

## One Click 1801

### [Chapter 1801: Do you want a bite](#)

"Are you there, all right."

Su Lang nodded, and immediately dispatched Baiying clone to continue to the eastern edge of the Star Luo Great Region.

Time passed slowly.

"That, senior?"

Ayu asked anxiously, "Why don't we leave?"

Shuangyang was also a little uneasy, for fear that Su Lang would suddenly change his mind.

"I have already set off."

"Wait, wait a minute."

Su Lang waved his hand, then took out some snacks and ate it.

Crossing the star field, the distance is indeed a bit far, even if you keep sending clones, it will take some time.

So just eat snacks to pass the time!

And Ayu and Shuangyang were dumbfounded when they saw Su Lang's snacks!

I saw that Su Lang used emperor soldiers or great emperor soldiers that looked like plates to put some fruits in full bloom.

Those fruits all exudes a terrifying aura, even the Great Emperor Shuangyang couldn't help his heart palpitations when they saw it.

His heart palpitations are normal.

Because what Su Lang ate was non-God-level fruit, which was captured from Feng Ziyu's group, let alone fragrant.

"Would you like a bite?"

Su Lang looked at Shuangyang and Ayu, a smile was drawn at the corner of his mouth, and he passed the godless fruit in his hand.

"No!"

Ayu shook her head decisively. As a proud human race, she didn't want to eat what others had bitten.

"Thank you seniors, juniors are afraid that they will not be blessed..."

Shuangyang also refused, he wasn't sure if he would be killed by a bite.

"Ok."

"Then you just watch."

Su Lang smiled, then finished the fruit in front of him in a few bites, and threw the Emperor Soldier's plate into the storage space.

Soon.

With a big wave of his hand, Shuangyang and Ah Yu shrank with the supernatural powers of space and pinched them in his fists.

"Clone replacement!"

With a thought, Su Lang appeared in a cluster of asteroids on the eastern edge of the Star Luo Domain.

Said it is an asteroid, it is actually a group of broken continents.

It should be after the death of a certain great emperor that his life universe was eroded by the power of the boundless universe, causing the broken life planet inside to return to the universe.

At this moment.

As soon as Su Lang appeared, he discovered a huge joint formation hidden in the asteroid belt.

However, although the formations are large, the strongest of them is only the Great Emperor-level formation, which in Su Lang's eyes is no different from a bubble.

"Array control!"

Su Lang's heart moved, and the formation suddenly fell into control.

He took one step.

The formations automatically opened a gap, and then automatically closed again, without disturbing anyone.

This scene immediately stunned the two of Emperor Shuangyang who were pinched in Su Lang's hands.

"what's the situation?"

"Why do these formations automatically open?"

"Are these formations arranged by seniors?"

"Impossible, if seniors set up a formation here, still use Ayu to guide the way?"

"..."

The two of them were puzzled and could only use it as an unpredictable method that the boss had mastered.

quickly.

Su Lang pinched Shuangyang and Ayu into an asteroid guarded by the Great Array.

This asteroid is probably the size of the most primitive Jupiter. It is considered a giant planet in the solar system, but it can only be considered an asteroid here.

Su Lang swept away with mental power and found that huge buildings were built on the asteroid, which looked like temples, but they were specious.

"The cultivators above are all turned into monsters?"

"They are actually mimicking the cultivation method of the door, one by one, bright and magnificent, but it is difficult to hide the aura of the monster."

Su Lang raised his eyebrows and probably knew the origin of these guys.

These guys should be monsters affected by Tianmi Continent. In short, they are the forces of Emperor Yuanmingzhou.

"Little fish."

"There is no human bloodline here."

Su Lang spread out his palms, and inside stood two villains, Shuangyang and Ayu.

"No!?"

"This...could it be that the mixed races here are all killed in battle!?"

"Before I fled here with many of my fellow clan, and then there was a battle here, and I was sent out by the space jumper to live on Yanluo."

When Ayu heard Su Lang's words, his face suddenly grieved, "I think they should be able to persist..."

#### [Chapter 1802: Fragment of the Black Dragon Star Territory](#)

"That's it."

"You know that there is a big battle here, and you want to use my hand to help the human blood creatures."

Su Lang sighed regretfully, "Unfortunately I came a step late, they have all been wiped out."

"Didn't you say that you are an ancestor?"

Ayu shed tears in his eyes, "Why, even some mixed races can't save it!"

"Ayu."

Shuangyang stroked Ayu's back, "It's not Senior's fault, Senior doesn't know that there is a big battle here."

"Ugh."

"Under the war, there is all suffering!"

"I will definitely save the Xinghai domain group as soon as possible, and find a way to counterattack the Origin Emperor Hades!"

Su Lang sighed slightly, "Now, I will avenge the mixed human beings who died here!"

The voice fell off.

The entire planet collapsed, and was squeezed into a dense neutron star several kilometers in size by the terrifying twisting power and mana!

As for the monsters above, naturally they are completely finished.

"The star...the planet collapsed!!"

"This method is really terrifying!"

When Shuangyang saw Su Lang's move, he was shocked.

In fact, he can do it to destroy the planet, but he can only destroy the crust of mountains and rivers from the surface of the planet little by little, spending a lot of time tearing the planet into countless pieces.

It was impossible for him to imagine such a method of collapsing the planet.

"Senior must be a veteran Supreme Emperor!"

Shuangyang trembled in heart, "and he is the top powerhouse among the Supreme Emperor."

"Let's go."

"Let's go to the next place."

Su Lang said to Ayu who was in his heart, "Little fish, show the way."

"it is good."

Ayu nodded, "Even if you are not Human Ancestor, you are also a friend of Human Race. I trust you!"

"But I am really an ancestor."

Su Lang shrugged silently.

"The next place where human blood may exist is in the Lieyun Star Field next door."

"During a great battle, the Black Dragon Star Region, one of the Seventy-two Regions of Xinghai, was broken, and some of the fragments flew to the Lieyun Star Region!"

"The Lieyun Star Territory immediately encircled the planets in the Black Dragon Star Territory Fragment. I also escaped from there before."

Ayu's left ear went in and right out of Su Lang's words, and he said directly, "The fragments of the Black Dragon Star Territory are guarded by the remains of 72 Territory Heavens. Perhaps, there are still people alive..."

"Time is precious."

Su Lang said indifferently, "You just point out the location, don't say anything else."

"it is good!"

Ayu nodded, "I remember very clearly that the fragment of the Black Dragon Star Territory is in the middle of the Lieyun Star Territory, which is the direction!"

Without saying anything, Su Lang immediately dispatched his avatar in the direction A Yu pointed at. quickly.

In a starry sky, large expanses of broken spatial rhythms are flying around, causing bursts of spatial turbulence.

After such a long time, these broken spaces have not yet blended into the surrounding universe, and it can be seen that there is absolutely a lot of godless-level space-distorting power surrounded by them.

There must be many powerful Godless Grades who invaded the Seventy-two Regions of Xinghai!

"It's really worrying!"

Su Lang used his clone to come to this broken space.

Immediately afterwards, more than 13,000 godless avatars scattered around!

It was like a large net spreading over the calm lake, and a large area fell under Su Lang's control.

Not long.

A broken star field with 31 life planets at its core and a large and powerful array surrounding it appeared in the field of vision.

And this star field is being besieged by an endless number of warriors!

Needless to say, you know.

Here is the fragment of the Black Dragon Star Territory that fell here!

"Those formations are just upgraded from the Five Elements Heaven that I arranged."

"This person is very genius. He actually used 31 planets as the array to set up a super-wide range of Godless Formation, barely blocking the enemy's attack."

"Well, the enemy has a veteran one-pass Godless class, and a large number of quasi-godless classes. The number has formed a crush."

"If this continues, the fragment of the Black Dragon Star Territory without endurance will undoubtedly be defeated, even now it is showing signs of decline, and the formation is about to die."

Su Lang's thoughts flickered, and he immediately used his clone replacement to come to this battlefield!

[Chapter 1803: The war between thoughts ends](#)

"Kill kill kill!"

"Grab the creatures with human blood!"

"I have to do well and kill more human beings, so that I can climb the thighs of those outsiders!"

"Charge! Break through this broken array!"

"Capture their planet!"

"..."

In the battlefield, countless strong men of the Lieyun Star Region sneered again and again, and they slew the pale-faced Black Dragon Star Region warriors.

The double hair is getting closer.

Seeing a rolling massacre is about to unfold!

"Damn it!"

"There are too many of them, we may not be able to hold on this time, I am not reconciled!"

"It doesn't matter, kill one without losing, kill two to earn one, do special code!"

"My human race will be eternal, even if I wait to die here, the human ancestor will bless our human race to pass on forever, and we will rule the boundless universe!"

"..."

The human blood warriors of the Black Dragon Star Territory raised their heads proudly, and would never give in even if they died!

"This kind of will is very good!"

"As expected of being a mixed-blood creature of my human race!"

Su Lang nodded, with a thought, terrifying coercion descended on the battlefield!

Instant time!

Countless people in the Lieyun Star Region felt that they were crushed by the terrifying boulder, and could no longer move forward!

As the domain owner of the Godless Lieyun Star Territory, his expression changed wildly in an instant, and he felt that he had no resistance at all in front of the master with that powerful aura!

then.

The countless Lieyun Star Territory army rushing towards the fragments of the Black Dragon Star Territory suddenly stopped advancing!

Thoughts of extreme horror appeared in the minds of every warrior.

"How vast is this breath!"

"Oh my God, it looks like a terrifying black hole bigger than Lieyun Star appeared on the head!"

"What kind of breath can be radiated by the strong? We have no possibility of resistance at all."

"It's over, even the domain owner who is invincible in the entire Lieyun Star Region is so frightened, we are completely finished!"

"..."

Fierce fears spread among the crowd, making Wu Shengwuxian and even Emperor Wu be scared to pee. at the same time.

The human hybrids in the Black Dragon Star Territory were taken care of by Su Lang and did not feel any pressure at all.

"How is this going?"

"Why don't the chops on the other side move?"

"They look so frightened, are they frightened by us?"

"What are you kidding? They are all starting to attack. How could they be suddenly scared by us? There must be other reasons!"

"There are definitely stronger ones coming, but there is no coercion to deter us!"

"Haha, someone has come to save us!!"

"..."

The warriors of the Black Dragon Star Territory were horrified at first, and immediately showed endless ecstasy.

at this time.

"Dare to ask where the predecessors came?"

"Junior Lieyun Star Territory Master, a disciple of Linglian Temple!"

Star Lord Lieyun kept bowing to the surroundings, "Junior asks himself that there should be no place to offend senior. If you have anything to do with senior, please tell me directly, and the junior will do my best."

This supreme emperor's somewhat horrified voice spread along with after waves of vast energy.

Countless warriors all over the starry sky can hear them clearly!

"Sure enough, someone strong has come!"

"Look, the warriors of the Black Dragon Star Territory are all smiling, and the ones who come are probably the strong ones on their side!"

"Even the domain owner is so frightened, I know that we are done!"

"..."

When the warriors of the Lieyun Star Region heard the words of Lieyun Star Master, they suddenly became more frightened.

"Hahaha, Lieyun is scared!"

"Why hasn't that strong man appeared yet? I really hope that Lieyun will be broken into pieces!"

"..."

The warriors of the Black Dragon Star Territory were pleasantly surprised and began to discuss.  
suddenly!

In the distant starry sky appeared a giant that was constantly growing!

It was Su Lang who used Wanhua Nirvana's Godless-level methods to become a super giant across the star field.

"That giant looks like an ancestor!!"

"Oh my God, it really looks like a human ancestor, just exactly the same!"

"Could it be that the human ancestor appeared to bless us!?"

[Chapter 1804: The younger Yu Gaochang, meet the senior](#)

"..."

The people in the Black Dragon Star Territory were even more excited, but there were also some who were surprised, because they also knew that the ancestor had been missing for countless years.  
at this time.

"Dare to offend my human race and die!"

Su Lang's voice spread throughout the battlefield, and all the warriors who participated in the siege of the Black Dragon Star Territory fell in pieces in this voice.

From the emperor to the martial sage, the warrior who touched that voice could not have any resistance and died directly.

"No! I don't want to die!"

"Please let me go, ah!"

"I was forced, I don't want to attack the fragments of the Black Dragon Star Territory!"

"Senior, the younger generation would like to agree with his body!"

"..."

The Lieyun Star Territory warriors who have not yet died turned around and fled, and they also said incoherent words for mercy,

However, their speed is where there is Su Lang's supernatural power.

Often they only took half a step before they became a cold corpse!

And their wealth was completely harvested by Su Lang.

After a blink of an eye.

The entire Legion of the Lieyun Star Territory has only left the Lieyun Territory Master.

"No, I don't want to die!"

"Senior, please forgive me!"

"I know I was wrong, I shouldn't have come to besiege the fragments of the Black Dragon Star Territory, but this is all the meaning of Linglian Temple!"

"Please, the junior kowtows to you, the junior is willing to sit down for you, I will bite whoever you let me bite!"

"..."

The domain master of the Lieyun Star Territory was so scared that his soul was dissipated, his guts and guts were torn apart, and he knelt on the ground and kowtow frantically.

"Humph!"

"Linglian Temple again!"

Su Lang's terrifying body crossed the starry sky and came to the sky above Lieyun Domain Master, looking down at Lieyun Domain Master like an ant.

"Senior, spare your life!"

"It's all the fault of Linglian Temple, the younger generation was coerced!"

"..."

Seeing Su Lang approaching, Lieyun Territory's body trembled even more, as if the sheep had gone crazy first.

"Ha ha!"

"You have launched a war against the fragments of the Black Dragon Star Territory these days!"

"How many human blood warriors have died in your hands for such a long time? Can you count them?"

"Just the heinous sins you committed, do you want to survive?"

"Today, I will make you suffer forever!"

Su Lang faintly looked down at the Lord of the Lieyun Domain, and a large amount of twisting force enveloped him.

Immediately after.

Just like the Great Emperor Hanxuan at the time.

The Lord of the Lieyun Territory also turned flesh and blood into fly ashes, and his soul was drawn out by Su Lang and thrown into the Void Dragon Vein Celestial Realm, directly infused with endless incense power, torturing his spiritual wisdom!

"what!!"

"No, don't!"

"Snatch... I'm going to snatch, no, I don't..."

Lieyun Domain Master uttered an extremely screaming scream in the void dragon vein heaven.

In fact, if he had not taken a shot against the fragments of the Black Dragon Star Territory, Su Lang might not have used Mingguang Ten Thousand Realms to subdue him.

But at this time, the Lord of the Lieyun Domain had already made a big mistake, and using Mingguang Myriad Realms to subdue him was not a punishment at all, but a reward!

At this time.

"Welcome seniors!"

"Thirty-one stars of the Black Dragon Star Territory and Mo Jiao branch welcome seniors and thank seniors for their salvation!"

All the creatures of the Black Dragon Star Territory bowed and saluted Su Lang under the leadership of a quasi godless class.

"Get up!"

Su Lang smiled slightly, returned to his normal shape, and then brought the horrified Emperor Shuangyang and Ayu to the fragment of the Black Dragon Star Territory.

"Junior Yu Gaochang, meet senior!"

The quasi godless class came to Su Lang and knelt on the ground respectfully.

"I said that!"

"Don't be polite, just get up!"

Su Lang waved his hand, and immediately everyone felt a gentle invisible force supporting themselves.

Immediately after.

Su Lang looked at Yu Gaochang again, and asked with a smile: "You set up the guardian formation of the 31-star?"

"It was not arranged by the younger generation alone."

Yu Gaochang lowered his head, not daring to look at Su Lang, "It was arranged by the juniors and one hundred thousand formation mages together."

"That's it."

"The formation you set up is already pretty good."

Su Lang nodded faintly, "Moreover, I can see a trace of the Qingyou Emperor Realm, isn't your formation passed from the Qingyou Emperor Realm?"

#### [Chapter 1805: I can't do it in my dream](#)

"Exactly!"

Yu Gaochang raised his head and looked at Su Lang in shock, "The formations of the juniors are inherited from the Canglan Star Qingyou Emperor Realm!"

He didn't expect his heels and feet to be seen at a glance, which is really amazing.

"Is your master Qingxiao, or Suwen? Or is it the sky and the dust?"

Su Lang recollected and asked, "How are these four of them now?"

This statement came out.

Yu Gaochang was even more shocked.

Even the people in the Seventy Two Regions of Xinghai only knew the Qingyou Emperor Realm, and they didn't know the original creator of the Qingyou Emperor Realm.

Because Qingxiao and them had fallen very early, the Qingyou Emperor Realm was carried forward by later generations.

Yu Gaochang is one of the few people who knows the titles of Qingxiao Suwen, and he is often proud of it.

And now, the mysterious powerhouse in front of him actually asked him what happened to Qing Xiao and others! ?

In other words, it seems that the strong people of human ancestors know Qing Xiao and the others?

Is he really an ancestor?

"Master Qingxiao and the others... sat down in the primitive age."

Yu Gaochang said with the stormy sea, "Senior, how did you know the name of Patriarch Qingxiao?"

"Has it been sitting down?"

"Oh, yes, three billion years!"

"Unless it is a person with aptitude against the sky, it will be obliterated by time."

Su Lang shook his head with emotion, and then said to Gao Chang, "Do you believe me when I say I am an ancestor?"

"This....."

"Even though the predecessors look exactly like Renzu, but...you should be transformed into this way, right?"

Yu Gaochang shook his head hesitantly, "After all, the human ancestor had disappeared in the primitive age, and according to legend, he went to the place of exile."

"Ok."

"It seems that none of you believe that I am an ancestor."

Su Lang shook his head dumbfounded and asked, "What are you going to do next? Continue to let the fragments of the Black Dragon Star Territory stay here?"

"Now the enemy has been eradicated by seniors."

"Junior decided to repair and rebuild the formation method, take the fragments of the Black Dragon Star Territory across other star regions, and return to the Star Sea Greater Territory Group!"

"However, the Xinghai domain group is also constantly moving, and any positioning method is useless, and the juniors don't know if they can go back."

Yu Gaochang said with a serious expression, with a firm expression on his face, "If we really can't find the Xinghai domain group, we will fight forever!"

"Ambitious."

"I didn't see the wrong person."

Su Lang showed a satisfied smile, and immediately stretched out a hand on Gao Chang's forehead.

Suddenly, the power initiation function is activated!

Su Lang instilled the "Return to Nature and Return to One Godless Record" that he had practiced to Yu Gaochang in an instant.

"this is!?"

"Godless-level exercises? I actually mastered a Godless-level exercises!?"

"This, this, senior, what is your means, am I not dreaming?"

Yu Gaochang was stunned with horror, and his entire brain was almost stagnant and blank.

He couldn't even think of breaking his head, he actually obtained a godless level practice in an instant.

You should know that even when the Star Controls Spirit Internet was most developed, even the Great Emperor-level exercises needed to review their qualifications before they could see some.

As for the Godless level exercises, you have to make countless contributions to Xinghai Dayu before you can go to the exchange building to get one!

And the most important thing is.

The proficiency of the Godless-level exercises he mastered directly reached the founding level.

It's as if this exercise was created by him, and it is extremely clear about any meaning of the content of the exercise, without any doubt!

This is incredible, incredible!

I can't do it in my dreams!

"Don't be in a daze!"

"It's just a little trick."

"Well, even if you have led the Black Dragon Star Territory Fragment for so long, I will reward you."

Su Lang smiled faintly, "Next, I will put away the fragments of the Black Dragon Star Territory, and release it when I look for the Xinghai Large Territory Group."

"This, Senior wants to take away the fragments of the Black Dragon Star Territory?"

The shock on Yu Gaochang's face instantly added a trace of suspiciousness and vigilance.

#### [Chapter 1806: Noble pure blood](#)

"You are really wary."

"This is a very good character and quality."

"But don't use it on me!"

"I don't say that I am a human ancestor anymore, at least I am a person who is completely on the side of the Xinghai domain."

"By the way, this drop of blood can be shown to you, at least to let you know that I am a pure blood human race."

As Su Lang said, his fingernails lightly stroked his wrists, and a drop of blood appeared in front of Gao Chang.

"this is....."

Yu Gaochang held the blood bead in both hands, his pupils trembling lightly, "The purest human blood!"

The purest human races have always been few.

They are the first to uphold the concept of human ancestors and carry it forward.

Therefore, the pure-blood human race has always been respected by all the creatures of Xinghai 72 Regions.

And the pure-blood human race did not live up to expectations, leading the continuous development of Xinghai Seventy-two Region.

When the disaster strikes, the pure-blood tribe takes the lead in resisting.

Moreover, the pure-blood human race has always ruled the Seventy-two Regions of Xinghai, but has not regarded everything as a dog, and still maintained the best morality.

Therefore, the intelligent creatures of Xinghai Dayu spontaneously granted and acknowledged the various privileges of the pure-blood human race without complaining.

"Not bad!"

"I am a pureblood."

Su Lang's mouth twitched, and a smile appeared, "This should prove my position."

"Of course!"

"The pure-blood human race will always be the protector of the Seventy-two Regions of Xinghai!"

Yu Gaochang returned Su Lang's blood with both hands, with a humble expression.

"That's good."

Su Lang smiled and nodded, "Go and inform those people, I will accept the fragments of the Black Dragon Star Territory next."

After seeing the tenacious will of these mixed race creatures.

Su Lang was unwilling to use Mingguang Ten Thousand Realms to enslave him, so he would try to persuade Yu Gaochang.

"Yes!"

"Honorable lord!"

Yu Gaochang respectfully led the order, and immediately went to explain the matter to the warriors in the Black Dragon Remnant Territory.

Every warrior heard that Su Lang, the great benefactor, was a pure-blood human race, and they became even more excited.

In their minds.

The pure-blood humans are the gods who live in the Xinghai domain!

Without any objections, all the warriors agreed to hand over the Black Dragon Remnant to Su Lang, and even their lives to Su Lang!

"Unexpectedly, the prestige of the pure-blood human race is so high."

"It seems that Yanxingxing not only fulfilled my instructions, but also did a very good job, exceeding expectations!"

"I just don't know if Yanxingxing is still alive. He was the first genius of the human race at the beginning. He has achieved the realm of the Martial God for two thousand years in an extremely harsh environment."

"However, three billion years have passed, maybe... he can survive..."

After thinking about it silently, Su Lang began to prepare to accommodate 31 planets in the Black Dragon Remnant.

These planets are much larger than Canglan Star.

Thirty-one stays together, and considering the influence of the planets, they are relatively spaced apart, and the space they occupy is really huge!

It is very difficult to take them into the universe at the same time.

It is even more difficult to collect other space treasures.

Because if there is no living universe, if you protect them, these living planets will continue to lose their vitality in ordinary space treasures, and the creatures on them will naturally find it difficult to survive.

but.

It is very difficult for others to accept these life planets.

But for Su Lang, it was too simple, not to mention thirty-one pieces, that is, three thousand pieces!

"Clone dispatch!"

Seeing Su Lang's heart moved, thirty-one avatars appeared in front of him.

These avatars possess the same ten-party life universe as him, but there is no life planet in them, and they are completely empty.

Therefore, it is completely easy to use the natural life planet in the remnant of the black dragon.

"Yu Gaochang!"

"Let everyone return to the planet, stay in place and don't move around."

Su Lang asked the clones to be ready, and then conveyed a message to Yu Gaochang.

"Yes!"

Yu Gaochang bowed to Su Lang, then passed on the order.

#### [Chapter 1807: Kill to Linglian Temple!](#)

Not long.

All the creatures stayed in place as required, and then waited excitedly.

"senior!"

"Do you want to close the formation of the Black Dragon Remnant Domain?"

Yu Gaochang found that the formation was still open, so he immediately asked.

"No need to!"

Su Lang smiled faintly, and with a wave of his hand, he seized control of those formations and made them shut down automatically.

"This!"

"The formation we set up unexpectedly lost control of it all at once!"

"Senior used an incredible method, oh my god, what a terrifying array of accomplishments that should be!"

"..."

Including Yu Gaochang, countless array masters were shocked, and their admiration for Su Lang became stronger.

at this time.

The thirty-one of Su Lang's body came forward to the void near a living planet, and the universe of life opened in an instant.

Immediately after.

An incomparably majestic, yet very gentle space force acted on the planet, slowly but firmly sucking it into the universe of life.

In fact, if it weren't for the fragile creatures on the planet of life.

Su Lang could completely let the clone pull the planet into his body at once!

of course.

The current speed is not slow.

Not long after, thirty-one natural life planets were cloned into the Dantian universe.

Soon.

Thirty-one avatars all used their twisting power to smooth and smooth the messy spatial rhythm lines, so that the broken space could melt into the boundless universe faster.

This is not only repairing the broken space, but also erasing traces.

At this time, the natural life planet was incorporated into the life universe by Su Lang's clone, and the broken space was also smoothed, and the fragments of the black dragon star field seemed to have never appeared before!

"It's time to leave here."

Su Lang thought, and a clone would be placed in front of Gao Chang from the universe of life.

"senior!!"

Yu Gaochang respectfully bowed to Su Lang.

He already respected Su Lang very much, and after seeing Su Lang's formation methods and thirty-one clones, it was even more comparable to being illuminated by the Mingguang Myriad Realms!

"Get up."

Su Lang asked directly, "Do you know Yanxingxing? Is he alive?"

"Yan star?"

Yu Gaochang shook his head, "The juniors are ignorant, but don't know."

"Ok."

A hint of disappointment flashed in Su Lang's eyes, "Then, next I will go to find where other human races are located. Do you know the clues?"

"This....."

"Our Black Dragon Star Territory was blown up at the time, and our piece flew out without knowing how far or how the other parts were."

"Moreover, in the process of being knocked into the air, in order to prevent being chased by the enemy, we constantly changed our direction."

"Therefore, we don't know how to return to the place where the black dragon was originally located."

Yu Gaochang thought for a while, but shook his head helplessly and ashamed.

"You are not to blame."

"You are a quasi-no-god-level, and you can survive so long with the fragments of the star field. It's already pretty good."

Su Lang smiled and shook his head, "As for where other human races are, there is a force that must know!"

"You mean, Linglian Temple!?"

Yu Gaochang looked surprised, "You are going to find Linglian Temple!?"

"Not bad!"

"You go to rest first."

Su Lang nodded and waved his hand to let the clone collect it into the life universe.

Immediately after.

With a thought, Su Lang sent and replaced him to the main hall of Yanluo Star Territory.

"My servant knocks on the great Lord!"

Domain Lord Yanluo immediately came out to greet him, respectfully kneeling at Su Lang's feet. .

"Tell me, where the Linglian Temple is located!"

Su Lang looked down at Yanluo Domain Lord, and a trace of killing intent gradually rose in his eyes.

He didn't directly destroy the Linglian Temple before, but wanted to find the Xinghai domain group earlier.

But now that the clues are broken, you can only go to the enemy of Linglian Temple to find clues. By the way, you can also kill the enemy and vent your anger!

"Yes, the great Lord!"

"The current resident of Linglian Temple is located in the converted star field outside of the seven star fields. The specific route is here!"

"Linglian Temple once invited me, but because of the long distance, I didn't go there at the time and only kept in touch."

As the Yanluo Territory master answered, he turned into a star map, all of which were some star regions around the Yanluo Star Territory, including the Lieyun Star Territory.

And the refuge to the star field is just outside the seven star fields to the north of the Yanluo star field!

"Convert to the Star Territory?"

"Hehe, I make you into the \*\*\*\* star field!"

Su Lang smiled coldly, and immediately sent the clone to the Star Territory continuously.

In a short time, he will be able to traverse the seven star fields and enter the Linglian Temple! !

#### [Chapter 1808: Flee wherever you can survive](#)

Thousands of godless clones are constantly dispatched.

Planets flashed past the avatars!

There are intelligent creatures on some planets, and they are often shocked by the breath released by the clones for a moment!

Almost every domain owner of the seven star regions has received news of the arrival of the terrifying and mysterious powerhouse!

So they were so frightened that they looked terrified, and they couldn't help themselves!

Some immediately went to the planet where Su Lang clone had stayed for an instant, and continued to worship in all directions.

Some contacted each other and relieved each other, while others contacted superior forces.

The Master of the Yin Meteo Star Region among the seven star regions contacted his superior, and Cha Cha Hai was still Linglian Temple!

Refuge in the star field.

An extremely large planet slowly revolved in the dark void.

The planet was white and golden, emitting a strong but not glaring light, shining around like a sun.

This planet is the central planet of the converted star field, named Linglianxing, and it is also the headquarters of Linglianxing.

Around the Linglian Star, fifty-nine planets of life are arranged from far to near!

These life planets were originally not here, but were used by Master Jiulian, the master of Linglian Temple, to use godless soldiers to cooperate with many Linglian Temple monks to leap here from far away.

Under the radiance of the Linglian Star, these planets have become 'Buddha's Land'.

The creatures above have also converted to Buddhism, chanting scriptures all day, and dedicated to the many monks of Linglian Temple.

At this moment.

On the Linglian Star.

Countless pagodas and temples are overwhelming!

The smell of Buddhist architecture and incense is everywhere!

"Today's incense is very strong!"

"Storing some more incense, you can condense a new beam of refuge and twisting power."

Master Jiulian, the presiding officer of Linglian Temple, looked at the far distance, with a satisfied smile on his golden Buddha statue soaring into the sky.

suddenly!

"Host!"

"The Master of the Yin Meteo Star Territory has sent news that a mysterious powerhouse has appeared in their star territory."

A bald monk with eight ring scars on his head came to Master Jiulian and whispered.

"Mysterious powerhouse?"

"In this remote place, what can be strong?"

"At most, it's a little bit stronger than that of the domain master of the Yin Meteorite Domain."

"However, since this person dares to appear in the star field we control, we must find him out and let him convert to our Buddhism!"

"It just so happens that I have saved a lot of the twisting power of refuge, so we can have one more fellow or pilgrim in Linglian Temple!"

Master Jiulian laughed, but a strange smile appeared on his warm and fat face.

"Yes!"

"The disciple will lead the Buddhist soldiers to find that person."

Monk Jie Scar immediately took the order and turned to lead the Buddhist soldiers to set off.

But at this moment!

"and many more!"

Master Jiulian suddenly exclaimed!

"Host!?"

Monk Jie Scar turned his head in disbelief, and saw Master Jiulian's face full of horror like an ordinary person saw a ghost!

"Host!?"

"What's wrong with you!?"

Monk Jie Scar walked to Master Jiulian in horror.

"fast!"

"Pack your things and run away!!"

Master Jiulian recovered from the horror and immediately shouted to Monk Ji Scar.

Through the Tianyantong pagodas all over the refuge star field, he saw a murderous godless class continuously moving forward in the refuge star field.

In a short period of time, he had already passed through the periphery of the converted star field and came to the Linglian Star!

And those godless grades, where are the one or two godless grades expected, are clearly powerful people who have reached the fifth grade like him!

Master Jiulian was frightened on the spot!

Because through the sky eye to the pagoda, he saw at least dozens of such terrifying powerhouses!

"what!?"

"Run? Where do you go?"

Monk Jie Scar hadn't figured out the situation, so he asked in surprise.

They occupy the entire converted star field!

What does it mean to run away, give up taking refuge in the star field? how is this possible!

"Giving up conversion to the Star Territory, flee wherever you can survive!!"

Master Jiulian's roar directly solidified the monk's expression on his face.

[Chapter 1809: Buddha Land or Demon Land](#)

"Wh...what!?"

"Don't we want to convert to the Star Territory?"

Monk Jie Scar opened his mouth wide in disbelief, and even his chin fell off.

This is a whole star field. The Linglian Temple is not high in the Tianmi Continent, but here it is high. It can dominate the lives of countless creatures, and let them contribute whatever they contribute!

From now on, Master Jiulian suddenly said that he was going to run away!

"You stay, so stay!"

Master Jiu Lian glanced at Monk Ring Scar and rushed to the sky.

He didn't even want his own Buddha statue, so he ran away empty-handed.

"Host, wait for me!!"

Monk Jie Scar immediately began to run for his life.

He finally understood that the person who came was absolutely terrifying, and even the entire star field was not an opponent of others!

But at the moment when Monk Jie Scar left.

"Jiulian, where do you want to go?"

A voice spread across the planet from outside the sky.

Then a terrifying shock wave erupted above the clouds, and the golden clouds formed by countless incense sticks were directly torn apart, leaving no trace of the atmosphere.

The empty universe directly appeared in the eyes of countless Buddhas on Linglian Star!

The scariest thing is.

A golden figure fell from the universe to the ground like an asteroid, instantly smashing a dry sea!

Rumble!

Endless smoke and dust rose into the sky, and the land around the dry sea was instantly scraped away by thousands of meters. I don't know how many Buddhists died in it!

"This this this!"

"What exactly is going on?"

"Have you not seen it clearly? Someone dared to invade our Linglian Star!!"

"The figure before...is the host of Jiulian!!"

"The host is defeated, run away!!"

"..."

Countless Buddhists reacted and fled around.

But where can they escape? The entire Linglian Star Territory has been occupied by Su Lang's clone!

Every life planet has a clone of Su Lang coming!

The sixty life planets in the center of the star field are even besieged by the boundless star field-level supreme array!

"Linglian Star? Buddha Land? Demon Land?"

Su Lang stood in the void near Linglian Star, faintly overlooking the entire white gold planet.

He felt a lot of incense power from this platinum planet.

This kind of incense is different from ordinary incense. It is condensed by the supreme magic of Buddhism and almost transformed into another peculiar energy.

Among the 18 golden statues of Buddha standing on the planet's equator, Su Lang also felt some strange twisting power.

And above the planet.

Countless intelligent creatures with low cultivation bases are doing all kinds of overloaded labor like slaves.

They work in pieces of Buddhist artifacts, producing large quantities of materials related to Buddhism.

Su Lang's spiritual thoughts swept away, and he could see that among these low-level and weak intelligent creatures, there were actually mixed-race human beings.

In fact, it is not just these low and weak intelligent creatures.

Among those Buddhists, there is also a creature of personal blood.

However, Su Lang, who possessed the Mingguang Emperor Jing of the Ten Thousand Realms, could easily see that these mixed human beings were forced to 'convert'.

It's like those strong in Yanluo domain were subdued by Mingguang Ten Thousand Realms.

"The number of human beings of mixed blood is at least hundreds of billions!"

Su Lang's eyes were cold, and he understood why Emperor Yuanmingzhou wanted to rule Buddhism.

Because the magical powers of Buddhism can surrender creatures on a large scale, reducing a lot of resistance!

at this time.

The golden bodies of the eighteen Buddha statues suddenly shattered.

A large number of peculiar distortions within it appeared in the vast and dry sea of smoke and dust instantly.

Immediately afterwards, the grim-faced Jiulian rushed straight out of the Linglian Star at a speed that spanned several light-years and fled towards the distance!

"Don't give up!"

Su Lang glanced faintly at Jiulian's host, and directly dispatched a large number of clones to intercept.

Suddenly.

The presiding officer of Jiulian was surrounded by dozens of avatars of Su Lang.

"You...who are you guys!?"

"I am the presiding officer of Linglian Temple on Tianmi Continent, and Linglian Temple is the branch temple of Lingshan Temple. Don't mess around!"

"If you dare to kill me, Lingshan Temple will avenge me, none of you can escape!"

Host Jiulian saw that he was surrounded by dozens of warriors of the same level, and immediately felt like falling into an ice cave, completely cold!

#### [Chapter 1810: The terrified Jiulian host](#)

At the moment of life and death.

All Buddhist scriptures were of no use, so Jiulian immediately moved out of his backstage and threatened Su Lang with a stern internal force.

"Ha ha."

Su Lang laughed directly after hearing the threat from Jiulian.

He took a step forward, replaced the position with a clone, walked to the front of Jiulian, and looked down at him faintly.

"This is a \*\*\*\* power!"

"I have activated it, Tianmi Continent has received my request for help, you better be polite!"

The host of Jiulian's face turned red and took out a golden bead, a strange light spread from above, and it melted into the surrounding space like smoke.

"Oh?"

"A message for help came out, is this what you said?"

Su Lang smiled faintly, stretched out his hand and grabbed it, and a formation appeared in front of him, surrounded by a hint of golden smoke!

"Above!?"

"How could you intercept my \*\*\*\* power!?"

"Also, this, this is a godless-level formation, how can you arrange a godless-level formation in an instant?"

"..."

Host Jiulian looked at the formation in Su Lang's hands, and his entire expression changed drastically, revealing endless disbelief and horror.

God power!

It is at the same level as the famous Buddhist techniques such as Tianyantong and Tianzutong. It is a very special godless-level supernatural power.

It can communicate through countless spaces to transmit information, and it is almost impossible to be stopped. It is much easier to use than the traditional star communication jade card.

However, he was stopped at this time!

This is the first time that the abbot of Jiulian has been intercepted by using the \*\*\*\* power.

The most important thing is that, in his eyes, Su Lang's method of intercepting his celestial powers is simply unbelievable, and it is actually an arrangement in an instant!

"Nine Lotus."

"I'll ask you a few questions, and answer them honestly, and I'll give you a good time."

Su Lang was not interested in the horror presided over by Jiulian, and asked indifferently.

"What...what's the problem?"

Jiulian presided over the twin pupils shrinking like needles, and the master's temperament has long disappeared, replaced by panic!

"I ask you."

"Do you know where there are human bloodlines nearby?"

"In addition, how much power does your Tianmi Continent have in this area, and where is the branch?"

"In the battle of the Xinghai domain group, who are the forces participating, and where are they now?"

"And the Xinghai domain group, can you locate its exact position?"

Su Lang looked down at the trembling Jiulian host, his tone indifferent, as if he had no feelings.

"You, what do you ask these for?"

The host Jiulian said in dismay, "What kind of power are you? You should know that I am from the Tianmi Continent!"

boom! !

There was a oozing muffled sound, and a lot of golden blood foam and minced meat exploded.

But Su Lang slapped half of Jiulian's head to pieces!

At this moment.

The host of Jiulian almost thought that he was going to die, and he kept playing back the scenes of this life in his mind.

at this time.

A very gentle light shone on Jiulian's body.

Immediately after.

The host of Jiulian found that his injury was quickly healed, but endless panic and despair rose in his heart!

Because he found that although the power of the light is not that strong, it is surprisingly similar to the effect of the twisting power of his refuge!

"How can you master this method!?"

The host of Jiulian looked at Su Lang in horror, "This must be my Buddhism method, who are you?"

"Ha ha."

"Everything is your Buddhism means, it's really amazing!"

Su Lang smiled disdainfully, and then his heart moved, and the surrounding clones immediately used stars and clouds to condense into a godless class with six crossings and seven crossings.

Then the more intense light from the Myriad Realms crashed onto the body of Jiulian.

Although Su Lang's clone is the same as him, without a weapon, he can only have the power of Sandu Godless Grade distortion, but the amount is too much!

Under the twisting power of countless bright light and myriad worlds, Jiulian presided over the rapid exhaustion of his body power!

"no, do not want!"

Jiulian presided over in horror.

He knew that if his twisting power was consumed, he would become like the creatures he was forced to convert, and become Su Lang's slave!
