?Chapter 551 – Chapter 551, The World Is At My Feet

Thank you readers!

Yu Tian called Chu Qing when he arrived at the door of Chu Qing's office. He asked in a deep voice, a€?What are you doing, Little Girl?a€?

Chu Qing put down the document and smiled. a€?Aiyo, isn't this my fianc??? I thought you had already forgotten about me as your fianc??. Where are you calling me from?

Are You hugging another sister and suddenly trying to anger me?a€?

Yu Tian laughed out loud. He liked Chu Qing's jealous tone. He said, a€?I've prepared a surprise for you. Do you want to know what it is?a€?

a€?What Surprise?a€?Chu Qing immediately became interested.

As soon as he said that, Yu Tian pushed open the door and entered.

Chu Qing instantly widened her eyes in shock. Tears streamed down her face as she rushed straight into his arms and cried in grievance.

Yu Tian comforted her, a€?Alright, stop crying. Didn't I come back to see you? From now on, the world is under my feet. Wherever I want to go, I can teleport there in an instant!a€?

Chu Qing was a little confused. Could it be that Yu Tian had given birth to too many children and had gone crazy?

She hurriedly asked, a€?Did you drink fake wine, or were you so happy to see me that you forgot yourself? What Teleport?a€?

Yu Tian didn't want to explain to her, so he hugged her and activated the teleportation.

A few seconds later, the two of them returned to Sean's research center.

At that moment, Chu Qing covered her mouth in shock. So what Yu Tian said about the teleportation was true.

When Chu Xuan saw this, she said disdainfully, a€?Are you a human? Teleport back and bring back a woman. Such a high-tech thing, but in your place, it's like a god tool to pick up girls, right?a€?

Yu Tian glared at her and said indifferently, "You're right. In the future, I'll use teleportation even when I take a shit, and I'll specifically pick you guys to take a peek when you're bathing!"

"Hooligan!" Chu Xuan couldn't be bothered with her and continued to work with her head lowered.

Yu Tian turned his head and smiled at Chu Qing, "Now's the time. I'll take you to romantic capital to eat a big meal!"

Before Chu Qing could recover from her shock, Yu Tian had already activated teleportation.

A few seconds later, the two of them were standing in the brightly lit park of romance capital.

It was only then that Chu Qing forced herself to calm down and said, "We don't even need a passport. In the future, we can go wherever we want to Go!" "You're right!" Yu Tian held her hand and said as they walked, "The more we interact with each other, the more pretentious we become. In the future, I'll have to waste some time doing those pretentious things!"

As they spoke, the two of them arrived in front of the most luxurious restaurant across from the Imperial Palace.

Yu Tian didn't care too much and pulled Chu Qing into the restaurant. The middle-aged man in a suit who was standing at the door said without looking up, "Do you have a reservation? If you don't have a reservation, please make it earlier next time!"

"We no longer provide services to others!"

Just as he said that, Yu Tian knocked on his table and said coldly, "Why do you look like you're going to die? I'm here to eat, why do I need to make a reservation? Are you fucking crazy?"

The reception was very calm and said expressionlessly, "I'm very normal, sir. This is a high-end place of consumption. Those who come here to eat are all wealthy and aristocrats of the upper class,

"When they don't have a seat, they won't scold people. So, I think you can't afford to eat the delicacies here. You're only suitable to go to the fast food area, order an egg fried rice, and then put on your favorite spicy noodles, "It's enough to eat with two sticks-like things!"

Yu Tian squinted his eyes. This was way more round than what he was pretending to be.

Before Yu Tian could say anything, another guest came from behind.

The receptionist immediately put on a slave-like smile and said humbly, "Good evening, Mr. Alfonso. We have been saving your seat for you. Please come in!"

Yu Tian turned to look at the middle-aged man called Alfonso. He was a patient with wrinkles all over his skin. His face seemed to be drooping too much. When he walked in the corridor, he attacked each other from both sides of his mouth.

He could even make a living here. How could a person with such status and status not even be able to enter the door?

Alfonso had just walked to the door when Yu Tian flicked his internal energy on his knee.

Alfonso's leg went soft, like a large pancake, and he fell to the ground. Before the receptionist could pull him, he fell to the ground.

The waiter quickly went to help him up, but Alfonso could not feel anything at all. He had already fallen on his back.

Yu Tian looked at the waiter's posture and felt a special feeling in his feet. He aimed from behind and kicked him.

The waiter jumped on the table in pain and performed a ballet on the spot.

Yu Tian did not want to waste time with him. He directly pulled Chu Qing into the restaurant and said to the waiter, "Where is Alfonso's seat? He can't come to eat. The seat has been given to me!"

The waiter looked at him in confusion and said in disbelief, "Then what about our reception?"

"His pants are hurting. He's dancing outside!" Yu Tian impatiently took out the most valuable ten thousand international coins and threw it to the waiter. He then said, "This is your tip. Take us to eat now. Stop Wasting Time!"

The waiter was greedy when it came to money. Moreover, this tip was too much. She could not earn so much in a year.

She was so excited that her smile was obvious. She said enthusiastically, "I'm very happy to serve you. Please follow me!"

After sitting down, Yu Tian began to order.

“Two bottles of the most expensive red wine in this country. The restaurant's specialty dishes are made one by one. My wife likes to eat desserts before meals. Get Me those things in buckets. Get Me the band, flowers, and dancers.” “That's right. I'm Rich. All rich people are like that. Go!

Chu Qing looked at him with a frown and said, “Talking about buckets? Where are you feeding the pigs? Can't you be more romantic about this food? Kicking People's pants the moment you enter the door. Aren't you afraid of kicking them to death?”

Yu Tian snorted coldly, shook his hair, and said indifferently, “How can a man's pants be so fragile? Oh right, tell me about that pretentious Qian family and Hua Luo. Is there anything interesting recently?”

Speaking of these few people, Chu Qing had a headache. She slowly said, “I don't have as much experience as you in dealing with those pretentious people. I originally wanted to cut off those companies that cooperated with Wen Hualuo”

However, Qian Shengjin still had some strength. There were many companies that still didn't give up on cooperating with Wen Hualuo. Not only that, Qian Shengjin was also developing ports, real estate, and announced to the public that..., he was investing 7 billion yuan in the other shore company,

he was using it to develop the so-called safer four-dimensional code technology. Now, our six-dimensional code users are decreasing every day!

However, Yu Tian laughed and said, “This is a little interesting. Later, I will go and see that Hua Luo.. I want to see how capable she is and how alluring she is!

?Chapter 552 – Chapter 552, How Much Are You Worth

Thank you readers!

As the two of them were talking, a middle-aged man in a black suit with dog-like hair and a cigar in his mouth walked up to them.

He first looked at Chu Qing with admiration in his eyes. Did he have a special liking for this oriental beauty.

However, the Gaze Chu Qing gave him was filled with disgust and even a little disgusting.

Especially when he saw his hairstyle, he felt like he would vomit out all the food he had eaten tonight.

The man then looked at Yu Tian and smiled coldly at first. Then, he slowly said, “What do the two of you think of the taste of my restaurant?”

Yu Tian quietly looked at this and said disdainfully, "I feel that the taste is average. It's not as good as the food made by the snack bar at my door. However, the wine here is still alright. This romantic capital is also a production of wine."

"As for the dishes that you made, they are really as terrible as they can be. You

Don't have to waste time with me. Just tell me what you want. Later, I still have to go home with my fiancée to have children. I don't have time to waste with you!

The man spread his hands and took a deep puff of his cigarette. He even tried to be gentlemanly in the way he blew out the cigarette, so that he could look more noble.

Then, he smiled and said, "I'm the owner of this restaurant. My name is Lyle Nidon. I should have been very happy that you guys could come and support me, after all, this is the best restaurant in the entire romantic capital. There aren't many people who can afford to eat here. As for me, I don't have any objections to You Easterners,

because you're just like the others, you're all here to spend money. It's because of you that my restaurant has become better and better and more expensive,

"But you'll leave after you finish your meal. I Won't remember who you are here. I only see how much you've spent here, or how much you should pay for the service you need here?

"For example, you beat up our receptionist outside, and now you're still dancing ballet. That's a lot of money, don't you think?"

So that's what this B * Stard was trying to say after saying so much.

Yu Tian took a sip of his wine and put the glass on the table elegantly. He slowly turned his head and said, "Then how much do you think I should pay for your receptionist to dance?"

Lyle NIDON did not see the trace of killing intent in Yu Tian's eyes. He acted pretentiously without hesitation and said, "Actually, it's very simple.

According to the standard of service here, there are not many people who can make the receptionist dance ballet,

moreover, he's a man, so the price has to be doubled. Including the cost of Your Meal, you should pay me 100,000 international dollars. Of course, this doesn't include the expensive red wine that you're drinking,

"This price has to be calculated separately. Since I'm already here, I think the price of this red wine should also be doubled. It was originally a bottle of red wine that cost a few hundred thousand each, but now I want to charge you a million dollars,

“You shouldn't have any objections, right?”

As he spoke, Lyle Nidon deliberately looked at the dozen or so burly bodyguards behind him.

It was as if he was saying that if Yu Tian didn't agree, he might not be able to leave this restaurant today.

Yu Tian didn't even look at them. He felt that it was especially laughable.

He indeed wanted to find some experts to train his abilities, but these experts definitely didn't include the bodyguards behind him who looked like idiots.

Thus, he said naturally, “I thought you would be able to say such a big number, but it turns out that it's not even as much as my daily allowance. More than a million. You're laughing at me, right?”

Lyle Neaton looked at Yu Tian quietly. He was still a little surprised. Who would have an allowance of more than a million a day? It was pure nonsense.

He smiled disdainfully and said, “If the money in your pocket is as much as you say, you don't need to waste so much saliva,

“I don't want to waste time on you now. Put the money here immediately and get out of my restaurant. That's the most decent way to say it. Otherwise, you will become the laughing stock of everyone here!

Yu Tian nodded with satisfaction and then said indifferently, “Your reception is worth so much. Then, I would like to ask, how much is the owner of the most advanced restaurant in the Romantic Capital Worth?”

Lenelton didn't understand Yu Tian's meaning. He took a deep puff on his cigar and asked doubtfully, “My value will definitely exceed your imagination, but this is not what we want to talk about now|

“I have already said that I don't want to waste my time here, and I don't want other customers to laugh at you. Now, immediately put what I want here, and then you can leave!”

Before he could finish his words, Yu Tian threw a punch, and Lenielton fell to the ground.

At that moment, Lenielton felt as if firecrackers were being set off in his mind, buzzing.

The bodyguards behind him all rushed up with a whoosh. Before Yu Tian could make a move, Chu Qing took a few bottles of wine and smashed them on the head of one of the bodyguards.

Yu Tian was very shocked when he saw this. This woman was really ruthless. He didn't realize that this woman was actually quite good at fighting.

Chu Qing then picked up another bottle of wine and pointed at the stunned bodyguards. "I want to see who dares to attack. If you don't want to live, then come at me!"

After the bodyguards reacted, they immediately rushed forward.

At this moment, it was Chu Qing's turn to be frightened. She screamed and hid behind Yu Tian.

Yu Tian didn't know whether to laugh or cry. Where did her temper go? They all continued to fight. Why was she still hiding behind him?

Seeing the bodyguards rush up, Yu Tian gave them a series of punches and kicks, all of them lying on the ground.

When Lenielton saw this scene, the expression on his face was like a cracked iceberg. His entire person was in a state of extreme fear.

Why did all Easterners Know Kung Fu? Furthermore, they were especially vicious when they beat people up. His nose was still bleeding. He had originally said that he would make a laughing stock of him, but in the end, he had become a laughing stock.

After Yu Tian finished off those bodyguards, he grabbed Lenielton's hair and patted his face as he said indifferently, "You haven't answered my question. How much should I pay you for beating you up?"

"You can't say the price too low, because I beat people up more ruthlessly. You have to say it and do it!"

Lenielton was so scared that he was panting. "Don't think about it. My Price will scare you to death. My background will also scare you to death. I can open the most upscale restaurant in the entire romantic capital. Do you think I'm one of those people?"

"If you have the guts, let me go. I'll make you pay a heavy price for sitting on my punch.. Do you dare to fight with the person I Call?"

?Chapter 553 – Chapter 553, Excitement

Thank you readers!

He actually managed to find an expert. It seemed that this Lenielton had quite a background. However, this was for the best. wasn't he showing off everywhere just so that he could meet an expert?

Yu Tian let go of him and said excitedly, "Will there really be an expert? Are you trying to trick me? If there is an expert, feel free to call this place. I guarantee that everyone will be satisfied!"

This was a restaurant and definitely not a place for fighting. A chair here was worth thousands of dollars. Who would pay if it was smashed?

Lenielton wiped the blood from his nose and said angrily, "If you want to fight, don't fight here. If you dare to follow me to a place, I guarantee that you will be beaten up like a dog. Do you dare to follow me?"

What was there to be afraid of? Now that the whole world was under his feet, he could go wherever he wanted to go. Would he still be afraid of Him?

He smiled indifferently and said, "I can go with you, but you have to let me have enough fun. Otherwise, I will make you regret provoking me!"

An hour later, Yu Tian and Chu Qing came to a warehouse in the suburbs under Lenielton's lead.

Yu Tian raised his head and looked around briefly. There were many high-end supercars outside the warehouse. There were also many armed bodyguards strolling back and forth outside the warehouse.

Lenielton narrowed his eyes coldly and said, "If you regret it now, it's still not too late to apologize to me. Otherwise, you will definitely regret coming with me to this place today!"

"I don't know what regret is at all. CAN YOU STOP wasting time with me? Do you want to get slapped again? Cut the crap and quickly bring me in to take a look. What kind of new place is this?"

Yu Tian did not know what fear was at all. Moreover, the more exciting it was, the more fun it would be.

It would be best if he could improve his strength here. Then, this trip would not have been in vain.

After entering the warehouse, Yu Tian realized that this was an underground boxing gym. There were many people surrounding an empty space in the middle, and they were screaming with their teeth bared.

In the middle of the arena, there were two boxers fighting each other to the death.

Yu Tian finally understood. This Lenelton wanted the boxers here to fight with him.

He had never fought these things from a foreign country before. Today, he could play here and hope to meet a master.

Lenelton had finally arrived at his territory. This guy began to act unscrupulously.

From time to time, he would wave and greet some rich people, as if he knew everyone in the world.

Not only did he greet them, he even went over to flirt with a few beautiful women.

Seeing his sarcasm, Yu Tian could not help but get angry. Just as he was talking to a beautiful woman, he kicked his butt.

This kick made him look like an asshole. He sprawled on the ground, causing the surrounding people to cry out in surprise.

At the same time, they all looked at Yu Tian.

This person actually dared to hit Lenelton. Just how much courage did he have?

Lenelton was part of this place now. He could be considered one of the bosses here. Usually, he would strut around here and kick anyone he disliked.

But today, someone had kicked him. Although he was a little surprised, he was still a little happy.

Yu Tian went up to him and pulled his hair. He said impatiently, "I came here to look for an expert, not to see you flirting with girls. Now, get up and call all the experts you know over here,

"Don't waste my time, or I'll put your pants on your head and hit the telephone poles everywhere!

Lenelton looked at Yu Tian angrily, but he still stood up obediently and patted the dust off his body, he said gloomily, "Are you in such a hurry to die? Then I'll fulfill your wish. This is the romantic capital, where there are the most experts!"

"You're courting death by acting cool here. I'll see how long you can be arrogant here. When you're knocked down by my fighter, I'll definitely stand on your head and spit on your face!

Yu Tian couldn't be bothered to waste his breath on him. This guy was simply asking for a beating.

Under everyone's astonished gazes, Lenelton quickly called over a two-meter-tall, valiant man who weighed more than 200 pounds.

Yu Tian glanced at this expert from the corner of his eye. This guy's arms were thicker than his thighs. One look and one could tell that he was a pure strength-type fighter.

Especially the look in this guy's eyes, which was filled with dissatisfaction and killing intent. He hadn't even made a move yet, and just this look alone could scare off some opponents.

But this was the type that he liked.

Yu Tian was very happy and said to Chu Qing, "See? I like this kind of fierce man. It's more satisfying to fight!"

Chu Qing said with disdain, "I'm just afraid that he has that good appearance and doesn't have the ability to defeat you. Don't waste your breath here. Hurry up and finish them all so that we can go home and have a baby!"

At this time, Lenelton walked in front of Yu Tian and sneered, "Open your dog eyes and take a look. This guy behind me, his nickname is Tank."

He had been boxing here for five years, but unfortunately, he had never lost. In our place, no one dared to provoke him, unless they didn't want to live anymore...

you can look at his solid muscles, and then look at his fist, which is as big as a sandbag. Don't you think it's scary? All the people here are waiting to see you make a fool of yourself. I'm even a little impatient,

but since you're here, I think I'd like to talk more nonsense with you. This is an underground boxing gym. Every match, there will be a lot of money to watch,

"Of course, if you have enough money, you can also gamble here. But I still suggest that you buy a tank, so that when you're knocked down by him, you can still earn some money,

"You can also bet on yourself to win. When you're crushed like a dog by this tank, you can also feel sorry for your money!"

As soon as he finished speaking, Yu Tian raised his hand and gave him a big slap.

The crisp sound shook the entire warehouse, causing it to make a cracking sound.

Lenielton was beaten until he was dizzy and disoriented. What was even more unbearable was the ridicule from the surrounding people.

The feeling of being slapped in the face was really too unbearable.

This easterner was simply courting death. No matter who he was in front of, he would beat him without restraint.

After Yu Tian beat him up, he still said indifferently, "You want to bet with me?"

"I'm afraid you can't afford it. In that case, wife, how much money do you think I'll take out to play with them?"

Chu Qing snorted coldly and said domineeringly, "18 million is meaningless and doesn't suit your status. You're My Chu Qing's husband. If you want to play with us, then let's play over 100 million.. Why don't we bet 10 billion!"

Chapter 554 – Chapter 554, There Were Still Experts

Thank you readers!

Chu Qing's words caused the entire stadium to fall silent.

Who would come here to play in the entire competition? Just bet 10 billion? Were they joking, or did they not put that tank in their eyes at all?

Lenielton was first surprised, and then he said disdainfully, "10 billion? Are You Dreaming? I think you're just courting death. 10 billion? If you're so rich, why don't you go eat at my restaurant!"

"There are so many skilled chefs in the world. Why aren't they waiting at your door to serve you? You're just saying that here!"

Without Yu Tian saying anything, Chu Qing took out a red bank card. There were no numbers on the card, only the words "Chu Qing".

Yu Tian glanced at it from the corner of his eye. This was the special 108 sisters card issued by the Chu family at the World Bank.

There was no fixed quota in this card, so it could be spent as much as it wanted.

Lenielton had never seen such a high-end bank card before. He even said shamelessly, "Are you using the shopping card in the mall to play with Me Here?"

“This is not a place for you to buy clothes, and no one will give you a discount. I’ll give you another chance. Take out another bank card that can be used to pay for it. Don’t make us laugh at you here!”

Chu Qing sneered and said impatiently, “You’re really blind. There are only 108 bank cards in the world. If you can see it, you can still make my husband fight like a dog here.”

“Can you swipe money?” “This isn’t what you said. There’s a computer behind you. Now swipe it and see. But let me say this first. If you lose, do you dare not pay?”

“I’ll make all of you disappear from this world immediately!”

Yu Tian’s mouth split open when he heard this. This was really not his country. This Chu Qing was also beginning to be unrestrained.

But this was also good. He also liked her domineering appearance. It was really very sexy.

Lenielton frowned, and his heart began to beat a little. Seeing Chu Qing’s expression so natural, could this card really be used to swipe money?

Under everyone’s gaze, Chu Qing came before the computer and swiped it elegantly. Then, she entered the number of 10 billion international dollars.

Soon, the computer prompted that the transaction was successful.

Soon, the computer prompted that the transaction was successful.

Lenielton was so scared that he almost fell to the ground. He knew that at this moment, he felt how crazy he was. He actually dared to act arrogantly in front of a super rich man with a net worth of 10 billion.

If he calculated based on the current value, this woman’s wealth was probably second to no one in the entire romantic capital.

If he thought about it this way, then wouldn’t her husband be even richer?

But this was nothing. If he lost in the competition, the money would be his. Even if he gave some to others, he could still earn a few billion.

Tank could definitely give himself confidence because he had never lost before.

Thinking of this, Lenelton came to tank's side and said in a low voice, "You saw it, right? Later, a rich man wants to fight with you. I don't want to lose, but I want you to win against him,

when that time comes, you will receive a large sum of money. From then on, you can follow your woman and travel around the world. Just thinking about it makes me happy. However, if you lose, don't even think about leaving here alive!

Tank only stared coldly at Yu Tian. He did not take Lenelton's words seriously at all.

These people only knew about money, and he was only a tool for them to earn money. However, this was nothing.

If the person on the other side was really an expert, as long as he fought to his heart's content, it did not matter whether he had money or not.

Thinking of this, tank strode to the middle of the field. He was still cold as he stared at Yu Tian.

Yu Tian, on the other hand, was extremely relaxed. He did not even take off his suit jacket. With his hands in his pockets, he walked up to tank in a carefree manner. He smiled darkly and said, "If you want to fight me for money, it's not impossible, but the prerequisite is..,

"You have to let me feel that you are an expert. Otherwise, this fight will really be meaningless. Therefore, I will let you have three moves first. You'd better seize this opportunity..,

"Otherwise, I might be able to punch out all your poop. Of course, you can wipe all your poop on Lenelton's face, because this guy is good at eating poop!"

Before he finished his sentence, tank launched an attack. His fist, which weighed hundreds of pounds, made a whooshing sound.

However, Yu Tian did not even Dodge. He first tried to see how strong this guy was. Then, he would know whether he was an expert or an amateur.

Thus, Yu Tian easily blocked his punch.

This guy's strength was indeed very strong. At the very least, his arm was really numb.

However, it was only numb. It had not reached the same level yet.

Therefore, Yu Tian felt extremely disappointed. He originally thought that this guy was an expert, but in the end, he was still a rookie.

Yu Tian did not dodge the last two punches.

Tank was also surprised at this moment. No one could receive three consecutive punches from him. Even a robot would be smashed into pieces by his punches. But why was this guy's hand so hard?

After receiving three consecutive punches from him, he could still look at him with a smile on his face. Could it be that he did not feel any pain at all? Was he still a human being?

On the other hand, Lai Nilton, who was always watching the matches and had some experience, could not stand still at this moment.

The tank's attack power could not cause any damage to Yu Tian at all.

Since he could not kill Yu Tian, then it was very likely that he would be killed by Yu Tian.

This tank was really unreliable at the crucial moment. However, this was not a big deal. He still had an expert who was more powerful than the tank.

Just as he was about to throw his fourth punch, Yu Tian did not want to give him another chance.

This was simply a waste of time. It felt like an adult hitting a child. There was really no meaning to it.

Seeing that his fist was about to hit him, Yu Tian directly raised his foot and kicked the tank's chest.

Just this kick sent the tank, who weighed more than 200 pounds, flying a few meters away. When it landed, it smashed a big pit into the ground. The entire warehouse seemed to be shaking.

The heavier the tank was, the harder it fell. With just one kick, the tank lost its fighting ability and could not get up for a long time.

A few people went over to check it carefully. One of them said loudly, "It's impossible for him to fight anymore. All the bones in his heart are broken. He should be going to the hospital now!"

Everyone was shocked. Lenielton's mouth was so wide that it almost reached the back of his head..

?Chapter 555 – Chapter 555, Time Is Precious

Thank you readers!

How could Lenelton have imagined that this match would end so quickly? Yu Tian had only kicked the tank to the ground with a single kick. Just how much strength did this guy have?

However, these were not what Yu Tian wanted to think about. On the contrary, it was Chu Qing who laughed coldly and said, "I've already said that there's no point in fighting here."

"Do you really think that you'll be able to meet an expert? Don't you think that if there really was an expert, he would still be fighting here to earn a living? He would have long fought his way out of this world."

"I really don't know what you're thinking." "You wasted so much of the good time to have children. And that Lenelton. Now that you've lost, normally, you should compensate me with 10 billion."

"Now, I need to see my card. I need to make an additional 20 billion. Don't tell me that you can't afford it. If that's really the case, then you can go to Hell Right Now!"

Lenelton gritted his teeth and said unwillingly, "This is just a warm-up match. So what if I win? That tank is just a little heavier. He doesn't have much ability on his own."

"I just want to give everyone an appetizer. The real experts have only just appeared. Now, let me make a grand request. The player I'm most proud of, Firebird, is going on stage!"

As soon as he finished speaking, everyone looked to the back of the stage. They saw a skinny young man with his upper body bare. He looked as if he had drunk too much as he staggered to the center of the stage.

Yu Tian glanced at the corner of his eyes. This guy seemed to have not woken up as he stood there with his eyes closed.

How much fake wine had he drunk? Or had he knocked his head against a big tree when he came here and made himself dizzy?

However, Lenelton said that this guy was an expert and had a nickname called Firebird. It seemed that he was also an expert.

This was because ordinary experts were like this kind of crazy existence.

Since that was the case, he would make the first move and see how high he could go?

At this moment, Lenelton also said loudly, "Alright, everyone, this is a real match. I think you all know how powerful Firebird is?"

“However, I am a very fair person. You can also bet your money on this easterner, but I think your chances of winning are not that high,

“The competition will officially begin”

Before he could finish his sentence, everyone saw Yu Tian throw a punch at the heart of the Firebird.

What was even more unbelievable was that Yu Tian's punch had directly pierced through the heart of the Firebird. Fresh blood and pieces of the heart were sprayed everywhere.

There was even a piece that landed directly on the face of Nealton. Nealton was just like the host, almost performing a ballet.

This was beyond everyone's imagination. This firebird was a true expert. Even a tank would have to be respectful in front of him.

This was because this guy's fist was very hard. A meter-thick metal could pierce through it, but who could have imagined that.

A person with such a hard fist had such a weak defense. A punch had a hole in his body. What kind of expert was this.

Fortunately, he had not been fooled by Lenier. Otherwise, if he had spent all his money on this Firebird, he would not have felt comfortable and would not even be able to wear his pants and forks.

The person who felt the most uncomfortable was Yu Tian. Although he had punched a hole in this person, where was the supposed expert?

Could it be that this fool who was as weak as a piece of paper was the expert that Lenielton had mentioned.

Was he simply toying with me?

The more he thought about it, the angrier he became. Yu Tian's gaze fiercely landed on Lenielton's face. Under his extremely terrified gaze, he coldly said,

“This is the expert that you have mentioned. You have truly disappointed me..., do you know what the consequences of making me feel this way are? We had previously agreed that if you don't let me have a good fight, I will erase all of you!

Lenielton wiped the cold sweat off his face. When he looked down, he saw that his pants were wet from the urine. He was so scared that his soul wasn't in his body.

He hurriedly stretched out his hands and explained, "Now, now I know how powerful you are. You have won this match. I no longer have any experts to fight with you,

"I will return all the bets to you. If you like it, I can also give you that restaurant. As long as you can let me leave this place alive, you can say anything you want!

Yu Tian didn't want to listen to his nonsense. His time was more precious than anything else, but he had wasted so much time here for these two idiots.

Without saying a word, he went up and punched directly on Lenelton's head.

With this punch, Lenelton's head, which looked like a bastard's, flew out. His headless body also fell straight to the ground.

Seeing this scene, everyone was so scared that they ran in all directions. Some women even ran away with their skirts. They didn't even care and directly rushed out of the warehouse in their underwear as if they had gone mad.

Meanwhile, those who were holding weapons outside rushed into the warehouse instead.

However, they didn't even have the chance to open fire. Yu Tian's speed was as fast as lightning. It was simple and straightforward. He beat all these people until they died.

In the end, only the bearded man who received the wager was left. When he saw Yu Tian's cold gaze, he was so scared that he hurriedly raised both his hands and said fearfully, "I'm just a wager collector. I don't know how to fight..

"Moreover, I'm not with them. They only hired me to do this job here. But now, I don't want to do it anymore. Pleasea€|a€?

"I still have dozens of wives at home. I have more than a hundred mothers to support. Please pity me and let me leave Alive!

Yu Tian didn't want to hit him at all. He just said coldly, "Get our money back and you can leave!

The bearded man quickly transferred the money back to Chu Qing. Then, he threw the computer down and ran out of the warehouse.

Chu Qing didn't want to see this bloody scene anymore. Yu Tian turned around and said, "Let's leave this place too. Didn't we agree to go home and have a baby?a€?

Yu Tian nodded. This fight was really meaningless. If he had known, he wouldn't have come.

So he turned on the teleportation device and returned to the villa near the sea with Chu Qing. After entering the house, the two of them hugged each other.

The moment that Chu Qing had been missing for a long time finally came true.

A few hours later, when the lights were on, the city entered the evening again. Everything was so comfortable and peaceful.

However, Yu Tian saw a cocktail party on the television news..

?Chapter 556 – Chapter 556, Attending A Cocktail Party

Thank you readers!

This cocktail party was to celebrate the launch of the QR code with Qian Shengjin. It was a special event to reward people from all walks of life.

The celebrities in the city, as well as the bosses of some companies, all came to attend. It was really a special event.

Seeing this, Yu Tian also wore a suit and looked at himself carefully in the mirror. The more he looked at himself, the more he felt that he was very handsome.

Chu Qing asked in puzzlement, "It's already so late. Where do you want to go? Can't you accompany me at Home?"

Yu Tian pointed at the television, he said indifferently, "I'm going to attend their party. How can I let go of such a good opportunity to show off? I just want to see how powerful this so-called second family is."

Hearing that, Chu Qing hurriedly stood up and said, "Then I'll go with you!"

"You're not going to attend the party with me. You're going to the NIMELA now. Your belly will be bigger tomorrow. You Don't have to think about anything else. Just leave everything here to me."

"I want to go and play crazily now. That feeling must be very good!"

Thus, Yu Tian sent Chu Qing to the Nim first.

This caused the entire family to explode, especially Chu Qing's parents. The two of them headed straight for the Nim.

The main point was that the meaning was different. Chu Qing was Yu Tian's only fiancée. Regardless of whether the child was born or not, if they were to get married, Chu Qing would also be the boss.

At this time, Yu Tian had returned to his own city. His speed was just this fast.

The Phantom Ghost directly leaned against the entrance of the reception. This was Yu Tian's identity.

Even the security guards of the hotel had a cold expression on their faces. There had been quite a number of supercars coming today, but none of them were as flashy as Yu Tian's.

The security guard at the entrance even asked Yu Tian's identity. He said rather politely, "Mr. Yu, I'm sorry. You're not in today's group of visitors. I really can't let you in. Please don't make things difficult for me, okay?"

Yu Tian flicked his hair and chuckled. "Who said I'm here to attend a cocktail party? I'm here to buy this hotel. Recently, I've been feeling uncomfortable using the bathroom in my villa. I want to see if the bathroom in the hotel can be used to my heart's content.

So, I want to buy this hotel. What kind of fucking cocktail party is this? You don't have to hold it anymore!

The security guard was dumbfounded. This was really a rich man. To buy the entire hotel just to poop? Who had the courage to do that?

When they knew that it was Yu Tian, Wen Hualuo and Qian Shengjin, who were talking to the guests, looked at each other solemnly as if they were feeling pressured. At the same time, they walked towards the entrance of the hotel.

As Qian Shengjin walked, he thought to himself. Although his family was in the eastern country and could speak a few words, they were still far from the Chu family.

The Chu family was the most powerful family in the world. They controlled more than one-third of the world's wealth. That concept was that they could trample on the Qian family and not even have a chance to breathe.

If it wasn't for Hua Luo, he really didn't want to provoke the Chu family, especially Yu Tian.

Before he came here, he had also collected a lot of information about Yu Tian. The more he knew about this person, the more terrified he felt.

Especially his identity, the guardian of the Chu family, the president of Sean's Defense Department, or the President of the highest management department, the President of the world's strongest weapon research and manufacture, Chu Yan industrial.

Compared to him, his value was probably enough to buy an egg roll.

When he arrived at the door, Hua Luo greeted him generously.

“President Yu, so it's you. Aren't you in Sean? If I knew you were back, I would have personally invited you!

Yu Tian looked at this woman indifferently. Her figure was well proportioned. She wore a little black dress, stockings, high heels, and leather shoes. She was indeed very sexy. No wonder that Idiot Qian Shengjin was so infatuated with her.

She wanted to go against him and the Chu family, but she also wanted to pursue this woman.

When the people around saw that it was Yu Tian, they all surrounded him and greeted him. It was as if Yu Tian was the one they should be supporting.

However, Yu Tian put his hand into his trouser pocket and said indifferently, “The height is different. I don't want you to look up to me because you're exhausted. I didn't come here today to attend a cocktail party. It's a little unworthy of my status,

although it was a bit pretentious, it was indeed true. I'm only here to buy a hotel. Pm planning to turn this place into a toilet and use it to poop in the future. You guys continue. Pll go and Poop First!”

Wen Hua Luo and Qian Shengjin couldn't hold their faces anymore.

They were all here to attend the banquet. He came here to poop. It was obvious that he was making things difficult for them.

Qian shengjin tugged at his tie, but no matter how hard he tugged, his expression was as if he had been scolded by 500 shrews for two years. He stepped forward and politely said, “Mr. Yu, ia|”

“I know!

Y

“Yu Tian directly interrupted him and said disdainfully, “Qian Shengjin, you have a good name. You are the eldest young master of the Qian family in the capital, and you are extremely wealthy!

After being praised by Yu Tian, Qian Shengjin said proudly, “Mr. Yu, you are flattering me. Compared to you, I am just playing around!

However, Yu Tian changed the topic and said coldly, “Then why did you come to my place to play with your father? But I also like to play. Today, I am just here to play. I don't want to talk nonsense”

“You guys continue. I’m going to buy a hotel first. Oh right, that Wen Hualuo, come over here!”

Wen Hualuo did not know what Yu Tian wanted to do, but if she refused, she would appear to be very timid.

Therefore, she flicked her eyebrows and came close to Yu Tian. She smiled slightly and said, “Mr. Yu, what do you want to teach me?”

Yu Tian stuck close to her ear and said in a low voice, “Accompany me to buy a hotel. Otherwise, you are prepared to suffer the blow of my anger from now on. It will definitely be very satisfying!”

Wen Hualuo's face immediately turned cold. Yu Tian was actually so rude to her.

However, seeing Yu Tian raise his arm, Wen Hualuo bit the corner of her mouth tightly. If she resisted, could she really withstand Yu Tian's anger?

She thought about it and helplessly looked at the puzzled face of Qian Shengjin. She still reached her hand into Yu Tian's arm.

Yu Tian laughed and pinched her leg hard. He said arrogantly, “Listen to me, I

Like It!”

This scene shocked everyone. Their eyes landed on Qian Shengjin's face.

Qian Shengjin felt as if a fishbone was stuck in his throat. His expression was like a big plunger. His facial features were almost gathered together.

He had not even touched Hua Luo's hand. This Yu Tian actually dared to touch her leg in front of him. This was a provocation to him.

He clenched his fists tightly and said fiercely, “Hualuo, what are you doing?”

Come Here!

Wen Hualuo was in a difficult position. Yu Tian could feel her hand trembling slightly.

The more it was like this, the more fun it was.. Yu Tian then smiled indifferently and said, “Qian Shengjin, are you an idiot? Don't you know that Wen Hualuo is my woman?”

?Chapter 557 – Chapter 557: Only When You Have The Ability

Thank you readers!

Qian Shengjin's expression was as if his pants had been hit by a 200-pound hammer. It was so ugly that even he felt disgusted.

Everyone knew that Wen Hualuo had always been his girlfriend. He had snatched his woman away in less than two minutes.

He gnashed his teeth coldly and said, "Yu Tian, I respect you. That's why I call you CEO Yu. Don't go too far. Wen Hualuo is my woman. What right do you have to say that she's your woman?"

Yu Tian said without hesitation, "Because I like her, what can you do to me? If you're not convinced, take her back now. I Won't Stop You, but you have to ask her first."

"See if she says she's your woman or My Woman?"

After saying that, Yu Tian pushed Wen Hualuo forward.

The most difficult thing to do now was to ask Hualuo. He really regretted going against Yu Tian. Everything he had thought was perfect.

However, with Yu Tian's arrival, everything changed.

Yu Tian's imposing manner and the pressure he brought to himself had almost reached an unbearable level.

The most crucial point was that Yu Tian's background and strength were not something the Qian family could compare to. He was a world-class family, and the Qian family was only in the eastern country, so they could only be considered to have some strength.

Previously, Qian Shengjin had told him that Yu Tian would not have the time to compete with them at this time. However, who would have known that Yu Tian not only wanted to compete with them, but he also wanted to compete with them personally.

If that was really the case, then his thoughts and pursuits would immediately change.

Thinking of this, Wen Hualuo looked at Qian Chengjin helplessly and said in a low voice, "Yes, I Am Yu Tian's Woman!"

The moment she said this, everyone was shocked.

Everyone's mouths were wide open as they looked at Qian Chengjin in horror.

It was really a slap in the face. Originally, when Qian Chengjin competed with Yu Tian, he was just courting death.

There was no need to mention his strength and status. Yu Tian was playing high.

He, Qian Chengjin, was busy at the back, taking money, sending flowers, and sending villas. In the end, he was actually Yu Tian's woman.

This time, the Qian family would become the laughingstock of others. If word of this got out, the young master of the Qian family would find a wall and smash his head against it.

Right now, Qian Shengjin really wanted to find a wall and smash his head against it with all his might. It would be best if he could knock himself awake a little and think that this was a dream. When he woke up from the dream, he would chase after her and ask her about flowers before continuing to chase after her.

This was the feeling of a man. When he truly liked a woman, he felt that his status, status, and wealth could all be given to this woman.

He gave all the resources that he could mobilize to Hua Luo. However, this woman gave him a backhand at this time.

Couldn't she be a little more vulgar? Why did she have to make everyone look bad?

No matter what they thought, Qian Sheng Jin was still stuck in their throats and couldn't say anything.

Yu Tian didn't want to talk too much nonsense with them. He reached out to Asura and said with a faint smile, "I've already said that I won't let you, this prodigal woman, play too much with her."

"You just won't listen. Now look at how you've hurt her. You're about to commit suicide. Remember, you're not allowed to continue playing these useless games in the future!"

Forget about Qian Shengjin wanting to commit suicide, even ask Hua Luo herself wanted to commit suicide. Yu Tian's few words had completely turned her from a human into a beast.

Everyone present today would definitely spread the news that she was Yu Tian's woman tomorrow. Moreover, she had joined hands with Yu Tian and caused Qian Shengjin, the eldest young master of the Qian family, to commit suicide.

However, since it was already like this, there was nothing more to say. If Yu Tian could really treat him as his woman, then it was acceptable.

After all, compared to Yu Tian, Qian Shengjin was not his first choice.

If he could survive under Yu Tian's big tree, his dreams and pursuits would most likely be doubled, and it would be achieved at an accelerated pace.

Since it was already like this, he might as well follow Yu Tian's wishes.

Thinking of this, Wen hualuo said softly, "I know, my dear. I just wanted to have some fun and didn't seriously think about these problems"

Young Master Qian, since you said so, then I can only say sorry to you!

Qian Shengjin was so angry that he wanted to bite the dining table behind him. The arrogant and despotic character in his bones couldn't be revealed at this time.

He fiercely grinned and said disdainfully, "If you say you're sorry, then you're sorry. Is this apology of yours worth seven billion? Is this apology of yours worth so much of my feelings for you?"

"Alright, since you want to play with me, then I haven't said that the game is over yet. Let's continue playing. There's still Yu Tian. I know how powerful the Chu family that supports you is?"

"But you also have to understand that this is the eastern country. Although my family doesn't have the strength of foreign countries, we aren't afraid of anyone in the eastern country. Everyone says that you, Yu Tian, are so terrifying,

"I think you are just a shameless person. Alright, then I'll do what others don't have the guts to do. From now on, I, Qian Shengjin, and you, Yu Tian, are irreconcilable enemies. Let's wait and see!"

After saying this, Qian Shengjin strode out of the hotel without looking back.

Yu Tian just smiled indifferently. He didn't put this idiot in his eyes at all. If he wanted to be irreconcilable enemies with him, that would depend on whether he had the ability or not.

He really hoped that he could do something that would make him feel stimulated, so that he could still feel interesting.

He was afraid that this guy was a coward and spoke louder than anyone else. However, at the critical moment, he became mute.

However, the cocktail party was still going on. Everyone gathered around and tried to suck up to Yu Tian. They wished they could lick the soles of Yu Tian's shoes clean with their tongues.

However, Yu Tian felt that such an occasion was not fun at all. If he had the time to waste here with them, he might as well go and ask Hua Luo about it.

Thinking of this, he whispered to hua lu, "I feel that we can only see a bunch of shameless animals here. How can they flatter us? But now, I want to go and flatter something else"

There was a particularly beautiful room upstairs, but now, I want to break the silence in that room with you. What do you think?"

Of course, Wen Hua Luo understood what Yu Tian meant, but he refused with a blushing face, "Mr. Yu Tian, I was only cooperating with you before. You also know that I did this because I had no other choice"

But I never thought that anything else would happen between us.. If you think that I'm that kind of woman, then you're Wrong!

Chapter 558 – : Chapter 558, Don'T Be Impulsive

Thank you readers!

Two hours later, Yu Tian stood up in satisfaction. As he put on his clothes, he said to Wen Hualuo, who was lying on the bed, "I didn't expect you to be a lady. I'm very satisfied with you. From now on, you'll Be My Woman"

"If anyone wants to bully you, just tell me. No matter where I am, I'll come back and kill the person who bullied you!"

Wen hualuo clutched the bedsheet tightly. Up until now, she still could not believe that she had actually agreed to Yu Tian's request.

When she faced Yu Tian, she was still extremely shy. However, the first taste of the wonderful feeling was so memorable. Perhaps only Yu Tian could give her such a wonderful feeling.

Could this be the feeling of loving someone? When he was with Qian Shengjin, he had never felt this way. It seemed that he still did not know enough about the so-called love.

But now, he finally knew who he should love. It was the handsome Yu Tian in a straight suit in front of him.

At this moment, he looked at the mirror and combed his hair. He smiled indifferently and said, "Do you know why I want to do this with you two? Actually, I want Qian Shengjin to be completely angry,

"The more angry he is, the more he wants to do it with us. I don't lack anything right now. What I lack the most is someone who has the courage to do it with me. Of course, you are also a woman who has the courage because you also want to do it with us!"

Wen Hualuo blushed and pulled the bedsheet tightly. She said in a low voice, "You have already taken advantage of me, and your words are still so unpleasant. If I don't like you, why would I obey you?"

Yu Tian probably didn't want to say these words, nor did he want to hear them. It was a complete waste of time.

He just smiled indifferently and said, "As long as I want to get a woman, there's no woman who won't obey me. All the women in the world, I'll take whoever I like. You're just one of them"

"But now, I need you to do something else. That is to spare no effort to crack down on money. If I'm not wrong, he will soon want to take away his funds"

"What you need to do is to stop him from taking back a single cent. Tomorrow, Your Nirvana Company will merge with My Galaxy Technology. You will hold the press conference!

Wen Hualuo was suddenly a little excited. Ignoring her naked body, she hurriedly stood up and asked, "In that case, does that mean that my nirvana company has officially joined the Chu family group?"

Yu Tian flicked his hair and said disdainfully, "You only have so little ambition. The Chu family group is nothing. The Empire you are joining now is the empire that I, Yu Tian, am creating!

After saying this, Yu Tian walked out of the room with ease under Wen Hualuo's shocked gaze.

At the same time, Qian Shengjin, who had returned to his residence, was on the phone with his father, Qian Yong.

On the phone, Qian Shengjin said furiously, "Who does Yu Tian think he is? He is just a man who lives off the Chu family. Today, he actually embarrassed me in front of so many people"

"I can't swallow this anger. Father, this time, I absolutely can't tolerate it anymore!

In the capital, the Qian family's mansion was in the study.

Qian Yongfa looked at the document in front of him calmly and said, "You're already in your thirties. Why are you still so impulsive?

"How can you inherit my position in the future? No matter what kind of enemy you encounter, you must first remain calm and analyze the pros and cons of the other party. Only then can you be undefeated in a hundred battles..,

“For someone like you, being casually slapped in the face by others is like being unable to live. Fortunately, you are not in the imperial capital. Otherwise, you will definitely be laughed at to death!”

Qian Sheng Jin could not disrespect anyone in the family. However, his father was a person who held great authority in the family. Just a casual word from him would cause the family to tremble three times.

Therefore, he managed to hold his breath and said indifferently, “Father taught me that I was indeed a little impulsive today. However, Yu Tian went too far and made me the laughingstock of the entire Lin Hai!”

Qian Yongfa flipped through a page of the document calmly and said as he read, “Face is not worth anything. Moreover, your limelight will soon be overshadowed by Yu Tian. At that time, people will naturally forget everything that happened today.”

Even if they won't forget, and you’ve been living in ridicule, this doesn't matter. Profit is the most important thing. No matter what you do, the first thing you have to consider is your own profit,

if everyone was like you and only cared about face, then the Qian family wouldn't have the status they have today. Remember what I said. Everything has to be looked at in terms of money. Only by earning money in your hands is true face,

I saw the financial statements today. You spent eight billion on that Wen Hualuo. When I was making the assessment, I felt that it was profitable. But now, Yu Tian interfered.,

this business can no longer be done. I demand that you take back all the funds tomorrow. If you have an agreement with Wen Hualuo, you must make Wen Hualuo compensate us for our losses no matter what!

Qian Shengjin nodded as he listened. “That's possible, but I'm afraid that Yu

Tian will interfere. His financial strength is immeasurable,

“Father, you often told me that if your opponent is stronger than me, then don't provoke him. But now, if I don't provoke him, all the funds I put in might be taken by Yu Tian,

“Even if there's an agreement, it's useless. Right now, I can only think of finding Yu Tian's weakness so that I can hit him where it hurts!”

What he said made sense. Qian Yongfa nodded his head in satisfaction and said in a deep voice, “That's very well said. But you’re my son. I Can't just watch you get bullied outside.”

“Our family has always maintained the boundary of non-aggression with the Chu family. But now it seems that Yu Tian also wants to use this opportunity to attack us.

“But his mistake was that he couldn’t see his own conceit. He always felt that he could control everything. However, he didn’t know that the Chu family was just a family.

“In this piece of land in the Dongfang kingdom, there are many things that he can’t control. Since everyone wants to compete, then let’s go all out. I’ll give you another 10 billion. You can use this money to specifically find Yu Tian’s weakness.”

“As long as you can defeat Yu Tian, the Chu family will naturally collapse. You must set this up well. Remember, don’t be rash. No matter what, you must remain calm!

Qian Shengjin was especially touched. No matter what, his father had always been so supportive of him. This time, he had to make a show for his father.

At this time, Yu Tian was already at Sean’s research and Development Center..

Chapter 559 – Chapter 559, True Experts

Thank you readers!

Even if he was busy now, he had to find time to develop the chip. That was after the teleportation portal, in an important research and development project.

However, Yu Tian still had to worry about other aspects, such as super country’s Monica.

What surprised Yu Tian was that in just a few days, Monica had led the developers to fight against PBG several times.

Even Trus had joined Monica’s resistance team.

Hearing this, Yu Tiandu said with a frown, “What is this guy going to do? Don’t tell me that he is trying to use that bit of Buddhist dharma to try to convert you!”

Monica smiled and said, “No, his combat strength is very valiant. He said himself that if he doesn’t become a ghost, who will? He even said that he killed people to transcend their evil souls,

you might not know this, but he actually shaved his head and chanted Amitabha to everyone!”

The Buddhist dharma was boundless.

Yu Tian was especially emotional. What a fool, he was forced to be like this by the Buddhist Dharma.

Monica also said, "Yu Tian, my losses are also very great. Now I need more developers. Moreover, I have joined hands with Claire's resistance company. We have also created a lot of pressure for them!

They have actually joined hands? Yu Tian even felt a little sympathy for those idiots from the Super Management Department.

Whoever faced such a resistance company would probably have to shit dry.

However, Yu Tian still said indifferently, "Are there no experts? Or is it because your strength is not enough? You simply can't produce any experts?"

Monica said helplessly, "I don't wish for any experts to appear because people will die every day. This is not what I want to see!

This was nonsense. Yu Tian did not want to hear it at all. He was thinking that the developers on PBG's side would be able to keep up with the fight until now?

They could only place their hopes on the scrambler now.

After the call ended, Yu Tian did not think about the conflicts in super country at all. He just left it to Monica. Because Monica especially hated the people of PBG, she would definitely spare no effort to F * Ck those people.

However, how could Yu Tian have expected that after less than half an hour of talking to Monica, Chu Xuan shouted in surprise, "Yu Tian, quickly look at the big screen!

As she spoke, Chu Xuan projected the news that was being broadcast onto the big screen.

The first thing Yu Tian saw was a chaotic superpowers. The protesting crowd was attacking each other, the defenders and developers were also attacking each other. The metropolis had completely turned into a sea of fire.

At the same time, other cities were also in the same situation, the host's voice trembled as he said, "Now, the Supreme CEO of the Super Management Department has issued an order to maintain the super management authority, which has been opposed by more than 70% of the management department,

"And in the past few days of unknown conflicts, the management department has issued the highest management order and activated the level five defense level. This means that the defenders can use weapons to attack the protesters!

A large number of defenders were attacking the civilians on the television. The scene was extremely violent.

Even Yu Tian was a little speechless. Those defenders really dared to fight without even blinking.

The host continued, "After this order was issued, the highest management department had an extremely irreconcilable difference. The defenders and attackers blamed each other for not doing their duty to the best of their ability.

Just five minutes ago, the senior president of the Defense Department, the Senior President of the attack department, and some of the higher-ups could not reach an agreement at the meeting to stop the conflict from erupting. After that, the senior president of the attack department, Thain..,

at the press conference, they announced that the attack department would launch an armed attack on the Defense Department at Midnight Today. This meant that the superpowers would fall into a civil war at midnight today,

"Earlier on, the super attackers and defenders from all over the world were being mobilized, and hundreds of millions of civilians were frantically leaving the country!

When Yu Tian heard this, he was very calm. Whether they fought or not had nothing to do with him.

If they could really bring out experts, then he would be happy.

At this moment, the big screen rang with the senior president of the Superstate's intelligence department, Michael Klein. His face, which looked like it had been spat on by a desperate woman, said in a very deep voice, "Now, the Supreme President has given up on the Supreme Management department..,

"As far as I know, he is now on his way to Barcelona. We are quickly making a new CEO choice, but this is not the fault of our management..,

"Previously, I had suggested to the senior president to have friendly discussions with the Chu Wen group with a smile the entire time, but the senior president insisted on doing it. He said that our opinion was that a group of mental patients were using urine to wipe their faces..,

"Furthermore, he specially issued an order to close down the Chu Wen Group, resulting in nearly forty million people protesting at the same time!

Yu Tian smiled disdainfully. In any case, the senior CEO had already drifted away. He could say whatever he wanted now.

And what this mcclane said was clearly putting in a good word for him.

Yu Tian considered it. This fellow's intentions were very obvious. He didn't want to make an enemy out of him, so he had already started choosing sides.

This was quite smart. At least he could guarantee that if he entered the Super Nation and fully launched the business model, he would get a lot of benefits. However, Yu Tian didn't have such thoughts at the moment. Simply put, everything in this world wasn't his, and the world of cultivation was where he should go.

At this moment, Thomas, who was far away in Egypt, sent a special request.

Chu Meng handed the request to Yu Tian and teased him,

c

“I feel like you can't hold on any longer. Can you be more serious? Take a look at this!”

Yu Tian asked Chu Xuan to open the video and said, “It seems like you're asking me to be more serious!”

At that moment, Thomas appeared on the big screen and said seriously, “Mr. Yu Tian, we encountered an attack from a mysterious force here. This is what we filmed earlier!”

The scene changed. A bald donkey with an axe on his back, who was nearly two meters tall and weighed at least 250 kilograms rushed into the wooden card alone. He could knock down a house with one punch.

The mercenaries and Doria's men used their weapons to shoot, but this person's movements were very agile. Bullets could not hit him at all. After his axe hit the ground, the energy generated from it made a radius of dozens of meters..., there were no people or animals left.

Yu Tian immediately became spirited. Wasn't this the expert that he had been looking for all this time?

And what was certain was that this guy was definitely not a developer, but a real expert..

?Chapter 560 – Chapter 560, Equal Strength

Thank you readers!

It was not easy to find a hooligan-type expert, but Yu Tian could not wait any longer.

He did not even bother with chip development and directly teleported to Aiguo Muka.

After meeting everyone, Thomas immediately reported with a solemn expression.

“Mr. Yu Tian, after that guy destroyed some of the buildings here, he went to Alaza. According to our analysis of this guy, he might want to destroy Alaza as well!”

Go To Alaza? Then what was the purpose of this expert?

He might as well go and take a look. Yu Tian said, “You guys continue to repair here. I'll go to Alaza to take a look myself!”

At the same time, outside the city of Alaza, the expert slowly raised his head. His eyes were filled with killing intent as he stared at it coldly.

When he walked into Alaza, everyone who saw him was terrified and hurriedly went home or hid.

Only those who did not want to live would provoke him.

The man stopped in front of a tavern.

The aroma of wine wafted out from the tavern was very tempting. He had not drunk for a long time. Before destroying this place, he should drink some wine first.

He turned around and walked into the tavern. The entire place suddenly became silent.

After a series of dull footsteps, he stood in front of the bartender. His hoarse voice was like a ghost's howl as he said, “I want to drink!”

The bartender was also very scared, but he had to provide service. Otherwise, this mountain-like man in front of him would definitely slap him to death.

He could drink whatever he wanted, even if he didn't have to pay.

Putting the wine in front of him, the bartender said fearfully, “This is your wine. If you're satisfied with it, you can leave. This wine is on me!”

The man did not care about this at all. He picked up the wine bottle and poured it into his mouth as if he was drinking water.

Everyone's lips were twitching. This guy had never drunk wine before? If he used a little more strength, he would probably be able to swallow the wine bottle.

A bottle of wine was finished in the blink of an eye. He did not feel satisfied. He slapped the table and said coldly, “Bring it over again!”

The bartender shook his head helplessly. If he had known earlier, he would not have treated him. This competition was too f * cking drinkable.

However, thinking about it, his pub had just opened, and even the slippers in the latrine were new. It was better not to provoke this fellow. If he wanted to drink, he could just let him drink to his heart's content.

The people in the pub also stopped drinking. They just looked at where this fellow was drinking bottle after bottle. In less than ten minutes, he had drunk more than twenty bottles, and he even let the bartender continue to take them.

The bartender was so embarrassed that he was about to cry. Even if it was free, he could not drink like this. Even if he drank water, there had to be a place to fill it. Was that his stomach or a bucket.

Forget it. For the sake of the bar, he would drink until he died. There would come a time when he would fill it up. He didn't believe that he could drink all the alcohol here.

At this moment, Yu Tian also walked into the bar. Under the bartender's grimacing expression, he came to the man's side and looked at the empty wine bottles on the table, he chuckled and said, "You can F * cking drink. You F * cking drink so much. Do you have the money to pay for it?"

The man suddenly put down the wine bottle and looked at Yu Tian with an extremely gloomy expression. He said coldly, "Don't provoke me. Get lost!"

Yu Tian frowned. It turned out that this guy didn't smash the wooden card for him. Moreover, it seemed that he didn't know him at all.

In that case, he wouldn't change his mind about having sex with him.

He said indifferently, "This place isn't owned by your family. It has nothing to do with you that I'm here to drink. Look at your stupid appearance. You even carry an axe on your back and Chop Wood to make a fire at any time, right?"

The man slightly exerted force, and the wine bottle in his hand was crushed into pieces. He said with a bone-chilling tone, "When I'm drinking, I never kill anyone. If you want to die, I'll Grant You Your Wish!"

Yu Tian looked at him with disdain and mocked, "Do you feel like you're invincible? You Dare to act like you're invincible when you're drinking? I'd like to see how capable you are."

As soon as he finished speaking, the man used his elbow to hit Yu Tian. He wanted to finish him off so that he could continue drinking.

However, Yu Tian easily pushed his arm away. This guy was indeed strong. He was the expert that he needed.

Yu Tian also threw a punch. He wanted to see how strong this guy was?

The man was also very surprised by Yu Tian's defensive strength. No one could withstand his punch, but this skinny Easterner did not move at all.

After receiving Yu Tian's punch, the man did not move at all.

However, Yu Tian knew that even if he did not move, his arm would definitely be in great pain.

This was because his fist was already in great pain. Compared to this fellow, his strength could be said to be on par.

However, the owner of the tavern could not take it anymore.

He was afraid that someone would fight here, but these two guys still fought here. They exchanged only two punches, and the entire bar counter collapsed.

He hurriedly begged bitterly, "Stop fighting, please stop fighting. I've only been in the tavern for less than two days. If you destroy this tavern, how am I going to earn money?"

However, who would listen to him now? Yu Tian and that man were already red-eyed. They were exchanging punches and kicks.

When the people in the tavern saw this scene, they were so scared that they hurriedly ran out of the tavern. However, they still wanted to watch the show.

They didn't want to see how exciting the fight between the two of them was.

They just wanted to see what the tavern would look like when it was smashed.

The man's attack power was very valiant, and his body was also very flexible. When Yu Tian attacked, there were actually quite a few punches that missed his body.

The man was also very surprised at Yu Tian's fighting strength.

He had trained in the depths of the desert for more than ten years so that he could become stronger, so that he wouldn't be bullied by others.

Thinking back to when he was young, he would be beaten up for a cake. Therefore, he swore at that time that he would never let others beat him up in the future.

But today, this Easterner had clearly exceeded his imagination.

The two of them fought back and forth in the bar. There was no winner or loser.

Yu Tian became more and more excited as he fought. It was very difficult to meet such an expert. If he could defeat him, then his strength would become even stronger.

However, the opponent's defense did not seem to have any flaws. Moreover, this man's skin was very hard. This should be the effect of training under the unique environment of the desert.

However, for his own cultivation method, he could simply use strength to attack him.

Thinking of this, Yu Tian immediately erupted with trembling strength. He jumped up and smashed his fist heavily onto the man's body.

The man did not care about this at all. However, when he came into contact with the safest place, the overwhelming strength on his back forced him to take a few steps back, knocking down one of the walls of the tavern..

?Chapter 561 – Chapter 561, No Self-Restraint

Thank you readers!

This man's personality was comparable to Yu Tian's. As long as he met a strong opponent, the more he fought, the more excited he became.

However, Yu Tian felt that he wasn't strong enough yet. At the very least, the axe on this man's back had yet to be taken out.

This meant that he had yet to display his true fighting strength. In that case, he had to stimulate him even more. No matter what, he had to let him take out the axe. This way, it would be more interesting to play.

However, the man did not take his weapon. He slowly walked out from the collapsed wall and said in a hoarse voice, a€?You are the most powerful person I have ever seen. This fight is very interestinga€|a€?

a€?Today, only one of us will be able to walk out of this place alive. Show me your true strength!a€?

Yu Tian was excited. He did not expect this guy to be able to take a beating. Since he wanted to feel his strength so badly, there was no need to pamper him anymore.

Thus, without another word, he erupted with powerful strength once again. He slid down the ground towards the man and raised his fist to strike.

The man crossed his hands to protect his heart. However, Yu Tian's strength was relatively stronger, and his body might not be able to withstand the repeated blows.

Proper defense was also completely necessary. This battle was a life-and-death battle. Since he was risking his life, he had to be more cautious.

Seeing this opportunity, the man used his agile movement technique to hug Yu Tian and lift him up forcefully.

Yu Tian, who was restrained by the man, was unable to break free from the man's hands no matter how hard he struggled.

It turned out that this fellow's strength wasn't weak either. All kinds of pressure made Yu Tian feel as if half of his bones had been crushed.

At this moment, Yu Tian once again erupted with the most powerful strength of the nameless technique. If he continued to be confined like this, his bones would be crushed by him.

The instant the strength erupted, the entire tavern shook. The wine on the wine rack, as well as the tables and chairs, were all blasted into pieces by the explosion of energy.

At this moment, the man's hand was also pushed away by the powerful force. He once again took a few steps back and crashed into a wall.

Although Yu Tian had broken free from the shackles, this fellow had caused quite a bit of damage to him. His body had already suffered several fractures.

However, the man did not suffer any injuries. Instead, he became even more violent and charged towards Yu Tian like a wild beast.

At this moment, there was a day when he felt that it was impossible for him to withstand this collision. He jumped to the side as fast as he could.

The man had already gone completely berserk. He did not crash into Yu Tian. He turned around and rushed towards Yu Tian once again.

The entire tavern was riddled with holes. Even the ceiling had collapsed.

The tavern owner who was standing outside was so heartbroken that he could not speak. He knelt on the ground and wailed loudly.

After the man did not bump into Yu Tian for a few times, he suddenly stopped. He turned around and said disdainfully, "Is this all you have? What about your fighting strength? I hope that this is a battle that can make me feel excited!"

"But now that I look at it this way, you are only so-so. I originally wanted to keep you alive, but now, I've changed my mind. I will completely tear you apart!"

Yu Tian looked at him indifferently and said coldly, "You are indeed very strong, but it doesn't seem to be that easy to beat me up. No matter what, we have already beaten each other up. At least we have some feelings!"

"Can you tell me your name?" "This way, after I kill you, if I think about it in the future, I can at least have a name!"

The man clenched his fists tightly and said disdainfully, "You are not worthy to know my name, but seeing that you can exchange so many moves with me, I can tell you!"

"My name is Lahadur. This name will rise in the entire world in the future. No one will have the chance to hear this name again, because everyone who sees me will be killed by me!"

"Just like you. Cut the crap and let us continue!"

Yu Tian was indeed very shocked. Lahadur's combat strength was even more valiant than Terrus'.

Although Terrus could not be killed, he could still fight. Moreover, Terrus' attack power would not be so strong.

He had always wanted to find an opponent. Now that an expert was in front of him, he did not know how to kill him.

At this moment, Lahadur charged at Yu Tian like a wild beast, but this time, he did not want to imprison Yu Tian. He came in front of Yu Tian and raised his leg to sweep.

His speed was as fast as lightning, and Yu Tian did not even have the time to dodge. He could only grit his teeth and use the only power he could muster to forcefully receive this kick.

However, the strength that the man unleashed was definitely not inferior to the nameless technique. He forcefully kicked Yu Tian more than ten meters away and crashed into the door of the latrine.

Even so, Yu Tian still had a calm expression on his face. After turning around to look, he said helplessly, "Did you do it on purpose? This is the latrine behind us. Why Don't you have any self-restraint when you fight?!"

"You're too arrogant!" Ra's Dura smiled contemptuously. He raised his fist and attacked continuously.

He knew that Yu Tian was trying to buy time for him so that his body could alleviate some of the pain. Then, he wouldn't be able to give him this time and the chance to recover his body.

Otherwise, this fight would be endless. He had to finish this guy quickly and then find a tavern to continue drinking.

At this moment, not only were Yu Tian's bones fractured, even his internal organs were cracked. His body was in extreme pain.

However, the more this happened, the more Yu Tian felt an unprecedented excitement in the pain.

It wasn't easy to meet a true expert. He had to cherish this opportunity no matter what.

However, he should be thinking about how to quickly recover his body. Otherwise, he could only Dodge and take hits. In the end, he might even be killed by this fellow.

At this moment, Lahadora's attack once again rushed in front of him.

Yu Tian gritted his teeth and squinted his eyes. The moment he saw the Fist of that Lahadora, he directly used gliding steps. After dodging the attack, he just happened to come behind Lahadora's body and hit the back of his head, it was a heavy punch.

However, Lahadora did not care about this at all. He already knew Yu Tian's strength. Even if he stood here and let him hit him, it would not cause him any harm.

Thus, he easily blocked it, but it almost broke Yu Tian's arm.

Just as Yu Tian staggered, Lahadora grabbed Yu Tian's neck.

Under his murderous gaze, he said coldly, "What else can you do now? You can die in my hands now!"

?Chapter 562 – Chapter 562, I'll Give You A Chance

Thank you readers!

As he said this, he raised his fist and charged at Yu Tian. He wanted this punch to immediately finish Yu Tian off and then find a tavern to drink to his heart's content. Compared to this, Yu Tian was not that important.

Moreover, Yu Tian's strength was only so-so. He was still a lot weaker than him.

Lahadora was very arrogant when he threw this punch. He did not even have any defense. He calculated that Yu Tian did not have any defense at all.

His previous attack on him had already caused him to suffer a very serious internal injury. Unless he was a god, it was impossible for him to recover so quickly.

When this punch was thrown, Yu Tian appeared particularly calm. He did not even blink. He was thinking too much when he thought that this punch was going to finish him off.

Although he had suffered serious internal injuries, he wouldn't be knocked down so quickly. What he wanted more now was to have a little more pressure, so that he could become stronger.

Instead, the nameless technique in his body could also be improved at this time.

Because at this moment, the strength in his body was already on the verge of exploding.

If the previous one was already very powerful, then the next one would be even more powerful.

Right now, he needed an opportunity. As long as this laharudula could give him more pressure or allow him to suffer a little more injury, then he would be able to grasp this opportunity.

Therefore, Yu Tian didn't even have the thought of dodging. He just stood there and let him fight to his heart's content.

In the end, this punch landed right on his chest, causing Yu Tian to fly backward like a kite with a broken string.

Not only did he knock down a few walls, even the room next door had a few large holes.

The moment he fell to the ground, Yu Tian felt that his body was extremely happy.

It was as if all the tight muscles in his body had loosened up at this moment, and the cultivation technique in his body had also started to operate automatically.

An even more powerful force was circulating in his body. Even the injured bones and meridians were rapidly recovering under the nourishment of this force.

Meanwhile, Lahadora thought that Yu Tian would not get up again. This war would be resolved so easily.

He even smiled very easily and said in a hoarse voice, "I said that you would definitely die at my hands. What else do you have to say now?"

"This is the result of your arrogance with me. You could have dodged it, but you insisted on taking my punch. Do you want to prove to me how strong your body is?"

"But now look at you, lying there motionlessly. You only have the ability to breathe now. So, do you still want to fight with me?" "But seeing that you still have some strength..,

"I won't let you be in so much pain that you'll be killed by me. But even if I don't attack you, you won't be able to live for much longer. It's your honor to die at my hands..,

"In your next life, remember not to be so arrogant. There are many experts in this world, and I'm one of them. But you're not an expert, and your fate can only be to die at the hands of Experts!"

While he was talking nonsense, Yu Tian had already stabbed the golden needle into the acupoints in his body.

With the help of the golden needle, the injured parts of Yu Tian's body were recovering at a speed visible to the naked eye.

The powerful strength produced by the nameless technique made Yu Tian feel that his ability had reached a higher level?

This was mainly reflected in the feeling in his body and the power that erupted from his fists.

Just as that fellow was about to leave, Yu Tian suddenly started to turn around, and his expression was extremely excited.

Raha slowly stopped in his tracks, but he suddenly turned around and frowned tightly. His eyes were filled with disbelief.

Was he even a human? After experiencing the ravages of his own strength, he was still able to calculate it unscathed. Could it be that he wasn't a human at all, but a Ghost?

But even if he was a ghost, it was impossible for him to stand up after enduring such a heavy attack from him.

He was neither a human nor a ghost. Could it be that he was a god?

Yu Tian looked at him indifferently and said disdainfully, "You're just so-so. Do you know why I won't Let Go of your fist? That's because I don't put you in my eyes at all!"

"I have the right to be arrogant and arrogant. If you're very unhappy, then show me your true strength and let me have a good time. Otherwise, this fight will be meaningless.

"Now that this bar has been destroyed, our fight must be worthy of the crying boss outside. He treated you to so many drinks for free, but you destroyed his bar.

"You must think that I'm not a human now, but I think that you're even more inhuman. You're even worse than an animal. You carry an axe on your back all day and still think that you're amazing. In My Eyes..., "You're just like a Fart!

Lahadora was burning with anger after being scolded. He roared and, like a wild beast that had gone mad, he used his feet, which were trembling with needles, to directly crash into Yu Tian.

However, Yu Tian smiled disdainfully. Other than charging, this fellow had no other abilities.

It was as if he had only practiced these few moves after so many years of practice. There was no novelty at all.

Thus, when he saw that he was charging towards him, Yu Tian did not take him seriously at all.

Just as he was about to reach him, Yu Tian suddenly jumped up and directly flew over his head. Before he could turn around, Yu Tian's heavy punch was suddenly thrown out.

Lahadora felt a powerful force behind his back pressing down on his body. He hurriedly arched his body. Under the premise that he could not avoid it, he could only forcibly receive Yu Tian's punch.

However, what made him even more shocked and unable to accept was that Yu Tian's punch was more powerful than any of the previous punches, and it was a forceful force.

His arched body was completely unable to withstand the blow of this kind of power. He was directly struck out and sprawled on the ground like a bastard.

However, Yu Tian laughed out loud, he said loudly with disdain, "Are you very surprised now? Are you very afraid? This is my true strength. However, it is not too late for you to know now because I did not use my full strength to hit you!"

“We have the same idea. I don't want to kill you so quickly because I still want to continue fighting with you two. Take out your axe now, and I'll fight your axe with my bare hands!”

“Take this as a chance for me to give you, and see if you can grasp it!”

Chapter 563 – Chapter 563 Was Worthy Of Respect

Thank you readers!

After being hit by Yu Tian's punch, Lahadora didn't recover for a long time.

After he could finally breathe normally, he slowly got up.

Then, he said in a deep voice, “You really surprised me. I didn't expect you to be so powerful. So, you were playing with me before?”

“Alright, since you want to play, let's play something more exciting today. Don't you want to see my axe?” “I regret it very much. Now, I'll let you see the power of my weapon. When that time comes, you won't even have time to regret it!”

At this point, Laharudula finally held his weapon, the axe that weighed hundreds of pounds, in his hand.

This axe was not a simple weapon. Before he could swing it, Yu Tian could feel the real killing intent.

There were many weapons that carried a killing intent, but the only weapon he had was the dagger that Chu Qing's father had given him.

However, using a dagger to attack such a large axe seemed especially laughable.

Therefore, he might as well not use it and directly use his own fist to deal with his axe. This way, he would appear even more powerful.

Moreover, if he could directly break through this fellow's defensive power, then that axe would be just a decoration and would have no use at all.

He would still be able to take his life.

Needless to say, Laharudula's body did not move at all. He raised the axe on the spot and directly chopped down.

A cold light flashed. Yu Tian suddenly felt a force that was as if a huge mountain was pressing down on him.

He could not take it head-on. This axe was indeed not simple. The explosive force was actually so strong. Unless he was stupid enough to take his axe head-on, it was better to avoid it, this was the only way to allow the battle to continue.

Otherwise, he would be easily injured by the axe. This was not a joke.

Although he wanted to find an expert and use an expert to train himself to increase his strength.

However, this did not mean that he wanted to risk his life with them. However, there was only one reason. He was not strong enough to be unafraid of death.

Perhaps in the future, he might not have an immortal body, just like Terrus. However, these people were all abnormal existences. He could be considered a normal person. Increasing his strength step by step was the most important thing.

Thinking of this, Yu Tian quickly dodged this force. In the end, the ground was forcefully split open by this axe.

Even the foundation of the tavern was shattered, and the entire building began to shake.

Yu Tian, who had just stabilized his body, looked up and immediately said with a frown, "Oh my God, this house is about to collapse. You can continue to use your axe here. I have to go outside first"

"If you have the guts, come out with me. Let's continue fighting outside. How Big is the space? "How fun it is to fight!

Lahadur's eyes were fixed on Yu Tian. Without saying a word, he carried his axe and rushed out of the tavern.

When the two of them reached the outside, the tavern behind them turned into ruins with a loud bang.

The owner, who was kneeling on the ground and crying, fainted when he saw this scene.

The tavern had only been open for two days. Even the tables and chairs were new. But now, it had turned into ruins. Originally, he had hoped that the tavern would earn more money and marry two more wives. But now, looking at it., nothing was possible.

Furthermore, he could not defeat these two people. From the looks of their combat strength, they were simply not human. Even if the tavern was destroyed, it would be a waste.

At this moment, Rahl raised his axe once again. This time, he did not slash downwards, but swept horizontally.

This was because one day, his movements were exceptionally nimble. If he looked downwards, it would be a line that Yu Tian could easily dodge.

The best way was to expand the attack range and sweep this move. This was the best way.

However, he had still underestimated Yu Tian's strength. Yu Tian's own nameless technique contained a lightness skill.

Jumping up a few meters from the ground was not a problem at all. Seeing the power sweeping over, Yu Tian jumped up very easily.

He directly jumped in front of Raha. Before Raha could retract his axe, Yu Tian's fist had already struck out once again.

This time, both fists struck at the same time, hitting right on Raha's heart.

This time, Raha's entire heart bone was shattered by the power of this punch.

It was as if his acupuncture points had been hit, and he stood still on the spot.

His breathing also began to slowly disappear. In the end, his entire body fell heavily to the ground like a mountain, and the axe, which was filled with murderous intent, also fell to the side.

Just this punch had beaten Lahadora to death.

Perhaps Lahadora did not know when Yu Tian's strength had erupted so strongly?

However, no one would answer his question.

Yu Tian did not even look at him. He picked up the axe casually. It was indeed a very good thing, and it was all made of metal. The most important thing was that this metal was an unknown metal.

It felt very cold and very hard. Moreover, this axe had injured countless people. Otherwise, how could it have such a strong killing intent.

The axe itself had such a killing intent. If that was the case, this was a rare treasure.

Since this guy had been killed by him, this axe naturally belonged to him.

Thinking of this, he wanted to use his will to make this axe smaller.

However, what surprised him was that this axe was not something he could control. No matter how he used his will, it was still so big, but it would not shrink.

No wonder it was an unknown metal. His skills could not affect it at all. However, it was such a pity to throw the axe away just because of that.

Helpless, Yu Tian could only carry it on his shoulder and carry it back first.

Just as he was about to turn around and leave, the tavern owner, who had regained consciousness after fainting, began to cry again.

Yu Tian looked at the pitiful appearance and felt a little upset. He casually took out a few large international coins and threw them in front of him.

When the owner of the tavern saw the money, he immediately stopped crying. His trembling hands picked up the money and looked at Yu Tian in puzzlement.

His gaze was clearly saying, "If you smashed it, so be it. How can you still give me money?"

Yu Tian said indifferently, "Build another tavern. This money is enough for you. And you'd better dig a hole and bury that guy.. No matter what, he is an opponent worthy of my respect!

?Chapter 564 – Chapter 564, Instant Teleportation

Thank you readers!

Yu Tian arrived at an empty space. He immediately opened the teleportation door and returned to the research and Development Center.

Everyone was shocked when they saw the axe in his mouth.

However, at this moment, Chu Xuan, who was far away in the United States, called Yu Tian.

"Yu Tian, come over quickly. Chu Qing seems to be different from the other sisters. She seems to be in extreme pain. I used the same medicine as the other sisters, but Chu Qing can't!"

"She might need your jade pendant. Come over quickly!"

After putting down the phone, Yu Tian didn't say anything else. He immediately opened the teleportation door and arrived at the villa in the NIMELA.

At this moment, Chu Qing was in so much pain that her forehead was covered in sweat. After seeing Yu Tian, she started crying in grievance.

Yu Tian also realized that Chu Qing was different. Her stomach was bigger than the other sisters', as if she could be born at any time.

How was this possible? Could it be that Chu Qing was different from the other sisters?

However, the possibility of this happening was not very high. The other sisters could be born normally, so it was impossible for her not to be born.

However, Yu Tian still placed the jade pendant on her stomach. After the jade pendant quickly absorbed his pain, it started to flicker.

This scene made tomorrow even more surprised. It turned out that the jade pendant had never emitted this kind of light before. Why was it still glowing this time?

However, Chu Qing, who was in pain, did not feel any reduction in the pain. She was still in the same extreme pain as before.

Before Yu Tian could console her, Chu Qing had already fainted from the pain.

Chu Xuan immediately gave her first aid and finally calmed her down a little. However, she was still unconscious and could not wake up.

Yu Tian asked nervously, "How can this be? None of the other sisters can do it. Why is she the only one like this?"

Chu Xuan did not know how to explain it. She could only use the information she had obtained first, she said slowly, "Don't be too anxious. I think this is a normal phenomenon. Everyone's constitution is different, so there will be different reactions"

Chu Qing's body was originally very small, so she might not be able to withstand the torture at such a speed. His pain must be more than others. The most important thing for us to do now is to wake him up. Otherwise, the child in his stomach will die

"It's very easy to die from lack of oxygen. I think this is something that none of us want to see!"

"Let me do it. Your Medicine won't be of much use at this time!"

Yu Tian wasn't blaming Chu Xuan, but the medicine was indeed ineffective. Chu Xuan knew this very well, so she wasn't angry.

At this time, she had already taken out the golden needles and inserted them into ten different acupuncture points.

The effect was really good. In less than two minutes, Chu Qing slowly woke up.

She held Yu Tian's hand tightly and said aggrievedly, "You don't have to worry about me. I will definitely persevere. No matter how great the pain is, I can endure it. As long as you can stay by my side"

I have a feeling that I will definitely persevere!

Yu Tian nodded his head firmly and said very gently, "You don't have to worry. I Won't go anywhere. I will always stay by your side until our child is born"

"I've even thought of our child's name. He must be the smartest one among all the children!

Chu Qing nodded with gratification. From the moment she met Yu Tian and fell in love with him to the moment she experienced every bit of pain, it was etched deeply in her heart, but it was also so blissful.

In the blink of an eye, it was noon on the second day. Yu Tian had always been by Chu Qing's side and had never left her side.

However, Chu Qing's belly was getting bigger and bigger.

Now, even Yu Tian felt extremely shocked. How could it be like this? Could it be that he was pouring water into it?

However, Chu Xuan said very firmly, "We can't wait any longer. I need to do a full X-ray for him, but the equipment might cause radiation to him. This decision still needs to be made with force!

"Perspective. I don't need any equipment. I know someone who has the perspective ability. I'll go and Get Him Now!

Yu Tian called Monica First and asked her where Tiffany was?

Monica said in confusion, "She's right beside me. Why? Do you want to find her?"

Send me your coordinates. Pll Go There Now! "Yu Tian said happily.

However, Monica laughed and said, "Are you talking nonsense? You're at least thousands of kilometers away from me. If you come here now, do you know how to Teleport?"

Yu Tian was too lazy to explain to her. He said coldly, "Yes, I know how to teleport. I can teleport instantly. Now, you just need to send me your coordinates. Don't worry about anything else"

“Oh right, tell Tiffany to prepare his things. He might have to leave with me for a while!

Monica didn't want to waste any more time. She immediately went to make arrangements and sent the coordinates to Yu Tian.

Yu Tian received the coordinates and immediately opened the teleportation door. He headed straight to super country. After a minute, he appeared beside Monica.

Monica was so shocked that she almost jumped up. She said in shock, “You really know how to teleport? Is this a new skill that you learned? That's impossible. No developer can master two skills”

Could it be that your brain has been developed again? Otherwise, how could you teleport instantly? This is simply a fantasy. We developers have already violated the laws of physics,

if you can teleport now, then I think you don't have to stay on Earth anymore. You can teleport anywhere in the universe. You can go wherever you want!

Yu Tian didn't want to talk nonsense now. He shook his head impatiently and said indifferently, “I don't have the idea to explore the universe yet. When I have the idea in the future, I will definitely take you to explore the universe. “But I don't think it's possible in this lifetime. Where is Tiffany? “I urgently need to see her now!

While they were talking, Tiffany, who was holding a box, walked into the room.

The moment she saw Yu Tian, she almost fainted. If Yu Tian wasn't quick-witted and hugged her, she would have been hit so hard that her nose and mouth would have been bleeding.

There was no need for unnecessary explanations. Yu Tian didn't say anything.

He opened the teleportation door, dragged Tiffany, who was still in a daze, and directly returned to the villa in Nimela.

The moment they appeared in the villa, Tiffany covered her mouth in surprise.

“Oh my God, we actually came to the NIMELA. It's more than 2,000 kilometers. It took him less than ten seconds.. Is this a dream? You really know how to teleport in an instant!

?Chapter 565 – Chapter 565, Soul Stabilizing Yarn

Thank you readers!

Yu Tian smiled disdainfully. "Isn't that obvious? You Don't know how to teleport. Did you come here in a dream? Stop talking nonsense and help me take a look at Chu Qing. I just want to know what's inside her stomach."

Tiffany grinned and said helplessly, "So you treat me like a machine. I thought you brought me here for a vacation!"

As she spoke, Tiffany opened her clairvoyance eye and looked at Chu Qing who was in pain. In the end, she smiled.

She touched her forehead helplessly and said slowly, "Congratulations. She has three children in her stomach. Two boys and a girl!"

"What did you say?" Yu Tian's expression was as if he had eaten a chemical weapon.

This was a little too unbelievable. Three? Was that Chu Qing's stomach? It was practically a kangaroo?

Chu Qing herself was surprised, but Chu Xuan said worriedly, "I don't feel happy. Chu Qing's body is so small. As the child grows up, her stomach will explode!"

Yu Tian was also thinking about this problem, but he couldn't find a solution.

He could only comfort her, "Wife, you don't have to be afraid. I definitely won't let your stomach explode. You rest first. I'll come back to see you later!"

After returning to the study, Yu Tian looked at Chu Xuan seriously and said,

"You're the best doctor in the world. Can't you think of a way?"

Chu Xuan shook her head awkwardly and said indifferently, "This is already beyond the scope of a human being. Even a normal woman wouldn't be able to bear three babies easily. Moreover, the baby will be born in ten days!"

"I also have another consideration. Even if the child is born, it's hard to say if Chu Qing will still be alive!"

It was really a sin.

Yu Tian narrowed his eyes. At this time, it was up to the family.

Therefore, he called Uncle Long and told him about the situation. Uncle Long was silent for a moment and said incredulously, "Three children? You really did a lot!"

“How about this? I don't have anything in my hands that can help Little Qing. I'll go back to the clan and see if I can find a way!”

Yu Tian's heart was somewhat alive. Why didn't he take this opportunity to go back to the clan to take a look? He immediately requested, “I'll go back with you. It'll be a good opportunity to take a look at the clan's environment!”

However, Uncle Long refused without hesitation, “You can't. Without the Clan Head's orders, you can't return to the cultivation world. You can only stay here. Young master, don't make things difficult for me!”

“Moreover, you don't have the strength to go back to the family now. It's not convenient for me to say anything more. In any case, you can't. Wait for My News First!”

After hanging up the phone, Yu Tian narrowed his eyes coldly.

When he said that he was going back to the family, the old man was so scared that he almost spat out a mouthful of sour water. Was there a need to be so afraid? Or was there some secret in the family that he couldn't know?

Forget it. If he couldn't go back, so be it. He would see the family one day.

Meanwhile, Uncle Long came to the backyard and took out a jade plate the size of a plate from his waist. He respectfully put it on the ground and began to chant with his fingers. The jade plate instantly emitted a dazzling light.

In the Yu family's hall in the cultivation world, Yu Dian lie suddenly turned around and dismissed more than a hundred disciples. He also took out a jade plate and said at the same time, “Why?”

His voice reached Uncle Long, and the old man hurriedly said, “Chu Qing, the maid of the Chu family, is pregnant with three children. I'm afraid that she might lose her life. Young master wants to ask the master if there's a way to save Chu Qing's life!”

Yu Dian lie was a little surprised. This child was quite good at playing tricks. He had done three things in one go. As expected of his son, he had guts.

Then, he went back to his room and opened the secret room. He took out a five-foot-long gauze made of gold thread and threw it into the light of the Jade Plate.

The moment Uncle Long saw the scarf, he was extremely shocked. He said in a

trembling voice, “This is the supreme treasure of the family, the soul-stabilizing yarn. It is said that this item was personally woven by the ice maiden of the cultivation world,

“It can stabilize the soul and calm the soul. Master, I thank you on behalf of Young Master!”

Yu Dian Lie did not waste any more words. For the sake of his child, the family's incense, he was willing to give up any treasure.

The Jade Plate's light disappeared, and Uncle Long immediately called Yu Tian.

Two minutes later, Yu Tian appeared behind Uncle Long, scaring the old man so much that his pants fell off.

Then, Uncle Long said in surprise, “You can actually shrink the ground to an inch now?”

What shrink the ground to an inch? Yu Tian shook his head noncommittally and said disdainfully, “I'm not digging a hole, why would I shrink the ground? Where's the soul-binding yarn that my father gave you?”

The moment Yu Tian touched the soul-binding gauze, he felt a heart-penetrating warmth, which was very refreshing.

Uncle Long exhorted, “This is the family's most precious treasure. When you go back, you can just cover it on the body of the Qing girl. But when the child is born, you must take it away. Don't let it be stained with blood!”

Yu Tian stuffed the soul-binding gauze into his backpack and then asked, “What other treasures does the family have? If it should be given, then just give it away. Anyway, it will all be mine in the future!”

Uncle Long said with a distressed expression, “In the past, when the family was at its peak, there were countless treasures. However, ever since the rise of other families, there have been successive years of fighting and relocation.

Many of the treasures have been used to exchange for cultivation resources.”

“Now, the number of treasures that can be taken out can be counted on one's fingers. Young master, listen to this old slave. No matter what, you have become stronger. Take back all the things that the family has lost.”

“Let the Yu family's glory shine once again in the Cultivation World!”

Seeing the old man's excited spittle flying everywhere, Yu Tian hurriedly said, “You should quickly calm down. Don't cause a cerebral thrombosis. I'm not idle now. My nameless technique is already at level three,

“However, there are pitifully few experts who can stimulate me. Forget it, I won't waste time with you. Chu Qing is in pain over there. I'll go back First!”

Uncle Long nodded and said, “It will be more and more difficult to improve your strength in the future. But remember, there are still many experts in this world. You just can't stimulate them yet.”

“This old slave will tell you that there are many people in the cultivation world who are also in this world. These people aren't doing well in the cultivation world, but here, they are all masters,”

“Although they can't do well in the cultivation world, it's enough for you to improve your strength!”

Yu Tian frowned in surprise and asked in puzzlement, “So there's such a thing? Then where are these people?”

“I can't say for Sure!” Uncle Long said slowly, “It should be everywhere in the world. Now that you haven't touched their interests, they don't want to show their faces in public,”

“Because they are all traitors in the cultivation world and will be hunted down by their families, you have to continue suppressing this world so that these people can show themselves in public!”

Yu Tian understood what he meant.. He said disdainfully, “If you suppress them, the world will be completely chaotic, but I still like this feeling!”

?Chapter 566 – Chapter 566, Looking For An Expert

Thank you readers!

Uncle Long smiled and said, “This world is about to collapse. What you're doing now is to re-establish your order. There are only benefits and no disadvantages for your future!”

Yu Tian nodded. What Uncle Long said made sense. Why couldn't he make the decision?

It was the same, including his own family.

Although he didn't have the ability to control them now, one day, he would definitely be able to make the decision based on his own strength.

After returning to the NIMELA, Yu Tian immediately chopped the soul-binding veil onto Chu Qing's body.

It was also very strange. After putting on the soul-binding veil, the pain on Chu Qing's body completely disappeared.

Even Chu Xuan felt very surprised. With this treasure, no matter who had Yu Tian's child, they wouldn't have to suffer so much pain anymore.

At this moment, Chu Qing could finally sleep.

Everyone left the room, but Yu Tian called Tiffany to the study room.

After taking a seat, Yu Tian slowly asked, "How's the battle situation on Monica's side?"

Tiffany helplessly shook her head and said in a low voice, "Although we won't lose now, we can't see the possibility of winning. After all, the opponent is PBG, and they have the latest interference equipment."

Many first-generation developers had been cheated by this kind of interference equipment. It could be said that they had suffered heavy losses.

Fortunately, there were fewer and fewer second-generation developers dying.

There were probably only a few hundred people left who were still supporting

PBG,

however, there was one thing. This war was unlikely to end soon. Moreover, there was an internal conflict in the management department of the superpower. A large-scale war was continuing to break out,

"Monica asked me to ask you. If it is possible, she wants to leave immediately!"

Yu Tian nodded slightly. With Monica's personality, it was indeed possible for her to have such thoughts.

He said naturally, "But now is not the time to leave. Because PBG still exists. When they are all dead, when can they leave? The whole world, you can go wherever you want to Go!"

At this point, Tiffany slightly narrowed her eyes and laughed, "You called me here alone just to tell me this? Or do you have some other ideas?"

"Do you want me to take a shower or something?"

Yu Tian blinked his eyes and said with a sad face, "It would be even better if you changed your pants and fork. Can you have some other ideas? Do you only have these things in your mind?"

"I called you here because I have an even more important mission for you. I guarantee that it will make you feel special and exciting. Moreover, it will be much more promising than following Monica!"

These words moved Tiffany's heart. She couldn't wait to ask, "What mission is so mysterious that you need to call me to the study room and tell me alone!"

Yu Tian stood up and came to the window. Looking at the romantic night outside, he slowly said, "In this world, other than these people who have special abilities, there are many more special experts."

"Although they don't have any special abilities, their strength is even higher than the developers. In My World, I call them the experts in the cultivation world."

"These people are spread all over the world, but each of them hides their names and conceals their identities. Moreover, their own strength is never displayed to others, so no one knows who they are, and it is even more impossible for anyone to know that they are experts."

"But you are different. You have eyes that can see through everything. You can tell whether they are masters at a glance. There is a very obvious characteristic in these people's bodies, which is that there is a kind of gas,

"Just like this kind of gas in my body is the same!"

At this point, Yu Tian deliberately showed the nameless technique in his body, and his internal energy circulated in his body.

Tiffany opened her X-ray eyes and looked carefully. Sure enough, she could see the red gas circulating in Yu Tian's body.

After Yu Tian put away the nameless technique, he continued, "See, those masters are the same as the gas in my body. We call this gas internal energy,

"I don't need to tell you more. You can't master this kind of Kung Fu, and my task for you is to go to the whole world to find such masters. I will give you endless funds,

you can even set up your own department, but everything has to be done in secret. So I suggest you to set up a company and find more developers like you, then you can go to the whole world to find such an expert, if you find one, report to me. This is the task I gave you!"

This job was simply too easy. All you had to do was to look around. Moreover, there was so much money. You could even go to the whole world to travel. It would be foolish not to do it.

Tiffany did not think and immediately agreed, "Alright, I'll do it. It's such a good job, why don't I do it? Then, from now on, I'll immediately set up a company. The rest will be up to me, right?"

"Yes, you're the Boss Now, but you have to make some achievements for me to see. I Don't care what you do in this world. You can even destroy this world"

"I just need to know where the experts are. I don't have any other requests, so go do it now!"

Tiffany was very happy to be busy. She finally had a job that truly belonged to her, so how could she not care.

At this moment, Chu Meng called.

"Dear, I want you to come back again. The acting president of Super Nation's top management department has arrived at Sean, and he wants to see you alone!"

Yu Tian smiled disdainfully and asked disdainfully, "You're talking about that mcclane, right? I knew he would definitely come to see me. Alright, bring him to the meeting room first. I'll be right there!"

He was now a person with teleportation skills. The entire world was at his feet.

He could go wherever he wanted and act as if he wanted.

Five minutes later, Yu Tian, who was in a suit, arrived at the conference room of the Sean Defense Department.

His guess was right. It was indeed that fellow, Klein.

Now, he had actually become the acting president of the Supreme Management Department. It seemed like this fellow really had some ability.

Yu Tian only nodded slightly as a form of greeting.

After taking his seat, Klein said very politely, "I used to be in intelligence management, so I know what Mr. Yu Tian has done in the superpower?"

"But that's not what I wanted to tell Mr. Yu Tian today. Besides, I don't care what you have done. You can take a look around. I'm here alone today. I just want to talk to Mr. Yu Tian about something else!"

?Chapter 567 – Chapter 567, Clearing The Pbg

Thank you readers!

Yu Tian crossed his hands and listened to him quietly. The impatience in his eyes turned into words. He said, "Can we cut the crap? I still have chicken soup on the fire!"

If you dawdle for a while, the pot will burn. Can We make it simple? What are you trying to say?"

Klein's expression was originally quite confident, but it became a little anxious under Yu Tian's impatience.

However, he tried his best to control his tone and slowly said, "My meaning is actually very simple. No matter what you did to us, I can turn a blind eye to it.,

"But now, I need your help. I want to make the conflict disappear as soon as possible. I think the whole world is watching us as a joke, but Mr. Yu Tian, you won't watch us as a joke!"

Yu Tian burst into laughter and said disdainfully, "Do you really think I have the ability to help you? Or do you really think I will help you?"

"And you'd better think about it before you speak. Don't go along with that big mouth of yours, number 50, and just throw up randomly. What did I do to you?"

"I'm just a normal business activity,

furthermore, I've also listened to your president and shut down all my businesses. What more do you want from me? Helping You is a joke. I have the time to have more children with my wife at home!

To be willing to have children and not help him, just how much did Yu Tian hate him.

Or was it that he didn't know what Yu Tian wanted.

With this in mind, Klein smiled calmly and said, "Why don't you be simpler,

Mr. Yu Tian? I want to ask for your help, and it definitely won't be for nothing,

all you need to do is tell me what you need me to do for you. If I can do it, I will spare no effort to do it!

Yu Tian raised his eyebrows. In fact, he had been waiting to say this.

He could not help him for nothing. Did he have any friendship with him?

If he had said so earlier, he would not have needed to waste so much nonsense?

He chuckled and said indifferently, "Actually, it's very simple. You should first know who started this conflict. It was definitely not me, Yu Tian, and of course, it was not you."

It was that mysterious PBG department of yours. If I remember correctly, the senior CEO of this department is called Dooley Morrison...

"If you can make this department disappear from this world, then I can help you. I can wipe out all those who oppose you. What do you think?"

These words actually struck a chord in Klein's heart. He had always been displeased with Dooley Morrison.

Wasn't he just a department that worked all day long with those psionic ability users?

He added, "Previously, Dory Morrison had always been working with the Supreme CEO. Now, the Supreme CEO has taken his family with him to God knows where. And now, Dory Morrison is completely in charge of his own decisions...

"He doesn't put us in his eyes at all. When the senior CEO was around, he was also acting on his own accord. In front of me, he even dared to shout. Of course, he is, after all, a mysterious department of ours...

"It's not that easy to get rid of them!

It was obvious that he wanted to negotiate with Yu Tian. Yu Tian smiled disdainfully and said, "You should know how your conflict was created. If it weren't for Dolly Morrison's unscrupulous recruitment of those superpowered people...

"And the enemies of those superpowered people don't want to be eliminated, which is why the current situation is created. Based on this, you still think that he's your mysterious department...

if that's the case, then I really think that there's no hope for you guys. And now, we don't have to continue our conversation...

i still have to go back to make chicken soup, so I won't accompany you for now. Later, you can go out and find a random restaurant to eat some egg fried rice, fried stinky tofu, and so on. Then, you can go back!

Having said that, Yu Tian got up and wanted to leave.

Klein hurriedly stopped him. "Wait a moment. You can make the chicken soup whenever you want. It's rare for me to come here. Egg-fried rice, stinky tofu, and so on are fine. I didn't say that I wouldn't help you get rid of Dolly Morrison"

"Can't we talk things out properly?"

Yu Tian held back his laughter and sat down again. He said impatiently, "Then you have to make me feel that there's value in continuing to talk. Otherwise, it's not even as expensive as chicken soup. What's there to talk about?"

"I can go back now and help you eliminate the entire PBG department, but I need you to help me eliminate all the opponents as well. Only then can our deal be considered fair!" Klein finally made up his mind.

Yu Tian nodded naturally and said softly, "It sounds very fair, but what you need to know is that you aren't helping me, but you are helping yourself and those who support you!"

With that said, Yu Tian got up and left the meeting room.

Klein wiped the sweat from his forehead. This Yu Tian was really too difficult to deal with. No wonder the former Supreme CEO was almost mentally deranged by him.

If he hadn't specially trained before, he would probably have gone crazy by now.

After returning to superpower, Klein immediately called his subordinates, the best secret agent team, to his office.

He said very seriously, "As you can see, there are wars everywhere outside, and the Supreme Management department is just a decoration. As the acting supreme CEO, I don't even have the authority to move the aunties who sell water at the door,

therefore, it's time for us to do what we need to do. You are the Best Secret Service team under me. In addition to you, I will also give you a special attack team of 2,000 people,

"To help you complete this mission, and the goal of this mission is to eliminate the PBG department in Dulimorison. At the same time, I will order all the funds and resources of PBG to be cut off,

"You must complete this mission by tomorrow morning. This is a matter of the life and death of the entire country!"

The people of the team did not say anything. After accepting the mission, they immediately began to carry it out.

At this moment, Yu Tian had already returned to the Nile.

However, he was not in the villa. Instead, he went to the seaside and prepared to go into the sea to get a few fish. At night, he would go back and stew some fish soup.

However, just as he rolled up his pants, he suddenly felt a very unusual vibration under his feet. It was as if there was going to be an earthquake.

However, the vibration lasted for less than two seconds before it disappeared. After that, it never appeared again.

There were no large industrial factories in the entire country, and there were no buildings in the vicinity. How could there be such a tremor? Could it really be an earthquake?

However, that was not possible. If there was an earthquake, he would definitely receive information about it.

If that was the case, then someone was doing something under his feet?

Down here, Yu Tian dived right into the water..

?Chapter 568 – Chapter 568, There Was An Attack

Thank you readers!

Yu Tian saw nothing in the sea except for a patch of kelp, two bastards, and a group of crazy fish.

When he looked into the distance, it was all a blur.

It wasn't clairvoyance, so he couldn't see that far.

After swimming for a while, Yu Tian returned to the beach.

Although he didn't find anything, the vibration was definitely not a coincidence. Even if it was a coincidence, it couldn't have been that strong.

Yu Tian narrowed his eyes. No matter what was down there, it was definitely not something good.

Since he couldn't see anything, he would wait and see. If the tremor appeared again, he would have to think of a way to find out the reason.

This was the place where his wife was giving birth. He couldn't afford to make any mistakes.

After fishing a few fish, Yu Tian returned to the villa.

Chu Xuan said nervously, "There seemed to be an earthquake earlier. Did you feel it?"

Yu Tian threw the fish into the kitchen and said indifferently, "It's just an ordinary earthquake. There's no need to be afraid. If there's another big earthquake, we can leave this place immediately!"

With him by her side, she always felt a great sense of security.

Chu Xuan no longer worried about these things. She picked up the pills that she had prepared and went upstairs.

But at this time, the earthquake appeared again, and this time it was even more intense. Even the wine bottle on the table was knocked down.

Chu Xuan held the stairs tightly and shouted loudly, "Yu Tian, it's really an earthquake!"

As soon as she said that, the earthquake disappeared again.

Yu Tian frowned. This was not an earthquake at all. If it was an earthquake, it would not be so short.

If it was an earthquake, it would definitely be the feeling of the earth shaking and the mountains shaking. How could it just be the feeling of an electric drill being drilled under one's feet.

If that was the case, there must be something under one's feet.

Yu Tian gave them a few simple words of comfort and left the villa.

When they arrived at the fishing tool shop, the boss finally calmed down from his panic. He politely said to Yu Tian, "Good morning, chief. Was it an earthquake?"

"It's possible!" Yu Tian said indifferently, "It's possible that some whale you got lost and hit the reef under our feet. In short, there won't be a big earthquake. You Don't have to be afraid!"

"By the way, do you have any deep-sea diving equipment here? What kind of machine equipment am I talking about?"

The boss immediately brought Yu Tian to another room. Yu Tian saw a few diving equipment in the room.

The boss pointed at one of the red diving equipment, which looked like a generator, and said, "I just got this yesterday. It can be used to observe fish activities under the deep sea,

it can dive to the bottom of the sea for 2,000 meters, and it can work underwater for more than ten hours!

Yu Tian did not ask how much money it cost. He took out two wads of cash and threw it to the boss.

He picked up the equipment, which weighed hundreds of pounds, with one hand and went straight to the seaside.

After the computer equipment was connected, Yu Tian threw the equipment into the sea.

The computer image of the equipment was very clear, and the equipment was very useful. The viewing angle was also very flexible.

At this time, the equipment had already reached the bottom of the sea, which was 150 meters deep.

The equipment controlled by Yu Tian stuck close to the bottom of the sea and carefully observed it.

When it reached a distance of about 700 meters, there was indeed a discovery.

Yu Tian saw the bottom of the sea in front of him as if it had been cut open by something. At this moment, there was still sea sand floating in the sea, and many boulders were scattered around the pit.

The hole that had been cut open was actually 50 meters in diameter and more than ten meters in depth. It was as if it had been blown out by something.

And about 500 meters away from the pit, there was another pit that was about the same size as the previous one.

Judging from the scattered boulders and the floating sea sand, this pit had appeared during the first tremor.

If it was a weapon attack, it must have been a submarine that could launch torpedoes.

But who had the time to attack this island with a submarine?

Yu Tian randomly controlled the detector and slid into the distance.

If there really was a submarine, it would definitely be discovered.

When they were about two nautical miles away, the control signal became very weak, and the device could only detect within two nautical miles.

But at this moment, an extremely huge shadow silently streaked across the detector.

The moment he saw the shadow, Yu Tian immediately controlled the angle of the detector and looked up.

He saw a pitch-black behemoth slowly gliding over.

His guess was not wrong at all. It was indeed a submarine.

Yu Tian nimbly controlled the detector, and when he avoided the whirlpool, he immediately followed.

However, on the surface of the submarine, there was no flag of any country.

At this moment, the torpedo port of the submarine opened again, and a torpedo shot out.

Fifteen seconds later, the torpedo exploded on the island again, and the vibration appeared again.

It was not possible to continue bombing like this. If a few more torpedoes were thrown, the island would sink.

First of all, he had to figure out who the submarine belonged to? Why was it attacking this place?

Even if it was against him, there was no need to sink the entire island. It was just a F * cking show.

Thinking of this, Yu Tian immediately put on his diving suit and jumped into the sea without hesitation, swimming towards the submarine.

A few minutes later, Yu Tian saw the submarine.

It was especially huge. In front of him, it was like the Devil in the sea, feeling particularly oppressive.

At this moment, the submarine was in floating mode, which allowed Yu Tian to smoothly arrive below the submarine.

Now, he had to think of a way to enter the submarine, only then could he know who the submarine belonged to and why they attacked his island?

Therefore, he could not use his telekinesis skill to shrink the submarine infinitely. Otherwise, the people inside would be squeezed into meat paste.

Yu Tian followed the side of the submarine and arrived at the entrance.

Although the cabin door had been locked from the inside, it was still very easy to open it.

If the cabin door was opened, seawater would instantly pour into the submarine. Then, he would have to enter the submarine in a limited time and close the cabin door.

Thinking of this, Yu Tian grabbed the door and turned it forcefully. With a crack, the lock inside the cabin door was directly broken.

The moment the cabin door was opened, seawater poured in crazily. The powerful suction force forcefully sucked Yu Tian into the cabin.

The moment he fell into the cabin, Yu Tian withstood the pressure of the seawater and closed the cabin door.

At this moment, a few men in offensive clothing rushed forward with weapons in their hands. They were easily dealt with by Yu Tian with a few punches and kicks.

Yu Tian took off the diving goggles on his face, looked left and right, and walked directly in the direction of the control room..

?Chapter 569 – Chapter 569, Attack

Thank you readers!

At this moment, Yu Tian, who had just appeared in the control room, was extremely shocked. The commander was so frightened that he grabbed the binoculars and climbed up.

The others took out their weapons and were about to fight Yu Tian head-on.

Yu Tian waved his hand casually, and all the weapons disappeared. Then, he said indifferently, a€?Don't even think about resisting. I can destroy this submarine at any time. When the time comes, I'll let all of you feed the fisha€|a€?

a€?Where is your commander? I want to talk to him!a€?

A commander hung on the binoculars and said with a mournful look, "I'm the commander. If you want to talk, just say it below. I Won't go down no matter what!"

Yu Tian raised his head to look at the commander and said helplessly, "You come down first. I didn't say that I wanted to kill you. Do you have to be so scared? Get down immediately!"

The commander could only bite the bullet and come to the ground. However, he maintained a certain distance from Yu Tian and said with a grimace, "I know what you want to say. You Don't have to ask. I can tell you anything"

"I didn't want to do this job at all, so I just casually got a few torpedoes. If I really wanted to do that, that island would have been sunk by me a long time ago. This is a nuclear submarine"

It's loaded with a lot of large missiles, but I feel that we can use a civilized way to speak. That is, we can only speak without taking action, and we don't kill, much less slap. Do you think that's okay?"

Yu Tian laughed. It seemed that this guy knew him quite well, so he nodded and said, "Why not? Pve already said it. Pm not here to kill. I just want to know why you're doing this?"

"Who told you to do this?"

The commander said, "We belong to the side of the Superstate's opponents. The current president of the opponents is Nicholas. He learned from the intelligence gathering that you "re prepared to help mcclaine"

"That's why he told us to attack the island you bought. He just wanted to remind you not to help those who shouldn't be helped. The reason why we're called opponents is because we want to be more fair"

Mcclane is not who you think he is, to bring this country to greater prosperity.

He will only destroy it with his own selfishness,

i used to work on the aircraft carrier in Lyons. When we were sunk, I barely survived by dragging a fish's tail, so I know what you are capable of,

nicholas gave me this mission, but I didn't want to do it. I didn't want to provoke you, so I didn't attack violently. That's all you want to know. Now we and the submarine have surrendered,

"From now on, we'll listen to you. We'll do whatever you want us to do. Even if you want me to poop on Nicholas "face, I'll do it!"

Yu Tian saw how scared he was, so he shouldn't be lying.

The current president of the opposition was called Nicholas. This guy actually wanted to destroy his own island. He really deserved to die.

Thinking of this, Yu Tian did not dawdle with him. He immediately ordered, "From now on, you have attackers and become defenders. As long as you are willing to listen to me, I guarantee that you will enjoy endless glory and wealth,

"Moreover, you will definitely live to the end. You immediately command your submarines to patrol nearby. If there are any other attackers coming, you must report to me anytime and anywhere. Do you understand what I mean?"

The commander wiped the cold sweat on his face and hurriedly said, "Yes, Mr. Yu Tian. I completely understand what you mean. Actually, everyone here does not want to work with Nicholas,

"This is a great opportunity for us. We will definitely cherish it. Thank you, Mr.

Yu Tian!

Yu Tian did not want to listen to this nonsense. He randomly opened the teleportation and directly disappeared in front of everyone's eyes.

This scene scared the commander so much that his head was buzzing.

Yu Tian returned to the villa. Although he wasn't angry, he still felt disgusted.

Nicholas had overestimated himself. He wasn't even capable of dealing with

Klein, and yet, he was in the mood to fight with him. Wasn't he courting death?

With this in mind, Yu Tian called Klein.

The moment the call connected, Yu Tian asked bluntly, "How are things at

PBG?"

Klein said very politely, "Most of PBG's higher-ups and their people have been dealt with by my special attacker, but Dolly Morrison has disappeared..,

It's very likely that he has entered Nicholas' actual area of control, and we have suffered heavy losses from this attack on him. The people under him with skills are not people we can deal with...

“Fortunately, we have Monica's developers to help us attack PBG. That's how we were able to get rid of them. Now, a large number of developers have been captured by us!

Hearing this, Yu Tian frowned slightly, he said coldly, “You are doing intelligence gathering. You must know Nicholas' actual area of control, including the locations of his attackers and defenders?

Send these coordinates to me. Later, I'll give them a very exciting attack!

Klein was excited on the spot. Yu Tian was preparing to attack Nicholas. Wasn't this what he had hoped for?

If this attack could bring about a fatal destruction to Nicholas, then the conflict would quickly disappear, and his position of power would be strengthened.

He couldn't wait to send all the coordinates to Yu Tian.

After Yu Tian hung up the phone, he immediately connected to Chu Meng via video call.

At this moment, Chu Meng was training at the shooting range. After the video call connected, she wiped the sweat off her face and said gently, “What's the matter, Darling? Are you thinking too much of me?”

Yu Tian said expressionlessly, “Yes, I'm thinking of you so much that I feel like I'm peeing. Stop talking nonsense, I'll give you your favorite task now!”

“I'll give you some coordinates later. You will immediately destroy these coordinates. I Don't care how you do it, I just want to erase all these places!”

Chu Meng's smile instantly disappeared and she said seriously, “You're not thinking of letting me attack the senior management department, are you?”

Yu Tian nodded and said indifferently, “You're right. I didn't want to attack them at first, but they pretended to be me and sent a submarine to bomb my island. I'm giving them face if I don't hit them.

“Go get ready now. I'll send you the coordinates.. Attack immediately when you get them!

?Chapter 570 – Chapter 570, Absolute Support

Thank you readers!

Chu Meng gritted her teeth. Yu Tian's decision would change the current world structure once again.

It would also become more and more chaotic. If Sean attacked them, the other countries in the European continent would immediately speed up the development of their defense levels.

These were all invisible. What could be seen was that many management departments would find senior presidents to condemn this behavior.

Yu Tian had already given his orders. He couldn't change anything, and he didn't want to change anything. All he had to do was follow the orders of the day.

With Yu Tian's intelligence, he would definitely consider it very carefully. Otherwise, he wouldn't have given such a special order so rashly.

After the video was cut off, Chu Meng immediately called all the senior executives of the Defense Department into the meeting room.

After the meeting started.., Chu Meng said very seriously, "I received an order from the senior management department. We are going to carry out an armed commercial activity. Our interests in superpower have caused a lot of losses because of their conflict,

"Mr. Yu Tian's company was almost completely shut down in this conflict. The losses caused are even more incalculable. Therefore, from a commercial perspective, we have to stop their conflict immediately,

"Therefore, I order the three management departments of the sea, land, and air to immediately launch a full-scale attack on the following coordinates!

As soon as he finished speaking, the meeting room was dead silent.

A few very conservative senior executives shook their heads vigorously. One of them, a white-haired old man, said shakily, "If we launch a fire attack on them, then Sean will completely become an armed nation,

"Even if this is a commercial activity, I think we should find a solution from another angle, and not use our weapons!

However, most of the supporters did not think so.

The president of the aviation senior management department said disdainfully, "I think it's completely okay to do this. Don't forget that our food, clothing, and our current status are all provided by Chu Yan industry, and Chu Yan industry's Yu Tian has created a very rich material life for us and increased our wealth. Therefore, we should defend Mr. Yu Tian's interests. I support the firepower strike!

The senior president of the business management department also said, "I also support it very much. Since Chu Yan became our senior president, our per capita income is almost ten times that of the past,

"And now that the business sector is fully open, our economic level is also developing rapidly. Not only the business sector, but we are also in a leading position in the world in other aspects,

"All of this was given to us by Yu Tian, so we must support him with all our strength. This is also for the sake of our own business development. Now that there is a conflict in that country, it will cause our exports to..., "Decrease by a lot,

"We must help Mr. Yu Tian to reopen all business activities in the Super Country and restore Mr. Yu Tian's business. This is what we should really do!

The few old men were really unable to say anything about these people and could only remain silent.

Because the current Sean was completely a country ruled by madmen, and its armed strike ability was extremely powerful.

It was as if a person had a weapon in his hand and was always looking for someone to fight with.

If that was the case, then no one could stop this attack.

An hour later, thousands of missiles and hundreds of fighter jets blotted out the sky as they entered Nicholas' actual area of control.

They carried out a completely destructive bombing on the main coordinates.

The entire attack lasted for nearly five hours. Almost all of the coordinates in Nicholas' actual area of control had been reduced to ruins.

At the same time, the maritime forces also launched a series of attacks on Nicholas' maritime forces.

As for Klein, he also saw an opportunity. At the same time, he sent out ground attackers to launch a fierce attack on Nicholas' area of control.

By noon the next day, Nicholas had been captured by Klein.

And most of the opponents expressed their surrender and no longer resisted.

Yu Tian had seen all of this clearly on the television and news.

But at the same time, Yu Tian was also considering another problem. After all, Klein was not one of them, so he could not be trusted.

This fellow would do anything for the sake of power and status.

So now, there should be someone of his own ruling this country.

Therefore, he immediately teleported to Monica's side.

At that moment, Monica was taking a shower. Yu Tian didn't say a word as he directly pulled open the bathroom door.

Monica, who was downstairs, hurriedly covered her body with a towel and shouted, "Are you trying to die? Can't you knock on the door? I'm taking a shower, can't you see?"

Yu Tian took off his clothes and said disdainfully, "Isn't that nonsense? I'm not here to watch you take a shower. Do you think I'm here to take a shit? Cut the crap. Let's take a shower together. You scrub my back!"

Monica immediately blushed and said nervously, "Who's going to take a shower with you two? How Can You Be So Shameless? Get Out Now or I'll call someone!"

Yu Tian did not listen to her. He pushed her against the wall and kissed her hard on the lips.

Initially, Monica could still struggle a little, but gradually, she hugged Yu Tian tightly.

In the bathroom, a shameless scene appeared.

Two hours later, the two of them lay lazily on the bed, enjoying the romantic moonlight.

Yu Tian said softly, "This country is now a vacuum. I want to inject some of my own things into this place. I will support you to be the President of the Supreme Management Department of Super Country. Do you have any opinions?"

Monica did not think about it and directly shook her head. "Do you think I can do it? The life I like is the kind of carefree life where I can go wherever I want to go. I don't want to be the Supreme President!"

One day, he said impatiently, "I'm just asking you to put on an act. I'll make the actual decisions. You'll be the supreme president, and there are many developers supporting you."

Even if someone objected, it would be useless. You just need to help me hold this country tightly in my hands. This is what I want from you. Are you willing to not help me?

Monica thought for a moment. She was now Yu Tian's person. Helping him become stronger was indeed what she should do.

Hence, she could only reluctantly nod her head, she said, "Alright, but let's make a deal. I'm only helping you. I really don't want to be a senior executive president. When you have another candidate, let me live a carefree life, if you promise me, I'll be a senior managing director, Okay?"

Chapter 571 – : Chapter 571, Strange Object

Thank you readers!

Looking at Monica's pitiful appearance, Yu Tian really couldn't bear it. However, for the sake of his own pursuit and goals, sometimes he had to put away his compassion.

Or he could make himself even more cruel to make himself stronger.

Yu Tian still nodded and said, "This is no problem. I can promise you that after I completely control the Super Country, you will definitely be able to live the life you want."

When that time comes, you can go wherever you want in the world. You can play however you want. No one will bother you again."

Monica lowered her head and said with a blushing face, "Actually, I just want to stay by your side. I don't have many requests, but I know that you have promised me, so I will do as you say."

"Tomorrow, I will set up my own company and start competing for the position of President of the Top Management Department!"

Yu Tian said with satisfaction, "Very well, I will provide you with all the funds, but there is one more thing. You Can't force yourself to do it with them. If you do, they will have many excuses to say that you are deliberately finding fault with them."

"If you want to become the President of the Top Management Department, you have to first get the support of most people. In a while, I will tell McClane that I will fully open up all the commercial organizations in Super Country."

Then, you will be the president of these business organizations. After that, you will get the support of most people. Then, you will make some financial preparations. In the future, you will get more supporters!

Monica did not understand what Yu Tian was saying at all. But she only had to remember one thing. What Yu Tian wanted her to do, she just had to do as he said. She did not need to think about anything else, nor did she need to think about it.

Five minutes later, Klein's call was connected.

Yu Tian chuckled at first, then, he said indifferently, "Mr. Klein, I've already helped you fulfill your request, but now, I also have my request. I'm prepared to fully open up my business institutions in the superpower..,

"I need you to use your current power to make it easier for my business institutions to reopen. There's no problem with that, right?"

"Of course it's okay," Klein said excitedly. "Actually, that's exactly what I was thinking. After the conflict, the country has become a mess,

"We need a business organization like you to revive the economy here. Otherwise, even if we take advantage of a hundred years of development, we won't be able to return to the way we were before..,

"As long as you can reopen your business organization, then I will agree to all your requests. As long as you can solve the current employment problem and let most of the people here eat their fill, that would be the best!

Yu Tian didn't want to waste time with him. Since he had already agreed, then there wouldn't be any problems. He immediately said, "Very good. You're a smart person. Do you know what I want?

"But it's impossible for me to go to the superpower to personally host these things. My representative is Monica. He'll be the senior president of all my businesses in the superpower,

"If there's any cooperation between the two of you in the future, you can go directly to Monica. What he says is what I want to say!

Klein frowned coldly. Yu Tian actually made that woman the senior president. The previous conflict had erupted because of that woman.

Now, he had asked her to be the president of Highland. What was Yu Tian trying to do?

He thought about it, but he still said gratefully, "No problem. I've already said that as long as I can open up all of your businesses, I'll agree to your conditions, I only hope that our future cooperation will be more pleasant!"

Yu Tian didn't want to say anything else and hung up the phone.

The next morning, Yu Tian gave the order to open up all the businesses in the metropolis of superpower.

This was undoubtedly a shot in the arm for the current superpower economy.

At the same time, the news also covered the news of Monica becoming the president of the business organization.

Monica held a special press conference at the behest of Yu Tian.

At the press conference, Monica said calmly, "Although we have experienced a conflict, everyone who survived this conflict must continue to live,

we are trying to get back to our previous lives, so nothing in my business organization will change. I hope that everyone can eat their fill and no longer experience conflict and war,

"I also hope that everyone can live a happy life and rebuild their homes!"

Klein, who was also watching the news, said to his subordinates with a cold gaze, "Keep a close eye on Monica. I think Yu Tian must be setting up a trap..,

"But what does he want to do? I still can't figure it out. If he is just making money, it's impossible. Yu Tian is not a person lacking in money. His wealth is enough to buy the entire superpower..,

"I don't believe that he's doing this for the sake of the commoners. I just hope that they can eat their fill and lead a good life. That's why you have to gather all their information. Don't let any information slip by!"

His subordinates immediately nodded, turned around, and left the office.

Klein looked at Monica on the television screen and sneered. "No matter what kind of trap you and Yu Tian are setting up, you are now in a situation that I don't know about..,

Soon, you will know that the real power is in the hands of powerful people, and you are only being used by me to help me rebuild this country,

"When I Get What I want, you and Yu Tian will be nothing to me!"

At this moment, Yu Tian was in the villa, talking to Chu Qing.

Chu Qing was in a good mood when there was no pain in her body.

While the two of them were talking and laughing, Chu Xuan pushed the door open and entered. With a nervous expression, he said, "Yu Tian, can you come out for a moment?"

Yu Tian nodded without changing his expression and let Chu Qing rest first. Then, he walked out of the room and asked in a low voice, "What's wrong with you? You look very scared. Did you see a Ghost?"

Chu Xuan shook her head and said in horror, "It's scarier than a ghost. The fishermen here have fished out something. You'd better go and take a look!"

Fished out something? As for being so scared, could it be that they fished out a nuclear weapon?

Yu Tian quickly came to the yard of the management department. But when he saw the scene in the yard, he felt that they might really have fished out a nuclear weapon..

?Chapter 572 – Chapter 572, They Actually Roared

Thank you readers!

Before he could see what they had salvaged, Yu Tian saw more than a dozen fishermen lying in the yard, their bodies covered in blood.

The wounds on their bodies looked as if they had been scratched by something, so deep that their bones could be seen.

Chu Xuan was leading her team to treat the injured fishermen.

Not far away, there was something covered by a black cloth. It was a living creature. As long as it shook slightly, it would jump around like a fish.

Judging from its size, it was not small. It weighed at least 400 to 500 kilograms.

Many people were holding harpoons and surrounding it. As long as the object moved slightly, they would raise their harpoons and prepare to attack.

Yu Tian passed through the crowd and arrived in front of the object.

Just as he was about to take off the black cloth, a fisherman came forward and stopped him, "Chief, you can't touch it. It's an evil demon. You should order us to kill it!"

“We can kill it, but you have to let me see what it is first. If it's just a big bastard or something, you don't have to be so afraid!”

As he spoke, Yu Tian suddenly took off the black cloth, but when he saw the monster inside, he sucked in a breath of cold air.

The black cloth could not cover the monster's body that was wrapped in chains. It was like a piranha that had been magnified hundreds of times, and its skin was very horrifying.

It looked like it was covered with some wriggling bubbles, and some of the broken bubbles even had some black liquid oozing out. It smelled extremely stinky.

On the monster's head, there were eight eyes from small to large. On its forehead, there were two antennae that flashed with electricity from time to time.

The monster's teeth were even scarier. There were three rows of them inside and out, and they were extremely sharp.

Most importantly, this monster actually had four limbs under its body. If one looked carefully, it looked like it was a degenerated human limb.

Even though it was the scariest monster he had ever seen, Yu Tian's heart pounded when he saw this thing.

What exactly was this thing?

However, at this moment, the monster suddenly looked at Yu Tian. The eyes on its head immediately turned pitch-black. The tentacles on its head suddenly exploded with an electric current and directly hit Yu Tian's heart.

Yu Tian was sent flying a few meters away without any preparation. He felt as if his internal organs were churning.

This monster's strength was actually so powerful. Even a peerless expert would not be able to hit him so far away.

Today, he was actually hit by a fish so far away. It was simply embarrassing to say it out loud.

At this moment, the monster swung its tail and tried to break free from the chains on its body. The surrounding fishermen all raised their harpoons and stabbed the monster.

However, not only did they not cause any damage to the monster, but when the bubbles on its body were punctured, the black liquid spewed out immediately corroded the fishermen's skin and caused smoke to rise.

The fishermen who were hit by the black liquid fell to the ground in pain and rolled back and forth.

Chu Xuan was not in the mood to care about them. Seeing Yu Tian kneeling on one knee with a pained expression, she rushed to Yu Tian's side and asked nervously, "How do you feel now?"

Yu Tian chuckled and stood up. "I feel really good right now. It's just like that uncomfortable feeling I had after a day of work. It's like having a wife and a massage. This monster is really interesting!"

"I'm prepared to study it thoroughly. Hurry up and save those fishermen. Don't let them roll around anymore. This monster seems to be especially immune to the stimulation of sound."

"As long as there's a sound next to it, it will become especially violent."

Therefore, I can say with certainty that this monster must have been moving in the deep sea all this time. It is completely isolated from the sound.

"Now that it has been pulled out of the sea and landed on the ground, it is unable to adapt to the sound of this world. That's why it has become so violent. Fortunately, I have practiced it before. Otherwise, I would have been beaten to death by it!"

Chu Xuan, however, was very puzzled. "If it was a monster in the deep sea, its hearing would have already deteriorated. How could it possibly sense the sound?"

"Or rather, this monster's body is full of ears. It doesn't have to use its ears to feel the sound. Sensitive skin and nerve tissue would also be the same!"

Yu Tian walked closer to the monster that was slightly quieter and took a closer look.

The surface of the monster's body was covered with poison. Moreover, this poison had a certain degree of corrosiveness. Not only did it corrode the fishermen's bodies, but even the ground was corroded to the point that some potholes were formed.

And the more this was the case, the more precious the poison on the monster's body was.

Thinking of this, Yu Tian turned to Chu Xuan and said, "Now, we have to think of a way to extract all of this poison. Only then can we know how this thing is produced?"

Chu Xuan shook his head in embarrassment, "But it's alive now. Even you can't get close to it. Do you think other people can get close to it? It's very easy to extract the toxins. First, you have to calm it down!"

Wasn't That Easy?

Yu Tian immediately activated his mind, making the chains on the monster tighter and tighter.

The monster could not bear the pain and struggled desperately. The poison on its body sprayed everywhere, and when it landed on the ground, it was followed by a burst of pungent black smoke.

Yu Tian casually grabbed the fishing spear from the fisherman's hand and stabbed it into the monster's eyes.

This kind of pain made the monster howl in fear.

This kind of howl made Yu Tian even more curious. If it was a fish that lived in the deep sea, it would not be able to make a sound.

However, this monster could make a roar. It was quite novel.

However, what could it do? Yu Tian turned the harpoon and continued to pierce through its eyes.

The eight eyes instantly turned into a pool of black blood. With the last stab, Yu Tian directly stabbed the two harpoons into the monster's throat.

The monster let out another ear-piercing roar and stopped moving.

Yu Tian was afraid that the monster would suddenly come back to life, so he used his harpoon and stabbed it a few more times. Only when he was sure that the monster would not move again did Yu Tian throw the harpoon, which was covered in black liquid, to the side.

However, Chu Xuan still did not have the courage to approach him. She directly threw a syringe to Yu Tian and asked him to extract the poison himself.

Yu Tian was nothing to be afraid of. He went forward and drew out a syringe of black liquid.

The surrounding fishermen were all stunned. Their new chief was really a good person. He could even kill a monster.

Yu Tian handed the needle to Chu Xuan and turned to ask the injured fisherman.

“How did you find this monster? And how did you fish it out?”

Chapter 573 – : Chapter 573, Becoming A Mermaid

Thank you readers!

The fisherman seemed to recall the frightened scene, and his face turned black, purple, and purple.

He also said with fear, "At that time, we were 150 nautical miles away from the Nile, and we dropped the fishing net. When we were trawling, we found that the things we caught this time were very heavy,

at that time, we were very happy because this time, we caught a lot of fish. But when we pulled the net out of the sea, we found that the monster was struggling in the net,

none of us had ever seen such a thing. At that time, we were very curious to see, but the monster suddenly broke through the net and jumped onto our fishing boat,

at that time, I and the other fishermen picked up their harpoons to fight with the monster. However, we found that we couldn't defeat the monster at all. Several fishermen were bitten,

in the end, the captain ordered us to tie it up with a metal rope. Only then did we secure it. After that, we dragged the monster back here!"

At 150 nautical miles, Yu Tian turned to look at the blue surface of the sea.

She did not expect that there would be so many new things around this island.

After returning to Chu Xuan's laboratory, she immediately began to test the liquid.

The results were quickly obtained. However, Chu Xuan said in surprise, "Yu Tian, this thing is not naturally formed. I am very sure that it was created"

I found some nuclear materials in this liquid, as well as some human blood and hair. My initial guess is that it was most likely mutated after being contaminated by nuclear contamination,

however, I do not know why there are human blood and hair in the monster's body. Previously, I saw that there seemed to be human limbs underneath the monster's body,

"If this thing was really created, then it must have combined the human body with an animal. However, the possibility of that isn't very high,

"And most importantly, this black liquid is a highly toxic substance. Moreover, it has a certain level of radioactivity. However, the radioactivity isn't very high. Unless it actually touches the surface of the human skin.. "Otherwise, it won't affect the human body!

Yu Tian didn't want to know about this. When she said this, Yu Tian interrupted her impatiently, "I'm not surprised that you said it was created,

"Humans have gone mad. Anything can be created. What I want to know now is whether this highly toxic liquid has any other useful effects other than corroding the human body?"

Chu Xuan looked at Yu Tian in surprise and asked in horror, "You mean, a biological weapon?"

Yu Tian smiled indifferently and said disdainfully, "What biological weapon? I'm not a war maniac. What do I need a biological weapon for?"

"I mean, does this thing have any commercial value?" "For example, what kind of medicine can we develop it into?"

Chu Xuan shook her head fiercely and said firmly, "It's impossible. Other than being able to develop it into poison, it has no other use!"

Poison was also possible. As long as it was useful to him, it was a good thing.

However, it was still too early to think about this. What they needed to figure out now was whether this kind of monster would still attack the fishermen, and whether such a monster would still appear in that area of the sea?

The more Yu Tian thought about it, the more excited he became. This was also a chance for him to become stronger, but it was still okay on land. However, with his 100% IQ, he was still not smart enough to study the things in the sea, it was still not enough.

Chu Xuan had long seen through Yu Tian's thoughts. She shook her head helplessly and said, "I knew what you were thinking. You must want to know now, will there still be such a monster in that area of the sea?"

"I'm a medical researcher. I don't know much about sea creatures, but among the 108 sisters, one of them specializes in studying sea creatures.

"Her name is Chu Min. She was born in the water since she was young, and she loves water very much. She has spent most of the past 20 years in the water, and she knows a lot about sea creatures.

"If you want to know the origin of this monster, you'd better invite Chu Min here. With her help, you'll know everything about the ocean!"

Yu Tian nodded. He had never seen Chu Min speak in the group chat before.

So he asked, "Where is Chu Min Now?"

Chu Xuan said with some difficulty, "In a large area, she can be seen anywhere with the ocean, but in a small area, I really don't know where she is,

why Don't you ask her in the group chat and see if she can reply to your message?"

This was a good idea. Yu Tian immediately opened the group chat and found Chu Min. He directly sent her a private message.

But after waiting for a long time, Chu Min still didn't reply.

Yu Tian felt a little helpless. He thought that among his sisters, he still had some strength to speak, but who knew? There were still people who refused to give him face.

This Chu Min seemed to be quite interesting. He could be very sure that she had indeed received his message, which gave him the feeling that this woman did not seem to want to talk to him.

Thus, he immediately shouted in the sister group.

"Who can provide me with Chu Min's position? It's very urgent!"

The usually quiet group of sisters would immediately explode as soon as Yu Tian spoke.

"Why are you thinking of looking for Chu Min again? That girl has been soaking in the water all day. I reckon she has already become a mermaid!"

"It's impossible for you to see her on land. It's better to look for her in a place with water. Even if she stays at home, she will still soak herself in the bathtub like a fish. She Can't leave the water at all times!"

"I think I heard that Chu Min went to the Nicaraguan sea. There's a very serious marine pollution there. She's going to save the creatures in the sea. You'll definitely be able to find Chu Min there!"

Finally, there was a piece of useful information. Yu Tian immediately put away his phone and found a coordinate in the sea area of the Nicaraguan Sea. He immediately activated the teleportation and arrived at a beautiful and romantic island in the blink of an eye.

He looked around and found that the scenery here was much better than that of the sea area of Nicaragua, but the temperature was also higher than that of the sea area of Nicaragua. At the same time, this place was also very backward. After looking around for a long time, he did not see a single house. It was just like a deserted island.

However, there were roads and the occasional sound of industrial ships could be heard.

The sea area of Nicaragua was only a few thousand nautical miles. It was difficult to find Chu Min's location alone unless someone could give him some good advice.

Thinking of this, Yu Tian quickly walked toward the populated area..

?Chapter 574 – Chapter 574, Brave Girl

Thank you readers!

Soon, Yu Tian arrived at a bustling small town.

Looking Up, the small town was very lively. The difference was that there were many people protesting in front of a factory.

The scene was very lively. Dozens of security guards in the factory held hands and blocked the factory's door.

A middle-aged man stood behind the security guards and looked at the protesting farmers in disgust. He said loudly, a€?You won't get anything here at all!a€?

a€?If you want to solve the problem, go back immediately. This is not a place for you to protest. I can still talk to you politely now!a€?

a€?If you go any further, I will order these tough bodyguards to beat you up like dried fish!a€?

At this time, an old man with wrinkles all over his face stepped forward and said angrily, a€?Mr. Durakaso, we are not here to have a conflict with you,

It is our family that has been exposed to radiation in your factory. Many people have already died. You can either compensate us or close this factory immediately. There are already people outside the factory,

a€?All of them have been exposed to radiation. They are usually nauseous and have headaches. If your factory continues to exist, everyone in this small town will die because of the radiation. Don't you have a family?

a€?When you see your family members leave in front of you, how will you feel?a€?

Durakaso smiled disdainfully and said arrogantly, a€?My family members will not live here. How can they be exposed to radiation? I can only hope that you people are poor. Why have some people left here?

“But they were not exposed to radiation. You can only blame yourselves for being greedy. At that time, before our factory was built here, we had already made it clear to your managers that the industrial products we produced”

“There is the possibility of radiation, but your managers only saw money in their eyes and did not care about your lives at all. That's why our factory was built here.

And when you came to our factory to work, we also told you very clearly, you may get sick, or even die, because of radiation,

but at that time you just for work, just for money, you do not care about this, now you are exposed to radiation, but want to get our compensation, or even let our factory move out of here,

do you think that's possible? We are a large factory with hundreds of millions of international dollars in assets. Don't you think you're overestimating yourself by asking us to move out?

I haven't said that you won't come to work and cause damage to my factory. I want compensation from you!

A middle-aged woman in the crowd, after hearing this, shouted hysterically, “What you told us at that time was only mild radiation. It won't cause any harm to the human body,

“We believed your words and came here to work. But look at us now. Everyone is like zombies. Our skin is starting to rot and our hair is starting to fall off,

“Even the water we drank has been detected to have a radiation value that is beyond the limits of the human body. If you don't give us an explanation, we won't leave this place,

“In any case, no one here can survive. Otherwise, we'll fight you to the death!

The middle-aged woman's words were echoed by many people, and everyone began to crowd forward.

The bodyguards of the factory also rolled up their sleeves and glared at them. As long as the boss behind them gave the order, they would definitely beat these damn farmers to death here.

When Yu Tian saw this place, he basically understood.

This factory was producing some kind of chemical industry, which resulted in a large area of radiation infection. No Wonder Chu Min came here.

This little girl really had guts. She would go wherever there was danger. Her personality was quite similar to his.

The protest in front of him had nothing to do with him. He could make as much noise as he wanted, but he was just here to look for someone.

Therefore, he turned around and walked into a restaurant nearby.

The business of the restaurant was particularly quiet because everyone had gone to protest. The middle-aged fat boss leaned on his cheeks and was drowsy.

Seeing that Yu Tian came in and was an easterner, the boss immediately perked up. He smiled and said, "Welcome, welcome. Please take a seat. What do you want to eat? I have everything here"

Cake, beer, hot dogs, and stewed mushrooms with chicken. If you want, I can even mix a cold crust for You!

The food was indeed very comprehensive, and Yu Tian thought it was quite interesting. This small restaurant actually had food from the Easterners. It was quite extraordinary.

Yu Tian nodded approvingly and randomly found a table. After taking a seat, he smiled and said, "Fry a few hot dogs, a few eggs, coffee, and your specialty food!"

The boss immediately patted the kitchen window and shouted, "You lazy dogs, hurry up and get to work. We have guests now. Prepare the food immediately!"

As he said that, the boss poured a large cup of boiling hot coffee and placed it in front of Yu Tian. He said enthusiastically, "You are the second guest from the eastern country in this week, there was also a girl who liked to eat chicken stewed with mushrooms and cold Skin!"

When Yu Tian heard that, he immediately smiled. It was really easy to come here. He had wanted to ask the boss if he had seen a girl from the eastern country? But the boss said it first.

He followed up by asking, "I know that girl from the eastern country. I came here to look for her. Do you know what he is doing now?"

The boss did not have any doubts because they were all from the eastern country. It was certain that they knew each other. However, his eyes were filled with anger as he looked at the scene outside.

He first sighed and then said helplessly, "Do you see those people outside? That Girl from the eastern country is the bravest girl I have ever seen"

“That factory that produces industrial products. Their radiation has killed many people. Even my children have died from the radiation. Other than us, this originally beautiful sea area has also become a ghost land because of the radiation.”

“We can't even see a fish. However, we have no idea where the data of the radiation came from.”

It wasn't until this oriental girl came here that he took the initiative and bravely collected the data for us. Only then did we know that we had been living in this radiation land,

she, she is now in the sea, collecting the data for us. She will come back soon.. She is our benefactor!

Chapter 575 – Chapter 575, It Has Nothing To Do With You

Thank you readers!

While they were talking, the conflict outside became even more violent. Durakaso didn't even care about these people in front of him.

He gave an order to those bodyguards. Who Dared to step into the factory? He could kill them immediately.

But those poor farmers, for their families, even for their own lives, what was there to be afraid of?

They held hands and walked towards the factory. The bodyguards did not show any mercy to them. They rushed into the crowd and began to beat them to death.

The younger man could still hold on for a while, but the old man, women, and children were beaten by the bodyguards until their noses and mouths were bleeding. They fell to the ground and could not get up.

Faced with the fierce attacks of the bodyguards, the crowd gradually retreated. They only wanted to express their demands and didn't want to have any violent conflict with them.

At this time, the restaurant owner also opened the door and shouted to the crowd, “Hurry up and leave this place. You Can't beat them. Don't do these useless things anymore. Hurry up and leave!”

Yu Tian just quietly watched the conflict outside. He was indifferent and expressionless.

What Hope could there be in a place where even the coffee was radioactive? It was useless to care about it or not.

At this moment, a woman's angry voice suddenly sounded from afar.

“All of you, stop. Stop hitting me. All of you, Stop!”

When Yu Tian heard this, he realized that this was the unique voice of an Oriental woman. It was very delicate and full of emotion, unlike the western woman, who would spit out bombs as soon as she opened her mouth.

He turned his head and saw that it was indeed Chu Min, who was wearing a diving suit. She had a perfect figure and a sexy appearance.

Perhaps it was because she had been training in the water all year round, Chu Min's figure looked particularly compact. Although she was only 1.7 meters tall, her proportions were perfect.

When the angry crowd saw Chu Min's arrival, they immediately quietened down. The factory's durakaso and bodyguards also stopped attacking, as if Chu Min's arrival could change everything.

However, Yu Tian could clearly see that Durakaso's gaze was filled with sinister and hatred.

It was normal for him to have such thoughts, because Chu Min wasn't here to defend him.

It was very likely that this conflict had occurred because of Chu Min's arrival. Otherwise, how could the farmers here know what radiation was?

At this time, Chu Min also came to the middle of the people on both sides. However, her big, intelligent eyes were now staring angrily at durakaso. She said angrily, “The chemical pollution produced by your factory”

Has already polluted at least 10 nautical miles of the surrounding waters. You have already violated the international environmental protection rules issued by the International Environmental Agency,

“You should immediately stop all production and at the same time compensate everyone who has been exposed to radiation. Moreover, I can tell you very clearly that within the next 100 years,

“This place will no longer be suitable for human habitation. Durakaso, I don't care how much you have lost? “Compared to human lives, your losses are nothing,

“If you don't listen to my advice, then your losses will be even greater. If you close the factory now, you can still get some. If you insist on your own ideas, then you can forget about opening the factory quietly!

Durakaso narrowed his eyes at first. Although there was a smile on his face, it was full of ridicule.

Then he said unhurriedly, "Miss Chu Min, I know your identity. I respect you very, very much. But at the same time, I also want you to know that there is no Chu family business organization here"

"And this world is not your Chu family's decision. My factory belongs to the highest management department in Barker Country. And as far as I know, there is no Chu family business organization in Barker"

We don't have any cooperation with you. I'm only saying this to you out of respect. I'm very clear that Your Chu family is number one in many aspects, even the factory behind me is nothing compared to your entire Chu family's business organization. But there's an important point here. Will I do as you say?

Your Chu family is just a business organization. Although you don't have a strong background, I think you won't use the entire family's power to deal with me just because I opened a factory,

even so, I don't think I have any fear. Because the things I produce are the only thing in the world. If you let me close the factory, it will cause a lot of operations in this world,

all of them will be interrupted. At that time, I'm afraid the World Won't blame me for how much pollution I have, but your Chu family will have nothing to do with those that shouldn't be,

at the same time, I also want you to know that the international environmental agency, already knew that my factory would produce radiation pollution.

Before You Were Born, my factory had already been built,

however, we will still be here. That means that the international environmental agency will also compromise with us. You Don't need to use the international environmental agency to talk to me,

they have taken a lot of benefits from us. Moreover, to the needs of the entire world, the international environmental agency is just an unnecessary decoration,

if our Barker's top management department requests it, the international environmental agency will immediately disappear. Miss Chu Min, you must first understand that although the Chu family is very powerful..,

but in our place, you don't have any right to speak. I don't want to say anything else. This place is very chaotic now,

for the safety of this beauty, you'd better leave this place. As for the environmental data in your hands, the whole world already knows about it.

There's no need for you to say it again,

“You'd better save your strength and go to other waters to observe how those sharks carry on their lineage!

Chu Min was a little silent. She stood here and couldn't represent her family. There wasn't any organization behind her that could give her the confidence to make her own conditions and demands with durakaso.

The Chu family also had some cooperation with durakaso.

Before he collected the radiation pollution here, his father had told him that it was best not to bother with Durakaso's factory, because this would cause the Chu family to suffer huge losses in some cooperation projects.

However, compared to those benefits, he could still distinguish who was more important.

However, he really didn't have the strength to speak now, and it was impossible for the Chu family to do anything for him.

And at this time, durakaso sneered again..

?Chapter 576 – Chapter 576, The Request Was Very Reasonable

Thank you readers!

When Durakaso saw that Chu Min was a little silent, he said even more brazenly, “Miss Chu Min, this is not a place you should come to. You are a flower that grows in a greenhouse”

“If you like swimming, it's best to go to a clean place. The pollution here is really serious. Even I won't stay here often”

And the farmers behind you, they take the money I don't give them. If they die from the pollution, they can only blame themselves,

i didn't force them to work for me. There are many people in the world who would die for money. They all want to work for me. I just pity them,

it turned out that this was a poor place. They couldn't even afford diapers. My factory had provided them with such a good life,

i even let them know what it meant to be canned food. I even let them use some high-tech products. were they taking these things for free?

There was no job in this world that wasn't dangerous. Even a housekeeping aunt could be smoked to death. What else did you want to pursue here?

Of course, you are the noble lady of the Chu family. I can also give you some face. After all, I have some cooperation with the Chu family. Several of your projects are using our products,

for your sake, I can compensate each of them one thousand international coins. This is already the most. If they aren't satisfied, then they can continue to seek death here,

“But this won't cause me any losses. If necessary, I'll use my private mercenaries. At that time, they won't even have a chance to speak. You'd better help me pass on the message to them!

Chu Min's expression became more and more furious, but she felt especially sad in her heart.

She had a body full of biological knowledge and had gone all over the world to collect biological data of pollution, but here, she didn't have the confidence to speak at all.

At this moment, an old man whose face was covered in blood walked up to Chu min and slowly said, “Child, I know you're doing this for our own good, but you really can't help us”

“Right now, we can only fight for our lives to the end with them. You should leave this place. Everyone here will be grateful for everything you've done for us. Thank you!

Yu Tian had already seen the tears in Chu Min's eyes. That aggrieved look of hers was really a little exciting.

However, no matter how he looked at it, that durakaso had a pretentious look on his face. It was as if he couldn't live anymore. Yu Tian really wanted to ask, what did his parents think back then? To give birth to this guy.

If it was his son, he would have thrown him into the latrine and drowned.

Thinking of this, Yu Tian slowly got up and walked to Chu Min's side.

Chu Min looked up and saw that it was Yu Tian. She was instantly shocked.

Yu Tian held her shoulder like a gentleman and said calmly, “Leave it to me. They are all bad people. You Are My Baby. I will never let any bad people bully you!

For some reason, Chu Min did not have any feelings for Yu Tian at first. But now that they met, Yu Tian's few words made her heart feel extremely warm.

There was even a kind of fatherly love that she had not seen for a long time. In the process of growing up, only her father called her baby once or twice. That was when she was very, very young.

However, when he grew up, he had dreams and pursuits. Gradually, he became farther and farther away from his family.

They only wanted him to become a business elite like the other sisters, but he had no feelings about doing business at all.

Therefore, they thought that he was a good child who was not obedient at all.

Of course, Yu Tian did not know what she was thinking, and he did not have time to think about it now. There was radiation pollution everywhere, although it would not cause any harm to the human body in a short period of time.

If it was prolonged, it would be unbearable.

Therefore, he came in front of Durakaso and chuckled. He still said, "I heard you say that you are a Barker, right?"

Durakaso saw that Yu Tian's appearance was extraordinary. Her every move and her eyes and words were filled with a domineering air. His heart beat a little faster. He nodded his head in doubt and said, "Yes, if I was born in the right place"

"Then it must be Barker. I've answered your question. Then, can you tell me who you are?"

"My name is Yu Tian!"

His indifferent words made Durakaso feel as if he had touched an electric wire, and his entire body trembled.

How could he not have heard of Yu Tian's name? Or, it could be said that everyone in the world who paid attention to the Chu family now knew who Yu Tian was.

His identity was so numerous that it was hard to describe it. Just casually calling out his identity would be enough to pin him down.

Fortunately, he had a partnership with the Chu family, and the main family could not do without his goods.

This was his confidence, so there was no need to be afraid of Yu Tian.

Thinking of this, Durakaso also sneered and asked, "So it's Mr. Yu Tian. I didn't expect that today's Nicaragua would be so lively and welcome so many distinguished guests."

"So, Mr. Yu Tian, you are such a distinguished person, and you came here at the risk of radiation and pollution. What do you want to teach me?"

Yu Tian flicked his hair elegantly and said indifferently, "I don't want to teach you. I'm not your father. I have no obligation to educate you. As for what I want to do?"

"That depends on what my Chu Min wants to do. Q Baby, Come and tell me what you want to do."

As he spoke, Yu Tian pulled Chu Min to his side.

With Yu Tian backing her up, Chu Min now had the confidence to speak. She knew Yu Tian's temper very well. If he were to lose his temper, he could raze the entire Nicaraguan to the ground.

Not to mention the Nicaraguan, even Barker would be destroyed by him.

The more she thought about it, the happier she felt. Chu Min said proudly, "My request is very simple. Close your workshop immediately. Also, you have to clean up the surrounding sea area immediately,

also, apologize to everyone who was contaminated by the radiation and provide them with sufficient compensation!

Yu Tian nodded and said in agreement, "This request is very good and I think it is very reasonable. Then, Mr. Durakaso, what do you think?"

Durakaso snorted coldly and said with disdain, "This is simply impossible. I hope that before you say this request, you'd better discuss it with your family and see if they agree or not?"

Yu Tian, however, laughed out loud..

?Chapter 577 – Chapter 577: Not A Blade Of Grass Grows

Thank you readers!

Yu Tian felt that there might be something wrong with this Durakaso. Where did he get his confidence from? To be able to make him have the courage to speak in such a manner in front of him.

This kind of courage that was not afraid of death really made him feel a little helpless and surprised.

Since he knew his identity, he still dared to boast shamelessly here. If there was nothing wrong with him, then what was it?

Thus, Yu Tian smiled and said, "You are right about one thing. The Chu family is indeed different from me. Because the Chu family is the Chu family, and I am me, there will be no conflict between our decisions."

"To put it simply, the Chu family has to listen to me. For example, I suddenly have an idea. If you don't let this factory close down, I will make Barker pay the price. What do you think of this idea of mine?"

"Is it exciting? Is it fun?"

Durakaso frowned coldly. He did not believe Yu Tian's words at all. Instead, he said, "Mr. Yu Tian, I respect you very much, but please don't say these useless words anymore,

"I know that you have a powerful business empire backing you. You are also the richest person in the world, but there will be no conflict between you and me. I do my business, and Barker has Barker's development,

this has nothing to do with you, you're looking for trouble here, and if you can do something about it, then do it, because I'm not closing my factory,

and the president of Barker's top management division, wouldn't let me, because this factory generates, 10 percent of Barker's total revenue, do you think they'd agree?

If you want my opinion, I can only tell you, you're wasting your time here, and you're not getting any of the conditions you want, that's all I have to say,

you can do whatever you want, if you can shut down my factory, I'll immediately kneel down and kowtow to you, and call you grandpa, but I think, it seems impossible!

Yu Tian could finally see that this guy had the support of his top management department, so he seemed to have nothing to fear.

However, the more pretentious he was, the more painful it would be to be slapped in the face in the end.

He brought this upon himself, didn't he? He couldn't blame himself at all.

Since that was the case, there was no need to waste time with him.

Yu Tian turned around and came in front of the old man. He asked indifferently, "Where is the managing director of Nicaragua? I want to see him." The old man said resentfully, "You can't see him at all. Even we can't see him. After this guy took the benefits that Durakaso gave him, he spent his days in other countries, eating, drinking, and having fun,

"He doesn't care whether we live or die, and we can only endure the damage caused by the radiation here. I heard from the Senior Management Department that the President is on vacation in Nicaragua!

Nimela?

Yu Tian felt that it was especially funny. He really had to put in all his effort. That guy actually had the mood to spend money and have fun in his own territory.

Then he wouldn't have to waste so much time looking for him. Wasn't that great?

He turned around and said to Chu Min, "Now you come back to Nimela with me. I'll help you solve the problem here, but I need you to do me a favor. I found a monster, but I don't know how this monster appeared,

"You're an expert in this field. I think you'll definitely be able to help me analyze the origin of this monster!

Chu Min thought that she was useless here. In the end, she still had to rely on Yu Tian to help her.

Then, she would trust Yu Tian this time and see how he could deal with Durakaso perfectly.

Yu Tian then said to the protesting crowd, "I'll give you two days to leave this place as soon as possible. In two days, nothing will grow here!

Everyone was extremely shocked and did not understand Yu Tian's meaning at all.

This was their home, where could they go?

The old man with a bruised face stepped forward and asked, "Young man, I know that you're here to help us, but there are so many of us, where can we

Yu Tian smiled naturally and said, "I'm letting you leave because I don't want you to be killed in the flames of war. Tomorrow night, a few ships will come here to pick you up."

"You guys only need to spend a few days on the ships. By then, this place will still be your home. The only difference is that Durakaso's factory will no longer exist,

“I reckon that if you guys want to see Durakaso, you’ll have to go to the biggest toilet here!”

This father also didn't know whether what Yu Tian said was true or not, but he still reluctantly nodded his head.

Even if what Yu Tian said was false, it wouldn't be much to them. They couldn't live much longer after suffering from the severe radiation.

If Yu Tian could give them a chance, they would be willing to give up their lives. How could they care about spending a few days at sea?

Yu Tian didn't want to explain anything to them. He turned around and pulled Chu Min away.

Behind the bodyguard, Durakaso laughed disdainfully, “I thought you had some ability, but that's all. I don't believe that you will make all the top managers in Barker compromise with you!”

When they arrived at the no-man's-land, Yu Tian directly activated the teleportation. Chu Min was dumbfounded on the spot. Just as she was thinking about what this thing was, she was dragged back to the villa in the Nile by Yu Tian.

Chu Min covered her mouth in shock on the spot. No matter what, she was still a scientist. This kind of teleportation thing, perhaps she had only seen it in movies.

However, Yu Tian had actually achieved such a high-tech thing. It was simply too shocking.

Chu Xuan happily held Chu Min's hand, she smiled and said, “You're here, Little Sister. Don't be afraid. In Yu Tian's place, everything is normal. Perhaps one day, he will even be able to place the moon in front of you. Just treat it as a lunatic!”

“Now, I'll bring you to meet Chu Qing and the others. There's no rush to work. Anyway, that monster has been rendered immobile by Yu Tian. We can study it whenever we want!”

Among the 108 sisters in the family, Chu Min and Chu Xuan had the best relationship.

The two of them were about the same age, and they had once gone to the same school.

The difference was that Chu Xuan studied medicine, while he studied biology.

Yu Tiancai was not in the mood to care about them. Instead, he left the villa and went to the highest management department.

Ever since Yu Tian bought this place, the people in the management department seemed to be taking care of themselves here every day. Other than eating, they would sleep, and they would get their salaries when it was time.

When they suddenly saw Yu Tian walk into the main door, everyone hurriedly put on some energy to welcome the new chief into the office.

Yu Tian had never been so arrogant to his own people. It was mainly because of his own temperament that made people feel superior..

?Chapter 578 – Chapter 578, Created

Thank you readers!

Yu Tian, who was sitting in his office, had nothing to say to his subordinates. He said straightforwardly, a€?I need to find a person now. He's from Nicaragua,

this person is currently on vacation here. Find him immediately!a€?

It was simply too easy to find a person in a small place like Nicaragua during these summer vacations.

Soon, a piece of information called Kelton was placed in front of Yu Tian.

Yu Tian took a quick look. This person should be the highest CEO of the NIAMELA that he was looking for. Otherwise, this guy wouldn't be so rich to find more than 200 aunties to accompany him.

a€?Where is this person now?a€?Yu Tian asked indifferently.

a€?He is now in our resort hotel and has booked the most luxurious room!a€?

There was no need to ask anything else. Yu Tian directly stood up and went to the front of the hotel.

There was no one in the entire Nicaraguan who didn't know Yu Tian, the chief.

There was no one in the entire Nicaraguan who didn't know Yu Tian, the chief.

The owner of the hotel personally went out to welcome him. Yu Tian just nodded indifferently as a greeting to him.

Walking into the hotel, Yu Tian asked in a low voice, a€?Help me find a person called Kelton. which room is he staying in?a€?

The hotel owner immediately found Kelton's information and said very respectfully, "He is staying in the luxurious suite on the top floor. I will take you there!"

Yu Tian shook his head. Some jobs were better done by himself. Otherwise, these people would be scared to death.

At this moment, Mr. Kelton was playing a fun adventure with a few aunties in the room.

Yu Tian directly kicked the door and entered. There was no need to be so polite with this kind of top manager who did not even care about his own people.

If he could do it, he would beat him up. If he could scold him, he would scold him. It was not a big deal.

Kelton, who was only wearing a trouser fork, stood up angrily and asked, "How can you be so rude? Don't you know how to knock on the door?"

"You actually kicked the door of the hotel room to pieces. You have to pay for this yourself. Now tell me who you are?" "What do you want to Do?"

Before he finished his words, Yu Tian went up and punched him directly from the bedroom to the bathroom. He almost fell into the toilet.

The few unkempt aunties screamed and ran out of the room.

Yu Tian ignored them. He pulled Kelton out of the bathroom and slammed him to the ground.

Kelton was really scared now. He crossed his hands and begged, "Let's talk."

You punched me. I still feel dizzy, can we talk like normal people?"

Yu Tian snorted and said indifferently, "You still want to talk to me like a human? In My Eyes, you're worse than a pig or a dog. At most, you're just an animal."

"I know you're the highest president of the management department of

Nicaragua. Do you know that your people are suffering from the radiation? "Many people will lose their lives because of this,

"However, you are taking the benefits that Durakaso gave you and recklessly playing with those aunties who weigh more than 200 pounds. What are you thinking?"

Kelton looked at Yu Tian in shock and said fearfully, "Who are you? What do you want to Do?"

“Good question!” Yu Tian then sat on the sofa and said indifferently, “I want to buy your Nicaragua now, but I will only give you 100 international dollars,

“I don't think it's worth a penny more. If you refuse to sell me, I will find 500 giant aunties who weigh more than 500 pounds to sit you to death!

Kelton's face turned black. Although he liked it, if there were too many people, his small body would not be able to withstand it.

As he dialed the number, he said, “Okay, I'll take it. What do you say?”

The contract was quickly signed. Yu Tian took out 100 international coins and directly threw it on his face. He also reminded him, “Remember this. If you dare to play any tricks behind my back, I'll kill you in a minute.”

“And remember this, my name is Yu Tian!”

Kelton fell to the ground on the spot. It turned out that this young man in front of him was the internationally famous Yu Tian.

He had thought that he was a robber, but now that he thought about it, giving him 100 international coins would be giving him face.

In the blink of an eye, it was noon the next day. Chu Min had carefully analyzed the monster inside and out.

He handed the analysis report to Yu Tian and said with a particularly grave expression, “This is the strangest mutant I've ever seen. What I can confirm is that this monster was also contaminated by radiation, which is why it mutated,

“Furthermore, I've detected human elements in the monster's body. These elements were artificially combined to form a whole. Therefore, I can say with certainty that this monster was deliberately created.

“However, the human body doesn't seem to be that strong. Chu Xuan has also analyzed these elements and can say with certainty that these people were deliberately combined after they died.

This was a very advanced technology. The human brain would fully fuse with this special polluted fish to increase the intelligence of this fish,

therefore, the intelligence of this monster was no different from that of a human. Moreover, it had an obvious target selection. Most importantly, the venom of this monster could cause the mutation of human elements,

“In other words, after being exposed to this venom, the human body will become exactly the same as this monster after a period of time. Up until now, Chu Xuan and I have yet to find a drug that can break down this venom!”

Yu Tian listened to this very quietly and then smiled disdainfully.

It was getting more and more interesting now. He did not even want to destroy this world, but someone had always wanted to do so.

Thinking of this, he immediately asked Chu Xuan, “How are the people who were sprayed by the poison now?”

Chu Xuan turned on the big screen and pointed to a tent on it. He slowly said, “They are all here now, but their bodies haven't mutated yet. This gives me enough time to develop the medicine.”

“But now, if we can't find a place to produce these monsters, monsters like these will continue to appear!”

Yu Tian nodded and said, “All you need to do is to research the medicine. You Don't need to worry about anything else. I'm a man, you're a woman. I'll do the work outside!”

Although he said that, one day, he was thinking about where the research was at the monster's place?

?Chapter 579 – Chapter 579, Monster Attack

Thank you readers!

While everyone was studying, someone immediately reported that another fishing boat had been attacked by a monster.

When Yu Tian and the others arrived at the beach, many people had already gathered.

Dozens of injured fishermen were lying on the beach in great pain. Their bodies were the same as the fishermen who had been attacked by the monster.

There were even a few fishermen who were seriously injured. Their bodies looked like they were about to be torn apart, and they were still bleeding black blood.

Chu Xuan brought her own people and rushed forward to treat the injured fishermen.

Yu Tian found a fisherman who was less injured and asked in a low voice, “How were you attacked? Tell me!”

The fisherman held his injured arm and said in pain and fear, "We were fishing 150 nautical miles away. That's where we often go."

We usually have a good harvest there, but in the last few days, the fish there seem to have disappeared. We've been working for two days and two nights, but we haven't caught many,

the weather was good today, we were going to work for another day, but at this time, we found something hitting the bottom of our fishing boat,

at that time, the captain asked two people to go down to see if our fishing boat had hit something? But after the two fishermen went down, they weren't able to come up again,

just as we were afraid and curious, many large monsters appeared around us, desperately hitting our fishing boat. There were even a few monsters that jumped onto our boat,

they were like devils. Their fish bodies had human limbs and they could even walk on their feet. These monsters ate and bit the fishermen on the boat. I had barely jumped into the mechanical room and wasn't able to be attacked by them,

after all the fishermen were attacked by them, these monsters jumped into the sea and quickly disappeared. Chief, can you tell me what these monsters are?"

Yu Tian shook his head helplessly and said, "If I knew, these monsters would have disappeared. But it doesn't matter. You and your fishermen"

Soon you will be able to go out to the sea to fish as usual. But in the next few days, it's best that you don't go out to the sea and stay on land!

One day, they thought that if they let these fishermen stay on land, they would not be attacked.

But who knew? At night, countless monsters surrounded the entire NIMELA.

Silently, they launched a fierce attack on the NIMELA.

When Yu Tian received the news, half of the NIMELA was destroyed by these monsters. At least thousands of people were killed by these monsters.

He frowned and said with a cold snort, "I was worried that I wouldn't have a place to kill you, but you actually came to me. If that's the case, I'll make sure you don't come back!

He then took out the axe from his backpack. To attack a monster, he had to have a weapon. It would be more convenient to use it.

Chu Xuan and the others were especially afraid. Yu Tian calmly comforted them.
“With me here, you don't have to be afraid of anything. Go To Chu Qing's room now.
No matter what happens outside, you don't have to come out.”

“I'm here. Just leave it to me!”

At this moment, chaotic and heavy footsteps sounded around the villa.

Yu Tian's lips curled into a smile. Then, like a bolt of lightning, he disappeared into the villa.

Hundreds of monsters had already surrounded the villa.

The moonlight shone on their scales, emitting a demonic light.

One of the black monsters let out a cough-like sound.

The other monsters even nodded.

Yu Tian, who was standing on the roof, saw clearly that the intelligence of these monsters had developed to the point that they could communicate with each other.

This was really interesting.

At this moment, a large group of monsters began to rush towards the villa.

Yu Tian waved the axe in his hand and directly jumped in front of the monsters.

The moment the monsters saw Yu Tian, they immediately changed their target and rushed towards him.

Yu Tian raised the axe and directly swept across.

More than ten monsters were split into two halves and fell to the ground with a stinky smell.

Yu Tian also exploded and released a burst of internal force, blocking all the black liquid that was spewing out.

He could kill them, but it was impossible for him to become one of them.

More monsters rushed towards Yu Tian again.

However, Yu Tian shouted, “Good! Today, I can finally have my fill!”

As soon as he finished speaking, Yu Tian's axe was swung into a flower. The monsters fell one after another. In the blink of an eye, the beach in front of the villa was filled with the bodies of monsters.

The rest of the monsters continued to persevere as they charged upwards. However, with Yu Tian, as many as came, it was impossible for them to have any chance.

In the end, when there were too many of them, Yu Tian directly controlled a huge rock and smashed it onto a large area of monsters, turning them into a pile of black water.

At the same time, Yu Tian also discovered that the monster that was covered in black was obviously the leader of these monsters. This beast had been coughing all this time. It turned out that it had been commanding these monsters to attack him.

Seeing this, Yu Tian lifted the axe that was covered in black liquid and charged directly at the black monster.

When the monster leader saw Yu Tian charging at it, the eight eyes on its head clearly showed a sense of fear and quickly retreated.

However, no matter how fast the monster was, its legs that seemed to have degenerated could not be faster than Yu Tian's lightning-like speed.

In the blink of an eye, Yu Tian jumped behind the black monster, and with a casual swing of his axe, he cut the monster in half.

When the remaining monsters saw that their leader had been killed, they all became timid and ran desperately into the sea.

Yu Tian chased all the way to the seaside and killed all the monsters that had not jumped into the sea in time.

Then, Yu Tian came to the city and killed all the monsters he saw.

Under Yu Tian's inspiration, the fishermen of the Nile also picked up their harpoons and other weapons and followed behind Yu Tian to besiege the monsters.

While beating Yu Tian, they warned loudly, "Everyone, be careful. Don't get stained by the black liquid. It's highly toxic!"

After the fishermen heard that, although they continued to attack, they still kept a certain distance from the monsters.

When the last monster was killed by more than ten fishermen with their harpoons, everyone started to shout.

The fishermen lifted Yu Tian into the air and used this most enthusiastic way to thank this brave chief.

Yu Tian was also moved by everyone's enthusiasm and laughed out loud.

After calming down, Yu Tian also said to everyone, "These monsters will still attack, but the harpoons in your hands are still too backward. I will provide you with the best weapons."

When the time comes, let those monsters see how we play with them!

Chapter 580 – Chapter 580, Don't Be Afraid Of Him

Thank you readers!

The origin of those monsters was unknown, but Yu Tian was sure that the base that created them should be near the waters of the Nile.

However, the exact location was still unknown. The only thing that was certain was that those monsters would continue to attack, and the scale was even larger than this time.

This time, there were almost 500 of them. Moreover, the person who commanded these monsters was only using this time to test his own strength.

Out of the five hundred monsters, less than fifty returned. If it was Yu Tian himself, he would not be able to take this lying down.

When Yu Tian returned to the villa, he immediately called Chu Yan and gave her a few orders.

"The monsters here have gone crazy. They are attacking us without any regard for their lives. Chu Qing is waiting to give birth. We Can't leave this place yet. I have to arm the fishermen here first,

"I also need a large number of weapons and mercenaries. I have already closed the airport here. It is specially used to put our fighter jets. At the same time, Tell Lornes to immediately bring the aircraft carrier formation to the sea area of the Nile!

Chu Yan was very worried about Yu Tian. She said in a low voice, "If those monsters are difficult to kill, you can leave that place. It is just an island. It is not that valuable!

However, Yu Tian had a different idea. He chuckled and said indifferently, "I know you're worried about me, but I can't leave this place right now."

“The person who created the monsters is clearly coming for me. If I leave this place, it means that I'm afraid of him. Not only can I not leave, but I also want to fight with him to the end!”

“I can also get a lot of fun from this place!”

Chu Yan sighed helplessly. Yu Tian's adventurous spirit was simply too worrying.

She could only say helplessly, “Remember, if you can't beat them, don't force yourself. You Can't make decisions for the 108 sisters!”

However, Yu Tian said disdainfully, “Who said that I can't make decisions for you? But these decisions are definitely not wrong. Alright, Go and prepare the things that I want First!”

In order to not let Chu Yan worry too much about him, Yu Tian did not say anything more. It was his life to begin with. He did not have a choice even if he wanted to.

Since that was the case, what choice did he have? Just Fuck it.

In the blink of an eye, it was the next morning. More than ten transport planes slowly landed at the American Airport.

Locke personally led five thousand mercenaries to come and support Yu Tian.

When the weapons were unloaded from the plane, Yu Tian looked at them briefly. They were all the most advanced weapons and equipment in the world.

He then pulled Locke to the side and said in a low voice, “Pass these weapons to the fishermen who can fight here. I want you to teach them how to aim and fire with these things in the shortest time possible!”

“After that, place those large-scale weapons at the highest point of the Nile.

When those monsters appear, you don't have to care so much. Just Fuck do it!”

Locke chuckled and said, “Boss, I've never done it with monsters before. I'm really looking forward to it!”

Yu Tian said disdainfully, “Your wish will come true. You can even find a female monster to be your wife. Those monsters have very good figures. Those eight eyes look really Fuck sexy!”

The two laughed and Locke immediately went to arrange the defense.

In the afternoon, Chu Meng held a worldwide press conference at the Sean Defense Management Department's Press Conference Center.

In front of hundreds of reporters, Chu Meng said solemnly, "Yesterday afternoon, we bought the island of Nicaragua through a polite and humane way,

"Now, this island belongs to our Senior President of the Defense Department, Mr. Yu Tian. At the same time, I have a message for the president of the highest management department of Barker,

"Your biochemical factory in Nicaragua must be closed by noon tomorrow. Otherwise, we will treat it as a declaration of war against Mr. Yu Tian. We will use a devastating blow to deal with your shameless provocation!

The news immediately shocked all the senior executives of Barker.

Tilarenk, the highest-ranking president of Barker, had just walked out of the bathroom. He was drying his wet hair while watching the news on TV coldly.

The senior executives of the management department looked at the new young president in silence, hoping that he would make a perfect decision.

Tilarenk casually threw away the towel. His muscular body instantly made the female executives' faces flush.

Then, the servants immediately put on the suit, shirt, and tie carefully for Tilarenk.

At this time, Tilarenk looked in the mirror and said coldly, "Hold the press conference in five minutes!

The President's assistant immediately recorded this order. The vice president of the Senior Management Department looked at the puzzled expressions of the others and asked, "Mr. President, what is your decision?"

Tilarenk raised his chin slightly to make himself look more arrogant and domineering.

This was also his favorite style. Only in this way could he let the weak senior management know that not everyone in Barker was afraid of Sean's armed attack.

Therefore, he said coldly, "If Sean wants to use this method to suppress us, then Yu Tian is wrong. At least here, there is someone who is not afraid of him!

The vice president shook his head helplessly and tried to use a deliberative tone to say, "Mr. President, we, Barker, are not Yu Tian's match at all,

whether it is the economy or the armed forces, even their butts can not be seen. I hope that you can calmly think about the lives of the 170 million people in Barker!

Tilarenk said expressionlessly, "Barker is not a rich country to begin with, and the biochemical factory in Nicaragua has always been supporting 170 million people,

"You bastards, the clothes, food, and supplies are all provided by this biochemical factory. Now, Yu Tian wants us to close the factory, and only for a woman. As the highest CEO of Barker..,

"I definitely won't accept it. Barker needs a war. Only then will everyone know the price of being weak!

Everyone present no longer wanted to express their opposition. Their CEO had used tough methods to get the position of CEO. Their opposition to him was completely useless.

At this moment, Yu Tian personally fed Chu Qing dinner and said with a helpless smile, "Fortunately, it's only ten days and I don't have to wait on her for the month of confinement. Otherwise, I would have gone crazy!

Chu Qing touched her round belly and said with a smile, "Aren't you happy

Yu Tian grinned and said, "Happy my ass. When the child is born, I'll at most give it a name and then be carried away. Only then will the people in the family feel happy!

As she spoke, Beatrice knocked on the door and entered.. She said in a low voice, "You should go and watch TV!

?Chapter 581 – Chapter 581, Exclusive Interview

Thank you readers!

Tilarenk's press conference was being broadcast on the television news. At this time, tilarenk said with a firm expression, "Yu Tian is using the method of capital plunder to brazenly display his shameless strength all over the world,

"Our Barker industry has provided important technical support for the industrial development of the world, but Yu Tian is now trying to force us to close barker industry by means of an armed strike,

this is absolutely unacceptable, if Yu Tian wants an answer, then we barker will never be afraid of him, Yu Tian, we barker people, will use our blood and lives,

to defend the existence of our barker industries, we will bravely say no to Yu Tian, because we barker people, are never afraid of blood and sacrifice, if you want to do it, we are ready,

“We will definitely accompany you to the end!”

When he saw this, Yu Tian blinked his eyes and felt that there was something wrong with this guy's brain.

With Barker's strength, he wouldn't be able to hold on for even a minute.

Where did he get the confidence to show off here?

At this moment, Beatrice leaned close to his ear and whispered, “The reporters from universal media are outside the door. They want to see you!”

Yu Tian thought for a moment. Universal Media was the largest news media in the world. Even the uncle who cleaned the latrine would go to see their news.

They probably saw him because they wanted to know what he thought of Tilarenk.

It was okay to see him, but he could not stay at the back all the time.

Five minutes later, a blonde and sexy female host, with more than a dozen assistants, cameramen, and so on, stood in front of Yu Tian with a smile.

She first introduced herself in a graceful and decent manner. “Hello, Mr. Yu Tian. Pm the hostess of Global Media's international news department. My name is Vivian. It's my honor to meet you!”

Yu Tian's first impression of the beautiful hostess was still very good, so he smiled indifferently and said, “Actually, it's very easy for me to meet you. It's just that no one has ever wanted to meet me!”

Vivian Wan “er smiled, her beautiful eyes shining with a noble light.

She said enthusiastically, “Mr. Yu Tian, there is a big gap between you and the rumors. At least, the version I heard is that you are an ugly, hot-tempered lunatic who likes to eat cheese and garlic,

but after seeing you in person and you have accepted my interview, I think this rumor will make many people blush in embarrassment!

“Cheese and garlic? is my taste that strong?” ?

The people who said this rumor were not afraid of suffocating a few people to death.

Yu Tian laughed and said, “Cheese and garlic? That's just an appetizer. My usual staple food is usually braised torches and stewed ladles!

Vivian laughed hysterically. The assistant behind her looked at the time and then at the expressionless Beatrice, who was as cold as ice. She quickly whispered in Vivian's ear and reminded, “Vivian, can you calm down?

We only have an hour. Let's start the interview quickly. Otherwise, that bastard pierce will go crazy because we can't get the first-hand News!

She nodded slightly and then said to Yu Tian with more enthusiasm, “If Mr. Yu Tian is ready, let's start now!

Yu Tian did not care at all and nodded casually.

All the equipment was ready. With the help of her assistant, Vivian reapplied her makeup. The moment the camera was turned on, Vivian said to the camera, “Everyone, this is the exclusive interview program of Global Media, Vivian.

Previously, there were two very shocking news in the world. That was the conflict between Sean's Chu Yan industry and Barker Industry, and the news about Tilarenk of Barker industry,

“It made the conflict even more likely that a large-scale war could break out at any time. Today, I especially invited an important person, he is the senior president of Sheehan's Defense Department,

“The senior president of Chu Yan industry, Mr. Yu Tian!

The camera and the lights immediately focused on Yu Tian, but Vivian was suddenly stunned. Since when did Yu Tian wear sunglasses?

But the interview was ongoing, and there was no reason to ask Yu Tian not to wear sunglasses for the interview.

Yu Tian did not mind. The main reason for wearing sunglasses was to make himself look more mysterious and more handsome.

Secondly, he did not want the whole world to know what he looked like, so how could he go out to show off in the future?

At this time, Vivian still smiled and said, "Hello, Mr. Yu Tian. So, from the current situation of Sean and Barker, you are the key person,

your decision may lead to an all-out war between the two companies. So, do you want to resolve the conflict between you and Tilarenk through an armed attack?"

Yu Tian smiled gracefully and said slowly, "First of all, this is not a conflict. To be more precise, we want to teach those fools who overestimate themselves a lesson through our way,

So, this is our way of attacking alone, because I really can't guess how a war would happen between two companies with huge differences in strength. This is simply a joke!

Even Vivian felt that Yu Tian's words were really domineering. While she was excited, Vivian also asked, "This means that, in your opinion, Barker Industries can not enter your eyes, right?"

Yu Tian nodded and said disdainfully, "You're right. As far as I know, some of Tilarenk's men are still using machetes and sticks. The only thing they can fly into the sky..

It was a group of aunties in grass skirts who made slingshots and bird-shooting tools. Of course, they also had weapons that could make a sound, but they were all from pirates who were tired of stealing ships,

they only bought some weapons at the lowest price. Our Chu Yan industry is the world's largest and most advanced weapons production, research and manufacturing company,

even the grenades we produce are louder than Barker's grenades. So, do you think they are on the same level as us?"

Vivian seemed to agree with Yu Tian's words and nodded.

When the assistant saw this, she quickly raised the notice board and wrote, "Vivian, don't nod. That's not your opinion!"

Seeing the notice, Vivian also felt that it was a little abrupt. After adjusting her mood, she continued to ask, "So, Mr. Yu Tian, do you have any thoughts on the speech of Tilarenk?" Yu Tian chuckled..

?Chapter 582 – Chapter 582, Compassion

Thank you readers!

Chapter 582:, Compassion

After Yu Tian mocked him, he said disdainfully, "In my opinion, Tilarenk is just a fool who can spill soup in his pants. He is basically nothing except for shouting at the camera."

Because of his stupidity, the 170 million people in Barker were in the shadow of war. If I give the order to attack, these poor people in Barker will become homeless at any time,

"Vivian, you are a rational and sexy woman. Do you think Tilarenk is crazy?"

This question stumped Vivian.

This was a live broadcast of the world. How could the man in front of her ask such a tricky question.

If he answered yes, Tilarenk would be so angry that all the global media reporters in Barker would immediately get out of the country.

If the answer was no and provoked Yu Tian, then global media would probably be wiped out at any moment.

Because the biggest investor behind global media was the Chu family group, and Yu Tian was the president of the Chu family. Could she really afford to provoke him?

After thinking for a moment, Vivian said calmly, "I think that he made this impulsive decision for the sake of Barker industry,

it's just that he did not consider it that comprehensively. So, Mr. Yu Tian, if you must use an armed strike, will you destroy Barker?"

Yu Tian chuckled. This woman was quite smart. She cleverly answered his question and even gave him a backhand.

But with his IQ this question was not difficult for him.

He said without hesitation, "Needless to say, if it's just a small fight, then what's the point? If you want to do it, then do it more interestingly. I don't even want to talk to that idiot, Tilarenk.

"I want to talk to his people. Don't be fooled by that Idiot, Tilarenk. When we fight, he can just hide in a latrine, and no weapons can hit him.

On the other hand, you're just cannon fodder for no reason. Tilarenk is just using you. If you don't want to be used, now use your slingshots and fire extinguishers to attack the top executive CEO,

if you can take that idiot out of the CEO position, I'll give you the best business development opportunity. Look at how well the people of Sheehan are living now,

“Every day, you work for a while, and then you enjoy the good life unscrupulously. You either drink beer or flirt with girls, including pants and forks. Each of you has at least 5,000. But you, not only do you have to live in poverty..,

“You have to live reluctantly, but you have to be used as cannon fodder by a fool. You are people with dignity and temper. You all have the right to pursue a good life. Go and fight with Tilarenk Bravely!

Vivian was completely convinced by Yu Tian. He had used this opportunity to make a hole in the ground for Barker.

It would be best if the people of Barker did not see the news, but the possibility was not very high.

Even if Barker's television could not broadcast, it could not stop the internet.

Thinking of this, Vivian could only pretend to be calm and said, “Then, Mr. Yu Tian, why do you have to close down the Barker factory in Nicaragua?”

This was a good question. Yu Tian felt that Vivian was finally a little serious.

He said indifferently, “The factory has completely destroyed Nicaragua. The pollution they have created has made the bastards in the sea sing and dance, and Nicaragua is now my private property,

i am going to use it to raise pigs. How can I let them continue to pollute my place? Moreover, more than half of the seven million people in Nicaragua had gone crazy due to the radiation pollution,

“I don't know how many people have died from the radiation pollution since the damn factory was built. Do you think I will let it continue to pollute my territory?”

Vivian unconsciously followed Yu Tian's words and nodded from time to time. The assistant, who was holding the reminder board, turned around and whispered to the cameraman, “If she is nodding, put the camera on Yu Tian's face!

When Vivian was about to ask more questions, Beatrice looked at the time and whispered to Yu Tian, “Yu, it's time for the interview!

Yu Tian smiled and said, “Then, I have one last thing to say to the Barker people. If you don't want to be cannon fodder, then go and F * Ck that Tilarenk, or leave that place!”

Tilarenk had gone crazy. It would be best to call the mental hospital and ask him to go back and take his medicine!

The cameraman immediately turned off the equipment.

Vivian was finally relieved. She smiled and said, "Thank you, Mr. Yu Tian, for accepting my interview. If possible, can I do an exclusive interview with You Again?"

Yu Tian got up and said indifferently, "You have to make an appointment with my assistant, right?"

With that, Yu Tian went straight back to the study.

Vivian wanted to say a few more words, but she did not have the chance. She could only smile at Beatrice and said, "Hello. In that case, Will Mr. Yu Tian have time for an interview with me in the future?"

Beatrice said expressionlessly, "There won't be time until Halloween next year. It's better to find someone else for your exclusive interview. Now, please leave immediately and don't disturb Mr. Yu Tian's Rest!"

Was there a need to ask? If Yu Tian wanted to accept it, he wouldn't have asked her to tell them.

Vivian could only spread her hands helplessly and left the villa with her people.

At this moment, the angriest person was none other than Tilarenk.

After watching the entire interview, he was so angry that his cheeks hurt.

Yu Tian was simply too arrogant. Did he really think that he was amazing?

He even fooled those Barker people along the way.

At this moment, the vice president hurriedly walked into the office and said nervously, "Yu Tian's words caused many barker people to gather in front of the management department. They opposed the conflict between the Barker

Company and Chu Yan industry, the situation could go out of control at any time!

Tilarenk came to the window and looked at it coldly. Then, he said disdainfully,

Send out the defenders. Whoever dares to shout here will be killed immediately!

The vice president was shocked and hurriedly stopped him, "Mr. President, have you really thought it through? I think you are about to lose your mind. Those are the Barker people. How can you treat them like that?"

Tilarenk said coldly, "When they stood at the door, they already didn't think of themselves as the Barker people.. Then, what kind of pity do I have for them?"

Chapter 583 – Chapter 583, He Was A Fake

Thank you readers!

Chapter 583:, he was a fake

Seeing that the vice president still dared to give him orders, Tilarenk hesitated. Then he snorted coldly and said, "What? You Don't want to be the vice president, and there are many people who are willing to do it?"

"If you don't listen to my orders, get out of the management team now and never let me see you again!"

The vice president's face was red. Tilarenk had completely gone mad. He was following such a person, and he was simply helping the Devil.

Thinking of this, the vice president immediately tore off the Barker mark on his collar and slammed it heavily in front of Tilarenk. He said angrily, "Then you can ask someone else to do it. I Won't serve you anymore!"

After saying that, the vice president turned around and left the office under Tilarenk's cold gaze.

However, Tilarenk immediately sneered. He picked up the phone and called Elaj from the Defense Department. He ordered coldly, "There are rioters who want to demonstrate in front of the management department to protest, as long as they dare, I will suppress them without any bottom line!"

Arajek was silent for a few seconds. Although he did not want to do so, this was the order of the supreme president. His position as the president of the Defense Department was promoted by him. He definitely could not disobey his orders.

Thus, he solemnly said, "Yes, Mr. President. I will listen to your orders!"

In the blink of an eye, it was evening. Yu Tian, who was standing in front of the villa's window, looked at the beautiful scenery around him vigilantly.

Those monsters that were neither human nor fish seemed to be a little too quiet. Did they not want to attack anymore?

The weapons had been set up and they were just waiting for them to come. If they did not come, it would be meaningless.

At this moment, Yu Tian's phone suddenly rang. It was Tiffany.

Yu Tian really wanted to receive a call from Tiffany. Even in his dreams, he wanted to have an expert to train with.

After the video call was connected, Yu Tian saw that Tiffany's surroundings were filled with panicking and angry people.

In the distance, there was still smoke. There were even some people with their faces covered. They were using Molotov cocktails and throwing rocks like defenders on the side.

At this moment, Tiffany walked into a park that was relatively quiet. Then, she slowly said, "Guess where I am?"

Yu Tian didn't even think about it and casually said, "Barker!"

Tiffany said helplessly, "Can you have a sense of humor? I'm in a place full of conflicts. I'm sending you a video. Can't You Care About My Safety?"

This woman was really full of nonsense. Yu Tian said helplessly, "Well, I care about you, okay? Can you tell me something useful?"

Seeing that Yu Tian didn't seem to be in the mood to joke with him, Tiffany also glared at him angrily and said, "Do you know that the President of the Barker Management Department, Tilarenk, is not him at all?"

Half a year ago, Tilarenk was just a weak member of Parliament. Once, he went out to sea to visit his home and encountered a storm. The ship sank. After he was fished out, he was unconscious for half a month,

after he woke up, his entire person had changed. Not only was he domineering, but his methods were also particularly vicious. After he woke up, he announced to the public that he was going to run for the position of managing director,

at that time, there were more than 50 people fighting for the position. However, the few who were most likely to become senior executives had died inexplicably,

after that, Tilarenk naturally took the position of senior CEO. After that, he launched a series of domineering actions. However, it seemed that these actions were not managing Barker, but destroying him,

"Later, I'll send you a video file. You'll know why I said that!"

After hanging up, Yu Tian quickly received the file. It was Tilarenk's fitness information.

This guy could lift a thousand pounds at a time. When he was fighting with others, he could kick his opponent out of the ring with one kick.

When he saw this, Yu Tian could basically confirm that Tilarenk must have encountered something when he was out at sea.

Moreover, he was definitely an expert that he wanted.

At this moment, the defense system outside suddenly let out an ear-piercing cry.

Yu Tian turned his head and looked at the sea in the distance. There were at least tens of thousands of monsters crawling on the surface of the sea.

Rock's voice came from the radio on the table.

“Boss, it seems that they have started. It's just that there are too many of them. I feel that they are everywhere. If you don't have any objections, we will start fighting!”

Yu Tian snorted coldly and said disdainfully, “Then what are you waiting for? If you continue to dawdle for a while longer, these monsters will be able to pull your pants and forks. Fuck them!”

After the order was given, all the defense points opened fire at the same time. The evening sky was completely covered by the light of the bullets. The sound was as if they were firing during the new year.

On the side of the artillery base, they did not care about anything else. They aimed at the surface of the sea and said after firing for a while.

In the airport, 50 C-130s took off one after another. All kinds of missiles, bombs, cluster bombs, flashlights, and fire extinguishers were thrown at the monsters.

In the face of the powerful firepower, the monsters died heavily. Before they reached the beach, one-third of them died.

The monsters behind seemed to be on steroids. They shouted and rushed forward without hesitation.

At this time, Yu Tian leisurely came to the defensive line and complained to Locke, “The firepower is not strong enough. Throw those people out!”

Locke said with a frown, “Boss, that might cause damage to the island. Do you really want to do that?”

He sounded as if he had gone crazy.

He snorted and said disdainfully, "What nonsense are you talking about? I can create an island that is more pretentious than this at any time. Just do it!

Since that was the case, there was no need to talk nonsense. Locke directly ordered the mercenaries behind him, "Immediately carry out the laser to determine the coordinates and prepare to launch the sky fire missile!

Yu Tian picked up the binoculars and carefully looked at the monsters. They were swimming extremely fast in the water.

And just like before, they were swimming while communicating with each other. They even formed a stupid formation to avoid the defensive attacks. No matter what, monsters were monsters. How Smart could they be?

The Skyfire missile was launched immediately.

After a world-shaking explosion, half of the monsters were killed, and the second round of attacks fell.

Yu Tian was bored to find that there were not many monsters left.

The Skyfire missile was developed by Chu Yan industry. Currently, it was the most powerful attack weapon in the world. It was known as a small nuclear weapon.

Every time the missile exploded, Yu Tian would feel like taking a dump. Some buildings were even cracked.

The sea water around the entire area of the Nile turned black.

The last few hundred monsters were also dealt with by the CY5 bombers. The battle became quiet.

While Locke and the others were shouting excitedly, Yu Tian suddenly frowned..

?Chapter 584 – Chapter 584, Development Company

Thank you readers!

Although all the monsters had been killed, the sea area around the nemesis was covered by the black liquid.

The black liquid was highly toxic. If a human body was touched by it, they would become like those monsters.

It was very likely that the person behind the attack was not attacking the nemesis. The real target was to pollute the sea area.

Yu Tian deliberately took a helicopter to the sea to take a closer look.

What surprised him even more was that the liquid was more than ten centimeters thick. It had polluted the originally clear sea water.

Moreover, the area of the pollution continued to grow.

As a result, the fishermen on the side of the NIAMELA, the port, and so on could no longer be used.

This was because the liquid had a certain degree of corrosiveness. Even metal could be corroded easily.

After returning to the villa, Yu Tian called Chu Xuan and Chu Min to the study room and said seriously, "The seawater outside has been polluted. Now is the time we need you,

"Now I need a good solution. Can you do it?"

The two sisters looked at each other awkwardly. Chu Xuan said, "Yu Tian, if we can do it, we will definitely spare no effort to do it"

"But up until now, I haven't been able to find a good solution to this kind of monster's venom. Moreover, this has already exceeded my professional scope!

Chu Min shook her head and said, "I'm about the same as Chu Xuan. Although I'm a researcher of biology, the only thing I can grasp about this venom is its structure"

"But I can't find a way to restrain them!

Yu Tian knew that he was making things difficult for them, so he smiled calmly and said, "Don't be so nervous. I know that you guys are already trying your best to break the poison"

"And this thing that doesn't match the specialty is really F * cking helpless. Among the 108 sisters, if there are any experts who understand this aspect, you guys can introduce them!

The 108 sisters had only met a few of them. With such a large group of women, were there no sisters who knew about this?

However, Chu Xuan still shook her head and said sadly, "As far as I know, there aren't any. Why don't you shout a few times in the group and see if there are any?"

Yu Tian could only do so.

However, the sister group became lively, but none of the sisters knew about this.

At this moment, a sister named Chu Jia sent a private message to Yu Tian, saying, "Yu Tian, none of the 108 sisters know about this, but I can introduce you to an expert in this field!"

Seeing this, Yu Tian asked, "Who is Chu Jia?"

When Chu Xuan heard this name, a hint of anger instantly appeared on her face. Even Chu Min, who was beside her, tugged at her sleeve to remind her not to get angry.

However, Yu Tian chuckled and asked in puzzlement, "What's the matter? Have the two of you fought or kissed?"

Seeing that Chu Xuan did not want to speak, Chu Min could only speak for herself.

She slowly said, "Chu Jia is the commander of the strategic development of the South Africa region. As you know, the entire South Africa region is the largest, poorest, and most backward region in the world."

Their per capita income is less than 200 international dollars a year. The countries of the South Africa region almost occupy the last place in the world's poverty rankings,

"Five years ago, the family founded the investment strategic development company in South Africa. At first, it was to provide medical treatment and other assistance to the entire backward region of South Africa,

"At that time, Chu Xuan also joined the company and became the president under the orders of the family. But after that, it can only be said by Chu Xuan! Yu Tian looked at Chu Xuan and smiled. "Why don't you say a few words?"

Chu Xuan gritted his teeth and said hatefully, "At the beginning, the company developed very well. Although it didn't make any money, it also helped a lot of poor people,

"However, after that, the family gave me a secret order to carry out a few drug trials in the entire Lire region. At first, I thought that it was just an ordinary drug trial,

later, I discovered that these drugs were all biological drugs, and they were extremely harmful to the human body. Therefore, I finally understood why the family set up this company in Lire,

that was because this place was poor. People could sell anything for a little money, including their own lives. They were the cheapest lab rats in the world,

“I absolutely can not tolerate this, so I protested to the family. However, the family sent Chu Jia to take over my position. Chu Jia was the president of the Chu family's trading company in the middle-east region,

Her methods were extremely tough and extremely vicious. Half a year after she took over the hot company, those few medicines were all listed on the world market. You can imagine how many people's lives were laid out behind this!

Yu Tian finally understood. This wasn't a personal grudge between Chu Xuan and Chu Jia. In the end, it was still the family's interests.

But this couldn't be blamed on anyone. Even Yu Tian himself would do the same.

Thinking of this, Yu Tian nodded and said, “I see, I understand. Now, you guys go and get busy. Chu Qing is going to give birth in a few days. You guys will definitely be very busy in these few days,

“Don't worry about the venom. I'll handle it!

Chu Xuan knew that Yu Tian would definitely cooperate with Chu Jia. There was nothing she could do to stop him. It was better to just do her job well.

Half an hour later, Yu Tian stood in a hot park in the largest city in the South Africa region.

Yu Tian adjusted the time again. It was now three o'clock in the afternoon in the hot region.

It was hot and stuffy here. When he walked out of the park, Yu Tian felt hot sweat all over his forehead.

Looking left and right, he saw mango trees everywhere. There were also enthusiastic samba dances at the entrance of some bars.

Yu Tian found it very interesting. Even though they were poor, the people here were still very enthusiastic and lived happily.

Soon, Yu Tian arrived at the front gate of Chu Jia Investment Strategy Development Company.

The scale of this company was really F * cking huge.

The entire company's area was at least 100 hectares, not much smaller than Chu Yan industry.

There were even dozens of security guards at the entrance. Each of them was fully armed, just like a superpower's special attack team.

Yu Tian didn't want to waste time with these security guards, so he immediately sent a message to Chu Jia.

Five minutes later, Yu Tian saw Chu Jia personally come to the entrance with hundreds of company executives to welcome him.

Previously, it might have been because he heard from Chu Xuan that Chu Jia was a very unruly woman.

But now that he saw her in person, Yu Tian realized that Chu Jia was definitely a beauty that could sink fish and drop geese. She had a temperament that was both beautiful and intelligent, and she was moderately sexy.

Thinking about how he had such a beautiful wife in this distant country, he was really quite happy.

Chu Jia looked at Yu Tian with a smile. There was appreciation, admiration, and a hint of reproach on her face.

Yu Tian looked around and said with a frown, "It's too F * cking hot.. Can we find a cool place?"

?Chapter 585 – Chapter 585, Deal With Me

Thank you readers!

Under Chu Jia's lead, Yu Tian walked into the luxurious office building. It had to be said that Chu Jia had made the company's corporate culture especially good.

As long as it was a passing employee, they would stop and bow to greet him.

However, these people were also curious about Yu Tian. What kind of identity did he have? To be able to make their CEO treat him so politely.

Usually, it was not easy for the employees of the company, including some of the higher-ups, to meet the CEO. Even the people from the high-level management department in Lige had to make an appointment several days in advance to meet the CEO.

And it was not certain whether they could meet him or not. However, this oriental man's status was clearly higher than the CEO's.

From the president's respectful expression, it could be seen that this man was definitely not simple.

Arriving at Chu Jia's office, the sexy secretary immediately placed the best hot coffee in front of Yu Tian politely.

When she turned around, her warm gaze made Yu Tian feel an itch in his heart.

It had to be said that these beautiful women under the influence of the samba culture were indeed interesting.

Chu Jia immediately sat down next to him. Her slender legs were elegantly stacked together, and the beautiful foot in the sexy high heels seemed to be deliberately extended in front of Yu Tian.

She seemed to be using this action to remind Yu Tian not to look at those useless women. Even if he did, it would be useless. He should be looking at himself now.

Yu Tian still placed his gaze on her face and said indifferently, "Where is the person you want to introduce me to? We'd better hurry up and get things done properly."

"Right now, the pollution in the sea area of the Nemesis is especially serious. Even the bastards in the sea can practice taekwondo. If this pollution continues, I reckon that the entire nemesis sea area...",

"In the future, I won't even be able to see a normal marine fish!"

Chu Jia was amused by Yu Tian and laughed out loud. Her pair of small canine teeth appeared especially sexy.

After she laughed, she said gently, "Can you not be so humorous? I Can't stand you like this. Moreover, you just came to ligei, so you might not know much about the traditions here."

The people here are very lazy. After 3 pm, they basically do nothing but drink in the bar and go home to stay with their families,

you want them to work at this time, unless you give them a high salary, but this is not feasible in my company, so I ask them to go to work at 5 am every day, they get off work at 2 O'clock in the afternoon. During this time, only some of the higher-ups, as well as my secretary, are still at work. You Can't see the others even if you want to,

anyway, you're here now, so there's no need to rush at this time. Pll take you to tour the city later. You'll definitely like it here!

Yu Tian shook his head and said disdainfully, "I think it's okay to tour the city. I'm not in the mood now. The most important thing is that I really want to know,

"What kind of business does this company have right now? Or what kind of projects are you guys working on? Especially those shady ones. I really want to know about them!

Chu Jia was not surprised at all. Instead, she smiled confidently and said slowly, "Chu Xuan must have told you something, right?

"Undeniably, what she said is right. The family is indeed conducting some secret experiments here, and these experiments are indeed harmful to some people,

however, we had already obtained the consent of those people, and we wouldn't force them. Of course, they would receive a large sum of money after conducting the experiments with us,

and the project that we were conducting, was a drug developed by the family's pharmaceutical department, that could treat human brain diseases,

we've recruited a total of 1,000 volunteers, to work with us on this project, but right now, the results of the drug trials, are not very good, and more than a third of the people have had very serious reactions,

even so, they will be paid enough for the rest of their lives, which is why countless people want to come to work in my development company every day,

other than that, there was nothing that could not be made public to you. I also knew very well that you would not object to us doing this. If you were to manage this company, you might do..., more cruel than us,

I am very concerned about what you have done in those countries. Moreover, I really, really admire your methods. So this time, I took the initiative to help you. I also want you to help me!

She even made a deal with him. This woman was indeed not simple.

Yu Tian blinked his eyes and said indifferently, "What do you want me to help you with? It's still okay to have a child!

Chu Jia was amused and laughed again. She complained, "Why do you always want to have a child? Don't you have other goals? It's not impossible to have a child"

After all, that was the fate of the 108 sisters. No one could defy it. But now is not the time to have children. I want you to help me get the highest management rights in the South Africa Region!

Yu Tian's IQ was now like a computer. He could calculate hundreds of millions of times every second.

Chu Jia made her request, and Yu Tian's mind was immediately filled with a series of thoughts.

He then asked doubtfully, "There's no problem in helping you, but there's one thing I want to know. Can You Give Me a reason? With your current ability and strength, if you want to get the highest management rights, it should be very simple,

why do you have to go through me? No matter how I think about this, I might not be able to figure it out!

As he spoke, Yu Tian leisurely took a sip of coffee.

Chu Jia shook her head helplessly and said in a somewhat dejected tone, "You know, the 108 sisters will never have their own fate,

when you didn't appear, we had to listen to our family. After you appeared, we had to listen to you. If we were to go against you, Chu Hong would be our role model,

right now, Chu Hong was living like a walking corpse in the tribe of lost souls. Other than her, all the other sisters didn't want this kind of life, but we didn't have a choice,

for example, I managed such a large company here. It seemed like I had a lot of power, but every decision I made was to convey the meaning of the family's higher-ups. I didn't have the right to make my own decisions,

i also had my own dreams and pursuits. I yearned for beautiful freedom and passionate love. This is what I want, so I want you to help me get all of this..

Now do you understand my reason?"

?Chapter 586 – Chapter 586, Her Plan

Thank you readers!

Chu Jia's yearning and desire to obtain it seemed a little contradictory. Since she liked freedom so much, then she should stop doing anything and go play wildly.

However, she still wanted to have the final say. That was not true freedom, she wanted to rule.

However, Yu Tian did not care about these things at all. If she wanted it, he would give it to her. They were both daughters-in-law. If he was not satisfied with this request, would he still call himself a man?

He then chuckled and said indifferently, "Sure. If the family doesn't support you, I'll support you. If you want to get the position of senior CEO of Lige, you have to get rid of the current CEO First!"

Chu Jia's eyes were filled with excitement and confidence. It was as if Yu Tian's approval was the opportunity to open the door to power.

She gently held Yu Tian's hand and said gently, "As long as you agree, I've already prepared everything else. I've already bribed more than half of the current senior executives of Lige,

however, the senior CEO of Lige, Cicero, doesn't seem to be that easy to deal with. Because he controls the Defense Department and the attack department, those people are very loyal to Cicero,

"I've tried to bribe them many times, but it's very difficult, so I came up with an idea!"

At this point, Chu Jia stood up and locked the door. Yu Tian narrowed his eyes and chuckled. "Why would you lock the door? If we really want to do something, it doesn't matter whether the door is locked or not!"

Chu Jia pursed his lips into a smile and said, "You wish. I just want to tell you my plan!"

After sitting down again, Chu Jia said seriously, "My plan is to provide some of the private armed forces here with some weapons in my personal name, and then let them expand as much as possible,

"It's best to make Cicero suspect them, so that he can suppress them and force them to resist!"

Yu Tian knew what was going to happen when he said this.

He smiled and said indifferently, "Then, you'll support Cicero with all your strength and make him feel that you're trustworthy. Then, you'll be able to enter the senior management!"

"Then, you'll continue to take care of both internal and external matters. Soon, Cicero will be hollowed out. Then, you'll get what you want!"

Chu Jia nodded her head vigorously and smiled. "I finally understand why you became the guardian of the family. You are really too smart!"

However, Yu Tian immediately said coldly, "It is precisely because I am smart that I have to remind you. There are some details of the plan that you are not fully prepared for,

for example, the information that Cicero obtained. If he were to know that you are behind these armed organizations, he would probably be so angry that he would stand on his desk and Pee,

So, I have to help you with this plan. You can use my arrangements to get the position of President!

This was exactly what Chu Jia wanted. With Yu Tian's help, he could easily get everything.

Yu Tian drank a mouthful of coffee. The taste was really good. When he returned to the United States, he had to bring some back for Chu Xuan and the others to taste.

He then said slowly, "Then, do you have any information on those private armed forces? As far as I know, there are more private armed forces here than ants,

"But there are only a few capable ones. Introduce them to me. I'll see who can get our support!

Chu Jia had long prepared this information. You've prepared for this plan for a long time.

Now that the opportunity was right in front of her, it was time to take out all the things that she had prepared.

Chu Jia turned on the computer. Soon, a man with a full beard appeared on the computer screen.

She introduced, "This man is called Rodriguez. He is the most powerful private armed organization in the RIGE area. However, their current level is just an ordinary gang,

they occupy the largest market in the commoner district and run some low-cost entertainment businesses as well as some medicines. Rodriguez has about 1,000 subordinates,

these people are everywhere in the slums. Rodriguez often takes them to annex the territories of other gangs. However, they are often attacked by the Defense Department,

so no one hated the high-level management department of Cicero more than Rodriguez. These two forces will never compromise, and we can use them!

Yu Tian nodded slightly and asked, "So now you have come into contact with this Rodriguez?"

"These gangs are not easy to get close to!" Chu Jia said helplessly, "I once asked a few people to get close to Rodriguez, but these people were not able to successfully get close to Rodriguez,

after all, Rodriguez was in LIGEI, and he was always attacked by the Defense Department. It was not easy to see him!

Yu Tian smiled disdainfully and said indifferently, "Leave this person to me. I will get close to him. You immediately get those government affairs experts ready. I want to see them tomorrow morning.

"Now I want to go out for a walk. Do what you need to do!

Chu Jia nodded with a smile. Yu Tian definitely had the ability to get close to Rodriguez. She just needed to wait for his good news.

At this moment, it was already late afternoon.

The rich district was brightly lit, and the commoner district was also brightly lit. Looking at the city from this point of view, it seemed to be the same. However, in reality, the difference between the rich district and the commoner district was like the difference between heaven and earth.

Yu Tian saw many people in the rich district. They were all eating in luxurious hotels. Everyone was in suits and ties, looking like the elites of society.

When he came to the commoner district, he saw a different scene. There were only dirty restaurants, chaotic bars, and gang members everywhere.

Other than that, there were the street girls who were waiting for business.

When a man passed by them, they would take the initiative to greet them, hoping to find the opportunity to eat among the strangers passing by.

When Yu Tian passed by the door of a restaurant, a girl standing at the door warmly greeted Yu Tian, "Sir, can you treat me to dinner?"

Yu Tian glanced at her from the corner of his eye. This young lady was only in her twenties and had a very good figure. However, the expression on her face was no longer what she had at her age.

She gave off a feeling of extreme fatigue, but he had no choice but to force a smile.

At the same time, Yu Tian saw a few gangster men looking over not far away.

Just thinking about it, he knew that this girl must be making money for those gangster men.

Yu Tian thought about it again. He was looking for Rodriguez's gang, or this girl in front of him could help him..

?Chapter 587 – : Chapter 587: Wanting To Beat Someone Up

Thank you readers!

Thinking of this, Yu Tian nodded with a smile and said, a€?It's just treating you to dinner. There's no meaning to it. Do We have anything more exciting?a€?

The lady thought that Yu Tian wanted to do something else? Wasn't this the scope of her services?

Thus, she put on a charming expression and said, a€?Of course it's very exciting, but we should have dinner first. After eating our fill, we'll have the strength to play with other things, right?a€?

As they spoke, the two of them walked into the restaurant.

The sanitary conditions of the restaurant made Yu Tian feel a little disgusted. Not to mention the buzzing of the flies, even the air was filled with a foul smell.

This was a slum area. How could the sanitary conditions be required here, just like those high-end restaurants in the rich district?

After reluctantly finding a clean table, how many dinners did Yu Tian order?

The lady did not even need a knife or fork to stuff the food into her mouth. Looking at her wolfing down the food, it seemed like she had been hungry for a long time.

Yu Tian had no choice but to remind her, a€?Can we slow down a little? It's fine even if you eat all the food in this restaurant, but we can't choke. The speed at which you eat is even faster than the speed at which an old man pees!

a€?Also, you haven't told me your name. I Can't Keep Calling You a sissy. That would be rude. We are all civilized people. Civilized people should have their own names!

a€?My name is Catherine. Thank you for your dinner. You are the best customer I have ever seen. I will also provide you with the warmest service! a€?Catherine said as she wolfed down the food.

Yu Tian looked at the few men outside. They seemed to be in a hurry and had been discussing something in a low voice.

It was obvious that they wanted to complete this transaction more than Catherine. Then, they could get the money earned by women and do what they wanted.

This was the characteristic of this country. Women did not have much status here.

Seeing this, Yu Tian casually took out a stack of international currency from his backpack.

This money was quite eye-catching in the slums.

Not only the few men, even the people eating in the restaurant looked over greedily.

The owner of the restaurant shook his head helplessly. It seemed that this Easterner really did not know how chaotic this place was?

He actually dared to take out so much money to show off. At any moment, he would be robbed of all his money by those guys outside.

Catherine hurriedly reminded Yu Tian, "My God, what are you doing? Quickly put away this money. This will make you lose your life!"

However, Yu Tian shook his head disdainfully and said indifferently, "I don't think so. Moreover, this money is for you. If you accompany me for a meal, why should I give you some reward?"

"Take it and spend it. If you let me have fun, I will give you more. There's nothing else but money. Every minute, you will have billions of dollars in income!"

Catherine was already showing off for Yu Tian. Every minute, there would be billions. How could a normal human be able to earn so much money so quickly.

How could she know? Yu Tian's words were rather conservative. It was possible for him to earn tens of billions every minute.

However, Catherine still stuffed the wad of money directly into her mouth. Her gaze was still very vigilant as she looked at the restless gang men outside.

At this moment, those men really didn't want to wait any longer. Moreover, Catherine had already received the money, so they should immediately take the money away.

Thus, the few of them still walked into the restaurant arrogantly and came in front of Catherine. One of them wore a purple shirt and revealed his heart-protecting hair. He

didn't even look at Yu Tian and directly gave her a vicious gaze, it pierced Catherine's face.

“Give me that money!

Although Catherine was very unwilling, she still took out the money and begged, “Kaka, can you leave some for me? My sister and my mother are still waiting to eat!

This guy called Kaka didn't say anything and raised his hand to slap her.

Catherine's small body couldn't stand this and fell to the ground.

Yu Tian frowned. Hitting a woman in front of him, these guys really wanted to die.

Kaka pulled Catherine's hair again and said impatiently, “If you don't have our consent, you can't pick up the business here. The money you earn should be given to us!”

“If you don't want to do it, then you should never appear here. Otherwise, we will definitely kill you. Tonight, you are the guest. You must serve him well, otherwise, I will kill you, you trashy woman!

Kaka was like holding a chicken. He pressed Catherine, whose face was full of tears, onto the chair. At this time, this stupid guy looked at Yu Tian and said coldly, “Hey, you rich guy!”

“This woman belongs to you tonight. You can play with her to your heart's content. Everything around here belongs to us. If you are bullied here, you can look for us at any time!”

“As long as there is enough compensation, we can kill people for you!

Yu Tian didn't say anything, but took out a few stacks of money and slowly put them on the table.

The greed in Kaka's eyes surfaced once again. Without caring about the consequences, he stretched out his hand to take the money.

Before his hand could touch the money, his arm was directly broken by Yu Tian.

This fellow screamed like a pig being slaughtered. A few of his subordinates behind him also raised their fists and attacked him.

Yu Tian looked at them and felt that they were laughable. All of them bared their teeth as if they couldn't afford to live anymore.

In the blink of an eye, the few of them were beaten to the ground by Yu Tian with just a few punches and kicks.

Under everyone's shocked gazes, Yu Tian pointed to the stool beside him and said to Ka ka, "Come and sit with me for a while. I have something to ask you!"

Ka Ka was completely frightened by Yu Tian's beating. He covered his arms and carefully sat on the chair. Beads of sweat the size of beans appeared on his face, wetting his protective hair.

Yu Tian pushed the money on the table in front of him and laughed, "Isn't it easy to make money? I have a problem. I like to beat people up. If you let me beat you up, I will give you a reward."

If you let me beat you to death, the reward will be more. Do you want to die or live?"

Kaka understood Yu Tian's meaning. He gritted his teeth and said, "I'm sorry. I shouldn't have been so arrogant before. I'll do whatever you want me to do!"

This guy was quite smart.. Yu Tian laughed and said, "Which gang are you from? Are you one of Rodriguez's Men?"

Chapter 588 – Chapter 588, We Have The Final Say

Thank you readers!

Ka Ka was stunned at first, then shook his head and said, "No, we are not people of Rodriguez. We are making a living under Rodriguez. Rodriguez is a relative of Rodriguez,

their entire family is a gang member, and they are also the two most powerful gangs in the lire slums!"

Yu Tian did not want to waste time with him, so he directly requested, "Take me to see Roderick, I have brought you a lot of benefits!"

Ka Ka's eyes were filled with doubt, but now it was obvious that he had no choice, so he nodded and said, "Okay, I will take you to see my boss now!"

Yu Tian did not want to waste any more time, so he casually threw all the money on the table to Catherine, stood up and said, "Don't do this again in the future. First, you have to know that you are a woman!"

Looking at the backs of Yu Tian and the others leaving, Catherine had already burst into tears.

Yu Tian followed Kaka and the others to the entrance of a nightclub.

He raised his head and looked at the entrance of the nightclub. It was not a high-class place, but there were quite a lot of customers.

The inside of the bar was filled with a foul atmosphere. Even the men and women could not be distinguished. Yu Tian felt like choking.

They walked around in circles, and under Kaka's lead, they entered a room.

The room was quite lively. A dozen thugs with weapons were standing on one side of the room. A middle-aged man was sitting on the sofa in the middle, with a long cigar in his mouth.

This man should be Roderick, and there was a small stage in the middle of the room. There were a few women dancing on the stage.

All kinds of people had their own kind of enjoyment.

At this time, Kaka had already told Roderick about Yu Tian beating them up in the restaurant.

Roderick looked at Yu Tian gloomily and said in a deep voice, "What did my people do to provoke you? Now that you've broken his arm, what do you think we should do about this?"

Yu Tian sat down without inviting him and said with disdain, "First of all, don't talk nonsense with me. Second, tell me, Are You Roderick?"

Roderick frowned slightly. This easterner came here himself, but he was still so indifferent to so many thugs around him. He really had some guts.

He immediately waved his hand, and the thugs around him immediately pointed their weapons at Yu Tian.

However, Yu Tian did not even blink. He had seen this kind of scene many times. Not to mention these dozen thugs, even if hundreds more came, they would still be trash in front of him.

Not only was he not afraid, he even chuckled and said coldly, "I'll give you one last chance. Now, I want you to tell me, Are You Roderick? You Can't even answer such a simple question?"

Are you stupid or stupid?"

Roderick clenched his fists tightly. No one had ever dared to speak to him like that. He snorted and said, "Are you really not afraid of death, or do you not know what death is?"

Now, as long as I give the order, you won't be able to get out of here alive. You really treat us, the popular gangs, as a game, right? Then I'll let you know why we have the final say here!

As soon as he finished speaking, one of the thugs behind him was about to open fire.

However, at this moment, Yu Tian slightly narrowed his eyes, and a burst of power erupted.

Not only the thugs, but even the dancers on the stage were sent flying and crashed into the wall.

Especially that Kaka. He had already lost an arm, but this time, he had lost another leg.

Roderick, who was sitting on the sofa, was completely dumbfounded.

It was normal for a person to be able to fight, punch, or even use weapons. However, the Easterner in front of him narrowed his eyes and the people around him were all sent flying.

Was that a person or a ghost? Could it be that he knew magic?

As for Yu Tian, he casually picked up a bottle of wine on the table, placed it in front of his nose, and sniffed it. Then, he frowned and said, "What is this thing? It looks like horse piss when tattooed!"

He still had the nerve to say that he was the boss. The cheap wine that you drank doesn't look like a boss at all. Now, immediately ask the waiter to bring me the best wine in this bar. I'll Rinse My Mouth First!

Roderick gritted his teeth and immediately got the lackey who could still walk beside him to bring the wine. Then, he said in a very deep voice, "I think there's some misunderstanding between us. What exactly do you want from me?"

Yu Tian shook his head impatiently and said, "What I want to know is, although you and Roderick are relatives, is there any conflict between the two of you?"

This question completely confused Rodriguez. Rodriguez was his cousin, what conflict could there be between them?

He asked tentatively, "We can have conflict with anyone, but there will never be conflict between Rodriguez and me. We divide everything very well, and we will not attack each other's territory,

"But I really want to know why you ask this? "Who are you?"

"It doesn't matter who I am. What's important is who do you think you are? Do you want Rodriguez to be on top of You Forever?"

Yu Tian said proudly, "Before coming here, you have already told me very clearly about the price. Although you and Rodriguez are relatives, there are also many conflicts between the two of you.

Rodriguez doesn't put you in his eyes at all. And in your territory, he can come and do whatever he wants. He even made you embarrassed in front of everyone,

"Either your subordinate is talking nonsense, or you are talking nonsense. But I believe your subordinate's words more. The reason is very simple, because his arm is broken. He can't lie to me anymore!

As he spoke, Yu Tian looked at Kaka, who was in pain, and said mockingly, "Of course, his leg is broken now. Do you think he will lie?"

Roderick looked at Kaka angrily. The conflict and conflict between him and Rodriguez. This guy could casually tell an outsider that he deserved to have his leg broken.

Yu Tian didn't want to waste time here and give him so many opportunities to show his feelings. He said, "I also know why you were bullied by Rodriguez to this extent,

"Actually, it's not because you're weak, and it's not because you don't have as many people under you as he does. It's because Rodriguez controls the entire weapons trade in the slums. You Can't get good weapons at all,

So every time you have a conflict, Rodriguez will use this thing to suppress you, making you angry and unable to speak. You want to fight but can't win. Am I right?"

At this moment, the waiter brought in the most expensive red wine in the bar, giving Rodriguez time to ease his mood.

Yu Tian looked at the red wine and snorted coldly, "What the Hell Is This? Pd rather drink coffee!

?Chapter 589 – Chapter 589, Kneel At Your Feet

Thank you readers!

Yu Tian realized that it was impossible to drink a good red wine here. This was not only because the economy was backward, but also because the people here were especially backward.

It was like this Roderick in front of him. His mind was limited to his own territory, and he seemed to be very satisfied now.

Even if he was being taken advantage of by others, he still felt good.

If he didn't have to make use of him, he wouldn't even bother talking to him.

Roderick also thought about it. Although he had never thought about such a problem, this young man's words really reminded him.

In the entire lire commoner district, Roderick's strength was expanding bit by bit. However, if he did that, the senior management department would definitely not agree.

They often suppressed him, but every time they suppressed him, the people who died were not Rodriguez's people, but people from other gangs.

Rodriguez only cared about his own interests. He never cared about the lives of others.

If this is really an opportunity for me, then I definitely should seize it.

Thinking of this, Rodriguez said to his men behind him, "Go and bring me the bottle of good wine that I treasure. I want to have a good drink with this gentleman!

Everyone left the box and quickly brought a bottle of good wine over.

Yu Tian looked at the bottle of wine again. Although there was only half a bottle left, it felt better than what he had brought before.

Roderick personally poured a glass of wine for Yu Tian, and then slowly asked, "This gentleman, I still don't know your name. If it's possible, can you tell me?"

Yu Tian shook his head impatiently and said coldly, "I've already told you, my name is not important. What's important is whether you want to do as I say or not."

Now was not the time to say his name. Otherwise, this plan would be difficult to implement.

As for Roderick, he did not have any further requests and did not have the courage to continue questioning?

He took a sip of wine and asked, "Then, sir, what kind of Deal do you plan to make with me?"

It was a deal, not to help him. That was because Roderick had thought clearly that there was no free lunch in the sky, and this person wouldn't help him for free.

He would definitely want to take some things from here, but what these things were wasn't important. What was important was whether he could provide these things.

Yu Tian also took a sip of wine, but his face soon revealed a look of disgust.

There wasn't a good bottle of wine here.

He spat out the wine in his mouth, took a sip of coffee, and said impatiently, the deal is good. First, I'll provide you with a batch of weapons, of course, these weapons are not free, but I won't take your money. What I need you to do for me is to expand your territory in the slums,

and then I'll create my own company in the ghetto, and then I'll market my products, to the civilians here, and you'll do what you have to do, to force the civilians here, to buy my products,

the reason I chose you, instead of Rodriguez, is simply that you're a little more controlled than Rodriguez, and Rodriguez is too self-interested,

this person is extremely selfish, and I can't completely control him, so I will sit here and talk to you about this deal, if you are willing to do so,

you will also receive a large sum of money to develop your club. What do you think?

Until now, Rodriguez finally understood Yu Tian's meaning. In the end, he still wanted to use himself.

However, this use shouldn't do him any harm.

Not only could he obtain weapons and funds, he could also develop his own territory. Wasn't this what he had always wanted?

Strength was something that was very tempting to people.

Thus, Roderick nodded and said with some excitement, "This transaction is very fair, and I'm also very grateful that you chose me and not Rodriguez,

this shows that you are a smart person. You think that Roderick is not the person you want, and only I can give you everything you want,

and you can also give me everything I want, so I can't think of any reason not to do this. Then let's Drink a toast. I hope that our cooperation can be pleasant, and that we can all get what we want!

Yu Tian only smiled indifferently and then lightly clinked glasses with him. The longest and simplest deal was thus concluded.

An hour later, Yu Tian returned to his villa in the United States of America. The climate there was really not suitable for sleeping, so it was better to stay here.

He first looked at Chu Qing. The data was especially normal, and Chu Qing had adjusted herself especially well. She was now waiting for the birth of the child.

After that, Yu Tian gave Tyrone a call.

After the call was connected, Tyrone said respectfully, "Mr. Yu Tian, I've missed you so much. I thought that there would be no more cooperation between us."

Superpowers could no longer be as strong as before, so I was also thinking of finding a small island to retire on.

Yu Tian said coldly, "You're dreaming. Do you think it's possible? Cut the crap.

I'll introduce you to a business. I met a man named Roderick in Lige,

"I want to make this guy my dog. I have to throw some bones to him first, but I don't want him to know who I am,

So I want you to throw some bones to him so that he can wag his tail in front of me. Do you understand what I mean?"

Tai Long was not an idiot, so he naturally understood what Yu Tian meant. He smiled and said, "Of course I understand. I'm going to get warmed up right

Yu Tian then reminded him, "When you throw bones, it's the best for others. Simply throw some because this dog is not what I want the most."

"I just want to force another person to obediently kneel at my feet and be my dog, so you just need to give him a little bit of sweetness!

"As you wish, leave this to me!" After Tyrone promised, Yu Tian also hung up the phone.

In the blink of an eye, it was noon the next day. It was hot, and it was a quiet port.

A small cargo ship slowly approached the shore.

The workers on the ship threw a cable to the workers on the ground.

Tyrone looked at Roderick beside him with a smile and said in a relaxed manner, "The thing my boss gave you is here. Now follow me to the ship to take a look!"

Roderick was very excited, but he still pretended to be calm and followed Tyrone to the freighter..

Thank you readers!

When they arrived on the freighter, the workers lifted up a piece of canvas and placed a pile of boxes under it.

Roderick asked his men to open one of the boxes. Inside was a semi-automatic assault weapon.

Tyrone immediately picked up the weapon. Under Roderick's greedy and excited gaze, he slowly said, "This is called UK72. It's Your Gang's favorite weapon..,

"If you hold it in your hands, not only can you use it to fight, Rob, and act cool, but you can also use it to molest aunts and beat up lame old men. In short, to you, this is an invincible divine weapon..,

"There are a total of 100 uk72s here. I have also equipped you with 10,000 bullets. Your people take these uk72s and go outside. You can destroy this city anytime, anywhere!"

At this point, Tyrone threw the UK72 to Roderick.

Roderick knew about this weapon. Although the UK72 was not the best assault weapon in the international arms market, it was enough for a gang.

The most important thing was that this weapon was flexible. It did not need to be aimed. It just needed to be held in one hand.

Moreover, his subordinates didn't know how to aim. The gang members didn't need to aim either. As long as they could make a sound, it was enough.

Even Rodriguez's side couldn't have so many uk72s. Right now, they only had

AK's.

And uk72S were much better than AK's.

Thinking of this, Rodriguez nodded with satisfaction and smiled, "Yes, I like UK72S very much. Please thank your boss for me!"

After saying that, Roderick let his men carry the box. However, Tyrone gently pressed his hand on the box and chuckled, "Wait a moment, Roderick, I still have something to say"

Although these weapons were given to you for free, you must remember my boss's words. They were not used to support you guys, but needed you to open a path for my boss.,

i have a very useful piece of information for you. Rodriguez is currently in a bar in the southern region, making a deal with some international drug dealers,

my boss's meaning is very clear. Go and destroy this deal. Kill as many people as you can. If you can kill Rodriguez, then his territory will be yours in the future. My boss will definitely support you!

Rodriguez fiercely frowned. Indeed, he was taking advantage of someone else. Although Tyrone spoke to him in a negotiating tone, in reality, this was an order to him.

Obviously, if he didn't do it, these weapons wouldn't be in his hands at all.

Moreover, Tyrone would also reveal the news of him taking other people's weapons to Rodriguez.

Therefore, he was already riding on a horse and had no choice but to run forward.

Therefore, he nodded and said gloomily, "Of course, this is a deal between me and your boss. I will definitely take out what he wants!

Tyrone then let go of his hand and laughed, "My boss did not misjudge the person. You still have a certain amount of courage. Now take these guys and bravely fuck Rodriguez!

Under his persuasion, Rodriguez's body was full of blood and his expression became extremely domineering. He had to do it now anyway. Since he already had a weapon, what was there to be afraid of?

At this moment, Chu Jia industry came to the meeting room.

Yu Tian finally met the group of experts.

No matter where in the world, the so-called experts all had the same appearance. They had a broken head and a molecular structure expression.

Especially the ten experts in front of them. It was as if everyone had been constipated for decades.

Therefore, Yu Tian didn't want to waste time with them. He directly handed the samples taken from the ocean to them.

One of the old experts only looked at the samples on the table. Then, he said to Chu Jia beside him arrogantly, "We will test the samples, but we have other work at hand now,

"We might have to push this back. We'll try our best to analyze it, but can we solve it? We can't even guarantee it now!

With just one sentence, Yu Tian's most urgent task was pushed to an unknown time.

Can experts just act pretentious?

Yu Tian felt a little angry just thinking about it. Before Chu Jia could say anything, Yu Tian punched the marble conference table and smashed it into pieces.

The experts were so scared that they all stood up and hid at the side with horrified expressions.

That old expert was so scared that he almost had a heart attack. He kept scratching his chin and neck to ease his heartbeat.

Chu Jia just smiled and didn't say anything. These experts were usually arrogant, but they really had to be like Yu Tian to refute them.

At this moment, Yu Tian looked at everyone coldly and said arrogantly, "All of you listen well. I don't have time to play these games with you."

"I want you to analyze the results within an hour, and you have to come up with the best solution. Otherwise, not only will you die, but your families will also die."

"I will die with you. Don't think I'm joking with you. I want to kill all of you right now!

As soon as he finished speaking, Yu Tian walked up to a young expert, grabbed his neck, and threw him on the wall.

He threw the expert to the ground and made him cry.

He thought to himself, there are so many experts here, why is he the only one who fell? Was it wrong to be young? Was it wrong to be handsome?

As for the other experts, they had long lost their arrogance, especially the old expert. He hurriedly wiped the cold sweat on his face, bent down to pick up the sample, and hurried to the laboratory.

The younger experts could resist the fall, but his old arms and legs would be dead if he were to fall like this. What was the point of being pretentious?

After the experts left, Chu Jia laughed and said, "You're the only one here. If it were me, these old fogeys wouldn't listen to me so readily."

However, it had to be said that they were all the world's top experts, so there was no need to be anxious. They would definitely come up with a solution for you!

Yu Tian nodded slightly and said disdainfully, "If they can't come up with a solution, there won't be any experts like them in this world in the future."

Understand what I mean?"

How could Chu Jia not understand what he meant? She said slowly, "Of course

I understand what you mean. Is there anything in this world that can stop you?"

Yu Tian chuckled, shook his head and said, "No, but I really hope that there is something that can stop me, like that senior CEO of Barker!"

?Chapter 591 – Chapter 591, Humor At Any Time

Thank you readers!

Yu Tian threw down this sentence, turned on his computer, and logged into Chu Meng's defense management platform.

Soon, Chu Meng, Chu Yue, as well as the senior management of the Defense Department and the Tools Department, all logged into the platform and entered the conference room.

Chu Jia watched quietly from the side, and he was especially surprised.

This was a war system. Through this platform, Yu Tian could issue many war orders. As long as he said the word, a certain area would immediately be covered by the flames of war.

This was power, absolute power. Wasn't this the power that she had always wanted?

If she could be like Yu Tian, casually saying the word and easily deciding the life and death of others, just thinking about it would be wonderful.

At this time, Yu Tian had already started to ask, "Have all the civilians in Nicaragua evacuated?"

Chu Meng immediately replied with a straight face, "Yes, Chief Yu. All the civilians have evacuated from Nicaragua with our help, except for the factories in Durakaso and some of the workers from Barker,

"There are no civilians in the entire Nicaragua, and our air strike force has been prepared nearby!

Yu Tian rubbed his chin and narrowed his eyes coldly. He said coldly, "Very good. Now, immediately launch a destructive attack on that factory!

Chu Meng immediately nodded and said, "Yes, President. In five minutes, the CY5 fighter jets will reach the airspace above Nicaragua. Our observation satellites will be observing at all times!

After the order was given, the air department waiting for the Order at Sean Airport immediately gave the order to the CY5 pilots of the First Division.

"First Division, the attack order has been given. The attack code has been refreshed to the CY5 operating system. The target and the coordinate parameters will be adjusted at any time,

"First Division fighters, immediately enter the field. I wish you a successful completion of your mission!

Two minutes later, ten CY5S quickly rose into the sky.

Five minutes later, Yu Tian saw them on the computer screen.

At the same time, durakaso, who was sitting in his office, was calling Elajek, the president of the Defense Department of Barker.

He said with some worry, "Now, the civilians of Nicaragua have retreated. I feel that Yu Tian will attack us at any time. Now, I also want to ask the higher-ups to approve,

my request to leave Nicaragua with my workers!

Although elajack really wanted to agree to his request, the CEO had already given an order that the factory of Nicaragua must not retreat.

Therefore, elajack said helplessly, "The higher-ups can not approve your request. If you retreat now, it means that we are afraid of them!"

The CEO was very concerned about his face. No matter what, you can not retreat. Moreover, Yu Tian's side was just putting on an act. They can not attack you casually,

“After all, this world is not his decision to make. It's impossible to hit whoever you want. So, you'd better stay there peacefully and wait for the orders from the higher-ups at any time,

“I will also continue to apply with the president. If the president agrees to your retreat, I will inform you at any time!

Before he finished his words, a series of explosions came from the sky.

Durakaso hurriedly stood up and went to the window. He looked at the sky in horror and said with a trembling voice, “I don't think there's a need. Yu Tian doesn't care who you are at all,

“They have already mobilized CY5. Now I only have one request for you. Tell the president what I said. I have done my best for Barker's development, but you abandoned us at this time,

“I want you to tell the president that he will definitely regret it!

Elajek could hear the roar of the plane on the phone. After a violent explosion, the phone was busy.

In just ten seconds, the entire Barker factory was razed to the ground. Durakaso and his Barker workers did not leave alive. They were all buried under the ruins.

The pilot immediately reported.

Sir President, the attack has been completed. We are waiting for your orders!

Yu Tian nodded in satisfaction and said indifferently, “Very good. You guys return immediately. Very soon, you will enter the second attack. Use this time to take a shower, massage, and find a woman to work!

Everyone on the command platform did not know whether to laugh or cry.

This CEO of his was really humorous. It had just been a regional conflict, yet he could still joke so easily. It seemed that he didn't take this small conflict seriously at all.

Ten minutes after the Barker factory was destroyed, the CEO, Tilarenk, immediately held a press conference.

At this moment, Tilarenk's face was full of anger and his eyes were filled with killing intent. Facing the hundreds of reporters below the stage, he said coldly,

“Just ten minutes ago, the Devil Army led by Yu Tian..,

“Launched a destructive attack on our Barker factory. This attack caused dozens of people to die in the ruins. This is the most serious provocation to our Barker's highest management department”

“Here, I want to say something to Yu Tian. We will definitely not compromise.

We will use the strength of our hands to fight against you, this evil person,

If you have the guts, come to Barker. I will definitely let you know what anger is.

At the same time, Yu Tian also saw the press conference, but he did not care about it.

Just do it, there was no need for so much nonsense?

What Devil Army? Evil Person? He had so many thoughts. What kind of person was he? Could it be that he didn't know?

Therefore, there was no need to pay any attention to him. Yu Tian immediately gave Chu Meng an order and said coldly, “Immediately let our intelligence department enter Barker and collect the main coordinates”

“Then, we'll be ready to attack at any time. I have a person on my side in barter. Her name is Tiffany. You've seen this little girl before. She'll provide you with everything you want!

Chu Meng didn't find it strange at all. Yu Tian had a lot of good men around him. He could call out a group of them at any time, but those were the only ones he could really use.

Hence, she smiled coldly and said, “You have people over there, and I have people over there too. According to the latest information I received, after the factory was attacked, their entire economic index was rapidly regressing,

“Most of the rich people are leaving Barker, and most of the funds are also disappearing. The riots outside have also become more violent, so I feel that we don't need to fight, “They are playing themselves to death!

Yu Tian shook his head helplessly and said disdainfully, “That's not what I want.. I want that Tilarenk, because he is an expert!”

?Chapter 592 – Chapter 592, World Of Bloodshed

Thank you readers!

Chu Meng was shocked and kept silent for a while before asking in confusion, "You said that Tilarenk was an expert. wasn't he Barker's senior CEO?"

"And according to the information I gathered, this CEO was very weak before. How could he be an expert?" "Your information can't be wrong, right?"

Yu Tian smiled indifferently and said, "My information can't be wrong. Moreover, there's a small part that you don't know. When Tilarenk went out for a vacation, he was attacked by a storm,

"After that, he became so tough and even obtained the position of the highest CEO. According to my analysis, the current Tilarenk is no longer that weak idiot from the past,

so I decided to go to Barker to take a look myself. Don't you know? I need these experts the most right now. If I don't have experts, how can I become stronger,

have you ever seen someone step on ants to become an expert all day long?"

Chu Meng knew that she couldn't stop Yu Tian's decision. She could only exhort him in a soft voice, "Then you must be careful. Barker is especially chaotic now. There are people trying to fight everywhere,

"Moreover, because of the war, there are many private groups. The most profitable ones are the private bodyguard companies, and a large number of mercenaries have entered Barker, so you must be careful!"

After hanging up the phone, Yu Tian thought for a while.

If he went to Barker now, it was unlikely that he would be able to meet Tilarenk smoothly. And if he really was an expert from the cultivation world, then he definitely wouldn't have a direct confrontation with him.

Therefore, if he were to go to Barker, he would have to use some methods.

At the very least, he had to make this Tilarenk take the initiative to stand in front of him.

Thinking of this, Yu Tian directly opened the teleportation and arrived at Barker a few seconds later.

The moment he saw Barker, Yu Tian's brows slightly furrowed.

The current Barker city was like a pot of porridge.

There were people running crazily everywhere. The entire city was shrouded in smoke, and many buildings were on fire.

There was no one to put out the fire at all. Everyone wanted to get more things.

The most precious things now were food and drinking water.

Therefore, many shopping malls were robbed by the mob.

Explosions and screams could be heard from afar.

Chu Meng was absolutely right. People were especially vulnerable in the face of war.

Not many people could look at the conflict calmly.

However, they hadn't really decided whether to use large-scale attacks, but at this moment, they were already attacking their own people.

However, all of this had nothing to do with him.

Yu Tian opened the map and found the location of the management department. Just as he was about to take a step forward, someone suddenly shouted from behind him, "Stop right there! Don't move!"

This voice seemed to be particularly flustered and deep. Even without using his eyes to see, he could guess that the person who shouted was probably a middle-aged man.

Yu Tian smiled very easily and said, "Don't be rash. I'm doing this for your own good. Whatever you want, just say it. I can satisfy you. I will definitely do my best to satisfy you!"

"Throw your backpack over. I want the food inside. Don't act rashly, or I will open fire!" As he spoke, the man's hand even emitted a clicking sound.

Yu Tian didn't know whether to laugh or cry. This guy really had eyes to the back of his head. He dared to snatch it from anyone.

She was only here to kill their CEO, but these people actually didn't differentiate between right and wrong. They even wanted to rob her.

So he slowly turned around, but when she saw this middle-aged man, she couldn't smile anymore.

There were six or seven children standing behind the middle-aged man. There were boys and girls, and the oldest child was only about 10 years old.

The father of the child was a middle-aged man with a full beard, and he was holding a lucky charm in his hand.

But obviously, he did not have much confidence in controlling this lucky charm.

Yu Tian saw that her hands were trembling, and he was really afraid that he would accidentally hurt the child next to him.

Thus, he tried his best to say calmly, "Don't be nervous. Don't you just want food? I can give it to you, but can you put down the thing in your hand first? I feel that this thing is in your hands"

"Other than killing the people next to you, my words have no value to me!

The man simply could not listen to him. He pointed his rifle at Yu Tian's head and said with a trembling voice, "Don't talk nonsense with me. Take off your backpack immediately!

Before he could finish his sentence, a helicopter filled with weapons suddenly floated over from the sky.

When it arrived above the few of them, the helicopter shouted through the loudspeaker, full of killing intent, "Attention below. Put down your weapons. We will not attack. Put down your weapons immediately!

The man looked at the helicopter angrily, thinking that he would die no matter what. Even if he was not beaten to death by them, he would still starve to death here.

He hadn't eaten with these children for several days. Even the moldy food in the trash can had been snatched away by someone. What was the value of living in this situation?

Yu Tian saw that her eyes were filled with killing intent and hurriedly comforted her, "Hey, Buddy, don't be so nervous. As long as you put down your weapon, you can continue to live even if you don't want to live anymore"

"Also think about your children. They are all innocent. Listen to me and put down that D * MN Guy in your hands. I guarantee that you will be able to have a sumptuous dinner!

However, the man did not listen to him at all. In this country now, other than robbing, it was impossible to have a full stomach, and it was even more impossible for someone to help him.

The man shouted and fired at the helicopter.

This was simply suicide. Yu Tianmen frowned. The moment the bullets and the helicopter rubbed against each other, he charged at the children.

Now, he had to save as many as he could.

As expected, the helicopter fired. The bullets rained down like raindrops.

Yu Tiancai picked up the two children. There was no way to save the rest. When he jumped to the side, he saw that the man and the rest of the children were shot into sieves.

After the helicopter killed these people, it left with a roar, without any pity or sympathy.

After taking cover, Yu Tian put down the frightened children and rushed to the man's side, hoping that there were still survivors.

However, the man and the children could no longer live.

Yu Tian could only shake his head helplessly..

Chapter 593, the decadent people

Yu Tian felt extremely regretful that he couldn't save those children from the helicopter's firepower.

Chu Meng wasn't wrong at all. Even if he didn't give the order to attack Barker, Barker would slowly be destroyed.

Tilarenk had completely gone mad. He had given the order to the attacking troops to kill anyone who dared to take out a weapon.

However, these civilians were just trying to protect themselves. They just wanted to eat their fill. Even if Tilarenk did not care about their lives, he could not kill them like this.

However, at this moment, a building behind them suddenly exploded. The building, which was more than ten stories tall, exploded in the middle.

Smoke and debris rolled down, and the entire ground trembled.

Yu Tian hurriedly picked up the two children, who were still staring with their eyes wide open in fear, and hurriedly retreated to a safe area.

But in Barker, where was a safe place now?

As long as Tilarenk's orders were still in place, there couldn't be any safety here.

Yu Tian looked left and right. This should be a shopping mall, but it was now empty after being robbed.

Fortunately, it was in the innermost part of the shopping mall. Yu Tian saw some people who were hiding from the war.

Everyone was covered in dust and dirt. Their family members hugged their own people tightly. Everyone was nervous about Yu Tian's arrival.

Two old men pointed their weapons at Yu Tian. Through the obstacles they made, they shouted loudly, "Don't come over, or we will open fire!"

Yu Tian was in a very bad mood. He had wanted to save them and did not want to fight with them. However, everyone here seemed to treat others as their enemies.

He shook his head helplessly and said, "Look at your age. You Can't even hold your weapons properly. You Can't even kill a rat. I don't have time to waste with you..."

"The father of these two children has already been killed by the helicopter outside. Now, I need you to take care of these two children!"

One of the old men said coldly, "Impossible. There's no place for them here, and we can't help you take care of these two children."

"Now, you must leave this place immediately, especially an Easterner like you. Tilarenk has already As for Yu Tian, he kicked away the obstacles with a disdainful kick. The people hiding in the corner 00:18

screamed in fear.

given the order that we can kill any Easterner we see."

"But since you're so young, we can't bear to kill you. Take your child and leave this place immediately. We're not your safe haven, and you won't Get What You Want Here!"

Safe Haven? As if they had everything here.

Yu Tian snorted in disdain. He casually raised his hand, and the weapons in the two old men's hands disappeared.

The two old men were so frightened that they hugged each other, as if they were scared out of their wits.

As for Yu Tian, he kicked away the obstacles with a disdainful kick. The people hiding in the corner screamed in fear.

How many men were there? They even picked up the things beside them, wanting to hit Yu Tian.

Looking at their smug expressions, Yu Tian felt that it was laughable. With just a few punches and kicks, they finished off those men.

At this moment, a fat middle-aged woman stood up and said, "Oh my God, stop fighting. Don't you know that you are no match for the Easterners?"

Aren't they just two children? Even if we let them stay, what can they do? "They just want to live. We don't have any food for them. We only provide them with a safe corner,

"So stop beating them. I'll help take care of these two children!"

Yu Tian felt that although this middle-aged woman looked stupid and stupid, she was very kind. The people of Barker had gone crazy. They went to the toilet to take a piss and turned around to tear the toilet down.

It was already very rare to have such a person.

Tomorrow, she handed the two children to the woman and smiled indifferently. "It's already very difficult to find people like you now. I'll give these two children to you. Can you tell me your name?"

The woman held the two children in her arms and tried her best to use her body temperature to warm them up. Then, she said indifferently, "My name is Catherine. I was originally a cleaner in this shopping mall,

after the riot outside, we were all trapped here!"

Trapped here? Yu Tian felt a little strange. Didn't they have a home?

At this time, the old man who had planned to attack Yu Tian said in pain, "We could have gone home and stayed with our families, but the Barker Bridge has been blown up,

"That's the only way we can go home. After the bridge is blown up, we can't go anywhere. We can only stay here. After that, there were thugs who took everything from the mall..."

"It wasn't easy for us to survive!"

Yu Tian nodded and asked, "Why did they blow up the Barker Bridge? Was It Tilarenk who gave the Order?"

The old man shook his head and said, "It wasn't Tilarenk who gave the order. It was the rebels who blew up the bridge. That D * MN CEO of Tilarenk gave the order that if anyone dared to protest, he would order his men to open fire,

“Many of the rebels were killed. In order to stop them, the only way was to blow up the Barker Bridge!”

Yu Tian also understood. If he wanted to go to the highest management department, he might have to go through the Barker Bridge. But now that the bridge had been blown up, he had to find another way to go.

However, this was not a problem. He could turn on the teleportation at any time and cross the river in the blink of an eye.

However, before leaving, Yu Tian felt that he should give them a chance.

Therefore, he nodded, stood up and said, “You don’t have to worry. I will send you food later. You guys can stay here!”

The old man was somewhat disdainful of Yu Tian’s words. After Yu Tian left, he said with sarcasm, “Food? What kind of food can he get? Now, as long as an Easterner appears outside...”

Someone will immediately attack him. He thought that he would really come back alive. What a joke. Catherine, you really shouldn’t have left these two children behind,

“If we had limited food, I definitely wouldn’t have given these two children. They are not our people!”

Catherine did not take her father’s words seriously. She did not want to argue with this old man. They were the ones in charge here. It was already very difficult for her to stay behind.

However, since she had promised the Easterner to take good care of the two children, she had to do it.

At this moment, Yu Tian had arrived at Sean.

?Chapter 594 – Chapter 594. He Was A Secret Agent

Thank you readers!

Yu Tian bought a lot of food and returned to the mall in Barker City.

When he placed the food in front of everyone, everyone's jaws dropped in surprise.

Now, he could even get a cake, sausage, and all kinds of canned food. No one could do it except for gods.

However, Yu Tian didn't think he was a god. He opened a can and gave it to Catherine.

He smiled and said, "I gave you this food. Everyone can eat it, but these two children must eat their fill. I believe in You, Catherine!"

Catherine took the can and said with tears in her eyes, "May God bless you. You are really a good person. If you didn't give us this food, we would all slowly starve to death here. Thank you!"

The old man next to her snatched a can of food and began to devour it.

The others came over one after another and picked up the food to eat. One day, they felt that this scene was still a little warm. At least everyone could eat until their stomachs were full. Although there were still many people outside, they had to do something.

As long as Tilarenk died, these people would naturally live their past lives.

However, at this moment, there was a burst of chaotic footsteps.

Yu Tian suddenly turned around and saw a group of thugs with weapons in their hands. Several of them were injured and were bleeding non-stop. The old man was the first to react. He rushed to the food and hid it.

However, his actions were still seen by the thugs.

One of the thugs raised his weapon.

After a muffled sound, the old man also fell into a pool of blood.

Catherine and the others were frightened. They hurriedly picked up the child and lay on the ground. Only Yu Tian looked at them indifferently.

The man in the jacket who killed the old man didn't even blink. He swaggered in front of everyone and looked at the food scattered on the ground, he snorted coldly and said, "I now declare that everything here belongs to me, Carl,

"Not only these food, but also the lives of every single one of you!"

Yu Tian felt that every Barker was a joke?

At this moment, a man who looked like a dog beside Carl looked at Yu Tian with shifty eyes. He immediately leaned close to Carl's ear and said with a strange tone, "Hey, Carl, that's an Easterner!"

Elajack once said that anyone who could provide them with any Easterner would be rewarded with a large sum of money. This is an easterner. We just need to hand it over to elajack!

“In the future, we won't have to worry about food and drink!

Carl then turned his cold gaze to Yu Tian. He looked up and down at Yu Tian as if he was admiring a treasure.

Everyone was lying on the ground, but this Chinese man was still standing in front of him so proudly. Was he not afraid of death?

Carl shook the weapon in his hand and walked up to Yu Tian arrogantly. He said coldly, “Are you from the East?”

“Nonsense!” Yu Tian said coldly, “Do you see any Westerners who look as handsome as US Asians? Look at my model's figure and then look at your telephone pole-like size!”

“I'm curious. How did your parents give birth to you?” “Look at all of you like animals, especially you. You even killed an old man. Do you think you're human?”

“If you're unhappy with your old fart, you don't have to kill him even if you kick him in the pants. How pitiful is that old man? He hasn't even eaten two bites of the cake. Don't you feel that you're very wicked?” Not only was Carl not angry, he laughed out loud instead.

But suddenly, he pointed the weapon at Yu Tian's forehead.

However, before he could say anything, Yu Tian easily grabbed the weapon in his own hand and squeezed the weapon into a ball with a little force.

Carl and the others widened their eyes in surprise.

Before they could recover from their shock, Yu Tian easily knocked the others to the ground.

He also turned the weapons in their hands into a pile of parts.

Carl initially thought that his team was very strong, but in the blink of an eye, he realized that he was the only one left.

He wiped the cold sweat off his face and slowly turned to look at Yu Tian. He said in extreme fear, “I didn't mean anything by it. I just wanted to live. You know?”

“Everyone in barter has gone crazy. We just want to gather together so that we can have some hope to live!”

Yu Tian snorted in disdain and said proudly, "If you want to have hope to live, then strangle the hope of others, right? But I'm also giving you a hope now"

"Whether you can grasp it or not depends on yourself!"

Carl immediately widened his eyes and said excitedly, "I'll grasp it no matter

What!

Yu Tian said, "I need to know the location of Tilarenk now. Can you provide it to me?"

Before asking this question, Yu Tian had thought through a series of considerations.

Although Carl was only the leader of a few people, the subordinates he brought were not simple.

Moreover, the shifty-eyed guy said that he would hand himself over to the president of the Defense Department, ELRAJK.

This meant that they knew the defense department very well.

Moreover, after the Barker Bridge was blown up, Tilarenk and the Defense Department still had to continue to control the Barker rioters. Therefore, at this time, the agents had work to do.

And this Carl was very likely one of those agents.

His mission here was to search for easterners like him.

When Carl heard this question, his heart also thumped.

This easterner was not old, but he was especially smart, as if he knew his identity.

But this was impossible, only the Defense Department's Alajack knew his identity, and no one else would know.

Thinking of this, he said confidently, "Buddy, I can help you with anything else, but I really can't help you with this. Besides, I think you're telling me this"

"You really overestimate me. I just want to lead a few people around to snatch food. And Tilarenk is the senior CEO of Barker. How could I possibly know his position?"

Before he could finish his sentence, Yu Tian raised his hand to slap him. Then, he said coldly, "Now, I will ask you one last time. where is Tilarenk? Don't tell me you don't know"

“Do you really think I don't know that you are his agent? So, let's be straightforward.. Isn't that great?”

Chapter 595 – Chapter 595, Hidden Base

Thank you readers!

Yu Tian really did not want to waste any more time with him. As soon as he finished speaking, Yu Tian kicked that shifty-eyed guy a few meters away, making a hole in the wall.

Carl was so scared that his forehead was covered in cold sweat. This Easterner was simply not a human. could he really hold on in front of him?

Yu Tian could not give him unlimited time to think. Right now, he was really busy. He said indifferently, “Have you thought about it? Do you want to be a human, or do you want to be like that guy and make a hole in the wall?”

The fear in Carl's heart made his nerves tremble. Right now, it was more important to save his own life. Nothing else was important.

So Carl said slowly, “I don't know where Tirajak is, but I know where Elajak is. When Tirajak appeared during the riot, no one knew where he was,

his orders were given to Elajak over the phone, but as long as you find Elajak, I believe you can find Tirajak!”

“Then where is elajak?” YuTian followed up with a question.

“He is in an underground bunker in the south of Barker. Where is the command center of the Defense Department? Where did all the orders come from?”

After saying that, Carl slowly stepped back and said, “I have told you everything you want to know. Now, it's time for you to let me leave this place!

Yu Tian smiled indifferently and said in a low voice, “Indeed, I should let you leave, but not alive, but dead!”

If he was allowed to leave, no one here would be able to live.

This bastard would definitely bring his men back and kill everyone here, even rats.

Therefore, it was best for him to die here.

When Carl saw the murderous intent in Yu Tian's eyes, he was so scared that he turned around and ran.

As he ran, Carl looked back and saw that Yu Tian was still standing in the same place.

At this moment, he directly turned around a wall, wanting to use the wall to block Yu Tian.

However, at this moment, Yu Tian's hand directly pierced through the wall and grabbed Carl's neck. With a crisp crack, Carl's head tilted to one side.

Following that, Yu Tian disdainfully clapped his hands and turned to the astonished Catherine and the others, "You guys should leave this place. Otherwise, someone will come here very soon to act pretentious. At that time, none of you will survive!"

Yu Tian did not care how Catherine and the others left this place.

Very soon, Yu Tian arrived at the bank of the Barker River.

In the entire Barker River, only the destroyed Barker Bridge in front of him could go to the other side.

The distance of the explosion was at least 27 meters.

Yu Tian said helplessly, "It's good that a bridge has been blown to such a state. What a fucking waste!"

It was very easy for him to cross the river.

All he needed to do was calculate the coordinates and activate the teleportation.

He had painstakingly developed the device in order to shorten the distance under his feet.

Wasn't this a good time to use it?

After calculating the coordinates, Yu Tian arrived at the southern area of Barker in a few seconds.

When the surrounding scenery changed, Yu Tian found himself in a forest.

He could not use the teleportation device for the rest.

Yu Tian looked around. If he wanted to find that secret base, he had to rely on his own legs.

However, Yu Tian did not want to waste his time looking for that secret base.

There were many tools that could be used. For example, the Chu family's observation satellite.

Yu Tian randomly opened the map and began to search the forest carefully.

However, there were no special buildings within a radius of ten kilometers. Apart from the vast forest, there was nothing else.

However, Yu Tian did not feel that there was anything. Since it was a secret base, there must be a hidden method.

If one wanted to hide such a large base, the surrounding forest was the best cover.

Therefore, there was no need to look for other places. As long as he strolled around in the forest for a while, he would be able to find that base.

Just as Yu Tian was about to determine the direction, the sound of tanks suddenly came from afar.

Yu Tian immediately jumped onto a tree and looked into the distance.

As expected, there was a hidden road about 500 meters away from him.

At this moment, more than ten tanks were slowly heading towards the Barker River.

Behind the tanks were hundreds of fully armed defenders.

There was no need to think about it. As long as they followed the road, they would definitely be able to find their base.

At this moment, the commander leading the tanks and defenders was receiving orders from Arajek.

On the radio, Arajek said solemnly, "Someone reported that an unusual Easterner had appeared in that shopping mall. Although we don't have any useful information..,

"But this easterner must be a secret agent sent by Yu Tian. It's very likely that he's collecting our defense data. No matter what, you have to bring this Easterner back to me,

our data shows that this Easterner's combat strength is very strong, so it is best that you do not come into direct contact with him. If necessary, you can use some small-scale biological weapons, to disarm his combat strength!

The commander, who was bumping in the middle of the tank, nodded and said gloomily, "No problem. We have brought the bridge-laying equipment. It is estimated that we

will arrive at the shopping mall in an hour, i will report the situation in the shopping mall to You Then!

Arajek was silent for a few seconds and then said, "Now we must be extremely vigilant. Your actions must be more secret. There are many satellites watching us from above,

"Moreover, Sean's attackers can attack us at any time and place. Many of our allies have abandoned us, and our industrial company...

"Can't produce too many weapons. So, use the things you brought with you sparingly. If war breaks out, these things can be used on the battlefield at any time and place!

Although the commander had a disdainful expression on his face, he still said softly, "Yes, I know!"

After cutting off the radio, the commander and some of the defenders around him said mockingly, "Now that idiot is still thinking about how to resist Yu Tian?"

"If they really launch an attack, our defense would be completely vulnerable. It would be a miracle if we could hold on for five minutes!

One of the defenders beside him patted his helmet and said with a frown,

"Then do we really have to go over there to look for that mall?"

The commander laughed coldly and said, "Only a ghost would go to that place. Let's just walk around the front for a few rounds and then return to the base!

The defenders all laughed. Their commander was really thoughtful.

At this moment, Yu Tian had already found the base..

?Chapter 596 – Chapter 596, How Did He Get Here

Thank you readers!

This base was really well hidden. Not to mention using satellites, even helicopters would find it hard to find the intersection here.

This was because the entrance of this base was almost balanced with the ground. In addition to the surrounding trees, if not for the two defenders smoking at the entrance, even if he came here, he might not have been able to find it.

After taking care of the two smoking defenders, Yu Tian successfully entered the base.

He followed the stairs until he reached the depth of the bunker about 50 meters below the ground. The area in front of him suddenly opened up.

This underground command center was very large.

Yu Tian even saw more than a dozen armed helicopters and tanks lined up neatly here.

The fully armed defenders were still training.

At this moment, an angry shout came from Yu Tian's side.

“Who are you? How did you get in?”

Before he could finish his sentence, Yu Tian turned around and kicked the defender, killing him.

Seeing that the defender's figure was about the same as his, Yu Tian chuckled and dragged the defender to a corner. He took off her clothes and put them on himself.

Now, he was also the defender here. As long as he didn't let them see his face, no one would recognize him.

Thinking of this, he smeared some dust on the wall on his face one day. This disguise was indeed very good. He couldn't even recognize himself.

After passing through the wide field, they arrived at a quiet office area.

This was the office of the higher-ups of the Defense Department. Compared to the outside world, this place was much more upscale.

At least there was a coffee machine, a restaurant, a fitness center, a bar, and a bathhouse.

Yu Tian kept walking in with his head lowered. No one noticed him, so naturally, no one stopped him.

When he arrived in front of an office area, Yu Tian glanced at it. The names of the higher-ups were on the doors of each office.

Jack Aila's office was in the last room.

However, there were two defenders at the door of the office. At this moment, the two defenders were staring at Yu Tian vigilantly.

It was not the time to change shifts yet. Why did this guy come down so quickly?

Moreover, why did this guy get his face so dirty? Did he go to clean the chimney?

Yu Tian walked up to the two of them and said confidently, "There is a problem with the electrical wiring in the office area. A part of the electrical wiring is leaking. I need to go to this office to check it out!

One of the defenders looked at Yu Tian coldly and asked warily, "What's Your Name? Which Group are you from? How come I've never seen you before?"

Yu Tian shook his head helplessly. These two defenders were supposed to be alive, but they insisted on courting death with him. How could he let them be?

Before he could finish his sentence, Yu Tian threw a punch.

The defender who had been beaten up slammed open the office door. The other defender raised his weapon and was also kicked to the ground by Yu Tian. He fainted on the spot.

In the office, Alajack was shocked. As soon as he stood up, Yu Tian had already rushed in front of him. Without giving him a chance to speak, he gave him a slap in the face.

Alajack fell heavily on the chair. He was stunned by the slap.

When the people outside the office saw that there was a fight, they all gathered around in shock.

Yu Tian did not even look at them. He did not put them in his eyes at all. Even if all the defenders in this base came over, Yu Tian would not even blink.

At this moment, Alagrak finally reacted. He asked fearfully, "Who are you? What do you want?"

Yu Tian threw his helmet on the ground and chuckled, "My name is Yu Tian. As for what I want? It's actually very simple. I just want to know where Tilarenk is. But you don't have to worry. As long as you tell me his current location, you can pretend that I've never been here before. Moreover, all of Barker's difficulties will disappear immediately,

"You will still be able to live happily and happily like before. Look at how well I've said it. Now, hurry up and tell me where Tilarenk is."

When everyone heard Yu Tian's name, their minds and emotions exploded.

So the person in front of them was the one who created this conflict.

He was the richest and most powerful person in the world, Yu Tian.

Alla Jack's facial features were all twisted together. Now he finally understood that the person who appeared in the shopping mall was none other than Yu Tian himself.

He was still calling people over to kill him, but they were already at his doorstep.

But he was the supreme president of the Defense Department. In front of so many people outside, he could not show his weak side.

So he said very strongly, "Even if you hit my mouth, I can not tell you Tilarenk's position. He is the supreme president of Barker. He is worth every one of our lives to protect,

"Yu Tian, since you have come to Barker, don't think about leaving alive. Do you know how many defenders are around you?

"No matter how powerful you are, even if you can fight, how many can you kill by yourself?"

Yu Tian laughed and said disdainfully, "Who said I want to fight with them? I'm not here to fight. In fact, I only need to kill one person.

Aren't you the Supreme President of the Defense Department? I just need to kill you and then kill those higher-ups outside. Then, who will be the next president?

But what I want to say is, no matter who becomes the president, as long as Tilarenk doesn't appear, whoever becomes the president will die. My patience is very limited. I'll ask you one last time, where is Tilarenk?"

Without thinking, elajek directly replied, "You should give up on this idea. I Can't tell you. If you can kill him, then go ahead. But first, see if you can leave this place alive.

As he spoke, a large group of defenders had already rushed into the office area. The higher-ups automatically scattered to the side.

The defenders came to the office door and squeezed the door tightly. At the same time, they raised their weapons and aimed at Yu Tian.

One of them shouted, "Raise your hands, or we will open fire immediately. You are not afraid of death. You actually came to our base like you were shopping in a mall, you simply don't put us in your eyes. Raise your hands immediately!

Yu Tian slowly turned his head to look at them. He felt that the Barker people were all very funny and had a lot of nonsense to say.

However, their description was very apt. They had indeed come here like they were at a shopping mall.

It was just that they had yet to get what they wanted..

?Chapter 597 – Chapter 597, A Sumptuous Banquet

Thank you readers!

Looking at the pretentious defenders at the door, Yu Tian felt that they were really laughable.

But he had come here to find out where Tilarenk was, not to kill.

If he went on a killing spree, the entire base would not be enough for him to play with, and it might not have any value at all.

Hence, he said indifferently, a€?Don't try to act cool with me here. I'm giving you all a chance to leave alive. Close the office door for me and I'll pretend that I've never seen you before!a€?

The vaccinator thought that Yu Tian had gone crazy. So many people were pointing their weapons at him, yet he was still able to talk nonsense.

The defender who had shouted followed and shouted, a€?Who is the one trying to act Cool Now? There are tens of thousands of people outside our base, and this place is already completely completely surrounded by us,

you actually want us to close the door for you. Do you want us to get you something to eat? And put in a basin of bath water? You wish for it, Don't you?

We'll remind you for the last time. If you don a€?t raise your damn hands, you a€?ll definitely regret it!

No matter what was said, it was useless. These people were courting death without hesitation.

In that case, Yu Tian didn't want to waste any more time with them.

Facing the door, he raised his hand and threw a punch.

A violent power instantly erupted, and those who blocked the door were all sent flying.

Yu Tian didn't stop there. He activated his special ability and turned all his weapons as thin as hair.

The higher-ups of the Defense Department, as well as Alagrak, were all scared out of their wits when they saw this scene.

No wonder he dared to come here alone like he was in a shopping mall. It turned out that he had the ability.

As for the other defenders, they did not dare to take a step forward.

Yu Tian shook his head helplessly. These people were simply wasting his time. If it was an expert playing with him, it would still be fine. But for these reckless fellows like them, they were just courting death for nothing.

He then looked at Alagrajack and said coldly, "You still don't want to compromise now, do you?"

Arajek shook his head and said helplessly, "I'm sorry! I'm the Supreme President of the Defense Department. I once swore that I would always follow Mr. Tilarenk, so I can't betray him!"

There was nothing more to say. Yu Tian instantly took out a golden needle and stabbed it into Arajek's forehead.

Arajek suddenly felt that he had lost all feeling from the neck down. Following that, an intense pain crawled to his brain, and his entire body seemed to be torn apart.

This pain was simply unbearable, and it caused him to let out waves of screams.

When the people outside saw this scene, their hearts were filled with incomparable anger and fear. In front of Yu Tian, they felt that they were incomparably small. They did not even have the ability to shake the other party.

They could only watch helplessly as Ella and Jack screamed desperately in pain.

Yu Tian sat down at his desk and said calmly, "I have divided this pain into five levels. You are now trying the first level,

"Of course, you can tell me the answer I want at any time, so you don't have to endure this pain anymore. If you are still stupid enough to think that your oath is so important, then I will increase the level,

then you will die of pain alive. Think of that horrible feeling. Aren't you afraid?"

AlaJack completely compromised. The pain was so unbearable that it made him think that he was still a human being, but the pain was not something that a human being could endure.

So he trembled in pain and said, "Tilarenk, at Fort Century. That is his command center!"

Yu Tian knew about this place in Barker's Fort Century. He was in the eastern region of Barker.

Since he had already gotten what he wanted, he stretched out his hand and pulled out the golden needle. Then, he smiled and said, "Isn't this great? Do you have to be so unhappy?"

"I will go to Fort Century now. If I find out that you are spouting nonsense again, I will come back anytime, anywhere, and I will take your life!"

Alagrak was already crying. He was already in so much pain, yet he still had the mood to spout nonsense to him?

Yu Tian turned around and swaggered out of the base. No one could stop him.

Even outside the base, the heavily armed defenders watched as Yu Tian walked out of the base and retreated.

Five minutes later, Yu Tian was standing in front of the gate of the century fortress.

Looking Up, the century fort looked like a large medieval castle. It looked very luxurious and noble.

This had always been the residence of the highest president of Barker.

Ever since Tilarenk became the highest president of Barker, he had been living here.

At first, he thought that this guy would choose a more secluded place. He didn't expect it to be so open. Obviously, he didn't think much of himself.

At this moment, the fortress's door opened automatically. A white-haired old man in a decent suit stood in front of Yu Tian and said with a smile, "Hello, Mr.

Yu Tian

Mr. Tilarenke is waiting for you. He has prepared a very sumptuous dinner for you. Please come with Me Now!

Yu Tian flicked his eyebrows. It seemed that Tilarenke already knew that he had come to Barker and how pretentious he was in the base.

Therefore, he felt that those useless defenses were useless compared to his own strength.

It was better to sit down and chat while drinking.

Under the lead of the Butler, one day, they walked into the dining hall of the fortress.

In this dining hall that was like a palace, the ten-meter-long table was filled with all kinds of food.

Tilarenk was waving the knife and fork in his hand while looking at Yu Tian coldly. He said indifferently, "This is indeed the food I prepared for you. Sit down and have a drink with me!"

The Butler poured a glass of red wine for Yu Tian.

Yu Tian put it in front of his nose and smelled it. The red wine was really good, but he said disdainfully, "Your people are starving outside, but you are eating and drinking here,

"Why are you so big-hearted?"

Tilarenk also drank a mouthful of red wine and said matter-of-factly, "Otherwise, why would I want to be a senior CEO? I want to enjoy what others can't enjoy"

"Not only the food here, but also the supreme power. I think you already have all of this!"

Yu Tian grinned and put down his glass randomly. Although the wine was good, it was not worthy to be tasted by himself.

Instead, he said coldly, "What I have is different from what you have. I earned it with my own strength. How did you get it?"

Tilarenk sneered and looked at Yu Tian coldly, "You shouldn't Be Here!"

?Chapter 598 – Chapter 598 Was A Means To An End

Thank you readers!

Tilarenk looked at Yu Tian coldly and said in a deep voice, "Actually, you know me, and I know you. You are the son of Yu Dianlie from the cultivation world, and I also come from the cultivation world,

"I originally didn't want to be your enemy, but you attacked me step by step. The reason why I came here from the cultivation world was because I didn't want to suffer the pain of snatching cultivation resources,

"I just wanted to be my CEO in the mortal world. I could eat whatever I wanted and play with whatever I wanted, but you insisted on ruining everything,

“Even if your father Yu Dian Lie was here, he wouldn't be so ruthless!”

Yu Tian laughed and said disdainfully, “He is him, and I am me. We are not the same people, so you'd better not mention him in front of me. That will make me even angrier,

“I originally wanted to communicate with you in a friendly manner, but if you mention that old man again, I will use my fist now to let you know what the violence of the mortal world is!

However, Tilarenk shook his head helplessly and said in a gloomy voice, “I will not fight with you. Although I am nothing in the cultivation world, I still disdain to fight with people like you here,

because I cherish my own life, and I cherish everything I have gained today. If I want to fight with you, the two of us can not tell the winner from the loser,

I also know very well why you came here? You just want to see how strong you are through me, so we don't have to fight,

now I can clearly tell you that my cultivation system is different from yours.

When I chose in the cultivation world, it was a mistake,

I didn't choose an offensive cultivation method, but chose a defensive cultivation method. Even so, with your current strength, you can't break through my defense,

“Therefore, if we were to fight, it would be a long and drawn-out battle. There would never be a winner. So, to put it simply, we can only draw,

Since such an outcome can already be analyzed, then why are we wasting time to fight?”

However, Yu Tian didn't think so. Instead, he said even more excitedly, “I don't care how long the battle between us will last. What I care about is..., can I let you die in my hands? Although my current level is not very high, the more this is the case, the more I want this opportunity. You Don't have to waste your breath on me!

As soon as he finished speaking, Yu Tian did not want to waste his breath on him anymore. He directly kicked Tilarenke.

The moment the dining table exploded, Tilarenke did not even blink. He did not even Dodge. Instead, he used his body to come into contact with Yu Tian's kick.

At this moment, Yu Tian felt as if he had kicked a huge rock. There was no point of force at all. Instead, his legs were numbed by the strength displayed by Tilarenke's body.

Tilarenke laughed and said disdainfully, "Yu Tian, you don't even know what the cultivation world is like. How dare you attack people in the Cultivation World?"

"I don't want to fight with you for the sake of your father, Yu Dian Lie. Besides, it's a waste of time. How about this, I'll just sit here and let you hit me three times"

"If you can hurt me a little, I'll consider it as your win. I'll hand over the entire country to you. From now on, you'll be the highest CEO here. You can do whatever you want"

"And I'll also disappear. What do you think?"

His arrogance completely ignited Yu Tian's anger.

Yu Tian didn't believe that his defense was at an unassailable level? How could it not have any weaknesses?

Thinking of this, Yu Tian exploded with extreme strength and punched Tilarenk in the face.

However, after this punch, Yu Tian's anger instantly disappeared by half.

Tilarenke didn't even move. He just sneered and said, "You can continue, but your strength can still be stronger. Don't make me feel nothing!"

Yu Tian frowned. This guy was indeed an expert. His defense was simply astonishing.

He could even be compared to Boville Trus.

However, Boville Trus was naturally invincible and had an immortal body.

However, this guy in front of him definitely couldn't have an immortal body.

The higher his defense was, the easier it was to break through.

Thinking of this, Yu Tian took out a golden needle without anyone noticing.

Then, he threw a second punch at Tilarenk.

This time, Tilarenk still didn't Dodge. He calmly watched Yu Tian attack him.

The moment his fist hit his face, he didn't feel anything at all.

At this moment, Yu Tian suddenly stabbed the golden needle into Tilarenke's eye.

Tilarenke didn't expect that Yu Tian would use hidden weapons.

The golden needle directly stabbed into his eye, and a fierce pain instantly climbed up to his brain.

Tilarenke's body suddenly leaned back, and blood flowed out of his eye socket. The eye that was stabbed was completely blind.

At this moment, Yu Tian didn't give him any chance at all, and once again threw a punch with extreme strength.

This punch hit Tilarenke's heart.

With his injured eye, Tilarenke's defense was greatly reduced, and he couldn't withstand Yu Tian's punch at all. His entire body was sent flying several meters away, and after crashing into a huge stone pillar, he fell heavily to the ground.

At this moment, Yu Tian first stabilized his strength and came before Tilarenke. He smiled coldly and said, "Didn't you say that your defense could ignore my attack?"

"But why are you lying at my feet now? The feeling of being slapped in the face isn't good, right?"

Although Tilarenke, who was spitting out blood, only had one eye left, he still looked at Yu Tian unwillingly and said coldly, "You used a hidden weapon. Otherwise, do you think you can hurt me?"

Is this all your Yu family can do? You really make me look down on you!

Yu Tian laughed and said disdainfully, "I'll tell you again. The Yu family is the Yu family and I am me. Why are you always so stupid that you can't tell? Don't you deserve to die?"

Since you want to be the boss here, then you should treat your people well. However, you don't do that. You first set up a biochemical factory and made all the bastards in the sea climb up to the shore to protest,

then, you even showed off to me in front of the entire world. I didn't even say that I wanted to beat you up, but you started killing your people. This is how you are the boss, now, you are being stepped on by me. You still talk to me about using concealed weapons. I will use concealed weapons. What can you do? You don't care what I do.. As long as I can kill you, I will have my methods!"

?Chapter 599 – Chapter 599, Everything Went Smoothly

Thank you readers!

Tilarenk wanted to continue, but Yu Tian didn't want to hear it. He punched Tilarenk in the head, and his brain exploded.

Yu Tian picked up the golden needle and shook off the blood stains. He didn't think it was interesting.

This time, he didn't comprehend anything and happily took care of this expert.

The people in the cultivation world were only so-so.

Yu Tian immediately picked up Tilarenk and teleported him to the vicinity of the Defense Department's base, throwing him at the entrance of the base.

The defenders at the entrance were so scared that their heads were about to change shape.

This was their CEO, how could he be killed by Yu Tian?

The news quickly spread to Elajack's side. He quickly carried people out of the base and confirmed that the person lying on the ground was their supreme CEO, Tilarenk.

At this moment, Elajek's facial features were all twisted together. Tilarenk could be killed, so Barker did not give any more orders to the supreme CEO.

Yu Tian coldly said, "Listen up, your supreme CEO, Tilarenk, has been killed by me, and the conflict between us will not continue,

"I only have one request for all of you. If you don't want me to launch a large-scale attack on you, you will immediately restore order to Barker. I don't want to see you massacre civilians anymore, otherwise, I will make all of you disappear. Do You Hear Me?"

Alagrajk hurriedly nodded and said sincerely, "As you wish. Actually, we don't want Barker to fall into civil strife either. Now that the Supreme CEO has been killed by you..,

"I also believe that our new Supreme President definitely doesn't want to have a conflict with you. So, I hope that there will never be a war between us!

Yu Tian nodded. There was no value in staying here. Now, he could return to lire and see if the experts had developed an antidote?

However, what made him somewhat helpless was that the efficiency of the experts was really slow.

It had been such a long time, but the antidote to clean up the pollution had yet to be developed.

At that time, Roderick's side had robbed several of Roderick's territories. Now, the two gangs were fighting everywhere.

The entire Rige slum area was like a pot of porridge.

In order to ensure the safety of the rich district, Rige's Defense Department had set up a long line of defense between the rich district and the slum area.

As soon as any armed gangsters approached, they would immediately open fire.

When Yu Tian saw this, he smiled indifferently. "This is not harmful to them, and it seems that Cicero hasn't made any moves yet, this means that we haven't hurt his fundamental, so we have to work harder!"

Chu Jia nodded and agreed with Yu Tian. She added, "Are you right? and according to the information I've gathered,

"There doesn't seem to be a large-scale conflict between Roderick and

Roderick. They are now seeking to negotiate to resolve their conflict,

So I feel that your strategy might not go smoothly. Of course, this is just my opinion. Until now, I still don't know what you think!

To her, Yu Tian's thoughts were unfathomable.

At the beginning, they had agreed to target Rodriguez, but Yu Tian suddenly changed direction and unilaterally supported Rodriguez.

But Rodriguez simply did not have the strength that they wanted.

Now, the defenders were attacking Rodriguez's people everywhere. In comparison, Rodriguez seemed to be very wronged. Not only did he get the support of the slums, he even got some support from the senior management department.

Yu Tian chuckled and said indifferently, "My idea? Don't you know my idea now? No wonder, your IQ is so high,

"No matter how smart you are, you can't think of my level. Think carefully, if we suddenly appear to support Roderick, let him take our weapons and kill people everywhere,

do you think he would do that? He would definitely take our weapons and secretly develop his own strength, and in the end, he wouldn't be able to support our ideas,

he might even betray us, but there's no denying that he does have that strength, and he's also the key to completing our ideas,

so we have to put some pressure on him, and that pressure is Rodrick, and most importantly, don't forget, the top management doesn't want to see violence in the ghetto,

they prefer Rodrick, because as long as they support him, the ghetto conflict can be suppressed, and they only have to pay a little bit of benefit,

“Rodriguez will serve them like a dog, so now we're not giving him enough pressure. We still have to continue playing this game!

Yu Tian's analysis was particularly reasonable. Chu Jia's face blushed slightly when she heard this.

In terms of IQ, she had always thought that she was very smart, but compared to Yu Tian, they were really not on the same level.

The questions that Yu Tian considered were very, very comprehensive. Moreover, his horizons were also broader than his own.

The entire plan, from beginning to end, from top to bottom, Yu Tian had considered it very clearly. Moreover, his train of thought was also very clear.

It seemed that the fate of the 108 sisters would always be like this. They could only be held in Yu Tian's hands.

An hour later, Yu Tian arrived at Roderick's residence.

At this moment, this small villa in the slums was protected by dozens of fully armed gang members.

Yu Tian even saw a few people holding rocket launchers on the building in the distance.

Roderick personally went out to welcome Yu Tian. He was very polite and said very warmly, “Boss, I've finally waited for you to come. Pve prepared the best coffee for you. Please come in!

When he turned around, Yu Tian saw that there was a weapon on his waist.

Obviously, the negotiations between him and Roderick were not going well.

After entering the room, Yu Tian gently sipped his coffee. The taste was not bad. At least, it was much better than the horse urine-like wine in the bar.

Putting down the coffee cup, Yu Tian smiled indifferently and said, "I heard that you're negotiating with Roderick. How's The Progress?"

Rodrik frowned slightly. This Easterner's intelligence gathering methods were really amazing.

Few people knew about the negotiations between him and Rodriguez, but he knew.

In that case, there was nothing to hide. Rodrik shook his head slightly and said helplessly, "Rodriguez deserves to die.. If I still have a weapon now, I will definitely kill him!"

Chapter 600 – Chapter 600, Continue To Support

Thank you readers!

Roderick said fiercely, "I originally didn't want to create a large-scale conflict with him. After all, people would die in every conflict. This is completely different from my previous thoughts,

"So, I wanted to negotiate with Roderick to obtain the territory I wanted. However, that Roderick obtained the support of the Defense Department,

he actually had the audacity to ask me and my people to leave Lige as soon as possible. Otherwise, he would join the Defense Department and launch an attack on my territory,

moreover, the most shameless thing was that in order to protect his territory, Rodriguez actually betrayed the interests of many gangs. The underground order of the past was now in chaos,

"According to what I know, at least a dozen gangs have been tricked by Rodriguez. Now, their thoughts are the same as mine. They all want to kill Rodriguez,

It's a pity that we don't have enough weapons on hand, and we also don't have good equipment to resist the people from the Defense Department. So now, we are all considering whether we should leave this place!

Yu Tian laughed and said slowly, "This is inevitable. If Rodriguez wants to protect his territory, he will stop at nothing, and you guys are not as strong as him"

"Now that Rodriguez is working with the Defense Department, you guys have no chance at all, but this is not completely true. I have an idea, but I don't know if you guys can listen to it?"

When Rodriguez heard that there was a good idea, he immediately perked up. He hurriedly asked, "What Good Idea do you have? I really want to hear it!"

"It's very simple. If Rodriguez can work with the people from the Defense Department, then you gangs can also work together to fight against him. I believe that as long as you gangs can work together"

"If we add up our strength, it won't be inferior to Rodriguez's. What do you think of this idea?"

Rodriguez was a little hesitant, and the excitement on his face was gone. Instead, he said calmly, "I've thought of this idea myself, but it seems unlikely to be realized"

"First of all, the biggest problem is that we don't have the support of weapons.

and the other problem is that if all of our gangs work together and confront Rodriguez

"Then there will be many innocent casualties among the people in the civilian area. Every one of us grew up here. This is our home. If we watch our home being destroyed...

"We are willing to leave this place. We don't want to watch our people die at the hands of Rodriguez!

So this Rodriguez really had a sense of justice.

However, this kind of justice was not suitable for the current situation.

Yu Tian shook his head impatiently and said indifferently, "Your idea is good and worthy of praise, but you don't see another level. Do you think that if you leave..., or if you compromise, then Rodriguez can turn this place into heaven? I think not only is it impossible, but he will also act wantonly in the territory that you once controlled,

when that happens, your relatives, your families, will be no more alive than dogs, and lives will be worthless in the hands of Rodriguez,

and he has the support of the Defense Department, and it's very likely that he'll turn the glades into a slave ring for the high command. Do you think your departure will be of any value then?

If I may say so, not only will it be of no value, but it'll make this place even more chaotic, and if I Were you, I'd take up arms against them,

oh, and the weapons you mentioned, I can continue to supply you, and I can also supply you with heavy weapons, if you want missiles, I can give them to you, as long as

you can kill Rodriguez, I can get you tanks, now I give you two choices, you can either take your people and leave here,

don't come back for the rest of your life, and forget about this place, pretend you never came here, the second choice, you call all the gang leaders who want to rebel against Rodriguez to see me,

“Then, take the weapons I've provided you and bravely fight with Rodriguez to the end. Use this method to protect your territory and protect your home, “Now you can think about it yourself. which choice do you want to make?” Yu Tian leisurely picked up the coffee and drank it elegantly.

Rodriguez was rendered speechless. Yu Tian's analysis was quite reasonable. He thought that if he quit, he would get the peace here.

But he was right. After he left, not only would Roderick not change, but he would also become even worse.

Because Roderick himself was a greedy beast. He would never be satisfied with what he had now.

Thinking of this, Roderick suddenly stood up and said firmly, “You are right. We can not retreat. This is also to protect our home,

So we should all stand up bravely and fight with Roderick to the end. You can drink your coffee here first. Wait for a while, I'll call all the other gang leaders here right now!

Actually, Yu Tian had already guessed Roderick's choice. The reason why he gave him this choice was to let him know that he was not forcing him, but helping him.

In this way, Roderick would be even more grateful to himself and wouldn't doubt himself.

This was using a person's highest realm to let him take the initiative to let you use him, and also to thank you.

Soon, more than a dozen gang leaders all came to Roderick's home.

They warmly greeted Yu Tian.

One of the men, who was 50 years old, said in a deep voice, “Sir, Roderick has already made your support for us very clear,

“First of all, we appreciate your support, but there is one thing I want to know, why are you helping us? “Is it really like you said, you want to develop industries here,

“You want to make money here, but I have simply calculated, the weapons you have provided us, and your support for us, how many years of industry will you need to earn it back?”

So I think you don't want to do industry here. If you really see us as people you trust, then I think you should tell us what you really think!

This guy was quite smart. No wonder he was so old and could still be a gang leader.

Yu Tian chuckled and said indifferently, “You think too much. You always calculate when I can make money back?”

But do you know what industry I want to Do? Do you know what I want to make money from? So I won't hide it from you. What I really want is the money in the pockets of some people in the rich areas.. You should understand this time,
