

## Once Human 101

### Chapter 101

When Arthur finally arrived at the arena, he stood in the opposite direction of Buo and patiently waited for him to finish recovering .

Buo Bing was sitting cross-legged and from time to time, he would take a small sip from the red colored bottle, some blood drops would come out of his skin and circle around for a couple of seconds before melting in his hands .

This process was repeated a few times but each time it would take only a couple of seconds so, by the time he recovered a bit of his strength, only a few minutes passed since his last fight with Coneli .

Arthur was not planning on using Eclipse Magic or Dark Magic as he didn't want to warn Lissandra about his presence . She uses Dark Magic so once she sees it, she would be able to ascertain his identity and that was something he didn't wish for . Their only advantage right now is that they are not discovered by her yet .

He wasn't certain if she knew Lucy's real appearance or not but even after seeing through her mask, Lissandra didn't seem affected and totally ignored Lucy . Perhaps she only heard some description about them and never saw them in reality? None of that matters, they have the advantage of not being discovered so sneak attacking her is the best way to capture her . The only troublesome thing is that her clan would not stand still, as for others, it is unknown how they would react .

Arthur remained silent and didn't introduce himself or speak to Buo Bing, once the black-haired youth stood up and unsheathed his sword, he said

"Are you sure you recuperated fully?"

The reason he said this was only to sound like a kind and patient person, basically, it was acting cool and friendly . But what he said was obviously misunderstood by Buo Bing, who was displeased from the beginning .

"To defeat you, it's more than enough . "

As he said that, he unsheathed his saber and took a fighting stance, he was not someone who underestimates his enemies and despite saying that, he was not going to go easy on Arthur .

Arthur shrugged his shoulders and stood there calmly, he didn't take Makaze or any other weapon, he was not willing to show any of his skills, especially the Peak Sword Mastery .

His Sword Mastery is at flawless, whether its sword-dancing, executing perfect attacks or special slashes, he knew them all, after all, he possessed countless sword-users and had the Peak Sword Mastery, there is literally no one who could beat him in using swords .

He had many things besides the Sword Mastery, such as his Ancient Fire, the several Advanced Mastery Attributes and so on . Although he was not excellent in using them, that didn't mean they are weak, just adding them to his normal punches or kicks would deal bonus damage but he was going to focus on one Attribute and that is Lightning .

It was one of his Unique Attributes and second to none in speed, once he transforms into the lightning form or uses [Transcendence], he becomes much more powerful, add that to the Godly and Natural Lightning, he would become almost invisible in the Immortal Realm .

Please visit [freewebnovel.com](http://freewebnovel.com)

Although he circulated the Dark Star Strengthening technique, he was not going to use the Dark Magic, but albeit not using it, the protective barrier around his body would still be present, moreover, his attacks would contain the black flames too .

It was unknown if Lissandra would sense the dark magic or not but the black flames were not a form of Dark Magic but something completely different, even Arthur didn't know what they were except that they add damage and are very lethal, even to Lucy's Ice Lotuses . Although they could barely block them, they can't do so permanently .

The more intriguing thing is that the ring he wore also added black flames the same as the one he got from the breakthrough, previously, when he wore it before breaking through, no one black flames showed in his normal attacks but currently, even a normal punch would produce them, he had no way of cancelling that, even with the help of the System .

. . .

The battle has finally begun, Buo charged at Arthur with great speed, a huge blood wave was created by a wave of sharp saber and its target was Arthur, who was still standing still .

Seeing that a blood wave was aimed at him, Arthur was confident that a Dark barrier or the dark protective layer around his body could easily withstand it, but he decided to not do that, it would be too obvious and he wanted to show a bit of struggle in front of 'them' .

Yellow Lightning twirled around him and many lightning streaks whistled through the air and blocked the Blood wave . They looked like normal lightning streaks but they soon formed a net bigger than the blood wave and completely blocked it from advancing further, what's more, is that Arthur was already on the move . It was unknown how but he appeared at the right side of Buo and sent at the enemy's arm, making him back away a couple of steps .

He almost put no strength in his kick as to not seem overly strong, with his astronomical Strength stats, he could have crushed all the bones of Buo but he restrained himself and held back a lot .

However, this one-sided exchange was more than surprising to the spectators, especially Meyzu, who was going to enjoy seeing Arthur get beaten badly by Buo, but unfortunately, it was the other way around . Not only was his blood wave blocked by his lightning, he managed to kick Buo and push him back .

Granny Shishu frowned when she saw the lightning, although it was the most basic lightning with yellow color, she, as a lightning user, could feel its extreme intensity and power . Such powerful lightning despite being only a basic one is terrifying, what if he could use the special lightning of her clan?

Moreover, she and the other six could see him transform into lightning and appear near Buo, that speed was not something the black-haired junior could match .

"Granny Shishu, what do you think about that brat's movements? He clearly used Lightning . "

The one who asked was the irritated Meyzu, despite being displeased with what happened, he had to admit Arthur's movement and attacks were a bit fast and overwhelming to an opponent such as Buo .

"It's just that Basic Lightning, you could notice that just from the color, but his use of it is perfect and flexible to a terrifying degree, I say Meyzu, your junior is no match for him, you better call him back or he'll just embarrass himself . "

Granny Shishu didn't hold her thoughts and spoke honestly, it was obvious just from one exchange that Arthur was stronger, it may seem like nothing to others but just by the way the blood wave was easily blocked and his speed, an expert could ascertain that Arthur is stronger despite being at a lower Grade .

"Buo, you're not his match, forfeit . "

It was unknown what he used but Meyzu telepathically to Buo, no one but the two parties could hear what he said .

Hearing the clan master say that, Buo's face turned ugly and his expressionless turned into one of anger and unwillingness, albeit losing the previous exchange, he was still confident he could hold his ground against Arthur but since it was a direct order from the clan master, he couldn't be stubborn and disregard the order .

Currently, everybody was gazing at the arena . The blood wave had already dissipated but the lightning was still floating a couple of meters above Arthur, it transformed into a huge lightning spark . If Arthur wanted, he could use the Natural Lightning, but that was too deadly, if it touched Buo, the strong vibrations could crush his bones and possibly his Meridians if he could not resist them, crippling such genius would make Meyzu thirsty for revenge, after all, he appeared to be someone who takes care of his clan's disciples .

You could see that just by the fact that he told Buo to back off, he didn't want this junior to suffer a set back by losing miserably to Arthur, as an experienced and old expert, he knew who would win in this fight after that exchange .

After staring at Arthur for a bit, Buo Bing unwillingly walked out of the arena after saying three words .

"I admit defeat . "

What he said was expected by the elders but the juniors were dumbfounded, the battle lasted barely a minute and Buo already admitted defeat? How could that be so?

Many were unable to believe what just happened, after all, Buo was considered very strong, he even won against Coneli, so it was kind of strange that he admitted defeat this fast .

Azure Bai was smiling as he gazed at Arthur, he didn't know who the youth was but he was very curious, especially after seeing what happened . One other person who was curious was Aborak, but he was not curious about Arthur but the robe, precisely the symbol on its back .

The skull symbol that changed to blood red color, it was a creepy looking skull with a third eye on its forehead, the Lich King kept staring at it for some time and pondering about something . Of course, he didn't voice out his thoughts and kept them to himself .

Even Lissandra was staring at the arena, she was not curious about the symbol as she never saw it, despite having gained a portion of Zodiak's power and the strange book, she never saw that symbol . She was only curious about the youth but him being Arthur never crossed her mind . She came here to enjoy here time and have fun, for her, the junior fights are some kind of entertainment to pass time, it's a bit funny when you know that all the things Arthur and Lucy prepared and specifically for her and the 'fun' she is having is not something that will last long .

. . . .

The atmosphere was dead silent as Arthur stood in the middle of the arena and gazed at the juniors sitting not far away . After some time, seeing that no one was willing to come here and fight, he showed a friendly smile and said

"I'm MoonStar, I wonder if anyone is willing to exchange some pointers with me?"

He didn't say any arrogant word and only spoke what was on his mind, or so the listeners thought, his goal was something else but he had to act and couldn't rashly provoke everyone .

Whether it's the Royal Cobra Clan, the Lightning Fox Clan or the other factions, each had one unique Genius they relied on him . For the Monster Clan, it was there were two, one was very familiar to Arthur, it was Young Master Yun and the other was a white-haired youth that looked a bit similar to Kilan .

The Undead Race had a lich at the Peak of the Immortal Realm, the lich looked like a skeleton and wore a grey robe, from the beginning of the banquet, he didn't speak or move, he was even more bizarre than Aborak .

The Doom Bringer Clan had the youth that came with Meyzu, the youth had a sword on his back and red-hair like Meyzu, he emitted thick killing intent and stayed silent with his eyes closed since the beginning . The Lightning Fox Clan had the green-haired and fairy-like girl and last but not least the Royal Cobra Clan which had a woman . It was a woman in her twenties with an alluring body . She wore a tight dress and sat next to other girls while enjoying some dessert .

She completely ignored what was happening on the arena and simply chatted with the other girls, even her outfit was not meant for fighting, clearly, she came here not to fight with others but to enjoy her time .

All of these geniuses were at the Peak of the Immortal Realm and they represented their own faction .

. . .

After Arthur spoke, no one jumped on the arena, the juniors just gazed at him with envy and curiosity . They were intrigued by his identity, although they didn't understand how he still made Buo admit defeat .

"Fuck! Senior Buo just admitted defeat because he was injured from the previous fight, who does this punk think he is? I'll take care of him . "

A short youth jumped from the crowd, he wore the outfit of the Doom Bringer Clan and held a gold scabbard with a short sword sheathed in it .

He was displeased by the previous fight and wanted to regain the little bit of face his clan lost, all the juniors felt he was courageous but extremely stupid, especially the elders .

"It seems Brother Meyzu's clan disciples are talented and courageous . "

The praising words of Bai Lingyue were like needles piercing Meyzu's ears, he was angry because of Buo's defeat but here is another idiot jumping to his doom .

"Let's begin!"

As he said that, the youth unsheathed his sword and leaped at Arthur without even waiting for his answer . A weak-looking Blood Ball was conjured from a blood gem engraved on his gold sword, the blood ball flew toward Arthur's head .

The youth followed that by a slash of his sword from afar which created 20-inch blood snakes that swirled around the blood ball and increased its speed .

Seeing this, Arthur didn't budge, the huge lightning spark above him came down and with a speed faster than the incoming attack, it struck the blood snake and the ball, shattering them instantly . The yellow lightning didn't stop as it hit the youth's chest before he could react . The poor youth was sent flying out of the arena with a bloody wound on his chest, his clothes were burned from the attack and blood flowed out from his injuries .

Arthur purposely avoided any vitals but he still broke some bones and dealt some damage to the youth's body . He waiting for the right time to begin the plan .

No one was surprised when they saw what happened, it was kind of expected, although most of them were confused on why Buo admitted defeat, no one thought Arthur was weak and simply jumping on the stage like that youth is totally idiotic .

The lightning spark returned to where it was and kept floating there, if Arthur wanted, he could make it bigger but he decided to just let it be like that . He was not planning to display all his power .

The atmosphere returned to its usual silence, no one spoke or went to fight Arthur, which made it awkward . After some time, a person could not bear it and leaped on the stage .

It was a youngster with a golden-robe and handsome looks, he was Young Master Yun who Arthur met in the Treasure Pavillon .

"It's time for the big shots to fight right now, why don't you go down from the arena?"

Yun was not planning on being respectful toward Arthur, so he cut through the chase and said what's on his mind . Arthur's presence made thing awkward and stopped the fights since that's the case, the fight between the geniuses is going to begin so he told Arthur to go back and it was not his place and he was not worth fighting .

However, but what he heard next made Yun almost cough out blood, his face turned ugly and his smile disappeared .

"Why should I? Defeat me and I'll step back from the arena, that's how things are, or perhaps you can't do that?"

Yun was not expecting Arthur to retort like that, so he remained silent for a bit before grinning and arrogantly saying

"Fine! It'll be done in a second, let's not waste our time!"

As he said that, Yun took out golden black gauntlets from his storage . The gauntlets were big and had some spike on their edges . Yun didn't waste time as he hastily wore them and took a bizarre fighting stance . He was overconfident in his win but he simply was not going to fight bare-handed against Arthur, he saw what he was capable of and had to be a bit serious .

A golden light emanated from his robe as his long hair fluttered in the wind . His appearance was dazzling as it made many young maidens heart beat rapidly .

Seeing that Yun was going to attack, Arthur secretly took out a blue talisman from his storage and stuck into his wrist under his sleeves, no one was able to see his actions as it was in a very secretive and fast manner .

After doing that, Arthur shifted his gaze to Yun and displayed a provoked and sneering gaze, as if he was saying 'Come on! Attack me, I'm waiting for you . . '

Yun rushed at Arthur while punching out with his gauntlets, various golden energy bursts were created by his countless punches, although he was still far from Arthur, he kept punching and each punch created a strong golden energy burst that was aimed at Arthur . Clearly, he was planning to finish this from the start .

Arthur didn't hesitate as he circulated the lightning spark and created 4 feet lightning shield planning to block the energy bursts . He also moved from his position and made his way toward Yun while making a huge detour to avoid the energy bursts .

Two small needle-like streaks of lightning were launched from his fingertips, their target was obviously Yun's body, precisely his two eyes .

Arthur's speed was a bit slower than Yun but in no time, the two of them arrived in front of each other and clashed . The two lightning sparks were shattered by Yun's gauntlets, after blocking that, he rooted his legs into the arena and punched out with immense strength .

Blinding golden light was emanating from his gauntlet as a strange looking seal appeared in front of the gauntlet . A strange looking lantern appeared on Arthur's left hand, he waved around and placed it where the gauntlet was going to hit him .

The grey looking lantern was shaken a bit by Arthur's hand and yellow fog came out of it, the process was very fast and by the time the golden seal hit Arthur's chest, the condensed yellow fog was already around it .

Arthur received the attack head-on, blood came out of his mouth as he was sent flying, but before he did, he clapped his two fingers, making an unnoticeable sound and at that time, several thunderclaps rang out in the arena .

The thunder streak out the condensed yellow fog and all its surroundings, including Yun, who was happy that he landed his hit but the happiness disappeared as the pain followed, the thick thunder explosion

sent his body flying high-up in the air, some blood leaked out of his lips as he fell to the ground and slowly stood up with an ugly face .

The item Arthur just used was a Mystic Ranked Item that stores Lightning energy and condenses it, then when released, it transforms into thunder explosions that deal tremendous damage .

The only reason Arthur was sent flying is because he acted it out, such strike from Yun would not hurt him normally, not after he started practicing the Dark Star technique, but he nonetheless acted as if he was injured and spit some blood .

After stabilizing his body, Arthur rushed at Yun yet again with several lightning balls circulating around him, they formed a star-shaped lightning with each ball on an edge of the star, then it started increasing in size until it was the size of a normal human .

Arthur pushed his hands on the star-shaped lightning and with 'bzzt' sound, it flew with an extreme speed at the panting Yun .

The golden-robed Yun was surprised by Arthur prowess, seeing that another attack was coming at him with fast speed, he roared and punched the air yet again, but this time you could feel the arena's ground shake .

A bigger golden seal was formed, this time it emitted an incredible pressure as it struck the star-shaped lightning and shattered immediately .

Seeing this, Arthur's eyes sharpened, he charged at the huge symbol while waving around a long lightning whip in his hands, the last thing the spectators saw was a bright flash before Arthur's body was sent flying out of the arena and Yun staring at it with a daze .

After a few second, Yun grinned and crossed his arms in a proud manner as if he expected this outcome .

## Chapter 102

"It seems the guest you invited is actually not bad, Senior Bai . "

Meyzu said that while having a smug look on his face, the disgrace he suffered earlier was returned when he saw Arthur's body sent flying out of the arena .

"Indeed, Senior Bai, that young man has a promising future, for him to cause Yun to be in such a miserable state is a great feat . "

Kilan, who was supposed to side with his Race, praised Arthur and completely disregarded Yun for he didn't care about Yun a lot, what he cared about most right now is appealing to Bai Lingyue and possibly gain a favor or two . "

He showed his usual friendly smile as he gazed at Arthur, who slowly stood up and went to the table he was sitting at previously .

Bai Lingyue didn't comment on this as his eyes were fixated on Arthur, who was making his way to his seat . He didn't appear depressed about Arthur's lost as his(Arthur's) face was expressionless without regret or unwillingness .

"Ha ha ha, I told you to back off earlier but you didn't heed my warnings, serves you right! It's for the strong people to fight and not weaklings like you . "

Yun's mocking voice rang in the silent garden, he looked at Arthur with eyes full of contempt and sneering . Although he was saying that, his appearance didn't look that good, to be honest . With wounds all over his body and most of his robe ripped apart from the thunder explosions, his exterior appearance couldn't be worse .

With Zodaik's black robe covering his body and head, Arthur silently sat on the chair and didn't speak a word, after a few seconds, he grabbed a piece of meat and stuffed it in his mouth, he chewed slowly and the chewing sound could be heard as no one spoke and merely stared at him .

"Ha ha ha, he is an odd entity, although he lost, he is so calm . I wonder if you could introduce me to him?"

Granny Shishu had an interest in Arthur when she saw his skills with lightning . Despite being only basic lightning, he used it in so many manners and his prowess with it is unbelievable .

Her relationship with Bai Lingyue was very close so she rarely called him 'Senior' like the others as she was older than him and they were close friends . If he could introduce Arthur to her and this junior accepts joining her clan, it'll be beneficial to her .

"Would you believe me if I said I never talked to him or met him?"

With some kind of strange technique that allowed Bai Lingyue to speak with Shishu telepathically, he transmitted that to her with some a curious and surprised tone .

Granny Shishu frowned when she heard that, she didn't maintain her frown as to not alert the others and replied to him

"You do not know him? Then how come you said you invited him?"

She knew him for a long time and he would not casually things like that, especially to help or protect a total stranger .

"It's true, today is the first time I see him, however, that woman with the mask is the one I invited, she was supposed to be with a man but apparently he did not come such a shame . "

The sharp eyes of the old woman shifted from Azure Bai to Lucy, who was calmly sitting at a table in the area designed for experts and clan masters . She was sitting alone and wearing a simple dress and her appearance was average, or so the people thought but she had a stunning beauty under that mask . Shishu saw the silver hair and the real face of Lucy but she wasn't that surprised .

In high-Realms, beauties were everywhere, when women reach a high-realm, they can practice techniques that allow them to maintain their youth . There is treasures and ancient items that could do as well . Even Shishu used it back then but she aged after a long time passed as she didn't break through for a very long time which made her body age as well .

"Does they come from a high-Realm? That boy has a perfect control over the Lightning, it's even better than 'Miya' . "

"Even I do not know what their origin is, I met them at the Treasure Pavillon and we became friends then . I didn't see them fight but even without that they had many . . . many unique and special things about them . "

Bai Lingyue didn't say any details but just from the way he spoke, you know he gave them a high evaluation which surprised granny Shishu .

"Anyways, it is quite unfortunate that the boy lost, I guess the opponent was a bit too much for him to handle . "

Listening to her, Bai pondered about the last battle as was unsure of what happened, after remaining silent for a period of time, he spoke telepathically to her again .

"About that . . . he should have won, I'm not sure if controlling Lightning like that consumes his Nether Energy at a very fast pace or if it's another thing, but I'm sure he could have won but . . . "

"But what?"

". . . But he didn't . It's whether he purposely lost or he has a very weak defense to not withstand even a simple punch . "

Bai Lingyue put his hand on his chin and continued thinking about the fight while gazing at Arthur's figure . He simply couldn't believe that his assumptions are incorrect as he was never wrong to this degree . Unfortunately, the truth layed before his very eyes .

. . .

Yun sat cross-legged and recuperated some of his energy, the last battle was tough for him as Arthur was not some weakling, he only mocked him like that to not appear weak, he wanted to maintain his oppressive and arrogant attitude to display his might in front of the old ones .

Please visit [freewebnovel.com](http://www.freewebnovel.com)

After spending 15 minutes recovering and using some expensive Healing Potions he had in his storage, Yun changed his robe and wore another one which was exactly the same .

As he finished readying himself, he did not descend from the arena but looked at the top geniuses left from each faction, his gaze only focused the five of them .

One was the other genius of the Monster Race, the lich from the Undead Race and the three youths from the three clan alliance .

"I wonder if this Young Miss is free to exchange some pointers with me?"

Yun was gazing at the green-haired girl from the Lightning Fox Clan, he didn't recover fully but he could still fight so he chose his next opponent by challenging her .

Miya, who was silently sitting at a table with her friends was a bit startled to be picked first, however, she didn't show it on her face .

With a gentle smile, she nodded at Yun and said

"If Young Master Yun is fine with me then I would be glad to exchange some pointers with you . "

As she said that, she got up from her seat and slowly floated toward the arena . She was like a fairy as her long robe fluttered by the passing wind . She had a serene and calm face and held a soft and long white saber .

Her floating seemed slow but she arrived on the arrived in the blink of an eye . Seeing that she already unsheathed her saber from its scabbard, Yun took a fighting stance and said

"Whenever Miss Miya is ready . "

Her only reply to him was a quick dash to his direction, purple lightning twirled around her saber but it appeared to be calm and not raging like the normal nature of any lightning .

Miya's speed was incredible as few spectators couldn't keep up and only saw a purple blur rush at Yun . Seeing the enemy coming at him, Yun punched the air with his gauntlets which created a tremor through the whole arena but didn't cause any actual damage .

No golden light appeared like earlier, not even the golden seal was present, it was only a simple but terrific punch . The wind twisted where the gauntlet punched and a horrifying outburst of wind compressing was created from the punch . It looked like the air was twisting from afar, even the incoming purple snake created by Miya's slash was sucked in the twisting wind .

The calm Miya retreated hastily when she saw that, she didn't dare get near it as she felt imminent danger from it .

No explosion happened, after twisting for a bit, the wind returned to its usual calmness and what was left was the figure of Yun punching the air . After blocking Miya's attack, Yun jumped toward her with a speed equal to hers .

Being the genius she is, it took her only a split second to recover from that powerful attack of his . Purple lightning appeared all around her body and even strands of her hair turned purple .

'bzzt' 'bzzt'

Lightning sounds rang out in the arena and soon, a 2-meter purple lightning snake twirled its body around Miya's . It hissed at the incoming Yun . Once he was close to it, it spat a huge purple lightning ball which flew at Yun with insane speed, he couldn't react in time at it was already upon him in a split second .

In such a desperate situation, he lifted both of his gauntlets to defend against the lightning ball but unfortunately, it was futile as the lightning ball sent his body flying high in the air and it quickly invaded his body .

Seeing that he was severely injured by the ball and falling to the ground with blood gushing out of a grievous wound created by the lightning ball . Yun bit his tongue to remain conscious and shifted from falling to crazily flying to Miya .

She presumed the fight ended and was about to call the snake back when she suddenly noticed the crazed Yun fly toward her . She panicked as it was only a spar and there is no need to injure him any

further or he would die, however, seeing that there was no choice, she lifted her white saber vertically and pushed the tip of it on the arena's ground .

Once that happened, the snake turned into a huge purple lightning net that circled above her and formed a huge lightning sphere similar to a net that covered her and Yun .

Of course, this did nothing to him apart from imprisoning him inside it but he could care less about that, with a roar Yun punched out again at Miya when he was only a couple of meters away from her .

The moment he punched out, the purple lightning compressed in an unbelievable speed and struck his back, the golden robe he was wearing burned and he was pushed on the ground making his punch useless as his gauntlets hit the ground just like he did .

While groaning, Yun struggled to stand up but the purple net was pressing against him so he could not retaliate .

Seeing his desperate tries, Miya sighed and approached him, she squatted and softly shook her head as if indicating for him to stop but she was surprised to see him show a smirk once she squatted near him .

She didn't know but she felt danger, the purple net that was containing him suddenly enveloped him and threw him outside of the arena, making his body all bloody .

...

Seeing this scene, Lucy who was quietly sitting alone took out a talisman from her storage and secretly slammed it under the table . Although she intended not to alert anyone, her actions were instantly seen by Bai Lingyue, who was keeping a close attention to the fight and her at the same time .

He didn't what the talisman did and was curious about why she was doing, he didn't say anything and remained silent while frowning . No one knew what he was thinking as he gazed at her and the talisman stuck on the table .

Miya remained silent but a bit startled by that grin of Yun, maybe it was disgust or her instinct telling her to retreat, fortunately, she reacted before he did anything and sent him flying away from her .

Unlike the previous matches, she didn't remain on the arena and returned to her table, she didn't want to show off and would only fight when her name was called .

People from clan were cheering for her and the Monster Race was feeling a bit gloomy seeing what happened, they were angry but could not vent their frustration as Yun lost fair and square . They were only a bit angry for she didn't need to injure him this much, especially the last attack, it was too vicious for a fairy like her .

No fights continued and after resting for thirty minutes, the white-haired youth from the Monster Race walked up the stage and challenged the lich .

This was a fight everyone was excited to see, their attention was fully focused on the fight as the lich summoned some powerful specters that are tough to deal with . These decayed and creepy looking monsters that floated around the lich and damaged the white-haired youth from afar were quite annoying to deal with .

The youth surprisingly used a big red bow that shot magical arrows filled with a destructive and unique fire .

Fire and Thunder are considered the weakness of all evil, including the specters, so when he continuously shot the almost invisible arrows from that bow, specters were falling left and right .

The crowd of spectators was cheering for both parties and the battle reached its climax after a few minutes .

At such a time, Arthur, who was silently eating some meat for a while ago finally made a move . His body floated close to where Lissandra and the 7 strong figures were sitting . He didn't float too high to not attract attention .

Although he wished not to be spotted, his action was seen by the 7 seven figures, who unlike the others, still paid attention to the surroundings, especially Azure Bai who was intrigued on why Arthur approached them slowly as if he was trying to sneak .

Meyzu, who was displeased with Arthur since the beginning had enough of it and glared angrily at the incoming Arthur, he waved his hand as if getting rid of a bug and said

"Wh---"

Before he could finish, Arthur did something that made him swallow back his words . Countless cylindrical objects appeared around him, they were grey and green in color and had some weird words on them . There was a mind-boggling amount of them as they fell from the air .

Meyzu didn't expect Arthur to do that, he didn't what they were but just doing this was disrespectful to them so he was planning to punish Arthur no what happens, after what he did, not even Bai Lingyue can help him leave unscathed .

Contrary to what the others thought, this was totally intentional by Arthur, he was grinning under the black robe as countless objects were taken out of his storage ring

## Chapter 103

Some of the strange objects that appeared fell on the ground and the rest were covering the whole sky, there was an astronomical amount of them . Arthur's figure could be seen in the middle of them, he was raising both of his arms and gazing at the 7 sitting figures from under his dark hood .

Before anyone could react or speak, the cylindrical objects were activated . A white flash so bright covered the whole banquet, no, scratch that, at least the whole city was blinded by the sudden flash .

No person could resist the intensity of the light, not even the people at God Realm, there were some exceptions of course, such as the Lich King, who didn't have physical eyes, so he wasn't affected but the light still bothered him .

This flash didn't just last seconds and even if it did, it would take seconds for the blinded people to recover as it was just too sudden, especially the weak people at the Deity Realm or lower .

Flash Grenade (modified) : After throwing it, the user can activate using the Nether Energy connection with it . Creates a blinding flash that causes 'Blind' effect for 30 seconds . The blinding effect is lowered when the target's Realm is higher than the user (5 seconds less for each Realm above the user) .

Cost : 50 Mental Power

The intensity of the flash can be stacked by using multiple grenades . However, the effect's time would remain the same .

In the last few months, Arthur created countless of these grenades using [Lost Magic] . Since he broke through to the Immortal Realm and with a high Mental Power, he became able to create many things that were useful . Flash Grenades were just one of many .

Although the people were blinded, they still could open their mouth and speak . Some shouted in surprise and some were enraged, such as the Jizung, who got up from his seat in fury whilst yelling loudly

"Who dares!"

He was obviously extremely angry as someone attacked them in such an important event . Jizung was the main host and even if nothing occurs, this alone could be considered a huge loss of face for him and his clan .

"Don't panic! Use your 'Nether Sense' and find the perpetrator!"

Meyzu kept a calm attitude despite not being able to see, he ordered the elders and supervisors of the banquet to search for the criminal . But most of the wise ones knew it was Arthur as they saw him coming toward them, but it wasn't certain yet as they didn't want to recklessly blame Bai Lingyue .

Speaking of Azure Bai, he remained silent and calm as he was sitting near Jizung . First, he frowned as he discovered he couldn't get rid of the blindness no matter what he did and his surprise intensified when he thought about Arthur's figure previously as it came toward them and the sudden appearance of the countless strange objects .

'Friend Arthur, what are you thinking?'

He didn't see Arthur but he knew he was here after this happened, someone like this youth can't do such a thing and blind people at the God Realm . Just thinking that it was a person at the Peak of the Deity Realm doing that made him greatly surprised .

He only thought it was Arthur because there was no enemy willing to do this bold action in the presence of so many strong figures .

Since the moment he threw the flash grenades, Arthur didn't waste time as he rushed toward Lissandra, who was also confused about what just happened . He was not blinded by the flash grenades as he had a connection with them . They were modified so they would not harm the user but contrary to him, Lucy was also blinded for half a minute which was unfortunate but there was no other way .

His speed was extremely fast as he flew toward Lissandra while holding a long silver sword in his hand .

Aborak, who was not affected much by the flash was able to see the actions of Arthur . He didn't like the fact that someone as insignificant as this junior dares to do that, so despite seeing him charge at Lissandra, who wasn't from his faction, he still interfered .

It was only a wave of his hand but the force behind it was not something someone like Arthur could handle, he may not die but he would be severely injured . Such actions were predicted by Arthur when he was making the plan with Lucy, all of this was accounted for and when the illusory grey fog created by Aborak was going to hit Arthur something unexpected and even more shocking than the bright flash occurred .

Lucy's previous preparation was not for nothing as more than 20 huge flaming meteorites came flying down from above . Each and everyone was empowered by Arthur's dark red flames, what's more, is that these meteorites were way stronger than the ones used last time .

The combined pressure of the several meteorites which suddenly appeared out of nowhere completely shocked the audience, especially the strong figures who felt the enormous pressure emanated from them . They were stunned to see them appear out of nowhere as it was impossible for people at the God Realm to not notice them until they were so close .

This was yet another skill that Arthur created using some of the Eclipse Magic . He used Spatial Magic, which is a small part of the Void Magic .

Spatial Passage (U) : a Self-created skill which hides anything that is put in the small Spatial Passage . It cannot be felt by anyone and can hide any non-living thing for a certain amount of time .

Cost: 100 Mental Power (You will lose them permanently and they cannot be recovered)

Cooldown: Cannot be used until the user reach the next grade of his Realm .

Lucy was previously channeling her Nether Energy to keep the meteorites active so they would not their power inside the Spatial Passage .

Such an attack may not hurt people at the God Realm who have a lot of techniques to defend against it, but juniors or other people at a lower-Realm would be totally annihilated by this attack . The whole garden would be burned to the ground if they did not act .

"Pretentious!"

Jizung roared as he formed a seal in the air, it was a dark green seal which resembled a cobra . Following that, he took an ancient looking black scene and pushed into in the middle of the dark green seal .

His actions were the fastest amongst the 6 of them, it was unknown how he managed to see the meteorites but he nevertheless did, Kilan and the others also took out some items and in a split second, the items covered their respective disciples and elders .

But Jizung and the others were a bit too late as the meteorites were too close from the start so the damage could not be blocked .

'boom!!' 'boooooom'

Earth-shattering, deafening explosions resounded in the ears of everyone present, blood dyed the ground and several gigantic red roses burned in the already black-ish garden . The spiritual Riven was nowhere to be seen as it was turned into a fog by the dark red flames .

The explosions added to the blinding effect, with some rubbles, dust clouds all over the place, the garden turned into a battlefield and could no longer be recognized as the place where the Grand Banquet was held .

Lucy backed away in a corner as she previously aimed the meteorites at all places except the area she was in . Despite being unable to see, it was rather easy to retreat . As for Arthur, he didn't manage to reach Lissandra in time . The grey fog emitted from Aborak almost vanished by the surprise attack of Lucy but it was not totally deflected .

Some of it reached him and sent pushed him to the ground as if a huge mountain was pressing on him . The black robe was not affected but some of his bones shattered to ashes and his skin began melting in a very weird way as the grey fog integrated with it .

Not even a single cry came out of Arthur's mouth, he ignored the damage done to his possessed body and rushed toward Lissandra .

The blinding effect for the God Realm was almost over, the time was too tight for him to care about pain or cry out . With the silver sword in his hand, he appeared behind Lissandra and coldly stabbed the sword exactly to her spine .

For someone at the God Realm, their bones are one of their main defenses, so he did not have any hope to crush her spine but simply damaging them would be enough .

Unfortunately, the stab didn't even go through her dress, much less penetrate her skin . Some kind of dark green layer was covering Lissandra . The moment Arthur appeared behind her, she instantly noticed him despite being currently blind . When he stabbed and didn't do any damage, Arthur was planning to retreat but Lissandra was way faster than him as a dark whip was suddenly wrapped around his waist very tightly, crushing his bones and making him unable to move .

"Where do you think you're going? Such insolence!"

Lissandra wanted to kill him but she couldn't as she wanted to know the reason he attacked her and why . She couldn't see him so she couldn't know his identity but just by probing him, she saw that he was only at the Immortal Realm .

Her cold yet angry voice rang out in his ears, the dark whip she was using tightened around him, almost cutting him in two but he still didn't emit any sound . The only thing he did was stare at her with thick killing intent coming out of him .

Second by second passed slowly as the eyes of the eyes of the God Realm people began to recover, the 20 seconds were almost over . Nothing happened after the explosions but these were enough to cause a huge ruckus as many people died despite the elders using items to protect them from the meteorites .

It's not that the items they used were weak but it was too late for them, if they weren't at the God Realm then all the people here would have died, with the exception of them and some elders at the God Realm of course .

With their eyes recovering and nothing occurring, some began to relax for a bit but that only lasted for a second or two at most as suddenly, another deafening sound rang out .

The sound came exactly from where the elders of the Royal Cobra Clan were sitting, more precisely it was where Lissandra was standing . She didn't think this weakling could hurt her but what she didn't expect is an extremely thick and terrifying bolt of white Thunder .

Yes, it was Thunder and not Lightning and it is the upgrade of the Godly Lightning which became Godly Thunder . It takes more time to generate and it is slower than the previous one but it is much more destructive and terrifying .

The bolt of Thunder was even thicker than Lissandra as it came down from above, it is slower than Lightning but it's still fast, coupled with terrifying pressure and ear-deafening sound it brought, Lissandra's face changed as she hastily let go of Arthur and backed away without hesitation .

Her decision was very fast, in just a second she appeared a distance away from the bolt of Thunder . The white bolt struck Arthur and the area around him, creating dust and a huge pit where it struck . He was not hurt but the ground turned jet black and the pit was several meters deep .

Eyes were very important things, even for people at the God Realm . However, they were not everything, such strong figures could sense danger from miles away and don't need eyes to dodge them but being blinded still affected their fighting abilities .

Just when the bolt of Thunder struck its target, the vision of the people at the God Realm was finally recovered . They were dumbstruck by the sight in front of them . If one called it a battlefield, no one would rebuke him . With part of the ground dyed red and the other jet black, adding countless big and small craters, the sight couldn't be more dumbfounding .

The red roses were still burning and emitting intense heat as they burned the ground even further, the meteorites were all over the place and some elders were hurt by them as even with the protection of the powerful six, they still received damage .

"What the hell . . . "

Granny Shishu couldn't find words to describe what she was feeling, the first thing she did was ascertain the safety of Miya, but since she used her wooden statue of the lightning fox to create a barrier around Miya and the juniors, nothing happened to them, fortunately .

Even Bai Lingyue had widened eyes and full of disbelief as he gazed at the flaming roses and the destruction, then his gaze shifted to where the last explosion occurred, exactly where Arthur was currently standing .

His eyes landed at Arthur, he saw his terrible state but what was more astonishing is that he was emitting thick killing intent which was directed at an elder of the Royal Cobra Clan .

Not only Bai saw that, Jizung, Meyzu and the rest also saw that, their first guess was that Arthur was the one who did all of this and it was fairly obvious .

"You!! You're courting death, boy!"

Jizung was the first to act as he suddenly vanished and appeared in front of Arthur but the latter's eyes were still focusing on Lissandra without minding Jizung .

Google search [freewebovel.com](http://freewebovel.com)

As if the situation couldn't be more surprising, 2 Ice lotuses appeared behind Lissandra, who was gazing at Arthur with anger, rage, and curiosity .

The sudden appearance of the lotuses startled her but didn't scare her, the next thing she saw was the cold blade of Lucy coming straight at her neck without slowing down or stopping .

She sensed that Lucy is only at the Immortal Realm, however, Lissandra felt imminent danger from this attack . A book suddenly appeared in front of her, it was suddenly opened at a specific page and a creepy black hand stretched out of the book to block the cold blade of Lucy . . .

## Chapter 104

The cold and icy saber of Lucy struck the creepy black hand that came out of Lissandra's book . The hand was started to freeze from the cold tip of the saber but it suddenly moved and shattered all the ice, what's more, is that it deflected Lucy's saber and made her retread a few steps .

Some blood leaked out of her lips as this strange black hand was weird and strong . She didn't hold back in the last attack, moreover, it was a sneak-attack yet Lissandra blocked it easily . The difference between them was truly great .

Having suffered in the last exchange, Lucy didn't retreat, instead, she rushed at Lissandra yet again . The Ice lotuses behind Lissandra started blooming slowly and rotating, each one flew at one of Lissandra's sides while Lucy took out 'Burning Fate' and held in her left hand while wielding Twilight's Vow in her right hand .

Ice and Fire attacks were launched by Lucy, she successively slashed down with her two sabers without stopping, the purple fire raged and cold and freezing Ice rampaged as she went all out against this woman .

She had a deep hatred toward Lissandra and if not for Arthur reminding her to not try to kill her, she would expend her Soul Essence to finish her . Although he said not to kill her, even if Lucy wanted to, killing Lissandra is impossible but if she could injure her then it's more than enough .

Lissandra was alarmed by the aggressive attacks of Lucy but what's more aggravating is those two lotuses . They were blooming very slowly but the damage they are doing to her is not a joke! Some of her bones began freezing from out of nowhere and even her Meridians began shaking .

She was a person at the God Realm and the enemy was at the Immortal Realm, this was a huge disgrace to her clan and especially to her and her pride .

A dark whip conjured from her Dark Magic appeared, she held the whip and slashed at Lucy, but that was not the end . In place of two hands, a sharp claw appeared out of the book and stabbed right at Lucy's heart!

The two simultaneous attacks were very strong and someone such as Lucy couldn't withstand both of them .

Seeing death approached, Lucy crossed both of her sabers in front of her chest and mumbled

"Shatter!"

Her two blades shined with purple and icy-blue colors, they intersected and created a cross-shaped slash that went against the whip of Lissandra .

As for the sharp dark claw, it was met with the two lotuses which appeared in front of it and shattered instantly into countless pieces . The explosion created by the lotuses was very destructive as Lucy was pushed down high in the air whilst coughing blood .

Lissandra retread three steps as her whip clashed with the cross-shaped slash of Lucy . What was surprising is not the explosion of the Ice lotuses but this weird slash that contained a minor fusion of two opposite attributes!

Once the whip and Lucy's attack struck each other, the whip shattered into dark matter and vanished, as for the slash, it continued its way and hit Lissandra .

Fortunately, someone such as she, had a protective layer that was fairly strong, coupled with the treasures she wore, her defense was very good, even for someone at the God Realm . Yet even such defense was penetrated by that small but weird slash of Lucy .

Blood leaked out of Lissandra's lips as she stared at her, exactly where Lucy was floating . You could see deep hatred and rage in her eyes but there was a mix of fear . For some in the Immortal Realm to injure her is considered nonsense but it just happened, moreover, in front of so many strong figures .

Even Jizung, who was about to kill Arthur, was momentarily surprised as he was looking at the blood leaking out of Lissandra's lips . He first thought it was some kind of act, but Lissandra was a very proud character, she wouldn't humiliate herself like this .

"You . . . who are you? Why are you attacking me?"

Lissandra didn't know why Lucy attacked her, although she saw her true appearance, she didn't link it with Lucy as it was impossible for such an insignificant and weakling person like the couple from Astria to deal this much damage to her . Her first guess was that she provoked a powerful sect from one of the higher-Realms and they sent an assassin or someone to finish her .

However, as far as she knows, she never did anything like that . Although she was a very proud person, she wouldn't act arrogant in front people who have a powerful background .

Back at the stage, Bai Lingyue stood up from his chair as he was looking at Lucy with disbelief . He had a good impression of her and knew she was very strong, but to fight against Lissandra and injure her? That's not something you see every day . Heck! If someone said that, no one would believe him unless they witness what just happened .

Everyone was amazed by Lucy's prowess but no one knew that she used a bit of her Soul Essence in that last attack . To simply fuse Fire and Ice is impossible for her current self, so she forcefully did it which resulted in a backlash and some internal injuries .

"Hey Bai! Did you say this woman is your friend? Do you know what she just did?"

Granny Shishu secretly contacted Bai Lingyue as she cared for him . No one could harm him despite what Lucy and Arthur but that didn't mean that the criminals would be left alive . She knew him since a long time ago and knew his character, he would always help his friends so if he interfered, it would be troublesome for her as she is from the alliance and had to stand against him in such situation .

"She is, but I never saw her fight nor do I know why she and that boy did that . "

His voice contained a hint of surprised and uneasiness . Even someone with his status may not be able to rescue them .

Hearing Lissandra's question, Lucy remained silent as she gripped both her sabers . Two Ice lotuses appeared beside her and rotated with fast speed .

"Not willing to talk? I guess we'll have to force you then!"

Lissandra then turned her gaze to the elders and harshly said

"What are you dazing for? She's an enemy and dared attack an Elder of the clan you are still watching? Help me capture her . "

It was totally shameless to say that, for several elders at the God Realm to gang up on Lucy would be unfair . But since she was the one who attacked first and caused so much death and destruction, no one opposed or commented on that . Moreover, Jizung was in front of Arthur, so he(Arthur) couldn't help her .

4 shadows flew toward Lucy, they were all old men and they exuded terrifying pressure that weighted down on Lucy, who had a pale face . Shattering the Ice lotuses and that slash drained her a lot, she was facing a God Realm so it was not easy to fight equally with Lissandra even for a couple of seconds .

If 4 more God Realm figures were added, there is no way she could cope as she would be instantly killed or captured . Despite knowing the situation, Lucy remained calm and stood there, watching the five of them attack her .

The four old men were not like Lissandra, they appeared near Lucy and launched their attacks, willing to finish Lucy but Lissandra was a bit hesitant as she just exchanged some attacks with Lucy and knew that she was not simple as to let them all attack her like that so she purposely slowed her speed to watch the situation .

Her guess and uneasiness were on point as when the four old men were just about to finish Lucy, something unexpected occurred . Just a couple of meters above Lucy, two meteorites engulfed with black flames came down from above, bringing with them an intense pressure and a weird, yet chilling heat . However, what's strange is that these two seemed to be flying for some time yet no one noticed them till now .

Even Jizung frowned as he saw that, he couldn't sense them at all . He started to think about other possibilities such as the existence of another enemy! If she was not the one who created them then it must be another hiding enemy .

His eyes started shifting from one guest to another but he knew all of them and he was confident that no one was brave enough to oppose all of them but if that was the case, then how does this Immortal Realm woman able to do that?

The meteorites were too close to the old men, it was too block, much less avoid them . The dark red flames already reached them .

The heat was intense and the burning flames were merciless as they started burning their clothes and diving into their skins . It was fortunate that it couldn't penetrate their layer of defense around their body but this was just the flames, what was to come is the meteorites which were more dangerous!

Jizung, who saw the two meteorites, was prepared to act but deep inside, he knew that it was impossible for him to save them from the impact and more importantly, this strange youth could not be left alone .

No one from the other factions interfered, first because they enjoyed the misfortune of the Royal Cobra Clan, especially the enemies like the Monster and Undead Race, secondly because it had nothing to do with them . It's true that Lucy and Arthur attacked all of them but it was shown that their target was specifically Lissandra .

Lissandra was confused as she tried to remember who she provoked, she was fortunate as she didn't go with the elders but she still felt a bit of fear from Lucy . For someone in the Immortal Realm to be capable of doing that is simply terrifying .

As her thoughts were in a disarray and surging forth trying to find a solution, a weird or more precisely a crazy thought crossed her mind . It seemed impossible at first and completely idiotic to even think about it but she nonetheless did . Her eyes gazed at Lucy's silver hair and unique facial features and seeing this only confirmed crazy guess .

"N-no . . it couldn't be . . . It can't be her!"

At such a time, the two meteorites struck the four old men, three were hit by the first one and the last one who somehow forcefully shifted his body to dodge it was struck in the back by the second one . You could hear bones breaking and the screams of the old men but more importantly, in such a situation .

The surprised Lissandra heard a cold but gentle voice ringing in her ears .

"What if I say it can?"

The source of the voice was not a male but a female . Just as she heard that, Lissandra saw a black flash aimed at her neck, it was too sudden and just looking at the attack made her feel an instinctive fear that created a shiver down her spines . She knew death was approaching and she was at its door .

## Chapter 105

The soft sword of Miya had a tinge of darkness as it slashed toward Lissandra's neck . Its sheer speed was something that made the target baffled as she subconsciously lifted her dark book to block it .

This time, not a hand or two came from the book but a horrifying and ugly head, it had black skin and no teeth, its appearance literally couldn't be creepier or uglier .

The head opened its mouth as it wanted to swallow the sword whole but it couldn't as the weapon was too strong .

The strike was successfully blocked, once Lissandra was going to breathe a sigh of relief another dark and long sword was stabbed at her right shoulder .

This time, not even her protective layer could withstand it, blood gushed out from the injury and the sword didn't meet any resistance .

As the fights between the two powerful figures are about to begin . Kilan, Aborak and Bai Lingyue are still calmly watching what is happening . No one commented or lifted a finger .

As for Meyzu, he appeared in front of 'Arthur' to replace Jizung, however, he was not as kind as Jizung as he stretched his hand to cripple him to get rid of any future unnecessary trouble that would perhaps come from him .

The person who did this was surprisingly Miya, who is the genius disciple of the Lightning Fox . She wielded two swords, one was her sword and the second was . . . Makaze!

Granny Shishu didn't notice the sneaky movements of her disciple, only when Miya attacked Lissandra did she notice the disappearance of Miya from the specific area of her clan .

Her normally sharp and piercing eyes were wide open as she stared at Miya, Granny Shishu was astonished by this, even Lissandra didn't understand what is happening .

Miya could not be a traitor or an enemy of hers but she nonetheless attacked her, which made her confused . She hesitated as she was not brave enough to attack her, if she killed Miya, her clan would not stand still, especially the clan master .

"What are you doing?"

Lissandra's panicked and confused voice was totally ignored by Miya, who had an expressionless face . She gazed at Lissandra and twisted Makaze to inflict even more damage to her enemy .

Arthur already used Natural Lightning and managed to slip some of it in the wound created by Makaze . He possessed Miya since the time she fought Yun .

Going back to his fight against Yun, he managed to successfully possess Yun as he killed him instantly by the Natural Lightning . It was hidden in his last strike with the Thunder explosion and it burst the young master's heart .

He remained hidden and acted as if he was Yun to not attract any attention . Contrary to what he did to Yun, he didn't kill Miya but simply possessed her .

It is impossible to possess her in a normal case, but he, fortunately, got a new skill when he broke through and that's what allowed him to possess her .

Possess, possess and possess (U) : As long as the target is within 2 meters of the user, the user can possess him for a certain amount of time .

Cost: -1 million to all stats (The stronger the enemy the higher the cost) (Cannot possess God Realm and above)

Cooldown: None

With this cheat skill, he possessed Miya and stayed dormant inside of her for some time, only when the clash of Lucy and Lissandra began did he fully take control of Miya's body .

He could feel her resisting his possession but she seemed to be locked in some kind of cage in her consciousness . Even she, didn't know what the hell is going on but she kept attacking the cage . Too bad it was futile and it only exhausted her Mental Power even more .

Natural Lightning invaded Lissandra's body and with Arthur controlling it, it began breaking her Meridians and attacking her Dantian, attempting to destroy it completely .

Due to her being two Realms above him, his Natural Lightning couldn't even damage the Meridians, much less the Dantian so they moved to the bones and tried inflicting any damage to them but it was still useless . He was still too weak to damage her internally .

Arthur let go of the soft sword of Miya which was being blocked by the creepy head . What replaced her sword was a short dagger that was purple in color and devoured the air around it .

It was made from the Void Magic, however, this was only the beginning . At the same time that the dagger appeared, black chains conjured from Dark Magic appeared around Arthur's waist and wrapped around Lissandra's waist in a split second .

Coupled with [Dark Burst], Arthur struck his dagger to the creepy head and used Makaze which was in his left hand to stab further into Lissandra's new wound .

Lissandra didn't stay still when he did that, but due to her being used in attacking with Dark Magic, she instinctively used it and a black demon head opened its mouth to eat Arthur .

The result was not something she expected, the dark demon head didn't even scratch Arthur, it actually seemed to strengthen him as the chains which were wrapped around her waist tightened and became bigger and longer .

"I-it's you!!!"

She could feel the power behind the chains so she immediately recognized it but what stunned her is that she could not resist it . She was a person at the God Realm, it should not be possible to restrict her movements this easily, even for Arthur, but what she didn't know is that because she's a Dark Magic user and because Arthur is considered the original source of Dark Magic, she's like a part of him, or more like, a toy .

He forcefully used the strong connection that the Dark Magic had with her to weaken her and make her vulnerable to him . The only reason he was struggling to capture her is that despite her being weakened, her body wasn't . She was in the God Realm, after all, her physical body is extremely strong .

The Void dagger cut through the creepy head as if it was butter, it's as if the head didn't exist, it was engulfed by the humongous absorption force coming out of the purple dagger . Makaze slashed at the

other shoulder of Lissandra, but due to her being expecting this slash, the dark blade only managed to cut some flesh off her .

"Do you think you can hurt me? See how I'll skin alive that girl of yours!"

Lissandra's look changed as she yelled at Miya . She didn't know how he did it, but she knew it was him as no one but him could use Dark Magic . He was the only one besides her subordinates who could use such powerful Dark Magic .

Her current guess was that he was controlling her from a distance, her eyes shifted to 'Arthur', who was standing in front of Jizung .

Lucy, who took down the elders with the help of the meteorites, flew toward Lissandra as her blood red eyes were staring intensely at Lissandra .

Her two Ice lotuses were formed again and circled around her, snowflakes appeared out of thin air and her strongest attack was launched at Lissandra .

It was not an offensive or a defensive attack but a restricting one . It imprisoned the target in an Ice domain that dealt continuous damage and froze them the longer they stayed in it .

The elders she took down were obviously not dead but they were seriously injured . Such meteorites took her quite a bit of time to prepare and maintain unlike the normal ones, their damage was immense and was enough to get rid of them for some time .

With the Ice domain of Lucy and the black chains around her waist, linking her to Arthur . Lissandra was not in a favorable position . Although she was attacked by their combined attacks, that didn't mean it's the end for her .

The black book shined with a black light and a creature similar to a scepter but way darker and visible appeared out of one of the book's pages .

The creature screeched and bit down on Miya's shoulder . Its mouth was not large but once it bit down on the girl's shoulder, it took a big chunk of flesh and gore with it . Arthur felt the agonizing pain as this bite was not ordinary, he felt drained of his Nether Energy and weakened .

You received the debuff 'Death Specter Drain': -70% Nether Energy Recover / -50% Nether Energy (2 Minutes)

-15% Health

"Miya!!"

Granny Shishu couldn't stay still after she saw that, no matter what Miya was doing, she couldn't let her receive heavy injuries and just watch from the sidelines .

The Granny transformed into Purple lightning Fox and with a speed incomparable to Arthur or Lucy, she flew toward Miya but someone appeared in front of her and blocked her from proceeding further .

It was Jizung, for some reason he stopped Granny Shishu from helping Miya .

"Granny! What do you think you're doing?"

"What do I look like I'm doing? I'm going to help Miya!"

Granny Shishu had no time to argue with an old geezer like Jizung . She waved her hands dismissively and bypassed him . But what she didn't expect is that a dark cobra the size of a hand leaped at her and hissed dangerously .

Fortunately, she was not someone who is inexperienced, before the cobra could get close to her, it was vaporized by her purple Lightning .

"Old Ji! You dare attack me?"

This time, Granny Shishu's aura turned ferocious as she looked angrily at the old man .

Responding to her, Jizung chuckled and shrugged his shoulder whilst saying

"The disciple Miya has committed crimes and should be properly punished . Perhaps she is from allying with an alien race or one of our enemies . "

It was obvious that Jizung didn't think like that, but he just said that to stop Granny from interfering . Miya was attacking one of the elders of his clan, that in itself is too disgraceful . If she is saved by Granny and nothing is done to her, it would be like slapping his clan in the face and getting away with it .

"If you don't get out of my way right now, you'll regret it, old Ji!!!"

Granny didn't listen to what he said as she neither cared nor wanted to care . Miya was her granddaughter and she wasn't going to let her be hurt because Jizung wants to keep his stupid pride .

## Chapter 106

Before the outstretched hand of Meyzu reached 'Arthur', he transformed into a dark nebula in an instant . Even Meyzu was dumbfounded by the process, one second ago he was looking at a black-robed youth and the next one there was no youth or whatsoever, only a floating black nebula that emanated an ominous aura .

A drop of blood came out of Meyzu's index, just as it came out, it enlarged to an insane degree until it became the same size as the weird nebula . The blood pool was beast's mouth, it started taking bites from the nebula but no matter how matter or how long the mouth bit down the nebula, nothing happened . It was if the nebula didn't exist there .

"W-what's this?"

Meyzu was confused as he could not feel anything from the nebula, it was neither a treasure or an attack, it just stood there, floating peacefully .

...

The garden was destroyed beyond repair and the fight between Jizung and Shishu made it even worse . Purple Lightning and green seals accompanied with a dark cobra attacks damaged the surroundings . The juniors could not follow the two with their eyes as they were too fast, the only thing they saw was green and purple sparks .

One thing was noticeable is that Granny Shishu held a slight advantage . She was oldest out of the three leaders and she was at the God Realm the longest . They didn't go all out but they didn't hold back either . Lightning raged as it struck the ground and turned into black ash, pillars fell and tables were turned into nothingness .

As for Jizung's attacks, they were simple but oppressive, the green seals were like poison as they melted everything they touched and the cobra would spit some gas that suffocates the target and sucks the vitality out of them .

. . .

'We must hurry'

Arthur saw that the situation worsen and decided to wrap things up . Once Miya's body is damaged, the Granny won't hold back but he was not so ruthless to cause the young girl to be crippled or even killed .

He was using her, yes, but he never wanted to ruin her future . With her and Lissandra being chained, he would be able to temporarily gain the Granny's protection for she will not let her disciple get killed by Lissandra or any person .

A small black whirlpool appeared next to Miya, who finally regained her senses . What appeared was a wolf, a big silver wolf .

" . . . Eh?"

Miya was surprised as she sensed that she was unable to move, moreover, she felt a heart-wrenching pain coming from her shoulder . In front of her stood Lissandra, who was bombarded by Lucy's attacks and imprisoned in her Ice domain .

Lissandra defended against Lucy but she couldn't pay attention to Arthur as Lucy was very crazy, she would attack and abandon all defense . Whether it's her book or the Dark magic, nothing was useful .

To begin with, her Dark Magic was ineffective as a Dark Barrier was around Lucy permanently, since Arthur's Dark Magic is way stronger than Lissandra's, she wasn't able to shatter it . She could only use her clan's green seal techniques but they were much weaker than Dark Magic .

Seeing the silver wolf appear, Lucy silently nodded her head and backed away . Her two Ice lotuses rotated near Lissandra and fully bloomed, activating the full potential of her Ice domain .

The chains around the two women tightened and wrapped them from the waist to the upper half of their chest . Miya could barely breathe as her face was pale .

"Miya!!!"

Granny Shishu could not pass Jizung as he used his tricky moves to lock her there . Seeing Miya's condition, the old woman could no longer hold it . Killing intent emanated from her sharp eyes as she stared at Jizung .

"Old Ji! If you don't move out of my way right now, I'll abandon all thoughts and go all out against you!"

The sleeves of her robe turned purple and her long white hair became filled with small and twirling lightning streaks . A purple and majestic Fox appeared behind her, it was a bit illusory but the pressure that it emitted was real and domineering .

"Granny! You're letting emotions rule you . You are one of the three leaders of our alliance! Rules should be followed and whoever crosses them must be punished . Even clan masters are no exceptions, by attacking me now, you'll be considered a traitor!"

"Traitor? You say that as if you never broke any rule . Don't make me state every wrong thing you did, that is something neither of us wishes to hear . "

With a sneering tone, Shishu looked at him mockingly and pressed her hand to her forehead . The dark night was filled with purple Lightning as endless bolts of lightning enveloped her . The fox roared and leaped at Jizung, who had an ugly face after he heard what she said .

"You asked for it!"

Just like Granny Shishu, a big dark cobra appeared behind Jizung, it looked creepy and some black gas was coming out of its illusory body . Contrary to the domineering aura that the fox emitted, this cobra had a very cold and chilling aura around it .

The cobra hissed at the incoming fox and dived at it with its mouth spitting green gas . The fight was only between the two of them but the collateral damage reached the juniors and even Arthur, who was some distance away from them .

'Not good'

Not only did they to fight seriously, Meyzu abandoned the black nebula and appeared in front of the silver wolf .

This silver wolf was only Lv850, Arthur possessed it some time ago and kept it because it was exceptional . From all the corpses he possessed, it was the only one that activated many passives that are related to beasts . He could also use Nether Magic and skills with it, so it was his perfect form .

The silver wolf turned into a green lightning wolf as Arthur activated [Transcendence] but that was not the only skill that was activated . The passive of the light moon wolves, the passive of snow wolves, the passive of poisonous snakes . hundreds of passives were activated and his stats rocketed by leaps and bounds .

The aura around Arthur changed as black flames burned on his body, he was a mass of green lightning and black flames as he clashed with Meyzu . All that was seen was a red shadow clash with a mix of green and black shadows .

Arthur did not hold back anything, Gigantic dark red flames raged through the sky and countless dark spears rushed at Meyzu, who deflected them with a blood red long sword . His blood magic was terrifying as it engulfed everything in its way .

"You . . . who . . . what are you!!!"

Meyzu exchanged a few hundred attacks with Arthur, who did not lose one bit to him . He was unable to sense the Realm of this wolf . Weird attacks flew at him, from burning flames to strange and small purple orbs that ate his blood .

The Void Magic was very effective against any other magic so Arthur countered with it whilst slashing at Meyzu with his claws . A dozen or so skills would be used at once and his Nether Energy reserve is depleting very fast .

With a loud howl, Arthur used [Faster Than Death] and appeared behind Meyzu, then he bit down at the enemy's shoulder . His sharp and long fangs mercilessly cut through the red-haired Meyzu and penetrated his skins .

"Arrrrrrrrrrgh!!!!"

A loud scream was heard as various poisons and effects were hidden in those fangs . The stress on Arthur was too overwhelming but he still endured it and pressed his fangs further . Blood flowed from Meyzu's injury but it did not fall down, instead, it transformed a fog .

"You're dead! I don't care what you are or where you came from but you'll die today!"

Meyzu shook his body violently to get rid of the big wolf that was biting his shoulder ruthlessly but no matter what he did, the wolf won't let go of him .

He even tried stabbing the wolf but the creature didn't react, no blood came out of the stabs and it seemed as if he dealt no damage .

As he was holding Meyzu, dark red flames ignited from his fangs and started burning the insides of Meyzu but just as Arthur did that . The atmosphere around Meyzu had a dramatic change .

Like the two other clan masters, a figure appeared behind him, it was very big and looked like a Blood Asura!

Thick killing intent was coming out of it, but that was not all, the blood stench around it was not something like Miya or any other junior could handle .

Arthur obviously saw the fight between Jizung and Shishu and knew that these illusory figures are extremely strong and probably the trump cards of these clan masters .

Although he was alarmed, he didn't let go of Meyzu, he bit harder and used both his claws to cling to the target .

With the empowered body and the Natural Lightning, it should have been easy to cling to Meyzu just like he bit his shoulders but by the next second, Arthur's body was sent flying from above .

He crashed violently on the ground, he didn't even see what happened and only felt a tremendous force pressing down on him .

Meyzu was descending from the sky while coldly looking at him, he had a sinister smile and the Blood Asura was behind him, emitting an overwhelming pressure .

A huge chunk of Health disappeared from Arthur's bar, he disabled the pain so he could fight better, the stress from all those accumulated skills brought a heart-wrenching pain, so such injuries were not enough to stop him .

A simple glance to the side allowed him to see a 30 meter long Ice-blue and purple bow . The bow didn't emit any pressure or didn't do anything, it just silently floated there near the Lucy, who was concentrating on completing the bow .

The bow was almost complete and Lissandra was captured, all he needs now is to retreat with Lucy and co .

With the big wolf's body, Arthur opened its huge mouth and aimed it straight at the incoming Meyzu .

Fortunately, Meyzu was an arrogant prick and thought he had just won because he summoned his Blood Asura, so he didn't finish things fast and dive at him with all his speed, or else Arthur could not resist .

While channeling his Nether Energy, a grey orb of energy appeared in the wolf's mouth .

It started increasing in size with a fast speed in just a couple of seconds, its size was the same as the wolf's head . Arthur didn't look at Meyzu a second time as he spat the orb from the huge mouth, the grey orb was thrown straight at Meyzu and at the same time, Arthur left the wolf's body and teleported a distance away .

It has to be said that the mysterious orb's speed was not something Meyzu expected, it was even faster than Arthur while using [Transcendence] and possessing the wolf's body .

The red-haired man raised his sword to block and the Blood Asura opened its closed eyes . A bright red light appeared in its cold eyes, a strange and ear-deafening sound came from the illusory Blood Asura .

Meyzu was engulfed in a big blood wave that covered the whole sky, the wave was like an unpenetrable wall in front of the orb, which looked very small in front of the blood wave .

Even Jizung and Granny Shishu stopped their fight as they heard the sound of the Blood Asura .

"Meyzu is using his Blood Shura?"

Jizung frowned as he found it unbelievable . There should not be an opponent for Meyzu to be serious, except the two other Race leaders and Azure Bai of course .

But none of them would be so stupid as to fight Meyzu in such situation, so old Ji was curious on why Meyzu used his Blood Shura and on whom .

...

Back at the stages, Kilan frowned as he saw Meyzu summon his Blood Shura . He saw the strength of the wolf but it was not enough for someone such as Meyzu to use his summoning . It's true that the mysterious wolf was an odd and dangerous entity, but it can be dealt with easily if Meyzu was cool-headed .

"Ahhhh, that Meyzu must have been angered to use that . . . "

"You're the fool . That wolf is not ordinary, it uses very weird attacks . Not even your strong fur could withstand its flames or those spears . You're not in his position so you can't tell the strength behind those unoriented but ferocious attacks . "

Aborak snickered as he heard Kilan, they were old friends but he rarely talked .

Silence ruled over again as they continued to watch . When Arthur launched his grey orb, Kilan furrowed his brows and was ready to act .

Meyzu was one of his dear friends and he could feel a very strong engulfing power behind that small orb . It may look harmless at first but it was beyond dangerous .

"Friend Kilan . The weather is wonderful and the sight is amazing, we should relax and enjoy the show . "

Bai Lingyue's calm and friendly voice awakened Kilan, he felt an invisible pressure press him down . Seeing that Bai Lingyue was guarding him, he couldn't help Meyzu, he could only force a smile and remain sitting .

## Chapter 107

The grey orb that Arthur threw passed through the blood wave created by the Blood Shura of Meyzu . It passed through it as if it didn't exist, moreover, its speed was not something Meyzu could cope with .

The red-haired Meyzu was confident in his blood wave and didn't expect this insignificant attack of Arthur to pass this easily . The reason he executed blood wave to block it is that he didn't feel any energy from this orb and that's what's alarming about it .

The fatal and deadly attacks are the unseen ones, the ones that come by surprise or burst from nothingness .

Arthur had already arrived behind Lucy . The two of them took the usual stance as if they were pulling the string of an invisible bow . Contrary to Lucy, Arthur's preparation only needs a couple of seconds to conjure and this one is different from the last one .

At the same time that a black and purple arrow was being created at an insane speed, the orb passed through the blood wave and was just going to hit Meyzu .

With no time to launch another technique, Meyzu raised his blood red sword to block the incoming orb . Everyone was expecting a huge clash or some kind of an explosion, however, none of that happened as the orb shifted its direction at the last second .

What clashed with Meyzu's sword was a big flash grenade triple the size of the original one . Arthur didn't hesitate as he willed it to explode which created a blinding flash .

Because the grenade very close to Meyzu, he was affected the most by it, but it won't be like last time as his eyes brightened with a red glow and the Blood Shura behind him shot two blood rays to where the grenade exploded .

This happened very fast but it managed to gain enough time for Arthur to finish what he was doing . Surprisingly, the grey orb which frightened Meyzu was now merging with the bow and sharp purple arrow .

It was the last touch of the arrow, it transformed into a feather at the end of it . It was a long grey feather which added the speed and pressure of the combination of bow and arrow .

Unlike any other attack, precisely the [Heavenly Arrow], this one only contained pure Dark and Void Magic . It was not the merging of the two but they were separated with the Void Magic being the core of it and the Dark Magic only at its edges .

It has to be said that its aura was too horrifying, not only Meyzu was astonished, even the calm Bai Lingyue was frowning and had a worried look as he gazed at the sight .

Tables, grass and even the ground was being pulled to the arrow, big and small wind whirlpools were created around it and sucked the air itself . Some of the juniors were forcefully pulled towards it, if not for their elders which created several barriers, they would be engulfed by this monstrosity .

Arthur and Lucy had their eyes closed and were focusing on the attack, at any second, they could let go of the invisible string of the bow and launch the arrow .

Heavenly Arrow [Void] has been completed: +1200% Damage (Guaranteed crit)

Defiance Orb (buff) : +250% speed / 4 million damage/s (15 seconds)

Nine Star Bow (Add) : +400% speed / +400% damage

Complete Sync with the target (Lucy : Soul Link) : +40% to all stats for 2 minutes .

The sky was no longer the same as even though Arthur didn't add the Lightning to the bow, clouds appeared and a storm was about to ravage this place . Not even the clouds escaped the engulfing power of the Void Magic .

"T-this . . . "

No matter how old or strong he is, Meyzu could not help but feel fear from that arrow, especially when he saw it was pointing at him . It was fortunate that Meyzu was in the same direction as Granny Shishu and Jizung, so this final attack could slow them down .

Arthur did not have confidence in killing them alone or even with Lucy, but at least, this attack should be able to deal some damage to even people at their Realm .

Conjuring the bow and the arrow, coupled with the feather, it almost exhausted all his Nether Energy . As for Lucy, after using this attack, she can't fight anymore, so this has to work or else they would have to abandon Lissandra .

"Y-you . . . I don't know who you are or why are you attacking one of the elders of my clan, but we can talk this out, your attack may not injure us but the juniors have nothing to do with this . "

Old Jizung had already stopped fighting the granny after seeing that arrow, it was not the time to fight amongst themselves when they have one common enemy .

Although he said that, Jizung still felt fear from that this thing, the ground, and the sky were being sucked out by it, it's not something to just block or dodge . He knew that the moment he tried to move

or attack suddenly, Arthur would not hesitate on letting go of the arrow, so he resorted to the peaceful talking .

"T-that's right! You came for the little girl right? She's still alive, I'll lead you to her, she's safe!"

Lissandra was panicking as she not only was unable to move, she also felt that her Energy was being drained by the chains . Seeing this sight, and the power of the couple, she didn't hesitate in trying to calm them down . That arrow struck fear to every single person present, even Bai Lingyue was unsure of being able to withstand that .

He recognized Arthur after he appeared, although he saw him wearing a big hat at the Treasure Pavillon, he still had many techniques to see what's under that hat . Arthur had a different hair color but the rest was the same . He was still curious about why they would do this, but what surprised him the most if their power . For a mere two Immortal Realm couple to cause this much damage in the presence of so many experts is unheard of!

Arthur opened his eyes while still holding Lucy's hands from behind and maintaining the same stance . He completely ignored Jizung and coldly gazed at Lissandra . Never did he think about what he said, he just wanted to make things a bit faster and make sure she absolutely gets captured .

In the middle of the sky, just a bit under him and Lucy . A bottomless and jet black circle appeared and from it appeared two huge bone dragons . They were not that powerful, only at the first stages of the Spirit Realm but they were more than enough for their designated job .

The two dragons bit down on the chains wrapped around Lissandra and Miya then they flew off behind Arthur . They didn't stop and continued to fly outside of the garden . No one stopped them, not even Jizung, who had burning eyes as an elder from his clan was captured and abducted under his eyes and he couldn't do a thing to stop it .

Everyone knew that if any person moved, that arrow would be released, so the figure of the two dragons disappeared onto the horizon and only when they vanished from everyone's view did Arthur relax a bit .

He ordered the two dragons to head to the Abyss Valley, at that place, none would dare to venture recklessly .

"Now then, I would like everyone to let us go but I don't think it'll be that easy, huh?"

Arthur spoke casually as he stared at Meyzu and co . The attack was still ready to be released and every second its prowess is increasing . It was absorbing everything, including the Mana and Nether Energy in the air . If it isn't shot after some time, Arthur and Lucy may lose control of it .

Void Energy is strengthened when it absorbs something, even a small grain of sand may strengthen it but that increase is almost non-existent . However, if it's like this arrow and it absorbs too many sands, air, Energy and so on, it would increase its power second by second .

"If you stop what you're doing and calm down, we can discuss this rationally . Don't be rash . "

Aborak's illusory and black figure appeared a distance away from Meyzu . He felt it too and didn't want this arrow to be released or else it would be too catastrophic . He may be able to dodge in time or find a way to block, but all the juniors would perish, including the ones from his Race .

He could not stay still and just let it go, after all, no matter how unconcerned he was about the people from his Race, he can't let them die under his eyes without lifting a finger to save them .

"Right right, listen to your elders . There is no need to be so violent . "

Kilan joined the fray, he slipped through Bai Lingyue as the latter ignored him completely after the purple arrow appeared so he grasped this opportunity to fly next to Aborak .

Granny Shishu didn't say anything but you could see she wanted Arthur to stop, she didn't speak as she was afraid that she may anger Arthur and Lucy and make them kill Miya . It was apparent they only aimed for Lissandra but they used Miya to cause trouble between her and Jizung .

"Don't be a fool . You two can't face five of us at the same time . The moment you release that 'thing' would be the moment you guys signed your death contract . Think carefully . "

As Jizung was speaking, a dust cloud was formed above the bow, it was the signal Arthur was waiting for . He only needed to add the last touch to their attack to make it more complete and add to its power .

'boooooom!' 'bzzzzt' 'boom'

Several thick thunderbolts struck from the dust cloud . It seemed like a huge tornado that spun above the bow . It was like doomsday for the spectators as the arrow's length became wider and countless thunderbolts were exploding around it .

Endless white thunderbolts struck from above, the bow became bigger and the pressure increased by leaps and bounds . With Lucy, this was the strongest Arthur could use, it may not exhaust all his Nether Energy but it was not far off from that, adding the stress he felt a bit earlier, if he turned the pain immunity off, he would collapse immediately .

"Friend Arthur, it would be unwise to attack them, no matter what you are planning, this is their territory and you can't possibly run from that with your Realms . If you stop right now, I may be able to save you and I promise you I can guarantee your safety . "

Bai Lingyue spoke telepathically to Arthur as he knew it won't end well for both of them . Albeit seeing the power of this attack, he still thought it won't be a good idea to make all of them their enemies . he had a special status so he could somehow fix things up a bit but if they dare attack, even someone such as him would be unable to save them from their fate .

"Fighting one God is already exciting, so fighting five at the same time would be even more thrilling, what do you say, Lucy?"

Arthur smirked as he held Lucy's hands and gazed at the five figures not far away from them .

"En! I'm sure it'll be an unforgettable experience . "

The moment Meyzu, Jizung and co heard Arthur say that they knew it was too late to try to reason with him . Each person had a beast or some kind of humanoid figure appear behind them . A Lightning Fox

behind Shishu, a black Cobra behind Jizung . The Blood Shura of Meyzu shined with a bright red light and an ugly and rotten dragon roared and circled around Aborak .

As for Kilan, an illusory White Tiger image much bigger than the rest of the images appeared behind him .

Bai Lingyue stared at both parties and couldn't help but sigh and shake his head 'This is madness!'

He knew the arrow couldn't kill them, but for someone as powerful as him, he knew they won't be unscathed and simply facing it head-on is too idiotic . But they are clan masters and Race leaders with high pride and a lot face, simply dodging or escaping is too shameful, or so they thought .

'TING!!!!!!!!!!!!!!'

The ear-deafening sound of the string being let go by Lucy and Arthur's hands were heard by everyone present . The sound was just too loud but that was nothing compared to what happened next .

It didn't seem like an arrow but a huge mouth that ate everything in its way, the dark and gloomy sky shattered, thunder explosion resounded everywhere and a loud howl emanated from engulfing attack .

Each one of the leaders used their treasures and special techniques to block the arrow and stop it from advancing but none of them ever expected it to be this horrific .

Once it was too close to them, they felt their Nether Energy being forcefully absorbed and even the phantom images behind them started fading due to the overwhelming Void .

Once Arthur and Lucy released the arrow, they disappeared from view as they turned around and left with fast speed . They used their Spirit Boat as it was the fastest way and in just a split second, only a rainbow-colored light was left behind them .

'BOOOM'

As they were flying on the Spirit Boat, they heard endless explosions from the city, it literally turned to hell as thunder struck from the sky and the arrow advanced without anything that can stop its destruction .

The first one who was struck was Meyzu, the closest one to it, he was not killed but his whole left arm vanished . It was not cut or chopped off, it just disappeared from existence as the thing which struck him wasn't stopped by his strong barrier or tough skin . Against it, he was like paper, but that was not the end of it, one of his Meridians was bent and compressed to a terrifying degree, making him immediately drop one Grade .

His bloody body was sent flying to the ground, smoking from the Thunder explosion and bleeding profusely because of the Void and Dark Magic in the attack .

All the five God Realm leaders were struck but only Meyzu suffered the heaviest injuries . Aborak was the one who was almost unscathed, followed by Kilan . Shishu had a fist-sized hole in her abdomen and Jizung was even worse and the right side of his head was burned and you could even see bone . They were all sent flying and crashed heavily on the ground .

They focused their barriers and techniques on the juniors so most of them suffered, only Aborak had a special way to protect himself and the juniors from his Race .

Despite their efforts, the arrow still struck a specific area . From the beginning to end, it didn't even stop for a second and what was agonizing was that the whole elder area of the Royal Cobra Clan vanished . No blood, no explosion, nothing . There was a gigantic hole in that area and there were no sights of the elders . Some of the juniors of Meyzu's clan disappeared too .

The arrow had already disappeared but thunder explosions still occurred all around the area and the huge dust cloud was still spinning slowly high in the sky .

"This is . . . . . "

Shishu gazed at the huge hole in the ground with wide eyes, no sound or nothing was emitted from that it when it struck its target, this only made it much more terrifying . It could be said that they were injured just because the arrow passed next to them, if it was aimed at one of them, especially Meyzu, he would have been crippled or have disappeared like those elders .

"\*Cough\* . . . \*cough\* those fucking two! I'll kill them!"

Meyzu was in a very bad state as he continuously coughed blood . Blood gushed from his shoulder and his face pale but despite that, he used his sword to get up and gazed at the direction Lucy and Arthur ran off to .

"We must not let them get away, everyone, catch them!"

Jizung was the one to act as he transformed into a green light that flew toward the South, where Lucy and Arthur . Aborak, Kilan, and Shishu also followed .

## Chapter 109

The couple's mean of escape was their Spirit Boat which they bought from the 'Treasure Pavillon' . It was amongst the fastest Spirit Boats, whether it's its quality, speed or even decoration, everything about it was superior to normal or even high-class Spirit Boats .

Such Spirit Boat is one of a kind, even people like Meyzu and co who are at the God Realm may not have like that . To begin with, once you reach the God Realm, you can easily teleport a distance away from your current location . Same goes for these powerful figures too .

But what they didn't expect is that Arthur had already prepared a counter-measure for that, before escaping or even when coming to the Grand Banquet, he put several talismans that disabled teleportation .

Albeit restricting their special teleportation, Aborak, Kilan and the rest still managed to catch up to them with unbelievable speed . They didn't immediately reach them, however, slowly but surely, they were getting close .

Lucy was breathing heavily as she sat up on the Spirit Boat and tried to recover some Nether Energy but it wasn't possible as she consumed too much . Fusing the two opposite attributes, conjuring the bow and launching the arrow, a single of those three would normally make her exhausted . What's more is

that she fought for some time against Lissandra making her even more mentally tired and unable to even move properly .

Arthur's Nether Energy depletion is much slower than her as he had many passives and skills to limit its decrease, nevertheless, with so many attacks covered from the view and the use of [Heavenly Arrow], he wasn't in his best shape .

Especially if he disables the pain immunity, he would instantly collapse from the unbearable pain he is receiving by the countless activated passives .

Normally, activating so many passives should not hurt like that, but when he possessed that wolf's body and activated them all at once, because their number was just too great and they changed many things, his body nor soul could handle such change .

Unlike his wife, Arthur stood at the back of the flying boat and gazed at the 4 beams chasing him . Aborak seemed to be the closest, he gazed lifelessly and coldly at Arthur and waved his cane and creating a grey cube .

The cube didn't attack Arthur or his Spirit Boat, instead, it enlarged at a very fast speed, its size kept increasing endlessly . At one point, it has covered the area around Arthur and the other 3 .

Unfortunately, Arthur could only stare at the cube with a wary look, he knew to fight would be meaningless and futile so he concentrated on injecting all his Nether Energy on the Spirit Boat to make it fly faster . He even took out precious Spirit Stones and used them .

Even the big Red Spirit Stones were useless but once he put one of the gems and bright stones in that special chest, something mind-boggling and unexpected happened .

The Spirit Boat literally vanished from the four's sight, it didn't just disappear into thin air, it's just that its speed was far to great, it broke through the grey cube and became a rainbow-colored beam that lasted for merely a second or so .

"T-that Spirit Boat . . . is it a Godly Item?"

Kilan had a look of greed as he saw the speed of the Spirit Boat, he was not worried that they would escape as he and the other leaders were personally chasing the enemy, there is no way they could escape even with a fast Spirit Boat .

Godly treasures are extremely rare, even for him, he only had one Godly treasure and it must be used only in emergencies, which is clearly not the case right now .

"It's not the Spirit Boat but what's channeling it . . . "

Aborak eyes were as lifeless as ever, but contrary to the others, he was not angry over what happened, no one beside him knew why he was chasing after Arthur but one thing was for sure, unlike the others, he didn't want to punish or kill them for what they did .

Jizung's face became uglier as he saw the Spirit Boat disappear, he didn't remain calm like the others . An illusory and big black Cobra appeared behind him, the beast hissed as its two eyes shined with a green color . They were ominous and creepy to look at .

Jizung's speed increased by several times, he surpassed the other three and began to catch up to the Spirit Boat of Arthur, but all he could see was the faraway light left from the enemy's Spirit Boat .

Whilst gritting his teeth, Jizung performed several seals in the air as he was flying, each seal was green and had an ancient aura around it . In total, he created 8 seals and every one of them floated behind him and landed on the black Cobra .

Once they touched the black beast, its size increased by two-fold at the very least . It was like a small black mountain, but that was not the only change . the old man Jizung became like a green beam that whistled in the air . His speed couldn't be compared to the previous one .

"That geezer . . why is he stubborn, sooner or later we will catch them . No matter what they are using to fuel the Spirit Boat, it'll end and at that time we'll catch them yet Old Ji is willing to resort to such means . . . . does he know them?"

Granny Shishu was feeling unease, confusion, and suspicion as she pondered about Jizung's behavior . Shen never saw the grey-haired man or that woman, so abducting Miya was probably to make her fight Jizung . It was obvious they didn't want to fight with her clan, but just their actions made them her archenemies as Miya was her precious granddaughter .

. . .

In no time, a green beam appeared behind Arthur's Spirit Boat, Jizung laughed madly as he closed in on them . He didn't need to act calm when no one was around, moreover, he was very enraged by what Arthur and Lucy did . Destroying the garden and ruining the banquet, attacking his clansmen, abducting an elder under his very eyes and then escaping, if this isn't a slap in the face I don't what know what is .

Arthur tried putting more of these mysterious gems but after using the first one, the boat didn't accept any other for some odd reason . Jizung was closing in and was half a mile away and every second that passes he becomes closer and closer .

"It's better for you to stop chasing, there is no way for a mere Immortal to escape from me!"

Jizung roared and waved his hands, creating hundreds of finger-sized black snakes that rushed at the Spirit Boat . They were biting the air and creating a disgusting sound . A green fog came out of their small mouth, their bodies twirled in the air and their speed was insane .

In an attempt to block that, Arthur could only create several big sized fireballs conjured from ancient flames to try and smite these dangerous little things .

Google search [freewebnovel.com](http://freewebnovel.com)

There was nothing his flames can't burn, as long as he is powerful enough, anything can be burned to ashes .

The fireballs hit the black snakes and burned most of them but because there was a lot of them, some of them managed to slip between the flames and strike the Spirit Boat . They didn't attack Arthur and started biting the Spirit Boat, eating it and becoming larger in size everytime they took a bite .

Arthur didn't waste time as he used basic lightning to kill them, their size became very large due to biting too much of the Spirit Boat but the good thing was that he managed to kill them all .

Unfortunately, by the time he breathed a sigh of relief, Jizung was already a dozen of meters away from the Spirit Boat, the huge black Cobra was still hovering behind him and hissing at Arthur while emitting the same green fog the small snakes did .

Arthur knew that Jizung needed only one attack to destroy the Spirit Boat and once the others arrive, there would be no hope of escaping, much less taking Lissandra with them . He turned toward Lucy and softly said

"You know how to control the Spirit Boat, use the gems in this chest and wait at the place we agreed upon . "

Arthur didn't wait for her to reply, a storage ring was thrown toward her .

Lucy didn't try to convince him, she just gripped the storage ring and dropped her head down while clenching her fists . She was depressed as she couldn't aid him and could only escape . She wasn't idiot enough to blindly stay there and hinder him so she just sat there silently without saying a word or moving .

As for Arthur, he jumped off the boat and faced Jizung, who was coming straight at him . Makaze was already at hand and in just a second the sky darkened as White Thunder was going to strike and hundreds of dark spears were aimed at the old man .

He didn't even pause for a second as he rushed at the black robed Jizung and slashed down with Makaze, [Dark Burst] and [Void Magic] were used in that slash as to maximize the damage and slow down the old man for even a second .

The slash was indeed strong, too strong, it would have hurt Meyzu or even Jizung if he didn't use those strange seals on the black Cobra . But there were no if's in this world, the reality was cruel and life is always unfair .

Makaze couldn't descend further as it was blocked by Jizung's black sleeve . It was unusual for Makaze to not be able to cut through something, especially a simple sleeve, but that only showed how strong the old man was compared to Arthur .

Arthur's wasn't fazed by this block, a purple Void sword was conjured in a split second, Arthur used his left hand, which was holding this purple sword to stab at Jizung's Dantian .

To no avail, this stab was yet again blocked by the other sleeve of Jizung, moreover, the green fog emanated from the black Cobra reached the purple sword and made it shatter into countless little fragments .

Not only that, several notifications popped up indicating that Arthur's Health is rapidly decreasing . The poison was too strong and it drained his life second by second .

"Quite ruthless huh? Aiming at my Dantian without hesitation . "

Only enemies who would despise each other to the bones would aim for the Dantian and cripple the opponent, Arthur's second strike clearly indicated how indifferent and cold he was toward his enemies .

He and Jizung could not be considered archenemies yet he struck at the old man's Dantian, that in itself showed what kind of person he was . Nonetheless, whether he struck his Dantian, heart or brain, Jizung didn't pay it any heed as it won't change his opinion on Arthur, in fact, it just worsened by a huge margin .

He was a cultivator first and a clan master second, there were unspoken rules in high-Realms and not striking the Dantian is one of them . If the Meridians are hurt or broken, they could still be healed even if it's near impossible but if the Dantian is destroyed then it's practically impossible to recover . You would become a mere mortal with a very weak and fragile body, you could even say that a simple gust of wind could kill you and that's not even an exaggeration .

The Dantian is created when one reaches the Immortal Realm, but before that it also existed in another form, it was only in a dormant state . The Immortal Realm could be considered its awakening . Simply destroying it would make the body exposed to any sickness no matter how trivial it is, a punch would deal more damage to that fragile body and even a simple cold can end its life .

For someone like Jizung, Arthur's actions were obvious . An invisible and forceful pressure pressed on Arthur and sent him flying until he crushed on the ground, blood came out from several bloody holes in his chest and shoulders . He looked very pathetic and haggard .

Jizung's first goal was to retrieve Lissandra, so with a final glance to Arthur, he turned around and chased the Spirit Boat .

"Oh no you won't!"

Arthur roared as white Thunder struck down from above, several thick white bolts shot toward the black Cobra . Whether it's an evil spirit or a manifestation, he guessed that Thunder would hurt it and it actually did!

Although the damage was minimal to the huge black Cobra, it still roared painfully and stared with dagger eyes and anger at Arthur . Jizung was forcefully stopped as he sensed that the black Cobra was enraged .

The white Thunder didn't stop as it kept striking the Cobra, moreover, Arthur threw the grey lantern toward the beast, creating even more explosive Thunder .

The whole area was covered in countless white lines which created deafening explosions, the black Cobra writhed and roared . Channelling the white Thunder was too consuming for Arthur yet he didn't stop, he noticed that some blood leaked out of Jizung's lips and his complexion whitened a bit .

Finally, the black Cobra couldn't take it, an enormous green seal appeared above it and acted like an impenetrable barrier that blocked all the lightning . Following that, Jizung accompanied by the Cobra appeared in front of Arthur and struck .

A green fog entered his body and a fast hand struck his abdomen, it penetrated his skin and bones and made blood gush out endlessly .

Arthur maintained an expressionless face, he couldn't feel pain but he saw his Health decreasing so without hesitation, he created a miniature Heavenly Arrow . It was the size of a normal arrow and was

made from Ancient Flames and Void Magic . The pressure was not something to laugh at and it conjured just in front of Jizung, who was freaked out from the arrow .

He retreated his hand and backed away, only until he was a hundred meters away from the arrow did he relax . No matter if it's small or not, its terrifying might earlier was imprinted on his mind, he can't be careless around it .

Seeing that, Arthur smirked and waved his hand, sending the arrow at Jizung .

Far away, 4 beams could be seen coming their way with the one leading being Aborak .

## Chapter 110

The situation wasn't looking good for Arthur as all the powerhouses arrived . Even a single one of them could deal with him, so for him to deal with all of them is not only impossible, it's absurd!

The arrow's speed is unmatchable even for someone like Jizung, fortunately for the old man, his Black Cobra intercepted the arrow and blocked it before it could strike him .

The Black Cobra seemed to be the main strength of the old man so it wasn't destroyed by this small arrow, nonetheless, it still received quite the damage .

Albeit it is an illusory phantom of the Black Cobra, blood came out from a small hole created from the arrow . The blood was green in color . Jizung's complexions turned paler and he couldn't help but cough a mouthful of blood .

If the arrow hit him, although it's a lot weaker than the last one, it would have damaged him greatly nonetheless, which proves how strong the Heavenly Arrow from earlier . It was fortunate for him or any other leader that Arthur aimed at the elder area of the Royal Cobra Clan . If it was aimed at one of them, it would have been hard to escape unscathed .

Heck! Meyzu was heavily wounded by it although it just passed close to him, such power is not something that can be neglected or blocked .

Void Magic had always been one of the most mysterious laws, not only is it lethal, it is hard to control and even the user can be injured while using it . What's more surprising is that the people that can use it are extremely sparse . It was as apparent as the sun that the Heavenly Arrow was made from Void Magic mainly, that gigantic pit created by its impact is the most indisputable fact .

Jizung had confidence in dealing with Arthur but he still feared the Void Magic, he didn't want to take any risks so he shielded himself with the Black Cobra . It may have injured him but it's way better than receiving the piercing power of the arrow head-on .

...

As Arthur floated silently in the air, 4 beams of unique colors appeared around him . Granny Shishu, Aborak, and Kilan, each of these three leaders appeared around Arthur . Only Bai Lingyue stood a bit farther . It was too late to help Arthur, not only did he kidnap Lissandra, he made all the leaders lose a lot of face and such thing is unforgivable by such people who cares a lot about face .

"Brat! Where is Miya!"

Granny Shishu was not a patient person, when she only saw Arthur and no signs of the silver-haired woman or her granddaughter, a sense of panic and uneasiness surged through her .

Before Arthur could even reply, Jizung's old and angry voice was heard

"That woman took your disciple and Lissandra on the Spirit Boat, if you go now you may be able to catch up . "

Jizung wanted to get Lissandra back but he gave up on that as Arthur simply angered him too much . If he didn't deal with him right now then he better crawl into a hole and never come out of it because of shame .

More than half of his clan's elders disappeared, one of the powerful elders got abducted under his eyes and the banquet he hosted got literally obliterated into black ashes and resembled a bloody battleground currently .

Hearing the answer she was waiting for, Granny Shishu was not willing to listen to Arthur anymore and prepared to chase after Lucy . At such a crucial time, Arthur finally decided to break his silence and speak at last .

"You should be Senior Shishu, right? As long you don't try to obstruct my way, I can promise you that your disciple won't suffer anything . "

Arthur didn't look in his best state, not only was he mentally exhausted, his clothes were a bit disheveled and his grey hair was messy from all the previous fights . It was better to call it a final struggle better than a threat, nevertheless, Shishu didn't chase after Lucy and just stared angrily at Arthur .

"Hmpf! Why should I believe a shameless brat like you? You used me earlier and you could be using me right now too . "

Granny Shishu wasn't like Jizung and co, losing face or whatnot didn't matter as long as Miya was alright . It's true that Arthur caused havoc in the banquet, but if he really would not hurt Miya, for the sake of her granddaughter, she would back off just this time .

"Granny! What are you hesitating for? Don't fall for his threats! Go chase that Spirit Boat and get Miya and Lissandra back, he can't do anything to stop you . "

Jizung's loud voice snapped the old woman out of her daze, she stared at Jizung then shifted her gaze at Arthur, she was still hesitating as maybe chasing the Spirit Boat will lead really lead to Miya's death .

With uncertainty and hesitation, she kept staring at Arthur, who in return just shrugged his shoulders and casually said

"I'm not going to beg you, if you chase the Spirit Boat or try in any way to block me, I can guarantee you that you'll never see that girl ever again . "

Arthur was really not bluffing, if Lucy saw the Granny chasing her, she would not hesitate on killing Miya, the girl may be innocent but that has nothing to do with her, from the very beginning, neither her nor Arthur were kind people . Innocent people die every day .

What's more, if Arthur got captured, Lucy would undoubtedly try to save him but not after she kills Miya and get the information needed from Lissandra . Arthur and she had already discussed this and saving Saly took the utmost priority .

Everyone remained silent and only the dripping blood from Arthur's countless wounds resounded in the surroundings . The Black Cobra was healing at a rapid pace and Granny Shishu kept frowning as she intensely stared at the white-haired man .

After an unknown amount of time, Granny Shishu flicked her sleeve in annoyance and floated near Bai Lingyue, clearly indicating her response .

The once who didn't expect this the most was Jizung, he stared dumbfoundedly at the old woman, his eyes were full of disbelief and confusion . No matter what is the situation, a person at the God Realm like Shishu, with unfathomable strength shouldn't back off just because the other party said one or two words .

"Granny Shishu! Did you go nuts or what? A few words from the enemy made you back off? Did you forget you are a clan master and should also follow the rules?!"

The old man's face became uglier than it already was, he was extremely angry and couldn't understand why would she act like that .

Granny didn't retort to Jizung and merely kept a silent attitude whilst locking eyes with a calm Arthur .

All of this was very beneficial to Arthur as buying more time meant recovering some Nether Energy and Health . Even a second could allow him to recuperate even the slightest bit of Nether Energy, no matter how insignificant it is, it would still be helpful in such a situation .

He got rid of Granny for the time being but there was still three and by the look of it, neither Kilan nor Aborak will listen to him and back off, even if he had a disciple of theirs, they wouldn't stop . One could say he was lucky to capture Miya as Granny seemed to care for her too much .

"Playing time is over, how about you go back with us . . . "

With a chilling smile, Kilan approached Arthur whilst a white tiger phantom appeared behind him, it was more domineering and frightening than the Black Cobra .

Golden chains that were as thick as a human's waist appeared out of nowhere and wrapped themselves around Arthur from his legs all the way to his chest . What surprised Kilan is that he met no resistance whatsoever, even Jizung was dumbfounded by this as he expected Arthur to retaliate .

'Could he perhaps have really given up?'

Such thoughts invaded Jizung's mind but they were all rejected as after all he has done, it's certainly impossible that he would give up but in such situation, surrendering would be the safest decision so he was confused . . .

From start to finish, Aborak didn't utter a single word but that didn't mean he stayed still, with a wave of his hand a cubic black cage made from black bones appeared around Arthur . Grey fog seeped out of the bones and the smell too pungent .

Arthur felt as if thousands of mountains are pressing on him but even such godly techniques can't block him using magical skills such as Dark Magic and such so that's why he let them restrict his movements .

What he is going to do is too dangerous and it's certainly not such seals that are going to stop him, he had the system that helped him use the skills in a more efficient way, some skills only need to be spoken or thought of to launch them which made it more advantageous to him .

"What are you going to do now? Arrogant bastard . . . with two godly seals put on you, there is no way in hell you're escaping from us!"

While Jizung was rejoicing by the fact that Arthur was captured, Kilan and Aborak were feeling unease as they noticed Arthur calm attitude . He was too calm for someone who has been captured and sealed by their powerful techniques, it's too strange!

Arthur turned his head to look at Azure Bai and Granny and smiled, from outside, it looked only like a small but secretly, he used a one-time use talisman that allowed him to transfer his thoughts to a specific target . Creating this talisman required too many materials so he didn't make any, which is why he rarely used them .

"Senior Bai, Senior Shishu, it's better if you evacuate right now, if it's right now, you may be able to make it . . . . "

Arthur didn't say anything further than that, from their point of view, it sounded like he was telling them to save themselves but if you look at the situation, it's quite funny from his part or so would think normal people, but not Bai Lingyue .

Adding his calm attitude despite being captured and his warning right now, it absolutely certain that he has something up his sleeves, a trump card and not a weak one at that!

One has to know that even when he used the Heavenly Arrow with Lucy, he didn't tell Bai Lingyue to escape, so what he is about to do could be more dangerous .

Bai Lingyue's guess was on point as Arthur's preparation had already began since the time the four of them arrived, he was concealing the attack while it is being readied .

If the Heavenly Arrow is his strongest attack then this once could be considered his most dangerous and lethal attack, even to himself . He was unwilling to use it in the presence of Lucy and it would undoubtedly hurt her if not instantly kill her, same goes for him but in such a desperate situation, he had no choice but to use it and hope for the best .

Perhaps his godly recovery or insanely high stats would allow him to survive but one thing for sure, even people like these leaders cannot escape unscathed from this, it impossible and that's because Arthur had already tested a weak version of the attack and the result was mind-boggling .

Several days ago, at the mountain range they were secluding themselves in, nearly twenty mountains were obliterated with no remains of them except huge boulders and rubbles .

Arthur was hurt, he lost his whole left arm but it recovered in a matter of minutes, the astonishing thing is that he only put so little energy in the attack and yet it dealt so much damage, it's fortunate Lucy was not near him when he experimented with it .

. . .

Bai Lingyue's calm face turned serious and after gazing at Arthur for a couple of seconds, he showed one last friendly smile before vanishing into a multicolored fog, Granny Shishu also vanished with him .

They disappeared secretly without emitting any noise whatsoever because they were behind Aborak and co, they were not noticed yet which made it even better for Arthur .
