

One Click 1321

[Chapter 1321: Rotating Star Sea](#)

at this time.

"Great master, the Xinghai domain is actually constantly rotating."

"We are currently at the easternmost cantilever of Maozhi, but we used to be in the west, south or north."

"So, the coordinates of every world are changing every moment."

"The closer you are to the interior of the star sea, the faster the star field will rotate, and the faster the world's coordinates will change."

Compass cautiously said: "Even if the world has been discovered, if the map coordinates are not corrected for a long time, it will gradually be unable to find a trace."

"That's it."

Su Lang was stunned, and he said that this is probably the reason why the Xinghai Region has been able to maintain the 'dark forest' state for such a long time!

"The servant currently controls the movement laws of some world coordinates."

Compass glanced at Su Lang nervously, and continued, "In this miniature star map of the Star Sea, basically every world will have no mistakes."

"Haha."

"okay, I get it."

Su Lang glanced at the compass, knowing that this guy was showing himself, showing a little ability, lest Su Lang would kill it one day when he became unhappy.

"Eh hey!"

Compass smiled flatteringly and nodded again and again.

"Okay, take the star map."

Su Lang nodded slightly and said lightly.

"Yes! Master!"

The compass immediately received the star map, and the miniature map of the star sea area gradually collapsed.

"Next destination, Ji Jun!"

Su Lang thought, and clones appeared one by one.

The current level of the clone function has reached 37, and the total number of clones and avatars has reached 74.

Except for Li Xianyang, who was "sealed" by the gate of exile, the other seventy-three clones and incarnations could be used.

"Baiying avatar!"

"Clone dispatch!"

Su Lang continuously activated two system functions.

Immediately 7,300 clones spread out among the stars, opening up a shortcut to the world of Jijun for Su Lang!

On this road, Su Lang can appear anywhere with his heart!

next moment!

"Clone replacement!"

Su Lang exchanged positions with the seventh thousand three hundred clones, and instantly appeared in the void more than three thousand light years away!

"Oh my god, what is this!?"

Compass immediately felt the drastic change in his coordinates, and he was stunned and dumbfounded!

He is a professional star navigation emperor soldier. Since his birth, he has seen various means of crossing the void in the long years.

however.

It was the first time he had reached the displacement method more than 3,000 light years away in an instant!

Before that, he had never thought that anyone could cross such a long void distance between thoughts!

"hiss!!"

"My new master is too amazing!"

Compass couldn't help looking at Su Lang, only to feel that the image of the new owner was so tall and mysterious!

Su Lang had long anticipated the horror of the compass, and he glanced at him, then used the clone to dispatch and replace again, and continued on his way.

The world of Jijun is farther from the Canglan Star to the Remnant Star of Heaven, so a clone replacement cannot be reached.

Must be cast twice!

After the second clone replacement cast, Su Lang officially arrived at Ji Junxing's near-domain void.

"This is so shocking!"

Looking at Ji Junxing the size of a ping pong ball in the distance, the compass lost his voice.

Su Lang smiled faintly, put it into the storage space, and then flew to Jijun World.

The void here has entered the scope of the world consciousness exploration of Jijun world, but the arrival of Su Lang has not caused a world vision.

As the distance gets closer.

Ji Junxing has changed from the size of a table tennis ball to a huge planet in his field of vision!

The planet is composed of three main colors: blue, yellow, green and red, and the main cities are ocean, desert and forest, and world wounds.

Not bad.

The world of Jijun is also a broken planet!

But the degree of mutilation is relatively light, and the world wound is smaller than the previous Canglan Star.

of course.

Su Lang glanced at this, and didn't care too much. His purpose was to find clues to the exile.

After hiding his figure.

Su Lang landed on a continent and developed his spiritual power.

The spiritual detection range of the Broken Nirvana Realm is more than ten times that of the Kong Nirvana Realm, enough to cover the entire planet except for the wound of the world.

[Chapter 1322: Girl, I have something to do with you](#)

quickly.

Su Lang had a superficial understanding of the humanities and history of this world.

The name of Jijun world comes from the power of a certain Hedao planet.

Its condition is similar to that of Jingtian Star, with many races living on it, ruling the Planet Federation.

Su Lang's spiritual power covers the world, and all the forces are instantly invisible.

However, what surprised Su Lang was that there were only three newly promoted Emperor Wudi guarding the planet, and the rest were all clones left by Emperor Wu!

"Ok?"

"How is this going?"

Su Lang raised his eyebrows and was intrigued.

Immediately he moved his body, came to a big island, and walked into a luxurious palace.

Along the way, he directly dispersed the Mingguang world, and after a while, the people he encountered knelt down to worship Su Lang!

"who!?"

"Dare to run wild in my imperial palace!?"

A stern shout suddenly came, and what followed was a beautiful woman dressed in white.

This woman is almost exactly the same as the human race, but her hair and eyes are light blue, giving her a special smell.

"Sister, I have something to do with you."

Su Lang looked at this woman with a smile on the corner of his mouth.

...

at the same time.

Outside the near void of Jijun World, somewhere in the void about a light-year away, a large amount of continental debris was scattered in the void, covering a large area of space!

If you look at it from a distance, you can see the outline of these continental fragments combined together, like a complete sphere!

Needless to say, this piece of continental fragment must have been formed after the life planet collapsed.

At this moment.

A fierce battle is unfolding among countless mainland fragments!

One of them is the Emperor Wu of Jijun World.

The other side is also all Emperor Wu, I don't know which world it is from.

"This piece of life planet fragment was discovered by us, the little **** of Jijun world, get out of us immediately!"

A martial emperor waved the long knife in his hand, and the surging power of the Great Dao slammed his opponent.

"Emperor Wu of Dongzhen World, I will **** your whole family. We discovered this broken planet of life!"

A seemingly quiet Emperor Wu with a high crown and long sleeves yelled at him, his hands and feet kept attacking, and he never rested.

"Dogs in the world of Jijun, a group of beasts with good looks, you are really shameless!"

An immortal Emperor Wu in Dongzhen World also spit, cursing like a street gangster.

"You are really shameless in the real world. This broken life planet was clearly discovered by us first, and it is also closer to our planet!"

The face of Emperor Wu in the world of Jijun was flushed, and he was madly angry while casting a powerful spell.

The two sides scolded while fighting like this!

You know, both sides are both Emperor Wu standing on the cusp of a world pyramid.

It can make them scold the streets like shrews and fight desperately, which shows how valuable the broken life planet is!

Rumble!

Crackling! !

As time passed, the battle became more intense!

There were nearly a hundred Wudi on both sides, and more than 20 Wudi have been seriously injured and almost died!

The battle after entering the heat is even more terrifying.

One by one, the hole cards were continuously thrown out, exerting extremely powerful power.

The void was torn apart, and some mainland fragments were not spared, and they were broken into pieces directly in front of the power of the great road!

The emperors of Wu also began to suffer casualties, first one or two, then three or four, and both sides were completely blushing!

And at this moment.

"Card! Card! Card!"

Su Lang's voice came from a young man's shout.

His voice is obviously not very loud, but it just overwhelms the deafening sound of battle!

"who!?"

Hundreds of Wu Emperors who were fighting were startled at the same time, and their bodies couldn't help but stagnate.

The fighting is about to stop.

but.

Some very chicken thief Wudi took this opportunity to launch a surprise attack on their opponents!

"Die to me!"

"Ah, you brazen despicable villain!!"

"Dare to be stunned during the battle? Go to death!"

"Ah, whoever yells is stuck, I won't let you go as a ghost!"

[Chapter 1323: I let you stop!](#)

"..."

In a short period of time, more than a dozen Emperor Wu were seriously injured in an instant, almost falling!

"I want you to stop!"

Su Lang's cold voice came, and a powerful aura bloomed from him, covering the entire battlefield!

These Martial Emperors are all treasures, they are the subordinates prepared by Su Lang, how can they die easily?

Besides, even if you really want to die, you have to die in his hands. Otherwise, wouldn't it be a big waste?

then.

Those Martial Emperors who tried to continue their actions were suppressed by Su Lang's aura and could no longer continue to attack.

The battle has finally stopped!

The world of Jijun and the world of Dongzhen were wary of each other's distance, and immediately looked at Su Lang.

Su Lang did not come alone, and there was a woman beside him, who was the beautiful girl in white clothes and blue eyes.

At this time, the girl had followed Su Lang respectfully, like a little maid, and was obviously overwhelmed by Su Lang.

"It's Daoist Mengyue!"

"What's the matter, shouldn't Daoist Mengyue stay at Ji Junxing? How could she be here!?"

"Who is that man? Why would Daoist Mengyue follow him so respectfully!?"

"Look at that man's breath, it turned out to be a quasi-great emperor! I'm waiting to be careful!"

"Damn it, it's troublesome enough for this broken life planet to have two forces competing, and now there is a third-party strange force!"

"Maybe it's not a third-party force, then Mengyue is with him, what if he is Jijun World's helper?"

"Impossible, if it is the helper of Jijun World, he will surely attack us and destroy us directly. Would it stop us all?"

"It's also... the situation is confusing!"

"..."

Ji Jun and Dongzhen Wudi secretly communicated, the light in their eyes kept flickering.

At this time.

The leader of the Jijun world, the quasi-emperor named Han Li squinted his eyes and asked: "Dare to ask who is your Excellency? Why do you bring Mengyue Daoist?"

As soon as this statement came out, everyone's eyes fell on Su Lang.

"She is my maid, so she took it with her."

Su Lang hooked the corner of his mouth and said naturally.

"what!?"

"He actually said Mengyue was his maid!?"

"Mengyue stayed at Ji Junxing, when did he become his maid!?"

"This person dared to say that a Martial Emperor like Meng Yue is his maid, it is really arrogant and arrogant!"

"..."

Everyone in the world of Jijun stared at Su Lang with hatred, and they could hardly wait for Su Lang to be broken into pieces.

Although Su Lang showed a quasi-emperor-level aura, they also had quasi-emperor-level bosses, so he was afraid of being a hairy!

at this time.

"Friends of Taoism."

"I asked to be the maid of the great Langdi!"

Emperor Mengyue said with a feverish look, "Being the maid of Lord Langdi is the blessing of my three lives and three generations!"

This statement came out.

The emperors of Jijun World were stunned and dumbfounded!

"Friend Mengyue, what are you talking about!?"

"Friend Mengyue, you must be confused by what means this dog uses!"

"Friend Mengyue, we will definitely rescue you!"

"..."

The emperors of Jijun World shouted with canthus.

Simultaneously.

Everyone's eyes fell on the leader of Ji Junxing, Han Li. As long as Han Li gave an order, they would rush forward!

but.

Han Li didn't let everyone do it.

After all, the martial emperors of the cave world are still around, do you dare to assume that they do not exist? Find death!

"Friend Wang Si!"

"This person is of unknown origin and has a ghost in his heart."

"Although both of us are competitors, we still know the bottom line."

"Why don't we join forces to kill it first, and then carve up this broken universe of life!"

Han Li looked at Wang Si, the leader of Dongzhen World, and said sincerely.

"it is good."

Wang Si nodded and agreed, "I will join forces with your old adversary once today!"

Until now.

The emperors of the world of Dongzhen have long seen that the uninvited guest named Langdi is really not the helper of the world of Jijun!

On the contrary, being an extra third-party quasi-emperor is an extremely unstable factor and must be eliminated first!

"Tsk tut!"

"You want to do it to me?"

Su Lang looked around at the crowd, showing disdain, "Don't you know how to write the words "self-control"?"

"You are a quasi-great emperor, can you beat nearly a hundred of us!?"

Han Li narrowed his eyes, revealing a dangerous light, "Wang Si, let's go!"

[Chapter 1324: I will teach you today!](#)

The voice did not fall.

Han Li rushed out!

Wang Si followed closely!

"kill!"

Although the other Emperor Wu is relatively weak, it is still okay to wave the flag and shout and rush to strengthen the momentum.

"Ugh."

"I really don't know how to write it out of my ability."

"Well, I will teach you today!"

Su Lang twitched the corner of his mouth, raised his right hand and lightly snapped his fingers.

In a flash.

One by one, terrifying figures appeared, it was Su Lang's clones!

These avatars surrounded everyone in the world of Jijun and Dongzheng, and the quasi-emperor-class aura was overwhelming!

"what!?"

"With so many quasi-great emperors, how can this be possible!?"

"Who is he? Is it the emperor? No, it is impossible for the emperor to have so many quasi-emperor subordinates!"

"Could it be that Emperor Lang is a supreme emperor with hidden cultivation base!?"

"It's over, we're done, we actually provoke a Supreme Emperor!"

"No, don't kill me, I'm being held hostage, please forgive me!"

"I didn't want to do it. I was intimidated. Senior, you are aware of it!"

"I didn't...I didn't do it, I just shouted a slogan, seniors go around me!"

"..."

Under the pressure of more than seventy quasi-great emperors, almost everyone fell down instantly!

Only Han Li and Wang Si can buckle and try to support them.

However, the two of them also gritted their teeth, their faces were pale, and their eyes were full of panic and despair!

They didn't dare to think about it, that they would meet such a weird powerhouse and summon so many quasi-great emperors with their hands! !

And each of those quasi-great emperors is stronger than them, almost close to the emperor level!

More than 70 subordinates who are extremely close to the Great Emperor level?

This is something they can't even think of!

"Ha ha."

"You two don't get down yet, do you want to die?"

Su Lang looked down at the desperately supporting Han Li and Wang Si, with a sneer and killing intent on his face.

"The junior dare not!"

Han Li trembled all over, gave up resisting, and fell down obediently.

When Wang Si saw this scene, the corners of his mouth twitched, and then tremblingly gave up all resistance and lay down obediently.

So far.

Everyone was lying at the feet of Su Lang.

Seeing this scene, the maid Mengyue standing behind Su Lang couldn't help but her eyes brightened, revealing an expression of incomparable worship.

"from now on."

Su Lang's voice was indifferent, "Ji Junxing and Dong Zhenxing are my territory, do you have any objections?"

The audience is silent!

"It seems that you all agreed."

"Then you are also Emperor Wu under my command."

"I like to convince people with strength, and I also like to convince people with morals."

Su Lang finally smiled, "Since you are under my command, I will give you a big gift."

Talking.

Su Lang's body burst into endless radiance, and the seventy-three clones also unfolded the Mingguang World!

In a flash.

Hundreds of Wudi on the court were bathed in an incredibly comfortable light.

The damage suffered in the battle just now began to gradually recover!

Those who were seriously injured and dying Wu Di immediately eased their breath.

Some Wudi had an epiphany and broke through a small realm on the spot!

Suddenly.

One after another, Emperor Wu began to worship Su Lang with a sincere heart, and his will has been overwhelmed by piety!

"This, this, what magical power is this!?"

"Horror, terrible! It's hard to imagine!"

Han Li and Wang Si, as the quasi-major level, have strong resistance to the Mingguang Ten Thousand Realms, and they have maintained their original minds for a short time.

Seeing that everyone worshiped Su Lang spontaneously, he was shocked.

But panic is useless.

They can only gradually be assimilated into Su Lang's believers under the light of Mingguang Myriad Realms.

Time passed slowly.

Finally, the two quasi-great emperors Han Li and Wang Si were completely assimilated by Su Lang, and became good subordinates who could go through the waters and thunder.

"Talk about it."

"What is going on in this broken universe of life?"

Su Lang pointed to the messy battlefield and asked Han Li and Wang Si.

"Return to the Lord."

Han Li replied, "This is an undeveloped life planet that suddenly appeared in this void not long ago, and has just been eroded by the power of the boundless universe!"

"According to our investigation."

Wang Si went on to say, "The universe of life that is wandering here should come from a fallen emperor!"

"This broken planet of life must have many treasures."

Han Li said again, "So the two subordinates will have a dispute, and the Lord will punish them."

"Please punish the Lord!"

Wang Si lowered his head and said.

[Chapter 1325: Our luck is really good!](#)

"what!"

Su Lang couldn't help but smile as he looked at the two people who were like the second general.

Soon.

"Forget the punishment."

Su Lang waved his hand, "You two will take everyone back to each house first, here I will deal with it alone."

"Yes, Lord!"

Han Li and Wang Si knelt on one knee at the same time to lead their orders, and then left with the emperors.

Mengyue was also driven away by Su Lang. Before, Su Lang needed her to lead the way to bring her over.

After everyone left.

Su Lang looked around the densely packed broken continent, couldn't help but smile.

Immediately afterwards, more than 7,000 clones spread out and threw them directly into the storage space when they saw a broken continent!

...

at the same time.

In the emptiness.

Groups of spatial ripples suddenly appeared.

A dark and slender ship emerged across the space, and it was the second vanguard fleet of the Dark Sky World!

The strength of the Second Vanguard Fleet is slightly inferior to that of the First Vanguard Fleet.

However, the new leader Anderson is stronger than Arrodo, the leader of the First Vanguard Fleet!

Under Anderson's leadership, the Dark Sky Warriors of the Second Vanguard Fleet were full of confidence.

They want to invade one world, show great strength, and win the title of First Fleet!

At this moment.

On the flagship Thorn Sky, Anderson sat in a luxurious seat, holding a cup of scarlet pungent drink and slowly drinking it.

"Master Anderson!"

"The reconnaissance ship has discovered the world close to each other!"

A Rank Nine Emperor Rank commander cautiously reported.

"Two worlds?"

"Our luck is really good!"

"The order continues, anchor the coordinates immediately, and jump into space!"

Anderson drank the drink in one breath, grinned, mouth full of scarlet!

...

at the same time.

"My luck is really good!"

"It's really a broken world at a great emperor level!"

Su Lang looked at the various treasures and a large number of fairy sources in the storage space, and couldn't help his eyes glow.

In the distance, more than 7,000 clones are still like industrious little bees, constantly wandering in Void China, collecting pieces of broken continents.

Waited a few more time for incense sticks.

All the continental fragments were put into the storage space.

"My storage space is so awesome, unlimited storage, tut!"

Looking at the emptiness, Su Lang couldn't help but tick the corner of his mouth and smiled brilliantly.

Immediately after.

Su Lang began to deal with this unexpected gain.

First of all, a broken Emperor-class planet.

Judging from the collected continental fragments, this great emperor-level planet is about the same size as an emperor-level life planet, but the hollow part is much smaller.

In addition, there are many more treasures, with 199,000 seats!

You know, at the beginning, Su Lang almost killed the entire Emperor Wu of Jingtianxing, and only then obtained more than 163,000 precious places.

This great emperor-level planet is just one, worthy of the life's hard work of dozens of martial emperors on the mirror star!

"Tsk tusk, this luck can no longer be described as good, it is simply the Emperor of Europe!"

Su Lang licked his lips excitedly, and immediately began to put the treasure lands into the ten directions of life universe.

The five-element treasure land is put into the universe of the five internal organs, the treasure land of the wind system is put into the universe of the feet, the treasure land of light and dark is put into the universe of the hands, and the other treasure land is put into the pubic universe.

Suddenly!

In the universe of life, the planets are vicissitudes of life, the world is turned upside down, and the world is changed in seconds.

All the planets have changed a lot, and the size of them has grown a lot!

Take Bluestar as an example.

The surface of the entire planet is very different.

The seven continents are all covered by various treasures, forming countless blessed places!

The ocean, which originally occupied 70% of the planet's area, has been filled to only one-tenth.

This is because this tenth was reserved by Su Lang deliberately, otherwise he would not let it go!

Except for Blue Star.

The rest of the planets expanded even more.

Especially the life planet in the Five Elements universe.

Because most of the treasures that Su Lang collected were of the Five Elements attribute.

Except for a few placed on the blue stars to maintain a regular balance, all the rest are allocated to these five planets.

At this time, the volume of the five planets was almost half larger, and the original appearance was no longer visible.

[Chapter 1326: The Great Emperor's Bing Tianjia Eight-Round Shield!](#)

Su Lang clearly felt it.

After one's own life planet is cultivated, the power of the rules for backfeeding becomes more pure and rich.

He felt it clearly.

In addition to the almost meaning of the light and dark universe, the five elements and the wind system avenue can be condensed soon even without the system function 'power of the avenue'!

of course.

For Su Lang, it was faster to use the 'Power of the Great Dao'.

After arranging the treasures into different categories.

Su Lang began to organize the recent harvest.

The first is the gains from the Battle of Tianchuangxing, killing hundreds of Wudi and quasi-great emperor Arrod.

The Wudi in the Dark Sky World were generally poorer because they were all exploited by Wu Boruo for a long time.

All the fairy sources add up, there are 30,000 high-quality fairy sources, and countless materials.

The second was the battle to eradicate the Gouchen Chamber of Commerce. In addition to taking back the various synthetic materials sold before, Su Lang also received an additional 60,000 high-quality fairy sources.

In the end, it was this unexpectedly harvested emperor-level stream of life universe.

Only the superior Xianyuan found 900,000, in addition to a large amount of advanced materials.

What caught Su Lang's most attention was a kind of destiny causal emperor-level material!

This kind of material is called Tianjiao Shi, and there are more than 300 copies!

Through the system function 'treasure recognition', Su Lang could see through its characteristics at a glance.

This turned out to be a very unlucky gem, as long as it is an attack that occurs around this gem, it will fall on it under the power of weird destiny!

"In other words, this is a material that contains the characteristics of a 'must lie down gun'!"

The corner of Su Lang's mouth twitched, and he felt that the world has everything!

Putting the Heavenly Stone aside, Su Lang checked other materials.

As a result, some Great Emperor-level materials were discovered.

However, the materials discovered this time did not have any characteristics, but were of very high grade, no different from the ordinary Great Emperor grade materials synthesized by Su Lang.

In addition to the emperor-level materials, there are many emperor-level materials.

Even Su Lang found a container storing thirty Wudi souls!

With the spirit of Emperor Wu and so many materials, Su Lang guessed that the fallen Emperor-level might be preparing to forge the Emperor's soldiers.

However, he was killed before starting work, and in the end all his belongings were cheaper than Su Lang.

Finish all materials.

Su Lang fell into thinking.

"So many destiny materials."

"There is no shortage of other materials..."

Su Lang thought for a moment, his eyes lit up, "It's completely possible to try to refine the emperor's soldiers with destiny attributes."

In fact, he is still very greedy for Broken Dream Knife, and the hit rate that hits the target can be said to be open.

It is a pity that the side effects of Broken Dream Knife are so severe that he dare not touch it at all.

And this time.

Tianjiashi also possesses a strange characteristic.

Although it seems very unlucky, attacks that are not directed at it will hit it inexplicably.

But after thinking about it, this is a very awesome feature!

If it were made into a shield, wouldn't it be possible to catch any attack?

"Broken Dream Knife cuts out immediately."

"This shield is made from the celestial stone, and it is very likely to show the defensive characteristics of 'no water leaking' and 'impermeable to air'!"

Su Lang couldn't help but brighten his eyes when he thought of this, and immediately made up his mind to refine the weapon!

Just do it!

Su Lang immediately issued an order: "System, use these materials to refine a shield for me!"

"Ding! Consumption, Wudi Soul*30, Wuxian Soul*300, Heavenly Stone*200, Empty Cicada Baolin Gold*100, Bone Bone Ice*50, Fire Yang Rainbow Light Road Jade*20, Purple Sunshine Water Daoyu*20....."

"Ding! Successful refining, you will get the Great Emperor's Army Heavenly Armor and Eight-sided Shield!"

The system prompts to end.

A circular shield the size of a pan appeared in Su Lang's hand.

The shield was completely dark, almost like a black hole, and even light was swallowed.

But there is a white circle on the dark shield surface!

This white circle is very conspicuous on the black shield surface, any existence will be attracted by a glance!

"Tsk tsk, it's as dark as Youtian Sword."

Su Lang continued to tusk, and immediately used weapon recognition to observe carefully.

Soon I discovered the most obvious characteristics of the eight-sided shield.

As expected, it has the characteristic of catching attacks 100%!

[Chapter 1327: The cowardly spirit!](#)

Of course, catch it and return it to catch it, if you can't stop it, let's talk about it.

If the enemy is really too strong, the shield may be pierced like a piece of paper, and there is no point in catching it.

However, in order to destroy the existence of the eight-sided shield of the sky, it is estimated that at least an extremely senior emperor-level powerhouse.

In addition to the characteristics of 100% catch the attack.

Su Lang did not see other characteristics for the time being.

This made Su Lang a little nervous.

The weapons of fate are a little weird.

Even Rank Seven Emperor Soldier Broken Dream Knife can make Emperor Wudi of Rank Nine be recruited and become a Super Hulk.

On this day, the Eight-Edged Shield didn't know if there were any hidden side effects.

"Just ask Qi Ling!"

Su Lang took a deep breath and immediately patted the shield, "Qi Ling, don't you come out to see your master and me?"

"the host!"

A black ball flew out of the shield and rolled several times in front of Su Lang.

"It looks like this is very normal!"

Su Lang nodded in satisfaction, and then patiently taught the Black Orb Qi Ling, so that it learned some common sense from a completely blank Qi Ling. .

Immediately after.

Su Lang whispered: "Come on, Little Black Ball, let's transform into a human body first."

"Yes! Master!"

The Black Orb Spirit rolled once again, and then began to elongate and deform.

Soon, Qi Ling became a slender black human figure.

This humanoid spirit is still pitch black, even his face is completely black, only a pair of big eyes are very white, forming a sharp contrast.

It didn't wear any clothes, and the black mist around its body made it hazy and it was almost invisible.

However, its big white eyes are more conspicuous and more eye-catching!

In addition.

Although the black humanoid Qi Ling is slender, he rickets slightly, with his head down, a very declining appearance.

"Uh, I knew I would have you transmogrify a certain image."

Su Lang looked at the black body and white-eyed Qi Ling in front of him, and couldn't help but twitch his mouth.

But the deal was done, and the spirit had only one chance to transform into a human form, and could no longer modify it.

"So be it."

Su Lang sighed, "I'll give you a name, and you will be called Ah Jia from now on."

"Yes....."

"Ajia pays homage to the master..."

The black spirit immediately bowed down and looked very humble, very cautious, and seemed to be accustomed to bullying.

"..."

Seeing Ah Jia's appearance, Su Lang couldn't help but twitched his mouth again.

But he also knew that this was Ah Jia's natural character, which was determined by its own characteristics, and there was no need to change it!

Seeing that Su Lang did not speak.

Ah Jiang seemed to be afraid of Su Lang being angry, and the whole Qi Ling became more cringe, almost trembling.

"Don't be afraid of me."

Su Lang smiled faintly, "Come on, let's try your special effects."

"Yes, master..."

Ah Jiang nodded tremblingly.

"Do not be afraid."

Su Lang soothed, and then flew back a distance.

After the two sides have moved apart.

With a wave of Su Lang's big hand, irregular waves of thunder and lightning enveloped the eight-sided shield of the sky.

"what!!"

"what--!!"

"Don't hack me, don't!"

"..."

Seeing so many thunders around him, the timid and humble Ah Jia suddenly yelled and shivered in fright, completely neglecting his identity as a great soldier!

Immediately after.

Those thunder and lightning began to attack aimlessly.

However, as long as all thunder and lightning are close to the eight-sided shield of the sky, they will immediately be drawn by the mysterious force, and they will directly turn their direction and fall on the eight-sided shield of the sky!

Boom boom boom! !

A violent thunder blasted.

There was no damage to the eight-sided shield of the sky.

However, Qi Ling Ah Jia was frightened like a cat with blown up hair. While crying hoarsely, he jumped up and down in a very funny posture!

Tianjia's eight-sided shield also kept moving with the movement of Qi Ling Aja.

But no matter how the shield hides, it will accurately catch the thunder and lightning.

As a result, Ah Jia was frightened even more terribly, and sprinted faster, just like the **** rat that flashed by.

"I fork..."

Su Lang looked speechless, unable to cry or laugh, "The spirit of this device is indeed relatively normal, but this character is too strange..."

Fortunately, Su Lang had seen all kinds of wonderful artifact spirits, like Ah Jia...not bad...

[Chapter 1328: Broken Dream Knife Sees the Sun again](#)

"Come!"

Su Lang calmed down and snapped his fingers to collect all the lightning.

Suddenly the void became clean.

but.

"Ah!"

"Don't hack me, don't hack me!"

Qi Ling Aja was still jumping up and down, screaming with fear.

Su Lang once again ran past 10,000 Nyima beasts, and the corners of his eyes and mouth twitched at the same time.

"Ahem!"

Su Lang finally sighed and said soothingly, "Ah Jia, it's all right! It's safe!"

"what!?"

"Is the lightning strike finished?"

"Master, you don't want to hit me in the future, okay, Ah Jia is afraid!"

Ah Jang came back to his senses, squatting on the spot looking at Su Lang pitifully, like an Alaska that had been taught a lesson.

Su Lang rolled his eyes and said, "Good, good, I won't hit you anymore."

"Hmm!"

Ah Jia nodded quickly, then let out a long sigh of relief.

"All right."

"You go back to the body and rest."

Su Lang also let out a long sigh, waved his hand to retract the eight-sided shield.

In general.

Tianjia's eight-sided shield is still a great soldier.

Su Lang is very satisfied.

Next.

Su Lang's eyes fell into the storage space again.

Because the refining of the eight-sided celestial shield only consumes two hundred celestial stones, and there is still a lot left!

"It's useless to keep it."

"How about upgrading the Broken Dream Knife?"

"Perhaps, what changes will happen after the upgrade!"

After thinking about it, Su Lang made up his mind.

He is really gluttonous dream knife cut out the characteristics of the instant.

then.

Relying on his previous experience in refining tools, he carefully selected a large number of materials.

In addition to these materials, there are some destiny materials obtained by decomposing fair balances.

"I hope to clear the 'green hat attribute'."

Su Lang licked his lips, then took out the sealed Dream Knife from the storage space.

After carefully breaking the seal.

"Wow, I'm out!"

After Broken Dream Knife saw the sky again, Qi Ling rushed out with excitement.

This was the first time Su Lang saw the spirit of Broken Dream Knife.

It is like a boy with a harmless individual animal, and it is as alive and green as the body. At first glance, it seems to be some kind of plant spirit.

As soon as Broken Dream Blade Spirit came out, he saw Su Lang, and his eyes suddenly brightened.

"Great powerhouse!"

"The Broken Dream Knife is willing to become your servant and fight for you!"

The emerald-green boy knelt in front of Su Lang, and a green aura spread towards Su Lang, "Please accept my contract!"

"Fuck off!"

"I warn you, immediately collect magical powers, or I will kill you!"

Su Lang retreated hundreds of feet like a snake and scorpion, staring at Broken Dream Knife with alert and disgust.

"Great powerhouse!"

"Don't abandon me!"

Seeing Su Lang's continuous retreat, Broken Dream Device Ling suddenly chased after the lost child when he saw his parents.

"I fork!"

"One-click decomposition and preparation!"

Su Lang stared at him, his thoughts moved, and the one-key decomposition function immediately enveloped Broken Dream Knife.

"No!"

"Don't kill dreams!"

"Broken Dream is very poor!"

Feeling the crisis of life and death, Broken Dream Tool Ling immediately stopped, standing in place with tears in his eyes, looking pitiful.

"My day."

"so horrible!"

Su Lang patted his heart, and said, "I warn you not to move. Next, I will help you get promoted. If you have no side effects, I will accept you."

"Promotion!?"

"Great powerhouse, you are a great emperor-level refiner!?"

Broken Dream Tool Ling swept away his frustrated expression and became extremely excited.

"Not bad!"

"You cooperate a little bit!"

Su Lang nodded slightly, "As long as you have a little change, not only will you not be promoted, but you will be broken into pieces!"

"Broken Dreams absolutely dare not!"

Broken Dream Qi Ling quickly promised that all the green complexion on his body was also put away.

"Go back to your body!"

While arranging a close-fitting formation to protect himself, Su Lang took out the Soul Chasing Emperor Palace and Tianjia's Eight-Edged Shield, then ordered.

"Yes Yes Yes!"

Broken Dreamer Ling was like an obedient baby, and immediately got into the body.

[Chapter 1329: Busy for nothing](#)

Immediately after.

Su Lang, who was covered with formations, took the body of the Broken Dream Knife into his hand, and quickly issued instructions:

"The system uses designated materials, retains designated characteristics, and promotes Broken Dream Sword to Emperor Soldier!"

"Ding! Consume the soul of Emperor Wu*30, and the stone of heaven*180..."

"Ding! Broken Dream Knife has evolved into a great Emperor Soldier!"

The system prompt disappeared in a flash.

The Broken Dream Knife in Su Lang's hand suddenly burst into a terrifying green light!

"What a green light!"

Su Lang instantly unfolded the Soul Chasing Emperor Palace and the Heavenly Eight-Edged Shield at the same time, and then threw the Broken Dream Knife out!

Wow!

As the Soul Chasing Emperor Palace unfolded its own protective light shield, the sky and eight-sided shield also waved in circles, filling the void.

Suddenly, the light of Broken Dream Knife was completely blocked outside.

Su Lang carefully observed it and found that the green light was actually harmless, and he couldn't help but breathe a sigh of relief.

But protection is still necessary, and it will be miserable if you get 'infected'!

Immediately after.

Su Lang used the system function 'weapon recognition' to investigate the broken dream knife after promotion.

Su Lang soon discovered the feature of being cut out. This feature seemed to have become stronger and more difficult to crack.

In addition, Su Lang did not find other characteristics.

The weird "Power of Green Destiny" was not discovered either.

Su Lang was very worried.

So he took a deep breath and said loudly, "Broken Dream Knife Spirit, come out immediately."

"Yes!!"

The Broken Dreamer Ling appeared, his face was shocked!

Obviously, he never expected that he would be promoted to the rank of Emperor Soldier!

This is simply something you can't even think of in a dream!

"You said it yourself."

Su Lang asked, "Are your side effects that made the host's opposite-sex relatives and friends crazy cheating?"

"This!"

"This this this!"

The boy's spirit hesitated, even a trace of embarrassment appeared on his face.

"I know!"

Su Lang silently patted his forehead, "Is it still there?"

"Do not....."

Dream Breaker looked at Su Lang with eyesight, "That power seems to have become stronger, and I can't control it as always."

"Stronger!?"

Su Lang's mouth twitched, "How strong is it?"

Broken Dream Qi Ling lowered his head and said: "So strong that once it touches my body, it will automatically form a contract."

"Strong, you are strong enough!"

Su Lang rolled his eyes and said in his heart that I was completely busy.

Broken Dream Qi Ling's head was lower, and he didn't dare to look at Su Lang or speak.

He knew that he couldn't become Su Lang's weapon. If he wanted to find the master, he could only find other people to cheat.

then.

Su Lang didn't speak, Broken Dream didn't speak, Horcrux could not speak, Ah Jia was timid and didn't speak, and the scene became more and more awkward.

After a long time.

"Oh, forget it."

"I will not kill you either."

Su Lang sighed, "Let's seal you."

As soon as this remark came out, Dream Breaker Ling suddenly looked depressed.

But this was the best ending. He had no choice but to nod helplessly.

"You are the Emperor Soldier now, it is even more difficult to seal you."

Su Lang spit out, and said in his heart what evil I did...

Immediately after.

Under the active cooperation of Broken Dream Knife.

Su Lang arranged formations one after another, and specially refined the sealed container with precious materials, and finally sealed the Great Emperor-class Broken Dream Knife again.

There was no trace of the dazzling green, and Su Lang was finally relieved.

Waved his hand to decompose the body guard formation, and the Soul Chasing Emperor Palace and Tianjia Eight-Edged Shield were also collected into the storage space.

Next.

Su Lang dispatched a clone and replaced it with a clone to the world of Jijun.

"It's time to do business, and look for people who have returned from the exile."

Su Lang hovered in the sky above Jijun World, and with a thought, he began to summon the Wudi powerhouses of the whole Jijun World.

"The minister waits to see the Lord!"

The emperors of the Jijun world stepped into the air, headed by Mengyue, kneeling before Su Lang.

Not bad.

Just because Su Lang said that Mengyue was his maid, Mengyue's status immediately surpassed Han Li, the strongest man in the world of Jijun!

In this regard, Su Lang didn't bother to bother about it.

[Chapter 1330: Palpitation](#)

"I have some questions to ask, so listen carefully."

Su Lang looked down at the crowd and said lightly, "Thirty million years ago, there was a great emperor in a place of exile who returned from the Remnant Star of Heaven, and then there were rumors about him in the world of Jijun. How much do you know about the emperor?"

"Return to the Lord!"

"There are indeed rumors of this person!"

The experienced quasi-major Han Li said, "Thirty million years ago, I was just an ordinary martial emperor in the world of Jijun.

At that time, the great emperor suddenly came, and our Jijun world could not resist!

Fortunately, the great emperor did not indiscriminately kill the innocent, but asked for a large amount of healing pills, and then disappeared again.

By the way, the great emperor also valued the blood of a Qianxiang emperor, stayed there for a while, and then took the blood away.

At that time, the Qianxiang clan was only an immortal clan, and with something left by this great emperor, Emperor Wu appeared. "

What Han Li said in front made Su Lang frown, because it was useless.

Only the last two sentences made Su Lang's eyes brighten!

"Where is Emperor Wudi of Qianxiang Clan?"

Su Lang clicked the corner of his mouth and looked around the crowd.

"The minister is here, knock on the Lord!"

An old man stepped out and crouched respectfully in front of Su Lang.

Su Lang asked straightforwardly, "What did the emperor leave behind?"

"Return to the Lord!"

"It's a peculiar avenue rule gem!"

Qianxiang Wudi immediately replied, "It was with that treasure that the first Wudi of our Qianxiang clan condensed the avenue."

"A boulevard rule gem?"

Su Lang looked at him for a moment, and he couldn't help but think of the crystallization of the power of the Great Dao he plundered when he killed Emperor Wu.

The two are absolutely very similar!

Of course, it is definitely not the same thing.

Su Lang estimated that it might have been created by some powerful organizations in the place of exile to nurture the emperor Wu.

"The gem is still there?" Su Lang continued to ask.

"Not anymore."

Emperor Qianxiang Wu shook his head, "That's a consumable, and it's gone after one use."

"Are there anymore?"

Su Lang frowned slightly, "Do you Qianxiang Emperor Clan keep things related to that Great Emperor?"

"Have!"

Emperor Qianxiang Wu hurriedly said, "The room that the great emperor once stayed in, the chair he sat on, and the tea cup he used were all carefully protected by us."

"Take me right away."

Su Lang stood up, "The rest are waiting for the meeting to disperse."

"The ministers obey orders!"

All the emperors retired one after another, but Qianxiang Wudi was flattered, and at the same time carefully led Su Lang.

Not long.

Su Lang came outside a palace-like building.

There is nothing special about this palace.

Especially after the Qianxiang clan was promoted to the imperial clan and built more magnificent buildings, the palace became more ordinary.

but.

The palace is well protected.

Layers of emperor-level formations enveloped it, even the underground.

There are also some huge incense burners outside the formation with incense burning inside.

"This palace was used as an ancestral shrine by us."

Qianxiang Wudi introduced, "The subordinate is the third Wudi of the Qianxiang clan, and the first two ancestors have been sitting in the ancestral temple one after another."

"Ok."

Su Lang nodded faintly, waved his hand, the formation of layers was controlled, and immediately opened automatically.

In the horrified and awed gaze of Emperor Qianxiang Wu, Su Lang slowly walked into the ancestral hall with his hands on his back, and the layers of formation behind him closed automatically.

After entering the ancestral hall.

Su Lang immediately found two emperor-level bones, presumably the first two martial emperors of the Qianxiang Emperor Clan.

The two skeletons crawled in front of a set of seats in a very humble posture, seeming to worship something.

"This is the chair that the emperor sat on."

Su Lang looked at the chair, and his spiritual power also poured out, filling the entire palace.

Suddenly.

Su Lang felt a palpitating breath!

That breath seems to have spanned a long period of time and has been wiped out a lot, but it is still vast and profound!

"After such a long time, it still makes my heart palpitations!"

Su Lang narrowed his eyes slightly, "This person deserves to be a strong man who can be slain from among the many great emperors in the Exile!"

Soon.

Su Lang waved his hand and released a large number of treasure hunting flying gliders.

A dense cluster of golden flying squirrels appeared in this palace, like a swarm of locusts!
