

One Click 1531

[Chapter 1531: Nearly complete universe of life](#)

"My Great Devouring Devil Skill can also swallow it."

"However, I don't want to eat it when I think that these things fall from people..."

Su Lang twisted his eyebrows tangledly, and finally decided to store it in case of urgent need or use it for other purposes.

Next.

Su Lang took out another life universe.

These miniature sandboxes of life universe are placed in front of them, like soap bubbles.

The vast majority of life universes are of ordinary Great Emperor level and Wu Emperor level, and there are thousands of them.

Only ten were quasi-godless life universes, including Lin Fang's.

The other is the Godless Life Universe from Liang Xiaofei!

Su Lang didn't bother to look at the ordinary life universe.

Dispatch the avatar directly, transform into thousands of great emperors, and enter the universe of life to dig for treasures.

Almost instantly, a large number of treasure lands entered the storage space, forming pieces of special land, mountains, and even directly accumulating into continents!

And Su Lang personally passed ten quasi-godless life universes.

Because Wushuanglou's Lin Fang and Quasi-no-God-class both died in battle, so all the creatures in the universe of life died.

This saved Su Lang's troubles.

Throw the ten quasi godless life universes to the clones.

Su Lang took the only godless life universe in his hands.

Compared with other life universes, this life universe looks unique.

It is not like a soap bubble, but like a perfect orb!

"This universe of life."

"The rules and avenues that are infinitely close to consummation have formed their own twisted rules, which are faintly independent of the boundless universe."

"However, if it is placed in the boundless universe, it will still be wiped out for a long time, and will completely return to the boundless universe."

"Well, let me see what it looks like inside you."

"..."

Su Lang played the godless life universe twice, and then used the power of the space avenue to open it. however.

Su Lang's face suddenly showed an awkward smile.

Because the universe of life doesn't even move.

"Ahem."

"It deserves to be a universe of life without a god."

"It's very different from other ordinary life universes!"

"However, if you want to stop me, you are still a little tender. After all, you no longer have a master."

With a soft cough, Su Lang drew the Heart Absolute Blade from his waist.

Immediately after.

He put a lot of energy-recovering pills into his mouth, and coupled with the energy of the sun in the public universe, he soon recovered a large amount of innate Qi.

After the innate anger is enough.

"Twisting power, open it to me!"

Su Lang let out a low cry and injected all the innate Qi in his body into the sword, condensing it into a twist of force.

Wow.

Under the influence of the twisting force, the godless life universe instantly opened an entrance.

Su Lang did not hesitate and immediately dispatched a clone to enter.

Immediately afterwards, he used a perfect leaning, and his will came to the clone.

In an instant.

An extremely spectacular scene appeared before his eyes.

This is a very complete universe of life, with a very large and very mature planet of life.

The size of this life planet is about the same size as Cicada Dragon Star, forty times that of Canglan Star!

There are two satellites surrounding the planet of life, about the same size as the white moon of the sky-shielding star, one yin, one yang, one ice and one fire, acting as the moon and the sun.

Moreover, the fragments of broken continents are still floating in the surrounding void, shining like stars under the sun and moon.

"Tsk tut!"

"The universe of life without God is very different!"

"The surface of the planet is covered with a lot of treasures. The 'sun,' the moon, and the stars are all treasures!"

"The avenue of rules is perfect. Even if Liang Xiaofei fell asleep or was killed, he didn't suffer a devastating blow here. This is an independent and perfect extraordinary world!"

"..."

Seeing the world in front of him, Su Lang couldn't help but praise him.

[Chapter 1532: This is a bad omen, it is a bad omen!](#)

Although Liang Xiaofei was dead, the life universe was not greatly affected.

It only produced very severe phenomena of heaven and earth, and some natural disasters that were not very serious.

Su Lang knew at a glance that this was because there was no 'Heaven's Dao' to preside over the avenue rules.

In the past, the "Tao of Heaven" was Liang Xiaofei, who single-handedly led the development of the entire world.

But now there is no 'way of heaven', and the development of the world has completely moved in an unknown direction.

"such a pity."

"The only way for a warrior to become a 'world of heaven' is the world of harmony or the fusion of souls and universes. I cannot enter the universe of other people's lives."

"I can only guide as far as possible, so that this planet will give birth to the heavenly path I want."

"..."

Su Lang thought silently, looking at the surface of the planet.

When Liang Xiaofei was killed by Su Lang, he was just in the recovery phase and did not resist at all.

Therefore, the creatures in this universe are also alive and well.

There are already more than one or two kinds of wise creatures among these creatures, but more than ten kinds of wise creatures!

Among them are powerful dragon and snake creatures, dragon fighters with thin dragon veins, and spiritual warlocks who practice various different animal transformation techniques in nature, and so on.

In addition, there are countless species, countless plants, powerful beasts, weak beasts, and endless fungi and bacteria.

They have formed a very complete and stable ecosystem on this living planet.

And this time.

Because of the phenomena of heaven and earth, the whole world was in panic.

"The world has changed drastically!"

"This is a bad omen, it is a bad omen!"

"In history, this has never happened in our world!"

"There is an abnormal change in the way of heaven, the dragon and the snake rise from the land, the sky is turned upside down, and the sky is about to change!"

"..."

On the top of the world, in the Tianlong Palace, four quasi-no-god-level powerhouses stood on high mountains and rocks, their faces full of shock, disbelief, and a trace of sorrow.

"Do not!"

"The secret of heaven... the secret of heaven is already unpredictable, the way of heaven is dead!!"

"The sect master suddenly sat down, our Seiya Heaven Gate is completely finished, and all the mysterious methods we have practiced are invalid!"

"Heaven and Earth will no longer have a place for Seiya Tianmen to stand!"

"..."

In a azure sea, the quasi-god-less sect master at Seiya Tianmen station suddenly sat down, causing countless panics.

"Roar!!"

"Ancestral Dragon has fallen!!"

"The colorful dragon clan is no longer the child of the world, other races will covet our position!"

"But this is also good news. We have been in the emperor state for a long time, but we have not been allowed to go further.

And now, a gap has been opened to the door to higher levels! "

"The world has changed drastically, undercurrents are everywhere, and an all-out war is about to break out!"

"..."

In a wild virgin forest, countless peaks rushed straight into the sky, full of the breath of time.

Powerful dragons and snakes with different colors and characteristics of dragons gather together, some are terrified, some reveal surprises and ambitions.

"Did heaven finally dissipate?"

"Our time has come!"

"This world belongs to all living beings, and should not be monopolized by those with scales and horns and croaking human heads."

"Our psychic warlock will overthrow all decayed and outdated reigns, let the world return to nature, and return to all creatures!"

"..."

The light is dim, but the vast underground world.

The humanoid intelligent creatures with fair skin and beautiful appearance looked up at the sky wall, and a raging flame rose in their eyes.

In addition to Heavenly Dragon Palace, Seiya Heavenly Gate, Colorful Dragon Race, and Soul Warlock, there are also a large number of races who raised their heads in the dark, and their fighting spirit rose instantly!

Some races that are too anxious have already started wars against the enemies around them!

But this is only a very small number.

Most races are quietly laying out, waiting for the timing.

The tentacles of the Tianlong Palace and other big forces almost covered the entire world, and the secret fight broke out in an instant, but the fight on the surface had not yet begun.

"It's really a great world!"

"All the hidden powerhouses in the entire world are ready to move."

Su Lang looked down at the whole world, a faint smile was drawn at the corner of his mouth.

He had already made it clear about the situation and strength level of the entire world.

[Chapter 1533: All things are free in frost!](#)

The strongest existence in this universe of life is the 'Emperor.'

They are quasi-no-god-level powerhouses who have completed the fusion of soul and body, but have not entered the stage of soul fusion.

Because Liang Xiaofei does not allow such people to exist.

Therefore, he didn't release the soul and universe fusion technique, let alone a godless cultivation method.

Moreover, under Liang Xiaofei's monitoring, the wisdom races did not dare to study the exercises secretly, they could only admit their fate.

Therefore, the perfection of soul-body fusion is the upper limit of this world.

But now the ceiling has disappeared.

They can study the exercises at will and chase their dreams.

And for this world where war is about to break out.

Su Lang quickly came up with a solution.

"Once a full-scale world war breaks out, the world must be scarred."

"I don't want to talk about the strong races. Even if the weak races don't participate in the war, it is very likely that the whole race will be extinct."

"Countless years of development may be ruined, which is not desirable."

"However, now that the world has reached a critical juncture of 'volcanic eruption,' forced suppression is even more undesirable."

"Perhaps, I can follow the example of Xuan Xuan and Void Sect, and build a half-virtual and half-real world to guide this planet of life."

"..."

Thinking about this, Su Lang immediately used the clone to replace it, and descended into this world as his deity.

Soon.

Su Lang held his heart Absolutely Wufeng, and when his thoughts moved, the aura of Godlessness spread instantly!

In an instant, it was as if a humanoid planet appeared in the sky, and the terrifying power was simply unbelievable.

In this breath, the whole world sank slightly, and the boiling creatures fell directly to the ground, shivering!

"This...what is this!?"

"Such a terrifying breath, comparable to the way of heaven!"

"This is the breath of the Heavenly Dao level, whether there is a great existence of God level coming!"

"The way of heaven is dead, and a godless class comparable to the way of heaven comes. What is the connection between the two!?"

"What kind of drastic changes will the coming of Heavenly Dao level bring to our world?"

"Will the great existence help us overthrow the cruel rule of the ancient forces?"

"Or is he going to accept the surrender of those people and let the world continue to maintain the status quo?"

"The situation... is getting more confusing!"

"..."

As soon as Su Lang appeared, the whole world suddenly became quieter.

Countless creatures looked up at the sky, guessing, scared, thinking, and eager, waiting for Su Lang's supreme life and death to control everything.

Just in the eyes of everyone.

"Heaven is not benevolent, and everything is a dog."

Su Lang's indifferent voice came: "I kill the Dao of Heaven, and from now on, everything will compete freely in the Frost Heaven!"

This statement came out.

The whole world was in an uproar.

"It was this great being who killed Heavenly Dao!"

"It is He who liberated us so that we no longer live in the destiny that is destined all the time!"

"It is Him, who brings us true freedom and beautiful and mysterious unknowns!"

"Knock to the great existence!"

"....."

Countless creatures were ecstatic and bowed down to Su Lang.

And the powerful forces such as the Colorful Dragon Clan showed awe while feeling complicated. obviously.

This great existence who slayed Heavenly Dao approves of a major reshuffle of the entire world.

They, who have been in high positions for a long time, naturally immediately felt a strong crisis.

Originally, this world was about to break out of war, but some forces were still very hesitant and might not join the war.

But now, with this Heavenly Dao-level, there must be more forces participating in the war.

And at this moment.

"When the way of heaven is gone, the great world comes."

"In order to prevent the world's creatures from being overwhelmed and the common people dying, I will establish the Shura realm to fight for the world and the common people."

"All creatures can enter the Shura realm and fight with a trace of soul power, even if they fall, they will not hurt their lives."

"After the war is completely over and the situation is completely stable, the real world will be divided into territories and resources based on the situation in the Asura world."

"The Asura world will turn the imaginary into reality, become the heaven, and the heaven and earth forever!"

"Those who have a good character, a strong cultivation base and accumulated great merits can enter the heavens, comprehend the "Supreme Way of Transformation", and pursue the realm above the emperor."

"Furthermore, the people of the celestial realm will take charge of the heavenly soldiers based on their cultivation bases and merits, walk the way for the heavens, eliminate the disasters in the human realm, and protect all beings.

"In order to avoid the corruption of the heavens, every ten thousand years is an epoch, and the heavens are transformed into the Shura realm again and again, endlessly."

Su Lang sat in the clouds, overlooking the world, the voice in his mouth was not loud, but it spread throughout the planet of life.

[Chapter 1534: I will arrange the Shura world!](#)

After all beings heard Su Lang's words, they boiled instantly!

"Oh my God!"

"What a great existence is so kind and compassionate!"

"Even if the Shura Realm was specially established for us to fight together, I will not die if I fall in it!"

"Yes, in this way, we can put aside all scruples and fight wholeheartedly!"

"Although we still have to face the powerful colorful dragons and other big forces, the situation is now countless times better.

I can unite and work together to overthrow their rule! "

"Not only that, the Shura realm will also be transformed into the heavens, with noble virtues, strong cultivation bases, and great merits to enter.

With these people in charge of the heavens, most of the darkness in our human world will dissipate! "

"Yes, the great existence is true and well-intentioned, and our world will become better and better from now on!"

"I want to enter the realm of heaven, comprehend "The Supreme Magic of the Path of Transformation", control the heavenly soldiers, uphold the will of great existence, and protect the human world!"

"Worship the great existence——!!!"

"..."

Countless creatures knelt on the ground, praising Su Lang frantically.

The big powers such as the Colorful Dragon Clan were also extremely excited and grateful, and even some people instantly threw their power position out of the sky.

""The Supreme Magic Method of Huadao!""

"The supreme divine art leading to the emperor!"

"Hahahaha, I didn't have a choice before, but I must be a good man now, go to a special battle, I will do good deeds!"

"Yeah, what's the use of power or something? Who wants to go to war on his own! Um, you go to fight, and I'll be by the side to persuade people to save people!"

"..."

Whether it is the Colorful Dragon Clan, Seiya Tianmen or Tianlong Palace, there is a quasi-no-god-level who has abandoned the idea of killing Yingye and is ready to be a good person.

Although many of them have many murders.

But since they were responsible for those things because they were controlled by Liang Xiaofei's fate, Su Lang did not pursue them.

at this time.

In terms of merit, everyone is on the same level.

Seeing laughter on the planet of life.

Su Lang was also very happy. He spent a lot of time doing this, isn't it just to lead the world towards peace and kindness?

Moreover, doing so will not make the world lose its competitiveness. On the contrary, it will give the creatures a goal to move forward and promote the continuous development of the world.

"All beings are quiet."

"I will arrange the Shura world!"

Su Lang's faint voice spread throughout the planet.

Countless creatures closed their mouths in an instant, waiting for Su Lang to do it with respect and expectation.

Immediately after.

They saw an unforgettable scene!

Su Lang waved his big hand, and the brilliance swept across the sky like meteors, staying at different coordinates in the sky.

These brilliances were actually transformed by the emperor soldiers and the emperor soldiers.

Among them are the Five Elements series of Great Soldiers such as Xiaohai, Luoyou Mirror, Space Rubik's Cube, and Jianxian Cannon.

And many of the Emperor's soldiers seized from the enemy and specially newly refined by Su Lang.

Although the newly refined weapons are not very powerful, they are not bad.

Among them are a large number of emperor soldiers refined with reference to "Void Dou Chamber", "Xu Zuan Fang City", and "Xuan Hou Trial Arena".

In addition, there are Dinghai Shenzhen, Thunder Hammer, Banana Fan, Zhan Shen Gu, Bagua Furnace and so on.

The purpose is to correspond to celestial positions such as Lei Gong and Lei Mu, so that they can better hold the celestial duties and maintain peace on earth.

Now that the world is in chaos, it is easy to produce natural disasters, and these people in charge of heaven are very easy to come in handy.

At this moment.

Dozens of emperor soldiers pierced the sky, suspended in the sky, like the brightest stars.

When the strong men on the earth saw these weapons, they were stunned and in awe!

Because they had never seen so many Great Emperor soldiers.

The land of exile is relatively barren. Of course, Liang Xiaofei can't leave the materials to the people in the living universe to build weapons.

Therefore, the most powerful weapons on this planet are only a few very ordinary Great Emperor soldiers, which are refined from the corpses of the strong.

The vast majority of great emperor-level powerhouses can only possess some emperor-level weapons.

Lacking materials, they also formed a tradition of refining certain parts of their bodies into weapons.

[Chapter 1535: Can live a second life!](#)

at this time.

Everyone was shocked and dizzy when they saw the densely packed high-ranking soldiers.

In particular, there are also "Emperor-level" weapons like Luo Youjing, which is incredible.

Su Lang laughed at the shock of countless powerful men in the world, and threw the "Hua Dao Dao Jing" out, and immediately began to arrange the Shura world.

"A thought is formed!"

With Su Lang's thoughts, a large number of formations suddenly appeared out of thin air, covering the sky.

Then Su Lang used the Great Emperor's soldiers as the skeleton, the formation, the countless rules, and the power of the great avenue as flesh and blood, and gradually laid out a world!

This world is almost the same as the original "Xuanxuan Arena" and "Void Dou Room".

It even brought Su Lang's innovative spiritual Internet, which can promote the great integration of the world, the great cultural integration and so on.

But this is not over yet.

"Li Xinjue."

"A hint of twisting power."

Su Lang waved the long sword in his hand, and poured his whole body into it, condensed into a twisting force.

Soon.

Su Lang's thoughts moved, and the power of twisting submerged into the half-completed Shura realm, becoming the core.

This twisting power can only be consumed by the twisting power of the same level.

As long as it is not consumed, the Shura realm arranged by Su Lang will always exist.

Even if a few 'skeletons' such as the Five Elements Emperor's Soldiers were removed, it would not have much impact.

After the power of twisting became the core, the Asura Realm suddenly trembled, from illusion to a lot of clarity, showing a half-virtual and half-real form.

In the eyes of countless creatures on the planet of life.

A huge and hazy world appears in the sky, which makes people indistinct.

But it can be seen that this world is very huge, and the topography is very close to the real life planet.

Countless creatures were stunned instantly.

Create the world out of thin air! ?

This is the real power of creation!

Immediately, countless creatures worshiped Su Lang and turned into mad fans.

However, with Su Lang's order before him, no one dared to speak out, let alone shout in exclamation.

"The Shura world is complete."

"All creatures with spiritual power are eligible to enter the Shura realm."

"You only need to remotely sense the Shura realm with your mental power to enter it."

"However, after falling inside, you can only enter the next era."

Su Lang smiled and waved a big hand, "Now, the Shura world is open!"

With the voice of Su Lang landing.

Immediately there are a large number of creatures trying to sense the Asura world with mental power.

Immediately after.

They received a prompt from the 'Spiritual Internet': have searched the Asura world, do you want to enter?

"enter!"

A powerful spiritual warlock chose to enter.

In the next moment, he found himself appearing in an underground world, which was very similar to the place he had just stayed!

"Too real!"

"It feels exactly like the human world!"

"I can live a second life here!"

The psychic touched the tree beside him, his eyes filled with shock and excitement.

In addition to this creature warlock, many creatures have entered it.

They retained their own strength, and even their weapons were simulated, almost indistinguishable from the real world.

Suddenly.

A white dragon snake nearly 10,000 meters long slashed across the sky, and the terrifying coercion spread across the ground, making all creatures almost suffocated with horror.

however.

Immediately after they heard the jaw-dropping dragon roar

—"I am Ao Tang of the Colorful Dragon Clan, in the realm of Emperor Zun. An hour later, I will preach at Zhongbei Mountain. All creatures can come and listen to the sermon without any restrictions."

Suddenly, another emperor-class voice spread across the vast land: "Ao Tang, you are wicked, who can believe you?"

The life warlock Mingqiao, the realm of the emperor, will now explain all the profound meanings from the body quenching to the Emperor Wu. "

Finished talking.

This quasi-no-god-level powerhouse named Mingqiao actually started preaching loudly, and his voice spread for hundreds of millions of miles.

"hiss!"

"This guy, he started talking directly!"

Ao Tang was sullen, and then said loudly, "Mingqiao, your cultivation is shallow, don't make mistakes, shut up, let me talk about it!"

[Chapter 1536: This is almost the same!](#)

Finished talking.

Ao Tang also began to preach loudly.

suddenly.

"Don't fight between the two."

"In terms of exercise compatibility, the dragon vein martial artist of our Heavenly Dragon Gate is the closest to all creatures. Let me talk about it."

Another quasi-no-god-level powerhouse emerged, but it was a dragon vein warrior of the Tianlongmen.

"You fart!"

"The Great Avenue of the World has the same goal by different routes, and the Great Avenue we talked about is suitable for all living beings."

Ao Tang and Ming Qiao were originally fighting, but at this time they began to attack the dragon vein warrior in unison.

In short.

In order to gain great merit, many people have chosen the path of preaching.

However, there are also people who choose to help people diagnose their illnesses, guide others in alchemy, instruct others in refining tools, and even help others find Taoists!

Those who entered the Shura realm and were preparing to fight saw these people and things, and their faces were immediately bewildered!

As Su Lang watched the scenes in the Shura world, the corners of his mouth twitched.

Continue like this.

When will the situation be determined!

"Do good deeds in the real world."

"Now that the traffic transmission network is turned on, everyone can teleport to the designated location, and can only teleport once!"

"The transportation network will be closed in half an hour and a world war will begin!"

"Based on the Asura world situation ten hours after the start of the battle, divide the real-world territory resources."

Su Lang rolled his eyes silently and announced the new regulations loudly.

This statement came out.

The complexion of all the creatures in the Shura world has changed greatly!

Immediately after.

All creatures gave up what they were holding.

They tried to use the teleportation network to go to the designated place, and merge together to form a huge force.

In this process, almost no one started, so the fight is not counted now, and it will officially start after half an hour.

quickly.

The forces have gathered tremendous fighting power, and the atmosphere in the entire Asura world has become extremely dignified and tense.

"It's almost!"

"You fight slowly, I have something to do, so I will withdraw first."

Su Lang clicked the corner of his mouth, turned and walked into the exit of Life Universe, muttering slowly, "The road is long and long, I will search up and down."

The road is long and long, I will search up and down!

Countless creatures in the Shura realm immediately trembled when they heard this sentence.

"Even those great beings are still pursuing the goals in their eyes!"

"I will also use my hands to fight for what I want and fulfill my dream!"

"..."

The creatures who have been at the bottom for a long time rise up to fight and use their own hands to fight for status and resources!

"What are the great beings pursuing?"

"What an incredible goal that would be?"

"I just want to enter the heavens. Is this goal too small?"

"The significance of the great existence of the heavens lies in the development of the world, yes, that is what I should pursue!"

"The battle of the Shura world is a necessary process for the iteration of the world. I should understand this and actively participate in it."

"However, we can no longer oppress other races for no reason and forever. We must find the races with merits and release water for them. Other races must also leave them a way out."

"This is what the future master of the heavens should do!"

"..."

Many powerful emperors had such thoughts.

They have already substituted themselves into the identity of the master of the heavens, and have begun to consider the development and growth of the entire world.

have to say.

Su Lang's strategy was very successful.

This godless universe of life will become more and more prosperous.

He believes that the strong inside will bring him great benefits.

The other side.

After Su Lang left the universe of life, he appeared in the world of Exile.

"The pupil of ten thousand worlds!"

Looking at the Godless Universe and thousands of other life universes in his hand, Su Lang directly activated the pupil of ten thousand worlds.

Anyway, it will not affect the clones to dig out the treasures on the abandoned life planets.

Wow!

Thousands of life universes were divided into two equal batches, and they were simultaneously submerged in Su Lang's left and right pupils!

They will be irrigated by the rules of Su Lang Dao in Su Lang's pupils, becoming more and more stable.

[Chapter 1537: The particularly mysterious big sun and sky map](#)

at this time.

There are six hundred universes of life in Su Lang's pupils!

They turned into tiny spots of light, adding a lot of luster to Su Lang's deep eye pupils.

"Tsk tut!"

"I am alone now, almost everyone can call it a little thousand world!"

Su Lang smiled brightly, and immediately began to check other gains.

A glance at the storage space.

With a thought, Su Lang took out the books.

These classics are the secret techniques obtained by destroying Wushuanglou.

There are simply countless exercises below the immortal level, but for Su Lang at this time, they are basically useless.

The emperor-level exercises can be used to synthesize the emperor-level exercises. Try your luck to see if you can synthesize a useful exercise.

"Well."

"There are a total of 3,300 newly obtained non-synthetic emperor-level exercises."

"Tsk tsk, I didn't expect that just a Wushuang building could have so many emperor level techniques."

"The total amount of the emperor-level exercises I obtained from the three worlds of Antian, Zhetian, and Hongtian was only more than 300."

"It is estimated that only this vast place of exile can a large number of exercises emerge in each cycle."

"Three thousand three hundred emperor level exercises can be combined into three hundred and thirty great emperor level exercises!"

"I hope that there will be something useful in these exercises."

"..."

After sighing, Su Lang took a deep breath, as if waiting for the draw, began to synthesize these exercises.

"Ding! After the synthesis is complete, you will obtain the Great Emperor-level technique "Blood Rainbow Crane Secret Technique"."

"Ding! After the synthesis is complete, you will obtain the Great Emperor-level technique "The Secret Sutra of Cultivation of Qingyun"."

"Ding! The synthesis is complete, you get..."

"Ding!....."

Accompanied by the sound of the system prompts, a copy of the original emperor-level exercise method appeared in front of Su Lang.

These were originally all odd and strange, containing countless mysterious Taoist rhymes, and the average great emperor-level powerhouse would have their eyes straight when they saw it.

But Su Lang was a little bored.

Because he has practiced enough great emperor level exercises.

Various methods have reached the limit of quasi-no-god level.

Even if he practiced a lot of great emperor-level techniques, the improvement in combat power was very unobvious.

Therefore, these great emperor-level exercises, which seemed extremely rare to others, were tasteless in Su Lang's eyes, and it was a pity to discard them.

In a blink of an eye.

Three hundred and thirty great emperor-level exercises have all been synthesized.

As expected.

There is still no practice related to the time rule.

Su Lang also knows that the time rules are very powerful, not at this level, so he didn't hold any expectations.

"Let's see if there are any exercises available."

Su Lang slowly took the three hundred and thirty Great Emperor-level exercises in front of him, and looked over them one by one.

"Fudo Without Shadow"? It's useless!

"Secret Technique of Chongxu Wind Dance"? It's useless!

"Fuji Tianwang Xuan Gong"? The second name is useless!

"The Secret Record of Voldemort"? What a sinister method, but unfortunately it is also tasteless.

"Six Purifying Axis"? A spiritual exercise that can only be practiced by cutting off the six roots? More ruthless than the Sunflower Book of Swordsmanship!

"Lying down!"

"Is there no great emperor-level technique that can enter my eyes?"

After Su Lang passed all the Great Emperor Level exercises, he threw them aside and never looked at it again.

Fortunately.

The non-Chief also has a moment to stand up!

A great emperor-level exercise technique called "Great Sun Haotian Tu" entered Su Lang's eyes.

Just looking at the name, you know that this exercise is very powerful.

After some reading, Su Lang's eyes shined even more!

Because this exercise is actually a mysterious exercise closely related to the sun.

In fact, there are many exercises related to the sun, and many creatures practice exercises that can absorb the essence of the sun and the moon.

But this exercise is particularly mysterious!

Even in its opening chapter, it even explained the origin of the sun in the endless universe!

According to this exercise record, there is actually only one sun in the boundless universe, and that is the boundless sun!

Infinite Haori exists in the Infinite Realm, possessing the most powerful kind of compound heaven in the entire universe.

The sun in the center of the rest of the star field is all split from the boundless sun!

And the suns of those planets in the star field are mostly the regular avenue projections of the star field sun!

The same existence as Wuyin Haori and Wuyin Dayue.

The boundless bright moon also differentiated into the moon in each star field, and projected on each planet, sprinkling the essence of the moon.

[Chapter 1538: This exercise must be practiced!](#)

"Lying down!"

"No wonder... No wonder I didn't see the sun in the outer space of Canglan Star, and there was only one satellite."

"It was the first time I set foot on the land of Canglan Star, and the sky was clearly twin moons!"

"Jing Tian Xing, Tian Can Xing, Dong Zhen... even the dark sky covering the surroundings of powerful planets like Tian Hong Tian, there is also no sun."

"Only the obscuring star has a huge white moon, but that is not the real moon."

"Because the white moon does not contain the essence of the moon, it has ample aura, equivalent to another extraordinary planet."

"The sun and moon of all planets in the star field are the regular avenue projections of the sun and moon in the center of the star field!"

"And the sun and the moon in the center of the star field are the sub-body differentiated from the endless Hao Sun and the endless Haoyue."

"Sure enough, it is exactly the same as my perception in the solar system a long time ago. The sun and the moon are the basic rules of the universe and one of the most important and powerful avenues!"

"And the sun and the moon in the solar system are probably the sub-body of the infinite Hao Sun and the Infinite Haoyue!"

"Lying down, I feel like I have made a lot of money!"

"..."

After reading the opening chapter of "The Great Sun Haotian Picture", Su Lang felt that many of his doubts had been solved.

This also made him have greater expectations for this exercise.

After reading it carefully, Su Lang finally learned more about it.

This exercise has only one function, and that is to absorb and transform the sun's energy to the greatest extent!

This ability to absorb and transform is more powerful than "Innate One Qi" with the same function because of professional counterparts.

Of course, other aspects of the characteristics are no better than "Innate Qi".

"Daily Haotian Map" is a practice specially created to absorb solar energy.

Practitioners can go to the surface of the sun to absorb energy at high depths.

As the strength grows stronger, you can even live in the sun and become a creature of the sun. It is not an exaggeration to call it the sun god!

"Love, love!"

"This exercise must be practiced!"

"After practicing, the speed at which I can recover my innate qi will increase many times."

"At that time, the cooling time of the Universe Annihilation Finger will be greatly reduced, and my combat power is equivalent to a lot higher invisibly!"

"..."

Su Lang smiled excitedly, and put the "Great Sun Haotian Picture" carefully.

Immediately after.

He checked other great emperor-level exercises.

Not only the combined exercises, but also the exercises seized from Lin Fang and others, I also read them all.

For example, "The Book of Emperor Haotian Jianmu", "Yuelan Wuwang", "Deng Yin Zhan", "Burial Flower Song".

And from Liang Xiaofei's godless-level exercises "Withered Wood Condensation of Source and Fate", "Xie Long Ce", "Lian Xu Tian Long Jing".

The emperor-level exercises "Nine Dragons Breaking Star Jue", "Nine Heavens Royal Dragon Jue", "Reincarnation Yongqing Jue" and so on.

Nothing can compare to the "Da Ri Hao Tian Tu" in the combined exercises.

The exercises obtained from Liang Xiaofei's master and apprentice were pretty good.

It's a pity that except for "Dead Wood Condensation of Origin and Life", "Deng Yin Zhan" and "Reincarnation Eternal Qing Jue", the rest of the exercises must be practiced by the dragon and willow.

of course.

This harvest is not bad.

Among them, "Reincarnation Eternal Qing Jue" had a great effect on Su Lang.

This exercise was created in a place of exile, and its purpose was to cross the reincarnation age with a fleshy body containing endless vitality.

A great emperor can obtain countless vitality after completing this exercise.

Life expectancy will far exceed the limit of 2 billion years for the Great Emperor, reaching 2.5 billion years or even longer.

This life span has approached the life span of the newly promoted godless class.

Coupled with the godless secret technique of "Withered Wood Condensation of the Source of Life", it can greatly delay the attenuation of life span and allow the practitioner to live longer.

This is also the reason why Liang Xiaofei was able to cultivate to the godless level in the last reincarnation era, and he could live for more than a billion years in this era.

And these two methods of improving and prolonging lifespan actually have a great relationship with the origin of life and soul.

Otherwise, it is absolutely impossible to improve or delay life.

Therefore, for the extremely young Su Lang, the greater effect of these two exercises is to enhance the origin of life and soul.

These two sources are more important than the existence of appearances such as vitality, soul, breath of life, and spiritual power.

[Chapter 1539: Forty-level clone dispatch function!](#)

"These two exercises must also be practiced."

"Forget it, "Deng Yin Zhan" is not as good as Yinlin Xishou."

After some selection, Su Lang added "The Great Sun Haotian Map", "Withered Wood Condensation of the Source of Life" and "Reincarnation Eternal Qing Jue" into the list of exercises for the next time.

"In addition."

"I also got three non-synthetic godless-level exercises."

"If you put together ten, you can...maybe, maybe you can synthesize too basic exercises!?"

Taking into account the difficulty of synthesizing Godless-level materials, Su Lang was not sure that ten godless-level exercises would surely be able to synthesize a primordial level exercise.

"Well."

"I don't want these useless."

"The exercises such as "Returning to the Nature and Returning to the Godless Record" that have just been placed have not been practiced yet!"

"..."

While thinking about it, Su Lang gathered all the exercises into the storage space, and then began to check other gains.

"Uh."

"Unexpectedly, it was almost counted, only Xianyuan was left."

"This Liang Xiaofei is also true. He was obviously a big man in the last reincarnation era. He didn't even have the Supreme Emperor's soldiers on his body. He felt that he had lost many billions."

"..."

While complaining, Su Lang issued an instruction to the system, "System, save all Xianyuan, oh and Diyuan! Deposit me in the balance!"

"Ding! All Xianyuan Diyuan has been deposited!"

Wow!

I saw the number behind the balance grew wildly, reaching a full ten digits-1.1 billion!

suddenly.

"Ding! The current unit balance is huge, and it has been replaced with a higher-level currency unit, the "Lower Emperor Yuan"!"

Immediately, the tens digit suddenly lost four digits.

The final number is 116340, the subordinate Emperor Yuan!

"Diyuan..."

"The powerful energy spar condensed only by the martial artist who perfectly merges the soul!"

"Under normal circumstances, only the godless level can the soul and universe blend perfectly."

"In other words, the source of the things of Diyuan is basically condensed by the godless powers."

"Tsk tsk, it's so precious!"

"..."

Su Lang held a subordinate emperor source, and he kept tweeting!

of course.

No matter how precious it is, it must be used.

"The clone dispatch will be level 40 soon!"

"I don't know what new features will be available?"

"The system, immediately upgrade me the dispatch function of the clone!"

Su Lang ticked the corner of his mouth and directly issued instructions to the system.

"Ding! Consumption of 100 million superior fairy sources, the clone dispatch function is upgraded to level 40, the number of clones +1, the current number of clones is 40, and the number of clones is 40!"

"Ding! Congratulations on upgrading the clone dispatch function to level 40. You have obtained the new bonus function "Xing Cuan Yun He"!"

"Xingcuanyunhe: You can specify a certain number of clones or avatars to merge into one. The more clones and avatars, the stronger the merged clone!"

"Note: The combination of stars and clouds does not affect the swallowing clone function; but the clone can only be integrated with the clone, and the avatar can only be integrated with the avatar!"

Department reminders came one after another, which immediately surprised Su Lang!

"Lie noisily, the stars and clouds converge!"

"Even the clones and the avatars can merge with each other!"

"I'll go, this is a magical skill just like Baiying's clone!"

"Baiying clones have increased in quantity and decreased in quality, and this function is to reduce the number of clones and improve the quality of clones!"

"Moreover, this function does not affect the swallowing clone function, that is to say, even if the clones fuse together, I can swallow the merged clone!"

"..."

Su Lang looked at the description of the new function and couldn't help laughing.

Xing Cuan Yun He can be seen as a supplementary feature of Devouring Doppelganger.

Before getting this function, the clones' strongest combat power was only the same as Su Lang in their daily state.

So in many battle scenes, it can't help.

But now it is different.

The clones can merge with each other to form a stronger combat power and become a better helper for Su Lang.

Moreover, there are other unexpected effects when this function is used well!

"Beautiful!"

"My system is getting better and better! Amazing, amazing!"

Su Lang's face was full of crooked smiles, and he was extremely satisfied with the new functions.

[Chapter 1540: Are you also investigating this war?](#)

Immediately after.

Su Lang was very happy to refine the fairy-level parts of the super humanoid weapon.

Time passed slowly.

Just when Su Lang's leisurely refining parts enjoy the one-key training function to automatically cultivate, and the one-key synthesis function to continuously synthesize materials.

Wushuanglou on the edge of the battlefield.

A fat man with eyes full of eyes and a golden knight riding a white flying horse meet unexpectedly.

"It's you, ten thousand eyes ghost!"

"Unexpectedly, your soul-body fusion will complete."

The golden shining knight looked surprised, but showed no hostility.

Even though he represents the light, and the ghosts with all eyes are evil.

At this level, who can distinguish good and evil so clearly?

The idea of black and white is too naive.

"Light?"

"I didn't expect to see you here."

"The cultivation base is thanks to my master's support."

"Of course, there is still the power of time. We haven't seen each other for 500 million years."

Wanyan Ghost is also not malicious, just like meeting an old friend.

"haha, yes!"

"time flies."

Xing Guang smiled bitterly, "The time of cultivation is coming to an end day after day and year after year."

"There are still hundreds of millions of years to live."

Wanyangui smiled and said, "You have to hurry up and enjoy these wonderful times."

"The soul stage is not something I can enter."

"So, I am already enjoying it. My life in the Bright Church is very comfortable."

Ying Guang's face was full of smiles, but his eyes were a little helpless and unwilling.

"That's already good."

Wanyangui shrugged, "By the way, I was ordered by my master to investigate the battle here."

"The master seems to attach great importance to this battle, and deliberately used twisting power to help me on the road."

"Are you also investigating this war?"

Xian Guang smiled, "Me too, and the leader also attaches great importance to this battle."

"Ok."

"It may be because the reincarnation has entered an advanced stage."

Wanyangui nodded, "So, every time a Godless battle becomes very sensitive."

"I also think so."

Yan Guang agreed, and immediately said, "Not much to say, go and see what happened here."

This statement came out.

The expressions of the two suddenly became serious, and then they walked together into the battlefield full of energy storms and terrifying rules of vision.

"The breath here makes me very scared."

Ling Guang closed her eyes, feeling the remaining breath around her, and her vellus stood up.

The white Pegasus riding under him shook constantly and even began to twitch.

It should be known that this flying horse also has a cultivation base of the Seven Great Emperor's level, and it seems that it also possesses some special bloodlines, and is a top-notch existence among its peers.

"This is a godless battlefield!"

The eyes of the Wanyangui are full of promotion and awe, "Even if the godless soldiers are used, it is not a battle at our level."

"Well, be careful."

"If there is residual twisting power, we are dead."

Ying Guang nodded, and collected the white Pegasus into the universe of life, and then took out an hourglass with the size of a palm.

This hourglass was very strange, it was empty, and it didn't contain anything.

However, it is a quasi-no **** soldier!

"Comb the cloud hourglass!"

"I didn't expect you to have this weapon now!"

Ten thousand eyes ghost laughed and said, "With it, I can sit back and enjoy what I have done, thank you very much!"

"I hope I can get useful information." Xuan Guang smiled.

Soon.

Under the gaze of Ten Thousand Eyes Ghost.

Ling Guang uses an hourglass to collect a lot of things in the battlefield, including energy, breath, rules, land, air, and so on.

Basically everything was collected and put into the comb cloud hourglass.

Immediately after.

"Comb the cloud hourglass, sick!"

Heng Guang pinched the tactics with both hands, and the golden light merged into the comb cloud hourglass, followed by infinite Di Yuan.

The comb cloud hourglass immediately began to move.

Under the action of golden lights, all the objects in the upper part of the hourglass began to desert and gradually fell into the lower part.

These sand grains that entered the lower half of the hourglass turned into strands of different colors.

Ying Guang stared at these strands of colors, her eyes flickering, as if she was calculating something.

After a while.

Everything in the upper half of the hourglass fell to the lower half.
