

"Body Tempering Pill, second-tier low-grade, 5 gold coins..."

"Body Tempering Pill, the second-tier middle grade, 7 gold coins..."

"Body Tempering Pill, second-tier top grade, 12 gold coins..."

The pill is divided into 1 to 9 levels, and according to the strength of the medicine, it is divided into six levels: waste, low-grade, middle-grade, top-grade, top-grade, and perfect.

The top grade is already very rare, the top grade will occasionally be a surprise, and the perfect quality pill will only appear once in a few years.

"The best is the top grade, 12 gold coins, equivalent to half a suite."

Su Lang watched and said, "But, it's only money, and you can come back after all your money is gone!"

"Give me 5 top grade body tempering pills!"

While talking, Su Lang handed the brochure back to the staff.

However, his words fell in the ears of people around him, and there was a burst of discussion.

"What? I heard that right? This guy wants 5 top-grade body tempering pills?"

"This young man turned out to be 5 top grade body tempering pills when he opened his mouth, kidding?"

"That's a pill worth 60 gold coins, can this guy get it?"

"Does he not know what a gold coin is?"

"..."

Everyone looked at Su Lang as if they were looking at another silly roe deer.

"Are you sure you want 5 top-grade body tempering pills?"

The staff also asked some disbelief.

If a martial artist did this, he wouldn't be surprised.

But this guy in front of him has no aura fluctuations, he is definitely not an official warrior, he wears cheap goods, and he doesn't have a piece of armor.

In this way, it is the merchandise of the junior and intermediate tempering body, can you get 60 gold coins?

"How many 60 gold coins? A bunch of poor ghosts."

Su Lang glanced at everyone with disdain, took out 60 gold coins from the system and handed them to the staff.

"Fuck, he really took out 60 gold coins!"

"A local tyrant, you can actually spend so much money during the tempering period."

"Wandering away, this guy must be a young man!"

"Tsk tusk, a full 60 gold coins, without blinking your eyes!"

"..."

The passers-by who were despised by Su Lang were so shocked that their jaws fell.

"This...this is the pill you want, sorry."

The staff handed the pill to Su Lang and smiled apologetically.

"Well, this attitude is much better than that old witch."

Su Lang smiled satisfied, then put a pill into his mouth, turned around and walked outside.

And his move once again attracted horrified discussions from everyone.

"This guy! He just ate it casually? Shouldn't you take such an expensive pill after bathing in incense and adjusting it?"

"Yes, and he just left! No luck refining!?"

"If you don't refine the pill, wouldn't it allow the power of the medicine to pass?"

"Oh my God, is this guy a monster?"

"How do I think he is like a lunatic?"

"..."

Almost everyone looked at Su Lang's back in amazement.

At this moment, Su Lang turned his head and smiled, "Master, I eat jelly beans, can't you?"

"puff!"

In the corner, a thin primary body temperer trembled, and directly spouted a mouthful of blood.

The others were also dumbfounded, unable to speak for a long time.

In fact, how could Su Lang treat the hard-earned medicine as jelly beans?

However, no matter what posture he is, whether he walks, sleeps, eats, or looks at beautiful women, the one-key practice function is helping him move his gong automatically.

Then, the medicinal power is naturally refined!

"This cultivation speed is really fierce!"

As he walked on the road, the spiritual energy around Su Lang hupled into his body.

The white villain in the mysterious space was submerged by gold at a speed visible to the naked eye.

"System, how long will it take for me to break through to the Quasi-Martial Artist?" Su Lang asked.

"Host, you only need 10 hours to break through to a quasi-warrior!"

"More than doubled? And five pills can last just 10 hours."

Su Lang nodded in satisfaction, "It seems that these 60 gold coins have no white flowers!"

The effect of Body Tempering Pill was very good, but Su Lang had not considered taking the pill to maintain the doubled state.

Because that is too expensive, 144 gold coins a day!

The cost of 7 days is enough to upgrade the system function to one level, but the cultivation speed will be doubled forever, and it is clear at a glance which one to choose.

"The cultivation base is waiting for a breakthrough... now it's time to look at the map!"

Su Lang took out the map, unfolded it, and suddenly saw a large number of interlaced areas and various labels.
