

"Then I will tell you a little bit."

The middle-aged man said, "The F-class wind wolf area was originally a good hunting spot, very suitable for our body temperers!

But then a more precious herb appeared in this place, so it was taken over by the Broken Axe Hunting Group.

The Broken Axe Hunting Group is notorious and acts vicious and vicious. No one except their members is allowed to go hunting and collecting medicine.

Someone ventured in to hunt and collect medicine and they were killed!

Later, this matter caused dissatisfaction among many people. Someone sued the Wuzhe League, but they were suppressed for some reason.

I heard that the Broken Axe Hunting Group has a backstage, and the backstage is very strong, but I don't know the specific force! "

"So, how about the stronghold of the Broken Axe Hunting Group?"

Su Lang asked thoughtfully, "Are there any warriors guarding it?"

"That's not true."

The middle-aged man lowered his voice, "After all, there is only an F-class area, and the guards are in the realm of quasi-warriors.

But because the Broken Axe Hunting Group has a strong background, even the official warriors dare not easily provoke them.

What's more, if there are official warriors to their area, they will not engage in evil, but will be good for entertaining. "

"Hey boss, how do you sell this knife?"

A voice came in from the side, and the middle-aged man greeted the guests quickly.

"A quasi-warrior?"

Su Lang murmured and left the booth, "System, how long does it take for me to be promoted to the official warrior?"

From the intermediate body tempering to the official martial artist, to cross the three small realms of advanced tempering body, peak tempering body, and quasi martial artist, you need to break through 4 times.

For most people, even if they spend a lifetime, they may not be able to complete these 4 breakthroughs and become an official warrior.

"Host, you can break through to the martial artist in 51 hours."

"This is too slow!"

Su Lang pursed his lips, showing dissatisfaction.

After enjoying the refreshment of upgrading in minutes, but now he has to wait dozens of hours, Su Lang is of course not satisfied.

I also don't know how many liters of blood will be vomited if this is known to others.

"How long does it take to get to the quasi-war fighter?"

Su Lang asked, to eradicate the stronghold of the Broken Axe Hunting Group, you need to be crushed by the realm of warriors.

"Host, you can break through to a quasi-warrior in just 25 hours."

"Still a bit long."

Su Lang frowned, he didn't want to take revenge overnight.

However, how to quickly improve your strength?

"correct!"

Su Lang's expression moved, "I can take the pill!"

Before he could enter the primary body tempering in minutes, it was because of the power of medicine to push it!

Once the pill is taken, the cultivation speed can be greatly increased.

After the aura regained, the Blue Star gave birth to a large number of natural treasures, and medicinal materials were one of them.

Through the magical method of refining medicine and alchemy, medicinal materials can be turned into medicines and pills with various effects.

Healing medicine is one of them.

However, medicines are very precious, often more than a dozen silver coins.

The pill is more expensive, the lowest level pill costs 1 gold coin.

That can be equivalent to one month's salary for an ordinary body temperer.

"Let's take a look at the tower hall first."

Su Lang entered the lobby with the map.

Although the prices of items sold in the lobby of the tower are slightly higher than those sold by private individuals, they are clearly marked and the quality is authentic.

"Hello, I want to buy a pill."

Su Lang came to a pill sales window and said directly.

"This is the price list, you choose yourself."

The staff handed Su Lang a brochure.

"The body tempering pill, the strengthening body pill, the bone forging pill that can increase the body tempering speed...the best is the body tempering pill."

"Taking a body tempering pill can increase the efficiency of body tempering, and the effect lasts for about 2 hours."

"The quality of body tempering pills are different, the physical conditions of the users are different, and the effect of improving efficiency is also different."

Seeing this, Su Lang secretly shook his head: "Each pill only lasts 2 hours?"

The time for ordinary people to temper their bodies is counted in years, and the cost-effectiveness of 2 hours is too low. Even if you buy it, it is a waste of money.

Fortunately, it didn't take long for me to break through..."

I sigh, I still want to buy the pill, Su Lang began to look at the price of the pill.
