[Chapter 1451: Please call me the director!](#)

Oh my god.

This third clone is also a pervert!

He has inherited such a powerful savvy talent, and can create the original emperor-level technique alone!

You know, even a godless power can not necessarily create the original emperor-level technique!

"Hahahaha!"

"Okay, great!"

"You can rest assured, Fellow Daoist, I won't kill you just with your savvy talent!"

"From now on, you will be by my side to comprehend the practice for me, and I will give you the glory and wealth of your life!"

The Great Emperor Shanqi picked up the "Secret Technique of Three Transformations, Three Body, Three Lives" and took a cursory look, his dark complexion disappeared completely, and an old face was about to laugh!

At first glance, he found that this exercise was indeed the same as the one he had heard of. Kunyu turned the deity into three independent clones.

Therefore, he is already convinced that Su Lang has completely become these three clones, and there will be no more fish in the net.

And when Emperor Xiao Xiao and Emperor Kunyu saw the bright and relaxed smile on Emperor Shanxi's face, they suddenly guessed it and smiled.

at the same time.

The great emperor Shanqi and the other three were also very emotional.

These three differentiated clones are so abnormal.

Then, how amazing the deity before the split is! ?

Quasi-no-god-level refining skills, quasi-no-god-level alchemy attainments, can create various emperor-level exercises, comprehend countless rules and condense countless avenues...

Such a character, if it weren't very unlucky to meet them and cause half-way death, I'm afraid it is all right to be promoted to Godless level!

After sighing, I was deeply grateful.

Fortunately, they 'killed all of Su Lang', otherwise it would definitely be ugly.

Of course, they don't know.

From the moment I caught my avatar, all my encounters were directed by Su Lang!

They were controlled by Su Lang in the heart of the feet from beginning to end!

At this moment.

The three people including the Great Emperor Shanxi were shocked by the clone captured by the other party, and were quite satisfied with the clone captured by themselves.

Now that everyone is more satisfied, the spoils-sharing conference is over.

"Emperor Shanxi, Emperor Xun Xiao."

The Great Emperor Kunyu laughed and said, "Now I have to take fellow Taoists back to familiarize themselves with the new environment, how about the two?"

"Me too!"

"Just go back and ask fellow Taoists to refine some pills for me."

Great Emperor Xun Xiao also had a cheerful expression, "If you two want medicinal pills, you can bring resources to come to me for a deal."

"I'm going back too."

"You have to come to me sooner if you want exercises."

"Don't wait for me to practice all these techniques, you won't dare to choose."

The Great Emperor Shanxi smiled contentedly, "Also, let's divide the territory of the Great Emperor Huowu into three and divide it equally."

"Okay, that's it!"

Emperor Xun Xiao and Emperor Kunyu nodded at the same time.

At this time, they had harvested two extremely cherished captives, and they didn't care much about the territory left by Emperor Huowu.

Immediately after.

The three pretended to say goodbye to each other, and then took their captured Su Lang clone and flew to their lair.

Seeing this scene, Su Lang didn't come out immediately, because he knew that the three emperors were all mature men.

Although they are already very convinced that the three clones captured so far are all of Su Lang.

But they will never be careless!

really.

Although the Great Emperor Shanxi and the others flew away, their mental power had been scanning the battlefield crazily.

Even the Great Emperor Xian Xiao turned around and returned to the battlefield, and there was an all-round bombing!

Fortunately, the Soul Chasing Emperor Palace has been upgraded with the materials of the void chamber, and the concealment ability is strong enough, and the bombing of Emperor Xian Xiao has no effect at all.

Wandering in place for a while.

The Great Emperor Xun Xiao couldn't bear the temptation of the pill, so he took the second avatar sent by Su Lang and left.

The Great Emperor Shanxi and the Great Emperor Kunyu who had been observing secretly saw this and finally turned and left.

None of the three who left knew.

Their every move has been seen by some very humble flying squirrels.

In the battlefield.

Su Lang stayed in the Soul Chasing Emperor Palace, sneered at the three people who left.

Using the "Secret Technique of Three Transformations, Three Body, Three Lives", he successfully tricked the three emperors into the game, playing around.

And this time.

The three emperors have dispersed, and carrying his clone avatar, which is equivalent to carrying an anchor that can be teleported at any time.

The opportunities to break one by one have gradually matured! !

[Chapter 1452: Dedication of Emperor Huowu](#)

but.

Su Lang did not act recklessly immediately.

Instead, continue to wait, waiting for the end of the time limit for swallowing clones, waiting for the swallowed clones to cool down again!

During this process.

Su Lang did not stop searching for the three daughters of Chu Xiaobei.

His remaining thirty-odd avatars and countless treasure hunting flying flying gliders are still advancing frantically, looking for the unknown three daughters of Chu Xiaobei.

Simultaneously.

Su Lang also used this time to count the spoils obtained by killing Emperor Huowu.

First, it is a martial spirit of the quasi-superior emperor's rank, and second is the emperor Daojing and the universe of life.

In addition, there is a broken defensive Great Emperor's Army to resist the sky wall.

In the end, there are less than 20 million high-quality fairy sources, various materials, and two emperor-level secret techniques "Randeng Dafa" and "Netherworld Dragon Vein Heaven".

Su Lang first took out the Quasi-Godless Martial Spirit.

This martial soul is already different from the ordinary Emperor Wu and even the soul of the Great Emperor.

It has turned into a misty, smog, with a small golden crystal on the center of the eyebrow.

"This is the soul of the emperor whose soul and body are perfectly integrated."

"Most of the souls in the broken nirvana have been integrated into the body, that is, the smoke-like part."

"And that small golden crystal is probably the remaining part after the emperor body is perfectly integrated into the emperor soul."

"This part should be used to integrate into the universe of life, but unfortunately there is too little to embark on the path of soul fusion."

"This is one of the reasons why it is difficult for the vast majority of soul-body fusion emperors to step on the path of soul-space fusion."

"At the quasi-no-god level, the soul has become a huge obstacle to the promotion of warriors."

"It seems that I still have to strengthen my soul a lot, and practice some new exercises to train the soul. The previous exercises are no longer good."

While thinking about it, Su Lang put the quasi godless soul into the storage space while taking out the second treasure, the life universe of Emperor Huowu.

After being perfectly plundered, the life universe of Emperor Huo Wu also turned into a miniature version of the life universe sand table model.

But compared to the ordinary life universe, it is not only larger, but also brighter, and the aura emanating from it is more perfect.

Obviously, during the long years, the Great Emperor Huowu has made great efforts to grow and develop his life universe.

"open!"

With a thought, Su Lang opened the universe of life and sent a clone to come in.

Suddenly.

An extremely huge planet appeared before his eyes.

This planet is huge, with a diameter of only 20 light-years, much larger than the dark star!

In addition, the Great Emperor Huo Wu actually created thirty pure fire-system avenue satellites for this planet.

They are like thirty red moons hanging in the sky, and like thirty little suns.

"It's not small."

A tick in the corner of Su Lang's mouth, the 30 little fire-type suns alone are equivalent to at least 300,000 fire-type avenues!

Looking at the planet of life, there are also treasures of various attributes.

Many of them are even rare treasures of rules that Su Lang has never seen before.

Su Lang glanced over and made some rough statistics.

With the addition of the 30 little suns in the sky, the total number of treasure lands has reached more than 2.3 million!

But Su Lang was not very surprised about this, but had expected it.

Rule treasures can be cast manually.

As long as the power of the great avenue is used to cultivate ordinary land at all times, after a very long period of time, ordinary land will gradually become a treasure.

It's not that this treasure in the universe of life was cultivated by Emperor Huowu.

But in the land of exile, countless warriors grow, kill, and fall one by one.

Throughout the ages, they have grabbed land from the land of exile to create their own universe of life. After death, if there is no accident, the land will return to the land of exile.

The treasure they cultivated was inherited by future generations.

In the long river of time, the warriors cultivated more and more treasures, and the later ones inherited more.

Most of the treasures in the life universe of Emperor Huowu were not forged by himself, but ready-made!

[Chapter 1453: Quasi-no gods against the sky wall](#)

"Tsk tsk."

"Just a quasi-no-god-level can harvest so many treasures."

"It seems that I will come to the place of exile, and at least I will be able to perfect the Shifang Life Universe!"

Su Lang looked at the super-giant planet slowly rotating, and a satisfied smile appeared at the corner of his mouth.

Immediately after.

He once again sent a large number of avatars, used the Baiying avatars to become more than three thousand great emperor-level avatars, and began to frantically explore the treasures of the universe of life.

Because all the creatures on the planet of life have been squeezed to death by Emperor Huo Wu crazy, they have not encountered any unnecessary resistance.

Let the shadow clones dig out the treasure.

Su Lang put the Life Universe aside, and took out the third trophy, the Great Emperor Dao Jing.

This great emperor Dao is crystal clear, with extraordinary Dao rhyme, and a large number of rules anomalies are triggered when it appears.

"It seems that the great emperor Huowu has a lot of power."

"The basic rules of the world have basically condensed the avenues, and the remote rules have also condensed some avenues."

"If you look at it roughly, you can see that there are at least hundreds of avenues in it, far surpassing my 130."

"In addition, there are many rules for comprehension. There are more than 1,500 in total that have not yet condensed, and they are about to approach me."

"These old guys can't be underestimated, they are even comparable to me who owns the system!"

Su Lang sighed, the secret path quasi-no-god-class should not be underestimated, and the true no-god-class boss can't easily provoke him.

Immediately, Su Lang put the Great Emperor Dao Jing aside.

This thing is a great treasure for ordinary warriors, but it is useless to him.

Immediately after.

Su Lang brought the fourth treasure in front of him, that is, the broken Emperor-level defensive imperial soldier, the wall to resist the sky!

Repelling the sky wall, nine great imperial soldiers, square transparent shields, with extremely strong defensive power, especially good at large-scale defense.

But under Su Lang's fierce attack, it had already broken a big hole.

The big hole runs through the front and back of the Great Emperor's soldiers, and the surrounding area is covered with dense cracks, like bulletproof glass shattered by bullets.

However, the Heaven-Repelling Wall was not completely broken, and part of the spirit was still left, and it was already in a state of chaos.

"A wide range of defensive weapons."

Su Lang frowned slightly, and after hesitating for a while, he decided to repair the Great Emperor's soldier.

After all, his Tianjia eight-sided shield can only be regarded as a small range of defense imperial soldiers, which is not suitable in certain application scenarios.

If there is a large-scale defense of the Emperor's soldiers, it can be considered as prepared.

Moreover, Su Lang searched all of Yuan Sanlin's possessions, and there was no shortage of materials at all, and there was no need for decomposition.

"System! Repair and evolve the Repelling Wall!"

After making up his mind, Su Lang immediately issued instructions to the system.

"Ding! Consume the soul of Emperor Wu*1000, the crystal of Emperor Qingguang*1000, the celestial demon soul*1000, the bone of Emperor Xuanlei*2000...The evolution of the Heavenly Wall is the supreme Emperor soldier!"

Wow!

A burst of light flowed from the surface of the wall.

The original dilapidated Heavenly Wall was suddenly renewed, like a piece of the most perfect crystal!

Its defensive power has also been upgraded from the Ninth Great Emperor to the Quasi-Godless Level, which can defend against ordinary Quasi-Godless attacks at the highest level, and it also adds a new blockade and seal function.

If it is a relatively powerful existence in the quasi-no-god-level realm, such as Su Lang who bursts out various secret techniques after using the Devouring Clone, it will probably be completely broken if it can't stop a few times.

Of course, this defensive emperor soldier Su Lang was only used as a spare, he was more inclined to use the eight-sided shield.

"Jutian Wall Tool Spirit, can't come out yet!?"

Su Lang stared at the Jutian Wall and said indifferently.

"Jutianqiang pays homage to your lord!"

"Thank your lord for the grace of regeneration, the virtue of regeneration!"

Jutianqiang's spirit came out immediately, "From now on, adults are the rebirth parents of Xia Slaves, and Xia Slaves will follow life and death with no two intentions!"

The spirits are the same size as ordinary people, and the transparent edges and corners of the body are made of crystal, and there are no men and women.

It knelt before Su Lang with a trace of tension and excitement, and bowed his head to Su Lang in the most respectful and sincere manner.

[Chapter 1454: Void dragon vein heaven secret method!](#)

In fact, it came out the first time to thank Su Lang.

The reason why it didn't come out in the first time was because it was completely shocked by Su Lang's magical refining methods!

To know.

It was not created by Emperor Huowu, but also passed down from ancient times.

At the beginning, it was just an emperor soldier, and it has been in the hands of countless warriors in many hundreds of millions of years. After the promotion of countless refiners, it gradually reached the level of the nine great emperor soldiers.

Especially after reaching the emperor level, every promotion is extremely difficult, and the time of a cycle of exile is difficult for it to be promoted once.

But now.

Su Lang actually promoted it to the quasi-superior emperor level he dreamed of in an instant. This is really dreamy and incredible!

Originally, it still had some resentment for Su Lang's crushing it, but now any resentment has disappeared, and his heart is completely full of shock and excitement.

It has already decided that it must hug Su Lang's thighs and protect Su Lang desperately in battle!

"Ok."

"I'll give you a name, Shutian."

"As long as you are loyal, there will be opportunities for promotion in the future."

"Not to mention promoting you to the godless level, at least being in the forefront of the quasi godless level is not a problem."

Su Lang looked down at the Guardian Wall Qi Ling at his feet, and said calmly.

"Yes!"

Jutian kowtow again, "The servant's loyalty to the Lord will never regret and never move!"

"Don't just speak nicely, but just look at your performance."

Su Lang waved his hand gently and put the Jutian Wall into his sleeve, making him self-defense.

Next.

Su Lang brought the fifth treasure, two great emperor-level secret techniques "Burning Lamp Dafa" and "Netherworld Dragon Vein Heaven".

Burning the lamp Dafa.

It is the great emperor-level secret technique that the emperor Huowu madly urges when he is dying to struggle.

Holding the thick burning lamp Dafa books, Su Lang read it roughly and quickly grasped the general information.

Using the light-burning method once, you can directly fill the blood with blue and restore the peak state.

But using this secret technique is very special. It does not consume energy such as Emperor Yuan, Qi and Blood, but directly consumes Shou Yuan!

This kind of consumption is like the consumption of mana to cast a spell, and it cannot be said to be a side effect.

Therefore, Su Lang's function of 'spit out the old and accept the new' cannot be eliminated.

"Very powerful secret technique."

"Unfortunately to me, it's totally tasteless."

Su Lang curled his lips and put this secret technique aside.

Immediately after.

Su Lang took the second secret technique to the "Netherworld Dragon Vein Celestial Realm".

After reading it roughly, Su Lang's eyes lit up.

Because this is a very special incense technique, it not only includes a more efficient incense collection system.

It can also make great use of the incense willingness without being contaminated by the incense.

In fact, using incense without being contaminated by incense, Su Lang can do it with the Avenue of Incense.

It's like using the incense avenue to ingest the negative incense power to torture Xi Kejia.

But this is only the simplest and most basic application.

After practicing "Netherworld Dragon Vein Heaven Realm", you can use the incense aspiration power in another way to a deeper degree.

The specific form of utilization is to establish a high-efficiency incense collection channel 'dragon veins', and use dragon veins to collect incense power to create a special incense world.

This world is all made up of incense aspiration power, incense aspiration power is omnipotent, it is uncertain, it can change in the world, forming all kinds of magical energy.

These endless magical energies are, to another extent, the power of an alternative world!

When this incense world grows to a certain level, it will not be inferior to the life universe of the warrior!

It's even worse!

Of course, practitioners cannot directly use these special world powers.

The last step is needed to turn this incense world into a special weapon with the methods in "Netherworld Dragon Vein Heaven"!

Yes, the world is a weapon!

When the Great Emperor Huowu fought Su Lang desperately before, he used three hole cards at a time, one of which was an evil incense sword that exuded endless filthy desire.

[Chapter 1455: Your happy time is over](#)

Sword of evil incense.

It is the incense weapon created by Emperor Huowu with "Netherworld Dragon Vein Heaven"!

The power of this evil incense sword is very terrifying, and it is by no means an ordinary quasi-no-god-level can resist, and because it is made of incense willingness, it is impossible to prevent.

If Su Lang had not possessed Zihua Hengsha and Undead Emperor Sutra, and had been completely hit by the sword of evil incense, he would definitely have to die for half his life!

"This exercise is amazing."

"It just so happens that I have been troubled by the incense aspiration power, so I can practice this technique and create my own incense imperial soldier!"

Su Lang nodded in satisfaction, and immediately decided "Netherworld Dragon Vein Heaven" as one of the exercises for the next practice.

As for the "Randeng Dafa", it is naturally shelved.

In addition, even though Su Lang had already possessed nine non-synthetic emperor-level exercises, plus these two, he had reached the number of eleven.

But he would not use these two exercises to synthesize Godless-level exercises.

First of all, "Burning Lamp Dafa" is driven by the consumption of life, which is its foundation and is difficult to change.

If it were to synthesize Godless-level techniques, it is likely to inherit this.

Then for Su Lang, the synthesized godless-level exercise method was abolished.

"Netherworld Dragon Vein Heaven" is the same, its foundation is after all the changeable incense power.

If the synthesized godless-level exercises had to be contaminated with incense aspiration power, it would also be useless for Su Lang.

In order to be safe, Su Lang intends to exclude these two exercises from the list of approved methods.

"Anyway, there are three quasi-no gods waiting for me to hunt."

"From their hands, no matter how many great emperor level exercises can be obtained!"

"At that time, let's see if there is a suitable technique for synthesis."

Su Lang thought silently, and put "Ran Lantern Dafa" and "Netherworld Dragon Vein Heaven" into the storage space.

Finally, his gaze fell on the harvested fairy source and materials.

I won't talk about the materials, there is nothing commendable.

There are not many Xianyuan, all converted, there is only about 20 million high-quality Xianyuan.

"Tsk tsk."

"You can't even upgrade a system function."

"The quasi-no-god level of this exile is really poor, not even one-sixth of Yuan Sanlin's."

Su Lang complained that the resources contributed by the emperor Huowu were too small, while depositing it into the system balance.

And at this moment.

The time limit for devouring the clone has also arrived.

The aura on Su Lang's body began to weaken drastically, and gradually fell to the level of the Six or Seven Great Emperor.

Seeing this scene at the Jutian Wall hidden in Su Lang's sleeve, although he was surprised, he didn't think much about it.

It still stared at the surroundings intently, ready to run out to defend against attacks.

This is much better than Tianjia's eight-sided shield.

The fellow Ajia was too timid, he was terribly scared of an attack, and he played supernormal if he didn't run away.

Although it will be hit by an attack even if it escapes...

"When Emperor Kunyu is killed, he will take back the Eight-sided Shield of Heaven to evolve."

"Maybe you can add some materials to change that guy's timid character."

Su Lang thought silently, then took out the cauldron and materials, and began to refine the parts of the super humanoid weapon.

Although Su Lang's combat power limit has reached the quasi-no-god level.

But he can still feel that once the super humanoid weapon is built, it is absolutely no small thing!

Therefore, Su Lang will not give up refining super humanoid weapons.

Time passed slowly.

The clones swallowed in an instant have all cooled down.

"Oh."

"Emperor Kunyu, Emperor Xun Xiao, Emperor Shanxi, your happy time is over!"

Su Lang grinned at the corner of his mouth and put the materials, cauldron, and newly refined parts into the storage space.

Soon.

He looked towards the mysterious black space.

After this period of savings, the cultivator became golden again, and he didn't know how much cultivation base he had accumulated.

"It should be enough to condense some avenues."

Su Lang licked his lips and gave instructions to the system, "The system, activate the 'Power of the Great Dao' function, and give me the power of the Great Dao!"

"Ding! The rules of Sha have been successfully condensed!"

"Ding! The rules of sorrow have succeeded!"

"Ding!....."

[Chapter 1456: I don't know who killed who!](#)

The system prompts swish, and suddenly dozens of regular avenues are condensed!

In addition to the previously condensed regular avenues, Su Lang controls 180 types of avenue power!

This has improved Su Lang's strength a lot!

"Properties panel!"

[Name]: Su Lang

[Race]: human

[Qualification Level]: Turbidity

[Realm level]: Quasi-Great Emperor

[Attack level]: Seven Great Emperor +

[Defensive Level]: Seven Great Emperor

[Shenfa Level]: Seven Great Emperors

[Endurance Level]: Seven Great Emperor

[Spirit Level]: Realm of Broken Nirvana

[Mastering the exercises]: The Infinite Heart Sutra, "Ten Thousand Laws into One: Unnamed" (Great Emperor Level, Founding)

[Activated system functions]: One-key training function (level 40), one-key training function (level 39), clone dispatch function (level 38), one-key treasure hunting function (level 38)...one key Empowerment function (17 levels), one-key decomposition function (no levels)

"Not bad!"

"Half a small realm improved in all aspects!"

Su Lang grinned, "Next, it's time to grab orders!"

Immediately after.

Su Lang immediately used the perception sharing function to link to the avatar in the hands of Emperor Kunyu, waiting for the opportunity to replace the avatar.

In a vast sapphire plain.

Exquisite and clear blue jade is everywhere, paved the beautiful blue jade plain.

And this plain is the lair of Emperor Kunyu!

"Hahahaha!"

"Great, great!"

"Unexpectedly, this Nine Great Emperor Soldier has such extraordinary characteristics, and it can catch any attack that approaches it!"

Emperor Kunyu's cheerful laughter came from a blue palace.

If you listen carefully, you can hear it, the laughter is mixed with a timid cry.

That's right, it was Tianjia's Eight-Edged Shield's Spirit Ajia who exclaimed.

The Great Emperor Kunyu is experimenting with the Eight-Led Sky Shield, using various methods to attack the Eight-Led Sky Shield to see if it really has such a magical function.

Obviously, the Tianfang Eight-Edged Shield 'behaves' very well, and Emperor Kunyu is very satisfied with the Tianfang Eight-Edged Shield!

"Friend Shuiliang Daoist."

"The eight-sided shield of Tianjiao that you built is really the best in the defense of emperor soldiers, you are so talented!"

The Great Emperor Kunyu retracted the eight-sided shield of Tianjiao, stroking it lovingly, and said to the incarnation of Su Lang standing nearby.

Shuiliang, split by the word "lang", is the name of Emperor Kunyu who is casually perfunctory by this incarnation.

But Emperor Kunyu's attention was all on the eight-sided shield of the sky, he did not notice that Shui Liang had a slight pause, and he had already become the deity of Su Lang!

"Humph!"

"Of course!"

Facing the likes of Emperor Kunyu, Su Lang was not modest at all.

After all, there is no need to be humble for a dying person!

But Emperor Kunyu didn't think much of Su Lang's arrogance. In his opinion, people with ability should be so arrogant.

"Hahaha."

"Shuiliang Daoist is true temperament!"

"And I don't like winding around!"

"It's not that I spent most of my life saving up some materials, and I also asked fellow daoists to help me build an attacking imperial soldier."

Emperor Kunyu laughed, "Well, at least it has to be the Nine Great Emperor Soldiers. It would be more perfect if there were no God Soldiers."

After speaking, Emperor Kunyu looked at Su Lang lightly with a playful smile on his face.

In his opinion.

This quasi-godless master crafting master has been choked by his fate, and he has no worries about the other party not agreeing.

however.

An unexpected thing happened.

"No, I refuse."

Su Lang dismissed a smile, raised his chin, and pointed his nostrils at Emperor Kunyu.

"Haha."

"Friends of Taoist don't be kidding me."

"All the materials are here. Dao friends can figure it out. As long as the weapon level is high enough, I can accept any characteristics."

The Great Emperor Kunyu thought that Su Lang was just being self-willed, and he laughed disapprovingly.

He also took out all the materials he had collected for most of his life and handed them to Su Lang.

"Ha ha."

Su Lang sneered, "This material also wants to build a quasi-no **** soldier? You are just dreaming!"

"Fellow."

"You don't want to be too tight."

Emperor Kunyu's face sank, "The reason why I keep you is because you are still useful, otherwise I will kill you immediately."

"kill me!?"

"Hahahaha, I don't know who killed who yet!"

A sneer of enchantment appeared at the corner of Su Lang's mouth, and his body was also filled with murderous intent, as if he had walked out of a sea of blood in the dead mountain.

He wouldn't waste time talking nonsense with Emperor Kunyu.

Using the time of this conversation, Su Lang has determined that there is only the quasi-godless emperor Kunyu within a radius of hundreds of thousands of light years.

However, Emperor Shanxi and Emperor Xun Xiao couldn't rush over in a short time.

Not only because of the road, but also because of their two incarnations with Su Lang's avatars delaying time!

[Chapter 1457: And you are just prey!](#)

But Emperor Kunyu knew nothing about this.

In his opinion, Su Lang is now an ant that will die with just one click.

The Great Emperor Kunyu was really unbelievable, Su Lang actually dared to talk back to him like this!

"Shuiliang Daoist!"

"You are no longer the Supreme Emperor!"

"You have to be self-aware and see where you are."

"You are my captive and my slave. You have to do whatever I ask you to do. Don't toast or eat fine wine!"

Emperor Kunyu stared at Su Lang with cold eyes, a trace of murderous aura spreading.

"Hahahaha!"

"Emperor Kunyu, times have changed."

"Now, I am positioned as a hunter, and you are just a prey!"

Su Lang smiled coldly and directly swallowed thirty-five clones, and urged the Heavenly Wall in his sleeve.

In a flash.

In the incredible eyes of Emperor Kunyu.

The sky-repelling wall rushed into the sky and turned into a sky, sealing off the entire Sapphire Plain!

Su Lang's aura has risen from the Seven Great Emperor to the Quasi Godless Level!

Moreover, the combat power achieved by using the Devouring clone was higher than the previous time.

All attributes have reached the [quasi-no-god level+], which has exceeded the quasi-no-god level where most souls and bodies are perfectly integrated!

"How can that be!?"

"How could you burst out with such great power? What kind of secret technique is this!?"

"Furthermore, you actually own the Jutian Wall! And you are promoted to the Godless Jutian Wall! What is going on!?"

The unprepared Emperor Kunyu was stunned and dumbfounded, and at the same time a rare fear rose in his heart.

It is really hard for him to imagine that a Seven Great Emperor could explode with a quasi-no-god-level combat power, and it is not an ordinary quasi-no-god level!

Su Lang has a quasi-no-god-level resisting wall, which also makes him feel unbelievable.

Because that was the weapon of Emperor Huowu, and it was broken when he saw it with his own eyes.

At this time, not only was it intact, but it was also promoted to a quasi-no-god soldier, which is incredible!

And just when he was horrified and fearful.

"Shifang universe, the power of the world!"

"Kunlun is invisible, hidden scales hunt west!"

Without any hesitation, Su Lang immediately launched the strongest assassination method!

I saw that the ten major life universes in Su Lang burst out of the power of the world, making a new round of increase in combat power.

In addition, Kunlun Intangible and Hidden Scale Xishou raised their body skills to an incredible level of quasi godless level.

Attack power also rose again under the influence of Hidden Scale Nishikari.

In the attribute panel, the two attributes of Su Lang's attack level and body skill level have reached the level of [quasi-no-god level++]!

In the face of Su Lang's powerful aura.

"At this level, I can't resist, or even escape!"

"Why, why is he so strong? This is totally unreasonable!"

The Great Emperor Kunyu stood upside down instantly, his scalp was about to explode, his whole body was like falling into an ice cave, despair filled!

Of course.

As a quasi godless class, he couldn't be so scared.

Instinct has already driven Emperor Kunyu to spread out all the trump cards that can be activated!

"The power of the world! Incense initiation!"

"Escape the cicada! The jade and stone are burned!"

However, Emperor Kunyu completely broke out the power of the universe of life.

Including the life planet and all the creatures living on it, all energy and vitality have been completely extracted!

In addition, endless incense and desire power leaked from the universe of life, madly pouring into the emperor's body of Emperor Kunyu.

at the same time.

The emperor Kunyu's body was divided into two, and a small piece of sapphire separated from the body and concealed into the void.

The remaining quasi-superior emperor's body immediately launched a self-destructive attack!

Under all kinds of utterly desperate means, Emperor Kunyu also exploded with a combat power far beyond normal.

Especially the trick of 'burning jade and stone'.

Directly sacrifice all the flesh and blood of the soul, mixing the power of the terrifying world and the power of incense that has accumulated countless years.

Its power has surpassed the same desperate Emperor Huowu at that time!

However, compared to Su Lang, he is still a step behind!

Especially the body method, the difference is too far!

No matter how powerful it is, if it can't hit the target, it will be in vain!

[Chapter 1458: Kill Emperor Kunyu](#)

Huh huh!

Su Lang disappeared from the place, and when he reappeared, he had avoided the emperor's body left by Emperor Kunyu, and pierced the blue jade hidden into the void with a sword.

Click!

There was clearly a broken sound, which was mixed with screams that were hard to find.

Immediately after.

A piece of broken sapphire appeared from the air, covered with cracks, just like a broken sapphire.

In the sapphire, there is a villain transformed by a soul whose figure, profile, and face are exactly the same as those of Emperor Kunyu.

"No, don't kill me!"

"Please don't kill me, I know I was wrong!"

"..."

The villain's face showed deep regret, panic and despair, like a poor and helpless drowning dog.

"Hidden scale hunts west, the heart is absolutely no edge!"

Su Lang turned a deaf ear to Emperor Kunyu's begging for mercy, and instantly activated the Hidden Scale Xishou with a long sword without any edge.

Stabbed!

The tip of the Bladeless Longsword hit the broken sapphire, and a condensed horror spirit force penetrated into it fiercely.

"what--!!"

"No, no, I don't want to...!"

Emperor Kunyu let out a screaming scream, then the sapphire was completely shattered, and the scream stopped abruptly!

"Ding! You have obtained the Soul of Quasi-Supreme Emperor*1, Emperor Daojing*1, Life Universe*1, Emperor Bingyuhua Tianling*1, Superior Xianyuan*18585624..."

The system prompt came, representing that another quasi godless class fell in Su Lang's hands.

At this time, the power of the self-destroying emperor's body completely exploded, and the terrifying power poured down towards Su Lang, like a giant wheel rushing to a mantis!

"Kunlun is invisible!"

Su Lang didn't even think about it, and immediately avoided.

Although he can use the Universal Annihilation to annihilate it, there is no need to do so.

In a flash.

Su Lang suddenly left the blue jade plain.

The sky curtain formed by the Jutian Wall still enveloped the entire blue jade plain. Without Su Lang's order, it would not dare to leave at will.

And Su Lang did not plan to remove the Jutian Wall.

Because he wanted to cover up this huge movement so as not to disturb the other two rabbits.

Rumble!

The horrible explosion sounded like two planets colliding into one.

In the sky curtain formed by the Jutian Wall, an endless stream of energy swept and rolled, destroying all objects.

The smoke billowed, the light was dim, and everything instantly turned into powder!

Even the space is constantly distorted and broken one after another, forming small holes.

Immediately, the small holes are connected together, and they become super huge spatial holes!

The beautifully landscaped sapphire plain has turned into a bottomless super giant pit, and a blue star is more than enough.

But Jutian Wall was struggling to endure this terrifying power, and there were cracks in the sky.

"No, I can't give up!"

"This is my first time to play, and I must have good enough performance!"

"Even if I die, I won't take a step back!"

The Heavenly Wall Qi Ling had reached its limit, but still refused to take a step back.

Su Lang saw his tough will.

"The mind is okay."

"However, if you continue to carry it like this, it is estimated that you will waste it again."

"The Great Emperor Kunyu has accumulated a lifetime of strength, which cannot be carried by an ordinary quasi-godless weapon."

Su Lang's expression remained unchanged, and his figure stepped on the sky screen formed by the Jutian Wall.

Immediately after.

A stream of sheer innate congenital energy blended into the sky, helping the Heavenly Wall to resist the explosive power inside.

"The master is here to help me!"

The Heavenly Wall Tool was moved and more energetic!

Under the joint suppression of Su Lang and Jutianqiang, Emperor Kunyu's death blow was finally annihilated.

"Come!"

Su Lang waved gently, and Jutianqiang immediately returned to its original shape and fell into his hands.

Although there were a lot of cracks in the canopy, its body is still intact and does not need to be repaired.

After the rejection of the wall.

Su Lang didn't mess around at all, and directly used perception sharing to link to the clone incarnation of Emperor Xian Xiao.

I saw that Emperor Xiao Xiao was making Su Lang's clone incarnation to refine the pill, a kind of medicine he dreamed of.

"This is the material."

"Friends, you have to be careful, don't ruin it!"

Emperor Xiao Xiao handed the alchemy materials he had collected so hard to Su Lang's avatar, his eyes full of tension and expectation.

This pill is one of the key items for him to step into the avenue of soul fusion, and it is extremely important to him!

[Chapter 1459: Slay Emperor Yaoxiao again](#)

"Damn!"

"Don't worry!"

Su Lang instructed the avatar to say, "I will definitely refine these materials into the most perfect pill!"

"Hahahaha!"

"I believe in Fellow Daoist, because Fellow Daoist is the most powerful alchemist I have ever seen!"

Emperor Xiao Xiao laughed happily. He was already fantasizing that he would get the pill to take a step further, and then he was slamming the scene of dominating the wild.

Taking advantage of Emperor Xiao Xiao's illusion, Su Lang immediately concealed his breath and used the clone to replace it.

The Great Emperor Xian Xiao didn't know that the alchemy master sitting in front of him had changed people.

In his opinion, sitting in front of him is still his prisoner.

Therefore, he did not deliberately observe Su Lang mentally.

Just then.

Su Lang grinned and smiled faintly: "But well..."

"But what!?"

Great Emperor Xun Xiao was taken aback, and his smile narrowed slightly.

"but."

"The refined medicine is not yours, but mine!"

Su Lang had discovered that there was only one person around him, and he suddenly showed a cold and cruel smile.

"your!?"

Emperor Xun Xiao's smile completely disappeared, "Are you joking, fellow Taoist!?"

"joke?"

"You are not qualified to make me joke."

Su Lang sneered, "Emperor Xiao Xiao, today is your death date!"

The voice just fell.

The Repelling Wall flew out again, turning into a sky curtain and blocking a radius of 100,000 miles!

"Rejection Wall!?"

"Why do you have a Repelling Wall!?"

"Isn't that the defensive imperial soldier of Emperor Huowu?"

"No, this Heavenly Wall is different, it's a quasi-no **** soldier!"

Like Emperor Kunyu, Emperor Xuan Xiao was also shocked when he saw the Jutian Wall, completely puzzled.

But immediately, the Great Emperor Xian Xiao showed a sneer: "Friends, do you think that with this Heaven-repelling Wall, you can fight against me!?"

I advise you to put out this little thought early and practice alchemy for me steadily. As long as I am happy, I will not treat you badly! "

"Use Jutian Wall to fight against you?"

"Hehe, that was just to prevent your screams from leaking out and disturbing the third rabbit."

Su Lang sneered again and again, and suddenly launched an attack!

The same is the power of the world and various secret arts exploded at the same time, raising the attack power and body speed to an abnormally abnormal level!

Rumble!

With Su Lang's attack, a powerful aura spread, instantly destroying everything around him!

And Su Lang's attack had directly reached the front of Emperor Xuan Xiao.

"what!?"

"This level! How is this possible!?"

Great Emperor Xun Xiao faced Su Lang's sudden and powerful attack, and his brain went blank.

Of course, like Emperor Kunyu, he also had countless combat experience, and instinctively activated all his hole cards.

The power of the world, the power of incense, and all kinds of explosive secret techniques were all performed together, which made Emperor Xian Xiao's combat power crazy.

It's a pity that his desperate means are not even as great as Emperor Kunyu, and he can't even break out the power that makes Su Lang have to temporarily avoid the edge.

Su Lang just pierced his sword with all the means of Emperor Xuan Xiao!

The powerful innate qi, the turbulent rules of the great road, the deadly heart without a frontal mental power attack, directly kill it!

"Ding! You have the Soul of the Supreme Emperor*1, the Daojing of the Great Emperor*1, the Universe of Life*1, the Seal of the Great Emperor's Bingxiao Wanfeng*1, and the Supreme Xianyuan*20384731..."

"too weak."

Su Lang pulled a sword, put Xin Jue Wu Feng and Jutian Wall away, and continued to use the third avatar incarnation of the perception sharing link.

Compared with the first two avatars, the treatment of this third avatar is miserable.

Because comprehending the exercises is a very private thing, and it is easier to do tricks compared to alchemy.

Therefore, the Great Emperor Shanxi was forcing Su Lang's avatar to surrender his soul.

And also use various methods to monitor the thinking of the avatar!

The soul heart fire thing, the clone incarnation as a complete warrior, there are also.

But it is impossible for the avatar to hand it over, even if it is to kill them.

[Chapter 1460: I think about it](#)

"You just say to pay or not to pay!?"

"Anyway, I have got those exercises."

"The big deal is that I practice slowly by myself, I can cultivate to this level, and my understanding is not bad!"

"I only give you one last chance. If you don't give up your soul, then go to death!"

The Great Emperor Shanxi looked at the incarnation of Su Lang with a calm expression, his face was as black as the bottom of a pot.

He never expected that he would be so disobedient if he obediently handed over a large number of prisoners who cherished the practice.

"This....."

"You let me consider it alone."

Su Lang instructed the avatar to say.

While talking, Su Lang looked at Emperor Shanxi and decided to try if he could subdue him.

After all, he now needs to swallow the clone to reach the quasi-no-god-level. If there is a quasi-no-god-level bodyguard, it would be much more convenient.

"Humph!"

"Remember, this is the last chance!"

The Great Emperor Shanqi snorted, then picked up a Great Emperor Level exercise technique and read it.

At this moment, he really wanted to practice all the exercises he got immediately.

Taking advantage of the great emperor Shanxi was fascinated by exercises.

Su Lang immediately concealed his breath, replaced the clone with the clone avatar.

"Okay, I think about it."

Su Lang looked around, his cold gaze fell on Great Emperor Shanqi.

"Ok!?"

"So fast?"

The Great Emperor Shanqi had just been immersed in the practice, when he was disturbed by Su Lang at this time, he was a little unhappy.

"Yes."

"I'm thinking about it."

"It's okay to surrender your soul."

Su Lang smiled faintly, "However, it is not me who handed over, but you!"

"presumptuous!!"

The great emperor Shanxi was not very happy at all, and at this moment, after listening to Su Lang's words, his anger instantly went up and down.

"The presumptuous person is you!"

"Who allowed you to yell in front of me?"

"I only give you a chance. If you don't cherish it, you will end up just like Xian Xiaokunyu!"

Su Lang slowly stood up, two quasi-superior-level souls appeared in his hands, it was the souls of Emperor Xian Xiao and Emperor Kun Yu!

"You are simply looking for...what!? This is the soul of Xian Xiao and Kunyu!? This is impossible, this must be fake!"

"After the fall of a quasi-no-god-level, it is impossible to leave a soul!"

"Even normal sitting is impossible, because the quasi-godless soul is already integrated with the body!"

"What's more, you have always been under my nose, where are you going to deal with Xian Xiao and Kunyu!?"

"Hahahaha, little bug, you dare to use small tricks to deceive me, you are really bold."

"Since you are so uninterested, don't blame me for killing you. Although I am also very distressed, I don't want to keep you as an uncontrolled fellow!"

The Great Emperor Shanxi was shocked and unbelievable at first, and then he filled up a lot of thoughts, and showed a thick sneer and killing intent.

"Sorry, I forgot to forget that your knowledge is too shallow and your knowledge level is too low."

"You don't believe the two souls of Quasi-Supreme Emperor are real, so, what about these two things?"

Su Lang showed a playful smile and took out the weapons of Emperor Kunyu and Emperor Xian Xiao.

Respectively Yuhua Tianling and Xian Xiao Wanfeng Seal!

As soon as the two great soldiers came out, the great emperor Shanxi was thunderous and dumbfounded!

"Yuhua Tianling!"

"Xiao Xiao Wanfeng Seal!"

"These two treasures are the emperor soldiers of Kunyu and Xian Xiao, how can they be in your hands!?"

"Could it be that you really killed them!?"

"No, it's impossible. You have been divided into three by using the three-transformation, three-body and three-life secret technique, and were taken away by the three of us. It is impossible to merge into one!"

"So, you can't kill Xian Xiao and Kunyu!"

"What's more, even if those two clones really kill Xian Xiao and Kunyu, how can the spoils they get will fall into your hands!"

"False, this must be false, this is your illusion!"

The Great Emperor Shanxi's eyes widened, and he staggered back two steps in disbelief.

"Is it an illusion? You should be very clear."

"How I killed Xian Xiao and Kunyu, I didn't bother to explain to you, the world is so big, there are too many things you can't understand."

"Now, you are the only one of the four who chased me. Whether you want to follow in their footsteps is all up to you."

Su Lang smiled faintly, "Come on, tell me, do you choose to surrender or die!?"
