### [Chapter 1621: I never deny this](#)

"You really haven't said much lately, have you been suffocated?"

Su Lang smiled blankly, then patted Xiaoyou's delicate back.

"Wow--!"

"Master, you actually hold me and don't let go, you really are a pervert!"

Xiaoyou raised her head to look at Su Lang, her pretty face full of cunning and playfulness.

"A man's \*\*\*\* is a hero."

"I never deny this!"

Su Lang ticked the corner of his mouth and smiled faintly, "You always tease me in front of me, are you afraid that I will fight you with a real gun?"

"I'm waiting for your words!"

Xiao You's eyes lit up, and Su Lang was taken aback by the words in her mouth, this girl...

at this time.

"You finally said something like this!"

"I must tell Beckham to them, hehe!"

Xiaoyou said excitedly, and glanced at Wushen Longtai, "Don't give false testimony to a certain insect!"

Godless Longtai trembled all over, and his heart said that I have been affected by such an inexistent person?

"Humph!"

"If you want to tell them, then go."

"Will I be afraid of them? I'm not here to pack one by one, and one pair to pack one pair!"

Su Lang twitched the corner of his mouth, rolled his eyes and snorted coldly.

"Oh~~!"

"Wouldn't it be that six or seven came and cleaned up together?"

Xiaoyou still stared at Shui Yingying's big eyes, "Master, you can have fun!"

"Yeah, I will have a good time!"

Su Lang twitched his mouth and waved his hand to close Wushen Longtai, "Xiaoyou, do you want to try now?"

"Wow--!"

"How long have I been born now~!"

Xiaoyou exclaimed, pretending to be scared, pushing Su Lang away, "According to the age of human beings, it is less than two months. Master, you..."

"Don't hide!!"

"As long as there is true love, age is not a problem!"

Su Lang hugged Xiaoyou tightly, with a serious expression on his face, "Tell you, I like you like this!"

"Uh.....!"

Xiaoyou stagnated, and a trace of crimson appeared on her jade-like porcelain face.

"Haha, skin with me, and see if you are still skinned!"

Seeing this scene, Su Lang's serious expression could no longer be stretched, and it turned into a strong playfulness and pride.

"Hmph, you won!"

Xiao You's face was even redder, and she stomped her feet before disappearing into the Youtian Sword.

"It's been less than two months... It's really... too much."

Seeing Xiaoyou hiding in the sword body, Su Lang's face didn't move, and his heart was a little complicated for some reason.

Next.

It's just getting up to business.

"system."

Su Lang's eyes are clear and his tone is calm, "Is my current material enough to evolve the Youtian Sword while retaining the specified characteristics?"

"Ding! The host currently has enough materials!"

"Immediately retain the designated characteristics and evolve the Youtian Sword!"

Before the sound of the system fell, Su Lang gave the instructions directly!

"Ding! Consume Godless Soul\*1, Quasi-no God Soul\*10, Great Emperor's Soul\*1000, Wudi Soul...The Youtian Sword has evolved into a Second Crossing Godless Soldier!"

With a flash of gloomy light, Youtian Sword's appearance did not change much, but its aura suddenly skyrocketed.

Coupled with the strengthening state, the true level of this Godless Soldier has reached the Sandu Godless Soldier!

"There is no \*\*\*\* soul or something completely sufficient."

"It's just that the other materials are not enough, and the place of exile is really barren, otherwise the Youtian Sword might evolve twice."

"..."

Su Lang looked at the godless soul left in the storage space, feeling a little regretful.

Immediately after.

He took out the eight-sided shield again.

Although evolving the Youtian Sword and Godless Dragon Platform consumed a lot of materials, there was still a lot left.

At this time, the remaining materials are enough to evolve the quasi-no-god soldier Tianzhu eight-sided shield into a non-god soldier.

"When I saw the eight-sided shield, I thought of Broken Dream Knife."

"Hey, Broken Dream Knife, it's a pity that it cuts out its immediate perverted attributes."

Su Lang thought of the Broken Dream Knife sealed in the Abandoned Life Universe, and shook his head helplessly, his gaze immediately fell on the eight-sided shield of the sky.

"the host....."

Qi Ling Aja ran out and knelt at Su Lang's feet, extremely humble.

"Ah, you are going to evolve into a godless soldier."

"From the quasi-no-god level to the non-god level, even Ao Bing's minor mental retardation can be cured."

"I hope you can change your cowardly temper after evolution."

Su Lang muttered a few words, and then gave the evolution order.

"Ding! Consume no \*\*\*\* soul\*1, quasi no \*\*\*\* soul\*8, the soul of the emperor\*100, empty cicada supreme gold\*20, three-life peach blossom jade\*50...The eight-sided shield of heaven has evolved into one Cross no \*\*\*\* soldiers!"

### [Chapter 1622: Godless Grade Eight-Round Shield](#)

When the system prompt falls, Tianjia's eight-sided shield instantly takes on a new look and is promoted to one level!

After upgrading to a large level, the appearance of Tianjia's eight-sided shield has undergone some changes, but the changes are not significant.

The original eight-sided celestial shield was a black circular shield the size of a pan with an unusually conspicuous white circle on it.

At this time, the shield is still the same, but the color has changed.

The black background of the shield has become darker, and the white circle is more conspicuous!  
If a quasi-godless class sees this shield, I am afraid that the white circle will attract all the attention.  
The appearance changes at the same time.

Kneeling at Su Lang's feet, he was covered in black mist, shrank and shrank like a coward, Ah Jia, who was also a creature with real flesh and blood!

But I saw Ah Jia looks like a man in his twenties.

His skin is fair, his hair is messy, he wears an ordinary black robe, and his eyes are dark circles, and he looks terribly deteriorating.

"Ao Bing and Li Qijue both look extraordinary, how come it's your turn to still be so bad."

Su Lang smiled speechlessly, "Could this be the so-called birth from the heart?"

"I'm afraid, probably... right..."

Ah Jiang replied uncertainly with a cautious expression.

"Go!"

"Looking at how you look now, it's a lot better than before."

"It is estimated that if you evolve a few more times, you will not be affected by nature."

"However, you have to make progress yourself, and your temperament can be restrained through hard work."

"Send you a word from Mr. Shuren, true warriors dare to face the bleak life and the dripping blood!"

Su Lang smiled and relieved Ah Jia a few words, and then taught a few words with a straight face, "I am looking forward to seeing you shouting 'Come on, \*\*\*\* me' in the battle. ."

"warrior....."

"A true warrior, a bleak life..."

"Come on... \*\*\*\* me..."

Ah Jiang trembled all over, and if he realized something, he repeated Su Lang's words and returned to his body.

"This guy won't have an epiphany, right?"

Su Lang raised his eyebrows, a little surprised, "Wait a while and take him out to see if there is any change."

Put away the eight-sided shield of Tianjiao.

Su Lang's gaze fell on Xin Jue Wu Feng Sword and Bright Sword.

These two weapons also had many functions in previous battles.

Every twisting force they gathered was the reason for Su Lang's victory.

"Now I have almost used my materials."

"But I have written down your functions, and I will be promoted for you next time."

Su Lang flicked the two long swords with his hands and carried them around his waist.

The Youtian Sword next to him also \*\*\*\* Su Lang's hair obediently at this time, acting as Su Lang's hairpin.

"Although there are a lot of poems, but the nature is still very good and cute."

Su Lang touched the Youtian Sword that looked like a hairpin, and a happy smile was drawn at the corner of his mouth.

Next.

He continued to count the remaining gains.

I have to say that Jing Yuanbai still has a lot of things on his body.

Now three weapons have been upgraded, but the refining materials are almost consumed.

Su Lang hasn't had time to look at some more valuable things.

Looking around in the storage space, a group of black and gold flames floated slowly, quite mysterious!

This flame is exactly the sun-devouring sky flame that Jing Yuanbai used in the battle before, the cosmic fire!

"Different fire!"

Su Lang's heart moved, and the Sun-Biting Sky Flame suddenly appeared in his hands.

"Ding! I found that the different fire is consuming the sun and the sky, is it refining?"

really.

Just like when it got the Qinglian dragon pattern fire, the system detects the abnormal fire and prompts it immediately.

"Refining!"

Su Lang issued an order.

"Ding! The Sun Devouring Sky Flame has been refined!"

The system prompted that as soon as it fell, the black and golden flames melted into Su Lang's body and disappeared.

"The sun bites the sky flame!"

Su Lang spread his left hand, and a black and gold flame appeared in the palm of his hand.

This is a kind of flame that can swallow energy, including twisting power!

### [Chapter 1623: Fusion of Cosmos Grade Different Fire Devouring Sun Sky Flame](#)

"Colorful burning heaven!"

Su Lang spread out his right hand again, and a group of colorful flames appeared in the palm of his hand.

This is a special fire formed by fusing 88 different fires with "Burning Heaven Great Emperor Jing", possessing various strange characteristics.

"Fen Tian, turn!"

Su Lang thought, and the colorful flame in his right hand suddenly turned into a ball of colorful envelopment.

Immediately, the black gold flame on the palm of his left hand suddenly looked like iron filings attracted by a magnet, and it rushed straight towards the entanglement and blended into it.

Immediately, 氤氲 began to rotate slowly, like a grinding disc-shaped nebula.

Not long.

The Sun-Biting Heavenly Flame was completely integrated into the colorful Burning Heavenly Flame.

The endlessly spinning 氤氲 also stopped spinning, returning to the previous colorful colors.

At this time, the colorful Burning Heaven Miaoyan had swallowed the Sun Devouring Heaven Flame, and he was immediately promoted from a Wuxian-level heterogeneous fire to a Supreme Emperor-level heterogeneous fire!

It contains eighty-eight kinds of flames, such as 'green lotus and dragon pattern', 'xuanyun pure moon', 'crape myrtle indefinite', 'rock blood and dark death', and 'forbidden spirit of heaven'.

Its characteristic level has also been raised to the godless level, which is suitable for the battle of godless level!

"hiss!!"

"Unexpectedly, a cosmic grade alien fire can actually improve all the characteristics of the alien fire!"

"These strange fires all have the characteristics of 'transcending the universe' and can resist the existence of twisting power!"

"With these flames, facing a godless opponent, I have another terrifying hole card!"

"..."

Su Lang looked at the brand new colorful Burning Heaven Miaoyan in his hand, and his eyes were full of surprises.

Just this colorful burning sky magic flame has the characteristics of attack, concealment, defense, amplification, trapping enemies, etc., which can be regarded as a twisting power with distinct attributes.

In the battle, it can definitely play an unexpected role.

"I knew it was extraordinary."

"It now appears that the potential of Alien Fire greatly exceeds my prediction."

"I don't know if there is still a strange fire in this place of exile, if there is, you must get it!"

Su Lang licked his lips. He who tasted the sweetness wanted to melt into more strange fire now.

of course.

Make bricks without straw.

There is no other strange fire in his hands, and Su Lang can only temporarily shelve it.

Taking the colorful Fentian Miaoyan back into his body, Su Lang took out the Heart of Devouring Flow.

The Mental Arithmetic of Qi Liu is a special transcendent organ in Jing Yuanbai's body, which is used to condense the special twisting power of "Li Liu".

After condensing enough heart of the flow, you can perform the flow of the lore!

Su Lang had personally experienced the horror of "Sweeping the Flow Lore".

This move can directly engulf and control the enemy's power to counter-kill without going through any process of absorption and transformation!

Whether it is conventional power or twisting power, it will be directly engulfed, a counterattack!

The stronger the force being entrapped, the stronger the flow of devouring lore, which will often exceed the enemy's own strength and carry out leapfrog counter-kills!

If it weren't for Su Lang's system function, he could switch positions with the clone instantly when the space rules collapsed, he would definitely lose in this trick.

"However, this trick is mine now!"

The corner of Su Lang's mouth twitched, revealing a faint smile.

The Heart of Devouring Flow is completely preserved by the system, just like the Supreme Emperor Dao Jing, forming a special whole, which can be used directly.

Of course, the Supreme Emperor Dao Jing was a tasteless one for Su Lang.

The heart of phagocytosis is different. This thing can be put into the universe of life, instilling various energies to cultivate the 'destructive force of phagocytosis'!

and.

This thing can also be used to refine tools, if it is refined into a godless soldier, the effect will be better!

Although Su Lang did not have a complete refining formula, if he refined it randomly, he would not get the desired result.

But he has a key decomposition function!

If the refined weapon does not meet expectations, it will be decomposed directly without losing any material at all!

"It's a pity that the refining materials are too scarce now."

"It's better to put it in the public universe to absorb energy first, and then use it to refine Godless Soldiers when you have the materials!"

Su Lang made a decision while his thoughts flickered.

[Chapter 1624: Then you will be meat dogs](#)

Immediately after.

When he thought about it, he put the 'Heart of Devouring Flow' into the public universe.

Not only that, but also makes it revolve around the sun's surface, absorbing the sun's energy.

The sun in Su Lang didn't look big, but it was a part of the sun in the boundless world, and its energy could not be used up.

So there is no need to worry that the heart of the stream will absorb the energy of the sun at all!

After releasing the Heart of Devouring Flow, Su Lang took out a life universe.

This is the life universe of Jing Yuanbai's Sidu level, the most perfect life universe that Su Lang has obtained, and it is even more advanced than Lu Mingxuan's.

After all, Lu Mingxuan had just broken through Sidu, but Jing Yuanbai was a senior Sidu Godless.

At this moment.

The life universe in Su Lang's hands is much better than Lu Mingxuan's life universe.

Because Jing Yuanbai lost the courage to struggle at the last juncture, and did not have the will to smash jade instead of tile.

So he didn't completely sacrifice his life planet, but squeezed the creatures inside to almost death.

The reason why it is said to be almost, is because there are still some creatures living in it.

Su Lang dispatched his clone to enter this universe of life.

It was found that the planet of life was split everywhere, full of cobweb-shaped rift valleys.

Countless smoke and dust filled the sky, earth and even the void of the universe, making a gray scene in front of him.

The broken ground is full of creatures that have turned into dry corpses.

The wind blows gently, and they turn into fly ash, dissipating between the sky and the earth.

"Woohoo..."

On the top of a huge mountain, a pure white tengu wailed to the sky. It was seriously injured and died soon.

This is a quasi-godless sun-eater, the pure blood offspring of Jing Yuanbai.

It knows that the reason why the life universe is like this is because the ancestor has fallen!

In addition to this sun-eater tengu, there are other sun-eater tengu living.

Probably it was Jing Yuanbai who couldn't bear to swallow them so that they survived.

If Su Lang did not obtain this life universe, they would develop and grow on this life planet.

Until the barriers of the life universe were eroded by the force of space in the exile, everything was exposed and everything was restored to freedom.

At that time, the inheritance of the sun-eater tengu will reappear in the land of exile.

But now, Su Lang controls this universe of life.

The lives of these sun-eaters are all in the hands of Su Lang!

"A dog is a good dog, but unfortunately, I don't know if he is loyal."

"Since it is a creature below the Godless level, you can use Mingguang Ten Thousand Realms to try to assimilate it."

Su Lang thought in his heart, and immediately entered the universe of life, unfolding the luminous world, trying to assimilate these sun-eaters.

however.

Even with Su Lang's Godless power at the Wudu level at this time.

The displayed Mingguang Tengu could not assimilate the Sun-Eater Tengu!

Even the other creatures on the planet were all assimilated and surrendered to Su Lang's feet.

Those sun-eaters did not have any tendency to surrender, but were full of mortal hearts, and would rather die than surrender.

"It is the first time that Mingguang Ten Thousand Realms has failed to a creature below the Godless level."

Su Lang frowned slightly, "Perhaps, the Sun Devouring Tengu is a special case? They have the heart of Devouring Flow, and they are born to condense the terrifying and twisting power of Devouring Flow, so they can resist the Mingguang World!"

After guessing the reason.

"Since you don't want to surrender, be my lackey."

"Then you will be my meat dogs!"

Su Lang sneered again and again, he planned to refine a super powerful weapon, but the more things like Heart of Flowing Devour, the better!

These sun-eater tengu did not want to surrender, so they were raised, and when they grew up, they killed them and took away various materials from them!

"Since I have decided to breed."

"You have to put some feed in."

"Many of these sun-eaters have reached the pinnacle of the quasi-no-god level, because Jing Yuanbai deliberately suppressed it and did not break through."

"As long as the resources are sufficient, they will have a godless existence soon."

### [Chapter 1625: A brand-new Godless Pill!](#)

"..."

Su Lang smiled at the corner of his mouth, and a large number of godless pill appeared in the wave of his hand, and it fell into the hands of racial powerhouses other than the sun-eater.

In addition to a large number of pills, there are also some "Sun Devouring Soul Body Fragments" obtained from Jing Yuanbai.

Presumably, these pure-blooded Sun-Eater Tengu got these Sun-Eater Soul Body Fragments, and they will definitely increase their cultivation base!

And now, all races other than the Sun Devouring Tengu had become Su Lang's slaves.

Su Lang gave these treasures to these racial powerhouses, just to use their hands to indirectly send them to the hands of the sun-eaters.

After all, the current Sun-Eater Tengu population is full of panic and vigilance, and will never accept treasures of unknown origin.

Finish it all.

Su Lang collected this life universe into the pupil of ten thousand worlds.

Presumably, the Sun Devouring Tengu will be attacked soon, and will kill the enemy and get a lot of resources!

Then they will use these resources to break through to the godless level, and at the most exciting moment, they will be cut by Su Lang!

This is the end of death rather than yield.

Collect Jing Yuanbai's life universe.

Su Lang also produced a large number of exercises classics.

Among these exercise books, there are God-level exercises "Supreme Sutra of Devouring Sun", "Supreme Demon Sutra" and some great emperor-level exercises.

But these exercises are basically only applicable to the Sun-Biting Tengu, and the effect is ordinary.

Because the sun-eater tengu mainly relies on its own monster talent to fight.

For example, minions, or natal weapons refined by minions, and the Heart of Devouring Flow.

The exercises are not very helpful to them.

For Su Lang, the biggest gain of these exercises is the two non-synthetic godless-level exercises, which can be used to synthesize Taichu exercises.

Of course, these exercises are just a spare, after all, some exercises are not suitable for integration.

Sometimes the high-level exercises of chicken ribs are not as good as the lower-level exercises.

In addition to the exercises, the classics made Su Lang's eyes bright.

The Sun Devouring Tengu clan are indeed very good at refining weapons, this is their ethnic heritage!

Through these inherited knowledge, they can refine their minions into natal weapons.

For example, the Blade of Sacrifice is one of them.

Of course, the refining classics still had little effect on Su Lang.

But the alchemy classics are different.

Su Lang found a godless alchemy book among the spoils.

At first glance, this book is not the book of the Sun-chewing Tengu clan, but Jing Yuanbai obtained it from other places.

Because it records many high-end godless-level pill prescriptions, as well as the corresponding alchemy techniques, profound meaning.

There are a total of 98 kinds of alchemy, including various kinds of cultivation, healing and so on.

Although Su Lang also has many godless pills.

But almost all the medicines in his body are synthesized with one-key synthesis function.

Although the synthetic pill has reached the godless level, it still has some flaws in nature.

Just like when Su Lang made healing pills for Chu Xiaobei, the effect of the low-level pills synthesized was not very satisfactory.

just now.

With regard to the pill, Su Lang finally truly entered the stage of godlessness.

The godless grade pill that is refined through these pill recipes can even be used to synthesize too low-level pill.

Of course, I don't know how terrifying the ratio is.

"It just so happens that my refining materials are exhausted, but there are so many alchemy materials!"

"Especially the alchemy materials without \*\*\*\* level, because there is no pill, all are piled up there to eat ashes."

A hint of excitement rose in Su Lang's eyes, "Now these alchemy materials can finally come in handy!"

"system!"

After reading the pill prescription, Su Lang immediately ordered, "Activate the one-key alchemy function to refine Taikun Immeasurable Pill!"

"Ding! Successfully refining, you will get the Godless Grade pill Taikun Wuliang Dan\*5!"

"Ding! Successfully refining, you will get the Godless Grade pill Taikun Wuliang Dan\*5!"

"Ding! Successful refining, you get..."

The system prompted a scream, and Su Lang received a hundred Taikun Immeasurable Pills in a short time!

You know, a godless alchemist is already extremely rare.

Most of the godless pill that they refined were of low quality, or even inferior pill.

And Su Lang refined the godless pill of perfect quality, its value is simply inestimable!

[Chapter 1626: Bi Yelin's confidant girl Niu Niu](#)

"Tai Kun Wuliang Dan has run out of materials?"

Su Lang heard the system prompt to stop, so he ordered again, "Refine the Supreme Void Pill for me!"

"Ding! Successfully refining, you will obtain Godless Grade Pill, Supreme Heaven Void Pill\*5!"

"Ding!....."

The system prompt rang again.

Seeing that the materials accumulated for a long time in the storage space turned into perfect quality Godless pill, Su Lang's face burst into laughter.

Immediately after.

Su Lang looked at the classics about the formation.

It's a pity that Jing Yuanbai didn't collect any powerful formations, and the most advanced formations were only at the emperor level, so there was nothing to say.

"Hey, this makes my thoughts go into a rush and can only continue to sit on the bench."

Su Lang sighed and stuffed all the spoils into the storage space.

So far.

The harvest from Jing Yuanbai is completely counted!

at the same time.

In the \*\*\*\* sky.

Qin Chengan is conducting a series of investigations on Jing Yuanbai's death.

Soon, a large amount of intelligence was transmitted back from places near the battlefield.

"what!?"

"According to the investigation, the person who fought against Jing Yuanbai secretly planned a plan to destroy Bixuetian!?"

"Moreover, it seems that he has some vicious means against the blue-blooded unicorn in his hands?"

"And his purpose is to kill the lord of Qing Ting and obtain the blood of unicorns for his breakthrough?"

"Jing Yuanbai originally planned to leave, but after learning some clues, he was afraid that the person would succeed in planning, so he would disregard the command of Qing Ting lord and act boldly."

"The result is that Jing Yuan Baili lost the battle, and would rather die than surrender, be killed!"

"..."

Qin Chengan frowned slightly as he watched the messages gathered in his hands.

He did not question the authenticity of this comprehensive information.

Rather, he felt that it was really uncomfortable for Jing Yuanbai to suddenly change from a fellow who did not obey orders and died to a heroic sacrifice.

What qualifications does that arrogant fellow have to be a hero?

of course.

Unhappy and unhappy.

Qin Chengan reported this information to Bi Yelin.

Of course, he didn't know that this information was simply not accurate.

With Jing Yuanbai's efforts, Bixuetian's intelligence system has long been eroded by the Palace of Sorrow, and it is too simple to do it!

The top of the blue blood sky.

The top floor of the vast floating building is in the Imperial Jade Hall.

"Is that so?"

Bi Yelin put down the jade slip in her hand. She looked at the information, her face was indifferent, and she couldn't see the idea.

"There should be no problem."

Qin Chengan knelt beside Bi Yelin, his face calmly replied.

"In that case."

"Then you send someone to chase the murderer."

"Remember, the murderer is very powerful, don't do it rashly!"

"After getting the trace of the other party, you immediately report it to me and I will deal with him personally."

Bi Yelin said faintly, and gently pinched in her hand, the jade slip that recorded the information will fly to annihilation.

"Yes!"

"Follow the order of the Lord of Qingting!"

Qin Chengan knocked on the commander's orders and immediately turned and disappeared from the same place.

"Humph."

"Really?"

After Qin Chengan left, Bi Yelin snorted coldly, "Mo Lu, go to confirm the authenticity of this matter and investigate Qin Chengan by the way."

"Yes!"

"However, sister, Qin Chengan should be fine."

Accompanied by the voice of a young girl, a woman with a big waist and bulging muscles, but with a delicate head, walked out of the dark.

This girl named Molu is not a deer demon, but a antler longicorn with a special bloodline.

Yes, a longhorn beetle!

At the same time, she was also a Four Crossing Godless Grade powerhouse, and she was Bi Ye Lin's most trusted person, not one of them.

The girl Molu controls the intelligence network that Bi Yelin secretly arranged, which is very different from the intelligence network on the bright side.

Although Bixuetian is too loose, the two intelligence networks inevitably overlap, but the level of penetration of the secret intelligence network is much lower.

"His loyalty may be fine, but it's only possible."

"The main reason is that I have a little doubt about his ability, for fear of him being deceived."

Bi Yelin looked at Mo Lu with gentle eyes, "Go, investigate in secret."

"Ok!"

The girl Mo Lu nodded heavily, and immediately disappeared into the curtain.

#### [Chapter 1627: Zhan Taiqing's clone](#)

at the same time.

The far north border of the land of exile, the edge of the residence of the Supreme Palace of the Nine Qings.

An old man with a beard longer than his hair appeared out of thin air, and then flew towards the east.

This old man is a clone of Zhan Taiqing, his real name is Yuan Qing, and he has the cultivation base of the Four Crossing Godless Level.

Of course, Zhan Taiqing did not have Su Lang's perverted clone ability.

This clone was not split by himself, but was created by a Supreme Emperor and various rare materials with special methods.

At this time, the reason why this clone went to the east was because Zhan Taiqing sent out to find Su Lang.

Zhan Taiqing was shocked by Su Lang too many times, and he was afraid that Su Lang would continue to slaughter Godless Grade everywhere, which would greatly reduce the overall strength of the Exile.

So I sent a clone to get to know Su Lang and talk about the battle of reincarnation by the way.

In fact, if only sending a clone to go, there is a slight suspicion of negligence.

After all, in Zhan Taiqing's eyes, Su Lang was a big boss at the same level as him.

But when Zhan Taiqing left the retreat, his life span couldn't help but toss, otherwise he would go to see Su Lang himself.

Of course, even if he dispatched a clone, he also brought enough sincerity.

The other side.

Su Lang went all the way north, and the time limit for swallowing the clone had arrived on the way.

When the clones and avatars were all reunited, Su Lang began to use clone dispatch and clone replacements.

This is much faster than flying on your own!

In a short period of time, Su Lang continuously replaced the clones and appeared near the far north.

Because he knew that the Supreme Palace of the Nine Qings was in the far north, Su Lang didn't plan to go to their residence.

Simultaneously.

Taishang Jiuqing Palace, time is turbulent.

The deity Zhan Taiqing looked at the light spots on the chessboard and couldn't help rubbing his eyes.

"This fellow Taoist can actually span such a long distance in an instant!"

"The shortest leap spanned 300,000 light years!"

"This isn't the teleportation array laid out in advance, is it? Is it possible that his teleportation array is spread throughout the exile? Is this... possible?"

"..."

Zhan Taiqing's face was uncertain, and then quickly issued instructions to the clone Yuan Qing to rush to Su Lang's direction.

After a while.

"Finally it's here!"

"Just stay here for a day or two."

Su Lang stood on the top of a huge rocky peak, overlooking the turbulent time border in the distance.

"I don't know if I can find Lost Xuanwu here."

Su Lang thought, and forty avatars suddenly appeared around his body in one drink!

A total of 80 clones with the normal combat power of the Supreme Emperor Sandu came to this world, and the pressure on their bodies distorted the space.

at this time.

A huge teleportation array burst out with fierce rays of light in an extremely hidden mountainside in the distance.

The strong light almost pierced the mountain and came out, very conspicuous.

"Ok?"

"There is a teleportation array over there?"

Su Lang sensed the light of the teleportation array for the first time, and immediately turned his head to look.

Soon.

Su Lang found an old man with a long beard flying out of the giant mountain and flying towards him.

But this person suddenly stagnated and stopped.

"My goodness!"

"is this real?"

"A full eighty clones? And all of them are Sandu Godless Grade, and the aura of the deity is exactly the same!"

"I must be dreaming, where is there such a terrifying avatar in the world!?"

"..."

Yuan Qing stared at the avatar next to Su Lang dumbfounded, and his whole body was dumbfounded.

He even rubbed his eyes and pinched his arms to rule out his broken eyes or dreaming.

When he found that everything was true, Yuan Qing suddenly doubted life and the world!

It is hard for him to imagine that there is such a mysterious avatar in the world!

at the same time.

Su Lang was also looking at the old man who suddenly appeared.

The old man was thin and weak, with a white beard and longer than his hair.

The breath that escapes inadvertently on his body represents that he is a powerful Sidu Supreme Emperor.

#### [Chapter 1628: What's so strange](#)

"Sidu Supreme Emperor is already a strong man who is not weak in the exile."

"Suddenly there is a Sidu Supreme Emperor, why is it?"

Su Lang squinted and opened the attributes panel of the bearded old man.

[Name]: Yuan Qing (clone of Zhan Taiqing)

"Yuanqing? Zhan Taiqing clone!?"

"Zhan Taiqing...could it be that he is the boss of the Ninth Qing Palace?"

Su Lang raised his eyebrows, "I was spotted by someone from the Supreme Nine Qing Palace?"

at this time.

Yuan Qing seemed to suppress the shock and disbelief in his heart, took a deep breath, and flew to the vicinity of Su Lang.

"Yuanqing, what are you doing?"

Without waiting for the old man to speak, Su Lang took the lead to ask questions, his voice indifferent and he refused to be thousands of miles away.

"what!?"

"Daoyou...you know my real name!?"

Yuan Qingzheng wanted to say hello to Su Lang, but at this time the words in his mouth turned into shocked words involuntarily.

Yuan Qing can be 100% sure that he has never seen Su Lang.

And the name Yuan Qing is known only by his deity Zhan Taiqing.

Usually outside, he always calls himself Shang Yuan Emperor.

But now, Su Lang actually revealed his real name in one go. How could this make him not frightened, how could he not think about it?

"Ha ha."

"What's so strange about this."

"There is no one in the world whose name I can't recognize."

Su Lang smiled faintly, staring at Yuan Qing, "You haven't answered my question yet, what are you doing in this place where birds don't shit?"

With that said, Su Lang pointed at the mountain under his feet.

This is the edge of the land of exile. The nature is extremely barren, and most of the vegetation is withered.

"Friends, don't be nervous."

"The old man is the clone of Zhan Taiqing in the Ninth Qing Palace."

Yuan Qing solemnly bowed to Su Lang ninety degrees, and took out a space fairy, "The old deity has heard of the name of the public for a long time, and specially prepared a small gift to visit the dao friends!"

After seeing Su Lang's 80 avatars of the Supreme Emperor of Sandu and his real name being called out by Su Lang, he has completely determined that Su Lang is a super boss.

Therefore, Yuan Qing did not dare to neglect at all.

"Oh?"

"Zhan Taiqing knows my deeds?"

"Yes, the Supreme Palace of the Nine Qings is the biggest force in the land of exile. I made a lot of noise, and it's not surprising to be known."

Su Lang raised his eyebrows and immediately said, "Let's talk, you come to visit me, what is the matter?"

"Haha."

Yuan Qing smiled, and handed out the Space Immortal Tool, "I also ask the fellow Taoists to accept the gift first, and forgive the sin of the old without telling them."

"Okay, then I will accept it."

Su Lang smiled faintly, and directly took away the space fairy.

Through treasure identification, there is no problem with this thing.

Even if there is a problem, the most serious consequence is nothing more than triggering death replacement.

"Yo!"

"Zhan Taiqing is really generous."

"Even to give me ten godless pills, as well as various treasures of heaven and earth."

Su Lang looked at the Space Immortal Tool. There were ten godless pills of no low level lying in it, and they were piled up with all kinds of heavenly materials and earth treasures, all of high level.

The treasures contained in this space immortal device are already equivalent to the entire wealth of a godless class.

"A modest gift is no respect."

"Friends of Taoism don't dislike it, so you can rest assured!"

Seeing Su Lang's satisfaction, Yuan Qing immediately smiled, "By the way, I don't know the name of Youzun."

"My name is Su Lang."

"You can say your purpose now, right?"

Su Lang flipped his hand to put the space fairy into the storage space, and asked lightly.

[Chapter 1629: Oh my god, this is too precious too](#)

"Of course, Fellow Daoist Su Lang."

"The deity sent the old man to visit fellow Taoists to discuss the battle of reincarnation with fellow Taoists."

Yuan Qing looked straight, and said seriously, "I don't know what your friends think about this war of reincarnation? Is the strength of the Exile Land enough?"

"War of Reincarnation?"

"Excuse me for not knowing the strength of the Exile, so I still don't express my immature opinions."

Su Lang's heart moved, Zhan Taiqing actually sent an avatar to ask him this question, this is to treat him as a strong man of the same level!

But the strongest opponent he killed was also the Four Crossing Supreme Emperor Jing Yuanbai, and he still won by a narrow margin.

With this kind of strength, can it also be regarded as a powerhouse of the same level by the big brothers of the Supreme Nine Qing Palace?

"Does Zhan Taiqing understand some other things and misunderstand me?"

Su Lang thought so in his heart, but on the surface he looked still, as steady as an old dog.

Yuan Qing was not surprised when he heard Su Lang's words.

Because in the eyes of him and his deity Zhan Taiqing, Su Lang is a gangster who has just recovered, and of course he doesn't know much about the forces in the exile in this world.

And the reason why Yuan Qing asked so was of course to bring up the following topic.

"That's it."

"It's no wonder that fellow Taoists didn't know that the strength of the Exile Land was not optimistic, and they gave a dead hand to those godless."

Yuan Qing said with emotion, "It's too difficult to bring out the coffin of the Nine Dragons in this war of reincarnation. One less godless class will reduce the possibility of success."

Su Lang understood.

Yuan Qing's oblique words were to tell him that Godless Grade cherishes the place of exile, and for the battle of reincarnation and the coffin of Nine Dragons, please don't kill people again.

"Friends of Yuanqing Daoist."

"My principle is that people do not offend me and I do not offend others. If anyone offends me, I will kill them."

"I also have a motto with only four words, and that is 'the world has no enmity'."

"What's more, I kill people who offend me first, and those who chase me. If I don't kill them, they will kill me!"

Su Lang said indifferently, "The Battle of Reincarnation, the Coffin of Nine Dragons, is indeed a very important goal, but before pursuing the goal, I have to save my life."

"The old man understands!"

"It's an old man who didn't think about it well, so wrong!"

"Fellow Daoist has just recovered, and his strength has not yet recovered. It is the best choice to make a full shot."

"Those who covet Daoists are really guilty of death, more than guilty."

"..."

Yuan Qing listened to Su Lang's explanation, and suddenly bowed and apologized with shame.

Immediately after.

"Friend Su Lang is probably not fully recovered yet."

He added: "It's better to enter the Supreme Nine Qing Palace, where you can not only avoid Xiao Xiao harassment, but also recover to the peak faster."

Yuan Qing wanted to invite Su Lang to join the Supreme Nine Qing Palace.

"Haha."

"I'm used to being free, and I don't have the habit of sending someone under the fence."

Su Lang didn't even think about it, and smiled faintly, "So, let's forget it."

"The old deity doesn't mean that."

Yuan Qing smiled bitterly, "I just want to provide a safe and stable place for Daoists to ensure that Daoists are restored to their peak and participate in the battle of reincarnation."

"Still not."

Su Lang smiled, "I understand Zhan Taiqing's kindness."

What a joke.

With such a powerful force as the Nine Qing Palace, Zhan Taiqing has lived for so long, who knows what twists and turns and pits and traps inside.

If you get yin after entering, you will suffer even if you don't die!

Su Lang said, I will not go!

"In that case."

"Then you won't force it."

The regret on Yuan Qing's face flashed past, and he blessed him, "I wish fellow daoists to restore their peak state as soon as possible, and to a higher level!"

"Thank you."

Su Lang nodded, and immediately took out a Taikun Immaculate Pill and handed it to Yuan Qing, "Come and not go indecently, this pill is a gift to fellow Taoist Zhan Taiqing, please accept it."

"This...this is Taikun Wuliangdan!"

"A godless pill that specifically promotes the integration of soul and soul!"

"And... and this is a perfect quality pill!"

The expression on Yuan Qing's face instantly became unstable, and his eyes were full of horror, "God, this is too precious!"

#### [Chapter 1630: It's just a pill that I refined](#)

Compared with this perfect quality Taikun Wuliangdan.

The godless pill that Zhan Taiqing gave to Su Lang was simply scum.

Although the pill that Zhan Taiqing sent was not low in grade, it only had the effect of restoring treatment, and the quality was also very low.

However, Su Lang's medicine can assist the cultivation of Godless level, not only of high level, but also of perfect quality!

Just this one Taikun Immeasurable Pill is ten times more rare than those ten Godless Grade Pills combined!

"Ha ha."

"This is just a pill that I refined casually."

"In addition to this Taikun Immeasurable Pill, I also have 98 kinds of godless pill, such as the Supreme Heaven Void Pill."

"If Daoist Zhan Taiqing needs it, he can use treasures to trade with me, such as Xianyuan Diyu, Tiancai Dibao, and Gongfa classics."

"Of course, you can also come to me for alchemy with enough materials, and I will charge a certain fee."

"It would be better if there is a pill that I haven't seen before. My favorite thing is to study the pill."

The corner of Su Lang's mouth twitched and a faint smile appeared, "I can guarantee that every pill is of perfect quality!"

This statement came out.

Yuan Qing was dumbfounded, dumbfounded.

Su Lang's words are like unrealistic dream talk, but Yuan Qing knows it must be true!

"Friend Su Lang! You are a godless alchemist!!"

"No, your alchemy attainments, I am afraid you have reached the primordial level, if not, it is absolutely infinitely close!"

After a few breaths, Yuan Qing was so excited, his beard flew up when he spoke, and even used honorifics involuntarily.

"You guessed it roughly right."

Su Lang smiled faintly, "Anyway, as long as there is a pill, there is no pill that I can't make."

"Oh my God!"

Yuan Qing exclaimed, "In countless times of reincarnation, you must be the one with the highest alchemy attainments! It is my blessing to meet you!"

"Friends of Daoist are serious."

"I can't make alchemy without materials."

Su Lang shook his head humbly and smiled, "I would also like to ask fellow Taoist friends to bring medicinal pills back and ask fellow Daoist Zhan Taiqing, it would be great if he needs medicinal pills."

"No more questions!"

"The old deity has already learned of this, and is preparing the resources, alchemy materials and alchemy for trading!"

Yuan Qing said quickly, "If it is not for the old man to have no materials, he must ask a fellow Daoist to refine it now!"

"Oh!?"

Su Lang laughed, "Taoist Zhan Taiqing is really quick and resolute!"

"It's so tempting to be a fellow Taoist medicine!"

Yuan Qing couldn't laugh or cry, and immediately showed a trace of apology, "The old deity can't help but want to come in person, but there is another thing at a critical moment, so I can only send my disciple Yu Qing to come."

"It's all right!"

Su Lang smiled and shook his head, and pointed to the Soul Chasing Emperor Palace.

For Su Lang, whether it was Zhan Taiqing or Zhan Taiqing's apprentice, it was completely fine as long as he brought the materials.

"please!"

Yuan Qing solemnly arched his hands and followed Su Lang into the Palace of Soul Chasing Emperor.

As for those clones, of course they were all put away by Su Lang.

Yuan Qing had seen these eighty three-duration avatars, which had already exposed a hole card.

Su Lang wouldn't let these clones use Baiying clones to become a full eight thousand Supreme Emperor, and then throw them into the turbulent flow of time without fear of loss.

What's more, it seems that Yuan Qing has come with good intentions, and Zhan Taiqing is also preparing to send people to refine alchemy and trade.

But who knows if this is true.

What if it is an old fox with a knife in his smile?

After entering the Soul Chasing Emperor Palace.

Su Lang took out some spiritual tea to entertain Yuan Qing, and then chatted.

Because Yuan Qing was a member of the Supreme Palace of the Nine Qings, and even Zhan Taiqing's clone, his understanding of the situation in the world exceeded that of Guangming Sword.

Through Yuan Qing, Su Lang learned how many godless powers there are, who the strongest is, how strong they are, and what weapons they have.
