

"You...you are a man or a ghost!?"

Cai Feng was horrified, shaking his whole body like sifting chaff, and his upper and lower teeth clashed.

"It doesn't matter."

Su Lang's smile remained unchanged, "The important thing is that you are going to die!"

With that, Su Lang moved his wrist and the sharp blade cut a blood line on Cai Feng's neck.

"No! Don't kill me! I can't help it!"

Cai Feng felt that his neck was about to be cut open, and he was immediately frightened and begged for mercy.

If it hadn't been for Su Lang's Tang sword to rest on his neck, he would have kowtowed.

"Forcibly?"

Su Lang raised his eyebrows, "Could it be that someone instructed you?"

"Yes, it is a task assigned by our deputy gang leader!"

Seeing the hope of surviving, Cai Feng quickly replied, "Otherwise we would not dare to do it in the city, and we have to put such a heavy hand!"

"Why does he want you to do something to me as an ordinary person?"

Su Lang frowned. His predecessor parents had no enemies at all, and they did not leave anything worthy of coveting after their death.

"I don't know that either."

Cai Feng cried and said, "We are totally following orders, please forgive me!"

"Humph."

Su Lang coldly snorted noncommittal, "I'll ask you one more question, did something happen to your stronghold?"

"You, how do you know?"

Cai Feng was shocked when he heard this. What happened in their stronghold did not leak out at all. After all, it was related to a treasure medicine!

"Sure enough... tell me what's the matter."

Su Lang smiled at the corner of his mouth, "If I am satisfied, I will spare your life."

"I... leaking secrets will die!"

Cai Feng swallowed with difficulty, a trace of hesitation appeared on his face.

"Don't say die now!"

With Su Lang Tang's knife, the blood line on Cai Feng's neck split suddenly, and a bunch of blood flowed out.

"Don't! I said!"

Cai Feng was trembling with fright, and said tremblingly, "We found a 5 main medicine in our stronghold, but there is an E-class wind wolf guardian. The guards and masters in the stronghold have gone there."

After speaking, Cai Feng's face was gloomy. He knew that once the leaks were known to the people in the gang, what awaited him would be endless torture.

"Tier 5 main medicine?"

Su Lang's eyes lit up, "That is the precious medicinal material that can refine Tier 5 pill!"

The higher the level of the pill, the value will increase by 7, 8 times, or even 10 times, even the lowest level 5 pill is worth seven or eight hundred gold coins!

As the main material of the pill, its value occupies at least half of the pill, which is about 400 gold coins!

For Su Lang, who is in desperate need of money to upgrade the system's functions, it has an unparalleled temptation.

"Let's talk about it, where is the position of the Tier 5 main medicine?"

Su Lang smiled gently and asked Cai Feng gently.

"In the Gourd Valley just west of the base, it used to take more than half an hour."

Cai Feng said tremblingly, "I know this, please let me go."

"One last question."

Su Lang asked seriously, "When did the masters in the stronghold leave?"

"This, they just left soon..."

Cai Feng nodded, and immediately widened his eyes, revealing an unbelievable look, "Aren't you going to take advantage of the emptiness?"

You are an ordinary person. It is all luck to subdue me. If you dare to go to the stronghold, you will definitely die! "

"Ordinary people? Yes, half a day ago." Su Lang smiled faintly.

"Half...half a day ago?"

Cai Feng stared at his eyes full of fear and shock, "Have you broken through to the tempering body? But you are only a beginner..."

"Don't bother you to worry about it."

Su Lang moved his knife, "Tell me the structure of the stronghold once, and I will let you go."

"Yes Yes....."

Cai Feng's eyes flickered.

Then quickly began to describe the structure of the base building.

He spoke in great detail, and even said a secret road leading to the inside of the stronghold.

Although most of the masters in the stronghold have gone to deal with the quasi-E-class wind wolf, in Cai Feng's view, the intermediate body tempering left in the stronghold is not something that Su Lang, the junior body tempering body can deal with!

If Su Lang really enters the stronghold, there is absolutely no way back, and there is no way to escape!
