

One Click 1461

[Chapter 1461: Immortal Dream Flower Great Emperor Dan](#)

The voice did not fall.

Su Lang's breath burst out suddenly, covering the Great Emperor Shanqi!

"There is no **** class!!"

"And more powerful than before!!"

The Great Emperor Shanxi couldn't help opening his mouth wide, and his chin was about to fall.

Under Su Lang's powerful aura and mysterious methods, and stimulated by the deaths of Huowu, Xianxiao, and Kunyu, the Great Emperor Shanxi was so timid without a fight!

The violent heart palpitations made the Great Emperor Shanxi cold all over, his hair standing upside down, as if he was facing death!

"Speak your choice."

"Be my running dog, or be my dead soul under the sword!"

Su Lang sneered again and again, holding up two Souls of Quasi-Supreme Emperor, "Just like them!"

Looking at the two souls of the Great Emperor.

The great emperor Shanzi trembled slightly.

Although among the four, his combat power faintly occupies the first place.

However, it was only a little better than the other three.

Fighting alone, he couldn't kill any of the three of Huowu, at most he could defeat him.

But Su Lang is different.

The previous combat power alone can kill one person in a four-person siege, and then use secret means to kill two people one after another!

And this time.

Su Lang Bao issued even more terrifying combat power!

This is absolutely not something that the Great Emperor Shanxi can resist!

but.

The Great Emperor Shanxi is not reconciled!

As the ruler and master of a territory with a radius of tens of millions of light years, he has long been accustomed to the life of a human being.

To be someone else's running dog, he simply cannot accept it!

And at this moment.

"The Great Emperor Shanxi."

"Remind you, after becoming a running dog, you can get a lot of bones."

"For example, this kind of medicine can make it easier for the Great Soul Fusion Great Emperor to step into the Great Soul Fusion Great Emperor."

"There are other bones, I won't say much, I will remind you of this."

"After ten breaths, if you still don't surrender, then go to death with your dignity and pride."

Su Lang took out two quasi-no-god-level pills and shook them in front of Emperor Shanqi. They were made from alchemy materials collected by Emperor Xiao Xiao.

This kind of pill is called "Wu Shen Meng Hua", Su Lang refined five, which can greatly increase the soul power of the warrior.

A great emperor with soul-body fusion, one of the big reasons why it is difficult to step into the path of soul-space fusion is that the soul-body fusion consumes too much soul power, resulting in insufficient soul power during soul-space fusion.

After quasi-no-god-level consuming the "Wuji Dream Flower", the soul will swell and increase, and the soul power will increase, and the difficulty of entering the path of soul fusion will be reduced.

It can be said.

Wu Gu Meng Hua Dan possesses unparalleled temptation for every great emperor whose soul and body are perfectly integrated.

The Great Emperor Shanxi is no exception!

In fact, it has been a long time since his soul and body have merged perfectly, but he has been unable to step into the path of soul fusion.

As if this life has come to an end, that feeling is desperate.

And now, the dawn of the road ahead has appeared.

If it retreats, it would be an abyss of ten thousand meters wide, and there is still a demon with its mouth wide open below it, and it will almost certainly die if it falls into it.

Moving forward requires a huge price, but you can continue to live and may get huge benefits.

After several hesitations.

In Su Lang's playful smile, the Great Emperor Shanqi still made a choice.

Without any words, he closed his eyes, sealed his unwilling gaze in the darkness, and forced his soul out.

"Haha, this is yours."

Su Lang hooked the corner of his mouth and threw the Chinese medicine out of his hand.

The Great Emperor Shanqi caught the two pills, and a thick surprise and eagerness appeared in his heart, which even dilutes his unwillingness and resentment a lot.

Immediately after.

The idea of escaping appeared in the mind of Emperor Shanqi.

As long as he flees with these two pills, he will definitely be able to step into the path of soul and universe fusion, and gain complete personal freedom!

But the question is, can you escape?

The Great Emperor Shanxi did not escape in the end. He closed his eyes and threw his soul to Su Lang.

After doing this, deep bitterness and regret suddenly appeared in the heart of the Great Emperor Shanqi.

A quasi-no-god-class who ruled tens of millions of light-years in a radius, chose to become a servant running dog!

This kind of thing is really touching.

Of course, Su Lang didn't sigh, and the quasi-great emperor-level servants were not absent. Yuan Sanlin had already set the stage.

Besides, being Su Lang's slave is not a bad thing.

[Chapter 1462: The second quasi godless servant](#)

"I know you are very unwilling now, very regretful, very painful, and very resentful."

"But, you can immediately become a very happy, very happy person."

Su Lang played with the soul of the great emperor Shanqi and collected it into the world of knowledge, with a slight smile on his face.

When the Great Emperor Shanxi heard this, his whole body trembled, feeling that something was wrong.

Immediately after.

Su Lang dispatched all clones and clone avatars, activated Baiying clones, and transformed them into 4,100 six great emperors.

"Oh my God!"

"This, this, so many clones!"

"And... all of them are at the emperor level!"

The Great Emperor Shanxi looked at the dense 'Su Lang' in front of him, almost immediately stunned.

He knew that Su Lang was mysterious and powerful, but he never expected that Su Lang could have so many clones!

In the eyes of Emperor Shanxi, this level of avatar technique must at least be at the godless level!

The Great Emperor Shanqi who had this idea trembled all over, and some of the unwillingness and resentment that had originally existed in his heart dissipated for the most part, as if he had encountered the grease stains of detergent.

Seeing that he had just summoned the avatars, Su Lang had completely frightened the Great Emperor Shanqi, and couldn't help but raise his mouth slightly, revealing a touch of playfulness.

Immediately after.

"Santa, remember to give up all resistance."

Su Lang smiled faintly, and immediately launched the Mingguang Ten Thousand Realms!

The four thousand one hundred Six Great Emperor clones also expanded the Mingguang Ten Thousand Realms at the same time.

In a flash.

The extremely bright light burst out, and all fell on the body of the emperor Shanqi.

An extremely comfortable feeling hit the whole body, and the great emperor Shan Qi almost exhaled a breath of invigoration.

But he soon felt something was wrong.

The seemingly comfortable light was actually eroding his mind and distorting his thinking.

Let him become a true slave of absolute obedience from the spirit!

The Great Emperor Shanxi had to resist instinctively, but he immediately saw Su Lang's cold eyes.

Then, he touched the two Immortal Dream Flower Great Emperor Pills in his hand, and sighed in his heart.

"Never mind."

"Anyway, the main will will not be lost, but there is a master who must be loyal."

"Such a result is even better than most of the emperors who took the incense path and were eroded by the incense aspiration."

"It may be a good thing to be the servant of this mysterious lord. Maybe I will be promoted to Godless one day in the future."

"..."

While comforting himself, the Great Emperor Shanxi completely gave up all resistance.

At this time.

The light of Mingguang Ten Thousand Realms was able to truly penetrate the body and mind of the Great Emperor Shanxi, transforming him into Su Lang's most loyal servant.

Time passed slowly.

With the active cooperation of the great emperor Shanxi, Su Lang took him into a slave with a lot of effort.

"The lower servant knocks on the Lord!"

The Great Emperor Shanxi had a gentle expression, kneeling in front of Su Lang respectfully, just like Yuan Sanlin before.

"You will continue to call Shanxi from now on."

"Santa, hand over all the treasures and exercises on your body, I have great use."

Su Lang looked at his second quasi godless servant, and gave the instructions lightly.

"Yes, Lord!"

The Great Emperor Shanxi immediately executed the order and took out all the treasures he had accumulated for hundreds of millions of years.

Suddenly, a lot of treasures appeared in front of Su Lang, piled into a real giant mountain.

"All right."

"Next I will leave here."

"Now go and clean up, and clean up the three sites of Emperor Huowu and theirs."

Su Lang nodded indifferently, "I will send a clone to help you and give you half an hour, can you do it?"

"can do it!"

The Great Emperor Shanxi knocked his head to lead his orders and went straight down with the clone sent by Su Lang.

I believe that with his leading the way, the main wealth among the four major forces cannot escape.

After the Great Emperor Shanxi went down.

Su Lang's gaze fell on the treasure piled up in front of him.

The collection of Emperor Shanxi is a little better than the other three quasi-no-god-levels, but it is only in large quantities and not much better in quality.

There are not many high-quality Xianyuan, only 20 million.

The only commendable ones are the two exercises and a quasi-no-god soldier.

[Chapter 1463: Xiaoyou still has to work hard](#)

On the surface, the curtain is like a black scarf, there is nothing special.

But it is a quasi-no God soldier with powerful concealment ability, and it is difficult for anyone at the same level to see its disguise.

Su Lang is one of them, but he has to scan carefully with micro-mystery to see the clues faintly.

The most important thing is that you can move without affecting the concealment state after concealing with the curtain.

This is something that Soul Chasing Emperor Palace cannot do.

"The level is quite high."

"It's a pity that the functions of the Soul Chasing Emperor Palace are somewhat duplicated."

"Test this guy first, if you have a bad attitude, kill him."

Su Lang thought silently, and then tapped the curtain with his finger, "Little guy, come out and meet your new master."

The curtain did not respond.

So Su Lang poked the curtain again with his finger.

"Who do you call the little guy."

"The old man has lived for tens of billions of years, how old are you!?"

"To use the power of the old man, you have to show respect to the old man."

The curtain shivered slightly, and a long-bearded grandfather appeared with an unhappy and helpless face.

"Yo."

"You are so old-tempered."

Su Lang raised his eyebrows, revealing a sneer.

"The old man has a good temper."

"In a place of exile where materials are scarce, which quasi-god soldier has no temper?"

Closing screen Qi Ling sneered, "If we are unhappy, is it not a matter of getting the master to death by doing tricks during the battle?"

"hiss!"

"This is more than a bad temper!"

"It's all about riding on the owner's head to **** and pee!"

Su Lang sneered even more, "Also listen to your tone of voice, killing the master, you did not do less, right?"

"Humph!"

"The old man is already a real creature."

The curtain snorted coldly, "If you don't get along with the old man on an equal footing, and use the old man as a tool all the time, it will be difficult to predict the end."

"Tsk tsk."

"It really has a temper."

Su Lang kept tweeting, "You know what, what I hate most is that you are a dead old man with a bad temper."

"Humph!"

"A mere child who dares to be so arrogant, he has never seen the world before."

Closing Shaker Ling shook his head and said, "Well, since you don't like me, and I don't like you, then you can find me a new owner in exchange for some resources."

"Find you a new owner?"

Su Lang ticked the corner of his mouth, "No, no, no!"

"how?"

The old man Qi Ling sneered, "I compromised you!?"

"What's the compromise?"

"I won't find you a new owner, because you will never have a new owner anymore, you are going to be silly!"

Su Lang grinned, showing a malicious smile.

Immediately after.

He used the one-click decomposition function!

"what?!"

Closing Blind Ling only felt a life-and-death crisis, and instantly frightened and desperate, and wanted to ask for mercy.

unfortunately.

Su Lang had already sentenced him to death!

One-click decomposition starts, and the curtain ends only before it can make a scream before being broken down into various materials.

"Ding! You get the Soul of the Great Emperor*3, the Soul of the Emperor Wu*10000, and the Soul of the Wuxian*100000...The Emperor-level material Xuan Chi Yueyu Stone*500, the Xuanguang Magic Stone*1000... ..Emperor-level materials, Yuanli Yuanjing*1000000..."

"Haha!"

"These are called babies!"

"What's the matter with a screaming and clamoring tool spirit."

Su Lang looked at the pile of advanced materials in front of him, and couldn't help but smile with joy.

"The material is really getting more and more!"

"Next, use these materials to upgrade my weapons!"

Su Lang licked his lips and took out his own weapons and treasures, including Youtian Sword, Jiexian Cannon, Xin Jue Wu Feng, and Tianjia Eight-Edged Shield.

"Wow haha!"

"Master, you finally let me out!"

"Why did you just let me out for a while, and then stuffed me in again!?"

"Master badass, Xiaoyou misses you so much, does Master miss Xiaoyou?"

"The master probably didn't think about Xiaoyou. After all, there are so many big beauties outside, Xiaoyou can't use it, why does the master miss me?"

"Hey, Xiaoyou still has to work hard to become a usable Xiaoyou!"

"..."

As soon as Youtian Sword appeared, Xiaoyou, a beautiful girl in black robe and white skin, ran out and talked a lot, chatting a lot.

Although Su Lang had been mentally prepared for a long time, he couldn't help but twitch his mouth.

[Chapter 1464: Quasi-no God Soldier Youtian Sword](#)

"Okay, stop talking nonsense."

Su Lang patted Xiaoyou on the head, "It would be terrible if a river crab beast was brought in to eat us."

"What is a river crab beast?"

Xiaoyou suddenly asked with a dazed expression.

"It's a monster that specializes in eating old drivers."

Su Lang smiled, "It's a crooked question, get back to business, you stay obediently, I want to upgrade for you."

"Oh~~"

"But, what is the old driver~"

"..."

Xiaoyou's face was unclear and violent, and she looked in a trance.

But Su Lang has already begun to prepare various materials.

He had used the system just now and learned the materials needed to upgrade Xiaoyou to Quasi-Godless.

Although Su Lang was very wealthy at this time, he not only scoured Yuan Sanlin's wealth, but also killed four Quasi-Godless in the Exile Lands.

But Xiaoyou is not an ordinary weapon. To upgrade her, she must spend some very special materials.

And a lot of quasi-no-god-level materials are needed.

Some of these materials are not available in Su Lang, so I can only try it slowly with the one-key synthesis function.

Fortunately, there is no cooling time limit for one-key synthesis and one-key decomposition, and it can be used many times instantly.

Therefore.

Su Lang was able to gather the materials to upgrade Xiaoyou in a very short time

—There are more than 30,000 kinds, including all kinds of materials from the imperial level to the quasi-no-god level!

"system!"

Su Lang, who had prepared the materials, grasped the hilt of the Youtian Sword, "Only retain the current characteristics, and evolve the Youtian Sword into a quasi-no **** soldier!"

"Ding! Consumes the soul of the supreme emperor*1, the soul of the emperor*5, the soul of the emperor*10000, the soul of the Wuxian*50,000, the emperor-level material heaven and earth white keel*100, the soul broken purple feather cream*100, yin Green Rainbow Light Stone*100, Promise Breaking Yuanyu*200...

Youtian Sword has evolved into a quasi-no **** soldier! "

I saw a burst of brilliance sliding across the body of the Youtian Sword.

"Ah~"

"So amazing, so amazing, Xiaoyou has become stronger!"

In Xiaoyou's exclamation, Youtian Sword turned pure jet black from beginning to end.

Only the two motionless eyes at the sword grid maintained their original colors.

In addition, there is also a cold streamer circulating constantly on the black blade, which is very strange.

Naturally, Xiaoyou, the weapon of Youtian Sword, had undergone some changes.

Xiaoyou was originally the image of a beautiful young girl.

Wearing a loose and delicate black robe, it contrasts sharply with the white and delicate skin.

At this time, her image has not changed much, but her whole person looks more real.

In the past, no matter how exquisite it was, it was transformed by the spirit of the instrument, and there was a sense of emptiness.

But now, it gives people a very real feeling, as if standing in front is a beautiful girl with flesh and blood.

"It seems to be evolving from a spirit creature to a physical creature!"

Su Lang looked up and down Xiaoyou, nodding constantly while watching.

"Master~"

"Does the master want to use Xiaoyou?"

"But Xiaoyou doesn't know if she can use it now, does the master want to try it?"

Seeing Su Lang looking at herself, Xiaoyou suddenly blushed on her face, and she whispered something 'unintelligible'.

"okay."

"I do not know what you're talking about."

Su Lang rolled his eyes, and then, regardless of Xiaoyouqi's bulging mouth, turned his attention to the body of Youtian Sword.

While only retaining the current characteristics, the Youtian Sword has not added new functions.

It still has the three characteristics of "breaking defense or death", "slashing the gods" and "indestructible".

But these three characteristics have been strengthened to the extent that they are not the same!

Even if it is a quasi-no-god-level, if Su Lang breaks through a trace of defense, then it will be announced.

Just like the Great Emperor Huowu, if Su Lang had a quasi-no-god-level Youtian sword in his hand, he would never have been struggling for that long.

"The best weapon is back!"

Su Lang stroked the sword body of Youtian Sword, showing a satisfied smile.

Xiaoyou immediately answered, "The master hasn't used Xiaoyou yet, how do you know that Xiaoyou is best to use!?"

"Uh....."

Su Lang rolled his eyes, and immediately put Xiaoyou into the storage space.

But Xiaoyou seemed to have discovered Su Lang's intentions and quickly begged for mercy: "Master, no, no, Xiaoyou is already out of breath.

Don't stuff Xiaoyou into that dark world anymore, Xiaoyou promises not to talk nonsense! "

[Chapter 1465: Ah Jia and Li Xinjue](#)

Hear this.

"Then let you stay outside."

Su Lang moved for a while and said, "But don't forget what you said."

It is indeed the cruelest punishment to keep a conversation in a closed space alone. Su Lang feels that he still has to treat Xiaoyou a little bit better.

"Good, good!"

"Xiaoyou loves her master the most, Mu!"

Xiaoyou was very happy when he got Su Lang's answer.

But she didn't dare to speak any more, and immediately returned to her body obediently.

The two eyes at the sword grid began to turn steadily in an instant, extremely flexible.

"It's naughty."

Su Lang smiled and threw it to his left hand to hold it.

then.

Su Lang took the Tianjia eight-sided shield in front of him.

The characteristics of this shield are very powerful, but the level is slightly lower, which makes it difficult to use it in the previous quasi-no-god battle, because it can't hold the power of the quasi-no-god.

Therefore, it is time to upgrade it now.

"Ah Jia."

"I will upgrade you again today."

Su Lang tossed the small black round shield in his hand, and said, "I hope you can be bolder in the future, and don't be so timid."

"Yes...Yes, master!"

Qi Ling Ajia cautiously replied tremblingly.

"Ok."

Su Lang nodded slightly, "The system, only retains the current characteristics, upgrades the Heavenly Eight-Edged Shield to a quasi-no **** soldier!"

"Ding! The soul of the Great Emperor*1, the soul of Emperor Wu*2000, the soul of Wuxian*10000, the empty cicada plum blossom gold*200, the carved bone **** wind ice*100, the fire sun ridge jade*200, the purple sun silent stone*200."

"Ding! Tianjia's eight-sided shield has evolved into a quasi-no **** soldier!"

A brilliance flashed on the small black buckler.

Immediately afterwards, the quasi godless breath came from the sky above the eight-sided shield.

"The defense ability has reached the level of quasi-no-god!"

"Moreover, it is stronger than the defense ability of the Tianqi Wall, that is, the defense range is not large, and it can only defend 100% against attacks with a radius of 100 meters."

Su Lang nodded slightly, and then called out Qi Ling Ah Jia again.

"Ajia pays respects to the master!"

Ah Jia's black misty body seemed to be firmer, but still hazy.

In addition, he was rickety, cowering, and looked alive as a coward.

"It seems you are still so timid."

Su Lang curled his lips silently, "Forget it, because of nature, I won't blame you."

Talking.

Su Lang put the Tianjia eight-sided shield into the storage space.

"Next."

"The heart has no sharp sword."

Su Lang took the black long sword without the edge in front of him.

Xin Jue Wu Feng is as dark as Youtian Sword.

But Youtian Sword at least has a blade, this guy doesn't even have a blade, just a black stick with a handle.

Moreover, after Yuan Sanlin's first battle and the previous quasi-no-god-level battle, only the Six Great Emperor Soldier's Heart Jue Wufeng had been severely damaged.

The body of its sword was covered with a lot of cracks, as if it would break when touched.

"Apparatus spirit."

Su Lang stretched out his hand and patted the blade of Xin Jue Wufeng.

"Li Xinjue pays respects to the Lord!"

The spirit of Xin Jue Wufeng flew out and knelt in front of Su Lang.

This was the first time Su Lang saw Xin Jue Wufeng's spirit, slightly surprised.

Because it actually looked exactly like Li Qijue, with white hair and red robe, very handsome.

"Li Xinjue."

"Have you changed like Li Qijue?"

Su Lang raised his eyebrows: "It looks like you and Li Qijue have a deep relationship."

"Return to the Lord, yes."

"Wufeng was created by Li Qijue himself, and he has grown from an immortal weapon to a six great imperial soldier."

"Li Qijue was seriously injured and unable to recover for a short time, and was unable to fight with the Lord, so let Wufeng work for him."

Qi Ling Li Xinjue knelt in front of Su Lang, saying every word in a sonorous tone.

"Haha."

"I get what you meant now."

Su Lang smiled faintly, "Although you agree that I am your master, in your heart, you are more willing to be held in Li Qijue's hands, right?"

"Return to the Lord...Yes."

Li Xinjue trembled slightly, he knew that he was angering Su Lang, and he was very likely to be disintegrated in the end.

It's like Ming Hong weeping, it's like closing the curtain!

[Chapter 1466: Upgrade JXian Cannon](#)

"I know."

"Don't worry, I admire you very much and won't kill you."

Su Lang nodded slightly, he knew that the reason why Li Xinjue was like this was mostly similar to his own characteristics.

The characteristic of Xin Jue Wu Feng is that it can condense the spiritual power of the Kongni realm, gather together, and cause a terrifying mental attack on the enemy.

This requires that the weapon spirit of the weapon possesses extremely tough and unimaginable willpower in order to obtain all the spiritual power that bears the empty space.

Therefore, Li Xinjue's mentality is exceptionally tough, which is normal and is determined by his characteristics.

Moreover, Xin Jue Wu Feng is a weapon made by Li Qijue himself, and of course it is more suitable for Li Qijue.

It seems that Youtian Sword and Su Lang are the best match.

At this time, Su Lang used Xin Jue Wu Feng, just as a transitional spiritual weapon.

"Xinjue Kudos to the Lord for mercy!"

Li Xinjue was let go by Su Lang and was immediately very grateful.

"Just as you said."

"You, fight with me for Li Qijue!"

"After returning to the boundless universe, I will let you return to Li Qijue's hands."

Su Lang smiled, "Next, I plan to help you get promoted, how about?"

"Wufeng is grateful!"

Qi Ling Li Xinjue kowtowed his gratitude, "I will die for the Lord, even if my body is broken and the catastrophe is over, I will never regret!"

"I believe you."

Su Lang smiled slightly and gave instructions to the system, "Keep the current characteristics, and promote Xin Jue Wu Feng to Quasi Wu God Soldier!"

"Ding! Consumes the Soul of the Great Emperor*1, the Soul of Emperor Wu*5000, the Soul of Wuxian*10000, the Great Emperor Grade Material Desperate Zhaotian Jade*100, the Heavenly Fallen Maple Heart*100, and the Soul Breaking Heavenly Jade*100..

Evolve into a quasi-no ***** soldier! "

A mysterious brilliance flowed by, and the severely damaged sword body of Xin Jue Wu Feng healed instantly, and a more fierce aura bloomed, which made people tremble at first glance.

At this level.

The body of Xin Jue Wu Feng suddenly became extremely tough, and would never be easily damaged again.

Its main feature-the ability to condense the spiritual power of the void state has also become stronger.

Not only that, the Xin Jue Wu Feng Long Sword also has an extra mental protection ability.

That is, its body can absorb the attacking mental attack, and cut off the connection between this part of the mental power and the attacker, so that it can not steal the chicken!

Xinjue Wufeng was promoted to a quasi-no-god weapon, and Li Xinjue, his weapon spirit, naturally got a huge improvement.

"Xin Jue Kow, thank the Lord for the grace of cultivation!"

Li Xinjue felt her own strength, and she was grateful, "He will fight for the Lord to the last moment in his life!"

Although his own characteristics made him the most suitable for Li Qijue, at this time he also completely accepted the weapon in Su Lang's hands.

What Su Lang was referring to was his goal to destroy!

"Since you have mental protection capabilities."

Su Lang smiled, "Then I will put you outside and do a good job of protection."

"Yes!"

Li Xinjue kowtowed, "I will live up to the Lord's expectations!"

Su Lang nodded slightly, and put the Xin Jue Wu Feng Long Sword around his waist.

At this moment.

With a sharp sword in Su Lang's hand and a bladeless sword at his waist, it became more and more like a sword repairer.

Next.

Su Lang brought the Jianxian Cannon in front of him.

"Fire~!"

The little dragon button Yuxi opened her dragon's mouth in front of Su Lang and shouted out her own mantra.

After being promoted to the Imperial Soldier.

The roar of the Jixian Artillery brought a mental attack effect, and it was not weak, which could create a very powerful deterrent for the same level.

If it was promoted to the emperor level, it must be a very rare emperor soldier.

"The other weapons have been upgraded, so I can't forget you."

Su Lang smiled faintly, and immediately issued a promotion order.

Suddenly.

A burst of brilliance flashed, and the Fenxian Artillery was upgraded frantically, directly promoted from the imperial soldier to the quasi-no **** soldier!

Su Lang used the weapon recognition function to immediately gain insight into various information about the JXian Cannon.

First of all.

Qi Ling has grown many times, but Lingzhi remains the same.

In addition, the function of the JXian Cannon itself has undergone earth-shaking changes.

Its base, Dragon Nest, has powerful defense capabilities, and can absorb the enemy's attack energy and turn it into its own use!

And it really inherited the powerful mental deterrence ability, which can carry out a strong mental deterrence to the warriors of the same level.

The most important thing is that every time it fires, it can perform a mental deterrent.

How fast is the JXian Cannon's attack speed, it can spray many times a second...

[Chapter 1467: Just counted three](#)

Therefore, mental shock can be said to be endless!

Although this kind of mental deterrence is not fatal, it can cause great distress.

In the quasi-godless battle, the slightest gap can turn the situation, and the continuous spiritual shock really cannot be underestimated!

"Tsk tusk, it combines attack, defense, energy absorption, and interference. It is simply the best auxiliary weapon."

Su Lang nodded in satisfaction, then put the JXian Cannon into the storage space.

Immediately, Su Lang took out the two Great Emperor soldiers.

They are the Yuhua Tianling from Emperor Kunyu and the Yinxiao Wanfeng seal from Emperor Xian Xiao.

These two great emperor soldiers have the Nine Great Emperor ranks, which are very good weapons.

However, these two weapons did not react at all in front of Su Lang, and they looked the same as the curtains, and there were opinions.

"Where is the tool?"

"If I can't count one, two, three, you are dead."

Su Lang frowned slightly, and a number popped out, "Three."

The weapon spirit of the two weapons was about to wait for Su Lang to count to two and ran out to beg for mercy, so that he would not appear too spineless or arrogant.

but.

They never expected that Su Lang would not play cards according to common sense at all, and directly counted three.

"He did it intentionally!"

The two Great Soldiers felt awkward in their hearts.

However, the two of them have been kept in the storage space, and they have not witnessed the tragic end of the curtain being broken down, so they are not very desperate.

But the next moment, making them palpitations and fear, the breath of panic and despair directly enveloped them!

"Ding! The decomposition is successful, you will get the Soul of the Great Emperor*1, the Soul of the Emperor Wu*5000, the Soul of the Wuxian*20000, and the Emperor-level materials..."

"Ding! The decomposition is successful, you get the Soul of the Great Emperor*1..."

With the notification of the system, the two Great Emperor soldiers were immediately broken down into various materials by Su Lang.

"Sorry."

"Who let me have enough quasi-no **** soldiers?"

"Besides, upgrading all kinds of weapons used too many materials, and they are out of stock. I feel very insecure."

Su Lang muttered a few words, and then happily scanned the materials obtained by decomposing the weapon.

These materials are all prepared for Youtianjian's promotion to Godless Soldier!

"Let's look at the exercises next."

Su Lang looked away from the material and took out the three exercises.

It was the great emperor-level exercises obtained from the emperors Xun Xiao and the Shan Qi.

The three exercises are named "The Record of Destroying the Great Luo Rong Soul", "Book of Nine Aggregates and Infinite celestial Body", and "The Diagram of Emperor Tiansha Wanlian".

Among them, "The Record of Destroying Da Luo Rong Soul" is a very evil secret technique.

Its function is to massacre creatures on a large scale, grab and swallow their souls, thereby accelerating the speed of their soul-body fusion.

Under normal circumstances, the less grievances of the creatures killed, the better the effect after swallowing.

Therefore, most of the exercises are used on their own believers, using all kinds of deceptions to make believers dedicate themselves, and they are still happy.

This exercise and the "Spirit Devouring and Casting the Devil's Scripture" by the origin demon emperor Wu Boruo are even more domineering and cruel.

But its effect is more direct and quicker than Wuboruo's exercises.

What's more, for a quasi-no-god class, the creatures in the universe of life are simply leeks, and one stalk will soon grow again.

of course.

Su Lang would not use this kind of evil technique, nor would he bother to use it.

Its biggest role is to be used as a synthetic material for godless level exercises.

Next.

Su Lang put aside "The Record of Destroying Great Luo Rong Soul", and brought the "Book of Nine Aggregates Infinite Body" in front of him.

This exercise was obtained from the great emperor Shanqi. It is a very orthodox great emperor-level practice exercise, which can be called grand and grand.

It is precisely because of this that there is nothing special about it.

Su Lang decided to use it as a synthetic material for Godless-level exercises.

The third exercise, "Tian Evil Ten Thousand Evil Refining Emperor", this is a great emperor-level body refining exercise that masters the avenue of evil spirits.

The principle is to use the evil spirit of heaven and earth as a catalyst to accelerate the speed of soul-body fusion, which was obtained from Emperor Xian Xiao.

This technique can be regarded as a slant sword, but there are no side effects. On the contrary, it will obtain many peculiar methods because of the evil spirit.

Of course, no matter how peculiar means, in the face of absolute power, there is no great use.

Therefore, Emperor Xian Xiao was easily beheaded by Su Lang.

[Chapter 1468: Back to the Basics](#)

"This "Ten Evil Ten Thousand Refining Emperor Picture" should also be used as a backup synthetic material."

Su Lang nodded silently, and then put all the non-synthetic great emperor-level techniques in front of him.

They are No See Xueyu, Great Emperor Sutra, Cast Body Melting Soul Record, Drinking Star Sea, Independent World, Huntian Combination with Human Figure, Devouring Spirit and Casting Demon Sutra, Wanhua Demon Body, and No Shackles.

As well as the Netherworld Dragon Vein Heaven Realm, Burning Lamp Dafa, Tiansha Wanlian Great Emperor Picture, World Extinguishing Da Luo Rong Soul Record, Nine Condensation Endless Celestial Body Book, Huaqing Shushuo Demon Axis, and Puwo Wuzhen.

Above, a total of 16 books!

Aside from the previous exclusions, Su Lang selected ten emperor-level exercises to synthesize the godless-level exercises.

They are the Great Emperor Sutra, Cast Body Melting Soul Record, Huntian Heren Picture, Tiansha Wanlian Great Emperor Picture, Nine Condensation Infinite Celestial Body Book, World Exterminating Luo Rong Soul Record, Huaqing Shushuo Demon Axis, and Pu Wo No trace, Wanhua Devil Body, independent world.

Most of them are soul-body fusion cultivation techniques, and only three are Great Emperor-level secret techniques.

"I hope to come up with a godless-level exercise that is unified."

Su Lang took a deep breath and gave instructions to the system, "System, start one-click synthesis!"

"Ding! After the synthesis is completed, you will get the Godless Grade Technique "Returning to Nature and Returning to One Godless Record."

Suddenly, a synthetic technique originally appeared in front of Su Lang, exuding a mysterious and obscure aura.

The technique of "Returning to Innocence Without God" was originally like a crystal ball.

But when you look closely, it gives people a feeling of change, which is very elusive.

"Return to nature."

"It is said that if a monk cultivates to a very high level, he will return to the basics, which seems to be true."

Su Lang nodded slightly before taking the crystal ball in front of him to check it carefully.

After just one glance, I felt dizzy, my soul tingling, and it was very uncomfortable.

"hiss!"

"It deserves to be a godless technique!"

"Even I can't bear such a strong mental power, other quasi-no-god-level people don't cry and cry?"

Su Lang took a breath, but didn't give up, but bit his scalp and began to ponder this godless level technique.

Even if you don't understand, you have to read them all!

Otherwise, there is no way to practice with the one-click martial arts function.

Time passed slowly.

Su Lang quickly scanned the "Return to Nature Without God".

Immediately after.

He also put out a lot of exercises, emperor level, immortal level, holy level.

Half of these exercises were obtained from Yuan Sanlin, and half were obtained from four people including the Great Emperor Shanqi. They were also collected by them for hundreds of millions of years.

At the level of the emperor.

Although most emperors will concentrate on soul-body fusion.

But the development of the universe of life is not ignored, and various exercises will be collected to comprehend the principles and principles.

Perfect rules can make their life universe more perfect, and there will be more powerhouses, which indirectly improves their strength.

The four people including the Great Shandi collected a lot of exercises in their lives, but they are still not as good as Yuan Sanlin on their own.

If all four people add up, it's almost the same.

After all, Yuan Sanlin is one of the big brothers of the Void Cult, and he has a large share of the resources of the entire Xinghai domain.

But the great emperor Shanxi and others are just the earth emperors who live in a corner of the exile.

At this moment.

Su Lang produced a total of 1,780 exercises!

These exercises have different levels, good and bad, but all correspond to the unfamiliar rules that Su Lang has not yet understood.

"One thousand seven hundred and eighty books!"

"If all this is understood, the number of rules I have understood can reach three thousand nine hundred, which is infinitely close to completion."

"Unfortunately, the eight great emperor-level exercises previously practiced will take some time to complete. I can only endure it for a while."

Su Lang greedily touched a lot of exercises in front of him, and then put them into the storage space.

Just then.

The emperor Shanxi is back.

[Chapter 1469: The battlefield a hundred years ago](#)

"The next servant worships the Lord."

"Fortunately, I have completely cleaned up the background of the four major forces."

He took the four quasi-no-god-level forces to accumulate many billion years of wealth, and knelt at the feet of Su Lang.

"well done."

Su Lang nodded slightly, and soon ingested the space treasure from the Great Emperor Shanqi.

Sweep away mentally.

It has been packed with various materials, and the quantity is so large that it can fill the Pacific Ocean!

Of course, these materials are all low-level materials.

Just kidding, there are four quasi-no-god-levels on the top, it's strange that the people below can keep the high-level treasures.

However, these low-level materials are also great treasures to Su Lang.

Who told him to have a key to synthesize this unreasonable abnormal function! ?

"Ok!"

"Really good!"

"I will reward you with a pill."

Su Lang smiled slightly and rewarded the Great Emperor Shanqi with an Immaculate Dream Flower Great Emperor Pill.

"The lower servant, thank the Lord for the gift!"

The Great Emperor Shanqi received the Great Pill happily, and banged his head three times with gratitude.

"It's over here."

Su Lang said lightly, "Next, leave here with me."

"Yes!"

Emperor Shanqi kowtow again.

Therefore, Su Lang took the Great Shanxi into the universe of life, and then gained the vision of a treasure hunting flying flying flying stray by sharing perception.

During the period when Su Lang fought against the four great quasi-superior emperors, killing three and dropping one, the treasure hunting flying flying flying far away.

Moreover, the treasure hunt flying flying glider at the forefront is very excited, it seems that he is about to find his target!

"Are you going to find it soon!?"

Su Lang had a premonition of this, and was slightly excited.

He continued to use clone dispatch and clone replacement, and soon arrived at the treasure hunting flying flying spot at the forefront.

Followed the treasure hunt and flying gliders for a while.

A huge battlefield relic appeared in Su Lang's field of vision.

This is a big city, equivalent to an imperial city on Canglan Star.

It can be seen from the dense ruins that this place was once prosperous.

But now, it has become a dead place!

There are tragic traces left by the battle everywhere, and the bones left by many warriors still exude a trace of spiritual power.

Treasure-hunting flying flying flying into the remains of the city, then hovering around, hesitating to leave.

"This...here is..."

Su Lang's heart squatted, his expression gloomy, "It's a battlefield for the dead, Chu Xiaobei and others...no, it won't!"

Take a deep breath.

Su Lang fully expanded his mental power and began to scan the entire city with the mysterious method.

The city was full of dense bones, and Su Lang didn't let it go, scanning frantically.

quickly!

Su Lang was shocked because he found a special skeleton.

There is a small blue crystal on the brow of this skeleton, which is the corpse of Wu Sheng of the Yaochi Saint Clan!

"They really experienced a life and death battle here!"

"It looks like it was more than a hundred years ago, when they first fell into exile."

Su Lang took a breath and continued scanning the battlefield after a while.

Gradually.

He found more and more skeletons of Wuxingtian guarding Wusheng.

There are Yaochi Saint Clan, Chiri Clan, Qiu Shui Clan... very many, reaching tens of thousands!

"This number is probably all the Five Elements Heaven Guarding Martial Saint."

"Could it be that the Five Elements Heaven Guarding Saint Martial Arts has all fallen here!?"

"They must have encountered an overwhelming enemy!"

Su Lang thunderously thundered, trembling all over, his eyes were dark, and his spirit was slightly tranced.

But at this moment.

"Squeak!"

"Squeak!"

The treasure hunting flying flying gliders seemed to have found new clues, and they gathered together and moved on in a certain direction.

Seeing this scene, Su Lang couldn't help but shocked!

"Yes!"

"There is no corpse of Chu Xiaobei and others here, that is to say, at least they did not fall here."

"I hope they escaped!"

Su Lang's eyes lit up, only to feel that the willows were in the dark, and he immediately followed the treasure hunt and flew away.

of course.

The flowers at this time were still not very clear, but at least Su Lang saw a glimmer of hope.

Under the condition that the two functions of Treasure Hunting Flying Flying Drifting and Duplicate were used repeatedly, Su Lang spanned a large area in a short time.

Even if he met some guys who didn't have long eyes on the road, Su Lang didn't bother to care about it.

At this time, his heart was full of eagerness, and he couldn't care about anything else.

And just when Su Lang was so anxious that he wanted to destroy the world.

[Chapter 1470: What happened outside](#)

"Squeak!"

A treasure hunting flying glider stopped.

Then another treasure hunting flying fly stopped.

Immediately afterwards, all the treasure hunting flying flying flying stopped, hovering in the empty mid-air, squeaking non-stop.

"Stop it again!?"

Su Lang's heart tightened, he was afraid that he would see the bones of Chu Xiaobei's three daughters.

However, such a thing did not happen.

He found nothing.

"Nothing at all?"

Su Lang only felt dizzy and dizzy, "Could it be...could it be that his body was broken!?"

this moment.

It was as if 10,000 poisoned knives had been inserted in his heart, and he was still constantly agitating.

That kind of deep pain surpassed almost any battle.

Su Lang gritted his teeth, his gums overflowed with blood!

"Who...who did it!?"

"Hahaha, no matter who it is, I want the whole world to bury you!!"

Su Lang's pupils shrank, revealing a hideous light, almost exactly the same as the beast pupil that had lost his mind!

But at this moment.

"Who dares to make noise outside Zhiyu Mountain? Are you panicking to death?"

A stern shout suddenly came from the empty void in front, and then, a woman in a long gown flew out with a bold face.

This woman is just a quasi-emperor, but she dare to yell at the Seven Great Emperor Su Lang, which shows that the background is very hard!

Of course Su Lang realized this, but he didn't care at all.

In his eyes, the entire place of exile was an enemy, and he wanted revenge!

"Die to me!"

Su Lang tilted his head and stared at the woman, with one hand stretched out, the power of various avenues condensed into a giant colorful hand, falling from the sky!

"you dare!!"

"I am the maid of Yushan Youzhi!"

The quasi-emperor woman's pupils shrank suddenly, and she couldn't believe that the other party dared to do something to herself!

However, her harsh drinks and threats were useless.

Bilibili.

Under Su Lang's palm, the defenses of the quasi emperor woman shattered like fragile glass.

Immediately after.

This quasi emperor woman was crushed into a meatball.

The system prompt sounded, which means that she has completely fallen.

"Weaving Yushan, You Weaving?"

"Jie Jie Jie Jie, my people died on your site, you must bury them!"

Su Lang retracted his right hand, his eyes fixed on the place where the Emperor Zhun woman appeared.

Where there is nothing, even Su Lang could not see the clues in a short time.

But now that I know there is something there, it's easier to handle.

Su Lang used the mysterious method, and slowly finally saw a thin film.

This layer of membrane is alternately real and imaginary, and it also has the ability to defend against mental detection. The effect is even comparable to the Soul Chasing Emperor Palace!

"No wonder I didn't pay attention before."

Su Lang showed a cruel sneer and directly activated the Devouring Clone.

Rumble!

The powerful momentum continued to erupt, and the turbulent air currents dispelled all the clouds in the sky!

"cut!!"

After swallowing the clone, Su Lang had reached the quasi-no-god level, and the quasi-no-god soldier's heart that had been pulled out of his waist was severely chopped off without any edge.

The powerful blow that condensed all of Su Lang's mental power fell on the film instantly.

Stabbed!

The film suddenly cracked a big hole.

Looking inside from the opening, you can see a super mountain comparable to a misty peak.

The whole mountain is snow white, and emits a little bit of light, just like a beautiful snow mountain.

But a closer look reveals that it is not white snow that covers this mountain, but endless white spider silk!

This is Zhiyu Mountain!

"who!?"

"Dare to destroy the hidden barrier of the Jade Mountain weaving!"

"Someone made a surprise attack. There was an emperor-level attack on Zhiyu Mountain, please contact Greed Wolf Palace!"

"..."

In Zhiyu Mountain, the maids screamed in horror and anger, and someone immediately contacted the Greed Wolf Palace.

In the luxurious boudoir.

"Ok!?"

"What happened outside!?"

You Zhi put down the "Emperor Weaving: Taking a Long Emperor Is Too Tender" in his hand, raised his head and asked slowly.
