[Chapter 1191: White Jade Emperor Palace and Space Cube](#)

"Snapped!"

Su Lang patted Chu Xiaobei's forehead, rolled his eyes and said, "You think I don't know Erha, I know Pi all day long, are you Pipi shrimp?"

"Oh, it hurts!"

Chu Xiaobei stuck out his tongue and hid away.

Looking at this scene, Ji Ruxue and Murong Xianxian smiled gently while covering their mouths.

"Okay, stay there obediently."

Su Lang smiled slightly, "Next I have to do a big thing."

Talking.

He placed the White Jade Immortal Palace in front of Chu Xiaobei's curious eyes.

"Bai Yu pays respects to the Lord!"

The spirit of the White Jade Fairy Palace flew out and bowed to Su Lang with a ball-like body.

This device is very normal and looks like a quiet lady, who generally doesn't like to talk.

"White jade."

Su Lang smiled, "As the Southern Continent Headquarters, the quasi-emperor rank is no longer qualified, so I plan to promote you to the emperor soldier."

"Bai Yu kowtowed thanks to the Lord's gift!"

Bai Yuqi Ling was very excited at once, this is the most exciting and exciting moment since its birth!

Simultaneously.

Chu Xiaobei's three daughters all looked surprised.

They knew that Su Lang could be promoted to weapons, but they couldn't help being shocked when they saw that Su Lang was about to promote the White Jade Immortal Palace to the Imperial Soldier.

Even the three of them were astonished, and the subordinates such as the empty Yuehong Zhundi were stunned with horror, their faces full of disbelief.

"System, evolve the white jade fairy palace!"

Su Lang turned a blind eye to everyone's surprise and directly issued the order.

"Ding! Consumes emperor-level materials...xian-level materials...wuxian soul..."

"Ding! The White Jade Immortal Palace has evolved into an Emperor Soldier!"

boom!

A breath of suppression of heaven and earth came, and the emptiness Zhundi and the others felt difficulty breathing.

"Really promoted to Emperor Soldier!"

"His Majesty Langdi is really too strong. This method is simply unprecedented!"

"Yes, His Majesty Langdi is the strongest and most mysterious person in the world, and a great existence that I will spend my whole life following!"

"..."

Everyone knelt down and worshipped Su Lang fanatically and sincerely.

On the earth, countless warriors also felt the breath of emperor rank.

Some warriors who had entered the White Jade Immortal Palace immediately felt the familiar breath, and could not help but grow their mouths.

"Bai Yuxian Palace was promoted to Emperor Soldier!"

"His Majesty Lang took away the White Jade Immortal Palace, just to promote him to the Imperial Soldier!"

"My God, what level of craftsman is His Majesty Langdi? In a short time, he actually promoted the White Jade Immortal Palace to the Imperial Soldier!"

"The means of the great Emperor Lang, can I wait to speculate?"

I waited to kneel at the feet of His Majesty Langdi, and just follow His Majesty's footsteps all the way, don't think about other things so much. "

"..."

Countless warriors on the ground also knelt down and bowed to Su Lang.

at the same time.

The spirit of the White Jade Emperor's Palace turned into a white robe maid, kneeling at Su Lang's feet, kowtow deeply, unable to afford it for a long time.

"The days to come will grow."

"The first transfer of imperial soldiers is only the beginning."

Su Lang smiled faintly, "Go ahead, continue to hold the post of Southern Mainland Headquarters."

"Yes, Lord!"

After bowing his head, Bai Yu got into the body and automatically returned to the sky above the holy city of Yaochi, turning into a continuous heavenly palace!

Countless people saw this scene, exclaiming high, endless fanaticism and admiration in their eyes.

Su Lang smiled slightly and took out the Space Dojo.

"Xiao Fang knocked on his master!"

The spirit of the Rubik's Cube emerged, and he bowed in excitement.

He is a traditional weapon refined by Su Lang, not a quasi-imperial soldier created by a combination technique, so the weapon spirit is relatively normal.

Looking at the scene where the Rubik's Cube Qi Ling promoted the White Jade Qi Ling from beginning to end, I knew that I would also be promoted, so I was extremely happy.

"Xiao Fang."

Su Langxun said, "As a space dojo, shouldering the hope of the warriors of the southern continent to become gods, you must do your loyalty and do not slacken."

"Xiao Fang...yi...must fulfill his mission!"

The Rubik's Cube was born soon, and the words were not very good, and at this time he was incoherent with excitement.

"Ok."

Su Lang nodded lightly, and immediately issued instructions to promote the space cube.

Wow!

After a period of system prompts, Space Cube was officially promoted to the Imperial Army.

Qi Ling Xiaofang turned into a young man in a fine checkered robe, and kowtowed deeply at Su Lang.

[Chapter 1192: As expected](#)

Immediately after.

The Space Cube was also put back in place by Su Lang, and continued to perform the duties of the Space Dojo.

The second imperial aura bloomed, once again felt by the countless warriors gathered in the holy city of Yaochi, causing a new wave of worship.

"The second imperial soldier has appeared, and the space dojo has been promoted to the emperor rank!"

"What is the second one? Did you forget the last Luoyoujing? Now it is at least three emperor soldiers!"

"Oh my God, we also have at least three emperor soldiers in the southern continent. They are so powerful!"

"The point is that His Majesty Langdi is too powerful, and his skill in refining tools is simply perfect!"

"Yes, yes, His Majesty Langdi must be the Canglan Continent from ancient times to the present, oh no, he is the strongest person with the highest refining skills in the entire Xinghai domain!"

"Hmm, I think so too!"

"..."

Countless people talked, making the holy city of Yaochi seem to be boiling.

Even more quasi-sage warriors couldn't help but rush to watch the space cube, but they were affected on the spot, directly condensing the space guide, and promoted to the **** of war!

"Hey, it's worthy of being an emperor-level spatial dojo. I just glanced at it, and if I have an understanding, I have gathered the inspiration of space!"

"Too strong, too powerful, from then on, we will never have the difficulties and obstacles of becoming a god!"

"Yes, the realm of the Valkyrie will become as easy to break through as the lower realm. This move of His Majesty Langdi will directly benefit the entire southern continent. It is really great!"

"His Majesty Langdi is the greatest and most noble person in the Southern Continent!"

"..."

People worshipped Su Lang feverishly while talking excitedly.

There are also a large number of quasi-shen martial artists flooding the space dojo, and for a while, I don't know how many martial artists have broken through to the realm of martial arts.

Heaven.

Chu Xiaobei and the others shook their hearts, and stormy waves rose.

Everyone knows that the space dojo has brought the warrior civilization of Canglan Continent to a big step directly!

The **** of war will become extremely common, and the saint of martial arts will become flying all over the sky. Only those who reach the rank of martial arts will be the real powerhouse!

"not bad."

"Finally, the threshold for becoming a **** has been completely lowered."

Su Lang was also very satisfied with the effect of Space Dao Cube, with a sincere smile on his face.

"Next."

"It's the Five Elements Quasi-Emperor Soldier."

While thinking, Su Lang looked at the Wuxian Soul in the storage space, there were more than one hundred copies left.

"Ordinary quasi-imperial soldiers generally only need about ten Wuxian souls for promotion."

"These more than a hundred Wuxian souls are completely enough for the Five Elements quasi-emperor soldiers to be promoted to the emperor rank at the same time."

Su Lang smiled faintly, and ingested the sea of sky in front of him, and gave the promotion instruction amidst its scream.

"Ding! Consume Emperor Grade materials... Fairy Grade materials..."

"Ding! The Sea of Sky has evolved into an Emperor Soldier!"

After the system prompts.

The body of the sea of sky suddenly appeared in a phantom that obscured the sky and the sun, almost endless, but it shrank back the next moment.

Soon.

The spirit of the sky sea called out with excitement: "Ma Ma Ma Ma~!!!"

Suddenly.

Waves of phonological terrorist attacks emanated.

The sound was continuous and endless, as if the whole world was enveloped by strange sounds.

Those who heard this voice almost immediately showed dementia, and then gradually showed pain and madness.

Fortunately, although Xiao Hai was a little bit mentally retarded, he was still smart.

It did not deliberately launch an attack, so everyone can still attack with sound waves.

Otherwise, the warriors below the level of Emperor Wu, I am afraid all will be slumped to the ground!

"Tsk tut!"

"Sure enough, Xiaohai's mantra also formed a strange sonic attack!"

"This sonic attack not only contains phonological rules, but also contains mental attacks, even with a hint of 'distortion'."

Su Lang looked at Xiao Hai with his eyes shining slightly, and his heart was happy.

"Ma Ma Ma Ma -!!!"

Xiao Hai didn't get Su Lang's response, but still called, like a noisy child.

"Okay, Xiaohai, stop calling!"

Su Lang shook his head and smiled, stopping Xiao Hai from continuing to shout.

Xiao Hai's intelligence seems to have improved a lot, still similar to that of a child.

However, it was quite obedient, and immediately stopped shouting.

[Chapter 1193: Eleven Emperor Soldiers!](#)

Immediately after.

Su Lang put the other four quasi-imperial soldiers in front of him, namely, the flame of the sky, the forest of the sky, the mountain of the sky, and the gold of the sky.

After spending certain materials.

Four system prompts sounded one after another, and the four quasi-imperial soldiers evolved into one-turned imperial soldiers.

In an instant.

The breath of the Five Elements Imperial Soldier enveloped the world, more majestic than the White Jade Emperor Palace and the Space Cube!

"Five...five emperor soldiers! Oh my god, there are five more emperor soldiers!"

"This kind of aura, yes, they are the quasi-imperial soldiers of the Sky Five Elements series. I once had the honor to guard the Sky Forest, but I didn't expect them to be promoted together!"

"Five emperor soldiers are promoted together... plus the previous Baiyu Emperor Palace and Space Daochang, that is, seven emperor soldiers are promoted on the same day, this is definitely the first case in history!"

"His Majesty Langdi's methods are really terrifying, they have completely exceeded our imagination!"

"Yeah, His Majesty Lang's shot means that seven emperor soldiers came to the world, and Luo Youjing is already eight emperor soldiers!"

"It is said that Emperor Lang's portable sword is also an emperor soldier. He once killed Emperor Wu Zhouyou, and counting that emperor sword is an emperor soldier!"

"Do you think this is over? Look at the sky, two more emperor soldiers have been born!"

"What? There are two more imperial soldiers!?"

"..."

Countless warriors talked about each other, looking towards the sky in shock.

People with a low cultivation base naturally can't see anything, but a warrior with a high cultivation base sees an unforgettable scene.

I saw a high platform suspended in the sky, covered with various lines, which looked like a nest of some kind of beast.

On the high platform, a golden beast flies in the air, swallowing wind and flames.

It has tiger beards and tails, its head has sharp horns, and its body is like a long snake. Its scales are gorgeous and indestructible. Its four sharp claws seem to be able to shred all enemies!

This is exactly the J-Xian Cannon that released the body!

After being promoted to the imperial rank, its base turned into a dragon's nest, and its barrel turned into a dragon, giving it a powerful and prestigious style.

Except for the JXian Cannon.

The Slaughter Sky Sword Sheath was also released by Su Lang.

I saw a young boy wearing a blue robe, a gourd crown on his head, and a beautiful and gentle face, holding the scabbard in both hands, standing beside Su Lang respectfully like a sword-serving boy.

"It's the Fenxian Cannon!"

"And Slaughter Sky Sword Sheath!"

"God, I didn't expect these two weapons to be promoted to Emperor soldiers!"

"Eleven Emperor Soldiers! Our Southern Continent has eleven Emperor Soldiers. This is really incredible!"

"..."

The warriors looked at the Jiexian Cannon and the Slaughter Sky scabbard, very excited.

Especially the warriors who originally belonged to the Slaughter Tower, such as the empty Zhundi and others, were filled with emotion.

Since they followed Su Lang, they have all made breakthroughs one after another, and now even the quasi-imperial soldiers have been promoted to the emperor rank, which is simply ascend to heaven!

"Small Cannon!"

"Xiaohai, Xiaoyan, Komori, Xiaojin, Koyama."

"You are also imperial soldiers now, and the weapon spirit can be transformed into human form."

"Come, come, I have prepared the most suitable image for you."

Su Lang looked at the six imperial soldiers in front of him, with a gentle expression, as if he was coaxing a child to talk.

While speaking, six humanoid phantoms turned out.

Five of them are all boy appearances, and they are smaller than the sword servant boys transformed into the Slaughter Sky Sword Sheath.

They have two small pulls on their five heads, they wear red belly pockets, a round collar around their necks, and a tattoo mark on their foreheads.

The exposed hands and feet are as white as lotus roots, and a small face is round and round, but he prefers teething, very fierce.

If someone who is familiar with it reads it, he will definitely be able to call out the name "Ne Zha"!

The sixth figure is a slender young man.

There are two small dragon horns growing on his forehead, and he is wearing an ancient robe made of countless small scales, and he carries a beautiful jade.

If someone who is familiar with this watched this, he would definitely be able to call out another name, "Ao Bing"!

"How about it, look good"

Someone who had sneaked into the slippery face smiled triumphantly.

"good looking!"

"Too beautiful!"

"Wow, that's so cute!"

"..."

Before the party spoke, Chu Xiaobei's three daughters shouted with bright eyes.

Then Li Xianyang and others immediately praised them loudly, and took pictures of their own serial rainbow ass.

[Chapter 1194: New Five Elements Heaven!](#)

In short.

The six images that Su Lang turned out were praised by everyone.

The six organ spirits, who were originally not very intelligent, were immediately infected, and their emotions became excited.

They readily accepted these six images, and immediately began to illusion.

quickly.

The five elements of Emperor Xiaohai, Xiaoyan and other weapons have been transformed into five identical little Nezha, distinguished only by the color of the eyebrow tattoo.

Xiao Pao turned into a dragon boy, slender and handsome.

It's just that because of his low intelligence, his temperament hasn't kept up, and he looks a little cute.

So far.

Su Lang's eleven imperial soldiers have all transformed into human forms and become unique creatures in the world.

at this time.

Chu Xiaobei, Ruxue, and Murong Xianxian flew over with cute faces, caught Xiao Hai, Xiao Yan and other spirits and looked left and then again, very excited.

The five Qi Ling and Chu Xiaobei were also very familiar with each other, and they all chatted together.

So Xiao Pao stood there with a dazed expression, not knowing what to do.

Fortunately, Hulu walked up and pulled him over, standing next to Su Lang together.

"Okay, Beckham, I will play again later, I still have business."

Su Lang smiled and stopped the three Chu Xiaobei from playing. The three were also very obedient, and immediately flew back to their original place.

Just staring at the five small spirits with a cute face.

"I go."

"I have never seen you take such initiative to me."

Su Lang murmured to himself and rolled his eyes with an insignificant look.

Immediately after.

"Small sea."

"You five return immediately."

Su Lang gave the order with a serious face.

"Yes!"

"Ma Ma~"

The five Qi Ling also seriously agreed.

Immediately, Xiao Hai flew down and unfolded his body under the White Jade Emperor's Palace.

Suddenly, a large ray of light shone out, overwhelming and boundless!

Xiao Yan and the other four emperor soldiers flew toward the southeast, northwest and northwest. Su Lang thought they were flying slowly, so he helped them with the rules of space.

quickly.

The Emperor of the Five Elements returned completely.

"Finally we can arrange the formation."

Su Lang hooked the corner of his mouth and waved his hand.

In the next moment, the materials piled up in the storage space quickly disappeared!

On the bodies of the five five-element emperor soldiers, arrays appeared instantly.

These formations are like countless chains buckling one after another, forming a giant net that covers the sky and the sun, spreading in all directions.

Five Elements United Emperor Formation, Three Killing Prison Emperor Formation, Zhentian Fuhai Emperor Formation, Shetian Ming Emperor Formation, Forbidden Seal Imperial Formation...

Countless formations, under Su Lang's external skills, abandon the dross, take the essence, and then interlock and integrate into one.

quickly!

The spreading formations of the five imperial soldiers joined together, once again covering the southern continent.

And this time the coverage is even wider!

To the edge of the world of the south, to the uninhabited world of ice and snow in the west, to the Tianxian Moat in the east, and to the Honglian Emperor in the north!

Yes, Su Lang officially included the land after the death domain of the emperor was dissipated into his rule!

The total ruling area was a quarter larger than before, completely occupying half of the Canglan Continent.

Although most of them are barren and no man's land, Su Lang is confident that he can improve this land into the best place for practice!

And this emperor rank united formation that protects half of the Canglan Continent.

Integrating the essence of the formations of the two worlds of Canglan Continent and Jingtian Continent, its defensive ability has reached the unprecedented Ninth Rank Emperor Rank!

The offensive ability is also equivalent to the Seventh Rank Wudi, surpassing most Wudi.

Because the main component of the formation is still the formation of the five elements attribute.

Therefore, the new united imperial formation still continues its previous title-Five Elements Heaven!

In addition to powerful defense and powerful offensive power, New Five Elements Sky also has countless auxiliary functions.

I won't mention the details.

The main auxiliary function is to improve the aura of heaven and earth, which can be called a "any door" transportation network, with infinite possibilities of spiritual interconnection network.

Only the latter two are temporarily closed because the Emperor Soul processor is not yet in place.

But only the first auxiliary function allowed countless warriors to feel the change in the concentration of aura for the first time.

Because the Shetian Ming Emperor Formation was improved by Su Lang, reaching the rank of Rank 6 Wudi!

All this is also attributed to the eighth-turn combined imperial formation arranged on the front line in the Jingtian continent.

[Chapter 1195: Open up the eighth inner world!](#)

Because the concentration of aura in the void is very low, it is difficult to support the operation of the formation.

Therefore, there are many formations similar to the 'Sun Moon Immortal Spirit Emperor Array' in that united imperial formation.

With these formations, Su Lang can quickly improve the Shetian Ming Emperor formation.

At this time, the efficiency of the Shetianming Emperor Formation is 10,000 times higher than the previous one, and the number has increased by a quarter. Naturally, more auras can be absorbed and transformed!

Su Lang could feel that the Shetianming Emperor Formation could almost completely capture the energy from the outside world, without letting it go.

In other words, if the Shentianming Emperor Formation is one level higher, then the outer energy will not be enough to absorb.

"It would be great if Canglan Star was close to the sun."

"That way, you can arrange the formation on the edge of the sun, just like the 'Dyson Ball' of some advanced cosmic civilization, directly absorbing the energy of the sun!"

"Unfortunately, the sun on the Canglan Continent is too far away, probably in the center of the star sea area..."

Su Lang shook his head, temporarily aside the thoughts in his heart.

Immediately after.

Su Lang turned and ordered Li Xianyang: "Go, assign Wuxian and Wusheng to guard the five emperor soldiers!"

"Yes! Lord!"

Li Xianyang bowed and took orders, ordered some Wuxians, and then went to dispatch Wusheng.

"Small cannon."

"And gourd."

"You are responsible for cruising the mainland. If something happens, report it immediately."

Su Lang ordered again, "Gourd, Xiao Pao is not too smart yet, please bring him more."

"Yes, Lord!"

Hulu and the small artillery saluted at the same time, and then flew away together to be the patrolling security guard of the southern mainland.

"Bei Bei, like snow, slender."

Su Lang turned to look at the three of Chu Xiaobei and asked with a smile, "How is the incense statue work?"

"Not finished yet."

Chu Xiaobei stuck his tongue out, "But the plan has been finalized, don't worry, it will be done soon."

Ji Ruxue and Murong Xianxian also patted their chests to ensure that they would complete the task as soon as possible.

Su Lang's mouth twitched and nodded.

Soon.

The three daughters of Chu Xiaobei flew far away and took the empty Zhun Emperor and others to perform the task arranged by Su Lang.

Su Lang also returned to the White Jade Emperor Palace.

However, the warriors gathered in the holy city of Yaochi still did not leave.

Su Lang has created too many miracles today!

It is estimated that in the next period of time, if there is no new big news, people in the world will continue to talk about it.

In the quiet room.

Su Lang sat on the futon and took out a lot of materials to refine the parts of the super humanoid weapon.

At this time, Su Lang's cultivation base was different from the past, and the refining speed had once again increased a lot.

It used to be able to refine about 70 parts per hour, but now it can stabilize at 100.

In a blink of an eye.

A whole day passed.

Su Lang refined more than 1,000 parts of super humanoid weapons, and the total number of parts reached more than 15,000.

at the same time.

Su Lang has accumulated enough cultivation skills to open up two new inner realms.

The souls that had become weak due to the burning of souls, whether they were the main soul or one hundred thousand sub-souls, had recovered their peak state.

The number of one-key empowerments has also been refreshed for more than a long time, and it can instill the power of rules into Chu Xiaobei.

On the contrary, it was close to four hundred immortal level exercises, still not completed, a few dozen books short.

"If you instill the rules, you can find Chu Xiaobei when the frequency is about to refresh."

"After instilling the rules, the number of instillations can be refreshed immediately, and then continue to instill."

As Su Lang thought, he put the materials and cauldron in front of him into the storage space.

Immediately after.

"System, open up the seventh and eighth inner realms!"

Su Lang took a deep breath and gave instructions.

Suddenly, in the mysterious black space, the gold on the cultivating villain quickly faded and turned directly into white.

"Ding! The tenth party inner boundary function is activated, and the seventh party inner boundary is being developed!"

"Ding! The tenth party inner boundary function is activated, and the eighth party inner boundary is being developed!"

Two system prompts came one after another, and Su Lang immediately felt a strong soreness in his feet!

"It turned out to be on both feet!"

Su Lang thoughtfully, "It seems that the ninth and tenth inner world should be in his hands."

Next.

With the continuous expansion and sublimation of the space guide, the seventh and eighth inner boundaries were finally formed!

[Chapter 1196: Burning the soul for the third time!](#)

"Tsk tsk."

"From now on, I will put a planet in each of my legs. It will definitely be the heaviest leg in the world!"

Su Lang looked at the two newly opened inner realms, and a smile of excitement was drawn at the corner of his mouth.

Soon.

Su Lang began to calm down and prepare for the soul burning.

It's not that Soul Burning is very painful and requires patience. The painful effects of Soul Burning have been eliminated by the function of 'vomiting the old and accepting the new'.

The reason why Su Lang had to concentrate completely was to wait for the opportunity of epiphany when burning the soul!

An epiphany, you can comprehend more than a dozen rules, even if it is a fur, even if there are repetitions, it is a big profit!

When he was attentive and concentrating, Su Lang finally began to burn his soul!

Suddenly, in the sea of consciousness, countless golden silk ribbons seemed to be contaminated with invisible flames, began to burn, and spread towards the 'sun' in the sky.

The sun, which had restored its brilliance, immediately became dim and showed a semi-melted state.

It was pure enough, far beyond the spiritual power of ordinary Wudi, and was once again burned with impurities, becoming cleaner and purer.

In addition to the master soul knowing the sea, the same thing happened to one hundred thousand souls.

But Su Lang had once again entered a state of epiphany.

His thinking speeded up an unknown number of times in an instant, and even gave people a feeling of time slowing down and stagnating.

Among the three inner worlds that already had planets, some remote rules of the inner world being fed back by the planets clearly appeared in front of Su Lang.

Su Lang had no sorrow or joy, and began to comprehend these rules one by one.

It seemed to be a moment, and it seemed that a long time passed.

The burning of the soul is over, the epiphany is over, Su Lang slowly opened his eyes, and the light flashed away.

"Mental power has entered a weak state again."

"However, even in a weak state, my mental power is stronger than ordinary Wudi."

"The key is that the quality is too high. One mental power is equal to dozens or hundreds of others."

Su Lang felt his mental power, with a satisfied smile on his face.

Next.

Su Lang stood up from the ground, ready to go to Jupiter

—After this period of time, the continuous efforts of sixty clones, the Jupiter component has finally pulled away from most of it, and can be included in the inner boundary.

But at this moment.

Chu Xiaobei, Ji Ruxue and Murong Xianxian ran over.

"Su Lang!"

"Brother Su Lang!"

"Huh? Are you still in retreat? Beckham and Ruxue, let's keep your voice down."

"..."

Seeing that the door of Su Lang's quiet room was tightly closed, the three girls set a table outside and took out a novel book to read.

When Su Lang was about to open the door, he heard the three women start to complain.

"Hey, this heroine has a black belly, she plays with her emperor, but I like it, hehe."

"That's the emperor, too, you love it, what's the point of keeping it hidden?"

"Yes, yeah, the heroine is waiting for him to confess!"

"..."

...

"Uh....."

The corner of Su Lang's mouth twitched, and he said to a woman that he just likes to watch love.

After speaking in his heart, Su Lang opened the quiet chamber door.

"what?"

"Brother Su Lang is out!"

"Huh? It's coming out? I just read a few pages and I have to break it again."

"..."

The three gathered the book and table, and gathered around Su Lang.

"What's wrong, didn't go shopping today?"

Su Lang looked at the three women and asked strangely.

"Humph!"

Chu Xiaobei snorted proudly, "In your eyes, are we the people who only know about shopping?"

"no no."

"I was just kidding."

Su Lang smiled and waved his hand, "Then, what's the matter with you coming to me?"

"Brother Su Lang~"

Ji Ruxue said quietly, "Did you forget that you told us to build the incense statue?"

"Brother Su Lang must not have thought of it!"

Murong Xian smiled lightly, "We have completed the task in such a short time!"

"Oh?"

"It was done in just one day?"

"That was beyond my expectation!"

Su Lang raised his eyebrows and smiled with surprise.

When the three of Chu Xiaobei saw Su Lang's face with surprise, they couldn't help but a little smug.

"Hi~!"

Su Lang smiled brilliantly, "Walk around, take me to see!"

[Chapter 1197: Come come come we worship together](#)

"Okay!"

"Empress Zhunhuang is also waiting below."

The three daughters of Chu Xiaobei nodded quickly, and then turned to lead the way.

Su Lang followed, and the four left the White Jade Emperor's Palace together and came to the exchange building generation in the holy city of Yaochi.

"The lower servant knocks on the Lord!"

The empty Zhun Emperor who was waiting respectfully saw Su Lang and immediately knelt down.

"Get up."

Su Lang nodded and looked at the exchange building.

However, the square in front of the exchange building was enlarged again, and a huge building was shrouded in silk-like golden cloth.

But from the outline of the statue, it can still be seen that it is a human sculpture.

At any time.

The exchange building must be one of the most lively places in the entire southern continent.

At this moment, that mysterious statue attracted countless warriors onlookers.

"Hi, this statue is so big!"

"Yeah, they are all going straight into the sky, taller than the exchange building!"

"The title of the tallest building in the south has obviously changed hands. From then on, this sculpture is the tallest."

"Haha, I heard from my friends in Coliseum, that a very tall statue was built there too!"

"It's not just Colchicum, Chiri City, Tianyun City, etc., almost every city with a bit of popularity has statues built."

"Well, I also heard about it, and I also saw the reflection stones sent by my friends. Those statues are also very tall, but they are not as good as the one in front of them."

"Tsk tsk, these must be the statues of His Majesty Langdi, and only His Majesty Langdi can be qualified to have such a magnificent statue!"

"Yes, this sculpture is not only tall, but it also gives me a very sacred feeling, which makes me want to worship."

"Then worship, maybe your Majesty Lang is the first to see you, and he will give you a great opportunity!"

"Haha, what you said is good, but even if there is no chance, I will worship His Majesty Langdi, my heart is pious, not for any reward!"

"Uh, I am ashamed of what you said, come here, let's worship together!"

"..."

Before the golden curtain was pulled down, the warriors who were whispering and talking knelt down.

In addition, the number of people kneeling continues to increase.

The sea of people kept falling down, like a huge wave bursting from the foot of the giant statue and spreading in all directions.

Just this moment.

Su Lang felt a lot of incense and willingness to flow toward the statue.

It's just that the statue is obviously just an ordinary thing, not a channel for collecting incense.

Large stocks of incense and wishing power directly spilled on the way, disappearing between heaven and earth.

"Come on, talk about the characteristics of this statue."

Su Lang looked at the three daughters of Chu Xiaobei and said with a faint smile.

In fact, he could see the essence of the statue at a glance, only to make Beckham and the others behave and be happy, so he specifically asked questions.

"Brother Su Lang, let me say!"

Ji Ruxue smiled obediently, "The incense statues we designed are all nodes of the incense willingness. This one in front is the end of the incense gathering."

"In the Southern Continent, we built forty-nine statues of you at the same time."

"The number is indeed relatively small, but the warriors have mainly gathered in cities such as Yaochi Holy City."

"It's useless to build more statues in the fringe area. It's not too late to add more statues when there are more people."

Paused.

Ji Ruxue continued: "The statue is the node where the aspiration power is gathered, and the collection channel is the channel created by the use of space rules and Tongxin Jade."

Thanks to the predecessor of Emperor Zhunxuan, we also designed the appearance of the statue.

The specific functions are all handled by the empty seniors. "

"Like the Snow Girl, too much praise."

The emptiness Zhundi quickly smiled humbly, "The idea is all from the three girls, I just check the omissions and fill in the vacancies."

"well done."

Su Lang smiled and nodded, "Look back and reward you with an emperor level exercise."

"Thank the Lord for the generous gift!"

The Emperor Zhunxu immediately knelt down and kowtowed, extremely excited.

He said in his heart that there is no better chance in the world than to give His Majesty Langdi a subordinate.

You must cherish this opportunity, and you must do whatever it takes to become the second dogleg under His Majesty Langdi!

The position of the first dogleg has been taken over by Li Xianyang, and Void never thought that he could win Li Xianyang.

[Chapter 1198: Gorgeous statue!](#)

At this time.

More and more people gathered to see the statue.

There is no need for special promotion at all, the big guys automatically gathered together, with a look of excitement and enthusiasm.

"It's time to kick off the curtain."

"Xiaobei, there is news that these warriors will pull down the gold cloth with their hands, so that they can be shredded and stored, but they must not hurt people during the fight."

Su Lang looked at the warriors in the square and every street under his feet, a smile was drawn at the corner of his mouth.

The establishment of the incense statue is a big event, the atmosphere must be up!

"it is good!"

Chu Xiaobei nodded and immediately conveyed the news to the people below.

quickly.

This news reached the ears of every warrior.

"What? His Majesty Langdi allowed us to personally uncover the golden cloth!"

"Great, great, I must personally uncover the golden cloth for the statue of His Majesty Langdi."

"Hmph, I am the one who uncovered the golden cloth for His Majesty Langdi, you all let me out!"

"Cut, everyone wants to be the one who uncovers the golden cloth. When that happens, you will be swarming with your small body. Be careful of being crushed!"

"Hehe, don't look at me thin, I'm a new martial artist who just returned from the sanctuary!"

"Oh, awesome, fortunate to have a good time, but Wu Sheng is really not surprising, you see, I am also a three-star Wu Sheng."

"Don't make a noise, there is good news. His Majesty Langdi allows us to tear up the golden cloth and use it as a souvenir!"

"Oh my God, I must grab a piece, hurry up and squeeze to the front!"

"All get out of the way, I will not only grab the gold cloth, but I will also hold the toe of the statue of His Majesty Langdi!"

"Not only do I want to hug, I want to kiss!"

"You are blasphemy, what am I going to kill you!"

"..."

As Su Lang's oral message spread, everyone went crazy.

Every place with statues turned into a pot of water and oil, boiling like it was about to explode!

Immediately after.

Chu Xiaobei's voice spread throughout the city: "The unveiling ceremony of the statue of His Majesty Langdi officially begins!"

Wow!

Countless people were in an uproar, and then rushed forward instantly.

Because the no-fly formation was opened, no matter what kind of martial artist, he could only run on the ground.

then.

The crowd was surging, like an endless frenzy rushing towards the statue of Su Lang.

The martial artist with a high level of cultivation speed is fast, and immediately rushes to the front.

However, there are some warriors with a low level of cultivation, who are standing in front of the statue and can grab the golden cloth almost in the blink of an eye.

The next moment.

Countless warriors Qi Qi grabbed the golden cloth covering the statue and screamed with excitement.

Immediately everyone worked hard, Jin Bu suddenly broke, slipped from the statue and plunged into the crowd, and then fell apart in an instant.

"Grab!"

"My mine, His Majesty Langdi's gold cloth is mine!"

"Hahaha, I grabbed it, I want to be my heirloom, passing on from generation to generation!"

"..."

The warriors who grabbed the golden cloth were very excited.

The warrior who didn't grab it was a bit regretful.

But no matter who it is, their eyes are quickly attracted by the statue that reveals the truth.

That is the statue of Su Lang, vivid and vivid!

It is like a real god!

Wearing a black and gold-patterned shirt, he has an unparalleled handsome face, long dark hair dancing wildly in the wind, and cold eyes overlooking Jiuxiao.

His figure is like a platinum cast, tall and stalwart, domineering, guarding the universe, eternal and immortal.

Every inch of the entire statue is emitting a dazzling light, eternally bright.

Its whole body is filled with rain-like energy, sweeping all around, sacred and majestic!

There are also numerous beautiful visions such as lightning and thunder, wind and rain, tsunamis, flames, and sun and moon surrounding.

The platform at its feet is cast in the original shape of the southern mainland, and is carved with mountains, plants, trees, birds and beasts and countless worshipped intelligent creatures.

Under the platform, there are real, alive warriors from different wise races, bowing their heads and worshiping, sincere and fanatical!

"Your Majesty Langdi!!!"

"Meet your Majesty Langdi!"

"Knock to His Majesty Langdi, Lord of the South!"

"His Majesty Langdi, may your will always be admired and guide us towards the future!"

"Your Majesty Langdi, the lofty supreme, I hope you will enter the lives and hearts of the world and become the lord of all races!"

"His Majesty Langdi..."

[Chapter 1199: You are so versatile](#)

"..."

Countless warriors were crawling on the ground, excited, or tears filled their eyes, or shouted loudly, or prayed silently.

this moment.

Su Lang truly imprinted the deepest mark on the southern continent, imprinted on this land, and in the hearts of all the creatures!

"This statue is very good, you are so versatile!"

Su Lang looked at his statue and praised Chu Xiaobei's three daughters with great satisfaction.

The three women received Su Lang's approval and praise, and they suddenly had a small expression of happiness and contentment, and they were obviously extremely happy.

"Master!"

"Please also officially activate the statue!"

Emperor Zhunxu knelt on one knee beside Su Lang, offering a jade pendant with both hands.

This jade pendant has only one function, and that is to activate the incense channel, connect with forty-nine statues, and officially begin to collect incense power.

"Ok."

Su Lang gave a faint hum, took the jade pendant, but did not activate it immediately.

Instead, he took out the different sky box from the storage space, waved his hand, and sank into the hair of the giant statue dancing wildly.

At the same time, it is also arranged around the different sky box with the rules of aspiration force and some formation methods, so that it can completely absorb all the collected incense aspiration force.

"The Southern Continent of Canglan is much stronger than the life universe of Zhou You."

"The stronger the creature, the more incense will be produced and the higher the quality."

"Presumably, the 100 Wuyu tea trees in the different sky box will soon be able to purify the soul of Emperor Kuangerlu."

The corner of Su Lang's mouth twitched, revealing a smile, "If you add the incense collection channels reserved in the Five Elements Heaven, those 100 tea trees are probably not enough."

While thinking.

Su Lang activated the jade pendant in his hand.

Suddenly.

A light and hazy light bloomed on the statue, which seemed to echo the distant existence.

The forty-eight statues are all connected to the main statue of the holy city of Yaochi.

The invisible attraction is uploaded from every statue, absorbing the incense power contributed by countless creatures.

In an instant.

A large amount of incense wishing power was absorbed by the statue, and then poured into the different sky box.

The one hundred Wuyu tea trees were originally lacking in energy, but at this time they were alive and well, madly absorbing and transforming incense power.

The divine soul of Kuang Erlu floating in the sky swallowed the transformed positive incense willingness, and his face was contented and happy.

The negative emotions and thoughts in the body are constantly dissipated under the action of the incense aspiration, leaving only the positive emotions and thoughts.

The violent and bloodthirsty Kuang Erku has gone deeper and deeper on the road to becoming a good man!

"As expected, the quantity and quality of incense aspirations are very high."

"One hundred Wuyu tea trees have reached their limit, and they can't be dealt with soon."

Su Lang smiled faintly, "It seems that I'm looking for a chance to get a little more innocent tea tree."

Thought of this.

Su Lang thought of Yuan Yue and Si Yuxiang again, and didn't know how they were now.

Shook his head.

Put the thoughts in your head aside for now.

Su Lang turned his head to look at Emperor Wuxu: "You did a good job, as a reward, stretch out your forehead."

"Uh...forehead?"

The emptiness Zhundi was taken aback, his eyes burst out with extremely excited light, and he hurriedly walked in front of Su Lang.

He has accepted the cultivation base and rules taught by Su Lang, and he knows what that means!

However, he never expected that this time was different from the previous two.

"system!"

Su Lang reached out his hand against the empty forehead of Emperor Zhun Xu, "Start the initiation of the exercises and instill the "Eternal Realm Classic"!"

"Ding! The instillation function is activated, and the instillation is in progress!"

Rumble!

The emptiness of the emperor only felt thunder and thunder in his mind!

The profound meaning of the rules of space is like the Milky Way in the sky hanging down from the sea of knowledge, and the endless knowledge is imprinted in the soul in an instant, causing him to have countless enlightenment instantly.

"This...this is a space system emperor level technique!"

"What the Lord gave me is the exercise method, the eternal world classic, the emperor-level exercise method!"

"Heaven, instill cultivation bases, rules, and exercises. What else can't be done by the Lord!?"

"..."

Even though his mind was filled with countless exercises and profound meanings, Emperor Wuxue still aroused deep horror, ecstasy, and respect and fanaticism for Su Lang.

At this moment, Su Lang once again activated the one-key empowerment: "The system, instilling "Liangyi Tianyin Dilu"!"

"Ding! Gongfa empowerment is active, and the cultivation technique is instilling..."

Suddenly, countless emperor-level exercises on the rules of the void emerged in the mind and imprinted on the soul!

Emptiness Zhundi was so excited that his brain went blank!

[Chapter 1200: Sure enough, the mouth is too straight!](#)

After a few breaths.

Su Lang slowly retracted his right hand, and said flatly: "Next, work harder and strive to be promoted to Emperor Wu as soon as possible."

"Yes!!"

Emptiness Zhundi threw his five bodies to the ground and worshipped Su Lang.

He was full of confidence at this time, consciously he would be able to break through Emperor Wu, and live up to Su Lang's generous gifts and expectations!

Su Lang waved his hand: "Well, let's go down, by the way, call Yuehong Zhundi over."

"Yes!"

The empty quasi emperor retired respectfully.

"Brother Su Lang~ Where are we? We also have credit!"

"Yes, yes, the look of the statue was designed by the three of us!"

"..."

Chu Xiaobei, Ji Ruxue and Xianxian, seeing that the Emperor Zhunxuan received the reward, also asked Su Lang for the reward.

They don't really want any treasures, they want to be recognized and spiritually satisfied.

"Emperor emptiness has rewards, of course you three great heroes can't be left behind."

The corners of Su Lang's mouth raised slightly, and he smiled, "Come here, let's give a princess hug, and let's have another princess!"

"Huh~ don't, I'm so ashamed!"

Ji Ruxue's face turned red, and she hid behind Murong Xianxian.

Then Su Lang's gaze was attracted to Murong Xianxian, and Murong Xianxian immediately blushed, stepping on small steps, and hiding behind Chu Xiaobei with Ji Ruxue.

Su Lang's eyes naturally fell on Chu Xiaobei.

"Huh ~ princess hug? Who is rare?"

Chu Xiaobei tilted her face, her jade arms wrapped around her chest, and looked at Su Lang proudly.

"Oh!?"

Su Lang glanced at the ditch that Chu Xiaobei accidentally squeezed out, with a playful look on his face, "It's not rare for a princess to hold it, so it's rare for a princess? Well, I'll replace it with two poems!"

"Don't ~ Pervert!"

Chu Xiaobei raised a trace of vigilance in her tsundere, hugged herself tighter, and the gap deepened!

"Sucking~"

Su Lang looked at a touch of whiteness, his eyes lit up, "A woman's mouth, a deceitful ghost, said no, but the body is really honest!"

With that said, Su Lang took a step forward, opened his arms, and hugged Chu Xiaobei with a snap.

"Let's open the perverted devilish embryo!"

Chu Xiaobei finally blushed, shouting in his mouth and struggling with his hands.

However, her voice became a little weak, and she had no strength to struggle.

Because Chu Xiaobei felt that the familiar and long-lost embrace and temperature were actually really comfortable.

"Sure enough to speak up!"

Su Lang gave a humorous laugh, Muah Muah kissed Chu Xiaobei's pretty face.

Run after you kiss!

But Su Lang ran to Ji Ruxue and Murong Xianxian.

The two of them are like chickens under the eagle's claws.

The consequence, naturally, was embraced by Princess Su Lang.

at this time.

"someone is coming!"

Chu Xiaobei whispered, turned and ran.

Ji Ruxue and Murong Xianxian listened, and immediately launched the flying fairy, and ran with Chu Xiaobei without a trace.

"Look at shame you~"

Su Lang raised his eyebrows with a smile, and immediately looked at the person who came, who was Yuehong Zhundi.

At the beginning, Yuehong Zhundi and Kong Xu Zhundi went to Wuwei Xianzu to build a bridgehead in the north.

But later the empty Zhundi was recalled, and Su Lang's clone was also recalled, leaving only Yuehong with three or two big cats and kittens to maintain the situation in the Wuquexian clan.

At that time, the relationship between Su Lang and the great Wudi was still very unfamiliar, and the Yaojin and Tianyin emperors who were neighbors of the Wuquexian clan were even more vicious.

In this case, the pressure on Emperor Zhunhong Yuehong was really great, even if there was no credit, it was hard work.

Su Lang is not a person who favors one or the other, he is not stingy with the reward, and naturally he will not forget Yuehong Zhundi.

"The servant came too early, please be punished by the Lord!"

Yuehong Zhundi was kneeling not far away with an apologetic expression, as if he was a little uneasy because he had disturbed Su Lang's good deeds.

"It's nothing."

Su Lang smiled lightly, "Come here, after instilling the exercises for you, I have something else."

"Yes!"

Yuehong Zhundi suddenly walked over with excitement and knelt in front of Su Lang.

Obviously, when Emperor Zhunxuan went to call her, he revealed to her some information that Su Lang could instill the exercises.
