

## One Click 1771

### [Chapter 1771: Su Lang, the Heaven-defying Crafter!](#)

But at this time.

In front of them, there was a Heaven-defying Craftsman who could instantly promote weapons!

This is simply a great opportunity for no amount of contributions!

"Friend Su Lang, I want to be promoted to weapons, this is the material I prepared!"

Yi Henguang was the first to run to Su Lang and took out a storage item, "Besides, this little care is not enough, you hurry up!"

"Yi Henguang, let go!"

"Obviously I am closer to Taoist Su Lang!"

"Friend Su Lang, I want to refine a brand new weapon. This is the material I have prepared!"

Zhu Shan rushed over to squeeze Yi Henguang away, then took out his own materials and stuffed them to Su Lang.

"Little friend Su Lang."

"This armor and this spear have fought with me for countless years, and there has been a lot of damage."

"I would like to ask you to help me fix them. This is the materials I collected and a little bit of insignificant reward."

Hao Xingren also came to Su Lang, took out two scarred Zhun Tai junior weapons, and solemnly handed them to Su Lang.

Because no one on the Ship of Ten Thousand Domains could repair the quasi-primary weapons, the damage of these two weapons became more and more serious.

Maybe in a great war, these two weapons will collapse and the spirit will fall.

Hao Xingren looked anxious in his eyes, really didn't want the two old comrades in arms to leave him.

The other quasi-prime elders also rushed up with excitement, even the elder who had some refinement skills was excited.

This tycoon who knows how to refine tools has completely understood that his refinement attainments are almost countless steps behind Su Lang, the kind that can't be jealous of jealousy, there is only admiration!

"Everyone, don't worry!"

"Everyone is the guardian who silently pays for the boundless universe, and I will not reject anyone!"

Su Lang looked around at everyone and solemnly gave a promise, "Now I will repair the weapons for this senior, please wait a moment!"

While talking.

Su Lang received from Hao Xingren's hands two quasi-primordial godless soldiers and space rings containing materials and rewards.

The armor is the same, and the spear is the same, and they are both badly damaged.

Even its power has been reduced to the level of Jiudu, and even the breath of Jiudu is fluctuating, and I don't know when it will be completely broken.

"These two weapons are already at the quasi-primary level."

"If you evolve, the materials are not enough, you can only repair it with enhanced functions."

Su Lang first put the space ring into the storage space, poured out the materials, and then threw the spear into the colorful Burning Heaven Miaoyan, and used the enhanced function.

Suddenly.

A large amount of materials in the storage space disappeared, and a burst of blue energy poured into the spear.

Suddenly.

The broken spear was quickly repaired, and it was restored to a brand new state in an instant!

"Well, this weapon has been repaired."

Su Lang took out the spear and threw it directly to Hao Xingren, then put the armor into the colorful Burning Heaven Miaoyan and repaired it in the same way.

"This this this!"

"It's really repaired!"

"Not only is it repaired, but the power is even stronger than in its heyday!"

"Friend Su Lang, thank you so much. Without you, my spear will never be able to regain the glory!"

Hao Xingren didn't have the usual seriousness at all, his face flushed with excitement.

"Stop, stop!"

"I'm talking like a cure for impotence!"

Su Lang stretched out his hand speechlessly and pressed down on Hao Xingren.

"Aha, sorry sorry!"

Hao Xingren scratched the back of his head awkwardly.

This made Yi He Guang and the others stunned. In their impression, Hao Xingren showed such an expression for the first time.

Then everyone came to Hao Xingren to look at his spear.

Everyone knew the basics and knew that Hao Xingren's weapon was seriously damaged, and it was almost impossible to repair it.

But at this time, it was really repaired, and it was even more powerful!

Suddenly, everyone exclaimed, and their eyes gathered on Su Lang again.

#### [Chapter 1772: The big guys are so excited!](#)

At this time.

"No, the armor is also repaired!"

Su Lang took out the armor that had just been thrown into the colorful Burning Sky for a second and handed it to Hao Xingren.

"Haha, the armor is also repaired!"

"And it's also better than the heyday!"

"Friend Su Lang, Daen doesn't say thank you. If you have anything you want me to do, I will definitely do it without saying a word!"

Hao Xingren looked at his brand new armor, his voice trembling with excitement!

Spears and armor spirits also appeared, and thanked Su Lang for giving a big gift!

"Okay, I remember what you said!"

Su Lang nodded slightly, and then smiled at Yi Huguang, "Next, let's help Senior get promoted!"

Su Lang is still very grateful to Yi Huguang, the quasi-primary boss who first spoke to him and explained the Ark of Ten Thousand Domains.

Although this guy is doing tricks on burning incense, his heart is good.

"Haha, look forward to it!"

"Seriously Su Lang, since you came here, I feel like I'm many years younger!"

"I haven't felt this feeling of anticipation, passion for a long time!"

Yi Huguang said with excitement, his eyes were still gleaming, and the vicissitudes of his body seemed to have weakened a lot.

"Don't be so excited, I can't stand it!"

Su Lang walked two steps away with some caution, afraid that the empty fellow Yi Huguang would not have other pictures.

Immediately after.

He threw Yi Henguang's weapon, a small flying knife, into Colorful Burning Heaven Miaoyan.

This time.

Su Lang uses the evolution function to upgrade the level of the flying knife to the quasi-primary level with specified materials!

Moreover, the materials given by Yi Henguang have not been used up at all, at least a small part is left!

This is the advantage of the one-key refining function. Refining weapons is not only of higher quality, but also less material!

"No! Your Tianwu Celestial Sword!"

"Promote you to the quasi-primary level!"

Su Lang handed the flying knife to Yi Henguang, whose eyes were bright like light bulbs!

Quasi-primary weapons!

The treasure he dreamed of!

In the past, he didn't know how much material was consumed to promote this flying knife, how many times he failed, and all ended in failure without exception!

But now, it is!

In Su Lang's hands, it was an instant!

"It's really late to meet each other!"

Yi Henguang looked at Su Lang with emotion, as if he wanted to go up and give him a hug.

"do not come!"

"I want to refine weapons for Senior Zhu Shan!"

Su Lang glanced at Yi Henguang vigilantly, and then took out some of the materials Zhu Shan had prepared.

With his primordial refinement skills.

Almost from the characteristics of various materials, the level and effect of the weapon to be refined can be inferred.

Therefore, it is safe and sound to refine a quasi-too junior weapon with the materials that Su Lang took out!

"System, start the one-key mixer function!"

Su Lang threw countless materials directly into the magic flame cauldron, "refining with designated materials, there is no \*\*\*\* soldier in the beginning!"

Zhu Shan and others stared at the tripod motionlessly.

The method that Su Lang used before was either to promote weapons or repair weapons.

But this time is different, this is a refining weapon from scratch!

Can the incredible Daoist Su Lang create incredible miracles so easily! ?

Just as everyone was holding their breath, waiting for the result.

boom!

A brand new quasi-primordial aura burst out and enveloped the audience!

Immediately after.

A bright red light flashed, turning into a leather whip with a black handle and a red body. Just looking at it, it was very exciting!

"This is my weapon!!"

"Great, Su Lang, you are really great!"

Zhu Shan stepped forward to catch the weapon and smiled like a flower!

"Buzzing, let me go, I'm looking for the master!"

The Whiplash Spirit suddenly ran out and called, and couldn't wait to fly towards Su Lang.

"Let's go back."

"I am your creator, but your real master is Zhu Shan."

Su Lang waved his hand and drove him back, "Remember, if she does not leave, you will not give up!"

"Yes!"

Bullwhip Spirit agreed and officially recognized Zhu Shan as the master!

[Chapter 1773: Revenge cannot be less, give more](#)

"Haha, it's refined!!"

"It's really refined, Daoist Su Lang is the first refining tool, invincible in the world!"

"Senior Zhu Shan is really blessed, one more quasi-primary weapon was added at once, envy!"

"Envy you, why don't you take out all your inventory and hand it over to Taoist Su Lang, so that you can give birth if you keep it?"

"Yes, yes! The rewards can't be less, just give them more!"

"..."

The other quasi-prime elders were also excited, and they rushed towards Su Lang.

Such a prosperous scene, even in the perfect heyday of Infinity Realm, is almost impossible to see!

"Please line up, please don't jump in line just relying on your own strength!"

"Talk about civilization, talk about quality, line up well, I won't train for him if you don't line up!"

Su Lang saw that nearly two hundred big bosses were rushing towards him at the same time like a flood, his expression suddenly changed and he shouted.

It is estimated that there are not many people in this world who can talk to nearly two hundred quasi-prime elders at the same time like him!

The key is that the big guys are very obedient!

When everyone heard this, they all slowed down angrily, and then lined up one by one!

Look, this talks more about civilization!

Of course.

Even in this ship of ten thousand domains, the strength is respected, the weak will take the initiative to retreat to the back and let the strong stand in the front.

Su Lang will not take care of this voluntary behavior.

After Zhu Shan, the fourth person who asked for Su Lang's refining device was Lao Dou, a thin old man with a mace.

"Friend Su Lang!"

"My mace is not sensible, I will apologize to you for him!"

Lao Dou was very flattering and very flattering and nodded and bowed to Su Lang. He was so humble that he didn't seem to be a quasi-primary boss!

"Master Su Lang!"

"I have no eyes and offended you, please forgive me!"

The spirit of the mace was also very acquainted and ran out to apologize, the begging little appearance was almost the same as the little beggar.

"Haha, it's forgivable!"

"After all, everyone didn't know my ability before."

A smile was drawn at the corner of Su Lang's mouth, "Does senior want to refine some weapon or upgrade this mace?"

"You can't be called a senior!"

"Friend Su Lang will call me Laodou from now on!"

Old Dou smiled happily, "I just want to upgrade this mace. He has been with me for a lifetime, and he has killed many of Yuan Mingzhou's subordinates, so he is reluctant to change it."

"it is good!"

Su Lang agreed neatly, "Give me the materials, and I will help you upgrade immediately!"

"Thank you Daoist Su Lang!!"

Lao Dou was grateful to bend over to Su Lang.

Then, he handed over his years of savings to Su Lang, and waited expectantly.

Su Lang didn't let him wait long.

Throw the materials and mace into the colorful Fentian Miaoyan, and take them out in the next second!

The brand-new mace exudes a breath of Quasi-primary level, and even the quasi-primary warrior is stagnant.

"Thanks to Master Su Lang for his reinvention!"

Mace Qi Ling also bowed and thanked Su Lang, gratitude.

"You are Welcome!"

Su Lang smiled slightly, and then shouted at the big guys behind, "Next, next!"

"Come on!"

There was a quasi-primordial boss who came to Su Lang!

The quasi-prime elders from behind also took a step forward, crowded and posted, and they didn't know which \*\*\*\* took advantage.

Time passed slowly.

In fact, it will only take ten minutes.

Su Lang has done all the weapons or armors of nearly two hundred bosses!

Almost only a few breaths were spent on each refining device, and most of the time for these few breaths was spent on communication.

At this moment.

Every member of the Wanyu Ship got his most dreamed weapon!

And these weapons, all of them are Quasi-primary!

Even the twenty-something Supreme Emperor of the Jiudu level has obtained the Quasi-primary Weapon!

"Tian Le, Daoist Su Lang's refining methods are really horrible. More than two hundred quasi-primary weapons were all refined before one stick of incense was in time!!"

"Yes, with more than two hundred quasi-primary weapons, the strength of our Wanyu Ship has doubled!"

[Chapter 1774: The big guys are rich people](#)

"Hahaha!"

"Originally, I didn't have much confidence in the next mission, but now I look at it. The next mission is just going to play!"

"Yes, but we can't get too proud of ourselves, and we have a long way to go to resist Emperor Yuanmingzhou!"

"If you want to do good things, you must sharpen your tools. With Su Lang Taoist friend, our hopes have greatly increased!"

"This time I want to thank Daoist Su Lang a lot!"

"..."

Two hundred and one big brothers guarded Su Lang, chatting in excitement.

Su Lang is also very happy!

Because all the big guys are rich people, they pay more than one!

Compared with the remuneration of these two hundred and one big bosses, Zhan Taiqing gave them nothing more than mosquito legs!

"Hey!"

"The humane will channel is still there, the refining tool is finished, it's time to refine the pill!"

"By the way, the exercises can also be used in a wave, cough, alchemy first!"

Su Lang was so excited that he earned more treasures today than before all combined!

at this time.

"Friend Su Lang!"

"You have such a good knowledge of refining tools, and there will be no materials for you to use when you go to the boundless universe!"

The quasi-primary elder who was good at refining tools came to Su Lang and sighed with regret.

"Yes!"

"Friend Su Lang, you stay in the boat of ten thousand domains!"

Yi Henguang also said in a hurry, "We must quickly do the task to change materials, and show you that heaven-defying weapon refining method!"

"Yes, yes! That's the truth!"

The rest of the people booed and asked Su Lang to stay.

"I knock!"

"What's wrong with you?"

"I just want to leave me here for you to refine tools, why did you tell me to use the methods of refinement, a group of old people who don't cultivate!"

Su Lang pointed at a group of quasi-prime elders, and said with a dubious smile.

Suddenly, all the big guys laughed together.

"Su Lang, you are too smart!"

"But, you still neglected a little bit!"

Yi Heguang suddenly smiled thieflly, "Before we made a bet with you. We only said that if you lose, you will join the Ship of Ten Thousand Realms, but we didn't say what you can do if you win!"

"Exactly!"

"It's straightforward to say what happened when you lost, and you didn't say what happened when you won, Daoist Su Lang, you can't go!"

Zhu Shan also slapped his thigh fiercely, and his chest trembled fiercely.

When Lao Dou and other quasi-prime elders heard this, they all agreed.

"That's it!"

"I know you don't want me to leave the boat of ten thousand domains."

"But I really don't want to stay here. That is a restriction on me. I hope you can understand."

Su Lang looked at a group of cheeky and shrugged helplessly.

"Everyone, stop making trouble."

"In fact, many of me want to leave the boat of ten thousand domains and go to live in the boundless universe freely."

"The so-called don't do to others what you don't want, we shouldn't force Daoist Su Lang."

Hao Xingren stood up to speak, everyone closed their mouths, obviously his prestige was very high.

Paused.

Hao Xingren looked around the crowd and continued to speak.

"Friend Su Lang has refined so many weapons for us, he has already proven his position and intentions."

"Even if you don't need a supervisor, I know that Daoist Su Lang is absolutely impossible to have any problems,"

"Furthermore, Daoist Su Lang is able to cultivate such a terrifying refining skills, I am afraid that the tenacity of his mind is stronger than mine!"

"The people of Yuanmingzhou Emperor want to confuse Daoist Su Lang, it is wishful thinking, so I am relieved to let Daoist Su Lang return to the boundless universe!"

Having said this, Yi Heguang and others kept nodding, agreeing with Hao Xingren's point of view.

"Actually, I am still a little worried about the safety of Daoist Su Lang."

"How many Taichu and Quasi Taichu there are still under Emperor Yuanmingzhou? We have done so many tasks, but we haven't figured it out yet."

Zhu Shan went on to say, "What if Daoist Su Lang encounters one or two of them and is in danger?"

This statement came out.

Everyone nodded one after another, the worry on their faces could not be concealed.

At this time.

Su Lang spoke.

"Please don't worry about the safety of you, seniors."

With a relaxed smile on Su Lang's face, "I have so many ways to escape for my life. It was hard to kill me in the beginning!"

[Chapter 1775: I will help you refine the pill](#)

Hear this.

Everyone was shocked.

What means can make a supreme emperor escape in the hands of the great lords of the beginning! ?

Doesn't exist!

But in view of Su Lang's inexplicable Heaven-defying Grade weapon refining method, everyone kept silent, suppressing the stormy waves in their hearts.

"and."

Su Lang asked with a smile, "I master the coffin of Nine Dragons. When encountering danger, I should be able to return to this boat of ten thousand domains to avoid danger!"

"This... we don't know either."

"The Nine Dragon Coffin is one of the core components of the Wanyu Ship."

"Normally speaking, we return from the boundless universe to the ship of ten thousand domains, relying on the power of the ship of ten thousand domains."

"Of course, as the core component of the transmission across time and space, the Nine Dragons Coffin certainly plays a vital role."

"It's just that we have never encountered such a situation, so we dare not jump to conclusions."

Hao Xingren groaned and said his thoughts.

"Yeah, it's not certain."

"However, if you master the Nine Dragon Coffin."

"It should be possible to reach the place of exile from the boundless universe through the gate of exile, and then call out the coffin of Nine Dragons to reach the boat of ten thousand domains."

"Although there is no channel of humane will, the coffin of Nine Dragons already possesses the spirit. As long as it anchors the place of exile, it should be possible to pick up people."

Zhu Shan also showed his thoughts and said his thoughts.

"To open the door of exile, you need to use lost Xuanwu materials."

Yi Heguang frowned slightly, "But as far as I know, the turbulent lost Xuanwu in the place of exile has become extinct."

"Friend Su Lang."

Lao Dou sighed, "If you leave, we will probably not be able to see each other again. I really can't bear it."

"Haha."

"Since I can come back through the gate of exile, I should be able to come back once in a while."

The corner of Su Lang's mouth twitched, "Because I have some materials for Lost Xuanwu, it is completely feasible to refine the Gate of Exile."

and.

He also has the "Wanhua Promise Nirvana Sutra"!

After this exercise is completed, the blood of the lost Xuanwu may be drawn!

Then, Su Lang could use his own flesh and blood to re-cultivate the lost Xuanwu clan!

of course.

The "Wan Hua Wu Ji Nirvana Sutra" is only a godless level of exercises. It is not certain whether the lost basalt bloodline with time rules can be extracted.

But the problem should not be big. If it really can't be extracted, then strengthen it!

The power of the strengthened technique is greatly increased, and the blood of the lost basalt can be drawn!

"Taoist Su Lang unexpectedly has lost Xuanwu materials!"

"That's great, you have to come back often!"

"Yes, yeah, all our materials exist for you, just waiting for you to come back!"

"..."

The quasi-prime elders all smiled after hearing Su Lang's words.

"it is good!"

Su Lang smiled and patted his chest, "No problem, I promise to come back often!"

"that....."

Hao Xingren looked at Su Lang, "Do you want to leave now?"

The atmosphere suddenly became a little dull.

The big guys were silent for a while.

But at this moment.

"I didn't say it!"

"I want to help you refine the pill!"

Su Lang grinned with a big smile, "Forgot to say, my alchemy attainments are as good as the refining skills!"

This statement came out.

The already relatively quiet space instantly becomes silent, the kind that can be heard by dropping a curl!

Immediately after.

Two hundred and one big men gradually widened their eyes and opened their mouths, revealing a dumbfounded and unbelievable expression!

There are even more horror sounds from their open mouths!

"what!?"

"Daoist Su Lang, you can still refine alchemy!? And as good as the refining skills!?"

"No, you are already incredible just by refining skills. If alchemy can be so powerful, all alchemists under that day will not live!"

"Daoist Su Lang is really joking, hahahaha!"

"..."

The crowd made a thunderous discussion, listening to his words, obviously did not believe it.

Yes.

Su Lang's refinement skills have crushed their worldviews, making them a little doubtful of the world and themselves.

Now let's do it again in another way! ?

Believe it or not, don't listen or listen!

[Chapter 1776: Blow the boat of ten thousand domains will burst](#)

"I really didn't lie to you!"

The corner of Su Lang's mouth twitched, "By the way, I will still refining formations, and the attainments of refining formations are similar to those of refining tools!"

This statement came out.

Everyone suddenly didn't believe it!

"Friend Su Lang, stop blowing!"

"That's right, we already admire you for being so powerful!"

"Hahaha, it's impossible to think about it to reach that incredible realm at the same time as the refining tool and alchemy refining array."

"Ahem, if Daoist Su Lang really refines alchemy and formation can be as powerful as refining tools, I will eat this big rock and then pull it out!"

"..."

The big guys expressed their disbelief and told Su Lang to stop blowing it, and then the boat of ten thousand domains would burst.

"What I said is true!"

"Well, it's the same sentence, hearing is false, seeing is believing!"

Su Lang stretched out his hands helplessly, "If this is the case, let you see my alchemy methods first!"

Talking.

Su Lang took out a lot of godless pill of perfect quality!

Instant time!

All kinds of colorful and brilliant pills surround Su Lang's side, as if forming a deep star field!

The noisy bosses instantly dumbfounded, their bloodshot eyeballs suddenly bulged, staring at the pills in disbelief!

Even Hao Xingren, the most stable and stable, stood there dumbfounded, as if turned into a big wooden stake.

In the silent space, it seemed that I remembered the smashing sound of the crowd!

gradually.

Several discussions sporadically appeared in the huge space.

"This is the perfect quality Supreme Emperor Dan!?"

"Yes, my eyes should probably not be broken!?"

"Does anyone know how many pills are there? I am so dazzled that I can't count them anymore!"

"I think, Daoist Su Lang did not lie to us, his alchemy attainments are really...really...uuuuu, this is terrifying!"

"..."

The discussion became louder and louder and more and more, and finally became full of people, like a vegetable market.

At this time.

Su Lang added fuel to the fire and started the alchemy demonstration directly!

He snapped his fingers to call out the colorful burning heaven, turning it into a circular cauldron.

Then he took out a large amount of alchemy materials into the pill furnace, and in the next moment he took out a perfect quality Supreme Emperor Pill from the pill furnace.

And it's the kind that just came out, the fresh one!

Anyone who has a little knowledge of the elixir Dao can tell that the pill is definitely just refined and has not yet been used to protect against loss of power!

"Daoist Su Lang has refined the pill! Now I have to believe it if I don't believe it!"

"Compared with Taoist Su Lang, I have learned alchemy from dogs all my life."

"No, you are wrong, you can't compare with Daoist Su Lang at all, you are not qualified!"

"Although your words make me sad, but I know this is true, so I don't hate you anymore."

"I just want to know how Daoist Su Lang did all this, cultivation base, refining tools, alchemy, and formation!!"

"I know! Daoist Su Lang is actually a super genius, if it hadn't been delayed by Alchemy Dao and Formation Dao, he would definitely have become too basic power at this time!"

"Yes, yes, right, but Daoist Su Lang's alchemy refining array has reached the limit of the universe, and now he can't be delayed, he will soon be able to break through to the primordial level!"

"..."

When the big men were horrified, they whispered and analyzed again, and then the truth came out accidentally.

Indeed, Su Lang can definitely break through to the early stage in a short time.

Don't one or two years, don't seven or eight months, just...a short time to break through!

"What a bunch of old elves!"

"Everyone, now everyone who believes in me will line up to make alchemy, and those with alchemy and formation classics will lend me a look, and you will be returned after reading!"

The corner of Su Lang's mouth twitched, and he shouted like he was setting up a street stall!

"Quickly, Daoist Su Lang is going to make alchemy, rush!"

"Line up! Line up, you bastard! Do you know if you talk about civilization, or do you know about quality?"

"Everyone line up obediently, and neatly prepare the pill that you want to refine and the reward for Taoist Su Lang!"

"If there are Alchemy Dao and Formation Dao books, quickly get them out! Why do you keep them? Use them to hypnotize yourself when you have insomnia?"

[Chapter 1777: Refining alchemy with wind and fire!](#)

"..."

The big guys are rushing to Su Lang!

Then he thought and consciously lined up the line, the quasi-prime primordial elders were as good as a good student!

quickly!

The first alchemist, Yi Huguang, handed over the pill medicine and materials he wanted to refine, as well as dozens of pill Taoist jade slips.

"Oh! Seven Lives Refining Soul without God Pill, simple!"

Su Lang glanced at the pill and immediately mastered this kind of pill that he had never seen before.

Immediately after.

He threw the material into the pill furnace made by the colorful Burning Heaven Miaoyan, and then used the system to refine it into a pill.

Five in a batch!

Take four, keep one!

It's not that Su Lang is too dark, it's all because it's so weird to make five pills from a furnace of materials, because that's just a few extras!

"Now, there is no \*\*\*\* pill for the Seven Life Refining Soul!"

Su Lang handed the pill to Yi Huguang, and asked with a smile, "You often go to fight, and refine more healing pill!"

"It's finished, perfect quality!!"

Yi He Guangxiang didn't hear Su Lang's words, holding the Seven Lives Refining Soul Wushen Pill in his hands and whispering in excitement, he couldn't even straighten his tongue.

"Hurry up, you!"

"You can't go crazy after the exercises!"

Zhu Shan, who was behind, slapped Yi Heguang's head with an impatient look on his face.

"Hey! Yes, yes!"

Yi and Guang were not angry, and handed the other medicine materials to Su Lang.

quickly.

Su Lang helped Yi Heguang refine more than a dozen kinds of pills.

One for each furnace, and two occasionally, Le De Yi and Guang could not breathe.

Zhu Shan and others behind were even more anxious, their eyes flushed, and they wanted to grab Yi and Guang and throw them aside.

"Finished?"

"Have you taken out all the alchemy materials without God level? Okay, let's go!"

"Oh no, wait! You have to refine the formation, take out the materials for the formation, come out quickly!"

Su Lang saw that Yi and Guang couldn't produce the alchemy materials, so he let him go, but then remembered that he had just collected some Array Dao classics!

I quickly went over the Array Dao classics and learned all the Arrays inside!

Not to mention, there are really a lot of godless formations!

Things like the large vacuum distorted array of Lieyang, the large twisted array of Cangyu Lone Star, and the large twisted array of dragons and phoenix flying together can gather the power of distortion!

As long as the energy is sufficient, one formation can reach a supreme emperor!

At this time.

Yi Heguang had already shaken out all the array materials in a daze.

Pile up the refining materials the size of a planet, put them in an emperor-level space ring, and then hand them to Su Lang.

In the Ark of Ten Thousand Domains, there are still some people who know how to refine tools and alchemy, so there is a place for consumption of alchemy materials and tools.

However, there are no talents who know how to form the Dao, and the highest level of the big guy's formation is quasi-Godless, and it is impossible to refine a Godless-level formation.

therefore.

Everyone, including Yi and Guang, has stored countless array materials that are not available!

Fortunately, these Array Dao materials met Su Lang, otherwise they wouldn't want to shine for the rest of their lives.

"Hey, I'll help you realize your value!"

Su Lang immediately began to use those materials to refine the portable array disk.

The refining process is the same as the alchemy refining device, using colorful burning sky magic flames to cover, and then use the system function to get everything!

Not long.

Pieces of discs flew out of the colorful burning heaven and wonderful flames, and fell into the hands of Yi Henguang.

"This, this, this! This is the first time I have seen so many godless formations!"

"And the quality of these formations is so high, better than those exchanged from the Spirit of Ten Thousand Realms!"

"It's too strong, Daoist Su Lang is invincible in the universe!"

"..."

The big brothers saw the formation of Su Lang's refining, and they were shocked and numb, and they were shocked and excited again.

They store too much material for refining formation!

If all these materials passed through Su Lang's hands and turned into a Godless array, it would be equivalent to a Godless help!

Moreover, Su Lang's refining arrays can be combined to greatly increase their power, reaching the highest level of Quasi-primary Beginning!

Once everyone's refining materials are turned into formations, the strength of the Ark of Ten Thousand Domains will soar again!

[Chapter 1778: I want to take a look at the exercises](#)

At this time.

"Yi Henguang!"

"Have you stayed enough, let me come!"

Zhu Shan couldn't wait to push away Yi Henguang who was smirking with a lot of pans.

Then he put on an extremely gentle and charming expression, and took out his various pill squares and countless alchemy materials.

Behind her, more quasi-prime elders had already prepared a variety of materials and alchemy classics impatiently.

Su Lang took the materials handed by Zhu Shan and began to refine her alchemy!

From time to time, the colorful burning sky magic flames transform into a circular pill furnace, refining a perfect quality godless-level pill.

From time to time, it turns into an array pen, refining a powerful array plate!

One by one, the quasi-prime elders got the pills and formations they wanted.

It can be said that all of their inventory materials have passed through Su Lang's hands, and turned into pills and formations that have increased their value countless times.

Su Lang naturally made a lot of money!

Just a pill, one ingredient can earn a full four!

The formation is to refine as many as you want.

Because the quasi-prime elders are not familiar with the formations, they have no idea about how much array material a formation will use.

Of course, Su Lang would not be so black-hearted towards these warriors fighting on the front line.

As long as it is a useful formation, he will refine as much as possible, and then give up the useless formation.

In addition to the pill and formation materials, Xianyuan Emperor Su Lang also earned countless!

As long as you deposit the system balance, you can immediately upgrade the system functions!

Time passed slowly.

at last.

"Thank you, Daoist Su Lang, for his refinement of alchemy and formation!"

The last supreme emperor of Jiudu also finished refining the pill and formation he needed, and bowed to Su Lang with admiration!

"In order for the boundless universe to return to beauty, this is all right."

Su Lang smiled faintly, "Next I will leave the Ship of Ten Thousand Regions, but before I leave, Lang asks for something!"

"Su Lang, you say!"

"As long as I can do it, I will help you even if I work hard!"

Yi and Guang leaned forward, looking like death at home.

"me too!"

Hao Xingren stepped forward, his broad palm banging against the armor.

"So are we!"

Zhu Shan, Lao Dou and others also shouted.

In the minds of all the members of the Ark of Ten Thousand Domains, Su Lang's status has surpassed everyone except Senior Zhaoyu.

In other words, it is already on par with Zhaoyu's predecessors!

You know, Senior Zhaoyu is a too junior powerhouse who sacrificed to resist Yuan Mingzhou Emperor!

"You don't need to be murderous."

"I just want to take a look at everyone's exercises."

"In addition, I also have several primordial level exercises here. If you need them, I can give them to you."

While talking, Su Lang took out four original exercises from the storage space.

These four exercises are exactly what he is still practicing in "Future Good Fortune Mystery", "Silence Heart Sutra", "Moment of Eternity" and "Hengsha Boundless World Record"!

In fact, Su Lang had already seen everyone's information through the attribute panel, and knew that none of the people present had practiced too basic techniques.

This may also restrict everyone from being promoted from the quasi-primary to the early-primary level.

Therefore, Su Lang wanted to help them.

At the same time, they also get natural and non-synthetic godless-level exercises from them, which can be used to synthesize more primary exercises!

At this moment.

As soon as Su Lang's voice fell, he took out the four originals of the basic exercises.

In an instant, everyone was shocked!

Everyone has their mouths open, it is difficult to make a sound!

The audience was silent, and it lasted a full ten minutes!

"Too...too elementary exercise!!!"

Hao Xingren moved his lips, and was the first to speak. His tone was incredible, shocked, and excited and moved!

"The original technique is too elementary!"

"Moreover, there are four books!"

"Oh my god, Su Lang, where did you come from so many primitive exercises!?"

"Since the Battle of the Boundless Realm, there have been no more basic exercises in the universe. You actually have four books!"

"Friend Su Lang, are you creating all these exercises yourself, otherwise how could there be so many original exercises!?"

"Or, Fellow Daoist Su Lang, you are actually a reincarnated and rebuilt warrior at the beginning level!?"

[Chapter 1779: Experts come first, Senior Su Lang!](#)

"..."

The quasi-prime magnates such as Yi Heguang and Zhu Shan finally suppressed the stormy waves in their hearts, and uttered their own questions dumbfounded.

"I am not reincarnated and rebuilt."

"These exercises can be considered my creation."

"The reason why I want to learn from your exercises is to see if I can make more basic exercises."

"After all, the four exercises I have are not necessarily suitable for each of you."

Su Lang smiled faintly, and simply admitted that the too basic exercises were made by himself.

Hear this.

The noisy scenes suddenly became quiet again!

Everyone looked at Su Lang like an ordinary person hell, and the whole person's thinking became stagnant!

Immediately after.

It was as if an asteroid had fallen into the sea, and huge waves arose among the crowd.

"Create four basic exercises with one person!"

"Is this true, is this true!? There really is such a genius in the world!?"

"Counting the days in the Ark of Ten Thousand Domains, I have lived for 3 billion years. This is the first time I have seen such a genius!"

"Hahahaha, we two hundred and one people have worked hard for countless years and have not created too low-level exercises. The Taoist Su Lang created four books by himself. I don't know whether I should cry or laugh!!"

"You should laugh! Of course you should laugh! With the original four basic exercises from Fellow Su Lang, we, those of us who are stuck in the quasi-primary primaries, will have a chance to break through to the primal primaries level!"

"Friend Su Lang, no, Senior Su Lang, you are my senior, the junior thank you!"

"The expert is the first. Senior Su Lang can create the too basic exercises, it is me waiting for seniors!"

"..."

The crowd made deafening noises, and the big men in the crowd dropped down one by one, and they were actually kneeling before Su Lang!

from their perspective.

Su Lang was able to create a technique of the primordial beginning level, and he must have reached the primordial beginning level in the realm of understanding the universe, and it was an extremely advanced one!

The reason why Su Lang did not break through to the early stage.

One is too young, and the other is that most of the time is spent on alchemy refining tools and formations.

Otherwise, Su Lang has definitely become a senior early powerhouse, comparable to the kind of predecessors Zhaoyu!

The world of warriors has always been the first.

Therefore, these big guys, who were countless times stronger than Su Lang, knelt!

"Predecessors, you can't be ridiculous!!"

"Get up quickly, or I will turn around and leave!"

Su Lang felt that he couldn't bear it, and quickly used his magical powers to support the big men.

These big bosses silently completed the mission of the Ark of Ten Thousand Realms, and each of them made an unknown contribution to the boundless world. They were all heroes!

The big guys were threatened by Su Lang and had to get up.

But they still looked at Su Lang with respect and enthusiasm, mixed with strong expectations, as if they were looking at the future of the entire endless universe.

"Ahem!"

"Seniors, don't look at me like this!"

"If you want to help me, please show me your practice for reference."

Su Lang coughed slightly, and it was a bit unbearable to be stared at by a large group of quasi-prime elders, especially the elders.

"Good, good!!"

"This is my practice, Senior Su Lang accept it soon!"

Hao Xingren rushed to Su Lang's face first, and gave Su Lang his technique.

"Mine is here!"

Yi Huguang followed closely, "This is all the exercises I have practiced, seniors quickly accept it!"

Zhu Shan and others also exclaimed and took out the exercises, flocking to Su Lang one after another.

They still call Su Lang the senior, they really respect Su Lang too much!

"Seniors!"

"You can't call me senior anymore, I'm not that old!"

Su Lang cried out in a dubious manner, "If you shout again, I will turn around and leave, no discussion!"

"This....."

The big guys are all in entanglement, why don't you call seniors?

"I will make a year-end friendship with everyone, everyone will call me Su Lang!"

Su Lang smiled brilliantly, "How about I also call everyone old friends?"

[Chapter 1780: I just give it a try!](#)

"Okay, okay."

The big guys looked at each other and could only agree.

"Little friend Su Lang, quickly accept these exercises!"

Hao Xingren stuffed Su Lang with the space treasure in his hand.

Seeing this scene, the rest of the big guys also reacted and flocked to Su Lang again like crazy.

"I accept it, I accept it!!"

Su Lang smiled so much that his face was blooming.

In the past, he tried his best to practice exercises everywhere.

It's like a godless-level exercise. It takes a long time to be happy to get a copy.

And now, all the two hundred and one big brothers took out the exercises and automatically stuffed them into their hands, still as if you didn't accept me and fight with you.

This gap is too big.

quickly.

Su Lang accepted all the exercises practiced by everyone.

"The original four exercises, I will put them here for everyone to understand!"

Su Lang smiled and took out four large tables, and placed the four exercises in the middle of the table, but did not take any protective measures.

Finished talking.

He walked aside and let all the big guys come up to comprehend.

Unexpectedly, all the big guys didn't move, and they looked at Su Lang with dismay.

"Little friend Su Lang, are you leaving the Ship of Ten Thousand Domains now?"

Hao Xing stood there firmly, sighing in his words.

"Little friend Su Lang, do you want to stay for a while?"

Zhu Shan, Yi and Guang, etc. have spoken out to stay, and they are extremely reluctant.

"Okay."

"I wanted to stay a little longer."

Su Lang opened a big smile, "Because I have to learn from your exercises and try to create more basic exercises!"

This statement came out.

The expressions on everyone's faces solidified again.

what?

It is necessary to learn from our exercises to create new exercises! ?

Didn't you just get our exercises?

Don't you need to go back and think about it, is our practice really that simple! ?

The corners of the big guys' mouths twitched, and they only felt that they had been hit countless times, and they were about to doubt self-doubt in life!

"Ahem."

"I just give it a try, and it's not certain that I can get it out."

Su Lang saw that everyone was shocked to numbness, shocked to the point of breaking, and said haha.

"That's it."

Everyone looked at each other, then nodded in unison, and breathed a sigh of relief.

"Everyone, go and comprehend the exercises!"

"I'm starting to ponder the technique here!"

Su Lang smiled and waved to the big brothers.

"exactly!"

"Let's go together and comprehend the Taichu exercises!"

"Let's study together, and we will surely understand the clues soon!"

"..."

Everyone recovered their excitement and rushed to the four tables with unlimited vitality.

Then they were stunned.

Because three of them are related to time!

What they lack is the understanding of time, even if they understand the rules of time, they can break through to the primordial level!

"Three time exercises!!"

"My God, has little friend Su Lang comprehended the rules of time?"

"Don't guess, guess it's 'yes'. Little friend Su Lang must have understood the rules of time!"

"Yes, yes, in time, Daoist Su Lang will definitely become the top powerhouse in the early days!"

"Don't speak loudly, I will disturb little friend Su Lang!"

"Yes Yes Yes!"

"..."

The big men cried and howled for a while, and then began to comprehend the exercises.

Time passed slowly while Su Lang pondered the exercises and the big guys studied the exercises.

"What does this pattern mean?"

"It's weird, I have never seen this kind of profundity at all, I don't have a clue if I want to take a break!"

"Unexpectedly, two hundred and one of us were all stumped when we were comprehending a practice together."

"..."

The big guys wanted to brainstorm ideas, so they simply comprehended a practice together.

But at this time, because they couldn't find any clues, they could only scratch their heads and think hard.

But at this moment.

Buzzing!

A strange wave came from Su Lang, followed by a bright purple light.

"what happened!?"

Everyone turned their heads to look around, and then found a bunch of strange things floating in front of Su Lang.
