

I Have 108 Older Sisters #Chapter 751 – 800

Read I Have 108 Older Sisters Chapter 751

?Chapter 751 – Chapter 750, Delicious Canned Food

Chapter 751: Chapter 750, Delicious canned food

Yu Tian felt extremely excited when he returned to the world he was familiar with.

Although this transmigration not only did not cause him any harm, but he also obtained a treasure.

After all, this was not his era. It was best to return to his own era.

He looked at the familiar things around him, the tents, and the canned food in the tents.

Yu Tian took a few cans and started to eat them.

In the past, he thought that canned food was nothing good, but now, the canned food was incomparably delicious.

As he ate, Yu Tian thought.

Where did Jenny teleport to? Did she return to this world, or did she travel to another era?

Thinking of this, Yu Tian suddenly remembered a very important piece of data.

He had transmigrated here at that time, so it was also possible that she had transmigrated here.

This was the place where Jenny was studying the weather at that time.

As long as he had this data, he would definitely find Jenny.

After all, he had promised Jenny that he would definitely make Jenny stay by his side, so he had to keep his word.

However, he was in no hurry to find Jenny. He should immediately inform the 108 sisters of his return.

However, his phone was out of battery, and the transmission device was damaged. The city was filled with the sound of cannon fire.

It seemed like the civil war here was particularly intense. He didn't know if there had been any changes since he found Klein's location.

He could only think about these questions later. First, he had to think about how he could contact the 108 sisters.

There should still be a phone that could be used here, but it wasn't easy to find it.

A place with electricity, or a phone that could be used.

It was night time now, and there were some places with lights around, but these places were definitely occupied by the armed men.

However, no one could stop him if he wanted to find a phone.

Thinking of this, Yu Tian walked to the place closest to him where there were lights.

Soon, he arrived at the place where the lights were on.

Soon, he arrived at the place where the lights were on.

Yu Tian looked carefully. This should be a school. On the school playground, there were not only armed men holding weapons, but also some boxes containing weapons. However, they were scattered on the ground.

From time to time, armed men would carry these boxes into the school.

Yu Tian looked at the symbols on the boxes and immediately knew that the boxes were not filled with ordinary weapons. Instead, they were filled with small missiles.

Even though they were small in size, the power of the explosion was especially strong. One mortar-sized missile was enough to blow up an airplane.

There were at least dozens of boxes in this playground. It seemed that these militants wanted to use these missiles to attack their enemy forces.

However, Yu Tian didn't care who they attacked. He came here to look for a phone. Not to mention that they had missiles, even if they had weapons of mass destruction, it had nothing to do with him.

It was best not to let them notice him. It was better to sneak in secretly.

Yu Tian made up his mind and turned to the backyard of the school. There were a few armed men here, but they preferred to stand there smoking and chatting. They did not pay attention to their surroundings at all.

Moreover, it was late at night and the lights were not so bright. Yu Tian easily sneaked into the school.

After entering the school building, Yu Tian tried his best to avoid those armed men.

This was also the basis for him to successfully find the phone. He also wanted these armed men not to waste their lives in vain.

If he let them live, he could at least pin down those hostile forces for himself.

Therefore, regardless of whether they were enemies or friends, it was best to let them live first.

Very soon, Yu Tian found a phone in a room. It was an old phone.

Yu Tian was very curious. With the technical ability of super nation, how could there still be such an old phone?

He couldn't care less now. He had to contact the 108 sisters first and let them know that he was still alive. Anything else could be said later.

Yu Tian couldn't wait to pick up the phone. Then, he dialed Chu Hui's number on the teacher's dial.

After the number was entered, Chu Hui's voice did not appear on the phone. Instead, there was a particularly ear-piercing screech.

This sound was really ear-piercing and especially sharp. It made Yu Tian hurriedly throw the phone aside. Even so, Yu Tian still had a deafening feeling.

He patted his ears hard to make himself feel better.

But then he shook his head and looked at the phone helplessly.

It wasn't easy to find the phone, but it couldn't be used. This was really annoying.

Since this phone couldn't be used, it was better to quickly find another phone.

Don't waste time here.

But at this moment, the door behind him was suddenly pushed open. Two armed men entered the room. While they were chatting and laughing, Yu Tian, who was hiding behind the door, killed one of the armed men with a punch.

The other man, in a moment of shock, raised his weapon out of reflex.

But how could Yu Tian give him the chance to open fire? With a single punch, the armed man crumpled to the ground.

Yu Tian went up and snatched his weapon. He casually broke the weapon into parts and threw them on the ground.

This move scared the armed man so much that his face was covered in cold sweat. His eyes were filled with fear.

As he crawled back, he asked in fear, "Who are you? What are you doing here?" Yu Tian frowned impatiently. Did he need to explain who he was to him?

He only stretched out his hand toward the armed man and said coldly, "Give me your phone. If you want to live, don't think about playing tricks on me.

Otherwise, I can kill you at any time! "

The armed man hurriedly took out the phone from his pocket and gently threw it to Yu Tian.

If he only wanted the phone so that he could live, what could he do even if he gave the phone to him?

Yu Tian looked at the phone. Sure enough, it could still be used.

Hence, he immediately called Chu Hui.

When he received the phone call back then, when he heard that it was Yu Tian's voice, he jumped up in excitement.

He did not even say a word to Yu Tian. Instead, he rushed to the courtyard of the Chu family's headquarters and shouted loudly, "Yu Tian is still alive. He has already called me. Yu Tian has returned alive!"

Our Chu family does not need to be afraid anymore. Yu Tian Is Back! "

Yu Tian could hear the cheers and cheers of his sisters over the phone. There were even many of them who were crying tears of joy, he shouted into the phone, "Yu Tian, where on Earth have you been? Why didn't you call us?

Are you really back now?"

?Chapter 752 – Chapter 751, Finding The Ghost

The excitement of these sisters made Yu Tian feel especially uncomfortable.

During the time he disappeared, the 108 sisters must have been under a lot of pressure. Otherwise, they wouldn't be crying like this.

To have someone care about him so much, it really made people feel warm in their hearts.

Yu Tian said to the phone indifferently, "Of course I'm back. Otherwise, who would call you? who could be as handsome as me and make you worry so much?"

"My dear ones, don't worry and don't feel any pressure. I, Yu Tian, am still your guardian God. As long as I'm here, everything will be settled by me!"

At this moment, Chu Aotian and uncle long rushed into the courtyard.

They heard Yu Tian's voice from the phone. Uncle Long and Chu Aotian happily shook hands with each other and jumped up like children.

Yu Tian had really returned. Then, there would naturally be no problems on the side of the family.

Yu Dian Lie could also continue to control the family. As long as Yu Tian was watching, the people in the family could not do anything.

Yu Tian was a person who was truly destined by heaven. They could do other things, but they definitely could not go against Heaven's will.

After being happy, uncle long immediately said, "I'm going to tell this news to the family head now. The family head will definitely be very happy. We have to bring Yu Tian back as soon as possible! "

With Uncle Long's words, the elites of the family all over the world immediately began to take action.

There were more than a million people who were researching how to fetch Yu Tian.

However, Yu Tian shook his head and said, "I don't need you to fetch me. Just do what you should do like before. I have some other arrangements in Super Nation,

"After I settle all these problems, I'll go back myself. You Don't have to worry about me!
"

Yu Tian's decision was like an order, and no one could disobey it.

Moreover, they also believed in Yu Tian. With his strength, walking out of the Super Nation alive was a piece of cake.

So now, taking advantage of Yu Tian's enthusiasm, they had to make up for the family's losses in the past few days.

As long as Yu Tian was still alive, everything in the family would not change.

The family's interests would continue to be put into their pockets like before.

Yu Tian hung up the phone and crushed it into pieces.

When the militant heard that the man standing in front of him was actually Yu Tian who had started this war, he was scared out of his wits.

However, Yu Tian did not have any sympathy for him. He directly used a force to blow up the militant's head.

If he was still alive, his plan would not have gone so smoothly.

He did not need to think about the war, nor did he need to think about where Jenny would be. The first thing he needed to think about was, where was the war ghost?

He had once shot himself into another world. If he did not take revenge, it would be a joke to others in the future.

No matter what, he had to find the war ghost and kill him with his own hands.

According to the information he had, the war ghost would only appear in the vicinity of an intense battlefield.

There were conflicts appearing in this city at any time and place, but it was impossible to have an intense battlefield.

No matter what kind of conflict it was, it was just a small scene.

Therefore, he had to go and find it first. If he could see the war ghost, that would be the best. At the same time, he could kill it immediately.

Thinking of this, Yu Tian left the school building. Where were the intense gunshots? Where did he go?

He happened to pass by a phone store.

The shutter door of the store was tightly closed. Even the windows were sealed from the inside. There must be a phone that could be used here.

There was no need to be in such a hurry to find the war ghost.

Even if he was anxious, it would be useless. If the war ghost did not appear, he would definitely not be able to see it.

Moreover, the equipment had been damaged. He could only rely on his senses to find the war spirit.

He directly pulled the shutter door open. There were five locks under the shutter door, but even if there were 50 locks, they would not be able to stop Yu Tian's power.

When the shutter door was pulled open, Yu Tian also discovered that there were several people in the room.

They were lighting weak candles, but at this moment, these people raised their weapons and aimed at Yu Tian.

One of the middle-aged men even shouted, "Don't walk in here, or else I'll let you have a taste of bullets. There's nothing here that you want. Get out of here immediately! "

Before he could finish his sentence, the man's weapon was already in Yu Tian's hands.

He didn't even know or didn't see clearly how Yu Tian had done it? The weapon was also in his hands.

Just as the man was feeling very confused, Yu Tian returned the weapon to him.

He said proudly, "See? If I wanted to kill you, it would be a piece of cake. But I don't want to do that..,

"I came here to find a phone that can be used. I don't want to kill you. Now, can you sell me a phone?"

The man was still stunned. But then he realized that he was no match for Yu Tian.

If he wanted to kill him, he would be dead by now. How could he still be standing here.

Thus, he brought Yu Tian to the counter. The counter was filled with phones of all styles.

Yu Tian chose one. It had more functions, and this phone was made in eastern country.

Yu Tian, who absolutely supported domestic products, pointed at the phone and said indifferently, "There's no need to choose. I want this one! "

With the phone in his hand, Yu Tian agreed to buy the phone and not rob it. He also threw the cash to the man according to the price of the phone.

Deng Deng recharged the phone and replaced it with his phone card.

During the process of charging the phone, Yu Tian knew that the people sitting here were all people from the nearby shops.

When the war began, they couldn't even go home and could only be trapped here.

Fortunately, there was a shop nearby where they found enough food.

Yu Tian only listened and didn't take these people to heart.

Don't forget that this was still the war era. As long as this war still existed, they had to live like this forever.

So after the phone was connected, Yu Tian didn't say anything and just left.

Soon, he arrived at the battlefield of the conflict.

The two armed forces were still fighting, but this time, they didn't have any large-scale conflict.

There were only a dozen people on both sides, shooting at each other..

?Chapter 753 – Chapter 752, Come Back Alive

It was impossible for the war spirit to appear in such a battle scene.

Yu Tian, who was eager for revenge, immediately thought of an idea.

Since the scale of the battlefield was so small, he would make it bigger. As long as he could let the war spirit know that there was a large-scale war here, he would definitely appear here.

After making up his mind, Yu Tian immediately called Chu Meng and sent his coordinates to Chu Meng. He asked him to immediately arrange for a large-scale aerial bombing of the coordinates.

Chu Meng immediately gave the order and arranged for 50 super planes at once. They bombarded the coordinates provided by Tian.

Initially, the armed men thought that this was just an encounter. They only needed to fight for a while and then leave this place.

But who knew? While they were shooting at each other in boredom, a buzzing sound came from the sky.

When everyone looked up, they saw a rain of bombs falling from the sky.

They couldn't even Dodge in time. They could only watch as the bombs exploded beside them.

The explosion was especially powerful. All the buildings within a few hundred meters were destroyed in the explosion.

The shockwave from the explosion even damaged more buildings.

Yu Tian, who was standing a hundred meters away, was extremely excited when he saw the explosion.

The war spirit would definitely be able to sense such a powerful attack.

As long as he waited here, the war spirit would appear soon.

Although he didn't have any detection equipment this time, Yu Tian was confident that he could detect the war spirit with his senses.

After all, when he first discovered the war spirit, he did not have any detection equipment. He only felt that there was someone following him.

At that time, he thought that it was some militant and wanted to see who he was.

But in the end, it was the war spirit.

At that time, the artificial intelligence in his brain even sent him a reminder.

Thinking of the artificial intelligence, Yu Tian still felt a little regretful. If this guy was still around, this boring wait would definitely be interesting.

At least there would be someone to talk to him.

Time passed slowly. The Flames on the battlefield were about to be extinguished, but the war spirit still did not appear.

Yu Tian was a little impatient from waiting. He sat cross-legged on the ground and started to activate the nameless technique.

Only by maintaining this state of emptiness could he carefully sense the changes in his surroundings.

However, Yu Tian was still very certain that the war spirit had not appeared.

Yu Tian had no choice but to consider why it was like this? Could it be that this kind of war scene was not big enough?

"Wait a minute, I know why it is like this! "

Yu Tian suddenly opened his eyes. War was not a massacre. It required both sides to be angry together. Moreover, there would be a large-scale massacre that both sides would have. Only then would the war spirit appear.

That was because when the war spirit appeared, it was such a scene.

In that case, a simple bombing was impossible for the war spirit to appear.

In that case, there was no need for him to stay here. He should go to a bigger battlefield.

The war spirit would definitely appear on such a battlefield.

Of course, it was also very easy for him to create such a battlefield.

But under the premise that he should go to the mercenary base, only then could he create a bigger battlefield.

In the blink of an eye, Yu Tian touched a helicopter.

He personally piloted the helicopter and arrived at the mercenary base located in the coastal area.

The mercenaries also knew that Yu Tian had disappeared. They originally wanted to retreat, but they still wanted to make money. Although they stayed here, their morale was especially low.

Other than simple defenses, as long as no one attacked them, they would not attack anyone.

They just stayed in the base every day, eating, drinking, and having fun.

Even the super warships behind them did not enter a state of war.

These super warships seemed to have become yachts. There was even a banquet being held on one of the warships.

When Yu Tian walked into the base, he could see the sparkling lights on the battleship.

Yu Tian felt particularly angry. He had paid them to come here to fight, not to let them enjoy themselves here.

The two mercenaries standing at the door were still very sleepy due to the dark sky. They had only drunk a little wine, so they didn't recognize Yu Tian.

The two groups of mercenaries even shouted at Yu Tian, "Hey, Buddy, you seem to have come to the wrong place. While You're still alive, hurry up and stay away from here. We don't want our weapons to casually kill youa€| "

"Don't forget that we're at war now. Even if our commander isn't here, we're still enemies. But today, we're in a good mood, so you can still leave Alive!"

Yu Tian was already very angry. After hearing these words, he could no longer suppress the fire in his heart.

He took a few steps in front of the mercenaries and said coldly, "Open your blind cat eyes and see who I am. "

The two mercenaries looked carefully under the light and were immediately scared out of their wits.

They looked as if they had seen a ghost. One of them immediately picked up the radio in the base and shouted loudly, "Are you guys still playing? Our commander, Yu Tian, is back. He is right outside the door!"

However, laughter came from the radio and said with disdain, "You said that

Yu Tian is back. This is the biggest joke Pve hearda€|"

"But brother, I really like this joke. Is there anything more ridiculous?"? "Say let us hear it. At least let this night not be so boring! "

The mercenary was about to cry when he heard that. He was especially angry and scolded, "You better wake up. Who is joking with you guys? Pm telling the truth. Our commander is standing right herea€| "

"Hurry up and get up! Otherwise, he'll make you suffer!"

The mercenary in the radio felt that this guy's tone didn't sound like he was joking, so he immediately became nervous.

Soon, most of the mercenary commanders personally came to the door.

When they saw that the person standing at the door was indeed Yu Tian, everyone was so scared that their faces turned cold.

Wasn't it rumored that Yu Tian was already dead? But why was he still standing here alive.

Could it be that what they saw was a ghost?

Yu Tian also came close to them. He stared at them expressionlessly and said arrogantly, "I paid you to come here to fight, but you guys had a cocktail party here and even used my battleship!"

Tell me, what else do you want? Do you want me to call some women to accompany you?"

?Chapter 754 – Chapter 753, The Top Secret Order

Chapter 754: Chapter 753, the top secret order

The mercenaries knew that Yu Tian was extremely angry. If it were anyone else, they would be the same.

Their daily expenses here had already exceeded 100 million.

However, they didn't do what a mercenary should do. Instead, they just enjoyed themselves here.

Yu Tian didn't chase them away immediately, which was already giving them enough face.

Although they were mercenaries, there were not enough rules to restrict them. Moreover, at the beginning of this war, Yu Tian had told them that if they wanted to fight, they could fight. If they did not want to fight, they could leave at any time.

At that time, they had come here for the generous reward.

After that, it was reported that Yu Tian seemed to have been killed by something, so they were only here to muddle along, waiting for the order to retreat at any time.

As long as there was no order to retreat, they had to be paid.

But now that Yu Tian had returned, it seemed that this war would be fought again.

For some mercenaries, fighting was their favorite. After all, they were once elites.

They had crawled out from the dead on the battlefield, and the battlefield was where they should be.

At this moment, the commander of the battleship and the highest commander of the mercenaries all came before Yu Tian.

The highest commander was called Ratunik.

After seeing Yu Tian, he immediately bowed to Yu Tian and said with some guilt and some fear, "Respected Mr. Yu Tian, we have been waiting for you herea€| "

"What you saw made you very dissatisfied, but as mercenaries, if you don't give us enough orders, we can only do this. Moreover, there is no movement from the super nation's sidea€|"

"According to the information we have, they seem to prefer civil war to fighting with us!"

Ratunik was a good talker. After a few simple explanations, he changed the topic to the Superpower's civil war.

It seemed that this middle-aged man was quite smart.

Yu Tian was not really angry with them. After all, they were only mercenaries and not well-trained soldiers. On this point, he had no reason to ask them to do anything.

Therefore, he just nodded indifferently and followed them to the command center.

In front of all the higher-ups of the mercenaries, Yu Tian asked indifferently, "Now, we are going to attack certain places. I don't have any other requests.

The scene must be big. The more explosive, the better. "

"The battle must be fierce. I will be watching from here. At the same time, I also want to tell everyone a secret. When you launch an attack, you must always pay attention. "

"Whether it's on our side or the enemy's side, as long as someone is killed inexplicably, you must immediately report to me. This is especially important to me, "This is also the reason why I launched this attack! "

Hearing this, Ratunik frowned and even said with some surprise, "Respected Mr. Yu Tian, is this the war spirit you are talking about?"

As soon as he said this, everyone looked at Ratunik in shock.

If it really was the war spirit, they would rather give up on this war than die at the hands of the war spirit.

Because in front of the war spirit, they didn't even know how they died.

Yu Tian nodded his head with certainty and said coldly, "You are right, it is the war spirit. This damn thing, I must kill it myself. "

"I disappeared for so long because of this war spirit. I Don't care how you do it. How much do you want?" "I just want you to get the war spirit out. This is your mission objective! "

Ratunik frowned and said in horror, "I don't know whether we can accept this mission or not, because this is a mission to exchange our lives. "

"The ghost of war, I have heard of this legend many years ago. At that time, we were still on another battlefield. When the ghost of war appeared, we were engaged in a fierce battle with the enemy,

"There were at least 5,000 people on the other side, but these 5,000 people were inexplicably killed in front of us by some strange thing,

"At that time, we thought that we had created some magical weapons, but we didn't have any weapons to throw into the battlefield.

"When we were repairing ourselves, an old man appeared in our base. He advised us to leave as soon as possible and not to stay any longer. He said that we had already activated an ancient curse..,

"If we don't leave this place and continue fighting, everyone with weapons here will be killed by those mysterious people! "

When he heard this, Yu Tian frowned slightly.

"You said that an old man knows about the war ghost?"

Ratunik nodded and said slowly, "Yes, it was from that time that the legend of the war ghost was really known by people!"

Yu Tian felt that it was getting more and more interesting. If that old man knew what the war ghost was, then he must know how to find the war ghost.

Thinking of this, Yu Tian immediately asked, "Where is that old man? How can I find Him?"

Latunik carefully recalled for a while and then explained, "He is in the Starks! " Hearing this place, Yu Tian helplessly shook his head.

The Starks was a country formed by a desert region. There were many years of civil war here. There were all kinds of armed forces everywhere, and the region was particularly complicated.

It was no wonder that the war ghost would appear here, because someone had done an analysis.

People were killed every day in the conflicts in Stark.

Therefore, the war ghost was most likely to appear here.

It seemed that it was necessary for him to go to Stark to take a look. If he could really find the old man, he would be able to find the war ghost, and he would be able to take revenge and regain face.

After making the plan, Yu Tian thought that he had to return to Sean First and get a new teleportation device.

Otherwise, most of his time would be wasted on the road, so what was the point?

Just as Yu Tian got up and was about to leave, a female mercenary walked into the meeting room and whispered into Yu Tian's ear, "Mr. Yu Tian, there's a special envoy from the superpower outside. He requests to see you! "

Yu Tian flicked his eyebrows and chuckled. "It looks like he's here to make peace with me. Since I still have time, let's Meet!"

Ten minutes later, Yu Tian walked into the meeting room and saw a few middle-aged men sitting there. The first one to stand up was the special envoy that Klein had specially sent here.

After taking his seat, the special envoy smiled at Yu Tian and said, "Hello, Mr.

Yu Tian. I'm the Special Assistant to President Klein. My name is Raquel

Daniel.. I'm very glad to have the opportunity to meet you!"

?Chapter 755 – Chapter 754, Conditions For Peace

Chapter 755: Chapter 754, conditions for peace

Yu Tian didn't care who he was at all. He just wanted to know what he wanted to say here.

If that fellow, McClane, wanted to make peace with him, that would be acceptable.

Therefore, he smiled indifferently and took a sip of his coffee. Then, he said leisurely, "LackDaniel, your name sounds like a dog..,

"Let's not waste so much time and talk so much nonsense. Just tell me what you want to do."

Lackdaniel was not angry. After all, he was facing the most powerful person in the world. Even if he was joking with him, it was acceptable.

Therefore, he chuckled and said slowly, "Actually, I came here to make peace with you. Actually, you also know that we have no chance of winning this war"

At that time, the Supreme CEO only gave the order to fight to consolidate his power. However, the war has completely changed now. Many powers have appeared in the entire super country..,

everyone wants to have more things. Therefore, everyone now knows that this country will not be destroyed in the war with you. Instead, it will be destroyed in the hands of our own people,

"Therefore, our supreme CEO has no choice but to make a decision, and that is to make peace with you in a comprehensive manner. I hope you can agree to our request for Peace!"

His guess was right. That fellow, Klein, really couldn't hold on any longer. He really thought that he was that capable.

He didn't have any plans to fight a protracted war with him. It was completely acceptable to make peace with him.

Furthermore, this was what he wanted.

However, there was no meaning in making peace with him. He had made such a big scene. If he said that he wanted to make peace and then he agreed, it would be disgraceful. It would be as though he had to listen to everything he said.

With this in mind, Yu Tian chuckled and said arrogantly, "It's fine to make peace. I don't want this war to continue, but what's a little different now is that I'm a little addicted to fighting"

I still want to continue fighting. If Klein doesn't want to fight, there's nothing wrong with that. And as you can guess, if you want to make peace with me, I have conditions..,

in fact, my conditions are very simple. I want half of the superpower's control.

You should understand what I mean. This is my condition. If you accept it, then let's continue talking..,

"If you can't accept it, then we will continue to fight. The choice is in your hands. You can think about it yourselves! "

The expression on Lark Daniel's face started to become especially distorted.

Before he came, he knew that Yu Tian would definitely put forward his own demands and conditions. However, these demands and conditions were really a little too much.

Asking for half of the superpower. This was simply a joke. If he agreed to his conditions, then the entire superpower would be split into two. At that time..., how would the management authority of the senior management department be complete.

At that time, there would be two regions, two management methods, and two senior management departments. This sounded like a joke.

However, if he didn't agree to Yu Tian's conditions now, the war would continue. At that time, there would still be one senior management department left. However, the senior CEO sitting in the management department wouldn't be Klein.

Instead, it would be the Yu Tian sitting in front of him.

It was said that he was giving himself a choice, but on careful thought, there was no choice at all.

Yu Tian was too smart. He knew very well that Klein didn't have the ability to continue fighting with him.

If it were to continue on like this, the last bit of things that Klein had would be wasted on the battlefield.

Furthermore, there would be no reward or effect. In the end, he would still have to leave the senior management department, and he might even be killed by Yu Tian.

Lark Daniel felt that he had no right to decide on this condition.

Therefore, he said helplessly, "Mr. Yu Tian, if this is your condition, I will immediately relay your words to Mr. Klein. Can you give me a few minutes?" Yu Tian took a sip of his coffee and nodded slightly.

"Of course, I can give you time to consider. I'm not in a hurry. We can still fight a few more rounds before you make a decision! "

The muscles on Lackdanny's face twitched when he heard that. Let alone a few rounds, even a single round would cause them to suffer heavy losses.

Therefore, he immediately went outside the room, took out his phone, and called Klein.

Klein, who was hiding in an underground bunker, was furious after hearing Yu Tian's conditions.

He even cursed, "This is simply nonsense. This is bullying, acting like a hooligan, and wanting half of the control. This is to turn the entire superpower into a piece of cake!"

At that time, the two people under the management model could become enemies at any time. This is a huge joke. How can I agree to it?"

Lark Daniel knew that Klein would definitely be extremely angry and wouldn't agree to Yu Tian's conditions. However, that was his job. He had to pass on Yu Tian's words to him.

As for whether he would agree or not, that was a question that Klein should consider.

But when he heard this, Lark Daniel couldn't bear to listen any longer.

The reason was simple. Klein hadn't considered a problem at all, and that was his strength. Would he still allow him to be so arrogant now.

Therefore, he said in a deep voice, "Mr. Klein, I'm currently in Yu Tian's mercenary base. Everything I've seen makes me very certain..., with our current strength, it's impossible for us to continue fighting Yu Tian.

and more importantly, our enemies aren't just Yu Tian himself. Every armed force...

they all want to kill you and become the President of the management department. That's what you should consider, even though my opinion isn't very important...

but Mr. McClane, I still want to say to you that you should consider Yu Tian's opinion and try to accept it. Because we can use Yu Tian's power to eliminate those who want to snatch your position first,

at least we don't have to use half of our power to attack them. When Yu Tian helps us eliminate those who want to snatch your position, then we can use other means...

"Get the other half of the Super Nation back. He's just a businessman. If he doesn't have the support of the Chu family, he's practically nothing.. I think you should know what to do! "

?Chapter 756 – Chapter 755, Be A Little More Arrogant

In the end, Lark Daniel managed to convince Klein and agreed to Yu Tian's conditions.

Klein also had his own ideas. If Yu Tian could help him eliminate all the rebels, it would save him a lot of energy.

It would also save him a lot of money. The entire senior management department was so poor that they were about to pee blood. It wasn't enough for the people from the Defense Department to fight for him.

The economy here had already collapsed, and now that they couldn't pay enough, who would be willing to help him fight?

Then, it was a good choice for Yu Tian to help him at this time.

After helping him kill all those damn people on a rainy day, he would take back the land he wanted to go to. It was simply a perfect plan.

There was no reason not to do it.

With this in mind, Klein still pretended to be unwilling and said, "Yu Tian's conditions are too excessive. If I agree to his conditions, it would be equivalent to me betraying the country!"

I'm now a Senior President of the Senior Management Department. Any decision I make must be made with extreme caution. However, I think your suggestion is very reasonable,

"Then, go and tell Yu Tian that I agree to his conditions. However, I have a condition. After he gets what he wants, he must first provide us with help. Moreover, he must not say anything to outsiders, "I agreed to his conditions,

"This is also so that we can take back all the land we lost in the future and make a good foundation. You should understand what I mean! "

Of course, Lark Daniel understood what Klein meant. This fellow had relied on this bit of ability to become the highest-ranking CEO.

Other than that, he was really nothing.

Any other high-ranking CEO wouldn't agree to Yu Tian's excessive request, even if they were to fight to the death with Yu Tian.

This was because he was giving his land to Yu Tian. Would he be able to take it back in the future? Who could be so sure.

But he could just do what he had to do. As for the rest, he couldn't care about it even if he wanted to.

When he told Yu Tian the CE's opinion, Yu Tian smiled indifferently and said disdainfully, "I've already made it very clear before. Do you want to be my good friends or my enemies?"

"If you want to be my good friends, then you have to unconditionally agree to my conditions. If you don't want to agree, then you have to be my enemies,

"There's no room for negotiation. Now, if your senior president agrees, I can look at my mood. If I'm in a good mood, I can give you a lot of help,

"But if I'm in a bad mood, you won't even have a pair of underwear!"

Lark Daniel agreed in the end. Even if he told Michael what Yu Tian said, he wouldn't have any ideas. It would be better to make the decision for him.

At the very least, after this decision, the current situation of the superpower would immediately change. This was what everyone wanted to see.

After signing a series of documents, Yu Tian now had the authority to manage the southern region.

This meant that Yu Tian could be considered a super CEO.

After the documents were signed, Klein was especially angry and scolded Raquel Daniel.

"What right do you have to make a decision for me? I've already said that if Yu Tian doesn't agree to my conditions, then I won't agree to his conditions. But you haven't gained anything at all!"

"You signed this document so hastily. If we don't come to these lands in the future, how do you expect me to tell my people when the time comes?"

Raquel Daniel was especially angry, but he could only slowly say, "President, do you think you have a choice? Of course, after I said these words, you might be especially angry!"

"But I still want to tell you these words. If you had a choice, you wouldn't have asked me to come to Yu Tian to make peace. When you asked me to meet Yu Tian, you had already made your choice!"

"You know that if this war continued, it would be impossible to win. And when Yu Tian wins the final war, he might lose even more. Fortunately, you still have half of the land now!"

"To the outside world, at least you're still a senior president. You can still enjoy the pleasure of being a president. But if you don't agree to Yu Tian's conditions, or even make Yu Tian angry, then you'll lose the opportunity to enjoy yourself,

"Don't blame me for speaking harshly, but this is inevitable. You can be the highest president, so you must have thought of this. I Won't say anything else. I think you should know very well that you're no match for Yu Tian at all! "

Klein was rendered speechless. wasn't it just like what Clark Daniel Said? If he really had the confidence to continue fighting with Yu Tian, he wouldn't have tried to make peace with Yu Tian.

Now, he could only stand in front of Yu Tian with his head lowered. Everything depended on his expression.

If he had known this would happen, he wouldn't have fought with Yu Tian in the first place.

After fighting for so long, he still lost in the end. Not only did he lose face, he even lost land. If his people knew about this, they would definitely be extremely angry.

They were not even sure if he could continue to be a senior CEO.

Therefore, it was better not to think about those useless things now. Instead, they should think about how to express their opinions to the senior management.

An hour later.

Yu Tian held a press conference in the most prosperous metropolis in the southern region.

Reporters from all over the world came to the press conference.

At this moment, Yu Tian, who was in a suit and tie, was particularly spirited. Under all the flashing lights, he came to the podium very elegantly.

Yu Tian originally didn't want to hold this press conference, but when he thought about his goal, he should be more arrogant at this time.

He should show off more so that those who didn't like him would have the courage to challenge him.

Otherwise, they wouldn't know how arrogant he was, so what was the point? Yu Tian stepped onto the stage. Chu Meng, Chu Yue, and the other senior management came behind Yu Tian and stood in a row.

This scene looked especially grand.

At this moment, Yu Tian said slowly, "Everyone, you should know very well that the supreme president of the Superstate's high-level management department, McClain, had a conflict with my family,

"He also had a war with my family, but I didn't want the war to rob everyone of their happy lives. Therefore, under my strategic planning, this war has been completely terminated according to my plan,

as I publish this news, all areas south of the axis of the superstate can now celebrate loudly! "

?Chapter 757 – Chapter 756, Establishment Of The Management Department

As soon as he finished speaking, all the reporters present were stunned. This war had come and gone so quickly.

Before they could feel anything, neither side had even used large-scale weapons, so the battle was over.

However, some reporters suddenly realized why the southern region needed to celebrate? Did the new region not need to celebrate?

A particularly sexy female reporter immediately raised her hand and asked loudly, "Mr. Yu Tian, why is it that the area south of the central axis can be celebrated, but the area north can not be celebrated?

Or is this war ended in the form of land management rights?"

Yu Tian smiled at the sexy female reporter and nodded. He said indifferently, "Your question is especially good. Just as you thought, it's indeed the southern region. Now, it's all minea€|"

The standard was that all the cities and lands south of the central axis were now surnamed Yu. Then, the northern region would still be under Klein's management..,

"Of course, I will also create new management rules. First, I will let everyone in the southern region have a full stomach and quickly return to the life before the war,

"Furthermore, I will continue to increase the investment in the southern region so that everyone can have a job and can afford food! "

This time, the crowd immediately exploded.

Yu Tian's words were too explosive. This meant that the country had now become two countries. With the central axis as the standard, it was divided into the north and south regions.

There would also be two high-level management departments and two high-level middle-level departments.

One of them would be Klein, and the other would be Yu Tian.

But after many people saw the news, they all greeted the eighteen generations of mcclane's ancestors.

Mcclane's decision was simply insane.

How could he, for his own interests and to end the war, rashly gift the most precious land to Yu Tian? What was the difference between doing so and being a traitor?

Of course, Yu Tian couldn't care less about these things.

Moreover, he had already announced what he needed to announce, so Chu Meng would be in charge of the rest of the press conference.

Yu Tian turned around and went to the lounge. Now, he needed to quietly think about how he could truly turn the southern region into his own land.

After all, the entire southern region was the economic foundation of the original superpower.

Many important and prosperous cities were basically located in the southern region. Even the power center of the highest management department was located in the southern region.

And now that there were two high-level management departments, there should be two rules.

With this in mind, Yu Tian immediately got Chu Meng to call all the high-level management to the meeting room.

If he couldn't get it, he didn't need to bother about it. This time, it wasn't something simple. This was the land that he had obtained the most. He had to arrange it properly before he could easily go to Stark.

During the meeting, everyone was still in shock. Yu Tian was simply too powerful. He was so powerful that even Klein had no choice but to compromise in front of him.

Just a few minutes ago, during the war, Klein believed that he had the most powerful armed force in the world.

However, a few minutes later, everyone knew that Klein was just a coward.

He wasn't even qualified to be a senior CEO. In his hands, the senior management department could only become a useless existence.

On the other hand, it was Yu Tian. Not only did he get what he wanted domineeringly, he was also able to formulate more good rules.

Who else would he follow if not him?

Yu Tian crossed his hands calmly and said arrogantly, "Many people might not accept it. If they don't accept it, don't make things difficult for them. You can let them leave the southern region!"

"After that, Chu Meng, you bring the mercenaries and kill all the stupid armed forces in the southern region. I don't want people to show up in the areas I manage! "

Chu Meng immediately nodded and said, "Leave this to me. I really want to fight on the battlefield. I just hope that they are not so weak and let me experience the cruelty of War!"

This Woman's words were a little pretentious. Some people couldn't get away from the war even if they wanted to, and she even purposely went up to them.

Was War that fun? What was she thinking?

Yu Tian looked at her with disdain and said, "Chu Yue, you'll be the one to create the Super Management Department. You'll be the one to decide the new senior management, but there's one thing..,

first of all, we have to develop our family's business in an all-round way. If we can get them to do it, we will let them do it. The core business will be done by our own family,

later, I will get Chu Hui and Chu Wen to come here personally to help you. They are especially familiar with the senior management department. I don't need to be involved in this,

also, you have to remember that our management department only has one rule. As long as you don't act pretentious, you can do anything!"

While they were happily holding a meeting, the door of Mclean's office in the northern region was already filled with people.

Everyone's expression was especially angry.

Mclean's personal bodyguards had no choice but to call over some of the defenders from the Defense Department and stand around the office in full armor.

Even mclean himself was afraid that these people would act impulsively against him.

As for the vice president, he stood outside the office door and shouted loudly,

"Mr. Klein, I need you to give each of us an explanation as to why the areas south of the central axis are all handed over to Yu Tian,

"If you do this only to ensure your position as the highest CEO and only care about your own interests, then we will no longer consider you as our senior

CEO,

"All of our senior executives will feel ashamed of your decision!"

Mcclain didn't answer any questions because he didn't know how to explain it to these people. The speed at which he held the press conference in the next few days was faster than breathing.

He didn't have time to react at all. Now, the whole world knew that he, mcclain, was a person who sold out his clients for glory.

What kind of reaction did the senior management department have? He didn't care at all.

No matter what, he was still the supreme president. His decision to invest the final funds in the Defense Department was the right choice.

Now, the people in the Defense Department were completely on his side. As long as they could stand with him, there was nothing to fear from the senior management outside..

?Chapter 758 – Chapter 757, Prepare To Set Off

Just as the senior management was about to lose control, Klein decisively gave an order that shocked even the Defense Department.

He said gloomily to the Senior President of the defense department, "This is a decision that can not be changed. Yu Tian now has the senior management rights for all the areas south of the central axis..,

"Even if I change this decision now, Yu Tian will not hand over the senior management rights to me. Therefore, we should stabilize the management rights in the north now,

"However, the senior executives outside are giving me a headache. They only know how to shout and shout here, but they have no idea how much pressure I am under,

"I made this decision for us. However, in their eyes, everything I do is for myself. If that's the case, why should I fight this war?

"It would be great if I could find a beautiful place to take a vacation. That's why I don't want to listen to those senior management's nonsense. If they continue to be so impulsive and shout here, I approve of you. You can use force to finish them off! "

The senior president of the Defense Department immediately frowned. Had McClair really gone mad? Making him attack his own people?

He immediately asked in a deep voice, "President, are you sure you want me to do this? Those people outside have always been by your side during your most difficult times, insisting on supporting you..., but now, you're ordering me to use force against them. Is this really okay?"

McClair only smiled coldly and said disdainfully, "What I need to correct you is that they are following me not to support me, but for themselves.,

as long as they are here, they will still be the top management. With the lack of resources, they will still be the top management here. At the very least, they will be able to enjoy the privilege of having a full stomach for themselves and their families,

now, they feel that sister Yu has become our true enemy, and our economy can not be restored. So, they are now trying to find a reason for me to seek refuge with Yu Tian.,

"Do you think I'll give them this opportunity? "The people who betrayed the Senior Management Department aren't me, but them. If they continue to do this, you'll immediately fire at them!"

The senior president of the Defense Department was completely speechless. Klein was even a little deranged.

However, as the senior president of the Defense Department, he couldn't disobey his orders. This was the belief of a defender, and it could never change.

Meanwhile, in the central axis area, the Workers Chu Meng had called over had already started to set up a defensive wall in the central axis area.

Every once in a while, there would be a firing point with heavy weapons, and the entire central axis was controlled by Chu Meng.

When the citizens of the southern region heard this news, they couldn't accept it at first.

But when they saw that the mercenaries had wiped out all the pretentious armed forces, and that the southern region's metropolis, as well as other prosperous cities, shopping malls, and all the commercial buildings..,

after all of them were reopened, these people no longer cared. who was their manager?

As long as they could eat their fill and enjoy a good life, they would be the best manager.

At this moment, Yu Tian was ready to go to Stark.

This had always been what he wanted to do. He wanted to find the war spirit and fight it out with them. Even if he could not kill him, he would drag their faces with him.

In any case, he would never forget the fact that he had transmigrated.

He had planned to leave early the next morning. Just as he packed up his equipment, Chu Yue pushed open the door and entered. She said coldly, "I'll take a minute of your time. There was a woman named Jenny who called earlier..,

she wanted to meet you or listen to your voice. I didn't agree to it, but I didn't reject it either. It all depends on you! "

Yu Tian frowned slightly. He was supposed to be going to stark now, but Jenny couldn't give up.

So he asked indifferently, "Where is she now?"

Chu Yue said coldly, "She said she's at Luo Wei and left her phone number. You can call her anytime! "

As she spoke, Chu Yue paid special attention to Yu Tian's expression. However, Yu Tian's expression did not reveal anything.

Chu Yue wanted to guess what Yu Tian meant. Did he have some sort of emotional outburst with this Jenny?

However, Yu Tian did not give her the chance at all. He only said calmly, "I know. When I have time, I will definitely go and see her. However, I don't have time nowa€]"

"I have to rush to Stark. I'll leave this place to you guys. If there are any problems, you can call me at any time. Other than you guys wanting to have a baby, I don't have the energy to have a baby with you guys right now! "

Chu Yue glared at Yu Tian in annoyance and said coldly, "Who wants to have a baby with you? Go ahead and do whatever you want. I Don't care about you at all!

It was even better if she didn't care. After Chu Yue left the room, Yu Tian immediately turned on the teleportation device and went straight to the economic center of Lowe, Oslo.

The address that Jenny left for him was in this bustling city.

This was a city that was filled with an exotic atmosphere and also had a strong sense of Nordic architecture.

Yu Tian walked on the road and enjoyed the special scenery around him. He felt particularly relaxed and happy.

In fact, when he thought about it, the reason why people lived was not only to pursue their own goals, but also to have their own enjoyment.

Sometimes, he was too focused on pursuing his own goals, so he forgot what enjoyment was.

He might as well take this opportunity to enjoy himself.

After all, this was a resort with a particularly developed tourism industry. Not only could he enjoy the exotic traditional culture here, but he could also look forward to a very romantic encounter here.

However, in terms of an encounter, he decided to forget about it. He had to find Jenny first and see if there was anything wrong with her.

According to the address that Jenny left for him, Yu Tian quickly arrived in front of a five-story building.

He raised his head and looked at the building. It had probably been around for some years. Some parts of the wall had already fallen off. Even the doors of the building would make an ear-piercing sound when they were pushed open.

The corridor was even darker, and even the edges of the stairs had already been worn off.

It seemed that no matter what the overall structure of a city was, there would always be some backward things in places that people could not see.

Who would have thought that there would be such a dilapidated building here..

?Chapter 759 – Chapter 758, Passionate Longing

Jenny lived on the highest floor of this building. Looking at the environment here, Yu Tian knew that Jenny's daily life was also very tight.

Otherwise, she would have long lived in those luxurious apartments. How could she be wronged here.

When he arrived at Jenny's door, before he knocked on the door, he heard a very intense argument coming from the room.

Yu Tian leaned on the door and listened carefully.

At this moment, there was a middle-aged woman in the room who was shouting loudly, "Jenny, you suddenly disappeared for such a long time. We all thought that you were dead,

now that you suddenly came back, you are still our daughter. Now, your father can no longer work. Now, we can not even afford to eat. You are our daughter, you should help us at this time!"

However, Jenny didn't seem to have any good feelings towards this mother. Instead, she coldly said, "Now you say that I'm your daughter. When you abandoned me, did you treat me as your daughter?"

Although I disappeared for a period of time, I didn't seem to have anything to do with you. Moreover, because I disappeared for a period of time, I no longer do that job. I have a problem eating by myself,

how Do You Want Me to help you? Or don't bother me again, I just want to live a quiet life alone, I have never treated you as my parents, because you have never treated me as your daughter! "

Hearing this, Yu Tian was basically very clear.

This is a typical western education system, light time always greedy for their own happiness, and never give their children any good education.

When their children grew up, they would be like vampires, trying to drain their children of their wealth.

If they knew that they would let their children support them, why did they abandon their children in the first place?

Thinking about it, they really deserved to suffer this.

Yu Tian did not want to continue listening, so he fiercely knocked on the door.

Jenny opened the door. When he saw that it was Yu Tian outside, his eyes immediately turned red and bean-sized tears fell.

Before Yu Tian could speak, he crawled into Yu Tian's arms and said in a wronged tone, "You said that you wanted me to stay by your side. Why didn't you come and look for me after you came back?"

"I've been waiting for you to appear every day. I saw the press conference, so I couldn't help but call you. Yu Tian, I really miss you. I miss you very, very much!

Yu Tian looked up and saw the fat old woman standing in the middle of the room. She said softly, "You know how busy I am. I don't have time to flirt with girls all the time,

"But this time, I want to indulge myself. Pm going to stay here for a few more days to act cool and flirt with girls more. So we have a lot of time. We can talk about it later,

"Tell me first, who is this woman standing behind you?"

The old woman knew Yu Tian. From the moment she saw Yu Tian, she was extremely shocked. She was so shocked that she couldn't even speak.

When Yu Tian asked this question, the old woman introduced herself in surprise, waiting for Jenny to introduce herself. "You must be Yu Tian. Pve seen you on TV. Now, you're the most powerful person in the world,

"So you're still Jenny's man. Thank God. Jenny is my daughter and Pm his mother. But now we need your help. Jenny's father is lying in the hospitala€| "

"We need money to save lives. Yu Tian, you're the richest person in the world.

Now You're still my daughter's man. I think you should help us!"

However, Jenny stood in front of Yu Tian and said angrily, "Stop talking nonsense. The person lying in the hospital is not my father at all,

he is just a man that you found when you were lonely. What right do you have to say that he is my father? What right do you have to ask me to help him?" did not want to hear them waste their time here. Moreover, he had a Yu Yu Tian bad feeling about this old woman. However, when he looked at the old woman's eyes, he felt particularly disgusted.

Women were like this in many places. When they became greedy, they would disregard everything else.

Thinking of this, Yu Tian casually took out a wad of cash and threw it directly to the old woman. He said coldly, "Take the money now and get out of here immediately. Don't Let Me See You Again! "

This smelly and shameless old woman, seeing the money in her eyes, tightly held the wad of cash. She smiled at Yu Tian like a dog and said, "Thank you so much, Mr. Yu Tian. I know that my daughter will definitely not find the wrong person,

i wish you both happiness here. When your father's body recovers, we will definitely come and visit you again!"

Yu Tian really did not want to listen to her anymore. He pointed at the door and told her to scram.

The old woman knew that if she continued talking, Yu Tian might really get angry. In that case, it would definitely be difficult for her to spend money in the future.

Hence, the old woman hurriedly walked out of the room.

The moment the door was closed, Yu Tian and Jenny hugged each other tightly again.

For some reason, always had a different feeling when he was with Jenny. Moreover, this feeling made him feel especially full, especially safe, and even felt special.

Jenny did not say any more nonsense and completely responded to Yu Tian's fanaticism with her own feelings.

This was the beauty of missing. It did not make the feelings stronger, but also made them more innocent.

Even in the evening, the two of them were still lying on the bed lazily. They even felt reluctant to let go of each other.

Knowing that Jenny's stomach was growling, Yu Tian chuckled and said, "It seems that we have used up a lot of our physical strength. I'm a little hungry too. Why Don't I bring you to eat?"

Jenny was very satisfied with this suggestion. The two of them quickly put on their clothes and walked hand in hand to a relatively luxurious restaurant nearby.

After they sat down, Yu Tian ordered the best dishes in the restaurant and a bottle of expensive red wine.

While they were eating, someone even came over to ask for Yu Tian's autograph. They even wanted to be in sync with him.

Yu Tian felt that wherever he went, he was like a celebrity. Almost everyone knew him.

However, Yu Tian felt a little flustered in his heart.

He had never thought that he would be able to become the center of attention. However, the development and evolution of the natural world were always so magical.

After sending all the fanatical admirers away, Yu Tian wanted to have a drink with Jenny. At this moment, a murderous aura suddenly appeared in the restaurant..

?Chapter 760 – Chapter 759, Mysterious Expert

When Yu Tian felt the sudden surge of killing intent, he immediately frowned and looked around.

However, there was nothing special about the surrounding people who were eating.

He gently closed his eyes and carefully sensed the killing intent, wanting to know where it came from.

At this moment, the murderous aura suddenly disappeared.

No matter how he used his aura to probe, the murderous aura did not appear again.

However, Yu Tian was very clear that the person who released such a violent murderous Aura was definitely not inferior to him.

Moreover, he had a certain degree of aggressiveness towards him.

If he did not guess wrongly, this person must have come here to eat. When he saw that he was sitting here and knew his identity, he was very angry.

When his anger turned into killing intent, this expert might have thought of something else, so he immediately left.

Jenny looked at Yu Tian in bafflement and asked gently, "Yu Tian, what are you thinking about? Why aren't you saying anything?"

Yu Tian smiled indifferently and said softly, "Nothing much. I just feel that the food in this restaurant is average. Don't tell me that there isn't a restaurant in such a big city that I am satisfied with?"

"Of course there is, but it's very far from here. Moreover, we're still hungry.

Let's eat here today.

I'll bring you to the Best Restaurant Tomorrow!"

He was just casually finding an excuse, but Jenny really took it seriously.

Yu Tian asked while eating, "When we came back from the energy town, why weren't we together?"

Jenny explained, "Actually, this is very normal, because the location of our teleportation is different. When I transmigrated, I was here, and when you transmigrated, you were in the superpower area."

"So the energy field is teaching us according to our own aura, and when I came here, you came to the superpower area."

"But after that, I felt as if I had been forgotten by people. Every single one of them was especially surprised to see me. There were even people who were afraid and said that I was a ghost. I was really too distressed because of that!"

Yu Tian's face was full of disdain as he said coldly, "There is no difference between being a human and a ghost. It all depends on how you live. Anyway, my thoughts are..."

"I can live as I want. Even God won't bother me. But soon, I'm going to Stark. You don't have to stay here. You'd better go to a better place and I'll give you the funds,

"You continue to develop your profession. What do you think?" And before he could finish his words, Yu Tian felt that murderous aura again.

He immediately frowned and suddenly turned to look in the direction of the kitchen.

This time, he felt very real. The murderous aura was coming from the kitchen.

In order to not let Jenny feel afraid, Yu Tian elegantly wiped the corner of his mouth with a napkin. Then, he stood up and said, "I'm going to the bathroom.

Wait for Me Here!"

Jenny did not think about anything else and nodded with a smile.

Yu Tian turned around and went to the kitchen. At this moment, the kitchen was very busy. The chefs wearing white clothes and chef hats were meticulously making each dish.

However, other than the smell of smoke, there was no killing intent from these chefs.

He clearly felt that the killing intent came from the kitchen, but why did it suddenly disappear?

Yu Tian walked to the back of the kitchen. Before he could open the door, a middle-aged chef stopped him.

"What do you want to Do? If you're eating, why aren't you in front? What are you doing in our kitchen? Behind that door is the back of the kitchen. There's nothing but trash. Do you want to pick up trash?"

So behind that door was the backyard. That expert should be nearby.

Thinking of this, Yu Tian turned around and said indifferently, "It's nothing. Eating is disgusting. I want to go for a walk in the backyard. Why? Can't I?" The chef frowned. He felt that Yu Tian's words were a bit pretentious.

He then threw the rag in his hand on the table and said disdainfully, "Of course not. This is our kitchen. I'm in charge here. You're just here to eat!"

"Now, please go back to the table in front of you. This is not the place for you to come!"

Yu Tian felt that it was especially funny. He could go wherever he wanted to go. Did he have to ask the permission of a chef?

Therefore, he gave the chef a disdainful look and said coldly, "I really don't have time to waste here with you. And I don't want to waste time with you.

Now, I want to go to the backyard to take a look. "

"If you want to stop me, then let's see if you have the ability to do so! "

As soon as he finished speaking, all the chefs in the kitchen looked at Yu Tian.

They felt that this guy was really pretentious. Didn't he know that the middle-aged chef who was talking to him was the head chef here? Every dish here had to be tasted by him, only then could it be brought to the guest's table.

This fellow actually dared to talk to him like that. He was simply courting death.

The middle-aged chef even grinned and looked at Yu Tian with disdain. He said with disdain, "Do you want to see my strength? If you're not convinced, let's cook a dish now and see who can cook it well! "

Yu Tian almost fell to the ground. This move was really powerful.

He thought that this guy could play a trick with the kitchen knife and then fight with him.

But this guy actually put his ability on this. It was simply too creative.

Yu Tian really couldn't be bothered to talk to such an idiot. He turned around and pushed the door of the back kitchen.

However, at this moment, the middle-aged chef grabbed the kitchen knife on the table and threw it at Yu Tian.

That was a kitchen knife, and it was especially sharp. Yu Tian was puzzled. He only wanted to go to the back to take a look. Why was this idiot chef so excited?

Could it be that he knew that hidden expert?

If that was the case, then it was easy to talk about it.

Thinking of this, Yu Tian suddenly turned around. He didn't even Dodge. Seeing that the kitchen knife was flying towards him, he easily reached out and grabbed the kitchen knife in his hand.

Just this simple action caused the surrounding chefs to widen their eyes in shock.

However, the middle-aged chef was still very calm. One kitchen knife didn't manage to touch Yu Tian, so he picked up the kitchen knife on the table one after another and continued to throw it at Yu Tian.

After knowing that all the kitchen knives had been thrown out and there were no more knives left to use, this guy actually lifted a pot of hot soup and sprinkled it on Yu Tian..

I Have 108 Older Sisters #Chapter 761 - Read I Have 108 Older Sisters Chapter 761

?Chapter 761 – : Chapter 760, The Power Of Nature

They were just some chefs. Yu Tian didn't want to have any conflict with them, and he didn't even put them in his eyes.

But now, the middle-aged chef actually picked up the hot soup and poured it on himself. That was a bit too much.

Yu Tian suddenly released a burst of internal energy and pushed back all the hot soup in the air.

The hot soup splashed directly on the middle-aged chef. The chef in the middle let out a howl like a pig being slaughtered, and fell to the ground, rolling in pain.

The other chefs around were so scared that they took a few steps back.

Everyone's faces were filled with disgust. The soup that was thrown out had actually been thrown back. How was this possible?

Yu Tian didn't even look at them. He was just courting death. What was there to see?

Then, he pushed open the back door and went to the backyard.

The backyard of this restaurant was particularly messy. There were a lot of miscellaneous items piled up, but the place was very big.

Moreover, there were a few rooms by the wall. One of the rooms was still lit up.

Yu Tian vaguely felt that the killing intent drifting out of the room was the same as the killing intent he felt in the restaurant previously.

That expert must be in this room.

The more Yu Tian thought about it, the more excited he became. He walked to the door and was about to open it.

However, at this moment, the door was suddenly kicked open from the inside. An extremely violent force directly pressed down on Yu Tian's body.

Yu Tian's reaction was also extremely fast. He was already prepared. No matter who the expert hiding in this room was, one thing was certain. He was definitely the enemy.

When Yu Tian blocked this force, both of his arms were slightly numb. However, this little injury was nothing at all.

It made him feel even more excited and excited.

He raised his head and looked into the room. He saw a white-haired old man walk out of the room. The old man's gaze was especially cold, especially his face. It was as if he had been tortured over time and had scars all over his face.

The old man did not say anything. He only looked coldly at Yu Tian and clenched his fists. He could make a move at any time.

Yu Tian clenched his fists to alleviate the numbness and pain in his arm. He then smiled indifferently and said slowly, "Didn't you want to kill me? I'm right in front of you. Make Your Move Now! "

The old man sneered disdainfully. His gloomy gaze became even more murderous as he said in a deep voice, "I know you're Yu Tian. If I wanted to kill you, you would be dead by now!"

"But I don't want to do that. I'll give you a chance to leave this place. Don't come and bother me again. Otherwise, I'll let you die without a burial place.

Get out of here right now!"

It was not easy to find an expert. How could he leave so easily.

He did not care who this old man was. As long as he was an expert, he would have to exchange a few moves with the two of them to see who was stronger.

Was this what he had been chasing after all this while?

Such an opportunity to train was not something that could be found at any time.

Yu Tian laughed out loud and said arrogantly, "Only one person will be able to leave this courtyard alive today. Don't talk so much nonsense with me. I know that you are a pretty good expert!"

"I like experts. Let me see how capable you are. If you can beat me today, you will leave immediately. Moreover, I will not come again in the future!"

The old man sneered again and said disdainfully, "You are not my match at all. You still have the chance to leave alive. I don't want to kill anyone today. Hurry up and get lost! "

Since that was the case, what was the point of saying so much nonsense?

Yu Tian chuckled and raised his hand to throw a punch.

He knew that the other party was strong and was a decent expert. Therefore, this punch of Yu Tian's did not contain any violence. It was as if his strength had exploded to the highest level.

Even the air trembled under Yu Tian's attack.

However, the old man did not even blink. He casually raised his hand and blocked Yu Tian's punch.

Yu Tian felt as if his punch had hit a huge rock. Even his fingers felt pain.

What made him even more surprised was that his earth-shattering punch actually did not cause any damage to this old man.

If his level was level two, then this old man's level was at least level five and above.

Moreover, this old man's power was very strange, and didn't seem to come from any cultivation technique.

The power produced by the cultivation technique wasn't as direct as the old man's explosive power.

At the very least, there had to be a process of mentioning the cultivation technique.

The Aura on the old man's body didn't have any traces of the cultivation technique, and the power seemed to exist naturally in his body.

With a casual raise of his hand, his strength could be unleashed.

It was very likely that such an expert came from the cultivation world.

However, every person who appeared in the cultivation world would have their own specific cultivation technique.

The old man's cultivation technique was something that Yu Tian could not grasp at all.

The more this was the case, the more excited Yu Tian felt.

He shook his hand and said coldly, "I didn't realize that your old arms and legs are quite hard. I have a problem. The harder the opponent is, the more I want to fight. Today, I really found an opportunity!"

"Since we have already made our move, let's fight to our heart's content! "

At this point, Yu Tian jumped up and gave another fierce kick.

This time, his strength burst out even more strongly.

The old man did not blink his eyes from beginning to end. He looked at Yu Tian with a cold expression, as if every attack that Yu Tian made was child's play in his eyes.

However, Yu Tian's kick was easily neutralized by the old man. Moreover, the old man did not seem to want to endure any longer. When he pushed Yu Tian away, he followed up with a punch before Yu Tian's body landed on the ground.

The power of this punch seemed to be overwhelming.

Yu Tian felt that this violent force was smashing towards him, and his heart was filled with panic.

After all, this old man's strength was completely above his own. He absolutely could not let his guard down, nor could he underestimate his opponent.

Thinking of this, Yu Tian nimbly turned his body and dodged the old man's fist. Then, he threw another quick punch at the Old Man's heart.

The old man's reaction was even faster. It was completely impossible for Yu Tian to sneak attack him. The old man turned his body to the side and grabbed Yu Tian's fist.

Then, he moved in front of him and used this action..., his shoulder hit Yu Tian's heart heavily.

Yu Tian was knocked back by the old man and flew back more than ten meters. Even the bones in his body were shattered.

The nameless technique was immediately activated and began to quickly repair his body.

However, Yu Tian also felt that it was extremely difficult for him to stand up.

This time, he was beaten up quite badly.

At this moment, the killing intent in the old man's eyes erupted violently. He threw another punch at Yu Tian's head..

?Chapter 762 – Chapter 761, The Jade Pendant Protects Its Master

Yu Tian watched as the overwhelming force smashed towards him, but he could not muster the strength to defend or Dodge.

This was how it was when challenging experts. If you won, you would bloom with wealth. If you lost, you would lose your life here.

This was the process of training. Sometimes, there was no choice.

Just like at this moment, this old man's strength was not only extremely violent, but his movements were as fast as lightning. Even if he could dodge now, he would not be faster than this old man.

However, just as the old man's fist was close to Yu Tian's chest, the jade pendant hanging around Yu Tian's neck suddenly erupted with a dazzling light.

At the same time, this light turned into an extremely violent force, forcing the old man back.

This time, the old man seemed to be in a lot of pain.

He held his arm tightly and looked at Yu Tian in surprise. He asked in a deep voice, "What is that thing on your neck? Give it to me!"

At this time, Yu Tian also regained the ability to move his body. He slowly stood up and said disdainfully, "You want my thing? Fine, come and get it yourself! "

"I think you're courting death! "

The old man roared angrily and charged at Yu Tian again.

Now, he no longer wanted to waste time with Yu Tian. Moreover, this time, he did not show any mercy to Yu Tian.

In order to prevent the jade pendant on Yu Tian's neck from hurting him again, a dagger suddenly appeared in the hand of the old man who had rushed up to Yu Tian.

This dagger was especially sharp, and it was emitting a cold and murderous aura.

Yu Tian frowned slightly. His ability was not enough to kill this old man, but he could not watch the old man act pretentiously in front of him.

If the cultivation method could not beat him, then there were other things that could beat him.

Yu Tian instantly activated his mind and controlled the objects around him to become bigger and smaller. He threw them all at the old man.

The old man was especially shocked. Yu Tian actually had such a heaven-defying ability.

He waved the dagger and blocked the sundries. Then, he looked at Yu Tian coldly again and said gloomily, "Do you think this is useful? I think you're quite interesting. You can actually control things!"

However, this still couldn't be stopped. Today, I want your life. If you don't want to die, then give me the thing on your neck. This way, I can save your life!

Yu Tian didn't listen to his nonsense at all. He immediately used his mind to cover the dagger in the old man's hand, controlling it to be smaller than a

bacterium.

The old man was shocked. He had never seen such a skill that could make things bigger and smaller.

No wonder the rumors said that this Yu Tian was particularly difficult to deal with. Everything that happened today was as expected.

However, the old man did not care about the dagger at all. Without his weapon, he still had his fists to continue attacking.

However, this time, he did not approach Yu Tian. Instead, he used his strength to attack Yu Tian from a distance.

Yu Tian had been concentrating all the strength in his body on his arms. He knew that the old man's attacks were extremely powerful, so he tried his best not to receive his attacks. He would find an opportunity to launch a fatal attack on him.

An opportunity appeared immediately.

Yu Tian realized that after each attack, the old man would have to wait for a while before he could launch another attack.

Of course, Yu Tian did not know whether this was the old man's cultivation technique or his weakness. This was his habit, but after each attack, he would have enough time to counterattack.

Just like this time, the old man's punch had blasted the kitchen wall open. Just as he was preparing for his next attack, Yu Tian mustered all his strength and threw a punch.

Regardless of whether this punch could cause damage to the old man, it at least suppressed his aura.

This time, Yu Tian succeeded. The old man took the punch and retreated a few steps.

Although it did not cause him any damage, Yu Tian's recovery speed and his explosive strength were exceptionally strong.

He had never met such an opponent before. In the past, when he killed people, he could only finish them off with one move. Today, when he faced Yu Tian, several of them did not take his life. It had to be said that Yu Tian was indeed a difficult person to deal with.

Moreover, the most important point was that this Yu Tian seemed to be unkillable. Moreover, his reaction speed was exceptionally fast. His attack speed was already fast enough, but Yu Tian was actually able to dodge it.

Seeing the opportunity, he launched an attack on Yu Tian. This battle was indeed a little interesting.

Yu Tian did not give him a chance to catch his breath. Right now, he had nothing to think about. If he met an expert, he would kill him. If he could not kill him, he would kill him. This was a battle of life and death.

Thus, the second and third punches were thrown out one after another. The old man dodged left and right as if he was playing with Yu Tian. He clearly had the opportunity to attack, but he did not attack. He only dodged.

However, Yu Tian was not a fool. He knew that this old man was playing with him. Just like him, he was also looking for a weakness.

Once he found a weakness, it would be a fatal blow.

Therefore, he absolutely could not fully expose his weakness in front of him. Otherwise, he would not have the chance to continue fighting.

However, just as Yu Tian was distracted, this old man indeed found Yu Tian's weakness.

Because Yu Tian was using a cultivation technique, his breathing was not very stable.

After each violent attack, there would be a day when his breathing would become a little hurried.

The attacks that followed were not as violent as before.

The old man saw this opportunity and before Yu Tian launched a new attack, he gave him a kick.

This kick was especially sudden. No matter how fast Yu Tian's reaction was, he could not dodge it.

He was kicked to the ground by the old man, and his internal organs were rolling.

The old undying man sneered and said with disdain, "You really think that I can't Kill You? I just thought that you were still interesting and wanted to play with youa€| "

"But that's all you can do. Now that I think it's getting less and less interesting, let me kill you simply so that you won't be so arrogant in the future! "

Just as the old man was about to make a move, a big box suddenly flew out from behind Yu Tian.

The box directly smashed toward the old man.

What surprised Yu Tian even more was that when the old man saw the box, his expression changed drastically, as if he was a little scared.

However, he still kicked the box into pieces. Then, he turned around and jumped out of the courtyard, disappearing without a trace.

Yu Tian frowned inexplicably. He turned around and saw that there was nothing behind him.

Who had thrown that box out? Could it be another expert that made the old man feel afraid?

Clearly, this expert had saved him, but he did not want to show himself. This time, he really felt a little excited..

?Chapter 763 – Chapter 762, Management Department

Yu Tian felt that Lowe was getting more and more interesting. He didn't expect that there were so many experts hidden in this small place.

He had thought that those experts would definitely exist in a vast area, but who knew that they would actually be hidden in such a small country.

In that case, his plan had to change a little.

He had originally planned to stay here for a few days before going to the Stark.

But now, he had to stay here for a few more days until he found these experts and confirmed their identities before going to the stark.

At this moment, Jenny, who hadn't been able to wait for Yu Tian to return, also arrived at the backyard.

Seeing Yu Tian's dusty face, she asked worriedly, "What happened here? Could it be that you went to the washroom and got into another fight?"

Yu Tian didn't want to explain too much and said indifferently, "You're right. I did get into a fight with someone, and the other party was an old man. That old man was very powerful, but I still lost him."

"I think this place is very good. I want to stay here for a few more days. Let's go back and continue eating! "

When they passed by the kitchen, the chefs looked at Yu Tian in fear and made way for them.

However, when Yu Tian passed by the middle-aged chef, he suddenly stopped in his tracks.

The middle-aged chef's face and hands were full of blisters, and he was still panting in pain.

Yu Tian turned to Jenny and the other chefs and coldly ordered, "All of you go out first. I have something to say to this guy! "

Who Dared to disobey Yu Tian? All of them quickly left the kitchen.

At this moment, Yu Tian coldly asked, "Who is that old man outside? You must know him. As long as you tell me his identity, I can let you live. Moreover, you will receive a large sum of money! "

The middle-aged chef glared fiercely at Yu Tian. He gritted his teeth and said, "Don't even think about it. Don't say that I don't know him. Even if I did, I wouldn't tell you this bastard!"

Since he was so unyielding, he would let him suffer a little.

Yu Tian randomly pulled out a golden needle and pierced it directly into the man's forehead.

This was hundreds of times more painful than scalding his body with hot soup.

The man was in so much pain that his four limbs were about to be pulled together. His face was purple.

No one could endure the pain for long?

The man was the same. After a few seconds, the man compromised.

However, before he could say anything, a dagger appeared out of thin air and pierced through the man's neck, killing him on the spot!

Yu Tian immediately turned around, but there wasn't a single shadow around him.

He turned back to look at the man who had been killed and smiled helplessly.

He was actually able to kill someone right under his nose, and he didn't even notice it. He was really too pretentious.

Thinking of this, Yu Tian walked out of the kitchen.

But at this moment, more than ten men in suits rushed in. The leader was a middle-aged man with a full beard. He frowned and came in front of Yu Tian.

He first gritted his teeth, as if there were some words that he couldn't say. Moreover, there was some fear in his eyes.

Jenny came to Yu Tian's side and held his hand tightly. She asked warily, "Who are you? What do you want?"

The middle-aged man sighed. He looked at the destroyed kitchen behind Yu Tian and said coldly, "Mr. Yu Tian, we are from the Fifth Management

Department of Lowe,

my name is Buck Hamilton. First of all, I am very glad that you are able to come to Lowe as a guest. I also represent our highest CEO to express our welcome to

you, secondly, we don't want you to do too much here, and if you're here for a visit, Pd welcome it, but based on past data,

no matter where you go, this place is either war, or conflict, or it's destroyed. I hope you're here for a visit,

from the back of the kitchen, it doesn't look like you're here for a visit, and if you're here to destroy us, then we don't want to talk about it, we just want to beg for mercy,

we know that with our current strength, we are no match for you, but we don't want to have a conflict with you, and we don't want to be your enemy,

so I brought a message from our supreme president. If you want to travel here, from now on, we will protect your safety. If you want to stay here, then we will send you away from each other now!"

From the moment they entered the door, Yu Tian knew what they wanted to do.

Looking at their eyes and their imposing manner, he knew that they didn't want to talk to him.

But he had no intention of leaving now, they could follow him if they wanted to.

This could provide him with some useful things.

It would save him some time to search for some data, such as the old man who had fought with him previously.

His identity was still a mystery. Perhaps this Buck Hamilton still had some understanding of this old man.

Thinking of this, Yu Tian nodded and said indifferently, "If you want to follow me, then you can follow me. I have no intention of leaving this place yet,

"At least I want to stay here for a few years. Then you can be my full-time bodyguards now. I don't want to waste my time fighting those pretentious people! "

The corners of Hamilton's mouth twitched slightly.

No matter what, they were the top management of the fifth management department, yet Yu Tian had become a bodyguard.

If this were to be spread out, many people would laugh at them in the future.

However, this was an order from their supreme CEO. Before Yu Tian left this place, the fifth management department had to follow him closely.

Therefore, they could only swallow their anger and listen to whatever Yu Tian said.

Yu Tian looked at the time. It was already very late, but he did not want to go back now.

At this time, he should go to a bar and drink a few drinks first.

Of course, he did not have to go to a bar to drink. Yu Tian's idea was very simple. If someone still wanted to attack him, he would give them this opportunity.

Yu Tian then told Hamilton his idea, but Hamilton directly shook his head and said, "I'm sorry, Mr. Yu Tian. You can only go to a hotel now because some people might be pretentious..,

this will lead to an explosion and even more conflict. Therefore, it's better if you don't go to the entertainment venues!"

Yu Tian didn't like to hear this. His feet were on his body, and he could go wherever he wanted to go.

He snorted coldly and said disdainfully, "Is this what you bodyguards should say? Pm going to the bar now.. If you have the ability, then you can come! "

?Chapter 764 – : Chapter 763, Money

If they were to forcefully stop Yu Tian, it would be impossible. No matter how they looked at it, they would just follow Yu Tian and try to stop him before he made any excessive moves, they would try their best to stop him.

This was what they could do. Therefore, when Yu Tian proposed to go to the bar to play, they could only object to it. Seeing that the two of them had walked out of the restaurant, Hamilton could only bite the bullet and give his subordinate a look, he also followed them.

When they arrived at the most luxurious bar in the city, Yu Tian felt extremely satisfied as soon as he entered.

The style of this bar looked particularly psychedelic. Moreover, there were quite a number of beautiful women among the people who drank.

The reason why he came here today was partly to relax, and partly to let Hamilton see his strength.

If they could really work for him, it would be acceptable.

He found a good seat and sat down.

The manager and the foreman of the bar, who were in charge of the place, saw that Yu Tian had brought more than a dozen men in black with earphones in their ears, and their eyes were full of vigilance, they felt that Yu Tian was not a person to be trifled with.

The manager personally came in front of Yu Tian and said with a respectful smile, "Welcome to this bar. Sir, what would you like to drink?"

Of course, he came to the bar to drink. Otherwise, why would he come here?

However, Yu Tian did not want to drink alone. It would be meaningless.

No matter where he was, he was still the boss. Others should respect him.

Yu Tian said indifferently, "Today, everyone in the bar will be charged to me, and everyone will be given a bottle of the best wine. It will also be charged to me. No matter what the people in the bar do or eat, it will be charged to me! "?

Whatever they drink, it will be charged to me! "

The manager was shocked. Rich people often patronized this bar.

However, he had never seen such an arrogant rich person. Moreover, he was especially generous.

There were at least a hundred people in this bar. Each person had a bottle of red wine, and with their consumption, there would be tens of millions of people in this bar tonight.

The manager tried his best to think that Yu Tian was joking with him, so he rubbed his hands and said embarrassedly, "Sir, you really know how to joke, but I really like people with a sense of humor,

"These people here, their bellies are like buckets. You Can't fill them up at all. How about I introduce you to a few bottles of good wine and you drink it here slowly?

Yu Tian could hear the meaning in his words. He was clearly telling himself that if he had money, he wouldn't have to care about these things, but if he didn't have money, those people could drink him to death.

The manager didn't want to make things so complicated. He also had a way of speaking. He was reminding him to try his best to play around here. It was better not to show off to those people.

However, Yu Tian didn't believe this. No matter what, he was the richest person in the world. He wouldn't even blink if he had hundreds of millions, let alone tens of millions.

If he were to give up his enjoyment just because of a few words from the manager, even Hamilton would laugh at him.

Therefore, he laughed and said proudly, "Did I say that I was joking with you? Immediately do as I say. I will buy out the entire venue today!"

At this point, Yu Tian took out a black bank card and said to the manager, "The money in this card can be used as you wish. All the expenses for tonight will be paid from this card,

Jenny, go and pay them 20 million first. If it's not enough, you can continue to pay them later! "

Yu Tian casually handed the bank card to Jenny.

The manager was a little shocked.

He thought that this man was joking with him, but it turned out that he was really serious.

It seemed that he was really a rich man.

Since he was so insistent and could make money for the bar, what was there to refuse?

He immediately brought Jenny to the bar counter, and Jenny handed the bank card to the waiter behind the bar counter.

After entering the password, 20 million was transferred to the bar.

When the manager saw the transaction confirmed, cold sweat trickled down his forehead.

He immediately went to the stage and pushed all the dancing women aside.

Then, he said loudly to the audience, "Everyone, today is your Lucky Day!"

"Because a very rich gentleman has already booked all your expenses for tonight. From now on, you can drink to your heart's content and play to your heart's content!"

"All the expenses will be paid by that gentleman. Moreover, after you leave, each of you will get a bottle of red wine, which will be given to you by that gentleman!"

As soon as he finished speaking, the entire place was in an uproar, and everyone's eyes were fixed on Yu Tian.

All kinds of screams immediately sounded. Some people even raised their glasses to thank Yu Tian.

Some people who liked to drink took this opportunity to shout to the waiter, "Bring me ten bottles of your best wine. I'm a little hungry. Get Me Something to Eat!"

The waiter did not care about these things. As long as someone wanted something, as long as they could bring it out, he would immediately bring it to them.

At this moment, Yu Tian was calmly drinking his wine. At the same time, he looked at Hamilton, who was standing not far away, and waved at him.

Hamilton was also a little shocked. He knew that Yu Tian was not a person who cared about money. However, the way he spent his money made his heart skip a beat.

He had casually thrown out tens of millions of dollars to those who did not know him. If he was so rich, what was there to pursue?

If he was as rich as him, he would definitely not work for a senior CEO anymore. He had to look at the faces of others all day long. Moreover, he was in danger of being killed at any time.

However, their pay was pitifully low. If they didn't do this job, no one else would go back to do it. Therefore, they could only fill their desires with a hollow sense of honor.

Hamilton came to Yu Tian's side and said softly, "Your generosity really shocked me, but I feel that there is no need for you to do this,

"There are drunkards everywhere. They will forget about you when they wake up tomorrow. Do you really think you're worth it?"

Yu Tian looked at the drunkards around him with disdain. He laughed and said indifferently, "They are indeed worthless, but you are indeed very valuable..2a€2

"Look at your job. It looks very mysterious, but you can't really relax and have a drink like these drunkards,

"How about this? I'll treat you to a drink.. Do you agree or not?"

?Chapter 765 – Chapter 764, Enjoy Yourself Every Day

Hamilton was stunned for a moment. He did not know what Yu Tian wanted to say. What was he trying to convey to him?

Therefore, he still shook his head warily and thanked Yu Tian. He then said, "I'm very grateful for Mr. Yu Tian's invitation, but we don't seem to be that familiar with each other yet,

moreover, I also have a strong suspicion that we will disappear after we get drunk. So, what do you want to say? Let's say it when we are both sober!"

Yu Tian did not care about his rejection at all. Moreover, he already knew that he would reject it.

Since the supreme president of Luo Wei's senior management department was able to choose him to follow him, it could be partly because he was very outstanding. Secondly, this person's ability was very strong.

Otherwise, it was impossible for him to carry out such an important mission.

His current identity was very special. If it was a normal visit, their supreme CEO would have to come personally to see him.

However, he had never thought of any grand meeting ceremony. What he cared about most now was information.

Thinking of this, Yu Tian placed the black bank card on the table again.

"Mr. Hamilton, I like to increase my relationship with others. I don't like to waste so much nonsense and I don't like to waste time. Let's be straightforward. I'll spend money to buy what I need."

"If you want to sell it, then you can immediately take 100 million from this bank card! "

Hamilton suddenly frowned. This number was simply too tempting.

100 million represented everything. If he could have 100 million, he would no longer need to do this hard work. He would enjoy it every day, and he would never be able to spend it all in his lifetime.

Moreover, he could complete many of his unfulfilled dreams. He could even have everything that he wanted to have.

This was the benefit of money, the benefit that everyone was pursuing.

When he first came to the fifth management department, he first wanted to live, so that he could fill his stomach.

At that time, he did not have such concepts as faith and honor.

Until now, he still did not have such concepts. He just purely wanted to serve the supreme president, so that one day, he could be appreciated by the supreme president, so that he could live a better life.

When Yu Tian saw Hamilton, he was stunned. He did not speak anymore.

Instead, he lowered his head and looked at the phone. After a full minute, Yu Tian slowly raised his head.

At this moment, Milton was still hesitating. However, his eyes were filled with rejection and even wariness.

You are not so easy to take. Once he had such thoughts, his fate would change at this moment.

This wasn't something that everyone could accept. After all, it was like a dream. There was a saying that went, "A good dream is easy to wake up from."

For example, Hamilton was extremely cautious about this at his age.

If it was someone younger, they would have put the 100 million into their pocket already. They wouldn't even need to think about it.

Yu Tian stuffed the phone into his pocket and poured a glass of wine for Hamilton.

Hamilton really wanted to have a glass of wine to calm himself down.

What he was most afraid of was not enemies with weapons in their hands, because he could fight them. Even if they fought to the death, it would not be a big deal.

However, when faced with temptation, this was a difficult situation to choose from.

Hamilton did not even think about it. He picked up his glass and downed it in one gulp.

His followers also widened their eyes in shock.

Hamilton was their boss. Before coming from the bar, Milton had specifically warned them not to embarrass the fifth administrative department here.

But now, he was enjoying himself.

Yu Tian also felt that there was some doubt in their eyes, so he laughed and said to them, "Actually, it's nothing. You can go and have a few drinks. I've already said that I'll treat tonight,

"And I won't be impulsive with anyone here. Otherwise, I wouldn't have booked this place tonight. Go and have some drinks. You're all very tired! "

Although they wanted to do as Yu Tian said, as staff members of the Fifth

Management Department, they knew that the person in charge was not Yu Tian, but Hamilton.

Hamilton, you also know that you shouldn't drink this glass of wine, but now the wine has already created a certain degree of heat in your stomach, and even made you a little excited.

In that case, what reason did he have to ask his subordinates to just stand there and watch him enjoy it.

So, he nodded to his subordinates and approved them to do as Yu Tian said.

These subordinates seemed to have picked up a treasure, and their faces were filled with excitement. They immediately surrounded the bar counter on both sides and drank to their heart's content.

For them, this kind of consumption was not something that could be obtained at any time. With the small amount of money that they earned from their hard work every day, it was not even enough for them to drink a few cups here.

Therefore, their expressions were especially greedy. They poured the wine into their mouths one cup after another. It was truly free.

At this moment, Hamilton also looked coldly at Yu Tian and said in a deep voice, "Mr. Yu Tian, I don't think I have ever treated you as an enemy,

"The reason why I followed you is because of the Supreme CEO's order. We are all serving the supreme CEO, so in my heart, I especially resist you doing this,

"You are using money to tempt me. It's like you have dug a huge pit in front of me. If I jump into it, I might not be able to climb up again! "

However, Yu Tian shook his head and gently tapped the wine glass with his finger. The sound made by the wine glass made Hamilton somewhat calm down.

Following that, Yu Tian smiled indifferently and slowly said, "Mr. Hamilton, actually, I have a certain understanding of you. You are an ordinary team leader in the Fifth Management Department, and you have a total of ten people under you,

however, these people often need other people to replace them because they may be sacrificed in the mission at any time or place. However, because of your management

rules, you and your team.., always have to challenge the high-difficulty mission, although you do not want to do so, but I want to say today is not this, but I want to ask you a question, a question that I am particularly confused,

your monthly pay, is only a little bit, but you have to take your own life to earn, you do not think it is really worth it?"

?Chapter 766 – Chapter 765, A Good Idea

Hamilton stared at Yu Tian in surprise. He did not know where Yu Tian had gotten this information, and Yu Tian's words had hit home.

Yu Tian saw an opportunity and continued, "Actually, it's hard for you to answer this question. If it were me, it would be hard for me to answer others. After all, when we are thinking about how to live,

perhaps we won't think about the so-called beliefs and pursuits. But when we fill our stomachs, we can truly think about what we're after?

You must be very confused now. How did I get your information? Actually, this is very simple for me. I only need to say one word, and there will be thousands of people in the entire world,

for my words, they began to carry out all kinds of missions, but these people, all knew what they were pursuing. To put it simply, it was also for the money, in order to be able to live better,

so they made the most correct choice, which was to stay by my side, and the reward I gave them, was enough to let them live very happily,

why am I telling you this? In fact, I want you to know, they traded their value for real reward, but your value is not reflected in the reward at all,

in fact, you don't have to think so complicated, I just want to buy some secret intelligence from you, you are the leader of the fifth management department, and before that, you carried out a mission called the purge,

i don't know the content of that mission yet, but what I do know is that when you carried out the mission, you lost a lot of your team members at once,

you could have easily become the vice president, or even president, of the Fifth Management Department. At that time, the Supreme President had given you this promise. If you could complete the purge mission, you could get the position,

"But after that, you failed. How did you fail? "Until today, not many people know about it. What I want to know is..,

"What exactly is the content of your cleansing mission?"

Hamilton frowned coldly. He narrowed his eyes and stared at Yu Tian. He said coldly, "I'm sorry, Mr. Yu Tian. This is top secret. I don't have any authority to tell you the content of the mission,

"You'd better stop trying to pry into our top secret. If you continue to do this, I can expel you from the country at any time! "

Yu Tian suddenly stopped smiling. He placed his hands on the table and said coldly, "Tonight, I met a particularly powerful expert in the backyard of that restaurant€|"

"This expert's ability is completely above mine. You should also be very clear that with my current status, I was beaten up by that expert. I didn't even have the chance to fight back. If the entire world really knew€| "

"Where do you think my face will go?"? "My face is the highest level, and my status is the same. Since I can tell you all this, why can't you tell me the contents of your mission?"?

And now only you and I are sitting here. No one will know what we are talking about. Your men are so drunk that they can't even stand up. Do you think they are still in the mood to listen to what you are saying to me?

If you have any concerns, there's no need for that. Still, with my identity, even if it's a big secret, it can't be leaked to others from me! "

Hamilton knew that what he said made sense, but he was not an idiot, so he followed up with a question, "Although what you said is very right, what I'm thinking now is different from what you think€| "

"First of all, I have a question. Why do you want to know the content of the cleansing mission? "What do you want to get from this content?"

Yu Tian gently touched it and narrowed his eyes as he said indifferently, "Because I'm thinking that your cleansing mission and the Expert I met tonight are one and the same€|"

Simply put, you must know the secret behind that restaurant. Otherwise, you wouldn't have brought people there today and asked me to leave quickly,

"I don't know whether you want to help me or remind me. No matter what you think, I just want to know the content of your cleansing mission and the identity of that expert in that restaurant tonight! "

Hamilton fell into silence again. He could indeed provide Yu Tian with what he wanted.

These secrets were also extremely valuable. They were definitely worth hundreds of millions.

As long as he told Tian about the contents of the mission, he would be able to get the money and live a different life in the future.

However, this was a top secret. If the CEO knew about it, the third management department would immediately take action.

The people in the management department were all ruthless killers.

The Assassins in the third management department only served the CEO.

As long as the CEO gave the order, the people in the third management department could assassinate anyone.

If the senior CEO found out that he had leaked the secret of the mission, the people in the third management department would hunt him down and kill him.

Even if he got 100 million, it was very likely that he would be alive to earn it but not to spend it.

Thinking of this, Hamilton shook his head helplessly. He even said with some sadness, "Although I really want to earn this money, as you said, even if we can't get the same value of the reward"

"But we still have to continue doing this because we can not disobey the orders of the supreme CEO. He can order us like this not only because he is the supreme CEO "

But because of his methods. What I can say to you now is that our supreme CEO's methods are particularly hot. In his eyes, there is no one who can not be killed. If there is a need.,

he may even attack his own family. Such a supreme CEO, do you think that I, as a team leader of the fifth management department, can disobey his orders?

"I was indeed the one who carried out this mission in the beginning, but the failure of the mission was also a humiliation for me for the rest of my life. I don't want to think about that mission anymore, so please don't make things difficult for me, Mr. Yu Tian! "

Yu Tian, however, nodded calmly. There was no anger on his face, and there was even an indifferent sympathy.

This made Hamilton look especially pleased, and his heart felt a little better.

Yu Tian poured him another glass of wine and said softly, "Actually, I know that the one who is afraid is not your highest CEO, but the third management department under his direct management,

"Your third management department is especially famous all over the world. Even if I don't intentionally gather information about them, my intelligence personnel will give me special reminders, but what I want to say now, is to give you a good idea! "

?Chapter 767 – : Chapter 766, Top Secret Mission

After a few glasses of wine, Hamilton really wanted to hear Yu Tian's good idea.

Through his gaze, Yu Tian also felt that he wanted to know what his idea was.

But before saying this idea, Yu Tian had to let him know that the basis of this idea was that he had to have the courage to do it.

And this courage was not his greed for money, but his responsibility to his family and his love for them.

Thinking of this, Yu Tian let Jenny sit somewhere else for a while. When there were only the two of them around, Yu Tian said in a low voice, "I know that you really need money now,

first of all, your children now need money to go to a better university. And your wife, she also needs money to make her body better,

you have your parents, and even your other relatives, who don't know that you work in fifth management, and you keep this secret from them, but you can't give them a better life,

until now, your family has lived in a very crowded house, especially your kids, who haven't had all the fun that a normal kid should have,

when you see them, I don't know what you are thinking, but one thing I can be sure of is that you are their father, you must want them to have a better life, even let them go to a famous university, like the children of those rich people, get the best education, enjoy the best life, you also want to give your family more help,

let them not be like now, living the life of sometimes not having enough to eat for the new year, so I give you the idea is very simple, stand on my side, and tell me what I want to know,

then I will certainly use all of my strength, to protect you and your family, absolutely will not let your third management department, have any harm to you and your family,

i think you should know that I have the ability to do so. I Won't even care about your third management department or Your Supreme President,

this is the idea I want to give you. You can take the money back now, get my protection, and sell me the information I want. It's that simple! "

Hamilton understood Yu Tian's meaning very clearly, and this idea was really not bad.

If Yu Tian was able to provide protection for himself, the people in the third management department definitely wouldn't have the guts to touch him.

Because this meant that if they were to touch him, it would be the same as touching Yu Tian.

It was impossible for us not to know Yu Tian's strength. Even if the Supreme CEO was standing in front of Yu Tian, he wouldn't have the guts to say anything else to Yu Tian.

However, before he agreed to Yu Tian's request, he had to first confirm whether what Yu Tian said was true?

Thinking of this, Hamilton asked in a low voice, "Can you really provide me with protection? If you really want to obtain information, I have other conditions besides taking this 100 million!"

Yu Tian did not care about how many conditions he had. He just calmly spread his hands and said, "If you have any conditions, feel free to say it. As long as I can satisfy you, I will definitely satisfy you! "

"I want to leave Lowe and take my family with me. I want to go to the metropolis in the southern part of the Super Nation that you manage. You have to arrange a very good job for me in the metropolis,

"Also, you have to give me and my family the best protection. You absolutely can not let any of them be harmed by the third administrative department!"

Yu Tian was also thinking about it quietly in his mind when he said these words.

Hamilton was especially afraid of the third management department. This meant that the third management department, the purging mission, and even their senior CEO might play a very important role in this mission.

The more so, the more interesting this mission was to you today.

The Information Chu Meng provided was also very important. If I could get the content of the task under such simple conditions, why wouldn't I agree to it.

Yu Tian nodded his head in disdain and said indifferently, "I thought you would be able to give me some special conditions, but it turns out it's just so simple!"

"It seems that my idea is right, and I'm especially concerned about your family. You Don't want them to be harmed in any way, so I'll agree to your conditions!"

"You can go to the metropolis whenever you want. Moreover, when you go to the metropolis, there will definitely be someone who will make the best arrangements for you. You Don't have to think about these things. If it's possible now!"

"You'd better tell me the contents of your cleansing first, and then we can talk about the rest!"

Hamilton nodded. He first looked around vigilantly to make sure that there was no special person eavesdropping on their conversation, then, he said in a low voice, "This is Lowe's top secret. There are not only a handful of people who know this secret,

"Everyone in the world thinks that this is the best place in the world, and they all hope to come here to travel. However, you only see the surface, and don't see the other aspects of this place,

it's like our supreme CEO, always likes to build one tall building after another, where people can see, so that everyone who comes here feels that this is a super city,

but what you can't see, is the dark and damp, where people can not even afford to eat, and this is a large portion of people,

these people are very dissatisfied with our CEO, and you would be, too, because in the management department, the CEO First had to give these people enough security, but he didn't do it,

so there would be people who would stand up against him, and the purging mission was to kill all those who opposed the CEO,

at that time, this mission was done by the people from the third management department, and I was also in the third management department. At that time, I had 50 super employees under me, and they were all top-notch killers,

the order given by the senior president was for me to take these killers and kill all these people according to the list he gave us, at the beginning of the mission, it was exceptionally smooth, killing many key figures of the rebels. However, we didn't know that behind these rebels, there was a super expert, (I or rather, he was an extremely powerful figure,

"This person is the person behind the scenes who initiated the rebellion. His name is Sellaenke. Sellaenke is here, and almost everyone knows who he is. However, we don't know what he wants.. "

?Chapter 768 – Chapter 767, The Magic Snake Assassin Group

At this point, Hamilton downed another glass of wine. Yu Tian could clearly see that this time, he drank at a rather rapid speed, as if he did not want to recall that painful experience.

Only after he drank the wine and the intense heat was ignited did Hamilton calm down a little. He continued slowly, "Serlaenke is a particularly wealthy person here,

he controls more than 70% of the businesses here. Even our senior CEO has to seek his opinion on certain aspects. However, how could we have thought that..,

the person who has provided us with many benefits is actually the big boss behind the rebels. He has provided the rebels with a large sum of money and used this money to buy them the best weapons in the world,

as for these weapons, I think you should know very well, Mr. Yu Tian, who sold them? That's right, it was Chu Yan industry. After these rebels obtained the weapons,

under the direct orders of Seranke, they prepared to attack the supreme management department and use force to coerce the supreme CEO to give up the assassination plan against the rebels,

although the Supreme CEO did not explicitly reject them, the supreme CEO was unwilling to do so. At that time, he only made a hollow promise to Selanke, he said that he would give up the assassination plan, and he also hoped that Selanke could order the rebels to put down their weapons. Only then would everyone's face be acceptable! "

When he heard this, Yu Tian felt that it was a little strange, so he asked curiously, "That Selanke you mentioned, why would he do that?

"If he was just an ordinary businessman, making money should be his responsibility. Why would he get involved with the rebels? "Moreover, he provided them with weapons and funds to resist your highest CEO?"

Hamilton wiped the cold sweat off his forehead and said in a low voice, "Because Selanke's daughter is one of the initiators of the resistance. I really don't understand how special the upbringing of those rich people is,

"But his daughter always wants to help those poor people who even the top management department has given up. She not only provides resources for these people, but also makes them stand up bravely and go to the management department,

to ask for everything they wanted, and everything they deserved. Therefore, Selanke was very simple. In order to protect his daughter, when he could not stop his daughter from continuing to help the poor people,

when fighting against the top management department, he could only use the protection of his daughter as a starting point to negotiate with the top CEO. He hoped that through investment and other means, his daughter's life could be returned,

however, the supreme president did not wish to do so. At that time, Selanke's daughter had already become the supreme leader of the rebels. With her encouragement, the rebels, would hold demonstrations and protests at the entrance of the Supreme Management Department every day,

in the end, it turned into a violent conflict. Many of the rebels were killed by the Defense Department. These orders were given by the supreme president, after that, the supreme president also gave us a top secret order. This mission was called purging. It was mainly to assassinate the top management of the rebels,

Selanke definitely didn't want to see us kill his daughter. When he couldn't stop us, he found a lot of mercenaries and provided weapons to the rebels. This was money,

he made them scale up. Only then did the CEO realize that fighting against the rich wouldn't solve any problems. He needed a new method,

the third management department also increased the pressure on the CEO.

When we were on a mission, we were attacked by the rebels and mercenaries. My men were killed in that mission,

this was a huge loss for the third management department. Moreover, the supreme president had no choice but to agree and give up on the cleansing plan,

however, the supreme president didn't think that this decision of yours could change anything? This was an overall rule. If they wanted to change this rule, their position as the supreme president might not be so stable, moreover, once the rules were changed, it would be absolutely unfair to the senior management and the elites from other departments in the future,

the rebels could be easily dealt with, but once these elites had a rebellious mentality, at that time, the supreme management would completely lose their management, then, the supreme president could only be replaced by someone else. At that time, Selanke even revealed to the outside world that he also wanted to be the supreme president,

faced with all kinds of pressure, the supreme president could only make one surprising decision. He used his past identity to contact the most mysterious and cruel organization in the world,

"At the same time, it's also the most invincible assassin organization. This assassin organization is called Magic Snake!"

"Magic Snake?" Yu Tian had never heard of this name before. However, since Hamilton said that they were the world's most powerful and mysterious assassin organization, it was obvious that this organization was filled with experts.

Hamilton was a little drunk at this moment, but it did not affect his memories of the past. He slowly said, "Magic snake assassin organization accepted our

CEO's request and agreed to help him,

they continued with the cleanup mission. The snake assassin organization sent 10 assassins. These 10 assassins not only killed Seraenk, but also his daughter and a few senior managers of the rebels, all of them were killed,

the rebels who lost their senior management and financial support quickly became a pile of loose sand. Our senior CEO didn't want to let them go. He once again gave an order to the snake assassin organization,

he told them to assassinate all the rebels, and for this, he was willing to pay them 50 million yuan. The demon snake organization accepted this order, and in just half a month, over 3,000 rebels were killed,

then, someone sent this massacre to the alliance country, hoping that they could stop the Supreme CEO's Massacre of the rebels, at that time, they also gave orders to our supreme CEO, but our Supreme CEO was so crazy that he didn't even care about the alliance, he also gave a mission request to the demon snake assassin organization, completely killing all the rebels. However, until now, there were still some rebels who weren't killed,

"They are hiding at the lowest level here, while the demon snake assassin organization is still continuing their mission!"

?Chapter 769 – : Chapter 768, Demon Snake Recruitment

When Yu Tian heard this, he basically understood that the expert he had met tonight was very likely someone from the demon snake assassin group.

If it really was them, then this demon snake assassin group was indeed powerful enough. For a casual assassin to possess such strength, it was indeed not to be underestimated.

After drinking a cup of wine, Hamilton lit a cigarette and continued speaking slowly, "The magic snake assassin group is the most powerful assassin group in the world. The assassins they recruit..,

other than killing without batting an eyelid, without any emotions, regardless of age, they are also people in this world who are especially good at fighting. In your words, they are all experts. Moreover, they are experts amongst expertsa€|"

These people came from all over the world, and every single one of them was once the most outstanding assassin. This was because in the world of assassins, I had a rumor that no matter how powerful an assassin was, he wouldn't be recognized by the demon Snake Assassin Group,

in that case, he wouldn't be an outstanding assassin, and he would never be able to become a truly respected assassin. Not joining the demon Snake

Assassin Group was the highest honor for these assassins, every few years, the magic snake assassin organization would send out a secret recruitment plan to all the assassins in the world. All the assassins would come to the headquarters of the magic snake assassin organization on this day,

after going through many cruel selections, only the few who survived would be able to join the magic snake assassin organization. One could imagine that these people would be able to stand out among the thousands of assassins, needless to say, you should already know their strength. They are extremely powerful. You can say that they are extremely powerful. And I know that their recruitment plan for this year has already been released,

all the assassins from the world will head to Raqqa. In that city, they will undergo a series of selections. In the end, only a few lucky people will be able to join the Magic Snake Assassin Group! "

When he said this, Yu Tian was very satisfied and nodded. Hamilton, on the other hand, fiercely put out his cigarette and coldly said, "Now, I have no more information to tell youa€| "

"Don't forget that you have agreed to my conditions. I will go back and tell my family right now. When can you let me leave this place?"

Yu Tian smiled disdainfully and said indifferently, "You can leave whenever you want. Pll get the people from Metropolis to pick you up. As long as you come to Metropolis and join my company, you'll be mine."

"When that time comes, no one in this world will dare to touch you! "

Hamilton nodded fiercely. He was basically certain that he was absolutely safe on Yu Tian's side.

When he was almost done drinking, Yu Tian called Jenny to his side and held her small waist, he smiled and said, "It's already very late. I think we should find a warm room and have a good sleep!"

Jenny nodded her head shyly. The two of them swaggered out of the bar. At this time, Hamilton stopped his men and called them to his side.

The men looked at Hamilton in confusion, but he slowly said, "I'm not going to work in the Fifth Management Department anymore. Pll go to the Metropolis tomorrow. If you want to follow me, Pm very welcome, if you don't want to follow me, I won't force you. This is the decision I want to tell you! "

Everyone thought that Hamilton had drunk too much, but the firm look in his eyes and the steady look on his face did not seem like he had drunk too much.

Someone asked, "Hamilton, are you sure you are sober now? You are the team leader of the Fifth Management Department. If you leave now, what will the supreme president think?

"If the supreme president finds out about your conversation with Yu Tian Tonight, he will very likely have the third management department, or even the magic snake assassin organization, Hunt You Down and kill you,

"Aren't you afraid?"

Hamilton smiled calmly and said, "Since Pve made up my mind, I Won't be afraid. There's nothing to be afraid of. Pve already done enough in the fifth management department,

"However, if the supreme CEO wants to do something else, he first has to ask

Yu Tian if he agrees. The reason why I dare to say no at this time is because Pve already obtained the privilege that Yu Tian gave me,

when I arrive at the Metropolis, I will join Yu Tian's company. At that time, I will be protected by Yu Tian. The reason why I am telling you this is because I

don't want you to be bullied by the people from the third management department, therefore, I hope that you can leave with me and take your families with you. Moreover, I can assure you that when we arrive at the metropolis, we will be able to have other jobs, and we'll enjoy Yu Tian's special protection, then we'll be able to really fight for the life we want, to work, and even get everything we want, instead of being here every day with the lowest pay and doing this crazy work,

i've Had Enough! "

The crowd looked at each other and felt that Hamilton had a point. They had long since given up on fifth management.

Every day, the senior president and the people in the third management department treated them like dogs. They would scold them at any time.

Since they had this opportunity now, they wouldn't cherish it. As long as they left with Hamilton, their lives would be better in the future.

Wasn't this what they wanted?

Therefore, everyone decided to leave with Hamilton. They would never stay here again.

At this moment, Yu Tian had already returned to the hotel. After making out with Jenny, he went to the window and quietly looked at the romantic city in front of him.

Hamilton was right. No matter which angle one looked at it from, it was especially prosperous and romantic.

However, the place that was out of sight was filled with the smell of blood.

This was especially so for the magic snake assassin group. The expert that they met tonight seemed to know very well about himself. He knew who he was, yet he still dared to attack him. This meant that they wanted to show off to him.

They wanted to slap the face of this future world's strongest expert.

Since they were so good at showing off, there was no reason for them to continue existing.

Thus, Yu Tian immediately decided to personally go to Raqqa to see how lively their assassin recruitment plan was.

Moreover, the demon snake assassin group was full of experts. Wasn't this what he wanted?

To be able to kill this killer organization, I will jump several levels, that is what I really want..

?Chapter 7

Yu Tian decided to leave for Raqqa immediately to participate in the recruitment of the Magic Snake Assassin Group.

However, the difference was that he did not go there to be an assassin, but to kill other assassins.

He did not care about the most mysterious and powerful assassin group in the world. As long as they provoked him and provided him with opportunities to train, that was where he should go.

The most important thing now was to confirm the main information about the recruitment of assassins in the Raqqa region.

Yu Tian immediately gave Tiffany a call.

At this moment, Tiffany was traveling in the desert, having a lot of fun.

After receiving Yu Tian's call, Tiffany was especially excited.

She said loudly into the phone, "You're still willing to call me now? I thought you had almost forgotten about me. Moreover, you definitely didn't call me because you missed me, right?"

Yu Tian laughed and said, "Of course, it's also because I missed you. We haven't seen each other for a long time. It's time to think about it. Otherwise, I'm really afraid that you will completely disappear from my memory! "

Tiffany pursed her lips and smiled. She picked up a souvenir from the market stall and said while looking at it, "No matter what, many people are very happy that you are back now,

"There must be many people who are unhappy. During the time you disappeared, I didn't know what to do. Fortunately, you're back now, and I've just found my goal in life! "

Hearing her words, Yu Tian grinned.

He had never thought that he could give a woman such a great influence. He could even change her goal in life.

Yu Tian chuckled and said disdainfully, "Enough, sister. Don't try to fool me. I'm not calling you to talk about your life goals. "

"I have other tasks for you. As for your life goals, we can talk about them slowly after we meet. Now is not the time to talk about them. At least, I don't have time to talk about them now."

"Go to Raqqa immediately and help me gather information about a group called the snake assassin group. But before you go, I have to remind you that the snake assassin group is the most mysterious and powerful in the world. "

"It is also the most ruthless assassin group. Every assassin is a cold-blooded animal without feelings. If you really want to get in touch with them, you can think of other ways,

"No matter what, you must remember that you must first ensure your own safety before you carry out this mission!"

Tiffany smiled indifferently and said softly, "For you to care about me so much, it really makes me feel a trace of happiness,

"I know what to do. Just wait for me to hand over the best information to you! "

There was no need to say any more nonsense. Yu Tian knew that if he said too much, it would seem especially fake.

Between a man and a woman, there were some things that should not be said. Especially for a woman like Tiffany, who was infatuated with her, if she casually said something ambiguous to her, she would probably go crazy.

Before the information was collected, Yu Tian thought that it was better to stay here for now.

Tiffany's ability to collect information was extremely good. It wouldn't be a problem for her to carry out this mission.

In that case, he could continue to enjoy his rare few days of vacation here.

At this moment, his thoughts were interrupted by Jenny's ringtone.

When Jenny picked up the phone, her brows were deeply furrowed.

Yu Tian did not need to ask to know that it was definitely that greedy mother of hers again.

Jenny simply hung up the phone. Her eyes were filled with disgust, and it was a deep disgust.

She was afraid that Yu Tian would despise her, so she softly explained, "Yu Tian, they have never raised me. Now, they want me to raise them. I really can't do it!"

Do you even need to say that?

Yu Tian chuckled, stood up, and sat beside Jenny. He said indifferently, "Then don't do it. I hate those greedy people the most, if you want, I can let them see the Holy Grail and devour them directly! "

Actually, Yu Tian did not have to do this, but Jenny's parents were a bottomless pit that could never be filled.

Even if Jenny followed him, her parents would still continue to disgust her.

If Chu Qing and the others found out about this, they would definitely curse him to death.

At that time, they would definitely ask him, what the hell did he find?

However, Yu Tian's words still made Jenny shrink back and hesitate.

She knew the power of the Holy Grail. If Yu Tian really used the Holy Grail, then his parents would be completely devoured by the Holy Grail.

If she were to ask herself, did she really want to do that?

Yu Tian could clearly see the hesitation in her eyes, hence, he said indifferently, "Of course, you can choose for yourself. After all, they are your family. I'm only giving you a suggestion. You Don't have to listen to me and trick them! "

Jenny thought carefully and said helplessly, "What I want is to help them one last time. To You, this little bit of money is nothing. Just treat it as me repaying the kindness of their birth! "

If that was the case, Yu Tian naturally did not have any objections.

Hence, the two of them dressed up and followed them to the hospital in the city. They also met Jenny's parents in the ward.

The entire hospital went crazy because of Yu Tian's arrival.

Actually, this was very normal. With Yu Tian's current popularity, the whole world knew of his existence, especially those who liked to pay attention to the world's situation. They absolutely worshipped Yu Tian.

Taking photos, signing autographs, taking group photos, and so on, making the hospital look like a meeting with a celebrity.

This made Yu Tian feel a little helpless. He wasn't here to visit the hospital, so was there a need to make it so grand?

If he looked like this no matter where he went in the future, then what was the point?

No matter what, he had to think about what activities he would do outside in the future, and try not to use his face.

Disguising was a good choice, but no one could say for sure whether there was such a thing in this world.

The best way was technology. Believing in technology was equivalent to having everything.

After much difficulty, Yu Tian finally felt a moment of silence after the director and the others stopped him.

However, that damned old man, the director.., he still said enthusiastically, "Mr. Yu Tian, it's a great honor for you to be able to come to my hospital. If we can cooperate in a certain field, it would be a great honor for us! "

Yu Tian looked at him indifferently and said disdainfully, "Do you think it's possible?"

I Have 108 Older Sisters #Chapter 771 - Read I Have 108 Older Sisters Chapter 771

?Chapter 771 – Chapter 770: A Fool'S Dream

Yu Tian was particularly helpless about the scale of this hospital. It was simply a small clinic, even worse than a small clinic.

Other than a few old doctors, there were not many nurses. Moreover, there were very few wards here. It was practically a small private hospital. By saying this, they were already praising them.

They still wanted to cooperate with him? How was that possible.

Yu Tian did not want them to have too much hope, so he directly rejected them.

"Firstly, I want to cooperate with someone who has the ability. Secondly, I also want to cooperate with a large-scale company. Look, which of the two things do you have? If you have one of them, we can cooperatea€]"

"But looking at it this way, not only do you not have either of these two things, but you also don't have anything that I don't need. Do you think that we can still work together?"

"You guys should continue to develop this small hospital into a big hospital.

Then, you can talk about working together with me. Perhaps I might agree at that time. Now, please leave this ward. I want to show off to these two people here!

The hospital director also shook his head helplessly. It seemed that Yu Tian did not come here to cooperate with him this time, and the hope that he wanted to cooperate with him instantly disappeared.

However, no matter what, since Yu Tian was able to come here, this meant that his hospital could have the capital to publicize it in the future.

At the very least, it could be said that the most powerful person in the world had actually come to his hospital and talked to him in this hospital. This was already very good.

It could also fool those people who did not understand the situation. They would think that his hospital was quite large and powerful. When he added some other reasons, those people would have no choice but to believe him, Yu Tian was indeed here to cooperate with him.

When that time came, there would be a lot of money waiting for him to earn.

With this beautiful dream, the hospital director left the ward happily.

At this moment, Jenny also came to the front of the hospital bed. She looked at the area near the hospital bed where there was an oxygen tube stuck in her nose. Her expression was very complicated.

She didn't know whether to hate him or pity him.

After all, this was her father who had given her life. But now that he was lying here, Jenny had to think about what this man had given her.

If it was only life, then she had given them enough.

What else did they want? What else did they want from him?

At this moment, Jenny's father.., slowly said, "I always thought that you would one day become a rich person. My thoughts were not wrong. Now that I can see you with the richest person in the worlda€| "

My Father's heart was especially gratified. In the future, my life would also be guaranteed. I would no longer need to lie in this dirty hospital and inject those cheap medicines every day,

i have many dreams and many plans to achieve. First, I want to go to a better hospital. I want to receive special services to make my body better, i want to use the most expensive drugs. I want to eat the best food in the world. Later, I want to travel around the world and enjoy the life of a rich man. You can give me all of this, right?"

Jenny's mother, who was standing on the side, also said, "Yes, I'm going to use the most expensive cosmetics in the world, and I'm going to invite a professional designer to design clothes for me,

I'm going to use the most expensive jewelry in the world, diamond necklaces, and I'm going to drink the most expensive wine every day. This is the life we've always wanted. Jenny, you're our child, and you're going to satisfy us, you will definitely give us the life that we have always wanted. Am I right? Otherwise, why would you come here to see us today? We are so happy that you can come here, and you must also be here to satisfy our hopes. Am I right?"

It was fine if they did not say this. After saying this, Jenny's expression, which originally had some feelings for them, now completely turned into a face of disgust, she turned around and said to Yu Tian, "I feel that we made a mistake by coming here,

"Let's leave this place now. I don't want to see them ever again. I don't want to see them ever again! "

Yu Tian did not have any objections. He had never wanted to come here to look at these greedy people.

If he had not given Jenny Face, he would have left this place long ago. Even looking at them made him feel annoyed.

Now that Jenny offered to leave, it was exactly what Yu Tian wanted. He didn't want to stay here anymore. Now was a good opportunity to leave.

It was the human parents who were greedy. They should continue to stay in this poor place and endure this torture for the rest of their lives.

In their eyes, Jenny didn't exist. They only saw themselves behind Jenny.

At this point, Jenny gently held Yu Tian's arm and the two of them were about to walk out.

Jenny's mother, however, hurriedly grabbed Jenny's arm at this time, in an almost desperate tone, she said, "Jenny, you can't do this to us. We are your parents. No matter what, you can't leave us here, at the very least, you should buy us a villa or let us live the life of a rich person.

If these are not enough, you can at least leave us a sum of money so that we can live comfortably, we can even live the rest of our lives! "

They had seen shameless people, but they had never seen someone as shameless as them.

They had completely treated Jenny as an ATM. They had no idea where Jenny would get the money for them.

They only thought one-sidedly that Jenny had become a rich woman by following them.

As for Yu Tian's heaven, Jenny could use it as she pleased. How could they possibly know that Jenny was just one of Yu Tian's many women? Moreover, it was still uncertain whether she could become Yu Tian's woman.

Jenny fiercely shook off her arm, she said angrily, "Don't tell me these things anymore. I don't believe in anything now. From now on, I don't have parents like you. Just pretend that you never gave birth to me,

"I have my own life. I also have my own life. Please Don't disturb me. Moreover, Pm going to leave this place. You all have your own lives too. I've helped you all a lot over these years,

"I don't want to help you anymore! "

At this point, Jenny dragged Yu Tian away, and Jenny's mother, who seemed to want to continue, was coldly stopped by Yu Tian..

?Chapter 772 – Chapter 771, The Weakest Of Sisters

Yu Tian looked at her coldly. He did not want to waste any more time on her. He took out a few wads of cash and threw them on the ground.

It was enough to give them all this. It was still the same sentence. After all, they were Jenny's parents and Jenny was now his woman. This money could be used as child support for them.

Jenny felt extremely sorry, but she did not need to thank Yu Tian too much. Otherwise, it would be too hypocritical.

She only looked at the greedy woman and said coldly, "This is the last time I will help you. It will never happen again. Remember, it will never happen again!"

After saying this, the two of them left the ward and disappeared from the eyes of the greedy man and woman.

However, just as they left, a man wearing a suit and sunglasses walked into the ward with a gloomy face.

When Jenny's mother saw this man, she was extremely terrified and retreated to the side of the bed.

At this time, Jenny's father also pulled out the oxygen tube on his nose and started to do it happily.

At this time, he did not have any illness at all. Instead, he was in good spirits and looked at the man in front of him like a dog.

The man said gloomily, "You did very well. This is your reward. Next, you should know what to do! "

The two greedy people immediately took the suitcase from the man and nodded excitedly.

At this moment, Yu Tian and Jenny were already enjoying the beautiful sunshine by the seaside. They were drinking the cool coconuts by the seaside, chatting and laughing as they looked at the blue sea.

Yu Tian really cherished such a pleasant moment, but Yu Tian was thinking about something else.

If one were to look at the courage of a person, Jenny's parents would definitely not be so greedy in front of him.

Weren't they afraid of being impatient and killing them.

Therefore, there was only one explanation, and that was that there might not be someone else behind them.

But they didn't know what they wanted to do, and it wasn't clear who the person behind them was.

The Way was to wait. Jenny's parents would definitely show up, and the next time they showed up, they would know who the person behind them was.

The Way was to wait. Jenny's parents would definitely show up, and the next time they showed up, they would know who the person behind them was.

If the person behind them wanted to do something with him, then he would definitely welcome it.

Since he had nothing to do now, he might as well play with them.

Just as Yu Tian was about to go to the seaside with Jenny for a delicious meal, his phone suddenly rang.

Yu Tian looked down at the phone number. It was Chu Hui.

He could not answer other people's calls, but he had to answer Chu Hui's calls.

Because Chu Hui did not call him at any time or place. It must be one of the 108 sisters who wanted to talk to him.

Yu Tian guessed correctly. Chu Hui said softly on the phone, "Yu Tian, there is someone you need to see urgently. He is one of the 108 sisters."

Her name was Chu Bing. She was the weakest among the 108 sisters. Moreover, her body was becoming weaker and she could die at any time. You must go and see her now,

only you could save her. Chu Bing was very strong, and she had a lot of self-esteem. She knew that she was the weakest of the 108 sisters, so she had always been the most obscure of the 108 sisters. Even when she was at her most unbearable, she didn't bring any burden to the family,

however, in order to ensure the integrity of the 108 sisters, you must go and see her. It's best if you can go now. If you can recover her body, that's the best, after all, this is related to the fate of the entire family. I know you may be very busy now, but you have to go and see her no matter what! "

"Where is Chu Bing Now?"Yu Tian asked indifferently.

"Her father and mother, in order to provide her with the best medical help, have already brought Chu Bing to locust. There is the best medical institution in the world that can treat illnessesa€]"

"But the effect is not very good right now. Chu Bing's body is still the same, and he is getting weaker and weaker. What exactly is his illness? It is still impossible to find out. The entire family is paying special attention to thisa€|" "If any one of the 108 sisters leaves, the entire family may be disintegrated! "

Yu Tian naturally knew that his existence was to ensure the 108 sisters a€?integrity.

No matter what, the 108 sisters a€?lives were the most important. This was also why he wanted to become the strongest person in the world.

It was destined that he would protect the 108 sisters and live happily in this world.

Only if they could continue to live would he be able to live on and become the strongest person in the world through them. This was undeniable and could not be delayed.

Thinking of this, Yu Tian immediately nodded and said, "I will go to locust now. No matter what, I will save her. Even if I have to sacrifice my life, I will not hesitate! "

After hearing this, Chu Hui was especially gratified. She said very gently, "With your words, whatever we are asked to do, it will be worth it! "

Yu Tian was also slightly touched. He knew that these words were spoken from Chu Hui's heart. He was also very touched that he could hear the words from his heart.

Then, there was no need to waste time on anything else. It was better to hurry to locust to see what disease Chu Bing had and why such advanced scientific instruments could not detect it.

It sounded strange. There was actually an undetectable disease in this world. It sounded like a joke.

There was no use thinking about it here. It was better to go and take a look immediately. If he could really solve it, it would be for the best. Even if he couldn't solve it, he had to think of a way to save Chu Bing.

However, Yu Tian looked at Jenny. If he went to locust, he definitely couldn't bring Jenny with him. However, Yu Tian didn't want Jenny to stay here.

The best way was to let Jenny go to Sean first.

Let her wait for him there. After he solved these tasks, he would go back and settle her down.

Jenny didn't have any other opinions. As long as he didn't stay here, she could accept anything.

The two of them immediately split up. Jenny directly took a plane to Sean, while Yu Tian directly activated the teleportation and arrived in front of Knox, the world-class medical institution.

This time, Yu Tian was careful not to enter the hospital with his original appearance. He wanted to put on some makeup first..

?Chapter 773 – Chapter 772. My Heart Aches

Yu Tian only wanted to change his appearance. He didn't need to go to the hospital to have a plastic surgery.

After the plastic surgery, even the 108 women wouldn't recognize him, let alone these people.

He would be an idiot if he did that,

locust could be considered a bustling city, and there was a large commercial district around the hospital.

There were all kinds of things sold in the commercial district.

Sunglasses were the best. After wearing those things on the face, it was very difficult for others to see the face.

After choosing sunglasses, he walked into a children's toy store the next day and bought a fake mustache inside. He wore it under his nose.

He looked at himself in the mirror. This time, it was so perfect that he couldn't even recognize himself.

After dressing up like this, Yu Tian was very quiet. He also walked into the hospital smoothly.

However, what made Yu Tian somewhat helpless was that Chu Bing's body check-up in this hospital almost took over the entire hospital. Hundreds of bodyguards occupied the entire floor.

It could be said that all the famous doctors in Lockersk were here at this moment, waiting to give Chu Bing a physical examination.

This was also an opportunity for them to receive both money and fame.

The thin woman lying in the ward was the daughter of the world's number one family. If she could treat his illness, she would definitely become a world-class doctor.

At that time, their identity would be from the ground to the sky.

Every doctor wanted to cherish this opportunity, but there were too many doctors here. They could only gather at the door of the ward and go in one by one to check.

But until now, no doctor could accurately diagnose what disease Chu Bing had.

Every doctor who walked out of the ward shook their heads helplessly. The other doctors also felt extremely pressured.

After all, the world's top doctors were gathered here. If the doctors who had entered the ward couldn't find out what was wrong, then the other doctors wouldn't be able to find out.

Yu Tian just stood in a corner silently. There were too many people now. If he suddenly appeared here, not only the doctors, but even the bodyguards here would panic.

In the end, his disguise would be in vain.

Therefore, it was not too late to observe them first. When there were fewer people, he could enter the ward.

At this moment, a middle-aged man walked in completely outside. This man was wearing a white coat. He looked particularly wise and spirited.

However, his gaze was obviously disdainful of the other doctors.

Even so, the surrounding doctors all expressed their respect towards the middle-aged man.

"Doctor Baroque, it seems that only you can detect Miss Chu's illness this time!

"Do I need you to say it? Doctor Baroque is currently the world's top doctor. If even he can't detect it, then I think the other doctors can leave this place as well!

"Dr. Baroque is my idol. I used to be his student. When I was studying in medical school, Dr. Baroque was our professor. His medical philosophy was especially amazing."
"

"Until today, Dr. Baroque has provided many advanced personal experiences and inventions to the medical institutions of the world. Otherwise, how could Locust International Hospital become the world's top hospital? ! "

In the face of everyone's flattery, Dr. Baroque did not have the slightest bit of modesty. Instead, he felt that these words were meant to praise him.

This made the expression on his face even more arrogant, and even insufferably arrogant.

When he walked to the door of the ward, Dr. Baroque finally slowly turned around and said to the other doctors, "If I'm here, you can leave this place!"

There are many diseases in this world that are difficult to detect. You can not see them just by relying on the medical equipment, your self-righteous experience, and your understanding of these medical theories,

when we face diseases, we must first consider all aspects. This is a comprehensive structure. You Don't see this opportunity yet, "So, you can't detect what kind of disease the patient has,

"Of course, the patient today is also quite special. I think you all know very well. So, it's better for you not to let them have any doubts about Locust International Hospital,

"It's fine as long as I'm here. You All can leave now. Later, after I've seen it, I'll make a teaching material for you, so that you all can learn more knowledge in it."

As soon as he finished speaking, there was even a round of warm applause.

If they could really see this teaching material, it would be a heaven-sent opportunity. It would allow their medical skills to rise to a higher level.

This was a gift from doctor baroque to them, so it was only right to give him a round of applause.

Yu Tian, who was standing in the corner, had a disdainful smile on his face.

This fellow was like a godly doctor who had descended into the world. He felt that there was no disease in this world that he could not treat.

If he was really that powerful, wouldn't he become the Savior of the world?

He still needed to be a doctor in this hospital. Then, he would be worshipped as a god all day long. In the end, he was just pretending.

The other doctors were especially obedient. They were told to leave, and all of them left obediently.

It was as if they were here. Even a casual breath could affect Baroque's diagnosis of the patient.

At this moment, Baroque did not want to say any more nonsense. He pushed the door open and walked into the room.

Yu Tian also saw Chu Bing in the ward at this moment. At this moment, Yu Tian was also very surprised.

No wonder Chu Hui said that Chu Bing was the weakest among the 108 sisters. Now that he looked at it this way, what she said was not wrong at all.

Chu Bing, who was lying on the hospital bed, was as thin as a skeleton. Most of her hair had fallen off, her eyes were sunken, and her face had turned black, purple, and purple.

Her eyes were still tightly closed. If it weren't for the fact that she was still breathing weakly, it would be easy for people to think that she was dead.

Yu Tian's heart ached when he saw this.

Although it was the first time he saw Chu Bing, his feelings for the 108 sisters had completely surpassed the boundaries of familial love. They were like his own life.

Yu Tian's heart naturally ached when he saw the fragile Chu Bing.

At this moment, the door closed gently.

Yu Tian shook his head helplessly. This doctor Baroque looked no different from other doctors..

?Chapter 774 – Chapter 773, The Dignity Of The Family

Time ticked by. At this moment, the door opened once again and Doctor Baroque walked out of the ward with a helpless expression.

Chu Bing's parents also followed him outside.

It seemed that these two people understood doctor baroque very well. Perhaps they came to locust for this Doctor Baroque.

But when Yu Tian saw this, he felt a little puzzled.

Did Chu Bing's parents not know that the integrity of the 108 sisters was very important to him and the entire family.

Seeing that their daughter was so sick, they actually didn't tell him, but came here to find some pretentious doctor. What were they thinking?

As for Chu Bing's father, the middle-aged man in his 50s, his face was filled with vicissitudes of life, and his eyes were filled with pain.

The middle-aged woman standing next to him still had tears in her eyes. Her eyes were red and swollen, and she looked like she had been crying for a long time.

Yu Tian knew that man's name was Chu Wensheng. In the information that Chu Hui had given him, she had also mentioned him.

This Chu Wensheng wasn't a high-ranking person in the family. The most important thing was that out of the 108 sisters of the Chu family, the one who felt the most disappointing was himself.

Because his daughter's health had always been like this, he couldn't get any important positions in the family.

In the past, the family had given him a few big projects, but because the Chu family was dominated by the 108 sisters, these parents could only enter the upper management and couldn't directly participate in the project.

Only Chu Wensheng's side, because his daughter's health was not good, could only participate in the project management himself. This caused him to receive a lot of discrimination and contempt from the upper management of the Chu family.

In fact, this was also very helpless. Because they also wanted to survive in the family and obtain resources within the family, so even if they suffered from such contempt and ridicule, he still had to persevere.

This time, the family paid special attention to their daughter's treatment in ROKSK. However, this was even more disdainful and derisive to the father and daughter.

Usually, they were treated as people who should not exist. However, now that her daughter was seriously ill, the family used their strength to get them to come to ROKSK and find the best doctor here to treat them.

This was simply a satire. In their eyes, it was more like the family's charity to them.

Moreover, Chu Bing had special dignity. After she couldn't participate in the management of the family and the project management, she didn't add any pressure to the family.

If she could hold on, she would never tell anyone in the family that she was seriously ill.

In the end, she couldn't stand up, and she couldn't even eat or drink. Only then did the family find out and send them to locust.

However, Chu Bing didn't know all of this. She was in a deep coma, so she could only helplessly accept all the arrangements.

Perhaps this was fate, the fate of a woman. She didn't have the ability to fight against it, nor did she have the ability to change it.

At this moment, doctor Baroque put his hand into his pocket helplessly and said indifferently, "I feel that even if an immortal came, he would not be able to save your daughter's illness. All the skills in her body are already declininga€| "

"If you could have come here earlier, things would not be like this. I can only tell you that even I am at the end of my rope. You should try your best to fulfill her wish! "

At this point, Doctor Baroque turned around and wanted to leave.

Chu Wensheng hurriedly stopped him and asked in a low voice, "Doctor Baroque, we came here so that you could treat my daughter. All you said was that there is no turning backa€|"

"But up until now, we still don't know what illness our daughter has. Even if you can't save her, you should let us know what illness took our daughter's life,

"This is a father's plea to you! "

A trace of doubt flashed across Doctor Baroque's eyes.

Basically, he could be sure that he was a pretentious person. He simply couldn't see what illness Chu Bing had.

But this guy still had a proud look on his face as he said, "Actually, it's no use for you to know this now. Your Daughter's body organs have completely collapsed,

as for the reason, I can only tell you that there are all kinds of reasons. For example, her body's ability to make blood, and her circulatory ability. When these abilities are problematic,

it will cause her organs to collapse. Up until now, because your daughter's body has completely collapsed, there's no way to know what disease caused this,

"We can only wait for your daughter to die before we can do a biopsy or find the cause of the illness. But right now, I can't tell you anything! "

As his voice fell, Chu Wensheng, this father who was struggling in pain, was completely enraged.

He grabbed Baroque's neck collar, he said angrily, "Aren't you the world's top doctor? Aren't you the world's best doctor? Why Can't you even see what illness your daughter has,

"Do you still have the face to say that you're the best doctor? !"

This scene stunned everyone around. Even the bodyguards were at a loss.

Many doctors surrounded Chu Wensheng and tried to comfort him.

"Mr. Chu, please calm down. What Mr. Baroque said is all true medical knowledge. We have gathered the world's top medical experts here, and we are unable to detect your daughter's illness!"

"Then this is the most authoritative answer. Even if you use force, you won't be able to save your daughter's Life! "

It would have been better if these people didn't say anything. Speaking of this, Chu Wensheng became even angrier. He even raised his fist and was about to hit this Doctor Baroque.

But in Yu Tian's opinion, this was the final sacrifice a father could make for his daughter.

However, this was completely useless. The doctor was right. The most important thing now was how to Save Chu Bing's life. Nothing else mattered.

Thinking of this, Yu Tian went forward personally,

he grabbed Chu Wensheng's arm and said in a low voice, "There's no use doing this. Even if you beat him to death, you won't be able to save Chu Bing's life. Now, bring me to see Chu Bing! "

Chu Wensheng retracted his fist and stared at Yu Tian in confusion. He asked coldly, "Who are you? Why should I take you to see My Daughter?"

This old man was quite stubborn.. Yu Tian could only stick close to his ear and said in a low voice, "I'm Yu Tian!"

?Chapter 775 – Chapter 774, Internal Energy Fusion

Chu Wensheng was shocked on the spot. He stared unblinkingly at Yu Tian. He didn't believe that the person who spoke could really be Yu Tian.

He was so lowly in his clan that he couldn't even get any good projects. Even if he managed to get a few projects, others would reject them and throw them to them.

Such a lowly existence, Yu Tian could actually come here personally to see them. How was this possible?

Chu Wensheng shook his head vigorously, still not believing that the person in front of him was Yu Tian.

Because he had seen Yu Tian before. When he was in the clan, although he wasn't very close, he could clearly see Yu Tian's facial features. But now, this person, although he was wearing sunglasses, he also didn't believe it, this person could definitely be Yu Tian.

Looking at Chu Wensheng's doubtful gaze, Yu Tian smiled naturally.

"You don't have to doubt anything. You just have to remember one thing. The integrity of the 108 sisters during the summer vacation is more important than anything else. I came here because I don't want Chu Bing to have any problemsa€]"

"This is the reason why I came here. This isn't a place to talk. If you have anything to say, we can talk in the Ward! "

It was just a sentence about the integrity of the 108 sisters. Chu Wensheng's body trembled slightly as if he had been electrocuted.

Other than the people of the Chu family, no one knew how important the integrity of the 108 sisters was.

Was the person in front of him really Yu Tian?

Chu Wensheng was flattered and invited Yu Tian into the ward. Dr. Baroque and the others frowned as they looked at Yu Tian's back.

"Who is this person? How could he enter the ward?"

"This person seems to be very powerful. Could it be that he can treat Chu

"How is this possible? Even Dr. Baroque has given up. That means that the patient has no chance of survival. They just want to stay here and earn more money. I don't think it's useful! "

Dr. Baroque especially agreed with what these people said.

He was the most authoritative doctor in the world, and he was also the top doctor in the world. It could be said that there was no disease that he could not treat.

The guy in the sunglasses seemed to be very confident.

If he could treat the patient, it would really surprise him.

However, such a thing could not happen because all the organs in the patient's body had already failed. Now, he only had one breath left and could die at any time.

Even if a god from heaven came, it was impossible to save such a patient.

What kind of method could he have? Could he save such a patient?

Moreover, it was impossible for such a drug to exist in this world, let alone such a technology. It could not allow a person whose organs had already been exhausted to come back to life.

If that was really the case, then he would definitely kneel at his feet and acknowledge him as his teacher.

However, all of this was just a joke. It was simply impossible for it to be true.

It was still the same saying. That patient would die without a doubt. No one could save her.

After entering the ward, Yu Tian slowly took off his sunglasses and other clothes, revealing his original appearance.

Chu Wensheng took a look at the person in front of him. It was indeed Yu Tian, scaring him so much that he immediately stood aside.

"So it really is my lord. Oh My God, I feel like I'm Dreaming. My lord, are you really here to save my daughter?"

Yu Tian looked at him with disdain and said indifferently, "Why else would I come here? Could it be that I'm here to buy Rice? Don't talk nonsense. Now I want to see Chu Bing!"

"You'd better not disturb me. I'll do my best to save her! "

Chu Wensheng and his wife stood silently at the side and looked at Yu Tian with great gratitude.

In their hearts, everything that had happened here was just like a dream. They had never thought of asking the clan to do anything for them. Even if they did, it wouldn't be of any use.

Although the 108 sisters were all extremely important, the clan's love for each of them was different.

Some of the Sisters could obtain a lot of resources, but some of the Sisters couldn't obtain anything and could barely survive in the clan.

Just like her daughter, she had too much dignity. For the sake of her pride, she would never beg the family to give her any special privileges.

This made her family the lowest existence in the family.

Chu Bing was seriously ill now. In fact, they all hated the family very much.

When Chu Bing started to feel ill, the family had to be like this if they could take it seriously.

It wasn't until they felt that the 108 sisters' integrity couldn't be destroyed that they provided resources for them to come here and enjoy the best medical conditions.

But what was the use? Just as Doctor Baroque said, all of Chu Bing's organs had been exhausted. Even if a God came, he wouldn't be able to save her.

Even if Yu Tian came here, could he really save Chu Bing?

So at this moment, Chu Wensheng was still very hesitant and confused.

Yu Tian didn't care what they thought. What he needed to do now was to save Chu Bing as much as possible.

But the premise was that he had to know why Chu Bing was like this?

From her body and meridians, Chu Bing's illness was very strange.

It was as if she had been poisoned. Her muscles and bones had become very weak.

Moreover, there was no sign of life in her body. Other than the slight movement of her heart, everything else was in a state of death.

Yu Tian took her pulse gently. He couldn't feel anything at all.

This meant that Chu Bing's meridians had been completely destroyed.

Of course, Yu Tian also had his own methods and methods. If he couldn't see through her meridians, he could also use his internal energy to inject it into Chu Bing's body and then fuse it with his own internal energy.

This way, he could feel how Chu Bing's body had become like this.

Thinking of this, Yu Tian immediately held Chu Bing's hand and gently injected his own internal energy into her body.

When the internal energy of both sides merged together, Yu Tian slowly closed his eyes and gently felt what kind of state his internal energy was in in Chu Bing's body.

This method was indeed effective. In less than a minute, Yu Tian already knew why Chu Bing had become like this?

He slowly put down Chu Bing's hand, then turned around and looked at Chu Wensheng coldly.

This gaze made Chu Wensheng feel particularly frightened.. He asked helplessly, "My lord, what illness does my daughter have? Can you see it now?"

?Chapter 776 – : Chapter 775, Radiation Element

Yu Tian did not answer his question directly. Instead, he walked slowly to the window and pulled open the curtains.

This made the light in the room brighter and even warmer.

At this moment, Yu Tian said in a particularly indifferent tone, "What illness did Chu Bing have? Let's not talk about this now. I want to ask you another question,

what did Chu Bing do before she got this strange disease? Or is she doing some work for the family?"

Although Chu Wensheng didn't know why Yu Tian asked this question, he still scratched his forehead. After carefully recalling it, he slowly said, "Speaking of this, I also remember now"

"Before my daughter fell ill, she received a mining project from the family. That mining project was located in the suburbs of Te City. Before that, the other sisters of the family were responsible for the development."

"Later on, the power of the family was adjusted, and that sister entered the upper echelon of the family. After that, no one did this project. At that time, the family didn't want to give up on this project, so they gave it to my daughter. "

After Chu Bing and Chu Bing received this project, they were extremely happy. After all, the family was now able to give her a project to do, and it wasn't to the extent that she had to spend all day doing useless work in the family,

moreover, my daughter also wanted to do this project well, to prove that she was still very useful in the family. This had a certain impact on my daughter's character,

she was a girl who cared a lot about her self-esteem. Since she was young, she had always been like this. Others might not value her, but they definitely could not despise her,

therefore, she happily accepted the mission and went to the location of the mine. However, from then on, her body began to take a sharp turn. She stayed in the mine for less than a month, she could no longer stand and walk,

when we received the news, my daughter was already in the hospital, but she was still very conscious at that time. Even so, she was still thinking about that job and wanted to return to the mine as soon as possible,

but her body became weaker and weaker, and she was extremely thin. In the end, she could no longer eat any food, and she couldn't even drink water, at that time, we sent her to the Capital Hospital, where she received the best treatment. However, it didn't have any effect. At that time, she was already in a

deep coma, no matter how we called out to her, she couldn't wake up. At that time, the family also knew that if something happened to my daughter, then the integrity of the 108 sisters would be affected,

"So they gave us this resource and let us come here. But after we arrived here, my daughter was like this. Speaking of this, my heart felt like it was being cut by a knife! "

Yu Tian quietly listened until here, nodded slightly, and then said indifferently, "Chu Bing's body originally didn't have any problems, but in my opinion, he was exposed to extremely serious radiation,

"This radiation must have come from that mining area. So, other than Chu Bing, are the other workers in that mining area like this?"

Chu Wensheng frowned. It turned out that his daughter's body was exposed to radiation. If Yu Tian was not here, who would know?

He hurriedly shook his head and said, "So far, only my daughter has been admitted to the hospital. The others are not affected at all. They are still workinga€| "

"My lord, if my daughter is exposed to radiation, can she be saved?"

Yu Tian nodded again and said in a relaxed manner, "Of course she can be saved. There is no problem with her physical skills, but the radiation elements have already seeped into her cellsa€| "

"As long as I remove all the radiation elements in her cells, she will be able to wake up immediately. But now, I need you to remember one thinga€| "

After Chu Bing wakes up, you have to return to the mining area again. I will go with you, but you must not let anyone know that I went to the mining area with you,

i now have a special suspicion that someone may have poisoned Chu Bing with this kind of radiation. I want to find this person and find out who he is? "Therefore, in certain aspects, you must keep it a secret for me. Is there any problem?"

Not to mention this, even if Yu Tian wanted his life, Chu Wensheng would agree without hesitation.

Now, as long as he could save his daughter, there would be no problem for him to do anything.

He hurriedly said, "I understand. I will definitely keep it a secret. Other than us, no one else will know that you will go to that mining area! "

In that case, Yu Tian did not want to waste any more time.

Therefore, he immediately took out ten golden needles and inserted them into the ten acupuncture points in Chu Bing's body.

These acupuncture points were all acupuncture points that could expel toxins from the body. Among all the acupuncture points in the human body, they were especially important.

As long as these acupuncture points were opened, the radiation elements in Chu Bing's body could be smoothly expelled from his body. However, there was a prerequisite.

He had to use his internal energy to disperse the radioactive elements so that they could leave Chu Bing's body.

At this time, Yu Tian began to release his internal energy slightly.

At this time, he absolutely couldn't be anxious. He had to take it slowly, because Chu Bing's body couldn't withstand the sudden influx of energy.

If he was too anxious, not only could he not save Chu Bing, but he might even make her body explode,

when Yu Tian's internal energy slowly flowed into Chu Bing's body, a particularly foul smell started to emanate from her body.

This smell was especially unpleasant. Even Chu Wensheng and Chu Bing's mother, who were standing at the side, covered their noses.

It wasn't that they were disgusted with their daughter, but this smell was really too unpleasant.

However, Yu Tian didn't care about this at all. He held Chu Bing's hand from the beginning to the end. Not only did he inject his inner energy, but he also injected his own warmth into Chu Bing's body.

This was because when Yu Tian looked at the current Chu Bing, his heart felt extremely uncomfortable and his heart ached.

Every one of the 108 sisters was his future wife. He absolutely couldn't treat them in the same way as his family.

Every sister was very important in his heart.

Especially when he saw Chu Bing now. If he didn't know this time, how could he know how the 108 Sisters of the Chu family were living?

Once again, he saw the shortcomings of the management of the Chu family. If one of the 108 sisters suffered such a great grievance, they were simply courting death.

After he saved Chu Bing, he had to let them remember this lesson. If the 108 sisters were in such a situation in the future, even the head of the family would beat them up..

?Chapter 777 – : Chapter 776, My Love

Time passed by, and soon, it was noon.

At this time, Yu Tian had already been busy by Chu Bing's side for an hour.

Moreover, Chu Bing's face had also turned pale, and it gradually became ruddy.

Even her weak breathing had become especially powerful.

Seeing his daughter's change, Chu Wensheng was so excited that his eyes were filled with tears. He really wanted to go over and hold his daughter's hand right now.

However, before Yu Tian gave him a clear order, it was best for him to stand here and wait quietly.

Of course, he also admired Yu Tian's medical skills.

Even the top doctors in the world couldn't cure the disease, but Yu Tian was able to cure it very quickly.

Could Yu Tian really be the legendary God?

There were some rumors in the family that he had never believed. He had always thought that it was just some people's worship.

When a person worshipped another person, her words might not be believed by others.

But when a group of people worshipped a person, it was very likely to be true.

It had long been rumored in the family that Yu Tian was the guardian of the 108 sisters. As long as Yu Tian was alive, the 108 sisters could live happily forever.

At that time, when he heard this, he thought that it was just the 108 sisters worshipping Yu Tian.

But now that he looked at it this way, this worship was completely based on evidence.

Not to mention the 108 sisters, even Chu Wensheng was currently worshipping

Yu Tian.

Chu Wensheng also secretly swore in his heart that as long as Yu Tian saved his daughter, no matter what he wanted him to do in the future, he would do it without reservation.

Even if he had to give up his life, he would do it without hesitation.

These words could only be thought in his heart because there were some words that didn't need to be said. That would appear especially hypocritical.

Moreover, Yu Tian was now an absolutely authoritative person in the family. Whether he could use her or not was just his own wishful thinking.

At this moment, Yu Tian finally put down Chu Bing's hand and lay down beside her ear. He said softly, "Dear Little Bingbing, you actually woke up. Quickly open your eyesa€| "

Don't linger in your dreams. Everything you saw was fake. You are still alive, and you will be very happy and live happily. Now Open Your Eyes, my dear Little Bingbing!"

Under Yu Tian's call, Chu Bing's eyelids moved slightly, and then she opened her eyes.

When she saw everything around her, she was extremely surprised and shocked.

Especially when she saw Yu Tian in front of her, Chu Bing's eyes were filled with shock.

Although she didn't know what happened, when she saw the surroundings of the ward and her parents who were standing there smiling and crying, Chu Bing slowly understood.

He slowly reached out his hand, and Chu Wensheng and Yu Tian immediately rushed over and held Chu Bing in their arms while crying.

"My precious daughter, you've finally woken up. Thank God, thank God. If it weren't for you, my precious daughter, you might never have been able to see us again!"

Chu Bing was extremely weak right now, and even speaking felt extremely strenuous.

However, she still looked at Yu Tian gratefully. Although she couldn't express her gratitude with words, her eyes were filled with gratitude.

Yu Tian smiled indifferently and leaned close to her ear. He said softly, "Don't worry. As long as I, Yu Tian, am here, no one can take your life awaya€|"

"You are still very weak. Don't be in a hurry to speak. You Can't become mute. Let your parents prepare some food for you now. After you recover your strength, you can speak normally! "

Chu Bing slowly nodded. His words reminded Chu Wensheng that his daughter had been injected with medicine during this period of time and had not eaten anything at all.

If he did not hurry to get him some nutritious food, what was he waiting for?

Moreover, he should also create more opportunities for Yu Tian and his daughter to be alone. As long as his daughter could stay by Yu Tian's side, the fate of their family would also change.

Thus, the two of them hurriedly left the ward and went outside to get some food.

In the ward, Yu Tian gently held Chu Bing's hand and comforted her softly, "You've already woken up, haven't you? There are many things that you don't need to worry about. Just leave them to me."

"Your task now is to take care of your body. From now on, you will always stay by my side. I will never let anyone mistreat you again."

I know the 108 sisters are going to marry me, many of you do not want this, in fact, I do not want this, I think everyone should have their own free choice, but our lives are like this, the integrity of the 108 sisters is particularly important, if I give up any one of them, we 108 sisters may disappear from this world, your family will also disappear from this world, so no matter what, I can not let any one of you leave my side, this time you are wronged, I am very clear in my heart, but you also do not blame the family, because 108 sisters are too many, think about it

108 women, everyone has their own work, everyone has their own life, if you let them to manage, even if they are tired to death, it is impossible to manage,

and I also heard from your parents, you have a special need for self-esteem, in fact, this is very good, I also like to have self-esteem, but sometimes self-esteem this thing, let oneself feel the pressure is particularly great,

so we have to put the pressure and self-esteem in our hearts, to bear, so that we won't let others laugh at us, also won't let others worry about us, I know that you want to use your own ability to prove yourself, but in the end, you won't get the chance that your family gave you. So, you have to take good care of your body now. When you can walk again,

I will definitely leave all the opportunities to you, so that you can truly prove yourself, and also let your family see your strength. What do you think?"

Chu Bing had long been moved to tears. Ever since she was young, no one had ever said these touching words to her.

And these words had come from Yu Tian's mouth. This already made her especially grateful.

Until now, she had finally understood why so many sisters were so devoted to him.

It turned out that Yu Tian could see a charm that surpassed everything else. This was why the 108 sisters were willing to follow him.

Then I have to follow him, this man gave his life, also gave himself encouragement, this is the lover I have been waiting for..

?Chapter 778 – Chapter 777, Giving Everything

After eating the food brought back by Chu Wensheng, coupled with the nourishment of Yu Tian's internal energy, Chu Bing was now able to sit up and speak.

His first sentence was not to thank his parents for their worries, but to say to Yu Tian, "My lord, this time, I am truly grateful to you. Furthermore, I have decided..,

"From today onwards, I will always be by your side. I am willing to do everything for you. As long as you do not despise me, I will always be by your side!"

Yu Tian nodded slightly and smiled indifferently. "Very well. However, you have your own life too. You can do whatever you want. No one will stop you."

"No one will not give you this opportunity. Now that you are my woman, you will always be my woman. Even the family can not give you any grievances."

"And this time, I feel that the family has done something that I am particularly dissatisfied with, so I must teach the family a lesson. The most important thing for you now is to take care of your body. As for the mining area where you are€|"

I will personally go and take a look later. If the mining area has always been filled with radioactive elements and my clan still wants to hand this job over to you, then I will be a little angry! "

When Chu Wen Sheng heard this, he hurriedly said, "My lord, although we don't have the right to choose the job that our clan has given us, I believe that this shouldn't have much to do with our clana€|"

"If our clan knew that there were radioactive elements in this mining area, they wouldn't have given this job to my daughter. Moreover, the other workers in the mining area are in exceptionally good healtha€| "

"With the radioactive elements in my daughter's body, we can't blame our clan at all. Therefore, my Lord, Please Calm Down. Don't make things difficult for our clan just because of my daughter! "

Yu Tian knew that he said this because he was afraid.

After all, before this, the family had never paid much attention to them. Now, even though his daughter had been saved, and he had made so many promises in front of him.

He was also thinking about a problem. One day, he would no longer dote on Chu Bing. The people they had provoked in the family now would most likely place all their hatred.., on their heads.

Thus, his worries were understandable.

Yu Tian laughed and said domineeringly, "You don't have to worry so much. Let alone the 108 sisters, the entire Chu family is in my hands. They have to do whatever I want them to do!"

In My Heart, there was nothing more important than the 108 sisters. If the family was negligent in their management, or if they looked at one of the 108 sisters through a biased lens..,

"Then in my eyes, they are absolutely not allowed to appear. You Don't have to worry about anything else. Just leave it to me!"

As soon as he finished speaking, Baroque knocked on the door and entered the ward before Chu Wensheng could speak.

When he saw Chu Bing sitting on the sickbed, eating, and still in high spirits, he was completely shocked on the spot.

In his opinion, it was impossible. It was impossible.

Even if it was a dream, it was impossible for it to appear here. How was it possible?

An hour ago, this woman's organs were failing and she was about to die.

But at this time, she was sitting on the hospital bed, eating and talking. Moreover, his complexion was very good. The coldness that appeared before had completely recovered.

Baroque shook his head vigorously as if he had seen a ghost. He said loudly, "What on Earth have you done? This is simply impossible. Are you all joking with me?"

"This is a world-class hospital, and I am also the world's most advanced doctor. However, if I can't cure this illness, how can you all cure it?"

"This woman's organs had already failed, and it was a serious failure. I couldn't even hear her heartbeat. Now, she is sitting in front of me eating.

What on Earth have you done to her?"

Yu Tian didn't want to pay any attention to this person at all. She was just a quack doctor, yet she still had the nerve to say that she was the world's most advanced doctor. It was simply a joke.

Chu Wensheng glared at him coldly and said with disdain, "Don't bother about what we've done. But now, my daughter's illness has been completely cured. But the person who cured her isn't a top-notch doctor like you!"

"You still have the nerve to say that you're a doctor here? "You still have the nerve to say that this is a world-class hospital? "This is simply too ridiculous,

"I can honestly tell you that the medical skills of our eastern country are the best in the world. Compared to our art, you guys are nothing,

"In a moment, I will bring my daughter away from here, and I will not come to this hospital again in the future. As far as I know, this hospital also has shares of our Chu family, but now..,

"I don't think we need to invest in this hospital anymore, so I will go back and recommend my family to terminate the cooperation with you, because you don't have any ability at all, you can only show off here!"

Baroque didn't want to hear this at all, nor did he care about this. He still said with a face full of shock, "I don't care about you terminating the cooperation,

i just want to ask you now, can you tell me how you cured this disease? And I want to know, what is the reason? To make this patient become like this.., if you are willing to tell me, I am willing to give everything I have in exchange! "

His words were very honest, but Yu Tian still disdained it.

He slowly put on his sunglasses and said coldly, "You don't need to ask about this anymore. Besides, no one will tell you because it's very mysterious. It's so mysterious that it's as if you worship a certain God,

but now, this god is going to abandon you. You're just an ordinary doctor. At any time, don't think that you're very powerful, and don't think that you're invincible,

because there will always be people who are more powerful than you. Just like this patient in front of you, you can't cure her at all, but you see with your own eyes that others have cured her, what does this mean? This can only mean that the level that you think you are at now is not worth mentioning. But seeing that you are so sincere, I still want to tell you something,

"There are a lot of radioactive elements in her body, which is why it has become like this. As for why it is like this, I don't need to tell you. You should figure it out yourself! "

After saying this, Yu Tian strode out of the ward. could he figure it out? He didn't care.

Now, he had to go to the mining area and take a look first. Then, he would know whether the radiation existed or not? Why would it be so..

?Chapter 779 – : Chapter 778: Never Lower Your Head

Very soon, Yu Tian arrived at the mining area.

The scale of the mining area was exceptionally large, and it was even open-air.

According to the information he obtained, this mining area was originally managed by Chu Wan, one of the 108 sisters.

After that, Chu Wan was transferred back to the family headquarters by the family's higher-ups to accept other projects.

The family didn't want to give up on this mining area because it was a gold mine that could produce a large amount of gold. Therefore, the family handed this task to Chu Bing.

Chu Bing hadn't worked here for a month, but his body had been seriously exposed to radiation.

Therefore, after Yu Tian came to the mining area, he didn't alarm the people in the mining area. Instead, he disguised himself as an ordinary worker and then found an opportunity to sneak into the mining area.

After looking around the mining area, Yu Tian was very puzzled.

Because this was an open-pit mine, and it was a gold mine, there was no radiation at all.

The geological structure here was also very simple. There was no complicated geographical environment, so there wouldn't be any radioactive minerals.

The more this was the case, the more puzzled Yu Tian was.

Since there weren't any radioactive minerals here, then how did the radiation in Chu Bing's body appear?

When he thought of this, Yu Tian didn't want to continue looking here.

Because he couldn't find anything useful here, it was better to go to the clan first and ask Chu Wan.

Although he had a very smart brain now, there were still some problems that he couldn't think clearly about. It was best to first thoroughly understand this place before he could analyze it.

Yu Tian had suddenly returned to the family, which immediately made everyone in the family nervous.

Especially the higher-ups of some families. When they found out that Chu Bing had almost died in the hospital, they became even more afraid.

Because they had been suppressing Chu Bing and giving all the good projects in the family to others, and those projects that others didn't need, only then would it be Chu Bing's turn.

They did this first for their own benefit. In fact, it was also because Chu Bing had never admitted defeat in front of them.

As the senior management of the family, if no one listened to them, then how could they manage others?

But because Chu Bing was one of the 108 sisters, they couldn't make their actions too obvious, so they could only suppress her in secret.

For example, Chu Bing would never be involved in some good projects. Because of this, Chu Bing had always been the most unknown person among the 108 sisters.

However, not only did Yu Tian Save Chu Bing, but now he suddenly appeared in the family, which made many of the higher-ups fear.

Yu Tian went directly to the office of the President of the family management headquarters.

When Chu Hui saw Yu Tian, she suddenly pushed the door open and entered. She hurriedly stood up and said with a smile, "Why are you here? You didn't inform US before. Are you here to check on our work?"

Yu Tian chuckled and hugged Chu Hui. He kissed her hard and then said indifferently, "What? I can't even come to the headquarters now? You guys are really domineering!"

"Tell me, how did you bully Chu Bing when I wasn't Here?"

Chu Hui also sighed, she said slowly, "I knew you came for this. And before you came, I had done some research. Some of the higher-ups of the family did indeed suppress them,

"But it's really unfair to blame them!"

Yu Tian was confused. The 108 sisters were all his women, and those stupid higher-ups were suppressing his women. He couldn't say anything, or else it would be unfair?

He asked curiously, "This is interesting. Tell me, if I want to do something to them, how is it unfair?"

Chu Hui poured a cup of coffee for Yu Tian and sat down beside him. Then, she said in a low voice, "This has a lot to do with Chu Bing's personality."

Chu Bing was a person with a strong self-esteem. She would never bow to anyone, not even fate. Because of this, many of the management in the family were useless to her,

because of her strong self-esteem, she believed that certain management rules were suppressing her dignity. Therefore, she never accepted these rules,

this made Chu Bing special in the family. However, because he was one of the 108 sisters, the senior management didn't have any good methods to deal with him?

If she was allowed to do some projects according to her dignity, then what value did the top management have?

Therefore, Chu Bing couldn't be put in an important position because of herself. If you were to vent your anger on the top management, it would make them feel unfair,

in fact, they didn't do anything wrong. As the senior management of the family, every decision was extremely prudent and important. Every project that we were running now was especially critical,

if it was because of someone's mistake, it didn't matter if they lost a project. But if they lost the management rules and the overall dignity of the family, then it would be impossible to accept it,

"Chu Bing is very clear about this, but she just can't do it. Rather than saying that she's doing it for her own dignity, it's more appropriate to say that she's self-centered and has never bowed to anyone,

"Am I saying that she's noble, or Am I saying that she's stupid?"

At this point, Yu Tian also understood the reason.

In fact, most of the problems were Chu Bing's own. Although he didn't know much about Chu Bing, Chu Hui definitely wasn't speaking from a subjective point of view.

But he couldn't listen to their one-sided words. Moreover, he had to teach those high-level managers a lesson.

So he said coldly, "Although what you said is reasonable and fair, from the perspective of the family, you should indeed do thisa€| "

I can't find any fault with you on this point, but have you ever thought about how important the integrity of the 108 sisters is?

Let's not talk about the integrity of the 108 sisters first, can we guarantee the existence of the family? Let me talk about your current senior management. Since you treat yourselves as senior management, then you should have the basic management skills,

when the 108 sisters have problems, as senior management, you should solve these problems, not suppress a sister,

"You are now the supreme CEO of the family, and this problem is your biggest problem. You didn't let Chu Bing know how important he is, and you didn't comfort her, letting her understand the importance of the family rules,

"Now you just tell me that it's her own reason, do you think I can accept it?"

?Chapter 780 – : Chapter 779, Senior Management

Chu Hui was rendered speechless because what Yu Tian said made sense.

After all, the 108 sisters deserved to be treated fairly and not abandoned.

However, Yu Tian also said, "I know that you are very busy every day and there are many aspects that you can't take into account. I Don't blame you for this, but this time, some of the senior management of the Chu family must teach them a lesson."

"Now, immediately inform them that I'm going to hold a meeting of the higher-ups of the family. I want every higher-up of the family to attend it, right in the meeting room of the company's headquarters."

"You'd better hurry up, because I'm in a hurry. I'll be going to another country soon!"

"What? You just came back, and you're leaving already?" Chu Hui felt especially surprised and especially reluctant.

It was really rare to see Yu Tian, and now Yu Tian was even busier than she was, so the time to see him was getting less and less.

However, Yu Tian also had his own dreams and pursuits, which required time and effort.

And she was his woman, so at this time, she couldn't drag him down. She had to give him all her support.

The high-level meeting was soon held in the conference room. Yu Tian sat in the CEO's seat and looked at every high-level person sitting there expressionlessly.

Most of these higher-ups were surnamed Chu, and they were all elites of the family.

When they knew that Yu Tian was going to hold a meeting for them, and it was also because of Chu Bing, everyone felt a heavy pressure.

Others might not know, but they knew very well the importance of the 108 sisters.

At this moment, Yu Tian spoke indifferently.

"I have gathered everyone here today because I have a few words to say to everyone. I know that you have made a great contribution to the family, and you have also done a good job in the management of the family,

"I don't want to participate in your work, and I don't know how to manage you? "But there is one thing I have to say to you today,

"The 108 sisters are my women. Every sister should be treated fairly. This time, Chu Bing almost died because of your negligence,

"If one of the 108 sisters dies, do you know what it means?"

Everyone looked at each other. Of course, they knew what it meant.

If one of the 108 sisters died, then the entire family would disappear.

Yu Tian saw that everyone was silent, so he said coldly, "I think you all know very well. That's why I'm sitting here today. I want to let a few of you know the result, you Can't afford it! "

Everyone's gaze fell on a few middle-aged men. They were the upper management of the family who specialized in managing projects, and their power was second only to Chu Hui.

Because Chu Hui was the highest CEO, she also had her own work to do in management, so some of the large-scale projects of the Chu family would be handed over to these upper management to run.

These high-level managers would be assigned to the other sisters after the project development department received the projects.

Yu Tian wanted these high-level managers to face his anger.

As soon as he finished speaking, these middle-aged men all stood up with their heads lowered. They didn't know how to face Yu Tian at all.

Yu Tian's cold gaze landed on them.

Although he knew that it wasn't fair to use them as an example.

After all, they respected the family's orders and considered the big picture. That was why they had decided to distribute the items.

The items that they hadn't allocated had to create greater benefits for the family.

I was creating benefits for the 108 sisters, so many of the sisters' parents would also privately protect them.

In fact, Yu Tian already knew that even though the 108 sisters of the family were a complete unit, in the face of benefits, there were still many of the sisters' parents who hid their selfishness.

Yu Tian snorted slightly and then asked, "Don't you have anything to say to me? Actually, what do you want to say? I Won't listen to you!"

This time, Chu Bing almost lost his life because of you guys. Those idiots almost killed my woman. In comparison, I also want your life! "

As soon as he said that, a few higher-ups immediately knelt down on the ground.

One of the higher-ups tugged at his tie and begged with cold sweat all over his face, "Master, we know we're wrong. You're right, we're a bunch of idiots!"

At that time, when we were assigning the projects, we weren't considerate enough. That was why master's woman had to suffer unnecessary grievances, this was all our fault,

but we were the higher-ups. When we accepted this job, we had already sworn in front of the family that no matter what, the projects we assigned..,

we had to create greater benefits for the family, and we had to maximize this benefit. In fact, we all knew very well that Chu Bing was really not suitable for some projects,

and before this, we had also given her some particularly good projects, but in the end, all of these projects failed to invest,

the most important point was that the family was dominated by the 108 sisters. Each project should have the 108 sisters personally run, but the projects we gave to Chu Bing were run by his parents,

"This made the parents of the other sisters feel extremely unfair. We are also facing a lot of pressure. My lord, I know that you are extremely angry. You are also thinking of the 108 sisters,

"However, from a fair point of view, I don't think we are wrong in doing this.

Of course, if your anger is because of this, we are willing to bear your anger! "

These words were still acceptable. Even Yu Tian felt that if he did this, it would make all the higher-ups present feel that it was unfair.

There was no fairness in this world to begin with. He was experiencing all kinds of unfairness every day, but the difference was that he would never be overwhelmed by these unfairness.

As for these higher-ups, Yu Tian still had to teach them a lesson. Otherwise, this meeting would become worthless. If there were any unfairness to the other sisters in the future, they would also take it for granted.

This head must not fall on them.

Thinking of this, Yu Tian still said coldly, "You're saying that you didn't do anything wrong. I'm here to lean towards Chu Bing, right?"

The higher-ups hurriedly lowered their heads. They couldn't afford to say this.

Who Dared to say that Yu Tian did something wrong? Who Dared to say that Yu Tian was leaning towards who?

The entire family belonged to Yu Tian. He could do whatever he wanted to do, and these high-level officials could only bow their heads in front of Yu Tian..

I Have 108 Older Sisters #Chapter 781 - Read I Have 108 Older Sisters Chapter 781

?Chapter 781 – : Chapter 780, Special Assassin

Yu Tian lowered his head to look at the time. He really didn't want to waste time with them.

No matter who was right or wrong, or whether it was fair or not, the purpose of the meeting was to let them know that there were some lessons that they had to bear.

Thinking of this, Yu Tian slowly stood up and said coldly, "All the higher-ups present, I want you to remember my words of the day. The 108 sisters are the most important to me,

they are even more important than the interests of the family. If you dare to do these unfair actions to my woman again, the next time you will definitely not be sitting here for a meeting,

"I will directly write your names on the heavenly tyrant order. As for the higher-ups today, immediately leave the company and let them work at the lowest level of the family. Do you have any objections?"

It was just that there were objections. Who Dared to say it here? The moment they thought of the heavenly tyrant order, they thought of Chu Hong's family at that time. Several thousand people had been taken away by the heavenly tyrant order.

They had not lived long enough, so whatever Yu Tian said, they would definitely not have any objections.

As for those higher-ups, it was already good enough that they did not take their lives. At the very least, they were allowed to work at the lowest level of the family, allowing them to have a living. They should be even more grateful to Yu Tian.

Seeing that everyone was silent, one day, he was very satisfied. He nodded and said arrogantly, "So, all of you, remember this sentence. In the future, if anyone dares to disrespect the 108 sisters again, they will be going against me,

"I also want to remind all of you that the 108 sisters have 108 different personalities. In front of all of you, these personalities are a type of personality. They are domineering. If you can endure it, you have to endure it,

"You have to endure it even if you can't. Because they are all my women. Do you remember what I Said?"

All the higher-ups stood up at the same time and said in unison, "Yes, my Lord. We have all remembered it! "

Yu Tian turned to look at Chu Hui and said in a low voice, "I'll leave the rest of the meeting to you. I have to go somewhere else now. As for Chu Bing's side, you can arrange a few good projects for her,

as for the other aspects, you just have to look after them!"

Chu Hui got up and personally sent Yu Tian out of the meeting room. She watched Yu Tian walk into her office reluctantly. Although she had a thousand words in her heart, she could only turn them into thoughts and continue to wait for Yu Tian here, the next time she came back.

Yu Tian activated the teleportation and went directly to Lakar, the headquarters of the Magic Snake Assassin Group.

It was also the venue of this world assassin selection competition.

Raqqa was a particularly prosperous and stylish city.

Yu Tian walked on the streets while enjoying the scenery of the city.

There were many buildings left over from the last century here, so this city not only had an antique feel, but also had all kinds of magical buildings.

Raqqa itself was a special city. Because of the demon snake organization, the city's management department was not very useful.

Just as Yu Tian was browsing the city's scenery, his phone rang.

It was Chu Wensheng. After the call was connected, Chu Wensheng said gratefully, "My lord, I know that you have already convened a meeting of the family's higher-ups, and they have also made some adjustments to the project,

and they've given several of the good projects to my daughter. I don't even know how to thank you! "

Yu Tian didn't want to hear these useless words. There were countless people in this world who wanted to thank him.

So it wasn't his place to say these words.

Hearing this, Yu Tian only said indifferently, "There's nothing to be grateful for. Chu Bing is also my 108 sisters. He's also my woman, so he should be treated fairly. "

"But now I'm in Lakalle, and I have to do some other work. But I also want to give you a task. You still have to continue to operate that mining area, but I want you to pay attention to it. "

"At that time, before Chu Bing was infected with radiation, who actually entered that mining area?" "If you find information about this, immediately send it to me. But everything must be done in secret, absolutely not letting anyone know. "

"I suspect that someone threw the radioactive elements on Chu Bing. We must find out who this person is! "

Chu Wensheng hurriedly nodded and said in a low voice, "I think so too. Before this, I didn't have the right to do so, but now the family has given me a high-level position,

"I also have the right to do so. I will definitely find that damn guy. After I find the information, I will definitely send it to you first! "

Since that was the case, there was no more nonsense.

Yu Tian also saw Tiffany, who was standing at the entrance of a restaurant and waving at her.

After the two of them entered the restaurant, they found a particularly quiet spot and sat down.

However, Yu Tian always wore sunglasses. This was the only way to not be disturbed by those admirers.

This time, everything had to be done in secret. If the magic snake assassin group knew that she was here, then it would not be so easy to get what she wanted.

Tiffany was very clear about Yu Tian's thoughts, so she didn't ask Yu Tian to take off his glasses. Instead, she said sweetly, "When you look at me through the sunglasses, do you have a very hazy feeling?

Does this feeling make you feel particularly sexy?"

Yu Tian smiled indifferently and said disdainfully, "This feeling makes me feel like someone has smeared Daddi on your face. Can We Talk About Something Serious?

"Don't act like a hoodlum the moment you see me! "

Tiffany pursed her lips and smiled. Yu Tian was always so straightforward when he spoke.

Therefore, she first drank a mouthful of red wine and said slowly, "I don't need to introduce this city to you too much. As you can see, this is a very good city,

however, what you can't see is that everything in the city is controlled by the Magic Snake Assassin Group. The CEO of the Magic Snake Assassin Group is also the rumored most ruthless assassin in the world,

his name was Leinster, and he was an extremely powerful person. The entire magic snake assassin group was controlled by him. This assassin group now had 5,000 assassins,

every assassin was extremely powerful, and they were scattered all over the world. Every day, they would exchange data with the headquarters through the website and receive new missions,

unlike other assassin organizations, they never accepted simple and ordinary assassination missions. Every mission they accepted was extremely special,

if they didn't assassinate the President of the Management Department, they would assassinate the senior management of some management department. Because of this, wherever the magic snake assassin appeared, there would definitely be all kinds of conflicts,

"But that's not the most interesting part.. What I want to say is that the snake killer organization wants to control something, but right now, I can't gather any information on this!"

?Chapter 782 – Chapter 781, Chip Technology

Chapter 782: Chapter 781, Chip Technology

As Tiffany said this, she looked out of the window at a building that was fifty stories tall.

"That building is the headquarters of the demon Snake Assassin Group. His public identity is an import and export trading company, but inside, from the old man guarding the door to the old woman cleaning the latrine..,

"All of them are top-notch experts in the world, and each of them kills without batting an eyelid. The funny thing is that they actually have some import and export business, but behind these businesses are their assassin missionsa€|"

"The assassin selection competition that they are going to hold here has already started, and the real competition will officially begin in five days."

The information I had gathered was also very limited. But now, I knew that there were already over 1,000 assassins from all over the world. Only the assassin who survived in the end was qualified to join the demon snake assassin organization,

every year, a large number of assassins would be killed by other assassins during this selection competition. This was a very cruel competition in itself, but there were countless assassins who came to register for the competition, their goal was to join the demon snake assassin organization. Now, the demon snake had become the religion of these assassins. It was as if only by joining this organization could they prove that they were capable assassins,

of course, by becoming the demon snake assassin, they would also become the top assassins in the world. The missions they accepted would also be different, and the benefits they earned would increase exponentially,

"This is why they must join the snake assassin organization!"

Tiffany looked at Yu Tian gently, but she couldn't see any unnecessary expression on Yu Tian's face.

This information was as calm as water to Yu Tian. There was nothing that made him excited.

"What are you thinking? Are you thinking of destroying the entire magic snake assassin organization?"

Tiffany's words hit Yu Tian's heart.

He indeed had this thought.

The existence of the magic snake assassin organization was a huge obstacle to him becoming the strongest person in the world.

If he could completely destroy them and also increase his strength, why not.

Therefore, Yu Tian still nodded slightly and said indifferently, "You're right. I really want to destroy them. I hope that this game will make me feel happier" "

"If I just kill all of them calmly, then it will be meaningless. Moreover, there are many experts in the magic snake assassin organization. This is a treasure trove to me" "

"I have to dig out all the treasures in this treasure Trove. Only then will I feel great joy! "

Tiffany wasn't surprised at all. If Yu Tian didn't have this idea, he wouldn't be sitting here.

It seemed that this century-old city would have a bloody storm after all.

And the man who would stand at the top of the world in the end would definitely be Yu Tian.

It was a pity that the so-called killers did not know that a real killer was sitting in the coffee shop opposite their headquarters.

If they knew, they would definitely be extremely shocked.

At this moment, Yu Tian took a sip of his coffee and said, "I want to sign up for this competition too, but I can't use my current face. Everyone in the world has seen me beforea€|"

"If they knew that Pm here to sign up for the competition, their competition would probably be canceled at any time. It's as if Pm their biggest enemy in the world. When their assassins attacked mea€|"

"But they know me very well. So today, I have to think of a way to turn myself into another person. Fortunately, there's still time. You can sign up for me. I'll go to Sean Firsta€| See if they have any good technical methods?"

Tiffany asked in puzzlement, "Don't tell me you want to change yourself into another person? Then what kind of personality do you have? Who in the world will recognize you? Is it really interesting to do that?"

Yu Tian laughed, shook his head and said helplessly, "Who said I want to change into another person? I just want to change my face into another face, and I can change it back anytime and anyvvhere,

"I don't want to turn into a stupid face. I am who I am. No matter how I change, I am still Yu Tian. I will never become another person! "

An hour later, Yu Tian arrived at the Sean Research and Development Center.

After meeting Chu Meng, Chu Xuan, and the others, he told them his idea.

Chu Meng listened quietly, nodded, and said, "This technology is not impossible. Many years ago, I had the same idea, and at that time, I also developed a chip! "

Speaking of the chip, Yu Tian felt a headache. The previous chip had tortured him to the point that he wished he was dead. It was not easy for him to take it away from his body, and now he actually wanted to make a chip.

So he hurriedly shook his head and said, "Don't think about inserting any more chips into my head. I will definitely not let anything else go into my

Chu Meng chuckled and comforted him, "The chip that I'm talking about is different from the chip that you're thinking about. It's not meant to be inserted into my head, but into some special equipment!"

For example, a necklace. This chip could be designed into a holographic image.

Then, according to the angle and size of a person's head, it would automatically project the holographic image onto a person's face,

this way, a person's face could be completely changed. At that time, I had this idea because I didn't want those people to know that I was from the Chu family. I also didn't want people to pay attention to me wherever I went,

that was why I had this idea. Moreover, I had already set up the software. All I needed now was a device that could project images, with our current technology, it wouldn't take long to develop and manufacture this kind of device. It would be done very quickly! "

If that was the case, why bother?

Yu Tian immediately ordered, "Then let's not talk about this useless stuff. Let's start manufacturing this kind of instrument immediately. I'm in a hurry to use it!"

Chu Meng and the others were already very familiar with the research and development instrument.

The research and Development Center they were currently at was the most advanced and Best Research and Development Center in the world.

Not only could it be used for research and development, but it could also be used to manufacture all kinds of advanced equipment.

Many assassins wanted to become members of the Magic Snake Assassin Group. At the same time, many scientists also wanted to join this research and Development Center.

Therefore, when Yu Tian was eating, he noticed that there were many unfamiliar faces in the research and Development Center.

Moreover, there were many more people than before, making it seem especially lively..

?Chapter 783 – Chapter 782, High And Mighty

Because there were many unfamiliar faces in the R & D Center, the restaurant was especially lively.

It was the time to eat, so Yu Tian could only take some food and sit in an inconspicuous corner.

He was wearing sunglasses, and there were traces of him deliberately sitting there, so no one could recognize him as Yu Tian.

Yu Tian also wanted to hear what everyone was talking about?

Because only in a restaurant could people speak freely.

At a table closest to Yu Tian, there were a few middle-aged men in white coats.

Their voices were particularly loud, and almost everyone around them could hear what they were talking about.

At this time, a middle-aged man with glasses and a little bald hair said while eating a sandwich in his hand, "My research and development technology hasn't been approved by the higher-ups yet,

"They probably feel that my funding budget is a little high, so they haven't approved it yet!"

A bearded man sitting across from him looked at him disdainfully and said helplessly, "Don't you know that this research and Development Center is currently the best research and Development Center in the world?"

"It's a gathering of the world's top scientists. Compared to scientists like them, our little inventions and technologies are nothing to the research and

Development Center."

"Even when we eat, they are in the high-end restaurant upstairs. We can only stay here, so it's normal that your funding is not approved,

"Just treat it as a dream. If it can be realized, it's the best. If it can't be realized, then treat it as a dream!"

As soon as he finished speaking, the few middle-aged men around him all laughed. Only the bald man did not have any smile on his face. Instead, he said angrily, "What is the concept of a top scientist?"

"Aren't the scientists here the world's top scientists? "I haven't seen those top scientists develop anything useful,

"They only follow behind the senior management every day and pretend to know a lot. I'm especially displeased with the senior management,

if they needed any consultants or didn't understand the parameters of science and technology, they could have just bought some encyclopedias or even looked up some information on the website,

they didn't need to spend a lot of money to hire these furnishings. I really don't know what our Senior CEO, Yu Tian, thought!"

A skinny man sitting next to him chuckled and said, "Our senior CEO, Yu Tian, doesn't need this money at all. He has more than three-fifths of the world's wealth now,

"Just throwing it here casually is enough for the entire research and development center to spend a few lifetimes. Don't be unconvinced by this. Our

Supreme CEO can't even hear our voice,

"He's like a God above us. If we can see him, we'll already be very lucky. So, what more do you want?"

The more he said this, the angrier the bald man became.

He slammed the sandwich in his hand onto the table and said angrily, "A god above us, then he should be able to hear each and every one of our voices,

we're here to provide him with the best and most advanced science and technology. Every single one of our inventions can benefit mankind. Let's not talk about anything else, just take the infrared detection technology that Klein developed.., if that technology was used in military industry, it would definitely shock the entire world. That was because the infrared detection technology could detect all kinds of infrared signals..,

even if it was encrypted communications, it could be cracked. At the same time, it could also detect more weapon signals. For example, missile signals. If the missile signals were detected through this technology, it would be more effective in intercepting them,

however, the higher-ups turned a blind eye to such a good technology. Not only did they reject Klein's funding request, they even chased him out of the research and Development Center, saying that he was a lunatic, could it be that the so-called high and mighty God had never known all of this? There are also people like us. We receive so-called salaries here every day. It seems like a lot,

"But we are scientists. We are here to develop high-end technology and change the entire human process. We are not here to sit in an office, look at the scenery outside every day, and get paid,

"Is that what you all think?"

This guy's voice was really loud. Yu Tian felt his ears buzzing. The people around him who were eating also looked over. Not only did they not look shocked, but they also looked a little helpless.

Through their expressions, Yu Tian also noticed that they seemed to have a lot of opinions about the R & D Center.

As for the infrared detection technology that the bald man mentioned, it seemed to be very interesting. However, why would some of the higher-ups of the R & D Center think that the person who developed this technology was a lunatic?

When he thought of this, the bearded man sitting opposite the bald man shook his head helplessly and said in a low voice, "Your voice is indeed loud enough, but that God still can't hear you!"

"So it's useless for you to say these things. Besides, he doesn't care about these things at all. Do you know how many scientists there are in the world?" "And every scientist hopes to enter this research and Development Center!"

"Every day, countless scientists come here to apply for jobs. They all hope to have their own place here. Not only is it an invention, but it's also because this place can provide them with many, many resources!"

"Now that you can cook and eat here, who knows how many scientists would envy you. However, you would still feel dissatisfied. This is our honor.

Compared to honor, your invention.., "Who would care?"

The thin man echoed, "Kranier is right. Kearns, you should just accept your fate. I feel that your current invention is really not of much use,

"As you know, this is the world's top R & D Center. It's filled with the world's top scientists, so their eyes will definitely not be on these small inventions. "

"What they need is an invention that can shock the world, and these small inventions of yours and mine are just for show. "

"You'd better not forget that the R & D Center has to be created for profit. When your R & D doesn't provide them with sufficient profits, they won't be able to provide you with funds." Don't you understand that?

Instead of talking about it here, think about how to develop a technology that will shock the world. Or you won't get the money they'll give you.. "

?Chapter 784 – Chapter 783, Useless Techniques

Kearns was obviously a very stubborn person, and the more he spoke, the more agitated he became.

Yu Tian watched from the side with a helpless look on his face.

In his impression, a scientist should be very calm and mature. How could he be like him? He spoke as if he wanted to fight.

But at this moment, a few men in suits passed by the restaurant and headed to the high-end restaurant on the second floor for lunch.

The scientists sitting in the restaurant were either envious or angry. All kinds of gazes were cast on these men.

Behind them was a middle-aged man with a full beard. As he walked, he looked at the phone in his hand with a particularly arrogant expression, as if he did not care about the people around him at all.

Yu Tian did not know who these people were, but judging from their posturing, they should be the senior management that Kearns had mentioned.

At the same time, Yu Tian also felt that it was very strange. Could it be that there were no trustworthy senior management in all the group companies in the world?

What were these senior management doing every day? They seemed to be very busy, but he did not realize that these senior management had any outstanding contributions to the R & D Center.

From the time I created this R & D Center until now, it was me who invested in this place and then made some management adjustments.

Especially in the early stage of the creation of the R & D Center, there were only a few scientists, Chu Meng, Chu Xuan, and Chu Hui who were in charge.

Of course, these people were the top existences in the R & D Center. Just as Kearns said, they were high and mighty gods. It was impossible for them to pay attention to these people.

Even for lunch, they would not come to this restaurant. They would be sent to their office after being prepared by a professional chef.

So, it was impossible for them to hear the complaints of these people?

At this time, the few men in suits just passed by Kearns.

Kearns, who was already very angry, finally exploded.

He suddenly stood up and shouted at the man who was looking at the phone, "Mr. Clark, I am a first-class scientist who just arrived at the research and Development Center. My name is Keynes. I have many things that I don't understand. I want to ask you now! "

Clark slowly raised his head and looked at him with puzzlement. He then looked at the other scientists around him and felt that the atmosphere was a little strange. However, he still said coldly, "It's lunchtime nowa€|"

"If there's anything you don't understand, you can look for my secretary and make an appointment to give you an answer. Now that I'm going to the restaurant to eat, you'd better sit down and eat your meal!"

Yu Tian frowned slightly and even felt that it was a little ridiculous.

There was actually such a pretentious person in this research and Development Center. This scene was quite interesting.

Kahn completely ignored Karak's sarcasm. The expression on his face became even angrier. He took a step forward and said, "No, I have to tell you here, even if I have to leave the R & D Center after I say ita€|"

"I have to say these words now because what I have to say is what every scientist wants to say. They don't have the guts to care about these thingsa€| "

"I want to ask you now, why can't the research and development of US level one scientists get the attention of the higher-ups, and you have never given us any funds,

"Do we level one scientists have to stay here forever and wait for Death?"

Hearing him say this, Karak, who had no expression on his face, sneered and said, "You also know that you are a level one scientist. What we need is not your invention,

we need you to be able to study here and become a level five scientist. Only then will we take your inventions seriously,

there's a big difference between level one scientists like you and level five scientists. It could even be said to be the difference between heaven and earth. Your inventions are as funny as a joke in the eyes of level five scientists,

i remember you. Your Name is Kearns. You're a scientist who's been updated for less than two months. When you came here, you told your recruiter that you came with your invention,

the recruiter also saw your invention and thought it was quite interesting. Oh, I remember too. Your invention was a dust removal device. It could effectively filter out

toxic substances in the air, at that time, your invention was quite good. It also made some of the senior management of the research and Development Center look at you in a new light. However, after the evaluation of your invention by a level 5 scientist, they thought that it was just a very simple air filter. Moreover, it was quite complicated in terms of technology. If you invested in production, the cost price would be much higher than the selling price,

after this price was pushed to the market, no one would recognize it. Then, although you became a level one scientist in the R & D Center, you also came up with some pretty good inventions,

but every one of your inventions, was far from what we asked for. For example, your latest invention, you developed a water resources recycling device,

we also evaluated your invention. When you submitted this device, you said it could purify 100% of the toxic substances in water, but after our level 5 scientists a€?evaluation,

we found that this device, could indeed purify 100% of the toxic substances, but not only did it purify the toxic substances, but it also filtered out the minerals in the water and other nutrients that were beneficial to the human body,

"Therefore, after passing through your purifier, all the living water has become stagnant water. Do you think we will support such a device?"

As soon as his voice fell, many people around him thought of mocking voices.

"So, he invented this thing. No wonder the people above didn't approve of his funding. It seems that he still needs to learn more about his technology! "

"Sometimes, people need to see their own shortcomings. This Kearns only sees his own merits and doesn't accept others a€?criticism of him. How can such a person be a scientist?"

"If it wasn't for what Carrack said, we would have thought that he was wronged. But now, I think he's especially laughable! "

However, Kearns wasn't angry at the people around him mocking him, but at Carrack's disdain for his research and development.

He clenched his fists tightly in anger, he said in a rage that couldn't be vented, "What right do you have to say that my invention doesn't meet your standards? Moreover, what you said wasn't my invention at all. You're just spouting nonsense herea€| "

"You should apologize to me right now.. Otherwise, I won't be polite to you! "

?Chapter 785 – Chapter 784, The Beautiful Scholar

Faced with Kearns' provocation, Karak was especially calm. He even said with some ridicule, "I don't know what you want to do to me, but I want to remind you that a€|"

You Don't have the final say here. If you make any drastic moves, I will immediately ask the security here to escort you out. At that time, you may not even be a first-class scientist anymore,

therefore, before you calm down, I have to remind you that it's best to calm down. As for your apology, that's impossible. Our Supreme CEO, Mr. Yu Tian, is one of the rules that we have promulgated,

as the manager of the center, I must always remember the order that Mr. Yu Tian has given us. That is to absolutely make everything run fairly. If you feel that it's unfair, you can leave at any time,

this research center is lacking in everything except scientists like you. Not to mention you have some aspects, every scientist here has an invention. Don't think so highly of yourself. In fact, in our eyes, you are just a fool who can shout,

i don't know why you want to be a scientist, but in my opinion, this pursuit of yours doesn't seem to match your strength at all! "

Hearing this, Yu Tian felt that what carrack said made sense. There were so many scientists here, and it was impossible for all the higher-ups to only work for one person.

Moreover, the higher-ups of this research and Development Center also knew that this research and development center paid attention to scientific research and development.

Therefore, every research and development project would be evaluated in detail.

As for what Kearns said, these higher-ups were unfair to them. Although it couldn't be said that it wasn't completely unfair, at least it couldn't be so obvious.

But Carrack's words also thoroughly infuriated Kearns.

He rushed forward recklessly, grabbed carrack's collar, and said with extreme anger, "Now I'll let you see the power of an incompetent scientist like me. I'll use my fists to let you know.., not every scientist can not fight! "

Kearns was a few of his companions, so he couldn't just sit around and watch the show at this time.

Even if Strauss-kahn wasn't a very outstanding scientist, at least they had joined the R & D Center together, so they had some feelings for each other.

If they just watched Strauss-kahn lose this opportunity because of impulse, they wouldn't be able to do it.

So a few people stepped forward and tightly grabbed Strauss-kahn's arm, forcefully pulling him to the side.

Meanwhile, Karak only snorted coldly and continued to argue with him unconsciously.

However, just as he was about to leave, a woman's voice sounded behind him.

Yu Tian followed the voice and saw a blonde beauty who was particularly tall and well-built. She also said angrily, "Mr. Karak, I think Kearns is right!"

There was indeed a problem with the management of the R & D Center. Every scientist who came here wanted to have their own honor, so we tried our best to contribute our best inventions to the R & D Center,

now, let's not talk about whether our R & D could meet your standards? However, we are here every day, just like lovers. According to our inventions, we can get your approval or rejection,

but the R & D Center, has never given us any hint, we are also the R & D Center's official scientists, of course, we can not compare with the top few scientists,

but regarding the development of this world, as well as the understanding of physics, chemistry, science and technology, and so on, I think we are not inferior to those senior scientists, why do we have to go from a level one scientist, to A level five scientist, bit by bit,

but what is right in front of our eyes is that we actually don't have any chance. We don't even have the possibility of meeting your higher-ups. I just want to know one thing, Mr. Karak, what are you doing here?"

This question was especially good, and Yu Tian's impression of this female scientist suddenly became deep.

It was not just because this female scientist was good-looking, but also because her way of speaking was also quite good.

At least she was not like that Kearns, who did not look like a scientist at all, but more like an expert in fighting.

Karak slowly turned around, slightly frowned, and said indifferently, "I know who you are. Your Name is Veronica, and you are also a level one scientist, I even remember your invention. You once provided us with a high-level management, a data invention of

the communication framework. Let Me not tell you first, does your invention have any value?

What you need to know is that your communication framework is very easy to be used by hackers. Your code writing can be said to be full of loopholes, and the core code can be easily broken,

what is the use of such an invention for us? If we treat the invention of this communication framework, as an important operational project, then the communication of the world will be used by hackers,

and we also know very well, or so it goes, that your invention is even worse than Kearns's invention, and our senior management is very busy every day, it is impossible to hand over the evaluation of every invention, to you personally, this point was very clear when you applied for the R & D Center, if the invention is not approved by the senior management, it is impossible to inform you again, when the evaluation time is more than 72 hours, and you have received our evaluation? Then it means that your invention has not been approved,

this is also the rule of our R & D Center, which has been clearly written in the contract signed with you, and I find it especially ridiculous that the rule is regarded as a problem, in that case, I also want to let you know, that you first-class scientists, had better not waste our time,

what do you have for any invention? It is best to conduct a self-assessment, or mutual assessment, when you are sure that your inventions, can indeed pass our assessment, and then submit them to us,

not like now, in front of me, say, the management of the R & D Center, there will be a big problem! "

Veronica obviously did not accept this, and very disappointed shook her head, followed by angry said: "I am not saying this, hear what I mean?

"I'm grateful that you remember me, but do you remember all the scientists here? "You can see my inventions, but can you also see all the scientists's inventions?

"There are at least thousands of scientists in the R & D Center. Every day, a few inventions will be submitted to the evaluation department. But are you really doing an evaluation?"

Yu Tian also felt that this question was particularly good.. He wanted to hear what Carrack had to say?

?Chapter 786 – Chapter 785, No Rank

Carrack obviously didn't want to answer this question, because he couldn't answer it either.

Although he was the senior manager of the R & D Center, he didn't need to know every department in detail.

As for Veronica's question, it was really unclear.

It was also impossible for someone to remember so many people's names. Veronica was obviously making things difficult for him.

Thinking of this, Karak glared at him coldly and said expressionlessly, "With your level, I have no reason to answer your questions all the time. If you have any dissatisfaction"

"You can tell your department head directly, and then let her tell me. I've wasted a lot of time for you now, and now I'm going to have lunch"

I still say that there's no shortage of scientists here. If you feel that everything is unfair, then you can leave at any time. No one asked you to stay here forever!"

Veronica chuckled, her eyes full of contempt.

She said coldly, "So this is our senior management. You Can't answer the questions of the scientists below, so how can you make us believe that you can manage this R & D Center?"

Karak was obviously angry at Veronica, and even his breathing became a little hurried.

He had come here to have lunch, but today there were so many voices of dissatisfaction.

He was only a senior management, how could he give them detailed answers to every question.

Even if he didn't do so well, he was still a high-level manager here, there was no need to look at their faces.

So Karak sneered and said arrogantly, "I'll tell you again, I'm a high-level manager of the R & D Center, all the management rules are made by me.,

"Every scientist who works here, either listen to my management or leave here. I Won't waste my time by giving you useless answers,

"Now Pm going to have a cup of coffee. You can make your own choices. And I don't want to hear any more complaints from any of you! "

At this point, carrack turned around and wanted to leave.

The scientists in the restaurant also shook their heads helplessly.

Kearns and Veronica were indeed courageous, but their courage did not bring any benefits. It would even make carrack bear a grudge against them.

At some point in time, they would trip them up.

They were only here because they wanted to get glory, or rather, they just wanted to be gilded here.

When they did not work in the R & D Center in the future, they could simply go to any scientific research institution. As long as they said that they had worked in the R & D Center, they could get a very good position.

Why did he have to make things difficult for his future? Even if he could get justice, so what?

They were scientists, and there were only two things that kept scientists alive. The first was inventions that shocked the world, and the second was discoveries that shocked the world.

However, these first-class scientists didn't do very well on these two points, so what reason did they have to ask Carrack to treat them equally?

At this moment, Chu Meng walked into the restaurant.

Her appearance made all the scientists stand up respectfully.

It was not easy to meet this legendary female scientist here.

Even Karak immediately tidied up his suit and rushed to Chu Meng, he said respectfully, "Miss Chu Meng, why are you here in the restaurant? Could it be that the food in the kitchen is not to your liking?" Just this sentence made many scientists envious.

They had to come to the dining room every day to eat these unpalatable food, but look at them. They had a special kitchen and a special chef. They could cook whatever they wanted to eat.

No wonder they could achieve the position of top scientist in the research and Development Center. Just based on this, even if they looked up, they would not be able to see them.

Chu Meng only shook her head slightly and did not even say anything to Karak.

That was because she did not even bother to say anything to him. Karak was in the management department while she was in the R & D Department. They were two departments, what was there to say to them?

Chu Meng was only here to look for Yu Tian. The chip had already been produced and she wanted to invite Yu Tian over to try it out now.

When Karak saw that Chu Meng was not talking to him, his face was full of helplessness. He could only let other scientists see him as a joke.

Usually, he was showing off in front of them, but in front of Chu Meng, he did not even have the right to speak. Just thinking about it made him feel embarrassed.

At this moment, Chu Meng also saw Yu Tian in the corner. She chuckled and directly came in front of Yu Tian.

Yu Tian was frowning. He had originally wanted to listen to what these people from the R & D Center were saying, but now that this woman had come, who else could say anything?

Looking at their expressions, it was as if they were about to shit their pants.

But Chu Meng had already come. It was impossible to chase her away now.

Yu Tian could only take off his sunglasses and grumble, "Why didn't you stay at the R & D Center? Why did you come to the restaurant?"

The crowd saw the young man sitting in the corner. It was the top executive director of the R & D Center, Yu Tian.

Everyone was stunned.

Carlak was so scared that cold sweat was dripping down his face.

Kearns and Veronica also had their mouths wide open. They couldn't believe that Yu Tian could eat with them in the restaurant.

Some scientists even thought that they were dreaming. How could Yu Tian eat in such a low-class restaurant?

He was the top executive director. Everything in the R & D Center belonged to him. He should be like Chu Meng and the others. He should have his own restaurant and chef, and he must be the best chef in the world.

But because of this, they felt that Yu Tian was more approachable. He was not like the legend said. Yu Tian was high and mighty, like a god.

Looking at everyone's surprised expressions, Yu Tian stood up and chuckled. He said indifferently, "Everyone, there's no need to be so nervous. It's lunchtime now, not work. We're eating in this restaurant!"

"There's no hierarchy to talk about. We're all ordinary people now. Everyone can say whatever they want to say. I've been listening all along!"

As soon as he finished speaking, Karak felt his legs and stomach churning.

Look at what Yu Tian said. He was a senior CEO who could be so approachable.

But as for Karak himself, he was about to put on an act when he was asked to.

At this moment, Kearns spoke up first..

Chapter 787 – Chapter 7

Kearns looked at Yu Tian angrily and said, "You are Yu Tian, the highest CEO, right? In that case, did you hear what we said before?"

Yu Tian nodded helplessly, frowned and smiled, "Yes, I heard it!"

Carrack, who was standing at the side, stepped forward and stopped him. "Kearns, watch your tone. You're talking to the Supreme President now. Don't put your unreasonable temper here!"

Yu Tian waved his hand at carrack, reminding him not to stop Kearns. Whatever he wanted to say, let him say it. He really wanted to hear how much resentment they had.

Kearns shot a cold glance at carrack and said coldly, "Since you've heard it, then I want to know, did you set the rules for the management of the R & D Center?"

"If that's really the case, then why did you let us scientists waste our time here? Since you don't like our inventions..,

"Then you'd better not let us work here, lest we get especially angry at you!"

As soon as he finished speaking, everyone was sweating for this Kearns.

Yu Tian was the highest president of the R & D Center. Even carrack was like a dog in front of him.

How could this Kearns be so bold? He actually dared to speak to Yu Tian like that. It seemed like he was really going all out.

At this moment, Yu Tian's expression was a little helpless.

He shook his head indifferently and said, "Some of the rules were made by me, but most of the rules were made by the R & D Center after discussion,

there is one thing that I believe in the top management. That is, they will be very strict with the evaluation of each of your R & D projects,

"Otherwise, they wouldn't be able to make a living here. I heard what Carrack said about your inventions. Can you calm down and tell me.., "Carrack said that your inventions have problems?"

Everyone looked at Kearns with a hint of mockery in their eyes.

Kearns was a fool. If his inventions were really that powerful, he wouldn't have been scolded so badly by Carrack.

But Kearns didn't know this. He said proudly, "My invention is the most perfect. There won't be any problems,

and they, the senior management, as well as those senior scientists, are just jealous of my invention. They don't want me to surpass them,

"You are the highest president of the research and Development Center. You definitely haven't seen my invention. I only have one request here. I want you to see those inventions in person,

"If you all think that there is a problem with them, then I absolutely have nothing to say. After all, this is fair, and what I want is a fair! "

This Kearns was really a little stubborn. The more such a person was, the more he felt that he was amazing. Even Yu Tian felt that this guy was really trying to show off to him.

However, this was not a big deal. After all, scientists like them all thought that they were amazing existences. Moreover, they were even hired as chief scientists by the best research and Development Centers in the world. This made them even more arrogant.

Thinking of this, Yu Tian called Veronica to his side.

Veronica was overwhelmed by the favor. She was even a little at a loss. She did not know what to say.

The Man in front of her was the richest and most powerful man in the world. It was a blessing that she could stand so close to him.

Yu Tian didn't feel envious. Instead, he said calmly, "Your Name is Veronica, right? Now, I want to ask you for a favor! "

Veronica did not even think about it. She immediately nodded and said, "Mr. President, please tell me. It's my honor to be able to work for you. No matter what you ask me to do, I will do my best to do it well! "

Yu Tian's words were rather pleasant. He nodded and said, "This Kearns beside you has a few better inventions, and he thinks that his inventions are very perfect,

"Since everyone is here today, you can be my evaluator and see if

Kearns 'inventions are as perfect as he says! "

However, Kearns immediately shook his head.

"Mr. President, what are you doing? Veronica is just a young physicist. She doesn't have any experience in scientific inventions,

"She is even someone who can't even receive an evaluation report. It's really unfair to me for you to let her evaluate my scientific inventions! "

Yu Tian felt that Kearns was pushing his luck, so he kicked him in the face.

He glared coldly at Kearns and said coldly, "Are you questioning my orders? Do you still think that I, the highest president, am a fool like Karak in Your Eyes?"

Seeing Yu Tian's slight outburst of anger, Kearns was so frightened that he could not stand up straight. He hurriedly shook his head and said, "Mr.

President, I didn't mean that. I just want an authoritative scientist.., to evaluate my invention so that you can get the most detailed information. I really have no intention of questioning you!"

However, Chu Meng, who was sitting at the side, had long been displeased with this fellow.

He was merely a level one scientist. Yu Tian had given him some face, yet he was actually boasting shamelessly and wanting to ask for everything.

Thinking of this, Chu Meng said coldly, "Don't you want a more authoritative scientist? Do you think my level is enough? If it's not enough, I'll get everyone from the evaluation department to come over now,

"We'll immediately start evaluating your inventions in front of all the scientists!"

Kearns felt that this was very good. At least he could give himself an accurate evaluation and let everyone value his inventions.

There wouldn't be any problems with those inventions. As long as he let Yu Tian guide his design and research and development to be perfect, then he could become a level five scientist, or even a top scientist.

However, even his best companions shook their heads in disdain.

This Kearns was simply too shameless. He was just giving him a way out, but this fellow felt that it was only right.

Since he was so arrogant, then let's see how he falls. When that time comes, they definitely won't help him up.

Karak quickly invited all the senior scientists from the evaluation department to the restaurant.

They wouldn't have liked to eat in such a low-class restaurant, but when they heard that Yu Tian was here, they all rushed over..

Chapter 788 – : Chapter 787, An Opportunity

The authoritative scientists in the evaluation department bowed to Yu Tian in unison. After expressing their respect, they all stood to one side obediently, waiting for Yu Tian to give them an order.

Yu Tian didn't need to personally give this order, so Chu Meng could do it for him.

This was because the evaluation department was under the management of the research and development department.

Whenever there were any good R & D projects, the Evaluation Department would first evaluate them before handing them over to Chu Meng and the others.

When the evaluation department learned that they had to evaluate Kearns'invention, everyone's expression became particularly complicated.

Lorenz, a senior scientist in the Evaluation Department and also a senior engineer in the R & D Department, took a step forward and looked at Chu Meng's expression before saying slowly, "President, can you let me speak first?"

Yu Tian nodded. Of course, he had to let him speak. Otherwise, what would he be called?

After Lorenz got the approval, he first glared at Kearns coldly and said with disgust, "I think that all the scientists and engineers in our evaluation department don't have to evaluate his invention anymore, because in our eyes, his invention is simply a pile of

trash. It's not even considered trash. We don't know what he's thinking. It's supposed to be a good invention, but it's riddled with loopholes,

and the biggest problem was that it was not practical. When our evaluation department evaluated a research and development project, it was primarily based on market investment. Secondly, we would consider the actual value of the invention,

and every time after our evaluation, if it had actual market value, we would submit the project to the research and development department. Then, a few senior scientists and senior engineers would conduct a new round of evaluation,

Keynes's invention, we were particularly impressed, not because it had any actual value, but because we wanted to know, how could there be a scientist in the world who could develop such a rubbish invention,

even if his invention could have some use, in some aspects, he could not even do the basic functions of a scientist,

previously, he gave us a drinking water filtration device. In his research report, it was clear that this device could effectively filter out 100% of the toxins in the water,

however, when we officially evaluated and tested this device, we found that it could indeed filter out 100% of the toxins in the water, but the nutrients were also filtered out,

it was clear to everyone that if the nutrients in water disappeared, then water itself would be a toxin, which would be very harmful to the human body,

through this invention, it was clear that Keynes, the scientist, did not even have the qualifications to be a scientist, because his invention was a farce, or even a joke, he didn't even know how to distinguish between toxic substances and nutrients. He just designed such a filtering device in one go, completely violating the scientific community's caution and careful definition, so president, I'm here to tell you very seriously that Keynes's invention is a complete mess. We don't need to waste time on him to evaluate his useless inventions! "

When he said this, even Karak, who was standing on the side, gave Kearns a disdainful look.

However, Kearns' face was full of indifference. He even felt a little angry and wronged.

Until now, he still felt that his invention was perfect.

However, the laughter around him still made Kearns feel embarrassed.

He was a scientist, but in the mouths of these people, he became a joke.

He was so angry that he shouted, "Why are you laughing at me? The equipment I developed is the most perfect. Even if you work hard for your whole life, you can forget about inventing my equipment!"

"What reason do you have to laugh at me? In My Eyes, you are just a bunch of idiots!

Yu Tian frowned and looked at him helplessly. This guy was already mentally deranged. In his current state, he did not look like a scientist in any way, but more like a lunatic.

Moreover, he was a lunatic.

Before Kearns could speak in front of Yu Tian, Yu Tian glared at him coldly and said coldly, "Now you don't need to continue. If someone said that your invention is trash, I might have some doubts,

but now, there are so many people saying that your invention is trash. Who Do you think I should believe? So I think you already know what I want to say,

of course, my words won't be so harsh. After all, you are just a very unremarkable scientist here. I don't need to hurt you so severely,

but I don't want to see you here anymore. Now, take your inventions and leave the R & D Center immediately. If you think they are perfect, then let the whole world accept your inventions,

at that time, I will personally invite you back to the R & D Center, but I think that is impossible. You are not a qualified scientist at all,

"From your personality, I can already tell that you are actually a lunatic!"

After hearing these words, Kearns really became a lunatic. He looked at Yu Tian with his eyes wide open and roared loudly, "What right do you have to let me leave this place? I am the most outstanding scientist in this world,

"Not only do you want me to stay here, you also want me to become the chief scientist. My invention is the most perfect. No one can surpass my invention. You are blind. You simply can't see my strengths! "

Yu Tian shook his head helplessly. Even if he looked at him now, he would still feel nauseous.

Carrack was especially good at Reading People's expressions. After he saw Yu Tian's expression, he immediately said loudly, "Kearns, that was the CE(Ys order. Do you not even care about the CEO now?

"You 're simply a lunatic. Security, throw this lunatic out immediately. Never let him step into the R & D Center Again!"

As soon as he finished speaking, a dozen armed security guards immediately rushed to Kearns 'side and dragged him out of the restaurant like a dead dog. They threw him out of the R & D Center.

In the restaurant, Yu Tian slowly stood up and said indifferently, "Everyone, as the senior president of this R & D Center, I believe in everyone's abilities, however, everyone must understand that everyone's abilities are limited, and so are their opportunities.. I will give each of you a chance, and you must seize it."

Chapter 789 – Chapter 788, Feeling Pleasantly Surprised

When Yu Tian said that he would give everyone a chance, everyone became excited and surrounded Yu Tian. The scene was quite lively.

With Yu Tian's current status, the chance he gave everyone was enough to let each of them have the possibility of reaching the sky in one step.

Wasn't the day they joined the R & D Center all for this chance?

So now, everyone wanted to know what kind of opportunity Yu Tian would give them?

Yu Tian said indifferently, "Since everyone has joined the R & D Center, I believe that every scientist has a beautiful dream,

of course, this dream may bring honor and wealth to you, but it can also bring change to the world. So, the opportunity I want to give you is a chance to realize your dream,

you can be divided into groups, or individuals, and I'll give you one month, each of you will come up with your own invention, and I will personally evaluate it,

and this time, the evaluation criteria, is no longer based on market input, nor is it based on creating value for the R & D Center, as long as your invention, makes me feel interesting, makes me feel novel,

"I will immediately get the management department to approve the project investment for you. At that time, each of you will be able to realize your dreams. Not only will you receive honor, but you will even receive wealth, "There is only this one chance. Each of you must seize it. Remember, you only have one month! "

Everyone immediately applauded Yu Tian. There were even people in the crowd who screamed in surprise and excitement.

The opportunity was simply too blissful. It was as if it was a gift from heaven.

Moreover, the assessment criteria this time was so low. As long as they could come up with an invention that made Yu Tian feel creative, they would be able to obtain the wealth and honor that they wanted.

As well as the opportunity to realize their dreams.

Everyone secretly swore in their hearts that they would definitely seize this once-in-a-lifetime opportunity and come up with an innovative invention no matter what.

Karak clapped the loudest and even added, "Did you all hear that? This is the best opportunity our Super CEO has given everyone,

"This time, none of you will complain about being unfair because opportunities are equal. Each of you will have the opportunity to put your invention in front of the CEO,

"I hope you can bring out your best and invent the best equipment in this one month!"

However, as soon as he finished speaking, Yu Tian glared at him coldly and said indifferently, "Mr. Karak, I also have something to say to you,

"As the president of the Management Department of the R & D Center, you should always maintain the core management of every scientist in the R & D

Center, not like you, who only uses your arrogant attitude,

and your so-called rank to suppress these scientists. I don't know who made you the President of the management department, but now, you have to give up this position, i don't want to see you in the R & D Center. You Can Leave Now! "

Karak couldn't believe his ears at all. His expression was distorted. He hurriedly begged bitterly, "President, if I do anything wrong, I will immediately correct it,

"But you asked me to leave the R & D Center. This is really unfair to me. I am indeed the president of the senior management department, but I have been thinking about how to contribute to the R & D Center all the time! "

"But I really can't manage such a large R & D Center by myself, so it's inevitable that I would be negligent. If you ask me to leave the R & D Center just because of this, I really can't accept it! "

Yu Tian didn't want to waste his breath on him at all. He directly ordered,

"Then find someone who can manage the entire R & D Center as a senior president. You know that you have a lot of omissions! "

"And the person sitting in your position definitely can't have any omissions. Moreover, I won't accept such omissions. Now, take your things and leave the R & D Center immediately!"

As soon as Yu Tian finished his words, the security guards around him immediately looked at Karak angrily.

Karak's expression was as if he was going through a torturous ordeal.

However, no one could disobey Yu Tian's orders. He could only lower his head and leave the R & D Center amidst the laughter and cheers of the crowd.

However, a senior CEO needed someone to do it. Yu Tian turned his head and looked at Veronica who was standing behind him.

"Veronica, I also want to give you a special opportunity because your question was very good. Since you can see the management problems, it means that you can see things that others can't see,

"This is the talent I need the most. Since Carrack has left the R & D Center, then you will be the senior CEO! "

Veronica covered her mouth in shock. Her eyes looked as if she had seen a volcano erupting. She even felt that this was a dream, a particularly beautiful dream.

However, after pinching herself a few times, she was sure that this was not a dream.

Thus, tears flowed down Veronica's eyes.

Not only because of her excitement, but also because of her gratitude to Yu Tian.

She said in a trembling voice, "President, I will definitely not let you down. I will definitely make the management center into the world's most advanced, top-notch, and most prestigious R & D Center, i will definitely be able to do it!"

Yu Tian did not want to hear her say these useless words. She just nodded lightly and said softly, "I believe that you have the ability, so I will hand over the position of President to you,

"If you manage the R & D Center Well, you might go to my family in the future and do more advanced management. But you only have one chance. Whether you can grasp it or not is up to you! "

At this time, everyone applauded again to express their congratulations to Veronica.

At this time, Yu Tian and Chu Meng also left the restaurant silently and returned to the R & D Department.

In the R & D Department, Yu Tian also saw the special necklace made by Chu Meng and the others.

Chu Meng explained confidently, "The development of this chip is particularly smooth. Now, we have created a device that can change your appearance at any time,

"You just need to wear it around your neck and connect it to your phone through the Internet. After that, you can choose your appearance. The device will cover your face according to your appearance, angle, size, and other parameters, the realism can be 100 percent, and now you can try it, and it will definitely surprise you! "

Chapter 790 – Chapter 789, The Mysterious King

Yu Tian wore the necklace around his neck, and according to Chu Meng's instructions, he connected the chip on the necklace to the phone through the internet.

Soon, the necklace and the chip's operating software appeared on the phone.

Yu Tian only needed to click on his profile picture on the software, and then select some expressions based on the profile picture parameters. After that, the chip could produce a projection effect.

The profile picture in the database was particularly rich. In order to allow Yu Tian to have more choices, Chu Xuan set 100,000 people's faces on the software editor, and these 100,000 people's faces.., could be adjusted at any time.

Yu Tian chose a slightly more handsome foreigner's profile picture and clicked on the start button in the software.

Following that, the chip in the necklace started to project according to the data parameters in Yu Tian's brain.

Looking at himself in the mirror, he instantly changed into another person. Not only could Chu Meng and the others not see it, even Yu Tian himself felt that it was very magical.

The person in the mirror was completely another person. Other than the expression in his eyes, all the other parts of his body had changed their appearance.

At this moment, he was no longer the original Yu Tian. Instead, he had become a foreign man with the face of a model.

The chip provided a powerful function to this projection.

Whether it was a smile or anger, a nod or a shake of the head, the actions of the chip and the brain could be perfectly fused together. No flaws could be seen at all.

When the experiment came to this point, Yu Tian felt extremely satisfied.

This was what he wanted. Moreover, as long as the phone had power, the chip would always provide him with a projection.

Yu Tian said with great satisfaction, "Very good, very good. With this thing, no matter where I go in the future, no one will be able to recognize me,

"Even if I use this thing to rob, or even molest, no one will be able to recognize me. This thing is like a divine artifact! "

However, Yu Tian was also very clear that this chip was only safe with him. If it was in the hands of others, it would definitely cause considerable chaos in the world.

For example, if this person turned his face into the face of a country's senior executive director, then the country would be in a civil war.

Or if he turned his face into the face of anyone else and did something shameful, then no one would know who this person was.

Therefore, this technology could not be obtained by others.

Yu Tian immediately pulled Chu Meng to the side and ordered in a low voice, "Except for this chip, delete all the data and data. We absolutely can not let this thing fall into the hands of others, otherwise, the world will be in Chaos! "

Chu Meng immediately understood Yu Tian's consciousness. What he said was not wrong at all. When he designed this thing, he had already considered this aspect, so he did not continue to develop it.

Now, Yu Tian had to use this technology to create such a chip. Otherwise, he would definitely not have created this thing.

Yu Tian also had the ability to change his appearance, so there was no need to continue wasting time here.

He immediately activated the teleportation and arrived at Raqqa.

In just a few short hours, Raqqa had completely changed its appearance.

This change was not because the city had changed, but because of the people here and the feeling here.

Every person in Raqqa knew that there was going to be a worldwide killer competition. If they stayed in the main city, they would definitely become sheep waiting to be slaughtered by the killers.

Therefore, every time the world killer competition was held, the people in the city would immediately retreat.

To appease the retreating citizens, the magic snake killer organization built a large residential area around Raqqa.

The residential area had everything, allowing at least a million citizens to eat, drink, and defecate for a month.

All food supplies and other necessities were provided free of charge by the snake assassin organization.

In addition, the competition would be broadcasted on some special TV channels.

For example, there were several super luxurious hotels next to the residential area.

Rich people from all over the world would stay in these hotels.

While the killer competition was going on, they could place their bets on the entire killer competition.

The killer competition couldn't be held at any time. Not to mention how much money the killer competition would have, just the exciting scene alone would make many people feel especially excited.

Yu Tian stood on top of a building and looked at the city. A large number of citizens were heading to the residential area.

Tiffany also came behind him at this time. She followed Yu Tian and looked at the bustling city under the sunset. It was slowly becoming quiet.

She said softly, "I have already signed you up. I have also changed your name. From now on, your identity is an assassin from the eastern country,

"This is because every assassin participating in the competition will not use their real name. They will either use their own code names or their own nicknames,

"The name I used to sign you up is called the mysterious King!"

Yu Tian shook his head helplessly and said indifferently, "You really can think of it. You still call me the mysterious king. I don't know how mysterious I am.

If I didn't change this face!"

"Everyone in the world knows who I am. Since you have already used this name, I will reluctantly be called the mysterious king. Since you have already signed up, when will the competition begin?"

Tiffany explained softly, "Don't be anxious. Assassins from all over the world are signing up. Moreover, the number of people signing up this time seems to be even more than before. "

"So far, more than 2,000 killers have signed up. According to preliminary estimates, there will be 5,000 killers. The last time to sign up is Tomorrow Night at 12 O'clock! "

Yu Tian nodded and then asked indifferently, "Then, what are the rules of this competition?"

This question was particularly good, and Tiffany didn't know how to answer it. After all, the information she had collected was still very limited. But fortunately, he had already developed one of his own people here.

She flicked her sexy long hair and said in a low voice, "Although I don't know what the rules of the competition are, someone will definitely let you know.

It's still early!"

"Later, I'll take you to a place.. After meeting that person, he will tell you anything you want to know! "

I Have 108 Older Sisters #Chapter 791 - Read I Have 108 Older Sisters Chapter 791

Chapter 791 – Chapter 790, The Trade Between Friends

Of course, this was very good. Yu Tian was very satisfied with Tiffany's intelligence gathering ability.

After all, the entire world was gathering information about the assassin competition. There were even many people who were paying attention to this competition. It was indeed not easy to find a friend at this time.

In the blink of an eye, it was ten o'clock in the evening. The whole of Raqqa gradually quieted down. After passing by a row of dim street lights, Yu Tian followed Tiffany to a very remote house.

Before Yu Tian entered, he first looked left and right. This place was indeed very remote. There was not even a decent road. If it was anyone else, even if they passed by this place., they wouldn't waste their time looking here.

The house was an old house with a medieval style. Even the door looked medieval.

Tiffany gently knocked on the door.

Soon, a deep voice came from behind the door. "I only need two cups of coffee. I don't need red wine!"

Tiffany said, "But you can try the pastries I brought for you! "

Yu Tian looked at them and found that they were quite mysterious. There was even a secret signal.

There was no need to be so nervous. It was just a competition organized by an assassin. This was not a war.

At this time, the door opened. A cold-looking man with a mustache looked at Tiffany warily and then at Yu Tian behind Tiffany.

Of course, Yu Tian had changed his appearance. The man let down his guard slightly and invited the two of them into the room.

The room was particularly dark. Only a lamp was lit, and all the curtains were drawn. On the table, there were many weapons, and even bullets were scattered on the floor.

The fire in the fireplace was burning brightly. This made Yu Tian feel a little warm.

It was early winter in Raqqa and the air outside was especially cold at night.

Tiffany immediately gave Yu Tian an introduction.

"This is the person I met here. His name is Carlisle. He is a staff member of the headquarters of the Magic Snake Assassin Group. He is also the technical staff of this assassin competition,

"His main job is to ensure that the broadcast of this assassin competition can be carried out smoothly. Therefore, you can also treat him as an engineer, "Carlisle has been working in the headquarters of the assassin group for ten years. During these ten years, he has a special understanding of the management of the assassin group and other aspects,

"If you have any questions, you can ask him. Of course, there's a reward for everything, but I think it's still acceptable to pay him some compensation! "

Carlisle didn't say anything. He just looked at Yu Tian expressionlessly. After giveni introduced him, before Yu Tian could say anything, a girPs voice suddenly sounded from outside the room.

"Daddy, Mommy is very uncomfortable. Can I give him some water?"

Yu Tian turned his head and saw that the little girl who spoke was only around ten years old. However, her expression seemed to be particularly painful. The Tears on her face had not even been wiped dry yet. She gave off a very pitiful feeling.

At this moment, Carlisle also completely wiped away the coldness on his face and replaced it with a fatherly expression.

He came to the little girPs side and stroked her hair while saying with a smile,

"Of course you can. Go and tell mom that Daddy wants to meet a few guests. Pll make our supper soon, you must be careful when you get water. Don't Burn Yourself! "

The little girl looked at Tiffany and Yu Tian. She nodded and turned to leave.

The sound of her footsteps as she went upstairs was especially heavy. It definitely didn't sound like the voice of a ten-year-old girl.

At this time, Carlisle turned to look at Yu Tian and said coldly, "If it wasn't because of my lover who needs money to treat his illness, I would never have sold out this information,

"So now, we have to be careful. The Magic Snake Assassin organization is in Raqqar. They can know almost anything. When you leave here later, you must remember that we have never met before, we don't even know each other! " Yu Tian understood what he meant.

This was the territory controlled by the magic snake. In this city, the magic snake was everything. No special move could escape the eyes of the magic snake.

However, this wasn't a big deal. Although they looked extremely arrogant now, he would soon make the magic snake assassin group disappear completely.

This was also his goal here. Any existence that could hinder him from becoming a powerhouse would make them disappear.

When he thought of this, Yu Tian asked softly, "In that case, let's not waste time talking about those useless things. I want to know everything about the magic snake assassin organization and this competition!"

Carlisle poured three glasses of red wine and gave each of them a glass. Then, he drank a toast first.

It seemed that only after drinking wine could he calm his emotions and become braver.

Then, he slowly said, "The magic snake assassin organization. From the outside, it looks like an assassin organization, but in reality, it's not what you

see! "

In the early days of the magic snake assassin group, Leinster was still a very ordinary assassin, but later on, he accepted a mission. This mission was to assassinate a senior manager of the superpower,

at that time, Leinster did not know that there was a huge conspiracy behind this mission. Therefore, Leinster successfully killed the senior manager, and he did it silently,

but because of this, super country's senior management department threw all their anger on the senior management department of Raqqa. They sent a large number of mercenaries and death squads to Raqqa

At that time, the senior management department of Raqqa was killed by them.

The entire Raqqa was in a state of total loss of management.

At that time, the senior CEO of Raqqa took advantage of a rare opportunity to have a conversation with the senior CEO of the Senior Management Department of superpower. They reached a secret agreement,

that was to completely focus the assassination on Leinster. After that, mercenaries and assassins from all over the world began to pursue Leinster,

"Leinster had survived countless times on the brink of death, and at that time, no matter which corner of the world he was in, there was no place for him, "But at that time, Leinster founded the Magic Snake Assassin Organization! "

Chapter 792 – Chapter 791, The Boss Behind The Scenes

At this point, Carlisle lit another cigarette and took a deep breath.

When the smoke was exhaled, Carlisle's expression became very solemn. It was as if what he was about to say next would make everyone present feel especially terrified.

"Leinster received a mysterious sum of money. It was precisely because of this sum of money that it was able to establish the magic snake assassin organization. At that time, no one knew that the person who provided this sum of money..,

was known as the number one family, the Chu family of the eastern country!"

When Yu Tian heard this, he suddenly frowned. He wasn't doubting Carlisle's words, but he was puzzled. The Chu family was actually the big boss behind Leinster. These words sounded even more interesting.

However, Yu Tian still remained calm. This was because other than Tiffany, Carlisle still didn't know his identity.

The more it was like this, the more information Carlisle was able to reveal.

Carlisle did not have any doubts about Tian. He just treated Tian as a merchant who came to buy information.

There were many people in the world who wanted to buy information, but only the person brought by Tiffany would pay the highest price.

Therefore, Carlisle smoked another cigarette and continued slowly, "After Lester founded the snake assassin organization, his codename became the snake, and his targets for suicide also went from ordinary people!"

He rose to the top management of some high-level management departments. After the magic snake organization had more funds, its scale became larger and larger,

leinster used his own methods to recruit many high-level assassins, but the whole world thought that these high-level assassins only wanted to obtain their honor through the magic snake assassin organization,

"However, only I know that what these high-level assassins want isn't money or glory. It's a promise Leinster made to them! "

Tiffany gently put down her wine glass and asked in puzzlement, "What promise?"

"To control the entire world! "

Carlisle's words surprised Yu Tian. However, it was just an ordinary assassin organization. Even if it was the world's top assassin organization, it wouldn't have such a dream.

Leinster actually wanted to control the whole world. His appetite was really big.

Not to mention those senior management departments, they would not agree. Even in front of him, he would not be able to pass this hurdle.

Everyone wanted to control the whole world, including himself. However, this idea was not so easy to achieve.

Even if he had the most wealth in the world now, and also had many things that others did not have, to control the whole world now, the distance was still very far.

Leinster was only a high-level assassin. Just how confident was he? How powerful was he? Did he not think about dominating the world? How many enemies were there in front of him?

Yu Tian shook his head indifferently and said disdainfully, "This is the first time I've heard of someone with such a big dream, wanting to control the entire world?"

"Are you sure that Leinster isn't a madman? "Is his brain really normal?" Carlisle gave Yu Tian a deep look and said in a deep voice, "That's right, he is indeed a madman, but there is a difference between him and a real madman,

a real madman doesn't know what they are doing. They will be crazy enough to destroy everything, but Leinster isn't like that. He knows what he is doing, and these things have a special plan,

the assassins he had recruited would all die for him after hearing his plan. Up until now, this plan had a part of the core killer's way, and even I didn't know about it, as for how did I know about this plan? It was because I had accidentally logged into the assassin organization's server. At that time, Leinster's personal storage device hadn't closed the access channel,

I had also unintentionally entered it and saw this plan. Because I was in a rush at that time, and I was also very nervous, I only saw one sentence,

Leinster said that the world's most powerful weapons were not firearms, but assassins who could use special skills to kill all their enemies,

when I saw this sentence, Leinster's access channel had already been shut down by the server. When I wanted to access it, I was already unable to crack Leinster's password,

however, I knew the name of this document. It was called world domination. Leinster hated this world because at that time, the entire world's management department.., mercenaries and assassins from all over the world wanted his life. It wasn't easy for Leinster to gain a foothold in Raqqa and develop the assassin organization to its current size,

at that time, the Chu family also played a very important role. Not only did they provide Leinster with funds, they even changed his identity and used a powerful financial system..,

they built the magic snake assassin organization into the most mysterious and powerful assassin organization in the world. Even now, the Chu family was still secretly providing money to Leinster and helping him in other aspects,

but how would Leinster dominate the world? Only the core assassins would know this secret. If you want this kind of information, you have to find those assassins, but I can't provide it! "

Yu Tian didn't care about this information at all, and he felt that it was normal for the Chu family to do this. After all, the monks invested in the whole world, and their tentacles could reach any company or corner in the world.

Supporting an assassin organization was acceptable for the development of the Chu family.

After all, to maintain the position of the number one family in the world, sometimes, they needed to make some enemies disappear.

As for the Chu family, it was impossible for them to get their hands dirty. If there was an assassin organization that could help them eliminate all those damned enemies, that would be the best choice.

Yu Tian could quickly discover the reason behind this. If he were the head of the Chu family or the project manager, he would do the same. This was completely acceptable.

However, which of the 108 sisters would be the one to carry out this secret project? It was still unclear.

However, this was not a big deal. He would soon find out who was carrying out this project.

When he thought of this, Yu Tian still frowned slightly.

If the boss of the magic snake assassin organization was the Chu family, then what he was doing now was going against the Chu family?

Chapter 793 – Chapter 792, Rules Of The Competition

Chapter 793: Chapter 792, rules of the competition

And most importantly, if the Chu family was really supporting the demon snake assassin group, then the Chu family must know that this assassin group was currently going against him.

If they knew this, would they continue to support the demon Snake Assassin Group?

Or rather, if they knew now, they would continue to tacitly agree that this assassin group was going against him, then this game would be interesting.

It was better not to care so much for now. After all, there was still time. He could use this time to return to the Chu family and get to the bottom of this secret project.

After that, he would know what the Chu family was planning.

Thinking of this, Yu Tian continued to ask, "Then what is the purpose of the worldwide assassin competition?"

Carlisle slowly got up and opened his laptop. Looking at the data on it, he slowly explained, "Lehnst wants to expand the size of the assassin organization,

he wants an army composed entirely of assassins, so every year he recruits a large number of assassins. But lehnst doesn't want ordinary assassins, he wants the elites among the assassins!"

He wanted the best of the best. That was why he held this killer competition at this time of the year. When you came to this city, you must have seen the citizens retreating,

after I meet you, I will also leave this place and head to the residential area outside. After Tomorrow night, if you can see the people in this city, they are all killers who are preparing to participate in the competition,

this is because the competition venue is in the city of Raqqa. No matter which assassin, if they leave the area of Raqqa, it is equivalent to giving up the competition,

the rules of the assassin competition are also very simple. That is, no matter what method you use, you must try your best to kill other assassins. The last survivor will become an elite assassin of the magic snake assassin organization,

at that time, they would enjoy endless benefits and even full of honor. At the same time, they could also carry out some special missions to earn more money,

they would also receive the protection of the entire magic snake assassin group. No matter if it was a high-level management department in the world, mercenaries, or killer hunters, they could no longer pursue and kill this assassin,

otherwise, the entire magic snake assassin organization would spare no effort to pursue and kill them. The duration of the competition was one week,

during this one week, the participating killers would have no food, no medicine, and even no rescue. They would not be able to retreat and would not rest until they died. Of course, you could also choose to give up,

once you gave up on the competition, you would not be able to continue being an assassin in the future. Otherwise, you would be eliminated by the magic snake assassin organization. In previous competitions, many people had given

up, after that, they still wanted to be assassins, but they were all mysteriously killed. This was the rule of the demon snake assassin competition. It was simple and violent. At the same time, when they participated in the competition, no one would provide them with weapons,

it was completely up to them to think of ways to kill the other party. Other than weapons, no matter what methods the assassins used, it was acceptable,

"There's another special aspect to it, which is that the entire assassin competition will be broadcasted to all the secret casinos in the world. The funds for each competition will reach hundreds of billions,

"This is also the reason why Leinster holds an assassin competition every year.

Such an authentic assassin competition can not be seen at any time! "

Carlisle said so much in one breath, and Yu Tian listened very carefully.

It seemed like there were no rules, but it was extremely difficult to survive among these killers.

The killer profession was different from other professions. They studied how to kill people every day, and their methods of killing were especially clean and efficient.

Some killers even treated killing people as an art. They didn't even leave any traces after killing people.

The more he thought about it, the more he felt that this competition was very exciting and interesting.

Therefore, Yu Tian decided on the spot that regardless of whether the boss behind Leinster was a member of the Chu family or not, he would participate in this competition and kill all the killers.

After he entered the magic snake assassin organization, according to his choice, would he kill the other assassins?

In this aspect, his opinion was completely different from the family's.

This was also very normal. The family existed for him, and the family also had its own direction of development. Every year, they had countless investment projects. If this was just one of their investment projects.,

then they could completely give up on this project. If they insisted on doing it, he didn't mind completely eliminating the person who had developed this project.

Speaking of this, Yu Tian basically knew what he wanted to know, so there was no need for him to stay here and listen to Carlisle's nonsense.

So he gave Tiffany a signal. Tiffany understood what he meant, so she put a black suitcase on the table. When she opened it, it was full of cash.

Carlisle was very greedy. He took out a stack of cash and put it in front of his nose to smell it.

The smell of money was the best smell in the world. There was a total of 10 million cash in this suitcase. With this money, he would have everything.

Moreover, he could leave Raqqa and go to any place in the world where no one knew them. He could live happily. Just thinking about it made him feel that everything was so beautiful.

Yu Tian had no intention of leaving. Instead, he whispered a few words into Tiffany's ear.

Tiffany immediately nodded in agreement and said to Carlisle, "You and your family are going to leave here later, right? Then my boss and I will stay here for now,

"We want to watch the whole process of the killer competition. You can also provide us with some relevant skills. After that, you will get a reward. What do you think?"

Carlisle didn't even think about it and immediately nodded in agreement.

Then, he went to the wall and pressed a hidden switch. The entire wall slowly opened, revealing a big screen inside.

He really didn't see that there was such a thing hidden here. It seemed that Carlisle was also a very scheming person.

At this time, Carlisle had already connected the big screen to a special network and said softly, "I have already entered my username and password. When the competition starts! "

"You just need to click on the play button to see the entire process of the match. Pve also connected to all the videos of the match in Raqqa..,

"When the time comes, you 'll be able to clearly see the match in every corner of Raqqa. As for this place, you can stay here as long as you want. I've decided not to come back here.. I wish you all a good time! "

Chapter 794 – Chapter 793, Birthday Cocktail Party

After Carlisle had arranged everything, he left the house with his family.

This place now belonged to Yu Tian. Yu Tian opened the internet connection on the big screen, and he could indeed see every corner of Raqqa.

At this moment, the citizens of Raqqa were still retreating in large numbers. Some people in suits could even be seen maintaining order.

Of course, those people in suits were definitely members of the magic snake assassin organization. Their roles had completely replaced the senior management department here.

The Senior Management Department of Raqqa had always been a virtual existence.

Yu Tian felt that the magic snake assassin organization was doing quite well.

At least, in this aspect, Leinster paid attention to these citizens. At the very least, they wouldn't let them have any conflicts during their retreat, allowing some people to benefit from it.

However, there was one point. The entire Raqqar could only leave and not enter.

As long as they left the area of raqqar, they couldn't let anyone in except after the competition.

What Carlisle said was right. After the citizens left, only the killers were left.

Tiffany knew that she and Yu Tian would be staying here for the next few days, so she had to hurry and go out to buy some food and daily necessities.

Carlisle brought everything in the house with him. He didn't even leave a piece of cake for them.

What did Tiffany want to do? Yu Tian didn't care at all.

After watching the big screen for a while, Yu Tian got up and said, "I have to go back to the family headquarters in the capital to take a look. I really want to know who is running this project behind the scenes."

Tiffany had no objection to this. She only reminded Yu Tian to come back as soon as possible. When the assassin competition started, it would be very exciting.

It would only take a second to return to the headquarters in the capital.

At this moment, the Chu family's manor was decorated with lanterns and streamers, as if they were celebrating something.

Yu Tian made his face still look like it had been changed. It was not always possible to see what the 108 sisters of the Chu family were doing when he was not around?

This was also a good opportunity to understand them. At least, they were not in front of him. Some People's personalities could still be clearly displayed.

Just as he reached the entrance of the manor, Yu Tian was stopped by the security guard.

The security guard was quite polite. He smiled and said, "Hello, Sir. Could you please take out the invitation card for me to take a look?"

Where did Yu Tian get an invitation card from? He didn't even know what was going on in the manor?

"I came in a hurry and didn't have any invitation cards. Why is it so lively here today? It seems like there are many people here as well. "

The security guard looked at the people who were lining up behind Yu Tian. In order not to affect their normal entry into the manor, the security guard pulled Yu Tian aside and gave a simple explanation.

"It's like this, sir. Today is the birthday of a sister of the Chu family, so they held a cocktail party. All the wealthy people in the capital came to attend this cocktail party today,

"Before the birthday cocktail party was held, the family sent out invitations to everyone who invited them. If you don't have an invitation, I won't be able to let you enter the manor. I hope you won't make things difficult for me! "

The security guard's words were already very polite. Yu Tian didn't want to make things difficult for him at all. He just nodded indifferently and turned around to leave.

However, Yu Tian didn't completely leave the manor. Instead, he came to the back of the manor and jumped into the manor while the security guards weren't paying attention.

With Yu Tian's skills, this was even easier than eating.

After entering the manor, Yu Tian arrived at the main hall of the villa at his fastest speed.

The area of the Chu family manor had already reached hundreds of acres. Just the various villas and rooms alone numbered in the hundreds.

Today's banquet seemed to be held in the largest villa in the middle, the villa called Xianke Lai.

That villa was also the largest villa in the entire Chu family manor. Some high-level meetings would also be held here.

Moreover, this villa also had the largest restaurant in the entire Chu family. At the same time, it could allow more than a thousand people to eat here.

Today, the entire manor was decorated with a particularly festive atmosphere. Row after row of red lanterns emitted a romantic color at night.

Yu Tian was especially curious. Which sister could make the Chu family spend so much effort to hold such a huge banquet.

Since it was such an important sister's birthday, why didn't he receive anything?

It was a little unjustifiable that no one invited him.

Yu Tian followed the crowd of people attending the banquet and walked into the hall where the new guests were.

At this moment, the hall was already full of people. Everyone who came to attend the banquet was chatting and laughing under the melodious music and romantic lights.

Moreover, there were many people dancing on the dance floor in the middle. The scene was especially lively.

Yu Tian even saw some celebrities. Needless to say, these were definitely hired by the Chu family.

The extravagance was really big. Moreover, Chu Hui, Chu Qing, and the others were also at the banquet. There were even many sisters whom he had never seen before who were happily chatting and laughing at the banquet.

Yu Tian came to the side of the wine cabinet and picked up a glass of wine. At this time, he had to first determine who was celebrating today's birthday. If possible, he had to prepare a gift for him, or rather, a surprise.

At this moment, Chu Aotian, who was dressed in traditional clothes, also walked into the banquet hall amidst the applause of the crowd. Beside him was a young girl in her early 20s.

When Yu Tian saw this young girl, he was a little excited.

Because this young girl was exceptionally beautiful. It wouldn't be an exaggeration to say that she was devastatingly beautiful.

Moreover, her figure was among the 108 sisters. It could be said that she was someone who could be considered a top pin.

The Black Bowl outfit on her body made her appear especially noble and sexy.

It seemed that this little girl was the main character of today's party.

Chu Aotian and this girl passed by Yu Tian. They didn't know that the man standing next to them who looked ordinary and was drinking was the master of the entire family, Yu Tian.

So they didn't even look at Yu Tian and went straight to the middle of the party.

Many of the wealthy people from the imperial city, as well as wealthy people from all over the world, came forward to congratulate Chu Aotian and the girl.

Most of the sisters also gathered around the girl and presented the gifts that they had prepared earlier to her one by one.

When it was Chu Qing's turn, she could be heard laughing softly, "Chu ni, today is your 20th birthday.. I wish you a happy birthday! "

Chapter 795 – Chapter 794, Secret Project

Although he didn't know what kind of Gift Chu Qing had given him, judging from how beautifully wrapped the gift was, it must have been something very valuable.

However, what Yu Tian didn't understand was that Chu ni seemed to dislike the gift Chu Qing had given her. She casually took it and threw it into the pile of gifts behind her.

She didn't even thank Chu Qing for her blessing. She didn't even look at Chu Qing.

Yu Tian felt that it was a little strange. They were both 108 sisters. Chu ni seemed to be very warm to others, but why was she so cold to Chu Qing.

At this moment, Chu Qing could only shake her head helplessly. She turned around and stood somewhere else. Her expression didn't look good either.

At this moment, Chu Hui also came to Chu Ni's side.

However, during the process of delivering the gift, Chu ni's attitude towards Chu Hui was the same. Chu Hui was now the family's top management CEO. Regardless of her status or status, she was above the 108 sisters.

Chu Ni did not give her any face. This made Chu Hui feel that she had no place to put her face.

However, there were so many people at the party, so Chu Hui didn't want to lose her temper. She just coldly glared at Chu ni and turned around to come to Chu Qing's side.

At this time, Yu Tian had already moved behind the two sisters, wanting to hear what they had to say.

Chu Qing gently sipped her red wine and said in a low voice, "It seems that this girl still has a lot of hatred toward us. When I gave her the gift, I didn't even look at it! "

Chu Hui coldly glared at Chu Ni and said, "If her father didn't contribute his life to the family, I wouldn't have given her face today!"

"Moreover, look at the people she invited. I don't even know many of them. I don't even know how she knows these people. It seems that we have underestimated this little girl!"

"Previously, someone in the upper management told me that Chu ni secretly took over many of her father's projects. After that, I also asked someone to gather information on this, but this little girl has always been behind the scenes! "

"Even if I wanted to say it now, there's no reason for her to do so! "

Chu Qing frowned slightly and said in a low voice, "Haven't you noticed? Everyone who should have been invited is here today, except for our husband! "

"Do you know what this means?" "This means that Chu ni doesn't care about Yu Tian at all. She doesn't even care about the management of the family!"

"She doesn't care about the management rules of the family at all. Otherwise, she wouldn't be able to secretly take over those projects! "

Chu Hui sighed slightly and shook her head helplessly. "Forget it. It seems that everyone is quite happy today. Let's not ruin everyone's mood! "

"After we attend the cocktail party later, we can go back earlier. As for her management projects, I will continue to get people to gather information. "

"But there is one thing that I must tell her personally tomorrow. Because recently, the company's financial side reported to me that she had transferred 50 million international dollars in the name of her father."

"I don't know where she invested the funds now, so I have to ask her about this tomorrow! "

At this moment, Chu Meng came to their side.

Among the 108 sisters, they had the best relationship. No matter what, as long as they were together, they would definitely say something thoughtful.

Just like now, Chu Meng was extremely dissatisfied with Chu Ni. She complained right away, "We didn't kill her father, why would she do this to us?"

"That's really rude. I wanted to go up and give her a slap. If it wasn't for the fact that she was also one of us, I wouldn't have given her this face! "

Chu Hui chuckled. "You'd better control your temper. There are so many distinguished guests here today, don't let them see us as a joke! "

"And what have you been busy with recently? "Why haven't I seen your shadow?"

As she spoke, Chu Meng glared at Chu ni coldly and said, "Of course, we're following our husbands to conquer the world. Yu Tian has a lot of plans now! "

Every plan was in full swing. As the people beside her, we naturally had to do some peripheral work for Yu Tian,

"You may not know this, but Yu Tian is currently participating in a World Assassin's selection competition. I'm sure you've heard of this assassin organization before, it's the magic snake assassin organization! "

However, Chu Hui and Chu Qing shook their heads in confusion. Chu Qing said in confusion, "Wait a moment, I've never heard of the demon snake assassin organization! "

Chu Hui also looked at Chu Meng in confusion and said in surprise, "I've never heard of it either. How did Yu Tian fight with them? Why did he have to participate in that competition?"

"This won't hurt Yu Tian, right?"

Chu Meng chuckled and said disdainfully, "You don't have to worry about Yu Tian at all. You should be worried about that assassin group. If Yu Tian appears there! "

"That assassin group won't be around for long. Yu Tian will definitely turn them upside down!"

When he heard this, Yu Tian also felt that it was very strange.

Chu Hui and Chu Qing were the top management of the family. They basically had all the secrets of the family.

However, they had never heard of this magic snake assassin organization. However, Carlisle had made it very clear that the funding provider behind Leinster was someone from the Chu family.

Since they had never heard of this organization, it must be some secret project of the family.

Or it must be some personal project that was personally invested.

Because the snake killer organization did not have a good reputation in the world, and it was also a very mysterious organization, the person who funded them did not want the family to know about it.

The more they thought about it, the more they found this project interesting.

At this moment, Chuuni came to the stage and said to everyone with a smile, "Thank you all for coming to my dance today. Today is my 20th birthday, and also the 20th anniversary of my father's death,

i still remember that my father died in front of me in order to save my life. No matter if I'm 20 years old or will live longer, I will always think of my father at this time,

he contributed everything for this family. Now that I'm 20 years old and can take over his project, I will be like my father in the future,

"For the prosperity of the family, he will also sacrifice everything for me. Finally, I hope that everyone can have a good time today. Thank you for coming! "

Yu Tian could hear that she still had a lot of resentment toward the family. How did her father die? This was interesting..

Chapter 796 – Chapter 795, Family Rules

The Chu family was the number one family in the world, and it was also a family with a lot of incense sticks.

Even though he had killed many of the scum in the family, there were still more than a million direct family members working for the family.

Not to mention the parents of the 108 sisters and their relatives, this was a very big branch.

Therefore, in management, it was impossible to cover all aspects, so there would be some management loopholes.

If some people took these loopholes as the shortcomings of the family, and timely repair, then there would be no harm or loss to the family.

But heaven knows, people are greedy, and especially greedy.

When they saw these loopholes that could provide them with a lot of benefits, they would never give up such an opportunity.

For example, the funding provided to the Magic Snake Assassin Group. The Magic Snake Assassin Group was now the most mysterious assassin group in the world. It didn't matter how much benefits they could create.

As long as they could control all the assassins in their organization, it was equivalent to controlling the lives of most people in the world.

In the eyes of the elite assassins of the magic snake assassin organization, there was no one in this world that they could not kill.

Unless they were some real experts, they would only give up if they really could not kill.

But even so, for the entire family, or for the person who provided the funds for them, this was enough.

At the very least, while controlling an assassin organization, as long as he casually gave an order, his enemies or the people he hated would all die in the hands of these assassins.

No matter how much money he spent, it was worth it.

So Yu Tian was considering this point. The person who provided the funds to Leinster must be someone in the family who hid very deeply.

When he thought of this, Yu Tian's gaze landed on Chu Ni.

Just a few sentences could tell that she was extremely dissatisfied with the family.

How did her father sacrifice his life for the family?

It seemed that only Chu Hui and the others could give him an explanation.

At this moment, Chu Ni took the initiative to come in front of Chu Hui and the others. She was expressionless and even said righteously, "You all heard what I said before. I'm already 20 years old today, can I take over my father's Project?"

Chu Hui shook her head helplessly and said indifferently, "Of course I can accept his project. You go to the headquarters tomorrow, and I'll immediately hand over the project that your father is currently working on to you. "

But under the premise that I have a question to ask you. Previously, you used your father's name to transfer 50 million funds from the headquarters' financial department, and your reason was project funds, because your father had some contributions to the family, so I didn't ask the finance department to cut off the funding for your father's project,

so of course the finance department transferred the \$50 million to you, but you didn't put the money into the project, and now the money is missing, I hope you can give me an explanation. Where did you spend the 50 million?"

Yu Tian also wanted to know the answer to this question, but Chu Ni's expression was especially indifferent.

Was she really only 20 years old? She looked even more composed than Chu

Hui.

Chu Ni just smiled and said disdainfully, "Even if the 50 million goes into my own pocket, isn't that enough?"

Don't forget that I'm also one of the 108 sisters. I also have the right to enjoy the family's resources. Each of you will spend a lot of money from the family's finances every day, I won't talk about others. Just take you, Chu Qing, for example. You are now the senior vice president of the family's management. As far as I know, your daily expenses are around 10 million,

I have no idea where you spend this money, or how you are able to spend so much money? Are you eating delicacies, or are you wearing the most expensive clothes in the world,

the cosmetics you use are just some high-end goods. They are not the most expensive cosmetics in the world at all. Although the clothes you wear are also custom-made,

"But in my opinion, the tailor who makes your clothes is not the best in the world. As for your servants and your bodyguards..,

"The total compensation for each of them is only a little more than 100,000 yuan. Now I really want to know what you do with the nearly 10,000,000 yuan you spend every day."

Hearing this, Yu Tian grinned. 10,000,000 yuan every day, and it was only one sister. With 108 sisters added together, this expenditure was an astronomical figure. It was a little too scary.

Ordinary people couldn't afford to support these women.

The more Chu Qing heard, the angrier she became. She said coldly, "Do I need to report to you how much money I spend? And Don't forget, I'm the senior vice president of the family's management. You Don't have the right to ask me this now!"

"Moreover, the money I spend has nothing to do with the family. That's the money my husband earned back. Is it wrong for me to spend his money?"? Moreover, these sisters are all here today,

you can ask Chu Hui, as well as Chu Xin, the company's financial president, if I took any money from the company's financial affairs? I don't want to argue with you about this now,

now it's you. Shouldn't you explain to us where your 50 million yuan is? If you think that each of us sisters have the right to freely spend money,

if you don't like it, then I have nothing to say. However, my silence doesn't mean that there are no rules in the family. If you violate the rules, it's best that my husband, Yu Tian, doesn't know,

my husband is a very serious person. If you let him know that you violated the rules of the family, I think you should know very well how he will treat you. "

Chu Ni glared at Chu Qing coldly. She did not want to talk to her about these useless things. She turned to Chu Hui and said, "Tomorrow, I will tell you where I spent the 50 million dollars?

"But you have to hand over every one of my father's projects to me. Now, this is what I have to do. I must earn back my father's honor and not let you all think that my father... died without any value! "

After saying this, Chu ni turned around and left.

Chu Qing was so angry that she stomped her foot and said coldly, "This is too much. She actually put the blame on me. Look at who she is. When she goes to the company tomorrow! "

"I'll listen to it with you. What exactly did she spend the 50 million yuan on?"? If the reason is unreasonable, it's against the rules of the family, all of her father's projects, I'll leave it to the other sisters! "

Chapter 797 – Chapter 796: Family Break-Up

When Yu Tian heard this, he felt that the management of the family was not that perfect. There were also scheming and scheming between the 108 sisters.

Everyone valued their own interests. In the face of interests, no matter how good the relationship was, it could not withstand the test.

The entire cocktail party was filled with joy. Yu Tian felt that this was a life of indulgence.

It was also a life that many people were pursuing. Thinking back to the past, he couldn't even dream of such a scene.

But now, he felt that this scene was especially fake and didn't feel real at all.

It was just like the 108 sisters. On the surface, everyone seemed to be very close, but the moment they turned around, they rolled their eyes.

Seeing this, Yu Tian asked himself in his heart, why did he pursue the so-called strength and protect these sisters?

Yu Tian came to a corner and sat quietly on a chair. The people around him were all talking about how sexy and beautiful these 108 sisters were.

Some people even said, "These 108 sisters, even among all the women in the world, are all outstanding. It's a pity that Yu Tian is the lucky one!"

"Who says so? Yu Tian alone has 108 women, and this is what we know. We don't know how many women there are in Yu Tian! "

"We're all men, why is the difference so Big?"

"It's best that you guys don't talk about Yu Tian here. Haven't you noticed?"

Today, the entire Chu family has come, but Yu Tian is nowhere to be seen. "

"Don't you think there's something wrong with this?"

The few of them looked towards the young man who spoke. Yu Tian's gaze also landed on the young man's face.

Looking at the young man's attire, he was also someone with a family and background. Even sitting there, he gave off a domineering feeling.

However, this young man's gaze was not very friendly. No matter who he looked at, it was cold.

Yu Tian only took a few glances at him and knew that this fellow was also a pretentious person.

The young man sneered, shook his head and said, "You should be very clear that Yu Tian is an important figure in this family. However, he did not come to such an important occasion today!"

In fact, the reason was very simple. The Chu family was trying to escape from Yu Tian's protection. Think about it, a family provided so many resources to a person...

most importantly, Yu Tian took the family's resources, but he specialized in doing things that completely conflicted with his family. For example, the war between Yu Tian and the superpower country, and the other day, some conflicts were launched in other places,

if I were the family head of this family, I would absolutely not allow my family members to do this. This was because Yu Tian had gotten what he wanted, but he had placed this family on the opposite side of the world,

you are family members, what would you think? Moreover, Yu Tian wasn't focusing his attention on this family right now, so he wouldn't appear on this important occasion,

this family also understood one thing, and that was to let Yu Tian become a strong person. After that, Yu Tian would abandon them all. Rather than waiting for this day to abandon them, it would be better to abandon Yu Tian in advance,

"In this way, you can still obtain some dignity and even some resources. Do you think what I said makes sense?"

The young man's words were really provocative. The surrounding people nodded one after another, indicating that what the young man said was very true.

Another middle-aged man followed closely and said as if he was very anxious, "If you say so, then will the Chu family and Yu Tian be cut off from each other forever?"

"If that's the case, then wouldn't anyone be able to pursue the 108 sisters?"

This fellow's words had gained the support and approval of many people. This was because no man could control his thoughts in the face of the 108 sisters' sexiness and nobility.

The young man laughed and said proudly, "You're absolutely right. However, it's not the time yet. There's no actual data to prove that the Chu family and Yu Tian will break apart,

as long as Yu Tian stayed in the family for one day, the 108 sisters would be his people. At most, we could invite these sisters to dance and deepen our impression of each other,

when Yu Tian left the family one day, we could at least make the 108 sisters think of us first. To put it in a dirty way, they are women. If they are women, they can not leave men,

what Yu Tian can not give them, or other men can give them. When a woman has enough wealth, what she needs the most is a man,

i have to say, Yu Tian is indeed a very powerful man. However, this man does not seem to be in his heart. Otherwise, how could he let the 108 sisters go?

Such a beautiful woman does not care,

instead, he spent his days outside pursuing dreams that others thought were impossible to realize. I knew a sister from the Chu family. This woman once told me that Yu Tian had always wanted to become the strongest person in the world,

at that time, I didn't say anything. However, this sister told me personally that Yu Tian was overestimating his own abilities. The most important thing for him to do was to protect the 108 sisters,

"Instead of chasing after the strongest person in the world, what benefits would this bring to the sisters? "Don't you think what this sister said is very reasonable?

"Can Yu Tian become the strongest person in the world? "In fact, it's completely useless to these sisters, because what these sisters want isn't a strong person, but a man!"

The crowd was fooled by this young man and nodded repeatedly. Even their gazes started to turn among the sisters.

It was as if they could immediately obtain those sisters.

108 sisters, 108 personalities, 108 different charms. If they were merchandise, anyone would be dazzled.

However, they didn't know that Yu Tian, who was sitting next to them, felt that they were especially laughable.

Just one-sided words could make them imagine so many things, and even so many beautiful scenes for them. It had to be said that this was a little cruel to them.

Even if their family wanted to break with them, the prerequisite was that they didn't have the ability to do so? They had to bear the consequences.

Therefore, Yu Tian turned a deaf ear to their words. However, there was one thing that Yu Tian really wanted to know.

Which sister was the one who told the young man that she had overestimated herself?

When he thought of this, Yu Tian deliberately moved to the side of the young man. He chuckled and said indifferently, "I feel that what you said makes sense. However, there is one thing that I seem to be very confused about, do the 108 Sisters of the Chu family really have such a big opinion of Yu Tian?"

Chapter 798 – : Chapter 797. Very High Status

The young man looked at Yu Tian with disdain. If it wasn't for the suit that Yu Tian was wearing, he probably wouldn't even look at Yu Tian.

Then, this guy smiled and said, "You don't know that. 108 sisters, just like 108 flowers. Each flower has a different color and a different fragrance!"

Some flowers might be willing to bloom beside Yu Tian, but some flowers felt that Yu Tian's side was particularly smelly, and they tried their best to stay far away from him,

that was why some sisters had a particularly strong opinion of Yu Tian. Or perhaps this opinion could be called a form of dislike. After all, Yu Tian's background wasn't that noble,

as far as I knew, before Yu Tian joined this family, he seemed to have been a farmer. I don't know what methods he used to get to know the current senior vice president of the Chu family, Chu Qing,

then, with Chu Qing's help, he finally joined this family. In order to prevent others from saying that he was a gigolo, the family gave him another name, the guardian of the 108 sisters,

in fact, everyone outside knew very well that the reason why the Chu family said this was just to put on a sheep's head and sell dog meat. How could they let 108 women marry a man at the same time,

just like what that sister said to me, the reason why the Chu family said this to the outside world was actually to let each of the sisters 'wealth increase dramatically, because the Chu family had already married 108 sisters to one person,

then, if other people wanted to go to any of the 108 sisters, they would have to pay a sky-high price, so there was the unattainable price of the 108 sisters,

in fact, the people in the family didn't know what the 108 sisters were thinking. They didn't care about wealth at all, nor did they care about the status of the family, what they cared about was whether they could marry a suitable man at the right age,

in the end, it's actually that simple. You see the 108 sisters here, attending the reception, but secretly, do you know how crazy these sisters are,

i don't know about the sisters in other places, but I know about the sisters who often live in the capital. After all, we are all people who like to play, and we often meet in some entertainment venues,

as for which sister she was, I didn't need to tell you in detail. However, I saw this sister with my own eyes. She spent a lot of money to hire a group of strong men and performed some actions in front of him that would make even us blush,

of course, I felt that this was very normal. The Chu family now had so much money. Even if they threw this money into the fire every day, it would probably burn for decades. Why shouldn't they play?

The words that this sister said to me at that time left a deep impression on me. She said that there was no need for her to guard anything for Yu Tian. She only needed to hand over her purest body to him once,

this was also equivalent to completing her own mission. Of course, it was still uncertain whether she could let Yu Tian obtain it. This was because the family was changing every day,

"The senior management of the family changes every day. After every senior management appears, a new rule will be born. Perhaps one day, the 108 sisters will no longer need to wait for Yu Tian,

"These sisters will truly be free! "

When Yu Tian heard this, he was really a little angry.

Of course, he was also analyzing whether this young man's words were true or if he was talking nonsense here.

However, looking at the young man's eyes, his temperament, and the tone of his voice, from these details, he could tell that what he said was not false.

Although he did not know who this sister was, this young man had told him one piece of information, and that was that this sister was permanently stationed in the imperial capital.

Then it was definitely not Chu Hui, Chu Qing, and the others who had followed him to the imperial capital. It was also the sister who had been staying in the imperial capital before these people came. It was very easy to find out who this sister was.

The young man felt that he had said so much, but Yu Tian had not said a single word. This made him feel a little unhappy.

Therefore, he slowly turned his head and looked at Yu Tian coldly. Then, he asked arrogantly, "Why do you feel that everything I said was fake? Also, I seem to have never seen you in the imperial city before!"

"Which family are you from? Who are your parents? How did you get invited here today?"

In fact, Yu Tian was very clear that this guy was just trying to show off to him.

If he knew that his status and status were not as high as his, this guy would definitely put him in a high and mighty position.

However, if he knew that his status and status were higher than his, this guy would immediately put on a fawning expression.

The descendants of some wealthy families in the capital were exactly the same as this guy. They just wanted to show off and nothing more.

However, in order to obtain more information, Yu Tian still smiled indifferently and said, "I don't have much ability. I just manage a small company in the capital! "

At the same time, I also provide some gardening materials to the Chu family.

That's why they invited me here. Then, sir, your company must be very big! "

The young man laughed. After he finally confirmed that Yu Tian's identity was not as good as his, he immediately began to show off.

He also said arrogantly, "It's very big. To be more precise, it's especially big. Compared to my company, your company probably has less people than my department,

"If you've been in the capital for a long time, you must have heard of the capitaPs global financial institution. That's my family's company. Our company has invested in many projects in the capital. "

"Now, the amount of investment has exceeded 100 billion. It can be said that in the capital, other than the Chu family, it's our Han family. Oh right, I forgot to tell you my name. "

My name is Han Shaozhe. You must have heard of my name because there are many people who know me in the imperial capital. Of course, there are many people I don't want to know. You also know that..

after a business becomes big, there will always be some people who will follow behind you to suck up to you. I especially don't like others to suck up to me.

They suck up to me because they want to get my investment,

"But everything I do depends on my mood. If I'm in a good mood, I can do anything. If I'm in a bad mood, no matter how high your status is, you're nothing in my eyes! "

Yu Tian only looked at him indifferently. This guy was really good at acting pretentious.

After all this time, he just wanted to tell him that his status was particularly high and that he was nothing in his eyes.

Just then, a sister of the Chu family waved at Han Shaozhe..

Chapter 799 – Chapter 798, Arrogance

Yu Tian looked up. This sister looked about the same age as Chu Hui, but there was no trace of Chu Hui's calmness on her face.

She even gave Yu Tian the feeling that she was a socialite.

It was a birthday party to begin with, and the other sisters did not drink that much. Only this sister seemed to be a little drunk.

If he guessed correctly, this sister was definitely the sister that Han Shaozhe had mentioned.

At this moment, Han Shaozhe also stood up and turned around to give Yu Tian a very pleased smile.

"See? Actually, I don't have much to say to these sisters from the main family, but they just like to be with me. Do you know who this person who greeted me is?

"He's the manager of all the real estate projects in the imperial capital. Her name is Chu Yue. Speaking of which, she and I used to go to the same school. We're still classmates."

"Of course, those who can go to a noble school must be influential figures. You definitely don't know how luxurious a noble school is, but that's not the main point. "

"The main point is that Chu Yue and I are classmates, so we have a good relationship not only in business projects, but also in private. If Yu Tian hadn't interfered..,

"Maybe she would be my wife now!"

After hearing this, Yu Tian was a little angry and couldn't help but feel angry. How dare he say such pretentious words in front of him? This Han Shaozhe had never died before.

However, he held back his anger one day and pretended to be very admiring as he said, "Was the person you told me about earlier Chu Yue?"

Han Shaozhe tidied up his suit as he nodded and said, "Since you're a decent person, I'll talk to you a little more in private!"

"If you have any difficulties in your business in the future, you can come to me. If you can protect some of your feelings, it'll definitely be of great benefit to your business. "

"For example, this Chu Yue. She is in charge of the entire Chu family's real estate project in the capital. Naturally, she will have her own unique views. As long as you protect her well!"

"Your business will definitely be smooth sailing. Don't do it here. I will bring you to get to know her now. Follow Me! "

This time, it was great. Initially, he was thinking about how to listen to their conversation. In the end, Han Shaozhe actually wanted to bring him to get to know Chu Yue. Wasn't that great?

She could listen to what they were saying and see what kind of sister Chu Yue was?

As they were talking, the two of them came to Chu Yue.

Chu Yue glanced at Yu Tian first, but at this moment, Yu Tian looked very ordinary, even unremarkable.

So Chu Yue only glanced at him and then said to Han shaozhe, "I'm really sorry. There are a lot of people here tonight, so I haven't taken my time to talk to you,

"Now we finally have some time. Let's go over there and have a few drinks! "

Han shaozhe nodded and turned to Yu Tian. "Come over and have a few drinks with us. The wine is over there. Bring it over for us!"

Yu Tian felt that it was especially laughable. He didn't know when he had become Han Shaozhe's follower and even asked him to get the wine.

However, for the sake of the rest of the plan, Yu Tian still went to the wine table and poured a few glasses of wine for Han Shaozhe and Chu Yue.

Chu Yue also completely regarded Yu Tian as Han Shaozhe's sidekick. She even mocked him, "This sidekick of yours looks pretty good. He's quite perceptive. When are you going to introduce me to such a sidekick!"

"My current assistant is so stupid that he can't do anything well. I have to teach him everything. In my opinion, my family is just a fake prosperity!"

"There's no one who can make a name for himself. I'm really disappointed in this family!"

As she spoke, Chu Yue downed the wine.

Yu Tian expressionlessly refilled his glass once again. Han Shaozhe nodded and said, "I really don't have any objections to what you're saying. The entire Chu family is just relying on that little bit of capital to survive!"

"There are so many powerful families in this world. The whole world is staring at this big piece of cake for the Chu family. Who knows when they'll be able to share this cake! "

And didn't you notice? "Yu Tian didn't attend such an important birthday cocktail party. I was telling others that your family might break up with Yu Tian!"

Chu Yue shook her head without hesitation. She snorted and said disdainfully, "It's good to break up as soon as possible. Only those old fogies in the family think that Yu Tian can really bring something to the family! "

"In my opinion, that Yu Tian is nothing at all. Without the care of the family, he's just a poor boy in the countryside. Why should the 108 sisters care about him?" ?

"Anyway, I don't want to live this kind of life. If the family really wants to kick Yu Tian out, I absolutely agree with it! "

Hearing this, Yu Tian felt a little strange. He had never met this Chu Yue, and he had never participated in his project.

It could even be said that this was the first time he had met her. Why did it feel like this Chu Yue hated him so much.

What exactly was wrong with the Chu family's management of the sisters? Why did it feel so unstable?

It didn't feel like when he first met these sisters, everyone was so United. At that time, as long as he said a word in the group, the 108 sisters would echo him, afraid that he would be wronged.

But now, these sisters were all disloyal, as if each of them had a big opinion and anger.

If this was really a negligence in management, it could be easily solved.

But if this wasn't a mistake in management, but someone was behind it, then it would be a little difficult to solve.

However, judging from Chu Yue's expression and her words, it wasn't very likely that someone was behind the scenes.

Yu Tian analyzed it carefully. It was very likely that Chu Yue had lived in the imperial capital for too long and had contracted a noble illness.

She felt that she was more powerful than anyone else and didn't put others in her eyes at all.

Moreover, Chu Yue was in charge of the real estate projects in the imperial capital. If she were to be calculated based on her net worth alone, her net worth might have already exceeded a hundred billion. This was many times more than her other sisters.

Therefore, it was understandable that he was a little arrogant. However, what he could not accept was how she thought of herself. This was a little too much..

Chapter 800 – Chapter 799, Don'T Care

Yu Tian wasn't that angry right now because he knew that Chu Yue and Han Shaozhe would have other things to say to each other.

Han Shaozhe really wanted to show off now. Wasn't this a good opportunity?

His guess wasn't wrong at all. Han Shaozhe really wanted to show off his familiarity with the Chu family in front of Yu Tian and the surrounding audience.

Because there were so many rich people present, and even those rich people from all over the world, not many of them could have any contact with the 108 sisters of the Chu family.

Only he himself could be so familiar with one of the 108 sisters of the Chu family.

This was already enough to be pretentious, but Han Shaozhe still said arrogantly in front of everyone's envious eyes, "Chu Yue, recently, a few of our cooperation projects have been developing quite well,

"Especially the large residential area we developed in the southern part of the imperial capital. After the opening of the market in a few days, the results will definitely be very good. and recently, I've been looking forward to a few more projects!"

"If it's possible, we can talk about these projects when we have time. Let's play together!"

Chu Yue nodded without thinking and said, "To be honest, I feel very tired about earning money right now. The money in my hands right now can not be used up in a few lifetimes!"

"I don't even know how to spend this money. If your project makes money, I think it's meaningless. There's no project that can make me lose a bit of money. This way, I can still find it interesting! "

Han Shaozhe laughed and said helplessly, "I can't satisfy your request. I choose every project to make money, not to mention the capital!"

Many investment companies all over the world wanted to cooperate with me, but they didn't have the opportunity. First of all, they didn't have the ability. Secondly, I wasn't familiar with them, so how could I have such a good relationship with you,

moreover, you don't need to be afraid of getting hurt if you have too much money? If you really feel that you can't spend the money, you can just casually spread it out. Isn't it interesting to play with it like this?"

Chu Yue, on the other hand, felt that this was fine. She laughed arrogantly and said, "WE 108 sisters have special privileges in the Chu family. We don't need to hand over the money we earn to the head of the family. It's entirely up to us to decide how to spend the money!"

"I now control the entire real estate industry in the capital. More than 70% of the real estate is developed by me. Pve earned so much money now, and I don't even know how to spend it!"

"You've reminded me. When I have the chance, I really should spread my money out. Otherwise, others will think that I'm stingy, but I really like the feeling of being chased by others..,

"If it weren't for the fact that Pm a 108-year-old sister, I wouldn't have become the Boss!"

When Yu Tian heard this, he felt that this Chu Yue was even more arrogant than he was.

He had earned so much money, but he didn't think it was anything great. He had only earned over a hundred billion, and it was as if the Earth couldn't hold it anymore.

At this moment, Chu Yue finished the wine in her glass, so he arrogantly ordered Yu Tian, "Hey, can't you see that we've finished all the wine in our hands? Go and get us a few more glasses!"

"Shao Zhe, your sidekick doesn't have any discerning eyes. If I Were you, I would have kicked him away long ago. Look at that stupid look of his. How did you make him your sidekick?"

Han Shaozhe smiled helplessly and also stared at Yu Tian with disdain. He smiled and said, "He's not really my sidekick. I just met him tonight!"

"It seems like he wants to make a living with me. I think he's pretty good, so I want to give him some food. If you don't like him, then just make him disappear! "

Han Shaozhe waved at me and said impatiently, "Didn't you hear me? Miss

Chu doesn't want to see you. Go Do what you need to do!"

Yu Tian raised his eyebrows. I'll let them be arrogant for a while and see if the other sisters are as arrogant as me. If they are, Pll fix them all tonight.

So he turned around and went to the corner. At this time, Chu ni seemed to have met something that made him especially angry?

Yu Tian pretended to go to get some food and also went to their side.

Chu Ni was cursing in a low voice, "He really doesn't know his last name. He's just the President of a senior management department. He actually wants to ride on my head. I really gave him some face! "

A few girls who were about her age stood beside her. They seemed to be Chu ni's good friends.

One of the girls with red hair even said, "After your birthday tonight, won't you be able to inherit your father's project tomorrow? What right do they have to control you?"

Another girl wearing a black short skirt, revealing a pair of beautiful legs with black silk, said disdainfully, "I think she's right. You've been in school for so long, whether it's in your studies or other aspects!"

"You're the first place. It's perfectly reasonable for you to inherit your father's project. Why should they care about you?"

Chu Ni coldly glared at Chu Qing and said through gritted teeth, "Isn't it because she's relying on her husband being Yu Tian? If it weren't for Yu Tian! "

"I can also become the highest CEO. At that time, I won't need to look at their faces and live. Everything about becoming a monk will be in my hands!"

"If we're talking about management skills, I definitely won't be inferior to them. It's only because of Yu Tian that they're showing off like this! "

The red-haired bestie said in a low voice, "Didn't you say that all 108 sisters are going to marry Yu Tian? You can also marry Yu Tian. At that time, won't Yu Tian also be able to support you?

What do you care about? Aren't you also on equal footing with them?"

However, Chu ni snorted coldly and said hatefully, "I don't want to marry that Yu Tian. Don't look at me as one of the 108 sisters, but I only hate that Yu Tian and don't like him,

"Moreover, I will never marry him. My father died because of him. I want to avenge my father. One day, when I have the ability, I will definitely kill Yu Tian!

When he heard this, Yu Tian frowned.

He didn't seem to have made any decision to let his family give up their lives. Moreover, he didn't seem to have any impression of this Chu ni's father.

These weren't the main points. The main point was that this Chu ni's thoughts were too extreme.

Although he didn't know why her father died, but because of this, the entire Chu family was facing the possibility of being eliminated. Chu Ni was going too

far..
