

Chapter42

Rose

I rolled over, pulling the blanket to my chin as I snuggled deeper into the bed. Jax left early this morning. I have no idea how he was up and moving so early. I was bone tired, but in a good way. We stayed up late last night till the early morning, so seeing him up and dressed all wide awake.

He said he had some pack business to handle and a ton of paperwork that needed to be taken care of. I was ready to get up and come help him, but he told me to stay and rest. Who would argue with the alpha? So, I followed his orders.

I sighed as I found a comfortable spot, taking a deep breath and letting Jax's scent fill my nose.

When something or I should, someone pounced on me, making me let out a groan,

"Wake up!"

"Oh my god, Harley, I think you broke me," I groan as I try to roll her off me, "Get off me, you crazy person." I swatted at her.

All she did was laugh, rolling to the side. Pulling myself up, I looked down at her, trying to give her an evil eye. All she did was smile at me.

Rolling my eyes. "What are you doing up here?"

"Well, my dear wonderful friend, I have come to keep you company and find all sorts of things to do while our mates are busy."

"Oh no, Harley, we are not turning poor Wayne's hair a different color again. He just got rid of the pink."

She barked out a laugh. Bouncing out of the bed.

"Now, why would you think I was up to that? I mean, come on, Rose." She stood there with her hands on her hips, an amused look on her face.

I squint at her, but all she does is laugh.

"Come lazy butt, let's go." She clapped her hands at me, pulling the blanket off me.

"HARLEY!" I yell, trying to grab the blanket to keep it on me,

"Oh please, we have the same anatomy." She rolled her eyes but kept pulling the blanket.

"Oh my god, you ate the worse!" U grumble, jumping up and running to the bathroom.

"Why don't you make yourself useful and get me clothes, seeing as you disturbed my sleep," I yell at her through the door.

I wasn't going to go back out there butt-ass naked. I do not care if she is a female or not.

"Yes, my Luna," She sings out but then laughs.

God, she is the worst. But then I couldn't help the smile that came. Harley had turned out to be a good friend, and it felt so nice to have one after so long. Sure, we were quite the opposite of each other. She was loud and confident, and I was quieter and more laid back,

I hopped in the shower. No sooner the door open,

"I will lay the clothes on the counter. Oh, great one." I could hear her snort out a laugh at herself.

"Thank you, my wonderful Beta."

I knew that would get her.

"Just remember it when I'm due for a raise." She chimed,

"You!" But she cut me off with the door being closed.

Once I was done, I got out, dried off, and dressed. I braided my hair, seeing as I didn't want to deal

with it being wet and on my face.

Coming out, Harley was flopped on the bed.

When she heard me, she popped up. "Ready?" She started towards the door.

"And what are we doing?" I asked,

Pulling the door open, she smiled at me. "Oh, you will have just to see,"

"Harely?" I tried to sound serious.

"Oh, alright. Party pooper. Maybe we could start reviewing some things you will do as Luna."

That didnt sound too bad.

"Okay, I would like that. But first, can I stop and see Jaxs?"

"Girl, you just spent how many hours tangled up with Alpha man?"

My cheek burned a little when she said that.

"Sorry," I whispered. Looking at my fingers as we started walking.

"Dont be. Im just pulling your leg. It is natural to want to be near your mate. You guys have a strong bond already. Come on, he is in the office with Wayne."

Denise

"So I see you got put back on with us?" Tamrin says as she sees me walking in.

Looking over at her, she had a smug look on her face. One, I wanted to smack her and knock it off her face.

"Yes. But only for today. Im going to be going back and forth. Tomorrow im with my dad."

"How come?" Amy asked as she picked up her tote of cleaning supplies.

"Well, it was a deal my Dad and Alpha made; they felt it would be better if I broke up my week. Im not entirely against it. I mean, the training isn't something im looking forward to, but it does change it up through the week,"

"Oh. But i thought you hated training with your dad and didnt want to return to it?"

"Yes. But I didnt want to be pulled off my duties here either, so I took it."

I wouldn't tell her I planned this. I wanted to return to training. I needed to become strong again to show him how much better I would be for Luna than a pale, fragile little girl.

"Or maybe the Alpha knows you are batt s**t crazy and wanted to keep you away from his mate; I mean, after all, you attacked the poor girl."

"Shut it, Tamrin," I growled at her. Making her raise a brow at me. "Or what? You going to attack me next?"

"I can make you shut up." I took a step towards her. She always would poke at me. I took not wanting to cause waves and get kicked out of the pack house, but im not anymore.

"Maybe I should go tell Alpha? Huh, how about that," She gave me a smirk.

I growl at her, grabbing my things and walking out,

"You know you shouldn't talk to her like that. You know she will run to the Alpha." Amy says as she catches up to me,

"I cant stand her. She always thinks she is better than everyone."

"Her mother is one of the head Omegas, so she thinks she is entitled."

Rolling my eyes, "My Dad is a ranked warrior; I outrank her."

"Not when you work in here. Maybe the days you

are out there with your father, but Alpha had not announced a change in your rank. So it makes you an Omeag still,"

"Dam it, you are right."

"Look, just play nice. And ignore her. dont play into her games; let's get our work done."

With a slight nod, we fall into a pace as we work through our chores. I did not bother looking or talking to Tamrin for the rest of the time we worked,

Ron

I had everything in place. I had the spot where I would hide her for a while, all set up. it was fully stocked, so I wouldn't need to bring anything out. My plans to just take her back to the pack would not work. Not with Harrison and Landon, not wanting anything to do with me right now. I will handle them later, but they both forget who runs this pack. Harrison maybe acting Alpha but i am the only Alpha here. And if they do not get on board with what i have planned then they will be replaced. Even if i have to take that girl myself and have her bare me a child so i can raise it to act and be better then the two moron sons i have right now.

I thought the two would be good sitting there running the pack, but something changed since I told them my plans.

Now I find out Morgan is returning home. She and Harrison have called it off, but her father was keeping the treaty. I'm not sure why. He wanted his daughter to be of higher rank.

Oh well, I cant focus on that right now. I need to figure out when im going to go in and get that girl. The sooner, the better.

The full moon is approaching, so I need to move fast.
