[Chapter 1251: Let's try again!](#)

Next.

Su Lang waved his hand!

call out!

Rumble!

Ten thousand statues fell like a dense meteor shower all over the world on the Jingtian Continent.

Immediately after.

Su Lang's thoughts moved, and the formations appeared out of thin air, interlocking with each other, and finally formed the Five Elements Heaven spreading across the entire Jingtian Continent.

Originally, Su Lang wanted to cover the entire world with the Five Elements Heaven, but the twisted rules of the world would not allow the existence of the Five Elements Heaven and could only give up.

Now Su Lang has no good way to deal with the wounds of the world.

You know, whether it is Canglan or Jingtian, there have been many great emperors with world-consciousness in the history.

Even if they couldn't solve the wounds of the world, Su Lang was of course powerless.

The only idea at present is to fill the wound of the world with a lot of land, fill it up, and gradually assimilate the distorted rules with the normal world rules.

Of course, it's easy to say, but I don't know how many difficulties will be encountered in doing it.

Closer to home.

After Su Lang arranged the Five Elements Heaven, the Shetian Ming Emperor Formation immediately began to absorb the energy from outside the heavens and replenish the Jingtian stars.

The Emperor Qiangwei and the others who followed Su Lang saw this earth-shaking scene again, and they were too horrified to speak.

The eyes of the three of them looking at Su Lang became more and more enthusiastic and admired.

"Qiangwei, you three come here."

Su Lang glanced at the three of them and beckoned.

"The next servant worships the Lord!"

The three Emperor Qiangwei Wu crawled in front of Su Lang, extremely humble and extremely respectful.

"starting today."

"You are responsible for the collection channels of Jingtianxing incense and the guarding of the Five Elements Heaven."

"Remember to teach the weapon spirits of 10,000 quasi-imperial soldiers, let them be loyal and honest, and do their duty."

"In addition, collect the wealth of Jingtianxing for me, but don't try to fish, kill chickens and get eggs, you know?"

Su Lang said indifferently, it seemed that what was delivered to the three of them was not about the Five Elements Heaven and incense collecting channels of the whole world, but something trivial.

"The servant obeys!"

"Definitely live up to the Lord's expectations!"

Emperor Qiangwei and the three of them packed up and said.

"Go ahead."

Su Lang waved his hand and disappeared directly from the place.

When it appears again.

He came to a small building.

Two young girls lived in the small building, it was Su Ling'er and her maid Xiaomei.

Su Lang just appeared.

"Your Majesty Langdi!"

Xiao Mei ran over frantically, with a stance of giving her everything.

Su Ling'er at the back looked speechless and couldn't help rolling his eyes.

"Yes, it broke through the twelve bans."

Su Lang checked Xiaomei with mental power, and found that she had already broken many of the restrictions, and apparently had made great progress in the control of power.

"His Majesty Langdi praised me, well...!"

Xiao Mei was praised by Su Lang, and she lost her soul, and she couldn't understand her words.

Seeing this, Su Lang shook his head and smiled, and a trace of worry rose in his heart.

Because he saw Xiaomei, he couldn't help but think of Ji Ruxue and Murong Xianxian who were also practicing power control.

"Ling'er has seen His Majesty Langdi."

Su Linger's clear voice came.

Su Lang suppressed his worry and looked at Su Ling'er with a smile: "You don't seem to be affected by the Mingguang World."

"Is that kind of sun called Mingguang Wanjie?"

Su Ling'er asked with bright eyes, "It was all displayed by His Majesty Langdi?"

"Not bad."

Su Lang nodded, "It's me, those suns are all my clones."

"His Majesty Langdi is too powerful!"

Xiao Mei couldn't help but exclaimed with excitement, "It's simply the most powerful person in Jingtianxing's history!"

"Why, I can't compare to Hedao the Great."

Su Lang smiled faintly before saying, "By the way, Su Ling'er, you haven't answered me yet."

"It is indeed."

Su Ling'er nodded earnestly, "There is a strange power in my body that counteracts the influence of Mingguang Myriad Realms."

Hear this.

Su Lang couldn't help but move in his heart.

He had checked Su Ling'er many times before.

The first time I saw Su Ling'er, I also used Mingguang Ten Thousand Realms, but I didn't find anything unusual.

Unexpectedly, when the Mingguang Ten Thousand Realms were strong enough, it would trigger Su Linger's special energy.

"Come, let's try again!"

The corner of Su Lang's mouth twitched, pulling Su Ling'er over, and then unfolding Mingguang Myriad Realms.

With his current quasi-emperor-level attack level, the power of Mingguang Ten Thousand Realms is no longer the same!

[Chapter 1252: Cunning strange power](#)

Silently.

A strong light enveloped the entire small building.

If it weren't for Su Lang's intentional control, an earth sun would immediately appear, attracting countless warriors to worship.

At this moment.

Su Lang's Mingguang Myriad Realms gathered in this small building, and the power was further condensed.

"Ah~"

"Very comfortable!"

The Xiaomei next to her was blushing in an instant, she was lying on the ground, her eyes showed intoxication and fanaticism...

Su Ling'er also appeared in a trance, faintly reverent.

However, a special force soon emerged, which counteracted the assimilation effect of Mingguang Ten Thousand Realms.

Su Linger's eyes suddenly became clear and she returned to normal.

but.

Su Ling'er is also very comfortable, because the buff brought by Mingguang Ten Thousand Realms still exists!

"I'll go, eat the bait and not take the bait, so cunning!"

Su Lang raised his eyebrows, while maintaining the light of the Myriad Realms, he used mental power to observe Su Linger's body.

but.

That strange force was very alert, and suddenly disappeared.

Even though Su Lang's mental power had been strengthened by the "Small Mystery Method", he still didn't discover where that power had gone.

"so smart?"

Su Lang couldn't help being surprised.

If you know that his mental power can be seen clearly even in his genes, he can't find a place for power at this time.

Su Ling'er was only at the rank of Martial Commander and had no inner space at all.

Where can those powers hide? Can they disappear out of thin air?

Su Lang did not believe in evil and explored it several times.

He even sent out sixty-nine clones, and at the same time used Mingguang Myriad Realms on Su Ling'er, they couldn't force that power again.

But Su Ling'er didn't have the power to offset the Mingguang Myriad Realms, and her whole person had changed from a 'cold girl' to a 'silly girl' like Xiaomei.

See.

Now the two idiot girls are staring at Su Lang closely, wishing to dedicate everything.

If Su Lang wanted to, he could now...

Cough.

Let's get off.

With no other way, Su Lang could only give up temporarily, revoke Mingguang Ten Thousand Realms and take back all clones.

suddenly.

The crazy girl Su Ling'er was confused, her eyes gradually becoming clearer.

"Coming out again?"

Su Lang did not hesitate to start a spiritual exploration again.

However, that power was so cunning that it disappeared again.

Su Lang curled his lips, withdrew his mental power, and then that power came out again.

"Forget it."

Su Lang rolled his eyes, "I can't catch you now, and you'll catch it later. You can't run anyway."

Immediately after.

With the help of that power, Su Ling'er slowly got rid of the influence of Mingguang Myriad Realms and completely returned to normal.

Then Su Ling'er blushed.

Because in the moment of becoming Su Lang's 'crazy believer', she did many things that were unimaginable before.

For example, kneeling at Su Lang's feet, waiting for Su Lang's instructions like a good pet.

For example, the idea of wanting to dedicate everything to Su Lang couldn't stop flowing out of my heart.

For example, what Xiaomei is doing, she wants to hug Su Lang's thigh.

Ah, so shameful...

Su Ling'er couldn't help covering her hot pretty face.

Su Lang couldn't help but smiled: "Su Ling'er, your situation is too special, and I can't find out the reason for the time being. You will follow me in the future."

"what!?"

Su Ling'er removed her little hand, showing a surprised look, "Your Majesty Langdi...Is there no way..."

"Ok."

Su Lang nodded, "The things in your body are really not simple."

"Then I will follow you!"

Su Ling'er nodded, now only Su Lang can give her a glimmer of hope.

"what about me?"

Xiao Mei glared her eyes and shouted eagerly, "Sister Ling'er, I want to be with you too!"

Su Ling'er rolled her eyes: "You mainly want to follow His Majesty Langdi!"

"I was guessed."

Xiao Mei nodded serenely, causing Su Ling'er to roll her eyes even harder.

However, for the maid who had been with him for so many years, Su Linger was still reluctant to leave her alone.

So Su Ling'er pleaded: "Your Majesty Langdi, please take Xiaomei."

"can."

Su Lang nodded slightly.

Su Ling'er suddenly felt relieved, but Xiao Mei was too excited to speak.

[Chapter 1253: Complete control in the palm of your hand!](#)

"Let's go."

"We are leaving Jingtianxing now."

Su Lang waved his hand gently, and a huge spatial passage emerged.

"Where shall we go?"

"Canglan Star!"

"What? Canglan Star!?"

"Ah--! It's dark!"

...

Su Lang disappeared in an instant, and the space channel gradually closed.

No one knows that Jingtianxing's world wound has dimmed a lot at this moment.

The other side.

Su Lang brought Su Ling'er and Xiaomei to the Yaochi Holy City.

At first glance.

Su Ling'er and Xiao Mei sensed the strong malice!

It's not that someone is targeting them here, but the whole world is targeting them.

"Hey, give me a face, don't embarrass them."

Su Lang raised his head towards the sky and shouted.

However, the ill will still not reduced. Obviously, the world consciousness did not give Su Lang face.

"I wipe it."

Su Lang rolled his eyes and said, "I am so dedicated to help you improve the environment."

After complaining.

Su Lang immediately wrapped Su Ling'er and Xiao Mei with his own power to prevent them from being persecuted by the world consciousness.

Soon.

Su Lang unfolded his mental power and found that the messy southern continent had returned to normal.

However, because the Five Elements Sky, the White Jade Emperor Palace, the Space Rubik's Cube, the Incense Statue... and other facilities were swallowed by the turbulence of time and space, they appeared empty.

"Everything has to be rearranged..."

Su Lang gritted his teeth and immediately took to Kejia's life universe, and rushed in to torture Xi Kejia severely.

Exhaled.

Su Lang appeared in front of Su Ling'er and Xiao Mei again.

But seeing the two women sitting on the ground with a fading look, a strong wind blows, and her long hair is knotted...

And there is a dark cloud above the head, it seems that thunder and lightning may be struck at any time...

See Su Lang.

Su Ling'er wanted to cry without tears, but Xiao Mei's eyes lit up, as if she saw the savior.

"I've only left for such a while, you're out of luck."

Su Lang smiled dumbly when he saw it, and once again protected the two girls with a burst of energy.

Soon.

"It's time to rearrange the Wuxingtian and other facilities."

"However, the site set up this time is not just the Southern Continent, but the entire Canglan Star."

"And before that, you have to completely control everything of Canglan Star in the palm of your hand!"

The corner of Su Lang's mouth raised, and a slight smile was outlined.

Although all Martial Emperors of Canglan Continent were convinced by him, the hearts of the people would change, and loyalty was not eternal.

Only by completely controlling everything can you sit back and relax.

Next.

Su Lang dispatched all avatars except Li Xianyang and ordered them to start Baiying avatars.

Wow!

Six thousand nine hundred terrifying figures appeared on Canglan Star again!

The majestic breath descended on the entire continent, and the Emperor Wu, who was in the retreat, flew out of the retreat and came to the sky.

They saw nearly seven thousand Su Langs, that terrifying aura covered the sky and the sun, making the whole world turbulent and dark!

"It's Master Star!!!"

"Oh heaven, how come there are so many star masters!"

"What happened? Where did so many Star Masters come from?"

"..."

Each of the Emperor Wu's faces showed fear and horror, just like ordinary people in the end of the world.

They were trembling all over, at a loss!

The nearly seven thousand terrifying figures exudes the aura of Su Lang, otherwise all Emperor Wu will start to flee.

And at this moment.

A rumbling sound came from the horizon.

All Wudi followed the sound and saw a giant getting taller and bigger!

In the end, his head pierced through the clouds, and with the naked eye he could only see below the giant's belly.

"God, that is Lord Star Lord!"

"Yes, Lord Star Lord has the most terrifying aura, reaching the Quasi-Great Emperor level! The rest of the powerful beings close to seven thousand are all clones of Lord Star Lord!"

"Unbelievable, unbelievable, Lord Star Lord has so many powerful clones, the deity can form such a vast body, comparable to the legendary star behemoth!"

"Such a powerful force, if it is used in the battle of the mainland, there is something about Jingtianxing, it will directly level the opponent's entire planet!"

"The reason why the Star Lord didn't use such a powerful force in the battle of the mainland must have his concerns. I will not pretend to speculate later."

"Yes, yes, Lord Star Lord, I can guess."

"..."

Including Qingqiu Emperor Wu, all Emperor Wu looked at Su Lang's world, and everyone hunched over and looked very humble.

[Chapter 1254: Million free tea trees](#)

After unfolding the world and law.

From Su Lang's perspective, it seemed that the entire planet was being stepped on!

"Mingguang Wanjie!"

The corner of Su Lang's mouth twitched, and endless rays of light burst out of his upright body.

The six thousand nine hundred avatars also expanded the Mingguang Ten Thousand Realms at the same time.

This time instant.

Canglan Star was also surrounded by dense sun.

Like Jingtianxing, all the creatures on the mainland were horrified by the great changes in the world, and then they were gradually assimilated under the influence of the bright light world.

Disputes around the world have slowly disappeared, and peace has spread to every corner.

There is no difference between a large number of intelligent races at this moment, and they have all become fans of Su Lang.

Qingqiu Emperor Wu and others could hardly resist this level of Mingguang Myriad Realms.

In addition, everyone respected Su Lang so much that they quickly became Su Lang's most loyal person.

So far.

After Jingtian Star, Canglan Star was also completely controlled by Su Lang.

Immediately after.

Su Lang once again refined tens of thousands of incense statues and scattered them across the Canglan Continent.

The brand new Five Elements Sky was also arranged, covering the entire Canglan Continent.

Under the action of the Emperor Shetianming Formation, a large amount of extra-celestial energy was taken back, transformed into spiritual energy, and fed back to the Canglan Continent.

At this moment.

There are countless auspicious scenes in the Canglan Continent all over the world, as if the whole world is cheering for it.

Su Lang also noticed that there seemed to be a vast will to pay attention to him and tried to deliver a kind message.

"If I want to be in harmony, this merit will definitely be enough."

Su Lang smiled and looked up at the sky, "Unfortunately, Hedao is just a beautiful trap, I won't step into it."

Shook his head.

Su Lang looked down on the mainland and asked faintly: "Where are the five people, Yuan Yue, Broken Sun, Yihua, Qiongyun, and Chongshuang?"

"Yuan Yue pays respects to the star master!"

A slender figure flew up in the Baiyue Emperor City and bowed to Su Lang's heaven and earth law.

In the northeast corner of the Xuandaotai and the extreme north Wudi Palace, four Wudi also flew up in succession to respect Su Lang.

"You waited for five people and each gave me 200,000 Wuyu tea trees."

Su Lang directly requested that he wanted to collect and filter the incense power, which must be Wuyu Tea Tree.

Nowadays, only the six successors of Xuanhuo have Wuyu tea trees.

But because Si Yuxiang inherited too few Wuyu tea trees, Su Lang simply didn't bother to let him hand in.

"Yes, Star Lord!"

Yuan Yue and others respectfully took out the Wuyu tea tree.

With a thought of Su Lang, the five clones came to the five people and took away the Wuyu tea tree.

Of course, Su Lang would not let the five suffer a loss, leaving them with a large amount of perfect quality emperor-level medicine.

Now that Su Lang controls the resources of these two planets, he has become more generous when rewarding treasures.

"Get out."

Su Lang waved his hand to let everyone go back.

"Thanks to the star master for the generous gift!"

Yuan Yue and the five people thanked Su Lang for the gift, and retired respectfully.

Soon.

Su Lang dispatched avatars to evenly distribute these Wuyu tea trees among the incense statues of Canglan Star and Jingtian Star.

Those incense statues have a huge inner space for planting Wuyu tea trees and purifying incense will power.

With the help of 6,900 avatars, the big project of planting Wuyu tea trees was quickly completed.

Countless creatures in the two worlds are contributing a lot of incense power to Su Lang every moment.

These incense willpowers are stored in incense statues through incense collection channels.

After the Wuyu tea tree, the positive incense aspiration and the negative incense aspiration are completely separated.

The former are scattered in the space inside the statue, and the latter are stored in the roots of Wuyu tea trees.

"At present, these incense can only be used to purify the emperor soul."

"However, it is estimated that purifying the emperor soul will not consume much positive incense aspiration power, and most of the aspiration power will still be stored."

"When I find the perfect way to use the incense power, these statues must have stored countless incense!"

Su Lang smiled and expressed great expectations for the move he left.

Next.

Su Lang took out twenty-four copies of Wudi Soul in the storage space.

Twenty-three of them were from the Battle of the Mainland, and one was the emperor soul of Emperor Ling Juewu.

Twenty-four emperor souls include two high-level martial emperor souls, fourteen intermediate martial emperor souls, and eight junior martial emperor souls.

[Chapter 1255: Follow the orders of the star master!](#)

"Go, be a good person!"

With a tick at the corner of Su Lang's mouth, the twenty-four spirits of Emperor Wu were thrown into the twenty-four incense statues and received the front incense transformation.

Under Su Lang's control, all the incense aspirations currently collected will be gathered in these twenty-four statues, speeding up the transformation of the Wudi Soul.

At present, Su Lang owns two big worlds, countless creatures, and dozens of Wu Emperors who have contributed incense power.

I believe that I will get the kindest emperor soul soon.

At that time, Su Lang's long-planned spiritual Internet, traffic Internet plan will be completely completed.

Moreover, so many emperor souls are not needed to complete this plan, and the remaining emperor souls can be used to refine evolutionary weapons.

These kindest emperor souls are definitely the most reassuring refining materials!

Next.

Su Lang looked around at the emperors: "Everyone, go away, take good care of the wounds, and serve my herdsmen."

"Follow the order of the star master!"

All the emperors bowed one after another with respectful expressions.

"Ok."

Su Lang received the Heaven and Earth Dharma and Clone, and moved to Feng Ling Clan.

Su Ling'er and Xiao Mei were naturally followed closely behind.

After arriving at the Fengling Clan, Su Lang went straight to the new city.

Great changes have taken place in the Canglan Continent, and the human high-level Yanxingxing and others will naturally visit the Canglan Continent and pay close attention to everything.

Su Lang arrived at this time.

Everyone was suddenly excited, and the joy was beyond words.

"Stars meet the patriarch!"

"Meet the patriarch!"

Yan Hengxing and a group of Terran masters salute respectfully.

"All get up."

"Come here today, one is to temporarily relocate the Blue Star Terran to Yaochi, and the other is to mention some Terran geniuses."

Su Lang smiled and looked at Yan Xingxing, "I asked you to select the human geniuses to register, can you do it?"

"done!"

Yan Hingxing immediately took out a jade slip and gave it to Su Lang with both hands.

"Ok."

Su Lang glanced at the list in the jade slip, "Let the top 13 come see me."

"Yes!"

After Yanxingxing responded, he immediately went to convey the news.

quickly.

The thirteen most talented humans appeared in front of Su Lang. There were men and women, heroic and scorching eyes.

"The junior has seen the patriarch!"

All the geniuses saluted together, most of them were familiar faces.

At the beginning, he fought side by side with Su Lang in the Tatian stronghold to resist the invasion of the Fengling clan.

just.

In a blink of an eye, Su Lang has become the master of the two worlds, but these geniuses have not changed much.

Fortunately, these thirteen people have gone through the assimilation of the Mingguang Ten Thousand Worlds and worship Su Lang extremely, otherwise they don't know how much spiritual shock they will suffer.

"Today, I give you a quasi-immortal cultivation base, and I hope you will continue to work hard."

Su Lang nodded lightly, nodded one of the women and said, "Come, come to us."

"Yes!"

The woman responded with excitement, then she trembled and came to Su Lang.

Seeing the excited woman like a little girl in front of him, Su Lang couldn't help but feel an illusion, as if he had really become an ancestor.

However, Su Lang is only in his twenties when combined with his previous and present lives.

Shook his head.

Throw distracting thoughts out of the clouds.

Su Lang placed his palm against the woman's forehead, and successively used cultivation base initiation, rule initiation, and exercise technique initiation.

Suddenly a quasi immortal who mastered the rules of the space system and the founding emperor level exercises was born.

boom!

A powerful breath erupted from this female warrior, and she reached the level of a martial artist!

At this moment.

Except for Yan Hengxing, Su Ling'er and Xiaomei, all the others are silly!

Su Lang didn't bother to look at everyone's horrified eyes, imposed the same restriction on the female warrior as Xiaomei, and then put her aside.

Soon.

Su Lang did not procrastinate, and made the remaining twelve people into quasi immortals with martial arts power.

"Stars, then you immediately migrate the human race on the blue star."

Su Lang looked at Yanxingxing, "Within an hour, I want no one on the Blue Star."

"Yes!"

Although he didn't know Su Lang's purpose, Yan Hingxing didn't even think about it, so he agreed.

then.

Under the leadership of Yan Hingxing, the high-level Human Race hurriedly went to work.

Su Lang also took Su Ling'er and Xiaomei to Blue Star, but did not stay at Blue Star much, and went directly to space and Saturn!

[Chapter 1256: Collect the Five Elements Life Universe](#)

Hiss! !

A space channel appeared in the deep space.

Su Lang led Su Ling'er and Xiaomei out of the space channel and came not far from Saturn.

"Oh my God, this is the planet!"

"I heard that Jingtian Star is a ball, but I have never seen it before. I didn't expect to see the planet today!"

"This pale yellow planet is so big and has a beautiful halo!"

"..."

Su Ling'er and Xiao Mei saw the strange space scenery of Saturn, they were so excited that they were chattering, Yingyingyanyan.

Su Lang glanced at the two of them, then at the beautiful river of light surrounding the sun, a trace of determination flashed in his eyes.

Immediately after.

Su Lang's eyes fell on Saturn.

At this time, Saturn was a circle smaller than before, because it was drawn by more than 60 clones for a while.

Those Saturn components formed 60,000 small celestial bodies in the gravitational array near the asteroid belt.

Currently.

Su Lang's Wuxian inner realm has all been promoted to the life universe, and the space has expanded countless times, enough to hold the entire Canglan Continent.

Therefore, it is no longer necessary to install Saturn.

However, Su Lang still intends to extract most of Saturn's components.

Because he only wants the purest core.

"Clone dispatch!"

Su Lang thought, sixty-nine clones appeared.

Immediately, the avatars cast their shadow avatars one after another, turning them into six thousand nine hundred, surrounding the Saturn cluster.

"Space Avenue!"

With an order from Su Lang, nearly 7,000 clones displayed Space Avenue at the same time, condensing countless space channels.

Compared with the previous sixty or so pitiful four-turn emperor-level clones.

These nearly seven thousand eighth rank emperor level clones are too much.

Suddenly.

Saturn is like a balloon with a big hole in it, and its size quickly becomes smaller.

Near the asteroid belt, a large number of Saturn components appeared in the gravitational array, forming 60,000 small celestial bodies.

It didn't take long.

Saturn's gaseous layer is completely removed, leaving only the inner core of the huge planet

——A core fragment of the boundless world that contains the avenue of earth system!

"Come!"

With a thought in Su Lang, the powerful space avenue tore through the space cracks, separating Saturn from this world.

Immediately, the universe of life in the spleen suddenly opened, swallowing the inner core of Saturn.

"Wow!!!"

"Your Majesty Langdi is too powerful!"

"Swallow a planet in an instant!"

"..."

Seeing this scene, the **** girl Xiaomei immediately yelled with excitement.

Although Su Ling'er was not as fanatical as Xiaomei, she was also very shocked and couldn't help but worship.

Su Lang turned a deaf ear to Xiao Mei's rant.

He is paying attention to his spleen life universe.

After Saturn's inner core entered the universe of life, it suddenly became the center of the entire world, absorbing everything in the universe of life to itself.

At the same time, a large number of remote rules feed back the universe of life, making this world more stable.

So far.

Zhenxing Inner Boundary...No, Zhenxing Universe was successfully cast.

Chenxing, Qiming, Yinghuo, Tai Sui, Zhenxing Five Elements Universe have all gathered!

The five internal organs correspond to the five elements, and are fed back by the five universes of life, complement each other, and grow endlessly.

Su Lang clearly felt that his emperor body had undergone a wonderful change, as if he had reached a certain state of consummation.

A vast force condenses in the five internal organs, and then spreads to the limbs and corpses, and then turns into a majestic innate Qi.

"My combat power has increased again!"

Su Lang could feel that in addition to his mental power, all aspects of himself had been increased.

Although this is a gradual increase, it is not too obvious in a short time.

But as time goes by, it will definitely bring considerable benefits!

"Next, I took Uranus and Neptune by the way."

With a big wave of his hand, Su Lang tore open the space channel and brought Su Linger and Xiaomei to the vicinity of Uranus.

The six thousand nine hundred avatars also arrived.

"Wow!"

"This light blue planet is even more beautiful than the previous one!"

"Xiaomei's favorite is the light blue, it seems to hug this planet!"

"..."

Seeing Uranus, Xiao Mei immediately beamed her eyes and became so excited.

Su Ling'er's eyes shimmered slightly, obviously interested in Uranus.

"If you really hug, you will be torn to pieces by the storm above in an instant."

Su Lang rolled his eyes: "Even if Wuxian falls into this planet, there will be no place to be buried."

[Chapter 1257: So, Blue Star, I am coming](#)

"what?"

"So scary?"

Su Ling'er and Xiao Mei shivered at the same time, their faces were afraid.

Su Lang smiled and shook his head, then began to do business.

The first is to arrange the gravitational array.

Then ordered six thousand nine hundred avatars to display the space avenue at the same time, and began to draw away from Uranus.

The twins of Uranus and Neptune are much smaller than Saturn.

Therefore, within a short period of time, the light blue Uranus was pulled out of the gaseous layer, exposing the land composed of 'ice' and a lot of rocks.

The 'ice' in the land is a gem containing the rules of light, and those rocks are treasures containing the rules of wind.

According to the plan.

Su Lang wanted to separate the two attributes of Uranus, and Neptune did the same.

"Take me apart!"

Su Lang gave an order, and six thousand nine hundred avatars swarmed up.

These are all clones of Rank 8 Martial Emperor level, one can blow up Uranus, and six thousand nine hundred are demolished together. It's not too easy!

With the efforts of the clones.

Countless light-system regular gems were collected into Su Lang's storage space, leaving only rocks with wind attributes.

Not long.

There are no more light gems on Uranus.

It has become a planet composed of the core of the Avenue of Wind and countless wind-attribute rocks, about two blue stars.

Next.

Su Lang separated Uranus from this space, then opened the life universe on his right leg and swallowed it.

Seeing Su Lang swallowing a planet again, Xiao Mei and Su Ling'er couldn't help but let out an uproar again.

"Let's go, there is another planet to deal with."

Su Lang tore through the space channel and brought the two women to the vicinity of Neptune.

Say nothing.

Su Lang set up a gravitational array and began to pull away the Neptune component.

Then he sent a clone to split Neptune, and put the dark rule gems into the storage space, leaving only the wind rule core and rocks.

Finally, as soon as the universe of life on the left leg opened, Neptune was also swallowed.

Following the Five Elements Life Universe, the two wind-attributed life universes, Tian Wang and Hai Wang, also took shape.

With the addition of these two life universes, Su Lang's physical strength has greatly improved.

The level of body skills is increased by half a small state, and it is equal to the defense and endurance attributes, reaching the level of 9th Rank Wudi+.

Simultaneously.

Seven of the eight planets in the entire solar system have been swallowed by Su Lang.

Only the blue star and asteroid belt are left.

Ow, and the sun itself.

Although the sun is very large, 109 times the diameter of the blue star, Su Lang's universe of life can still hold it.

After all, Su Lang's universe of life can hold even Canglan Star, and its size is comparable to the entire solar system!

"Next, take the Blue Star and the Sun together."

"As for the asteroid belt... keep it, they belong to Chu Xiaobei and others!"

Su Lang thought silently, taking Su Ling'er and Xiao Mei back to the vicinity of Blue Star.

The reason why Blue Star was chosen first was because the inner circle of the Dantian would swallow the Blue Star and the sun, and it would need to be turned on twice.

If it swallows the sun first, when the swallowing blue star is turned on for the second time, Su Lang will endure everything from the sun.

He doesn't have that strength yet.

at this time.

The three of Su Lang stood in space, looking at the blue planet not far away.

It is slowly turning, the horizon is faintly white, and the ocean and land form a beautiful picture.

"Compared to the five planets of Qiming and Yinghuo."

"Blue Star is the real and perfect core fragment of the Boundless Realm!"

"All the avenues in the boundless universe can be found here!"

Su Lang looked at the familiar Blue Star, with emotion and excitement in his eyes.

The plan to receive the Blue Star had been worked out after the Wind Spirit Clan War.

He waited for this moment for too long.

Retaining the excitement, Su Lang unfolded his mental power to scan the Blue Star and found that most of the creatures above had already been migrated.

Only some fierce beasts are left.

"Hehe."

"Yan Xingxing does a good job."

Su Lang smiled, "Then, Blue Star, here I am!"

Immediately after.

He tore through countless space cracks between his waves, separating the blue star and the moon from this space.

Immediately, the inner circle of the dantian unfolded, swallowing the blue star and the moon together, and everything seemed relaxed and happy!

After Blue Star entered the inner boundary of Dantian, nothing special happened, and it was very stable.

Even the fierce beasts above were only panicked because of the absence of the sun and the moon, except for everything else.

[Chapter 1258: A great imperial power!](#)

"Excellent!"

Su Lang nodded in satisfaction, "Go, go and engage in the sun!"

With excitement, Su Lang and the three came to the center of the solar system-where the sun is!

This flaming giant planet contains endless fire system avenue, radiation avenue, light system avenue, sun system avenue...

It represents eternity, light, vitality, prosperity, warmth and hope in the world.

Simultaneously.

It is also a horrible power melting pot!

Especially for Su Lang.

Because Su Lang had practiced the Innate Yiqi Emperor Jing, he could transform all the energy of heaven and earth into Innate Yiqi.

The energy of the sun is naturally one of them.

Once the sun is collected into the inner boundary of the dantian.

In the case that the conversion efficiency of the innate Qi can keep up.

Su Lang will have endless energy, no longer have to worry about losing his blue.

At this moment.

Su Lang, Su Ling'er, and Xiao Mei hovered in the place closest to the sun, feeling its eternal, majestic breath, and could not help but suffocate.

"This is the sun!"

"The origin of all life!"

"Unexpectedly, one day I could be so close to the sun, as if I was within reach!"

"..."

Su Ling'er and Xiao Mei looked up at the sun and couldn't help but exclaim.

Su Lang was so close to the sun for the first time.

The terrifying energy on that gave Su Lang a hint of retreat.

Among Su Lang's senses, the energy contained in this sun had at least reached the emperor level!

but.

Su Lang's intention to withdraw from cowardice quickly disappeared, and turned into a eagerness to try.

Because he doesn't need to be hard with the sun!

Just open the universe of life, put the sun in it like a bag, and put it away.

Well, it's like a melon thief carrying melons in a sack.

Of course, there are differences.

Su Lang doesn't have to bear the weight of the sun, but the melon thief needs to carry the melon and run.

In addition.

Su Lang's strength at this time is not at the peak state, he hasn't used the Devouring clone yet!

"Before setting the sun, it has to be stripped out of this space."

With a thought of Su Lang, six thousand nine hundred avatars surrounded the sun, and immediately began to tear the cracks with the Avenue of Space.

As if it had swallowed Mars, a large number of black space cracks appeared at the edge of the sun.

Countless cracks are connected into a network, gradually becoming dense and impermeable, and finally completely isolating the sun from this space.

At this moment.

The entire solar system has lost its light.

It was completely dark in front of you!

Seeing this scene, Su Ling'er and Xiao Mei couldn't help being a little scared, and they couldn't help but approach each other, holding their two small hands tightly.

Next.

Su Lang quickly asked the clones to revoke the "Hundred Shadow Clone" and restore their original strength.

Soon.

"Swallow the clone!"

Su Lang's eyes flashed, and the thirty clones were wiped out!

A more powerful aura burst out from Su Lang, and the void was twisting and trembling!

"Properties panel!"

[Name]: Su Lang

[Race]: human

[Qualification Level]: Turbidity

[Realm level]: Yi Zhuan Wudi

[Attack Level]: One Great Emperor +

[Defensive Level]: One Great Emperor

[Shenfa level]: a great emperor

[Endurance Level]: One Great Emperor

[Spirit Level]: Realm of Kongni

[Mastering the exercises]: The Infinite Heart Sutra, "Ten Thousand Laws into One: Unnamed" (Great Emperor Level, Founding)

[Activated system functions]: one-key training function (level 35), one-key training function (level 35), clone dispatch function (level 35)..... Partially hidden, [\[click here\]](#) to expand.

"A great emperor's power!"

Su Lang's eyes flashed.

This is a whole new realm!

Even the breeze that is inadvertently set off can easily kill a Nine Ranked Martial Emperor!

"Xuanhuo, such a legendary powerhouse, has a terrifying existence that has spanned tens of millions of years, and is already vulnerable to a blow in my hands."

The corner of Su Lang's mouth twitched, revealing an excited smile.

of course.

Su Lang will not be overwhelmed.

There are too many powerhouses in the boundless universe.

Take the Origin Devil Emperor of Dark Sky World, that guy is definitely a senior emperor, not something Su Lang can resist now.

Condensed the excitement.

Su Lang's eyes condensed, and his arms stretched fiercely: "Dantian inner boundary, open!"

[Chapter 1259: Devour the sun!](#)

boom!

An indescribable shadow descended, and the sun separated by a space crack was gradually shrouded!

A huge emperor-level spatial force filled the void.

The universe of life closed slowly and firmly, and finally closed completely, swallowing the sun completely.

"Come!!!"

Su Lang's heart moved, and the universe of life immediately returned to Dantian.

At this moment.

Su Lang immediately felt his whole body hot, and endless energy poured into his body, washing his limbs and corpses!

Immediately after.

These majestic energies began to transform into innate qi under the action of Wanfa Guiyi Great Emperor Level Cultivation Method!

in fact.

If the ordinary Emperor Wu received the sun into his life universe, he would definitely not be able to hold it.

For one thing, the life universe of other Wudi was not as stable as Su Lang's.

Secondly, it was because other Wu emperors did not have such a fast movement speed as Su Lang.

The energy released by the sun can only be converted in time when the one-key practice function is running at a speed of more than 45 trillion times.

Otherwise, the universe of life will be burned to pieces, and eventually destroyed.

Emperor Wu himself has a high probability of belching directly!

It can be said.

In the current realm, Su Lang is definitely the first one to dare to incorporate the sun into the universe of life!

At this moment.

The sun radiates heat in Su Lang's Dantian universe and is transformed into a majestic innate Qi.

Su Lang only felt that his internal organs and limbs were warm, as if he had taken a big tonic!

An innate aura filled Su Lang's whole body like a wave, moisturizing every cell.

of course.

It is impossible to overflow and waste!

Why did Su Lang have ten life universes?

Every life universe needs to be cultivated, and naturally requires a lot of energy!

Su Lang sat down in the void, looking at himself.

Under the observation of mental power.

As if the whole body had become translucent.

The ten divisions of the universe of life are located in the pubic area, internal organs and limbs.

Like ten vortexes of different colors, slowly rotating, while absorbing Su Lang's power, while feeding back the transformed energy.

Among them, the Dantian universe is the most colorful.

A wave of energy radiated from the vortex, washing Su Lang's body.

Su Lang's spiritual power was invested in the Dantian universe.

I saw the magnificent sun hovering in the center of the entire life universe, and the surrounding space was slightly distorted.

If it hadn't been for Su Lang to condense the space avenue, I am afraid the universe of life would be crushed.

The blue star still revolves around the sun, the climate remains the same, and the creatures remain the same. Everything is exactly the same as before the move.

"If you put other planets into the Dantian universe, you can rebuild a complete solar system!"

Looking at his Dantian universe, the corner of Su Lang's mouth was raised with a slight smile.

of course.

Su Lang would not do that.

Because he wants to train each planet in a targeted manner.

It is foreseeable that as time goes by, the planets such as Morning Star and Yinghuo will become larger and more perfect, and finally form a unique universe of life.

"By the way, the universe of life with both hands has not been completed yet."

Su Lang's thoughts turned, and his spiritual power fell into the ninth and tenth life universe.

The two universes of life are empty.

The little bit of soil and water that formed when the inner boundary was opened up was already scattered in the vast space, and it was almost impossible to observe with the naked eye.

"Hehe."

""The Stars of the Earth Burst" and "The Vientiane Sky Quote" can come in handy."

Su Lang smiled, and soon put the dark attribute gems and light attribute gems in the storage space into the two life universes of the left and right hands.

A large number of gems wander in the two life universes, like galactic gravel.

Next.

What Su Lang has to do is to condense it into a complete planet!

"Let's come to the light attribute first."

With a thought of Su Lang, he brought Su Ling'er and two people into the universe of life on his right hand.

"So empty!"

"Where is this place?"

"There are a lot of precious light-type treasures floating in front of you, my God, that is at least a holy gem!"

"Are these all the collections of His Majesty Langdi!?"

[Chapter 1260: The light universe and the dark universe!](#)

"..."

Xiao Mei's eyes shined like a idiot again, and she looked at Su Lang in admiration.

Su Ling'er was also very shocked, but she had 'high cold', so she appeared calmer.

Glancing at the two girls, Su Lang smiled faintly, and stretched out his right hand to gently pinch the center of the universe of life

—"Earth bursts into the sky!"

Wow!

The power of endless rules triggers a terrifying vision, forming a giant black energy ball.

Purple and red flocculent energy flashes crazily in the energy ball!

next moment.

"boom--!!"

The black sphere exploded, and the violent energy aftermath spread to the entire universe of life.

But then, the place where the black sphere exploded produced a terrifying collapse.

The aftermath of those escaping energy has just spread for a few milliseconds before being drawn back by the powerful gravity.

Void.

Countless light system gems are also affected by gravity and fly quickly to the center of the universe!

at this time!

"Vientiane Tianyin!"

Su Lang waved his hand, and a black ball appeared again in the center of the universe of life.

This black ball exudes extremely powerful gravity.

However, these gravitational forces can be controlled, and the gravitational forces for each target can be adjusted at will.

Su Lang thought.

The rule of light gems of the highest rank are attracted by the strongest gravity.

The lower the gemstone, the weakest gravitational force!

In an instant.

At the same time, the gems that fly to the center of the universe of life are separated in order.

The top gemstone of light system rules first arrived at the center of the universe.

Immediately afterwards, these gems continued to collide, shattering one after another in the terrifying invisible force, turning into powder.

Then, under the action of strong gravitation, they gather together to form an initial prototype of the inner core.

next moment.

More light-system regular gems hit a rudimentary core and became part of it.

After a dozen breaths.

The prototype of the inner core has been completely covered, forming a small celestial body.

Under the influence of tremendous pressure, the inner core became tighter and gradually turned into a complete giant gem.

This process becomes faster and faster as more gems condense.

finally.

All light system gems are condensed to the center of the life universe, forming a pure light attribute planet.

It is about the same size as the Blue Star, and its area is equivalent to the territory of a saint.

After forming the planet, it has produced its own gravity, enough to hold the light-based gems tightly.

but.

Compared with the blue star, Yingzhuo and other planets that have gone through more than four billion years, this light system planet is still too loose and too rough.

Therefore, Su Lang is not relieved to let go.

"We have to arrange a pressure array to oppress it from the outside world to make it stronger and more solid."

As soon as Su Lang had an idea, he acted immediately.

"A thought is formed!"

In Su Lang's mind, a series of emperor-level formations appeared, connected to each other, forming a giant net covering the entire planet of light.

Huge pressure radiated from the emperor rank formation, acting on the surface of the planet of light.

Suddenly.

The planet of light seemed to collapse, and the whole planet was a little smaller.

"carry out!"

"From now on this will be the Bright Universe!"

"Go, let's go to the next life universe!"

Su Lang waved his hand and left Bright Universe with the dumbfounded Su Ling'er and Xiao Mei.

As for the energy issue of the pressure array...

Su Lang didn't need to use immortal jade as the formation energy at all.

Just the innate qi allocated to the Bright Universe is more than enough to support these pressure formations!

Next.

The three Su Lang descended on the left hand universe.

Then using the same technique, the dark planet was condensed, forming the original dark universe.

So far.

All of Su Lang's ten life universes have planets!

From then on, Su Lang's plan became to cultivate the planet!

Just do it!

Su Lang immediately took out 23 miniature life universes.

These universes of life were derived from the completely fallen Emperor Jingtianxing Wudi.

They are like a transparent ball the size of a basketball, with chaos inside.

If you observe carefully, you can see the broken planet from the chaos, and even feel the thick death and resentment!

Emperor Wu died, the planet of life was shattered, and there were no eggs under the covering nest. Those creatures were also extinct in large swaths, just like the Liqi tribe that Emperor Ling Jue had raised.

These deadly resentments come from the dead beings.
