

One Click 1281

[Chapter 1281: I'm little schooling, don't lie to me](#)

Su Lang took a breath.

He thoroughly understood everything in the Exile Land.

Simply put, it is a world with super fast time flow.

When there are enough warriors who are strong enough, a big battle will be held to compete for the only place to return to the boundless universe!

"hiss--!!"

"Why is this a bit familiar?"

Su Lang suddenly changed his expression, "This Nima, isn't it the fantasy version of PlayerUnknown's Battlegrounds? Only the one who eats chicken can survive and return to the normal boundless universe!"

Thought of this.

Su Lang couldn't help but the corners of his mouth twitched.

He knew the cruelty of Battle Royale very well.

If Chu Xiaobei and others are successfully exiled to the exile, can they be killed from that ghost place?
and.....

There was only one chicken eater in the end of a great war, but Chu Xiaobei and the others were three!

"Lying down!"

"This is difficult!"

Su Lang frowned slightly, and immediately asked Gao Bingjie, "Is there any way to enter the Exile?"

"Except for the door of exile."

Gao Bingjie shook her head, "Probably only the strong who understand the avenue of time and space can enter."

Su Lang immediately asked: "What strength can survive through the gate of exile and enter the land of exile?"

Su Lang's Youtian Sword, Jianxian Cannon, and his subordinate Li Xianyang were all locked by the Gate of Exile, which became his three chances to enter the Land of Exile.

"This....."

"No one wants to take the initiative to go to the exile, so it's not clear."

"Perhaps it must be the supreme emperor, the peak of the emperor rank is also possible."

"Master Langdi has important things that have fallen into exile, do you want to find it back?"

Gao Bingjie took a deep look at Su Lang, then sighed, "Why don't you give up, it's really hard!"

Hear this.

Su Lang looked at Gao Bingjie coldly, and a murderous aura gradually spread.

"My lord, forgive me!"

Gao Bingjie stood upside down all over her body, frightened in her heart, and immediately bowed to the ground.

"Humph!"

Su Lang snorted coldly, a little irritable and impatient, "What else do you know, tell me."

"Yes!"

"One more clue!"

"Thirty million years ago, someone came back from the land of exile using the gate of exile. I know the world he came back from!"

With a cold sweat, Gao Bingjie said hurriedly, "If you can find him, maybe you can get more detailed information and a more feasible way to enter the exile!"

"where?"

Su Lang asked with a look.

"This....."

"This involves the coordinates of a world."

Gao Bingjie hesitated and said, "The world coordinates are very expensive, worth billions of dollars, so I can't call the shots. I ask the adults to wait. I will ask the chairman for instructions."

"The world coordinates are worth billions of dollars?"

Su Lang frowned slightly, "Then you go and ask."

"Yes!"

Gao Bingjie nodded, then turned and flew towards Gouchen.

But before she flew to the ship, a vigorous voice came from the secret room: "No need to ask for instructions, Gao Bingjie.

Your Excellency Langdi, here I have a star map with six world coordinates, including the one you need.

In the previous transaction, your Excellency treated me with sincerity, and I retaliated.

Now, you only need to pay 10 billion to get the star map! "

"Six coordinates ten billion?"

The corner of Su Lang's mouth twitched, and he sneered, "You really deserve to be businessmen."

"The price is really good."

Li Gouchen's voice continued, "Generally speaking, the coordinates of Emperor Wu's world are 2.5 billion, which is clearly marked in the city of Xuyanfang."

"Xufang City?"

"Where is that?"

Su Lang raised his eyebrows, "I read little, don't lie to me."

"Oh?"

"Don't you know Xuyanfang City?"

Li Gouchen's face was surprised, and a white light flashed in his eyes immediately, "That is the most notarized trading place in the Xinghai realm established by the Void Cult with great magical powers.

You can enter the world with spiritual power just by holding a hand talisman certified by Suanfang City.

After making a transaction inside, the person from the void teaches as an intermediary to deliver goods to both parties.

Suanfang City collects heavy taxes, and the service fee for door-to-door delivery is also very expensive. That's why we have room for the small fleet.

Of course, if you just go in for a stroll, gain knowledge, or trade intelligence, there will be no charge. "

[Chapter 1282: Xujianfang City Justice Scale](#)

"what!"

Su Lang groaned inwardly, saying that there is such a terrifying organization, and even a star-level virtual trading platform has been created!

Simultaneously.

Su Lang is also very interested in Xuyanfang City.

First, he had encountered a similar illusory space in the inheritance of Xuan Huo, that is the big ring.

Secondly, this is similar to his spiritual Internet plan!

It would be great if the technology to establish Suanfang City could be obtained.

just.

Su Lang doesn't even have a hand talisman for the communication, and he can't even enter the city of Xuyanfang. It is impossible to visit and learn.

"Don't you have a talisman for communication?"

"I have a certified blank hand charm here, and I have not yet bound the soul."

"If you want to buy a star map, I will treat it as a forgiveness. This thing... is expensive."

Li Gouchen's slightly smiling voice came.

When Su Lang showed that he didn't know Suanfang City, he knew that Su Lang definitely didn't have a talisman for interrogation.

"Ha ha!"

"You businessman, really cunning!"

Su Lang said half-jokingly and half-talking.

"Haha, thanks for the compliment."

Li Gouchen said with a smile, "So, did you agree to this deal?"

"Do not."

Su Lang shook his head, "You gave me a forgiveness, and I already gave you a forgiveness."

"Oh? What is it?"

Li Gouchen asked suspiciously.

"The coordinates of my world!"

"You got the coordinates of my world, you will definitely sell them, not just once!"

The corner of Su Lang's mouth twitched, "Look, do I have to pay me dividends?"

"This, my lord is worrying too much!"

"Our business of star merchants has rules."

"Unless the owner of a certain world actively sells or leaks coordinates, we will not sell world coordinates."

"After all, every planet is a rare transaction object. How can we destroy it in the flames of war and cut our own financial resources?"

"The coordinates on the star map that our president said before are all sold by those world masters."

"Every one of us who is engaged in this line of business will swear to the scale of justice, and offenders will die that day!"

"The scale of justice is an emperor-level treasure refined by the Void Cult, and it is the standard configuration for every Void Caravan."

"When doing other transactions, you can also use a fair balance to ensure the fairness of the transaction."

Gao Bingjie finished speaking and bowed sincerely to Su Lang, "So, unless the adults are willing to sell the world coordinates, we will not disclose your world coordinates."

"Is it?"

Su Lang was skeptical, "Then what justice scale, take a look!"

"You can watch if you want."

On the Gouchen, the secret room door slowly opened a crack, and a golden balance flew out of it!

Su Lang glanced at the secret room and found that he still couldn't explore the inside, so he shifted his gaze to the balance.

He possesses 'Weapon Recognition', and at a glance he recognizes that it is indeed a scale of justice, a treasure of the Great Emperor!

Above it seems to be surrounded by a very strong power of Destiny.

Once entangled by it, ordinary great emperors would not be able to get rid of it, and the Emperor Wu level was directly killed.

"How about it, don't you worry about it now?"

Li Gouchen couldn't hear the emotional voice, and seemed to be a little impatient.

"This....."

"Still not particularly relieved."

Su Lang held his hands behind his back and smiled faintly, "I would also like to ask you to swear together to ensure that my world coordinates will not be revealed."

This statement came out.

Everyone in the Gouchen Chamber of Commerce suddenly stagnated.

The atmosphere in the arena seemed as if hot air encountered cold glass, and gradually began to condense.

"Your request is too much!"

Li Gouchen's voice was filled with sullenness, "We have dealt with you with full sincerity."

"It's just a normal request."

Su Lang shrugged, "Anyway, have you sworn it? Swearing it again has no effect at all."

Hear this.

Li Gouchen pondered for a moment and then sighed: "Well, we swear that we will never reveal your world coordinates. Is this all right?"

"Of course, please!"

Su Lang laughed and relaxed a lot.

then.

Under Su Lang's supervision, everyone in the Gouchen Chamber of Commerce swears on this balance of justice.

[Chapter 1283: I want that star map](#)

Suddenly.

The power of destiny radiated from the balance of justice and fell on everyone.

This power of destiny usually has no effect, but once the oath is violated, it will happen immediately!

"It's late."

"We have to go to the next planet."

"I don't want to continue bargaining with your Excellency."

Li Gouchen's words came, "You can exchange the hand talisman and all the fairy sources and treasures for all your materials."

His tone was a bit discouraged, as if he really wanted to leave sooner.

"and many more."

"I want your star map."

"These are the materials of the Xianyuan worth 8 billion, plus the previous materials, trade your talisman, star map, and all Xianyuan and treasures."

"Don't you and I say who gave back and how much. Everyone is paying for it, and no one owes anyone."

With a big wave of his hand, Su Lang once again produced a large amount of advanced Wudi-level materials!

See this scene.

"Yes! Our Chamber of Commerce will return the same way."

Li Gou's eyes flashed: "If you still want to trade with us, we will come back again when we return."

"can."

"Next time you come, you must prepare a large amount of Xianyuan!"

Su Lang smiled, Xuan even stopped talking with his hands behind his back.

Li Gouchen's heart moved again, and the light in his eyes kept flickering.

Next.

The two parties completed the delivery.

Su Lang received countless low-level materials, characteristic pill that he had never seen before, strange formation plates, a large number of fairy sources, and so on.

Gouchen Chamber of Commerce took the top emperor-level materials sold by Su Lang and set sail to the outside of the Canglan Star Territory.

"Go, send off to the dao friends of the Gouchen Chamber of Commerce."

Su Lang suddenly waved his big hand, and a group of treasure hunting flying flying flying appeared, following behind the Gouchen Chamber of Commerce.

The people in the Gochen Chamber of Commerce have no objection to this.

then.

Under the surveillance of the Treasure Hunting Flying Flying Drifting, Gouchen Chamber of Commerce completely far away from the Canglan Star Region, headed to the unknown void.

Of course, Su Lang would accept it as soon as he saw it, and he didn't let the treasure hunting flying flying stalker follow along. In that case, he would not send him off, but follow him.

Received the treasure hunt flying flying glider.

Su Lang took out the hand talisman and star map from the storage space.

"Ok?"

"Botskin!?"

Su Lang couldn't help but raised his brow as he looked at the interrogation talisman in his hand.

This messenger hand charm is refined with the mindful spider and a lot of precious materials, and its value is at least equivalent to an emperor soldier of not low grade!

"It's no wonder that the president of the Gouchen Chamber of Commerce said this thing is expensive."

Su Lang nodded silently, and then carefully checked it again with mental strength.

With his in-depth observation at the molecular level, he couldn't hide it from any small means.

quickly.

Su Lang determined that there was nothing wrong with this interrogation talisman.

"To bind the soul..."

Su Lang tried to inject the power of the soul into the communication hand charm, and soon noticed a trace of suction.

Immediately after.

The hand talisman of the interrogation absorbed a trace of Su Lang's soul power and merged into himself.

Su Lang suddenly felt that he seemed to have a strange key, and he could enter a strange space with this.

"That space is Suanfang City!"

The corner of Su Lang's mouth twitched and a smile appeared.

With his incredible productivity, as long as there is a market, you can definitely make a lot of money!
but.

Su Lang did not immediately go to Xuyanfang City, but took a look at the star map.

The star map looks like a piece of purple jade slip, which seems to contain a void inside, like a 3D virtual map, which gives a very intuitive feeling.

There are six star points in the void, marked with space coordinates and the name of the world.

"Dongzhen, Jijun, Deviation, Tiancan, Jingxu, Yuhan."

Su Lang slowly recited the names of the six worlds, and finally his gaze fell on the Tiancang World.

There is one more note beside this world: where the martial artist returned from the exile 30 million years ago.

"Thirty million years ago..."

"I don't know if this person is still alive."

Su Lang pondered for a moment, planning to condense the avenue of fate, and after inquiring about the world consciousness, he went to see the World of Destiny.

Judging from the information currently available, it is very likely that the three daughters of Chu Xiaobei will be alive.

Inquiring about the world consciousness, it was just that Su Lang wanted to make sure that his guess was correct.

"The cultivation base is almost saved."

"Go back to Canglan Star and condense the avenue."

After Su Lang made up his mind, he directly used the clone to replace and returned to Canglan Xinglang Emperor Palace.

The familiar quiet room appeared in front of him.

Su Lang sat on the futon and slowly closed his eyes: "The system, activates the power of the avenue, and condenses the avenue of destiny!"

[Chapter 1284: Consolidate the Avenue of Destiny!](#)

"Ding! Destiny Avenue begins to condense!"

As the system prompt came, Su Lang's accumulated cultivation base disappeared like a flood.

at the same time.

A trace of destiny was derived from the void and hovered around Su Lang.

As the avenue of fate condenses.

Su Lang gradually understood a lot of the profound meaning of fate.

The Avenue of Destiny and the Avenue of Incense have a common feature, that is, they both belong to the force of humanity.

From a certain perspective, the avenues in the universe can be divided into 'the avenue of heaven and earth' and the 'power of humanity'.

The Great Avenue of Heaven and Earth refers to the five elements, yin and yang, ice thunder, light and darkness, and so on.

The power of humanity refers to spirit, life and death, destiny, incense, cause and effect, and so on.

The Great Avenue of Heaven and Earth is the foundation of the universe, and the power of humanity is the 'high-rise building' based on the foundation.

The power of humanity and intelligent creatures survive together, but the great road of heaven and earth remains unmoved.

fate.

It is an important part of the power of humanity. It is a strange power that is naturally formed by the gathering of countless creatures.

It is not like the power of incense, which requires intense emotions from beings to urge it.

Any action of any creature will produce the power of destiny.

When the traces of fate are intertwined and strengthened, it will finally form a horrible road of fate, encumbering all the creatures to move forward together!

This avenue of destiny can also be called the world line!

If a creature's different choices have a great impact, it may affect the world line and change the direction of world development.

World consciousness has a certain ability to control fate.

He can make wise creatures prefer luck or unlucky, influence certain creatures' choices in certain things, and guide the direction of the world line.

just.

The world consciousness lacks subjective ability, and the ability to control fate is limited.

Its limit is probably to urge the son of the world.

Comprehend here.

Su Lang couldn't help but think of the "Soul and Universe Fusion" he talked about when he talked with Si Yu on the Tao.

If a great emperor completes the 'soul fusion', he can completely become the world consciousness of the universe of life.

And it is a world consciousness with complete subjective ability!

The ability to control fate is extremely powerful, and can perfectly control the direction of world development!

You can guide yourself what kind of world line you want!

Closer to home.

The world's ability to control fate is limited, but He can perfectly observe all fate.

The strong man who controls the avenue of destiny can establish a certain connection with the world consciousness based on this, so as to spy on the secret of heaven.

At this moment.

"Ding! The Avenue of Destiny is successfully condensed!"

boom! !

The Avenue of Destiny is condensed.

Su Lang's consciousness vibrated.

"fate!"

Su Lang opened his eyes suddenly, and there seemed to be a strange brilliance flowing in his eyes, containing the development trend of everything in the world!

His spiritual power covered the entire main city in the summer.

The expressions, movements, and words of each creature... can be seen in the eyes.

Any of their actions are generating the power of fate, everything seems to form a group of mysterious and mysterious light and shadow, gathered together, and melted into the torrent of fate.

Su Lang immediately saw what would happen in the next period of time, as if he had predicted the future.

Of course, these 'things' are major events, not trivial details.

In addition.

It depends on whether the scope of observation is wide or not, and the length of time.

As long as the scope of observation is larger and the time is longer, we can predict farther future events, even the turning point of the times!

If you see the general trend of future development, wouldn't it be easy for oneself to benefit and avoid misfortune?

Isn't it the lucky one in the eyes of others to constantly seek for good and avoid evil?

but.

The warrior who controls the avenue of fate can see the future, but he cannot see the past by himself.

Only with the help of the "vast memory" of world consciousness can we see those pictures of the past.

In other words, if you only grasp the avenue of destiny, you cannot reverse it and see the past.

Perhaps coupled with the avenue of cause and effect, when the exact result is known, the cause can be seen by using the power of causation.

unfortunately.

Su Lang is currently not very sure about the result of "Chu Xiaobei and others are still alive", so even if the avenue of cause and effect is condensed, it will not help.

Of course, the avenue of destiny is enough!

"Let me see."

"When the Gate of Exile broke out, what did you experience!"

Su Lang walked out of the quiet room, looked up at the sky, the mighty power of destiny erupted from his body and rushed straight into the sky!

[Chapter 1285: So you saved them](#)

The dazzling sun fell on Su Lang's body, seeming to give him a golden edge.

A trace of the invisible force of destiny permeated the sky, gradually contacting the world consciousness in the dark.

Su Lang only felt that he had come into contact with an extremely majestic life form.

He was born in the world and enveloped the world, invisible and intangible, elusive, omnipresent and omniscient.

But his subjective consciousness is very poor, almost driven by some instincts to do something beneficial to the world.

Perhaps that kind of instinct is the good wish of sentient beings.

At this moment.

Su Lang's power of destiny was intertwined with Him, establishing a special connection.

His not strong subjective consciousness has been paying attention to Su Lang, so he came into contact with Su Lang's consciousness for the first time.

This was the first time Su Lang was so close to the world consciousness, as if he had touched this Canglan star at a deeper level.

With kindness and expectation, he seemed to hope that Su Lang could unite in the world.

but.

Su Lang turned a blind eye to this.

"World consciousness."

"I want to observe the spatiotemporal turbulence that occurred on the southern continent a day or two ago."

"I want to find the whereabouts of some people!"

Su Lang solemnly demanded the world consciousness.

He responded immediately.

Picture after picture appeared in front of Su Lang like a slide.

then.

The originally peaceful and beautiful southern continent suddenly broke out in many spatiotemporal turbulences.

A series of gloomy lights erupted in various places in the mainland, and the original Yaochi holy city was used as violent.

The terrifying light burst into light, swallowing all the White Jade Emperor Palace, Space Cube, Incense Statue, etc.

The five-element emperor soldiers sitting in all directions and the five-element sky covering the sky were also filled with gloomy light.

The power of the turbulence of time and space burst out, swallowing everything locked in almost instantly.

The creatures in the Five Elements Imperial Soldiers, Space Rubik's Cube, and White Jade Emperor Palace are also not immune!

Whether it is an ordinary powerhouse or an emperor weapon spirit, they are all powerless to resist and despair.

Su Lang saw Chu Xiaobei, Ji Ruxue and Murong Xianxian from a picture.

At that moment.

Their expressions changed drastically, and at the same time they looked at the distant starry sky battlefield, with horror, fear, and worry rising in their eyes.

The mighty turbulence of time and space is torn apart.

The White Jade Emperor Palace Spirit tried his best to mobilize the imperial soldiers to resist, but to no avail.

but.

Just when everyone was torn apart by the turbulence of time and space.

A will came!

It's Him, world consciousness!

He is carrying some special gems, thrown into all the turbulence of time and space in an instant.

Wow!

The treasures suddenly collapsed, and endless aspirations exploded like a nuclear bomb.

These aspirations instantly formed a stable space-time force, restraining the deadly space-time turbulence.

next moment.

The shadow gradually converged.

Except for the disappearance of the Five Elements Heaven and the emperor soldiers, everything returned to the appearance before the drastic change.

The pictures in front of Su Lang finally disappeared.

"Haha!"

"So you saved them!"

"It's not in vain that I will arrange the Five Elements Heaven for you and repair your wounds!"

"But I still have to thank you. At that time, you burst out with such a strong will. You must have done your best."

Seeing the best answer, Su Lang trembled with excitement. At the same time, he was extremely grateful for Fuze Tianxia's actions.

If he only cared about his own cultivation at the beginning, regardless of the sentient beings in the southern mainland.

Then the world consciousness must ignore him, let alone help him save people!

at this time.

For Su Lang's gratitude, the world consciousness did not show any emotions, and there was a high-cold feeling of flicking away your clothes, hiding your body and your name.

Of course, in fact, he is stupid, and his lack of subjective consciousness makes it difficult for him to generate and express rich emotions.

His best emotions are probably only two kinds of goodwill and maliciousness.

"correct!"

Su Lang suddenly asked, "Is there any other baoyu you used at the time? Can you give it to me?"

From that picture.

Su Lang relied on the system function to recognize that kind of gem!

That is the Wishing Li Baoyu, the energy crystal constructed by countless Wish Powers, the grade has reached the Supreme Emperor level!

Only this kind of supreme emperor-level treasure, and multiple simultaneous explosions, can suppress the power of the turbulence of time and space.

If the world has much consciousness.

Then Su Lang could use this to enter the exile and help Chu Xiaobei and the others escape.

[Chapter 1286: Godless Vow Li Baoyu](#)

just.

For Su Lang's request.

The world consciousness did not agree, but tried its best to express the rejection.

There was a hint of helplessness in the rejection.

"Alright alright."

Su Lang shook his head and sighed, "It looks like it's gone."

But he was not very disappointed.

Because he knows.

These Wish Li Baoyu are all the creatures of Canglan Star, gradually formed after countless years of worshipping the world consciousness.

You must know that even Emperor Wu can only reach the peak of the Great Emperor.

It is so difficult to condense the wish of the Supreme Emperor-level Baoyu!

Therefore, I hope Li Baoyu must be very rare.

The world consciousness is willing to use all of it to save people, it can be said to be bleeding greatly.

In addition.

Isn't there a mirror star? ?

Go ask for a wave!

"Thank you."

"I'll go to your old opponent to see if there is any wish for Baoyu."

Su Lang and Canglan Star Consciousness left, and immediately withdrew the magical powers of the Great Dao of Fate.

Immediately after.

"Clone dispatch!"

With a thought of Su Lang, he came to Jingtianxing.

Feel the breath of Su Lang.

Qiangwei and the three Emperor Wu rushed over to ask for peace.

Su Lang waved his hand to let them cool off, and then opened the way of fate again!

Relative to Canglan Star.

Su Lang stayed at Jingtian Star for a very short time.

However, the effect of Su Lang's arrangement of the Five Elements Sky on the Jingtian Star is very good, and the effect is almost immediate.

So Jingtian Consciousness still had a good impression of Su Lang.

He approached Su Lang's consciousness very kindly, and he also hoped that Su Lang would join the world.

Regardless of these, Su Lang directly turned out a wish for Li Baoyu.

"Master Jingtian, I want something of this!"

"Don't worry, I won't want it in vain. Soon I will help you fill the wound in the world!"

"..."

Su Lang made a lot of promises in exchange for wishing Li Baoyu.

But Jingtian Consciousness also reluctantly refused, because he didn't either!

"what?"

"Neither do you!?"

"My fork, what did you do with it?"

The corners of Su Lang's mouth twitched, wanting to scold God!

At this time.

The Empress Qiangwei said respectfully:

"My lord, it is rumored that a certain Hedao emperor of Jingtianxing used up the wish of Baoyu and tried to be promoted to the Supreme Emperor, but failed."

"Used up!?"

"What is that guy's name, where is the grave!?"

Su Lang stared, and asked murderously.

"Slaves don't know!"

Empress Qiangwei said tremblingly, "After that great emperor merged with heaven and earth, even his own race gradually declined and disappeared completely."

"This **** is completely violent!"

Su Lang cursed fiercely, then sighed helplessly.

The road I finally found is nowhere to go!

Su Lang can only find another way.

"It seems that I can only go to the World of Destiny to see."

Su Lang cleared up his emotions and took out the star map.

According to the information on the star map, the Remnant World is to the west of Canglan Star and Jingtian Star, not far away, but not too close.

If you want to go to the World of Destiny.

Although Su Lang knew the coordinates, the distance was too far, so he couldn't directly travel through the space.

And Su Lang had never been there, so the clone dispatch and replacement could not be directly arrived.

In the case of only one space coordinate, multiple space shuttles will not work because the intermediate space coordinates are not known.

If you wear it blindly, you may encounter danger.

For example, when we travel to the core of a certain planet, a certain black hole...

The safest way.

It still uses clone dispatch and clone replacement to keep getting close to the world of the maiden.

"Fortunately, I now have Hundred Shadow clones, so I can make 6,900 clones."

Su Lang smiled, then dispatched all the clones and split them into 6,900 clones.

Although these clones are weaker, they also have the strength of Rank Nine Emperor Wu.

Its spiritual power is even at the same level as Su Lang, reaching the realm of broken nirvana, and the longest exploration length has reached ten trillion li!

Six thousand nine hundred avatars unfold their mental powers, arranged in a line, and can explore the void of sixty-nine thousand trillion miles long!

Such a long distance, even at the speed of light, would take thousands of years to cross!

[Chapter 1287: Li Gouchen's Greed](#)

"Clone dispatch!"

With a thought in Su Lang, the clones were dispatched one by one, and the last clone arrived in the void more than 3,000 light years away.

During the journey of more than 3,000 light years, Su Lang discovered some broken continents and took them all into the storage space.

Immediately after.

"Clone replacement!"

Su Lang's heart moved, and he replaced the clone more than 3,000 light years away.

So it goes back and forth.

Su Lang is constantly approaching Tian Canxing at an extremely fast speed!

at the same time.

Somewhere in the unknown void.

A fleet of void ships is slowly advancing, it is the Gouchen Chamber of Commerce!

Go on.

Chairman Li Gou Chen took a sip of spirit wine.

Gao Bingjie slowly tied his shirt belt, with a certain aftertaste on his face.

I don't know what happened not long ago.

"the host."

Gao Bingjie sorted out his clothes, "Does that Langdi's world really want to be regarded as ordinary trading objects?"

"Naturally not."

"That Langdi is just the lucky one who got the treasure of the quasi-great."

"I guess, he got the inheritance of a certain quasi-great emperor, plus that world is already fat and oily, so he has so many good things."

"And his own strength is not necessarily so strong!"

Li Gouchen smiled coldly, and immediately changed his voice, "However, that quasi-emperor-level treasure must be very difficult to deal with. In his home court, I may not be able to beat him."

Although he has two great treasures of the Jade Chamber of Soul Chasing and the Scale of Justice.

But these two treasures are not of combat type.

The Soul Chasing Jade Secret Chamber also possesses a certain degree of defensive power, and the balance of justice can't be used for battle.

Li Gou Chen Neng's use was also an Eighth Rank Emperor Soldier.

Being suppressed by the will of the world, he was really not sure that he could deal with Su Lang.

"Then we..."

Gao Bingjie hesitated to look at Li Gouchen.

"It is impossible to give up."

"Isn't that Emperor Lang looking for news about the place of exile?"

"We gave him the star map, and he will definitely go to the Destiny World!"

"Let those of us who are staying in the Devil's World pay attention, and once they find him, immediately report."

"Then, while he couldn't come back, we went to take his lair, Jie Jie Jie Jie!"

Li Gouchen drank the spirit wine with a snort, and then let out a crow-like laugh.

Gao Bingjie's face was flattering: "The master is really wise and martial and unparalleled in the world, handsome and charming!"

"Hahahaha!"

Li Gouchen laughed presumptuously, "Your little mouth is so tight and sweet!"

at the same time.

On the vast black planet, the mysterious misty peaks.

A tall warrior covered in black armor expelled the dense fog and came to a terrifying Roshan.

"My servant Arrod, see the great Demon Emperor of Origin!"

The tall warrior knelt on the ground, his five bodies cast on the ground, his eyes under the black mask were filled with anxiety and fear.

Arrod, the quasi-emperor, one of the guardians of the Origin Demon Emperor.

But as a guard, he felt no glory at all.

Because the origin of the Devil Emperor often eats his guards as snacks.

"Arrod."

"What's the matter with you looking for me?"

An indifferent and ruthless voice came from Wu Boruo's mouth, with a feeling of murder when he was dissatisfied.

"Return to the great Origin Demon Emperor."

Allod said tremblingly, "Our manpower discovered a world not far from the Zhetian Continent while exploring the Eastern Strategic Route."

"occupied."

Wu Boruo faintly dropped two words, then waved his hand, and a force pushed Arrod out of the Mist Giant Peak.

"Huh-huh!!"

Arrod fell into a church, slumped to the ground, and gasped with a gust of wind.

He was really scared to death.

I thought Wu Bo was going to eat him just now!

After adjusting the breath for a while.

Arrod finally calmed down his fear, and restored the high-ranking, murderous guard of the Devil Emperor!

"Big...sir, are you okay?"

A teacher in a cloth robe next to him said with some fear.

"What do you mean?"

Arrod's eyes rolled, the cold light was lingering, and then he squeezed the teacher with a big hand, squeezing the teacher into meat.

[Chapter 1288: Arrived at Tianzhan](#)

Anyone who saw his embarrassed appearance must die!

Immediately after.

With lingering fears, Arrod, full of anger, left the church and came under a tall black spire.

This spire is a special void teleportation array, a teleportation technology unique to the dark world, and the teleportation distance is very long.

from here.

Can be directly transmitted to the Vanguard Fleet of the Dark Sky World.

"The Destiny World...you will bear my anger!"

A crazy killing intent flashed in Arrod's eyes and stepped into the teleportation tower.

"Buzzing!"

A beam of light shoots out from the tip of the teleportation tower, directly penetrates the clouds, and disappears into the vast void.

The other side.

A man with a red robe and white hair was flying happily among a piece of mainland debris.

"Quack!"

"I didn't expect to meet the life universe left by one party on the road!"

"And it's the kind that has just been eroded by the power of space and integrated into the boundless universe without being explored."

"Well, although it's only at the Emperor Wu level, there are many good things!"

Li Qijue picked up a piece of the best immortal jade from the ground and put it into his life universe happily.

Not far from him.

The four quasi-great emperors looked at each other, somewhat helpless.

Their Peerless Heavenly Emperor is good at everything, but is too picky.

"Hey!"

"How do you four drop?"

"The best immortal jade is not money, you have to get Xianyuan?"

"Do you know that wealth is accumulated bit by bit? Search me quickly!"

Li Qijue glanced at the four quasi-great emperors and snarled dissatisfiedly.

"Yes!"

The four quasi-great emperors shook all over, and immediately became spiritual boys, hunting treasures everywhere in the ruins.

After a good search.

Li Qijue stopped and took the treasures he found from the four quasi-great emperors.

"not bad."

Li Qijue nodded in satisfaction, "I found a treasure worth more than 10 million Yuan Xianyuan."

The four quasi-great emperors immediately celebrated with laughter.

"All right."

"You temporarily sealed these ordinary lands."

"After finishing the Dark Sky World, we will pull back the Sky Covering Star to fill the world wound."

Li Qijue waved his hand and gave orders to the four.

The quasi-great emperors nodded one after another, and then each showed their magical powers, gathering the broken continents scattered everywhere, and completely sealing them.

When going back.

They can drag it back with great strength, or open the space channel, and transmit it a little bit.

no way.

Su Lang has infinite storage space, but they don't.

And their universe of life cannot be loaded into these broken continents at will.

A small amount is okay, but a large amount is definitely not good.

Because ordinary Wudi's life planet has been completed and possesses great gravity.

If you really want to add new land, consolidate or expand the planet of life, you have to be careful and spend a lot of time to accomplish this.

The risk of earning a large amount of new land in a short time is very likely to hit the planet of life and cause huge disasters!

Even if it is controlled by great mana to prevent these broken continents from falling on the life planet, it will also affect the operation of the life planet.

Besides, this will consume a huge amount of mana, which is definitely a huge burden for Emperor Wu!

Closer to home.

Sealed the lost universe of life that happened by chance.

Li Qijue tore open the space channel and rushed to a certain direction with the four quasi-major subordinates.

Although Li Qijue is an irritable old man, he is not stupid.

He wouldn't be foolish to take the four subordinates to fight with the origin of the devil emperor's lair.

in contrast.

Li Qijue is now going to do a very compelling thing-to join forces!

This is what he played against the world of Dark Sky and Wuporuo!

In the boundless dark void.

When the forces of various parties continue to move and the undercurrent is surging.

Su Lang has made ten clone dispatches and has arrived near the Tiancang World!

far away.

A broken planet appeared in the field of vision.

It is half black and red, half emerald green, floating in the void, slowly rotating, surrounded by three red moons.

"Tsk tsk."

"As expected to be called Tiancangxing, half of it is gone!"

Looking at the Can Star not far away, Su Lang couldn't help but shook his head.

Compared with Canglan Star, the Remnant Star was really miserable on this day, and the intact area was probably only one and a half southern continents.

Next.

Su Lang flew to a nearby place, explored the creatures above with mental power, and got a rough understanding of the cultural scene.

[Chapter 1289: Gengtian Road](#)

There are also many wise races in the sky.

One of the races named 'Genshan' ruled the entire planet.

However, the rule of this race is not brutal, and all races can coexist peacefully.

Moreover, although the Can Stars were severely incomplete on this day, the strength of the various intelligent races was not bad.

Su Lang even faintly noticed the breath of the great emperor.

"Go up and take a look."

"However, keep a low profile."

Su Lang's figure moved, turning into a quasi-emperor-level Genshan man.

Then directly dispatched and replaced with clones, and came to the land of Tiancangxing.

Suddenly.

The surrounding scenes changed, birds and flowers fragrant, full of vitality.

Looking at the green world around him, Su Lang couldn't help but admire the tenacious vitality of the Tiancang World.

It's half missing, and it's really awesome.

A word of admiration.

Su Lang was a little at a loss.

I only know that people who came out of the Exiled Land 30 million years ago on this day.

But where can I find it?

"The most familiar thing about this world is nothing more than world consciousness."

"It's a pity that the continental fragments I collected are completely inadequate for this world."

"Forget it, go look for those places of interest first."

"..."

After some thoughts, Su Lang decided to search for it himself first, but if he couldn't find it, he went to ask someone.

then.

Su Lang turned into a young man who traveled in mountains and water, and appeared in various places in the Tiancang Continent.

I have to say that the scenery of the Tiancang Continent is very good, and there are many places of interest and historical sites, many of which are left over tens of millions of years ago!

Among these ancient relics, Su Lang began to search continuously in order to obtain useful clues.
unfortunately.

He did not find any available information.

"It seems that I can only ask someone to ask."

Su Lang frowned slightly, his spiritual power covered the entire Tiancang Continent, looking for a suitable candidate.

quickly.

Su Lang found an old man fishing.

This old man described withered, yellow-haired withered grass, and seemed to be an ordinary old man about to be pictured.

But in fact, he is the second strongest in the Tiancang Continent that Su Lang has discovered so far!

[Name]: Gengtian Road

[Race]: Genshan

[Qualification level]: No shortage

[Realm level]: Quasi-Great Emperor

[Attack level]: Quasi-Great Emperor

[Defensive Level]: Quasi-Great Emperor

[Shenfa Level]: Quasi-Great Emperor

[Endurance Level]: Quasi-Great Emperor

[Spirit Level]: Realm of Kongni

[Master the exercises]: Genshan Heart Sutra (major exercises), Zimo Jingtianbian (Emperor Level, Consummation), Niguang Tianwen Baotu (Emperor Level, Dacheng)...

Nie Haokong is the second person in the Tiancang Continent.

The first person was the master of that trace of Great Emperor-class Qi machine that Su Lang sensed only.

Su Lang did not find that one for the time being.

It's also possible that that person didn't exist at all, and what Su Lang sensed was the breath of an emperor-level item.

"Just you."

Su Lang moved to the edge of a huge lake.

The turquoise lake and the green shore grass form a beautiful picture.

Geng Tianlu seemed to be lost in thought, indifferent to the shaking fish float, and did not notice the arrival of Su Lang.

"This old man."

Su Lang stepped forward and smiled lightly, "I'm on the fish."

"Oh...oh!!!"

Geng Tianlu was awakened, rubbed his eyes, brushed up the fishing rod, and lifted a three-foot-long blue fish.

Looking at the blue fish hanging on the hook, Geng Tianlu fell into a deep thought.

"You said....."

He suddenly asked, "What should I do if a person is about to become a fish meat?"

"Uh....."

"There are only two options."

"Either admit your fate and let someone kill you."

Su Lang smiled faintly, pointing to the struggling blue fish and said, "Or just like it, struggling!"

"But if you already know."

"Is it futile to struggle?"

Geng Tianlu lifted the fishing rod in his hand, the blue fish was lifted and put down, completely at his mercy.

"In this case, it's definitely impossible to rely on yourself, you can only rely on others for help."

With a flick of Su Lang's finger, a sword gas cut the fishing line, and the blue fish fell into the lake with a thud, shaking its head and waving its tail and disappeared.

"You dare to break my fishing line, so courageous."

Geng Tianlu looked at the broken fishing line with a wry smile, "It's a pity, there is no one who dares to help me cut the fishing line."

however.

Su Lang sneered.

"Why are you laughing?"

Geng Tianlu still stared at the fishing line in a daze, "Are you a joke about my old lonely and helpless?"

"No."

"The reason I laugh is because you said that you are brave enough to break the fishing line."

Su Lang smiled and shook his head, "But in my opinion, only those who dare to kill the angler are truly bold!"

[Chapter 1290: Kill the angler](#)

"Kill the angler!?"

"Hahahaha, dare to do this, really brave."

"The question is, can you kill me if you are a quasi emperor?"

Geng Tianlu turned his head to look at Su Lang, with a thick sneer on his wrinkled face.

"It seems that you have encountered an invincible enemy!"

Su Lang didn't care about Geng Tian Lu's sneer, "It's just that you are not an enemy in front of me. I want to kill you easily."

For Su Lang now, killing Gengtian Road is really simple.

This old man has not been able to see through Su Lang's true combat power yet.

"You want to kill me easily!?"

The fishing rod in Geng Tianlu's hand was startled, and he immediately sneered, "Then I said, I can kill the emperor easily!"

"I am telling the truth."

Su Lang smiled and shook his head, and immediately changed the subject, "Old man, you asked me a question, let me ask you a question too."

"You speak up."

Geng Tianlu smiled stunnedly, then nodded, "The old man knows nothing but words."

"Remnant star on this day."

Su Lang smiled and said, "With the cultivation base of your Quasi-Great Emperor, you should be one of the longest-lived people."

"Remnant star on this day?"

"With the cultivation base of my Quasi-Great Emperor?"

The astonishment on Geng Tianlu's face instantly turned into horror, "Your pattern has exceeded a single world! And you can actually see through my cultivation level!?"

At this moment.

Geng Tian Lu noticed Su Lang's extraordinary.

But no matter how he thought about it, he couldn't think of when the Genshan tribe had such a number one.

Geng Tianlu thought for the first time that Su Lang might be from another world.

However, there was no abnormality in the world consciousness, so Geng Tianlu immediately overturned this guess.

The question returned to Geng Tian Lu's mind.

He was uncertain, and felt that Su Lang was more mysterious and unpredictable, and it was definitely not just the quasi emperor's cultivation base.

At this time.

Su Lang gave a noncommittal smile: "I said that I can kill you easily. It's easier to see through and repair, isn't it easier?"

Geng Tianlu's pupils shrank, and his body tightened: "You...Who are you?"

"It doesn't matter who I am."

Su Lang smiled faintly: "Please tell me the long-lived old man, all the clues to the people who returned from the exile 30 million years ago."

"Are you looking for someone returning from the exile?"

"Then you really found the right person..."

Geng Tianlu was shocked, and immediately sank into memory, "Thirty million years ago, I was a Rank 6 martial emperor.

When it was, suddenly the world changed drastically, and there was a turbulent flow of time and space, and a large number of broken corpses and bones of the strong were ejected from it!

The scene frightened me and slumped on the spot, because most of the broken corpses and bones were of the Great Emperor!

Even in retrospect, I still feel heart palpitations for the original scene!

But I am afraid I am afraid. In order to cultivate the opportunity, I did not hesitate to summon the courage to rush into the sky with the nearly Baiwu Emperor, trying to compete for the broken corpses and bones!

At this moment, a terrifying great emperor-level powerhouse rushed out of the turbulent flow of time and space, his body in a rags, almost only a skeleton left.

But even so, he killed dozens of us Wudi just as soon as a strong wind hit.

I quickly turned around and ran, went deep underground, and escaped a catastrophe, but most of the other fellow daoists died in the hands of the great emperor.

After killing people, the great emperor flew to the northwest of the Xinghai area, and left the sky canal.

After he left, there was another battle on the Heavenly Remnant Star for the broken bones of the Great Emperor, and even warriors from different worlds participated.

After that great battle, I stood out and became the ultimate victor, but the incomplete Celestial Star was even more broken.

Moreover, the world coordinates of the Sky Canopy also spread along with those strong in other worlds, causing countless troubles during these years. "

Through the description of Gengtian Road.

Su Lang could roughly imagine the cruelty of that battle.

However, Su Lang didn't pay attention to those, and asked: "Do you know only about the clues about that great emperor?"

"This....."

Geng Tianlu tried hard to think about it, "Shortly after the war, it seems that there were rumors that suspected him in Jijun World, and then there was no news."
