[Chapter 1141: Bare bosom spider](#)

"Are you bored?"

Emperor Ling Juewu smiled bitterly, "Na Su Lang also sacrificed a Martial Emperor-level clone, merged with the anchored Emperor World, and carried a Martial Emperor named Hu Sixi to the Mirror Heaven Continent."

"what!?"

"Then Su Lang actually has a Martial Emperor level clone, and he is willing to sacrifice!!"

"In addition, are they trying to cause trouble to the east? Let the dark world turn its attention to our Jingtian continent?"

Black Starscream was unbelievable, and every word of Emperor Ling Juewu shocked him.

"Su Lang's plan is a disaster."

Emperor Ling Juewu nodded and said, "Even if his clone cannot enter the Jingtian Continent, the closer to the Jingtian Continent, the higher the probability that the Dark Sky World will discover the Jingtian Continent."

"hateful."

"This person must be intercepted as soon as possible!"

Starscream said, "Do you know what he is doing?"

"I don't know."

Emperor Ling Juewu directly shook his head, "Only Emperor Jiao Qinwu knows his route."

"Humph!"

Black Starscream murmured, "Is that the stinky woman who refused our help? Ha ha!"

"In addition to the above information."

"Also, the Ziming Emperor's family migrated from Zimingzhou to the Southern Continent, which is considered to be completely accepted by the Canglan Continent."

"Finally, this time the emperor's inheritance and the emperor's inheritance were opened, Qingqiu did not appear, and Jiao Qin Wu always presided over it."

Emperor Ling Juewu continued, "So, Emperor Wu Qingqiu may still be healing."

"Ok."

Black Starscream nodded and said, "Qingqiu was badly injured in the last battle, it's not that easy to heal."

"That's all for my information, it's your turn to speak." Emperor Ling Juewu said.

"Not urgent."

Black Starscream smiled, "I have to see how far you have merged Jingtian Daogen."

"as you wish."

Emperor Ling Juewu nodded, then tore off his shirt and turned around.

I saw a spider web-like blue pattern on his back spine.

This cyan pattern has been deeply integrated into the spine of Emperor Ling Juewu, and the patterns penetrate deep into the body, like jet black veins.

From those cyan lines, there is an aura that is incompatible with the Canglan Continent.

It seems that the entire Canglan Continent is repelling it!

Su Lang, who was peeking in secret, understood very well that the role of Jingtian Daogen was to transform Emperor Ling Juewu into a native of Jingtian Continent.

The reason why Black Starscream wanted to check the progress of the integration was naturally to prevent Emperor Ling Juewu from falsely surrendering.

"All right?"

Emperor Ling Juewu frowned.

"Haha, it's okay!"

"When you completely merge with Jingtian Daogen, then you will be exactly the same as a native of Jingtian Continent."

Black Starscream let out a happy laugh, "I congratulate you first, friend Ling Jue."

"I hope you keep your promise and let me get fair treatment."

Emperor Ling Juewu put on his clothes and said, "Now, please tell me the next plan of Jingtian Continent, otherwise don't blame me for not having time to cooperate."

"Ok, Ok!"

"Originally, our Jingtian Continent planned to start war next year."

"But now the situation has changed, and the Canglan Continent is being targeted by the Dark Sky World. We must act first to be strong and start the war ahead of time!"

"The specific time, we need to negotiate before we can determine."

"And before that, I will give you a secret spell, you go to open the space treasure we left for you."

"There is a cross-world teleportation array blueprint and corresponding refining materials."

Black Starscream said, "You refine the cross-world teleportation array and place it in the lair. Next, I will give you coordinates to activate it."

"Ok."

Ling Jue nodded, "Just tell me."

"listen!"

Starscream's tone was very serious, and then he said a big deal.

Su Lang possesses 'good knowledge of language and writing' and fully understands the secret spell of Black Starscream.

That is a spell equivalent to a 'secret key'.

Immediately after.

Black Starscream said, "Contact me at the same time in three days." Then he lost his voice.

"Three days later?"

"That's probably the day when the war on the mainland begins."

Emperor Ling Juewu took a deep breath and plucked the black and red spider from the web.

However, the spider's eight legs were wiped out, leaving only a bald body.

"I lost my ability to communicate."

"The only remaining 'confidence' ability can only be retained for one day."

Emperor Ling Juewu tossed the bare spider in his hand and turned to leave.

but.

His eyes met with the hidden treasure hunting flying flying glider inadvertently.

"Ok?"

"It's still here?"

"Is it really watching me?"

Emperor Ling Juewu frowned, his gaze fell on the confident spider in his hand, "This confident spider's abilities can be used on it, I hope I am really suspicious!"

[Chapter 1142: Really when i was seriously injured](#)

Emperor Ling Juewu's thoughts just fell.

He smashed the confident spider to the treasure hunt flying flying fly.

Su Lang, who was watching Emperor Ling Juewu in the distance, changed his expression, but it was too late to take back the treasure hunt flying flying glider.

"I fork."

"Now I'm going to stun the snake."

Su Lang rolled his eyes gently.

From the name of the Zhixin Spider, Su Lang could also guess that it might have the ability to perceive the hearts of other creatures.

Now that I know the plans of Ling Jue and Jingtian Continent, it is possible to set up a trap against the Jingtian Continent with all the martial emperors of Canglan Continent.

Therefore, Su Lang had already withdrawn the idea of killing Emperor Ling Juewu, using it as a bait to lure Jingtian Continent into a trap.

Unexpectedly, Ling Jue suddenly used a bosom spider on an inconspicuous treasure hunt flying flying! really.

Emperor Ling Juewu, who used the confidant spider queen, thundered and his scalp numb!

"what!?"

"This flying squirrel is really watching me! Its owner turned out to be Su Lang's servant!?"

Emperor Ling Juewu was dumbfounded, his figure was unstable, and he staggered back a few steps.

"Do not!"

"This is not true!"

"These flying squirrels are just ordinary creatures with no spiritual power, how can they monitor me all the way!?"

"I opened the space channel, and one who is alert to the surroundings, how can they follow here!"

"What exactly did Su Lang's gossip use? It kept me in the dark!"

"Damn Su Lang, I'm exposed now, if I don't leave, I will definitely die!"

"Escape, I can only escape now, Su Lang child, when I return, it will be when you die!!"

Emperor Ling Juewu's eyes were about to split, he gritted his teeth and cursed a few words, then waved his hand to wipe out the creatures on the fragments of the entire continent.

Those treasure hunting flying flying gliders were not immune to Wudi level attacks, and they were all killed immediately.

however.

What made the souls of Emperor Ling Juewu go wild is that a large group of treasure hunting flying flying gliders appeared on the mainland debris.

The dense treasure hunting flying flying flying towards the emperor Ling Juewu surrounded, it was almost endless.

The continuous 'chik' sound was like an endless mockery of him.

"what!!"

"how is this possible?"

"Obviously there is no fluctuation, no breath, how can these ghosts appear here?"

Emperor Ling Juewu stood upside down all over his hair, exactly the same as the two Xiao Lutian who were frightened by Su Lang.

"Damn it!"

"I will definitely be back, Su Lang dog chopsticks, you wait for me!"

Emperor Ling Juewu waved his hand again and killed countless treasure hunting flying flying flying flying gliders, and immediately set off to fly away.

But at this moment.

"Flee!"

A faint voice came from behind Emperor Ling Juewu, making him shocked.

The figure of Emperor Ling Juewu's escape stopped instantly, and then suddenly turned around, staring at the incoming person with his eyes.

The visitor was naturally Su Lang!

Emperor Ling Juewu wanted to escape, and Su Lang would not let him go.

"Su Lang! I didn't expect you to stop me!"

Emperor Ling Juewu looked at Su Lang, his panic expression gradually subsided, and then turned into a thick sneer and cruelty.

"Ha ha."

"Why didn't I dare to stop you?"

Su Lang ticked the corner of his mouth and smiled faintly.

"huh huh huh huh!"

"Your planet of life collapsed, and your strength fell to the rank of Emperor Wudi. You even dared to stop me. There is really a way for heaven if you don't go, **** has no way to enter!"

Emperor Ling Juewu sneered again and again, "I wanted to smash your corpse for a long time, and today I will kill you, extract your soul, and impose the most cruel punishment!"

Finished talking.

Emperor Ling Juewu had already vented his unpleasant anger, and the next moment he raised his hand, his hand appeared to turn the imperial soldiers one by one.

That Emperor Soldier turned out to be a long-handled hammer!

It exudes terrifying power, tenacity and other rules, as if a hammer can blow down a planet.

Rumbling.

The terrifying air machine locked Su Lang, as if 10,000 Mount Tai were pressed on him, giving people a feeling of being unable to move.

"Go to hell!"

Emperor Ling Juewu waved his imperial soldiers and hit Su Lang with a hammer.

"Tsk tsk."

"Really when I am seriously injured?"

Su Lang smiled disdainfully, and even the Youtian Sword was too lazy to take it out. With a move, he slammed the hammer towards Emperor Hammer.

"The imperial soldier who resists me with physical strength? What a foolishness and ignorance!"

Emperor Ling Juewu seemed to have seen the scene where Su Lang was smashed into meatloaf, and could not help but sneer even more.

[Chapter 1143: The death of Emperor Ling Juewu](#)

But the next moment.

What made Emperor Ling Juewu dumbfounded happened.

"boom!!"

The imperial soldier's hammer hit Su Lang's fist fiercely, but it didn't cause any damage. Instead, it bounced up suddenly, and the long handle was bent so much that it almost broke!

"What the hell!?"

"This is not true!"

Emperor Ling Juewu opened his mouth wide and yelled wildly, his voice was almost hysterical and heart-piercing.

He is an emperor soldier!

Cooperating with his strongest strength, with one blow, he was almost invincible among the Four Ranked Wudi!

However, such a powerful blow was easily cracked by Su Lang, whose life planet collapsed and his cultivation base regressed, and was severely suppressed!

This kind of thing not only made Emperor Ling Juewu unexpected, it also made him unbelievable and horrified!

And at this moment.

Su Lang's figure appeared within three feet of Emperor Ling Juewu.

"It must be a secret method!"

"I can kill him, I can kill him!"

Emperor Ling Juewu couldn't accept the fact that he couldn't beat Su Lang, he kept screaming in his heart, and the hammer in his hand had fallen again.

"I can't cry without seeing the coffin."

Su Lang smiled coldly, and slammed his fist fiercely, hitting the imperial soldier's hammer.

The terrifying power of Rank Six Wudi level instantly defeated the power of the Emperor Bing Hammer, and bounced it back again.

This time Su Lang used more power.

Emperor Ling Juewu couldn't hold the emperor at all, and was hit in the head by the rebounding hammer.

"boom--!"

There was a sound of sore bones breaking, and looking at Emperor Ling Juewu, the entire head was squashed!

However, as Emperor Wu, he would not die from such injuries.

"Hoh!"

"The power of the world!"

Emperor Ling Juewu flew back thousands of feet with his imperial soldiers, and then directly opened the universe of life, releasing part of the power of the world!

Wow!

With the addition of the power of the world, Emperor Ling Juewu exudes a thick and ancient aura, like a horrible creature that has survived from the ancient times to the present.

And the breath on his body has reached the rank of Rank Six Wudi!

"Oh?"

Su Lang raised his eyebrows and said with a smile, "You dare to release the power of the world. It seems that you are really fighting for it."

"As long as it can kill you, what about the damage to the planet of life!?"

Emperor Ling Juewu burst into a strong hatred in his eyes, drank pheasant Hulu like a gambler, and stepped on Su Lang.

The reason why he was willing to use the power of the world to deal with Su Lang.

One was because he hated him too much, and the other was because he was too jealous of Su Lang and didn't want Su Lang to survive and grow into a more terrifying warrior.

The third is because Emperor Ling Juewu is betting.

He bet that Su Lang hadn't told everyone else what he had seen.

Then, as long as you kill Su Lang, you can solve all the problems!

Rumble!

As Emperor Ling Juewu stepped on it, even the space was torn apart, and the fragile mainland fragments tended to fall apart.

"Ha ha."

"I have always been the only one who stepped on others."

A hint of contempt was outlined at the corner of Su Lang's mouth, and he immediately got rid of the oppressive power of Emperor Ling Juewu.

With a move, he appeared on the top of Emperor Ling Juewu's head.

"Let you see what the real power of the world is!"

Su Lang stared condescendingly at Emperor Ling Juewu, and instantly released one of two millionths of the world's power that confuses the inner world.

Suddenly, a more terrifying aura spread from Su Lang.

"how is this possible!?"

"Hasn't his planet of life collapsed!?"

Emperor Ling Juewu stepped into the air, and was again suppressed by Su Lang's Qi machine. When he was horrified, a strong sense of despair arose.

At this moment, Emperor Ling Juewu regretted it.

If he didn't stop, but continued to flee, he might have got rid of Su Lang!

However, the world did not regret giving him medicine.

The next moment.

Su Lang stepped on the top of Emperor Ling Juewu's head!

boom--! !

Emperor Ling Juewu was stepped on the soles of his feet by Su Lang, tearing the space all the way, smashing the mainland fragments, and then completely shattering his bones.

During this process, the various hole cards prepared by Emperor Ling Juewu over the years did not have the chance to get his hands, and Su Lang was controlled to death all the way!

"Ding!"

"You get Intermediate Wudi Soul*1, Life Universe*1, Dao of Power*1, Jingtian Daogen*1, One-turn Emperor Soldier Broken Star Hammer*1, Hinayana Xianyuan*2883586, Supreme Immortal Jade*10254259... Emperor-level materials... Fairy-level materials..."

[Chapter 1144: Predatory universe of life](#)

The pleasant system reminder came, which made people feel very happy.

but.

Su Lang was a little surprised while delighted.

Because the spoils obtained by killing Emperor Ling Juewu and Kuang Erlu are different.

When Kuang Erlu was killed, he obtained the fragments of the Great Emperor's soul body, space guide, and rule fairy crystal.

But killing Emperor Ling Juewu didn't include these in the spoils, but replaced it with a complete universe of life.

Soon, Su Lang wanted to understand the key.

"Kuang Erlu's inner world, I am afraid that none of them has turned into a real universe of life."

"Yes, he only masters some power-related rules. It is incredible to open up the inner world of Wuxian. How can he create a universe of life?"

"Yeah... Kuang Er Luneng has the emperor rank combat power, relying entirely on the fragments of the emperor's soul body."

"Although a martial emperor like Kuang Erlu is not weak in combat power, it is essentially incomplete. It is not an orthodox way at all, it is an evil way."

Su Lang pondered silently, and then put his gaze into the storage space.

quickly.

Su Lang found something and took it out.

This thing is Jingtian Daogen!

Su Lang observed carefully and found that it was a very special existence, but he couldn't see why.

It can only be speculated that it may be refined from the native creatures of the Jingtian Continent.

Or maybe it was something that was made out of world consciousness by some high-end and mysterious means.

Since he couldn't understand it, Su Lang took it away and took out another thing.

It is like a transparent ball, the size of a basketball, and it contains a small planet full of cracks and almost collapsed. The sky of the planet is covered with a lot of dust.

If you look closely, you can see that there are a large number of creatures on the surface of the planet wailing, struggling, and dying in the world's natural disasters!

This is the universe of life from Emperor Ling Juewu!

It looks like a miniature world sand table!

"Unexpectedly, the universe of life plundered by the system would become like this."

Su Lang used his mental power to observe the universe of life in his hands inch by inch.

It was discovered that its boundary, that is, the transparent barrier, was being eroded by the power of the boundless universe.

"After Emperor Wu dies, the universe of life will gradually return to the boundless world, and this universe of life is no exception..."

Su Lang nodded, "To preserve it, a perfect world barrier must be created to prevent it from being swallowed by the boundless universe."

Thought of this.

Su Lang was a little bit troubled.

Although he mastered the almost condensed space rules, he still couldn't create a perfect world barrier.

The world barrier is the most perfect creation of the universe, almost impossible to man-made.

Only by using the incredible power of willingness can we create the barriers closest to the natural world.

But Su Lang didn't dare to provoke willingness now.

The tool man Zhou You opened the lock of the emperor's forbidden area yesterday, and was unable to create a world barrier for an independent universe of life.

"It seems that there are only two ways."

"One is to put the things inside into my inner world."

"The second is to put it into the universe of life in Qianyou, where there are world barriers that Qianyou has built."

Su Lang touched his chin and thought, and finally decided to include the most valuable part in his inner boundary.

The rest of the land and the living creatures were put into the universe of life, and the laboratory was made a little more high-end.

but.

This matter has to wait a while.

Because Emperor Jiao Qin Wu sent a message: "Friend Langdi Daoist, we have sent someone to secretly explore the Ling Jue Emperor clan, saying that it is Ling Jue Wu Emperor in retreat."

"That's Ling Jue's clone."

Su Lang replied, "Regardless, his clone is probably already dead, because I have already killed Ling Jue."

"what!?"

"You, friend Langdi, killed Emperor Ling Juewu!? You.....!?"

Emperor Jiao Qin Wu was obviously incredulous.

"I used the power of the world again..."

Su Lang replied, "What happened in detail, I'll explain it to you later. By the way, Qingqiu Emperor Wu thinks about it."

"Brother Qingqiu said, if it is true, it will not tolerate it."

Emperor Jiao Qin Wu replied, "Where are you, Fellow Langdi, can you give me one of the coordinates?"

"Of course, no problem."

Su Lang immediately sent his location coordinates to Emperor Jiao Qin Wu.

Immediately after.

He sent a avatar, and let it act like a severely wounded and dying person.

Who knew that this clone was so upright, he slashed himself half to death with a palm, and suddenly there were no flaws.

Soon.

After making arrangements, Su Lang returned to the quiet room of the White Jade Immortal Palace and manipulated the half-dead clone with a perfect lean.

[Chapter 1145: Eight Zhuan Wudi Qingqiu](#)

Didn't wait long.

One space channel appeared near the previous battlefield.

Jiao Qin and other Wu emperors appeared one after another, and there were still some fresh faces inside.

One of them was exuding a terrifying breath of the Eighth Rank Martial Emperor, and every move made people feel suffocated inadvertently.

It's just that this man Tsing Yi Qingguan made Su Lang couldn't help but complain: "What's wrong with this man, why do you like green so much..."

"Friend Langdi Dao!"

"How about you Brother Langdi? I heard that you used the power of the world again, my goodness, how long have you cultivated?"

"Friend Langdi, you are seriously injured, take the pill to heal your injuries!"

"Long Di Dao brother's life planet may remain intact last time. This time, I am afraid it has completely collapsed..."

"Where is Ling Jue? It's **** daring to betray the Canglan Continent!"

"Where, do you see it? Those pieces of meat should be Ling Jue's corpses!"

"Brother Su Lang, you were so fierce that you actually broke Ling Jue's body into pieces!"

"Brother Langdi Dao is a powerhouse who can kill the Seventh Rank Martial Emperor in seconds. Killing a Ling Jue is nothing, but... the price is a bit too high."

"..."

The emperors swarmed around Su Lang, exclaiming and warming up to Su Lang.

Ni Qianzhou, Si Yuxiao and other acquaintances were full of concerns. Seeing that Su Lang was seriously injured, they felt like they did not know what to do.

Su Lang reluctantly smiled and dealt with everyone, but he was thinking: "It seems that Jiao Qin has released the news.

Also, since Ling Jue is dead, sooner or later this incident will be leaked out, so it's better to make it public.

In addition, I have to explain this matter. These Wudi seem to completely believe me, and they must be more or less suspicious in their hearts.

Hmm...It is not that I am the gangster of Jingtian Continent, but that I am taking revenge in private, and then fabricated it all. "

At this time.

Emperor Jiao Qin Wu and five unfamiliar Emperor Wu came to Su Lang.

"Junior Su Lang, met Senior Qingqiu."

Su Langqiang supported his body, saluted the young man with a green crown in Tsing Yi, and bowed his hands to others, "I have seen fellow Taoists."

"The injury of Langdi Daoist friend is important, don't force it!"

Qingqiu Wudi looked very young, dressed like a young Taoist priest.

He is very kind and concerned about Su Lang.

Obviously, I have heard of Su Lang's many "sacrifices" a long time ago, so I have a good impression of Su Lang before they meet.

The other four unfamiliar Emperor Wu also approached Su Lang in return and expressed concern.

"In order to eliminate the invaders from another world, Brother Langdi didn't hesitate to destroy the planet of life. I really admire him!"

"Brother Langdi Dao is a role model for my generation, unlike that Ling Jue Zaxie who actually betrayed the Canglan Continent!"

"Hmph, the last time the mainland battle was a bit strange, it caused us to suffer a huge loss, and it really turned out to be an inner ghost! Fortunately, there are Daoists Langdi..."

"Senior Langdi is really amazing. He actually exposed Emperor Ling Juewu's conspiracy and eliminated a major disaster for the Canglan Continent. It really makes the younger generation admire!"

The four Wudi were Yihua, Qiongyun, Chongshuang, and Broken Sun.

The first three are from the Emperor Wu Palace, while Emperor Wu Di is from Xuandaotai.

These four people are all heirs of the Xuanhou lineage, plus Yuan Yue and Si Yuxiang, exactly six!

Su Lang, Emperor Wu of the Broken Sun, had actually met him, and had traded with him when he was a clone disguised as a mysterious businessman.

It's just that the emperor's forbidden area has not been opened yet, and he has never seen Xuanxuan, so Su Lang did not notice the broken sun.

Among the four Wudi, the broken Sun Wudi was the strongest, with the rank of Wudi Wudi level strength.

Yihua and Qiongyun are the third martial emperor, and Chongshuang is the second revolution. It should not be long before inheritance.

Su Lang naturally responded modestly to the compliments of the four.

Everyone chatted for a while, and finally shifted the topic to business.

"Friend Langdi Daoist."

Qingqiu Emperor Wu asked, "I wonder what happened to Emperor Ling Juewu?"

"I have a rift with Ling Jue, everyone knows it."

"After auctioning the pill in the Emperor's Death Realm today, I found that Ling Jue left alone."

"His look and behavior are a little unusual. I was afraid that he would be unfavorable to me, so I observed it privately and found out his secret."

"So, I continued to monitor him, and immediately sent a message to Emperor Jiao Qin Wu."

"But before everyone came, I was discovered by Ling Jue. He wanted to kill me. I could only resist desperately and finally won."

"The specific process, everyone will understand after reading this thing."

Su Lang took out the reflection stone and showed it to everyone.

The image stone was processed by Su Lang, and nine points were true and one point was fake. The forgery was the process of being discovered and fighting.

Soon, everyone was watching a movie and saw the dialogue between Emperor Ling Juewu and Black Starscream.

[Chapter 1146: Emperor Wu are very ashamed](#)

That sentence made all the emperors tremble.

If it really allows Emperor Ling Juewu to successfully set up a cross-world teleportation array.

When the time comes, the strong people of Canglan Continent will be on the front line to prepare for battle, but the rear is suddenly attacked, and the Canglan Continent, which is already at a disadvantage, may really be finished!

Looked at the reflection stone.

The suspicion of Su Lang's 'murder for private' in the hearts of the emperors almost disappeared.

Not bad.

It almost disappeared, not completely.

Because the reflection stone can be forged, it is possible to use illusion to simulate the person in the picture and then record it with the reflection stone.

Therefore, the reflection stone that Su Lang took out can only be regarded as a family statement.

But the emperor Ling Juewu had no evidence of his death. Whether the content of the reflection stone was true or false was still doubtful.

but.

Su Lang took out something again: "This is what I got from Emperor Ling Juewu."

Including three bosom spiders and a special space box.

This space box is divided into many small spaces, and each small space needs a corresponding secret spell to open.

Some small spaces have been opened.

"The Bosom Spider..."

"This is something unique to Jingtian Continent, very rare."

Qingqiu Emperor Wu picked up the bosom spider, nodded, put it down again, and then picked up the space box.

"Next."

Qingqiu Emperor Wu recites a series of secret spells.

This is exactly the secret curse that Black Starscream taught Ling Jue. It was recorded by Su Lang and Qingqiu Emperor Wu learned it.

After Qingqiu Emperor Wu chanted the secret spell, the space box suddenly opened a small space.

"Sure enough, it is the formation drawings and materials!"

"Moreover, many of them are specialty products of Jingtian Continent, and the formation method is also the style of the old formation mage in Jingtian Continent!"

Qingqiu Emperor Wu took out a lot of things from the small space, including a very complicated blueprint of the formation, and piles of materials for the formation.

The formation blueprint is the cross-world teleportation blueprint, and Su Lang learned it at a glance.

The huge amount of refining materials is staggering, and they are all emperor-level materials. at this time.

"Look, what is this!"

A Wudi brought a huge piece of land, which happened to be the valley above.

Everyone followed the sound and saw many cave passages at the bottom of the valley!

It is covered with dense spider webs, forming a regular pattern, which is very mysterious.

"It is a formation fabricated by the Zhixin Spider to communicate across the world!"

Qingqiu Emperor Wu swept across the pattern made up by the spider webs and nodded silently.

In the world.

People can use the jade card to communicate.

But the principle of transmitting the jade card is to transmit information through the ground vein.

Therefore, in the area of cross-world communications, the jade card of transmission is useless, and other methods must be found.

This confident spider is the unique means of communication across the world on the Continent.

"This is a good thing, I didn't find it before."

Su Lang smiled in his heart and learned the pattern after a glance.

It's just that the material needed for the formation is the silk of the bosom spider, and I don't know if it can be synthesized. It feels very hanging.

At this time, all the stolen goods of Emperor Ling Juewu were found.

The image of the image stone, the existence of the bosom spider, and the complete cross-world teleportation array.

All these put together, and the Emperor Ling Juewu has been nailed to the pillar of shame called a traitor.

And all the emperors were very ashamed because of their previous doubts about Su Lang...

"Oh, I actually had doubts about Fellow Langdi Daoist, what a damn!"

Fellow Langdi Daoist is a good Wudi who is willing to sacrifice life planet and Wudi-level clone to protect Canglan Continent! "

"Oh my God, what was I thinking before!"

That Ling Juewu emperor was so mean, and repeatedly targeted Brother Langdi Dao brother, even if Brother Langdi Dao brother really murdered people privately, there is nothing wrong with him! ! "

"Although I am not a cross-examination today, I am afraid that Brother Langdi is a bit chilly. I was really wrong. Why didn't I stand up and speak for Brother Dao earlier."

"Last time I said that I would accept Daoist Langdi thoroughly, but today I was suspicious. I really shouldn't. I will trust Daoist Langdi unconditionally in the future."

"..."

The Emperor Wu thought so, and their attitude towards Su Lang got better.

[Chapter 1147: The huge money that just arrived is gone](#)

at this time.

"Emperor Ling Juewu secretly colluded with Jingtian Continent, and he was more than deadly!"

Qingqiu Emperor Wu spoke, and he solemnly saluted Su Lang, "Thanks to Daoist Su Lang, otherwise this dragon will definitely bring disaster to Canglan Continent!"

"Not bad!"

"Fellow Langdi has done his job again this time!"

"Pity my Langdi Dao brother, he once again released the power of the world when his injury has not healed, and I don't know how long it will take to recover."

"..."

All Wudi also echoed each sentence of you and me.

There was a trace of shame on Su Lang's face: "Hey, if Emperor Ling Juewu had been left to live, he might be able to do it!

I blamed me for being useless. I was discovered by Ling Jue. Later, when I was desperate, I didn't dare to keep my hands. In the end I could only kill Ling Jue.

Ling Jue had to contact them in the Jingtian Continent three days later, and the news of Ling Jue's death would definitely be known to them.

In this way, they will surely start to stun the snake, and Jingtian Continent's plan will also change, and their every move becomes confusing again. "

After hearing this, the emperors couldn't help admiring Su Lang even more.

It was hurt to this extent, and he was still thinking about how to fight against Jingtian Continent. This kind of spirit is really great.

"Friend Langdi, don't blame yourself!"

Qingqiu Emperor Wu said with a smile on behalf of everyone, "The plan of Emperor Jingtian and Emperor Ling Juewu is to directly cross the front line and take our homeland.

This kind of strategy is not feasible for us, because we can't really let them appear in the mainland of Canglan.

After all, if the Wudi-level war is fought on the Canglan Continent, no matter what, we will suffer in the end. "

"I think so too!"

"Yes, yes, let them enter our homeland, we have already failed mostly, we must not let them succeed."

"Well, Daoist Langdi's destruction of Jingtian Continent and Emperor Ling Juewu's plan is already the best result, impeccable at all."

"..."

The Emperor Wu complimented again.

"Yes."

Su Lang smiled slightly, "I think too much."

"It is not advisable to stay here for long."

Qingqiu Emperor Wu said with a smile, "Ling Jue's subordinates also need to clean up as soon as possible. Let's go back to Canglan Continent."

The implication is to carve up the territory of Emperor Ling Juewu!

The Wudi had no objection to this.

Su Lang knew that as a great hero, it was impossible for him to suffer, so he nodded and agreed.

Next.

The emperors dispersed.

Su Lang returned to the Southern Continent under the **** of Emperor Honglian Wudi Ni Qianzhou.

The rest of Wudi will deal with the aftermath and make up for the shortcomings of Ling Juewu's matter, and must eliminate all possible hidden dangers.

At this moment.

Su Lang sat in the quiet room with a smile on his lips.

The perfect leaning has been relieved by him, and the seriously injured clone has also been taken back into the mysterious black space.

"Ling Jue, this annoying guy, finally got rid of."

Su Lang narrowed his eyes and took out a pile of treasures from the storage space.

Some of these things are the source of immortality and treasures obtained from the previous auction of the medicine, and some are the spoils obtained by killing Emperor Ling Juewu.

"Oh~ This is a great harvest!"

Su Lang looked at a large amount of materials in front of him, most of which were emperor grade.

Some of them are either high-level martial arts level or quasi-emperor level, and many are.

Su Lang chuckled, put the materials into the storage space, and his eyes fell on the pile of fairy sources.

The Hinayana Immortal Sources obtained through the auction of pills and beheading Ling Jue add up to more than 8 million.

Counting the rest of the previous upgrade system functions, it has reached more than 10 million!

"Beautiful."

Su Lang immediately issued an order, "The system will upgrade me the one-key empowerment function."

"Ding! Consumes 10 million subordinate fairy sources, the one-key empowerment function is upgraded to 13 levels, the current empowerment efficiency is increased to 100%, and the number of daily empowerments is increased to 13 times!"

"Tsk tsk."

"The huge sum of money I just got is gone, it's too difficult for me!"

Su Lang curled his lips, but he was still very excited.

In addition to one-key training and one-key martial arts, the levels of the other three upgradeable functions are also close to multiples of 5.

Su Lang has a hunch that by then, the eleventh new feature is likely to appear!

[Chapter 1148: Decompose the hammer imperial soldier](#)

"I really look forward to it."

A trace of excitement flashed in Su Lang's eyes.

Immediately afterwards, he brought a few things in front of him.

A space ring, a long-handled hammer, a miniature life universe, and an emperor-level soul.

"Wuyu tea tree can't be placed in the space ring for a long time, it is better to transplant it as soon as possible."

Su Lang opened the space ring and transplanted all the 100 Wuyu tea trees inside into the different sky box.

There is the incense aspiration power left by Emperor Xuanyu in the different sky box.

Originally, these incense would have been strong enough to absorb the seedling of the Wuyu tea tree for a long time.

But now there are a hundred more, which is not enough.

One by one Wuyu tea trees continuously absorbed the incense aspiration power, and soon absorbed most of it.

"It seems that this piece of incense willingness has to be open sourced."

Su Lang touched his chin and thought, "Now the creatures in the southern mainland have basically begun to worship me. If I wanted to, I would be able to absorb the power of incense.

In a moment, I will let Chu Xiaobei and the others build my statue, let people worship me and provide incense power! "

of course.

The role of these incense aspirations is also limited to receiving different sky boxes to supply Wuyu tea trees.

Su Lang would use the rules of willingness to shut them all out, resolutely not to absorb even a trace.

"Fortunately, I have mastered the rules of willingness and I have mastered it perfectly."

"If you become a Emperor Wu without the rules of willingness, facing the endless incense, I am afraid you will be forced to follow the path of Emperor Wu."

Thinking about this, Su Lang plunged his spiritual power into the different sky box, and suddenly saw one hundred and one Wuyu tea trees absorbing and transforming the incense power.

However, Emperor Kuang Erlu continued to absorb the positive incense aspiration power, and the resentment and hatred on his body had dissipated a lot.

"It seems that it won't take long for you to become the most thorough good person."

Su Lang's gaze fell on the soul of Emperor Ling Juewu again, hesitating to also throw it into the different sky box, transform it, and then use it as a server of the spiritual Internet.

"Well, forget it."

"The soul of Emperor Wu is not easy to come by. It is enough to have Kuang Erlu's soul of senior Emperor Wu."

"This soul of Emperor Wu is kept, and it will definitely come in handy when we evolve weapons in the future."

While thinking, Su Lang brought the second thing in front of him, the long-handled hammer imperial soldier.

"Come out to me, now, immediately!"

Su Lang's expression became cold, and his voice was like a cold wind blowing from the extreme cold abyss.

However, the long-handled hammer did not move, like a dead object.

But it is not a dead thing, but any weapon that has been promoted to the emperor rank is a living thing.

"Since you play dead."

"Then don't blame me for making you really die."

The corner of Su Lang's mouth was cruel, and with a thought, he locked the long-handled hammer with the one-key decomposition function.

Suddenly.

Hammer Emperor soldiers immediately felt a serious life and death crisis.

But it did not beg for mercy like Slaughter Sky Sword Sheath, but immediately rose into the air, trying to escape.

"Ha ha."

"Want to run away from me?"

Su Lang didn't even move his fingers. As soon as the space rules came out, the hammer emperor soldier took a circle in the air and returned to him.

There was a deep fear from the hammer emperor soldiers, and they struggled constantly, trying to break free from the shackles of Su Lang.

However, it was only an imperial army, and there was no Emperor Wu to urge it. It was wishful thinking to escape.

"Stop talking."

"Do you know what secrets about Emperor Ling Juewu."

Su Lang said lightly, "If it is of value to me, I can spare your life."

"Humph!"

"Ling Jue and I do not seek to be born in the same year, the same month and the same day, but to die in the same year, the same month and the same day!"

The voice of the spirit of the hammer finally came from the imperial hammer, it obviously hated Su Lang very much.

"Ok, as you wish."

Su Lang rolled his eyes and directly used one-key decomposition.

next moment.

A mysterious force is acting on the hammer emperor soldier.

This imperial soldier, which had been passed down for tens of thousands of years, became a large amount of material in an instant.

"Nine hundred and thirty-one emperor-level refining materials."

"One piece of the soul of the junior emperor, ten pieces of the soul of the quasi-emperor."

"15,000 kinds of Quasi-Emperor-level materials, and more Wuxian-level materials..."

Looking at the pile of materials obtained by decomposition, Su Lang showed a cheerful smile.

Su Lang was extremely happy when he received another copy of the Soul of Emperor Wu, and the rest of the materials were also very cherished.

[Chapter 1149: Lord of the world has fallen](#)

Take these decomposed treasures back into the storage space.

Su Lang's gaze fell on the miniature life universe.

Although this universe of life seems to be very small, in fact its interior is very large, about the same size as the universe of life in Qianyou.

The reason it looks so small is entirely because this sand table is actually the entrance to the universe of life.

"Next, let me kill the world!"

Su Lang clicked the corner of his mouth to open the entrance of Ling Jue's life universe, and he came directly!

The scene before him suddenly changed from a quiet room to a sky filled with heavy dust.

The entire universe of life has been shrouded in dust, and the regular simulation of the sun and the moon has long since disappeared.

Thunder and lightning of different colors flashed in the gray sky, very terrifying.

Su Lang's gaze directly passed through countless gray mists and fell onto the planet of life.

This life planet was about the same size as the one on Zhou You, which was three times the size of the southern continent, approaching the area of the Canglan continent.

It may be more intuitive to change a reference object-it is about the same size as the solar system!

but.

This is just an empty world.

Because Su Lang discovered that this life planet is actually hollow!

Although it is huge, it is actually just a big hollow ball.

The inside is a support column constructed by various means, and the surface is a layer of crust covered with rocky soil.

"I'll just say it."

"A Rank Four Martial Emperor can actually create a planet the size of the Canglan Continent. This is too exaggerated."

"It turns out that only the surface layer of this planet is made of soil and rocks, and the interior is empty."

"It's no wonder that this planet of life is so fragile, it will collapse if you release the power of the world a little bit..."

"However, the total volume of this layer of crust is also very amazing, and I don't know how many mainland debris Emperor Ling Juewu has scraped."

While thinking about it, Su Lang observed this hollow planet.

At this moment.

The entire hollow planet is covered with countless cracks, like a broken glass ball.

Countless fissures continue to expand, causing this life planet to gradually collapse.

The collapse of the planet of life has caused countless regular anomalies. This is a terrifying natural disaster.

There is a tall and stout creature on the surface.

They are full of muscular knots, powerful, look muscular and simple minded.

This is a wise creature brought up by Emperor Ling Juewu, named 'Liqi Clan'.

But at this time they are wailing, struggling, and dying.

Seventy percent of the Liqi race on the entire planet of life has died, and the rest are constantly extinct.

"It's miserable."

"The death of the 'Creator', the world will also perish with it. This is really the cruelest dark forest law."

As soon as Su Lang moved, he landed in the air near the ground, and immediately waved his hand, and the regular anomaly on one of the broken continents suddenly dissipated.

This broken continent is the most prosperous area on this life planet, gathering more than half of the Liqi tribe.

"The Lord of the World has appeared!"

"Great, we are saved, the Lord of the World is here!"

"Great Lord of the world, save us!"

"..."

The Liqi clan with knotted muscles kept shouting and screaming, very excited.

However, they didn't know that the person who came was not the Lord of the World, but Su Lang who killed them!

"The Lord of the World has fallen!"

"I am Emperor Lang, here to save you."

Su Lang looked down at the ant-like Liqi Clan, and his voice spread throughout the broken continent.

Those excited Liqi tribes suddenly thundered, their bodies stiff, and their faces were full of incredible expressions.

They can hardly accept the fact that the Lord of the World has fallen.

In their view, the Lord of the World is immortal and eternal.

However, the destruction of the world is the best evidence. Only the fall of the Lord of the world can cause the destruction of the world!

then.

The Liqi clan who recovered one by one burst into tears of sadness and despair.

"dont be sad."

"I will save you. As for the future life or death, it all depends on your own good fortune."

Su Lang is like an ancient **** that has existed since ancient times, floating above the heads of countless Liqi tribes.

[Chapter 1150: Try Mingguang Wanjie](#)

Immediately after.

"Mingguang Wanjie!"

Su Lang stretched out his right hand and waved lightly.

Suddenly, he seemed to turn into a sun, radiating endless gentle light and heat.

All the dust has been purified, all the obscurity has disappeared, just like a clear sunny day after a storm, everything has become clear.

The Liqi tribes who were illuminated by the bright light of the Myriad Worlds stopped crying.

They feel a warm force seep into their bodies, heal their injuries, drive away their pain, and soothe their souls.

Everything seems to have changed back to before the destruction of the world, peaceful and happy.

The sense of happiness is full of the hearts of all the Liqi races. They worship Su Lang and thank the great Langdi god.

"Tsk tusk, this Mingguang Ten Thousand Realms is really terrifying."

"Any creatures who are irradiated will worship me as a **** and worship."

"My position in the hearts of Liqi Clan creatures has increased countless times in an instant."

"After they have been irradiated by the Mingguang World for longer, I am afraid that my position in their hearts will directly surpass the Lord of the World Ling Jue!"

Su Lang couldn't help but sigh as he looked at the Liqi Clan who kept worshipping on the earth.

He actually wanted to try the power of 'Devil Devil's Abyss', but he gave up this idea considering it was too cruel.

"I will take you out of here to a new world."

Su Lang said lightly, and immediately waved his hand, a strong but gentle wind swept all the Liqi tribes and carried them to the sky.

Outside, in the quiet room.

Under Su Lang's arrangement, a avatar took the small space ball of the Zhouyou Life Universe and opened the entrance.

Then use space rules to connect the entrances of the two life universes together to form a channel.

Ling Jue life in the universe.

Su Lang encumbered countless Liqi tribes, and brought them into the Zhouyou Life Universe.

"Lord."

Zhou You appeared in front of Su Lang, behaving very humble.

It seems that he has become more and more integrated into the role of servant.

"I killed Emperor Ling Juewu."

Su Lang said lightly, "These Liqi clan creatures migrated from his life universe, you can arrange it."

Hearing this, Zhou You suddenly felt horrified.

He hadn't seen the scene where Su Lang killed Kuang Erlu in seconds, and he didn't know that Su Lang's strength was already different.

Therefore, Su Lang killed the very powerful Ling Jue in Zhou You's eyes, how could Zhou You calm down?

Fortunately, Zhou You also knew that Su Lang's methods were unfathomable, so he quickly accepted the matter.

"Yes, I will arrange it!"

"It's just that my world is dominated by Dark Avenue, and these Liqi races may not be able to adapt."

Zhou You hesitated and said, "If they die because of inconsistent water and soil..."

"I won't blame you."

"These Nicholas, I will use them for an experiment."

"If they succeed, the probability of their survival will become very high."

"You wait here for a while, there are still many Liqi tribes to migrate over there."

Su Lang smiled slightly, "By the way, I will disperse the life planets that will be ruined, and I will put many lands in this life universe."

"Really!?"

"That's great!"

When Zhou You heard the news, he was suddenly excited.

Emperor Wu's life planet is a creation that has been infused with all his life's hard work.

One Emperor Wu obtains another Emperor Wu's life planet, which is equivalent to directly saving tens of thousands of years of hard cultivation.

"You can prepare first."

"See where you can put that huge amount of land."

Su Lang clicked the corner of his mouth and turned to Ling Jue Life Universe.

Next.

It took a while.

Su Lang assimilated all the Liqi tribes with the bright light of the Ten Thousand Realms, and then migrated them into the Qiyou universe.

Not only the Liqi family, but most of the rest of the animals and plants have migrated.

At this time.

There is basically no life in this fragmented planet of life.

"Let's see if there is any land suitable for me."

Su Lang stepped forward in the sky, his mental power constantly scanning the broken earth.

Soon, he discovered many different lands.

These lands contain extremely rich rules, in addition to the five elements of wood, water, fire, earth, wind, thunder, poison, etc.

But most of them are rock mountains with strong gravitation, which can exercise the most basic physical strength of human beings.

These special lands, placed in the Chinese mythology system, are treasure lands suitable for the cultivation of different monks, and they are the best choice for the founding of the school.
