, let's cut the crap and let this opponent come up immediately. I still say that I will kill him with one move. Otherwise, I will lose!"

10 turned to a flirtatious red-haired woman behind him and ordered in a gloomy voice, "It's your turn now. Don't underestimate your opponent like Akar. Yu Tian is not a simple character"

"He's extremely powerful, but your skills can restrain him. Go Now!"

The red-haired woman nodded. A seductive smile hung on her sexy face. She slowly twisted her body and came before Yu Tian, she said sweetly, "You're really handsome and very sexy. Do we have to use this method to resolve the conflict?

"If it's possible, I really want to go somewhere romantic with you and do something more exciting. But now, we have to do it this way."

"But I won't kill you, 10. Can we add another one to the bet? If he loses, can I have him accompany me for the night?"

10 smiled disdainfully and said, "Of course you can. He can serve you however you want as long as you can beat him!"

Yu Tian didn't know whether to laugh or cry. This woman was good in all aspects.. Why did she like to act like a hooligan?

?Chapter 425 – Chapter 425, Subtlety

Thank you readers!

It was fine for this woman to act like a hooligan, but Yu Tian had to first understand what kind of skills this woman had. Only by knowing yourself and your enemy would you be undefeatable.

Because he had already said his big words. If he wanted to finish this woman off in one move, he couldn't possibly pin her to the ground and finish her off, right?

Yu Tian realized that when this red-haired woman walked towards him, the grass on the ground didn't even move. It was very likely that her body had a certain degree of penetrability.

In other words, if he had used his strength on her, it would have been useless. It was very likely that he would have passed through her directly.

If he could not kill her in one move, then he would have lost.

He had to catch her off guard before he could finish her off.

When he thought of this, Yu Tian chuckled and teased, "Actually, I have never hit a woman, so I won't kill you. I'll just let you feel the pain. Every woman has to feel the pain, right?"

Or maybe you've already felt the pain before, but today, I "ll let you feel the pain again. That will definitely feel great!"

Not only did the red-haired woman not feel shy, but she also felt very excited. She smiled like a flower and said, "Alright, then let me feel great once. How about this time, just like the last time, you'll be the one to launch the attack,

"After all, I "m a woman. I "ll never take the initiative to hit others. That's not what a lady should do!"

Her words were really F * cking arrogant. She was still a lady. If she was a lady, then he would be a standard gentleman.

Without wasting any more time, Yu Tian did not want to waste any more time. Just as he was about to attack, he quietly held a golden needle in his hand and threw a punch.

His guess was right. The red-haired woman's body indeed did not have any physical existence. Just like a ghost, Yu Qian "s fist directly passed through her body.

When Tiffany saw this scene, she said in surprise, "What the F * Ck is this? Is this bitch a human or a Ghost?"

Yu Tian also withdrew his fist and said in surprise, "I thought I could have something else with the two of you, but your body doesn't have any ability to bear weight. What can you feel?"

The red-haired woman chuckled and said, "This is just a skill. If I really wanted to do something else, I wouldn't have used a skill. But now that you've lost, I can only say sorry to you!"

Behind her, 10 laughed even more arrogantly.

"Yu Tian, this time you really lost. This is what you said yourself. If you can't beat her in one move, then you've lost. Now that you've used one move, she's still standing here unharmed!"

"This means that you've lost. If you're willing to bet, then you must admit your loss. Now, you have to give me that machine. If you want to continue playing, I will give you this chance. You can continue playing with her!"

"But I am still kind enough to remind you that it's best not to continue playing. No one in this world can hurt her. Her body can be penetrated by anything, so it's impossible for her to suffer any harm."

You should be convinced this time, right? Damn it, I actually wasted so much time playing games with you. Now, hurry up and hand over the machine to me!"

The second-generation developers also started discussing among themselves.

"Nicole's skills are the strangest among all the skills we have here. She can make her body completely transparent, and nothing can stay in her body!"

"I wasn't convinced and wanted to look down on her, but when I saw her skills, I immediately gave up on that idea!"

"Your decision was completely correct. If you fight with her and she doesn't make a move, you'll die of exhaustion First!"

Yu Tian listened to them with an indifferent expression and laughed, "How did you know that I lost?"

"What?"

Nicole, 10, and the others looked at him in shock. This punch had clearly penetrated their bodies. How could they not lose?

Yu Tian smiled proudly, "Although my fist passed through your body and did not cause any damage to you, I left something in your body, it is a needle, a golden needle that can instantly kill you!"

"What did you say?"

When Nicole was shocked, she wanted to activate her skill again. However, at this moment, her body could not be controlled at all. An intense pain spread from the soles of her feet to her forehead.

Her body could not stand at all and she fell to the ground. She looked at Yu Tian in horror and asked, "What did you do to me?"

Yu Tian said impatiently, "I won't say it again. Just tell me, did you lose?" Although Nicole was unwilling, she was clearly lying at Yu Tian's feet now. She had indeed lost,

she could only nod and say, "Yes, I've lost. Now, take out that golden needle immediately. Can you consider it as I'm begging you?"

However, Yu Tian smiled and shook his head, he refused, "Not yet, because you're still my enemy. As long as you're my enemy, I don't care whether you're male or female. Although I won't take your life, I still want to ponder over you for now,

"After all, that 10 over there is still alive. You can wait for now. But don't worry, you won't die even if you want to. You can only continue to be in pain!"

Nicole was so scared that tears were coming out of her eyes, and 10 was even more stunned.

This Yu Tian's IQ was not inferior to hers at all. He could see a person's weakness from some very subtle aspects. Compared to him, there was no possibility of him winning at all.

Moreover, the developers he brought today were all a bunch of useless cowards. Every single one of them was defeated by Yu Tian in one move. Other than these two people, who else could be Yu Tian's opponent?

Could it be that I have to fight Yu Tian personally? However, he did not know any offensive skills. He did not even have any defensive skills. He could only try to convince Yu Tian.

But now that he had lost again, he had to keep his word.

Therefore, he immediately ordered the other developers, "Give them a call and ask Chu Qing to leave, but no one else can leave!"

The developers immediately did as he was told. Yu Tian was still very happy in his heart. Right now, he had to save as many people as he could. The others could decide later.

Moreover, he still had to find an opportunity to get rid of all these developers. Otherwise, wasting time here would only make Chu Qing and the others more passive.

Yu Tian chuckled and said, "Don't feel so bad. Don't you still have a lot of chips in your hands? As long as you have chips, our group can continue.. Let's continue to play!"

?Chapter 426 – : Chapter 426, Female Assassin

Thank you readers!

Io, who had been repeatedly slapped in the face, was also rapidly calculating in his mind. If he continued to play with Yu Tian, he would not be able to gain any advantage, and he might lose all the remaining chips.

It was time to play something else with him, but this time, he still had to make the decision himself.

Thinking of this, IO said shamelessly, "You only won two rounds, and now you want to be the one making the decision. You seem to think too highly of yourself."

"I'm the one who set the rules. I'll play with this theme as I say, and you can only do as I say. But now I don't want to continue playing, and I don't want to waste my time on you."

"But since you won two rounds, I don't want you to think that I'm bullying you. I'll give you ten minutes to think about it. First, you have to hand over the machine, and second, I need 100 billion."

Then, you have to help me complete a few more missions. Only then will I be able to let Chu Qing and the others leave alive. Otherwise, you can forget about them even in your dreams,

and I know what you're thinking right now. You just really want to take the lives of every single one of us here. Actually, I'm already very indifferent to life and death just by standing here today.

If I succeed, I'll become the strongest person in this world. But if I fail, I won't have any regrets. At least, I will do it. Compared to this,

fear is nothing. Even developers will die in the end. Because there is no so-called strong person in this world. I am not, you're not, no one is,

"I won't waste your time anymore. You can think about it yourself. When the time comes, I hope you can give me a satisfactory answer. I won't leave this place. I will be waiting for your final answer!"

Speaking up to this point, IO led the developers back to the lounge.

At this moment, the lounge was exceptionally quiet. Those who had been kidnapped by the mercenaries had already left safely.

However, such a quiet room made IO feel very comfortable. He himself needed a quiet space to think about how he could kill Yu Tian while obtaining benefits.

After all, he was using the excuse of revenge to attack Yu Tian. This excuse could get the support of all the second-generation developers. Even if he used them, this show would have to be better.

Outside, Yu Tian first carefully calculated the time. It was impossible for him to reach the abandoned airport within 10 minutes.

Even if he could reach the airport, it was impossible for him to successfully rescue the hostages without any tactical preparations. That was simply impossible.

Therefore, they still had to think of other ways. Moreover, it was impossible for them to leave this place now. If they provoked the animals inside, they would lose their lives.

They still had to think of an idea to see how they could get the best of both worlds.

At the same time, Yi Xueyue and her ten disciples had already sneaked into the abandoned airport.

They had gotten the news from Chu Qing. After Yu Tian won the bet, Chu Qing was chased out of the airport by the developers.

Chu Qing was very worried about Yu Tian, so she called Yu Tian, but Yu Tian's call could not be connected.

Thus, Chu Qing called Yu Qi'er. When she found out that they were all in the abandoned airport, Yu Qi'er immediately told Yi Xueyue the news.

Yi Xue Yue's last batch of mercenaries had just arrived near the abandoned airport, so it was time for them to make their appearance.

These people didn't make any sound on the ground and slowly approached the hangar like ghosts.

Yi Xue Yue hid outside the door first, so the others hid behind the cover.

Then, she picked up a stone and threw it on the door.

A developer who was wandering around the door suddenly turned around when he heard the sound. He frowned and looked outside carefully, but he did not see anyone.

He was very confused. Where did that sound come from?

He walked out of the door when he thought of this. The moment he walked out of the door, Yi Xueyue's dagger flashed with a cold light and accurately stimulated his throat.

Before he could make a sound, Yi Xueyue covered his mouth and held the dagger horizontally. The developer struggled for a while and stopped moving.

Yi Xueyue dragged it into a pile of waste paper boxes and hid it well. Then, she picked up another stone and threw it into the door.

This time, two developers heard the sound and walked toward the door in confusion.

Yi Xueyue exchanged glances with Si Si, who was opposite her. They were all ready to attack.

The moment the two developers walked out of the door, two people brandished their knives at the same time and directly cut off their necks.

Yi Xueyue skillfully shook off the blood stains on the blade. She was very sexy and inserted the dagger into the scabbard on her thigh.

The two developers on the ground who were not completely dead felt that their lives were worth it when they saw these two sexy female assassins.

At this moment, Aini had already jumped into the hangar through the other windows.

Although she had already discovered Chu Hui and the others, she had also discovered dozens of developers wandering around.

Yi Xueyue had also seen this scene. If they attacked rashly, it was very likely that they would not achieve the expected effect.

The best method was to attack in a scattered manner. This was also the characteristic of their dark sect's attacks.

They did not fight head-on. As long as there was a chance, they would kill them directly and use all kinds of tactics to make their assassination more successful.

Yi Xueyue gave everyone a look. Then, she took out her dagger and used the reflected light method to shake Chu Hui's eyes.

When Chu Hui saw them, she was shocked at first because she did not know whether they were friends or enemies. Especially their attire, it felt very mysterious.

But thinking about it carefully, if they were enemies, she would not use that mirror to shake herself.

At this moment, Yi Xueyue made a hand gesture to Chu Hui, asking her to think of a way to divert the attention of the developers to another place.

Chu Hui immediately understood what she meant. She stood up and said to the developers beside her, "I want to go to the bathroom. You Can't not let me go to the bathroom, right?"

The developers looked at them impatiently. Without thinking too much, the two developers gestured for Chu Hui to follow them outside.

At this moment, Yi Xueyue had also disappeared behind the bunker.

Chu Hui and the developers had just walked out of the door when Yi Xueyue and Sisi, as well as their skillful and fast speed, let the two developers die under their daggers.

Yi Xueyue cut off Chu Hui's rope and said in a low voice, "My name is Yi Xueyue. Yu Tian asked us to come here. Now, we need to think of a way to save the others.. We need your help!"

?Chapter 427 – Chapter 427, A Magical Skill

Thank you readers!

Although Chu Hui had never seen Yi Xueyue before, she had a sincere look on her face. Moreover, her skills were particularly good. She was very straightforward when it came to killing second-generation developers.

Thus, the few of them got down on one knee and began to discuss in low voices.

Chu Hui looked around and said, "There are still twelve second-generation developers in the room. I'll take the initiative to appear later and let them chase after us. You guys go and save them first. Don't worry about anything else!"

Yi Xue Yue did not hesitate and nodded in agreement.

After the few of them finished discussing, Chu Hui stood at the entrance of the hangar and shouted, "Listen Up! I'll kill each and every one of you!"

As soon as she finished speaking, Chu Hui turned around and ran.

The developers were first shocked, then angry. They left two of them to watch the hostages while the others chased after them.

These two developers were showing off in front of everyone. One of them even said loudly, "Don't play any tricks on me. My skill specializes in taking off people's clothes. If you don't want to be stripped naked, don't move!"

As soon as he said that, the sound of metal colliding suddenly appeared in the surroundings.

At this moment, the sound sounded particularly empty. It was like a ghost's howl that suddenly sounded in the dark night.

The two developers suddenly turned around and looked around, but the sound suddenly disappeared.

One of the developers shouted at the pile of boxes in front of him, "Who's there? Get Out!"

Si Si slowly stood up. Her cold eyes were filled with killing intent.

One of the developers clenched his fists tightly. Before he could determine what this masked woman wanted to do, he was going to make a move.

However, at this moment, two cold lights suddenly flew out from both sides of the developer and pierced through their necks.

The two developers covered their necks at the same time, but they couldn't stop the flowing blood. In the end, they fell into a pool of blood.

Meanwhile, Chu Hui, who was running outside, was still surrounded by the developers.

One of the slanted-eyed men said fiercely, "I thought you could run very fast.

Now I'm giving you two choices. Either you go back or you die here!"

Chu Hui smiled indifferently and said coldly, "I don't choose either. I just want to kill all of you here!"

The ten developers laughed. The leader of the team with slanted eyes said with disdain, "Chu Hui, do you think I don't know that your skill is controlling objects?

"This isn't an offensive skill at all. It's only suitable for serving dishes and changing diapers while eating. Any one of us here can easily kill you!"

No matter how much they ridiculed her, Chu Hui's expression remained calm. However, all of a sudden, a cold killing intent appeared in her eyes.

Everyone saw her suddenly raise her hand. Before they could react, a violent force lifted their bodies and shot them into the sky like a cannonball.

Chu Hui then sent out a second thought. The slanted-eyed man and the others were getting farther and farther away from the ground.

Another developer shouted, "Are they sending us into space?"

But at this moment, everyone's feet suddenly went soft and they fell to the ground again.

Chu Hui, who was on the ground, put away her skills and turned to walk toward the hangar. The second-generation developers fell behind her like it was raining, and their internal organs fell out.

Yu Tian, who was on the golf course, was thinking of a countermeasure when his phone suddenly rang. It was Chu Hui.

He hurriedly picked up the call. Chu Hui said a few words, and Yu Tian's heart was bursting with joy. This time, he wanted to see that damn io. How could he still pretend?

Yu Tian did not dawdle and swaggered to the lounge. 10 sneered and said, "I thought you would leave on your own, regardless of whether those women were dead or alive. At least you still have some courage!"

However, this courage could not help you much. Now, I want to know your decision. Are you going to agree to my request or not?"

Hearing him dawdle so much, Yu Tian impatiently touched his forehead and said indifferently, "Yes, why not? But I also have a condition. Do you want to hear it?"

Ai ou laughed and stood up. "I suddenly realized that you are really an interesting person. Do you think you still have the bargaining chip to negotiate with Me Now?"

"But since I'm in a good mood, I'll give you a chance. Tell me, what are your conditions?"

Yu Tian chuckled and walked up to Ai ou. The developers wanted to stop him from approaching, but Yu Tian gave them a cold and arrogant look. The developers all obediently retreated to the side.

Ai ou said unscrupulously, "Everyone, don't worry. This Mr. Yu in your eyes has no choice but to listen to me now. If he dares to do anything, he will lose something even more precious than life!"

Yu Tian calmly stared at Ai ou's empty eyes and slowly said, "You are right. Life is indeed precious, but it is mine, not yours. And my condition is to take your life!"

As soon as he finished speaking, Yu Tian's eyes suddenly exploded with killing intent. At this moment, Ai ou suddenly felt that his decision to let Yu Tian get close to him was really hasty.

However, all of this was useless. Yu Tian's big hand had already grabbed his neck.

Before the other developers could make a move, Yu Tian snorted coldly and said, "Whoever dares to come, I'll let him die!"

The developers all stopped in their tracks. The terrified Ai ou panted heavily and said, "Yu Tian, are you crazy? Do you want to give up on them? Can you bear the loss of losing them?"

Yu Tian then took out his phone and connected to Chu Hui's video. He then showed the phone to 10.

When 10 saw Chu Hui and the others leaving the airport, his eyes instantly went wide.

"How is this possible? How is this possible?"

10 couldn't believe it at all. The developer he was most proud of was actually killed. Who Did This?

Was It Chu Hui? She did not have this ability? Was It Luo Ya? At such a close distance, her skills were useless.

"Who did this? Who Did This?" Who repeated his shock

However, Yu Tian stuck close to his ear and mocked, "You should go ask those developers who were killed, or they can tell you how they died !

At this point, Yu Tian casually waved his hand, and ten golden needles pierced into the developer's body unexpectedly.

Looking at his subordinates falling one after another, 10 was completely in despair.

Although he was also a developer, he didn't have any skills, except for that so -called intelligence. But now, this kind of intelligence had no value in front of Yu Tian.

Yu Tian then threw him to the ground and said coldly, "Look at yourself. For your selfish pursuit, how many people died? Don't you feel any pain at all?"

10 laughed..

?Chapter 428 – Chapter 428 Was Even Faster Than A Computer

Thank you readers!

Ai ou now understood that if Yu Tian wanted to kill him, he wouldn't be able to resist at all.

Instead of letting Yu Tian laugh at his weakness, it was better to let him know that he wasn't afraid of death.

He laughed maniacally and said, "Don't talk nonsense with me. If you want to kill me, just do it. I Won't even Blink!"

If he didn't satisfy such a pretentious request, wouldn't it show that he had no character?

Yu Tian didn't want to waste his breath. He raised his hand and wanted to kill him.

But at this moment, a familiar voice sounded behind him.

"This person is very important to PBG. Mr. Yu, you can't kill him!"

Yu Tian knew who it was from the voice. It was Joseph from PBG.

Why did this guy come to the eastern country?

He slowly turned around and looked at Joseph indifferently. "Your legs are really long. You can actually come from a super country. Although you came from afar, I can't hand over to you,

this person is also very important to me!"

Joseph knew that Yu Tian would say this.

He sneered and said, "Mr. Yu Tianj you also know that I have been chasing this guy from a very far place to the eastern country. You Can't let me go back empty-handed. If that happens, I won't have any face!"

"Your face is worthless to me. Even my underpants are more expensive than your face. I Can't give you the people. Don't even think about it!" Yu Tian directly refused.

However, not only was Joseph not angry, but he also found Yu Tian's words very interesting. This guy actually smiled.

However, the smile soon disappeared and was replaced by a cold, proud, and unscrupulous voice, "Back then, when you deleted Tiffany, Meng Xiaoyu, Monica, and the others"

"From the information you gave me, I knew that they were very important to you. So, now that they are in my hands, why don't we make a deal and use them to exchange for 10?"

As they spoke, a dozen black-shirted PBG men pushed Monica and the others in.

Yu Tian saw that their expressions were extremely painful, and his face was pale. It must have been caused by the Brainwave Jammer.

PBG didn't have anything else. Brainwave Jammers were everywhere. There were even a few in his pants. He could take them out at any time to fight with the developers.

Yu Tian was helpless about this. He didn't know whether to laugh or cry.

“Joseph, you shouldn't have come to the eastern country. I'm thinking now. How are you going to go back?”

However, Joseph didn't care about this. He said arrogantly, “You're still the same. Your temper is as tough as a gorilla's butt. But if only your aircraft carrier fleet could be as tough as you”

The God of Heaven aircraft carrier fleet was said to be protecting the cargo ships of the Chu family. In fact, they were your private fleet. Moreover, with the support of Chu Yan's industry, that fleet had become the most powerful aircraft carrier fleet in the world,

even the fleets of our country had to take a detour when they saw the God of heaven. The intelligence we collected also said that there were about five thousand people in the entire aircraft carrier fleet. I think the entire world can afford to support an aircraft carrier fleet

“Besides you, Yu Tian, there is no one else. Think about it. What if your aircraft carrier fleet threatens the interests of some people and then sinks the entire fleet?”

Yu Tian blinked his eyes and laughed, “Then go sink it. There's no need to save face for me. In any case, whoever attacks my aircraft carrier fleet is equivalent to going against the entire Chu family,

“And my aircraft carrier fleet will not be waiting for you guys to fight. When the time comes, who will suffer the most losses?”

The smile on Joseph's face finally disappeared. Indeed, there was nothing that could restrain Yu Tian.

To him, the tens of billions of aircraft carrier fleet was actually so easy.

Thinking of this, Joseph had his subordinates retreat with a sad face. There was no need to care about Tiffany and the others. Since Yu Tian was here, they could only use the brainwave jammer to pretend.

Then, he pleaded, "Mr. Yu Tian, is it fun for you to play like this? To You, 10 is just a life. But to us, he can kill all of Kellogg's higher-ups,

isn't that what you want? Why do you have to make things difficult for PBG? Give him to me. There's no loss for you. We'll kill him too. Can you count it as me begging you?"

At this point, Joseph sat down on the chair and said slowly, "To be honest, I'm sick of doing things at PBG. I want to leave that damn place at all times,

"But as long as the developers exist, my idea can't be realized. It's the same for you, isn't it? The second-generation developers all want to avenge Kellogg like crazy,

"Why don't we use those arrogant guys from PBG to help you eliminate them?"

This sounded reasonable, but Yu Tian didn't believe him.

With his current 10, his brain was spinning faster than a computer. He was no longer at the level where emotions could control him.

PBG definitely didn't want 10 so simply to kill the developers. There must be another conspiracy behind this.

Why not give 10 to him first and see what they really wanted to do? It would not be too late to kill him then.

Thinking of this, Yu Tian pretended to be very touched and said, "If you had said so earlier, would I have wasted my time with you? I can give 10 to you, but don't you dare to have any ideas about my aircraft carrier fleet. Otherwise, I will work together with PBG!"

Joseph stood up excitedly and said, "Then I thank you. I will return this favor to you!"

Looking at their backs leaving, Tiffany asked in puzzlement, "Why did you give 10 to him? PBG's people are the most trustworthy people in this world. They are so anxious that they even fooled themselves!"

Yu Tian smiled indifferently and said, "But he can't fool me. Soon I will know what they are going to do!"

Monica looked at the mercenaries outside the window and asked, "What about these people?"

Yu Tian didn't think about this at all. He casually said, "Chu Qing will take care of it. Now hurry back to the R & D Center. I'll go back and check on those poor women!"

He left without even turning his head. Tiffany spread her hands and said disdainfully, "As if we women don't need to be comforted!"

Chu Qing and the others had been through a lot. Apart from being a little tired, Yu Tian saw that they were all very normal.

In the meeting room of the Tianhai Group, Chu Xin took a sip of coffee and said indifferently, "Actually, we're not worried at all. You Won't let anything happen to us!"

Yu Tian only squeezed out a smile, thinking that he was still unable to make any decisions at that time. Fortunately, he had the help of Yi Xueyue and the others.

Thinking of this, Yu Tian stood up and said, "You guys rest first.. I will go check on Yi Xueyue and the others!"

?Chapter 429 – Chapter 429, The Only Circuit Board

Thank you readers!

At this time, Yi Xueyue had returned to being the manager of the nightclub. She took off her killer's clothes and changed into a sexy outfit. In the nightclub, she handled every customer who came to get drunk with ease.

Yu Tianyi was under the neon flashing door frame. The changing lights seemed to outline all kinds of colors on his face.

When Yi Xueyue ignored him and passed by, Yu Tian violently pulled her in front of him and looked at her with a smile.

Yi Xueyue was most afraid of seeing Yu Tian's deep and manly smile. She said in a hoarse voice, "What are you doing?"

The Joy in her eyes did not seem to be a question, but tacit approval, but encouragement.

Yu Tian used a passionate kiss filled with energy to express his thoughts.

It seemed that this passionate kiss was supposed to appear at this moment. Yi Xueyue did not want to struggle. Instead, she inserted her fingers into his hair to caress the romance and anticipation that she had long had in her heart.

While the two of them were immersed in the passionate kiss, Yu Qi'er happened to pass by and was stunned by this scene.

If the Sisters of the Chu family saw this, Yi Xueyue would probably disappear.

She immediately pounded on the door.

Yi Xueyue suddenly woke up from her indulgence. Her face was like a stamen of roses. She rushed into the bathroom and looked at herself in the mirror. It took her a long time to calm down.

In the office, Yu Qi'er growled worriedly, "Are you crazy? If sister Qing and the others see this, will sister Xueyue still be alive? It's not that you can't kiss, but can you please not be so ostentatious?"

Yu Tian fiddled with the phone as he said indifferently, "Don't worry about this. I'm just kissing her. I didn't even bring the bed here. What's so great about it?"

"Don't tell me about sister Qing's this and that in the future. I don't want to hear it. Go back to what you were supposed to do!"

Yu Qi'er noticed that Yu Tian's expression was very bad, and she was even more puzzled. Did I say something wrong? Did I make him have such a big reaction?

She was so angry that she stomped her foot and slammed the door before leaving.

At that moment, in the dim cabin of a cargo ship heading to Super Nation, Joseph, whose head was covered in sweat, slammed the Brainwave Jammer on the table and looked coldly at IO, who was tied to a chair.

"We have already wasted too much time, and I am even more fed up with this extremely smelly place!"

He grabbed IO's collar and said coldly, "K NOW, I want you to hand over the third-generation device to me. Otherwise, during the few days we're heading to the superpower...",

"You'll be tortured by the Brainwave Jammer, and in the end, you'll still have to fall into the sea and watch those hungry sharks surround you, bite you, turn into shit, and be pulled out of their butts...",

"Then you'll be eaten by other fish, and then you'll be pulled out, and then you'll be turned into a particle in the ocean!"

IO raised his head in pain and looked at Joseph with disdain as if he was looking at a clown.

"Don't even think about it. The third-generation developers have already been created. Soon, a large number of third-generation developers will appear. At that time, you and Yu Tian will both die!"

As if this wish had been fulfilled, 10 laughed wildly and said arrogantly, "Joseph, when did you become Yu Tian's dog?"

Even so, PBG and Yu Tian would soon be trampled to death under the feet of the third-generation developers!

Joseph was burning with anger. If he did not want to get information from him, he would have killed him right now.

He raised his fist and smashed Joseph to the ground. Then, he lifted the chair and smashed it on 10.

If it wasn't for other people stopping him, Joseph felt that he could really lose control and kill him.

10, whose face was covered in blood, was still laughing disdainfully. "Joseph, the killer of PBG, is this all you can do? I thought you could make me feel better!"

Joseph pushed his subordinate aside to show that he was very calm now. He asked someone to help 10 up and said coldly, "We have one thing in common, and that is that we both want Yu Tian to die,

"Our Brainwave Jammer has no effect on Yu Tian. If you can provide me with a third-generation prototype, I will let you leave alive. You can consider this a

deal !

10 narrowed his eyes. Without the damage of the Brainwave Jammer, his brain began to spin faster.

This was an opportunity. If he used it well, he could use the PBG's hands to kill

Yu Tian.

Then, 10 pretended to be impatient and said in a deep voice, "I doubt your ability. Can you bear the secret?"

"You don't even have the authority to make certain decisions. How can you make me trade with you?"

Joseph saw that this guy seemed to be tempted and said while it was still hot, "You should know that PBG let me come to the eastern country. Moreover, I was able to bring you out of Yu Tian's hands alive. This means that I have the capital."

“And do you still have a choice now?” “Actually, I don't have a choice either, just like you. There are more and more developers gathered around Yu Tian and Monica. If the climate is formed, you won't feel good either!”

IO had already thought of this, but he still pretended to think for a while and then slowly said, “Although the third-generation development equipment has been manufactured, it can't be used.”

The third-generation development instrument needed an extremely powerful power supply. When the nuclear power plant was half-built, the Chu family cut off the funding. Kellogg could only make changes to the third-generation instrument!

Joseph narrowed his eyes coldly. It turned out that the information provided by Max was true. The third-generation instrument had indeed been made.

IO said, “Kellogg's design is to continue to use the power supply equipment of the second-generation instrument, which is the super circuit board. The only circuit board in the world is in Yu Tian's hands.”

When he was on the island, he only saw the second-generation equipment. He would never have dreamed that the third-generation equipment was next door to the second-generation equipment. However, he took the second-generation equipment and went after Kellogg without hesitation,

“Now, as long as you can get the second-generation equipment, I can provide you with the third-generation Brainwave Jammer!”

When Joseph heard this, he said, “Then where is the third-generation equipment?”

“It's in a place where no one in the world can see it. Don't ask anymore. I

Won't tell you unless you can get the second-generation instrument!”

Since that was the case, Joseph had nothing more to say. He pressed the Brainwave Jammer unexpectedly.

While IO was struggling in pain, he stood up and said coldly, “This is my thanks to you!”

At this time, Yu Tian had already arrived at Galaxy Technology. After this attack, the people in the company were very depressed. Even the sound of talking could hardly be heard.

When he walked into the office, Du Tianci, who was wrapped in gauze, angrily pushed the door open and entered..

Chapter 430 – Chapter 430, He Wanted The Core Technology

Thank you readers!

Du Tianci's furious expression was as if Yu Tian had kicked his father's pants into pieces. He roared, "I've always thought of you as the best boss I've ever met, but at that time, you—"

"Seeing that idiot wanting to make a move, but you didn't do anything, could it be that my life is in your hands and not worth a single cent?"

Yu Tian was a little confused. Did this guy take the wrong medicine?

He asked indifferently, "How do you know what I didn't want to do at that time? Now I don't want to waste time with you. Get Out!"

Du Tianci could not suppress his excitement and said angrily, "What you want to do is all for yourself. You never put us in your eyes,

"In your eyes, we are a bunch of lowly trash that you can use and discard at any time. When I mistook you for someone else, I will officially tell you that I am not doing this anymore!"

Yu Tian laughed. This was his choice. With his current status, he could not say anything to stop him.

Hence, he said coldly, "If you are sure that you want to do this, you can leave with the security guards!"

He thought that Yu Tian could persuade him to stay and give him a way out, but Yu Tian did not give him any face at all.

The more du Tianci thought about it, the angrier he got. He nodded his head in disappointment and said angrily, "Well, you are a heartless bastard. You only have money in your eyes, nothing else!"

I will not serve a person like you!"

Du Tianci sneered and limped away.

Yu Tian gritted his teeth and asked himself, what could he have done if Selar really wanted to kill him?

He felt helpless thinking about it. Du Tianci was not calm enough right now. It was better to let him rest for a few days. When he was calm enough, he could come back anytime.

At this moment, Chu Hong walked into the office and said in a low voice, "If Du Tianci leaves the company, my suggestion is to let him forget everything that he should have forgotten. He has the core technological secrets of Xinghe technology in his hands,

"Once the data is leaked, all our existing technology products will be attacked!"

Yu Tian smiled indifferently and said, "I believe that Du Tianci will not do that. He is just angry. When he calms down, he will know that his decision was wrong!"

However, Chu Hong did not think so. She argued with all her might, "CEO Yu, feelings can not be your strong support. They will even become your fetters. Galaxy company is going to become a world-class company in the future!"

"No mistakes can be made in any small step. Now that Galaxy's chief engineer has left the company, it's very easy for them to take advantage of loopholes. You'd better make a conscious decision!"

Yu Tian did not say anything else. What he did not want to hear the most right now were all sorts of orders.

It was as if he was alive to be their slave. He wanted to be the boss.

He waved his hand and asked Chu Hong to leave first. He wanted to be alone for a while.

Chu Hong shook her head helplessly and turned to leave.

Accompanied by the security guards, Du Tianci walked out of the Galaxy building. He was still angry and threw everything in his hands into the rubbish bin.

"If I don't stay here, there will be a place for me. I don't believe that if I leave you, Yu Tian, I won't have anything to eat."

At this moment, a middle-aged man came behind Du Tianci and said with a smile, "Mr. Du, how have you been?"

Du Tianci did not know this person at all. Before he could vent his anger, this guy stood in front of him like an idiot. He then said coldly, "Who the hell are you? Do I know You?"

The man complained with a smile, "Mr. Du, your memory can't be that bad, right? I'm an Outsourced Network installer from Galaxy Company. My name is Peng Yang. We even had a meal together before. At that time, we even had a

drink!"

Forget it, let's not talk about this anymore. It's already night time. Let's go and have a drink!

Du Tianci thought for a moment. Who cares if he knew him or not? After all, there was free alcohol to drink, so how could he poison them?

In a luxurious restaurant, Peng Yang even called two girls over to accompany him. Du Tianci drank one cup after another, and soon, he was drunk and started to spout nonsense.

“Do you know that the reason the galaxy company has become what it is today is all because of me, Du Tianci? Without Me, Yu Tian would be nothing. Now, he's still licking the toes of those women from the Chu family all day long!

Peng Yang filled his glass again and chuckled, feel that it's not worth it for you. You have such good technology, but other companies are all fighting to get you. Yu Tian is just pretending

“If you want to go to another company now, I'll immediately introduce you to one. The pay will definitely not be lower than the galaxy company. It might even be more than what they're offering. How about it? ” “You think about it?

“This is a rare opportunity, you have to seize it!

Du Tianci raised his head and drank the wine in his glass. He still considered Peng Yang's suggestion.

Since Yu Tian was unkind to him, then don't blame me for being unkind to him.

In the blink of an eye, the next morning, Du Tianci, who was hungover, opened his eyes with a splitting headache. He was shocked to find a naked girl beside him.

He had no idea what he had done last night.

At this moment, Peng Yang's call came in. He smiled and said, “Tianci, I've already told the company over there that their boss is very happy and wishes to have a meal with you

“Let's arrange it for noon. It's the same restaurant as yesterday. It's almost time now. Hurry over and don't let the boss wait for You!

Du Tianci patted his head hard. He had said something, but he vaguely remembered that he was angry yesterday, but could he really leave galaxy company?

But Peng Yang was doing this for him. It wouldn't make sense if he didn't go.

Therefore, an hour later, du Tianci still came to the restaurant.

He went to the private room and saw the fox-like boss.

Peng Yang introduced, a€?Tianci, this is the president of far-reaching technology development company, Ni Yaozu!

The two shook hands and Ni Yaozu took out a suitcase. It was filled with money, gold, and a few bank cards.

Under du Tianci's puzzled gaze, ni Yaozu said straightforwardly, a€?Mr. Du, Pm different from Yu Tian. I a€?m a discerning person. Your value is definitely not just the money that Yu Tian gave you,

a€?There's 50 million here. If you can come to my company, these will be considered as a welcome gift!

Although du Tianci liked money, some money could not be taken. At the very least, he had to know what ni Yaozu was thinking?

Therefore, he asked, a€?CEO Ni, you're too polite. But I want to know, what do you want to buy with this money.

Ni yaozu laughed and said, a€?Mr. Du is very straightforward. It's very simple. I want the core technical data of xinghe company. If you can provide it to me, I will immediately transfer 200 million to you!a€?

Du Tianci shook his head without thinking and said, a€?Impossible. Yu Tian has let me down, but I can not let him down.. This is out of the question!a€?

I Have 108 Older Sisters #Chapter 431 - Read I Have 108 Older Sisters Chapter 431

?Chapter 431 – Chapter 431, Amateurish

Thank you readers!

Ni yaozu said with disdain, a€?Mr. Du, you've done so much for Yu Tian, but in the end, he still kicked you out. It's all thanks to you that galaxy has become what it is today. What did Yu Tian Do?

a€?As long as you're willing to give me the core secrets of the Galaxy Company, I can give you another 100 million. With this money, you won't have to worry about being free for the rest of your life,

“Moreover, when we develop the same technology, it'll be considered your share. You sit at home and do nothing but make money. I don't believe that Yu Tian can give you so many benefits,

“He has the protection of Chu. Does he care about the lives of you people? “So, Mr. Du, don't be silly. Think about your own future!”

Du Tianci didn't say anything, but ni Yaozu could see from his twinkling eyes that he was moved.

This was an opportunity. Du Tianci imagined that if he lost this opportunity, he might never have it again in his life.

“Fine, since you are not kind to me, then don't blame me for being unfair to you!”

Du Tianci grabbed the suitcase after he said that.

In the evening, Yan Longwen tidied up the table and picked up her backpack before she walked out of the building. Du Tianci called out to her.

An hour later, in the restaurant, Yan Longwen slammed the wine glass on the table. She pointed at Du Tianci's nose and scolded angrily, “Are you still human? If Yu Tian didn't give you a chance, would you have gotten to where you are today?

Wouldn't your heart hurt if you did this?”

Du Tianci was so angry that the blood vessels on his forehead were throbbing. He said hatefully, “I didn't do anything wrong. He was the one who chased me out of the company. This is burning the bridge after crossing the river. He was clearly present at the golf course, but he didn't do anything!”

“Longwen, have you ever thought that if that bastard had made a move at that time, we would still be sitting here?” “But what loss would it cause Yu

Tian?” “At most, he would be looking for a second Yan Longwen, Du Tianci!”

“Even if we were dead or alive, it wouldn't make him have any unnecessary expressions. Is It Worth It? “What I said to you today is for your own good.

We are on the same boat.”

“Don't be stupid. You Can't even enter Yu Tian's world. He only treats you as a slave!”

Yan Longwen did not want to listen anymore. She grabbed her backpack and took her leave.

Du Tianci did not stop her. Moreover, Yan Longwen would definitely tell Yu Tian about this. It was for the best. She would let Yu Tian know what regret was.

Yan Longwen left the restaurant and took out her phone to call Yu Tian. After Yu Tian heard it, he said calmly, "That is his freedom. As long as he is willing, I don't care if he takes off his clothes and goes to the entrance of Galaxy to dance for a live broadcast!"

His indifference made Yan Longwen not know whether to laugh or cry. She knew that Yu Tian was a calm person, but he was still so calm at this moment. Was he not afraid that Galaxy would suffer some losses?

Since Yu Tian knew what was going on, Yan Longwen felt that she did not need to waste too much time. She said gently, "In any case, think about it yourself. I don't care about you guys anymore!"

After hanging up the phone, Yu Tian smiled calmly. Du Tianci should not be this crazy. Did the person who bribed him not think about one thing?

That was, Du Tianci would get more than a few hundred million if he followed him?

Although Du Tianci was crazy, he was not stupid. He could figure it out on his own.

Thinking of this, Yu Tian continued to watch the live broadcast. His broken heart sang songs for him. Yu Tian liked listening to her singing. He felt that his mood was very deep and could make him think about many problems. For example, Uncle Long did not give him much time to have children. If he wanted to become the head of the family, sometimes he had to learn to compromise.

In the live broadcast room, that woman from the A-list of infatuation was also there. She had even started a match with the heartbroken.

The heartbroken did not know who she was? After the match with the heartbroken, the A-list of infatuation directly mocked and ridiculed her.

"I don't think your singing is very good. However, someone supported you and made you the number one singer on the platform. If your singing was good, you would have become a singer long ago. Why would you need to work on the platform?"

"Your achievements today should have been mine. When you supported me, you were still a live streamer who didn't even make it onto the top 10,000. Now that you're popular, you only have a few songs to sing all day long,

“We've long been disgusted by your singing. Many people enter your live streaming room just to watch Yu di give you presents. However, I feel that Yu di isn't worth it. You're like a vegetable peddler who keeps shouting and shouting,

do you still have the face to let others give you gifts? Can you have some face?

Is this how you repay people with their enthusiasm for you?’

Yu Tian didn't know whether to laugh or cry. He still remembered this woman. It seemed that some people didn't even care about their face for the sake of fire.

However, his broken heart said inexplicably, “Actually, I don't ask everyone to like me. I welcome everyone who comes to my live stream. However, I'm not afraid that everyone won't like it. I'm only here to sing for one person.”

“Sister, if you like listening to me, then listen. If you don't like it, I won't force you. There's no need to say those useless things. Who Yu di praises and who he gives gifts to, that's his freedom.”

“I didn't request Yu Di to give me gifts back then. It was because he felt that my singing was more suitable for other people's appreciation. That's why he gave me gifts. He's infatuated with me. If you feel that you can also have talent and move other people.” You can show it too.

“Brother Yu di is in my live stream room. The first on the list is me, brother Yu Di. You can show it as you wish!”

However, Yu Tian realized that the people in the comments section seemed to agree with what Yu di said.

“I don't think there's anything good about her singing. Her expression and actions are especially pretentious. She's deliberately pretending to be noble!”

“Isn't That So? Every day, she's the only recommendation I see. Every time I enter her live stream room, it's these few songs. It's so disgusting!”

“Other than singing these few songs, she doesn't know anything else. If I had a gift, I wouldn't have given it to her. You can even dance!”

Yu Tian frowned slightly. It seemed that his thoughts were still a little off. These streamers were still too amateurish. Compared to professional streamers, they were too lacking.

Even though she was heartbroken at this moment, she was very emotional. On the contrary, she was infatuated. She wanted to see her emotional state, so she said even more agitatedly, “See what everyone is saying.”

“We are only giving you advice. You have to accept it. Indeed, you sing your own songs. We listen to us. If you don't like it, we can leave. However, it is your fault for wasting resources.”

“Now, there are a lot of streamers on clear sky platform who are much better than you. They didn't get such an opportunity, but you didn't cherish it. Instead, it's like waiting for money to fall from the sky every day,

“Are you embarrassed to wait for others to pay for your incompetence? “Do you feel sorry for others when you take their pity money and eat and wear clothes?”

Yu Tian was so hurt that he was about to cry. However, he did something that even Yu Tian felt was stupid. He actually cut off the microphone and turned off the live broadcast.

Yu Tian immediately looked at her fan count. In such a short period of time, she had lost more than 100,000 fans.

Seeing this, Yu Tian shook his head helplessly. It seemed that she was still unprofessional..

?Chapter 432 – Chapter 432: Kill The System

Thank you readers!

At this moment, Yu Tian received a private message from her.

“I'm sorry, brother Yu Di. I'm not in a good mood today. I'll be singing for you tomorrow. Thank you for your support!”

Yu Tian did not want to pay attention to her at all. He had spent so much money to raise such a woman. If he had known that she was so weak, he would not have given her such a big shot in the first place. He would have just wiped her saliva.

He did not want to watch other people's live broadcasts anymore. Other than singing and dancing, he was just pretending to be crazy.

After exiting the call, Yu Tian called Chu Hong into his office.

At this moment, Chu Hong was wearing a tight black short skirt. It made her proud figure shine in the neon lights outside the window. It was filled with a cold and arrogant beauty.

Yu Tian blinked his eyes and chuckled, “I have always thought that your figure was the worst among all the sisters. I wonder why you have become an aunt.

This dress is not bad today. I like it!a€?

Chu Hong glared angrily and scolded, a€?You're the Auntie. Hurry up and say it. Why did you call me here? I still have a date later!

This woman could also have a date? How Strong was the character of the person she was dating?

No matter who she was dating, Yu Tian did not care at all because it was definitely not a man. Otherwise, the old men of the Chu family would be struck by lightning if she were to date them.

Without further ado, Yu Tian said straightforvvardly, a€?We have to have a professional streamer, and one who is completely obedient. The more the better. You will handle this tomorrow!

Chu Hong nodded and asked in confusion, a€?Don't you want to know who I'm dating?a€?

Yu Tian shook his head and said, a€?No, I'm thinking about who I a€?m dating right now!a€?

Chu Hong's eyes were covered with a faint layer of anger. She sneered and turned around to leave.

At this moment, the commander-in-chief of the God of Heaven aircraft carrier fleet, Lornes, called and said coldly, a€?Boss, when we were carrying out normal escorts in the North Atlantic Ocean Areaa€|

a€?A part of the superpowers a€?warships suddenly appeared. Based on my understanding of them, they are looking for trouble to open fire on us. If I'm not wrong, they will soon use disguised pirate ships to attack usa€|

a€?As long as we open fire, their fleet will immediately appear. Now, I would like to ask for your orders!a€?

Yu Tian frowned slightly. What did the superpowers want? Could it be that they wanted to shell themselves?

He immediately ordered, a€?You guys continue to move along the route. Be careful not to enter their waters. In half an hour, I will connect with you via satellite!a€?

After hanging up, he stood up and dialed Chu Wen a€?'s number.

When Chu Wen heard this, her mind was also filled with questions. First of all, the fleet had not entered superpower's waters. They had always been in international waters. What were they trying to do?

Thinking of this, Chu Wen calmly said, "Brother, don't act rashly. I will immediately meet the higher-ups of their Maritime Defense Department!"

Yu Tian agreed and hung up the phone. Half an hour later, he came to the data exchange support headquarters of the R & D Center. He opened the satellite map and connected to Lornes again.

Now, the entire fleet and the nearby sea areas were displayed on the big screen. Yu Tian found that around the deity fleet, there were two aircraft carrier fleets and more than 70 battleships slowly surrounding the deity fleet.

Seeing this, Yu Tian ordered again, "Chu Hui, now let Chu Yan and Chu Xuan join the command group!"

Soon, the two of them also appeared on the big screen. The entire command system was completely formed.

Chu Xuan could not suppress her excitement and asked, "Yu Tian, are we really going to have a group fight? I've always wanted to have a real fight!"

Yu Tian's gaze was cold as he said indifferently, "Other than using the computer to smash the butts of others while they were urinating, you can't fight at all. This time, I'm calling you because I want you to be Chu Yan's technical support!"

Chu Yan looked at the satellite image and said calmly, "If we really fight, deity is probably not their match. According to my data, the combat strength of those two aircraft carrier fleets is several times that of deity!"

"My suggestion is to retreat immediately before we make a move!"

Yu Tian shook his head and said, "Even if you retreat to Mars, they will still chase after you. Now, it is clear that they want to fight with us. They are just relatively close to the superpower,

they are afraid that if they fight, it will cause harm to the city, so they did not make a move!"

"I agree with boss. I used to be their commander. I know what they are thinking. They want to win this battle, but they don't want to lose too much!"

Yu Tian narrowed his eyes and said domineeringly, "Since they want to do it, I'll play with them. Loens, immediately order the fleet to approach the nearest city and sea area to give them some pressure!"

This was indeed an idea, but Loens said hesitantly, "Once we enter their sea area, they can fire at any time!"

Yu Tian immediately said to Chu Yan, "I need the most accurate evaluation data!"

Chu Yan immediately nodded to the dozens of advanced tactical analysts behind her.

Two minutes later, the big screen showed an extremely accurate data.

The enemy had more than fifty warships than the deity, and their air power was ten times more than the deity's carrier aircraft.

Missiles and other offensive weapons were at least seventy percent more than the deity's.

Once the result of the hard shell was achieved, there was no chance of winning, and the probability of total annihilation was eighty percent.

Seeing this data, Yu Tian was a little distressed. Wasn't this too F * cking weak?

If they were to fight, they probably wouldn't even have the chance to fight back. What else could they do?

At this time, Chu Xuan broke the silence first and said confidently, "I can destroy their radar, command, and data systems. How confident are we?"

The data was reevaluated and the result was quickly obtained. The probability of winning was 70%

Chu Yan said, "If their radar is destroyed, they can only use cannons to carry out physical attacks. If we can get rid of their ships with cannons, we can control the entire battlefield!"

Yu Tian felt that they could fight. He immediately ordered, "Then what are we waiting for? Lornes, change the course!"

After Lornes received the order, he slowly closed his eyes and took a few deep breaths.

This was the moment he wanted. He had been waiting for this moment for more than ten years.

Then, he suddenly opened his eyes, picked up the radio and ordered, "Destroyers 1,5,7 open the battle formation, change course, head south in a straight line, full speed ahead. Other warships, get ready!"

At the same time, the two commanders of the Super Fleet, Valenke and Lynes, laughed at the same time..

?Chapter 433 – Chapter 433, Do Not Retreat

Thank you readers!

Lyons looked at the radar, picked up the radio, and said disdainfully, "Valenke, finish Loens in ten minutes. You have to treat me to a beer!"

Standing on the observation deck, Valenke bathed in the sea breeze to his heart's content. Looking at the huge fleet behind him, riding the wind and breaking the waves, he felt an indescribable pride.

He also picked up the radio and looked at the distant enemy fleet. He smiled indifferently and said, "I remember that we were in the same university as Loens, but he always forgot that dreams are to be pursued."

"Now that he has become a mercenary of the private fleet and has become our enemy, I really don't want to use the world's most powerful weapon to sink him!"

Lance took a sip of the steaming coffee and said casually, "Who cares? We are not the ones who sank him, but those guys sitting in the office."

"He has already started to change his course. It seems that he wants to compete with us. This time, I will give you a benefit. You continue to go behind him, and I will attack him head-on. As long as he enters our sea area, Fire immediately!"

At this moment, Yu Tian's gaze was extremely calm. He did not even blink as he stared at the fleet on the big screen.

At this moment, Chu Xuan had already completed her hacking attack. She had successfully entered the command systems of the two opposite fleets as well as the weapons and radar systems.

She then smiled smugly and said, "Yu Tian, I used a computer to paralyze two fleets. Are you convinced?"

Yu Tian did not want to bicker with her at all. He said indifferently, "I am convinced. Wait for my order!"

t

“?”

Chu Xuan chuckled. Yu Tian's submission made her even more excited than paralyzing the fleets.

At this moment, Lyons from the opposing fleet saw that the god of Heaven fleet had opened their attack formation. He smiled disdainfully and immediately ordered, “Connect to their radios and send them a reminder!”

The assistant immediately nodded.

Loens quickly received a reminder from Lyons' fleet.

“Listen, you are about to enter the superpowers' waters. Immediately turn the ship around and don't come any closer. Otherwise, we will immediately fire and sink you. Please leave immediately!”

Loens put down the binoculars and turned to look at Yu Tian on the big screen.

Yu Tian touched his chin. The reminder sent by the superpowers was to buy time for Valenke's fleet to surround the god fleet.

He then said indifferently, “Ignore them. Slow down the aircraft carrier and use it to attack the enemy behind you. The other warships, continue moving forward. As long as they dare to fire the first shot, we will immediately fire!”

At the same time, in the Super Nation's Maritime Management Department, Chu Wen met the senior management, Astor.

This middle-aged man knew Chu Wen's background. When they met, he also gave her high respect. He stood up politely and smiled, “Hello, Miss Chu. How can I help you?”

Chu Wen didn't want to waste time and said straightforwardly, “The God of Heaven Fleet is the private fleet of our Chu family. You now have two aircraft carrier battle groups trying to attack our private fleet.”

I would like to ask Mr. Astor, is this your order?”

Astor said very calmly and perfunctorily, “Oh God, I still don't know what happened. How could it be my order? I'm just managing it, but I'm not the one who gives the order.”

Whatever decision they made, they didn't even need to go through me. So, I still have to ask what exactly happened. Miss Chu, please wait!”

After saying that, Astor left Chu Wen alone in the office and went to the lounge to smoke.

A few minutes later, this guy pretended to be surprised and returned to the office. He said with a regretful expression, "Miss Chu, sorry to have kept you waiting. Their mission this time is top secret. Even I don't have the authority to know."

"It seems that I can't help you this time. If you want to know more, you can find a higher manager or someone with authority!"

Chu Wen suddenly stood up. This guy was playing tricks with her. She said angrily, "No need. You can tell those managers for me. If you dare to attack my family's escort fleet?"

"We will not only strike back without any scruples, we will also strike back at your business development. I will close all investments in Super Country.."

"That means super country will face a loss of hundreds of billions. That's all I want to say!"

After saying that, Chu Wen snorted coldly and turned around to leave.

After leaving the office, Chu Wen immediately called Yu Tian.

However, Yu Tian smiled and said, "There's nothing to be angry about. You Don't have to be so angry. Can't you just defeat them?"

At this moment, the Riens fleet had already fired an attack missile.

Loens immediately ordered to intercept.

The destroyer immediately fired the Heaven's wrath missile made by Chu Yan's industry and successfully intercepted that missile.

Yu Tian narrowed his eyes fiercely and immediately ordered, "Chu Xuan, let's do it. Make Them Blind for me!"

Chu Xuan typed on the keyboard and nodded, "Turn off their radar, weapon system, and command system!"

At the same time, Raines and Valenke received the report at the same time.

"Commander, our radar and weapon system have all made mistakes. It's very likely that it's a network interference. We're taking care of it!"

Valenke broke out in cold sweat. He immediately ordered, "Give the order. Abandon the mission and return immediately!"

On the other side, the assistant said with a flustered expression, "Commander, our command system is in chaos. Our weapons are unable to attack. Turn off all radar!"

With a face full of disgust, Lyons slowly raised his head to look at the sky. More than a dozen missiles were smashing towards his fleet like meteors.

Now that his fleet's radar was all turned off, there was no way to use missiles to intercept them. This bastard, Loens, was indeed capable.

Lornes ordered in a hateful voice, "Carry out a close-range physical intercept. Order the carrier-based aircraft to take off immediately!"

In the R & D Center's command center, Yu Tian watched as the missiles blew up part of Lornes' fleet's battleships. His heart felt especially good.

The battle had only just begun, and the best was yet to come.

Yu Tian looked at the satellite map. Valenke had already chosen to retreat, so there was no need to care about this idiot for now.

He immediately ordered, "Rawns, the carrier-based aircraft over there has already taken off. Get Ready for defense. Our carrier-based aircraft can also take off into the sky!"

On the big screen, Chu Yan said confidently, "Their carrier-based aircraft will not be our opponent. I have long mastered the system code of those carrier-based aircraft. As long as we use the Sky Fury II missile, we can take them down!"

Yu Tian smiled and said, "Sister Yan, why do you think I like you so much?"

Chu Xuan did not want Chu Yan to steal the limelight. She snorted coldly and said, "Now that we're fighting, don't be so affectionate in front of me. Chu Yan, send me their system code.. I'll show you what Wontons are!"

Chapter 434 – : Chapter 434 Was Full Of Shadows

Thank you readers!

What Chu Xuan hated the most was being upstaged by others. Once she got hold of the aircraft's system code, she would immediately use the Chu family's satellite to send out radio interference waves.

After these radio waves were connected to the aircraft's system, Chu Xuan directly shut down the aircraft's power system, radar, and so on.

Yu Tian could clearly see on the big screen that the five aircraft that had risen from the Raines aircraft carrier instantly fell into the sea.

It was really like a wonton being dropped.

Chu Xuan said proudly, "Yu Tian, did you see that? This is my strength. I can destroy their entire aircraft carrier fleet alone!"

Yu Tian praised without any doubt, "Yes, you indeed have the strength. When you marry me in the future, we will specially get a thousand super country aircraft and throw them for fun!"

Everyone laughed heartily. Chu Xuan blushed and said, "Who said I was going to marry you? Shameless!"

Yu Tian did not care about what Chu Xuan said. A man could have whatever he wanted, but he could not be shameless. How much was that thing worth?

On the other hand, Raines could not laugh. Now, be it attack or defense, they were all paralyzed. The planes were falling into the sea with a cracking sound.

Even the aircraft carrier's head was blasted open. If they continued to hit it, they would definitely be completely annihilated.

Thinking of this, he made a prompt decision and ordered, "Retreat immediately and think of a way to contact the land attack department!"

Yu Tian snorted coldly and said, "It's not that easy to leave now. Raines, Sink that aircraft carrier!"

Waiting for Yu Tian's order, Raines said excitedly, "As you wish, our bombers have already taken off!"

The God of Heaven aircraft carrier's cabin slowly rose, and a strategic bomber named Red Devil slowly entered the runway.

Chu Yan proudly introduced, "This is the red devil strategic bomber made by Chu Yan industry. It can carry fifty tons of offensive weapons and can also avoid detection from all kinds of radars. It is currently the most advanced stealth strategic bomber in the world!"

Yu Tian slightly frowned. How many super weapons did Chu Yan's industrial company make?

No wonder the Chu family's interests in the world were so big. No one would believe it if they said that they did not have the threat of these weapons.

He looked at the big screen again. The speed of that bomber in the air was very fast. In the blink of an eye, it had crossed fifty nautical miles and easily aimed at the Raines aircraft carrier.

Chu Yan said with a calm expression, "Little brother, what are you waiting for? You can give the order to attack now!"

Yu Tian gritted his teeth. Since he didn't want to fight, he would just give them a lesson. Otherwise, he would think that he was easy to deal with.

"Okay, Sink It!"

Red Devil received the order to attack and immediately launched the anti-aircraft carrier missile.

The moment the black missile landed on the aircraft carrier, it exploded with violent energy, tearing the entire aircraft carrier from the middle.

In the command bridge, Lyons was knocked until his head was bleeding from the distance.

He could not care less about this and immediately shouted, "Get the surrounding ships to come and save people. Find that bomber and shoot it down!"

Before he could finish his sentence, the Red Devil directly whizzed past his head, as if it was mocking him.

Lyons' facial features were twisted, and he was so angry that he clenched his fists and gritted his teeth. Even so, it could not change the fact that he was defeated by Loens.

Yu Tian looked at the struggling crowd in the sea and felt a little sorry for them. Then, he ordered indifferently, "Loens, that's enough. You guys continue with the previous route. Don't fight anymore!"

Loens saluted Yu Tian. It was very powerful, and it was also a respect from the bottom of his heart.

If it was not for Yu Tian giving him a chance, he would never be able to vent his anger.

Yu Tian didn't care about this and immediately gave Chu Wen a call.

At this moment, Chu Wen was outside the Defense Department. After receiving Yu Tian's orders, she returned to Astor's office.

When Astor heard the news that the Lyons aircraft carrier had been sunk, it fell into chaos. This time, they had only attacked a private fleet, yet they had already suffered such a loss.

In less than 15 minutes, they had lost more than 60 billion. How could they still have the face to say that they were the strongest fleet in the world?

Chu Wen did not even knock on the door. Under Astor's assistant's obstruction, she kicked the door open and entered.

Astor put out his cigarette and signaled his assistant to let her in. Otherwise, how could he beat her out? Now that the Chu family that she represented had won this battle, he could only use his inferiority to make Chu Wen happy.

Chu Wen did not stand on ceremony and said coldly and arrogantly, Should we continue this battle? Based on your words, I want to know now why you attacked our Chu family's fleet

"I can't help you much, but I can order that bomber to enter the sky above the city at any time!

Astor's expression was heavy as he sighed and said slowly, "It's PBG's people. They originally wanted to use the god fleet to force the Chu family to hand over the second-generation equipment, but no one could accept such a scene! Chu Wen nodded. She didn't want to look at him anymore and turned to leave. At this time, Yu Tian also hung up the phone.

"It seems that PBG also wants to play some exciting games with me this time.

I've really given them some face. This time, no one can stop me!"

Yu Tian came to the rest area, got some drinks, and quietly began to ponder.

Although the scale of this battle was not large, some of the structure had been completely broken. It was time for the Chu family to do some big business.

At the same time, Chu Hong was having a romantic candlelit dinner with a young man in his twenties in a restaurant in the city.

The man elegantly sipped his red wine and wiped away the traces on his mouth. He slowly said, "The secular world is really too beautiful. I will never be able to enjoy such delicious red wine and real food over there"

"So, I must come back!"

Chu Hong looked at him lovingly and said gently, "Mr. Yu Han, although you are not the master, you are still Yu Tian's brother. This position of master should have been made by you!"

"It's just that Yu Tian was born in this world, but his strength is definitely not as good as yours!"

When Yu Han heard the name Yu Tian, a trace of cold murderous intent flashed across his eyes. He said coldly, "Who does he think he is? He is just trash that the Yu family can throw away at any time!"

"The reason I came here this time is to replace him. However, I need something from him. That jade pendant of his. Think of a way to give it to me."

As long as I get it, Yu Tian's life will be in my hands!"

Chu Hong nodded and said with a smile, "I will help you find it. I hope that after you become the master of the Chu family, you will not forget about me!"

"How can that Han chuckled and looked at Chu Hong with a lecherous expression. He said frivolously, "I remember that when we were young, we even played heaven and earth worship. At that time, I was already certain that you were my wife!"

Chu Hong pursed her lips and said with a smile, "I thought that you had forgotten about it. Do you remember that night? You Even Kissed Me!"

"We can do it tonight too!"

?Chapter 435 – Chapter 435, A New Model

Thank you readers!

Chu Hong tacitly agreed to Yu Han's request, but Yu Han continued, "Unfortunately, I can't do it now. Before I get the Jade Pendant, I can't touch any women from the Chu family,

otherwise, those old fogeys from the Yu family will definitely discover that I have come to the secular world. Therefore, we have to endure it a little. I have to return tomorrow. After you get the jade pendant, I will naturally come back here!"

"Other than getting the jade pendant, you also have to try your best to sow discord between Yu Tian and the 108 sisters. Let them be completely disappointed in Yu Tian, and even despair!"

A trace of regret flashed across Chu Hong's face, but then she smiled charmingly and said, "Alright, I'll take care of it for you!"

After saying that, the two of them looked at each other and smiled affectionately.

On the research center's side, Chu Hui gently sat beside Yu Tian and asked in a low voice, "What are you thinking about?"

Yu Tian indifferently said, "In the future world, if we kill them today, the world's structure will also change. How can I obtain the greatest benefit?"

Chu Hui didn't even think and said, "Your intelligence is unique. This can also be understood as a monopoly. If we can control the only thing in the world, we can obtain the greatest benefit!"

Yu Tian narrowed his eyes slightly. Chu Hui's reminder was absolutely correct. In the future, companies, consortia, and business organizations would completely replace the senior management. This was the New World model.

Everything was built on the world model of money.

Thinking of this, Yu Tian chuckled and said, "I have an idea. I'm going to Sean Tomorrow to meet Chu Yan First!"

Chu Hui nodded and smiled. "Leave this place to me!"

In the blink of an eye, it was evening the next day. Yu Tian's private plane landed at Sean International Airport.

Dressed in a black business suit, Chu Yan smiled and waved at Yu Tian who got off the plane.

Yu Tian walked up to her and gave her a deep kiss.

Chu Yan looked at Yu Tian tenderly, like a budding flower. Her face was red as she said in a low voice, "I miss you very much. I've already asked someone to build a fireplace. Let's go home!"

On the way back to the villa, the two of them held each other's hands tightly. Their Hearts beat faster as they waited for the passion to erupt.

Walking into the villa, Chu Yan closed the door tightly. Her breathing was rapid as she looked at Yu Tian. She said shyly, "I have already called the people to go back. It's Just Us Tonight!"

Yu Tian did not say anything else. He hugged her by the waist and kissed her passionately as he walked into the bedroom.

The night was hazy and romantic. It was passionate and fiery.

Yu Tian finally transformed into a real man. He hugged Chu Yan and fell into a deep sleep.

Even Chu Yan herself did not expect that she would become Yu Tian's first woman. She was really full of happiness.

It was not until noon the next day that the two of them lazily got up.

Chu Yan pulled open the curtains. Her perfect figure was even more alluring under the sunlight.

Yu Tian chuckled and said, "Come, little girl, let me dote on you one more time!"

However, she rolled her eyes at Yu Tian. It was already so late, and she still wanted to play. She picked up her clothes casually and said while putting them on, "Wait for tonight. Oh right, you suddenly came to Sean. Could it be that you came to see me?"

"Of course not!" Yu Tian sprawled on his back and said indifferently, "I am prepared to expand the Chu Yan industrial group. If possible, I will turn the entire Sean into an industrial group's industry!"

Chu Yan was shocked and quickly asked, "Now that the industrial company is already the biggest in Sean, you still want to expand?"

Yu Tian nodded and said, "That's right. Not only that, the research and development of weapons, manufacturing, and also expansion. In the future, we must have the ability to create our own aircraft carrier, or even the Chu family's private army!"

This time, Chu Yan really felt afraid. She frowned and asked,

"i

"Did I hear wrong? What are you trying to do?"

Yu Tian suddenly sat up and said coldly, "I want to monopolize the world's structure. This is what I must do to become the strongest in the world. I feel like a imprisoned beast now."

"I can't find an existence that can break through my strength. Only I know that I'm not strong enough. In fact, I'm still far from it. I have to find a breakthrough point myself. This is very important to me!"

Chu Yan finally understood that he wanted to find more ways to train himself. This was completely understandable.

After he knew his identity, he stepped into a height that others could not reach. Although he still had many enemies up until now, there was no longer any challenge.

He wanted more exciting challenges and more difficult modes until the entire game was completed. Therefore, he wanted to stimulate those real enemies so that he could feel good.

Thinking of this, Chu Yan nodded with a smile and encouraged, "Then do it."

"Any-vvay, we are people who like to be stimulated!"

Yu Tian suddenly hugged Chu Yan and smiled, "That's right, let's stimulate again!"

Chu Yan wanted to refuse, but in the end, she gave up.

In the evening, when Yu Tian was having dinner with Chu Yan, he told her his first plan.

"Tomorrow, you ask the management to help us buy all the buildings within a ten-kilometer radius around the industrial company. But the price must be kept to the lowest. It's best if they want to fight with you after hearing this price,

if they really fight with their lives, that's what I want. and the benefits saved can be given to some key people!"

Chu Yan didn't understand why Yu Tian did this? She could not help but ask, "Why did he do this?"

"He did it so that they could attack our company, smash the glass, Dig the foundation, or even block the latrine pit. The more intense the better. That way, we would have a reason to create our security force!" Yu Tian said indifferently.

This idea was really good. Chu Yan immediately called her assistant and carefully arranged everything.

In the blink of an eye, it was noon the next day. Yu Tian's plan was indeed effective.

More than thousands of people came to the headquarters of the industrial company to protest. The situation went out of control several times, and the security guards of the industrial company were injured by more than a dozen people.

Yu Tian, who was standing on the roof of the headquarters, took a sip of milk tea and continued to watch the show.

At this time, a large number of fully armed defense troops rushed into the crowd. There was a human wall between the building and the crowd.

However, the crowd was still very angry. There were a few times when they tried to crash into the human wall, but they were beaten back.

Someone even shouted, "Chu Yan industrial company is the Devil. They are sucking our blood. In order to expand their business, they want us to sell our home to them at an unacceptable price. We will never agree!"

"We will never compromise. If we have no place to live, then we will fight with our lives!"

"Chu Yan industrial company, get out of here. We don't need you here!"

At this moment, someone in the crowd suddenly threw a Molotov cocktail.

Chapter 436 – Chapter 436 Was Not Spicy Enough

Thank you readers!

The moment the incendiary bomb landed on the ground, the flames immediately exploded. A few of the defenders were also caught in flames as they struggled to get up.

The anger of the defenders was also completely ignited. The commander shouted, "Armed suppression!"

The defenders immediately picked up their shields and attacked anyone they saw. The situation was completely out of control.

On the roof, Chu Yan said in a low voice, "Perhaps no one knows that the incendiary bomb was also made by us!"

Yu Tian threw away milk tea and said indifferently, "The power is not strong enough. If one incendiary bomb can kill a building, that would be great!"

Chu Yan smiled helplessly at these words. "Then we might as well get a nuclear weapon. As long as we have one, this city will be destroyed too!"

Who said that he had not thought about it? But now was not the time. Maybe he would really use that thing in the future.

Downstairs, under the suppression of the defenders, the crowd quickly dispersed. The scene was a mess.

Many injured protesters were lying on the ground, panting. Although their eyes were full of hatred, they could not make a move.

In the meeting room, the commander of the defenders, Barker, took the black box containing 500,000 yuan with a smile in his hand.

“Thank you, Miss Chu Yan. We can suppress those people at any time and help you complete the expansion of the company!”

At this time, Yu Tian smiled indifferently and said, “Your methods are not ruthless enough. I hope that next time, you should focus on the key points. I don’t want to see those people have any influence on the expansion!”

Barker frowned and looked at Yu Tian. He asked in puzzlement, “Who is this gentleman?”

Chu Yan introduced, “He is the highest manager of the Chu Yan industrial group. He is also my lover, Yu Tian!”

Any one of his identities could crush a small commander like him to death. Barker hurriedly stood up and said respectfully, “It’s my honor to meet Mr. Yu. What do you want me to do?”

Yu Tian smiled slightly, he said coldly and arrogantly, “I need you to increase the defense around here. Have Your people guard the area 24 hours a day. I Won’t let you provide free services. Everyone can get a subsidy of 500 Yuan a day. How about it?”

Barker was a little troubled. After all, he was a member of the Defense Department of Xi En. If he did this, he would obviously become a private mercenary.

Chu Yan looked at his expression and understood his difficulties. She chuckled and said, “Sir Barker, if you stand on our side, you will get more in the future.

If you can satisfy us”

I believe that Mr. Yu Tian will support you in the Defense Department and get a better position. After all, we need real people on our side. You can think about it yourself!

Barker rubbed his forehead fiercely. Now, everyone knew that the Xi en country would collapse at any time. And to be able to get the support of the largest Chu Yan industrial group in the Xi en country, how many people would be willing to do that, this opportunity must be cherished no matter what.

Thinking of this, Barker gritted his teeth and nodded. “Okay, I will stand on your side!”

A smile hung on the corner of Yu Tian’s mouth. This was the game of money.

An hour later, Yu Tian saw that there were many defensive points around the industrial group. Every defensive point had ten fully armed defenders.

The area within five kilometers of the industrial group became a restricted area. Other than the guests and employees invited by the industrial group, no one else was allowed to go near.

At the same time, in Yu Tian's villa, Chu Hong sneaked into Yu Tian's room. She was looking for the jade pendant lightly, but she accidentally knocked over a vase.

Chu Meng, who was next door, heard the sound and frowned.

Yu Tian was in Sean, why was there a sound in the room?

She immediately took out a dagger from under the pillow, opened the window gently, and silently jumped onto the balcony of Yu Tian's bedroom.

When she realized it was Chu Hong, Chu Meng pushed the door open and entered. She said angrily, "What are you doing here?"

Chu Hong folded the quilt and said naturally, "Can't you see? I'm tidying up the room. Do you think I'm like you guys? I only know how to pretend to be virtuous in front of Yu Tian all day long,

"No Wonder Yu Tian always says that you're not the women he thinks you are.

You Don't even know how to do basic housework. How Can I marry you?"

Chu Meng's expression immediately turned angry. She said coldly, "Did Yu Tian really say that?"

Chu Hong placed the folded quilt on the bedside and picked up the fallen vase. She said indifferently, "Don't care what others say. Just think about whether you did it or not. Yu Tian isn't blind. He can see it!

After saying that, Chu Hong rolled her eyes at Chu Meng and turned to leave.

Chu Meng was so angry that her cheeks puffed up. She said hatefully, "Isn't it just housework? Do you think only you, Chu Hong, can do it? Just you wait!

After saying that, he immediately picked up the phone and called Chu Xin. He said arrogantly, "I want to learn how to cook, wash clothes, and mop the floor. Anyway, teach me all the housework!

Chu Xin was confused. What was wrong with this girl? Was she free.

Sean, in the meeting room of the high-level management department, everyone was listening to the voice of the top manager , Morris.

Morris crossed his hands and said with a serious expression, [a€?I want to know, who approved the expansion of the Chu Yan industrial group? Do you know that the people of the World Weapons Management Association have already started to export weapons to Seana€|

To conduct a data evaluation, if it went beyond the scope of the association s regulations, it would be restricted by the regulations of the Management Association on the export and manufacturing of weapons. This expansion of Chu Yan industrial group will definitely increase the export of weapons..,

a€?They have earned a pocket full of money, but they want our management to wipe their mouths. Moreover, you have used armed suppression. Now the whole world is blaming Sean. You are all the top managers of Seana€|???????????????? I think you guys should give me a reasonable explanation!a€?

Johnny, the executive of the business management department, loosened his tie. His pair of eyes, which were full of conspiracies, blinked quickly.

Morris a€?words could only be answered by himself. After all, he had taken the benefits of Chu Yan industry, so he had to speak for them.

a€?Sir Morris! a€?In the silence, Johnny followed and said, a€?Chu Yan industry's expansion of the factory completely conforms to our rules. They didn't do anything to break the rules, on the contrary, the protesters who wanted to gain benefits were trying to stop the expansion of Chu Yan industrial at all costs. When they were protesting, they even used incendiary bombs and other weapons. If they did not carry out an armed suppression..,

the current situation will completely go out of control. What we have to do is to protect the interests of Chu Yan industrial. After all, Chu Yan industrial is the biggest financial provider that we can sit here and provide!

His words received the approval of almost everyone, but Morris felt that there was no need to continue the meeting.

At this moment, Yu Tian followed Chu Yan to the entrance of the management department.

What he needed to do here was to get the support of everyone, including the top management..

?Chapter 437 – Chapter 437: If You Don'T Like It, Move

Thank you readers!

In Morris's office, Yu Tian took a sip of coffee. When the spoon touched the cup, it made a crisp sound.

Morris was very calm. If it weren't for the two people in front of him, who were the president of Chu Yan industry, he wouldn't have been able to sit in front of him and drink coffee for the rest of his life.

Moreover, he didn't want to waste his time watching him drink coffee.

Thinking of this, Morris asked in a low voice, "The two presidents of Chu Yan industry didn't come to my place just to drink coffee, right?"

Yu Tian put down the cup and smiled indifferently. "This coffee cup is very good. Later, Bring Me a set back. Treat it as a gift from you. Because very soon, our Chu Yan industry company will move to the neighboring country,

"Not only did they provide us with a large area of land, they also gave us permission to have our own mercenary troops. They even let me choose a group of girls from their place to be my wife,

"And at Sean's place, we just want to expand. Look at your people, they're like crazy. When they protest, they even throw incendiary bombs, bricks, and diapers and slippers. Mr. Morris, I feel very regretful,

"So, I've decided to close our industrial base in Sean!

Morris frowned the more he listened. In the end, his originally indifferent expression became grimaced.

He had to consider that Chu Yan industry was currently the largest consortium in Sean Country. It owned more than 50% of the country's wealth and had more than 700,000 employees.

In addition, Chu Yan industry also had investments in various fields in Sean country. If all of this was taken away now, the economy of Sean Country would go back at least 50 years.

Right now, they were so poor that they could barely afford to wear their pants and forks. If they went back fifty years, would this country still have any value to exist?

Morris gently gritted his teeth. Even though waves of emotions were surging in his heart, he still had to act like the top manager. He calmly and deeply said, "Mr. Yur Chu Yan industry has been developing in Xi En for twenty years"

“Even I used to work in Chu Yan industry company. In these twenty years, Chu Yan industry has developed to its current scale. One of the most important points is the support of us, the management.

“Your biggest export commodity is arms. The people from the International Arms Management Association have told us many times to limit your requirements. However, the Sean Country has always supported you under this background,

“They have never given you any restrictions. Of course, you can move to other countries, but I don't believe that they have the strength to withstand the pressure!

Yu Tian listened quietly and pretended to be helpless. “But Chu Yan industry still has to develop in a bigger direction. Xi En can't meet my requirements anymore,

“If you think a house is too small, you will also want to change to a bigger house. Unless you can let me build a bigger house, I will still consider staying here!”

Morris understood Yu Tian's meaning. In the end, it was a condition.

He was silent for a moment and then asked, “Then how do you want to build it?”

Yu Tian smiled proudly and said, “First of all, you have to approve me to have my own mercenary army. Because we are an arms company, it would be interesting if someone were to destroy it”

“Not only do you have to approve me to have mercenaries, you also have to approve my mercenaries to have all the authority of Sean's army. Secondly, fifty kilometers south of Sean City, all of it will be transferred to my industrial company” I have no other requests!

Morris narrowed his eyes and said coldly, “The authority you want will turn this country into an armed country, and there's even the possibility of war breaking out at any time. I Can't agree to it!

Yu Tian suddenly stood up and said coldly, “I've said it before. My mercenaries are only here to protect my industrial company from being attacked. Who would be so free as to fight with you guys?

I'm really curious about how you managed to get the position of the CEO. You Can't even differentiate this point. I'm too lazy to explain it to you. Just say whether you agree or not. If you don't agree, I'll let someone else take your position tomorrow!”

Morris suddenly felt extremely sad. He was the highest-ranking CEO of Sean Country, but in front of Yu Tian, he did not even have the courage to speak.

He could only whisper helplessly, "I hope you can stick to your promise, because this decision is equivalent to handing over the management rights to you!"

Yu Tian smiled disdainfully and said, "You don't have to say it. I have thought more thoroughly than you. The people in the conference room are still waiting for you to go to the meeting. Tell them about my decision, and then you can hold a press conference!"

After saying that, Yu Tian sat on the sofa, took out his phone, and began to play leisurely.

Morris came to the meeting room absentmindedly and told him about Yu Tian's request. The meeting room was completely silent.

Suddenly, Xi Enis internal affairs president, Hiram, slammed the table fiercely. His fiery eyes were wide open as he said angrily, "This is too much. Chu Yan industry wants to have their own mercenaries in our territory,

"They even want our support. If we really lower our heads, how can we have the face to meet them?" At that time, the dissatisfied rebels will mess up everything you see!

"At that time, when they are counting the money, we will have to clean up their mess!"

i

Morris loosened his tie with a numb expression and said in a cold tone, "If Chu Yan industry leaves, it will be even more chaotic. We won't have the ability to suppress it. Why don't we leave everything to them?"

Hiram gritted his teeth. This was a wrong decision. Chu Yan industrial controlled everything here through capital. As long as he was alive, he would never let him have his way.

An hour later, Yu Tian and Chu Yan arrived at the scene of the press conference, Morris announced in public, "The higher-ups unconditionally support Chu Yan industrial's expansion plan and agree that Chu Yan industrial has its own security mercenaries!"

Hearing this, in the midst of an uproar, Yu Tian did not need to listen anymore. He had already gotten what he wanted. This was the first step, so the next step was the second plan.

Recruiting mercenaries.

With the help of the powerful network of the Chu family, mercenaries from all over the world, or people who wanted to become mercenaries, regardless of gender, as long as they were not children or old people, could go to Sean to sign up.

Yu Tian said domineeringly at the company's high-level meeting, "Now 50 kilometers south of the base belongs to us. We'll start construction tomorrow to build the mercenary base and expand the production plant at the same time."

"Apart from that, the research and development budget for the next six months will change from the previous 20 billion per year to 100 billion per year. I only have one request, to develop and create the world's most powerful weapon, all right, I don't want to waste any more time.. Let's Get to work!"

?Chapter 438 – Chapter 438 Was All A Conspiracy

Thank you readers!

Yu Tian's actions this time were especially big. Even the higher-ups of the Chu family were shocked. Chu Aotian was a little confused and had no choice but to ask Uncle Long.

Uncle Long said indifferently, "The master saw the bottleneck and he wanted to break through. This is inevitable. The other value of the Chu family is to help the master change everything"

"You and everyone in the Chu family should be prepared for this. The structure of this world is going to change. However, if it doesn't change, Yu Tian will not be able to break through the shackles of this world."

"What the Yu family has to endure is destruction. The current Yu family is also surging with undercurrents. The head of the Yu family is also forcefully suppressing the undercurrents of the family. If Yu Tian can not return to the family as soon as possible"

"Your Chu family and this world will have the possibility of destruction. So, put down your doubts and concerns and support Yu Tian in all aspects!"

Chu Aotian's expression also became heavy. He felt that his burden was also becoming heavier and heavier.

In the office of Xi'en country, the president of the Internal Affairs department, Hiram.

In the dark room, Hiram's cold expression made him appear even colder.

A man sitting on the sofa had a gaze that was even colder than Hiram's. It was as if he was a ghost floating in the dark night, filled with the aura of death.

Hiram said coldly, "Ernst, go and get the export data of Chu Yan industry. Then, I will hand it over to the International Arms Control Association. This is a very crucial piece of data, as long as you can get it, you can do whatever it takes!"

Ernst slowly got up and said in a hoarse voice, "Can you be the president of Xi En this time?"

Hiram narrowed his eyes and said in a low voice, "You are my most capable subordinate. If you do well in this mission, you will be the boss of the intelligence agency in the future!"

Wasn't this what he was pursuing? Ernst had always wanted to get this. That was why he became Hiram's assassin, using his blood to wash away his dreams every day.

Until now, even he couldn't tell if it was his dream or if he was still alive.

At this moment, in Chu Yan's villa.

After a round of passion, Yu Tian hugged Chu Yan and sat in front of the warm fireplace, talking about their love.

At this time, Chu Yan's phone suddenly rang. Yu Tian looked at the time. It was almost 10 o'clock in the morning.

Chu Yan picked up the phone. After listening to the report from her secretary, she was furious.

She threw the phone heavily on the ground and said angrily, "Those troops protecting the base have been withdrawn. The protesters are now destroying the base!"

Yu Tian narrowed his eyes and asked, "What does Barker think?"

Chu Yan said coldly, "It must be Morris' order. They want to increase the pressure on us through this!"

"But Morris has no reason to do so. This is not good for him!" Yu Tian put on his clothes and said indifferently, "You should ask Barker first. I will go to the base to take a look!"

Half an hour later, Yu Tian arrived at the periphery of the base. The scene was even bigger than before. There were at least thousands of people surrounding the base, shouting, "Chu Yan industry, Get Out!" At the same time, he threw stones and Molotov cocktails into the factory.

Fortunately, there were more than fifty security guards in the factory. They blocked the door with sandbags and aimed their weapons at the crowd outside.

Yu Tian placed his continental in an empty place and walked towards the factory on foot. He directly climbed over the wall and entered.

The Molotov cocktails that were thrown into the yard were burning with flames. The pungent smoke was so thick that people could not open their eyes.

At this moment, the sound of weapons being fired suddenly came from the entrance. It turned out that someone was trying to ram the door with a bulldozer. The security guard could only give him a reminder.

Yu Tian came behind the security guard and ordered coldly and arrogantly, "Move the sandbag away. Open the door and let it come over!"

The security guards looked at each other, but they still moved the sandbag away and opened the door.

As the crowd screamed crazily, the bulldozer rushed toward Yu Tian. The shimmering bulldozer pushed up the ground.

At this moment, Yu Tian shouted, raised his hand, and punched the bulldozer.

The bulldozer, which was at least 30 centimeters thick, cracked. The people around them felt a chill and fear.

Was this guy a human or a ghost? Could he break the bulldozer with his fists?

The one who was driving the bulldozer was still unconvinced and wanted to continue charging at Yu Tian.

"You gave me some face, didn't you?"

Yu Tian snorted coldly and punched out again. This time, the bulldozer's entire front face was dented. The powerful thrust forced the bulldozer's engine to reverse, and black smoke directly came out.

The bulldozer driver was so scared that he jumped to the ground and ran away as if he had seen a ghost.

Under Yu Tian's cold and arrogant gaze, the hundreds of people around him retreated step by step as if they had seen a ghost. They looked at him in fear.

Yu Tian said loudly, "What? If you are not convinced, come and take my fist. Come on, don't retreat. Didn't you guys shout quite loudly? Why are you cowards now?"

Who Dared to fight with a guy who could even break a bulldozer? They were just here to join in the fun and protest, not here to risk their lives.

However, there were also people who were not afraid of death. A wretched man silently picked up the Molotov cocktail, lit the rope in the bottle, and then threw it at Yu Tian.

The bottle had just reached mid-air when Yu Tian flicked his finger , and the bottle immediately shattered. Flames instantly fell into the crowd, and miserable screams immediately rang out.

The wretched man's entire body was set on fire, and he fell to the ground, struggling and rolling around.

This time, the crowd immediately dispersed, and one after another, they ran away while peeing their pants.

Yu Tian snorted coldly, and immediately called for the security guards to bring over fire extinguishers to extinguish the flames of those guys who were on fire.

But at this moment, all the security lights in the base suddenly flashed.

Accompanied by a piercing reminder, an earth-shattering sound rang out.

Yu Tian had heard from Chu Yan that there was extremely confidential information in the base, and the security level was also the highest. Once all the security lights flashed, it meant that someone was destroying the highest level of security protection.

Thinking of this, Yu Tian rushed toward the building like a bolt of lightning.

It turned out that all of this was a conspiracy. They removed the defenses in order to let the protesters attack the base. Then, someone could take advantage of the chaos to sneak into the base and steal the core secrets.

The core secrets of the base were stored in the security cabin on the 17th floor. Not only did they have the financial data of the export weapons, but they also had the design drawings, sample weapons, and so on.

Originally, it would have been faster to take the elevator, but the elevator had also been destroyed. Now, they could only waste time climbing the stairs.

The stairs on the 17th floor were nothing to Yu Tian. He quickly rushed into the floor.

The dozen or so security guards protecting the safety cabin were all killed. They lay on the ground and blood flowed like a river.

Yu Tian lowered his head to take a closer look. These security guards were all killed by a cut on their necks. The location and depth of the wounds were almost the same. It was definitely the work of an expert.

When he arrived in front of the safety cabin, the password-protected door was intact. There were no signs of damage.

However, Yu Tian suddenly turned around. The safety cabin had not been damaged. This meant that the expert was still in the room.

At this moment, a black shadow suddenly flashed out from behind the door.

The cold blade in his hand stabbed towards Yu Tian's neck as fast as lightning..

?Chapter 439 – Chapter 439, Consecutive Assassinations

Thank you readers!

Yu Tian had experienced too many battles like this. Even if he did not try to dodge, his body would instinctively Dodge.

Ernst's Blade missed, and he was shocked.

Yu Tian's figure seemed to have disappeared on the spot. A normal person would not have such speed, and it was definitely not because he was slow.

This was because no one had ever been able to dodge his first attack. Yu Tian was the first person he had encountered so far.

However, what Yu Tian wanted to do was not as simple as dodging. He was like a spanner as he rushed in front of Ernst again. He wanted to strangle him and subdue him, but he did not want to take his life.

However, Ernst's speed was not slow either. He used the method of blocking Yu Tian's arm to buy himself time to retreat.

This time, Yu Tian was a little surprised. This fellow's strength was really great. It shook his arm until it was a little numb.

However, this was even more exciting, wasn't it? He wanted such a strong opponent.

However, Ernst did not give him face. If he continued to fight like this, it would not be of any benefit to him. He might as well take the opportunity to leave this place and look for an opportunity to get some information.

He immediately jumped out of the window.

Yu Tian grinned and said, "F * ck, this is the 17th floor. Even if I can't beat you, I don't have to jump out of the building!"

However, thinking about it, he felt that something was wrong. That fellow was an expert. It was impossible for him to be so stunned that he would forget about the floors after two moves and jump out without hesitation.

He came to the window and looked up. That fellow actually had a rope in his hand. Like spider-man, every time he fell a few floors, a rope would pop out and Pierce into the wall. In the blink of an eye, it would easily land on the ground.

Before he left, Ernst looked up at Yu Tian. He was the first person who could make him leave in such a sorry state.

But that was nothing. One day, he would kill him with his own hands. It was better to leave now, before the security guards left.

Yu Tian stared at him without blinking. Come and go as you please. Do you think this is your kitchen?

He instantly activated his skill.

Doesn't that Guy Like to play with knives? Then let him play with something more powerful.

Just as Ernst was about to turn around and leave, he suddenly felt that something was wrong with his body. He looked down and saw that the dagger on his waist had suddenly become bigger than him. One side of it had already been inserted into the ground, and even his pants had been turned into crotch pants.

“What the Hell Is This? How can my weapon be like this?”

Seeing that the security guards had rushed over, Ernst did not have time to think too much. He simply tore open his pants, put on only his trouser fork, jumped out of the base's fence, and disappeared into the night.

Yu Tian only smiled indifferently. Let him live for a few more days. The next time they met, it would definitely take his life.

For now, it was better to take a look at the things in the safety cabin. It was best if there were no losses.

After entering the password, the cabin door opened. The two smart weapons hanging on the door immediately scanned Yu Tian's body. After the data was correct, the weapons were automatically put away.

There was a lot of data in the safety cabin, but they were all clearly classified. Yu Tian first found the financial data of the export of the weapons. After using his skills to shrink them, he stuffed them into a matchbox.

It was safe to put them in his place. The only valuable thing here was this financial data. It was useless to give them the rest of the design drawings.

That expert must have come for the data. Let's see how he will take it this time?a€?

Back in the villa, Chu Yan said angrily, a€?It was Hiram, the internal affairs president, who gave the order to Barker. Barker is a fence-sitter. Whoever blows the loudest will fall to whoever. He is also a good-for-nothing idiot!

Yu Tian smiled indifferently. a€?It's normal. Hiram is his boss after all. If he doesn't even listen to his words, does he still want to survive in the future? Barker is not of much use to us. Let him be!

Chu Yan did not say anything else. The two of them held hands and walked to the bedroom.

The next morning, the first batch of mercenaries successfully arrived at the base. Chu Yan's secretary, Rosa, received these fifty mercenaries from the desert area.

Rosa pointed to a simple dormitory and said with a smile, a€?Your base will start construction today. It will take at least ten days before it can be used. You will stay here first. The field over there is your training ground,

a€?Later, I will take you to get equipment and weapons. At noon, the President, Mr. Yu Tian, Will personally have lunch with you. I need to remind everyone that Mr. Yu Tian is your super boss,

a€?You have to give him the highest level of respect. Everyone understands!a€?

The mercenaries nodded in unison. The boss of such a large industrial base, who else could it be?

Therefore, at noon, when Yu Tian stood in front of them, no one believed that this young man was their boss for the next five years.

Yu Tian didn't have any special feelings for them. He smiled indifferently and said, a€?Welcome to my base. There are only three things you need to be clear about,

first, you must absolutely obey my orders. Second, you must undergo high-intensity training at all times and have the ability to fight all over the world. Finally, you must protect the safety of the base here,

a€?Anyone who tries to destroy the base can open fire directly and have the highest security clearance. That's all I want to say. In the future, there will be more mercenaries coming,

a€?When the time comes, you can tell them all this. Now, let's Go Eat!a€?

No wonder the treatment here was high. It turned out that the requirements were especially high. It was even fighting all over the world. Just this alone was very exciting.

Yu Tian was supposed to have dinner with everyone, but Chu Yan called him and said in a low voice, "Our chief weapon designer was killed!"

Yu Tian didn't know who he was, and he didn't care at all whether he died or not.

But what was the purpose of the person who killed him? Could it be that they wanted to obtain manufacturing technology?

This was impossible because Chu Yan's industrial weapon design all required perfection. Every chief designer brought a large team to develop and design a part of the weapon.

Even if they obtained the blueprint of this part, it would be useless.

Therefore, the person who killed this designer was very likely the expert from last night. This was to take revenge for him stripping his pants.

This was the first time he had seen such a pretentious method. It was a little interesting.

Yu Tian should eat, drink, and not care about this.

However, in the evening, ten people in the company, including the higher-ups, were killed.

Everyone was in fear. They even dared to go home after work, afraid that they would be killed.

Yu Tian was still indifferent. Chu Yan's industry did not lack people, but how many could he kill?

Chu Yan asked, "What do you think?"

?Chapter 440 – Chapter 440, Give Him The Password

Thank you readers!

Yu Tian flicked the document on the table and said indifferently, "What I'm thinking about now is how to get rid of PBG and those second-generation developers who come to show off from time to time,

as for the people here, it's a waste of time to put them in my eyes!"

Chu Yan seemed to understand Yu Tian's thoughts and asked, "So, this is also part of your plan, isn't it? But what I don't understand is, if you want to deal with PBG, why do you want to expand the industrial company?"

"This is to give them pressure. Super Nation is the world's largest arms exporter. The little things we sell are not even enough for them."

"That's why they dare to attack my people unscrupulously. This time, they even joined hands with PBG to try to play a big game for me. Since it's a game, it has to be fair. We can't just let them have the final say!"

At this point, he slowly stood up, as if he had pushed all his anger to the sky. It was time for him to erupt.

He turned to look at the Gray City and said in a deep voice, "You can't give up even if you want to. Dragging you to fight with him. Are you stupid or not? Chu Yan, call Pierce Quinn. I want to buy their shipyard!"

At this time, Secretary Rosa walked into the office in a panic. Because she was anxious, her heels were broken. She simply kicked her high heels aside and walked to the table with her sexy little feet bare.

She said nervously and angrily, "President, I just received the news that a few higher-ups have been killed. If we don't think of a way to stop this assassin, no one else will want to come to work!"

Chu Yan didn't know what to do. In her career, there had never been such a situation. She could only look at Yu Tian worriedly.

Yu Tian narrowed his eyes slightly. Has that Guy gone crazy? What the hell was he doing killing those higher-ups?

He suddenly turned around and asked indifferently, "Do these people who were killed all know the password of the Security Cabin?"

Lu sha nodded and said, "They do have access to it, but it's useless. The password of the security cabin changes every minute. They have to use their own password and the password of the security cabin to calculate it before they can get the password to open the door,

"Only two universal passwords are in your and president Chu's hands!"

No wonder they were killed. That Bastard couldn't get the password, so he definitely couldn't let them live.

Yu Tian asked, "Then who else knows the password now?"

Rosa flipped through the information on the computer and said in a low voice, "Only the head of the finance department, Bennett, is in the company Now!

"Let him see me!" Yu Tian ordered.

Soon, a middle-aged man in his fifties, who looked like a fool, came up to Yu Tian and said nervously, "Mr. President, Hello. I'm calculating this month's income and expenses. What I mean is"

"I can be here when I have time. No, Oh God, I'm so nervous. Why Don't you tell me?"

Yu Tian was a little confused. This guy was really suitable to be a finance director. He looked like an abacus. He smiled indifferently and said, "Don't be nervous. I'm very satisfied with your work, but now someone might want to kill you, it's because you know the password to the safety cabin!"

Bennett's face was bitter as he said angrily, "Could it be that he only wants to kill an accountant to prove his strength? Then let him kill him. I am not afraid of them!"

This guy was still straightforward, but Yu Tian quite liked him.

However, liking him did not mean that he wanted to talk more nonsense with him. Yu Tian said straightforwardly, "You don't have to be so agitated. You're pissing your pants in excitement. Listen well. Later, you'll go home generously, if an assassin asks for the password from you, give it to him. Don't be afraid. I'll protect you from behind!"

He was originally very afraid, but with the protection of this CEO who could even smash a bulldozer with his fist, what was there to be afraid of?

Half an hour later, Ernst returned to the apartment. Just as he was about to open the door, Ernst's Black Hand quickly covered his mouth, kicked open the door, and pushed him into the room.

Although he knew that Yu Tian was nearby, Bennett was still particularly terrified under Ernst's murderous and sinister gaze. He said with a trembling voice, "What do you want to Do? I am an accountant. I'll use a form that you can't understand,

"I'll give you a headache. You better not provoke me!

Ernst said coldly, "Tell me the password to the safety cabin. Don't tell me that nonsense that requires calculations. I've killed everyone who said that!"

"You are the last person who knows the password. Do you want to live or do you want to be like them?"

“I want to take a shit!” Bennett held his stomach and said with difficulty, “I want to take a shit when I'm nervous. Can you let me take a shit first? The password is no problem. I'll tell you when I'm Done!”

Ernst narrowed his eyes coldly and growled, “Go quickly!”

Bennett threw away his briefcase and rushed into the bathroom. They had to seize the time that he had bought for Yu Tian.

Yu Tian had already surrounded the apartment with the mercenaries.

However, he did not expect these mercenaries to be a match for that guy. He just wanted to take this opportunity to see their combat strength.

These mercenaries were all wearing the best combat equipment in the world developed by Chu Yan industry. They were holding the most advanced weapons and the best individual combat system. From the looks of it, their combat strength was indeed strong.

The mercenary group's commander, Locke, ordered his men to throw out the drone. The scene of the battlefield immediately appeared in the nearby activity command center.

In the Industrial Company's headquarters, in the building under the dark sky, Chu Yan ordered to immediately evaluate the data parameters of the equipment and weapons in the entire battle.

Bennett waited outside for a long time without any movement. He wanted to buy more time, but Ernst kicked open the door. He did not have the patience to wait here for this to be cleaned up.

The best way was to use his dagger to make him tell the password immediately. Otherwise, he would become a ghost under him.

Bennett was so scared that his face turned black and purple. Yu Tian had said that he would come to save him, but why hadn't he come now?

It looked like the only way to save his life was to tell him the password. He hoped that after this guy got the password, he would be so happy that he would forget about killing people.

Thinking of this, Bennett hurriedly raised his hands and said in fear, “I haven't wiped my butt yet, but I can give you the password. My password doesn't need to be calculated, it's a fixed high-level password,

“But I told you, can you leave this place so that I have the life to continue taking a shit?”

Ernst said coldly, "Tell me the password!"

Bennett hesitated for a moment and thought to himself, president, I can't die, especially not while I'm taking a shit. I'm sorry, I can only give him the password.

Ernst, who had the password, did not want Bennett to live. He was the finance executive of Chu Yan industry. If he died, he could also cause damage to Chu Yan industry.

Just as he raised his dagger and was about to stab down, the door and window suddenly opened..

I Have 108 Older Sisters #Chapter 441 - Read I Have 108 Older Sisters Chapter 441

?Chapter 441 – Chapter 441, Special Personality

Thank you readers!

Locke used the standard attack mode, tear gas, and sonic bombs. At the same time, he threw them into the apartment. The moment the smoke exploded, he rushed into the house and used his fastest speed to occupy the main position of the room.

Yu Tian, who was standing not far from the apartment, was watching the live broadcast. Those mercenaries would never be able to kill Ernst. If he were him, he would definitely use Bennett as a hostage.

Ernst did the same thing. He covered his face with a wet towel first, then found the nearest window, grabbed Bennett, and used him to block the bullets.

Bennett was pushed out of the bathroom without even lifting his pants. With tears and snot flowing down his face, he shouted, "Don't shoot! It's me, Bennett!"

Commander Rock immediately signaled him not to shoot and shouted, "Let go of that man without pants. We can let you leave with dignity!"

If he believed him, he would not be Ernst.

He did not want to waste any more words. He retreated to the window and stabbed Bennett in the back. Amidst a series of screams, he jumped out of the window.

If he left like this, it would not be his personality. Killing under the eyes of so many mercenaries was his skill.

The two mercenaries outside the window immediately raised their weapons when they saw a figure.

However, Ernst smiled coldly and instantly cut their necks with his dagger. This was the kind of pleasure that he wanted to take someone's life in an instant. This was his art.

When Locke rushed to the window, he fired a bullet at Ernst's figure. However, that guy was so fast that he couldn't even aim properly. He could only watch him leave proudly.

He hurriedly radioed Yu Tian and reported, "Boss, I'm sorry. That guy is missing. Bennett is injured!"

Yu Tian adjusted his earphones and smiled indifferently. "You guys send Bennett to the hospital first. You guys did a good job this time. Don't worry about that guy!"

Locke did not know why Yu Tian was so calm, but it was better than being scolded. It was better to save that idiot Bennett first.

Yu Tian naturally had his own plans. After returning to the headquarters, he continued to watch the live broadcast.

At the same time, at Linhai Xinghe technology company, Chu Hong sat quietly in Yu Tian's office and pondered carefully.

The jade pendant was not here either. Where could Yu Tian have hidden it? Could it be in the hands of other sisters?

Chu Qing, Chu Rou, or Chu Kin?

At this moment, there was a sudden knock on the door. Chu Hong was shocked and hurriedly closed the drawer. She shouted, "Come in!"

Yan Longwen pushed the door open and entered. She thought that Yu Tian was in the office to show him the upgrade file for the six-dimensional code, but she found Chu Hong sitting there with a gloomy face.

She had never really liked this Chu Hong, so it was better to give her a perfunctory reply first.

She then smiled and said, "Good Morning, Secretary Chu. Is president Yu not around?"

Chu Hong said coldly, "President Yu has gone abroad and will only be back for a few days. You can tell me!"

Yan Longwen did not want to waste time with her. She smiled and said, "It's like this, the fifth upgrade of the six-dimensional code. I want President Yu to see the content of the upgrade. Since president Yu is not around, we can talk about it when he comes back. I'll go back to work first!"

"Wait! Chu Hong stopped Yan Longwen from leaving and said in a dignified manner, "Why? Can't I look at these documents? If president Yu is not here, don't you all need to stop working?"

What kind of crazy woman was this? Yan Longwen felt a wave of contempt in her heart, but she could not help but smile and say, "I didn't mean that. I thought Secretary Chu was very busy and did not want to disturb your work."

The upgrade documents are all here. Please take a look. If possible, I'll start uploading the documents immediately!"

Chu Hong didn't even look at the documents. It was time to get rid of the people around Yu Tian.

Especially this Yan Longwen. It was said that Du Tianci's side had always wanted the technology of the six-dimensional code, but these technologies were all in Yan Longwen's hands. If she was asked to get out of the company, she would definitely join hands with Du Tianci.

When the six-dimensional code technology was leaked, Xinghe technology would suffer a loss of tens of billions in an instant. At that time, the management department of the Chu family would definitely blame them.

When he pushed all of this onto Yan Longwen, Yu Tian could not say anything. He would take the opportunity to use this excuse to comfort Yu Tian. Perhaps he would be able to get the jade pendant.

Thinking of this, Chu Hong said coldly and arrogantly, "Yan Longwen, other than getting paid, what else can your technical department do? Currently, the six-dimensional code technology is in the testing stage. There are tens of billions of dollars coming in and out every second!"

As for the software bugs, they came one after another. Your speed of upgrading was simply unable to meet the needs of the software. Those people in the technical department under your management only know how to eat, drink, and have fun all day long.. , you, as a high-level manager, don't have any management ability at all..,

"I've really had enough of all of you, so after discussing it with CEO Yu, I've decided that both you and your technical department can leave Galaxy!"

Yan Longvven was so shocked that her eyes were about to pop out of their sockets. She said angrily, "Secretary Chu, Did I hear you wrong? Do you even understand software? Every BUG that is tested must be combined with the data of the entire software system!"

"Only then can we compile an upgrade document. The people in the technical department are working at a high intensity every day. Even I am not able to get off work on time. What right do you have to say that we are not doing anything?"

Chu Hong sneered and said with disdain, "I am the senior manager of the company. I only have one thing in mind, and that is CEO Yu's interests. Any action that undermines CEO Yu's interests must not appear."

"I don't want to talk to you anymore. Get Out!"

Yan Longvven was so angry that tears almost flowed out. She gritted her teeth and said, "I don't believe that this is CEO Yu's intention. Unless CEO Yu tells me personally, no one can expect me to leave!"

"You can call President Yu yourself. Get out of here now. Don't Let Me See You Again!" Chu Hong did not even look at her.

Yan Longvven stomped her feet and left the office. She immediately called Yu Tian.

Yu Tian was currently eating. Chu Yan had personally cooked the roast meat for him. However, Yu Tian felt that the roast meat was too f * cking disgusting. It was no different from eating dirt. His teeth were aching.

The phone rang. Yu Tian seemed to have seen his savior. He hurriedly got up and went to the living room.

Chu Yan, who was in the kitchen, shouted, "What are you doing? I even made soup!"

After Yu Tian heard Yan Longwen's sobbing, he felt a little strange. It was impossible for Chu Hong to be so crazy now. Could it be that her menopause had come early.

He comforted her softly first, "I didn't say to let you leave the company. You should work. I'll Call Chu Hong Now and ask this woman if I can't control her anymore!"

Very soon, Chu Hong's phone rang. She smiled proudly and picked up the call.

She said gently, "Hey, do you still remember the existence of a person like me?"

“You were so carefree and happy over there. I was so tired over here.. You didn't even say thank you to me!”

Chapter 442 – Chapter 442, I Am The Master

Thank you readers!

Yu Tian did not want to say this. He would not be able to thank her even if he wanted to. Then, he said calmly, “Yan Longwen can not leave the company, and I have no intention of letting her leave. You can not give such an order on my behalf!”

Chu Hong was extremely angry. If she did not want to get the jade pendant, who would want to listen to him? She said coldly, “You are overseas and have no idea what is happening here!”

Yan Longwen had been in contact with Du Tianci. She held the company's core secrets. If it was leaked, the company would suffer a huge loss. Therefore, I had to do this,

not only did I want to get rid of her, but I also wanted to change the company's technical team immediately and rewrite the core code of the six-dimensional code. Yu Tian, I did this for you, for the company,

“No one else will care about this. Don't you know about Du Tianci's betrayal? If Yan Longwen is also bribed by Du Tianci, then you will only be a joke to others,

“Not only do I want her to leave, if necessary, I will immediately get someone to get rid of them!”

Yu Tian felt extremely baffled. He knew Yan Longwen too well. He was not that kind of person at all. Was Chu Hong going a little overboard by doing this?

He then said coldly, “As far as I know, I am the boss of the Xinghe company, the master of the Chu family. Do you want to disobey my orders?”

Chu Hong was very calm now. She knew that she could not anger Yu Tian at this time. There was no benefit in doing so.

She chuckled coldly, she complained, “You don't have to remind me of all this. You are indeed the boss. Whatever you say goes. Yan Longwen may not have to leave, but if I find out that she betrayed the company's interests, I will still do it!”

Yu Tian immediately hung up the phone. He suddenly felt that there was something wrong with this woman. She seemed to be unhappy with everyone.

Meanwhile, Chu Hong slowly put down the phone and smiled coldly. She thought to herself, "You can still order me now. When Yu Han becomes the master of the Chu family, you will be nothing!"

Then, she picked up the phone and dialed the number. After the call was connected, she said coldly, "Can I trust you?"

It was the middle of the night in Sean's house. It was especially cold. The drizzle fell on the human world, making the homeless homeless people huddle around the fire to keep warm. At the same time, they cursed the cruelty of Chu

Yan industry.

Ernst lit a cigarette under the dim street lamp.

Today, he had to get that information no matter what. Hiram had lost his patience, and his dream was on the verge of collapse. It was up to him to grasp it.

He threw away the cigarette butt and turned to walk to the helicopter.

A man in a suit said to him expressionlessly, "Hiram told me to tell you that this is your last chance. If you don't get the information today, you can leave the country.

The things you want are here. Ernst, seize this opportunity!

Ernst did not want to waste any more time with him. He immediately changed his equipment and put on his helmet. He also carefully and skillfully checked the silencer and then put the rope into his backpack.

At this time, the helicopter was about to reach the top of the industrial building. Ernst opened the cabin door. The moment the plane passed the top of the building, he jumped down without hesitation.

A height of more than ten meters was no problem for him. He rolled on the ground and immediately stood up.

The Man in the suit shook his head helplessly and said coldly, "What a lunatic!"

The security guards in the industrial area only raised their heads to look at the helicopter. They were not on guard at all. It was just a passing helicopter.

Ernst tied the rope properly and followed the dark corner of the building to fall outside the window on the seventeenth floor. Then, he took out the melting potion and silently melted the glass.

The security on the seventeenth floor was still heavily guarded. However, after a burst of muffled explosions, more than a dozen security guards were all knocked down by the Silencer.

Ernst did not even look at the people who were lying in a pool of blood. No one could stop him from realizing his dream.

After entering the password, the door of the safety cabin opened with a click, as if the door of his dream had opened at the same time.

He walked into the safety cabin without hesitation and began to search for the information. However, he did not realize that Yu Tian had already arrived at the door from the darkness and closed the cabin door.

Hearing the sound, Ernst suddenly turned around and rushed towards the door. No matter how hard he pushed, the door did not budge at all.

At this moment, the television on the wall suddenly opened. Yu Tian said proudly, "This door weighs 10,000 pounds. Don't even think about blowing it open with a bomb. You'd better save your strength!"

Ernst looked at the television coldly and said gloomily, "Do you dare to fight me one-on-one?"

Yu Tian smiled disdainfully and said, "What era is this? Still want to fight me one-on-one? It feels so good to watch you die trapped here. Only an idiot would fight you one-on-one. But don't worry, you won't die now!"

Because this safety cabin also had an air system, but there was no food or water. In addition to the torture I inflicted on you, how long do you think you can last?"

Ernst was shocked. He had really been careless today. Since it was impossible for him to leave alive, what was there to be afraid of? Therefore, he said with a cold snort, "You can try!"

Yu Tian chuckled and said, "Alright, that's What I was thinking!"

After saying that, he immediately ordered the mercenaries around him to raise the temperature in the safety cabin to 40 degrees above zero.

When the body was resisting the high temperature, the physical exertion was the greatest. Adding on the loss of water, it was already the limit to be able to last for a day.

Yu Tian did not want to ask him anything now. Even if he asked Ernst, he would not say anything. He would torture him first before speaking.

Ernst, who was in the safety cabin, was already drenched in sweat. He had no choice but to take off his equipment. However, he was still particularly hot. He took off his clothes and sat on the stuffy ground wearing only his pants.

Yu Tian, on the other hand, was drinking hot coffee. He looked at him with enjoyment and said with a smile, "Look at the coffee I'm drinking. It was grinded first. The taste is especially good. The aroma of this coffee will definitely be in your mind!"

Ernst's throat moved. He turned his head to look elsewhere and saw the weapons and daggers on the ground.

Shouldn't he have been prepared for this long ago? But now was not the time.

Yu Tian wanted to win by torturing him. Then he must not let him succeed. Let's see who can last until the end.

In the blink of an eye, it was noon the next day. Chu Yan looked at Ernst, who was so weak that he could not sit up. She asked in a low voice, "How long do you want to torture him? If he is not willing to cooperate, get someone to kill him!"

Yu Tian was eating all the delicious food on the table as he smiled at the safety cabin. "I'll have no intention of killing him. This guy's skills are not bad, we can use him!"

After saying that, the mercenary turned on the TV in the safety cabin. Yu Tian smacked his lips and smiled.. "Are you hungry? Are You Thirsty?"

?Chapter 443 – Chapter 443, I Want The Shipyard

Thank you readers!

At this moment, Ernst was on the verge of collapse. He was extremely weak and did not even have the strength to hold a weapon. He could only stare blankly at Yu Tian on the television, his eyes filled with hatred.

Yu Tian ordered Locke to open the door and drag Ernst to the front.

Looking at his half-dead appearance, Yu Tian did not even have the mood to torture him anymore. He said indifferently, "You just have to tell me who told you to do it, and I can let you Live!"

Ernst wanted to speak, but his throat was so dry that he could not say anything. Yu Tian motioned for Locke to pour some water on him before he could barely make a sound.

However, his first sentence was an angry curse at Yu Tian.

"Don't think about getting any information from me. If you have the guts, kill me!"

Yu Tian wiped his mouth and said disdainfully, "If I wanted to kill you, I could have killed you when I stripped your pants that day, but I plan to give you a chance!"

As he spoke, Yu Tian threw a document on the table and said coldly, "Your name is Ernst, a former agent of Sean's intelligence agency. Later, because of your failure in your mission, you were abandoned by the intelligence agency, then, you became the secret assassin of the internal affairs director, Hiram. I also know that your dream is to return to the intelligence agency, but I don't think Hiram can help you realize this dream,

but I can help you realize it. I know that Hiram ordered you to do this. As long as you say it yourself, I can buy the entire intelligence agency for you. At that time, you can do whatever you want!

As expected, Ernst was tempted. He looked at Yu Tian in disbelief and said in a trembling voice, "Is what you said true?"

Yu Tian said indifferently, "The scene is so big. Do you think I'm joking with you? I don't have the leisure to waste so much time fooling you here,

"And it's not worth it. You just need to tell me that Hiram asked you to do this, and you can get everything you want. I Won't say it again. You'd better think about it yourself!

Ernst was silent for a full five minutes before he slowly said, "Hiram asked me to do this. He asked me to get your export information and prepare to hand it over to the International Arms Management Association,

"He wanted to use them to suppress you. If I could get the information to him, he would make me a high-ranking officer in the intelligence agency. Moreover, the last order was that I could get the information by any means possible, including killing the high-ranking officers of Chu Yan industrial company,

"That's why I did this. Hiram asked me to do all of This!"

Locke recorded everything he said and handed it to Yu Tian.

After Yu Tian received the information he wanted, he smiled indifferently and stood up. "Get him some food and drinks, and let him stay here for now!"

He had always thought highly of Ernst. This person could be completely used by him, and he could still be of use in the future.

He should go and meet Hiram now. Of course, the top manager, Morris, also had to be present. Only then would it be convincing.

Very soon, Morris and Hiram sat opposite Yu Tian in the meeting room of the senior management department.

Hiram's eyes were particularly gloomy. He could not wait to kill Yu Tian right now.

Morris had no idea what had happened. He looked at Yu Tian with puzzlement and asked, "Mr. Yu, why are you in such a hurry to meet us? What exactly happened?"

Yu Tian knocked on the table and smiled indifferently. "Such a big management office, and there isn't even a cup of coffee. Ask your people to make me a cup of coffee first, and then we can talk about it slowly!"

Morris himself did not ask for a cup of coffee. Sean's budget was very tight right now, and he had to give up everything that he could, including the coffee.

But since Yu Tian had already brought it up, Morris still asked his secretary to make him a cup.

Yu Tian took a sip of coffee and let out a sound of enjoyment. Then, he showed the video footage to the two of them.

Hiram's face became more and more unsightly. At the end, his facial features were all twisted together.

He absolutely could not say that he did it in front of Morris because Morris was a weak person. He could not resist Yu Tian at all.

Thus, he sneered and said, "I don't know what this means. I don't even know this Ernst. What do you want to say to us with this?"

Yu Tian already knew that he would not admit this so readily. Thus, he took out a few more photos.

These were all bought by Chu Yan through a powerful financial system. In the photos, it was the content of the meeting between Hiram and Ernst.

This time, Hiram was really speechless.

Morris looked at Hiram helplessly and said with a troubled expression, "Why are you doing this?"

Before Hiram could say anything, Yu Tian interrupted, "Of course he's doing it for Sean. But in my opinion, this is just his excuse. He wants to replace you as the top manager here."

“And he also said this to Ernst and the others. He just wants to borrow my hand to achieve his dream faster!”

Hiram's face was already dark, and he could not say a word.

Because what Yu Tian said was indeed what he thought.

Morris stood up angrily and asked in a trembling voice, “Is this really what you think? You really disappoint me!”

After saying that, Morris wanted to leave the meeting room, but Yu Tian stopped him, “Mr. Morris, you can't leave yet. More than a dozen senior executives in my industrial company were killed by him. Do you want to leave just like that?”

“This is too unfair to me. At least you have to give me some compensation so that my people won't die in vain!”

The thing he was most afraid of was Yu Tian saying this. Morris sat down helplessly on the chair and asked in a very lonely manner, “Then what compensation do you want? I hope that this is what I can do, because you have already obtained too much from this!”

“If you want Hiram to die, I Won't Stop You. What he has done is enough for him to die a hundred times!”

He chuckled every day, he said indifferently, “I don't care about his life at all. I want your shipyard, including all the technology in the shipyard. As long as you hand him over to me, I can pretend that none of this happened, otherwise, this information will be immediately made public. At that time, Hiram will not be alive, and you, the top manager, will not be able to continue sitting in this position. You can weigh it yourself!”

Morris frowned and shook his head helplessly.. Finally, he nodded and said in a low voice, “Then the shipyard is yours!”

?Chapter 444 – Chapter 444, The Key Part

Thank you readers!

Yu Tian smiled smugly and got up. “You can continue playing with me. Next time, I want this management building!”

He couldn't be bothered with these two idiots now. Now, he had to take over the shipyard. That was what he wanted.

When only Morris and Hiram were left, Hiram got up angrily and said breathlessly, “Morris, he is nibbling away at Sean's resources bit by bit!”

“If this goes on, in the future, the management of our Sean will only be a shell. At that time, what value do we have to exist?” “You give me the command, and now I can get them out of Sean!”

Morris looked at his crossed hands. He really did not want to see Hiram's expression. He waited for Hiram to finish speaking, he then said coldly, “Your idea is not bad. It's best to hand over the position of the highest manager to you,

“At that time, you can do whatever you want. Fortunately, it's not up to you now. Hand over your position as an internal affairs executive. I don't want to See You Again!”

After saying that, Morris left angrily. Hiram clenched his teeth tightly. He had long since given up on being an internal affairs executive. Now was the time to do everything he wanted to do.

This included attacking Yu Tian and Chu Yan industrial company.

At this moment, Yu Tian had already arrived at the biggest shipyard in Sean. The reception was very smooth. At the meeting of the higher-ups, Yu Tian instructed them on the spot, “Your job now is very simple,

to build an aircraft carrier, use the fastest speed and put in the most effort. I want to launch at least five aircraft carriers in a year's time. I will inject the funds one by one. From now on..,

“This shipyard and all of you are from Chu Yan industry. I don't have any other requests. Just be obedient!”

All the higher-ups didn't have any opinions. It was their fortune to join Chu Yan industry. Sean and Morris couldn't give them any benefits, but in Chu Yan industry, it was an absolute benefit.

Yu Tian nodded his head in satisfaction. Then, he went to his new office. Chu Yan's secretary, Lu Sha, was helping to tidy up.

Looking at Lu Sha's figure from the back, it was very sexy. Yu Tian rubbed his chin and thought, could it be that other than the 108 sisters, I really can't touch any woman other than the Chu family?

Lu Sha heard Yu Tian's footsteps and quickly turned around. Her long blonde hair gave off an extremely sexy beauty.

“Mr. Yu, your office has been tidied up. Here is the information on the transfer of the shipyard's higher-ups. Take a look. If there are no problems, I will arrange it immediately,

[a€?Oh right, Miss Chu asked me to be your personal assistant from now on. YVhen she is not by your side, I will arrange everything for You!

Yu Tian did not have any special feelings. He had too many personal assistants. Besides Xiao Yun, not many of them could enter his heart.

He smiled indifferently and said in a low voice, a€?Being my personal assistant, your life is tough enough. Are You Afraid of Death?a€?

Lu Sha was a little flustered. Although Chu Yan industry was indeed different from other companies, she couldn't just be an assistant and die. She said with a fearful tone, a€?I think you will let me live well!a€?

a€?I will try my best! a€?Yu Tian laughed. He felt that when Lu Sha was afraid, her expression was still beautiful. That plump oval face was really infectious.

Under Yu Tian's passionate gaze, Lu Sha's fearful gaze was gradually covered with a trace of deep affection.

Just as the atmosphere became more and more blurred, Yu Tian's phone suddenly rang.

Chu Yan smiled and said, a€?Are you satisfied with Lu Sha's job? She is more enthusiastic than me!a€?

Yu Tian had already understood Chu Yan's meaning. He smiled disdainfully and said, a€?She is very enthusiastic. We are having fun now, but I think we should listen to what you have to say First!a€?

She knew that Yu Tian was joking with her, so she chuckled and said, a€?There's a client from Super Nation coming over today. I think you must really want to meet him!a€?

Of course, she had to meet him. This was a crucial part of her plan. Yu Tian nodded and said, a€?Okay, then let's have a cocktail party tonight. I haven't had a party for a long time!

Chu Yan also supported this suggestion. She also wanted to have more contact with the people of Sean's upper class.

In the blink of an eye, it was evening. Yu Tian, who was in a suit and tie, was holding hands with Chu Yan. They arrived at the entrance of Sean's Royal Hotel.

A large number of reporters were flashing their cameras. On the other side of the hotel, there were also a large number of protesters shouting their dissatisfaction.

Yu Tian glanced at them from the corner of his eyes and snorted in disdain. He said in a low voice, "They could have gotten a good job in an industrial company, but they insisted on protesting here. I really don't know what they are thinking!"

Chu Yan said indifferently, "This is the characteristic of the people of Xin. They always want to pursue the so-called fairness. Forget it, the guests are almost here. Let's go and participate in the banquet!"

At this time, someone in the protesting crowd saw Yu Tian and Chu Yan and shouted angrily, "Look, Yu Tian and Chu Yan, those two devils. We are starving here, but they are using our blood and sweat to indulge in debauchery here, they should be killed by us!"

After saying that, the crowd also became excited and violently rammed into the mercenary wall. Locke directly rushed to the front of the crowd and hit the ground with a hook fist. Then, he dragged out of the crowd and gave a series of punches and kicks.

The crowd became even angrier and wanted to continue charging. Locke directly took out his weapon and shot at the feet of the crowd. He shouted angrily, "Whoever dares to come will die. All of you, step back!"

After saying that, all the mercenaries raised their weapons. The protesters immediately backed off.

Hiram, who was standing in the distance, smiled coldly. These protesters could only be used.

The middle-aged man behind him said in a low voice, "Mr. Hiram, Yu Tian also invited the president of the intelligence agency, Valensa, to participate in this cocktail party. It seems that Valensa also wants to stand on Yu Tian's side now!"

Hiram gave a gloomy smile and said disdainfully, "These people are willing to be Yu Tian's slaves, but they will never think that there is still a me in Sean who has never taken Yu Tian seriously!"

"These people who are on Yu Tian's side, one day they will kneel in front of me and repent their arrogance today!"

The middle-aged man looked at Hiram with admiration and said in a low voice, "Sean now depends on Mr. Hiram. Oh right, the Super Nation's agents have sent me a message. She will also attend the banquet tonight to collect information."

"But she hopes to share other information with us!"

Hiram nodded and said coldly, "No problem. As long as she can get the information that can make Chu Yan's industry collapse, I can provide her with everything she wants.. Now, let's see if she has the ability to do so!

?Chapter 445 – Chapter 445, One Bottle Per Person

Thank you readers!

After Yu Tian and Chu Yan arrived, the party became even more lively.

Everyone was greeting the two of them. Yu Tian only nodded slightly. Anyway, these dead foreigners were almost the same. Whoever they liked was who they were. He only needed to remember a few of them.

Chu Yan then brought Yu Tian to a man wearing a plaid suit, a red bow tie, and a red beard, she greeted him with a smile, "Mr. Tai Long, you're here early. Let me introduce you. This is President Yu Tian of the industrial company,

he's also my boyfriend, my dear. This is the distinguished customer that I told you about!"

Yu Tian smiled indifferently and greeted, "Hello, Mr. Tai Long. I'm glad that you can come to my party!"

Tai long just nodded expressionlessly. Then, he hugged Chu Yan warmly and said arrogantly, "Chu Yan, your company has always been very good under your management,

and I have always been working with you. I don't want my partner to be someone else. It's meaningless to do business like that!"

Chu Yan was afraid that Yu Tian would be angry. She held onto his arm tightly and smiled charmingly. "Thank you for your kindness, Mr. Tai Long. But I can say with certainty that both I and Yu Tian will be your best partners!

As soon as he put on an act, Yu Tian could tell that this guy did not have much ability. Chu Yan told herself that this Tai Long was a very powerful arms dealer in the world. The weapons he sold were sold to many regions.

He even had the ability to lead a regional conflict. Of course, Chu Yan industry wasn't the only one who sold him weapons. There were also many super weapons industry companies that cooperated with him.

At this time, tai long still showed disdain towards Yu Tian. He drank a mouthful of red wine and said with a wanton gaze, "The red wine at today's cocktail party is not bad. Everyone is familiar with each other,

“After the banquet, everyone will be given a bottle of the same red wine. Your boyfriend Yu Tian will pay for it. Besides weapons, I never spend money to buy anything else!

This was much more mellow than asking him to pretend.

Yu Tian shook his head and smiled. He said domineeringly, “Of course the wine can be given. I also prepared to give each of them a rocket launcher so that when they drink red wine, they can unscrupulously bomb everything that they are unhappy with. How lively would that be!”

Tai long narrowed his eyes coldly. This was clearly playing with his strength. No matter what, he was still a super rich man. How could he let a skinny eastern man suppress him?

He sneered. I don't believe that you can give them rocket launchers, but I believe that you absolutely don't want to make me unhappy. Because I can easily turn the 50% of sales that I make for you into or zero!”

“But this is unfair to Chu Yan. I am a gentleman, and I am definitely not a bastard like you who gives away rocket launchers casually. So, I am very curious. Why would Chu Yan choose you to be her man?”

Yu Tian couldn't be angry at all, he said proudly, “So, you'll never know why Chu Yan likes me. And you'll never know. In fact, this time, I don't want to sell any weapons to you.”

I just want you to know that we have found a better partner. He can continue to enjoy our ultra-low price and our specialized weapons transportation route!

Tai Long's eyes were immediately filled with murderous intent. He said coldly, “Other than me, Tai Long, no one in the Super Nation has the guts to buy your things!”

Yu Tian laughed along, “Who said you are a buyer of the super nation? The things are made and produced by me. I have the final say. If you are in a good mood, I can give them away for free. If you are in a bad mood, you can f * cking kneel in front of me and I will ignore you,

“This is why I can be the CEO and the reason why I'm with Chu Yan's husband. It's because I'm domineering!”

Tai Long's expression became even colder. He immediately looked at Chu Yan and asked unhappily, “Chu Yan, do you support his idea?”

Chu Yan was also in a difficult position, but she definitely believed that Yu Tian was not fooling around. This was because Yu Tian could meet pretentious people every day. It

was not worth it to throw away a business worth billions just because of Tai Long's words.

Therefore, Yu Tian definitely had his own plan. She shook her head helplessly and said in a low voice, "I am his woman. Of course, I will support his idea. Moreover, Yu Tian is now the president of the Industrial Company, his decision can not be changed!"

As soon as these words were said, Tai Long's expression was as if his pants had hit the pool when he was pissing. The reason why she cooperated with Chu Yan's company was because the quality of the products they produced was very good. They were especially popular in the market.

The price was also exceptionally low. After doing business for so many years, only Chu Yan's industry had made a lot of money.

The best thing was that Chu Yan's industry had its own transportation route, and there was also an aircraft carrier fleet to escort them. Last time, they had sunk more than ten super country's fleets, and the entire super country knew about it.

Tai long carefully pondered. If he really interrupted the cooperation with them, the loss would still be his own business.

Yu Tian had actually seen through his heart a long time ago. At the same time, he also knew his own advantages. There was no need to waste so much time with him on business. He did not want to do it, but there were many people fighting to do it.

As they spoke, a brown-haired woman in a black evening dress in the crowd elegantly chatted and laughed with the people around her.

However, the pin on her heart was always pointed at Yu Tian and Tyrone. The camera recorded their conversation.

At this moment, Tyrone still admitted defeat. He said in an obviously gentle tone, "Of course you can change partners, but they definitely won't have my strength. I've been doing this for more than ten years,

"I have many supporters behind me, so I feel that our cooperation is the most perfect. If Mr. Yu Tian can think about it calmly, you will understand that choosing the right partner.

you will be able to earn more money!"

Yu Tian laughed disdainfully, "But I feel that you are not the right partner.

Today is such a good occasion, but you are wearing such clothes. Don't you feel that you look like an idiot now?"

“You are right about one thing. You have a lot of supporters behind you. Otherwise, your business would not be so good. You and I both get what we want,

I can continue to provide you with good things, and the price will be lower than before. However, I have a condition. I want your supporters behind you to support me as well!

Tai long suddenly narrowed his eyes. He didn't know what Yu Tian meant? He asked doubtfully, “Mr. Yu Tian, I don't know what your request is for.”

Yu Tian smiled indifferently and said arrogantly, “It's very simple.. I want to let more goods, all kinds of goods, enter super country until they think that attacking my fleet is a wrong idea!

Chapter 446 – : Chapter 446, Toy Model

Thank you readers!

It was obvious that he wanted to destroy the superpower's economy, but who cared about that? Tyrone was still looking at his own interests. As long as Yu Tian could provide him with something profitable, why not do it?

Thinking of this, Tyrone raised his wine glass and smiled as he toasted Yu Tian. Cooperation was so simple.

Chu Yan, who was standing at the side, finally understood Yu Tian's intention. It turned out that he had been thinking about the attack on the fleet and wanted to take revenge himself.

Compared to using force, his move was more effective. It had to be said that Yu Tian was really too smart. He was always able to see the most crucial part and then make use of it.

Tyrone was still pretending to be arrogant before, but now he had completely taken him down. This was Yu Tian's charisma, wasn't it?

On the other side of the party, Rosa came to the back of the woman in black evening dress and said with a smile, “Milo, when did you come back? Didn't you tell me?”

The woman in evening dress turned around and hugged Rosa deeply in surprise. She said excitedly, “Sister Rosa, I just arrived at Sean Tonight, so I'm here to represent my company to attend this party”

“I really don't have time to tell you. How are Mom and Dad?” “What's Jack doing now?”

Rosa said excitedly, "They will be very happy to have you back. My sister, I can't wait to let them know the Good News Now!"

"You've been developing in Super Country before, and you rarely call us. Now that you're back, our family must celebrate!"

Milo nodded fiercely and said with tears in her eyes, "We must celebrate. We haven't seen each other for two years. I often go back to our place in my dreams."

"Every Time I wake up, I cry. God, I really don't believe that I can see you here. Mom told me that you're a senior secretary at Chu Yan industry. Your job must be very good, right?"

Rosa nodded without hesitation and said with a smile, "Yes, this is the best job

I have ever done. Now I am the personal assistant of President Yu Tian,

"Come, I want them to meet my sister. If it is possible, you can also choose to work in an industrial company. I will definitely help you fight for a particularly good position!"

Milo felt particularly conflicted. He had returned to Sean as an agent, and his mission was to obtain information about Yu Tian and the entire industrial company.

But now, his own sister was actually Yu Tian's personal assistant. If he wanted to complete this mission, he had to make use of Luca.

At this time, Luca had already introduced her to Yu Tian and Chu Yan.

Yu Tian greeted her with a smile on the surface, but in his heart, he felt that there was something wrong with this woman. It was definitely not because of her evening dress, which outlined her figure to be extremely sexy.

But in her eyes, he could see a very cold feeling. This kind of coldness was definitely not something a woman should have.

It was more like the feeling of a ruthless killer, or someone who did not recognize their own family.

Thus, Yu Tian asked, "Miss Milo, which company did you work for in Super Nation?"

Milo smiled generously and said, "I work for an accounting company. I often do some financial budgeting for people. It's not a big company, but it's better than not being able to find a job in Sean!"

Yu Tian did not ask any more questions? Instead, he pretended to look at the phone and sent Milo's profile picture to Chu Wen.

The moment Chu Wen saw the profile picture, she immediately understood Yu Tian's meaning. She turned around and said to the few men in suits beside her, "Go and collect information about this woman!"

The few men in suits immediately nodded and left.

The meeting was still going on happily. Those people from the upper class were all fighting to drink with Yu Tian. They only hoped to cooperate with Yu Tian in various fields.

A middle-aged woman said with admiration, "The one who controls this country now is not Morris and the others, but the Chu Yan industrial group. It's this handsome Mr. Yu Tian!"

"This is the future of Sean. So, I just hope that I can always stand by his side. This is my best choice!"

"What you said is not wrong at all. Right now, Yu Tian controls more than 40% of Sean's wealth. According to my calculations, if his wealth exceeds 50% , then he can become the top manager!"

When that happens, all of Sean will be his!"

"So everyone should know that this party is definitely not a simple one. Yu Tian must be watching. Who can be trusted? Who can stand by his side? So we all know what to do!"

While everyone was busy, Milo held Rosa's hand and told her stories in the lounge.

However, Milo's eyes kept looking at the backpack that Yu Tian had left with Rosa.

All the information that she wanted was already there.

Thinking of this, she touched her forehead and said excitedly, "I'm so happy. I'm so excited. Can you get me something to drink?"

Rosa didn't think much of it. She picked up Yu Tian's backpack and was about to get something to drink.

Milo narrowed his eyes and smiled indifferently. "It's just a backpack. Just leave it here. I'll watch it for you. There won't be any problems!"

Rosa thought for a moment. Yu Tian had told her that this backpack had to be kept by her side at all times. However, Milo was her own sister, so there shouldn't be any problems.

So she put the backpack on the table, got up, and went to get a drink.

Milo immediately opened the backpack and began to search carefully.

But what made her feel particularly strange was that Yu Tian's backpack was filled with models and a few matchboxes, but there was nothing useful.

She picked up a matchbox and shook it by her ear, but there was no sound inside.

“Can't this guy put some useful things in here? He is such a big man, and he likes toy models. What a strange guy!”

Milo put everything back into his backpack. At this time, Rosa walked into the lounge with a drink.

The two of them talked for a while, and then Milo said, “Can I really go to your company? If I can, we can work together as sisters.”

“I have experience as a personal assistant before. Why don't we work together as Yu Tian's personal assistant?”

Rosa didn't think too much about it. She nodded and smiled. “I think so too. I'm very happy that you can come back this time. If you can have a good job and won't leave again, Mom and dad will be very happy too.”

“I will tell Yu Tian tomorrow.. I'll definitely do it!”

?Chapter 447 – Chapter 447, Taking Advantage Of The Situation

Thank you readers!

At this moment, Yu Tian and Tyrone had already reached a series of cooperation projects, including food, textiles, machinery, and the most important weapons and equipment.

Yu Tian drank a cup with Tyrone in satisfaction and said indifferently, “That's why I said, in the future, don't go around pretending to be better than being struck by lightning. Now, it's better to be so obedient and talk business with me!”

Tai long nodded and smiled guiltily. “Mr. Yu, you are a quick talker. I apologize for my rudeness earlier!”

Yu Tian did not want to listen to these useless words. He said disdainfully, "Save these words. Remember my request. If you can't sell ten billion worth of items within a month, I will immediately change people!"

Although the pressure was great, Tyrone felt that he was still confident. The Price Yu Tian gave him was definitely competitive.

If he took it to the Super Nation, it would be taken away very quickly.

He also said confidently, "This won't be a problem!"

Yu Tian did not want to waste time. He immediately got up and went to find

Chu Yan to dance.

In the blink of an eye, it was the next morning. Yu Tian walked into the office. Lu Sha followed him in and said earnestly, "Mr. Yu, I have a request. I hope you can agree to it!"

Yu Tian picked up the document indifferently and said while reading, "It's definitely not enough to be your man. We can still talk nonsense!"

Lu Sha's face turned red. Yu Tian's oriental teasing always made her heart tremble, as if it had been electrified.

She steadied her mind and pleaded, "My sister Milo is not very satisfied with her current job. She wants to come to our company and be your assistant like me.."

I think the two of us will be more comfortable working for you!

Milo?

Yu Tian remembered. wasn't it that woman who had a special look in her eyes last night?

He suddenly remembered that he hadn't read the documents that Chu Wen had sent him yesterday.

So he opened the phone and said while reading, "Let her see me first. We'll talk after the interview!"

Milo was just outside the door. Rosa called her into the office. Yu Tian looked up at her. This Milo was quite stylish. Her business suit was even more appropriate than Rosa's.

"Please sit down, Rosa. Go make us two cups of coffee!" Yu Tian said while reading the information.

Rosa gave Milo an encouraging gesture and turned to leave.

The more Yu Tian read the information, the more interesting it became. This Milo was indeed an intelligence agent, and she was also a professional corporate spy.

Although this woman was young, in her short few years of career, she had destroyed quite a few companies, and even some extreme private organizations.

Now that she was F * cking full, she wanted to mess with him again. She really gave her some face.

Seeing this, Yu Tian gently put the phone on the table and smiled very gentlemanly, "Have you ever been a personal assistant before?"

Milo stood up demurely and smiled, "Yes, I was once an assistant in Super

Nation for a period of time. I'm still very confident about this job!"

Yu Tian pretended to listen to her seriously and then asked, "Then what other jobs have you done?"

At this moment, outside the office, Lu Sha was making coffee while looking into the office. She was very worried about Milo's interview.

As soon as the coffee was ready, she immediately brought it into the room. However, she saw that Yu Tian and Milo seemed to be doing okay. They were laughing non stop.

Yu Tian smiled at Lu sha and said, "Your sister is very capable. I am very satisfied with this interview. However, it is a bit of a waste to let her be my assistant. Why Don't you take on a more challenging position and let her be Chu Yan's external liaison officer?"

"It just so happens that I have a few export projects to the superpowers recently. Milo also has a special understanding of the superpowers. Let her manage these projects!"

Lu Sha looked at Milo in surprise. Meanwhile, Milo was very displeased. He couldn't get close to Yu Tian and couldn't obtain any useful information. He didn't have much time for the mission. However, if he didn't agree now, Yu Tian would definitely be suspicious.

She could only pretend to be even more excited and hugged Rosa, expressing her gratitude to Yu Tian.

"Thank you, Mr. Yu, for giving me such a good job. I will definitely not let you down!"

Yu Tian felt that he might have to let her down.

However, Yu Tian still nodded and said, "How can that be? I have confidence in you. Then, you should start working now. Now, go and buy a few large-scale factories in Sean., this includes food farms, textile farms, machinery manufacturing, and rare metal manufacturing. I need you to complete this job in two days. You Don't have to worry about the budget. As long as you can acquire it, you can spend as much money as you want!

Milo immediately nodded and said, "Okay, Mr. Yu!

After saying that, Milo turned around and was about to leave, but Yu Tian stopped her and said, "Wait, let me introduce you to the employees first!"

Yu Tian did not care whether Milo agreed or not. He directly pulled her to the office area, clapped his hands and said, "Everyone, don't be busy. This young lady beside me will be the company's external liaison officer in the future."

I am very satisfied with her ability. I specially gave her a special reward of one million Sean Pounds. In the future, when everyone demonstrates their ability, they will also receive a special reward!"

Milo forced out a smile and said excitedly to Yu Tian, "Thank you, Mr. Yu, for your appreciation!

Yu Tian said indifferently,

II

NO need to thank me. Thank your sister, Luca. Let Her take you to the finance department to get the money. You can buy whatever you want!

The employees, including Luca, were extremely envious.

But Milo's heart was twisted with resentment.

He had given himself a million yuan in front of everyone, which might cause misunderstandings among the other informants in the intelligence agency.

Was Yu Tian Rich? He hadn't even done his job, but he had already received a million yuan. If he was so rich, he might as well go outside and spread the money. Maybe a group of homeless people would thank him and spit on him.

Yu Tian returned to his office and narrowed his eyes. He wanted to dig a hole for himself and see who dug it deep.

Soon after , the news of Chu Yan industrial acquiring a large-scale enterprise once again caused a large-scale protest among the crowd.

Yu Tian directly gave Locke an order and said, "If they don't enter our territory, they don't need to care about singing, dancing, or even taking a dump. If they want to forcefully enter our territory, you know what to do !

Locke was very clear about Yu Tian's intentions and said firmly, "Yes, Mr. Yu, I know what to do. There are already more than 2,000 mercenaries who have entered the base,

they are a bunch of wild beasts who have been hungry for a long time. They will definitely use any means to suppress them!

Yu Tian said impatiently, "Don't keep thinking about suppressing them. Those people are all commoners. It's useless even if you beat them to death. You have to think of a way to find the person behind the scenes.. He is the key!

Chapter 448 – Chapter 448: Surviving

Thank you readers!

Every time he had a slight plan, that group of people would come to protest, as if he had done something wicked.

The acquisition of those enterprises was to let them produce more things and earn more. If they were protesting like this, someone must be poking them in the back.

Locke understood Yu Tian's meaning.

"Alright, Mr. Yu. I'll find that damned person as soon as possible!"

At the same time, in a corner of a restaurant, Toka, the middle-aged man next to Hiram, poured red wine for Hiram and a man in leather clothes sitting opposite him with an ugly expression. He stood quietly to one side.

Hiram's gaze was calm as he said, "Alva, who should you be grateful to for your gang's development to its current scale? When that Coward Morris ordered me to kill all of your gangs..,

"I let you live and supported you to develop again. Now is the time for you to repay me!"

Arwa held a toothpick in his mouth. Hiram was a fox. He must be trying to make use of him by telling him this today. Therefore, he said in a hoarse voice, "How do you want me to repay you?"

Hiram's eyes darkened and he said coldly, "I need you to kill Yu Tian. Tonight, I have created a great opportunity for you. The protesting crowd will give you cover. After killing Yu Tian, my bodyguard Toka will help you leave!"

Arwa narrowed his eyes. Hiram had many assassins under him. Why did he have to do this job?

He spat the toothpick into the plate and chuckled. "I think you should find a professional assassin. I don't want to go against Chu Yan Industry!"

Hiram looked at Toka. The latter immediately placed a box of money on the table. Hiram then said slowly, "A professional assassin will let Chu Yan industry know that I am the one behind the scenes,

"As for you gangs, you only did this because you are dissatisfied with Chu Yan industry's devouring. They won't know who did it. There is a million sheen pounds here. As long as you kill Yu Tian, all of this will be yours!"

Seeing the money, Arwa's heart immediately felt alive. Hiram's analysis was reasonable. wasn't it just killing Yu Tian?

To him, this was very simple.

He held the box in his hand and said fiercely, "After this, we are even!"

In the evening, the protesting crowd came to the shipyard. They even found a few older men and came to the front of the factory.

More than a hundred mercenaries immediately raised their weapons. The commander, Doris, shouted angrily, "Step back. If you take another step forward, we will open fire immediately!"

A few old men stopped in their tracks at the same time. One of them, a white-haired old man, said helplessly, "I request to see the President of Chu Yan industry, Mr. Yu Tian. Otherwise, we will always be here. We will never leave!"

Dorius immediately shouted, "That depends on my boss's intention. You guys step back first. Step back immediately!"

At this moment, Yu Tian was discussing the design of the aircraft carrier with the engineers. Rosa conveyed the old man's intention.

Yu Tian laughed and said, "You want to negotiate with me? Fine, I'll give him face!"

Ten minutes later, five hundred mercenaries came to the front gate of the shipyard, fully armed. Under the Order of dorias, all of them raised their weapons.

At this time, Yu Tian, accompanied by dozens of high-ranking officials, arrived at the gate with ease.

At the same time, at the top of the building a hundred meters away from the shipyard's gate, ARWAR was whistling while assembling the powerful crossbow arrows. After hanging up the scope, he began to aim.

At this time, Yu Tian had already met with the old man. He asked impatiently, "Uncle, you're already so old. Aren't you afraid of pulling your pants down?"

Tell me, what do you want? Do you need welfare or do you need a diaper each?"

The white-haired old man said very calmly, "Mr. Yu, I'm very grateful that you can meet us. In fact, we don't have any other requests. We just want to be able to live on"

"You have acquired our enterprise, and you want to reduce our capital expenditure in large numbers. How are we going to live on like this?"

Yu Tian suddenly frowned, he interrupted, "Wait a moment. Who the hell told you that I want to reduce our capital expenditure? I have acquired your enterprise, and I also want you to produce a large number of goods. I even feel that the current number of workers is not enough"

"Reduce your salary? I'll just shrink you all. If you want, you can all go to work at my factory tomorrow. Your wages will be calculated, and there will also be welfare payments. I'll find an old lady for each of you old men."

"I'll give you all super health care all day long. What else do you want? The few old men looked at each other in shock. Could it be that the rumors were false?"

The white-haired old man followed suit and asked, "Mr. Yu, is what you said true? We are already so old. Don't joke around with us!"

Yu Tian looked at the time and really did not want to bother with them. He said disdainfully, "I have nothing to do. I bought your factory. Could it be that I'm here to watch you old farts whack your crotch and protest with your lives?"

"I'll say it again. You can continue working tomorrow. Don't listen to other people's nonsense. That idiot is playing with you!"

At this moment, AWAL had already aimed at Yu Tian's forehead and pulled the trigger.

The crossbow shot out of the bolt path with a whoosh and pierced toward Yu Tian like lightning.

Yu Tian felt the instant the crossbow shot out. He immediately raised his head and the crossbow shot toward his eyes.

However, less than 10 centimeters away from his forehead, he held the arrow in his hand.

On the opposite building, Awar was so shocked that he whistled. His heart collapsed like a stone that had been smashed by a giant hammer.

This scene made everyone feel a chill.

Dorias immediately looked at the building on the opposite side. Without saying a word, he raised his weapon and fired.

However, Yu Tian snorted coldly and said, "I Want Him Alive!"

Dorias immediately led his men and rushed to the building opposite. However, when they arrived at the entrance of the building, they were shocked to find that Yu Tian was already standing at the door waiting for them.

Dorias was dumbfounded. He looked at Yu Tian and then looked back at the factory. His speed was fast enough. How did Yu Tian Get Here? Could it be that he could teleport?

Yu Tian did not care about their expressions. He pointed to the roof and said, "That guy is still up there. I'll wait here. You guys go and deal with him!" In less than five minutes, Dorias had thrown Awar in front of Yu Tian.

Yu Tian grabbed Awar's neck and said coldly, "Look at your appearance. You look like a tofu eaten by a rat. I'm not going to waste time with you. Who asked you to do this?"

Awar did not say a word. If he did, his entire gang would die.

However, Yu Tian snorted and took out the golden needle..

Chapter 449 – Chapter 449, Breaking The Rules

Thank you readers!

Yu Tian inserted a golden needle into Awar's forehead and said whatever he asked. Even his 80-year-old grandmother's marriage to a 16-year-old teenager was clearly explained to Yu Tian.

“It’s that Idiot Hiram Again!”

This idiot was always going against him. If he did not teach him a lesson, it would be because he was lazy.

But there was no need for him to do it himself. Didn’t they want to have a more interesting game? Then he would teach them a lesson.

He turned to look at Dorias. It was time for them to know his authority in Sean.

Yu Tian called Dorias to his side and whispered, “Hiram was the former president of the Internal Affairs Department. After I ruined him, he broke down. Now I want him to break down even more.”

“Bring out your scoundrel nature and get Hiram here without any scruples!”

Without a word, Dorias was excited. He had long wanted to do whatever he wanted in this country. After getting the information Yu Tian gave him, he immediately brought 100 mercenaries and went straight to Hiram’s villa.

With a command, all kinds of smoke bombs, flashbangs, and broken windows were sent into the villa.

At this moment, Hiram was waiting for the news of Yu Tian’s assassination. Smoke was coming out from his surroundings.

At the same time, the power supply in the room was completely cut off. It was pitch black.

Hiram’s wife and children screamed. Hiram immediately went to get the weapons in the drawer. At this time, Dorias and the others had already rushed into the villa. The torchlight beams were flashing.

Toka, who lived on the first floor, suddenly kicked open the door. He raised his weapon and was about to open fire. Dorias turned around and shot at Toka. Toka was immediately turned into a sieve and fell into a pool of blood.

Following that, he rushed into the study on the second floor. Hiram opened fire at the door.

This guy did not know to leave a bullet. Just as he was about to change the magazine, Dorias had already rushed in front of him and punched him.

Hiram let out a muffled groan. It was as if a bomb had been stuffed into his nose, causing his head to buzz.

Then, he was dragged to the first floor by a few mercenaries.

Five minutes later, the power was restored to the house. Yu Tian swaggered into the living room. He looked at Hiram, who was kneeling on the ground with his face covered in blood. He chuckled and said, "Do you really think that I can't Touch You?"

Hiram spat out a mouthful of blood and cursed angrily, "You are the worm of Sean. Any Sean can slaughter you like an animal!"

Yu Tian laughed out loud and sat down on the sofa, he said indifferently, "But you Sean people are all becoming my slaves. In the future, this entire country will be mine, but you can only watch from the sky and get angry!"

When Darius heard this, he immediately aimed his weapon at Hiram's head. As long as Yu Tian gave the order, he would take the old man's life.

However, at this moment, several blinding beams of light shot into the window, followed by the roar of the engine.

Yu Tian looked back and saw that it was the people from the Sean Defense Department. Even the tanks had come and surrounded the villa.

The defenders quickly occupied every window. The laser sights were projected on Yu Tian and the others.

Following that, a cold and arrogant middle-aged man in combat clothes, surrounded by a few people, came to Yu Tian

v

s front.

The man said in a domineering tone, "I am the high-ranking commander of the Defense Department, the President of the Sean Guards, Stella Jonson. Now I order you to put away your weapons and leave immediately!"

Yu Tian smiled indifferently and said disdainfully, "Damn, you even opened a tank for me. You really think highly of me. But do you think this is useful? I can use the authority of Chu Yan Industrial Company!"

This was personally agreed by your President Morris. Now you want to break this rule?"

Qionsen narrowed his eyes fiercely. This authority was Morris' most humiliating compromise to bury Sean. He said coldly, "Your authority is not applicable to our defense department, and it is even less suitable for our Sean Guards!"

I will tell you one last time. Leave this place immediately. Otherwise, you want to start a war with us!a€?

Yu Tian a€?s face suddenly darkened. He slowly stood up and looked at Qionsen with extreme disdain. He said arrogantly, I'll play with you. If you have the guts, order your tanks to throw cannonballs at me right now! !

a€?Show me some courage too. Don a€?t Make Me Look Down on you!

Qionsen gritted his teeth. He indeed did not have the courage to give such an order, especially to save Hiram. He had used the Sean Guards. If Morris knew about it, he would not know how to explain it.

Moreover, once they fired, Chu Yan industry would have an excuse to swallow the little dignity that Sean had.

At this time, Hiram, who was kneeling on the ground, suddenly shouted, a€?Jonson, what are you waiting for? Immediately tell your men to fire and kill them. This is the best opportunity. As long as you kill Yu Tian, Sean will be saved!a€?

Yu Tian looked at Hiram coldly and said disdainfully, a€?You are really noisy.

Dorias, shut him up! a€?

Dorias did not even think about it. He aimed a bullet at Hiram's head.

Hiram's brain exploded.

Jonson's expression exploded. He took out his weapon in anger and aimed it at Yu Tian's forehead.

Yu Tian felt helpless. Why was this Dorias so practical? There were many ways to shut him up. Why did he have to kill him.

However , when Jonson pointed that weapon at him, it was also a F * cking pretense.

Thus, Yu Tian waved his hand and snatched Jonson's weapon.

While Jonson was in a daze, Dorias'weapon was directly placed on his head.

Both sides aimed their weapons at each other. The situation was about to go out of control.

Dorias said heroically, a€?Boss, we want to do it. We want to do it with them to our heart's content!

Qiongsen was so nervous that he broke out in cold sweat. He said coldly, "Yu Tian, think carefully. If you give such an order, what does it mean?"

He didn't need to waste his time. It definitely meant doing it.

Yu Tian said disdainfully, "Don't waste your time with me. Do you want to do it or retreat? If you want to do it, let's do it now. If you want to retreat, immediately take your men and get lost!"

After saying that, Yu Tian squeezed the weapon into a ball and threw it at Jonson's feet.

Doris, Jonson, and the others were shocked. It was made of metal. How could it be squeezed into a ball? If it was squeezed on a person's head, would it still be alive?

Jonson swallowed his saliva. If he wanted to do it with him, he would be courting death. Anyway, Hiram was already dead. There was no need for him to sacrifice more people for a dead person.

He then said in a deep voice, "I choose to retreat, but I will definitely not do so next time!"

After saying that, he turned around and walked out of the villa. The tank and Sean's guards retreated at the same time.

Yu Tian snorted coldly and narrowed his eyes. He said coldly, "Jonson, I will definitely make you kowtow to me.. Let's wait and see!"

?Chapter 450 – Chapter 450 Was Especially Fast

Thank you readers!

Dorias said with some reluctance, "Is that all they can do? I thought they would try their best. It's really boring!"

Yu Tian frowned and said, "I found you to be so straight. Can't You Be More Gay? I just wanted to shut Hiram up and kill him."

"In the future, if you want to follow me, you have to understand my thoughts first. Don't always do things. You Don't know anything else besides doing things, right?"

Doris was full of guilt. He nodded and said, "Yes, boss. I know what to do. In the future, if you want someone to shut up, I will never kill him!"

That was more like it. Yu Tian didn't want to waste time. He looked at that stupid Hiram and turned around to leave.

When he returned to the villa, he heard Chu Yan vomiting non-stop in the bathroom. Yu Tian pushed the door open and asked with a heartache, "What happened to you? Did you eat something bad?"

Chu Yan's expression was especially bad. She said weakly, "I don't know either. It just happened all of a sudden!"

Yu Tian helped her to the sofa and poured her a cup of hot water. He said, "I'll call the company's doctor over to take a look at you. Don't keep vomiting. You'll vomit your stomach out later!"

Chu Yan didn't know whether to laugh or cry. She could only nod her head.

In less than twenty minutes, a dozen male and female doctors rushed to the villa with all kinds of equipment.

After taking a closer look, the bespectacled doctor said excitedly, "Miss Chu, Mr. Yu, Congratulations. Miss Chu is pregnant!"

"What?"

Chu Yan was surprised, happy, and incredulous at the same time.

Yu Tian almost went up and kicked him. What the F * Ck was he talking about? It hadn't even been a week since he and Chu Yan got pregnant. How could it be possible?

But he quickly calmed down and thought that it was completely possible.

He was the destined person, and the 108 sisters of the Chu family existed for him. This very likely meant that the 108 sisters' physical characteristics and his own physical characteristics had a kind of setting.

Under this set-up, it would speed up the delivery. These were all completely possible.

Thinking of this, Yu Tian naturally said to the doctor, "Very good. Thank you for your hard work. The kitchen has prepared a roasted whole pig for everyone."

"Go and eat more!"

After the doctors left the room, Yu Tian immediately hugged Chu Yan in excitement.

For a man, having a child of his own was simply the happiest thing in the world.

Chu Yan was also very, very happy, tears streaming down her face.

She said gently, "My dear, I have our child. From now on, I am your real woman. I am very touched. I don't even know what to say!"

Yu Tian also smiled excitedly, "Then don't say anything else. Take care of your body. Actually, this doesn't feel strange. Or rather, this is the fate of the 108 sisters of the Chu family. No matter what!"

"I'm happier than you right now. I finally have my child. What will the family say this time?" "Wife, you will definitely do well for me. I really love you to Death Now!"

Chu Yan nodded without hesitation and bit her lips tightly. This was also her pride, wasn't it?

At this moment, Yu Tian's phone suddenly rang.

It was Uncle Long. The old man was even more excited now. His voice was trembling as he spoke.

"Young Master, you finally have your own descendant. This is also the hope for the Yu family to become strong again. You have brought the entire family an unrivalled power. I, the butler, thank you, Young Master!"

The news spread really quickly. As soon as this side was pregnant, the family immediately knew.

Yu Tian smiled indifferently and said, "I'm also very happy. Before this, I only treated this as a mission of the family. But now I understand that as a man, this is the thing that I should be most proud of!"

Uncle Long followed up and said, "Young Master, you should also be clear that your child with Chu Yan will be born in seven days. In the future, you and the 108 Sisters of the Chu family will have a child within ten days,

this is a unique advantage of the family. Regardless of whether it's your first or second birth, you can give birth within ten days. However, this is unacceptable to ordinary people,

it's impossible for them to accept the strange phenomenon of being able to give birth within ten days. Moreover, this is extremely harmful to the 108 sisters. Do you still remember that Jade Pendant of yours?

"When they give birth, you have to place the jade pendant on their abdomen. This way, it will absorb the damage to the 108 sisters' bodies. At the same time, it will allow that jade pendant to contain even more power!"

So that jade pendant had such an effect. Who would take out the jade pendant in their backpack tomorrow?

Then, he said with great interest, "Uncle Long, I realized that you're quite professional in delivering babies. You've done it before!

Uncle Long didn't know whether to laugh or cry as he said, "This child is spouting nonsense. I am already so old, what's the point of being professional in delivering babies? This is our family's tradition. Now that this tradition has been inherited by you, there are many things that you need to know"

"Also, I have to remind you that the jade pendant is very important. Due to some changes in the family, many people are eyeing that jade pendant. You must take good care of it, including the other things I've given you"

"Also, you must know that after the child is born, you must immediately take it away and send it to the family to receive training. When the child becomes an adult, there will be a screening process. At that time, you will choose whether or not you can become the backbone of the family!

Yu Tian suddenly frowned. He could not keep his child by his side. He had to take it away when it was born. As a father, did he not have the right to personally raise his child?

Without hearing Yu Tian's answer, Uncle Long knew that Yu Tian was unhappy.

He calmly comforted him,

U

Young master, this is the rule of the family. The

108 sisters' existence is to continue the family's name,

it is the mission of you and the 108 sisters to let the family surpass other families in this aspect. Only when the family becomes stronger can we continue to survive and continue to exist,

"Although this sounds very cruel, it is not absolute. One day, you will become the most powerful person in this world, and when you reach that world, you will still be reunited with your child"

"Now, all of this is something that you must do!"

Yu Tian narrowed his eyes coldly and said disdainfully, "Don't talk nonsense with me. After the child is born, you have to stay by my side for a while before you can take him to the family. Otherwise, don't say anything else!"

Uncle Long thought about it. It was Yu Tian's first time having a child of his own, so it was naturally impossible for him to get used to it.

When there were more children in the future, he would also get used to it. At that time, he would take the initiative to let himself carry the child back to the family..
