

One Click 1101

[Chapter 1101: Master Xuan Hu, how are you](#)

Not bad.

He is following Su Lang and unleashing the power of the world!

Si Yuxiang's life in the universe.

The small, rudimentary, and extremely loose planet of life, instantly unable to bear its own weight, collapsed!

Rumble! !

This is the real collapse of the world and the destruction of the world.

An intact planet first collapsed continuously, then split into countless pieces, scattered in various places in the universe of life.

The entire universe of life was shrouded in dust, as if returning to the time when the chaos hadn't opened.

"puff!!"

Si Yuxiang suffered a backlash and spit out a mouthful of blood.

But he clenched his teeth and persisted.

"Eat it."

Emperor Xuanyu took out a large amount of healing medicine and handed it to Si Yuxiang, who did not hesitate to swallow it immediately.

After swallowing the healing elixirs, Si Yuxiang immediately got better.

Wait a moment for him to recover again.

Emperor Xuanyu said in his body: "Next, I will assist you in bringing this planet of life into the universe of life. Can you do it?"

"can!"

Si Yuxiang nodded firmly.

"well."

Emperor Xuanyu smiled, "Then, let's start!"

Soon.

A large amount of omnipotent aspiration power was released from Emperor Xuanyu's body, turned into strange energy, and enveloped the entire planet.

A part of the blessing was given to Si Yuxiang, making his breath soar.

"open!"

Emperor Xuanyu screamed.

Si Yuxiang did not dare to neglect, and immediately the universe of life opened up, and a muddy world unfolded, capturing the life planet below.

Immediately after.

With the assistance of Emperor Xuanyu, Si Yuxiang successfully closed the universe of life and swallowed the planet of life.

I saw a huge dark brown planet sitting firmly in the center of Si Yuxiang's life universe.

The surrounding fragments were attracted to the surface of the planet due to strong gravity.

Most of the original life planet was ocean on the surface.

Supplemented by those fragments, a lot of new land has been created.

The original dark brown scars have also been covered a lot.

This devastated planet looks completely new.

Of course, this is just the appearance, Si Yuxiang still needs many years of management to really restore the planet.

At this moment.

After taking in the life planet, Si Yuxiang seemed a little unbearable and fainted temporarily.

Si Yu saw this with a smile and immediately rushed into the emperor's forbidden area.

While bowing solemnly to Emperor Xuanyu, he hugged Si Yuxiang to check the situation.

Seeing that Si Yuxiang seemed to be fine, Si Yu couldn't help but breathe a sigh of relief.

But this time.

Emperor Xuanyu turned pale, and his figure was a little unstable.

"Master Xuanhuo!"

Si Yu smiled stiffly, "How are you?"

Outside, Su Lang, Jiao Qin and other Emperor Wu also showed nervousness.

"It's okay."

"It's just that it consumes too much and has not been replenished."

Emperor Xuanyu smiled and shook his head, sitting cross-legged in the void, swallowing some pills.

but.

He is the Emperor Wu of Xianghuo, based on the countless believers and Wuyu Tea Forest.

At this time, the believers were almost completely destroyed, and Wuyu Tea Forest was also destroyed.

Emperor Xuanyu's body is like a mansion whose foundations have been destroyed. Those pills are only equivalent to some temporarily reinforced wood. How useful can they be?

Therefore, even with the pill supplement, the breath of Emperor Xuanyu's body is still weakening.

"Friend Langdi, how long will your clone arrive?"

Emperor Jiao Qinwu took a deep breath and looked at Su Lang anxiously.

The gazes of the other Emperor Wu also focused on Su Lang.

If Su Lang's clone came late, and Emperor Xuanyu was too weak to carry out the plan, it would be bad.

"almost there!"

Su Lang smiled and lied, "Actually, I brought a clone here, but let him go to the city of the Zi Ming clan."

Talking.

A avatar flew from a distance.

Of course, this avatar had gone through a little disguise, and it looked a little different from Su Lang.

Otherwise, a clone is exactly the same as the deity whose cultivation level has declined, and it will definitely attract the attention of those who are interested.

but.

The clone avatar has also undergone a little change, even his own cultivation base has not been concealed.

therefore.

After seeing Su Lang's clone, the emperors were stunned!

[Chapter 1102: Langdi has sacrificed again](#)

Why?

Because Su Lang's clone exudes the breath of Emperor Wudi!

From the beginning to the end, all Wudi thought that what Su Lang would sacrifice was only a quasi-emperor-level clone.

And even sacrificing the quasi-emperor-level clone is super bleeding for Emperor Wu.

What Su Lang was going to sacrifice was the avatar of Emperor Wudi, who was more precious than the quasi-emperor, and he didn't know how much. This made the Wudi not shocked, how unbelievable! ?

"Friend Langdi Dao!"

"You actually have a Martial Emperor-level clone, and you plan to use this clone to take risks. You will cause trouble, and you will sacrifice it!?"

"Oh my God, this is a Martial Emperor-level clone. I have worked hard for millions of years, and I haven't cultivated a Martial-Emperor-level clone. You actually intend to sacrifice it!?"

"Friend Langdi, this sacrifice is too great. This is a Wudi-level clone. You should send a quasi-emperor-level clone!"

"Yes, yeah, sacrificing a Martial Emperor-level clone, we all feel distressed and want to squat down."

"..."

The emperors only thought this Nima was too incredible!

It's too embarrassing, unbelievable, and simply incomprehensible!

All Wudi were in shock, either dumbfounded, dumbfounded, or dumbfounded.

Even Emperor Wu's eyes stared out.

"Oh, it's really unfortunate."

"Although I have many clones, the other clones are too weak. There is no Quasi-Emperor Rank."

Su Lang said with a look of embarrassment, "So, I can only sacrifice with this Martial Emperor level clone."

"what!?"

"That's it!"

"Or, let us find some quasi emperors and sacrifice a Martial Emperor level clone. It is really a waste."

"Yeah yeah, I think so too!"

"..."

The Emperor Wu looked at each other, and then planned to persuade Su Lang not to be too selfless and sacrifice a cherished Wu Emperor level clone.

Naturally, Su Lang would not agree.

"Don't persuade you anymore."

"Emperor Xuanyou can't hold it now. Even if you go to find other quasi emperors, it's too late."

"In everyone's life universe, there are quasi emperors who were originally prepared to participate in the inheritance competition, but they are all elites of the Canglan Continent, and they must not sacrifice."

"Now I am the only one who can stand up!"

Su Lang's expression was stern and righteous, and no one was allowed to say anything.

The Emperor Wu could only look at each other after hearing Su Lang's words.

Yes.

Now it is too late to find other quasi emperors.

The quasi-emperors under his command were reluctant to sacrifice.

Under this circumstance, Langdi, who was not afraid of sacrifice, could only be on top.

Thought of this.

The emperors couldn't help being more moved and admired Su Lang more and more.

In the eyes of everyone, even if Su Lang is not the strongest Wudi on the Canglan Continent, he is taller than all Wudi on the scene.

That kind of strong personality charm convinced all Wudi sincerely.

"In that case."

"I wait to replace the sentient beings on the Canglan Continent, and once again pay tribute to fellow Taoist Emperor Xie Lang!"

"In addition, I am determined to try my best to compensate Daoist Langdi, which is also a contribution. I hope Daoist Langdi will not refuse by then."

Emperor Jiao Qin Wu's expression was a little excited, and he bowed deeply to Su Lang.

The other Emperor Wu also looked solemnly and bowed to Su Lang.

Emperor Xuan Mo, who was healing in the forbidden ground, also bends down deeply.

As a super good person, his affection for Su Lang is definitely the highest.

In the face of everyone's second thanks, and the promised compensation.

Su Lang felt embarrassed again.

The loss he suffered was far less than what the emperors had imagined.

However, it is still difficult to explain to the emperors.

After all, the explanation is about revealing some hole cards, so let's do it.

"Hurry up, everyone!"

"It should not be too late, I will send a clone into the emperor's forbidden area!"

With that, Su Lang commanded the avatar next to him, letting it pass through the barrier hole and enter the emperor's forbidden area.

Inside the emperor's forbidden area.

Emperor Xuanyu and Si Yu smiled when Su Lang's emperor clone came in, and saluted again.

Si Yuxiang was still lying in Si Yuxiao's arms because he was in a coma, not knowing all this.

At this moment, the clone was naturally controlled by Su Lang with a perfect lean.

Therefore, Su Lang smiled back to Emperor Xuanyu and Si Yu.

[Chapter 1103: The world is turned into a picture!](#)

Immediately after.

Si Yu asked with a smile: "Master Xuanhou, do I want to avoid it?"

"No need to."

"Originally, there will be countless creatures on this planet, but it is not the same to integrate into the life universe of the successor. There is no need for you two to avoid it."

Emperor Xuanyu said, "What's more, after this world merges into Langdi Daoyou's clone, it happens to be the last step of the inheritance."

The last step was to completely sacrifice himself and merge with Si Yuxiang.

"That's it."

Si Yu smiled and nodded, and then flew away with Si Yuxiang in his arms so as not to interfere with Emperor Xuanyu's body and Su Lang's clone.

"Senior Xuanhu."

Su Lang solemnly nodded his head towards Emperor Xuanyu, "I'm ready."

"it is good!"

"Then let's start."

Although Emperor Xuanwei was weak, he showed a bright smile.

next moment.

The infinite omnipotent aspiration gushes out of the body of Emperor Xuanyu, centering on him, spreading towards the whole world.

This time, Emperor Xuanyu's omnipotent aspiration was far more than helping Si Yuxiang to collect the planet of life.

therefore.

In a short period of time, Emperor Xuanyu's body became weaker, and his entire human face was like golden paper, without blood.

But he still clenched his teeth.

Countless aspirations continued to gush out, and Emperor Xuanwei was about to squeeze himself completely.

The torrent of terrifying aspirations spread into the empty world of the emperor body, and under the control of Emperor Xuanyu's body, it turned into a special energy that Su Lang had never seen before.

This kind of energy is similar to the power of space, but completely different.

In a short period of time, Su Lang was unable to study it thoroughly, and could only see ripples and ripples in the surrounding space.

As time goes by.

The entire space was rippling, and this world turned into a picture rippling with the wind in Su Lang's senses!

Not bad.

The three-dimensional space seems to have become a two-dimensional picture scroll under the means of Emperor Xuanyu.

However, because there is nothing in the world, this picture scroll is also blank.

On the blank scroll, there was a black vacancy, which was the entrance to the emperor's forbidden area.

Besides, there are only two figures dotted in the corner of the picture scroll, Si Yuxiao holding Si Yuxiang.

"Expand the universe of life!"

Emperor Xuanyu's voice became weak and hoarse, giving people a feeling of exhaustion.

"Yes!"

Su Lang nodded solemnly, and then unfolded the inner circle of his dantian.

Although Su Lang opened up three Wuxian inner realms, and created the Yingzhu inner realm and Qiming inner realm.

However, there are still only three primitive Wuxian inner realms in the clone.

The inner boundaries of the heart and lungs are still empty.

It can be seen that Luming Mars and Enlightened Venus, as the core fragments of the Infinity Realm, are unique.

Even a perverted system cannot be copied!

However, without releasing the power of the inner world, the combat power of the clones is still synchronized with that of Su Lang.

The clones only have less means to 'release the magic and enlighten the inner world' than the deity of Su Lang.

At this moment.

Su Lang controlled the clone to open the inner boundary of his dantian.

An extremely crude primitive world suddenly emerged.

There is only a shallow layer of soil and sand on the earth, all kinds of air currents are in the middle of the space, and things like water flow and flames are wandering around...

"This is... the inner world of Wuxian!?"

Emperor Xuanyu's pale face showed a trace of consternation.

Not only the body of Emperor Xuanyu, but the other Emperor Wu saw it, and suddenly recognized that what Su Lang had opened was not the universe of life, but the inner realm of Wuxian.

However, this Wuxian inner boundary is much more complete than ordinary Zhunhuang, and it is almost the embryonic form of the universe of life.

"It's a very complete Wuxian inner boundary."

"It turns out that Langdi's clone has not yet created a complete universe of life, and even the planet of life has not had time to create it."

"Isn't this normal? Emperor Lang's deity is only worthy of the fifth rank martial emperor. Of course, he must focus on cultivating his own life universe."

"Yes, yes, if we cultivate the life universe of the clone, it will turn the cart before the horse!"

"Yeah! This is the truth."

"..."

All the emperors looked at Su Lang one after another, and then calmed down after some discussion, and continued to watch the follow-up actions of Emperor Xuanyu and Su Lang's clone carefully.

The avatar of Su Lang is not the universe of life but the inner world of Wuxian, but this has no effect on the world of fusion of the emperor.

Because the original method of Xuanyu Emperor's body was prepared for quasi-emperor-level warriors.

The Wuxian inner boundary of Su Lang clone was far more perfect than that of Emperor Zhun, which made Emperor Xuanyu overjoyed.

After all, if the avatar of Su Lang had already created a universe of life, maybe something went wrong.

In this situation, the best!

[Chapter 1104: The last step of the inheritance](#)

After a little episode.

Emperor Xuanyu continued to use his own means.

However, the scroll turned into a two-dimensional plane began to curl, centering on the Wuxian inner boundary of Su Lang's clone, it began to shrink and gather.

During this process.

The whole space seems to be compressed, but in fact, people in it will not feel any pressure.

This is also the difficulty that Emperor Xuanyu's body research has taken a long time to overcome.

The purpose is to allow ordinary creatures to transfer intact in the process of merging the heirs of the life universe.

The world picture scroll shrank quickly.

After a dozen breaths, the entire world picture scroll shrank to only the size of the inner boundary of the Wuxian clone of Su Lang.

at this time.

The gap in the picture scroll, which is the entrance of the emperor's forbidden ground, sent a strong suction.

In other words, the world of the emperor body had a terrifying repulsion against Su Lang, and the gap in the picture scroll was the opening for catharsis.

In an instant, Su Lang's clone was pushed out of the emperor's world from that scroll opening and onto the purple grassland outside.

at the same time.

The World Picture Scroll also merged into the Dantian inner circle of Su Lang clone in an instant.

Emperor Xuanyu, Si Yuxiao and Si Yuxiang are also included.

In other words.

The entire emperor body forbidden area has disappeared from the boundless universe and entered the inner boundary of Su Lang clone.

"how about it!?"

"Friend Langdi, has the emperor body world integrated?"

"Where is the Emperor Xuanyu? Where are Si Yuxiao and Si Yuxiang?"

"..."

The Emperor Wu asked very concerned.

"It's just that the emperor body world has just been collected into the inner world, and now the process of integration has begun."

Su Lang said, "The Emperor Xuanyu and Brother Si Yuxiao are also in my inner world."

Talking.

Su Lang uses magical rules to condense a picture.

It is exactly what is happening in the inner world of Su Lang clone.

I saw that the scroll began to restore the three-dimensional world, and slowly unfolded, and soon filled the entire Dantian inner boundary, and continued to expand.

Not long.

The range of the inner world of the dantian has become as large as the world of the emperor body.

In this process.

The space barriers of Wuxian's inner boundary and the space barriers of the emperor's world are perfectly integrated, forming a more solid and strict world barrier.

"finished!"

Su Lang showed a smile, and he could clearly feel that the aura of this clone incarnation had become much stronger, reaching the rank of Second Rank Martial Emperor.

"Great."

"The first step of the plan to attract disasters to the east is successful!"

"Hahaha, I have almost seen the scene of the Dark Sky World invading the Jingtian Continent!"

"..."

All the emperors breathed a sigh of relief and smiled.

Immediately after.

Everyone's attention fell on the body of Emperor Xuanyu and Si Yuxiang.

The last step in the inheritance of the emperor is about to begin.

With Si Yuxiao's help, Si Yuxiang woke up slowly.

Although Si Yuxiang still looked very unwell, he was able to move freely.

"Si Yuxiang."

The pale-faced Emperor Xuanyu smiled and called.

"senior!"

Si Yuxiang left Si Yuxiao's side and came to Emperor Xuanyu's body, bowing his head to his ears, and obediently.

This is Si Yuxiang's sincere feelings.

"Si Yuxiang."

"Before inheriting my heritage."

Emperor Xuanyu smiled and said, "I still have to ask you some questions."

This statement came out.

Si Yuxiang was a little nervous, and said, "Senior, please ask questions."

Outside, Su Lang and a group of emperors also raised their ears, wanting to hear what Emperor Xuanyu's body would ask.

However, Emperor Xuanyu said indifferently: "After inheriting the inheritance, there is no turning back, you really want to!?"

"Junior is willing!"

Si Yuxiang nodded resolutely.

"At the moment of fusion, you will accept a lot of my memories, maybe at this moment, you can't tell who you are!"

"After the integration, in addition to practicing orthodox martial arts, you will develop the incense aspiration training system according to the established path. Under the action of the incense aspiration, you will further lose yourself!"

"Even if your soul is still there, you will no longer be yourself, but like me, lose all negative emotions and become a disabled person!"

"Finally, your life will be dedicated to the Canglan Continent from this moment, until you die in battle or fall."

"Accept the inheritance, everything you do will no longer be for yourself!"

[Chapter 1105: Blooming bright fireworks](#)

"Will you!?"

Emperor Xuanyu said in a calm tone that everyone knew about the side effects after accepting the inheritance.

However, Su Lang and Emperor Wu were not impatient, but watched this scene full of ritual sense seriously and solemnly.

"Junior is willing!"

Si Yuxiang nodded solemnly, his voice was crisp, his eyes were clear, without a trace of impurities.

"it is good!"

Emperor Xuan Mo smiled brightly.

Immediately after.

He took a step back with a smile on his face.

Then his whole body was shocked and turned into countless bright spots of light in an instant, like the grandest fireworks, blooming in front of Si Yuxiang.

In the endless bright spots, the illusory soul of Emperor Xuanyu emerged.

His soul glowed with a white light, and there was a little red on the center of his eyebrows.

"Take good care of my soul origin."

"After fusion, destroy it immediately!"

The soul of Emperor Xuanyu spoke faintly, and then it also bloomed, turning into countless rains.

And that little red suddenly flew towards Si Yuxiang and accurately fell into his hands.

Immediately after.

Spots of light in the sky gathered towards Si Yuxiang.

These points of light containing a lot of incense aspiration power, soul power, and inheritance memory are completely integrated into Si Yuxiang's body.

Si Yuxiang pinched the soul origin of Emperor Xuanyu's body, closed his eyes and trembled all over, as if he was suffering an extremely strong impact!

Obviously, the memory of Xuanyu tens of millions of years is really too big for the young Si Yuxiang!

At the same time, the energy remaining in Emperor Xuanyu's body was too terrifying for Si Yuxiang.

Even if Emperor Xuanyu was extremely weak, the remaining energy was more than ten thousand times that of Si Yuxiang himself.

Fortunately, Emperor Xuanyu had already arranged everything, and all the inheritance procedures were safe.

Si Yuxiang is also stronger than the previous successors such as Yuan Yue, and can naturally bear it.

Of course, to completely inherit the inheritance, Si Yuxiang also takes a certain amount of time.

then.

Su Lang simply released Si Yuxiang and Si Yuxiao from the inner circle.

Si Yuxiao immediately supported Si Yuxiang who was trembling constantly.

But he didn't dare to use even a trace of energy, only with physical power, so as not to affect Si Yuxiang.

When Emperor Jiao Qin and other Wudi saw Si Yuxiang, they also showed concern.

The emperors surrounded Si Yuxiang, guarding him carefully.

"Senior Jiao Qin."

"Your Wudi Palace must have the coordinates of Jingtian Continent, right"

Su Lang said to Jiaoqin, "In case there are many dreams in the night, I'd better send the clone out first."

"I will give you the coordinates of Jingtian Continent."

Emperor Jiao Qin Wu nodded, "In addition, please let fellow Langdi Daoist let your clone take Hu Sixi by the way."

Although the coordinates of the Canglan Continent had been exposed to the eyes of the Demon Emperor of the Origin of Dark Sky Continent.

But whether Hu Sixi has other hidden dangers is still unknown.

Just in case, Hu Sixi must also be dealt with.

But it is better to kill them directly to the Mirror Heaven Continent together, so that possible hidden dangers in him will erupt on the Mirror Heaven Continent.

"Ok."

"Hu Sixi just broke through Emperor Wu, my clone can easily suppress him."

Su Lang smiled, and commanded the clone to grab Hu Sixi directly and threw it into the newly formed universe of life.

Immediately after.

"There are some coordinates recorded on it."

"However, our Canglan Continent has never invaded the mainland of Jingtian."

Emperor Jiao Qinwu handed Su Lang a jade slip: "So there are only some coordinates of the void outside the Jingtian continent, mostly fragments of the continent."

"With these, it's almost the same."

Su Lang took the jade slip with a smile and opened it. It recorded dozens of spatial coordinates and information about these coordinates.

but.

These space coordinates are too far away, even with Su Lang's ability, it is impossible to open the space channel to reach the goal directly.

What's more, these places close to Jingtian Continent must be under the supervision of Emperor Wu of Jingtian Continent.

Once Su Lang's avatar rushed past with great fanfare, it would be destroyed immediately.

So, the best way is to sneak in.

As long as Su Lang's clone can get close to Jingtian Continent, he can see the scene on Jingtian Continent.

You can use 'Clone Dispatch' to directly surpass numerous tight defenses and reach the mainland of Jingtian Continent!

[Chapter 1106: I will make persistent efforts](#)

"Except for these coordinates."

Su Lang put away the jade slip and said, "I still need some coordinates to the frontline confrontation area. It must be an area controlled by his own!"

"of course can!"

Emperor Jiao Qin Wu quickly took out the second jade slip, burned it and gave it to Su Lang.

Su Lang took it over and looked at it. A series of spatial coordinates were marked inside.

Each space coordinate is not far apart and belongs to the range that can be directly reached by opening the space channel.

Obviously Emperor Jiao Qin Wu also knew that Su Lang planned to use the space rules to go to the frontline area, and then find a way to sneak into the Jingtian Continent.

The last of this series of coordinates is marked with the four characters 'Chi Qun Floating Island', which is a continental fragment completely in the hands of Canglan Continent.

This continent fragment is in the hands of the Canglan Continent, the area closest to the Jingtian Continent.

After getting these coordinates.

Su Lang did not immediately let the clone set off.

Who made this place be Zimingzhou, surrounded by wounds from the world?

Here, the space rules are used to let the avatar avatar on the way, if you are not careful, it will be directly broken, thanks to it.

Collect the jade slips.

Su Lang sat down cross-legged, looking like healed.

When Emperor Jiao Qinwu saw this, he immediately looked ashamed.

Su Lang persisted in carrying out the plan of "diverting water from the east" despite the collapse of the universe of life, which is really admirable.

"Friend Langdi Dao!"

"This happened, thanks to you!"

"There are some natural treasures I have collected, as well as an ice field with water and ice properties."

Emperor Jiao Qin Wu took out a space ring and handed it to Su Lang, "I hope it will help you condense the planet of life."

"exactly!"

"The sacrifice made by Fellow Langdi was too great, and we should compensate Langdi again."

"It's not bad, it must be compensated, otherwise I will feel uneasy."

"..."

The other Emperor Wu also talked in a rush, all taking out various space treasures and stuffing them to Su Lang.

After a while.

Su Lang had a handful of space rings, bracelets, necklaces, and hats and belt shapes.

What's more is that there is a pair of space socks, and I don't know which wicked one gave them.

But Su Lang was really happy.

This is the second time that all emperors have compensated Su Lang.

Su Lang hadn't had time to count the treasures that were compensated for the first time.

Su Lang almost laughed out of joy when he thought that there must be countless treasures of heaven and earth in those spatial treasures.

"Everyone is so kind to me."

"I will make persistent efforts and sacrifice myself for the Canglan Continent!"

Su Lang was holding a pile of space treasures, and bowing to the emperors with a touch of emotion.

The Emperor Wu quickly avoided, afraid to be worshipped by Su Lang, and persuaded Su Lang not to fight like this again...

Finally Su Lang nodded reluctantly, saying that he would definitely consider himself more.

As a result, all the emperors showed their smiles.

Su Lang also laughed out loud.

Immediately after.

The attention of the emperors fell on Si Yuxiang again.

Su Lang also paid attention to Si Yuxiang, but he paid more attention to the harvest this time.

First of all.

Eight emperor-level exercises, a total of 5 million Hinayana Xianyuan and 2,330 immortal-level exercises were auctioned.

These two thousand immortal level exercises are basically the inventory of these two dozen emperors.

This also means that this wave of Su Lang directly searched 90% of Canglan Continent's immortal-level exercises.

In the future, I want to obtain so many immortal-level exercises at once, which is impossible on the Canglan Continent.

"I don't know whether more than two thousand immortal-level exercises can be synthesized into the emperor-level exercises on the 'rules of time'."

Su Lang licked his lips with excitement, "After synthesis, there are a total of 233 Emperor-level exercises, maybe there are."

He did not immediately succeed in the law.

Anyway, it is still too early for the seven emperor-level exercises to reach the founding level.

It's not too late to synthesize after the exercise is completed.

Throwing aside the immortal level exercises, Su Lang began to count the treasures compensated by the emperors.

[Chapter 1107: Research the fragments of the Great Emperor's soul body](#)

Because it's not easy to check the compensation in front of the emperors.

So Su Lang condensed a private space with magic rules and formations.

The other Emperor Wu just glanced, and then apologized again. They thought Su Lang was going to heal...

After isolation from other people's observation and interruption.

Su Lang immediately took out a lot of treasures from the storage space with joy, and piled them into a hill in front of them.

Don't look at it for the time being in the space treasure.

The first thing that catches your eye is a pile of fairy sources and genius treasures.

There is also a strange muscle the size of a room, two strange crystals, and a powerful unconscious soul.

These things are the spoils obtained after killing Kuang Erlu.

"The Xianyuan Xianyuan has 3.12 million, plus the remaining 15 million!"

"There are relatively few geniuses and treasures, and it's not like the entire wealth of a Rank Six Wudi."

"However, Kuang Erlu is not a normal Rank Six Wudi, and his cultivation method is very different from that of the orthodox Wudi. There are not many treasures of heaven and earth, which is understandable."

"Well... this piece of rule immortal crystal is really strange. There are only some power rules, but it is pure and can be rewarded to a certain subordinate."

"This colorless spar contains a strong Taoist rhyme. It is the crystallization of the Dao of Power."

"Just the crystallization of this great avenue of strength is a chance to become an emperor that can be met but not sought."

"If the emperor Zhun gets it, it can greatly increase the chance of becoming an emperor. Maybe it will be useful when I become an emperor."

"I just don't know if there will be side effects. You have to ask the old drivers."

While whispering, Su Lang put the checked items into the storage space.

As a result, there was only that large group of strange muscles and the soul of the high-level Emperor Wudi left in front of him.

"Shards of the Great Emperor's Soul Body!"

Su Lang stood up and came to the huge group of muscles.

The fragments of the Great Emperor's soul body are composed of a large number of tough black muscle fibers.

Before Kuang Erlu's death, it constantly twisted and tried to swallow Kuang Erlu's spirit of Emperor Wu.

But at this time, the whole group of fragments of the soul body were silent and motionless.

"Soul body fragments..."

"What the **** is it?"

Su Lang squinted his eyes, tentatively exploring and observing with mental power.

When Su Lang's mental power touched the fragments of the Great Emperor's soul body, he suddenly discovered the strangeness.

This group of fragments of the Great Emperor's soul body looked like flesh and blood, but in fact they were half flesh and half energy.

That kind of energy is very high-end, far beyond the level of Emperor Wu!

This energy is not simply a sublimation version of Wudi's power.

In addition to the energy that belongs to the category of 'spirituality', it also contains powerful physical energy, soul energy, and universal aspiration.

These four forces are completely integrated, forming the purest high-level energy, containing extremely terrifying power.

Half flesh and half energy is not its fixed state.

Flesh and flesh are constantly being transformed into energy, and energy is constantly being transformed into flesh and blood, forming a special balance between the two.

"Named the fragment of the Great Emperor's Soul Body?"

"A half flesh and half energy body higher than Emperor Wu level!?"

"The result of the fusion of a great emperor-level warrior with his soul, flesh and blood, and omnipotent aspiration?"

"Whether it is the soul or the body, it is the foundation of the warrior that must not be moved, and the incense aspiration power is also a very advanced omnipotent energy."

"A great emperor-level doing this is tantamount to taking everything out."

"Why does an emperor-level do this? Is this the emperor-level cultivation method?"

"But if that's the case, why did the Origin Devil Emperor divide his body and let the Dark Sky tribe like Kuang Erlu inherit it?"

"As I thought before, the Origin Devil Emperor is dead, but after transforming into the Xianghuo Emperor Wu, his original body has been given to countless clansmen!?"

"That's not right. According to Kuang Erlu, you can guess that the dark world is extremely invasive!"

"The Origin Devil Emperor is by no means a good person like Xuan Huo. It must have no purpose to distribute his body to Kuang Erlu and others."

"Flesh... Soul... By the way, the fragments of the Great Emperor's soul are trying to swallow Kuang Erlu's soul!"

"And the soul is one of the most important parts of the fragments of the Great Emperor's soul body!"

[Chapter 1108: You are such a **** genius](#)

Thinking of this, Su Lang finally flashed his inspiration and thought of a possibility.

The four energies of spiritual power, soul, flesh and blood, and aspiration are completely integrated, which is the cultivation method of the Great Emperor.

However, this integration is very, very difficult.

Because to be completely integrated, the cell level must be involved, and it must be extremely subtle and flawless.

We must know that in an ordinary person with no cultivation base, the number of cells has reached 60 trillion, which is about 60 trillion.

There are even more warriors with cultivation base.

All warriors can forge their bodies, the stronger the warrior, the stronger the flesh!

In the process of martial arts cultivation, the cells will continue to sublimate, becoming stronger and more compact.

Although the size of the warrior remains unchanged, the number is increasing.

In particular, the promotion from Martial Commander to King of Martial Arts, the breakthrough of Martial Lord by Martial Lord, and the breakthrough of the great realm afterwards, each time is accompanied by the transition of the essence of life.

When a warrior cultivates to the realm of Emperor Wu, he can destroy the world with just the strength of his body.

When Su Lang stepped on the moon, he was afraid of stepping on the moon accidentally.

At this level, the cells contained in the body have already grown more than a mere 60 trillion, but increased by 1 million times.

In other words, the number of cells that make up the body of the ordinary Emperor Wu reached 60 million trillion!

Change to a larger counting unit, which is 6000 Beijing!

With so many cells, each one has to undergo a triple fusion of soul, spiritual power, and willing power.

This is a terrifying project! ?

I am afraid that the fusion of soul and flesh and blood will be difficult.

Of course, incorporating three types of energy into each cell is the most speculated case by Su Lang.

The omnipotent aspiration is likely to play a supporting role, accelerating the integration process of the rest of the energy!

In short, in any case, it is extremely difficult for the soul, spiritual power and body to completely merge and condense into the purest One.

Su Langguang felt his scalp numb just thinking about it.

If the emperor-level cultivation method is really like this, then the origin of the devil emperor's body divided and bestowed on the dark sky people can be explained.

This approach is equivalent to parasitizing the Dark Sky Clan warriors with their own flesh and blood.

The dark sky warriors will get many unbelievable benefits.

For example, Kuang Erlu, with only the indispensable level of aptitude, actually cultivated to the sixth rank of Wudi, and even Su Lang was stunned.

The Dark Sky Clan warriors who have received a lot of benefits will have a smooth path to practice.

They will grow stronger, stronger, and fatter all the way...

The flesh and blood of the Origin Devil Emperor parasitic on them will also get many benefits.

Su Lang speculated that it should absorb the spiritual power of the parasitic warrior, erase the consciousness, and merge into the flesh and blood.

The more powerful the Dark Sky Clan warrior, the flesh and blood of the Origin Devil Emperor they support, go further on the road of soul-body fusion.

For example, Kuang Erlu, the flesh and blood of the Origin Demon Emperor parasitic on his body, has formed a state of half energy and half flesh and blood, and is valued by the Origin Demon Emperor.

As for the ordinary Dark Sky Clan Martial Saints and Martial Immortals, the parasitic flesh and blood on their bodies seems to have not yet been elevated to the 'passing line', so they are not considered by the Origin Devil Emperor.

When the warriors of the Dark Sky tribe who are valued by the Origin Devil Emperor die, their souls will also be dedicated and become the devil emperor's last meal!

It was the last scene in which Kuang Erlu was dying, the fragments of the soul directly swallowed the soul of Emperor Wu!

It is conceivable that if you did not encounter Su Lang's "perfect plunder", after the soul fragments swallowed Kuang Erlu's soul, it would definitely go further, and then be taken back by the Origin Demon Emperor!

The warriors of the Dark Sky Clan have always been the fat sheep raised by the Origin Devil Emperor, and the tool people who assisted their own cultivation!

The Dark Sky Clan warrior must know this.

But they are happy because they can also get so many benefits!

Just look at Kuang Erlu to see how great the benefits are!

Therefore, the Dark Sky Clan and the Origin Demon Emperor actually formed a win-win situation.

"If the fusion of spirit, soul, and flesh is really the path of great emperor level cultivation."

Su Lang touched his chin and smiled, "Then, Origin Devil, you are such a **** genius!"

Soon.

Su Lang smiled and collected the fragments of the Great Emperor's soul body into the storage space.

Through this thing, he not only saw the path of the suspected emperor's cultivation, but also obtained a win-win cultivation system.

In addition to this, we can also speculate on the possible weaknesses of the Origin Devil Emperor.

For example, if the Origin Devil Emperor separates his body, his combat power is likely to decrease.

[Chapter 1109: Let you live longer](#)

Of course, Su Lang just guessed casually.

If you really have to meet the Origin Demon Emperor, a property panel function will let Su Lang know himself and his enemy.

Temporarily set aside the fragments of the Great Emperor's soul body.

Su Lang's gaze fell on Kuang Erlu's Wudi Soul.

Originally, Kuang Erlu was only Rank Six Wudi, but this Wudi's soul was the soul of a high-level Wudi.

Su Lang speculated that the secret technique used by Kuang Erlu should be a permanent increase in strength.

Based on the fact that there is no secret technique on Kuang Erlu's attribute panel, it can be inferred that the way Kuang Erlu enhances his strength should be to obtain power from the Origin Devil Emperor.

Put aside this question.

Su Lang grabbed the soul of the senior martial emperor and showed a faint smile.

"I originally planned to kill Emperor Ling Juewu."

"Use his Wudi Soul to serve as a spiritual internet server."

"But now, there is a better choice."

"Emperor Ling Juewu, I will let you live for a while."

Silently thinking, Su Lang took out the different sky box, and then threw the soul of the senior martial emperor into it.

Such things as the soul of the **** of war and the soul of the **** of war usually condense voluntarily before death, and the success rate is very small.

After the agglomeration is completed, most of the consciousness will also be lost. The weaker, the less consciousness remains.

The Soul of Emperor Wu obtained by Su Lang through 'perfect plunder' is the same, with some consciousness of Kuang Erlu remaining.

This cruel guy is exuding a lot of resentment and hatred.

With a soul in this state, Su Lang would not dare to directly use it as a spiritual Internet server.

It must be purified!

According to the established plan, it is to use positive incense and willingness to transform him into a super good person like Xuanhuo.

It will have all positive characters.

As an Internet server, it will spontaneously resist all bad information and create the most healthy network environment from the root.

Su Lang explored the spiritual power into the space of the different sky box.

Then I saw Kuang Erlu's soul attached to the Wuyu tea tree, instinctively absorbing the incense power ——The power of incense wish is super attractive.

As soon as Wuyu Tea Tree released the positive incense willingness, Kuang Erlu's soul immediately swallowed.

But this incense will power is too little.

Kuang Erlu, who is innocent, is still very irritable and roars from time to time.

"Uh, this effect doesn't look good."

"When will the cruel Kuang Erlu be transformed into Ting Kuang Erlu?"

The corner of Su Lang's mouth twitched, and his expression moved, and from the side he took a necklace-like space fairy.

This space fairy was gifted to Su Lang by Emperor Xuanyu, and it was regarded as compensation for his'sacrificing life universe planet'.

"It must be there!"

Licking his lips, Su Lang opened the space fairy, and his mental power instantly penetrated.

Suddenly.

Xianyuan and Tiancai Dibao appeared in front of the eyes.

The Hinayana Xianyuan has about 5 million, not many treasures of heaven, material and earth, but they are all high-quality goods, all of which are emperor-class.

Su Lang glanced over these things, rummaging around.

After searching for N for a long time, I did not find Wuyu tea tree.

"Yes."

"The Wuyu tea forest in Emperor Xuanyu's body is over."

"He still has to leave the remaining Wuyu tea trees to Si Yuxiang, how can there be any extra for me?"

Su Lang thought silently, but there was no disappointment.

Isn't it the Wuyu tea tree?

When Yuan Yue comes out of the emperor's forbidden area, just ask her!

"It seems that the Spiritual Internet Project has to be put on hold again."

"By the way, the transportation network will also be put on hold."

"However, it must have not been long since Yuan Yue came out. These two plans will definitely not be shelved for the third time!"

Su Lang nodded heavily, then put away the different sky box, and poured out all the contents of the space necklace and put them in the storage space.

This is not over yet.

There are a bunch of space treasures beside it!

Pick up a space ring and open it.

I saw 50,000 Theravada sources and a piece of land of 100 square kilometers were stored inside.

One hundred square kilometers of land is actually very small, just the size of a small town with a length of 10 kilometers.

The earth contains very rich aura and earth attribute rules, which is a good material for casting a living planet.

[Chapter 1110: Can't wait](#)

but.

Su Lang does not intend to use this land to transform Yinghuo Mars and Qiming Venus.

These two planets are unique and possess distinct powers of great avenues. To transform them with the land containing the rules of soil properties is tantamount to superfluous.

Su Lang not only misses Mercury, but also Saturn and Jupiter.

With Mars, Venus and Mercury in front, Su Lang speculates that Saturn and Jupiter should also be infinite fragments, each with the earth system regular avenue and the wood system regular avenue.

"Leave this land with rich soil properties to Saturn!"

Su Lang smiled, deposited The Hinayana Xianyuan into the balance, and then put the land in the storage space.

Next.

Su Lang continued to count the treasures presented by the emperors.

A large number of Hinayana Xianyuan was deposited into the system balance, which eventually reached 31.23 million, a fraction of which was directly ignored by Su Lang, who was rich and powerful!

There are countless natural treasures, worth at least 20 million Hinayana.

Using these materials, Su Lang can create even more terrifying wealth!

Except besides.

It was a gift from the emperors to help Su Lang condense the land of the planet of life.

What thorny plain, flame mountain, Buhua glacier... all have the power of strong rules.

These things are rare on the Canglan Continent.

The emperors of Wuwu will not harm the Canglan Continent.

So Su Lang estimated that they should have collected it from mainland debris.

"In these lands, there are quite a few rules that contain the rules of the gold system and the rules of the fire system. Blessed are Mars and Venus!"

Su Lang happily selected the land containing the rules of the gold and fire systems and put them in the corner of the storage space separately.

"Let's start with Yingluo Mars."

Su Lang murmured, then opened the entrance of Yingzhu Inner Boundary.

Immediately after.

A huge volcano with a vast land was stuffed into the inner boundary of Yingluo by Su Lang.

I saw a shadow covering the earth in the inner circle of Yingluo, and it grew bigger and bigger.

If someone is here to look up at the sky, they will definitely see a terrifying maroon land falling from the sky!

Rumble! !

A violent impact sounded.

The maroon volcanic land fell on the surface of Mars, directly smashing the surface of the soil, deeply embedded into the earth.

Countless flames erupted from the volcano, rushing into the sky like a meteor shower, and spilled on the earth.

The dust and smoke clouds raised by the impact directly filled the entire sky and tended to spread towards the entire planet.

This scene was somewhat similar to the small meteorite that Su Lang had seen on TV hitting the earth.

but.

The force of the impact was precisely controlled by Su Lang, and when the Huoyan Mountain land was embedded in the earth, it would not cause any harm to Mars.

"perfect!"

Su Lang nodded in satisfaction, and then continued to confuse the inner boundary with land containing the rules of fire.

quickly.

There are volcanoes, lava plains, and lava lakes on the surface of Mars.

These things are already present on Mars, and there are many, so they are not conspicuous.

After putting all the land of the fire system rules, Su Lang explored his spiritual power and carefully checked the Mars.

It turns out that the extra land of fire rules does not seem to significantly improve Mars.

"Yes."

"Mars is a fragment of the boundless world, containing the rules of the fire system."

"How can some land containing fire rules be significantly improved."

Su Lang touched his chin and nodded, "However, it is better than nothing. When the number becomes larger in the future, it may be significantly improved."

Next.

Su Lang also invested the land containing the rules of the gold system into Qiming Venus.

Ore mountains, metal veins, molten gold plains and other lands appeared on the Qiming Venus.

Because the surface of Qiming Venus is basically solidified lead-tin metal, there is very little land.

So on the surface, some areas of Venus have changed a lot.

However, like the fire system, the gold system of Venus has not been significantly improved.

Su Lang didn't care much about it.

What he looks forward to is the next thing-to improve system functions!

"Now I have more than 30 million Theravada Xianyuan, really rich!"

Su Lang looked at the system balance and couldn't help but smile, "In addition, one-key training and one-key martial arts are now at level 35, and I don't know what bonus functions they will get."

According to past experience, as long as the bonus functions are not bad!

Su Lang can't wait!
