[Chapter 1161: The end of the Ling Jue clan](#)

Su Lang was shocked when he said this.

Unexpectedly, Qingqiu Emperor Wu's eyes were so harsh that he could see his spiritual realm after burning his soul.

"Aha."

"It's nothing serious."

"I still have a lot of elixirs, as well as the treasures of the masters and treasures given by fellow daoists, and they will recover soon."

With a strong expression on Su Lang, he asked Qingqiu Emperor Wu to give me some good things.

"The battle of the mainland is about to begin, you have to get better as soon as possible."

"I can't do anything about mental injuries, but I can help one or two on the life planet of Fellow Langdi."

Qingqiu Emperor Wu spoke and handed a space ring to Su Lang, "This is my personal gift to Langdi Daoist friend."

"Oh, really gave something!"

Su Lang happily caught the ring, "Thank you, Senior Qingqiu for the gift."

Talking.

Su Lang's mental power looked into the ring, and he suddenly saw a large number of treasures with various attributes, adding up to a hundred yuan!

I have to say that this one hundred yuan is really a big deal!

At the beginning, other Emperor Wu voluntarily compensated for Su Lang's treasure land, only one or two yuan.

Well, worthy of being the Lord of Wudi Palace, grand!

"It's all said, don't be too polite."

Qingqiu Emperor Wu smiled, and then said, "In fact, this time, there are two things, one is about the territory of Emperor Ling Juewu, and the other is about the Ziming Emperor."

"That's it."

Su Lang nodded and waited for Qingqiu to speak.

"Ling Jue betrayed the Canglan Continent, he was guilty of death."

"Yesterday we immediately sorted out Emperor Ling Juewu's clan and found that the clone of Emperor Ling Juewu was indeed dead."

"Except for this, the others are alive and well, but we haven't got any useful information from them."

"Emperor Ling Juewu's plans have not been disclosed to anyone, so no one will take his class and continue to contact Jingtian Continent."

Qingqiu Emperor Wu spoke slowly, "Now, all the powerhouses above the immortal level under Emperor Ling Juewu have been placed under house arrest by Emperor Wudi, and all the other tribesmen have been relocated to Zimingzhou."

"Zi Mingzhou?"

Su Lang raised his eyebrows, "That's a bit ruthless."

Zi Mingzhou is an extremely barren prison.

Si Yu laughed that they had suffered a lot there.

It seems that if Emperor Ling Juewu's clan did not build much credit, they would be imprisoned in Zimingzhou forever.

"It can't be ruthless!"

"For the betrayal of the Canglan Continent, we must have zero tolerance!"

Qingqiu Emperor Wu smiled bitterly, "Otherwise, the Canglan Continent is captured, and it is not just a tribe that suffers."

"Yes."

Su Lang nodded, "For the sake of the overall situation, we must kill the chickens to prevent anyone from falling into the footsteps of Emperor Ling Juewu."

Qingqiu Emperor Wu continued: "Now we have confiscated most of the wealth of the Ling Jue clan, and the land of the Ling Jue clan has also been vacated..."

Speaking of this, Qingqiu Emperor Wu paused, with a trace of apology on his face: "It is reasonable to say that the land is to be divided, but the land of the family seems to be very large, but in fact there are not many..."

The implication is obvious, just want to see if Su Lang is willing to give up the part that belongs to him.

"Ling Jue Emperor Clan's land?"

"My southern continent will eventually develop, and I also own the land of the Luoyou Emperor."

Su Lang smiled and nodded, "Ling Jue Emperor Clan's land, I will let it out, just give me equivalent compensation."

To him, the land of Emperor Ling Jue was actually useless.

What's more, that piece of land has to be divided up. Even if Su Lang occupies important credit, he can get most of it, but it is really useless to get it.

A Southern Continent is enough for Su Lang to be busy, and he has never contacted Su Lang of Youdi Clan.

Being able to exchange the land of the Ling Jue clan for equivalent treasures is definitely the best choice now.

Moreover.

Su Lang made up his mind to unify the Canglan Continent and occupy all the land. Now it doesn't matter who allocated the land of Emperor Ling Jue's clan!

Therefore, Su Lang very simply agreed to Qingqiu Emperor Wu.

"That's great."

"After I go back, I will call them to discuss compensation."

"Friend Langdi, please rest assured, I will definitely not let you suffer!"

Qingqiu Emperor Wu was surprised, obviously he did not expect Su Lang to agree so simply.

[Chapter 1162: Canglan Daogen!](#)

"I believe in Senior Qingqiu."

Su Lang smiled faintly, "By the way, I wonder if Senior is looking for the Zi Ming Emperor Clan for anything?"

Could it be that Emperor Wu of Qingqiu was dissatisfied with the relocation of Emperor Ziming to the southern continent?

However, he personally agreed to this matter.

Emperor Wu Tang, Emperor Wu, the palace lord of Emperor Wu, can't do anything to lose his words and get fat.

Next.

Qingqiu Emperor Wu's words made Su Lang dispel the thoughts in his mind.

"We completely agree with the Zi Ming Emperor Clan."

Qingqiu Emperor Wu replied with a smile: "But it is still the last step before the Ziming Emperor Clan can truly become the natives of the Canglan Continent. They can break the boat and fight with us.

"The final step to identify with the Zi Ming Emperor?"

"Let the Ziming Emperor Clan become the natives of Canglan Continent?"

Su Lang's expression moved, and he asked, "Could it be that Senior Qingqiu holds a treasure similar to 'Mirror Heaven Daogen'?"

Jing Tian Daogen was mentioned in the conversation between Black Starscream and Emperor Ling Juewu.

Su Lang also got it as a trophy through "Perfect Plunder"!

Hear this.

Qingqiu Emperor Wu nodded immediately and smiled: "Yes! Jingtian Continent has Jingtian Daogen, and Canglan Continent also has Canglan Daogen!"

My plan is to let Si Yuxiao integrate into Canglan Daogen and become a native of Canglan Continent.

Si Yuxiang has become the successor of Emperor Wudi of Rank Nine, but in order to avoid the Ziming Emperor clan betting at both ends, I have to make Si Yuxiao more reassuring.

Although everyone understood the intentions of the Ziming Emperor Clan, it was related to the survival of the entire Canglan Continent, and we had to be more cautious.

What's more, this is not only a bad thing for Si Yuxiao and the entire Ziming emperor clan, but a great thing.

After all, their Zi Ming emperor clan had long wanted to take root in Canglan Continent. "

"Sure enough!"

Su Lang nodded, and immediately asked, "I don't know what this Canglan Daogen is and how to get it? This kind of treasure must be rare!"

"It's rare!"

"And it's not uncommon."

Qingqiu Emperor Wu smiled, "Because it came from the hands of the Great Emperor!"

This statement came out.

Su Lang was suddenly surprised.

Great Emperor level, that is a figure above Emperor Wu level!

He had never heard of an emperor-level figure from the Canglan Continent.

Hmm...maybe it did appear before, but it has become a secret. Only the ancient organization like Wudi Palace retains relevant information.

"Canglan Daogen comes from the hands of the Great Emperor..."

Su Lang pondered, "Senior Qingqiu, can you tell which senior did it come from? How did you get it?"

"The predecessor's name is "Die Gu"."

"He was the ruler of the era 60 million years ago."

"It is also the only emperor recorded in the secret history of Canglan Continent."

"He was promoted to the realm of the great emperor through the way of Hedao Canglan Continent."

"Canglan Daogen is the treasure condensed with fragments of world consciousness after the Great Emperor Duangu joined the Dao."

"There are not many Canglan Daogens, and even now, there are only a few of them."

As Qingqiu Emperor Wu spoke, he took out a small transparent bottle and showed it to Su Lang.

Inside the bottle is a bunch of light blue objects that look like an unconscious strange spirit.

Su Lang took a look with his 'treasure recognition' ability and found that it was Canglan Daogen.

The appearance of Canglan Daogen is somewhat different from that of Jingtian Daogen. The latter is blue and looks like the same algae.

But Su Lang had no interest in these two kinds of world Daogen at this time.

What he is more interested in is "Hedao World"!

"Dare to ask Senior Qingqiu."

Su Lang asked seriously, "What is Hedao?"

"Harmony is the way to merge with the world, to be one with the world."

"You also know that Emperor Wu's path is to master the rules, cultivate a perfect universe of life, and finally accept the power of the world fed back by the universe of life, so as to break through to the emperor level."

"However, the world is incomplete. Normally, after the Emperor Wu has cultivated to the realm of Emperor Wudi of the Ninth Revolution, the number of Dao he mastered is still not many."

"Actually, even if the world is not incomplete, there are not many Wudi who can comprehend enough power of the great power."

"There are too few types of Dao power, the weaker the universe of life, and the power of the world that feeds back is not enough, and the quality is not enough, and Emperor Wu will not be able to break through the Great Emperor."

"In this case, there are three ways to break through to the emperor level."

[Chapter 1163: Hedao world!](#)

Emperor Qingqiu paused and continued:

"The first type is the power of death. Under normal circumstances, it will not succeed until old age.

The second is to follow the road of Emperor Wu of Incense, and then continue to study the road of eternal life.

But in many cases, he even died faster than Emperor Wu who took the first path, because the side effects of incense willingness were really terrifying. "

Speaking of which.

Su Lang has already understood that the third way to break through the Great Emperor is to be in harmony with the world!

So, what is the world of Hedao?

"There are three thresholds for Hedao World."

"One is to reach at least the rank of Emperor Wudi of Rank Nine."

"The second must be the intelligent creatures born and bred in the world."

"Third, we must make a very, very significant contribution to the current world, possess incalculable merits, and be recognized by the world consciousness."

Qingqiu Emperor Wu continued: "The world consciousness controls all the avenues in the world,

Once Emperor Wu is in complete harmony, he can immediately grasp all the power of the Dao and become the real master of the world!

That kind of realm can be called the pinnacle of the great emperor level, and above it is the supreme emperor level! "

"what!?"

Su Lang raised his eyebrows, "After a thorough harmony, he can skip the long training process and directly become the emperor's pinnacle powerhouse!?"

"Not bad!"

"Once you are in harmony, you will be the peak of the Great Emperor!"

Qingqiu Emperor Wu's eyes flickered, "Unfortunately, the great emperor after he Dao couldn't maintain his subjective consciousness for a long time."

"Can't maintain subjective consciousness for a long time?"

Su Lang was stunned when he heard the words, "Yes, the world consciousness is the consciousness of sentient beings, and it is also another special kind of incense and aspirational creatures.

Emperor Wu's harmony naturally provoked the incense aspiration, but it was the most terrifying incense aspiration!

Therefore, the Wudi who is in harmony will be corroded, assimilated by the world consciousness, and eventually become a part of the world consciousness completely, without a trace of subjective consciousness, which is no different from falling! "

Su Lang understood.

The emperor level promoted by Hedao, although it can become the peak power of the emperor, is equivalent to directly crossing a great realm.

However, it can only be awesome for a short time.

If it had to be forced, I am afraid that no Emperor Wu would choose this path.

of course.

Su Lang is still happy to gain more knowledge about the world of Hedao.

"Senior Qingqiu."

Su Lang smiled and asked: "I don't know what the specific method of the world of harmony is."

"I don't understand too much."

"I just know that, first of all, we must use the worship of countless creatures to inspire the world and touch the consciousness of the world, which may involve a huge incense and aspiration energy."

"Followingly, blend into the world consciousness with the soul and into the world with the body."

Qingqiu Emperor Wu said, "The body blends into the heaven and the earth, and naturally includes the life universe. That is to say, the life planet that Emperor Wu has nurtured for countless years must also blend into the current world."

This statement came out.

Su Lang suddenly felt a little stunned.

He suddenly understood why the Canglan Continent was so huge, so huge that it was an exaggeration of a solar system!

The reason is probably that in countless years, a large number of Emperor Wu have joined the world and integrated the life planets they nurtured into the Canglan Continent.

After all, Emperor Duangu was only a recorded emperor in the secret history, and it did not mean that he was the only emperor on the Canglan Continent in the long river of time.

And the years of Canglan Continent should be older than Blue Star.

Because the Canglan Continent is very likely to be contemporary with the Infinite Realm.

The latter is transformed by the core fragments of the Boundless World, which was formed by a huge change in the Boundless Universe more than four billion years ago.

Even if the age of the Canglan Continent is calculated based on 4.5 billion years, there should be dozens of emperor ranks in history!

If these great emperor ranks all choose Hedao.

Then, dozens of great emperor-level life universes have been integrated into the Canglan Continent.

Coupled with the fact that the Canglan Continent itself is constantly capturing celestial bodies with powerful gravity, it has formed such a huge volume now.

[Chapter 1164: Fight to protect the world](#)

"This is how the world grows."

"The creatures that live in the world, while surpassing the world and strengthening themselves, are also protecting the world and finally even integrating into the world."

"There is a close relationship between creatures and the world."

Su Lang raised his head and looked at the Five Elements Heaven, he couldn't help but smile, he was also feeding back the world.

at this time.

"Ugh."

Qingqiu Emperor Wu sighed: "Although he said that he Dao has fatal shortcomings, if I can, I still hope that I can be Dao."

Anyway, it's all death. If the world is united with the world, it will be able to sweep many surrounding continents and keep the Canglan Continent safe for many years.

Besides, being one with the world, even though there is no subjective consciousness, is it not another kind of immortality?

It's a pity that my merits to Canglan Continent are limited, and my own cultivation level can't reach the pass line, and it's impossible to unite. "

"Senior Qingqiu's words are bad."

"Senior guarded the Canglan Continent for nearly tens of thousands of years after Master Xuanyu, and repelled an unknown number of invaders. How can it be said that the merits are not enough?"

Su Lang smiled and said with relief, "As for the cultivation base, I believe that in the years to come, Senior Qingqiu will be promoted to Emperor Wudi of Rank Nine."

"Haha."

"I don't know my situation yet."

Emperor Qingqiu smiled and shook his head, with a trace of loneliness in his eyes, "Seriously, I won't be able to live long..."

Su Lang couldn't help being silent when he heard this.

But Qingqiu Emperor Wu smiled brilliantly: "It's also because I haven't been alive for long. This time the mainland battle, Jingtian Continent is miserable!!"

In that brilliant smile, implied the meaning of death and the great spirit of guarding the world.

Su Lang couldn't help but his expression moved.

Although Qingqiu Emperor Wu's cultivation is not as good as Emperor Xuanyu Wu, his spirit is not inferior to Emperor Xuanyu Wu.

And on the Canglan Continent, there are people like Qingqiu Wudi, I don't know how many!

Except for a few scum.

The vast majority of Canglan Continent warriors will desperately protect their home planet and their hometown.

"Fight to protect the world!"

Su Lang took a long breath and smiled brightly.

"well said!"

"Fight to protect the world!"

Qingqiu Emperor Wu nodded his head heavily, and shook his fist.

"It takes everyone to work together to protect the world."

Su Lang nodded and shook his fist. "Let's go find Si Yu and laugh. He will definitely be happy to integrate Canglan Daogen."

"Okay! Let's go!"

Emperor Qingqiu Wudi nodded again, then speeded up and flew forward.

"Obviously it is a very serious matter, why do I still smell a little bit of the breath of Secondary Two?"

Su Lang touched his chin, while thinking, he followed Qingqiu Emperor Wu to the new site of the Ziming Emperor.

at the same time.

Seeing Emperor Wudi Qingqiu with Qingyi and Qingguan beside him, Su Lang suddenly had an idea

—Would you like to give him a few times of 'cultivation base indoctrination', so that he can reach the realm of the Ninth Rank Martial Emperor, and then he will be in harmony?

of course.

Su Lang just thought about it.

In a short period of time, his cultivation base was not even enough to open up ten inner realms.

Moreover, for an eighth-turn martial emperor to break through to a nine-turn martial emperor, the amount of cultivation needed to be paid is hard to estimate.

"However, this can also be used as a backup plan."

"Hmm...it's too late for this plan to deal with the Mirror Sky Continent, but it can prevent the Dark Sky World."

"I only hope that the Origin Devil Emperor will not discover too early that the 'Zhetian Continent' and the 'Ruthless Heavenly Emperor' are fake..."

Thinking about this, Su Lang and Qingqiu Wudi came to the new territory of the Ziming Emperor.

"Friend Langdi Dao!"

"Friend Qingqiu!"

Si Yuxiao had already been secretly notified by Su Lang, so he greeted him from a distance.

"Friends laughing, how are you doing?" Su Lang laughed.

"I'm so good!"

"Thanks so much to fellow Langdi Daoist."

Si Yu smiled, his eyes fell on Qingqiu Emperor Wu.

"Friend Si Yu, long time no see!"

Qingqiu Emperor Wu smiled and nodded, with a trace of emotion of goodbye in his eyes.

As early as when Si Yuxiao wandered to Canglan Continent with Ziming Emperor Clan, Qingqiu Wudi knew him.

At that time, the two people's cultivation bases were similar, but Si Yuxiao was very young, and Qingqiu Wudi was ashamed of his talent.

However, Si Yuxiao has been trapped in the ghost place of Zimingzhou for thousands of years, and his cultivation has fallen a lot.

[Chapter 1165: Aoqiu see Siyu](#)

"Yeah, long time no see!"

Si Yu laughed and nodded, "I was able to be taken over by the Canglan Continent at the time when my Zi Ming emperor clan was accepted by Daoist Qingqiu for the support.

"It's mainly because of Xuanhuo's manpower to reject the crowd."

Qingqiu Emperor Wu smiled, "I just stood by and shouted, and I didn't help much."

"You can't say that."

Si Yu smiled and said, "Oh, no matter what, I will always remember the kindness of sending charcoal to Daoist Qingqiu in my heart."

"Don't mention those old things."

Qingqiu Emperor Wu shook his head, and immediately smiled happily, "I don't want to sell anything, I'll talk straight to the point. Today, I came here to visit Daoist Si Yu. This is what I sent here."

Talking.

Qingqiu Emperor Wu handed the bottle containing Canglan Daogen to Si Yuxiao.

"This is... Daogen! Canglan Daogen!"

Si Yu laughed and caught the bottle, with surprise, surprise and memory on his face.

As early as many years ago, he sought this thing from Wudi Palace, but Wudi Palace did not respond.

"At the beginning, the Emperor Wu Palace followed Master Xuanhou's instructions."

"The Ziming Emperor Clan is not a thing in the pool, it will definitely grow and develop."

"In order to prevent Ziming Emperor Dove from occupying the magpie's nest, Canglan Daogen must not be handed over to fellow Taoists at will."

"So many years have passed now, and only after years of tempering, the Zi Ming emperor clan has almost completely become a native of the Canglan Continent."

"Emperor Si Yuxiang Wu of the Ziming Emperor has sacrificed himself and inherited the inheritance of the emperor."

"For emotion and reason, this thing is too late..."

Qingqiu Emperor Wu smiled deeply at Si Yu, "This is Qingqiu's fault, please forgive me."

"No later, no later!"

Si Yuxiao quickly helped Qingqiu Emperor Wu: "You are right, you must not do this."

Qingqiu Emperor Wu seemed to feel guilty and refused to straighten up.

"It's all right."

Su Lang smiled and grabbed the two of them. "Now everyone is a member of the big family of Canglan Continent. Don't be so polite, OK?"

This time.

Si Yuxiao and Qingqiu Wudi looked at each other and smiled like old friends.

"It's not too late."

"I will integrate Canglan Daogen."

Si Yu smiled holding Canglan Daogen, with a solemn expression, "Please also two protect me."

"It should be so."

Qingqiu Emperor Wu nodded quickly.

Su Lang also smiled and said, "Don't worry, under the Five Elements World, it is absolutely impossible for anyone to disturb the laughing fellow."

"Well, I don't worry!"

Si Yu smiled and patted his chest, then stretched out his hand and threw out a palace.

This palace is similar to Su Lang's White Jade Immortal Palace, but it is only an intermediate immortal artifact.

The palace is suspended in the air, turning into a hall full of fairy spirits, and inside is a huge training room.

"please!"

Si Yuxiao invited Su Lang and Qingqiu into the hall.

"please!"

Qingqiu Emperor Wu nodded.

He must watch Si Yuxiao merge with Canglan Daogen.

"I'll go back and recover first."

"Si Yuxiao, fellow Daoist, whenever something happens, just call me and I will come over."

Su Lang would not stay here to protect Si Yu with a smile. It was not unwilling, but really unnecessary.

And taking Ling Jue as an example, it is definitely not something that can be completed in a day and a half to integrate the roots of the Canglan Dao.

With this time, it might as well do other things.

"Okay, Langdidao is friendly and recuperating!"

Si Yuxiao and Qingqiu Wudi nodded one after another.

then.

After seeing the two of them entering the hall, Su Lang turned and left.

Go back to the White Jade Fairy Palace.

Su Lang observed Jupiter, Zhouyou Life Universe, and Transcend Life Universe.

Jupiter is still the same, more than sixty clones are constantly pulling away from Jupiter.

In the universe of Ling Jue Life, the world barrier has been eroded by the boundless universe, but the degree is very slight, so ignore it for the time being.

The life planet inside was broken again, and the fragments almost covered the entire universe of life.

But this still has no effect on Su Lang, so you can ignore it.

In the Zhouyou Life Universe, the Liqi tribe who had not been used by Su Lang to perform the 'Evolution of All Things' experienced a lot of attrition.

The Liqi tribes who have accepted the 'Evolution of All Things' have reduced their staff even faster.

However, some of them have embarked on the right path of evolution and will eventually emerge.

[Chapter 1166: Red group floating island!](#)

"It's only been ten minutes."

"If you continue to ignore it, most of the Liqi family will be finished."

"Forget it, the rest of the Liqi tribe should also use the 'evolution of all things'. It just happens that the more experimental items, the easier it is to produce better results."

While thinking about it, Su Lang once again descended into the universe of life.

When he arrived on the continent where the Liqi tribes were located, Su Lang sent two more clones, and Jupiter had just sixty clones left.

Soon.

Under Su Lang's order, the two clones directly opened the "Mingguang Myriad Realms" and flew around the entire continent.

Like a golden meteor gliding by.

Bright brilliance scattered on the earth.

The sorrowful continent became calm and peaceful, and then cheers broke through the clouds.

"The Savior is here again!"

"Oh my God, this time two great saviors came at the same time!"

"Adding the savior from the Dali tribe, there are three saviors!"

"With three saviors to help us, we will be able to overcome the difficulties."

"Praise the great savior!"

"..."

The simple-minded Liqi tribe once again cheered for the arrival of the 'Savior'.

Suddenly, another wave of incense and willingness converged, and Su Lang was included in a different sky box.

"Poor Nicholas."

"You will get a chance for a new life."

"But the evolution of all things, the natural selection of things, and the survival of the fittest, whether you can survive and live better depends on your own good fortune."

With that said, Su Lang let the three clones sit in one place, suspended high in the sky, maintaining the light of "Evolution of All Things".

then.

The entire remaining Liqi tribe was guided, and numerous benign mutation evolutions appeared.

This scene.

In the epic poems of the Liqi tribe, it is recorded as the "three-day salvation era", which has become one of the mythological sources of the Liqi tribe.

"Oh, the experiment has just started, and I don't know how long it will take."

Su Lang sighed, "It would be great if I mastered the time rules, and speed up, and the test results will definitely appear soon."

Of course, Su Lang just thought about it.

Time rules are too difficult to obtain.

quickly.

Su Lang left the life universe of Zhou You and returned to the White Jade Fairy Palace.

"Next, I have to make a wave of incense and aspirations to cultivate Wuyu tea trees."

Su Lang thought for a moment and called Li Xianyang over.

"The lower servant knocks on the Lord!"

Li Xianyang knelt before Su Lang, devout and fanatical.

With the continuous improvement of Su Lang's strength, his combat power limit has also reached Rank 6 Wudi, which is something he can't even imagine!

"Give you a task."

Su Lang said lightly, "Go to Chu Xiaobei and others, gather people to build my statue, and gather the power of faith."

Needless to say, Su Lang believed that they would do it perfectly.

"Yes!"

Li Xianyang agreed without hesitation.

He didn't ask too much, because he knew that Su Lang would definitely not aimlessly.

After retiring, Li Xianyang immediately found the three daughters of Chu Xiaobei, Xuanzang Yuehong Zhundi, Huangfuqin and others to discuss the establishment of a statue for Su Lang.

After a lot of brainstorming, everyone set a plan under the leadership of Chu Xiaobei's three daughters and began to act.

Su Lang let them do things, but he was free.

"It's time to look over there."

With a thought, Su Lang used the perfect leaning to control a clone.

This clone was the one that inherited the universe of life of Emperor Xuanyou and carried Hu Sixi to the Jingtian Continent.

The picture in front of Su Lang changed.

Behind him is a space channel that is slowly closing, and it is clear that the clone has just made a spatial transition.

Wow!

Red islands floating in the void appeared in front of them, densely packed, countless.

This is the front line of the Canglan Continent and the Jingtian Continent, the Chi Qun Floating Island!

Su Lang started a mental scan, and suddenly found that the place was full of various formations.

Many warriors are busy.

These warriors are at least of the Great Sage level, and here they are just the lowest level soldiers.

Moreover, it is the kind of great sage with skill that can appear here, such as those who are particularly good at refining arrays.

Ordinary saints can only stay behind.

"Friend Langdi Dao!"

A figure greeted him, but it was Emperor Jiao Qin Wu.

To be precise, it was her clone, only the quasi-emperor-level cultivation base.

"Friend Jiao Qin."

Su Lang smiled faintly, "Jingtian Continent already knows of my existence, and the conspiracy can only be turned into a positive plot."

[Chapter 1167: Did not give up these two words!](#)

Jiao Qin couldn't help but look dim.

If Emperor Ling Juewu had not been the second or fifth son and had revealed Su Lang's plan to "cause water to the east", then Su Lang would be able to get closer to Jingtian Continent.

But now that Jingtian Continent already knew about this plan, they would definitely strengthen their defenses and prevent Su Lang from approaching Jingtian Continent.

Therefore, Jiao Qin believes that under the strict precautions of Jingtian Continent, the "diversion of water from the east" plan has been half failed.

"Friend Langdi Daoist."

"A Wudi-level clone is really precious."

Emperor Jiao Qinwu said, "Now the plan for diversion of disasters to the east is almost difficult to implement, or just give up."

"give up?"

"I didn't give up these two words in my dictionary."

Su Lang smiled faintly. If he were an ordinary Emperor Wu, he would really be considered a failure.

But who makes him systematic?

Dispatch this function alone can easily solve the opponent's tight defense problem.

"But if it is really conspiring to turn to the sun."

"We should also change our plan."

"Dark Sky World is a third-party force, and it should be stronger than us and Jingtian Continent."

Emperor Jiao Qin Wu said, "Perhaps we can take advantage of this and stop the war with Jingtian Continent first."

Su Lang understood what Jiao Qin meant.

This clone of him carries the universe of life anchored by the Dark Sky World, and has opened a channel with the Dark Sky World.

If Hu Sixi was used, coupled with other means, it would surely be able to open the channel of the dark world again.

At that time, the dark world will kill you fiercely!

In short, it is to treat Su Lang as a 'nuclear deterrence' and force the Jingtian Continent to cease war.

Although this method has the element of gambling, it is likely to work well!

But Su Lang would not gamble!

With his current strength, he was already confident against the Mirror Sky Continent.

On the contrary, the dark sky world is not sure to deal with it.

If the Jingtian Continent is different from a truce, then do you really want to take the initiative to bring the Dark Sky world into the battlefield?

That can be regarded as a way to die together.

Su Lang felt that there was no need to go there.

"No."

"I'm sure I can get close to the Jingtian Continent, or even break into the Jingtian Continent directly."

Su Lang's face was filled with a confident smile, "Once I enter the Mirror Sky Continent, then they probably won't be able to fight!"

"Enter Jingtian Continent!?"

"This... even if the other party doesn't know the plan of fellow Daoist, it is difficult to get in."

"What's more, now Jingtian Continent has taken strict precautions..."

Emperor Jiao Qin Wu looked incredulous, with a trace of anxiety.

She felt that Su Lang was too radical!

of course.

Jiao Qin was right, because she didn't know Su Lang's true strength at all, let alone Su Lang's endless trump cards.

"Friend Jiao Qin, I have decided."

"Please also tell Daoist Qingjiu."

"Canglan Continent's front line, please."

With a faint smile on his face, Su Lang directly turned and flew to the outside of the Crimson Floating Island.

"Friend Langdi Dao!"

Emperor Jiao Qinwu shouted, but he could only look at Su Lang's back and sighed.

At the same time, the admiration for Su Lang has become more and more profound.

This mysterious Emperor Wu, in such a bad situation, is still willing to make such a big sacrifice, just to pursue a glimmer of hope.

The other side.

Su Lang controlled the avatar to expand the illusion and other rules, hiding in the void.

Immediately afterwards, he left the formation barrier of the Chi Qun Floating Island.

After exiting the formation barrier, Su Lang immediately felt a large number of detection methods!

These detection methods are not only from the floating islands of the Red Group, but also from the front line of the Jingtian Continent.

These include formation detection methods, auxiliary imperial soldiers detection methods, and mental power detection methods developed by Emperor Wu himself!

As the front line of the confrontation between the two sides.

Canglan Continent and Jingtian Continent were staring at each other every moment, preventing the other from making any movements.

but.

But Su Lang has practiced "Liangyi Tianyin Dilu" to the founding level.

His concealment method can be described as powerful to the limit, and only the Emperor Wu who enlightens with illusory rules can discover it!

[Chapter 1168: Steal the Eighth Rank United Emperor Formation!](#)

however.

There are no people in Jingtian Continent who have become Taoist by illusory rules.

Their best method of detection is an imperial detection array.

But it was only a one-turn emperor rank formation, and it still couldn't break Su Lang's disguise.
of course.

Jingtian Continent will not only rely on detection methods to defend the Canglan Continent.

The detection method is only an auxiliary method, and what is really used to defend the Canglan Continent is a powerful defense formation and a large number of powerful warriors!

At this moment.

Su Lang hides in the void, dare not use space shuttle, can only rely on flight to advance.

Fortunately, there is no air in the void and almost no resistance, so Su Lang's speed is very, very fast!

It didn't take long.

He came to the front line of Jingtian Continent.

Those are nine very large inverted cone-shaped floating islands, or nine large continental fragments.

Among the nine floating islands, there are a large number of small floating islands.

Its scale is three or four times larger than the Chiquan Floating Island of Canglan Continent.

Su Lang didn't feel surprised.

The Canglan Continent was breached many times, and the frontline position was not as complete as the Mirror Heaven Continent, which was completely unexpected.

Flew forward for a moment.

Su Lang was quickly blocked by a layer of formation barrier.

"Oooooo."

"Emperor rank united formation? It's still an eighth rank emperor rank, so beautiful!"

Su Lang looked at the joint formation in front of him, his eyes brightened, and he even rubbed his hands excitedly.

For others, this formation is a barrier that is difficult to overcome, but for Su Lang, isn't it the equivalent of sending...

"Well, learning enriches me, learning makes me happy!"

Su Lang's gaze was scorching observing the united emperor formations in the Mirror Heaven Continent, and secretly learning these formations.

have to say.

There are many differences between the formation of Jingtian Continent and the formation of Canglan Continent.

Su Lang got a lot of inspiration from this, and he had some ideas for improving the formation method learned on the Canglan Continent.

Of course, in Su Lang's eyes, these Jingtian Continent's formations can also be improved by using Canglan Continent's formations.

In short, by combining the strengths of both ends into one, you can create a more powerful formation.

Time passed slowly.

Su Lang flies along the formation barrier while learning, and the distance he flies may be able to span the Canglan Continent.

The place where the formation barrier disappeared was a very dangerous void.

It was full of turbulent time and space, and it was a very violent one. Even if Emperor Wu entered, he would peel off without dying.

Besides, Su Lang also felt the breath of world consciousness here.

Specifically, there are two slightly different rules of heaven, intertwined in the void!

Obviously, it is not only the warriors on the planet who are fighting.

The two planets, Canglan and Jingtian, stared at each other, and they were fighting for an unknown amount of time.

In short, the world consciousness of the two planets and their respective warriors formed two lines of defense, completely isolating the possibility of smuggling by each other.

"Tsk tsk."

"It's worthy of being the front line of the war between the two planets. It's so tight that it doesn't leak."

"I don't know if I will be discovered by the world consciousness after I enter the area of Jingtian Continent?"

"If I was discovered by Jingtian Continent's world consciousness after I entered, would he keep me unlucky and choke me to death..."

While Su Lang was learning the formation, these questions appeared in his mind.

Immediately after.

He took out something from the storage space, Jing Tian Daogen!

"After fusion, my clone will be able to acquire the identity of the native of Jingtian Continent."

"But... logically speaking, I am not a native of Canglan Continent, so why haven't I been rejected by Canglan Continent?"

"The Canglan Continent didn't reject me, so would the Jingtian Continent also ignore me?"

"Well, when you finish learning the formation, go and test it. If you reject me, let the clone merge with the mirror heaven roots."

Su Lang thought while continuing to study hard.

Relying on the super-abnormal ability of "seeing it", Su Lang quickly learned all the formations.

This eighth rank united imperial formation.

There are a total of 88 types of defensive imperial formations, 66 types of attack imperial formations, 22 types of auxiliary imperial formations, and 9,998 types of defense, attack, and auxiliary immortal formations.composition.

[Chapter 1169: Jingtian Continent does not reject](#)

And this is only the number of types of formations, not the number of formations.

The Jingtian Continent created this emperor-level combined formation, with a total of 1.18 million formations.

This number is more than twice that of the Five Elements Sky arranged by Su Lang.

You know, the Five Elements Sky covers 90% of the southern mainland, and the area is extremely vast.

Comparing the two, you can see how powerful and powerful this united emperor formation in Jingtian Continent is.

only.

No matter how powerful and powerful, in front of Su Lang, it was just a film that could be torn at any time.

Put the membrane thing aside.

Su Lang came to a void.

Rumble!

In the void, the power of countless twisted rules forms a variety of colorful storms, and there are countless lightning, flames, and other visions.

Here.

The place where the consciousness of the two planets is at war can also be seen as the boundary of the two planets.

of course.

The boundary of the world is not only this one, it stretches for countless distances, only occasionally a scene of battle erupts in a certain place.

The world consciousness is entangled and fought here, it is very terrifying, and ordinary Wudi can hardly pass through.

Even if it crosses the past, it will be immediately noticed by the world consciousness, which will trigger a vision and notify its own warriors to come to strangle.

Su Lang's purpose was to test whether the world consciousness of Jingtian Continent would repel him, so he rushed in.

Wow!

Rumble!

The foreground of the eyes changed.

Numerous regular visions emerged, gold, wood, water, fire, earth, wind, thunder, ice, dark, light, yin and yang, etc., occupying all of the vision.

The terrifying power of the world is overwhelming everything, everything is being destroyed, even the void is constantly torn apart, forming cracks and voids!

however.

Su Lang was in the battlefield of world consciousness, and he didn't even suffer a little attack!

Not only did the power of the Canglan Continent bypass Su Lang, but also the world consciousness of the Mirror Sky Continent bypassed Su Lang!

A strange and quiet area was formed in a ten-mile radius where Su Lang was!

"Lying down!"

"They didn't even attack me!"

"Does Jingtian Continent really reject me!?"

Su Lang's eyes widened, looking left and right, with a look of astonishment on his face.

Immediately after.

He tried to fly forward.

As a result, no matter where Su Lang flew, the world consciousness of both parties was directly bypassed.

"What the hell!"

"Jingtian Continent really doesn't reject me!"

Su Lang continued to stare, surprised in his heart.

He was obviously not an aboriginal of Canglan Continent, but he was not rejected. Su Lang originally thought that it was because the blue star and the Canglan Continent were connected by the time-space channel and were affected.

But now, Jingtian Continent did not even reject it!

This ruled out the Blue Star being affected by the Canglan Continent, and Su Lang had no possibility of being rejected.

In addition.

Su Lang also thought of the new city of Fengling and Human.

Those human races who settled in the new city were not rejected either.

You must know that the Ziming Emperor Clan has stayed in the Canglan Continent for nearly tens of millions of years, but it is still unlucky for the whole clan.

But the mixed race of Human Race, Feng Ling, and Human Race showed no signs of bad luck.

In other words, Su Lang is not a special case for not being rejected by world consciousness.

The entire Blue Star human race, including the hybrids of other intelligent creatures and human races, is also not repelled by the world consciousness.

What does this mean?

"this means....."

"Human races and mixed races of human races will be the best race in the Star Territory!"

"Even the world consciousness does not reject it, and directly opens the door to the mixed race of human race and human race, letting it invade..."

Thinking of this, Su Lang couldn't help being stunned.

He originally valued Human Race because the proportion of geniuses in Human Race was very high.

In just two thousand years, it has developed from an ordinary race to a race with a Valkyrie, which is very, very scary.

but now.

Su Lang felt that Human Race was extraordinary.

Not repelled by world consciousness, it is simply the darling of the endless universe, with the potential to conquer the entire endless universe!

"I'll take it. It's amazing."

"It seems that after I go back, I will help the warriors of my clan a lot."

"It just happens that my 'cultivation base empowerment' and 'gongfa empowerment' are temporarily idle."

"If you move the number of 'rule empowerment' a little bit, you can cultivate a quasi-immortal powerhouse every day."

"Well, it was such a happy decision!"

Su Lang nodded solemnly and made a decision.

[Chapter 1170: First sight](#)

Soon.

Su Lang set off and flew forward, directly crossing the battlefield of world consciousness and entering the realm of the world of mirror sky.

Just entered.

Su Lang noticed a slight difference.

But he couldn't tell how it was different from Canglan Continent.

"Perhaps the missing rules are different, causing this strangeness."

Su Lang thought silently and continued to fly forward.

After crossing the front line position of Jingtian Continent, the rear defense will be much empty and the intensity weakened a lot.

Su Lang traveled through the long void very easily, and saw the second continent fragment of Jingtian Continent in addition to the frontline position.

This is an ordinary continental fragment, and there are no special rules manifested.

But its size is very large, probably with the boundaries of two saints, equivalent to the surface area of two blue stars.

at this time.

It has become the logistics center of Jingtian Continent.

Su Lang was hidden nearby and spied on him, only to see a large number of buildings built on the debris of the mainland.

The style of the building is very different from that of Canglan Continent.

Each building is horizontal and vertical, with many straight lines and very few arcs.

And all the materials used can be seen by others, just like a transparent mirror.

In Su Lang's eyes, the architectural concept of Jingtian Continent is probably "brick and stone cutting", which has a special flavor.

at this time.

In the numerous buildings, one after another, the teleportation array is constantly flickering.

A powerful warrior carried a huge amount of war resources and walked out of the teleportation array.

These powerhouses are all great sages, and most of them are nine stars, and there are many quasi immortals. The total number has exceeded 500,000.

The Wuxian-level expert Su Lang didn't see much, but it can be speculated that the Wuxian combat power of Jingtian Continent should still be assembled.

In addition, there is a Rank 5 Wudi sitting on this continent fragment.

"It seems that Jingtian Continent is really planning to fight."

The corner of Su Lang's mouth twitched, revealing a sneer.

but.

He doesn't plan to do anything here for the time being, because he hasn't had the best chance yet.

No matter what, you have to wait for people to bring all the war resources over before grabbing them.

"With teleportation array, I don't bother to fly by myself."

Su Lang thought with a thought and used his clone to dispatch.

The avatar who was bent over suddenly appeared in a corner of the mainland debris without knowing it.

Soon.

Su Lang unfolded his mental power and quietly observed those teleportation formations.

Soon, all the teleportation arrays were understood by him, including the space coordinates set inside.

These spatial coordinates are very close and should be in the same place.

"These space coordinates will not go."

"Change it and go somewhere else."

Su Lang made some adjustments to the space coordinates, and then established a temporary teleportation array on the spot.

call!

The light flashed.

Su Lang's figure disappeared from the place, and the formation immediately self-destructed, leaving no trace of ashes.

Immediately after.

The foreground of Su Lang's eyes changed, and he appeared in a dark void.

Unfolding mental power, dozens of continental debris are suspended in the detection range.

In the distance, a huge moon-white planet slowly revolves in the void, and its surface emits a glowing light, very beautiful!

but.

Su Lang discovered that this planet was just as incomplete as Canglan Star.

On the moon-white star, there is a large black-red area, and you can feel the twisted breath from far away.

"Jingtian continent, Jingtian star!"

Su Lang looked down at Jingtianxing and murmured softly.

At the same time, his brows frowned slightly.

Canglan Star is incomplete, and Jingtian Star is also incomplete.

Even in Xuan Xuan's mouth, the hundreds of other planets in the Xinghai area all have the nickname 'mainland'.

Why do Canglan Star and Jingtian Star have other names for mainland?

Because they are incomplete, intact planets have uncrossable boundaries.

The wound of the world is like the 'ocean', making the intact part a 'continent'.

If a planet has a 'alias' for a continent, it may also be incomplete.

Well.

The huge star sea area, hundreds of planets, if all are incomplete...
