

One Click 1121

[Chapter 1121: Langdi is the rich man!](#)

therefore.

After watching the Wudi, they were all shocked.

How long did Su Lang dominate the South? Is there a month? There are so many strong people under his command!

This is really shocking!

The most important thing is that there is even a Second Rank Emperor Soldier guarding!

Those Wudi who did not have emperor soldiers, such as Honglian Wudi Ni Qianzhou, Guantianwudi Zhao Yan and others, immediately envied them.

Even the Emperor Wu who had emperor soldiers were mostly first-rank emperor soldiers, and he was very envious of Su Lang's second-rank emperor soldiers.

then.

Su Lang's weight in the hearts of the emperors has increased a lot.

"Brother Langdi Dao has so many talents, it's really enviable!"

"God, that's a Second Rank Emperor Soldier, I want to have one in my dream!"

"I've seen Yuehong before, but I didn't expect to get the help of Daoist Langdi, he is already a quasi emperor!"

"That empty quasi-emperor is very good, in my opinion, I am afraid that he will condense the space avenue and be promoted to Emperor Wu!"

"And that fellow Daoist Zhouyou, if you sincerely regret it, you will definitely be valued by Brother Langdi Daoist and quickly return to the realm of Emperor Wu."

"In my opinion, those fifty thousand newly promoted martial arts cannot be ignored!"

As far as I know, there were less than 20 holy races and one fairy race in the southern continent.

At this time, 50,000 new martial sages emerged in a short period of time, and the methods of the Langdi Daoists were too powerful! "

"Hi, it is true!"

"..."

After the emperors were shocked, they complimented Su Lang with a lot of respect.

there's no way!

According to other people, there are two potential Wudi, and Si Yuxiao brothers will soon be available as helpers.

Add up to five Emperor Wu!

Who dares not respect a strong man who can rule such a big power?

"Aha."

"It's all useless waste material."

"It's not as good as the beautiful jade under your command."

Su Lang smiled modestly, "Come on, please take a seat."

Soon.

Su Lang led the crowd into the White Jade Immortal Palace of the Zhun Emperor Soldier, and entertained the crowd in the hall that had been prepared a long time ago.

There are more than 20 cases in the hall, each of which is a fairy!

Not only that, the Lingcha Lingguo on the table is at least immortal, and there are also some emperor-level fruits and cakes!

"It's just a bit crude tea and bad fruit, please don't dislike it."

Su Lang couldn't help but smile when everyone found their seats and sat down.

These fairy-level emperor-level spirit fruits and cakes were naturally synthesized by him and did not cost much.

But this is too exaggerated and extravagant in the eyes of the emperors!

The treasures of the emperor class are to be cherished in the eyes of everyone, and then used where they are most needed.

The emperor-level spirit fruit is best not to be enjoyed directly, but to find ways to refine the pill with better effect.

Making emperor-level cakes is never within the scope of everyone's consideration, at most they will taste immortal-level cakes.

However, in front of them, there were several imperial-level spirit fruits, several imperial-level pastries, and a pot full of imperial-level spirit tea!

There are more than 200 copies of the emperor-level spirit fruit cakes and teas on more than 20 tables!

Such treasures of the emperor class are used so casually to entertain guests!

For Emperor Wu, this was incredibly luxurious!

Especially the weaker Wudi such as Honglian Wudi, watching this scene, has been dumbfounded!

Some Wudi's faces turned red.

Because they thought of the things that they had compensated Su Lang, it was really too stingy compared to this.

Simultaneously.

The emperors also had a lot of thoughts in their hearts.

"Let me go! I didn't expect Emperor Lang to be so rich, this emperor-level spirit fruit is equivalent to an emperor-level pill!"

"Oh my God, I thought that Emperor Lang was really a Qiongwu Emperor. At this time, it seems that I am poor!"

"Compared with Langdi, I am a poor person who can't even eat fruit."

"I compensate Daoist Langdi for too little. Will Daoist Langdi despise me? Next time I come, I will prepare a generous gift."

"Hey, this emperor-level spirit fruit is so fragrant, I really want to take a bite, but I have to take my image into consideration."

"If only it could be packed."

"..."

Various thoughts flashed in the minds of Emperor Wu.

Of course, as Emperor Wu, the expressions on everyone's faces returned to normal in an instant.

Immediately after.

Everyone expressed their gratitude and politely, and then picked up the spirit fruit, cakes, or spirit tea to enjoy.

The wonderful taste pervades the taste buds.

The rich aura blends into the body with a special effect, increasing the cultivation base.

Fortunately, such extravagance has also made all Wudi happy physically and mentally.

[Chapter 1122: Do the best of the landlord](#)

After enjoying the spirit fruit.

Everyone chatted about various topics.

But the most talked about was how to develop subordinate forces.

And everyone is not empty talk, such as Si Yuxiao, Ni Qianzhou, Qingxiao Wudi, etc. who have a good relationship with Su Lang, they all took out dry goods.

—Some practical secret techniques can help the subordinates to improve quickly, or make the ethnic population soar.

Ni Qianzhou even directly took out his 'Holy Image' and other treasures and shared them with Su Lang.

Although Su Lang has the 'one-key empowerment' function.

But the number of uses per day is limited and can only be used on the most important people around.

Those ordinary warriors, although they also have the benefits given by Su Lang.

With the exchange building, the space dojo, and the blue star cultivation holy ground, the chances of becoming a **** and being holy are greatly increased.

However, the methods given by the emperors still made Su Lang very rewarding.

In order to reciprocate the truth, Su Lang took the Wudi to visit the exchange building and the space dojo.

As for the Blue Star side, these Wudi cannot yet know about it.

After all, Blue Star is so precious, you can guarantee that these Wudi will not have thoughts that they shouldn't have.

The first thing I visited was the Space Dojo.

That is, the "space cube" formed by the quasi-imperial soldiers can help the quasi-sage warriors to smoothly condense the space guide and open up the space of the warrior.

"Hey, directly help the quasi-god condense the lead of the space. This method is simple and crude but extremely effective. A good method!"

"Yes, I can only set up a 'Chengshen Pavilion' and let the Valkyrie to teach the quasi-gods. Essentially, it still depends on the quasi-gods. The effect is not very good."

"Well, my method is far worse than that of Langdi Dao brother's spatial dojo. Unfortunately, I can't comprehend the rules of space to get home. I only know a little bit of fur, otherwise I will also build a space dojo."

"The rules of space are too difficult to comprehend, and I don't know if Brother Langdi Dao brother's space dojo is redundant, can it be sold?"

"This is a quasi-imperial soldier. It's only a bit worse than the imperial soldier. How can I sell you so much?"

"That's it, even if you want to sell it, you have to afford it. This kind of treasure that is related to the foundation of the race is more cherished than any quasi-imperial weapon."

"Yes, yes, I'm afraid I can't afford all of my net worth."

"..."

The emperors admired Su Lang's refining space dojo, and even felt envy.

Regarding this, Su Lang smiled faintly and didn't say much.

The emperors want to have a space dojo, there will be something in the future, and everyone will have it!

The space dojo will cover the entire Canglan Continent!

Next.

Su Lang took the Emperor Wu to visit the exchange building.

The exchange building in the holy city of Yaochi is the headquarters, so it has expanded a lot with the expansion of the city.

The tower-shaped huge building soaring into the sky, the foundation alone is comparable to a small city.

Except for the White Jade Immortal Palace suspended high in the sky, the exchange building is the tallest among the holy city of Yaochi!

at this time.

Su Lang and all the emperors of Wushu hid their cultivation base and appearance, and stood by the exchange building, watching the hot exchange scene.

I saw countless warriors lined up in thousands of teams, and each team was endless, and I didn't know which street it extended to.

The warrior in front quickly entered the exchange building, then registered, exchanged what he needed, and then left from another exit.

However, the number of teams entering the exchange building has not decreased at all.

These warriors came from all parts of the southern continent.

Anyway, only the warriors who have the ability to travel far will basically migrate to the place with the exchange building.

The holy city of Yaochi is the dream place of all the warriors of the southern mainland.

It has long been a gathering place for hundreds of ethnic groups. People live on an equal footing here and enjoy the benefits given by Su Lang.

Appreciated this hot scene.

Su Lang led all Wudi into the exchange building again.

Then, all the martial emperors saw with their own eyes every warrior took out low-level materials, and their incredible proportions, exchanged for high-level materials!

[Chapter 1123: Emperor Wu are very embarrassed](#)

"What!? The ratio of God-level materials to Saint-level materials is only 30:1!"

"The fairy-level materials can also be exchanged at will!? Although the exchange ratio is a bit higher, it is only 40:1!"

"Hey, look at the notice, as long as you pass the qualification review, the emperor level materials can be exchanged!"

"Not only can you exchange materials, but you can also exchange pills, weapons, and exercises!"

"Oh my god, Brother Langdi, for the development of the Southern Continent, really has spent his money!"

"Yes, how much do you have to lose if you exchange high-level materials for low-level warriors at this ratio?"

"I think if I build a similar exchange house on my own land, I am afraid that I will go bankrupt the next day!"

"You are going bankrupt! And as far as I know, there is more than one exchange house on the land of Langdi."

"Such a terrifying welfare, Fellow Langdi Daoist has been maintained for so long, it is really amazing!"

"Ahem, Fellow Langdi, I don't know if I am honored to be able to exchange something here?"

"Go away, you cheeky, I am ashamed to be with you."

"..."

The shocked Emperor Wu talked and talked a lot, and the look at Su Lang changed again.

Turning into the eyes of the pauper watching the local tyrants squandering money is a shock and envy.

Su Lang's label of "Qingwu Emperor" was also completely erased by the Wu Emperors, and then replaced by the label of "rich man".

Fortunately, everyone is not narrow-minded, although there is a faint sense of inferiority, but it is not jealous.

Anyway, Su Lang's image in the minds of the emperors was much stronger.

At this time.

"Everyone is finally here, how can I neglect everyone?"

Su Lang smiled slightly: "Well, all Daoists present can exchange for the same material or medicine. The ratio is 500:1, regardless of level!"

This statement came out.

All Wudi suddenly showed surprise.

That bit of unhappiness in my heart completely disappeared!

"Brother Langdi is serious!?"

"The ratio of exchanging fairy-level materials for emperor-level materials is still so low!?"

"Under normal circumstances, the value of a thousand fairy-level materials is not as valuable as an emperor-level material!"

"Yeah, in this way, the things we compensated for Daoist Langdi before, I am afraid that it will not be worth the advantage we have taken at this time!"

"Why don't you forget it?"

"..."

After the emperors were surprised, they turned down one after another because they were taking advantage of Su Lang too much.

But how could Su Lang let them run away?

With a ratio of five hundred to one, he would make fifty times the net profit!

So he tried his best to persuade that all emperors must exchange for a wave.

The Emperor Wu finally agreed, but they took the initiative to increase the ratio to one thousand to one.

Su Lang directly netted a hundred times!

Immediately after.

The emperors blushed, and were very embarrassed to exchange the top quasi-emperor-level materials for an emperor-level treasure, or medicine, or material from the exchange building.

See this scene.

Su Lang laughed happily.

In this wave alone, he earned more than two thousand emperor grade materials.

However, the emperors of Wu still felt that they had taken the advantage of Su Langtian, and they must pay it back after they made up their minds...

Next.

Su Lang didn't have anything to show for the Emperor Wu to visit, so he mentioned the migration of the Zi Ming Emperor.

Brother Si Yuxiao has been waiting for this moment for a long time.

It's just that Su Lang has not yet fulfilled the friendship of the landlord, and they are not ashamed to say it in a hurry.

When Su Lang mentioned it, the two were grateful again.

"Friends, please!"

Su Lang used the space rules to open a passage and led the Wu Emperors to the place allocated to the Zi Ming Emperor.

This is the southern part of the southern continent, occupying one-sixteenth of the land within five elements and it is very remote and barren.

If it were not to be used as a metaphor, the holy city of Yaochi is Beishangguang, and here is the most backward primitive tribe.

The level of barrenness here, the martial emperors couldn't help but sigh, thinking that this is not a place for the warriors to stay.

But the brothers Si Yuxiao were very happy.

Because this place is better than Zimingzhou, and it's still within the five-element sky, it can be improved continuously!

In addition, they can also transform this place themselves, and it will probably not take long before they can develop.

"The intelligent races in this area have been sent by me to move."

Su Lang pointed to the vast land below and smiled, "Si Yu laughs at Daoist friend, please!"

"it is good!"

Si Yu smiled deeply at Su Lang, and then stepped forward to the ground.

[Chapter 1124: What does he picture](#)

Soon.

A large number of powerful emperor-level methods were displayed from Si Yuxiao's hands, and the mountains and rivers shifted suddenly, and the plains were everywhere.

The foundations of the solid cities are condensed by the rules of rock and soil, like blocks of broad obsidian mirrors.

Immediately after.

Si Yuxiao released all the cities in the universe of life, and placed them on the foundation one by one.

In the end, countless people from the Zi Ming tribe were migrated from the universe of life.

"This is Xintiandi!"

"There are blue sky and white clouds in this world!"

"Oh my God, the color of the sun is different from that of our Zi Mingzhou."

"Although the concentration of aura is also very low, it is more comfortable here than Zimingzhou. It's great, great!"

"This is our new home!"

"..."

The members of the Ziming tribe cheered and leaped with excitement and gestures, and even more people burst into tears and cried with emotion.

This is an important turning point in history for the Zi Ming emperor, and the beginning of their re-emergence!

"The two of me once again represent all the Ziming Emperor Clan, thank you for your great kindness and great virtue from Daoist Langdi!"

Si Yuxiao and Si Yuxiang were also very excited and saluted Su Lang one after another.

"Haha, the two dao friends have seen you outside."

Su Lang raised a smile at the corner of his mouth, and raised his brother Si Yuxiao. "The Ziming emperor has just settled down and is waiting to be reborn. There must be many things to deal with. If you need help, don't forget me."

"sure!"

The two brothers nodded quickly.

At this time.

"Since Emperor Ziming has just settled down, Daoist Langdi is in urgent need of healing."

Emperor Jiao Qinwu smiled and said, "I won't be able to stay longer later, and I will visit again another day!"

Seeing this, the other Emperor Wu also bid farewell to Su Lang.

One of them was embarrassed to continue to disturb Su Lang, but they had just exchanged it from Su Lang to the urgently needed emperor grade treasure, and they were anxious to go back and use it.

"Then I will give you one for you!"

Su Lang smiled and nodded, and then opened a space channel leading to the Five Elements Heaven. quickly.

Jiao Qin and other Emperor Wu left the southern mainland, and Si Yuxiang also followed Jiao Qin.

Only Su Lang and Si Yuxiao remained in place.

"I won't bother fellow Daoists either."

"Whenever you need help, you must tell me."

Su Lang smiled and said goodbye to Si Yu, Xuan even returned to the holy city of Yaochi.

The other side.

Emperor Wu, such as Jiao Qin, appeared in the territory of Emperor Wu in Honglian.

Immediately everyone dispersed and returned to their own territory.

But in fact, the Emperor Wu kept a 'group chat' in private.

"Langdi Daoist friend is too rich!"

"Yeah, incredibly rich, incredible!"

"Friend Langdi is the Emperor Wu from the mainland fragments. Which mainland fragment can be so fat and richer than the Canglan continent!"

"In other words, have you noticed that the pseudo-emperors I traded with before seem to have everything!"

Are those pseudo-emperors related to Langdi? Is Langdi a member of that trans-world trade organization? "

"Don't think too much about it. Didn't Langdi Dao brother say that he got the inheritance of 'Tongtian Sect Master'?"

That was at least an emperor-level figure, and a little scum leaking through the fingers was enough to shock us! "

"That is, let alone Langdi Dao brother also took out so many emperor level exercises to auction!

In order to kill Emperor Wu in the Dark Sky World, even his own life planet was sacrificed, and later he sacrificed a Wu Emperor-class clone to execute the plan to attract disaster.

In order to develop the Southern Continent, he has laid such a large capital, what is he doing? "

"In case of Emperor Lang...I mean in case, what he is looking at is the Canglan Continent? The Emperor Lang is not Master Xuanyou. He has given so much, there must be hope in return."

"What's wrong with this, you can also see that the world consciousness does not exclude Brother Langdi, and everyone does not understand the meaning.

Even if Brother Langdi wants to unify the Canglan Continent, there is nothing wrong with it. Who of us has never thought of this before?

If the Daoist Langdi can reach the realm of Emperor Wudi of Nine Revolutions by virtue of the inheritance of the 'Tongtian Sect Master', then why not let the Daoist Langdi rule Canglan? "

Speaking of this, the Wudi faintly quarreled.

Emperor Jiao Qinwu let out a light cough, and everyone's voice gradually became smaller.

However, there was silence for a few seconds, probably because I felt that a charter must be discussed, so someone spoke again.

[Chapter 1125: Obviously such a serious thing](#)

"cough!"

You Wudi said, "The old man feels that while doing his best to accept fellow Langdi, he still has to beware."

"cut!"

Emperor Wu retorted, "It's as if we are just a piece of iron, and we don't watch out for each other. Who is not on guard?"

"Well, this is the truth!"

There was Emperor Wu echoed, "We must treat Langdi Daoist friends equally and treat him as one of us.

Even if they are wary of each other, they are just brothers watching the wall instead of treating Langdi Daoist friends as outsiders. "

"Not bad!"

There was also Emperor Wu agreed, "Not to mention that Emperor Wu Palace suppressed the Canglan Continent, even if the Daoist Langdi really had a purpose, it would not be possible to achieve it."

"Yes!"

There was Emperor Wu continued to agree, "Such things have not happened frequently in the battles of the mainland. More or less Emperor Wu has tried to use the battle of the mainland to subvert the world..."

"..."

The group chat of all Wudi continued.

In the end, Su Lang, the unclear emperor Wu, was officially included in the category of 'own person'.

Moreover, there are still many Emperor Wu who surround Su Lang!

It only took Su Lang a day or two from meeting the Wudi officially to gaining the trust of everyone and obtaining such a 'social status'.

Hmm... I have to say, Su Lang's "sacrifice" is really too tragic...

At this moment.

Su Lang, who returned to the White Jade Fairy Palace, was talking to Chu Xiaobei, Ji Ruxue, and Murong Xianxian.

"Today's affairs, well done!"

Su Lang praised the performance of Chu Xiaobei's three daughters.

"Brother Su Lang likes it!"

"We will definitely do better!"

"By the way, this time Sister Murong was coordinating it!"

"I'm just slaying hands, and Ruxue and Xiaobei's sister have contributed a lot!"

"Hmph, what's the point of just boasting, is there no reward?"

"..."

The three women laughed and laughed, Yingying Yanyan, so lively.

"There is a reward for doing well!"

Su Lang smiled, "Come here, Xiaobei, I will instill the power of rules for you!"

"It's almost the same!"

Chu Xiaobei snorted proudly, and then brought her head to Su Lang's face, a pair of beautiful eyes circling in the microwave, the water was full and beautiful.

Su Lang smiled and put his hand against her smooth forehead, and gave instructions to the system to instill rules.

Immediately, the twelve rules selected by Su Lang were instilled into Chu Xiaobei's body.

"Come in!"

"Do you feel it?"

Su Lang smiled and asked softly.

"Feel... feel it!"

"Su Lang, you are so amazing!"

Feeling the power of more than ten rules suddenly controlled, Chu Xiaobei blushed with excitement.

"Of course it's amazing!"

Su Lang chuckled, "Let's send it every day, and you will soon be able to gather three hundred and sixty rules and create a perfect foundation for martial arts!"

"Hmm, I'm really looking forward to it!"

Chu Xiaobei's eyes were blurred, full of longing for the future.

"Okay."

"Hurry up and digest the power of the rules you just got."

Su Lang smiled and pressed Chu Xiaobei on a low couch.

Chu Xiaobei sat down cross-legged and began to get familiar with the power of the newly acquired rules.

But Su Lang's gaze fell on Ji Ruxue and Murong Xianxian.

"Come on, I'll check you two."

The corner of Su Lang's mouth twitched, and there was a trace of charm in his smile.

Ji Ruxue's face turned red when she saw this.

Murong Xianxian chuckled and laughed: "Obviously such a serious thing, why do you say it as if you want to make color."

"Haha!"

Su Lang grinned, "Aren't you afraid that I'm not being serious this time?"

"What's to be afraid of then?"

Murong Xianxian also had a blushing face and bright eyes, but he dared to look at Su Lang.

"It seems really not afraid!"

Su Lang smiled brilliantly, "However, you still have to control the power first, otherwise the scene can't be ruined?"

Listening to what Su Lang said, the faces of the two women were all red, and they didn't dare to engage in **** with Su Lang anymore.

[Chapter 1126: I can't hold the inner world](#)

Next.

Su Lang seriously checked the bodies of the two women.

The two women are obviously very serious. Although they go shopping occasionally, they spend a lot of time controlling their power.

It has only been more than a day since the last inspection, and he has another point of power.

This speed is not unpleasant!

"Remember that in addition to practicing power control, you should also practice mental power."

"I'll give you some suitable quasi-elixir and elixir, you knock hard, you know?"

While talking, Su Lang took out some pills of medicine bottles and stuffed them into the arms of the two women.

"Huh~"

"The two of us are going to be medicine jars!"

"I have to take a lot of perfect pills every day. It's really a trouble for happiness."

"..."

The two women spoke with a smile and Yan Yan was talking, and their little faces were full of happy expressions.

Next.

Su Lang talked to the two women for a while, then bid farewell and left.

Not long.

In a quiet room, Su Lang sat down.

From Zimingzhou back to the southern continent, and taking all the martial emperors to visit this and that, a lot of time has passed.

In addition, the speed of one-key training has doubled.

Therefore, Su Lang has once again accumulated more than a dozen cultivation bases of "From Yijie Wuxian to Zhun Emperor".

"It's time to open up the inner world of the kidney."

"I don't know if I will become the man with the strongest kidney in the world after opening up this inner world..."

While smiling secretly, Su Lang gave the order to open up the Fourth Inner Realm!

"Ding! The ten-party inner-boundary function is activated, and the fourth inner-boundary is being developed!"

As the system prompts appear.

A burst of intense soreness immediately filled the whole body.

However, the place where the soreness comes is not the kidneys, but the liver!

"It's not a kidney!?"

"It seems that for a while I won't be able to become the strongest man in the world..."

Su Lang tugged at the corner of his mouth, and then kept his mind so as not to make trouble in the inner world.

It is the same as the process of opening up the first two five internal organs.

First, the lead of a perfect space appeared out of thin air!

Then it expands all the way, from the lead of the space to the space of the Martial God, and then the space of the Martial Saint, finally forming a huge inner world of the Martial God!

There was lightning and thunder in the inner boundary of Wuxian, the water was deep and hot, and the chaos was beginning to open, and Su Lang urgently needed to improve.

"Liver corresponds to wood properties."

"In other words, I will not be able to collect Mercury for the time being, but will go to Jupiter to see."

"Well...I can't hold that huge gas giant planet in my inner world, what can I do!?"

Su Lang touched his chin, frowning in distress.

Jupiter is the giant planet with the largest mass and volume in the solar system. Its mass is 318 times that of a blue star, and its volume is more than 1,300 times that of a blue star!

And Su Lang's Wuxian inner boundary was only ten times the size of Blue Star.

This space is too small compared to Jupiter.

"wrong!"

"Jupiter is a gas giant planet!"

"It is divided into a gaseous outer layer, a liquid middle layer, and a solid inner core. The gaseous outer layer occupies most of the volume."

"Then, I can discard the gaseous outer layer, and even the liquid middle layer can abandon part of it, and directly take part of the liquid middle layer and the solid inner layer."

Su Lang's eyes were faintly bright. As far as he knew, Jupiter's solid core was twice the size of a blue star. Even with a part of the liquid middle layer, the inner boundary of Wuxian could fit.

Just do it.

Su Lang immediately came to the Fengling Clan New City and came to Blue Star through the cracks in time and space.

With a swipe of mental energy, the scene on the blue star came into view, and it seemed to be more prosperous than yesterday.

Su Lang smiled faintly, then turned and flew into space.

Jupiter is the fifth planet in the solar system from the inside to the outside, behind Mars, 630 million kilometers from the blue star, or 1.26 billion miles.

But this distance is nothing to Su Lang.

Even on the Canglan Continent, which is much larger than the solar system, Su Lang can come and go. It won't take much time, let alone a billion miles?

Through space rules.

Su Lang keeps jumping in space!

Not long.

A huge space hole appeared in front of him, it was the space hole left over after Mars was taken away by Su Lang.

In a short period of time, this giant hole could not be completely healed at all, and by this time it was about one percent healed.

[Chapter 1127: The mammoth Jupiter!](#)

"Please, great universe."

Su Lang smiled wryly, then bypassed the space hole and continued to fly forward.

In the distance, within the range of spiritual power, the huge gray-yellow giant planet is getting closer.

but.

Su Lang stopped in the middle of the road.

Because an asteroid belt composed of a large number of small stars appeared in front of him!

This is precisely because of the asteroid belt between Mars and Jupiter. More than 12,000 small celestial bodies have been named.

According to calculations, there should be as many as 500,000 small celestial bodies in this planetary belt.

In the eyes of Su Lang.

That is countless large and small gray-black meteorites, rotating around the sun in the pitch black space, just like the river of Hengsha in myth.

"Five hundred thousand, so many!"

Su Lang unfolded his mental power and carefully scanned the surrounding small celestial bodies.

He soon discovered to his surprise that these small meteorite-like celestial bodies were indeed the core fragments of the Infinite Realm.

However, the attributes of these core fragments are very mixed, including the rules of heaven and earth, such as the five elements, yin, sun, sky, and geography.

"So many small celestial bodies are all fragments of the boundless world!"

"Although, according to speculation, all add up, its mass is only one-thousandth that of a blue star, but it is also one-tenth the size of the moon."

"This quality doesn't seem to have much effect to me, but it can be left to Chu Xiaobei and the three of them, so that they can build it into the core of the universe of life."

Su Lang touched his chin and thought, gradually showing a smile, as if he felt the pleasure of nurturing again.

Decided to leave these asteroids to the three daughters of Chu Xiaobei.

Su Lang directly opened the space channel, crossed the asteroid belt, and continued to Jupiter.

Not long.

Su Lang stood in the outer space far away from Jupiter.

Jupiter, a giant planet of gray, yellow, and white, is slowly rotating. Seen from space, the power is amazing.

"Jupiter."

"It was called 'Tai Sui' in ancient times!"

"It can be seen that this Jupiter is related to lifespan, and its root is the wood attribute that represents life!"

"However, if this is the case, you have to check with your own eyes."

Su Lang narrowed his eyes, and the terrifying mental power rushed to Jupiter, enveloping it all.

Suddenly.

Countless distorted colorful clouds appeared in the field of vision.

They are constantly twisting and dancing with the convective wind. The colorful and deep colors make them look like Van Gogh's abstract paintings.

Soon.

A wave of terrifying storms appeared, and they were wrapped in some liquid water droplets and ice cubes, and their power was comparable to a powerful Wuxian.

at the same time.

A strand of wood rules also appeared in Su Lang's mental power.

However, these wood rules are very thin, and they are composed of a large number of wood derived rules, which are very scattered.

Fortunately, these rules are not as distorted as those in the Heavenly Fallen Heavenly Mot. They are just a little messy, and they are still normal in nature.

"Sure enough, it is a wood attribute, this is really great!"

"I just don't know that Jupiter is obviously such a color, and the composition is only hydrogen and helium. Why is it wood?"

This question arose in Su Lang's head.

But soon, he thought of an explanation:

Hydrogen is an extremely active element and contains very powerful energy.

Isn't vitality the active and powerful energy?

In addition, the composition of Jupiter is actually somewhat similar to that of the sun, and hydrogen fusion occurs on the sun all the time, emitting endless light and heat!

This is very consistent with the "wood making fire" in the Five Elements theory.

Of course, this is a bit far-fetched, and Su Lang has only observed the surface of Jupiter, not the interior.

When we see the inner core of Jupiter, there may be a better explanation.

As Su Lang's spiritual power continued to deepen.

Not long after, the endless ocean appeared!

This is an 'ocean' made up of countless liquid hydrogen and liquid helium, mixed with other substances on the surface, so it looks colorful.

But the deeper the 'ocean', the more transparent and clear the color of 'sea water'.

What follows is the more and more pure rules of wood!

[Chapter 1128: Extract Jupiter component](#)

"Well....."

"This liquid ocean is too deep!"

"If you want the inner bounds of income that the ocean as a whole does not lack, you can't fit them."

Su Lang frowned slightly, "It seems that we can only abandon part of it according to the original plan, and only take the inner core and part of the ocean."

Soon.

Su Lang's spiritual power continued to penetrate Jupiter's interior.

As the depth got deeper and deeper, Su Lang became more strenuous, and his mental power was almost impossible to move.

Fortunately, Su Lang persisted and spent several hours finally seeing the inner core of Jupiter.

This is an emerald green super-large ore core with a dense wood avenue on it!

In other words, this is a super-giant wood attribute ore from the core of the boundless world.

Picking up a stone at random is also an emperor-level material!

"Noisy, noisy!"

"Is this a super mineral vein of wood attribute of the boundless world!?"

"In this way, even if the previous explanation makes a little sense, it is only a little bit."

Su Lang's eyes widened, "The essential thing that really makes Jupiter produce the rules of wood is this huge vein!"

A mineral vein, which is quite larger than the Blue Star, is placed on the Canglan Continent, and it is also the size of a holy race.

From this it can be seen what a huge place the Boundless World is.

Su Lang couldn't help but feel yearning again.

but.

The boundless world is still too far away.

Su Lang turned his eyes and continued to look at Jupiter's core.

Its volume is only one-third larger than Blue Star.

"Hey, Jupiter's core is really small."

"It's smaller than people predicted, and only bigger than Blue Star."

Su Lang was full of joy, so that his plan would be carried out smoothly!

"but."

"It is not easy to abandon Jupiter's 999th of a thousandths volume and take only one thousandth!"

When Su Lang saw this boundless Jupiter, he felt his head big.

Next.

Su Lang began to think of a solution.

I quickly thought of the first way

—Go to the interior of Jupiter, arrange the formation method to divide Jupiter into two parts, and remove the interior.

But the feasibility of this approach is actually not high.

Although Jupiter is a gas giant planet, the internal pressure is extremely terrifying.

This kind of terrifying pressure is also a kind of Jupiter's world power, extremely majestic and vast.

Even the intangible, intangible and pervasive mental power is difficult to penetrate.

If Su Lang went to Jupiter in his body, he would be directly killed by the power of the terrifying world.

"No way, no way!"

"This method is too risky."

Su Lang shook his head quickly. Although he had dozens of lives, he didn't want to experience the pain of being crushed alive.

Su Lang's mind was swiftly moving, and a large number of thoughts collided with each other, forming a bright light.

Soon, he thought of another way.

This method is much more feasible than the first method!

—Use space rules to open some space channels inside Jupiter, like pumping water, pumping out Jupiter's hydrogen and helium!

This method does not need to go deep into Jupiter, but only needs to arrange space channels one by one from the outside to the inside.

The only drawback of this method is that it takes more time.

After all, Jupiter is too big!

Even if multiple spatial passages are arranged and countless 'water pipes' are installed, it will take a lot of time to extract 999 per thousand of the volume.

"But this is the safest way."

Su Lang licked his lips, and then flew towards Jupiter.

The closer he gets to Jupiter, Su Lang feels a very powerful gravitation.

It's like a powerful Wuxian desperately pulling you in front, trying to pull you into the abyss of Jupiter.

Su Lang resisted the increasingly powerful gravitational force and came closer to Jupiter.

"Space Rules!!"

Su Lang's whole body's "Xian Yuan" keeps running, and a strong force of space rules is mobilized, pulling out countless space rules from the surrounding void!

These spatial rhythm lines form a huge channel in Jupiter's gaseous layer.

[Chapter 1129: Master the seven emperor level exercises](#)

The coordinates leading to the passage are the asteroid belt that it passed through.

As a component of Jupiter, it is also equivalent to the core fragments of the Infinity Realm, so of course Su Lang will not be wasted!

At this time, first extract this part of Jupiter components and place them in various places in the asteroid belt.

Soon, they will be captured by those small celestial bodies and attached to the surface.

When the three daughters of Chu Xiaobei opened up the inner realm of Wuxian, they could be brought over. These asteroids were collected with Jupiter ingredients!

At this moment.

The first space channel condensed by Su Lang has begun to devour the endless hydrogen and helium on Jupiter.

I saw that the space channel was like a huge black hole, and the surrounding Jupiter ingredients poured in frantically, forming a huge vortex.

If you look from space, you can see a swirling light spot appearing on the surface of Jupiter!

Simultaneously.

In the asteroid belt, a space channel also appeared somewhere, and a large amount of Jupiter components spurted out and filled everywhere.

Unless the surrounding small celestial bodies also have a certain gravitational force, they can all be captured.

At this terrifying speed, they will continue to advance in a vacuum without resistance, and eventually disappear completely.

However, under Su Lang's arrangement, they could not escape!

Small celestial bodies are like nets, capturing many Jupiter components, and then go away.

But a large number of new small celestial bodies flew over again, continuing to capture Jupiter's gushing composition.

"Although there are still a lot of spills, it can only be so."

Su Lang shook his head and continued to arrange space channels on Jupiter.

Ten, one hundred...

In the end, Su Lang successively arranged a thousand space channels.

A thousand space channels cover the surface of Jupiter.

It's like piercing a large number of tiny holes in a huge balloon, and the ingredients inside are constantly released.

Unfortunately, one thousand space channels are really too few for Jupiter.

It's not that I don't want to arrange more, it is really impossible to continue to arrange.

He is not really invincible. He has arranged a thousand huge space channels and maintained it in the power of the extremely abnormal world, which has reached his personal limit!

but.

The personal limit is reached.

But Su Lang still has system functions that are useless.

"Clone dispatch!"

Su Lang's heart moved, and all the clones appeared in front of him, except for the clone incarnation who was busy with things.

A total of sixty-two clones and clone avatars, suspended in space, exudes a powerful Wudi-level atmosphere.

These clones have just cooled and condensed, so they are full of curiosity about the surrounding environment.

At this moment, they are constantly looking around, looking around.

"listen."

Su Lang's expression slammed, "Give me a space channel and drain the planet!"

"Yes!"

The avatars nodded one after another, and then went to arrange the space channel.

Not long.

Each of the sixty-two avatars arranged a thousand spatial channels.

The total number of space channels has reached 63,000!

The surface area of Jupiter is approximately 61.4 billion square kilometers.

When divided, each space channel only needs to be responsible for an area of 1,000 kilometers vertically and horizontally, which can be said to be very small.

of course.

Jupiter is too big, even if it gets more 'holes', it will take a lot of time to make time.

then.

Su Lang simply sat down cross-legged, while maintaining the space channel, while handling his own affairs.

He took out a fairy-class cauldron and began to refine the parts of a super humanoid weapon.

In an instant, another period of time passed.

suddenly.

System prompts came one after another.

"Ding! "Soul Gathering and Splitting Technique" has reached the founding level!"

"Ding! "Eternal World Classic" has reached the founding level!"

"Ding!....."

"..."

Seven consecutive system prompts sounded one after another.

It turned out that the seven emperor-level exercises that Su Lang placed before have all been practiced!

"Ouch!"

Su Lang's eyes lit up, then he held his breath and received the ear information from the seven exercises.

Numerous information was imprinted on Su Lang's soul and body, allowing him to master the seven emperor level techniques in an instant.

At the same time, two majestic warm currents appeared out of thin air, blending into Su Lang's flesh, bones and limbs.

These two warm currents are derived from the energy of the two body-building exercises, "Nine-turn Profound Emperor Jue" and "Zhenyu Emperor Jing"!

[Chapter 1130: Mingguang Abyss of the Fallen Devil](#)

This is the energy to practice the emperor level exercises to the founding level.

In the huge energy nourishment, Su Lang's body seemed to be tempered for countless years, countless times in an instant!

His four-dimensional attributes immediately skyrocketed!

And Su Lang knew that this was still restricted by his cultivation realm, and he couldn't bring out all the effects of the exercises.

Otherwise, two Wudi-level exercises that have reached the founder level are enough to increase his combat power even more!

Except for the two exercises.

The rest of the exercises also gave Su Lang a terrifying upgrade.

Both "Soul Gathering and Splitting Jue" and "Emperor Heart Reincarnation" are both spiritual exercises.

Although he couldn't make Su Lang's mental power soar for a while, he had mastered extremely powerful strengthening methods.

In just a few moments, Su Lang can raise his mental strength to the point where there is no one before and after!

The "Eternal Realm Classic" directly furthered Su Lang's spatial rules, only a thin film away from the Condensed Space Avenue!

In addition, "The Records of the Emperors of the Heavenly Yin of Liangyi" brought Su Lang's control of the Xuzhi Dao to the realm of condensing the Dao.

Finally, "Mingguang Ten Thousand Realms Emperor Jing" allowed Su Lang to grasp the 'rules of light' and the 'radiation rules' to the limit.

At present, Su Lang's most attention is the "Ming Guang Di Jing".

This Double Dao exercise has both positive and negative forms. The exercises are recorded as 'Ming Guang Wanjie' and 'Devil's Abyss'.

Using the 'Mingguang Ten Thousand Realms' form, you can add a positive state to your allies, and your courage, strength, recovery, etc. can be multiplied.

And it can also act on the enemy, so that the enemy will also be refreshed.

But the enemy was so cool, but he was secretly exerted the terrifying 'hypnosis' and 'assimilation' ability.

Let the enemy give birth to reverence willingly, and then bow to his feet, surrender without a fight, and strike back!

This is very powerful!

In Su Lang's view, this is very similar to the legendary Buddha's "Bright Buddha Land".

As long as the "Mingguang Ten Thousand Realms" is turned on, then wherever you go, you will be the Pure Land, the Buddha Land.

Any wise creature with weak faith will become a believer.

And this, in the incense system, has a super terrifying effect, which can quickly obtain countless believers, without knowing how many 'knock and kidnapping' processes.

From this point of view, this trick 'makes one's own people more and fewer enemies', dare you say that it is not powerful?

In addition, the 'Mingguang World' has the effect of inciting 'benign mutation', allowing species to mutate and evolve in the best direction.

This is a bit similar to the legendary "pointing".

For Su Lang, this effect of the 'Mingguang Ten Thousand Realms' is also very important.

Because Su Lang's 'Creator's Plan' involves creating creatures from the genetic level.

Then this function of inducing benign mutations is tantamount to greatly improving the speed of planning!

In short, these are the three major means of the form of the 'Mingguang Ten Thousand Realms'.

Let's talk about the "Devil's Abyss" form.

Also mentioned before.

"Devilfallen Abyss" is a terrifying negative form.

Once cast, the caster will become cruel and distorted, both in appearance and in heart, and become a complete ugly monster!

But the physique of the caster will be greatly improved.

Then the caster will master the 'radiation fire' with 'dharma penetration effect against the sky'.

If the enemy is burned by the 'radiation fire', if he cannot resist it, he will suffer both physical and mental trauma. While turning into an ugly monster and suffering endless suffering, his combat power will drop drastically.

In short, it is to impose a negative state on the enemy, reduce defense, slow down, reduce offense and reduce blood, by the way, torturing him hard, let the other party know why the flower is so red.

And this also reminded Su Lang of the legendary 'killing Buddha'.

Like the Ksitigarbha Bodhisattva, the killing Buddha controls the invisible fire (radiation fire)!

Pull the most sinful enemy into hell, burn it with karma, make him eternally punished, and wash his sins away!

At that time, Su Lang also imagined the existence of Buddha in the boundless world.

And this time.

Wow!

A group of invisible karma fire appeared in Su Lang's hands, obviously without any temperature, but exuding a creepy breath.

"Does the Boundless Realm really have gods and Buddhas in Chinese mythology?"

Su Lang held the karma fire and looked at the deep universe with deep gaze, revealing a strong expectation.

At this time.

Because the side effects of unfolding "Devilfallen Abyss" began to show.

Su Lang felt a little mad in his heart, and his body started to get hot.
