

The map is divided into six colors: white, green, orange, red, dark purple, and black.

They represent the urban area, the F-level beast area, the E-level beast area, the D-level beast area, and the C-level beast area.

The strength of the fierce beast corresponds to the realm of the warrior one by one.

The F-class fierce beast equivalent to the body tempering realm is almost endless.

There are countless E-class fierce beasts equivalent to the realm of warriors.

There are also D-class fierce beasts equivalent to the military master level and C-class fierce beasts equivalent to the military commander level.

It is said that B-level fierce beasts appeared in the stronghold of Red Maple City before, almost destroying the entire stronghold base.

As for the A-level fierce beast, the stronghold of Red Maple City has never appeared before, and once such a powerful fierce beast appears, it represents the disaster of the destruction of the city!

Legend has it that there are S-level fierce beasts above A-level, that existence can destroy the world, but no one has ever seen it.

In addition, fierce beasts generally move in areas of corresponding levels, but the possibility that high-level fierce beasts will enter low-level areas is not small.

Many people died because they encountered high-level beasts in low-level areas.

In the map, the entire Red Maple City stronghold is marked as a white area. Outside the city, a large circle surrounding the barrier is green, which is divided into various irregular areas.

These green areas are relatively safe F-level areas, and the wind wolf area is inside.

"Got you!"

Su Lang narrowed his eyes, revealing a trace of murderous aura.

"Snapped!"

Suddenly, someone patted him on the shoulder.

"Who!?"

Su Lang frowned and turned around, staring at the incoming person like a knife

——A man with a beard with an intermediate body tempering state.

"Don't get excited! Aha, my name is Tan Zicheng..."

Tan Zicheng smiled, "I think you are studying the map. Are you going to hunt outside the city?"

"none of your business?"

Su Lang asked indifferently.

"You really want to go hunting? I didn't say that, outside the city is not only dangerous, but also troublesome."

Tan Zicheng laughed and said, "I, I am a guide, lay hands, carry weights, run errands, and ask for living expenses. Do you need it?"

"how much is it?"

Su Lang glanced at Tan Zicheng and smiled non-committal.

"Only 50 silver coins!"

Tan Zicheng Ma answered, "Except for fighting, you don't have to worry about everything. If you need me to fight, you have to add money."

"I just need a guide."

Su Lang nodded, "Come with me and leave the city after dinner."

Immediately, Su Lang walked to a restaurant, and Tan Zicheng followed with nodding and bowing.

The restaurant's dishes are very rich, including various dishes made with beast meat, and even vegetables with aura.

Su Lang ordered a large table and spent 10 silver coins.

"This is so rich!"

Tan Zicheng showed excitement, "I have never had such a hearty meal, thank you so much."

"Eat it."

Su Lang smiled faintly.

After a storm, Su Lang and Tan Zicheng returned to the tower hall.

After a while, the two came outside the barrier through a long narrow passage.

"This is the world outside the city!"

What appeared in front of Su Lang was an endless hill, and the place where heaven and earth met was a terrifying primitive jungle!

No matter how far away, there are giant peaks faintly rushing into the sky, they are like a giant standing on top of the sky, majestic and majestic.

"Go, go to the F-class wind wolf area."

Su Lang handed the backpack to Tan Zicheng, holding only a black long knife.

"F-Class Wind Wolf area? That's the site of the Broken Axe Hunting Group."

Tan Zicheng's expression changed, Ruoyoruowu observing Su Lang's earlobes.

Su Lang smiled faintly: "I heard that they are very domineering, just go and have a look, they won't cause trouble."

"That's good, that's good! I'll show you the way!"

Tan Zicheng loosened his face and smiled: "You are looking for the right person. I happen to know a shortcut to the Wind Wolf area. It only takes 4 hours to get there."

After all, Tan Zicheng went ahead and led the way.

The road outside the city is very difficult to walk. There are potholes and slopes everywhere, and from time to time, you can see the bones of various white beasts.

After traveling for a short half of the way, Tan Zicheng suddenly stopped in a gloomy wood.
