

One Click 1201

[Chapter 1201: Leaving a very stalwart back](#)

Next.

Su Lang glanced at the attribute panel of Emperor Yuehong Zhun, and found that she was practicing the techniques of the Wuquexian clan.

The main comprehension is that the rules of the water system and the rules of the wood system are much more common than the empty ruler.

"Space rules are extremely important, related to the inner boundary of Wuxian, Emperor Wu's life universe."

"I will pass on your space rules and space system emperor level exercises today, and then pass on your body forging emperor level exercises."

While talking, Su Lang put his hand against Yuehong Zhundi's forehead and gave instructions to the system.

"Ding! The rule empowerment function is activated, and the spatial rule is being instilled!"

"Ding! The power initiation function is activated, the "Eternal Realm Classic" is instilling, and the "Zhenyu Emperor Jing" is instilling!"

Suddenly.

There are countless exercises and rules in the sea of consciousness of Emperor Yuehong Zhun, and even thinking has become stagnant.

When she recovered from countless profound meanings.

Immediately found that he had mastered the space rules that tended to the great road, as well as two extremely powerful emperor level exercises.

The most important thing is that the two emperor level exercises are incredibly proficient, as if they have been practicing for countless thousands of years!

"Yuehong, thank you Lord!"

Without even thinking about it, Yue Hong immediately worshipped and surrendered to Su Lang's feet.

"Go ahead."

"I hope you can also break through to Emperor Wu level soon."

Su Lang's faint voice came, leaving Yue Hong with an extremely stalwart back.

Next.

Su Lang did not return to the White Jade Emperor's Palace, but went to Blue Star.

quickly.

Su Lang then came to the Fengling Clan and reached Blue Star through the time and space channel.

"Subordinates pay homage to the patriarch!"

Yan Hingxing greeted him and saluted Su Lang respectfully.

He could feel that the aura on Su Lang's body became more and more unfathomable, that aura was terrifying and suffocating!

"Don't be polite, stellar."

Su Lang nodded and smiled, "How is your understanding of the rules?"

"Return to the patriarch."

Yan Xingxing stood upright and replied, "In addition to the space rules bestowed by the patriarch, I also understand the Five Elements Rules."

"Oh?"

"As expected of a human genius!"

"In such a short time, I can comprehend five rules, amazing!"

Su Lang kept nodding his head, sincerely feeling that Yan Xingxing is very powerful.

"The pill given by Lord Dunai."

"There is also Blue Star, a holy place that understands the rules."

Yan Hingxing was humble, "Otherwise, with the stupidity of his subordinates, I am afraid that even a rule cannot be understood."

"Do not."

"Under normal circumstances, Wu Sheng can comprehend a rule in ten thousand years is considered fast."

"You have the resources I have given you, and the Blue Star, but you can comprehend the rules of the Five Elements so quickly."

Su Lang said seriously, "So, don't underestimate yourself, you are very strong."

"Yes, thank the patriarch for his encouragement!"

Yan Hingxing was no longer overly modest, and nodded solemnly.

"You can concentrate on comprehending the rules now, and don't practice the exercises."

Su Lang smiled, "I hope that when we see you next time, you can understand more rules."

"Definitely live up to the patriarch's expectations!" Yan Hingxing bowed deeply.

"I look forward to it."

Su Lang smiled, "By the way, while you are practicing, go help me screen human geniuses and register them."

"Subordinates remembered!"

Yan Hingxing nodded quickly, his eyes revealed joy.

Although Su Lang didn't say what he was going to do, Yan Hingxing could guess after thinking about it. Su Lang was definitely going to cultivate a human genius.

At present, the strong people around Su Lang are all warriors of other intelligent races, and the human race's sense of existence is too low.

Therefore, Yanxingxing has worried about the future of the human race more than once.

But now that Su Lang intends to cultivate the human race, which is naturally great news.

"Ok."

"I'm going to collect Jupiter here, so go down."

Su Lang smiled, turned around and stepped into the space channel, disappearing directly from the spot.

Yan Hingxing saluted the direction that Su Lang had left before leaving.

Solar system in space.

One by one avatars surround Jupiter, sitting in the void.

The originally huge Jupiter has shrunk by about four hundred times, becoming only three times larger than the blue star.

After extracting all gaseous layers and some liquid layers.

Jupiter has also changed from grayish-white-yellow to a translucent crystal planet, which looks very thorough, like a transparent orb hanging in space.

suddenly.

Countless spatial rhythm lines emerge in a certain void, forming a spatial channel.

Su Lang stepped out, crossed the void, and came to Jupiter.

[Chapter 1202: Tai Sui Inner World!](#)

"Scatter!"

Su Lang waved his big hand, and the sixty clones disappeared.

When they appeared again, they had reached the edge of Saturn.

However, Su Lang did not immediately let the avatars arrange a space channel to pull away the Saturn component.

Because the asteroid belt has reached its limit after absorbing the Jupiter component, and it can no longer accommodate more Saturn components.

To solve this problem is also very simple, just arrange a gravitational array again.

After transferring the clone away.

Because Jupiter became smaller and its gravity weakened, it almost escaped from its original orbit.

Su Lang did not need to arrange an array to isolate the sun's gravity.

Apart from anything else, Su Lang directly displayed terrifying space rules.

Suddenly.

Numerous space cracks appeared around Jupiter, connected to each other, forming a giant network covering the entire planet.

More and more space cracks joined the giant net, and finally Jupiter was completely isolated from this space.

The next step is simple.

Once the inner boundary opens, it is like a giant starry sky, swallowing Jupiter in one bite.

"Tai Sui Inner World, done!"

Seeing the dark space holes in the space, Su Lang smiled faintly.

But see Tai Sui in the inner world.

An extremely crystal-clear planet suspended in the center of the inner boundary, with a faint emerald green color inside.

The land, storms, flames, water currents, etc. formed in the opening of the inner boundary are all absorbed.

The entire inner boundary became extremely clear directly from the chaotic state.

However, the Tai Sui star is still full of "oceans", because the land formed when the inner boundary first opened is really too little.

"As a planet, you have to have a bit of land."

Su Lang murmured, opened the storage space, and threw all the treasures of wood properties into the Tai Sui Star.

Rumble!

More than a thousand pieces of precious land with strong wood attributes and rules fell on the Tai Sui star like a meteor falling to the ground.

These treasures were placed in the same place by Su Lang, forming a continent.

The area of the continent is not large, only one-tenth of the planet, but it is somewhat similar to the incomplete life planet of Emperor Xuanyu Wu.

Finish it all.

Su Lang closed his eyes and carefully felt the changes brought about by Tai Sui's inner world.

The Tai Sui Inner Realm, like other inner realms, not only feeds back a series of rules of the Wood System Dao, but also devours Xian Yuan to refine it, and then feeds Su Lang.

Compared with other inner realms, Tai Sui inner realms back-feeding cents are not only the essence, but also more.

"Wooden Avenue has enhanced my endurance." Su Lang nodded silently.

Although his attribute panel has not changed, he can clearly feel that the reserves of cents are increasing.

"Well, in addition to enhancing battery life, Xianyuan also brings healing effects, which is not bad."

Su Lang nodded in satisfaction.

Soon.

He moved his feet, crossed the void, and came to Saturn.

"The asteroid belt is already full and cannot contain the Saturn component."

"To extract Saturn, you must first establish a new gravitational array, how to build it..."

Su Lang frowned slightly, "Could it be possible to build another circular gravitational array, just like the asteroid belt?"

Think for a moment.

Su Lang vetoed this plan.

Because he thought of a better and easier way.

That is to establish a gravitational array, as the core of the new planet, to capture and absorb Saturn components.

However, the gravitational array itself is too fragile, if too much Saturn is adsorbed, it will definitely be squeezed.

So Su Lang did not intend to establish only one gravitational array, but 60,000.

The clones can display and maintain 600,000 spatial channels in total.

Ten space channels correspond to a gravitational array method, which captures one-sixty thousandth of Saturn's composition, which is completely bearable.

Just do it.

Su Lang immediately arranged 60,000 gravitational arrays near the asteroid belt.

With the perverted function of "single thoughts into formations", it takes a few breaths to arrange these formations.

Immediately after.

Su Lang ordered the clones to start arranging spatial channels.

Suddenly.

One by one, the avatars were running wildly with energy, and 600,000 space channels were established one after another, covering the entire surface of Saturn.

The surface of Saturn seems to have countless black vortices, which is like the entrance to hell, which is creepy.

[Chapter 1203: Uranus Neptune!](#)

Wow!

In an instant, a large amount of Saturn components were swallowed by the space channel and transferred to 60,000 gravitational arrays.

"Finish!"

"In about three days, Saturn will be able to enter the inner boundary."

The corner of Su Lang's mouth twitched, and he turned and flew towards Uranus and Neptune.

In the solar system, the planets with the attributes of the five elements have been assembled.

I don't know if Uranus and Neptune are fragments of the core of the Infinite Realm.

If so, what attribute should it be?

In ancient Chinese myths, Uranus and Neptune had no ancient names, and Su Lang could not speculate.

Pass through space.

Su Lang arrived directly near Uranus.

Uranus is a pale to whitish blue planet with a brilliant halo around its waist and dozens of satellites.

It was about sixty times the size of the Blue Star, and it was a small gas giant planet, and it was also beyond the reach of Su Lang's Wuxian inner world.

"Is it the core fragment of the Infinity Realm?"

"What kind of attribute is it, let me see it!"

Su Lang smiled slightly and unfolded a huge mental power.

Although his mental power has been reduced many times, he still has no problem covering Uranus.

Moreover, Su Lang's mental power is much stronger than ordinary Wudi, and it is almost effortless to explore Uranus.

In a flash.

Su Lang's spiritual power covered the entire Uranus.

The first feeling I got was-wind!

Not bad.

Endless wind!

A white storm, containing the rules of wind close to the avenue level, raiding wildly on the planet, it is very powerful!

If an ordinary Wuxian falls in, it will be torn to pieces almost instantly!

In addition to the rules of wind, Su Lang also felt the rules of light attributes.

This light attribute is also the main reason that the storm appears white.

"It's still the core fragment of the Boundless Realm, hey, happy!"

A surprise appeared on Su Lang's face, "Moreover, the regular attributes are also very good. The wind attributes are the mainstay, and the light attributes are supplemented. The speed is absolutely leveraged.

With a surprise color.

Su Lang's spirit class continued to penetrate into Uranus.

Soon, the spiritual power penetrated the endless storm and gradually reached the land.

The land of Uranus appears to be composed of ice and a lot of rocks on the surface.

But Su Lang discovered that the ice is actually a kind of light attribute treasure, ranging from the Valkyrie level to the Emperor level!

Those rocks are wind-based rocks, surrounded by countless gusts of wind.

Continue to go deep inside the planet.

Su Lang quickly discovered the inner core of Uranus.

The inner core of Uranus, like Jupiter and Saturn, is an extremely large imperial gem, about the same size.

And this imperial gem is of wind attribute!

"The core of the wind rules."

"The surface is covered with countless light-system regular gems."

"It turns out that this is the composition of Uranus."

A smile was drawn at the corner of Su Lang's mouth, "I don't know what Neptune, the twin of Uranus, is like."

Regain mental power.

Su Lang directly opened the space channel and went to Neptune without any muddle.

next moment.

The dark blue Neptune appeared in the field of vision.

Neptune is almost the same as Uranus, except that the color is deeper, and there are vortices formed by black storms on the surface.

Su Lang unfolded his mental power and began to explore the planet.

next moment.

Su Lang discovered that Neptune, like Uranus, has countless storms raging!

"Is Neptune also the rule of the wind?"

With this question in mind, Su Lang controlled his mental power to explore deeper.

result.

Su Lang soon felt the wind rules no less than Uranus, and the rich dark rules!

Go deeper.

Suddenly I saw a large number of black jade and wind-based rocks.

When Su Lang's spiritual power touched the inner core of Neptune, he even saw a giant emperor-class ore containing endless dark rules.

"Uranus is a white storm with wind and light attributes!"

"Neptune is a black storm with wind and dark attributes!"

Su Lang's eyes lit up, and his face was stunned, "These two planets are indeed twin planets!"

[Chapter 1204: Still takes a few minutes](#)

Suddenly.

Su Lang also felt very pleasantly surprised.

The treasures of light and dark attributes are very, very rare!

Even if Su Lang obtained the life universe of Zhou You and Ling Jue, and received gifts from many Wu emperors in the Canglan Continent, he had only seen three or four treasures of light and dark attributes.

but now.

There are a lot of light rule jade on Uranus.

There are a lot of dark jade on Neptune.

These jade and windy rocks form the mantle, which wraps the cores of the two planets.

It can be seen that this kind of light and dark jade occupies at least half of the planet's mantle.

If you separate it from the wind-attribute rock, and then re-condense it, you can definitely get the two purest light and dark planets!

Moreover, its volume is more than ten times larger than Blue Star!

"Tsk tut!"

"Now, even the planets in the ninth and tenth inner world have been resolved."

"Moreover, the Ninth and Tenth Inner Realm can't hold so many light and dark treasures, and some too low-level ones need to be eliminated."

"Well, the removed parts are also fragments of the core of the Boundary Realm. They can't be discarded at will, just put them in the storage space first."

Licking his lips, Su Lang left Neptune with a hint of excitement and flew to Pluto.

To be precise, it was flying to the Kuiper belt where Pluto is located.

Pluto is a dwarf planet, very, very small, much smaller than the moon.

The Kuiper Planetary Belt is made up of many small celestial bodies similar to Pluto.

"The Kuiper Planetary Belt is much larger than the Firewood Asteroid Belt, and there are more stars!"

"If the celestial bodies in it are all fragments of the boundless world, it will make a lot of money!"

With a hint of expectation, Su Lang used the rules of space to cross the distant space and came to the Kuiper planetary belt.

It's very, very far away from the sun, it's pitch black.

Su Lang unfolded his mental power and quickly found some planets much smaller than the moon, and the gray and mottled Pluto was among them.

He was disappointed immediately.

Because these small planets do not manifest any rules, the composition of the planets is very ordinary.

This also means that they are not the core fragments of the boundless world.

"Ugh."

"It seems that it is not unreasonable to exclude the name of the ninth planet of Pluto."

Su Lang curled his lips, then turned around and left.

These asteroids are too ordinary, and it is useless to collect them into the inner world. On the contrary, they will dust the existing planet orbs, which is not worth the loss.

Of course.

Su Lang didn't like it, but it didn't mean that other Wuxian Wudi didn't like it.

The main components of their inner boundary and life planet are this ordinary rocky soil.

The treasures that manifest various rules are rare treasures dotted on the planet.

It's like Su Lang's inner planet, the whole planet is made up of "treasure land", too low-level "treasure land" to look down upon.

After leaving the Kuiper planetary belt, Su Lang directly returned to the White Jade Emperor Palace on the Canglan Continent.

And the moment he entered the quiet room.

A series of system prompts sounded.

"Ding! "The Classic of Thunder and Sand" has reached the founding level."

"Ding! "Mei Yue Ripple Record" has reached the founding level."

"Ding!....."

It turned out that the three hundred and seventy-two immortal level exercises that corresponded to the remote rules had all been cultivated!

"Hi, it's really enough!"

Su Lang raised his eyebrows, but couldn't hide the joy in his eyes.

Immediately after.

He immediately issued instructions and began to comprehend the 372 rules corresponding to the exercises.

At the abnormal speed of the one-key practice function.

The rules were quickly understood by Su Lang, and he directly mastered them thoroughly and superbly!
of course.

It still takes... several minutes to comprehend the three hundred and seventy-two rules.

Take advantage of this time.

Su Lang took out the eight emperor level exercises.

They are "Xiantian Yiqi Emperor Sutra", "Kunlun Invisible Steps", "Kunlun Invisible Steps", "One Thought Sealing the Sky Secret Eye", "Emperor Phase Without Beginning Sutra", "Aotian War God Jue", "Earth Burst Sky Star" "Record", "Vientiane Sky Quotes".

The functions of the first four exercises are very powerful, and Su Lang has already planted grass.

The Xiantian Yiqi Emperor Sutra allows the practitioner to transform all the energies of the heavens and the earth into a higher-level non-attribute energy innate Yiqi.

The magic of the mysterious method can allow the practitioner to obtain extremely abnormal mental power penetrating into the micro ability, and can see the molecular-level onlooker world.

Kunlun's invisible steps can greatly improve the physical fitness of the practitioner, and it is a supernatural ability to run away, sacrificing a great realm, and directly escaped, and the side effects Su Lang is immune.

One thought to seal the secret pupil of the sky, can cut open the "Nianfeng Space", pull the enemy into it, and pass through the two-person world. Others will absolutely not be disturbed. They can advance or retreat, attack and accept, bah, and defend.

[Chapter 1205: you deserve to have](#)

In addition to these four emperor level exercises.

The following four exercises are also very useful.

"Emperor Phase Without Beginning Sutra" and "Aotian War God Jue" are both emperor-level exercises for body building, fulfilling Su Lang's promise to exercise.

Among them, "Di Xiang Wu Shi Jing" is an emperor level exercise method that Su Lang synthesized very early.

After practicing, you can have the heaven and earth phenomena, once you start, you can stand upright!

Originally, Su Lang didn't want to practice this exercise.

But when he synthesized many emperor-level exercises, he discovered that this is really a good exercise.

Because of the emperor-level exercises that were synthesized later, only one exercise was able to grow larger.

That exercise was also mentioned, and it was called "Warrior Emperor Jing". After practice, it began to grow at the cellular level, and eventually stood upright.

However, this kind of giantization cannot be reversed, and it is not a side effect. It cannot be immunized with the function of "vomiting the old and accepting the new".

As a man, one must have a technique that instinctively grows.

It can't be smaller if it becomes bigger, but who can bear it all day long?

and so

—— "Emperor Phase Without Beginner", you are worth having!

Let's talk about "Aotian War God Jue".

Just the two words 'Aotian' has already revealed an awesome temperament.

However, this exercise seems to be very offensive, but it is actually a defensive exercise.

The concept of his exercise method is to cultivate the strongest defense, even if he is an enemy of the whole world, he can stand proudly in the sky and despise everyone with his nostrils.

Simply put, it means putting out the meatiest pretense and getting the most venomous beatings.

If it is matched with a powerful attack power, you don't need to be beaten, but become a real God of War with a high blood armor and a thick attack and explosion!

It just so happens that Su Lang has an extremely powerful attack power!

So Su Lang felt that this exercise was very suitable for him.

Finally, I will talk about the two exercises, "Records of Earth Burst and Stars" and "Vanxiang Tianyin Tu".

Reasons for choosing them.

It was because Su Lang wanted to condense the 'light planet' and the 'dark planet'.

Both of them are gravitational avenues, with many mysterious gravitational methods, which are exactly what Su Lang just needs.

In short.

Su Lang put the eight emperor-level exercises on the practice villain.

The tireless practice villain gets busy again.

Because the one-key martial arts function has reached level 35.

So these eight emperor level exercises can be completed by Su Lang in just 24 hours.

"I really look forward to it~"

Su Lang licked his lips with excitement.

at this time.

Suddenly a breath of majestic breath rose in the far south.

However, although this breath is huge, it is very gentle, and it has a sense of nature and human touch.

"Si Yu laughed...Fused Canglan Daogen!?"

Su Lang's expression moved, and a space channel suddenly appeared under his feet.

In a flash.

Su Lang arrived at Si Yuxiang's retreat.

A fairy-level hall is located on the ground, and the fairy spirit rises, unlike a place where mortals can set foot.

That huge breath came from this hall.

Su Lang was out of thin air, his robe fluttered, and he slowly landed on the square outside the fairy-level hall.

"Knock to your Majesty Langdi!"

Immortal Qiqi Ling knew Su Lang's identity and immediately came out to meet him.

Just as Su Lang wanted to ask, "How is your master?", he heard a cheerful laugh from the hall.

"Hahahaha!"

"Friend Langdi, I can be regarded as a fusion of Canglan Daogen!"

"From now on, I will officially become a native of the Canglan Continent, and my roots are just like fellow Taoists!"

Si Yuxiao walked out of the hall with an extremely happy expression on his face, Qingqiu Emperor Wu also stood beside him happily.

"Haha!"

"Congratulations to fellow daoists, congratulations to fellow daoists!"

Of course, Su Lang responded with a polite smile and courtesy.

However, he secretly smiled in his heart: I am not a native of Canglan Continent, I am from Blue Star!

After saluting Si Yuxiao, Su Lang saluted each other with Qingqiu Emperor Wu.

"Friend Langdi Dao!"

"I wonder what happened to your injury!?"

Emperor Qingqiu's salute was very solemn.

"Friend Qingqiu."

Su Lang smiled and said, "There is no shortage of miraculous medicines in the body, and there is no shortage of spiritual earth and treasure in the universe of life. My injury is much better."

[Chapter 1206: Si Yu laughed almost stupidly](#)

"That's good, that's good!"

Qingqiu Emperor Wu showed a smile.

Si Yuxiao noticed the change in Qingqiu Wudi's attitude towards Su Lang for the first time, which was a bit strange.

"Haha!"

Qingqiu Wudi noticed the strangeness of Si Yuxiao, and explained with a smile, "Daoist Si Yuxiao is busy fusing Canglan Dao roots and doesn't know what happened in the past two days."

"Oh?"

"Have something big happened recently?"

"I am also a member of Canglan Continent now, so I have to understand it clearly!"

Si Yu smiled in surprise, then pointed to the hall and said, "Come on, two fellow Taoists enter the hall!"

"Okay, go in and talk."

Su Lang nodded, and then the three of them entered the hall together and took their seats.

Xiandian Qi Ling poured spirit tea for the three of them, and the aroma suddenly overflowed.

"It's up to me."

Qingqiu Wudi looked straight, and said with a hint of inconceivability, "The clone of Daoist Langdi entered the Jingtian Continent and was not rejected by the Jingtian world consciousness!"

This statement came out.

"What! What! What!?"

"The clone of Fellow Langdi is not repelled by the world consciousness!?"

"This! This! How is this possible!"

Si Yuxiao was stunned and dumbfounded, his mouth opened like a crocodile's mouth, and his eyes stared like a snail's!

Ever since the Zi Ming emperor lost its homeland and wandered in the starry sky.

His Si Yuxiao took the Ziming Emperor through at least ten worlds, and was finally accepted by Emperor Wu Xuanyu at Canglan Star.

In this process, all of their Zi Ming Emperor Clan were rejected by other world consciousness.

Even if he settled behind Canglan Star, he still had enough of the pain of world consciousness rejection.

Even after tens of thousands of years, Si Yuxiao still needs to integrate Canglan Dao roots in order to be officially accepted by Canglan Star and become an aboriginal creature.

however.

Now someone told him that Su Lang's clone was not repelled by the consciousness of another world!

It can be seen that this news has a great impact on Si Yuxiao!

Seeing Si Yu laughed like thunder and burst into the air, Su Lang was afraid that he would be shocked by the news.

At this time.

"This matter is absolutely true."

Qingqiu Emperor Wu said with a smile, "Moreover, the avatar of Fellow Langdi Daoist has sent back a lot of information. We now know the layout of Jingtian Continent very well."

"Oh my God!"

Si Yuxiao finally came back to his senses, staring at Su Lang, "Friend Langdi, you...you are too good!"

"It's just luck."

"I didn't know beforehand that the world consciousness of Jingtian Continent would not reject my clone."

Su Lang smiled and said modestly, "He was sent over with the mentality of sacrificing that clone. I didn't expect the result to be so amazing."

"Hiss~"

Si Yuxiao suddenly took a breath, and the shock on his face added a hint of joy, "In other words, we have a deep understanding of the movement of Jingtian Continent!?"

"Not bad!"

Qingqiu Emperor Wu slowly drank the spirit tea, "Moreover, knowing the enemy's news is one aspect. The clone of the Daoist Langdi also has a strong deterrent effect on the Jingtian Continent."

"Yes, I know."

"The avatar of Fellow Langdi holds the life universe anchored by the dark world!"

"I also brought that Emperor Wu who had contacted the Origin Devil Emperor of Dark Sky World, Hu Sixi!"

Si Yu nodded with a smile, and looked at Su Lang with more respect. "Fellow Langdi, most of the burden of this mainland battle is on your shoulders."

"Don't worry."

"This time, our Canglan Continent is absolutely impossible to lose."

"Even if you don't use the deterrence of Dark Sky World, you can surely bring the Jingtian Continent to a truce."

Su Lang smiled lightly, in order not to frighten the two of them, he didn't say anything behind him.

— — Not only that, I will also occupy Jingtian Continent and rule the two worlds of Canglan and Jingtian!

"Langdi Taoist Fellow is the noblest, strongest, and most reliable person I have ever seen."

Si Yu laughed as if his body was loose, and said with a haha, "I feel more relieved with the words of fellow Langdi Daoist."

"Yes, I was almost desperate when I faced the Jingtian Continent."

"Fortunately, Daoist Langdi has the courage and strategy, and the world is unparalleled, so he gave Jingtian Continent such a hand, haha!"

Qingqiu Emperor Wu also touched his palms and admired, "By the way, in addition to the battle of the mainland, Fellow Langdi Daoist has done a great thing!"

"What's the big deal?"

Si Yu laughed surprised and curiously asked.

"Five Elements Heaven!"

Qingqiu Emperor Wu pointed to the sky, with deep admiration in his eyes.

[Chapter 1207: How shocking is this](#)

Seeing Qingqiu Emperor Wu's look of admiration, Su Lang suddenly smiled and said nothing.

He never thought of continuing to conceal his refining tools and alchemy methods.

Because this time is different from the past, his strength is enough to ensure that no one will be caught as a tool person.

Therefore, Su Lang had already anticipated the changes in the Five Elements Heaven that Qingqiu Wudi discovered.

It is foreseeable that the other emperors of Wu Xing will certainly soon discover the changes in the Five Elements Heaven, and then, like Qingqiu Emperor Wu, they will be shocked and admired!

at this time.

Si Yu smiled when Emperor Wudi Qingqiu pointed to the sky, so he unfolded his mental power with a look of surprise and probed into the sky.

next moment.

"Oh my God!"

"This is...Eighth Turn Emperor Formation!"

"Isn't the Five Elements Heavenly the Sixth Revolution Emperor Formation? How can it become the Eight Revolutions in an instant!"

Si Yu stood up with a smile and looked up at the sky outside the fairy palace, the boss with an open mouth.

He couldn't believe his eyes!

The Five Elements Heaven hadn't changed in the Five Elements Heaven before it was clearly closed and merged with Canglan Dao Root.

It took only a day or two to merge Canglan Daogen, and the Five Elements Heaven had become an Eighth Rank Emperor.

This is incredible!

Even if Si Yuxiao was so knowledgeable, at this time, it was as if ordinary people encountered a supernatural event, it was incredible to the extreme.

"Lang... Fellow Langdi Daoist."

Si Yuxiao still looked up at the sky, and asked incredulously, "The promotion of the Five Elements Heaven is yours!?"

"Yes."

Su Lang smiled faintly.

"The transformation of the Five Elements Heaven is not only because the formation has become more and more advanced."

Qingqiu Emperor Wu sighed with emotion: "It's also because the quasi-imperial soldier at the core has been promoted to the real imperial soldier."

"The quasi-imperial soldier was promoted to the imperial soldier!?"

Si Yu laughed and looked at Su Lang numbly, "Father Langdi Daoist even has such a great skill in refining!"

"Haha."

"How can the refining skills of the Langdi Dao friends be described in the word 'powerful'?"

"The refining attainments of Fellow Langdi should be described as the best in the world, unmatched in the world!"

Qingqiu Emperor Wu shook his head and said, "Si Yuxiao, fellow daoist, knows how many imperial soldiers Langdi Daoist has been promoted?"

Su Lang continued to laugh without saying a word, and it was very refreshing to hear the nameless strongest person on the Canglan Continent flatter himself.

"Isn't it an emperor soldier?"

Si Yu smiled and raised his teacup with a weird face: "Can you be promoted to more emperor soldiers in just one or two days?"

"Of course it's not an emperor soldier!"

"Only the Five Elements Heaven, there are five emperor soldiers with different attributes!"

"In addition to this, there are also the Imperial Army of the Space Daochang, the Imperial Army of the White Jade Emperor Palace, the Imperial Army of the Slaughter Heaven Sword and the Sheath Emperor, and the Imperial Army of the Long Niu Yuxi Emperor.

Qingqiu Emperor Wu's shocked gaze fell on Su Lang, "Furthermore, the personal weapon of the Daoist friends of Langdi is also an emperor, and he also has a mirror of the emperor."

"puff--!!!"

After taking a sip of tea, Si Yu laughed directly, followed by a violent cough.

In fact, as Emperor Wu, he would not be choked.

But Si Yuxiao needed to vent his emotions, so he kept coughing.

Su Lang, who was on the other side, immediately unfolded a barrier calmly, and wanted to put a mask on Si Yu Xiao.

"Eleven Emperor Soldiers!"

"This, this... how shocking this is!"

Si Yuxiao finally stopped coughing. He looked at Su Lang like an ordinary person watching a ghost, and the turbulent waves in his heart were about to spurt out of his throat.

Si Yuxiao's ancestor was too generous.

And it is very wide and wide, with great emperor-level ancestors who rule the entire planet and named it Purple Pluto!

But even so, there are only nine emperor soldiers belonging to the Zi Ming emperor clan, and currently only one remains.

suddenly.

Qingqiu Emperor Wu spoke again: "Oh, yes, it is not yet considered Ling Jue's emperor..."

Si Yuxiao shook his whole body, his brain was blank, and thousands of words gathered together, but he couldn't say a word.

at this time.

Su Lang smiled: "Ling Jue's imperial soldier was cut to pieces by my Youtian Sword, and the fragments were melted by me."

He didn't dare to say that he disassembled Ling Jue's good hammer emperor soldier, because he was afraid that Si Yuxiao and Qingqiu Emperor Wu vomited blood.

[Chapter 1208: Emperor Lang arrives with a thousand troops](#)

But Qingqiu Emperor Wu and Si Yuxiao were equally shocked.

Qingqiu Emperor Wu has never seen the fall of an emperor soldier, even if he has experienced no less than five battles on the continent.

Si Yuxiao had seen the fall of his imperial soldier, and he knew how abnormal it was to smash the imperial soldier's weapon.

"Chopped!?"

"The imperial soldier was cut to pieces!"

Qingqiu Emperor Wu was shocked, "Then... Fellow Su Lang, how strong your emperor is!"

"Not so strong."

"It just happened to restrain the hammer."

Su Lang shook his head without elaborating.

"That's it."

Qingqiu Emperor Wu and Si Yuxiao nodded at the same time.

They all know that this involves personal privacy, even Su Lang's hole card.

Just asking is already presumptuous.

Su Lang did not want to elaborate, it was completely understandable.

Of course, they didn't know that Su Lang didn't care about exposing Youtian Sword's strength, but was too troublesome to explain.

"Friend Qingqiu."

"The battle of the mainland will begin soon."

Su Lang changed the subject and asked, "I wonder how our Canglan Continent is preparing?"

"I'm just trying to discuss this with a fellow Langdi Daoist."

Qingqiu Emperor Wu nodded, "Now that the twenty-eight emperors in the north are ready, we will send friends Langdi and Si Yuxiao."

"Twenty-eight people?"

"Do Yuan Yue and Si Yuxiang also participate in the war on the mainland?"

Su Lang frowned, "The two of them are too weak, and the war on the mainland is extremely dangerous. If it goes wrong, it will be forever."

Su Lang also hoped to get some innocent tea trees from Yuan Yue and the others.

If a person dies, the universe of life disappears, and he still plays a trick.

"no way."

Qingqiu Emperor Wu smiled bitterly, "Our Canglan Continent can only go all out."

Paused.

"In fact, Daoist Langdi needn't worry too much."

His expression suddenly became serious: "Now that the Xuanhu inheritance has all heirs appearing, the six heirs have combined magical powers."

"That's it."

Su Lang appeared in a daze.

In fact, he had guessed before.

There will be a certain connection between the six inheritors, and they can unite to exert great combat power.

Just as time goes on, I leave it behind.

"Ok."

Qingqiu Emperor Wu nodded, "Currently 28 Emperor Wu are ready, and all major forces have sent the Wuxian Army and the Great Saint Army..."

"I'll go back and gather the legion."

Si Yuxiao said immediately, "Although we don't have many martial arts of the Ziming clan, we wish to go all out."

"Me too."

"It's just that, there are only dozens of martial immortals under my command, and there are only two or three thousand people at the quasi immortal and great sage level."

Su Lang shook his head and smiled, "It's a pity that Luoyoucheng's dead soul army can't leave too far, otherwise I will summon the hundreds of thousands of dead souls together."

"The Southern Continent is developing, so there is no need for the whole army to attack."

Qingqiu Emperor Wu laughed, "As long as there is a fellow Langdi Daoist, there are thousands of troops!"

"Yeah yeah!"

Si Yu laughed and said, "Langdi Daoist friends have so many emperor soldiers, and one person is equivalent to several Wudi, not more powerful than any army!?"

"In that case."

"Thank you all for your kindness."

Su Lang smiled and bowed his hands at Qingqiu and Si Yu, knowing that Qingqiu Emperor Wu's meaning must have been approved by other Emperor Wu.

"Thank you so much."

Qingqiu Emperor Wu said sternly, "It's me, thank you for the birth of Daoist Langdi, and bring hope to turn the tide!"

Si Yuxiao nodded in agreement.

"Guarding Canglan Star is what I should do."

Su Lang smiled, "It shouldn't be too late, let's clean up and prepare for the battle."

"it is good!"

"I'll take a step first and go back to the Emperor Wu Palace to wait for the two!"

Qingqiu Wudi nodded solemnly, immediately opened the space channel and left the fairy hall.

"I'm leaving too, Fellow Si Yu."

Su Lang smiled and bowed his hands at Si Yu, planning to leave.

However, Si Yuxiao quickly said, "Father Langdi will stay, and there is still something to chat with Langdi Taoist friends."

"Oh?"

Su Lang was taken aback and replied, "What's the matter?"

"in fact."

"Next, I just want to ask why Langdi Daoist friend is not repelled by world consciousness."

Si Yuxiao asked straightforwardly, he had had enough of the suffering of world consciousness rejection, so he couldn't forget about it.

[Chapter 1209: Si Yuxiao's request](#)

"That's the problem."

"Seriously, I don't know the reason for not being rejected by world time."

"I can only attribute it to my blood, but I don't understand the blood of my race."

"In the distant mythology of our race, we are the descendants of Yanhuang and Huang, also called the descendants of the dragon, and the descendants of Nuwa, and we are also called...Anyway, the name is mixed, many, many."

Su Lang shook his head. It was really hard for him to answer Si Yuxiao's question.

Si Yuxiao had never heard of the Yanhuang bloodline mentioned by Su Lang.

In the boundless universe, I don't know how many races there are.

Every powerful intelligent race has its own ancient myth.

For his own blood, he will also be named the highest.

So, some titles that sound great are nothing great most of the time.

"It turned out to be so."

Si Yu smiled and nodded, his eyes flashed with disappointment.

He himself has integrated Canglan Daogen, and Si Yuxiang estimates that he has also obtained one of the few Canglan Daogen.

However, the Ziming Emperor Clan still has countless people.

They are very unlucky every day, and their lives are very difficult. I don't know how many years and how many generations it will take to get rid of bad luck...

Si Yuxiao is eager to change this situation and let the Ziming Emperor live a truly happy life.

Su Lang saw Si Yuxiao's disappointment in his eyes.

"About the rejection of world consciousness."

Su Lang hesitated for a moment, and said, "I have a way."

"what!?"

"Friend Langdi, you have a way!?"

Disappointed Si Yuxiao heard this, and his hair was flying with excitement.

"Yes."

Su Lang nodded and said, "However, it has a lot of limitations."

"Regardless of the limitations, as long as it works!"

Si Yu laughed and nodded quickly, "The Ziming Emperor is willing to pay a huge price in exchange for the method of a fellow Daoist."

"In fact, you don't need to pay any price."

Su Lang smiled, "Let me make a long story short, our human race is not repelled by world consciousness, including mixed races, can Taoists understand?"

"Mixed blood is not rejected by world consciousness?"

Si Yu laughed his brain around and realized in an instant, "As long as the blood of the Ziming Emperor and the human blood are integrated, the world consciousness can be exempted from rejection!"

"Not bad."

"But to be effective, you have to wait until the next generation."

"Moreover, the Zi Ming Emperor Clan may gradually merge into the Human Race and become a branch race."

Having said that, Su Lang looked at Si Yu quietly and smiled.

From the very beginning, Su Lang has supported the human race and other intelligent races to have a certain degree of intermarriage.

After all, assimilation is one of the most powerful weapons of governance.

Although the number of human races is now inferior to the Zi Ming Emperor.

However, as long as some restrictions on intermarriage are added, the number of pure blood races can be greatly maintained.

Based on the characteristics of the human race, with the protection of Su Lang, the status of the human race is absolutely superior.

As Su Lang grows stronger, the human race will become stronger and stronger, the population will also increase, and the power and status will become higher and higher.

Si Yuxiao and Ziming Emperor Clan couldn't keep up with Su Lang.

Once you choose to be mixed, it means you join the human race and become a branch race!

This will make Zi Ming Emperor Clan lose the purity of blood.

But then again, which kind of intelligent race in the boundless world is completely pure?

In countless years, the vast majority of bloodlines have been constantly changing to adapt to changing circumstances.

The unchanging pedigree, what can still be retained, is definitely the kind of unparalleled descent.

The Ziming Emperor Clan is naturally not of this kind.

Human race may be, after all, just not being repelled by the consciousness of another world is enough to go against the sky.

at this time.

Si Yu laughed and suddenly laughed: "Friend Langdi, I have been waiting for thousands of years, and I still care about the time of a generation!?"

In addition, being a branch of the human race is completely beneficial and harmless to our race.

What kind of pedigree purity can make my clan not unlucky, go to his sister.

I also asked the Daoist friends of the Langdi to show favor and allow the Ziming Emperor and the human race to marry. "

[Chapter 1210: Three roads of the Great Emperor](#)

"I can do nothing."

"I will contact the people below and let them do this."

Su Lang smiled and nodded, and immediately contacted Yanxingxing to let him take charge of the matter.

However, he also deliberately urged that intermarriage is fine, but it cannot be overwhelmed. The pure-blood tribe must be largely retained.

Among them, he also informed Yan Hingxing in detail about the benefits of not being rejected by the consciousness of another world.

Yan Hengxing made a guarantee for this matter and promised to do it well.

Su Lang was very relieved of Yanxingxing, the leader of the human race for nearly two thousand years, and completely let go after the instruction.

"okay."

"I have already issued an order here."

Su Lang smiled, "But our human race hasn't migrated to the holy city of Yaochi. It will take a while."

Si Yuxiao smiled against his will: "I...I'm not in a hurry!"

"Haha."

Su Lang smiled brilliantly, "The laughing fellow asked me a question, and I also want to ask some questions."

Si Yu smiled and nodded solemnly: "Knowing is nothing but words, and words are endless!"

"My fellow Daoist, what is Emperor Minggu's fetus? What is the soul of the Great Emperor?"

Su Lang took a deep breath and asked a question that he had been pondering for a long time without getting a definitive answer.

"Emperor Minggu!"

Si Yu stood up with a smile, a cold sweat appeared on his forehead, "Friend Langdi, you, do you know that I am the fetus of Emperor Minggu?"

"Haha."

"My eyes are too harsh, please forgive me."

"But I promise, this matter has not been mentioned to a third person."

Su Lang smiled apologetically, after all, he peeped into other people's privacy.

"call....."

Si Yu laughed and let out a long breath, and sat down softly, "It's okay if you don't say it, it's okay if you don't say it..."

"Friend Laughing Taoist is so nervous about Emperor Minggu's baby?"

Su Lang raised his eyebrows in surprise, "Could it be that once someone knows about it, he will get into trouble?"

"Yes."

"It will lead to murder."

Si Yu smiled bitterly, "Let me first answer the question from Fellow Langdi about Emperor Minggu's fetus and the soul of the Great Emperor. There is actually a close connection between the two."

"I am listening."

Su Lang nodded, raised his teacup, and listened.

Si Yu said with a smile: "The Emperor Mingguo has to start with the cultivation path of the Great Emperor Martial Artist."

"The road to emperor level cultivation!?"

Su Lang's expression was startled. He only knew three ways to advance to the emperor rank, but he didn't know what the path after the emperor rank was.

"Not bad!"

"The path of the emperor's cultivation is divided into three!"

"The first, the world of Hedao, this is also the way for Emperor Wudi of Nine Revolutions and Quasi-Great to break through to the Great Emperor level."

"Once you choose Hedao World, you will be able to reach the peak of the Great Emperor immediately after success. It is the fastest shortcut, but it is also the fastest way to die."

Si Yu said with a smile, "It's just that most Emperor Wu will choose this path."

"I understand this way."

Su Lang took a sip of tea and asked, "Where are the second and third roads to the Great Emperor?"

"The second road of the Great Emperor is called Soul Body Avenue!"

"The soul-body road means to merge the soul with the body."

"Be more detailed, it can be said to disperse the soul and know everything in the sea world into every particle that makes up the body!"

"A thoroughly fused soul body will become a half-spirit, half-flesh, and half-energy body, capable of transforming from reality to reality, undergoing numerous changes, and has a life span of up to 100 million years."

Si Yu said with a smile, "Furthermore, because of the complete integration of the spirit and the body, this method has the highest control and the combat power is even more terrifying than the third way."

This statement came out.

Su Lang's eyes lit up suddenly.

Isn't this the path of the emperor's cultivation that he guessed from the fragments of the emperor's soul?

"Unexpectedly, I guessed it randomly at the beginning, I am a genius!"

Su Lang secretly gave himself 10,000 likes, and then asked, "So what about the third way?"

"The third road is Hunyu Avenue."

"The same is the way of fusion, but the object is replaced by the soul and the universe of life."

Si Yu said with a smile, "It means to completely integrate the soul and the universe of life to become the world consciousness of the universe of life, and to completely control everything."

However, the increased combat power of this road for cultivators is not comparable to the Soul Body Avenue in the early stage.

Moreover, the difficulty of cultivation is greater than that of the second path. It requires extremely strong soul and mental power, and the threshold is too high.

So this road only exists in the legend.

In addition, the two kinds of roads are divided according to the degree of integration.

Fusion one-tenth is a great emperor, two-tenths are two great emperors, and so on. "
