

One Click 1781

[Chapter 1781: Made so many accidentally](#)

There are diamond-shaped purple jade and round white stone.

Irregular rotten stones, broken brushes, graffiti-like ink paintings...

However, it is these weird things that make all the big guys stagnate!

because.

That turned out to be the original of a book of exercises!

"What's the situation, how can so many original exercises suddenly appear!?"

"Oh my god, did you find out, those are all the original techniques of the primordial level!"

"Could it be that these exercises were originally created by little friend Su Lang during our process of comprehending the exercises?"

"Isn't it possible? We haven't realized a bit of clues yet. Little friend Su Lang has created so many primordial exercises? Is our understanding so far behind an infinite universe!?"

"What's impossible, if you say you are stupid, you don't admit it, recognize yourself well, look at me!"

"..."

The big men were so horrified that they rolled their eyes and stunned.

Others have completely given up on comparing with Su Lang, thinking that whatever shocking things Su Lang accomplishes, it should be!

"Cough cough cough!"

"Everyone, don't disturb little friend Su Lang!"

"We continue... continue to brainstorm and comprehend the exercises!"

"..."

Under the leadership of more prestigious people such as Hao Xingren, Yi and Guang, everyone began to comprehend the exercises again.

The other side.

Su Lang is still giving orders continuously.

"System, use this book, this book... and this book, to synthesize too elementary skills!"

"These ten books have been synthesized, and they should be the kind of body-building exercises that the Epee Wufeng does not work. Give me a synthesis!"

"These ten books are a bit interesting. They are all about the techniques of life and universe, just like "Chaos and Darkness", synthesized!"

"These ten books are also synthesized for me!"

"..."

Along with Su Lang's continuous issuing of orders, a copy of the original exercise technique appeared before him.

There are so many exercises on the hands of the big guys!

They not only have the godless-level exercises that can be exchanged from the spirit of ten thousand realms.

There are also exercises captured from the martial artists under Yuan Mingzhou Emperor's body when doing the task.

In the long years.

Each of the big guys has at least five different godless techniques!

Although they can't cultivate so much, they do have so many techniques on their bodies.

therefore.

Su Lang collected all the godless-level exercises of the big guys, and got a total of 1,300 copies!

Using these exercises, Su Lang synthesized one hundred and thirty super elementary exercises!

This is too basic practice.

One book is enough to make two hundred and one big brothers excited.

One hundred and thirty exercises have exceeded everyone's imagination!

Even Su Lang himself looked at the more and more elementary-level exercises in front of him, and was so shocked that he didn't want it.

"I knew it should be thrown into the storage space as soon as it was synthesized."

Su Lang raised his eyebrows, "Now, do you want to put away these exercises before they are scared?"

however.

Just when Su Lang had this idea.

A lot of exercises in front of him have been discovered by the big guys!

"Quick! Look!!!"

"Little friend Su Lang has created a lot of exercises from the beginning!!!"

"Is my eyes broken, brother, help me to pick them out and see!"

"I seem to have seen more than a hundred originals of the basic exercises. I suspect that my brain is broken, which caused me to have hallucinations!"

"Go up and see if we are dreaming!"

"..."

The godless tycoons froze for a long time like thunder, before they swarmed to Su Lang's side and surrounded him.

"Oh my God!"

"Little friend Su Lang, these are all created by you!?"

Yi Huguang turned his eyes in disbelief, and scratched the top of the more than one hundred primary techniques.

The other big brothers also looked at Su Lang with shocked faces.

They actually knew that Su Lang made it, but they had to say it personally before they could believe it and accept it.

"Yeah, I created it."

Su Lang smiled and nodded, "Oh, I accidentally created so many things, headache!"

[Chapter 1782: Time to leave here](#)

"It was really created by little friend Su Lang!"

"Little friend Su Lang's talent is definitely number one in the boundless universe!"

"Yes, definitely the first super genius since the birth of the infinite universe!"

"By the way, little friend Su Lang, why do you say you have a headache, shouldn't you be happy?"

"..."

When everyone was shocked, the heart of respect became stronger and stronger, and at the same time, there was a hint of doubt about Su Lang's words.

Yes.

Is it not good to have so many basic exercises? Why do you have a headache?

Su Lang touched his chin and said, "Because I think it's very troublesome to choose!"

"..."

Everyone was speechless, and some even staggered and were about to fall.

"Ahem!"

"Do you want to comprehend these exercises?"

Su Lang coughed slightly and laughed, "Or, wait for me to study and study to improve?"

"Don't stop it."

"We are already very satisfied with the four exercises!"

"The so-called greed is too much to chew, we don't want these exercises!"

"Yes, yes, we are actually too stupid to understand it for us!"

"..."

Two hundred and one big men shook their heads and refused.

Just kidding, they don't have a clue to comprehend one exercise together, come? !

"Well, then I will accept it!"

Su Lang nodded, and then put all those exercises into the storage space.

In fact, he also wanted to save these exercises for a while.

The main reason is that if you can finish your training in the future, you can instill in these old friends when you return to the boat of ten thousand domains and help them achieve the realm of the beginning.

at this time.

Su Lang couldn't comprehend the original content of the one hundred and thirty Taichu exercises, so he could only wait for the one-key martial arts to become available before practicing.

"Little friend Su Lang, have you finished creating your exercises!?"

Hao Xingren hesitated and asked, "Then, you...are you leaving the boat of ten thousand domains now?"

"Yes!"

Su Lang looked around at everyone and nodded, "I don't have anything to help you at the moment, so it's time to leave here."

This statement came out.

The atmosphere of parting suddenly filled the crowd.

For everyone present, today is an extremely dreamy day.

It was their endless cruel fight, the most beautiful, brightest, and unforgettable day in the cold and loneliness.

As soon as Su Lang left, the day seemed to be over.

Everyone was reluctant, but they couldn't go against Su Lang's will. They could only hold back their reluctance and go to bid farewell.

"We send you!"

Hao Xingren nodded, and the two hundred powerful people behind also nodded.

"Row!"

"Actually you don't have to do this, I will be back soon."

"Maybe next time I come back, I will be able to fight alongside you!"

Su Lang laughed, his figure flashed, and he entered the coffin of Nine Dragons.

Only a burst of laughter echoed in the space.

While the two hundred and one big bosses were staring at him, Su Lang let Jin Hong urge his body to sink slowly along the channel of humane will.

In a blink of an eye.

The huge coffin of Nine Dragons disappeared.

In the land of exile.

The world after the war was full of tragic sights.

In the sky, the black and gold humane will channel suddenly trembled, and was violently opened again.

Immediately after.

The Kowloon Coffin is here again!

Suddenly, the whole world was boisterous!

"Look, the coffin of the Nine Dragons has appeared again!!"

"Oh my God, what the **** is going on, the Nine Dragon Coffin has appeared twice!"

"Could it be that this time there will be two wars of reincarnation, and there will be two winners of reincarnation!?"

"No, you see, the Kowloon Coffin flew to the eastern border. What is it doing?"

"..."

Countless strong men exclaimed and looked at the coffin of the Nine Dragons, they wanted to catch up, but the speed was far from enough!

Everyone could only watch the Nine Dragon Coffin disappear into the turbulence of time on the eastern border.

Su Lang's side.

The reason why he did this is naturally to rely on the coffin of the Nine Dragons to open the door of time and space to the boundless universe!

[Chapter 1783: Time channel!](#)

The Gate of Reverse Exile was originally a treasure that could only be forged from the carapace of the lost basalt.

But the Lost Xuanwu is nothing more than a creature with a special bloodline, living in the unique environment of time turbulence in the place of exile.

Their true strength is actually not strong, and even Qi Yunkai can besiege and kill them.

Therefore, even the treasures refined by the lost basalt can open the way to leave the place of exile, and the Jiulong Coffin, which is a junior weapon of the quasi-tai, can naturally do it.

just.

The Coffin of Nine Dragons needs a lot of energy support to open the door of time and space more quickly.

Moreover, the Coffin of Nine Dragons can open the door to the boundless universe from the place of exile, with very low accuracy.

If the Nine Dragon Coffin opens the passage from the place of exile next time, Su Lang may not find the entrance of the passage at all on the side of the endless universe.

Therefore, it is easier and more convenient to use the Gate of Exile!

At this moment.

Su Lang controls the coffin of Nine Dragons, filling it with a lot of innate spirit.

Buzzing!

Waves of terror emanated from the coffin of Kowloon.

The surrounding time turbulence is agitated, forming a more fierce time undercurrent!

But as the power of the Kowloon Coffin is gradually and completely released, the closer the place is to the Kowloon Coffin, the turbulence of time subsides faster and faster!

Not long.

The time turbulence within a radius of thousands of miles in the coffin of Nine Dragons has all subsided, allowing this space to rarely have a normal timeline.

at this time.

"boom!!"

Another wave of fluctuations came from the Kowloon Coffin, this time it was time fluctuations!

A very regular time fluctuation!

Immediately afterwards, a wave of spatial fluctuations also came fiercely.

Ripples waved around the coffin of Nine Dragons, and merged into a small space-time vortex, distorting everything.

"carry on!!"

Su Lang once again increased his indoctrination!

Buzzing!

The power of the Nine Dragon Coffin erupted, and the small space-time vortex was suddenly torn apart, revealing a majestic starry sky!

"It's been a long time, endless universe!"

A surprise was outlined at the corner of Su Lang's mouth, and he immediately jumped out of the Nine Dragon Coffin and rushed into the space-time passage.

The coffin of the Kowloon is maintained, and the space-time passage is very stable.

Except for a moment of reversal of time.

Su Lang did not feel any discomfort, and appeared in a dark star field.

"the host!"

Behind him came the call of Jiulong Coffin Spirit.

Su Lang looked back.

The time passage gradually narrowed and then completely closed, and the Nine Dragon Coffin on the opposite side of the passage was gradually invisible.

"Don't worry, I will come back to find you."

Su Lang smiled slightly, and immediately began to explore the surrounding star field with mental power.

It is a pity that there is no life planet within the detection range of the mental power.

"I don't know where it is."

Su Lang touched his chin, "Forget it, no matter where he is, just send him back as a clone!"

Just do it.

"System, start the avatar dispatch function!"

With a thought of Su Lang, he immediately activated the clone dispatch function.

however!

Failed! !

"What the hell!?"

"I just want to return to Canglan Star, how could I fail?!"

The corner of Su Lang's mouth twitched, and then he was surprised, "Is it possible that there is a turbulent flow of time and space between this place and the Xinghai domain!?"

Time and space turbulence can stop the dispatch of clones.

Except for this, Su Lang couldn't think of any explanation.

"I, Chale, unexpectedly encountered this situation!"

Su Lang tried again without believing in evil, but found that it still didn't work, and the clone couldn't be dispatched at all.

In other words.

The air turbulence was very powerful at that time!

Unlike the turbulent time flow between Blue Star and Canglan Star, it was very, very meager, even Wu Zun could pass through.

"Lying down!"

"It's impossible to return to Canglan Star!"

"Well, I haven't left Canglan Star for many days anyway."

"After all, I haven't been in the Exile for a long time. Is there ten days?"

"In such a short time, it is impossible for Canglan Star to have any changes, and I don't have to worry."

After Su Lang was surprised, he touched his chin and thought for a while.

[Chapter 1784: The boundless universe!](#)

Soon.

He took out the Soul Chasing Emperor Palace calmly, and then released Chu Xiaobei and others from the Blue Star.

"Huh! Brother Su Lang, where is this place?"

As soon as Ji Ruxue appeared, she saw the twinkling stars in the dark universe.

"This is the starry sky!"

"This is not a place of exile!"

"Su Lang, we have returned to the boundless universe!!"

Chu Xiaobei looked up at the vast universe, his expression of excitement became more intense, and finally he hugged Su Lang tightly!

"Oh my God!"

"We have really returned to the boundless universe!"

"Brother Su Lang, you took us home!"

Ji Ruxue and Murong Xianxian were also extremely excited, hanging on Su Lang's body one after another.

at the same time.

Su Ling'er, Xiao Mei, Yu Qing, Xin Zheng, Bi Ye Lin, Mo Lu, You Zhi, Yu Mei and others were also surprised to open their mouths!

"Boundless universe!"

"This is the boundless universe!"

"This vast starry sky, are those life planets that naturally exist in the universe!?"

"It's too vast, it's too great, this is a world countless times larger than the Exile!"

The heart was looking around the dark universe with excitement. It was obviously a dead star field, but it was extremely beautiful in his eyes.

He was born in the land of exile, using the Buddhist supernatural powers, he reincarnated hundreds of times in the land of exile.

He is no worse than anyone in his yearning for the boundless universe!

"Boundless universe!"

"This is the boundless universe, it is no longer a place of exile!"

"I followed Su Lang and left the place of exile and came to the boundless universe!"

Surprise surged in Yuqing's heart, a pair of beautiful eyes looked at Su Lang, and her eyes were colorful.

In fact, what made her most happy was that she followed Su Lang's side, and came to the boundless universe instead.

"Boundless universe!"

"I'm finally back!"

"Tianting Continent! One day, I am going to liberate the Tianting Continent!"

"..."

Bi Yelin's eyes were red. She thought that she would never be able to leave the place of exile in her entire life. Revenge was just a wish buried in her heart and almost impossible to realize.

But this time!

With the help of Su Lang, she really returned to the boundless universe, and also brought her best friend Molu in the Exile.

"Su Lang, thank you!"

"Thank you for taking me back to the boundless universe!"

Bi Yelin came to Su Lang's side and bowed deeply.

"So big...oh no, so white...oh no, get up soon~!"

Su Lang hurriedly held Bi Yelin to tell her not to be so polite.

At this time.

"Su Lang donor!"

"Thank you for saving the little monk from the quagmire of the exile."

"The little monk will definitely go to Tianmi Continent to correct any chaos and make up for the evil."

Xinzheng also folded his hands together, and bowed to Su Lang with a sincere expression.

"You don't have to be polite."

"Now the situation of the Infinite Universe is unclear, and the Infinite Realm is completely occupied by two continents, and the remaining two have also been eroded and penetrated very strongly."

"We have to resist the forces of Emperor Yuanmingzhou, we can't do it overnight, we still have to take it slowly."

Su Lang smiled and said, "So before this, everyone is by my side, so I can take care of it."

"Hmm, that's it."

Youzhi came up with curiosity and excitement, "I heard that Su Lang, you ruled a natural life planet in the boundless universe, let us take a look!"

This statement came out.

Except for the three daughters of Chu Xiaobei and Bi Yelin, everyone else showed expectation.

"This, I'm afraid I can't do it temporarily."

"Because we should not be in the Xinghai area now."

Su Lang smiled bitterly and shook his head, "Now we can only go to a place with people to ask, and after finding the direction, we will fly to the Xinghai region by ourselves."

Hear this.

But it was Chu Xiaobei's turn to be happy.

"what!?"

"We are not in the Star Sea Region! We are in other star regions!?"

"Tian Le, we actually ran into other star regions, so excited!"

"Walk around, let's see if there is anything interesting in this star field!"

"..."

The three daughters of Chu Xiaobei were extremely excited like a traveler seeing a strange and beautiful scenery.

[Chapter 1785: System function level skyrocketed](#)

"Okay, I was going to ask for directions!"

Su Lang smiled, "Everyone, enter the Soul Chasing Emperor Palace, I'm going to set off!"

"Great!"

Chu Xiaobei and the others immediately drew Bi Yelin and others into the Soul Chasing Emperor Palace, and they didn't have to think about how many Mahjong tables they were going to gather.

Soon.

Su Lang shrank the Soul Chasing Emperor Palace and hung it around his waist, and then flew forward in a random direction.

but.

His avatar and avatar have turned into more than four thousand shadow avatars, and they are constantly dispatched toward the front, paving a convenient road!

Just find a human life planet or find the strong floating in the starry sky.

Su Lang can immediately go through the clone replacement!

"Anyway, there are avatars who do it on the way."

"At this point, I just counted the gains in the Ship of Ten Thousand Domains."

While Su Lang flew slowly, his eyes fell into the storage space.

He had already obtained a large amount of Godless Pills, refining materials, and refining array materials by refining the alchemy and refining arrays for the two hundred and one big masters of the Ship of Wanyu.

In addition, there are a large number of exercises and classics, and the 130 basic exercises alone are worth countless money!

Of course.

At present, Su Lang cares about the source of Emperor Xianyuan!

Sweeping the spiritual power in the storage space, you can see the Xianyuan and Diyuan piled up into continents!

"system!"

"Immediately deposit all Xianyuan Diyuan into the balance!"

Su Lang licked his lips excitedly, and then gave instructions.

"Ding! The storage is complete, and the current balance is 8.66 million Yuan, a superior Emperor!"

"Lying down!"

"A total of more than 8 million superior emperor sources, which is equivalent to 80 billion lower emperor sources!"

Su Lang's eyes widened with excitement when he heard the system prompt.

On average, two hundred and one big brothers have provided more than 400 million subordinate emperors!

To know.

Su Lang killed all the Supreme Emperor who had invaded and exiled before, and only obtained less than 200 million lower emperor sources!

"Great!"

"With these emperor sources, my system functions can be greatly improved!!"

Su Lang was so excited that he couldn't help rubbing his hands, "System, fast, fast, let me improve the one-key training function and the one-key martial arts function!"

"Ding! It consumes 10,000 superior emperor sources, and the one-key training function is upgraded to level 44..."

"Ding! Consuming 100,000 superior emperor sources, the one-key training function is upgraded to level 45..."

"Ding! Consuming 1 million superior emperor sources, the one-key training function is upgraded to level 46, and the training speed is increased to 9384755.2 billion times the speed of the basic training without lack of qualification!"

"Ding! Consume 10,000 superior emperor sources, the one-key martial arts function is upgraded to 44..."

"Ding! It consumes 100,000 superior emperor sources, and the one-key martial arts function is upgraded to level 45..."

"Ding! Consuming 1 million superior emperor sources, the one-key martial arts function is upgraded to 46, and the training speed is increased to 93,847.552 billion times the speed of the basic training without lack of qualifications!"

"Ding! Congratulations on raising the one-key training function to level 45. You have obtained the new bonus function "Void Spirit Universe"!"

"Ding! Congratulations on raising the one-key martial arts function to level 45. You have obtained the new bonus function "Nine Hearts into One"!"

After a series of system prompts.

Su Lang's one-key training and one-key martial arts have soared to three levels, and they have obtained brand-new bonus functions respectively!

A flood of information about the new functions poured into Su Lang's mind, making him immediately understand the role of the two new functions.

The first is "Void Spirit Universe"!

The 'virtual spirit universe' is a function related to the life universe after the 'inner realm of the ten directions' and the 'ten realms as one'!

However, the "Void Spirit Universe" is completely different from the life universe. It is built with the humane will of all the creatures in the ten directions life universe.

The concept of this universe is somewhat similar to that of the Void Dragon Vein Heaven Realm.

The Ethereal Universe can collect the power of humanity, that is, the power of humane will, incense, willingness and other emotions related to life without waste, fill itself, and form a super world full of infinite possibilities!

The ability of the Ethereal Universe to absorb the power of humanity is terrifying.

Once it is stared at by the Ethereal Universe, even the traces of emotions spilling in the air will be absorbed completely.

[Chapter 1786: Powerful auxiliary functions](#)

In other words.

Within the coverage of the virtual spirit universe, no one can usurp the power of humanity, and everything will belong to Su Lang!

For other creatures, the road of incense will be cut off forever!

"System, activate the function of the 'Virtual Spirit Universe'!"

Su Lang held his breath and activated the new function.

"Ding! The Ethereal Universe has begun to open up!"

With the appearance of the system prompt, Su Lang suddenly felt a pain in his eyebrows.

Immediately after.

He discovered that a whole new world appeared under his sea of knowledge!

This world has just been opened up, with large tracts of land, mountains and rivers, the size of which is comparable to the land of exile, one billion light-years away!

Of course.

This world is illusory. It exists in the chaos of consciousness just like the sea of consciousness. To be precise, there is no space in it.

and.

The land is bare, and the river is dry, with only the most common rocks and soil.

At this moment.

The development of the virtual spirit universe is completed.

Su Lang immediately noticed that the incense aspiration power accumulated in his life universe, and even the emotions that the creatures had just spilled into the air, were all absorbed into the virtual spirit universe.

The biggest source is Tai Sui Universe.

In this universe that Su Lang used as a laboratory and bridgehead, various races have formed unique civilizations and beliefs.

And this time.

No matter what they believe in, all the incense aspirations they produce have been swallowed by the Ethereal Universe.

Even those who have condensed the incense real body through crude incense techniques, all collapsed instantly, restored to the most primitive incense and emotions, and were incorporated into the virtual spirit universe.

In addition to the Shifang Life Universe, the Void Spirit Universe can also expand to cover a large area, absorbing the incense power of all the creatures within the coverage area and even the emotions that have just been generated.

all in all.

The virtual spirit universe is a world where one party specializes in collecting incense emotions.

Its power is very terrifying, it can monopolize the incense and emotions of all creatures in the coverage area, and it has extremely terrifying restraint on the existence of the cohesive incense real body!

Those who relied on incense to awaken from the long river of time, once they encounter Su Lang, it is like encountering a natural enemy, they will undoubtedly die!

Of course, the fear of restraint does not mean that the opponent can be unreasonably obliterated.

Su Lang's Ethereal Universe also needs to continue to grow, so that power will become more powerful.

"The virtual spirit universe opened up."

"I have to speed up the cultivation of the creatures."

"However, the life universes captured in the Eye of Ten Thousand Worlds can also be used."

Su Lang's thoughts moved, and the Ethereal Universe immediately unfolded and extended into the pupil of ten thousand worlds.

At this time, there are thousands of life universes in the Eye of Ten Thousand Worlds.

It also includes a variety of godless life universes, such as the Puxin universe, Jing Yuanbai's sun-eating Tengu universe, and the life universe left by the invaders.

There are a large number of creatures in these life universes.

These creatures are also constantly producing incense aspirations.

After losing their master, the incense aspiration they produced has nowhere to go, and can only be accumulated in the universe of life.

And because of the death of the master of the life universe, these life universes have also undergone drastic changes, and countless emotions spread and enveloped the entire planet.

At this moment.

The Void Spirit Universe brought these life universes into the 'ruling range', and the various humane forces in it were swallowed up instantly.

The existence that relied on the Avenue of Fragrant Fire also died out.

After absorbing thousands of life universes.

Su Lang discovered that the Ethereal Universe has directly grown hundreds of times. If it were unfolded, it could cover a light-year radius!

"From now on, there will be no more incense in my side within 100,000 light years!"

With a tick at the corner of Su Lang's mouth, possessing the Ethereal Universe is equivalent to possessing a terrifying weapon.

Immediately after.

Su Lang looked at the second auxiliary function "Nine Hearts into One" that he had just obtained!

Nine Hearts into One: Nine martial arts villains can practice one exercise at the same time, and the practice speed is increased nine times on the current basis!

[Chapter 1787: Re-evolve Youtian Sword](#)

"Lying down!"

"Is this the legendary brainstorming?"

"The nine martial arts villains turned out to be doing their own things, so now they can join together to study the exercises together!!"

An excited smile appeared on Su Lang's face.

With this function, his training speed can skyrocket nine times!

In addition, the one-key martial arts function at this time has increased eight times the speed, if you use Jiu Xin Guiyi.

The martial arts speed will reach eighty-one times the speed before the function upgrade!

At such a terrifying speed, it probably won't take long to practice Godless-level techniques!

but.

The five godless-level exercises that Su Lang is now practicing are already about to reach the founding level.

therefore.

Su Lang still intends to finish the current practice of Godless-level exercises, and then use Jiu Xin Guiyi to practice other exercises.

"There are still more than six million in the superior emperor source, continue to improve system functions!"

An excited smile was drawn at the corner of Su Lang's mouth, and then he gave instructions again, "System, enhance the dispatch of clones, one-key treasure hunt, one-key empowerment, and one-key enhancement functions!"

"Ding! Consume 10,000 superior emperor sources...!"

"Ding! Consume 100,000 superior emperor sources..."

"Ding! Consume 1 million superior emperor sources, the clone dispatch function is upgraded to level 45, the number of clones is +1, the current number of clones is 45, and the number of clones is 45!"

"Ding! Congratulations on raising the clone dispatch function to level 45, and you have obtained the new auxiliary function "Twin Incarnation"!"

"Ding! Consume..."

After continuous system prompts.

The clone dispatch and one-click treasure hunting functions have been upgraded to level 45, and the number of clones and avatars reached 45 respectively!

The number of treasure hunting flying gliders reached 93,847,552 million!

And also got two new auxiliary functions "Gemini Avatar" and "Supreme Golden Body"!

The ability of Gemini avatars is that the number of avatars that each clone can produce doubles, that is to say, the current number of avatars is actually 90!

The ability of the supreme golden body is the continuation of the emperor's golden body, raising the damage-free level of the treasure hunting flying flying glider to the godless level!

In other words.

Only an attack of the primordial level can kill the treasure hunt flying glider!

Even if the entire ship of Ten Thousand Domains all shot together, they can't kill even a small treasure hunting flying flying flying glider!

This shows how abnormal this function is!

Except besides.

The one-key empowerment function has been increased to level 24, and the number of various initiations has been increased to 48!

The one-key enhancement function has been upgraded to level 6, without auxiliary functions, but the enhancement limit has been increased to 6 times!

The total amount of funds consumed is 6.65 million superior emperor sources, with 2.01 million superior emperor sources remaining.

Next, upgrading each system function requires a full 10 million superior emperor source, that is, 100 billion lower emperor source! !

That would be a terrifying astronomical number even harder to touch!

"For a long time in the future, it is estimated that system functions will not be able to be upgraded."

"Fortunately, the current functions are completely sufficient and can take me to fly everywhere!"

Su Lang smiled happily, then put his gaze on the mountain of refining materials in the storage space.

You know, these materials are all obtained from the supreme emperor of Jiudu and the elders of the quasi-primordial beginning.

Anyway, there is no one below the godless level!

"System, keep the specified characteristics, evolve the Youtian Sword!"

Su Lang immediately issued the evolution order.

"Ding! Consumes no **** soul*10000, quasi no **** soul*200000... Godless grade material silver light sky magic jade*89562, cosmic cold jade*22200, heart-destructing dark jade*88868, mysterious magic sky Youjin*875568, You Lin Bone*813112...The Youtian Sword has evolved into a Qidu Godless Soldier!"

A faint light flashed.

Su Lang's Youtian Sword suddenly rose sharply, and its power was greatly enhanced. Xiaoyou immediately yelled with excitement!

There is a big gap between the level of the quasi-prime and the real.

Therefore, this evolution did not allow the Youtian Sword to reach the primordial level.

but.

If the Godless Level is divided into ten levels, then the Youtian Sword has reached the eleventh level, and its power is enough to crush the ordinary quasi-primary strong.

of course.

The difficulty of using Youtian Sword has also become greater.

Su Lang estimated that after using the Devouring Clone, he could only use the Youtian Sword to condense a twist of the power of his entire body.

"The Youtian Sword is almost there, and it won't be used anymore, and the materials are a bit worse, mainly because the godless soul is gone."

"Well, I originally planned to upgrade the Godless Dragon Platform again, but now it seems that I can only put it on hold."

Su Lang curled his lips, then prepared to sort out the medicine.

But at this moment.

The clone that had been sent far away finally found a planet of life! !

[Chapter 1788: Yunjun Xingzhu Yunyi](#)

"Lying down!"

"I found a planet with human beings, and it doesn't look like a small one!"

Su Lang's eyes lit up, revealing a trace of excitement.

Immediately after.

He immediately used the clone replacement function, and swapped positions with the clone that first discovered the planet of life!

Suddenly.

There was a huge planet in front of him, bigger than the dark stars.

This planet is surrounded by a thick icy blue atmosphere, and many warriors live in the atmosphere.

They are long and slender, like to wear white robes, the fairy spirit is fluttering, like a deity flying above the sky.

"Yun Junxing?"

"The strongest is a Nine Great Emperor, well, so weak."

Su Lang swept away with mental power, and immediately wrapped all of this planet, understanding the situation inside clearly.

The strongest person on the planet is just the Nine Great Emperor.

It was equivalent to the opponent that Su Lang encountered in the Exile, the enemy that was beheaded, the Nine Great Emperor was simply too weak, just like an ant, he could kill him with a breath.

Observed for a moment in secret.

Su Lang didn't get any effective information, so he could only leave to ask.

Yun Junxing.

The highest Yunshan Wandian.

A clean young man wearing a white-gold robe, who was meticulously taken care of, was frowning.

His name is Yunyi, and he is Yun Junxing's current ruler.

suddenly!

"Why are you so worried?"

A faint voice reached Yun Yi's ears.

"Who!?"

Yun Yi was taken aback, and instantly stood up from the futon with a look of horror on his face.

This is Yunshan Wandian!

It is the place where Yun Junxing gathers countless powerful men, and it is also his Yunyi's bedroom.

But now, someone broke in silently, it's terrifying!

"Don't panic, don't be afraid, I am a good person."

Su Lang walked in from the door with a kind smile on his face.

"You! You stop!"

Yun Yi took a few steps back in horror, and found that he could not see through the opponent's cultivation.

"Can't you talk well?"

Su Lang raised his eyebrows, leaking a breath of one part in a trillion.

boom!

This breath radiated, and the whole planet was trembling immediately!

"You! Who are you?"

Yun Yi felt Su Lang's terrifying aura, and his soul was frightened, his face pale, and his voice was trembling.

Tianle.

He has lived so long, and this is the first time he has seen such a terrifying character!

Such a character can crush hundreds of star fields with one finger!

"what happened!?"

"It's terrifying, go to Master Yunyi!"

"Quick, quick, we Yun Junxing is about to usher in disaster, take our family members!"

Yunshan Wandian was also in chaos immediately, and countless strong men flew towards this side, trying to figure out what happened!

"I cross, this breath is still released a little bit more."

Su Lang curled his lips, then looked at Yunyi, "Children, let them wait outside. I want to ask you some questions."

"Yes Yes!!"

Yun Yi immediately agreed, preventing those outside subordinates from taking a step.

He didn't dare to make any changes himself, the dignified one-star master was really as well-behaved as a kid.

"Ok."

"Where is this star field?"

Su Lang asked softly, "Do you know the Xinghai Domain?"

"This...this is the Star Luo domain."

"I've heard of the Xinghai domain, it's far, far away"

"It is said that there is a paradise for cultivators. The entire star domain is connected as one. They integrate the resources of the entire domain and crazily enhance the strength of the warriors in the domain!"

"Because there are many advanced concepts and cultivation lifestyles, the most representative one is sharing exercises. Many strong people have gone there!"

"I heard that the ruling race there is the human race. They are the descendants of the monks of the boundless world. They are naturally friendly and compatible with the blood of any race!"

"A large number of powerful people go there to find Taoists. I also wanted to go to the Xinghai domain, but unfortunately, something happened!"

Yun Yi quickly said the information he knew, and finally shook his head to reveal regret.

Su Lang's expression changed drastically when he heard Yun Yi's words.

[Chapter 1789: Xinghai Great Area Time Change](#)

"what!?"

"The Xinghai domain is developing so fast? The reputation of the human race has spread here!?"

Su Lang frowned slightly, "The most important thing is that something happened to the Xinghai area? Quickly, tell me what happened to the Xinghai area!"

"I'm not sure about this either."

"I only know that the Xinghai Great Region suddenly rises, and then attracts a large number of powerful people."

"Later, there was a big battle, and the star sea area was beaten into a mess, almost all disintegrated!"

"I don't know much about what happened after that. The Xingluo Great Region is quite far away from the Xinghai Great Region, and the news spread too slowly."

Seeing that Su Lang was so nervous, Yunyi also seriously told all he knew and explained, "Senior, I know this..."

"Lying down!"

"You actually started on my Xinghai Domain!?"

A thick anger rose in Su Lang's heart, and then he asked Yunyi, "Do you have a star map to go to the Great Star Sea?"

Yun Yi shook his head: "This, no..."

"Didn't you say that you also thought about going to the Xinghai Domain?"

Su Lang frowned, "You don't know the way to go!?"

"senior!"

"I really don't know!"

"Because the Xinghai domain has shifted during the war, and the entire star domain is constantly moving!"

Yun Yi bowed to Su Lang in horror, for fear that Su Lang would kill him.

"Shifted!"

"It's noisy, how can I go back!?"

Su Lang twitched his mouth, and then immediately asked, "Yunyi, do you know where there is more news about the Xinghai Region!?"

"Senior, please let me think about it!"

Yunyi bowed tremblingly, and then began to think.

Ta Ta Ta.

Su Lang paced in the hall impatiently, and his heart was full of irritability.

Although when he left the Xinghai Great Region, he had not yet taken the entire Great Region as his own.

However, he has already come into contact with the Void Cult and will soon be able to complete the rule of the Xinghai domain, but at this time the territory he considers his own has been fought by others!

More importantly, something he didn't know had happened in Xinghai Domain.

The human races who were obviously only on the Canglan star were so famous that they were all spread out of the star field.

Moreover, with the strength of Xinghai Great Region before, not even the Godless Grade, how did it resist the masters sent by the boundless world?

and also.

Yun Yi said that Xinghai has various advanced cultivation concepts and methods, such as sharing exercises.

This made Su Lang immediately thought of the Five Elements Heaven and the Internet of Spirits and the Internet of Transportation that he had established at the beginning!

"Could it be that the human race I stayed on the Canglan Star has developed into the entire Star Sea?"

"They promoted the concept of the spiritual Internet to the entire Xinghai domain, causing the explosive development of the Xinghai domain, and then they will attract people from the boundless world?"

"But, it takes only a little time for me to enter the exile, and only a few minutes have passed since the endless universe has a time flow rate of ten thousand to one!"

"It took a few minutes to develop from the Canglan Star to the entire Xinghai area, how famous is it? Nonsense!"

Su Lang frowned deeply, his face was puzzled and weird, and his mind was even more puzzling.

Yun Yi knelt there and watched Su Lang turning around, feeling very nervous in his heart, for fear that Su Lang would breathe a little bit harder and kill him!

suddenly!

Yun Yi's inspiration flashed and thought of a rumor.

"senior!"

Yun Yi tremblingly asked, "I think of a rumor that I don't know whether it's true or not. I don't know if I should say it."

"Say!"

Su Lang paused, his eyes only fixed on Yunyi.

"Is such that."

"It is rumored that the time flow rate of the Xinghai region has undergone a terrible change!"

"Not only the star-sea area, but also many nearby star areas, the time flow is very fast!"

"However, it is said that the time flow in the Xinghai area is the fastest. The closer to the Xinghai area, the faster the time flow!"

"Even the time flow rate of our Star Luo domain has been affected, but our strength is shallow and we can't feel the time change, so we don't know if this is true."

Yun Yi took a deep breath and said everything he had just thought of.

[Chapter 1790: Amazing coincidence and wonderful result](#)

"Time flow faster?"

"Could it be that the timeline has changed!?"

"Yes, this change can only be explained by the timeline."

Su Lang's eyes shimmered slightly, and he thought of the unknown and mysterious changes he felt at the moment he was disassembling and recasting the Nine Dragon Coffin.

What is the Kowloon Coffin?

It is one of the cores of the Ship of Ten Thousand Realms, guarding the turbulent flow of time in the entire exile and maintaining the existence of the timeline.

The place of exile is actually part of the ship of ten thousand domains.

To be precise, the place of exile is the big ship, and the ship of Wanyu is the captain's room!

In the most recent period of time, the ship of Exile, independent of the boundless universe, drifted in a certain position, which exactly corresponds to the large universe of the Star Sea.

Therefore, when the Coffin of Nine Dragons was lost in the Exile, the timeline changed, and the corresponding star sea area and nearby places were also greatly affected!

This kind of influence is the reversal of the time flow in the Land of Exile and the Great Star Sea, and the resulting ratio is extremely terrifying, at least many billion times!

The time of the Xinghai domain accelerated crazily, and it naturally developed terribly!

This resulted in the fact that the human race ruled the Xinghai region and spread to the outside world at the same time.

In addition to the large Xinghai area, there are also many large areas nearby that are also affected by the flow of time and develop very rapidly.

There must be a lot of powerhouses in these big domains!

"That is to say!"

"The large area of the universe in the Xinghai Domain has skyrocketed in strength many times!"

"The coffin of Nine Dragons is destroyed, the flow of time changes, and the strength of the vast universe is skyrocketing...!!!"

"I understand, all these are the means left by Senior Zhaoyu!"

"Once the Nine Dragon Coffin is destroyed, the Ship of Ten Thousand Territories will definitely be destroyed!"

"The change in the flow rate of time has caused the strength of the universe corresponding to the Ship of Ten Thousand Regions to skyrocket. The strong in these areas are the viable power against the Emperor Mingzhou!"

"Senior Zhaoyu's move is equivalent to moving his backhand from the dark to the bright. Although he loses the boat of the ten thousand domains, he gets a terrifying star cluster. This is a good move!"

"And I unintentionally disassembled the Nine Dragons Coffin, triggered Senior Zhaoyu's backhand, and then recast the Nine Dragons Coffin, saving the boat of ten thousand domains!"

"In this way, one of Zhaoyu's back players is equivalent to two back players-the ship of ten thousand domains and the large area group of Xinghai!"

Su Lang felt his chin thinking, the light in his eyes brightened!

He also didn't expect that his unintentional behavior would have caused the current result. The world is really amazing!

"Now the Xinghai domain group should not be destroyed, they are at large!"

"Emperor Yuanmingzhou will definitely send more powerful people to hunt down the Xinghai domain group. I must return to the Xinghai domain as soon as possible!"

"Yan Hengxing, An Xin, Xiao Ning... Huangfu, Yaochi, Wuxue, Yuehong, Hongxiu, and other acquaintances of Canglan Star, I hope you are all well and wait for me to come back."

Su Lang took a deep breath, with some worries in his heart, worrying that the Xinghai area was already a mere fact.

He came to this world for a short time, and he didn't want those who were with him at first to disappear in such a blink of an eye.

At this time.

Yun Yi moved his lips, he stopped talking, but was afraid to interrupt Su Lang's thinking.

"What do you want to say?"

Su Lang noticed Yunyi's strangeness and asked with a smile.

"senior!"

"You want to go to the star map of the Xinghai domain. I don't have it, but I think there may be clues in a place."

Yun Yi said nervously, "It is said that there are people from the big area near the Xinghai area, and they are very close to the Xinghai area."

"Really!"

Su Lang looked expectant, "Say it quickly, you will be rewarded a lot!"

"That place is the ruling star of our star Luo Dayu-Yanluo Star!"

Yun Yi said immediately, with a touch of jealousy and unwillingness in his eyes.

"Yan Luoxing?"

"You have a grudge against that place?"

Su Lang raised his eyebrows, and Yunyi's changes couldn't help him.

"Nothing..."

"Senior need to go to the star map of Yanluo Star?"

Yun Yi gave a wry smile, then took out a Second Great Emperor Soldier from the Life Universe, and gave it to Su Lang with both hands.
