

One Click 1541

[Chapter 1541: The person who killed Lin Fang is really scary](#)

"how about it?"

"Do you see anything?"

Wanyangui asked expectantly.

"Inferred."

"The Wushuang original poster fought a life-and-death battle with another great power who entered the stage of soul fusion!"

"Both of them held Godless Soldiers, and there was more than one confrontation."

"Finally, the Wushuang poster fell!"

The more Xing Guang said, the more his voice trembled.

"The Wushuang poster has fallen!?"

"This... how is this possible? Wushuang poster Lin Fang has a godless soldier, how could he fall!?"

"Even if he can't beat him, he won't be lost!"

Wanyangui's face is full of disbelief, and the dense eyeballs on his body are all widening, almost bursting out.

"I can't believe it either."

"However, the information I deduced is that the original Wushuang poster has fallen!"

Yan Guang's face was also full of horror, "Or, should you try again!?"

"This result is really incredible, I'll try it!"

Wanyangui nodded, and suddenly all the eyes on his body were massive, ejecting countless months of white light.

These rays of light carry a very powerful insight ability and seem to be able to perceive everything.

but.

The consumption of using this ability is terrifying, and the Ten Thousand Eyed Ghost only has to use it for a short while before it has to stop.

"how about it?"

Xu Guang asked immediately.

"This....."

"Indeed, it really fell!"

Wanyangui took a deep breath, his eyes trembling all over, "Lin Fang, who claims to be unparalleled in the world and in charge of the supreme wishful lantern, really fell!"

"My goodness!"

"Lin Fang really fell!"

"He is not much worse than our master!"

Shuguang took a cold breath, "Such a strong man was killed by a warrior of the same level, it is incredible!"

"The person who killed Lin Fang is really terrifying!"

"However, he should have paid a great price!"

Wanyangui continued, "I can feel that the world is filled with a vast and majestic breath and energy that bursts out instantly. It should be that unknown powerhouse who has used an incredible secret technique!"

This statement came out.

Xuan Guang nodded in agreement: "Even if you can't feel the sudden burst of breath, you can guess this."

"Ok."

"This existence should be seriously injured, and it is not impossible that it is even near death."

Wan Jinggui looked solemn, "Let's go elsewhere to see if there are new clues."

"such."

"I will continue to investigate here."

Ling Guang thought for a moment, "You go outside to find those survivors in Wushuang Building to investigate."

"pretty good idea."

"Then we make an appointment."

Wanyangui smiled, "After an hour, gather at the place where you met before."

"it is good!"

Ying Guang nodded immediately.

Soon.

The Wanyan Ghost left the battlefield and went around to search for the surviving strong.

Xu Guang continued to investigate in the battlefield with a comb cloud hourglass.

An hour later.

The two met at the place where they first met!

"I only got the purer aura from the mysterious powerhouse."

Xin Guang's face was a little embarrassed, "There is no more information other than that, where is your side?"

"Have!"

"I learned that the Wushuang original poster did not have any hatred against any powerful person of the same level."

"Moreover, the mysterious strong man appeared suddenly, and the scope of his actions is also very narrow."

"I think that mysterious strong man may have flown here from the boundless universe."

"Ling Guang, you also know that the powerhouses in the boundless universe are very rich."

"I guess Wushuang's original poster coveted the other party's wealth and provoked the other party, but was killed instead."

Wanyangui seriously analyzed it and really guessed part of the truth.

"In this case."

"Your guess is very possible."

Xi Guang nodded in a groan, "Now the information collected is almost the same, it's time to go back."

"Haha."

"Then see you next time."

Wanyangui and Ling Guang greeted him, and the streamer disappeared into the sky.

Xu Guang also hurried to Guangming Church immediately.

of course.

They don't wait until they return to their lair to report the information.

Such important events must be reported immediately.

Therefore, as soon as they set off, Ling Guang and Wanyangui reported the results of their investigations to the leader of Guangming and Emperor Gouyue respectively.

And the two are far apart. After receiving the news, the big brothers suddenly stood up together! !

[Chapter 1542: My two teamed up to kill this dog!](#)

"what!?"

"The person who fought with Lin Fang is suspected to be a strong man who just came from the boundless universe!?"

"Moreover, that fellow Lin Fang was actually beheaded!?"

"It's impossible. Although Lin Fang is a rising star, how could he be so easily defeated when he is in charge of the Supreme Ruyi Lantern!?"

"The last time this existence fell, it was 500 million years ago!"

"..."

In the eerie moon-white plain, the bald head is bright, the face is charming, and the emperor Gouyue is shocked. "

at the same time.

"Light!"

"Are you sure the results of the investigation are correct!?"

"Lin Fang himself has dragon veins, and he has no **** soldiers, how could he die so easily?"

"In addition, that mysterious strong man really fell from the boundless universe to the exile!?"

"..."

In the southeast, in the white temple, the Guangming leader wearing a platinum cloak narrowed his eyes, and a golden long sword in his hand waved gently.

Although both Emperor Gouyue and Guangming hierarch expressed disbelief.

However, they still trust their henchmen very much.

So the two have accepted this result from the bottom of their hearts and began to think about what countermeasures they should make.

"According to the survey results."

"Lin Fang completely fell in that great battle, but that mysterious emperor was absolutely uncomfortable."

"Just judging from the huge surging energy torrent, you can be sure that the mysterious great emperor has definitely exhausted his cards and tried his best."

"Lin Fang is not a lamb waiting to be slaughtered without resistance. He must have done damage to that mysterious emperor during the war."

"In other words, the great emperor is now very likely to be seriously injured, and consume all of his energy, even the creatures in the universe of life have been squeezed clean."

"As a result, the current state of this mysterious emperor must be the weakest moment in his life."

"This is a great time!"

"..."

The bald-headed Emperor Gouyue hooked his mouth, revealing a coquettish smile.

The land of the southeast.

In the white temple.

The speculation of the leader of Guangming is similar to that of Emperor Gouyue.

"The mysterious emperor is very weak now, and his combat power has fallen to the bottom."

"After killing Lin Fang, he should have left the battlefield immediately, but he couldn't leave too far. He needs healing and needs to recover!"

"And he comes from the boundless universe, and he killed Lin Fang, there must be so many good things on him."

"Aside from anything else, this person has a godless soldier. After killing Lin Fang, he must have taken the Supreme Wishful Lamp. These two weapons alone are infinitely valuable."

"This is a great opportunity. If I get something good from him, I will definitely be able to go further!"

"However, this person can kill Lin Fang, even if he is seriously injured, he must not be underestimated."

"He may not be able to beat me, but he is likely to have the ability to escape."

"If I want to make sure that he can't escape, I must find a helper."

"Xian Guang said that he encountered the Ten Thousand Eyed Ghost, Gou Yue's subordinate, then Gou Yue will definitely be interested in that strong man."

"Rather than being hostile to each other for the prey and letting the prey escape, it is better to join forces to kill the prey first and then discuss the distribution of benefits."

"..."

The leader of Guangming thought so and immediately contacted Emperor Gouyue with mysterious means.

"Friends of the moon."

"It turns out to be a fellow Guangming Daoist."

"What does Fellow Daoist think of the invading power who killed Lin Fang?"

"Although Daoist Lin Fang has a lot of friendship with me, he is still a Daoist friend of mine. Now that he is dead, he naturally wants to avenge him."

"I also have this intention. The existence of that deity will slaughter as soon as it appears. In order to avoid the exile, this person must be removed."

"Yes, I have collected a breath of that person from here, and the person's location has been determined. He is 17 million light years away and is already close to the eastern border of the Exile."

"Even so far? He was almost about to enter the unknown time and space. It seems that he must have used some kind of secret technique to run so far, but it is a pity that fellow Daoist is better, and he can find the position of that person in one go. ."

"Hmph, this person is close to the east edge, as long as I wait for him to surround him, he will have no escape!"

"Then I two will join forces to kill this scorpion, to eliminate the harm from the heaven and the earth, after the event is over, I want the supreme wishful lamp..."

[Chapter 1543: A crossing of Godless Soldier Youtian Sword!](#)

"..."

The two tycoons who ruled over millions of light-years quickly set the tone, positioning Su Lang as a foreign invader and agreed to crusade.

As for time, it is now!

For the leader of Guangming and Emperor Gouyue, it is natural to take advantage of the emptiness to attack Su Lang.

Therefore, without further ado, the two of them set off before Ling Guang and Wanyangui returned! at the same time.

Two more terrifying powers also came together.

Che Chenghua and Zong Wenshan, with full of killing intent, are bound to make Su Lang pay the heaviest price.

Of course, the distance between these two people is farther.

Even if they were truly Godless Grade and even Godless weapons, it would not be possible for them to cross such a long distance in a short time to reach Su Lang.

And just as a great power of terror has been killed.

Su Lang was still practicing leisurely.

To be precise, it is refining fairy-level parts in various poses.

By the way, let the one-key practice function move by itself, and save countless cultivation skills for yourself.

It's just that the cultivating villain in the mysterious space is always golden.

Su Lang didn't know how many cultivation bases he had accumulated that would allow him to break through from the Quasi-Great Emperor to the realm of the Great Emperor.

"Ugh."

"Although it looks a lot."

"But it's not enough!"

"Not only does it require countless cultivation skills to condense the avenue."

"There is also a 'Ten Realms as One' which also needs a lot of cultivation base!"

"I have to break through, from a great emperor to a quasi-no-god, from a quasi-no-god to a godless..."

"Even if these are all completed, we still need to help Chu Xiaobei and the others improve, otherwise, with their cultivation as the realm, their life expectancy will be less than a fraction of mine."

"Oh, if I'm not so poor, if I can get rich overnight, the one-key practice function can be upgraded to a higher level."

"..."

Su Lang changed from lying on his side to lying on his back, but he still didn't feel fast enough for the one-key practice function.

suddenly.

"Ding! After the synthesis is completed, you will get Godless Grade material, Mountain Destructive Milk*1!"

This system prompt surprised Su Lang's expression and instantly bounced off the ground.

"This is the last material needed to evolve the Youtian Sword!"

"Hahahaha, the materials are finally ready, I can finally evolve the Youtian Sword!"

Su Lang's eyes lighted up, and immediately put away the various immortal parts and cauldrons all over the floor.

Soon.

He took out the Youtian Sword again, placed it in his palm, and stroked the sword lightly.

This baby weapon can be upgraded again!

"the host!"

"Why are you looking at me so excited!"

"Ah, don't touch me, master, you are so bad, I like it!!"

"..."

Xiaoyou's shy and infinite pomp came from the Youtian Sword, and I don't know what he thought Su Lang was doing.

"Ahem."

"Xiaoyou, be quiet."

"I will not do anything indescribable to weapons."

Su Lang rolled his eyes silently, "In addition, you are now mentally prepared, I will help you promote to Godless level!"

"Really!"

"Wow, Xiaoyou is so happy!"

"Xiaoyou was promoted to the quasi-no-god-level not long ago, and now he is going to be promoted to the non-god-level again, great!"

"Master, Xiaoyou... Xiaoyou is ready, Master, come on!"

Xiaoyou heard Su Lang say that he was going to be promoted for herself, and she became even more excited, even her voice trembled slightly.

"Stop it."

"Be serious."

Su Lang took a deep breath, the expression on his face gradually calmed down, as if he were calm.

Seeing this scene, Xiaoyou also suppressed the restless mood, slowly calming down.

After a while.

"system!"

Su Lang opened his eyes and gave instructions, "Keep the characteristics of "Defensive Breaking Dead", "God Slashing" and "Indestructible", and evolve the Youtian Sword into the Supreme Soldier!"

"Ding! Consumption of Godless Grade material Tianxiao extremely cold jade*1, mountain-destroying milk*1, mysterious demon sky you gold*10, and vein-sealing Youlin bone*10...

Great Emperor level refining materials: Quasi-Great Soul*8, Great Emperor*100, Wudi Soul*100000...

The Youtian Sword evolved into a soldier of the Supreme Emperor! "

[Chapter 1544: The law of true incense is terrifying](#)

In a flash.

A splendid brilliance glided across Youtian Jianjian.

Where Guanghua passed, the sword body was completely new, showing a completely different texture!

When Guanghua disappeared completely.

Seeing that all over the sword body, the lines that turned the entire Youtian Sword into jet black began to fade quickly.

exactly.

It was gathered in the eyes of the sword grid.

It was as if those two eyes in the sword grid were constantly devouring those black lines.

quickly!

The whole body is pitch black, and the Youtian Sword, which is completely invisible in the dark, becomes pure white with a crystal clear feeling.

A trace of terrifying energy flow is faintly visible in the sword body, once it breaks out, it is enough to destroy the world!

"Wow!"

"Master, Xiaoyou's body has turned white into a crystal clear white, so beautiful!"

"Hahaha, Xiaoyou no longer has to worry about being dark!"

"..."

Xiaoyou, who found that she had changed, was extremely excited in an instant.

"Yes, it's back to white!"

"I remember you were white from the beginning, this is also a return to the basics!"

Su Lang stroked the crystal clear blade with a feeling of coldness.

However, the hilt of the sword gives people a delicate and soft feeling, which is very close and full in the hand.

at this time.

"Master~!"

"Xiaoyou is so happy, Xiaoyou loves you!"

Qi Ling Xiaoyou flew out of his body with excitement, and rushed to Su Lang's face.

Suddenly.

A good smell came over.

Followed by that, there is the tenderness that makes the mind rippling.

"I go!"

Su Lang's eyes widened immediately, "Could it be that this is the legendary facial cleanser!"

"Haha~"

"Is the master stunned?"

Xiaoyou laughed loudly, "It seems that the master is very satisfied with Xiaoyou who has flesh and blood!"

"cough!"

"Hurry down, come down!"

Su Lang raised his eyebrows, coughed lightly, and placed Xiao You upright in front of him.

At the same time, he said silently in his heart: The law of true fragrance is so terrifying!

Su Lang looked at Xiaoyou after the promotion.

However, Xiaoyou's image has not changed much.

She is still the image of a fair-skinned girl in a large black robe.

The pretty face is made of powder and jade, the vermilion lips are like cherry blossoms, the white teeth are looming, the eyebrows are like distant mountains and daisies, and the eyes resemble the horizontal waves of autumn water.

Dai-colored straight hair is as smooth as a waterfall, reaching the waist and hips; a pair of small hands are velvety white and slender as if boneless; the collarbone in the collar is slender and beautiful and white; the black robe in the heart seems to be full of fragrance and round; the jade feet under the robe are exquisite and pink, as jewels.

However, there is no longer a trace of unreal illusion.

Standing in front of her was a lively young girl with flesh and soul.

"Not bad!"

Su Lang smiled brightly, "Congratulations, Xiaoyou, you are finally an adult."

"Hmm~"

"Master will use it now!?"

There was a smile in Xiaoyou's thrilling eyes.

"Go go, don't tease me."

Su Lang rolled his eyes, and he immediately heard Xiaoyou teasing him.

"Humph!"

"It's obviously a pervert who controls everything!"

"Forget it, Xiaoyou is waiting for the master to use it anytime~"

Xiaoyou made a face at Su Lang, and then returned to the sword.

"This is too skinny!"

Su Lang helplessly spread his hands.

This Nizi is so instinctive, she has a lot of poems, she is really unsaved.

Of course, there is no need to save, anyway, Xiaoyou is only doing this to him, and there is only one word for others, kill! !

Immediately after.

Su Lang began to check the characteristics of Youtian Sword after its evolution.

The three characteristics of "breaking defense or death", "slashing god" and "indestructible" have reached the godless level.

Among them, the strongest is the 'breaking defense and death' feature.

This feature actually has two capabilities.

The first ability is 'breaking defense', which gives Youtian Sword a super strong ability to break defenses. Don't even want to defend against the soldiers of the same level!

Even the soldiers of the Erdu Supreme Emperor could not defend against Youtian Sword for a long time without the power of twisting.

The second ability is 'immediate death'. Once the Youtian Sword breaks through the physical defenses, even if it's just cut out a trace of wounds, you don't want to live.

[Chapter 1545: Unkind chaser](#)

It should be the characteristic of 'indestructible' that ranks after 'breaking defenses and death'.

The indestructible characteristics make Youtian Sword difficult to damage, which is very important in leapfrog battles.

The last "God Slash" feature is actually a supplementary feature of "Break the Defense and Die".

Because it is usually activated when the enemy is beheaded and the soul wants to escape, it can kill the enemy's soul and destroy its deity!

This ability has now been greatly improved, even if the opponent is the "Emperor of Incense" and has prepared countless incense recovery methods, it is useless.

Because 'God Slashing' is already like a sword without the edge of the heart, it can kill the soul source.

Moreover, Youtian Sword can also condense the power of distortion.

And because the level of Youtian Sword is higher than Xin Jue Wu Feng, the condensed twisting power is more and stronger!

of course.

It's not that the mind that has evolved with a lot of materials is useless.

Xin Jue Wufeng's mental attack ability is stronger than Youtian Sword's 'God Slashing' characteristic.

Because he can get Su Lang's mental power perfusion enhancement.

The Youtian Sword's "God Slashing" feature is activated by itself.

Therefore, Youtian Sword's specialty lies in physical attacks, and Xin Jue Wu Feng's specialty lies in spiritual attacks.

The conflict between the two is very small.

In addition.

Xin Jue Wu Feng can condense the power of distortion, which is an absolute weapon.

When fighting, you can use the Youtian Sword to condense the power of distortion, and at the same time condense the second power of distortion with your heart!

Gee!

Double the twisting power, double the powerful attack, it is not too fragrant!

"Beautiful!"

"There is only one defensive Godless Soldier in terms of weapons!"

"When the materials are enough, I will promote the Heavenly Eight-Edged Shield!"

"This guy's characteristics are against the sky, but his level is a little bit low, and it's not used in many cases. It's a pity."

"..."

While thinking about it, Su Lang hung the Youtian Sword around his waist, and he was about to continue refining fairy-level parts.

however.

The Youtian Sword suddenly became smaller and flew up, tying Su Lang's hair together into a bun.

"what?"

Su Lang's expression moved, and he smiled, "Xiaoyou, you actually helped me tie my hair, so sweet!"

"Hmm!"

"Xiaoyou loves her master the most!"

Xiaoyou smiled happily, but said in her heart, "Huh, Ben Guliang shouldn't be hung around her waist like Li Xinjue, even if one person can't do it, I want to be higher!"

By the way, it's so comfortable to make a nest with the owner's hair, ah, I can't stand it~"

Su Lang didn't know that Xiaoyou was extremely happy on his head.

He took out the cauldron and the materials, and practiced the fairy-level parts of the super humanoid weapon.

"Soul-body perfect fusion can reach the level of quasi-no-god."

"A single part of a super humanoid weapon is a cell, and it is a cell containing aura, which is equivalent to a perfect fusion of soul and cell."

"In other words, when the super humanoid weapon is completed, it will at least be an emperor soldier of the perfect soul-body fusion level!"

"Well, this is just the worst guess, maybe it can reach a higher level."

"..."

With strong expectations, Su Lang kept refining parts.

Time passed slowly.

When the 40,000th part was refined by Su Lang.

Rumble! !

The world suddenly changed!

A ripple traverses the sky, sealing all the sky and the earth around the 100,000 light-year area!

What forms the seal is a stream of boundless energy and two strong twisting forces.

At first glance, it is clear that this is a sealing method that has been deployed for a long time!

Such a powerful seal, even the Godless Grade would take a lot of hands and feet to break.

"Ha ha!"

"Someone actually did something to me!"

"This force...a twisting force, no god?"

"In other words, it is a quasi-godless class with a godless soldier."

"It seems that the previous battle really attracted the attention of many people."

"Someone has chased them directly, and I don't know what it is to Lin Fang."

"..."

Su Lang raised his eyebrows. Although the opponent was bad and well prepared, he was not worried at all.

He even collected everything slowly before flying into the air.

[Chapter 1546: There is no reason to sin](#)

suddenly!

Two streamers, one from the north and the other from the south, pierced the sky, turning into two men exuding a sense of terror.

One had a bald purple robe, a charming face, and even the corners of his eyes were painted with pink rouge.

One is sturdy, with a fortified face, wearing a white-gold cloak, like a resurrected God of War.

Who are these two people if they are not Emperor Gouyue and the leader of Guangming?

They hurriedly hurriedly found Su Lang and arranged a seal barrier before they appeared.

"Vertical!!!"

"It's you, who killed Daoist Lin Fang in Wushuanglou!!!"

"You are the scourge of the boundless universe, you have been banished here without stopping, you even want to kill, really no one can kill you!?"

The purple robe bald-headed Emperor Gouyue glared at Su Lang, and yelled constantly. If he hadn't pinched the orchid finger, he would still be somewhat domineering.

"Tsk tsk."

"It's really rare to see a quasi-god-level mother cannon."

Su Lang dismissed it with a smile, sarcastically, and opened the person's attribute panel by the way.

[Name]: Huatianlou

[Race]: Moon hawk moth

[Qualification Level]: Excellent

[Realm level]: Quasi-Supreme Emperor

[Attack level]: Quasi-no God level++

[Defensive level]: Quasi-no God level+

[Shenfa level]: Quasi-no God level++

[Endurance level]: Quasi-no God level+

[Spirit Level]: Realm of Broken Nirvana+

[Mastering the exercises]: Constructing the Moon Heaven Sutra, Ziyue Jue Ming Sutra (Emperor Level, Consummation), Purple Moon Imperial Heart Sutra (Emperor Level, Consummation), Cocoon Moth Transformation (Emperor Level, Consummation), Gu Yue Fang Yuan Gu (Great Emperor Level, Consummation)...

It can be seen that this person is indeed better than Lin Fang.

And just when Su Lang was completely satisfied with the strength of Huatianlou.

"You thief."

"Our Eastern Wasteland has been peaceful for a long time."

"But you have ignited the flames of war, spreading millions of light-years, causing deaths and injuries, and also beheading the guard Lin Fang. Are you convicted?"

The leader of Guangming in a naked cloak looked down at Su Lang, with a grand-sounding face full of justice.

"Ha ha."

"Why do you want to commit a crime?"

"It seems that you are also coveting the treasures of my wealth."

Su Lang faced two enemies that were a bit stronger than Lin Fang, still calm and calm.

Simultaneously.

He also glanced at the attribute panel of the leader of Guangming.

This person's name is Cheng Yangjun, and his five-dimensional attributes are exactly the same as those of Huatian Tower. He has mastered the techniques of "Mingshan Lieyan", "Four Secrets of Guangming Mantra", and "Xuanguang Yao Tianzhou".

"Humph!"

"Hugh is so quibble."

Huatianlou's slender eyes narrowed into a slit, "We must avenge Lin Fang today!"

"Not bad!"

Cheng Yangjun sneered, "You can sign up for your name before you die. Even if you die, you won't be considered as an unknown person."

"Tsk tut!"

"The two little praying mantises with their teeth and claws are really good for me."

Su Lang still looked indifferent, "I don't know that he will be easily crushed to death soon."

"Ha ha!"

"You fought Lin Fang, the price paid is not small!"

"Look at your current state, hahaha, it's only slightly stronger than the average quasi-no-god class!"

"In your state, you dare to crush the two of me without embarrassment, you are scared!"

Huatian Tower looked down at Su Lang condescendingly, with a sneer on his face.

The reason why they did not attack from the beginning was to determine Su Lang's status and strength.

At this time, after several conversations, the two have completely determined the 'fact' of Su Lang's weakness!

"Humph."

"Enough time for you to leave last words."

"Since you don't want to say your name, then we will kill you as an ant."

Cheng Yangjun let out a cold snort, squeezed his right hand fiercely, and a golden thin sword appeared out of thin air.

Although the breath of this golden rapier was not revealed because of the return to nature.

But Su Lang possesses treasure recognition, and he still sees at a glance that this sword is named 'Bright Sword', and it is a soldier of the Supreme Emperor!

On the contrary, Hua Tianlou and Cheng Yangjun didn't realize that the misty energy sword on Su Lang's waist and the hairpin on his hair were godless soldiers!

"Ha ha!"

"Two dead people are not qualified to know my name!"

Su Lang clicked the corner of his mouth, and instantly activated the system function: "Swallow the clone, the stars gather together!!"

[Chapter 1547: Do you feel a little frightened?](#)

boom! !

An incomparably vast aura rose from Su Lang's body!

It's like a hundred thousand nuclear bombs exploding violently centered on Su Lang!

The terrifying aura and biting aura slammed the Huatianlou and Cheng Yangjun, instantly changing their complexion!

They had planned to make a move, but at this time they trembled and withdrew the ultimate move with extreme vigilance.

"what!?"

"This child actually has this kind of secret technique, instantly recovering to its peak!?"

"No, this kind of aura is so terrifying, it's infinitely close to the godless level, and it's definitely not my ability to resist directly!"

Hua Tianlou's face was horrified, and his whole body was tense and extremely nervous!

"Huatianlou, what are you afraid of!?"

"Do you think he can have this kind of horrible breath? It's just a bluff!"

"Moreover, how long can he sustain a severely injured state in this state, it's just a dying struggle!"

The expression on Cheng Yangjun's face solidified for an instant, before turning into a sneer again!

After hearing what Cheng Yangjun said, Huatianlou also felt reasonable, and his face suddenly eased.

Suddenly!

Even more shocking things happened.

Huh huh!

One by one, the avatars that looked exactly the same as Su Lang appeared, and the quasi godless aura permeated the whole world!

"Forty quasi godless clones!?"

Huatianlou's eyes were about to stare out, "There is such a terrifying avatar technique under the sky!?"

"Awesome!"

"Really awesome!"

"Such a secret technique is definitely a godless secret technique!"

"Hmph, it's a pity that these clones are still not strong enough, some gaps cannot be made up by numbers!"

Cheng Yangjun also showed shock on his face, and then endless greed rose in his eyes.

but.

The greedy color on his face completely solidified in the next instant!

Because the forty clones actually merged into one in an instant!

A more terrifying aura than Su Lang's deity unfolded, causing the whole world to tremble fiercely!

At this moment.

Su Lang and the avatar alone, like the ancient giants that existed since the beginning of the world, everything would be easily crushed!

"how can that be!?"

"What level of secret technique is this!?"

"Could it be that this is the legendary too basic secret technique!?"

Huatianlou was so shocked that he said incoherently, "No, it's impossible, how can the quasi-no-god-level master the secret art of the beginning level?"

"Huatianlou, don't mess around with yourself!"

"That said, this son is just a bluff!"

"Otherwise, would he be seriously injured in the previous battle and fall to the perfection of his soul?"

Cheng Yangjun also felt that the vellus hair was standing upright, but he did not believe that Su Lang's method was real.

"Yes."

"Zhuzi, your strategy has been thoroughly penetrated by us!"

"If you want to scare us away, you are just dreaming!"

Hua Tianlou snorted coldly, and was so ashamed that he was scared before, so angry!

"Tsk tut!"

"You can really comfort yourself!"

Su Lang smiled contemptuously, his heart moved, and the sword at his waist was sent to the clone through the system function 'item transfer'!

Soon.

Su Lang and Doppelgänger held a godless-class long sword, and poured in with one breath.

Suddenly, the godless aura overwhelmed the sky, covering Hua Tianlou and Cheng Yangjun.

"what!?"

"Two Godless Longswords!?"

Huatianlou and Chengyang were astonished as thunder.

They never expected that Su Lang would have two Godless Longswords!

A bad feeling began to spread in my heart.

"Do you feel a little frightened?"

The corner of Su Lang's mouth twitched and he sneered, "If you two kneel down and beg for mercy now, and give up your wealth, maybe I can spare you not to die."

This statement came out.

Hua Tianlou and Cheng Yangjun looked at each other, a trace of warfare gradually replaced the expression of horror.

"beg for mercy?"

"I have lived as Yangjun for 1.6 billion years."

"It's always been someone begging me for mercy, and today is no exception!"

Cheng Yangjun gritted his teeth, he felt deeply offended.

"Not bad!"

"Although you have two godless soldiers, can you hold it?"

"Everything about you is a bubble on the water, it will be broken with one prick, it is you who should beg for mercy!"

Hua Tianlou also felt that he was deeply insulted, and his body was rising, and he was on the verge of breaking out.

[Chapter 1548: Chengyang Junhua Tianlou, die!](#)

"The opportunity has already been given to you."

"In that case, I will send you on the road!"

Su Lang's voice was as indifferent as snow, and together with the clone, instantly displayed all the secret techniques that could be activated!

"Without shackles, drink the sea of stars!"

"The inner world of the ten directions, shattered the world!"

"Kunlun is invisible, hidden scales hunt west!"

"The world dies, the power of twisting!"

"Youtian break a sword, kill——!!!"

As the horror aura rose, Su Lang directly slammed in front of Cheng Yangjun!

"what!?"

"how can that be!?"

Cheng Yangjun trembled fiercely, his pupils suddenly shrunk like needles, and the color of horror shot out hard to hide!

but.

Countless years of combat experience still made him instinctively lift the Bright Sword, and all his hole cards burst out in an instant!

"Om——!!!"

The 'light sword' in his hand trembled violently, condensing a powerful twisting force.

However, the next moment!

Even more terrifying twisting power strikes fiercely, destroying them all!

"puff!"

The Youtian Sword pierced directly into the center of Yang Jun's eyebrows, and it was triggered by the defensive and god-slashing characteristics, killing him instantly!

"how is this possible!"

There was a low cry of horror from the Bright Sword, and in the next instant it was taken away by a mysterious force!

"Ding! You get the Soul of Quasi-Supreme Emperor*1, Quasi-Supreme Emperor Daojing*1, Life Universe*1, Light Emperor Body Fragment*1245, Supreme Emperor's Soldier Bright Sword*1, and God-level Material Bright Emperor Heart*10, Starlight Magic Silk*12...Superior Xianyuan*383859145..."

at the same time.

The other side.

"Desperately guard the heart, transform the cocoon moth!"

Huatianlou is also full of cards, turned into amethyst moths that cover the sky, and even more terrifying mental power attacks.

His mental power attack is almost impossible to guard against at this stage of the quasi-no-god level, and it is terrifying.

But in front of the avatar of Su Lang, who is holding the sword of Xin Jue Wu Feng, he is not even worthy of carrying shoes!

Just a sword.

Huatian Tower was killed by Su Lang clone, and the huge body instantly fell apart!

"Ding! You get the Soul of Quasi-Supreme Emperor*1, Quasi-Supreme Emperor Daojing*1, Life Universe*1, Moon-Emperor Body Fragment*1166, Supreme Emperor's Weaponry Moon Mother Nest*1, No God Level Material Sky Moth Scale*10, Ninety-Nine Cloud Sky Gold*10...Superior Xianyuan*563248963..."

The sound of the system came, representing the complete fall of the two quasi-no-god-level overlords who ruled for millions of light years.

They didn't have the slightest resistance in Su Lang's hands!

"waste!"

Su Lang curled his lips in disdain.

It has to be said that Cheng Yangjun and Hua Tianlou are simply too weak compared to Lin Fang, who combined Liang Xiaofei's body.

of course.

They were killed by a single sword.

There is also the reason that Su Lang's first trick is to use all his cards.

With the profound meaning of the world's annihilation, everything was consumed at once, forming Su Lang's most extreme attack.

If this can't kill Cheng Yangjun and Huatianlou with a single sword.

Then Su Lang should trigger death instead.

"Damn."

"I'm exhausted again in one breath."

"If I have finished training the "Great Sun Haotian Map" now, I will be able to recover energy faster."

Su Lang curled his mouth, and immediately ingested two breaths from the air. It was Cheng Yangjun and Huatianlou.

These two guys dared to hit his idea, and wanted to take advantage of the vain to kill and win the treasure.

This is not something you can expose when you die.

It must be cut and rooted, and all its forces must be wiped out to avoid resurgence.

"One-click treasure hunt!"

When Su Lang thought, two treasure hunting flying flying gliders appeared.

"Squeak!"

The two treasure hunting flying gliders took in a breath, and then flew in the north and south directions respectively.

"Clone dispatch!"

Su Lang immediately sent a clone to explore the past in the north and south.

Time passed slowly.

While regaining energy, Su Lang watched the avatar sent out.

Not long.

Li Xianyang and the other clone arrived at Gouyue Tianchao and Guangming Temple respectively, that is, the old nests of Huatianlou and Cheng Yangjun.

But seeing that Gouyue Tianchao had fallen and scattered, he obviously knew the news of the fall of Huatianlou.

A large number of powerful men fleeing with countless treasures, and there are even those who take advantage of the fire to rob.

The leader, a guy named Wanyangui, even robbed the entire treasure house of the Moon-Constructed Sky Nest.

[Chapter 1549: The twelfth system function!](#)

"These are the master's treasures."

"You want to run away after snatching the master's baby?"

"Even you yourself are the master's spoils! Give me death!"

Li Xianyang sneered coldly, and then broke out one by one, killing the Ten Thousand Eyed Ghost and the quasi-no-god-level all.

Immediately afterwards, a Hundred Shadows clone transformed into hundreds of powerful men, slaughtering all those who took advantage of the fire.

Relatively speaking.

The Temple of Light appears to be much more orderly.

After Cheng Yangjun fell, the divine fire in their temple went out.

Therefore, all people in the Temple of Light knew about Cheng Yangjun's death.

But they did not escape.

On the contrary, under the leadership of the light knight, the expressions of grief and determination gathered together, and they fought against Su Lang's clone with all their heart and soul.

of course.

Although their courage is commendable, everything is useless.

Su Lang sent the clone of 'Xing Cuan Yun He' over, and slapped them all to death!

Next.

It is the carnival of the treasure hunting flying gliders!

Although Cheng Yangjun and Huatian Tower do not have Lin Fangqiang, they have a longer history and a deeper heritage.

This can be seen from the fact that they have a lot more superior Xianyuan than Lin Fang.

time flies.

In a blink of an eye, most of the day passed.

Su Lang once again searched countless training resources.

And beheaded many strong men who were stubbornly resisting.

Including 30 people at the quasi-no-god level, 5,376 people at the ordinary emperor level, and 100,000 people at the ordinary Wudi level!

Su Lang did not kill anyone who surrendered directly.

Obviously not the people of the Temple of Light and the Moon-Constructing Sky Nest, and they will not even be plundered by the treasure hunting flying flying strays.

After cleaning up these two forces.

Su Langguang received more than 1,133 million Yuan of Superior Immortal Source.

Adding in the superb fairy source from Cheng Yangjun and Huatian Tower, as well as the rest of the system functions from the previous upgrade, the total has reached 2,243,300,000!

"The system will deposit all Xianyuan into the balance."

Su Lang thought, and gave instructions.

"Ding! Deposited!"

Wow!

However, seeing the system balance rising rapidly, the number finally freezes at 224330 and multiplies Diyuan.

"Hey!"

"Now you can upgrade the one-click treasure hunting function to level 40!"

"The first four system functions all reach level 40, you can get the activation authority of the new function!"

"I don't know what the twelfth system function is, I really look forward to it!"

Su Lang thought excitedly, and immediately issued an instruction, "System, upgrade me the one-click treasure hunt function to level 40!"

"Ding! It consumes 100,000 to lower the Emperor's source, the one-click treasure hunting function has been upgraded to level 40, and the number of treasure hunting flying flying flying gliders has increased to 293.2736 billion!"

"Ding! Congratulations on raising the one-click treasure hunting function to level 40. You have obtained the new bonus function 'Great Emperor's Golden Body'! Immune to all damage from the Great Emperor and his lower-level warriors!"

"Ding! Congratulations on upgrading the first four system functions to level 40, and you have obtained the unlocking authority for the new function 'one-key enhancement'!"

Su Lang's face was full of excitement when he heard the system upgrades resounding in his mind.

One-click enhanced function!

According to the urinary properties of the system, everything can be strengthened!

Although the one-click synthesis function can also synthesize items into more advanced treasures, the result of the synthesis is unknown!

But one-click enhancement is different, this is to enhance the ability of the item itself!

Although the weapon evolution function can also improve the weapon level, this function does not conflict with the enhancement, but will be supplemented by the enhancement function!

Wouldn't it be beautiful to strengthen a wave after the upgrade! ?

"Awesome!"

"System, immediately activate the one-key enhancement function for me!"

Su Lang didn't even look at the one-click treasure hunt at level 40, and started to unlock new features!

"Ding! Consumption of 100,000 lower-level Emperor Yuan, one-key enhanced function to unlock!"

"The current one-key enhancement function is level 1, which can consume all resources to perform level 1 permanent enhancement on all non-creature objects!"

"What!?"

"It consumed one hundred thousand lower emperor source!?"

"What the hell, that is equivalent to one billion yuan of superior Xianyuan, ten trillion yuan of lower Xianyuan!"

"The purse that I just bulged up just now collapsed in an instant!"

Su Lang was dumbfounded by the activation cost of the new function.

[Chapter 1550: Super abnormal one-key enhanced function!](#)

The consumption of this function is terrible, is there?

And this is only activation, if you continue to upgrade, you will have more emperor sources!

Su Lang almost saw an extremely terrifying gold swallowing beast. In front of it, the poor himself could only shiver.

"What the hell!"

Su Lang took a deep breath, "If the strengthening effect is not strong enough, wouldn't I have a blood loss?"

Soon.

With a trace of anxiety and expectation.

Su Lang pulled the Youtian Sword from his head and put it in his hand solemnly.

"Master~!!!"

Xiaoyou's excited voice came.

She also knew that Su Lang must have made a big move towards herself!

"Xiaoyou."

"You are ready, you will have some changes!"

Su Lang reminded him, and immediately ordered, "The system, strengthen the Youtian Sword at level 1!"

But the strengthening did not start directly.

A panel appeared in front of Su Lang, with a line of words and a progress bar on it.

"Please select designated consumables!"

"Ok?"

"Do I have to choose it myself?"

"That's right, what if I consume the useful things in my storage space?"

Su Lang nodded suddenly, and immediately delineated some chicken ribs in the storage space with his mind, and designated them as consumables.

In a flash.

These materials turned into light blue fluorescence and disappeared in the storage space.

On the panel in front of Su Lang, the progress bar was filled with light blue.

"Lying down!"

"Although the items I just consumed are tasteless, they are also treasures!"

"With so many things, this is less than one percent?"

"This function is not only horrible to activate and upgrade, but it is also very expensive to use!"

"..."

Su Lang couldn't help but complain, but did not give up on strengthening.

He continued to treat many materials in the storage space as designated consumption materials, turning them into a light blue progress bar.

at last.

When more than half of the materials in the storage space were consumed, even Su Lang began to feel distressed.

The progress bar is finally full!

"Ding! The resources are enough, start strengthening!"

In an instant.

A light blue mysterious power appeared out of thin air and merged into the Youtian Sword.

"Ah...ah!!!"

Qi Ling Xiaoyou suddenly heard a burst of low voices, which seemed very painful and a little excited.

at the same time.

The breath on the Youtian Sword soared wildly!

When the light blue mysterious power was completely integrated into Youtian Sword, its aura was so powerful that even Su Lang was shocked.

"Ding! Strengthened successfully, Youtian Sword +1!"

"Lying down!"

"Erdu does not have the coercion of God's soldiers!"

"Sixty-six, this is equivalent to directly evolving once!"

"Just level 1 enhancement is so awesome, if it is level 10 enhancement, wouldn't it be..."

Su Lang's eyes widened, imagining this beautiful picture, almost running out of water.

He finally tasted the sweetness of a key enhancement!

One-click strengthening although eat a lot.

However, the materials consumed when this function is strengthened are not rejected, and they are not picky at all.

Unlike the evolution of weapons, there are also specified materials.

God knows how many things that Su Lang would have consumed in order to gather the designated materials.

The most important thing is that the final effect is also very impressive.

You know, if you use the weapon evolution function to advance the Youtian Sword.

The materials in Su Lang's storage space are likely to be insufficient, even if he has scoured the resources of the Light God Sect and the Moon Constructed Nest.

no way.

Promoting from the first pass without a **** soldier to the second pass consumes far more materials than the promotion from a quasi no **** soldier to the first pass!

And beyond that.

One-click enhancement has a huge benefit!

That is, after the weapon is strengthened, it will not advance.

In other words, the conditions of use will not become more demanding.

Originally, with the strength of the quasi-no-god-level, it was already the limit to spur one pass of the no-god soldier, and it was almost impossible to urge the second pass.

For example, Lin Fang even had to rely on his special blood to have enough energy to activate the Supreme Ruyi Lantern.

However, the enhanced Youtian Sword is still the first-pass level, but its power has been elevated to the second-pass level under the action of mysterious power!

The consumption of using Youtian Sword will not become more terrifying.

This characteristic has a strong and unreasonable atmosphere, and it matches the style of the system!
