[Chapter 1431: The boiling Canglan star!](#)

"His Majesty Langdi has updated the Five Elements Heaven!"

"I can connect with the Five Elements Heaven with mental power, communicate with each other, and even teleport!"

"Oh my God, the whole world is closely connected all at once, and I know that every appearance of His Majesty Langdi will bring us endless benefits!"

"Worship your majesty Langdi!"

"..."

All the creatures on Canglan star knelt down to worship, and suddenly a large amount of incense power poured into those incense statues.

among them.

The warriors of the human race are the most excited and excited.

"Spiritual Internet!"

"The great patriarch built the ancient Internet!"

"Great, great, how brilliant the ancient Internet civilization is, and it will reappear on this huge Canglan star!"

"According to ancient data, the Internet can develop many incredible things, such as novels, TV, comics, Ivy..."

"Wait, what is Ivy?"

"Uh, I don't know, I only know that it is related to the posture."

"Could it be... the ancient body forging technique!?"

"Well, it's very possible!"

"..."

In short.

Terran warriors dug up from the ground, and the information handed down in ancient times by Blue Star knows that the Internet is a very beautiful thing.

As the survivors and heirs of the Internet civilization, Terran warriors believe that the important task of developing the Internet is to do their part!

then.

Soon someone started trying to connect to the spiritual Internet.

A Terran Valkyrie was the first to connect to the spiritual internet, and a whole new world suddenly appeared before his eyes.

At the foot is the loess land, surrounded by green mountains and green waters, and various strange vegetation.

Terran Valkyrie tried to touch these objects, and it felt very real.

at this time.

A warrior appeared in front of him, a warrior of other races.

When the Valkyrie saw the Human Race Martial God, he immediately saluted: "I have seen the Human Race Martial God Lord below."

"Don't be polite."

Human Race Martial Saint asked, "Where are you from?"

The **** of war replied: "Under the Baiyue Emperor Clan are the people of the Xianming Clan."

"Under the Baiyue Emperor Clan?"

"Isn't that equivalent to the extreme west?"

Terran Valkyrie said in surprise, "You and I are in the extreme west and the other in the south, so you can meet here!"

The Warrior God of the Xianming Clan nodded with deep approval and said: "Yes, the spiritual internet set up by the great Emperor Lang is really amazing!"

"Haha!"

"Of course!"

Terran Martial God smiled, "By the way, are you interested in coming to the main city of Hot Summer?"

"Of course!"

The Martial God of the Xianming Clan said, "It's just that it's too far away, and the transmission cost is too high, so I haven't been able to go south."

"Have you forgotten that His Majesty Langdi also established a transport network?"

The Terran Valkyrie laughed, "As long as you use this transportation network, you will be able to reach the south in an instant!"

"Yes indeed!"

"I forgot about it!"

The **** of war of the Xianming clan suddenly realized, so he began to explore the teleportation skills.

Soon, he discovered that he could communicate with the heavenly will in the spiritual internet and choose the teleportation coordinates on Canglan Star.

Naturally, the transportation network is not capable of transmitting at any coordinate, but has established a million transmission destinations on Canglan Star.

When transmitting, you can choose from one million destinations.

Of course, there is also a teleportation destination outside the main city in the summer.

The Valkyrie of the Xianming tribe quickly selected a destination and teleported to the outside of the main city in the summer!

"Lord Human Race, I've already arrived here, now outside the main city in the summer!"

The **** of war of the Xianming tribe has contacted the **** of war of the human race in the spiritual internet.

"So fast!"

"It deserves to be the transmission network arranged by His Majesty Langdi!"

Terran Martial God said in surprise, "Wait, I will pick you up!"

...

Standing in the cloud, Su Lang could see clearly the process of these two Valkyrie faces, and couldn't help but smile.

He also saw various operations of other warriors.

There are people who are not right in their minds and want to do bad things through the mental Internet and the transmission network.

The result of course is to be warned by the kind and upright 'server', and in serious cases will be directly expelled.

No matter how serious it is, it will be "titled", and you will not be able to use the spiritual internet for a lifetime!

Of course, this is the era when all people believe in Su Lang, and disputes have been reduced by ninety-nine percent.

Most people will not do bad things.

Some of them exchange their experience, experiment with the power of magic, or set up a stall to start selling goods, and even accept disciples to find objects...

In a short period of time, all kinds of tricks have emerged!

The whole world instantly entered the right track of high-speed communication, high-speed development, and crazy integration.

"The Pandora's Box of the Internet has opened."

Su Lang smiled slightly, "I just don't know, what will it develop into when I come back?"

Turning his attention away from the spiritual internet, Su Lang took out Wish Li Baoyu from the storage space.

Next, we are going to the exile!

[Chapter 1432: Open the door of exile!](#)

May Li Baoyu.

The whole body is light blue, a supreme emperor-level treasure condensed by world consciousness with endless willpower.

May Li Baoyu have the omnipotent effect, and can even fight the power of time, which is very rare and rare.

This piece of Wish Li Baoyu in Su Lang's hands is not big.

When Canglan World Consciousness rescued Chu Xiaobei and others, he used more than one Wish Li Baoyu.

Therefore, Su Lang did not have full confidence in the safety of this trip.

"call--!"

After taking a few long and deep breaths, Su Lang looked at the mysterious black space, and saw that the clones had reunited.

Therefore, Su Lang immediately issued an instruction to the system, "System, start the swallowing clone function!"

Wow!

In a flash.

Su Lang's aura began to surge rapidly and directly reached the realm of Quasi-Supreme Emperor in all directions.

But let him not open the door to this exhibition.

Because Su Lang did not intend to break through the door of exile by relying solely on his own strength.

Wish Libaoyu is made of countless aspirations, if he personally urges it, he will definitely get incense!

Therefore, Su Lang must use Canglan Star's consciousness to motivate Li Baoyu!

I saw Su Lang holding Wish Li Baoyu in the palms of his hands, lifting it up to the sky, and directly spurring the way of fate!

Suddenly.

Su Lang felt that he had come into contact with an extremely majestic soul life body.

It is vast and chaotic, with a trace of goodwill, it is the world consciousness of Canglan Star.

Same as last time.

This time it was in contact with the Canglan Star World Consciousness, and it still very much hoped that Su Lang would be in harmony with it.

And this time the intention of world consciousness is stronger.

I don't know if it was because Su Lang created the spiritual internet and transportation network, which directly brought Canglan Star into the era of globalization and produced more merits.

of course.

He Dao Su Lang did not do it, and directly began to communicate with his thoughts: "Canglan Star, Canglan Star, I am leaving."

Canglan Star's consciousness unexpectedly produced a feeling of reluctance, which was very difficult for it, which showed that it really didn't want Su Lang to leave.

"Next."

"I want to open the door of exile."

"That's the door to the turbulence of time and space the last time."

Su Lang solemnly said, "I hope you can use this piece of auspicious treasure to help me pass the gate of exile smoothly."

Although Canglan Star's world consciousness was still reluctant to give up, he immediately conveyed the idea of agreeing.

Obviously, it has already responded to Su Lang's request.

"In that case."

"Then... let's get started!"

Su Lang took a deep breath and threw his wish Li Baoyu into the sky.

"Boom!"

Canglan Star's consciousness manifested, and countless regular visions suddenly appeared in the entire Canglan Star's sky, which was brilliant and dazzling!

However, Su Lang didn't drag his feet and took out a tortoise shell that looked like a shield, and poured countless innate qi into it.

In a flash.

The gate of exile was fully urged, and even exceeded its limit!

Immediately afterwards, a dark spot appeared on the gate of exile, and it instantly expanded into a three-foot black hole!

The black hole is bottomless, and there is a palpable breath coming from it, as if to chew some blood bowls.

This is the gateway to the exile!

Su Lang did not enter the passage immediately, but released the three 'sealed' of Youtian Sword, Jianxian Cannon, and Li Xianyang.

"Master~ You finally remembered me!"

"Li Xianyang knocked on the lord, thank the lord for saving the lives of his subordinates!"

"Fire! Fire!"

As soon as the three appeared, I was suddenly very excited.

They have been imprisoned for too long, how can it be unhappy to see the sun again?

But their happiness was broken in the next moment.

I saw a strong gloom burst out of them, and a terrifying turbulence of time and space emerged, to swallow them.

but.

The door of exile on his body is formed by one of ninety-nine tortoise shells, and the force of exile is many times smaller.

Therefore, as soon as they were released by Su Lang, the door of exile on their bodies was immediately absorbed and swallowed by the black hole, strengthening themselves.

"Go in and hide again!"

Su Lang waved his hand and immediately put the three into the storage space and the mysterious space.

"Canglan, get ready, I'm going to rush!"

Su Lang's eyes condensed, a little under his feet, soaring into the air, and soon rushed to the edge of the gate of exile.

[Chapter 1433: It really is a place of exile!](#)

boom!

The violent turbulence of time and space is coming.

The defensive mask on Su Lang's body showed signs of disintegration in an instant.

The smell of death caught on his mind, and Su Lang couldn't help his pupils shrink suddenly, and his whole body was in cold sweat!

"Space Avenue!"

Su Lang immediately unfolded the space avenue rules, and the powerful space power suddenly rushed out.

Last time Su Lang had not yet condensed the Avenue of Space, and only using space rules to fight the turbulence of time and space was of no avail.

This time it was different. He had already condensed the space avenue, which was close to perfect.

In addition, this time the gate of exile was more stable, so the space avenue took effect, smoothing out the strong spatial turbulence in most of the time and space turbulence.

However, the deadliest thing about the Gate of Exile was the turbulence of time, and Su Lang was powerless at all.

At this moment.

The horrible time turbulence hit.

Su Lang's figure was constantly changing, suddenly looking old and young, very strange.

And Su Lang also felt that his body had suffered a terrible torture, and part of his emperor's body was directly necrotic.

The situation is very critical!

Fortunately, Canglan Star's World Consciousness took action at this time.

I saw the majestic world consciousness carrying Wish Li Baoyu directly into the gate of exile.

May the Libaoyu collapse immediately, and the omnipotent aspiration power will turn into a stable space-time force to resist the tsunami-like time turbulence.

Although I wish there was only one piece of Libaoyu, the turbulence of time in the Gate of Exile had been calmed for most, reaching the range that Su Lang could bear.

Soon.

Su Lang's figure disappeared into the dark gate of exile!

"Your Majesty Langdi, must arrive safely in the place of exile!"

"His Majesty Langdi is invincible, and soon, he will return with Chu Guliang and the others, for sure!"

"..."

Each of the emperors on Canglan Star watched the gradually closing black passage, kneeling in prayer silently.

The other side.

Su Lang only felt that a long time had passed, and it seemed that after only a moment, the turbulent flow of time and space around his body had completely disappeared.

"Arrived in the exile!?"

Su Lang frowned, tried to open his eyes while holding back the pain, but found that he couldn't do it.

Because his eyes are completely necrotic.

In addition to the eyes, other parts of the body have also been severely traumatized.

Moreover, these are traumas caused by the turbulence of time and space, which are difficult to treat.

"It seems that I can only commit suicide."

Su Lang sighed in his heart and thought, "Clone dispatch!"

Wow.

A clone appeared in front of Su Lang.

Immediately afterwards, Su Lang smashed his head with a palm, triggering death replacement.

The mysterious power that transcended everything came and made Su Lang reborn, and all his injuries disappeared. The good could not be better.

"hiss!"

"I didn't expect to have suffered such severe trauma, and I don't know if Chu Xiaobei and the others were injured."

Su Lang frowned slightly, "At that time, Canglan Star used more than one piece of Wish Li Baoyu, at least seven or eight yuan. It should be able to ensure their safety and worry-free."

Suppress the slightest worry in my heart.

Su Lang unfolded his mental power and looked around, and a brand new scene appeared before his eyes!

This is a huge circular valley with five terrifying hooks on one side.

At a glance, it was as if some unimaginable behemoth reached out and took a piece of the land, causing this deep pit to appear.

"At least it is a giant creature of the same level as my world, and the remaining aura is very strong, reaching the level of the Ninth Great Emperor."

Su Lang took a deep breath, and only from this deep hole could see the tip of the dangerous iceberg in this place.

Immediately after.

Su Lang's mental power continued to spread out, and soon reached the limit of the detection range—more than a dozen solar systems the size.

But the edge of mental power detection is still a thick land!

Su Lang's figure flashed, and he flew away in a random direction, and the detection range moved accordingly.

But the earth is still within the range of perception, as if the earth is endless and without edges.

"Such a vast land... it really is a place of exile!"

Su Lang was completely sure of this in his heart, and couldn't help feeling happy.

[Chapter 1434: Jade Charm of the Great Emperor](#)

"The most urgent task is to find Chu Xiaobei and others."

"The flow of time in the Exile is about 10,000 times that of the infinite universe."

"It's been about five days since they entered the place of exile, the timeline of the boundless universe."

"So... they should have been here for more than a hundred years, and I hope nothing happens!"

The worry in Su Lang's heart rose again, and he couldn't help but immediately dispatch the clone and avatar.

"Master!"

As soon as Li Xianyang appeared, he knelt on his knees.

Another avatar and thirty-eight avatars saw this scene, and they knelt on the ground to bow.

It seems that this special avatar of Li Xianyang can serve as a good example for other avatars!

"You immediately start Baiying's clone, first look for local powerhouses around to understand the current situation!"

Su Lang assigned tasks to Li Xianyang and other avatars, "But remember, hide your figure, there are a lot of big guys here, don't make trouble at will."

"Yes!"

Li Xianyang took the lead, and all the clones responded in unison.

Immediately, they used Hundred Shadows clones, incarnate into four thousand Five Great Emperor clones, spreading towards the surroundings.

These avatars all inherited Su Lang's spiritual power of the Broken Nirvana Realm and the subtle mystery method, with first-class exploration ability!

After a few breaths.

The clones have explored large tracts of land and discovered a large number of intelligent creatures.

The Canglan Continent is known to be full of thousands of races, but compared to here, it can hardly be regarded as root hair.

So far, hundreds of thousands of intelligent creatures have been discovered on the land that Su Lang has detected.

Most of these intelligent creatures are humanoids with some alien characteristics.

There are also beasts and plant creatures that are fully enlightened.

There are also such creatures in the more than twenty planets ruled by Su Lang, but they are very rare.

But here, it is very common!

Unfortunately, although there are many intelligent races, there are not many strong ones.

"These races are probably the descendants of the people who were exiled. After a long time of reproduction, they eventually formed the natives of the exile."

"Well, the strength is too low, I probably don't have much insight, and I can't get any useful information from them."

Su Lang thought silently and ordered the clones to continue exploring.

at last.

After dozens of breaths.

The clones found a great emperor-level warrior who was cultivating hidden in the mountains.

It is not easy to find a great emperor-level warrior in the Xinghai domain. It takes dozens of planets to appear one.

But in this place of exile, Su Lang found a great emperor-level powerhouse in less than a minute.

This can be seen.

The average combat power of the Exile is simply terrifying!

"A warrior who is practicing outside alone."

"Presumably it should be a 'Ranxiu' similar to Qi Yunkai."

Su Lang thought silently, and immediately used the clone replacement to come to the vicinity of this great emperor-level warrior.

Take a closer look.

This great emperor-level warrior is actually a female warrior, which is even rarer.

This female emperor looks very sexy, full of allure, but does not give people a gaudy feeling.

This may be the show is very temperamental.

Su Lang immediately opened the opponent's property panel.

[Name]: Yumei

[Race]: Guanghan

[Qualification Level]: Unparalleled

[Realm level]: Three Great Emperors

[Attack level]: the third-level emperor

[Defensive Level]: Three Great Emperors

[Shenfa Level]: Three Great Emperor +

[Endurance Level]: Three Great Emperor +

[Spirit Level]: Realm of Broken Nirvana

[Mastering Techniques]: Guanghan Heart Sutra, Huaqing Pushuo Demon Axis (Great Emperor level, Xiaocheng), Pu Wo Wujie (Great Emperor level, Beginner)...

"Three Great Emperors, good at physical fitness and endurance?"

Su Lang smiled playfully, then his figure flashed, and he approached the mountain where Yumei was practicing.

Although the cultivation base of this jade charm is not very high, it is probably the middle and lower level in the place of exile.

But she must have practiced for a long time, and she should be relatively clear about the current situation in the exile.

So Su Lang decided to ask her about the news.

Well, it's best to take in an obedient subordinate and act as a temporary guide.

then.

Su Lang floated outside the mountain, summoning all the clones, preparing to display the Mingguang World.

[Chapter 1435: I ask you a few questions](#)

The other side.

Yumei is a master of escape, and his anti-reconnaissance ability has exploded. Although he can't find Su Lang's existence at all, he feels a hint of crisis.

"Damn, I must have been targeted!"

Yu Mei didn't hesitate, and immediately hid her figure before fleeing.

But the moment she appeared outside the mountain, an extremely bright light shone!

At the beginning, Yumei only felt that she was at ease physically and mentally, and she had an urge to groan.

But then she found four thousand great emperors floating in the air!

"day!"

"Which power is this? It sent four thousand great emperors to arrest me with such great fanfare!?"

Yumei was horrified, and while madly resisting the light of Mingguang Ten Thousand Realms, she fled towards the distance.

However, her physique is very powerful at the same level, but it is not worth mentioning in Su Lang's eyes.

No matter how Yumei escaped, she was always within the range of Mingguang Ten Thousand Realms! quickly.

She didn't run away anymore, because she had become Su Lang's fourth servant of the Great Emperor.

"Your servants pay homage to the great Lord Lang!"

Yu Mei came to Su Lang's face very obediently, and Yingying bowed down.

"stand up."

"I ask you a few questions."

Su Lang looked indifferent, and asked straightforwardly, "Are you a casual cultivator? Are you from the boundless universe?"

Have you heard of Chu Xiaobei, Ji Ruxue and Murongxian three women?

How is the situation in the exile now? How many powers are there? How strong is the strongest? How long is the final battle? "

Faced with Su Lang's problem.

Yu Mei replied systematically: "Enlighten the master, the servant is a casual cultivator, the boundless universe Yuqing Dayuren, who lived in exile 600 million years ago.

The three women you are talking about have never been heard by the servants.

The place of exile was too vast. The greatest power the servant had ever heard of was the Palace of Changhen, which was built by the Supreme Emperor Changhenzi.

In addition, there are the Bright Church, the Moon-Constructing Moth Clan, and the Feitian Sect, the three godless forces.

It's just that, except for Chang Hen Zi, a godless powerhouse who has a clear face in Chang Hen Palace.

There are no godless powerhouses in the Bright Church, the Moon Moth, and Feitian Sect.

Of course, they are also prestigious godless forces, because they have the three godless soldiers of the Supreme Emperor's Army Bright Sword, Moon-Constructing Mother's Nest, and Dead Man's Sutra!

The servants have shallow knowledge, and there are only these four god-level forces that know the place of exile.

The biggest power within a radius of 500,000 light years is Qi Xiaodian, which was established by the quasi-superior emperor Huowu.

In addition, there are a large number of forces of all kinds, countless.

And the quasi-god-level force is simply a stone in the river compared to the entire exile.

The lower powers are pebbles, completely inconspicuous.

As for the strongest person in Exile, the servant had heard of Chang Henzi, and the rest had never heard of someone stronger than him.

But there are too many strong people hidden in the place of exile. Although Chang Henzi is recognized as the strongest, there are definitely stronger people in secret.

In addition, the servants have no way of knowing how long before the final battle.

According to the information left over from the last war of reincarnation, the signs of the final war have always been unclear.

Under normal circumstances, it is a certain strong man who thinks he has the ability to overwhelm the crowd, and the overall strength of the exile is strong enough, when it can lead to the coffin of the Nine Dragons, he will take the initiative to provoke a world war!

At present, the overall strength of the Exiled Land is probably close to the last war of reincarnation, and it is estimated that a war may break out in a few hundred million years.

In the end, even if the war of reincarnation broke out, it does not mean that the coffin of the nine dragons could be drawn out. Many wars of reincarnation were useless massacres.

For example, the last time the war of reincarnation broke out 1.5 billion years ago, and the entire land of exile was beaten to mountains, blood flowed into rivers, and the Nine Dragon Coffin was not drawn out.

The remaining strong men fought to despair, and finally chose to stop the war, and then lurked again, waiting for a new era to come!

And these remnants of the strong, even the old people remnants of the previous wars of reincarnation.

They have gone through wars of reincarnation again and again, and their strength is unfathomable. Some can wait until the arrival of the great era and continue to fight in reincarnation.

Others can't wait for the new era, they can only run out of life and fall completely. "

[Chapter 1436: No, I must be that genius](#)

"As far as the servant knows, a total of nine wars of reincarnation have successfully led to the coffin of the Kowloon."

"The victors of these nine wars of reincarnation all left their own mark in the place of exile before leaving, forming the current nine restricted areas."

"It's just that the time when the nine wars of reincarnation broke out is undocumented, because it's too old and time has almost wiped out everything."

Speaking of this, Yu Mei is no longer speaking, obviously she already knows everything.

After listening to Yumei's words.

Su Lang suddenly raised countless thoughts.

"War of Reincarnation?"

"In this era, is the final battle called the battle of reincarnation?"

"Chang Hen Gong? Chang Hen Son? It sounds related to Chang Hen Woman, is it the legacy of Chang Hen Woman?"

"But Qi Yunkai has spent 30 million years in the Boundless Universe, and 300 billion years have passed since this place of exile. Can the inheritance of the Long Hating Girl be passed on for that long?"

"In addition, I originally thought that every time in the Battle of the End of the Exile, one person was taken away by the Nine Dragon Coffin, and the entire Exile was completely rebuilt from the beginning, but now it does not seem to be the case. I have received a little news from the endless universe. error."

"Perhaps because the time flow in the place of exile is too fast, and the total number of wars of reincarnation is only tens of billions of years, and it is only tens of millions of years in the endless universe.

This time is not long in the eyes of the experts of the Infinite Universe, so the experts of the Infinite Universe regard many wars of reincarnation as one! "

"Then, judging by the information now available, the sinister level of the Exiled Land is even higher than imagined...ten levels!"

"There are a large number of strong people who have cultivated for countless years here, as well as powerful weapons built by strong people in the past!"

"There are so many powerful people hiding in the dark that it is unimaginable, and so strong that it is desperate!"

"Under the pressure of these former waves, the new waves of exile have no hope at all."

"Unless there is a real genius, a genius who is the best in the world in terms of cultivation aptitude and combat talent, it is possible to overturn those super old men who have spent countless years."

Thinking of this, Su Lang couldn't help but ask himself, "Am I the genius?"

But then.

Su Lang had another resolute thought: "No, I must be that genius, otherwise don't talk about rescuing Chu Xiaobei and the others, even I will get in!"

Thinking of Chu Xiaobei's three daughters.

Su Lang was a little worried again.

But on second thoughts, they are protected by treasures such as the Five Elements Imperial Soldier, the Five Elements Heaven Formation, the Slaughter Sky Scabbard, the Space Rubik's Cube, and the White Jade Emperor Palace.

According to previous explorations of a large area of land, the only situation in which the emperor-level powerhouse is Yumei alone, the three daughters of Chu Xiaobei are more cautious, and it is still possible to ensure safety.

Unless they are very unlucky, the place of exile will encounter an overwhelming strong.

So, there are also big benefits to having a big place of exile.

As soon as a person enters, it is like dripping into the ocean. As long as you are willing, the chance of survival will be greatly increased!

"Chu Xiaobei and others are not reckless people, they can definitely protect themselves!"

Su Lang took a deep breath and immediately took out a piece of clothing from the storage space.

This dress was worn by Chu Xiaobei, and it has her breath.

"System, dispatch the treasure hunt flying gliders!"

Su Lang thought, and suddenly a large number of treasure hunting flying flying flying appeared.

These treasure hunting flying flying gliders collected the breath on the clothes, and immediately disappeared.

In order to increase the probability of finding everyone.

Su Lang took out a few more things and asked the treasure hunt flying glider to collect the breath of Ji Ruxue, Murong Xianxian, and even the Five Elements Emperor Soldier and Slaughter Sky Sword Sheath.

Suddenly, more than 300 billion treasure hunting flying flying flying flying flying around Su Lang spread wildly.

at the same time.

On a huge peak in the place of exile, layers of white cobwebs were covered one after another, turning the entire huge peak into snow white.

I don't know, I thought it was a super snowy mountain!

The top of this white giant peak is a nest made up of countless crystal clear spider silk.

Although it is a lair, it is very luxurious and majestic than any palace.

In the lair, there were bursts of women's laughter.

[Chapter 1437: That feels even more explosive!](#)

"Hahahaha!"

"So funny, so funny!"

"This novel is better than the previous book 'The Emperor Weaving Is Not Easy to Promote: Lord Langdi, Please Take the Move'!"

"Bei Bei, Ruxue, Slim, you three are so talented!"

In the spacious and luxurious bedroom built by snow white spider silk, a six or seven-year-old girl with pink jade carving is lying on the soft spider silk jade bed, holding a paper book and reading with relish.

Take a closer look, and the title on the cover of the paper book turned out to be "The Emperor Weaving: It's Too Tender to Take a Long Emperor"!

I don't know if Su Lang will vomit blood when he sees this book.

On the side of the spider silk jade bed, there are three beautiful girls sitting, including Chu Xiaobei, Ji Ruxue and Murong Xianxian.

"We are really excited to be praised by Master Youzhi, and we have the motivation to create new works again!"

"Master Youzhi, take your time, we will soon be able to write a new chapter for you, the finale is already being conceived, it will definitely explode!"

"Yes, yes, and we have already thought about the creativity of the next book. The name is "Langdi: He Became the White Moonlight of the Sick Jiaozhi Emperor". This book will be more interesting, and you are guaranteed to be satisfied!"

"Well, we also thought of a theme called 'Geng Mei', which feels even more explosive!"

"..."

Chu Xiaobei's three daughters tweeted, and said to the little **** the spider silk jade bed to please.

"Really!?"

Youzhi said in surprise, "You really have you, I am looking forward to it!"

And the story of Chu Xiaobei and the little girl Youzhi started more than 100 years ago.

then.

The three daughters of Chu Xiaobei, the White Jade Emperor Palace, the Five Elements Emperor Soldiers, the Slaughter Sky Scabbard, the Space Rubik's Cube... and some of the warriors who guarded the Five Elements Heaven, all fell into exile.

As a result, they were unfortunately discovered by a local emperor-level force.

We must know that although the land of exile is vast, its resource consumption has been very serious for a long time, so the warriors who have flowed from the boundless universe here are easily coveted.

Especially Chu Xiaobei's three daughters are not even Wuxian!

Thus, the emperor-level forces sent a large number of powerful men to besiege and kill them.

However, with the help of the Heavenly Slaughter Sword and other emperor soldiers, the three women stubbornly resisted the pursuit of the emperor-level forces, and designed traps to wipe out the high-level forces of the emperor-level forces!

Chu Xiaobei's three daughters originally thought it was safe, but they didn't expect that the extinguished force would leak the news, attracting a more powerful force, Greed Wolf Palace.

Greedy Wolf Palace is a great power, far from what Chu Xiaobei's three daughters can resist.

When Greed Wolf Palace sent warriors to chase Chu Xiaobei and the others, Youzhi had to follow it because he was bored, which was a relief.

As a result, You Zhi met the three daughters of Chu Xiaobei.

Under the siege of the powerful warriors of the Greed Wolf Palace, the warriors who protected Chu Xiaobei's three daughters couldn't resist, and died instantly.

Chu Xiaobei's three daughters are also at stake.

But at this moment Youzhi discovered the difference between Chu Xiaobei's three daughters.

Chu Xiaobei is a quasi immortal, but there are dozens of hundreds of rules in his body, which is really rare!

However, Ji Ruxue and Murong Xianxian are both quasi immortals, but they only have a few rules, which is also very rare!

So Youzhi got interested and saved Chu Xiaobei's three daughters.

Chu Xiaobei's three daughters were originally killed because of their subordinates, and they felt very bad for Youzhi, and they didn't appreciate Youzhi's life-saving grace.

But after Zhiyu Mountain, they knew that Youzhi was not actually a person who was Greedy of Wolf Palace.

On the contrary, Youzhi hates people who are Greedy of Wolf Palace!

It's just that the relationship between the two has never been mentioned, and the three girls are not easy to ask, which has become a mystery.

In short, after Chu Xiaobei, Ji Ruxue, and Murong Xianxian realized this, their ill feeling towards Youzhi disappeared a lot.

Moreover, relying on Youzhi, they are considered safe in the exile.

After all, although Yuzhi looks like a little girl, she is actually a very powerful quasi-superior!

but.

Because Youzhi is very powerful, his interest in Chu Xiaobei's three daughters came and went quickly, and he threw them aside in a blink of an eye.

In Zhiyu Mountain, not only Yuzhi lives alone, there are also a large number of female warriors of various races who serve Youzhi.

[Chapter 1438: Chu Xiaobei's three daughters made a beast](#)

These waitresses are all quasi emperors.

Therefore, the three quasi immortals of Chu Xiaobei are here, walking on thin ice, frightening!

During the period, there were also some female waiters who bullied the three women's cultivation base and instructed them to do this and that, which was very annoying.

Fortunately, Youzhi was temperamental, and those waiters were afraid to bully Chu Xiaobei's third daughter too hard and provoke Youzhi to get angry, so they didn't dare to go too far.

Therefore, although the three women have to do some unnecessary things every day, they have not encountered more difficult situations.

Moreover, this life did not last long.

Everything turned out because of a book!

The title of this book is "Three Misses Against the Heavens: Emperor Su Lang is too powerful"!

It is a novel created by Chu Xiaobei, Ji Ruxue and Murong Xianxian in Zhiyu Mountain because they missed Su Lang too much.

When the three daughters of Chu Xiaobei were on Canglan Star, they liked to read the 'Ancient Books' dug up from the Blue Star the most.

Therefore, the three daughters of Chu Xiaobei actually wrote this book in a decent way, as well as a variety of peculiar concepts and stalks, which is very interesting.

The three daughters of Chu Xiaobei were also very satisfied with this book, made a paper book specially, and read it with them every day.

As a result, the book was seen by Youzhi one day, and when he took it over, he screamed, his eyes brightened, and he was addicted to enter.

Youzhi read this book utterly intoxicated, day and night, reading it over and over again, with endless aftertastes.

But finally one day.

She gradually felt dissatisfied.

So let the three daughters of Chu Xiaobei write another book of the same series.

The three daughters of Chu Xiaobei never expected that they would turn around with a novel, and since then they have become Youzhi's queen writers!

Although they don't want to use their Master Su Lang to write books to other women (although it looks like a little girl), they have no choice.

So in the absence of choice.

In order to brush up a higher degree of goodwill on Yuzhi, the three girls decided to take a risk and join the heroine based on Yuzhi!

Finally, the three girls racked their brains and began to serialize the new book "The Emperor Isn't Easy to Be Provoked: Lord Langdi, please take it"!

And after reading this book, Youzhi shouted wonderfully and madly about satisfaction, and completely brought herself in. It was so cool!

Then this book officially became Youzhi's spiritual food, and he had to eat it every day, and he felt uncomfortable if he didn't eat it!

So Youzhi reminds you every day, every day!

Chu Xiaobei's three daughters saw Youzhi's reliance on themselves, so they took another gamble to reduce the amount of daily updates on the grounds of maintaining the quality of their works.

In this way, not only can you hang Youzhi's appetite, but also prevent Youzhi from leaving them to work in the corner when they are tired of seeing them.

This strategy finally succeeded!

Although Youzhi was too impatient, he also asked others to imitate the works of Chu Xiaobei's three daughters.

But how can those simple people ever write about the three daughters of Chu Xiaobei?

In the end, because the works were too ugly, all were punished by Yuori.

Among them, there are waitresses who have bullied Chu Xiaobei's three daughters.

Next, Chu Xiaobei's three daughters' dragging plan was on the right track, one update every day, and nearly 20,000 chapters were written before finishing the book!

This writing is nearly fifty years!

In these fifty years, no one dared to provoke the three daughters at all, and they had a very happy life. Don't be too proud.

Immediately afterwards, under the urging of Youzhi, the three daughters opened a new work "The Emperor Weaving: Taking a Langdi is too tender."

It was at this moment that Youzhi held the one in his hand!

This book has been updated with more than 30,000 chapters in the hands of Chu Xiaobei's three beasts. It has been written for more than 80 years, and it is almost finished.

Therefore, they will prepare the new book "Langdi: He Became the White Moonlight of Emperor Jiaozhi".

In short, the three daughters of Chu Xiaobei intend to maintain their current relaxed and happy life by writing books to improve their favorability.

Of course, I still miss Su Lang's third daughter very much.

They knew this was a place of exile, basically there was no hope of returning to the boundless universe, but the more so, the more they missed Su Lang.

[Chapter 1439: Hit the saliva into minced meat!](#)

At night, the three of them cried and wet their pillows from time to time.

The three flying treasures created by Su Lang himself, and the three women often show them and think about people.

When writing a book, it is precisely because of the true feelings that he can write a profoundly emotional book, and sometimes I see Youzhi with red eyes.

At this moment.

They didn't know that Su Lang had already come to the exile and was looking for them frantically!

The land of exile, in a plain of thorns.

"Have you finally found the general direction!?"

A smile was drawn at the corner of Su Lang's mouth.

He was suspended in the air, surrounded by Jade Charm standing upright, and beneath his feet was a plain of thorns full of pink and purple flowers.

In the distance, the treasure hunting flying flying gliders finally found the exact direction after the initial great diffusion, all gathered together, and flew in the same direction.

That direction is at least the direction where Chu Xiaobei's three daughters have been!

"They must be alive!"

Su Lang took a deep breath and waved his hand to collect Jade Charm into the Dantian universe, and then dispatched the clone to the direction of the treasure hunting flying flying wing.

After the clone appeared, Su Lang immediately used the clone to replace it, and then released some treasure hunting flying flying gliders again to search for the correct direction.

In this way, it is much faster than the silly following the treasure hunting flying flying gliders, after all, the speed of hunting flying flying flying flying gliders is not as fast as Su Lang's clone dispatching replacement.

In a blink of an eye.

Su Lang moved 300,000 light-years away.

Along the way, I also saw all kinds of intelligent races, and all kinds of incredible racial customs.

Of course, all of this is just taking a look, Su Lang will not waste time in these places.

at this time.

Ahead, a large swath of treasure hunting flying flying gliders determined their direction and flew forward again.

Su Lang is also preparing to dispatch a clone to move on.

But at this moment!

"Where did the little bug come from? How dare you stop in Lao Tzu's way!"

A loud shout came, and the terrifying great emperor-level aura descended, crushing hundreds of thousands of treasure hunting flying flying flying flying to death in an instant!

"Ok?"

"Who is not so long-eyed?"

Su Lang frowned in an instant, and a dangerous light spurted from his eyes!

Immediately after.

He saw a man with triangular eyes flying from a distance, falling to the ground, kicking the treasure hunting flying flying corpse on the ground with his toes.

"strange."

The triangular-eyed man was surprised, "Some little bugs without spiritual power have reached the level of the emperor in a faint speed!"

Soon.

He picked up a treasure hunting flying flying corpse from the ground, intending to study it on the spot. suddenly.

"Chapter Triangle, put it down."

A faint voice came.

"who!?"

Triangular eyes heard someone calling his name, he was shocked, and he turned his head and saw Su Lang whose face was as deep as water.

At this time, Su Lang still maintained the state of swallowing the clone, with the terrifying breath of Quasi-Supreme Emperor lingering in his body.

"Quasi Supreme Emperor!"

"Within the territory of our Qixiao Palace, when did the supreme Emperor come in!?"

"It doesn't matter, the Emperor Quasi-Supreme is not something I can provoke, I can only bow my head to my ears..."

The triangular-eyed man named Zhang Sanjia was under the pressure of Su Lang's aura and his hair was standing upright, shouting danger in his heart, and immediately decided to admit counsel.

then.

"Honorable senior!"

"The junior is the deacon of Qi Xiaodian. I offended you. Please forgive me!"

Zhang Sanjia was full of flattery, nodded and bowed down and put down the treasure hunting flying flying corpse in his hand, "Junior, let it go, the junior, let it go..."

But the closer the flying squirrel corpse in his hand is to the ground, the more dangerous Zhang Triangle feels.

However, he didn't dare to disobey Su Lang's order, he could only continue to put down the flying squirrel corpse in his hand.

"call.....!"

Zhang Sanjia carefully let out a sigh of relief, and completely put down the treasure hunt flying flying corpse.

And at this moment.

A mysterious and terrifying force of causality is surging, and instantly wipes out Zhang Triangle!

"Ding! You have the Soul of the Great Emperor*1, Daojing of the Great Emperor*1, Life Universe*1, and the Superior Xianyuan*985689..."

"Pooh!"

"Dare to kill me the treasure hunting flying flying fly, really tired of living!"

Su Lang looked at Zhang Sanjiao's corpse coldly, and spit in disgust, smashing it into meat.

[Chapter 1440: Who dares to kill him in my place!](#)

After hearing the system prompt, Su Lang disgusted even more.

This product is also a five great emperor at any rate, and there is only less than one million superior immortal sources, so poor!

After killing Zhang Sanjiao, Su Lang continued to send his clone to rush forward.

at the same time.

"Ok!?"

In the Qi Xiao Palace, the Great Emperor Zhunwei Huowu looked surprised.

Because he discovered that through the soul fire, his subordinate Zhang Triangle suddenly fell!

"Zhang Triangle is dead?"

"I just sent him to do something, why suddenly he died? Who would dare to kill him in my place!?"

The eyes of Emperor Huowu were full of resentment, and his bright red hair almost stood up because of his anger.

And at this moment.

"Enlighten your Majesty the Great Emperor Huowu!"

A great emperor flew over and knelt outside the door: "The subordinates just discovered that many unfamiliar Five Great Emperors suddenly appeared in the Western Territory!"

These people actually look exactly the same, and the leader is a Quasi-Supreme Emperor!

The subordinates guessed that those five great emperors should be the clones of the supreme emperor!
"

Originally, the Great Emperor Huowu was in anger. Seeing that his subordinates who came to enlighten him were so reckless, he wanted to vent his anger.

But after hearing the information reported by his subordinates, he suddenly looked surprised.

"A quasi-superior emperor appeared in our sphere of influence!?"

"But the surrounding allies, Emperor Shanxi, Emperor Xuanxiao, and Emperor Kunyu have never mentioned this person. Could it be that he appeared out of thin air!?"

The Great Emperor Huowu was surprised, "Could it be that he is a quasi-Godless powerhouse from the boundless universe!?"

Thought of this.

The astonishment on Emperor Huowu's face suddenly turned into surprise, and a greedy light spurted from his eyes!

The natural resources of the exile are barren, and the martial artist's cultivation basically depends on penance. Even the master of a big power does not cherish the resources much.

But people from the Boundless Universe are different. Compared with the warriors in the Exile, the warriors of the same level in the Boundless Universe are about a hundred times richer.

This is a heart-pounding wealth!

Moreover, based on the information brought back by his subordinates, the quasi-superior emperor also possesses a rare avatar technique, which can create multiple emperor-level avatars!

This level of clone art is definitely the top emperor level, and it may even be a godless secret art!

Compared to those wealth, the Great Emperor Huowu valued the clone secret technique more.

Once he gets that clone secret technique, he can definitely increase his combat power!

In addition, in addition to various training resources and rare secret techniques, the corpse of a warrior who has turned into Godless Grade is an extremely rare treasure.

In a place of exile lacking all kinds of materials, the body of warrior is a great material for building weapons!

If there is a person with advanced refining knowledge, he can even create a weapon of the same level with a corpse of a warrior!

"Hum hum!"

The Great Emperor Huowu was greedy and cruel, "If you dare to kill my subordinates, then I will take all of you!"

"Enlighten your Majesty the Great Emperor Huowu!"

The emperor who reported the letter reminded, "When his subordinates came to report, the quasi-no-god-class was constantly shifting positions and was about to leave the Qixiao Palace site soon!"

"what?"

Emperor Huowu's face sank slightly, "Which direction has he gone!?"

"Go north!"

The Emperor Reporter replied, "At this time, it is estimated that the territory of Emperor Shanqi is almost approaching!"

"Damn it, how could it be so fast?"

"It's too late for me to intercept now."

"He will definitely enter the territory of Emperor Shanxi!"

The emperor Huowu frowned, and immediately took out a jade plaque dedicated to the exile:

"Anyway, I will fight him alone. It's better to unite with the other three to kill this emperor of the boundless universe!"

Thought of this.

The emperor Huowu immediately sent the message!

The three powers of the Great Emperor Shanxi, Emperor Xianxiao, and Emperor Kunyu who were 500,000 light-years away in Qixiao Palace received the message immediately.

"what!?"

"A quasi-superior emperor is about to enter my territory?"

"This person is Huowu's enemy. He wants me to help intercept and kill, and give a generous return afterwards?"
