

"Why don't you leave?"

Su Lang held Tang Dao and asked.

"The mountains and rivers are beautiful here, but it is a good place to bury the bones!"

Tan Zicheng slowly turned around, with a sneer and cruel expression on his face.

"I think so."

Su Lang laughed, "Actually, I saw you as early as when I was buying the pill in the tower hall."

"You knew I had a problem?"

Tan Zicheng sneered, "Then you dare to take me out of the city? Do you think you are our opponent? Brothers, come out to kill the sheep!"

"Hahahaha!"

"I don't know how fat this sheep is?"

"The guy the boss looks for must be a bit wealthy!"

"Keep it alive, this kid is thin-skinned and tender, and I will kill him alive later!"

Four body tempering men rushed out of the woods, and together with Tan Zicheng, they surrounded Su Lang.

"I'm not sure if you have any questions."

Su Lang didn't change his face and said lightly, "But it's best if there is no problem, and I am not afraid of any problem."

"Not afraid? This is a newborn calf. Isn't it afraid of tigers? I'm not afraid that the wind will flash my tongue."

"Boy, open your eyes and see, we have two intermediate tempered bodies and three primary tempered bodies. Are you ready to clean up?"

"I'm really not ashamed of speaking, just hand over the knife in your hand when you know it, and I'll give you a pleasure."

A group of robbers showed surprise, and immediately laughed constantly.

"My son, you really don't cry without seeing the coffin."

Tan Zicheng slowly pulled out a sharp dagger, "Before killing you, thank you for your Body Tempering Pill and that great lunch!"

"Do you know why I invite you to such a hearty meal?"

Su Lang smiled, "If you don't have any problems, then it's rewarding you, if you have problems, then it's your decapitation!"

"Decapitation?"

Tan Zicheng showed his murderous intent, "What a big tone! Give me up and stay alive!"

The other four body tempering robbers immediately rushed towards Su Lang with a grinning smile.

"Haha, I really thought it was going to take me?"

Su Lang drew out the long knife with a scream, and exclaimed, "Give me a breakthrough!"

In an instant, there was a wave of fluctuations that were characteristic of the breakthrough in the body tempering period.

Originally, it only took 4 hours for Su Lang to break through to advanced body tempering. After taking the pill, the reduction was more than half, which only took less than 2 hours.

It has been 2 hours since eating and going out of town.

The sea of Su Lang's cultivation is already overflowing. Whether to break through is just a matter of thought!

Of course, the on-the-spot breakthrough is as simple as eating and drinking water for Su Lang, but it is completely incredible for Tan Zicheng and others.

"It's a breakthrough volatility!?"

"Damn, he broke through the advanced tempering body!"

"How is it possible, how can you break through at this time?"

"From the beginning to the end, I didn't see him doing exercises. He was walking all the time. How could he break through?"

Tan Zicheng and others were shocked and horrified, everyone's scalp burst open.

Using the intermediate tempering body against the advanced tempering body, not to mention hitting the stone with the pebbles, is also beyond your own control!

But at this time the arrow had to be sent on the string, the five had already made a move, and there was no turning back.

The two sides met each other in an instant!

"Die to me!"

Su Lang cut across, without any fancy moves.

"Do not!"

Seeing the sharp Tang Dao getting closer and closer in the primary tempering stage, their pupils suddenly shrank like needles.

But Su Lang's speed was so fast, they didn't have any time to dodge at all.

"puff!!"

The light of the knife flashed, and the two people's heads were in different places, blood spurting wildly.

However, Su Lang's sword remained undiminished, and he severely slashed on Tan Zicheng's dagger.

"Ding!!"

A trembling of metal resounded through the jungle, and Tan Zicheng's dagger flew into the sky as a thin line.

"Go to hell!!!"

Another intermediate body tempering robber took this opportunity and slashed at Su Lang's neck.

"Do you think I only use a knife?"

Su Lang sneered, twisted his body, and a back whip leg directly flew the robber out!

The remaining elementary body quenching rushed up with his eyes closed and his head stuffed, and Su Lang easily dodged his body slightly.

"Go!"

When Tan Zicheng saw the bad news, he turned around and fled.

"Can you run away?"

Su Lang moved in shape and chased after him.

The power of the advanced body tempering period gave him the speed and explosive power of a cheetah.

Tan Zicheng is only an intermediate tempering body, how can he run Su Lang? But in a few seconds, Su Lang caught up and cut off his legs!

"what!!"

Tan Zicheng screamed incomparably miserable, blood spurting from the broken legs like water guns.

Su Lang kept walking, turning back like a swallow, chasing and killing the remaining two robbers frantically.

Those two robbers were inferior in strength to Tan Zicheng, and they were resolved with two strikes.

"Hey, it's time to take care of you!"

With a smile on his face, Su Lang walked slowly to Tan Zicheng, who had broken legs.
