

## One Click 1271

### [Chapter 1271: Laozi is the emperor of heaven](#)

Soon.

He took the talisman to send a message to another person.

Soon, Li Qijue got a reply.

"what?"

"The coordinates of the Dark Sky World actually cost 500,000 Superior Xianyuan!?"

"A profiteer, too black-hearted! The coordinates of a world are sold so expensive!"

The expression on Li Qijue's face became very uncomfortable after reading the information on the talisman.

"Hey!"

"Five hundred thousand high-quality Xianyuan is too expensive, but five billion low-quality Xianyuan!"

"How about 50,000 yuan if you give me a face."

Li Qijue had a dark face and replied to the profiteer on the opposite side.

"fifty thousand?"

"Hehe, you dignified emperor, why are you always so poor?"

The other side replied in just four words, full of ridicule, and even meant that he didn't want to talk anymore.

"You! Humph!"

Li Qijue's complexion darkened, "Do you think I can't put out half a million?"

"Ha ha!"

There was another taunt on the other side.

"Dead profiteer!"

"I'll take the corpse of the Rank Nine Emperor Soldier as a mortgage, you give me the coordinates first!"

Li Qijue gritted his teeth and sent the message.

"The Corpse Throne?"

The reply on the other side was full of shock, "You killed the ten thousand corpse heavenly emperors running around!"

"Yes, I killed it!"

Li Qijue sneered, "How about it, give me a bit cheaper!?"

"No way!"

"You know, the Xinghai area is really too big."

"The world is distributed among them. It is as if hunters are in a dark forest, it is extremely difficult to find each other."

"We also spent countless prices to get some 'hunter' positions. It is impossible to sell you at a low price."

The profiteer did not let go, "Five hundred thousand a flat price! Or the corpse imperial throne plus fifty thousand Xianyuan."

"You are cruel!"

"I'll buy!"

"See you in Xufang City!"

Li Qijue finally spent this huge sum of money, and bought the world coordinates of Dark Sky World with some distress.

after all.

Dark Sky World already knows the coordinates of the Zhetian Continent.

If he doesn't know the coordinates of the dark sky world, isn't it that I am blazing the enemy in the dark, so I can only fall into passive?

"damn it!"

"I don't know where the Origin Devil Emperor got the world coordinates of my Zhetian Continent, and actually saved this huge sum of money."

"Hmph, Origin Demon Emperor Wu Boruo, one day, I will make all the losses from you!"

Li Qijue gritted his teeth, cursed viciously, and immediately began to check the coordinate information of the Dark Sky World.

This look.

Li Qijue's face changed all of a sudden, because Dark Sky World is not far from Zhetian Continent!

"Made has a big loss!"

"If I spend tens of thousands of years exploring the void nearby, I will probably discover the dark world by myself!"

The Heavenly Emperor Jueren's eyes widened, with regret on his face.

But he also knew that he was not the kind of person who could constantly explore in the boring void.

Even if he knew that there was a dark world not far from Zhetian Continent, he would still spend a lot of money to buy coordinates.

Lose less at most.

"hateful!"

"Dark Sky World, right? Origin Demon Emperor, right? Wubo Ruo right!"

"Lao Tzu, the emperor of heaven, must kill you and burn you all to make up for my loss!"

Li Qijue clenched his fists viciously.

But the next moment, his face was stagnant, and his white hair began to change to black!

Not only is the color of the hair changing, but Li Qijue's strength is constantly weakening.

"Here again! Emperor Eclipse!"

Li Qijue's complexion changed drastically, and immediately took out a lot of fairy sources from the universe of life and began to \*\*\*\* energy.

Not long.

A lot of Xianyuan was wiped out in ashes, and the condition of Emperor Jurentian was better.

"My fairy source... my fairy source!!"

Seeing the immortal source in front of him turned into gray, Li Qijue felt distressed.

This is already his few immortal sources left.

If Xianyuan is not enough until the next emperor's calamity comes, his cultivation base will drop by a large margin, and then gradually become the weakest and weakest emperor!

In the cruel Xinghai region, if there is not enough strength, then it is about death.

### [Chapter 1272: Condensing the Avenue of Fire!](#)

"The war against the dark world must be launched as soon as possible!"

Li Qijue took a deep breath, turned and walked into a thatched cottage.

In fact, this thatched house is a quasi-imperial soldier, but in any case, it still exudes a very frugal (poor) frugal (poor) atmosphere...

at the same time.

In the Dark Sky World, Origin Demon Emperor Wu Boruo has already launched the arrangement of the 'Zhetian Continent'.

Of course, Wu Boruo didn't know that the Zhetian Continent he thought was actually Canglan Star.

He didn't even know that while he was laying out the "Zhetian Continent", the real Zhetian Continent was also starting to lay out him!

At this moment.

Wu Boruo has sent a large number of Dark Sky Clan warriors, starting from Dark Sky World, and embarking on a journey to the east of Xinghai.

Yes.

Although Wu Boruo mastered the coordinates of Canglan Star, he believed that it was the powerful 'Zhetian Continent', so he did not dare to directly descend on Canglan Star by using space methods.

He wants to slowly erode the possible world around the "Zhetian Continent", eliminate all variables, and finally concentrate his strength to start the war to invade the "Zhetian Continent"!

at the same time.

Su Lang on Canglan star is still refining the parts of the fairy.

"The nineteenth thousand!"

Taking away the parts in his hand, Su Lang stretched out slowly.

Immediately, he temporarily closed the cauldron and his eyes fell into the mysterious black space.

The one-key cultivation villain who was originally white has turned into gold for a long time, and I don't know how much cultivation base he has accumulated.

"System, give me a level first."

Su Lang thought, and gave instructions.

Suddenly.

A large amount of spiritual energy appeared in Su Lang's body out of thin air, directly transforming into innate Qi.

The next moment.

The terrifying breakthrough wave spread out from the imperial palace, and the entire main city in the summer was covered.

In the worship of countless warriors.

Su Lang's cultivation realm instantly turned into Second Rank Wudi!

After the realm is improved.

Most of the golden villains remain golden.

"There is still a lot left."

"I don't know if I can condense the second avenue."

Su Lang licked his lips, and immediately issued an instruction, "System, gather the fire system for me!"

"Ding! The Fire Element Avenue begins to condense!"

When the system prompt came, Su Lang immediately showed numerous flame anomalies.

An aura of burning everything permeated, if Su Lang hadn't controlled it, I'm afraid it would have covered the entire hot summer city and burned it into a sea of flames!

The moment when the fire system avenue is condensed and completed.

Su Lang's palm suddenly appeared a translucent flame flower.

This flame flower is in the manifestation state of the fire system avenue, which can transform into all flames in the universe except for the different fires.

Ni Qianzhou's rule of red lotus is the most precious thing that is transformed with this flame flower.

"Well, the power is not bad!"

Su Lang felt the fire avenue in his hand and nodded in satisfaction.

Immediately after.

Seeing that the cultivator had completely turned white, he dispelled the thought of continuing to condense the Great Dao.

but.

The cultivation realm and the power of the Great Dao cannot be improved, but Su Lang can still improve one thing.

That is the spiritual realm!

Since the last time he burned his soul, Su Lang hadn't burned his soul, and his spiritual cultivation was already full.

After practising the "Golden Mystery Method", his soul quality has almost reached the limit of his current realm, and the immortal level exercise method "Burning Soul Solitary Lamp Jue" has almost expired.

So Su Lang didn't plan to burn his soul anymore.

He wants to be promoted to a higher spiritual realm in one fell swoop!

"I don't know what the name of the Great Emperor Grade Spirit Realm is."

As soon as Su Lang's thoughts turned, he immediately activated the soul gathering chapter in the exercise "Soul Gathering and Splitting Jue".

Instant time!

In the sea of knowledge.

Hundreds of thousands of souls flocked to the most central master soul like crazy.

Those forged soul origins also directly integrated into Su Lang's true soul origin.

When all the sub-souls are integrated into the main soul.

boom!

Su Lang's World of Consciousness instantly restored its original size!

In the sky, a giant sun shone on the earth, and the whole sea of consciousness has become a golden world!

"This mental power is estimated to be invincible at the Emperor Wu level!"

"However, if it is against the real emperor, it is estimated that it will be even worse. The gap in realm is too great."

Su Lang felt his spiritual power, and immediately issued instructions, "System, give me a higher level of spiritual realm!"

#### [Chapter 1273: Spirit, the realm of broken nirvana!](#)

"Ding! Start breaking through!"

As the system prompts out.

Su Lang's sea of consciousness has undergone earth-shattering changes.

boom! !

The first loud noise of the beginning of the world seemed to be heard in the world of knowledge.

Immediately, I saw the huge sun explode, turning into countless star points dragging the streamer, and falling to the ground.

As soon as these star points fell on the ground, they immediately merged into it.

After merging into the star points, the land of the sea of consciousness gradually turned into a cloud of golden mist, floating around.

Gradually.

The whole world of Consciousness Sea turned into a golden mist, and there was no more vast land and bright sun.

It's as if everything is broken, obliterated, and returned to chaos!

"Ding! Break through the Realm of Broken Nirvana!"

The system prompt came.

"Above the empty nirvana, is the broken nirvana?"

Su Lang slowly opened his eyes, a trace of golden mist lingering in his eyes.

Simultaneously.

He thoroughly understood the characteristics of the Realm of Broken Nirvana.

The so-called broken nirvana is to grind the soul thoroughly to form the most subtle soul power!

All this is to prepare for the 'soul body fusion' and the 'soul universe fusion'!

Only the souls in the Realm of Broken Nirvana can merge with each cell or slowly merge with their own life universe!

Simultaneously.

To this state.

The ability of mental detection and mental defense has been greatly improved, but the ability of mental attack has been greatly reduced.

In addition, the power of the soul is very precious, and it must be used for soul-body fusion or soul-space fusion.

Therefore, in the realm of the emperor, almost no one uses mental power as a means of attack anymore.

"The Realm of Broken Nirvana is reached."

"Next, we must break through the realm, reach the emperor level, and then embark on the dual repair path of soul-body-soul fusion."

"However, the realm must be improved as soon as possible, and the power of the dao can't be lowered. The root of the Emperor Wu is the power of the dao."

Su Lang thought silently, and immediately opened the property panel.

"Properties panel!"

[Name]: Su Lang

[Race]: human

[Qualification Level]: Turbidity

[Realm level]: Second Rank Wudi

[Attack level]: Quasi-Great +

[Defensive Level]: Quasi-Great Emperor

[Shenfa Level]: Nine Turns Wudi+

[Endurance Level]: Quasi-Great Emperor

[Spirit Level]: Realm of Broken Nirvana

[Mastering the exercises]: The Infinite Heart Sutra, "Ten Thousand Laws into One: Unnamed" (Great Emperor Level, Founding)

[Activated system functions]: one-key training function (level 35), one-key training function (level 35), clone dispatch function (level 35)..... Partially hidden, [click here] to expand.

"It's improved by half a small level on average, which is not bad."

Su Lang smiled faintly, and then planned to continue refining parts.

But at this moment.

Suddenly countless blood-red clouds appeared in the sky of Canglan Star!

These blood-red clouds continued to spread, even leaving the atmosphere, floating in a certain direction.

"It's a vision of heaven and earth!!"

"This level of heaven and earth vision, is it an invasion of another world?"

"No, we just finished the battle with Jing Tianxing, this is invaded again!?"

"My injury hasn't healed yet. I really want to fight. I guess it's too bad!"

"Hurry up, go to the main city of the summer to meet the star lord and see how the star lord decides!"

"..."

One by one, the emperors were shocked and went to the main city in the summer.

at the same time.

Su Lang also discovered a vision of heaven and earth.

He even felt the change in world consciousness!

Canglan Star's world consciousness became vigilant, as if guarding against the enemy.

"Unsurprisingly, someone from another world has really arrived."

Su Lang narrowed his eyes, "Perhaps, because of the battle between Canglan Star and Jingtian Star, the hungry wolf attracted!"

At this time.

All the emperors have arrived in the main city of Yanxia, standing in a row outside the imperial palace.

"Go back to heal your injuries."

"I'll take a look alone."

Su Lang walked out of the imperial palace slowly with his hands on his back, and shook his head lightly.

"Yes!"

All Wu Emperors have been subdued by Su Lang's "Mingguang Wanjie", and they are naturally obedient.

Immediately after.

Su Lang turned and set foot on the sky, stepping on the red cloud and flew towards the starry sky.

[Chapter 1274: Void Fleet!](#)

The vision caused by Canglan Star's world consciousness was quite severe.

A road paved by red clouds has formed in the starry sky!

The Red Cloud Road is like a navigation sign, guiding Su Lang to the edge of the Canglan star field.

Gradually.

The Red Cloud Road disappeared.

However, Su Lang could still feel that the vigilance of world consciousness had not disappeared.

He watched Su Lang, trying to guide Su Lang to move on.

"This world consciousness is smarter than I thought."

"It is also possible that I have contributed too much to Canglan Star. His only little subjective consciousness is all used on me, so that it will appear more spiritual."

Su Lang turned to look at the slowly rotating Canglan Star behind him, and smiled faintly.

Immediately after.

An idea suddenly popped into his mind.

"Maybe there is no way to communicate with Him without being in harmony with the world!"

"After this incident, we will gather the path of destiny and see if we can get the secret of Chu Xiaobei from him."

Su Lang's eyes lit up and he made a decision in his heart.

Soon.

Su Lang continued to fly forward.

In order to prevent possible intruders from being missed, he did not use the space shuttle to drive the way, but directly fly.

but.

Even when flying, Su Lang's speed is super terrifying!

After all, he has the imperial speed secret method "Kunlun Invisible Step"!

"Kunlun invisible step!"

Su Lang's heart moved, and he performed secret techniques.

For an instant.

Numerous innate qi in Su Lang suddenly disappeared.

Even the source of vitality is about to move around and seems to be consumed.

However, under the effect of the system function of 'spit out the old and accept the new', the vitality remains unchanged and has not been consumed.

This made Su Lang immune to all the side effects of using Kunlun Invisible Step.

After performing esoteric surgery.

Su Lang, who was already very fast, rushed out all at once, and it was extremely difficult to discover the mental power of an ordinary Wudi!

The distance of one trillion mile, almost passed in the blink of an eye!

quickly.

Su Lang passed through the empty void and occasionally smashed a barren meteorite to the edge of the Canglan star field.

A dazzling white suddenly appeared in the boring void.

Su Lang took a closer look.

It was an extremely huge ship-shaped building, exuding a not weak imperial atmosphere.

Around it, there are also ninety-nine smaller white ships, all of which are Quasi-Emperor Class!

On the side of that emperor class white ship, three majestic and majestic unknown characters were engraved.

With the speed of the ability to "proficiency in spoken and written languages", I immediately recognized the three characters "Gou Chen"!

"Hook Chen?"

"Void Fleet?"

The corner of Su Lang's mouth unceremoniously released his mental power, covering the entire fleet.

The members of the fleet suddenly appeared clearly in Su Lang's vision.

These fleet members come from different intelligent races, but they all resemble human races.

There are also strange ethnic characteristics growing in some parts.

In addition to appearance.

The strength of all fleet members was also fully understood by Su Lang.

Then, Su Lang was slightly surprised.

Because, there are 99 Wudi in this seemingly small fleet, more than the combined star Canglan and Jingtian before the war!

In the giant white ship Gochen, there is even a room that cannot be detected.

"This room...the Great Emperor grade material is made of soul jade?"

"Unexpectedly, it can stop my spiritual power in the Realm of Broken Nirvana!?"

Su Lang raised his eyebrows, "Could it be that there is a great emperor in this fleet?"

Suddenly.

Su Lang became a little more vigilant, withdrew his mental power, and his aura also converged.

He has swallowed thirty complete clones now, and he has only reached the level of one pole and two great emperors.

If the opponent is a senior emperor, it is likely to fail.

Although Su Lang himself couldn't die, he could just leave, but Canglan Star and Jingtian Star would suffer if he really had to leave.

### [Chapter 1275: Gouchen Chamber of Commerce!](#)

Just when Su Lang was vigilant.

A young woman with a pretty face flew out of Gochen.

This woman looks similar to the human race, and her racial feature is the two pink lines at the corners of her eyes, which adds another point to her grace.

She was wearing a purple robe, and her style was different from that of Canglan Star, with less fabric and a low neckline, which made her appear more glamorous.

In short.

Even from Su Lang's eyes, this woman is very beautiful.

Of course, senior warriors are not bad in appearance, and the most important thing is strength!

Seeing the woman flying in front of him, Su Lang opened her attribute panel while turning his mind.

[Name]: Gao Bingjie

[Race]: Concubine

[Qualification level]: No shortage

[Realm level]: Three-turn Wudi

[Attack level]: Three-turn Wudi

[Defensive level]: Three-turn Wudi

[Shenfa Level]: Three-turn Wudi+

[Endurance level]: Three-turn Wudi

[Spirit Level]: Realm of Kongni

[Master the exercises]: Concubine Red Heart Sutra (major exercises), Lingpaku Shixin Emperor Sutra (Emperor Level, Xiao Cheng), Qi Xing Dang Xuan Lu (Emperor Level, Introduction)

"Are you going to take the seductive route?"

Su Lang's mouth twitched and smiled coldly.

at this time.

Gao Bingjie had already flown in front of Su Lang.

"The slave servant Bingjie, I have seen seniors."

Gao Bingjie bowed, and the white color flashed by, bringing a delicate fragrance.

"Without further ado."

Su Lang rolled his eyes and asked directly, "Who are you, where are you from, and what are you doing?"

"Return to senior."

"We are the Gouchen Chamber of Commerce, walking in the void of the star sea, and trading with the planets that we pass through."

"Not long ago, we felt the aura of battle in the distant void, and we speculated that there might be a planet with intelligent creatures in this direction, and we rushed over."

"We are not malicious, just want to sell some items, such as... healing treasures."

Hao Bingjie's face always has a gentle and well-behaved smile, which is like a spring breeze, refreshing, and worthy of being a professional female publicist.

"A chamber of commerce that walks in the void and does business with various planets?"

"Tsk tusk, I also worked as a mysterious merchant back then, and was considered by the Canglan Star Wudi to be a cross-stellar business organization."

While thinking, Su Lang glanced at Gao Bingjie.

He couldn't believe this woman.

After all, this Gouchen Chamber of Commerce is indeed powerful. There are ninety-nine martial emperors. It is enough to destroy a martial emperor-level planet.

As long as your heart is darker, what kind of business do you have, just grab it!

"Gouchen Chamber of Commerce really has no malice!"

Hao Bingjie still kept smiling, "We have a lot of healing medicines for sale, and seniors may be able to use them."

Talking.

She waved to Gouchen behind her, and a quasi-emperor man flew above.

"Meet seniors."

After the quasi-emperor man saluted, he took out a huge silver metal box and opened it.

Su Lang glanced at it, and saw that there were a large number of emperor grade healing pills, even spiritual ones.

"Tsk tut!"

"So many emperor-level pills!!"

Su Lang's eyes lit up, revealing a touch of excitement.

Upon seeing this scene, Hao Bingjie and the Zhundi man suddenly felt a little disdain.

This box of pill is just a little inventory of the Chen Chamber of Commerce.

Fortunately, they have made deals with warriors on many planets, and even bigger 'Tubaozi' have been seen, so their expressions have not changed and they still remain humble.

but.

Hao Bingjie and Zhundi men broke their heads, but they couldn't think that Su Lang's "earth buns" actually didn't like these pills.

Although these medicines are of the emperor rank, they are all low-grade!

How can Su Lang, who is used to eating the perfect quality pill as jelly beans, swallow this kind of garbage pill?

Su Lang's excitement is entirely because these medicinal pills can be used to decompose medicinal prescriptions and ingredients!

[Chapter 1276: Forget it, let me tell you](#)

"It's really a business man."

Su Lang smiled and said angrily, "Are there more pills? I want to buy some of each!"

"Of course there is!"

"Senior, please wait a moment."

Hao Bingjie suddenly opened her eyes and smiled, and she said that she didn't expect this bun with a big appetite. This business was a good deal, but she didn't know whether he would give it or not.

then.

The quasi emperor man brought twenty boxes again.

Wow, the boxes were all opened, and there were also a large number of emperor grade pills inside.

The fragrance of the medicine is permeated, which makes the body and mind comfortable.

"Bingjie, right."

Su Lang waved his hand, "Give me one pill of each kind and pack it in different bottles."

"Yes, senior."

Hao Bingjie smiled happily, but did not act. Instead, he said, "There are 26 kinds of pills that the predecessors need. The price varies according to the grade, and the total price is 20 million yuan."

"Twenty million under Xianyuan?"

Su Lang raised his eyebrows, "The value of each pill is close to one million Hinayana, you are really expensive!"

All the working capital of a second-turn Wudi was not one million.

It is enough to see that Gouchen Chamber of Commerce is really black!

"Things are expensive."

"Senior's world has just gone through a war, and these medicines must be needed very much."

"A pill is likely to be the key to a Wudi's survival."

"..."

Gao Bingjie's smile hasn't changed at all, making it impossible to see the depth.

"Twenty million is too much, up to ten million!"

Su Lang said decisively, "And I won't pay Xianyuan, but use treasures as a price."

"Ten million?"

"Treasure price?"

Hao Bingjie's smile finally disappeared a little, and it seemed to be hesitant.

But the next moment.

As if she had received an order, she nodded directly: "Okay, please also ask Senior to show the treasure."

"Of course, no problem!"

Su Lang smiled, and directly took out a piece of Emperor Grade material, "Look at this, it should be enough."

This imperial material looks like ice blue jade.

It was synthesized by Su Lang with countless unused leftovers. The level was very high, reaching the rank of Rank 8 Wudi.

"this is....."

Gao Bingjie looked at the imperial treasure that contained a lot of rules and was dumbfounded.

Because she didn't even know what material it was!

Therefore, Gao Bingjie apologized and said: "Please wait a while, seniors, we need to identify."

Su Lang nodded and pointed in front of him: "The appraisal is OK, right here."

"That's natural!"

Gao Bingjie smiled, and immediately contacted an old man.

Su Lang glanced at the old man's attribute panel, and he was also a third-rank martial emperor.

Moreover, this old man has a dull and decadent aura, it is estimated that he is almost reaching the end of his life and is about to fall.

Perhaps, it was precisely because this old man was going to die of old age, so he was knowledgeable and became the appraiser of the Gouchen Chamber of Commerce.

"I have seen you!"

The old appraiser saluted Su Lang, and immediately began appraising the ice blue jade.

however.

The old man turned over and looked confused, and didn't even know him!

"This....."

"The old man can't recognize this treasure."

"However, what is certain is that it is a unique Eighth Rank Emperor Grade material."

The old appraiser was very honest, and didn't talk nonsense to devalue the material.

"Tsk tusk, why don't you know each other?"

"Forget it, let me tell you, it's called ice blue obsidian."

The corner of Su Lang's mouth ticked, "It contains almost all the power of rules, which means it has a very wide range of uses, you know."

In the second half of the sentence, Su Lang didn't say, that is, the power of every rule is very weak.

Therefore, the ice blue obsidian seems to be very powerful, but it is very tasteless when used for refining.

Of course, the ice blue obsidian also has a good effect, which is to assist the martial artist to understand the rules.

[Chapter 1277: Exchanged eyes, it's a fat sheep](#)

unfortunately.

Su Lang didn't use it at all, nor did his subordinates.

Who made him carry the blue star in his stomach?

In short.

For Su Lang, the use of ice blue obsidian is really small, so it's better to trade it.

at this time.

After listening to Su Lang's words, Gao Bingjie and the old appraiser suddenly felt that the ice blue obsidian was very tall, and it was perfectly possible to exchange for 10 million inferior Xianyuan.

"Senior's ice seed blue obsidian is very valuable, and we are very satisfied with the Gochen Chamber of Commerce!"

Gao Bingjie smiled brightly, "So we agree to this deal. These 26 emperor-level pills belong to seniors."

With that said, she packed up twenty-six kinds of pill and exchanged for Su Lang's blue obsidian.

Su Lang was very satisfied with the 26 emperor-level pills.

He immediately decomposed it and obtained a large amount of imperial grade materials, and by the way, he also obtained all the elixir prescriptions!

Immediately after.

Su Lang then used the decomposed materials again to make a pill.

What's more, five pills can be made from one ingredient, all of which are of perfect quality!

This time.

Su Lang not only made a quick return, but also made a lot of money!

"Beautiful!"

"This Gouchen Chamber of Commerce must not be let go easily!"

Su Lang thought so in his heart, smiling on the surface, "Sister Bingjie, I still have some materials here, and I want to make further transactions with your chamber of commerce!"

"Really!?"

"I don't know how many ice blue obsidians are there in Senior? We want them!"

Gao Bingjie also boasted that he did not suffer a loss in this transaction, and even made a fortune. Of course, he refused to let Su Lang, the 'silly' fat sheep.

"Ice blue obsidian is running out."

Su Lang shook his head, and when Gao Bingjie was disappointed, he said, "But there are other high-level materials, many of which are more advanced than ice-type blue obsidian, and we should cherish it!"

"hiss!!"

"This is serious!?"

Gao Bingjie took a breath instantly and asked in shock.

Not only her, but the Wu Emperors in the Gouchen Chamber of Commerce fleet who were paying attention to Su Lang, all took a breath.

In the mysterious room of Gouchen, a middle-aged man who seemed to be sleeping suddenly opened his eyes!

This man is the president of the Gouchen Chamber of Commerce, the quasi-great emperor Li Gouchen!

Li Gouchen was very surprised at this time.

Imperial materials are already very scarce.

A Martial Emperor-class planet could not produce much.

There are even fewer advanced emperor-level materials, especially the eighth rank and the ninth rank. Even if others have them, they are reluctant to trade them!

but now.

Su Lang was actually willing, and he could get a lot of high-level emperor-level materials, how they were not shocked and surprised! ?

"of course it's true."

"These, these, and these, I will trade with you all!"

"However, I want to give priority to trading materials, and the low-level ones don't matter."

"You Gouchen Chamber of Commerce really doesn't have any materials anymore, and then use Xianyuan to trade."

Su Lang smiled faintly with one hand on his back, and with a light wave of the other hand, a large amount of Emperor Grade materials suddenly appeared.

The power of extremely majestic rules pervaded the void, making each Emperor Wu feel suffocated!

"This...so much!"

"And all are Emperor Grade materials!"

"Oh my God, that pile is all Rank 8 materials."

"That's... the nine-turn emperor grade material destroys the soul of the big day gold! There is also a titanium stone!"

"I originally thought that his sentence, 'You really have no materials for Gouchen Chamber of Commerce', is ridiculous. Now it seems that our materials may not be able to replace his treasures!"

"Is this guy so wealthy? He is richer than any Emperor Wu we have seen before!"

"Hey, why does this guy exchange these high-level materials for our low-level materials, is there a mistake?"

[Chapter 1278: A single name](#)

"Perhaps he can't use these precious high-level materials."

"Yes, I think he has a very terrifying aura and extraordinary combat power. He must not be very skilled in alchemy."

"If we get these materials, we will make a lot of money!"

"Hey, I don't know if the president will make a move."

"Yeah, I really look forward to it!"

"..."

One by one, Emperor Wu secretly communicated, and there were some strange gazes looking at Su Lang.

In the secret room.

Li Gouchen's eyes were also slightly bright, and there were waves of fluctuations in his heart: "I didn't expect this guy to actually come up with so much material!"

A smile gradually appeared on Li Gouchen's face.

He began to look at Su Lang carefully.

"I didn't pay attention to this person before in a deep sleep."

"Let's take a good look now!"

"Well, the cultivation base fluctuates...the second turn? How is it possible?"

"His aura is clearly at the Quasi-Great Emperor level, why is there such a low level of fluctuation?"

"Could it be that the fluctuation of cultivation level is an illusion that he disguised? But why didn't he also disguise his aura?"

"Could it be that he didn't pretend that the breath of the Quasi-Great Emperor is actually not his, but some kind of...the treasure of Quasi-Great!?"

"Yes! This guy can come up with so many treasures, there are nine rank martial emperor ranks, and there must be quasi-great emperor ranks!"

"That quasi-emperor-level treasure, he did not put it in the living universe, but put it on his body, perhaps because the living universe could not bear it!"

"In addition, as soon as my Gochen fleet entered this star field, he ran over, perhaps guided by the world consciousness."

"Then, he should be the person in that world who is most acquainted with the world consciousness!"

"Perhaps it is also the strongest person in that world... It's just that the quasi-emperor's treasure has overwhelmed the rest of the people and ascended to the position of the strongest king!"

"..."

Li Gouchen used his tens of millions of years of experience to constantly speculate about Su Lang's situation.

finally.

He believed that Su Lang should be a lucky man who had obtained a lot of treasures.

Then, with these treasures, he reached the extreme, ruled a planet, made a huge contribution to the planet, and finally got the ignorance of the world consciousness.

"These people have heard of it before."

"But I didn't expect that I would meet in person today!"

Li Gouchen squinted his eyes, the flashing light concealed the thoughts in his pupils.

at the same time.

Looking at the high-level emperor-level materials in front of him, Gao Bingjie couldn't help covering her small mouth, her beautiful eyes dazzling!

"how about it?"

Su Lang smiled faintly.

"This business, we Gouchen Chamber of Commerce did it!"

Gao Bingjie nodded without hesitation, and then turned to look at the Emperor Zhun next to him, "Go, put all the funds and goods of our Chamber of Commerce on the 99th ship!"

Finished talking.

She looked at Su Lang with a smile again: "Senior, let us count the materials and calculate the value?"

"You count it."

"But I'm ahead of the shame."

"I am a person who has seen a lot of treasures, and his eyesight is not bad."

Su Lang smiled noncommittantly, "If you dare to play tricks under my nose, don't blame me for being ruthless."

"do not worry!"

"We will never let you suffer!"

Gao Bingjie nodded quickly with a sincere expression, "By the way, I wonder if Bingjie is lucky enough to know your name?"

"The deity's single name is a wave character."

Su Lang smiled faintly with his hands behind his back.

"So you are Langdi!"

"This title is really suave, free and unrestrained!"

Gao Bingjie praised, and then continued to follow the topic.

Su Lang chatted one after another, and he didn't say anything to Gao Bingjie, who got closer and more charming.

Gao Bingjie did not give up, and continued to scratch her head.

But she also knew the severity, and didn't dare to use any magical powers on Su Lang irresponsibly.

[Chapter 1279: So, this one](#)

The other side.

A group of warriors from the Gouchen Chamber of Commerce constantly appraised the treasures that Su Lang took out, exclaiming from time to time.

"Hey, this is Rank Nine Emperor Grade material!"

A martial emperor picked up a piece of material, his hands trembling, "This is the first time I touched such a treasured material with my hands!"

"The materials for this eighth rank emperor rank are not bad."

Another Wudi kept swallowing saliva, "If I read it right, it should be Wuhen Tiandao Stone!"

"I have a lot of mysterious frost purple mist jade here!"

Another Emperor Wu was stunned, "This is the material of Rank Seven Emperor Rank, there are so many!"

"I don't know this, this, this piece of Rank Nine Emperor Grade materials. Who of you knows? What? Don't you know? Uh!"

"..."

Each Emperor Wu was dumbfounded, dumbfounded, and almost forgot to do business.

A short time passed in a blink of an eye.

All the materials were appraised by the emperors of Wuwu and registered.

Some of the materials have never been seen by the Emperor Wu of the Chamber of Commerce. They can only identify the level and create a separate book.

"Master Langdi!"

"We have already completed the appraisal here."

"These materials of yours are worth a total of 26 billion Xianyuan!"

"If you want to replace materials, funds or other treasures, please choose from here!"

Gao Bingjie reported the appraisal result to Su Lang, then pointed to a Quasi-Emperor class ship next to him, and invited Su Lang to board the ship.

With regard to the 99th ship, Su Lang had already used his mental power to detect it clearly, so he knew there was no trap inside.

"Don't look at it."

Su Lang smiled and shook his head, "I have checked your goods."

"what!?"

Gao Bingjie was shocked, showing a look of stunned expression, "When did you check it?"

The other Emperor Wu also looked surprised and unbelieving.

"Ha ha!"

"Your mental protection formation is like nothing in front of me."

Su Lang curled his lips in disdain, "If you don't believe me, I will read the list of goods to you, 5,000 square meters of the Yunxian Marrow, and 100,000 ghosts and ghosts of the 100,000 year old..."

As Su Lang gradually read the materials on the 99th ship, everyone in the Gouchen Chamber of Commerce suddenly showed incredible expressions.

Even Li Gouchen was surprised.

"This Langdi has such a subtle observation ability and such a wide range of insights!"

"Perhaps, he has cultivated some spiritual emperor level exercises."

"However, in any case, it is impossible for him to see through my secret room created by Soul Chasing Jade."

Li Gouchen touched the floor. The secret room created by Soul Chasing Jade was his most precious thing, and it was a great treasure!

Here.

"There are too many things, I won't read them one by one."

Su Lang stopped reading the list and said slowly, "Your Xianyuan and all the goods are a bit short!"

With that said, Su Lang shook his head with an unhappy expression, seeming to be very disappointed with the financial resources of the Gouchen Chamber of Commerce.

"This....."

Gao Bingjie hesitated for a moment, then gritted his teeth, "Then, let's exchange materials of the same value for Lord Langdi."

"Haha."

"In fact, it doesn't have to be the case."

"I have some questions to ask you Gochen Chamber of Commerce."

"If you can give me a satisfactory answer..."

The corner of Su Lang's mouth was raised, and he fixedly looked at Gao Bingjie, "Then I will take a step back and take a loss, and use all the materials in exchange for all your goods."

In fact, all the belongings of the Gouchen Chamber of Commerce are not much worse than Su Lang's materials, probably only.

What's more, Su Lang, who possesses system functions, never loses his blood.

If he could really get useful information, Su Lang would treat those 'losses' as buying intelligence.

"This!"

"can!"

"of course can!"

"I wonder what Lord Langdi wants to ask?"

Gao Bingjie heard Su Lang put forward such a good condition, how can there be any reason for not agreeing?

"Listen, what I want is..."

Su Lang's expression condensed, "All the information about the gate of exile and the place of exile!"

This statement came out.

Gao Bingjie and the other people in the Chamber of Commerce immediately looked at each other, their eyes blank.

See this scene.

Su Lang slowly shook his head: "Don't you know? So, what about this one?"

Talking.

He turned and stared at Gouchen, to be precise, staring at the secret room created by the jade of soul chasing.

### [Chapter 1280: The Coffin of Kowloon](#)

Just when Su Lang stared at the secret room.

Li Gouchen also stared at Su Lang in shock: "The gate of exile, the place of exile? He actually knows these two things, these are the secrets of the emperor level.

This guy... is clearly a Martial Emperor from a remote galaxy. He knows this, and there are treasures of the quasi-Great Emperor and so many materials, which is really strange! "

After some surprise.

Li Gou Chen Ping regained his mood, and when his thoughts moved, Gao Bingjie suddenly said, "Lord Langdi, I remember!"

"Oh?"

Su Lang raised his eyebrows, "Listen!"

"The so-called gate of exile is a kind of great emperor-level treasure."

"The gate of exile can lock a certain breath. As long as it is deeply connected with this breath, it will be locked and exiled."

"To refine the gate of exile, you need to use the carapace of a fierce beast 'Lost Xuanwu' in the place of exile."

"Lost Xuanwu lives in the land of exile, contains a light blood of time and space, and is born with some fur that understands the rules of time."

"Therefore, its shell also contains part of the time rules, which can be used to refine the gate of exile."

"It's just that the gates of exile are very rare, because only those who escape from the place of exile can carry the carapace of the lost Xuanwu."

Gao Bingjie looked at Su Lang as he said, "If Lord Langdi wants to get the Gate of Exile, it's probably very difficult!"

"So, what about the Exile? What do you know?"

Su Lang nodded slightly. There is basically no difference between what Gao Bingjie said and what Xi Kejia said. This information is accurate!

"Land of Exile..."

"It is rumored that it is a strange world, located in the mezzanine of time and space."

"The time flow in the Exile is very fast, but I don't know how fast it is."

"There are powerful people from countless worlds who have been exiled and sealed in the exile."

After a pause, Gao Bingjie continued, "People are stuck there and can't get out, and the flow of time is very fast, so there are a lot of strong people."

"Once you enter the land of exile, it almost represents death. Under the action of time, warriors who live longer will die of old age."

Hearing this, Su Lang frowned deeply: "Will everyone die? Is there any escape?"

"Of course there is!"

"The place of exile is not absolutely impossible to leave."

Gao Bingjie said, "In history, someone has escaped from the place of exile."

"Really?"

Su Lang's expression remained unchanged and asked, "How did they come out?"

"I don't know that."

Gao Bingjie shook her head and said, "I just know that there are three ways to escape the exile!"

"tell me the story."

Su Lang said lightly.

"Ok."

"The first way is to use the Lost Xuanwu to refine the gate of reverse exile!"

"The Gate of Reverse Banishment can exile yourself to the boundless universe again!"

"The success rate of this method is very, very low, almost equal to death."

"The second method is to condense the Avenue of Time and Avenue of Space at the same time."

"But the probability of this method is also very low. There are very few warriors in the boundless universe who can condense the space avenue. I have not even heard of those who can understand the rules of time."

"Although the place of exile is a special vast world, it is certain that it is much smaller than the endless universe, and there are fewer warriors in it."

"Then, the base of martial artists is small, and it is even more impossible to have someone who can condense time and space at the same time."

"The third method is most likely to escape the exile!"

Gao Bingjie didn't want to sell it, and said directly, "The third way is to gather warriors from all over the world to hold a grand battle!"

"Hold a great war? Trying to break the world's tearing time and space?"

Su Lang frowned, "Isn't that the same as the first method? It's not as good as the first method."

"Different."

"The purpose of the Great War is not to tear the cracks in time and space!"

"But to condense the purest and most intense humanitarian will!"

"With this, the coffin of Nine Dragons wandering in the unknown realm of exile can be induced!"

"It is said that in the end only one person can ride in the Nine Dragon Coffin and return to the boundless universe!"

"Except for this person, even his weapons and all the creatures in the universe of life are not immune!"

"The person who returned from the exile must be the ultimate winner of the exile. He is extremely powerful. Once he returns, he will be a rare powerhouse in the boundless universe!"

Gao Bingjie whispered, her eyes a little confused, as if she was imagining the terrifying battle scene and the peerless appearance of the person who returned!
