

## One Click 1381

### [Chapter 1381: A huge gain!](#)

"Return to the Lord, no!"

Wu Boruo shook his head and said, "Because the rule of the servant is too cruel, the incense aspirations collected are almost all negative incense, so I dare not use it for rebirth."

"That's it."

Su Lang nodded, "Then stand obediently, I'm going to kill you."

"Yes, Lord!"

Wu Boruo didn't have the slightest objection, and really stood obediently, waiting for death to come.

"Broken a sword!"

Su Lang would not suddenly feel pity in his heart. With a move of his heart, a broken sword fell from the sky and pierced through Wu Boruo's remnant body.

The terrifying power of the Seven Great Emperor erupted, making Wu Boruo completely wiped out.

"Ding! You get the Great Emperor Soul Fragment\*1000, the Great Soul\*1, the Life Universe\*1, and the Great Emperor Daojing\*1!"

Seven Great Emperor Soldiers Void Chamber\*1, Superior Xianyuan\*12561548, Hinayana...Great Emperor Grade materials...Emperor Grade materials..."

A system prompt came, officially announcing the fall of Origin Demon Emperor Uboluo!

"Good death!"

"Dare to fight against our master, this is the end!"

"The Lord is so strong, the two of us who couldn't be killed together, were easily tortured to death by the Lord!"

"Yeah yeah!"

"..."

Li Qijue and Ye Chen winked their eyebrows, and their hearts were filled with respect for Su Lang.

Su Lang frowned slightly: "The Great Emperor's soul body fragments are only 1,000...Well, Wu Boruo is really too miserable, and his soul body is exhausted."

Immediately after.

Looking at the other gains, Su Lang's brows immediately stretched out!

Needless to say, the Soul of the Great is one of the most cherished harvests!

The universe of life is also very cherished, this is the universe of life of the Great Emperor.

Although Wu Boruo took the path of soul-body integration, the life universe certainly did not develop very well, but it was definitely more perfect than Emperor Wu's life universe.

I believe that all kinds of treasures must be everywhere!

Next, it was the Great Emperor Dao Jing.

As the name suggests, this is a treasure similar to the rule fairy crystal, but the level is two high!

The Great Dao Jing contained all the power of the Great Dao that Wu Boruo understood.

Such as the avenue of power, the avenue of space, the avenue of incense... etc.

Those who get it can use this to comprehend the avenue and break through the Emperor Wu level with absolute ease, and there is no small hope for entering the Emperor level!

but.

This thing is tasteless to Su Lang, it is useless at all, and can only be used to sell money or reward his subordinates.

Putting the Great Emperor Dao Jing aside, Su Lang took out the Great Emperor Soldier Void Chamber.

The shape of the void chamber is very ordinary, just a gray cube box without any decoration.

This treasure has no weapon spirit, or it is too chaotic, only a chaotic state of will.

Su Lang guessed that it was estimated that the Void Chamber contained the Avenue of Incense, and too much incense aspiration power was used during refining, causing the artifact spirit to be corroded before it was produced.

Except besides.

Because Su Lang forcibly broke the void chamber.

A large number of cracks have appeared in the gray cube box, which seems to fall apart with a slight pinch.

"This Great Emperor Soldier is quite practical."

"If I hadn't had a treasure hunt flying flying fly, even I could lie to it."

Su Lang satisfactorily tossed the empty room, but did not intend to repair it.

Because he decided to decompose it and use it to evolve the Soul Chasing Emperor Palace, hoping that the Soul Chasing Emperor Palace could also have such a powerful concealment ability!

"System, decompose the void chamber!"

Just do it, Su Lang immediately broke down the void chamber.

"Ding! You get the Soul of the Great Emperor\*1, the Soul of the Emperor Wu\*5683, the Soul of the Wuxian\*242150...The Emperor Grade material Xutian Lingyu Stone\*123, the Xumi Heart Magic Water\*652,... ..Emperor-level material, Yuanli Yuanjing\*999998....."

The system prompt sounded, and a series of material names were reported. This is the formula for refining the void chamber.

"Huh!? It's really an unexpected joy to have the Soul of the Great Emperor!"

Su Lang originally thought that there was no tool spirit in this void chamber, and probably couldn't decompose the soul of the emperor, but he didn't expect to decompose it!

This is really amazing!

"In addition to the soul of the emperor, there are also many souls of the emperor and the souls of the emperor. They are indeed the Seven Great Emperor soldiers!"

"There is also this aspiration crystal, which is also condensed by special means. There are nearly one million crystals, which is amazing!"

Su Lang looked at the newly obtained materials happily, and he felt refreshed.

[Chapter 1382: Upgrade to Soul Chasing Palace!](#)

Immediately after.

Su Lang drew it easily and took out a huge Emperor Soldier to Chase Soul Emperor Palace.

"Next, is to upgrade the Soul Chasing Emperor Palace!"

"I just hope that Li Yuanjing won't be used anymore, the spirit of the Soul Chasing Emperor Palace is inherently stupid, but it can't be completely destroyed by him."

Su Lang whispered, and immediately issued an order, "The system, retain the specified characteristics, and use the specified materials to evolve the emperor palace!"

"Ding! Consume Emperor Wu's Soul\*3000, Xutian Lingyu Stone\*100, Xumi Heart Magic Water\*500...Successful evolution of Soul Chasing Emperor Palace!"

I saw a flash of brilliance flashed from the Soul Chasing Emperor Palace in his hand, and the aura level rose wildly!

In a short period of time, this one great imperial soldier directly evolved into a seven great imperial soldier!

On its exterior, a miniature dark palace has also undergone a little change, surrounded by layers of hazy haze, making it more mysterious and unpredictable.

"Chasing the soul, come out and see me!" Su Lang whispered.

The spirit chasing the soul immediately flew out of the main body, and the spirit that was just a black shadow before had now turned into a human form.

However, it is still just a humanoid silhouette, or a phantom that doesn't even have any senses.

Moreover, its intelligence has not been improved, and it is still very dull.

"Sure enough it is still the case."

"It seems that weapons made with soul-seeking jade materials are really difficult to produce weapon spirits."

Su Lang nodded slightly, he had expected this a long time ago, and he would not be disappointed.

Soon.

Su Lang tested the various abilities of the Soul Chasing Emperor Palace.

First of all, the inherent mental power isolation effect has been greatly increased.

Su Lang estimated that as long as the spiritual power did not surpass the realm of broken nirvana, it would be impossible to break through the spiritual isolation effect of the Soul Chasing Emperor Palace.

Secondly, the Soul Chasing Emperor Palace gained the concealment ability of the "Void Dou Chamber".

Although this concealment ability is not as powerful as the spiritual isolation ability, it can also prevent the exploration of the spiritual power of the Eight Great Emperor's level.

The main reason is that this time promotion failed to use the incense will power, which caused this effect to be reduced.

Otherwise, its concealment ability may reach a level that the Nine Great Emperors could not see.

In the end, the defensive ability of the Soul Chasing Emperor Palace was still mediocre, only at the level of the Seven Great Emperors.

Of course, Su Lang didn't think of the Soul Chasing Emperor's Palace as a shield. The Heavenly Eight-Edged Shield was the main defensive weapon.

So Su Lang's next step is to upgrade the eight-sided shield!

Although upgrading the Soul Chasing Emperor Palace consumes a lot of materials.

However, the other gains from Uporuo have not yet been counted.

The newly acquired Emperors Li Qijue and Ye Chen have not yet paid any tribute!

"Collect them all first, then integrate them together."

Su Lang's eyes rolled and fell on the two of them, "Li Qijue, Ye Chen."

"The servant is here!"

The two said in unison, kneeling and saluting.

"Take all of your belongings to me."

Su Lang smiled and said, "Li Qijue, you don't need to give me your fairy source, you keep healing yourself."

"Yes!"

Li Qijue and Ye Chen didn't hesitate, immediately put all their wealth into the storage ring and handed them to Su Lang.

But Li Qi is definitely a pauper, so he can't bring out any treasure.

All he can get is his own practice and a few commemorative items that he is reluctant to sell...

"You are really poor enough."

The corners of Su Lang's mouth twitched, and he simply returned these commemorative things to Li Qijue.

Soon.

Su Lang opened Ye Chen's storage ring, and then smiled with satisfaction.

Ye Chen deserves to be the son of luck in the Hongtian Continent, and has collected too many treasures in the past 100 million years.

In addition to the refining materials that Su Lang urgently needs, there are also alchemy materials, cherishing exercises, and a large number of high-quality fairy sources!

Pick out the refining materials first, and temporarily put the others aside.

Immediately after.

Su Lang checked the refining materials again.

Wu Boruo and Ye Chen are worthy of the great emperor-level overlords, and they have accumulated too many materials. Among them is the necessary material for the upgrade of the heavenly eight-sided shield, the 'heavenly stone'.

Especially Uporo, ruled a dark sky star and nine resource stars, and carried out the most thorough oppression and exploitation, and gained countless resources!

The materials harvested from the two of them are more than enough to upgrade the eight-sided shield of the sky!

Su Lang took out the Heavenly Eight-Edged Shield and immediately issued an order without hesitation: "System, keep the Heavenly Eight-Edged Shield characteristics and upgrade!"

"Ding! Consumes the soul of Emperor Wu\*1000, the soul of Wuxian\*50000, the heavenly stone\*1000, the empty cicada Baolin gold\*1000, the carved bones and the ice\*5000, the fire and sun rainbow light road jade\*20000, the purple sun water road Jade\*20000..."

Tianjia's eight-sided shield evolved into a nine-great emperor! "

[Chapter 1383: Improve system functions!](#)

Suddenly.

A brilliance flashed across the eight-sided shield of Tianjiao, and the levels went up!

"Ah, it's comfortable!"

Su Lang looked at the upgraded Heavenly Eight-Edged Shield with a satisfied smile on his face.

With the nine-great emperor-level Tianjia and eight-sided shield, you will be invincible when you encounter something like Wu Boruo!

After playing with Tianjia Eight-Edged Shield and Soul Chasing Emperor Palace for a while, Su Lang put it in the storage space, and then took out Wuboruo's life universe.

This life universe is no different from other life universes, it is also a miniature spherical shape.

In essence, Wu Boruo is also an orthodox emperor. The life universe is his foundation and his important development target.

Therefore, Su Lang is full of expectations for this universe of life.

"Don't let me down."

Su Lang opened the planet of life with a trace of expectation.

What catches the eye is an extremely large space!

How big is this space? There are 10,000 solar systems this big!

And it is very stable, basically no different from the space of the boundless universe.

In the very center of space, there is a colorful planet slowly spinning.

This planet is also very huge, larger than Canglan Star, and about the same as Dark Sky Star.

It's just that the creatures above have all died!

A silent city stood on the ground, with dead bodies everywhere.

These corpses have become dry corpses, and have been absorbed all energy such as spiritual energy and blood.

As long as the wind blows gently, it will immediately turn into powder and dissipate between the sky and the earth.

"Trillions of people, what a pity."

"It is estimated that the life planets of Li Qijue and Ye Chen also look like this."

Su Lang shook his head, "If these people are still alive, you can use Mingguang Ten Thousand Realms to assimilate them, and let them reserve incense for me."

Although he will not use the incense aspiration power for the time being, this does not prevent him from saving some first and waiting for future use.

Sighed.

Su Lang's gaze shifted to the various treasures of the planet of life.

The size of this life planet was fifteen times the size of Canglan Star, and it was larger than the Great Emperor-level life planet that Su Lang had previously encountered in the world of Dongzhen and Jijun.

The surface of the planet is full of treasures.

Wuboruo also planned the location of the treasures. The treasures of the same attributes are placed in the same place, and the various treasures are clearly separated.

"It is estimated that there are more than 200,000 treasures!"

Su Lang clicked the corner of his mouth, dispatched all the avatars, and unfolded the Baiying avatars into the universe of life.

Soon.

These avatars began to continuously split the planet of life and put all the treasures on it into the storage space.

Although the clones are Baiying clones, their strength has been reduced, but their strength has also reached the level of the Great!

With the hard work of three or four thousand Great Emperor-level clones, all the treasures on the planet of life have finally been put away!

These treasures have various attributes, and there are more than 230,000 in total!

Immediately afterwards, these treasures were classified by Su Lang into the universe of life.

Chenxing, Qiming, Yinghuo, Tai Sui, Zhenxing, Light, Darkness, Dantian, and the two wind-attributed life universes have all undergone tremendous changes and achieved tremendous development!

Finish it all.

Su Lang took back the life universe in Wuboruo where only ordinary land was left, and planned to keep it to fill the broken planet.

Immediately, Su Lang's gaze shifted to the mountains of immortal source and jade in the storage space.

"So many!"

"System, deposit all Xianyuan Xianyu!"

Su Lang's eyes brightened, and he issued an instruction to deposit funds.

Wow!

I saw the mysterious black space, and the balance of funds rose wildly.

The high-quality Xianyuan, which was originally only about 2 million yuan, has been directly increased by more than ten times, reaching 23.5 million!

"So many Xianyuan can upgrade system functions again!"

Su Lang licked his lips in excitement, and immediately issued instructions, "System, upgrade the one-key training and one-key martial arts functions!"

"Ding! Consumes 10 million superior immortal sources, the one-key training function is upgraded to level 39, and the training speed is increased to 733184 trillion times the speed of the basic training without lack of qualification!"

"Ding! Consumes 10 million superior immortal sources, the one-key martial arts function is upgraded to level 39, and the training speed is increased to 733.184 billion times the speed of the basic training without lack of qualification!"

#### [Chapter 1384: Condensing Thirty Avenues!](#)

"The rate has doubled again!"

"And it's all level 39, only one level away is level 40, and you can get new bonus features!"

Su Lang's face was filled with a brilliant smile, and he was in a great mood!

Immediately, he quickly glanced at the cultivator and found that he had completely turned golden.

If Su Lang wants to upgrade, he will be able to upgrade to the real Emperor level in seconds!

However, he still intends to condense enough great power.

"The system condenses the Avenue of Life, Avenue of Death... Avenue of Incense!"

With Su Lang's order, the system function 'Power of the Great Dao' was activated, immediately condensing all these rules into a Great Dao!

This time, there are thirty kinds of newly gathered powers!

In addition, he had already mastered the power of fifteen great avenues before, and Su Lang had comprehended forty-five great avenue powers!

But the accumulated cultivation base has also been consumed, and it will take a little longer.

And the newly understood forty-five kinds of powers of the Great Dao have brought a huge improvement to Su Lang's combat power!

It's just that the current status of 'Swallowing Clone' is still there, and the property panel in normal status cannot be viewed.

But Su Lang could feel that his daily combat power should be replaced by a whole small level.

"Tsk tsk."

"Raise so much at once?"

"It might take 10 million years for an ordinary Great Emperor to rise to a small level, right?"

Su Lang kept tweeting, with an excited and content smile on his face.

After being happy for a while.

Su Lang took Li Qijue and Ye Chen into the Life Universe, and turned to the Dark Sky World.

The war is over, but the mess left behind has not been cleaned up yet.

next moment.

Su Lang used the clone dispatch to appear in the dark sky near the void.

The battlefield here is still a mess, the void is full of black holes, and the power of chaotic space is raging everywhere.

"Space Avenue!"

Su Lang immediately began to mend this void, after all, this is already his territory!

At this time, he is still maintaining the state of devouring the clone, the combat power is very strong, and the effect of using the space avenue is better.

In Su Lang's hands, countless spatial rhythm lines emerged, stitching the voids together.

as time flows.

Su Lang's swallowing clone state gradually ended.

Those huge spatial holes in the near-field void have also been repaired.

There are some remaining small space cracks that you don't care about at all.

The boundless universe's self-healing ability will repair it in a short time.

After repairing the battlefield.

Su Lang flew to the dark sky star.

The experience of this planet is much better than that of Uboluo's life planet.

Although the Dark Sky Clan was killed completely, the other creatures were still alive.

Because these creatures did not parasite the flesh and blood of Wu Boruo, they escaped.

And all the creatures on that planet of life were Uboluo's 'energy storage container', and naturally they were all killed.

"Hey, in this world, being weak is the original sin."

Su Lang looked around the devastated world, shook his head and sighed.

Soon.

He released the free fleet in the Dantian universe.

"Servant wait to see the great Lord!"

Headed by Wushu, many dark-sky warriors all bowed together.

In addition to this, there are also the "Gu" of the Great Emperor's Army and the Quasi-Great Emperor Gengtian Road.

Everyone looked around at the surrounding environment, Gengtian Road felt very uncomfortable, Gu didn't feel much, but Wushu and others felt a very kind atmosphere!

"This is...Dark Sky Star!"

"We are back, back to Dark Sky Star!"

"This is our hometown!"

"..."

The dark sky clan warriors showed excitement on their faces, but in order to prevent Su Lang from offending, they did not speak, only exclaimed in their hearts.

"Unrestrained."

Su Lang said lightly, "Wu Boruo has been killed by me, and the Dark Sky Clan is completely free."

"Servants wait to thank the Lord for his liberation!"

Wushu and others were immediately grateful, creeping under Su Lang's feet, with a cheerful and relaxed look on their faces!

"This is good news."

"But there is also bad news."

"The Dark Sky Clan has almost been killed, even if you add the people on the Nine Resource Stars, the number is not much."

"Now, I appoint you as the patriarch of the Dark Sky Clan, and gather all the Dark Sky Clan to live and develop on the Dark Sky Star."

Su Lang said lightly, "The remaining nine resource stars will be temporarily managed by their natives."

[Chapter 1385: Go to death on Gengtian Road](#)

"Yes!"

Knocking his head without restraint, "The servant must complete the task and live up to the mission!"

"Go ahead."

Su Lang nodded.

After the unrestrained salute, he took many Dark Sky Warriors onto the battleship to gather the Dark Sky Warriors from the major resource stars.

Su Lang's gaze fell on Geng Tianlu's body.

"Master Langdi!"

With a relaxed smile on Gengtian Road, he bowed his head slightly to Su Lang.

"Wuporuo is dead."

"However, I didn't fulfill the promise and let you watch Wu Boruo fall with your own eyes."

Su Lang looked indifferent, "So, you don't have to keep your promise, you can continue to live."

For him, the soul and wealth of a quasi-great emperor were not so important anymore.

If Geng Tianlu didn't want to die, he could not die, and he could even get Su Lang's reward to extend his life and pursue the realm of the Great Emperor.

"No, Lord Langdi."

"Although I didn't watch Wu Boruo fall with my own eyes, my old wish to stand on the dark sky star is over."

Geng Tianlu smiled and shook his head, "In addition, the age limit has come, and I feel tired of living, so I also ask your Majesty Lang to give him his death!"

He seemed to have really let go of everything, with a touch of ease and joy in his tired eyes.

Su Lang looked blankly: "Are you really ready to meet death?"

"Yes!"

Geng Tianlu nodded seriously.

"it is good."

Su Lang also nodded, "Then what are your last wishes?"

"Last wish?"

Geng Tianlu laughed at himself, "The old man only hopes that he will no longer be a human in the next life, because he is too tired to live."

"Haha."

Su Lang smiled very understandingly, "Then if you are asked to be a weapon spirit, would you like it?"

"Age?"

"If you don't have high intelligence, then you can."

Geng Tianlu smiled, "If you are too smart and think too much, isn't it the same as a wise creature?"

"Ok."

"I can satisfy you with your last wish."

"I am completing a special weapon. You will become part of its spirit."

The corner of Su Lang's mouth raised slightly, "Don't worry, after this weapon is refined, the spirit of the weapon will definitely be very mentally retarded!"

"Listen to your lord."

Geng Tianlu smiled, "The old man suddenly doesn't want to die!"

However, his vicissitudes of life and tired eyes did not hesitate or regret at all, but became more determined, as if saying: Your Majesty Langdi, come on, cut me!

"Haha."

"Not much to say, let's get on the road."

Su Lang smiled, patted the Cang Ran old man on Gengtian Road and killed him.

"Ding! You have obtained the Soul of Senior Martial Emperor\*1, Life Universe\*1..."

The perfect plunder was launched, and everything on Gengtian Road became Su Lang's trophy.

Immediately after.

It took Su Lang a while to separate and deal with the life planet on Gengtian Road.

Finish it all.

His eyes fell on Gu.

"Master!"

Gu knelt on the ground and saluted, and Gengtian Road fell. According to the agreement, it officially became Su Lang's weapon.

"ancient."

"Dark Sky Star is considered the first Great Emperor-class planet I got. You will guard it for me in the future."

Su Lang nodded, "However, your current strength is still lacking, I will upgrade you again."

"Gu Jin obeys orders!"

Gu knocked his head.

Su Lang nodded, and immediately pressed Gu's head to activate the weapon evolution function.

The last time Evolving Gu struggled to get enough materials, this time because of the collection of the three great emperors, there was no shortage of materials and it went very smoothly.

"Ding! Consumption consumes Wudi Soul\*3000, Fire Yang Hongguang Dao Jade\*100000, Purple Sunshui Xiao Dao Jade\*100000... the ancient evolution is the Seven Great Emperor Soldiers!"

The system prompt came, and the aura on the ancient body also rose layer by layer, and soon reached the level of the Seven Great Emperor!

At this level, it is almost the same as Wu Boruo in its heyday, and it is more than enough to guard the dark star!

"I... Seven... Seven Great Emperor!?"

Gu was stunned, he never thought that Su Lang could raise him to the level of the Seven Great Emperor at once!

He originally thought that he could improve at most one or two levels...

## [Chapter 1386: The emperor level exercises completed](#)

Su Lang ignored Gu's horror and said lightly:

"Next, you can find a place to guard the dark sky star, and you have to watch the nine resource stars around."

"Yes!"

"Gu Kow thanks the Lord for his support in cultivation, and Gu will go to guard the dark star!"

Gu knelt on the ground and kept kowtow, and then ran away like the wind, to perform the task.

Su Lang smiled slightly, and then planned to leave for the world of Zhetian and Hongtian.

But at this moment.

"Ding! "Zihua Hengsha" has reached the founding level!"

"Ding! "Hidden Scale West Hunting" has reached the founding level!"

"Ding! "Pupils of Ten Thousand Worlds" has reached the founding level!"

...

"Ding! "The Great Devouring Magic Skill" has reached the founding level!"

Eight consecutive system prompts came!

It is "Zihua Hengsha", "Hidden Scale West Hunting", "Pupils of Ten Thousand Realms", "Universal Annihilation Finger", "Undead Emperor Sutra", "Dying Dead Emperor Sutra", "Burning Heaven Emperor Sutra", The eight great emperor-level exercises of "The Great Devouring Magic Skill" have been practiced!

"Lying down, it can be regarded as finished!"

Su Lang was shocked, his eyes brightened, like searchlights!

Immediately after.

Su Lang felt that there was a strong warm current in his body!

These warm currents are integrated into the limbs and souls, from the inside to the outside, nourishing and improving the whole body from the molecular level, and frantically enhancing Su Lang's combat power in all aspects!

Su Lang only felt his whole body crackling, his blood boiled, and his soul changed drastically, suddenly imprinting countless profound meanings of his techniques!

next moment.

Su Lang felt that he had mastered the eight great emperor-level exercises, as if he had practiced for countless years and had formed an instinct!

"Eight emperor level exercises!"

Su Lang took a deep breath, and immediately experimented with the first exercise, "Zihua Hengsha!!"

Wow!

Suddenly.

Su Lang's emperor body turned into countless invisible gravel, just like using the leaf dust of "Broken World".

However, the nature of Zihua Hengsha and Broken World is different.

The latter is a purely explosive exercise, designed to force out all the power of every cell in the body.

The former self-huahengsha is a form-changing technique, which is more similar to the "Emperor Phase Without Beginning Sutra" that can display the world's elements.

At this time, Su Lang has turned into countless 'gravels', which can constantly change with his mind, and perfectly control the movement, aggregation and dispersion of every 'gravel'.

This can form a very peculiar attack and defensive situation in the battle, making the enemy impossible to defend!

And this technique is not only very useful in battle, it can also play a powerful role in the Great Emperor-level soul-body fusion cultivation method.

Soul-body fusion requires the soul of the Broken Nirvana to fuse every cell of the body to achieve the most perfect control.

And Zihua Hengsha can just divide the body into countless particles. This extremely powerful control is one of the pursuits of soul-body fusion!

"Come!"

Su Lang's heart moved, and the emperor's body immediately recovered.

Immediately after.

He performed the second great emperor-level exercise "Hidden Scale West Hunting"!

But suddenly there was a second Su Lang figure in the void, followed by the third and the fourth...

Almost within milliseconds, a thousand and one Su Lang appeared in the void!

And at this moment.

The first Su Lang suddenly disappeared!

Then, the second, third, and fourth Su Lang disappeared...

In the end, only one thousand and one Su Lang remained!

It turned out that all those who disappeared were the afterimages left by Su Lang!

In this millisecond's time, he used Hidden Scale West Hunting a thousand times!

Every time you attack, there will be an afterimage that will be cast a thousand times in one millisecond!

"Tsk tut!"

"It deserves to be a great emperor rank technique, this attack speed is simply against the sky!"

"The key is that achieving this attack speed is not based on sacrificing attack power."

"On the contrary, every attack can erupt with a stronger power, which is comparable to an increase of half a small realm!"

Su Lang took a breath of excitement and calmed down fiercely, "Unfortunately, there is no suitable weapon.

Youtian Sword is sealed...Break Dream Knife...By the way, this product hasn't been sealed yet, let's talk about it first! "

Su Lang patted his forehead fiercely, and then cautiously took out the lost and recovered Broken Dream Knife from the storage space.

[Chapter 1387: Be careful I will choose for you!](#)

"Master Langdi!"

As soon as the Broken Dream Knife was taken out, Qi Ling ran out to ask for credit, "Do you think I am not beautiful!"

Su Lang did not dare to answer, glanced at the green boy silently, and suddenly found that his color seemed to be darker.

No, not only is the color darker!

The level of Broken Dream Knife has increased, reaching the level of the Four Great Emperors!

You must know that Su Lang only raised him to the level of a great emperor before, after the first battle of Wu Boruo, he unexpectedly improved three small realms!

"Master Langdi!"

"As long as I am fed back by the power of destiny, I can become stronger!"

"This time, the power of destiny to feed back is too much, and it instantly improved me three small realms!"

Broken Dream Dao Qi Ling's face was flattering, "Broken Dream, thank you Lord Langdi for giving me this rare opportunity, I am afraid I will never have such an experience again."

Hear this.

Su Lang couldn't help but twitched the corner of his mouth.

He understood that the Broken Dream Knife would become stronger if it harmed others!

When the Broken Dream Knife was in Xi Kejia's hands in the past, although Xi Kejia was a one-star master, there were not many women around him, so the improvement was not significant.

But in the hands of Wu Bo Ruo, the entire Dark Sky tribe's women are closely related to Wu Bo Ruo!

This caused the Broken Dream Knife to trigger a wave of green terror in the Dark Sky world, which harmed the entire world.

It itself also obtained unbelievable power from this green terror, and promoted itself to the Four Great Emperor Soldiers!

"Master Langdi!"

"With your current strength, you can definitely control countless opposite sexes!"

"If you accept me, I will become stronger and stronger and help you rule the entire universe of the boundless universe!"

Seeing that Su Lang still didn't speak, Dream Breaker had the courage to induce Su Lang!

The key is that what it says is really feasible!

As long as the more people affected by it, the stronger it will be. On the contrary, it can help its owner affect more people and become stronger!

With this snowball model, the Broken Dream Knife can really become the world's number one weapon in the end.

And basically there is no risk. It only needs its owner to keep getting to know the opposite sex, and immediately after getting to know the opposite sex, he will go off to find other goals...

If it is a lone ranger, super single dog without any relatives and friends of the opposite sex, or a ruthless person who does not care about everything, the Broken Dream Knife is definitely the best and most domineering weapon!

but.

Su Lang would not choose this way, he didn't want to be green with his head!

Moreover, in addition to being green, the owner of the Broken Dream Knife has actually become a slave, just a tool for the Broken Dream Knife to become stronger.

It can be said that Broken Dream Knife is really sinister!

"You just give up!"

"Don't say let me be your master, you are lucky if I didn't kill you!"

Su Lang looked at Broken Dream Knife coldly, "Next, you will die and be sealed. You choose."

"Master Langdi, you can't be so ruthless!"

"If you don't want to be my master, then you can find another one for me!"

Broken Dream Qi Ling begged with a sad face, "Don't worry, I am in Cao Ying and I am in the Han, and I will stand in your camp all the time!"

"Stop talking!"

Su Lang's killing intent splashed, "Be careful, I will choose for you!"

"Then I choose to seal!"

Seeing that the conditions cannot be negotiated, the broken dream device can only admit it, "I only hope that when you encounter the right enemy, you can remember the broken dream."

"Humph!"

Su Lang rolled his huge eyes, snorted coldly, and began to use various methods to seal the Broken Dream Knife.

Although Broken Dream Knife is very familiar and very cooperative.

But it was already the Four Great Emperor's soldiers, and Su Lang spent the boss's exercises and a lot of materials to seal it.

Finally, he threw it into an abandoned life universe, stuffed it into the corner of the storage space, and let it eat ashes.

"Finally, this catastrophe was dealt with."

With a sigh of relief, Su Lang felt more tired than refining a hundred Great Emperor soldiers.

Finish it all.

Su Lang once again focused on the great emperor-level exercises he had just completed.

[Chapter 1388: Open up the pupil of ten thousand worlds!](#)

"Hidden Scale West Hunting" is followed by "The Eye of Ten Thousand Worlds".

This is a very peculiar space-based emperor pupil technique.

Its function is to preserve the independent space with pupil technique, so that it can be preserved forever from the erosion of the power of the boundless universe.

For the preserved space, perfect repair, nourishment and development can be carried out!

If a great emperor has practiced this pupil technique, he can continue to create space for his pupils.

As time goes by, countless spaces will accumulate in the eyes, and it can be said that the real eyes contain the heavens and the world!

This is especially true for Su Lang!

Because of his perfect plunder, he can get a complete universe of life after beheading the enemy!

And under the power of the system, these living universes turned into a miniature sand-table spherical world, which is more conducive to taking in the pupil.

Other great emperors may be able to get some of the life universe that is wandering, but this chance is very small, and it is very, very troublesome to take the life universe into the pupil!

"Try to see how it works."

Su Lang held his breath and immediately used the Eye of Ten Thousand Worlds.

In an instant, energy surged, and the power of various avenue rules exploded wildly, especially the power of space avenue, the opportunity was brought to the extreme!

Gradually, Su Lang's eyes became pitch black, and even the white of his eyes turned into deep black!

It was as if there was an endless black void in his eyes!

This process lasted for a whole incense stick time!

Su Lang's eyes gradually returned to their original state, and the whites of his eyes were no longer black.

Only the pupils have a strong sense of depth, as if to \*\*\*\* everything in and swallow them!

"It's the first time."

"The pupil of ten thousand realms is opened up."

Su Lang blinked, "From now on, you can start pupil surgery instantly."

Immediately after.

Su Lang glanced at the storage space.

In addition to the one that sealed the Broken Dream Knife, there were close to one hundred and fifty life universes!

Most of these life universes came from the Battle of Jingtianxing and the Battle of Gouchen Chamber of Commerce. The latter provided a hundred life universes at once!

The life planets in these life universes have long been split by Su Lang, and the treasure land is put into his life universe, leaving only ordinary land.

"Try to get it in the pupil."

Su Lang licked his lips and took out a universe of life from the storage space.

This is a very rudimentary universe of life. It came from a certain elementary Wudi. The space is relatively small and it is relatively better to take in.

next moment.

"Photo!"

Su Lang thought, his eyes suddenly turned black.

A powerful force dominated by the space avenue acts on the miniature life universe, and it is instantly absorbed into the left pupil.

After seeing this life universe ingested into the left pupil, an invisible light spot appeared in Su Lang's pitch-black left pupil.

"It's easy!"

The corner of Su Lang's mouth raised, and he smiled with satisfaction, "Probably because I have practiced the pupil of the ten thousand worlds to the founding level."

Soon.

Su Lang took out the other life universes in the storage space one by one.

Except for the one that sealed the Broken Dream Knife, all the others were brought in front of him, a total of 147!

Immediately after.

Su Lang once again used the Eye of Ten Thousand Worlds to incorporate all the life universe into it.

In the left eye and right eye, there are seventy-four life universes in each of the pupils, which turn into tiny spots of light, adding a touch of brilliance to Su Lang's deep pupils.

After these life universes were taken into the pupils of the universe, not only were they not corroded by the power of the boundless universe.

On the contrary, it has been watered by Su Lang's various avenues, and it has become more stable.

In addition.

Su Lang discovered that after taking in these life universes, his combat power had not been increased.

But he doesn't mind at all, because he knows very well that this is a 'cultivation' type exercise, and when it gets there, it will involve a higher level!

Next.

Su Lang's gaze fell on "The Universe Jiefangzhi".

This is a terrifying explosion-type secret method that can consume all of your body's power in an instant, play to its true limit, and cause a wide range of strong attacks!

"This exercise is too horrible and powerful, so I won't try it."

Su Lang's attention shifted to "The Undead Emperor" again.

[Chapter 1389: Use your mouth to kill the enemy](#)

This is a very powerful body-building exercise method, which mainly increases the lifespan and endurance of the practitioner.

After practicing to the founding level, not only the life span is greatly increased, but also the blood rebirth can be achieved!

"My current life span..."

Su Lang closed his eyes and felt it carefully, and whispered in a low voice, "Probably it has reached 100 million years!"

You know, Su Lang is only at the Quasi-Great Emperor level now.

Under normal circumstances, the quasi-great emperor can live at most 50 million years, and almost no one can exceed this number.

For example, on Gengtian Road, he used countless treasures of life extension, which were of little use.

He could live for 100 million years at the Quasi-Great Emperor level, and probably only Su Lang could do it for countless times.

In addition.

With the increase of Su Lang's cultivation level, his lifespan can be increased crazily under the influence of the Undead Emperor Jing, far surpassing the warriors of the same level.

Of course, life span is temporarily useless for Su Lang.

After all, his current age is not even twenty years old, and he is too young for his life span of 100 million years.

What Su Lang valued most was the endurance and the ability to rebirth brought by the Undead Emperor.

These effects combined with "Zihua Hengsha" are magical skills.

Zihua Hengsha can make Su Lang break up into countless particles, and the Undead Emperor Sutra can make Su Lang rebirth.

In other words, even if a part of the "gravel" is accidentally killed, it can be quickly recovered under the action of the Undead Emperor!

In this way, it has formed a state of defense of 'it's hard for you to hit me, and it's hard for you to hit me to cause harm'!

Unless the enemy completely crushes Su Lang, it will be difficult for Su Lang to trigger death substitution.

"Tsk tsk."

"It's really hard to die!"

Su Lang smiled brilliantly, his gaze shifted to "The Great Emperor Sutra of Death".

This exercise is only one word from the "Undead Emperor Sutra", but it is completely irrelevant.

The Deadly Emperor Jing is a special fate causal technique, possessing extremely terrifying lethality.

The two words should die are divided into 'should' and 'death'. Simply put, answer means death!

When performing the exercise, if the enemy responds, it will trigger a mysterious causal attack and die directly.

It's like the Shen Gongbao in the "Fengshen" that Su Lang had seen in his previous life, saying, "Taoist friends stay on the trail", and I don't know how many people died.

But the Emperor Ying's Scripture is more rude and direct, and will take effect as soon as the enemy responds.

Unlike those who were killed by Shen Gongbao, basically they died slowly.

of course.

The King of Death is very abnormal, but it also has restrictions, which are terrifying for ordinary people.

The first limitation is that it is too difficult to practice. It is a special way of destiny, cause and effect, and it is difficult for ordinary emperors to even get started.

But this restriction is useless for Su Lang. What kind of exercises can't be done with the one-click martial arts function?

The second restriction is the prerequisite for performing exercises, which is to know the real name of the enemy!

Real names are very important in the cause and effect of fate. At the Wudi level and the Great Emperor level, many people will hide their real names just in case.

Even many warriors have forgotten their real names during the long years!

In this way, you can avoid being used by your real name to do things.

Unfortunately, this restriction is still useless for Su Lang, and it is also futile for people to cover up their real names in front of Su Lang.

His most basic system function can overcome this limitation, and that is the property panel!

As long as you open the property panel, the real name displayed above is definitely the real name, even if I forget, the property panel can also find it out!

Well, it's so perverted!

"Tsk tut!"

"This technique is too powerful!"

"From now on I will live a life where I can kill the enemy with my mouth."

Su Lang tweeted his praise, and was no longer satisfied with the satisfaction of the Great Emperor.

At this time, there was no enemy to experiment with Su Lang, so he temporarily put the Great Emperor Sutra aside and his eyes fell on "The Great Devouring Magic Skill".

This is a technique that eats the enemy and feeds on war.

Its function is to swallow the flesh and blood of other creatures, transform it into special energy, and promote the speed of the fusion of their souls and bodies.

## [Chapter 1390: Colorful Burning Sky](#)

It can be said that this is also a snowball-style exercise.

Practitioners can keep chasing the flesh and blood of other creatures, constantly killing, devouring, growing, killing, devouring...

Of course, relatively speaking, this exercise is more orthodox than Broken Dream Sword.

After all, the boundless world has always been cruel, and killing is very common.

Only devouring this point is more evil.

Su Lang is determined that it is impossible to swallow others with big mouthfuls, and his mouth is full of blood.

At most, it was only to devour some soul fragments that had been purified by the system and turned into treasures of heaven and earth.

"There are 2,299 soul fragments in the storage space."

Su Lang glanced at the storage space, "After you are promoted to the emperor rank, you can try..."

Put the swallowing magic power aside.

Su Lang began to check the last exercise "Burning Heaven Great Emperor Jing"!

This is a technique that Su Lang values very much, because its function is to blend different fires!

Alien Fire is a special flame that does not belong to the Great Dao of Fire, and even transcends the world rules of the boundless universe. It is very special!

Su Lang's current different fires are very weak, and even the heavenly different fires have only the power of the martial arts level.

But once these special fires merge and grow, they will surely form a very terrifying fire!

"I can't wait!"

Su Lang's eyes gleamed with excitement, and immediately took out the strange fire he had refined.

Suddenly, groups of flames of different colors appeared beside Su Lang, slowly revolving around him.

These abnormal fires have the green lotus dragon pattern, the mysterious cloud pure moon, the crape myrtle indefinite, the rock blood dark sorrow... a total of 88 different fires!

Various different fires have different functions, divided into two types: offensive and auxiliary.

next moment.

Su Lang launched the "Burning Heaven Great Emperor Jing".

In an instant, a trace of translucent entanglement appeared on the palm of Su Lang's palm. It slowly turned, and it was impossible to find it without looking carefully.

Immediately after.

Seeing the surrounding fire resembling a shark smelling blood, it immediately flew towards the translucent envelopment and got into it.

Not long.

Eighty-eight kinds of flames are completely integrated into the enchantment.

The translucent encumbrance also turned into seven colors, slowly rotating, like a miniature nebula.

This is the fire of the new fusion!

Su Lang glanced over, and immediately understood all the information of Xin Yi Huo.

This is a growing type of abnormal fire called "Colorful Burning Heaven and Wonderful Flame".

It has all eighty-eight different fire abilities.

For example, the powerful attack ability of Qinglian Dragon Fire, such as the role of Xuanyun Jingyue Fire to purify the breath, etc...

It can be said that the colorful burning sky magic flame is a kind of almighty flame, possessing the omnipotent characteristics of 'willing force'.

Moreover, Colorful Burning Heaven Miaoyan is not under the jurisdiction of the Flame Avenue, not restrained by the power of other avenues, and is completely self-contained!

but.

The current colorful Burning Heaven Miaoyan is only at the level of Martial Immortal, because the fusion of different fires is too low-level!

"It seems we need to pay attention to the existence of other strange fires."

"It's just that, in so many worlds, I haven't found more strange fires. Only on Blue Star. Maybe this is the specialty of the core of the Infinite Realm!?"

Su Lang pondered silently, and immediately opened his attribute panel.

He wanted to see what level his true combat power had reached after he had practiced eight great emperor-level exercises and gathered 30 great powers.

"Properties panel!"

[Name]: Su Lang

[Race]: human

[Qualification Level]: Turbidity

[Realm level]: Quasi-Great Emperor

[Attack level]: Six Great Emperor +

[Defensive Level]: Five Great Emperors +

[Shenfa Level]: Five Great Emperors +

[Endurance Level]: Five Great Emperor +

[Spirit Level]: Realm of Broken Nirvana

[Mastering the exercises]: The Infinite Heart Sutra, "Ten Thousand Laws into One: Unnamed" (Great Emperor Level, Founding)

[Activated system functions]: one-key practice function (level 39), one-key martial arts function (level 39), clone dispatch function (level 37), one-key treasure hunt function (level 37), one-key alchemy function (level 15) , one-key refining function (level 15), one-key refining array function (level 15), one-key synthesis function (level 15), and one-key empowerment function (level 16).
