[Chapter 1811: Four places where human blood exists](#)

And at this moment.

Su Lang unexpectedly once again used the Godless Dragon Terrace to condense some of the twisting power of Jiudu, and gently placed it on the body of Jiulian.

The next moment!

"what--!!"

The host of Jiulian screamed like a pig.

His whole body was cracked like Ling Chi, with countless cracks, and the twisting power in his body was instantly exhausted.

If Su Lang had used the Youtian Sword, the Nine Lotus Host would be dead at this time!

After the energy in the body was exhausted, the presiding officer of Jiulian suddenly lost the power of resistance, and was turned into a slave by Su Lang using the light of the world.

"Jiulian knock on the Lord!"

Master Jiulian's distorted and hideous expression turned into a peaceful color. He knelt at the feet of Su Lang, like the most humble insect.

"Answer my previous question."

Su Lang said impatiently.

"Yes! Master!"

"The servants know where the creatures of the human blood line are located!"

The host of Jiulian bowed his head respectfully, and then proceeded carefully.

According to what he said.

Three of them are fragments of the Black Dragon Star Field, and one is the Xiyun Star Field, one of the seventy-two regions of the Star Sea.

The Xiyun Star Territory has been completely ruled by Tongtian Temple, and the mission of Linglian Temple is to clean up the three fragments of the Black Dragon Star Territory.

Because the space-time turbulence envelops the large area of the star sea, the location of the large area group of the star sea changes constantly in the boundless universe, so it is difficult to determine its location.

In Tianmi Continent, there are too low-level Buddhist monks who are ready to take action, and use time and space means to cooperate with Tianyantong. It is bound to find out the Xinghai domain group!

In addition, there are a total of 331 areas participating in the war against the Xinghai large area group, and the main force among them is the Buddhism of Tianmi Continent.

In the Invasion War Sect, the Heavenly Ting Continent also had divine beasts participating in it, but they temporarily rebelled and fought back, causing very serious consequences.

Therefore, personnel on the Tianting Continent are temporarily prohibited from participating in the war against the Xinghai large area group.

And a lot of mythical beasts have suffered terrible punishments, and many have fallen!

At this moment.

The forces involved in the invasion of the Xinghai large area group have dispersed, and they searched for the possible place where the Xinghai large area group may appear.

The people of Tongtian Temple established a Tongtian Star Domain Group, the model is similar to that of Linglian Temple, but the scale is countless times larger.

The human beings who were captured and enslaved by them did not know where they were, and lived a very miserable life every day.

"Three fragments of the Black Dragon Star Territory."

"A complete star field, Xiyun star field!"

Su Lang nodded silently, remembering the locations of these four places clearly in his heart.

Immediately after.

Su Lang's gaze fell on the host of Jiulian in front of him.

This guy is equivalent to the leader of an invading force, which is extremely sinful!

"Now that I have got what I want, I can kill it!"

"However, if you kill it now, it is estimated that Emperor Yuan Mingzhou's other powerhouses will be alarmed. If it is too junior, it will be a little troublesome."

Su Lang's expression became cold, his brows frowned, and now he had no idea about the early powers who had time rules.

But the time rule is very scary when you think about it, and you can definitely not easily test its power.

"Let you live a few more days."

"However, you must spend these days in endless pain every day!"

Su Lang said in a cold voice, "You first release those who have been forcibly converted by you, and then delay yourself every day. You can't stop it. It's a little interest!"

"Yes, Lord!"

Jiulian presided over the worship of the five-body throwing to the ground, and used the remaining magical power to use his magical powers to release all the creatures who had forcibly converted.

Suddenly.

The countless creatures on the 60 planets in the Linglian Star Territory suddenly woke up, like a big dream.

The Jiulian presiding officer followed Su Lang's orders and began to delay himself.

Huh huh!

A series of terrifying bloodstains appeared on Jiulian's body.

This is using Godless-level means to Ling Chi, and its means are very cruel.

The rest of the planet.

People with high cultivation bases such as the monk Jie Scar witnessed the whole process of Jiulian presiding over Su Lang and Ling Chi himself.

[Chapter 1812: The Black Dragon Star Territory is more complete](#)

Even the host of Jiulian is like this, they must be finished!

One by one, the Buddhist disciples who exploited the weak and considered themselves benevolent were shrouded in despair.

"You people, also Ling Chi apologizes!"

Su Lang turned his eyes and swept past the powerful Linglian Temple.

of course.

Said to be the strong, but compared to the other weak, even the strongest monk of the scar is only three times without God.

These people didn't dare to look at Su Lang's gaze at all, all of them squatted on the ground automatically, and then began to delay themselves in extreme pain.

Some people were unwilling, so they were naturally caught by Su Lang's clone and thrown into the void of dragon veins, suffering the pain of eternal life.

"Go, conquer the entire star field!"

Su Lang issued an order to the clones again, making them unfold the light of the Ten Thousand Realms to conquer the creatures of the entire star region.

The reason for doing this is to ensure loyalty and prevent the news that he has been to the Linglian Star Territory from being leaked.

Moreover, Su Lang is confident that these creatures can lead a safer life and achieve better development in their own hands, and it is better than stocking in the dangerous boundless universe.

quickly.

All the creatures were conquered by the avatars with the light of the world, and the planet was collected into the empty universe of life.

Immediately, Su Lang investigated the human blood creatures in it again, and found some betrayers directly cleaned out.

There are also some with tough temperament, so they simply put it into the previous Black Dragon Star Territory Fragment Life Planet and let Yu Gaochang and others arrange it.

Finish it all.

Su Lang stretched out his hand, and a star map appeared in front of him, with a dot marked on it, which was one of the Black Dragon Remnants.

"set off!"

When Su Lang thought, a large number of avatars immediately opened up a path to the Black Dragon Remnant Realm.

Nothing happened all the way.

Su Lang's clone soon arrived at this black dragon remnant domain.

It floats in an extremely lonely space and contains seventeen natural life planets.

The planet is full of traces of horror, and you can see that it has experienced many wars.

This fragment of the Black Dragon Star Territory is one of the targets of Linglian Temple, and the spies of Linglian Temple are hidden in the void, monitoring them all the time.

At this moment.

The spies in Linglian Temple found Su Lang's clone, and his expression suddenly changed.

"This person... Wudu has no **** class!?"

A look of horror appeared on the face of the spies in Linglian Temple.

Immediately afterwards, Su Lang let the clone reach out and pinch it to death!

"Clone replacement!"

With a thought, Su Lang came to this black dragon remnant territory.

Thirty-one avatars were summoned by Su Lang, standing in the near void of this black dragon remnant domain.

Suddenly.

The vast aura covered this remnant of the black dragon.

"The strong invaded!"

"Oh my god, there are so many godless grades! Could it be that the sky is going to kill my Black Dragon Star Territory?"

"No, you see, they look like human ancestors!!"

"Renzu? Impossible! It's a fake!"

"..."

In the stubborn domain, the strong men with human blood discovered Su Lang's arrival, and they suddenly lost their voices in horror.

Like Yu Gaochang and others before, they recognized the identity of the Su Lang ancestor, but they were unwilling to believe it.

at this time.

Yu Gaochang and others were released by Su Lang's clones.

"This is... the Black Dragon Star Territory Qingjiao area, how come there are only seventeen life planets left!"

Yu Gaochang immediately recognized the identity of this piece of Black Dragon Remnant, his face showed shock and sorrow.

"Yu Gaochang! Is that you!?"

Suddenly, a quasi godless class flew out of the remaining area of the Qingjiao area, standing on the opposite side of Gao Chang with an incredible face.

"It's you! He Yuanxin!"

"I didn't expect you to be alive, great!"

Yu Gaochang recognized that the man was his friend for many years, and he was immediately extremely excited.

"You are still alive too, great!"

"But, what is going on?"

"Why are you in so many godless hands?"

"Why do they look the same as the ancestors, and where are they? Could it be that the enemy pretended to be? You took refuge in the enemy?"

He Yuanxin showed a trace of alertness on his face. Although he believed in Yu Gaochang very much, he was still worried.

After all, there are dozens of godless statues, and all of them are the same as human ancestors, which is incredible, and it is impossible to doubt it.

"This, how can I explain to you...?"

Yu Gaochang smiled bitterly and didn't know how to explain it.

at this time.

Rumble! !

There were waves of terrifying spatial fluctuations, and then 31 huge natural life planets were released from the universe of life by Su Lang's clone!

Seeing this scene, He Yuanxin recognized the natural life planet in the Heijiao area, and his eyes popped out instantly!

"He Yuanxin, look, the Black Dragon Star Territory is more complete."

Su Lang pointed to thirty-one life planets, and a smile was drawn at the corner of his mouth.

[Chapter 1813: I won't regret my broken bones](#)

"this is!?"

"A more complete Black Dragon Star Territory!!"

He Yuanxin looked at the forty-eight planets placed together in the universe, and his eyes instantly turned red.

Since the Black Dragon Starfield was broken.

He dreams of seeing the Black Dragon Star Territory return to a complete day!

And this time.

The dream has come true!

And it was the man in front of him who looked exactly like the ancestor who realized this dream!

He stood there with a light wave!

A powerful person behind him released the life planet in the Black Dragon area of the Black Dragon Star Region.

On these planets, all creatures are intact, and there is no trace of Buddhism.

He Yuanxin's understanding of those 'high monks'.

Often after catching some wise creatures, they can't wait to convert them into their own believers for their own practice.

It is impossible for them to let go of all 31 natural life planets!

"Brother He!"

"Forgot to tell you, seniors are pure blood human races!"

Seeing He Yuan's heart, Yu Gaochang smiled and said, "Now, you should have no doubts!"

"Yes!"

"He Yuanxin has no more doubts!"

"Junior He Yuanxin, bring the seventeen surviving planets in the Black Dragon Star Territory Qingjiao area to meet the seniors of the pure blood human race!"

He Yuanxin solemnly nodded his head, then took a deep breath and bowed deeply to Su Lang.

"Meet the pure-blood seniors!"

"Thank you to the pure-blood seniors for coming and saving me!"

"..."

On the seventeen life planets in the Qingjiao area, countless creatures heard He Yuanxin's magnificent voice and bowed down one after another!

this moment.

I don't know how many creatures kowtowed for Su Lang.

"Get up all."

"I will put your seventeen planets into the life universe of my clone at the same time, and then leave this star field."

"And then, I will go to other fragments of the Black Dragon Star Territory, and bring them out to make the Black Dragon Star Territory more complete!"

Su Lang smiled faintly, and gently raised his hand, and all the creatures on the seventeen life planets including He Yuanxin were suddenly lifted up.

"Yes!"

"Thank you senior!"

He Yuanxin respectfully and respectfully said, "I also hope that the seniors will inform the title, and the juniors will worship every day!"

This statement came out.

All the creatures who heard it pointed their ears.

Their minds are the same as He Yuanxin. They hope to know the name of Su Lang, and then worship and be grateful every day.

"You only need to know my last name is Su."

Su Lang smiled slightly, "Now let everyone get ready, I want to let the clone start to act."

"Yes!"

"Thank you Senior Su!"

"From now on, the younger generation will never regret it even if they are crushed by their seniors."

He Yuanxin bowed once again before giving orders to prepare all the seventeen life planets.

Yu Gaochang also prepared the thirty-one life planets in the Heijiao area, and they would also be re-accepted into the life universe of Su Lang clone.

quickly.

Forty-eight life planets are all ready.

"action!"

With a thought in Su Lang, the clones immediately opened their life universe and collected natural life planets one by one.

Not long.

All the life planets were collected, and this star field became completely empty, leaving Su Lang alone in space.

"Next."

"There are two more fragments of the Black Dragon Star Territory!"

With a thought, Su Lang dispatched avatars one by one, rushing wildly in the predetermined direction!

Not long.

The second fragment of the Black Dragon Star Territory was also found.

The fragment of the Black Dragon Star Territory is smaller, and there are only twelve natural life planets.

Outside the Star Territory Fragment, there was also a quasi-no-god-level guard at Linglian Temple, who was directly killed by Su Lang like an ant.

Immediately after.

Using the same method, the twelve life planets in this fragment of the star field were conquered by Su Lang and put into the life universe of the clone.

"It's the third turn!"

"After this place, you can prepare to recover the complete Xiyun Star Territory!"

"However, the Xiyun Star Territory is ruled by the Tongtian Temple, and the strength is good. I am afraid I have to improve myself."

While sending his clone to the third fragment of the Black Dragon Star Territory, Su Lang recalled the information provided by Jiulian.

[Chapter 1814: Coincidentally Encountering Old Man Yaochi Yiran](#)

According to the information of Monk Jiulian.

Tongtian Temple has a quasi-primary level, and there is more than one.

Su Lang consciously had the Youtian Sword, which was a quasi-primary weapon that exceeded the same level, but his energy reserves were not enough for normal quasi-primary combat.

Therefore, one must improve one's true realm, obtain a more vigorous innate reserve, and condense higher quality distortion power.

at this time.

A clone arrived at the third fragment of the Black Dragon Star Territory.

Su Lang put the thoughts in his mind temporarily aside, and replaced him with the clone to come to this third fragment of the Black Dragon Star Territory.

"Oh?"

"This fragment of the Black Dragon Star Territory has a total of forty-two pieces!"

Su Lang looked around the fragment of the star field, and while revealing surprise, he stretched out his hand and pinched the Linglian Temple spy who was hiding in the sky to monitor.

The spies that Linglian Temple placed here did not react at all, and his eyes went dark, completely losing consciousness.

Simultaneously.

"Who would dare to trespass into the Black Dragon Jade Pool!?"

A crisp humming sound came from the fragments of the star field.

Immediately afterwards, the forty-two planets trembled and flew out forty-two powerful warriors.

The leader turned out to be a Sidu Godless Class!

In addition to this, there are three godless level and thirty-eight quasi godless level powerhouses.

These powerhouses came to the edge of the fragments of the star field, posing an unrelenting appearance.

"Good, not bad!"

Su Lang nodded in satisfaction, and was suddenly shocked!

Because he found that the headed Sidu Godless Grade was a bit familiar, and it didn't look like a normal living person!

"what's the situation?"

"How can you be familiar?"

Su Lang raised his eyebrows, thinking about it carefully, a name suddenly appeared in his mind.

Yaochi Yiran!

The sixty-sixth generation saint of Canglan Star Jade Lake Sanctuary!

Back then, I followed Su Lang's **** to explore the heritage left by Li Xianyang!

"It's you, Yaochi Yiran!"

"Unexpectedly, you have cultivated to the Sidu Godless level, and you have lived to the present!"

"No, it's not right, you should have used some special method to resurrect, otherwise you would not live for three billion years with the life span of the four crossing godless."

"Furthermore, your soul seems to have been damaged very badly, causing your consciousness to be greatly affected, but it doesn't matter, I should be able to save you."

The surprise on Su Lang's face grew more and more, how could he not be happy to see Canglan Star's acquaintances here!

And when Yao Chi Yiran heard Su Lang's words, her whole body trembled, and various scenes appeared in her eyes, which was exactly the scene of her getting along with Su Lang.

"You, who are you?"

A young girl flew out of Yaochi Yiran's body, looking at Su Lang in disbelief.

"Yao Chi Zhi Meng!"

Su Lang glanced at the girl's attribute panel and smiled, "You should know who I am. After all, you inherited the memory of Yaochi Yiran?"

"Langdi...Star Lord...Human Ancestor Su Lang!"

Yaochi Zhimeng's eyes widened and she lost her voice in horror, "You, you are the ancestor Su Lang!!"

Although horrified, although I feel incredible.

But Yaochi Zhimeng didn't doubt it, because through various details, she had already determined that the person in front of her was definitely Su Lang.

"Haha!"

Su Lang smiled happily, "You tell me, after I return to the boundless universe, you are still the first person to believe in my identity!"

"You are really an ancestor!"

"Jimeng, a descendant of the younger Yaochi, knock on the ancestor!"

Yaochi Zhimeng knelt down with excitement and bowed deeply to Su Lang.

"stand up."

"From now on, just call me Langdi."

"I am really happy to see you."

"You now have a relatively pure human blood. It seems that Yaochi and the human intermarried more frequently."

Su Lang helped Yaochi Zhimeng up and said with a smile.

"Yes!"

"After you disappeared, your subordinates, including the ancestor of Yan Fa of the Yaochi tribe, elected Lord Yan Hengxing for the event, and started to develop Canglan Star uphold your will."

"The Yaochi ethnic group was able to intermarry with the human race on a large scale because Yan Fa's ancestor was your old tribe. Later, their cultivation qualifications were generally greatly improved!"

Yaochi Zhimeng was talking about the past, and Su Lang suddenly remembered the scene when he had just entered the gate of exile from Blue Star.

[Chapter 1815: Meet your Majesty Langdi!](#)

At that time, he updated the Five Elements Heaven and laid the foundation for special practices such as the spiritual Internet.

The Blue Star Terran also brought a large amount of dug up 'antiques' into the spiritual Internet, and novels, TV, comics, and even Ivy have been cracked.

This is the starting point for the development of Xinghai Domain!

Originally, Su Lang planned to find Chu Xiaobei and others and then return to develop on his own. He didn't expect an accident that caused the Xinghai large area group to pass three billion years.

At the beginning, the small Wuxingtian Internet has also developed into a super star field Internet covering 72 star regions, frantically promoting the development of star regions...

"correct."

Su Lang withdrew from his memories and pointed to Yaochi Yiran and said, "Yaochi Zhimeng, what is your relationship with Yaochi Yiran, is her descendant?"

"Return to your Majesty Langdi!"

"Yiran's ancestors were never married and had no children."

"The juniors are naturally not descendants of Yiran's ancestors, but descendants of other ancestors of the Yaochi ethnic group."

"I heard that you refined a special pill at the beginning, so that Zhimeng's ancestors could breed offspring, otherwise Zhimeng would not be born."

Yaochi Zhimeng's face was full of excited smiles.

"Haha."

"I didn't expect you to know these secrets."

Su Lang smiled slightly, "By the way, is the current state of Yaochi Yiran caused by the methods you researched?"

"Return to your Majesty Langdi!"

"It is a means created by Si Yuxiang and other predecessors, the inheritor of Emperor Xuanyu."

"It is said that it was influenced by the peculiar means of 'dirty rebirth' in the anime of ancient times that aura was born and was able to create this way of resurrecting the dead."

"The ancestor of Yiran has actually fallen for 1.1 billion years, and has been guarding the Yaochi Clan after his resurrection."

"But as time goes by, the mentality of Yiran's ancestors has become more and more blurred, and I need to rely on other people to assist in manipulating the body, so I will be in the body of Yiran's ancestors."

Yaochi Zhimeng explained word by word, that seriousness is simply a good student.

"That's it."

Su Lang nodded, came to Yaochi Yiran's side, and patted her on the shoulder.

"His Majesty....."

Yaochi Yiran's eyes trembled, and he murmured hard.

"Come, eat it."

Su Lang smiled and fed Yaochi Yiran a pill.

That is a precious no-god-level healing medicine that can heal both body and soul injuries.

The pill will melt in your mouth.

The majestic medicinal power quickly spread to Yaochi Yiran's limbs and soul.

Immediately after.

A little light condensed in Yaochi Yiran's eyes.

Su Lang once again took out a pill and fed it to Yaochi Yiran.

This pill is different from the previous one, but it complements each other. Taking it together can produce more significant effects.

It is another huge force spreading.

The light in Yaochi Yiran's eyes became brighter, and the divine light became more spiritual.

next moment.

"Yao Chi Yiran pays homage to His Majesty Langdi!"

Yaochi suddenly knelt in front of Su Lang, crying with joy.

For Su Lang, he left Canglan Star for less than a month, but for Yaochi Yiran, three billion years have passed.

Goodbye Su Lang, she couldn't control her emotions at all.

"Get up quickly."

"You, who could only control a god-level part in the sea of sky, have grown to the present level. Congratulations."

"You can take these pills, which can repair all your injuries and make you live a true second life."

Su Lang smiled slightly, then took out some pills and handed them to Yaochi Yiran.

"Thank your majesty for the reward!"

Yaochi Yiran turned out the pill, but found that Su Lang had covered his forehead with his hand, and his heart trembled.

Immediately after.

A majestic message flowed out of her mind and imprinted into her soul, but it was a godless technique.

The key is that she has completely mastered this technique.

It's like having practiced for countless years, with a thorough understanding of attainments, superb skills, and almost able to bring forth new ones.

"Don't be surprised, it's just a little trick."

"This "Withered Wood Condensation of the Source of Life" is most suitable for your current state, and it is multi-purpose."

Su Lang smiled and retracted his hand, and immediately asked, "In three billion years, many people must have fallen. Who are still alive now?"

[Chapter 1816: I will make them pay](#)

Yaochi Yiran naturally knew who Su Lang was asking.

She tried her best to suppress the horror in her heart that she suddenly mastered the Godless-level technique, and then slowly spoke.

"Most of the old ministries around your majesty have fallen."

"However, with the exception of a few people, many people, like me, were resurrected using secret techniques created by Si Yuxiang and other daoists."

"And Master Yanxingxing has cultivated all the way to the quasi-primary level, and is still guarding the Xinghai large area group."

"In addition to this, there are eleven great abilities at the junior level, including Master Anxin, Master Xiao Ning, Emperor Baiyue Zhuxin, Master Zhu Lan, Master Si Yuxiao."

"The Jiudu Godless Grade has 49 great abilities such as Master Void, Master Yuehong, Master Qingqiu."

"In addition to this, there are other godless grades close to five thousand!"

"Unfortunately, under the attack of Tongtian Temple, many people have fallen again, and the Black Dragon Star Territory governed by Yaochi has also been shattered."

"Predecessors and fellow daoists before or before the war, I don't know how many are still there."

Yaochi Yiran spoke clearly, with some worries in her words, but she believed that with Su Lang, Xinghai Great Region would surely defeat the enemy!

Because three billion years ago, Su Lang left the word invincible in her heart!

"Haha!"

"Not bad, there have been so many quasi-primaries."

"Although the number is far less than the Ship of Ten Thousand Domains, it has been developed for countless years with the timeline of the Ship of Ten Thousand Domains!"

"In contrast, the development speed of the Xinghai domain group is much faster than that of the boat of ten thousand domains!"

"The guy Yanxingxing was still a quasi-sage at the beginning, but he also came to the top. I didn't see him wrong."

"There are also Si Yuxiang and the others. They are also good. They can actually study such wonderful resurrection techniques. This is much more powerful than the road of incense!"

Su Lang was very happy after hearing Yaochi Yiran's description, and praised him again and again.

I learned that so many acquaintances are still alive.

While Su Lang was somewhat relieved, he also wanted to return to the Xinghai Region even more urgently.

"Yao Chi Yiran."

"Now go and prepare the creatures on those forty planets. I want the clone to stay on the planet."

"Before this, I have gathered three fragments of the Black Dragon Star Territory, a total of sixty planets, plus the forty-two planets you have here, it is 102 planets."

Su Lang smiled and asked, "By the way, how many life planets have you developed in the Black Dragon Star Territory?"

"A total of one hundred and sixty-nine."

"More than 30 of them were completely destroyed during the war, including the most important star Yaochi."

Yao Chi Yiran replied, her expression a little dim and sad.

"I will make Tongtian Temple pay the price!"

A hint of killing intent flashed in Su Lang's eyes, and then he whispered softly, "Go, take the life planet here, I am going to kill the Tongtian Temple and conquer the Xiyun Star Territory!"

"Yes! Your Majesty!"

Yaochi Yiran's expression was refreshed and his face glowed.

Immediately, Yao Chi Zhi Meng, who had a strong adoration for Su Lang and was excited, gave instructions.

Not long.

All forty-two natural life planets were prepared, and then they were taken into the universe of life by Su Lang as a clone.

but.

Everything that happened outside was actually seen by the three daughters of Chu Xiaobei.

Like Su Lang, they all understood the huge changes in the Xinghai Region, experienced shock and horror, and then aroused their worries.

I was very excited when I saw Yaochi Yiran.

At the beginning, Yao Chi Yiran was on duty in the Sea of Sky, and he had contact with the three of them, and was a very familiar old friend.

Therefore, Chu Xiaobei, Ji Ruxue and Murong Xianxian deliberately asked Su Lang to take Yaochi Yiran and Yaochi Zhimeng into the Soul Chasing Palace.

Immediately after.

The three daughters of Chu Xiaobei took Yaochi Yiran to ask questions, and learned about the explosive development of the Xinghai area and various novelties.

They were suddenly excited and envious, and some small regrets, regretting that they didn't realize those very interesting things.

And Yuqing, Bi Ye Lin, Su Ling'er, Xinzheng Monk, Mo Lu and others heard the narration of Yaochi Yiran and Yaochi Zhimeng, and they were extremely shocked.

Everyone also understood the difficulties of the Xinghai domain group, and they all expressed their willingness to contribute their little strength to the Xinghai domain!

[Chapter 1817: Today is a day of taking drugs!](#)

And just when Chu Xiaobei and others were talking in full swing.

Su Lang has returned to Linglian Star.

Master Jiulian and the main members of the Linglian Temple were all in Ling Chi himself, and he dared not stop for a moment.

The blood they shed has formed a large lake, which is very miserable.

"Before killing the Tongtian Temple, I will deal with you!"

Su Lang glanced at these people coldly, and immediately began to sort out the pill and various alchemy materials he had obtained from the Ship of Ten Thousand Domains.

From Hao Xingren and other two hundred and one big men.

Su Lang received a large number of godless-grade pill, even quasi-primordial pill.

There are all kinds of these medicines!

What cultivates spiritual power, cultivates spiritual power, cultivates the physical body, expands the universe of life...

It is also used in battle, which can temporarily increase defense, attack, body speed, attack speed, or attach other beneficial states.

Of course, many are used for poisoning.

Sometimes a poison pill can kill a large number of enemies at once, effortlessly and effortlessly, absolutely praise!

"Hey!"

"It's time to take a wave of medicine!"

Su Lang smiled a little excitedly, then took out the pill and swallowed it into his abdomen.

Suddenly.

The long-lost pill power is full of limbs and hundreds of skeletons, and then it is refined by the one-key practice function!

The golden cultivator's body suddenly rose a little!

"Cool!"

"Come again!"

Su Lang let out a breath of turbid breath, and then swallowed another godless level cultivation medicine.

The little cultivator immediately turned golden again.

Back and forth.

Soon the cultivator villain completely changed from white to golden!

"Ding! The sea of repair is full, do you break through?"

"Break immediately!"

Su Lang gave the order without hesitation.

This time, the place where the soul body merged with the soul universe was changed to a lung!

"It should be merged in the order of the opened universe of life!"

Su Lang silently analyzed, and then focused on observing his lungs.

I saw that the first lung soul body cell began to merge with the Qiming Life Universe, and in an instant it became a space crystal wall cell.

Immediately after.

The second, third, and fourth...One by one, the soul body cells merge with the Qiming universe.

When the breakthrough is complete.

The soul body cells in the entire lung have completely integrated with the Qiming universe!

All the hexapod cells have become regular dodecahedral space crystal wall cells, which contain a huge space that can hold a large amount of energy and transform it into twisting force.

"These crystal wall cells are next to each other, like small worlds."

"I'm going, how is this a bit familiar? It's a bit like a crystal wall universe!"

"Think of my heart or lungs as a universe, then they are a crystal wall universe with a main world and countless crystal wall small worlds!"

Su Lang's eyes rolled, and he was a little excited for his whimsical ideas.

He also thought of the "Hengsha Boundless World Record" he had practiced. Judging by the name, it is very likely that it is also a way to practice multi-world universe!

Of course, this is just speculation.

Before the completion of the "Hengsha Boundless World Record" training, everything is unknown.

At this moment.

The lungs have completely integrated with the Qiming universe, and Su Lang has officially broken through to the Sidu Godless Level!

But this did not end.

Su Lang looked at the godless-level cultivation pills accumulated in the storage space, and couldn't help but raise the corner of his mouth.

Immediately after.

Time passed slowly in the drug practice.

Pieces of immeasurable perfect quality godless-level pills were swallowed by Su Lang and turned into cultivation bases.

After breaking through again three times, he temporarily stopped, and the real realm reached the Qidu level!

But it's still endless!

The reason why he stopped temporarily was because Su Lang felt that compared with the increasing energy, his soul spirit might not be enough.

then.

Su Lang took out a large amount of elixirs to boost mental power and slammed!

Not only that, he also uses "Drunken Dreams" to exercise his mental power, further purify it, and improve the quality of mental power!

In this way, under the dual effects of pill and gong method.

Su Lang's mental power soon reached a level that was difficult to continue to improve with all the existing methods!

"The spiritual power coverage has reached one trillion li!"

"At this level, it is almost a top-notch existence among the godless class!"

"Even I can use my mental power to slap the weak Godless, but it is easier and more cost-effective to use twisting power!"

Su Lang felt his enormous mental power, and a satisfied smile appeared on his face.

Immediately, his gaze fell once again on the pills that had improved cultivation.

Today is a day of taking drugs!

[Chapter 1818: Breakthrough, quasi-primary](#)

One, two, three...

Badu without God Pill, Jiudu No God Pill, Quasi-Taichu Pill...

A large number of different levels of cultivation pills were swallowed by Su Lang again.

Countless majestic medicinal powers turned into a large number of cultivation bases, constantly filling the sea of cultivation bases.

When all the pills have been taken.

Su Lang finally broke through three times again, reaching the quasi-primordial realm!

"Quasi Beginning Realm!"

Su Lang stretched out his right hand, and a twisting force rose in his palm, which was already a quasi-primary level twisting force.

He closed his eyes and looked at himself.

From the dantian to the five internal organs and then to the four poles, the universe of life in the ten directions has been completely integrated with the soul body!

The total number of fused crystal wall cells reached eighty-two gai!

but.

Su Lang found that his life universe had completely merged with his soul body.

However, there are still a large number of cells in the soul body that have not become crystal wall cells.

That is, the parts other than the pubic area, the five internal organs and the four poles, such as the ribs, spine, and skull, have not been fused.

At this time, the fused 82 gai crystal wall cells accounted for only half of the total number of cells in the body!

"Next, is to expand the universe of life!"

"Then continue to fuse the soul body and the soul universe until all the cells become gold coin cells, completely transformed into the world!"

"Finally, if you master the rules of time, it is estimated that you can rise from the quasi-primordial realm to the real primordial realm!"

Su Lang thought and analyzed silently, and a smile was slowly drawn at the corner of his mouth.

Regarding the time rule, there is almost no need to worry!

All you need to do is to complete the practice of three time-related exercises such as "Moment of Eternity". Not to mention the time rules, even the time avenue may be condensed.

The only difference now is the life universe!

Those who have lived for billions of years have a lot of time to do extra work to expand the universe of life.

For example, using a technique similar to "Chaos and Dark Eclipse" to expand the universe of life to a great extent.

In addition, their cells are far less than Su Langduo, and the gap between the size of the living universe and the number of cells is very small.

Even their soul body cells are smaller than the size of the life universe.

Therefore, apart from the influence of time rules, their breakthrough difficulty is less than that of Su Lang.

However, Su Lang has more crystal wall cells, and the amount of conventional energy contained is far more than 10,000 times!

Coupled with the fact that the crystal wall cells are equivalent to the generating machine of the twisting force, the number of twisting forces that Su Lang can condense is also thousands of times more than that of the same level of Quasi Taichu!

In other words.

Su Lang's ceiling ceiling in the quasi-primary period has exceeded the ordinary quasi-primary period by a lot!

"system!"

Su Lang's eyes flickered, "Open the property panel for me!"

"really!"

"The attack realm is better than the same level, and the endurance level is more than the same!"

Su Lang looked at his attribute panel and couldn't help but draw a satisfied smile at the corner of his mouth.

"Such strength."

"If you use the swallowing clone function to swallow a full forty clones, regardless of the time rule, you should be able to reach the realm of the beginning!"

"The only variable is the time rule! Of course, Tongtian Temple does not exist at the beginning level."

Su Lang smiled slightly, with a hint of murder in his smile.

Soon.

He came directly to the side of Jiulian's chair!

[Chapter 1819: Pinch as you want](#)

"The servant knocks on the Lord!"

When Jiulian saw Su Lang, she knelt down and kept kowtow.

But even so, he did not stop being too late to himself, which shows the horror of Su Lang's Mingguang Ten Thousand Realms!

"You don't deserve to call me the lord."

Su Lang glanced faintly at the presiding officer of Jiulian, then waved his hand to lift the bright world from him.

Suddenly.

A strange light flashed through Jiulian's eyes.

However, he did not make any movements, but continued to kowtow and Ling Chi's own movements.

"Ha ha!"

"Very smart, and I know how to please me in this way."

"Unfortunately, you have done too much damage to the creatures of the human blood, and you have caused countless damages to the creatures of the large star domain."

A sneer appeared at the corner of Su Lang's mouth, "How can I bypass you if you commit such a terrible mistake?"

"no, do not want!"

"I beg your lord to spare a lot of small ones, small ones are willing to undercover for you, Tianmi Continent!"

When the host of Jiulian was dismantled, her body was trembling with fright, and she could no longer maintain her composure to continue performing to Su Lang.

"just you?"

"A Wudu is just a mere five, and I also want to undercover Tianmi Continent."

Su Lang shook his head disdainfully, and with a light wave of his right hand, countless sword lights fell on Jiulian's body.

"what--!!"

Having lost the state of Mingguang Myriad Realms, Jiulian's presiding officer did not have the will to give everything to Su Lang and the perseverance, and directly screamed.

This is also the reason why Su Lang withdrew from Mingguang Ten Thousand Realms.

In order to make Jiulian host feel the intense pain!

"Except for you, the other culprits will also be punished as they deserve."

Su Lang thought, and the main members of the Linglian Temple, such as the monk Jie Scar, were immediately released from the Mingguang Ten Thousand Realms and suffered painful punishment.

but.

Su Lang did not torture them for long.

Feeling that the time was almost up, he pulled out his soul and threw it into the void dragon vein heaven.

"As for the remaining people, there may be salvation, so let Xinzheng solve it."

Having dealt with the main members of Linglian Temple, Su Lang, the rest of them, was too lazy to do it himself, and directly called out Monk Xinzheng.

"Friend Su Lang!"

Monk Xinzheng came out of the Soul Chasing Emperor Palace and saluted Su Lang.

But only halfway through this ceremony, he froze there!

Because Monk Xinzheng discovered that Su Lang's cultivation base was completely invisible to him!

"Do you think you can't see through me."

Su Lang smiled faintly, "My current cultivation base has reached the realm of Quasi-primary Beginning."

"Pretty early!!"

Monk Xinzheng said in horror, "Could it be that this is the reward for being a conqueror of samsara!?"

"Do not."

"To win the battle of reincarnation, you can only get a chance to grow."

"Not only that, but it also has to pay a huge price and bear an unusually heavy responsibility."

"I won't tell you more. The reason I called out was because there are some monks who need you to tune and teach."

As Su Lang spoke, and waved his hand, a large number of monks appeared in front of Xin Zheng.

"That's it!"

Monk Xinzheng nodded in thought, "These monks, I will guide them to the right path and comprehend the true Buddhist principles."

"Then trouble you."

"You will live on this planet these days."

Su Lang smiled and said, "If you have any needs, just speak up, and my clone will tell me."

"This, is this in the inner world of your clone?"

Monk Xinzheng asked in surprise, obviously a little unbelievable.

According to his measurements, the size of this living universe is terrifying, at least ten times larger than his own!

"You forgot that my clone is as strong as me?"

The corner of Su Lang's mouth twitched, and he waved his hand, "Don't say anything, I will destroy the Tongtian Temple, and soon you will get more monks in need of education."

"Tongtian Temple!?"

"That's a force at the quasi-primary level, be careful!"

Monk Xinzheng found some information from his memory and said to Su Lang with a serious expression.

"Do not worry."

"Tongtian Temple is a ball of cotton in my hands, I can pinch it as I want!"

Su Lang smiled, and his body instantly disappeared from the place.

appearing again.

This is the broken space in the Yaochi District of the Black Dragon Star Territory.

"Recover!"

Su Lang waved his hand, and the clones beside him waved at the same time!

Suddenly, a large amount of space power, twisting power and other various means acted on the residual domain, making it melt into the boundless universe again soon.

For Su Lang.

The Boundless Universe is equivalent to the Canglan Star at the beginning. It is damaged, and naturally needs to be repaired if it has sufficient capacity.

Finish it all.

Su Lang opened the star map, determined the location of the Tongtian Temple, and began to dispatch the avatar incarnation on the way.

at the same time.

In the Xiyun star field.

This is a golden star field, with countless auspicious clouds forming a swirling golden nebula, slowly rotating in the lonely space.

In these golden nebulae, there are planets exuding peaceful atmosphere.

just.

The planet is not peaceful.

Countless human blood creatures are forced to offer everything they own, leaving only a trace of resources to survive, and even their souls no longer belong to them.

The goal of their dedication is to be a master of 'sorrowful heaven and pity for others'.

Since the Xiyun Star Territory was knocked down by the Tongtian Temple from the Xinghai Large Territory Group, countless creatures within it have suffered invisible terror.

"Did you find it?"

"The core information about the Xiyun Star Domain Internet!"

On Xiyun Star, among a golden pagoda that soars into the sky, a black-faced monk with a gloomy look asked coldly.

"Report to the abbot!"

"Still not found."

"The guards of the last generation of Xiyun Star Territory destroyed everything, and all the strong who knew important secrets also fell in a suicide attack."

"The human blood creatures we converted know about the Internet of the Xinghai domain and do not know why."

"They have not grasped the wisdom of countless creatures condensed in the Xinghai domain group Internet."

"Those high-level exercises all need to make a significant contribution to redeem, and their qualifications are not enough."

"..."

A skinny old nun stood not far from the black-faced monk, shaking her head helplessly.

"Never mind."

"We know a lot about how to build the Xinghai domain group Internet."

"The recently built Buddha Heart Internet has obviously collected much more incense than before, and it can be considered a big gain."

"When we completely lay down the Xinghai domain group, we will be able to obtain the crystallization of their wisdom accumulated over the past 3 billion years. At that time, it is also hopeful to break into the realm of the beginning."

The black-faced monk, the Abbot Tongtian stood up and nodded while pacing.

"Yes."

"Before a breath, my master just passed the news."

"The Xinghai large domain group appeared within the small thousand domain ring, staying for a whole day before being led by the turbulence of time and space to disappear again."

The skinny old nun nodded and immediately reported that she had just received information.

"Have you entered the small thousand domain ring from the boundless outer domain?"

"If you continue with this trend, you must enter the Greater Thousand Region Ring and then arrive at the Heavenly Misty Continent."

"The Heavenly Misty Continent has not been completely subdued, and it is not our Buddhism territory. It is best to destroy it before entering the Great Thousand Domain Ring."

"Let's get ready to act now, move the star field with the global Tianzutong to go to the small thousand-domain ring!"

The abbot Tongtian slowly asked, "Hui Jue Zheng Buddha, I also ask Master Benhuan to ask for help, and always deduce the position of the Xinghai domain group."

"At this time, it's about my Buddhist important matters, and it's even more about that person. Of course, my master will not slack off."

"If it weren't for Tianmi Continent to deal with important things recently, my master must attend, and she will come in person."

The nun Benhuan looked solemn and bowed her hands together.

"I understand."

Abbot Tongtian nodded, "Let's not slacken our efforts, and strive to solve this trouble as soon as possible."

at this time!

"Master, Linglian Temple has lost contact!"

"Using the Sky Eye, I can't see the scene on their side. The star field seems to be empty!"

A middle-aged monk appeared at the entrance of the Buddhist hall, a little eagerly said.
