[Chapter 1131: Attack rank sixth Wudi!](#)

"Tell the old and get the new!"

With a thought, Su Lang used the system functions to immediately clear all the negative states.

The heart became clear and clear again, and the body became comfortable.

Immediately after.

Su Lang opened the properties panel.

"Properties panel!"

[Name]: Su Lang

[Race]: human

[Qualification Level]: Turbidity

[Realm level]: One Tribulation Wuxian

[Attack level]: Sixth Rank Wudi

[Defensive level]: Four-turn Wudi+

[Shenfa level]: Four-turn Wudi

[Endurance level]: Four-turn Wudi+

[Spirit Level]: Realm of Kongni

[Mastering the exercises]: The Infinite Heart Sutra, "Ten Thousand Fas into One: Unnamed" (Emperor Level, Founding)

[Activated system functions]: One-key training function (level 35), one-key training function (level 35), clone dispatch function (level 34), one-key treasure hunting function (level 33), one-key alchemy function (level 15) , one-key refining function (15 levels), one-key refining array function (15 levels), one-key synthesis function (15 levels), one-key initiation function (12 levels), one-key decomposition function (no level)

"Tsk tut!"

"Achieve the attack level of Rank Six Wudi with the Realm of One Tribulation Wuxian!"

"Throughout the ages, I am probably the only one who can do this."

Looking at his attribute panel, Su Lang couldn't help but smile.

Immediately, his gaze fell on the "Ten Thousand Fas into One", this exercise is still at the emperor level, and has not yet become a great emperor level.

"The new integration of so many emperor-level techniques, but has not yet reached the emperor-level."

"It seems that the gap between the Great Emperor and the Wu Emperor is bigger than expected."

"I don't know what kind of cultivation methods are at the Great Emperor level, and Canglan Continent has never been out of the Great Emperor level, and there is no information on this realm."

Su Lang thought silently, "The way of fusion of spirit, soul, and body like the Origin Devil Emperor can't confirm whether it is the orthodox road of the Great Emperor."

Since he couldn't figure it out, Su Lang didn't think about it for the time being.

After all, the boat is naturally straight at the bridge head, and when you touch that realm, you can naturally learn more.

Next.

Su Lang found three hundred and seventy-two immortal level exercises from the storage space.

These immortal-level exercises correspond to the remote and remote rules that he has never touched before, and they were traded from the emperors when the emperor-level exercises were auctioned.

As opposed to continuing to practice emperor-level exercises.

Su Lang still values his foundation more and intends to continue to improve the number of rules.

After all, if a building has a weak foundation, the higher it is repaired, the more likely it is to collapse!

And with the 35-level one-key martial arts function, it only takes more than an hour to practice a fairy-level exercise.

At the speed of one round of eight books, it only takes less than three days to complete the practice of nearly four hundred immortal level exercises. Why not do it.

"Well, this...this this..."

Su Lang took out the eight immortal level exercises and threw them to the little man Xiwu for cultivation, who immediately got busy.

Immediately after.

Su Lang stood up.

The other sixty-two clones also stood up.

"Go ahead, add space channels!"

Su Lang smiled faintly and gave instructions.

The founding proficiency of the "Eternal World Classic" has brought him a higher level of control over the rules of space.

In addition, Su Lang's own combat power has improved many small realms compared to before, and of course he has broken the limit and can arrange more space channels!

Immediately after.

With a wave of Su Lang's big hand, more powerful space rules were displayed, condensing the thousand and one space channels!

The other avatars also used space rules to condense more space channels and extract Jupiter components.

New spatial channels condensed, and the number of 63,000 increased to 630,000 in an instant!

Not only has the number increased, but the volume of the space channel has also increased, and more Jupiter components can be swallowed in the same time.

Rumble! !

Jupiter is covered with countless vortexes, which looks terrifying.

In the asteroid belt in the distance, 630,000 space channels continuously emit Jupiter components.

More and more Jupiter components are mixed in the asteroid belt, shrouding its small celestial bodies.

There are a lot of Jupiter components floating in the asteroid belt, forming a thick fog and mixing all kinds of ignorance.

Under the sunlight, the entire asteroid belt becomes like a light-colored translucent ribbon!

[Chapter 1132: Just a matter of time](#)

Over time.

The size of Jupiter has shrunk in a circle visible to the naked eye!

The asteroid belt, which resembles a translucent ribbon, has also become more vivid.

The entire asteroid belt has become a colorful galaxy, like the planetary ring of the sun, brilliant and beautiful.

Su Lang didn't expect that the plan of pulling away from Jupiter would create such a cosmic wonder.

"It's really beautiful."

"The three of them will be very happy to see this gift."

The corner of Su Lang's mouth was raised with a faint smile.

Immediately after.

Su Lang sat down cross-legged again, concentrating on maintaining the space channel.

Because he had to control a total of 10,000 huge spatial channels, Su Lang couldn't be distracted from doing other things for a long time.

Fortunately, both the one-key training and the one-key martial arts exercise are running on their own, regardless of Su Lang's posture...

time flies.

All day passed in a blink of an eye.

Under the action of 630,000 super-large 'pumping machines', Jupiter has also been drawn out of nearly half of its volume.

The huge planet looked thinner.

Its color also becomes monotonous off-white due to the removal of the outer material, and has a translucent feeling.

However, even though it has drawn so much volume away, it still hasn't touched the 'ocean'.

During this time.

From time to time, Su Lang would take the time to place an immortal level technique.

Nearly four hundred immortal level exercises have been practiced by one third.

The new rules that Su Lang controls have made the already-opened Quartet inner boundary more stable.

Especially the inner boundary of Yingluo and the inner boundary of Qiming, because of the existence of Mars and Venus respectively, they feed back a large number of remote and rare rules.

Although the two planets mainly condense the fire system avenue and the gold system avenue, the rest of the rules are the same, but they are not so prominent.

at the same time.

Su Lang's accumulated cultivation base has far surpassed the ten cultivation bases of "From Yijie Wuxian to Zhundi", and could open up the fifth inner boundary.

"Open it first."

"I don't know if it is the inner boundary of the kidney this time."

Su Lang murmured a few words, and immediately left his 10,000 spatial channels aside for a while, and gave instructions to open up the inner boundary.

Suddenly.

The intense soreness came from the upper left of the abdomen, which is the position of the spleen in the human body.

"It's the spleen."

Su Lang nodded silently, and was not lost because it was still not a kidney this time.

after all.

It is only a matter of time to open up the inner boundary of the kidney and become the man with the strongest kidney in fact.

In the intense soreness.

A space guide appeared in the spleen, and then evolved along the way, eventually becoming a stable inner martial arts.

For an instant.

Su Lang felt that his combat power had increased again.

It's just that the difference between Emperor Wu's small realm is too big, and because of the limitations of the cultivation realm, the improvement is not large.

"The spleen corresponds to the soil attribute among the five elements."

Su Lang silently made a decision, "After taking Jupiter, we will take Saturn and take it into the inner boundary of the spleen."

Saturn is a planet very similar to Jupiter.

It is also a gas giant planet, but it is a circle smaller than Jupiter, about four-fifths the size of Jupiter.

Su Lang can handle Jupiter, and naturally Saturn too!

It doesn't take much time to open up the inner boundaries of the spleen.

However, all the space channels arranged by Su Lang himself have disappeared.

He can only start again, opening up space channels one by one.

And at this moment.

On the Canglan Continent, between the Southern Continent and the Northern Continent, the emperor's death zone suddenly began to dissipate.

Su Lang stayed behind in the avatar of the exchange building in the Sacred City of Yaochi and Qiushuixian City, and immediately discovered the changes in the death zone of the Emperor.

"The emperor's death zone has begun to dissipate."

"In other words, Yuan Yue has successfully accepted the inheritance and has completely integrated with Emperor Xuanyu."

"This is a good thing. When the emperor's death domain is completely dissipated, that piece of land will belong to me."

A faint smile appeared at the corner of Su Lang's mouth, "In addition, I also need to find a beautiful and kind-hearted girl, Yuan Yue, for some innocent tea trees."

The purpose of asking for Wuyu tea tree was to transform the soul of Emperor Kuang Erlu.

As for personal contact with the incense willingness...

Su Lang understood very well that 'vomiting the old and accepting the new' can only eliminate the side effects caused by the exercises and the use of secret techniques, and it is not effective for the energy of incense wishing power.

Therefore, Su Lang still did not dare to provoke incense at this time.

[Chapter 1133: The emperor's death domain dissipated](#)

Next.

Su Lang continued to pay attention to the death domain of the emperor.

Through 'sharing of perception', he saw the entire process of the emperor's death domain dissipating in his eyes.

The thick fog disappeared, exposing the dry and barren black earth.

One by one, the 'Giant Spirit Monsters' roared and scattered, and then they were beheaded by the gathered Martial Emperors.

Not bad.

After the emperor's death domain began to dissipate, Emperor Wu gathered again.

Only this time only a dozen came, including the five from Emperor Wu's Palace, the White Moon Twin Emperors, and the Yaojin Tianyin Emperor Clan.

Oh, and Emperor Ling Juewu, this product is also here.

Also headed by Emperor Jiaoqin Wu, all Emperor Wu stayed in the dead zone of the Emperor to welcome the return of the successor.

But none of them knew that the successor was Yuan Yue.

Because there are really many quasi-emperor martial arts that did not come out of the emperor head forbidden area.

In the eyes of Emperor Wu, anyone could be the successor.

"Do the math, there are thirty-five in total that haven't come out of the emperor's forbidden land."

"Four of them are Zhundi, belonging to the four powers of Yaojin, Tianyin, Baiyue, and Ling Jue."

"Those Nine Tribulations Martial Immortals are unlikely to be the inheritors of the inheritance. These four people are most likely to inherit the inheritance."

"I think it should be the quasi emperor of the Yaojin Emperor Clan who inherited the inheritance."

"How do I feel that the quasi emperor of the Tianyin emperor clan is more hopeful?"

"You are all wrong, the quasi emperor of the Baiyue emperor clan has the most hope!"

"..."

The emperors discussed it, but no one mentioned the quasi emperor under Emperor Ling Juewu.

This immediately made Emperor Ling Juewu's face black!

Although Emperor Ling Juewu knew that his quasi-emperor was worthy, compared with the other three quasi-emperors, there was really no hope.

But being ignored in this way still made Emperor Ling Juewu very, very upset.

"Ha ha!"

"Today you all look down on me Ling someone!"

"From now on, when I develop, you will not be able to climb high!"

The cold light in the eyes of Emperor Ling Juewu flickered, full of deep hatred.

But he quickly suppressed the hatred in his heart, and even his expression returned to normal in an instant.

suddenly.

A figure appeared in front of the emperors, it was Su Lang who had driven back from the solar system.

"Friend Langdi, you can come!"

"Yeah, we thought you were busy healing your wounds and were not coming."

"What happened to Fellow Langdi's injuries?"

"..."

All Wudi greeted Su Lang with all smiles.

And the expression of Emperor Ling Juewu just recovered, suddenly became difficult to look.

"Thank you for your concern."

Su Lang smiled faintly, "Although my injury is serious, but thanks to the panacea given by everyone, I am recovering well."

The emperors all laughed dumbly upon hearing this.

Where is the panacea we gave us useful? It's that your fellow Langdi Daoist's own family background is too rich...

Emperor Ling Juewu on the side looked at Su Lang in secret.

He didn't want to get rid of Su Lang all the time. Su Lang was seriously injured and even the planet of life collapsed. It was the weakest moment!

Emperor Ling Juewu knew that Su Lang was very strong. If he didn't seize this opportunity, he would have no chance in the future.

but.

Emperor Ling Juewu finally suppressed the impulse in his heart.

Because he has more important things, he can't make extra branches.

at this time.

The emperor's death domain finally dissipated completely, from a forbidden area covered by fog to a black soil plain.

In a wave of spatial fluctuations.

A slim figure was ejected from the entrance of the forbidden area.

The entrance to the forbidden area was wiped out, and the gap in the space he formed quickly healed.

Regardless of the entrance to the forbidden area, the emperors were all staring at the person who was ejected.

"It's Yuan Yue Zhundi!"

"Emperor Yuan Yue Zhun under the Baiyue Emperor Clan!"

"No, now Yuan Yue has broken through to Emperor Wu and is no longer a quasi-emperor!"

"Unexpectedly, it was not the quasi emperor of the Yaojin and Tianyin clan, but the female quasi emperor of the Baiyue clan!"

"Hahaha, I guessed it right, the Baiyue Emperor Clan is really lucky!"

"Yeah, a double emperor is a good story. At this time, there is another female emperor. Tsk tsk, it's amazing!"

"It's a pity that the other quasi emperors are also good seedlings. They haven't come out at this time. It's probably too bad for you."

"Stop talking, look at the situation of Emperor Yuan Yuewu, she can't compare to her boss Yuxiang."

"exactly!"

"..."

[Chapter 1134: New Jin Wudi Yuan Yue](#)

The Emperor Wu flew towards Yuan Yue while talking.

Emperor Ling Juewu's body froze for a while, gritted his teeth secretly, and immediately followed.

Su Lang smiled faintly, and opened Yuan Yue's property panel while walking forward.

I saw Yuan Yue, who was originally only a quasi-emperor, has now become the second martial emperor.

And this is just the status of Yuan Yuegang's inheritance.

With the passage of time, the cultivation of Emperor Xuanyu's body will continue to blend into Yuan Yue, making her stronger.

quickly.

Yuan Yue was surrounded by Su Lang and other Emperor Wu.

"Yuan Yue has seen you seniors!"

Yuan Yue saw Jiao Qin and other Emperor Wu, and immediately saluted humbly.

Originally, Yuan Yue belonged to a relatively good and strong woman, but at this time there was only a gentle light in her eyes, not the slightest aggressiveness.

Even Su Lang saw the shadow of Xuan Hu in her every move and expression.

It seems that Yuan Yue was more affected by Xuan Huo than Si Yuxiang.

Yes, after all, before accepting the inheritance, Si Yuxiang was originally Emperor Wu, and she was only a quasi-emperor.

"Friend Yuan Yue, please hurry up."

Jiao Qin and other Emperor Wu quickly let Yuan Yue exempt from the ceremony.

After all, Yuan Yue voluntarily merged with Emperor Xuanyu and sacrificed herself!

Based on this alone, even though her cultivation base is not high, she is very respected.

"Yue'er, how do you... feel?"

Zhu Lan and Zhu Xin came to Yuan Yue's side and asked very concerned.

"I'm very good!"

Yuan Yue smiled brightly, "making the two sisters worried!"

"That's good, that's good..."

Zhu Lan and Zhu Xin smiled, but they always felt a sense of loss.

Their sister Yuan Yue accepts the inheritance of the emperor, and will gradually lose herself, and will no longer look like a person.

Immediately after.

Yuan Yue chatted with sisters Lanxin for a while, but Emperor Jiao Qinwu and others couldn't bear to interrupt, so they didn't interrupt.

Finally, the three sisters were talking about it.

Emperor Jiao Qinwu seized the opportunity to ask: "Sister Yuan Yue, how is your inheritance going on? Is it complete?"

"Return to Senior Jiao Qin's words."

Yuan Yue whispered, "My inheritance is very complete."

She did not elaborate on what she inherited.

But all the emperors were very clear after the battle of the emperor body inheritance.

"Just complete!"

Emperor Jiao Qinwu smiled and said, "With the heritage left by Master Xuanhuo, you must be able to advance soon and contribute to the battle of the mainland."

Su Lang and others also spoke out in encouragement.

Yuan Yue immediately expressed gratitude to everyone, and took a deep look at Su Lang, expressing his gratitude even more.

In the forbidden ground, she saw Su Lang's true body, knowing that Su Lang had given her the inheritance qualifications.

Although Yuan Yue knew that Su Lang did not want to provoke incense and willingness, she would give her the inheritance, but she still appreciated the opportunity Su Lang gave.

Moreover, Su Lang also presented the "Feeding All Living" exercises to her. How could she not be grateful?

In addition.

Yuan Yue knew that Su Lang had secretly entered the forbidden area, so she didn't say anything.

Although she became more kind and honest under the influence of Xuan Hu, she did not completely become like Xuan Hu.

Therefore, Yuan Yue can hide her words and tell lies.

At this time.

"According to the usual practice, I will take Sister Yuan Yue to the Wudi Palace to retreat."

Emperor Jiao Qin Wu looked around the crowd, and especially smiled apologetically to sisters Lanxin.

"It's okay."

"It's just a retreat, it's not that I won't come back."

Zhu Lan and Zhu Xin nodded with a smile, and then instructed Yuan Yue to obey Emperor Jiao Qin Wu's arrangement, and the latter naturally agreed with kindness.

"In that case."

"Then I will leave with Daoist Yuan Yue."

Emperor Jiao Qinwu smiled, took Yuan Yue's hand, and left.

"Two wait a minute."

Su Lang smiled and stopped Emperor Jiao Qinwu and Yuan Yue.

"What happened to Fellow Langdi?"

Emperor Jiao Qinwu didn't think he was disgusted, and asked kindly.

"Is such that."

Su Lang smiled faintly, "I want to buy some Wuyu tea trees from Taoist Yuan Yue."

"Wuyu tea tree?"

The emperors were taken aback. They knew about this thing, but they didn't expect that Su Lang would beg for this thing.

Could it be that Emperor Lang wanted to take the road of Emperor Wudi?

Or do you just want to study it?

Yuan Yue was also puzzled for an instant, but she ran it behind her head in an instant, and immediately agreed to it.

[Chapter 1135: Immortal Emperor Soul Pill](#)

I didn't expect it.

The emperor Ling Juewu said, "Su Lang, Wuyu tea tree is the foundation of the inheritor of Xuanhou. What is your attempt to buy Wuyu tea tree from Yuan Yue?"

In addition, Wuyu tea trees are extremely cherished, and they are not something Xianyuan can buy! "

The implication is that although you Su Lang has a source of immortality, you can't use this ordinary cultivation resource to trade. You Su Lang can't bring out treasures of the same level as Wuyu Tea Tree, and you can't afford it!

The emperors looked at each other, and everyone could tell that Emperor Ling Juewu began to target Su Lang again.

But the words of Emperor Ling Juewu are not unreasonable.

Wuyu tea trees are indeed very cherished, and they are of great significance to the inheritors of Xuanhu, and they must not be easily sold.

just.

No one could think of it, Yuan Yue didn't even think about it, she planned to agree to Su Lang, but was interrupted by Emperor Ling Juewu.

"Ha ha."

"Naturally, I wouldn't use Xianyuan to buy tea trees from Taoist Yuan Yue."

Su Lang glanced at Emperor Ling Juewu, then took out a bottle of pill from the storage space.

"Pills!?"

Emperor Ling Juewu disdainfully said, "A mere medicinal pill, and I want to exchange it for Wuyu tea tree, you are simply dreaming!"

however.

Su Lang ignored the words of Emperor Ling Juewu.

"Friend Yuan Yue inherited the inheritance of the emperor, and has the resources left by Master Xuanhou."

"Ordinary cultivation resources, Daoist Yuan Yue should not lack, but spiritual resources must not be much."

"Taoyou Gang just merged with Master Xuanyu. The fusion between souls is extremely important. Only with the aid of pill can be foolproof."

"There is a rank martial emperor-level spiritual emperor pill, named 'immortal emperor soul pill,' with a total of ten, and it is of perfect quality without any side effects."

As Su Lang spoke, he took out a bottle of pill, "I hope to exchange these pill for some Wuyu tea trees."

The immortal emperor soul pill is an emperor-level pill synthesized from the immortal immortal soul pill.

The synthesis ratio is as high as ten thousand to one!

Because this kind of pill is more precious than ordinary pill of the same level, it takes four rounds of synthesis to be promoted to the emperor level.

Finished talking.

Su Lang smiled and passed the pill bottle to Yuan Yue.

However, everyone had a dumbfounded expression.

Yuan Yue also widened her beautiful eyes, looking at Su Lang in disbelief, his eyes were incredible!

"A Wudi-level spiritual emperor pill!?"

"Perfect quality Emperor Dan!? And there are ten!"

"My God, have my ears broken, have I heard hallucinations?"

"This kind of pill is more precious than Wuyu tea trees. Yuan Yue can trade some Wuyu tea trees for it!"

"..."

The emperors were shocked for a moment, and immediately looked at Su Lang, and stormy waves rose in their hearts.

"Humph!"

"Su Lang, what are you kidding?"

"You can get the perfect quality spirit emperor pill of Emperor Wu!?"

"This level of pill, let alone you, even the Emperor Wu Palace can't get it out!"

"I think you are just talking nonsense, the ghost knows what medicine is in your bottle!"

Emperor Ling Juewu stared at Su Lang with a look of disbelief and sarcasm.

Emperor Ling Juewu didn't visit Su Lang's site, he had never eaten Su Lang's emperor-class fruit cakes, and he had never seen Su Lang's exchange building.

Therefore, among all Wudi on the scene, he was the one who did not believe in Su Lang the least.

Therefore, Emperor Ling Juewu insisted that Su Lang falsified and deliberately exaggerated, and because he hated Su Lang in his heart, he couldn't help but question him.

At this moment.

Emperor Ling Juewu angered Su Lang.

The other Emperor Wu smiled noncommittal after hearing what he said.

After the initial shock, the Wudi who gradually calmed down believed that what Su Lang said was true.

After all, in their eyes, Su Lang was originally a super local tyrant.

Although it is shocking that people can take out eight emperor-level exercises for auction, and take out some extremely rare pill, it is also reasonable.

Besides, there is no need for Su Lang to lie!

That was why Ling Jue couldn't help it, so he fainted for a while and started to start Su Lang.

"Ha ha."

Su Lang glanced at Emperor Ling Juewu and opened the pill bottle with a smile.

Suddenly.

A strong pill fragrance filled with pure and strong Taoist rhyme.

[Chapter 1136: Make a deal with Yuan Yue](#)

"Hi, this breath... is really a mental pill!"

"Having a strong and pure Taoist rhyme, it is an emperor-level pill!"

"I have never taken these precious things!"

"..."

Emperor Wu, you are surprised and excited.

"This....."

Emperor Ling Juewu's face became stiff, and he immediately snorted, "It's an emperor-level pill, but if it's a perfect quality, it's too exaggerated!"

Even the immortal-level pill, there are few perfect quality, let alone the emperor-level pill!

In Canglan Continent, there is no alchemist who can refine the emperor grade pill of perfect quality, Su Lang, you must be lying. "

As soon as this remark came out, the emperors of Wu suddenly showed caring and mentally retarded eyes.

Su Lang dared to open the pill bottle, and was afraid to take out the pill for everyone to see?

really!

"Ha ha."

Su Lang continued to laugh without saying a word, and poured all ten pills from the pill bottle.

Suddenly.

Ten pills full of Taoist rhyme appeared in front of all Wudi, each one looked like the most beautiful orb in the world, giving people an unparalleled temptation!

All the emperors used their spiritual power to investigate.

Although they have never eaten a perfect quality emperor-level pill, they have the ability to identify!

Therefore, it can be seen at once that these ten pills are indeed of perfect quality!

"Oh my God, what a perfect pill!"

"Such a precious pill, my old king has lived for six million years, this is the first time I have seen you!"

"Friend Langdi, you are really rich. I am like a beggar when compared to you!"

"Brother Langdi, I wonder if you still have this kind of medicine, I want to buy some!"

"Yeah, yeah, Brother Langdi, let me sell some to us!"

"..."

After the emperors were amazed, they immediately proposed a purchase intention.

Emperor Ling Juewu was speechless, his mouth twitched, his face getting darker and darker.

"If you want to buy, of course I am willing to sell!"

"It's just that these ten pills are intended to be given to Taoist Yuan Yue, everyone, wait a moment."

With that said, Su Lang refilled the pill bottle in his hand, and looked at Yuan Yue with a smile, "I don't know what is going on with your friend?"

"I am willing to trade!"

Yuan Yue nodded heavily.

Compared with countless Wuyu tea trees, these spiritual medicinal herbs are currently more important to her.

"that would be great!"

Su Lang smiled and stuffed the pill bottle into Yuan Yue's arms.

"Thank you, Senior Langdi!"

Immediately, Yuan Yue saluted Su Lang very gratefully.

In Yuan Yue's view, it is better to say that Su Lang is looking after her for a deal instead of taking care of her in another way.

"Thanks to fellow Langdi Daoist!"

Zhu Lan and Zhu Xin were also very grateful to Su Lang and quickly thanked Su Lang.

The other Emperor Wu couldn't help swallowing saliva. Those were ten perfect-quality spiritual emperor-level pills...

"The three fellow Taoists are too polite."

Su Lang smiled and shook his head, "Father Yuan Yue, please give me a few innocent tea trees."

"No, no."

Yuan Yue shook her head heavily, "Senior, these pills are worth at least a thousand Wuyu tea trees!"

Talking.

Yuan Yue planned to dig one thousand from Wuyu Tea Forest to Su Lang.

"Don't don't don't."

Su Lang hurriedly stopped Yuan Yue, "Wuyu tea tree is of great value, and it is even more extraordinary to you. It is enough to give me one hundred."

Yuan Yue hesitated, but found that Su Lang looked resolute and could only dig out a hundred Wuyu tea trees, put them in a space ring, and hand them to Su Lang.

After Su Lang took the ring, Yuan Yue said gratefully: "Senior Langdi, these tea trees must be cultivated in a closed space with incense and willingness..."

"Thanks for your advice."

Su Lang smiled, threw the space ring into the storage space, and transplanted it into the different sky box when he returned.

"Brother Langdi!"

"It will be our turn to buy the Immortal Emperor Soul Pill!"

Yaojin Wudi said with a smile on his face, this guy has completely turned fighting against Su Lang's potential enemies.

Seeing this, the other emperors also yelled with excitement.

Even Emperor Da Jiao Qin Wu, the eldest sister who has always been steady, had his eyes lightened.

"Don't worry everyone!"

Su Lang smiled faintly, and then took out a bottle of pill, "I don't have much of this pill, and there are the last ten, which can be exchanged for any treasure of the same value..."

"I want ten!"

"Fuck off, there are only ten in total, you want them all!?"

"Ahem, ten is not enough, let's get the one with the higher price!"

"Hmm, one by one auction is ready!"

"..."

The emperors roared and started bidding for Su Lang's medicine, and the atmosphere was extremely warm.

The emperor Ling Juewu next to him looked at the cherished pill, and he wanted it too.

But he had completely offended Su Lang, unable to participate in the auction at all, and could only leave silently with a black face.

Su Lang glanced at Emperor Ling Juewu, and smiled in his heart: "It's so bleak, so bleak, it would be perfect if someone blows suona to you!"

[Chapter 1137: Auction Emperor Level Medicine](#)

For Ling Jue.

Su Lang already regarded him as a dead person.

Ling Jue has been jumping around in front of him many times, and he has already recorded a lot of grudges in his notebook.

Today, this boy is even talking again!

Although Su Lang didn't say a word, just laughed and didn't say a word, it made Ling Jue lose face.

But Su Lang still didn't plan to let him go.

After all, he already had the attack level of Rank Six Wudi at this time, and he could kill Emperor Ling Juewu with just one finger!

Since Emperor Ling Juewu can be resolved easily and happily, Su Lang will certainly not continue to be disgusting again.

of course.

Su Lang didn't plan to do it himself.

Instead, he planned to send a clone to kill him secretly.

In this way.

Su Lang, who was 'seriously wounded', had neither the strength to kill Emperor Ling Juewu, but also his alibi, he could keep everyone in the dark and get rid of all suspicions.

"Hehe."

"This feeling of being the black hand behind the scenes is not enough."

The corner of Su Lang's mouth was raised, and while his thoughts were moving, a treasure hunting flying flying glider followed behind Ling Juewu emperor secretly.

Although Emperor Ling Juewu was faster than the treasure hunting flying glider.

However, the treasure hunting flying flying glider has the ability to "soul soul", as long as the emperor Ling Juewu is locked, he will definitely find it!

After sending out the treasure hunt flying flying fly.

Su Lang's attention once again shifted to the ongoing 'auction'.

Although it was in the wilderness and didn't even have a seat, it was the strongest group of people in Canglan Continent who participated in this 'auction'.

The specifications of this auction are the best in the world.

"Don't grab this pill from me!"

"Why, I will give out 500,000 Hinayana sources!"

"I'm going, you guys didn't give me the face of Lao Wang, I remember!"

"Come on the side with no money, don't stop us from bidding for the pill!"

"What's wrong with no money? We still have materials!"

"..."

The emperors were talking buzzingly, with different expressions on their faces, some were very excited and excited, and some were full of regrets.

Regrettably, Emperor Wu naturally failed the bidding.

Because the last time Su Lang held the 'Emperor Level Cultivation Auction', it emptied most of their resources!

This time it was immediately stretched.

Not long.

All ten 'immortal emperor soul pills' have been auctioned off.

Each one is worth five to six hundred thousand Hinayana Xianyuan, which is almost all the working capital of a second-turn Wudi.

of course.

Most of what Su Lang gets is materials.

In addition to the materials, only one million Hinayana sources were obtained.

"Ugh!"

"Senior Langdi, we can't bid for them at all. Can we be merciful and sell us a few more?"

"Yeah, I was just ten thousand Hinayana Xianyuan..."

"..."

Emperor Wu who did not bid for the elixir turned bitter toward Su Lang.

For example, Red Lotus Emperor Ni Qianzhou looked at Su Lang so eagerly, extremely pitiful.

"This....."

"Immortal Soul Pill is gone."

Su Lang had a faint smile on his face, "However, I still have some ordinary emperor-level pills, which are also of perfect quality..."

"I want it!"

Before Su Lang could finish speaking, all Wudi shouted with glowing eyes.

"In that case."

"Then I will sell you some more pills."

Su Lang nodded, and then took out some synthetic emperor grade pills.

For example, the sacred healing medicine used to lure Xiao Lutian and Li Feilou in the past, the "Regeneration Emperor Pill", and the "Emperor Yuan Ninghai Pill" used to assist in cultivation...

Even Su Lang took out three emperor-level pills to treat 'infertility'!

As soon as this pill came out, it was immediately sought after by the emperors.

Except for Emperor Baiyue and Emperor Yuanyue Wu who had no interest, the other Wudi even Jiao Qin participated in the competition.

"Unexpectedly, Daoist Langdi still has this kind of pill, great!"

"I have always wanted to have an emperor, but unfortunately, I don't know how many women are born, but I didn't even give birth to a single hair. Now, with the elixir of Brother Langdi, I can also have an emperor. It's a child."

"You guy, how come you just think about having an emperor, isn't it good to have an emperor? A patriarch."

"Cut, you can control it! Huh! Senior Jiao Qin, don't you already have Emperor Jiao Di, why are you still robbing us?"

"What's so surprising, I don't want to have a second child?"

[Chapter 1138: What are you doing](#)

"..."

Seeing the emperors raising prices while talking about them, Su Lang's expression suddenly became strange.

"Preferring sons?"

"Want to have a second child?"

"Emperors Wu also have such a grounded side."

Su Lang smiled and shook his head, and then continued to watch everyone keep raising prices quickly.

All the pills are sold out.

Even the three pills for infertility treatment have been sold.

What surprised Su Lang was that the three emperor-level pill for infertility treatment actually captured 700,000 Theravada sources, which is higher than the immortal emperor soul pill!

"Lying down."

Su Lang felt a little regretful, "Unfortunately, I have to get more of this kind of medicine, but it is very troublesome."

Because this kind of pill was originally only at the Martial Emperor level, the amount needed to synthesize it into an emperor-level pill was too large, which would seriously take up the productivity of one-key alchemy.

So Su Lang dispelled the idea of using the one-key alchemy function to produce this kind of pill.

Only when one key refining pill is occasionally idle, will it refining a little, and when enough is saved, it can be synthesized into an emperor grade pill.

At this moment.

The emperors of all Wudi more or less bought the pill, so they were very satisfied.

Su Lang got a lot of materials and Xianyuan, and he was very happy.

"This time, thank you Langdi Daoist friend!"

Emperor Jiao Qinwu and others expressed their gratitude to Su Lang.

"Where and where."

"Hope my pills can really help you all."

Su Lang looked humble and said immediately, "I have not healed from my injury, so I went back first."

"Healing is important!"

"Friend Langdi, quickly go back to heal his injuries."

"Brother Langdi, I'll take you back!"

"..."

The emperors nodded one after another, and Ni Qianzhou even expressed his intention to **** Su Lang.

Su Lang did not refuse Ni Qianzhou either. After everyone dispersed, they went to the south together.

On the way.

"But I didn't get the pill that I wanted today?"

Su Lang glanced at Ni Qianzhou, smiling faintly.

"Aha."

Ni Qianzhou smiled and shook his head, "There are many pill that I want but I have not photographed, but I have photographed a Diyuan Ninghai Pill and I am very satisfied."

"Then you must **** me, what's the matter?"

Su Lang asked with a smile, "After all, I can return to the nest with a few breaths. There is no need to trouble you to **** me."

"It's about the death domain of the emperor."

Ni Qianzhou said, "I have already discussed with Emperor Guantianwu, the land of the Emperor's Death Realm will be handed over to Brother Langdi."

"Then thank you for your kindness."

"I will make this land prosperous."

Su Lang smiled brilliantly and took out two emperor-level pills and gave them to Ni Qianzhou, "By the way, you can take two of these three pills and give one to Guantian, which is my gratitude to you."

"what!?"

"How can we accept such a precious pill?"

Ni Qianzhou said, "Although the emperor's death domain has disappeared, it is still a piece of worthless land."

"Let you keep it."

Su Lang raised his eyebrows, "How can there be so many words?"

"Eh, all right!"

Ni Qianzhou accepted the pill with gratitude, and his posture was invisibly lowered by a point.

Seeing this scene, Su Lang was also a little emotional.

When Su Lang first met Ni Qianzhou, although Ni Qianzhou was very kind, he still had some arrogance.

Now this product has been convinced by Su Lang, faintly looking forward to Su Lang's horse.

"Well, after I went back, I used the Five Elements Heaven to include the emperor's death domain."

Su Lang smiled at Ni Qianzhou, "You go back first. Don't be reluctant to take the pill. Taking it as soon as possible and transforming it into a cultivation base is the truth."

"I understand!"

Ni Qianzhou smiled, then bid farewell to Su Lang and returned to the Red Lotus Clan alone.

After Su Lang entered the Five Elements Heaven, he didn't change the Five Elements Heaven for the first time. Instead, he stared at Emperor Ling Juewu through the treasure hunting flying flying.

At this moment.

Emperor Ling Juewu stopped halfway.

He unfolded his mental power and carefully explored the radius of a million miles.

The treasure hunting flying flying flying squatted on a tree, pretending to be an ordinary creature.

Emperor Ling Juewu didn't even notice the treasure hunt flying flying flying glider without spiritual power fluctuations.

"What is this guy doing?"

Su Lang raised his eyebrows and narrowed his eyes.

Immediately after.

I saw Emperor Ling Juewu release a clone from the universe of life.

This clone is not only the same appearance as Emperor Ling Juewu, but also the same aura.

[Chapter 1139: Ling Jue on the spider web](#)

However, Su Lang could tell at a glance that the clone only had the cultivation base of the emperor.

The reason why it was able to exude the breath of Rank 4 martial emperor rank was probably because of some disguise.

Immediately, Emperor Ling Juewu commanded the clone to fly forward.

Looking at the direction the clone flew, it was the nest of Emperor Ling Juewu.

"Let the clone pretend to return to the lair?"

Su Lang's expression changed, "Then what is Emperor Ling Juewu going to do? Why is he so sneaky?"

Perceiving that Emperor Ling Juewu seemed to be doing something shameful, Su Lang suddenly became interested.

After Emperor Ling Juewu and other clones flew away, they immediately opened a space channel and got in.

Su Lang had seen the scene behind him through the space channel.

So immediately dispatched a group of treasure hunting flying flying flying over.

"Ok!?"

"Why is there such a strange thing here?"

After Emperor Ling Juewu passed through the space channel, he immediately spotted the treasure hunt flying flying flying first.

But he didn't have much doubts, just a little surprised, so he just skipped it.

Immediately after.

Emperor Ling Juewu continued to fly forward, constantly scanning the surroundings in the process, appearing very alert.

The group of treasure hunting flying flying flying by Su Lang scattered directly and probed around.

Only one was far away, seemingly unintentionally monitoring Emperor Ling Juewu.

With the treasure hunt, flying flying gliders continue to spread.

Su Lang quickly saw the whole picture of this place.

This turned out to be a small broken continent suspended in the void, about the size of the land of a Protoss.

However, due to the incomplete protection of highway rules, some strange animals and plants have grown on this piece of land.

However, this piece of land is really barren, poorer than the barrenest place in Blue Star, and you can't even find a spiritual grass.

Also, the treasure hunt flying flying glider has no spiritual power.

If it were to be replaced by other spirit beasts, it might directly arouse the vigilance of Emperor Ling Juewu. .

Simultaneously.

From this fragment of the continent, one could see a planet shrouded in hazy white light in the distance.

A part of the planet is mutilated and emits red light.

Obviously, that planet was Canglan Star where Canglan Continent was located, and this fragment of the continent was not far from Canglan Continent.

"Emperor Ling Juewu came to this place, what on earth would he do?"

Su Lang frowned, and continued to monitor Ling Jue through the treasure hunting flying flying flying fly. quickly.

Emperor Ling Juewu stopped in a valley.

There is a tree in the valley with a spider web on it.

Immediately, with a light wave of Emperor Ling Juewu, a curled up black and red spider flew out and landed directly on the spider web.

"Ok!?"

"What is this going to do?"

Su Lang raised his brows, completely unable to see what Ling Jue was doing.

Su Lang couldn't see that spider was famous.

suddenly.

The black and red spider stretched out, and each of its eight long legs fell on a spider web.

At this moment, Starscream became full of spirituality.

It's like a bug with no spiritual wisdom is suddenly enlightened.

Immediately after.

Su Lang saw that spider's eyes condensed, and stared at the treasure hunting flying flying glider, his eyes filled with deep suspicion and vigilance.

That kind of gaze is something only intelligent creatures can have!

The Treasure Hunting Flying Flying Dagger looked at the spider with a bewildered look, twisted his **** and got into the ground.

"Ling Jue!"

Black Starscream turned his head to look at Ling Jue, and said, "There is a creature on this continent fragment, so you dare to contact me!"

"It's nothing more than a flying mouse without spiritual power."

"Maybe it came out of the ground, what's so strange?"

Emperor Ling Juewu frowned, although he felt uncomfortable, but he was unwilling to pull down and admit his mistake.

Su Lang, who looked at all of this through the treasure hunt flying flying, directly stared!

Spider web!

spider!

contact!

Su Lang was full of consternation: "Ling Jue, this guy, came here to chat online!?"

With deep surprise, Su Lang looked at the spider web and saw that the silk thread on it seemed to have penetrated the ground.

However, because the treasure hunting flying flying glider can only be detected by the naked eye, and cannot be detected with mental power, Su Lang can only see here.

At this time.

But when the black spider said: "I don't care what you think, if it's not safe, I won't say one more word, so be it."

The implication: There is an inner ghost, stop communication!

[Chapter 1140: Conversation of the inner ghost](#)

"and many more."

Emperor Ling Juewu hurriedly said, "Each contact requires a bosom spider. I don't have many of these things!"

Starscream was silent.

"You are really too suspicious."

Emperor Ling Juewu looked helpless, "Hurry up, time is limited."

"Ok."

"I hope I think too much."

Black Starscream hesitated for a moment, and said, "First, tell us about the internal situation of Canglan Continent."

Hear this.

Su Lang's expression suddenly changed: "For information on the Canglan Continent, is it possible that behind this spider are people from the Jingtian Continent, and Emperor Ling Juewu has become an inner ghost!"

The next moment.

Su Lang used special methods to print everything he saw and heard into the reflection stone.

Not only that.

He also immediately sent a message to Emperor Jiao Qin Wu

—Except for Emperor Ling Juewu and Emperor Wu who have never met, Su Lang has the contact information of Emperor Wu.

However, in this case, the remaining Wudi might also have inner ghosts.

Although the odds are very, very small, Su Lang had to guard.

Therefore, he only sent a message to Emperor Jiao Qin Wu of the Emperor Wu Palace.

The content of the message contained only one sentence: "Ling Jue is an inner ghost. He is contacting Jingtian Continent on a fragment of the continent. I am monitoring and recording his words and deeds!"

In an instant, Emperor Jiao Qin Wu replied: "Please continue to monitor, I will report to Brother Qingqiu."

Here.

Emperor Ling Juewu has slowly spoken: "In the Canglan Continent, the inheritance of the emperor's head and the inheritance of the emperor's body have been inherited, creating two emperors.

I don't know if there will be any changes after the collection of the six major inheritances of Emperor Wudi of Rank Nine.

In addition, the mysterious Wudi Su Lang who suddenly appeared that I told you last time, his performance was beyond imagination.

I originally thought that I didn't care about this person at all, but I didn't expect that he would defeat Zhou You, so that he had to be transformed into the Emperor of Xiang Huo Wu and became his subordinate. "

"The newly-emerged Emperor Wu, defeated Zhou You?"

Black Starscream groaned, "Then what did you do?"

Emperor Ling Juewu said: "Although this person has a mysterious identity, he has not been rejected by the world consciousness of the Canglan continent. It can be seen that he is indeed a person from the nearby mainland fragments.

Moreover, he also did a lot of things to actively integrate into the Wudi circle of Canglan Continent.

I have made troubles many times, constantly separating the relationship between Wudi and him.

Unexpectedly, every time I ate, he and the emperors became more and more hot!

The main reason was that this person was very wealthy, and he even took out eight original and perfect-quality emperor-level medicines and sold them to everyone.

Moreover, this person was very tough. In the first battle of Luo Youcheng, he could only fight with Zhou You inextricably at first, but suddenly he defeated him.

Later, the emperor's forbidden land became abnormal and was invaded by Emperor Wu of another world.

The Emperor Wu of the different world was a power of Rank 7, but Su Lang actually killed it at the expense of the planet of life!

Fortunately, he has become a sick cat and will not get better without hundreds of thousands of years. "

This statement came out.

Black Starscream was shocked: "This Su Lang is too fierce, he actually killed the Seventh Rank Martial Emperor!"

Moreover, this person dared to sacrifice the life universe, his determination is absolutely unimaginable!
Ling Jue, it is better for you to get rid of Su Lang earlier, and don't let him recover.

In addition, you said that the emperor's forbidden land was invaded by another world? what happened?
"

"The dark world invaded the world of the emperor."

"The location named Origin Devil Emperor exists, and the coordinates of Canglan Continent are anchored by a chess piece."

"The Canglan Continent faces the invasion of the Dark Sky World and the Mirror Sky Continent and is doomed to perish."

Emperor Ling Juewu's expression was a little gloomy.

If it hadn't been for the destiny of Canglan Continent, he would not have raised the thought of changing the door and put it into action.

"hiss!"

"Canglan Continent is actually being watched by other worlds?"

"Dark Sky World... Origin Devil Emperor, it sounds like a very advanced world, **** it, how could Canglan Continent get into such an existence!"

Starscream's tone was full of irritability.

Canglan Continent is being targeted by other worlds, which means that Jingtian Continent has competitors.

If the Dark Sky World was terrifying, then Jingtian Continent not far from the Canglan Continent might also become a target.

The intervention of a third party made the situation of the mainland war instantly convoluted.
