

I Have 108 Older Sisters #Chapter 601 - Read I Have 108 Older Sisters Chapter 601

?Chapter 601 – Chapter 601, Gang Alliance

Thank you readers!

This reason was very convincing. All the gang leaders present nodded their heads in support.

“He's right. Those rich people in the rich district, their money is provided by US commoners!”

“The rich always exploit these commoners to develop their wealth. I think we should take out all the money in their pockets and give it to the poor!”

“I support your idea. In the heat of the moment, the rich are the ones who deserve to die!”

Everyone's heart was filled with passion. Yu Tian felt that these people wanted nothing more than to trample all those rich people under their feet to have fun.

However, there was only one person. The old man who spoke had no extra expression on his face.

Just as these people gradually quieted down, the old man began to speak again.

“Sir, your idea is good, and we can support you, but I have a feeling that after we kill a group of rich people, we will personally support another rich person.”

“In that case, we don't have to care about anything else, but what I want to know is, if it is just a transaction between us, then after we help you kill Rodriguez”

What benefits can we get?”

This old fart was really smart, but Yu Tianguo's face was full of disdain. In front of him, his intelligence was not even worth mentioning.

How many people in the world could surpass his intelligence?

The old man was just looking out for benefits, but this was no different from Rodriguez.

If it wasn't in front of the others, Yu Tian wouldn't have bothered to explain to him and would have killed him directly.

But now, for the sake of future plans, he had to endure this idea and patiently explain it to them.

“Of course there are benefits for you. As long as you help me kill Rodriguez, control the civilian areas here, and let me set up my industrial company”

“Then in the future, all your weapons will be provided by me. Each of you will receive a large sum of money, enough for you to find a hundred old ladies for the rest of your lives”

“People who eat, drink, play, and dance in the square all day long!

The old man did not seem to be satisfied with this condition, but Rodriguez and the others felt that this condition was already very good.

Only the old man took a sip of coffee and slowly stood up. “This condition is indeed good, but I still have to consider it. After all, we are risking our lives” “If my people don't agree to this, I can't make this decision for them, so I won't join your plan!”

This old man was simply courting death here.

Tomorrow looked at him coldly and said indifferently, “I think you should be very clear now. If you don't join us, you will be our enemy in the future, because you will always join one side,

at that time, my strength and Rodriguez's are on par. What will you do in the middle? If you don't agree to join us now, you will join Rodriguez's side in the future,

“At that time, if we are not enemies, then what are we? In this conflict, no gang can remain neutral, including you,

“If we are destined to be enemies, then you should die now!

Before the old man could react, when everyone thought that Yu Tian was just talking, Yu Tian suddenly threw a punch at the old man.

His movement was as fast as lightning, like a shadow.

When the old man let out a muffled groan, blood had already spurted out of his mouth. He fell straight to the ground and died.

Everyone was so scared that they all stood up. Roderick said with a face full of cold sweat, “My God, how did you kill him?”

Yu Tian calmly waved his hand and said with a smile, "I said, if he doesn't join us now, he will be our enemy in the future. Do you want him to follow Rodriguez to target us in the future?"

After witnessing Yu Tian's methods, everyone was especially afraid.

Most importantly, Yu Tian was right.

That old fart didn't want to join them in front of such good conditions. He would definitely cooperate with Rodriguez in the future.

Because Rodriguez was at the right time and had the support of the Defense Department, in many people's eyes, Rodriguez would definitely have the final say in the future of the lire civilian district.

Therefore, killing him now was the best choice.

This young man from the east was very decisive and very spicy. He was definitely not a simple person.

Only by following such a person would they have the strength to go against Rodriguez. Only then would they be able to obtain the greatest benefit in this conflict.

Thinking of this, everyone expressed their stance.

"You're right. If you don't join us now, you'll be our enemy in the future. Many of our people will die at his hands. Therefore, killing him now is the best choice!"

"That's right. We're now an alliance of the gangs. We're people who stand together. Our enemy is Rodriguez. We'll definitely kill that guy under the leadership of this gentleman!"

"My men will definitely listen to your orders. Now, the command is in your hands. We will do whatever you want us to do!"

Yu Tian was quite satisfied with everyone's comprehension ability.

Then, he said indifferently, "Very good. I think you are the real smart people. In the face of this conflict, only by not following me can you obtain the greatest benefit"

That gentleman was right. We are now a gang alliance. Roderick, you can officially declare war on Roderick in a while. But before that..,

i should fully arm you guys. With your current combat strength, if you really fight with Roderick, you won't be able to get any benefits!

Roderick was still immersed in the fear that Yu Tian had created. What was Yu Tian going to say now? What would that be? He didn't say a word.

An hour later, at a very secret port in Lire, Tyrone immediately smiled when he saw Yu Tian.

“My boss, I really missed you to death. I didn't expect you to come to lire personally. If I knew you were here, I would have brought the good wine that I collected from the world to have a drink with you,

instead of only bringing the weapons and ammunition behind me, it looked especially stiff!

Yu Tian also laughed and said proudly, “You can drink anytime, but the most important thing now is to help those idiots behind me win this conflict,

because they all have the same enemy, that is Rodriguez. They hate him to death, so these weapons can help them vent their anger.. Isn't that great?”

?Chapter 602 – Chapter 602, The Mysterious Supporter

Thank you readers!

Tyrone especially agreed with Yu Tian's words and said with a warm smile, “In short, boss's meaning is always right. And I also know that every time you want to support a regional conflict..,

it must be to create a big plan in this region. I am already familiar with you as if we are the same person!”

Yu Tian shook his head helplessly. It seemed that his personality should change as well, so that these guys wouldn't always be able to find their own way.

Without further ado, Yu Tian brought Roderick and the other gang leaders to personally inspect the weapons.

Tyrone introduced, “Because my boss came here personally, the weapons this time are even better than the last time,

“And my boss said that we need some big killing machines, so I specially brought a hundred ground bombers for you!”

As he spoke, Tai Long took out a weapon that weighed dozens of pounds from the box with both hands. He then said proudly, “Although this bomber can't be compared to the one developed by Chu Yan industry”

“But for you gang members, it's enough to use. It can fire 75 bullets per second, with an effective range of 200 meters. Each bullet has a diameter of more than 3.5 centimeters.”

“It's no different from a small mortar shell. When fired consecutively, it's a ground bomber. Moreover, it's equipped with a small target guidance system to make your bombing more accurate,

“A single bullet can accurately blow off a fly's leg. It's absolutely a perfect weapon!

Roderick and the others were like country bumpkins. They were fooled by Tyrone without even blinking.

If they could hold such weapons in their hands, they could beat Roderick so badly that his head would pop.

Yu Tian did not have any thoughts about these things. Thermal weapons were not his first choice. In this world, there was still a place for them to use them.

However, in the cultivation world, you did not even have the chance to use thermal weapons.

Yu Tian looked at the other boxes. Other than the big killer weapon, there were other conventional weapons as well as bullets and so on.

After distributing these items to the gangs, Yu Tian ordered on the spot, “Now use the weapons in your hands to fight with Rodriguez!

To be honest, Yu Tian also picked up an assault weapon.

Although he disdained to use such things, it was just an act in his hands.

Following them to participate in this conflict, he also experienced the feeling of a large-scale battlefield.

Under the leadership of Roderick, the gang alliance had about 500 people and directly charged into Roderick's territory.

As long as they saw a gang member with a weapon, they would immediately kill him.

Very quickly, most of Roderick's territory was occupied by the gang alliance.

At this moment, Rodriguez, who was in the mansion, frowned when he received the news. He said gloomily to the higher-ups of the gangs behind him, “Rodriguez, that bastard”

“I’ve already spared his life, but he still dares to mess around in my territory. Moreover, he has killed so many of his subordinates. This time, I will definitely not let him go!

One of the men, who was sitting leisurely on the sofa and wearing a black suit, smiled indifferently and said, “They’ve only snatched some territory, and we’ve only lost a few people,

“Here, we’ll never lack people who can pick up weapons and stand on our side.

Moreover, their comeback this time is clearly a declaration of war against us,

“However, there is one thing that I feel very suspicious about. Who exactly is supporting them from behind?”

Rodriguez was silent for a moment. Then, he fiercely drank a mouthful of wine and fiercely said, “Right now, I am not thinking about the supporters behind him. Right now, I only want Rodriguez’s life,

“He is my relative. He actually brought other gangs to oppose me. Even the supporters behind him can not do this,

“As long as I kill them all, no one can be used by that so-called supporter!

Another high-ranking official said expressionlessly, “Mr. Rodriguez, although your idea isn’t wrong, this conflict has already angered the senior management department,

“According to the information I received, Rodriguez organized more than 500 people with very advanced weapons to crazily charge into our territory and seize some of our nightclubs and other businesses,

“They distributed all the things they seized to the poor people, including food, medicine, and cash. Although this didn’t cause too much of a loss to us,

but they had the support of the civilians. The senior management department didn’t want to see this scene, so what we should do now...

is to ask the senior management department not to think that we’ve been letting Roderick create this conflict!

Roderick nodded and said coldly, “I’m also thinking about this problem, but now that the fire has burned, we have to burn like them,

otherwise, our retreat can only make them think that I am afraid of them. Since they want to take over our territory, they want to use this conflict to create pressure for me,

“Then I will show my weak side in the senior management department. You immediately call Parvaldo in the Defense Department and let them come out and clean up these bastards for me!

The expressionless senior felt that this idea was especially good and said coldly, “Mr. Rodriguez, Parvaldo will definitely be very willing to cooperate with you,

“We sent him some sponsors previously and he liked it very much. Now is the time to use it. Moreover, only his people can stop Rodriguez,

“But the supporter behind Rodriguez is also very important. The senior management department wants to not only stop this conflict, but also find the supporter behind it. Only then can this conflict..,

“It will never appear again!

Rodriguez smiled disdainfully and said coldly, “The supporter behind it has nothing to do with me. He definitely doesn't want my territory. He just wants to use me..,

“To create pressure for the senior management department. We do our own thing and don't need to care about anything else. As for the senior management department, I naturally have something to deal with them, now, the main thing is to use the Defense Department, to help us get back our lost territory, that's what I Want!“

?Chapter 603 – Chapter 603: Never Cower

Thank you readers!

Soon, a large group of defenders, armed with heavy weapons and shields, charged into the occupied territory.

After all, Roderick and the others were just some idiots from the gang. When they saw those well-trained defenders, they started to retreat after only a few hits.

When Yu Tian saw this, he felt that it was ridiculous.

It was not easy for him to experience the scene of a large-scale war, but he did not expect to be on the side of a group of idiots.

Just as Roderick was about to retreat, Yu Tian went up and gave him a big slap. He beat Roderick up on the spot.

Yu Tian said coldly, “Look at you. You haven't done anything yet and you want to retreat. With your little dog guts, how are you going to fight with Roderick?

Are the weapons I gave you all toys? Especially that ground bomber. Pick it up and fight them?a€?

After calming down, Rodrik felt that what Yu Tian said made sense.

He had these advanced weapons in his hands. They were even better than the weapons used by the defenders. There was no reason to be afraid of them.

Thinking of this, Rodrik wiped the cold sweat off his face. He turned around and shouted to the other gang leaders, a€?No one is allowed to retreat. Use the ground bomber for me!

With his leadership and Yu Tian's personal command, the gang members who were already afraid and wanted to retreat regained their spirits. They picked up the ground bombers and bombarded the defenders.

The defenders held shields in their hands and could block ordinary bullets.

However, when faced with the ground bombers, shields were useless. In the blink of an eye, they were bombarded and fled with their heads held in their hands, wailing on the ground.

Roderick's people became braver as they fought. They continued to push forward and completely destroyed the defensive line that the defenders had set up.

When the commander of the defenders saw this scene, he immediately shouted to pavarto through the radio, a€?They have absolutely advanced weapons. Our people have suffered heavy casualties. Now, we need support!

Sitting in the quiet office, pavarto, who was licking his saliva and counting money, said disdainfully, a€?They are just some gang members. How can they have such powerful weaponsa€|

a€?You are all well-trained defenders. You have been fighting against them all year round. Can't you do it this time?a€?

The commander of the defenders said urgently, a€?This time is different. They are using ground bombers, which are the most powerful ground weapons in the world. I strongly request that you send tanks overa€|

Otherwise, I can not watch my men die in their hands, so I will retreat!

Parvaldo suddenly frowned. Ground bombers. He knew that kind of weapon. How could Roderick and the others have such advanced weapons.

If this continued, the senior management department and the President would be very angry.

Thinking of this, Parvaldo immediately ordered the commander, "All of you can not retreat. For the time being, prepare your defenses. I will send tanks and helicopter gunships to support you now,

no matter what, you can not lose this battle. Otherwise, I will not be able to explain to the senior management department and the Senior President!

The commander nodded and said helplessly, "I don't know how much longer we can hold on. I hope that when we still have people alive, your support will come quickly!

Twenty minutes later, the sky suddenly rumbled.

Sitting in the bar, Yu Tian was drinking while commanding the battle. He looked up indifferently.

It was five armed helicopters.

This time, Yu Tian didn't give any orders. Roderick's side could definitely take care of these armed helicopters because they had guided missiles in their hands. What was there to be afraid of.

Yu Tian put down his coffee cup. There were dozens of guided rockets on the ground that shot into the sky.

The armed helicopters exploded one after another and crashed to the ground.

When the commander of the defenders saw this scene, he was in complete despair.

Those were their most advanced armed helicopters. It was not easy for them to get here. They did not even fire a single bullet before they were blown up.

He immediately picked up the radio weakly and said very calmly, "Mr. Parvaldo, your helicopters have all been blown up. Roderick even has guided rockets on the ground"

"We are no match for them at all. This is no longer a gang conflict, but a war. You can either continue to send attackers, or give up this battle and admit defeat!

He didn't want to waste any more words. The President of the Defense Department, Pavardo, wasn't a qualified president at all. Other than liking money, he was nothing.

At this moment, Pavardo finally couldn't sit still.

This Roderick actually had so many advanced weapons. Where did he get them?

Who was the supporter behind him? How could he have such powerful strength?

But now, there were no more attackers in his hands.

Because most of the defenders and attackers had created a line of defense in the rich district to ensure the safety of the rich district.

And the defenders and attackers in other areas couldn't be mobilized so quickly.

The only way now was to transfer some people from the line of defense in the rich district to help them.

At the thought of this, Parvaldo immediately gave the order.

At this moment, Yu Tian, who was in the bar, had a smile on his face.

He called Roderick to his side.

Roderick was very excited. He had never fought so well and so happily.

After he drank a glass of wine, he said gratefully, "Boss, if it wasn't for your encouragement, we might have lost again. But now, our people are very brave..., "We will never retreat. We will definitely fight them to the end!"

Yu Tian shook his head and said disdainfully, "Now it's time for you to change your mind. Don't fight with them anymore. You should know that their retreat is not to admit defeat, but to wait for time"

"Their support will come soon, so this is a very good opportunity for us!"

Roderick didn't understand Yu Tian's meaning at all. He looked at Yu Tian like a fool and asked in a low voice, "Why? We're having fun now. We're not afraid of them no matter how many people come!"

Yu Tian was too lazy to explain to him, but there were some things that he had to make clear to him.

"Listen well, this is called a tactic. If they want to defend this battlefield, they have to gather defenders from other places. This is a great opportunity for us"

"We can take advantage of the gap in their defense line in the rich area to enter the rich area.. Isn't this what you've always wanted to do?"

?Chapter 604 – Chapter 604, The Fragrance Of Flowers Sings Late

Thank you readers!

It was just a small conflict in the slums. No matter how loud the commotion was, it would be useless.

The senior management didn't care at all. Even if a lot of civilians died, they wouldn't have any sympathy for them.

In their eyes, civilians should die at any time and place. Their lives weren't worth a single cent.

Moreover, the defenders were being beaten back at this time. They could not give up on the entire civilian area. That would mean that they had completely lost the battle.

They did not lose themselves, but the face of the entire senior management department.

Therefore, they would mobilize a large amount of support here. However, based on the current layout, if they wanted more defenders, they would have to mobilize them on the defense line of the wealthy areas that they had built.

Otherwise, it would be impossible to have so many defenders.

This gave him a chance.

Roderick finally understood Yu Tian's meaning and could not help but admit defeat.

He had not thought of this.

For example, in today's battle, if it was not for Yu Tian's support, his side would have long been defeated. What else was there to fight?

Thinking of this, some of them immediately asked respectfully, "Then what should we do now? Retreat immediately?"

Yu Tian crossed his hands behind his back and said indifferently, "Only a small number of people are left here. The others will follow me to the wealthy district. However, we can not pass through their defensive line,

that will only cause unnecessary sacrifices. You are a person here. You should know that there are other ways to enter the wealthy district!

This was finally asked. Roderick nodded confidently and said with a smile,

"Yes, I have many ways to enter, but my proposal is..,

we can enter the rich district through the underground drainage system. That was originally our smuggling passage, because there are many good things in the rich district, and it is also very popular in Kunming district,

“We often use that passage to bring out the things that the rich people go to. Moreover, that passage is relatively wide. It is suitable for us to go there together!

Yu Tian nodded and chuckled. “Then what are you waiting for? Take your people and set off immediately!

Under Roderick's lead, hundreds of people silently entered the underground passage.

Yu Tian felt that this place was like a maze. If it wasn't for Roderick's lead, it would be easy to get lost.

But soon, they were at the exit of the wealthy district and left the passage one after another.

Yu Tian looked around and saw that the wealthy district and the commoner district were worlds apart.

This was a very modern city. One tall building after another was spread throughout the city.

The busy crowd in the distance was either in suits or in jewelry.

Compared to the poor people in the commoner district, this place was like heaven.

Yu Tian didn't feel anything. This was naturally how it should be. Otherwise, how could it be called the rich district?

But for Roderick and the others, this was the place they hated the most.

How could the people here enjoy such a good life, while the people in the commoner district had to live their lives in poverty?

When Yu Tian felt their aura, he immediately gave an order.

“Roderick, now it's time to see your courage, but don't go and fight those people. You can destroy some of the important equipment here, such as the bank and so on, but you have to remember, except for the defenders, you must not kill anyone!

After saying this, Yu Tian turned around and left.

Since he was already here, he didn't need to command the rest of the work. Let Roderick do his own thing.

He had reminded him of everything he should have, but if Roderick insisted on doing that, he didn't want to stop him.

Moreover, he had already achieved his plan, successfully causing the entire lirige to fall into chaos.

It was time for Chu Jia to make her appearance, and he should go back to see Chu Qing. That woman was about to give birth, so it wouldn't make sense if he wasn't by her side.

Thus, he turned on the teleportation and directly returned to the villa in Nimela.

However, at this moment, due to the pollution of the surrounding sea, the air quality in Nimela was particularly bad.

Chu Xuan had installed dozens of air purifiers in the villa. However, Yu Tian still felt a strange smell in the air after he returned.

It was no longer suitable for him to rest and recuperate here. Yu Tian immediately decided to bring Chu Qing and the others back to the imperial capital of the eastern country.

However, Chu Min insisted on staying behind. He could also analyze the pollution here and collect some key data.

Yu Tian did not object to this. Chu Min liked these things. She liked the pollution even more than she liked herself.

The teleportation door opened. Yu Tian carried Chu Qing and entered the Chu family's mansion in the imperial capital.

Chu Aotian brought all the higher-ups of the Chu family to personally welcome Yu Tian at the door.

However, Yu Tian had already appeared in the courtyard, leaving Chu Aotian dumbfounded.

He hurriedly brought his men back to the courtyard and met Yu Tian.

This was the first time Yu Tian had come to the Chu family's mansion in the garden. He was deeply shocked by the extravagance and dominance of the place.

This place was simply a replica of the imperial palace. The layers of courtyards stretched as far as the eye could see. The ancient pavilions and palaces were neatly arranged in the garden. It was simply like a Fairyland on Earth.

After a round of politeness, Chu Aotian said respectfully, "Master, we have already tidied up the rooms. We have specially cleared out the best courtyard for you and Chu Qing. I will take you there now!"

Yu Tian nodded with satisfaction and said proudly, "Very good. Take us there now. But the surroundings must be quiet. There must not be any noise."

"Besides, you want these high costs. Go do what you need to do. You don't have to follow us. Just call me Yu Tian here. Don't call me master. I'm not used to it!"

Chu Aotian hurriedly bowed. This was the rule of the Chu family since ancient times. It must not be broken in his place.

But since Yu Tian had already requested, he had to do it. This was why he had to call Yu Tian Master.

Soon, everyone was led by Chu Aotian to the most luxurious courtyard in the mansion.

There were a total of three pavilions and twenty-seven luxurious houses. Even the kitchen and bathroom were decorated with gold and jade.

The floor was made of white marble. The corridor that was dozens of meters long with red railings was filled with all kinds of strange flowers and plants.

Walking in it, one could smell the fragrance of flowers, and it was very pleasant.

The number one family in the world really had such a way of doing things. No matter how rich they were, it was impossible for them to reach this level.

Every inch of this place was paved with money.

Putting everything else aside, this flower fragrance singing was late to the courtyard, and it was worth tens of billions. Even Chu Aotian might not be able to afford to live here..

?Chapter 605 – Chapter 605, Ceo'S Anger

Thank you readers!

In Chu Aotian's words, this fragrant flower singing night villa had been prepared for Yu Tian. It was specially prepared for Yu Tian to have a place to stay when he came to the Chu family.

Therefore, apart from Aotian, he specially ordered the higher-ups to build this villa here.

Yu Tian did not feel anything other than a little shock.

He only felt that this place was better than other places.

After settling Chu Qing down, Yu Tian went to the hall. Chu Aotian immediately ordered for the best fragrant tea to be served.

He said enthusiastically, "My lord, I am extremely happy that you are able to come here today. My entire family has contributed everything for the Yu family's great achievements,

i only hope that one day, when my lord returns to the cultivation world, he will be able to help and guide our generation. I am already extremely grateful!"

One day, he did not want to say such polite nonsense to him. He was so busy that he did not even have the time to Pee. How could he have the time to waste his saliva on him?

Thus, he smiled and said, "I am a little tired and want to rest. You are also very busy. Your old limbs are old. I am really afraid that you will have a cerebral thrombosis from exhaustion. You should go back and rest too!

Of course, Chu Aotian understood what Yu Tian meant. No matter what, Yu Tian was still a young man. He had nothing to say to an old man like him.

He might as well let Yu Tian stay here for a while and have a good rest. As long as he asked someone to serve Yu Tian well, that would be enough. It was better to cut the crap.

At this moment, Chu Hui impatiently walked into the hall. When she saw Yu Tian, she couldn't wait to dive into his arms and hug him tightly.

Chu Aotian looked at his daughter, who was so open-minded. He blushed and quickly turned around to leave.

The 108 sisters were all Yu Tian's women. No matter where, at any time, as long as he wanted to hug her, she could hug him as she pleased. He had no right to control her at all.

Yu Tian also missed Chu Hui very much. They hugged tightly and kissed passionately. In the end, the two of them became excited.

He directly carried Chu Hui into the room by her waist. However, Chu Hui's face was red and her heart was beating fast. She panted nervously and said, "No, not now!

Yu Tian frowned slightly and said with a distressed expression, "I've already taken off my pants. You're telling me that I can't do it now? Are you kidding me? You Prodigal Woman?"

Chu Hui didn't know whether to laugh or cry. She could only explain gently, "It's just that I can't do it in the next few days. Don't you understand what I mean? As long as it's another two or three days, I'll definitely satisfy you!"

With that said, Yu Tian naturally understood. It was still him who came at the wrong time. Who could he blame?

He could only helplessly stand up from the bed, grimacing, and said, "This thing was done. When we were hugging, you should have told me this first!"

Chu Hui did not know whether to laugh or cry. How could a lover meet? Not to mention other things, but to talk about this first, was he crazy?

However, looking at Yu Tian's miserable appearance, Chu Hui couldn't bear to see him suffer. Thus, he leaned close to Yu Tian's ear and whispered a few words.

Yu Tian felt that Chu Hui's suggestion was very good, so he licked his lips and chuckled. "Then I'll try out your skills!"

At the same time, in the hot weather, Roderick attacked all kinds of buildings in the wealthy district without any restraint, killing and injuring many people.

This time, it shocked the entire senior management department.

The supreme president, Cicero, was furious in his office, smashing his desk to the point that it made a cracking sound.

Wallenberg, who was standing opposite him, had his head lowered helplessly. He didn't know what to say.

The vice president couldn't help but say seriously, "President, the whole situation has gone out of control. Roderick will continue to attack here,

"Up until now, we have already suffered heavy losses. If the entire wealthy district falls, then our senior management department will fall as well. So now, we have to negotiate"

"Reach an agreement with that bastard Roderick. Only then will we be able to resolve this conflict!"

Cicero said disdainfully, "I will negotiate with a gang member? Are you kidding me? Those people deserve to be killed by my defenders in the latrine"

Then, I will wipe the stinky poop on their damn faces!

Seeing that the president's tone was a little relieved, Wallenberg mustered up his courage and said in a low voice, "President, Roderick is an idiot. He doesn't have such command ability,

moreover, he has the most advanced weapons in the world. If I am not wrong, he must have a very powerful supporter behind him,

according to the information gathered by my people, there was an Easterner by Roderick's side. It was this Easterner who supported Roderick's funds and weapons and personally led the conflict, therefore, my idea is to kill this easterner so that Roderick can be dealt with!

Cicero already knew this. Why did he need to waste his breath?

She glared coldly at wallenpal and said in disgust, "You Idiot, what right do you have to say that Roderick is an idiot? In this conflict, you completely lost to Roderick,

you actually still have the face to stand here with me. I can tell you that Roderick originally did not want to have a conflict with us, but wanted to have a conflict with his relative, Roderick,

you suggested to me that I support Rodriguez. I listened to you. What did you promise me? You said that as long as I support Rodriguez,

there would be no conflict at a distance between civilians. But now, not only is there conflict, but it also affects the wealthy areas. How much did you get from Rodriguez?

Now, you dare to stand in front of me and say bad things about Rodriguez. You're on par with him. Listen to me, I don't care how you do it, stop the conflicts outside immediately,

i don't want to see anyone else get hurt or killed in this conflict. As for the mysterious Easterner behind you, I will naturally let the intelligence department collect information about him,

"Just do your job well and get out of here right now. But remember, you only have one chance. If you can't grasp it, then don't blame me. Get Out!

Wallenberg wiped the cold sweat off his forehead. He felt that he couldn't take any more steps, so he reluctantly left the office, he said resentfully in his heart, "You will only let us do this, and you will only give useless orders in the office, a CEO like you, anyone can do it.. What an idiot!

?Chapter 606 – Chapter 606, Other Insider Information

Thank you readers!

In the office, Cicero was still very angry. He said gloomily to the vice president, "The mysterious person behind this is very powerful. He can easily create a conflict here,

"This is not only a provocation to our top management department, but also a provocation to me, the top president. But now, we seem to be very passive,

"You are the senior president in charge of the intelligence department. I want to hear your opinion and thoughts now!"

Before the vice president could speak, there was a knock on the door. The secretary-general personally walked into the office and said respectfully, "President, Mr. Vice President, the President of Chu Jia Industrial Company, Miss Chu Jia wants to see you!"

Chu Jia?

Cicero frowned slightly. At this time, she wanted to see him. Did she have anything to say?

Seeing that the President was hesitating, the vice president decisively ordered the secretary-general.

"Let her in. We want to hear what he has to say!"

After the secretary-general turned around and left, the vice president said in a low voice, "President, we should meet this person. The family behind her is the number one family in the world. Moreover, his industrial company

"Her strength and scale are especially powerful here. It can be said that no one has surpassed her until now. Moreover, she must be here at this time to talk about this conflict"

"I think there's no harm in meeting her!"

Cicero nodded slightly. What the vice-president said was reasonable. If Chu Jia's arrival could really resolve this conflict, why not?

In short, he had nothing to lose. He could do anything.

At this moment, the secretary general invited Chu Jia into his office with a smile.

It was not the first time Cicero and the vice president had met Chu Jia. They had met many times before.

So they were familiar with each other.

After the vice president invited her to sit down, he asked with a smile, "Miss

Chu Jia, what benefits have you brought us this time?"

Chu Jia smiled coldly. There was confidence in her eyes as she said softly, "I think you should know why I'm here. The conflict outside has already greatly affected us,

Moreover, from the looks of it, those thugs seem to be more powerful than the people from the Defense Department. Moreover, up until now, you haven't come up with any effective methods to eliminate these thugs,

"I do have an idea. I don't know if you want to hear it!

Cicero narrowed his eyes slightly. This Chu Jia was an easterner, and the Easterner behind Roderick, could they be together?

Thinking of this, Cicero nodded and said with a smile, "I'm all ears!

Chu Jia said slowly, "Actually, you don't know what those thugs want. or to put it simply, this conflict was caused by you"

Originally, Roderick only wanted to get some territory in the slums, but this touched on Roderick's interests, and Roderick didn't want to get rid of his relative himself,

so, he joined hands with Your Defense Department to Suppress Roderick, and even wanted Roderick to leave with his family, but this wasn't enough to make Roderick explode,

what really caused Roderick to explode was Roderick's arrogance. He did not join forces with the Defense Department. After defeating Roderick, he had to attack other gangs and turn the entire slums into a mess,

all the benefits of the gangs were touched. Do you think they would easily put down their weapons? No matter what, they would be suppressed in the end. That was why they picked up their weapons and resisted you,

"The most important person now is Rodriguez. As long as you can kill this person, Rodriguez and the others will naturally retreat from the rich district!

At this point, the expressionless Cicero suddenly asked, "Why are you so sure? Rodriguez will definitely do what you said. As long as I kill Rodriguez, he will retreat,

or did you have some kind of agreement between the two of you? So that Roderick will listen to you?"

Chu Jia smiled indifferently. Cicero was not an idiot. He was able to become the highest CEO, so he naturally had his strengths.

This sentence was clearly asking him, did he support Roderick? Did he create this conflict? Although he didn't say it explicitly, his meaning was obvious.

She then said indifferently, "I never support any gang because I don't have to do this. My business here is already the biggest, best, and most profitable. Why would I do this?"

I have already gotten what I wanted. Why would I do this? I just don't want to see the conflict outside, getting more and more intense, and affecting my business. Otherwise, I wouldn't care about this,

and I naturally have my intelligence collection department. In this regard, I think I'm doing better than you. At least I know, Roderick and Roderick, why did they have this conflict?

In fact, it is not as the rumors say. Roderick has supporters behind him. In fact, the most real scene is that Roderick got a sum of money from overseas and bought a large number of weapons,

the person who sold his weapons also has some cooperation with my business. I can immediately ask this person to stop selling weapons to Roderick. So, Roderick will definitely listen to me and stop this conflict!

Cicero and the vice president looked at each other. The intelligence gathering power of their intelligence department was indeed inferior to that of a private enterprise.

Chu Jia was able to expand her business so much, so naturally, she could not do it without the support of intelligence. Moreover, the other party had all the intelligence in the world. Compared to him, she appeared to be too simple.

After a moment, Cicero asked in a low voice, "Then, you helped us stop this conflict. What benefits do you want?"

Chu Jia said without hesitation, "I want to enter your parliament and become a member. I will support you with power, including financial support!"

Cicero suddenly understood. Before this, he thought that this conflict had nothing to do with Chu Jia. But now, it seemed that Chu Jia was the supporter behind this conflict.

He wanted to become a member of Parliament. This was what he wanted.

Thinking of this, he smiled coldly, he said gloomily, "Miss Chu Jia, actually, it's very easy for you to get this position. You don't have to create this conflict at all. You're putting me in a very difficult position right now!"

Chu Jia slowly stood up and said domineeringly, “Actually, you won't feel difficult because it hasn't touched your interests so far. But if you don't agree, the wealthy district will soon fall,

“Do you think your defender can protect your interests?”

Chapter 607 – : Chapter 607, I'M Here To Help You

Thank you readers!

Cicero's face was filled with killing intent. He wanted nothing more than to take out his weapon right now and kill this damnable woman.

He was the one who single-handedly created this conflict and made things very difficult for himself.

He even made the whole world laugh at him.

Because this conflict directly exposed the internal heat, some loopholes in the senior management, and the inability of the defender.

So much so that he didn't even have a choice now.

At least now he understood why Roderick didn't directly attack the defenders? That was because he was saving his face.

He had always maintained the conflict at the level of ordinary gangsters destroying the city, and didn't directly rise to the level of war.

If they launched a direct attack on the defenders, his position as the CEO wouldn't be hot anymore.

At this thought, Cicero gritted his teeth and said, “You are now a member of Parliament. Stop the conflict outside immediately. I don't want to hear any more explosions,

I also don't want to see any more casualties. Moreover, I have another condition. After you become a member of Parliament, you can not have any influence on the orders of the higher-ups. You can not even participate in the high “ level meetings,

“You only have the identity of a member of Parliament. You Can’t participate in all the decisions of the entire senior management. This is the most valuable thing I can give you!

Chu Jia sneered disdainfully and said arrogantly, Sir Cicero, I think you still don't understand what I mean. I didn’t cause this conflict, but you did.

“This is a loophole in your entire senior management. If Parvaldo didn't join forces with Rodriguez, how could there be an explosion from Rodriguez?”

If the world's reporters find out about this insider information, do you think it's important to end this conflict or face the world's criticism?”

“Actually, I gave you a choice, but you didn't cherish it. Now, I don't want to waste time here. If you don't let me get what I want, I won't give you what you want. It's that simple.”

“I still have a few meetings to attend. That's all for today. You can think about it yourselves!”

After saying this, Chu Jia stood up and was about to leave.

Cicero immediately looked at the vice president, hoping that he could give him a way out.

If this woman really revealed this inside story to the reporters around the world, even his own president wouldn't be able to sit still.

The vice CEO obviously understood the meaning behind this, so he immediately stood up and stopped her with a smile. “Miss Chu Jia, we're not your enemies, so we don't have to be so nervous,

we can discuss everything slowly, and the CEO's intention is to not let the senior management have too much to say. Although he's the highest CEO, there are many aspects that he can't decide on,

“He wants to consider the overall situation from the point of view of the interests and the president. So, we can sit down and talk slowly. You just need to tell us what you want,

“If the conditions allow, we can agree to anything. As you said, what's more important than ending this conflict?”

In fact, Chu Jia also wanted a way out. If she left this place, there would be no chance to talk again in the future.

Hence, she smiled and said slowly, “Actually, I'm not your enemy. We're sitting here for our own benefit. I just want to be a member of parliament here, like the other members of Parliament,

“To be able to use my own ability and strength to do something valuable for this country. This will only be good for you, not bad”

“Moreover, if I help you to end this conflict, I will also attract many interest groups behind the scenes. Therefore, before I came here, I was also thinking, why should I do this?”

“But what I want, and what I want to do, is also very balanced, isn't it? So my conditions are very simple. I only need to have my own rights like the other members. I don't need anything else!”

Cicero didn't say anything. He didn't want to agree from the bottom of his heart.

However, the vice president felt that Cicero's hesitation wouldn't help this negotiation. If he still didn't agree to Chu Jia's request.

Then, the conflict outside would continue for an unknown period of time. When all the major interest groups left Lige, the economy here would go back at least fifty years.

It wasn't developing very well to begin with. If that was the case, there really wasn't much hope for Lige to develop.

Thinking of this, the vice president hurriedly said, “The president's meaning is actually the same as what you think. He just wants to say that in some important high-level management decisions..,

every opinion and every idea is especially important. I mean this, right, president?”

The steps were already in front of him. If he couldn't make it down, it would depend on the president's own thoughts.

Cicero gritted his teeth and had no choice but to walk to the steps. He said coldly, “That's what I mean. So, Miss Chu Jia, you have become a powerful member of Parliament.

So, do I need to say anything else?”

Chu Jia nodded with satisfaction and said happily, “This is the only thing I want. Now that you have given it to me, I will naturally try my best to stop the conflict outside,

“But whether I can do it or not depends on how much power I have. If my power is not enough to suppress them, then I will get more power. President, you should understand what I mean,

“Alright, I'm going to stop the conflict outside now. As for my appointment, I hope you can pass it at the top management department immediately. I'll wait for Your Good News!

With that, Chu Jia turned around and left the office.

The moment the door closed, Cicero punched the desk and vented all the anger in his heart on the vice president.

“How could you agree to her request on my behalf? Do you know that she was the one who created the conflict outside? She used this method to threaten me and provoke the entire high-level management department,

“I even asked her to become a member of Parliament. This is a joke, a shameful joke!

The vice president shook his head helplessly and said weakly, “Then do you think we still have a choice? Even if you agree to her becoming a member of Parliament, so what?

“At that time, as long as we restrict her rights, she won't have anything to say.

Moreover, the conflict outside has already ended. As long as we get the Defense Department to strengthen their defenses, it will be impossible for her to create another conflict in the future,

“At that time, even if you let her leave the parliament, she won't have anything to say.. Isn't this our best choice now?”

?Chapter 608 – Chapter 608, Don'T Watch The Show

Thank you readers!

Cicero looked at the vice president coldly. Since it was already like this, as he said, he had no choice at all.

However, this didn't mean that he would compromise with that woman. He would let her show off in the parliament for a few days and then kick her out. He would see what she could say then.

After Chu Jia left the senior management department, she immediately gave Yu Tian a call.

She said excitedly, “Thank you, Yu Tian. I'm now a member of the Parliament. I'm really happy now. If you were by my side, I would definitely treat you to the best meal!”

Yu Tian smiled indifferently and said calmly, “Don't you think it's easy for you to get it? The easier it is to get something, the easier it is to lose it.”

“It’s not because you don’t know how to cherish it, but it’s because others don’t want you to get it. You think they agreed so readily, but in fact, they just want to use you to suppress this conflict,

“After you kill Roderick, they will kick you out again. At that time, you have no reason to blackmail them!

Chu Jia really didn’t think of this. She was so happy that she didn’t think further.

Thinking of this, she asked in a low voice, “Then what should I do? Entering the Parliament is my first step. If this plan fails, then it will be impossible for me to become the highest CEO Here!

Yu Tianguo laughed and said indifferently, “Don’t worry, I’m here now. They want to dig a hole for you, so let’s dig a hole for them to see who dug deep and fell hard.”

“They want to use you to suppress Roderick, so let’s fulfill their request. I’ll let Roderick leave the rich area in a while, but I absolutely can’t let them think that Roderick will disappear forever.

“As for that Cunning Roderick, he can’t go and watch the show now. We have to drag him into the pit and have fun with us. That would be interesting! Chu Jia immediately understood the meaning of the day and sighed in her heart.

Yu Tian was really too smart. He was always able to think so far ahead. Moreover, every time, he could turn the problem into his own weapon, and everyone who wanted to trick him could only trick themselves in the end.

Just based on this point, he was far inferior to him.

After hanging up the phone, Yu Tian immediately gave an order to Roderick.

“You can leave the wealthy district now, but don’t leave this city. Immediately return to the civilian district’s territory and wait for my order at any time!

Roderick didn’t say anything and immediately left the wealthy district with his people.

After a period of conflict, the wealthy district returned to its usual silence.

The elites of society and the wealthy began to enjoy their beautiful lives as usual.

At this moment, Chu Qing was about to give birth. The entire family’s higher-ups surrounded the courtyard, waiting for Yu Tian’s good news.

However, at this moment, a woman in a servant's uniform entered Yu Tian's study when no one was paying attention.

Yu Tian was currently in the study, studying the jade pendant.

When Chu Qing gave birth, this jade pendant would absorb a large amount of power.

However, what kind of power this jade pendant would bring to him was still unknown.

However, there was nothing to be anxious about. One day, he would unravel all the secrets.

And at that time, he would be the strongest person in this world.

When he saw the woman entering the room, he thought that she was here to tidy up the study, so he got up and wanted to leave.

However, the woman suddenly knelt at his feet. Tears rolled down from her eyes. She pleaded sorrowfully, "Lord, I Am Chu Hong's wet nurse. She grew up drinking my milk,

"I treat her like my own daughter. Chu Hong is not doing well in the Luo Jue tribe now. My lord, I know my lowly status. I don't deserve to kneel in front of you. I beg you"

"But seeing that Chu Hong is also one of the 108 sisters, I beg you to go and see her. She is currently suffering from a very serious illness. Other than me going to see her, no one in the family will care about her"

"The family also has its own rules. As a servant, I can't go to the Luo Jue tribe to see Chu Hong often. If you don't go and see her, she might even lose her life!

Yu Tian listened to her expressionlessly and felt a special ambivalence in his heart.

No matter what, Chu Hong was also one of the 108 sisters. He had a very good impression of her in the past.

However, he chose the wrong person and stood on the wrong side. He shouldn't have mixed with the traitor of his family. He even tried to kill the other sisters and even wanted his own jade pendant.

He could accept all of this. The only thing he couldn't accept was that he actually treated his feelings for her as the capital to act like a hooligan. This was a little too much.

However, looking at this woman now, she was begging him so pitifully.

If he did not agree to her request, he would probably be able to continue kneeling here. Moreover, once he became anxious while kneeling, he would bang his head against the wall. That would be meaningless.

Thus, Yu Tian put on a troubled expression and said, "I can go and take a look, but I have to say this first. I am only going to take a look. I can not decide whether Chu Hong can leave or not!"

It was already not easy for her to agree to go and take a look at Chu Hong. The woman hurriedly kowtowed and said, "Thank you, my Lord. Thank you, my Lord. As long as you can go and take a look at Chu Hong, you have already shown mercy!"

The news that Yu Tian wanted to go to the Luo Jue tribe had somehow spread in the family.

Chu Aotian was the first to object. He said with a frown, "My lord, the Luo Jue tribe is not a place for you to go. I know you want to see Chu Hong."

"It's because you have 108 sisters in your heart. It's already very happy for you to think so much about your family. However, the fallen angels tribe is really not suitable for you to go. This has always been the rule of the master."

"As long as you are ordered by master to be sent to the Fallen Angels tribe, you will never be able to leave!"

Yu Tian looked at him with disdain and said coldly, "I only know that the integrity of the 108 sisters is more important than anything else. If any one of them dies, the 108 sisters will also die."

"This is a whole. You were the one who asked Chu Qing to tell me this back then. Now that Chu Hong's health is very bad, I should go over and take a look. After all, I was once her man. Even if he shamelessly played hooligan with me."

"I can't be so cold. Stop talking.. Now bring me to see her!"

?Chapter 609 – Chapter 609, Not Resigned To Fate

Thank you readers!

Seeing that he could not stop Yu Tian, Chu Aotian could only shake his head helplessly and turn around to personally lead the way for Yu Tian.

After passing through layers of courtyards, they finally arrived in front of the last row of courtyards.

Yu Tian raised his head to take a look. The environment here was completely different from the garden in front of him.

There was nothing here except for a few dilapidated brick houses and a few withered trees.

The servants opened the gate of the courtyard and Yu Tian stepped in.

The road paved with bluestone bricks was especially hard to step on. Moreover, the surroundings were overgrown with weeds. It gave people the feeling that it was like the cold palace in the imperial palace back then. There was no heat at all.

When he pushed the door open and walked into the house, Yu Tian smelled a damp smell. He raised his head and looked into the house. On a shabby bed, Chu Hong was coughing violently.

The moment he saw Chu Hong, Yu Tian could not believe his eyes.

In the past, Chu Hong's figure was exceptionally good, but now she was as thin as a stick. It was not an exaggeration to say that she was only skin and bones.

Her entire face was like a skeleton. Her black eye sockets were deep in her eyes. Every time she coughed, her body would tremble violently.

Even though she hated her in her heart, Yu Tian could not bear to see this scene.

Chu Hong heard footsteps and thought that they were here to deliver her food. She slowly turned around.

When she saw Yu Tian standing at the door, she felt as if she was in a dream. She rubbed her eyes with her bony hands.

The moment she confirmed that the man standing under the sunlight was Yu Tian, Chu Hong was stunned.

She thought that she had been forgotten by the world, but Yu Tian came to see her at this time.

Wait, he definitely didn't come to pity and sympathize with her. He must have come to see her as a joke.

At the thought of this, Chu Hong forced herself to support her body. Her eyes, which were already lifeless, were now covered with a touch of coldness.

She said coldly, "You're here to see me make a fool of myself, right? If that's the case, you're happy now. You're also happy now, so you'd better leave. I Won't see you out!

Yu Tian shook his head helplessly and said disdainfully, "Do you think I'm as dirty as you? To think that you can really think of such a thing. If I want to see a joke, I'd better buy a joke book to read."

"Do I need to come here and endure the stench of the house and look at a skinny woman like you?"

Chu Hong's tears started to roll in her eyes when she spoke of her sadness. However, she still held back her tears. She did not want to be so fragile in front of Yu Tian.

Yu Tian did not care about this at all. He immediately turned to Chu Aotian and ordered, "Bring her out immediately. From today onwards, she does not need to be here anymore!

This kind of person was shocked. Yesterday, he hurriedly pulled him to the side and said softly, "You ordered her to be sent here. The rules of the family are that this order can not be casually changed.

This is Chu Hong's life. She has to bear it herself. However, there is one thing that you don't have to care about. The integrity of the 108 sisters will definitely not be destroyed because of her,

"The master's family will not allow such a situation to happen. I'm saying this for your own good. After all, with your current strength, you can not go against your family!

Yu Tian was a little puzzled. What was so amazing about this place? There were actually so many rules?

He frowned and asked, "Tell me clearly, what rules did I break? Didn't I make all the rules here?"

Chu Aotian shook his head and said helplessly, "You didn't make the rules. It was made by your family. The reason why we exist in this world is to create 108 sisters for you.

And it is precisely because you have 108 women by your side that, besides continuing the life of the Yu family, you also have to abide by some of the rules of the Yu family, the way of women."

That was why there was the tribe of extermination. In order to punish those people from the Chu family who were not sincere to you, or even played tricks on you, they could not leave once they entered this place,

otherwise, if other sisters were to behave like Chu Hong in the future, what would they do? If it was just one or two of them, then there would not be any problems, and you would be able to control them,

“But if there are too many women, you can't manage them even if you want to. You have no idea what each and every one of them is thinking? Unless everyone stays by your side, otherwise, you won't be able to see through some things,

“I've been through this before. I understand the reasoning behind it better than you do. Lord, please believe me. Even if Chu Hong doesn't leave this place, I'll get someone to serve her well!

When Yu Tian heard this, his heart felt uneasy.

This old fellow kept calling him (my lord', but the meaning behind his words was that he was using the clan to suppress him.

He even said that his strength wasn't enough. It would be better to just say that he couldn't defeat the clan now and had to listen to the clan's words. Wouldn't that be more pleasant to hear?

However, he had already said that he would accept the heavens and accept the earth rather than accept his fate. It was even more impossible for him to be afraid of the clan.

Thus, he snorted coldly and said proudly, “I won't say it again. I'll say it one last time. Don't use the family to pressure me. I'm not afraid of them!”

“Now, I want you to immediately bring Chu Hong out and serve her well. As for how to deal with her in the future, I'll tell you when the time comes. This is my rule!”

If you violate it, just use the heavenly tyrant order!

Chu Aotian was so scared that his entire body trembled. Anything else was fine, but the heavenly tyrant order was simply too scary. If he wrote down a person's name, he would be gone.

On second thought, since this order belonged to Yu Tianxia, even if the family side was to blame him, he would still have something to say.

Thinking of this, Chu Aotian awkwardly nodded to his servants. The servants immediately helped Chu Hong Up.

At this moment, the cold killing intent in Chu Hong's eyes had long disappeared, replaced by a trace of gratitude.

However, Yu Tian did not even look at her, he just turned around and left.

Pity was pity, sympathy was sympathy, but his feelings for her probably would not change for the rest of his life.

In the blink of an eye, it was evening. Following the cries of the babies, Chu Qing successfully gave birth to three children.

Before Yu Tian could warm up the babies, the door to the monk's house was pushed open by Uncle Long.

This time, Uncle Long's face was full of joy. When he saw Yu Tian, he laughed out loud.

“Young master, you are really amazing. You can give birth to so many babies in one go. Your father is also very happy. He even made me specially say to you, “good job, keep it up in the future!”

Yu Tian's face was filled with disdain. He simply did not want to hear him say these things..

?Chapter 610 – Chapter 610, Artificial Intelligence

Thank you readers!

Looking at Yu Tian's gloomy face, uncle long also felt that he might have gone too far. Therefore, he hurriedly changed his tone and chuckled, “I know that you feel uncomfortable,

i also know that you can't bear to part with your child, but all of this is for the sake of the family's strength!”

However, Yu Tian snorted coldly and said with contempt, “Do you mean that the family's strength is all because of my pants? Do you treat me as a human or a pig?

“You should also go back and tell Yu Dian lie to treat my child well. If he dares to treat my child badly, I will personally kill him on Mars, not to mention the cultivation world,

“I don't care whether he is my father or not. I don't care about the BULLSH * t family!”

After saying this, Yu Tian gritted his teeth and stuffed the child into Uncle Long's hands. Then, he turned around and comforted Chu Qing.

At this moment, Chu Qing was the one who was the most upset. The child she had painstakingly given birth to was about to be carried away after just a few glances. This was something that no mother could endure.

Yu Tian held her hand tightly and said indifferently, "Don't be sad. We will still see these children. Right now, my strength isn't strong enough. I still can't decide on these things"

"But this doesn't mean that I won't be strong forever. You just have to be like me and slowly get used to it. Look, I don't even have a name for the children now. Just leave everything to the family"

"We just need to continue living according to our way. Everything is the best!"

Chu Qing said sadly, "I want to think like you, but I really can't do it. They will be my children. How can I not feel sad?"

Yu Tian held her in his arms and said through gritted teeth, "I feel even more sorry for them than you do. But now we don't have the right to choose. Keep this pain in your heart. One day, I will let it burst out!"

At this moment, Yu Tian remembered her call.

She looked down and saw that it was from Tiffany.

She didn't need to answer other calls, but it was better to answer this woman's calls.

Yu Tian immediately went to the courtyard and answered the call.

Tiffany said excitedly on the phone, "You'll definitely like what I found this time. Guess where I am now?"

"I'm not an observation satellite. How would I know where you are? If you want to say it, just say it. If not, forget it. I don't have time to waste with you!" Yu Tian said impatiently.

"Look at you, you're always so hot-tempered. Did your wife beat you up again today? Forget it, I won't tease you anymore. My current position is in the old man kingdom"

I came here previously because I wanted to travel. However, I heard that there was an eminent monk here who was especially powerful. Therefore, I met this eminent monk...

he was a very strange person, and he never said a word. At most, he said two words to express his meaning, but he had a lot of disciples, men and women, thousands of them,

in this unremarkable place, people from all over the world went to worship him every day, and the medicine he gave everyone could almost cure all diseases,

i originally thought that he was the developer, so last night, I silently snuck into his residence, and I actually saw him just like you, meditating and practicing,

when he meditated, a layer of golden light actually appeared around his body, just like a celestial being in the sky. Then, I saw him with my own eyes, punching a rockery that weighed hundreds of tons in front of me, a€?He shattered it into pieces,

a€?This monk is already 60 years old, but his strength is so powerful. I used x-ray vision to look at his body, bones, and blood vessels. He is exactly the same as a young man,

a€?Therefore, I can tell you with certainty that this is the expert you want. If you see him, you will definitely not regret it!

Yu Tian narrowed his eyes slightly. This was good news that could make him happy.

The Tilarenk from before was simply a deception-level expert. He was not even worth fighting.

He hoped that the expert this time would not let him down. At the very least, he would be able to let himself feel a little bit of a blow. This time, Tiffany had found him a true expert.

He remembered the coordinates of the old man kingdom. Now was the time when Chu Qing needed him. He absolutely could not leave at this time.

It was impossible for that expert to disappear. He could be arrogant for another two days.

At this moment, Uncle Long had already carried all the children away. Yu Tian felt that his side was empty.

No matter what, they were still his children. However, up until now, he had not experienced the joy of being a father. This was the so-called honor his family had given him.

She was like a pig, only knowing how to give birth every day.

Based on this, it was impossible for her to walk in the direction that the family had given her.

In the blink of an eye, it was the afternoon of the next day. Chu Qing could already walk on the ground.

This made Yu Tian feel especially surprised. The 108 sisters were pregnant very quickly, and their recovery speed was even faster.

Moreover, every time they recovered, their appearance was even more sexy and charming than before.

Why did it have such a magical effect? Yu Tian thought about it carefully and finally figured it out.

This was probably the family's previous arrangement. They were afraid that after they gave birth to a child with a sister, they would no longer like this sister. Thus, they let these sisters who had given birth to a child become more beautiful the more they gave birth to a child.

Thus, they firmly tied themselves up.

The family members really knew how to think. They had thought of everything.

Since Chu Qing could already walk around, then there was no need for her to stay here anymore.

Chu Qing also wanted to rest well for a few days. She also wanted to be alone and quiet. Otherwise, she would miss her child all the time.

Yu Tian originally wanted to go to old man country to play with that expert, but Sean called. There had been a breakthrough in the development of the chip.

This was even more important. Without thinking, Yu Tian immediately went to Sean's research and Development Center.

After seeing Chu Meng, she excitedly took out a set of data and said excitedly, "This is the data that Chu Xuan and I researched after not sleeping for a few days,

"Actually, our previous thoughts were all wrong. The production of this chip is completely different from what we thought. Or rather, what it can really produce is not a chip, but a type of artificial intelligence cell!

Artificial intelligence cell?

Yu Tian frowned and said, "I've never heard of such a thing. Is there any difference between artificial intelligence cells and human intelligence?"

Chu Meng explained with a smile, "Of course there's a big difference.. Moreover, it can be said that artificial intelligence cells are completely different from artificial intelligence!

I Have 108 Older Sisters #Chapter 611 - Read I Have 108 Older Sisters Chapter 611

?Chapter 611 – Chapter 611, Powerful Energy

Thank you readers!

Chu Meng immediately showed Yu Tian a set of data that she had analyzed.

The data was especially clear.

The so-called artificial intelligence cell was a computer chip the size of a human cell injected into the human body.

After the computer chip fused with the human blood, it would enter the human body's nervous system.

Then, through a pre-written program, it would improve some of the functions of the human body's nervous system.

For example, computing power, the computer chip could reach trillions of calculations per second, and it could be implanted with a wireless network function, that is, it could connect to the world's network through the brain at any time.

Such an effect was that, without any external devices, just using the brain, all the data on the internet could be downloaded into the brain's memory.

Simply put, the person who injected the chip was the person with the most knowledge in the world, because all the data in the internet system could enter his brain and be viewed anytime, anywhere.

Secondly, the programming of the computer chip was even more extensive.

Its function was not only to connect to the internet, but it could also improve the physiological functions of the human body.

For example, the strength of the human body, vision, hearing, taste, touch, and even the ability to see microorganisms, etc. . For normal people, no matter how many years of evolution it took, it was impossible to achieve this. When he saw this, Yu Tian's heart was especially excited. This was exactly what he wanted.

It was also the ability that he was bitterly pursuing.

Although his IQ had been developed to 100% , his brain was still no different from a normal person's. The level of development of his IQ and brain was completely different.

His mind was now a blank warehouse. No matter how big the space was, there was nothing to store.

At this moment, Chu Xuan also said, "After analyzing the blueprint, we have created the first artificial intelligence cell!"

As she spoke, an image appeared on the big screen.

Yu Tian raised his head to look. It was a cell molecule that could only be seen under a microscope.

Chu Xuan frowned. "Don't you know how much effort we put into creating this cell molecule? Time, money, and energy can not be calculated"

However, it was a good thing that we had already created this cell. Even though it could only be seen clearly under a microscope, its internal chip was more powerful than a computer's computing power,

this power was provided to us by the blueprints. I have to say, the people who left this machine, whether they're from an alien civilization or some intelligent person,

their design is indeed very impressive, at least tens of thousands of years ahead of our most advanced technology, and all we have to do is inject this artificial intelligence cell, into the human body, and then connect it to our client,

it will be able to produce the effect that we wrote in advance. For example, the artificial intelligence chip you see now not only contains network connection, but also human sensory enhancement,

i also specially wrote a hacker program in it, because the core technology of this chip is many, many times better than any computer chip we use!

When Yu Tian heard this, he said without hesitation, "Since the artificial intelligence chip has been developed, I want to be the first person to inject it. Go prepare now, Pll inject it immediately!

Chu Meng and the others were very surprised.

Chu Xuan immediately stopped him, "Although we have already simulated this artificial intelligence chip, what kind of damage will it cause to the human body? We don't have clear data yet"

"You'd better not be in such a hurry. After we have all the simulation data, you can carry out the experiment. Only then will there be no mistakes!

However, Yu Tian shook his head and said, "Forget it. After you have all the simulation data out, who knows how many years you will have to wait"

"The best simulation data is my own feeling. Putting it into my body is the clearest, so stop talking nonsense and get ready now!

No one could disobey Yu Tian's orders. Besides, he had already made preparations, and Chu Meng and the others felt that what Yu Tian said made sense.

No matter how advanced the equipment they used for simulation, the data was inaccurate.

And Yu Tian's body was very special to begin with. Letting him do the experiment himself was probably the best choice.

Therefore, all the higher-ups and scientists began to implant the chip after two hours of discussion.

During these two hours, Chu Meng stayed by Yu Tian's side and told him in detail about the feelings that might appear after the injection.

However, Yu Tian did not care about this at all. He drank his coffee and said indifferently, "It's just putting a chip into my body. If there's anything inappropriate, I can take it out anytime and anywhere,

"What's there to be afraid of? Look at how scared I am. Those who don't know would think that I'm going to put a nuclear weapon into my body!

Chu Meng said solemnly, "The power of this chip is even more powerful than a nuclear weapon. You might not know some of the details"

"What makes the chip generate power is the human body's nervous system. Therefore, after the chip is connected to your body, it seems impossible to take it out"

"Therefore, we can only hope that there won't be any problems this time. It will allow you to perfectly fuse with the chip!

Yu Tian only nodded slightly. Since he wanted to become the strongest in the world, he had to endure some painful challenges.

If he couldn't even overcome this, how could he be a strong person? He could just go home and give birth.

Two hours passed very quickly. Yu Tian, surrounded by everyone, came to the instrument.

Chu Xuan operated the computer and said in a low voice, "If you want to inject the chip, you have to use this development instrument. During the injection process, you may feel a little uncomfortable,

"But these are all normal reactions. According to our previous data, when we develop the human body's brain, it feels the same, so you don't have to worry,

“And you don't have to be afraid. If you still feel some fear, we can put a diaper on you. When you're scared to death, you can directly pee on it!”

Yu Tian frowned and shook his head. He said disdainfully, “Say, as a woman, why are your words so unpleasant? Why do I have to Pee on a diaper? If I wanted to pee at that time, I would directly pee on Your Face!

Chu Xuan snorted coldly and said proudly, “Don't talk nonsense. The device has been activated.. Let's Start Now!

?Chapter 612 – Chapter 612, Implant The Chip

Thank you readers!

Chu Meng helped Yu Tian take off his jacket and let him lie down on the device as relaxed as possible.

Yu Tian still didn't think it was a big deal. After all, he had done this before in the first-generation development of the device. No matter what, he had some experience.

When Chu Meng helped him load the device, she couldn't help but gently stroke Yu Tian's face twice.

She said gently, “It will be done very soon. The whole process will not take more than five seconds. If you feel any pain during this time, we can stop it at any time!”

Yu Tian just patted her hand and comforted her with a smile, “It's only five seconds. I can hold on. Let's Start Now!”

Chu Meng nodded and turned to leave the room.

Chu Xuan checked all the data of the equipment and confirmed that everything was normal. She immediately started the injection procedure.

Yu Tian, who was sitting in the equipment, saw something that looked like a metal drill on his head, slowly sticking to his forehead.

This feeling was a little scary. If this was really a drill, then his head would have a hole drilled through it.

Chu Xuan's voice immediately sounded from the stereo.

“The registration process starts now. First, the human body's energy development!

As soon as she said that, Yu Tian felt that his chair had become especially hot, so much so that his body had become hot as well.

Following that, the instrument began to rotate. Waves of hot wind spread in the surroundings, along with an indescribable smell.

At this moment, Chu Xuan said, "Next, we will inject the chip into the syringe!"

Chu Meng picked up the syringe that was stored in the freezer and injected it into the instrument's pipe.

Along with the transparent liquid in the pipe, it slowly came to the drill bit.

Yu Tian stared unblinkingly at the drill bit. In the middle, an extremely fine needle was stretched out.

Immediately after, the needle pierced into her forehead.

Although it was a little painful, compared to drilling a hole in her head, this little pain was nothing.

During the injection process, Yu Tian did not feel any discomfort at all. She did not even feel any pain.

Five seconds passed very quickly, and the microchip was successfully implanted.

The crowd immediately burst into enthusiastic applause.

Yu Tian, who didn't feel anything at first, wanted to ask, didn't he feel anything when the chip was implanted into his body?

But at this moment, Yu Tian suddenly felt that his body was like an electric current passing through half of his body.

Following that, his skin and bones were in extreme pain, as if his bones were broken and tendons were broken.

Bean-sized beads of sweat dripped onto the ground along with Yu Tian's forehead.

Chu Meng was the first to notice that Yu Tian was unwell.

He immediately leaned on the glass in the room and knocked on it with all his might. At the same time, he shouted, "Yu Tian, What's wrong? Wake Up, look at me!"

Everyone panicked and hurriedly looked at the data on the instrument.

Some of them shouted, "There is resistance when the chip merges with the nervous system. The data may be rewritten!"

The others also shouted, "The chip has produced irregular energy fluctuations in his brain. It has seriously interfered with his brain waves!"

"Now, Mr. Yu Tian's bones, nervous system, muscle system, and blood circulation system are all in disorder. The chip is emitting a kind of radiation wave!"

Chu Meng immediately rushed in front of Chu Xuan and shouted in fear, "Stop it now! Stop it now!"

Chu Xuan was also panicking. She did not know how to type the code on the keyboard.

She wiped the cold sweat on her forehead and shook her head helplessly. "I can't stop it. You know that once the implant program is activated, it can't be stopped!"

"Don't be anxious. Let's take a look at Yu Tian's life system now!"

Chu Meng also knew that what Chu Xuan said was true. Moreover, it was not the time to talk about this.

She immediately rushed to the computer and carefully looked at Yu Tian's body data.

What was shocking was that Yu Tian's heartbeat had already reached 500 beats per minute. His blood concentration had already exceeded the normal person's by ten times.

Moreover, his body's nervous system and skeletal system had also hardened.

Chu Meng's face was filled with shock as she said, "How can this be? How can this

At this moment, an expert not far away shouted in fear, "This is impossible. My data shows that there is a metallic substance in Mr. Yu's bones. How is this possible?"

Metallic substance?

Everyone in the control room looked at the expert in shock. The entire room was silent.

Yu Tian, who was in the room, suddenly felt the pain in his body disappear.

He wanted to move his limbs, but he felt that his limbs were especially stiff, as if they were supported by something.

He looked down at his hands. There was no change in his skin, but the natural softness of the human bones from before was gone.

What replaced it was extreme stiffness, as if a machine part had been tightened by a screw.

But at that moment, his head began to hurt again, and it was even more intense than the pain in his body.

Yu Tian closed his eyes tightly and gritted his teeth as he endured the pain.

He kept reminding himself that all of this would pass. This was just the normal reaction of the chip.

Suddenly, Yu Tian's tightly shut eyes suddenly saw a blinding light in the darkness.

He focused his attention and looked carefully. It was as if he saw a computer screen. As he thought, the content on the screen changed rapidly.

Could This be the internet connection?

Thinking of this, Yu Tian focused even more and thought of the love action movie.

As expected, the image in front of him was directly projected into his mind. The exciting love action movie made Yu Tian's blood boil.

In the control room outside, everyone was even more surprised to find that all the data in Yu Tian's body, including the chip implant program, had become normal.

Chu Xuan said in disbelief, "It worked? The chip implant was successful? My client showed that Yu Tian has already connected to the internet and is still looking at that disgusting thing?"

Everyone hurriedly looked at the big screen. Although the screen was shy, the client's data was normal. Moreover, the chip had perfectly fused with Yu Tian's nerves.

What was connected to the network now was the chip, which had converted Yu Tian's brainwaves into a connection signal.

And now, Yu Tian thought of the rocket system.

Hence, all kinds of rocket data appeared in his mind. As long as it was on the network, he could see it all..

?Chapter 613 – Chapter 613, Physical Strength

Thank you readers!

Yu Tian was having a great time, but the experts outside were a little nervous.

Especially the expert who was observing Yu Tian's body and bones. He wiped off his cold sweat and said in a deep voice, "Come and take a look. Yu Tian's bones are still being metalized"

"Although the speed isn't that fast, I feel that this might cause some damage to Yu Tian's body"

After Chu Meng carefully looked at the data, she immediately asked through the stereo, "Yu Tian, how do you feel now? Can You Stand Up?"

Yu Tian cut off the internet and his mind returned to normal. He was no different from before. He chuckled and said, "I feel really good now. I've never felt so good before"

At this point, Yu Tian used all his strength to support his body. However, as soon as he stood up, the joints of his legs and arms started to make metallic sounds.

Yu Tian suddenly frowned and asked in puzzlement, "Why is there such a sound in my body?"

Now was not the time to explain this. Chu Meng continued to say with concern, "Try walking a few steps first and see!"

What was wrong with walking? Yu Tian immediately took a step forward and jumped around the room.

Chu Xuan said helplessly, "I told you to walk a few steps, but why are you still jumping? Why are you so excited?"

Yu Tian said with a sad and helpless face, "I don't want to F * cking jump. I just want to walk normally, but my feet seem to be installed with a bouncing device. I can jump up with just one step!"

Chu Meng thought about it carefully and had an idea. She immediately explained, "This may be the function of the chip. It makes your body lighter.

You need to learn to control the strength of your legs now"

"Try to relax them as much as possible. Then, you can try to walk normally!"

Yu Tian nodded and took a deep breath. Then, he slowly relaxed the strength of his legs. When he took a step, he indeed became normal.

Everyone heaved a sigh of relief when they saw this scene.

At this moment, the door of the equipment room opened and Yu Tian returned to the control room. He first looked at the data of his body. It was dozens of times better than before in all aspects.

However, Yu Tian still felt that something was wrong, so he asked in a low voice, "Why do I feel like my body is like a machine? Is this also the effect of the chip?"

Chu Meng explained, "To tell you the truth, your bones are being metalized. Although this can make your body tougher, we still don't know the technology in this area,

right now, we still don't know what kind of impact this metalization will have on your body? So, we still have to collect more data,

fortunately, you don't have any other side effects now, and you have a perfect connection with our client. We can control your body data anytime and anywhere ,

"You don't have to worry about that. Even if it does turn into metal, we can still solve it!"

In fact, everyone knew that Chu Meng was just comforting Yu Tian.

The process of the chip technology and implantation was extremely rushed. They didn't even have 10% of the data, and now all the effects or other functions were blank.

If Yu Tian's body was really metalized and turned into a robot, would they really be able to solve this high-end technical problem?

And Yu Tian was such a smart person. He knew that what Chu Meng said was actually just to comfort himself.

So he laughed and said, "Actually, you don't have to worry. Implanting the chip was my own choice. Even if I become a robot, it has nothing to do with you guys!"

"Besides, what's so bad about becoming a robot? If you're so great, I'll just give birth to a robot with my wives!"

Everyone didn't know whether to laugh or cry. Only Yu Tian's magnanimous personality could think of a joke at this time.

However, this was also good. Everyone could relax a little and find a solution in this relaxed mode.

At this moment, Yu Tian suddenly had a very bold idea.

He took out a weapon from his backpack and handed it to Chu Meng, letting her shoot at his body.

Chu Meng had also practiced shooting in the past, but she did not know why Yu Tian would do this.

However, she did not stop or refuse because she suddenly thought that the metallization of Yu Tian's body might cause his skin, including his muscles, to stiffen. Then, his defense would naturally increase.

His defense was tens of times tougher than a normal person's skin and muscles. Would he be able to withstand the bullets?

Even if he could not withstand the bullets, Yu Tian's injuries could be quickly healed as long as they did not hit his fatal parts.

Thus, the two of them went to the backyard. At close range, Chu Meng fired a shot at Yu Tian's thigh.

The moment the bullet touched Yu Tian's thigh, it was completely unable to break through Yu Tian's hardened skin and was directly bounced away.

Yu Tian lowered his head to take a look, but there was actually not a single mark on his leg.

This was really exciting enough. Yu Tian laughed and said, "Come, continue. This time, you can hit any part of my body!"

Chu Meng did not hesitate and fired all the bullets at Yu Tian's body.

In the end, they did not cause any harm to Yu Tian at all.

Yu Tian felt that it was not enough. He took out a rocket launcher from his backpack and handed it to Chu Meng. He chuckled and said, "This time, I'll use this to bombard me. Let me see how tough my body is."

This time, Chu Meng felt fear, she kept shaking her head and said, "No, this is a rocket launcher. Are you crazy? If you don't want to live, you can use another way to seek death. Why do you have to do this?"

"If I told you to hit, you should have. Why do you have to talk so much nonsense?"

Yu Tian did not want to waste time. He just wanted to see if his body was strong enough to withstand the rocket launcher's attack?

Chu Meng had no choice but to walk 50 meters away, aim at Yu Tian, and fire the rocket launcher.

The rocket landed on Yu Tian's body and exploded.

A ball of fire and smoke immediately filled the air. Yu Tian was pushed back more than ten meters by the powerful explosion and fell heavily to the ground.

After the smoke dispersed, Chu Meng thought that the rocket had already blown Yu Tian into pieces.

Just when she was so sad that she wanted to scream, Yu Tian suddenly stood up and laughed with his hands on his waist, "Don't be afraid, I feel very good now. There is no pain at all!"

Chu Meng threw away the rocket launcher and directly rushed into his arms, crying.

Not only did she feel sorry for Yu Tian, but she also felt that Yu Tian had used his courage and shoulders to carry too many things. If it were anyone else, they would have given up long ago.

But Yu Tian was still carrying it.. How could she not be touched?

?Chapter 614 – Chapter 614, Industrial Company

Thank you readers!

At this moment, Yu Tian was very excited, but he was not in the mood to talk about love with Chu Meng.

He just patted Chu Meng's back and said in a low voice, "You should be happy for me. I am now one step closer to becoming the strongest person in the world,

however, there is one thing that you all must remember. This chip can no longer be manufactured. Now, all your energy is invested in this chip in my body,

because I have a feeling that this chip's functions, are more powerful than you know, and many of its functions, we don't know yet, so you have to continue to develop it,

i hope that this chip is the only one in the world, and you have to keep the chip's technology a secret. If someone tries to leak our top secrets, they will be killed,

"The appearance of this chip is bound to have an impact on the structure of this world and the evolution of mankind in the future, so we have to be careful!"

Yu Tian nodded as she walked out of the door. She felt that what Yu Tian said made a lot of sense. She said, "You are right. If there can only be one strong person in this world, then this strong person is you!"

"Moreover, I have a feeling that this chip is specially made for you. We absolutely can not let this chip create our enemy. So, leave this to me,

“I will definitely not let our top secret be leaked!

At this moment, Li Re's Chu Jia sent a message to Yu Tian.

Yu Tian opened the message and saw that his experts had already developed a drug that could dilute the pollution of seawater.

He had to go and take a look.

Thus, he made some simple arrangements with the research base and immediately sent it to the laboratory of Li Ge, Chu Jia industry.

At this time, Chu Jia also said happily, “They have developed the drug, and it is especially effective against that kind of pollution!

A white-haired expert stood up and said politely to Yu Tian, “Our research and development is particularly smooth, and we have also conducted a series of analyses on that pollution,

that source of pollution came from radiation, but it was not ordinary nuclear radiation, but a kind of industrial radiation that was not common. However, we searched the data of this radiation in the database of the whole world, but we did not find it,

so we can say with certainty that these monsters may not have been produced by them, but the radiation raw materials they heard were eaten by these fish, which made them monsters,

the drug we developed can not only dilute the pollutants in the seawater, but also effectively disperse the monsters and fish. However, this can not solve the root of the problem,

first, we have to find the industrial company that produces the radioactive materials. Without this, we can completely make these monsters disappear!

Yu Tian was very satisfied with the results of their research and development. He nodded and said, “Very good, very good. If the drug you developed is useful, you can immediately mass produce it,

“I'll pay attention to the industrial company you mentioned. Chu Jia, give each expert a little more compensation as my thanks to them!

Chu Jia smiled and agreed, “What's the problem? Everything is up to you!

Back in the office, Chu Jia simply sat on Yu Tian's lap, hugged his neck, and said intimately, “I like it very much. I'm in the Office of the senior management department, but I always feel that they are on guard against me everywhere,

“There are also some secret meetings that they don't even invite me to. Although they gave me a lot of authority, I feel like I'm just a vase there, “Now, should we do something else?”

“Do you need to say that? I've already told you that they're just using you to suppress Roderick. Now, Roderick has already obediently scurried back to his commoner district,

“Your role at this time isn't that important, but that doesn't matter. Besides Roderick, we still have Roderick. The village has already been dug out for him. Now, it's up to her to jump in!

Half an hour later, Roderick, who was drinking in the bar, suddenly received a call from Yu Tian.

After Yu Tian gave him an order, Roderick rubbed his fists and said, “I can't wait any longer. I'll immediately make arrangements. I'll definitely satisfy you!

After hanging up the phone, Yu Tian chuckled and said, “Sometimes I really don't want to use these people. I always feel that they're innocent, but the more so, the more I enjoy using them”

“Chu Jia, do you think I'm a bit different?”

Chu Jia shook her head fiercely and said firmly, “You're not different at all. On the contrary, I think you're very charming!

“Then I'll be more unusual. I'll call Tyrone later. In My Plan, this guy is an important person!

As she spoke, she picked up the phone again the next day.

At this moment, Roderick had already called a few of his subordinates to his side and said gloomily, “Come, follow me to see Roderick. I have something to say to him!

Everyone was a little confused. Roderick and Roderick were originally relatives, but for some reason, they were now like enemies. When they met, they wanted to pull their hair and kick their pants.

At this time, Roderick wanted to see Roderick, but they didn't know what he wanted to do.

When Roderick knew that Roderick wanted to see him, Roderick took a deep puff of his cigar.

What did Rodriguez want to do now? Previously, he had turned this city upside down. Because of this, more and more people were following him, and their strength was on par with his.

At this time, he wanted to see him, but he didn't know what he wanted to do. It was better to see him and see what she wanted to say.

In the restaurant, Rodriguez cut the meat on the plate with a knife and said with a sneer, "Uncle Rodriguez, I don't know how long it has been since we sat down to eat,

"I still remember that you used to bring me to this dining room to eat, but I don't know when you stopped bringing me here, but we have our own lives now"

"When I saw you, all I could say was "Uncle Roderick, "today, I invited you here to eat first to thank you for your help, and secondly, I want you to stay in Karal's territory!

Rodriguez suddenly frowned. His originally calm mood suddenly became angry.

He coldly snorted and said angrily, "Do you think that's possible?"

?Chapter 615 – Chapter 615, Money And Power

Thank you readers!

Roderick smiled indifferently, and then said gloomily, "Actually, you don't have to agree. I didn't expect you to agree to my request,

but why should I see you? The reason is very simple. I just want you to know that if you don't agree to my request, our quiet life may be destroyed at any time,

in fact, you don't have to think so complicated, this is a kind of inevitable development, after this time, my strength now is equal to yours, I have no reason to put up with your oppression,

if I issue an order now, my people can easily seize all of your territory, but for the sake of our relatives, I still want to talk to you politely,

if you can agree to my request, our days will be very, very good. If you don't agree, Tonight at midnight, you will see my attack on you!"

Rodriguez frowned tightly, with a contemptuous expression, and said coldly, "Rodriguez, your wings have hardened, and now you dare to sit in front of me and negotiate with me,

do you really think I'm afraid of you? "If you want to fight, then I'll definitely accompany you to the end. But there's one thing you must always remember. You Can't get anything from me,

"When I was developing my territory here, you were still a kid who was learning how to Peel!

Rodriguez made a helpless gesture. Since there was nothing to talk about now, there was no need to waste time talking to him.

Originally, Yu Tian's intention was to fight. If Roderick really agreed, then Yu Tian's plan wouldn't be realized.

Although he didn't know what Yu Tian wanted to do, one thing was certain. What Yu Tian did was only good for him.

Following Yu Tian would definitely have a future.

And what he had to lose was just a few people.

Then again, people died every day. The moment they picked up their weapons, they had already thrown their lives away.

So what if more people died? Didn't he crawl out from the pile of dead people back then?

Everyone pursued different values. Even Rodriguez would definitely think so.

Rodriguez put down his glass and stood up abruptly. He said coldly, If you want to fight, I will accompany you, but I will never compromise. This is my answer to you!

After he left, Rodriguez immediately called Yu Tian.

"Boss, you are absolutely right. Rodriguez doesn't agree with our proposal, so should I prepare to attack him next?"

At this moment, Yu Tian, who was sitting in the office and studying the data of the brain chip, said calmly, "You're right. This is what you're going to do next."

"But this time, it's different from the last time. It's better to make the scene bigger. It's best to turn the entire slums into a conflict. Only then can we create pressure on the top management department."

"You have to complete this task perfectly. The reward after that will definitely surprise you. However, I also have a condition. You Can't kill Rodriguez immediately,

“Because Rodriguez is my bargaining chip against the top management department. As long as he is alive, my industrial company will be able to complete it smoothly!

Rodriguez hurriedly said, “Absolutely no problem. Your Order is everything to me. I will definitely complete this task perfectly!

After hanging up the phone, Roderick immediately gave the order.

In the blink of an eye, it was evening. Roderick's side was also fully prepared.

He recruited thousands of men and distributed his best weapons to them.

He also treated everyone to a bottle of the best red wine and treated them to a sumptuous dinner.

During the dinner, Roderick said to the crowd, “Now someone is threatening my existence and trying to take away my territory. Every one of you is eating and drinking from these territories,

If we lose these benefits, you will probably starve to death in the future. So now we must protect our dignity. We must not let anyone take away our food,

“Tonight, Rodriguez will attack us. I hope each of you can bravely fight with him. As long as we can win this war, there will be endless benefits for you in the future!

Everyone started shouting. Under the influence of alcohol, everyone forgot about their lives.

It felt like this battle was like a street fight. No matter who was on the other side, they would win first.

Roderick also kept his word. At midnight, his men immediately launched a fierce attack on Roderick's territory.

Even Yu Tian could hear the explosions and shouts of the crowd outside the office.

This was power, wasn't it? When he held power in one hand and money in the other, the level of the world would be completely changed.

Originally, he didn't want to create so many conflicts here, but from his own interest point of view, letting Chu Jia become the top executive president here would only bring him benefits and no harm.

Chu Jia threw out a drone. Only in this way could he see the most realistic battle scene.

However, to Yu Tian, this kind of battle scene was really meaningless. It was better to watch the live broadcast.

The scene of firing, explosions, and the crowd running in all directions was completely different from the scene of the beautiful girls singing and dancing in the live broadcast room.

One was to entertain himself, and the other was to entertain others. The feeling was completely different.

Yu Tian had not logged into the live broadcast room for a long time. He randomly clicked on the live broadcast room of a live streamer. At this moment, the live streamer was crazily twisting her body for the sake of that little gift.

She hoped that she could get the best reward through her own efforts.

The people in the live broadcast room had all kinds of requests, but no one was buying gifts.

The few people on the list were just a few lollipops, and they were able to occupy the most important positions.

When Yu Tian saw this, he felt a little helpless.

These live streamers were always trying to trick others, but they didn't know that they were also part of the trick.

Compared to those extremely popular live streamers, they had figures, looks, and looks, but they weren't popular.

As for those live streamers who were grimacing in pain and were as ugly as dogs, they were extremely popular.

Even an old fogey with a mouth full of vulgarities could have millions of fans, so this live streamer in front of them wasn't lacking either..

?Chapter 616 – Chapter 616, Hacking Program

Thank you readers!

Yu Tian clicked on the host's homepage. Her name was Annie. Although the name sounded a little tacky, it felt a little odd to be called Annie when paired with the host's figure and temperament.

Annie had already danced a song and looked extremely tired.

Her forehead was covered in sweat and she was still panting.

However, the dozen or so people in the broadcast room were still shouting crazily, "Streamer, don't rest. Continue to dance. Your dance is really beautiful!"

"Yeah, streamer, don't rest. We are all waiting to see you. Hurry Up!"

"Streamer, you are really sexy. Where are you from? I'll treat you to dinner!"

Anyway, there were all sorts of things to say. The streamer was obviously very tired and could not dance anymore.

She panted and said, "Thank you all for your support and your love. But I have been dancing for more than an hour since I started broadcasting tonight,

but I haven't received many gifts. The host is really tired. How about this? Let's chat for a while and then I will dance for you,

also, family members who have gifts in their hands, please give more to Annie. I am here to thank everyone! Also, I think I saw someone with a red name come in,

it's Yu Di. I want to ask, why is your name Red? And your level is so high. It's actually level 100. You must have given a lot of gifts to the hosts!

Yu Tian never liked to talk much when he watched live broadcasts, but now, Yu Tian suddenly wanted to try out the chip in his mind.

Chu Xuan said that he had written a hacker program into the chip.

Then, after he connected to the network, would he be able to control everything in this live broadcast room?

Thinking of this, Yu Tian suddenly became interested and immediately turned on the chip's function to connect to the network.

Although his movements were still a little clumsy, the internet connection was completed in just a few seconds.

Everything on the chip had been integrated with his nervous system.

Yu Tian quickly connected to all the data in the chat room, including the host and all the audience members in the live broadcast room. All the information on their phone calls appeared in his mind.

The man who called out the loudest was still shouting, "It's useless even if you're at a high level. If the host doesn't dance, there won't be any presents. He's also here to watch you dance!"

"Why don't you seize the opportunity and dance for him a few more times? If he's happy, he'll naturally give you presents!"

He was unhappy with this person all day long. He was clearly someone who had presents, but he didn't give the host anything and just took advantage of him.

When he saw this, Yu Tian directly connected to this man's data and obtained all the permissions on his phone. He directly sent all his gifts to this streamer.

This man was dumbfounded on the spot. He hurriedly looked at his phone. Who was using his phone to send gifts?

Moreover, after all the gifts were sent, they were automatically recharging.

He was so scared that he hurriedly turned off his phone.

However, he didn't know that these interactive data were not stored on his phone.

His phone was just a client. It only had access rights and no modification rights.

The real modification rights were in Yu Tian's hands.

In less than five minutes, all of this guy's assets were recharged into the live broadcast platform. In the end, they turned into gifts and were recharged to that streamer.

This made the streamer extremely happy. He kept saying thank you!

Because he was too excited, the streamer danced for everyone again.

At this time, Yu Tian did not want to watch anymore. His hacking program was really too useful.

Of course, the degree of utilization of this function was also very, very wide.

In the future, as long as there was a place where the internet could be used, he could blink his eyes and solve it.

At this moment, Yu Tian looked at the big screen again. The battle outside was especially intense.

Rodriguez's people were not a match for Roderick at all. They were beaten back one after another. From time to time, there would be people injured and falling to the ground.

In less than half an hour, Yu Tian found that most of Rodriguez's territory had been immediately occupied.

There were several times when Rodriguez had the chance to kill Rodriguez, but Rodriguez didn't do so.

Because he promised Yu Tian that Rodriguez would live.

At this moment, Rodriguez had to call Pavarlenk and ask for his help.

But after the last time, Pavarlenk didn't want to help Rodriguez this time.

Holding the phone, he said coldly, "You still have the cheek to beg me to help you. For You, I almost got the Supreme President kicked out of the management department. Now, how do you want me to help you?"

"Last time, because of you, I lost a lot of people. Now, I don't know how to tell these people. You still want me to help you? Stop Dreaming, it's impossible!"

Rodriguez snorted coldly and said, "Mr. Pavarenk, when you took my benefits, how could you be so Shameless? Now, my base is almost completely occupied by Rodrik

"If that's really the case, and you actually didn't save me, then don't blame me for being rude to you. I will take all the benefits and let the Supreme President Know. When that time comes, I'll see what you should do!"

Pavarlenk was completely silent. If Rodrigo really said that, then he wouldn't be able to become the CEO of the Defense Department anymore.

With no other choice, Pavarlenk could only say helplessly, "Rodriguez, you're a bastard. But this is also the last time I'll help you. Don't think that I'll always help you. It's impossible!"

"And this time, it's up to you. I can only let my people maintain order. I Can't let them participate in the battle. I Can't afford to lose!"

Rodriguez was already very satisfied. Now, as long as someone could maintain order and stop Rodriguez's people from continuing to attack, giving him a chance to breathe, he would not lose this conflict.

However, someone had already informed Chu Jia of their plan.

Yu Tian soon found out too.

He picked up a glass of red wine and chuckled. "Actually, this is very normal and inevitable. Rodriguez doesn't want to see his territory lose to Rodriguez, so he will naturally do so,

"However, this has nothing to do with us. They are just objects that we use.

What we need to do now is to increase the pressure on the supreme CEO, Cicero, through Rodriguez,

So now, we need to let them into the rich areas.. That way, Cicero will feel scared and Beg You Again!

?Chapter 617 – Chapter 617, Whatever

Thank you readers!

Pavalenko thought that he could keep his men neutral and maintain order in the conflict zone without firing at anyone.

However, he was wrong.

Because he didn't know how smart and powerful the commander behind this conflict was?

This person was Yu Tian. In his latest order to Roderick, he clearly said, "If someone comes to maintain order, you can fire at them as much as you want,

but don't kill anyone. This is just an ordinary gang conflict. Don't escalate it to a war because it's not worth it,

if the inner defenders attack you, you will immediately retreat and enter the rich area again!"

Roderick understood what Yu Tian meant. After following this easterner for so long, he also understood that what this Easterner wanted was definitely not as simple as creating an industrial company.

The pursuit behind him was definitely not something he could imagine.

Therefore, it was better to listen to him.

Soon, the defenders entered the area of conflict, but Roderick's men immediately attacked the defenders.

The defenders didn't expect that they would be injured in the end.

In their anger, the defenders opened fire.

When Roderick saw this scene, he immediately ordered his men to continue retreating to the rich area.

In the blink of an eye, it was early morning. Cicero's call was made to Chu Jia's phone.

His tone was very angry. He even said with a reproachful tone, "Is this the result of your mediation? You kept telling me that Roderick would definitely listen to you."

"But now, he has barged into the wealthy district. What will you tell me this time?!"

Chu Jia looked at Yu Tian first and then said indifferently, "Mr. Cicero, I think you're mistaken. I've never told you that Roderick would definitely listen to me,

"Even if he would listen, it would only be that one time. Moreover, I think your intelligence department didn't provide you with any useful information?"

If they really didn't, then I can provide you with this information. This time, it wasn't Roderick's fault. It was Roderick who started the conflict,

it was the same last time. After Roderick started the conflict, he asked the president of the Defense Department, Pavarone, to send out defenders to help him. It was the same this time,

if you were Rodriguez, what would you choose to do? Every time, Rodriguez was the one who interfered, but every time, you thought it was Rodriguez who was provoking you,

how do you want me to help you? This time, I definitely can't help you. I think you should think of your own ideas. And I want to tell you that I'm going to leave the parliament and not be a member anymore,

Simply put, I don't want to care about your conflicts anymore, and I don't want to be used by you again!

As soon as she finished speaking, Chu Jia directly hung up the phone. She didn't even give Cicero a chance to speak.

Yu Tian was very satisfied and nodded. Chu Jia completely understood what he meant. Moreover, she had done exceptionally well this time.

If he didn't guess wrongly, it was time for Cicero to be in a dilemma.

He didn't guess wrong at all. Sitting in the office of the Supreme President, Cicero was really in a dilemma right now.

It was very, very obvious that Roderick would only listen to that woman's words.

But now, he had made it very clear that he wouldn't provide any help to him.

This was equivalent to telling himself that if he had the ability, he would solve it. If he didn't have the ability, he would just watch as the wealthy district fell into Roderick's hands.

He was the Supreme CEO. He definitely couldn't watch as his country was snatched away by a group of gangsters.

Just as he was about to give the order, the vice CEO pushed open the door and entered.

The Vice CEO who entered said nervously, "This time, Roderick has gone even further. Moreover, his strength is even stronger than last time"

"Last time, there were only several hundred people. This time, there are actually several thousand people. Moreover, their weapons and equipment are even more advanced than our defenders"

"If you still can't come up with a decision, it's estimated that in an hour, the entire wealthy district will be Roderick's!"

Cicero gritted his teeth and said gloomily, "They are provoking me, and also looking down on me, the highest president. I have already made a decision..., i will send out the attackers and let them all die in the rich district!"

The vice CEO frowned and tried to persuade him, "President, I hope you will reconsider your decision. That is the rich district. Where do all the elites live?"

If you send out the attackers, the entire rich district might be severely damaged. It would be impossible to recover in the next 50 years,

most importantly, even if you activate the attacker, it's unlikely that you "ll be a match for Roderick. The equipment provided by the mysterious person behind Roderick...,

are all world-class equipment. Even our defenders and attackers can't afford to use them. So, you must consider carefully whether you must fight this battle, which is destined to be impossible to win!

Cicero fell silent again. He couldn't fight, and he couldn't not fight either. What should he do?

Dawn arrived very quickly. Yu Tian stood in front of the mirror and stuck a thick layer of beard under his nose. Then, he pressed down his eyelids.

As a result, his entire facial features changed.

Yu Tian felt that his current face looked particularly interesting.

However, in order to complete her plan, it was acceptable to change her appearance.

After all, image had no practical value. Even if she was ugly, there were still 108 women who liked her.

Chu Jia also changed into a relaxed outfit.

When she saw Yu Tian, she said happily, "The food and medicine are ready. We can go to the commoner district now and be good people!"

"Then what are we waiting for? Let's Go!"

Chu Jia held back her laughter and said, "Your face is really ugly. You look like an old man!"

"You're not much better!" Yu Tian said disdainfully, "You look like an old lady. Can We stop wasting time? Let's Go!"

Soon, the huge team directly entered the slums.

After a night of conflict, the slums were in a mess. Countless people had lost their homes and many were injured by accident. Without medicine.., they could only lie in front of the ruins and endure the pain.

At this moment, Yu Tian's arrival was like the arrival of a god..

?Chapter 618 – Chapter 618 — It Was Him

Thank you readers!

Yu Tian and Chu Jia brought a large amount of supplies, including food and medicine, to the refugees.

Other than these, there were also reporters from all over the world.

This was the best method of publicity. No one knew that the man after the makeup was Yu Tian.

At this moment, the person that people were most concerned about was Chu Jia.

She was giving out supplies to the refugees while being interviewed by the reporters.

Chu Jia said angrily, "Originally, the lives of these civilians were already very difficult. Now that they're facing an armed conflict, this makes things even worse for them,

"And I can only do this because I don't have enough power to stop this armed conflict. I can only blame them through you guys!"

When Yu Tian distributed the supplies to these people, his mood was very complicated. Fortunately, there were no casualties, so he treated the supplies as compensation.

This time, Chu Jia's image and support among these civilians had already surpassed that of the President of the Supreme Management Department, Cicero.

Even when they left, these civilians were still reluctant to leave behind them.

In the reporters' flashbulbs, Chu Jia said sadly to everyone, "Don't send us off anymore. As long as there's a chance, we will come and help you.

"I will still send you supplies. You Don't have to worry about this. I believe that with the efforts of the highest CEO, this conflict will be resolved. You will definitely be able to return to your original lives!

At this moment, there was a reporter who couldn't ask Chu Jia, Yu Tian

"Hello, Sir. How many supplies have you distributed to these civilians this time? Will you continue to do this after this?"

Yu Tian nodded with certainty and said indifferently, "Of course we will continue to do this because this is what we should do. Rige needs someone who truly cares about these civilians.

However, those idiots in the top management department only care about their own rights. How can they be in their own hands? They simply don't care about the lives of these people,

when the conflict appeared, not only did they not think of a way to resolve the conflict, but they also intensified the conflict. Therefore, I suggest that those people in the top management department..,

it's time to think about the lives of these people. If they do this, it will only deepen their hatred towards them. If there's a choice, I really hope that Chu Jia can become the manager of this place, don't you agree?"

Under his instigation, the surrounding commoners started shouting.

"You're right, we need such a manager!

“We need someone who truly cares about us!

“We hope that Ms. Chu Jia will become the highest-level CEO. We will definitely support her. Everyone here will support her!

Chu Jia took this opportunity to say decisively, “Thank you for your support. I will consider entering the senior management. At the same time, I hope that everyone will support me as always!

When Cicero saw this news, he was so angry that he almost smashed his desk.

He shouted at the vice president angrily, “Why didn't we think of this? Why

Can't we send supplies to these civilians?”

“Now, this damn woman has completely overshadowed me. Listen to how those lowly people support her. Now, tell me, what should we do?”

The vice president also had a helpless look on his face. He shook his head and said, “I still insist on my opinion and find the mysterious person behind this. Only then can we resolve this conflict,

“Otherwise, with his support, this situation will no longer be under our control!

“But our intelligence department is a bunch of idiots, a bunch of idiots. They haven't collected any information up until now. It's as if a ghost is supporting them!

Tshi was what a crime would not commit always that these saw
esomen insurtpgo mthe, tub up until now, they ylnow ttha hsti nosrep saw na
artsnee n.am tub as for ohw he saw, why did they have any

clear information.

Just as they were talking, the president of the intelligence agency knocked on the door and entered.

Cicero looked at him coldly and said fiercely, “Finally, there is someone who can do something serious. I hope you can give me another piece of information that I like the most, and not waste your breath talking to me here!

The President of the intelligence agency, Salvador, nodded and said, “Mr. President, this time, I have indeed brought you a piece of important information,

“Of course, this information was not collected by us, but someone specially provided it to us. This person requested to keep his identity secret, and he is not an important person,

So you only need to look at this situation!

As he spoke, Salvador placed a document on the table.

At the same time, he explained, "The man who supported Roderick is Yu Tian. I think you're already familiar with this person. He's a devil. No matter where he appears, he will create a vortex of conflict,

what is more terrifying is that after he creates a conflict, no one can stop him because he has endless resources, money, and weapons in his hands, you all know that he is the president of Sean's Defense Department and also the President of Chu Yan industry. Chu Yan industry is the world's largest weapons manufacturing and design organization,

until now, there is no weapons manufacturing company in the world that can surpass them. More importantly, Yu Tian is the number one family in the world, the guardian of the Chu family,

"Everyone in this family listens to his orders. As for this family, you all know very well that they control more than two-thirds of the world's wealth. They are simply invincible!

Cicero and the vice president were so shocked that their mouths were wide open.

Who would have thought that their enemy was this terrifying Yu Tian.

No wonder they couldn't find a solution to all the problems they had created.

At this moment, Cicero slowly raised his head and asked coldly, "Apart from this information, can you give me a solution? Let Me Stop Yu Tian and swallow my power bit by bit"

"No matter what, I have to ensure the integrity of my power. This is the last thing I have to protect!

Salvador shook his head helplessly and said in a low voice, "According to the information we have gathered, until now, no one in this world has been able to stop me for a day. Unless we can"

"Find someone who is even more powerful than him.. Otherwise, there is no other way!

?Chapter 619 – Chapter 619, Persuasion

Thank you readers!

When he heard this, the vice president thought of someone.

He said in a low voice, "Mr. President, I have a very good candidate. I think you know this person too. He was your competitor back then, dukarido, who was competing with you for the highest position of President!"

When Cicero heard this, he sneered in disdain, "I thought who you were talking about. It turns out to be an old man who can't even take off his pants when he pees!"

"I really don't know what this guy can do for me. Other than him creating some inexplicable topics behind my back, do you want him to pretend to be crazy and stupid in front of Yu Tian and anger Yu Tian to death?"

The vice president shook his head and slowly explained, "Your Excellency, when he was competing with you for the position of the highest president, you had always been biased against him,

however, now that we put it this way, his approval rating was much higher than yours. It was just that he lost to your funds in the end. If someone had provided him with funds at that time.,

"The person sitting here today would definitely not be you. The reason why I recommended him to deal with Yu Tian is because he has an absolutely intelligent IQ

otherwise, he wouldn't have become the richest person here in just two years. We had interacted with each other before. Not only did dukado have over ten billion international dollars in assets, but he also had a group of mercenaries, at the same time, he had a group of mercenaries that he recruited from all over the world. These people were his bodyguards, but these people could launch a war of absolute scale anytime, anywhere,

moreover, Dukalidor was in cooperation with many arms dealers in the world. If he was asked to come forward, although he couldn't kill Yu Tian, he could definitely suppress Yu Tian,

taking a step back, asking him to come forward could also suppress Roderick's arrogance. In short, there was no harm in it!

Cicero also showed a troubled expression and said with a frown, "But when we were competing for the highest CEO position, he must have hated me to death.

Why would he come to help me now?"

The vice president chuckled and said, "If it were you, he definitely wouldn't help you. But if it were me, and we promised him certain benefits, he would definitely help us!

"Then I'll hand it over to you. I hope that you can give me a surprise this time. Although I'm sitting in this position, your interests revolve around this!

They were discussing how to deal with Yu Tian, but at this moment, Yu Tian was also thinking about how to deal with them.

Today's show had been especially well done. Whether it was in the news or on the internet, everyone was praising them.

This was the best opportunity.

When he saw this, Yu Tian said coldly, "It's about time. You have to hold a press conference in the evening and officially announce the creation of your own private organization,

"But you have to make a special announcement. You Won't interfere with the top management department and the top CEO. Don't let them think that you're provoking them by doing this!

Chu Jia nodded vigorously and asked, "What should I do after this? You're my backbone now. I want to listen to you!

Yu Tian said indifferently, "It's very simple. You first put this private organization deeply into the hearts of everyone. After you get everyone's support, you can have invisible power,

"At this time, you can put pressure on the supreme CEO. When he can't find a solution, he may use extreme means. At that time, it will be our time to win!

Chu Jia gently sat in Yu Tian's arms and hugged his neck tightly. She said gently, "If you had appeared in my life earlier, I would have been able to realize my goal now,

"Thank you so much, Yu Tian. I just want to tell you that I love you so much!

Looking at her gentle appearance, Yu Tian felt a ripple in his heart.

However, he couldn't do those things that he shouldn't do. This was a crucial moment for Chu Jia.

If he couldn't be busy and go back to give birth all of a sudden, then it would be difficult for him to carry out the rest of the plan.

However, Yu Tian was very excited now, so he whispered something into her ear.

Chu Jia's face turned red, but she still reached out her hand shyly.

In front of a villa in the wealthy district, the vice president raised his hands and asked the two fully armed mercenaries at the entrance of the villa to check carefully. After making sure that there were no weapons, he let him enter the villa.

Seeing ducaridor, the vice president laughed and said, "The defense here is even higher than Cicero's. Even our highest president can't be at your level!"

As he spoke, a white-haired middle-aged man also laughed and said, "Kaka, welcome to my home. What would you like to drink? Tea or red wine?"

"You should know my habit. Of course, I'll drink tea!"

Ducaridor immediately ordered his servants to bring out the best tea leaves to serve his good friend.

After taking his seat, Ducaridor looked at the vice president with a profound look and said with a smile, "You definitely didn't come to my home at this time to drink a cup of tea, right?"

The vice president nodded and said bluntly, "You're right. This time, I want to ask you for a favor. Do you know Yu Tian?"

Ducaridor frowned slightly and said in a low voice, "Of course I do. He is now one of the most powerful people in the world. At least, that's what I think."

"Take a look at all the news in the world. It's almost all about him. Why is he here with us now?"

"What You Said isn't wrong at all. He is the one behind the conflict outside, and our president has yet to come up with the best solution."

"He especially advocates the use of force, but you also know that if the wealthy district were to be involved in a conflict, it would be of no benefit to anyone. So, I want to ask you to step forward and help us to dissuade Yu Tian!"

Just as he finished speaking, i from Dukari snorted coldly and said, "I have absolutely no reason to do so, and it's even more impossible for me to help Cicero. You have to understand one thing. If it wasn't for him back then, I would already be the highest-ranking CEO."

"If it were according to my management methods, things wouldn't have become like this now. And you came to beg me to help him. Do you think that's possible?"

The vice president shook his head helplessly and said, "You're not helping him. You're helping the entire lire. I know that you still love this city.. Can you just watch this city be destroyed in the conflict between those gangs?"

?Chapter 620 – Chapter 620, Explosion

Thank you readers!

However, ducario sneered and said, "Feelings are feelings, and hatred is hatred. This can not be put together. Moreover, I am only a businessman now!"

"I am thinking about benefits, not contributions. Besides, what benefits can my contributions exchange for? Or rather, my contributions to you are just a form of exploitation. I will not do such a job!"

The vice president said with a frown, "I know you're a businessman now, and your business is doing particularly well. So, on behalf of the Supreme President, I can give you a promise,

"If you can help us successfully organize Yu Tian, you'll get a great benefit. It'll definitely satisfy you. I know you're now working hard to develop a hot energy project,

and the competitors from all over the world, also want to get this project, compared to them, your strength is still not enough, so if you can help us, this energy project will be yours!"

Ducali was silent, but his mind had been calculating.

If he could get this energy project, his wealth would be able to buy this country in a few years.

At that time, he would also be able to realize his dream and become the highest CEO.

This benefit was indeed very attractive.

Thinking of this, ducali nodded and said, "Only this time, and I hope that you can keep your promise. I will help you suppress this conflict, and in the end, the energy project will be mine!

The two of them touched hands, and this secret agreement was reached.

In the evening, at the press center of Chu Jia Industry, Chu Jia said to hundreds of reporters, "Today, when I distributed the supplies, I had a special feeling for me,

"This was originally a place of dreams. Everyone has the right to dream, but the number of people who can truly realize their dreams can be counted on one hand. And those who can realize their dreams, they may not necessarily give more things..,

to those who are achieving their dreams, so I decided to set up a private charity to help those in need,

to this end, I especially invested one billion international dollars in this organization. This money will all be used to help the civilians who need help.

In the future, I will increase the funds one by one,

not only will I help with medical care, food, and housing, but I will also help with education, infrastructure, and culture in the civilian areas,

“And this organization is called the Dream Organization!

rang.

He looked down and saw that it was Roderick Calling.

After the call was connected, the background of the phone was the sound of weapons firing. Roderick said in a very chaotic manner, “Boss, we were attacked by a group of unidentified armed men,

their combat strength is particularly valiant. I have already lost hundreds of people. What should we do now?”

This made Yu Tian somewhat surprised. He asked indifferently, “Are they the people of Parvaldo?”

Roderick shook his head and said, “No, they should be a group of private mercenaries. Their firepower is very fierce, and they kill without blinking, if they were Pavardo's people, they definitely wouldn't use such equipment!

Hearing this, Yu Tian gave a decisive order.

“Don't tangle with them anymore. Immediately take your people and retreat to the civilian area, but don't go to your territory. All of you are hiding in

He looked down and saw that it was Roderick Calling.

After the call was connected, the background of the phone was the sound of weapons firing. Roderick said in a very chaotic manner, "Boss, we were attacked by a group of unidentified armed men,

their combat strength is particularly valiant. I have already lost hundreds of people. What should we do now?"

This made Yu Tian somewhat surprised. He asked indifferently, "Are they the people of Parvaldo?"

Roderick shook his head and said, "No, they should be a group of private mercenaries. Their firepower is very fierce, and they kill without blinking, if they were Pavardo's people, they definitely wouldn't use such equipment!"

Hearing this, Yu Tian gave a decisive order.

"Don't tangle with them anymore. Immediately take your people and retreat to the civilian area, but don't go to your territory. All of you are hiding in

if they continue to hunt you down, you can call me later!

With Yu Tian's order, he felt safe. Rodriguez immediately ordered his men to retreat and enter Rodriguez's territory.

However, the mercenaries chased them all the way to the civilian area.

At this moment, Rodriguez only had less than a hundred men under him. It could be said that he had suffered heavy losses.

Roderick had no choice but to call Yu Tian again.

Yu Tian actually already knew about his losses. The drone saw it clearly.

The combat strength of those mercenaries was indeed very strong. Moreover, their shooting was especially accurate. It was almost flawless.

Compared to them, Roderick's men were simply a bunch of trash that could not withstand a single blow.

However, Yu Tian didn't think of personally appearing. These mercenaries were definitely not the people of the highest CEO. There must be someone who was very strong behind the scenes who suddenly stepped in.

These mercenaries were nothing to be afraid of. The person behind them was the real boss. If they didn't kill that boss, the subsequent plans would be impossible to carry out.

Thus, Yu Tian calmly said to Roderick, "Try your best to hide and don't show your face for the next few days. I will help you with the rest!"

Roderick could only nod and agree. He took the remaining people and disappeared into the vast slums. After the mercenaries lost their target, they also retreated to the training base behind Duhaliduo's villa.

However, they didn't know that at this moment, Yu Tian was also standing around the base.

However, his gaze wasn't on the base, but on the villa in front of the base.

The boss of this group of mercenaries must be living in this villa.

He wanted to know who was so unyielding? He even dared to stop his own plan.

It was not difficult for Yu Tian to enter the villa.

However, the moment Yu Tian entered the villa, he felt that something was wrong with the aura inside.

It should be said that the surroundings were filled with waves of killing intent.

Yu Tian frowned and looked around. There was no one in the house. At this moment, the sound of a clock ticking could be heard.

And it was not the sound of a clock ticking. It was everywhere.

Yu Tian suddenly realized that the place had been set up with a bomb.

Just as he turned around and was about to leave, dukaric, who was standing in the base, pressed the switch of the bomb.

The entire villa was flattened by the violent explosion.

Dukaric threw the switch and said coldly, "I knew you would definitely follow my people here. Do you think I would easily let them attack Roderick?"

"Actually, I wanted you to notice these people. I wanted them to know about my existence. Yu Tian, you still fell for it!"

The mercenaries also high-fived each other to celebrate because the person they killed was the world's most powerful Yu Tian. This was enough for them to show off everywhere in the future..

I Have 108 Older Sisters #Chapter 621 - Read I Have 108 Older Sisters Chapter 621

?Chapter 621 – Chapter 621 Was Very Interesting

Thank you readers!

Just as the mercenaries and Dukaric thought that they had killed Yu Tian and were still celebrating loudly,

The ruins suddenly moved.

Dukaric and the others immediately stopped laughing and looked at the ruins.

However, there was no movement from the ruins. Everyone thought that they were seeing things and laughed again.

Dukaric wiped the cold sweat off his forehead and said with a disdainful smile, "If so many bombs can't kill you, then you're a god. I'll Kowtow and pray to You Right Now!"

As soon as he finished speaking, the ruins didn't just move, but exploded.

Just as everyone was surprised, Yu Tian slowly walked out of the ruins.

He then patted the dust off his body and looked towards the base. He smiled calmly and said, "I thought you guys had some ability. It turns out that you only know how to use bombs!"

At this moment, Dukaric and the others' expressions were about to explode.

That was a hundred kilograms of explosives. It could raze the entire villa to the ground. Not to mention normal people, even a robot would be blown to pieces.

However, he was able to stand up in the rain without any injuries. This was simply too heaven-defying.

Was he still a human?

As for Dukaric, he quickly calmed down. Although he was shocked, his life was more important than anything else.

If Yu Tian found out that he was here, a person who couldn't even kill a bomb, he would definitely die a horrible death.

Thinking of this, dukaric directly ordered, "What are you still looking at? Hurry up and kill him. As long as you can kill him, you will be rewarded with 10 million international coins!

The mercenaries were very shocked, and it directly affected their morale.

Now no one had the courage to rush up and fight with Yu Tian.

Dukaric realized that no one was listening to him and said decisively, "Do you think he won't kill you if you don't make a move? Now, you have to know that we are not going to kill him...

we are going to attack him so that our people can leave safely. Don't you understand? He is here to kill us now. What are you waiting for? "Go and attack him!

Under his instigation, the mercenaries all picked up their weapons and jumped into the trenches in front of the base. They fired at Yu Tian.

However, Yu Tian didn't even try to dodge. His tough skin couldn't even be penetrated by rockets, let alone bullets.

This scene shocked Ducalik, who had already boarded the helicopter, so much so that his mouth was wide open.

That vice president, Kaka, had screwed him badly this time.

If he had known that Yu Tian was so abnormal and so heaven-defying, he definitely wouldn't have accepted his request and fought with this heaven-defying person here.

But dukaric also knew that there was no turning back once work started. Now that he didn't have to fight, it was useless to be afraid.

The best defense was to attack.

Only by killing Yu Tian completely could he be safe and get what he wanted.

Therefore, he immediately ordered the helicopter pilot to let the helicopter take off and leave this place first.

Of course, Yu Tian saw the helicopter taking off. Moreover, he was very sure that Dukarik was sitting in that helicopter.

He did not even glance at those mercenaries. He did not even have the intention to kill them. He directly flew over their heads and came to the bottom of the helicopter.

At this time, the helicopter was already 50 meters above the ground. Yu Tian snorted coldly and said indifferently, "You blew me up and still want to leave. Do you think that's possible? Come down!"

As soon as he finished speaking, Yu Tian picked up a rock and directly threw it at the helicopter in the air.

With his strength, he directly punched a hole in the helicopter's base.

The helicopter immediately lost control and spiraled toward the ground.

Fortunately, it was not very high. When it landed, it only dropped the landing gear.

However, when Yu Tian opened the cabin door of the helicopter, he found that the pilot was the only one in the helicopter.

The pilot was so scared that his face was as white as paper. He hurriedly pleaded, "Don't kill me. Dukarik is not here. He just told me to take off, and he has already left through another tunnel!"

Hearing this, Yu Tian laughed out loud.

Furthermore, he was especially excited as he said, "Very good, very good. Not Bad, not bad, not bad. I can finally find a person with an IQ as high as mine. To think that he would actually play a trick on me!"

He is a good opponent. I feel that this game is getting more and more fun!

After saying that, Yu Tian turned around and walked out of the base. As for the mercenaries, they ignored them.

Because it was simply too easy to kill them.

Moreover, he couldn't feel how powerful he was, and he didn't even feel any joy.

It was enough to scare them out of their wits. It wasn't enough to take their lives.

What he wanted was only an expert, not the pleasure of killing someone.

At this moment, Dukaric, who had arrived at the secret residence, drank half a bottle of wine in one go. Only then did he feel better.

At the same time, his mind was also thinking about how to kill Yu Tian?

It was impossible to use conventional methods, such as weapons or the world's most powerful mercenaries.

This was because Yu Tian's strength had miraculously surpassed that of all humans.

Therefore, he could not use methods to deal with humans. He should use other methods to kill Yu Tian.

But in the end, Yu Tian was still an ordinary person. He only had some special abilities.

As long as he removed all his abilities, he would still be easily killed.

Thinking of this, Dukaric immediately took out his phone and called a mysterious person.

At this moment, Yu Tian had already taken a hot bath and felt refreshed.

His phone rang at that moment, reminding him to receive a document.

This document was sent by Chu Meng, it was the information on DUKARIC.

Yu Tian looked at it carefully.

So this Dukaric was a relatively famous arms dealer in the world.

It was just that if he had been able to become the supreme president, he wouldn't be like today.

However, Yu Tian felt that it was strange. He did not have any enmity with this Dukaric. Why would he target him?

Could it be that the conflict that he had created here had hurt his interests?

However, this was impossible. Dukaric should know his identity. When he faced Yu Tian, he should be able to calmly know that he was no match for Yu

Tian.

So there is only one simple reason, that is, Cicero let him do it..

?Chapter 622 – Chapter 622, Intelligence Merchant

Thank you readers!

Chapter 622:, intelligence merchant

However, this was nothing. Whatever Cicero did was normal. He just wanted to ensure the integrity of his power. Anyone would do the same.

Yu Tian closed the data. He should continue to rest now. Why did he care so much? He would talk about other things after getting enough sleep.

At this moment, Dukaric met with a mysterious man.

They met at a restaurant in the wealthy district.

Of course, this restaurant was also Dukaric's. He had many such restaurants throughout the city, so the conflict in the wealthy district had a certain impact on his business.

But Dukaric didn't care about this. These restaurants were just a pretense to make others think that he was a businessman.

What he really needed to do was to make some other transactions in these restaurants.

For example, right now.

Dukaric poured a glass of red wine for the mysterious man and said in a low voice, "Mr. Carlos, I'm very surprised and very happy to see you here,

"You should know very well what happened here before. You are a businessman who specializes in selling intelligence. Now, I need your help. Of course, you can also get a lot of compensation from me!

Carlos did not have any extra expression on his face. This made Dukaric unable to guess what he was thinking. He could only look at him quietly, hoping to get his cooperation.

At this time, Carlos slowly picked up the red wine. However, he was not in a hurry to drink it. Instead, he placed it in front of his nose and sniffed it carefully. When he showed an appreciative expression, he placed the wine glass on the table.

Then, he slowly said, "Mr. Dukaric, I don't know why you have such a big conflict with Yu Tian, but I want to let you know first why I'm here?"

In the eastern country, there was a relatively mysterious and powerful family.

They created an organization that specialized in collecting information on Yu

Tian, and they invested hundreds of millions in this organization,

"Right now, all the intelligence merchants in the world are watching Yu Tian closely. No matter what he does or even his every move, there will be countless intelligence personnel watching him,

"According to the information I have, Yu Tian isn't as simple as you think. If you want to make an enemy out of him, you have to surpass him first!

Dukaric felt that what Carlos said was basically nonsense and useless.

If his own strength could surpass Yu Tian's, and there were many such people, then Yu Tian would have died long ago. How could he be unscrupulous and do whatever he wanted.

Thinking of this, DUKARIC said helplessly, "You are right. But the premise is that no one can surpass Yu Tian's strength, so Yu Tian is unscrupulous now,

"And the information I want to get from you is that I want to know his weakness. As long as his weakness is in my hands, I can easily defeat him and obtain the greatest benefit in the world,

"I don't want to control the power of this country now. I just want to be a businessman who can make money, so I need to get a lot of projects, Mr. Carlos, "I hope you can tell me Yu Tian's weakness!

Carlos laughed and said, "If I say that Yu Tian is a person without a weakness, you must be very disappointed,

"But from what I know of you, you must have thought that there is no one in this world who doesn't have a weakness. It's just that no one can find it,

similarly, we wouldn't be able to discover Yu Tian's weaknesses. Therefore, there were many people in this world who were looking for this weakness. Of course, there were also many people with high IQ who were thinking about how to defeat Yu Tian,

this was like an unopened door. Yu Tian always thought that he didn't have any opponents in this world. In fact, he even wanted to create all sorts of conflicts to give all the management departments in this world.,

all the CEOs created a large area of pressure to obtain the appearance of experts to increase his own strength. However, Yu Tian didn't know that..,

it wasn't that no one wanted to kill him. Moreover, there were many such people. They were all researching how to kill him. Of course, there were also many people who were supported by some mysterious funds,

their research also has certain effects. For example, the organization Pm talking about, it's a scientific research organization in an overseas country,

of course, this is just their name to the outside world. Internally, they are a private organization that specializes in studying magnetic storm rays. As for what magnetic storm rays are, Pm not very sure,

“But if you are willing to pay, I can introduce you to the people of this organization and their research materials!

Intelligence merchants were intelligence merchants. At all times, they only had money in their eyes.

They were also very skilled. They would always negotiate with you when you wanted to hear the most.

Dukaric immediately had his men behind him place a black suitcase in front of Carlos.

After the suitcase was opened, there was a computer that had already been activated.

Dukaric said indifferently, “Actually, I have already prepared it. As long as you provide me with the information, I can immediately transfer it to you through it. You will be satisfied with the price!

This was what Carlos appreciated the most. Dukaric always knew what he wanted the most.

He smiled indifferently and said in a low voice, “I want 50 million. Once I get the money, you can get the information you want!

Dukaric did not even think and directly transferred 50 million to Carlos.

After confirming that he had received the money, Carlos slowly stood up and said with a smile, “Tomorrow Noon, we will meet here. I will introduce an important person to you!

Dukaric would never worry about his money. He could not buy anything from Carlos.

Therefore, he nodded and said with an indifferent smile, "Very good. We will meet here at noon tomorrow!"

Seeing Carlos leave, Dukaric looked at his computer. This 50 million must not be spent in vain, and he must not make himself pay for it. He should write it down. Cicero had to buy it.

In the blink of an eye, it was morning. Yu Tian slowly opened his eyes. He had slept exceptionally well that night.

Yu Tian's habit was to wake up every morning and plan out what he had to do for the day.

For example, at this moment, he was thinking about how to attack Cicero..

Chapter 623 – Chapter 623, Magnetic Storm Ray

Thank you readers!

Chapter 623:, Magnetic Storm Ray

Actually, it was extremely easy for him to kill the Supreme CEO.

However, doing so wouldn't have any value. Instead, it wouldn't be able to carry out his plan.

The purpose of attacking the Supreme CEO was to find out who Dukaric was.

Therefore, the core of his current plan was to kill Dukaric first. Otherwise, there would be some resistance to his plan.

At this moment, Yu Tian's phone rang.

It was Tiffany.

After the call was connected, Tiffany said impatiently, "Why aren't you in this country yet? The monk I told you about before, he might be leaving here!"

Where is he going? I Can't gather any information about this now, so what I want to tell you is that if you don't come now, you might miss out on a true expert!"

When Yu Tian heard this, he said disdainfully, "I have a more interesting game than this monk, so let that Monk go wherever he wants to go. You just have to follow him!"

“When I’m done here, I’ll naturally find you guys. When that time comes, I’ll fight with this expert again. It’s not too late!

Tiffany knew that Yu Tian’s decision couldn’t be changed. She could only say indifferently, “I originally thought that I could use this opportunity to meet you”

“You know I really want to see you, especially when the distance between us is getting farther and farther. But it seems that my hope is unlikely to come true,

So what I want to say to you is that you are really a shameless bastard. I will follow that Monk. We will keep in touch at all times!

At this point, Tiffany hung up the phone, as if she didn’t want to talk to Yu Tian anymore.

She just smiled helplessly.

At this time, Chu Jia also pushed the door open and entered. She bought a particularly expensive suit for Yu Tian at the fashion store run by the world’s most famous designer.

Chu Jia liked to see Yu Tian in a suit because Yu Tian’s figure was absolutely comparable to those models.

In fact, Yu Tian preferred to wear more casual clothes because it was more carefree and more comfortable, especially when he was fighting. He always felt that he couldn’t stretch his arms and legs in a suit.

However, he didn’t want Chu Jia to feel uncomfortable because of his good intentions, so he put on the suit.

Chu Jia helped him put on his socks and asked, “What should we do today?”

Yu Tian Qian chuckled and stood in front of the mirror. He looked at the confident face and said indifferently, “Of course, we should go to our civil institutions. We have to go to a bigger scene,

“Because the bigger we make it, the greater the pressure on Cicero. When we do something else, we’ll be even more at ease!

An hour later, the two of them arrived at the prosperous area of the wealthy district under the protection of hundreds of armed bodyguards.

In just ten minutes, they had bought a building that was more than 20 stories tall.

Yu Tian said with satisfaction, “This will be our headquarters from now on.

Chu Jia, did you find out why I bought this building?

Chu Jia looked around carefully, but she didn't know what Yu Tian meant.

She shook her head helplessly and said, "I really don't know why. Don't make me anxious. Tell Me Quickly, why did you buy this building?"

Yu Tian laughed and pointed to the front of the building. He said coldly, "The highest management department is 500 meters away from us, but our headquarters must be higher than its highest management department."

"We put this here to let the highest CEO know that another highest CEO will soon appear in this country. I think the current Cicero must be very angry."

"He is also very confused about what we want to do."

Yu Tian's guess was right. Cicero looked at the building on the map and frowned coldly. "He bought that building. Is he trying to let me know..,"

"That he is very powerful? He wants to let me know that his power here is even greater than my supreme CEO."

When the vice president heard this, he felt extremely helpless.

He suddenly realized that the intelligence of this supreme president was far inferior to Yu Tian's or Dukaric's.

If Yu Tian wanted to show off his strength, there was no need for him to do so. He had to buy a building to achieve this. Everyone in the world knew of Yu Tian's strength. It would be useless to do so.

Yu Tian's real intention was to let the top management not know. Soon, he would become the top manager here and could easily replace the position of the highest CEO.

However, he didn't need to tell Cicero in detail about this. According to the current development, the position of the highest CEO in LIGE was becoming more and more unstable.

At this moment, Yu Tian and Chu Jia also began to recruit workers on a large scale.

This was a rich district. It wasn't just the slums that had idle labor.

In the rich district, there were more educated and capable people who also came to apply for jobs in this private organization.

Yu Tian also wanted to experience this kind of life, and now he was waiting for it.

Waiting for an opportunity to explode, and this opportunity would appear very soon.

Because Yu Tian knew very clearly that Dukalick would never, in the time that had passed, wait for him and give him a chance.

?Chapter 624 – Chapter 624, Paradise

Thank you readers!

When entes said this, he had no choice but to drink a glass of wine to calm himself down a little.

Dukaric felt a little strange. He was so excited just from talking about it. One could imagine how terrifying Yu Tian was?

When entes calmed down, he said slowly, "In order to gather information about Yu Tian, you don't know how much we have paid..,

however, what we find unacceptable is that Yu Tian's ability has been improving. According to the information we've received, Yu Tian has recently been developing a high-tech project,

"Moreover, this project has already been successfully tested. Although we don't know how much of an effect this project has on Yu Tian's ability? But there's one thing we can be sure of,

"With our current ability, it's impossible to kill him easily!"

Dukaric listened quietly and asked, "But what I want to know is, why is your research institute only targeting Yu Tian? Is there some hatred between the two of you?"

Entes sneered and said, "Our hatred is especially great. Do you know who my father is?"

Dukalick and Carlos shook their heads at the same time and looked at entes strangely.

Even Carlos, the businessman, did not know what Entes's background was based on this information?

Entes said coldly, "My father's name is Lothar. He is a famous doctor of Biology in the world. Because of Yu Tian, my father's whereabouts are unknown,

"He might have died at his hands. I didn't inherit anything from the projects that my father, Dr. Lothar, developed when he was still alive. After my father left us.,

“You have no idea how much our family has suffered? Therefore, Yu Tian will never know my name. In fact, my name is Lothar Entes. I’m Dr. Lothar’s son, therefore, I must avenge my father. What you don’t know is that in this world, there are countless people who are studying Yu Tian. The best among them is the Qian family in the imperial capital of the Eastern kingdom,

they specially created an organization to collect information on Yu Tian and invested a lot of money into this organization. All the information I received today was provided by this organization,

“The CEO of this organization is called Qian Sheng Jin. Like me, he has a deep hatred for Yu Tian. And today, you are sitting here with me for the same reason,

“Therefore, we have the same idea. We must kill Yu Tian. Only then will the world be a better place!

Dukaric finally understood why Entes did this?

It turned out that he had a true hatred for Yu Tian. If that was the case, then it was something he could use even more.

So he asked, “Then the magnetic storm ray that you mentioned earlier, can it really kill Yu Tian?”

Enders said very confidently, “This is the information that we have gathered from various aspects. After careful analysis, we have created the science and technology. Although I can not guarantee that if it is used, it will definitely kill

Yu Tian.”

“But I can say one thing for sure. Even if we can’t kill Yu Tian, we can still seriously injure him, reduce his strength by half, or even completely disappear. At that time, we can also use other methods to continue killing him!

This was what Dukaric wanted to hear the most. He was so excited that he raised his wine glass. The conspiracy of these guys was finally achieved.

On the other side, Yu Tian even felt a little bored.

He thought that the organization he created would increase the pressure on the supreme president. Perhaps he would continue to play with him.

However, so far, the supreme president seemed to have made no move.

Yu Tian used his highest IQ to carefully consider the whole situation.

After that, he came to the conclusion that the supreme arbitration and the Supreme Management department had placed their hopes on that Dukaric.

This DUKARIC didn't make any moves now, so it was meaningless.

But Yu Tian still wanted to know what this Dukaric was doing at this moment?

So he turned on the hacking function in the chip, connected to the network instantly, and conducted an extensive search.

Soon, he found Dukaric's communication information. Using hacking methods, he entered the database of Dukaric's phone and quickly found a large number of phone numbers.

Yu Tian carefully analyzed the recent calls and soon found out that the intelligence businessman Carlos and another person named Lothar Entes.

Carlos, the intelligence merchant, had nothing to study. A person who relied on intelligence to make money was only capable of that.

Lothar entes, on the other hand, looked a little interesting.

She was actually the president of a private scientific research institution, and the scientific research project of this scientific research institution was the application of electromagnetism.

This was like putting a sheep's head to sell dog's meat. This scientific research project had already been studied many years ago.

Moreover, the research had already been very fruitful. Now, he was still continuing the research. This was simply nonsense.

When the analysis came to this point, Yu Tian wanted to personally take a look at this scientific research institution and see what the inside story was.

Dukarik was a smart person. He couldn't do useless things.

This was because smart people all had a common characteristic. That was that they treasured their time very much. They would never do anything that wasted their time.

A few minutes later, Yu Tian arrived at the rain and Fog Kingdom.

The place was just like its name. It rained all year round, and the fog lingered around it. Therefore, the world also called this small country the Fairyland Kingdom.

The people here paid special attention to the protection of the environment. They never built more than five stories of high-rise buildings because they wanted to protect the geological environment here.

Yu Tian strolled along the road of the city that was filled with an exotic atmosphere and even some fairy-tale colors? The feeling here was especially good, and also very comfortable.

Just like the flower shop that he passed by, the Roses in the hollowed-out flower barrel were moistened in the drizzle like blooming stamens.

And every building that was filled with an exotic atmosphere was even more unforgettable.

And that scientific research institution was at the edge of the city, on the edge of a large grassland and a lake.

Although it was a scientific research institution, according to the building standards here, it was made like a candy house..

?Chapter 625 – Chapter 625, Chip Technology

Thank you readers!

If one were to look from the outside, no one would believe that this was a technology company that specialized in developing all kinds of high-tech projects.

And here, they were also using the degree of openness. They could even let people who came here to visit this organization, and they could try out some of the technology products in this organization.

Yu Tian found that they had a lot of products. In the exhibition hall, there were at least dozens of technological products neatly placed there.

When Yu Tian saw these things, he even believed that he might have come to the wrong place. This was an ordinary scientific research institution.

Dukarik just wanted to get some projects here. It shouldn't be like what he imagined. There was a secret in this institution.

However, at this moment, the lights in the hall suddenly flickered.

The other tourists didn't notice it, but Yu Tian did.

The flickering of the lights was definitely not because of a problem with the power supply system of the rain fog country. It must be because some large-scale equipment needed strong power support.

However, none of the products he saw required such a large amount of power.

In other words, there must be other high-tech equipment behind this research institution that he could not see.

And these equipment were what he wanted to see. It was the real research project of Lothar Enders.

But that was nothing. Yu Tian went outside the building and pretended to buy a drink. Then he went to the back of the building.

There was their network connection system. Yu Tian grabbed a network cable and activated the chip in his brain.

In less than two seconds, he connected to the entire network of this scientific institution.

This was the benefit of the chip. He had spent so much effort to inject the chip into his brain. When it was time to use it, he had to use it at any time. After all, this thing did not waste any energy.

After connecting to the network, Yu Tian quickly searched their database, including some top-secret documents.

Yu Tian did not feel any pressure to decrypt these documents. He simply decrypted them.

These documents recorded the research project of the Magnetic Storm Ray in detail.

When he saw this, Yu Tian frowned.

This was because his name appeared in the keywords of some of the documents.

This meant that this so-called magnetic storm ray project was actually designed for him.

However, this project would definitely not bring him any benefits or help. It was definitely designed to defeat him.

Moreover, Yu Tian found some of the core data of this magnetic storm ray project very interesting.

This scientific research project was indeed very precise. The core principle was to use electromagnetic radiation to destroy the human brain and the nervous system of the muscle tissue.

To put it simply, if he was exposed to the magnetic storm radiation, then his ability, including his strength, could disappear at any time.

After reading this, not only was Yu Tian not afraid, but he also wanted to test the power of the magnetic storm radiation. If it was really that powerful, then he had found the right game.

If he played it, it would definitely be very enjoyable.

However, this did not seem to be possible because the magnetic storm ray was unstable on some of the experimental data. In other words, this research technology was still in the experimental stage.

It was not yet usable. If it was not used properly, it would explode. Based on its design, the power of the explosion would probably destroy the entire fairyland city.

Yu Tian then opened Lothar's data and analyzed it carefully. He finally understood.

It turned out that his father was his defeated opponent, Dr. Lothar.

The biological doctor who was once known as the spiritual leader of the Angel Legion.

Thinking of this old man, Yu Tian really found it interesting. He did not kill him back then, and he did not know where he went.

But one thing was for sure, Dr. Lothar was still working on his biological project.

And his son, Lothar Entes, was also a scientist.

But this family seemed to have a hard time with him. Everything they were working on was aimed at him.

If that was the case, then he would kill them all so that they wouldn't waste time with him in the future.

When he saw this place, Yu Tian cut off the internet, but he still had some time to play in this Fairyland City for a while.

Because the environment here was really too good, it was really like a Fairyland on Earth.

It was rare that he could find the time to rest for a while. At least he could have a meal here and drink a glass of wine before leaving. It could be considered that he didn't come here in vain.

Back in the city, he found a restaurant.

The restaurants here were also special. The food they sold was mainly for tourists from other places.

Therefore, the style and names of the food were very interesting.

Yu Tian had ordered an Alice cake, a Lion King Barbecue, and finally a witch's red wine.

Everything here was named after a classic Hollywood cartoon. It was very interesting.

However, it was not time to eat. There were very few people in the restaurant. Other than two drunkards hiding in a corner, drinking and laughing shamelessly, there were almost no customers.

At this moment, the doorbell rang. A young girl in her twenties, wearing a hood and her hair was a little wet, walked into the restaurant.

At this moment, Yu Tian felt that this scene was especially poetic.

A beautiful young girl in the morning rain and fog felt particularly beautiful and romantic.

Therefore, he took out his phone and wanted to take a picture of this moment. He wanted to save it for later when he wanted to calm down and take a look.

The young girl also noticed the rainy day, but she did not say anything. She just lowered her head and came to the bar counter. She whispered to the waiter in the bar counter who did not have any expression. He was even a little disgusted with her.

"I'm here to get the cake. Can you give it to me now?"

The waiter gave him a disdainful look and said coldly, "Not now. We haven't prepared the cake for you yet. You can come at night!"

"Moreover, we have already told you before that we don't want you to come to our restaurant during the day to get the free food. This makes us very annoyed.. Don't you remember?"

?Chapter 626 – Chapter 626, I Only Want To Help You

Thank you readers!

The waitress' cold expression caused the young girl's eyes to be covered with a trace of helplessness and pain.

However, she still bit her tender lips, blinked her beautiful eyes, and forced herself to muster up the courage to say, "But my mother hasn't eaten since yesterday. I need to get this food."

"This is what the mayor promised us. Why Can't I get it now?"

The waiter slammed the bar counter hard and stared at her coldly. He said in disdain, "The mayor is right. We should indeed provide you, the vermin of society, with a daily meal,

"But we have also agreed with the mayor that this food can only be received by you every night. After some time, we will definitely not provide it to you."

You Yourself did not come to collect the food last night, who can you blame now? Can you blame me? You Lowly Beggars, every day you only know how to get free food from us,

but you have never contributed anything, you think that the food we provide for you, is as if it is supposed to be, but why don't you ever think about it,

why Don't you earn this food with your own hands? Is it just because of a word from the mayor that we have to support you all the time? This is a big joke,

in short, you can't get any food now, unless you come back at night. If your useless mother really can't stand it, you can buy normal food here,

but I think that the few copper coins in your pocket, let alone a meal, may not even be able to buy a cup of coffee, or you can rely on your own hands to earn it, anyway, you are the same, you can really hope that your life can change? This is a big joke!

The Waitress' words made the drunkards around them burst into laughter.

One of the drunkards, whose face was black and purple, laughed at the girl, "Hey, Samantha, why don't you come over and have a drink with me? If you make me happy, I'll buy you a piece of cake"

"Go back and let your damn mother live for another two days after eating it!"

The Drunkard's words made the other drunkards burst into laughter, as if their laughter at the girl was their greatest pleasure every day.

It was more like they were waiting for the girl to appear, and then using their despicable and shameless laughter to make themselves feel good.

However, Samantha ignored the laughter and harassment of the drunkards, and said to the waiter in a pleading tone, "But I have to go to work tonight, I can't come to get food!"

"My mother can't move her legs, so please have pity on us. Just give us a bite, and I'll thank you very much!"

However, the damn waiter glared at Samantha coldly. No matter how much she begged, she was indifferent. She even felt that she was superior.

However, in Yu Tian's eyes, the waiter was just showing off. What was there to be proud of as a waiter?

Could she be any higher than this girl?

In his opinion, this damn waitress was even worse than Samantha.

At least she could put down her dignity and beg others for a mouthful of food, but what about that waitress? She trampled on the dignity of others under her own feet. Such a person was even more hateful.

There were also a few drunkards over there. They unscrupulously looked at this girl's body. That lecherous gaze was simply like that of a devil.

They were also very lecherous, but they would definitely not be like these drunkards. They were simply shameless and were just playing hooligans.

Seeing the girl helplessly shed tears and turn around to leave, Yu Tian suddenly said to her, "Miss, I can help you. There's no need to cry. It's nothing!"

"These people are just a bunch of bastards. They just like to see other people's pity to make themselves happy. The more you cry, the easier they think you are to bully!"

"Listen to me. Wipe Your Tears. This world is not as cruel as you think. At least there are still good people like me!"

As Yu Tian was a guest, the waiter only gave him a cold glare when he said those words. She had the courage to say some nonsense to Yu Tian.

Samantha looked at Yu Tian gratefully, with a hint of wariness in her eyes.

That look made Yu Tian's heart ache. How much pain did she have to suffer to have such a look? She was always so cautious when she was being helped by others.

In order not to scare the girl, Yu Tian slowly spread his hands and said indifferently, "You don't have to be afraid. I just want to help you. You Don't have to come over. You just have to tell the waitress what kind of food you want to eat?"

Then you can take it away. No matter what it is, even if you want this restaurant, I can give it to you. Then you can leave. I don't have any requirements for you. Please don't Misunderstand!

After listening to his words for a day, Samantha finally felt a little more relaxed, and the gratitude in her eyes became even more intense.

At least one day, her words made her feel a little warm. Even if it was not true, or if it was just a dream, it was better than those cold words and the ridicule of those people.

She gave Yu Tian a very, very innocent smile. Just this smile alone made Yu Tian feel very sad.

It was a lonely smile. If one had not suffered real pain, despair, or even been cruelly trampled by this world, one would never have this kind of smile that seemed to see through everything.

And the waitress seemed to not want to see this girl pretending to be pitiful again. She said very coldly, "Alright, now that a good person is willing to pay for you, what are you waiting for?"

This is a rare opportunity for you today. Whatever you want to eat, just say it!

But the girl shook her head. She did not seize this opportunity. She just wanted the cake that was supposed to belong to her.

The waiter gave her a disdainful look. She was an idiot for not taking such a good opportunity.

Soon, the waiter wrapped up the fragile cake and placed it on the table.

Yu Tian saw clearly that the whole cake had turned into a table full of crumbs.

However, Samantha still carefully held the cake in her hands. It was free food, and it was the life of his family. Even if it was broken, it was still better than nothing..

?Chapter 627 – Chapter 627 Was Just Boring

Thank you readers!

However, Yu Tian couldn't stand it anymore. This waitress was simply too much. If she had the ability, she could go and show off to those drunkards over there. It was really hateful to show off to a girl like that.

Just as Samantha was about to turn around and leave, Yu Tian suddenly stopped her.

“Wait a minute, this is not the cake that I want to give you!”

Yu Tian walked to the front of the waitress and glared at her coldly. He ordered, “Listen to me, I want you to apologize to this girl right now,

otherwise, I will let you know what regret is. I will let you know what the price of bullying is. Apologize to this girl right now!”

The waiter smiled coldly and shook his head. He said unwillingly, “I'm not going to apologize to a beggar. Who does she think she is? She's just a B * Star who was abandoned by her father.”

She relied on the help of our restaurant to survive until now. Otherwise, she and her equally lowly mother would have starved to death outside. She even wants me to apologize. I think she should be the one thanking us!

In other words, she was prepared to show off until the end.

Yu Tian did not want to waste any more time and directly ordered, “I want to see your boss now. Tell him to get out immediately!”

The waiter sneered as if he was looking at a monster. He looked at Yu Tian and said, “Our boss is not here. Even if he is here, he will not see you,

“Because he hates this Samantha more than I do. Up until now, we haven't gotten a single cent from the food we provide every day. Our boss hasn't wanted to do this charity work for a long time,

“Do you still think our boss will give you a satisfactory answer? “Stop Dreaming!”

The waiter's words made everyone burst into laughter again.

Especially those drunkards. It was as if they had heard the funniest joke in the world. Their laughter made Yu Tian feel like he was slaughtering a pig.

Since that was the case, he would let them know what the consequences of disrespecting others were?

Yu Tian walked directly to those drunkards and asked coldly, “Why? Do you think I'm quite funny? Or do you think what I said is funny?”

The drunkards didn't care about Yu Tian at all. He was just a skinny easterner. If they were to fight, how could they be afraid of such a skinny man?

The dark-purple-faced drunkard laughed disdainfully, "We just think it's funny. What can you do? Do you think you can hit us? Look at your weight first, then look at the weight of us!"

If you want to fight, I'll definitely fight to the end. Moreover, I only need one punch to let you enjoy a free plane ticket and fly directly back to your eastern country!"

"And then I'll think about this punch I gave you for the rest of my life!"

He felt that he was very humorous. However, just as he finished speaking, Yu Tian's fist landed on his face.

It was just a simple punch, but it sent the wine flying out of the restaurant. After smashing the glass, it fell heavily to the ground.

Just this punch made everyone's jaws drop in shock.

That man weighed at least 200 pounds, but in front of this easterner, it was as if all his weight did not exist.

At this moment, the other drunkards stood up one after another, wanting to attack Yu Tian together.

However, Yu Tian did not give them any chance. With a big mouth and a flat kick, he beat all the drunkards out of the restaurant.

The other customers who were eating saw this scene and were so scared that they all ran out of the restaurant. Only Samantha was still standing there, looking at Yu Tian in surprise.

However, Samantha was still very touched. No man had ever been willing to help her.

Even if there were, they still wanted to get their own body, not sincerely for her own good.

However, the oriental man in front of her clearly didn't think that way. He just wanted to help her.

This was really touching.

When the waiter at the bar saw this scene, he was sure that Yu Tian was a very good fighter. He quickly picked up the phone and called the boss.

The scene after that was no longer something she could control. If this oriental man wanted to attack her, she reckoned that she would never be able to be a waiter again.

This was what Yu Tian had been waiting for, so when the waitress called, Yu Tian put all the other food on the table, then, he turned to Samantha and said, "You must be hungry, right? Eat Something First!"

Samantha hurriedly shook her head and said, "Thank you, sir. I already feel bad that you fought for me. How can I eat your food again?"

"I just need to get my cake. I really can't take anything else because I don't have the ability to repay your kindness!"

Her words were very sincere, but Yu Tian didn't care about that.

He laughed and said indifferently, "Don't think too much. I don't need anything from you in return. I'm not sympathizing with you or pitying you. I just feel that I'm making the right choice."

Any hot-blooded person would do what I did when they saw this scene. I was just bored and wanted to find something fun to do,

"And I feel that it's very exciting now. After I beat up those drunkards, I'll continue to beat them up later. Boss, I have a habit of beating up a few people every day, I don't even have the strength to shit!"

Samantha was amused by Yu Tian. This oriental man was actually quite humorous.

The more so, the more familiar she felt with Yu Tian. Samantha still sat on the table and began to gobble down the food.

Only at this time did she feel so hungry, as if she would never be full.

Yu Tian looked at her as she wolfed down her food. He brought her another drink and reminded her, "You should eat slowly. Don't choke. These things can't be eaten in a hurry. Drink some water first!"

Samantha looked at Yu Tian gratefully. Since her mouth was full of food, she couldn't talk now, so she could only thank Yu Tian with her eyes.

At this moment, the owner of the restaurant suddenly entered. He saw a girl eating in the corner, and he was surprised. "What are you doing here? You don't want to work?"

n

!

“My rolling pin is invincible in the world.. If you are not convinced, just come over!

Chapter 628 – Chapter 628: Buying The Restaurant

Thank you readers!

Yu Tian didn't know whether to laugh or cry when he saw the boss acting all high and mighty. He was even unbeatable in the world with a rolling pin. It was more accurate to say that his looks were unbeatable in the world.

His facial features were twisted together as if he was about to lose control. Yu Tian was puzzled. How could there be such an ugly person in this world?

Therefore, Yu Tian couldn't be bothered with him. He casually picked up a plate and threw it directly at the boss's face.

When the plate broke, the boss almost fell to the ground.

He didn't even know who threw the plate. After standing up, he continued to wave the rolling pin and shouted loudly, “Who is it? Who Is It? If you have the guts, come out and fight me one-on-one?”

Looking at the bleeding head, Yu Tian slowly stood up and said with a cold smile, “It was me who threw it. What can you do? If you don't like it, then do it!”

The boss looked at Yu Tian's thin and weak body and was full of confidence at that time. He felt that his rolling pin could completely defeat this Chinese thin and weak young man at his feet.

If he wanted to show off in his own restaurant, he first had to see if he had the ability.

The boss waved his rolling pin and rushed out of the bar counter without hesitation. However, he was kicked to the ground by Yu Tian as soon as he arrived in front of Yu Tian.

The rolling pin flew out as well. The boss clutched his stomach and lay on the ground with an extremely pained expression. It was as if Yu Tian's kick had almost broken his intestines.

Yu Tian was too lazy to say any nonsense. He grabbed his hair and said coldly, “Why? Do you still want to fight with me now? You said that you were holding a broken rolling pin as if you were very powerful?”

Those who did not know would think that you were holding some kind of magical weapon. Now, I'll tell you one thing. I want to buy this restaurant. Do you want to sell it or not?

What choice did the boss have? He was already scared by Yu Tian.

He grimaced and said, "Of course I can sell it to you. You can buy whatever you want. You have the ability. Just don't kick me in the stomach again. I'll agree to anything you say!"

"It seems that you're quite sensible. Then tell me, how much does your restaurant cost?" Yu Tian asked coldly.

The owner thought for a moment and rolled his eyes. He seemed to be in a difficult position as he said, "Seeing that you are so good at fighting, I will sell this restaurant for 200,000 international coins to you!"

Yu Tian snorted coldly and raised his hand to slap him.

"200,000 international coins? Are you crazy about money? How much economic value do you think this city of rain and fog has? It rains all year round here. Other than relying on that little bit of tourism to support it?"

"Do you think your lousy restaurant is really that valuable?" "I'll give you 50,000 rain and fog coins. Do you want to sell it or not?"

The boss was about to cry. Compared to 200,000, 50,000 was like the difference between heaven and earth. It could not be compared at all.

However, his restaurant was indeed worth this price, and he had always wanted to sell it. Then, he would take the money and leave this damn city. He would go to a place where there was sunshine every day and enjoy a wonderful life.

So, he cried and said, "50,000 is really too little. If you give me 70,000 yuan and stop hitting my mouth, I will sell this restaurant to you immediately!"

This price was still acceptable. If it wasn't for this boss and that waiter who were acting pretentious and bullying people, he would have given them more.

However, they only took out 1,400 international coins. According to the 1:50 rain and fog coins, 70,000 yuan was exactly 1,400 international coins.

Yu Tian threw the money at the boss's feet and snorted coldly, "This restaurant is mine now. Take your things and get out of here. I don't want to see you again!"

The boss took the money and left in a hurry.

At this time, Yu Tian looked again. The waiter behind the bar counter pointed at his feet coldly.

His meaning was very obvious. Kneel and Kowtow.

The waiter didn't know that Yu Tian could buy this restaurant so easily. What choice did he have now?

It seemed impossible to kneel and kowtow, but he had to beg the new boss.

If he couldn't work as a waitress here, it would be hard to find another job, and he would starve to death.

So he walked out of the bar counter, smiled, and begged sincerely, "Sir, I was wrong before. I beg your forgiveness, and don't let me leave this restaurant,

I promise that I will never discriminate against these difficult people in the future. I will be very warm to them. Please forgive me!

Yu Tian did not want to listen to her nonsense. If a person was like this, it would be useless no matter how nice his words were. This was his nature, and he could not change it.

Therefore, Yu Tian pointed at Samantha's feet and said coldly, "If she can forgive you, then I will forgive you and let you continue working here!

However, the waitress still didn't kneel down. Instead, she begged with tears, Samantha, I know it's my fault for treating you like that before

"But since we're still neighbors, please don't hold grudges against me anymore. Just take it as I'm begging you, Okay?"

Samantha didn't know what to do either, because she never thought that those who had bullied her before would beg her like this one day.

So, she still looked at Yu Tian.

Yu Tian could see from her complicated eyes that this poor girl didn't know what to do.

So, she had to make this decision herself.

He snorted and said indifferently, "Since you want to ask my opinion, then don't say anything. Just like the boss, leave this place immediately and don't Let Me See You Again!

No matter how much the waiter begged, he couldn't get Yu Tian's forgiveness. In the end, he could only leave the restaurant quietly. What would she do for the rest of her life? It was up to her.

At this time, Yu Tian turned to Samantha and said, "This restaurant is yours from now on. This is my gift to you. Of course, I will visit this restaurant occasionally in the future. I hope that when the time comes"

I will be very satisfied if I can see you running this restaurant very well!

Samantha couldn't believe her ears. Everything was like a dream.

She had just come to get a piece of cake, but she had miraculously obtained the entire restaurant.

If she could really own this restaurant, then her and her mother's lives would be completely changed.

Moreover, she loved making pastries since she was young. She would definitely make the customers like her cooking.

At the thought of this, Samantha felt as if her dream had come true. She shed hot tears and said sincerely to the sky, "Thank you, thank you so much.. God will definitely bless you!"

?Chapter 629 – Chapter 629, Dignity

Thank you readers!

Yu Tian was actually indifferent to this kind of gratitude. In this world, there were many people who regarded themselves as the most powerful enemy, but there were also many people who accepted his help.

If one were to say thanks, then there would be many people thanking him every day. If one thought about it carefully, this kind of feeling would fade away.

After chatting with Samantha, Yu Tian found out that her father used to work in the research and Development Center.

Her father was a famous scientist, but for some reason, his father left the research and Development Center. From that day on, her father's health was not very good, and he died soon after.

Samantha always thought that her father had suffered some kind of radiation in the R & D Center, because when he died, he looked particularly miserable.

“You will know who I am soon!”

Yu Tian smiled and didn't say anything else.

They came to an empty place and directly activated the teleportation, returning to Lire.

At this moment, Lire's organization was distributing a new batch of food.

There were at least thousands of civilians waiting outside the organization to receive it.

Chu Jia personally distributed the food to them. Every time a food was distributed, Chu Jia would put a card in the packaging of the food.

The content of the card was that she hoped to get everyone's support so that everyone could have the life they wanted.

When Yu Tian returned, Chu Jia was especially excited and dragged him into the office to have a passionate kiss with him.

This was Chu Jia's unique way of thanking Yu Tian, because so far, he had obtained more than 35% of the support.

Moreover, this approval rating continued to rise. After more than 50% , he would be able to create his own management department and eventually compete for a seat in the parliament.

The last thing Yu Tian wanted to do was to kiss her, because this thing made him feel very angry.

Chu Jia was a standard beauty. She was always seducing him like this, and it was not something that he could necessarily endure.

But now was the critical moment. She had to endure it no matter what.

Otherwise, if she had a child, Chu Jia wouldn't be Chu Jia.

In the blink of an eye, the next morning, Chu Jia's approval rating had already exceeded 570/0 .

Even if she had invested more than 200 million international dollars on this basis, this money was well spent.

Yu Tian saw the opportunity and immediately asked Chu Jia to hold a press conference to create his own management department.

At the press conference, Yu Tian was still wearing makeup. No one could recognize him as Yu Tian.

When the reporters raised their cameras one after another, Chu Jia said with a sad expression, "Everyone knows that my organization was created yesterday,

but after I created this organization, I realized that it was just a simple organization. Distributing food, medicine, or other things to everyone was completely useless,

if the Supreme Management department couldn't make good rules, then the commoners would never be able to get the life they wanted. And I want to truly change all of this, and I can't just rely on this organization,

So after my discussion with my think tank, I officially announced today that I will create my own management organization. After that, I will compete for a

seat in the parliament,

"Without this, I can change the unfair rules and truly pursue my own goals for everyone!

As Chu Jia spoke, Yu Tian noticed that there were several people in the crowd. Their expressions didn't look like reporters at all.

That was because at that moment, every reporter was looking at Chu Jia. These few people weren't looking at him.

It seemed that his disguise had no value in their eyes.

If he guessed correctly, they must be the people Dukaric had called over.

Therefore, the magnetic storm ray that he had been hoping for might be in their hands.

However, this wasn't the place to fight. Yu Tian seemed to have formed a tacit understanding with them. After exchanging glances with each other, they all walked out of the venue.

Yu Tian didn't say anything. He only looked at Chu Jia and walked out of the venue.

When they arrived at the open area outside, the few men were already waiting there.

Each of them was carrying a black backpack as they gloomily looked at Yu Tian.

However, Yu Tian waved at them and said with a faint smile, "Everyone, if I'm not wrong, you must be carrying a weapon called a magnetic storm ray."

Since that was the case, there was no need to be polite. Let's save some time and start now. Let me see just how powerful your weapons are.

Among these people, Enders was the one who hated Yu Tian the most.

At this moment, seeing that Yu Tian was still so arrogant, his heart was filled with even more hatred.

He said angrily, "Yu Tian, don't think that you are the invincible existence in this world, and I'm the one who ended your invincible existence. Today, I want to avenge my father..,

moreover, I will take revenge for all those who were killed by you. You will not be able to leave this place alive!

Yu Tian laughed out loud and said disdainfully, "Then, what if you can't reach your goal today?"

Entes sneered and said, "If I can't kill you today, I will kneel down and kowtow to you. Moreover, I will go back and blow up my R & D Center Right Now!

"Okay, then we have a deal. Let's start now. I still have to attend a cocktail party later. I don't have time to waste with you guys!

Yu Tian narrowed his eyes slightly, wanting to see how powerful their Magnetic Storm Ray was.

If it could really make him feel pressure, then it was really what he wanted..

?Chapter 630 – Chapter 630, Explosive Mode

Thank you readers!

Chapter 630:, explosive mode

Since they were already prepared to make a move, what was the point of wasting so much time?

Entes immediately ordered his subordinates, "Since he is so arrogant, let's show him how powerful we are. Take out our magnetic storm ray immediately!"

As soon as he finished speaking, the men immediately opened their backpacks and took out a tool that looked like a code sweeper. Then, they surrounded Yu Tian.

Yu Tian understood at a glance that this thing was emitting magnetic storm rays, and the real machines were all in their black backpacks.

If he made a move now, these people would be killed by him in the blink of an eye.

However, Yu Tian did not want to do this. It was rare to meet these experts who used high technology. He also wanted to see if his strength could be used in the scientific field in the future.

At this moment, Enders ordered them to activate the magnetic storm ray.

Then, they activated the equipment in their backpacks.

The radiation ray immediately shot out from the code sweeper, like an invisible rope, trapping Yu Tian inside.

Yu Tian felt very hot at first, and the strength of his body was dissipating, and he couldn't control it.

Soon, Yu Tian felt the blood in his body boiling, as if it was boiling water.

This really surprised him. This magnetic storm ray was really interesting. It could actually cause his body to feel so much pain.

However, the more this was the case, the more excited Yu Tian felt. Right now, he was imagining how he could break through this layer of confinement.

However, this was a little difficult because the power in his body had already completely dissipated in the magnetic storm rays. This magnetic storm rays seemed to be able to stabilize the frequency of the magnetic field and resonate with the power in his body, this would cause the power in his entire body to dissipate.

If he wanted to break through this layer of confinement, he would first have to destroy one of the magnetic storm rays and destroy the entire magnetic field. Only then would his magnetic storm rays be completely useless.

Yu Tian gritted his teeth, enduring the pain as if his body was being torn apart. He focused his mind, trying to destroy their machine with his mind.

However, not only could this ray disperse his power, it would also interfere with his thoughts, making it impossible for him to concentrate.

His ears were like the howling of metal, especially ear-piercing.

At this moment, Yu Tian also saw several mercenaries with heavy weapons around him, and the one walking in front was dukaric.

Although Yu Tian was unable to concentrate and could not resist, his mind was still very clear and calm.

Dukaric had come here at this time to show off to him, without any other intentions.

After showing off, he would order the mercenaries to attack him.

Yu Tian clenched his teeth and looked at the other person beside Dukaric.

That guy was the vice president of the Supreme Management Department, an old man with white hair.

He knew that it was because of the two of them working together that he had the magnetic storm ray from the ENTES.

Today, they came at the right time. He could kill them all together.

Dukaric sneered proudly and said, "Yu Tian, in fact, you have gotten everything that anyone wants, but why did you come here?"

If I Were you, I would never choose this. You always think that you are invincible in this world, but don't forget that there are more powerful existences than you in this world,

you are just a person. You Can't get through the laws of physics in this world, and you can't jump out of the laws of physics. Now look at yourself, how miserable you are,

maybe even in your dreams, you never thought that you would one day be suppressed by some very ordinary people, so much so that you can't even fight back,

i have to admit that when you climbed out of the ruins, I really felt that you were like a god. However, unlike others, I didn't worship God,

because even if God stood in front of me and wanted to stop my interests, I would eventually think of ways to kill him. I just saw the news, and you actually wanted to create a management department here and compete for a seat in the parliament,

in fact, I am very clear that you want to get the position of the supreme president. That Guy Cicero really deserves to die, but there is one thing you may not know, you are not the only one who likes the position of the Supreme President,

and after all these years of hard work, I now have the strength to get the position of the supreme president, so don't think about competing with me, and you can not compete with me anymore, because in a few minutes,

you will be completely torn to pieces by the magnetic storm rays in these people's hands. After that, we will hold a cocktail party, and we will celebrate with the best red wine in the world!

After he said that, vice president Kaka also said, "I have been thinking, who is the one who initiated so many conflicts? The one who provided so much support to Roderick behind the scenes,

when I knew it was you, I felt it was a pity. If you had provided those things to them, Quanzhou resources to the top management department, we wouldn't have treated you as an enemy,

"And you're really smart. You knew we were using Chu Jia to suppress that conflict, so you then let Roderick start a conflict,

I have to say, your strategy is really perfect. However, no matter how perfect the strategy is, there are still shortcomings. You may never know that there is another person as smart as you in this world,

Dukaric's existence, and he can think of the best strategy to target you. Moreover, this strategy is even more perfect than your strategy. Just like now, you can only slowly kneel in front of us,

"Then, you can watch yourself being torn apart bit by bit, but you don't have any ability to resist. And we enjoy all of this. You should just accept your fate. You can't break free from the current shackles!

At this moment, Yu Tian did not feel any sense of danger. Even though his body was in extreme pain, his brain chip reminded him that his life structure was normal.

Although this magnetic storm ray was powerful and could decompose his body's strength and other aspects, it was impossible for it to take his life.

Thus, he immediately activated the chip and chose the power burst mode.

Under the stimulation of this mode, Yu Tian's bones, muscles, and blood instantly gathered together in the collapsing mode.

A violent force burst out, like a heavy bomb exploding on the ground..

I Have 108 Older Sisters #Chapter 631 - Read I Have 108 Older Sisters Chapter 631

?Chapter 631 – Chapter 631, Automatization

Thank you readers!

Yu Tian activated the explosion mode of the chip. The power of his body was like a bomb, blowing Entes and the others away.

Even the machine in their backpacks exploded into pieces under the stimulation of this power.

The destructive power of the explosion of the machine caused Entes and the others to be irradiated by the magnetic storm ray.

However, their bodies were not strong enough to withstand the radiation at all. In an instant, they became aborigines and shattered on the ground.

Dukaric and vice president Kaka, who were lying on the ground in shock from the explosion of the power, looked up at Yu Tian. They were scared out of their wits.

On this day, their skin was shining like metal. It was especially dazzling.

Just as Yu Tian wanted to walk toward them and take them out together, Dukaric had a sudden idea and immediately ordered his mercenaries to attack Yu Tian without caring about anything else.

The mercenaries' heavy weapons swept toward Yu Tian in all directions.

Before Dukaric turned around and left, he knew that these weapons couldn't cause any damage to Yu Tian, so he pushed the still surprised Kaka toward Yu Tian.

The moment Vice President Kaka rushed towards Yu Tian, he looked at Dukaric with a cold expression. His most trusted friend, Dukaric, had betrayed him at this moment.

If he had known this would happen, he wouldn't have stood on Dukaric's side when he was running for president. Instead, he should have held a dagger and pierced through his neck.

However, it was useless to think about this now. The person he was charging at was a demon or a god of war that had descended from the sky.

Even the most scientific magnetic storm ray couldn't hurt him at all.

Moreover, the last transformation was beyond human imagination and beyond the limits of physics.

But what was the use of thinking about this now?

When Yu Tian saw that he was charging at him, he did not even blink and directly threw a punch.

This punch directly punched a hole in the vice president's heart, killing him.

And when those mercenaries saw this scene, they still wanted to retreat.

How could Yu Tian give them this opportunity? When they turned around, Yu

Tian had already jumped behind them, one punch each, and finished them off.

At that moment, Yu Tian clenched his fists tightly. He could feel the power in his body still erupting, and his blood was flowing extremely fast.

He quickly turned off the chip, because such an intense feeling would cause his body to exceed its limits. This could also be considered one of the drawbacks of the chip. Chu Meng was still thinking about how to solve this problem.

Although they thought that he did not know the existence of this disadvantage, and he did not want to tell them about his feelings, so that they would not feel pressured.

But just as he was about to turn around and leave, Yu Tian suddenly realized that there was something wrong with his feet.

He immediately took off his shoes and took a closer look. He was shocked.

His feet had already turned into machine metal, just like a robot that had been created. The surface of his skin had turned into metal, and the tendons and bones within had also turned into metal.

When he moved, there were still cracking sounds.

“What the F * Ck is going on? Am I going to turn into a robot? I knew this was a weakness of the chip, but at the time, I thought it was to increase my defense,

“But now I finally know that this is not to increase my defense, but to transform my body. I Can't turn into a robot. I have to think of an idea now!

Thinking of this, he put on his shoes, turned on the teleportation, and went straight to Sean's research and Development Center.

Chu Meng, Chu Xuan, and the other high-level science and technology personnel were so shocked that their mouths were wide open when they saw Yu Tian's feet. They couldn't say a word.

Yu Tian was very calm. He took a sip of coffee first and then said slowly,

“Everyone, don't be so nervous. Since Pm about to turn into a robot”

“Then I don't think Pll turn into a robot completely. At least there's still time. Everyone, there's no need to be anxious. Let's slowly think of a countermeasure!

The pain in Chu Meng's eyes turned into tears and rolled out of her eyes. She said sadly, "In fact, we've been thinking of a countermeasure, but so far"

"We've done countless data simulations, but we still haven't been able to find a countermeasure to solve the problem of mechanization. So now we've changed our thinking. Let's see if we can extract your chip again!"

Chu Xuan, who was sitting next to him, said in a cold voice with no expression, "This is impossible. The chip has been integrated into Yu Tian's nervous system and blood system,

"If we forcefully take the chip out, Yu Tian could become mentally ill or a vegetable at any time. Then, we might as well turn it into a robot!"

Although her words were harsh, they were also very practical.

It was impossible to take out the chip. Even Yu Tian knew this very well.

The machine that could inject chips into the body might not have considered taking out the chip when it was first designed.

Thinking of that machine, Yu Tian wanted to see it with his own eyes.

So he put down the coffee cup, walked into the room where the machine was placed, and looked at the machine quietly.

He was definitely not the first person to inject chips into the body. It was still unknown how many robots this machine had made.

But one thing was basically certain. The robots made by this machine could not be for the evolution or development of human beings. They had other plans.

For example, if they made humans into machines and then controlled these robots through the use of chips, it would be equivalent to controlling the entire human race and the world.

This idea and plan had to be said to be too perfect. Moreover, it was very, very powerful in terms of technology.

Fortunately, he had only injected the chips himself. Moreover, his body condition allowed this mechanization to develop slowly. If it was anyone else, they would have become robots by now.

When he thought of this, Yu Tian suddenly frowned.

This machine could also produce developers. Did that mean that the developers would very likely become the people under their control.

The more he thought about it, the more complicated he felt. With Yu Tian's current 100% IQ, he felt that he could not even consider what the machine makers were thinking?

At this moment, Chu Hui also arrived at the research center through the coordinate transfer. When she saw Yu Tian, Chu Hui also cried in sadness.

However, Yu Tian laughed and said, "Don't cry, it's nothing great.. Moreover, you definitely didn't come here to see my pair of machine feet, right?"

Chapter 632 – Chapter 633, The Wrath Of The Desert

Thank you readers!

Yu Tian activated the chip's explosion mode. The power of his body was like a bomb, Blowing Entes and the others away.

Even the machines in their backpacks were blown to pieces by this power.

The destructive power of the explosion of the machines made Entes and the others be affected by the magnetic storm ray.

However, the strength of their bodies was not strong enough to withstand this kind of radiation. In an instant, they became aborigines and shattered on the ground.

Dukaric and vice president Kaka, who were lying on the ground in shock from the explosion of this power, looked up at Yu Tian again. They were so scared that they were out of their wits.

At this moment, one day, their skin was shining like metal, especially dazzling.

Just as Yu Tian wanted to walk toward them and take them out together, Dukaric had a sudden idea and immediately ordered his mercenaries to attack Yu Tian without caring about anything else.

Yu Tian without caring about anything else.

The mercenaries'heavy weapons swept toward Yu Tian in all directions.

Before Dukaric turned around and left, he knew that these weapons couldn't cause any damage to Yu Tian, so he pushed the still surprised Kaka toward Yu Tian.

The moment Vice President Kaka rushed towards Yu Tian, he looked at Dukaric with a cold expression. His most trusted friend, Dukaric, had betrayed him at this moment.

If he had known this would happen, he wouldn't have stood on Dukaric's side when he was running for president. Instead, he should have held a dagger and pierced through his neck.

However, it was useless to think about this now. The person he was charging at was a demon or a god of war that had descended from the sky.

Even the most scientific magnetic storm ray couldn't hurt him at all.

Moreover, the last transformation was beyond human imagination and beyond the limits of physics.

But what was the use of thinking about this now?

When Yu Tian saw that he was charging at him, he did not even blink and directly threw a punch.

This punch directly punched a hole in the vice president's heart, killing him.

And when those mercenaries saw this scene, they still wanted to retreat.

How could Yu Tian give them this opportunity? When they turned around, Yu

Tian had already jumped behind them, one punch each, and finished them off.

At that moment, ?????? clenched his fists tightly. He could feel the power in his body still erupting, and his blood was flowing extremely fast.

He quickly turned off the chip, because such an intense feeling would cause his body to exceed its limits. This could also be considered one of the drawbacks of the chip. Chu Meng was still thinking about how to solve this problem.

Although they thought that he did not know the existence of this disadvantage, and he did not want to tell them about his feelings, so that they would not feel pressured.

But just as he was about to turn around and leave, Yu Tian suddenly realized that there was something wrong with his feet.

He immediately took off his shoes and took a closer look. He was shocked.

His feet had already turned into machine metal, just like a robot that had been created. The surface of his skin had turned into metal, and the tendons and bones within had also turned into metal.

When he moved, there were still cracking sounds.

“What the F * Ck is going on? Am I going to turn into a robot? I knew this was a weakness of the chip, but at the time, I thought it was to increase my defense,

“But now I finally know that this is not to increase my defense, but to transform my body. I Can't turn into a robot. I have to think of an idea now!

Thinking of this, he put on his shoes, turned on the teleportation, and went straight to Sean's research and Development Center.

Chu Meng, Chu Xuan, and the other high-level science and technology personnel were so shocked that their mouths were wide open when they saw Yu Tian's feet. They couldn't say a word.

Yu Tian was very calm. He took a sip of coffee first and then said slowly, “Everyone, don't be so nervous. Since Pm about to turn into a robot”

“Then I don't think Pll turn into a robot completely. At least there's still time. Everyone, there's no need to be anxious. Let's slowly think of a countermeasure!

The pain in Chu Meng's eyes turned into tears and rolled out of her eyes. She said sadly, “In fact, we've been thinking of a countermeasure, but so far”

“We've done countless data simulations, but we still haven't been able to find a countermeasure to solve the problem of mechanization. So now we've changed our thinking. Let's see if we can extract your chip again!

Chu Xuan, who was sitting next to him, said in a cold voice with no expression, “This is impossible. The chip has been integrated into Yu Tian's nervous system and blood system,

“If we forcefully take the chip out, Yu Tian could become mentally ill or a vegetable at any time. Then, we might as well turn it into a robot!

Although her words were harsh, they were also very practical.

It was impossible to take out the chip. Even Yu Tian knew this very well.

The machine that could inject chips into the body might not have considered taking out the chip when it was first designed.

Thinking of that machine, Yu Tian wanted to see it with his own eyes.

So he put down the coffee cup, walked into the room where the machine was placed, and looked at the machine quietly.

He was definitely not the first person to inject chips into the body. It was still unknown how many robots this machine had made.

But one thing was basically certain. The robots made by this machine could not be for the evolution or development of human beings. They had other plans.

For example, if they made humans into machines and then controlled these robots through the use of chips, it would be equivalent to controlling the entire human race and the world.

This idea and plan had to be said to be too perfect. Moreover, it was very, very powerful in terms of technology.

Fortunately, he had only injected the chips himself. Moreover, his body condition allowed this mechanization to develop slowly. If it was anyone else, they would have become robots by now.

When he thought of this, Yu Tian suddenly frowned.

This machine could also produce developers. Did that mean that the developers would very likely become the people under their control.

The more he thought about it, the more complicated he felt. With Yu Tian's current 100% IQ he felt that he could not even consider what the machine makers were thinking?

At this moment, Chu Hui also arrived at the research center through the coordinate transfer. When she saw Yu Tian, Chu Hui also cried in sadness.

However, Yu Tian laughed and said, "Don't cry, it's nothing great.. Moreover, you definitely didn't come here to see my pair of machine feet, right?"

Chapter 633 – Chapter 632, Ancient Temple

Thank you readers!

Chu Hui wiped away her tears and said slowly, "You're right. I'm here to introduce you to another sister. Her name is Chu Mei, and she's an archaeologist,

she's also one of our 108 sisters, and she's very knowledgeable about archaeology. Yesterday, she sent me a message. She found a temple in the ancient man kingdom that was more than 10,000 years old,

he also found some murals in the temple. The contents of these murals were very similar to our research and development machine. Therefore, she invited us to take a look at that temple,

“And I know the reaction of your chip. I think there must be a solution in that temple. Why don't we go over and take a look now? or we can really solve the problem of the chip!”

Yu Tian immediately got excited and said excitedly, “That's great! Let's go now. I don't want to completely turn into a robot. How can I have children with you guys when that time comes?”

Chu Hui didn't know whether to laugh or cry. What time was it now? He was still thinking about how to have children. It was really helpless.

He opened the portal and soon arrived at the Gu Man Kingdom.

This was a desert transition, and it was a very poor and backward desert region.

On the way to the hotel, Chu Hui introduced to Yu Tian, “The water resources here are especially scarce. Until now, the people of the Gu man kingdom are still unable to use tap water,

they have to walk a few kilometers or even more than ten kilometers every day to go to places with water sources to fetch water back home. Drinking water here is especially difficult, so the water resources here are especially precious!

As Yu Tian listened, he looked at the city outside the window. The only impression he had of it was that it was either poor or chaotic.

Moreover, the religious rules were very strong here. Every woman had to wear thick clothes, only revealing a pair of eyes.

Although it looked mysterious and beautiful, it must be very uncomfortable to be wrapped up so tightly in such hot weather.

After arriving at Chu Mei's hotel, Yu Tian raised his head to take a look. This hotel should be a place with a better environment. At the very least, he could see a few plants at the entrance of the hotel.

The hotel's architecture was also one of the most common types of buildings here. It was made of soil. Although there were stairs and stairs, it still looked very backward.

Fortunately, the environment here was relatively clean. At least, it was not like outside, where one could easily catch a breath and have a mouthful of sand.

Chu Mei and her team had already booked the entire hotel. When Yu Tian saw Chu Mei in the room, he was also surprised.

The 108 Sisters of the Chu family all had the genes of a beauty. This Chu Mei was also the same. Moreover, her figure was especially good. After years of archaeology, she had trained her body to be very strong.

Not only was she curvy and curvy, but her height was also exceptionally good, and she was a perfect match for Yu Tian.

Coupled with her angelic appearance, Yu Tian swallowed his saliva and nodded, saying, "I knew you were a beautiful woman, but you still exceeded my imagination,

"From the looks of it, you're even more beautiful than I imagined. Why don't we kiss before we talk about official work?"

Although Chu Mei was an archaeologist, she was very outgoing. When she heard that Yu Tian wanted to kiss her, she laughed and suddenly hugged Yu Tian and kissed him hard.

This scared Yu Tian to death. This woman was really brave. He was just saying it, but she actually came over and kissed him without any preparation. This was too f * cking exciting.

And it was precisely because of this kiss that the relationship between the two of them seemed to become familiar. The strange feeling of meeting for the first time immediately disappeared without a trace.

Yu Tian felt that this kind of feeling was not bad. At the very least, he did not need to familiarize with each other's personalities, waste time, and increase their feelings for each other.

After all, the 108 sisters of the Chu family were all his women. Casually increasing their feelings for each other was already very deep.

Chu Mei poured Yu Tian a cup of local wine. Yu Tian spat it out when he drank it. He grimaced and said, "What are you giving me to drink? Why do I feel like horse urine?"

Although the water resources here were scarce, it was not to the extent of drinking urine, right? Why was it so f * cking smelly?"

She smiled and explained, "It's already good enough to have some to drink. You Don't even know how backward this place is. In order to stay in this hotel, we walked about 50 kilometers,

"Although there aren't many people here, this can be considered one of the more prosperous cities in the entire Gu Man Kingdom. Although the population here is less than 10,000 people..,

“Fortunately, this place can still let you have a sip of wine. It's much better than being trapped in the desert without any water!

Yu Tian didn't care about this at all. He said disdainfully, “Now that I'm here, you don't have to worry about the problem of water. You can drink as much as you want. Don't forget that I have a teleportation door...,”

“No water, no food. I can buy it for you anytime, anywhere. I want to know now, when can we go to see that temple?”

“If you want to see the temple, it's impossible today. Moreover, we have to look at the weather tomorrow. It's best if it's the day after Tomorrow!” Chu Mei explained, “Because there's a big sandstorm here. Otherwise, we can't hide here.”

“But you don't have to worry. I've already taken pictures of most of the murals in the temple. We can take a look here. Of course, these murals are only a part of the temple.

“There's still a lot of space in the temple. We haven't explored it yet. But with my many years of archaeological experience, the things in this temple will definitely shock the world.

“I can't wait to take a look at it again. With you joining US this time, it'll be even more convenient!

As she spoke, Chu Mei placed the photos on the table and let Yu Tian look at them carefully according to the photo number.

Chu Hui was right. Some of the contents in these photos were exactly the same as the development equipment.

There were also many people wearing spacesuits on the murals. This machine had created many soldiers with weapons in their hands. However, in the art form of the murals.

These soldiers with weapons were like skeletons. The weapons in their hands were also very strange.

However, from Yu Tian's point of view, weren't these skeletons the robots that had been created?

But if they had weapons in their hands, then they weren't just robots. The robots that had been created, to be more precise, were robot soldiers..

?Chapter 634 – : Chapter 633, Desert, Anger

Thank you readers!

As they continued to look down, the robot soldiers were holding weapons and performing a mysterious ritual. They were surrounding a pentagram and praying piously.

Their weapons were also shining with a mysterious light.

After that, the robot soldiers lined up neatly and began to attack city after city.

Many humans died at their feet. When they finally took down the largest city, the pentagram appeared once again.

At this time, a large aircraft appeared in the sky. The people in spacesuits appeared once again. They gathered the robot soldiers into the spaceship.

At this moment, the pentagram broke. The aircraft was destroyed and fell to the ground.

Yu Tian frowned when he saw this.

According to the contents of the murals, the aircraft should still be on Earth. However, it was still unknown where it had fallen?

However, it was still unknown where it had fallen?

Perhaps there was a way to solve the problem of self-mechanization in this aircraft. The people in spacesuits in that aircraft were most likely the designers and makers of the internal instruments.

Therefore, he slowly asked, "Mei Mei, do you think this aircraft should still be on earth? And this temple must have some mutual connection with this aircraft?"

Chu Mei nodded and said with certainty, "What you said is not wrong at all. I think so too, but now I can be sure that the temple is definitely not an aircraft"

"Moreover, there is still a large space inside the temple. I didn't explore it, or I might find the coordinates of the aircraft and more information inside.

"But I feel that this temple isn't like the other ancient tombs I've explored. I always feel that this temple seems to be very mysterious, and I can also feel a great aura of life.

Because I was an archaeologist, I would often come into contact with some ancient things. I have to say that there are many ancient things here, even though they have been baptized by time,

even now, there is still a strong vitality. This is also why I like archaeology. And I believe that after you have been with me a few times, you will also like archaeology!

Yu Tian laughed and said frivolously, "After I have been with you a few times, I will not like archaeology. I will like you!"

Chu Mei's face blushed slightly. When she looked at Yu Tian, there was a hint of tenderness in her eyes. and the way Yu Tian looked at her was also full of teasing and gentleness.

Just as the two of them were gradually leaning against each other, someone knocked on the door.

The two of them felt helpless, but they also smiled at the same time.

The door opened, and Chu Hui walked into the room with food. She said helplessly, "I'm really convinced by the hotel here. We have to find the food ourselves, but they didn't provide us with anything"

"Do we have to spend money here? Just to live in this shabby house? I've had enough. Meimei, what were you thinking? Why do we have to live here?"

"The money you have to live here can buy a few rooms from a good commoner's house, and I believe they will be very happy to provide us with more services!"

Chu Mei took the food from her hand and said with a smile, "In fact, this is already very good. This country is so backward, you simply can not enjoy those good services,

"But there's one thing you can feel lucky about. The houses here are especially sturdy and can withstand the erosion of the Sandstorm!"

Yu Tian looked out of the window. The horizon in the distance had completely darkened. A powerful sandstorm was about to blow here.

Chu Mei broke off half of the hard and black cake in her hand and gave it to Yu Tian. While eating, she said, "Did you see that? That's the sandstorm here. It's especially destructive"

"When it hits here, you'll know what it means to be in darkness. If you're exposed to the sandstorm at this time, you'll be easily torn to pieces by the sand that can reach hundreds of kilometers per hour.

"But the houses here are very sturdy. Because the people here know how to deal with the sandstorms, we're absolutely safe here,

“Not only will we not get hurt, but we can also enjoy the power of the desert. Isn't that great?”

Yu Tian knocked the black cake on the table with all his strength, making the table bang bang.

He was really convinced. Chu Mei could actually eat such a black cake with such relish. Just thinking about it showed how hard their archaeological work was.

Therefore, a trace of pity rose in his heart. He stood up and said, “Since we want to enjoy such a beautiful scenery, we can't eat this thing. If there's hot pot and red wine—

That would be perfect. So, you guys wait here for a while. I'll go get these things now. When the time comes, we'll eat and admire them. How beautiful would that be!

As soon as he finished speaking, Yu Tian immediately activated the teleportation and returned to the imperial capital of the eastern country.

He bought a lot of ingredients for hot pot in the shopping mall and bought a few bottles of particularly expensive red wine. Then, he was teleported back to the hotel in the Guman country.

After the table was set, the hot pot was placed on the table, and the red wine was opened. Only then did Yu Tian smile in satisfaction and say, “This is a truly beautiful life. Why must I endure the life when I can enjoy it? That is not the life I want!

It had been a long time since Chu Mei had enjoyed such delicious food. She could be said to be wolfing it down. Even Yu Tian was grimacing in pain as he watched her, he had to remind her, Slow down. There are plenty of these things. I can still buy them after I finish eating them.”

“But this thing is a little hot. You should slow down a little. Moreover, the sandstorm hasn't arrived yet. Why are you in such a hurry?”

Chu Mei said aggrievedly, “You don't even know that I haven't eaten our eastern country's hotpot for half a year. I Can't stand the smell anymore,

“You still want me to slow down? How is that possible? “Don't talk to Me First.

Let me eat until I'm full!”

As soon as she finished speaking, the sky suddenly darkened.

The few of them looked out of the window and saw that the sandstorm had already arrived in front of them.

It was just as Chu Mei had said. The Sky and Earth were completely dark. It was as if they could no longer distinguish the sky from the Earth. Everything was in chaos.

The sand hit the window glass with crackling sounds. However, Chu Mei said, "Everyone can feel it, right? This is a true sandstorm. I also call this kind of sandstorm the wrath of the desert!"

"But now, I feel really good.. I want to continue eating!"

?Chapter 635 – Chapter 634, The Exact Blueprints

Thank you readers!

The sandstorm outside was blowing so fiercely that even the windows were rattling as they sat down.

However, the room was exceptionally warm. The aroma of the hotpot permeated the air, causing the people in the other rooms to follow the scent and enter the room.

However, these people had never seen such delicious food cooked in a pot. Some people even drooled at the sight of it.

Moreover, it was very strange. Why did these people have hot pot to eat? However, they could only eat those black and hard cakes.

This was the difference in life, and also the difference in levels. No matter what, they were some of the more famous archaeologists who had discovered many ancient tombs in this world that shocked everyone.

However, now that they were here, not only did they have to endure the fear brought by the Sandstorm, but they also had to endure the temptation of delicious food in front of them. These days were simply too difficult.

When Yu Tian saw that they were about to drool, he smiled helplessly. He stood up and said to everyone, "Everyone, stop looking. Come over and eat some. This thing is called hot pot. It is one of the best delicacies in our eastern country, you can put anything here into the pot and boil it. Then, you can eat it!"

Hearing Yu Tian's words, everyone gathered around happily. However, there were many people who did not know how to use chopsticks. Yu Tian even told them how to use chopsticks.

This made the foreigners laugh out loud. The atmosphere in the room became warmer and warmer.

In fact, Yu Tian really liked this kind of life. Everyone gathered together to have a meal, drink wine, and talk about life. Wasn't this the most peaceful and beautiful life?

Even if the sandstorm outside was fierce, there was nothing better than being able to talk about the experience of archaeology with everyone in this small world.

At this moment, a man with a full beard said excitedly while eating a piece of meat, "I hope this sandstorm will pass quickly. I Can't wait any longer and want to enter that temple again"

"I'm just afraid that after this sandstorm passes, quicksand will appear and bury the entrance of the temple again. If that happens, it will be a waste of time and resources"

"We still need to reopen the entrance. I also think that the temple is very strange. This entrance isn't just in that one position. It seems like it can change positions!"

As he spoke, the man opened his laptop and showed Yu Tian some of the blueprints on it.

Although he didn't know who Yu Tian was, it seemed like his captain, Chu Mei, was very close to this man. Thinking about it, he knew that there was no secret to this man.

Moreover, they were all archaeologists, not tomb raiders. If they had any insights, they could share them. In any case, they felt so good now. There was wine and meat, and everyone was still so happy.

Why not take this opportunity to share what he wanted to say with everyone? Perhaps he could get some inspiration.

Yu Tian looked at the blueprint. Although it wasn't very clear, with his IQ it wasn't difficult for him to see the blueprint clearly.

Yu Tian also turned on the chip at the same time and drew a more complete blueprint in his mind. All of this was done on the basis of this blueprint.

The Amazing Thing was that the blueprint that Yu Tian Drew was indeed based on simulation. Just as the bearded man had said, the gate of the temple would indeed change position.

This was because the entire structure of the temple had two tracks that could float at any time.

Yu Tian also used the existing information and the help of the chip to draw the shape of the entire temple.

Everyone present was shocked. Everyone's mouths were wide open as they looked at the magical drawing in front of them.

Even Chu Mei shook her head in disbelief and said, "Yu Tian, how did you do it? Have you been to this temple before?"

Yu Tian really didn't know how to explain it to them. He could only helplessly say, "I have never been to this temple before. Everything is based on my imagination,

don't you know? How magical is the human imagination? I can imagine myself wandering in the universe now. I can also imagine that the sandstorm outside was created by me,

"I can even imagine myself as a god, so the blueprint you see may not be real. I'm just maximizing my thoughts,

"Of course, if it's really the shape of the temple, then I'm right. Then we can use this blueprint to study the temple. Wouldn't that be great?"

Chu Mei and the others nodded, feeling that what Yu Tian said made sense.

But now, what was amazing was that the shape of the temple in Yu Tian's imagination was basically the same as the shape they had examined.

Of course, this was just an image. As for what was inside the temple, they had to see it for themselves.

While everyone was studying the blueprint, Yu Tian was also wondering how his chip could describe the shape of the temple so accurately.

Could it be that the information of the temple had always been in the chip? Or was there someone who knew about the existence of the temple before and put some information of the temple on the Internet.

When he activated the chip, he could naturally connect to the internet and search for this information.

However, this was not convincing.

Yu Tian immediately used the chip to connect to the network and searched for all the keywords related to the temple, but the result was nothing.

This meant that some of the information about the temple was stored in the chip.

It was just that he had yet to grasp the method to dig out this chip, but he would soon be able to completely grasp it.

It was useless to think about it now. He had to quickly enter the temple and find a way to solve his mechanization. This was the most important thing.

Otherwise, when he really became a robot, nothing would be useful. Even living would be meaningless.

There were no female robots in this world that he could flirt with when he was bored.

Just as Yu Tian was thinking about this, the bearded man said, "I really feel that it's very strange. Don't you guys think that the shape of this temple looks like a flower petal?"

"Based on the information I have and my understanding of some temples in the past, temples with a similar shape have never appeared before. After all, everyone's beliefs are different,

and after tens of thousands of years, the era is also different.. At that time, people did not have such an abstract concept, so I think it's very strange!

?Chapter 636 – Chapter 635, Sandstorm

Thank you readers!

What he said made sense, and Yu Tian agreed with him. When he looked at the blueprint again, it looked like a regular flower petal.

Tens of thousands of years ago, earth could not have such accurate measurements and construction technology.

Yu Tian could not help but keep his eyes closed. Could this be another product of the alien civilization?

Based on the contents of the murals, this could indeed be an alien civilization.

However, it was still too early to say. They should carefully look at what was inside the temple before they could confirm it.

At this time, Chu Mei had a different opinion. She said indifferently, "Mike, what you said makes sense, but there is one thing I disagree with,

if we consider it purely from the aspect of faith, it is indeed unlikely to happen. However, from the aspect of faith worship, there should have been plants on earth at that time,

not only plants, but also many animals that we don't know about, so what impact did their existence have on human civilization? Or human civilization at that time, worshiped natural culture,

in fact, the worship of flowers, because you have to know, human development, and the process of evolution, can never be separated from food, and food comes from plants and animals,

at that time, people used nature to live, and they were not like these people now, who greedily used nature, or destroyed nature, to achieve the life they wanted, at that time, people did not know what destruction was, nor did they know what development was, they just wanted to live,

even if other civilizations entered at this time, they could not destroy the development of this ecological chain, because this was a process of civilization's evolution,

and the reason why we call it the temple, and the things we first found in the temple, as well as the murals, it is very likely that there was an even more advanced civilization, providing assistance to the human civilization at that time,

for example, culture, writing, language, and the various eras that human evolution had to go through, so what is my idea? æ?These buildings are not necessarily foreign civilizations,

æ?They are the result of Earth's civilization combining with foreign civilizations, so this temple is even more valuable for research!

Everyone had to study for a long time according to their own ideas.

However, Yu Tian felt that this was not a waste of time, because they could always find the most convincing truth in the process of research.

This was the process that academics had to go through, and this was also the rigor of academic research.

Moreover, during the conversation, Yu Tian learned more about some of the items in the temple.

So now, Yu Tian was even more looking forward to going to the temple to investigate.

Soon, the hotpot was almost finished. Everyone had a satisfied expression on their faces as they returned to their rooms.

At this moment, Chu Mei was also lying on the bed. She wanted to go to bed early. When the Sandstorm passed tomorrow, they would immediately head to the temple.

Yu Tian was lying on the bed, but he could not fall asleep.

Because of the intense pain in his feet, he could not fall asleep.

The more it was like this, the more anxious he was to go to the temple and find a solution.

In the end, Yu Tian finally fell asleep while his imagination ran wild.

When he woke up, it was already noon. It was still dark outside, and the sandstorm showed no signs of passing.

Yu Tian looked at his feet again. The mechanization was already at his ankles. If he wasted any more time, his calves would be mechanized.

However, the more anxious he was, the more violent the sandstorm outside was.

Chu Mei also knew that Yu Tian was anxious. She did not want to see Yu Tian's feet slowly turn into machines.

She caressed Yu Tian's feet with great heartache and said with some sadness, "Yu Tian, don't be anxious. We will definitely find a way to solve the problem. I will definitely make your feet return to normal,

"You must believe me. No matter what, we must not give up. We must persevere. This is my promise to you and also your protection for us. Don't you agree?"

After hearing these words, Yu Tian felt especially pleasantly surprised.

The Chu family's 108 sisters all had different personalities and their ways of speaking were also different.

However, they had never been able to console themselves so gently and patiently like Chu Mei. This made their hearts feel especially warm.

Yu Tian gently held her hand and said with an indifferent smile, "I'm not afraid at all now. If I really become a robot, then it's my life. Since I can't resist it, then I'll just enjoy it."

"It's nothing. Even if I completely become a robot, I'll still protect the people I love. I won't let them experience any hardships. This is my protection for you guys. It will never change!

Chu Mei hugged Yu Tian tightly. Her heart was so touched that tears streamed down her face.

Although she had only spent less than 24 hours with Yu Tian, their feelings seemed to have been together for many years.

It had to be said that this was the fate of the 108 sisters of the Chu family. They were all living for Yu Tian.

At this moment, Chu Hui suddenly walked into the room and saw the intimate actions of the two of them. Not only did she not get angry, she also gently hugged the two of them in her arms, she said in a low voice, "We will not give up. We are all working hard, aren't we?"

Chu Mei wiped her tears and stood up. "What did the Boss Say?"

Chu Hui shook her head and said helplessly, "The boss said that this sandstorm will last for another two days. We can only wait here. We can't do anything else!"

Hearing that, Yu Tian stood up and said with a smile, "In that case, I won't wait here. It's a waste of time. While I can still show off, I have to go to Old Man and beat up a monk."

"You guys wait for me here. After the Sandstorm passes, we'll go to the temple together. I've already prepared food and drinking water for you. Don't worry about me. I'll be back soon!"

Chu Hui said worriedly, "Your body is very unstable now. You must be careful and don't show off. If you need our help, we'll immediately activate the teleportation to help you!"

Yu Tian nodded and said with a smile, "What can I need your help for? As long as all of you are happy here, it will be the greatest help to me. You Don't need to care about anything else!"

As soon as he finished speaking, he opened the teleportation door one day and went straight to Lao Man..

?Chapter 637 – Chapter 636, Obsession

Thank you readers!

After arriving here, the first person Yu Tian met was Tiffany.

Tiffany had always been here, following the monk. However, Yu Tian's sudden arrival surprised Tiffany.

"Didn't you say that you would wait for a few days before coming? Why are you here all of a sudden? Did you miss me?"

Faced with Tiffany's series of questions, Yu Tian only smiled indifferently and said, "Yes, I miss you very much now. Why don't we get a room first and talk about something else before we go look for that bald donkey?"

Tiffany did not refuse him. She smiled charmingly and said, "Do you think I will be afraid? Even if you don't make this request, I will take you to get a room. We Can't stand at the entrance of this park?"

She kept talking until it was dark. Moreover, it was about to be dark. You didn't even say that you would treat me to a meal. I have been enduring torture everywhere in this poor country for you.

"I can't even have a decent meal here. Moreover, even if you come, I don't know where to treat you to a meal. However, there will still be hotels here. Why don't we go to a hotel first!"

Yu Tian nodded. This was completely acceptable. It wasn't too late to go to a simple rest first and then understand the information about the monk. After that, they would go and fight with the monk.

The hotel here also didn't have any environment to speak of. In fact, it was even more unacceptable than the hotels in the Guman Kingdom.

Yu Tian smelled a particularly unpleasant smell as soon as she entered.

However, Tiffany was already used to it. She said disdainfully, "You can't stand it anymore, right? This is the environment here!"

Look at those people outside. They didn't know how often they had to take a

bath. It wasn't because the water resources here were scarce. It was because they felt that taking a bath was disrespectful to the Buddha.

This idea was put forward by the monk called the Silent Monk. He believed that it was enough for a person to only take a bath once in his lifetime. Taking so many baths was not only a waste of water, but he couldn't even raise his head in front of the Buddha,

strangely, his followers believed in this very much. Every one of his devout followers never took a bath. Therefore, during some spiritual meetings, the silent monk could not even get close to those people,

"If you get a little closer, you will faint from the smoke. I don't need to tell you in detail, you can imagine that scene!"

After entering the room, Tiffany helped Yu Tian take off his coat and gave him a basin of foot-washing water. There was no bathroom in the hotel, let alone a bath.

It turned out that people here didn't take baths. If they couldn't stand it, or if the weather was too hot, they would go to the nearby river to take a bath.

The so-called holy river was so dirty that it was unacceptable. However, they were used to it. They felt that the dirtier it was, the more sacred it was. Who asked the people here to worship Buddhism so much.

However, Yu Tian looked at the foot-washing water in front of him and felt a

little troubled. His feet were now like machines. Would they rust if he put them in the water?

He helplessly took off his socks. When Fani saw Yu Tian's feet, she was completely shocked.

She asked with a face full of disgust, "What happened to your feet? Why didn't

I tell you to change to a pair of machine feet? Are You Free?"

Yu Tian said helplessly, "I didn't want to either. After I used the development equipment, my feet were mechanised. This should be a very ancient technology. We haven't mastered the method to solve this technology yet.

"However, my people have already found a temple. Perhaps there is a method to solve this problem in that temple. However, there is currently a sandstorm in that place, so we aren't able to explore that temple yet"

"I also have this little bit of time. That's why I came here to see how capable that Monk called silence is. "Q "Before I became a robot, I could solve an expert just by solving one"

"I don't want these so-called experts to keep loitering in front of me. I'm bored of looking at them. You Don't have to worry. There's no technology in this world that can't be solved,

"I believe that with our efforts, we will soon be able to solve this technical problem. When the time comes, my feet will be like a normal person. I will kick anyone who dislikes me. I Won't even let go of the old man's pants!

Tiffany did not know whether to laugh or cry. What time was it? This guy was still thinking of kicking the old man.

She followed up with a question and asked, "Your feet have been robotized. Then, your other parts will still be like a normal person, right?"

Yu Tian did not know how to explain this question.

After thinking for a while, Yu Tian smiled and said, "I will still pee and Poop and eat like a normal person. Right now, only my feet have been robotized. There is no mention of me. My entire body has become a robot. What is there to be afraid of?"

However, Tiffany laughed and said, "I really hope that some parts of your body can become a machine. That way, it will be harder and not be afraid of any attacks. Don't you think it will be more fun?"

What was this woman thinking about all day? Was her life so short of men? Was she thinking about this all the time?

Yu Tian was too lazy to talk to him about this. He immediately asked, "Tell me something useful. How did you find this quiet monk? And what information did you get after staying here for so many days?"

"Tell me in detail. I want to hear it too. Let's see how capable this guy is."

Tiffany sat beside Yu Tian and gently held his hand. She slowly said, "Actually, I found this monk by chance,

that time when I was in another country, I was visiting an open temple. At that time, there were many people surrounding this monk as he walked into the temple. I accidentally took a glance at him, I felt that this monk was quite different from other monks,

especially his eyes. Other monks' eyes were very kind. However, this monk looked at others with a very cold gaze. It was as though he could take someone's life at any time,

so I activated my skill and looked at this monk's body. After looking at it, I was shocked. This monk's meridians were different from normal people. Even his bones were very hard,

although he looked to be 60 or 70 years old, his bones were even harder than young people's. They were no different from yours, so I was very sure that this was the expert you needed,

and I've been following him here, and I've found that his followers are obsessed with him, if you'll excuse me, Obsessed!

?Chapter 638 – Chapter 637, Strange Behavior

Thank you readers!

Tiffany added, "It is indeed an obsession. His followers are not like other people. It is normal for others to worship them, such as burning incense,

but his followers, whenever he speaks to them, they are especially crazy. They can even sacrifice their lives for him,

that night, I saw such a scene with my own eyes. At that time, the silent monk deliberately left a woman behind after fooling his followers,

that woman had a family, but she didn't hesitate to stay behind. Even the man of that woman felt that this was a proud action and tried his best to show off in front of others,

after using my x-ray vision to observe, I discovered that I originally thought that the Silent Monk wanted to do something with that woman. In the end, after he brought that woman into the room..,

he directly absorbed something from that woman's body into his own body. After that, that woman turned into a zombie-like person. She definitely wouldn't be able to live.

“What made me even more fearful was that after that, the silent monk actually swallowed that woman alive. It was like eating a plate of meat. What I saw at that time was extremely disgusting!

When he said this, Tiffany took out a bottle of wine from under the bed.

Yu Tian was a little shocked when he heard this. Was this monk a human or a ghost? How could he do this?

What made Yu Tian even more puzzled was why Tiffany hid the wine under the bed? Couldn't he just put it on the table?

Seeing Yu Tian's puzzled look, Tiffany explained, “I didn't buy this wine here.

I bought it from another foreigner and spent a lot of money on it,

because drinking is not recommended here, you can't buy wine at all. If you drink in front of others, they might even attack you, so it's better to hide the wine!

As she spoke, Tiffany poured two glasses of wine and gave one to Yu Tian. She downed her glass in one gulp, and only then did her mood become a little calmer.

After that, she slowly said, “After that silent monk ate that woman, he actually didn't have any expression. It was as if that woman should be eaten by him.”

The next day, he would continue to hold his so-called spiritual conference. There were still countless believers kneeling in front of him, listening to what he said. I didn't even know what it was..,

after every two days, he would call a woman to his room and eat that woman. So until now, that silent monk had already eaten several women.

“But later, I slowly discovered that he had to eat those women because after every ten hours, his skin would become older and more wrinkled,

“He ate women because he wanted to use the elements of a woman's body to maintain his appearance. But this is really disgusting!

Yu Tian finally understood. This silence was using someone else's body to maintain his own elements. This method was indeed very cruel, but he had no choice but to do it.

If he wanted to maintain his body's normal elemental level, he had to use this method.

And the kind of obsession that Tiffany mentioned, it was very likely that he had used some kind of method or some kind of skill to control these people's minds and make them completely obsessed with him.

Thinking of this, Yu Tian felt that this silent monk was really interesting. Since he could be so smug, then he must be an expert as well. He really couldn't wait to have a fight with him.

Let's see just how much strength he had. If he could make him feel pressure and realize a higher level of cultivation, wouldn't that be great?

Therefore, Yu Tian decided to go and see that Monk now. He was going to stay here anyway. If he continued to stay here with Tiffany, he would probably be stripped naked.

Tiffany picked up her clothes and said, “I have to go with you. My skills can help you see a lot of things that you can't see. Also, I know where he is. You Don't have to go and look for him anymore. It's a waste of time!

This Yu Tian could not refuse. With a place by his side, he could indeed do other things easily.

After all, they had worked together in the past, and now they had formed a tacit understanding.

The two of them quickly arrived at the Silent Monk's place. Yu Tian looked around and saw that it was a very large temple. It was almost 10 O'clock in the evening, and there were still many people coming in and out of the temple, the incense was very strong.

One could imagine that the silent monk was very popular here.

And the more it was like this, the more Yu Tian felt that he should kill him. If these people continued to be obsessed with him, one day, the entire world would be controlled by him. Then, what kind of Boss would he be?

At this moment, Tiffany said in a low voice, "I have already seen it. The Silent Monk is inside. And now, a woman has walked into his room. Are you going to go over now or wait for a while?"

Yu Tian chuckled and said disdainfully, "What's there to wait for? I'll go over now and take a look. If I can kill it at this time, I can still save a woman's life. Why Not!

"Then you be careful. I'll watch over you here. If anything happens, I'll immediately go in and inform you!

Without wasting any more words, Yu Tian strode into the temple. The surrounding believers looked at this easterner strangely. Their eyes were filled with killing intent. Many believers clenched their fists tightly.

It was as if Yu Tian's arrival would threaten their lives, as if they wanted to fight Yu Tian to the death at any time.

Of course, Yu Tian also saw the expressions of these people, but she smiled indifferently. It seemed that the silent monk already knew that she was here. Otherwise, these believers would definitely not be like this.

Since that was the case, then she did not need to waste time entering the house to look for him.

Thus, he stood in the middle of the courtyard and shouted loudly, "Quiet Monk, get the hell out here and let me see who you are!

As soon as he finished speaking, a figure suddenly appeared in the house in front of him. The figure was as fast as lightning and in the blink of an eye, he had already arrived in front of Yu Tian.

Yu Tian was shocked. This person's figure was even faster than lightning. He was completely unprepared and did not even see how he came out before he threw a punch in front of him.

Without knowing how strong the other party's strength was, Yu Tian didn't want to rashly receive his punch. He dodged it..

?Chapter 639 – Chapter 638, Don'T Go Into The Cultivation World

Thank you readers!

However, what surprised Yu Tian was that the silent monk's speed was really too fast. It was as if his fist was jumping and striking out.

Just as he dodged his previous punch, his leg immediately followed up with another kick.

This time, it was too late for Yu Tian to dodge. He could only grit his teeth and instantly burst out with his body's strength to receive the Silent Monk's kick.

In an instant, Yu Tian felt an extremely violent force hit his arm, numbing and hurting it.

Furthermore, his entire body was pushed back by the force. Even the tiles on the ground were crushed.

Before Yu Tian could catch his breath, the Silent Monk attacked again. This time, he jumped up and punched Yu Tian.

Moreover, the strength this time was even stronger than the previous one. Yu Tian frowned. Since he wanted to meet Yu Tian head-on, if he tried to dodge, he would definitely make him laugh at his inability.

Thinking of this, Yu Tian snorted coldly and immediately activated the chip.

In an instant, Yu Tian's bones and muscles became firm. A wave of strength gathered from every cell in his body and finally gathered on his fist.

The Silent Monk felt the violent force that Yu Tian had unleashed and was shocked. It was too late for him to retract his fist.

Yu Tian's punch also happened to land on his fist.

The moment the two fists collided, the energy generated shattered the surrounding tiles. Even the walls of the house behind him cracked.

The Silent Monk and Yu Tian took a few steps back. Each of their internal organs were churning inside their bodies.

This time, the two of them did not attack. They looked at each other coldly. At the same time, they were using their body's aura to try to alleviate the pain in their bodies.

The Silent Monk looked at Yu Tian coldly. He frowned and asked, "I am very familiar with your strength. I know who you are, and I think you know who I am!"

Yu Tian snorted coldly and said disdainfully, "No, I don't know who you are. I just know that you are a damn bald donkey. You are pretending to be mysterious and fooling those idiots!"

“Let them surround you and worship you like Buddha. When you want to eat some poop, everyone will pull it to you at the fastest speed possible!”

“You’re so arrogant! The Silent Monk didn’t put Yu Tian in his eyes. After the previous two fights, no one had won or lost. Even if they continued to fight, it would at most be a draw.”

It was better to use other methods to defeat him. That was the best method.

At the same time, he could guarantee his own strength and wait for his enemy to appear so that he could compete with his opponent.

Thinking of this, the silent monk said coldly, “However, I really like your arrogance. There’s a good saying that says that if a person is not arrogant, it would be a waste of his youth. However, if he is too arrogant, he will make others hate him.”

“You should put down that arrogant heart of yours and look at the world calmly. You should even look at your enemy. Only then can you surpass yourself and reach a true height..”

You shouldn’t be like this, filled with anger. This wouldn’t help you in any way. Instead, it would prevent you from getting the improvement you wanted,

i know why you came here. You just wanted to use me to improve your own ability, so that you could quickly dominate the world. Then, you could enter the cultivation world and face more opponents with your family,

however, there is one thing that you may have overlooked. Even if you become the strongest person in the world, you are nothing in the cultivation world because your family is only using you,

in the cultivation world, I know your family too well. In order to become the number one family, they have occupied all of the cultivation resources. It can be said that they are unscrupulous,

and the reason they let you become strong here was to increase their cultivation resources, and then use this prerequisite to suppress more opponents in the world of cultivation,

but you don’t know this at all. You’re still being used by your family here. You Don’t have to believe me, but you can carefully think about all of your experiences ,

other than blindly asking you to add incense to your family, what else did your family give you? Even the cultivation techniques they gave you were the most trashy cultivation techniques in the cultivation world,

i can say with a bit of inferiority that I'm already a very humble person in the cultivation world. But here, you can't even win against me. What else do you think you can do in the cultivation world?

Today, you stand here, it can be considered that we are fated, I will not fight with you, even if you want to fight with me, you can not win against me, for the sake of this fated, I can tell you some insider information about your family, first of all, you have to know that your family let you become the strongest, but those high-level people in your family,

are they willing to let go of their power? When you are truly strong one day, and return to your family in the cultivation world, then how will those people in your family see you?

What will they see you as? As the new head of the family, or as their competitor, at that time, who will stand by your side, is your 108 sisters,

or your weak kung fu, these things can't protect you at all. When you lose your value one day, your family will throw you away like trash,

at that time, you still wanted to dominate the world, even entering the world of cultivation, that was simply a dream. Yu Tian, I know who you are, I'm here to advise you, don't go to the world of cultivation,

“It's not as beautiful as you think. You Don't have to remember what I said.

But one day, you will understand that I said all these things for your own good.

Do you still want to fight with Me Now?”

Yu Tian's mind was indeed spinning rapidly. What the Silent Monk said was not unreasonable. It was very reasonable.

His family wanted him to have children. They never cared about how he could become a powerhouse, and they never revealed their intention to let him return to their family.

Only the butler, uncle long, often told him some cultivation methods, but the old man could not say anything else.

Perhaps the silent monk was right. He was just a tool used by the family. When one day he lost his value, how should they treat him?

Seeing Yu Tian's hesitation in his eyes, the silent monk sneered and said, “Actually, what I said was just a reminder. The real feeling is in your heart. You

Don't have to restrain it., you have to truly let go of yourself.. Only then can you see the beauty you can't see!

Chapter 640 – Chapter 639, The Bewitching Technique

Thank you readers!

Yu Tian was a little confused by his lies, but Yu Tian felt that this silent monk's words made a lot of sense.

Moreover, the more he listened, the more he felt that he hated his family. Instead, he felt that this monk was very friendly.

And the more he had this thought, the more Yu Tian didn't want to fight with him. He even had the thought of kneeling in front of him and kowtowing to him.

This was because what he said was the truth, and it was all in his heart.

The Silent Monk stared at Yu Tian. He felt that he had used up most of his bewitching technique. Yu Tian's mind was completely bewitched by him. Now, as long as he took a step forward.., Yu Tian would be controlled by him.

At this thought, the silent monk added, "Your heart must be extremely bewitched right now. However, it's also extremely normal for you to be bewitched. Everyone's heart is equally bewitched,

do you know why this is the case! It's because no one can see the pain in your hearts. The believers around me believe in me..,

because I know what their pain is, and I can make their pain easier, and I can even make them happy,

they don't have any pressure in front of me, they have it with me, but the truth, you have it too, even though you have everything now,

but no one knows what you have lost. What will you lose in the future? You are just used as a tool by your family. This is the greatest pain in your heart,

although you have many, many women around you, and many, many confidants, no one knows what you are thinking,

they do not understand your loneliness, and do not understand your pain. Only in my place can you see your heart, and you can let yourself be completely free,

i know you want to cry now, so go ahead and cry. There is no pressure here, and no one will stop you from releasing the pain in your heart,

this is the value of my existence here, so I will not fight with you again, because my heart is also very sympathetic to you and pitying you. Even if one day, you really become a strong person, there will still be no one,

they will say these words to you like I did, tell you how to do it, how to choose? Yu Tian, become my believer, only then can you truly free yourself!

Yu Tian indeed felt endless pain in his heart. It was like an ocean in a storm. That huge whirlpool was rolling in his heart.

That whirlpool made him sink into endless loneliness and loneliness. It was as if he was the only person in this world.

No one had ever communicated with him. No one knew how he endured all of this in his loneliness, loneliness, and pain.

There were also the 108 Sisters of the Chu family. His existence was only to protect them so that they could live on. However, they were just like him, the tools of the family.

The most hateful thing was his family. They never paid attention to his pain, and even his strange father. He only wanted him to keep adding incense to the family.

But he never knew that he was experiencing the difficulties and hardships of becoming a strong person.

Why couldn't he be free? Why did he have to persist? Why did he have to do what he didn't want to do?

The more he thought about it, the sadder he felt. Yu Tian felt his legs go soft. If he became a believer of the silent monk, he would be truly free.

From now on, he would never feel pain, loneliness, grievance, or even loneliness.

But at this moment, an angry voice sounded from behind Yu Tian.

It was Tiffany.

She shouted loudly, "Yu Tian, What are you doing? You are bewitched by this person. Quickly wake up, quickly wake up!"

Tiffany's sudden appearance completely disrupted the silent monk's plan and the bewitching spell he used.

Yu Tian was suddenly awakened by Tiffany's shout. His forehead was covered in bean-sized cold sweat.

If it wasn't for Tiffany calling him at this moment, he would really have been bewitched by this monk.

The thoughts he had were too real. It was as if what this monk had said was true.

It turned out that he had been bewitched by him. This damned monk even dared to bewitch him. It looked like he was courting death.

Thinking of this, Yu Tian roared angrily.

“You Damned monk, I actually almost believed your nonsense. My family is using me. They are also my family. They let me become strong because they didn't want me to be bullied in the cultivation world,

“They let me grow by myself because they wanted to train my will. All of this was said to be used by you. You really know how to fool people,

“Now, let's not talk nonsense. Today, I will definitely kill you here. Use whatever ability you have!

As soon as he finished speaking, Yu Tian directly threw a punch at the silent monk.

The Silent Monk smiled indifferently. His body was like a piece of paper as he lightly dodged Yu Tian's punch.

By the time Yu Tian turned around, this guy was already standing on the roof.

He even laughed wildly and said, “Yu Tian, if that woman hadn't disturbed my enchanting spell, you would have already knelt at my feet and become my disciple”

I can also tell you the truth. After you become my disciple, I will bring you to the cultivation world. I want to personally watch you and your own family kill each other,

“That must be very interesting. It also helped me get revenge. However, my plan was ruined by that damn woman. However, this is nothing,

Since you dare to come here today, you will die early. Haven't you always wanted to become a strong person? “Then let me see if you can become a strong person with your strength!

At this point, the silent monk shouted at the hundreds of believers around him, “My believers, someone is provoking your God, and you should stand up and fight for him”

“Kill this person so that your God knows how devout you are!

The believers were completely obsessed with the silent monk and treated his words as an irresistible order.

The four to five hundred followers rushed towards Yu Tian at the same time. Men and women, Young and old, their eyes were filled with killing intent. They only had one thought in mind, and that was to kill Yu Tian..

I Have 108 Older Sisters #Chapter 641 - Read I Have 108 Older Sisters Chapter 641

?Chapter 641 – Chapter 640: Respect For Life

Thank you readers!

No matter how obsessed these people were with the silent monk, in Yu Tian's eyes, they were still innocent civilians.

Although he could easily kill them, that was equivalent to killing the innocent.

Therefore, Yu Tian grabbed Tiffany's hand and quickly retreated. He absolutely could not start a massacre here.

However, those believers did not appreciate Yu Tian's kindness at all. Each of them was like an angry beast, howling as they chased after him.

Tiffany said in fear, "Yu Tian, why didn't you fight back? These people have gone crazy. They are not human at all. They are just a group of monsters that were bewitched by the silent monk,

even if you don't kill them, these people will still be killed by the silent monk. If they can die in your hands, it will be their blessing. It will be the true liberation!"

However, Yu Tian snorted coldly and said in a very domineering manner, "In my eyes, they are still innocent people. I absolutely can not kill innocent people here. If that happens, what difference will there be between me and the Silent Monk?

"Let's leave this place first. When we find an opportunity, I will come and kill that bald donkey. He will definitely not survive in my hands!

Under the pursuit of hundreds of people, the two of them quickly ran into a park. Yu Tian instantly turned on the teleportation device and the two of them directly teleported to a room in the hotel. Only then did they get rid of those people.

Tiffany panted and said, "I'm scared to death. Those people are simply crazy. They have been fooled to this extent by one person. What's the value of living?"

Yu Tian also wiped the sweat on his face and said helplessly, "Even if they are crazy, they are still people. If they are people, they have lives. We should respect each person's life,

"Unless they really deserve to die, otherwise, can we decide a person's life and death? Regardless of whether I will become a strong person or whether I treat them as enemies or not,

"I should respect every life. This is my basic principle and will never change!

Tiffany nodded and looked at Yu Tian with appreciation. She smiled and said, "If that's the case, then my man, shouldn't we relax now?

"Don't think about those crazy people anymore. They are not worth thinking about at all. Just treat them as ordinary lives!

However, as soon as he finished speaking, a series of chaotic footsteps sounded from outside the room.

Yu Tian suddenly frowned, but at this moment, the door was suddenly knocked open.

It turned out that the believers had chased them here again.

These people rushed into the room and bared their teeth as they began to attack Yu Tian.

At this time, if they still didn't fight back, how could they let them fight like that?

Yu Tian punched and kicked a dozen believers who had rushed into the room and knocked them to the ground.

Tiffany laughed and said, "Didn't you say that you didn't want to kill them? Why are you fighting now?"

"I didn't say that I wanted to kill them. I only injured them. Do you think we can let them fight when they attack? Beating them is completely different from taking their lives!

However, at this moment, dozens of believers rushed into the room. This time, the believers were all strong men.

In order to not hurt their lives, Yu Tian didn't use too much of his strength. However, these believers took advantage of this and attacked Yu Tian with punches and kicks.

On Tiffany's side, she picked up a chair and smashed one of the believers who was charging at her.

Tiffany didn't know any fighting moves. What was the simplest and most effective thing? It was the most effective thing to knock someone down with the fastest speed.

Yu Tian also quickly knocked these believers to the ground.

However, Tiffany pointed out the window and said, "Come and take a look, my dear. It seems that we are surrounded by the believers!"

She said it in a relaxed manner because she didn't care about anything. Yu Tian had a teleportation portal, so he could leave at any time. Those believers could only chase after him like idiots.

Yu Tian came to the bed and looked outside. She immediately frowned.

That silent monk really had a lot of tricks up his sleeves.

At this moment, there were thousands of people rushing to the hotel without any hesitation.

This scene was like a Zombie World War. It was extremely horrifying and horrifying.

Even Yu Tian, who had seen such a big scene, felt extremely shocked.

If these people were only bewitched by the bewitching spell, it would be fine. As long as the silent monk was killed, these people would naturally return to normal.

However, if they really believed in the silent monk and treated him like a god, and after he killed the bald donkey, these people would treat him like an enemy.

This really made it difficult for him to choose.

However, it was impossible for him to stay here now. Yu Tian opened the portal at random and brought Tiffany directly to the Wu Manguo hotel room.

At the same time, the silent monk who was standing in the temple and directing the believers to attack Yu Tian suddenly opened his eyes and said with a proud sneer, "You actually left this place. At least you ran fast!"

"But I'm really looking forward to you coming here again. When that time comes, I'll definitely let you know how you died. That scene will definitely be very lively. Yu Tian, remember this, I'll definitely kill you with my own hands!"

"Just like your father, who once killed my family!"

In the room of the Gu Man Kingdom, Chu Hui asked in surprise, "How did you come back so quickly? Could it be that the monk has already been killed by

Yu Tian didn't want to talk now, but Tiffany explained, "We didn't kill the monk, but we were almost killed by him. You Don't know how perverted that

"He has countless followers who are trying their best to kill me. Yu Tian didn't want to kill them, so we could only come here to take refuge. At least we can take a bath here. I haven't taken a bath for half a month!

If she didn't say anything, Chu Hui wouldn't have smelled anything. Chu Hui covered her nose and said with disgust, "You'd better go and take a bath. Your Body Stinks!

"Oh my God, I don't know how you can stand not taking a bath for half a month!

Yu Tian didn't care about what they were talking about. At this moment, he was thinking about something.

How could he kill the silent monk without hurting the believers.

The best way was to make the silent monk unable to interact with the believers.

Then, his bewitching spell would lose its effect..

?Chapter 642 – Chapter 641, Double Explosion

Thank you readers!

Chapter 642: Chapter 641, double explosion

When he thought of this, Yu Tian felt that he could use his teleportation device to send the Silent Monk to a place where no one could make him use the bewitching spell.

In that case, no matter how powerful the bewitching spell of the Silent Monk was, when no one was controlled by him, he could only stand there and stare.

After making up his mind, Yu Tian stood up once again and looked outside. The sandstorm was still blowing fiercely. Without saying a word, he directly opened the teleportation door and once again arrived at the Silent Monk's temple.

At this moment, the Silent Monk had just swallowed a woman's body. While he was cultivating, he suddenly sensed Yu Tian's aura.

This made him very surprised. Yu Tian had already left, but why did he come back so quickly? He was really tenacious.

Thereupon, the Silent Monk suddenly stood up and walked out of the door. He saw Yu Tian looking at him coldly.

He laughed wildly and said, "Yu Tian, I really admire your courage. I didn't kill you before, but you actually dared to come back to seek death. In that case, I'll fulfill your wish!"

"I originally wanted to let you know just how hateful your family is. But now, I no longer feel that there's a need. My believers, kill him!"

After saying this, the surrounding believers stood up at the same time.

However, just as they were about to launch an attack, Yu Tian suddenly charged at the bald donkey.

The Silent Monk's expression was already filled with doubt. What was Yu Tian trying to do?

He clearly knew that his strength was on par with his. Could it be that he wanted to meet Yu Tian head-on?

If that was the case, then he would completely understand that he would never have a chance of winning in front of him.

Under this confidence, the silent monk could clearly dodge, but he chose to meet Yu Tian head-on.

He suddenly raised his fist, wanting to meet Yu Tian's fist again.

However, at this moment, a smile appeared on the corner of Yu Tian's mouth.

The Silent Monk was indeed fooled. He thought that he was going to meet Yu Tian head-on to see who was stronger.

However, in reality, he only wanted to get close to Yu Tian, open the teleportation portal, and teleport to the no man's land with him.

In the end, this fellow was really gullible.

As he was speaking, Yu Tian had already gotten close to the silent monk. The moment he punched out, Yu Tian activated the teleportation device.

Within the effective range of the teleportation device, the Silent Monk felt his vision go black. Following that, a gust of strong wind spun extremely hard sand and hit his face.

When he opened his eyes, he was actually surrounded by violent sand and dust.

The violent sand and dust storm was extremely painful when it hit his body.

He hurriedly raised the strength in his body to protect his body. However, even so, the violent wind was still like a knife, leaving countless bloody marks on his body.

The angry silent monk shouted loudly, "Yu Tian, come out if you have the guts. What kind of ability is this?"

Yu Tian, who was hiding in the sand, felt very good. His body's defense was so strong that he wasn't even afraid of a rocket launcher. How could he be afraid of the Sandstorm.

He had deliberately brought the silent monk here so that the sandstorm would weaken this fellow's defense.

Then, he would take advantage of the opportunity and launch an attack. He would be able to take this fellow's life.

Yu Tian's plan was indeed very good, but Yu Tian had also overlooked one point. That was the silent defense. It was also particularly Valiant.

Moreover, his body's recovery ability was exceptionally good. Although his body was continuously injured, it would soon be repaired.

When he saw this, Yu Tian felt that waiting here was just a waste of time.

Seeing that silence was about to heal his body again, Yu Tian suddenly launched an attack.

A wave of overwhelming power directly smashed towards silence's head.

Silence's reaction was particularly quick. He turned around to block Yu Tian's fist and then launched a kick.

However, this time, Yu Tian did not want to dodge. It was time to play with his own strength.

He had the chip in his head, which could double his strength. Even if the silent monk's cultivation was higher than his, it would be useless.

Because its strength was fixed, no matter how good his cultivation method was, it could not double his strength.

So after a few moves, the Silent Monk was beaten back by Yu Tian. In the end, he did not even have the courage to receive Yu Tian's fist.

His two arms were hurt and numb by Yu Tian's strength. He did not even have the strength to lift them up.

Silence did not want to continue fighting with Yu Tian. He turned around and ran toward the center of the Sandstorm.

Yu Tian narrowed his eyes coldly. Where else could he go? He could only die obediently by his own hands.

In the blink of an eye, the two of them arrived at the middle area of the sandstorm. The wind here had already reached level 17. The wind was like a knife, cutting into his body. Even Yu Tian felt a slight pain.

No wonder Chu Mei said that this sandstorm could tear a normal person to shreds. Looking at you now, what she said was absolutely correct.

Silence. His clothes had been torn to shreds by the sandstorm, and his skin was cracking. He no longer had the strength to run. He could only kneel in the sand, barely using the remaining strength in his body to protect his body.

Yu Tian saw an opportunity and jumped in front of him. Without saying a word, he unleashed his maximum strength and smashed down.

At this moment, it was as if he already knew that he had no ability to block Yu Tian's attack.

It was only at this moment that he slowly closed his eyes and allowed Yu Tian's fist to smash into his forehead. The entire world suddenly became quiet, and he fell into endless darkness.

Yu Tian withdrew his fist and snorted in disdain.

No matter what kind of expert he was, he would still die at his hands in the end.

However, Yu Tian also knew that after the silence died, there would be other opponents who would continue to appear. This was nothing to be happy about.

Just as he turned around and was about to leave, a crisp cracking sound came from his leg.

He looked down and was shocked to find that the mechanization had already reached his calf and almost reached his knee.

Yu Tian frowned. Could it be that when his strength was unleashed at home, it would also speed up the mechanization of his body?

In that case, if he could not find a solution, then he would not be able to use double his strength in the future.

This was really unacceptable.

It was useless to think about it. It was better to wait for the Sandstorm to pass and quickly go to the temple. It would be best if he could find a solution..

?Chapter 643 – Chapter 642, The Temple

Thank you readers!

Chapter 643: Chapter 642, the temple

The speed of the mechanization had completely exceeded Yu Tian's imagination. Before the sandstorm had completely subsided, Yu Tian's knees had already turned into machines.

Moreover, they were extremely hard. Other than being very heavy, he did not feel anything else.

Yu Tian was in a very good mood right now because he was trying to relieve himself. Otherwise, there would be no way to solve this problem. He could only wait quietly in the sandstorm that filled the sky.

However, Chu Mei was very anxious.

Yu Tian's legs were slowly turning into machines, but there was nothing he could do. This kind of feeling was very anxious.

Chu Hui was always by Yu Tian's side, trying her best to comfort him.

“Yu Tian, don't worry. We will find a solution. We will definitely not let you turn into a robot. You are our guardian God”

If you turn into a robot, then the 108 sisters have no value to live. The entire Chu family will disappear. So you must persevere. You must persevere no matter what”

“We will stay by your side. We will never leave you. We will also support you forever until you fully recover. Yu Tian, you must pull yourself together!

After Yu Tian heard this, he chuckled and said with disdain, “This is nothing. I am not afraid at all because I know that my fate will not be so stupid”

“Nothing has happened yet. I have already become a robot. I believe that I will definitely find a solution. So, everyone, don't worry. I will definitely return to my original appearance”

“When the time comes, I will still be that handsome Yu Tian. I will still protect each and every one of my sisters. I will let you live happily under my protection. This is my best wish!

The few of them hugged each other. There had never been a time when they needed this hug more than now.

This was not only a kind of warmth, but also a kind of conviction.

They firmly believed that everything was balanced. The heavens would never allow Yu Tian to become a robot, because this was their best wish.

Everyone would sincerely pray for this wish.

In the blink of an eye, it was morning, and the Sandstorm finally slowly disappeared.

The entire world seemed to have quietened down at once, and the dunes outside were also much higher in elevation.

Under the guidance of the guide, Yu Tian and the others quickly arrived at the temple.

The bearded man from before was absolutely right. Most of the temple that had been excavated had been buried again due to the sandstorm.

The exit had also disappeared without a trace. Now, to find the exit, one had to go through precise calculations.

However, this calculation was particularly complicated and required time. It was impossible to calculate it right away.

Fortunately, Chu Mei's team had experts in this area. They also knew that they were in a hurry because they didn't know when the Sandstorm would appear again.

Therefore, they had to rush to the entrance of the temple and enter the temple before the Sandstorm appeared again. Only then would they be able to conduct more detailed research.

Yu Tian could not stay idle, so he also did the calculations.

With his addition, the speed of the calculation became quite fast, even faster than the computer.

This made everyone feel particularly surprised, even extremely shocked.

How could a person's brain have such a fast calculation speed?

If it was an ordinary addition, subtraction, multiplication, division, and mastering a certain skill, it was completely acceptable to do some fast calculations.

However, Yu Tian did not even need a pen and paper to calculate a few hundred or even tens of thousands of digits. With a blink of his eyes, the results could be calculated.

This made the two mathematicians in the team grimace in fear.

The key was that Yu Tian's calculation speed was so fast that even their computers could not keep up with it. This made people feel afraid.

How could they possibly know that the chip in Yu Tian's head could calculate very fast? Not to mention one computer, even ten computers could not be faster than him.

Therefore, in less than half an hour, the results of the calculations were presented before everyone's eyes.

According to Yu Tian's calculations, the entrance of the temple had changed a full 500 meters from its original position.

Now that they had a precise location, Chu Mei immediately ordered people to start digging.

Fortunately, there was only sand here, so digging was especially easy. Soon, the entrance of the temple appeared in front of Yu Tian.

Yu Tian looked carefully. The gate of the temple was five meters high and seven meters wide. It looked particularly heavy.

Moreover, there were many runes carved on the gate. Those runes looked like words, but there were also pictures.

Yu Tian did not have much experience in archaeology, but the chip could quickly search all the information, including some that others could not see. Yu Tian could use a dedicated satellite network, to conduct a comprehensive search.

Therefore, Yu Tian quickly understood the meaning of the floating patterns and pictures on the door.

Chu Mei and the other archaeologists stood in front of the door. Before they could explain, Yu Tian smiled and briefly explained the contents of the door.

"You guys don't need to waste time talking to me about this. I know what the runes on the door mean."

As soon as the words left his mouth, everyone looked at Yu Tian with even more shock.

It was one thing for him to calculate quickly, but now he actually knew very well about archaeology.

When they first saw the door, it took them a full five days to translate a little.

But Yu Tian only took a few simple glances and knew what it meant. This was a little too magical.

Yu Tian calmly said, "I don't know what your research content is, but from what I see, the runes on the door say"

This was a sacred place, and it was also a place to welcome the heavenly deities. Every time a heavenly deity came down to the mortal world, everyone who came to the temple should sincerely pray. Only then would they be able to receive the protection of the deities..,

moreover, after entering the temple, they should be filled with reverence for the god. Otherwise, the God would punish them. It also said that the temple had guardians,

these guardians waited for the God to come, then they would open the temple's door and lead all the believers to kneel in front of the god to welcome their arrival,

"If anyone tries to break into the temple, these sleeping guardians will immediately wake up and punish those who trespass into the temple!

What Yu Tian said was almost the same as everyone's research. However, they had never translated that there were actually guardians in the temple..

?Chapter 644 – Chapter 643, Human Beings

Thank you readers!

Chu Mei asked in surprise, "Yu Tian, you said that there are guardians in this temple, and they are sleeping guardians. Can this be true?

"When I opened other temples before, there were also so-called guardians, but they were all traps or poisonous insects,

"Then what would be the guardians here? "What kind of effect would it have on us?"

Yu Tian shook his head and said in confusion, "I don't know what the Guardians are yet, but based on the drawings on the door, I think these guardians should be people like us,

“If they are people like us, then we have nothing to worry about. After all, this temple has been around for tens of thousands of years,

Even if there is a guardian, this guardian doesn't exist anymore, so we have nothing to be afraid of. Besides, with me here, let alone a guardian, we won't even be afraid of a ghost,

Now, let's not waste any more time. Hurry up and get someone to open the gate first. Let's enter the temple and take a look!”

Chu Mei nodded Yu Tian was absolutely right. Even if there was a guardian, this temple had to be opened because there was a way to help Yu Tian inside the temple.

Even if a real God came here, he had to understand the things inside the temple.

The workers quickly opened the temple's door.

Yu Tian looked inside the pitch-black door. Because there was no light, he could not see anything.

Everyone immediately took out their lighting equipment and got their equipment ready. They began to enter the temple one after another.

After all, everyone had been here before, so this time, they were very familiar with it. They came to the temple's main hall.

After the lighting equipment was turned on, Yu Tian looked around and was a little surprised.

The main hall was 2,000 square meters, and there were many idols placed on both sides of the hall.

The idols' shapes were very interesting. They were all people wearing spacesuits.

These spacesuits were almost identical to human spacesuits. There was no difference at all. Even the oxygen tanks at the back were the same.

The biggest idols at the front were people who had taken off their spacesuits.

This statue was more than ten meters tall and its expression was very lifelike. No matter how Yu Tian looked at it he was sure that this statue was a person.

However, tens of thousands of years ago, it was impossible for humans to possess the technology of spacesuits. Moreover, it was useless to use this technology.

It was impossible for them to farm and wear spacesuits when hunting.

Therefore, if he thought about it this wayt these people who were worshipped as gods at that time were definitely not people from Earth.

As for where they came from, it was still unknown. They could only continue to explore other places.

Yu Tian opened up the drawings and the structure of the temple to determine the route of exploration.

He ordered everyone, "Let's do this today because the structure of this temple is quite complicated. There are many rooms at the back. I saw it on the gate earlier and said that there are guardians here,

"Whether this is true or not?

IL

We must all be careful and not touch anything here. I've decided to explore together. We'll first enter through the entrance on the left"

"After exploring all the rooms here, we'll explore the rooms on the right according to the time. Does anyone have any objections?"

After the calculations and analysis of the murals, everyone was now particularly convinced of heaven. What did he say? Everyone was willing to do as he said.

After passing through the main hall and entering the left entrance, there was a corridor that was about 50 meters long.

The corridor was very widey and on the walls on the left and right were the murals that Chu Mei had mentioned.

It might take some time here, but Yu Tian was not in a hurry at all.

Since he had come here, he had to calm down and study it carefully. After all, this concerned him, so he could not be careless, He had to look carefully and analyze it carefully.

After the workers had finished setting up the lighting, the corridor became even brighter.

Yu Tian began to look at the first mural.

The computer chip began to search quickly. There was research data on this mural from all over the world, and then it was fused. In the end, the content that Yu Tian wanted could be obtained very quickly.

Chu Mei knew that Yu Tian was more skilled in this aspect than she was, so she stayed by Yu Tian

t

s side and did not say anything, She did not want to disturb Yu Tian's analysis.

She wanted Yu Tian to know more quickly what the contents of the mural were about?

As for the others, they continued to explore inside. This way, they could save some time.

After all, the temple was too big. There were about a dozen rooms on the left, and they could finish exploring very quickly.

At this moment, Yu Tian seemed to have returned to tens of thousands of years ago.

He saw countless believers kneeling in front of the temple, waiting for the arrival of the God of heaven.

Soon, under their expectations, the God of Heaven's spaceship slowly landed in front of them, which was the top of the temple.

When the god of heaven in spacesuits walked out of the spaceship, people began to kowtow to them, shouting pious slogans to them.

These gods gave the believers something similar to seeds and taught them how to cultivate.

The seeds eventually turned into rich fruits and food.

When Yu Tian saw this, he took a magnifying glass and looked at the food carefully with a hint of surprise in his eyes.

The food was the food that humans ate today, including potatoes, corn, and other things.

Human Research in this area had always believed that these foods were discovered by humans during their natural evolution.

However, what was painted on the mural was not discovered by humans. It turned out that these things were given to them by humans.

Other than giving them seeds, these so-called gods had also taught humans some simple medical skills to treat some very simple diseases.

When the gods left, everyone who had received their gifts would once again come to the front of the temple and kowtow as they watched them leave.

At this time, the spaceship would once again rush into the sky and disappear in the direction of the Sun.

The first mural was about these things.

Chu Mei saw Yu Tian put down the magnifying glass and immediately asked softly, "How is it? What does this mural say?"

"It's about their help to humans, including giving potatoes, corn, and other seeds. So I have an idea now.. These so-called gods might be humans!"

Chapter 645 – Chapter 644 Was Completely Different

Thank you readers!

The people around them were all surprised by Tian's words. How could these people be humans? Could This be transmigration?

Chu Mei also looked at the information in her hands and asked curiously, "Why do you say that? According to what you said, these humans must have transmigrated from the future back to tens of thousands of years ago?"

However, there was a problem. If they did that, they might disrupt the normal evolution of humans. This would also have a certain impact on the future. This was the so-called butterfly effect..,

if these humans were really humans, what they did would not be beneficial to the future. If I could travel back now, I would not change these things so easily,

"So, I feel that your thoughts might not be correct!"

Yu Tian smiled and said indifferently, "Actually, your thoughts have a certain amount of truth, but you have neglected one point, which is also the most crucial point,

just like the question you have asked, if they are really humans, why would they do this? What would it do for them? Or would it be good for them?

Have you ever thought of a question? That is what are we doing now, we are here to study something that happened tens of thousands of years ago through these murals,

that is what we want, that is what we are pursuing that is why we are here, everyone has a reason and a reason to do something,

i believe that those people came here for a reason. In fact, I doWt know what philosophy is. I just know that you can a€?t get up early without benefits. You have to have your own reasons for doing things,

this is a very simple truth, isn't it? That is to say, those people must have their reasons for coming here, and the things that they give to humans, if you think about it in terms of the butterfly effect,

they may also have come here to change the course of the future, so I believe that these people must have come here through some kind of science and technology;

and the reason they chose that time period tens of thousands of years ago, is that they wanted to reset everything, or rather, everything from the beginning so that they could help the future,

a€?This is what I think. It might be different from yours, so we don

i

t need to waste time thinking about this. What we Should do now is to continue reading!a€?

Yu Tiaws words made everyone nod their heads slightly, because what he said made sense.

It was just like how they discovered this temple here, which was also to find the value of its existence through this temple.

Or perhaps, every expert here wanted to use this temple to excavate and find some discoveries that could shock the world, so as to increase their reputation and value.

This was their pursuit. If they thought about it this way, everything made sense.

At this moment, Yu Tian had already come to the front of the second mural and looked at it carefully.

The contents of this mural were a little complicated. Yu Tian looked at it very carefully. Every line on the mural as well as every character, was looked at very carefully.

According to his analysis, Yu Tian came up with some ideas. As he looked at it, he said in a low voice, a€?This mural is a little different from the previous one. What it says here is that the heavenly deities have once again come to the templej they have chosen a lot of believers here to be sacrificed. Every chosen believer will be brought into the temple by the guardian of this place. This is a supreme honor for them*

therefore, in order to be chosen, they will sacrifice their best things. And these people who are used for sacrifice are all men. There are no women at all. After these people were brought into the temple, they never appeared again.

and their family members would also be respected by many people. Their status would also be improved because not everyone who was chosen by God would be able to get it,

at that time, this was the closest method to being a god. But the most crucial point was that the Guardians would never allow anyone to enter the temple during the sacrificial ceremony, only those who were chosen could enter the temple until the sacrificial ceremony ended. After that, the temple would close and the spaceship made by the God would leave once again!

Chu Mei nodded and said, "When I first saw this mural, I also felt that they were performing a sacrificial ceremony. However, there was one thing that I didn't understand. Compared to the previous mural,

The people in this mural seemed to be a little more cruel. Previously, they had given human seeds and even medical skills to help humans evolve,

moreover, after they gave these things, they would leave without any requirements. Why did they need humans to perform a sacrifice this time? It was very simple to see that one was a gift, and the other was a request,

"This seems a little contradictory!"

Yu Tian laughed, he said confidently,

ii

Actually, it's not contradictory at all. You just didn't see the details. Take a closer look at this spaceship. How is it different from the one in the mural?"

Everyone perked up when he said that. They took out magnifying glasses and torches and leaned on the mural to look at it carefully.

When they looked at it, they realized that Yu Tian was not wrong at all. The spaceship on this mural was no different from the one on the previous mural. If they did not look carefully, they would not be able to tell the difference.

However, if they looked carefully, the spaceship on this mural was slightly bigger than the previous one. Although the overall shape was similar, there was a very obvious symbol on this spaceship.

That was that there was a flag on the spaceship. The pattern on the flag looked like a skeleton, similar to the pirate flag of today.

Chu Mei said in surprise,

u

If you didn't tell me I wouldn't

i

have realized that there was such a big difference between them, Now I understand

“These people who came here to need sacrifices are completely different from the previous people. These people came here only to take, and each time, they have thousands and thousands of sacrifices,

“But what I don't understand is, where did these sacrificial offerings go in the end?”

Yu Tian smiled indifferently and said, “Actually, already know where they went, but in order for my thoughts to be more correct, we still have to continue looking at the murals below!”

Very soon, Yu Tian had also carefully looked at the third murals.

At this time, he slightly narrowed his eyes and said coldly, “It's just as I thought.. These people all turned into soldiers in the end, and they all turned into machines!”

P

Chapter 646 Chapter 645, the mysterious island

Yu Tian's idea was completely correct, and it was very similar to what the others had analyzed.

But what the others said could not be analyzed was Yu Tian's idea at this moment.

In this mural, Yu Tian saw something that others did not see, and that was the meaning of this mural.

In fact, it was not just to tell what had happened in the past, but also to remind people of the present.

Otherwise, it would have lost the meaning of this mural.

And the person who made this mural could not have been from this world in the past, because according to the artistic structure of the mural, people at that time did not have these abilities, especially in terms of color.

The time when color was invented was many years later than this temple. However, at that time, the mural in the temple could already use color.

Others might not have noticed this, but the chip in Yu Tian's mind had already analyzed everything very clearly.

Therefore, Yu Tian spoke with great confidence.

"This mural tells us that the people who came to help us before weren't really good people who wanted to change the course of human progress. On the contrary, they were with the people on the pirate ship,

"However, they were only the vanguard. They came here and turned the humans here into their colonists. Then, these pirates came here and turned these people into their soldiers and fought for them,

look at the contents of this mural, these pirates always come here at the full moon, but not at the full moon every month, but at a specific time of the year,

when they come here, they bring a large number of people, into the spaceship, and these people are standing in a neat line, which means they're not afraid at all, and they're even happy that they're chosen!

Then, there was a problem. This was just like us educating our next generation. We always instilled all the beautiful things into them,

we made them feel that what they did was the right thing and what was the best choice. It was the same at that time. These people who were called gods, they came to this world and gave the best conditions for the development of mankind at that time,

after gaining the trust of the humans, they instilled in the minds of the humans, making them feel that becoming a soldier was the highest honor. Therefore, this temple, in a certain sense, could not be considered a temple,

this was just a place for them to transfer their soldiers. Why did they treat this place as a temple? "They even need to cover it with a layer of sacred veils. This is to let those people think that this is the right thing to do!"

When the analysis reached this point, everyone was dumbfounded.

It had to be said that Yu Tian's analysis was really too accurate. Moreover, it was especially reasonable. It completely matched the meaning of the mural.

The bearded man was even more shocked as he looked at the information in his hands. Compared to what Yu Tian said, this information was really useless. It was completely wrong.

Chu Mei sighed and said, "It's simply too wonderful. This really makes me feel very shocked. Although you're not an archaeologist, your thoughts are even more professional than those of us who specialize in archaeology,

i really don't know what to Say Now!"

Yu Tian smiled indifferently and slowly said, "Then there's no need to say those useless things. Now we have to fight for time. There are still a few murals here. I want to look at them carefully!"

Then, Yu Tian looked at the remaining murals carefully in one breath.

At this time, the sky had slowly turned dark. Without realizing it, an afternoon had passed.

The attendants who had brought with them had already prepared the food. Yu Tian ate the steaming canned food while continuing to look at the information she had organized.

Chu Mei brought a cup of coffee and handed it to him. She asked softly, "How is it? Did you find any useful information?"

"The information here is very useful!" Yu Tian took a sip of coffee and said, "But to some people, the contents of this mural are just a piece of art..."

"But to me, based on what I saw, I even feel a little scary now!"

Looking at Yu Tian's solemn expression, Chu Mei also became nervous and hurriedly asked, "What makes you feel so scary? Quickly tell me, what did you find?"

Yu Tian placed the coffee cup on a rock beside him and said in a low voice, "There is nothing in this temple that I want. If I want to mechanize my body, I need to find that spaceship!"

"What did you say? You said that the spaceship is still on Earth?"

"That's right!" Yu Tian looked at Chu Mei's shocked eyes and said indifferently, "Is the spaceship still on earth? Let's not talk about this now. I saw something else in the murals!"

During the last selection of soldiers, there was a mole among the pirates who objected to the use of humans as mechanical soldiers. He told everyone the inside story,

moreover, with the intelligence of the humans at that time, they could understand everything that this person said. When they found out that they had been deceived, they used their own power to kill the Pirates,

at that time, there were still a few islands that were piloting the spaceship. When they were about to leave Earth, the spaceship had a problem and crashed into a small island on Earth,

therefore, the spaceship was still on Earth at that time. I also saw something else. In order to return to Earth one day and dominate this world, the pirate civilization had thrown their instruments on Earth,

these instruments could help humans gain more evolution and grasp more skills, but at the same time, they would also become their new colonizers,

for example, the current me. Fortunately, I let Chu Meng and the others not inject chips into others. Otherwise, we would have created countless mechanical soldiers by now,

at that time, those invading civilizations would once again appear in our world. At that time, this world would no longer exist,

it was like the current me. If my body was completely mechanized, they would appear as well, so I had to find that spaceship before my body was completely mechanized,

only on that spaceship would there be a method and technology to remove the mechanization, but the island he mentioned, I don't know where it is at the moment,

there are countless small islands in the world, but where exactly is this one? We don't know yet!"

?Chapter 647 – Chapter 646, Exploring Together

Chu Mei nodded in surprise when she heard this. She carefully looked at the small island that Yu Tian had drawn and said, "We can search all the islands on Earth according to the shape of this island,

we should be able to find the corresponding island!"

Yu Tian shook his head helplessly and said indifferently, "This is impossible. After so many years of changes, the terrain on Earth has long changed. It's not like the past"

"You also know that tens of thousands of years ago, earth only had one continental plate, but now it's divided into seven. There are countless islands, and even their shapes have changed"

"It's basically very difficult to find this island now, but it's not completely impossible. The more difficult the challenge, the more interesting it is. At least, that's what I think!"

Chu Mei understood Yu Tian's meaning. He now controlled most of the wealth in the world. As long as he was willing to spend money; countless people would be able to find that island for him.

He could also buy information about that island from all over the world.

Although it would take some time, if one thought about it carefully, it was completely possible.

At that moment Yu Tian added "This island is also very special, When the spaceship landed on this island, it created a very big hole. This is its special characteristic"

"We just need to search the whole world. If there is another small island with such a hole, we will be able to find that island very quickly!"

Chu Mei completely agreed with Yu Tian. She smiled and said, "It seems that any problem with you will be easily solved by you. It makes me feel very relaxed!"

Yu Tian did not want to waste time here. He immediately gave Yan Longwen a call.

When Yan Longwen received his call, she felt very surprised. Thinking about it carefully, she had not seen Yu Tian for a few months. When she received his call at this time, She felt extremely shocked and excited.

On the phone, Yu Tian still said calmly, "How have you been recently? Did you miss me?"

Yan Longwen almost cried. She bit her lips and said, "What do you think? How could I not miss you? Where have you been for the past few months? Will you return to this city?"

i

"Of course I will. But now, I have to do something else. And I need your help.

Immediately post a message on the world

I

s Internet"

want to use 50 million international dollars to search for islands with sinkholes all over the world. The Sky must be big. Whoever can provide me with the data will get the 50 million!

Yan Longwen had no idea why Yu Tian would do that. She felt that she could not understand anything he was saying, but whatever he said was right.

So she immediately said, "Okay, I'll do it now!"

After the message was sent ?????????????????? someone quickly provided excellent data.

Yu Tian made a video call with this person.

It could be seen that the person who provided the information should be an adventurer. At this moment, he was on a yacht, and behind him was an endless sea.

This person was in his fifties. He introduced himself, "Hello, Mr. Yu Tian- I have long heard of your name. My name is Jacki and I am a tourist enthusiast. "

I saw your news on the Internet, and it reminded me of a place I had been to before. It was an island. The morning rain covered tens of thousands of square kilometers, and it was not very big,

but in the middle of the island, there was the sky that you mentioned. At that time, I was playing paragliding and I accidentally saw that island. But what made me feel strange was that..,

when I wanted to look for that island again later, it was as if it had disappeared into thin air. The coordinates that I recorded before were completely wrong!

When Yu Tian heard this, he felt a little disappointed. He thought that he would be able to get some useful information, but in the end, he said these things.

He shook his head helplessly and said indifferently, "I'm very grateful, but what you said is of no use to me. I need to know the exact coordinates of that island but you can

I

t provide it!

Jack hurriedly explained, "That's not the case. Mr. Yu Tian, you have to listen to me. I don

Y

t want to get that money, but I want to know why you went to look for that island?

Of course, you don

i

t have to answer my question. I want to understand this mysterious island as much as you do, so I've been looking for this island ever since that time

fortunately, half a year ago when I accidentally flew a plane through a sea area, I found that island again. It was near the Mediterranean Sea,

after a few days of observation, I finally understood that this island was actually an island floating on the sea. You can imagine that an area of tens of thousands of square kilometers is actually a natural ship,

moreover, due to the heat of the sea level and the influence of the wind, its speed is sometimes fast and sometimes slow. But now, I can already know its coordinates. We can land on this island anytime and anywhere!

"Wait a minute!" Yu Tian frowned slightly and asked indifferently, "What did you say? What do you mean we can land on the island anytime?"

Jack laughed and said, "This is the reason why I don't care about money. I also want to go to that island to have a look, because I once tried to land, but strangely, there seems to be an obstacle outside the island."

"I

i

ve tried many ways to prevent anything from landing on the island, but I can't get up. Or, you have the technology in this area, so you can do it. My condition is that I hope you can take me with you,

Moreover, I also have a certain amount of island adventure experience and wild survival experience. If you take me with you, I'll definitely be a good helper for you. What do you think?"

Yu Tian thought about it. Actually, this was nothing much. He had entered that island just to obtain technology. As for the rest, he did not care

Therefore, he nodded and agreed to Jack's request. He said, "Alright, then let's agree on a place to meet. Then, we'll head to that island together!"

"Do you know Flower Rain Island? I'm near that island now. There's an airport on this island. I'll wait for You Here!

After agreeing on a place to meet, Yu Tian looked at the time. Although he could immediately teleport there, in order not to scare Jack, Yu Tian still planned to go to flower rain island according to the actual time.

Just then, a scream came from inside the temple..

?Chapter 648 – Chapter 647: Monsters

When they heard the screams, Yu Tian and the others immediately went to the place where the screams had come from.

It was a particularly large room. Before they even entered, Yu Tian felt a particularly fierce killing intent.

At this moment, a few people covered in blood ran out of the room, scared out of their wits.

When they saw Yu Tian, they shouted at the top of their lungs, "There's a monster! There's a monster inside!"

Before she could finish her sentence, a deafening roar came from the door.

Chu Mei was so frightened that she immediately grabbed Yu Tian's arm and asked in horror, "What's that? How can there be a monster here?"

However, Yu Tian was especially excited. His eyes were filled with excitement as he chuckled and said, "I really hope that there's a monster here. I can't find it normally, but now I can find it herea€]"

"This is simply a gift from heaven. All of you leave this place. I'll go in and take a look myself. No matter what you hear, don't come in!"

Chu Mei immediately brought the injured people and retreated to the main hall of the temple. She looked over worriedly.

Yu Tian, who had entered the room, raised his head and was shocked.

There was indeed a huge monster in front of him. Its head was as big as a bucket, and its two blood-red eyes were emitting a fierce murderous aura. It was currently roaring furiously.

When it sensed Yu Tian's aura, its body directly rushed toward YO Tian, extremely fierce.

Yu Tian had flipped through all the information, but there was no introduction of this monster. If that was the case, this monster might not be a species from Earth.

Seeing the monster rushing toward him, not only did Yu Tian not dodge, but he used both of his hands to directly block the monster's head.

The monster's strength was extremely powerful. It forcefully pushed Yu Tian dozens of meters away, leaving a deep mark on the ground.

The monster shook its head, opened its bloody mouth, and bit at Yu Tian.

However, Yu Tian jumped onto the monster's body. The monster's strength was extremely powerful, and even his arm felt numb.

According to the level, the monster's strength was definitely equivalent to a level five expert.

As for himself, he was only a level two expert. It could be said that the difference in strength was extremely great.

However, the more this was the case, the more excited Yu Tian became. Every time he encountered a strong enemy, he would comprehend some abilities.

However, now was not the time to think about this. He grabbed the monster's fur, raised his fist, and smashed it on the monster's head.

However, the monster's defense was particularly high. Yu Tian's fist actually could not cause any damage to him.

Yu Tian was extremely tired, but the monster was still alive and kicking. It desperately wanted to throw Yu Tian off, and it even used its huge body to hit the surrounding walls.

The walls that were a few meters thick were knocked down and collapsed one after another. The entire temple was shaking.

Yu Tian held onto the monster's fur tightly and pondered calmly. If this continued, it would be impossible to kill the monster. He had to find the weakest point of the monster's defense and give it a fatal blow before he could end the battle.

However, the monster's defense was extremely strong. It was as if there was no weakness in its entire body.

However, at this moment, the monster felt that it could not shake off Yu Tian. It actually stood still and its entire body began to tremble.

Before Yu Tian could figure out what the monster was trying to do, the monster's back suddenly became extremely hot.

It was so hot that Yu Tian hurriedly let go of his hands and jumped onto the ground.

The heat that erupted from the monster

I

s body was at least a thousand degrees Celsius. Even the temperature in the air became extremely hot. The surrounding walls also began to crack.

Yu Tian's defense was already high enough but after being eroded by the heat, he felt as if his skin was cracking. It was a burning pain.

Seeing Yu Tian jump to the ground the monster became even more furious. It jumped up and threw itself at Yu Tian.

Seeing that the mountain-like monster was about to land on him, Yu Tian did not even think about it. He rolled on the ground and dodged the monster's attack first.

However, as he rolled, Yu Tian suddenly realized that there was no hair on the monster's stomach. Moreover, its skin looked very tender, just like a dog's stomach.

If he guessed correctly, this must be the monster's weakness.

However it was not easy to get under the monster's body.

Just as Yu Tian was thinking about it, the monster exploded with heat once again.

The heat was even higher than before. Yu Tian looked up and saw that the skin on his arms was starting to crack and the water in his body was rapidly evaporating.

The temperature in the room was at least a thousand degrees. If this continued, he would definitely be scalded to death.

Yu Tian immediately clenched his fists and filled his limbs and bones with the power in his body.

Moreover, he forcefully used his mind to lock the moisture in his body.

However, what surprised Yu Tian was that when he unleashed all his power, the chip in his mind was also activated at the same time. The power was almost tens of times greater.

An extremely violent feeling suddenly rose in his mind. It was as if if this power was not released, his body would explode.

At this moment, the monster charged at Yu Tian again.

This time, not only did Yu Tian not dodge, he jumped up and punched the monster's head. All the violence in his body hit the monster's head.

The monster was stunned by this punch. Its huge body swayed as it sat on the ground. It shook its head and growled.

Yu Tian felt that after he threw this punch, the muscles and bones in his body were extremely relaxed, Even the back of his head was numb,

H?? suddenly clenched his fists. His strength was still as strong as before, and he felt that it was even smoother.

At this time, he was still waiting for the monster to get up. Yu Tian chuckled and jumped onto the monster

I

s body again. This time, he did not need to attack any weak points. He directly raised his fist and smashed it on the monster's head.

Every punch was filled with violent power. The monster also had the arrogance from before, but now it was terrified. It struggled desperatelywith its huge body, trying to dodge Yu Tian's attack.

However, how could Yu Tian give him this opportunity?

He grabbed his hair and threw two punches, directly crippling the monsters eyes.

The monster tried its best to release the heat in its body. It wanted to burn this enemy to death.

However, the heat could not break through Yu Tian's defense. Instead, it made Yu Tian's fists hit even harder.

The monster

I

s body gradually stopped moving. In the end, Yu Tian did not stop until it stopped breathing.

The explosion was too intense. At this moment, Yu Tian felt a little tired.

After releasing his strength, he sat down beside the monster..

?Chapter 649 – Chapter 648, The Secret Of Monsters

However, after this battle, Yu Tian felt that his strength had risen to a new level.

It had to be said that this was inseparable from the assistance of the chip. The chip in his mind could not only provide him with powerful strength, but it could also speed up the improvement of his strength.

At this moment, Yu Tian felt that his body was very wide, like a rolling ocean. The strength was endless, filling his bones and muscles.

Yu Tian clenched his fists hard. This kind of strength was very real and also very refreshing.

He could be very sure that he had now risen to level three.

Although his level wasn't worth mentioning compared to the people in the cultivation world, his speed of improvement was so fast. He believed that he would soon surpass the average experts in the cultivation world.

However, this path was still very long. He had to slowly explore it and continue to challenge those unknown experts. Only then could his strength continue to increase.

At this moment, Chu Mei and the others came to Yu Tian's side and looked at him with great concern.

After confirming that Yu Tian wasn't injured, everyone relaxed.

Then, they began to study the monster that Yu Tian had killed.

Chu Mei was surprised to find that this monster had appeared in the mural before, It was the guardian of this temple.

Yu Tian had the same impression. Now that he thought about it, the monster had lived for so many years and stayed in the temple. It must have a special function in its body.

When it came to studying these creatures, Chu Min was the best expert.

Thinking of this, Yu Tian stood up and said, "This monster can live for tens of thousands of years. There are many secrets in its body. We need an expert now!"

"Analyze this monster carefully. If it has the element of immortality in its body, and if it can be used as a reference, it will be a homeless treasure. So you guys stay here first. I'll be right back!

Chu Mei felt that what Yu Tian said made sense, and it was also very magical. Therefore, she immediately ordered the workers around to put some lighting equipment here.

At that moment, Yu Tian had already arrived at Barker and met Chu Min.

After not seeing each other for so many days Chu Min missed Yu Tian very much. She hugged Yu Tian tightly.

In her heart she did not think that Yu Tian could make her miss him so much. However, after interacting with Yu Tian for a period of time, she realized that Yu Tian was very important to her.

It was as if she had completely filled up her heart. Whenever she was free, she would unconsciously think of this man.

When she saw Yu Tian again today, she was naturally very excited.

However, one day, she thought that her body was currently very unstable. She could lose control of her body at any time and turn into a robot.

So he had to control his emotions, at least not now.

He said simply, "You're a biological expert. You should have a special understanding of those creatures,

"This time, you

i

It definitely like it. The thing you want to see is not a species from Earth. Moreover, it has lived for tens of thousands of years, so I need you to analyze the elements in its body,

i

Let's see what can live for so long."

Chu Min immediately became spirited and said impatiently "Then what are we waiting for? Let's set off now. I Can't wait to see this monster!"

Cut the crap. Five minutes later, Yu Tian brought Chu Min to the temple.

After meeting Chu Mei, Chu Min sighed and said "Wow; Chu Mei I remember that the last time we met was when the family held a celebration a few years ago. I haven't seen you since then"€|

"Have you been doing archeology all these years?"

Chu Mei held her hand and said with a smile, "????????? it's the same as your pursuit. You like biology, and I like archaeology. But now I have to invite you to see that monster"€|

"I think you will definitely be able to find the secret of its immortality!

Chu Min laughed and said, can only say that I'm trying my best. After all, this is not a species from Earth. Even if it is a species from Earth there are many that I haven't seen before!"

When Yu Tian heard this, he said "Can you two go and talk about this later? If you delay any longer, that monster will stink. Can we hurry up?"

The two women looked at each other and smiled. They immediately came in front of the monster.

Chu Min still had quite a lot of equipment. It took her half an hour just to get these equipment.

After everything was ready, Chu Min began to analyze the monster.

At this moment, Yu Tian was sitting outside the temple, looking up at the sky full of stars.

He suddenly felt that he was very small compared to the entire universe.

But he had never thought that he would leave Earth to explore other worlds apart from the cultivation world.

After all, that was just a fantasy. It was simply unrealistic.

Moreover, he had never thought about it. As long as he stayed on Earth, it was already good enough. He did not have the mood to study other people's civilizations.

Those were all things that the scientists hoped to obtain. However, judging from the contents of the murals, not every civilization outside of Earth was good.

Just like the current him, if he was really mechanized those pirate civilizations would immediately appear on Earth and turn this place into their colony.

And just like tens of thousands of years ago, they would turn humans into soldiers that they could sacrifice at will.

To humans, they were all flesh and blood, but to those pirates, even if humans died, they would just be a pile of parts, without any sympathy at all.

There was a saying that was especially good. If one was not of the same race, one's heart would be destroyed

Just as Yu Tian was thinking about this endlessly, Chu Mei came behind him and said excitedly, Tian, Chu Min has already analyzed some things. Go and take a look!

Yu Tian came to the temple. At this time, Chu Min was quickly analyzing some data in front of the computer.

He said impatiently,

li

How is it? Did you find anything useful?"

Chu Min also said excitedly, "There are indeed many differences. I just analyzed a section of his body first. I looked at his genes and his cells"

"I found that the metabolism of this monster's cells is extremely fast. It's tens of thousands of times faster than a normal person

i

s. I'll give you the simplest example. Because the metabolism of humans is relatively slow, that's why they grow old"

"And this monster's body, before it gets old, new cells are born!"

?Chapter 650 – Chapter 649, Do Not Mix

Chu Min opened another set of data and said, "You said before that it is not a species on earth, but after my analysis, this monster's genes.,

are exactly the same as the genes of other animals on earth, or even no difference at all. Except for its fast metabolism of cells, everything else is exactly the same,

therefore, I could say with certainty that this monster either once existed on Earth, or it was created. However, if it was created.,

the rate of cell metabolism was simply not that fast. Because cells were natural, this thing couldn't be created or changed,

of course, if the extraterrestrial civilization that you were talking about had such technology, it was completely possible. According to this reasoning, then all the species that currently existed on earth..,

should have been brought by the extraterrestrial civilization. It was like free-range breeding. They threw these species on earth and let them form the so-called biological chain,

the survival of the fittest led to the evolution of these animals, and the earliest animals could be said to be the ancestors of all the animals on Earth,

after tens of thousands of years of evolution, some functions have already deteriorated, so I can only say from the perspective of Earth that this monster was originally from Earth!"

Yu Tian nodded and said with appreciation, "You

I

re right, it's the same as what think. But what I want to know now is whether the cells in his body or other genes.., can they be copied into US humans? For example, the metabolic rate of his cells. If it's in humans, then humans can also achieve immortality, right?"

Chu Min chuckled and said in disbelief, "What you said doesn't seem to be possible. There is no genetic hybridization between species. Otherwise, wouldn't the species on Earth be in Chaos?"

Yu Tian felt that there was a certain logic to it. Humans had developed to this day, and each species had their own unique way of development. This could not be mixed together.

In other words, even if there was an immortal gene in this animal's body, humans would not be able to use it. They could only watch.

However, Chu Min said at this moment, "Although the animal's gene can not be used on humans, we can try to modify it. After stripping out the best gene components from the animal's body..

After combining with the genes of humans, if the effect can be completely matched, it will have a certain effect. However, the effect will not be very big,

"Because the altered genes are, after all* not the same as the original genes in all aspects. Therefore, I have an idea. If I can combine these two genesa€?, although it would not be able to make humans live forever, with the current foundation, it would be able to extend the lifespan of humans. I think it can still be don't but it will take time!"

Yu Tian smiled indifferently and said "You have a lot of time. Now, you don't need to study anything on Barker's side anymore. The pollution there has been completely solved. Now, you can return to the imperial capital,

after all, there are many good conditions in the imperial capital that can help you with your research in this area. If you can really break through the limitations in this area, I think it will shock the entire human race!

Chu Min accepted this suggestion and immediately began to organize her things. After that, Yu Tian brought her back to the imperial capital

After returning to the imperial capital headquarters, Yu Tian saw uncle long drinking tea with Chu Aotian.

Seeing Yu Tian, the two of them stood up respectfully. Uncle long chuckled and said, "My lord, I haven't seen you for a long time. How have you been?"

Yu Tian picked up the tea and took a sip. He said helplessly, "It's not interesting at all. There are no experts at all. I Can't keep up with the experiential learning. I want to retire to the countryside and plant potatoes!" Uncle long laughed and said, "You caret be anxious. You still have a long way to go. It's only the beginning now. In Your Future, you will meet more experts. And these expertsa€|"

"Each of them will be stronger than the last. I see that your aura has improved compared to before. How can you say that you don't have any experience?"

This old man

i

s eyesight was really good. He had only improved by one level, but this old man had already seen through it.

Yu Tian also smiled indifferently and said proudly, "I completely broke through on my own. [t has nothing to do with those experts.

"Let's not talk about this now. You've been living quite well in the cultivation world. Why did you come here?"

Uncle Long looked at Chu Aotian first. The latter immediately understood the old man's meaning. He stood up and smiled "I'll go and do something else first. You guys can chat slowly. Later, I'll order the kitchen to prepare a table of wine and dishesa€|

"It just so happens that the Lord is also here. Uncle Long, you can accompany the Lord to drink some wine!"

After Chu Haotian left, Uncle Long said in a low voice, "Actually, the clan didn't know that I came here this time. They only thought that I came to this world on vacation and didn't ask about it,

"And I came here to tell you that you have to speed up your growth and become a powerhouse one day earlier. Only then can you return to the clan one day earlier

right now the clan was extremely chaotic. Many people were eyeing your father's position and wanted to replace him. Your father had been training your children every day hoping that they would also become talented people in the clan,

therefore, he neglected the management of the clan at this time. This allowed many people to take advantage of this loophole. You also have to be on high alert here. If they are unable to obtain power from your father.,

it is very likely that they will come to this world to attack you. With your current strength, it is impossible for you to be a match for them. Moreover, you have to remember one more thingy

you must protect the 108 sisters well. You absolutely can not let any of them have second thoughts about you, I know that this is not easy to do. After all there are many women. Sometimes, they are also unable to take care of themselves,

however, you must remember that ensuring the integrity of the 108 sisters is the main reason why you can become the strongest person in the world. This can not be changed,

this is what I'm going to say to you. You Don't have to think about anything else. You just have to remember that your father can still say a few words in the family,

although those people don

I

t respect your father, they also don't have the courage to openly disobey him in front of your father. This is the time that you've earned. No matter what, you must seize this opportunity,

another thing is, you'd better not rely too much on those high-tech skills.. The criltivation technique that you're given is the most important!
