[Chapter 1091: Horrified Origin Devil](#)

at the same time.

In the dark world.

The mysterious origin demon emperor in the mist is directly stunned!

"what's the situation!?"

"Where are the fragments of my soul body? How come it suddenly disappeared!"

"Oh my god, I haven't recovered my soul fragments for the first time after practicing for so long!"

"That is the fragment of the soul body that I have carefully cultivated for many years. It is a ladder that has been condensed on my road to the realm of the Supreme Emperor!"

"Fortunately... Fortunately, it is just muscle tissue, not a more important part, otherwise the loss will be even greater!"

"This genius who covers the sky is really weird. I can actually **** my soul fragments from my hands. My evaluation of him is still too low!"

"Then, that ruthless heavenly emperor is probably stronger than I thought."

"It seems that we must be more cautious about the Zhetian Continent!"

"..."

The Origin Devil Emperor was horrified, and even raised a deep fear of the 'Zhetian Continent'.

Su Lang didn't know that his "perfect plunder" shocked the Origin Devil Emperor again.

If he knew it, he would definitely be happy.

At this moment.

Su Lang glanced roughly at the spoils, and immediately sealed the inner boundary of Yingzhuo.

Without the 640 trillion tons of weight on his body, he felt that he was about to float with ease!

"Tsk tut!"

"This is a good way to exercise!"

"Furthermore, using the planet as a barbell to exercise your body is too high."

The corner of Su Lang's mouth twitched, and a slight smile appeared.

Of course, he also thought about it randomly, if he really wants to exercise, it is better to practice the exercise exercises honestly.

"Friend Lang Di Dao..."

"Just now...what about those muscles that changed in armor!?"

Jiao Qin's surprised voice came from the side, followed by everyone's gaze.

"Uh!"

"I don't know that."

Su Lang scratched his head with an honest expression on his face.

He didn't want to expose his "perfect plunder"...

"In other words, disappeared inexplicably!"

"There was no sign, it just disappeared, it's really scary!"

"Could it be the method of the Origin Devil Emperor?"

"It is very possible that the dark world is really not easy to mess with!"

"Father Su Lang's words, I don't know if the Origin Demon Emperor believes it."

"If not, our Canglan Continent will soon face attacks from the two worlds of Jingtian Continent and Dark Heaven Continent. We... will definitely lose!"

"In any case, Daoist Su Lang's quick wit finally gave us a glimmer of hope."

"Yes, Daoist Su Lang, I'm really convinced of you!"

"Master Su Lang, please be worshipped by the crazy fish!"

"..."

All Wu Emperors discussed, and their attitude towards Su Lang changed again.

I paid more attention to it before, and I was a little in awe.

In fact, there is still a little doubt.

But at this time, he completely believed in Su Lang, and developed a feeling of admiration.

Especially, in order to kill the Emperor Wu in another world, Su Lang did not hesitate to "sacrifice" his life and universe, so that everyone could not be moved.

"Friend Su Lang, you... are you okay now?"

Wudi, the **** of wildness with a loud voice, became a little gentle at this moment.

"Yes, Fellow Langdi, it doesn't matter, are you?"

"The planet of the universe of life collapsed and collapsed. We must all help you rebuild it!"

"..."

Jiao Qin and others showed their concerns. Ni Qianzhou and the Emperor Wu from the outside immediately rushed into the world of the emperor's forbidden area and surrounded Su Lang.

"exactly!"

"We must help fellow daoists collect suitable land and rebuild the universe of life!"

"I just collected a plain with rich wood attribute rules. Before I can use it, I will give it to fellow Langdi Daoist after I have finished here!"

"Me too, I gave Daoist Su Lang a magnetic mountain, which contains the magnetic rules that are almost condensed into Dao."

"I haven't collected any land suitable for casting life universe planets. I am willing to donate one million Hinayana sources to Langdi Taoist friends."

"Me too, donate one million Hinayana Xianyuan to Langdi Daoist!"

[Chapter 1092: They want to compensate me](#)

"..."

All Emperor Wu said, I said, patted their chests and promised to help Su Lang rebuild the universe of life.

And Su Lang.

He sounded dumbfounded.

When he released the power of the inner world before, he really reached the limit, so he didn't pay attention to the looks of the people, let alone the misunderstanding of them.

At this time, seeing everyone's caring faces, Xi Han and Nuan, suddenly felt confused.

But fortunately, he immediately captured important information from everyone's words.

"They thought my life universe planet collapsed!?"

"Why do you think so?"

"Ordinarily, releasing the power of the inner world will cause the planet of life in the universe to collapse?"

"Well, it should be like this..."

"I don't even know this kind of emperor-level common sense..."

"Well, when the seven emperor level exercises are completed, you should be able to figure out the Wu Emperor level completely."

"Now they want to make up for me, it's... so beautiful!!"

"..."

A lot of thoughts flashed in Su Lang's mind for a moment.

Immediately, he immediately spit out a mouthful of blood with a pale face, and a trace of cracks appeared on his body again.

Even the strong aura directly declined to the rank of Emperor Wudi.

That's right, Su Lang directly dismissed the 'Swallow Clone', anyway there was only more than a minute left.

Immediately after.

"Ahem!"

"It's okay, I'm okay."

Su Lang showed a tough look in his eyes, as if he wanted to resist all the pressure.

"Friend Langdi, don't do this!"

"It is everyone's responsibility to protect the Canglan Continent. How can we allow you to bear such a big loss alone!"

"Yes, the battle of the mainland still needs the help of the Langdi Daoist, you must not refuse, you must restore your combat power soon."

"..."

The emperors were full of concern, and they looked like 'you must accept our compensation'.

Some of them, Emperor Wu, directly squeezed the space treasures, which contained various things.

The super good emperor Xuanyou directly gave away a fairy-level space treasure, not knowing how many good things were inside.

"Good, good."

"Then thank you fellow daoists for the generous gift."

"In the battle of the mainland, I, Su Lang, will kill the enemy even more bravely..."

Su Lang finally nodded, accepting the space treasures given by everyone with a look of embarrassment, and he was happy.

This is a treasure presented by the 22 Emperor Wu.

Most of them were given to The Hinayana Xianyuan.

Su Lang was not able to count immediately, but he also knew that The Hinayana Xianyuan would definitely not be less than 10 million!

See Su Lang's men who gave him the compensation.

All the emperors felt better in their hearts, and felt that this time they had contributed to killing the emperors of another world.

So everyone was happy.

but.

Soon, everyone calmed down and began to clean the battlefield.

"Ugh!"

"The accumulation of thousands of years was ruined."

Emperor Xuanyu looked at the dark planet beneath him, and he rarely felt sad.

"Yes."

"This world is too miserable."

"Not only are the creatures almost slaughtered, but the land and ocean are also polluted."

"Let's quickly help purify those dark negative energies."

"..."

With that said, everyone intends to clean up the dark negative energy and save this life universe.

But at this moment.

Su Lang stopped everyone.

"and many more."

"The most urgent thing is to first explore the breach of the Dark Sky World's invasion of the Emperor's Forbidden Land!"

"We must first repair the gap, and then we can clean up the dark negative energy, and then let people inherit the inheritance of the Nineth Rank Wudi."

"If I guessed correctly, the successor should also inherit this world?"

"As long as the gap in the emperor's forbidden land is repaired, and then the successor can inherit this world, the coordinates of this world can be changed continuously, so as to avoid being invaded by the Dark Sky Continent again!"

Su Lang looked around at everyone with a serious face.

[Chapter 1093: Langdi is really amazing](#)

"indeed."

"You must first get this world out of the sight of the dark world!"

"..."

After hearing Su Lang's words, all Wudi nodded in agreement.

Soon.

All Wudi looked at Emperor Xuanyu.

As the master of this world, he must know the gap best.

"I know the exact location."

"Please come with me."

Sure enough, Emperor Xuanyu nodded with a certain face.

Immediately after.

Su Lang and others followed Emperor Xuanyu to a certain place in the world barrier.

Standing in front of the barriers of the world.

Su Lang swept it roughly with mental power, and found a large number of cracks and a cavity that was slowly growing larger.

Hollow outside.

The power of space from the boundless universe is constantly eroding the barriers of space and assimilating this world.

"Please use the space rules to help me repair the void."

Emperor Xuanyu nodded to Su Lang and the others, then used the almighty incense power to turn into a strange barrier to fill the void.

Su Lang and other emperors also used space rules to help.

At the level of Emperor Wu, he generally mastered the rules of space in order to build the universe of life.

It's just that no one is more proficient in the rules of space than Su Lang, let alone become an emperor with a great way of space.

Therefore.

When Su Lang used the space rules, he suddenly formed a contrast with other Wudi.

He manipulates a large number of spatial rhythm lines, filling and repairing the cavities of the barrier.

But for the rest of Emperor Wu, there was too much difference.

Not long.

Space barriers are completely restored as new.

"Fellow Langdi Daoist is really amazing!"

"Yes, even if the cultivation base slips, the first-hand space rules are much more skillful than we use!"

"Well, this space barrier is empty. Except for Master Xuanhuo, fellow Langdi Daoist has repaired the most!"

"Friend Langdi is really amazing, I admire it!"

"..."

All Wudi looked at Su Lang with admiration.

Su Lang just smiled faintly, and quickly said humble words.

The crowd said a few more words.

Then it was the turn to purify the dark and filthy power of this world.

"This is a time-consuming task."

Emperor Jiao Qin looked at Su Lang and Zun Sheng: "The daoists Langdi and the daoists Zunsheng are hurt, so you don't need to do it."

"Yes, right, right, the two fellow Taoists should take a good rest."

"..."

One by one, Emperor Wu asked Su Lang and Zun Sheng to rest.

"No."

"Although my cultivation base slipped."

"But to clean up the dark negative energy, it is still done."

Su Lang smiled and shook his head, and without waiting for everyone to speak, he flew straight to the ground.

The emperors couldn't help being touched by Su Lang's persistence.

Emperor Zunsheng Wu also said in his heart that he should be the same as Emperor Lang, and he must have his own belief and persistence.

So he also gave up rest and joined the team to clean up the dark negative energy.

Except for Si Yuxiang who guarded Hu Sixi outside and did not enter the emperor's forbidden area, including Su Lang and Xuanyu, the 23 Wudi were each assigned to a territory and began to clear the dark negative energy.

Immediately afterwards, everyone began to act.

"I said, there must be light."

"Darkness, condensed into a ball!"

"Disperse it, decayed energy."

"..."

Su Lang used various rules to clean up a large area.

The other Emperor Wu found this scene and couldn't help being stunned.

Because the rules that Su Lang mastered were not only numerous, but they were all very proficient.

Therefore, Su Lang's efficiency is faster than everyone else!

"Langdi, it's really amazing..."

The emperors admired Su Lang even more in their hearts.

In a blink of an eye.

A short time passed.

The dark life planet has turned brown, which is considered to restore some health.

But in a short period of time, it is impossible to completely repair this planet, and it must continue to be repaired in the days to come.

[Chapter 1094: Emperor Wu have big heads](#)

In addition, the ecosystem must be re-established.

The most important cultivation civilization must be developed from the foundation. Even if there is a complete cultivation system, it will take a long time to wait for the strong to cultivate.

Fortunately, the incense system has advantages in this regard.

As long as the ruler is willing to sacrifice his own power to give believers, the speed of the upgrade of believers can be accelerated.

However, this is still limited.

It is impossible for ordinary people to suddenly grant Wuxian-level power, that is killing.

The prerequisite for elevating the rank of believers is that believers can withstand that power.

Closer to home.

After the emperors of Wudi initially cleared the dark negative energy, they began to discuss the next issue.

What to do with the inheritance of the emperor body! ?

First of all.

Through the narration of Emperor Xuanyu's body, all Wudi fully understood the inheritance process.

The first is to select successors through trials.

Then Emperor Xuanyu merged with the successor, sacrificed himself, and pushed the successor to the realm of Emperor Wu.

Immediately after.

Use the ready-made world directly to create the universe of life.

The inheritors will get the emperor-level cultivation base, the emperor-level cultivation technique, countless heavenly materials and earth treasures, a long-developed life universe planet, and the Wuyu tea forest that has been cultivated for countless years.

but now.

The planet of life is almost gone.

The strength of Emperor Xuanyu's body has dropped drastically, almost falling to the level of Emperor Wudi of Rank Six.

A large number of intelligent creatures are the foundation of the incense system, and this foundation is now gone.

Secondly.

Wuyu Tea Forest was also destroyed.

The culprit was Hu Sixi, who was originally a fanatic of Xuanxuan, who had cultivated to the realm of quasi immortality.

Then, he was stuck, and he could only wait to live and die before he could become a fairy-level hero.

Hu Sixi was not reconciled and went black and fled into the deep sea.

By chance, he merged a large amount of negative incense energy, broke through to the immortal level, and went straight to the quasi-emperor level.

Immediately after.

In order to find a way to escape from this world, Hu Sixi adapted "Baitiandi", and by chance, in the future, he contacted the Origin Devil Emperor.

Then, with the help of Origin Devil Emperor, Hu Sixi found the spatial coordinates of Wuyu Tea Forest.

Soon, the Origin Demon Emperor sent Kuang Erlu to invade this world.

Hu Sixi also launched an attack at the same time, destroying the Wuyu Tea Forest and releasing the negative incense aspirations accumulated for countless years.

Amid the infinite negative incense aspirations, Hu Sixi was promoted to the emperor rank, and Kuang Erlu also fought with Emperor Xuanwei.

At last.

It was Su Lang who opened the entrance to the emperor's forbidden area, and what happened later.

all in all.

The current emperor's forbidden land inheritance has been destroyed.

There was only one planet that was almost dead, as well as emperor-level techniques and a large number of immortal sources and treasures of heaven and earth.

Although this is still an emperor inheritance of infinite value.

But don't forget that the coordinates of this world have been anchored by the Origin Demon Emperor, and inheritance will take huge risks.

Although after inheritance, the coordinates of this world will be transferred with the movement of the inheritor.

However, a big boss like the Origin Devil Emperor is usually unreasonable.

Who knows if the Origin Devil Emperor has other means to lock this world?

"If you want to inherit this world, you must take risks."

"Not only will the inheritors have the risk of death, our entire Canglan Continent also has to bear the risk."

"Yes, once the Dark Sky World can really anchor the successor's life universe, then the successor will become a shortcut for the Dark Sky World to invade our Canglan Continent."

"However, this inheritance cannot be abandoned like this, it must be inherited!"

"Yes, not to mention the value of inheritance, if no one inherits, what will Master Xuanhu do?"

"..."

Because of the inheritance of the emperor's body, the emperors' heads are big.

at this time.

Su Lang ticked the corner of his mouth and smiled faintly: "I have a way."

[Chapter 1095: Diversion Project](#)

"I wonder if Fellow Langdi can do anything?!"

All Wudi's eyes lit up and they looked at Su Lang one after another.

"Very simple."

"Abandon this world."

Su Lang smiled and said, "Just let the successor inherit this planet of life, not the entire universe of life."

This statement came out.

All Wudi suddenly realized.

The origin of the Devil Emperor anchored the space of this world, not the planet of life.

Only inheriting the planet of life can indeed avoid all risks.

"but....."

"In the process of inheriting the inheritance, the method for the successor to break through the Wudi level is that I use special means to directly use this life universe to assist the successor to break through."

"According to the thoughts of fellow Langdi Daoist, the successor will have to independently break through the emperor rank before he can inherit the life planet. This is not something that can be done in a short time."

It was Emperor Xuanyu himself who raised the objection.

His words fell in the ears of Emperor Wu, and immediately silenced everyone.

Yes.

If the gecko docks its tail, abandons the universe of life and inherits only the planet of life, then the successor must break through to the Emperor Wu level by himself.

It was not easy for the quasi emperor to break through to Emperor Wu, even with the help of Emperor Wu on the scene, it was full of uncertainty.

"But if the successor is originally at Emperor Wu level?"

The corner of Su Lang's mouth twitched, and he smiled, "Emperor Yiwu inherits the inheritance of Lord Xuanhou, and all problems can be easily solved."

"what!?"

"Let Emperor Wu inherit the inheritance!?"

"This is a good way."

"However, our original intention was to train one more Emperor Wu to come out. If we do so, it goes against our original intention."

"Yes, and the inherited Emperor Wu will face the horrible side effect of incense aspiration. Who wants it?"

"Yes, and the loss is really too great to give up this life universe."

"In addition, this life universe is currently dependent on the Canglan Continent. Even if it is abandoned, as long as it still exists, it will still not be able to completely avoid risks."

"..."

After thinking about Su Lang's point of view, the emperors quickly found some points that needed to be resolved.

As for the drawbacks raised by Emperor Wu, how could Su Lang not expect it?

First of all, no Emperor Wu is willing to inherit the inheritance of the emperor and bear the side effects of incense.

Su Lang is willing to let a avatar of himself be the successor.

Although this is equivalent to permanently losing a avatar that can be sacrificed casually, and also to bear the risk of entanglement.

But the benefits are still many.

but.

Su Lang did not speak directly, telling his plan.

But first mentioned the latter question.

"Who wants to inherit the inheritance will not be mentioned for now."

Su Lang said indifferently, "The problem of risks that will be brought about by the survival of the universe of life here can actually be solved."

"How to solve it?"

Emperor Jiao Qinwu said, "Could it be... to destroy it directly?"

"This...too wasteful."

"This is a very stable world on one side."

"It's ruined like this, it really makes me feel so distressed..."

"Yes....."

The emperors looked at each other, very reluctant to bear this world.

After all, this is one of the six life universe fragments left by Emperor Wudi of Rank Nine, comparable to the complete life universe of ordinary Wudi.

And the quality is much higher.

"Destruction is indeed a way."

"But I have a better way!"

Su Lang smiled lightly, "That is to use it as a means to target the Jingtian Continent, to attract disasters, and to transfer the risk to the Jingtian Continent."

After hearing Su Lang's words, all Wudi looked at each other again.

"This sounds like a good idea."

"But it is impossible to complete such a plan."

"Yes, this world is attached to the Canglan Continent, and it cannot be transferred to the Jingtian Continent at all!"

[Chapter 1096: Langdi has to sacrifice himself again!](#)

"..."

Everyone, look at me and I will look at you. After some discussion, his eyes fell on Su Lang again.
they know.

Su Lang would definitely think of what he could think of.

But since Su Lang dared to propose such a plan, there must be a solution.

"Everyone can remember one of the processes of inheritance."

"It is the process by which Master Xuanyu used special means to integrate the existing universe of life into the successor."

"Heirs who integrate into this life universe will take extremely huge risks."

"But this person can also leave Canglan Continent and go to Jingtian Continent."

Su Lang smiled faintly, "In this way, wouldn't the risk be transferred to Jingtian Continent?"

After hearing this, everyone still frowned.

"Thus."

"Back to the previous question."

Emperor Jiao Qinwu frowned slightly, "Who wants to take this risk and be the victim?"

Finished.

Everyone bowed their heads.

Those who can take this risk are at least Zhundi.

Because only the quasi emperor can integrate into this life universe.

However, even though it was said that there were all ants under Emperor Wu, they had to treat Emperor Zhun as human beings.

That is the reserve officer of Emperor Wu, the flower of Canglan Continent, the successor...

No one wants to let the quasi emperor in his clan go to death in vain.

But at this moment.

"I do."

Su Lang's faint words came.

This statement came out.

All Wudi suddenly looked stagnant.

"Friend Langdi Daoist."

"Don't force it."

"After all, even if you are willing, you have to consider the wishes of your subordinate quasi emperor."

A Wudi said, "Well, let's find some heinous quasi-emperors, and give them a chance to perform meritorious service, and see if anyone is willing to..."

The other Emperor Wu nodded.

"no need."

"It's not safe to borrow someone else's hand."

Su Lang shook his head and smiled, "What I plan to sacrifice is my clone!"

The voice just fell.

All the emperors tremble all at once!

"What the hell!"

"Friend Langdi intends to sacrifice himself again?"

"This time, I have to sacrifice the clone that is closely related to me!?"

"My God, Fellow Langdi, can you not be so selfless."

"Alas, compared to Fellow Langdi, I am like a selfish villain."

"The morality of fellow Langdi Daoist is really nothing to say."

"..."

The thoughts appeared in the hearts of the emperors, making them feel ashamed.

In the eyes of everyone.

Creating a clone is not easy.

Especially the quasi-emperor-level clones, even among the Wudi present, only a small number of them possessed.

and.

One's own clone is closely related to the deity.

Because the soul of the clone is usually split from the deity.

Once the clone dies, the deity will suffer backlash more or less. The stronger the clone dies, the more severe it will suffer.

Therefore, all Wudi thought that the sacrifice made by Su Lang was really great!

But the emperors never thought of it.

Su Lang's clone does not need to spend any effort to cultivate quietly, once it dies, it will be reborn after an hour of cooling time!

Moreover, the death of the clone had no effect on Su Lang.

What's more, what Su Lang intends to sacrifice is the avatar, the loss is even lower.

"The sacrifices made by Fellow Su Lang is still enough."

Emperor Jiao Qinwu couldn't help but said, "Let us come."

"no need."

"Everyone knows that I am very good at the doppelganger technique."

"I suffered far less than everyone thought."

Su Lang smiled faintly, "This is the case. Use my clone to carry this universe of life and go to Jingtian Continent, which will lead to disasters!"

Su Lang's decisive words finally dispelled the idea of persuading the Emperor Wu.

"The Langdi Daoist in Canglan Continent is a blessing to all beings!"

"Yes, I can't represent others. I would like to represent the Qingxiao clan, Brother Xie Langdi!"

"Friends of Emperor Xie Lang!"

[Chapter 1097: Si Yuxiang](#)

"..."

All Wu Emperors were sincere and thanked Su Lang.

Su Lang was actually embarrassed, but he didn't bother to explain, so he was so grateful.

"Next."

Su Lang continued, "Let's discuss it and see which Emperor Wu is willing to accept the inheritance."

As soon as the voice fell, the emperors fell silent again.

Although the inheritance of Emperor Wudi of Rank Nine is tempting, it is tantamount to chronic suicide if contaminated with incense will power.

The emperors boasted that they were in their prime of life, yet their potential was not yet fulfilled, and they had a lot to do.

Therefore, they are not willing to accept this inheritance.

Well.

Suitable candidates are the weakest Emperor Wu and the oldest Emperor Wu.

Once the weakest Emperor Wu accepts the inheritance, he can greatly increase his combat power and save a lot of penance.

Needless to say, the oldest emperor Wudi naturally, his life will be exhausted, and his life will be extended. This is a relatively common choice.

but.

The Wu Emperors present, even the oldest Jiao Qin Wu Emperor, had a life span of only 15 million years.

The strongest Wudi generally has a life span of 50 million years.

Jiao Qin, as Emperor Wudi of Rank Six, belongs to the intermediate Wudi class, and has a life span of 30 million years, only half of his life.

It can be said that Emperor Jiao Qin Wu is also a proper man.

Thus.

Only the weakest Emperor Wu was left.

Everyone's eyes couldn't help but fall to Honglian Wudi Ni Qianzhou and other Second Rank Wudi.

However, Ni Qianzhou and others were unwilling.

Seeing the scene fell into silence.

Su Lang planned to stand up and speak and let his clone inherit the inheritance.

But at this moment.

"I come!"

The resolute tone is like a sonorous golden iron.

Everyone followed the sound, but saw Si Yuxiang pressed Hu Sixi into the emperor forbidden area.

The new Nen Wudi, who was like a young master, came to the front of all Wudi with the color of determination and determination.

"Si Yuxiang, you fool around!"

"I finally helped you break through Emperor Wu!"

Si Yu burst out with a smile, "How can I contaminate the incense power!"

"Do not!"

"Brother, I didn't mess around."

Si Yuxiang's expression remained unchanged, with a determined look, "I want to inherit the inheritance of Master Xuanhu!"

Si Yu smiled and opened his eyes wide, his face full of sullen anger.

The other Emperor Wu's expressions remained unchanged, but they smiled in their hearts.

Okay.

Finally, there is a Wudi who is willing to inherit the inheritance of Lord Xuanyu!

Zi Ming Emperor Clan Si Yuxiang is good.

However, Si Yuxiao certainly does not want Si Yuxiang to be tainted with incense and lose himself.

"Listen to my brother's words."

He held back his anger and said, "You have a long life, there is no need to be so impatient."

"Do not."

"I am not trying to improve my strength."

Si Yuxiang shook his head and said, "I only hope that the Zi Ming Clan can really integrate into the Canglan Continent and stop being a tramp under the fence!"

This statement came out.

Si Yu couldn't help being filled with bitterness.

It turned out that the seemingly young Si Yuxiang was for the entire Ziming Emperor family.

As long as he inherited the inheritance of Xuan Hu, merged with Xuan Hu and became the guardian of Canglan Continent.

Then, Si Yuxiang, and even the entire Zi Ming emperor clan, would surely be recognized by everyone in Canglan Continent.

The world consciousness of the Canglan Continent can also be sensed, and it further accepts the Zi Ming Emperor.

Even, in a short time, the Zi Ming Clan can really become the natives of the Canglan Continent, and be blessed by good luck instead of entangled by bad luck.

"Brother, my heart is determined!"

Si Yuxiang smiled, with a trace of determination, "You are the true hope of the Ziming Emperor, and I also hope that I can make my own contribution."

Si Yu smiled with a stern expression.

Yes.

He is the fetus of Minggu Emperor, while Si Yuxiang is of ordinary physique.

If nothing happens, Si Yuxiang will live under the shadow of his wings all his life.

Si Yuxiang is an adult, and he wants to go out of his own way.

[Chapter 1098: I'm so willing!](#)

"But, the road you took is so extreme, so cool!"

Si Yuxiao had red eyes, but in the end he did not persuade Si Yuxiang again.

When the other emperors saw this, they couldn't help being silent, and the smiles in their hearts faded.

"Seniors."

Si Yuxiang took a breath and said, "I am willing to inherit the inheritance of Lord Xuanhuo, but there are also conditions."

"You speak up."

Emperor Jiao Qinwu nodded.

"Yes!"

Si Yuxiang bowed to Emperor Jiao Qinwu, "I hope that the Ziming clan can move to the real continent instead of living in Zimingzhou."

Zimingzhou, said to be a continent, is actually a big island.

Because Zimingzhou is surrounded by wounds from the world, although various rules are normal, the aura and genius treasures here are very scarce.

Even Si Yuxiao, who has been practicing here for nearly tens of millions of years, has only broken through to the sixth rank of Wudi.

With his special physique of Minggu Emperor's fetus, in fact, it should be at least the realm of seven turns and eight turns.

If the luck is a little better, he might have already turned nine.

The other members of the Ziming Emperor Clan are also very strong on average. After all, the Ziming Emperor Clan was once very broad...

Si Yuxiang's conditions.

Before the change, the emperors of Wu said not to say that they agreed, it would be good not to jump up and beat people.

but.

Si Yuxiang was willing to inherit the lineage of Xuanhou as Emperor Wu.

This is almost a sacrifice of self.

In the face of this huge sacrifice, the emperors had to make some compensation.

but.

All the Zi Ming emperors moved to Canglan Continent, but the Wu Emperors were still reluctant.

After all, the land of the Canglan Continent was already saturated, and even the barren land in the south was occupied by Su Lang.

There is no more free place to live in for the Zi Ming Emperor.

"Your request, I understand very well."

Emperor Jiao Qin Wu hesitated and said, "But there is no more land on the Canglan Continent, unless any Emperor Wu is willing to give up some..."

Speaking of which.

All the emperors were silent.

"Ugh."

Si Yuxiao and Si Yuxiang couldn't help but smile.

Immediately, the two looked at each other and understood each other's thoughts.

then.

Si Yuxiao was ready to speak, back down and provide compensation to Emperor Wu who was willing to give up the land.

Although their Zi Ming emperor clan has been in trouble for so long, they still have a bit of background.

But at this moment.

"Haha."

Su Lang smiled: "There is a lot of free land there, but it is very barren, I don't know if you can't see it."

Su Lang ruled the entire southern continent.

Almost occupied half of the Canglan Continent!

The Yaochi, Tianyun, Chiri, and even Qiushui and Biyun tribes only occupy one percent of this vast land.

The rest of the land is either occupied by small and weak races, or is directly barren mountains and ridges, occupied by beasts.

The race and population of the southern continent are far from being saturated!

Su Lang knew that the Zi Ming Emperor Clan was very extraordinary.

Using some free and useless land to burn this cold stove, and forging a good relationship with them, it's all blood.

And Su Lang spoke.

Not only Si Yuxiao and Si Yuxiang were thrilled, but even the rest of Wudi turned their worries into joy.

"Yes, I'm so willing!"

Si Yuxiao and Si Yuxiang bowed to Su Lang gratefully, "Thank you, Daoist Langdi, and Daoist Langdi!"

Originally, these two buddies had a feeling of 'pity for the same disease', 'pity for each other', and 'hate to meet each other' to Su Lang.

at this time.

The other Emperor Wu were silent, only Su Lang offered a helping hand.

This immediately caused their favorability towards Su Lang to rise sharply!

Well, it's almost a brother.

I am still afraid that Su Lang is unwilling, otherwise he has already called.

"Since Fellow Langdi is willing, that would be great."

"Hmm...I will contact Dao Brother Qingqiu immediately!"

Emperor Jiao Qinwu also showed a smile, "Don't worry, since everyone agrees, Brother Qingqiu will not refuse, just let me know."

[Chapter 1099: Choose with confidence](#)

Although Jiao Qin can represent Wudi Palace to a certain extent.

But for these important events, it is still necessary to inform the four Wudi Palace members Qingqiu, Chongshuang, Qiongyun and Yihua.

Especially Qingqiu Emperor Wu, he is the strongest man and palace owner of the Emperor Wu Palace.

"Then trouble Senior Jiao Qin."

Si Yuxiang also bowed slightly in gratitude to Jiaoqin, but his gratitude was much less than for Su Lang.

"Since I have to wait for Senior Qingqiu to reply."

"It's better to take advantage of this moment and let the two fellow Taoists choose where they want to stay."

Seeing that Emperor Jiao Qin Wu contacted Emperor Wu Qingqiu, Su Lang invited Si Yuxiao and Si Yuxiang to divide the territory.

But Su Lang's words made Si Yuxiao brothers flattered.

"what!?"

"Friend Langdi's willingness to give us land has already made me two overjoyed. How can we make an inch..."

"Yes, just ask Langdi Dao brother to circle an unimportant place for us!"

"..."

Si Yuxiao and Si Yuxiang felt ashamed, and quickly declined.

The rest of Emperor Wu also felt that Su Lang was really a good person, not worse than Xuan Xuan!

"Haha."

"The two have misunderstood."

Su Lang smiled, "Actually, the land that the two of you choose is not important, so choose it with confidence."

Talking.

Su Lang waved his hand gently, and the rules of fantasy condensed a sand table world, which was the southern continent.

Su Lang has a thorough grasp of the rules of illusion, and he is close to condensing the great road, and he also knows the southern continent well.

Therefore, the Southern Continent that has been transformed is very exquisite, and it's almost completely visible.

In this sand table, a large piece has been circled.

This land is located on the northeast side of the southern continent, close to the central part of the mainland, and the west and the south have been ceded out of a quarter of the southern continent.

But even a quarter is larger than the territory of many Wudi present.

They are more than 20 Emperor Wu crowded in the northern continent!

Of course, although the site is large, its value is far inferior to that of the north.

The strongest in these areas is the Valkyrie, which shows how barren resources are...

Brother Si Yuxiao couldn't help being moved when he saw that Su Lang had given up such a large site.

They discussed, and then once again circled the quarter of the land closest to the southwest on the quarter of the land that Su Lang had given up.

That is, one-sixteenth of the land in the southern continent, the most remote and barren kind.

After enclosing this land, Brother Xiaoxiang immediately observed the expressions of the emperors in secret.

The emperors of Wudi couldn't even look down on the entire southern continent, so how could they care about the more remote and poor places in the extreme south?

As a result, everyone nodded.

Finding that the Emperor Wu had no objections, the two brothers suddenly felt relieved.

But at this moment.

"Ha ha!"

A sneer came.

It turned out that Emperor Ling Juewu went and returned.

He hugged his arms and looked at brothers Su Lang and Si Yuxiao with a sneer, and even the other Emperor Wu also mocked them.

Suddenly, all Wudi frowned.

"Emperor Ling Juewu, what do you think?"

Su Lang rolled his eyes and glanced sideways at Emperor Ling Juewu.

"Su Lang child!"

"At this moment, the fox's tail is finally revealed!"

"I've said it a long time ago, you and the Ziming Emperor must be the same raccoon, stunned."

"Look at you, it's obviously the first time we have met, but you are so familiar with each other. You must have known each other a long time ago and reached an accomplice to overthrow the rule of Canglan Continent!"

"At this time, the migration of the Ziming Emperor Clan from Zimingzhou to the mainland is one step in your plan."

Emperor Ling Juewu's face was full of expressions of 'there is only one truth', "It's ridiculous, there are more than twenty emperors, and I alone have seen through your conspiracy."

The map was fired.

All Wudi couldn't help but their faces turned dark, and their hearts felt as sick as they had eaten flies.

[Chapter 1100: Is this guy really lunatic?](#)

"Emperor Ling Juewu."

"In order to protect the Canglan Continent, Emperor Lang is willing to sacrifice even the life universe. He has already proven himself with actions."

"The Emperor Ziming has also worked hard for thousands of years. Although there are occasional grievances, they are also safe and have contributed a lot during the battle of the mainland."

"Now, there is even more up-and-coming star Si Yuxiang, and he did not hesitate to sacrifice himself to take over the burden of inheriting the emperor's body!"

"Dare to ask Emperor Ling Juewu, in the Canglan Continent, you who have won the world and made the world of Emperor Wu, might you be able to do one of these things?"

"Emperor Ling Juewu, the Canglan Continent suffered a huge loss because of your negligence in the last mainland battle. You still have the face to speak!"

"Emperor Ling Juewu, I heard that you have a habit. It seems that you like to eat grass in the nest the most. The closer you are to your bloodline... It's really disgusting!"

"..."

Not knowing that Emperor Wu took the lead, the emperors fiercely attacked Emperor Ling Juewu, and even exploded his personal black material.

Suddenly.

Emperor Ling Juewu's expression was stiff, his veins were exposed immediately, he gritted his teeth and almost made smoke! !

"Okay, let's talk less."

Emperor Jiao Qin Wu waved his hand, and the emperors stopped talking and avoided more trade.

Soon.

"Friend Ling Jue, we can't agree with you!"

"If you really insist, then please go to my Qingqiu Dao brother."

Emperor Jiao Qin Wu stared at Emperor Ling Juewu with a cold look, and pointed out, "Please!!!"

"it is good!"

"very good!"

Emperor Ling Juewu's eyes were about to split, he smashed his sleeves and turned away bitterly.

Looking at the back of Emperor Ling Juewu leaving.

All the martial emperors uttered 'cut', '噉', 'vomit', 'haha'...and so on.

And Su Lang frowned slightly: "Strange...Is this guy really lunatic!?"

At this time.

Emperor Jiao Qin Wu took out the flashing jade card for communication.

It turned out that Emperor Qingqiu Wu's reply came.

Only then did the emperors put Ling Juewu behind and looked at Jiao Qin.

"Brother Qingqiu said."

Emperor Jiao Qin Wu smiled holding the jade plate for communication, "The Ziming Clan can be moved, but Zimingzhou will be taken back."

"Yes, take it for granted!"

Si Yuxiao and Si Yuxiang had never thought of keeping Zi Mingzhou, so they nodded immediately.

"In that case."

"The decision regarding the inheritance of the emperor's body has been finalized."

Emperor Jiao Qin Wu continued, "Next, Si Yuxiang will inherit the planet of life first, and then the clone of the Langdi Daoist will merge into this world of emperor body."

"Yes!"

All the martial emperors got up one after another, left the emperor's forbidden area from the exit, and observed the progress of the inheritance with mental power.

Su Lang had to wait for Si Yuxiang to inherit the life planet before sending a clone to fuse the emperor body world, so he also temporarily left the emperor body forbidden area.

Taking this opportunity, he just dispatched a clone avatar, pretending to be **** the road, rushing from the southern continent to Zimingzhou.

The martial emperors were seated at the entrance of the emperor body forbidden area, and their spiritual power poured into the emperor body world.

In the world of the emperor, only Si Yuxiang and Xuanyu were left.

"Lady, you are very good."

Emperor Xuanyu smiled and patted Si Yuxiang on the shoulder, and then said, "Come, first spread out your condensed life planet."

To inherit the existing planet of life, Si Yuxiang had to let his newly condensed planet of life collapse.

but.

It didn't take long for Si Yuxiang to break through Emperor Wu anyway.

After the breakthrough, he was trapped in Zimingzhou for a long time, and there was no chance to collect the life planets condensed by suitable land.

Therefore, Si Yuxiang's life planet is small and crude. No creatures have even been cultivated on it to destroy the life planet. Even if it self-destructs, the damage caused is not serious.

"I know!"

Si Yuxiang looked resolute, and immediately closed his eyes, revealing a trace of powerful aura.
