

I Have 108 Older Sisters #Chapter 451 – 500

Read I Have 108 Older Sisters Chapter 451

?Chapter 451 – Chapter 451, Mastering The Tone

Thank you readers!

Uncle long laughed and said, a€?Of course, I will tell the family about this. You must let Chu Yan have a good rest now. We are waiting for Your Good News!a€?

Yu Tian did not want to waste any more time with him and hung up the phone.

At this time, the 108 sisters group was in an uproar.

Chu Wen was the first to express her dissatisfaction.

a€?Little brother, I've told you before. I wanted to be your first woman, but Yu Chuyan snatched it away. I'm so angry. Chu Yan, this little girl, after she gives birth, you'll see how I deal with her!a€?

The other sisters also expressed their congratulations.

a€?Chu Yan, well done. You've given US 108 sisters. It's simply too much pride. After the child is born, I must give the child the biggest red packet!a€?

a€?Little brother, you've become a real man now. In the future, you must treat US 108 sisters better!a€?

a€?Sister Yan, I a€?m so envious of you. WE 108 sisters will always be the mistress a€?women. In the future, we must also give birth to the mistress'Child!

Chu Yan also said proudly, a€?Thank you, sisters. I have to thank the mistress even more because he has made me a real woman, able to experience the joy of being a mother,

i believe that all the sisters will one day experience the joy and happiness of being like me!

Some people were happy, while others were disappointed.

Chu Qing's hand that was holding the phone had been trembling. From the moment she received the news, her heart had been fluctuating, and it was even sour.

She was Yu Tian's fianc??e, yet Yu Tian had never let her be his first woman. was she not sexy enough, or was she not outstanding enough.

Just as she was feeling uncomfortable, Chu Hong sat beside her and comforted her in a low voice, "You must be feeling very uncomfortable right now, right? Yu Tian is really bad. You are clearly his fiancée, but he had a child with another woman"

"He didn't care about your feelings at all and made you the laughing stock of the 108 sisters of the Chu family. What he did was really wrong. I also know that you are feeling uncomfortable right now. Why don't you just cry"

"Yu Tian has let you down, but you still have to be strong and live on. Perhaps you will become Yu Tian's second woman, but I feel that master Yu Tian doesn't like you at all!

The more she said this, the more uncomfortable Chu Qing felt in her heart. However, she absolutely could not cry at this time. Not only could she not cry, but she also had to accept it magnanimously.

This was her fate, and also the fate of the 108 sisters. 108 women could only have one man. Even if she tried to snatch him, she could not snatch him away. She could only accept it calmly.

Thinking of this, Chu Qing smiled indifferently and said firmly, "Thank you, Sister Hong. I feel very good now. There's nothing uncomfortable about it. Chu

Yan is also my sister, just like the other 108 sisters"

"We are all living for Yu Tian. It's Yu Tian's freedom to choose who he chooses.

Perhaps I haven't done well enough. In the future, I will work harder to make Yu Tian like me. It's very late. I'll go back to my room to sleep first. You should rest early too!

After returning to her room, Chu Qing's heart still broke down. She lay on the bed and cried.

Chu Hong, on the other hand, narrowed her eyes gloomily. Chu Qing and the others were idiots. Yu Tian had treated them like this, yet he still followed him wholeheartedly. He was completely ignorant.

She would definitely not be like them. She had fought for all the good things herself. Even if Yu Tian already had a child, she still had a chance. As long as she could get the jade pendant, she could change her fate.

At the same time, in Sean's villa, Yu Tian asked the servants to send the doctor and the others away. At the same time, he also asked the servants to leave the villa.

Everything had to be done in secret before Chu Yan gave birth.

At noon the next day, Yu Tian came to the airport and personally welcomed Chu Meng, Chu Yue, Chu Xin, Chu Man, Chu Wei, and the others?

Behind them, there was a super beautiful woman who met them, chu Xin introduced with a smile, "Brother, this is the president of all the medical institutions of the Chu family in Europe, Chu Xuan. She is also a world-famous doctor!"

Yu Tian turned to look. Chu Xuan was a little cold and arrogant, but she was even more elegant. Needless to say, her figure was not bad. The 108 sisters all had good figures, especially those two beautiful black legs

Coupled with Chu Xuan's temperament and oval face, she was extremely sexy.

Chu Xuan went up to Yu Tian and gave him a gentle hug. Then, she said in a cold and gentle voice,

U

Master, we finally meet. You are indeed very handsome. No wonder us sisters like to stay by your side!

This woman was quite good at talking. Yu Tian felt especially comfortable listening to her talk, especially her voice. It gave people a very calm feeling, as if a natural tranquilizer had been injected into their minds.

It made all the complications disappear in an instant.

Of course, Yu Tian also knew that Chu Xuan deliberately controlled the time and intensity of her tone to have such an effect.

No wonder she was a world-famous doctor. Just based on this, she had the right to speak

He then said indifferently, "I'm very happy that you can come. This allows me to see another good sister of the Chu family. Let's not waste time here. Let's go back and see Chu Yan first!"

"Also, I have to go and get some pretentious things later. Those guys have to strike them down at any time and place. Otherwise, they will be acting unscrupulously!"

Everyone returned to the villa. After seeing Chu Yan, they were all very happy. Chu Xuan also instructed Chu Yan to pay attention to her movements and adjust her mood.

At this time, Yu Tian's phone rang. It was Chu Wen calling.

When he heard Chu Wen's angry voice, Yu Tian felt his head hurt. He asked weakly, "If you want to scold someone, I'll scold you when I have the time."

"I really don't have the time right now. It's useless to talk to you. How are the contacts with the business organizations that I asked you to contact?"

Chu Wen originally didn't want to say anything else, but the more Yu Tian said so, the angrier she became. She said in a rage that couldn't be vented, "Why am I angry and you still won't let me speak?"

At that time, they had already agreed to let me be your first woman. You turned around and slept with Chu Yan. How could I not be comparable to her? And now you're still scolding me. Do you think I'm easy to bully?"

Yu Tian chuckled and said indifferently, "I do indeed think you're easy to bully. What can you do? Don't waste your time with me. I know you feel bad. In a few days, I'll go to Super Nation and make it up to you properly, right?"

"That's more like it!" Chu Wen snorted coldly and said, "I've already contacted all the dealers here. When your stuff arrives, we'll immediately launch a full-scale attack.. Everything else is ready!"

?Chapter 452 – Chapter 452. She Was Very Shrewd

Thank you readers!

One day, she nodded her head in satisfaction and said, "Very good. My cargo ship will set off very soon. This time, it will be two billion worth of goods. Tyrone will also open up the underground market,

"I want to completely paralyze the economy of the Super Nation. At the same time, you have to pay attention to your own safety. You have to double the number of bodyguards by your side. If necessary, you can increase the number of mercenaries,

"After my plan is completed, you can leave Super Nation!"

Chu Wen also knew that Yu Tian was doing this for her own good. Yu Tian was also worried about her. Thinking of this, she felt a wave of warmth in her heart.

She chuckled and said gently, "This time, we have to make a deal. Since I can't be your first woman, I will also be your second woman,

"If you're playing with me, I'll definitely not let you off!"

After hanging up, Yu Tian could only shake his head helplessly. This woman was simply too shrewd. She wanted to be his woman to the point of going crazy.

Chu Xuan and the others were left in charge of the house. Yu Tian followed them to the factories, wanting to see their production progress.

Of course, before they went to the factory, Yu Tian called Milo to his side.

This woman had always wanted to gather information about herself. She wanted to give her some hope first so that this game would be more interesting.

While they were touring the food processing factory, Milo followed behind Yu Tian and introduced, "This factory can produce 500,000 boxes of canned meat every day, other than that, there are also all kinds of hamburgers and hot dogs. The workers work 24 hours a day, so they can completely meet your export needs!

Seeing the workers in the production room bustling about, Yu Tian suddenly turned around and boldly pulled Milo into her arms.

Milo was shocked and dumbfounded. She had no idea what Yu Tian was trying to do.

Yu Tian pretended to be very intimate with her and said, "Giving this project to you is the right choice for me. I'm very satisfied with your work here. I am even starting to like you!

Milo wanted to push Yu Tian away, but Yu Tian's embrace was so warm that she couldn't stop.

At this moment, Yu Tian kissed her sexy red lips.

At this moment, Milo widened her eyes in shock. There were 10,000 thoughts of resistance in her mind, but her body didn't listen to her at all.

When the surrounding workers saw this romantic scene, they all clapped and whistled.

Some of the workers even shouted humorously, "Go to your room and work, boss. Let her know what it means to be a man!

Amidst a burst of laughter, Yu Tian pushed Milo away and turned to shout at the crowd, "Don't look blindly. Hurry up and work. Do you still want your wages? You Bunch of lazy dogs!

The more Yu Tian scolded them, the more energetic and excited the workers became. They continued to work while laughing.

Behind them, Milo was still in a state of shock and was completely at a loss.

It was only when Yu Tian gave her a gentle push that she came to her senses. Blushing, she said, "Boss, I hope that the next time you want to do this, you'd better

tell me so that I can be prepared, it's hard for me to accept you being so rude to me all of a sudden!a€?

Regardless of whether she accepted it or not, why did she come to her side for no reason and even wanted to test her intelligence? Why didn't She Tell Me First?

Yu Tian snorted coldly and said disdainfully, a€?What are you talking about? I can kiss you if I want to. If you're unhappy, you can leave now!a€?

Milo felt extremely wronged. She had taken advantage of him and even scolded him. How could this fellow be so B * Stard?

Yu Tian followed and said, a€?Alright, I don't want to waste time with you. Immediately order people to load all the manufactured goods onto the freighter. Then, you will personally follow the freighter to super country,

after the goods are handed over, the people there will continue to arrange other tasks for you. Do all the work well, and then come back here!

Milo suddenly frowned. Yu Tian's arrangement had completely put him in a passive position. Moreover, if he brought these goods to super nation, it would easily cause a misunderstanding among the intelligence agencies.

Could it be that Yu Tian already knew her identity? And he had deliberately arranged this.

She carefully thought about it. It was impossible for Yu Tian to know her secret identity. He did this largely from a business perspective.

Thinking of this..., milo said with a troubled expression, a€?Boss, I think you should consider it again. Let someone else transport the goods to super country. I'm not very good at this aspect. If any problems arise, I don't even know how to solve it!a€?

However, Yu Tian chuckled, he said indifferently, a€?I believe in your ability. You will definitely be able to complete this task perfectly. It's settled then. Go back and make preparations. Tomorrow, you will go to the super country with the cargo ship!

Milo wanted to continue arguing, but Yu Tian ignored her and left the factory. Milo had no choice but to go to a place with no people and inform the intelligence agencies of the super countries.

The intelligence agencies quickly replied to her.

[a€?If it's just an ordinary product, you can carry out his orders, but the premise is that you have to protect yourself, especially your identity. You must not let Yu Tian find outa€|a€?

“This time, our plan is very important. If your identity is leaked, our entire intelligence agency will be in a terrible state. Moreover, this time, we are cooperating with the PBG department.”

We can't let them see us as a joke!

In the blink of an eye, it was evening. Yu Tian had turned down all his work. Now that his wife was pregnant, she had to go home when she should go home. Why was she always gloating outside?

Moreover, he had not tasted Chu Xin's cooking for a long time. The food he ate under the knife and fork in this country all day was almost disgusting.

At any time, she still liked the feeling of holding chopsticks.

In just a day's time, Chu Yan's stomach had already started to swell. Yu Tian leaned on top of her and listened carefully. The heartbeat of the child was very strong.

Chu Yan gently stroked Yu Tian's hair. At this moment, she felt particularly blissful.

Yu Tian chuckled and said, “That's right. The heartbeat of this child is like a missile. Follow his father!”

Chu Yan didn't know whether to laugh or cry and said, “Nonsense, it's just a child. How can the heartbeat be so strong?”

“What you said is that you can give birth to a child in ten days, which is ten times faster than a normal pregnancy in ten months. This child is definitely not ordinary!” Yu Tian said proudly.

“After that child is born, you should at least give him a name!”

Yu Tian thought for a moment and said with a smile, “Let's call him Yu Yan Tianba. This is our child. We should also bring your name with us. Only then will it be fair to you!”

Chu Yan happily turned into Yu Tian's arms..

?Chapter 453 – Chapter 453, Her Dream

Thank you readers!

During dinner, Chu Xuan placed the most nutritious food in front of Chu Yan and instructed her on how much food she should eat.

Yu Tian was very grateful to her. After dinner, Yu Tianba and Chu Xuan went to the study room alone.

He said gratefully, "I'm really happy that you could come this time. I've seen everything you've done. On behalf of my family, thank you!"

Chu Xuan walked directly to Yu Tian's side and gently leaned on the desk. In this way, her perfect figure was fully displayed in front of Yu Tian.

At such a close distance, Yu Tian could smell her faint body fragrance, which was very tempting.

If it weren't for Chu Yan's pregnant belly, he really wanted to hold this beautiful woman in his arms and ravage her with all his strength.

Chu Xuan still said calmly and gently, "We are a family. You Don't have to say these things to me. It's what I should do, isn't it? And in the future, the 108 sisters will be pregnant with your children one after another,

"I also have a lot to do. This is also the mission that the family has given me, so don't feel like you owe me anything. If you really want to express your gratitude to me, then let me give birth to a child for you!"

This speed was a little fast. They had just met today, so they didn't know much about her personality. Just based on their first impression, she wanted to give birth to a child for herself. These women of the Chu family were really as crazy as they could be.

He shook his head helplessly and said indifferently, "It's okay to give birth, but can we do it one by one? Chu Yan hasn't given birth yet. I Can't let you lie on the same bed with her!"

"But we still have a chance, and we have to be grateful. Do you have any dreams that you want to realize? I can help you realize them!"

Chu Xuan knew that Yu Tian wasn't talking about money. The Chu family didn't lack money at the moment. Moreover, as a famous doctor, he controlled all the medical institutions of the Chu family and earned hundreds of millions of dollars every day.

The dream that he told him was of course very important because he did have a dream.

Thinking of this, Chu Xuan simply sat on Yu Tian's lap. That soft feeling made Yu Tian confused.

In order to make his posture better, Chu Xuan simply hugged Yu Tian's neck and said gently like water, "I do have a dream, which is to build the world's largest hospital,

"Then, I will provide free services to all the people in the world who need my help. Only then will I feel my true value, and not be told every day that I will marry you and have children for you,

“I want everything to be for the sake of the Lord. I want you to never say or do anything about your dream. This is my dream. Can you really help me realize it?”

This was indeed a very good dream, but the Chu family would never agree to her doing so. That was why it could be called a dream.

All the business investments of the Chu family were mainly for profit. Other than herself, the people of the Chu family would never let them do some unprofitable business.

Thinking of this, Yu Tian said confidently, “What's the problem? As long as this is your dream, I will definitely help you achieve it. No one can stop it!”

“After Chu Yan has a child, you can immediately start to create your dream. The Chu family has me. You Don't have to worry about anything!”

Chu Xuan was so excited that she was completely different from that cold and arrogant beauty. She hugged Yu Tian's neck tightly and kissed his lips fiercely.

That sweet and greasy feeling made Yu Tian feel a sense of confusion that he had never felt before.

Once they knew that someone was knocking on the door, the two of them could not bear to part. They tidied up their clothes and opened the door.

It was Chu Xin. When he saw Chu Xuan's Red Face, a smile immediately appeared in his eyes. He said softly, “Sister Yan feels a little uncomfortable in her stomach. Let's quickly go and take a look!”

After saying that, Chu Xin looked at Yu Tian meaningfully. Yu Tian pretended to be calm and said, “What are you looking at? It's US kissing. Come over and let's Kiss for a while!”

The 108 Sisters of the Chu family were all her women. She could kiss whoever she wanted. What was there to be ashamed of? Not to mention Chu Xuan, even if she wanted to hear about Chu Xin, she could kiss her anytime she wanted. There was nothing to be proud of.

However, Chu Xin said shyly, “Forget it. Let's go and see Chu Yan!”

When Yu Tian came to the bedroom, Chu Xuan had already given Chu Yan two pills. She turned around and explained, “Everyone don't need to worry because the child's growth speed is particularly fast. This is also very destructive to Chu Yan's body!”

Her muscles and bones were in a state of tearing. As the child grew up, the pain would also become greater and greater. Pve already given him painkillers, but the effect isn't very great. We're encouraging Chu Yan to persevere!

Yu Tian held Chu Yan's hand. Looking at her aggrieved appearance, Yu Tian's heart tightened. He comforted her gently, "If the pain is too severe, just shout it out. It's been hard on You, my little baby!"

Chu Yan held Yu Tian's hand tightly. She bit her lips and said in a low voice, "I'm not afraid. Although it hurts, I'm very happy in my heart. Just hold on for a few more days. It'll be better after the baby is born!"

Yu Tian nodded and told Chu Yan to rest well. Then, he left the room.

At noon the next day, Yu Tian stood in front of the freighter at the port. He turned around and said to Milo, "There are a total of ten freighters' goods. They are worth two billion. Now, I'm giving them all to you,

"My God aircraft carrier fleet will escort you the entire way. You Don't have to be afraid of anything. If there are pirates, just give the order to kill them!"

Milo still did not want to do this mission, but now that Yu Tian had given all the orders, Milo had no choice but to board the freighter. Amidst the cries of the freighter, they headed towards superpower.

At this time, Locke, who was standing behind Yu Tian, said in a low voice,

"Boss, we have also loaded those special goods into the freighter!"

Yu Tian said with satisfaction, "Very good. I have another order for you. In the next few days, try your best to find trouble outside. It's best if you can only use the shell of the Sean Guards, you only need to provoke them. That's Enough!"

Although Locke did not know why Yu Tian asked him to do this, how could he possibly guess Yu Tian's plan?

He nodded and said, "Yes, boss. I know what to do!"

A smile hung on the corner of Yu Tian's mouth.

Jonson, I'm going to play with you now. Don't be a coward for me..

?Chapter 454 – Chapter 454. He Wanted More

Thank you readers!

He had already given all the instructions he needed. Yu Tian planned to spend the next few days at home with Chu Yan.

She had given birth to his child and suffered so much pain, yet he was still not at home. How disappointing.

Even if he was at home, he could still view any corner of the world through the satellite.

Yu Tian's favorite thing was to sit at home, drink red wine, and look at the corners of the world on the big screen. He felt that his field of vision was especially wide.

The Chu family's satellites were several times more advanced than the most advanced observation satellites in the world.

Moreover, they were connected seamlessly. Fifteen observation satellites worked in a cycle at the same time, and the observation ratio could reach one to one.

Yu Tian looked at his five super freighters. Under the escort of the God of Heaven Fleet, they were riding the wind and breaking the waves as they headed toward the Super Nation.

After re-entering the coordinates, Yu Tian looked at Chu Yan industry again. Normally, he didn't think much of it, but looking at the satellites, the entire area of Chu Yan industry was half the size of Sean City.

The bigger the better. Wouldn't it be even better if he bought the entire Sean City.

At the same time, in a bar in the bustling area of Sean City, Locke, Dorius, and the others walked into the bar noisily.

The people of Sean's guards who were already having fun in the bar, when they saw Dorius, their hands started itching.

These people started discussing in low voices.

“That person is Yu Tian's mercenary commander. They were very arrogant last night!”

“This is our territory. How dare they come here to drink!”

“Guys, I suggest that we show them something. Let them know that we, the Sean Guards, are not to be trifled with!”

After saying that, a few people stood up and came around Dorace. One of the men said fiercely, “You must be Dorace. This is our bar. We don't Welcome You

Outsiders”

“Leave before I lose my temper!”

Dorias didn't even look at him and said disdainfully, "Get lost. I don't want to deal with You Idiots Today!"

The man's anger immediately rushed to his head and raised his hand to punch Dorias.

The people on both sides started to fight, and the situation completely went out of control.

The Sean Guards took out their weapons and fired at Dorias without hesitation.

Dorias was completely unprepared. He only cared about stepping on people's faces, but the bullet penetrated his shoulder.

More people took out their weapons and fired without restraint.

Locke and the others were not armed, but they had successfully angered them. Now was the time to retreat and wait for Yu Tian's orders.

After receiving Locke's report, Yu Tian smiled indifferently and said, "I don't know anything!"

t

"

Locke immediately understood that Yu Tian was encouraging him to work with the Sean Guards.

He had long been itching to do something big, and this was his chance.

He immediately gathered 2,000 mercenaries and rushed directly to the Sean Guards' base.

Jonson was still asleep and was awakened by the rapid ringing of the phone. When he heard the report from his subordinate, he jumped up from his bed and shouted in extreme shock, "Oh my God, are they crazy?"

The assistant shouted in the midst of the explosions, "They are not crazy, they have already occupied our camp!"

At this moment, Jonson thought that he had to prevent a wider conflict from happening. Only then would he be able to stay in this position for a longer time.

After making up his mind, he immediately called Yu Tian.

Yu Tian, who was watching the video, suddenly had his phone ring. It was a public number that was calling him. If he guessed correctly, it must be Qionsen.

When Qionsen's angry voice rang out, Yu Tian said very indifferently, 'Mr. Qionsen, it's already very late. What are you trying to say by calling me and barking like a dog?'

Qionsen didn't waste any time and said angrily, 'Yu Tian, immediately call your mercenaries and go back to your territory!'

However, Yu Tian laughed and said, 'They are indeed my mercenaries, but I am not their commander. At least not now. As far as I know, if it wasn't for your people who used weapons to injure my mercenaries'

How could they be so agitated? 'Now, stop wasting time with me and think about how to explain it to Morris!'

If Yu Tian did not relent, even if there was only one mercenary left, they would still fight to the end.

Qionsen could see that Yu Tian had no intention of telling the mercenaries to retreat. Moreover, it was very likely that he was the mastermind behind this conflict.

Thinking of this, he had no choice but to slow down his breathing and said with a pleading tone, 'Mr. Yu Tian, what exactly do you want from me?'

Yu Tian laughed and said, 'What do you have that I don't have? Then I want what I want. You'd better figure it out yourself. But you'd better hurry up. I've just received the news that my beast mercenaries'

They were preparing to attack the alliance building. That was Maurice's lair. If they were to be killed, you, as the commander of the Sean Guards, wouldn't be able to continue working!'

What exactly did he have that Yu Tian didn't have? Qionsen racked his brains but couldn't think of anything.

If it was money, Yu Tian had the entire Chu Yan industry. If it was weapons, he could have whatever he wanted now.

Qionsen suddenly raised his eyes.

'Are you talking about power? Do you want the same power as me?'

Yu Tian did not refute. What he really wanted was power. With the power in th

Sean Nation, he could immediately make the plan come true ahead of schedule

Thinking of this, Yu Tian said indifferently, "You're right. I want to enter the Sean Defense Department. This is also good for you. You can get a higher position with my support, and I can replace your position!"

Jonson was not stupid. He knew that this meant that Yu Tian was using such means to devour everything about Sean.

No wonder Hiram wanted to kill him at all costs. Now he also had the same idea.

But he could not agree to Yu Tian's conditions. Not only for Sean, but also for himself. If he let Yu Tian become a member of the Defense Department, how could he face the Dead Hiram?

He said fiercely, "Yu Tian, I don't know what you're trying to do. You're turning Sean into your own business. I definitely won't agree to it!"

It was good that he did not agree. Yu Tian did not care what he thought at all. He said coldly, "I didn't expect you to agree at all. In that case, let's not waste time. Let's continue playing!"

Yu Tian directly hung up the phone. He rubbed his chin and pondered. The pressure on the mercenaries was still not big enough. He had to create more pressure for Morris.

As for the members of the Sean Guards, it was impossible for everyone to follow Jonson wholeheartedly. There were always people that he could use..

?Chapter 455 – Chapter 455, Feeling Very Happy

Thank you readers!

After thinking carefully for a while, Yu Tian immediately gave an order to Locke.

At this moment, Locke was helping the injured to bandage their wounds. He used his blood-covered hand to answer the call.

Yu Tian's indifferent voice immediately sounded.

"Everyone has worked hard. How are your casualties?"

Locke's heart warmed. Yu Tian was indeed different from other bosses. Other bosses only cared about the mission and never cared about their lives. Yu Tian's greeting was a form of respect for them.

He said gratefully, "Mr. Yu, we have injured more than a hundred people and a few have died. Now we are preparing to attack the management department. They may use large-scale heavy weapons later!"

It was all in Yu Tian's heart. The reason why they had not moved yet was because they were also discussing whether they wanted to resolve the conflict through negotiations with him or use force.

After all, the mercenary troops also had very high authority. This was something that Morris had personally announced. If they used absolute force to suppress these mercenaries now, it would mean breaking the agreement, at that time, no one would look good.

Therefore, it was also time to withdraw Locke and the others, but not give them a chance to negotiate.

Yu Tian narrowed his eyes and said coldly, "Locke, take your men and retreat back to the base. Have a good rest. For those who died, each of them will receive a subsidy of 10 million. You Go and do this!"

Then bring me two of their obedient men!

"Yes, boss, I'll do it right away!" Locke replied and immediately gave the order to retreat.

As they retreated in front, Morris called back and said in a very angry tone, "Yu Tian, you almost caused a large-scale war in Sean. Now, I really regret giving your mercenaries such high authority,

"So, I think it's time to take back these authority. In the future, your mercenaries can only carry weapons and move within the area of Your Chu Yan industry. They don't have special defense authority like you!"

Yu Tian snorted and said disdainfully, "Morris, you're making a false accusation. It was the people of Sean's guards who injured my mercenaries with weapons first."

My mercenaries were only there to drink, but they were already beaten up by them. It's hard to imagine whether they would cause more damage to our Chu Yan industry,

"You, the highest-ranking manager, not only did you not provide me with the best protection, but now you want to make me a target that can be attacked unscrupulously at any time. You're playing a little immoral!"

Of course, Morris knew that it was the Sean Guards' fault, but in front of Sean's interests, it was useless to ask these questions. It was better to use this opportunity to erase his past mistakes.

He sneered a few times and said proudly, "This is called politics. You will also consider your own interests. Even if it's the Sean Guards' fault, they are still Sean's defenders,

"Your mercenaries are private. They attacked the Sean Guards. In everyone's eyes, you are just trying to destroy Sean's silence. You are wrong!"

"I will put forward this suggestion at the Sean high-level meeting tomorrow.

When the time comes, it will be approved by all the votes. You have to accept this!"

Yu Tian listened to his long-winded words and basically knew his determination.

Yu Tian hung up the phone and ignored him.

At this time, Chu Meng pushed the door open and said, "Dear, there are a few mercenaries outside who want to see you. Can you let them in?"

Yu Tian nodded and said indifferently, "Take them to the restaurant. I'll go down now!"

Locke brought two team leaders of the Sean Guards. They had some power, but it wasn't very big. They could only command a dozen or so defenders.

After seeing Yu Tian, the few of them fully expressed their respect.

Yu Tian invited the few of them to sit down and said, "I invited the two of you here today to tell you about your future development. If you just want to be purely a defender...

then our conversation can stop. If you want your future to be like Jonson, then I can give you a chance!"

The two defenders looked at each other. Who wouldn't want such an opportunity?

In the Sean Guards, they would always be cannon fodder or stepping stones for others.

Every time they were killed, they were the ones who were injured. And as long as there was a little credit, it would be Jonson and the others.

One of the sneaky-looking defenders said in a strange tone, "What do you want us to do?"

Yu Tian chuckled and said, "Eat first!"

The next morning, Morris looked at himself carefully in front of the mirror at home. His suit today felt particularly appropriate.

The sun shone on the flowerpot on the windowsill, and even the blooming flowers raised their heads.

What he was going to do today, after all, would leave a very glorious mark on Sean. Wasn't this what he had always wanted?

If he could get the support of all the senior management, it was very possible for him to be re-elected as the top manager.

At this time, the beautiful assistant pushed the door open and said with a smile, "Mr. President, the meeting will begin in two hours. We can set off now!"

Morris nodded and reluctantly looked away from the mirror. He said softly, "It's time to set off on Jonson's side. He's the most important person today.

His words will get the support of many people!"

The assistant nodded and said, "Yes. In fact, I have already called Qionsen ten minutes ago. He is preparing to go to the management department now. In short, everything will be very smooth today!

"Very good. Let's go and attack Yu Tian Now!"

At this moment, Yu Tian was stroking Chu Yan's round belly. He said lovingly, "Relax. After our child is born, I will also get the highest management rights of Sean, just treat it as a gift from me to you!"

Chu Yan nodded happily. However, the pain would still appear suddenly, making her frown. However, in front of Yu Tian, she must endure it. She must not let Yu Tian be distracted at such a critical moment.

Instead, she forced a smile and said, "Morris can become the managing director because he has the support of his family. Qionsen is also a member of his family. When he became the managing director..,

qionsen had helped him a lot, so this time, they would not compromise with you !

Yu Tian did not care at all, he laughed and said, "I will let him not even have the heart to cry today. There will be a very exciting performance later. I really want to watch it with you, but you should still lie here and continue to rest!"

Chu Yan Wan "er smiled and gently kissed Yu Tian's face. This was already a habit of hers. Every time she kissed Yu Tian, she would feel so sweet and happy..

Chapter 456 – Chapter 456 Was All Snatched Away

Thank you readers!

When Morris and the others arrived at the entrance of the management department, the originally sunny weather suddenly became gloomy.

The pouring rain seemed to come to the human world in a hurry, hitting the windows so hard that they were cracking.

The senior management had all come, but there were still a few important people who were not present.

In the meeting room, Morris invited everyone to have coffee for the first time.

He even smiled excitedly and said, "I'll treat everyone to coffee today as an early celebration. We'll be able to smoothly pass this meeting!"

Most of the senior management made a toast. One of them, a white-haired old man, said arrogantly, "Mr. Morris, I'll fully support all of your proposals today,

"I don't think any of us want to see Sean's peace broken by Yu Tian and the others!"

Another middle-aged man said indifferently, "We don't want to see our interests being eroded by Yu Tian. It's obvious now that he wants to use the powerful funds behind us to..,

"Rob us all of what we deserve like bandits. This is our territory. We should be the ones in charge no matter what,

"He's just a businessman. Why should he think of so many benefits?"

The middle-aged man's words received a lot of support. There was even applause. The meeting had not started yet. These people were like speeches, each expressing their dissatisfaction with Yu Tian.

At the same time, more than a dozen defenders of the Sean Guards came to Chu Yan industry fully armed.

At this time, it was the time for the industrial group to go to work. The workers in suits and jewelry were talking and laughing as they walked into the industrial building.

At this time, the defenders suddenly opened fire on these people, shooting wildly.

In the blink of an eye, dozens of people were killed and injured.

After Locke and the mercenaries rushed over, he immediately ordered them to surround them.

When the defenders saw the mercenaries, they all knelt down and surrendered after a round of shooting.

At this time, Yu Tian also came in front of everyone. In front of the employees who were still in shock, as well as the executives of the industrial company, he said angrily, "Now, they actually dare to attack us without any scruples!"

If that's the case, how am I supposed to do this deal? Do I still dare to let you come to work? If that's the case, can I not afford to provoke you and hide? "Now I've decided to immediately close down the industrial group and all the branches in Sean,

"I'm not doing this business anymore. I'm leaving Sean. If you want to continue to maintain this income, then you can go ask Morris!"

Yu Tian's words made everyone present explode with anger.

This was their job, their livelihood. It was impossible for someone to starve them.

There had been protests before? Couldn't they do it?

Under the instigation of most of the higher-ups, tens of thousands of employees of the industrial group came to the building of the management department in the heavy rain to protest.

A large number of reporters also rushed to the management department.

In front of the reporters, Locke asked the few defenders of the Sean Guards to personally say how they had attacked the employees?

At this moment, Morris, who was in the management department conference room, had a gloomy face, like the sky outside.

Yu Tian had actually played such a trick on him, completely exceeding the scope of his plan.

The most difficult thing to explain now was those few defenders.

Were they crazy? How could they launch an attack on the industrial group at this time? Originally, the initiative was all in his hands, but now, it was in Yu Tian's hands in the blink of an eye.

Moreover, there were tens of thousands of protesters outside, occupying the entire avenue in front of the management department.

At this moment, Jonson also walked into the meeting room with a face full of anger. He did not care about who was present and cursed loudly, "This is simply a provocation. Those people were not sent by me at all. They must have been bribed by Yu Tian!"

This conflict was completely arranged by Yu Tian himself. Morris, What Are You still hesitating about? As long as you give the order, we will immediately begin the armed suppression!"

Morris only stared gloomily at the crowd outside the window. He did not know what to say, but Jonson's suggestion was absolutely impossible.

Those people outside were not ordinary citizens. No matter how you suppressed them, there would not be much of a problem.

These people were all people from Yu Tian's industrial company. If they were to carry out an armed suppression, which would further agitate Yu Tian, then Sean would immediately be like a broken ball, unable to maintain its original shape.

The beautiful assistant still spoke for Morris, "We've already received news from the industrial group. Yu Tian has decided to withdraw all of his investments from Sean,

"That's why those people came here to protest. This was only seen in Sean City. In other cities, people from their industrial company were also protesting the same.

"The most important thing is that reporters from all over the world are in the crowd. If there's an armed crackdown, we won't be able to explain it to the whole world!

As they spoke, a large-scale conflict broke out between the protesters and the defenders.

The defenders of the protection administration building looked at each other. Suddenly, they raised their weapons and shot at the crowd.

Morris and everyone in the meeting room, including Jonson, were stunned.

The crowd was completely enraged. They rushed to the entrance of the management building without caring about anything else.

The mercenaries who were mixed in the crowd started to punch and kick the defenders. Under their leadership, more people started to attack.

More mercenaries rushed into the management building and shouted loudly, "We want to work, we want to Eat!

As they shouted loudly, they rushed into the meeting room.

The entire scene had completely gone out of control. Morris's bodyguards rushed into the meeting room in panic. The security commander.., with a very serious expression, he said, "Mr. Morris, we have already prepared the helicopter. Now, leave this place immediately!"

However, Morris sat heavily on the chair and whispered, "The weather today is really good. You can all leave. I want to be alone for a while!"

Everyone looked at each other, but now was not the time to support Morris. It was more important to save their lives.

Thinking of this, everyone left the meeting room nervously. Only Jonson and his assistant were left.

Morris slowly looked at Jonson and said coldly, "Should I still believe you now?"

Jonson frowned gloomily and said fiercely, "This was all done by Yu Tian."

"Don't you know?"

"No, I think it was you!"

Chapter 457 – Chapter 457 Could Be Provided

Thank you readers!

Morris crossed his hands and looked at the shocked Jonson coldly. He said hatefully, "This conflict is all because of your men. They provoked Yu Tian, and you're their commander!"

"But you didn't do anything to stop them. You even opened fire on innocent people in front of the reporters all over the world. What do you want me to do?"

Jonson could hear the blame and resentment in Morris's tone. He had been a commander for most of his life. Did he need to remind him of what he should do?

He said with dissatisfaction, "If that's the case, Mr. Morris, why don't we take this opportunity and give me the authority to drive Yu Tian out of Sean. Then, the world will be peaceful!"

Morris sneered and said disdainfully, "When Chu Yan industry built the first super building in Sean, someone had already proposed it. Don't you think it's a little late to say it now?"

Jonson wanted to continue his request. At this time, the Secretary entered the door and said in a low voice, "Mr. Morris, there's a Joseph from a super country who wants to see you!"

The secretary emphasized the word "Superpower" as if to remind him that he had to see this person.

Morris slowly stood up and said coldly, "Jonson, you are no longer the commander of Sean's Guards!"

After saying that, Morris did not even look at him and left the meeting room in a huff.

Jonson's face was as gloomy as the weather outside. Morris was an idiot. He only cared about his position as the top manager and did not put Sean in his eyes at all.

Now he wanted to ask him to hand over his authority. This was a dream.

Thinking of this, Jonson immediately took out his phone.

In the office, Morris felt extremely depressed under the pressure of Joseph's aura.

Joseph did not treat Morris as the top manager of Sean. He said expressionlessly, "You want to close down all of Yu Tian's companies in Sean and expel Yu Tian and his people from Sean!"

Morris frowned and took a deep breath to break the pressure. Then he said coldly, "This is impossible. Chuyan industrial group is the biggest industrial manufacturing company in Sean. How can it be closed down just like that?"

"Moreover, we have always insisted on the independent rules of Sean. I think the senior management of PBG or super country doesn't have the right to order me what to do!"

However, Joseph sneered. This incompetent senior management had a strong temper.

After the sneer, Joseph said indifferently, "If you don't agree, the superpower will immediately cut off the 700 billion cooperation project with Sean. At the same time, Sean's neighboring countries will also give up their cooperation with you,

"Can you, or Sean, bear the loss?"

Morris was silent. However, his silence did not cause the riot outside the building to become quiet. Instead, it became even more chaotic.

At this moment, Yu Tian was sitting in the quiet study room, sipping coffee and watching the lively scene on the computer.

At this time, Locke sent a message.

“Boss, we have received information that the people of the super nation are putting pressure on Morris to immediately issue an order to shut down Chu

Yan Industry!”

Yu Tian placed the phone gently on the table and only smiled indifferently.

It must be the people from PBG fanning the flames. Only they had the ability to do so.

It was time to go out for a stroll. At least, Morris had to know how to support him. If he could see the people from PBG, he could also take his life.

It had been a long time since he had killed someone. It was a good time to use the people from PBG to satisfy his craving.

When Yu Tian appeared in front of the management building, he was a little excited when he saw tens of thousands of people applauding and shouting his name.

Even though he was only using them, he was touched when he saw so many people bleeding for him.

He waved his hand to show his dominance in such a lively scene.

At that moment, all the cameras were aimed at Yu Tian, so much so that some of the civilians watching TV were discussing it.

“This guy's momentum is really great. I think he should be the top manager!”

Yu Tian did not want to waste too much time here and wanted to enter the building directly. The members of Sean's guards immediately shouted from behind the defense point, “Stop! No one is allowed to enter this place now!”

However, he smiled coldly and said disdainfully, “I can go wherever I want to go. Get Out of my way!”

The aura that erupted was so oppressive that the Sean Guards could not breathe. They all retreated to the side, opened the defense fence, and let Yu Tian enter the building.

Such a move made the crowd even more excited.

“Look, that's our boss!”

“Those henchmen of the Sean Guards, go home and eat. Your wives have prepared delicious poop for you!”

“Support Yu Tian as the top manager, Yu Tian, Yu Tian!”

In the deafening shouts, the entire management building was trembling.

Even the coffee cup in front of Morris was trembling.

At this moment, the door was pushed open by Yu Tian.

Yu Tian sat comfortably on the soft sofa and looked at Morris expressionlessly. He said indifferently, “Which idiot from PBG did you meet?”

“Joseph!” Morris was also expressionless. Even though he had a thousand kinds of anger and helplessness in his heart, it was useless to talk nonsense now.

However, Yu Tian chuckled and looked at the two cups of coffee that were still steaming on the table. There was a trace of disdain in his eyes.

It was this idiot again. His legs were quite fast. If he had known earlier, he would not have pretended to be a fool outside.

He would let him enjoy himself for a while first. After he dealt with Morris, he would go and mess with that idiot again.

Yu Tian gently flicked his knees and asked, “What are your conditions?”

In front of Joseph, he felt a lot of pressure. In front of Yu Tian, he felt as if the air was frozen. Morris loosened his tie, and only then did he feel a little smoother.

He gritted his teeth and said angrily, “If I order Chu Yan company to be shut down, I can continue to get the 700 billion cooperation projects, as well as more cooperation projects with the surrounding areas!”

At this moment, a violent explosion suddenly came from outside.

Morris hurriedly turned back to look. It turned out that the supporters and opponents had an intense conflict. Someone had lit a burning barrel in the crowd, and thick smoke instantly filled the air.

However, Yu Tian was very calm. He did not even make any unnecessary movements. He said in a particularly indifferent tone, “If you agree, the tens of thousands of people outside will immediately turn Sean into a battlefield.

“If you don't agree, I will provide all the project funds for the Super Nation. I will also continue to provide financial support to you, the top manager, so that you can sit here every day and drink imported coffee!”

Morris suddenly turned around and looked at Yu Tian with an extremely conflicted gaze..

?Chapter 458 – Chapter 458, This Was The Deal

Thank you readers!

Morris knew that Yu Tian would not give him these benefits for free. He asked cautiously, "Then what do you want?"

"The position of President of the Sean Defense Department!" Yu Tian made his request without hesitation.

Morris broke out in cold sweat. If the position of president was given to the Devil, Yu Tian, it would be the same as putting the entire Sean in his hands.

At that time, he would control the entire Sean defense system. Even as the highest president, Morris would not be able to control him.

Therefore, Morris shook his head and said firmly, "That's impossible. You're just a businessman and a person from the eastern country. How can I hand such an important position to you?"

Before he finished his words, the secretary rushed into the room in panic and turned on the television with a face full of fear.

At this time, Jonson and dozens of high-ranking commanders of the Defense Department were holding a

Jonson said expressionlessly, "Because of the current management and the incompetence of Sean's president, Morris, this has led to such a chaotic situation in Sean. The Defense Department has now officially announced that they will take over the senior management department ,

"At the same time, the Defense Department will expand the defense authority of the Sean Guards. If necessary, they will carry out armed suppression. Later, we will also close all of Chu Yan industry's investment projects in Sean,

"From now on, I will be the president of the Defense Department. At the same time, I will replace Morris as the highest president!"

Seeing this, even Yu Tian was a little surprised. Morris collapsed on the chair on the spot.

At this time, dozens of panicked senior management rushed to the door of the office and shouted.

“Morris, that guy is crazy. What does he want?”

“We have to do something. Don't you want anything?”

“Maurice, what are you doing?”

Maurice's Circuit was short-circuited. He could not hear what others were shouting. His mind was buzzing.

At this moment, Yu Tian suddenly stood up and came in front of everyone in a domineering manner. He said coldly, “What the F * Ck are you shouting for? Those who don't know will think that your mother is going to give birth tomorrow. Get the F * Ck out!”

Only then did everyone realize that Yu Tian was still there. They were all so frightened that they shivered and left the office one after another.

Yu Tian turned around and dragged Morris directly from behind the desk to his feet. He raised his hand and gave a clear and crisp mouth.

Even so, Morris was still crawling under the desk with tears and Snot. He was so scared that he was out of his mind.

Yu Tian pulled him out again and shouted coldly, “You are still the president now. Can you not act like a coward? You better pull yourself together!”

This trick worked. Morris was indeed much calmer, but he still held Yu Tian's arm tightly and asked with a trembling voice, “What should I do? What should I do now?”

“Do what you should do!” Yu Tian pushed him away and said arrogantly, “O'Qionsen thinks that he can control everything, but that's a dream. You also immediately hold a press conference and announce that I will be the supreme president of the Defense Department,

“You don't have to worry about anything else. I will immediately erase Qionsen!”

Morris did not even think about it and immediately got up. He opened the door and shouted to the outside, “Call the reporters over immediately. I want to have a meeting!”

The secretary hurriedly went into the room to wipe his face. His face was full of Snot. How was he going to meet people?

Yu Tian looked at his dead face and felt disgusted. He said impatiently, “Pull up your pants. What's more important than this?”

Then, Yu Tian took out his phone and called Locke. He gave a direct order, a€?Immediately call our mercenaries to protect Chu Yan's industrial base. Tell

Dorias to immediately bring a thousand mercenaries to protect my villa!a€?

Locke was silent for a moment. Then, he asked in a low voice, a€?Is this the start of a war?'

Yu Tian looked out of the window and said indifferently, [a€?That's not what I want. Sometimes, realizing your pursuit doesn't mean that blood will flow like a river. Go and carry out my order now!a€?

Then, Yu Tian called Lornes of the god Fleet and gave him an order.

a€?The freighter will linger in the open sea first. Call a battleship to protect it.

The rest of you, go back and defend Sean. Wait for my order!a€?

Lornes immediately replied, a€?Understood, Mr. Yu. I'll go to Sean Now!a€?

At this time, Morris was also ready. He came to the news center with Yu Tian.

Yu Tian looked at Morris now. He did not look like a CEO, but more like a fool.

Morris first scolded angrily, a€?Jonson is a traitor to Sean. He made an extremely wrong decision and tried to use this method to fulfill his request,

fortunately, Sean's strength was not something that a guard commander like him could support. Moreover, up until now, only Sean's guards and some of the defenders were on his side,

[a€?I am still Sean's manager. I will continue to defend Sean's interests and honor. At the same time, I now announce that Sean and Chu Yan industry will continue to cooperate,

a€?Moreover, Mr. Yu Tian will be the highest CEO of Sean's Defense Department. I now invite Mr. Yu Tian!

After Yu Tian came to the podium, under the flashes of hundreds of reporters, he said indifferently, a€?All of this is the fault of the Sean's guards. I will personally eliminate these bastards,

[a€?From now on, Chu Yan industry will continue to expand the scope of cooperation with Sean. Later , we will sign the 700 billion cooperation project. At the same time, in the next month, we will provide more work!

Just a few words had shocked all the reporters present.

Seeing that Yu Tian was about to leave, the reporters shouted crazily, "Mr. Yu, are you taking over the project of superpower?"

"Mr. Yu, how do you get rid of Jonson?"

"Mr. Yu, do you have any private deal with Morris?"

Hearing this question, Yu Tian suddenly turned around and said coldly, "You are right. We did make a deal. That is, I put more money into Sean,

"Let everyone in Sean have a job, eat well, wear well, get married, have children, and even become the happiest country in the world. What I get is to help Sean and Morris get rid of those bastards, Jonson,

"In the future, I have to protect Sean from being pretentious. This is my deal!"

As soon as Yu Tian finished speaking, the whole place was dead silent. When Yu Tian walked out of the door, there was a sudden burst of applause behind him.

When they left the management building, the crowd was so excited that they almost went crazy.

Yu Tian motioned for everyone to go back to work at the factory immediately.

With just one sentence, tens of thousands of people immediately left in an orderly manner. There were even people who specially cleaned up the garbage.

At this time, Yu Tian had already arrived at the Defense Department.

He was now the highest CEO here. There were at least 500,000 defenders who listened to his commands.

Of course, the prerequisite was that that bastard Qionsen had to die.

Those who had followed Qionsen had all left. Those who had not followed Qionsen were all tied up in a few rooms in the Defense Department.

When Yu Tian saw them, he shook his head in disgust..

press conference in the Hall of the Defense Department.

?Chapter 459 – Chapter 459, Tempering One'S State Of Mind

Thank you readers!

In the crowd that was tied up was the former CEO, an old man with a head full of white hair.

Seeing him, Yu Tian understood. No Wonder Qionsen was so unscrupulous and crazy. It turned out that there was no one above him who could suppress him.

Ten minutes later, in the conference room, Yu Tian first asked everyone a question.

“Now, I need to know how many defenders I have to mobilize.”

The senior analyst of the Defense Department, Selve, said in a deep voice, “Mr. President, there are 570,000 defenders in the whole of Sean, including land, air, sea, and long-range rockets on the ground!

“There are about 50,000 defenders working with Jonson. You can mobilize 500,000 defenders now, but that Bastard Jonson is very likely to take over the long-range base. This guy is completely crazy!”

At this moment, a few senior analysts immediately opened the map on the big screen.

Self introduced, “We have a total of 270 long-range bases, but the only one that can be easily taken over is here!

Yu Tian looked up, and self pointed to a mountainous region called Nila on the map.

Self said, “Mr. President, Nila is where we store all kinds of long-range firepower. This is a stretch of mountainous region, and we only have less than a thousand defenders here.

As for the defenders following Jonson, most of them are around Nila. They will definitely take over Nila First!

Yu Tian felt that listening to what self said was a headache.

Thinking of this, he stood up and left without saying a word. Everyone looked at each other, not knowing what to do.

An hour later, Chu Meng and Chu Yue arrived at the office of the Ministry of Defense.

Chu Meng went crazy as soon as she entered the office. She said excitedly, “Wow, this is the place I’ve always dreamed of coming to. Look at those airplane models, these equipment, this is power!”

“Hubby, do you know that every order you give out here determines the life and death of countless people? Doesn't it feel great?”

Yu Tianke had never thought about these things. He had asked them to come just so that he could use the method he was used to to fight this fight.

He said helplessly, "Can you calm down? I don't even want to stay in this position for long. I'm just here for My Plan."

"Now, I need to understand all the information. You and Chu Yue are both veterans in this field. Give me an analysis. where is Qionsen most likely to appear now? If I don't kill this idiot, I won't even have a good meal!"

Chu Yue said coldly,

i

"We need access and information. We also need the command center!"

Chu Meng added, "We also need uniforms. I want to wear combat attire. That would be so sexy!"

Yu Tian slapped his forehead hard. were they here to fight or to have a party?

Half an hour later, the command center was fully opened. Yu Tian brought Chu Meng and Chu Yue, who were wearing combat attire, into the command center. The moment they walked in, everyone was stunned by the beauty of those two women.

Yu Tian also felt that Chu Meng was right. The two of them were indeed very sexy in their uniforms.

Self stood up and asked curiously, "Mr. President, these two are?"

"They are my assistants and intelligence tactical analysts. You can all leave now. Self, you can stay here by yourself!"

"Ah? Everyone felt incredulous when they heard Yu Tian's words.

The equipment here required at least fifty people to master, and the two of them could control all the equipment?

But they had no choice but to obey, so they could only get up and leave.

Following that, Chu Meng immediately opened the console and connected to her computer. The big screen immediately became Yu Tian's favorite, the big windows and clear satellite images.

Chu Yue was connected to Chu Xuan's computer, and soon after, Chu Xuan's profile picture appeared on another big screen.

Seeing their skilled operation, self was so nervous that he was sweating.

Could it be that these few people could complete a battle?

At this time, Yu Tian raised his head and said indifferently, "Chu Xuan, Chu Meng has already sent you the information on Qionsen. Now let's see if we can find this guy on the map!

Chu Xuan immediately did some operations on the computer and clicked confirm.

The image on the big screen immediately turned into a helicopter. Chu Xuan said, "If the information is correct, Qionsen is in this helicopter, but because of the satellite angle, we can't see the people in the helicopter!

Chu Meng immediately analyzed the route and said, "Their target is Nila. They will arrive in half an hour!

At this moment, Chu Xuan said, "Yu Tian, take a look at this!"

The images on the big screen immediately gathered around the Nila base. A large number of defenders were quickly heading towards Nila.

The Time Chu Xuan gave was that these defenders would arrive at Nila base in two hours.

Yu Tian nodded and let Chu Yue connect to Lornes' radio.

The moment Lornes appeared on the big screen, Yu Tian immediately ordered, "I'll give you two coordinates. One is a helicopter, and the other is a defender on the highway. Kill them!"

Lornes immediately opened the radar map. After confirming the coordinates, he immediately ordered the fighter jets to take off.

The fifteen fighter jets approached the target in five minutes at supersonic speed.

The pilot's confirmation rang out from the command center.

"We are close to the target. Request for attack confirmation!"

Yu Tian rubbed his chin and thought carefully. If Jonson was not on that helicopter and was destroyed rashly, it would not be easy to find out where that guy was.

Hence, he ordered, "After target number one has landed, launch an attack Target number two, Normal Attack!

With that order, the fighter aircraft formation turned around in a carefree manner. All sorts of attacks rained down like rain.

The defenders on the ground were beaten until they cried for their mothers and fathers, with countless casualties.

Yu Tian did not even blink. There had never been a war where there were immortal people. On his path to becoming a powerhouse, there would be more people dying at his hands.

Right now, he was only experiencing the taste of blood. On his journey to becoming a powerhouse, he was tempering his state of mind.

Hence, he said very decisively, "Continue the bombing, don't leave anyone alive!"

Behind him, he felt his heartbeat quicken. He stopped him in a low voice, "Mr. President, they are just ordinary defenders, and they also listen to orders. Will they do this?"

Yu Tian suddenly turned around and said coldly, "If they only listen to orders, then in the end, their weapons will also open fire on innocent people without hesitation, because this is also their order!"

Self had nothing to say. He could only shut his mouth and continue to look at those fighter jets, wantonly trampling on those poor lives.

At this time, Yu Tian also ordered Lornes, "Red Devil bombers, Take Off!"

?Chapter 460 – Chapter 460: Leave No One Alive

Thank you readers!

If he could confirm that Jonson was in that helicopter, he would destroy it together with Nila's base.

In the satellite image, the helicopter slowly landed at Nila's base.

Yu Tian watched silently. He was right. Jonson had chosen Nila because Nila was already on his side.

Jonson got off the helicopter as expected. Behind him were two men in black. One of them was a young man with red hair. He even looked up at the sky.

However, Yu Tian was pretty sure that this action was the second-generation developer.

Why did they also come to participate? Couldn't they just live well? They were really courting death without any hesitation.

Yu Tian shook his head coldly and ordered, "Red Devil, wipe out Nila directly!"

The five pilots were shocked. With the power of Red Devil, it would be easy to wipe out Sean, not to mention wiping out Nila. But did they really have to do that?

Seeing that the pilot did not speak, Loens was furious. He reprimanded loudly,

"Red Devil, do you hear me? This is an order. Carry out immediately!"

The pilot replied, "Red Devil confirmed. In one minute, we will carry out a full-scale bombing!"

Lornes hurriedly explained to Yu Tian, "Boss, this is their first time carrying out such a mission. They are a little hesitant. Please Don't blame them!"

Yu Tian was too lazy to waste so much time on this nonsense. He just looked at the screen and pondered.

If the second generation developers were involved, he might have to go to Nyla personally.

At this time, the bomber had already arrived above Nyla. Just as it was about to bomb, all the equipment on the plane was suddenly disrupted by a strange electrical wave. It instantly lost control and crashed directly to the ground.

The pilot shouted loudly, "The plane has lost control. It's completely out of control. It's going to crash!"

Self looked at Yu Tian nervously, but he found that Yu Tian did not feel any panic at all. It was as if everything was not in his eyes.

The big screen flashed, and the plane still crashed next to the base in Nyla. Flames soared into the sky. Of the five pilots, only two survived by parachuting. The rest did not survive.

Chu Meng sighed and said with a pained heart, "It's only one round with 20 billion. Darling, why don't we use Sean's plane?"

Yu Tian smiled indifferently and said, Sean's defenders are a bunch of idiots. They don't even have a decent plane. It's embarrassing to drag them out to fight. Let Chu Yan build a few more later!

Self was so shocked that he felt as if all his feelings had been taken away.

A plane worth 20 billion crashed without blinking. If it were the old CEO, he would be so distressed that he would have to pull his pants.

At this moment, Chu Xuan suddenly said, "Yu Tian, their long-range firepower is aimed at Sean. Wait, the exact target is where you are standing right now!" Self immediately panicked. He looked left and right and asked, "President, W- what should we do? They're aiming at us!"

Yu Tian glared at him in disdain and said disdainfully, "What are you afraid of? I'm still here. Look at how scared you are. You're really amazing!"

It was indeed a life, but no one wanted to live well. If they suddenly didn't want to live, wasn't that just playing around?

Chu Meng chuckled and said, "Darling, look, the radar around Sean has already detected the signal. It seems like they're really going to do it, Haha!"

On the other side, Chu Yue said coldly, "They're dreaming. Yu Tian, do you still want to keep him alive?"

Yu Tian took a sip of coffee and said indifferently, "Leave no one alive, fuck him!"

Chu Meng said excitedly, "I've been waiting for you to say that. Now, you just need to input the code into the attack system and all the fireworks around Sean will bloom at the same time. It will definitely be beautiful!"

Yu Tian opened his appointment file. The attack code and other identity codes were all in this top-secret file.

The moment he entered the code, the seventeen remote bases around Sean immediately went into launch mode.

The radar confirmed the coordinates, and they were waiting for Yu Tian's launch order.

Yu Tian felt especially good about mobilizing tens of thousands of people with just one sentence. He said coldly, "Then what are we waiting for? Fuck!"

After the launch order was given, fifty dazzling sparks bloomed around Sean.

From the satellite map, it looked like a meteor streaking across the sky above Sean.

Yu Tian was not confused by this spark. He followed the order and launched the second strike. This time, it was a hundred.

Self could tell that Yu Tian would not stop until he had taken all of Sean's assets.

At this time, the two second-generation developers stood on the roof. They stretched out their hands and activated their minds to stop the meteor shower.

Yu Tian's lips curled up slightly. Let's see how many of them they can block?

Although the developers had stopped some of the attacks, the second wave of attacks had arrived.

It was too late to stop them. Hundreds of heavenly flames landed on the ground and exploded, covering the entire Nera base in flames in the blink of an eye.

At this moment, Jonson, who was in the Nera base, took out his phone and called Joseph in the midst of an earth-shaking explosion.

The moment the phone was connected, Jonson said coldly, "You didn't help me. Nila will cease to exist in a few seconds. I won't let you go even if I become a ghost!"

As soon as he said that, his eyes suddenly exploded. Jonson threw the phone away and slowly closed his eyes.

Joseph, who was on a flight to Super Nation, also hung up the phone and thought disdainfully, "You didn't do what I asked either. When you were thinking about how to get more benefits"

Yu Tian was already thinking about how to kill you. This is the difference. Jonson, you should just accept your fate. From now on, Sean Will Be Yu

Tian's!"

At this moment, in Sean's command center, the system suddenly received a video file. After opening it, it was Jonson's office.

Yu Tian raised his head and looked over. Sitting opposite Jonson was Joseph.

This Guy's face was gloomy as he said, "Now we can't count on that Coward Morris of yours. If you can show your strength in front of me and kill Yu Tian, as well as Chu Yan industry"

"I can promise you that I will help you get the highest authority in Sean and make you the highest CEO. At the same time, if you want to use force against Yu Tian, the Super Nation will also provide you with enough strength to fight against Yu Tian!"

Qionsen said in surprise, "If so, it will make Sean fall into civil strife. No matter who wins in the end, Sean will be hurt!"

Joseph sneered and said disdainfully,

C

“What do you think Yu Tian wants? He wants to make Sean fall into civil strife and gain benefits from it. The only one who can really help you is the superpower, and only me!”

“Stop hesitating and fire at Yu Tian. As long as you agree to my request, I will help you with everything after that. I will also ask two developers to protect your safety. As long as you kill Yu Tian, Sean will be yours.” “Think About It!”

I Have 108 Older Sisters #Chapter 461 - Read I Have 108 Older Sisters Chapter 461

Chapter 461 – Chapter 461, Easy Ravage

Thank you readers!

When she saw this, Chu Mengyi looked at the data carefully and said doubtfully, “This is from Nigeria!”

Yu Tian poured another cup of coffee and said as he drank, “It’s very simple. Qionsen was fooled by Joseph, and Joseph didn’t expect me to directly wipe out Nigeria. He wanted to use Sean’s internal strife as a way to pressure me,

his idea of creating pressure on me also failed. In a simple sentence, there was no F*cking good cake. Jonson wanted me to know who was fooling him so that I could take revenge for him!”

Chu Meng finally understood. So there was something in their hearts. The only thing they didn’t expect was that Yu Tian’s IQ had reached the point where he could easily trample them.

It could be seen from Yu Tian’s indifferent expression that he hadn’t felt any excitement up until now.

Was his opponent too simple, or was he looking for a more exciting opponent?

At this time, Yu Tian stretched lazily and said in boredom, “Sister Meng, you can go for me at the press conference later. I’m going home to see Chu Yan Now!”

He had never thought of becoming the president of the Defense Department. It was just for the sake of benefits.

Leave the other work to them.

After returning home, Yu Tian went directly to Chu Yan's room. Seeing that Chu Yan was extremely exhausted and was rapidly losing weight, his heart was particularly uncomfortable.

Chu Xuan dragged Yu Tian out of the room and said very seriously, "Sister Yan's body is extremely exhausted. If that's the case, she might not even be able to hold on until the child is born. She'll die first!"

Yu Tian also frowned. The physical strength that was supposed to be consumed in ten months was now reduced to ten days. No one could bear it.

After thinking about it, Yu Tian decided to use his inner energy to help Chu Yan reduce the pain.

He turned around and returned to the room. He held Chu Yan's cold and trembling hand and began to pour in his inner energy.

"Why don't I add the golden needle? The effect will be better!"

When the effects of the golden needles and inner energy appeared at the same time, Chu Yan felt that the pain had lessened a lot. But now, she did not even have the strength to speak. She hoped that Yu Tian could feel her determination.

No matter how painful it was, she had to give birth to this child.

But the inner energy was limited. After an hour of reckless output, it made Yu Tian feel dizzy. His heart beat very violently. He felt thirsty and hungry.

Now was not the time to persist. He had to replenish his internal energy before he could continue using it.

When they arrived at the restaurant, Morris brought a dozen higher-ups with gifts to thank Yu Tian.

Yu Tian met them directly at the restaurant and said to Chu Xin, "Hurry up and get me something to eat. Roast a pig and stew a few chickens. As for the rest, make whatever you want. The more, the better!"

Morris and the others could not understand what Yu Tian was saying either. He took out a gift that was especially beautifully wrapped and said with a smile, "This is the red wine that I've been collecting for many years. It's a special vintage from the 1825 romantic life winery. It's..."

Who the F * Ck would listen to him dilly-dally? Yu Tian snatched it over and opened the lid with his fingers. In a single breath he drained the bottle of treasured red wine that was worth tens of millions.

Morris was so shocked that the muscles on his face were jumping. Was he drinking water or wine? He should at least leave some for these people.

Yu Tian threw away the empty screen, smacked his lips, and asked, "Just one bottle?"

How many bottles could there be?

Morris said with a bitter face, "There's only one bottle in the whole world. For this bottle of wine, I even fought with other countries back then, and more than six thousand people died!"

Yu Tian did not care at all. He said indifferently, "Wine is used for drinking, and rice is used for eating. They only have one use. Just like humans, they always have to fight for something."

"So, don't waste your breath on me. Tell me, what do you have to say to Me Now?"

Morris smiled and said, "You are now one of us. The authority of the President of the Defense Department is higher than mine. Now, I'm basically handing over the whole of Sean to you."

Previously, the 700 billion project cooperation had been canceled due to the super nation's anger. However, this was especially important to Sean.

Nonsense. Didn't he just want me to invest 700 billion for them?

Yu Tian said indifferently, "700 billion is nothing to me, but I can also invest. All the projects have to be done by Chu Yan industry. You guys just enjoy the benefits of the projects,

the rest doesn't belong to you. If you agree, we will do it. If you don't agree, then we will talk about something else!

Morris was as furious as Thunder in his heart. In the end, all the benefits were still his. He and Sean didn't get anything.

While they were discussing, Chu Xin had already prepared the food. Morris and the others thought that Yu Tian was going to treat them to a big table of dishes.

In the end, Yu Tian did not say a word. He just ate and ate.

Morris's face was red. You should at least let these people eat. Why are you so focused on eating for yourself?

Yu Tian did not want to let them eat. Moreover, they had to agree to his conditions.

Because now they could not refuse even if they wanted to. Super Nation had already completely terminated their cooperation with Sean. If they did not agree, their projects and previous investments would all go down the drain.

Morris had no choice but to agree in the end. Yu Tian did not want to waste any more time on them and directly asked Chu Xin to send them off.

After leaving this luxurious manor, Morris's face immediately darkened.

He scolded fiercely, "What a bastard, and he's so barbaric. He's only been the president of the Defense Department for less than a day, yet he dares to be so rude to me!"

The staff around him came up with ideas, and one of the middle-aged men said, "Mr. Morris, he has only been the president of the Defense Department for one day. We can take advantage of his unstable foundation!"

"Take away his authority as soon as possible!"

Another staff member said, "I agree. You can bribe some of the people in the Defense Department by giving them the authority to command, promoting them, or transferring them!"

"We can also reduce the budget of the Defense Department so that Yu Tian Won't be able to take advantage of Sean!"

Morris nodded. He felt that what they said made a lot of sense. He could do that.

At the same time, Yu Tian was also calling Chu Meng. He said while eating, "You're working hard to bribe people for me. Sean's defense department is so poor that they can't even wear pants!"

"Later, you'll hold a press conference for the Defense Department. You'll say that the Defense Department will increase the budget by 100 billion and give all the defenders more benefits, equipment, and even basic equipment!"

Chu Meng wrote down Yu Tian's words and handed them over to Chu Yue who was talking to the reporters.

Chu Yue took a look and said coldly in front of dozens of reporters, "I just received news that the president of the Defense Department, Mr. Yu Tian, has decided to increase the budget of the Defense Department by 100 billion!"

?Chapter 462 – Chapter 462, Never-Ending

Thank you readers!

The reporters and most of the higher-ups of the Defense Department were shocked.

In the history of Sean, the largest budget was still 7 billion a decade ago. After that, it became less and less. In these years, it was less than 1 billion.

100 billion was like a dream. All the defenders would have a good life in the future.

Chu Yue said coldly, "This budget includes increasing the welfare of the defenders, replacing better weapons and equipment, better equipment, defense protection system, and so on,

at the same time, the president of the Defense Department decided to give priority to providing job opportunities to the families of the defenders, and to increase more job opportunities in the future!"

When they saw the news, all the defenders and their families cheered.

Morris was so angry that he smashed the table and shouted angrily, "Why don't we have 100 billion? Why Can Yu Tian have it? If that's the case, the defenders will follow Yu Tian wholeheartedly,

in the end, we can only become toys in Yu Tian's hands. We are at his mercy, but we don't even have the courage to speak loudly!

All of the staff members were silent. who asked him to be rich.

In the blink of an eye, it was the ninth day. Chu Yan had already fainted several times, and Yu Tian had lost a lot of weight.

In the room, all kinds of medical equipment were working. Chu Xuan was also so busy that her forehead was covered in sweat. From time to time, she would look at the data and images and remind them, "Chu Yan is going to give birth in an hour. Now, everyone, try to stay calm!"

How could they stay calm? Especially Yu Tian. Seeing Chu Yan in such pain, his heart ached endlessly.

Chu Yan held Yu Tian's hand tightly. The pain made her tears flow down her face and she could not speak. However, Yu Tian could still see determination and courage in her eyes.

He comforted her softly, "Hold on for a little longer. I've already asked Chu Xin to get you two thousand red-skinned eggs, two large pig legs, and five hundred old hens. You can eat until the Chinese New Year's Eve!"

At this time, Chu Yan didn't know whether to laugh or cry.

Seeing that there were only five minutes left, Chu Yan was in so much pain that she was about to faint again. Yu Tian immediately took out the jade pendant and placed it on her abdomen.

The jade pendant suddenly emitted a blinding light and quickly absorbed Chu Yan's pain. Chu Yan felt especially relaxed in her abdomen, and her throat gradually became stronger.

She suddenly said the first thing she had said in the past few days, and she even said with great determination, "Yu Tian, I love you!"

The sound of the child's crying appeared in this world along with Yu Tian's tears.

At the same time, a violent energy spread out and shattered everything in the room except for people. Even the doors and windows seemed to have been blown open.

Yu Tian hugged the five-pound chubby boy in his arms. At this moment, Yu Tian seemed to see the continuation of his life. The endless shock made him feel touched, excited, and grateful.

Chu Xuan, Chu Meng, and the others were so touched that they cried. This was Yu Tian's son and a miracle of the Chu family.

Yu Tian gave the child to Chu Yan, and the Weak Chu Yan hugged the child tightly, hugging Yu Tian.

He said gently, "Thank you for your hard work. Thank you for giving birth to such a good son for me. Thank you, Chu Yan!"

Chu Meng immediately posted this touching scene in the family group.

Not to mention the red envelope rain, all kinds of blessings, envy, screams, and crying lasted for a full hour.

At the same time, uncle long of the Chu family knelt in front of the ancestral seat of the family and said tearfully, "My lord, this old servant congratulates my lord. The Yu family finally has a descendant, and the Yu family's incense is finally going to flourish.

"My lord, this old servant has not let down my Lord's Trust. Thank you, my Lord, for your protection!"

A black ship suddenly appeared near the sea area of Sean. The Super Country Destroyer, which was on a detection mission here, did not even have time to dodge and was directly smashed into pieces.

The Super Country Carrier fleet outside the sea border noticed that the freighter had smashed its destroyer and immediately went into battle mode.

The commander of the fleet was Lyons. When he saw the black, devil-like ship moving across the pitch-black sea at the speed of light, he was completely stunned.

He couldn't even give the right order. He could only watch as the black freighter smashed the carrier into pieces.

In the violent explosion, the black ship continued to crash into all the battleships like lightning.

In the blink of an eye, more than ten battleships disappeared on the vast sea, and the black ship also disappeared in an instant.

Yu Tian was immersed in happiness when he suddenly heard a deafening roar, followed by a majestic voice.

“Tian er, carry Tian Ba and come see me immediately!”

After the voice, the image of the black ship appeared in his mind.

Yu Tian suddenly frowned. Uncle Long said that the child would be taken away by the family after it was born. They came really quickly.

That person actually called him Tian er. He should be his elder. It was better to go and see him.

How could Chu Yan Bear to part with the child? Yu Tian could only console her, “This is the family's rule, but we can still see the child!”

After that, Chu Yan could only cry and hand the child over to Yu Tian.

Half an hour later, Yu Tian arrived at the port. It was still the same black ship, exuding an extremely fierce and domineering aura.

Walking into the ship, Yu Tian met a middle-aged man in an extremely luxurious hall under the respectful welcome of a group of white-clothed disciples.

At this moment, Yu Tian felt that this middle-aged man was so friendly, as if he could even feel the warmth of his embrace. It was as if he had seen him somewhere before, but it felt very distant.

The middle-aged man looked at Yu Tian with great appreciation. Suddenly, he laughed out loud and said, “Tian er, I am your father!”

Yu Tian was suddenly shocked. The person in front of him was his father, Yu Dian Lie.

With that said, Yu Tian realized that he really looked like him. The only difference was that he was even more domineering than him, and his gaze was even colder and more arrogant.

But what could he do? He had just been born, and he had already disappeared. Now, he even wanted to carry his child. Was there really such a father?

Just thinking about it made him f*cking angry. Yu Tian did not have a good expression either. He said indifferently, "What? Do I have to give you another kowtow? Don't talk nonsense with me. You can only carry the child away when it's full moon. Not Now!"

How could Yu Dian Lie be angry with his own son? He said slowly, "This child is still angry with me. Being born in this family is also out of your control. In the future, you will also be in such a difficult position,

"This is your fate. You Don't have to acknowledge it if you don't want to. You can become a supreme powerhouse. At that time, I will have to kowtow to you before I can speak. Now, you don't have a choice. Father also doesn't have a choice!

Yu Tian also felt that there was no need to be angry. It had been so many years, and his fate was the same. Fortunately, he was now full and dressed warmly. He could pretend to be the best in the world..

?Chapter 463 – Chapter 463, The Difference In Strength

Thank you readers!

Yu Dian lie held Yu Yan Tianba in his arms, his eyes filled with love.

He said in a deep voice, "This is the hope of the Yu family. Our sect has already lost its talents and suffered from bullying. There are also internal strife within the family, all coveting the position of Sect Master"

The other sects are also spreading their human pearls here. Now, it all depends on whose family has the most people, whose family has the most experts, who will be able to dominate there. Yu Tian, I know you hate father..,

"But do you know that father carries the lives of tens of thousands of disciples on his shoulders, and your destiny is the same. You even have to protect the lives of the tens of thousands of people in the Chu family"

"I must take the child away today. Everyone in the family is waiting for the moment I lift him up. Everyone needs this hope. Ten years later, Tian Ba will receive the inheritance of the family in the sect's Qixin Palace"

“At that time, you will definitely see him again. Tian cer, don't blame me for being heartless. This is our fate!

Yu Tian did not want to hear it. No man could be like his own child, who was just born and was taken away. They would only see each other ten years later.

He stretched out his hand to snatch the child, but no matter how much strength he unleashed, he could not touch Yu Dian Lie's finger.

Yu Tian was incomparably shocked. Such a difference in strength was simply overwhelming.

Yu Dian Lie's face suddenly sank, and he berated, “Why is your cultivation technique only at tier 2? What have you been doing for such a long time? Could it be that those servants of the Chu family have caused you to lose your mind?”

What was the use of saying such nonsense.

He had never met an expert, so naturally, he did not improve without a challenge.

He frowned tightly and said coldly, “You can't take the child away, at least not yet!

Yu Dian lie snorted angrily and flicked his finger. An extremely violent force sent Yu Tian flying a few meters away and he fell heavily to the ground.

At this moment, Yu Tian felt his internal organs rolling and he spat out a mouthful of blood.

He had never felt so depressed.

However, Yu Dian Lie glared at him coldly and said, “If you continue to live like this, even your son can easily wipe you out. How are you going to inherit the position of the family head in the future?

“Listen carefully. If you want to be the ruler, you must first have a cold heart. Everyone in the world is just a dog. Everything you are doing now is the path to becoming a strong person,

“Go back. When you give birth to a child, I will come again. When that time comes, I want to see your strength increase!”

As he finished speaking, Yu Dian lie waved his hand. Yu Tian did not even have the chance to resist. He was directly pushed out of the Hall by a powerful force.

The moment the door closed, Yu Tian clenched his fists tightly.

It was useless to say it now. He could not beat Yu Dian lie even if he fought. In front of Yu Dian Lie, he was just a weak chicken. He did not even have the ability to fight with Yu Dian Lie.

He gritted his teeth and climbed up. He swore in his heart that one day, he would stand here with his head held high and suppress everything.

The ship disappeared in the blink of an eye. Yu Tian stood there quietly for two hours.

Yu Tian was thinking about his life. He was sure that his goal was to make himself strong at all costs.

Enemies. What he needed now was an enemy, a strong enemy.

After returning home, everyone saw that Yu Tian was alone. The child was gone. Chu Yan burst into tears.

Yu Tian hugged her tightly and said in a deep voice,

u

I swear that one day, no one will carry my child away like today!

Just as he said that, Yu Tian felt a stifling feeling in his heart. A violent pain suddenly rushed into his forehead. Then, his vision turned black and he fainted on the ground.

Two days later, Yu Tian finally woke up in the morning. He had no memory of the two days that he had been unconscious. He did not even have a dream.

However, there was a change in his body.

Yu Tian felt that every breath seemed to be able to fill every cell in his body with strength.

“How could this be?”

He clenched his fists with all his strength, as if he was also holding an explosive force that was like a volcanic eruption.

Yu Tian frowned slightly and pondered carefully.

“Could it be that Yu Dian Lie's attack on me was to help me break some of the restraints on my body?”

He shook his head with all his might. He definitely would not accept the kindness he had given himself.

At this moment, Chu Xuan pushed open the door and entered. Seeing that Yu Tian had woken up, she said excitedly, "Oh my god, you're finally awake. You're going to scare us to death!"

Yu Tian threw all his conflicts to the back of his mind and said with a faint smile, "What's there to be afraid of? As long as I'm still breathing, I won't die."

"I'm a little hungry. Go get me something to eat!"

Chu Yan was the happiest one. She hugged Yu Tian in the dining room and comforted him while crying, "Darling, don't be sad. I won't cry anymore. We can still have another child. Moreover, you've said it before...

"We can still see each other. We're all fine!"

Yu Tian nodded and said in a deep voice, "You're right. After all, the child has already been taken away. There's no use being angry. In the future, we'll have a baby slowly. We'll have nothing to do!"

Everyone didn't know whether to laugh or cry at these words. Chu Meng looked at the time and had no choice but to say, "My dear, let's work first. During the two days that you were unconscious, Sean was in a state of shock!"

"Chu Yue and I were able to suppress it, but Supernation lost an entire aircraft carrier fleet, and it was near Xi En's sea area. They thought that it was your doing. So, they called over two more formations...

"Right at our doorstep, showing off like they don't care about their lives!"

Yu Tian smiled indifferently as he ate. "Let them show off. I can't be bothered with them. Where's our freighter?"

Chu Yan looked at the information and said in a low voice, "It will arrive at the Super Nation's port at noon. However, whether or not they can enter the port will depend on Chu Wen's operation. The Super Nation hates you to death, the freighter might refuse to enter the port!"

That was all they could do. Fortunately, the Super Nation was a magical country. Not everything was decided by the management department.

There were many private ports. As long as you gave them a higher fee, they would let you use their battleships as you pleased.

Tyrone would take care of this.

What they had to think about now was how to let Milo bring a surprise to the super country.

At this moment, Milo stood at the bow of the ship, looking at the city that was gradually becoming clearer, but his face was especially heavy.

Her freighter was full of normal goods. As for which freighter Tyrone's goods were on, it was still unknown.

The ships entered the port one after another. Chu Wen and Tyrone, who were supposed to receive the goods, did not appear. Only a middle-aged man named Acton brought dozens of men in suits and sunglasses to receive the ship.

Acton smiled politely at Milo and said, "Miss Milo, it's been hard on the road. You've had enough of the canned food on the ship.. Why don't I treat you to a meal on the ground?"

Chapter 464 – Chapter 464, Realizing Your Dreams

Thank you readers!

Milo asked warily, "Are you people from Tyrone or Chu Wen? My boss asked me to hand over the goods to them, but I don't know you. I need to call my boss!"

Accrafton sneered and shook his head. His men immediately aimed their weapons at Milo. As long as she dared to make a phone call, the bullet would go straight into her forehead.

After someone took away her phone and backpack, AKRATON smiled and said, "Now can you come with me to eat? Then we can complete this deal!"

At this moment, at Sean Shipyard, Chu Xuan sipped a mouthful of red wine and said to Yu Tian with a smile, "I like your office very much. It looks very manly, but I know that you won't be sitting here for long!"

"You're a man who likes to float around, but can you take a break for me this time? Let me realize my dream. This is what you promised me!"

Yu Tian looked out of the window at the thick smoke and dark Sean city and said indifferently, "It's meaningless for you to do that. I can casually take out a few hundred billion and let the poor in the world get help,

"If you want to do it, then do it in a special way and make it more domineering.

That's what makes it interesting. Sean City is no longer a challenge. As long as I want to, I can easily put it into my pocket. This time, the place we're going to is the superpower!

Chu Xuan was especially excited. It seemed that Yu Tian was going to destroy the superpower next.

Looking at Yu Tian's deep back, Chu Xuan knew that he must be thinking of an extraordinary plan in his heart.

This was what a man should do, and it was also what he should follow.

At the same time, in a restaurant in the Super Metropolis, Milo was calmly eating with Akeraton under the gaze of more than ten men in black. This made Yu Tian admire her courage.

Akeraton also admired her courage and said frivolously, "Miss Milo, you're really charming. After this transaction, we can go watch a movie together!"

Milo put down her knife and fork, elegantly wiped her mouth, and said with a cold gaze, "Mr. Accrafton, I have to tell you that I am here to deliver the goods, not to trade the goods. That is the job of my boss and Tyrone, I am just handing the goods over to you, and the job will be done!

However, Accrafton laughed and said, "No, you are here to trade, and I am very satisfied with the number of goods this time. I have already transferred the money to you. From now on, you are also a super rich person."

"This is a super country. What's impossible about it?"

Milo frowned slightly. Yu Tian found her expression very interesting, especially when she was nervous. She always tried her best to hide the panic in her eyes and looked a little sexy.

Milo did not know all the subtle changes in her expression. Yu Tian could see it clearly. What he was thinking now was that Yu Tian had long known his identity. He had deliberately let him come here to make this so-called trade.

Thinking back to when she was in Sean, Yu Tian had paid her in public and even kissed her. It turned out that it was all for the sake of the intelligence agency.

At this time, AKERATON said gloomily, "You don't have a choice. In fact, you should have known that you are too small compared to the powerful people in the world like Mr. Yu,

you are not even as big as the hammer in his pants. Now that the things you have brought have begun to come ashore, you can also leave now!

Milo had nothing to say and did not want to waste any more time. She snorted coldly and stood up to leave the restaurant.

Just as she reached the door, a few men in black wearing white earphones surrounded her from afar.

Milo knew that they were definitely not here to talk, but to kill her.

After calmly thinking of a countermeasure, Milo turned around and walked into the restaurant. Leaving the kitchen was a good idea. If she wanted to turn the tables, she had to first ensure that she still had the life to do this.

Just as she walked into the kitchen, a man in black suddenly appeared. He raised his weapon and fired.

Milo hid behind the table. The smell of the food in the kitchen was like a pungent explosive.

At this moment, she absolutely could not let them pressure her to leave.

She gritted her teeth and casually picked up a boiling hot soup pot and threw it at the man in black.

While screaming, she grabbed the silencing weapon and quickly left the kitchen.

By the time the others rushed into the kitchen, she had already disappeared without a trace.

One of the men said to the radio, "Victor, make her disappear. One of us was burned!"

At this moment, Yu Tian had also arrived at the meeting room. The Chu sisters were all sitting there.

Yu Tian suddenly had an idea. What if they gave birth at the same time?

Chu Xuan was probably exhausted to the point of collapse.

He casually sat down on the sofa and said, "Since you're all here, I'll announce a few decisions. Chu Yan's body hasn't fully recovered yet. Chu Yan's position as the CEO of Chu Yan Industries, Sister Chu Xin, you go first!"

On the Defense Department's side, when I see those idiots, my head hurts. Chu Meng, Chu Yue, you guys go ahead and play. If you have any important decisions, just let me know. The number of mercenaries will continue to increase..,

moreover, Sean also wants to recruit a large number of defenders. He wants to recruit them with the best conditions and train them. When the time comes, when I say the word 'fuck', they will strip naked and go up to fight with their lives on the line,

now, continue to buy Sean's manufacturing industry and sell it to us. If you don't sell it to us, Fuck him!

Yu Tian took a sip of coffee and continued, 'Chu Yan, you keep an eye on the management department. Before I leave Sean, I want you to take the position of the highest manager!

Chu Yan looked at him in surprise and asked, 'You mean you want to obtain Sean's authority through violence!

Yu Tian nodded and said indifferently, 'You're right. I want to hold Sean in my hands. This is the foundation for me to become strong in the future. You are my women, and Your Foundation is in your hands. I have no scruples!

All the women nodded firmly. Yu Tian's decision and their orders had nothing to say.

An hour later, Yu Tian issued an order from the Defense Department.

Chu Meng said in a deep voice at the press conference, 'The President of the Defense Department has ordered Locke to be appointed as the second-level president of the Defense Department and Dorias as the second-level commander of the Defense Department,

he has appointed Lornes as the second-level president of the Sean Ocean

Defense Department and Chu Yue as the second -level president of the Sean Air Defense Department!

Morris from the management department was furious when he saw the news. He gritted his teeth and said, 'This is too much. Yu Tian didn't even tell me about such an important appointment. Does he still care about me as the CEO?

The man behind him said helplessly, 'We can't get a word in edgewise at the Defense Department right now. The benefits, equipment, and especially job opportunities that Yu Tian gave them

“Make all the defenders listen to him wholeheartedly. The only thing we can do now is to pressure Yu Tian through the management department.. I think you should also hold a press conference!

Chapter 465 – Chapter 465, Permission Granted

Thank you readers!

The staff member also said gloomily, “He can appoint people from the Defense Department, and you can also object to it. Doing so is to prevent Yu Tian from violently obtaining permission,

“During the press conference, you can say it more vehemently. You must fully incite the hatred of the Sean people towards Yu Tian and use fairness as an excuse to increase the pressure on Yu Tian!”

Morris felt that this was acceptable. As long as Yu Tian could be restrained, this press conference would be of value.

He had long seen that Yu Tian wanted to gain access to power through violence. Now, the entire Sean's management department was invisibly close to Yu Tian's side.

Some managers even suggested that he ask Yu Tian for permission after he had made a decision. If Yu Tian really wanted to gain access to power through violence, then these people would first stand on his side.

Sean's top manager could only be himself. This was also his own interest, and he absolutely could not allow others to destroy it.

The press conference was held an hour later. In the reporters' flashbulbs, Morris said with a gloomy expression, “What we need is a fair Sean. Any appointment that is beneficial to Sean's interests..,

“It can only be done with the consent of all Sean's people. This is Sean's most beautiful tradition, and also our virtue. But now, someone wants to deliberately destroy all of this. As the highest president of Sean, I will absolutely not agree..,

“The people of Sheehan will definitely not agree, so I will ask the Defense Department's CEO, Yu Tian, to withdraw his order later!

Yu Tian, who saw the news, smiled disdainfully and said,

u

I really should be very grateful to you. You always give me the opportunity to carry out my plan. You Can't really think that my appointment is to take away your authority, right,

“I just need a chance, a chance to have a conflict with you. However, you gave me this opportunity without hesitation. Do you think I really shouldn’t be grateful to you?”

At this time, Chu Yan walked into the room and said with pride and confidence, “All the higher-ups of the Defense Department are waiting for you in the meeting room. They think that Morris is provoking the defense department. Everyone is very excited!”

“That’s great. This is exactly what I want!” Yu Tian stood up and went to the wardrobe. Chu Yan opened the wardrobe and there was a brand new battle suit hanging inside.

When Yu Tian put on this suit, everyone in the room looked at him in amazement.

Usually, they only saw Yu Tian in a suit. But when he put on the battle suit, he looked even more handsome and domineering.

The moment he walked into the meeting room, hundreds of high-level officials stood up at the same time to pay their respects to Yu Tian.

Yu Tian slowly walked to the podium and said domineeringly, “Each of us has our own dream, which is to live, and to live is to benefit. When our benefits are touched, we have to fight for it!”

“Right now, the management department feels that we are superfluous and that we are ruining a beautiful tradition. I can not accept it. Sean needs a strong ruler, not a weak person who only cares about his own interests,

“Therefore, we must get the authority. This is what we should do here. This moment will forever be remembered by history!”

His words made everyone present extremely excited.

A few of the senior managers even said loudly, “Mr. Yu Tian, you have said what each of us is thinking. Morris is a weak fool. I think you should replace him!”

“Yes, as long as you give an order, I’ll be at your disposal at any time!”

“That’s right, my defender can take over the Canadian Defense Department within an hour!”

Yu Tian wanted them to say that. He said with supreme authority, “Very well, then we’ll do it!”

As soon as the order was given, the defenders around Sean immediately went into alert mode.

Within ten minutes, Locke's mercenaries had surrounded the management building without a sound.

The higher-ups who stood on Morris's side were all taken down by Doris and his men.

At this moment, Morris was in his office, discussing loudly with a group of people how to get Yu Tian's authority back?

Morris said arrogantly, "Back then, I gave him the position of president of the Defense Department. This was the biggest mistake. Now, I want to take back this authority. I absolutely can not give such an important position to an outsider ,

"He has indeed made a lot of contributions for Sean, but this is not what I begged him to do. After all, he has also received a lot of benefits in Sean, hasn't he?

"But we didn't get anything. We even had to calculate the weight for a cup of coffee. I want his authority back. At the same time, I want the industrial company in my hands,

"This is my city. I will not let an outsider act recklessly here!

The staff nodded in agreement and said loudly,

C

"Mr. Morris, you are right. Your press conference today was especially successful, now, I can say with certainty that many people in the Defense Department are hesitating. Should we continue to support Yu Tian? This is our chance. If we can win these people over in our hands.,

even if Yu Tian is extremely capable, he can forget about continuing to stay in that position. If he doesn't get the support of those managers, his orders will not be recognized by others,

"Next, I suggest you go to some of the Defense Department's training bases and build up your relationship with those higher-ups of the Defense Department. give them more empty promises and make them follow you wholeheartedly,

"As long as you can control these people, you don't have to put Yu Tian in your Morris felt that what he said made sense. It was impossible for him to sit in the office every day. It was time to build up his relationship with those higher-ups.

However, at this moment, the office door was suddenly pushed open. Dozens of mercenaries, defenders, and the higher-ups of the Defense Department escorted Yu Tian into the office.

Seeing this scene, Morris broke out in cold sweat.

The staff members were so scared that they hid to one side. In front of Morris, they could act recklessly, but in front of Yu Tian, they were not as brave as rats. Morris pretended to be calm and said, "Yu Tian, what do you want to do?"

Yu Tian put his hands behind his back and walked in front of him. He said indifferently, "You've been sitting in this position for long enough. It's time for someone else to do it."

"Half an hour later, there will be a press conference. You have to announce at the press conference that you and your people will withdraw from the management department!"

"What did you stand up in shock."

Yu Tian chuckled and said, "Am I not clear enough? You are no longer the president of the management department. From now on, this position belongs to Chu Yan.. Do you understand now?"

?Chapter 466 – Chapter 466 Needed A Strong Person

Thank you readers!

In front of Yu Tian's domineering aura, Morris finally understood that all of his plans were just dreams.

He stared at Yu Tian with incomparable hatred, wishing that he could eat him alive. He said with extreme anger, "You are a bandit, a bandit without any morals!"

One day, he said coldly, "You are right, I am a bandit, but you have to give me everything that I Rob. Otherwise, you won't be able to live to see a bandit like me. What will you do next?"

As soon as he finished speaking, Locke called for his men and pressed Morris onto the table.

An hour later, in the management department's press conference hall.

Morris announced in public.

“From now on, I’m no longer the highest president of Sean’s management department. Under the current new development, the management department has also made adjustments. The new president will be Miss Chu Yan of the Chu Yan industrial group,

at the same time, the management department’s upper management will also carry out a series of reappointments!”

When this news spread in Sean, the entire Sean was shocked.

However, most people were very supportive of this decision. In their opinion, no matter who became the president, it was better than Morris.

Moreover, for Chu Yan industrial, not only could they provide themselves with jobs, but they could also provide better benefits. Letting them manage Sean was the best choice.

Morris left the podium, and Chu Yan followed him up. In a flash, she said coldly, “Thank you, Mr. Morris, and even more, thank you for your support. From today onwards, I will be your manager.”

“I especially thank Mr. Yu Tian. In a moment, I will announce the new management, new rules, benefits, and so on. I only hope that under my management, Sean will be better and better,

“Everyone can live a happy life. This is my goal. Thank you, everyone!”

Yu Tian did not want to go up and speak. The job was done now. It was time for the defenders to do what they were supposed to do.

However, Morris and his staff could not let them do whatever they wanted.

Morris’ authority had been snatched away. This guy was definitely not convinced. After all, he was once the CEO. He still had some ability.

The best way was to make him unable to speak.

In the meeting room, Yu Tian took out the golden needle. Without saying a word, Morris became a vegetable.

Including his staff, they had all lost their rationality.

Chu Yan’s face was cold. There was not a trace of guilt in her heart. From the moment her child was taken away, she knew that only by Yu Tian’s side could she be treated as a human being.

Other than that, everyone, including the Chu family, only treated her as a tool.

Therefore, as long as it was Yu Tian's request, as long as it was what he wanted her to do, everything would be right. She would also do it without reservation.

After Yu Tian dealt with them, he felt even more bored.

He stood in front of the window and looked at the city outside. He was even a little dazed.

Now, the whole of Sean was his. The nearly 200 million citizens living here were all in his hands. He had reached the point where he could decide the life and death of others.

However, he did not feel any challenge. He even felt that this life had become more boring.

If it was like this every day, he might as well go home and have a child. That would still be interesting.

Thinking about it carefully, Morris and the others were too weak. What he needed was a truly strong person. At the very least, someone who could fight him to a draw. That would be interesting.

But he had to do this because this was his development plan. It was also a development plan for the whole world. He still had a long way to go, but he had only taken one successful step.

He was still very far from his goal, but the further he went, the more interesting it was.

Now it was time to begin the second step of the plan.

Half an hour later, Chu Xuan walked into Yu Tian's office. Her maturity and steadiness made her especially sexy. Every time Yu Tian saw Chu Xuan, he felt especially warm and calm.

He said indifferently, Sean is mine now, but I want to make the Super Nation Mine. I hope that the Super Nation can bring me some excitement, so that it can be fun

Go and get ready. We'll set off for the Super Nation in an hour!

Chu Xuan's lips curved into a very sexy curve. She said in a deep voice, You've finally decided, haven't you? Then how do you want to start your first step?

The Super Nation has a few very powerful factors. be it their economy, their defense, and their technological development, they are second to none in the world,

“If you want to get it, you have to destroy these things again. Only then can you make them more and more vulnerable. Only then can I get what I want. For example, my hatred for them!”

At this point, Yu Tian stood up, poured himself a glass of red wine, and tasted it elegantly, then, he said indifferently, “So, we have to use some means. Most importantly, I want them to know that I'm doing this!”

He had made this decision after careful consideration. What he actually wanted was not those useless external things. What he needed was a challenge from their strong opponents.

Only in this way could he grow faster and become a true expert. At any time, this was what he needed the most.

An hour later, Yu Tian's private plane quickly rose into the sky.

Facing the back view of the plane leaving, Chu Yan and the others felt particularly disappointed.

Yu Tian was like a brilliant firework. After blooming a beautiful flower in the night sky, he would take his beautiful hope and romantic vision and disappear without a trace.

On the plane, Yu Tian received a call from Chu Wen.

Chu Wen smiled and said, “Milo is like a dog in the house now, but he seems to be interested in getting close to PBG. Should we stop her?”

Yu Tian didn't even think about it and said directly, “Don't stop her. On the contrary, we have to encourage her. My first plan when I came to the United States was to kill PBG and those second-generation developers!

“Someone has to tell Joseph and the others that I've come to the superpower. From now on, I should be the one acting pretentious, not them!

At this moment, Milo, who was hiding in a secret location, was trying to contact the people of PBG.

However, this was not easy. The people of PBG had never had any good influence on corporate spies like them. They even felt that their existence was an insult to the intelligence industry.

So you have to find someone who can help you get in touch with PBG..

?Chapter 467 – Chapter 467, I Just Want To Live

Thank you readers!

It was soon evening. Yu Tian's private plane arrived at the Super International Airport. At the same time, Milo successfully contacted a person who could help her get in touch with PBG.

This person was also a commercial spy. The difference was that she was a multi-faceted spy. While selling commercial intelligence, she also sold other intelligence.

Milo was able to get her to introduce herself to the PBG people, but she had to pay a very high price.

In a very inconspicuous coffee shop, Milo, Nicole, and the PBG Intelligence Analysis Group's Linda met in a coffee shop in the corner.

After a simple introduction, Milo said expressionlessly, "I can provide you with Yu Tian's intelligence. My request is also very simple. Let the intelligence agency give up on the pursuit,

I will also leave this country and never set foot here again. To put it simply, I just want to Live!"

Linda nodded slightly, but she was gently stirring the coffee in the cup. These corporate spies were not trustworthy.

Moreover, although she was the intelligence analyst of PBG, she did not have such high authority to help her.

She took a sip of coffee and said slowly, "Miss Milo, I can only help you in a limited way. PBG and your intelligence agency are two separate departments, PBG's authority income is higher, but they have never accepted information from you people. After all, you are not trustworthy people, especially in terms of life and money,

you always easily betray others, even the people closest to you. This is what you have learned. At this point, I wonder if you really want to get what you said, and from what I know, when you were in Sheehan, you were very close to Yu Tian. I have to wonder, are you a double agent?

"So, I'm considering whether I should really help you."

Milo also knew that it was normal for Linda to think this way. After all, Yu Tian had set himself up, and now he could only deny his own family.

PBG was an independent department. They only accepted the management of the highest CEO, and they did not put other departments in their eyes at all.

Otherwise, how could they mobilize the naval formation to fight Yu Tian to death?

Milo said coldly, "I know your concerns. This is very normal. If it were me, I would do the same. But I hope you can understand one thing,

if I were really a double agent, I wouldn't be here begging for your help. I could even ask Yu Tian to help me get everything I want,

the reason why I wouldn't do that is because I don't want my family and I to be the target of those agents. Yu Tian wouldn't help me, and I don't need his help, if you still don't think I'm trustworthy, then we can stop talking!"

Feeling that the two of them were having a heated conversation, Nicole smiled faintly and comforted each other, "Actually, both of you are trustworthy because I think both of you have a common idea,

that is to target Yu Tian. On this basis, both of you have common interests, and trust in this aspect is not that important. I think both of you should cooperate so that you can effectively target Yu Tian."

"Maybe you don't know, but Yu Tian has already come to super country. Who knows what he will do this time?" "But I think he is definitely not here for a vacation,

"So, you should stop doubting each other. Now, you should think about how to target him!

Both of them were very surprised. Milo asked with a serious face,

C

"Why is he here too?"

In contrast, Elinda was very calm. She even laughed and said, "You must have been hunted these few days. You Don't know what happened in the world?"

Yu Tian was now the ruler of Sean. He had given the position of the President of the management department to his lover, Chu Yan. Now, the entire Sean was in his hands,

what do you think he came here for? We don't need to talk too much nonsense. I have another appointment later. Now, tell me, what kind of valuable information can you provide me?

"Only then can I consider if I can help you?"

At the same time, Yu Tian had already gotten off the plane. However, before he could leave the airport, he was surrounded by a group of men in black.

Yu Tian glanced at them indifferently. These people were all wearing stiff suits, headphones, and sunglasses. They looked like standard agents.

The welcoming scene for him was quite grand. There were actually more than a hundred people around him.

At this moment, a middle-aged man with an expressionless face said with slight disdain, "You must be Yu Tian. I am Victor from the Advanced Defense Department. I have to tell you at this moment"

"Your feet can not set foot on this land. Return to your plane immediately. Where did you come from? Return to where? Then we will all be at ease!"

Yu Tianguo laughed. What this guy said was really ridiculous. He said indifferently, "My feet are on my body. I can go wherever I want to go. Do you think you have the ability to stop me?"

"I don't want to talk nonsense with you. Now, I want to go from here to the metropolis outside. I want to remind you that if you want to forcefully stop me, I will make you feel so much pain that you won't recognize your own family!" Needless to say, Yu Tian was about to leave.

Victor narrowed his eyes coldly. This guy was really too arrogant, and not just ordinary arrogant. But he was also an extremely crazy person. What he did in Sean was enough to prove it.

He must not be allowed to leave this airport. Otherwise, Metropolis would definitely be like Sean.

Thinking of this, Victor immediately ordered his men to stop Yu Tian from leaving.

More than a hundred men immediately surrounded Yu Tian.

Yu Tian was really too lazy to bother with them. He felt that it was a waste of time to stand here.

They wanted to die, so why didn't he help them?

A burst of power directly erupted. Yu Tian wanted to quickly finish them off and then leave this place.

The violent force pushed hundreds of men to the ground. Victor was stunned by this scene.

Seeing Yu Tian make a move, the armed defenders hidden in the airport building all rushed out.

Even the helicopter was hovering above Yu Tian's head.

All kinds of weapons were aimed at him. One of the defenders bared his teeth and shouted, "Stop, don't go any further, or we will open fire immediately!"

Yu Tian spread his hands helplessly and said with a faint smile, "No matter what, I am the President of Sean's Defense Department. I am your guest here.. Is this how you treat your guests?"

?Chapter 468 – Chapter 468, A Present For You

Thank you readers!

Victor said gloomily, "You're just a bandit. Everything you got today was stolen. How can you still have the face to say that you're our guest?"

"I don't believe that you're not afraid of those bullets. Now, I'll give you some face. Return to your plane immediately and leave. Otherwise, you're asking for trouble!"

Yu Tian was too lazy to waste his breath on him. As soon as he activated his mind, the weapons in each of the defenders' hands immediately disappeared.

Seeing this scene, Victor's eyes almost exploded.

What was going on? Where did those people's weapons go?

Not only Victor, but all the defenders were stunned on the spot. Was this magic or something? How could their weapons disappear into thin air?

The commander of the defenders looked at Victor in fear, hoping to get some ideas from him.

However, Victor's mouth was wide open, and he couldn't say anything.

Yu Tian clapped his hands and said disdainfully, "I'll tell you one more time. If anyone tries to stop me, the next time it won't be the weapons that disappear. I'll make all of you disappear one by one."

"Now, line up for me and give me a grand welcome to your country. From today onwards, I'll trample on you to my heart's content. I'll look down on you and trample on you!"

At that moment, a familiar voice sounded from behind the defender. Joseph parted the crowd with a fake smile and said loudly, "Mr. Victor, don't you know about Mr. Yu Tian's ability?"

“It can make things disappear at any time and place. For example, Sean's morris and the others. Now, you can no longer see them from this world. This is Yu Tian's ability”

“I think it's better for you not to do those useless things here. I believe that Yu Tian did not come here to beat you up. Now, all of you leave. Mr. Yu Tian, I'll receive you!”

Victor didn't know Joseph at all, and he had lost face in front of so many people. The one hundred people he had brought with him were all lying on the ground now. If he left like this, he wouldn't be able to survive in the future.

At that time, he would become the laughing stock of everyone. When they ate, they would spit out the food in their mouths because of his name.

He said coldly, “This is impossible. This is my mission. Who Are You?”

“Joseph from the PBG department!” He said indifferently. He looked at Victor with a cold and arrogant gaze and said, “I hope that what I said to you is not in the form of an order”

“I will say it to you again. You people are even less than ants in front of Yu Tian. If he wants to kill you, he doesn't even need to clench his fist. Spitting at each of you can kill you”

“It's better for you to leave now. I'm doing this for your own good!”

Victor clenched his fists tightly. It was a shame. His authority was not as high as PBG's, but it did not mean that he could be controlled by them like this.

While he was still hesitating, Yu Tian smiled coldly and said to Joseph, “Do you think your arrival will change anything? Originally, these people did not need to die, but if you come.., i'll take them as a gift for you!”

As soon as he finished speaking, Yu Tian activated his mind again. The clothes on the people lying on the ground and the defenders began to shrink rapidly, strangling them until they could no longer breathe.

Then, everyone fell to the ground, struggling in pain. Some people even began to spit out large mouthfuls of blood.

That feeling of despair, including Victor, was extremely stifling in their minds. Now they finally knew that the Yu Tian in front of them was not a human at all. He was simply a devil.

A Devil who killed without blinking.

Joseph narrowed his eyes coldly. Yu Tian's gift was indeed enough to shock him.

Moreover, Yu Tian's attack was actually so decisive. Compared to Yu Tian from before, he seemed to be a completely different person.

In the past, in his impression of Yu Tian, no matter what he did, he seemed to consider it. Now, he was directly doing it.

When he saw that those people were about to suffocate to death, Yu Tian finally stopped and let those people live.

He did this because he wanted to give Joseph a heavy slap in the face and let him know clearly that he came here to kill PBG.

He could have killed Joseph now, but one day, he didn't want to do this. He wanted to let this guy live first so that PBG could be dealt a heavy blow. If Joseph died, then it wouldn't be so easy to slap PBG's face.

Thus, Yu Tian said indifferently, "Like this gift of mine. After I leave the airport, you go and tell those who want to make an enemy out of me to come over if they're not afraid of death."

"I don't care where this place is, and I don't care about your lousy department either. But you have to remember one thing from me. From now on, we'll play slowly!"

After saying that, Yu Tian led Chu Xuan and the others out of the airport under Joseph's cold gaze. Who Dared to stop him?

Joseph clenched his teeth tightly and sneered, "Alright. We need a battlefield anyway. Who cares where this place is? Let's start playing and see who will win in the end!"

Yu Tian saw Chu Wen coming to welcome them outside the airport. The two of them hugged each other tightly for a while, Chu Wen chuckled and said, "I've already made preparations. I've even bought thousands of diapers for the clothes and socks that children wear,

"Moreover, I've been working out for the past few days. I'm preparing to give birth to another child for you. Why don't we go back and start right now?"

Yu Tian looked at her with a frown and thought to himself, "Is this woman crazy? Why was she in such a hurry to have a baby?"

Moreover, he was not in the mood to talk about this now.

The group returned to the villa. Yu Tian drank two glasses of red wine before he said indifferently, "The goods that I transported here are ready now, right?"

Chu Wen nodded and said, "Yes, we are all ready. As long as you say the word, we will immediately start dumping. When that time comes, it will cause a particularly fierce impact on the market of the Metropolis!"

"Is it like that in the Financial District?" Tian followed up with a question.

"Right now, they don't know that there will be a rainstorm that will immediately hit this city. Everything is very normal. The special team that I created will be monitoring their changes 24 hours a day."

"There is absolutely no problem with the data!" Chu Wen said very confidently.

Yu Tian was very satisfied and nodded his head, he chuckled and said, "Very good. Let everyone in the metropolis know that we will have a sales event tomorrow that will shock everyone.. I think it will definitely be very good!"

Chapter 469 – Chapter 469 Was About To Get Exciting

Thank you readers!

In the blink of an eye, it was the morning of the next day. Under the bombardment of advertisements throughout the night, the entire Metropolis knew that most of the goods in Chu Wen's shopping mall were sold at a price of one yuan per piece.

These goods included some food, textiles, mechanical products, technological products, cosmetics, fashion supplies, and so on.

The mall opened at nine o'clock. At eight o'clock, thousands of people had already gathered at the entrance. The entire avenue was occupied, and the factory was extremely lively.

The moment the door opened, everyone rushed into the mall. The scene immediately went out of control, and many people were trampled to death and injured.

The security guards were so tired that their heads were covered in sweat and their faces were covered in tears. Just saving people had already made them physically and mentally exhausted.

At this moment, Yu Tian was quietly lying on his bed, looking at the television screen in front of him with a smile on his face.

In order to take advantage of them, these people were willing to give up their lives.

However, they didn't know that their craziness was actually causing damage to the entire economy of the metropolis.

Let them rob as much as they wanted. The more they robbed, the better.

This scene also made the headlines of the various media outlets in the metropolis. This also caused people in the same industry to curse at this storm.

They shouted into the camera lens, "This is crazy. Oh My God, this is too crazy. I don't know why they are doing this, but this is definitely something that only an idiot would do!"

"They are selling everything for one yuan, but my shop hasn't sold even one yuan. Chu Wen Mall is the most D * MN Mall in the world!"

"I hope they are just crazy for one day. If they are like this every day, then I can't imagine how we will live in the future."

Yu Tian picked up a piece of cake and said as he ate, "Of course your lives will be better. My everything is worth one yuan. This allows you to enjoy everything that you don't normally enjoy!"

"If it were me, I would laugh until the evening!"

Chu Wen, who was in the office of the mall, gave an order.

He said coldly to a dozen employees, "Everyone can only buy one of each product. They only have one chance to buy it every day. For other normal products, they can also sell it at a 50% discount!"

The employees understood what she meant. If everyone had to buy it without restrictions, the other competitors would be overjoyed.

At this moment, Chu Wen's phone rang. It was Yu Tian Calling.

Yu Tian said on the phone, "Have you gotten all the residential information around the shopping mall?"

Chu Wen nodded and said, "Yes, everything has been prepared beforehand. There are a total of 15 avenues in the surrounding area. The total resident population is over 200,000. There are a total of 2,700 buildings,

"Among them, there is also a super business circle, with a total value of more than 170 billion world dollars. Ninety percent of the buildings belong to five banks. The people of the super nation are like this.,

"In order to enjoy life, they can exchange everything they have for money!"

Yu Tian laughed and said, "That's why I like the craziness of this country, because everyone here is crazy. It's precisely because they are so crazy that I have the opportunity to have fun here,

"Help me arrange an appointment with the senior management of those banks. I want to buy all their banks!

However, Chu Wen smiled proudly and said, "Do you still need to buy them? The Chu family has over 70% of the shares in these five banks. As long as you like it, you can make them listen to whatever you say,

even if you make them pee in front of the management department, they will do it without hesitation!

"Very good. Then immediately give them an order to take back all the buildings on the 15 main Tian ordered firmly.

However, Chu Wen was a little hesitant. If she did that, it was very likely that those people would erupt in protest.

They were originally living well, but suddenly there was nothing left. It was impossible for anyone to accept it.

So she asked doubtfully, "Are you sure you want to do this? Won't the people here protest?"

Yu Tian snorted coldly and said, "This is a game of capital. Besides, are there not many protests here? I'm just adding a little more fun to their leisure life."

"Otherwise, these people would just go around taking advantage of others, or fight, or steal other people's diapers and instant noodles. It would be better to let them protest!"

Chu Wen didn't know whether to laugh or cry. However, Yu Tian's orders had already been given, and she had to do it. She had to leave a good impression on Yu Tian so that she could become his second woman.

As for the rest, she didn't care. After all, this was Yu Tian's business with the family.

In the afternoon, ten more super cargo ships landed in the metropolis, and the cargo ships behind them continued to arrive.

At the same time, Milo saw Linda again at her secret residence.

As soon as they met, Linda couldn't wait to ask, "I want to know where Yu Tian's important things are. Or, who can know all of his important information and items..., where are they? Or, who has them?"

Milo frowned slightly and said in a low voice, "My sister is Yu Tian's assistant.

If anyone can understand it better, only she can do it."

"If you agree to my conditions, I will immediately get her to find these things!

Elinda said expressionlessly, "We agree to all of your conditions, but we also have a request. Now, we need to know where the super equipment in Yu Tian's hands is?

"If you can help us find this super equipment, we will not only meet your conditions, but we will also give you more compensation. However, time is limited. Yu Tian is currently causing a huge impact on the metropolis' economy, "It is extremely destructive,

"Before he does anything else, we must get that super equipment. Only then can we stop him."

Milo didn't care about what she said. This wasn't her city to begin with. Even if it disappeared, she didn't care.

What she cared about the most was being able to live freely.

So she immediately took out a new phone and called Rosa.

The next morning soon arrived. Yu Tianbian was wearing the suit that Chu Wen had bought for him, and he was thinking about it carefully.

PBG was obviously a little too quiet. Joseph was not the kind of person who could stay. This guy must be thinking about getting his hands on the second-generation brain development device.

He hoped that he could think of a way to make himself feel a little happy. Otherwise, there would be no fun in playing this game. People had to have excitement in their lives. That was the life he wanted..

?Chapter 470 – Chapter 470, More Preparations

Thank you readers!

In the conference room of PBG headquarters.

In the dim conference room, Joseph said coldly to the dozen or so people present, "All of you know what happened yesterday. In today's meeting, we will only study one thing, which is how to kill Yu Tian..,

and get the developer equipment in his hands!"

As soon as he finished speaking, Elinda, who was standing at the side, immediately opened the slide. The content was Yu Tian's battle scenes.

She slowly said, "Everyone knows that Yu Tian is also a developer, and he is a special developer. Our Brainwave Jammer has no effect on him..,

at least that was the case for our previous wife's developer. As for our newest Brainwave Jammer, it hasn't been tested yet. I don't know if it will have a destructive effect on him..,

at the same time, everyone should also know that Yu Tian's skill was to control all objects except humans, magnifying or shrinking. This was a very special skill,

if he wanted to, he could turn this city into the size of a grain of rice. In addition to this skill, he also had a weapon in his hand, which was ten golden needles,

this weapon was particularly powerful. It could instantly make a person lose control, or even lose their rationality. It would also cause severe pain to the machine,

in addition, Yu Tian's attack speed, as well as his running speed, were as fast as lightning. If we looked at his speed in a conventional way, our vision wouldn't even have a chance to react,

so after a series of analysis, we came to the conclusion that if we want to kill Yu Tian, not only do we have to have a person who can resist his skills, but also the strength of our body can resist his golden needle attacks, and in terms of speed, we can also suppress him, but we PBG, don't have such a person, so my idea is that we can attack Yu Tian through the developers!"

At this point, Elinda switched the slides again. A middle-aged man with an extremely cold gaze appeared on the slides.

She then said, "This person's nickname is black blade. He is a second generation developer. His special skill is to activate his body shield and be able to defend against all skill attacks!

Then, she switched to a thin man.

"This person's nickname is skeleton. Although his weight is less than 100 pounds, his body is the strongest in the world,

“We tested him before. His body can withstand more than 10,000 pounds of attacks!”

Joseph and the others looked at the third person on the slide quietly.

Elinda continued, “His nickname is lightning. His speed is so fast that he can teleport. Although this is a very common skill, Lightning's speed can follow the target and appear at any time,

“No matter where the target is, he can suddenly appear beside the target. These developers are our collaborators. We will provide them with some convenience,

“They will serve us without hesitation. If these three people form a team, they can effectively suppress Yu Tian's skill. Then, we can use our newly developed electromagnetic wave emitter,

“With such perfect coordination, even if Yu Tian was a god, he wouldn't be able to survive. Thank you, everyone!”

Joseph lit a cigarette and took a deep puff. Then, he said in a gloomy voice, “Although these people are very powerful, we still have to make more preparations in front of Yu Tian,

“Moreover, before we kill Yu Tian, we must get the development equipment. This is the most important goal of the mission. In a while, everyone will start to act. It's best to do all kinds of drills first,

“You all must remember that we can not afford to lose in front of Yu Tian, especially now!”

Everyone immediately stood up and left the meeting room.

Joseph turned around and said to Linda, “How's Milo's progress?”

Linda chuckled and said, “She now completely believes that we can agree to her conditions. Moreover, she has already begun to help us find the development equipment!

“Very good. If she really can help us find it, we can consider letting her live. If she's of no value to us, we don't even need to hand her over to the intelligence department. We can just kill her directly!”

Saying that, Joseph stood up and continued, “Many people will definitely die this time, but it's worth it to be able to kill Yu Tian!”

At the same time, on the road at the entrance of Chu Wen shopping mall, the security guards who were maintaining order were reporting to the higher-ups of the management department.

One of the security guards shouted, "This place is in complete chaos now. They are buying and protesting at the same time. Our men can't handle it anymore!" As soon as he said that, someone threw smoke grenades and tear gas grenades into the crowd.

The billowing smoke immediately filled the air, and the scene immediately went out of control. Large groups of people rushed toward the security guards, punching, flying feet, and all sorts of fighting.

The crowd in the shopping mall also began to attack the protesters in order to protect the things they had snatched.

Yu Tian, who was standing on the roof of a high-rise building, felt that the scene was especially laughable when he saw it.

At this moment, his phone rang. It was an unfamiliar number, but he knew that it was from the imperial capital.

Yu Tian considered that it should be someone from the Chu family and immediately picked up the call.

A slightly hoarse and slightly slow female voice sounded, "It's Yu Tian, right?"

He originally thought that it was one of the 108 sisters of the Chu family, but since she called him Yu Tian, it was impossible for her to be one of the 108 sisters, because the 108 sisters would only call him master.

He then asked indifferently, "If you have something to say, I don't have time to waste with you now!"

The woman was silent for two seconds, as if she was adjusting her mood. Then, she said with slight dissatisfaction, "It's like this. I'm the finance director of the Chu family. Recently, your investment has already exceeded one trillion,

it's more than 10% of the entire Chu family's economic investment. It has completely exceeded the Chu family's investment budget. Therefore, the higher-ups of the Chu family want me to ask you, how much more money do you plan to invest in the future?"

He was clearly complaining that he had spent too much money.

Yu Tian said disdainfully, "I don't know how much I will invest in the future either, but it definitely won't be a trillion. Why? Do the Chu family think that I have spent too much money."

Chu Lulei did not deny this point. Instead, she said unhappily, "Our investment has always been in pursuit of a balance. Your investment alone has already exceeded the entire annual investment of the Chu family,

"This is indeed a little too much. Moreover, you should know that the more you invest, the slower the returns will be. We don't know when you will be able to see the benefits of your one trillion yuan?"

"But what I want to say to you is that we don't want you to continue investing, so we will not give you the authority to transfer funds at any time.. You must understand that our funds have been earned through hard work!"

I Have 108 Older Sisters #Chapter 471 - Read I Have 108 Older Sisters Chapter 471

?Chapter 471 – Chapter 471, Giving Up On The Chu Family

Thank you readers!

Yu Tian listened quietly. At the same time, he was also pondering what had gone wrong with the management of the Chu family?

He clearly knew that his identity was completely above the Chu family, but how could someone still dare to provoke him?

The Chu family controlled one-third of the world's wealth. A trillion yuan was nothing to the Chu family. It was not even enough for the entire family's annual pocket money, yet this Chu Lulei said it with such a Heartache?

Seeing that Yu Tian didn't speak, Chu Lulei followed up by asking, "Mr. Yu, did you hear what I said? I don't care how afraid others are of you, but I'm the financial director of the Chu family. I have to manage every single cent of the Chu family's money well!"

"So, from now on, I can't approve any of your investments. Of course, this doesn't include your pocket money. Your life won't change, just don't invest anymore.., "Because you're not a qualified businessman at all!"

Yu Tian said indifferently, "Then what do you think will happen if I let all those surnamed Chu die?"

Chu Lulei was shocked, but she quickly calmed down and thought that Yu Tian wouldn't do that. She said calmly, "Mr. Yu, I'm talking to you about work now. I personally don't have any opinions about you,

if you think that doing that is what you want, then I won't Stop You. After all, I'm doing it for the family!"

However, Yu Tian snorted coldly and asked in return, "Then who is your family doing it for? Do you dare to say that it's for your own sake? I don't want to waste time with a stupid woman like you. If you dare to stop me from using the family's funds.,

i will make you suffer for the rest of your life. Why do you have the surname Chu?"

After saying that, Yu Tian directly hung up the phone.

After thinking for a moment, he immediately called Chu Qing.

Ever since he went abroad, he had not spoken to Chu Qing on the phone. When the call connected, Chu Qing held back her tears and pretended to be indifferent as she said, "Hubby, aren't you busy? It's so late, yet you still called me!"

Yu Tian could hear her grievance. After a few simple words of comfort, Yu Tian immediately asked, "Chu family's financial director, Chu Lulei, what is her background? Do you know this person?"

"Chu Lulei? She is indeed the financial director of the Chu family. She has been working for more than ten years. Although she is about the same age as the 108 sisters of the Chu family, she did not join the 108 sisters because she is from a side branch.

"She is also Chu Hong's sister. The status of the family is very high. The funds of the Chu family are all in her hands. She is also someone the head of the family trusts. YVhy did you ask about her?"

"It's nothing. I was just casually asking. Oh right, I'll give you a job!"

Yu Tian did not want to waste time explaining. Since the Chu family was so powerful, there was no need for him to protect the entire family.

He only needed to protect the 108 sisters.

Thinking of this, Yu Tian said indifferently, "I need you to confirm my intentions with each of the sisters. See who is willing to follow me and leave the Chu family!"

Chu Qing was shocked. Yu Tian wanted to take the 108 sisters away from the

Chu family. Did that mean that Yu Tian didn't want to protect the Chu family now?"

She asked with a trembling voice, "Are you sure you want to do this? If so, the Chu family and the 108 sisters will be hurt!"

Yu Tian said disdainfully, "Then can you hurt me as much as you want? If you don't want to do it, I'll find someone else to do it!"

After saying that, Yu Tian directly hung up the phone.

Chu Qing thought that Yu Tian's idea was too impulsive. She immediately called Chu Hui and told her about Yu Tian's idea. However, Chu Hui narrowed her eyes coldly and said hatefully, "Is Chu Lulei idle?"

She even wants to interfere with Yu Tian. Doesn't she know how much harm this will bring to the family?"

Of course, Chu Qing knew, but Chu Lulei didn't. She said coldly, "It's useless to talk about this now. We have to stop Yu Tian from doing this. This is for Yu Tian's own good!"

However, Chu Hui chuckled and said disdainfully, "You'd better not bother about this. If Yu Tian's plan is set, I will definitely follow him without hesitation."

"But my silly sister, haven't you thought about why Yu Tian is so angry?" "It must be because Chu Lulei has provoked him. As far as I know, Yu Tian's total investment in Sean City and the metropolis has already exceeded a trillion."

"Moreover, until now, there hasn't been any return on benefits. What Chu Lulei is looking at is the interests of the family. However, the Chu family has been spending money all this time, but they haven't made any money."

This time, Yu Tian was completely throwing money at the metropolis. Chu Lulei had to figure out that all of this was normal, but what was abnormal was that how would Chu Lulei have the courage to say all of this to Yu Tian,

"Could it be that she wasn't afraid of the heavenly tyrant medallion in Yu Tian's hands, as well as what Yu Tian was about to do? In my opinion, there must be someone behind her who wanted her to do this!"

Chu Qing also understood. She asked doubtfully, "But who could be the person behind this?"

"No matter who it is?" Chu Hui sneered. "She'll definitely reveal her true form. I'll tell my father now and see what he thinks."

On the side of the metropolis, Yu Tian was still standing on the roof. He looked left and right and said coldly, "All of you, get out here and hide. Where's that B * Star?"

As soon as he finished speaking, Black Blade, skeleton, and lightning appeared in the surroundings at the same time.

Yu Tian realized that these people had too much personality. It was as if they had lost control.

He chuckled and said indifferently, "All of you are developers. Let's Make a deal first. You can fight, but if you make me feel bored, I will take your lives!"

The few of them looked at each other coldly and suddenly moved.

First was lightning. With a swish, it disappeared into thin air. Yu Tian was curious about this guy's skill. Could it be invisibility? Lightning immediately appeared behind him. With two daggers in his hands, he struck at Yu Tian's waist.

Only then did Yu Tian realize that this guy's skill was actually teleportation. He even wanted to stab himself with a dagger. Wasn't he thinking too much?

He casually swayed his waist to the left and right. At the same time that he dodged the dagger, he took the opportunity to give him an elbow strike.

Lightning disappeared once again, and in the blink of an eye, it reappeared behind Black Blade.

Yu Tian laughed inexplicably. He hadn't done anything yet, but he had already been busy with that idiot.

It was useless to be fast, but could it be faster than his thoughts?

He immediately activated his thoughts attack, and first increased the size of that guy's dagger.

However, the dagger in Lightning's hand only slightly enlarged, and the black knife also activated its skill.

A black protective barrier instantly appeared.

It directly refracted Yu Tian's mind attack.

Yu Tian blinked his eyes. This guy's protective barrier was actually able to block the mind attack. How cool.

But at this time, lightning appeared behind him again and still wanted to stab his waist.

Yu Tian was getting a little impatient. Other than that position, he wouldn't stab anywhere else, right?

After dodging, this guy hid behind black blade again.

Yu Tian snorted coldly, "Why are you acting like a dog? Can you seriously fight with me?"

Chapter 472 – Chapter 472: Every Shock

Thank you readers!

The few of them did not say a word. They knew that Yu Tian was a true expert. From the calm expression on his face, they could tell that he was just playing a game.

The attacks that they had practiced repeatedly were useless. Now, they could only improvise and find an opportunity to let the guy with the electromagnetic transmitter on the roof in the distance make his move.

Black Blade looked at lightning with a gloomy gaze and prompted him to launch another attack.

Lightning was not fully confident. Yu Tian's movements were very fast, simple and effective. There was not a single extra movement.

If he wanted to effectively attack, he could only do it by surprise.

He teleported behind Yu Tian again and slashed out his dagger. When he saw Yu Tian Dodge, he teleported to the side and stabbed the dagger into Yu Tian's neck.

Yu Tian tilted his neck easily and punched out at the same time. The Lightning disappeared again.

After repeating this, Yu Tian realized that this guy's speed was much faster than his. In terms of attack, he could not touch him at all.

It was better to just give him a golden needle.

Thinking of this, Yu Tian saw an opportunity and punched out again.

The Lightning suddenly disappeared and appeared behind black knife again.

Skeleton, who had been watching coldly from the side, saw Yu Tian's finger move slightly. He immediately thought that he might be using the golden needle.

At this moment, he suddenly rushed towards Yu Tian.

Yu Tian was shocked. This guy rushed towards him without hesitation. Could it be that he wanted to kneel down and kowtow to him?

Since he already had the golden needle in his hand, he would first kill this arrogant guy.

The golden needle was thrown out casually, but in the next second, Yu Tian was shocked to find that the golden needle could not penetrate his body.

How hard was this guy's body? It could not even penetrate the golden needle. The skeleton rushed to the front, grabbed his hands and smashed them down on his head.

This time, Yu Tian did not dodge. He had to give it a try to find out the best or how hard his body was.

Yu Tian also raised his hands and collided heavily with skeleton's arms.

After that, Yu Tian felt his arms become slightly numb. That guy's body was definitely not ordinary.

Although skeleton also took a step back, he did not feel any pain. He waved his fists and rushed forward.

On the other side, lightning launched another attack. The two of them jumped around Yu Tian. Their fists and daggers stabbed at Yu Tian one after another. They only wanted to get rid of Yu Tian before the electromagnetic launch interfered.

Only then could they have a bargaining chip in front of Joseph.

Although they were facing the attacks of two people, Yu Tian was still more than enough. There was offense and defense. It was very easy.

Yu Tian even waved at black blade and said indifferently, Don't just watch. Join us bravely. Let's celebrate together!

Black Blade's eyes were full of sweat. Yu Tian's strength was completely beyond imagination. The three of them could not kill him at all.

Since that was the case, he would join them as well. At least he would have more power than the two of them.

Yu Tian was just waiting for him to join them. Killing them one by one was really meaningless. It would be great if he could kill them all together.

It would save him the trouble of having to see their shocked expressions one by one. He did not have the time to slap their faces and take their lives directly.

Thinking of this, Yu Tian suddenly clenched his fists and unleashed a physical attack.

The internal energy in his body erupted violently. After he waved his fists, black blade and the others immediately felt as if their bodies were blasted apart by a powerful force and flew backward.

The two arms of the underworld were shattered and fractured. Lightning originally wanted to teleport, but under the absolute physical attack, even the air was filled with Yu Tian's power. Teleportation had no effect at all.

His heart was blown to pieces by this force and he died on the spot.

The strongest skeleton had no resistance against Yu Tian's power.

When he landed on the ground, all his bones and internal organs were shattered.

When the drone in the sky sent this scene back to the PBG command center, Elinda, Joseph, and the others were shocked.

Elinda was even more shocked as she said, "The information is wrong. Yu Tian actually has a second skill. For a developer, this is simply impossible. Could he be the legendary? Brain Cell Lysator?"

Joseph's face was filled with disgust. He was unable to answer Elinda's question.

Ever since Yu Tian appeared in his world, the shock he had brought to himself was not just this one time.

This guy always shocked him and he couldn't believe it.

At this moment, the person with the electromagnetic transmitter asked if he should continue attacking.

Joseph wanted to give up. Yu Tian could think that the developers were attacking him.

But once the transmitter was used, Yu Tian would think that it was PBG.

Yu Tian was not someone to be trifled with. If he was angered, no one in the PBG would be able to stop him.

Thinking of this, Joseph immediately ordered, "Abandon the attack and retreat secretly!"

Elinda looked at Joseph. This was the best opportunity to attack. She did not know when she would be able to meet him again.

She immediately suggested, "Mr. Joseph, are you sure you want to give up? Or our launcher can hurt him. That's our newest product. I think you should have confidence in the launcher!"

Joseph said coldly, "Teacher said I don't have confidence because I don't want to see Yu Tian bring me any more shock and fear. We have to reformulate our tactics and withdraw all of our people!"

As soon as he finished speaking, the door of the command room was pushed open. Max, the higher-up of PBG, walked into the room with a face full of anger and said gloomily, "Joseph, Stay. Everyone else, Get Out!"

Linda and the others hurriedly got up and left the command room. In front of Max, they didn't even have the right to speak.

Joseph could see from MAX's expression that he must be under a lot of pressure and wanted to vent his anger on himself.

Max sat down on the chair and said through gritted teeth, "PBG is no longer an independent department. I don't know what Victor said in front of the higher-ups?"

"But now the higher-ups have given us orders to kill Yu Tian within 72 hours, or let him leave the metropolis. Otherwise, the PBG department will not exist in the future, all of our members can go back to the countryside to grow corn. Joseph, you are my most capable subordinate. Can I count on you? To protect this department?"

Joseph could not answer this question at all.. He could only say coldly, "I don't even know if I can kill Yu Tian, so I want higher authority and more support!"

?Chapter 473 – Chapter 473. They Were Enough

Thank you readers!

Max's face was gloomy. He nodded and said, "I can give you the highest clearance code. You can even mobilize all the defenders, and even all kinds of attack firepower,

"I only have one request. Kill Yu Tian. I don't want to bear the pressure of the higher-ups because of him. I don't want to see him trampling on our territory unscrupulously in Metropolis!"

After saying this, Max got up angrily, kicked open the door, and left in a huff.

Joseph frowned tightly. It seemed that the developer was no longer a match for Yu Tian. He should use the authority he had obtained to find even more powerful experts. Only then could he see a glimmer of hope.

At this moment, Yu Tian on the roof wanted to ask, who sent them here?

In the end, these guys all bit through the poison hidden in their teeth and committed suicide.

Looking at their stupid deaths, Yu Tian narrowed his eyes and said disdainfully, "Isn't it good to be alive? You Bunch of Idiots!"

At the same time, at the Chu family in Imperial City.

After Chu Aotian heard Chu Hui's report, his brows were tightly knitted together.

Chu Hui was right. With Chu Lulei's courage, she would never do such a thing. Someone must have given her an order from behind her back? Or she must have been coerced by someone else.

He should first think about it calmly and not immediately go to Chu Lulei and ask her about it.

He said in a low voice, "Hui er, Chu Lulei was able to become the finance director because the people behind her hold an important position in the family,

"Moreover, she is Chu Hong's elder sister. The Chu family's shared financial system has to go through the finance department. Her authority is even greater than mine. This time, we have to take a long-term plan,

"Give Yu Tian a call later. Let's see what he wants first. Then, we will see what to do!"

Yu Tian leisurely came to Chu Wen's office. Chu Wen was angrily smashing the table. As she did so, she said angrily, "What on Earth is the family doing? Why did they reject our funding request?

"Don't they know that this is your request?"

[Can you calm Tian said impatiently, "That table is quite expensive. Don't you think it's a pity to smash it? After all, you are the boss of a few thousand people. Why aren't You Deep?"

Chu Wen didn't want to hear this at all. She pulled off the hair rope and let her hair fall down completely. Then, she said angrily, "Now is the time when we need funds for our acquisition plan.

If the finance department did not provide us with funds, our plan would not be able to be realized. Moreover, Chu Yan also called. Chu Lulei from the finance department had cut off the original investment budget of 700 billion..., and all of it.,

i just want to know, what does the family want?a€?

Yu Tian poured himself a glass of red wine and smiled indifferently. [a€?They are all crazy, but we are normal, aren't we? Don't ask anything. Without funds, there would be no funds. What's so great about that?a€?

Seeing that Yu Tian didn't care about this at all, Chu Wen was really angry. She snatched the glass of wine from Yu Tian's hand and said it all in one word, then she said angrily, a€?1 am so angry because of your plana€|a€?

a€?But you are still in the mood to joke around here. What on Earth are you thinking about?a€?

Yu Tian didn't care at all. He poured himself another glass of wine, chuckled, and slowly said, a€?Some things are not something that you can think clearly about. There are many layers herea€|a€?

a€?And these layers are becoming a layer in front of me. What I said may be more profound, and you may not be able to understand it. You only need to remember one sentence. The winner will always be me!a€?

Although Chu Wen did not understand what Yu Tian meant, from Yu Tian's confident expression and proud smile, everything should be under his control. What she could do now was to listen to his arrangements. She couldn't care less if she didn't want to.

At this moment, Chu Hui sent a video request.

After entering the encrypted channel, Yu Tian connected to the video. In the chat room, Chu Qing, Chu Hui, and the Chu sisters beside Yu Tian were basically all there, except for Chu Hong.

Chu Hui asked straightforwardly, a€?Brother, what are your thoughts now?a€?

Yu Tian said indifferently, a€?My current thoughts are not very useful. Moreover, I'm in the metropolis, so I can't directly contact the people from the finance department. However, I can be very sure of one thing,

someone is doing those traitorous actions without hesitation, but who is this person? I don't want to know now because this will affect my plan,

a€?My idea is very simple. No one can stop my plan. Now, I need a few sets of data from you. First, I want to know how much assets the 108 sisters have in total.a€?

Chu Hui slowly said, a€?Because of the importance of the 108 sisters, two-thirds of the assets of the Chu family are in the hands of the Sisters!

Yu Tian nodded and said, "I've always been thinking about why that person would do that. And there's only one result for doing so, which is that it would cause a complete break between the Chu family and me.

"He wants to use this method to strike me down and force me to use some special methods against the Chu family. Since he wants to break the break between me and the summer vacation so much, I'll satisfy his wish.

"I'll call Uncle Long and Chu Aotian later. From now on, I need the 108 sisters to decide whether to follow me or the Chu family!

Everyone was very confused. They had no idea what Yu Tian was doing this for?

Chu Qing asked doubtfully, "Hubby, is this really a good idea? Once we leave the family, we'll definitely be suppressed by the higher-ups of the family, and the strength of the entire Chu family will also be reduced by half"

"I feel that there really isn't any benefit in doing this, or do you have other thoughts?"

What thoughts could he have? It was extremely simple to say that he did.

The 108 sisters were the important people, the people he should protect. Other than the 108 sisters, everyone else was just taking advantage of the 108 sisters.

He didn't have the mood to care about them. As long as the 108 sisters were by his side, it was enough for him to continue giving birth to children for the perverted family behind him.

Therefore, he chuckled and said very calmly, "My home is only so big. It's already good enough to be able to hold 108 people. Other people are not my family, and they will never become my family,

"I am even a passer-by in this world. I am just enjoying this process and slowly growing up. One day, I will also leave this place, and then with me, besides you 108 sisters, no one else!"

?Chapter 474 – Chapter 474, How Capable Was She

Thank you readers!

At this moment, Yu Tian also realized that Chu Hong was not in the chat room. He asked curiously, "Why didn't you call Chu Hong in?"

Chu Hui explained, "You know that Chu Lulei is Chu Hong's sister. This time, we can't be sure if Chu Hong is on our side, so we didn't think of calling her in this meeting!"

Yu Tian didn't take it to heart. It was normal for them to be suspicious. After all, the two of them were the closest sisters. Sometimes, their decisions and choices were right or wrong, and even they didn't know.

An hour later, Uncle Long also picked up Yu Tian's call.

Before Yu Tian could speak, Uncle Long said slowly, "Young master, I know what you mean, and I also understand your thoughts. I have to say that you've considered everything thoroughly and thoroughly."

"But there's one thing you haven't thought of. Do you think the people of the Chu family have the guts to go against you?"

Yu Tian frowned slightly and asked doubtfully, "Uncle Long, do you mean that the person who asked Chu Lulei to do this is not a member of the Chu family? Then who is it?"

Before he finished speaking, Yu Tian suddenly reacted. Uncle Long had once told him that his family still had many competitors.

These people were thinking about how to get the position of family head every day. This time, it was very likely that the Yu family had dug this pit for him.

Uncle Long also confirmed from Yu Tian's aura that he understood what he wanted to say. He laughed and said, "You're right, but who is this person in the family? I don't know yet."

Aotian's meaning was similar to yours. He supported you to bring the 108 sisters out of the Chu family so that the person behind them could reveal his true form as soon as possible, so you don't have to call Aotian. Just do what you want!"

Yu Tian also laughed and said, "Uncle Long knows what I'm thinking. When I go to the capital, I'll look for you for a drink. You can also tell Chu Aotian that I won't call him!"

Following that, Yu Tian posted his thoughts and dissatisfaction towards the Chu family in the 108 sisters group.

"Sisters, Yu Tian is also in a difficult position. But from my point of view, as well as my fate, I have no choice but to do this. This decision is very difficult, so I need all of you to make this decision on your own now."

“Do you want to follow me from now on or continue to stay in the Chu family? I Won’t force anyone. All of you can make your own decision!

Yu Tian’s words exploded like a bomb in the group chat.

All sorts of questions were directed at Yu Tian.

“Brother, why are you doing this?”

“If we choose to follow you and the family side objects, what should we do?”

“The industries, funds, enterprises, and investment projects that we are currently managing, should we follow you there as well?”

Tomorrow, after waiting quietly for them to finish speaking, he slowly said, “What you all said isn’t wrong. I’ll still say what I said. Although it’s difficult for me to make this decision, I’ve also considered it carefully|

If there was a reason and a reason, it would be that the members of the Chu family always acted pretentiously with me. They didn’t get tired of it. Time and time again, they acted pretentiously until their father was disgusted,

in order to prevent them from continuing to act cool with me, as well as for my own long-term thinking, I made this decision. I also knew that many of you didn’t like me,

however, I didn’t care at all. You could continue to stay in the Chu family, but there was one thing that was destined. No matter if you followed me or stayed in the Chu family, you would always be my Yu Tian’s people,

if you betray me in the slightest, do you know what my family will bring to your family? If you are not afraid of death, you can go ahead and gloat. I Won’t even care about you,

but if you follow me, Sosuke, you will be my family in the future. I want to create an independent system. Everything will be decided by us. We don’t need to look at the family’s face anymore.

“We don’t even need to ask for their consent. We only need to do what we want to do. I don’t want to waste time with everyone. It’s simply a waste of time.

Now, you can make this decision on your own!

Apart from Chu Hong, all the sisters who had stayed with Yu Tian announced one after another that they would leave the Chu family together with Yu Tian.

The other sisters also announced that they would stay with Yu Tian for the rest of their lives after a period of careful consideration.

At the same time, they would also bring out all of their assets in the Chu family, including their investment projects, funds, and so on.

Only Chu Hong and the other sisters remained silent.

It was not that Yu Tian had not noticed them, but what he was looking at now was not this, but the person behind them. What would he do next?

At the same time, Chu Hong had been on the phone with Yu Han the entire time, telling him all of Yu Tian's thoughts.

Yu Han smiled disdainfully and said disdainfully, "I thought that Yu Tian was very capable, but that was all. Only an idiot like him would be able to do something like this that would destroy the interests of the Chu family!"

He might not even have thought about how much damage the Chu family would be caused if he did that? It would also cause the 108 sisters to be suspicious of each other,

I feel that this game is getting more and more fun. Chu Hong, immediately order Chu Lulei to reject the 108 sisters from taking all their assets. At the same time, cut off all the assets they have, so that they won't be able to take a single

Chu Hong smiled gloomily and said in a soft and charming voice, "I'll make the arrangements right away. I want to see what else Yu Tian has up his sleeve."

In the evening, the new 108 Sisters Group was re-created by Yu Tian.

All the sisters who had decided to follow him rejoined the group called Yu Tian's powerful support group.

When they joined the group, the sisters were in an uproar.

"This is too much. Chu Lulei really doesn't know who she is, right? She's just a firewood girl from the countryside, and now she's stopping us and taking away our assets!"

"What's even more outrageous is that she has cut off all of our assets and funds!"

"She even said at the family's finance high-level meeting that no one can take a single cent without her consent. I just want to know if I can kill her with my own hands!"

However, Yu Tian chuckled and said, "Can all of you not be so angry? Today is a good day for our independent family to be established. What's there to be angry about with that B * Tch?"

It's not up to her to decide for the Chu family. I think we should make a cake and blow out some candles or something!a€?

The most fiery-tempered Chu Wen..., she said tirelessly, a€?Oh My, Oh My, you still want to blow out the candles? I can't even afford to buy toilet paper now. They have cut off all my bank cards.. Can I take a kitchen knife back to chop them to death now?a€?

?Chapter 475 – Chapter 475 Was All Hers

Thank you readers!

Chu Hui also said, a€?I think Chu Lulei has gone a little too far. We earned all our money with our own hard work, and it's all thanks to the 108 sisters that our family has today.a€?

a€?Why shouldn't she let us take the money that belongs to us? Isn't she afraid of the heavenly overlord token in her brother's hands?a€?

Chu Qing also said domineeringly, a€?You're absolutely right. Hubby, where's Your Heavenly Overlord Token? Don't tell me you're using it as a decoration? Now, you just need to write her name, and you can make her disappear from this world.a€?

a€?Why are you still hesitating? Don't tell me you can't bear to part with her?a€?

Yu Tian said with a frown, a€?What are you talking about? I've never even seen what she looks like, so why can't I bear to part with her? She's just spouting nonsense all day long.a€?

a€?I'm not killing her now because I want to know who the person behind her is. It's such a simple question. Can't you all consider it clearly?a€?

Chu Yan saw that Yu Tian seemed to be a little angry and hurriedly tried to smooth things over. She smiled and said, Sisters, money is not a problem at all. Have you forgotten? I am now the highest-ranking executive director of Seana€|

a€?Yu Tian is also the highest-ranking executive director of Sean's Defense Department. We can use Sean's resources. According to the information I have, Sean has available funds of 2700 billion.a€?

a€?Moreover, the President of my industrial company is Yu Tian, so it's not under the family's management. The group's funds now exceed 700 billion. We can invest all this money into everyone, so there's no need to worry about money!

Some of the sisters immediately said happily, a€?Wow, you guys are actually so rich. If we had known that it would be like today, we would have also made our funds independent back then. We wouldn't have to suffer that woman's anger!a€?

“Although we have so much money now, compared to all of our funds, it’s not even worth mentioning. Do you know? The total funds in the hands of the 108 sisters are already close to 100 trillion!”

“Yes, if we include the family's funds, we can calculate it with a trillion!”

When Yu Tian heard this, he still did not care. In fact, he did not care at all. Money was of no use to him at all. It could not buy his identity as a powerhouse, nor could it buy his power to become a powerhouse.

It could only be used to maintain his food and drink, as well as to enjoy himself. It was said to be of no use at all.

Moreover, he did not want to use Sean's funds because they had other uses.

This was the metropolis, the city with the most wealth in the world. In some banks in the financial district, there were some of the largest gold storage warehouses in the world.

Since they were placed there, they might as well use them for themselves. After all, they would belong to them sooner or later.

As soon as they thought of it, they did it. Moreover, it was night time, and it was still drizzling outside. It was a good time to rob a bank.

Thinking of this, one day in the group chat, they said, “You guys don't have to worry about anything else first. Just treat it as a few days of vacation. Go play around, go shopping, do whatever you want..

In a few days, everything that belongs to you will be returned to you, so you don't have to worry now. I'm a little sleepy, so I am going to sleep for a while.

You guys can continue chatting!”

Yu Tian turned off this sentence, got up, and silently left the villa.

An hour later, Yu Tian was already standing on the roof of the World Bank in Metropolis.

Everything in his eyes was unfamiliar. He had no idea where the warehouses where the gold was stored were?

This required someone who was familiar with the bank to provide him with information.

While he was pondering, Yu Tian suddenly saw a security guard of the building strolling to the backyard and smoking in a hidden place.

Yu Tian then floated to the ground and silently came to the back of the security guard with a chuckle.

An Bao immediately stuffed all the burning cigarettes into his mouth and bared his teeth as he shouted, "Are you a human or a ghost? Why Don't you make any sound when you walk?"

Why did you run to the backyard of the bank in the middle of the night without sleeping? Do you want to rob the bank?"

Yu Tian smiled indifferently and said, "You are right. I am indeed here to rob the bank, but before I rob it, I think I need to know everything about this bank first,

i think you can provide me with this help. For example, where are the warehouses where the gold is stored?"

The security guard's facial features exploded. Did he hear wrong? This guy was going to rob a bank just like he was taking a stroll?

He said unconfidently, "The place where the gold is stored is under my feet. But I really want to know, how do you plan to enter? Or do you think you have a life that will last forever?"

Yu Tian paused. It turned out that trillions of gold were all under his feet. This piece of land was really valuable.

Thinking of this, Yu Tian directly took out a golden needle and stabbed it into the security guard's forehead. The security guard immediately fainted on the ground, and all the memories in his mind disappeared.

Yu Tian activated his mind and destroyed all the cameras in the surroundings. Then, he swaggered into the bank.

The dozen or so security guards in the hall turned around at the same time. Before they could speak, Yu Tian suddenly erupted with a force and knocked all the security guards to the ground, unconscious.

He also used competition to erase their memories. Then, he opened the elevator and went underground.

What he wanted was to be quick and leave after taking the things. He didn't need to waste time with anyone.

He was here to rob a bank, not to sightsee. He didn't care about those historical figures hanging on the wall.

Soon, he arrived at the storage warehouse. There were dozens of armed security guards there. They didn't even see Yu Tian's shadow. All of them fainted for no reason.

When Yu Tian opened the door of the warehouse and looked inside, he was surprised.

The gold bricks were piled on both sides of the warehouse quietly, as if they had been waiting for him for a long time.

He opened one of the fences and picked up a gold brick to weigh it.

“It's quite heavy. Some people say that humans can never pick up a gold brick with one hand. I can pick up two at once. Am I not a human.”

Yu Tian chuckled and activated his will. All the gold bricks became as big as grains of rice. He put all the gold bricks into a bag and swaggered out of the bank.

The next morning, when the people from the bank came to work, they found that the warehouse had been robbed. Everyone's face was filled with disgust. This unacceptable news reached the ears of the top management of the metropolis.

The manager, who was usually known for being tough, lay on the ground on the spot.

After he was finally woken up by someone, the first thing he said was painfully,

“Do you know who did it? I must kill him myself!”

Chapter 476 – Chapter 476. The Funds Would Be Available Soon

Thank you readers!

The subordinates looked at each other. The male assistant said with a grave expression, “Mr. Raqqa, up until now, we don't know how they took the gold worth 7 trillion.”

“In such a short period of time, and without using any large-scale equipment, we believe that it was done by our own people. Otherwise, it would have been impossible.”

Raqqa gritted his teeth and said, “Immediately keep an eye on the higher-ups of the bank. The news must also be blocked. If any reporters ask, just say that it was a drill. These gold pieces are not all ours.”

“Once the news is leaked, it will be very difficult for the Super Nation. Go and call Tucker!”

The male assistant immediately nodded and left.

Yu Tian woke up in a relaxed manner. The weather outside the window was very good. The city would not think that seven trillion gold pieces had been lost. Instead, it became quiet and even livelier.

At this moment, Chu Wen pushed open the door and entered. As she prepared clothes for him, she said, "Tyrone is already waiting for you. However, the superpowers seem to really want Tyrone to die. Your meeting must also be kept a secret."

"Therefore, I arranged for you to meet at a restaurant near the port."

Yu Tian put on his suit and said indifferently, "It makes me seem like I'm the same person as Tyrone. This guy is only smuggling weapons. I still have to meet him."

Although he said that, Yu Tian still arrived at the restaurant by taxi. Before he entered the door, he saw Tyrone's bodyguards standing guard outside the restaurant and even searching Yu Tian's body.

Yu Tian punched directly, and the bodyguard hit his head against the wall and fainted on the spot.

"Want to search my body? Haven't I died before?"

Seeing Tyrone, Yu Tian snorted and said coldly, "In the future, when your dog is pretending, see who the other party is. Don't act like an idiot!"

Tai long looked at Yu Tian with admiration. He liked his domineering manner.

He smiled and said, "Mr. Yu, don't bother with those bodyguards. Their only function other than eating is to get beaten up,

"I brought you a bottle of good wine from Rentes, but I want to know why we toast.

Yu Tian put the red wine in front of his nose and sniffed it. Then, he said indifferently, "I need you to help me sell something. I know you have some ability in the world's black market,

"I have a batch of gold in my hands. Help me sell it and I'll give you a 1% Commission!"

Tai long nodded and smiled. "Mr. Yu, why do you always have the things that you need the most in the world in your hands? Although the price of gold in the black market is only a little cheaper than the World Bank's price...

"But there are too many people who need it. It can be said that if you show your face a little, it will be snatched away!"

Yu Tian took a sip of red wine. Although he did not understand the black market, he did not need to understand it. He just needed to grasp hold of Tyrone.

He immediately said, "Very good. Immediately help me find all the buyers, determine the price, and the quantity they need. Once the money is in hand, I will immediately deliver the goods!"

At this time, Yu Tian's phone rang. Chu Wen said in a low voice, "You have ten minutes to leave. A group of dogs have already gone there after smelling the scent!"

"Alright, let me drink this glass of wine first before we talk!"

Yu Tian hung up the phone nonchalantly and said with a smile, "My request is that you must be quick. Also, don't make it so that everyone knows about it. When the time comes, I'll let you be the first to explode!"

Tai long nodded and said with a smile, "This is the reason why I can work in this industry for so long. It's because I know the rules!"

Since that was the case, there was no need to talk nonsense. Yu Tian stood up and said, "Let's hurry up and leave this place. If we drink for a while longer, we'll both be fucked!"

Ten minutes later, dozens of men in black rushed into the restaurant with weapons in their hands. However, there was only one empty wine bottle on the table.

Commander Tucker sneered as he picked up the wine bottle and placed it in front of his nose to sniff it. He said in a low voice, "This wine is not bad!"

At this time, his subordinates had already dragged the restaurant owner behind him.

Tucker slowly turned around. The restaurant owner's thin and weak body appeared extremely fragile in front of his muscles. It made his originally terrified mood likely to collapse at any time.

He said fearfully, "Who are you? What do you want to Do?"

Tucker fiddled with the wine bottle and asked in a gloomy voice, "Was the person who sat here before an Oriental?"

The boss shook his head and said firmly, "I didn't see anything. Please leave!"

With a crisp sound, Tucker smashed the wine bottle heavily on the boss's head, and blood instantly filled the boss's pained face.

Tucker grabbed his hair , which was covered in blood, and pressed it heavily on the dining table. he shouted angrily, "Listen, answer my question, and you can continue to open the restaurant. Otherwise, you will be burned down together with this restaurant!"

Although the boss was afraid, he remembered that Tyrone was his benefactor who had helped him get revenge. This restaurant was opened with money from him, and he could not betray his benefactor no matter what.

He gritted his teeth and shouted, "I really didn't see anything!"

Since that was the case, there was no need to talk nonsense. Turk pushed him to his subordinate and ordered coldly, "Burn This place down!"

The boss struggled and shouted, "You can't do this, you bunch of bastards!"

However, his words had no effect. He was still dragged out of the restaurant and watched his dream turn into a sea of fire.

At this moment, Yu Tian was leisurely strolling around the bustling metropolis. Behind him, there were at least a hundred men in black secretly following him.

Yu Tian had seen them long ago. Thinking about his identity, this was very normal.

In their eyes, he was the world's largest weapons manufacturer, and he was also a particularly wealthy person. Following him was because they were afraid.

At this moment, Yu Tian had already arrived at Chu Wen's shopping mall. The scene was still packed with people. The protesting crowd opposite was also shouting all sorts of slogans. They wanted nothing more than to use these slogans to scold the people who stole their family to death.

When those stalkers saw this scene, they all had a headache. They were looking at Yu Tian, but he had long disappeared.

Yu Tian also managed to squeeze into the office with great difficulty. Chu Wen looked at him tiredly and asked, "How much longer do we need to do this? Right now, our goods are already in short supply!"

He said indifferently, "Isn't that good? How's the acquisition of the 15 channels coming along?"

Chu Wen said, "There are still seven channels left, but we don't have enough fund!"

“The funds will be available tomorrow!” Yu Tian sat down on the sofa and asked, “You said you wanted to introduce me to someone. where is he?”

Looking at the time, Chu Wen said mysteriously, “Now is not the time to meet.

We can meet at night!”

At this time, the 108 sisters group suddenly sent messages one after another.

“This is too much. Chu Lulei actually wants us to leave the city!

“She also wants us to announce to the public that from now on, we are no longer members of the Chu family and will not enjoy the treatment of the Chu family!

“I’m curious. Chu Lulei is so crazy.. are the higher-ups of the family just watching?”

Chapter 477 – Chapter 477, The Server Was Attacked

Thank you readers!

When Chu Wen saw this, she was so angry that she threw her phone on the ground. She said furiously, “Yu Tian, how long do you want to hold it in? Haven't you noticed? Chu lulei is acting recklessly now!”

“It's because of your patience that she's acting so pretentiously. If you want to know who's commanding her, then show some strength. Maybe Chu Lulei is afraid and the person behind her will appear as well!”

Yu Tian chuckled and said disdainfully, “She's acting like she's crazy now. She's not trying to torture you, but she wants me to make a move and cause internal strife in the entire Chu family!”

“If that's the case, my family will definitely make a move. At that time, the fate of the Chu family might completely change. So, at this time, what I can do is to endure!”

However, Chu Wen shook her head and said, “However, have you ever thought that you would use patience to wait for that person to appear? Could it be that that person wouldn't have thought of it?

“It is precisely because of this thought of yours that he is unscrupulously encroaching on the position of the Chu family today. It is obvious that he knows that you want to endure. This is his weapon!”

What she said made sense. Yu Tian nodded slightly and said with an indifferent smile, “Let’s see what other tricks they can play!

Chu Wen could only suggest, but she could not sway Yu Tian's thoughts. She felt extremely helpless, but it was up to Yu Tian to make his own decision.

At this moment, Yan Longwen called Yu Tian.

Yan Longwen usually did not call him. Yu Tian frowned slightly and picked up the call.

On the phone, Yan Longwen said nervously, "CEO Yu, there's a technical problem with our game and live broadcast platform. The server has been shut down, the technical staff could not solve the problem because the core code of the server had been modified. This meant that the door of the game was in the hands of someone else. What should we do now?"

Yu Tian narrowed his eyes. He had only stayed abroad for a few days. The country was already in chaos. He said impatiently, "Are you saying that the server has been hacked?"

Although Yan Longwen did not want to say that, it was indeed true. She said in a low voice, "Only You, me, Chu Hong, and Du Tianci know about the server's permissions. I think it was Du Tianci who did it."

"Right now, we are strengthening the six-dimensional code server and the firewall. If this server is also hacked, it won't be a loss of funds. We have more than 200 million users. We have to tear down Xinghe technologies!"

Yu Tian thought for a moment and said calmly, "Don't talk about this for now. Who is in charge of Xinghe technologies now?"

"It was Chu Hong before, but the Chu family's higher-ups seem to be making all sorts of changes. Tianhai group and Xinghe technologies have both changed their higher-ups. Now, it's a country bumpkin named Chu Mangui who has the final say!"

Speaking of this person, Yan Longwen couldn't help but get angry. She scolded, "This country bumpkin is nothing. In the past few days since he came to the company, he only knows how to indulge in debauchery. He has held seven consecutive cocktail parties."

He told everyone that he was the boss of Xinghe technology. He even wanted to invest the user funds of the six-dimensional code into a large-scale entertainment center. Boss, if you don't come back and take charge of the overall situation, Xinghe technology will be completely ruined!

Yu Tian just laughed and said disdainfully, "It won't be ruined. Do what you need to do. Leave the rest to me!"

Yan Longvven said with some grievance, "Chu Mangui asked me to accompany him for a drink before, but I rejected him. He was very angry and said a lot of nasty things. If you still don't come back and take charge of the overall situation, I don't want to continue working in the company!"

It was normal for them to have such thoughts. The Chu family was currently in internal strife, and many things could not be controlled.

Therefore, Yu Tian comforted her indifferently, "Don't think that way. No matter who is the boss of Xinghe technology, you will always be mine. As long as you are mine, no one will dare to bully you!"

Yan Longvven nodded her head vigorously. She held back the tears in her eyes and hung up the phone.

Yu Tian still held the Tianba order in his hand. After thinking for a long time, he threw it back into his backpack.

Now was not the time to use this thing. Let's wait and see.

Thinking of this, Yu Tian called Chu Xuan again.

At this moment, Chu Xuan, who was in the office of the Shennan Company, was tidying up her things. After receiving Yu Tian's call, she especially complained, "You're simply a coward. You can still endure being bullied to this extent.. "

"Now look at what your patience has bought you. It's the betrayal of your family. All the achievements that we worked so hard to create have been taken back by them. Why are you still calling me now?"

Yu Tian said with a frown, "Look at your words. It's as if I've ruined you. My

Server has been hacked. You have to help me hack it again!"

"This is also a good opportunity for you to take revenge, isn't it? "

C

"When you hack the server, you have to see who hacked my server. There's no problem,

Chu Xuan snorted and said, "I can't be bothered with you, you damn coward. Hang up, I don't want to talk to you anymore!"

After hanging up, Yu Tian asked Chu Wen with a grimace, "Am I really that cowardly in your eyes?"

Chu Wen said with a straight face, "How should I put it? You shouldn't be asking me with a questioning tone. You should use a very certain tone to say to yourself, you're really cowardly. You're almost cowardly to the point of your pants!"

Yu Tian nodded and said helplessly, "If you're cowardly, then so be it. Now is the time for you to develop lewdly. You Can't be too pretentious!"

An hour later, Chu Xuan sent a message to Yu Tian.

"Your game and live streaming platform are all open. I've strengthened the server. If we look at it now, no one will be able to hack it anymore. I've also looked at the data records of the server"

"The modification of the server was done by Xing he technology, not from the outside network. This was done by a mole hidden in Xing he technology company!"

Yu Tian frowned when he heard that. Yan Longwen had previously told him that there were only a few people who knew the core code of the server. If du Tianci wanted to do it, it was impossible for him to come to the company to do it.

Yan Longwen would never do it. She would always be within the scope of his trust. There was only one person now, and that was Chu Hong.

In order to confirm his thoughts, Yu Tian called Chu Xuan again and asked straightforwardly, "Who owns the computer that is operating the server code"

Chu Xuan replied impatiently, "I don't know who owns it, but I know that it is operating on the 17th floor's IP address!"

Yu Tian immediately hung up the phone. The 17th floor was his office, and the only person who could enter his office was Chu Hong..

?Chapter 478 – Chapter 478, So They Were On The Same Side

Thank you readers!

Thinking about it carefully, Chu Lulei was Chu Hong's sister. Ever since Chu Lulei started to suppress him, Chu Hong had remained silent.

Now that the server of the game and live streaming platform had been shut down, could it be that Chu Hong was also on the other side now?

Many questions formed in his heart, but all of them were just guesses. Was Chu Hong still on his side? That still depended on it.

Yu Tian immediately called Yan Longwen again and ordered in a low voice, "I'm calling you from home. Only you and I can hear it. I'll give you a job. Help me keep an eye on Chu Hong,

I want to know what he's been doing recently or who he's been in contact with? Then, you'll send it to me through the encrypted server!"

Yan Longwen also said in a low voice, "Actually, I have long suspected that it was Chu Hong who did it. The person who is closest to Chu Mangui in the entire company is Chu Hong. They have to stay in the office for a long time every day. I don't know what they are talking about!

"You just have to do what I asked you to do well. You Don't have to care about the rest. They are just cooking in the office, and you pretend that you didn't see them!"

At this point, Yu Tian still felt that it was not perfect enough, then, he said, "You have to work overtime tonight. Put a bug in Chu Hong and my office, as well as Chu Mangui's office. I want to hear what they are saying!

Yan Longwen nodded and said in a low voice, "I'll go and do it later!"

After hanging up the phone, Yu Tian narrowed his eyes and dialed Chu Xuan's number again.

Chu Xuan said impatiently, "If you have so many things to say to me, then come to Shenzhen. Don't waste your time with me on the phone, okay? I have to move now, from the Company I personally created, to move out!"

Do you know how terrible that feeling is? You're a dead coward!

Yu Tian said disdainfully, "If you're calling me a dead coward, then I'll go to Shenzhen and kill you right now!"

"Coward, Coward, you're a Xuan shouted indignantly, "If you have the ability to Fuck me, then Fuck Chu Lulei if you have the guts!"

Yu Tian blinked his eyes and said disdainfully, "I'm not going to stoop to your level. I'll give you another task. I want to know the contents of Chu Hong's phone call!"

"I don't care. Go get it yourself!" Chu Xuan complained unhappily and directly hung up the phone.

This little girl had to be taken down to save face.

In the blink of an eye, it was evening. Chu Wen put down her work and brought Yu Tian to a quiet park.

Yu Tian looked around and said jokingly, "You brought me here for a date. The place is not bad. There isn't even a F * cking Shadow!"

Just as he finished speaking, a middle-aged man flashed out from a dark corner.

Yu Tian turned his head to look. The man was in his forties. His gaze was cold and there was a hint of calmness in it. His black suit was not bad, but no matter how he looked at it, he looked like someone from some mysterious department.

Chu Wen followed up with an introduction, "This is Mr. Tucker. He is the personal assistant of the President of the Metropolis. Karal. He is also a senior manager of an intelligence department in the Metropolis!"

This morning, he was the one who brought people to the bar near the port!"

Tucker nodded deeply and said slowly, "Hello, Mr. Yu Tian. I've wanted to get to know you for a long time. I've already burned down the bar. As for the owner of the bar, I've also asked someone to send him out of the metropolis!"

"Those stalkers who came after us won't get anything. Just treat it as a gift from me to you!"

Yu Tian only nodded slightly. He did not know much about this tuke, so he could not completely trust him.

Even if this was the person Chu Wen had introduced, in some aspects, for the sake of profit, he was very likely to sell everything.

This was the characteristic of these dead foreigners. Everything depended on profit.

Tuke said, "You may not know this, but the metropolis bank's worth of seven trillion gold has disappeared without a trace. Karal is very angry. He is not in the mood to care about anything else. This is the opportunity you want!"

Yu Tian touched his chin and said calmly, "Opportunity? What Opportunity?"

Turk did not show much expression when he realized that Yu Tian did not trust him. He said in a deep voice, "Mr. Yu Tian, aren't you trying to replicate what you did in Sean?"

"But Sean is not in the metropolis. If there is no opportunity, I think your plan will be very difficult to carry out. Miss Chu Wen and I have been working together for many years. We have always cooperated very well in the exchange of information,

"Mr. Yu Tian, you don't have to doubt me. When we get along for a long time, you will know that I am a trustworthy person!"

Trustworthy?

That would depend on whether he could be used for himself? If he could not be used for himself, trust was not worth mentioning at all. He was not a woman who could accompany her when she was suffering.

What was the use of trust?

Thinking of this, Yu Tian smiled indifferently and said, "To tell you the truth, the gold is with me. I have already worked with Tyrone to exchange all the gold for money, I need someone to help me transport it. Are you willing to do it?"

Tuke did not listen to the rest of the words. His entire head was buzzing. Not only him, but Chu Wen was also shocked and her mouth was wide open.

How on Earth did Yu Tian take away all this gold? Was He a God?

This was simply too unbelievable.

Tuke had no choice but to light a cigarette and take two deep puffs before he could calm himself down.

However, his hands were still trembling as he spoke. Even his voice was trembling as he said, "Mr. Yu Tian, oh my God, how on Earth did you do it?"

No one will believe it if this gets out!"

Yu Tian placed his hands behind his back and said proudly, "Then don't tell anyone else. They won't believe it anyway. On the contrary, they'll say that you're a lunatic and send you to the hospital. Who will help me when the time comes?"

Tucker felt as though his throat was stuck. He wanted to say it but couldn't. He wanted to swallow it but couldn't.

Yu Tian didn't want to waste any more time here, he simply asked, "Are you going to do it or not? Give me a straightforward answer. Let's not stand in the park. Ten men and a woman. Those who don't know will think that we're going to fight for a Woman!"

Looking at Chu Wen, Tuke still nodded and said in a low voice, "Okay, Mr. Yu. I agree!"

"Then there's nothing more to say. From now on, you and I will always keep in touch. I will give you orders at any time. Of course, after this batch of goods is sold, you will also receive a reward that you will never be able to spend all your life!

“Thank you, Mr. Yu!”

Having said what he had to say, Yu Tian left the park with Chu Wen and returned to the port..

Chapter 479 – Chapter 479, Was This An Illusion

Thank you readers!

At this moment, ten more cargo ships were entering the warehouse. The scene was very lively.

Hundreds of workers were entering and exiting the warehouse. At the periphery of the warehouse, dozens of men in black were holding various binoculars and observing every move of the port.

Yu Tian and Chu Wen changed into the clothes of the workers and blended into the crowd. No one knew who they were, including the men in black who were holding binoculars. They only glanced at them and continued to observe.

At this time, Tai Long sent an encrypted message. Yu Tian opened it and took a look.

“70 billion worth of goods. Trading in the coordinates of the international sea. The time is three o'clock tomorrow morning!”

Yu Tian deleted the message directly and boarded the freighter with Chu Wen.

After unloading all the goods, the freighter slowly left the port.

Those stupid men in black were still waiting for Yu Tian to appear. At this time, Yu Tian was already standing on the deck, drinking red wine and watching the sunset.

In the blink of an eye, it was 2:30 in the morning. The captain walked into the cabin and said in a low voice, “Boss, we have arrived at the designated sea area. There seems to be a pirate ship waiting for us in front!”

Yu Tian stretched his back and said indifferently, “Don't be afraid. Prepare a small boat for me. I'll go there myself!”

At Three o'clock Sharp, Yu Tian boarded the pirate ship alone.

Everyone on the ship held their weapons and looked at him warily.

At this moment, Tyrone and a middle-aged man quickly walked out of the cabin. From Afar, they smiled and said, “Mr. Yu, you're really punctual. Let me introduce you. This is Mr. Simon. He's also the person who wants to buy the goods this time!”

Yu Tian was expressionless as he looked at Simon. He was only in his thirties and gave off a very gloomy and ruthless feeling.

On the other hand, to be able to mingle with people like Tyrone, he had to look like a human. The others were simply animals.

However, this had nothing to do with the transaction. Yu Tian said indifferently, "The place you chose is really not bad. This place is surrounded by a vast ocean. Who knew that we would be trading 70 billion world coins here?"

Needless to say, have you prepared the money?"

Simon immediately turned the laptop behind him to Yu Tian and said, "Now, as long as I enter your account and click the confirm button, the 70 billion world coins will be yours.

"But before that, I want to check the goods first!

Yu Tian did not waste time with him. He reached into his backpack, enlarged a gold brick, and threw it directly into Simon's hand.

Simon tested it very professionally. He was just short of using his teeth to make sure that the gold brick was real. He said with satisfaction, "This is the best gold in the world. Where are the other gold?"

"Take me to your warehouse!

Everyone looked at each other. They did not know what Yu Tian wanted to do? However, he still brought him to the empty warehouse.

Yu Tian turned around and said calmly, "All of you, go out and close the door!"

Simon looked at Tyrone who was beside him and asked in a low voice, "Is he here to sell things or to see my warehouse?"

Tyrone did not know how to explain. He could only smile helplessly and say,

"Let's listen to him. After all, the gold is in his hands!"

After everyone left the warehouse, Yu Tian took out a few large gold grains according to the actual price of the goods and used his will to restore them to their original state.

Soon, 70 billion gold grains filled half of the warehouse, shining with golden light.

The moment the hatch opened, Simon, Tyrone, and the others were shocked. They shouted and shouted as if they had seen a ghost.

How did these gold bricks appear? Was it magic? Or was it fake?

Simon barked his teeth and rushed into the warehouse. He picked up a gold brick, put it in his mouth, and chewed on it. Then, he picked up other gold bricks and smashed and chewed on them. He even took out the last gold brick.

The final result was that these gold bricks were real. They were definitely not illusions or fakes.

It was only then that everyone realized that Yu Tian was actually a god-like person. He could actually conjure gold.

Simon's trembling hand transferred 70 billion world coins into Yu Tian's account. The transaction was completed.

Yu Tian said proudly, "You will also pay the 1% commission that I promised Tyrone. I am very satisfied with this transaction. If you need anything else in the future, you can continue to look for me. I can even sell the Moon and Mars to You!"

Under Simon's terrified gaze, Yu Tian swaggered back to the small ship and easily returned to the cargo ship.

At this time, the captain ordered them to immediately return.

On the pirate ship, Simon was still in disbelief. He picked up a gold brick and smashed it with all his strength. Then, he said in a relaxed manner, "It's all true. This is too amazing!"

Tai long chuckled and said, "This customer of mine will shock you every time he appears. He's such a person. You'll get used to it after you get used to it!" Just as he finished speaking, Tai Long's phone rang with a notification.

He looked down and saw that it was a message from the black market. Someone had started ordering again.

In the blink of an eye, it was the afternoon of the next day. Yu Tian's acquisition plan had been completed. The number of people fighting the epidemic was also increasing, causing the situation to go completely out of control.

In Yu Tian's eyes, these things were not worth mentioning at all.

Yu Tian told Chu Wen about his subsequent thoughts and plans in a simple manner.

"I want you to get rid of all the houses and buildings that you have acquired and rebuild the high-rise buildings. I want to build the largest business district in the entire Super Nation!"

Chu Wen said with some shock, "You definitely don't want to make money. Can you tell me your thoughts? What exactly do you want?"

Yu Tian said indifferently, "It's very simple. I want to make money. I want to become strong. I want to step on all the enemies in this country and then piss on their faces!"

Chu Wen didn't know whether to laugh or cry. Why was Yu Tian's idea so different?

At this moment, Chu Wen received a message. After she read it, Yu Tian said, "Tuk told us that the people of the metropolitan retail union have begun to protest against KARAL,

"Because our sales have caused great damage to their retail industry, they are now demanding that Karal close our stores or stop our sales!"

"Karal is considering it now, but he might not do so. After all, he has no reason to do so. Once the sales are stopped, there might be more people protesting,

"This is a place that focuses on interests. No one is willing to have their interests swallowed!"

Yu Tian only listened casually and did not take it to heart. No one could stop his plan.

At the same time, outside the base of a secret department in Metropolis, two men in black were talking while looking at the pedestrians passing by. At this moment, a woman came in front of them..

?Chapter 480 – Chapter 480, Who Is The Master

Thank you readers!

The two men in black immediately reached out to stop her, "I'm Sorry Madam, this is private territory, what do you want?"

The woman slowly raised her head, revealing a pair of extremely beautiful eyes under her long hair.

The color in her eyes was so clear, as if it was the purest water in the world, washing their hearts.

One of the men suddenly saw his past from the woman's eyes. On the battlefield, the child's family that he had killed, the child's crying, seemed to have broken the most fragile thread in his heart.

He shook his head with tears streaming down his face, "No, I don't want to kill them, it's My Fault!"

After saying that, he directly broke his own neck.

Another man looked at her eyes in a daze. Suddenly, he felt that living was so painful. The road to Heaven opened right in front of his eyes.

He directly took out a dagger, cut open his own neck, and fell down.

The woman only smiled coldly and said in a low voice, "Where in the world are there pure people?"

She opened her sexy high heels and pushed open the door to enter the secret base.

Everyone who saw her eyes committed suicide without caring about anything else.

The smell of blood filled the entire base. She came to a secret room. The Man in the room, whose face was covered in sweat, held a weapon and pointed it at the door.

However, the moment the door was pushed open, the woman's eyes fell directly on his face. He pointed the weapon at his forehead without hesitation and fired without hesitation.

The woman directly walked past him and came to a file cabinet. She put a computer disk that was only used in the last century into her backpack and left immediately.

At the same time, Yan Longvven sent the eavesdropping audio to Yu Tian.

Yu Tian listened quietly with his headphones on.

Chu Hong spoke first and said angrily, "If you weren't my uncle, I would have had you killed a long time ago. Look at what you've done. You didn't even let go of the female employees of the company. Do you still have any use for them?"

Chu Mangui smiled disdainfully and said, "What's The Big Deal? Didn't you already give me this company? I don't care about those six-dimensional codes or the game at all. On the other hand, those live streamers on the live broadcast platform are very good."

"Oh right, I'm also holding a live streamer's cocktail party tonight. At that time, I can get to know more beautiful women. You Don't have to tell me anything else. I know you asked me to be the boss here| Isn't it because my daughter, Lu Lei, helped you with Yu Tian?"

Chu Hong slammed the table and said coldly, "Is that how you want to do it? I don't care what kind of reception you want to have, but you mustn't touch the funds of the six-dimensional code, or I'll Never Forgive You!"

“If you don't want to do it, then don't!” Chu Mangui said indifferently, “Now the entire Chu family's economy is controlled by our branch. That old fart, Chu Aotian, can't convince these people of our branch at all,

“In the future, the Chu family will belong to us. I don't even care about this small company. So what if we play with a few employees?” “As for that Yan Longwen, that little girl is really not bad!

Chu hong shouted angrily, “Enough, stop talking. Let me tell you, Yan

Longwen is Yu Tian's woman. If you dare to touch her, our plan will fail. At that time, I will personally kill you!” !

“Also, listen to me carefully. The Yu family wants us to get what he wants as soon as possible. You better be quiet too. I want you to only suppress Yu Tian and Chu Qing. If you dare to act recklessly again, get the hell back to the capital!

Chu mangui laughed and said, “Alright, I'll listen to you. I Won't touch her. I'm going to attend the banquet now. I used to be in the family and didn't have any status. I didn't even need to help that old bastard Chu Aotian wash his feet”

“Now I also have the chance to be the boss. No matter where I go now, everyone respects me very much. Do you think I won't cherish it? “Don't worry, I'll definitely torture Yu Tian to the point that he won't be able to get away!”

When he heard this, Yu Tian's eyes narrowed tightly.

This idiot went to his own company to have a good time. What a F * cking cocktail party. He was so good at pretending, he didn't even mention anything about hosting a cocktail party.

He even f * cking slept with his own staff. This old fart was simply courting death.

The more he thought about it, the angrier he felt. There was also that Chu Hong. As expected, it was this prodigal woman who was playing tricks behind the scenes.

As for who exactly was the person from the Yu family that she was talking about?

Could it be uncle long? That was impossible. This old man was walking a few steps faster now, and he was already so tired that his crotch was twitching. What was he after?

There must be someone else.

At this moment, Chu Xuan called and said directly, "I'm connecting you to Chu Hong's channel now. Don't make a sound and cover your mouth to breathe. Otherwise, that woman would have heard!"

After she said that, she connected to the channel and heard Chu Hong say, "Sister Lei, you can now increase the pressure on our bank in Metropolis. Tell them to stop Yu Tian's plan. Even if they can't stop it, they have to destroy it!"

Chu lulei chuckled and said, "They have to do as I say. Now that I have the support of most of the higher-ups of the Chu family, even Chu Aotian can't do anything to me!"

Sister, if I knew this job was so easy, why didn't you tell me earlier? Oh right, don't forget to mention my contributions to the master. In the future, when he becomes the new master of the Chu family, I can also stay by his side...

when that time comes, the two of us will serve him together. Won't all the benefits be ours? Yu Tian? He's just a coward. I don't even put him in my eyes. If I play him like this, I won't even get a fart,

i only know how to do that small business in Super Nation. Little Sister, you're really right. He's just a useless country bumpkin!

Chu hong chuckled and said, "Otherwise, how could I give you this benefit? As long as you can help me get what I want, all of the Chu family's assets will be yours in the future!"

Chu lulei happily said, "Then I'll wait for the master to come up. I'll call Super Nation Now!"

With that, the call was directly cut off.

Yu Tian did not blink his eyes. After a full five minutes, he slowly pulled off the earpiece.

Chu Wen saw that Yu Tian seemed to be particularly angry at this time, so she carefully asked, "What's wrong? Why Are You So Angry?"

"Prepare a private plane for me!" Yu Tian stood up and said coldly.

"Where are you Wen asked with puzzlement.

"The imperial capital!"

Chu Wen said excitedly, "You don't want to be a coward anymore?"

Yu Tian said coldly, "Not only do I not want to be a coward anymore, but this time I want to let them know who the real master is!"

An hour later, the private plane took off and headed straight for the imperial capital.

The news of Yu Tian going to the imperial capital was completely kept a secret. Even Uncle Long did not know about it.

The next day at two o'clock in the afternoon, Yu Tian stood on the land of the imperial capital and looked at the super city in front of him. He said coldly, "The imperial capital, the Chu family. This Daddy will definitely make some noise for you this time!"

After saying that, Yu Tian went straight to the entrance of the Chu family international business group building..

I Have 108 Older Sisters #Chapter 481 - Read I Have 108 Older Sisters Chapter 481

Chapter 481 – Chapter 481, Mysterious Bodyguard

Thank you readers!

The moment Yu Tian stepped through the door, it was as if the entire building was trembling.

There were countless people entering and leaving the building every minute, so no one noticed him at all.

However, it was also good this way, so that there wouldn't always be pretentious people appearing, and they would have to slap their faces, wasting time.

However, just as he walked out of the elevator, a few security guards surrounded him. The security guard in front of him asked cautiously, "This floor is the floor of the senior management office. Which floor are you on? What are you doing here?"

Show me your position card!"

Yu Tian smiled indifferently and said coldly, "My position card is my fist. I'll give it to whoever wants to see it!"

Before the security guards could say anything, Yu Tian had already punched and kicked them several times. The security guards had already fainted quietly.

They had to be beaten up. It would be better if they could talk properly.

Yu Tian snorted coldly and walked directly to the finance director's office.

At this moment, a figure suddenly appeared from the side. It was extremely fast as it raised its fist and threw it at Yu Tian.

Although Yu Tian was not on guard, his body's reaction was completely automatic. He also threw a punch at the Fist Shadow.

The two fists collided, and the two of them took a step back.

At this moment, Yu Tian finally saw the person in front of him clearly. He was about the same age as him, but his figure was even more robust than his.

However, he did not use his full strength in this fist bump, and the other party did not gain any advantage either. Even his sunglasses were shattered.

The man slowly took off his sunglasses and threw them away casually. His cold gaze stared at Yu Tian without blinking. Waves of killing intent erupted along with his breathing.

Yu Tian said indifferently, "The suit looks pretty good, but it's not as valuable as mine. The glasses are still alright, but they're still broken. Please Register!"

The man spat out a few words coldly.

"Chu Suiwu, you're Yu Tian, aren't you?"

After saying that, he raised his fist again. Whether it was Yu Tian or Yu di, if they wanted to enter the director's office, they had to get past him.

Yu Tian really found it interesting that Chu Lulei actually had such an expert by her side.

Since they had met, they had to play around. If they could give him some excitement, that would be even better.

Thus, he raised one of his hands, signaling for Chu Suiwu to start showing off.

Chu Suiwu knew that Yu Tian was an expert. He did not gain any advantage from the previous punch. This time, he should not waste his strength and directly attack Yu Tian's vital points. Let's see how he can defend himself?

Yu Tian saw that the fist was aimed at his forehead. At that moment, he felt that he had lost some of his fun. This fellow's family style was not bad, but his feints were a little too obvious.

Without fun, what was there to fight?

He immediately kicked out a warm leg. His arm was longer than his own leg.

Chu Suiwu was also very calm. If his feint was seen through, that was even better. Breaking his leg was also good.

Thus, he slightly dodged and raised his fist to hit Yu Tian's leg.

Just as he was about to touch Yu Tian's knee, he suddenly disappeared.

Chu Suiwu's expression tensed up. Yu Tian had actually played a successful feint for himself.

When Yu Tian's fist smashed down, he did not even have the chance to dodge and was directly hit in the neck

Yu Tian did not hold back with this punch. The strength was extremely strong, causing Chu Suiwu to directly stumble and fall to the ground.

Yu Tian smiled indifferently and said, "You can play a good sneak attack, but if you're face to face, you're nothing. Can you still get up? Continue playing with Chu Suiwu gritted his teeth and got up again. However, this was also his perseverance. His bones seemed to have fallen apart. It was already good enough that he could stand up.

However, he had to stop him from going to his aunt's office no matter what.

At this time, Yu Tian snorted coldly and came closer again. He waved his hand and punched.

Chu Suiwu saw the fist coming, and he didn't even have the strength to dodge.

With a crisp sound, he flew into Chu Lulei's office and smashed the desk into pieces.

Behind the desk, Chu Lulei was so frightened that her face turned pale. She hurriedly stood up and hid at the side. When she saw Yu Tian walk into the office, her head buzzed.

When did Yu Tian come back? How come she didn't know at all?

When she saw Yu Tian's cold expression and Chu Suiwu, who had already died, Chu Lulei immediately said angrily, "Yu Tian, what are you trying to do? This is the Chu family's headquarters, not a place for you to behave atrociously!

Yu Tian glared at her with disdain and said indifferently, "If you want to call me master, do you know that this is the Chu family's headquarters? Haven't you always wanted to be the leader of the Chu family?"

“Alright, since I'm here today, let's see how you can be the leader.”

When Chu Lulei heard this, she immediately understood that Yu Tian must have known her secret. However, as long as she did not admit it, what could he do?

Thinking of this, Chu Lulei sneered and said,

C

“What can you stop? You Can't do anything now. These 108 sisters of the Chu family have all left the Chu family at your request. Now, you and they are not members of the Chu family”

What right do you have to speak here? If I Were you, I would immediately leave so as not to embarrass myself!

However, Yu Tian chuckled and sat comfortably on the sofa. He said indifferently, “I'm really disappointed that you can think like this. Originally, I thought that you would be a very strong opponent, but now that I look at it this way”

“You're just a stupid woman. Moreover, you're just a stupid woman who was casually used by others. I'm not going to waste time with you. In fact, even I feel disgusted when I see you sitting here right now.”

“I'll only ask you one question. Who is that supporter of yours and Chu Hong, that person from my family?”

Chu Lulei also sneered and said, “Don't even think about it. You Won't know anything. Now, please leave my office. It's best if you can leave the capital. Otherwise, the entire Chu family will not let you off.

“Especially my branch. You know that we already have complete control over the entire upper echelons of the Chu family. Now, we can casually make a decision that will cause you and the 108 sisters to be eternally doomed!”

Yu Tian shook his head helplessly. He had said all the nice things to her, but she didn't listen to him at all.

Since that was the case, there was no need for him to waste his time talking about such useless things.

He casually took out the heavenly tyrant medallion and said, “You should know what this is in my hands. This is the best configuration for the Chu family head. Now, as long as I write down the name of a monk, he will die immediately.”

“I think I don't need to explain to you anymore. You only need to know one thing. If you tell me who the person behind the scenes is now, a few less people in your bloodline will die. Otherwise—”

“You will watch them die one by one in front of you, but you won't be able to do anything. That kind of feeling is torturous just thinking about it. Can You Bear It?”

Chu Lulei's expression started to turn ugly, but she absolutely didn't believe that Yu Tian would do anything.

Because doing so wouldn't do him any good. Instead, it would make the entire Chu family treat him as an enemy.

So she said firmly, “If you want to do it, just do it.. You Won't get any information from me!”

?Chapter 482 – Chapter 482, Family Strength

Thank you readers!

It seemed that no matter what he said, Chu Lulei wouldn't easily tell him who that person was?

In any case, the heavenly tyrant order hadn't been used for a long time, so it was better to use them today.

Thinking of this, Yu Tian directly wrote Chu Mangui's name on the back of the heavenly tyrant order.

The heavenly tyrant order randomly flashed with a dim light, and it really became quiet.

Yu Tian chuckled and said, “This person is your father, but it's impossible for him to be alive now!”

As soon as he finished speaking, Chu Lulei's phone immediately rang.

When she heard the contents of the phone call, she was so shocked that her mouth was wide open.

Her father had suddenly died a minute ago.

Yu Tian really did it. Chu Lulei's soul didn't possess her body, and she directly collapsed onto the ground.

However, Yu Tian did not have the intention to stop. He continued to write the names of the higher-ups of her lineage on the heavenly tyrant order.

These people died one after another. Within ten minutes, hundreds of people had died under the heavenly tyrant order.

Chu Lulei had completely collapsed.

Not only her, even Chu Hong was also on the verge of collapse.

These people had died for no apparent reason. Just the thought of it was enough to tell that Yu Tian was the one who had used the heavenly tyrant order again.

Yu Tian was actually so determined and decisive. It was completely beyond his imagination.

He must have known some inside information. Otherwise, it was impossible for him to be so cruel.

Hundreds of people had all died in just a few minutes. No one could do it except for him.

When he thought of this, he immediately picked up the phone and called Yu Han.

The call was connected, and she said in a trembling voice, "Yu Tian already knows everything. He is using the heavenly tyrant order to kill all the higher-ups of the corporation. What should we do now?"

Moreover, it is very likely that Chu Lulei is also in his hands!

Yu Han was silent for a moment, and then he said gloomily, "My Plan has not completely begun. If Yu Tian finds out about my identity at this time, then the entire family will be in deep trouble,

"On my side, the war between my father and Yu Tian's father will be triggered at any moment. However, with our current strength, we are no match for Yu Dian Lie."

"Especially since Yu Tian has given birth to a child. This has already made things difficult for us. Now that everyone on the family's side is on Yu Dian Lie's side, we won't be able to reap any benefits if there really is a war!"

Chu Hong did not want to listen to him anymore. She said a little angrily, "I know that you are in a difficult position, but Yu Tian is currently killing people without any scruples."

"Chu Lulei's parents are already dead, and there will be more people dying one after another. You have to come up with an idea. Even if Chu Lulei is dead, I can't die. Do you understand what I mean?"

However, Yu Han sneered and said, "You can let anyone die, but Yu Tian will definitely not let you die because he wants to ensure the integrity of the 108 sisters of the Chu family,

"Once one of you dies, all of the 108 sisters will die with you, so he won't kill you. You just have to hold on. Forget about my name, he can't do anything to You?"

"As long as we get through this together, when my plan really starts, it won't matter how capable Yu Tian is. At that time, everything you want will still belong to you!"

Chu Hong gritted her teeth. What he said made sense. Yu Tian would never do anything to her.

This was the rule that guaranteed her life. Even Yu Tian couldn't break it.

Meanwhile, in the headquarters of the imperial capital group, the thousands of people in the company all ran out of the company in a panic. This was because they had always been there. Some people had died, and all of them died mysteriously. Just thinking about it made one feel terrified, who would still be working at this time.

In the manor of the Chu family, Chu Aotian and uncle long were still leisurely drinking tea.

Chu Aotian was drinking tea as he said with a smile, "This time, Yu Tian is very ruthless. I feel that he might want to kill all of Chu Hong's descendants!"

Uncle Long said expressionlessly, "He should do this. Those people deserve to die. Sometimes, I really don't know what they are thinking. They clearly know that Yu Tian has the heavenly tyrant order in his hands,

yet, they still dare to provoke his bottom line brazenly. Yu Tian did this this time to let everyone in this family know that his dignity can not be provoked!"

The old man's words were very reasonable. He slowly put down the Teacup from the day after tomorrow and said in a low voice, "Then who is the person behind this?"

Uncle Long shook his head, he said coldly, "No matter who it is, he is no match for Yu Tian with this move alone. I reckon he has already shrunk back. As for that Chu Hong, let's see if Yu Tian has the ability to make him reveal this person.

"But from my side, I don't wish for Chu Hong to reveal this person's identity. Once Yu Tian or Yu Tian's father finds out about this person, then there is a high possibility of internal strife within the clan"

"Right now, the clan is also on the verge of collapse. Yu Tian has finally given birth to a child with great difficulty, which has given everyone some hope. If internal strife were

to occur at this time, the clan's strength would be difficult to recover within a hundred years!

“Yu Tian is still a long way from being a powerhouse. Now, it's up to Yu Tian to make his choice!”

In the headquarters, Yu Tian wrote his name and said to Chu Lulei, who was slumped on the ground, “When everyone in your line dies, only you and Chu Hong will be left,

“But you know that in order to ensure the integrity of the 108 sisters, I will not kill Chu Hong. However, I will definitely kill you without mercy. In fact, Chu

Hong already knew that she would not die ,

the person who will be killed by me will be you. However, you are determined to be used by her without any hesitation. You have not even considered this, yet you still dare to be so arrogant?

There are still ten people left from you. After these ten people are killed by me, you will also die in front of me. Your choice is up to you!”

Chu lulei immediately crawled to Yu Tian's feet and hugged Yu Tian's thigh. She pleaded with a wail, “I beg you, please don't kill me. I know that this is wrong. I shouldn't have trusted Chu Hong so easily,

“I'll tell you who that person is. His surname is Yu, and his name is Yu Han. He's also a member of the Yu family. All of this was planned by him, and I was only deceived by their flowery words!

Although Yu Tian was expressionless, he was extremely shocked in his heart. Uncle Long had previously told him that there would be someone in the family who would compete with him. At that time, he had not taken it to heart, but now it seemed that this person's tricks were very deep..

?Chapter 483 – Chapter 483: Retreat To Advance

Thank you readers!

However, Yu Tian did not put away the heavenly tyrant order. Instead, he coldly said, “There can only be one master in the Chu family. This person can only be me, and I will never accept any betrayal!”

Chu lulei tightly hugged Yu Tian's thigh and said with a hoarse voice, “Everyone will be used. It was Chu Hong who made me feel that as long as I listened to her, I would be able to obtain everything!”

“Actually, I'm doing this for myself. Is this wrong?” “Everyone in the Chu family wants to be the boss. I'm not the only one. Please, give me another chance!”

Yu Tian pulled out his foot and said coldly, “I never give opportunities that I shouldn't!”

After saying that, Yu Tian wrote Chu Lulei's name on the heavenly tyrant order.

The despairing Chu Lulei suddenly lost all expression and died at Yu Tian's feet.

Half an hour later, in the Xinghe technology office.

Chu Qing led a dozen security guards into Chu Hong's luxurious office.

Chu Hong did not resist at all, nor did she think about leaving.

Not only was it futile, but there was also no need for that.

Yu Tian would not kill her at any time. On the contrary, he would continue to protect her. This was the rule set by the Yu family.

The integrity of the 108 sisters sounded like a joke, but now, they could save their own lives.

This was even more of a joke.

Chu Qing did not want to say anything. What Chu Hong did was clearly not treating the 108 sisters as a whole.

She just waved her hand at the security guard with disdain.

The security guard immediately went forward and was about to make a move when Chu Hong suddenly looked at them and said coldly, “If you dare to touch me with your dirty hands, I’ll take your lives!”

She was, after all, a high-ranking official of the Chu family, so the security guards were a little timid.

However, Chu Qing said coldly, “Your hands are dirtier than theirs. They will send you to the Luo Jue tribe. From now on, that place will be your home!” Chu Hong gritted her silver teeth and said angrily, “I want to see Yu Tian!”

“He won't see you. You won't be able to see him for the rest of your life. This is your choice, isn't it?”

Chu Qing laughed coldly. She was already extremely disgusted with her. She immediately ordered the security guards, "What are you waiting for? She is no longer a high-ranking official of the Chu family. Bring her to the imperial capital immediately!"

Since that was the case, there was no need to be polite. The security guards grabbed Chu Hong's arm and dragged her out of the office without caring about what she said.

At the same time, Yu Tian also came to the Chu family's super manor and met with Chu Aotian, Chu Hui, and Uncle Long.

After a simple greeting, Chu Aotian said respectfully, "Master, it's my fault that there's internal strife in the family this time. I hope that master won't be angry!"

Yu Tian looked at the luxurious furniture around him and the priceless teacups. He chuckled and said, "The Chu family is always in internal strife. I'm used to it. But this time, it's just a little special. It's nothing!"

When Uncle Long heard this, it was possible that Yu Tian already knew who the person behind the scenes was. Then, he asked in a low voice, "Is it someone from our side?"

After drinking a mouthful of fragrant tea, Yu Tian said indifferently, "It's someone called Yu Han. Have you heard of this person?"

Uncle Long frowned slightly and said fiercely, "As expected, it's someone from his side. This Yu Han can be considered your cousin. His status in the family isn't high, but his father, Yu Longgu, is your father, Yu Dian Lie's sworn enemy!"

"He has always coveted the position of the family head. For many years, he has been fighting openly and secretly with your father. This time, Yu Han has made such a move. It seems that they want to cut off the power of the family directly from here!"

Yu Tian gently put down the teacup and said disdainfully, "They can't get it, so they want more. This is understandable. I am currently in the middle of a few important projects and don't have the time to care about the family's matters."

"As for this Yu Han, he's just showing off. I won't ask him this time. Let's see how high he can jump!"

In his heart, Uncle Long was full of admiration for Yu Tian's magnanimity.

He seemed to be retreating, but he was actually retreating in order to advance. Compared to him, that Yu Han was an idiot. How could he possibly be Yu Tian's match?

At this moment, Yu Tian said indifferently, "The Chu family has lost more than 500 higher-ups. The more we kill, the fewer people with the surname Chu. If we could all

enjoy it quietly, we wouldn't have lost so many people. Uncle Chu, you're being too soft as the head of the family!a€?

Chu aotian laughed self-mockingly, a€?It's the same over there as over here. The undercurrents are surging, and they can't even suppress them. Everyone in the family is staring at the thing under my feet, but they can't figure out the value of the Chu family's existence.

a€??

This time, the master helped me suppress them, and I'm very grateful. If the master has a transfer of people, I'll naturally obey!a€?

Yu Tian nodded slightly. This Chu Aotian was not simple either. He was especially good at Reading People's thoughts.

With just a simple sentence from him, he knew that he had to arrange for some people to enter the upper echelons. He had to say it out loud first. He had to think highly of him. For this old man to be the family head, he really had his ways.

He slowly stood up and placed his hands behind his back. He said proudly, [a€?The position of the family's financial director will be handed over to Chu Hui.

The position of Southeast region's president will be handed over to Chu Qing. The position of Tianhai Group's president will be handed over to Chu Xin, the other projects, funds, and positions of the 108 sisters will all be restored!a€?

Chu Aotian frowned slightly. If his daughter was to be the financial director, the pressure on the family side would definitely be great. He only wanted her to live a more relaxed life. The job of managing the money should not be done by her.

Thus, Chu aotian bowed and said, a€?My lord, all other arrangements are fine. Only the position of the financial director is truly lacking. My Lord, why don't you arrange for someone else!a€?

This fox was really meticulous. He was afraid that his daughter, Chu Hui, would be under a lot of pressure and would easily provoke others.

Especially when it came to managing the family's huge funds. If the Yu family were to target her, wouldn't she be the second Chu Lulei?

Yu Tian then said coldly, a€?It's fine if it's someone else, but who else can I trust? If another Chu Lulei appears, what will you tell me then?a€?

Chu Aotian secretly grinned. Yu Tian's words had pushed him into a corner. If he did not agree, it meant that he did not put him in his eyes. This move was not bad.

Since that was the case, Chu Aotian did not have a choice. He cupped his fists and said, "Master is right, then let Hui er do it first. If she can't satisfy master, then we can change people again!"

Yu Tian laughed and said, "Alright, let's announce my orders now. I still have to rush back to Super Nation. I am very busy!"

The two old men personally sent Yu Tian out of the manor. Looking at his back, Chu Aotian laughed self-deprecatingly and said, "You old man, have you seen it? This Yu Tian has retreated and advanced. He is neither servile nor overbearing. He is able to subdue you and me without batting an eyelid!"

Uncle Long said proudly, "Do I need your nonsense? Otherwise, how can I let him be the future successor of the family? Stop wasting time. Go back and drink a few cups.. This old man is happy today!"

?Chapter 484 – Chapter 485 Was Of No Use

Thank you readers!

Chu Wen wanted to argue with Yu Tian, but Yu Tian's mind was filled with these thoughts. She immediately pushed Yu Tian away and said angrily, "In the entire Metropolis's shopping mall, only two companies disagreed. The rest have already been bought by us!"

Yu Tian smiled in satisfaction and said, "Those two companies won't be able to hold on for long. Immediately put our products in and continue selling them at a low price!"

However, Chu Wen shook her head helplessly and said doubtfully, "I really don't know what you're thinking. Right now, we have to lose hundreds of millions of dollars every day. Why are you doing this?"

Yu Tian was very clear about this point, but compared to what would happen later, this loss was not worth mentioning.

He said indifferently, "Since you want to play, then play it big. Or don't play. It's boring. Don't go to the company today. Bring some people to buy a few ports in the metropolis."

"Raqq is also about to be unable to withstand the pressure from his superiors.

It's very likely that he will close the ports and not allow our freighters to enter. They will become his own. He can't even close them if he wants to!"

At this moment, the assistant entered the door and said, "Mr. Yu, there's a miss called Beatrice who wants to see you!"

When Chu Wen heard that it was a woman, her face darkened and she said angrily, "Where did Beatrice come from? Which Company is she from? What does she want to see President Yu For?"

The assistant did not know how to answer and his mind went blank.

Yu Tian frowned slightly. His office was on the 27th floor.

There were layers of security below and the upper management of each department. This Beatrice was able to come here without any reservations. It was interesting.

Thinking of this, Yu Tian said indifferently, "Let her in!"

The assistant felt relieved and turned around to invite Beatrice into the office.

Yu Tian only glanced at her casually. Her figure was not bad, and her looks were not bad either. However, she was not considered a super beauty. Instead, she was a little cold.

Beatrice only wanted to confuse Yu Tian. However, Yu Tian lowered his head and looked at his phone. He did not look at her at all.

Chu Wen was not happy with her. She simply did not look at her. She stood up and said, "You guys go ahead. I'm going to get busy!"

Thus, Beatrice's attempt to confuse Chu Wen failed.

She went to Yu Tian's desk and knocked on it gently. She said coyly, "Mr. Yu, don't you want to look at me?"

Yu Tian's answer was also straightforward. He said coldly, "No, not at all. Why Don't you tell me what you want to Do When you see me? If you want to seduce me just because you admire me and admire me"

I advise you to save your breath. I feel a little nauseous when I see you evil women now!

Beatrice gritted her teeth in anger. How could she tempt him to jump off the building without looking at her eyes?

She suppressed the anger in her heart and said disdainfully, "So Yu Tian, who is so powerful, doesn't even have the guts to look at a woman. Can you be any more cowardly?"

"Moreover, I'm your guest now. You're being too rude. I'm very angry!"

However, Yu Tian remained unmoved and didn't look at her. Instead, he said, "If you keep talking nonsense, I'll be even angrier. Before I kick your butt and kick you out of this house, you'd better get out of here by yourself!"

Beatrice didn't believe that it would be so difficult for him to look at her?

Not to mention anything else, her looks could be considered a little sexy. Other men would be charmed to death without using any skills when they saw her. However, Yu Tian took the initiative to tell him not to look at her.

She was so angry that she scolded, "Are you a man or not? Will it kill you to look at me? If you have the guts, look at me. If you dare to look at me, I'll undress you on the spot. Look, I'll Undress You Right Now!"

She had to look at it. After all, she was a man. Moreover, she was just a woman. What was there not to look at?

Thinking of this, Yu Tian slowly raised his head and looked at Beatrice. He chuckled and said, "I've seen it. Why Don't you undress!"

In an instant, Beatrice immediately activated her mind and used the eye of Satan to confuse Yu Tian.

However, Yu Tian did not feel anything at all. His brain, which had been developed by the development equipment, did not receive any interference from the radio waves or skills.

It was so tiring that Beatrice was sweating, but Yu Tian did not feel anything at all.

She looked at Yu Tian in extreme shock and asked in disbelief, "Do you want to jump off the building now?"

Yu Tian's face was full of bafflement as he snorted coldly, "You want to F * cking jump off the building. Then who said that you want to take off your clothes? Take them off, or I'll help you!"

As soon as he finished speaking, Yu Tian's internal energy exploded. All of Beatrice's clothes exploded, and her graceful figure was completely displayed in front of Yu Tian.

Beatrice hurriedly covered her body and shouted in astonishment, "What are you doing? You B * Stard, Hooligan!"

Yu Tian said disdainfully, "You still dare to scold me? You Damn woman came to my office for no reason and risked your life to let me see you. You even asked me if I wanted to jump off a building? Those who don't know would think that I love you to the point of going crazy!"

“Now, I will let everyone come to my office to visit you. At the same time, I can also collect some entrance fee!”

Beatrice was so frightened that she hurriedly hid in a corner and curled up together. She shouted in fear, “No, don't be like this. Can we talk properly?”

Yu Tian directly walked around the desk and came to her. When Beatrice thought of what Johnny said, she became even more afraid. She said fearfully, “What do you want to do? Stay away from me!”

Unexpectedly, Yu Tian pulled her hair and pressed her down on the desk. He said angrily, “I don't have time to play with you. Who told you to come?”

Beatrice clenched her teeth and didn't say a word. She absolutely couldn't say it. That was the rule. Once she said it, the whole organization would die.

Seeing that she didn't say anything, Yu Tian snorted and said, “It seems that you won't listen to me unless I show you something!”

After saying that, Yu Tian took out a golden needle and suddenly stabbed it into her waist.

Suddenly, a strange itchy feeling spread throughout her body. At first, Beatrice could still endure it, but it became more and more itchy. Her skin was scratched until it was scratched, leaving streaks of blood marks. It was still itchy.

Yu Tian said coldly, “If you don't want to be tortured, answer my question immediately. Otherwise, I'll tickle you to death!”

Beatrice bit her lips until they were bleeding, but she still did not speak.

Seeing how strong she was, Yu Tian was a little surprised. She was the first person to be able to endure the torture of a golden needle.

At this moment, the window was suddenly kicked to pieces from the outside. Following that, a slim figure followed the rope and swept through the room, landing directly on the office desk. The dagger in her hand suddenly slashed toward Yu Tian.

Yu Tian raised his hand to block, and then he punched out.

Rosella had already grabbed Beatrice's arm and kicked Yu Tian's fist. Borrowing the strength, she jumped out of the window and pulled the rope, and the two of them bounced back to the roof.

Yu Tian looked out of the window and said helplessly, “Leave my golden needles!”

?Chapter 485 – Chapter 484, Mysterious Killer

Thank you readers!

When Yu Tian secretly arrived at superpower, the 108 sisters had all regained their identities. They were all in the group of sisters, expressing their admiration and shock for Yu Tian.

At the same time, they were also congratulating Chu Hui.

Yu Tian did not care about this. Tyrone had sent him a message and sold another 100 billion worth of goods.

But this time, it was a land transaction, and the location was the southern border of the superpower.

Yu Tian thought that it was time to let that Turk give him some trust.

In the evening, in a hidden cargo factory, Yu Tian looked at the ten containers in front of him and said to Turk who was behind him, “This is 100 billion worth of gold, and the location of the transaction is the southern border,

“No one knows better than you the importance of these goods. Whether or not they can be safely delivered to the location will depend on You!”

Tuk was very nervous. If news of the 100 billion gold was leaked, all the superpowers’ gangs and families would be eyeing it.

This figure was worth their lives.

He was just about to light a cigarette when Yu Tian stopped him. He took the cigarette and coldly smiled, “Smoking will make you an idiot. If you want to smoke, you should change to another cigarette. For example, a cigar is not bad.”

“The most expensive cigar in the world. I have already asked someone to put it in your backpack. You did a good job this time. Even if you smoke like an idiot, it will be enough for you to spend the rest of your life!”

Tucker was so shocked that his lips trembled.

He did not even realize that the cigar was placed in his backpack. If Yu Tian wanted to take his life, wouldn't it be easy?

He steadied his mind and said in a low voice, “The goods will definitely be delivered. I guarantee it with my life!”

Yu Tian chuckled and said, "I hope that your life is worth 100 billion. Alright, you guys can leave now!"

Tucker nodded and turned around to leave.

Yu Tian smiled indifferently. He actually hoped that this batch of goods would be discovered by the people from Lakalle. That would be even more fun.

At the same time, in a luxurious underground casino in the metropolis, an extremely sexy woman swayed her graceful waist and walked into a private room where a huge gamble was going on.

More than a dozen appropriately dressed male and female gamblers in the private room looked at the woman. All of them were deeply captivated by her sexy temperament.

One of them, a middle-aged man wearing sunglasses, smiled frivolously and said, "You're Beatrice? How Sexy. With You by my side to accompany me, Tonight will definitely be an extremely beautiful night!"

The man sitting across from him stared unblinkingly at Beatrice's eyes under the heavy makeup. His heart was surging, as if her red lips were whispering the most beautiful words into his ears.

He immediately said angrily to the man in sunglasses, "Tom, Beatrice is mine today. Don't fight with me if you don't want to Die!"

After saying that, he turned around and was about to pull Beatrice's hand. Tom spat out his cigar and took out his weapon with a bang.

The moment the man fell to the ground, not only were the people around him not afraid, they even took out their weapons and started firing at each other.

In the blink of an eye, more than a dozen people fell into a pool of blood. At this moment, Beatrice moved her sexy legs and walked in front of Tom.

Tom, who had more than a dozen holes in his body, was still looking at Beatrice with a smile.

However, Beatrice took out a dagger from under her skirt and directly dug out one of his eyes. Then, she turned around and walked out of the private room gracefully.

Two security guards who had rushed over immediately stopped her behind her.

Beatrice slowly turned around, and her gaze immediately spread out. The security guard instantly seemed to be possessed as he muttered, "Yes, miss, it's not safe here. Hurry up and leave!"

She immediately walked into the bathroom and changed into a tight black leather jacket as fast as she could. She took out a wig and put it on her head. When she left the bathroom again, she had already become a completely different person.

An hour later, in a room filled with candles, Beatrice threw the eyeballs in the bag in front of a man in a white robe who was sitting cross-legged on the ground and reciting the scriptures.

The man slowly opened his eyes and said in pain, "Beatrice, you and your sister, Rosella, have been contributing to us. While you have made the world clearer,

"But you are suffering from the god's torture. My Heart Aches!"

As soon as he finished speaking, another woman walked in behind Beatrice. The two of them looked at each other, and their cold eyes instantly became friendly.

She even bowed slightly to the man and said in a low voice, "Mr. Johnny, what orders do you have for us?"

Johnny said slowly, Rosella, Beatrice, you are the god's gift to this world. Rosella, you have the eye of Medusa. You can use your eyes to make every evil person

"Feel incomparable sorrow and destroy lives. Beatrice, you have the eye of Satan, which can confuse all living things. You have always been under God's care, fighting against evil"

"This time, you will use your identity as God's warriors to carry out a mission!

As he spoke, he placed a stack of documents under the candlelight.

Johnny said with resentment, "This person is called Yu Tian. He is the most evil person in this world. I can no longer use any malicious words to describe his evil"

He not only unscrupulously eroded the resources of the world, but also used the wealth bestowed by God to devour the lives of innocent people like a dark devil,

the riots in the metropolis these few days and the actions that caused a fatal impact on normal businesses were all personally created by him. He is a devil and has the power of a devil.,

"The decree given by the gods requires you to kill Yu Tian. If you complete this mission, you can go to Niamela and live the life you want!

The two sisters were silent. They only picked up the document and briefly read it. After that, they placed it on a candle and lit it. Then, they turned around and left the room.

After they left, Joseph walked out from another room with a cigar in his mouth.

Johnny said in a deep voice, "Now that I have done as you asked, can you let my daughter Go Home?"

However, Joseph laughed disdainfully and said, "I think what you said is ridiculous. You are just a boss of an assassin company who tricked them into helping you kill people,

"You even compare yourself to a god. In fact, you are not even as good as an ordinary person. At least they still know shame. Listen well, you can not kill Yu Tian and get what I want,

"I will let you watch your daughter die in front of you!"

Johnny was filled with hatred as he gritted his teeth.

In the blink of an eye, it was the morning of the second day. Yu Tian personally gave the order to demolish all the houses along the fifteen roads.

Chu Wen sat in his arms and smiled charmingly. "When did you demolish me too?"

Yu Tian laughed and said, "You should put on more weight first. The last time when Chu Yan gave birth to Tianba, she almost died. Train your body well and let's think about other things!"

"Oh right, how are the shopping malls that I asked you to buy?"

?Chapter 486 – Chapter 486. So They Knew A Skill

Thank you readers!

They could take whatever they wanted, but they couldn't take the golden needles. What was the point of losing one out of ten needles?

Yu Tian also jumped out of the window. They used a rope, and Yu Tian climbed up with his bare hands.

Rosella looked down and saw that Yu Tian was like Spiderman, clinging tightly to the wall. He was faster than them, and he was shocked. He grabbed the rope tightly and climbed up faster.

However, when Yu Tian passed by them, he even greeted them.

"Um, I'll wait for you guys upstairs!"

Rosella wanted to use the eye of Medusa to confuse Yu Tian, but she realized that it was useless.

Beatrice, who was hugging her tightly, reminded her in a low voice, "It's useless. This guy is not a human!"

Seeing Yu Tian climb up to the roof, Rosella gritted her teeth and immediately let go of the rope. The two of them quickly slid down.

Yu Tian, who was on the roof, looked down and said indifferently, "You have quite a lot of ideas!"

If they wanted to go up, they could go up. If they wanted to go down, they could go down. It was all up to them, right?

Yu Tian grabbed the rope and pulled it up with one hand.

Rosella, who was below, saw that Yu Tian was still pulling her up, so she quickly sped up.

However, Yu Tian's hands were not slow either. He was faster than them.

Seeing that this trick was not working, Rosella gritted her teeth and directly swung the rope. She smashed a window together with Beatrice and jumped into the office.

The man who was calling the office was so scared that he cried. Rosella then glanced at him. This guy rushed out of the window without hesitation.

Yu Tian, who was on the roof, easily took out his phone and called Chu Wen. He said calmly, "Tell security to close all the exits and find two women. One is wearing leather clothes, and the other is naked!"

Chu Wen asked in confusion, "Naked? What did you guys do?"

"Nothing. If you keep talking, those two assassins will leave!" Yu Tian directly hung up the phone.

What kind of assassins would take off their clothes to kill people? Chu Wen's face was full of disbelief. She immediately used the radio to order security.

Rosella saw the golden needle on Beatrice's forehead and wanted to pull it out. However, Beatrice stopped her, "This golden needle is very strange. Let's leave this place first!"

At this moment, Yu Tian had already arrived at the 25th floor. He just happened to see the backs of the two people rushing towards the elevator. The surrounding employees were all looking at them in shock.

The elevator had already been closed and all the passcode doors had been locked. A large number of armed security guards rushed towards the 25th floor.

Rosella held on to Beatrice. Seeing that the elevator was not working, she kicked open the passcode door on the side and prepared to take the stairs down.

When they heard the sound of chaotic footsteps coming from below, the two of them could only choose to run upstairs.

But at this time, the 27th floor's reinforced security door had been completely shut. No matter how Rosella kicked, the door still didn't budge.

At this moment, Yu Tian's voice sounded behind them.

“Can we stop being so smug? I'm not going to kill you. Is there a need to be so scared?”

Rosella pulled out her dagger and shouted angrily, “Don't come over and let us leave!”

Yu Tian leaned against the wall and said indifferently, “Do you think that's possible? You're here to assassinate the president of this company. You’re really thinking too much about leaving like this!”

At this moment, dozens of security guards rushed over. One of them immediately raised his weapon and shouted, “Put down your weapons!”

Yu Tian spread his hands and said helplessly, “See, now you don't even have the chance to speak!”

However, Lothela snorted coldly and said, “I think you can't speak!”

After saying that, Beatrice gritted her teeth and looked at the security guards.

The eyes of Satan immediately made the security guards lose their rationality.

They all aimed their weapons at Yu Tian.

Only then did Yu Tian realize that no wonder Beatrice kept asking him to look into her eyes. It turned out that her eyes had the ability to confuse people.

Could it be that they were also developers?

The moment Yu Tian frowned, the security guards shouted again.

“Damn you, tell them to leave immediately. Otherwise, we won't be polite to

This skill was really not bad. It could make a person lose their rationality in an instant.

However, they were still thinking too much if they wanted to leave this place.

Yu Tian suddenly released a burst of internal energy and sent all the security guards flying downstairs. A few of them died on the spot. The rest of them were shaken until they spat out blood and completely lost their ability to move.

Even Rosella and Beatrice were heavily pushed against the door by that powerful force.

Beatrice, whose body was already affected by the Golden Needles, also spat out a mouthful of blood and fainted on the spot.

Rosella was no better. She felt as if all the bones in her body were broken, and she was in extreme pain.

Yu Tian walked to the front of the two of them with relaxed steps. He chuckled and said indifferently, “If your companion doesn't recover immediately, she won't even be able to keep her life,

“I can let her recover right now, but my condition is for you to tell me who ordered you to assassinate her.”

Luo Cela clenched her teeth tightly and glared at Yu Tian furiously. She said coldly, “Don't even think about it. It was us sisters who wanted to kill you because you're a devil. We absolutely can't let you live!”

“Now that we're in your hands, you can do whatever you want. But don't even think about making US compromise!

Yu Tian was very appreciative. He nodded and praised, “Not bad. You guys are quite brave. Compared to those killers I've met before, you're much better”

“But I, Yu Tian, have a habit. I never kill women. In the past, I also didn't beat women. But this good habit has been broken by some women now,

“I won't kill you. You Don't have to be afraid of this!”

As he spoke, Yu Tian pulled out the golden needle from Beatrice's forehead and stabbed it into her neck. At the same time, he took out three more golden needles and stabbed them into the back of her head, heart, and abdomen.

A strange scene appeared in an instant. Beatrice suddenly opened her eyes and took two deep breaths. Then, she spat out another mouthful of black blood, which was extremely stinky.

At this moment, Rosella was very shocked. She hurriedly picked up Beatrice and asked worriedly, "Sister, how do you feel now?"

Beatrice wiped the blood from her mouth and nodded. "I feel very good now!"

As she spoke, she saw Yu Tian pull out the golden needles from her body. Only then did she know that it was Yu Tian who had saved her.

She felt very conflicted. Wasn't Yu Tian a devil? How could he possibly save her?

Lothela was also in a difficult position. She looked at Yu Tian and said in a low voice, "Thank you, but I won't be grateful to you. If there's a chance, I'll still kill you!"

Yu Tian did not say anything. He directly took off his coat and threw it on Beatrice. He said indifferently, "I won't provide you with pants and forks because I rarely wear those things,

now you can leave. You are welcome to come here to assassinate me at any time.. This way, you can also add some fun to me!"

?Chapter 487 – Chapter 487, Pretending To Be Spiderman Again

Thank you readers!

After saying this, Yu Tian turned around and left.

The two sisters looked at his back and the coat on his body. Beatrice said in a low voice, "Is he really a devil?"

Although Rosella didn't believe it in her heart, she still said coldly, "If Johnny said he was a devil, then he must be a devil. We can't doubt what Johnny said!"

"Is Kenny Johnny Right?" Beatrice stood up and asked while putting on her coat.

Rosella didn't know how to answer this question. They had been by Johnny's side since they knew that they had special skills.

In Johnny's words, they were angels that suppressed evil. In the past ten years, they had used their special skills to kill many evil demons.

However, this world was still as dark as before. It was as if they had not changed the world at all.

However, Johnny's promise to them had never been fulfilled.

They had just left the company when Yu Tian quietly followed behind them.

However, Johnny's promise to them had never been fulfilled.

They had just left the company when Yu Tian quietly followed behind them.

Yu Tian felt that the sisters did not seem like developers because developers would never be assassins. They preferred to use their skills to fill their own pockets.

The two of them seemed to have a belief. No matter how much he tortured them, they would never reveal the identity of the boss behind the scenes.

He could only follow behind them. He believed that he would soon know the identity of the boss.

The two of them arrived at a very hidden residence. There was not even a staircase.

With good skills, they dragged the rope and climbed into a room. Then, they closed the curtains and pulled the rope back.

Yu Tian shook his head helplessly. He should have left a rope for himself. He still had to become spider-man.

Fortunately, his fingers were hard.

He silently climbed out of the window. The two sisters seemed to be cooking canned food.

At this moment, Beatrice said in a low voice while eating, "Our assassination mission failed. What should we tell Johnny?"

Rosella sighed, slowly, she said, "From the first mission until now, we have never failed. Our skills are useful to everyone, but they are useless in front of Yu Tian,

"I think Johnny will not believe this reason, and our honor in the assassin division will be gone along with this failed mission,

"You know, Johnny is a very cold person. If an assassin fails, he will personally kill all of them!"

Beatrice threw the empty can on the ground and said coldly, "I'm not afraid of Johnny. I don't believe in him and I'm not afraid of My Satan's eye. But I don't want to lose our honor either,

[a€?My idea is that if there's a chance, I will continue to assassinate Yu Tian. I don't believe that I can't kill him. This person must die!a€?

Lothela said inexplicably, a€?Sister, what are you thinking? You are no match for

Yu Tian. Even if the two of US join hands, it is impossible to kill him.a€?

a€?You are not so excited about other missions. W

T

hat is wrong with you this time?a€?

Speaking of this, Beatrice said furiously, a€?This bastard looked at my body. If I don't kill him, how will I face others in the future? If I let him live, do you want me to marry him?

a€?I won't like a devil, and I Won't talk to a devil!

Yu Tian, who was outside the window, twitched his mouth. He was really helpless.

Beatrice, that little girl, actually fell in love with him. Was there a mistake?

And who was that Johnny? It was said that he should be their boss, and he seemed to be a very powerful and cruel person.

Thinking about how these two sisters were used as assassins and had to constantly be on guard against being killed by others, it was no wonder that they lived here.

However, at this moment, Yu Tian's phone suddenly rang.

Yu Tian was so angry that he grinned. It was not a good time to call, but it had to be at this time. Originally, he had wanted to sneak a peek at the two girls taking a shower. Now, this beautiful plan was unlikely to come true.

When Rosella heard the sound of the phone, she immediately took out a dagger and stabbed it out of the window through the curtain.

Yu Tian immediately used his elbow to block it and directly jumped into the house.

Seeing that it was Yu Tian again, the two sisters immediately wanted to take their weapons, but one day, they made a gesture to keep them quiet and then said indifferently, a€?Don't be smug. Let me answer the phone first!

Then, the phone was picked up. It was a call from Tucker.

This guy panted and said, "Boss, our goods were robbed. We were about to approach the southern border when a group of armed men suddenly appeared.

They robbed all the goods and even killed our people!"

"I was also injured and barely left that place. I'm sorry, Boss. It's My Fault!"

Yu Tian did not take it to heart at all. He said indifferently, "It's not your fault. Find a place to treat your injuries first. I'll go there personally very soon. We'll talk about it when we meet!"

After hanging up the phone, Yu Tian said to the two sisters, "Your boss is called Johnny. What kind of person is he? Since we've fought a few battles, why don't we sit down and talk about this person calmly?"

Rosella held the dagger tightly and said coldly, "Don't think about it. We won't provide you with any information!"

Yu Tian knew that they would say that, so he smiled and said, "Then you're a little stupid. In fact, I understand that you've always treated me as a devil.

"In fact, sometimes I do look like a devil, but most of the time I'm an angel. The reason you say that is because you don't understand me. After you understand me, You'll think that I'm a very good person,

"When that time comes, do you think that the Johnny You're talking about is really for your own good? You two idiots, think carefully. If he's really for your own good,

"How could he let you be an assassin? Moreover, he wants to kill a person you can't kill. In fact, he just wants to use my hand to kill you!"

Beatrice furrowed her brows tightly. She felt that Yu Tian's words made sense. It was impossible for Johnny not to know how difficult this mission was.

However, she still sent them to their deaths. wasn't she trying to cut off Yu Tian's hand to kill them?

However, Lothela did not think so. She took a step forward and said, "You're talking nonsense. John, you would never do that. We are his most powerful assassins. We have been helping him to achieve his goal,

"How could he be like you said, wanting to use you to kill us? Now, you can either leave this place or fight us.. We sisters will fight you to the death today!

?Chapter 488 – Chapter 488, Very Professional

Thank you readers!

Under Yu Tian's persuasion, the two sisters clearly had a difference of opinion.

Rosella firmly believed that Johnny would not do this, but Beatrice grabbed her arm and said in a low voice, "I think what Yu Tian said makes sense. We have done enough for Johnny

"He always says that others are devils, but he always asks us to kill people. If we are really the angels he says, then why are our hands stained with so much blood?"

He had previously said that he did not like Yu Tian, but now he was actually speaking up for Yu Tian.

Rosella was very shocked and said, "Beatrice, are you crazy? He is a devil, how can you stand on his side and speak?"

"I am standing on my own side, he just said the words from my heart!" Beatrice said very firmly, "Actually, my heart has long suspected Johnny,

"This is also an opportunity for us. In short, I don't want to kill for him anymore. I Don't care how you choose me. I want to be myself for real!"

Before Rosella could say anything, Yu Tian clapped his hands in agreement and said with a smile, "I'm very supportive of your idea. There's nothing better than living for yourself.

"Everyone has a dream, right?" "I believe that you have a dream too. Why

Don't you tell me about it and see if I can make this dream come true for you!"

The sisters were still a little green. Yu Tian was slowly trying to get them to say something. The sisters did not sense it and even let down their guard.

Beatrice said, "We've always wanted to go to the United States of America and live the rest of our lives on the warm beach. It's a pity that our dream from ten years ago has not come true yet!

As Yu Tian listened, he took out a can from the box and said while eating, "Actually, you should eat better things instead of hiding here and eating garbage all day long,

"Then, you can dream of using your so-called identity as angels to save the world. I Why Don't you ask Johnny when he plans to let you go to the United

Sta

Rosella said coldly, "He said that as long as we kill you, we can realize our dream!

Yu Tian laughed and said, "Yes, he knows that you can't kill me, so your dream will never be realized. But I can let you realize your dream"

"I can send you to Nimela now, and I will give you money that you will never be able to spend in your lifetime. Why Don't you ask Johnny, can he do it?"

Beatrice really took it seriously and asked in disbelief, "Are you really willing to help us realize our dreams?"

Yu Tian smiled indifferently and said, "Do you even need to say that? I have already seen all of your bodies. I will treat it as investing in my woman's dreams. However, before that, you have to think carefully.., before that boss Johnny, can you all enjoy the rest of your lives so leisurely?" Hearing these words, they were indeed pulled back from their enthusiasm.

Johnny could not allow himself to enjoy the good times to his heart's content. If he failed to assassinate Yu Tian, or if he really wanted to take Yu Tian's hand and kill them, but they were still alive, Johnny would continue to assassinate them.

Seeing the hesitation on the two sisters' faces, Yu Tian chuckled and said, "Why don't I Help You Kill Him? As long as you tell me where he is, you can do it right now. You Don't have to think about anything and go directly to Niamela to enjoy the sunlight!"

Lothela was still a little hesitant, but Beatrice did not hesitate at all. She said bluntly, "The place where he is hiding is very secret. Every time we carry out a mission, we will change the place where we meet,

"But we know where his home is?" "That's what I discovered when I followed him that time. You can go to his home!"

One day, he nodded his head in satisfaction. He had already told him about Johnny's information, so there was no need for him to waste so much time here.

He immediately took out a bank card and threw it to the two sisters. Then, he said, "There are 50 million world coins here. It's enough for the two of you to spend a few lifetimes. Go to nimela, and never come back here again, because this place will soon become a battlefield!

There was nothing more to say. Yu Tian turned around and jumped out of the window.

Beatrice wanted to call him, but her figure had already disappeared. She swallowed the words that she wanted to say.

Losella did not have anything else to say. She only reminded him, "Let's pack up now. Before Johnny realizes that the assassination has failed, let's leave this place quickly!"

Yu Tian didn't go to Johnny directly. Instead, he went to a bar and ordered a glass of red wine. He started to think carefully.

Johnny had no grudges against him. He wouldn't go against him in the name of eliminating the demons.

This so-called belief was just an excuse for him to amass money. It wasn't worth mentioning.

There must be someone else behind Johnny. If he guessed correctly, it must be someone from PBG.

Only they had the leisure to look for people with superpowers all over the world.

This was nothing to be afraid of. As long as they killed Johnny and his assassin organization, as well as the boss behind him, they would be able to solve the problem.

However, he could not lose his 100 billion worth of goods just like that.

He immediately called Tucker.

The call was connected. Yu Tian smiled indifferently and said, "Previously, I was playing something else with the two ladies, so it was not convenient to talk. Now, tell me in detail, how did those goods get snatched away?"

Tucker slowly said, "We are still ten kilometers away from the trading location. The surrounding area is full of forests. I even specially reminded the team to slow down, but they were still hijacked by those militants."

During the process of fighting with them, I discovered that these militants were well-trained. Moreover, their tactical arrangements were especially meticulous and swift. Without a certain level of combat skills, it was impossible to do it..

I suspected that they were mercenaries from other countries, and they should be super mercenaries. This made me think of a question. How did they know about our secret deal?

From the way they attacked us, they should have rehearsed many times before, and they were especially familiar with this deal. Otherwise, they wouldn't have appeared at that location!"

Yu Tian nodded and said in a low voice, "If you can still move now, go around and gather some information. See if you can find any information about them. I will arrive at Your Location Tomorrow Night!"

"Okay, boss. I will go right now!" Tucker agreed and immediately hung up the phone.

Yu Tian drank the wine in one gulp. It was time for him to do something serious..

?Chapter 489 – Chapter 489, A Secret

Thank you readers!

An hour later, Yu Tian arrived at the vicinity of Johnny's residence.

This place was also a quiet place. Under the dim yellow streetlights, the ground was covered with fallen leaves, adding a touch of romance to it.

Johnny's villa was like a wooden house in a fairy tale.

But who would have thought that such a beautiful place would have a boss of an assassin group living in it.

It was precisely because of this that Yu Tian did not rashly enter the house.

This was because the aura around him felt extremely strange.

The boss of such a prestigious assassin group did not even have a single bodyguard living in his place. If it was because he did not want his identity to be known by others, it would be reasonable.

However, the figures moving around the house did not look like people who did not have bodyguards.

That was strange. Although the wooden house looked romantic, it was not very big. How many people could fit in it?

However, if that was the case, there seemed to be a lot of people in the house. Could it be that the bodyguards were afraid of the cold? All of them squeezed into the house to live with them?

Then this Johnny was a little too unusual.

Thinking of this, Yu Tian silently approached the wooden house and leaned against the window to listen carefully.

It just so happened that there was a voice in the house, and this voice was very familiar. Wasn't that Joseph Talking?

His thoughts were indeed correct. It was Joseph who was playing tricks behind the scenes.

Yu Tian looked around and found that the place was indeed very quiet. Not even a shadow could be seen.

This also provided him with an opportunity. It was time for Joseph to hand his life over to him.

Joseph said proudly and arrogantly, "If we could kill Yu Tian, we wouldn't let you do this job. The developer and we wouldn't be able to do anything to Yu Tian..

Therefore, we could only let your nature developer do this task. However, it was already night. Why didn't your people send a message back?"

Johnny paused for a moment before slowly saying, "They are my best assassins. They will definitely not fail. I know that Yu Tian is also an expert. This mission is very special to them."

"It might take a long time. They have already gone to carry out this mission, haven't they?" "Why do you still want to use my family to blackmail me?"

"That's because I am the person who wants Yu Tian to die the most in this world!" "Joseph said gloomily, "In order to achieve this goal, I will do whatever it takes and do whatever it takes..,

"If your subordinates can't kill Yu Tian, then you have to die with them!"

Hearing this, Yu Tian felt especially funny in his heart.

Joseph really dared to think that he could randomly find two women and think of killing him. He didn't even think about how many assassins had tried to kill him in the past, but weren't they the ones who died in the end?

This time, there were two women. He didn't kill them. If it was anyone else, they would have disappeared long ago.

In that case, he didn't need to listen outside the window.

Yu Tian went to the door and knocked lightly on the wooden door.

The person who opened the door was a man in black. Seeing that it was Yu Tian, he turned around and wanted to shout.

However, Yu Tian did not give him a chance. He circled around his neck.

A cracking sound came from the neck of the man in black and he immediately stopped breathing.

Yu Tian walked into the house. A few men in black who were drinking in the living room stood up and were about to take out their weapons.

At the same time, Yu Tian's golden needles flew out of his hands and pierced through the necks of these people.

Joseph and Johnny, who heard the sound, also rushed into the living room.

The moment they saw Yu Tian, Joseph's face was filled with disgust.

As expected, the assassination had failed. Moreover, Yu Tian had come here. This meant that he already had all the information.

It was impossible for him not to be afraid. From Yu Tian's cold eyes, Joseph could feel a strong killing intent.

Johnny, who was standing behind him, was even more surprised.

The two sisters had never failed, but they were killed by Yu Tian this time.

Looking at the dead men in black on the ground, Johnny narrowed his eyes slightly.

The most important thing now was to protect himself and his family.

Thinking of this, Johnny hurriedly raised his hands and said loudly, "Yu Tian, it was Joseph who asked me to do this. He wanted to kill people and even used my family to threaten me. All of this has nothing to do with me!"

Yu Tian touched his chin and said indifferently, "You don't have to explain. I know that this is not what you want to do, so you can live!"

However, Joseph fiercely looked at Johnny. How could he live? Even if he died, he would drag someone down with him.

Thinking of this, he suddenly took out his weapon and pointed it at Johnny's forehead.

Johnny didn't even make a sound, and his brain exploded.

He turned around and aimed at Yu Tian again.

The moment the sound was heard, Yu Tian suddenly frowned and activated his mind.

The bullet directly turned into dust under his mind and disappeared into the air.

Joseph also knew that the weapon couldn't hurt Yu Tian at all, so he simply threw it on the ground and said in a pleading tone, "Yu Tian, I know you hate me very much. If you had a choice"

"I won't be your enemy. On the contrary, I would like to sit down and have a drink with you. But I joined PBG. This is my destiny. If you want to kill me, you can do it"

"I won't even blink. Because on the day I became your enemy, I had already made up my mind!"

Yu Tian did not want to listen to his nonsense at all. He said coldly, "What I hate the most is your nonsense. You always think that this is your destiny, but how many people have sacrificed their lives for your destiny?"

"I'm just a person that you can't even take away your life. That's why you're saying these things now. I Don't care about your life, but I can take it away"

As he finished speaking, Yu Tian directly grabbed Joseph's neck.

In the face of death, Joseph was still afraid. He wanted to struggle, but he could not break free from Yu Tian's hand. He could only plead, "Yu Tian, if you kill me, there will still be more people from PBG who want to kill you"

"If you let me live, I can help you. How about we make a deal? I'll tell you a secret. Don't Take My Life!"

Yu Tian frowned slightly and loosened his hand. He said arrogantly, "What

Secret? You have to let me see if he has the value to exchange for your life!"

Joseph said nervously and fearfully, "It's the second-generation development instrument in your hands. The third-generation development instrument needs the power generation equipment of this instrument in your hands"

If you have the power generation equipment, the third-generation instrument can directly become the fifth-generation instrument.. At that time, it can produce developers with geometric figures!

?Chapter 490 – Chapter 490, Worthless

Thank you readers!

This was indeed a secret. It turned out that those second-generation developers were willing to die for this.

If it wasn't for Joseph's words, they would have thought that they were here to avenge Kellogg.

Joseph saw a hint of hesitation in Yu Tian's eyes and hurriedly said, "The value of this intelligence is enough to pay back my life, right? Moreover, I helped you kill Kellogg's successor,

"This way, you save a lot of time. Yu Tian, actually, we can completely cooperate. You have the support of the world's most powerful family, and I have the world's best intelligence agency,

"If we work together, who else in this world will be our opponent?"

When Yu Tian heard this, he smiled indifferently and said, "What you said is very reasonable, but my dream is not that big. I have never considered cooperating with a character like you,

therefore, this secret of yours is of no value to me!"

Before Joseph could speak, Yu Tian exerted force with his hand and directly broke Joseph's neck.

Looking at Joseph's pained expression, Yu Tian only snorted coldly.

Why did he want to work with him? It would be great if he was the boss.

No one in the world would negotiate with him. Whoever negotiated with him would die.

There was only one person who had the final say, and that person was Yu Tian.

Yu Tian felt especially good after getting rid of Joseph. In fact, he should have killed him a long time ago.

However, he was still a little soft-hearted.

Since the action was Joseph, it was completely insignificant to PBG. There would be more Joseph appearing in the future.

But who cared about this? They would kill anyone who came. There would always be a time to kill them all.

When Yu Tian left the wooden house, Tyrone called.

He asked in puzzlement, "Mr. Yu, why hasn't the goods we want been delivered? The seller is about to lose his patience!"

Yu Tian narrowed his eyes slightly. This guy said it nicely, but no one knew what he was thinking.

He chuckled and said coldly, "The goods may not arrive. They were snatched by a group of armed men ten kilometers away from you. They even killed my men!"

"What?"

Tai Long said in extreme shock, "Is what you said true? who has the guts to snatch your goods?"

From his shock, Yu Tian was even more confused.

From his tone, Tai Long was not faking it. If he was faking it, why would his throat quiver? It was a completely terrified feeling.

Yu Tian laughed out loud and said very casually, "If they knew that this was our goods, do you think they would still have the guts to come and snatch it?" On the other side of the phone, Tyrone gritted his teeth fiercely. He already had a rough idea of what was going on in his heart. He also pretended to laugh in a relaxed manner and said, "What you said is very right. If they knew, they would not have done this!"

"But that's not a big deal. I'll help you contact other buyers!"

They had already been robbed to such an extent. Why would they contact other buyers? This was clearly nonsense.

However, Yu Tian also understood the meaning behind Tai Long's words. He said in a low voice, "Alright, then you can go find the buyers now. We'll talk about it later!"

After hanging up the phone, Tai Long turned around and said helplessly to a man with a fierce expression, "Claire, his goods have been robbed. This transaction can not be carried out. I'll help you contact him again later. If he still wants to continue with the shipment, I will tell you immediately!" Claire laughed shamelessly and said with a strange tone, "Dear Mr. Tyrone, this is not the first time we have made a deal. You have never stood me up!"

"I remember that time when we were in the pirate country, when we only needed a diamond, hundreds of pirates surrounded us. In the end, only the two of us left alive. Do you think that you are lucky enough?"

Tyrone sneered and said gloomily, "Of course it's not because I'm lucky. It's because I have you by my side to protect me. That's why I'm able to stand here!"

“This is a relationship that we have built up over many years. Therefore, I have to say that there are some people in this world that can be provoked, and some people are best not to be provoked.”

“Once you provoke this person, everything he does will be earth-shattering. No one can survive under his hands. Even if there are thousands of pirates, they will only be destroyed in the blink of an eye.”

“Since the transaction can not proceed, I should leave now!”

After saying that, Tyrone turned around and walked out of the transaction point with his bodyguards.

One of Claire's subordinates immediately raised his weapon and aimed at Tyrone's head.

Just as he was about to open fire, Claire stopped him.

The subordinate looked at Claire in confusion and asked in a low voice, “Let him leave. Yu Tian will definitely know who stole his goods!”

“Yu Tian is not scary!” Clare said disdainfully, “He is just a rich man. He must have bought this piece of gold from someone else. What is there to be afraid of as a businessman?”

“But Tyrone is the biggest arms dealer in this country. I want to carry out my plan. I still need to rely on him now. Wait until I turn that 100 billion gold into money, recruit soldiers, and become stronger.”

“When the time comes, we can still kill him!”

Tyrone's subordinate also said in a low voice, “Mr. Tyrone, no one else knows about this transaction. It must be Claire who did it!”

Tyrone suddenly stopped and turned to look at the forest. He said fiercely, “For the sake of 100 billion, he even sacrificed his own life. No one can stop him. Yu Tian is coming soon.”

“When the time comes, Clare will know how terrible the consequences of provoking the devil are!”

After saying that, he immediately called Yu Tian.

“Mr. Yu, I’m sorry. I was the one who introduced Clare to you. I was especially angry when he stole your goods. However, this border area is his territory. Here, he has more than a thousand subordinates.”

“And they are all prepared with the most advanced weapons. Even the Super Defense Department can't do anything to him. He has always wanted to buy an attack program. In short, he is a Madman!

Yu Tian did not take it to heart. Madman? He was even crazier than a madman.

He smiled indifferently and said, “Send me his stronghold, and then you can continue to do other business!”

In the blink of an eye, it was noon the next day, and Yu Tian was already standing in front of Hatka city in the southern border area.

Yu Tian walked towards the center of the city while reading the encyclopedia's introduction.

Hatka was the southernmost city of the superpower, at the edge of the desert. Because it was constantly invaded by bandits, most people moved to other cities, leaving behind only some farmers, most of the city had been abandoned.

Yu Tian met Tuk in a small hotel.

Seeing that he was seriously injured, Yu Tian chuckled and said, “Next time, if you feel that you can't beat him, you can run away. Look at how you're getting beaten up.. Does it hurt?”

I Have 108 Older Sisters #Chapter 491 - Read I Have 108 Older Sisters Chapter 491

?Chapter 491 – Chapter 491, For You

Thank you readers!

Tucker didn't care about the pain at all. He said slowly, “I've always been a dog under Raqqa. I just want to stand out one day and trample Raqqa under my feet. This is my chance!”

“But I was ruined by those damn bandits. I Can't wait to tear them apart!”

Yu Tian laughed and threw a can of beer to Tucker. He said indifferently, “You'll trample him under your feet. Don't mind being robbed this time. In fact, I already knew that I would be robbed. I did it on purpose!”

Tuke suddenly looked at Yu Tian as if he was looking at a whirlpool in the sea. It was unfathomable.

He asked doubtfully, "Boss, since you knew that you would be robbed, why did you ask me to make a deal with them?"

"It was because I asked you to make the deal that they made a move. If it were me, they wouldn't even have the chance to rob me!" Yu Tian said with a smile.

Tucker felt that Yu Tian was too deep. He couldn't understand his thoughts at all.

Yu Tian drank a mouthful of beer and stood up. "After the metropolis, go look for Chu Wen. She will arrange other tasks for you. There is trust between you and me. I will also put you in an important position. Leave the rest to me!"

"I can stay and help you!" Tucker felt that he couldn't go back at this time. He also had to take revenge.

"No Need!" Yu Tian shook his head and said indifferently, "I can play by myself!"

At the same time, in the jungle camp on the outskirts of Hatka.

Hundreds of fully armed people surrounded a container and shouted loudly.

Clare opened the door of a container. Countless gold bricks shone under the light.

Everyone held their breaths in excitement.

Clare picked up a gold brick. He was more excited than anyone else.

He raised the gold brick and shouted to everyone, "100 billion world dollars worth of gold bricks. We can buy the best weapons in the world, let the best mercenaries work for us, and even buy super firearms,

from now on, we are no longer bandits without a home. We can buy any country!"

At such an exciting moment, everyone cheered excitedly. Some even opened fire at the sky.

Claire threw the gold bricks back into the container and ordered coldly, "Hide these gold bricks first. When the buyers arrive, we will immediately trade!"

The door of an underground bunker slowly opened. Ten containers entered one after another.

When the door slowly closed, Clare immediately made a call.

“Mr. Hans, we can trade at any time. I accept cash, checks, and even the long-range weapons in your hands!

At that moment, Yu Tian slowly put down the binoculars, his heart especially excited.

After killing them, his strength could more or less increase, but he was afraid that these people would not be able to resist.

Thinking of this, Yu Tian's figure disappeared into the dark forest in an instant.

Claire had made a deal with the buyer. Just as she was in high spirits and wanted to go back to the tent to have a drink, one of her subordinates ran over nervously and said, “Mr. Claire, the people we were guarding outside the camp have all disappeared!

suddenly frowned. Could it be that someone had launched an attack on them?

He immediately ordered, “Get someone to check the surroundings. Set up a defense and disguise the entrance of the underground bunker!

Soon, two teams of fifty people walked towards the forest from two directions.

Clare returned to the tent and immediately called a mysterious person. He asked in a low voice, “Did the superpowers send a special attacker?”

The mysterious person said in a low voice, “I didn't receive any news about this. Right now, we are busy dealing with the chaotic economic order. We are not in the mood to deal with you. It must be someone else!

After saying that, she hung up the phone and drank a mouthful of strong wine coldly. She was puzzled. Who could have launched an attack on them? Moreover, it was done so professionally. Without a sound, more than a dozen people were killed.

No matter what, her subordinates were all people with fighting strength. There was no reason for them to be killed so quickly.

At this moment, her subordinate directly rushed into the tent. His face was covered in cold sweat and fear as he said, “Mr. Clare, the people of the two teams were all killed!”

The wine cup in Clare's hand cracked and fell to the ground, shattering into pieces.

“This is impossible. A hundred people, could they have all been killed? Did they see a Ghost?” Clare growled.

The subordinate gulped and said in shock, “Even if they were ghosts, they can't be so powerful, right?”

Clare gritted his teeth and said gloomily, "Whether they are human or ghosts, tell everyone to go outside and kill him!"

The subordinate originally wanted to suggest retreating into the bunker. Even if he died, he would die with the gold. However, Clare seemed to have lost his rationality. If he said anything, he would definitely kill him.

After the tent quieted down, Clare immediately began to stuff the important things into her backpack. There was still time now, so she could take the gold and leave this place first.

However, at this moment, a voice suddenly sounded from behind, "The wine is not bad. Why didn't you say that you would treat me to a drink?"

Clare's reaction was also quick. She took out her weapon and suddenly turned around to face Yu Tian. She said fiercely, "Who are you?"

"Yu Tian, the owner of that gold!" Yu Tian calmly picked up a clean cup and poured a glass of wine.

"Did you kill all my continued to ask.

Yu Tian drank a mouthful of wine. This wine smelled better than the toy, but it was really fucking disgusting.

He grimaced and said, "You can drink this than the toy. Even washing my feet finds it spicy. You'd better put away the firearm in your hand. If I want to kill you, you won't even have the chance to speak!"

Claire didn't want to hear this. He didn't want to kill her, but it didn't mean that she didn't want to kill him. Now was the best opportunity.

So, he opened fire without hesitation.

The bullet shot out quickly in the curtain of fire, but it suddenly disappeared into the air.

Claire's face turned cold. She wanted to open fire. Yu Tian didn't give her any chance. He went up and punched that guy to the ground.

It was impossible to talk to him properly. He had to be beaten up. What a cheap guy.

Claire, whose nose and mouth were bleeding, felt her head buzzing. She could not get up even if she wanted to. She panted and said, "What do you want?"

Yu Tian snorted and said indifferently, "You asked me earlier. Why did you take this hit? When it was time to talk nonsense, you did not say a word. I will not waste time with you. I can give you the 100 billion gold!"

Clare was very surprised. Did she hear wrongly?

Yu Tian said, "Yes, you didn't hear wrongly. I said that I would give it to you, but I have a request.. However, my request is also something that you like!"

?Chapter 492 – Chapter 492, Was It A Robot

Thank you readers!

Clare finally sat up in excitement and asked in disbelief, "What do you want? And why should I agree to it?"

Yu Tian said disdainfully, "Actually, I already knew that this batch of goods would be snatched away by you, and I was just thinking of doing the same. What I want is not gold, nor money. What I want is a strong opponent!"

At first, I thought that you guys would bring me some fun, but I realized that you guys are just a bunch of idiots. There's no way you can bring me any excitement,

however, you guys are still useful to me. I can give you my goods for free. You guys can go and buy weapons, eat, drink, and have fun. You can even go and buy diapers and flashlights,

"I just want you to launch all kinds of attacks against the Super Management Department. You have no choice. Only by following my orders can you have a chance of survival. Do you understand what I mean?"

Claire narrowed her eyes. This request was indeed what she liked, and she had been doing it all along. If she had this money, she would do even better.

Most importantly, Yu Tian was too powerful. He was so powerful that it made her feel a chill in her heart.

Thinking of this, Claire nodded and said, "Alright, I agree to your request. However, I also have a condition. I will help you attack the management department. When the management department is completely disintegrated, I will need to control one-third of the Territory!"

Yu Tian did not even think about it and directly agreed. Not to mention one-third, even giving it to him was fine as long as he had the life to withstand it.

The deal was done. Yu Tian nodded his head in satisfaction and said in disdain, "Your wine is terrible. Go to the metropolis when you have time. I will treat you to some good wine!"

Before he finished speaking, an extremely muscular man suddenly barged into the tent. Yu Tian could feel an extremely hot aura coming from him. This fellow was definitely an expert.

The muscular man stared straight at Yu Tian. His vicious eyes were filled with provocation.

Clare frowned and said, "Kane, I don't need you here. Get Out!"

Kane obviously did not take Clare's order seriously. There was only one thought in his mind, and that was to kill Yu Tian.

And Yu Tian had not met such a strong opponent for a long time. This was definitely a good opportunity worth cherishing.

He raised his hand and gestured to Clare. "Don't worry about it. Let him pretend as much as he wants. I like it!"

As soon as he finished speaking, Kane slammed into Yu Tian like a wild beast, causing the ground to tremble.

Yu Tian wanted to see how strong Kane was, so he directly used his body to push Kane back

The moment the two of them collided, Yu Tian felt as if he had crashed into a wall. This fellow's strength was extremely great, and he was even unable to withstand it.

Kane let out an angry roar and continued to crash into Yu Tian.

Yu Tian was knocked out of the tent by Kane. Both of his arms were numb. He looked at Kane and didn't feel anything. Yu Tian suspected that Kane was made by a machine?

The mercenaries in the camp immediately raised their weapons to surround Yu Tian. Kane didn't want the battle that belonged to him to be ruined. He picked up the two mercenaries and threw them a few meters away.

At this moment, Clare also limped out of the tent and shouted, "Get out of the way! Don't bother about them!"

The mercenaries retreated one after another. Kane simply took off his coat.

Yu Tian looked at the tight muscles on his body. He was really good at acting. It was a pity that his body only looked good in clothes. The only muscle that could expand was just that one piece.

As he was thinking, Kane bumped into him again. He raised two arms that were like tree trunks and smashed them on his head.

This guy was powerful, but his movements seemed to be particularly slow. When he raised his hand, Yu Tian saw an opportunity and threw a punch at his neck. First, it interfered with his breathing and weakened his breath. Then, it would be easier to fight him later.

However, Kane only took a step back. Not only did his breathing not become chaotic, it became even more violent.

While Yu Tian was still in shock, he was knocked back more than five meters. His heart was burning with pain, and his internal organs were churning.

He could not help but say in shock, "Is he f * cking human? I've never met someone who can take a beating like this. Even the most powerful expert would not be able to take a punch from me, but he did not feel anything!"

"Could it be that there are cultivators in the Western World?" "If that's the case, his strength is even higher than mine. I still have to deal with him carefully!"

The surrounding people began to cheer for Kane.

"Kane, kill him!"

"Don't hesitate anymore. This guy deserves to die. Crush him like a Bug!"

"Kane, I'll find you a woman later!"

At this moment, Kane had completely exploded. Like an erupting volcano, he shouted with a red face and thick neck, "Yu Tian, I'm going to kill you!"

Even Claire could not stop him now. Even if he could, he would not do so.

If Kane could really kill Yu Tian, that would be even better. It would save him from having to follow his orders.

Yu Tian used his internal energy to stabilize the pain in his body. Instead, he became even more excited.

He had been looking for such an opponent all this time. Today, he had finally gained something. This 100 billion was worth it.

However, everyone had a weakness. Kane seemed to be very strong. It would be useless to fight him head-on. He had to use his agility to defeat him.

The nameless technique did not have any tricks to begin with. After practicing it for so long, he had not realized anything.

The main reason was that he hadn't met any opponents. Today was his chance.

At this moment, Kane took large strides and rushed forward again. The muscles on his body trembled up and down as he ran.

Yu Tian narrowed his eyes. Those muscles were filled with strength and also possessed extremely powerful defensive abilities. It was useless to fight against them. It was just a waste of strength.

Kane's large fist swung forward as he spoke.

Yu Tian did not care about these things. His nimble footwork could shake him to death, but it could not knock him down. He could not let him collapse. At this moment, Yu Tian suddenly saw the muscles on Kane's shoulder tighten and relax as he swung.

When they relaxed, it was a good opportunity to attack

Seeing this opportunity, Yu Tian suddenly erupted with a punch. Just as Kane relaxed his muscles, it landed heavily on his shoulder.

With a crisp cracking sound, Kane's shoulder was smashed into pieces.

Just as Kane staggered, Yu Tian used his own body to slam into Kane's body. Kane did not have the strength to defend himself, so he was sent flying.

The entire stadium was shocked, and everyone widened their eyes in shock

Yu Tian smugly clapped his hands and said arrogantly, "That's all. Claire, do you still have an expert like him under you? Call all of you to come and play with me!"

Claire looked at Yu Tian with her eyes wide open. Even Claire, who was nicknamed the Devil, was no match for him.. Who else could be his match?

?Chapter 493 – Chapter 493, Monster

Thank you readers!

Before Yu Tian could be satisfied, Kane suddenly stood up. There was no expression of pain on his face as he continued to stare at him.

Yu Tian frowned slightly. This guy can't die? His shoulder had been shattered by him. It was fine that he didn't feel any pain, but it looked like he could still fight with him.

Kane's originally expressionless face became more and more angry. It seemed that the more angry he was, the more powerful his power would be.

In that case, Yu Tian wanted to see if this guy could die?

The moment Kane rushed over, Yu Tian's eyes exploded with a strong killing intent. All the power that erupted from his body gathered at his knees and directly jumped onto Kane's face.

With a crisp crack, Kane's skull immediately shattered. Even his eyeballs fell out and he fell to the ground.

Yu Tian, who had landed steadily, felt his entire body's aura fluctuate, like a furious wave.

Yu Tian did not have time to see how badly Kane had been beaten by him. He had to first stabilize his aura, or else the hundreds of heartbeats every minute would cause his blood vessels to explode.

However, just as his breathing calmed down, he heard a wave of exclamations around him.

He suddenly turned around. His skull was shattered. Kane, whose eyeballs were hanging, actually stood up again. His facial features that had exploded looked extremely terrifying.

“What the F * Ck is this thing? Why Can't I Kill Him?”

Claire felt that something was not right. His brain had exploded, but he could still continue to fight. Was he a human or a monster?

In this situation, he did not care who Yu Tian was. If he could not kill Kane, he would die.

He immediately ordered his subordinates to open fire and destroy the monster.

Yu Tian also wanted to see what this monster was?

The bullets were like rain as they passed through the monster's body. The force caused his body to sway left and right. His eyeballs moved, but he did not fall down.

Clare's face was filled with shock as she shouted, “Use the rocket launcher!”

However, Yu Tian stopped her and said, "There's no need. All of you, step back. I want to see just what this monster is."

Based on his past experience, this monster was definitely created, and it seemed to be especially targeted at him.

He was almost shot into a sieve by the bullets, but the monster's eye sockets were still staring at him.

Yu Tian snorted coldly and went directly to the front of the monster. The strength that had just calmed down erupted once again. He kicked the monster's leg and broke its limbs. The monster was actually still breathing.

Claire also came over and said in astonishment, "Kane has been with me for half a year. He's usually no different from a normal person. He even goes to the city to look for women, but how can he be a monster?"

With Yu Tian's intelligence, he could understand it with a little thought.

He said coldly, "He should be a spy sent by someone to be by your side. But because of my appearance, his target changed instantly. Alright, he's mine now. You just have to remember our deal,

everything else will be treated as if nothing has happened. Do you understand?"

Claire had seen Yu Tian's strength. How could she dare to say no now?

Yu Tian immediately called Chu Xuan and asked her to rush to Hatka immediately.

Chu Xuan was a genius in medicine. She would definitely be able to analyze what this monster was.

In the blink of an eye, it was noon the next day. Chu Xuan came to the camp under the escort of a few bodyguards. When she saw Yu Tian in the tent, she immediately asked, "Where is the monster you mentioned?"

Yu Tian chuckled and said, "%XII you know is to ask the monster and not say that you miss me. It's meaningless!"

Chu Xuan laughed and said as if he was coaxing a child, "Alright, my dear, I miss you. I'll Kiss You!"

After saying that, Chu Xuan kissed Yu Tian on the cheek. Only then did Yu Tian Grin in satisfaction and said, "That's more like it. Follow Me!"

The two of them went to another tent. Chu Xuan finally saw the monster.

After a few simple glances, Chu Xuan immediately took out professional equipment and said in surprise, "It's unbelievable that he can still live like this!"

Yu Tian said indifferently, "Who said so? This guy can even take a shit and shout that he wants to find a woman!"

Chu Xuan didn't know whether to laugh or cry and said, "Don't joke. I don't think there's a need to look at his internal organs because there's blood flowing out. This means that those organs are normal, and the only things that can sustain life are the heart and the brain."

"I'll start with these two places. Are you sure you want to watch from here?"

"What's going to happen next is going to be very eye-catching!"

Yu Tian didn't want to lose face in front of Chu Xuan. He said disdainfully, "What eye-catching things have I not seen before? You can start. If I blink, my surname won't be Yu!"

Chu Xuan didn't waste any time. He immediately made a move and first cut open Kane's heart.

When Yu Tian saw this, he still felt a little disgusted. He usually killed people, but he always left after a fight. This was the first time he had seen such a scene.

And Chu Xuan's concentrated look made Yu Tian even more convinced.

At this time, when Chu Xuan opened the heart, he couldn't help but suck in a breath of cold air and said in horror, "Yu Tian, Look, his heart is black!"

Yu Tian didn't want to look at it at first. He was afraid that Chu Xuan would say that he didn't have the guts, so he gritted his teeth and lowered his head to look. He was also very surprised.

The heart of a normal person was red, but Kane's heart was completely black. There were several bullet holes on it, but the beating was still very strong. At this moment, Chu Xuan didn't hesitate and immediately cut open the heart in the middle. A stream of black liquid spewed out and almost sprayed on Yu Tian's face.

However, this liquid was not blood. Chu Xuan dipped it in cotton and placed it in a container. After shaking it for a while, she said strangely, "This is not blood. It's more like a machine fusion liquid!"

Yu Tian asked doubtfully, "You mean to say that this guy is a robot?"

Chu Xuan answered straightforwardly. Then, she cut deep into the heart. In the middle, she suddenly touched a hard object.

Then, he took out a pair of pliers and pulled the object out. Kane's body began to tremble violently.

After washing away the liquid on the object, the two of them took a closer look and found that it was actually a magical machine.

Chu Xuan said with certainty, "His life energy is provided by this thing!"

However, Yu Tian looked at Kane, who was trembling, and said in puzzlement,

"But this thing has been taken out by us. How is he still alive?"

This was indeed very strange. Chu Xuan calmly thought for a moment and said, "If I'm not wrong, there should be something like this in his head. Just like a normal person, his heart and brain provide the entire neural element!"

After saying that, Chu Xuan picked up another axe.

Yu Tian looked out of the window with a distressed expression. This scene was really too eye-catching.

At this time, Chu Xuan said in surprise, "Yu Tian, come and see.. What is this?"

?Chapter 494 – Chapter 494, Testing

Thank you readers!

Yu Tian endured his nausea and looked over. There was a round metal object in Kane's head, and it was connected to many nerve threads.

Chu Xuan said in shock, "This technology is simply too advanced. As far as I know, there is almost no one in the world who can create such a perfect nerve assistant."

As early as twenty years ago, someone had put forward this idea, but in the end, it did not succeed. However, this technology has already been put into use,

"Based on my understanding of the technical literature back then, this assistant can not only control a person's neural elements, but it can also carry out all kinds of programming and even receive commands at any time,

"You said that he targeted you so much. Perhaps it was because he received this command that he did so!"

Yu Tian understood immediately that someone was behind all of this.

He touched his nose and tried his best to relieve the pressure of the bloody smell. He asked indifferently, "Then who can create this technology now? Can we find the person behind the scenes through this thing?"

Chu Xuan shook his head and said, "I don't think it's possible. If I were the creator, I wouldn't have left these behind."

At this point, Yu Tian suddenly looked at Chu Xuan, and Chu Xuan also looked at Yu Tian in horror.

At this moment, the object suddenly spewed out a cloud of smoke.

Without thinking, Yu Tian picked up Chu Xuan and jumped out of the tent as fast as he could.

The object suddenly exploded, and within a radius of fifty meters, not a blade of grass was left. Dozens of mercenaries were killed on the spot, and even Yu Tian was pushed to the ground by the violent shockwave.

He was fine. It didn't matter even if he broke his arm. He hurriedly looked at Chu Xuan below him. Fortunately, her arm was slightly bruised when she fell, so it wasn't a big deal.

Clare bared her teeth and rushed to the front. She asked in shock, "Did someone attack us? Was it a missile or something?"

Yu Tian helped Chu Xuan up and said disdainfully, "Calm the F * Ck down. Look at how scared you are. It's like your mother wants to remarry. It's just that monster's explosion."

"Alright, cut the crap. Take your men and leave this camp immediately. I don't need to teach you what to do in the future!"

Clare wiped her cold sweat and nodded. "Alright, I'll leave now. Good luck!"

The monster had been blown to pieces. It was impossible to analyze it now, so it was better to start somewhere else.

It was already evening when they returned to Hatka. Yu Tian thought that it was better not to stay here. If the monsters were to attack, they might hurt Chu Xuan. It was better to return to the metropolis first.

On the plane, Yu Tian frowned as he pondered. Who was the one who created those monsters?

Clare had said that Kane had been with him for half a year. This meant that Kane's original existence was aimed at Clare.

If that was the case, then Clare's enemy might be the mastermind behind the scenes.

Then in this world, who would want Clare to die the most? It would definitely be the higher-ups of the Super Management Department.

However, this reason didn't seem to make sense. If they wanted Claire dead, why didn't they kill him half a year ago?

Could it be that they had to cultivate some bromance before taking action? Wouldn't that be more dramatic?

Chu Xuan brought him a hot drink and asked softly, "What are you thinking about?"

Yu Tian took a sip of the hot drink and said indifferently, "I'm thinking about who the Creator is."

He briefly analyzed his speculation with Chu Xuan. Chu Xuan listened quietly and slowly said, "Actually, your idea is very likely,

artificial technology was proposed twenty years ago. After that, the technology was never mature and eventually disappeared from people's sight,

"However, the disappearance doesn't mean that this technology will never exist. Perhaps, there will still be people secretly developing this technology. The reason why Kane was placed by Claire's side was to test the technology!"

Yu Tian felt that Chu Xuan's words made a lot of sense.

That Claire was a good worker. Usually, she would either work with people or on her way to work. It would be best if these monsters were placed by her side to test the technology.

Not only could he test the monsters' combat strength, but he didn't have to be afraid of killing them. Anyway, Clare was a homicidal maniac. If that was the case, it made perfect sense.

The order Kane received this time was most likely sent to Kane by a mysterious department in the Senior Management Department.

Thinking of this, Yu Tian asked, "Can we still find the person who proposed this idea back then?"

Chu Xuan shook her head and said, "I'm not sure. After all, it's been twenty years. I also happened to see it in an academic journal. The designer's name is Victor, and he's a well-known human biologist from Super Luowan City, "However, in these twenty years, I haven't seen any of his academic reports!"

Yu Tian nodded and turned around to call the air stewardess. He smiled and said, "Go and tell the pilot that we are flying Luo Wan Now!"

The air stewardess smiled gently and said, "Okay, Mr. Yu!"

In the dark night sky, the super luxurious plane quickly changed its direction and flew straight to Luo Wan City.

TWO and a half hours later, the plane landed steadily at Luo Wan Airport.

Yu Tian got off the plane and looked at the time. It was exactly ten o'clock at night.

The two of them put on their sunglasses and tried their best not to attract anyone's attention. They quickly left the airport.

On the way to the hotel, Yu Tian looked at the city outside the window. It was romantic and full of the colors of a psychedelic city.

Chu Xuan nestled in Yu Tian's arms and said softly, "I especially like the feeling of the night, especially when I'm with you to enjoy the city's night scenery. It's very romantic!"

Yu Tian chuckled and said indifferently, "I feel that all cities are the same. Apart from tall buildings, there's nothing else. If I want to build a city, I can open nightclubs everywhere and raise ten thousand women in each nightclub!"

"As long as you walk into the city, there will be women waving at you everywhere. That would be so great. It would save you the trouble of finding a partner. With just a little money, I can even give you dozens of children. How F * king convenient!"

Chu Xuan was so angry that he pushed him fiercely. He didn't know whether to laugh or cry as he scolded, "This is all you think about all day long. You already have so many women, yet you still think about other women!"

As they spoke, the two of them came to the hotel. Yu Tian directly said to the front desk, "The most expensive and luxurious floors are all reserved!"

The front desk bared his teeth and licked his lips. He smiled in disbelief and said, "Are you kidding me? The two of you live on the same floor?"

Yu Tian said disdainfully, "Cut the crap. I like it. I pee and poop in different rooms, and I use the same suite to throw my pants and fork. Is that okay?"

The receptionist stuck out her tongue helplessly and immediately gave the entire floor to Yu Tian..

Chapter 495 – Chapter 495, Mysterious Techniques

Thank you readers!

Chu Xuan knew why Yu Tian had booked the entire floor. He had thought that if someone attacked him, it would not hurt innocent people. Now, the superpowers wanted to kill him more than the bacteria on human bodies, he had to be more thorough.

They were supposed to sleep together, but Yu Tian still took Chu Xuan's body into consideration and slept through the night.

The next morning, Chu Xuan found out where Victor lived through an acquaintance.

Yu Tian put on his black suit and turned around. "I'll go alone. You can walk around. I'll meet up with you soon!"

Chu Xuan had no objections. She could take a look at the medical equipment here. Yu Tian was a man, and he always had women by his side. It was ridiculous.

An hour later, Yu Tian came to a slum area. He took a casual look and said helplessly, "This place is really F * cking chaotic. Everyone says that superpower is the richest country in the world,

this is F * cking bullshit!"

Yu Tian came to a wooden house and knocked on the door. Soon, a sloppy woman with a cigarette in her mouth opened the door, she asked cautiously and disdainfully, "We don't need anything, and you can't take anything from LIS!"

With that, the woman flicked the cigarette ash in disdain and was about to close the door.

Yu Tian looked at his suit. This woman probably thought he was an idiot in the management department. If he had known earlier, he would have worn a big trouser fork.

He blocked the door that was about to close and said, "I'm not here for anything. Does Victor Live Here?"

The aunt said warily, "There is no victor here. There is only a crazy old man. If you want to see him, go to the backyard. The old man who is digging a hole to bury his poop, or the person you are looking for!"

The door was slammed shut. Yu Tian shook his head helplessly. No matter where in the world, the aunt was invincible.

When he came to the backyard, he saw an old man in a tattered nightgown with disheveled hair and dirty face. He was digging with his hands on the ground.

"You are Professor Victor, Tian felt that it was pointless to ask. The old man was only focused on digging the hole and did not even look at him.

Yu Tian helped him up, but Victor pushed Yu Tian away in horror and climbed into the tree house. No matter how Yu Tian shouted, his head did not leak.

"Alright, let's see how long you can stay up there.

With that, Yu Tian kicked the tree, and the wooden house broke into two with a crack. Victor hugged the tree trunk tightly and screamed in pain.

Yu Tian followed up with another kick, and the tree, which was more than a meter in diameter, broke into two pieces and fell down with a bang.

Victor fell like a son of a B * Tch whose cover had been turned over. He could not even get up.

Yu Tian stepped forward and grabbed the old man's collar. He dragged him to the front of the pool and pulled the pipe into his mouth. Then, he turned on the tap.

Victor looked at Yu Tian in disbelief and said, "You don't have to play with me like this, do you?"

But it was this look that made Yu Tian almost certain that Victor's madness was faked.

Then, he boiled the water to the maximum and poured it into Victor's mouth. He struggled desperately to spit out the pipe.

Yu Tian pressed the pipe hard and growled, "Are you crazy or not?"

Victor nodded hurriedly and then shook his head. He was so drunk that he was about to cramp. Only then did Yu Tian pull out the pipe.

The old man crawled on the ground and vomited while cursing, "You're crazy.

I'm almost 70 years old, and you actually forced me to drink water for a year. Who Are You? What do you want?a€?

Ten minutes later, in the wooden house, the aunt brought Yu Tian a cup of hot coffee and said in a very convinced manner, a€?You're the first person to torture and break down Victor in the past ten years,

a€?The previous people only let him eat poop and wood, but you forced him to drink it like a woman who was about to give birth!

Yu Tian took a sip of the coffee and frowned slightly.

The taste of this coffee was very good. It was a top -grade coffee.

Looking at the quality of their lives, it was impossible for them to afford such expensive coffee.

Moreover, the aunt had also said that someone had come to look for Victor. Who were they?

At this time, Victor touched his bulging belly, he said with disdain, a€?The project you mentioned was just an idea I had twenty years ago. Later, no one provided me with funding for research and development, so this project was abandoned,

a€?I don't know anything about that monster you mentioned. You'd better ask someone else!a€?

This old fart was lying through his teeth.

Yu Tian snorted and said, a€?Then why are you pretending to be crazy? And you look like you a€?re poor, but you can afford to drink the best coffee in the world? Are you playing with us?

a€?I'm telling you, if you want to play, I'll play with you. I can think of ten thousand ways to torture you until you become a real lunatic!a€?

Victor's face immediately turned bitter, and he cursed, a€?You, are you addicted to torturing the old man? Since you want to know, I can tell you!a€?

He got up and opened the cellar, and took out a stack of information that was dark in time.

Then, Victor took out his glasses, opened the information, and slowly said, a€?This is the project information that I once proposed. It's not worth anything, not even garbage..

“Because of this project, I was called a lunatic. But later, my project was stolen by someone. The person who stole my project was my student, Nicholas,

I don’t know who he gave this project to or how far it has progressed. But I know that he encountered an unsolvable technical problem. He came to me many times and gave me a lot of money,

“But I accidentally discovered that he changed my project!

At this point, Victor showed a blueprint of the human brain to Yu Tian.

Yu Tian took a few quick glances. There were many symbols on the blueprint, so he had no idea what it was.

Victor explained, “This is my blueprint. My idea is to use this technology to treat heart and brain diseases!

Then, the old man showed a relatively new design to Yu Tian. He said, “This is

Nicholas' design. He added a lot of things to my technology,

simply put, he was using my technology to make weapons. I also heard that he seemed to be dealing with a mysterious department. He completely went against my original intention, so I withdrew from the project, but because of my withdrawal, the core of the technology, he couldn't complete it, so he used all kinds of means to get me to help him, and I had no choice but to pretend to be crazy in order to convince him that I was really crazy, I even ate the wood, now do you understand?”

?Chapter 496 – Chapter 496, No Pain

Thank you readers!

Victor suddenly stared at Yu Tian's indifferent eyes and asked, “You also want to get this technology, don't you? You also want to use it to make weapons, don't you? Who Are You?”

Yu Tian didn't have such thoughts. Instead, he said coldly, “You don't have to care who I am. This technology shouldn't exist. It's obvious that he is destroying my interests. So, I want to destroy them completely!”

“You can't do it!” Victor took off his glasses and said with a trembling voice, “Nicholas has the support of the Super Mysterious Department. He has countless research and development funds. He even has the defenders backing him up,

“Moreover, it is useless even if you kill more creators. They will create more creators. Those creators are not afraid of death and do not know pain because they are already dead!”

This was interesting. Yu Tian asked indifferently, “What do you mean?”

Victor took out a bottle of wine from his pants and gulped it down. He then said, “These people were the attackers who were killed on the battlefield. They were secretly sent to Nicholas's research base,

“These attackers were used to prevent them from feeling pain and fear!

Yu Tian did not take it to heart at all. Even a slightly powerful expert would forget the pain. He immediately asked, “Then where is their research and Development Base?”

“I still don't know its location!” Victor said helplessly, “Every time I go, I am blindfolded and sent into the base by a helicopter.”

“I only know that he's in a huge underground bunker. I Can't see anything else!”

“Then do you know where to find Tian?” Tian felt that he had to have some useful information.

However, Victor still shook his head and said hatefully, “Other than when he wants to see me eating wood, he only stays in the base at other times. No one knows where he is,

“That's all I can tell you!

Yu Tian shook his head unhappily. Victor seemed to have turned into a complete waste. He had better use other methods to find Nicholas and their base.

After leaving the wooden house, a series of thoughts appeared in Yu Tian's mind.

First, he had to find someone who was extremely familiar with the super high-level management department and get in touch with the core secrets through him.

Yu Tian immediately called Chu Wen and said slowly, “I need someone who can get in touch with the super high-level management department's core secrets. Is there any way for me to get in touch with them?”

Chu Wen thought about all the people she knew in this area, and finally, she thought of a person named McCullton.

She then passed the information on McCullton to Yu Tian and slowly explained,

[a€?This mccullton is the senior manager of the Super high-level Management Department's defense team. His authority is not bad.,

a€?But I don't know him personally. I know his wife, Helen. She is a woman who loves diamonds very much. She is very vain. We can get to know mccullton through her!

Two hours later, the private plane landed at the Metropolitan Airport.

However, Yu Tian did not get off the plane. Through the window, Yu Tian saw a large number of defenders and men in black staring at his plane at the airport.

Yu Tian looked at the time. Meng Xiaoyu's plane should have landed by now.

Although he did not want to bring a woman with him, Meng Xiaoyu's skills were of great help.

Five minutes later, Yu Tian received a call.

a€?Your Special Service has arrived!a€?

Yu Tian chuckled and immediately asked someone to open the cabin door.

The surrounding men in black immediately focused their attention on the private plane.

However, Chu Xuan was the only one who got off the plane. One of the men in black immediately reported to the radio.

a€?Mr. Victor, Yu Tian is not on this plane!

Victor, who was in the office, frowned slightly. Could it be that Yu Tian had already left super nation?

However, the real thing was that Yu Tian and Meng Xiaoyu had already swaggered out of the airport and quickly arrived at the door of mclaughton's house.

Yu Tian looked at the small villa that was surrounded by a garden. mclaughton was actually a plant lover. There were all kinds of flowers on every windowsill.

At this moment, the exquisite door of the villa was opened by a woman in her thirties. She had wavy blonde hair, a tight figure, and heavy makeup. She was dressed in jewels.

Meng Xiaoyu said disdainfully, a€?Oh, you a€?re dressed in luxury goods. Whoever marries this woman will be exhausted to death!

Yu Tian chuckled and said, "Are you talking about making money or something else?"

Meng Xiaoyu teased him until her face turned red and she didn't say anything.

He enjoyed the pleasure of flirting with girls, but now it was better to follow Helen and find an opportunity to do it.

As expected, Yu Tian saw Helen and walked into a jewelry shop.

Yu Tian whispered to Meng Xiaoyu, "You can turn off the skill now. I have to have the face to meet people. Otherwise, if I turn invisible and speak, I'll scare that woman into menopause earlier!"

At this time, under the compliments of the waiter, Helen chose a diamond necklace worth 270,000 world coins. She looked at it in front of the mirror for a long time, and the more she looked at it, the more she liked it.

But Yu Tian, who was pretending to choose something, found that the look in Helena's eyes was very interesting.

She liked it and was troubled.

In the end, she decided to buy the necklace. After all, it had been a long time since she had added new jewelry.

She then handed the bank card to the waiter.

The waiter said warmly, "Miss Helena, you are our most distinguished guest. Please wait a moment!"

Helena only nodded coldly. No matter how these waitresses were, they would always compliment her. This was also the reason why she liked to buy jewelry, because they could bring envy to others.

It could also allow her identity to be displayed to the greatest extent. Look at the scene of these waitresses surrounding her. How many women could enjoy

But at this moment, the waiter said with a look of surprise, "Miss Helena, I'm sorry. Your Bank card seems to be unable to be swiped!"

Helena also said in surprise, "Are you kidding me? You're swiping!"

The waiter swiped several times in front of her, but was always prompted to refuse.

The waiter next to her even cautiously took back the wrapped necklace.

Helena felt her face burning up. She knew who did this.

She immediately called mclaughton and said arrogantly, "Mclaughton, you canceled my bank card, right? Why did you do this?"

Do you know that I'm buying a necklace worth 270,000 yuan? You're embarrassing me.. Now I want you to restore my bank card immediately!

?Chapter 497 – Chapter 497, Gentle Attack

Thank you readers!

At this moment, she was especially angry, causing the surrounding waiters to look at each other in dismay.

Yu Tian, who was at the side, raised his ears and listened carefully.

On the other side of the phone, Mike Lawton was also very angry and said coldly, "A necklace worth 270,000 yuan? That's almost two years of my income. All the money I've earned over these years has become a luxury item on you"

"We can't even afford to eat anymore. You're just the wife of an ordinary management staff, not the wife of a rich man. You Can't even enjoy those luxury items"

"To ease the pressure, I've already auctioned off all your luxury items and your bank card. I Won't let you continue using it"

"I hope that from now on, you know how to be a proper wife, and not an idiotic woman who only knows how to create pressure for the people around you!"

Mclaughton's shout was especially clear in the quiet jewelry shop.

Under the mocking gaze of the waiter, Helena was completely stunned.

Was this man who shouted at her still her husband?

She said in extreme disbelief and resentment, "You're a bastard!"

Mclaughton said disdainfully, "It' s this bastard. In order to satisfy your vanity, he almost sold his pants forks for money. Now, get your ass back home right now,

"Find out how to make a good omelette. Otherwise, don't ever go back. Even if I have to find an aunt, it's better than you, You Prodigal Woman!"

The phone was hung up.

As if having a heart attack, Helen held the phone tightly while panting.

Yu Tian felt that it was time for him to put on an act.

He took a glass of water and came to Helen. He smiled very gentlemanly and said, "Miss, do you need my help? You seem to be in a bad mood!"

Helena drank the water in large gulps. Until now, he did not believe that those words would come out of McCullton's mouth.

However, with Yu Tian's consolation, she felt a little better. After all, women needed a man to comfort them, right?

She gnashed her teeth and said, "Can you help me kill that bastard?"

Yu Tian laughed and said, "I can't help you with that. Why Don't you do it yourself? For example, use a sofa, a flashlight, or a television. That way, you can vent your anger even more!"

"But I can't bear to see such a sexy lady be so sad. Why Don't I give you a gift?"

Take whatever you like here. I'll pay for everything. How about it?"

Helena widened her eyes in shock. It felt like a dream. She asked in disbelief, "Are you kidding me?"

Yu Tian shook his head and said indifferently, "I'm not kidding. It all depends on my mood. I can do anything if I'm in a good mood!"

As expected, she believed him. She said as if she was afraid that Yu Tian would go back on his words, "I want the necklace from before!"

Meng Xiaoyu, who was standing not far away, snorted in disdain.

There was indeed such a stupid woman in the world. Shouldn't she ask Yu Tian why he did this?

How could such a great benefit fall on her.

At this time, Yu Tian took out a bank card and threw it to the waiter. Then, he said domineeringly, "No matter what she wants, you can just swipe it!"

The waiter handed the necklace to Yu Tian, and Yu Tian handed it to Helena. He smiled and said, "This is yours now. If you like anything else, feel free to choose!"

Helena was completely overwhelmed by the luck that had fallen from the sky. Her mind was completely blank, and she began to choose crazily.

Whether she liked it or not, she had to let the waiter wrap it up.

Yu Tian just looked at her indifferently. It was like playing a game. Her desire was getting stronger and stronger. When she was completely immersed in it, she would hold it in her hands and do whatever she was told.

Helena also asked Yu Tian's opinion from time to time. Obviously, in these few minutes, she had already treated Yu Tian as one of her own.

Yu Tian also liked it. He said indifferently, "It's very good. It hangs on your body like a queen. As long as you like it, you can buy it as much as you like. Let alone jewelry, you can even buy trash cans and brooms!"

She was completely immersed in Yu Tian's gentle storm. She looked at Yu Tian affectionately and said, "Thank you, my dear. I'm really happy now. You're much better than that bastard!"

"Wait a minute, I'll pick out a few more necklaces. Then we can go and make something else!"

Yu Tian nearly vomited her stomach.

Meng Xiaoyu said as if she was watching a show, Keep pretending. She still has to play with you later!

He said in a low voice with a sad face, "Shut up, I will play with you later!"

"Anytime!" Meng Xiaoyu was not afraid at all. She was a little shy after playing with Yu Tian. This woman was F * cking crazy now.

Half an hour later, Helena bought more than 50 million worth of jewelry. She looked particularly excited and said excitedly, "Well, I like these. After all, you gave them to me. I have to thank you!"

"I don't Even Know Your Name!"

"My surname is Yu. I'm very happy to see you so happy. There are luxury stores everywhere. If you like them, we can continue to buy them. After all, it's a great achievement to make such a sexy lady like you happy!"

Under Yu Tian's flowery words, Helena fell into a happy bay. She directly took Yu Tian's arm and said charmingly, "I still like a few bags. Let's go buy them now!"

Yu Tian said indifferently, "Okay, but it's lunchtime now. Can I have the honor to treat you to a glass of the best red wine in the world?"

"Of course, I'm more than happy!"

The two of them soon arrived at a luxurious restaurant nearby. Meng Xiaoyu was in the small restaurant across from them. While eating a hamburger, she said in a huff, "He's flirting with girls, but he wants me to eat a hamburger here. What a Super Bastard!"

In the restaurant, the manager personally poured millions of dollars worth of red wine into the glass and said respectfully, "Sir, this is the best red wine we have in our collection. It's a great honor for you to dine here!"

Looking at the food in front of her and everyone's flattering expressions, Helena suddenly felt that this was the life she wanted.

This was the true enjoyment that a woman should have.

Of course, she would not take these things for free. Later, she would use her best side to repay this handsome oriental man.

The two of them raised their glasses. Yu Tian smiled and said, "To our acquaintance!"

Helena also smiled and said, "Yes, to our acquaintance!"

After the waiter poured the wine again, Yu Tian felt that it was time to make his request and make her agree to it..

?Chapter 498 – Chapter 498, Information Required

Thank you readers!

After getting the waiters to leave, Yu Tian smiled and said, "Lady Helena, don't you want to know why I'm giving you these expensive things?"

Helena said charmingly, "I think you must be thinking about a room, a soft bed, and I'm also thinking about this!"

Was this woman crazy?

Yu Tian hurriedly said, "No, I didn't even think about this. I just want to tell you something else. I need Mike Lawton to help me do something else,

and you can make him completely obedient. You will get a reward of 100 million world dollars!a€?

Helen was suddenly shocked and said in surprise, a€?So you are doing it for him? Do you have a gay relationship and want me to quit?a€?

Yu Tian said helplessly, a€?I'm curious. How did you survive until now?

Can you not be so stupid? I just want to get some information from Mike Lawton, for You, it's very simple!a€?

Helena finally understood.

So the man in front of her was a spy.

She immediately said warily, a€?No, I can't help you. I thought you did all this for me!a€?

Yu Tian smiled coldly and said, a€?If you don't help, you will lose everything that you have just obtained,

a€?But if you are willing to help, not only will you get these, but you will also get 100 million world dollars in compensation,

a€?Think about it. Mike Lawton is no longer supporting you to buy luxury goods. If you lose his support..,

a€?Your life may have to regress to the point where you will be ridiculed by everyone. Can you accept that?a€?

The most painful part of Helen's life was still being stabbed.

She didn't even like Mike Lawton. She only married him for his identity.

It would allow her to enter the upper class as quickly as possible.

However, Mike Lawton had nothing but this identity.

Why didn't she do it? It was 100 million. With this money, would she still need him?

Thinking of this, Helena said firmly, a€?What do you want me to do?a€?

a€?Convince mccullton to serve me. It's that simple! a€?Yu Tian said indifferently.

Helena nodded and agreed, "Okay, I will convince him!"

In that case, there was no need to talk nonsense. Yu Tian took out a bank card and threw it in front of her.

"There's 150 million here. You can use it to convince McCullton,

"If you do your task well, you'll get the same reward!"

After saying that, Yu Tian wiped his mouth and stood up. "After you succeed, you can call me!"

Seeing Yu Tian walk out of the restaurant, Helena hurriedly put the card into her backpack. At the same time, she shouted to the waiter, "Pack the wine!" An hour later, Yu Tian appeared in Chu Wen's office.

Chu Wen reported, "In just two days, the metropolis seems to have changed,

"All of our shopping malls are promoting sales. According to the information we have gathered, more than 50% of the retail industry in the metropolis has closed. More than 25% of the manufacturing factories are being sold,

"At least 500,000 people have become beggars, and the economy of the entire Metropolis has weakened by 5% ,

"Our economic consultant has completely analyzed that this weakening is like a fluctuation. In the next week, it will be even stronger!"

Yu Tian shook his head and said coldly, "It's not enough. Whoever wants to sell now, we will buy. I want to control all of the manufacturing industry in the Metropolis!"

Chu Wen knew that Yu Tian wanted to go big this time, so there was no need to stop him. Now, the entire Metropolis had already treated them as enemies.

Then there was no reason to pity anyone.

At the same time, in the office of the President of the Metropolis management department.

A young lady sat elegantly and sexily in front of Raqqa, her two beautiful legs overlapping.

Raqqa forced himself not to be rude and look at her, but his peripheral vision was still on her, unwilling to leave.

The woman said in a very languid voice, "Mr. Raqqar, I know who took the World Bank's Gold!"

Raqqar abruptly retracted his gaze and asked in shock, "Who?"

"It's Yu Tian who made the metropolis a mess!" "In this world, only he can magnify or shrink objects!"

"If I'm not wrong, the gold should still be on him!"

Raqqar's expression was like the weather outside, gloomy and depressing. However, he felt that this news was already beyond the scope of his acceptance.

Yu Tian had already tortured Metropolis to the point where his skin was torn to shreds. Those people had been protesting at the entrance of the management department all day long.

Countless investors had increased the pressure on the management department.

The top management department had already sent a special team to the metropolis to study how to stop Yu Tian. This guy had actually stolen trillions of gold.

Was he courting death?

However, the wily Raqqar quickly saw the other side of the problem and asked coldly, "I want to know your identity and your requirements!"

The woman smiled and said arrogantly, "The senior tactical commander of PBG, Annie Lane, my requirements are also very simple,

I need you to use your authority to close all the ports. Secondly, I know that you have been supporting a person all these years,

his name is Powell Trus. This person once successfully snuck into the CEO's home, ate all the food, and even shit on the CEO's pillow,

"We also know that he is your nephew. He has received training from a mysterious person since he was young, and his combat skills are extremely powerful,

"Only he can be Yu Tian's opponent!"

When Raqqar thought of this nephew, his brows were tightly knitted together. He even said with some fear, "No, I will definitely not let him leave that bunker, otherwise, all the attackers in super country will not let him go!"

Annie Ryan smiled coldly and said confidently, "Don't worry, PBG has already made an agreement with the top management department,

"As long as you can kill Yu Tian, you will immediately enter the top management department. Your nephew, Powell Trus, will also enter the attack department,

"At the same time, after Yu Tian is killed, PBG will give you half of the assets that he invested in Metropolis,

"How can you refuse such a good offer?"

Raqqa felt as if his heartbeat had gone out of control.

However, this offer was really too good.

Annie Ryan raised her legs and stood up elegantly. "Yu Tian is in Metropolis. He has a super developer by his side,

"We will also provide you with an isolator so that his invisibility skills won't work. The rest will be up to your nephew!"

Raqqa also slowly got up and personally sent Annie Ryan out of the door. The moment he turned around, Raqqa frowned tightly.

The conditions were very good, but his nephew was really too violent.. Did he really have to use him?

?Chapter 499 – Chapter 500: Learning Techniques

Thank you readers!

The man who walked out from behind the tree was more than two meters tall, two heads taller than himself.

He wasn't even wearing any clothes. He was only wearing a pair of large pants. His sturdy muscles were covered with all kinds of tattoos.

It was obvious that he had done some warm-up exercises. Under the moonlight, the sweat on his muscles sparkled.

However, in this image, this guy was definitely an extremely valiant person.

Yu Tian looked at his ankles and neck and saw that he was wearing a protective belt. He should be an expert in fighting.

When the man saw Yu Tian, his eyes instantly turned cold. He angrily punched a hole in the tree that was one meter in diameter.

Yu Tian grinned and said coldly, "It's quite powerful. Even the tree can make a hole. But I like it. I can fight, but you have to let me have fun!"

"As long as I feel good, I can let you leave alive. Otherwise, I'll kill you directly!"

The man gritted his teeth and launched an attack. He raised his leg and kicked.

Since he came here to do it, what was there to waste time on?

Yu Tian saw that this guy's speed was exceptionally fast. He was practically an expert who possessed both strength and speed. He felt a little excited in his heart.

He wanted to see how strong this expert was, so he didn't even try to dodge. Instead, he raised his hand to block Yu Tian's punch.

The moment his fist and arm collided, Yu Tian felt a slight numbness.

This guy still had some strength. His combat strength should be on par with the creator from Hatka.

In hatka, he was a robot, but this guy was a real person. This was even more interesting.

The only difference between a human and a machine was that humans could think, especially in terms of combat. It would be more fun if there were both offense and defense.

However, the man's punch was easily received by Yu Tian. He was somewhat surprised.

He had fought in the underground boxing for so many years, but no one had ever been able to leave alive under his hands.

If Raqqa allowed him to kill this guy today, he would receive a large sum of money.

As long as he could earn this money, he would be able to leave the metropolis and return to his own place. He would be able to marry a wife and have dozens of children with him.

This beautiful hope was all in Yu Tian's body. As long as he could kill him, he would be able to realize it immediately.

Thinking of this, the man stopped attacking rashly. Instead, he began to use tricks to test Yu Tian.

Yu Tian also tried to attack a few times. This fellow's body was actually quite agile, able to dodge his fist.

But at the same time, this also allowed him to expose his weakness, which was that he did not have confidence in his defense.

After kicking a few more times, Yu Tian chuckled and said, "I originally thought that you could make me feel a little excited, but it turns out that you are a coward!"

The man was not angry. He just looked at Yu Tian coldly, waiting for the opportunity to attack.

Yu Tian could see the man's intention from his cold gaze.

He wanted an opportunity, so he would give him one.

At random, Yu Tian jumped up and swung his tail. He deliberately increased the range of his movements, making the man feel that he had exposed his weakness.

The man was indeed fooled. He saw that Yu Tian had many tricks up his sleeve, but his entire body was given to him. It would be a waste not to hit him.

He directly threw a punch at Yu Tian's waist.

A smile appeared on the corner of Yu Tian's mouth when he threw his punch.

The moment his fist touched Yu Tian's waist, he floated in the air like a piece of paper.

The man felt as if his fist had hit cotton, and he was extremely shocked.

He was even more shocked when he saw Yu Tian floating above his head like a leaf that had lost its gravity.

However, he absolutely did not believe that Yu Tian was a ghost, so he jumped and hit Yu Tian.

However, every time he touched Yu Tian, it was as if he had hit cotton. Instead, it made Yu Tian's movements more agile and he flew up and down.

The man wiped the sweat off his forehead and bared his teeth as he looked at the floating Yu Tian. Finally, he opened his mouth and said, "Can you still land? I'm fighting with you. Are you playing with us?"

Yu Tian laughed and lightly stood on the ground. He said indifferently, "Then do you think I'm fighting with you? With your strength, you're only worthy of me playing with you!"

When the man heard that, he became even angrier. He jumped up and launched another attack.

Yu Tian didn't even Dodge. He could use this opportunity to practice his nameless technique. Why did he have to fight with him?

By the time Yu Tian floated into the air again, the man was already on the verge of breaking down. He jumped and scolded, "What exactly do you want? Can you fight me to the death?"

"Don't tell me you only know how to fly like a Feather?" "Just float around in the sky. See if you have any dignity as a man!"

As soon as he finished speaking, he received a big slap on his face every day.

What was more hateful was that he didn't even have the chance to fight back. When he turned around, Yu Tian was already floating in the air.

The man silently reminded himself that he had to stay calm.

He wanted to use this method to stimulate his anger and mess up his mind.

He also didn't take the initiative to attack. There would always be a time when he would land on the ground. When he landed, he would directly give him a vicious blow.

Seeing that he was not moving, Yu Tian knew what he was thinking.

He should also dig a hole for him to jump into and throw him down with all his strength.

As such, he landed on the ground once again. Seeing the opportunity, the man suddenly exploded with a kick.

He was still relatively smart. He directly attacked Yu Tian's knee.

This was because his knee would not feel anything other than pain. He attacked other places and floated into the air in the blink of an eye.

Only his knees could not talk about his own strength.

Yu Tian only made people laugh. He did not Dodge or Dodge. Instead, he bent his knees and directly crashed into his ankles.

With a crisp crack, the man's ankles were completely shattered. The pain caused him to stagger and fall to the ground.

When he saw Yu Tian's cold and arrogant gaze, the man climbed back a few meters.

However, Yu Tian stood still and looked at him coldly. The man grimaced and said, "What do you want?"

Yu Tian chuckled and said indifferently, "Who asked you to come?"

"Raqqa, he asked me to kill you, but I didn't know you were so powerful. Now that my legs are broken, I don't want to fight with you anymore!" The man completely gave up.

So it was that old fart. It seemed that he already knew that he had stolen the gold, so he had asked such an expert to kill him.

However, this expert could still do it. Through fighting with him, he seemed to have mastered some techniques of the nameless technique.

He needed such an expert to train himself.

Therefore, Yu Tian nodded and said, "It's not your fault. After all, your strength is limited. You can leave now.. I Won't kill you!"

?Chapter 500 – Chapter 499, The Base Of The Ghost Region

Thank you readers!

Raqqa thought for a long time. If he threw terrus out, half of the metropolis would be destroyed by him.

Why not let another person test Yu Tian's strength first.

If he could kill Yu Tian, then he wouldn't need terrus. This was the best choice.

Thinking of this, Raqqa picked up his coat and quickly left the office.

In a dark room opposite Chu Wen's company building, Annie Ryan stared at the window of Yu Tian's office without blinking.

Behind her, a woman with a hot figure in leather asked in a low voice, "Miss Annie, do you really believe Raqqa?"

Annie Ryan said indifferently, "There's no conflict between believing and using. I just accepted the order from the president of PBG to get the second-generation development equipment!"

"Lakalle's nephew will create all the conditions for me. I'll appear by Yu Tian's side at the right time. Then, it'll be me and him using each other!"

At that moment, Yu Tian was on the phone with Chu Meng.

Chu Meng smiled and said, "Milo has secretly returned to Sean and met with Rosa. According to my eavesdropping, she wants Rosa to get your information."

"What's ridiculous is that Luca actually agreed to it. Now, I've already ordered people to surround them. I'm just waiting for you to say the word, and the dishes can be cooked!"

Yu Tian really wasn't in the mood to deal with this spy, but it wasn't enough to take her life.

He said indifferently, "You just need to take them down. You Don't need to take their lives. I still have other uses for keeping them alive!"

Chu Meng said disdainfully, "You still want to have children with them? I really don't know what you're thinking. They're obviously your enemies, but you're always so kind to these female enemies!"

Yu Tian laughed and said, "Men are all like that. They can't bear to lay their hands on women. You Don't have to think too much. I'm really useful. If you want to torture them, that's fine too!"

"As long as you don't kill them. You can do the rest yourself. In short, don't come and Pester Me. I don't have time to deal with those things now!" After hanging up the phone, Helena called in and said excitedly, "Mr. Yu, Mike has agreed to meet you. Let's go to the restaurant where we had lunch!"

Yu Tian smiled indifferently and said slowly, "Of course, you can go there now!"

Half an hour later, Yu Tian met with McCullton in the restaurant.

After a simple greeting, McCullton said straightforwardly, "Your money convinced me, and this meeting is also the only time we meet,

what do you want to know? It's best to cherish this opportunity, because after meeting you, I will take this prodigal woman and leave this country, because soon, someone will know that I'm meeting you. Right now, your name is very well-known in the senior

management department. If I meet you, then I won't have to go to the senior management department anymore, who cares? Anyway, I still prefer money!a€?

Since he was so straightforward, he didn't need to waste time with him.

Yu Tian nodded in satisfaction and said straightforwardly, a€?Mr. Mike, I only have one question. Is there a mysterious department in the Senior Management Department? They are developing a human weapon,

a€?They will put some auxiliary equipment on the bodies of some people who died in the war, making them very powerful attackers. The original designer of this project was a man named Victor!

a€?And now, this technology is being continued by a man named Nicholas. I only want information about this! a€?

Hearing this, Mike Lawton frowned slightly and said, a€?Mr. Yu Tian, your money is absolutely worth it because what Pm going to tell you next.,

is the most top-secret intelligence in the highest management department. Pm very glad that Pve learned some of the contents of this plan from some of the documents in the management department,

you're right. There is indeed such a secret project. It is the attack department of the highest CEO and the High Management Department, as well as the intelligence collection department,

at the same time, it is a mysterious department. The name of this department is Domain Ghost. There are less than fifteen people in the entire high management department who know about the existence of this department,

domain Ghost's main mission was to develop this project called the rebirth force. Their annual R & D expenditure was already as high as seven billion,

the CEO of this project was not Nikola, but a senior CEO of the Intelligence Department called Ben Lennon and a mysterious figure. As for who that mysterious figure was?

Other than the highest CEO, Ben Lennon, and Nikola, no one knew who it was. Their secret R & D Base was in a desert region called Villar,

a€?There are a large number of defenders a€?bases and attackers a€?bases around Villar. There are even many long-range attack camps. From the outside world, they seem to be training there,

a€?But those who know the inside story are stationed there to protect the ghost realm!a€?

Yu Tian was basically very satisfied. As long as they knew where their base was, nothing else mattered.

Yu Tian took out two bank cards and casually threw them in front of them. "This is your reward. It's enough for you to spend a few lifetimes while acting cool."

Mccullton greedily picked up the bank card. Even his breathing became rapid.

Yu Tian looked at him and only snorted coldly. He got up and left.

Meng Xiaoyu, who had been following beside him, asked in a low voice, "Looks like we're going to fight again, right?"

Yu Tian said disdainfully, "Why are we always fighting? It's not interesting at all. This time, I want to play something interesting."

"Didn't you hear that guy say before that there's a mysterious person behind the entire project? I still don't know who this mysterious person is, so I'm wondering if Villar's base is their only one?"

"If there's another base, I'll rashly get rid of it. It's very likely that I'll alert the enemy. Let me go to the ghost region to take a look first. After I have enough information, we'll talk about other things!"

The two of them returned to Chu Wen's villa. Before they entered the door, Yu Tian suddenly frowned. As a result, there was a very strong killing intent.

He gently pushed Meng Xiaoyu and said softly, "Go into the house first. Close the window and fasten your pants. No matter what happens outside, don't come out!"

Meng Xiaoyu also looked left and right warily. She nodded slightly and quickly ran into the house.

At this moment, Yu Tian turned around and boldly said, "Don't catch a cat."

Hurry up and come out to meet. It's quite mysterious!"

As soon as he finished speaking, a man flashed out from behind a big tree.

Yu Tian turned around and was a little surprised..
