

One Click 1111

[Chapter 1111: New bonus features!](#)

Immediately after.

Su Lang eagerly issued an order: "System, upgrade me the one-key training function, the one-key martial arts function, and the clone dispatch function!"

"Ding! Consumes 10 million Xianyuan sources, the one-key training function is upgraded to level 35, and the training speed is increased to 4582.4 billion times the speed of the basic training without lack of qualification!"

"Ding! Consumes 10 million Xianyuan, the one-key martial arts function is upgraded to level 35, and the training speed is increased to 45.824 billion times the speed of the basic training without lack of qualification!"

"Ding! Consumes 10 million lower multipliers, the clone dispatch function is upgraded to level 34, the number of clones is +1, the current number of clones is 34, and the number of clones is 34!"

"Ding! Congratulations on raising the one-key training function to level 35. You have obtained the new bonus function 'Heart of Condensation'!"

"Ding! Congratulations on raising the one-key martial arts function to level 35. You have obtained the new bonus functions "Eight Hearts" and "Spit the old and accept the new"!"

After a series of system prompts.

A lot of information poured into Su Lang's mind, it was the information about the three bonus functions.

Needless to say, the function of the "Eight Hearts" increases the number of exercises that can be practiced simultaneously from seven to eight.

And the 'heart of condensing Dao' made Su Lang's eyes widened and excited.

Condensed Dao Heart: Consume a certain cultivation base, you can condense the comprehend rules into a great road, and the premise is that your realm reaches the quasi-emperor level.

To become an emperor is a very, very difficult challenge.

How difficult is it?

In the entire Canglan Continent, I don't know how many billions of creatures, but there are only less than 30 Wudi!

Moreover, the vast majority of Wudi were blessed by their seniors before they could become emperors.

This shows that the chance of becoming an emperor is as small as one in a billion.

The most difficult level for becoming an emperor is to condense the power of the Great Dao.

To condense the avenues by rules requires a thorough understanding of a certain rule, and even the derivative rules must be mastered thoroughly to condense the avenues.

For thousands of years, I don't know how many quasi emperors tried from their prime of life, but they were unable to become emperors until they died.

But now, this most difficult level has automatically disappeared in front of Su Lang!

With Su Lang's current cultivation speed, he can accumulate cultivation skills from Yijie Wuxian to Zhun Emperor in 1.5 hours!

Can accumulate 16 quasi emperor cultivation bases in one day!

The quasi emperor of the second echelon of Canglan Continent has become a common unit of measurement here in Su Lang...

This shows that Su Lang really does not lack cultivation base.

The only thing that prevented Su Lang from using the function of 'Condensed Dao Mind' was the restriction of 'Quasi Emperor Realm'.

However, this is not a problem at all.

After Su Lang opens up the ten-square inner boundary, he will be able to arrive at the quasi emperor in the blink of an eye, and then condense the road and become the emperor Wu!

"This feature is awesome!"

"Look at the function of the one-click martial arts practice of 'spitting the old and accepting the new'."

Taking a deep breath, Su Lang began to check the new information.

Dispelling the old and accepting the new: completely eliminate the dross in the "Ten Thousand Fas into One Unnamed" exercise, cancel all the sequelae of the exercises and secret techniques, and have the same effect on the later merged exercises!

"Oh~"

"So it is!"

Su Lang nodded suddenly and smiled with satisfaction.

In short, the function of 'spit out the old and accept the new' is to remove the dross of the exercises and cancel the negative buffs.

This can also be regarded as a supplement to the function of 'all laws into one'.

The ability to integrate all methods into one is to integrate all the exercises that Su Lang has practiced into one super exercise that encompasses all aspects.

All the sub-gong methods integrated into this 'super-gong method' can exert their greatest effect.

but.

The unity of all laws is a general integration.

Not only the advantages of various exercises are combined, but the disadvantages are also preserved.

So far Su Lang has practiced hundreds of exercises, and each exercise has its shortcomings.

Especially the low-level exercises practiced at first, almost every one has defects.

It's just that these shortcomings are not very conspicuous compared to the massive "Ten Thousand Fas into One Unnamed" exercise, so there are no shortcomings for the time being.

However, waiting for Su Lang to practice more and more exercises, each exercise has a little flaw, and if it gradually accumulates, it will eventually form a huge hidden danger.

This has to be prevented.

The function of 'voicing the old and adding new' can completely eliminate this hidden danger.

Not only that, it can also eliminate the sequelae of using exercises and secret techniques.

This is also a super unreasonable abnormal ability.

In other words, there will be no side effects when Su Lang uses any secret technique in the future!

Even the secret technique that kills a thousand enemies and hurts 800, can become a thousand enemies with zero self-harm!

"Noisy, this function is really abnormal!"

Su Langshuang thought crookedly, "It seems that I have to practice some terrifying secret techniques!"

[Chapter 1112: Two hundred and thirty-three emperor level exercises](#)

The explosive secret technique currently mastered by Su Lang.

It is also the ones that are integrated with Wanfa into one emperor-level cultivation method.

Including Jue Xian disintegration method, red heart sloughing body reproductive secret technique, celestial immortal body, blood flame extinguishing sky secret technique, etc.

Only the first three of these secret techniques are immortal-level secret techniques, which were obtained by killing the four great martial arts in the Slaughter Heaven Building.

but.

Now Su Lang has synthesized a large number of exercises, including more and more powerful secret techniques.

Of course, Su Lang, the fairy-level secret technique, was no longer very attractive.

Even after practicing, it is of little use at the Emperor Wu level.

The best choice is to practice the secret technique of Emperor Wu!

"It just so happens that I got 2330 immortal level exercises, so I can have a great synthesis!"

An excited smile appeared at the corner of Su Lang's mouth, "There must be a lot of emperor-level secret techniques!"

Immediately after.

Su Lang took out a lot of immortal level exercises, ready to start synthesis.

Originally, he planned to use the newly acquired function of 'spit the old and add the new'.

But when I thought of doubling the rate of one-key martial arts practice, the seven emperor-level exercises previously practiced would soon be completed.

The function of vomiting the old and accepting the new can be used after the completion of these seven exercises, otherwise you will have to use it once.

The matter of the successful law is mentioned here.

Sweep away at a glance.

The ground is densely piled with immortal level exercises.

These are the treasures of the emperors of Wu, each has its own uniqueness, and ordinary Wuxians will yell with joy when they get a copy.

But for Su Lang, most of these exercises are just materials for synthesizing emperor-level exercises.

"Follow the old rules and classify first."

Su Lang picked up a copy of Immortal-level exercises and swept them through, roughly distinguishing the types and characteristics of the exercises, and then put it aside.

Immediately after that, I picked up the second book, scanned it slightly, and put it down again.

Each immortal level exercise can be divided into categories in just one second.

quickly.

Su Lang then divided all the immortal level exercises into 233 copies, each with 10 copies.

This process alone made Su Lang excited.

Because in the process, he found three hundred and seventy-two rare fairy-level exercises, corresponding to the remote and remote rules he had never touched.

Just practice these exercises.

The number of rules that Su Lang mastered could immediately rise to 761!

With such a terrifying number, and each of them can be mastered at the perfect level of perfection, ordinary Wudi can hardly even think about it.

just.

It still takes a while to practice these three hundred immortal level exercises.

With Su Lang's 35-level one-key martial arts function, a fairy-level exercise requires 1.5 hours to complete.

One-click martial arts can practice 8 fairy-level exercises in one round, and it takes 65 hours in total, which is nearly three days.

"It takes a lot of time."

"But there is no other way."

"These remote and remote rules rely on the planets in the inner world to feed back. I don't know when they will be mastered."

Su Lang touched his chin and thought, "After waiting for the successful method, first choose the most important exercise method and practice first, and then practice these immortal-level exercise methods."

Made up my mind.

Su Lang immediately began to synthesize the emperor level exercises.

"Ding! After the synthesis is completed, you will get the emperor-level exercise "Kongtong Emperor Jing"!"

"Ding! Synthesis is complete..."

"Ding! After the synthesis is completed, you have obtained the Emperor-level exercise "Kunlun Invisible Step"!"

"Ding! After the synthesis is completed, you will get the emperor-level technique "One Nian Fengtian Tong"!"

"..."

Wow!

Books of the emperor-level cultivation techniques that were extremely cherished generally appeared in Su Lang's hands.

These are the original emperor level exercises!

They are all weird, bizarre, and dazzling, exuding their own unique Taoist rhyme.

Fortunately, Su Lang arranged a barrier to isolate the outside from investigation.

Otherwise, the emperors outside will see them, and they will have to go crazy...

Not long.

The 233 Emperor-level exercises have finally been synthesized!

Sure enough, as expected.

In addition to most of the ordinary emperor level exercises, it also contains some emperor level secret techniques!

but.

One thing made Su Lang pounding his chest with anger.

Because among so many emperor-level exercises, none of them involve the 'rules of time'!

[Chapter 1113: Xiantian Yiqi Emperor Jing](#)

"What the hell!"

"God thief, am I a non-chief!?"

"233 bursts! There is no time rule for this, ah!?"

The corners of Su Lang's mouth and eyes twitched at the same time, his forehead was covered with black lines...

Soon.

Su Lang glanced at Si Yuxiao outside the barrier, and said to his heart that it was the doom of the Zi Ming Emperor that infected me, right?

but.

Although I really want to throw the pot to Si Yuxiao.

But Su Lang still had to admit that his face was too dark.

In addition, it can be seen from this encounter that the time rule is probably more advanced than imagined!

Perhaps, this is not something that Emperor Wu can touch at all.

"It should be like this."

"Otherwise, I can't miss my 233 rounds!"

"Well...it seems to be the time to prepare for the synthesis of the great emperor rank technique."

Su Lang felt that he had found the reason that was bigger than his face, and he was not so angry.

Immediately after.

He divided the 233 emperor level exercises into categories and placed them neatly in front of him.

Although most of them were ordinary body-building exercises with no bright spots, Su Lang did not look down upon it.

After all, I have made a big ambition before, to exercise.

Of course, excellent and unique emperor-level exercises are always the first to enter Su Lang's vision.

Among the more than two hundred emperor-level techniques, there are many techniques and secret techniques that interest Su Lang.

For example, "Xiantian Yiqi Emperor Jing", "Zhuo Zhiwei Mysterious Method", "Kunlun Invisible Steps", "One Thought Seals the Sky Secret Eye" and so on.

Of course, what Su Lang values most are the exercises and secret techniques mentioned above.

The first "Xiantian Yiqi Dijing" has powerful effects of transforming and tempering spiritual energy, yin energy, light energy, heat energy, radiation and other heaven and earth energy.

Any energy from heaven and earth, whether positive or negative, can be transformed into innate Qi, and then continuously tempered to make it more pure and pure!

And innate one spirit, with some characteristics of omnipotence.

Using it can stimulate various methods that require different energy to be used, which can be called a panacea.

Of course, the congenital spirit is completely inferior to the universal aspiration.

Because the latter is a completely unreasonable external energy, it can ignore the rules, move at will, and become anything.

Innate Qi is within the limits of rules and follows the laws of the world.

But even so, Innate Qi is a very high-end energy, even higher than the energy of ordinary Wudi.

The most important symbol of Emperor Wu is the power of the universe of life and the power of rules.

But to mobilize the power of the Great Dao and nurture the universe of life, it also requires energy.

This energy is the spiritual energy that further sublimates and qualitatively changes, which can be called the emperor yuan.

The energy of Emperor Yuan is the fifth sublimation version of spiritual energy.

The first qualitative change was at the Wuwang level, followed by the Wushen, Wusheng, Wuxian, and Wudi levels.

Reiki is absorbed and digested by the martial artist, and will have different attributes because of the different reasons the martial artist practices.

The spiritual power of different attributes can only urge the spells of the corresponding attributes to use limited means.

For example, a martial artist who has practiced water attributes for many years, even if he can cast fire spells, his power is very, very weak.

Reiki contains special attributes, which is also one of the fundamental reasons why warriors cannot practice multiple exercises at will.

Even starting from the Martial Saint level, you can comprehend different rules and use the power of rules to confront the enemy.

But to play the strongest attack, you still have to choose a method that is closer to your spiritual power.

In short.

Emperor Yuan has attributes and is restricted.

Congenital Qi does not have this defect.

In addition, the level of Xiantian Qi is higher than that of Emperor Yuan.

The power exerted by the same unit of energy is ten times that of Emperor Yuan!

anyway.

Su Lang has practiced hundreds of exercises, which contain multiple attributes.

Even if all the exercises are integrated under the function of the 'ten thousand dharma into one' function, this fact still cannot be changed.

His energy, or 'Xian Yuan', also possesses many attributes.

This is not a defect, but an advantage.

But compared to the innate anger, it's far worse!

After all, Xiantian Qi can be called 'full attribute' energy, and its level is higher than that of Emperor Yuan.

[Chapter 1114: One thought to seal the sky secret pupil](#)

Therefore.

Su Lang valued "Xiantian Yiqi Dijing" very much.

"What I have at present is 'Xianyuan'."

"It's one level worse than 'Di Yuan'."

"If I have practiced the "Xiantian Yiqi Dijing", the energy level will instantly jump to the top of the emperor yuan!"

"Hey, I'm afraid my combat power will go up again by then!"

Su Lang thought about the bright future with joy, and then began to check the rest of the exercises.

The second book is "The Mysterious Method of Choosing a Little Trick".

This is a spiritual emperor-level secret technique with a simple and rude effect.

After practicing this exercise, the penetrating ability of mental power will be greatly improved, and extremely subtle things can be observed.

How subtle is it?

Can directly observe the microscopic world of molecular structure!

This kind of horrible observation is very useful whether it is fighting or researching anything.

For Su Lang.

The greatest use of this exercise is to create creatures.

Not bad.

After seeing Xuan Xuan's creatures, Su Lang has always been obsessed with creating creatures.

Emperor Wu has the universe of life, which can be called the first step in the realm of the creator. Creating a creature that belongs to his own universe is an inevitable process.

However, creating creatures is really too difficult.

Even Emperor Xuan Xuan of the Ninth Revolutionary Wudi completely failed.

He could only use the Double-Pupil Clan as the native of the Life Universe, and spent countless years to let the H-Pupil Clan adapt to his life cosmos.

Those failing creatures have turned into giant spirit monsters that endanger the world.

Su Lang knew why Xuanhu failed.

Because Xuan Hu only used some secret techniques to cast the limbs and souls of different creatures in an attempt to create a new spirit, without realizing the existence of genes.

But if you have practiced the "Zhuo Di Mysterious Method".

When the mental power can see the molecular structure, it can see the biological genes.

Not only that, but also the corresponding micro tools can be refined to change genes.

In this way, the plan to create extraordinary creatures at the genetic level has great feasibility.

Of course, it is only feasible, and I don't know how many difficulties will be encountered in specific operations.

"It seems that I have to supplement biology..."

"Applying science and technology to the extraordinary fantasy, this experience must be very wonderful!"

Su Lang touched his chin, with a faint smile at the corner of his mouth.

Put aside the "Zhuo Zhiwei Mystery Method" and pick up the remaining two exercises.

"Kunlun Invisible Step" is a secret technique of body type and a magical skill of running. The use cost is very terrible, and it directly drops into a big realm!

But for Su Lang, who has the function of 'spit out the old and accept the new', there is no sequelae.

"The Secret Eye of Conferring Heaven with One Thought", at a glance, you know that this is pupil technique, one of the most pretending secret methods.

This has the dual characteristics of spiritual illusion and space, and the specific effect is very peculiar. It can use mental power to instantly pull an enemy into the created 'Nianfeng Space'.

It seems that in the Trial of the Emperor's Inheritance, the space of the chaos are somewhat similar.

But the space of the big chaos is just pulling into consciousness, and then simulating everything else with illusions, and it is a group secret technique, which takes a long time to perform.

The "Nianfeng Space" can only be activated against one enemy, which is a single instant skill.

When the Nianfeng Space successfully pulls into the enemy, the caster and the caster will be completely free from outside interference.

In other words.

The person drawn into the 'Nianfeng Space' must live in a two-person world with the caster, oh no, it's a one-on-one battle.

Unless someone can break through the 'Nianfeng Space', they can interfere with the caster or help the caster.

In actual combat, this skill is very abnormal.

Especially in the case of a group!

As long as the secret technique is used, a large number of enemies can be easily pulled into the Nianfeng space one by one.

If there are too many enemies too fierce, it is really impossible to fight.

You can also choose a weak enemy to pull into the Nianfeng space, and then... escape calmly!

In short.

After learning this secret technique, you can gain the supreme initiative in battle!

I will fight with whomever I want to fight, and those of you who are selected can only be forced to fight with me!

Even if I can't fight, if you want to chase me, you can only chase me alone, and it's the weakest one.

Anyway, no matter how many of you, you can only live with me in the two-person world.

Unless you have a way to break the Nianfeng space!

[Chapter 1115: Si Yuxiang woke up](#)

And how easy it is to break through the Nianfeng Space.

The secret technique is many times more powerful than ordinary methods, this can be called secret technique!

If it is broken easily, and it's a secret, ghosts are not rare.

But "The Secret Eye of One Thought Conferred Heaven" is the emperor-level secret technique of spirit, illusion, and space!

Su Lang's spirit and soul power, after experiencing the burning of souls, far surpassed the same level, and more possibilities for unlimited progress.

It is up to him to perform a secret technique of confinement of the sky, and the confinement space of mind will become more abnormal.

"Tsk tut!"

"Forced to live a two-person world with me."

"This secret technique is simply the strongest rogue secret technique!"

Su Lang's eyes rolled, a playful smile appeared on his face, and he didn't know what he was thinking.

Next.

Su Lang began to check other emperor-level exercises again.

For example, the evil technique "Soul Eater" that can devour other people's souls and obtain all memories.

For example, you can make your own cells grow wildly, causing your body to become irreversibly giant, and finally the "Warrior Emperor Jing" standing upright.

For example, after practicing, you can grow a three-headed six-armed "Dalatian Wulu".

There is also the "Wushan Cloud and Rain Map" which specializes in the double cultivation method.

...

And just when Su Lang picked up "Wushan Cloud and Rain Map" and watched it with gusto.

Suddenly there was a noise outside the formation barrier.

Su Lang followed the sound.

I saw all the emperors surrounding Si Yuxiang with excited expressions, and Si Yuxiao was the most excited.

"Ok!?"

"It turns out that Si Yuxiang woke up!"

"It seems that Emperor Wu's endurance is strong."

"Yuan Yue hasn't made any movement yet, but Si Yuxiang has caught up from behind."

Su Lang touched his chin and nodded, then put everything in front of him into the storage space.

Immediately after.

Su Lang revoked the formation and illusion, a few steps walked to the side of the emperors.

"Friend Langdi, you are out!"

"Friend Langdi, how are your injuries? Are they better?"

"It seems that Fellow Langdi's complexion has improved a lot. Congratulations!"

"..."

Seeing that Su Lang was here, all Wudi expressed their concern and condolences.

However, Su Lang heard someone say that his complexion has improved a lot, and the corner of his eyes twitched, then his face paled a little.

Acting with dedication, the injury can't heal so quickly, otherwise people will find that they have been deceived, and they will be very angry...

"Ahem."

"The injury has been temporarily suppressed. I will treat it carefully after I return. The planet of life must regroup."

Su Lang smiled and returned the gift to the emperors, and looked at Si Yuxiang again, "Don't worry about me, Si Yuxiang's Taoist friend is more important!"

Hmm... I don't know what is the situation with fellow Si Yuxiang now? "

This statement came out.

Everyone's attention also shifted to Si Yuxiang.

"Wake up to wake up."

Si Yu laughed a few steps to come to Su Lang, smiled bitterly, "But people became a bit dull, I talked to him, and ignored me."

"How is this going!?"

Su Lang frowned, "Could it be that something went wrong in the process of soul fusion?"

"Don't worry, everyone."

"This situation has been experienced by the first four inheritors."

"The reason Si Yuxiang is like this is because the soul origin of Emperor Xuanyu's body has not been destroyed."

The voice of Emperor Jiao Qinwu came from the side, "As long as the soul origin of Emperor Xuanyu is destroyed, Si Yuxiang will gradually become sober."

"That's it."

"As soon as the previous four heirs appeared, they were taken away by Emperor Wudi. I don't know about it."

"Hmm, I didn't expect this to be the reason."

"..."

All Wudi suddenly realized.

Su Lang also showed his face clearly.

When the soul of Emperor Xuanyu's body merged into Si Yuxiang before, he said that he must destroy his soul origin in the end.

Later, Si Yuxiang focused on fusing with Emperor Xuanyu, and the emperors did not dare to bother, so they could only protect the law by the side.

Therefore, the soul origin of Emperor Xuanyu's body has been left to the present.

"Ugh."

"Now, it's also time to destroy the soul origin of Emperor Xuanyu."

Emperor Jiao Qinwu sighed, walked to Si Yuxiang and took out the red dot from his hand.

Immediately after.

Under the witness of all Wu Emperors, Emperor Jiao Qin Wu squeezed fiercely, and the powerful force instantly shattered the red dot.

Suddenly, the red dots turned into countless unsearchable light dots, which were annihilated in the void.

[Chapter 1116: All come to the southern continent](#)

Su Lang watched this scene, and suddenly some questions flashed in his mind.

The soul is the most mysterious thing, more mysterious and mysterious than the body.

Not to mention the origin of the soul.

At the beginning, what method did Emperor Wudi use to divide his soul origin into six parts?

The key is that after being divided into six parts, it will be able to inherit all the memories and successfully transform into the Emperor Wu of Incense Fire.

The difficulty of this, just a superficial thought, makes the scalp numb.

"I have a "Soul Gathering and Splitting Technique", which can forge the origin of the soul."

"However, this technique was synthesized by me, and it is impossible for Emperor Wudi to have it."

"Could it be that it uses the souls of other Emperor Wu to purify it first, and then instill the memory in?"

"That's not right. When I looked at the attribute panel of the head of the emperor, I clearly mastered the consummation level "Shen Tian Di" and other techniques."

"If memory is instilled, it is absolutely impossible for him to directly master the exercises."

"Xuan Xuan, unlike me, has the systemic function of 'Gong Fa empowerment'."

Su Lang frowned and pondered silently, but he was puzzled. He could only act as Xuanxuan using other incredible methods to create a shocking miracle.

at this time.

Si Yuxiang, who was dull as a tree stump, finally blinked, the divine light in his eyes gradually condensed, blooming with the light of wisdom.

"Thank you fellow daoists for protecting me!"

With a happy smile on Si Yuxiang's face, he arched his hands towards the emperors.

however.

The emperors of Wu were suddenly silent.

Because Si Yuxiang has changed, he has become too much like Xuan Xuan, he is no longer himself.

Seeing a young genius Wudi suddenly lose himself, which is equivalent to a direct fall, of course all the Wudi are emotional.

"Thank you Si Yuxiang for the inheritance of the emperor!"

Su Lang shook his head and solemnly saluted Si Yuxiang.

"exactly!"

"Thank you Si Yuxiang fellow..."

The emperors came back to their senses and thanked Si Yuxiang one after another.

"what?"

"Don't thank me everyone!"

"This is what I should do!"

Si Yuxiang looked at the emperors in a dumbfounded manner, "Oh, I said don't do this, I'm going to be angry, I'll hit someone!"

This statement came out.

Si Yu laughed and immediately laughed: "So you can still be angry and beat others, so it seems that you still maintain yourself!"

"Not bad."

Si Yuxiang also smiled and said, "I can still do some damaging things, just like bullying men and women when I was young."

"whispering sound!"

"Then you should quickly become Master Xuanwei."

"Without your scourge, Emperor Ziming will be a lot easier!"

Si Yu smiled jokingly, but his eyes were slightly red.

"I understand, hehe."

Si Yuxiang smiled relaxedly, "However, I still want to witness the migration of the Zi Ming clan."

Speaking of which.

Si Yuxiang's eyes fell on Emperor Jiao Qin Wu and Su Lang.

He knew that he was about to follow Emperor Jiao Qin Wu to the Emperor Wu Palace and stay there for a while.

The previous four successors are all arranged in this way.

Because the successors are sober.

But in fact, the soul must be completely integrated and the memory combed and perfected, which can not be completed in half a day or two days. It will take a long time.

"Of course it can!"

"But...I'll go with you too, it's a guardian for you."

Emperor Jiao Qinwu nodded and looked at Su Lang with a smile, "I wonder if the daoists of Emperor Lang are welcome?"

"Of course welcome!"

Su Lang smiled slightly, "I welcome all Taoist friends present to come to the south as guests."

"Really!?"

"Then I have to go!"

Ni Qianzhou said with a busy smile, "As a neighbor, I haven't visited my door for so long. It's really rude!"

"I have to go too!"

"Friend Langdi must have set up many big formations on his territory!"

The old man Qing Xiao's eyes glistened, "I have to go and see, maybe I can learn some secretly!"

Su Lang glanced at him, and laughed inwardly: "Are you here to learn from me? As everyone knows, I have learned from you!"

At this time.

Huang Shen Wudi's loud voice rang again: "I heard that Daoist Langdi has developed the South very well, or let's visit it today!"

This guy has a loud voice and speaks directly. People who don't know think he is going to hit the scene.

"Snapped."

"Keep it down."

Emperor Wudi Zunsheng slapped him on the shoulder of Emperor Wudi, and smiled at Su Lang, "The three of us at Xuandaotai are going to disturb the daoists."

"Aha!"

"I'm here to bother Langdi too!"

"Today we have finally gotten so many people together, so it happens that we are all going to disturb the Emperor Lang!"

"Yes, yes, go and go together."

"..."

[Chapter 1117: The entire migration of the Ziming Emperor](#)

All Wudi, say something to me.

They all expressed their desire to visit the southern continent of Sulang.

Everyone is very serious, just want to visit, not conceited.

Some Wudi even thought, if there is something in the Southern Continent that needs help, they can help.

Naturally, Su Lang would not refuse everyone.

"welcome!"

"Dear fellow Taoists come to the south as guests."

Su Lang smiled faintly, "To me, it's totally brilliant, Chaimen is happy!"

All Wu Emperors were immediately humble, and Emperor Daolang was too polite.

then.

The next itinerary of the Wudi Emperors was so determined.

"Next, let's migrate to the Purple Ming Emperor Clan."

Emperor Jiao Qinwu looked at Si Yu and smiled, "I wonder if I can help you wait?"

"This is a small matter."

"I have passed down the emperor's metaphor in advance."

Si Yu smiled slightly, "So, I don't have to work anymore, fellow daoists."

This statement came out.

The emperors nodded one after another.

Su Lang unfolded his mental power and looked at the purple Ming clan city in the distance, and found that countless Zi Ming clan members had packed their things.

A large number of Ziming people left the city and stood in the wilderness.

But they didn't plan to just abandon the city like this, but started some formations.

Under the action of these formations, the cities and the earth were separated and floated slightly.

obviously.

At the beginning of the construction of these cities, they had already anticipated the day they would migrate.

So when it was built, it was not only separated from the earth, but even a raising formation was placed at the bottom.

"It seems that the Zi Ming Emperor wants to leave Zi Ming Zhou not a day or two."

"Yes, this ghost place is even poorer than the southern continent. Whoever changes it will think of migrating when the ethnic development trend is good."

"Now, the Zi Ming emperor has finally waited for this opportunity!"

Su Lang's mental power swept over the Zi Ming tribesmen, and found that the sadness on their faces was not strong, but more of expectations for the future.

Time passed slowly.

After half an hour, all the cities were separated from the earth.

At this time.

Si Yu rose into the air with a smile.

He first came to Ziming Emperor City and collected it into the universe of life.

Immediately he went to other cities, and all of them were collected in the universe of life.

Those from the Zi Ming tribe who were waiting in the wilderness were also taken into Si Yuxiao's universe of life.

quickly.

The entire Zimingzhou, once again restored the appearance of a wilderness without a city.

"Dear friends, let's go!"

Si Yuxiao packed the entire Ziming Emperor Clan and returned to Su Lang and the others.

"it is good!"

"Go to the southern continent!"

"..."

All Wudi embarked on their way home.

Even Emperor Ling Juewu returned to the team with a black face when everyone was leaving.

But no one cares about him, just as a transparent person.

Seeing this, Su Lang couldn't help but tick the corner of his mouth, saying that it feels good to be isolated?

There was nothing wrong on the way back.

Soon, the emperors once again passed through the terrifying Heavenly Fallen Moat and arrived at a long and narrow island in the East China Sea.

The land on the island is pitch-black, with red lines everywhere, which is where Su Lang and other Emperor Wu left when they went to Zimingzhou.

Stop on this island.

Si Yuxiao and Si Yuxiang turned their heads to look at the Heavenly Fallen Gully, and they couldn't help but feel emotion.

The prison that had imprisoned them for thousands of years was finally free!

"We never come back again."

"Yes, we must take root in the southern continent."

The two brothers smiled and said a few words, then turned around to Su Lang's side, Qi Qi saluted Su Lang, "The Ziming Emperor Clan will also ask Lord Langdi for your care in the future!"

"Of course!"

Su Lang nodded solemnly, then smiled, "Let's go, the deserted land has been waiting for the two for a long time!"

"Yes!"

The two nodded gratefully.

The other Emperor Wu, except for Emperor Ling Jue Wu, who left quietly, were all very interested in arriving in the Southern Continent.

Because they have heard more or less changes in the southern continent.

At this time, I can't wait to see and see.

Leaving from the long and narrow island.

Because he was going to the realm of Su Lang, Su Lang was naturally the leader.

then.

Su Langfei was in the front, opening the space channel from time to time, and taking all Wudi through the space.

During the period, I occasionally stopped to admire the scenery of the sea. When I encountered a powerful beast, I also killed it and collected materials.

[Chapter 1118: Emperor Wu were shocked](#)

stop-and-go.

A few hours later.

Finally arrived at the eastern coastline of the southern continent.

At this point, it has been shrouded by the barriers of the Five Elements Heaven!

"The front is my land boundary."

"Once again, I sincerely welcome all fellow Taoists!"

Su Lang smiled and invited all Wudi to enter the Five Elements Heaven.

But at this moment.

An exclamation came!

"Oh my God!"

"This is a super united formation of Rank Six Wudi level!"

Emperor Qingxiao Wu was lying on the barrier of the Five Elements Heaven, his wide-eyed eyes turned constantly, full of horror and shock.

The Empress Suwen, Emperor Wuchen Cangkong, Emperor Wuchen Wu who were also from the Qingyou Emperor realm next to them also stood in front of the formation barrier with shocked faces, shaking their hands to touch the barrier.

"This is a super giant united imperial formation!"

"Has Rank 6 Wudi-level defense and powerful counterattacks!"

"Not only that, it also has a powerful ability to gather spirits and absorb spirits, which seems to be able to absorb free energy from outside the sky, and after purification, it can be charged into the formation to improve the practice environment!"

"And at the most critical moment, this formation... is too big, too big!"

"Almost the entire Southern Continent is covered by this formation!"

"..."

The four Wudi who were good at formations quickly saw through some of the functions of the Five Elements Heaven, and were extremely surprised by them.

They said that they were good at setting up the emperor rank formation.

But the strongest formation they can deploy is only the fifth round of the combined imperial formation.

In addition to this, one can only use the powerful formations handed down from the ancestors to arrange the sixth and seventh revolutions.

however.

Even the rank seven imperial formation they arranged through the formation is far less difficult than the super formation that covers half of the continent in front of them!

To be precise, it's a far cry!

Therefore, the four talents of Qingxiao would be so shocked.

"This formation is really that big!?"

"No way, covering half of the southern continent?"

"This, this, is it too exaggerated?"

"..."

The other Emperor Wu also showed horror on their faces, and quickly began a spiritual observation.

The spiritual power of the Kongni Realm can cover a range of one trillion li.

The area of the southern continent is of course larger than this.

However, the places shrouded by Su Lang's Five Elements Heaven are areas where there are intelligent creatures.

The wilderness on the edge, such as the extreme south and extreme west, is naturally not included.

Therefore, the coverage area of Wuxingtian is just within the limit of Wudi's spiritual exploration.

then.

After the emperors unfolded their spiritual power, they immediately saw the whole picture of Wuxingtian!

"My goodness, it's really that big!"

"How this formation is arranged is incredible!"

"Yes, the formation of my imperial city has been deployed for 500,000 years before it can cover the entire imperial city. And this formation, I don't know how many times it is my large formation of the city!!"

"Friend Langdi! Daoist Langdi! How did this formation work out!?"

"..."

Each Emperor Wu was so shocked by the Five Elements Heaven that his jaw dropped.

After the shock.

Everyone's eyes fell on Su Lang, hoping that his question could be answered.

"Aha."

"This formation is called the 'Five Elements Heaven'..."

Su Lang beat haha and said, "Actually, it was also set up with the formation gifted to me by the Master Tongtian."

"Master Tongtian is terrifying!?"

"It's impossible for the Great Emperor to be able to refine such a formation!"

"Yes, such a big formation is too powerful!"

"..."

All Wu Emperors immediately developed a strong awe of the 'Tongtian Hierarch' that Su Lang talked casually, and made up an extremely terrifying array power in their minds.

At this time.

Si Yuxiao on the side suddenly asked with a look of concern: "Daoist Langdi, I heard Daoist Qingxiao said that this super formation can improve the practice environment, is it true!?"

"it is true."

"Among these five elements, there is an emperor-level formation called 'Shetian Ming Emperor Formation'."

"Its function is to absorb the aura of the sun, moon, and stars, etc., to make up for the earth and improve the practice environment."

"The effect of this formation is very good. The time for the formation of the formation is not long, but the Southern Continent has been slightly improved. It must be a long time, and the South will definitely get rid of the name of barrenness."

[Chapter 1119: The temptation of Shetian Ming Emperor Formation](#)

Su Lang smiled faintly, as if what he said was not a great thing.

However, Si Yuxiao's eyes widened in shock, showing strong desire.

Struggling for thousands of years in Zimingzhou.

His Zi Ming emperor really had enough of the harsh practice environment.

But at this time, there is a formation that can improve the practice environment, and is placed in front of him!

How does this make Si Yuxiao not excited?

In fact, not only Si Yuxiao, but the other Wudi were also dumbfounded.

Absorbing the aura from the heavens to make up for the earth, these anti-sky methods, over time, can definitely turn a place into a rare hole in the sky.

This is also very tempting to them!

"Friend Langdi Dao!"

"I wonder if this formation can let us learn it!?"

"Brother Langdi, I don't learn your formation, just ask you to help me arrange one!"

"Brother Langdi Dao, I don't know if this formation can be transformed into a portable formation, which can absorb the spiritual energy from the outside world and practice directly?"

"Brother Langdi Dao..."

"..."

The emperors of Wudi were more polite to Su Lang.

The crowd was so enthusiastic that Si Yu laughed aside and couldn't intervene, stomping his feet in a hurry.

At this time.

Su Lang said: "I am studying this formation, and I will be able to master it soon, and I can arrange it for fellow daoists for a fee."

The implication is that there is no way to want to learn. If you want me to help with the arrangement, you have to wait!

After all, Su Lang is not a bad guy like Xuan Huo.

It is very interesting to be able to promise the promise of helping other Wudi to arrange this sky-defying formation.

The emperors also knew that this Shen Tianming Emperor Formation was the treasure of the Emperor Lang, where could it be easily obtained?

Therefore, everyone was satisfied with Su Lang's promise.

"Great!"

"When Brother Langdi Dao finishes the research, I must be the first to help me arrange it. I will not let Brother Langdi Dao suffer a loss!"

"Yes, yes, yes, I'm willing to use all my belongings in exchange for fellow Langdi Daoist to help me set up the Emperor Tianming formation!"

"..."

The emperors patted their chests one after another, asking Su Lang to arrange the formation for a big price.

Even Emperor Jiao Qinwu solemnly requested Su Lang to arrange the Tianming Emperor Formation.

"Good talk!"

"When I learn the formation, I will definitely arrange the formation for everyone."

Su Lang smiled and nodded to everyone.

But he was laughing inwardly:

When I learn to capture the Tianming Emperor Formation, I am afraid that it will be when I dominate the Canglan Continent. By then, I will not arrange the formation for my own territory! ?

Of course, this ambitious idea cannot reveal any clues for the time being, otherwise everyone will have to turn their faces instantly.

anyway.

All Wu Emperors got the promise from Su Lang, and they were all happy.

I just felt that just because of this promise, I didn't have to come to the southern mainland in vain!

Simultaneously.

Si Yuxiao, unable to speak, finally squeezed to the front, and said with concern:

"Friend Langdi, the piece of land you gave me is also in this super formation, please don't move us out of the formation range at that time!

Laughing knows that this is a bit of an inch, but this formation is really important, Laughing begged fellow daoists! "

Talking.

Si Yu laughed in front of everyone and bowed deeply to Su Lang.

Si Yuxiang on the side also bowed quickly, with a strong begging expression on his face.

"Two people please get up soon."

Su Lang smiled faintly, "Actually, I never thought about moving that area out of the five-element sky formation."

With the qualifications of the Zi Ming Emperor, so many strong people can appear in Zi Ming Zhou. At this time, the cultivation environment is improved, and more strong people will surely emerge!

And Zi Ming Emperor Clan is also the power he plans to earn in his pocket, so he can give some benefits first.

"Friend Langdi Dao!"

"Kindness without saying thanks!"

"As long as there is anything useful to our brothers, please speak up!"

The brothers Si Yuxiao and Si Yuxiang bowed again and thanked them in a sonorous and sincere emotions.

"There will be trouble for the two."

Su Lang laughed, and personally helped Si Yuxiao brother.

When the other Emperor Wu saw this scene, they said to their hearts that Emperor Ziming and Emperor Lang were tied together, and they must be treated with care in the future.

At this time, Su Lang made an invitation to everyone: "Come, please follow me into the southern continent."

The emperors were polite and followed Su Lang into the Five Elements Heaven.

[Chapter 1120: All Wu Emperors gather in Yaochi](#)

Standing on the southern mainland land inside the formation, a burst of spiritual energy rushed toward his face.

Although it is not as rich as the central and northern parts of the mainland, it can even be said to be far behind.

But it is also much better than the southern continent in the impression of the emperors!

"Tsk tut!"

"We guys are cultivating ourselves."

The old man Qingxiao continued to tusk, "While the fellow Langdi Daoist is taking the good fortune of the universe and improving the earth, and the good fortune of all beings, the two are compared, I am really ashamed!"

"Not bad!"

Emperor Jiao Qin Wu kept nodding, "The contributions that Langdi Daoists have made to the Southern Continent will be passed down for countless years and become the object of admiration by countless people!"

The other Emperor Wu felt the effect of the Tianming Emperor Formation against the sky, and they all admired them, and they were quite assaulting Su Lang's rainbow chain.

"Everyone is absurd!"

"Please come and sit with me in the holy city of Yaochi."

Su Lang smiled slightly, "My place is poor, and there is only a Coliseum city and a Yaochi holy city. The latter I am used to living in, so I didn't move."

This statement came out.

All the emperors were astonished.

"what!?"

"Friend Langdi still lives in the holy city?"

"Uh, even if the scale is small, it can't be called a holy city, it's time to change its name!"

"Yes, this is our old rule, the residence of Emperor Wu must be called the Emperor City!"

"..."

Emperor Wu, one after another, persuaded Su Lang to change the name of Yaochi Holy City.

Su Lang actually had this idea for a long time, but he planned to completely relocate the human race to the Canglan Continent before changing the name of Yaochi Holy City.

Even Su Lang thought about his name, so he called "Southern Emperor City".

In the future, a "Northern Imperial City" will be built to echo each other, it is perfect!

"Haha, thanks for reminding everyone!"

"After some time, I will find a good day to change my name."

Su Lang nodded with a smile, "Come on, please follow me!"

Talking.

Su Lang took all Wudi to fly to the holy city of Yaochi.

Along the way, because of the aura of the heavens and the earth, the earth appears to be alive and prosperous.

but.

The strength of the warriors everywhere is generally low, and the scale of the city is also small, it seems that it is indeed still relatively backward.

The emperors breathed a sigh of relief.

If the southern continent had caught up with the north in a short time, it would be too heart-stalling.

Let's see.

From time to time, Su Lang introduced the famous sights on the way to everyone. After going all the way, he finally arrived at the holy city of Yaochi.

Because the holy city of Yaochi gradually became the center of the southern continent, it was expanded under the leadership of Li Xianyang, Huangfuqin and others.

Su Lang is too lazy to take care of these chores.

After the expansion, the Jade Lake Holy City is already larger than the Coliseum.

Almost all of the thirty or forty Wuxians under Su Lang lived here.

As early as when we set off from Zimingzhou.

Su Lang told his subordinates that the Emperor Wu was coming as a guest.

then.

All the strong are gathered in the holy city of Yaochi.

Not only those Martial Saints who guarded all parties came back.

Even Yuehong Zhundi, who went to Wuquexian to build a northern bridgehead, returned.

Immediately afterwards, everyone got busy, dressing up the holy city of Yaochi more solemnly!

At this time, the well-arranged Yaochi Holy City became more and more magnificent, and even faintly smelled of an imperial city.

Needless to say.

Chu Xiaobei, Ji Ruxue and Murong Xianxian must have exerted a lot of effort here.

The three women like to go shopping everywhere, and the Imperial City is all around, and the experience is quite extraordinary, so it seems handy to arrange some things.

at this time.

Su Lang led the Wudi to the Yaochi Holy City.

Chu Xiaobei's three daughters, Li Xianyang, emptiness, Yuehong Zhundi, Huangfuqin, Yaochi Yanfa...

Nearly forty martial immortals, four thousand quasi immortals, and more than fifty thousand martial sages put on ceremonies to welcome the distinguished guests from afar.

In addition, Zhou You also brought many powerful dead soul martial artists and a large number of Luoyou Emperor clan powerhouses to support the scene. If he were not worried about being too popular, he could bring more people.

Luo Youjing Xiaoluo was originally meant to guard Luoyou Emperor City, but was also called by Chu Xiaobei, floating in the sky of Yaochi Holy City, exuding a powerful aura.

With so many powerhouses and imperial soldiers, such strength is no less inferior to most of the emperor in the north!
