[Chapter 1601: Lu Mingxuan was wiped out](#)

"no no!"

In Lu Mingxuan's desperate and numb soul, a trace of panic suddenly flashed like thunder.

But the next moment.

He was hit by Su Lang's fingers and turned into fly ash!

"Ding! You get the Soul of the Supreme Emperor (broken)*1, the universe of life (broken)*1, and the Buddha Sky Star Dragon (broken)*1!"

The system prompted that this is Lu Mingxuan's funeral song.

But this funeral song seems a bit short!

"Fighting such a big battle, just such a trophy, alas, I am too difficult."

Su Lang slowly shook his head, showing regret, but it was a pity that he couldn't crush Lu Mingxuan and kill him perfectly, otherwise there would be more than these things.

Sighed.

Su Lang took out the three items he had obtained.

The first one is the broken soul of the Supreme Emperor.

The Soul of the Supreme Emperor is different, originally divided into three layers.

The first layer represents the red hazy mist of the soul and body, the second layer represents the colorful colors of the soul and the universe, and the third layer is the golden light spot that represents the soul's origin.

And the broken soul of the Supreme Emperor obtained from Lu Mingxuan has only the third layer of golden light spots left.

And this golden light spot consumes most of it, and the rest is hard to see with the naked eye.

"What can be called broken?"

"There is only one thing left!"

Su Lang was speechless, then opened the Void Dragon Vein Heaven Realm and threw it in.

This golden light spot quickly absorbed a large amount of incense aspirations and turned into an incense creature.

Perhaps this broken soul origin from the godless level will make a difference in the Void Dragon Vein Heaven Realm.

Of course, there is no way to escape Su Lang's palm.

Next.

Su Lang took out the second item, the broken universe of life.

The normal universe of godless life is spherical like a jewel.

But this broken universe of life is dark, and the surface is covered with countless cracks.

The Godless universe is already very stable, and can exist alone for a long time when exposed to the boundless universe.

Now that the life universe has become like this, it can be seen that it has been completely squeezed.

Su Lang also didn't need the help of the Godless Soldiers, and directly dispatched the clone to enter the universe along the rift.

then.

A dark and dead space appeared before his eyes.

The life planet in the life universe has completely collapsed, forming countless dust and small meteorites, filling the entire life universe.

"Lying down."

"Even the treasure land has collapsed."

"The Avenue of Rules has been chaotic and annihilated!"

"If this universe hadn't been put away by my perfect plundering function, I'm afraid it would completely dissipate when Lu Mingxuan died."

"..."

Su Lang looked at everything in the universe through his clone, the corners of his mouth twitched slightly.

But he still did not give up on sending a clone to search the entire universe.

As the saying goes, Huang Tian pays off, and Su Lang really found something.

These things are dead, and there is no energy to consume, so they can be preserved in the endless dragon bite.

Among them, most of them are some debris.

For example, the inanimate tools made by the indigenous creatures in this life universe.

But these debris are useless.

The only useful things Su Lang found were some exercises classics.

Almost all of these exercises classics are recorded on mortal materials.

Only one of the exercises is recorded in godless transcendental materials.

This exercise is exactly the "Four Dragons Treasures" practiced by Lu Mingxuan.

The material used to record this exercise turned out to be a godless dragon crystal!

Although because of the endless dragon bite, this dragon crystal was torn apart and almost lost all its extraordinary characteristics.

However, after all, there was still a little power left, and a small part of the exercises inside.

If someone else finds this thing, it will be of no use to keep it.

But Su Lang is different, he has the function of 'fragment repair'!

[Chapter 1602: Try your luck in another place!](#)

"The Four Dragons Baojian contains the four profound meanings of refining, sacrifice, punishment, and falling, and corresponds to the four explosive secret arts."

"And these four profound meanings are gathered together, which is the ultimate secret method-endless dragon bite!"

"This exercise should be the supreme magical method created by Lu Mingxuan's collection of Silong Haishimen."

"Lu Mingxuan, the little junior in the Sea of Four Dragons, is indeed the most talented and savvy among the four seniors."

While sighing, Su Lang read the remnants of Silong Baojian's exercises with his spiritual thoughts.

He has now practiced "Returning to Nature and Returning to One Emperor" to the founding level, and has a deeper understanding of the godless level of exercises.

After analogy and analogy, it is not difficult to understand this small part of the incomplete exercises in "Silong Baojian".

"Almost read."

"The system will complete the fragments of "Four Dragons".

After reading casually for a while, Su Lang gave instructions to the system.

"Ding! The fragments of "Four Dragons" has been repaired!"

Immediately, a complete exercise appeared in Su Lang's mind, which was the complete version of "Four Dragons".

Lu Mingxuan has used the four Godless Heavenly Dragon Secret Techniques and the Endless Dragon Biting Secret Technique.

"The system, enable the one-click martial arts function, and practice "Four Dragons"!"

Su Lang glanced at the exercises and gave the instructions again.

Although this exercise can be seen at a glance, it is very likely that a warrior who has the blood of the dragon can perform it.

But anyway, the one-click martial arts villain is also idle now, so it is better to practice it.

What if this technique is integrated into the "Ten Thousand Fas into One: Infinite Profound Meaning", and it becomes free to use?

"Ding! "Four Dragons Mirror" has begun to practice!"

The system prompt came, Su Lang didn't care anymore, his eyes were attracted by the galaxy-level crater under his feet.

"The creatures of this land are miserable."

Su Lang slowly shook his head. In the endless dragon bite, he didn't know how many billions of trillions of creatures were wiped out.

This is the case in this cruel world, if the strength is not enough, even if it is affected by the strong, it will be forever.

"Strength is the truth!"

Su Lang said with emotion and looked at the bottom of the pit.

His mental power has almost reached its limit before reaching the soil at the bottom of the pit.

"It's so deep, I haven't penetrated the place of exile."

"Not only is the breadth of this continent endless, but its thickness is also shocking!"

"And such a big pit can only be healed naturally without countless years of exile?"

Su Lang thought silently, preparing to fill this big hole with ease.

He stretched out his hand, and Lu Mingxuan's abandoned life universe was taken out.

Immediately, all the wastes of the planet inside were dumped into the pit.

Immediately afterwards, Su Lang displayed the powerful earth system avenue.

With his current strength close to the Wudu level, he can easily gather the land around Da Keng to the center.

I saw that the land around the big pit seemed to have gained life, and it seemed to have turned into low-flowing water, pouring towards the middle one after another.

Soon, this endless pit was filled.

"Although it is a desert now."

"But it must not be long before it will be full of life again."

Su Lang looked at the deserted land, then turned to look at the turbulence of time and space beyond the boundary.

Before, his avatars had already explored this time turbulence.

The places that can be explored can be explored, and the places that can not be explored, the avatar will die of old age as soon as it enters, and it is impossible to detect.

Su Lang also tried to send a avatar to the unknown outside the turbulent time, but failed!

Even the non-God-level clones will die of old age in an instant.

This is the reason why the creatures in the exile basically refused to leave the exile.

"So let's try your luck in another place."

Su Lang was not very discouraged for not being able to find Lost Xuanwu for so long.

After all, the last time that thing appeared 300 billion years ago, the quasi-no-god class was old enough to die more than a hundred times.

To find that thing, it's all about looking at the face.

[Chapter 1603: Destroy his plan and indulge his dreams!](#)

"Why is Qi Yunkai so lucky!"

Su Lang curled his lips, turned and flew towards the west.

His current position is on the southeast border of the Exile, and to the west is the extreme south of the Exile.

Move aside.

Su Lang took out the third harvest, the broken Buddha Tianxinglong.

The Heavenly Star Dragon of the Buddha Tu was a Godless Soldier of the Second Cross, which was cut alive into seventeen pieces by the Youtian Sword, and was destroyed by the endless dragon bite, almost completely finished.

Only half of the dragon's body that was cut off at Seventeen was left, and it was also badly wiped out.

There is only a little bit of spirit left, even the spirit wisdom is gone.

"One-click decomposition!"

Su Lang thought, and the broken Buddha Tianxinglong in front of him was immediately decomposed into various materials.

"Ding! The decomposition is successful, you will get the Soul of the Supreme Emperor*1, the Soul of the Quasi-Supreme Emperor*23, the Soul of the Supreme Emperor*1423, the Soul of the Emperor Wu*36547, the Godless-level material Tianlong Remnant Soul*1, the Tianlong Remnant *1....."

"The decomposed material is really less than half."

Su Lang sighed and put all those materials into the storage space.

This material is not enough to evolve without God, it can only exist first.

So far.

The harvest from killing Lu Mingxuan has been counted.

Although it is relatively small, it is better than not coming at all.

at the same time.

Somewhere in the southeast of the cloud, a colorful dragon shuttled fast, flashing like electricity, and teleporting.

This dragon is the colorful sky star dragon!

suddenly.

The colorful Tianxinglong shocked all over and slowed down.

"what happened!?"

The man with the red crown standing on the head of the colorful dragon opened his eyes, with a hint of impatience and awkwardness in his eyes.

This person is the Supreme Emperor named Jing Yuanbai, the new master of the Colorful Sky Star Dragon.

"the host."

Colorful Tianxinglong replied, "I sensed that the Buddha Tianxinglong has fallen, and Lu Mingxuan probably has also fallen!"

"what?"

"They actually fell!?"

"Who is so bold, dare to **** my prey!!"

Jing Yuanbai's eyes were cold, and his biting eyes were almost frozen for thousands of miles!

His face was distorted and hideous in an instant. No one could **** the prey he was fond of, it has always been like this!

Now that the prey he had been chasing for so long was cut off, he was suddenly furious!

"the host."

The colorful sky star dragon couldn't answer in a hurry, "I sensed the direction of the colorful sky star dragon before it fell. Do you want to follow it?"

"Does this still need to be said? Chase me!"

Jing Yuanbai was so irritable that he gritted his teeth, wishing to strip the murderer who killed Lu Mingxuan away!

"Yes!"

The colorful Tianxinglong took the command, and immediately chased him in the direction where Su Lang had left.

at the same time.

In the land of exile, the palace of long hatred.

Chang Henzi, dressed in a simple robe, holding a black bowl, knelt and sat in the wide hall formed by Heishi Lei.

"died!?"

"Lu Mingxuan is dead!?"

Holding the black bowl, Chang Hen Zi looked at the barren wasteland and desert reflected on the water. His murderous aura instantly enveloped the entire Chang Hen Palace!

Puff! Puff! ...

There were three consecutive sounds of knees landing.

However, in the three shadows of the palace there were three kneeling Supreme Emperors.

These three were dressed in black, blue, and red robes, and the weakest of them was Sandu Godless!
but now.

The three supreme emperors knelt on the ground and trembled.

Because they have never seen Chang Henzi so angry, Chang Henzi has always been indifferent like water, rarely angry!

"Ha ha ha ha!"

"My front foot prevented Lu Mingxuan from killing Yue Feitian in order to preserve the strength of the Exile Land."

"As a result, only a few days? Lu Mingxuan died!?"

"Who doesn't know about such a big thing as Feitianjiao? Who is going against me on purpose!?"

Chang Henzi suddenly got up, roared loudly, his eyes were bloodshot and flushed, his face was resentful and resentful.

If it weren't for the Blackstone Palace, it's not an ordinary building, I'm afraid it would be wiped out!

In Chang Henzi's eyes, every strong man in the exile is his stepping stone and ladder to the Nine Dragon Coffin!

But now, someone has destroyed the stairs at his feet!

Even the stairs are gone, how can you go to the coffin of Nine Dragons, how can you leave the Niwandan, the place of exile, to see the prosperous endless universe?

This is destroying his plan, indulging in his dreams!

How does this make him not angry, how not to lose his temper?

[Chapter 1604: Repeatedly be shocked!](#)

After a long time.

"I don't care who you are!"

"I will let you taste all the misery in the world!"

"The penalty of the Palace of Long Hatred is very different!"

"..."

Chang Henzi knelt down again, holding the black bowl, whispering like a cold wind in an ice cave.

He looked at the black bowl again. This seemingly ordinary black bowl was the nine-yin eye of the treasure candle of the palace of Chang Hen.

Through this treasure, Chang Henzi can observe the great movement happening in the entire exile.

However, the further apart, the later the picture will appear.

This is the reason why Chang Henzi can only see the chaotic battlefield through the eyes of the Nine Yin Candles only after the war.

As for the major event that happened to Feitian Sect, Chang Hen Zi saw it directly because Chang Hen Palace was very close.

At this moment.

Looking at the barren wasteland and desert on the surface of the water, Chang Henzi thought for a moment and said, "The people we arranged in the blue blood sky are in the southeast, right?"

"Return to the master, yes."

Hongpao replied, making a woman's voice, "Do you want to use him?"

"Let him find and kill the murderer who killed Lu Mingxuan."

"If you can, bring the murderer back to me."

"As for your identity, don't expose it if you can."

Chang Henzi said in a cold tone, "It doesn't matter if it's exposed, just go back to Changhen Palace. Anyway, I already know Bi Xuetian well."

"Yes!"

The mysterious woman in the red robe knocked on her leader's orders, and disappeared from the place directly as a cloud of smoke.

"Black robe."

Chang Henzi didn't raise her head, her voice was indifferent, "How about the things that I asked you to do?"

"Report to the master."

"A lot of tragedies have been caused, and 179,000 blood feuds have been caused!"

The black-robed man replied, "These people all have unshakable enemies, and they will certainly provide a lot of humanitarian will."

"carry on!"

"Hatred is the most important force, and so is grief!"

"Let hatred and grief become the theme of this reincarnation era, and lead to the coffin of the Nine Dragons!!"

Chang Henzi's voice is not loud, but full of terrifying ruthlessness and cruelty.

"Yes, master!"

The black-robed man knocked on the commander's orders, turning into black mist and disappearing.

"Blue robe."

Chang Henzi looked at the third man in the blue robe, "What happened to the Taishang Nine Qing Palace?"

"the host!"

"The Supreme Nine Qing Palace has sent powerful disciples into the world to walk around the place of exile."

"These people are basically quasi-no-god. They hone their fighting skills and seek breakthroughs."

The blue-robed man replied, "Of course, their more important purpose is to promote the coming of the great world, to stir people's hearts, and to broaden the dojo. There is no difference in teaching."

"Is that so."

"It seems that the old monster in the Nine Qing Palace is still sober, knowing what is most important."

"However, their actions like that are too plain. As the first force in the exile, it is not an exaggeration to say that they have done nothing."

Chang Henzi waved his hand faintly, "Go, go and add some programs to those disciples who have joined the world in the Supreme Nine Qing Palace."

"Yes!"

The man in the blue robe took the order to leave.

"The plan is good."

"But if the strength is not enough, everything is a dream."

"..."

The ground where Chang Henzi sat cross-legged turned into a passage, and a beautiful woman suddenly appeared beside her, looking at Chang Henzi tenderly.

"Come on, I will take you to see my secret."

Chang Henzi smiled and took the woman's hand into the passage.

Not long after, Chang Henzi's sorrowful cry came from the passage.

at the same time.

Taishang Nine Qing Palace, time turbulent resident, in the wooden house.

"This!!"

"what is happening!?"

"Why does this person explode with such a powerful strength again!?"

"Didn't he just explode once a day ago, desperately killing two Sandu Godless Grades?"

"Furthermore, the power he exploded this time is stronger than the last time, he has reached the Wudu Godless Level, and he has killed a Sidu Godless Level!"

"Who is this person and why is it so weird!?"

"..."

Zhan Taiqing looked at the bright red spots on the chessboard, his eyes filled with surprise.

He hasn't shown such emotions for a long time, but in the past few days, he has been shocked by the mysterious and strange person many times.

[Chapter 1605: Kirin Bi Ye Rin!](#)

After a while.

Zhan Taiqing continued to observe the chessboard.

But not far from the bright red dot representing Su Lang, an equally not weak red dot followed.

"The latter one should be Jing Yuanbai from the blue blood sky."

"Is this person staring at the weird person? It seems to be unkind."

"The overall strength of the place of exile is worrying, and it can't be killed like this."

"Hey, the actions of the little boys below are still a little slower, and they haven't spread to the south."

"Otherwise, it might be possible to stop that battle and save the Four Crossing Godless Grade."

He took out the special communication jade pendant and issued an instruction: "Contact the master of Jade Blood Heaven, Bi Ye Rin, and ask her to restrain her subordinates. Now is not the time to start. When the war of reincarnation begins, there will be opportunities to fight!"

Finish it all.

Zhan Taiqing continued his gaze spread across the chessboard.

However, three more red spots appeared on the chessboard, which were the old monsters of the Last Reincarnation Era that crawled out of the ground.

"Nine already."

"The war of reincarnation has not yet begun, and there are nine godless-level resurrections."

"According to the records circulated in the last reincarnation era, when the war of reincarnation begins, there will be more godless-level revivals at once."

"It seems that this time the battle of reincarnation will call out the coffin of Nine Dragons more often than before."

"Of course, the most important thing is to gather enough humane will, otherwise the number of people will be useless."

"..."

Zhan Taiqing sighed, his life span is running out.

Had it not been for a turbulent flow with a slower time flow, it would be stable and safe, he would have died of old age.

This time the war of reincarnation was his only chance to step on the coffin of the Kowloon!

Zhan Taiqing believes that stepping on the coffin of Nine Dragons will definitely not only return to the boundless universe, but also gain greater good fortune!

Just as Zhan Taiqing sighed.

The people of the Supreme Nine Qing Palace also contacted the master of Bi Xuetian, Bi Ye Lin.

The power of Jie Xuetian is completely different from the other powers of Exile.

Because this is a force composed of monsters, spirit beasts, fierce beasts, divine beasts, and other beasts, it is the force that all beast powers in the exile are most yearning for.

Basically, strong beasts with a certain strength will go to Bixuetian to ask for help.

Bixuetian almost refused to come, and gradually gathered the beast powerhouses from the entire exile.

As the master of Jie Xuetian, Bi Ye Rin was the strongest.

She is a blue-blooded unicorn from Tianting Continent of the boundless realm. She was living here at the beginning of the reincarnation era and gradually developed the blue-blooded sky.

The number of strong men in Jiexuetian is very large, Leiyin Temple and Longhen Temple are not comparable, and Taibaihai and Riyueshan are even more difficult to achieve.

Only Taishang Nine Qing Palace can compare with Bi Xue Tian in the number of strong people.

However, the members of Bixuetian are mixed with dragons and snakes, with mixed good and bad.

Although it was a bit too much to say that it was a mob, it was not much worse.

And the top powerhouse of Bixuetian is not as good as Taishang Nine Qing Palace.

Therefore, the Supreme Nine Qing Palace can sit firmly on the throne of the first power in the land of exile.

At this moment.

Bixuetian resident.

A cluster of floating buildings surrounded by blue clouds obscured the sky.

A large number of powerful birds and beasts shuttled among them, or swallowed aura, the aura of recklessness was very strong.

Bi Ye Rin's cave mansion is at the top of Bi Xue Tian's resident, carved and refined from a large piece of godless jade.

In the cave.

"Message from the Supreme Nine Qing Palace? Who came from it?"

A pretty and cold-looking young woman with long hair and high bun and cloud hair asked lightly.

She has dark green eyes, a black tights, a heavy battle armor, and a crimson cloak on her back. She is heroic and energetic.

This woman is the Lord of Jade Blood Heaven, Qilin Bi Ye Rin!

At the gate of Bi Ye Rin's cave, a young man with a respectful look was kneeling down, with a hint of admiration in his eyes looking at Bi Ye Rin's divine light.

This young man was called Qin Chengan, and he was also a supreme emperor.

His body has the Mokun bloodline, and his strength has reached the Sidu level, which is already very powerful!

[Chapter 1606: Long hate palace chess piece, blue blood undercover!](#)

"Return to the Supreme Emperor Qingting!"

"It's a message from a quasi godless class."

"The Supreme Nine Qing Palace found that Jing Yuanbai was chasing and killing an Supreme Emperor."

"They hope you can restrain Jing Yuanbai and put the battle in the battle of reincarnation."

"Furthermore, the Supreme Nine Qing Palace proposed that each force should reduce the situation of fighting each other, accumulate combat power and wait for the battle of reincarnation to begin."

After Qin Chengan returned the report, he used his spare time to see Bi Yelin. He wanted to take a few more glances, because there was really not much chance of seeing Bi Yelin.

"I know."

"The proposal of the Supreme Palace of the Nine Qings is good, I will restrain Jing Yuanbai."

"After you go down, investigate the quasi-no-god-level person who is speaking."

"Although I am more relaxed and undisciplined in Bixuetian, I cannot tolerate such people who privately have intimate relationships with other powerful forces."

"In addition, kill the people who contacted here in the Supreme Nine Qing Palace. If you don't come to visit in person to pass the news, no matter what the reason is, it is defiant."

Bi Yelin waved faintly, without much anger on her face.

"Yes!"

Qin Chengan took the order and turned to leave.

"War of Reincarnation..."

"Can it really bring me back to the boundless world?"

"If I can go back, will I appear in Tianting Continent, or somewhere else?"

"..."

Bi Yelin half-closed her eyes, and there was a monstrous hatred hidden in the faint divine light.

Pause briefly.

Bi Yelin took out a treasure for transmission and sent the restraining order to Jing Yuanbai.

A place close to the border in the southeast.

Jing Yuanbai rode on the colorful sky star dragon and chased him in the direction of Su Lang.

suddenly.

"Bi Yelin's message?"

With a look on his face, he took out a piece of jade slip, swept across it in an instant and read the information.

"Ha ha."

"Let me stop the hunt and put my grievances in the battle of reincarnation to resolve?"

"If it is normal, even if I am unhappy with that person, maybe I will die."

"But now, Lord Palace Master has taken the lead in giving instructions to capture that person alive, and it doesn't matter if his identity is revealed!"

"In that case, dear Bi Yelin, please forgive Jing Yuanbai for not being able to live anymore!"

"The one who killed my prey, I will hunt down and kill him. After catching him, I will torture him severely!"

"I hope that Lord Palace Lord will leave this person to me to deal with, I want his life too much!"

"In other words, it's kind of interesting that the person who intercepted my prey could let Chang Hen Palace and Bi Xuetian convey orders to me at the same time."

"..."

After Jing Yuanbai saw the jade slip, he suddenly sneered and showed disdain.

Yes.

He is the high-level undercover agent of Chang Hen Palace hidden in the blue blood sky.

Not long ago, he received an order from the Palace of Long Hatred to hunt down Su Lang, which coincided with his idea.

did not expect.

Only dozens of breaths passed.

Bi Xuetian also sent an order to stop chasing Su Lang.

Of these two completely different orders, Jing Yuanbai naturally chose to execute the first one.

Because he was originally from the Palace of Long Hatred!

Black, blue, red, and white are just the four confidants of Chang Henzi.

And he, the white robe Jing Yuanbai, is the strongest of the four, the four-passing godless peak, and the five-passing strong!

"It's time to restore your identity! Jie Jie!"

Jing Yuanbai showed a grim smile, and the robes on his body flashed brightly and suddenly turned white.

The other side.

Su Lang didn't know that Taishang Nine Qing Palace, Chang Hen Palace, and Bi Xue Tian had already focused on him.

If you knew it, you probably couldn't help but twitch at the corner of your mouth, then sighed again.

After all, with his current strength, it is not a good time to deal with those big forces.

At this moment.

Su Lang is still rushing to the southern border, preparing to explore the turbulence of time and space, trying his luck to find the lost Xuanwu.

"It's almost the place, so be it."

In a bare mountain range, Su Lang stopped and entered the Soul Chasing Emperor Palace.

Although the level of Soul Chasing Emperor Palace is a little lower, it can also avoid most Xiao Xiao harassment.

After all, the only one who could see through the hidden barrier of Soul Chasing Emperor Palace was the Godless Grade.

But where are there so many Godless Grades? Even if it is here, it won't do it for no reason!

"I was hit twice before."

"This time the Four Dragon Seas are completely destroyed, it is absolutely impossible for anyone to hit the door!"

Su Lang sat cross-legged in the quiet room with a confident smile on his face.

[Chapter 1607: This person is not easy to mess with!](#)

at the same time.

Taishang Jiuqing Palace, time turbulent in the resident.

"Weird! It's so weird!"

"After the end of the secret technique this time, this person's cultivation has stabilized at the Erdu Godless Level!"

"He has repeatedly exploded the secret technique, but there is no side effect at all, and even the cultivation base is constantly rising!"

"Could it be that it is not difficult for this person to burst out that powerful force!"

"And the reason can only be... this person's peak cultivation is far surpassed the Wudu Godless Level. I underestimated him before!"

"..."

Zhan Taiqing looked at the red dot on the chessboard that represented Su Lang, his eyes flashed with deep surprise and fear.

Previously, he speculated that Su Lang might be the Godless Level of the Four Dus and Wudus of the last Samsara era, or the Godless Level of the Six Dus.

But at this time, Zhan Taiqing overturned his previous guess.

In his current view, Su Lang's peak strength should be Qidu Godless Level!

Qidu, this is already at the top level in the Godless level.

One to three crossings are the entry level of the godless level, the four to six crossings are the senior godless level, but the Qidu and above are the top godless levels.

Such an existence, even some weaker reincarnation eras have not appeared!

"This person is not easy to provoke!"

"I must restrain those who are too in the Nine Qing Palace from provoke him."

"However, having such an opponent is also lucky for me from another perspective!"

"..."

Silently thinking, Zhan Taiqing, the boss of the Supreme Nine Qing Palace, regarded Su Lang as his opponent at the same level.

at the same time.

After Su Lang entered the Soul Chasing Emperor Palace, he immediately began a hard-working day.

With the number of super humanoid weapon parts approaching 120,000, his passion for refining parts has increased a lot!

of course.

After the avatars and avatars had cooled down, he did not forget to send them to the time turbulence to find the lost Xuanwu.

Time passed slowly.

But just when Su Lang thought that this day would pass so plainly.

Suddenly a system prompt came!

"Ding! The sea of repair is full, do you break through!?"

"Ok?"

"The cultivation base is enough!"

Su Lang was surprised, his cultivation level was finally enough to be promoted from the quasi-no-god level to the true-no-god level.

This will be another huge leap!

"system!"

"Immediately give me a breakthrough!"

Su Lang thought, and gave the order without hesitation.

"Ding! Breaking through!"

Following the system prompts, countless cultivation bases merged into Su Lang's body.

In the sea of knowledge, the countless golden mists disappeared rapidly again, and they continued to merge with the universe of life in Shifang!

With the rapid increase in the degree of integration, Su Lang also feels that his ability to control the Shifang Life and Universe is getting stronger and stronger!

More and more unfamiliar rules that he had never touched were naturally mastered by him, as if they had become instinct.

at last.

The soul fusion degree has reached 100%!

Su Lang has perfectly mastered his ten directions of life universe!

Even if you don't use any means, as long as your mind moves, you can see every corner and every thing in the universe of life in the ten directions, even a particle!

Before Su Lang entered the Shifang Life and Universe to do things, he would usually send a clone first, and then use leaning or perception sharing.

But now, he can appear anywhere in the ten life universes with just one thought.

"Now I can finally perfectly control everything in the universe of life!"

"In the Shifang Life Universe, apart from the time rule, I am an omnipotent god, do whatever I want!"

"In the boundless universe, I also control countless rules and authority, and I can even say that I am the condensate of the boundless universe's rules."

Su Lang looked inside the ten life universes and clearly saw the ten life universes operating in his body, which contained immense power!

At this time, his mastery of the rules has reached the limit, far exceeding the previous number of 3,900!

He has already controlled all the rules in the boundless universe, except for the rules of time!

[Chapter 1608: Breakthrough, the supreme emperor!](#)

of course.

It is not that the previous efforts have taken a detour.

Every rule that Su Lang has worked so hard to comprehend has laid a solid foundation for the universe of life.

It created better conditions for the fusion of soul and universe.

Otherwise, even with the assistance of system functions, he would not be able to complete 100% soul fusion so easily.

And now.

The breakthrough is not over!

Su Lang could feel that a very strange change was taking place in his body!

Follow that wonderful feeling.

Su Lang quickly found the reason

—In the dantian, a soul-body fusion cell is fusing with every part of the dantian universe!

This is exactly the way of Godless cultivation, embodied in the world!

"Tsk tut!"

"Even with the help of system functions, the fusion of a cell and the Dantian universe is so slow."

"The other Supreme Emperors don't know how long it takes to integrate a soul-body fusion cell with the life universe."

"..."

Su Lang sighed, and immediately continued to look inside at that cell.

This cell is slowly fusing with about one-billionth of the Dantian universe.

A singular force and cells fused with the space avenue as the main body and surrounded by the power of other avenues gradually crystallized it.

Not long.

"Ding! Successful breakthrough!"

As the system prompt sounded, that cell completely merged with a part of the Dantian universe.

In Su Lang's field of vision, this cell had become a small frontal dodecahedron crystal.

The surface layer of the cell integrates the space avenue and its subsidiary rules, forming a perfect space barrier!

Although small, this kind of space barrier is at the same level as that of the Dantian universe, and it is perfect!

The space inside the cell has also become very large, and all the substances inside are perfectly integrated with various regular avenues.

Those cell structures produced through cultivation and the sublimation of the essence of life are necessary for the storage and release of the martial artist's power.

At this time, all cell structures are integrated with the rules of the avenue, and the power of the rules of the avenue can be stimulated with the most perfect efficiency!

Only with such perfect efficiency can the conventional avenue be distorted, forming a twisting force that transcends all the regular avenues!

"Now I can use my own twisting power without using weapons!"

A trace of excitement flashed in Su Lang's eyes, and immediately his mind moved, and countless energy poured into that special spatial crystal cell in the dantian.

Immediately after.

These forces formed a twisting force in the spatial crystal cells.

"Snapped!"

Su Lang snapped his fingers, and an extremely weak twisting force appeared between his fingers.

Under the influence of this twisting force, hundreds of thousands of miles around instantly broke out a terrifying vision of rules.

Gravity disorder, rivers flowing backwards, mountains floating in the sky, and strange clouds form distorted colorful colors, just like oil paintings with thick ink!

"This space around it seems to be a completely different world."

A smile appeared at the corner of Su Lang's mouth, "If I want to, even the rules of space can be twisted and changed!"

Soon.

He opened his property panel.

[Chapter 1609: The one here is Jing Yuanbai](#)

"All aspects have improved to a small level!"

The corner of Su Lang's mouth raised slightly, "Moreover, his attack level has almost increased by two small realms, not bad, not bad!"

Finally breaking through to the Supreme Emperor, Su Lang's heart was too beautiful.

There is no **** level, this is a powerhouse that the entire star sea area does not have.

Once you return to the Xinghai realm, you will be invincible directly. All the Void Sects and the Palace of Origination are all scum!

"I really want to find some lost Xuanwu!"

"The time here is almost turbulent, and there is still no tortoise hair, so I can only change places."

"..."

Thinking of the difficulty of returning to the Xinghai Region, Su Lang began to feel uncomfortable again.

Next.

Su Lang took the clones back, and then took the Soul Chasing Emperor Palace, ready to explore the past in a clockwise direction to the west.

But at this moment.

In the colorful sky, which is like a thick oil painting, a different kind of colorful light flashed.

Immediately afterwards, the endless visions of rules were all calmed down.

"Ho **** ho ho!"

It came with a scream of terrifying Longwei.

However, he saw a white robe man stepping on the head of a colorful dragon, looking proudly at the Soul Chasing Emperor Palace.

This person is Jing Yuanbai, the Palace of Long Hatred who chased and killed all the way!

"what?"

"A very powerful Godless Grade!?"

"Looking noisy, can you encounter such an existence in this remote place with no grass in a radius of a billion miles?"

"..."

Su Lang looked at the white-robed man with his nostrils upright, and there were ten thousand grass mud horses running wild in his heart.

Immediately after.

He immediately opened the opponent's property panel.

The name is Jing Yuanbai, the race of the sun-devouring tengu, the realm of the four crossings is no god, and the fighting power is close to the Wudu Supreme Emperor.

"What?"

"Sun-eater tengu?"

"This is a dog monster?"

Su Lang stared at Jing Yuanbai's race dumbfounded, stunned, and continued to look at the messages below.

This Jing Yuanbai mastered a godless level exercise "Heaven and Earth Hunyuan Jue" with a very common name, and a series of great emperor level exercises and secret methods.

Moreover, depending on the name of the exercise method, it is basically the exercise method exclusive to the monster beast, just like Yumei's "Resolving the Demon Axis".

In addition.

Su Lang knew at a glance that the colorful dragon at Jing Yuanbai's feet was the colorful sky star dragon!

"Silonghai, the three great dragon godless soldiers have all fallen into my hands, and this is the seven-color sky star dragon."

"I thought that Liang Xiaofei didn't have it on his body, and probably would never be found again, but I didn't expect to see it here!"

"This Jing Yuanbai looks a bit unkind, and he is carrying a colorful Sky Star Dragon, perhaps the helper of Silonghai?"

"If you really are Silonghai's helper, come to me for revenge, that would be great!"

"..."

Su Lang looked at the domineering and invincible Jing Yuanbai in the sky, and he had already regarded it as a feast!

And while Su Lang was looking at Jing Yuanbai, Jing Yuanbai was also looking at Su Lang.

"This realm fluctuation is...there is no **** level!?"

"However, the intensity of his breath has reached the Sandu Godless level, which is a bit strange!"

"Perhaps this person used some secret method to kill Lu Mingxuan, causing the current state to be abnormal."

"Hmph, this is just right, it is better to solve this guy easily than to fight hard."

The thought in Jing Yuanbai's mind flashed, and immediately stepped on the colorful sky star dragon to fly directly above Su Lang, looking down from the top of Su Lang's head.

Right now, he really aimed at Su Lang with his nostrils.

at this time.

"Is Jing Yuanbai the one coming?"

Su Lang's faint voice spread throughout the world, even tens of millions of miles away.

But this sentence is the magical power displayed by the Great Emperor Sutra, and there is also the bonus of the twisted power before, which can be described as a hidden murderous intention!

"Exactly!"

Jing Yuanbai smiled disdainfully, and was about to threaten Su Lang to make him kneel on his own, when he suddenly felt a crisis coming.

Immediately after.

I saw an invisible strange breath falling on him, causing his skin to crack!

"The avenue of cause and effect?"

"I didn't even do it, you dare to do it, it's just looking for death!"

Jing Yuanbai was furious, the twisting power of his whole body exploded, and the twisting power of Su Lang was cancelled in a short time.

"court death?"

"You are aggressive and domineering, the way to die!"

A faint smile was drawn at the corner of Su Lang's mouth. Although his move did not work, it caused Jing Yuanbai to suffer a small loss.

[Chapter 1610: The cosmic fire devours the sun and the sky!](#)

"Humph!!"

"A mere trash with sequelae after secret surgery, dare to shout in front of me!"

Jing Yuanbai snorted heavily, his eyes gradually cruel, his complexion gradually grim, "Today I will let you taste all the pain!"

"It's really uneducated."

Su Lang rolled his eyes and said, "Well, some idioms, such as dying to live, not to live, to die, to die, not to bear to see..."

"Noisy!!"

"I want to tear your stinky mouth!"

Jing Yuanbai's face was blue and red!

He stretched out his right hand, turning into a giant palm that covered the sky and squeezed it towards Su Lang!

"Return this sentence to you!"

Su Lang smiled coldly, and also stretched out his right hand!

Not only that, his body suddenly became a giant of tens of thousands of feet, and he burst into a five-du godless aura!

There are also the four godless soldiers, Youtian Sword, Godless Dragon Terrace, Heart Without Edge Sword, and Bright Sword, all together, condensing countless twisting powers!

Rumble!

The world trembled wildly, and it was riddled with holes in an instant, as if it was about to disintegrate!

Countless regular anomalies spread all over the sky and underground, almost turning a radius of hundreds of millions of miles into chaos!

"Five.... Wudu has no god-level?"

"He clearly fell to a level of godlessness!"

"How can such a terrifying force erupt from such a severely injured and weak state!?"

Jing Yuanbai's pupils shrank suddenly, horrified, completely puzzled.

but.

Strong combat instinct and rich combat experience made him an immediate response.

Originally, his palm was just to capture Su Lang, not a killer move, and it was not powerful.

At this moment, in front of the powerful attack of Su Lang Wudu Godless Level, it was simply not enough!

"The power of twisting!"

"The sun bites the sky flame!"

In an instant, a large amount of twisting power burst out, covering Jing Yuanbai's huge palm.

There are countless black and gold flames lingering around, like dancing flame-shaped black holes, as if they could swallow everything!

The change of Jing Yuanbai's moves was completed in a single thought, and his power instantly rose to the peak of the Sidu Godless Level!

The next moment.

Su Lang's giant palm and Jing Yuanbai's giant palm collided fiercely!

Boom boom boom!

The terrifying shock wave like a galaxy explosion exploded and spread from the center, and the surrounding world was torn and destroyed like paper.

The sky turned into a gray and black misty void, countless messy and fractured spatial rhythm lines were everywhere, and countless spaces were raging turbulently, turning all the surrounding places into a strangling hell!

In this terrifying battlefield.

The two figures flew back hundreds of thousands of miles at the same time, and they were not the same!

"Normal power really can't compare to twisting power."

"I only have a godless cell, and the quality of the twisting power is too low."

"The ranks of the Supreme Emperor's soldiers such as Youtian Sword and Emperor Longtai are not very high, and the quality of the twisting force is also not good.

"And that kind of black gold flame can actually swallow the power of twisting!"

"If it weren't for my twisting power to far exceed Jing Yuanbai, I would be at a disadvantage in the first round!"

Su Lang revoked the world of law and turned into a normal body shape.

His eyes were fixed on the black gold flame named "Sun Devouring Sky Flame", it turned out to be a very high-level strange fire!

"Universal fire!"

"Heaven and Earth Profound Yellow, among the eight levels of the universe, the seventh level of strange fire!"

Through the ability to recognize treasures, Su Lang saw all the information of the strange fire in his eyes, "Unexpectedly, I would encounter a strange fire in this exile!"

It stands to reason that such things as different fires should only be available in Blue Star and Infinity Realm!

It is impossible for this strange fire to come from the blue star, which has only four different levels of heaven, earth, black and yellow.

Obviously, this cosmic fire must come from the boundless world!

And this kind of alien fire, called Sun-Sweeping Sky Flame, possesses the ability similar to Godless Dragon Station's "Dragon Nest" and Endless Dragon Sweep, that is, devouring energy!

And, because the different fire is beyond the boundless universe, it can swallow the power of distortion!

And just when Su Lang's mind was full of thoughts.

"whispering sound!"

"It's just a paper tiger!"

"Obviously possessing the power of Wudu Godless Grade, but unable to gather the corresponding twisting power!"

"If it wasn't for those few godless soldiers, I could make you kneel down with one move!"

Jing Yuanbai's face was full of disdain and arrogance, he sneered, the colorful sky star dragon disappeared under his feet, and there was an extra long knife with a narrow blade in his hand.
