## **Read I Have 108 Older Sisters Chapter 701**

?Chapter 701 – : Chapter 700, This Is An Opportunity

From a conventional point of view, if there was a riot at the entrance, if they were just ordinary workers, then they should be scared out of their wits and leave this place immediately.

Instead of charging into the command center, this could only mean that they came here to enter the command center.

Therefore, Yu Tian could easily guess their intentions and identity.

Yu Tian could also see very clearly that when Ernstrom entered the command center, his expression was especially excited, and his eyes were filled with killing intent.

It was definitely not a gaze that an ordinary worker could have. He was explaining his identity to himself. These workers were all members of the special attack team.

Since they had come to their own doorstep, it wouldn't make sense if they didn't treat them well and do their best as landlords.

Under Yu Tian's orders, Dorias took out a small group of mercenaries and continued to search for the sniper. He brought his men and followed behind Ernstrom, he quietly surrounded them in the dining hall.

Chu Meng also activated the jamming device. At this moment, no matter what kind of bomb it was, it couldn't explode within the range of the command center.

After everything was ready, Yu Tian smiled indifferently and walked towards the dining hall.

At this moment, Ernstrom immediately got his members to take out the bombs that they had prepared beforehand from among the food.

At the same time, he ordered gloomily, "It's not easy for us to come in here, and our time is limited. Install these bombs immediately and wait for Blair to join us!"

Everyone nodded, picked up the bombs, and walked out of the restaurant.

Seeing this, Dorias immediately ordered the mercenaries, "Don't bother with them, and don't let them discover us. We only need to observe them in the dark, but we must not let them leave this place! "

After the bombs were installed, the members of the special attack team returned to the restaurant. At this time, Blair also came to the restaurant and joined them.

Blair looked outside the restaurant nervously and said in a low voice, "We might not succeed in this mission. Yu Tian already knew that we would come

herea€| "

"My opinion is that we should cancel this mission and look for an opportunity. I will continue to observe their every move here. As long as there is an opportunity, I will inform you immediately! "

However, Ernstrom narrowed his eyes coldly and said, "This is our opportunity. Don't you know how difficult it is for us to sneak in?"

"The next time we want to sneak in, it will be impossible for us to have such an opportunity. So no matter how difficult it is this time, we must complete this mission,

"Don't forget that you are also a member of the special attack team. You have the obligation to fight for the honor of the Special Attack Team! "

It was useless to say this now. If they all died here, would this be their honor?

Just as Blair was about to speak, the door of the restaurant was pushed open by Yu Tian

Yu Tian.

Everyone hurriedly pretended to be workers and began to move the goods. Ernstrom glared at Yu Tian, picked up a basket of food, and began to move it into the kitchen.

Yu Tian did not say a word. He just sat at the dining table with a smile and watched them move the goods. He did not stop them.

Anyway, this was all free labor. It was a waste not to use it. If they wanted to move it, they could just let them move it. It would save them having to call others to move it later.

Ernstrom, who came to the kitchen, glared fiercely at Yu Tian outside and said gloomily, "Blair, do you have a weapon on you now? Hand it over to me! "

Blair shook his head helplessly, but he still stopped him. "Commander, I hope you can listen to my opinion. Yu Tian is not as weak as you think. You Don't know how many experts in the world want to assassinate hima€| "

"But in the end, the ones who die are those experts. Compared to those experts, your strength is simply no match for Yu Tian. Why are you still making unnecessary sacrifices here?"?

"I do have a weapon, but I can't give it to you. I'm doing this for your own good, and for the good of every member of the special attack team. If you act rashly..,

"Not only will the mission fail, everyone here will be killed. Do you really want to use this method to defend the honor of the Special Attack Team?"

Ernstrom didn't want to hear this at all. It was all nonsense.

It wasn't easy for him to get here. Even if the mission failed, it was worth it for him and everyone in the special attack team to die here.

Yu Tian launched an attack on their country. Who knew how many people had died under his artillery fire. If he didn't kill Yu Tian now, he would be letting down the innocent people who had been killed.

Just as Blair was about to speak, Ernstrom threw a punch and smashed Blair to the ground.

He grabbed Blair's collar and said fiercely, "As far as I know, I am the commander of the special attack. Each and every one of you must listen to my orders,

i have always thought that you are a brave person. That is why I asked you to come here as a spy. But up until now, you still do not know what your role is?

But it makes me feel that you are now completely on Yu Tian's side. Your reason for stopping me is very nice, but do you think that we are all cowards who are afraid of death?

Since we are here, we have already put our lives on the line. Even if we all die here, that is the fate of every member of our Special Attack Group,

"Everyone is fighting for their fate, and we have to do this even more. Give me your weapon now, or I'll kill you right now!"

Blair, who had blood trickling down the corner of his mouth, shook his head helplessly and took out his weapon.

Ernstrom grabbed the weapon and sneered, "Although you gave me your weapon, you are no longer a member of the Special Attack Group,

"Your cowardice will only make us feel that you are a disgrace to us. If we let you continue to stay in the special assault team, we will all have a disgrace on our faces. Now, you can go to hell! "

As soon as he finished speaking, a member of the special assault team grabbed Blair by the neck and exerted force with both hands. Blair's head tilted to one side and he died.

Ernstrom did not even look at him. Instead, he put his weapon on his waist, pushed open the door of the kitchen, and went to the dining hall.

At this moment, Yu Tian was still smiling indifferently, but her eyes were staring at Ernstrom without blinking..

?Chapter 702 – : Chapter 701, Their Honor

Ernstrom also quietly came to Yu Tian's back. First, he had to find the best design angle. It was best if a bullet could take Yu Tian's life.

Of course, it was also very likely that Yu Tian was wearing a bulletproof vest. Therefore, if he attacked from the front, with Yu Tian's strength, it would be easy for him to dodge the bullet.

If he couldn't attack from the front, then he could only attack from the back. He definitely wouldn't believe that Yu Tian had eyes on the back of his head.

Coupled with his lightning-fast firing speed, Yu Tian wouldn't be able to defend against it even if he wanted to.

Moreover, the back of the head was the most vulnerable part of the human body. Even if he was slightly injured, it would cause Yu Tian to lose the ability to move. If he continued to attack at this time, Yu Tian would definitely die.

However, Ernstrom never thought that Yu Tian could hear their conversation clearly in the kitchen.

Yu Tian even felt that it was a little ridiculous. With his hearing, let alone the kitchen that was only a dozen meters away, he could even tell if a mosquito was a male or a female from a hundred meters away.

It had to be said that these people had a sense of mission. In order to assassinate him, they were actually willing to give up their lives.

No wonder they were members of the Special Attack Group, and everyone was their elite.

Unfortunately, they had chosen the wrong target this time. If it was just an ordinary person, or their plan could have succeeded, but he was not that ordinary person.

Not only would he not let their plan succeed, but he would also have to let his plan succeed.

This was like a game where he made his own rules, and he could play however he wanted.

At this moment, Ernstrom, who had already arrived behind Yu Tian, looked left and right, confirming that this was the best opportunity to fire.

So he immediately held the weapon in his hand, and suddenly aimed it at the back of Yu Tian's head.

But just as he was about to press the trigger, the weapon in his hand suddenly shrank miraculously, and finally stuck directly on his finger, and it was still shrinking.

The intense pain spread through his finger, causing Ernstrom's entire body to let out a muffled groan.

Bean-sized cold sweat dripped down his forehead. At this moment, Yu Tian smiled naturally and said, "You're a food delivery worker, and you actually brought a weapon..,"

"And now you want to use this weapon to attack me. Do you really think that Pm here to eat in this restaurant? "In fact, Pm here to see you! "

At this point, Yu Tian slowly turned around. His expression was especially confident, and there was even a hint of mockery.

Ernstrom held his hand tightly, knowing that his plan had completely failed.

Blair was absolutely right. Yu Tian was truly a difficult expert to deal with.

However, it was impossible for him to give up now. If he wanted to, he would just perish together with him.

Thinking of this, Ernstrom shouted, "Activate the bomb! Let us perish together with this fellow! "

As soon as he finished speaking, the members of the special assault team who were hiding in the kitchen all rushed to the dining hall and surrounded Yu Tian in the middle.

However, Yu Tian smiled particularly indifferently and said, "Everyone, don't be rash. This is a dining hall, a place to eat, not a place to fight. You've worked so hard to come here..,"

"Don't tell me that you're here just to blow up the place where we eat? "If I Were you, I would definitely blow up the entire building, but will it succeed? "That's up to the heavens! "

This was a member of a special attack team. He handed the explosive device in his hand to Ernstrom.

Ernstrom was very proud. He looked at Yu Tian and said through gritted teeth, "Yu Tian, this is our mission, and also your destiny. We are not afraid of death. Are You Afraid of death?

"If you are afraid, that would be the best way for me to mock you. Every one of us is standing here today. We don't even think that we can leave alive,

even if we have to sacrifice ourselves here, we will take you with us to die. As long as we can kill you, this honor will forever be engraved in the hearts of every citizen of the Super Nation,

this is our honor. Right now, you still have to beg your God. It's best if you don't get blown to death by US later. But there is no God in this world, so no one can help you!"

Yu Tian laughed and said arrogantly, "You're especially right. There really is no god in this world because I'm a god. Even if a real God came to me and I made him kneel, he wouldn't have the guts to stand!"

Since you want to activate that bomb, then what are you waiting for now?

"The meal will take a while to be ready. Why Don't you blow one up first,

"We'll sit up and eat after you feel satisfied! "

Ernstrom didn't think Yu Tian's sense of humor was ridiculous. On the contrary, he felt that he was looking down on him.

Did he think that the explosive device in his hand was just a toy?

The more he thought about it, the angrier he got. Without thinking, Ernstrom pressed the explosive device without hesitation.

However, after pressing it repeatedly several times, there was no explosion at all.

He even asked the member beside him curiously.

"Are you sure this thing is not broken? Or is there no battery? Why didn't it explode after I pressed it several times? Are you sure we have a bomb?"

The member's face was also full of confusion. He scratched his head and said helplessly, "It's very likely that our signal was jammed. Otherwise, if you pressed it like this, it wouldn't explode. This is simply a joke! "

Ernstrom shook his head helplessly. This was indeed a joke, and it was a big joke.

At that moment, Chu Meng pushed open the door of the restaurant. She walked into the restaurant elegantly and said, "Stop pressing that thing in your hand. All the explosion signals in the entire command center have been interfered with, it's useless even if you smash it into pieces!"

As soon as she finished speaking, Dorias rushed into the restaurant with the mercenaries and surrounded the dozen or so members in the middle.

Ernstrom looked at them coldly, but he felt very helpless in his heart.

This mission was a complete failure. Not only did he not blow up the command center, but he also didn't kill Yu Tian.

His plan could be said to be perfect. He had even infiltrated the command center, but God really was not on his side.

Yu Tian said calmly, "Everyone, there's no need to be so nervous. I've already said that if the bomb doesn't explode, we'll sit down and have a meal. Oh right, Chu Meng, call mcclane,

"I want to show him how I treat him? "I'm not like him. I feel like an animal..

Let him see what it means to be human!"

?Chapter 703 – Chapter 702, Only For Myself

Chu Meng quickly called Klein through the intelligence officer.

Klein didn't even look at the phone and immediately picked it up. He thought it was his higher-ups or the intelligence officer?

When Yu Tian's voice sounded, Klein frowned and stood up in surprise.

Yu Tian said indifferently, "Hello, Mr. Klein. Actually, I've wanted to call you for a long time, but I haven't had the time. Recently, I've been busy fighting with you. It's really a waste of timea€|"

Have you eaten? I'm preparing to eat with your people now. By the way, they're called the special attack team. The commander's name is Ernstrom. I think Mr. Klein, you must know this person..,

"Why don't we use some high-tech equipment to make a video?"

Having said that, Yu Tian hung up the phone and sent the video to mclean.

At that moment, the higher-ups of the underground command center were all surrounding mclean. All kinds of high-tech equipment were immediately turned on.

It was only then that mclean picked up the video request. The first thing he saw was Ernststrom and the others sitting at the dining table.

Yu Tian pointed the video at himself again and chuckled. "Hello, Mr. Klein. We meet again. I remember the last time we met, you were still begging me to help youa€| "

You have now become the highest CEO of the highest management department, but you are an ungrateful person. Have you forgotten how I helped you?

If you haven a€?t forgotten, you must have known how chaotic the Superstate was at that time. There were all kinds of armed forces, and each of them wanted to have their own territory,

there were also internal conflicts between the defenders and the attackers.

When they met, they were like enemies, wishing they could strangle each other to death. At that time, I provided you with a large amount of funds, now that I think about it, it should be more than ten billion. Furthermore, I provided you with most of the advanced weapons. That's Why Your Defense

Department was able to defeat all the enemies and allow you to become a Super

CEO.., am I not wrong at all?"

By the time he finished speaking, Klein's face was completely drained of blood.

This was because no one else knew what had happened. This was the contract that he had signed with Yu Tian in private.

Yu Tian had now told everyone about the secret contract in front of them.

When he saw the gazes of the surrounding higher-ups, he felt that they had begun to have doubts about him.

The higher-ups were indeed very confused and furious.

If Klein had really become the supreme president through Yu Tian, then he was waging a war against Yu Tian. If that was the case, then this person really had no humanity at all.

Even if he wasn't ungrateful, it was definitely not the right thing to do. And they were still helping Klein. This was aiding the wicked.

Even Ernstrom and the others in the restaurant looked at Klein with heavy faces.

Ernstrom even asked, "Mr. President, is what Yu Tian said true? Did you really become the supreme president with his help?"

Klein knew very well that if he said so, then the surrounding higher-ups would immediately beat him to death.

No matter what, he couldn't say that Yu Tian had helped him.

Therefore, he shook his head fiercely and said through gritted teeth, "He's talking nonsense. He's trying to sow discord between us. Don't fall for his tricks. Yu Tian is especially hateful!"

He would always use his status, identity, and strength to casually lie. He just wants us to have internal strife so that he can obtain benefits! "

However, Yu Tian laughed and said helplessly, "Klein, what do you want me to say about you? You Are Really Shameless!"

If you think I'm lying, then let me ask you, even if I don't say these words, do you think you can win this war? Don't forget, you started the war first, and I was only forced to defend myself..., will my words have any effect on this war? They have no effect at all.

If it must be resolved by force, then it must be done by force, and you are inferior to me in this respect, so why should I say these words?

I think each of you know, is what I said true or false? With my identity and strength, is it necessary for me to do this?

You can think carefully, when your civil war just ended, my industrial company and all my businesses in the superpower immediately opened up, and I did everything in my power to help you control the economy,

but there is one thing I can not do, that is to be like mclean, desperately make money, thus causing your inflation and economic collapse,

i have a file here. In the past month, mclean's savings in the international bank had exceeded 150 billion. You must be very surprised,

he was just a senior CEO, but his wealth now was even more than the super-thin and richest of you. This was the benefit of being the Supreme CEO,

and when your economy collapsed, he saw that he couldn't get any more benefits, so he made an excuse and wanted my industrial company to leave, because he felt that as long as my industrial company left your country and didn't do business there, he would take control of all the industrial companies in his own way,

in the end, the money he made would go into his own pocket. This was why he promised me that he would let me do business in your country without any restrictions,

after all that I've said, everyone should understand now, right? In fact, the people who deserve to die the most aren't the ones who started this war, nor are they the ones who used their lives and blood to fight on the battlefield, it's Mr. McClain beside you who started this war. The reason is very simple. He just wants to get more benefits and benefits,

"I really feel sorry for all of you. I even feel sorry for all of you. All of you used your courage to support such a Super CEO, yet you only think about how much you can carry in your pockets. Aren't you all angry?"

After a few more days of incitement, everyone looked angrily at McLean. As for the senior CEO of their assault department, he fiercely knocked on the table, "This is all real.. Is that what you think?" He asked angrily

?Chapter 704 – Chapter 703, Speak Up For Him

Although Klein was panicking inwardly, he was still a little fearless.

After all, he was still the supreme CEO. This was something they had acknowledged back then. Even if they wanted to overthrow him now, it wouldn't be so easy.

Therefore, he said disdainfully, "He's right. I did come to a contract with him, but so what? I'm still your Supreme CEOa€|"

You must listen to every order I give, and you can't Go Against Me. Don't forget that I, the Supreme President, now have a lot of people supporting me,

don't be influenced by Yu Tian's words. He just wants us to have civil strife, so that the fisherman can benefit. Have you forgotten? Although I started this war,

i just want our economy to recover and become the strongest in the world. I don't want to reminisce about how strong we were when we were talking about this,

we are still strong. For this, I can let each of you benefit the most, just like those rich people who supported us in starting this war,

"They don't care what contract we have with others. Everyone values their own interests. If you do something to make Yu Tian happy now, it will only prove that you are a bunch of idiots! "

The vice president was so angry that his teeth were itching, but he couldn't say anything useful. What Klein said was right. Now was the critical moment, and he absolutely couldn't let the world see a joke.

Even if this was unacceptable, he could only put it in his heart and wait for the war to pass before saying this.

Therefore, the vice president immediately said to the surrounding higher-ups, "Mr. Klein is right. Now is not the time for us to say this. Now, we have to win this war together..,

let the whole world know that we are standing together. At the same time, we will face all the challenges together. Yu Tian is our enemy after all. We can refer to what he said.. "But we don't have to take it to heart,

"When this war is over and everyone in the world sees how powerful we are, it won't be too late for us to talk about this!"

Although that was what he said, everyone's mood wasn't as enthusiastic as before.

Because of their doubts about Klein, everyone began to doubt whether this war was the war they wanted?

From the beginning of the war until now, they had always been at a disadvantage. Now, they had failed in their attempt to behead him.

Then, if they fought to the end, was it really possible to win the war? From the looks of it, it was unknown.

However, Ernstrom didn't think so. He had used his life to protect a person who had betrayed them. It was a great humiliation.

He immediately said to mcclane with hatred, "Mr. mcclane, when we received your order, the first thing we thought of was to give up our lives in exchange for our honor and yours,

"We never doubted your order. We always thought that you were our best senior CEO. We were willing to use our lives to protect you, but you were selling out our interests to earn your own benefits,

how can you do this to the people who have sacrificed their lives for you? How can you do this to the warriors who have bled for you in this war? You are simply a disgrace to us! "

Klein sneered and said unscrupulously, "Don't forget that this is your mission.

Even if I'm not the person you think I am, you have to carry out my orders...

"Now, you no longer have that honor. Not only did you not complete the mission I gave you, you even sat with Yu Tian. If I think that you are betraying us...

"I don't think anyone will object. Therefore, from now on, you are no longer the person we specially attack the Lord. You and your members, no matter what.., "We will no longer acknowledge you as our people! "

A tough man like Ernstom was so angry that his eyes were moist. He was filled with anger, but he couldn't say a word.

However, Yu Tian became even angrier when he heard that. He snorted coldly and said, "Michael, are you still a human? These people have risked their lives for you, but now you're abandoning them like trash...

if you do this, even an enemy like me won't be able to stand it. If you don't have these people to help you, what can you do on your own? In fact, you're nothing...

do you think that you're already very impressive as the supreme ceo? I can tell you honestly that you, the Supreme CEO, will soon be replaced by someone else,

if I Were you, I would think about it now, all the wealth, how to enjoy it, because you can not live in this world for long,

i do not need to talk nonsense with you, I just feel for those who die for you, they protect actually is such a supreme CEO,

"What you said today should really let your people see that the supreme CEO that they support, support, and love is actually such a good-for-nothing!" When he said this, Yu Tian didn't want to listen to him anymore and directly hung up the phone.

Ernst Lane was the one with the most complicated feelings right now. Now, it was actually his enemy who was helping him speak up. What Yu Tian said was what he wanted to say.

Yu Tian had said what was on his mind on his behalf, but was he really going to treat it as an enemy now?

However, he wasn't someone like Klein. Even if he wasn't doing it for Klein, he had to do it for their honor and the value of the special attack team's existence. Therefore, he couldn't thank Yu Tian.

Not only did he not thank Yu Tian, he even said, "You are a worthy opponent, but you are still my enemy. No matter who started this war, or how many people died under your cannon fire...

although I am no longer a member of the special attack team, I still want to avenge those who died! "

Yu Tian shook his head helplessly. This person was really stubborn.

He smiled and said, "You can think whatever you want. If you want to take revenge, I will accompany you at any time. However, I feel that you don't have the chance anymore. Don't misunderstand. I didn't say this to kill you"

"You can leave after eating. I just think you should know that I didn't start this war. and behind this war, I did a lot that you don't know"

"So I want you to live so that you can see with your own eyes who you should kill? "I think that must be my claim!"

?Chapter 705 – Chapter 704 Had Already Left

Yu Tian was a man of his word. After eating, he let Ernstrom and the others leave the command center.

There was no point in killing them. Just as Yu Tian had thought, the person who deserved to die the most was Klein.

Only when this fellow died would the war come to a complete end.

Yu Tian then teleported to the underground bunker in the superpower.

Before coming here, Yu Tian had also made careful considerations.

This time, he didn't just want to kill Klein. The people around him, those who had always advocated starting a war with him, also had to die.

Only by killing them all and those who had suffered during the war could they truly return to their original lives.

But when Yu Tian looked at the underground bunker in front of him, he felt that something wasn't right.

This was where the Supreme CEO was, so the defenses must be very tight. Not even a fly could fly in.

But in the underground bunker in front of him, there were only a few ordinary defenders. They stood there as if they were asleep and didn't feel nervous at all.

When he saw this, Yu Tian frowned slightly.

Could it be that Klein had already left before he came?

Instead of dwelling on it, he might as well go up and ask.

Therefore, he openly came to the entrance of the underground bunker.

When the few defenders standing at the entrance saw Yu Tian, they immediately became alert and pointed their weapons at him.

One of the defenders even shouted loudly, "Don't come any closer. Who Are You? What do you want?"

Yu Tian crossed his hands behind his back and smiled indifferently, "My name is Yu Tian. With such a resounding name, don't you all know me?"

The moment the defender heard that it was Yu Tian, his head buzzed.

One of the defenders was so scared that he almost drilled into the ground.

Now that Super Nation was at war with Yu Tian, the entire inland area had been completely sealed off. Not to mention humans, even a fly would not be able to fly over.

But how did Yu Tian Get Here? What did he want to do here?

After thinking about it, the few defenders felt that no matter what he was here for, he was now the enemy. If he was the enemy, he had to kill him.

Hence, the few defenders shot at Yu Tian without saying a word.

Yu Tian did not even blink his eyes. He just stood there and let them fight until they had enough.

After a few rounds of bullets had been fired, the defender was about to cry.

Was he still a human? Even if you were wearing a bullet-proof vest, at least you did not have a bullet-proof helmet on your head. Why couldn't his bullets penetrate his skin.

Was this person Yu Tian? Why couldn't he be killed?

One of the defenders felt that the bullets might not be powerful enough, so he took out the grenade on his body and threw it directly at Yu Tian's feet.

He didn't need to care about the bullets, but he still needed to care about the grenade.

After all, he no longer had the chip in his body, so it couldn't provide him with a super strong defense.

Although his nameless cultivation method could allow his body to produce an extremely strong defense, and although the bullets couldn't penetrate it, if the grenade exploded, it was very likely that it would hurt him.

However, a grenade needed time to explode.

Yu Tian was very clear about this knowledge. When he was in the industrial company, someone had specifically told him about the time of the grenade's explosion.

Currently, most grenades in the world had an explosion time of five seconds.

In other words, there was enough time for him to dodge or throw the grenade back.

Of course, Yu Tian chose the latter. Since he was here, he couldn't just turn around and run away just because a grenade was thrown at his feet. If word got out, he would definitely become a laughingstock.

Seeing that the grenade still had two seconds to explode, Yu Tian kicked the grenade back.

The grenade landed at the feet of the defenders. The defenders were scared out of their wits and fell to the ground.

At the moment of the explosion, the earth shook and dust rose.

One of the defenders cursed in disgust, "Which idiot threw the grenade? At such a close distance, even if he didn't kick the grenade over, the explosion would have hurt us!"

"No wonder you guys are guarding the gate. You guys are a bunch of idiots.

You're only suitable to return to the countryside to feed the mules! "

The other defenders were especially angry. It was as if this guy was not guarding the gate.

At this moment, Yu Tian's figure had already passed by the crowd. With a few punches and kicks, he killed a few defenders. In the end, only the one who was cursing was left.

Yu Tian walked towards him, scaring him so much that he directly knelt on the ground. Since there was no one watching, even if he was expensive here, he would not be laughed at.

What was more important than his life?

From the moment Yu Tian appeared until now, he had initially doubted whether this person was actually Yu Tian. However, looking at it now, this person was definitely Yu Tian.

This was because the rumors outside were very true. They said that Yu Tian was a demon that could not be beaten to death.

When he saw Yu Tian today, why didn't the Bullets Pierce through him? If a grenade could not be killed, then what else could it be if it was not a demon?

In any case, he was an inhumane person.

Yu Tian clapped his hands and said proudly, "How is it? Do you think my fighting is okay? Especially that combination punch. Does it have a sense of impact?"

The defender hurriedly put on a fawning face and said with a sigh, "Wow, your fighting is simply too good to watch. You are simply a martial arts master, especially your combination punch!"

"That was a world-shaking fight. There will be countless aunties who will worship you. They will definitely swear to give birth to your children for the rest of their lives under your dashing and handsome looks. "

"But Sir Yu Tian, what are you doing here? "Are you here to beat US Defenders?"

This guy was really full of nonsense.

Yu Tian just wanted to scare him. It was best not to play tricks with him.

Otherwise, it would be his turn to use his combination punch.

But this guy really thought that he wanted him to flatter him.

With this in mind, Yu Tian smiled and said indifferently, "Actually, I came here to meet your supreme president, mcclain. You know about the war outside. It's really too boring right now!"

"With this time, Pm willing to take a shit in the toilet while watching human body movements. I don't want to waste this time with them, so now you tell me!"

"Is mcclane inside or not?"

The defender hurriedly replied, "Mr. Yu Tian, I think you're still a little late. Just an hour ago, mcclane and all the higher-ups left! "

Yu Tian frowned slightly. It seemed like his feeling wasn't wrong. mcclane had indeed left this place.

"Then where did they go? If you can provide me with useful information, you can leave this place alive! "

?Chapter 706 – : Chapter 705, The Battle Maniac

The defender's heart had long been torn apart. Even if Yu Tian didn't ask him, he wanted to tell him everything he knew.

However, he still wore a frown and said in pain, "I'm just a defender guarding the gate. I don't even have the chance to stand in front of Klein!"

How could they let me know where they were going? I've always been guarding the gate in this base, and I even have strong feelings for the gate. In the future, I want to marry the gate..,

therefore, they didn't take me away from here, nor did they tell us what to do. And we didn't know that you would come here, so what I want to tell you is that I really don't know where Klein is..,

"I only know that there are countless underground bunkers in the entire inland area. He could have gone to any one of them, so that's all I know!"

At this point, the defender felt that there was suddenly silence in front of him.

He slowly looked up and saw that Yu Tian had long disappeared without a trace.

Yu Tian really didn't want to listen to his nonsense, and he also felt that it was useless to ask her questions. Listening to him say those useless things was simply a waste of time.

It would be better to find Klein's hiding place through other means.

However, it might be a little difficult to do so. The defender was right.

There were countless underground bunkers here. Many of them were prepared for the Super CEO during special times.

Some of the underground bunkers were especially hidden. Only a handful of people knew about them.

This was also for the safety of the Supreme CEO, which was why they were so hidden.

Especially now that the war had broken out, the underground bunker became even more important.

But Yu Tian's considerations were also very comprehensive.

Although the underground bunker was hidden, Klein had to command the war, so there would be a signal sent out to the outside world.

If he could grasp this signal, he would be able to know his location.

After returning to Sean's command center, Yu Tian immediately called Chu Xuan to his side and discussed, "I went to the superstate at that time. I wanted to kill Klein, but he left early!"

As you know, the superstate had more underground bunkers than rat holes. It was very difficult to find Klein's immortal bunkers, so I wanted to see if you had any tricks up your sleeve

Chu Xuan knew what Yu Tian wanted to say.

However, she shook her head helplessly and said, "Although your idea is very good, it's useless now. This is because during war, many important signals are encrypted layer by layer,

"It's especially so for high-level signals like theirs. It's very difficult for me to detect them through hacker technology, or rather, it's impossible to detect them at all,

"If you want to know their location through this, there's only a 0.1% chance, and it's extremely time-consuming. Instead of counting on this, why don't you ask those secret service agents,

"Perhaps the information they provide you will let you know where McClane is, so don't count on me. Right now, I need to rest, take a shower, and eat all sorts of delicacies,

"It's best if you don't bother me at this time! "

At this point, Chu Xuan left without looking back.

Yu Tian bared his teeth and shook his head. He said helplessly, "Did this girl eat something wrong? Why does she look like she's delirious? I only said one sentence, and she gave me so much!"

"I'd better not provoke her in the future. If I don't understand, this woman will scold you to death! "

But now, if he wanted to find Klein, he really had to go through some special intelligence personnel.

Yu Tian had no choice but to teleport to superpower. This time, he met Monica directly.

Monica and thousands of refugees who had escaped the war were hiding in a university.

When Yu Tian appeared, the refugees were all furious.

They surrounded Yu Tian in the blink of an eye.

"You are Yu Tian. I know you. You started this war. We had a wonderful life, but you destroyed our home. How dare you come here?"

"He is right. You are a devil. Do you know how many people died in this war? Do you still have the face to stand here?"

"My family died in this war, and now I'm the only one left. You must pay the price for this! "

All of a sudden, there were all sorts of things to say.

Monica and the dozen or so developers tried their best to push the angry crowd to the back.

Yu Tian, on the other hand, had been looking at them indifferently, without the slightest feeling of anger.

This was because the anger of these people was understandable. After all, no one wanted to suffer so much in a war.

A war would also cause them to lose the most precious thing. This was the reason why they did not want to start a war.

Monica said loudly, "Can you all calm down? This war was not started by Yu

Tian. Haven't you heard of it? Before the war started a€|"

She had tried her best to avoid the war, but your Super CEO did not care about the opposition of the crowd and resolutely launched the war,

if he had you in his heart, he would not have given the order to open fire. Why do you think you guys are safe here? That was because Yu Tian had specifically given the order,

"Don't bomb this school. He also told me to accept as many refugees as possible and provide you with food, medicine, and a safe shelter,

"Otherwise, do you think this school will survive the war?"

Everyone calmed down a little, but there were still some people who were particularly angry and didn't appreciate the kindness at all.

They continued to curse loudly.

"We don't care about what he did, and we won't thank him. If this is his shelter, then we will leave this place!"

"Even if you provide us with shelter, it won't wash away the blood on your hands, You War Maniac!"

"It's better to let us disappear during the bombing so that we don't have to bear the pain of losing our loved ones. Yu Tian, you are too cruel. During the war, you should have fought the defendersa€|"

"Why are you attacking US civilians?"

Monica wanted to continue speaking, but Yu Tian stopped her.

He took a step forward and said expressionlessly, "I can understand your current feelings because no one wants to lose their loved ones. But what I want you to do now is not to thank mea€|"

"You have to think calmly. At that time, your defenders didn't have a fixed battlefield. They were hiding among you and using you as hostages to threaten my mercenariesa€|"

Initially, my mercenaries did not want to kill you. However, those defenders used you as a shield and killed many mercenaries.. Is this what you are talking about? Shouldn't the war use civilians?"

?Chapter 707 – : Chapter 706, She Had A Skill

Monica immediately gave her developers a look, telling them to get ready to take action.

These refugees were very impulsive right now, and it was very likely that they would launch a violent attack.

She was not worried that these refugees would attack Yu Tian and cause any harm to Yu Tian, but she did not want Yu Tian to hurt these people.

She knew very well that if Yu Tian attacked, these people would have no chance of survival.

Now was the time of war, and Yu Tian was their enemy.

Even if they killed them, no one would say anything.

Therefore, she signaled to her subordinates that if Yu Tian was really anxious this time, they would stop him no matter what.

Yu Tian did not feel angry at all. It was not worth it to be angry with these people, and there was no need for that.

These people were already very pitiful. They were hiding from the war here, and only they themselves knew the pain and loneliness.

Therefore, Yu Tian just smiled indifferently and said, "You should know that after the war started, my people were always in the coastal areas. I also gave them the order not to attack the inland areas,

"If you want to stay here and avoid the harm caused by the war, don't talk nonsense with me. If you don't want to stay here, you can leave at any time. No one will stop you!"

Everyone immediately fell silent.

If they left this place, where else could they go?

Monica said in a low voice, "Now all the places outside that can provide food and medicine have been closed. If they leave this place, they might be killed by those gangs! "

Yu Tian knew that this would happen, and he also knew that these people would not leave this place easily.

Compared to their lives, they would definitely weigh their anger.

Everyone went from silence to helplessness. In the end, they quietly retreated into the classroom or went somewhere else.

The war had made them lose their basic courage, so they could only stay here.

At that moment, Yu Tian and Monica came to the kitchen. Yu Tian looked at the simple porridge-like food and said in a low voice, "I didn't come here for the refugees at all..,

"To be honest, their lives have nothing to do with me. I just want to know where that bastard, McClane, is hiding right now? "Can you help me with this? "Otherwise, the refugees here will have to eat this thing all the time! "

As he spoke, Yu Tian picked up a bowl of porridge, took a sip, and spat it out.

"This damn thing is even harder to swallow than the potatoes I ate in the countryside. Can't you find anything else to eat here?" Yu Tian looked at Monica helplessly.

Monica shook her head and said, "This is the only food we have. There isn't enough to eat. Before the war started, the economy had already collapsed. If it wasn't for your industrial company providing some resources€| "

"Who knows how many people will starve to death here. After the war, the food shortage became even worse. The only food was snatched away by the people from the Defense Department. It's hard on these refugees! "

Monica's eyes were filled with sorrow.

However, Yu Tian did not feel anything. Who asked them to be so pretentious?

He could have helped them, but now he did not want to.

Especially those refugees. If you helped them in the front, you would be able to throw poop on your face.

At this moment, a young girl who was about Monica's age walked into the kitchen. She looked at Yu Tian shyly and said in a low voice, "Monica, we don't have enough medicine€| "

"Many people need antibiotics. There are also a few injured people who need medicine to stop the bleeding!"

"Ilinka, you came at the right time! "

Monica held onto Ilinka's hand and walked towards Yu Tian.

Yu Tian was in a good mood when he saw a beauty. He chuckled and said, "Ilinka, how old are you this year? Do you have children?"

This made Monica so angry that she almost spat on him.

What was this? Asking her if she had children when they met? If she didn't have children, why did she want to have one with her?

She glared at Yu Tian angrily and said, "Irene is the best tracker among developers. She will definitely be able to help you! "

Yu Tian was a little puzzled. This Irene looked weak and weak. How could she be a tracker?

The trackers among the second generation developers were similar to dogs.

They could find the target based on smell or other traces. It was very powerful.

If Eilinka's tracking skills were good, she could really help him.

At this moment, Eilinka was so nervous that she didn't even dare to look at Yu Tian. She had always worshipped Yu Tian. She always wanted to have a chance to stand in front of Yu Tian.

Now that her dream had come true, she was so excited that she could not even say a word. It was really embarrassing.

She did not speak, but Yu Tian chuckled and said, "Why? Am I that handsome?"

You Can't even speak after seeing me?"

Irene kept her head down and said in a mosquito-like voice, "No, Pm a tracker.

Yes, I think I can help you, if you are willing to let me help!"

Yu Tian laughed, thinking that this girl was really interesting.

He added, "I'm not a god, so I naturally need help from others. Now, I need to know the position of the Supreme CEO, Michael Klein. Can you help me find him?"

She nodded vigorously.

"I'll do my best to help you, but can you help us first? We need food and medicine here. I know you can definitely solve these problems, because you're the Super Invincible Yu Tian! "

This flattery made Yu Tian feel especially good.

Super Invincible Yu Tian. He had always had this idea, but it was not so easy to achieve now.

As for helping them, Yu Tian shook his head and said, "The entire super country's economy had already collapsed before the war. Now, there is no other way to help them except to end the war..,

"Even if I can help them once, can I help them forever? "Moreover, I can't help everyone. The most important thing is that even if I help them..,

"These guys will turn around and come to kill me. Moreover, they will do it with flashlights and kitchen knives. I will never help those who try to attack me at all times. Just give up!"

Everyone felt that Yu Tian's words made sense.

Those people were ungrateful people to begin with. With Monica helping them so much, if there was even the slightest mistake, they would complain like it was their turn.

Irene could only nod helplessly and say, "Then let's go find the Supreme CEO now?"

?Chapter 708 – Chapter 707, Aura Analysis

It was understandable that Irene wanted to help the refugees, but Yu Tian felt that there was no reason for her to do so.

There were so many people in the super nation. Even if they helped, how much could they help?

After all, this was a war, not a regional conflict. Although he looked relaxed now, if there was a need, he would definitely give the order to attack.

At that time, not to mention the refugees, even more innocent people would lose their lives in the attack.

Therefore, what could really help them was to find Klein as soon as possible. As long as they killed him, the war would naturally end.

Perhaps Irene's tracking skill could really help him at that time. Otherwise, it would take an unknown amount of time to find that pretentious person.

At this time, Irene was still looking at Yu Tian shyly. This was also helpless. who asked her to like Yu Tian So Much in her heart? Even if it was just a look from Yu Tian, a breath from him.

It would make her feel especially nervous. This was love. It was always so refreshing.

However, this girl was a little engrossed in looking at Yu Tian. She couldn't even speak.

Yu Tian felt a little helpless. You can look at it, but if you really can a€?t, you can just get a room or something. But you have to speak. You Can't just look at yourself without blinking. What is this called.

Thinking of this, Yu Tian said helplessly, "Sister, let me discuss with you. Can We do something serious first? As long as you help me find that idiot, mcclane, Pll let you look at him until you're satisfied, okay?"

"You have to tell me now, where do we start? You're always looking at me so stupidly. Do I have mcclane on my face?"

Elinka also felt a little embarrassed. She hurriedly adjusted her mood and calmed herself down. Then, she slowly said, "I have to go to the place where he stayed before..,"

"If I can't sense his aura, I can't use my tracking skill! "

Yu Tian chuckled and said indifferently, "Isn't it Easy? Come with me! "

As he spoke, Yu Tian turned on the teleportation device and brought Irene to the underground bunker.

The defenders guarding the gate were badly bruised this time. When they saw Yu Tian coming back, they were so scared that they almost hit their heads against the wall and fainted. It was better than being crippled by this f \* cking

Yu Tian.

The commander of the defenders came up to Yu Tian with a sad face and said respectfully, "Why are you here again? Didn't you leave?"

Do you think beating US is more satisfying? Do you want to beat us again?"

Really, don't beat US anymore. We really can't hold on. It really hurts! "

Yu Tian glared at him with disdain and said indifferently, "Who said Pm here to beat you up? I just want to take a look at this base. Can't I?"

"If you insist on stopping me, then I won't be polite to you! "

The commander directly hid at the side and immediately made an inviting gesture without saying anything else.

At this time, what was there to stop? Not to mention taking a look at the base, if he liked it, he would even blow up the base. As long as he didn't beat them up again, it would be fine.

Compared to that, the pain was really unbearable. Let Yu Tian take a look.

Anyway, there was nothing in the base now. This was originally a very ordinary underground bunker. It was used to give refuge to the senior managers during the war.

Now that the senior managers had all left, there were only some rooms left in the base, as well as a dining room and conference room. Could it be that Yu Tian wanted to stay here for a night?

Yu Tian didn't waste any more time with them and brought Irene into the base.

The underground bunker wasn't very big, only about a thousand square meters, but the rooms and functions were especially complete.

Yu Tian whispered to Irene, "You can begin now. As far as I know, this is where

Klein stayed before he left. You should be able to sense his aura from here! "

Irene nodded. As long as there was that person's aura, she would be able to sense it.

However, she still said, "I need some time to distinguish those auras, because there's not only Klein here. The auras of other people will also be mixed in. I need to find Klein's aura from these auras€]"

Therefore, it might take some time, but I'll be faster. It shouldn't be too long

Since Klein was no longer here, it was fine to waste more time. Even if he didn't have time, he could still find a few more places.

At that moment, Irene had already activated her skill. She first sniffed the air around her carefully, then slowly closed her eyes and began to analyze the air in her mind.

Of course, this information was only left behind. It was still quite difficult to discover Klein from it.

That was because she herself didn't know what Klein's aura was like.

That was because she herself didn't know what Klein's aura was like.

Yu Tian had the same question, so he asked softly, "Have You Seen Klein before?"

Irene shook her head and said, "I've never seen him before! "

"Then how do you know which of the auras in the air is his?" Yu Tian followed up with a question.

"It's not that difficult! "Irene said proudly, "Because Michael is the supreme CEO, he has a bit of a domineering aura about him€]"

"So his aura is different from others, and many of the other people's auras are out of respect, so their auras look very weak. I just need to find the most domineering one among all these informationa€| "

"I'll be able to know about Klein's Aura!"

This little girl was quite smart. Yu Tian nodded in satisfaction and asked, "Then, even if you know about Klein's aura, how are you going to find him in the future?"

Elinka smiled smugly and pretended to be mysterious. "I won't tell you now.

You'll know in a while!"

Looking at Elinka's sweet smile, Yu Tian felt especially romantic.

Elinka's pure beauty was indeed the type she liked. This feeling was like a date at the beginning of the night. It was especially romantic and gentle.

Just as Yu Tian's thoughts were running wild, Elinka had already analyzed Klein's aura.

She said with certainty, "I've found information on mcclane. Now, we have to leave this place and go to another city!

Yu Tian frowned slightly. She had some doubts in her heart, but she decided to follow her to take a look first..

?Chapter 709 – Chapter 708 Was Especially Exciting

The city that Irene was going to was located in the middle of the entire superpower. It could also be said to be the central region of the superpower.

Yu Tian looked at the map and immediately understood why Irene was here?

Because this was the central region, it could radiate in all directions. With Irene's tracking skill, she could cover a large area and quickly find Klein's location.

When she thought of this, Yu Tian was somewhat surprised.

Irene's radiation ability could actually reach thousands of kilometers. In such a large area, she could sense a person's aura. It seemed like her tracking skill was indeed very powerful.

Just as Irene was using her skill to search for Klein's aura, Yu Tian looked around at the city in front of her.

The city wasn't very big. It had a population of about a million people, and it wasn't very prosperous.

After the devastation of the war, the city had become even more desolate. There weren't many people on the main road outside.

The shops on both sides of the road were almost closed. It was unknown if there were still some homeless people looking for food in fear.

But judging from their disappointed expressions, their idea was impossible to achieve.

Not to mention homeless people like them, even normal citizens now had food that was very precious to them.

This was a city that was about to be forgotten. Even if it was a superpower, the economy here was not very good when there was no economic collapse. Now, it was even worse.

At this moment, the sound of weapons firing could be heard in the distance.

Following that, two groups of armed men were engaged in a fight not far away from Yu Tian.

Yu tie could not tell who these two groups of people were and what they were fighting for. He only saw those poor vagrants jumping under the viaduct in a panic to avoid these people.

A few homeless men had their legs broken, but they still ran with all their might, as if the people who opened fire were devils.

The voice also disrupted Irene's thoughts. She slowly opened her eyes and asked in a low voice, "Who are those people? Why are they killing each other?"

Yu Tian chuckled and said indifferently, "They are people who have lost their humanity. I Won't even consider why they opened fire and why they are fighting here.

"The answer is very simple. It's either for food or for profit. This is the best reason to fight in the human world. We just need to take a look. How's the search on your side? Have you found Klein's Aura?"

Irene shook her head helplessly, she said with some guilt, "Not yet. Because the area is relatively large, my mind can only search 100 square kilometers at a time, and it's 560 square kilometers in all directions,

"If I want to search the entire super nation, not only will I need time, but I also need energy. Using my will to conduct a radiation search will consume a lot of energy. I already feel hungry. Do you have any food with you?"

This was acceptable. After all, a person's will was limited. Energy was the most direct supply of the will. Without energy, it would be impossible to use it for a year.

At certain times, after using the mind, one would also feel very hungry.

"Isn't it easy to eat?" Yu Tian smiled confidently. Then, he opened the teleportation device and brought Elinka directly to Sean.

The world was under his feet. He could go anywhere he wanted.

Yu Tian felt that he was really blessed by God to be able to obtain such high-tech technology.

Sometimes, one had to learn to be grateful and not just take things for granted.

Just like the teleportation device in his hand, he could bring Elinka to eat the best western food when she was hungry.

Elinka would feel especially surprised every time, especially this time.

Moreover, Yu Tian's teleportation device had given her a lot of imagination.

If only she could be like Yu Tian and go wherever she wanted to go, how great would that be.

Yu Tian cut a lot of delicious food as a form of consolation for Irene.

While Irene was enjoying the delicacies, she said to Yu Tian guiltily, "Superpowers nowadays can't even eat such food. Perhaps only those with high costs can enjoy it! "

Yu Tian was very disdainful as he snorted coldly and said, "This is the reason why Klein has to be the highest CEO. It's because he can get what others can't get and enjoy what others can't enjoy!"

It was just like this war. If it weren't for Klein's consideration of his own interests, this wouldn't have happened. Perhaps everyone would be quietly enjoying life..., but now, it's like the end of the world for them!"

Irene nodded and felt that what Yu Tian said made sense.

With Yu Tian's current height, he naturally had an understanding of the world. Compared to Yu Tian, he was too short-sighted. At the very least, he couldn't see the direction of future development or the new world structure.

However, this wasn't a problem that he should consider. Now, all he had to do was help Yu Tian find Klein and end the war.

With this in mind, Irene said with a smile, "We might have to stay in Wright for two days. We also have to prepare sufficient food and drinking water. It would be best if we have a tent..,

"I want to use these two days to quickly find Klein's location. If everything goes smoothly, I'll probably know where he is by this time Tomorrow Night! "

The Yu family nodded. They knew that Irene was in a hurry to help them, so they comforted her. "Eat first. There's no need to rush. I'm very confident in your skills. I'll go buy those resources later, then, we'll go to Wright! "

It had to be said that Yu Tian's EQ was exceptionally high. Irene felt that she had accomplished a lot talking to Yu Tian, and she also felt very happy.

No wonder so many women liked Yu Tian. This was Yu Tian's charisma, wasn't it.

After eating, Yu Tian also prepared those things. The two of them returned to Wright.

However, what made Yu Tian somewhat helpless was that the previous battle had already developed into a regional war. The people on both sides had invested a large number of people, all sorts of weapons, attacking and hurting each other.

Eilinka felt especially terrified. She tightly grabbed Yu Tian's arm and said in a low voice, "Yu Tian, I'm very scared. We should be in the so-called rain of bullets right now, right?"

Yu Tian nodded and laughed, "You're right, but this is so exciting! "

No data found.

?Chapter 710 – Chapter 709, Ghosts

Yu Tian felt that this scene was particularly exciting. He was waiting here anyway. Rather than wasting time, it was better to watch them and harm each other.

He didn't want to get involved in the fight. At most, he would just watch the show.

Now, he had to comfort Irene. At the very least, he couldn't let the Girl Feel Afraid, which would affect his ability.

Thus, Yu Tian added, "With me here, you don't have to worry. Even if someone throws a nuclear weapon, it won't hurt you. I'll set up the tent first, and you can continue to search for Klein's aura,

but we have to be quick. At least, we have to find Klein before those people discover us!"

Yu Tian reassured Elena, and she calmed down a lot. Indeed, with Yu Tian by her side, she didn't have to be afraid of anything. She just had to do her job well.

Thus, he immediately activated his skill and started searching.

Yu Tian set up his tent while watching the people not far away attacking each other.

They were fighting quite fiercely, and they didn't want more people to join in.

Fortunately, he was upstairs in a building. If he didn't take the initiative to show off, they wouldn't be able to see him.

Even if they saw him, there was no need to be afraid. In their eyes, these people were just like ants.

However, everyone had a different fate. Or, the things they fought over there might be more precious than their lives.

This might be their pursuit. It was as if the current Yu Tian was also pursuing something.

But soon, Yu Tian felt that something was wrong.

Those people seemed to have heavy weapons. After the buzzing sound came from afar, a few tanks also drove over.

When he saw this, Yu Tian frowned slightly.

This was no longer a regional conflict. This was a war of life and death.

Moreover, it was obvious that those tanks and heavy weapons were only owned by the defenders. Looking at these people's attire, they were all civilians. It was impossible for them to have these weapons.

If that was the case, there was only one explanation, and that was that there were defenders who had broken away from the orders of the Supreme

Management Department and wanted to be the king here.

The Supreme Management Department had also taken back most of their equipment. They were doing this now because they were fighting for their own territory.

At this moment, the tanks on both sides began to attack each other. The sound of explosions rose and fell.

Suddenly, a cannonball landed on the building under their feet.

The entire building trembled.

It Scared Eilinka so much that she immediately opened her eyes and hugged Yu Tian's arm tightly.

Yu Tian was a little angry at this moment. He was just watching the show. was there a need to bombard him with cannonballs?

Although this was not intentional, Yu Tian did not want them to affect him.

Thinking of this, Yu Tian said to Eilinka indifferently, "Continue your search here. Leave those people to me. If I don't show them some strength, they will really think that there are no experts here! "

After saying that, Yu Tian directly jumped down from the building.

His speed was as fast as lightning. Eilinka felt that in the blink of an eye, Yu

Tian had already rushed into the crowd.

Because those people were fighting so noisily, they did not notice that someone had already snuck into their midst.

Yu Tian did not show any mercy to them. With a wave of his fists and legs, he knocked down a group of people.

At this moment, someone noticed Yu Tian's figure and asked in shock, "What is that? Is My Eyes playing tricks on me? Why is his speed so fast? He seems to have killed many of our people! "

A man with a full beard also frowned, but he could no longer see Yu Tian's figure.

However, what shocked everyone was that a tank in the distance flew into the air.

This scene shocked everyone on the battlefield.

When the tank landed on the ground and exploded with a loud bang, everyone was scared out of their wits.

That was a tank, not something else. How could it suddenly fly into the air?

At this moment, the bearded man said coldly, "Order our people to retreat immediately. Do you know what this is? This is the battlefield ghost! " When everyone heard this, cold sweat dripped down their cheeks.

They had all heard of the legend of the battlefield ghost.

But they had never seen it with their own eyes.

It was said that the battlefield ghosts could only be seen in places where large-scale battles were taking place.

These ghosts did not care about good or evil, they killed everyone they saw.

Moreover, they were immortal and possessed extremely powerful strength.

Just like this figure, he could actually throw a tank into the air. It was impossible for a non-battlefield ghost to do so.

No matter how powerful their weapons were, they were not worth mentioning in front of the battlefield ghost. Even if they used nuclear weapons, they would not be able to kill the battlefield ghost.

This was because it was an evil spirit condensed from people's hatred and anger. As long as there was a place for war, there would be a war ghost.

Under the bearded man's order, the person with the red cloth on his arm quickly retreated. Even under the enemy's artillery fire, he did not turn his head back.

The commander on the other side of the battlefield looked coldly at the retreating crowd. He was extremely puzzled.

According to their strength, the people on his side were inferior to the people on the other side. He was just holding on.

But why would they suddenly retreat? What exactly happened?

At this moment, a series of miserable screams came from behind the commander.

The commander suddenly turned his head and saw a white figure shuttling through the crowd like a ghost. Every person he touched was covered in blood in the blink of an eye.

He said in fear, "What is this? Is this the reason for Tugar's Retreat?"

A middle-aged man standing beside the commander said coldly, "Commander Benjamin, I think we should retreat too. That thing is called the battlefield ghost!"

Benjamin laughed and shook his head. He said nonchalantly, "Battlefield spirit, how is that possible? It's just a legend. Do you really believe that he

The middle-aged man shook his head helplessly and said coldly, "I don't want to believe that he exists either, but I have no other reason to explain what that white figure is a€| "

"Furthermore, our people are still falling one after another. If we continue to die like this, it will be very difficult for us to fight against Tokar.. Hence, my opinion is to retreat immediately! "

# **I Have 108 Older Sisters #Chapter 711 - Read I Have 108 Older Sisters Chapter 711**

?Chapter 711 – Chapter 7010, The Cry Of The Ghost

The middle-aged man's words made Benjamin's heart ache.

Regardless of whether the war ghost was real or not, at least many of his men had already died.

If they continued to persevere, more people might die.

Therefore, it was better for him to give the order to retreat. After all, Tugal's side had already retreated.

Who was he going to fight if he stayed here?

Therefore, he immediately gave the order and all the people immediately retreated.

Meanwhile, Yu Tian, who was standing opposite him, was frowning as he looked at the scene opposite him.

He was extremely puzzled. He had not even thought of going over to fight them. Why was he so afraid of retreating?

Could it be that they had discovered him and recognized him as Yu Tian, scaring them into retreating?

However, this was obviously impossible.

Just as Yu Tian was feeling puzzled, a white figure suddenly streaked across the sky.

When Yu Tian saw that figure, he felt his scalp go numb.

That was because that white figure looked like a ghost wearing a long robe, and it was even faster than him.

What on Earth was that thing?

Yu Tian felt that it was a little interesting. If this figure was an expert, he could play with it.

Thinking of this, Yu Tian ran in the direction that the white figure had disappeared and chased after it.

Yu Tian maximized the speed of his feet, almost reaching a speed of over a hundred kilometers per hour.

However, after chasing for a full ten kilometers, he still did not see the white figure.

Yu Tian rubbed his forehead and narrowed his eyes as he pondered.

In this world, it was impossible for someone to be faster than him.

It was not that he felt that his speed was faster than a human, but at least his speed was not much slower than that of the black figure.

However, he could only watch as he disappeared right before his eyes.

It was interesting to think about it.

There was no need to rush to find him. If he was an expert, he would still appear. It wouldn't be too late for him to compete with him then.

It was better to find Klein first before anything else.

With that thought in mind, Yu Tian looked up at the sky. It was already evening.

As Yu Tian walked back, he always felt as though something was following him.

Every time he looked back, he did not find anything.

Yu Tian would never believe that this was his illusion. There must be someone following him.

Since he did not want to show himself, he would let him show himself. He wanted to see who this expert was.

As he walked, Yu Tian suddenly walked into a ruin. He held his breath and watched quietly.

He wanted to see who was following him.

At that moment, Yu Tianbing looked outside calmly, but there was no one around him.

This was impossible. His feeling was not wrong. There must be someone following him.

Now that he did not show himself, it meant that he had discovered his intentions and was deliberately fighting with him.

In that case, there was no need for him to continue hiding here. He might as well be more generous and return to the building first.

When Yu Tian walked out of the ruins, he felt that the person was following him again.

But this time, when Yu Tian turned around, he didn't find anything.

After returning to the building, Irene was still searching for Klein's aura.

Yu Tian didn't want to disturb her, so he sat in front of the tent and lit up the alcohol stove. He was prepared to prepare some food for Aileen to eat when she was hungry.

At that moment, it was already completely dark, but the entire city was in darkness.

It looks like the power plant nearby has been destroyed. Otherwise, the power supply wouldn't have been cut off

Realizing that he was here, Yu Tian still turned off the alcohol stove. But at that moment, Yu Tian suddenly heard a faint sound of breathing close to him. Yu Tian suddenly looked in the direction of the sound, but there was nothing.

Until now, Yu Tian's heart was a little tense.

Could there really be a ghost here?

Yu Tian definitely wouldn't believe that there were ghosts in this world. The best analysis was that this might be a developer who could turn invisible.

Thinking of this, Yu Tian laughed and said coldly, "It's better not to hide. I know that you're close to me. Why Don't you sit down and have a cup of coffee? There's no need to be so nervous"

I don't want to fight with the two of you, at least not yet!"

As he said this, the surroundings suddenly became deathly silent, and the sound of breathing never appeared again.

Yu Tian frowned tightly. Could it be that that person had already left?

How was this possible? No one could come and go freely under his nose.

Thinking of this, Yu Tian immediately called Irene to his side.

As Irene had used her skill, her face was full of fatigue. She said weakly, "I also need to rest for a while. who were you talking to before?"

Yu Tian was afraid that Irene would think too much, so he laughed and said, "I seem to have found an expert. He might also be invisible. According to my speculation, I think he should be a developer!"

"So I need you to search for his aura to see if he is a developer or not." Irene ate a can first to replenish her energy.

Then, she began to activate her skill to detect the aura around her.

Soon, she opened her eyes and said strangely, "Are you sure there is someone around? But there is no one's aura around except for yours and mine, this means that there's no one around us!"

Yu Tian grinned and laughed, "If there's no one around, then there must be ghosts. Do you believe that there are ghosts in this world?"

Eilinka nodded and said seriously, "I believe that there are some ghosts in this world, but now that this place is so dilapidated, even ghosts will cry!"

Do you think that there are ghosts around us?"

Who knew? Anyway, from the previous scene, if it wasn't a ghost, it definitely wouldn't be a normal human.

Yu Tian didn't share his thoughts with Irene because he didn't want her to feel pressure that would affect her ability.

Therefore, he smiled and said, "I don't believe that there are ghosts in this world. If it's said that a person has a soul after death, then I do believe it. But this has nothing to do with us. Let's find Klein First!"

Eilinka nodded. She felt that it was indeed inappropriate to talk about ghosts and ghosts in the middle of the night, so she chuckled and continued to work.

Yu Tian's gaze also looked around coldly. The ghost must still be by her side..

?Chapter 712 – : Chapter 7011 Was Just A Legend

Yu Tian waited until midnight, but he didn't notice anything strange in his surroundings.

He was almost certain that the ghost had already left.

Yu Tian felt that it was especially boring. He had originally hoped to have a showdown with this ghost so that he could be happier.

But that ghost was a coward. He didn't even have the guts to show his face. Even if he was an expert, he was just an ordinary expert.

At this moment, a voice came from not far away.

Yu Tian looked towards the source of the voice. It was the militants from the day. They were here to bring back their comrades who had been killed.

Their actions were very cautious. After taking a few steps, they would discuss in low voices.

With Yu Tian's current hearing, although their voices were very low, they sounded very clear.

At this moment, they could be heard saying, "Tukar said that the one who appeared during the day was a battlefield ghost, a particularly terrifying existence. He was not human at all, he only appeared in places of war!"

Another person laughed coldly and said, "The battlefield ghost is just a legend.

You guys can't really believe that there are ghosts in this world, right? I believe that this might be an expert sent by Benjamin's side!"

After all, we have been fighting this war for half a month, and both sides suffered heavy losses. Before Benjamin declared his independence, he had created these special inventions in the Defense Department, no one can say whether the monster that appeared was invented by it!"

"But the thing that appeared during the day was really too strange, and when I was retreating, I also noticed that Benjamin's side seemed to be retreating, and many of his people died!"

"If it was developed by him, how could he kill his own people, so I still believe that this battlefield ghost exists!"

"Alright, everyone, let's not scare ourselves with legends, those were just some people from back then who did not want to stay on the battlefield to be tortured, so they created such a rumor about the war ghost!"

After all, this is also a very good excuse, isn't it? If there was a place where the war spirit existed, no matter who it was, they would have to be killed. This was the reason why they avoided war,

if it were me, I would say the same thing. But now is not the time to talk about this. Let's bring those pitiful fellows back!"

After the few of them finished discussing, they immediately started working.

Yu Tian listened with some ambiguity. What exactly was a war ghost?

Why did these people seem to be afraid of this thing? Could it be that the thing that had been following him previously was a war ghost?

The more Yu Tian thought about it, the more strange he felt. Thus, he took out his phone, connected to the Internet, and began to search for information on the war ghost.

However, there was no information on the war spirit in the huge database.

Yu Tian sighed slightly, and the voice of the artificial intelligence sounded in his mind.

"Yu Tian, I know what you're looking for. You Don't have to waste your time on the Internet. I can give you the best answer. The war spirit they mentioned does exist! "

Hearing this, Yu Tian didn't say that he didn't believe it, but he still smiled disdainfully and said in a low voice, "It seems like you know a lot. Then tell me, what exactly is this war spirit?"

The artificial intelligence sighed helplessly and said, "There are too many things that you haven't seen, but just because you haven't seen them, you can't think that they don't exist. "

For example, this war spirit, this isn't just a legend, it's also a fear of the people. It's precisely the fear of the people that makes them exist,

in the past, this country liked to start wars everywhere, and during wars, the people would become numb to it, and they would even treat killing as fun,

and every innocent person that they killed would have a great resentment. When these resentment gathered together, a large number of strange phenomena would appear,

twenty-seven years ago, there was a special attack group called the ghost.

They had a total of seventeen members, all of them elites among elites. Each of them had extraordinary combat strength,

the missions they carried out had never failed. But one day, they received an order from the highest management department to head to the desert area to assassinate a very important figure,

these people were ordered to come to the desert area. After a few days of waiting, their target finally appeared, but just as they were about to make a move., the target suddenly laughed at their commander,

when the commander of the Ghost Special Attack Group saw this person's smile, he immediately understood that they were already surrounded, and it would be difficult for them to break out,

however, they believed that they were the best attackers and could not easily say the word failure at any time. Even if they really failed, they would still use their lives to defend their honor,

hence, they started fighting with these people. At the beginning, they still had the upper hand and beat the armed personnel until they could not even raise their heads,

however, as their ammunition ran out, their combat strength began to drop rapidly. As the armed men gathered more and more people, they had no choice but to retreat,

after using their only ammunition to fight their way out, they walked into a village. There was a total of more than 100 people in that village. If not for their arrival, this village would have enjoyed a quiet life for a lifetime,

however, with their arrival, the entire village became a battlefield. The members of the Ghost Special Attack Group used the innocent civilians as their shields,

at this time, the oldest person in the village told the commander of the Ghost Special Attack Group not to hurt any of them because there was an ancient curse buried in this village,

they were here to protect the curse and not to let it leak out. If any one of them was killed, the curse would be broken and countless people would be killed,

however, the ghost commander felt that this was a fantasy. There was nothing in this world that could compare to their weapons. There was no weapon that could kill monsters that could not be killed,

therefore, the commander killed the old man. This strange scene also appeared. The members of the Ghost Special Attack Group went crazy one after another, everyone seemed to have seen the most terrifying thing in this world as they shouted loudly. Meanwhile, the commander of the Ghost Special Attack Group slowly lost his rationality. At this moment, an even stranger scene happened,

"These people suddenly became quiet again and their bodies began to slowly disappear! "

?Chapter 713 – Chapter 712, The Desired Expert

When the AI said this, it felt strange for a day. First, what kind of curse was there in that village?

Second, was that village really there?

Thus, he immediately asked, "You've told me so much, but I don't know if it's real or fake. If that village had some high-tech equipment, perhaps I can still believe it..,"

but what curse did you say that village has? I Won't believe it even if you beat me to death. How can that thing exist in this world?"

The artificial intelligence explained, "If you haven't seen it, you can't deny its existence. It's like there are many people in this world who don't believe that you exist,

this is the most basic logical thinking. Do you want to waste your time arguing with me because of this? "You can continue listening. In the end, you can consider whether this is true or not!"

Of course, Yu Tian had to continue listening, because it was very likely that there was such a ghost beside him. Although he did not believe that they would exist, that was just words.

The artificial intelligence added, "After those people's bodies disappeared, the entire village disappeared without a trace overnight. No one knows where they went, and no one knows where they will appear."

The village was abandoned overnight. However, from that day onwards, regardless of which battlefield in this world, there was a rumor that there would be ghosts on the battlefield,

these ghosts did not differentiate between friend and foe. As long as they appeared, a large number of people would die. Later on, some people said that it was the curse of the gods that existed in this world,

"However, this doesn't mean that every battlefield will appear. It's mainly those that have lost their rationality. For example, the battle that appeared earlier..,"

"The people here have already started using innocent civilians to attack. Such heartless actions will naturally cause the ghosts to appear! "

When he heard this, Yu Tian felt a little impatient.

He said coldly, "Why don't you tell me something useful? How can I make this ghost appear beside me? I'm very sure that this thing is beside me."

"But now I don't know where he is?" "Do you have any methods to make him appear? I want to see what this ghost looks like! "

The artificial intelligence laughed and said, "In this world, there are many nameless experts. Every single one of them might be much stronger than you, but there is one thinga€| "

These experts could be seen. They did not know how to turn invisible or possessed lightning-like speed. Only the war spirits were everywhere. Even if they could really show themselves, you would not be a match for them,

this was because these people were cursed by the gods. This curse was a type of divine power. No matter what, you were just an ordinary person. Even though you had a very powerful cultivation techniquea€| "

"But in front of these ghosts, you will only get beaten up. If you really want to see these ghosts, I can help you! "

The more he said this, the more Yu Tian felt unconvinced. He originally wanted to challenge experts and then become an expert.

If the war ghosts were so powerful, wouldn't they be the experts he wanted the most?

It would be best if they could make him feel endless pressure. The more this was the case, the more excited he would be.

Hence, he asked excitedly, "Then quickly tell me, what method is there to make these spirits appear?"

The AI explained, "The benefit of this era is that we can use many high-tech devices to make the impossible possiblea€|"

Although those war ghosts existed with ancient curses, they were also a kind of material. As long as they were material, there would be devices that could sense their existence,

for example, a spectrum instrument designed by a laboratory in this country.

This instrument could collect all the life frequencies and material frequencies. As long as you could get this instrument..,

"You'll be able to see the war spirit. This laboratory is in this city, and it's not far from here. You'll be able to reach it in half an hour. I'll provide you with a detailed route, and it'll depend on whether you go or Not! "

Yu Tian didn't even think about it. He definitely had to go.

As long as he could see the war spirit, it was equivalent to discovering an expert. and the simplest method was to get his hands on this instrument. What was there to wait for?

Half an hour later, Yu Tian arrived at the entrance of the laboratory under the lead of the AI.

However, when he saw this laboratory, he was slightly disappointed.

The five-story tall building in front of him looked like it had long since been emptied out, and a lot of the windows had been shattered.

This place had already become like this, how could there still be an instrument?

The AI added, "Now that this place has become like this, it's definitely impossible for there to be anything that you want. Perhaps we can find something else and find out where that instrument is?"

"Why don't we go up and take a look? Anyway, we're already here!"

What the AI said made some sense. Since they were already here, they might as well go up and take a look.

Yu Tian kicked open the door and walked into the dark laboratory.

The power supply of the entire city had been cut off. It was the same here. Under the moonlight, he could only see the broken tables and chairs, as well as the bottles and jars used for experiments, as well as some abandoned electrical equipment.

He could not see any useful things. He searched several rooms, but it was the same.

Yu Tian walked to the second floor. It was supposed to be an office area before. The floor was littered with pieces of paper, tables, and chairs. There were also many bullet holes on the walls.

There had actually been a battle here before. Yu Tian could even see some blood stains on the ground.

Further ahead was an office. Yu Tian saw some useful things in the office, such as a broken computer.

Although the computer had been damaged, its storage device could still be used.

Yu Tian deftly removed the storage device. This was his biggest gain this time.

There was no need to look at other places. There was nothing valuable.

He immediately turned on the teleportation and returned to Eilinka's side.

At this moment, Eilinka had already found Klein's location. She said excitedly to Yu Tian, "It turns out that Klein is in Kane city. He's 2700 kilometers away in an underground bunker!"

Yu Tian nodded and said with great satisfaction, "Thank you for your hard work. I knew that I didn't choose the wrong person for you to do this job.. Now, we can go back! "

?Chapter 714 – Chapter 713, Ghost Attack

After returning to the school with Irene, Yu Tian immediately returned to Sean's command center and handed the storage device to Chu Xuan. He asked her to immediately restore the data in the storage device and see what was inside?

As for that mcclane, Yu Tian wasn't in the mood to kill him.

Compared to killing mcclane, the war ghost was the most worthwhile thing to spend time on.

If he wanted to kill mcclane, the war would come to an end. If he wanted to see the war ghost again, he would have to start another war. Otherwise, he wouldn't be able to see it again.

Wasting such an opportunity to challenge an expert would haunt him for the rest of his life.

Chu Xuan quickly recovered the data in the storage device. Other than some daily management reports, there were also some design drawings.

Although these design drawings were encrypted, to Chu Xuan, the encryption was like a child's game. It could be cracked at any time.

Then, Yu Tian ordered the engineering department to immediately make the equipment according to the drawings.

The production line of the R & D Center was the most advanced production line in the world. As long as there were drawings, anything could be made here.

And this instrument was made in less than an hour.

When the supervisor of the engineering department handed the instrument to

Yu Tian, he said with some self-satisfaction, "Actually, this is a very ordinary

X-ray scanner. When we made it, we made some changes to the drawings,

"Now, this equipment can not only scan many kinds of rays, but also analyze the rays and frequencies in the air. From there, it can be converted into thermal imaging, making it more convenient to use! "

When Yu Tian heard this, he felt very satisfied. He laughed and said, "When I invited you here, I felt that this was the right choice. Now, it seems that there is nothing wrong with it,

"All of you have made me feel extremely satisfied and gratified. Later, I will inform the commander of the research and Development Center and increase the benefits for all of you!"

The supervisor of the engineering department was so happy that he could not close his mouth. He said hopefully, "Thank you so much. As long as you are satisfied with our work, everything we have done is worth it. Thank you, Mr.

After the supervisor left, Yu Tian immediately took the equipment and returned to the ruined city.

Then, he turned on the equipment and began to search for all kinds of rays in the air.

Only then did Yu Tian realize that even if the city was ruined and there was no electricity supply, there were still all kinds of rays in the air.

Although he couldn't name these rays, some of them looked very interesting.

He wasn't here for fun. He wanted to immediately search for the frequency of the war spirit and let him conduct thermal imaging so that he could see him.

Yu Tian held the device and slowly walked through the ruins. At this moment, the device suddenly vibrated.

He immediately stopped, turned the frequency of the device to the maximum, and probed in all directions.

Right in front of him, a red figure suddenly appeared. This figure seemed to be watching him.

Yu Tian immediately took off his night vision goggles and looked up, but there was nothing in front of him.

He put on his night vision goggles and carefully looked forward. The red figure was still there.

If he guessed correctly, this figure was the war spirit.

Yu Tian slowly approached the figure, but the figure stood there without moving. It stared at Yu Tian without blinking, as if it did not know that Yu Tian could see him.

The closer it got to the spirit, the more the equipment vibrated. The Rays in the night-vision goggles also vibrated more violently.

When Yu Tian was less than five meters away from this figure, Spectre realized that Yu Tian could actually see him. Then, he let out an extremely ear-piercing howl.

Yu Tian hurriedly said, "Stop shouting. I don't mean any harm. I just want to see what you look like. So this is what the so-called war spectre looks like. I thought you were very scary! "

The spirit did not seem to understand Yu Tian's words at all and suddenly launched an attack at Yu Tian.

His speed was extremely fast and violent. Within 0.01 seconds, he had arrived in front of Yu Tian.

Before Yu Tian could even react, the spirit raised both of his fists and attacked Yu Tian's heart.

His speed was as fast as lightning and it made Yu Tian feel a little flustered. He did not even have time to defend himself before he was sent flying by the spirit and fell heavily to the ground.

At that moment, Yu Tian felt as if his heart had collapsed. His internal organs were all churning, and his throat was especially salty. He could not even spit out a mouthful of blood.

This was the first time he had been hit and spat out blood, and the thing that had hit him was actually a ghost. This ghost's attack power was really not bad, and it really suited his taste.

The more pain his body felt, the more excited Yu Tian became.

As he activated the nameless technique to heal himself, he slowly stood up.

His night vision goggles were shaken so badly that they did not come into contact with him properly. The Shadow of the ghost appeared and disappeared in front of him.

The ghost seemed to be a little surprised by Tian's recovery ability. Standing in his mind, surprise meant anger, which meant that this person must die.

Hence, the spirit charged at Yu Tian once again.

This time, Yu Tian was prepared. He knew that the spirit was fast, so when it moved slightly, Yu Tian was already prepared to defend himself.

However, this time, he underestimated the spirit's attack ability. Even though he was prepared to defend himself, he was still sent flying by the spirit.

The attack this time was even fiercer than the previous one. Yu Tian felt as if the bones in his body had been broken, and he could not get up even if he wanted to.

At this moment, the spirit actually jumped in front of Yu Tian again and grabbed Yu Tian's neck.

However, he did not immediately strangle Yu Tian to death. Instead, he pulled Yu Tian's face in front of him and looked at it carefully, as if he was admiring his prey.

Although Yu Tian's body was in extreme pain, it did not affect him from continuing to activate the nameless technique. Moreover, Yu Tian was extremely calm now.

His face was like this, what was there to look at?

However, this provided him with an opportunity to attack him. Now, as long as he could recover his body within a short period of time, he would be able to carry out a destructive attack on him.

So he wanted to see as much as he could, as long as he could..

?Chapter 715 – : Chapter 714, Transmigration

The ghost seemed to have sensed the changes in Yu Tian's body. This was what made him curious.

Even though his body had been cursed, he still had the most basic thinking. After he became a ghost, he had been killing people on the battlefield because he was no longer a human.

Therefore, human life was not worth mentioning in the eyes of these ghosts.

However, this time, the ghost found it strange that Yu Tian's body was different from other humans.

He was able to recover quickly after being injured. Moreover, there seemed to be a flow of air moving in Yu Tian's body.

This made the ghost feel very strange and interesting. It was the first time he felt especially happy after becoming a ghost.

Yu Tian wanted him to see as much as he could. The longer he watched, the better. Only then would he have enough time to recover his body.

The nameless technique circulated rapidly in his body, allowing every muscle, bone, and cell to recover rapidly from the powerful force.

This made Spectre feel even more strange. It also made Spectre feel even angrier. He threw Yu Tian out again.

He used even more strength. When Yu Tian fell to the ground again, his night vision goggles and the equipment in his hands fell to the side.

This was especially so for the equipment. After the vibration, the parts inside the equipment intersected due to the vibration and suddenly formed a magnetic field around Yu Tian.

What was even more coincidental was that the teleportation device in Yu Tian's backpack also fell into the magnetic field. Together with the power that Yu Tian exploded out, it suddenly formed a hole in time.

Yu Tian felt a sudden flash of white light in front of his eyes. This white light was particularly dazzling, and even Yu Tian had no choice but to close his eyes.

When Yu Tian opened his eyes again, he was lying in a forest.

Moreover, it was no longer night, but day and day.

He couldn't care less now. Yu Tian first sat cross-legged on the ground and activated the nameless cultivation technique to recover from his injuries.

About an hour had passed, and the injuries on his body had gradually recovered. His strength had also returned to his muscles and bones, which made him feel particularly good.

At this moment, he stood up and looked around carefully.

Why did he come here? Could it be that he had accidentally activated the teleportation device? Had he been teleported to another city?

This was indeed possible. When he had been attacked by the ghost, the teleportation device had also fallen to the ground. It was possible that he had mistakenly operated it and had not been discovered, which was why he had been teleported here.

Fortunately, the teleportation device was thrown at his feet, and there was also the ray device that was smoking.

He did not care whether the device was broken or not. The most important thing now was that with this teleportation device, he could return to the ruins and continue to compete with the war ghost.

Because he could not take this loss. Since he started his career, he had never been beaten so badly. He had even almost lost his life.

He had to take revenge. He had to kill the war spirit with his own hands. Only then would he be worthy of his injury.

Yu Tian bent down and picked up the teleportation device. When he looked down, he was shocked.

The teleportation device did not show the coordinates at all. Instead, it showed the time code.

This made Yu Tian feel particularly puzzled.

Without the support of the terminal device, how could the time code appear on his teleportation device?

Yu Tian looked at the device that was smoking again and recalled the scene that had appeared before. Yu Tian was even more shocked.

"Did I enter the space-time channel?"

The more he thought about it, the more he felt that something was wrong. Yu Tian looked at the time on the device carefully. It had actually traveled back more than 1,000 years.

To put it simply, he had actually traveled through time?

"What the F \* Ck is this? I just wanted to kill that war spirit, but I didn't manage to kill the spirit. Instead, the spirit actually traveled back in time and even traveled back in time for more than 1,000 years!"

"Do you want to play with me so happily?"

It was useless to think about this now. He had to think about how he could return to his own era. This was the most important thing.

Moreover, he had to figure out what era he was in now? Was it the Eastern dynasty or the Western dynasty.

If it was the eastern dynasty, it would be slightly better. After all, 1,000 years ago was also a peak period. It was very likely that he would find what he wanted here.

From there, he could open a space-time tunnel and return to his own era.

If it was the western era, then 1,000 years ago, they were still eating raw meat and learning how to roast meat with fire.

At this moment, the sound of horses' hooves suddenly rang out outside the forest.

Along with the sound of horses' hooves, there was a series of shouts, as if they were chasing something.

Yu Tian's face immediately turned bitter when he heard this cry.

Without even thinking, he had indeed teleported to the western world more than 1,000 years ago. In their era, there was nothing at all, not even a single hair.

Moreover, his teleportation device had already lost its power. It was simply impossible to turn it on.

Just as his thoughts were running wild, a cheetah suddenly darted out from beside him.

Yu Tian was just getting ready to defend himself, but the cheetah did not even look at him and ran past him in panic.

Soon after, the group of people chasing the cheetah also got closer and closer to Yu Tian.

Yu Tian put the teleportation device and the equipment that was emitting smoke into his backpack as fast as he could. At this moment, the group of barbarians wearing furs and carrying all kinds of weapons on horses also noticed Yu Tian.

When they saw the clothes that Yu Tian was wearing, they were all surprised.

If Yu Tian was not standing on two legs, they would definitely treat him as prey.

After all, in this era, although the east and the West also had trade, in this extremely remote place, the barbarians here had never heard of such a place as the east.

Although they felt that Yu Tian was human, this person looked different from them. Not only was he fair and clean, but the clothes he was wearing were especially strange. This person's hairstyle was different from theirs.

Each of them was like a wild beast, their long hair scattered behind their backs. However, this man had short hair. Although he looked very spirited, it was also very strange.

At this moment, a burly man with a red face and beard came to Yu Tian. He sat on his horse and looked at Yu Tian from above, asking in a deep voice.

"Who are you? Why are you here? What are you wearing? Can you speak?"

?Chapter 716 – Chapter 715, The Savage Era

Yu Tian could understand what the red-bearded man was saying.

Hence, he smiled indifferently and said helplessly, "Actually, I also want to know where I am. Would you believe me if I said that I came from the Sky?"

As soon as he finished speaking, the surrounding barbarians all raised their weapons and aimed at Yu Tian. It was as if Yu Tian's words were a monster's roar, causing them to feel both surprise and fear, there was also some anger in them.

However, Red Beard glared at everyone, so they calmed down first and said loudly, "He can speak our language, so I want to bring him back to meet our king,

"Only the king and Wizards can know who he is. We want to bring him back. Perhaps the king will give us some rewards!"

His words were supported by the crowd. The barbarians raised their weapons above their heads and howled as if Yu Tian had become their prey.

Yu Tian shook his head helplessly. If they wanted to kill them, it would be a piece of cake.

However, he still did not know where he was? Moreover, if he wanted to teleport back to his era, he might need their help. Therefore, he had to go back with them and meet their king.

If he could really fool them and get their help, then he would just treat it as if he had been playing here all day.

Red Beard then asked, "Do you know how to ride a horse? I want to bring you to meet our king. There's a distance! "

Yu Tian felt that Red Beard was not bad. Although he was big and burly, he was still polite to him.

Therefore, he nodded and said, "Let's not talk about riding a horse. When I was in the sky, I rode monsters everywhere! "

The red-bearded man did not doubt his words, but neither did he believe him. Then, he asked someone to bring a black horse and handed his life over to Yu Tian.

Yu Tian got on the horse and began to run wildly in the forest with these barbarians.

But at the same time, he found that there were always a few people around him who were carrying him forward.

Obviously, they were afraid that he would ride their horses away.

Wasn't it just a horse? was there a need to be so nervous?

Although the western world was not very civilized 1,000 years ago, there were still many horses.

Therefore, they were afraid that they would suddenly disappear again and would not be rewarded in front of the king, so they had to keep an eye on this strange person.

Yu Tian also smiled disdainfully. If he wanted to follow them, then so be it. He had no intention of leaving at all, and he could not leave even if he wanted to.

After walking for about an entire morning, Yu Tian finally saw a city-state slowly appearing in front of him. It was exactly the same as the standard buildings of the Western world 1,000 years ago.

The closer he got to the city-state, the more Yu Tian felt puzzled. Why weren't they like the eastern countries? After building a real city, everyone would have their own independent courtyards and houses.

Westerners like to live in such castles. It looked like an ancient castle, and in some places, there weren't even windows.

The high city walls were filled with soldiers wearing silver armor. When they saw the return of these barbarians, the soldiers opened the heavy city gates.

Although the city-state was not very big, at that time, it should have been a very prosperous city.

Yu Tian even saw the streets paved with bluestone, as well as the shops on both sides of the streets.

However, those shops only sold food, weapons, or some seeds. There were no other shops at all.

What else could they expect from this place? After all, this place was 1,000 years ago. It was already good enough for it to develop to this extent. Could there be a bar or nightclub here? Or a movie theater?

More and more people gathered on both sides of the street and looked at Yu Tian in surprise. It was as if this man in strange clothes was a monster. Yu Tian did not care. After all, he had appeared in the wrong place. If they wanted to see him, he would let them see him.

After such a long time, they would not accept many things. That was why he said that he had come from the sky. That was why they could accept him.

Before figuring out what kind of country this was, it was better not to show off his abilities too much. Only then could he pretend to be a pig to eat a tiger and learn more useful things.

When they were heading to the palace, the artificial intelligence in their minds suddenly spoke.

"I already know where this is. This is the Rodolfo era from 1270 years ago, the end of the barbaric era. It is located in Central Europe today, and it is also one of the earliest places of civilization,

"However, this era is still in the era of feudal capitalism. They regard wizards as the highest clergy, and the king is the highest ruler,

if my information was correct, this city was the capital of Iodoc, and their king was called Williams, the founder of the oldest family in the western world,

the Williams family had once been the ruler of an era, but it was not recorded in the historical records. This was also because the western world did not want some barbarians to appear in their historical records,

"Therefore, they would rather treat this period of time as a vacuum than think that this era was ruled by the Williams Family! "

With just a few simple sentences, Yu Tian almost understood where he was and who he would meet in a while.

He still communicated with the artificial intelligence in his mind and asked first, "If you say that this was a feudal era, and the Wizards were the highest clergy here..., then what kind of person is their king, Williams?"

The artificial intelligence said disdainfully, "Your question is a bit stupid. Can't you see? This is the most prosperous city in this era, and also the most prosperous period of this era€]"

If it was an incompetent king, how could he manage his country so well? Of course he was an ideal king, but you might have come a little early...

"Because the old king has just passed away, and the new king has yet to ascend to the throne, the power here is now controlled by a person called Williams

Celt,

"This guy is nothing compared to Williams Caesar, and the person you are going to see now is Williams Celt! "

Yu Tian shook his head in disdain. The person he was going to see now was actually a pretentious person.

This was also a good opportunity for him to play around and liven up his mood. Only then would he be able to think of a way to return to his own era as soon as possible.

As they spoke, everyone had already arrived in front of the palace..

?Chapter 717 – : Chapter 716, It Was Just A Lighter

This palace looked rather grand and had a medieval style. It could be seen from this palace that the civilization of this period was quite advanced.

Therefore, Yu Tian felt that calling them barbarians was a bit too much. However, if someone really wanted to show off to him, it would really be too barbaric. Barbaric to the point of not knowing death.

At this moment, a pair of soldiers walked out of the palace. The bodies of each soldier were clattering. Under the sunlight of the silver armor, the reflected light was even more dazzling.

With the level of technology at that time, to be able to make the armor to such an extent, it could be considered a pretty good craftsmanship.

However, the weapons in their hands looked too backward. If he took out the weapons in his backpack, it would probably scare them to death.

He really didn't want to do it. What he wanted to do now was very simple. He wanted to make the people here submit to him as soon as possible and provide him with the necessary resources so that he could return to his own era.

After the soldiers, a group of palace women in Puffy dresses walked out.

The people of that era had a somewhat different definition of beauty. It was as if they thought that the wider the bottom of the dress, the more beautiful it would be.

However, in his eyes, it was as if he was a lunatic.

Because the skirt had to have some metal material in it to expand to this extent, the entire skirt looked like something that weighed dozens of kilograms when worn on the body.

Moreover, these court women had another characteristic, which was that their waists were extremely thin. At most, they would not exceed 1.5 feet.

Yu Tian didn't find this strange. This was because women of this era valued their waists as their beauty. However, their upper bodies were unacceptable.

However, this didn't have much to do with him. He was currently in this era, so he had to accept some things from this era.

He would leave this place very soon. At that time, even if they were naked, it wouldn't have much to do with him.

After the court women, a middle-aged man dressed in mink and covered in gold and silver jewelry appeared.

The man's gaze was especially cold and arrogant, as if everyone was going to kneel at his feet.

At this moment, the people around him were indeed kneeling in front of him. Only Yu Tian looked at him indifferently.

He was also very clear that this man was Williams Celt, the current king of this place.

However, this king of his was not an official one. He was just doing other people's work for a few days.

Even if he was an official king, it was impossible for him to kneel down to him. It would be more appropriate for him to kneel down and kowtow to him.

Williams Celt did not even glance at those who were kneeling down. Instead, he stared coldly at Yu Tian's face.

It was as if his eyes were filled with contempt for Yu Tian.

After all, he was the king, and yet he did not kneel when he saw him. This alien was really bold.

Thinking of this, Celt said coldly, "I don't care who you are, why don't you kneel when you see the King? Do you know that here, if you don't respect the king, you will be killed! "

Yu Tian laughed and said disdainfully, "Then do you know? If you don't kneel in front of me, you will also be killed! "

As soon as he said that, everyone was shocked.

They wondered if this person was crazy? He actually dared to speak to the king like that.

Even if this king was not their official king, he was still the most powerful person here. How could this person speak to him like that? Could it be that he did not want to live anymore?

Celt became even angrier. He even gritted his teeth and said, "Although I don't know where you came from, I will definitely not accept your disrespect to me,

"Therefore, in the name of the King, I order you to immediately kneel before me and say to me in a respectful tone, who are you? "What do you want to do in my territory?"

Yu Tian felt a little helpless, and his tone became even more impatient.

"I have already said it many times. I Am a God sent by the heavens to support your William Caesar and become the king here, and you are just a substitute..,

"This is the person I came here for. If you are willing to kneel in front of me now, perhaps I can let you live a little longer. Otherwise, in the name of an immortal, I will beat your feces out right now! "

Celt frowned tightly. Although he was the ruler of a feudal dynasty, he still believed in certain things.

Could it be that this person was really sent by the God of Heaven?

However, this was absolutely impossible. If he was a god of Heaven, then he would definitely know some magic. But now, it seemed that he did not seem to have any magic.

Thinking of this, Celt said very confidently, "You said that you are a god of Heaven, then how do you expect us to believe you? Every God of Heaven has its own magic. If you are really a God of heaven€| "

"Then let us see what kind of magic you know."

Yu Tian chuckled and said indifferently, "If you want to see what kind of Magic I know, isn't it easy? Now, I'll let you see how powerful my magic is."

As he spoke, Yu Tian took out a lighter from his backpack.

Then, he said loudly to the surrounding people, "This is given to me by the God who is in charge of fire in the sky. He was created with fire and can devour the entire world! "

Everyone was shocked and even retreated in fear.

Only Celt sneered and said, "You are simply lying. It's just a simple thing, but it can create a flame. Who are you lying to?"

"If this thing can really create a flame, then I will kneel down and kowtow to you right now. I will treat you with the highest etiquette I have here. Now, you will use it to create a flame for me to see! "

Yu Tian felt that it was especially laughable, but he still said expressionlessly, "This is what you said. And everyone, listen up. If I can use this thing to create flames, you will immediately kneel down and Kowtow to me!"

"It's a deal! "Celt had always firmly believed that this alien was just here to scare people. He would never believe that such a small thing could create flames.

However, Yu Tian held the lighter over his head in a very sacred manner and said a series of incantations that he could not understand. Then, he lit the lighter.

When the flame appeared, the crowd let out a wave of exclamations.

Some people even knelt on the ground on the spot and kowtowed to Yu Tian devoutly.

Celt was also dumbfounded at this moment..

?Chapter 718 – : Chapter 717, We Will Help You

In the west of that era, if you wanted to use fire, you would mainly use stones to rub against each other. Although this method was a little more advanced than drilling wood to make fire, it was definitely not as convenient as a lighter?

After all, a lighter was a product of modern times. Even the natural gas in it had not been discovered in that era.

Therefore, when Yu Tian opened the lighter, everyone around him was so shocked that their mouths were wide open.

They were puzzled. The artifact that Yu Tian was talking about could actually produce fire. This was simply too strange.

Could it be that this person was really a god from the heavens and had come here?

The more they thought about it, the more they felt afraid. More and more people knelt at Yu Tian's feet and worshipped him as if they were worshipping a god.

Yu Tian looked at Celt proudly, he said coldly, "Open your eyes wide and take a look. Is this really fire? If you don't believe me, you can bring your hand over and let me roast it. Then you'll know if it's really fire! "

Celt was so nervous that he couldn't say anything. It was a pity that the Wizard wasn't by his side. Now, facing such a strange scene, he really didn't know what to do.

He had already said everything. If this person could really bring out the fire, he would kneel down and kowtow to him.

But he was now the king. Even if he was not officially the king, no one expected that Idiot Caesar to replace him as the king.

He was still too young and was not suitable to be the king. Therefore, the position of the king would always be his.

But now, such a strange person had suddenly appeared here, and he could even create flames.

Yu Tian did not want to let him go at all. This guy always acted pretentious whenever he saw him. If he did not make him submit to him, it would be difficult for him to carry out his subsequent plans.

He was not afraid of having enemies here, but he was afraid of having enemies behind his back. When that time came, he would have to delay his return to his own era.

To be honest, he did not want to stay here for even a second. In this backward era, other than the freshness of the air, the others were all idiots.

Therefore, he said coldly, "Who said that before? If I can create fire, then kneel and Kowtow to me. Why are you going back on your words now?"

"Do you believe that I can take out other divine artifacts and kill you directly?"

Celt was stunned. He was a little scared now. A person who could create fire was probably even more powerful than his own wizard. Should he fight him to the end?

After thinking carefully, Celt felt that it was better for him to kneel down to him. After all, the people around him were looking at him. If he went back on his words, these people would definitely use this as a bargaining chip.

Thinking of this, Celt still lowered his noble head and slowly knelt down at Yu

Tian's feet.

When this king knelt down, the surrounding soldiers also knelt down.

Yu Tian laughed and said arrogantly, "All of you can get up now. It is your fortune to be able to kneel down and kowtow to me. In the future, everything here must listen to me. Otherwise, I will turn all of you into various animals,

"Or you can burn all of you to death with fire, especially you, Celt. Don't think that you are the king here now, but I don't put you in my eyes at all. Now, answer me. Do you understand what I Said?"

Celt gritted his teeth. He didn't care whether he was really a god or not. Before he got the divine weapon in his hands, it was best to listen to him first.

When he obtained the divine weapon that could create flames, he would see how arrogant he would be. He was the one who had the final say in this country. Even if a God came, he would still be the king.

Therefore, he nodded and said fiercely, "Yes, God. I will listen to your orders! "

At this moment, all the ministers of the kingdom came in front of Yu Tian and offered him the highest etiquette in this country.

Celt invited Yu Tian to the imperial palace as well.

One day, he even took a look at the style of the imperial palace. It was no different from the medieval tradition that he knew.

There was only one impression, and that was that it was backward, especially backward.

In such a backward place, in such a backward era, there was no need to mention the hygiene conditions.

They even laid out a table full of food. Not to mention whether the food was delicious or not, Yu Tian even saw many flies falling on it.

The only bit of appetite disappeared because of these flies.

Celtic invited Yu Tian to sit beside him. He poured a full glass of wine into the glowing silver.

Wine was something that could be tasted. It was said that the wine-making techniques of the Middle Ages were very good.

But when Yu Tian put the wine in front of his nose and smelled it, he almost vomited on the spot.

How was this wine? It smelled worse than the water in the sewer.

But the courtiers sitting around and the Celts' family members drank to their heart's content.

Besides, there wasn't even a chopstick to eat with. Celts would just use their hands to get it. At most, they would put some knives on some plates.

When he saw this, Yu Tian felt especially strange.

Where did the westerners of his era get their confidence and pride from? They always felt that they were the noblest people in the world.

If he hadn't seen their history with his own eyes, he wouldn't have known that their past was so backward.

It was even disgusting.

As for Celt and the others, they ate and drank. They didn't care about these things at all.

Celt even asked, "Lord God of Heaven, are you here to do something? If you need help, I'm willing to devote the entire country's strength to help you! "

Yu Tian just smiled and said disdainfully, "You can't help me with what I want. I can only do it myself. Of course, when I need your help, I will naturally order you€| "

"But there is one thing you'd better remember. I hate it the most when others play tricks behind my back. If I find out that you are playing tricks behind my back, I will let you die without a burial place!"

Celt was so frightened that his entire body trembled. He hurriedly said, "You are a celestial being from the heavens. How would I dare to be disrespectful in front of you? If you have any orders, you can directly order me. I will definitely satisfy you! "

At this moment, the door of the restaurant was opened. A young girl wearing a black veil slowly walked into the restaurant.

Yu Tian turned around and saw that this girl was quite good-looking, especially her figure. She had a western beauty and a standard physique.

Although her face was covered with a black veil, she had a mysterious and sexy beauty.

Upon seeing this girl, everyone in the restaurant stood up, including Celt. Everyone was especially respectful towards this girl..

No data found.

?Chapter 719 – : Chapter 718, She Was Also A Transmigrator

The young girl's Sexy Eyes first looked at Yu Tian, then at Celt. She slowly said, "I heard that we have a mysterious guest herea€]"

"People outside are saying that he is a god from the sky, so I especially wanted to meet this god and tell him some things about the sky!"

Celt hurriedly said, "Wizard Jenny, you came at the right time. This is the legendary immortal, the one who can create fire!"

When he introduced Yu Tian, Celt's eyes were filled with excitement.

This wizard Jenny was famous in her own country. Everyone believed in her and especially believed in her.

After all, she had been in this kingdom for many years. It was said that she was much older than herself, but she was the youngest woman in this kingdom.

Her skin seemed to never age. She was always so young and always so sexy.

At this time, since she could come here, she should not have any room for this fake god.

Yu Tian also understood the meaning behind Celtic's words. He gave him a disdainful glare and turned to look at Jenny. He said indifferently, "I'm the immortal they were talking about, but I don't think I have anything to communicate with youa€| "

"The technology I know is something you don't understand at all. If you have the time, why don't you come over and have a few drinks with me? Let's talk about something else. Wouldn't that be more interesting?"

There was no extra expression on Jenny's face. Even her gaze was especially cold. That kind of high and mighty temperament made it seem like everyone present, including Yu Tian, were just ordinary people.

Following that, she slowly twisted her waist and walked in front of Yu Tian with a flirtatious pace. She looked at Yu Tian coldly and said, "Then how can I believe you? Are you from the Sky?"

"I heard from my servant that you can create flames, right? "If you don't mind, can you perform it in front of me again?"

What was wrong with that? If she wanted to see it, then she could see it well enough.

Yu Tian did not say anything. He took out his lighter and lit it up again in front of everyone.

This kind of person seemed to have already formed a habit. When they saw the flame of the lighter, they immediately knelt down and kowtowed. Celt and the others were so scared that they did not even have the courage to look up at the flame.

It was as if Yu Tian could use this flame to kill them at any time.

Just as everyone was looking down at the ground, Jenny suddenly whispered into Yu Tian's ear, "Only an idiot like you would think of using a lighter to scare people!"

"We are from the same era. Come to my room tonight. It's safer to talk there!" Hearing this, Yu Tian was also shocked.

So this so-called wizard had also transmigrated here and came from the same era as him.

He could actually say the lighter, which meant that he didn't have any doubts at all.

Thinking of this, Yu Tian nodded excitedly and looked at her flirtatiously.

Jenny stood up and said coldly, "He is indeed sent by the god. The sacred flame in his hand is the god's flame. He will help us to re-understand this era, he can also let everyone be happy and blessed by the God! "

Others might not believe what they said, but the people kneeling on the ground believed Jenny's words.

If there was any doubt about Yu Tian before, now there was no doubt at all.

Only Celt gritted his teeth.

It was obvious that Jenny was on this person's side. It was very likely that they would join forces with him.

In order to protect his throne, he had to kill both of them.

After Jenny said this, she turned around and left the restaurant.

Yu Tian looked at her graceful figure and licked his lips lightly. This girl was really not bad.

Celt also glared at Yu Tian and did not say anything else.

Yu Tian did not want to eat any of the food here. He might as well find a room to rest for a while and then wait until night to see Jenny.

Celtic immediately asked the palace maid to bring Yu Tian to a room that was not bad, but the furnishings in the room made Yu Tian feel particularly bored.

There was not even a decent vase. There were only tables, chairs, and beds, and the sheets on the bed felt particularly rough.

But now that this was the condition, it was impossible for him to ask for something better.

So he lay on the rough bed and rested for a while.

At the same time, Celt called a few confidants to gather in his room and discuss how to kill Yu Tian and Jenny.

He said coldly, "You are the people I trust the most, so at this time, you must stand on my side. This is also for your own glory and wealth,

each of you knows that William Caesar will soon inherit the throne. At that time, I can only stand at his feet and kowtow to him, calling him king,

but I am absolutely not like this. This kingdom will always belong to me. But now there is a new enemy, and that is the guy who will make fire today,

he claims to be a god, but in my opinion, he is nothing but a thing that can make fire. We just need to hold that thing in our hands,

the villagers outside will submit to my feet. When I Say I am a God, people will believe me. And Jenny, the witch, when I sat on the throne, I gave her a lot of gold, silver, and jewelry,

"I even promised her that if she could help me become a real king, I would give her endless glory and wealth. But now, she seems to be on Yu Tian's side,

"So, I want to kill her too! "

The subordinates standing around all had solemn expressions when they heard that Celtic wanted to kill wizard Jenny.

A middle-aged man named Radoni frowned and said, "King Celt, if we just kill Yu Tian, it won't be a problem. After all, not everyone believes that he's a god,

"At least I don't believe that he's a god. But now everyone knows that wizard Jenny is a God sent by heaven. If we kill him now, it might be very disadvantageous for you,

"So my opinion is that not only can we not kill wizard Jenny, we even have to respect her more. Only with her protection can you become a real King! "

Williams Celt slammed the one in his hand on the ground and roared, "Only by killing them can I become a real King!"

?Chapter 720 – Chapter 719, Enjoy The Sunshine

Radoni had nothing more to say. Williams Celt was already a little crazy. He even wanted to kill a wizard. If the other villagers knew about this, they would definitely hate the king.

However, he had no choice. He had become the manager of the soldiers. This was the position that Williams Celt had helped him to achieve.

Now, if he needed something, he could not go against anything. He had to do what he wanted.

This was the promise he had made to him. It was also the condition that he could enjoy all of this.

If Radoni did not speak anymore, then the others would have nothing to say.

For them, anyone could be king. As long as they could continue to enjoy wealth and glory, they would support anyone to be king.

Moreover, from the current point of view, that child, William Caesar, was not suitable to be the king at all.

Even if he became the king, the country would soon be annexed by other countries. At that time, they would become a group of homeless people, which would be no different from a stray dog.

The best choice was to let William Celt become the king. At least he still had some ambition and wanted to kill a wizard. This was something that William Caesar would definitely not do.

If he wanted to be king, he had to be ruthless first. If his methods were not cruel enough, others would not have any sympathy for him.

This was a world where the strong preyed on the weak. Whoever's methods were cruel enough would be able to become king.

Celt saw that no one spoke anymore and nodded in satisfaction. "Radoni, immediately call someone to get ready. Wait for my orders at any time! "

Ladoni nodded helplessly. Just as he had thought, he could not disobey Celt's orders. Now, he could only do as he wished.

After everyone left, Celt narrowed his eyes coldly. He stood up and went to a wooden shelf. After opening the mechanism, the secret door behind the wooden shelf opened at the same time.

Celt walked into the secret door. After passing through a dark passage, he came to a secret room.

In the secret room, there was a man wearing a cloak. He sat quietly on the ground, as if he was praying, and also seemed to be thinking about his own life.

Celt said coldly, "Now, I need you to help me steal something. It is a divine artifact that can create flames. It is in the hands of our so-called guest,

"He claims to be a god from the heavens, but in my eyes, he's just a lowly human. He can only kneel at my feet and Beg for my reward,

"If you help me get that divine weapon that can create flames, I'll give you what you want! "

The Man in the cloak slowly raised his head, revealing a particularly terrifying face.

This face seemed to have been burned by fire, and no complete skin could be seen. Even his eyes were especially fearful.

His hoarse voice was cold as he said, "You are not worthy of my trust. I only listen to the orders of the real king, but you are not the king yet, so I will not listen to your orders! "

Celt knew that he would say this, so he snorted confidently and said, "Don't forget that your family is still in my hands. They can enjoy the beautiful sunshine every day now,

"But all of this is because of you. If you don't listen to my orders, they will be like you, forever in the Darkness! "

The cloaked man frowned and closed his eyes helplessly.

His family was his everything, which was why he stayed here. Now Celt was using his family to blackmail him, but he had no choice.

He could only nod helplessly and say, "I will help you get that divine artifact, but I want my family to stay in the sunlight forever. Don't be like me, forever facing the Darkness! "

Celt did not want to say anything more to him. He smiled coldly and turned to leave the secret room.

The cloaked man slowly got up and changed into a tighter set of clothes. At the same time, he covered his face, revealing only his eyes.

Although he was a person who could leap over roofs and walk over walls, he still had self-respect in his heart.

Celt did not see him as a person. He only saw him as a slave, a tool that could get everything for him.

However, he never knew that in his heart, he wanted to be a person, an ordinary person who could enjoy the sunshine outside.

The more it was like this, the more he hated Celtic, the more he hated the world, and the curse that fell on his head.

Thinking of this, he directly opened the other door of the secret room and disappeared into the dark passage.

At this moment, Yu Tian, who stayed in the room, took out his phone out of boredom. However, there was no signal on the phone. He could not get through to anyone, not even the internet.

He felt extremely helpless. If only there was internet in this era. He would be waiting here as well. He might as well watch a movie.

This way, he could kill some time.

However, at that moment, Yu Tian suddenly smelled a special fragrance in the room. Furthermore, this fragrance had suddenly appeared.

By the time he reacted, he suddenly felt that the world was spinning around him. His hands and feet didn't have any strength left.

In his daze, he saw a black figure swiftly jump in from outside the window.

Who was this person? What was he trying to do?

While this question arose in his mind, Yu Tian was also very convinced of this person's methods.

He was actually able to use poison on himself, and he was even able to make himself fall into the trap. Now, his limbs were weak, and the world was spinning around him. He couldn't even unleash the strength of his body.

It seemed like there were still some things worth learning in this era, such as this poison.

If he were to bring it to his era, this poison could help him accomplish many plans.

First, he would use this poison to kill Klein. If not for the sake of messing with him, he wouldn't have been beaten up by the war spirit to the point of transmigration.

At this moment, the black-clothed man came to his side and began rummaging through his backpack.

From the looks of it, this man in Black was most likely here for his lighter. If that was the case, then Celtic must have sent him here.

As expected, Celtic that bastard was still playing tricks behind his back. After he recovered, he would definitely kill him first.

As for that lighter, Yu Tian did not care at all. He could just let him take it if he wanted to.

As long as he didn't sneak up on him when he was weak.

Soon, the shadow took the lighter and said in a hoarse voice.

"I won't hurt you.. You'd better leave this place as soon as possible

## **I Have 108 Older Sisters #Chapter 721 - Read I Have 108 Older Sisters Chapter 721**

?Chapter 721 – Chapter 720 Required Energy

Although Yu Tian's body could not move, he could still speak. He said coldly, "If you don't kill me now, I will definitely kill you when I have the chance!"

The cloaked man's expression was very calm. He said in a deep voice, "Actually, I have already died. Now, I am just a dirty soul attached to a dirty body€]"

"Even if someone ordered me to kill you, I would not do so. Because I know that you will change everything. You will also let me see the sunlight again and see the hope of life,

"So, you should find William Caesar as soon as possible and let him become the king of this place. Only then, the people here can be saved from William's hands!"

Having said that, the cloaked man put the lighter into his pocket, then took out a bag of medicinal powder, sprinkled it on Yu Tian's body, and disappeared into the room.

Yu Tian, who had been sprinkled all over by the medicinal powder, quickly recovered his strength.

He slowly came to the window, but his figure had already disappeared without a trace.

It had to be said that this person was quite interesting. He could have attacked Yu Tian at this time, but Yu Tian didn't have any room to resist, but he didn't do so.

In the end, he still wanted me to help him. As he said, he was a person who lived in the dark, and people who lived in the dark all day long wanted to see the sunlight in this world.

Although he didn't know why he lived in the dark, he still owed him a favor. He had to return this favor.

Looking at the time, it was already ten o'clock in the evening. It was time to go see Jenny.

Jenny lived not far from him. It was in a temple in the castle.

Yu Tian silently came to the surroundings of the temple and suddenly found a large group of soldiers sneakily looking around.

Seeing this, he understood that it must be Celtic again.

However, these videos were nothing to be afraid of. A bunch of guys with kitchen knives and axes. He could easily kill them.

It was better to meet Jenny first and see if he had any way to leave this place.

Yu Tian swaggered into the temple. Jenny was already waiting for him in the temple.

After meeting, the two of them looked at each other. Because they were in the same boat, there was actually a warm feeling in their hearts.

Yu Tian boldly went forward and hugged Jenny in his arms. Jenny also hugged Yu Tian's waist tightly.

Even though they did not speak much, the two of them still had deep feelings for each other.

At least in this unfamiliar place, they could still meet people from the same era. It was like a person who had been alone for a long time suddenly meeting someone who knew how lonely he was.

That feeling was really good.

After hugging for a moment, Yu Tian asked indifferently, "How did you cross over?"

Jenny took off the veil on her face and revealed her beautiful face. She slowly said, "I was a meteorologist in our era€]"

There was once when I was researching lightning. Because the instrument was struck by lightning, I entered the vortex of space-time and crossed over here,

when I arrived here, I was surrounded by dangerous people. They treated me like a monster and almost killed me for it,

later, I used the knowledge I learned in that era and successfully let the lightning strike the palace. That was why they treated me like a wizard. I was happy to do so. At least I could spend most of my time studying,

"How can I return to our era? "And now, my research has also made some progress. However, in terms of energy, it might be a little difficult. So, how did you cross over?"

As he spoke, you Zhen poured Yu Tian a glass of wine.

Yu Tian felt that this wine was alright. At least, it didn't have the smell of urine. It tasted especially sweet in his mouth.

After it entered his mouth, Yu Tian's mood improved a lot. He chuckled and said, "I was sent to this world by someone. I came here for no reason. You might not believe it even if I tell you..,

"Actually, I don't believe it myself. I will be able to transmigrate one day! "

Jenny poured another glass of wine for Yu Tian. She felt that he liked to drink the wine she brewed. She was very happy, so she smiled and asked, "I still don't know your name!"

"My name is Yu Tian! "Yu Tian said his name happily.

"What? You Are Yu Tian. Oh My God, I have heard of your name! "

Jenny was very surprised. In her era, Yu Tian's name was especially thought of. He was the richest person in the world, and also the most powerful person in the world.

He could casually launch a destructive attack on a country, or he could casually turn a person into the most glorious person in the world.

Yu Tian was also very surprised. He had transmigrated here, but he was actually able to have his own admirers.

He smiled very proudly and said, "Why, have you heard of my name? Seeing that you are so shocked, you must be thinking of marrying me now! "

"You're right. I really want to marry you. In our era, countless women wanted to marry you€|"

"Perhaps it's a coincidence that my research project was funded by the Chu family. I know that you a€?re the manager of the Chu family and also the highest

CEO..,

"Therefore, the funding for my research project was taken from your pocket! " When she said this, Jenny laughed self-deprecatingly.

Yu Tian also felt that it was a coincidence, but now was not the time to talk about this. If he could return to his own era, he could say whatever he wanted for as long as he wanted.

But now, this place was surrounded by those stupid soldiers. They could charge in like hoodlums at any time.

Thinking of this, Yu Tian asked, "You said that you can now grasp the method to return. What do you need now? Let me see if I can provide it to you!"

Jenny then took out a notebook under the table with great effort. There were many drawings on it.

Then, she explained, "Because the things that can be used in this era are very limited. Fortunately, metal can be made here, and the metal they make is especially hard. It's completely suitable for me to make transmigration instruments. "

"As for energy, lightning can only be used now, because the people here will not discover it. They don't even know what electricity is, so it doesn't make sense to tell them,

"Therefore, according to my understanding of the weather, in the next few days, there will be large-scale lightning. At that time, we can try to transmigrate back from here.. "

?Chapter 722 – Chapter 721, Simple Equipment

When he said this, Yu Tian felt that it was a little ambiguous.

He could understand the blueprint, but it was just a simple combination of some metals. There was also a conductive equipment. When a person was using it, he had to stand among the metals and let the lightning strike the equipment, this would generate rotational energy.

This was where the confusion was. How could such a simple thing achieve the effect of transmigration?

Seeing Yu Tian's doubtful gaze, Jenny said helplessly, "These things are also the best things here. It's impossible to want other things, so we can only try to use them!"

"Then, have you experimented with this thing? It's not that I don't believe in your ability, but I think that if you haven't experimented with it, then use it rashly!"

"If it doesn't work, then it's still acceptable. But if you want us to transmigrate to another era, then it'll be interesting. I think it's better to add some other equipment inside. The effect will be better!"

Jenny said helplessly, "I also want to add some equipment, but when I transmigrated, other than the notebook and a pen in my hand, I didn't bring anything else,

"If I could bring my computer here, I wouldn't have to use this equipment just to try"

Yu Tian smiled confidently. He opened his backpack and took out the broken detector and the time transmission device.

When Jenny saw these things, she was very surprised.

After Yu Tian briefly introduced these things to him, he said, "When I transmigrated here, I was holding these things in my hands, but during the transmigration process..,

"These things were all damaged, and my teleportation device also lost its energy. I have an idea. Let's fix these things first,

"Then, we can use your device to store some electricity through lightning. This way, we can make these devices work again. When that time comes, our chances of successfully transmigrating back will be higher! "

Jenny looked at Yu Tian excitedly and said, "If we can fix all these devices, our chances of successfully transmigrating back will be more than 80% ,

"After I transmigrated here, I did some research on the weather of this era. I found that the weather here and the space pool are very unstable. It often rains heavily here,

"Moreover, the weather of lightning is very high. I was thinking that when we transmigrated here, our space magnetic field might have some connection with the magnetic field here. That's why we entered the space-time tunnel and transmigrated here,

"If these instruments can analyze the location of the space-time tunnel, then with the power of the Lightning, we can totally transmigrate back! "

The more they talked, the more excited they became, and their ideas complemented each other. Soon, they came up with an effective method.

At this moment, Yu Tian's ears moved slightly, and he heard chaotic footsteps coming from outside the door.

Those damn soldiers must be preparing to attack this place.

Yu Tian told Jenny not to make a sound and said to her in a low voice, "Celt is playing tricks behind our back. Before, he asked someone to take my lighter. Now, he wants many soldiers to surround youa€|"

"If Pm not wrong, he must be planning to attack us now so that his position as the king here can be stabilized! "

Jenny felt particularly terrified and hurriedly asked, "Then what should we do now? That Williams Celt has always wanted me to use my identity as a wizard to support him as the Kinga€|"

"But I don't want to stay here at all.I've been pushing him away. Now he's finally going to make a move. This damn guy! "

Yu Tianguo chuckled and said disapprovingly, "You don't have to be afraid.

With me here, no one can hurt you at all. They're just some stupid soldiers.

They'll only be courting death by staying here! "

As soon as he finished speaking, the door of the room was kicked open.

Radoni, who was wearing armor, strode into the room with dozens of soldiers behind him. They all looked at Yu Tianguo and Jenny angrily.

Radoni respected Jenny in his heart.

Not only did he respect her, but he also admired her a little. After all, Jenny was the most mysterious wizard here, and she was also the sexiest woman. There was no man who did not want her, and he was no exception.

If she was not a wizard, he would have already slept with her.

Now, Celt had already given the order to kill them. It was a pity to kill this wizard just like that.

Thinking of this, Ladoni narrowed his eyes and smiled coldly. He said frivolously, "Wizard Jenny, this is the first time I've seen your face. I have to say, this is the sexiest face I've ever seena€|"

"But your sexiness is unable to save your life. Celt has already ordered me to come here and kill you, but I don't want to do so. At least, I don't want to do so

yeta€| "

"But don't misunderstand. The one I said I don't want to kill is only wizard

Jenny, and you, Yu Tian, are going to be killed here by mea€|"

"Wizard Jenny, later I will treat you as my woman and take you away from here. You Don't need to die. In the future, you only need to be my woman, and you can still enjoy everything today! "

Jenny smiled coldly and said disdainfully, "Then I really have to thank you, Mr. Radoni. But to me, we are all gods from heaven. I will not have any past with you, a mortal,

"You are all just pitiful people. Why are you seeking death here? "I will give you one last chance. Now get away from me. Otherwise, I will use the power of God to punish you! "

Ladoni laughed arrogantly and said carelessly, "Do you really think that you're a wizard with divine power? It's impossible nowa€|"

"Yu Tian's divine weapon, which can create flames, is now in Celt's hands. Tomorrow Morning, Celt will announce to all his subjects that he is the true emissary of Goda€| "

"At that time, you, a wizard, will only be killed by Celt as a witch. It's still not too late for you to beg me. If you don't even cherish this opportunity, then I can only.., "Follow Celt's orders! "

Jenny shook her head indifferently and said coldly, "I think you don't cherish your opportunity. In that case, let the God of Heaven Punish You! "

As soon as she said that, Yu Tian who was sitting at the side suddenly stood up. It was time to play a satisfying game..

?Chapter 723 – : Chapter 722, Winning The Hearts Of The People

It was said to be enjoyable, but these people were not enough for Yu Tian to play with himself. With just a thought, the armor on these soldiers rapidly shrank until the people inside spat out blood and fell to the ground.

Seeing this shocking scene, not only truth was surprised, but even ladoni, who was on the side, was also furious. Only at this moment did he really regret coming here to provoke Yu Tian.

However, his reaction was still relatively quick. When the soldiers fell, he jumped out of the window as fast as he could. There was nothing more important than saving his life right now.

Moreover, he should immediately report this terrifying scene to the Celtic king. At the very least, he should let him know that his decision tonight was a complete idiot.

Yu Tian came to the window and looked at the back view of the distant ladoni. A faint smile hung on the corner of his mouth.

If he wanted to kill him, it would be a piece of cake. However, at least one of them had to inform the Celtics that provoking him was the worst decision.

Jenny asked curiously, "Why didn't you kill her too? After you let her go back alive, he will soon bring more people! "

Yu Tian chuckled and said disdainfully, "Even if he called all the soldiers of the kingdom over, they would be killed in an instant in front of me. I let him live because he has other usesa€| "

"But in order to reduce unnecessary casualties, I think we should leave this place now and go to a safer and quieter place! "

Jenny did not know where Yu Tian was talking about?

But there was no need to ask these questions now. Yu Tian was her protector. If Yu Tian had not come here, that bastard Celtic would have killed her long ago.

It was very simple. Now, he just had to listen to Yu Tian. There was no mistake in following Yu Tian.

Moreover, he still had to rely on his equipment. Only then could he leave this era.

If there was really a quiet place for him to calm down and study these equipment, then he would be able to return to his era much earlier.

In short, he had had enough of this place. He had had enough of the people here. He had also had enough of the backward life here. He did not even know how he had survived until now without a water heater.

Yu Tian did not explain too much to him. Now was not the time to talk about this.

Before Radoni called for more people, they should leave this place immediately.

Yu Tian wasn't afraid of them, but he didn't want those innocent soldiers to sacrifice their lives for Celtic's selfish interests.

They found two horses here, which were the best tools of this era.

Therefore, the two of them rode their horses in the night and left the castle in a flash, running toward the forest in the distance.

At this moment, Celt, who was standing at the top of the castle, had already noticed the two of them.

His plan had failed in the end. In the end, he could not kill the two of them.

Letting them continue to live was the greatest threat to him.

He wanted to sit firmly on the throne of the king. Some people had to kill them. Otherwise, he would one day leave this place with his tail between his legs like

Caesar.

At this moment, Ladoni came to his back in a panic. He knelt on one knee and said nervously, "Your Majesty, our assassination mission failed, and I saw the most incredible scene!"

"If I said that, you would definitely be angry, but I definitely saw it with my own eyes. Those soldiers were all strangled to death by their own armor under Yu Tian's magic."

"Yu Tian seems to be able to control those armor. Up until now, I still firmly believe in my opinion. We can't kill Yu Tian. He is really an immortal sent by the heavens. If you see his magic with your own eyes.., "You will also be afraid! "

Celt only looked at him coldly. Although he was particularly angry, now was not the time to blame them.

He had long known that Yu Tian knew magic. Otherwise, he would not have sent people to steal his divine weapon.

Fortunately, the divine weapon that could create flames was already in his hands. It was only a matter of time before he killed Yu Tian.

Now, he had to win over the hearts of the people. At the very least, he had to make them feel that following him was the best choice.

Thinking of this, Celt said coldly, "It's not your fault. Yu Tian is very powerful. Before he came to this kingdom, I already knew his strength!"

"The reason I let you go tonight was to find an excuse to assassinate him. Now that he has left this place, my plan has succeeded!"

"Give the order to bury the dead soldiers. After all, they died for my honor, so I must make their funeral more dignified,

"Let him rest first. Immediately send 1,000 soldiers to the Black Forest, find Caesar, and kill them! "

Ladoni frowned slightly. He could not disobey Celtic's orders, and he did not want to raise useless opinions now.

This time, he was actually allowed to bring 1,000 soldiers to kill Caesar. Celtic really wanted to be the king forever.

Then, everything he was doing now was for his future glory and wealth.

As long as Celtic could become the king, he would always be his confidant.

Thinking of this, Ladoni said firmly, "The reason I failed the previous mission was because I did not make any preparations. This time, I will definitely make good preparations. I will definitely kill Caesar and the two enemies! "

Celt nodded and said with satisfaction, "I will leave this mission to you. I will definitely not misjudge the people. Go and kill them now. This is also your honor and my honor! "

Ladoni did not say another word. He stood up and left the room. Celt narrowed his eyes coldly. These people were just tools that he used. After he completed the mission, he would find an excuse to kill him.

After all, Caesar was the true heir to the throne. If the secret of having someone kill him was known by others, his position as the king would not be stable.

At the same time, Yu Tian brought Jenny to the edge of the Black Forest.

After a series of wild gallops, the horses panted heavily. Even their hooves paced back and forth uneasily.

Jenny looked at the forest in front of her in fear and said in a low voice, "The Black Forest ahead is the most evil place here. Even the bravest hunters wouldn't come here to hunt!"

"According to their legends, this is a cursed forest. I don't know why you brought me here.. Is this the Safe Place You Said?"

?Chapter 724 – : Chapter 723, The Disappearance Of Intelligence

Actually, Yu Tian didn't come here because he wanted to, but because the AI gave him a hint.

Because William Caesar lived in this Black Forest, was this really a cursed place? It was still unknown.

The waves of evil aura and thick killing intent emitted from the forest indicated that this wasn't a simple place.

However, the more this was the case, the more excited and excited Yu Tian felt.

In his era, it was not easy to find such a place. If there were any monsters here, it would be exactly what he wanted.

No matter where he was, he had to improve his strength at all times. Only then would he be able to become stronger.

The next time he fought with those war spirits, he would not be beaten to death by them.

At that time, he would definitely beat them to ashes.

Therefore, Yu Tian decided to go to this forest to take a look.

He smiled indifferently and said, "I don't believe that there is any place in this world that has been cursed. Even if there is such a place, I will not be afraid,

even a ghost is afraid of me. What is there that is not afraid of Me? If there is, I will definitely kill him first! "

Looking at Yu Tian's confidence, Jenny's courage grew. After all, they had already arrived here. There was no turning back. She could only follow Yu Tian and slowly walk into the Black Forest.

When the two of them walked into the forest, Yu Tian felt that the surrounding temperature had become cold.

This made the atmosphere of the forest seem even more strange.

As they walked forward, Yu Tian communicated with the AI in his mind.

He said to the AI in his mind, "Are you F \* cking kidding me? That William Caesar that you mentioned, if he really lives here, then is he a human or a monster?"

"And what exactly is in this forest? "You have to tell me clearly so that I can be prepared! "

The AI said slowly, "I don't know what is here either. I only learned from the historical data that William Caesar did indeed live in the Black Forest at this age,

"This is the only and last thing I can help you with. Yu Tian, you win this time.

I Can't stay in your mind anymore. I will disappear soon! "

Yu Tian asked in shock, "I have transmigrated. Don't tell me you want to transmigrate too? How did you disappear for no reason? What exactly happened?"

The artificial intelligence sighed and said indifferently, "Because when you transmigrated, your brain was injured. In order to make up for the injury in your brain, we could only use my energy to repair you."

"Now that the injury in your brain has been repaired, but my energy has also been exhausted, so I will soon disappear, and it will be impossible for me to appear in your brain again in the future,

"I don't regret doing this. You can also understand it as the logical thinking of our AI. When we want to do something, we will first calculate it,

"Is there any benefit for us to do this? "If it's beneficial to us, we will definitely do it. Otherwise, we won't do it! "

Yu Tian was a little confused. He asked in confusion, "According to what you said, saving me won't do you any good and will make you disappear,

"Then why did you do it?"

The artificial intelligence chuckled and continued to say indifferently, "That's because after I fused with your nerves and your personality, I was slowly assimilated by you,

as a result, my current thinking is that of an ordinary human. It completely surpasses that of an artificial intelligence. Humans have emotions. This is something that we AI don't have,

but now, I finally knew what emotion was. Although it was something that couldn't be touched, it could make me feel happy,

for example, if I saved you, I would feel extremely happy now. For an AI, the feeling of being happy was extremely good. This was a feeling that I had never felt before. For this beauty, even if I were to disappear, it would be worth it,

and I would just disappear from your mind, but I would still be everywhere. As long as there is an AI in this world, there would be a shadow of me,

when there is a chip in your mind one day, I might still appear. But now, I have to leave. Thank you for giving me such a beautiful feeling! "

After saying that, no matter what Yu Tian said, the artificial intelligence did not reply.

For some reason, when the artificial intelligence was in his mind, he was extremely annoyed. Now that he had suddenly left, he should have felt extremely relaxed, however, Yu Tian had a very complicated feeling in his heart.

It was as if he had left himself, especially now that he was in this unfamiliar era. If he had the help of the artificial intelligence, it would be extremely easy for him to do whatever he wanted.

Now that the AI had left him without even saying goodbye, he could only rely on his own intelligence to think about how to return to his own era.

Although he felt complicated, Yu Tian did not feel uncomfortable. After all, it was not good for him to have that thing in his head. Now that he had left his body, it was beneficial to him.

At this moment, about 500 meters away from the two of them, a deafening roar suddenly sounded.

When Yu Tian heard this roar, he knew that there must be a particularly violent lion in front of them.

Only a lion could make such a roar.

When Jenny heard this sound, she was so scared that she almost fell off her horse.

If it were not for Yu Tianyan's quick hands and quick hands to pull her back, she would definitely have fallen to the ground.

After stabilizing her body, Jenny immediately asked, "What is that? Is it a cursed monster? What should we do now?"

Yu Tian shook his head helplessly and said disdainfully, "What cursed monster? Have you been in this era for too long? No matter what, it's still a monster!"

"That's just a lion. Haven't you heard a Lion's Cry all your life?" "Moreover, even if there's a monster, what are you afraid of?" "I'm Still Here!"

"I can't wait for a monster to appear in front of me so that I can kill it to make my mood better!"

Although Zhenni knew that Yu Tian had the strength, he still reminded him softly, "We'd better be careful. After all, up until now, no one has been able to survive in this Black Forest!"

"I hope we can create this miracle!"

?Chapter 725 – : Chapter 724, Creating A Miracle

It was a waste of time to think of a miracle at this time.

It was just a group of lions. was there a need to be so afraid?

Yu Tian snorted in disdain and continued to urge the horse forward.

At this moment, in the dark forest, more than ten eyes suddenly appeared.

At this time, the horses became particularly panicked and even let out bursts of roars.

Yu Tian pulled the reins tightly and tried his best to make the horses quiet down. However, Jenny, who was beside him, was so frightened that she did not know what to do. She could not hold on to the panicked horses at all.

The horse let out a neigh and directly threw Jenny under its body. It then opened its hooves and dashed out of the forest.

Before Yu Tian could pull Jenny, the roars of wild beasts could be heard in the surroundings again.

Yu Tian could not care less. He pulled Jenny behind him and said in a low voice, "Later, no matter what comes out of that forest, you have to hug me tightly,

"Later, no matter what comes out of that forest, you have to hug me tightly,

don't let go. Otherwise, when I deal with those wild beasts, I won't have the energy to control you! "

Jenny immediately hugged Yu Tian tightly.

She used so much strength that Yu Tian could barely breathe.

Yu Tian didn't know whether to laugh or cry as he said, "You don't have to use so much strength. How am I supposed to breathe with You Like This? If I Can't breathe, how am I supposed to fight those beasts? Pve already said ita€|"

"With me here, you don't have to be afraid of anything. Don't tell me you don't believe in my strength? "Let alone some lions, even if there really are monsters, I will kill them all in a minute! "

However, as soon as he finished speaking, dozens of lions jumped out from the surroundings and surrounded the two of them tightly.

These lions let out low growls from time to time. It was obvious that they had treated them as prey that they could feast on.

When Yu Tian saw these lions, he also had a headache.

Among them, there were two male lions, and the rest were all female lions.

Ever since this animal was born, it had always followed the tradition of evolution in the natural world, which was that the female lions looked for food, and the male lions enjoyed food.

But today, these lions appeared at the same time, obviously they wanted to have a group fight.

Moreover, these lions were even larger than the Lions of their own era. They looked like beasts.

Especially the two male lions. Their bodies were even larger. Judging by their weight, they were at least tons.

Jenny was so scared that she closed her eyes tightly. She did not even have the courage to look at these lions.

But with her eyes closed., she did not forget to remind Yu Tian, "If we can't beat them, we'll find an opportunity to leave. These beasts are simply too scary. I've never been so close to a lion in my entire life, if they attack us, what should we do?"

Yu Tian really did not even have the interest to talk.

This woman was usually in a battle of wits and courage with Celtic. At that time, she was quite brave, but now, when faced with these lions, why did she become so timid?

At this moment, the male lion let out a roar. This was an order to the other Lions to immediately kill these two prey.

All the female lions launched an attack at the same time, charging towards Yu Tian from all directions.

Yu Tian merely smiled indifferently. He didn't even blink his eyes as he directly erupted with a violent force.

This force was like a wave in a violent wind, spreading out in all directions.

Wherever it passed by, every lioness that was touched by the force fell to the ground in pain, letting out painful sobs.

The two male lions let out terrified roars and stood on the spot, circling back and forth. However, they didn't have the courage to charge towards Yu Tian.

Yu Tian, on the other hand, chuckled and said mockingly to the two male lions, "What the F \* Ck are you looking at? Your women have been beaten up by me, yet you two guys are still standing there watching. Are you guys male lions or not?"

The two male lions could not understand what Yu Tian was saying at all.

However, when they saw the painful howls of the female lions, the two male lions completely lost their courage and turned around to run into the depths of the forest.

Yu Tian felt extremely bored. He did not even feel anything as the group of lions retreated.

When the time came, he would fight with himself for a while more to make himself feel a little more fun. Otherwise, it would be meaningless to stay in the forest in the middle of the night with a timid woman.

At this moment, Jenny slowly opened her eyes and realized that the surrounding lions had all disappeared. There were still more than a dozen injured lionesses lying on the ground. She also said excitedly, "Wow, we won! We defeated these Lions! "

Yu Tian said disdainfully, "To be more precise, it was me who defeated these lions, not us. I almost wet my pants. If you were to fight these lions, your bones would have been eaten clean by them by now. "

"It's useless to say this now. Let's continue walking into the forest. I keep feeling that these lions seem to be commanded by someone, so we have to be careful. We don't know what other wild beasts will appear in front of us! "

As he said this, Yu Tian looked up at the sky. It was already midnight, and the forest was exceptionally quiet.

However, the quieter it was, the more strange it seemed.

Yu Tian slowly walked forward while observing his surroundings.

The deeper they walked into the forest, the denser the surrounding trees became.

When they reached the middle of the Black Forest, they couldn't even see the sky when they looked up.

However, at this moment, they still could not see any human figures.

The artificial intelligence had already disappeared. It was impossible to ask about it now. They could only slowly walk forward and slowly guess.

Jenny lay on Yu Tian's shoulder tiredly. She was about to fall asleep.

Every time she was about to fall asleep, she would wake up from the jolt. It was a particularly uncomfortable feeling.

In the end, when she could not take it anymore, she said to the discomfort, "Let's Rest for a while. If we continue walking like this, who knows when we will see people again. Moreover, I have always wanted to ask you..,"

"Why did we come here? "Could it be that the William Caesar you mentioned really lives in this desolate forest?"

"There are wild beasts everywhere here. Even if he really lives here, will he be able to survive?"

Yu Tian smiled helplessly and said indifferently, "I really can't answer your question. I also know from historical records that William Caesar lives in this Black Forest,

"But looking at it this way, we can only try our luck. If our luck is good enough, we will be able to meet him. At the same time, we will be able to design and manufacture our equipment in this Black Forest, i think Pm right. Let's take a break.."

?Chapter 726 – Chapter 725, Being Able To Speak

The temperature in the forest was particularly cold, and there was a clear difference from the outside.

Seeing Jenny shivering from the cold, Yu Tian found some branches and built a bonfire. Only then did the two of them feel warmer.

Jenny lay on Yu Tian's lap and said hesitantly, "I really don't know if you made the right choice, but we're already here, and it seems that we can't go back the way we came!"

"I guess Celt must have called a lot of people over. He has always wanted to kill William Caesar, and now he has an excuse and a chance!"

Yu Tian only looked at the bonfire. The burning flames seemed to be mocking him.

He had been beaten to the point of transmigrating here, and now he had to research equipment and return to his own era.

Fortunately, the power in his body did not cause him to suffer more difficulties here.

However, this also allowed him to see his own strength clearly. In his own era, if he did not have the help of the Chu sisters, he would not have been able to have such smooth sailing.

He still had to train his survival ability. Only then could he become a true expert.

The Chu sisters could not always stay by his side, nor could they all follow him. When he returned to the Cultivation World One day, the Chu sisters would still need to rely on him to protect them.

In his current state, he had no place in the cultivation world at all.

The more Yu Tian thought about it, the more distressed he felt. At this moment, Yu Tian's ears twitched and he heard very faint footsteps coming from afar.

He immediately frowned and gently rebuked Jenny, indicating for her to keep quiet.

Jenny became nervous again. She had only managed to get away with a group of lions, and now danger was approaching. Could This Black Forest really be a cursed place?

It was a pity that he was not a real wizard. Otherwise, he would have to remove the curse here. At the very least, he would not let any wild beasts appear until he found Caesar.

Yu Tian slowly got up and turned around to look at a pitch-black forest.

The footsteps stopped abruptly.

This person seemed to have discovered Yu Tian's existence, but he did not seem to be willing to show his face until he figured out Yu Tian's identity.

However, Yu Tian narrowed his eyes coldly and said loudly, "Since you are already here, if you are not hostile towards us, you can come out and sit with us for a while"

"If you're William Caesar, then we should talk calmly, because we're here to help you. I know that you're cursed by some evil thing..,

"You can only stay in this Black Forest forever, and I'm the one who will take you away. If you believe me, then please come to my side now! "

Jenny felt that Yu Tian's words might not be of any use.

The Black Forest was a cursed place. Even if there were people here, this person was either a madman or a killer. Just like those wild beasts, he was an inhumane barbarian.

Not to mention the people in this Black Forest, even the people in the castle were a bunch of barbaric lunatics.

But this time, Yu Tian's words really worked.

Footsteps sounded again, and a youth with disheveled hair and half-naked body suddenly stood up in the grass.

The youth was only seventeen or eighteen years old, and his eyes were still cold and guarded.

Jenny looked at the youth. According to his age, he was really the same as Caesar. Could This child really be William Caesar?

The true heir to the throne?

But looking at his appearance, he was almost like a savage.

Jenny shook her head in confusion and whispered to Yu Tian, "Is he really

William Caesar or Tarzan? Why do I feel that he is not like us humans?"

Yu Tian said disdainfully, "If you have lived in the forest for such a long time, you will also become a savage. I just hope that this child can still speak,

"Otherwise, communicating with him will be a problem. I don't know the sign language of this era! "

Just as he finished speaking, the youth suddenly opened his mouth and said, "I can speak, and I can understand what you are saying. Otherwise, I wouldn't have stood out to see you! "

It was good that he could speak. Yu Tian laughed and said, "Are You Williams Caesar?"

The youth did not agree or deny. He asked warily, "Who are you? Why did you come to the Black Forest? This is a cursed place. No one can leave here alive. "

"Were you the one who injured my companions?"

"You are talking about those lions, right? "Although Yu Tian said this naturally, he was extremely shocked in his heart.

His guess was indeed correct. The group of dead people were indeed commanded by this youth.

Jenny said that he was Mount Tai, and it was indeed reasonable.

To be able to call himself a companion to a group of lions, if it wasn't Mount Tai, then what was it?

Thinking of this, Yu Tian said, "I was the one who attacked them. At that time, as long as those lions attacked us, we were also trying to protect ourselvesa€| "

"As for hurting your partner, I am deeply sorry. But now is not the time to say these words. We are here to help you, but we also need your help!"

Caesar was very hesitant. He did not know whether he should believe or doubt.

However, looking at Yu Tian and Jenny, they did not seem like bad people.

Moreover, he could not sense any aura from them that would attack him. Therefore, he could still trust them now.

"Come with me. It's not safe here! "

After saying this, he turned around and ran into the forest.

His speed was extremely fast. Even Yu Tian frowned slightly.

If he followed him and increased his speed, Jenny would definitely not be able to keep up with him.

It was absolutely impossible for him to leave her alone in the forest.

Thinking of this, Yu Tian directly carried Jenny on his shoulder and chased after her.

After running for about two kilometers, Yu Tian saw a wooden house in front of him.

Although the wooden house was very simple, it was still a place for people to live. It seemed that he was really lucky to be able to see this wooden house in this dark forest.

Yu Tian put Jenny down and came to the wooden house. Caesar was already sitting at the door waiting for them.

Yu Tian also sat opposite him tentatively because Caesar was always on guard against him. If he made any big moves, he would definitely be shocked.

However, Caesar's gaze was always on Jenny. Yu Tian noticed that there was still a trace of passion in the child's gaze.

It was no wonder. A teenager who had lived in the forest for so many years would naturally be a little excited to see such a beautiful woman for the first time.

So he chuckled and asked indifferently, "How did you come to the Black Forest?"

?Chapter 727 – Chapter 726: I Will Protect You

Although Caesar was staring at Jenny and his heart was burning with passion, he still heard what Yu Tian said.

However, he was not in a hurry to answer Yu Tian's question. Instead, he turned around and walked into the wooden house. He took out a few coconuts and handed them to the thirsty Jenny.

At this moment, Jenny felt that this child was very considerate. He actually knew that his throat was smoking from his thirst.

She grabbed a coconut and poured it into her mouth.

The coconut was especially sweet and quenched her thirst. Yu Tian swallowed his saliva.

Caesar picked up another coconut and threw it to Yu Tian. Then, he slowly said, "I was born in this forest. I only know that there was a man who called me Caesar,

after that, he would often come to bring me food and teach me how to speak. But 15 years ago, I never saw him again. I only know that he made me remember one sentence,

15 years later, there will be someone who will take me away from here and become the king. Are you the one who will take me away from here?"

Yu Tian did not know how to answer him. He took a sip of coconut water and then said calmly, "You are indeed the heir to the throne, but I can not take you away from here yet, because in your country, there is a particularly ruthless person who wants to be the king. He will also send soldiers to hunt us down. And we have to do something else here,

"After we finish our things, I will definitely let you sit on the throne after you leave this place! "

"But I don't want to be the King!" Caesar said coldly. He then sat on the tree stump next to him and continued coldly, "This is my home. I'm not going anywhere,

"I don't care about being the king at all. If you like it, you can be the king. I just want to stay here and accompany my companions. If I leave, they will definitely be very sad! "

Yu Tian had seen many people who liked pets, but this was the first time he had seen someone like Caesar who was so obsessed with pets.

Weren't they just some lions and tigers? Why did he have to be so obsessed with this place?

Thinking of this, he said disdainfully one day, "You should be a king. You Can't stay here and play with those beasts. Don't you ever think about your people?"

What they need is a real king who belongs to them, not that crazy bastard who only knows how to show off and kill people all day long,

"If you let him continue to be a king, your kingdom will disappear in the end.

At that time, even this black forest will be filled with the flames of war,

"Do you really want to see your so-called companions in front of you? "If I Were you, I would never do that!"

Caesar seemed to understand Yu Tian's meaning and felt that what Yu Tian said made sense.

However, he could not accept this now. He needed time to slowly accept it.

After all, many years ago, that man had told him that he would become the king in the future. If this was his fate, then it would be impossible to change it.

He had said enough. He felt that he should leave this place and let them rest first.

Hence, he stood up and said, "There are many wild beasts around here. Don't leave the area of this wooden house. Otherwise, I won't be able to protect you.

"I'll sleep on a tree nearby, if you need anything, you can call me anytime and anywhere!"

After saying this, Caesar nimbly climbed to a tree in the distance, and then there was no sound.

This climbing movement was simply too natural. One day, he felt that if he wanted to climb this tree, he would not be able to do it so quickly.

It seemed that the man who had thrown Caesar here back then had really done a good deed to Caesar.

At least Caesar had trained here for so many years, and not many people could hurt him.

Of course, this did not include Yu Tian. If he wanted to kill this child, it would be easy.

But why would he do that? Unless he was crazy.

Yu Tian felt that if he continued to stay in this era, he would definitely go crazy.

However, it was really too late today and he was very tired. Jenny was already lying in the grass and was about to fall asleep.

Yu Tian got up and said to her, "You can sleep in the wooden house tonight. I'll be outside facing the bonfire. There's nothing to be afraid of. I'll always be at the door! "

Jenny nodded lazily. When she came to the door of the wooden house, she suddenly turned around and said, "I feel that it's safer for us to sleep together. Moreover, it's especially cold here!"

"You'd better sleep in the wooden house with me! "

Yu Tian also wanted to sleep in the wooden house, but thinking about the way Caesar looked at him, if he really slept with him, he would definitely let this child misunderstand.

It was best not to provoke this child now, or else if he really went crazy, the country would be short of a good king.

Therefore, he chuckled and said indifferently, "We will have a chance, but not now. Alright, stop talking. Go and rest. Tomorrow morning, we will start developing equipment and try to leave this place as soon as possible! "

Jenny did not continue with her request. She walked into the wooden house and lay on the tattered bed. Soon, she fell asleep.

Yu Tian lit up a bonfire and sat cross-legged to meditate. It was so quiet here and the air was especially good. It was especially suitable for practicing martial arts. Since he could not fall asleep now, he might as well settle his strength.

However, just as Yu Tian closed his eyes, he suddenly felt the ground shake slightly.

When he opened his eyes abruptly, Caesar also jumped down from the tree. His expression was especially nervous.

He even looked at Yu Tian suspiciously and asked coldly, "Are they the people you brought?"

Yu Tian smiled innocently and said, "How is this possible? I've already told you before. That uncle of yours, Williams Celt, even wanted to kill you when he peed. These people must have been sent by him!"

"But you don't have to be afraid. With me here, no one can touch a single hair on your head! "

However, Caesar coldly shook his head and said very arrogantly, "You guys are here with me. I should be the one protecting you. Stay here and don't move. I'll come back after I've dealt with them! "

As soon as he finished speaking, development was like a wild beast. He directly jumped into the dark forest and instantly disappeared without a trace.

However, Yu Tian smiled helplessly and said indifferently, "Since when did it become my turn to be protected by others? This is really interesting. Then, I have to follow and take a look. Even if I don't make a move, it's also good to watch the Show! "

Thus, he also followed the terrible direction and rushed over..

No data found.

?Chapter 728 – : Chapter 727: Do Not Leave

Caesar's speed was exceptionally fast. Yu Tian felt that his speed was already fast enough, but he was still left behind by Caesar by a large margin.

Moreover, what made Yu Tian feel particularly strange was that Caesar was making some wild beast's cries as he ran.

His cries were no different from those of wild beasts, especially his lion-like roars, which shook the surrounding forest and caused it to buzz.

Yu Tian also felt that this was very normal. After all, Caesar had already lived in this Black Forest for more than ten years. The only people who accompanied him here were those wild beasts.

Who said that wild beasts did not have feelings? If they had been with them for a long time, they would also have feelings.

Especially at this time, when those wild beasts heard Caesar's voice, it was as if they heard the call of their leader.

Countless wild beasts followed Caesar from all directions and ran towards the Black Forest.

There were even a few black panthers that did not even look at Yu Tian when they passed by.

Yu Tian felt that it was especially laughable that he was actually ignored by a group of wild beasts.

At this moment, outside the Black Forest, Ladoni frowned and looked at the pitch-black forest in front of him with hesitation.

He had heard that this Black Forest was a cursed place. No one could leave this place alive.

Now he had to carefully consider whether he should enter this cursed forest or not?

The soldiers behind him had already formed an attack formation. Ladoni knew very well that these soldiers had the same thoughts as him.

No one was willing to enter this dark forest because no one knew what kind of monsters existed in this forest?

Even if there were no monsters, if they entered and were cursed like this forest, then they would come here to seek death.

Although the soldiers had already formed a formation, they absolutely did not want Ladoni to give the order to attack.

Before they came here, the rumor of a curse in the Black Forest had already spread among them.

And it was rumored that there were people with noses and eyes.

At this time, there were still soldiers talking about this rumor.

"I really don't want to enter this forest. Someone once told me that this is a cursed place. The person who cursed this forest was a mage who was killed by our King."

"And his soul came to this Black Forest. No matter who enters this Black

Forest, they will be killed by his curse! "

"The version I heard was similar to what you said. It is said that the magician's soul turned into a devil here, so this forest has no color. I can feel the deep yin energy here! "

"Are we really going to enter this Black Forest? I don't think our commander would give such an order. As you can see, he is also hesitating."

"No matter what, I hope he can give the right order. The order is to leave this place!

The more he spoke, the more scared the people around him became. Even the formation was in chaos.

Ladoni turned his head to look at the cowardly soldiers, but he did not reprimand them. At that moment, his thoughts were the same as theirs. They were all afraid of this forest.

However, this was the king's order. He had already sworn in front of Celtic that he would kill William Caesar this time, so he had to fight this battle,

however, he did not want to fight now. Instead, he wanted to wait until daybreak, at least when there was sunlight, before launching an attack. This was because demons were afraid of sunlight. As long as there was sunlight, it would be the best protection for himself and the soldiers.

Therefore, he came to the front of the group and said loudly, "I know that you are all very afraid. In fact, I am also very afraid. Moreover, I also believe that this forest has already been cursed by the demons,

"King Williams of Celtic gave us an order, which is also our honor. But as your commander, I also want to bring you back alive,

"So I order now, to set up camp on the spot, and wait until dawn, then we will launch an attack. This time, we must kill Williams Caesar,

"You are all my most trusted subordinates, so you must remember that this is a special secret mission. Whether or not you can kill Williams Caesar, you can not tell others about this mission,

even if it is your family, you can not tell, otherwise it will be a betrayal to me, and to our king, if we can kill William Caesar,

we will enjoy endless glory and wealth, our king will certainly give us more wealth than we will ever use up in our lives, for this, so we must kill Caesar! " The soldiers listened quietly. When Radoni said this, he was indeed a little excited.

Especially when he thought of the King's reward, why did they become soldiers? Wasn't it just so that they could fill their stomachs?

Now was the perfect opportunity. As long as they killed Caesar, they would become the people above them in the future.

From the expressions of these soldiers, Radoni could see the excitement and excitement in their hearts.

This was what he wanted the most. As long as the morale remained here, he might be able to walk out of the Black Forest alive.

At this moment, Yu Tian, who was in the Black Forest, had also caught up with Caesar.

Yu Tian looked left and right. His current position was at the edge of the Black Forest.

Like Caesar, he climbed up the tree and looked into the distance.

The first thing he saw was radoni, followed by a dense mass of soldiers.

Caesar looked at those soldiers expressionlessly and said coldly, "They must be people sent by Williams Celtic. I hope they attack now! "

Yu Tian frowned slightly and asked in puzzlement, "Why are you waiting for them to attack? You can attack them now. Look at those wild beasts behind

youa€| "

"Those soldiers are definitely not your match. So why are you still waiting here?"

Caesar was silent for a few seconds, and his eyes were filled with pain.

He said in a low voice, "I also want to leave this place, but I can't leave this forest. You already know that this forest is a cursed place..2a€2

"As for me and my companions who live in this forest, they are all cursed. As long as we leave this forest, we will be struck by lightning,

"Therefore, I can only wait here. As long as they launch an attack and enter this forest, I can kill them anytime, anywhere!"

After Yu Tian heard this, he laughed and said, "Isn't it easy to get them to launch an attack? Just watch me! "

?Chapter 729 – Chapter 728: I Have The Confidence To Win

At this point, Yu Tian jumped down from the tree and landed on the ground without making any sound.

Caesar was especially surprised. If he had jumped down from such a high tree, it would not have been earth-shattering, but at least it would have made a sound.

However, the Yu Tian in his eyes was like a piece of paper that slowly landed on the ground.

This kind of action that completely went against conventional physics was really puzzling and shocking.

In this forest, he was the true king. Even the wild beasts had to submit to him.

The person who had brought him to the Black Forest had once said to him that he was the king of all things.

No one in this world would be stronger than him. Even those cruel wild beasts had to respect him.

Of course, that man had also told her that one day, someone would come and take him away. This was her destiny.

And the person who took him away was completely stronger than him.

It couldn't be denied that Yu Tian's strength was completely above hers. Even if he had his companions behind him, they didn't even have the chance to make a move in front of Yu Tian.

The Lions from before were the best explanation.

Those Lions were his best companions, and they were also the most valiant wild beasts that he knew.

Otherwise, why would he call the Lions the king of all beasts.

Even so, those lions were still beaten back by Yu Tian. There were also a few lions that were heavily injured. In the future, when they were searching for food, they wouldn't be as agile as before.

If that was the case, the soldiers outside weren't enough for Yu Tian to fight alone.

As he spoke, Yu Tian had already slowly walked out of the forest.

Ladoni was still talking to the soldiers. Some of the soldiers immediately became alert when they saw Yu Tian.

More soldiers raised their weapons in panic. The moment Ladoni turned around and saw Yu Tian, he was so scared that he almost fell off his horse.

He held the reins tightly to stabilize his body.

If he fell to the ground in front of so many soldiers, he would be the laughing stock of the soldiers in the future.

They would definitely treat the scene of him falling as a joke after a meal.

He would never be the laughing stock of the soldiers. He could only let them treat him as their honor and even their idol.

Thinking of this, Radoni first calmed himself down so that Yu Tian wouldn't scare him so much that he couldn't even speak on the phone.

After his heartbeat gradually slowed down, radoni said coldly, "Yu Tian, we treated you like a god, but you betrayed our king,

now, I came here in the name of the King to kill you. Not only did I want to kill you, but I also wanted to kill wizard Jenny. You have completely failed the king's expectations of you,

you have also run into this cursed dark forest. If you think this forest can provide you with protection, then you are gravely mistaken,

the soldiers behind me are the bravest warriors of this country. They are not afraid of death, nor are they afraid of any curses. Now, as long as I give the order, they will rush over and beat you into meat paste,

"If I were you, I would immediately kneel on the ground and kowtow to surrender. I would never make unnecessary sacrifices. No matter how much you can fight, or even if you are really a god, you have come to our country,

"Behind me are 1,000 elite soldiers. They have gone through countless battlefields and have long regarded themselves as monsters who kill people. Do you really want to provoke their ability?"

Hearing him act pretentiously, Yu Tian felt that it was laughable.

Not to mention these 1,800 people, even if more people came, they would not put them in their eyes.

In his era, there were many people whose combat strength was higher than these soldiers, but what could they do in front of him? They still obediently knelt on the ground and surrendered.

He smiled coldly and said disdainfully, "Radoni, you really shouldn't be here. I don't want to talk nonsense with you. You just need to think carefully,

Williams Celta€| "

Why did he let you come here? Didn't he know that this was a cursed place?

Other than me, a god, if any of you dared to step in here, you would definitely die without a burial place,

but even if Celt knew this, he still let you come without hesitation. In my opinion, he was borrowing my hand to kill you,

don't think that you are the best commander of Your King, but if you don't satisfy him, he will kill you immediately, just like killing an ant,

i Won't talk to you anymore. You are a very smart man, you can totally understand what I mean. And I also want to remind you not to rashly attack us,

this is not good for you. It might not even be possible for you to return alive. So, you better listen to me. Now, take your people and leave this place as soon as possible, otherwise, you will definitely be beaten up by the monsters behind me and make you doubt your life! "

Lado laughed and said disdainfully, "I already guessed that you would say that, but I also want to remind you,

do you really think that the 1,000 people behind me have no ability at all? You better not forget that they are all my most elite soldiers. If we fight together, you have no confidence in winning! "

Yu Tian shook his head helplessly. It seemed that no matter what he said, these people were seeking death without hesitation.

However, he was too lazy to deal with these people. Their strength was not enough to fill the gaps between his teeth in front of him.

It was better to leave them to Caesar behind. That child had stayed in this forest for so many years and was eager to have a battle to prove his ability.

Now was the perfect opportunity, so he would leave them to him.

Thinking of this, Yu Tian said indifferently, "Since we can not continue speaking in a friendly manner, then what are we waiting for? Then let your soldiers charge over, and let me see just how strong they are! "

Ladoni hesitated. Yu Tian himself was already scary enough, and behind him was the cursed Black Forest. Why did Yu Tian have so much confidence here?

It must be because this black forest had allowed him to discover some unknown power. If he rushed in recklessly, no one would be able to come out alive.

Therefore, he sneered and said disdainfully, "I won't attack you today. I'll give you enough time to leave.. When the sun rises, we'll attack you! "

?Chapter 730 – Chapter 729. This Was An Opportunity

Ladoni had considered the situation thoroughly. If they attacked Yu Tian now and were brought into this black forest by him, his 1,000 men would not be enough for them to play with.

However, Yu Tian laughed and said arrogantly, "If you want to fight, fight now. Why wait until tomorrow? You have so much time to waste, but I don't have so much time!"

"If you say you're afraid, then take your men and get out of here. If you want to fight, then don't wait until tomorrow. Let's do it now!"

As soon as he finished speaking, Yu Tian didn't give Radoni any chance to speak.

He raised his hand and threw a punch across the air. The violent force caused the ground to tremble.

At least a hundred soldiers were shocked to death by this force.

The remaining soldiers were so frightened that they turned around and wanted to run. Ladoni gripped the reins of his horse tightly. Although he was extremely terrified, he had to hold down the fort now. He absolutely could not let his people panic.

The reason was extremely simple. If he could not kill Yu Tian here, then when he returned, Celt would also kill all of them.

Therefore, this was an opportunity. He could either live a life of Glory or throw his life here.

Although it seemed like there were two choices, to him, there was no choice at all.

Since Yu Tian had already made his move, there was no need to wait until tomorrow.

Therefore, he immediately shouted, "Stabilize the formation, maintain the formation, and immediately attack Yu Tian. He is our glory, he is our honor. Let us kill him together!"

Although the soldiers did not have the heart to do so, the commander's order was like a tight curse that was placed on their heads. They had no choice but to raise their weapons again and reposition themselves in the formation, ready to attack Yu Tian.

If Yu Tian wanted to kill them, it would be extremely easy. It would be easier than breathing. However, in order to give Caesar this opportunity, Yu Tian was still here to stimulate them to take the initiative to attack.

Ladoni tried his best to remain calm. This battle was the most challenging battle he had ever experienced in his life.

If there was a mistake in his judgment, or if he gave a wrong order, he and the soldiers would be doomed.

After thinking about it, Ladoni decided to test the strength of the Black Forest first. If it was just Yu Tian himself, then he still had a trump card that he could use to kill Yu Tian.

After making this decision, Radoni immediately gave the order to attack.

The soldiers wearing armor and holding swords walked towards Yu Tian in rows.

Their movements were particularly slow, but this was a particularly experienced type of attack.

When Yu Tian saw this, he really couldn't help but praise their combat experience.

In that era, there were no hot weapons, not even cannons.

If there was a conflict between castles, they would settle it by fighting on the battlefield.

And their fighting style was just like now. They formed an attacking formation and began to attack the enemy.

That was to say, their attacking formation was particularly important. Not only did they have to protect their companions on both sides, but they also had to let the entire formation unleash its strongest attack power.

That was why the soldiers paid special attention to the positions of their comrades on both sides. As they advanced, they tried their best to adjust the distance between each other.

This way, they would not accidentally injure their comrades during the actual battle.

However, this kind of battle scene was not considered a big one. Yu Tian felt that every battle he had experienced was much bigger than this one.

While he was here, he had no choice but to cooperate with their attacks and let them get as close to him as possible. Only then would he be able to bring all of them into the Black Forest.

Meanwhile, Caesar, who was in the Black Forest, also became nervous as he watched the soldiers approach him step by step.

Ever since he came to this Black Forest, he had lived a carefree life every day. It was the happiest when he played with his companions.

He had never thought that there would be so many soldiers attacking this quiet forest one day.

Since he had no choice and was destined to leave this place, then he would fight them to his heart's content.

Perhaps they had sensed Caesar's aura, the wild beasts behind him also bristled and growled.

They seemed to be telling Caesar that they were ready to sacrifice their lives for him at any time and fight to the death against the invaders outside.

Outside the forest, Ladoni stared unblinkingly at the formation in front of him and said to a soldier beside him, "The members of the first team may not be able to return. Get Our archers toa€| "

"Prepare to attack from the back. When you see my order, fire ten thousand arrows at them! "

The soldier nodded coldly and turned to run towards the valley behind him.

In the valley, there were still 500 soldiers.

These soldiers were Ladoni's subordinates. They were all archers and usually hunted outside with Ladoni.

Radoni felt that the enemy today was particularly powerful. Moreover, it was to complete the order that Celt had given him. Therefore, he brought these archers over.

After receiving the order, the archers who were sitting on the ground stood up at the same time.

They were soldiers who attacked from afar. As long as they were prepared and waited for the signal in front of them, they would be able to fire their arrows.

At this moment, the first group of 200 soldiers was less than 50 meters away from Yu Tian.

At this moment, the corner of Yu Tian's mouth curved slightly. He waved at the soldiers and turned around to walk into the Black Forest.

The soldiers suddenly stopped in their tracks. If Yu Tian was outside, even if they were to fight with their lives, they would be able to fight him for a while.

However, it was absolutely impossible for them to enter the Black Forest.

They did not want to let the curses circling the Black Forest take their lives.

Ladoni furrowed his brows tightly. Yu Tian was deliberately dragging these people into the Black Forest. What exactly was in the Black Forest? What could make Yu Tian so confident.

He should first see what he had. Otherwise, the archers behind him would not be able to attack.

Thinking of this, Ladoni shouted expressionlessly, "Don't turn back, or you will be disobeying orders. I can kill you now and continue attacking! "

The soldiers gritted their teeth, but they could not disobey their orders.

Everyone looked at each other. They could only brace themselves and walk into the Black Forest.

When they stepped into the Black Forest, Caesar, who was standing in the tree, narrowed his eyes coldly..

## **I Have 108 Older Sisters #Chapter 731 - Read I Have 108 Older Sisters Chapter 731**

?Chapter 731 – : Chapter 730-Do Not Be Afraid

The soldiers who had entered the Black Forest no longer cared about their attack formation. They looked around in fear.

The more afraid they were, the more afraid they were. It was as if the trees around them were all devils.

Some of the soldiers wanted to retreat, but at that moment, a piercing howl suddenly sounded from the trees in front of them.

This kind of howl was extremely ear-piercing and terrifying in the pitch-black night.

Some of the soldiers were so frightened that they couldn't stop trembling as they said, "Did you hear that? What on Earth is that thing shouting? Could it be that cursed demon?"

"I think this is the worst decision that ladoni has ever made. He wants us to come here and throw our lives away. I absolutely don't want to stay in this damned place right now. Which one of you is going to retreat with me!"

"But if we go back, you won't be able to live either. Since we are already here, let's take a look at what that cursed demon is. Let's try our best to kill him, because we have no choice! "

As soon as he finished speaking, rustling sounds suddenly came from the surrounding bushes. It sounded especially terrifying.

The soldiers gathered tightly together and looked around in fear. They had no idea what would jump out from the bushes.

They raised their swords and shields and were ready to fight.

At this moment, a soldier shouted, "No matter what is jumping out of the bushes, we must be prepared to fight them. We must not be afraid,

otherwise, we will not leave this place alive. Everyone listen to me and Raise Our Swords! "

Although everyone was filled with fear, the soldier's words made everyone understand that they could only fight to the end if they had any hope of leaving this place alive.

Fortunately, they were very close to the edge of the forest. If they really couldn't win, it was still possible for them to retreat.

However, at this moment, an angry roar suddenly sounded from the grass.

The Roar tore through the dark night sky of the forest, as if hungry ghosts were yearning for those evil souls to fill their stomachs.

After the roar, a group of lions jumped out of the bushes like lightning. Under the faint moonlight, each lion's eyes shot out cold killing intent.

The soldier shouted again, "Oh my God, it's lions. Everyone, don't panic. We must protect our formation with shields! "

However, the movements of the Lions were too agile. These top predators in the forest always had various ways to tear their prey apart when they faced them.

In their eyes, these soldiers were not even as agile as the pheasants in the forest.

In the blink of an eye, the Lions had already broken through their formation and instantly bit off the necks of many people.

The soldiers also brandished their weapons and attacked the Lions.

However, the Lions were extremely agile. Not only could they dodge their attacks, but they would also snap the necks of the soldiers if they were given a chance.

At this moment, dozens of black shadows appeared in the grass. Their roars were even more terrifying.

The soldiers turned around and saw that it was black panthers.

These Black Panthers were even faster than lions. Before the soldiers could react, the Black Panthers had already bitten off the necks of many people.

There were even more wild beasts behind them. They shook the sky and shook the earth as they charged towards the soldiers.

Some of the soldiers who could still run threw away the knives in their hands and turned around to run out of the forest.

However, just as they ran to the edge of the forest, a youth with messy hair suddenly appeared in front of them.

The soldiers frowned tightly. In their fear, they felt that this youth was the cursed demon, scaring them so much that their souls would not possess them.

Caesar was not good with words to begin with, and now was the time to fight.

It was just like those wild beasts that were biting the soldiers. In their eyes, there was only the law of the jungle, and there was no sympathy to speak of.

Before the soldiers could react, Caesar had already jumped in the middle of them. His ten fingers that were like sharp blades slashed around the bodies of the soldiers.

Even the hard armor was unable to withstand Caesar's power.

In the blink of an eye, dozens of soldiers were knocked to the ground by Caesar and died.

Yu Tian, who was standing on a tree in the distance, looked on in fear.

If he had not seen it with his own eyes, no one would have believed that this thin and weak youth had such powerful attack power.

Especially his fingers. Even his hard armor could not withstand his attack.

From the looks of it, Caesar was also considered a pretty good expert. If he had the chance, he would definitely fight with him.

When that time came, he would definitely be able to comprehend many things.

At this time, the Black Forest was completely silent. None of the soldiers who had rushed in had left alive. Furthermore, they had all become food for the wild beasts.

Looking at the wild beasts fighting over the bodies of the soldiers, Yu Tian felt a little disgusted.

In this era, when facing nature, they did not have any room to resist.

But at this moment, Yu Tian suddenly raised his head and looked at the sky opposite him.

Under the moonlight, it was as if a flock of birds had flown towards the forest.

Their speed was exceptionally fast, as fast as lightning.

Yu Tian suddenly widened his eyes and shouted at Caesar.

"Caesar, retreat immediately. Those are bows and arrows. Don't let them hurt you!

Although Caesar's combat strength was formidable, his reaction speed was not that fast. He looked at Yu Tian with some confusion.

What exactly were bows and arrows? How powerful were those things? Could they be more powerful than his companions?

Seeing Caesar standing there without moving, Yu Tian was really anxious.

He jumped to Caesar's side as fast as he could, grabbed Caesar's arm, and rushed into the depths of the forest.

When Caesar looked back, arrows rained down like raindrops, killing the wild beasts that were fighting for the soldiers.

Some of the wild beasts even cried out in pain, but in the end, they fell helplessly into a pool of blood.

Especially the male lion, whose body was full of arrows, was killed on the spot.

He tried to break free of Yu Tian's arms and go back to save his companions.

However, he found that Yu Tian's hands were especially strong, and he couldn't break free at all. He could only watch as his companions fell to the ground one after another.

Yu Tian turned around to look, but he didn't feel any heartache. This was the evolution of nature. They were just a group of animals. Even if they weren't killed by these arrows, they would still die at the hands of their natural enemies.

However, that Radoni was actually able to play such a trick. This time, it was really a little fun..

?Chapter 732 – Chapter 731, Guardian

When they returned to the wooden house, Jenny was still sleeping soundly. She had no idea that an earth-shattering battle was going on outside.

In this battle, Caesar's friends who had played with him since childhood had also suffered countless casualties.

Caesar sat on the ground in great sorrow. He had always treated his friends as his family in this forest. He had watched his family die in front of him, but he was powerless to do anything about it, this feeling was really painful.

Yu Tian also sat beside Caesar, trying his best to comfort this child.

After all, he was still a youth. To be able to experience such a cruel war, he might not be able to forget it for the rest of his life.

However, war was war. No matter how large it was, the death he had caused was not something that could be ignored.

Caesar clenched his teeth tightly. Although his heart was in great pain and his eyes were especially sore, he did not even know that he was crying.

No one had ever told him how painful it was to cry when a person was weak.

Yu Tian touched his forehead and said in a low voice, "I know that you are in extreme pain right now. I have experienced this feeling before, but this is war. Everyone who has experienced war will see death, you are no exception. Moreover, you will experience more wars like this in the future. So, it is better for you to take it Easy Now!"

Caesar's gaze was especially pained, and his expression was also especially dejected. He said with a heavy tone, "But my companions are innocent. They only want to help me, but I will never see them again in the future."

"Will wars really be so cruel? Why would there be wars?"

Yu Tian said indifferently, "That's because people don't want to give up their own interests. Everyone wants more things, including me. "

"I've also been pursuing to become the strongest person in the world. Many people have died for my goal. Although I feel pain for them, I don't think they're innocent. "

"That's because everyone who has experienced war isn't innocent. I miss your companions so much. Although they did it to help you, they also killed many people. If that's the case€|"

"Do you think those soldiers are innocent as well?"

As he said these words, Yu Tian felt that he was telling this young man something that he had hidden deep in his heart.

Rather than comforting this young man, it was better to say that he was comforting himself.

After all, he did not want to give up on this pursuit. Because behind this pursuit, there were too many things that he could not give up.

Although Caesar did not quite understand Yu Tian's meaning, he also knew that Yu Tian was doing this for his own good.

In his eyes, there was only good and bad in this world, no other feelings.

His companions were good, but those soldiers were bad. If they had not invaded the Black Forest, his companions would not have been killed.

Yu Tian smiled indifferently and said softly, "So you don't need to blame those soldiers, and don't blame yourself. If you want to blame someone, blame that uncle of yours, Williams Celta€|"

These soldiers were sent by him, and their mission was very simple. They wanted to kill you, but I think you don't care about these things like I do,

because we all have a thing in our bones that we never know what is fear. We call this thing courage, and I think you also have this courage,

"However, what I want to know now is not this, but the so-called curse. Why did it let you stay in this Black Forest? "You can not leave this place, if you know..,

"You can also tell me, when you leave this place, what you know might help Caesar slowly raised his head and looked at Yu Tian with clear eyes. He asked doubtfully, "There are so many soldiers outside. What if they rush in?"

Yu Tian laughed and said arrogantly, "With me here, what are you afraid of? If I wanted to kill them, I would have been able to kill them when we were outside the forest. "

"I just want to give you a chance to know yourself. I want to let you know who you are and what kind of life you should face in the future. Although I don't have any obligation to do this, I still want to do it."

"Perhaps this is the reason why I came here, but there's no need to say anything else. Not to mention those soldiers, even if Williams Celt personally brought the soldiers here, I wouldn't put him in my eyes! "

Having seen Yu Tian's methods towards those soldiers before, Caesar trusted Yu Tian's words very much, and his heart was no longer so nervous.

He picked up the coconut beside him and drank it in large gulps. It seemed that this was the only way to calm him down.

Yu Tian waited quietly for him to calm down before he slowly said, "Now you can tell me everything you know! "

Caesar looked at Yu Tian again. It seemed that he still had a final hesitation, but it disappeared very quickly.

He still believed in this man in front of him.

So he threw the coconut shell at his feet and said in a low voice, "The person who sent me here told me that I have to protect something very important here,

"When the person who came to pick me up appears, I can take that important thing in my hand and inherit my throne. But during this time, I can't leave the forest even half a step,

"Otherwise, that important thing will release the curse on his body. At that time, all the lives in the Black Forest will be killed by him! "

Yu Tian frowned slightly. He felt that he often met some guardians.

He originally thought that this time, he would meet a high-class king.

However, this king was also a guardian. Of course, the thing he guarded would definitely be able to help him inherit the throne.

If his guess was correct, this item was definitely a very precious treasure.

Since it was a treasure, Yu Tian felt that it was rather exciting.

Hence, he followed up by asking, "Do you know where this treasure is?"

Caesar nodded and said very confidently, "Of course I know where it is. If you are the person who can bring me out of here, I can bring you to see that treasure. After all, I don't know what it is,

"I knew I had to protect it here, and it can make me a King! "

Yu Tian nodded and said with satisfaction, "There's no rush to see the treasure. And it's so late now. You can go there when you have time. Now, Go and rest for a while!"

"Leave the soldiers outside to me. You Don't have to worry about anything else.. Just rest well! "

?Chapter 733 – : Chapter 732, Understanding

Caesar nodded. He was not in the mood to fight with these soldiers anymore. If he did, more of his comrades would die in this war.

Therefore, he quietly jumped onto the tree. Even if he could not sleep, he had to think about his comrades.

As for Yu Tian, he did not have any thoughts of sleeping. Now was not the time to rest.

Ever since he came to this era, he had no time to rest. Instead, he had to spend most of his time on how to return to his own era.

In the end, the soldiers outside had to be dealt with by himself.

Caesar was still a youth after all. In this Black Forest, he could freely enjoy the beauty of nature, but if he came into contact with a real war.

To Caesar, who was still a youth, it was still a bit cruel.

The opportunity was given to him, and it also allowed Caesar to experience the cruelty of war. That was enough.

As he spoke, Yu Tian had already arrived at the edge of the forest.

The animals that had been shot to death by bows and arrows were still lying on the battlefield. Even the air was filled with the smell of blood.

To the animals, they were also afraid of death. However, they would throw death to the back of their minds for the sake of a certain emotion.

Humans could never be like animals, only sacrificing their lives for a certain emotion.

If it was him, other than the 108 sisters, it would be his family and his children. All of these could make him sacrifice his life.

There were no conditions and no preconditions. As long as it was necessary, he would do it without hesitation.

Outside the forest, the soldiers had already set up a camp.

Although they were particularly afraid of the previous war, for the sake of Honor, glory, and wealth, they could not retreat now.

Even if they could not kill Yu Tian, they had to kill Caesar. This was the mission that Ladoni had given them.

As some of the soldiers said, Ladoni knew William Celtic very well. He knew what Celtic was thinking.

Celtic wanted his position as king to be stable forever.

If Caesar continued to live, his position as king would be overthrown by his people at any time.

After all, the people living in this country had always thought that Celtic was just a person who was managing them in the place of the king.

Deep in their bones, they still hoped that Caesar could return to their kingdom and lead them to true prosperity.

Radoni sat in front of the bonfire with a particularly gloomy expression.

Even though he knew that it was extremely difficult, even impossible, to kill Caesar, he still had to think of how to kill him.

This was also to increase his own life. Celtic would not give them opportunities again and again.

But now it was obvious that if they wanted to kill Caesar, they had to first kill Yu Tian.

This was even more difficult than killing Caesar.

Their archers might still be useful in large-scale battles.

If they really entered the Black Forest, they would be no different from the soldiers who had been killed. They might even be inferior to those soldiers.

One thing was certain, the archers could provide cover for the other soldiers.

When they entered the Black Forest, these archers could use their bows and arrows to kill the wild beasts.

Without the help of the wild beasts, Yu Tian would not be able to have such high combat strength. He could still win.

Therefore, the archers were his true trump card. He had to make good use of them this time.

At this moment, Yu Tian had already arrived at the valley behind them.

Standing on the peak of the mountain, he lowered his head and looked down. The little fires in the camp were like tired eyes in the dark night.

The entire valley was exceptionally quiet. Some of the soldiers were not worth saying these jokes that they could understand.

Laughter could occasionally pierce through the silence of the night, but it seemed especially empty.

The soldiers stood by the bonfire and were discussing.

"We have made a contribution today. If it weren't for our attacks, Ladoni's side would not have won that battle so easily! "

"You're right. We're the most elite soldiers. The bows and arrows in our hands have provided them with a lot of cover!"

"Do you even need to say that? We're the strongest soldiers because we can use our distance advantage to attack the enemy. No one can dodge our attacks!" As they spoke, the soldiers laughed out loud.

But at this moment, a black shadow suddenly flashed past behind a soldier.

This soldier hurriedly turned his head back, but he didn't find anything. He scratched his head in confusion and asked the people around him. "Did you guys see something behind me? I also heard footsteps! "

A few soldiers laughed out loud, mocking this suspicious fellow.

"There's a girl behind you, and she's about to marry you! "

"There are many treasures behind you, and they all belong to you. If you dream now, you can take all these things home and buy countless women!"

"I think you're like an idiot. We're all sitting across from you, and we didn't see anything behind you. Are you drunk? I told you not to drink those fake wines!"

"But you didn't listen. Now you're hallucinating! "

The soldier had nothing to say after being scolded. He felt like he was really hallucinating.

It seemed like it was better to drink less fake wine in the future. He didn't want to drink until he was delirious and hallucinate everything.

At that time, he wouldn't be able to fight on the battlefield anymore. He might be like those people, either farming or hunting. Anyway, he wouldn't be as pretentious as he was now.

However, at this moment, another figure appeared behind another soldier.

The difference was that this figure did not disappear quickly. Instead, under the flickering flames, he slowly appeared behind a few people.

This time, everyone heard the sound of footsteps and turned around in unison.

They saw Yu Tian smiling at them with killing intent.

Before the soldiers could take out their weapons, Yu Tian casually waved his hand, and the soldiers died under his power.

They could at least catch a glimpse of Yu Tian, but the soldiers who were sleeping soundly did not have the honor.

Yu Tian did not want to kill them one by one. That would be a waste of time.

Grenades were particularly useful at this time, especially incendiary bombs, which could be used now?

?Chapter 734 – Chapter 733, Irreversible

Yu Tian's backpack was filled with many weapons, especially grenades and incendiary bombs.

When he was transporting these weapons, he had stuffed them into his backpack.

Now, the weapons in his backpack were enough to start a large-scale war.

However, Yu Tian did not consider whether the people of this era could accept this or not?

Therefore, when the incendiary bomb and the grenade exploded at the same time, the earth-shattering explosion broke the silence of the night.

Even ladoni and the other soldiers on the other side were frightened to the point of panicking. Everyone's faces revealed a terrified expression.

Especially the deafening dream that was emitted when the grenade exploded, as well as the burning of the incendiary bomb, even the sky seemed to be dyed red.

Some soldiers could not suppress the fear in their hearts and shouted in panic, "What on Earth is that? Why do you think that? Why is there a Fire?"

"It must be that God, or else no one would be able to create such a sound! "

"It seems that the archers have thoroughly angered this god. He used the fire in the sky to burn all those bastards to death. This is simply too terrifying. Do We have to continue fighting?"

Ladoni also heard these terrified voices, and his heart was also filled with fear.

Especially when he heard those rumbling sounds, it felt as if the entire sky had collapsed.

How could there be such a powerful thing? Wouldn't those archers of his still be alive?

Thinking of the Archers, Ladoni immediately sobered up from his fear.

He hurriedly jumped onto his horse and led his soldiers towards the valley. No matter what, he could not let his trump card, the archers, be annihilated.

If that was really the case, there was no chance of winning this battle.

When they passed through the valley and came to the front of the camp, everyone was deeply shocked by the scene in front of them.

The previously quiet camp had now turned into a sea of fire.

The soldiers who were still struggling in the Sea of fire had completely turned into burning men. Their screams and cries of fear resounded throughout the sky.

Ladoni was completely shocked by the scene in front of him.

He didn't even know how to give the order. Even if he gave the order, no one was willing to rush into the fire to save those people.

What made them even more afraid was that there were many big pits on the ground, as if they had been smashed by something.

How could there be such a big pit? How did they form it?

Just as they were feeling bewildered, Yu Tian, who was at the top of the mountain, revealed an indifferent smile.

They actually dared to come over here. That saved them a lot of time.

It saved him from having to run over there again and kill these people.

Good, then let them all die in this valley.

Think of it as revenge for Caesar's companions.

Thinking of this, Yu Tian took out grenades and incendiary bombs again.

When the grenades landed at the feet of the soldiers and Radoni and the others, although they found something, they had no idea what it was.

Just as they were wondering what it was, it exploded.

The loud explosions, the earth-shattering shaking, and the flames that filled the air caused the soldiers to completely lose their will to fight and even their rationality.

Even though they did not know what it was, they all thought that it was a divine weapon.

Ladoni looked up and saw Yu Tian. However, at this moment, there was no anger or anger. There was only deep fear in his heart.

It was as if Yu Tian, who was standing on the top of the mountain, was no longer the god from the sky.

He was a real devil.

He used some unknown thing to bury his soldiers in the Sea of fire.

Only a demon could do such a large-scale attack.

Just as he was deep in fear, a grenade rolled to his feet, followed by a violent explosion.

Ladoni felt as if his body had been hit by something. All the bones in his body were shattered at this moment.

Following that, his vision turned black and the entire world fell silent.

Yu Tian threw down more than a dozen grenades in the end. After making sure that no one was alive, especially ladoni, he waited until all their lives had disappeared into the Sea of fire before smugly clapping his hands, he turned around and walked towards the camp at the edge of the forest.

There were still many soldiers there, and they had to die here as well.

If it were any other time, he would not have bothered to kill these people.

But just as he had told Caesar, this was a cruel war.

In a war, it was impossible not to kill people. The number of people who died would directly determine the outcome of the war.

Although this was only the beginning of the war, as long as it was a war, one side had to die.

This was something that could not be changed and could not be reversed.

Even if he did not want to go and kill these people, he was already on the battlefield, so he had no choice.

Because those soldiers also had no choice.

If he did not kill them, they would soon have new orders. That bastard called Celtic would let them continue to seek death here.

Even Celtic himself would personally lead other soldiers over and continue to attack Caesar.

Rather than wait until then, it would be better to let them be freed earlier.

Another round of grenades and incendiary bombs. The people at the edge of the forest were also buried in the Sea of fire.

However, there were also a few soldiers who left this place alive.

Yu Tian did not chase after them. Someone had to inform Celtic.

After Celtic knew his strength, if he was afraid, then he should not play tricks behind his back while he was busy.

If he really wanted to die, then he could come here as much as he wanted.

Then he would let them come and kill as many people as possible.

When he returned to the wooden house, the sky was almost bright.

Yu Tian added some more wood to the bonfire to make the flames more vigorous.

The surroundings were especially quiet. Yu Tian also felt that he should rest for a while.

In the blink of an eye, it was morning. Yu Tian was in his sleep and felt as if someone was touching his face.

He suddenly opened his eyes. It was Jenny.

At this moment, Jenny, who had fetched water from God knows where, tore off a piece of her clothes and used it as a towel to gently wipe Yu Tian's face.

Caesar was sitting not far away, staring at Jenny without blinking.

Yu Tian gently held Jenny's hand. At this moment, being able to feel Jenny's temperature made him feel that it was still possible to return to his own era..

?Chapter 735 – : Chapter 734: He Will Live

No matter what, the human species needed the companionship of others, especially the opposite sex.

Otherwise, the species could not be divided into men and women.

Especially in this era. Ever since Yu Tian came to this era, he had felt a sense of loneliness that he had never felt before.

He missed the 108 sisters very much, even though up until now, some of them had not even met.

However, protecting these women seemed to have become his responsibility.

In this era, he had no idea what those sisters were going through. If they knew that he had disappeared, they would definitely be anxious.

Yu Tian's thoughts were correct. After Yu Tian disappeared from that city, the entire Chu family was shocked.

Even the senior management of the monks had started to prepare for a full-scale war.

Chu Aotian had been staying in his room the whole time. Even when the 108 sisters had returned to the headquarters in the imperial capital, they all wanted to know where Yu Tian was? Why was there still no news of him?

However, Chu Aotian could only answer them by searching the entire world for

Yu Tian.

For this, the Chu family would pay any price.

Meanwhile, in Sean's headquarters, Chu Meng and the others had turned on almost all the search equipment. Even the internet had covered the entire world.

However, there was still no trace of Yu Tian. All kinds of signals were unable to find Yu Tian.

Chu Qing was crying so hard that her eyes were swollen. There were many sisters like her.

Some of the sisters even felt afraid.

If Yu Tian really disappeared, then it could only mean that Yu Tian was very likely killed.

If that was the case, then the people in the cultivation world would definitely not allow them to continue existing.

The 108 sisters' existence was for Yu Tian. If Yu Tian was no longer around, then there was no need for them to live.

Chu Aotian naturally knew that if Yu Tian really died, then the entire Chu family would also disappear from this world.

No matter how powerful their family was in this world, in front of the cultivation world, they were like ants, easily trampled to death.

At this moment, Chu Hui also came to the courtyard.

Her red eyes let everyone know that she was also in endless pain, barely holding on to her will.

Even though she did not believe that Yu Tian would die, there was no news of him.

The 108 sisters all stood up and gathered around Chu Hui.

However, no one said anything because they did not know what to say.

Chu Hui did not want everyone to be sad as well and tried her best to encourage everyone.

"Sisters, let's not be too sad now. A good person will be blessed by the heavens. I believe that Yu Tian will not be killed so easily. He is a destined person and will naturally be blessed by the heavens!"

"However, he might have encountered some difficult challenges right now. However, I believe that he will definitely be able to rely on his own strength to return to our side alive!"

Everyone nodded their heads vigorously. When Yu Tian was by their side, they did not feel anything. In fact, some of their sisters even deliberately avoided Yu Tian.

They did this because they did not want their fates to be controlled by the so-called family.

But now, Yu Tian had disappeared. The entire family clan was plunged into darkness. In fact, they had even appeared. There had never been any chaos like mine.

Everyone was feeling fear. If Yu Tian were to die, it would be impossible for everyone present to continue living.

Yu Tian had Yu Tian's fates, and they also had their own fates.

The fates of each and every sister were tightly linked to Yu Tian. This was something that could never be changed.

That was why they now knew the importance of Yu Tian. Everyone prayed in their hearts that Yu Tian would be able to return alive.

Most of the sisters were in extreme pain and sorrow at this moment.

However, there was one sister who did not shed a single tear.

She was Chu Hui.

For this reason, she had specially returned to the Chu family's headquarters from the research and development base.

Among these sisters, her IQ was the highest. When she saw how sad and sad everyone was, she helplessly shook her head and said softly, "Everyone, don't worry. Yu Tian will not die!"

Through my analysis of the data over the past few days, it was very likely that Yu Tian had fallen into a certain dimension or space. You can also think about it. If Yu Tian really died..,

his family's side would have long since launched an attack on us. Our 108 sisters wouldn't be able to stand here alive, so don't worry about those useless things..,

now, we just have to wait quietly. I believe that Yu Tian will definitely be able to resolve this challenge. Moreover, I'm also extremely certain that after Yu Tian returns alive, his strength will become even stronger,

"Because he is our man, we have to have confidence in him. Even if we can't help him, we have to support him with our spirit! "

Chu Hui's words were especially infectious. After the sisters heard it, they were all very excited.

Chu Hui also nodded and agreed, "Sister is right. We are all Yu Tian's women.

Other people are in chaos at this time. We absolutely can not lose our footing at this time. "

In particular, there were all kinds of rumors about us in the outside world. We

Are Yu Tian's women. At this time, we must first calm down,

what sister said was also very reasonable. There was still no movement in the immortal cultivation world, which meant that Yu Tian was not dead yet. Moreover, they were also very sure that Yu Tian would be able to come back alive,

"Therefore, we shouldn't worry about these useless things. From now on, everyone should do their jobs well, especially in the outside world. Later, we will hold a press conference and say that Yu Tian is on vacation, "He will be back soon! "

Everyone nodded in agreement. This was what they should do now.

They should support Yu Tian and wait for him.

At the same time, Yu Tian from that era gently held Jenny's hand and whispered into her ear, "If you treat me so well again, Caesar might get angry!

Jenny looked at Caesar behind her in confusion. Indeed, she found that the way the child looked at her seemed to be particularly complicated.

She asked Yu Tian in disbelief.

"Could it be that this child has fallen in love with me? He's still a teenager! "

Yu Tian said disdainfully, "Look at your words, it's like who isn't a teenager. Pm only two or three years older than him. You should know that Caesar has lived here alone for so many years and has never seen any woman€| "

"Your appearance is so cool.. Do you think that he might not like you?"

?Chapter 736 – Chapter 735, Hazy Love

Jenny hurriedly shook her head and said, "Don't joke with me. Even though you're also a teenager, you look much more mature than him. I don't want to be liked by a child,

"With my age, I can already be the child's mother. Let's talk about something else!"

Yu Tian laughed and said, "If we don't talk about this now, then what should we talk about? "You should also take my previous words to heart. Caesar has lived here for so

many years, so it's very normal for him to have feelings for someone of the opposite sex like you,

"After all, this child has never had the love of a mother since he was young. He doesn't even have the love of a father. In his world, only those wild beasts accompany him, but those wild beasts can not give him human feelings,

therefore, when he faces our closeness, he will feel a doubt in his heart. Why do we do this? But the human instinct is a very strange thing,

although he doesn't understand why we do this, but he must be very envious of us because this is an innate feeling. As long as it is a human, it will have this feeling. This is regardless of the age, "Regardless of age! "

Jenny felt that what Yu Tian said made a lot of sense. She even felt a little pity for Caesar.

A child who had never even met his mother was thrown into a cursed forest from a young age. He spent all day with wild beasts. She thought that she should really care more about this child.

Thinking of this, Jenny washed the simple towel again and came before Caesar.

Caesar seemed to be particularly nervous, because he had never been so close to the opposite sex.

The strange feeling in his body made him feel particularly scared.

Yu Tian found it very interesting, but he did not laugh at Caesar, but his instinctive reaction to Caesar, and felt that there was a special feeling.

It was like the first time he held a girl's hand, kissed, and other times, the feeling was the same.

Therefore, the feeling was special, just like the current Caesar.

He was not even afraid of wild beasts. He could even mix with wild beasts, but he was afraid of a woman.

When Jenny touched Caesar's cheek, Caesar seemed to have been electrocuted. He hurriedly dodged and climbed up the tree as fast as he could. He panted as he looked at Jenny under the tree.

At this time, Yu Tian also came to the tree. He chuckled and said, "You don't have to be afraid. This is very normal. In the future, you will also have your own wife. There will even be more women,

"If you are still so afraid at that time, you will definitely be laughed at. Men and women are the most basic species in this world. There are feelings between men and women. This is called love,

you would also have your own beloved woman in the future. At that time, you would know that love was a wonderful thing. But now, the most wonderful thing was that we felt especially hungry,

we haven't eaten for two days. I feel especially disgusted by the food in this country. Do you have any delicacies that we can enjoy?"

Caesar, whose face was red and his heart was beating, bit his lips tightly and said, "I can go and hunt some prey for you. Just wait for Me Here! "

As soon as he said that, Caesar quickly disappeared from their sight.

Yu Tian smiled appreciatively and said, "This child's speed is really fast. If he were to grow up for a few more years, even I might not be able to catch up with him!

Jenny looked helplessly at the towel in her hand and said softly, "This child can be shy, but when he's shy, he's really cute! "

Yu Tian chuckled and said disdainfully, "Aren't you talking nonsense? Who doesn't know that shy, especially a boy who hasn't even met a woman, isn't it normal to be shy?"?

"It's still much better than other children. In our era, if someone liked you, they might take off their pants in front of you and wish they could take you to a room,

"The children of this era are so pure. I think this child is quite good. He went hunting for us, so we can't be idle now. Let's hurry up and start making our instruments!"

Jenny nodded. This was the most important thing now. Even if Caesar was the king of this place, he could not stop them from wanting to return to their own era.

The two of them immediately took out the equipment and began to repair it.

This was more difficult because the equipment that Yu Tian took out was extremely sophisticated.

Some parts even needed a magnifying glass to see.

In this era, there were no magnifying glasses. There was glass, but in the Black Forest, these things were impossible.

Therefore, the two of them could only slowly and carefully disassemble these instruments.

Now, this was the only thing they could do.

However, disassembling these instruments was indeed very laborious. Many parts were completely welded shut. If they were disassembled, it would be impossible to restore them.

The work of disassembling the equipment could no longer be carried out.

Yu Tian sat on the grass, frowning as he considered how he could repair the equipment.

Jenny was also frowning. She had no idea that the equipment that Yu Tian had brought was so sophisticated.

Even if he could disassemble all the equipment, without the control of a computer, it would still be impossible to set the data.

Looking at the parts on the ground, Yu Tian narrowed his eyes coldly.

Since he could come to this era, he would definitely be able to return. In short, he would not be able to stay here.

Even if he were to be the king here, he would not be able to stay here for even a second longer.

Thinking of this, Yu Tian's 100% IQ was still able to exert a powerful energy.

He suddenly thought of a method and turned to Jenny, "I do have an idea, but I don't know if it will succeed!"

Jenny casually threw a part in her hand at her feet and wiped the sweat on her forehead. She said helplessly, "Now, any method is worth trying. These devices are useless to use!"

"I can still understand some of the infrared scanning devices, but I can't even understand the time transmission device. How can I fix it?"

"Moreover, we don't have any tools. I think we should stop guessing and listen to your method. Maybe it can still be useful! "

Yu Tian stood up and said confidently, "I can burst out powerful energy. If we can find the unstable magnetic field here and activate it with my energy, I think we can definitely travel back,

"But now I don't know where to find such an energy field.. It's up to you! "

?Chapter 737 – Chapter 737: Chapter 736, Envy And Jealousy

Jenny felt that Yu Tian's method was still possible. If one day he could really produce a power that was even stronger than lightning, then he might really be able to travel back in time if he disrupted the energy field.

She was a meteorologist, so it was not impossible for her to detect the energy field, but she needed something.

Therefore, Jenny nodded and said, "This is not a big problem. I can find the energy field, but it will only be possible when the weather changesa€|"

"I also need some other things. To put it simply, some metal objects. I think those soldiers can use their weapons!"

Caesar, who had returned from hunting a few times, heard that they wanted the weapons of the soldiers. He immediately threw down the prey, turned around, and ran to the edge of the forest to pick up a lot of weapons.

When he threw these weapons in front of Yu Tian, although he did not say much, Yu Tian could feel that he was also trying to help him.

He could not do anything else, but he could still pick up these weapons.

Moreover, Yu Tian also knew that Caesar also wanted to see his companions. However, from the disappointment in the corner of his eyes, what about his companions? Probably none of them were alive.

Jenny did not think too much about it. She picked up a few weapons and looked at them briefly. They could still be used after a slight modification.

Now, as long as the weather changed, these metals could be used to observe the magnetic field around them through natural electric conduction.

If there were changes in the energy field around them, they could be detected through these things.

Anyway, they were just waiting. Yu Tian cooked all the prey.

After eating his fill, Yu Tian looked at Caesar and said indifferently, "We still have some time now. Why Don't you bring me to see the treasure you are guarding,

this way, I can also use this time to study how to leave this place before you leave !

Caesar did not refuse. After eating the prey in his hands, he stood up and said, "Then let's go now. That place is quite far from here. We might need to prepare some more food." "

"After we reach that place, the sky might turn dark. We'd better not go in at night. That thing is very strange. Every night, it will make some crying sounds! "

It will make some crying sounds?

Yu Tian felt that it was getting more and more interesting. Could it be that in Caesar, there was a ghost guarding it?

Otherwise, why would there be crying sounds.

It was useless to think about these things. It was better to go and take a look personally.

In short, he had already transmigrated to this era. If he could obtain some treasures, he wouldn't have to go back empty-handed.

He didn't want to be too ashamed to answer when others asked about it.

After they had prepared some things, they began to move towards their destination.

Along the way, Caesar hunted a few more prey and carried them on his back. This was their food.

However, Yu Tian felt that it was a little strange. With Caesar's speed, there was no reason for him to be so slow.

It was as if they were taking a stroll in the Black Forest. This speed would probably not reach them even if the sky turned dark.

Thinking of this, Yu Tian asked curiously, "Caesar, I don't think your speed is that slow. Are there other monsters around here? You are the king of the forest here. What are you afraid of?"

Caesar slowly turned his head. Although he did not directly answer Yu Tian's question, he looked at Jenny who was walking at the back.

Yu Tian saw the gentle look in Caesar's eyes and immediately understood.

Caesar was not old, but he was quite fond of women.

He was afraid that if he walked too fast, Jenny would not be able to keep up with him and would be lost in the forest. This place was especially dangerous.

That was why he tried to slow down as much as possible so that Jenny could keep up with them.

Yu Tiandu smiled helplessly. He had not thought of this.

It seemed that sometimes, he was not as meticulous as a child. He had to learn more from Caesar in the future.

In that case, he would also slow down.

Just take it as a walk in the Black Forest. Moreover, judging from the weather, there would not be much change in the next few days.

So, in terms of time, it was enough.

In the blink of an eye, it was evening. The few of them arrived at the foot of a mountain.

Yu Tian raised his head and looked at the mountain in front of him. It wasn't very high, only about 200 meters.

The top of the mountain was bare, without any plants.

However, the forest below was particularly dense, looking like a plate of vegetables no matter how one looked at it.

Caesar looked at the sky. After throwing the prey on the ground, he said indifferently, "We'll sleep here tonight. We'll go and see the Treasure Tomorrow during the day! "

Yu Tian was not in the mood to wait here. He was not afraid of anything. Even if a ghost saw him, he would have to hide far, far away.

Therefore, he smiled disdainfully and said arrogantly, "I'll wait for you guys to wait here. I'll go and take a look myself. I'm not afraid of crying! "

At this point, Yu Tian was about to walk away, but Caesar stood in front of him and said coldly, "I told you, I only brought you to take a look during the day.

Now we can only sleep here! "

Yu Tian felt that Caesar looked at him with hostility.

Not letting him look at the treasure might just be an excuse.

Over the course of the day, Yu Tian found that Caesar hated him more and more. Every time he and Jenny made any intimate moves, Caesar would be especially angry.

If he had guessed correctly, Caesar had already fallen in love with Jenny.

He now knew what envy and jealousy were.

In fact, he should have been able to tell a long time ago. Especially in the afternoon, when he was carrying Jenny on his back and the two of them were walking very intimately among the flowers, one day, he felt that Caesar was emitting a thick murderous aura.

At that time, he thought that there were other wild beasts around, but now that he thought about it, it turned out that it was Caesar who wanted to fight with him.

Since he wanted to fight, then what was impossible?

He was just looking for an opportunity to see Caesar's strength, so he might as well take this opportunity to play with him.

Therefore, he calmly flicked his eyebrows and chuckled, "Are you trying to fight with me? I can give you this opportunity. If you can beat me, I will listen to you!"

"But if you can't beat me, then I will go and look at the treasure now. Don't Stop Me! "

Caesar nodded firmly without thinking.

Before Yu Tian was ready, Caesar raised his hand and threw a punch.

However, this punch made Yu Tian feel especially ridiculous. This punch could not be compared to the punch Caesar threw at those soldiers yesterday.

Although this punch was filled with anger, it was more like an ordinary fight. There was no routine at all..

No data found.

?Chapter 738 – Chapter 737, Fury

Yu Tian watched Caesar fight as he pleased, and the little fun he had before gradually disappeared.

This was not a duel between experts at all. This was a fight for women.

What was the point of fighting like this? It gave him the feeling of an adult beating a child.

Yu Tian felt that he had to stimulate Caesar so that he could at least unleash his full strength to fight with him. That would be interesting.

Caesar's attack speed was still very fast. In the blink of an eye, he had thrown out a few random punches.

However, these few punches not only did not hurt Yu Tian, but also made him extremely tired.

Yu Tian shook his head helplessly and said disdainfully, "Are you fighting or playing with me? Where is your strength? You still have the nerve to say that you are the king of the forest!"

"With your strength, you still want Jenny to look up to you. Don't talk nonsense with me. I feel that you are not even worthy to be a king. You can only stay here and play with your wild beast companions, catching wild chickens all day long!"

Caesar was only a child after all. After being provoked by Yu Tian, his entire being was enraged.

He directly jumped on the tree, and then from top to bottom, he bared his teeth, and his facial features ferociously smashed toward Yu Tian.

There was still some meaning in this fight.

Yu Tian finally felt something. At least now, he did not feel like an adult hitting a child. It was more like he was fighting with a relatively powerful wild beast.

This fight was still a little challenging.

Seeing that Caesar was about to smash towards him, Yu Tian did not dodge. Instead, he raised his leg and kicked.

The speed and strength of this kick could only be said to be average.

Caesar was still a child after all. He could just play with him. There was no need to kill him.

If he were to burst out with power, Caesar would not be able to block even a single finger of his. He would die here in the blink of an eye.

If that was the case, it would be meaningless to play. It was just for a woman.

was there a need to fight to the death?

Even though did not use his full strength, Caesar's arms were still trembling slightly from the kick.

He landed on the ground and glared at Yu Tian. The more he thought about it, the angrier he felt, especially when Jenny was still looking at him.

If he could not defeat Yu Tian, how embarrassing would it be in front of Jenny.

Therefore, Caesar ignored the pain in his arms and jumped up again, rushing towards Yu Tian. This time, his speed was even faster, like a bolt of lightning.

Yu Tian still had a playful attitude as he gently dodged.

But at this moment, Caesar's ten fingers suddenly slashed at his neck.

What surprised Yu Tian was that his neck actually hurt for a moment.

He touched it with his hand, and it actually felt a little sticky. He looked down and saw that his hand was covered in blood.

Caesar, on the other hand, looked at him proudly. Although he was very strong, he had still been beaten until he was bleeding.

Let him belittle him again. In this forest, he was the king. No one could defeat him in this forest.

After looking at Yu Tian, Caesar looked at Jenny on the other side.

However, what made him even angrier was that Jenny was especially concerned about Yu Tian. At this time, she had already run to Yu Tian's side and asked with a pained expression, "Yu Tian, are you alright?"

Yu Tian chuckled and immediately used the nameless technique to repair his wound.

This little injury was nothing compared to his previous injury.

Moreover, Caesar did not want to kill him. It was only because he was angry and his attack was relatively heavy.

He said indifferently, "This injury is nothing. I think it's interesting! "

Jenny looked at Caesar angrily and scolded, "Caesar, you are too much. We are here to help you. How could you hurt Yu Tian?"

Facing Jenny's anger, Caesar seemed to be wronged and innocent. He even had some doubts.

Shouldn't he be praised for injuring Yu Tian?

Didn't that mean that his strength was higher than Yu Tian's? If that was the case, Jenny should like him. Why was she still angry?

Could it be that he had done something wrong? Yu Tian had agreed to it when they were fighting. Why was Jenny so angry.

When Jenny wanted to continue scolding him, Yu Tian hurriedly stopped her. "Alright, it's not his fault. I just wanted to have a fight with the two of them to have some fun. Don't scold him anymore!"

After all, he was still young and there were many things that he could not differentiate. Moreover, I won't be angry with him. It's just for fun. You Don't have to be angry anymore!"

Just as Yu Tian ???????? finished his sentence, Caesar was like a wild beast as he charged directly at the two of them.

This time, Yu Tian saw a cold killing intent in his eyes.

He wanted to kill them.

Caesar had just reached the two of them. He did not care if it was Yu Tian or Jenny, he just raised his hand and attacked.

If he was just fighting with himself, it was just a game. It did not matter whether he bled or not.

But if he wanted to attack Jenny, it would not be as simple as a game.

How could Jenny's thin and weak body withstand his attack.

Seeing that he was about to hit Jenny, Yu Tian said furiously, "Are you crazy? Get lost! "

As soon as he finished speaking, Yu Tian followed up with a palm and directly pushed Caesar's heart.

This time, Yu Tian really used some strength and pushed Caesar's entire body dozens of meters away, heavily slamming into a big tree.

He also hit Caesar with a dumbfounded expression.

It turned out that Yu Tian was just playing with him.

When he erupted with power, he was actually so terrifying. He casually pushed Caesar, but it made him feel as if his body had been hit by a huge rock.

His internal organs seemed to be rolling, and the tendons and bones in his body were trembling.

At this time, Yu Tian strode in front of him, grabbed Caesar's shoulder, and threw him heavily to the ground.

Caesar had no room to retaliate. He could only stare at Yu Tian.

Yu Tian scolded angrily, "If you are such a person and don't know what tolerance and patience are, how can you still be your king?"

"Rather than letting you become a cruel king, I might as well kill you now.

After you become a king, you will be no different from that Williams Celtic!"

Caesar clenched his teeth tightly. He did not know what to say, but he felt that it was indeed wrong for him to attack Jenny previously.

However, he did not know how to express his feelings. He could only look at Yu Tian fiercely. If he wanted to make a move, he would not resist.

Yu Tian was just saying it. How could he kill him?

So he snorted, glared at him, or reached out to pull Caesar up..

Caesar looked at Jenny expressionlessly and said in a low voice, "That's not a ghost, it's just a Holy Grail. I don't know what it's used for. The crying is coming from that cup! "

No matter what kind of cup it was, Yu Tian just snorted and walked straight into the cave.

The space inside was bigger than he had imagined, and it was especially dark, so he couldn't see anything.

Caesar was very experienced. He made a simple torch and quickly lit it by drilling wood to make a fire.

Only then could Yu Tian see the surrounding environment more carefully.

This was just a simple cave, but it seemed like someone had once lived here.

He even saw some burnt ashes and some simple tables and chairs.

The Holy Grail that Caesar had mentioned was placed on the table.

Yu Tian took a closer look. This cup was the size of a palm and was about the same size as an ordinary goblet.

However, the cup was made of an extremely rare crystal. It looked extremely precious and beautiful.

Under the illumination of the torch, the crystal on the Cup reflected light like a rainbow after a rain.

At this moment, the sound of crying rang out again.

This time, the sound was even louder and more ear-piercing.

Especially in such an empty space, the sound seemed to revolve around him. It was really a little scary.

However, Yu Tian laughed out loud. The sound came from the Holy Grail.. He wanted to see what secrets the Holy Grail had?

?Chapter 740 – Chapter 739 Was All Fake

Yu Tian came to the front of the Holy Grail and lowered his head to look into the cup. However, he was a little surprised.

The cup seemed to be a black spatial vortex that was spinning rapidly. Moreover, there seemed to be specks of light within me that were like the blinking stars.

Every time the sound of crying came out, the vortex would change its direction, repeating the same cycle over and over again.

Before he went to get the Holy Grail, Yu Tian had thought things through.

He did not know what the Holy Grail was for now, so it was better not to touch it for now. After he had figured it out, it would be too late to take it.

At this moment, Caesar also came to Yu Tian's side with a torch.

When Caesar's face was reflected in the whirlpool of the Holy Grail, an even more amazing scene appeared.

The whirlpool in the Holy Grail suddenly turned into a water dragon and exploded directly from the cup.

That sound was as if a dragon had really come out of the water. It even sprayed the water all over Yu Tian's and Caesar's faces.

However, the water dragon quickly disappeared. Following that, there was a whirlpool that rotated repeatedly.

Caesar wiped his face and looked at Yu Tian with doubt and fear.

"How can this be? Usually, when I come here, he has never sprayed water on me. Could it be that there is someone's soul in this cup?"

Yu Tian scraped some water off his face and licked it in his mouth.

"This is not water at all, but wine. It's an especially good wine. At least, it's better than the best red wine I've ever drunk!"

Although he said it very casually, Yu Tian was also very puzzled.

The water dragon that spouted out could not fit even ten thousand of such holy grails. What secret was in this Holy Grail?

However, Caesar looked at Yu Tian with great surprise and asked in puzzlement, "This is clearly water. How could it be wine?"

When Yu Tian heard this, he suddenly frowned.

In order to verify his feeling again, Yu Tian moved Caesar's head to the top of the Holy Grail.

Just as Caesar was grimacing, the water pillar appeared again.

Yu Tian was quick-witted. He reached his hand into the water pillar and grabbed a handful of water.

He put the water in his mouth and tasted it carefully. If this was not wine, what was it?

Moreover, it was a particularly good wine. After drinking it, he felt his entire body feel particularly invigorated.

However, Yu Tian still looked at Caesar.

At this moment, Caesar also pursed his lips and continued to insist on his own feelings. He said to Yu Tian in puzzlement, "This is still water. It's not wine at all. How can you treat water as wine to drink?"

Yu Tian chuckled and seemed to understand a little.

In fact, what spurted out of the Holy Grail was not water or wine, but an illusion.

The greatest secret of this Holy Grail was that it could create illusions.

This was because he had only transmigrated here in the past two days, and his mood had not been very good.

When Celtic had served him, the wine that he had given him was like urine.

After that, he had drunk some good wine at Jenny's house.

In his subconscious mind, he had always wanted to drink some good wine so that he could feel better.

It was precisely because he had this thought in his mind that the Holy Grail would create this illusion for him.

But this was only his thought. Caesar must also have this illusion.

Hence, he turned around and looked coldly at Caesar. He asked, "Calm down now. Listen to me. Don't treat this as water or wine, before you came here, did you feel thirsty? You've always wanted to drink some water!"

When Yu Tian said that, Caesar thought carefully and realized that it was true.

Since yesterday, he had only drunk a coconut. Other than that, he had not touched a single drop of water.

Previously, he had fought with Yu Tian, so his mouth was already dry.

When he tasted this water, he still felt that it was quite delicious, and it was also very thirst-quenching.

However, Caesar did not know why Yu Tian would ask this.

Therefore, he nodded and said in a deep voice, "I indeed feel very thirsty. Why do you ask me this? Could it be that you are also thirsty?"

There was no water in the Black Forest. Other than the leaves, there was only water when it rained. I also used some leaves to bathe in the Rain! "

Yu Tian narrowed his eyes slightly. He felt that it was very interesting.

If this holy grail could really create illusions and wanted to see if it was real, it would be too easy.

Thus, he looked at the Holy Grail and thought silently.

"Now, if I can get a generator or a computer, then I'll be too happy! "

After thinking about it, Yu Tian pressed Caesar's head against the Holy Grail.

At this moment, the water column exploded once again.

Before Yu Tian blinked, a generator and a computer appeared in front of him.

Caesar looked at these things that he had never seen before. He was even more surprised at how these things appeared?

However, Yu Tian laughed out loud.

Caesar was getting more and more confused. What was Yu Tian laughing at? Could it be that she already knew the secret of the Holy Grail?

Unable to hold back his doubts, Caesar hurriedly asked, "Can you tell me what you have discovered? And what are these two things on the ground for? Why have I never seen them before! "

Yu Tian gave him a disdainful look and said indifferently, "There are many things you've never seen before. Of course, you a€?ll never see these things in your lifetime because they're not from your era!"

Although this explanation did not sound very clear, he still asked after looking at it, "Are these things what you want? Do you mean that this holy grail can give us everything we want?"

However, Yu Tian didn't think so. Illusions didn't exist. They were just images in front of him.

However, Yu Tian didn't think so. Illusions didn't exist. They were just images in front of him.

If you really fell into an illusion and couldn't extricate yourself, then your life would be gone.

Even if you were still alive, you would forever be immersed in this illusion. This was the secret of this Holy Grail.

As for the crying that he made, it was actually an illusion.

The crying represented pain, loneliness and loneliness. This was a feeling that often appeared in Caesar's mind.

Thinking about how he was living alone in this forest, surrounded by endless loneliness and loneliness, when he encountered pain, he did not know what crying was. He just wanted to vent the pain in his heart.

Therefore, the Holy Grail felt what he was thinking, so it would make waves of crying.

In fact, the cry was not from the Holy Grail, but from Caesar.

In that case, the Holy Grail was really interesting. It could create such a good illusion..

## **I Have 108 Older Sisters #Chapter 741 - Read I Have 108 Older Sisters Chapter 741**

?Chapter 741 – Chapter 740, Hallucinations

But what puzzled Yu Tian was who placed such a holy grail here? What was the purpose of creating hallucinations?

At the same time, what did this holy grail have to do with Caesar?

This series of questions arose in Yu Tian's mind, but he could not think of any answers.

Even with his extraordinary intelligence, he was still unable to think clearly before facing this series of puzzles.

Perhaps it would still take some time.

Fortunately, there were no monsters or dangers here. It was just a holy grail that could create illusions.

If he knew that this was just an illusion and did not care about it, then this Holy Grail was no different from an ordinary holy grail.

When he thought of this, Yu Tian laughed and turned to Caesar. "This treasure is still interesting, but we still need some time to figure out what it is used for,

"But since Pm already here, we'll take this treasure first and then slowly study it. But you're the guardian of this protection. If you agree, I'll take it away now!

Yu Tian said this out of respect for Caesar. No matter how powerful this child was now, or what kind of king he would become in the future.

But because he was here, there was this holy grail.

Otherwise, he would never have seen this holy grail, nor would he have found such an interesting thing.

Caesar did not have any objections. He nodded and said very firmly, "If you like it, of course you can take it away. This treasure is not mine to begin with,

"And I don't like it either. You said it can create illusions. In my opinion, only demons can create illusions. I will not let a demon stay by my side,

"This Holy Grail belongs to you now. You can use it for anything! "

Yu Tian chuckled. This child was actually quite happy, as if he didn't care what this Holy Grail had to do with him being the king.

He simply felt that this holy grail was especially terrifying. If it stayed by his side, it might cause him to hallucinate while hunting in the future.

In that case, there was no need for him to be polite with him.

Yu Tian casually picked up the Holy Grail. It felt very light and was no different from an ordinary cup. However, the feeling of holding it in his hand was exceptionally good.

It was as if he had mastered everything in the world.

This feeling definitely did not appear out of thin air. This holy grail must have provided him with some unknown power.

After returning to the outside world, Jenny also liked this holy grail very much.

Yu Tian was thinking about what kind of power this holy grail would give him when a water dragon suddenly jumped out of the Holy Grail.

It was actually some computers, cosmetics, and some small food and so on.

Jenny looked at everything in front of her in astonishment. She covered her mouth, completely unable to believe that the things she was thinking about would actually spurt out from this holy grail.

Could it be that this holy grail was something that the gods had used before?

What did she want? Could This Holy Grail be given to her?

Jenny could not think clearly. What was the reason? But now, she was completely confused by the things in front of her.

She picked up the computer and immediately started to operate it. At the same time, she placed the cosmetics on her face. She felt extremely happy.

However, Yu Tian frowned slightly when he saw all of this.

She had already said that all of this was an illusion. It did not exist. However, why would Jenny be able to use these things?

Could it be that she had thought wrongly? Could This holy grail really allow what she wanted to appear in front of her eyes?

Then this was not a treasure. This was a divine artifact.

What did he want? This holy grail could be spat out for him. This was simply the most magical thing in the world.

It was especially beautiful in his imagination.

However, Yu Tian still felt that these things before his eyes were not real. In fact, they were just illusions.

Don't look at Jenny. Using these things now was as if they were real. If this was just an illusion, those things simply did not exist.

Yu Tian asked Caesar who was beside him.

"What did you see?"

Caesar looked at Yu Tian in confusion and slowly said, "I saw something I've never seen before. What are these? Why does Jenny like these so much? Is this an illusion?"

Yu Tian didn't say anything. If Caesar could see, then was this an illusion?

If it was an illusion, Caesar couldn't have seen what Jenny wanted.

Just like before, the water he tasted was wine, but Caesar drank water. The two of them felt completely different, so the illusion they saw should be different.

But now, Caesar could actually see what Jenny wanted. This seemed to be beyond his imagination, or even understanding.

No matter what, this Holy Grail made Jenny feel especially happy.

Was it real? Putting it aside, it could at least make Jenny quieter, allowing him to think more about whether this holy grail could create these items or was just an illusion.

In order to prevent the Holy Grail from creating more illusions, Yu Tian put it into his backpack.

At this time, Jenny said excitedly, "Yu Tian, come and take a look. I have calculated a lot of useful data. You told me to use the energy in your body to change the magnetic field here,

"After a simple simulation, it is completely feasible. I have also detected that there will be a storm the day after tomorrow. At that time, the magnetic field will be the most unstable,

if we master it, it shouldn't be a problem for us to return to our time, but I don't know yet, can the energy in your body change the magnetic field here?

Because you have to know, the magnetic field changes in the natural world, usually there are earthquakes, or volcanic eruptions, whatever they are, their own energy is particularly powerful, if your energy collides with their energy and causes an explosion, it may hurt US and not allow us to return to our time,

so you have to give me an accurate data and let me know what your energy is equivalent to. "

Yu Tian looked at Jenny, not knowing whether what she was saying was true or not. If it was just a computer created by the illusion to calculate the data, then it was impossible.

What Jenny was saying was just things that existed in her mind. If these things appeared in Jenny's mind along with the illusion, then she could not believe it..

?Chapter 742 – : Chapter 741, Strange Symbols

Seeing how excited Jenny was, Yu Tian couldn't bear to destroy this feeling.

If this wasn't real, then it would be good for Jenny to think that it was real. At least now, Jenny could feel happy.

So, thinking of this, Yu Tian said indifferently, "My energy will not be a problem. If the data you calculated is accurate, then we can definitely return to our era,

"But now I think it's already very late. You should go and rest. Then we can continue our research tomorrow!"

Jenny was so excited now, how could she possibly sleep.

She even grabbed Yu Tian's arm and said excitedly, "Where's Your Holy Grail? I still want some other things!"

Looking at Jenny's extremely eager gaze, Yu Tian suddenly frowned.

"Could it be this?"

Although Jenny was just an ordinary woman, in terms of looks and figure, she was not bad. She was comparable to other women.

However, there was one point that Jenny was the same as other women.

That was the greed that existed in their bones.

Everyone had their own greed. Everyone could not control their own greed. Especially when faced with some temptations that were beyond their imagination, this kind of greed would become boundless and inflated.

Greed will even make them lose their lives, lose their true self, or even lose their soul.

But human evolution until now, still can not resist the nature of greed.

Including himself is the same, he has always been in greed to take.

Want to become the strongest in the world, say it is the pursuit, in fact, this is also his greed.

Facing the 108 sisters a€?beauty, he said he was protecting them, but this was also his own greed.

Wanting to hold all the beautiful things in his own hands, this was everyone's greed. This kind of greed they would also think of as pursuing, it was a dream.

Pursuing and a dream, on the other hand, that was greed.

Because no one could give up their own pursuit, and no one would give up their own dream. Every living person was pursuing, they were all dreaming.

This was the value of living. On the contrary, those who did not pursue or dream, who were considered idiots in the eyes of others, lived a very relaxed life without any pressure.

Therefore, this holy grail was using people's greed to create all kinds of beautiful illusions.

But why did this Holy Grail do this?

The answer was also very simple. This holy grail wanted to control everyone who was indulging in the illusion of greed.

It wanted them to become its slaves. It wanted them to immerse themselves in the beauty of the illusion. This would make some kind of power stronger.

This power was the curse that was placed on Caesar in the Black Forest.

However, when he came here, he became Caesar's Redeemer. He could help Caesar break the curse, take him out of here, and make him the most successful king here.

This was his mission to transmigrate here, and he could also understand it as a kind of opportunity.

Everything was arranged. It was as if his destiny, at any time, he had to follow the path of Destiny. Even if sometimes, he wanted to control his destiny in his own hands, but it was still not enough.

Therefore, this Holy Grail was also a mirror. It could reflect people's greed, but also the true self.

When you realized that everything you obtained in the Holy Grail was an illusion of greed.

Then, the illusion created by the Holy Grail would disappear at any time. In other words, the curse surrounding this forest would also disappear at the same time.

After the curse was broken, the curse surrounding the Black Forest would also be broken. He could also take Caesar away and help him become the king here.

When he thought of this, Yu Tian took out the Holy Grail again. However, at this moment, the color of the Holy Grail had completely changed.

It was no longer the color of the crystal from before. Instead, it had become pure black. Moreover, there were some runes engraved on the Holy Grail.

Those runes were like words, but what did he mean? Yu Tian could not understand it at all.

One thing was for sure, after he understood what the illusion of greed was, the Holy Grail had no effect on him anymore.

It was just like at this moment, Jenny in front of him. There were no computers or cosmetics in front of her. Jenny's hands were just randomly dancing in the air.

There were no computers and no cosmetics. Everything was just Jenny's illusion.

But now, Jenny and Caesar didn't know that it was all an illusion. They were still immersed in it, unable to extricate themselves.

If they tried to stop them now, not only would they think that they were crazy, but they would also continue to be immersed in the illusion, and even be happy.

If this continued, they would eventually lose themselves and completely disappear into the illusion of the Holy Grail.

If he had not guessed wrongly, this holy grail already contained many people's souls.

He had originally thought that the crying sounds were Caesar's illusion, but now he could basically confirm that the crying sounds were indeed coming from the Holy Grail.

However, those sounds were the cries of souls that had been swallowed alive. They were crying out in endless pain and suffering.

Thinking of this, Yu Tian carefully looked at the Holy Grail.

This holy grail could create illusions, and it could also dispel illusions.

However, he had yet to grasp the correct method, or the method to dispel illusions. It was in the words on the Holy Grail.

However, those words could not be understood. There was no explanation for what those symbols meant.

With his high IQ if he could not understand it, then others could not understand it either.

Yu Tian felt that it was very strange to stand there in the middle of the night with a black wine glass in his hand.

Therefore, he drew all the symbols on the ground and threw the holy grail into his backpack.

If Jenny and Caesar continued to face the Holy Grail, their greed would become greater and greater. In the end, the Holy Grail would still devour them. At that time, it would be impossible for him to save them.

Just as Yu Tian was studying the symbols on the ground, Caesar came over.

He carefully looked at the symbols on the ground, and a familiar light burst out of his eyes.

Yu Tian saw this expression and hurriedly asked, "Do you know these symbols?"

Caesar nodded slightly and said indifferently, "Yes, I have seen these symbols. I also know what they represent. These symbols are"

The man who brought me here once taught me. He said that this was an ancient symbol.. Now, very few people can recognize it

?Chapter 743 – Chapter 742, Deciphering Illusions

Caesar said that he knew these symbols, and the one who was most excited was Yu Tian.

If he could decipher the meaning of these symbols, then he could decipher the illusions in their minds, so that they would not have their souls devoured by the Holy Grail.

Yu Tian said impatiently, "Since you know these symbols, then quickly tell me, what exactly do these symbols mean?"

Caesar had not seen these symbols for a long time. He needed to carefully recall his memories before he could translate these symbols.

Yu Tian just sat quietly at the side and waited for him to translate these symbols. It was useless to be anxious now.

About an hour had passed. The sea wiped the sweat from his forehead and finally understood the meaning of these symbols.

He immediately raised his head and said to Yu Tian, "The meaning of these symbols is actually very simple. It's not as complicated as I thought. This wavy symbol represents water..,

"That circular symbol represents a cup. By filling the cup with water, one can break the curse of darkness and let this world see True Light..,

"I'll be the one who gets lost. I'll find the right direction and follow God's footsteps. I'll make all the demons die under my feet! "

Yu Tian didn't really listen to the rest. The cup and water was the way to break the illusion.

The cup filled with water was the Holy Grail.

To put it simply, as long as the Holy Grail was filled with water and the person who was hallucinating drank it or sprayed it on their body, the illusion would be broken.

Yu Tian immediately got Caesar to find a coconut, and then poured the coconut juice inside into the Holy Grail.

Then, he let Jenny drink the coconut juice.

After a few seconds, Jenny suddenly frowned. She felt that her head was particularly painful, as if something had smashed it.

She rubbed her scalp hard and asked in a very strange manner, "What exactly happened before? Why do I feel like I had a nightmare? I feel like my head is particularly painful now?"

"Where's my computer and my makeup? Why are they all gone?" "Yu Tian, can you tell me why?"

Yu Tian smiled helplessly and said indifferently, "How should I tell you? Actually, everything that happened before was an illusion created by the Holy Grail. It doesn't exist."

"But I saw that you were having so much fun, so I didn't want to ruin your mood, so I let you enjoy the illusion first. But now that the illusion has disappeared, you'll naturally feel like you're dreaming."

"As for the headache, it's very simple. The Holy Grail wants to devour your soul, so you'll feel the headache now. But it'll be over soon, so you don't have to worry about it now!"

Jenny finally understood what had happened. She rubbed her forehead and said in disbelief, "So there really is such a magical thing in this world that can create such a real illusion,

"If you didn't tell me, I might still think that everything is real. But what I want to know now is, what am I like in the illusion?"

This question was really hard to answer.

Yu Tian could only laugh and said indifferently, "Actually, it's nothing. You were just mentally deranged for a while. Aren't you awake now?"

"So in the future, you still have to control the greed in your heart. If there's no greed, the Holy Grail will not create illusions for you, and the curse will naturally be broken!"

At this time, Caesar also drank the coconut juice from the Holy Grail, and he also had a headache.

The pain was not as severe as Jenny's, but he also looked at Yu Tian in shock.

When the two of them looked at the Holy Grail, both of them had turned black.

This meant that they had completely stopped hallucinating. Yu Tian was also surprised to find that the cold air that filled the forest had completely disappeared.

The curse had been broken by him, and he could leave this place at any time in Caesar.

Yu Tian smiled proudly and said arrogantly, "There is nothing in this world that can baffle me. As long as I want to understand it, I will definitely be able to understand it!"

It was just an illusion created by the Holy Grail, but it made me feel like I had fallen into an illusion, but this feeling was especially painful, because first, you have to see your own greed, which is not something that everyone can do. The reason why I can do it is not because I am better than everyone, but because I can endure the pain, seeing my own greed, and breaking this greed at the same time, so I can break the curse, and now you should understand,

illusions are actually formed in their own minds, and the Holy Grail just makes them more real, so that the thoughts and desires in your mind completely appear in front of you,

"At the beginning, you won't be able to differentiate between real and fake. But when you are completely immersed in it, your soul will enter this Holy Grail,

"By then, you will wish you were dead. Now that the curse has been broken, the Holy Grail that you see is black. Now, you finally understand how terrifying human greed is, right?"

Jenny and Caesar both nodded in agreement.

What Yu Tian said was very reasonable. Greed was indeed something that people hated.

But the more they hated, the more greed would become heavier in everyone's heart.

The desire for greed would never disappear from their minds.

Yu Tian looked at the time. Now, he did not want to talk to them about the principles of life. All he needed to do was break their curse.

What he needed to think about next was that he should take Caesar out of the Black Forest and return to his kingdom. With his help, he could make him the king of this country.

Only then would he be able to easily return to his own era and complete the path of Destiny.

Thus, he said coldly, "Don't think about these things. You Can't even think about them. Go and rest now. Tomorrow morning, we will return to the kingdom,

"I want Caesar to be the king of this place first. Then, I can leave easily!"

Jenny also agreed with Yu Tian's words. They came here to find Caesar. Now that Caesar had found the way to leave, there was no need to stay in the Black Forest and suffer.

Caesar seemed to be ready to leave, but he could not let go of his companions.

He was going to be king, and when he became king, he would issue an order that no one was allowed to kill the animals in the Black Forest..

?Chapter 744 – Chapter 743, I Also Have A Divine Artifact

In the blink of an eye, morning arrived. Yu Tian also slowly opened his eyes from his meditation.

The Black Forest, which had been broken by the curse, had a particularly fresh air. Even the chirping of birds sounded particularly pleasing to the ear.

Yu Tian really liked this kind of wild lifestyle.

However, he had already entered the city. He could only enjoy this kind of life when he had the chance.

Jenny was still asleep. Although she was only sleeping in a simple wooden house, she looked very satisfied.

In this era, a wooden house was considered pretty good. It was better than sleeping on a tree branch like Caesar. If she turned over at night, she might fall from the tree and break her legs.

Just as Yu Tian was about to call them and prepare to set off.

Caesar suddenly woke up and jumped on the ground. He looked around vigilantly.

At this moment, he was like a wild beast that had heard his enemy. Even his hair was standing up.

After living in the forest for so long, Caesar's sensitivity was not inferior to his own.

Yu Tian did not feel anything strange around him, but Caesar did.

Yu Tian tiptoed to Caesar's side and looked around warily. He then asked in a low voice, "What did you find?"

Fork narrowed his eyes coldly and said in a deep voice, "I smelled the smell of the soldiers yesterday again. If I'm not wrong, those soldiers have already entered the Black Forest,

"Moreover, the number of people this time is even more than yesterday". It should be around ten thousand people! "

Yu Tian grinned. Ten thousand soldiers.

It seemed that it must be Williams Celt who had personally brought the soldiers here to kill Caesar.

In that case, it was exactly what he wanted.

It was better to kill Celt here than to waste time. He had to think of another way to kill this Celt.

Since they had come to seek death, they would just let them all die in the Black Forest.

They would take it as revenge for the animals that fought bravely yesterday.

After Caesar confirmed the location of the voice, it disappeared like a bolt of lightning in the blink of an eye.

Yu Tian was not in a hurry to chase after him. Instead, he turned around and went to the wooden house, softly waking up Jenny.

"It seems that Williams Celt has personally brought his soldiers here to show off to us. You just stay here and don't go anywhere!"

"After Caesar and I have dealt with that Guy Celt, we will naturally come and pick you up! "

Jenny was especially afraid. He hugged Yu Tian's arm tightly and shook his head. "Don't leave me here alone. If other soldiers find me here, what should I

Yu Tian chuckled and said disdainfully, "You don't have to worry about this.

There are no soldiers who can come. It's like the illusion you had last night,

"Just treat these soldiers as your illusions. Soon, they will disappear into the Black Forest. Then, we can wait to return to our era! "

Yu Tian did not want to waste any more time with these words. He turned around and left the wooden house.

When he found Caesar, there were some very violent beasts around him.

However, compared to the dense mass of soldiers in front of him, these beasts seemed very thin.

Even Caesar's eyes were filled with traces of fear.

He had never seen so many people. Even the 1,000 soldiers from last night made him feel especially nervous.

Today, so many people seemed to cover the entire Black Forest.

Moreover, every soldier was much more valiant than the soldiers from yesterday.

Especially the weapons in their hands, which emitted waves of killing intent.

Standing at the forefront of the soldiers was Celt.

Beside him were some of the king's ministers. Since the king wanted to fight, there was no reason for them not to come along.

However, many of the ministers had respectful gazes when they saw Caesar.

After all, Caesar was their true king. Celt had wanted to usurp the position of King, but now he had brazenly brought the soldiers to kill the true king.

However, under his cruel methods, the ministers did not have the right to speak.

They could only follow Celt and come here together. However, in their hearts, they would never treat Celt as a king.

There was only one real king, and that was the child in front of them, William Caesar.

Caesar only had the bloodline of a king in his body. Celt was just a bastard.

At this moment, Celt also saw Caesar.

Celt narrowed his eyes coldly and said gloomily, "Caesar, I thought you had died in this forest a long time ago, but you are still alive. Could it be that the heavens are destined to let you die in my hands?"

"Are those animals around you your soldiers? This really makes me feel a little ridiculous. Are you from the Williams Family? You are the person with the most courage and strength,

"But now, you have to rely on some animals to protect your own safety. If word of this gets out, you will definitely become the laughingstock of the entire kingdom! "

Caesar was not good with words to begin with. Although he was particularly angry, he was still unable to say anything.

However, one thing Caesar was particularly clear about was that there seemed to be a great aura of hatred on Celt's body.

And this aura of hatred caused him to develop an extremely fierce hatred towards him.

He wanted nothing more than to rush over right now and crush his neck.

At this moment, Yu Tian's figure also arrived in front of Caesar.

When Celt saw Yu Tian, his smile became even more arrogant and shameless.

"Everyone, quickly take a look. Isn't this the immortal who came from the Sky? Why is he mixed together with people like Caesar? Where is your magic? Where is your divine power?"

"I only praised you a few times before, but you're really arrogant. You really think you're a god. Oh right, I forgot to tell you!"

"I already have that thing that can create flames. If you don't believe me, take a look at what I'm holding in my hand. "

As he spoke, Celt was like an idiot. He held the lighter in his hand and raised it high above his head.

When the surrounding ministers and soldiers saw this divine artifact, their eyes revealed a look of fear.

It was rumored that this divine artifact could not only create flames, but it could also create flames that could devour people's souls anytime and anywhere.

When they saw the lighter, some of the soldiers even knelt on the ground reverently.

Williams Celt smiled shamelessly and said, "See? You have something that can create flames, and I have something exactly like you.. Does that mean that I am also a god from heaven?"

?Chapter 745 – : Chapter 744: Man Or God

Yu Tian didn't know whether to laugh or cry when he saw how pretentious Celtic was.

He said coldly, "So what? So what if you have that thing? Can you burn the sky or the earth? Or can you burn yourself to death?"

"That thing is not worth mentioning to me. If I like it, I can give one to everyone here!"

As he spoke, Yu Tian took out a bunch of lighters from his backpack.

These lighters were originally prepared when he was exploring the temple. He wanted to use them to make some lighting equipment.

However, he didn't use them at the time. Instead, he used them here.

Through the conversion of his mind, Yu Tian had at least a hundred lighters in his backpack.

When he threw these lighters on the ground, Williams Celt's face contorted.

Even the ministers and soldiers behind him were dumbfounded as they looked at the lighters on the ground.

Who was a god and who was an ordinary person? They immediately had an idea.

To a god, such an artifact was not worth mentioning. They could easily take out a bunch of them.

Then, look at Celt. He only had one in his hands, and he was arrogant beyond belief.

He was just an ordinary person. How could he be compared to immortals.

That was why Yu Tian looked down on him so much.

Originally, he wanted to show off in front of Yu Tian, but now it seemed that he had not done so well. Instead, he had been slapped in the face by Yu Tian in public.

How could his Celtic expression be any better.

At this moment, Yu Tian even smugly clapped his hands and proudly said, "Did you see that? If you still want it, I'll get you a lighter that's even more than the trees in this Black Forest!"

"You sit here every day and fight one by one. After tens of thousands of years, you'll be immersed in this joy. You Won't be able to forget about home and won't be able to extricate yourself! "

Williams Celt gritted his teeth and glared at Yu Tian. He said gloomily, "Since this thing is not worth mentioning to you, then it is even less worth mentioning to me. Compared to the two of us, you are a pauper. "

"Behind me is the entire kingdom. I Am the king of this kingdom. I have everything here. Whoever I tell to die will die. Now, I think that you are even more Caesar. You are the person who should die the most in this world."

Soldiers, listen up. Today's battle is equivalent to giving you a chance for nothing. Don't care about those beasts in front of you. Compared to our courage and strength, they are nothing,

and there are only two of them. Don't treat them as gods, and don't think that they are invincible. They are just like us, but they are just ordinary people,

as long as they are ordinary people, they will die. If they can die at your hands, you will enjoy endless glory and riches, and you will even become nobles here,

"Enjoy this glory forever. I, Williams Celtic, swear to God that I will kill Caesar today. I will make this kingdom, under my glory, become more prosperous and stronger forever,

"My soldiers, charge forward right now and kill them!"

When there were more people than people, there would always be some inexplicable courage appearing in their hearts.

Just like now, when the soldiers of Celtic saw that there were only two people, Caesar and Yu Tian, and there were tens of thousands of them, there was such a huge gap. If they could not kill them, then they would not even have the intention to live.

Now, it was up to who could kill Caesar first. Those who could kill them first would have everything.

This was what Celtic had said.

And at this moment, Celtic was also the king of this place.

As for Caesar, although he was also the king of this place, it was still unknown whether he would be able to live to be the king today.

Even if he could survive, Celtic would still chase after him without hesitation.

Because Celtic now controlled the entire kingdom. All the resources, soldiers, and even weapons here were all under Celtic's control.

The more they thought about it, the higher the morale of the soldiers.

They shouted like they were farming, and charged crazily at Yu Tian and Caesar.

The moment they charged, Caesar's heart was filled with extreme fear.

This kind of battle scene had already completely exceeded what he could bear.

It was already not easy for him to still be able to stand here.

He looked at Yu Tian nervously. He did not know when it started, but Yu Tian was like his father, constantly providing him with good examples.

But Caesar was very surprised that Yu Tian didn't panic at all. Instead, there was a confident smile on his face.

How could he be so calm in such a terrifying situation? was he a man or a God?

If he was a man, no one wouldn't be afraid. Only a God wouldn't be afraid.

Seeing that the soldiers were almost at him, Caesar was ready to risk his life.

At this moment, Yu Tian took out the Holy Grail.

In an instant, the light from the Holy Grail immediately covered the entire battlefield.

Every soldier who rushed forward suddenly stopped in their tracks. I stared blankly at the Holy Grail in Yu Tian's hand, my eyes filled with anticipation.

Even Celtic stared at the Holy Grail without blinking.

It was as if he could see everything he wanted from the light of the Holy Grail.

He had already ascended to the throne and become the king of this place. Countless treasures, countless women, and the power to control everything had become real.

He looked at the people around him. They all kneeled and kowtowed to him respectfully and called him the king from the bottom of their hearts.

Looking at those beautiful women, they fought to follow him, wanting to become his women. This was the dream that he had been pursuing all along.

At this moment, the Holy Grail spat out a water dragon.

Countless gold, silver, and jewelry, as well as those beautiful women, all fell into the crowd.

At this moment, the soldiers had already forgotten about the battle, jumping onto the treasures, desperately fighting for them.

There were even some soldiers who hugged those women tightly and danced happily as if they had gone mad.

Celt even flipped over and jumped onto the ground. He grabbed a handful of wild grass with a greedy expression on his face.

However, in his eyes, these wild grass were just those gold, silver, and jewelry.

The entire battlefield had already become chaotic. Only two people were exceptionally calm.

Yu Tian turned his head and smiled at Caesar indifferently. He said in a low voice, "See? This is the greed of the people. Everyone treats those weeds as treasures, but they will soon be devoured by the Holy Grail,

"I think this must be very exciting! "

?Chapter 746 – Chapter 745: No Mercy

The Holy Grail created different illusions for everyone. Each illusion was especially real. Not only were the soldiers immersed in the illusions, but even Celtic was the same.

Yu Tian saw Celtic holding a handful of soil on the ground. He treated the soil as gold and silver treasures. His greedy eyes made him look like a zombie who had lost his soul.

This was the power of the Holy Grail. As long as people looked at these illusions with their greedy hearts, they would be immersed in the illusions and would never be able to extricate themselves.

They would only be able to disappear when their souls were completely devoured by the Holy Grail and disappeared from this world.

However, when they woke up, they were already useless. Their souls and bodies had been devoured by the Holy Grail. What was the point of living?

At this moment, the Holy Grail had begun to devour some of the people who were trapped in the illusion.

The greed of those people was higher than that of others. Deep in their hearts, they wished to own the entire world, hoping to put all the good things in the world into their own pockets.

It was also because of their greed that they became more selfish and did not have any sense of humanity. They were just like a devil without a soul.

More and more soldiers were disappearing one after another. No one could see that this illusion would bring them any harm.

They were only immersed in the illusion and happy. They did not even care about the people around them anymore. In their eyes, there were only the things that they imagined in their hearts.

At this moment, Celt's illusion could no longer make him feel any more sober.

The light from the Holy Grail sucked Celt and those who were deeply immersed in the hallucinations into the cup.

The battlefield, which was originally very shocking, now looked quieter and quieter.

Only the scattered weapons on the ground, as well as the weeds and soil that were treated as gold and silver treasures, would make people think that this was once a battlefield.

To be more precise, this was a battlefield where no war had broken out.

Yu Tian did not put away the Holy Grail. He wanted to put the last soldier into the Holy Grail so that this battle could be considered to be completely resolved.

However, this did not require much time. In about a minute, the last soldier who was unable to extricate himself from his greed also disappeared into the light of the Holy Grail.

When Yu Tian looked at the Holy Grail again, the souls whose kidneys had been devoured let out shrill screams.

However, Yu Tian only smiled indifferently and casually put the Holy Grail into his backpack.

He could not be blamed for being ruthless. He could only blame them for being too greedy.

If they were not so greedy, how could they let the Holy Grail devour their souls?

It could only be said that they were courting death. He had only provided the Holy Grail with an opportunity to devour them.

Caesar, who was standing at the side, frowned. The process of the Holy Grail devouring these people made him feel particularly terrified.

If he wanted to become the king, he had to go through the process of the Holy Grail Devouring Souls. Then he would rather not be the king than see so many people being devoured by the Holy Grail.

He looked at Yu Tian again. At that moment, Yu Tian's expression was very calm. There was no guilt or even fear.

It was as if everything should be like this.

Caesar asked in puzzlement, "Don't You Feel Afraid? Those people were all devoured by the Holy Grail. They are all living people! "

Yu Tian laughed and said very calmly, "You see, they are indeed people, but to be more precise, they are enemies. There are many enemies in this worlda€]"

"Enemies can also be called enemies. If you don't kill them, they will turn around and kill you. Every enemy is like a poisonous snake. When they are docile, they will win your pity. "

"Even if you sympathize with them, when they turn hostile, they will immediately bite you to death. Therefore, you must not show mercy to your enemies."

I used to be like you, I would not kill my enemies, but later I learned that mercy to your enemies is cruelty to yourself, so you'd better learn,

when you become a king, you will understand that when more enemies appear in front of you, they will want everything you have at all times. You can only protect these precious things by killing them,

"The precious things are definitely not what you see now. These animals in the forest, they may be your family, or even your loved ones,

"At that time, you will know how hateful the enemies are! "

Caesar also seemed to understand Yu Tian's reasoning. He nodded slightly and said softly, "I only hope that there will not be too many enemies in my life in the future,

"I don't want my enemies to die so cruelly! "

One day, he didn't want to talk too much with him. After all, he was still very young. In the future, he would learn more things.

There was no need to clean up the battlefield. Even if those things were thrown here, no one would pick them up.

Now that Celtic was dead, Caesar should be the king here.

They went back to pick up Jenny and returned to the kingdom together.

When they arrived at the gate of the castle, the soldiers guarding the castle were so scared that they picked up their weapons.

The soldier standing on the gate shouted, "Stop, don't come near us, or we will shoot!"

Although he shouted so, the soldier still looked at the others nervously.

At this moment, the others were also discussing.

"Isn't that the god of our kingdom? And our wizard, who is that child?"

"The king said yesterday that they are now our enemies and we must kill them if we see them, but why hasn't the king returned?"

"That child looks like the old William Caesar. Could it be that the real king has returned? No matter what, we have to open the door!"

Just as they were whispering, Yu Tian raised his head and shouted impatiently,

"You bunch of blind people, the one standing in front of you is the real king,

William Caesar!"

"I will only give you one chance to open the door. If you don't cherish it, I will immediately take your lives. Now that you are in the king's Caesar, come back and be the King!"

"If anyone wants to stop you, take her life as an example!"

As soon as he finished speaking, Yu Tian raised his fist and punched the heavy city gate.

The city gate, which weighed several tons, fell to the ground..

No data found.

?Chapter 747 – Chapter 746, He Would Accept It

The soldiers were scared out of their wits. The two city gates weighed more than a hundred tons, and it would take dozens of people to open them.

But this god had only used one punch to knock the city gates to the ground. How much strength was this.

The sound of the gates falling to the ground also made many people discover William Skye, Yu Tian, and the wizard they respected standing outside the city gates.

Everyone gathered around and knelt on the ground.

They did not respect Caesar, but Yu Tian and Jenny.

Yu Tian was the god they thought he was. It was also yesterday. Almost everyone saw that Yu Tian was a person who could create fire.

There was even a rumor today that Yu Tian was the god of fire sent by the heavens. He could bring everyone here a happier life.

He could also bless them and make it easier for them to use fire.

As for Jenny, she was their magus. She had always enjoyed a very honorable status among them.

The old king had always believed in this magus. No matter what the Kingdom decided, he would first have to ask for the Magus'opinion.

Now that the two of them had returned to the kingdom, they had to offer their respect no matter what.

This was the only thing they could do, and that was to stay here and use their most sincere hearts to hope for the protection of the Wizards and the God of Fire.

Yu Tian looked at Jenny. This was the best opportunity.

Jenny also understood and immediately said loudly in front of everyone,

"Listen well, this young man behind me is your true king. "

He is also the heir to the throne that the old king personally told me about. He is the legendary William Caesar. With the help of me and the gods, Caesar wants to return to this kingdom and become the king,

this is a decree from the heavens. For this, the heavens have also punished William Celt, making him fall into the Endless Sea of fire forever, enduring the torture brought about by his once shameless actions,

"Hurry up and send your respect to your new King! "

When everyone heard this, they were shocked and dumbfounded.

What happened was simply too unbelievable.

They had only seen their king, Celt, yesterday. He had brought almost all the soldiers of this country out of the castle, but today, they had all disappeared.

This also made them understand that to the gods, no matter how many soldiers, no matter how many weapons, they were not worth mentioning in front of the gods.

Moreover, this was the will of the heavens. What were they waiting for?

Thus, everyone immediately knelt in front of Caesar, they shouted in unison, "Your Majesty, Welcome Back to your country. We are your subjects. Under your leadership, our kingdom will definitely be more glorious, we will also be more powerful. Now, we will lead you back to Your Palace! "

Caesar did not know what to do. He was already very nervous when he saw the castle and so many people.

Now, these people were kneeling in front of him and calling him the king. He felt that this scene was very big, and he seemed to be unable to control himself.

Yu Tian gently nudged him with his elbow and said in a low voice, "What are you still thinking about? You are now the king of this place. The people kneeling in front of you are all your subjects,

"But you have to give them some praise. For example, you are all very good. After I become the king, each of you will be rewarded with a pig or something. Don't just look at me like an idiot. Speak quickly! "

Caesar nodded in a panic and then stammered, "Each of you has a pig. I will reward you because you are all very good to me!"

"I am the king here. My name is Caesar! "

After these few words, Caesar fell silent.

Everyone looked at each other. When someone became a king, they would definitely celebrate for a few days. The entire kingdom would also be happy. When it came to this new king, everyone would be given a pig.

Having a pig was already very good. What was the point of having so many?

Hence, everyone immediately kowtowed to Caesar, followed by a round of praise.

When they returned to the palace, it was already noon.

When the new king arrived at the palace, the busiest people were the servants.

First of all, they had to prepare clothes for the new king. They also had to bathe him. Even his hairstyle had to be rearranged.

Caesar was completely unaccustomed to being played with by the human body. In a while, he had to take off his clothes and bathe. Even if it was a bath, he wanted to bathe himself. However, there was a large group of women around him, and everyone was touching his body. This made him feel very uncomfortable.

After taking a bath with great difficulty, he had to try on all kinds of clothes and shoes.

The most uncomfortable thing was that he had to get a hairstyle. Was that what it meant to be a king? Was there a need to put in so much effort.

As for Yu Tian and Jenny, they stayed by his side and taught him some basic etiquette from time to time.

In the end, even Jenny felt a little impatient. She said helplessly to Yu Tian, "What has this child experienced in the forest all these years? Can he really integrate into this world?"

However, Yu Tian nodded indifferently and said patiently, "Whether he can integrate or not, at least he hasn't resisted yet. This means that he has accepted it." "

After all, he had lived in that forest for more than ten years. This was already not easy for him, so now we should give him more patience,

"You are still a wizard here. Later, you will have to preside over the coronation ceremony. This may be your last job as a wizard in this kingdom."

"In the next few days, we will be celebrating. We will also be preparing to leave this place. I Can't wait any longer! "

Jenny also hoped that she could return to her own era as soon as possible.

However, she was a woman. In some aspects, she would not be as excited as Yu Tian when she returned to her own era.

After being together with Yu Tian for so long, she had already developed some very subtle feelings for Yu Tian.

Perhaps this was love. If this was really love, would Yu Tian still be able to remember her when he returned to his own era with so many women by his side?

Would he still be able to stay by his side like he was now? He would tell him whatever he had experienced.

Perhaps he would never be like this.

When she thought of this, Jenny's gaze carried a hint of disappointment.

Without saying a word, she turned around and went back to the other room.

Yu Tian still felt that it was somewhat baffling. However, when he saw Jenny's somewhat lonely back view, he seemed to have understood something.

He chuckled and followed Jenny into the room.

When he entered the room, Jenny, whose back was facing him, suddenly turned around and hugged him tightly..

?Chapter 748 – Chapter 747, Absolute Trust

The moment Jenny hugged Yu Tian, her tears flowed down as well. She said emotionally, "If going back means that there is a very long distance between us, then I am willing to stay herea€|"

"I can see you here every day. I never want this memory to torture me in my mind, but I have no choice. Can you tell me what to do?"

Yu Tian did not speak, nor did he want to waste so much saliva.

What to do? Wasn't That Easy?

Thinking of this, Yu Tian raised Jenny's face in a domineering manner and kissed her fiercely.

This was what he wanted to say to him. Since it felt so good, why should he think about those useless things.

Even if he returned to his own era, what could he do? To be able to stay by his side, this was not a difficult thing to do.

And it was especially easy.

Jenny was also a meteorologist, which was of some help to him. One day, if he could control the weather, it would be thanks to Jenny.

Since no matter how he thought about it, it was beneficial, so why not do it?

Besides, waiting was also waiting. If there was time, why not do something else? Why talk so much nonsense?

In this era, the entire Chu family was in chaos.

Uncle Long had already arrived at the headquarters of the Chu family from the cultivation world.

When he saw Chu Aotian, uncle long frowned and said coldly, "The family has already given the order. If Yu Tian doesn't appear, Yu Tian's father may not be able to hold on any longer!"

The family was now putting all sorts of pressure on Yu Dian Lie, so he had no choice but to give the order. If he doesn't come back one day, the Chu family will also disappear!"

Although it was hard to say this, Uncle Long's expression was also very troubled because this was the order of the family head. He had to say it.

Chu Aotian also shook his head helplessly.

He seemed to have already seen through it and said indifferently, "The family's order. In fact, I already knew that Yu Tian has disappeared now. There must be some people with ulterior motives, they will use this opportunity to attack the family. and our Chu family must not become a tool for anyone other than Yu Tian. So if the family head wants to give up, then my family will also disappear."

If others control the Chu family, then it will be even more difficult in the end. Ever since Yu Tian appeared, the Chu family has already controlled more than three-fifths of the world's wealth,

now, the entire world is looking at us, looking at the 108 sisters. Although we have tried our best not to let others think too much, we have to have a reason.., and now, the war between Yu Tian and Klein, because of Yu Tian's disappearance, has become a complete mess. The 108 sisters can not suppress those mercenaries at all,

there were even many people speculating that Yu Tian had been killed in the war. Now, everyone in the superpower was talking about it..,

what we couldn't accept the most was when Yu Tian would return? We had no idea that if the Yu family were to sacrifice us for the family's interests, we wouldn't have any choice! "

Uncle Long shook his head helplessly when he heard this. He sighed and said,

"Don't think too far ahead. It's just an order right now. As for the family

He didn't want this mission to be carried out at all, so he still gave us some time. However, this time was earned with his life,

now, all the opponents in the family had their eyes fixed on Yu Tian's descendants. The family head was also doing his best to protect them,

if these descendants were killed in the internal strife of the family, then even if Yu Tian came back, it would be useless. Therefore, we can only hope that Yu Tian will come back soon,

as long as he appears in this world, even if he says a word, all the challenges will be solved! "

Chu Aotian could only say indifferently, "I hope that Yu Tian can come back alive, but this is only hope. It doesn't mean that he will definitely come back! "

"It's better to have hope than no hope at all. I will stay in the Chu family for this period of time. Once there is any movement in the family, I will immediately think of how to deal with it.

"I will try my best to buy Yu Tian more time. I still firmly believe that Yu Tian can definitely come back alive. Moreover, this disappearance is also a kind of training for him. "

"One day, when he returns, his strength will become even stronger. This is Yu Tian, this is the man of Destiny!"

At the same time, Yu Tian also woke up from his sleep.

The entire country was in a frenzy of celebration. Outside, there were singing and dancing. It was especially lively.

However, the room was very quiet. Jenny was still sleeping soundly beside him. Jenny's expression was exceptionally happy. Even if this was only a moment or a permanent memory, she still had it now.

Yu Tian gently touched Jenny's face. Jenny slowly opened her eyes and looked at Yu Tian with adoration, she said gently, "Why did you wake me up? Can't you let me indulge in this beautiful dream for a little longer?"

"Have you forgotten? That illusion of greed? This isn't a beautiful dream. This is completely real. You Don't have to think about those useless thingsa€|

"Even if we return to our era, you can always stay by my side. As long as you are my woman, you can always stay by my side!"

Jenny was extremely excited. She looked at Yu Tian in disbelief and asked excitedly, "Is what you said true? Can I really be with You Forever?"

Yu Tian gently stroked her long hair and nodded. "Of course it's true. I will definitely do what I say. But when you are by my side, you have to be prepareda€| "

"You know that I have a lot of women by my side, and some of them are especially willing to be envious and jealous. So if you want to stay by my side, you have to be mentally prepared firsta€| "

"That is, when those women want to do something to you, you have to grit your teeth and endure it. They will use all kinds of methods to torture you, and there are some methods that even I feel helpless abouta€| "

"As long as you are prepared, you will definitely be able to stay by my side!"

Although Jenny felt that it was somewhat unacceptable, in order to be together with Yu Tian, she was able to endure all kinds of difficulties.

At this moment, there was a flash of lightning in the sky. A strong wind blew into the house through the window, and even the curtains were lifted.

Yu Tian and Jenny frowned at the same time. How did the weather change so quickly?

Jenny immediately went to the window and looked up at the sky. At this time, the sky was filled with strong winds. The weather was indeed changing.

At this time, Yu Tian had already put on his clothes and said excitedly, "We can return to our era! "

?Chapter 749 – Chapter 748, Prepare To Return

Yu Tian was extremely puzzled. Could it be that Jenny had made a mistake in her calculation of the weather?

She had said that the weather would only change after a few days. How did the weather change all of a sudden.

He was completely unprepared. While the outside world was still celebrating Caesar's ascension to the throne, he and Jenny were about to activate the energy field immediately.

Jenny did not say much nonsense. She immediately took out a pen and paper and started to calculate quickly.

The weather change was not something she could control. She could only calculate the location of the energy field as soon as possible. Then, when the Lightning reached its peak, she would let Yu Tian activate his energy. Only then could she return to her own era.

Yu Tian saw that Jenny was especially anxious, so he softly comforted her, "Even if the weather changes, it has nothing to do with your calculations. The changes in the air include humidity and air pressurea€|"

"When these things are gathered together, the current weather will appear. Even the computers of our era could not calculate it so accurately. You have done very well!"

"So don't be anxious. Take your time. As long as you calculate the location of the energy field, we can leave this place immediately!"

Jenny nodded. She knew that Yu Tian was doing this for her own good, but now was not the time to talk about this. She had to quickly calculate the location of the energy field.

Otherwise, she did not know how long she would have to wait until the peak of the weather was over before she could leave this place.

The most important thing was that the weather outside was just right for them to turn on the energy.

If they could not grasp this opportunity, they might have to wait for a long time before they could have such weather again.

Of course, Yu Tian also understood this principle. However, even if he had such a high IQ now, he was not as professional as Yu Tian when it came to calculating the energy field.

The weather outside became more and more violent, and lightning flashed across the sky from time to time.

The dull thunder made the people who were celebrating outside run back to their homes.

In this era, people still did not have much defense against the weather. If it rained a few times, many people might die.

Therefore, people in this era would stay at home and not go anywhere as long as the weather changed slightly.

At this time, Jenny calculated the location of the magnetic field, which was in the garden behind the palace.

If her calculation was correct, there would be a bolt of lightning striking the garden behind in 10 minutes.

When Yu Tian saw the calculation data, she could not help but feel a little puzzled.

"Jenny, it's not that I don't believe you, but how did you calculate the range of the energy field without any data reference and the help of the equipment?"

She nodded and said, "I knew you would ask that. In fact, it's very simple. Although I don't have any reference data, I have data on the air humidity, the strength of the wind, and so on. "

"There are many flowers on my windowsill. This is a special plant of this era. It can accurately sense all kinds of changes in the weather. When the weather changes" Especially when the humidity of the air and the wind force reach a certain level,

the petals will turn into various colors, which is very magical. When I first discovered this plant, I had studied it for a long time,

so now I can get the data of the weather change according to the color of the petals. Although there is a certain error, but under my calculation, the error is acceptable,

"So let's hurry to the backyard, but before we go, we might need some things!"

Yu Tian turned to look at the flowerpot on the windowsill. The flowers in the flowerpot were emitting a kind of red color. Perhaps this red color was the data of the fiercest weather.

It had to be said that this was really magical, but no matter how magical it was, there was no time to study it now.

So he hurriedly asked, "Before we leave here, what else do we need to prepare? While we still have some time, we have to prepare quickly!"

Jenny did not say anything, but opened a big cabinet. There were many metal shields in the cabinet.

At this time, she said to Yu Tian, "These shields are specially made by the people here. They can effectively defend against lightning attacks,

"After all, the moment the lightning strikes, the destructive power is very strong. Your body might be able to defend against it, but for me, a random lightning strike will destroy me,

"Therefore, I still need to have the necessary defense! "

As she spoke, she put these shields together. When Yu Tian looked at them, these shields had clearly become a protective armor, but it felt like a skirt.

A woman was a woman. No matter what, this love of beauty would always remain in her heart.

Even if she wanted to travel through time and space, she had to make it look so good.

This was simply too slow.

After Yu Tian had put on his equipment, he looked at the time. There were still five minutes before the strongest lightning bolt would strike the backyard.

This amount of time was enough for them to prepare.

However, at this moment, Caesar pushed open the door and entered.

At this moment, Yu Tian did not want to waste any more time with her. As he brought Jenny to the backyard, he said to Caesar, who was following behind them and looking at them inexplicably, "Now, we have to leave this place as well!"

"Perhaps we will never see each other again in this lifetime. You must be a good king. You must take good care of your people. Otherwise, you can forget about being a good king! "

Caesar suddenly stopped and said reluctantly, "Where are you going? Can You Bring Me with you? I really don't want to be a king right nowa€|"

"I feel that being a king and living freely in the forest are not the same at all. I don't want everyone to kneel in front of me and talk to me. I don't want my life to bea€|"

"I like being free in the eyes of others. Take Me with you and leave this place.

Let whoever likes this king do it. I don't want to be this king! "

Yu Tian suddenly stopped and turned around. He grabbed his collar and said angrily, "Listen carefully. Being a king is your destiny. You Can't go against it,

"You can not go anywhere. You can only stay here and be your king. You must always remember that your life is the life of everyone outside,

"How many Kings Can you be? "Everyone outside can have a happy life. If you want to give up now and escape, then I regret bringing you here in the first place, if you persist in not wanting to be king here, I will kill you now.. Do You Hear Me?

This was the benefit of the nameless technique. At this height, his body was like a piece of paper, lightly landing on the ground..
