

I Have 108 Older Sisters #Chapter 501 -550

Read I Have 108 Older Sisters Chapter 501

?Chapter 501 – Chapter 501, Very Good Information

Thank you readers!

The man looked at Yu Tian in disbelief and said gratefully, "Thank you, but if I'm not wrong, Raqqa will let his nephew, Powell Trus, be your opponent."

This person's nickname was monster. His combat strength was extremely valiant and he was an extremely terrifying figure. You have to be careful

After saying that, the man limped away.

Yu Tian did not take it to heart at all. The stronger the opponent, the happier he was.

At the same time, Raqqa's subordinate also put down the binoculars in the distance and immediately called Raqqa. He said in a low voice, "The assassin failed, but he is still alive!"

Raqqa, who was sitting in the dark study room, said coldly, "Did Yu Tian not kill him?"

"They seemed to have made some kind of Deal!"

Raqqa narrowed his eyes and said coldly, "Kill that idiot!"

His subordinate put down the phone and took out a silencer from his pocket. After following the man, he shot a bullet into his head.

At the same time, Raqqa also took a sip of hard liquor.

It seemed that now, he could only let his devil nephew appear.

Suddenly, a flash of lightning flashed across the sky. The pouring rain, accompanied by the muffled sound of thunder, instantly covered the modern metropolis.

A black phantom slowly drove into an ancient castle manor.

Under the umbrella held by his hand, Raqqa knocked on the gate of the ancient castle with a heavy expression.

A white-haired old man opened the gate and said respectfully, "Good evening,

Mr. Raqqa!

What is he doing? Raqqa asked gloomily.

After dinner, he is listening to his favorite music! The old man looked at Raqqa helplessly.

At the same time, the music of opera came from the room upstairs. The sad feeling was as if it was wailing.

Raqqa said with disdain, Music is a waste to him. He is a devil and should repent his mistakes at any time!

The old man clenched his teeth and argued in a low voice, He likes music. I don't think there's anything bad about it!

However, Raqqa glared at the old man and said through gritted teeth, You giving birth to him with that cheap woman is the biggest mistake in this world!

Do you still think that this damn music can purify his devil-like heart? And just like this vile spawn, you will forever be a disgrace to the family!

The old man had long been accustomed to his abuse. He said expressionlessly, But you are still my younger brother. You still need this devil in your mouth to help you kill people and help you get everything you want!

Raqqa roared, You owe me that!

He loosened the tie around his neck and looked upstairs fiercely. Then he asked, Did you tie his hands and feet?

A trace of pain flashed in the old man's eyes. His only son was tied up like a dog by his uncle all day long.

He said coldly, He has never left that room. You can go see him now!

Raqqa snorted coldly and walked up the stairs. He pushed open the door.

In the tidy room, a young man with a full body of chains was sitting. He was leisurely listening to music. Although his clothes were very tattered, his gentlemanly hairstyle was very clean.

No matter who saw him, they would not think of this slightly frail man as a demon.

Trulus slowly turned around. Amidst the clattering of chains, he smiled brightly and said, Uncle, I haven't seen you for a long time. Do you like this music?

“He can make me feel very quiet, and he can also make me think of many beautiful things!”

Ragga frowned tightly. This opera clearly sang about killing, blood, and evil, but he could feel the beauty and quietness. It was simply ridiculous.

At the same time, at Chu Wen's villa, Yu Tian sat quietly in front of the window, watching the phone call between the two sisters, Milo and Rosa.

They had already been tortured by Chu Meng to the point that their skin was torn to shreds.

Yu Tian asked indifferently, “Does it hurt? Rosa, I originally thought that I could trust you, but you tricked me and used my trust in you to help Milo set me up?”

“But now, I don't want to waste my time with you, and I don't want to see you continue to suffer. Milo, I need all your intelligence network, including the information of every corporate spy!”

Milo squeezed out a disdainful sneer on his bruised face and said, “Don't waste your time. Since you know that I'm a corporate spy..., you should know that my training is a hundred times crueler than this!”

As soon as he finished speaking, the man next to him raised his hand and punched.

Yu Tian felt that the scene was a little cruel, so he immediately stopped the man and said, “Be fucking gentle. They are women, not sandbags!”

The man did not say anything and stood aside obediently.

Yu Tian said coldly, “Milo, I know that you have received professional training, but has Rosa received any training? She is your biological sister. Can you bear to see her being tortured like this?”

“If you have any humanity left, give me what I want immediately. Then you can live a normal life in Sean. You can even get the protection of the Defense Department!”

Milo still looked at the Crying Rosa. Yu Tian was right. There was no reason for Rosa to suffer all this with him.

Moreover, Yu Tian's conditions were really good. The spies of Super Nation's business management department had already regarded her as their mortal enemy.

If she stood on Yu Tian's side, she could at least live.

She followed up with a cold voice, “You will fulfill the promise you gave me,

Yu Tian chuckled and nodded. He said indifferently, "I, Yu Tian, have always been a man of my word. Since I have already promised you, I will do it!"

Milo hesitated for a moment and decided to say, "Okay, I can give you the information. Now you want them to let us go immediately!"

As soon as he finished speaking, Chu Meng and Chu Yue, who were wearing sunglasses and combat suits, walked into the room and untied their ropes with their own hands.

Yu Tian, who was on the big screen, said, "Give them the best room and the best treatment. But remember, you can not leave the base until I confirm the information!"

After saying that, Yu Tian cut off the video.

An hour later, Chu Meng sent a copy of the information and a message.

"This is the information on the USB that Milo gave us. I've checked it, the information is real!"

Yu Tian opened the information and looked at it briefly.

The information contained the identities of hundreds of corporate spies, it was very comprehensive, and there was even part of their mission information.

Most importantly, there were actually hundreds of spies hiding in most of the Chu family's corporate companies. Even the Xinghe company had one.

Yu Tian smiled coldly and said, "This information is really too good!"

Chapter 502 – Chapter 502, Who Did It

Thank you readers!

Yu Tian then copied 107 copies of the information and sent one to each of his sisters, along with a sentence.

"You guys decide what to do!"

The sisters were instantly shocked.

"These damn corporate spies are as annoying as unkillable bacteria!"

"We don't know how many important business secrets have been stolen by them. It's too hateful!"

“Is there any use in saying this now? Don't you remember Chu Hong? Now that we can't even trust our own people sometimes, how can we trust others?”

Yu Tian didn't care about what they said, and he couldn't be bothered to care.

These women had plenty of ways to deal with those spies. They could do it themselves.

A night passed, and the metropolis in the morning was still filled with torrential rain.

Yu Tian drank the steaming coffee while thinking about the techniques and techniques he had learned last night.

At the same time, in Chu Wen's shopping mall, just as people were frantically fighting for those cheap goods, there was a loud bang.

Amidst the violent tremors, the shockwave of the explosion completely destroyed the shopping area, and hundreds of people were instantly turned into pieces.

Fireworks shot out of the shopping mall and soared into the sky amidst ear-piercing screams.

An hour later, Chu Wen led dozens of people into the closed mall under the questioning of reporters.

More than a hundred bodyguards blocked the reporters. The people from the Metropolitan Security Department and the rescue workers had already begun to busy themselves in the mall.

Looking at the people being carried out of the ruins one after another, Chu Wen seemed to be muttering to herself, “Who did this?”

Yu Tian, who was beside her, also frowned. Even Meng Xiaoyu did not have the courage to continue watching.

At this moment, the head of the security department, Hadden Lyle, came forward with his subordinate's imposing manner and said, “Ms. Chu, all of your shopping malls must be closed immediately. Your company must also be closed!”

Chu Wen snorted coldly and said, “Please Keep Your Eyes Wide Open. You Don't want to find out who planted the bomb here, but you want me to close the shopping malls. Do you want me to tell the reporters outside...,”

“The explosion here was caused by me or my company. Can you guys from the security department do something serious?”

Hadden Lyle said expressionlessly, "Isn't this because you guys are doing disgusting things in the metropolis, so there are people who use this method to protest?"

"Moreover, more than 200 people died this time, and more are dying one after another. Now, the whole world is watching the metropolis. I'm just telling you the orders of the management department,

"If you have any dissatisfaction, you can go to the management department or the senior management department to argue. If it's up to me, I'll drive all of you easterners out of the metropolis,

"You're just a bunch of garbage bombs that will cause any city to fall into chaos!

Yu Tian didn't want to listen to this guy's pretense. He followed Meng Xiaoyu to the center of the explosion.

When he saw the 10-meter deep pit with a diameter of 50 meters, Yu Tian slightly frowned and said indifferently, "Did that guy plant a missile here?"

Good Man, isn't the power too great?"

Meng Xiaoyu also said in a low voice, "No matter what it is, I feel that ordinary people can't make such a powerful bomb!"

Yu Tian chuckled and praised, "I find that you are getting smarter and smarter.

They just want to arrange a scene of a thief shouting to catch a thief for everyone to see. No matter what we say, this trap is all ours!"

After saying that, Yu Tian turned around and left. Staying here was also a waste of time. Moreover, who was the one who planted the bomb? It did not need to be guessed to know that other than Raqqa, no one else would do this.

Since they wanted to exchange a few moves with him, then everyone should have a good time.

Meng Xiaoyu did not know where she wanted to go? She asked softly, "What do you think?"

Yu Tian suddenly stopped in his tracks and turned around. "They want to dig the pit of this explosion under our feet. Then I will expand this pit to everyone's feet. The pressure can not be borne by us!"

Didn't that Harden Lyle say that it was because of our promotion? Then let it rise to the level of dissatisfaction with the management department!"

After saying that, Yu Tian directly called Claire.

At this moment, Claire was completing a gold transaction and had received a capital of ten billion dollars.

Just as she was thinking about how to buy firearms, the phone rang. When she saw that it was Yu Tian Calling, she hurriedly picked up.

After hearing Yu Tian's order, Clare immediately nodded and said, "Alright, Mr. Yu. This isn't difficult for us at all. Moreover, it's time for the idiots in the management department to... know How Awesome We Are!"

After arranging everything, Yu Tian hung up the phone and went to Chu Wen, who was arguing with Harden Lyle. He whispered a few words into her ear.

Chu Wen then said to Hadden Lyle, "I don't want to waste time arguing with you about this. I'm going to hold a press conference now. Do whatever you want to do, but don't expect me to support you!"

But Hadden Lyle stopped her, "Wait, without our consent, you can't hold any press conference now!"

"You don't have the authority to do that!" Chu Wen said angrily.

"No, I have the authority now. I have to consent to everything you do!" Harden Lyell said expressionlessly, "You even need my consent to go anywhere you go!"

Yu Tian felt that this guy was really too pretentious. He was just a dog of Raqqa, but he barked loudly.

Following that, he came to the entrance of the shopping mall and casually pushed it open.

All the bodyguards and security guards who stopped the reporters staggered to the side.

When the reporters saw that they had an opportunity, they rushed into the shopping mall in a frenzy.

Harden Lyell was still pretending. When he saw the large group of reporters rushing in as if they were risking their lives, he turned pale with fright and shouted, "Who let them in? Don't tell me that you idiots can't even do this kind of work!"

Chu Wen said proudly, "Mr. Harden, it seems that your ability is only so-so. Now, it's not me who wants to hold a press conference, but these reporters themselves!"

This harden Lyell was an idiot. When he saw the reporters rushing in, he was completely dumbfounded. He actually directly ordered his subordinates, "Take Chu Wen away from here. We absolutely can't let her meet with the reporters!"

However, Chu Wen's bodyguards were not to be trifled with. They were all mercenaries, so they immediately stood in front of Chu Wen to block her.

Compared to their valiant bodies, Hadden Lyall felt that his subordinates were as thin and weak as meat slices in a hamburger.

At this moment, more than a hundred reporters surrounded them.

Chu Wen did not wait for them to ask any questions and coldly said,

"Everyone, please be quiet. Yes, there was indeed an explosion here, but this was done by some armed men. My Company's intelligence department has already received the News" "

"This is a person named Claire who is active in the southern region.. He is using this method to express his dissatisfaction with the management department!"

?Chapter 503 – Chapter 503, Watching The Show

Thank you readers!

Chu Wen's words not only shocked all the reporters, but also made harden Lyle's eyes widen in shock.

He actually didn't know anything. Raqqa only asked him to do this, but he didn't tell him who the bomber was?

At this time, Yu Tian hid beside Chu Wen and said to her in a low voice, "Continue talking about Claire now. Don't keep staring at that dog harden. Even this idiot is dumbfounded now. Why do you care about him?"

Just say that crazy Claire will attack more places, including restaurants, hotels, latrines, and bathhouses!"

Chu Wen almost laughed out loud. If Claire really attacked these places, wouldn't he be f * cking idle?

She still changed Yu Tian's words slightly and told the reporters.

At this moment, a reporter asked, "Miss Chu Wen, is this bomb attack targeted at your business group? For the past few days, you guys have been purchasing 50% of Metropolis' businesses,

this project worth tens of billions of dollars, did it make Clare's armed forces angry? a€?

Yu Tian added, a€?Clare hates the management department more than anyone else. He can't wait for us to buy all the companies and then abuse them like a drunkard uncle does to an aunt. a€?

So, we can say with certainty that this attack was completely targeted at the Metropolis Management Department. In the future, they will continue to attack, but we will still continue to a€|a€?

a€?The cheapest thing in the world is sold to the people of the Metropolitan Administration. Moreover, our company will compensate the people who died in this attack according to their age. One year is equivalent to 100,000 international dollars. The children and women will be doubled! a€?

Just as the reporters were asking questions, a dull tremor suddenly came from under everyone's feet.

The entire place became quiet. Yu Tian also looked at his feet and frowned slightly. He said in a low voice, a€?It seems that there was another explosion! a€?

At this time, Chu Wen's phone rang. It was the secretary who called. She said in a panic, a€?Director Chu, there's an explosion in our other shopping mall. The entire shopping mall has collapsed! a€?

Yu Tian heard it clearly. This time, Raqqa really wanted to play big.

Immediately after, all the reporters received the news and rushed to the door frantically. A large group of reporters asked nervously, a€?Miss Chu Wen, there's another explosion in your shopping mall. Is this still a random attack? a€?

a€?This is an attack on your company, right? a€?

a€?Will there be more attacks? a€?

Chu Wen didn't want to answer now, nor did she know how to answer. She wasn't even sure if Yu Tian was still around.

She had to go to that shopping mall to see how damaged it was?

At this time, Hadden Lyell received an order from the management department. He stopped Chu Wen and said coldly, a€?You have to go to the management department with Me Now. All your businesses have to be closed immediately,

otherwise, we will expel you from Super Nation and cut off all your funds. Now, come with me to the management department! a€?

Chu Wen couldn't be bothered with this idiot. She gave the bodyguards a look.

Dozens of bodyguards immediately protected Chu Wen in the middle and escorted her out of the door.

Haden Lyor didn't have enough people. Seeing Chu Wen was about to leave, he shouted hysterically, "If you dare to leave, I will immediately mobilize the defenders and launch an armed attack on you!"

Chu Wen suddenly turned around and said hatefully, "You have already started to attack, haven't you? Listen to me carefully. I don't even care about the highest CEO of the Super Management Department. What do you think you are?"

Yu Tian said with admiration, "She is just so domineering. The more domineering she is, the sexier she is!"

Meng Xiaoyu grimaced and said, "Brother, your shopping mall has already been bombed. How can you still have the mood to taste women?"

He said disdainfully, "We're just watching the show. It's their own people who killed their own people. Do we need to be angry?"

As they spoke, everyone came to the exploding shopping mall.

Yu Tian saw the scene and it became even more lively.

The entire Super Mall collapsed from the middle, leaving only a layer of outer walls.

Dust and smoke from the collapsed buildings filled the surroundings.

Countless people were in the ruins, carrying out rescue operations. The scene was extremely chaotic.

Chu Wen had just arrived here when a large number of defenders appeared. Right in front of the chaotic ruins, they raised their weapons and aimed at Chu Wen.

Hardenlair proudly walked out of the crowd and said arrogantly, "I said you would regret it. What do you think now? You better not resist, or I will immediately order them to open fire."

"You don't want us to play hardball with you, do you?"

Yu Tian was beside Chu Wen and softly laughed, "We can go with him. I'll go with you and see what those bastards in the management department are up to."

Chu Wen relaxed when she heard Yu Tian's words.

Then, she nodded and said, "Okay, I can go with you!"

Harden Lyell proudly said, "Very good. If you had been so obedient earlier, why did we have to make it so ugly? You have to always remember that you're just an outsider. We have the final say in this place!"

Chu Wen didn't waste any time with him. She turned around and got into her luxurious ride. Hadden Lyle shamelessly wanted to follow her, but he was stopped by the bodyguards. He said coldly, "Can you sit here? Get lost!"

Even the defenders laughed at him. In order to save face, Hadden Lyle shouted angrily, "If she doesn't appear in the management department, NONE OF YOU

WILL LIVE!"

An hour later, Chu Wen sat in the management department's meeting room surrounded by bodyguards. Yu Tian and Meng Xiaoyu followed closely behind.

At this moment, the suited Raqqa walked into the meeting room and glared at Chu Wen in disgust.

What he didn't know was that from the moment he entered the room, Yu Tian had started to use his phone to shoot. Moreover, all the content was broadcasted live on the city's most lively plaza's big screen.

Chu Xuan's voice immediately sounded in Yu Tian's earpiece. She said, "I've already connected to a portion of the city's internet platforms. From now on, Chu Wen will become a celebrity!"

At this moment, there were at least 20 million people watching this live broadcast.

Harden Lyell was like a dog in front of Raqqa. He bowed and said, "Mr. Raqqa, I've already brought Chu Wen to you!"

Raqqa did not even look at him and said coldly, "Get lost from here!"

The crowd booed at the same time. The usually amiable management department Raqqa was actually so rude and rude.

At the same time, Chu Xuan also cut off all the phone signals of Raqqa and blocked the signal of the entire management department building.

They could not see the live broadcast outside at all.

Those who saw it couldn't make a call even if they wanted to. Meanwhile, Yu Tian was standing at the door of the conference room. It was impossible for anyone to break in.

At this time, Raqqa loosened his tie and said gloomily, "If you don't want the explosion to continue, shut down your company immediately and leave Metropolis!"

Chapter 504 – Chapter 504, Who Is The Winner

Thank you readers!

Chu Wen was very calm at this moment. Yu Tian was right behind her. What was there to be afraid of?

She asked coldly and arrogantly, "Mr. Raqqa, I Want to know, if I choose not to leave, will you still let the explosion continue? You won't even care about the innocent people in this city..,

just for your own benefit, you will recklessly trample on the lives of these people?"

Raqqa said indifferently, "You're right. I'm not the only one who wants you to leave, but you've never put us in your eyes. You've even forgotten who's in charge here"

"A Metropolis Without You is the best metropolis. As long as you're here, the explosions will continue, and people will continue to die!"

Chu Wen smiled indifferently and suddenly asked, "It was your nephew, Powell Trus, who did it, right? and the person who ordered these two explosions should also be you, the managing director of the Metropolis, Mr. Raqqa, right?"

Raqqa pretended to be pretentious and said casually without thinking, "It seems that your information is still very accurate. Since you guys already know, I can also tell you clearly"

"I was the one who directed these explosions, but you can't blame me. It was you and Yu Tian who asked me to do this. If you didn't cause trouble here, there wouldn't have been such an explosion"

"Moreover, what I can't accept the most is that Yu Tian actually stole trillions of gold from the World Bank. Just based on this, he should die!"

Chu Wen sneered and said, "You're talking nonsense. Everyone in the world knows that our Chu family controls one-third of the world's wealth. It's not just trillions. Do you think Yu Tian would go and steal gold?"

"Moreover, can someone with a little intelligence think that the World Bank, which is worth trillions of gold, is so easy to snatch? Putting aside their defense system, it would take a few days to move that much gold,

“Do you really think that it's as simple as you say it is, that you can just take it away?”
“Moreover, according to the intelligence gathered by our Chu family's independent intelligence department, you've always wanted to enter the highest management department,

“So, you wanted to use this method to coerce the senior management department into agreeing to your request. Now, you have your perverted nephew planting bombs everywhere and killing innocent civilians. Who is the one who should get the hell out of Metropolis?”

After Yu Tian heard this, he cheered in his heart.

These words were domineering.

Raqa furrowed his brows tightly. He wanted to argue with her, but he felt that there was no need.

Now that the initiative was in his hands, was there a need to waste his breath on her?

He just smiled coldly and said disdainfully, “You can say whatever you want, but in the end, you still have to leave the metropolis obediently under my orders, no matter what, the winner will always be me!”

This sentence had already spread throughout the entire super nation, and hundreds of millions of people were watching.

The shock it caused was practically devastating.

Especially in the metropolis, when they saw this, everyone became irritable.

“That devil, Raqa, I want to burn him to death!”

“My parents were killed by his nephew's explosion. I want to kill him with my own hands!”

“Let's all go to the management department. We want to make him pay the price!”

In the Super Management Department, in the Office of the Supreme President.

After the president and more than ten people watched the video with heavy expressions, they were so angry that they couldn't speak.

At this time, the President of the business management department said nervously, “President, many of the senior executives of the senior management department requested to see their own World Bank Reserves, the senior president of the European region even said that if they couldn't see it, they would even use force!”

The CEO loosened his tie and said gloomily, "How are we going to convince them now?"

Everyone fell silent. Now the whole world knew what that idiot, Raqqa, had said. It was useless to say anything now unless they got back all the gold that had been stolen.

Seeing that everyone was silent, the CEO looked coldly at the senior CEO of PBG, Dunn Morrison, and asked with narrowed eyes, "Didn't you say that you would kill Yu Tian?"

Dunn Morrison did not even think about it. He said helplessly, "We can't kill him. Even if we use all sorts of methods, with the current situation, the metropolis will definitely lose control. Why don't we give up on Raqqa?"

"As for the gold, we are 100% sure that it is all in Yu Tian's hands. However, no one will believe it even if we say it out loud. My suggestion is to spend money to buy back the gold!"

The CEO snorted and said, "Do you think I will listen to such an idiotic suggestion? We need to spend our own money to buy back the things that were stolen by others. Are we so weak now?"

Everyone shook their heads.

"That's right. This is equivalent to us eating our own poop back!"

"And we are eating it while others are laughing at us!"

"We don't even have the ability to add some pepper noodles. Mr. Dunn Morrison, don't PBG have a lot of developers? Why don't you let him eat

Dunn Morrison slammed the table and stood up. He said in an extremely serious tone, "They've already eaten. I can clearly let you know that Yu Tian's ability is beyond your imagination!"

"He used less than a month to take the entire Sean into his hands. He has only been in Metropolis for less than ten days, and now the metropolis is out of control."

"Why don't you think about it carefully? Why did he do that?" "Compared to the losses of the entire superpower, the trillions of gold is just a value of existence. It has no effect at all."

The senior tactician of PBG had already started to act. She would soon get close to Yu Tian and control everything about him. Now, we took a step back for the sake of further progress, however, you idiots would only laugh at others, but you wouldn't see your own

incompetence. Right now, only PBG is thinking about how to fight Yu Tian, a€?President, this is my opinion. If you have a better idea, you can use it. Pll take my leave First! a€?

Duane Morrison didn't want to stay here for even a second.

Everyone looked at each other, speechless from being scolded.

Metropolis.

Chu Xuan turned on all the signals, and Yu Tian no longer used his power to stop others from entering the meeting room.

When Raqqa heard everything, he was completely dumbfounded.

The fear in his heart was like a collapsing iceberg, completely collapsing.

At this time, Meng Xiaoyu also turned off her skills. Yu Tian suddenly appeared in front of him, scaring Raqqa into a state of panic.

Yu Tian, on the other hand, calmly sat beside Chu Wen and kissed her first. Then, he said coldly, a€?This scene is really wonderful. Mr. Raqqa, you should go get an Oscar,

a€?But how are you going to deal with the protesters outside? a€?If Pm not wrong, the senior management department is ready to abandon you! a€?

?Chapter 505 – Chapter 505, Art

Thank you readers!

As soon as Yu Tian finished speaking, Raqqa's phone rang.

He trembled as he picked up the call.

The voice of the supreme CEO sounded angrily.

a€?How could I have agreed to let an idiot like you become the CEO of Metropolis? You Idiot made everyone go crazy and even forced the Super Management department to beg for forgiveness like a dog,

a€?Listen carefully. The senior management department and I will not stand on your side. Now, you can face those crazy people yourself!a€?

After hanging up, Raqqa's face was as white as a sheet of paper.

Yu Tian was right. He had been abandoned.

He slammed the phone on the ground and begged Yu Tian, "I can tell you everything. Let Me Live!"

Yu Tian said indifferently, "Tell me!"

"It was PBG's Annie Ryan who asked me to do this, but what she said was all lies. I Can't enter the senior management department at all. I was used!" Raqqa said angrily.

However, Yu Tian shook his head disdainfully and said coldly, "It seems that I can't help you. Only your nephew can help you. If he continues to kill, you won't be able to live either!"

At this moment, Chu Wen's phone rang.

After a few words, Chu Wen turned around and said to Yu Tian hatefully, "Our third shopping mall has been destroyed. More than 700 people have died and injured!"

Yu Tian only nodded slightly and then said coldly to Raqqa, "Do you have the ability to stop him?"

Raqqa shook his head helplessly and said, "No one can stop him. Trus will continue to do so until you all disappear!"

Since that was the case, Yu Tian did not want to waste any more time. He stood up and said, "You should just die!"

After saying that, Meng Xiaoyu immediately activated her skill and the two of them instantly disappeared.

Chu Wen also stood up and said, "What a pity. Mr. Raqqa, you are not the one who won in the end!"

After saying that, Chu Wen gave him a disdainful look and turned around to leave.

An hour later, in Raqqa's office, Raqqa, who had drunk an entire bottle of strong liquor, gently opened the drawer and took out the weapon inside. He aimed it at his forehead in pain.

When the people outside the office heard the muffled sound, they immediately rushed into the office. Raqqa was already lying in a pool of blood.

However, his suicide did not calm down the protesters outside. Instead, it became even more violent.

More people joined in. Some even used Molotov cocktails to attack the management building. The protest scene was filled with thick smoke. Even the defenders could not stop the angry crowd.

Soon, the Metropolitan Defense Headquarters held a press conference and announced that the Defense Department would take over the management of the city.

At this moment, Yu Tian was wondering where Powell Trus would attack next?

Although he didn't care about the destruction of the malls and the deaths of so many people, if he kept letting him do this, more and more innocent people would die. He still had to stop him.

Currently, there were a total of seven malls in the entire metropolis that belonged to him.

According to the route, the three malls in front of him and the one behind him were almost in the shape of a circle.

Then the fourth mall was the one on Bruce Avenue.

Moreover, judging from the explosions in front, there would be an explosion every two hours on average.

Thinking of this, Yu Tian looked at the time. There was exactly half an hour left until two hours.

At this time, Chu Xuan had already found a photo of Baltrus in the database of the metropolis.

Yu Tian looked at the thin and weak young man in the photo. He shook his head and sighed.

How could a person who looked pretty good be a murderer?

There was a saying that was true. One could not tell a person's heart from their face.

The more good-looking a person was, the bloodier their heart would be.

Half an hour later, Yu Tian arrived at Bruce Mall.

This was also the largest of the seven malls. Because of the continuous explosions, there were no longer many shoppers in the mall.

It seemed especially deserted.

Yu Tian came to the mall manager and ordered, "Immediately get all the employees to leave the mall. Don't leave anyone behind!"

The manager had wanted to do this for a long time. The store had been exploding all the time, and everyone who worked in the store was terrified.

Now that Yu Tian had given the order, everyone ran out of the store impatiently and closed all the entrances and exits, leaving only the main door open.

Yu Tian sat in the garden in the middle of the store, quietly waiting for Powell and Trus to appear.

Time ticked by. Just two hours later, a loud sound appeared above Yu Tian's head.

Yu Tian suddenly raised his head and looked up. The vault of the entire shopping mall began to collapse amidst the violent explosion.

The ruins created by the explosion fell down violently.

Yu Tian jumped a few times and avoided these ruins. He then stepped on the ground and floated up.

Powell Trus couldn't have gone far. He was already nearby.

Yu Tian jumped out of the mall despite the ruins.

In the dust, he saw a black figure walking away.

No one would be so calm in the explosion. This person must be Powell Trus, especially his dog-like hair. No one else would have it.

Yu Tian sped up and soon caught up with Powell Trus. Without saying anything, he raised his hand and threw a punch.

There was nothing to dawdle with this killer. He could just kill him.

This punch sent Powell Trus flying a few meters away.

Yu Tian caught up with him. Before Powell Trus could get up, he stomped on his head.

He stomped Trus's head into the ground and stopped moving.

Yu Tian smugly clapped his hands and said coldly, "Don't be so perverted in your next life. You can totally become a singer or some other artist!"

After saying that, Yu Tian turned around and wanted to leave, but truth, who had his head in the ground, suddenly smiled and said, "Do you like music too? Do you want to listen to my music?"

"What the hell?" Yu Tian suddenly turned around and looked at Trus. This guy actually sat up.

After being hit so hard by him, he was not injured at all. Instead, he said with a smile on his face, "Why don't we listen to a piece of music together? I think you will definitely like him!"

"I don't want to listen to your father!"

Yu Tian unleashed his full strength and kicked Trus on the head, kicking him into the ground. After a tremor, a big pit appeared on the ground.

"I'll see if you're still alive this time."

However, a few seconds later, truth sat up again and laughed disdainfully.. "Why are all of You So Violent? Can't we use an artistic method to communicate?"

?Chapter 506 – Chapter 506, Snatching Away The Golden Needle

Thank you readers!

Yu Tian was especially surprised. What kind of monster was this guy?

He couldn't even be beaten to death?

He still wanted to have an artistic exchange with me? An immortal artist?

I don't believe that evil.

Yu Tian then controlled a metal bar with his mind, instantly turning it into hundreds of tons of weight.

It directly pressed on Trus'body.

However, Yu Tian did not leave immediately. He just wanted to see if Trus would die or not?

After waiting for a full ten minutes, there was no movement.

Only then did Yu Tian wipe his sweat and let out a sigh of relief.

He thought it was really a monster that could not be killed.

He turned around and was about to leave, but he found Trus sitting in front of him again.

This guy actually dug a freaking tunnel and drilled out.

Yu Tian frowned. Since he could not kill him, then it would hurt him to death.

Then, he pulled out the golden needles and stabbed them into Trus'forehead and neck at lightning speed.

Intense pain instantly appeared. Trus could clearly move, but he didn't pull out the needles.

Instead, he asked excitedly, "Is this what pain feels like? It feels so good. Pve never felt like this before. It's so satisfying. Can you make me feel more pain?"

Yu Tian simply stabbed all ten golden needles into his body, the most painful part of his body.

Since he wanted to feel pain, there was no need to be polite.

He was a F * cking monster.

However, Trus laughed excitedly.

As he laughed, he said, "That's great. I finally know the taste of pain. It's actually so wonderful. I really like the feeling of being human!"

Yu Tian licked his lips impatiently and said with a sad face, "I thought I was not human enough. You are even less human than me!"

Truth suddenly stood up. The piercing pain of the golden needles had no effect on him at all.

Before Yu Tian could look at him, truth suddenly slammed his shoulder into his heart.

Yu Tian was like a kite with a broken string. He flew back a few meters and smashed into a brick wall.

What made Yu Tian feel even more pain was the intense pain in his heart. It was clear that his entire heart had been smashed into pieces.

If he did not have the cultivation technique to protect his body, he would have been smashed to death.

This Trus was interesting. He could not be beaten to death, and his strength was so strong. Wasn't the opponent he wanted right here?

However, Trus only glanced at him indifferently and instantly disappeared without a trace.

Yu Tian immediately used his internal energy to heal his injuries. The golden needle had been snatched away by that idiot, so he could only do it this way.

Fortunately, the healing effect of the cultivation method was still very good. In less than an hour, Yu Tian stretched his limbs and stood up.

No matter what, he had to get the golden needle back first. That was his precious treasure.

He had originally wanted to call Chu Wen, but when he took it out, his phone was also shattered.

Yu Tian chuckled and threw the phone away. He said coldly, "If I can't kill you, I'm not even Yu Tian!"

He first went to a nearby store to buy a phone and then called Chu Wen. Send everyone out. Helicopters, drones, find the location of that Trus!

Chu Wen asked in surprise, "You didn't kill him?"

Yu Tian said impatiently, "Not only did I not kill him, he even stole my golden needles. Stop talking nonsense and quickly find him!"

He hung up the phone and was just about to find a place to eat when a tall and sexy beauty behind him said as if she was trying to strike up a conversation,

"Sir, do you have a Fire?"

Looking back, Yu Tian felt that this woman's temperament was really not bad, especially her legs under her short skirt. It was simply perfect.

However, he also understood that a woman who took the initiative to strike up a conversation was like a F * cking bomb.

You Don't know when it will explode and it will spray all over your body.

Therefore, Yu Tian said indifferently, "I don't F * cking smoke. Where did the fire come from?"

However, the beautiful woman smiled, showing a mature beauty.

However, she took out her lighter and leisurely lit the cigarette with golden edges. She elegantly and sexily exhaled a puff of smoke with a faint fragrance.

“Actually, I have my own fire. I just wanted to find an excuse to talk to you!” She looked at Yu Tian proudly. Her red lips moved slightly as if they were filled with a seductive flame.

However, Yu Tian chuckled and said indifferently, “Then let's talk about it. What do you want?”

The beautiful woman then sat on the bench by the roadside. Her beautiful legs were elegantly stacked together, but she deliberately threw the red high heels on her feet to the ground, revealing her beautiful feet with perfect lines.

“Aiyo, my shoes fell off. Excuse me, gentleman, can you help me?”

As she spoke, she deliberately stretched her feet in front of Yu Tian.

Yu Tian immediately picked up the high-heeled shoes, but he had no intention of putting them on for her. He casually threw them across the road.

The high-heeled shoes were falling on the head of a middle-aged man. This guy immediately scolded, “Who the F * Ck did this? Why didn't you throw the high-heeled shoes over as well?”

The beauty did not care about this at all. She continued to elegantly sway her feet and calmly said, “Mr. Yu Tian, you are much more irritable than others say, I really doubt the people from PBG. Why aren't they your match?”

Yu Tian had long seen that she was not that simple. He calmly said, “That's because the people from PBG are each more idiotic than the last. Other than using a stick to bully the developers everywhere, they have no other abilities!

The beauty chuckled and flicked the ashes. She seemed to agree with Yu Tian's point of view. She said slowly, “When I realized that my thoughts were the same as yours”

I also felt that it was very laughable, but I had no choice but to eat PBG's rice bowl. If there was a chance, I would rather be a rich man, after all, this was the thought of every woman, wasn't it? Oh right, my name is Anne-Ryan, I'm the Director of the Senior Tactical Department of PBG. I think you've heard of my name at Raqqa's Place!

Yu Tian was still indifferent. There were really all kinds of people in PBG, but this Anne-Ryan was different from others. At least this woman was more elegant when she acted like a hooligan.

He immediately asked, “Then Miss Anne, you didn't come here just to show me your stinky feet, right? Tell me your purpose of coming..,

“I don't have much time to waste with you!

Annie Ryan said unhurriedly, “I know who you’re looking for. If you're willing to listen to me patiently, I'll tell you how to kill Trus later!

He could listen to her.

Yu Tian sat beside her patiently. Annie Ryan leaned on his shoulder like a lover and whispered, “Your shoulder is so soft, and what I want to tell you is—

The Senior Management Department intends to buy all the gold in your hands.

They are willing to pay 27 trillion, and this idea was thought up by the highest

CEO of PBG, Duane Morrison, he wants to use this method to let you lower your guard first, and then let me find an opportunity to get the equipment in your hands and destroy your entire business empire!

Yu Tian frowned slightly. This was a really good idea..

?Chapter 507 – Chapter 507, Human Weakness

Thank you readers!

However, Yu Tian never believed in information that came to his doorstep, especially the people from PBG. They were the most untrustworthy people in the world.

Therefore, Yu Tian still asked coldly, “These are of no use to me. What I want to know is, what do you want?”

Annie Ryan said without hesitation, “I want the best life in the world. At the same time, I want to get the protection of you and the Chu family. After all, betraying PBG is no different from seeking death,

in order to make you not go back on your words, I want to enter the upper echelons of the group. What I can give you is all the information about PBG!”

Yu Tian thought about it. This deal was acceptable.

However, the information about PBG was meaningless.

Other than killing second-generation developers everywhere and occasionally scheming behind their backs, they had no other abilities.

Yu Tian narrowed his eyes and said coldly, “If you can provide me with information about that indestructible Trus, I can consider accepting your proposal!

“Indestructible Ryan laughed, as if Yu Tian was even more ridiculous than this sentence.

After laughing enough, she said disdainfully, “Although Trus' ability is very powerful, as long as he is a human, he has a weakness. Trus' father is an ordinary person”

“And his mother is also a natural-born superpowered person. Trus inherited his mother's genes and became a monster that doesn't know pain, and his body will not be destroyed,

“But to kill him, it is also a special honor. We, PBG, have done a detailed analysis of Trus before. We found that he is particularly obsessed with opera,

“Especially those sad operas. He can listen to them for an entire year without eating or sleeping. When he is obsessed with opera, his brain cells are not above his thoughts. This is when he is at his most vulnerable,

“As long as we attack him now, we will definitely kill him!

Yu Tian nodded slightly and stood up. “Tell your boss that I didn't take the gold. In reality, I don't care about money or gold at all,

“The Chu family controls one-third of the world's wealth and can buy ten super countries. Why should I steal his gold? “You PBG people really think highly of me,

“But have you forgotten that there are other developers in this world? Do you really think that I am the only one? “And you, you B * TCH, if you want to approach me in this way, it's not impossible, but you have to be able to afford Yu Tian threw down these words elegantly and left without looking back.

Annie Ryan's smile gradually disappeared. Yu Tian was indeed not a simple person.

Fortunately, his plan was still considered perfect. It was impossible for him to see through it.

But he said that the gold was not in his hands. Could it be true?

She immediately took out her phone and called Duane Morrison.

After Duane Morrison heard it, a trace of doubt rose in his eyes. He said in a deep voice, “His reason is indeed very convincing, but it can not be confirmed right now. The gold is not in his hands”

“Victor has shared a piece of information with us. That Guy Tyrone has been selling gold recently. I will ask someone to put some pressure on Tyrone. I believe that he will tell us who the gold belongs to”

“Your plan is also going very well. Continue to get close to Yu Tian and try to collect everything about him!”

Annie Lane hung up the phone. She simply kicked off her other high-heeled shoe and left barefoot.

At this time, Yu Tian arrived at the Metropolitan Opera House.

In the manager's office, Yu Tian said to a middle-aged man who was eating pizza and had a big belly, “I want to buy your opera house and invite the best opera actors in the world to perform an opera!”

The manager snorted as he ate the pizza and said disdainfully, “Do you think this is eggplant-flavored cake at a hamburger shop? You can buy it if you want. Do you have a show plan? Do you have a company? Do you have an advertiser? I realize that you don’t have anything. You just don’t know anything. Go back and understand what opera is, Kid?”

Then come here and tell me about your dream. Don't bother me eating pizza now. It's the best in the world!

Yu Tian was already in a bad mood. The golden needle had been snatched away by that idiot, but this idiot was still here, gritting his teeth while eating pizza. Without saying a word, he picked up the pizza and directly spat it on the manager's face.

The manager didn't even know what had happened? Wiping the cheese all over his face, he angrily scolded, “You ruined a good pizza and even spat it on my face like facial cleanser,

“Now get out of here, or I'll get security to come and tear you, a skinny man from the east, apart!”

Yu Tian took out several wads of cash from his backpack and threw them in front of him.

Under the manager's puzzled gaze, Yu Tian said indifferently, “This money is enough to compensate your family, right? In a minute, I'll let you die holding this pile of rotten pizza.”

To be more precise, you will be beaten to death here by me!

The manager wiped the cheese on his face. From Yu Tian's cold gaze, he understood that he was not joking.

Moreover, this money was real. It was a total of 100,000 international coins.

This was money. He casually threw out 100,000 international coins just to beat up an opera house manager. Then, he would definitely take out more money to do something more exciting.

Thinking of this, the manager hurriedly smiled and said, "Actually, we can talk about it slowly, as if we are good friends who have known each other for many years. Now, please tell me, how many days do you want to buy the Opera House?"

How many days do you want to perform? Who do the artists hire? Do you need to provide roasted pork legs or call the lap dancers of the Metropolitan Entertainment Palace to do a face-kicking dance first?"

This guy was asking for a beating. If he didn't give him some strength, he would think that he was a pizza with 16 pieces of sausage.

Yu Tian sat back on the sofa and said coldly, "At least you still have some humanity. My request is very simple. Tomorrow Night at six o'clock, I need the best opera artist in the world!"

Sing the saddest opera song in the world. All of this will be done by you. Now, calculate the cost for me immediately!

The manager was stunned for a long time. He had never heard of someone organizing a concert like this.

Although he was rich, he really did not know anything about opera performances. He had better explain it to him first.

The manager licked the cheese on his lips and said politely, "Actually, it's like this. Usually, an opera will be prepared, rehearsed, and performed. There will also be costumes, props, makeup, lighting, and so on,

"It will take at least two months, and the fastest would be a month. So, you said six o'clock tomorrow. This is simply a fantasy!"

Yu Tian laughed coldly..

?Chapter 508 – Chapter 508, This Was The Opportunity

Thank you readers!

Yu Tian couldn't be bothered to waste his breath on this fat pig. He only said one sentence proudly.

"The cost can be doubled, or even more. I don't believe that there's anything in this world that money can't buy, or time that can't be bought!"

When the manager heard this, he didn't say anything else. He directly took the computer and pressed it frantically.

Very soon, the manager placed the computer in front of Yu Tian and said politely, "If you're willing to pay this price, there won't be any problems with the performance at Six o'clock Tomorrow Night. Moreover, I guarantee that you'll be satisfied!"

Yu Tian looked down and saw that the price was 50 million international dollars.

He just smiled indifferently and said, "I will give you 60 million. From now on, you will cover the sky and cover the Earth with publicity. Even the toilet will be advertised for me!"

After saying that, Yu Tian directly transferred 60 million international dollars to the manager.

The moment the manager received the money, he immediately stood up and said, "Not to mention the toilet, if you want to put the advertisement on the highest CEO's butt, I can do it!"

Yu Tian did not want to listen to his nonsense, so he immediately stood up and left.

With money, everything was easy. The next morning, when Yu Tian woke up, he saw many hot air balloons floating in the sky with advertisements for opera performances.

With such publicity, it was impossible for Trulus not to see it.

In fact, Trulus, who had woken up in a rockery in the park, had really seen it.

And he had clearly seen that one of the artists performing was his favorite.

He had long thought that one day he would be able to sit in front of her and listen to her sing his favorite opera with the best voice in the world. But to participate in a performance, he had to first have a suit.

Thinking of this, he got up and went to a suit shop.

The Boss felt that this man with a silly gaze did not seem to be here to buy a suit, but to get some benefits.

He said disdainfully, "I'm sorry, sir. We've already given away all the free socks. Tomorrow, we'll give away diapers and spoons for drinking soup for free. Remember to come early, otherwise, you can only wait for the day after tomorrow's Trouser Forks!"

Before he finished his words, the boss flew out and plunged into the wall, dying.

dying.

Trus casually picked up a black suit and put it on. He looked at himself in the mirror for a full ten minutes before he felt that he should get a tie.

At this moment, the defenders who had received the news had already surrounded the suit store.

They had even sent out tanks and heavy weapons.

At this moment, the first attacker rushed into the suit store.

The attackers outside all aimed their weapons at the door.

However, the team that entered did not make any sound.

The commander nervously looked at the second team and ordered, "It's your turn. Go Up and let that demon know how powerful we are!"

Just as the second squad was approaching the door, a loud bang came from the suit shop.

Then, the explosion of flames and shock waves sent the second squad flying.

Powell Trus walked out of the flames with a cold gaze and said indifferently, "I just want to buy a suit!"

The commander shouted angrily, "Did you pay? Tank, kill him!"

Before the tank could fire, truth had already jumped into the air and landed on the tank, crushing it into a pile of rubble.

The moment he landed, truth threw the grenades he had snatched into the crowd.

A series of explosions rang out, and the defenders were thrown into chaos.

Dozens of attackers fired at the same time, but truth swaggered away, not caring about their attacks at all.

At this time, an armed helicopter appeared above Trulus' head.

Regardless of whether it was the downtown area or the innocent crowd, it was like a mad man, shooting and bombarding.

Trulus felt that the helicopter was like a mosquito. It was really noisy, and he immediately rushed into a building nearby.

The people in the building did not know what happened at all. They were shot by the helicopter, and dozens of people fell in a pool of blood.

Anyone who tried to stop Terrus was knocked away by Terrus, and the entire building fell into chaos.

On the rooftop opposite the building, Yu Tian looked at the chaotic scene in front of him indifferently, feeling that it was especially funny.

Those attackers were like idiots. They knew that weapons couldn't hurt Terrus, yet they still rushed forward without hesitation.

Since they liked to use weapons so much, they might as well just throw a big warhead and blow up the entire Metropolis into ruins. Wouldn't that be better?

At this moment, Trus suddenly appeared from the roof of the building and jumped directly towards the helicopter.

The helicopter's propellers were all killed by this guy. He even threw the helicopter towards the building.

The moment the helicopter lost control and crashed into the building, it immediately exploded with sparks, causing the entire building to be on fire.

At this moment, Trus had already disappeared.

Yu Tian sighed. If this Trus wasn't someone who liked to kill wantonly, getting him under his command would have been a pretty good fighting force.

But how could there be so much perfection in the world?

If all the good things were his, then this world should have been destroyed long ago.

In the blink of an eye, it was five o'clock in the evening. The opera house was already preparing to perform.

Trus had arrived very early, but if he wanted to enter, he had to buy tickets.

He did not know what tickets were at all, so he took a step forward and walked in.

The security guard who had received the tickets stepped forward and stopped him. "Hey, Buddy, you have to give me the tickets. If you don't have the tickets, go buy one from the aunt over there, or go home and watch the recording of the performance!"

Without saying anything else, Trus grabbed the security guard by the neck and said indifferently, "I just want to listen to the opera. I don't have any tickets!"

The security guard was so scared that his head was buzzing. He hurriedly nodded and said, "Okay, you can enter now!"

At this time, there were already many people from the upper class and opera lovers sitting in their seats, waiting for the performance to begin.

Trus went straight to the first row, the best seat in the middle, and sat down.

An old man next to him looked at Trus, then frowned and said, "This isn't your seat. It's the critic's seat. You Can't Sit Here!"

Trus completely ignored him. At this moment, he had long been shocked by the background of the stage.

This was true art.

At this moment, Yu Tian silently came behind him and sat down gently.

As for the critic, it was a good thing that he did not come. He had saved his life for nothing.

Once it was six o'clock, the opera began immediately.

Yu Tian could not get used to listening to this. The people on the stage pursed their lips like F * cking grooves and even let out ghostly cries. This was really F * cking art.

Meanwhile, Trus was crying as he listened. At this moment, he seemed to be like a character in an opera, experiencing the shocks of those scenes.

Yu Tian saw that this was his chance..

?Chapter 509 – Chapter 509. He Had No Other Choice

Thank you readers!

When truth was in the middle of the opera, it was his weakest moment. Yu Tian saw an opportunity and attacked decisively.

He threw a punch at the back of Truth's head.

However, truth suddenly placed his hand on the back of Truth's head, causing the destructive power of Yu Tian's attack to completely disappear.

Just as Yu Tian was shocked and the surrounding people were stunned, Powell and truth slowly turned around and looked at Yu Tian pleadingly.

“Can you let me enjoy this opera properly? If you don't want innocent people to die with you!”

Yu Tian raised his eyebrows and said indifferently, “Of course, I also like the howls from above. Just Listen Quietly!”

Trus nodded and said gratefully, “Thank you!”

Yu Tian did it again and smiled bitterly helplessly.

He had been played by Annie Lane. Trus had no weaknesses at all. Even when he was listening to the opera, his defense was terrifyingly high.

Moreover, it was obvious that it was impossible to use force to kill this unkillable monster.

If he wanted to take his life, he could only use other methods.

Yu Tian narrowed his eyes and turned his 100% IQ completely.

Very soon, Yu Tian's eyes flashed and he thought of a very good idea.

He stood up and went backstage. When he saw the manager, he ordered, “Extend the performance for a few days. The fees are not a problem. You can only do it if I say so!

The manager did not say anything else. As long as there was money to be made, it would be good to perform every day.

Yu Tian took out his phone and turned on the encryption mode. Then, he called Monica.

“Monica, I need your help. Can your purification skill evolve for people who were born with the skill?”

Monica thought for a moment and said with uncertainty, “I've never done this before, but I can try to see if you've met an enemy stronger than you, right?”

Yu Tian didn't even think about it and said disdainfully, “Don't waste your time with me. He's not strong, but he can't be killed. He can't be stabbed in the eye, pursed his lips, or kicked in the pants. So, I have to think of something else ,

“Go to the metropolis now. I'll come and pick you up personally!

After the call was hung up, the opera was almost over. The others had already left, but Powell and Trus were still sitting in the empty theater, reminiscing about the shock of the entire performance.

At this moment, the entire opera house was surrounded by fully armed defenders. The super attackers were ready to enter the theater.

Yu Tian also came to True side and slowly sat down. He said indifferently, "Give me back my golden needle!"

To Yu Tian's surprise, Trus did not hesitate to give him the golden needle. He even said slowly, "You were the one who made this opera, right? You wanted to defeat me, right?"

"But I'm still very grateful to you. Even if you really think that way, at least you let me enjoy the best art in the world. You should leave. You Can't kill me. No one in this world can kill me!"

Yu Tian put away the golden needle and said indifferently, "Actually, you like to listen to this because of contradictions. You always question why God let you live so lonely when he gave you an immortal body,

"You think that your life is like a sad drama in an opera. You Don't want to kill. The sadness in your heart is because you killed too much. You know it's wrong, but you never choose the right!"

"This is why you like the opera. Because you see yourself in it!"

Powell's body trembled. Yu Tian's words actually reached his heart.

He looked at Yu Tian with tears in his eyes and said in pain, "They say that I am a devil, but I want to be a person, have my own life, have my own love...",

"But this world has rejected me. Even if I want to be a good person, they will never think that a devil will be a good person. Yu Tian, I don't want to kill you, just like I don't want to kill others"

"But you always want to use your so-called courage to try to kill a so-called devil. Then I will be a devil. So, I will still kill you, but not now!"

Yu Tian snorted disdainfully. "It's all your own choice. Do you know what it means to give up?"

Trus suddenly stood up and shouted, "What do I have to give up? If I have a choice, I'm willing to give up my immortal body. I'm willing to be killed here by you, but can you do it?"

He panted and wiped his tears, then said in a deep voice, "I don't have a choice. This is my destiny!"

After saying that, he turned around and left.

Yu Tian seemed to have the same feeling. He actually didn't know what to say. Sometimes, he didn't have a choice.

But at this moment, the super attackers had already rushed into the theater and surrounded Trus.

The commander shouted loudly, "Don't move, or we will open fire immediately!"

Yu Tian was extremely displeased. How many of these stupid defenders would die before they could stop acting?

He suddenly stood up and shouted, "He's only here to listen to the opera. Can you all stop acting like idiots?"

A portion of the Super Defenders' weapons were aimed at Yu Tian. However, the commander, who was wearing armor and a helmet, coldly ordered, "Our target is Trus. Ignore him!"

All of the weapons were aimed at Trus once again.

Yu Tian laughed. He had been fucking ignored.

However, Trus slowly said, "The two most powerful people in the world are here. How many do you think you can kill? Yu Tian, I have already said that there is no choice. Don't You Believe Me Now?"

However, Yu Tian leaned on the side of the stage and said disdainfully, "Let's do it. If we kill one, we will lose one. I will just watch the fucking show. The more intense the fight, the better!"

Trus suddenly rushed towards the commander. Before the commander could react, he was swung by Trus.

In the blink of an eye, a few defenders were smashed to death.

The defenders immediately opened fire. All kinds of bullets, daggers, flashlights, and folding chairs were swung up and down.

However, in front of Trus, these weapons were not even enough to tickle him. In less than a minute, more than thirty super defenders were all killed.

At this time, truth turned to Yu Tian, who had an indifferent expression, and slowly said, "Can I still hear the Opera Tomorrow?"

Yu Tian snorted and said, "If you like to hear it, then come. In any case, I don't want to listen to those people screaming anymore!"

Truth actually revealed a trace of a smile and said, "Thank you. Then I'll wait until I kill you!"

With this comparison, Yu Tian directly gave him the middle finger and said arrogantly, "I can't fucking kill you. Don't fucking think you can fucking kill me. Stop pretending. Hurry up and scram. I think even the tanks outside are coming!"

Yu Tian was right. Not only were there tanks, armed helicopters, and even an electromagnetic cannon. When Truth saw this scene, he shook his head helplessly.

Chapter 510 was already prepared

No matter what was happening outside, Yu Tian did not even look at it. The more lively it was, the better. He did not even need to do it himself.

If they could kill Truth, wouldn't that be even better?

Yu Tian was thinking about Annie Ryan, this woman.

She told him that when Truth was listening to the opera, she could kill him. But in the end, she almost killed the opera house.

As expected, the people from PBG could not be trusted.

This woman had deliberately gotten close to her. Her plan had been perfect, but she had neglected the most crucial point.

Between Men and women, women could never win.

Why not use this opportunity to directly get rid of the entire PBG through Annie Lane? Wouldn't that be better?

Yu Tian thought of this and looked down at the time. It was probably almost dark outside. He should find a place to eat. He was so hungry that he could eat the wall.

When he walked out of the opera house, it was already a mess outside. Five tanks had been destroyed and were burning. Countless defenders were killed and injured. A few armed helicopters had all crashed to the ground.

This scene was like a war, and it looked extremely tragic.

However, Yu Tian did not care at all. It had nothing to do with him, and he was fucking angry.

Moreover, he was a little envious of Trus. If he wanted to do it, he would do it. How F * cking satisfying was that?

In the blink of an eye, the next morning, Annie Lane arrived at the company headquarters, Yu Tian's office.

When Chu Wen saw the flirtatious Annie Lane, she did not have a good impression of her. She was too lazy to talk to her. She should be busy with her own things.

Yu Tian said indifferently, "You came on time. Please take a seat. Let's not waste time. I'll give you a job. You know, my shopping mall was blown up by that bastard, Trus, like an old lady's pants."

"A lot of work needs to be done by one person. Why don't you take over this business? I need you to give me detailed information, including who hurt their feet and who hurt their legs. You have to be more detailed."

Annie Ryan frowned slightly. Did she come here to collect information about whose feet were injured and whose legs were broken?

She looked at Yu Tian with dissatisfaction and said, "I'm here to be a high-level manager. This is what we agreed on. What do you want me to do now? Do you need me to ask those injured people if they can take a dump?"

Yu Tian chuckled and said indifferently, "You've reminded me. It's okay to ask, but the premise is that you have to understand that I'm in charge here. No matter how high your position is, you have to listen to me!"

Annie was very unwilling to compromise. She arrogantly shook her eyebrows and laughed, "Okay, you're the boss. I can listen to you!"

After saying that, she turned around and left the office.

Chu Wen frowned and said, "What's the competition? What did you promise her?"

However, Yu Tian signaled Chu Wen not to say anything. Instead, he used the encrypted message on the phone to type to Chu Wen, "She's a spy for PBG. She has already planted a bug in my house!"

As expected, she was someone with a background. Chu Wen immediately replied, "Don't tell me you still want to play Milo's tricks?"

"This time, it will be even more fun. I'm prepared to use her to kill the entire PBG!"

At this moment, the phone suddenly rang. Yu Tian immediately picked it up.

It was a call from Tucker. He said with a calm heart, "Tyrone's subordinates sent me a message. He was kidnapped by a group of very mysterious men in

Black!

A faint smile hung on the corner of Yu Tian's mouth. He immediately replied, "I know. You Don't have to worry about it anymore!

It was definitely the work of the PBG or the intelligence department.

They wanted to find out from Tyrone whether the gold was in their hands or not. Fortunately, they had prepared beforehand, so they did not have to worry about this.

At the same time, in a dark room, a man pulled off the black cloth on Tyrone's eyes and asked coldly, "Mr. Tyrone, you only need to answer one question of mine, and then you can leave this place!

Tyrone first adapted to the light in the room. Then, he looked around expressionlessly and found that there were several men in black wearing sunglasses in the room.

He then wiped his nose and said coldly, "I don't want to answer any of your questions!

The man sneered and threw a stack of documents in front of him. Then, he said coldly, "This place is dry. Any random thing is enough for you to risk your life"

"But if you tell me, who has the 70 trillion gold? " "Everything in the information can disappear immediately!

Tyrone smiled easily. "I don't know who has the gold. I just know that if I can't leave here in half an hour, 50 sky demons will fall directly into the city of the highest management department"

"Including the highest management department, they are all within the attack range!

The man did not believe this nonsense at all. He smiled disdainfully and said, "Do you think Pm Scared? Sky Demons are the most powerful in the world developed by Sean and Chuyan Industries.

The attack range is the largest, and it is also the only sky weapon in the world that has an invisibility function and can not be intercepted. The price is 2.7 billion international dollars per weapon. You say you have fifty of them, but I doubt that you can afford one?"

Tyrone did not care about his mockery at all. Instead, he said very confidently, "Do you dare to make a bet with me? If my calculations are not wrong, my people have already started the launch process,

"Because the sky demon uses a satellite to aim vertically, can you look at your satellite? Can it still work normally now?"

The smile on the man's face instantly disappeared. He did not have the courage to make this bet.

If fifty sky demons landed in the city, millions of people in the city would instantly disappear.

He immediately walked out of the room and sent this news to Victor.

Victor, who was currently in the Metropolis, was thinking about how to expel Yu Tian. When he heard this news, cold sweat dripped down his back.

He gritted his teeth and said, "Tyrone did not have the ability to buy the sky demons. This must have been provided to him by Yu Tian. This damn Yu Tian, I really want to kill him with my own hands!

His subordinate was not in the mood to listen to this. He immediately asked,

"Then, Mr. Victor, what should we do now?"

The muscles on Victor's face were twitching with hatred, but he still said helplessly, "Let him get lost!

Half an hour later, Tyrone called Yu Tian in his own territory.

"Mr. Yu, you are still farsighted. Victor is probably dead from anger now,

Hahaha!"

However, Yu Tian said impatiently, "Stop laughing with us. Get lost now. If you dare to play with them, they will treat you as their enemy.

"Go to another country and continue selling gold to me!

?Chapter 510 – Chapter 510, I Was Prepared

Thank you readers!

No matter what happened outside, Yu Tian didn't even look at it. The more lively it was, the better. He didn't even have to do it himself.

If they could kill truth, wouldn't that be even better?

Yu Tian was thinking about Annie Ryan.

She told him that when truth was listening to the opera, he could kill him. But in the end, he almost killed the opera house.

As expected, the people from PBG could not be trusted.

This woman had deliberately gotten close to her. Her plan had been perfect, but she had neglected the most crucial point.

Between Men and women, women could never win.

Why not use this opportunity to directly get rid of the entire PBG through Annie Lane? Wouldn't that be better?

Yu Tian thought of this and looked down at the time. It was probably almost dry outside. He should find a place to eat. He was so hungry that he could eat the wall.

When he walked out of the opera house, it was already a mess outside. Five tanks had been destroyed and were burning. Countless defenders were killed and injured. A few armed helicopters had all crashed to the ground.

This scene was like a war, and it looked extremely tragic.

However, Yu Tian did not care at all. It had nothing to do with him, and he was f * cking angry.

Moreover, he was a little envious of Trus. If he wanted to do it, he would do it. How F * cking satisfying was that?

In the blink of an eye, the next morning, Annie Lane arrived at the company headquarters, Yu Tian's office.

When Chu Wen saw the flirtatious Annie Lane, she did not have a good impression of her. She was too lazy to talk to her. She should be busy with her own things.

Yu Tian said indifferently, "You came on time. Please take a seat. Let's not waste time. I'll give you a job. You know, my shopping mall was blown up by that bastard, Trus, like an old lady's pants."

"A lot of work needs to be done by one person. Why Don't you take over this business? I need you to give me detailed information, including who hurt their feet and who hurt their legs. You have to be more detailed."

“Go do it now!”

Annie Ryan frowned slightly. Did she come here to collect information about whose feet were injured and whose legs were broken?

She looked at Yu Tian with dissatisfaction and said, “I’m here to be a high-level manager. This is what we agreed on. What do you want me to do now? Do you need me to ask those injured people if they can take a dump?” Yu Tian chuckled and said indifferently, “You’ve reminded me. It’s okay to ask, but the premise is that you have to understand that I’m in charge here. No matter how high your position is, you have to listen to me!”

Annie was very unwilling to compromise. She arrogantly shook her eyebrows and laughed, “Okay, you’re the boss. I can listen to you!”

After saying that, she turned around and left the office.

Chu Wen frowned and said, “What’s the competition? What did you promise her?”

However, Yu Tian signaled Chu Wen not to say anything. Instead, he used the encrypted message on the phone to type to Chu Wen, “She’s a spy for PBG. She has already planted a bug in my house!”

As expected, she was someone with a background. Chu Wen immediately replied, “Don’t tell me you still want to play Milo’s tricks?”

“This time, it will be even more fun. I’m prepared to use her to kill the entire PBG!”

At this moment, the phone suddenly rang. Yu Tian immediately picked it up.

It was a call from Tucker. He said with a calm heart, “Tyrone’s subordinates sent me a message. He was kidnapped by a group of very mysterious men in Black!”

A faint smile hung on the corner of Yu Tian’s mouth. He immediately replied, “I know. You Don’t have to worry about it anymore!”

It was definitely the work of the PBG or the intelligence department.

They wanted to find out from Tyrone whether the gold was in their hands or not. Fortunately, they had prepared beforehand, so they did not have to worry about this.

At the same time, in a dark room, a man pulled off the black cloth on Tyrone’s eyes and asked coldly, “Mr. Tyrone, you only need to answer one question of mine, and then you can leave this place!”

Tyrone first adapted to the light in the room. Then, he looked around expressionlessly and found that there were several men in black wearing sunglasses in the room.

He then wiped his nose and said coldly, "I don't want to answer any of your questions!"

The man sneered and threw a stack of documents in front of him. Then, he said coldly, "This place is dry. Any random thing is enough for you to risk your life!"

"But if you tell me, who has the 70 trillion gold?" "Everything in the information can disappear immediately!"

Tyrone smiled easily. "I don't know who has the gold. I just know that if I can't leave here in half an hour, 50 sky demons will fall directly into the city of the highest management department!"

"Including the highest management department, they are all within the attack range!"

The man did not believe this nonsense at all. He smiled disdainfully and said, "Do you think I'm scared? Sky Demons are the most powerful in the world developed by Sean and Chuyan Industries."

The attack range is the largest, and it is also the only sky weapon in the world that has an invisibility function and can not be intercepted. The price is 2.7 billion international dollars per weapon. You say you have fifty of them, but I doubt that you can afford one?"

Tyrone did not care about his mockery at all. Instead, he said very confidently, "Do you dare to make a bet with me? If my calculations are not wrong, my people have already started the launch process,"

"Because the sky demon uses a satellite to aim vertically, can you look at your satellite? Can it still work normally now?"

The smile on the man's face instantly disappeared. He did not have the courage to make this bet.

If fifty sky demons landed in the city, millions of people in the city would instantly disappear.

He immediately walked out of the room and sent this news to Victor.

Victor, who was currently in the Metropolis, was thinking about how to expel Yu Tian. When he heard this news, cold sweat dripped down his back.

He gritted his teeth and said, "Tyrone did not have the ability to buy the sky demons. This must have been provided to him by Yu Tian. This damn Yu Tian, I really want to kill him with my own hands!"

His subordinate was not in the mood to listen to this. He immediately asked,

"Then, Mr. Victor, what should we do now?"

The muscles on Victor's face were twitching with hatred, but he still said helplessly, "Let him get lost!"

Half an hour later, Tyrone called Yu Tian in his own territory.

"Mr. Yu, you are still farsighted. Victor is probably dead from anger now,

Hahaha!"

However, Yu Tian said impatiently, "Stop laughing with us. Get lost now. If you dare to play with them, they will treat you as their enemy." "Go to another country and continue selling gold to me!"

I Have 108 Older Sisters #Chapter 511 - Read I Have 108 Older Sisters Chapter 511

Chapter 511 – : Chapter 511 Became His Subordinate

Thank you readers!

At the mention of gold, Tyrone became excited.

"Right now, the price of gold in the world is rising crazily. Everyone knows that the gold in Metropolis has been robbed. This is the best opportunity to make money. Mr. Yu, my plan is to do nothing for the rest of my life,

"I came here specifically to sell you gold. In the future, when I buy an island, I'll raise more girls. Just thinking about it makes me feel beautiful!"

Yu Tian really did not want to waste time with him. He said coldly, "You're dreaming. Raise more girls and raise more pigs. When you're hungry, you can even roast a pork leg to eat!"

After saying that, Yu Tian directly hung up the phone. He looked at the time and then looked at the airport. Monica should have arrived by now.

As they were talking, Monica, who was wearing sunglasses and a hat, dragged a red suitcase and quickly walked out of the airport.

Yu Tian nodded to Meng Xiaoyu, and the two of them immediately went up to meet her.

However, Monica could not see the two invisible people. When Yu Tian spoke, she was so scared that she almost swung the suitcase.

Meng Xiaoyu quickly pulled her into the invisible range, and only then did she see Yu Tian.

She touched her shocked heart and complained, "How many people are you going to scare to death? I thought I saw a ghost in broad daylight!"

Yu Tian said disdainfully, "Where did the ghost come from? Now, there are my enemies everywhere. Even the uncle who cleans the latrine has to fight me with a broom when he sees me."

Stop talking nonsense. Let's go to the secret residence first. I'll tell you how that Trus pretends to be!

After coming to a villa in the wealthy district, Monica basically knew what was special about Powell Trus.

She put down the suitcase and slowly said, "He belongs to the original developer. There are only a few people like him in the world. The Beatrice and Locela you mentioned before are both natural developers,

"I don't know if my skills will work in front of them. Let's give it a try first!"

In the blink of an eye, it was evening. The opera at the opera house continued, and Trus once again sat in that seat.

He was the only audience in the entire opera house, as well as Yu Tian and the others who were invisible.

Monica took a step forward and looked at Trus coldly. She put her hands on her forehead and immediately began to purify.

The interfering brain waves instantly pierced into Trus' brain. Yu Tian saw that the guy seemed to be in extreme pain as he pulled his hair with all his strength.

The artists who were performing the opera were so frightened that they ran backstage.

Yu Tian saw an opportunity and immediately kicked Trus onto the stage.

Yu Tian clearly felt that the point of force had changed. Previously, when he was beating him, it was as if he was beating a tree. This time, it was much softer.

His plan had indeed succeeded.

At this moment, Trus spat out a mouthful of blood. The part that was attacked by Yu Tian had completely collapsed.

“How did this happen?”

His body did not seem to belong to him anymore. The chaotic feeling in his mind made his entire body feel weak. Even the strength that he had previously had disappeared.

At this moment, Meng Xiaoyu turned off her skill.

Trus looked at Yu Tian in pain and Monica behind him. He asked in despair, “I never thought of killing you because you are the only person who understands my pain”

“Now, go ahead and make your move. I have found a choice in this sad opera!”

Yu Tian clenched his fist with all his might, but he was still a little hesitant. He let go of his fist and was still a little angry. He clenched his fist again, but still could not make his move.

Meng Xiaoyu suddenly shouted, “What are you thinking about? Don't tell me the two of you have a gay relationship?”

Yu Tian frowned and said, “I have passion with the two of you. I just feel sorry for him. In fact, he doesn't want to live like this. It's just that fate has arranged such an identity for him”

But it didn't give him a better life. He just wanted to live according to his own way. If you want to blame someone, blame that bastard, Raqqa. He used him as a weapon, causing him to fall deeply into conflict,

“In the end, he's going to become a lunatic. Tell me, can I bear to kill him?”

Hearing this, Powell Trus laughed out loud. His laughter was very happy and carefree. He then said with incomparable sincerity, “Yu Tian, the happiest thing in my life is to know you,

“It's my honor to be able to die at your hands. If we can meet again in the next life, I think we will definitely become good friends. It's a pity that I have never had a good friend in my life!”

Yu Tian said disdainfully, “There's no need to wait for the next life!”

Then, he asked Monica to stop the purification.

Trus instantly felt his strength return, but the injured part could not be recovered.

Since he was born, this was the first time he was injured. The structure of his body was destroyed, and the position was still in his heart. Even if he was immortal, he could not be cured.

Yu Tian came to his side, took out five golden needles, and inserted them around the wound.

The collapsed heart immediately began to recover. Yu Tian also used his internal energy to help Trus recover.

A minute later, Trus was surprised to find that the injured part had completely recovered.

He clenched his fists tightly. Everything was as it was before.

Then, he held Yu Tian's hand and said emotionally, "Indeed, I don't need to live in the next life anymore. Thank you, Yu Tian. I know that I have a choice. From now on, I will only stay by your side!"

Yu Tian directly shook off his hand and said with a disgusted look, "Can you not be so disgusting? You can follow me, but you can totally like other people. For example, girls like you who like opera,

the thing that you can't do is like men. Do you understand? Don't act like a fool all day long!"

Powell Trus laughed, but suddenly asked, "What do you mean by a Fool? What do you mean by that? And what do you mean by acting like a Fool?"

Yu Tian couldn't be bothered to explain to him. He would let him learn slowly in the future. Anyway, he had finally made this wargod-level person become his subordinate. This was the best harvest.

When everyone returned to their residence, Yu Tian poured a glass of wine for Trus. However, Trus had never drunk wine before. He even asked in puzzlement, "What will it feel like after drinking this thing?"

"It can fly, and it will make you have the courage to hug a ghost and sleep!"

Y

"Yu Tian did not think much about it.

In the end, after Trus drank a bottle, he really flew away.

He directly went from the villa to the city, and even broke a bridge across the sea. Then he rushed to the management department and blew the roof of the entire building.

The people of the Defense Department could only watch helplessly without any countermeasures.

The president of the Defense Department looked at the big screen and said helplessly, "Does anyone have any methods to make him leave the metropolis and go to the north or South Pole? He is so disgusting!"

However, after Trus destroyed the top management department, he suddenly disappeared..

?Chapter 512 – Chapter 512, Bribing

Thank you readers!

It was Yu Tian who brought Meng Xiaoyu back to his secret residence. No matter what he said, the entire metropolis would be destroyed by him.

Even so, Yu Tian was still extremely angry. When he returned to his residence, he immediately scolded him.

"If you can't drink it, then don't drink it. That's F * cking alcohol, not explosives. In the future, you better stay away from that thing!"

Powell Trus did not remember anything. He just stared blankly at Yu Tian and said slowly, "I just feel very happy. What did I do?"

Meng Xiaoyu immediately turned on the television.

The host said, "The mysterious monster appeared again. It seemed to be particularly angry this time. Not only did it destroy the bridge over the sea, but it also destroyed the entire management building. Hundreds of people were injured and dozens of people died,

"Here, I just want to ask that monster who wantonly destroyed this city. Is that all you have?"

Trus saw himself on the television and felt that he was acting so crazily. He also felt that he was doing something wrong and said in pain, "You should stop me!"

Yu Tian said coldly, "I should stop your father. You immediately went crazy after drinking. I didn't even blink, and you fucking disappeared. Alright, don't be sad. After all, this is not the first time you've done this"

"Just be careful in the future. But during this period of time, you will stay here and listen to the opera. You will learn our eastern Confucianism. If I need you to do anything, I will personally come.

"Food and drinks, I will get someone to send them over. You better remember this, don't go around pretending. It's not that they can't kill you, it's just that they want you to restrict me. They don't want to kill you!

Truth nodded his head vigorously and smiled. "Alright, I like Eastern Things. Back then, I even read a book called Jin something bottle. It's very good!

Yu Tian shook his head with a frown. Looking at the thing he was reading, it was no wonder he looked like a fucking lunatic.

But no matter what, Truth's explosive strength when he was drunk was indeed very terrifying and was more worth using.

In the blink of an eye, it was the morning of the next day. The torrential rain in the metropolis had caused the entire city to become blurry.

Annie Ryan threw the data that she had prepared in front of Yu Tian and said angrily, "This is the information that you asked for. I also wrote down their requests while I was at it,

"Other than compensation, they also have various requests. Some need men, some need women, and some need toothbrushes, tissues, and diapers,

If you agree, order those money managers to send them immediately!

Yu Tian did not even look at the information. He did not even take the show seriously. He said indifferently, "I have never thought of giving them any compensation. Don't even think about taking a single cent from me,

"Now, I want you to help me deal with the President of the Metropolis Defense Department, Tommy Doyle. I'll treat him to lunch and arrange the restaurant at the same time!"

Annie Ryan rolled her eyes at Yu Tian and said angrily, "When can I sit in the high-level position? Instead of doing odd jobs all day long!

Yu Tian did not waste any time and said indifferently, "It's very easy. If you want to sit in the high-level position, hand over all the personnel of PBG and all the information

about the secret spots to me. Then, I'll consider letting you be the high-level person I Trust!

This made Annie Ryan even more difficult to understand Yu Tian's thoughts.

Was he pulling himself into his world? Was this trust or use?

However, she could not refuse. Annie Ryan could only come to the defense department and use her identity as a senior strategist of PBG to easily meet Tommy Doyle.

In the office full of war decorations, Tommy Doyle, who had a square face and round eyes, looked at Annie Ryan's thigh and said frivolously, "We have never cooperated with PBG,

"Did you come to see me just to show off your good figure?"

Annie Ryan was already used to these frivolous words and looks.

She said coldly, "Your authority is the highest in the metropolis. I need your help with my mission now!

Tommy Doyle narrowed his eyes slightly.

At noon, in a high-class restaurant in the metropolis, the guests were enjoying the food to their heart's content. It was rare that there were no protests outside today. Even the restaurant's owner felt that today was a day to make money.

At this time, a dozen men in black suddenly walked in from outside and pushed the owner to a corner. They said coldly, "Tell everyone in the restaurant to leave. Now, or I will destroy this place immediately!

As they spoke, the men in black beside them opened their backpacks and showed them to the owner.

The owner looked into the backpacks in fear. He was so scared that he wanted to run to the toilet.

Who were these people? They were eating with bombs.

Soon, the boss begged, threatened, and kicked all the guests out.

The men in black looked inside and out. After making sure that no one was there, they all went to the door and waited.

Soon, Tommy Dole brought his men to the restaurant. Then, Yu Tian appeared.

All kinds of delicacies were placed on the table. The Boss, who was hiding in the kitchen, looked at them. These two were simply super figures.

He immediately took out his phone and started slapping.

On the dining table, Yu Tian smiled indifferently and said, "Let's be direct. I need you to help me suppress a portion of the protesters!"

Tommy Dole drank a mouthful of wine and looked at Yu Tian gloomily. He said disdainfully, "First of all, I'm not your mercenary. Secondly, the current chaos in Metropolis is all because of you!"

"The reason why I let you stay here is because I haven't recovered the lost gold. I came to see you because I'm giving Annie Ryan Face. Otherwise, do you think you're worthy to sit in front of me?"

Y

"??

"And I have to remind you that I'm in charge of the metropolis now. I'm the President of the Defense Department. I like to use force. Before I completely fuck you, you'd better quit while you're ahead!"

Listening to his pretense quietly was simply a form of enjoyment. Yu Tian did not feel any anger at all. Instead, he said indifferently, "Oh, is that so?"

"Initially, I thought that our meeting would be very pleasant. I even prepared a special gift for you, the latest single-unit combat equipment designed and developed by Sean and Chuyan Industries,

"But now, it seems that this batch of equipment and a huge sum of money should be given to someone else!"

Tommy Doyle was a little regretful. He thought that Yu Tian was just casually giving him some benefits and wanted him to help him.

But Yu Tian's gift was really quite generous.

But if he compromised now, did he still want his face?

Thinking of this, Tommy Doyle said coldly, "Put away your benefits. I'm not one of those greedy people.. You Can't Buy Me Off!"

?Chapter 513 – Chapter 513, I'll Definitely Help You

Thank you readers!

There was no point in saying so much nonsense. Yu Tian felt that Tommy Doyle was acting all the way to the end. Since that was the case, he would use other methods to deal with him.

He then said coldly, "I've seen people acting all the way to the end, but none of them are as good as you. Alright, if you can continue to act all the way to the end at this time tomorrow, then I'll be your father,

otherwise, I'll be your grandfather!"

Tommy Dole was so angry that he grinned. Winning or losing, he was taking advantage of himself.

He said indifferently, "Whatever you want to do, just do it. I'll accompany you to the end. I have more than 20,000 defenders and attackers in the metropolis. Before you do anything, you'd better think it through,

"Will my men allow you to do whatever you want? Thank you for your lunch, but I feel disgusted!"

With that, Tommy Dole got up and left angrily.

Yu Tian then picked up his knife and fork and ate slowly.

Why Not? It was all bought with money.

As he ate, Yu Tian thought that Tommy Dole had no reason to refuse his benefits.

It was very likely that Annie Lane was behind it. They wanted to join forces to make things difficult for him.

Then, was there a need to be polite with them? He first needed to put some pressure on Annie Ryan.

After eating, Yu Tian went directly to the secret residence. When he saw Trus, he said directly, "Someone is pretending to be me. What do you think we should do?"

Trus gently put down the Confucian book in his hand and said indifferently, "Heavenly venerate immeasurable, this penniless priest is about to see through the secular world and doesn't care about the troubles of the human world. "

Yu Tian directly interrupted him and said coldly, "Your father's leg, boundless, and you're still this penniless priest. I see that you're a poor talker, so don't waste your time with me. Are you going to help me or not? If you don't Help

Mea€| a€?

a€?I'm breaking up with you. You can do whatever you want in the future. I absolutely won't care about you!

Trus felt that he couldn't lose Yu Tian, his only good friend. Moreover, it would be a pity if he didn't use his ability. Why didn't he do it? The Confucian thought was good. It freed people, and the merits were boundless.

He nodded and said, a€?Okay, I'll do it. What Mission?a€?

Yu Tian opened the map and pointed to a few locations on it. a€?Destroy these places without any scruples, and completely!

Trus slowly stood up and slowly said, a€?I like to use powerful gunpowder. Can you provide it for me?a€?

How could this be difficult for him?

Yu Tian immediately gave Tyrone a call.

When Tyrone heard this, he laughed and said, a€?You've really found the right person. I still have a secret warehouse in the metropolis. It contains everything you want. It's enough to destroy the entire Metropolis!

Half an hour later, Yu Tian, Trus, and Meng Xiaoyu came to the hidden warehouse.

From the outside, it looked like an ordinary house.

But inside the house, there was a different world.

Meng Xiaoyu turned on the lights in the basement, and rows of weapons and ammunition came into view.

Yu Tian was a little surprised. This Tyrone really did hide a lot of things. Not only did he have weapons and ammunition, but he also had a lot of cash, red wine, and a supercar.

But these things were useless to him.

He then looked at truth.

This guy was not very excited. Instead, he skillfully picked up a portion of the gunpowder and began to assemble it.

Meng Xiaoyu tugged at Yu Tian's clothes and said in a low voice, a€?We should leave. Monica sent me a message. She seems to need our help!

Yu Tian turned around and said to truth, "Everything here is yours. You can take your time here. I'll go and do something else first!"

Terrus nodded and said slowly, "Can I drive that supercar?"

"I don't care if you drive a tank. Go play by yourself!"

After saying that, Yu Tian and Meng Xiaoyu immediately rushed to another secret villa.

In front of the warm fireplace, Monica hugged a pillow and said in a low voice, "There have always been developers trying to connect with my brainwaves. I can't determine whether they are first-generation developers or second-generation developers!"

Yu Tian did not think much of it and said, "What's there to think about? Just connect with them immediately. Whether it's first-generation, second-generation, or PBG, just let them come to the metropolis!"

"I provide food and shelter. If they join us, there will be a salary. Every week, we will organize a group shower, eat, and sing. The men will have women to accompany them, and the women will have men to accompany them!" "Even I want to join them. What are they waiting for?"

Meng Xiaoyu asked doubtfully, "Are you sure? If it's a hostile developer, wouldn't you be exposing Monica by doing this?"

Yu Tian said disdainfully, "Are you stupid? As a woman, I'm already arguing with you. Think about it carefully. If Monica is exposed, they will be exposed at the same time, I am just waiting for them to come. Such a good opportunity, aren't you going to cherish it?"

In this way, Meng Xiaoyu and Monica understood that Yu Tian was digging a hole.

Just as they were talking about this, a muffled rumble suddenly came from outside.

Yu Tian opened the curtains and looked in the direction of the city. The place where the explosion occurred was filled with flames that shook the sky.

Trus had already started his attack.

"Turn on the TV. Let's see how Trus is doing!"

Meng Xiaoyu immediately turned on the TV. It was a scene of wailing and chaos.

The host shouted loudly in the heavy rain, "This is the defender's camp. A few minutes ago, that monster launched a destructive attack on this place,

“The entire camp has been destroyed. Countless defenders and attackers have been killed and injured!

Following that was Tommy Doyle's press conference.

He said with a heavy and angry tone, “That's right. Powell Trus launched an attack on our camp. This is a shameless provocation to the defense department and even to me, my defenders and attackers will not compromise in defending our city and our department. At the same time, I want to remind everyone that Powell Trus is not invincible,

“Our experts have found a way to kill him. If he dares to appear again, we will definitely take his life and avenge our comrades!

Before he could finish his words, the entire venue started to shake violently. Following that, a violent explosion occurred and the entire venue collapsed.

Tommy Doyle's head was bleeding from the impact. With great difficulty, he left the collapsed venue under the protection of his subordinates.

When he arrived at a safe area, Tommy Doyle looked at the building of the Defense Department. It had completely collapsed.

However, Powell's figure slowly walked out of the dust.

Tommy Doyle took out his weapon and was about to attack, but he was stopped by the other higher-ups. “No, this thing can't hurt him at all. If we anger him, none of us can stop him!”

“Let's leave this place first!

Tommy Doyle hated him so much that he really wanted to kill him with his own hands, but leaving now was the only option.

Powell Trus, on the other hand, said indifferently, “There are still two camps left.. After that, I can go to the Opera!

?Chapter 514 – Chapter 514. It Was Better To Be Sworn Brothers

Thank you readers!

Seeing this, Yu Tian coldly said, “You're just trying to put on a show with me, Tommy Doyle. If you have the balls, get me some experts!”

At this moment, Tommy Doyle, who was in the safe zone, immediately ordered his subordinates, "Immediately get all the defenders and attackers to withdraw from the camp and close all the passageways in the city!"

"Get the special attackers to head to Chu Wen's business headquarters. If Yu Tian doesn't show up, immediately attack the entire headquarters!"

The higher-ups were a little dumbfounded. Was this guy crazy?

He hurriedly said, "Mr. President, aren't you going to consider it? Chu Wen now controls more than 70% of the enterprises in the entire metropolis. If you do this, the losses will be huge!"

Tommy Doyle grabbed the collar of the higher-ups, he said furiously, "What losses are you talking about now? They are doing this because they want to start a war. If I'm still patient, how can I face those dead men!"

The higher-ups were also scared stiff by Tommy Doyle's gaze, but now was not the time to be impulsive.

He said nervously, "Mr. President, it was Powell Trus who did it. And if we make a move against Chu Wen, once they shut down all the enterprises, the entire Metropolis will go crazy!"

At that time, more than trillions of dollars in capital losses and more than 20 million people will start a protest. This is something that the senior management department doesn't want to see,

"If you really want to touch Yu Tian and Chu Wen, it's not impossible. But at the very least, we have to take down Trus first. I suggest you apply to the senior management department and ask them to send more powerful people, "As long as we can kill Trulus, we have enough reasons to attack Yu Tian!"

Tommy Doyle gritted his teeth and pushed the senior management aside. He said fiercely, "Okay, call the Senior Defense Department immediately!"

In the secret residence, Yu Tian, who was standing in front of the window, called Annie Ryan.

Annie Ryan was currently video-chatting with Dunn Morrison to study the tactics against Yu Tian.

After the call was connected, Annie Ryan looked at Duane Morrison and said leisurely, "You're calling me so late. Do you want to go on a date with me?"

Yu Tian chuckled and said indifferently, "The way I feel about you is as if we're peeing together. Go On a date with you? Why Don't we become sworn brothers"

"I'll give you a task. Tomorrow, 2,000 mercenaries will join our security department. You will lead them to suppress those who want to get free diapers through protests,

you can scold them, throw them with your high heels, kick their pants, spit, and so on. My request is that you must suppress them. The more violent the scene, the better!

Annie Lane was furious on the spot. She said angrily, "I'm here to be a high-ranking official, not to be a shrew. I refuse to carry out this task. You should find someone else!

Yu Tian chuckled and said, "That's too bad. Originally, I wanted to use your resources to trade second-generation development equipment with others.

Now it seems that you don't consider yourself as one of us at all,

"I don't want to see you anymore. Get as far away from me as possible!

Once he heard about the second-generation development equipment, Dunn Morrison immediately signaled Annie Ryan to agree to Yu Tian's request.

Annie Lane frowned. Yu Tian wanted to trade that device? Who did he want to trade it to?

Could it be that he really trusted me so much that he could let me know such an important secret?

Thinking of this, Annie Lane slowly said, "I've always wanted to be on the same side. It's you who always keeps me at a distance. In order to show that I'm sincere, I accept this mission!

Yu Tian coldly snorted and said domineeringly, "You better remember this. The one who has the final say will always be me!

After hanging up the phone, Dunn Morrison immediately said, "If what Yu Tian said is true, you must get this information no matter what, no matter what you do!"

Annie Lane thought for a moment, frowned and nodded, "I'll consider it. I'm going to sleep!

The video was cut off. Annie Lane drank a few glasses of red wine, but she could not figure out Yu Tian's thoughts.

Her IQ was still not enough. Compared to Yu Tian, who had developed his IQ to 100% , she was still too inexperienced.

At midnight, Locke, who had rushed over from Sean with two thousand mercenaries, gently knocked on the door of the villa.

Yu Tian had personally made him a bowl of noodles, and Locke was very touched.

Yu Tian's status meant that he thought highly of himself by making food for him.

Yu Tian held onto the dining table and said indifferently, "Tomorrow, you will go with Annie Ryan to suppress those people who are protesting. be more ruthless. and make sure that people do not doubt that you are all Annie Ryan and PBG People!

As he spoke, Yu Tian asked his men to move a few boxes. Inside were the icons and armbands of PBG.

Locke smiled as he said, "It looks like that woman is going to cry!

Yu Tian said disdainfully, "Don't cry, it has nothing to do with me. Also, you have to keep an eye on her!

In the blink of an eye, it was the next morning. Although it was no longer raining, the weather was still gray.

Tens of thousands of people were protesting in front of Chu Wen's headquarters.

At this moment, Yu Tian had also arrived at the office and turned on the big screen. He had to take a look at such a lively scene.

In the backyard of the headquarters building, 2,000 mercenaries in suits and sunglasses were already prepared.

Annie Ryan, who was also dressed in a black suit, came in front of everyone. Looking at the dense crowd in front of her, Annie Ryan felt a lot of pressure.

These people's bodies were extremely tough. Just by standing there, they were filled with killing intent. If they were to be brought out, how could the protesters be their opponents?

At this moment, Locke stepped forward and smiled. "Miss Annie, we are already prepared. We will listen to your orders. If you want us to do it, we will do it!"

Annie Ryan hurriedly said, "Listen to my orders. If I don't let you move, you must not attack!

Locke nodded in agreement, but he thought to himself, "Don't even think about making me listen to you!

At this moment, the crowd came to the front.

The protesting crowd had waited for so long. Finally, they saw that someone was willing to pay attention to them. They all rushed forward excitedly.

Annie Ryan took the loudspeaker and said loudly, "The explosion in the mall was not done by Chu Wen company, but by that monster, Powell Trus. It's useless for you to protest here!

Someone in the crowd shouted, "You're bullshitting. The explosion was Chu

Wen's mall, why not somewhere else?"

"We didn't listen to you. Ask Chu Wen to come and see us!

"We need compensation, we need food, we need to work!

Annie Ryan said, "Calm down, it's not up to me to agree to your conditions.. What you need to do is to calm down!

?Chapter 515 – Chapter 515, Erase Pbg

Thank you readers!

Behind the crowd, Locke, who had been squinting his eyes, was waiting for Yu Tian's order.

At this moment, Yu Tian, who was in his office, touched his chin and coldly said to Locke's radio, "Don't always be a pervert. Go and do something!"

Locke, who had received the order, chuckled and went directly to the front of the crowd. He punched the guy who shouted the loudest in the face.

He knocked the man unconscious on the spot.

Just as Annie Ryan and the protesting crowd were shocked, Locke shouted loudly, "Listen up, Annie Ryan is a high-ranking member of the PBG department,

don't you understand? The protests are useless. Now that Chu Wen Business Group has partnered with PBG, we will replace Chu Wen business's security department to SUPPRESS YOU!"

Annie Ryan's eyes were wide open. She was shocked and angry. She couldn't even speak.

She definitely didn't think that Yu Tian would actually dig a hole for her here.

What was even more shocking was that under Locke's orders, all the mercenaries wore PBG armbands on their arms.

The reporters' flashlights were like lightning flashes.

The angry crowd erupted and charged at Locke and the others.

Annie Ryan wanted to stop them, but it was too late. Locke commanded the mercenaries to attack anyone they saw.

She watched helplessly as those people were beaten until they grimaced in pain. They cried and shouted, but they were powerless to stop them.

At this moment, someone threw the Daddys in the bag onto Annie Ryan.

The moment the stench spread, Annie Ryan exploded. She took off her high heels and swung them at everyone. The scene completely went out of control.

When Yu Tian saw this, he laughed and said, "Interesting, how lively!" At this moment, a large group of defenders charged into the crowd.

Yu Tian flicked his eyebrows and said in a low voice, "Just in time, Locke. Attack them together and force them to open fire!"

Chu Wen, who was beside him, said with a frown "Why are you so bad?"

He said disdainfully, "It's as if you're a good person. I see that you're laughing more than anyone else!"

Chu Wen said indignantly, "Then I didn't ask anyone to throw Daddi on Annie Ryan !

Yu Tian frowned and said helplessly, "It's already good enough that I didn't throw a bomb on her!"

At this time, Locke gave the order to the mercenaries. Dozens of mercenaries deliberately rushed into the crowd and then took out fire grenades and threw them at the defenders.

The scene had already gone out of control. Once the fire grenades exploded, several defenders were blasted into flames.

When the other defenders saw this, they realized that they were here to maintain order, okay? How could they be compared to them?

Without a word, they raised their weapons and fired wildly.

The crowd was knocked down by dozens of people. Locke grabbed Annie

Ryan's arm and retreated back to the building with the other mercenaries.

At this time, Yu Tian also came to the first floor. He covered his nose in disgust and said, "Annie, I think you should take a shower. You smell like onions!

Annie Ryan did not care about this anymore. She said angrily, "You tricked me. You let these bastards deliberately say that they were from PBG. You wanted to use this to create pressure on PBG.

"Are you satisfied this time? Now the whole world knows about PBG. They all know how we violently suppressed those civilians. Yu Tian, you are a bastard. An extremely shameless bastard!

Yu Tian's expression was calm. He smiled and said, "I'm not considered a B * Stard yet. In the future, I plan to wipe out the entire PBG. I feel that your existence is a waste of resources"

"Go take a shower now. Then, under the protection of my people, have a good sleep first!

Locke went forward and grabbed her arm. Annie Ryan desperately tore at it. Yu Tian hit her neck. This woman could only be quiet when she was unconscious.

At this moment, Chu Wen showed the computer to Yu Tian.

The CEO was in the middle of a press conference. He said, "The defenders of Metropolis are bandits. They are a disgrace. Don't they know that there might be family members in that crowd?

"This is a dark day, and it will be the darkest day in the history of the superpower. I have already passed down orders to the CEO of Metropolis' Defense Department, Tommy Doyle, through the senior management,

"He is no longer the president of the Defense Department. He is required to immediately go to the top management department and accept our punishment. At the same time, the PBG department will also be under the command of the senior management,

"And from now on, Duane Morrison is no longer the president of PBG!

Seeing this, Yu Tian said disdainfully, "What's the use? That old fart only knows how to play this game. Anyone can say it, but if he doesn't really do it, then there's no way to say it,

“Let's give them something more exciting. Immediately order all the Chu Wen group's companies to be on vacation. At the same time, order all the branches in Super Nation to be shut down immediately!

Chu Wen looked at Yu Tian in shock and asked in a low voice, “Are you sure you want to do this? We have more than 20 million employees in total. If all of them are shut down, even the top management department won't be able to hold them back!

Yu Tian looked at the gray weather outside and said coldly, “I've stayed here long enough. Now I really hate this city. If it's possible, these companies will never open up!

Now that the conflict had reached a certain height, there was no need to waste time.

Chu Wen immediately held a press conference and said angrily, “We have created countless value for this city, but there are always people who don't want us to do this!”

“I just received an order from the top management department, asking Chu Wen business group to close down all the businesses. This means that the 20 million employees will have no food to eat, but we have to agree!

When the top management department saw the news, the CEO was so angry that he smashed the sofa.

He even shouted at the top of his lungs, “She is talking nonsense. She is shitting on the face of the top management department!

After saying that, he angrily grabbed Duane Morrison's collar and said through gritted teeth, “Didn't you say that your plan was perfect? Didn't you say that Yu Tian would be easily killed by you?

Now that he has the entire high-level management department in his hands and is casually playing with it, what else can you say? P'

Duane Morrison furrowed his brows tightly and pushed away the CEO's hand. He said fiercely, “We haven't lost yet. Yu Tian's everything is here. We can give these 20 million people food first,

his loss was also immeasurable. If he insisted, he would give up first.

Moreover, I have already activated the defense clause of PBG. I only need a few days!

There was no other choice now. The CEO tugged at his collar and said angrily, “This is the last time I trust you. If you fail again, I will personally stuff you into my stool.. Now Get Out!

Chapter 516 – Chapter 5 Thank you readers!

Dunn Morrison no longer expected Annie Lane to provide him with anything.

She was the key, but now she had become a bomb. If Yu Tian forced Annie Lane to hand over the information about PBG, then the entire PBG would be dealt a fatal blow.

After returning to PBG's headquarters, Dunn Morrison immediately called for a meeting of the higher-ups.

During the meeting, he looked at everyone gloomily and said coldly, "Now, whether PBG can continue to exist depends on whether Yu Tian can die or not. So, immediately activate the secret clause!"

"At the same time, all of PBG's funds will be invested into the secret clause. The secret team will immediately enter the secret mode and be under the full command of Benson James!"

Everyone's gaze fell on the face of a solemn middle-aged man. They were slightly surprised.

Benson James had never been a high-ranking official with authority. He could not even be considered a true high-ranking official.

However, he was the Master of the secret clause. This was really surprising.

Just like his position, everything was very secret. Benson James did not even say anything unnecessary. He just looked at the table with a solemn gaze.

After the other executives left, Dwayne Morrison stood up and went to the window. He said coldly, "We have added a few clauses in the secret clause. If we don't get the support of the Supreme Management department..,

we can use the first half of the secret clause to replace the senior management department and the senior CEO. We can also take over the Supreme Defense Department!"

Benson James frowned slightly. Duane Morrison was a little crazy. If PBG did this, it meant that PBG could become the senior management department at any time.

And he would be the Supreme CEO, and the world would become a mess.

But he had sworn to follow the secret clause completely, and Duane Morrison had the authority to make him obey, so he could only do this.

At the same time, in Chu Wen's business headquarters, Chu Wen directly jumped onto the desk, swung her round beautiful legs, and said charmingly, "Without a doubt, 20 million people are preparing to start a conflict to show their dissatisfaction,

"According to the information I have gathered, they will even use weapons. However, the top management doesn't seem to want this. They have issued a decision to give benefits to these 20 million people to maintain their lives!

Yu Tian looked at Chu Wen's legs and felt that they were a little sexy. Coupled with her charming expression, there was no need to talk nonsense now.

He directly pressed Chu Wen down on the office desk.

Happiness always came so intensely.

In the evening, Chu Wen lay on Yu Tian's body and said happily, "In ten days, I will give birth to your child too!

Yu Tian was annoyed when he heard that. He said helplessly, "You were too impulsive. Chu Yan almost died at that time. I think you should do nothing and leave while you still can"

"Tomorrow Morning, you will go to the Sea City of America. I will ask Chu

Xuan to go with you. When you reach America, Beatrice and Rosella will protect you. After I take care of PBG, I will go to America"

"I estimate that it will only take five days!

Chu Wen nodded. Her heart was filled with happiness and nervousness. She hugged Yu Tian tightly.

At this moment, the assistant shouted from outside the door, "Mr. Yu Tian, Annie Ryan is acting like a crazy person. She didn't even eat her food and even smashed the bed. She wants to see you!

Smash the bed? Why didn't she tear down the entire building.

However, she could still see him. Let's see what she has to say.

Half an hour later, Yu Tian arrived at the secret villa. When he entered the door, he saw Trus, who was wearing a Daoist robe, simulating his ascension.

Yu Tian shook his head helplessly. What a F * cking idiot. He had gone crazy after looking at the things of Confucianism for a few days. What was there to compare.

Locke, who was eating dinner, said helplessly, "Boss, Annie Ryan has gone crazy too."

Before he could finish his sentence, there was a loud rumble from upstairs. Locke said, "She tried to use the bed to break through the metal wall. She even smeared the food on her face to express her anger and dissatisfaction!"

Yu Tian smiled indifferently. "She's a Woman!"

Locke blinked and laughed foolishly.

After entering the room, Annie Lane gritted her teeth and rushed up.

Yu Tian saw that this woman was really crazy. She still wanted to fight with him. Wasn't she just pretending?

He easily grabbed her neck, but he didn't use any strength. Why was he fighting with a woman? Just let her calm down.

Annie-ryan wanted to hit Yu Tian, but she realized that she couldn't reach his body. She gave up and said angrily, "Are you a man?"

"You trapped a woman in this house with no windows and only threw a bed here. There isn't even a F * cking table. Tell me to Leave Now!"

Yu Tian pushed her away and said coldly, "Can you not F * cking court death? It's a good bed and you smashed it like your father's pants. You even smeared food on your face. Who do you think you can anger by doing this?"

"If you want to leave this place, you can. Give me all the information on PBG, and you can leave immediately. You can even get a large sum of money. In the future, when you're lonely, you can find a hundred old men and dance in front of you!"

However, Annie Ryan sneered proudly and said, "It's useless. I'm the senior tactician of PBG. As you think, I have all the information on PBG, but now my mission can not continue,

"Do you think PBG will let this information be leaked by me?"

Y

"To be honest with you, the current PBG, other than the senior CEO who hasn't changed, the other people, as well as their missions and so on, have all changed."

"Even I don't know who is who now. It's useless for you to keep it here!"

Yu Tian carefully analyzed what she said. Although there was some truth to it, he still couldn't completely believe it. PBG was the most mysterious department. If it was so easy to change the senior management, would it still be called PBG?

He then said coldly, "Alright, since you don't want to work with me, then I don't have to be kind to you. From now on, I will let you stay in the darkness. There is no physical object, no water, nothing!

After saying that, Yu Tian turned around and left the room.

The mercenary closed the door tightly and cut off the power in the room.

Annie Ryan, who was in the dark, screamed, "Yu Tian, you are a bastard, a bastard!"

Locke looked up and looked upstairs. He asked in a low voice, "Boss, I bet a hundred dollars that she can last until Tomorrow Night!

Yu Tian said disdainfully, "She has to ask to see me in half an hour!

As soon as he said that, trus suddenly shouted, "Ah, the immeasurable Venerable Master!"

Yu Tian slapped his forehead with all his might. Why did he have to let him see these things in the first place? If he had known earlier that this fellow's learning ability was so good, he would have shown him the water margin.

At this time, Annie Lane really couldn't stand it anymore.. She shouted loudly, "Yu Tian, I surrender!

?Chapter 517 – : Chapter 517, Completely Unconcerned

Thank you readers!

Locke helplessly handed the 100 dollars to Yu Tian and said, "She doesn't give me face!"

Yu Tian flicked the 100 dollars and said with a smug smile, "This is a slap in the face. Bring her to the restaurant!"

Soon, Annie Ryan sat in front of Yu Tian. There was nothing to hold on to now. There was no benefit in going against Yu Tian.

She slowly said, "The secret clause is PBG's main defense plan. It is under the command of Benson James. The clause says that if the existence of PBG is shaken..,

“PBG will invest all its funds and resources into the secret clause. It will recruit developers in large numbers. However, it will attack the enemy and ensure the existence of PBG,

if necessary, they would use developers to replace the senior management department, and the President of PBG would replace the position of the highest president. If I'm not wrong, PBG has already started this plan!”

Yu Tian took a sip of coffee and said indifferently, “Does your top management department know about Dwyane Morrison's plan or this secret clause?”

Annie Ryan shook her head and said quietly, “They only know part of the clause. Yu Tian, it's useless for you to be strong with me. I can give you all the information about PBG now, but it's almost impossible for you to stop Duane Morrison unless you have a large number of developers!

Yu Tian laughed and said, “I only have a group of women, but it's enough. Now, give me the information about the top management of PBG. You Don't have to care about the rest!”

Annie Ryan nodded helplessly in agreement.

Needless to say, Yu Tian was very clear about this secret clause. It was indeed very powerful. If all the second-generation developers attacked at the same time, it would really be a little troublesome.

But this was not scary. He also had the help of the developers, right?

If he was great, he could take out the second-generation machine and create the developers himself. So what?

Soon, Annie Ryan placed the information in front of Yu Tian and said slowly, “Other than Dunn Morrison, these ten people are the core executives of PBG,

they control all the groups of PBG. The fifty people behind them are leaders like Joseph. Now that the information has been handed to you, when do you want me to leave?”

Yu Tian looked at the information briefly and said indifferently, “Not now. You are a pit. I still have to continue digging. You can only leave when I dig to the bottom”

“But now you don't have to stay in that room anymore. I asked them to change a room with a table for you. But if you wipe the food on your face, you will not be able to eat!

“I hope you can keep your word!” Annie Ryan was very angry, but now was obviously not the time to be stubborn with Yu Tian. It was better to first promise him and then find an opportunity to leave.

Then, Yu Tian came to Monica's residence.

After Monica knew the secret clause, she suggested, “First-generation developers will not be bribed. This is like a contract, and the ones who can be bribed are second-generation developers.”

“As far as I know, there are at least 20,000 second-generation developers. If these people form a team, they can destroy anything.

“And now, there are less than 200 developers on my side. In terms of strength, they are no match for them!

Yu Tian also understood this, but how could a living person suffocate?

Although PBG seemed to be very smug now, if it was too smug, it was just putting on an act.

He immediately said, “The second generation development equipment is in my hands. We can also make developers!

Monica said in shock, “You can't really think that way, right?”

“Yes, actually, I've wanted to do that for a long time!

Y

“Yu Tian poured a glass of wine and said coldly, “If there's too much care and too much hesitation, you can only be ridden on the head and shit,

“Ever since I found out about the developer, PBG, these people have been making enemies of me all day. It's as if I'm playing without paying them. Since you want to play, then play big. Let's see who can stand on the winning platform in the end!”

Monica was shocked by Yu Tian's aura. Thinking about it, she was also like that. Being chased by PBG, she even wanted to crawl into the ground. It was time to have a duel with PBG.

Yu Tian immediately said, “Continue to recruit developers. I will get Tiffany to help you analyze it. I will go to Sean Country Now!

Monica nodded and said, “Okay, you don't have to worry about me. I will take care of it!”

The next morning, two private planes flew into the sky. One was Chu Wen's and was heading to Nimela.

The other was Yu Tian's and was heading to Sean.

At the same time, in the eastern country.

Chu Hui arrived at Shen City. After meeting Chu Xuan, they headed to Xi en at the same time.

Xi En. When Yu Tian saw Chu Yan, his longing for her immediately erupted.

Moreover, after Chu Yan gave birth to Tian Ba, she became even sexier. Her skin became even whiter. That mature beauty made Yu Tian very fond of her.

When they met, the two of them went straight back to the villa. There was no need to say anything else. They exploded first.

After calming down, Chu Yan caressed Yu Tian's face and said gently, "After giving birth to Tian Ba, my body seems to have changed. I don't know why either"

"But my skin is more elastic and more delicate. This is all thanks to you!

Yu Tian nodded his head seriously and said proudly, "Of course! I am the destined person. My women are all outstanding among women. Otherwise, what is there to play with"

"Oh right, take the medicine. Don't get pregnant again tomorrow. How can you have time to have a baby now?"

Chu Yan picked up the medicine bottle by the bedside and shook it with a smile. "I've already taken it!

But then, Chu Yan said sadly, "I don't know how Tianba is doing. I miss the baby so much!

All mothers in the world were like this. Yu Tian held her in his arms and pinched her cheek. "We will definitely see the baby. Don't think about it. Get Up and get some food. Let's go pick up Chu Hui!

Chu Yan immediately smiled and said, "There's still an hour left. Why are you in such a hurry?"

Thus, another symphony was played in the room.

Two hours later, in an underground research and development base in the suburbs of Xi en.

Yu Tian restored the second-generation instrument to its original form.

Chu Hui immediately opened the blueprint and looked at it carefully. Then, she said happily, "The instrument is not damaged at all. Connect the power to it and it can be used at any time!

Chu Xuan operated the computer for a while and then said, "I have already finished the programming. After the device is activated, these programs will be implanted into the developer's brain,

"In the future, they will only listen to your orders. Let them act like dogs in front of you!

Yu Tian said with satisfaction, "Thank you for your hard work. Then, let's start recruiting developers!

But Chu Hui said, "Wait, how do we recruit developers?"

?Chapter 518 – Chapter 518, Wonderful Functions

Thank you readers!

Yu Tian touched the development device in front of him and said calmly, "Look for people who are willing to be developers in the Defense Department. Don't force anyone to accept the development of the device,

this thing is like flirting with a girl. You Can't force it. You have to go with the flow!"

Chu Yue immediately sent this order to the Defense Department. Soon, a large number of defenders wanted to carry out brain development.

After the machine was connected to electricity, it was fully operational and could create a developer every five minutes.

However, during the skill evaluation, Yu Tian realized that not all the developers had activated their skills. The reason was very simple. Their basic IQ was simply not enough.

Chu Hui looked at the data and sighed. "Currently, we have developed 150 people, but only 27 of them have activated their skills. The others have only increased their IQ. There's no other use for them!"

Yu Tian put down the data and poured a cup of hot coffee. He said nonchalantly, "If that's the case, Kellogg was also a developer of this speed back then"

"That's why he developed the third generation machine. With Chu Yan's current industrial technology, it shouldn't be a problem for us to build a third generation machine!"

This really surprised Chu Hui. Once the third generation machine was built, the world would immediately change.

"Are you really going to do this?" She asked again.

"Yes, I am very sure. Kellogg has already been developed for us. Why not do it? Anyway, the world is already like this, what else can we do?" Yu Tian immediately took a sip of coffee, his expression extremely calm.

Chu Yan industry received the orders and blueprints and immediately began to build.

As for the power problem that was most needed, it was not a problem for Sean at all.

Just when Yu Tian was studying the blueprint with Chu Hui and the others, Chu Yan called and said helplessly, "Yu Tian, the medicine I took last night didn't work at all. I'm Pregnant Again!"

Yu Tian laughed and said in a self-deprecating manner, "It seems that nothing can stop the Tummys of you sisters. This is too f * cking domineering. Even the medicine can't Beat You!"

He didn't know whether to laugh or cry. Then, he said worriedly, "My body hasn't fully recovered yet. I'm afraid that this time, it might be even more unbearable!"

He was also helpless. who asked the Chu family to have such a F * cking set-up?

Yu Tian looked at the time and said, "Arrange the work in your hands and fly to Niamela now. Chu Wen is already waiting to give birth there. I asked Chu Xuan to specially buy the best villa area,

"Go There and wait for me. I'll go there immediately after I'm done with the work!"

It was the only way now. Chu Yan said, "Then you have to come quickly. If you don't have the jade pendant, it will hurt!"

"I'll definitely go. You should tidy up first!"

The phone was cut off. Yu Tian still smiled self-deprecatingly. If this child was born, his vitality would definitely be tenacious.

If he couldn't even kill the medicine, who else could?

In the blink of an eye, it was noon the next day. The device had been built according to the blueprint. After connecting to the powerful power of the nuclear power plant, Yu Tian personally pressed the start switch.

The power and the physical system immediately began to operate. Yu Tian could even smell the electromagnetic smell in the air.

Chu Xuan was controlling more than a dozen computers by herself. She was so busy that she was grimacing.

Her sexy little hands were typing rapidly on the keyboard as she said in a low voice, "This program is really complicated. There is no explanation for this on the blueprint. I still need to analyze it myself!"

Yu Tian saw that she was busy and deliberately teased her. He smiled and said,

"Type slowly. Don't break your fingers!"

"Get lost!" Chu Xuan said angrily, "I haven't slept all night. You Didn't say you cared about me. Get Me a cup of coffee or sugar water. You only know how to talk sarcastically!"

"I'll get you a roasted lamb and a stewed chicken with mushrooms. What do you think? Hurry up and get to work. Don't talk nonsense with me!" Yu Tian said domineeringly.

At this time, Chu Hui put down the thick data and said with a solemn expression, "Yu Tian, we have really walked into the wrong area. This instrument doesn't seem to only be used for manufacturing and developing"

"I found a very complicated data here. It points to a special function!"

Yu Tian immediately picked up the data. With his IQ it was not a problem for him to read the data.

As he read, he took out a pen to do some calculations. In the blink of an eye, a few pieces of paper were filled up. The surrounding experts were staring at it with their eyes wide open.

They could not understand the symbols and the data on the paper at all.

One of the experts was able to understand a little, but he also said like he was on the verge of collapse, "Is this space folding? Oh My God, can this even work?"

Yu Tian said coldly while calculating, "There's nothing wrong with it. This is just a simple calculation of space, distance, and time. Moreover, this calculation is only half completed."

The final calculation result is the absolute value of activating this function!

On the other side, Chu Xuan was also calculating rapidly. Obviously, the computer's calculation speed was much faster than Yu Tian's human brain.

However, what Chu Xuan was calculating was not the function that Yu Tian was calculating. She had discovered the first hidden function of the device.

At this moment, Chu Xuan went directly to the device. As she looked at the blueprint, she touched it in the device.

Yu Tian raised his head and looked at it. He asked in puzzlement, "Why? Have you fallen in love with it? How good would it be if you could touch it with the strength of your touch on Me?"

Chu Xuan was not in the mood to care about Yu Tian at all. At this moment, it was as if she had discovered the treasure of the New World. She threw the blueprint away in excitement and ran back to the computer to do some operations.

Looking at her excited look, Yu Tian said inexplicably, "Has this girl gone crazy?"

Now that he did not have the time to care about her, Yu Tian continued to calculate his own things.

However, when he was seven-tenths of the way, he realized that this was a wrong calculation method.

Yu Tian looked at the dozens of pages of paper again. There was no problem with his calculation process, but when he reached this point, he began to make mistakes.

This could only mean that the data itself was wrong. No matter how he calculated, it was still wrong.

Seeing Yu Tian's frown, Chu Hui asked in a low voice, "Why can't you continue the calculation? What's the problem?"

Yu Tian touched his chin and said indifferently, "I don't know where Kellogg got this technology. Even he himself doesn't know what it is. Although he has developed a method to calculate the data..."

“However, the initial value of this data is wrong. If you want to know what this function is, you first have to understand the function of this instrument. What exactly does it point to?”

“Only then can the precise calculation be carried out. Otherwise, you can only waste your energy here!”

At this moment, Chu Xuan suddenly shouted loudly..

?Chapter 519 – Chapter 519, Chip Implantation

Thank you readers!

Chu Xuan's shout gave everyone present a shock. What was wrong with this girl? Why was she so shocked?

Yu Tian came directly to her and said helplessly, “Can you not shout? There are people who don't know that you're taking a bath. Did you find anything special?”

She proudly transferred the computer to Yu Tian and pointed at some data on it. She said excitedly, “I have to say that the person who invented this instrument is really a genius!”

This instrument was not a development instrument at all. To be more precise, it was a manufacturing machine. I gathered all the data together and after precise calculations, I found that..,

this machine was built by implanting a chip into the brain. With my current understanding of human technology, this kind of technology simply couldn't exist,

however, this machine could completely do it. It's just that I still don't know how to research this chip? I can only calculate its data and its functions,

“If we want to research and create a chip, we need Chu Meng's help!”

Hearing this name, Yu Tian knew that it must be one of the 108 sisters. He asked in puzzlement, “Chu Meng? What does she do?”

Chu Xuan said, “She is the world's most powerful computer chip research expert, and one of our sisters. Do you know why I can become the world's most powerful hacker?”

“That is, the independent chips used in my computer were all developed and manufactured by Chu Meng. This kind of computer chip can not only fuse with all the networks and operating systems in the world, but also has an independent computing model,

“It also has an independent computing model. If we want to figure out how this machine's chip is made, we have to call Chu Meng over!”

Yu Tian said without hesitation, “Then what are we waiting for? I’ll Call Chu Meng Right Now!”

He immediately took out his phone, found Chu Meng's phone number, and directly dialed it.

The call was quickly picked up. Chu Meng said coldly, “The last thing I want to receive is your call. The reason is very simple. I can marry you, but I don't want to have a child.”

“I heard from Chu Yan that when you have children, it's like you died once. You'd better have other ulterior motives for me. Having children is what other sisters should do. I definitely won't do it!”

Yu Tian felt that this woman was not in a good mood? He did not say anything, but she was the first to get anxious.

He paused for a moment, then he said indifferently, “No one asked you to have a child. Don't think so highly of yourself. I called you because I want you to participate in one of my projects. I need to understand the technology of chip manufacturing now,

Chu Xuan said that you are an expert in this field, so you should pack your things now and come to Sean!”

“It's that damn girl again!” Chu Meng complained, and then she refused, “I can't go now, but you can come and help me. To put it simply, I met a pretentious person.”

“And this pretentious person is quite special. With my current ability, I can't deal with this guy. If you help me, I'll help you!”

“Who's pretentious with the two of you?” Yu Tian asked doubtfully.

Someone stole the technology of an advanced computer chip that I developed and sold it for a lot of money. It's nothing. It's just a simple computer chip. It's not worth anything to me.”

“I can make other chips that are dozens of times better than this computer chip in a minute. But what's infuriating is that this guy actually used the money from selling my chip to build a company.”

“And he's even stealing my business. This is a little unreasonable. If I can tolerate all this, am I still a sister of the Chu Family?” “Q”

“Either you come and help me now, or you pretend that you don't know anything. Think about it yourself!”

It was such a simple problem, yet he had to personally solve it. Could it be that this was his fate?

Yu Tian shook his head helplessly and slowly said, “I can help you. I'll go to Hai City right now. I'll probably arrive at noon tomorrow and make myself fragrant. Then, I'll go to the airport to pick me up!”

Chu Meng said disdainfully, “As long as I can guarantee that I don't stink, it's fine. Hurry up and come. Stop talking nonsense. That guy is acting so pretentiously that he's going crazy. I Can't wait to use the soles of my big boots right now and step on his face with all my strength!”

“You will realize it. Just Wait for me!”

After hanging up the phone, Yu Tian made some simple arrangements and headed straight to the airport.

Anyway, he had not returned to the eastern country for a long time. This time, he would just treat it as going home to rest. He had to settle this Chu Meng quickly. He still had to go to the Nile.

However, he spent all his time on the plane. It was simply a waste of time.

Looking at the city outside the window of the plane, Yu Tian was pondering over the calculation method of space time and distance.

“Could it be a function of space teleportation?”

With the current technological level of mankind, it was impossible to achieve this. However, for someone with a high IQ like Kellogg, it was actually very normal to have such a plan.

However, a plan did not mean that it could be done. Hence, this was the strange part.

Under the premise that his imagination had not been completed, he could actually build a machine. No matter how intelligent he was, it was impossible to go against the absolute common sense of physics.

If that was the case, it would be more accurate to say that it was an existing machine, and Kellogg was also trying to find the function of this machine.

Then who made this machine? What was the function? This was the biggest mystery.

In the blink of an eye, it was noon the next day. The private plane slowly landed at Hai Shi International Airport.

Chu Meng had been waiting at the airport entrance for a long time. She waved her hand at Yu Tian with all her might. Only then did Yu Tian see her in the crowd.

The first time he saw her, Yu Tian was already wondering if this Chu Meng was really a sister of the Chu family?

Up until now, all the women from the Chu family that he had met were sexy and noble.

However, Chu Meng looked like a girl. She wore a pair of big black glasses and carried a Kitty backpack. Especially her hairstyle, which had a ponytail.

If he didn't know her identity, who would have thought that such a willful woman was the world's most powerful chip research and manufacturing expert?

Seeing Yu Tian's strange look, Chu Meng asked inexplicably, "What kind of Look is that? Tell me, what are you thinking about?"

Yu Tian grinned and said disdainfully, "You can stop thinking about having children because you are a child. I thought you could bring me some passion, but you are just an eggplant!"

"You are the eggplant, your whole family is eggplant!" Chu Meng said indignantly, "Don't look at me like this, it's because I don't want to wear makeup, or else I can charm you to death!"

?Chapter 520 – Chapter 520, Still Trying To Charm People

Thank you readers!

This woman really dared to say it. Still trying to charm me to death?

Yu Tian said disdainfully, "As long as you don't scare me to death, then hurry up. I don't have so much time to talk nonsense with you here. If you have the time, tell me about that pretentious information!"

Chu Meng looked left and right and slowly said, "This isn't something that can be said with just a few words. Moreover, this isn't a place to talk. Let's go to my place first!"

"I'll get you some food. Then, we can talk while we eat!"

Yu Tian nodded and followed Chu Meng to her place.

Seeing her place, he felt a headache every day.

The Sisters of the Chu family did not lack money. Moreover, in the Chu alliance, they were the most powerful chip research and manufacturing experts in the world.

However, why did her place look like a pigsty?

Not only was the place small, but it was also particularly messy. Stinky socks, underwear, and underwear were scattered all over the floor.

Those who did not know better would have thought that this house had been visited by thieves. It was not easy for them to find a place where they could sit down. Yu Tian said helplessly, "You said that as a woman, this house was built by you, can't you just simply tidy it up? It will exhaust you to death!"

Chu Meng said indignantly, "Aiya, don't talk nonsense with me. I'm like this. You can look at it if you like!"

As she spoke, this girl took off her coat and pants in front of Yu Tian and wore a pair of shorts into the kitchen.

It was only then that Yu Tian realized that Chu Meng's figure was actually not bad. Her legs were also quite perfect, but why was she so lazy?

She busied herself in the kitchen and finally took out two boxes of instant noodles.

She made it for Yu Tian with a helpless expression.

"You're treating me to this? You should have told me we were eating outside. I've worked thousands of miles from Sheehan just to eat this damn instant noodles of yours. What do you think you're doing?"

Chu Meng snorted coldly and wiped her chopsticks under her armpit while saying disdainfully, "Can you know my cooking outside? I personally boiled water for you to make this."

"You can at least have a few mouthfuls to express your intention. Besides, it's fine as long as you can eat your fill. What's there to be picky about? When you were in the most difficult time, didn't you not even have the chance to eat instant noodles?"

"Why are you starting to be picky now? You can eat it or not. If you don't want to eat it, I'll eat it myself!"

Yu Tian blinked his eyes. He really thought of his past. At that time, when his sister was in the most difficult time, she ate a box of instant noodles for two people. Those days were really tough.

Thinking of his current self, he really forgot the feeling of instant noodles back then.

Hence, he picked up his chopsticks and started eating.

Chu Meng said while eating, “The one who stole my chip technology is my classmate and also my best friend. Her name is Wen Xiaoya, but she never knew my true identity. She is one of the 108 sisters of the Chu family,

“And I never want her to know, or it is wrong to do so, but my intentions are good. I don’t want her to feel inferior,

So I have been accompanying her, eating instant noodles, wearing cheap clothes, and even living in this small and short place. I just don’t want to lose my best friend,

“Do you know? “The 108 sisters during the summer vacation may look special on the outside and even receive the attention of the whole world, but in fact, everyone is very lonely,

we also needed a normal life, and we also needed a normal social circle, so I always paid special attention to little ya, but she made me very sad,

i used the money I earned from developing chips for others to buy a lot of good things for her. I even paid for her tuition fees, bought famous brands, and even when her mother was sick, I was the one who was busy,

in order to make her look good in front of other women, on her birthday, I even spent hundreds of thousands to buy her a diamond necklace,

but what I couldn’t accept was that she actually sold this necklace, and then started her own company, and deliberately got me drunk and stole my chip, i knew that she wanted to make money, and I also knew that she also wanted to become a celebrity in this society, so I didn’t want to do anything to her, but what made me even angrier was that she actually used my chip technology,

“In front of my clients, she slandered me in all kinds of ways. Could it be that my sincerity can only be like this? “I absolutely will not accept it!

Yu Tian gently put down his chopsticks and said very indifferently, “I thought it was something else. This is simply a melodramatic plot in a television drama. How could it happen to you,

“This question is very simple. She is jealous of you, which is why she wants to destroy you. You and those people are not from the same world. You should be my wife. When I Need You” “You can appear by my side at any time.

“Instead of playing with those so-called best friends and the Passion of some women, this is a lesson for you. You will understand in the future what the saying ‘The Heart of man is unfathomable’ means.”

Chu Meng said impatiently, “I know what you want to say. I also know that you think that I must be very laughable. However, there are 108 types of personalities among the 108 sisters. I belong to this kind of personality,

“This is something that was born with, and it will never change. And I just need a good friend who is not from the Chu family. There are some things that can not be said to other sisters. You should understand this principle,

“Now, there's no need to talk nonsense. You must help me vent my anger!

Yu Tian shook his head in disdain and said indifferently, “While the weather is good outside, let's go to her company to take a look. But if you dress like this, I'm really not used to it,

“Don't worry about whether I can eat instant noodles in the past. But now, there are beautiful women around me. And I think you should use a different image to let her know that you are not someone to be trifled with!

Chu Meng felt that what Yu Tian said made sense. It was time for her image to be changed.

She had deliberately turned herself into this because of Wen Xiaoya. Now that she was not treated as a good friend, why should she persist?

She nodded and said, “You're right. Let's go change my image now!”

In the next two hours, Chu Meng not only changed her hairstyle, but also put on makeup and changed her clothes.

The more Yu Tian looked at her, the more satisfied he became. At this moment, Chu Meng had the demeanor of the 108 sisters of the Chu family.

Soon after, the two of them arrived at Wen Xiaoya's company. When the security guard at the door saw that it was Chu Meng, he immediately stretched out his hand to stop her and said, “I'm sorry, anyone can enter, but not you.”

Our boss has already instructed that you are not allowed to step into our company. Now, please leave!

At this time, Yu Tian had to go on stage..

I Have 108 Older Sisters #Chapter 521 - Read I Have 108 Older Sisters Chapter 521

?Chapter 521 – : Chapter 521. She Was The One Who Was Willing

Thank you readers!

These gatekeepers basically did not need to pay much attention to them when they were acting.

Yu Tian said indifferently, a€?Buddy, can we not act pretentious? Just look at the gate. Don't mess with those useless things!a€?

The security guard was even anxious. He pulled his neck and shouted, a€?So what if you're Gatekeepers? Gatekeepers won't let you in. My profession is incomparably sacred. I'm a gatekeeper. I'm Proud!a€?

Yu Tian laughed. What was he proud of? He looked like a spittoon. How could he be proud?

Talking nonsense with him was simply a waste of a good time. Yu Tian did not say another word and went up with a big mouth.

Chu Meng, who was at the side, was shocked. Yu Tian's mouth made the security guard do a backflip, and he even fell with a thud.

Everyone in the room gathered around and pointed at Yu Tian.

a€?How did you hit him? This is outrageous!a€?

a€?Look at how you hit Master Han. You even shit your pants. Are you bullying him?a€?

a€?Hurry up and call the other security guards. There are people here who are hitting people!

Yu Tian did not care at all. He went straight to the front and said indifferently, a€?Why? Do you all want to play games with me? If you don't want to lie down, get the F * Ck out of Here!

Everyone was so scared that they took a few steps back. It was okay to talk about it, but if they really did make a move, who would dare.

Yu Tian smiled disdainfully. They were all F * CKING idiots. He then turned to Chu Meng and made an inviting gesture. a€?Miss Chu, Please!

Chu Meng was puzzled. What kind of operation was this? Now he was her personal bodyguard?

This was great. Where could she find such a handsome bodyguard?

She raised her chin and nodded arrogantly. She said softly, "We are here to talk, not to fight. Suppress your temper and don't kill and set fire to people!"

Yu Tian also felt that it was funny, but it was good to be her bodyguard first. When he saw Wen Xiaoya, it would be more interesting.

At this time, the gatekeeper stood up again. With his face full of fingerprints, he cried angrily, "F * Ck you! How dare you hit me in the mouth? If I don't kill you and me today!"

Before he finished his words, Yu Tian turned around and kicked again.

Everyone's eyes widened in surprise. This time, he kicked the security guard to the fountain at the entrance. He looked like a sad idiot.

By the time they reacted, Yu Tian and Chu Meng had already walked into the office.

Yu Tian walked and looked around. This company was not big. It was less than 500 square meters, and the office supplies were cheap.

Someone saw Chu Meng and immediately went to inform Wen Xiaoya.

Wen Xiaoya, who was on the phone in the office, immediately put down the phone and said in disgust, "Why is she here again? It's so disgusting. Just say that I'm not here. I don't want to see her!"

The assistant said, "President Wen, she seems to have changed. You should go and take a look!"

"What can she change into? isn't she just a stupid and sloppy girl? Can she become a Queen? Why Don't you take a look at her face!"

Wen Xiaoya said in disgust as she stood up and walked out of the door. She really wanted to see what Chu Meng had become?

The moment she saw Chu Meng, Wen Xiaoya was really a little surprised.

This Chu Meng's hairstyle and dressing style had changed. With her beauty makeup, she really had the air of a high and mighty queen.

However, she immediately suppressed her shocked mood and said sarcastically, "Your clothes are well-dressed. I thought you would never learn to wear clothes in this lifetime. After all, you don't have that noble gene in your bones,

"I still prefer your original down-to-earth style of dressing. The slovenly style suits your identity. Tell me, what do you want to do in my company today? "Don't tell me you want to ask me if your clothes look good?

"Then I can answer you directly. They're really ugly. It's like the cheap perfume you're wearing. I can't bear to look at them!

After saying these few words, Yu Tian felt that Wen Xiaoya was not a good person.

After all, he and Chu Meng were once best friends. Even if they were no longer together, there was no need for them to speak so harshly.

Chu Meng felt an indescribable pain in her heart. She had treated her so well, but now she actually said this to herself.

She gritted her teeth and said softly, "Xiao Ya, I don't think there is a need for us to talk about this between us. You know very well how I treat you,

when you were at your most difficult and helpless, I was the one who had been helping you. It's fine if you're not grateful, but now you're saying these things.

Do you really have a conscience?"

Wen Xiaoya laughed coldly, crossed her arms, and said arrogantly, "Then I can only say that you're an idiot. Do you really think that I want to be your best friend? I'm just using you,

do you really think that I'm really difficult and helpless? This is simply a joke. In school, who would be willing to play with a country girl like you?

If I didn't see the value of you being used, do you think I would be your best friend? Do you know what my other Best Friends Say About You?

They all say that you're an idiot and still want to play with us. Why Don't you take a piss and take a picture of yourself? Do you think you're Worthy?"

Chu Meng was so angry that her heart was rolling. This Wen Xiaoya was an ingrate.

Yu Tian saw that Chu Meng was so angry that her whole body was trembling and she couldn't speak. He chuckled and took a step forward, saying, "My miss is indeed not worthy to be your best friend, who relies on stealing and using people in high positions,

cut the crap. We're here today to take back the computer chip that you stole from my miss, and also to take back all the things that my miss gave you, including the diamond necklace that she gave you on your birthday, the diamond necklace that she gave you was worth 700,000 yuan!

The employees of the company began to discuss in low voices.

“Oh my God, Wen Xiaoya is actually such a person. This is ungrateful!”

“Chu Meng can actually afford a diamond necklace worth 700,000 yuan. is she really a country girl?”

“Can a country girl have such good manners, such a good temperament, and so rich? Moreover, she can develop such a high-end computer chip? What are you thinking?”

Wen Xiaoya looked around and said angrily, “Who do you think you are? How dare you talk like that in front of me? Those things were given to me voluntarily by her idiot.

“Now you want to ask for them back. If you can't afford them, then don't give them to me. If you can't afford them, then don't play with them. I don't want to waste time with you. Get Out of my company Now!”

Yu Tian laughed and said indifferently, “I'm just Miss Chu Meng's bodyguard. I don't have much ability, but my job is to protect Miss Chu Meng. I don't want to be wronged or hurt.

And not to be used by others. Otherwise, even if you are a god, I will make you lose all your bones!”

Wen Xiaoya laughed wildly and said, “Aren't you just a bodyguard? What are you pretending to be here for? I'm in a good mood today and I don't want to lower myself to your level.. Quickly take your miss and get lost!”

?Chapter 522 – Chapter 522, I'M Not In The Mood

Thank you readers!

Seeing Wen Xiaoya's clamor, Yu Tian felt it was laughable.

Originally, he didn't want to hit her in the face, but this woman had come up to him without hesitation and let him hit her. Wouldn't that fulfill her wish?

Yu Tian turned to Chu Meng and smiled, “Miss Chu Meng, if that's the case, I think there's no need to be polite!”

Chu Meng didn't know what Yu Tian wanted to do. She hesitantly nodded and said, "Don't be too ruthless. After all, I'm not her!"

If she wasn't ruthless, how could she learn her lesson?

Yu Tian immediately took out his phone and called Chu Hui. He said indifferently, "I think there's nothing more to say. That Woman's acting is out of control. I told you to do it. Do It Now!"

Chu Hui, who was in the Chu family's super headquarters office in Beijing, smiled helplessly and said, "You've been exhausted from day to night. Let me tell you, Chu Meng is not so easy to take down!"

"You have to be prepared. Don't break your back from exhaustion. How many six flavor pills do you have to eat to make up for it?"

Yu Tian's face was full of helplessness. She was still in the mood to flirt with girls when they were just putting on a show?

He looked at Chu Meng and said in a low voice, "How should I put this? It's not that difficult anyway. The key is to see how it feels like. It's like you're pooping. When you come, you can't hold it in even if you want to."

Alright, stop wasting time. Hurry up. I saw that pretentious woman grimacing and could even spit out yesterday's rice porridge!

After hanging up the phone, Yu Tian turned around and said to Wen Xiaoya indifferently, "I think you should be the one who should get lost. You're just a person who sold the necklace given to you by others and then used the stolen technology,

"After setting up such a worthless lousy company, in the end, you're not even as good as a stinky beggar, and you still pretend to be a member of the upper class!"

Wen Xiaoya raised her eyebrows arrogantly and sneered, "So what if I am? What can you do to me? If you want to make a wish, then Chu Meng is stupid, and she even found a stupid bodyguard like you who only knows how to talk!"

"What kind of person finds what kind of person? These words are not wrong at all. Why are you still here?" "Q Hurry up and get lost!"

Just as she finished speaking, her phone rang.

Wen Xiaoya was completely immersed in the pleasure of acting, not even taking a glance at it.

Yu Tian indifferently reminded her, "Don't act so pretentious for now. I was afraid that you would lose control and strip naked outside. Take a look at your phone, if I'm not wrong, it should be your only partner calling!"

Wen Xiaoya still held the phone in front of her eyes. It was indeed the partner from the capital.

She frowned slightly, thinking how did that damn bodyguard know it was a client calling?

This was her only partner. Wen Xiaoya could not be negligent and immediately picked up the phone.

In the end, the other side scolded her.

"Wen Xiaoya, I was really blind to choose to work with you. Do you know who you have offended? That Chu Meng is the direct descendant of the world's number one family, the Chu family!"

"Now the higher-ups of the Chu family are extremely dissatisfied with me. I Don't want your chip anymore. You should think about whether you can live or Not Now!"

The moment the call ended, Wen Xiaoya's expression was like a seven-colored dye bottle that had been knocked over.

All kinds of fear, distortion, and explosion.

So Chu Meng's true identity was actually so scary, but he actually thought she was a country girl?

At this time, more than ten men in black entered the door and bowed to Yu Tian in unison.

"Hello, President!"

Wen Xiaoya and the others widened their eyes in shock. weren't they bodyguards? How did they become the President?

Yu Tian smiled indifferently and said, "Stop wasting time, do what you need to do!"

One of the middle-aged men immediately nodded, turned around and came in front of Wen Xiaoya, saying coldly, "This is the property of our Tiansheng Group!"

"Our President ordered you to violate the terms and conditions that we signed. Now, we want to take back this office. And you can't take away anything here, including your chip technology!"

Wen Xiaoya heard the words "Tiansheng Group" and her mind was like thunder.

Now, she didn't care about her status. Under everyone's disgusted and disdainful eyes, she knelt at Chu Meng's feet and begged, "Mengmeng, we are good friends. Please forgive me this time!"

"I know I'm not a human, I'm an animal. I'm ungrateful. For the sake of our past relationship, I Beg You!"

Chu Meng looked at her hypocritical expression coldly and said coldly, "When you betrayed that relationship, it was impossible for you to get any forgiveness from me!"

"I've been hiding my identity all this time because I don't want you to think that I'm superior and feel inferior. I treat you as my best friend and even fantasized that our friendship would last forever!"

"But I was wrong. You can use me, I'm willing to be used by you, but you've never treated me as your best friend, which I can't accept,

"Don't beg me anymore, you don't exist in my heart anymore!"

Wen Xiaoya wanted to continue begging, but Yu Tian couldn't stand it anymore and signaled the middle-aged man to get rid of this woman immediately.

A few people dragged Wen Xiaoya into the office. At the same time, the other people left the company immediately under the middle-aged man's angry rebuke. They also took away all the technical items.

At this time, the corners of Chu Meng's eyes were still a little wet.

Yu Tian looked up and said disdainfully, "What the F * ck? Can you stop acting like an idiot? What's there to cry about? Keep your tears and cry when you give birth to my baby.

"Do you have anything else to do now?" "Q" "If not, let's go to the airport immediately. Let's go to Sean!"

Chu Meng gave him a hard punch and said angrily, "Who's going to give birth to your child? Can you be a little more shameless? I'm just suffering. Every woman will suffer, right? This is also my fault!"

Yu Tian snorted unwillingly and said disdainfully, "Yes, they will all suffer. When Chu Wen and Chu Yan were suffering, I comforted them, so they gave birth. Come, I'll Comfort You Too!"

“No, don't come over. Let's go to the airport now!” Chu Meng was so scared that she turned around and ran out of the company.

On the plane, Yu Tian asked while eating dinner, “Can the technology to implant a chip into a human's brain be realized with the current level of human technology?”

Chu Meng drank a mouthful of red wine and said disdainfully, “It's been there for a long time. Several countries with more developed medical skills have begun to use the method of implanted chips to treat some human diseases,

for example, Alzheimer's, unlimited urination, paralysis, and eating madness syndrome. Some of the technologies have already been especially mature!

Yu Tian asked with some confusion, “What is eating madness syndrome?”

It's eating and suddenly going crazy. But this has nothing to do with the chip implanting mentioned in the information you gave me.. I think your machine will be even crazier!

Chapter 523 – Chapter 523, We Have Money

Thank you readers!

Chu Meng opened the data and pointed at the few lines of data on it. “I'm more familiar with these data. They belong to the chip code and mainly provide logical computing functions,

“When I was developing the chip, I often used it. From this, I can say with certainty that if the chip is implanted through this machine, it might be able to create a super human!”

Yu Tian put down his chopsticks and took out a USB flash drive. He said calmly, “This is the data of a reconstruction soldier that I collected when I was in Super Country,

“They are a secret research and development project being carried out in super country. The person you are seeing now is called Kane. He was developed in a secret base called Ghost region,

at that time, Chu Xuan and I found two devices in his body. They were very similar to the chip you mentioned, but the difference was that Kane's heart and brain were replaced by devices,

If I hadn't beaten him to a pulp, he would be no different from a normal person. He would eat, poop, sleep, and occasionally find a girl to sing and dance with!

Chu Meng read all the information carefully and said slowly, "This is not a chip. Based on my current understanding of chip technology, the current chip is more towards Micron technology,

"This person's heart and brain equipment are a little big, and they are also fundamentally different from the chip!

As she spoke, Chu Meng casually took out a palm-sized glass box. After opening it, there was a square chip with a diameter of one centimeter in the sponge groove inside.

She added, "This is the Chu Meng Domineering Type-5 chip that I recently developed. Its main function is not only to allow the computer to perform trillions of calculations per second,

it can also provide the computer with intelligent assistant management, such as programs, software management, and so on. To put it simply, the chip is an assistant device. If it is implanted in the human body, it is also to increase certain capabilities of the human body,

for example, when the eating madness syndrome breaks out, the chip can stimulate the central nervous system and inhibit the formation of crazy cells.

This is the role of the chip,

"And the technology that Kane used was a complete replacement for all the functions of human organs, such as the heart and the brain. After being replaced by the device, it can make people feel no emotions,

"There's no fear, no pain, absolute obedience, and so on. It's more inclined towards weapons!

With such an explanation, Yu Tian completely understood.

He immediately said, "You mean to say that I can implant a chip with various uses to assist my body's organs, or in other aspects, such as the network?"

"I can directly implant a chip in my mind that can connect to the network at any time. The entire network's knowledge will immediately appear in my mind when I need it, right?"

Chu Meng clapped her hands and said in admiration, "You are much smarter than I thought. It is indeed as you said. At the same time, the chip can also increase the level of brain development, increase IQ and so on,

"You know, the human brain is only developed by 5% . If the chip is used to assist, it will be developed even better!

In this way, it was more in line with the attributes of the second generation development machine.

Yu Tian suddenly had a bold idea. If this technology could really be realized, he could give it a try.

In the blink of an eye, it was noon the next day. The special plane landed at Sean International Airport.

What surprised Yu Tian was that Sean was so lively now. The planes took off and landed one after another.

The airport lobby was packed to the brim. Fortunately, Chu Meng had brought the Defense Department to personally welcome them. Otherwise, it would have taken them half an hour to walk out of the airport.

Everyone went straight back to the R & D Center. Chu Xuan and Chu Meng were the closest. The two of them hugged each other. Chu Xuan even comforted them, a€?I know everything. Don't trust others so easily in the future,

especially men, especially those like Yu Tian. They always try to trick us into giving birth to their children!

Yu Tian was not willing to listen to them. He snorted coldly and said, a€?What are you two scolding me for? We're on the same side after all. Can you not be so stupid?

a€?Am I only asking you to give birth to your children? a€?At the same time, it includes cooking, washing your feet, washing your pants, forks, socks, and so on. So Don't F * cking waste your breath on me. Hurry up and get to work happily, you bunch of Prodigal Women!

Chu Xuan and Chu Meng couldn't be bothered with him and immediately threw themselves into their work.

They were researching chip technology, and Yu Tian had been calculating the data, but he still couldn't get the correct results.

Seeing that time was passing by quickly, Yu Tian was also very anxious.

At night, Chu Xuan called and said softly, a€?Now they all need you very much. Chu Wen's body is particularly weak, and she has already fainted several times!

Yu Tian frowned slightly. This was really a sin. He could only say indifferently, a€?Okay, I got it. I'll go over immediately after these two days!

Chu Xuan also knew that Yu Tian could not get away at this time, so she could only say helplessly, "You don't have to be too anxious. I'll try my best to make them feel less pain!"

As soon as the call ended, Chu Meng rushed into the office and said excitedly, "Yu Tian, Come and take a look at this!"

Seeing her so excited, Yu Tian must have made some new discoveries. Yu Tian hurriedly got up and followed her to the R & D Room.

Chu Meng pointed at the simulation map on the big screen and said confidently, "I've seen the blueprint before. This is the chip that can be integrated with the development machine,

"Including its size, programming, and so on. Unlike the other chips I've made, it's very small, almost no different from a flea,

"The machine will precisely inject this chip into the neurons in the brain, and it will connect with the neurons in the brain, thus acting as the chip's assistant!"

Chu Xuan was not that excited. She said coldly, "But there's a success rate here. According to my calculations, the chip can not completely fuse with the neurons in the brain, and there will even be rejection,

"If that's the case, the implanted chip is like a bomb. It could explode at any time. Although we know the chip's data now, I have searched through all the blueprints, but I have not found the code to write the chip's program,

"With my current technology, it is not impossible to write it, but it requires an entire production chain, including equipment, raw materials, memory, integrated circuit boards, and so on,

"Because the size of the chip is too small, there's no such production line. So, from the looks of it, this chip is just a decoration. It has no use at all!"

However, Yu Tian didn't think so. He immediately stood up and said domineeringly, "If you don't have it, then go and create it.. Don't forget that we have money!"

?Chapter 524 – Chapter 524, Nimela

Thank you readers!

With money, he would have everything. Yu Tian decided that he would make the chip no matter what.

Chu Hui knew that Yu Tian was very anxious now, but there were some things that money could not buy.

She said helplessly, "But we need time. We need time to build the production line and the R & D Department, and so on. You should calm down first. We have to do it step by step!"

Yu Tian threw the calculation paper on the table and said indifferently, "I'm very calm now. I'm so cold that I think my pants are frozen. We still have time, but it's not unlimited."

So, what we need to do now is to start from the first step. We need to build the R & D Center and carry out technical research. The good thing is that we already have a part of the blueprints,

this will save us a lot of time. The few of you can freely use the funds of Chu Yan's industry and buy whatever you need. You can buy things and people as well,

all the experts in the world can buy Sean. This country, which is more than 2.7 million square kilometers, is already mine. You can waste it as much as you want. You Don't have to give me any face!

Chu Xuan said unwillingly, "We're all busy. What are you doing?"

Yu Tian scratched his forehead helplessly and said, "Aren't your two sisters about to give birth? I have to go and accompany them. Otherwise, they'll die of pain!"

Seeing Yu Tian's distressed expression, Chu Meng was furious. She said disdainfully, "Look at that evil look of yours!"

However, he smiled disdainfully.

What nonsense was he saying? What else could he do but commit evil? Every man and woman were committing evil at any time or place. Otherwise, humans would have been F * cking dead by now.

Everything was arranged properly. In the blink of an eye, the next morning, Yu Tian's private plane landed in the beautiful island country of Nim.

Beatrice and Rosella both arrived at the airport. When they saw Yu Tian, their hearts were filled with love and helplessness. They originally thought that Yu Tian would be their best hope.

However, this guy had more women than his hair. Moreover, every one of them was giving birth. When would it be their turn?

When they arrived at the bay villa, the scenery here was really charming.

Yu Tian raised his head and saw the rows of coconut trees, the rippling blue waves of the bay, the clean and soft beach, and the wooden houses and villas that were filled with tropical style. His mood was especially good.

Chu Yan and Chu Wen cried when they saw Yu Tian. Chu Yan was still better. After all, she had experienced it once and knew how to adjust her mood.

However, Chu Wen could not do it. She held Yu Tian's hand tightly and cried with grievance, "So it hurts so much. Yu Tian, I feel so bad!

Yu Tian comforted her softly, "It will be fine soon. Compared to those who are pregnant for ten months, you are already very happy. I brought the jade pendant. When you are in pain, put the jade pendant on the painful part!

After placing the jade pendant in Chu Wen's hand, Yu Tian left the room and went to the dining room with Chu Xuan.

Beatrice fully displayed her culinary skills and prepared a sumptuous seafood feast for Yu Tian.

As everyone ate, Chu Xuan slowly said, "I really like this place, the temperature, the scenery, and most importantly, it's almost pollution-free,

"Because there's no industrial manufacturing here, the residents here mainly focus on fishing and pay special attention to the balance of nature. So, I want to build the best hospital in the world in my dream here,

"Moreover, my design is to break the rules of the hospital and turn it into a real sanatorium. Then, I'll hire the best experts in the world to come here and truly provide the best medical help to the patients all over the world!

When Yu Tian heard this, he did not feel that there was anything wrong with it.

As he ate, he said, "Of course you can. Previously, we had the rare elements from the Northern Territory, as well as the machines that were developed to deal with brain diseases, and so on. All of these can be brought here!

Chu Xuan was especially happy to have Yu Tian's support, but then she said somewhat helplessly, "It's just that the chief here doesn't seem to want us to do this"

"They think that we will pollute the environment here, so my request was rejected by the chief called Amdura!

Yu Tian smiled disdainfully and said, "That's because you didn't let him know how powerful we are. This is just an island country with an area of less than 700,000 square kilometers!"

"As long as you like it, just buy it directly. What's the point of wasting time with them? It's just a waste of good time!"

At this point, Yu Tian turned to look at Beatrice and said indifferently, "Beatrice, don't get that fish. Come to my place and have a few words with you!"

Beatrice wiped her hands and poured herself a drink. As she drank, she asked softly, "What do you want to say?"

Yu Tian stood up and went to the window. He said indifferently, "I want to buy this place, but the chief here doesn't agree. Do you have any ideas?"

She blinked her eyes and said slowly, "If I didn't have any ideas, you wouldn't ask me about this. We can go to the management department now!"

Half an hour later, Yu Tian and Beatrice arrived at a white, five-story building by the sea.

Yu Tian looked up. At this time, the management department was having an open-air cocktail party. There were many guests.

Beatrice pointed at a middle-aged man in a white suit in the crowd and said in a low voice, "He is the chief of the NIMELA, Amdura!"

Yu Tian shook his head helplessly. This guy was so long that he seemed to have lost control. He could even become a chief. Who was blind?

There were no security guards blocking the entrance of the wine reception. Yu Tian and Beatrice walked into the venue smoothly.

At this time, Amdura and another middle-aged man were grimacing and saying, "I dare say that our Nim is the best place in the world,

the tourism and fishing industry here has brought benefits to the world, but because of our limited funds, we still need Mr. Wilhelm's support for the development of these two industries!"

But Wilhelm took a cold sip of the cocktail and said slowly, "I don't think there's anything special about this place,

"Before I came here, I was still full of fantasies about this place, but compared to the islands I've seen, it's basically the same. Coconut trees, oceans, mountains, forests, fishermen, fishing boats, and so on,

and I'm the manager of the world's largest tourism resources investment company. I want to objectively assess whether the investment projects here are really as good as you say,

but to be honest, everything here is like this cheap cocktail. It doesn't leave me any good impression at all!

Amdura's expression obviously became nervous. He hurriedly said, "Mr. Wilhelm, this place is indeed no different from other islands, but we have a special fisheries project that can be developed here,

"Previously, someone suggested to build the world's largest sanatorium here, but I rejected them all in order to protect the environment here. Mr. Wilhelm, I would like to ask you to consider more. The conditions we offer you are the best! Are the best!

Chapter 525 – Chapter 525, Buying The Pamela

Thank you readers!

Wilhelm didn't want to listen to Amdura's nonsense at all. He simply shook his head and said, "You'd better not talk about this. Although there are many advantages here, there are also a lot of disadvantages,

"If I agree to invest in this project, I don't even know how to introduce this place to the customers. Do you want me to say that this place can catch the world's sexiest fish?

"Forget it, Mr. Am. My plane is about to take off. If there's a chance, let's talk again!"

Wilhelm put down his undrunk cocktail, smiled disdainfully, and turned to leave.

Amdura's expression was particularly ugly.

This party was originally held for Wilhelm, and he had even specially found more than ten plump aunties with rich NIAMELA characteristics.

But now that the main character had left, what was the point of having a party.

He was very angry as he ordered his subordinates, "This is the most arrogant person I've ever seen. Tell everyone at the party to go back. I want to be quiet for a while!"

He turned around and wanted to leave, but he just happened to see Yu Tian's indifferent expression. He asked in puzzlement, "You were called here by that Easterner called Chu Xuan, right?"

Yu Tian nodded slightly and said indifferently, "You can say that. Do you have any thoughts?"

Amdura was already in a bad mood. He was just about to find someone to vent his anger on, so he angrily said, "I don't have any thoughts about you guys. Similarly, I don't want you guys to have any thoughts about me here."

"We don't welcome anyone from the Easterners, especially those easterners who have booked the entire vacation villa just for the sake of giving birth. You guys still want to turn my place into a sanatorium?"

"Then, we, the good people, will serve those who are sick all day long. This is a clean place. We don't welcome any dirty people!"

This idiot not only looked like a prank, but he also spoke without restraint and with discrimination.

Yu Tian snorted coldly and said in disgust, "Why do I feel like you're like the Salmon I had for lunch? You're just a freaking manager, and you really think you're the chief?"

"We're going to build the world's largest and best sanatorium here. Do you know how much benefit this will bring to the NIAMELA? Don't you know how to count, You Idiot?"

Yu Tian couldn't be bothered to talk nonsense with him. Now he finally understood why he opposed it, because this idiot had a deep-rooted prejudice against Easterners.

Amdura became even angrier. He said angrily with his eyes, "I'm the

Administrator of the NIAMELA. What I agree to is allowed. If I don't agree, no one can"

"Now, even those pregnant women have to leave this place. This is not a place for you to give birth. I will also take back the resort you bought in the name of this place,

"If you don't leave by this evening, I will ask someone to let you leave!"

Yu Tian did not want to say anymore. This idiot had completely gone crazy. If he was given a flashlight now, he could even use it as a laser sword.

He turned his head and looked at Beatrice. It was time for this woman to go on stage. Why was she always watching from behind?

Beatrice did not waste any more words. She directly stared into Amdura's eyes.

A second ago, Amdura was still angry, but a second later, he turned his head and said to Yu Tian, "I agree. You can build a sanatorium, a hospital, or even build latrines all over the place, if you want, I can sell you the NIMELA. The price is negotiable!"

Yu Tian didn't want Beatrice to do it because Beatrice's Eye of Satan was irreversible. After using it, a person's character would be completely changed.

Simply put, under the temptation of the Eye of Satan, good people could become bad people. Even a calm personality would become crazy.

But he couldn't blame anyone else. If he didn't put on an act, why would he mess with him like this?

Now there was no need to waste his time. Yu Tian chuckled and said coldly, "I'll give you 100 million world coins, and sell me the NIMELA!"

Amdura didn't even think about it and directly nodded and said, "Okay, I'll go draft the agreement now. You can enjoy the cocktail party here and the aunties over there!"

Yu Tian looked at the few women over there and almost vomited his stomach full of seafood.

An hour later, the entire Nimela was shocked.

"Is the chief crazy? Why did he sell Nimela?"

"He's a madman with dozens of wives. Not to mention selling nimela, he can even sell his mother for money!"

"But how will the new chief treat us? Let's go to the management department to take a Look!"

In less than an hour, tens of thousands of people had gathered at the entrance of the management department.

In Amdura's office, before signing the agreement, Yu Tian said coldly, "I have two more requests. First, you must leave Nimela and never come back,

second, you must go to super country. If I find out that you went to another country, I'll Kill Your Father Too!"

Amdura nodded sincerely and smiled, "I will go wherever you want me to go. I like super countries, especially the aunties there. Yes, I Love Aunties!"

Yu Tian saw that this idiot was about to lose control and signed the agreement. Yu Tian gave him 100 million world dollars and bought 1.7 million square kilometers of Nimela at the lowest price in the world.

When Yu Tian left the management department, the crowd instantly became restless.

Beatrice narrowed her eyes coldly and was about to open the eye of Satan.

Yu Tian hurriedly pulled her back and reprimanded her in a low voice, "Are you fucking crazy? These are civilians. What are you doing with them? Do you feel good watching them hurt each other?"

Then, Yu Tian went up to the stage in front of the management department building and felt that it was better to say a few words. Otherwise, these people would definitely take off their clothes and risk their lives for him.

He gestured for everyone to stop shouting and said loudly, "Yes, I am now your chief. I have already taken over the management of this place, as well as the chief's guards and so on.

"You don't have to be so excited. For you, not only has nothing changed, but everything will become better. From now on, I will continue to invest money into the Chimera.

"To put it simply, tell your original chief to get lost. Let's play our own game. Now, let's go home. Those who should fish will fish, those who should have children will have children. There will be a special managing director coming later!

With that said, everyone was finally relieved. As long as it wasn't a scam.

When they returned to the resort, even the scene was different. The chief guards had protected the entire resort.

Now that the family of the matriarch lived here, how could they not protect her?

When Yu Tian saw this scene, he just chuckled and let them be.

After returning home, Chu Xuan was the happiest because her dream was about to come true..

?Chapter 526 – Chapter 526, A Beautiful Night

Thank you readers!

Chu Xuan was even more excited. In this world, there was no problem that Yu Tian could not solve.

He had said it twice, but what he had encountered was arrogance and discrimination. After he had personally appeared, the chief and his wives had even abandoned the Pamela.

Although he had used some tricks, who cared about that process?

During dinner, Yu Tian turned on the television news and focused on the super-nation channel. The current super-nation was on the verge of collapse at any moment.

Yu Tian ate while listening.

The host said solemnly, "Up until now, the metropolis has lost over 70 trillion gold, and there is still no news of it. The senior management departments around the world"

The declaration of war had been submitted to the International Union, and the large fleets of the European continent had entered the surrounding areas. With the closure of the Chu Wen business group, the number of people protesting had already exceeded 50 million,

most of the people protested through calm methods, while some of the people protested by taking off their clothes and singing and dancing in front of the top management department,

the people in the Metropolis took a group dump on the road to protest. At the same time, the aid plan approved by the Supreme President had not been approved yet,

affected by the impact, the exchange rate between the world currency and the super currency continued to drop. Originally, 10 super coins could buy a lot of food, but now, it was not even enough to buy a diaper,

Metropolis' new managing director previously urged everyone not to act pretentious. Now is the time to unite. We must use the spirit of a dead pig that is not afraid of boiling water to tide over the difficulties!

Yu Tian did not know whether to laugh or cry, but he still felt that the strength was not enough.

They should play something more exciting at this time.

Then, Yu Tian connected to Monica's video.

Monica seemed to be in the wild, practicing her attack skills with a group of developers. She panted and said, "Yesterday, the developers who joined PBG launched an attack on us,

“I’ve already lost 50 people, and now we have less than 100 people. If the third-generation developers don’t come to support us, your plan will be forgotten!”

As long as Monica was fine, it was fine. Yu Tian said indifferently, “The third-generation development machine is currently being developed. There are many places that even we, the people with the highest IQ in the world, can’t understand.”

“As for the second-generation developers, we can provide you with a batch, but now that I’m not by your side, you have to first ensure your own life. When fighting, don’t rush up like you don’t care about your own life.”

“Just run away. If you have the chance, hit him a few times. If you don’t, run away. I’ll get Trus to help you later!”

Monica said disdainfully, “Don’t talk about that idiot Trus. He has shaved his hair and is a vegetarian all day long. He says that he has seen through the secular world. What kind of person do you know?”

Yu Tian laughed and said, “What can he see through? Alright, I won’t waste time with you. Be careful!”

The video was cut off. Yu Tian rubbed his chin and thought carefully before giving Trus a call.

Trus picked up the call and immediately said, “Amitabha, I want—”

Yu Tian directly interrupted, “What are you trying to do? You can even see through the secular world? You can’t even see through your own pants. Do you know what the secular world is? It’s not me. Only life and death are called the secular world,

“As long as you’re alive, you won’t be able to jump out of the mortal world. When I have time, I’ll tell you what the mortal world is. Now, listen carefully. I want some movement from the ghost domain.”

“You have to get them to bring the manufacturing warriors over. The more lively it is, the better. That’s your mortal world. Go and break it!”

Powell Trus was rendered speechless. He could only smile helplessly, “You have to try to break the mortal world too. You have too many things to pursue. Try to put it down!”

“If I put them down, the world will be f*cking destroyed. Go do it. Stop talking nonsense!”

After saying that, Yu Tian directly cut off the phone.

Waiting was always particularly boring. Yu Tian felt that he was not suited for a quiet life at all.

At this moment, Beatrice, who was dressed in a black silk nightgown, came to the kitchen to get some water to drink.

She noticed that Yu Tian was in a daze, so she deliberately passed by Yu Tian's side, leaving behind a hint of fragrance and beauty.

Yu Tian's gaze really landed on her. That graceful figure brought with it an infinite amount of charm.

To be honest, this Beatrice was really a top-notch beauty. Her figure was so hot that it was like an enchanting flame.

Especially in the dead of the night, when the waves were attacking. Wasn't this the best time?

Since she had nothing to do now, she might as well use her to pass the time.

He then went to the kitchen and chuckled, "Do you have any thoughts of making some noise with me?"

Beatrice's face was slightly red and her heart was beating wildly. However, she still asked despite knowing the answer, "It's already so late. What do you want to do? Aren't you afraid of waking others up?"

Yu Tian looked upstairs and said in a low voice, "There are plenty of rooms in this entire resort. Do you have to do it here? I'll go to the wooden house in the backyard and wait for you. It's up to you whether you want to come or Not!"

After saying that, Yu Tian jumped out of the window.

Beatrice was holding the cup with all her might. She was both excited and excited.

Following that, she gently put down the cup and walked to the wooden house from the back door.

Yu Tian enjoyed himself for half the night. He only woke up in the afternoon. Looking at the messy quilt and the sleeping Beatrice, he felt good all over.

At this moment, the phone suddenly rang. Yu Tian looked and saw that it was Chu Qing calling.

He had to pay more attention to this fiancée of his. Playing with others outside all day long was too cold to his fiancée.

He immediately picked up the phone and smiled. "Darling, it should be night by now. Can't you sleep?"

Chu Qing sighed and complained, "Of course I can't sleep. Did you know? Our six-dimensional code has already broken through 700 million users. But Tonight, our core code was hacked"

"Five minutes ago, Yan Longwen's side closed the server. Now, I can only tell the public that it's server maintenance. But Yan Longwen said that only du Tianci knows the core code, and it has been locked"

"Now, I've asked all the security guards to look for du tianci, but they still can't find him. What do you think we should do now?"

It was really difficult for this woman. Such a big company, and tens of thousands of employees were under her management. It was strange that she could be happy.

He also comforted her, "You don't have to worry. If there's a problem, we can solve it. Chu Wen and Chu Yan are about to give birth, and I can't leave yet"

"How about this? You rest first. I'll call Yan Longwen!"

Chu Qing was silent for a moment, and then she complained, "When can I lay beside you and give birth to a child for you? Chu Yan has already given birth to two!"

"When I go back, we'll have a child.. Is that Alright?"

?Chapter 527 – Chapter 527, The World Is Very Big

Thank you readers!

Yu Tian was not in the mood to have a child right now. He casually said a few words and hung up the phone.

He was a little touched.

No matter what, he was the leader of Sean and Nimela, but now he could only wait here for his wife to have a child and then use the phone to solve the problem.

Suddenly, he felt that the world seemed to have become very big, no matter what the distance was very far.

If she could solve the problem of that space, the distance would be infinitely shortened, and the world would be easier to control in her hands.

However, she could only think about it now. It was like the distance was so far that she could not even see the edge of it.

Yan longwen, who had not eaten for a day, felt as if she had suddenly broken down when she received a call from Yu Tian. She cried and said, "I really regret trusting du Tianci now!"

"When I gave him the core code, I never doubted anything. But he did it. It really makes me angry!"

Yu Tian comforted her indifferently, "It's nothing. It's like falling into a latrine pit. Even if you regret why you're jumping and taking a shit, you're already covered in poop!"

"After washing up, you can continue to jump and take a shit. It's not a big deal. I'll find a master to help you unlock the code, but you have to take out a replacement file. Otherwise, the people outside will suspect the six-dimensional code!"

Yan Longwen felt that it was not the right time to ask other questions. She asked tentatively, "Boss, how do you want to solve du Tianci?"

"I don't need to solve it!" Yu Tian said indifferently, "Think about it. Does du Tianci not know the strength of the Chu family and me? If he didn't do it before, why did he do it now?"

Someone must be behind the scenes. The code was du Tianci's last use value. Now that it has lost its value, can they still let him live? It's impossible!

"Do you not want to care about this anymore?" Yan Longwen followed up with a question.

Yu Tian smiled calmly and said, "My time right now is like a spasm. I don't even know how to plan. Leave it to Chu Qing!"

Yan Longwen did not say anything. With Yu Tian's current status, he did not want to waste time with someone like Du Tianci.

Sean, R & D Center. Chu Xuan's phone rang.

This girl was in a pile of messy documents. She finally found the phone. After picking it up, she said impatiently, "Can you cut the crap? I'm so busy right now that I'm going crazy!"

Yu Tian said calmly, "Before you go crazy, help me unlock the core code of my six-dimensional code that was locked by a bastard. Otherwise, there will be nearly seven hundred million people who will go crazy with you!"

Chu Xuan was a little shocked and said, "D * mn, the scene is so big. Is it very profitable?"

"At most, it's just to earn some pocket money. It's enough to pick up girls!" Yu Tian said disdainfully, "Alright, finish it as soon as possible. Leave the other jobs aside!"

Half an hour later, Chu Xuan sent a message to Yu Tian.

"Done. I also strengthened the core code of the six-dimensional code. The authority is only in my hands. I didn't even think of giving it to you. It's the best if it's in my hands. The server can be reopened, you bastard!"

Yu Tian immediately sent a message to Yan Longwen and looked at the time.

In three days, his and Chu Wen's child would be born. It was estimated that the family members would appear at the first opportunity.

Now that he had no choice, he didn't waste his energy to fight them. He had to develop himself first.

At this moment, he connected to Tucker's video.

As soon as the video was connected, Yu Tian saw that the metropolis was like a sea of fire.

Tucker explained, "Boss, as you can see, a large number of defenders have entered the metropolis and are trying to kill Trus. But so far, Trus is still carrying out all kinds of attacks,

"The people of the metropolis are leaving this place together to hide. Earlier, Trus has already gone to the second largest city, the old city. The top management department has already given the order,

"If necessary, you can use the super weapon!"

Yu Tian drank a mouthful of red wine and nodded slightly. Trus always made him very satisfied.

He was only passing by the old city. He might be going to the Super Management Department.

However, there was not much value in doing so now.

Yu Tian cut off the video and immediately called Trus.

Trus, who was walking in the wilderness, did not even look at it. He knew that it was Yu Tian calling him.

This was because only Yu Tian knew about this call.

After the call was connected, Yu Tian said directly, "Don't go to the Super Management Department. That's useless. Even if you kill the CEO, they will come up with another CEO at any time. How many can you kill?"

Trus asked with some doubt, "Then who am I going to kill? I've had enough of going to those buildings!"

Yu Tian said with a frown, "Who asked you to go to the building? Can't you have a little ambition? If the building is destroyed, where will you live? How about this, I'll give you a fun place. You Go to Villar"

"There's a secret base there called Ghost Domain. It specializes in creating people similar to you. If you go and destroy it, the Super CEO will definitely die of anger"

"I'm busy giving birth right now and don't have time to go over. Otherwise, you won't be able to come and play!"

"Villar?" Trus suddenly stopped in his tracks. He looked left and right and immediately changed his direction.

Yu Tian said, "Yes, Villar. After you reach Villar, don't act like you're stupid and mess around. You have to find that base first before you can do it"

"But remember, when you do it, don't destroy the buildings, because I want their technology. Alright, Go Do It!"

After hanging up, Yu Tian shook his head helplessly.

Distance and time were simply his greatest resistance.

However, that strange number did not make sense no matter how he calculated it. Even the person with the highest IQ in the world could not figure it out, let alone others.

In the blink of an eye, it was noon the next day. Under Yu Tian's orders, Turk was the first to arrive at Villar and meet with Trus.

In a small restaurant, Turk looked at the gentlemanly Trus in front of him, who was reading a book, in fear. He said in a low voice, "The boss asked me to come. He was afraid that you would not know how to find the Ghost Territory

Base"

“He asked me to help you. I’ve already sent people to ask around. There will be news soon. But Mr. Turk, almost all the defenders want your life now!”

“Why are you still in a crowded place?”

Turk turned to look at his subordinates in the north. He pointed his weapon at the restaurant owner and said, “This mission is very important to the boss. Don’t make any mistakes!”

Trus took a sip of his coffee and turned a page of the book. He continued to read, as if he did not listen to Turk at all.

At that moment, someone walked in from outside the door. Turk turned to look..

?Chapter 528 – Chapter 528, Predator

Thank you readers!

Turk turned his head to look. It was his subordinate. He must have received news of the ghost realm.

His subordinate whispered a few words into Turk’s ear. Turk nodded immediately and said to Trus, “We already know the location of the ghost realm,

but the security there is of the highest level. What kind of help do you need from us?”

Trus slowly closed the book. He touched the cover of the book reluctantly and carefully put it in his backpack.

Then he smiled and said, “Just stay away from us!”

Tucker watched Trus walk out of the restaurant and nodded to his other subordinates.

His subordinates immediately threw out a drone and closed the restaurant’s doors and windows. At the same time, they closed the curtains.

Fortunately, there weren’t many people living here. Usually, no one would come.

Yu Tian then received the signal from the drone and projected it onto the television.

At this time, Beatrice placed the sumptuous dinner on the table and looked at Yu Tian lovingly. She even licked a piece of cake sexily in her mouth.

Yu Tian looked at her in puzzlement. Why didn’t this woman’s stomach move?

Could it be that only the Chu sisters would immediately move?

He immediately asked, "Do you feel uncomfortable in your stomach, nauseous, and want to throw up?"

He was a little puzzled by Beatrice's question and said, "I feel very good now. I can even go hiking, dance, and fight sharks in the sea!"

That was it. Ordinary people were normal, and only the 108 sisters of the Chu family were like this.

Yu Tian picked up his knife and fork and ate while watching TV. He ignored Beatrice.

He was not in the mood to waste time with her. He would talk about it when he had the time.

At this time, Trus had already arrived near the ghost realm.

Yu Tian also connected the radios of Turk and Trus to the computer and ordered, "Turk, Keep Your Eyes High. Don't let them discover you!"

Although this drone was designed and manufactured by Chu Yan industry, it was the most advanced drone in the world. Its size was only the size of a mosquito, and in disguise, it was also a mosquito.

However, the infrared signal it emitted was still very easy to detect.

This was because Yu Tian had discovered that he had yet to see the real ghost realm. In front of him were two especially large-scale defense camps. In the endless desert around them, they were particularly eye-catching.

He had even discovered a few large firearm launchers in the camp.

Yu Tian followed up with an order, "Use the thermal infrared to check the ground. Are there any dry goods?"

Under the surveillance of the drones, they had indeed discovered that there was an extremely large space of nearly two square kilometers under the ground of the two camps. The depth was about a hundred meters.

That was correct. This was the ghost domain.

Yu Tian then said to truth, "I told you to wear a helmet, but you said you were afraid of the heat. Now, I have to personally command you. The place you want to go to is in the middle of the two camps"

As for these two camps, you can see for yourself!

Truth did not say anything and directly walked towards the gates of the camp.

When the few defenders saw truth approaching, they immediately raised their weapons and shouted loudly, "Stop, this is a restricted area for defense. You are not allowed to get close. Who are you and what do you want to Do?"

Yu Tian drank a mouthful of red wine and chuckled, "You can't stop anyone. You have to stop this evil creature!"

Before he could finish his sentence, terrus suddenly jumped in front of everyone as if he had teleported.

The defenders were stunned, but when they saw the person who came, it was terrus, who appeared on the television every day. They all exploded on the spot.

Trus didn't even give them a chance to speak. With a few punches, the defenders all fell to the ground and died.

When the other defenders in the courtyard saw this scene, they immediately reacted.

A few seconds later, thousands of defenders in the entire base knew that Trus had come. They all picked up their weapons and entered the combat positions.

Harden Rani, the highest president of the camp, was listening to music and enjoying a delicious lunch. When he heard the report, he immediately threw away his knife and fork and walked into the command center as fast as he could.

"What position is he in now?"

The assistant said nervously, "President Harden, he has already entered the camp of sector one and is heading towards the central region. He might be heading towards the Ghost Region!"

Hadden slammed the table and said angrily, "Gather all the defense personnel from District 2's campsite. The helicopter will immediately fly into the sky. At the same time, get the super defense team to immediately launch an attack,

"He actually dares to come to my territory to show off. I will definitely not let him leave Alive!"

Before he could finish his words, a violent explosion occurred in a building in District I's campsite. Half of the building collapsed and hundreds of defense personnel were smashed into the ruins.

Harden frowned and said in a low voice, "I want to call the Supreme President and have the ghost realm close the entrance inside!"

A minute later, the president of the Ghost Realm Management Department, Ben Lennon, stood up with a cold gaze and said to Nicholas coldly, "Those idiots outside Can't stop Terrus at all"

"Get ready and activate the Predators at any time. If Terrus enters the ghost realm, let them attack!"

Nicholas nodded and agreed. He left the office and found an empty place. He then made a phone call.

Then he said in a low voice, "The ghost realm might be crippled. Get ready to leave at any time. If there's a chance, I'll leave immediately!"

In the office, Ben Lennon received a call from the supreme president. He gritted his teeth and said, "Mr. President, Terrus wouldn't have such an IQ and it's even more impossible for him to know that the ghost realm exists here,

Someone must be commanding from behind, but president, don't worry. Our predators aren't so easily destroyed. Moreover, I would like to take this opportunity to conduct a comprehensive test on the Predators!"

In the office of the Supreme President, the president walked around the desk and came to the window. He looked at the flying flag above his head and said seriously, "Now, the Predators are our last weapon,

"You've received the highest budget investment. I hope it's worth it and not just a pile of junk. When I need them, they can only provide me with a ridiculous picture,

"And now we have more and more enemies. They want to take back the gold that was stolen and are even ready to fight with me. If the Predators succeed.., I won't have any qualms about continuing to act like a hoodlum with them. But you have to know that you have to have the capital to act like a hoodlum. So, if the predator fails, you have to become a useless thing and be thrown away!"

Lennon narrowed his eyes. When he used himself, he would give everything.

When he felt that he didn't need anything, he would take everything away. What the hell was that?

He immediately said, "I have confidence in the Predators. In fact, they have already completed the third stage of research and development.. Now that they have become even stronger, let alone Trus, even Yu Tian would not be able to leave here alive!"

?Chapter 529 – Chapter 529, Unstoppable

Thank you readers!

Truesus was unstoppable. No weapon could harm him. By the time Harden saw this, he had long lost his arrogance.

He even said in fear, "Oh my God, who created this monster? Is there nothing that can kill him?"

Before he could finish his sentence, the big screen flashed again, and the entire command center trembled. Dust fell all over Harden's face.

When the screen returned to normal, everyone discovered to their horror that the defender's dormitory building in sector one had completely collapsed.

At this moment, the defense commander who was desperately firing at truth shouted into the radio, "If we continue fighting, we will only be courting death. I request to retreat!"

Harden immediately called Ben Lennon and complained, "We are no longer able to provide protection to the ghost realm. Now, I have already lost close to a thousand people. The entire area's camp has been destroyed by that guy,

I want to order my people to retreat immediately. I wish you good luck!"

Without waiting for Ben Lennon to speak, Harden directly ordered all the defenders to retreat immediately. Thousands of people could not stop one person. If this fight continued, what was the point?

Ben Lennon did not want to waste time with a useless person like Harden. He immediately gave Nicholas the order to activate the predator.

Nicholas nodded and used the loudspeaker in the R & D Center to say, "All R & D teams, the base is under attack. Now, I order you to activate the Predator Plan"

"Predators 1 to 5, prepare to activate!"

The hundreds of people in the manufacturing department heard the order and immediately turned around to look at the five men behind them who had their eyes closed. They were extremely muscular.

The head of R & D wiped the sweat on his forehead and said in a low voice, "Connect to the program team and activate the life element!"

After a series of operations, the five predators opened their eyes at the same time, and the entire R & D department was filled with murderous intent.

After the order was given, the five predators' minds appeared with the information of Trus at the same time, and they walked toward the exit at the same time.

At this time, Trus also arrived at the entrance of the base of the ghost realm.

When Yu Tian saw this, he ordered, "Don't be anxious. There are pretentious people in that base, and they will definitely not let you enter easily. Wait a moment, you can go and take a piss or poop!"

Before he finished his words, the entrance of the base opened automatically, and the five predators rushed out.

Even through the screen, Yu Tian could feel the killing intent of these predators.

They looked especially powerful. It was a pity that he wasn't there, or it would be another opportunity for him to train.

As they spoke, the five predators attacked Trus at the same time.

In the blink of an eye, all kinds of punches and kicks were thrown, but Trus just stood there and let them hit him.

Beatrice said in surprise, "Doesn't he know what pain is?"

Yu Tian said disdainfully, "If you don't let him listen to the opera, it's the greatest pain. Even bullets can't hurt him, and these creators are no match for him!"

At this time, Trus didn't want to waste any more time. The sooner he finished the battle, the sooner he could study that Buddhist scripture.

He swung his fist and directly hit a predator on the face.

However, this predator didn't even blink. After receiving the heavy blow, it only slightly tilted its head.

Yu Tian also raised his eyebrows when he saw this.

Although Trus' attack power was slightly weaker than his, it was more than enough to hit the creators.

It turned out that these creators had also improved their strength, and now they were more resistant to attacks.

At this time, Ben Lennon gave an order, "Tell them to stop attacking. I want to see how strong their resistance is!"

After receiving the order, the Predators stood in a row and told Cruise to hit them.

Cruise attacked for a long time, as if he hit metal.

He then said helplessly, "Old friend, is there anyone else like me in this world?"

Yu Tian said indifferently, "You wish. You were born, they were created, how can they be the same? Don't continue to fight, there's no use fighting like this!"

Lennon heard Trus speak and immediately asked, "Who is he talking to?"

Nicholas zoomed in on the screen and quickly said, "He is wearing a radio. He must be the commander behind him. I'll get someone to cut into his radio signal to see who that person is."

The technical engineer immediately did some operations on the computer, and the signal was quickly cut in.

At this time, Yu Tian added, "The bodies of these manufacturers are extremely hard, but they are not immortal. Go find a drill, drill into their hearts, and then stuff the bomb in!"

Nicholas immediately ordered the analysis of the voice.

The engineer quickly finished the analysis and turned around, "It's Yu Tian! Everyone who heard this was stunned."

Lennon growled, "B * stard, they are actually together? So all of Trus' attacks were directed by Yu Tian. Does he want to destroy everything?" Nicholas' face was covered in cold sweat as he loosened his tie.

It had to be said that Trus and Yu Tian were currently the two strongest people. If they were enemies, they could still restrict each other. But now that they were actually in cahoots, who else could stop them.

Now that Trus was already so difficult to deal with, coupled with Yu Tian's words..

He no longer had the courage to continue thinking about it.

Just as everyone was shocked, Trus casually picked up a dagger and stabbed it into a predator's heart. Then, he stuffed a high explosive grenade into it.

After the earth-shattering explosion, only half of the Predator's body was left.

The heart equipment was destroyed, and the brain equipment was still there. However, the predator had completely lost its ability to fight.

Ben Lennon, who was the first to react, immediately shouted, "What are you waiting for? Tell the predator to attack. Pay attention to your defense. Don't let him use the grenade again!"

The four predators charged at Trus again.

However, Trus relied on his powerful defense to hug one of the Predators. It was another grenade.

Seeing this, Nicholas sneakily looked left and right. He quietly left the command center and walked toward another exit.

The Predators couldn't stop Trus and Yu Tian at all.

The ghost realm was destroyed in just a minute.

Yu Tian stretched his back casually. He had thought that the ghost realm was something great, but it turned out that it was so weak.

He smiled indifferently and said, "Trus, you did well. I'll get you a few more good books later. Now, enter the base!"

Trus chuckled and then rushed to the remaining predators.

Inside the base, Ben Lennon personally came to the command center and smashed the glass of the base's emergency defense switch with one punch. Without hesitation, he activated the emergency defense.

The moment the defense program was activated, the explosion program was also activated..

?Chapter 530 – Chapter 530 Was Just The Basics

Thank you readers!

The people in the base immediately panicked. He didn't want to live anymore. He could choose any method to commit suicide, but he couldn't bring them with him?

There were at least a thousand people in this base. The one who didn't have a family with him would be his scapegoat. Wasn't that immoral?

Everyone rushed toward the exit as if they had gone crazy.

However, the exit was completely locked and couldn't be opened at all.

Even Trus outside couldn't open it. Whether it was bombs, grenades, fists, or the way he spat and kicked, the door didn't move at all.

Even Yu Tian showed a helpless smile.

The person who designed this door was definitely a genius. With such technology, why would he create monsters? Wouldn't everyone be invincible if they carried the door?

At this moment, a rumbling sound came from underground and the ground began to collapse.

The entire underground base instantly turned into a large latrine pit.

Yu Tian felt that it looked no different from a latrine pit. He said helplessly, "Trus, retreat. If you go in now, other than seeing a group of strange people, you won't be able to see anything!"

Trus of course didn't say anything else. He would just leave if he was told to. After all, he didn't want to stay here and dig a hole to play with.

Yu Tian then said to Tucker, "You guys work harder. See if there are any living people in the back. Ask them anything you can. If there are no living people"

See if you can get the information from the ruins. When you guys come back, I'll treat you to a Sean Melon Pie!

There was no need to watch the video anymore. Yu Tian took a sip of wine and suppressed the anger in his heart.

Sure enough, he had to do it himself to get the job done.

This guy, Trus, only knew how to do it. His forehead, which was bigger than his butt, seemed to be filled with words of "If you don't like it, do it". Even a two-year-old child's IQ was higher than his.

They could have gotten useful information this time, but now they just lost their research and development base.

The people in the top management department were at most angry. They slapped each other in the face and kicked each other in the pants. They did not have much anger.

Now, they were just waiting to see if Monica could turn PBG upside down.

In the next few days, Monica and PBG were using shameless and hooligan methods to expand their strength.

This day was also the day Chu Wen gave birth.

A few minutes before the child was born, Yu Tian placed the jade pendant on Chu Wen's stomach and encouraged her, "Don't think about anything. Just listen to Chu Xuan. She has a lot of experience in giving birth!"

When Chu Xuan heard that, what kind of words was that? It was as if she had given birth to many children.

The child was born very quickly. Chu Wen felt that at this moment, she had become a real woman.

The moment the child was born, the sky immediately became dark.

The residents of the NIMELA were so scared that they crawled under the bed, jumped into the pit, and knelt down to kowtow. They thought that the people in the sky were going to poop at the NIMELA.

Only Yu Tian and the others knew that the family members had come to pick up the child.

Chu Wen's eyes were filled with reluctance. She hugged the child tightly and cried to Yu Tian aggrievedly, "Give the child a name. At least in the future, when you think of the child, you will have a thought!"

Yu Tian nodded and said indifferently, "I've thought about it long ago. My surname is Yu Tian, and you're called Chu Wen. Our child will be called Crow's feet!"

Chu Wen was so angry that her head was buzzing. She scolded, "What are you thinking? Crow's feet? Why Don't you just boil the fish for our son? How spicy does that sound?"

Beside her, Chu Yan said with a smile in pain, "Tomato sauce fish is fine too!"

Just as she said this, Chu Yan felt a burst of pain in her stomach. Yu Tian looked at the time and saw that it was just past twelve o'clock. Chu Yan was about to give birth.

Very soon, Chu Yan gave birth to a boy as well.

Yu Tian hugged the two cute babies happily, feeling extremely proud in his heart.

At this moment, the door rang. Uncle Long had come in person.

After meeting, Uncle Long also said with difficulty, "From now on, I will be the one to pick up the child. This is also an order from my clan leader. He asked me to tell young master that before you truly become invincible and powerful"

"He will not see you. Moreover, he also asked you to raise your nameless technique to the highest level. Only then can you cultivate other techniques!"

Yu Tian frowned and said disdainfully, "Old man, before you came here, did you drink something that others find disgusting? Or is it that living father of the clan who is so bored that he doesn't know how to play with me?"

How can I improve my nameless technique? "There are only a few experts in the world now. I practiced qi and practiced martial arts, but in the end, it was still empty. Now that I calculate it, I'm at most a F * cking level three."

"Then, you even told me that this is just the F * cking foundation. Do you believe that I can use a 720-degree Thomas and 720-degree spiral kick in the air and make you drill a hole in the family's latrine like an electric drill!"

Uncle Long forced a smile and said, "Young master, I absolutely believe in you. You will definitely be able to use such a high-end move, but the nameless technique is the foundation of the family's skills,

"It's still far from real cultivation. Think about it, in front of Mr. Dian Lie, you don't even have the chance to make a move, and Mr. Dian Lie is only a low-level expert in the cultivation world,

"If you were to meet the real experts over there, you might have already been reduced to ashes before you could even cultivate Thomas. How can you talk about protecting the tens of thousands of old and young people in Your Family?"

This was true. Even his old and indecent father could toy with him like he was playing with his son.

If he were to meet a real expert, then these two moves of his were equivalent to trapping a BUG in someone.

However, Yu Tian did not want to let uncle long off. He chuckled and said, "Uncle Long, why don't you tell me how I should raise the level of my cultivation method? You help me, and I'll treat you to scraping, cupping, and pedicure later!"

Uncle long laughed and said, "I'm just a butler. What ability do I have to guide young master? However, since young master thinks highly of this old man, I might as well dawdle with young master for a while."

"With your current strength, it can be said to be even more difficult to raise your level. But this world doesn't lack experts, and there are many, many, enough for you to play with."

"But these experts aren't people who have special abilities. They're just blooming epiphyllums. When the flowers bloom, they're very beautiful, and the flowers fall quickly."

“In the cultivation world, such people aren't even enough to be a watchdog. So, young master, you have to understand that those aren't skills that can survive in the cultivation world, because in the face of absolute power, any special abilities are nonsense!”

“However, your world-devouring plan is still very good. It's just that the fire is not strong enough and the flames are not fierce enough. You must continue to increase the pressure so that you can pressure more experts out!”

Although this old man did not say it explicitly, Yu Tian could also hear that it was right to continue pretending. If you did not pretend, no one would be willing to step forward. They would take a mop, broom, and flashlight to hit you in the face.

Uncle Long looked at the time and stood up. “I should go back.. Leave the child to me!”

I Have 108 Older Sisters #Chapter 531 - Read I Have 108 Older Sisters Chapter 531

Chapter 531 – Chapter 531, Continue To Pretend

Thank you readers!

Yu Tian was the one who was most unwilling to listen to these words. He would immediately send the child away as if the child he had given birth to was not to be seen by others.

As Chu Wen and Chu Yan were reluctant to part, Yu Tian carried Yu Wenwu and Yu Yansheng to uncle long.

As if they knew that they were going to be carried away from their parents' arms, the two little fellows cried very loudly and almost spat on Uncle Long's face.

Uncle Long said happily, “Look at these two little guys. They will definitely be dragons among men in the future. Young master, I will carry the child back now. You Don't have to worry. The family head will definitely not let the child suffer!”

Yu Tian was in a bad mood. He snorted coldly and said, “Isn't that obvious? Do you have a grandfather who would cheat his grandson? You should stop wasting time and quickly carry him away. Otherwise, my two daughters-in-law will definitely fight with you to the death!”

Uncle Long did not say much and carried the child back to the ship.

Chu Wen was crying her heart out. After all, Chu Yan had experienced it once. She hugged Chu Wen and comforted her, "Don't be sad. We can still see the child. This is our fate!"

"That's what you say, but the child is not by our side. Can he have feelings for us?" Chu Wen cried.

Yu Tian laughed and said, "Don't worry about that. If they don't have feelings for us, I can beat them to death. I can make them kneel in a row in front of me, and I can kick them in the pants!"

Since the children were all taken away, he might as well think about how he would continue to destroy the world.

Uncle Long had already said that developers were useless. In the cultivation world, they were not even as good as the gatekeepers.

Although it was a bit pretentious to say that, it was more or less the same.

He still had to follow his own ideas and listen to others' opinions. He could not be swayed by others.

The next morning, Yu Tian rushed back to Sean first. As soon as the plane landed, Yu Tian received a call from Chu Qing.

"Dear, we found du Tianci, but he said that he didn't do it. Do you think that's credible?"

Yu Tian walked out of the airport under the escort of the defender and said calmly, "I want to talk to him. Go and prepare!"

An hour later, in the R & D Center, in the office.

Yu Tian looked at the screen quietly. Du Tianci was beaten black and blue, and his hands and feet were tied up. He had mixed feelings.

Du Tianci's eyes were full of dissatisfaction and helplessness. When he saw Yu Tian on the computer screen, he could not help but feel frustrated, he said exasperatedly, "I can kick an old man's pants and rip off an old lady's pants, but I will never do anything to destroy the six-dimensional code,

"If you don't like me, Let's have a one-on-one fight. But don't slander a good person!"

He still had the face to say that he was a good person. He even kicked an old man's pants. At least he was considered a good person.

Yu Tian said disdainfully, "Look at how you let people do that. At this moment, I feel ashamed for you. Aren't you doing well at Galaxy Tech? You have all kinds of tricks to court death. Why Don't you go practice diving?"

"Your tricks are guaranteed to win the first place in the world's super death-courting competition. Why are you shouting at me? ? Did I say that you did it? Q I saw you to let you live."

"Why don't those guys behind you who can go crazy from peeing can pluck out all your hair!"

Du tianci blinked his eyes in surprise and asked doubtfully, "When did you become so good at eloquence? I remember that you used to pretend to be aloof, but now you have learned a sense of humor. Good for you!"

Yu Tian smiled disdainfully and said arrogantly, "When I was playing with my sense of humor, you were still choosing which woman to reincarnate from. Alright, I'm not going to waste time with you anymore"

"I know that you didn't do it this time, but you definitely know who did it. Give me some face and don't make it so that I won't even be embarrassed to see you in the future!"

This reminded du Tianci. He thought for a moment and said, "You really shouldn't say that. Pm also suspecting someone. His name is Shao Huaqun, and he's an engineer from Bi'an technology company"

"We used to know each other. We often went to the food stalls to drink beer without paying, and beat up the boss. Half a month ago, he invited me to drink, and you know how much I can drink."

"Without half a bottle of beer, you wouldn't have been able to get me drunk. That day, I drank one cup, and in the end, I was so drunk that I was cut off my kidney and couldn't even know it. But I know in my heart, and in a trance, I feel like that idiot asked me about the six-dimensional code or something."

"At that time, did I say it or not? I really couldn't remember it. One thing is for sure, if this idiot knew the code, he would definitely have the ability to lock it up!"

Shao Huaqun?

Yu Tian remembered this name. Then, he said, "Why didn't you cut off your kidney? If you don't have the capacity to drink, how can you compare yourself to others? If you compare yourself like this, don't drink anymore in the future. You should just drink alcohol instead"

Then, when you're so crazy that you don't even know your father, you can just set a fire in your mouth and directly turn into ashes!

Yu Tian couldn't be bothered to talk more to this fellow. He immediately ordered, "Hurry up and find a doctor to take a look at that pig face of yours. Those who don't know will think that you stole someone's pants and forks and let them do it!"

Following that, Yu Tian gave the name of Shao Huaqun to Chu Qing. At the same time, he said indifferently, "He's from Bi'an technology company. Du Tianci said that he's most likely to do this. Get Someone to make the scene bigger"

"It's best if we get that Bi'an company involved. It's a rare opportunity to show Off!

Chu Qing said awkwardly, "I know about Bi'an Company. The CEO is a woman called Wen Hualuo. She's a vixen. She has the support of the Qian family, the second family in the east.

"The young master of the Qian family came to us from the capital just to chase after her. Previously, he invested one billion yuan in Bi'an Company to develop four-dimensional game technology"

"If you do that, you might have a conflict with the Qian family. Are you sure you want to do that?"

Yu Tian said disdainfully, "I don't care about the front and back families. The Chu family is the number one family. If they dare to meddle in my affairs and get sick of Me, I will wipe them away like Snot!

Chu Qing didn't know whether to laugh or cry. "Alright, I know what to do!

After hanging up the phone, Yu Tian didn't care about the Qian family at all. He found Chu Hui first and asked impatiently, "How's the production line?"

Chu Hui slowly said, "The world's top experts have already come to Sean. Chu Meng and Chu Xuan have already handed the blueprints to the engineering department. Now, the new production line is being assembled"

"It's estimated that the first chip will be produced in a week. Our second-generation machines are working full-time, and we have already provided Monica with more than 500 second-generation developers,

"But there's a problem that you have to know. The instructions received by these second-generation developers seem to be very unstable. They could collapse at any time!

Yu Tian said indifferently, "I've known about this for a long time. Otherwise, Kellogg wouldn't be able to develop third-generation machines.. Moreover, the second-generation developers who join PBG now will only do so after the instructions disappear!

Chapter 532 – Chapter 532, First-Generation Machines

Thank you readers!

Chu Hui agreed and said slowly, "Thinking about it, the first-generation machines are the most stable. At least now, none of the first-generation developers have betrayed us, and their skills are very good,

the only shortcoming is that the skills of the first-generation developers are really not as strong as the second-generation ones. Otherwise, I would prefer to use the first-generation machines!"

Yu Tian suddenly thought of something.

He immediately found the USB that Annie Lane gave him and searched for Kellogg's information.

Soon, all the top-secret information of Dr. Kellogg appeared on the screen.

Chu Hui asked in puzzlement, "He's already dead. What's the use of looking at these?"

Yu Tian looked at it and said disdainfully, "Do you think I like studying dead people? I want to see how the first generation of machines are made!"

Looking at it carefully, it was said that Kellogg was a human biologist and was very famous in the field of biological research and development. He and Chu Hui's father had contributed a lot of outstanding achievements in human biology to the world.

In this way, human biology had something to do with the development of the brain, but it was a little reluctant.

At that time, Kellogg was not yet 50 years old, and the removal of human biology was only since he started teaching in the university.

Looking at the time, it had only been 10 years.

And Chu Hui's father was only a fan of human biology. He did not know as much as Kellogg about in-depth academic research.

But even so, why would Chu Yang suddenly be willing to invest in Kellogg, who had not achieved anything at that time?

What was even more puzzling was that the investment had exceeded 2 billion.

If it was just for academic research, such a large sum of money would not make sense.

Yu Tian looked at this and asked in a low voice, "When your father invested in Kellogg, did you know or not?"

Chu Hui nodded and said, "Of course I knew. At that time, I was still in university and was a classmate of Monica. Kellogg was our professor. To be honest, I did not think highly of his class,

even his daughter Monica often sneaked out to play. Once, the school organized those teachers, including my father, who was then the vice president, to travel and explore the southern region,

they went there for a month. After they came back, my father seemed to have changed into a different person. He stayed in the study room with Kellogg every day to study something. At that time, I didn't care at all,

later, when the family suddenly held a cocktail party, my father told everyone at that time that he was developing the most advanced machine in the world with Dr. Kellogg. He had also invested two billion dollars in Kellogg for this,

after establishing the research and development base at that time, two years later, the first generation of the development machine appeared!

Yu Tian knocked on the table and said with certainty, "That's right, this is it. That first generation of the development machine wasn't developed by your father and Kellogg at all,

"It's very likely a product of a super civilization that they discovered when they were traveling and exploring!

Even with Chu Hui's IQ and capacity, she felt that Yu Tian's words were a little too big.

She said in surprise, "Super Civilization? What do you mean?"

Yu Tian spread his hands helplessly and said, "If I knew, would I still be sitting here? Immediately get someone to secretly transport the first-generation machine here and study it for a while!

Or the difficult problem that he wanted to solve could be found in the first-generation machine.

In the blink of an eye, the next afternoon, a super transport plane steadily placed a wooden box on the lawn of the R & D Center.

The staff even cautiously pushed the box into the R & D Center.

Yu Tian told the others to leave and personally opened the box. The ancient development instrument appeared in front of him.

He first took a careful look at the words carved on the surface of the machine. It was obvious that they had been carved later.

He then looked at the other parts of the machine. Although the instrument was ancient, it was tightly sewn together. It was exquisitely made.

Yu Tian did not even know how to open it.

Chu Hui used a sharp blade to wipe off some of the metal foam on the surface to check the time.

The result was quickly obtained. When Chu Hui saw the time displayed, she was completely stunned.

The metal material of this machine was produced 15,000 years ago.

Yu Tian was especially shocked. 15,000 years ago, there wasn't even a civilization. who was the one who created this thing?

Could it be that a higher-level civilization visited the world and felt that the species here was a little too stupid, so they deliberately left this machine behind, but in the end, it benefited humans.

No matter who made it, it was obvious that the secrets in this machine could solve all their doubts.

Yu Tian narrowed his eyes and said in a low voice, "No wonder the first generation of developers are so stable. It turns out that it was all produced by this original machine. How could it not be stable?"

"If we want to fully understand the third generation of machines, we have to think of ways to disassemble this. And I can be sure that Kellogg has already done this, but in the end, it was destroyed by your father,

“Therefore, we can only get some incomplete data, and your father put it in the eastern country to protect our civilization from being destroyed by Kellogg!”

Chu Hui had never had a good impression of her father, but after hearing what Yu Tian said, she suddenly felt that her father was worth being proud of.

She rolled up her sleeves, picked up a big hammer, and said firmly, “Then what are we waiting for? Kellogg can be disassembled, so can we!”

Yu Tian hurriedly stopped her, “Put down your sledgehammer. Are you going to open the machine or smash it? Can this thing be opened like this? Just watch from the side!”

He walked to the back of the machine, reached out his hand to touch the smooth surface of the machine, and suddenly pressed hard.

Crack.

The machine's surface was directly opened.

So this was how this thing was opened.

Yu Tian looked at Chu Hui smugly.

Chu Hui did not have any other thoughts. She hurriedly went over and looked into the machine.

The structure of the machine was extremely complicated. There were all kinds of wires and circuits. She had no idea what they were used for.

The structure of the machine was extremely complicated. There were all kinds of wires and circuits. She had no idea what they were used for.

Yu Tian said indifferently, “Every machine has a core device, just like the CPU of a computer. This machine is no exception. Let's first remove these wires outside!”

They started to remove the wires one by one. It took them five hours just to make these wires.

After the wires were the circuit board.

Yu Tian looked carefully. The circuit board seemed to be one with the machine, but at the bottom of the circuit board, there were a few rows of extended slots with some strange symbols on them.

He entered these symbols into the computer. After analysis, it turned out that they were very close to the Egyptian language in the west.

Chu Hui said with certainty, "That's right. My father and the others went to Egypt to explore. It's definitely not strange that this machine was found there!"

Yu Tian smiled bitterly and said, "It's indeed not strange, but now I want to know what these symbols mean.. Don't you think it's Strange?"

Chapter 533 – Chapter 533, Electricity

Thank you readers!

Chu Hui quickly translated these symbols.

Yu Tian bared his teeth and looked at them for a long time. He had a rough idea of what they meant.

These slots were like the expansion slots in a computer. They could be connected to external devices, such as the program supply, the programming frequency, and the electric cooker, washing machine, and massage chair.

Judging from the slots, there were two external devices that had been removed by that bastard Kellogg.

One of these two devices was the chip injection expansion, and the other was the space teleportation device.

Yu Tian chuckled and said disdainfully, "That's right. Kellogg analyzed these two devices and crazily developed the second-generation and third-generation machines!"

"But this idiot doesn't know the principle at all. He saw someone peeing and wanted to take off his pants, but in the end, he peed his pants!"

Chu Hui asked in confusion, "Actually, we don't know either. What should we do now?"

"What else can we do?" Yu Tian said indifferently, "Continue to dismantle the machine, or else we can go and have sex again. Hurry up and continue to dismantle!"

The two of them kicked and punched each other. The electric drill sledgehammer worked until evening, and they finally saw the core of the machine.

Yu Tian said disdainfully, "You're finally willing to show up!"

The core was shaped like a human heart. It was designed extremely complicated and was connected to hundreds of data wires.

He said impatiently, "There are so many wires again. It seems like they only know how to make wires. Can they at least use wireless technology to die?"

Chu Hui spread her hands and said helplessly, "We still have to dismantle it. Only after we get this core equipment can we know the principle of the machine. Let's stop talking and continue to do it!"

In the blink of an eye, it was ten o'clock in the evening. Chu Qing called and said angrily, "It seems that the Qian family wants to play hardball with us. Today, I brought some people to Bi an company to look for that Shao

Huaqun

Wen Hualuo was very arrogant, saying that what I did was to provoke a conflict between the two families. She even said that our Chu family was only so-so and so on. At that time, I considered that the Qian family had some strength in the capital,

i didn't do it too absolutely, but they actually took advantage of me. After that, they held a press conference. While promoting their QR code, they also slandered the safety of our QR code,

now, the data shows that our QR code lost at least 50 million users after the press conference, and it continues to lose users. What's even more outrageous is that.,

after that, the eldest young master of the Qian family actually brought people to my company and said extremely rudely, "Don't let us provoke the Qian family. He said that other people are afraid of us, but he's not afraid of money!"

Yu Tian, however, laughed heartily. This kind of basic pretense was simply not worth taking seriously.

He said indifferently, "It's very simple. I'm not in galaxy, not in Tianhai. This group of unscrupulous pretenders thinks that their ability can blow up a toilet,

"You don't have to be angry with them. From now on, do what you should do and let them show off as much as they want. I want to see if their IQ can surpass sesame. Otherwise, there's no point in fighting with them!"

After hanging up the phone, Yu Tian didn't even think about it and continued to dismantle the equipment.

The Qian family and the flower shop were all just Daddys on the soles of their shoes. If they were smelly, they would even throw away their shoes.

Chu Meng had sent over a sumptuous dinner. They couldn't just skip dinner because of work.

Yu Tian was so hungry that he could chew on the machine. As the saying went, “when you are full, you're warm.”

After drinking a few cups of high-concentration alcohol, Yu Tian looked at Chu Hui's small figure, and his eyes were a little fiery.

He went up and gently hugged Chu Hui, saying in a low voice, “Do you want to have a baby to play with? Let's think about having one.”

Chu Hui turned around in surprise, feeling both surprised and excited. She said with rapid breathing, “Now, now is not a good time. If we have a baby, what about the machine?”

“Let's finish our work first and then do something else, okay?”

Yu Tian, on the other hand, said with a frown, “I feel a little uncomfortable after drinking some alcohol. Right now, I'm like a big cihua that has lit a fire line. I can burst into a world-shaking spark at any time!”

Chu Hui saw that Yu Tian's eyes were a little red and felt sorry for him.

Therefore, she glared at Yu Tian with a reproachful look and slowly knelt at his feet.

Yu Tian shouted excitedly, “Da ci hua, Da Ci Hua, let it bloom shamelessly!”

At midnight, the core component of the machine was finally dismantled.

After some research, Yu Tian suddenly realized that this component was an extremely complex, sophisticated, and well-equipped energy transmitter.

The energy produced by the energy transmitter could be closely integrated with the brain waves of the human body, and it could increase the speed of the brain waves “vibration, thus strengthening the intelligence of the brain and developing its potential.

Yu Tian sighed, “This machine was definitely not buried by nature, but by the humans themselves. After the creation of civilization, they would discover that this machine could produce countless gods,

“However, with so many gods, who said anything would be a problem. Moreover, it was impossible for the rule of humans to be realized. Gods could only be a minority, so those who had become gods hid the machine,

“If I'm not wrong, those gods in western mythology were all created by this machine. Then, they shamelessly hid this machine!

Chu Hui agreed and said slowly, "I think you're absolutely right. The gods in Western mythology have their own special skills. They're no different from the current developers!

However, Yu Tian touched his chin and said doubtfully, "Yes, indeed, but I have a question. In the early days of civilization, humans didn't know what electricity was at all|

"Moreover, this instrument also needs electricity to be activated, and it can't generate electricity by itself. At that time, even if humans knew what electricity was, they wouldn't be able to use it. They would have been beaten to extinction by electricity|

"Therefore, this device must have a power supply device. Moreover, the power supply device must be connected to other devices. Do you know where this device was found?"

Chu Hui shook her head and said helplessly, "In the whole world, only my father and Kellogg Know About It!

Yu Tian laughed and said, "Cool! It's like you didn't say it. One of the two old men died, and the other went crazy. They both lost their precious memories that they couldn't bear to see,

"But I think your father kept a diary when he was normal, especially a diary that recorded his privacy. For example, who did he steal a trouser fork from, and which aunt took a bath?"

Chu Hui didn't know whether to laugh or cry. She also said with puzzlement, "I'm not very sure about that. I'm not sure if there's a diary or not, but we can go home and look for it. Maybe we'll find something!

"Then what are we waiting for? Let's Go!

They left without hesitation.

In the blink of an eye, it was evening the next day. The private plane landed at the Super Guohua City Airport.

Just as they left the gate of the airport, they heard the sound of an explosion not far away..

?Chapter 534 – Chapter 534, Truly A Talent

Thank you readers!

After the explosion, the sky was filled with thick smoke.

Following that, more than ten armed helicopters flew over Yu Tian's head. The scene was like a war.

Chu Hui asked in puzzlement, "This doesn't look like the work of the protesters. That building was destroyed!"

Yu Tian disdained and said indifferently, "I know who did it. His name is Claire. He is an old man who is active in the border area and swore to work with the super administrative department to the end."

Before this, he had received a huge sum of 100 billion world dollars. Now he's finally doing something serious. This has nothing to do with us. Let's go to Your House First!"

At the same time, on a super cargo ship at the port of Hua City.

Claire picked up a heavy firearm and said gloomily to the hundreds of men who dared to die behind her, "We're creating our own history. Each and every one of you is the same as me."

"All of you are the pitiful people whose loved ones died under the Super Administrative Department's shameless actions. When we are feeling the pain of loneliness and loneliness, we are all thinking about how to live on,

"Only by picking up a weapon and killing all those bastards who are trying to make us disappear can we live on. We are all people who have died. Therefore, we are not afraid of death,

"The attack on the super administrative department has already begun, and we have the support of the most powerful force in the world. Our era will definitely come at this time!"

Ha Ha! "The death squad shouted in unison as if they were on steroids.

Claire gently put down her weapons and said, "Next, we will continue to attack the Super Administrative Department's commercial institutions, schools, hospitals, and basic supplies,

at the same time, we will give up on this ship and use our independent encrypted channel to communicate. Good luck!

Meanwhile, in the CE(Ys Office of the Super Administrative Department.

The Super Administrative Department's CEO looked at the intelligence CEO angrily. Klein berated him, "Do you think I can trust you to continue being the intelligence

CEO? This place is about to be destroyed by those people..., i don't know when a bomb will explode. I want to know who did all this now.a€?

Klein also had a helpless look on his face. He said in a deep voice, a€?It's Always Yu Tian. I received intelligence that Yu Tian had also come to hua city. He had just landed when our kefir tower was blown upa€|a€?

There was intelligence that showed that the person who attacked us was the Harteka Company. They had previously obtained more than 100 billion world dollars worth of gold from Yu Tian,

a€?The HATKA president, Claire, used this sum of money to purchase a large number of advanced weapons from Chu Yan industry. Some of the weapons were even better than our special attackers!

The Super President slammed the table hard and shouted angrily, a€?Yu Tian, Yu Tian, it's Yu Tian again. Don't tell me that he will only be happy if he destroys the entire Super Country?a€?

Following that, the CEO cupped his chin and said in an extremely cold voice, a€?I want Yu Tian to die. This game should be over. I don't want to see anyone who has caused damage to this country still be able to live in this world!

Klein felt that the CEO was just having a beautiful dream. If it was that easy, would he still be able to make people do such a thing?

He then said in a deep voice, a€?This is very difficult. The reason is that we now know that there is no one who can kill Yu Tian. Furthermore, Powell Trus, that unkillable beast..,

a€?He is also on Yu Tian's side. With these two working together, the world is invincible. If we want to kill Yu Tian, we have to first disrupt the cooperation between these two. Trus is the best assassin.., if we can make him work for us, Yu Tian will definitely die!

The Super CEO nodded and agreed to the suggestion. He said coldly, a€?Very good. Now, go and convince Trus. If he's willing to help us kill Yu Tian, I can give him everythinga€|

But you have to remember that Trus isn't a good person either. After killing Yu Tian, he has to die too!

Klein nodded and turned to leave.

At that moment, Yu Tian had already arrived at Chu Hui's house.

The house wasn't very big, but it reminded Chu Hui of many beautiful memories.

Yu Tian didn't have that many feelings. He entered the house and began to look for useful things.

This was especially so in Chu Yang's study. Yu Tian had dismantled the table, but he still couldn't find any useful information.

Chu Hui also helped to look for bookshelves, boxes, and any place that could be used to store things.

At this time, Chu Hui suddenly slapped her forehead and said excitedly, "I remember now. My father used to go to the basement to make some models. There is his workshop there. Let's go and have a look now!"

Without wasting any more words, Yu Tian came to the basement and saw many wooden models. There were planes, tanks, beautiful women, Aunties, and so on. The craftsmanship was not bad.

Moreover, there was an unfinished model on the console. It looked like a robot.

The strange thing was that there were no words on the other models, but this robot had a set of numbers engraved on its body: 3576.

Was this his 3576th work? Or had he once dated 3576 women?

These numbers were out of the blue. What did they mean?

Chu Hui couldn't understand it. She asked in confusion, "If it's words or something, it makes sense. Why did he have to carve the numbers?"

"Who knows what your father is crazy about? Usually, he even works as an aunt, but he suddenly made a robot. Could it be that he wants to get back his exciting and crazy childhood memories? Wait, why does this robot look so strange?"

Yu Tian realized that the robot's shape seemed to have been broken by someone, and its face was grimacing. Although it wasn't colored or anything, the overall shape could still be seen clearly, as if it was broken.

Chu Hui laughed and said, "This is called Crewe No. 1. It's an anime that is full of memories. When it was broadcast here, it was especially popular. I even had a photo with the original manga, just a..."

As they were talking, Chu Hui took out a photo album and showed it to Yu Tian after flipping through a few pages.

Yu Tian did not look at the person in the photo at all. However, he was very surprised to find that the number 3576 was on the wall behind the two of them.

“Where was this photo taken?” Yu Tian asked in a low voice.

Chu Hui also felt very puzzled. As she recalled, she said, “At that time, my father took me to attend the Crewe No. 1 anime fan meet-and-greet. It was at the Huaxia Anime Guild Hall. It was not far from here!

Fifteen minutes later, the two of them arrived in front of the Guild Hall. The door was tightly shut, and there was only an old man guarding the door. He was singing a death-like rock and roll.

After a few simple words, the old man let the two of them enter the Guild Hall.

Soon, Yu Tian found the group of numbers on the wall. However, there were only numbers, but nothing else.

Yu Tian said helplessly, “Your father is really a talent!

?Chapter 535 – Chapter 535, Solving The Puzzle

Thank you readers!

As soon as he finished speaking, Yu Tian followed the numbers and raised his hand to punch.

A big hole was punched in the wall, but there was nothing inside the wall.

Chu Hui said helplessly, “What's the use of smashing the wall? The key thing won't be inside the wall. This guild hall has been around for dozens of years. Is it really good for you to smash a hole like this?”

Yu Tian said disdainfully, “So what? You've made me angry. I'll tear down his entire guild hall. Anyway, this place won't stay here for a long time.”

“Claire and those lunatics will blow this place into a pile of ruins one day. But that's not what I'm thinking right now. I'm just thinking, why did your father put such a number on the wall?”

“What exactly is he trying to say to you?”

Chu Hui shook her head and said, “How would I know? Your IQ is higher than mine. If you can't figure it out, how can I?”

Yu Tian felt that this was a very reasonable reason. If he couldn't figure it out, then Chu Hui wouldn't be able to figure it out.

What could her father do? Moreover, it seemed that the relationship between the father and daughter wasn't as good as they had imagined.

It was just like that photo. When Chu Hui was taking a photo with that manga artist, she was smiling so happily.

However, the other photos in the photo album, especially the photo of Chu Hui and her father, were indeed smiling in a very normal way.

In Chu Hui's words, Chu Yang was a scholar. When he was in the family, he was very traditional and conservative, paying special attention to the education of his children.

Especially in a place as open as super nation, the requirements for Chu Hui were even higher.

This made Chu Hui very resistant to her father.

Wait a minute.

Yu Tian suddenly thought of something.

Chu Hui would not smile in all the photos, but in that photo, she was smiling very happily.

Perhaps in Chu Yang's heart, this smile was also very charming.

And this smile only appeared when Chu Hui saw her idol. This was not something memorable, and the number was a reminder to Chu Hui that she should remember that idol., and that smile.

Thinking of this, Yu Tian immediately said to Chu Hui, "Is that manga artist still alive?"

"What did you find out?" Chu Hui asked curiously.

"Your father wanted to remind you that he has something in that person's hands. He made that robot to let you know that he has always wanted to be your idol, just like that manga artist."

"Manga brings you happiness and fantasy, so he gave the thing he wanted to give you to your idol. This also shows that he also wants you to be happy, to live happily, and to live in the fairy tale world forever!"

Chu Hui's tears kept falling down.

Yu Tian grinned and said impatiently, "Can we not have so many exclamations at this time? Your father isn't dead, he's just crazy. Do you have to cry like this?"

"After we get the things we need, we can go to the hospital to see your father and buy him socks and diapers. Isn't that enough?" "Now, hurry up and take me to that cartoonist,

"The guy in the photo looked to be in his fifties at that time. I'm really afraid that if I go a little later, that guy will die of old age!"

Chu Hui wiped her tears and led Yu Tian for an hour's journey. Finally, they met the old man who had switched comics in a villa in the suburbs.

When Yu Tian saw this old man, he was really glad that he had come earlier. Otherwise, this old man might not have lasted until the next morning.

When the old man saw Chu Hui, he said with a trembling smile, "I've been waiting for you to come. It's just that you came a little late. Otherwise, I would definitely follow you to the backyard to get the potatoes that I planted for you to eat."

"But now I have something else to hand over. It's something your father left with me. He told me that I must hand it over to you personally. As for where I put this thing, I still have to think about it."

"For an old man with dementia, sometimes he doesn't even know how to take off his pants and think about something for a very long time. It takes time!"

Yu Tian spread his hands helplessly and said indifferently, "Then save your energy and stop talking nonsense with us. Now, focus on thinking about what her father gave you."

After thinking about it for a full two hours, the old man finally took out a red cloth bag from the drawer.

He said with a trembling voice, "This is what your father asked me to give you. It looks like a diary, but I never opened it. After all, this is a gift for you."

"I think it's very precious. After your father gave it to me, I've moved more than 7,000 times. Every time I moved, I would bring it with me, "Now, quickly take a look at what it is!"

Yu Tian really wanted to give him a slap. He had moved more than 7,000 times.

was He a Rat?

Chu Hui's feelings were very complicated. When she opened the red cloth bag, it was indeed a diary.

However, there weren't many words here, but what was left was enough to make Yu Tian feel excited.

Yu Tian turned around and threw the old man out of the house, letting him stay by his side and Dawdle. Now, he needed a quiet space to properly analyze the contents of the diary.

The two of them drank coffee while reading the contents of the diary.

It said, "Dr. Kellogg and I agreed to go on an adventure together. To avoid passion, I specially hired a few people to follow us to explore the desolate desert of Egypt,

"Actually, we didn't suddenly want to go there. In a document I received before, it mentioned that there was a very mysterious prehistoric temple in a place called Muka,

i was a history researcher, and Dr. Kellogg had a deep understanding of history and culture. When we arrived at Muka, we encountered a sandstorm, and more than half of the people we hired died,

the water we brought with us was long gone, so we drank our urine and continued to move forward. Finally, we found the entrance to the temple.

We found a lot of amazing things in the temple, some very high historical research value, and the people that we brought with us, were obsessed with the gold and silver jewelry, and when they robbed the gold and silver jewelry,

they triggered a hidden switch, and a secret room opened in front of us, and we found something that shocked us all, it was a very sophisticated instrument,

and around the instrument, we found precious information that was more than 10,000 years old, even generators, and other machines!

?Chapter 536 – Chapter 536, Muka Bazaar

Thank you readers!

When Yu Tian saw this, he could basically confirm that this was what he was looking for.

Chu Hui had a very complicated feeling as she continued to read on.

“Dr. Kellogg and I know very well that we have found the most shocking discovery in the world during this expedition. However, due to the water and the physical objects, we can't stay here for a long time,

Therefore, I discussed with Kellogg to bring the main machine back and study it slowly. Therefore, I spent a large sum of money and brought the machine back to Hua City with absolute secrecy.

Our research found that this machine could stimulate the intelligence of humans and bring powerful special skills to the developers. Until then, I felt that bringing this machine back was a mistake,

humans had their own rules of development. The appearance of this machine would bring unimaginable destruction to the human world. Kellogg did not think so. He felt that the machine had let us discover,

it was planned, it was an order for us to change the world. His madness terrified me, so I tried to stop him, but he already had most of the data on the machine,

he had also designed a second-generation machine that was more powerful than the first-generation machine, so I had to move the first-generation machine back to the east and secretly protect it. Kellogg could not get the key data, so he became angry and turned against me,

I don't know what kind of crazy actions Kellogg will do in the future, but I just want to leave my most precious memory to my daughter, Hui Hui. In My Heart, you are the most important person,

“Father Loves You, but I can only protect you through this. If the Lord returns, you must remember to stop Kellogg. There are guardians in the temple of Tranis. The Lord must convince them before they can enter!

When she saw this, Chu Hui was already in tears.

She stuffed the diary into Yu Tian's hands and turned around to leave.

Yu Tian hurriedly pulled her back and frowned. “What are you dancing about for? n

“I want to see my father. If possible, I want to bring him back to the eastern kingdom. From now on, I will be by his side! “Chu Hui said firmly.

Yu Tian looked at the time. Now was the time when Chu Hui's feelings exploded. He could not stop her. This woman was so anxious that she could beat up the old man outside.

Therefore, he said indifferently, "How about this? You Go and arrange for your father. I will go to Ai Kingdom's Muka to see for myself. Remember to go to Sean immediately after you go back and help Chu Xuan and the others develop the chip!

Chu Hui was a little reluctant to say that. She hugged Yu Tian tightly and cried, "I'm sorry. I know I should have gone with you, but I really want to go and see my father now"

"Be careful. If you need me, I'll go to the wooden card at any time!

Yu Tian really didn't want to bring her along. It was so fun to be alone. He could pick up girls whenever he wanted and do whatever he wanted.

The private plane arrived above the wooden card at 10 pm. Yu Tian's full-time stewardess came close, she said gently, "Boss, we actually didn't realize that there was an airport here. The nearest airport is Aidu, which is 500 kilometers away from the wooden card!

Thinking about how far behind this place was..?

Yu Tian said helplessly, "That goes without saying. We can't just land here. I reckon we'll all fall out of our DADDYS. Let's go to Aidu!

Two hours later, the plane finally landed steadily at Aidu International Airport.

Yu Tian walked out of the plane and felt especially cold.

This dead place was so hot during the day and so cold at night. Why would humans choose such a place to live.

When he arrived outside the airport, Yu Tian got into a taxi. When the sleeping master saw that Yu Tian was a foreigner, he said something.

Yu Tian turned on the phone translation software and barely understood it.

The master said, "Welcome to the best city in the world, Aydu. Apart from gangs, explosions, and robbery, there are countless bars and railings here. You only need to spend five world dollars,

"You can get an aunt to provide you with the best service. Now, please tell me, which bar do you want to go to?"

Yu Tian was puzzled. Did he look like someone who came all the way here to look for an aunt?

He rolled his eyes impatiently and said, "Cut the crap, go to the wooden card!"

“What? The master turned his fat body around and asked in disbelief, “Are you sure you want to go to the wooden card? There’s nothing there but fleas and farmersa€|

“And now there are armed forces that are hurting each other. Even our own people won’t go there. I Won’t Go anyway. I still have more than 50 wives to take care of!

Yu Tian couldn’t be bothered to listen to his nonsense. He got up and was about to leave when the bearded man hurriedly pulled him back. He chuckled and said, “Don’t be so impulsive. As long as you pay me double, I can go. It’s the same price here!

Forget it. Double it then. It would save time.

When he reached the wooden card, it was already seven in the morning. The sunlight shone on the boundless desert, which was very dazzling.

Yu Tian put on his sunglasses and pondered while admiring the backwardness of the wooden card.

The temple of Tranis was a very secret place. There were no coordinates, and very few people knew about the temple of Tranis.

It was better to find the Guardian first.

As he thought, Yu Tian walked into a market. There were no luxurious shops here. The most lively market was actually a street market where food or other things were sold on the ground.

There were quite a number of people walking back and forth. Yu Tian liked to look into the eyes of the women in black robes. They were mysterious and sexy, full of temptation.

Yu Tian strolled around the market. A middle-aged man with a beard and a headscarf stood on the roof. His gaze lingered on Yu Tian.

At this moment, a group of masked men with weapons were robbing a shabby shop.

The leader shouted arrogantly, “We only want pants, forks, and socks. Don’t resist us, or I’ll blast your pyramid-like pants into pieces!

The middle-aged shop owner was so scared that he didn’t dare to resist. He hurriedly went into the back room. They only wanted pants and forks anyway.

Yu Tian was a little confused. What was wrong with snatching something? Snatching pants and forks? Could it be that those things were very expensive here?

At this time, another group of people with weapons were still riding horses. They rushed over with an imposing manner. The dark-bearded man at the front flung his headscarf, he said very domineeringly, “Edora, you reckless bastard”]

“How many times have I told you not to come to my market to snatch things? Do you not want to live anymore?”

Edora snorted coldly and slowly turned around. She said disdainfully, “I never thought that this was your market. You’re just a chicken seller. Doria, listen to me,

“When you were still researching how to pluck the feathers of the chickens, I already started killing people. Today, I must bring these pants and forks back to make a birthday present for Mr. Muali.. If you want to stop me, then let's Fight!

?Chapter 537 – Chapter 537, Guardian

Thank you readers!

Looking at this scene, it seemed like they could even fight to the death over a pair of pants and a fork.

Yu Tian looked at them with disdain. It had nothing to do with him. It would be better if a human's head was struck out of a dog's head.

At this moment, someone lost control of their weapon and fired.

Edora and Doria's people thought that the other party had opened fire. They raised their weapons and started a fight at close range.

The people who had been watching the show were all running around in fear.

Yu Tian had wanted to leave as well, but when he saw that they were less than five meters away from each other, he didn't even have the slightest accuracy. After fighting for half a day, they hadn't even killed a hair of the other party. What kind of armed force was this?

However, he saw a crying child standing five meters away from the battlefield. He could be hit by those blind people at any time.

Yu Tian used his fastest speed to pass through the hail of bullets. He picked up the child and jumped behind a table.

This scene was clearly seen by the man on the roof.

At this moment, Yu Tian heard Edora shout, “Stop fighting, stop. It Won't hit anyway. Save Your Bullets!”

Doria also asked his men to stop and said disdainfully, "Edora, we can continue. I'll ask someone to bring 100,000 bullets now!"

However, Edora mocked, "I believe that you can bring 100,000 chickens. 100,000 bullets is just your dream. The only one who can bring out 100,000 bullets is our Mr. Mu Ali!"

"On account of Mr. Mu Ali's birthday today, I will not fight with you. But you better be smart and don't provoke me and Mr. Mu Ali!"

Doria snorted and said, "I will also give my gift to Mu Ali today. This must be his most exciting birthday. If you want to fight, fight. If not, get out of the market immediately and never let me see you again!"

Edora snorted unwillingly and thought, "Just you wait, Mu Ali will never let you go."

After he left with his people, Doria shouted to the civilians hiding around them, "Alright, everyone, continue to work. As long as I, Doria, am here, no one will dare to bully you!"

Yu Tian, on the other hand, felt that Doria was not very good with his weapons. He was quite good at putting on an act. He even had the revolver that was produced in the 1950s in his hands at his waist. He was not afraid of using his pants as a torch.

Doria also saw Yu Tian. He, who was riding on a horse, looked down at Yu Tian and said coldly, "Are you from the East?"

Yu Tian put his child aside and said proudly, "You don't need to talk nonsense."

"Can the elders from the west be so handsome?"

"What are you doing here?" Doria continued to ask.

"I'm traveling. Why? Do you need to tell me how many times a day I poop?" Yu Tian said impatiently.

Although Doria didn't understand the translation in the translator, he knew that Yu Tian's tone and expression seemed to be very impatient, so he nodded and said coldly, "My name is Doria, if you need anything here, just come and find me!"

Needless to say, Yu Tian really needed something now. He said indifferently,

"Have you heard of Sean's Chu Yan Industry?"

Doriha nodded deeply and said, "Of course I have. Although the wooden card is backward, there is also television, internet, and telephone here. Chu Yan industry is the largest weapons manufacturing company in the world. Why are you asking me this?"

Yu tianxian wiped the sweat on his forehead, then he said disdainfully, "Can you get off that horse first? I raise my head to talk to you, and my neck hurts. Are you so willing to ride a horse? Those who don't know would think that you are getting together with this horse!"

Although saying this made Doriha feel a little impolite, he still turned around and jumped down. Then he asked, "Why did you ask me that question?"

This guy was quite curious. Yu Tian said indifferently, "I think your weapon can't even kill a dog. I can provide you with Chu Yan's industrial weapon for free!"

Doriha was shocked at first. Even in his dreams, he wanted a good weapon. Not to mention Chu Yan's industrial weapon, even if he didn't use the remaining weapons, he wouldn't be picky.

But after he calmed down a little, Doriha asked with some doubt, "There's nothing in this world that's free. What do you want from me?"

Before he was foolish enough, Yu Tian chuckled. He first touched the horse's neck and said, "I want to find the guardian here. They have been guarding an abandoned temple here for generations,

"If you can help me find it."

Before he could finish his sentence, DORIHA hurriedly interrupted, "This is not a place to talk. Come with me!"

Yu Tian saw that there was a door. Without saying anything, he followed Doriha to a quiet place nearby.

The middle-aged man who had been standing on the roof smiled and invited Yu Tian into the house.

Sitting on the soft carpet, there were a few women in black robes who brought water and roasted meat.

At this moment, the middle-aged man smiled and said, "I'm the Guardian You're looking for. I'm also Doriha's biological uncle, Doriha!"

Yu Tian almost laughed out loud. This name was really cool. It was really about who had the highest seniority and who had the most. However, no matter how he looked at it, it was all about the beard. Everything else was the same.

Doriha also laughed out loud and said, "Previously, I saw your good intentions. You disregarded your own safety and went to save that child. I think you're a trustworthy person!"

What was the point of saying such nonsense? Yu Tian said impatiently, "Let's save some time. I want to go to the temple, just like Chu Yang did back then!"

More riha nodded with a smile and said slowly, "Many years ago, Mr. Chu Yang was still my good friend. He provided me with money so that my family could survive here"

"My gratitude to him is to wait for his people to open the gate of the temple. However, the temple is far away from here, so we need to make sufficient preparations!"

This was something to listen to. After all, they were here to open the temple, not to pretend. There was no harm in listening.

More Riha also took out the map and pointed to the location of a red pen on it. He said in a low voice, "This is the location of the terranean temple. It's 270 kilometers away from here."

"There are no roads available, so we can only use horses and other animals. We also need to prepare sufficient water, food, tents, weapons, and ammunition because there are many forces around"

"If there's no way to negotiate, then we need to take action. So, we need to bring my nephew, Doria, and his men with us!"

Seeing Yu Tian's unconcerned expression, more riha smiled slowly and said, "Young man, believe me. Even if you have great abilities, you still need partners to carry water, food, and help you in the desert!"

Yu Tian felt that this fellow's eyesight was pretty good. He had seen through his thoughts of wanting to go alone. In that case, he should start preparing..

?Chapter 538 – Chapter 538, Don'T Disturb My Meal

Thank you readers!

Speaking of this, more riha smiled helplessly. "We can deal with water and physical items, but first-aid medicine, tents, power generation equipment, and so on. Because the wooden cards are outdated, we can't buy them here!"

Yu Tian was too lazy to talk nonsense. He immediately called Chu Yan and said, "I need ten sets of the desert's most complete equipment now. Give me another 500 newly developed weapons, rocket launchers, and a million bullets"

Moreover, I also need large-scale armed helicopters, tanks, missile launching equipment, and unmanned aerial vehicles that can be equipped with Fury Thunder missiles!

When Chu Yan heard this, she said in disbelief, "Which country are you trying to occupy? War? What are you trying to do?"

Yu Tian chuckled and said, "I'm in the wooden card. I'm going to the temple to look for something useful!"

"Wooden card?" Chu Yan immediately searched for a map on the computer and said in surprise, "You're at the wooden card in Egypt. I can immediately send you weapons, ammunition, and equipment."

"But don't even think about helicopters, tanks, and launchers. That's someone else's country. How many people do you want to scare to death when you have such weapons in someone else's backyard?"

"Cool!" Yu Tian smiled and said, "I'm willing to talk to you. Send whatever you can!"

After hanging up the phone, more riha said, "You can rest here today. If the equipment is here, we'll set off tomorrow morning!"

Yu Tian cut a piece of barbecue and was ready to eat. Suddenly, there was a commotion outside. Accompanied by the sound of firearms, a man with a bloody head rushed into the house and said nervously and angrily, "It's Mu Ali's people!"

Doria pulled out his revolver and shouted angrily, "He's courting death. Go and call all of our men!"

Yu Tian almost laughed when he heard that. Could it be that they were standing face to face and firing at each other, competing to see who had more bullets?

It did not matter whether they fought or not. They continued to eat the barbecued meat and flirted with the black-robed woman beside them.

The fight outside was particularly lively. Mu Ali, who was in his fifties, was riding on a horse. He stroked his curly beard and ordered coldly, "Beat him up. Today, I want Doria to kneel at my feet and kiss my toes!"

However, after beating him for a long time, even the wall was not destroyed. Edora waved her revolver and shouted, "We have hundreds of people. Can't we even break the wall?"

“You bunch of idiots, Can you kick it down with your feet? Blow it up with explosives!”

With a loud bang, the ground shook and the mountains shook. Even the glass in the house was shattered and fell on Yu Tian's head.

Yu Tian could not hold back the fire. He just wanted to eat some barbecue, drink some wine, and flirt with a woman. He was not allowed to be quiet.

At this time, Edora had already rushed into the courtyard with his men. There were fewer people in Doria, so he could only retreat to the corridor step by step.

At this time, Yu Tian faced the rain of bullets. He did not even blink. He rushed to the front of Edora and grabbed his neck.

Edora was still in shock. Under everyone's shocked gazes, Yu Tian threw this guy directly at Mu Ali who was on the horse.

Mu Ali did not even have time to react when he saw a black shadow smashing towards him. Before he could dodge, he was directly smashed off the horse. The revolver on his waist also went off and hit his pants.

It hurt this guy so much that his mouth split into a butterfly shape.

His subordinates wanted to make a move but were beaten up by Yu Tian. They fell to the ground and could not get up.

Doria and more Doria were stunned.

One man against fifty people. They did not even have a chance to fight back. Was this done by a human?

Yu Tian came in front of Mu Ali and pulled him up by his collar.

Mu Ali covered his pants. His face was full of fear and pain. He panted and said, “What do you want? Let Me Go!”

Yu Tian said domineeringly, “I just want to have a quiet meal, drink some wine, and pick up girls. You've disturbed my mood. What do you think I should

His pants had already been hit. What else did he want to do?

Mu Ali gritted his teeth and said, “I'm sorry. I didn't want to disturb you. I just came to attack Doria. He hit my people today. I have to avenge them, but on account of my pants being injured”

“I plan to forget about it for today. After I recover from my injuries, I will come and fight with Doria like a man!”

“Look at you, you still want to fight!” Yu Tian scolded disdainfully, “You are almost extinct. Hurry up and get lost like a dog. If you disturb my meal, I will make you a mule!”

“When other horses are angry, I will kick your pants and take your men and get lost!”

As soon as he finished speaking, Doria's hundreds of subordinates rushed over and surrounded the courtyard.

Mu Ali felt that he was no longer in charge and immediately agreed, “Alright, let's get lost, let's get lost!”

With the help of Edora, Mu Ali limped away.

The crowd cheered and praised Yu Tian.

Yu Tian waved to the crowd and turned to more riha. “Have some more roasted meat, it's quite delicious!”

More riha immediately made the arrangements, and more riha thanked Yu

Tian. “Thank you for today, we muka people will remember your kindness!”

These were all nonsense, there was no meaning to it, and Yu Tian was too lazy to say anything else.

Meanwhile, Mu Ali, who had returned to his own territory, was so angry that he gave his wife a good beating, he said angrily, “This is too f * cking embarrassing. I am the most powerful person in Muka. I will be laughed at to death in the future if I let myself be compared to you!”

Edora, whose face was bruised and swollen, narrowed his eyes gloomily and said in a low voice, “If it wasn't for that Easterner today, we would have been able to kill that bastard Doria!”

“And that Easterner seems to be especially powerful. Although I don't know if he was invited by Doria, there must be another reason for him to come to our muka!”

Hearing this, Mu Ali gritted his teeth and frowned. “Ask someone to find out who he is and why he came to the wooden card. I must take revenge!”

Edora immediately went to make arrangements.

In the blink of an eye, it was midnight. Yu Tian's phone rang. It was Chu Yan calling.

“Dear, I have already sent someone to deliver the things you want. I estimate that they will reach the designated coordinates in half an hour. Ask someone to go and get them!”

Yu Tian smiled in satisfaction. “Handsome. That's why I said that having a powerful woman by your side is definitely something that a man should pursue for his entire life. At the critical moment, it is really F * cking awesome!”

“You only know how to say nice things!” Chu Yan was extremely happy.

After hanging up the phone, Yu Tian immediately called Doria to his side and said in a low voice, “Call fifty trustworthy people and follow me!”

Doria didn't know what was going on, but he still called for people and followed Yu Tian to a sand dune near the wooden card.

At this time, a series of explosions came from the sky. Yu Tian looked up with a smile on his face..

?Chapter 539 – Chapter 539, A Romantic Night

Thank you readers!

The disguised plane carried out the airdrop in a very shameless way.

Dozens of large wooden boxes slowly landed on the sand dune with the help of parachutes.

Yu Tian turned to look at the shocked Doria and said indifferently, “What are you waiting for? Move? You thought you could drop some women down for you?”

Doriha hurriedly arranged for his men to immediately move all the wooden boxes back.

However, there was a super large wooden box. His men were so tired that they couldn't move it.

Yu Tian went up and kicked the wooden box to pieces. He looked at the things inside and laughed, “This is a good thing!”

Doriha and the others stretched their heads to look. Inside the wooden box was a super land race. That domineering design was much better looking than their flip bucket. It was a complete concept.

Looking at their unworldly appearance, Yu Tian said disdainfully, "This is called desert firepower. It's developed and manufactured by Chu Yan industry.

Currently, it's the best desert land race in the world,

"It can carry more than a thousand kilograms of equipment. Moreover, it has unique telescopic wheel technology. Let alone the desert, even if you run in the mountains while drinking coffee, it won't spill into your pants,

"This is because it uses tank balancing technology. It can run in the desert for two days with ease!

When Doria heard this, he couldn't help but exclaim in his heart.

He didn't expect that the current technology was already so heaven-defying. In a wooden card, it was already very pretentious to be able to open a large bucket.

However, this good thing belonged to Yu Tian. He could only take a look at it.

Yu Tian didn't want to introduce too much to them, as if he was being pretentious.

He directly drilled into the desert's firepower, and with a kick, he dashed out, leaving sand and dust everywhere.

When he returned to Doria's courtyard, the boxes had already been opened.

Doria couldn't wait to pick up an assault weapon, and its expression was as if it had seen a woman.

Yu Tian had no choice but to remind him, "This is a weapon, can you not hold it so tightly? If you have any ideas, fight with it. This thing has an automatic aim, and even a fool can kill someone!"

As long as it can be loaded with bullets, there will be a total of 500 bullets and a million bullets. This time, it will be enough for you to put on a show with those potato farmers in Muka. As for that Mu Ali.,

you can make him obediently rise up to his fat butt that is like a millstone. You can attack him with a mop or a flashlight. Just thinking about it feels good,

Doria seemed to be immersed in a beautiful dream. He nodded like a chicken eating rice and said, "Great, great!

However, Yu Tian turned around and said coldly, "Then hurry up and get ready. We'll set off tomorrow morning when the Chicken Crows!

Yu Tian couldn't be bothered to talk to them. When he returned to the bedroom, he was shocked when he turned on the light.

He saw a woman with a veil on her face sitting on the bed. Her resentful, sexy, and mysterious eyes made Yu Tian's heart burn.

The woman did not say a word. She slowly got up, shook the bell on her abdomen, and slowly walked up to Yu Tian. She gently took off the veil, revealing her extremely sexy and pure beautiful face.

Then, she dragged Yu Tian to the bed and turned off the lights. Under the romantic moonlight, the two of them made the room clang.

In the morning, Yu Tian asked while putting on his clothes, "What's Your Name?"

"Anirusa!" The young girl knew that Yu Tian was about to leave, and her eyes were filled with reluctance.

Yu Tian nodded and stood up. "Last night was pretty good. I'll be back. When the time comes, I can take you out of this stupid place and give you a better life!"

Anirusa immediately hugged Yu Tian excitedly and said excitedly, "Thank you, thank you!"

What was there to thank? After all, she had a physical relationship with him. How could he let her continue to wear a veil and eat potatoes all day?

When he arrived at the courtyard, more riha and Doria, including the fifty men he had carefully selected, were already prepared.

Yu Tian looked at the supplies, tents, generators, food, water, medicine, as well as a hundred chickens and twenty mules. They were all very well prepared.

Food and water were fine, but 100 chickens were clucking. Was it so that they could sell them on the way to the temple and earn some money?

More Riha saw Yu Tian's eyes, so he explained with a smile, "These chickens are for eating. Food in the desert has to be considered from the body. We can set off now!"

Yu Tian nodded and ordered, "Okay, head to the temple. Let's set off pretentiously!"

When they left the courtyard, the people who stayed behind opened fire at the sky to bless the smooth return of this group of people.

Yu Tian, who was sitting in the middle of the desert's firepower, looked back and said disdainfully, "There really are bullets. Just do it as you please. You Don't know how to save at all!"

The team left the wooden card in an awe-inspiring manner. Yu Tian drove the desert fire at a relatively fast speed. In the blink of an eye, they had traveled more than ten kilometers, leaving the team behind.

It was already evening in the blink of an eye, but they had not traveled more than a hundred kilometers.

Yu Tian sat beside the bonfire. As he looked at the roasted chicken, he asked more riha, "With our speed, we probably won't be able to get there Tomorrow Night!"

More riha laughed, "Don't worry, there will always be a time. We will enter Alaza tomorrow. There is no place more chaotic than our muka. We have to be careful!"

Yu Tian felt that it was useless to be anxious. If he could open the temple, he definitely wouldn't need them.

At the same time, in Muka Mu Ali's residence.

A spy under Doris reported everything that Doris saw and heard to Mu Ali.

Mu Ali ordered the spy to be taken away and said coldly, "What exactly does that Easterner want? Why would he provide so many things to Doria?"

Edora rolled his eyes and said, "They are heading towards Alaza. Your Brother

Mu Ali is the most powerful person there. If he can help us

"We can definitely avenge you. After we kill them, we will join forces with

Mualiduo and seize Doria's territory and his good stuff, "From now on, this wooden card will be yours!"

Mualiduo narrowed his eyes coldly. This was a good idea.

So he immediately called Mualiduo.

In the blink of an eye, the next morning, the team continued to set off. Yu Tian followed behind the team at the slowest speed.

"Anirusa! "The young girl knew that Yu Tian was about to leave, and her eyes were filled with reluctance.

Yu Tian nodded and stood up. "Last night was pretty good. I'll be back. When the time comes, I can take you out of this stupid place and give you a better life!"

Anirusa immediately hugged Yu Tian excitedly and said excitedly, "Thank you, thank you!"

What was there to thank? After all, she had a physical relationship with him. How could he let her continue to wear a veil and eat potatoes all day?

When he arrived at the courtyard, more riha and Doria, including the fifty men he had carefully selected, were already prepared.

Yu Tian looked at the supplies, tents, generators, food, water, medicine, as well as a hundred chickens and twenty mules. They were all very well prepared.

Food and water were fine, but 100 chickens were clucking. Was it so that they could sell them on the way to the temple and earn some money?

More Riha saw Yu Tian's eyes, so he explained with a smile, "These chickens are for eating. Food in the desert has to be considered from the body. We can set off now!"

Yu Tian nodded and ordered, "Okay, head to the temple. Let's set off pretentiously!"

When they left the courtyard, the people who stayed behind opened fire at the sky to bless the smooth return of this group of people.

Yu Tian, who was sitting in the middle of the desert's firepower, looked back and said disdainfully, "There really are bullets. Just do it as you please. You Don't know how to save at all!"

The team left the wooden card in an awe-inspiring manner. Yu Tian drove the desert fire at a relatively fast speed. In the blink of an eye, they had traveled more than ten kilometers, leaving the team behind.

It was already evening in the blink of an eye, but they had not traveled more than a hundred kilometers.

Yu Tian sat beside the bonfire. As he looked at the roasted chicken, he asked more riha, "With our speed, we probably won't be able to get there Tomorrow Night!"

Yu Tian felt that it was useless to be anxious. If he could open the temple, he definitely wouldn't need them.

At the same time, in Muka Mu Ali's residence.

A spy under Doris reported everything that Doris saw and heard to Mu Ali.

Mu Ali ordered the spy to be taken away and said coldly, "What exactly does that Easterner want? Why would he provide so many things to Doria?"

Edora rolled his eyes and said, "They are heading towards Alaza. Your Brother

Mu Ali is the most powerful person there. If he can help us

"We can definitely avenge you. After we kill them, we will join forces with

Mualiduo and seize Doria's territory and his good stuff, "From now on, this wooden card will be yours!"

Mualiduo narrowed his eyes coldly. This was a good idea.

So he immediately called Mualiduo.

In the blink of an eye, the next morning, the team continued to set off. Yu Tian followed behind the team at the slowest speed.

Chapter 540 – : Chapter 540, Super Weapon

Thank you readers!

Yu Tian didn't care who Mualiduo was at all. Seeing that the group of people was about to reach him, he didn't know what Doris was waiting for?

He directly stretched out the window and shouted, "Doris, what are you waiting for? They are here to kill you. Could it be that they are here to give you women?"

Doris actually had his own plans. He was afraid that the range of the weapon wasn't enough and that it would be a waste of bullets.

Since Yu Tian had spoken, Doris did not wait any longer. His hands rose and fell as he shouted, "Fight for me!"

The fifty men knelt on one knee at the same time and turned on the automatic aiming function of their weapons. There was a series of thuds.

Mu Ali had never thought that Doris's men would be so accurate. There was almost no miss.

Out of the hundred men that he had brought, there were only a dozen left in the blink of an eye.

On Doria's side, everyone was shocked by the power of the weapons. Not only were they able to aim automatically, but their range was also extremely far.

They were many times more powerful than his original fire sticks.

The more he fought, the more confident he became. He shouted at the top of his voice, "Come on, you bunch of black mules. Now you finally know what a weapon is!

Mu Ali hated Mu Ali the most right now. What kind of F * cking brother was this?

He knew that their weapons were so advanced and their firepower was so fierce, yet he still asked him to bring people to avenge him.

Now that he was beaten up by Doria's people, he couldn't even recognize his wife when he went back. What the F * CK was this?

Fortunately, he was careful and didn't follow them. Otherwise, his pants would have been dried up.

Seeing that the situation was not right, he turned around and ran. The whip was about to hit the horse's buttocks, and he disappeared without a trace.

The people on Doria's side shouted excitedly.

However, Yu Tian clapped his hands and shouted, "Stop F * cking shouting and continue to set off!

After leaving the battlefield, Mu Alido immediately called Mu Alido. He picked up the call and scolded, "How could I have such a stupid brother like you? I brought a hundred people to avenge you, but only I came back alive!"

The rest of the men were killed by them. Their firepower was as powerful as our father's farts. Are you trying to trick me?"

Mu Ali was stunned and said in disbelief, "How is that possible? Those weapons are indeed new, but Mu Ali's men don't know that when they fire, they need to aim!"

How can they be so powerful?"

"You're F * cking asking me, who am I going to ask?" Mu Ali was so angry that he gritted his teeth.

“Don't be angry, I'll get someone to see it clearly. And I'll definitely avenge you!”
Mu Ali didn't know what to say and could only hang up the phone.

He then looked at Edora coldly. His gaze was as gloomy as a urinal in winter. He wanted to smoke this sneaky-looking fool to death.

He even scolded angrily, “This is your good plan. My brothers lost a hundred men. What kind of information did you find for me?”

Edora's heart skipped a beat. He must not let Mu Ali get angry, or he would lose his life.

He rolled his eyes and said in a low voice, “Since their weapons are so good, we can have them too. Now that Doria is not in the wooden card, we can get people to snatch all his things, including the weapons, food, and women”

“And his children. When he finds out, the wooden card will be ours too. He won't be able to come back even if he wants to!”

Mu Ali gritted his teeth. Although EDORA had placed more and more trust in him, this was indeed a good plan.

He followed and said coldly, “Alright, bring people there personally. If you fail this time, just come back dead!”

Edora quickly left the room, afraid that if she stayed any longer, she would be killed by Mu Ali.

In the depths of the desert in Alaza, Yu Tian looked at the time and map.

They were still more than fifty kilometers away from the temple. It was already night, and they had to rest. It seemed that they would only reach the temple at noon tomorrow.

This was also because they had no other choice. Most of the rihades were worried that the enemy would launch a sneak attack. They had to make sure that their surroundings were safe every time before they continued to move forward, as if they were afraid that they would step on land mines.

The night in the desert was very cold. Yu Tian directly lay in the middle of the desert's firepower, turning on the heater. It was very comfortable.

At this time, Mukadoriha's home had already been occupied by Edora.

This guy had tied up all of Doria's family members in the courtyard, including ANIRUSA.

Next to them, a row of Doria's men were killed by Edora's men who used Yu Tian's support weapons at the same time. Blood sprayed all over the wall.

Edora seemed to be about to ascend to heaven. She stood on the roof of the latrine and shouted, "This place belongs to Muali from now on. You are all Doria's family. As long as you swear to stand on Muali's side..., you can live. Otherwise, you will be like those bastards who were beaten to death!

Doria's wife stood up bravely and scolded angrily, "Adora, you are the bastard.

Everything you do now, Doria will still be with you a hundred times over.,

your soul will be trampled by everyone!

Adora laughed arrogantly and looked at the middle-aged woman with lecherous eyes. She licked her lips and said frivolously, "I can trample on you

After saying that, this fellow jumped on the ground, grabbed her hair, and dragged her into the house.

Everyone tried their best to stop her, but Adora hit and kicked the door and slammed it shut.

Doria's family members gritted their teeth so hard that they were bleeding. This was the greatest insult to a person.

Ten minutes later, a dull sound came from the house, and everyone was stunned.

Adora came to the yard with his naked body covered in blood and a proud look.

He laughed and said, "I feel very good now, and now I want to continue!"

After saying that, his pair of rat eyes swept through the crowd and landed on ANIRUSA.

He chuckled and said, "Why did I Only See You Now? It turns out that there are still beautiful women hiding in Doria. This is too good for me!

With that, he rushed into the crowd and reached out his bloody hand to grab anirusa.

Anirusa was so scared that she hugged the old woman beside her tightly. A white-haired old man bravely stood in front of Edora and begged, "Edora, listen to me. She is Doria's sister!"

"You have brothers and sisters too. You have killed enough today. Please let this poor child Go!

Before he could finish his words, Edora shot a bullet into the old man's forehead.

Blood and brain matter sprayed all over Anirusa's head. Amidst the screams of the crowd, Edora grabbed ANIRUSA's hair and said with a ferocious expression, "You're actually Doria's sister. That's great..,

"I killed his wife, and now I'm going to fuck his sister. This must be very exciting!

As she spoke, Adora dragged anirusa, who was screaming, into a room that reeked of blood..

I Have 108 Older Sisters #Chapter 541 - Read I Have 108 Older Sisters Chapter 541

?Chapter 541 – Chapter 541, Tranis

Thank you readers!

Anirusa was dragged into the room. When she saw her wife lying in a pool of blood, she calmed down.

Now, she could only save herself. She had to calm down.

When Adora closed the door, she immediately looked at the window that had left the room and the weapon in Adora's hand.

Just as Adora looked at her with a sly smile, Anirusa took off her veil and said softly, "I know what you want to do, but I don't like to be forced. I can listen to you. Let's go to bed!"

Adora had long been mesmerized by ANIRUSA's pure and beautiful face. She chuckled and said, "At least you know what to do. If you make me happy, I'll spare your life!"

Anirusa walked slowly to Adora and gently held his arm. She endured the nausea from vomiting and came to the bedside.

However, Adora was still holding the weapon. Anirusa immediately pushed him onto the bed and pressed him on top of her.

In order to make him lower his guard, ANIRUSA said softly, "You have to keep your word. I don't want to be killed like them. This is my only request!

Adora did not think too much. His mind had long been occupied by the flames. He was like a wound-up mutt. He bared his teeth and wanted to do it quickly.

Anirusa pretended to touch him. She then touched the weapon and said, "I'm very afraid of this. Can you put it aside? My family has never allowed me to touch these since I was young. Can you do it for me?"

The Idiot really believed it and put the weapon on the pillow.

At this moment, Anirusa saw the opportunity and held the weapon in her hand and pressed it against Edora's forehead.

It was as if Edora was at his hottest moment and was poured with a basin of ice water. In an instant, he lost all his desire.

He was also afraid of death. He hurriedly raised his hand and said gloomily, "Don't do anything. The people outside are all my people. If I shout, you will be beaten into a sieve by them!"

ANIRUSA obviously knew this. She immediately lifted her hand and smashed it on Edora's forehead. After knocking him unconscious, she directly jumped out of the window and left.

An hour later, Edora's men felt that something was wrong. Normally, Edora only worked for two minutes, which was faster than the time he took to Pee. Why was he so fierce today?

After they kicked the door and entered the room, they woke Edora up.

Edora first gave his men a few big slaps. He covered his red and swollen forehead and cursed angrily, "You bunch of black mules who only know how to eat bean cakes, don't you know my usual time?"

Immediately get someone to chase that damn anirusa back for me. I absolutely can't let her leave Muka!

His men were full of complaints.

He had fucking asked them to do this. Slapping them in the mouth, they really deserved to die.

Anirusa was hiding in her best friend's house and changing into a man's clothes. Her best friend said in a low voice, "If you leave first, they will definitely find you!"

"No matter what, I have to leave the wooden card to find Doria and my man. I Can't get a call in the desert, so I have to find them myself!"

She put her weapon on her waist, then she said hatefully, "Edora and Mu Ali killed my family. I must take revenge. My Man, Yu Tian, is the most powerful man in the world. He will definitely kill Mu Ali and Edora!

Her best friend also knew Anirusa's character. It was impossible to stop her, so she brought anirusa to the stable in the backyard. She pointed at a group of black horses and said in a low voice, "You can ride it!" "But you must be careful. May the gods bless you!

Anirusa immediately took the horse rope and left quietly.

In the blink of an eye, it was noon the next day. The team stopped in their tracks amid the shouts of more riha.

Yu Tian jumped down from the desert fire and looked up. In front of him was a sand dune that was at least a hundred meters above sea level.

More Riha said excitedly, "Mr. Yu Tian, the temple of Tranis is in front of us. It is right under that Sand Dune!

It was so well hidden. No wonder it couldn't be seen on the map.

Yu Tian said with satisfaction, "How do we enter?"

More riha pointed to a direction and explained, "The entrance has been buried by quicksand, but I remember the location. Doris, call someone to follow me!

Yu Tian drank a mouthful of water and watched them dig the hole leisurely. He didn't need to do this job. were the weapons given to him for free?

After working for a full two hours, they finally dug to the entrance of the temple.

Yu Tian walked closer and took a look. The entrance was quite exquisite. Although it was made of stone, the reliefs on it were very beautiful.

However, he did not know what it meant. Moreover, Yu Tian did not want to know these useless things. He immediately asked someone to open the entrance.

The moment the door was opened, the torches in the temple automatically burned, lighting up the entire temple as if it was daytime.

Under the lead of duo Riha, Yu Tian walked into the temple hall with tens of thousands of years of history. He felt that everything was so mysterious.

There was nothing else in the temple hall, just like the other temples. There were several meters tall deer head statues, murals, and Yu Tian even saw some razors and slippers.

They must have been left behind by Chu Yang and the others when they came to explore.

More Riha said to Yu Tian after devoutly worshiping the statues, "Those strange things are all in the room next door. This is the mechanism to open the room!"

As he spoke, More Riha took out a piece of metal from his sleeve.

Yu Tian also understood. No wonder Kellogg could not come here after that. It was because he could not get the piece of metal.

He inserted the piece of metal into the crack beside the door, and the ten-thousand-ton stone door slowly opened.

The strange equipment was neatly arranged in a room that was five hundred square meters, looking extremely mysterious.

When Yu Tian walked into the room, it was as if he had walked into a sci-fi world. Many of the equipment inside couldn't be made with current technology.

For example, the nuclear reactor that was only the size of a bookcase could actually provide power to the entire temple.

No wonder the first-generation development machine could be used here. Yu Tian's guess was correct.

As for the other equipment, Yu Tian carefully analyzed them one by one.

According to the blueprints in his memory and the cut wires, the first-generation development machine definitely could not work independently. The first-generation development machine was just the effect equipment of the terminal.

After many functions were set up in these devices, they would be realized through the machine terminal.

While thinking and looking, Yu Tian walked to a black device that was the size of a beverage vending machine.

Unlike other devices, this device only had ten rotatable numbers on it, and there were a few red buttons below it.

When he tried to turn the numbers, the calculation of the data that had been troubling his mind suddenly had an inspiration..

?Chapter 542 – Chapter 542, Don'T Be Rash

Thank you readers!

It turned out that the puzzle that he had been trying to solve wasn't a puzzle at all, but a coordinate calculation method.

He and Kellogg had both entered the wrong calculation at the very beginning. It was supposed to be a simple one plus one, but it turned out to be like advanced mathematics. It would be a miracle if they could solve it.

And the machine in front of them was the real space teleportation device. It could carry out space teleportation with three generations of instruments.

This machine had to be taken away by it.

Not only this machine, but all the machines and equipment had to be taken away and studied slowly when they returned.

At this moment, there was a commotion at the entrance of the temple.

Someone came in and reported, a€?Doriha, your sister is here!a€?

Everyone looked back. Anirusa, whose lips were dry and her face was covered in dust, had only taken a few steps before she fainted on the ground.

Yu Tian, Doriha, and the others hurriedly helped her up and fed her water. Only then did she wake up. Crying, she told them everything that had happened to the wooden card.

Not to mention Doriha, even Yu Tian was so angry that he exploded.

Even his own woman dared to move. How suicidal was that? He asked coldly and angrily, a€?ANIRUSA, do you know how to use a weapon?a€?

She nodded, and Yu Tian immediately said, a€?Then why didn't you kill him? He even dared to move my woman. I want to see how many lives he has that I can kill!

Beside him, Doris bit his lips until they were bleeding. His face was as if he had suffered a stroke, and he was trembling non-stop.

He clenched his fists tightly and said with deep hatred, a€?Edora, Mu Ali, I, Doria, swear to the main god that I will kill all of you with my own hands!

It was useless to say this now. Yu Tian might be angry, but he was not as impulsive as him.

Instead, he said indifferently, "I will definitely kill you, but I still have to think about how to kill you. Do you think that Mu Ali is an idiot? Doesn't he know what will happen if he provoked me?"

"If I'm not wrong, this bastard has probably turned the entire wooden card into his fortress. If we want to kill our way back, we have to first consider whether the civilians are safe or not,

"I can make the wooden card disappear instantly, but what's the use of that?"

More Riha felt that Yu Tian's words made sense. He slowly said, "Mr. Yu is right, Doriha. You can be angry now, but you can't be blinded by anger,

if you don't even care about the civilians in the wooden card, then what's the difference between you and Mu Ali?"

Before he could finish his sentence, the sound of gunfire and the neighing of horses suddenly sounded outside the temple.

Yu Tian turned his head to look. Who the hell was that?

His subordinate rushed in and reported, "It's Mu Ali who brought hundreds of people!"

It was this fellow again. He had let him leave alive, but he didn't want to give him face. What else was there to say?

He laughed at Dori. "Aren't you very angry? Use that idiot to vent your anger first. It will definitely be great!"

The battle instantly ignited the entire temple.

Yu Tian didn't even look at it. He was still calmly looking at the equipment and at the same time, he called Chu Yan.

The moment the phone number was dialed, a communication satellite that belonged to Yu Tian in outer space immediately turned on the solar panel, received the signal, and launched it in an instant.

After Chu Yan picked up the phone, she smiled and said, "How is it? The firepower of that desert is not bad, right?"

Yu Tian said disdainfully, "It's just so-so. It's a little bumpy. There's a fight going on outside. I'll make it short. Get me a transport plane that can land everywhere. I have something to take back Sean!"

This was a little difficult. The Chu family did not have any business development in Egypt because this place was too backward. Besides the sand, there was nothing else.

However, Chu Yan still said, "Sure, I'll arrange it immediately. Send me the coordinates!"

After hanging up, Yu Tian sent the coordinates of the temple to Chu Yan. At this time, the battle outside was almost over.

The result of the battle was not different from what Yu Tian had expected.

Under the hatred and violent firepower of Doria, Mu Aliduo retreated with the remaining dozens of people.

Yu Tian knew that this guy was not here to fight for his life. He just wanted to know why he was here. The people he brought with him were just there to die.

Doria was really bloodthirsty. He chased after them for more than 50 kilometers. The horses were so tired that they could not run anymore.

At the same time, Chu Meng immediately called the Air Defense Department at Sean's Defense Department.

Half an hour later, two excellent pilots walked into Chu Meng's office in unison.

Chu Meng didn't waste any time and said straightforwardly, "It's a secret mission. I need you to fly a transport plane to the vicinity of Alaza in Egypt to pick up our senior president of the Defense Department, Mr. Yu Tian."

"Because there's no airport available there. I need you to land and take off under the premise that the terrain is extremely complicated. Is there any problem?"

The pilot with a black face said with extreme confidence, "We can land anywhere in the world, even in the desert, the toilet, or the chicken coop. We can land and take off as we wish. If we're great, we'll fall to our deaths, if we don't fall to our deaths, we'll definitely complete the mission!"

Chu Meng shook her head helplessly. She had no choice now. Who asked Yu Tian to choose such a disgusting place.

An hour later, the transport plane loaded the things that Yu Tian wanted, as well as a hundred mercenaries, and soared into the sky.

At the same time, the seven newly developed CY5S of Chu Yan industry took off at the same time, escorting the entire journey.

At this moment, Yu Tian was sitting by the bonfire, looking at the sky that seemed to be right in front of him. He felt very comfortable.

After taking back all these equipment, he could go wherever he wanted to go in the future. Did he need to waste so much time?

Behind the sand dune not far away, Mu Alido, whose face was badly bruised, looked through the binoculars and said coldly, "These animals are still roasting chicken, and I can only eat sand here like an idiot,

"But you all wait for me. When my large group of people arrive, you will have to eat sand here forever like an idiot!

In the blink of an eye, two hours later, the aircraft formation entered Egyptian airspace. Egyptian defense radar could not see anything.

However, it was discovered by the Egyptian aircraft formation that was patrolling the border airspace.

Five old-fashioned F-type fighter aircraft immediately surrounded them. The group leader immediately connected to the radio and shouted, "Unidentified aircraft formation, you have forcefully and shamelessly entered Egyptian airspace. Please state your intentions,

"Otherwise, we will immediately expel you!

The leader of the escort formation immediately replied, "Don't be afraid, Buddy. We don't want to fight. We are only going to Alaza to pick up an important person. Don't follow us anymore. At the same time, you have to know

"We don't belong to any country. We are a mercenary flying formation. If you provoke us, we will be able to make you spit. Look at that backward plane of yours.. Is it our match?"

?Chapter 543 – Chapter 543, The Power Of Obsession

Thank you readers!

Although his words were a little pretentious, the Egyptian pilots knew very well that he had the power to act pretentious.

Not to mention fighting, even if they were competing in speed, they could not compare to his plane. Moreover, up until now, the radar had not been able to find the other party's plane. It was just a blind eye.

At this moment, leader CY said again, "Don't overestimate yourself by following us. If you don't leave within a minute, we will immediately turn into an attack formation. How many planes do you have? Just shout over here!"

As soon as he finished speaking, the aircraft formation of the Kingdom of Egypt immediately slowed down and had no choice but to give up.

The pilot of the transport plane looked at the map and immediately connected to Yu Tian's phone. He said, "President Yu Tian, I'm here to pick up your pilot. We still have five minutes to reach your position!"

Yu Tian could even hear the roar of the aircraft. He said indifferently, "Very good, but the terrain here is complicated. Watch out when you land!"

As he spoke, the thousands of people that Mu Aliduo had called over also silently approached the temple.

Mu Aliduo whispered to a few leaders, "Their bullets have almost been used up by my people. And I'm even more certain that there must be countless valuable things in that temple!"

"As long as we kill them all, those treasures will be ours!"

When the leaders heard that there were treasures, they were immediately energized. One of them said, "If they run out of bullets, then there won't be a problem. I heard that Doria has obtained a batch of advanced weapons!"

"No matter how advanced they are, it will be a waste if they don't have bullets. Unless their pants are filled with bullets, otherwise, they definitely don't have that much ammunition!"

Mu Aliduo stood up and said, "Listen to my orders and charge up. When the time comes, no matter what we get, we will each get a share!"

The leader did not think too much and immediately decided to listen to Mu Aliduo's words.

Under his command, the nearly 1,000-man horse team launched a fierce charge.

Yu Tian looked at the dark mass of people charging towards him like a tide, and the corners of his mouth curled up slightly.

He really had to give in to these people. They were just courting death without any hesitation.

CAN'T THEY JUST Live well?

Doria and the others were not as calm as he was. There were nearly a thousand of them. Even if they stood still and let them fight, they would have to fight for a long time.

But now, they could only brace themselves and prepare to fight with their lives.

However, Yu Tian calmly picked up the phone and called the pilot, saying, "There are a little more bugs on my side. Call the escort aircraft to come and kill the bugs!"

As soon as the order was given, the seven CY planes immediately sped up.

On the other side, Mu Aliduo's troops were still 500 meters away from the temple. he shouted loudly, "Charge! No one is allowed to retreat! They are out of bullets!"

Everyone started to howl as well. However, no matter how loud their howls were, they could not drown out the booming sounds coming from the sky.

Mu Aliduo looked up and saw seven beams of light suddenly falling from the pitch-black night sky.

He grabbed the rope and shouted loudly, "There are planes! Retreat! Retreat!"

How could they retreat?

The cluster of fireballs exploded when they landed on the ground. In the blink of an eye, there was a sea of fire and hundreds of people were directly killed.

Before the remaining people could retreat, the second round of fireballs fell again.

As the earth shook, Doria and the others were stunned.

Then, they looked at Yu Tian in shock.

Yu Tian continued to eat chicken and drink coffee without even looking at them.

CY aircraft was the most powerful aircraft in the world developed by Chu Yan industry. A few of them could destroy the entire Egyptian nation. These one thousand people were not even enough to fill the gaps between their teeth.

Therefore, this battle could be settled very quickly. There was nothing to see.

In the violent bombing, Mu Alido was also blown to pieces. In the blink of an eye, none of the 800 people left alive.

The aircraft deliberately flew over Yu Tian and shot out colorful smoke to pay respect to Yu Tian.

Everyone present looked at Yu Tian with incomparable respect. This was the power and strength that fascinated people.

At this time, the large transport aircraft also flew in. The pilot's skills were indeed very good. They landed steadily in the desert near the temple.

Doria and the others followed Yu Tian to the front of the transport plane. They had never seen such a large plane before.

The cabin door opened, and a hundred mercenaries came in front of Yu Tian in a neat formation. They saluted and stood properly. The commander, Thomas, stepped forward and reported, "Respected Mr. Yu Tian, we are already prepared to carry out various missions"

These hundred mercenaries were the best and strongest warriors in the world. Now you can give the Order!

As he spoke, five tanks in camouflage roared out of the cabin.

Doris wiped the cold sweat off his forehead. He really did not know why Yu Tian had brought the tanks over.

Immediately after, there were two long-range cannons, several boxes of shells, and even 50 long-range mortars.

More Doris pulled up his pants. Because he was too nervous, his pants kept falling down.

The old man asked in a low voice, "Mr. Yu, what are you trying to do?"

Yu Tian spread his hands and said indifferently, "Who knows what I'm trying to do? Anyway, these things are just lying around. Why don't I give them to you? You can use these weapons to take Alaza and the wooden card for yourselves, in the future, when I need your help, you can also provide good help to me!"

More and more riha and Doria looked at each other. could they really handle such a big scene?

Yu Tian said, "There are also 100 mercenaries who can help you and train you. Doria, at the same time, I will provide you with 50 million world coins to continue recruiting,

after that, I will also provide you with weapons and funds. If you want to play, play big, or don't Play!"

Doria was excited. He had long wanted to have these rights. This was a rare opportunity.

Doria didn't think so. The old man's thoughts were still very stable.

It looked like Yu Tian had given them everything they wanted, but in reality, this was letting them recklessly court death.

Although Muka, Alaza, and other regions were basically independent models now, no one dared to make such a big scene. The top management of Ellar would definitely not watch them be so smug, they were indifferent.

Once a large-scale conflict appeared, it would be an absolute war. Yu Tian had dug this pit too big.

Yu Tian had already seen the hesitation in the old man's eyes, but there was nothing to explain. They were a group of farmers who only knew how to mix potatoes and sand for dinner. How could they know the importance of Muka and Alaza.

From the map, these two places were less than 100 kilometers away from the border. There was a bay on one side and a few extremely rich countries on the other.. How could they be spoiled?

?Chapter 544 – Chapter 544, Direct Occupation

Thank you readers!

Other than these benefits, muka and Alaza had no other use. At most, they could let him do his natural business here.

At this moment, all the equipment was moved into the transport plane and successfully took off.

Yu Tian looked at the distant transport plane and coldly ordered, "Doria, stop looking. Why are you still flying? Listen to me. Our target is alaza. Let's Go!"

Doris hurriedly nodded and immediately ordered his men to pack their things and set off immediately.

Doris, who had not said anything all this while, finally found an opportunity to speak. He first looked at Yu Tian, who was chatting and laughing with the mercenaries not far away, and then whispered, "Doris, do you know what you are doing?"

Doris looked at the old man in confusion and asked, "Why do you say that? Don't tell me I don't know what I am doing?"

"No, you don't know at all!" The old man frowned and said, "You are now becoming a puppet tied by Yu Tian's strings. Although I don't know why he would provide us with these benefits"

"But I know that he must have something to ask for. Otherwise, why would he give you so many weapons for no reason? Come and look at those things. Oh God, I feel scared just looking at them"

"These things were designed to kill people. Do you want to help him kill our people?"

However, Doria said disdainfully, "If I don't kill them, don't tell me others won't kill them? Then What About My Family? Can you resurrect them?"

"And the wooden card. Do you know how many people Mu Ali has killed now?"

The old man growled, "Then are you worthy of the true God?"

Doria stared at him with his blood-red eyes and said firmly, "Yu Tian is the god I should believe in. If there really is a god, why did he let my family be killed by Mu Ali? What did they do wrong?"

His words rendered the old man speechless, and Doria did not want to continue speaking. He ordered loudly, "What are you waiting for? Let's Go!"

More Doria silently took out a black dagger hidden in his sleeve and thought, "True God, forgive me for not protecting your temple well and letting a demon take away those extremely precious things"

"Please grant me the power to kill the demon, or countless people will die at his hands. At the same time, I Need a chance. I will use this Terranean Dagger to kill this demon!"

Yu Tian had already entered the desert's firepower. He brought ANIRUSA and ran in the desert, leaving the team behind.

Five kilometers away from Alaza city, Yu Tian stretched and said indifferently, "Waiting is also waiting. Do you want to play something exciting?"

ANIRUSA said shyly, "What, exciting?"

Yu Tian chuckled and gently pressed anirusa's head down.

While enjoying this wonderful pleasure, he looked at Alaza who was flashing in the heat wave, and a smug smile hung on the corner of his mouth.

An hour later, the team behind finally arrived. Thomas went up and asked,

“Chief Yu, what should we do now?”

Yu Tian smiled indifferently and said, “Let's get someone who understands Alaza First!

Soon, a man in a white robe with a full beard was dragged to Yu Tian by the mercenaries.

When he saw the tanks, cannons, and other things, the bearded man was so scared that he almost shit his pants pocket. He trembled and said, “I'm actually a sheep seller. I sell people for seven yuan per catty. If you want to buy it, you can buy it for one yuan per catty. Pl help you kill it,

“You can give me free goods!”

Seeing that Yu Tian was only looking at him coldly, the bearded man swallowed his terrified throat and said, “Can you give me another five catty of chili noodles?”

Yu Tian didn't know whether to laugh or cry. Did they come to such a big scene just to ask for five catty of chili noodles?

He said coldly, “Keep your sheep for when you're lonely. I just want to know where Mu Aliduo's stronghold is.”

When the bearded man heard that, he finally relaxed. As long as he didn't mess with sheep, he could do anything. He said, “I know this because I often deliver sheep to them. I even know which latrine mu Aliduo likes to shit in.

“But now, Mu Aliduo is not in Alaza. His subordinates have all left and have not returned. There are only a few people in his stronghold. If you want to fuck him, now is the time.

“And Pm very willing to help you fuck them. Not only do these animals not give me money when they eat my sheep, but they often spoil my sheep. For example, they like to cut sheep!

Yu Tiandu almost spat out. What kind of people were these? The old man had a problem with the sheep.

He suppressed the urge to laugh and took out a stack of money and threw it to him. Then he said, "Very well, this is your reward. Now, take us to his stronghold!"

The moment the team entered Alaza, everyone rushed home in shock and fear. They closed the windows and doors. Those who could not run away simply stuffed their heads into their pants and imitated an ostrich.

When they arrived at the stronghold, Mu Alido's subordinates even managed to hit him a few times.

A tank shell was fired at him. The people on the opposite side immediately knelt down and surrendered. They even took the initiative to bring Mu Alido's 100 plus wives and 200 plus family members to Yu Tian.

Yu Tian took a look and saw that Mu Aliduo had more wives than him. He really needed to do something.

Before he could say anything, Doris thought of his own family members. He raised his weapon and fired at the crowd.

Amidst the waves of screams, Yu Tian went forward and snatched his weapon. He scolded angrily, "What are you doing? Are you crazy? They are all civilians. Do you want to be a killer?"

Doris angrily said, "When they killed my people, did they think that they were commoners?"

Yu Tian disdainfully said, "This is the difference between humans and beasts.

If they do it, you can't do it. Besides, they are all old men, children, women and

Aunties. What pleasure do you get from killing them?"

More and more Doris heard this and felt a little conflicted. From this point of view, Yu Tian was still human. Could it be that he was wrong?

At this time, Yu Tian had taught Doris a lesson. Now, everything depended on Yu Tian. In front of him, he still did not have the right to speak.

Yu Tian threw the weapon back to him and ordered Thomas, "Take some people and tell the people here that the only change in Alaza is that they don't have to endure Mu Aliduo anymore. Nothing else will change, "From today on, this city belongs to me, Yu Tian!"

An hour later, in the highest management department of Egypt.

The president slammed the table angrily and shouted, "This is an invasion, a bully, and a hooligan.. How Can Alaza be his?"

Chapter 545 – Chapter 545: Don'T Be Weak

Thank you readers!

The president's think tanks looked at each other, not knowing what to say.

The senior president of the Defense Department wiped the cold sweat off his face and said helplessly, "President, in fact, we have already discovered the aircraft that entered our airspace,

however, our Defense Department's radar could not see their tracks at all. Our aircraft, which was cruising in the sky at that time, also approached them,

"However, they arrogantly told us to leave. In terms of weapons and other aspects, we were simply no match for them. One of their aircraft could beat all of our aircraft!"

The CEO fiercely knocked on the table, but he had nothing to say.

Without strength, there was no right to speak. No matter how loud he shouted here, it would be of no use.

However, he did not want to send Alaza away for nothing while ensuring that his rights were intact.

Thinking of this, the president sat quietly on the sofa and said coldly, "Can I see that Yu Tianyi? If possible, I want to try to convince him.., i absolutely can not let this place become a second Sean!

The President of the Defense Department shook his head helplessly and said indifferently, "It's easy to see him, but it's hard to say whether he can fulfill our needs"

That Yu Tian was a devil. No matter where this guy appeared, he would make a mess. And according to the information we gathered, he came to our place this time to take away a few things?

And he already has these things. If you want to meet him to talk, why don't we use these things as an excuse? If he wants the things, he will leave immediately, otherwise, he will return these things to us,

otherwise, we will have to increase the pressure on him through the alliance. Only then can we have a fair conversation!

The president nodded. This was indeed a good idea. He then ordered, "In any case, we can't let him do whatever he wants on our territory. Also, the Defense Department and the attack Department should be prepared,

"If we can't talk about what I need in this conversation, then we must use force. Even if we're destroyed by him, we can't be so weak!

At this moment, Yu Tian had made a series of arrangements in Alaza.

First, he was supporting Doria.

Next, they had to enter the wooden card.

Yu Tian was in a hurry to return to Sean to study the equipment, but Muali, who was in the wooden card, had to kill him.

Otherwise, if he didn't teach his women a lesson when they were bullied, how could he be called a man?

In the blink of an eye, it was noon the next day. Yu Tian's mercenaries, tanks, and long-range cannons were all set up outside of Muka City.

Mu Ali stood on the tallest building in the Muka City and looked at the terrifying scene with his binoculars in fear.

When he saw the muzzles of the tanks aimed at his home, he was so scared that he almost wet his pants.

There was no need for more. Once the cannon was fired, his home would be gone. If another cannon was fired, his life would also be gone.

This battle was that simple.

However, if he were to raise his hands and surrender, Doria would never forgive him for what he had ordered Edora to do.

He knew Doria's temper too well. That guy would seek revenge for the smallest grievance.

Not only did he get people to kill his wife, but he also killed many of his family members. Now, there were still some people cleaning the latrines. It seemed that this battle was impossible to avoid.

Fortunately, he had also taken a lot of his weapons. If they really fought, it was unlikely that he would be at a disadvantage.

Moreover, he occupied the strategic points of the entire wooden card and tens of thousands of civilians. These people would be his hostages when necessary.

If they wanted to attack the wooden card, it wouldn't be so easy.

Yu Tian, who was sitting in the middle of the desert's firepower, looked at the time impatiently.

This was strange. No matter what this Doria did, he liked to waste time to cultivate his feelings.

Even if it was a fight, he would still go up and ask. If he couldn't say it, then he would start. Was there a need to be so slow?

Doria finally rode his horse to the wooden block in front of the gate. He said to the armed men on it, "You are seeking death by fighting me. Look at the weapons behind me,

aren't you afraid? If I give the order to open fire, you will all die here. Not only you, but even your families will be killed by me,

"It will be like my family being killed by you. However, I am grateful for the existence of the true God. I can spare your lives. As long as you are willing to open the door, I will not make things difficult for you. I will only give you five minutes to consider,

"I hope you can make the right choice. Don't Let Me Kill My Brothers!

Hearing this, the hearts of those people were already pounding with fear.

This was not their war to begin with. It was Mu Ali who had to put on an act. He stole from them and even killed their family members.

Especially that Edora. She didn't even let their sister off. She deserved to die.

Then there was no need for them to follow them to their deaths.

So what if they had weapons in their hands? They were tanks and cannons. They didn't even need to attack. After a few cannonballs, the wooden card disappeared.

The thousands of people from Mu Ali were all killed by them. In the wooden card, they only had 200 people. What else was there to fight?

Thinking of this, those people put down their weapons and opened the door.

But at this moment, Edora suddenly appeared behind them, raised her weapons and fired.

Then she shouted loudly, "If anyone dares to surrender, I'll kill him right now. Doria, you chicken-raising idiot. That's right, I killed all of your family, so what can you do?"

"I'll play with your women one by one, and after that, I'll kill all of them. What else can you do?" "Do you think you're so great just because you have a tank?"

"Don't forget, there are tens of thousands of civilians in this wooden card. If you really have the guts, you can kill all of them. I think you don't have the guts at all. hahaha!"

As soon as he finished speaking, Edora commanded his men to drag dozens of civilians to the city wall. He then shouted, "If you don't have the guts, then I have the guts. I'll kill them as if they were animals!"

This fellow had completely gone mad. He shot at these civilians.

When Yu Tian saw this, the corner of his mouth twitched slightly. That fellow was courting death.. Wouldn't that help him?

Chapter 546 – Chapter 546, There Was Nothing

Thank you readers!

When he saw this, Yu Tian was especially angry. He was just an idiot. The arrogant look on his face made it seem like he was about to undergo a tribulation.

Since that was the case, there was no need to say anything else.

Yu Tian then ordered Thomas, who was beside him, "Go and prepare. Blast Open this city wall for me first. When the time comes, let the roads inside be completely open. After the tanks enter"

"Get the snipers you brought here to kill anyone with weapons!"

Thomas nodded. Then, he looked helplessly at the people on the city wall.

He felt very strange. Where did these people get their confidence from? In front of such powerful weapons, they could still act so pretentiously. Did they really not die?

Or were they not afraid of death at all? If that was the case, then let them see the power of these weapons. They would definitely regret being so pretentious.

Under Thomas' order, the cannons were directly aimed at the city wall, followed by two cannonballs.

After a loud bang, the five-meter-high city wall completely collapsed, as if a hole had been torn open.

Those pretentious people on the city wall who did not care about their lives were stunned by the explosion, crying for their mothers and fathers.

The tank was instantly activated and directly drove into the wooden truck.

The mercenaries and Doria's people followed behind the tank and also entered the wooden truck.

As for the snipers hidden in the distance, they were almost one person per bullet. As long as they held weapons and wanted to resist, they would enter the scope and directly kill them.

Edora, whose face was covered in blood, had his men carry the tanks as he ran towards Mu Ali's home.

At this moment, Mu Ali was in a state of extreme panic.

The power of the cannons and tanks was not something his men could withstand.

As they surrounded the courtyard, his useless men raised their weapons and knelt down to surrender.

Only Edora was still barking around like a mad dog.

He even dragged all of Doria's family members into the courtyard and shouted in a crazed manner, "Doria, if you have the guts, then charge in. If you are so great, then die together with your family members. I want to see just how capable you are..., don't you have tanks? Then let those tanks crush all of your family members to death!"

Just as Doria was about to order the attack, a buzz suddenly came from the sky.

Everyone looked up and saw a few helicopters slowly landing in the open space nearby.

They followed the Super CEO and brought a dozen men in black down from the helicopters.

Under the gaze of the mercenaries, the CEO of the Defense Department hurriedly raised his hands and shouted, "Don't be rash, don't fire, we are not here to fight with you!"

"This is our supreme president. He just wants to say a few simple words to Mr. Yu Tian. After that, you can continue with your work. We definitely won't interfere. Mr. Yu Tian, are you here?"

F * ck! Even the supreme president was here. Yu Tian smiled indifferently.

Then, he walked down from the desert and shook his hair, he said disdainfully, a€?Aren't you talking nonsense? If I'm not here, why are you here? Are you courting death?a€?

The president of the Defense Department saw that it was indeed Yu Tian, and his head was buzzing.

This guy had such a handsome appearance, but why was he so wicked? No matter where he went, he would make a mess. was this guy doing this on purpose?

Although he thought so, the president of the Defense Department still smiled and said, a€?Mr. Yu Tian, you are really humorous. Now, let me introduce to you. The person behind me is Mr. ALADUK, the senior president,

a€?If possible, we can go to a quiet place, have a cup of coffee or red wine, and say a few simple words. But you must not misunderstand. We are not here to stop you from fucking those bastards,

a€?As long as we have spoken, you can do what you should do. We will never stop you!

Yu Tian did not want to give him face, but since the super president was here, he could make his own request, so that others would not always say that he was an invader, and it would not be pleasant to hear.

So he nodded and said disdainfully, a€?Isn't that simple? Ask him to come over. Let's talk about the firepower of this desert. That one is very soft and has good flexibility, especially when sitting with womena€|

a€?It feels like flying. You can ask your supreme CEO to try it too. After all, as the Supreme CEO, he might not have played with such a fun thing!

Alduke was so angry that his heart almost turned into a spiral. His Supreme CEO had not even played with desert fire before. It would be embarrassing if it were to be said.

However, this country was so backward and could not afford these things.

Therefore, he could only maintain the smile on his face and step into the desert fire.

Anirusa poured him a cup of hot coffee. Yu Tian smiled indifferently and said, a€?Try the coffee I brought. This is produced in the world's best coffee-producing country!

Araduk took a sip of the mellow coffee. The taste was indeed very good, which made him feel a little more relaxed.

He then said slowly, "Mr. Yu Tian, I know why you came to my territory. But this is my territory after all. You can fight and kill people or whatever. Those people deserve to die anyway"

"I just don't have the time to deal with them. You've helped me a lot. I have to thank you for this. However, on my territory, I only hope that you can respect my rights and integrity,

"I don't want my territory to become an independent land. I also know that you came to muka this time to take some things from a temple,

although I don't know what the use of those things is, since this temple exists on our territory, then the things are also ours. We should all be reasonable, don't you think so?

So, I can give you the things, but I only hope that after you finish this fight, you will leave our country. If possible, it's best to never come again. We really can't afford to play!

So that was the reason. Hearing this, Yu Tian laughed and said proudly, "You can't really think that I have any requirements for a backward country like you, right?

"To be honest, I feel no recoil even when I shit here. Look around you. Other than the sand and a group of people who died early, what else is there?

Do you think I can get rid of all the sand here and go back to raise a son of a bitch? You're not doing very well as the supreme president. Since you've said so much, then let me give you a piece of advice, okay?

It's guaranteed to be absolutely good for you.. Do you want to hear it or not?"

?Chapter 547 – Chapter 547, Selling Your Dignity

Thank you readers!

Araduk was silent for a few seconds. He was considering whether he should listen to Yu Tian's suggestion. However, when he saw Yu Tian's naturally smug expression, he still nodded and said, "Alright, I really want to listen to your suggestion,

however, the premise is that you can't let me go against my own beliefs!"

"Your beliefs have nothing to do with me. You can believe whatever you want. I'm not here to preach. Do I look like I'm doing this?"

Yu Tian laughed and said indifferently, "Actually, my suggestion to you is very simple. I can make your territory stronger. At least in the neighboring countries, you should be the boss."

“Not now. You have to look at others' faces even when you fart. Don't you feel that you, the highest CEO, are living a somewhat sullen life?” “I'm easy to talk to. If you want me to leave, I will definitely leave. Moreover, I don't have any pursuit for your place.”

But will the countries around you think like me? If I'm not mistaken, your borders are always shrinking, especially the country on your right,

they actually built several latrines on your borders. Every day, hundreds of defenders would line up to defecate. This is simply the greatest insult to you.

How can you stand it?”

These words directly touched on the most unbearable part of Araduk. He gritted his teeth and said in a deep voice, “Don't I know what you're saying? But this country is already very backward...,”

“It simply can't stand any war. I don't even have the ability to eliminate independent armed forces like them now. How can I defend my territorial integrity?”

What he said was good, but Yu Tian was not willing to listen. He asked, “Then why did you tell me that you want to maintain territorial integrity? Then why did you make this request to me? Do you think I'm easy to talk to?”

Araduk was rendered speechless by the question. He could only take a sip of coffee to ease his nervousness.

However, Yu Tian spread his hands and said indifferently, “Don't be so nervous. I Won't let the tanks outside shoot into your mouth. Fire the cannons. What do I want to tell you?

“I can provide you with weapons, funds, and even everything you want, including the commercial development in your territory, and so on. I can let your country surpass all the surrounding countries in a short time, “What do you think?”

Although Araduk was very excited and even more surprised, he was not a fool.

He looked at Yu Tian solemnly and asked in a low voice, “Then what do you want? I know that there is nothing in this world that is given for free!

Yu Tian suddenly stopped smiling and said domineeringly, “What I want is very simple. That is, you have to form a strategic alliance with my Sean. Your Top Management Department, Wait for my top management department”

“Whether it is external or conflict, you have to be completely consistent. To put it simply, you have to listen to me. You can hit whoever I tell you to hit. Do you think there is a problem?”

Araduk's face immediately turned cold.

Didn't he want his top management department to become a toy in his hands?

At that time, Egypt had to be able to develop according to his wishes, and when faced with challenges, he had to risk his life with him.

In the end, he had to be his boss and his underling. Although he could get a lot of benefits from being his underling, it was not up to him to decide. He always had to look at others' faces. What was the difference between doing this and selling his dignity?

Thus, Araduk shook his head and refused, “I'm sorry, Mr. Yu Tian. I don't think I can agree to your request. We will develop slowly and there will always be a time for us to develop.”

“But we definitely can not sell our dignity. If I agree to your request, how can I have the face to meet the true God?”

Since he had already said this, there was no need to continue. It was just a waste of time.

Yu Tian took a sip of his coffee and said coldly, “In that case, let's not waste each other's time. You can slowly develop yourself here. Now, I'm going to fight..

“Do you want to continue drinking your coffee and watch me fight? Or do you want to leave this battlefield in your helicopter from the 1950s?”

“I don't want anyone to be afraid of you peeing on you again. That would be disgusting, don't you think so?”

Araduk put down his coffee cup heavily. After all, he was the highest-ranking executive here. He had his own supporters and a few hundred thousand defenders. There was no need for him to be so humble.

He snorted coldly and said, “Mr. Yu Tian, I think you should know by now that not only did you take our things, but you also used those super weapons on our territory to attack my civilians,

“Even if you have these super weapons, I can't completely be afraid of you. At the very least, we will fight each other. Who knows who will win and who will lose,

“However, as far as I know, there are quite a number of people who are hostile to you now. If we all join forces, you may not be able to gain much advantage,

“Joining you may create more enemies, but if you want to oppose you, I think there will be a lot of people who will support you. Don’t think that you can control everything here,

“As long as I’m alive, it’s impossible. And now, I’m asking you to return all the things you took. Otherwise, you’ll leave this country and never set foot here again,

“You can choose for yourself. If you want to fight, I’ll accompany you to the end!

Yu Tian thought that by saying this, he would make things difficult for him. At least, he wouldn’t think that he was easy to bully.

But who knew? Yu Tian laughed out loud and said disdainfully, “You don’t really think that I would fight with you, do you? Did you get your situation from the pants of an old lady?

Look at the situation outside. I was only helping my good friend to take revenge. His family was killed by the people inside, and the people I brought were all mercenaries. They weren’t any regular attackers,

“What are you talking to us for?” “Look at your expression. The highest management is like you. If that’s really the case, you can even be an idiot.

“I’ll tell you one last time. If you want to work with me, Let’s work together. If you don’t want to work together, get lost immediately. I think I’ll get constipated if you talk to me!

With that, Yu Tian kicked the door open and gestured for him to leave. He smiled and said, “You can get out now. I’m still fighting over here!

With a gloomy face, Araduk snorted and walked down the desert fire.. With every few steps, he suddenly turned around and said, “I, araduk, can be the highest CEO, so I won’t be afraid of You!”

?Chapter 548 – Chapter 548, Activate The Equipment

Thank you readers!

Chapter 548:, activate the equipment

Yu Tian was not in the mood to pay attention to him. What Senior Management President? In his eyes, he was just an idiot.

He did not agree to such a good condition. was his head in a spiral shape?

At this time, Doria came close and said through gritted teeth, "Mr. Yu Tian, you ordered the attack. I'm ready to sacrifice my family. I want to kill them myself!"

Yu Tian frowned slightly and said coldly, "Are you crazy? That's your family. Do you want all your family to die? Only Doria will make you happy, right?"

"I really don't know what you're thinking? If you're someone who doesn't care about the lives of your own family, then you're not someone I can trust. I might as well support the bastard inside,

"You're not in a hurry when you should be in a hurry, but you're in a hurry when you shouldn't be. Just stand aside and watch!"

Dorriha was rendered speechless. His voice choked for a long time, but he still stood aside obediently.

Yu Tian ordered Thomas, "Where's your sniper? Open fire when you need to.

He's waiting for a blind date!"

Thomas nodded immediately. Who would order the snipers to start attacking.

Muffled sounds tore through the sky. After each muffled sound, there would be a person lying in a pool of blood.

Moreover, the snipers' attack speed was exceptionally fast. In the blink of an eye, all the militants in the courtyard were killed.

One of Edora's arms had also been shot off. She fell to the ground and rolled around in pain.

At this moment, Yu Tian said to Doria, "Now is the time for you to take revenge. Why Are You Waiting? Can we not be so emotional all the time? It's such a waste of time"

"Go in and kill all the people you want to kill, and then I'll leave this place too. I'm so disgusted by the sand here!"

Doria immediately rushed into the courtyard with his men and quickly pushed Edora and Mu Ali to the front.

This time, it was Doria's turn to take revenge. As for how he would torture those people, Yu Tian did not want to know at all.

He turned to anirusa and said indifferently, "Do you want to leave with me or stay here? The choice is yours. I will NOT FORCE YOU!"

Anirusa was silent for a few seconds. She was already Yu Tian's woman, wasn't she? Then she should follow this man for her whole life.

Therefore, she said firmly, "I'll go with you. No matter where you go, I'll always stay by your side. I'll never abandon this relationship. I swear to the true God!"

"No need to swear, no need to swear!" Yu Tian hurriedly stopped her. "I still have this confidence in myself. Usually, women who fall in love with me will follow me wholeheartedly and will never abandon me,

"Unless it's those who don't like me, but most of the people who don't like me have already been ruined by me. If that's the case, go and tell Doris that we're leaving now!"

In the blink of an eye, it was the morning of the next day. Yu Tian's private plane slowly landed at Sean International Airport.

Yu Tian was pondering when he walked out of the airport, and he wasted more than ten hours.

He had to study that teleportation device thoroughly. He definitely could not waste all his time on a plane.

It was simply torture. It was better to have the time to flirt with girls than to fly around in the sky.

Back at the research and Development Center, Chu Hui had already assembled all the equipment.

As for how to operate it, it was still unclear. They were all waiting for Yu Tian to come back and slowly study it.

Yu Tian went to the coordinate-setting instrument first and said to Chu Hui and the others, "Look at the numbers on it. Actually, it's not used to calculate, but to set the coordinates,

"As long as we set the coordinates on it and then activate the terminal equipment, we can achieve long-distance transmission. Of course, this is just what I'm thinking now. Can it be realized or not?"

"We still need to do some experiments now!"

Chu Hui added, "There are still some things that you might not have discovered. After these instruments were assembled, we also studied these instruments,

"Behind this step of setting up the marking equipment, we found some things that look like calculators!"

As she spoke, Chu Hui took out a few palm-sized black calculators.

Yu Tian took one over and looked at it carefully. The numbers on it were the same as the coordinates of the equipment, and there were two buttons below the numbers, one red and one black.

He then said to everyone, "This should be a smaller size, and it's a portable teleportation device. After we set the coordinates, we can activate it through the two buttons below,

"But what we need to know now is how to activate this machine.

Chu Meng gently knocked on the table, stood up and said, "Can everyone listen to me for a moment? I have an idea. We can connect this machine to our third-generation development instrument,

"After all, on the blueprint, someone had already realized this idea before, and now that we've made the machine, why don't we test it out?"

This proposal was confirmed by Yu Tian. In fact, Yu Tian himself thought the same. The first generation machine had been dismantled by himself, leaving only a pile of parts,

instead, the third generation development instrument that you made could fully realize all the functions of the first generation machine. Now, all you had to do was connect all of them together, and then you could carry out the experiment.

Just like that, everyone started working together and quickly connected the machines together with reference to the settings on the blueprint.

After connecting the power, one day, he felt very nervous.

Because what he was doing now was an act that defied human physical thinking.

If this experiment was successful, then he would be one step closer to becoming a powerhouse.

Chu Hui, Chu Xuan, and Chu Meng checked the connection data of the equipment one last time. Everything was normal.

After turning on the main switch, Chu Hui excitedly said to Yu Tian, "You just need to press this switch, and this machine can be activated immediately,

If my guess is correct, after the machine is activated, the ring in the middle of the third - generation machine might have a physical phenomenon that we have never seen before. I'm even a little impatient now!

In the end, Yu Tian didn't even think about it and directly pressed the switch.

In an instant, the power of the entire experimental base started to tremble completely. As expected, the ring in the middle of the machine started to rotate rapidly.

Following that, a powerful suction force appeared in the surroundings, as if a grade-12 typhoon had blown up..

?Chapter 549 – Chapter 549, Space Coordinates

Thank you readers!

All the tables and chairs in the R & D Center were floating in the air.

Yu Tian covered his pants tightly and said with a grimace, a€?Why is this damn thing sucking my pants and forks?a€?

Chu Meng hugged the pillar in the R & D center tightly and shouted, a€?My pants have been sucked out. Do I still need your pants and forks?a€?

Chu Hui grabbed the corner of the wall tightly and shouted, a€?Let's not talk about this anymore. Let's quickly turn off the equipment!a€?

What was the point of saying such nonsense? It was obvious that the equipment was connected incorrectly, which was why it had such an effect.

Yu Tian jumped to the switch and turned off all the machines.

The suction force gradually disappeared.

But at the same time, he was also surprised to find that all the things that had been sucked away had disappeared without a trace.

Chu Hui asked in puzzlement, a€?Where did those things go? Could they have been teleported out?a€?

Yu Tian shook his head deeply. He couldn't make a final confirmation yet, but it was clear that the machine had already started operating.

Moreover, their train of thought was correct. They could indeed teleport, but where exactly would they teleport to? No one knew yet.

At this moment, Yu Tian suddenly looked at the coordinate setter.

If the teleportation had been activated, then those things should be on that coordinate now.

He immediately said to Chu Xuan, "Don't hold that chair anymore. Calculate the location of this coordinate immediately!"

Chu Xuan quickly found the location of this coordinate in the computer, but she said helplessly, "Come and take a look for yourself. This coordinate is not on earth at all. If my calculations are correct..., these things should be in outer space!"

Yu Tian went over with the others to take a look. It was indeed not on Earth. Moreover, if the coordinates were calculated using earth as the base point, the coordinates were between Earth and the Moon.

In order to confirm whether it was true or not, Yu Tian immediately had Chu Xuan connect to the Chu family's satellite equipment and use the observation components on it to take a closer look. were those things on Earth or not? At that coordinate point.

After the satellite equipment was successfully connected, Chu Xuan immediately opened the observation components and took a closer look.

Very soon, she exclaimed, "Quick, come and take a look. Those pants, chairs, and tables are indeed floating here!"

Yu Tian and the others looked at the big screen. Those things that had been sucked away were all floating on it.

Seeing this scene, Yu Tian broke out in a cold sweat.

Previously, he had wanted to test it himself. Fortunately, he hadn't been so impulsive. Otherwise, he would have turned into a fossil by now.

But why did the coordinates point to outer space?

Yu Tian looked at the coordinate setter in puzzlement. The numbers on it were exactly the same as when he first saw him in the temple.

This meant that back then, Chu Yang and Kellogg would not have touched this number, and the numbers on it had existed for a long time.

It was very likely that the person who made this machine had left it behind when they left Earth.

Then, the equipment that he saw now was definitely not made by humans, so it must have been made by aliens.

When this idea came to him, Yu Tian felt his hair stand on end.

Alien technology had already developed to such an extent. Tens of thousands of years ago, they could already use the teleportation function.

However, Earth was a backward place, so there was nothing worth studying.

If he was an alien, he would only be looking at how Earthlings gave birth.

Therefore, the idea behind these things was too far away from him. He did not have to think about these things in the future.

Moreover, it was impossible for him to go to another civilized world to fool around.

Just thinking about it was enough. There was nothing worth thinking about.

What he needed to solve now was to try his best to find out why such an effect had occurred.

Teleportation could be done, but Yu Tian felt that it should be a very safe and stable teleportation. It was not like this kind of teleportation where it was as if he was going to fight.

Moreover, would he be able to become a complete person after being teleported? He was still unsure.

Thinking of this, Yu Tian personally went to check the connecting equipment.

After checking for a while, Yu Tian finally found a reason. One of the connecting wires was not connected to other devices at all.

He took the connecting wire and said with dissatisfaction, "Tell me, how do you women do your work? What is this line for? Why Don't you connect it?"

Chu Hui said helplessly, "I saw this line before, but I couldn't find another line connected to it on the blueprint. Moreover, this line seems to be on the power supply device"

"I thought it should be an auxiliary power supply line. It doesn't have much use, so I didn't pay attention to it. Do you mean that the problem lies in this connection line?"

"Cool! One day said with a frown, "I just feel that where did your IQ go? Why is it that the more you are developed, the smaller your brain capacity is? Can't you think about it carefully? Such a sophisticated instrument, any connection wire is indispensable. But you threw one out for me. Do you want to use this line to dry the clothes?"

Stop looking. You Bunch of wastrels, hurry up and find the connection wire of this line. Then we will continue to do the experiment. I don't have much time to waste here. There are still people over there who are trying to show off to my fiancée!

"I have to finish this quickly and then go home to take a look!"

Chu Xuan grinned and said disdainfully, "All you do is pick up girls all day and then let us people work here. Are you still human?"

However, no matter what they said, everyone still carefully searched for that line.

In the end, it was still Yu Tian. At the bottom of the terminal equipment, he found a data line that was similar to a power line. Moreover, it matched the line on the instrument.

He said proudly, "You see it, right? The existence of something has its value.

Otherwise, why would you throw such a damn thing here? Is It Beautiful?"

"Connect it now. Who will carry a dog for me or something else? Reset the coordinates and let's teleport again!"

All the preparations were completed and the coordinates were set. However, just as Yu Tian was about to turn on the instrument, he suddenly withdrew his hand.

Chu Hui asked curiously, "What's wrong? Why didn't you turn on the device?" Yu Tian narrowed his eyes and said in a low voice, "Have you considered this problem? The person who made this device has his own way of setting the coordinates,

?Chapter 550 – Chapter 550, Long-Distance Teleportation

Thank you readers!

Chu Hui also felt that what Yu Tian said made sense. If the coordinates were different, then who knew where the teleportation would go.

At this time, Yu Tian also took out a pen and paper. Following the train of thought from the previous calculation, he did some calculations.

After calculating a set of results, he nodded with certainty and said, "I told you. If you want to teleport on Earth, this coordinate needs to be converted."

It uses a hexadecimal algorithm. Chu Xuan, you can make this algorithm into a software program and start doing it now!"

This was not a problem for Chu Xuan at all. After half an hour, the coordinate calculation software program was completed.

The computer's calculation speed was much faster than Yu Tian's pen and paper. It could calculate a coordinate in two seconds.

Chu Xuan also wrote a reverse calculation function that could calculate the coordinates on the instrument according to the coordinates on Earth.

Yu Tian placed the location of this experiment in the courtyard of the experimental center.

After entering the coordinates, Yu Tian placed the puppy that Chu Meng had brought over into the terminal device.

Following that, Yu Tian turned on the device without hesitation.

Sure enough, there was no strong suction force this time. There was only some magnetism in the middle of the ring. In the blink of an eye, the puppy had disappeared.

Yu Tian immediately rushed to the window and looked outside. The puppy had indeed appeared in the middle of the courtyard. It was exactly the same as the set coordinates.

Everyone clapped excitedly. This experiment was a complete success.

However, only Yu Tian remained calm as he looked at the device.

If they wanted to teleport, they should teleport each other. They couldn't just teleport over and not be able to teleport back.

Otherwise, what kind of teleportation was that?

He picked up the small coordinate measuring device. Because the terminal device had been activated, these small devices and the power indicator had also been turned on.

While everyone was studying how to turn on these small devices, Yu Tian had already set the coordinates and pressed the red button.

Then, a shocking scene appeared. Yu Tian was like a decomposed factor, disappearing without a trace in the blink of an eye.

However, when everyone was shocked, Yu Tian had already appeared in the courtyard intact.

Chu Hui opened the window, she shouted desperately, "Do you want to die? Are you crazy? The equipment is still so unstable, yet you dare to teleport yourself. Aren't you afraid that you won't be able to recover after being disintegrated? You're really crazy!"

However, Yu Tian completely ignored her. This button could teleport him here. If his guess was correct, the black button was definitely the one that could teleport him back.

Thinking of this, Yu Tian pressed the black button without hesitation. His body was instantly disintegrated again. In the blink of an eye, he returned to the research center and completed the teleportation perfectly.

Only at this moment did Yu Tian get really excited. He laughed and said, "We've finally succeeded. We've finally completed the teleportation. This is a feat that defies human physics thinking!"

This is definitely a discovery that deserves everyone's cheers. So, I've decided, who will sleep with me tonight? I'll definitely let him have a child!

The few women were so angry that they wanted to spit on his face. He was thinking about how to have a child at such a happy time. Could it be that there was nothing else in his mind? He was really inhumane.

Yu Tian was just saying that. At this moment, he felt like a child who had gotten a new toy. He wanted to use the shortest amount of time to understand the toy and experience the best pleasure of the toy.

But now, it could only be said that he was halfway there. There were other problems.

This thing had been hidden in the temple for so many years. As time passed, the world had also changed greatly.

There weren't so many buildings in the past, but now there were tall buildings everywhere.

There was a problem. What if he got stuck in the wall when he teleported?

Or, what if he landed on the roof or the basement after he teleported?

Thinking of this, he touched his chin, at the same time, he said indifferently, "Everyone, don't be so happy. Actually, I think this is a bug. The courtyard is the horizon, and we are also on the first floor. It's basically the same as the horizon,

"But if I want to go upstairs, or if the coordinates are not set accurately enough, what if I get stuck in the Wall?"

Chu Xuan laughed and said, "Then when you are teleporting, take a hammer. If you get stuck in the wall, you can just hammer yourself out!"

This sentence made everyone laugh out loud. Yu Tian also said with a bitter smile, "I'm playing with high-tech, and I have to carry a hammer. Then what kind of high-tech is this thing?"

"Don't laugh. Look at your cracked lips, as if someone kicked your pants. Especially Chu Xuan, can the software you wrote calculate the altitude based on the coordinates,

Only with such precise calculation can we accurately teleport!

Chu Xuan Thought for a moment, she shook her head and said, "Don't you think your idea is simple enough? If you say that these things were made by aliens, then how can there be so many buildings before the new year? How can there be an altitude?"

Yu tian directly retorted, "There are no buildings, but there must be mountains, right? But there is a height, and the last two numbers of the device are not coordinates at all. In my opinion, they should be calculating the altitude!"

"Why don't we do another experiment? Set the altitude and we'll send a ball to see!"

He did as he thought. After calculating the altitude, it was confirmed to be 10 meters.

He then began to transfer the ball. After the transfer, the ball landed on the ground at a height of 10 meters and bounced a few times.

Basically, he could confirm that these two numbers were indeed used to calculate the altitude.

However, Yu Tian racked his brain but could not think of a solution to the wall.

He could only teleport to a building or an open area. If he was far away from the wall, he wouldn't be stuck in it.

He couldn't carry a hammer like Chu Xuan said.

Besides, if he was really stuck in the wall, he couldn't even move. What was the use of a hammer.

Yu Tian put a small teleportation device into his backpack. From now on, this thing would never leave his hand. It could be used anytime and anywhere.

What he wanted now was to truly teleport over a long distance.

Thus, after setting the coordinates of the Tianhai group, Yu Tian immediately activated the teleportation device.

In the next second, Yu Tian stood on the roof of the Tianhai group building.

When a familiar scene appeared in front of him, Yu Tian laughed out loud..
