### [Chapter 1211: I have two great ways](#)

Listening to Si Yuxiao's introduction.

Su Lang's mind kept working, and he quickly deduced more information, and understood the characteristics and limitations of the two great ways.

Soul body fusion.

The soul merges every cell of the body to form a qualitative change and become a soul body with extremely terrifying combat power.

Origin Devil Emperor took this path.

But he took a different approach, regarded himself as the master of the dark sky world, and gave his own flesh and blood to the dark sky clan warriors so that he could work for himself.

In the end, the soul of the Dark Sky Warrior was recovered with his own flesh and blood, becoming the ultimate winner.

Su Lang knew the reason why the Origin Devil Emperor wanted to follow such a "wrong way".

An ordinary person still has about fifty trillion cells.

How many cells can an emperor-level existence have in its body? Trillion? Trillion? Zhaojing! ?

The number is unimaginable!

How difficult is it to disperse the soul and fuse every cell carefully?

Therefore, the Origin Devil Emperor will choose to let others work, lighten his burden and shorten the training time.

This may have various side effects, but the advantages still outweigh the disadvantages.

The fusion of soul and universe is the fusion of soul and life universe.

After fusion, they can fully control the universe of life and become the creator, world consciousness, and omnipotence of the universe.

In this way, the cultivator can take the lead to reach the position of the 'True Creator'.

Thoroughly recognize one's own world, even a particle can see its trajectory clearly.

As a result, you can thoroughly grasp everything in the world.

Then deduce the world line based on various world information, choose the best world line for development, so that your life universe can directly have the most terrifying development speed.

What does the universe of life represent?

Represents the power of the endless road and the power of the world!

There are endless rules and poor manpower, even the emperor could not understand all the rules.

Both Emperor Wu and the Great could only ingest land from the outside to fill the inner world, create a universe of life, and feed back themselves by relying on the rules contained in the outside land.

Did they comprehend the countless unfamiliar rules?

No!

They just have those rules for the life planet in the inner world, but they can't use them.

However, once the souls merge, they can master everything, master everything, and have the power of the entire world!

The end point of the thorough fusion of the soul and the universe of life is the first way of the great emperor-the "world of harmony"!

The difference is that it is your own world that is in harmony with the Tao, and you will be the world consciousness and become the creator of everything, and will not be assimilated and merged, and the gods will not be destroyed!

The limitation of the way of fusion of soul and universe is that compared with the unity of soul and body, the combat power of unity of soul and universe will be greatly inferior.

Especially in the early stage.

Because the level of soul and universe integration is too low to achieve omniscience and omnipotence, the increase in power of the great power is not much.

On the other hand, soul-body fusion, fusion of a cell can increase a combat power, simple and crude, without the twists and turns of soul-space fusion.

However, the emperor who merged with soul and universe would definitely be able to catch up with the emperor who merged with soul and body in the later stage.

The great emperor with soul-body fusion, mastering the power of the Great Dao, is not as good as the emperor with soul fusion.

But in its essence, the soul of the Great Emperor cultivated combat power, not realm.

Because of the characteristics of the soul body, the soul of the great emperor possesses various terrifying supernatural powers, so his combat power is exploding.

And the way of the martial artist, starting from the realm of the \*\*\*\* of war, we must cultivate the world, which is the keynote of all realms.

Soul-space fusion obviously fits this tone better than soul-body fusion.

Su Lang even guessed that when the Great Soul Body reached the end, it was very likely that he would still face the fusion of soul and universe.

At that time, the soul has been fused with the body, and if you want to follow the Soul Road, which has a higher threshold for the soul, I am afraid that you will not even be able to get started.

"It can be seen."

"Hunyuan Avenue is the truth, I have to take this road first."

Su Lang touched his chin and thought silently, "Of course, the Soul Body Avenue can't be abandoned, I want both of them!"

If Si Yuxiao knew this idea, he didn't know if it would scare him stupid again.

After all, one road is endless.

Two...Except for Su Lang, no one dared to think about...

"I understand the three cultivation roads of the Great Emperor."

"I also know what the Great Emperor's Soul Body is."

Su Lang took a sip from his teacup and smiled at Si Yu and asked, "Then, what about Emperor Minggu's fetus?"

#### [Chapter 1212: The secrets of Emperor Minggu](#)

"Emperor Minggu's fetus is actually a fragment of the Great Emperor's soul body."

Si Yu said with a smile, "It's my great ancestor, the soul body of the great emperor passed down by Emperor Zi Ming."

"Emperor Minggu's baby turned out to be a fragment of the Great Emperor's soul body?"

Su Lang's face was surprised, and he said in his heart that I am not equivalent to possessing a large piece of treasure similar to Emperor Minggu's fetus?

"Not bad!"

Si Yu nodded with a smile, "The specific origin of Emperor Minggu's fetus has to start from the beginning."

Talking.

He took a sip of immortal tea, then put down the teacup, and said:

"Many years ago, our Zi Ming clan came out of a great emperor, that is, my great ancestor, Zi Ming."

"The Great Emperor Ziming, the Great Emperor, took the second path of the Great Emperor, and the soul-body fusion has already been merged three-tenths. It is considered a small qualification in the Great Emperor."

"Unfortunately, Zi Mingxing soon ushered in the disaster of extinction. Taizu's soul was severely damaged in that battle, and it is bound to fall."

"In order to give the Ziming Emperor a chance to make a comeback, Taizu prepared and implemented the 'Soul Son' plan for the rest of his life."

"There is only one purpose of this plan, and that is to give birth to the son of the Great Emperor and to extend the soul of the Great Emperor!"

"Friend Langdi also knows that the stronger the martial artist, the more difficult it is to give birth to heirs, and it is impossible to reproduce in the traditional way at the emperor level."

"That's why there will be a way of reproducing the Son of Soul that breaks through the limitations of the physical body."

"The sons of souls are the heirs of two souls using special methods, and they are also spirit bodies."

"The next step in cultivating the son of the soul is to win over the newborns with defying aptitudes and create the most perfect offspring-the son of the Great Emperor."

"But if you want to inherit the soul of the Great Emperor, this is not the last step."

"The real last step is to integrate the fragments of the Great Emperor's soul body with unconsciousness and only aura into the body of the Great Emperor's son."

"However, it is very difficult to fuse the fragments of the Great Emperor's soul body, and the success rate is extremely low."

"If you can't bear it, the son of the emperor will just die."

"If you can bear it, you can inherit the fragments of the Great Emperor's soul and become the true son of the Great Emperor!"

"Because the exceeding is too low, even if all the fragments of the soul body are exhausted, all the sons of the great emperor die, it is common."

"Therefore, many pieces of the Great Emperor's soul body must be prepared, and many pieces of the Great Emperor's sons must be prepared!"

"Fortunately, the sky is endless, my Zi Ming emperor clan, my grandpa became the only surviving son of the great emperor."

"He inherited 3% of the remains of the Great Emperor's soul body, which is equivalent to possessing one-thousandth of the soul body fusion of the Great Emperor."

"The fragments of the Great Emperor's soul body inherited by Grandpa have completely integrated into himself, and finally formed the bloodline of Emperor Minggu's fetus."

"Having the Emperor Minggu's fetus not only possesses a slight emperor-level power from birth, but also possesses extremely terrifying cultivation qualifications."

"It's just that it is also very difficult for Emperor Minggu's fetal bloodline to give birth to heirs, and the bloodline will decay."

"My grandfather was born at the most suitable age and took great pains to give birth to my father."

"My father inherited one-tenth of the Minggu Emperor's fetal bloodline from his grandfather, which is equivalent to one-tenth of the soul-body fusion of the Great Emperor."

"And I inherited one percent of the Minggu Emperor's fetal bloodline from my father, which is equivalent to one hundred thousandth of the soul-body fusion."

Finished talking.

Si Yuxiao actually took off his shoes...

Then, he showed his right foot to Su Lang.

"amount....."

Su Lang was speechless and wanted to use a barrier to separate Si Yuxiao.

However, Si Yuxiao said in embarrassment, "The fragment of the soul body of the great emperor I inherited is on the little toe of his right foot. Please look at it."

Su Lang resisted the weird smile and looked intently.

I saw a small part of Si Yuxiao's little toe suddenly turned into a half-spirit, half-energy, half-flesh body.

There is a terrifying power on it!

Moreover, that very small part of flesh and blood can automatically change into any shape.

Si Yuxiao demonstrated it, turning that part of flesh into a tentacle sucker, and into a slender needle...

[Chapter 1213: Nothing to envy](#)

Su Lang's eyes were too hot to open.

It is hard to imagine that it is this thing that allows Si Yuxiao to cross two small realms against the enemy.

"Ahem, all right."

Su Lang gave a light cough and nodded, "That is to say, if the unconscious soul fragments of the Great Emperor can be integrated, it will be able to form a qualification similar to that of the Emperor Mingguo?"

"Theoretically speaking."

"But even the son of the great emperor that my great ancestor cultivated with his own soul is in the same line as himself, and the success rate of integration is extremely low."

Si Yu laughed back and put on his shoes, "So if someone accidentally gets the fragments of the Great Emperor's soul body, the chance of fusion is almost zero."

"That's it."

"In other words, my thing is useless?"

Su Lang curled his mouth and threw a large mass of muscles.

This mass of muscles is composed of black muscle fibers. From the outside, it is very tough, like black giant pythons entangled closely together.

This is the fragment of the soul body of the Origin Devil Emperor!

Si Yu laughed when he saw the muscles and flesh, combined with Su Lang's words, immediately understood that this was the Great Emperor's soul fragment!

"Oh my God!"

"Such a large piece of soul body fragment!"

Si Yu smiled and opened his mouth wide in surprise, "Soul body fragment... This is the first time I have seen such a big one!"

"It's useless to be big."

Su Lang curled his lips again.

In fact, even if they could merge, Su Lang would not choose to merge the flesh and blood of this group of Origin Devil Emperor.

However, after thinking about this thing for a long time, I suddenly realized that it was a mass of waste, so I was a little disappointed.

But at this moment.

Si Yu laughed suddenly and laughed: "Who said it's useless, the fragments of the Great Emperor's soul body can't only be used for fusion."

"Oh!?"

"Why can it still be used?"

Su Lang lifted his spirits and his eyes lit up.

"This is a treasure of the Great Emperor!"

"It contains a very high level of energy, and it is a training treasure that warriors dream of."

"As long as a small piece, it will be enough for a Emperor Wu to absorb for a long time!"

"It can also be used as an energy reserve during battle, allowing you to have infinite mana in battle and never exhaust."

Si Yuxiao explained, "If you have some means to urge the emperor-level power inside, then this is the most terrifying weapon!"

"Oh, I see."

Su Lang smiled and nodded, feeling that he had saved a little loss.

Especially the third point mentioned by Si Yuxiao.

If you really get that kind of method, you can definitely display the power of the Great Emperor without considering the loss.

After all, even though Kuang Erlu only exerted the power of Rank 7 emperor rank, he was definitely restricted by the Origin Demon Emperor.

Because the Origin Devil Emperor could not really consume his soul fragments and waste them on a tool man.

"Hiss~"

Si Yu smiled in surprise, "It is enviable that Fellow Langdi possesses such a large piece of soul body fragment."

"Nothing to envy."

"If you kill Origin Demon Emperor in the future, you can get it too."

Su Lang smiled, "After all, based on this soul body fragment speculation, Origin Devil Emperor must have practiced a giant transformation technique. The body is super large, and it is definitely enough."

"Uh....."

Si Yuxiao almost squirted out another sip of tea.

Kill the origin devil! ?

It has been confirmed that it is a terrifying existence of the Great Emperor!

Now we can't even fight the Jingtian Continent, and we still kill the Origin Devil Emperor, this is too much of a matter of course!

"Ha ha."

Seeing Si Yu smiled in shock, Su Lang smiled and said nothing.

On the contrary, Si Yuxiao quickly reduced his expression, his expression straightened, and said, "If the Dark Sky World Origin Devil Emperor invades our Canglan Star, then we must divide him up..."

I didn't have enough confidence to hear this, but Si Yu laughed and refused to sweep Su Lang's interest, so he said it against his will.

"Hmm."

Su Lang nodded, collected the fragments of the Great Emperor's soul body, and smiled, "I have finished asking my questions.

The battle of the mainland will soon begin, and I will also go back to prepare, and then go to the Wudi Palace, this is my goodbye. "

"it is good!"

"See you at Wudi Palace!"

Si Yu smiled and got up to send him a long bow.

"Thank you."

Su Lang cleanly opened the space channel and returned to the White Jade Emperor's Palace.

[Chapter 1214: Seven hundred and eighty-two rules!](#)

Entering the quiet room, Su Lang sat on the futon and began to see himself inwardly.

After chatting with Si Yuxiao and Qingqiu Emperor Wu for a while, the new 372 outlandish rules have all been understood!

In addition, Su Lang's two epiphany and comprehension of the 21 cold rules.

He has now mastered a total of seven hundred and eighty-two rules!

This number of horrors has far surpassed all Wudi!

It is estimated that only the great emperor with soul fusion and the great emperor soul body with profound qualifications can compare with Su Lang.

Of course, the comparison is quantity, not quality.

Su Lang still hasn't mastered a big road.

At this moment.

Su Lang looked at himself and found that his inner boundary had supplemented those indispensable but indispensable remote rules, and suddenly became more stable.

Its degree of stability has far surpassed the life universe of Zhou You and Ling Jue!

It's just that these remote rules still have very little increase in combat power, and they haven't increased Su Lang's combat power by even a small level.

This was the case last time.

This time Su Lang was also hopeless, and naturally there was no disappointment.

On the contrary, Su Lang was very happy that his Martial Immortal inner boundary became stronger and stronger. After all, that was the most important foundation.

Next.

Su Lang took out the cauldron and materials again, and began to refine the parts of the super humanoid weapon.

This exercise takes most of the day.

"Another 1,500 fairy-level parts were refined, which is not bad."

"Unfortunately, we must stop, because the number of one-key empowerments has to be refreshed again."

Su Lang collected the materials and the cauldron, while muttering, he went to find Chu Xiaobei.

When I found Chu Xiaobei.

Su Lang discovered that she rarely read the 'Ancient Book', but was familiar with the power of rules.

Ji Ruxue and Murong Xianxian were also familiar with their own strength.

"Yo, kind of hardworking!"

Su Lang looked around the three women and smiled brilliantly.

"Brother Su Lang, you are here!"

"The battle of the mainland is about to begin, how can we not work hard to cultivate?"

"Yeah, yeah, as the saying goes, grind your gun in the middle of the battle, and you won't be upset!"

"..."

The three women stopped their movements and gathered around Su Lang, Yingying and Yanyan, the fragrance smelling.

"Still grind the gun?"

"Do you have guns?"

Su Lang secretly joked, and nodded appreciatively on the surface: "Well~ really good!"

"Su Lang."

Chu Xiaobei asked with a smile, "I heard that other Emperor Wu went to the Emperor Wu Palace, why didn't you go?"

"Not for you yet."

"The one-key empowerment will be refreshed soon. I'll instill the rules for you."

Su Lang had a doted expression on his face, "Come here, my little boy, stretch out your head."

"Go away!"

Chu Xiaobei rolled her eyes proudly, "It's like calling a puppy..."

However, after being proud of her, she still put her forehead in front of Su Lang.

After all, you can get more than a dozen rules with this combination. The so-called cheapness is not a bastard, let alone Su Lang's cheapness?

Chu Xiaobei made up his mind to take advantage of Su Lang's advantages.

"really obedient!"

Su Lang smiled and put his right hand on Chu Xiaobei's forehead, and gave instructions.

Suddenly.

Chu Xiaobei understood 13 new rules.

But Su Lang still did not withdraw his hand, because the next moment, zero is here!

The number of one-key empowerments has been refreshed!

Su Lang did not hesitate to activate the rule empowerment function again.

Wow!

Chu Xiaobei understood 13 more rules!

In addition to the previously understood rules, Chu Xiaobei has mastered a total of 121 rules, reaching one third of the target progress.

In fact, at her level, she would have been able to break through to the level of Martial Immortal.

But Su Lang knew the importance of the foundation and was unwilling to harm Chu Xiaobei in pursuit of speed.

At this moment.

Chu Xiaobei comprehended a total of 26 rules in a short period of time, and immediately fell into a state of nothingness and selflessness.

"Like snow, slender."

Su Lang looked at the second daughter and said softly, "I'm going to Wudi Palace now, you guard Xiaobei."

"what?"

Ji Ruxue asked anxiously, "Then what about us? Don't we go to Wudi Palace?"

[Chapter 1215: It started early!](#)

"You don't need to go."

"Our southern continent, I can go alone."

Su Lang smiled, then waved his sleeves before turning to leave.

In the sky, a streamer followed Su Lang's back with a rumble sonic boom.

That streamer is the Jianxian Cannon!

Originally, Su Lang only wanted to bring the Youtian Sword and Tai Chi Meteor Thunder.

But in order to make Qingqiu Emperor Wu and others feel at ease, let's bring an extra soldier.

When the JXian Cannon caught up with him, Su Lang stopped and waved his hand gently.

Suddenly.

The Jixian artillery turned into a dragon button and a jade seal, which fell into Su Lang's palm.

"open!"

Su Lang spoke the law and opened a space channel.

Behind the space passage is a snow-white extreme north, with magnificent aurora hanging in the sky, which is the area where the Emperor Wu Palace is located.

But just when Su Lang planned to enter the space channel.

His face suddenly changed!

"Clone replacement!"

With a thought, Su Lang directly exchanged positions with the clone of the undercover Jingtian Continent!

In a secret room in Qiandeng Tower in Jingtian Continent.

Su Lang sat on the low couch, looking down.

Jing Peibai knelt down on one knee, and respectfully reported the latest news: "My lord, Tianyu Wudi Xi Kejia suddenly announced that he will officially start war on the Canglan Continent in half an hour!"

At present, Emperor Feiheng Wu has issued an order for all members of the Emperor Clan at or above the Great Sage level to arrive at the Emperor City Square within a quarter of an hour and go to the front line together! "

"It started early!"

"It seems that the guy who was connected to Emperor Ling Juwu has learned that Canglan Continent knows the time of war on Jingtian Continent."

"So deliberately ahead of schedule, I wanted to catch Canglan Continent by surprise."

"Fortunately, I have an undercover agent here, and I know everything about them."

"Otherwise, if they really want them to give a blow to Canglan Continent, I am afraid it will cause great casualties."

Su Lang squinted his eyes and thought, saying that none of these old monsters that have lived for millions of years is simple.

"Jing Peibai."

"From now on, you pretend to follow all the orders of Emperor Feiheng Wu."

Su Lang waved his hand and said lightly, "Go, gather all the members who have reached the threshold of the Battle of the Mainland, and head to the Emperor City Plaza!"

"Yes, Lord!"

Jing Peibai bowed his head and retired.

"The war is about to go in an hour."

"Saturn's clone...Forget it, let them continue digging for a while."

"Anyway, the Mirror Sky Continent has also been stepped on by me, and it can be upset at any time."

While thinking about it, Su Lang used the clone replacement again and returned to Canglan Continent.  
Soon.

Su Lang opened the space channel again and came to the far north.

In the sky, the endless colorful aurora forms a curtain, covering the sky, making people feel as if they have come to another world.

"Senior Langdi!"

A young man flew down from the sky with an immortal weapon and stood in front of Su Lang with a very respectful attitude.

Su Lang saw a familiar face, Jiao Qin's son Jiao Di.

Su Lang smiled faintly: "It turned out to be Emperor Jiao Di, long time no see."

"Yeah yeah!"

"Since the last time I said goodbye, I have never had a chance to see Senior Langdi."

"Later I heard my mother talk about the great achievements of Senior Langdi, and then I was shocked that Senior Langdi was such a powerful and noble person!"

"In my heart, you are the leader of the spirit of the times and a model for all Emperor Wu!"

"..."

Jiao Di looked excited, expressing his admiration for Su Lang, and then took Su Lang to the Wudi Palace.

Along the way, Jiao Di kept talking about his admiration and worship of Su Lang.

Su Lang had a faint smile on his face, encouraging Jiao Di a few words from time to time.

quickly.

Wudi Palace appeared in front of him.

This is an imperial soldier!

The whole body is like colored glaze, flowing with endless dazzling light, just like the supreme temple in ancient mythology.

"Shouzheng pays homage to His Majesty Langdi!"

A young man in a strange costume bowed to Su Lang, but he was the spirit of Wudi Palace, named Shouzheng.

"Don't be polite."

Su Lang smiled and nodded.

at this time.

A group of people came out of the Wudi Palace, all came to meet the Wudi of Su Lang, and Qingqiu Wudi was the leader.

[Chapter 1216: I am with you all!](#)

"Brother Langdi!"

"Brother Langdi, how is your injury!?"

"In this war, Brother Langdi can't take risks anymore, I can't lose you!"

"Yeah, yeah, Brother Dao is controlling the emperor's soldiers from behind to help, and we are blocking the front!"

"..."

More than twenty Wudi all surrounded Su Lang.

Jiao Qin, Ni Qianzhou, Qing Xiao, sisters Zhu, brother Si Yu...

Except for Si Yuxiao, the attitudes of the others have also changed slightly from before.

Some became more enthusiastic, while others became more cautious and awe.

Obviously, all the emperors also knew the incredible things that Su Lang was not repelled by the consciousness of another world, promoted to the Five Elements Heaven, and possessed eleven imperial soldiers.

In the hearts of everyone.

Su Lang's status is completely equal to Qingqiu Emperor Wu.

Even in the hearts of Wu Emperors who are close to Ni Qianzhou, Su Lang's position has surpassed Qingqiu Emperor Wu, standing in the first place!

"Thank you for your concern."

Su Lang bowed his hands to everyone, "My injury has healed a lot."

When everyone heard this, they all smiled and breathed a sigh of relief.

When Qingqiu Emperor Wu saw that everyone was almost talking about it, he invited him: "Friend Langdi Daoist, please come to the hall to discuss the battle of the mainland!"

"Friend Qingqiu."

"No need to enter the hall."

Su Lang shook his head, "The situation has changed. Jingtian Continent will launch a surprise attack in half an hour."

This statement came out.

The scene was silent for an instant, and the sound of losing a hair could be heard.

Immediately after.

It was like adding a scoop of water to a boiling oil pan, and everyone was boiling.

"What!? After half an hour, the Mirror Heaven Continent will attack!"

"Isn't it three days? Only two days have passed. Some key points are not ready yet!"

"Yes, it was originally an emergency, but now it's even more serious, even the last day is gone."

"What shall we do now?"

"..."

The emotions of the emperors were a little anxious and worried.

"Friend Langdi, do you have other news?"

Qingqiu Emperor Wu took a deep breath, calmed down the slightly fluctuating mood, and asked Su Lang.

"Nothing else for now."

Su Lang smiled faintly, "But you don't have to worry too much. During this period of time, I have set up a big situation in Jingtian Continent."

Hear this.

All Wudi's eyes lit up suddenly.

Although I don't know what game Su Lang played.

But seeing Su Lang so confident, they also felt relieved.

In addition.

Although everyone really wanted to know what big game Su Lang had set.

But everyone also knows that if you speak more, you will lose!

Among all the people present, if there are two or five young men like Emperor Ling Juewu, wouldn't Su Lang's plan be ruined, or even be counted?

Although the odds are small, they have to be guarded.

As a result, everyone suppressed their curiosity and did not question Su Lang's specific plan.

"Then, Fellow Langdi Daoist."

Emperor Qingqiu took a deep breath and asked, "What can we do to match your plan?"

This statement came out.

All Wudi raised their ears one after another.

"Everyone only needs to try their best to entangle Emperor Wu of Jingtian Continent."

"Aren't they going to make a surprise attack? We can show the enemy's weakness and take the initiative to retreat for a certain distance."

"It's best to keep them all away from their positions and unable to return to Jingtian Continent."

While talking, Su Lang's mouth was drawn with a charming smile.

After hearing Su Lang's words, all Wudi fell into deep thought.

If you try your best to defend and it is difficult to resist the Mirror Sky Continent, if you take the initiative to retreat, it is equivalent to giving up your frontline position. This is a very risky thing.

However, in the end everyone nodded and chose to trust Su Lang.

"Without further ado, let's go to the front line."

Su Lang condensed his eyes and raised his fists, "I am with you all!"

"I am with you all!"

All the emperors shouted in a low voice!

Immediately after.

Headed by Su Lang and Qingqiu Wudi, the 29 Wudi from Canglan Continent rushed to the front line together!

As for Wuxian and Great Sages, they are naturally led by quasi-emperors.

Through a series of teleportation formations and across numerous mainland fragments, Su Lang and others finally arrived at Chiqun Floating Island.

So far.

It was only a quarter of an hour before Jingtian Continent launched an attack.

at the same time.

The front line of Jingtian Continent, on the mainland debris named Wanghai Floating Island.

One by one extremely powerful figures gathered in a secret room, it was the thirty-five emperors of the Jingtian Continent!

#### [Chapter 1217: The battle of the mainland is open!](#)

In the secret room.

Thirty-five Wuzun powerful emperors gathered together.

Tianyu Wu Emperor Xi Kejia sat on the head, his appearance was young, but his eyes were extremely vicissitudes of life.

A long green sword slung around his waist, exuding a very terrifying aura, it was the Seventh Rank Emperor Soldier Broken Dream Knife!

Its next.

On each side, there are seventeen Wudi in order according to their strength and seniority.

The expressions of the emperors were serious, and there was silence in the secret room.

After a while.

Xi Kejia looked around at everyone, and the other emperors also looked at me and I looked at you. Everyone was looking at each other.

Strangely, no one made any noise.

It seems that they are communicating in some very hidden way.

This weird scene lasted for a few minutes, and then the secret room opened again, and all the martial emperors filed out.

No one knows what they discussed.

at the same time.

Su Lang and others are in the secret teleportation base on the Chiqu Floating Island.

There is a teleportation array that leads to all front-line positions. No matter which direction the enemy attacks, it can be supported as quickly as possible from here.

The same as the silence when the Emperor Wu of the Jingtian Continent conspired.

Su Lang and others were also silent.

This is the tranquility before the storm, everything is full of suffocation!

Time passed slowly.

Just as everyone became more and more nervous.

Rumble!

Ninety million miles away from the Chiqu Floating Island, a terrifying explosion suddenly occurred on a front line defending the emptiness!

The entire line of defense, together with a huge void floating island and a powerful emperor-level formation, was wiped out together!

Powerful figures rushed into the void defense line of the Canglan Continent, and it was the dozens of Martial Emperors of the Jingtian Continent.

There are countless martial arts and martial sages who are close behind!

"Let's go!"

Qingqiu Emperor Wu shouted.

Because the opponent is relatively close, everyone abandoning the teleportation array, directly tore through the gap in the space and stepped into it.

The next moment.

Su Lang and others have already appeared in the broken front line.

"It's Emperor Wu of Canglan Continent!"

"There are actually twenty-nine, and they have already come out!"

"How come they are all here, do they know our raid plan?"

"..."

Xi Kejia and other Emperor Wu of Jingtian Continent also never expected that Emperor Wu of Canglan Continent would gather in the front line, and he was shocked!

"It is impossible that the plan has been leaked."

"It should be the Canglan Continent defending Yirucheng. He is too afraid of us, so he will gather at the front line without relaxing for a moment."

Star Lord Jingtian, Emperor Wudi of Rank 8 Xi Kejia showed surprise, and immediately turned into a sneer, "Since you are all gathered here, that would be great."

In an instant, Xi Kejia issued an order: Emperor Wu will not enter the battle for now, go to Canglan Star!

Soon.

The Emperor Wu of the Jingtian Continent didn't even look at Su Lang and the others, they tore through the space cracks and got into it.

And those Wuxian-level powerhouses spread out in a swarm, constantly destroying the front line of Canglan Continent.

"not good!"

"They hit Canglan Star last time and mastered a lot of space coordinates. This time they must go to Canglan Star and use it as the main battlefield!"

"This is the countless creatures who want to use the Canglan Star, let us cast a rat!"

"Catch up with them, you can't let them succeed!"

"Go back, let's take the teleportation array!"

"..."

Qingqiu Wudi did not hesitate to give orders.

All the emperors immediately returned to the previous teleportation hall and chased the emperors of Jingtian Continent through the teleportation array.

These teleportation formations are all very special emperor-level teleportation formations, which are more stable and teleport distance farther than the channels that Emperor Wu used to tear apart using space rules!

Su Lang acted together with a group of emperors, but there was a slight smile on the corner of his mouth.

The rest of the Wudi were almost frightened by the Jingtian Continent, and when they saw the Jingtian Continent hit Huanglong, they immediately panicked.

#### [Chapter 1218: The strongest group of people on the two planets](#)

But Su Lang did not panic, even very happy.

Because Jingtian Continent came out like this.

His plan of 'fight and retreat, draw the enemy into the hub, and attack the west' directly omitted the first two steps!

When Xi Kejia and others get closer to Canglan Star, the slower they will be to return to Jingtian Star!

As for the fact that Canglan Star will be regarded as the main battlefield, Su Lang dared to pack a ticket and say: Impossible!

"Clone dispatch!"

With a thought of Su Lang, dozens of clones were immediately stopped on the only way for Xi Kejia and others.

"Space imprisoned!"

The clones displayed a series of perfect spatial rules, solidifying large areas of space, and prohibiting the enemy from using spatial means to pass through.

but.

Su Lang's arrangement didn't work.

Because the teleportation formation of the Canglan Continent is indeed faster than the Emperor Wu of the Jingtian Continent!

A few hours later.

In the void space tens of trillions of miles away from the 'checkpoint' arranged by Su Lang, the Emperor Wu of the Canglan Continent stopped everyone on the Jingtian Continent.

Void.

The strongest group of people from the two worlds finally meet!

There are dozens of powerful martial emperors on both sides, all of which are the accumulation of thousands or even tens of millions of years on a planet!

Every Emperor Wu had gone through countless battles before he achieved his current achievements.

at this time.

The two sides confronted each other and both had to fight for the home planet!

All Wu Emperors hovered in the void, staring at the people on the opposite side.

In the rattling atmosphere, the imperial auras with their own characteristics spread out, and it seems that even the space is rippled!

Of course, the Emperor Wu of Jingtian Continent is more powerful, and has already suppressed the Canglan Continent in terms of momentum.

"Xi Kejia! Yucheng, Huacan...!"

Emperor Qingqiu Wudi's eyes were cold, "It's too late for you to go back now!"

"Not bad!"

"It's not that you don't know that the clone of our Daoist Langdi has arrived at the front line with the life universe anchored by the Dark Sky World!"

"Once you really push us, then we will have a big deal to attract the Dark Sky World and Origin Devil Emperor, and everyone will die together!"

"Go, go back to your mirror star!"

"..."

Facing the Mirror Sky Continent that was much stronger than themselves, the Wudi of Canglan Continent immediately threw out the trump cards that were already known to the opponent.

If relying on this card, Jingtian Continent could retreat, that would be great.

just.....

"Hahaha, let us go back? It's ridiculous!"

"Since we dare to launch an attack, how can we fail to consider the threat of the dark world!"

Xi Kejia sneered, "Today, I will solve the threats of your Canglan Continent and the Dark Sky world together, go!"

With Xi Kejia's order.

Dozens of Wudi immediately swarmed out behind him, looking for their opponents!

Xi Kejia drew out the Broken Dream Knife from his waist and went straight to Emperor Qingqiu Wudi:

"Your defeat, now is your death date!"

"It's you who will die!"

Qingqiu Emperor Wu drew a long sword and fought with Xi Kejia fiercely.

The strongest of the two sides began to fight, and the other Wudi also fought together!

But because Jingtian Continent had six more people than Canglan Continent, it had the upper hand from the beginning.

Void.

More than 60 Emperor Wu opened up battlefields one after another.

Numerous splendid rules and anomalies continue to emerge, and the aftermath of the terrifying air wave can easily kill a piece of martial arts!

Su Lang also caught up with a third martial emperor from the Jingtian Continent.

"You are Su Lang!?"

"It looks like there is only one change in the realm of Emperor Wu."

"Hmph, I actually sacrificed the life planet and the Martial Emperor-level clone for the Canglan Continent. I really admire me!"

"For the sake of your commendable spirit, I will tell you my name with great compassion, so that you can understand it!"

Emperor Wudi in the third revolution of Jingtian Continent sneered, full of disdain, "Remember, my name is Wan Lie!"

[Chapter 1219: Yo, here comes the double kill](#)

"Wan Chap?"

"Is the Emperor Wu who split ten thousand times?"

The corner of Su Lang's mouth twitched, faintly ironic.

"Dare to be clever when you die."

"I want you to die in the most painful way!"

Emperor Wu Lie's eyes burst out with a strong killing intent, and his whole body rose up, unexpectedly bursting out with half a step and four turns.

"Brother Langdi!"

Ni Qianzhou, Si Yuxiao and other Emperor Wu saw this scene and immediately got rid of their opponents and came to support.

However, their opponents are also stronger than themselves, so they can't get away!

"Kneel me down!"

Emperor Wanlie Wu roared fiercely, and slapped Su Lang's head with a palm from top to bottom!

"I really can't help myself!"

The corner of Su Lang's mouth curled, and a fist fluttered towards Emperor Wu Lie.

Emperor Wan Lie's contempt at seeing Su Lang's useless punch.

however.

next moment.

Emperor Wan Lie Wu's complexion changed suddenly.

Because his palm hadn't touched Su Lang's head, Su Lang's fist was about to hit his chest.

"How can it be so fast?"

"It doesn't matter, with his strength, even if it hits me first..."

The thoughts in his mind hadn't fully surfaced, and Emperor Wu Lie was directly beaten by Su Lang for tens of millions of miles!

"boom--!!"

The terrifying power made Emperor Wan Lie Wu's defenses shattered, his whole body twisted and almost turned into meat.

"what!!"

Emperor Wanlie Wu let out a painful scream, and a deep fear rose in his heart.

Su Lang received a fluttering punch.

Not only did he lose three imperial defenses, he was also directly destroyed three quasi-imperial soldiers!

He himself has lost all resistance, almost half of his foot stepped into the ghost door and closed! suddenly.

A figure appeared in front of Emperor Wanlie Wu.

In a daze, Emperor Wan Lie Wu saw that person's face, it was Su Lang!

"Do not!"

Emperor Wu Lie let out a hoarse shout, he had already smelled death!

at this time.

"To kill Wanlie, you have to ask me King Kong Wudi!"

One person blocked Su Lang's path, and his whole body exuded the fourth rank martial emperor-level atmosphere!

There were already a lot of people in the Jingtian Continent. Seeing Emperor Wu Lie falling into a disadvantage, Emperor Wu Jin Gang rushed to support him.

"Fortunately I came quickly, otherwise Wan Lie will fall!"

Thinking like this, Emperor Wudi Jingang glanced at Emperor Wulie, and he was relieved.

however.

He didn't know Su Lang's thoughts

--Yo? Come to send a double kill? Then I accept it unceremoniously!

"Broken a sword!"

Su Lang didn't even bother to take out the Youtian Sword, directly pointed his hands together into a sword, and stabbed it out fiercely.

"What kind of trick is this!?"

King Kong Wudi felt the terrifying power of Su Lang's fingertips, and he stood upside down all over his body, his pupils shrunk like needles, and his body was like an ice cave!

however.

It's too late to dodge!

puff!

In King Kong's extremely desperate eyes, Su Lang's fingers instantly penetrated the center of his eyebrows.

"You get the Soul of the Intermediate Martial Emperor\*1, the Life Universe\*1, the Avenue of Rocks\*1, the One-turn Emperor's Flying Thousand Sky Sword\*1, The Hinayana Xianyuan\*2668967, the Supreme Immortal Jade\*9884259... Emperor-level materials...xian-level materials..."

The system prompt came.

This represented the appearance of Emperor Wu who was the first to fall in this battle of the mainland!

"Daoist King Kong!"

Emperor Wan Lie Wu, who had lost his fighting power, saw this scene, and he was so scared to death!

The other Emperor Wu of the Jingtian Continent also looked sideways at Su Lang, their faces full of horror.

Emperor Wudi of King Kong dignified four turns, but he was killed by one finger!

This is incredible!

The emperors of Canglan Continent were extremely excited to see the scene of Emperor Wudi King Kong's fall!

Under this big headwind situation, Su Lang suddenly maimed one person and killed one person, how can he not make people cheer up?

"It's your turn."

Looking at Emperor Wan Lie Wu, Su Lang smiled faintly, and took out his fingers. There was no blood stain on them.

#### [Chapter 1220: One point to death, five revolutions of Wudi](#)

However, Emperor Wan Lie Wu looked at Su Lang's finger, but he almost freaked out!

"No, don't kill me!"

Emperor Wanlie Wu begged for mercy hoarsely while trying to escape.

However, his current state is so bad that he can't even use his prepared hole cards.

"Be free."

The corner of Su Lang's mouth hooked and pointed out.

However, this finger suddenly turned and tapped the void on the right side of the center!

"puff!!"

Coming like a sharp knife into the flesh!

A figure appeared in the void, it turned out to be the Emperor Wu who was planning to attack Su Lang!

Su Lang's fingers had penetrated the center of his eyebrows, and his body was messed up by the power above.

"How...how could you find me..."

This Emperor Wu was a Rank 5 Wu Emperor, and he didn't even die in a short time, but what he said was the last word.

"Sorry, my mental power is too strong."

"Well, I still have the illusory rule of condensing the road in just one step."

Su Lang smiled faintly, retracted his spotless fingers, and stepped on Emperor Wu Lie to death by the way.

"Ding! You got the Soul of the Intermediate Martial Emperor\*1..."

"Ding! You get..."

The system prompted that the second and third Emperor Wu who had fallen in the war appeared.

The emperors of the Canglan Continent looked excited and thought to themselves:

Worthy of being Langdi Dao brother who can kill the Seventh Rank Martial Emperor, even if he is seriously injured, he has such a terrifying combat power!

But the Emperor Wu of the Jingtian Continent was dumbfounded, unbelievable, and at the same time flushed and angry!

Su Lang knew that Jingtian Continent would never "save grandpa with the gourd baby, and send them one by one."

really.

The Emperor Wu of the Jingtian Continent saw that Su Lang defeated one person, and even took a double kill, and immediately changed their strategy!

Two powerful Emperor Wu got rid of their opponents at the same time and slew Su Lang!

It is the two sixth rank martial emperors of Yifeng and Jiuling!

The two Great Sixth Rank Wudi made the move, and neither the people from Jingtian Continent nor Canglan Continent thought that Su Lang could stop it.

Therefore.

The empires of the Jingtian Continent were full of anger, and they attacked their opponents with all their strength, and at the same time looked forward to Su Lang's blood debt.

But everyone in Canglan Continent was extremely worried!

"Langdi be careful!"

"Brother Langdi!"

"Stop it, otherwise we will contact Dark Sky World immediately!"

"..."

The Emperor Wu of Canglan Continent, such as Qingqiu, Jiao Qin, and Baiyue Shuangdi, shouted frantically.

Si Yuxiao suddenly exploded with the power of Minggu Emperor's fetus, forcing his opponent back, killing Xiang Yifeng and Nine Spirits.

And everyone in Canglan Continent threatened the Dark Sky World, which really caused Yi Feng and Nine Spirits to stagnate, and couldn't help but look back at Xi Kejia.

Xi Kejia's expression also changed.

in fact.

Of the thirty-five Emperor Wu present in the Jingtian Continent, three are twin clones of Emperor Wu Emperor Xianghuo!

The three deities of the incense Wudi are still on the front line!

Its purpose is to find Su Lang's clone carrying the 'Dark Sky World Deterrence'!

In the view of Xi Kejia and others.

The dark world is really very terrifying and must be eliminated.

Otherwise, even if you win the Canglan Continent in the Battle of the Continent, the Dark Sky World will hang over your head like a murderous sword, falling down at any time!

And the avatar of Su Lang carrying the 'Dark Sky World Threat'.

In order to maximize the probability of Dark Sky World discovering Jingtian Continent, it must be at the front line closest to Jingtian Continent!

Therefore, he would allow everyone to rush towards Canglan Star and draw everyone from Canglan Continent away, so that the three incense martial emperors could find Su Lang's clone, control it, and eliminate the threat from the dark world.

However, even if the emperors of Wudi were led out of the front line and there was a marathon that lasted for several hours, the emperors of Xianghuo Wu did not find that clone.

then.

Xi Kejia told everyone in Jingtian Continent not to do their best, and not to push everyone in Canglan Continent in a hurry, lest the other party would really die and contact the Dark Sky World.

At the same time, continue to buy time to find Su Lang's clone!
