

One Click 1511

[Chapter 1511: The feast of counterattack has begun!](#)

"Don't question this and that anymore."

"When Lin Fang dies in my hands, you will believe everything."

Su Lang spread out his hands helplessly, "Now time is precious, and quickly tell me the location of Lin Fang's lair!"

"Oh...oh..."

"Lin Fang's site is located 100,000 light-years north of Zhiyu Mountain."

"His territory has a range of three million light-years in length and breadth. There are many quasi-no-god guards, and..."

Youzhi said blankly, but without speaking, he was thrown into the Dantian universe by Su Lang.

There is no god-level or anything, it is a little rabbit in front of Su Lang at this time.

The other great emperors are little ants.

What's so scary about the little bunny and the little ant, it's all done!

Moreover, Su Lang didn't plan to do it all by himself, so why would he want to clone and hunt for treasure?

"The feast of counterattack has begun, and the clone is dispatched!"

Su Lang thought, Li Xianyang and another clone, as well as thirty-eight clone incarnations suddenly appeared.

Forty clones, each with all aspects of quasi-no-god-level combat power.

If Youzhi hadn't been thrown into the Dantian universe, he would be stunned again.

"Servants, see the Lord!"

Li Xianyang led many clones, kneeling in front of Su Lang.

"Ok."

Su Lang smiled faintly, "Next, I will use Baiying's clone, and then cover his face."

"Yes!"

Li Xianyang and other avatars immediately used Baiying avatars.

Forty quasi godless clones suddenly turned into four thousand nine great emperors!

And it is the strongest among the nine great emperors!

Once you use various secret techniques such as Drinking Star Sea, Wu Shackle, etc., it will be no problem to reach Quasi-Godless in a short time!

"Next, go!"

"As long as there is anyone who dares to resist and dare to do something, it doesn't matter if you kill!"

With a tick at the corner of Su Lang's mouth, his thoughts moved, and his avatars were dispatched to the north.

Almost instantly, a clone stepped onto the ground of Wushuang Building.

Immediately after.

Other clones appeared in this clone's spiritual power coverage area, and then unfolded their spiritual power, and were dispatched by Su Lang again, spreading crazily around.

Su Lang also used a clone to replace him and came to the Wushuang Building site.

"Treasure Hunt Flying Flying Glider!"

"Go, dig this land for me! Don't even let the underground veins go!"

Su Lang smiled and released all the treasure hunting flying flying flying gliders.

There are more than 700 billion treasure hunting flying flying flying gliders that have the 'emperor's golden body' and can only be killed by the Great Emperor.

Compared to Su Lang's clones, these professional treasure hunting flying flying gliders are the main force in the search of the Wushuanglou site.

Suddenly.

Wow!

Almost endless treasure hunting flying flying gliders are dispatched to cover the sky and the sun, setting off storms!

Wherever they went, even the lowest level spirit grass was not let go.

Some mountains have mineral deposits, and they are directly swarmed by flying flying birds. The mountains are instantly riddled with holes and collapsed!

There are even more defensive cities that are invaded by the treasure hunting flying gliders, instantly jumping!

Countless warriors have been looted, and there is no way to hunt for treasures and flying flying gliders. Only the Great Emperor level can dispatch them to kill them!

But these treasure hunting flying gliders are too confusing.

All of them didn't even have a trace of spiritual power, and they were completely unattractive at first.

When the emperor-level powerhouse paid attention, they had already robbed countless wealth!

More than 700 billion treasure hunting flying flying flying frantically searched, the originally very wealthy Wushuanglou site was barren at a speed visible to the naked eye!

This immediately made countless people feel that the world has changed and the world is about to be destroyed.

But in contrast to the treasure hunt flying flying stray.

Su Lang's four thousand clones brought even greater horror to this three million light-year-long world!

A avatar is suspended in the sky.

The terrifying breath of the Nine Great Emperors fell on the ground, as if to crush the surface continent!

A famous Wushuanglou powerhouse was shocked!

Especially after the series of news, after learning that more than thousands of the nine great emperors have jointly invaded, and there are countless strange flying squirrels sweeping the world, it is even more horrified!

They immediately realized that there is definitely an extremely powerful mysterious force that has done something to Wushuanglou!

but.

Thinking of the mysterious and powerful Wushuang poster above his head, these high-status emperors suddenly gained confidence.

[Chapter 1512: This number alone is desperate](#)

"Who are you guys anyway!?"

"It's so courageous, dare to run wild on the ground of Wushuanglou!"

"Don't answer? You are so defiant, die for me!"

"..."

Some Wushuanglou emperors rose from the ground, rushed straight into the sky, and fiercely killed a clone of Su Lang.

"As long as the people in Wushuanglou are killed!"

This clone smiled coldly, and slashed his right hand with a pointed sword, slashing across the sky and the earth, tearing the void, and immediately beheading all these great emperors.

"what!?"

"So many emperors fell in an instant!"

The warriors who witnessed all this suddenly showed despair.

That was three or four, or even seven or eight emperors, who were killed by one sword!

The huge turmoil, of course, also attracted the attention of the nine quasi-no-god-class guards who stayed behind in the Wushuang Building.

"Who is it that came to attack our Wushuang Building!"

"As soon as the original poster left, these people came. The news is very good!"

"The only nine of us who know the trail of the original poster, we have a traitor!"

"Hmph, who is the traitor? Waiting for the host to come back to you will be revealed. The top priority is to kill these invading forces that do not know the heights!"

"Yes, kill!!!"

"..."

The nine quasi-no-god-levels all dispatched together to kill the closest clone of Su Lang.

Suddenly.

Nine quasi-no-god-level battlefields have been opened up, endless rules and visions pervade, destroying large areas of land in an instant!

Just started the war.

The quasi-no-god-level of Jiu Zun Wushuang Building was stunned!

Because their opponents have all kinds of extremely abnormal secret techniques, their comprehensive strength is not weaker than the ordinary quasi-no-god-level!

"Oh my God!"

"There are 4,000 such powerful people who invaded our Wushuang Building!"

"Such a terrifying force is not something I can fight against, please contact your master!"

"I hope you can come back soon!"

"..."

The quasi-no-god-class of Wushuanglou was horrified, and they all retreated, and no longer had the confidence and arrogance they had before!

If it hadn't been for fear of being liquidated by the Wushuang host, they had already fled at this time.

"whispering sound!"

"Are there only nine quasi-no-god levels?"

"It's so little, I don't even have the right to let me do it myself."

Somewhere in the sky, Su Lang raised his eyebrows, "Then, let the clones play with you."

next moment.

Su Lang thought.

Among the 4,000 clones, nine hundred were mobilized.

These nine hundred avatars are divided into nine groups, and they each move towards a Wushuanglou Quasi-no-God-level!

In nine quasi-no-god-class battlefields.

Wow!

A personal figure condensed and turned into Su Lang's clone, exploding with terrifying power.

"what!?"

"Why do so many enemies suddenly appear again!?"

"Damn, they all have quasi-no-god-level combat power!"

"It's over, it's dead, run away!"

"..."

Seeing death right in front of them, the quasi-no-god class in Wushuang Building instantly became desperate and turned around and fled.

At this time, how can they worry about the subsequent liquidation of the Wushuang poster!

If you don't run away, you will die!

however.

Even if you run away, you can't escape if you want to.

Every Wushuanglou's Zhunwushang must single out one hundred and one Su Lang clones. This number alone is desperate!

The result was no surprise at all.

All the Emperor Quasi-Supreme in the Wushuang Building was bombarded to death with just a few breaths, and he died!

The world is filled with dust and endless energy torrents that cover the sky and the sun!

The miserable howls of the nine quasi-no-god-class fell spread across large areas of land, frightening and despairing countless creatures.

For them, even the quasi-no-god-level is dead, this is simply the sky collapsed!

Desperate emotions instantly permeated every corner of Wushuanglou's three million light-year-old site!

Except for a few guys with weak heads who continued to resist, everyone else gave up counterattacking and waited helplessly for death.

at the same time.

At the bottom of a large lake ten million light years away.

Under the deep water, a slender figure like a skeleton sat on the ground, surrounded by a lot of treasures floating around.

This person was Lin Fang who thought he had killed Su Lang.

Now he feels uncomfortable, and he is healing his injuries with all kinds of treasures.

[Chapter 1513: Lin Fang who is incompetent and furious](#)

"Ok?"

"Wanxun bell is moving?"

Suddenly, Lin Fang's expression changed, and he took out a bell from the universe of life.

Sweep away, read the message.

"what!?"

"A mysterious force sneaked on my site!?"

Lin Fang's complexion changed wildly in an instant, and his anger was full of anger. His whole body was shaken severely, and the surrounding lake water was directly drained thousands of meters!

At this time, another message came from Wanxun's bell!

The invaders are very powerful, with a completely unfathomable quasi-no-god-level powerhouse, and thousands of nine great emperors with extraordinary combat power!

There are endless weird flying squirrels that only the Great Emperor can kill!

Wherever the intruder passed, the resistance of Wushuang Building instantly collapsed!

The weird flying squirrels are overwhelming, looting all training resources frantically!

The territory of the entire Wushuang Building is about to fall!

"Damn!!"

"Who is it?"

"Who is so defiant and bold!"

"Who is it that leaked the news of me leaving Wushuang Building!?"

"Damn it, **** it all! Bastard!"

"..."

The sudden bad news made Lin Fang tremble with anger, his face was blue and red!

How many years have it been.

No one has ever dared to run wild on the grounds of Wushuanglou!

But now, not only have some people come in, they are also attacking the whole area of Wushuanglou. This is the rhythm of destroying Wushuanglou!

To know.

The resources required for quasi-no-god-level cultivation are terrifying.

The Wushuanglou area is the richest place in this 15 million light-year range.

If the Wushuang Tower is lost, and the training resources that are not enough are lost, it will be even more difficult for him to make breakthroughs!

Not long ago, he promised Ruyi on an oath to make a breakthrough as soon as possible!

Rumble!

The surrounding lake was overwhelmingly closed, like a sun behind a black hand covering the sky.

"Dare to yin me, you...all have to die!"

Lin Fang was trembling all over, his eyes were red, and he instantly broke through the lake, tore through the void, and flew towards Wushuang Tower.

however.

Although his speed is very fast.

But Wushuang Tower is too far away from him, more than ten million light-years away!

Even if his speed is ten million times faster than light, he will have to fly for a whole year to return!

"No way!"

"Can't go on like this!"

"Otherwise, when I return to Wushuang Building, I don't know how long it has been since the owner has changed!"

Lin Fang realized that he couldn't return to his lair in time, and he was immediately anxious and helpless.

"Ruyi! Ruyi, think of a way!"

The anxious Lin Fang could only take out the supreme wishful lamp, this is his only hope now!

"Lin Fang."

"I am experiencing serious consumption and have not recovered yet."

"Once you forcefully use magical powers to help you quickly return to the Wushuang Building area, you will pay a great price!"

"The opponent's strength is too strong, it is completely crushing, and we can only face a messy battlefield when we return."

"Even, they may face the trap they set!"

"You have to think clearly."

The Supreme Ruyi Lantern spoke softly, a hint of helplessness in the words.

"This....."

"Since they dare not confront me head-on, but choose to take advantage of the emptiness, then they are definitely not my opponents!"

"They are looting everywhere and looting everything in Wushuang Building. I must make them pay!"

"As long as we can go back as soon as possible, we can catch their tails and even intercept the stolen training resources!"

"Ruyi, I think it over, I want to go back as soon as possible, please!"

"..."

Lin Fang looked resentful, full of violence that destroys everything.

"In that case."

"Then I will help you once."

The sound of the supreme wishful lamp is indifferent like water.

"Great!"

"Don't worry, after dealing with those guys, I will make up for you!"

Seeing that the Supreme Ruyi Lantern agreed to come down, Lin Fang was immediately surprised.

The Supreme Ruyi Lamp did not reply.

I saw its candlestick-like body tremble fiercely, the white candle inserted in the candlestick twisted, and the top began to melt.

Immediately after.

A crystal clear liquid like teardrops appeared on the top of the white candle, spreading upward along the candle wick.

[Chapter 1514: Lin Fang, the temptation to go home!](#)

next moment.

The soy-sized lamp flame suddenly expanded, even bursting out one or two sparks.

And inside the flame, a brand new flame heart gradually appeared!

Moreover, this flame heart is actually brighter and brighter than the two previously consumed!

A breath of incomparable mystery, as if containing the heaven and earth, but faintly detached from the flames of light!

"Void Link Tunnel, open!"

Along with the faint sound of the Supreme Ruyi Lamp, a huge black vortex appeared in the sky.

This black vortex is filled with extremely terrifying space turbulence.

It is tearing everything around like crazy like a black hole.

On the earth, huge lakes, rolling mountains, and lofty giant peaks are all easily torn apart and sucked into the center of the whirlpool like toys!

Lin Fang also rushed in instantly!

Wow!

The turbulent flow of countless space avenues rushed over, if the ordinary emperor would definitely not bear it!

However, Lin Fang had not healed from his serious injury and was in poor condition, so he also felt severe pain.

Time passed slowly.

Suddenly the exit of the Void Chain Tunnel appeared ahead, and the violent light seemed to pierce people's eyes.

boom!

Lin Fang looked like a pill being stuffed into the barrel, and like a fart held for a long time, it was ejected with a bang!

Rumble!

The mountains unluckily blocked Lin Fang, and as a result, he was knocked out of terrifying holes.

"Where is this place?"

In a certain valley where smoke and dust was flying, Lin Fang rose into the sky, looking around.

"It's not here yet."

The voice of the Supreme Ruyi Lantern came, "At least ten more times."

"ten times....."

"At this speed, even ten times, it only takes half an hour!"

Lin Fang had wide eyes, "Quick, wishful, we will go back as soon as possible, they most likely have not yet left!"

"Humph."

"Stop talking nonsense."

"I take a break and continue."

The Supreme Ruyi Deng let out a dissatisfied cold snort, and after a while, it opened a void chain tunnel again.

Lin Fang rushed in again without hesitation.

And just when Lin Fang rushed back frantically.

Wushuanglou area.

Su Lang's four thousand clones and more than seven hundred billion treasure hunting flying flying flying ducks have occupied the entire Wushuang Building.

Almost every less than a hundred thousand light-years away, there is a clone of Su Lang overlooking everything.

All the resisters had been killed by Su Lang's clone.

The rest of the creatures all bowed their heads, and the entire race kneeled to Su Lang.

The creatures on the Wushuanglou 3 million light-year site are more than ten trillion?

But so many creatures, in just ten minutes, all surrendered to Su Lang's feet.

And relative to these surrendered people.

Su Lang killed too few people.

Of course, these people are the mainstays of Wushuanglou, completely loyal to Lin Fang, and they are the targets of Su Lang's death.

"No one has resisted, it's really boring."

"Then, just wait for the treasure hunt flying flying to search for resources."

"I have to say that Lin Fang's vision is really good, this three million light-year-long site is simply fat and oily."

"In a short period of time, there are so many old babies who have been found out."

"Tsk tsk, I don't know if it is Lin Fang's method of collecting treasures that is too rubbish, or whether my treasure hunters are too good."

"..."

Su Lang was suspended in the air, condescendingly overlooking the vast Wushuanglou area.

This wealthy land has brought him too many benefits.

Just the huge mineral veins, a full five million were found, containing various mineral deposits.

Some of the veins of the veins even condensed into godless materials, which is really amazing.

In addition.

Some special items buried deep in the earth were found by Su Lang.

For example, some of the bones of the strong men who fell in the last war of reincarnation, among them there was a godless one!

There are still terrifying powers on the bones, which can be used to build Godless soldiers!

There are more quasi-godless bones, but their residual power is already very small.

After all, it is not at the same level as the real Supreme Emperor, and with the passing of time, it has almost turned into ordinary dust.

[Chapter 1515: The same upgrade four system functions!](#)

Except besides.

Su Lang also got some broken imperial soldiers fragments and great imperial soldiers fragments.

These weapon fragments have no aura, but they can still be used to decompose and obtain precious raw materials.

The above gains are enough to make a quasi-no-god-level dumbfounded.

And what Su Lang valued most was Xianyuan.

The land of exile is lacking in various resources, and the source of immortality is also very few. Compared with the warriors of the same level in the boundless universe, it is a full ten times worse.

But even so.

Su Lang also received a full 549 million Yuan of Supreme Immortal!

In addition to the rest of the previous, the system balance in the mysterious space has reached a full 600 million!

So many high-quality fairy sources are enough for Su Lang to upgrade the system again!

"Tsk tut!"

"It's no use coming here!"

Su Lang ticked the corner of his mouth and immediately issued an instruction to the system, "System, give me the functions of one-click martial arts, avatar dispatch, one-click treasure hunt, and one-key empowerment!"

"Ding! Consumes 100 million superior immortal sources, the one-key martial arts function is upgraded to level 40, and the training speed is increased to 1,466.368 billion times the basic training speed of no lack of qualifications!"

"Ding! Consumes 100 million superior fairy sources, the clone dispatch function is upgraded to level 39, the number of clones is +1, the current number of clones is 39, and the number of clones is 39!"

"Ding! It consumes 100 million superior Xianyuan, the one-click treasure hunting function has been upgraded to level 39, and the number of treasure hunting flying flying gliders has increased to 1,466.368 billion!"

"Ding! Consumption of 100 million superior sources of immortality, the one-key empowerment function has been increased to 18, the current empowerment efficiency is 100%, and the number of daily empowerments has increased to 36!"

A series of system prompts came, and Su Lang almost smiled and cocked his mouth.

"The speed of the one-key martial arts function has doubled."

"It seems that I have just placed the great emperor level exercises, and it won't take long to get to the founding level!"

"Furthermore, the number of clones and the number of avatars are increased by 1. If these two clones use the Baiying clone function, they will be two hundred nine great emperors!"

"Hahaha, in a split second, I have two hundred more nine-great emperors who are comparable to the quasi-no-god level, which is simply against the sky!"

"Oh, right, the number of treasure hunting flying flying gliders has also doubled. Hurry up, let them out to search for resources!"

"..."

Su Lang looked at his brand-new four system functions, and was very excited.

Immediately after.

He immediately released the extra 700 billion treasure hunting flying flying gliders.

Suddenly.

The density of the treasure hunting flying flying flying in the Wushuanglou area has doubled, and the search is not only faster and faster, but also cleaner!

"Now for the first four functions, one-key training is at level 40, and the remaining three are also at level 39, which is one step closer to gaining the unlocking authority for new functions."

Thinking of the new features he was about to unlock, Su Lang couldn't help but look forward to it.

After upgrading the system.

Su Lang looked at the various materials piled up in his storage space like continents, and the idea of upgrading weapons arose in his heart.

"The Godless Soldier is really terrifying."

"Lin Fang is obviously far behind me, but with the supreme wishful lamp, I can trigger death substitution."

"It seems that my weapon needs to be upgraded as soon as possible!"

"..."

While thinking about it, Su Lang gave the system an order to upgrade Youtian Sword.

however.

"Ding! To retain the specified characteristics to evolve the Youtian Sword, you need to consume Godless Grade material Tianxiao extremely cold jade*1, Xuanmo Tianyou gold*10, and Vessel Youlin bone*10...

Great Emperor-level refining material: Quasi-Great Soul*8, Great Emperor*100, Wudi Spirit*100000..."

The system listed a list of materials. Obviously, the materials in Su Lang's storage space were not enough to evolve Youtian Sword.

"Tsk tut!"

"So many materials in my storage space!"

"If you evolve ordinary quasi-superior soldiers, it is probably enough, but evolving Youtian Sword is not enough."

"Never mind, then I'll try it out again."

Su Lang exclaimed, and immediately activated the one-key synthesis function, using various low-level materials to continuously synthesize.

Pieces of Great Emperor grade materials were synthesized and piled up in the storage space like ordinary stones.

Immediately, these stones were synthesized into extremely rare godless materials!

[Chapter 1516: I'll just go ahead](#)

just.

The description of the one-key synthesis function is:

It can be synthesized with materials and medicinal pills of the same Godless level or below, and the synthesis ratio is 10:1.

But the synthesized product is not absolutely able to advance to a great realm level.

Su Lang had encountered this when he was synthesizing a holy pill in Yaochi.

It must be synthesized several times at a ratio of 10:1 to get a higher level product.

This situation becomes more and more serious when synthesizing Godless Grade materials from Great Emperor Grade materials!

The most common and **** Godless-level materials require at least 10,000 identical Great Emperor-level materials to be synthesized to obtain.

And the materials required by the Youtian Sword are also extraordinary in the Godless Class.

Therefore, the chance of a successful synthesis is even smaller.

Even with one-click synthesis at the speed of almost instant completion.

It took Su Lang more than ten minutes to get together the Godless Grade material of the Profound Mo Tian Youjin.

And at this moment.

The time limit for Su Lang to swallow the clone had arrived.

I saw that the aura on his body dropped swiftly, dropping directly to the daily level.

"Well."

"Lin Fang will certainly not be ignorant of the changes in Lao Lao."

"At this time, he is probably on his way back."

"It's a pity that I don't have a formation that can threaten him, even if it is a combined formation."

"Otherwise, you can lay a net here and wait for it!"

"It's not yet clear when he will arrive, and my swallowing clone function has just fallen into cooling down, so I need to be cautious."

"It just so happens that the Wushuang Building area is completely out of resistance, and it's useless for the clones to stay here. Let them explore."

Su Lang touched his chin, using the clone dispatch while maintaining the operation of the one-key synthesis function.

Suddenly.

One by one, the avatars were dispatched to the place where they had previously fought with Lin Fang, and then spread out quickly using the battlefield and the Wushuang Building area as a two-point line.

There was even a treasure hunt flying glider who ingested Lin Fang's breath, followed by frantically searching for Lin Fang's trace with the function of 'hunting soul'.

Two-pronged approach.

The tracking action is progressing quickly!

at last.

Somewhere in the mountain range 5 million light-years away from the Wushuanglou geographical boundary, a black hole-like horrible vortex suddenly appeared, hanging high in the air.

Rumble!

A loud noise came from the black vortex.

Immediately after.

Lin Fang was banged out, and directly crashed a hard rock mountain.

It happened that an incarnation of Su Lang had discovered the exit of the Void Chain Tunnel in advance.

Not just noticed here, I saw Lin Fang collided with the rocky mountain.

"It turned out to be here!"

"Lin Fang is really rushing to his lair!"

"Hmph, it seems that he is very exhausted and he has no time to adjust his breath."

"Moreover, the Supreme Ruyi Lantern has become very weak. It seems that the cost of using this method to cross the void is not small."

"If that's the case, let you come here a few more times."

From the perspective of the avatar, Su Lang clearly perceives the state of Lin Fang and the Supreme Ruyi Lamp.

He did not rush to do it.

Since the other party is so anxious and wants to return quickly at any cost, let them pay a little more.

Immediately after.

Su Lang dispatched the clone to other places, so as not to startle the snake.

And Lin Fang always believed that Su Lang had died in his hands.

At this time, he wanted to go home even more, and he didn't even notice the sudden disappearance of Su Lang clone.

After resting in place for a while.

The Supreme Ruyi Lantern once again opened the Void Chain Tunnel, spanning millions of light-years away!

Simultaneously.

In the Wushuang Building area.

Su Lang had already collected all the clone avatar and the treasure hunt flying flying flying gaze sent to track Lin Fang.

After all, it is now known that Lin Fang will definitely return, and monitoring all the way is completely unnecessary.

"At their speed."

"It takes about twenty minutes to reach the boundary of the Wushuang Building area."

"By then, my swallowing clone hasn't cooled down yet, and the gentleman doesn't stand under the dangerous wall, then I'll take it first."

With a thought, Su Lang used the clone to dispatch replacements, and returned to the battlefield where he had fought Lin Fang before!

Soon.

He leisurely remotely controlled the avatars and the treasure hunting flying flying birds to continue to search for the training resources in the Wushuang Building area.

Of course, the one-key synthesis function has not stopped, and has been synthesizing Godless and Great Emperor materials!

Although the production rate is not satisfactory, as long as the base is large, you can always get it together!

[Chapter 1517: Lin Fang has a hidden hole card!](#)

The world is dim.

Because of the broken ground of the war, endless dust was raised and the sky was covered!

There were fierce space cracks all around, just like the fangs of a mysterious black behemoth, which could easily shred countless creatures.

All kinds of residual terrifying energy turbulently flowed, and even the Great Emperor would be seriously injured if they accidentally touched it.

In addition, there are a large number of rules and avenues manifested by battle, which can make it easier for ordinary creatures to understand the rules.

There are even some peculiar materials formed due to huge force compression and energy convergence, which are helpful to practice.

In short, for creatures below the Great Emperor level, this place has become a forbidden place where death comes with opportunity!

"Tsk tsk."

"The higher the martial artist, the stronger he really is."

"I just fought a random fight, which created such a world-class spectacle."

"..."

Su Lang walked in a turbulent flow of energy, unscathed, even his hair was not blown up.

I just found a place to sit down.

Su Lang took out the Soul Chasing Emperor Palace again and entered the closed room again. at the same time.

With the help of Wushuang Ruyi Lantern, Lin Fang hurried to the Wushuang Building area.

He never expected it.

It was Su Lang who he thought was dead to attack Wushuang Tower.

Even more unexpectedly, Su Lang returned to the previous battlefield at this time!

Time passed slowly.

Lin Fang finally reached the boundary of Wushuanglou area by relying on the Supreme Ruyi Lantern.

According to the remaining intelligence system, he learned that the forces that invaded Wushuang Building were still looting frantically!

"I didn't even leave!"

"I don't know if it's a defiant person or a daring artist!"

"But anyway, you people all have to die!"

"..."

Lin Fang watched the message playing with the bell in his hand, and an abnormal red appeared on his thin and thin face.

but.

Although Lin Fang was angry, he was not stupid at all.

He knew very well that there was an unfathomable quasi-godless class in his territory.

Since the other party has the courage to fight over, even if he is taking advantage of it, there must be two brushes.

But Lin Fang himself was seriously injured.

The supreme Ruyi lamp consumes too much.

In this state, if you act recklessly, it's really hard to tell the outcome.

and so.

Lin Fang intends to use a hole card!

A hole card placed in the Wushuang Building area, countless creatures!

"Go to Red Valley first."

"Then use the super teleportation array to return to the Wushuang main building."

"Next, is the countdown to your death!"

"..."

Lin Fang gritted his teeth severely and flew towards the northeast.

quickly.

A blood-red valley appeared in the field of vision.

A huge red teleportation array is hidden at the bottom of the valley.

This kind of teleportation array was created by Lin Fang for himself, specifically to radiate the dominance of the teleportation array.

Using this teleportation array, he can quickly return to the Wushuang main building.

Step on the teleportation array.

Lin Fang's hand art was pinched, and the teleportation formation suddenly skyrocketed.

After the violent red light disappeared, Lin Fang had also been sent out.

In an instant.

He appeared on the second red teleportation array.

Just appeared.

Lin Fang discovered a large number of treasure hunting flying flying gliders.

These treasure hunting flying gliders are frantically digging up all the treasures, even the lowest level treasures.

"This is the weird flying squirrel mentioned in the intelligence!"

"Obviously there is no power at all, but only a great emperor can kill!"

"Now the Great Emperor-level experts in the Wushuang Building area have fallen a lot, and those who are alive don't dare to shoot again, for fear of being retaliated by those invaders."

"As a result, these treasure hunting flying flying gliders are totally unattended, arrogant, and doing misfortune everywhere, not only digging for treasures in the earth, but also attacking some people!"

"Damn it, looking at their speed and efficiency so high, I don't know how many cultivation resources have been dug up during these hours!"

"These cultivation resources are clearly not yet the best time to harvest, but they were killed to get their eggs like this, what a damn!"

[Chapter 1518: The strange ruins of Wushuanglou](#)

"..."

Lin Fang looked around, watching the treasure hunting flying flying across the sky, leaving behind the devastated ground, almost vomiting blood with anger.

But he still didn't make a move.

He even kept hiding his figure.

Because he didn't want to startle the snake, he was targeted and intercepted.

Take a deep breath.

Lin Fang activated the teleportation array again and kept heading to the Wushuang main building.

But he didn't know.

All his whereabouts have been seen by Su Lang.

"This Lin Fang is so angry, but he didn't make a move."

"Instead, he endured the humiliation, swallowed his breath, and secretly went to the Wushuang main building. It seems that this guy must have a purpose."

"It is estimated that it is his hole card left on the Wushuang floor."

"It's a pity that Emperor Wu swallowed the clone is still cooling, otherwise he must go to intercept him!"

"Now my strength is not strong enough, and the weapons have not been refined. Even if I summon a group of clones to attack, it will only give me food."

"Forget it, do it again, do it again."

"..."

While thinking about it, Su Lang refines super humanoid weapon fairy-level parts.

The one-key synthesis function is constantly synthesizing advanced materials.

Youtian Sword is promoted to a true Godless Soldier, one step further!

The other side.

Lin Fang passed through the teleportation array and arrived at the Wushuang main building with 'surprise but no danger'.

The main building of Wushuang Lou is built in the center of Wushuangliu area, in the Wushuang plateau.

The Wushuanglou area is the richest area within a radius of 15 million light years, and the Wushuanggao principle is the richest place in the Wushuanglou area.

Not only is the spiritual energy hundreds of times stronger than other places, there are also various cherished training resources.

Lin Fang just used this as the center of the nest, and for this, he built a large area of luxury buildings.

Although these buildings are not weapons, they also use countless precious materials.

Lin Fang also established a medicinal garden, a beast garden and other facilities to breed elixir and beasts for cultivation.

but now.

Those pieces of luxurious buildings have been dug into riddles by the treasure hunting flying flying gliders, and collapsed in pieces.

Even a piece of the lowest-level training material could not be found in the ruins.

Those medicine gardens, spirit beast gardens, etc., became even more empty and incomparably messy.

Many places still lay a bunch of tattered corpses. The owners of these corpses were sacrificed to protect the Wushuang main building.

In short, as the central area of Wushuang Building, it is obviously being seriously targeted, only to be razed to the ground.

Looking at this large swath of ruins, watching my countless efforts destroyed and countless treasures stolen.

Lin Fang only felt a sharp pain in his heart, his whole body trembled fiercely, and he almost couldn't stand steady.

"It's not working?"

In the supreme Ruyi lamp, Qi Ling Ruyi said lightly.

"Who said I can't do it!?"

Lin Fang gritted his teeth fiercely, stepped forward, and strode forward.

Not long.

He came to a ruin and went straight into the ground.

"Drilled into the ground?"

Seeing this scene, Su Lang frowned slightly.

For the Wushuang main building, he deliberately explored it with mental power and found no problems.

But now it seems.

It is estimated that Lin Fang used the power of the Supreme Ruyi Lantern to hide some things, so that Su Lang did not find it.

Immediately after.

Su Lang dispatched a clone to monitor him in the distance.

But when the avatars' mental power probed that area, they found nothing.

Even Lin Fang's trail was lost.

To know.

Although the clones did not create a planet of life, their strength was a little weaker than Su Lang.

But the mental power is exactly the same as Su Lang.

Each clone possesses the spiritual power of the broken Nirvana level, and masters the "Keeping the Minor Mystery Method".

If it was Lin Fang's own concealment method, it would definitely not be possible to hide from Su Lang.

"It looks like this guy really has a great hole card."

"It is estimated that it is another godless method, and it will definitely be able to explode with great power!"

Su Lang narrowed his eyes slightly, "It seems that I also have to own a Godless Soldier to guarantee my undefeated."

[Chapter 1519: The strange underground world!](#)

Thought of this.

Su Lang immediately issued instructions to the system, trying to upgrade the Youtian Sword.

however.

The material is still not enough!

It's really not that Su Lang has too few materials, but that the materials needed for the evolution of the Youtian Sword are too high and too high!

"The materials that can be synthesized have been synthesized."

"It is impossible to evolve the Youtian Sword in a short time."

"So, try to see if you can evolve other weapons?"

"The Five Elements Sky Series, Space Rubik's Cube, White Jade Emperor Palace, Luoyou Mirror, etc. are all auxiliary defensive emperor soldiers, so put them aside first."

"Then try Slaughter Sky Sword Sheath and Xin Jue Wu Feng."

"..."

After thinking for a moment, Su Lang asked the system.

It turned out that the Slaughter Sky scabbard was only a seven-great emperor soldier, and it needed more materials to evolve into a godless soldier, and it lacked a few.

Only the quasi-no-god-level heart has no edge, and the required promotion materials are enough.

"Then tentatively decide that the heart will have no edge."

"After Lin Fang's hole cards are played, I will decide whether to store the material in the Evolution Youtian Sword, or use the Evolution Heart Absolute Right now."

After making up his mind, Su Lang dispatched his own clone to watch the place where Lin Fang disappeared.

at the same time.

The center of Wushuang Building is underground.

A huge cave almost formed a strange underground world!

In this dim space.

Growing all kinds of strange plants, they have extremely wide leaves, and the veins of the leaves show a fluorescent color.

If you look closely, you can find that these fluorescent veins are actually a little dragon-shaped!

And among these plants, there are also some spirit beasts.

These spirit beasts are basically snake-shaped, and have some characteristics of dragons. They seem to be ferocious, elegant and noble, which is very strange.

Of course, there are also creatures that are not snake-shaped.

But these 'different' creatures can only be reduced to the lowest level of food here!

Because those dragon-snake-shaped spirit beasts are very powerful, not only at the fairy level, but even at the emperor level!

And these snake-shaped creatures are entrenched on some plants, stones, and cave walls, and the heads of dragons and snakes face the same direction.

They have horrifying mouths wide open, and they seem to be sucking something.

at this time.

Wow!

A blast of falling rocks fell.

It turned out that Lin Fang came to this underground space from the ground!

"Hiss!"

Seeing Lin Fang, countless creatures in the shape of dragons and snakes crawled to the ground.

This is because Lin Chang possesses the "Dragon Willow Dao Fei" and his cultivation is strong, which has caused natural terror pressure on these creatures with extremely thin dragon veins.

Lin Fang looked around, not looking at the spirit beasts in the shape of dragons and snakes. After checking the direction, he flew straight to the destination.

With a quasi godless speed, he reached under an extremely large stone pillar almost instantly.

This stone pillar is very huge, it looks like the sky pillar of this underground world, standing on top of the earth, supporting the sky and opening up this underground world.

On the stone pillars, there are also dragon-like fluorescent veins!

And these fluorescent veins are brighter and thicker.

The strange plants surrounding the stone pillars also grow taller and possess stronger spiritual pressure.

Follow the fluorescent dragon veins on the stone pillars.

Lin Fang flew up, and soon came to the middle section of the stone pillar.

However, all the stone pillars in this section have been covered by strange fluorescence.

A trace of fluorescence flows down from this stone pillar, forming the dragon vein-like patterns below.

Here is the source of the strange fluorescence of the entire underground world!

"Master!"

"The disciple has come to see you!"

Lin Fang knelt at this fluorescent stone pillar in the air, then turned into streamer and rushed into the stone pillar!

The tough stone pillars containing a lot of dragon-like fluorescence, in front of Lin Fang, automatically lined up like soft mud, exposing the passage.

Follow the channel.

Lin Fang arrived at the center of Shizhu!

This place has become an ocean of dragon-pattern fluorescence, with dazzling light on all sides!

In the center, there was a tall, crystal-clear man suspended quietly.

[Chapter 1520: Disciple is not filial!](#)

On the man's head, two small horned dragon horns grew unexpectedly!

A terrifying dragon radiated from the two dragon horns, and even Lin Fang, who had the blood of the dragon and willow, felt a thick suffocation!

no way.

He Lin Fang was just a quasi-no-god-level that hadn't taken long from soul-body fusion to soul-space fusion.

But this crystal clear man is truly a godless powerhouse!

And even in the Godless level, it is not a simple commodity!

just.

This crystal clear man has no life!

Even if it is viewed from the Avenue of Life or Avenue of Death, there is no trace of life.

In other words, this is a corpse!

"Lin Fang."

"Your master is dead, what use is it for you to come to him?"

"Although you have the constitution of the dragon and willow, there is a huge difference from your master's dragon veins after all. Can you still use your master's remaining bloodline?"

For the first time, the spirit of the supreme Ruyi Lantern transformed into a figure. She was a tall and slender woman with a cold face in a colorful robe.

She appeared in front of the tall body, seeming to show her respect.

"There are things you don't know about Ruyi."

Lin Fang replied, "For example, some dragon vein secret techniques I inherited from Master."

"That's it."

Qi Ling Ruyi nodded and stopped talking.

"Master is here!"

"The disciple has encountered an extremely powerful enemy!"

"However, the disciple is not sure to behead it on his own!"

"The situation is critical and the disciple is not filial. I am here to borrow your body for a use!"

"..."

Lin Fang knelt in front of the crystal clear man's body, kowtow three heads heavily.

Immediately after.

He walked forward slowly, with his hands closed and pinching his hands, his body was full of vitality, and a strange wave of waves was emitted!

These ripples are like smooth and illusory wicker strips, but they turn into dragons from time to time, cruising around Lin Fang.

As Lin Fang got closer to the man's body, the dragon-shaped illusory wicker grew more and more, and it became more and more out of the image of wicker, closer to the dragon pattern.

The dragon-patterned wicker extends from Lin Fang to the man's body, connecting the two together.

A trace of blood overflowed from Lin Fang's body and flowed into the man's body along the dragon-patterned wicker.

There was also a hint of gleaming fluorescence emerging from the man's body, following the dragon-patterned wicker into Lin Fang's body.

In an instant.

The two parties seem to have reached a strange connection.

Immediately afterwards, there were more and more dragon-patterned wickers sticking out of Lin Fang.

They grew crazily like granulation, and gradually enveloped the body of the tall man and Lin Fang.

immediately.

The dragon-patterned wicker formed a huge sphere, completely sealing Lin Fang and his master inside.

"Is it a secret method from dragon veins?"

"The dragon of the boundless world is really amazing!"

Ruyi looked at the meat ball in front of him, a little surprised in her eyes.

She had already seen that Lin Fang could really use his master's body!

A breath that was stronger than a gust of strength spilled out from the huge sphere formed by dragon-patterned wicker.

The breath of horror continues to rise!

In the end, it was infinitely close to the Dzogchen Soul-Universal Fusion, and it was close to the true Godless Level!

"This kind of breath..."

"It's no worse than the previous Su Lang!"

"With such a powerful force, it is indeed possible to expel those invaders easily."

"I just don't know if this secret method has serious harm, or whether it will affect the foundation."

"If Lin Fang affects the foundation of martial arts and completely misses the godless level, that would be bad."

"..."

Thinking of this, Ruyi couldn't help but feel a little worried.

Although she was really disappointed with Lin Fang, after all, Lin Fang was a humanoid mount she personally selected, so she was still a little emotional.

And she also counted on Lin Fang to break through to the Godless level as soon as possible, so as to prevent her from falling in the battle of reincarnation.

Time passed slowly.

Not long.

The sphere formed by the dragon-patterned wicker began to gradually tighten and shrink.
