[Chapter 1821: Disperse it all to me!](#)

"Zen lantern? Something happened to Linglian Temple?"

Nun Benhuan frowned, "Isn't it possible, Linglian Temple has already dealt with it almost, even the Linglian Star Territory has been established for so long, how can something happen suddenly?"

"I really can't get in touch."

"There was something wrong with Linglian Temple, and some strong people destroyed Linglian Temple."

"Its strength is at least above Qidu, otherwise Linglian Temple could not even be able to spread the news for so long."

Abbot Tongtian removed his magical powers, his expression remained unchanged, "It is probably the remnants of the Xinghai Great Region, don't worry about them, go down, Zen Lantern."

"Yes! Master!"

The middle-aged monk put his hands together and took his command, even if he turned around and left.

The Abbot Tongtian, together with Nun Benhuan, presided over the Global Tianzu Tong, preparing for a large-scale ultra-long-distance jump.

Global Tianzutong, in fact, is a new supernatural power produced by the integration of the Starland High-speed Rail, which combines the large area of the Star Sea, through the fusion of the Buddha's Supreme Magical Tianzutong.

Using the Global Sky Foot Link, you can take all the planets in the domain to jump.

And they have actually done this several times.

Whenever the Xinghai domain group appears once, they will chase with the Xiyun star domain.

Time passed slowly.

The entire Xiyun star field was enveloped by more and more dense golden clouds.

The planets that exude a faint golden light are connected by countless mysterious scriptures.

It contains Buddhist incense, twisting power, space avenues, and countless arrays. It belongs to a kind of terrifying magical power that integrates countless magical techniques.

Except for not involving time rules, this supernatural power has almost reached the real primordial level.

This is why Tongtian Temple is obsessed with the wisdom of the Xinghai domain group Internet.

Buzzing!

Huge spatial tremors were produced around the planets.

Above the planet, the weak creatures were driven to the pagoda and the Buddha prison, and those who couldn't enter it would have to be shaken to death!

In an instant, a large number of creatures died.

Immediately afterwards, a wave of terrifying spatial fluctuations spread in a ring from the planets to the surroundings.

These spatial fluctuations have formed a special echoing effect, forming a larger and vast space force.

Around all the planets in the entire Xiyun Star Territory, countless spatial rhythms were drawn by magical powers to build special transition tracks.

When the orbit is formed, it is the time of the star field transition!

But at this moment.

A figure appeared on the periphery of the Xiyun Star Territory, it was Su Lang!

"This is a global leap? A very powerful method!"

"It's a pity that you met me, the formation is in control, and you all disperse to me!"

Su Lang unfolded his vast spiritual thoughts, and touched those parts of the Quanyu Tianzutong that involved formation.

next moment.

All the formations were controlled by Su Lang and caused it to collapse directly!

Rumble! !

The entire Xiyun star field began to tremble crazily, those transition orbits that were being built directly dispersed, and countless spatial rhythm lines reintegrated into the void.

Global Tianzutong was destroyed.

"what happened!!"

"Global Tianzutong failed to activate, and our formations all collapsed!"

"This, this, what kind of formation is this?"

"..."

In the star field, on the planets, countless monks from Tongtian Temple made a sound of horror.

They were not shocked to be destroyed by the entire Tianzutong, because this is something that the quasi-primary warrior can do relatively easily.

What they were horrified was the peculiar method used by the other party to destroy the entire Tianzutong-destroy the formation!

Just a moment!

The formation they controlled was tampered with, and it collapsed directly!

This is the first time for everyone with such knowledge of formation.

suddenly!

"Who would dare to be wild in my Tongtian Temple?"

Accompanied by a loud but cold low voice, the abbot of Tongtian flew out from Xiyun star, and the horrible quasi-primordial aura instantly spread.

In addition to this, there are more quasi-primary beginnings emerging one by one.

Bonhwan nun, Zen lantern monk, five black corpses wearing Buddhist robes, and eight super giant Buddha statues with angry faces!

The sixteen quasi-prime ancestors flew out of the Xiyun star domain, and arrived in front of Su Lang in an instant.

[Chapter 1822: More than ninety quasi-primary clones!](#)

"The donor is... the ancestor?"

"Hmph, why do you pretend to be an ancestor and break into my Xiyun Star Territory without fear of death?"

The abbot Tongtian held a Jiudu Zen stick, and his black face was indifferent.

Tongtian Temple ruled the Xiyun Star Territory, so naturally he knew what Su Lang looked like, because he had seen and destroyed too many statues of Su Lang.

Behind him, the fifteen quasi-too junior powerhouses obviously did not believe that Su Lang was the ancestor.

They all thought that Su Lang was hiding his head and showing his tail, so they were disdainful, unleashing a terrifying aura and pressing down on Su Lang!

If it is an ordinary quasi-prime, facing the aura of sixteen enemies of the same level, the guard will be jealous, even cold sweat.

However, Su Lang was still calm and calm, his gaze fell far away to the stars in the Xiyun Star Region.

He seems to have heard countless Buddha names, but there are sorrowful crying and unwilling grievances hidden in the Buddha names.

"Relative to the Linglian Star Territory."

"Almost all of the surviving in the Xiyun Star Territory are human beings of mixed blood. At this time, the death of death is the slave of the slave..."

Su Lang's eyes narrowed slightly, and a dangerous light burst out.

"Can the donor not hear the poor monk speaking?"

"It seems that the donor lacks the root of wisdom and needs to take refuge in my Buddhism and comprehend the truth!"

Seeing that Su Lang did not speak, the abbot Tongtian made his voice even more forested, and his whole body exuded a trace of twisting force.

Nun Ben-hwan and other quasi-tai were motionless at first.

In their view, it was easy for Abbot Tongtian to clean up the opponent, and they did not need to act.

however!

"Tongtian Temple, died today!"

Su Lang looked around the Abbot Tongtian waiting for Quasi Taichu, and with a thought, all the clones appeared!

Including two clones of Li Xianyang and a full ninety incarnations!

Each clone has the strength of the quasi-primary level!

Although they don't have a life planet, they inherited Su Lang's crystal wall cells far surpassing the same level, and their true strength still crushes the ordinary quasi-prime!

At this moment.

Headed by Su Lang, the ninety-three majestic quasi-prime aura instantly tore the aura of Tongtian abbot and others to pieces, and pressed them to a frenzied expression!

"What...what!!!"

"More than ninety quasi-primaries, how is this possible!?"

"Run away!"

"..."

The self-confidence of Tongtian abbot and others was instantly wiped out, and even the world outlook and outlook on life were shattered.

The endless stormy waves almost shattered their hearts!

Nun Ben-huan and Buddhist monk Zen light mobilized Tianzutong to leave this star field without even thinking about it!

But they found that they couldn't do it at all!

Su Lang's avatars have completely surrounded them, and countless quasi-primary twisting forces formed a spherical partition, isolating all the surrounding void.

To use Tianzutong, they must create a gap in the partition formed by the twisting force.

but.

Faced with so many quasi-prime enemies, they simply couldn't do it!

"Do not!"

"This must be a dream, this is fake!"

"Even the most powerful Xinghai domain group is only a dozen quasi-primaries!"

"How can there be so many quasi-primary powerhouses in this remote and boundless outer realm!"

"..."

The monk Zen lantern and others looked pale, and the whole person was like falling into an ice cave, cold all over!

"What's wrong? Are you scared?"

"Don't you want me to convert to Buddhism and listen to the teachings?"

Su Lang looked around at the abbot Tongtian and the others, and a sneer was slowly drawn from the corner of his mouth.

"Who is the donor?"

"Do you know that my master is a too junior expert in Tianmi Continent, Huijuezheng Buddha!"

Nun Ben Huan took out a shattered white whisk with a horrified expression, and there was a faint smell on the whisk that made Su Lang feel very dangerous.

"The donor now retreat!"

Abbot Tongtian forced his composure and put his hands together in salute, "We... just assume that nothing has happened!"

"Nothing happened? What a joke."

"I am a human ancestor, and today I will avenge the countless tragic deaths of my Xinghai domain!!"

Su Lang squeezed his right hand, and the Youtian Sword suddenly appeared, a force far exceeding the distortion of the Quasi-primary Beginning of the same level formed countless sword auras, and instantly enveloped all the Quasi-primary Beginning of Tongtian Temple!

The surrounding ninety-two quasi-primary avatars also shot together, and the twisting force of the quasi-primordial beginning was like seawater flooding, flooding the entire battlefield!

"Whisk-Sleep!!"

Nun Benhuan screamed in horror, and the broken dust in her hand was completely wiped out, and a trace of the elementary twisted force went straight to Su Lang.

The Abbot Tongtian and other Quasi-Taichu also used various trump cards, and a large number of methods exceeding the same level broke out, resisting the twisting force of the surrounding tsunami!

And the little bit of too primary twisting power exerted by Nun Benhuan not only annihilated the massive amount of sword energy that Youtian Sword condensed, but also slammed Su Lang fiercely.

"Xing Cuan Yun He!"

Su Lang's thoughts moved, and the avatar in front of him immediately rose in aura, and instantly trembled billions of light years into the void!

"Too junior-!!!"

Nun Benhuan and the others were instantly horrified and their eyes violently opened.

next moment.

The avatar of Xing Cuanyun burst out infinitely quasi-primary twisting power, and it died with the twisting power of too primary!

Immediately after.

Abbot Tongtian and others were completely overwhelmed by the power of distortion, and accompanied by unwilling screams, a series of system prompts suddenly sounded!

[Chapter 1823: Destruction of Tongtian Temple](#)

Xiyun star field near the void.

The terrifying force of the quasi-prime primordial distortion flows back and forth in the starry sky like a tsunami.

But the twisting power that was enough to destroy the entire Xiyun Star Territory was firmly limited within a radius of 100,000 feet.

If a strong person sees through the huge spherical wall formed by this distorted force, he will see the quasi-primary strong ones whose will is destroyed by panic and despair!

The eight super-giant, angry-looking Buddha statues were torn into countless fragments in an instant, and the true spirit inside made a scream!

"Ding! You have obtained the Soul of the Supreme Emperor*1, the spiritual world of the Buddha*1, the golden body fragments of the Buddha statue*1000000, and the holy lotus jade*1156..."

"Ding! You have obtained the Soul of the Supreme Emperor*1, the spiritual world of the Buddha soil*1, the golden body of the Buddha statue..."

"Ding!....."

Immediately afterwards, the five black corpses wearing Buddhist robes were also annihilated in endless despair.

"Ding! You have obtained the Soul of the Supreme Emperor*1, the spiritual world of the Buddha's soil*1, the fragments of the Buddha body of the eternal world..."

"Ding!....."

Soon, it was the turn of the nun Benhuan, the monk of Zen lantern and the abbot of Tongtian!

The Zen Lantern monk was the first to break all the defenses, and his spirit was destroyed in an instant when he was frightened!

Nun Benhuan fell for the second time. She relied entirely on the whisk that her master Huijue nun gave her. At this time, the whisk was broken and she no longer had any support, and she stepped into the footsteps of the Zen lamp monk!

Finally, it is Abbot Tongtian!

"I am the abbot of Tongtian Temple in Tianmi Continent!"

"I am a disciple under the seat of Mi Ling Buddha in Tianmi Continent!"

"I am under the command of Emperor Yuanmingzhou!"

"..."

Abbot Tongtian is holding the Jiudu Godless Soldier, struggling to death in the endless wave of twisting power, constantly moving out of his background!

"Ha ha!"

"The one I killed was under Emperor Yuanmingzhou!"

Su Lang smiled disdainfully, and the Youtian Sword in his hand was severely cut down again, and a twisting force exceeding the same level immediately smashed the abbot of Tongtian with a broken sword!

Rumble!

Clang clang!

After the violent explosion sound, countless cracks appeared in the Jiudu Zen stick in the hands of Abbot Tongtian, and Qi Ling let out a scream.

The abbot Tongtian was also stunned by the sword light formed by a large amount of twisting power, and his blood was flying!

His horrified eyes are full of twisting power and sword light, his entire world is completely occupied, and there is no chance of resistance again!

"Dare to attack my Xinghai domain group!"

"Dare to enslave the countless human blood creatures in the Xiyun Star Territory!"

"Today, I will let you taste the evil results you deserve!"

Su Lang hovered above the void, looking indifferently over the abbot of Quantai Chu Tongtian.

"Do not!!!"

Abbot Tongtian roared unwillingly.

However, no matter how angry and unwilling, nothing can be changed.

Time passed slowly.

The vitality of the abbot Tongtian became weaker and weaker, and then was exhausted, stepping into the deadlock!

He truly and in detail felt the whole process of his life falling from his life to death, and his weakness, fear and despair continued to torment him.

Until death!

"Ding! You get the soul of the Supreme Emperor*1, the spiritual world of the Buddha*1, the soul of the Buddha*1000000, the holy lotus jade of the godless grade material*25656, and the fragments of the Youjique Zen stick*126... "

The system prompt came.

All the quasi-primaries in the Xiyun Star Territory have all fallen!

In the star field, a large number of godless powerhouses have witnessed this terrifying scene!

"The abbot has fallen!!"

"Oh my God, is that really an ancestor!?"

"Impossible, how can there be more than 90 ancestors!?"

"Don't worry about so much, run away, escape from the Xiyun Star Territory, and pass the news!"

"..."

A large number of Godless Grades were preparing to spread the news, only to find that all the formations in the Xiyun Star Region were fully deployed.

There are countless arrays that have risen out of thin air, covering the planets, completely isolating the contact with the outside world.

"Go, clean up the Godless Class!"

Su Lang thought, and the 92 clones and avatars immediately turned into 9,200.

They swarmed into the Xiyun Star Territory and began to clean up the main members of the Tongtian Temple and liberate the enslaved human blood creatures.

Suddenly.

Another burst of system prompts came.

Hundreds of godless souls fell into the storage space, as well as a large number of Xianyuan Emperor Yuan, some godless soldiers and various materials.

[Chapter 1824: Promoted to Emperor Dragon Terrace and Octal Shield](#)

Su Lang cleaned up the spoils on the spot.

Although Tongtian Temple said there were sixteen quasi-primary level combat powers.

However, the eight glaring Buddha statues are not real creatures, but fighting Buddha statues cast with godless souls and various Buddhist techniques.

The five black corpses wearing Buddhist robes are ancient monks who performed a 'pseudo-passion' using special secret methods.

They were supposed to sit down, but after using the pseudo-passage method, they could survive for a long time again.

The disadvantage is that they can't continue to practice, and the demand for Tiancai Dibao and Xianyuan Diyuan is also very small.

Sixteen quasi-primaries.

The only normal ones are Tongtian, Benhuan, and Zen lanterns.

And only the spoils obtained from them are the level expected of the quasi-primary level.

After an inventory.

Decomposing all the godless soldiers and weapon fragments, Su Lang obtained a full 180,000 godless souls and more quasi godless souls and the souls of the Great!

There are also many kinds of Godless Grade materials, and suddenly a lot of materials needed for the evolution of the Youtian Sword were searched.

In addition to the materials for the Youtian Sword, the materials for upgrading the Godless Dragon Platform and the Heavenly Eight-Edged Shield are complete!

"system!"

"First deposit all Xianyuan Diyuan into the balance!"

Su Lang was not in a hurry to evolve weapons, but to store funds first.

"Ding! The storage is complete, and the balance is 2.3 million Yuan, a superior Emperor!"

"It's nearly 200,000 more, which is not bad!"

Su Lang smiled slightly, and then took out the Emperor Dragon Platform and the Eight-Edged Shield and gave instructions, "System, retain the characteristics, and evolve the Godless Dragon Platform and the Heavenly Eight-Edged Shield!"

"Ding! Consuming Godless Soul*3868... Godless Dragon Platform has evolved into Liudu Godless Soldier!"

"Ding! Consume Godless Soul*3987...Tianjiao eight-sided shield evolved into Liudu Godless Soldier!"

Suddenly.

The two godless soldiers exude a more powerful atmosphere.

They have already reached five crossings, and they have been strengthened 4 times, and they have the power of nine crossings.

At this time it evolves again, and both have become quasi-primary weapons!

Although it's worse than Youtian Sword, it's better than ordinary quasi-primary weapons!

"Ao Bing thanked Master for his promotion!"

"Ajia, thank you Master, never let anyone touch the master's hair!"

"Silly you, what if the master wants to make friends with all the ladies?"

"Uh, this doesn't count..."

The two Qi Ling knelt in front of Su Lang and thanked them. They also chatted with each other jokingly.

"okay."

"I know your loyalty, go back to the body."

Su Lang was happy to see that they were familiar with each other, and smiled before letting him return to his body.

Suddenly.

Ao Bing flew into the body of the Godless Dragon Platform and hung from Su Lang's waist as a pendant.

Ah Jia also returned to the eight-sided shield of Tian Jia, forming a circular pattern on Su Lang's wide sleeves.

at the same time.

This Xiyun star field was also liberated by Su Lang's clones.

A large number of monks were escorted to the life universe of a clone and appeared in front of the monk Xinzheng.

"what!?"

"There are so many prisoners so soon?"

"Could it be that Su Lang has defeated Tongtian Temple? Hiss, how could it be so fast, this time is not enough to hurry?"

Monk Xinzheng was stunned, and he had no idea how Su Lang resolved the Tongtian Temple.

However, he also gradually got used to Su Lang's metamorphosis, knowing that it was not a metamorphosis that could be calculated by common sense.

After calming your mind.

Monk Xinzheng looked at the monks sitting endlessly below, and his expression became serious again.

"I waited for the Buddha to be cultivated, but I didn't know that one thought was good, one thought was evil, one thought became a Buddha, and the other became a devil..."

Xinzheng spoke slowly, and his voice spread across the entire planet. He wanted to bring all these monks back to the right path!

Even if these monks can't become a viable force against Emperor Mingzhou, they can't be a traitor to the boundless world.

at the same time.

After Su Lang counted the trophies, he came to Xiyun Star.

Xiyun Star is the main star of the Xiyun Star Territory, and it is very large, dozens of times larger than Canglan Star.

A part of the city on Xiyun star still retains the style of the Xinghai domain, similar to the main city in the summer that Su Lang built on the basis of the Canglan Star Yaochi Holy City.

[Chapter 1825: Collect another one hundred and fifty stars of life](#)

These cities are full of ancient Chinese architectural styles.

Su Lang couldn't help but feel moved when he saw it, recalling many pictures.

At this time.

Countless human blood creatures were carried by the clones to Xiyun Star, and they were safely placed on the ground.

They were enslaved by the Tongtian Temple and became the lowest level of existence, dedicating their everything daily.

At this time, he was rescued and liberated, and he burst into tears of excitement!

In addition, they recognized that the face of Su Lang's clone was the same as that of Renzu, so they became more excited and shocked.

At this time, they were all gathered here, looking at Su Lang, who was sitting on the cloud with a gentle face, couldn't help talking and shouting!

"Is it Renzu!? Is it really Renzu?"

"Ren Zu has returned from the lost time and space, and Ren Zu has returned to bless us!"

"Only human ancestors can easily destroy Tongtian Temple, human ancestors have really returned!"

"Hahahaha, we worship Renzu day and night, Renzu heard our heartfelt voice!"

"..."

As more and more people were discussing, the voice became louder and louder, and the atmosphere became more enthusiastic and high-pitched!

Countless human blood creatures knelt on the ground with excitement, shouting.

"Yeah, I'm back!"

"Today, the Xiyun Star Territory has returned to my embrace!"

"I will lead you to find the lost Xinghai domain group, so that the seventy-two domains of Xinghai will be complete!"

Su Lang looked at the human beings who were so excited and crying, and solemnly declared and promised.

"We are back in the arms of human ancestors!!!"

"Great ancestors, we will always follow your footsteps until we fall!"

"The Seventy-Two Regions of the Star Sea will eventually be restored, and the network of star regions will be rebuilt, covering every corner of the endless universe!"

"..."

Countless human blood creatures screamed excitedly.

Su Lang even saw a strong humane will rise, forming a cloud that ordinary people cannot see.

"You need to recuperate."

"Next, I will include all the planets in the Xiyun Star Territory into the Life Universe. You don't need to fight, just give me a cheer."

Su Lang smiled slightly, let the clones expand the universe of life, and collect the planets of life.

Immediately afterwards, the screaming human blood creatures were taken into the universe and placed on the planet.

quickly.

In the entire Xiyun star field, only one main star of Xiyun star remains in the boundless universe.

Compared with the Black Dragon Remnant.

The Xiyun star field is relatively complete, only 13 planets were lost in the battle, and the star field was not destroyed.

At this time, there are a total of one hundred and fifty life planets in the Xiyun Star Region.

Although the warriors above Emperor Wu were basically all sacrificed, and a large number of weak creatures died in the war.

But there are still countless intelligent creatures on the one hundred and fifty-one life planets.

At this moment.

Countless intelligent creatures once again settled on the planet of life and lived a safe and peaceful life.

They knew that they could not contribute in the battle, but they had to worship every day to provide Su Lang with incense.

Almost instantly.

Su Lang felt that countless incense aspirations have been integrated into his virtual spirit universe through the clones!

Plus four fragments of the Black Dragon Star Territory and the incense power provided by the creatures in the Linglian Star Territory.

At this time, Su Lang's virtual spirit universe already contained a lot of incense, which formed various objects and creatures, making it more and more like a complete world.

However, it is impossible to form a world with unlimited possibilities in a short time.

"The incense aspiration power of the virtual spirit universe is not very useful for the time being."

"Instead of making those incense sticks exist in vain, it is better to cultivate the Netherworld Dragon Vein Heaven Realm and promote the perfection of the [Netherworld·Seven Treasure Tree]."

"It's just that, maybe I can change my mind and merge the emptiness dragon vein heaven realm with the virtual spirit universe?"

Su Lang touched his chin for some thought, then his eyes lit up and decided to give it a try.

Just do it.

Su Lang immediately sat cross-legged, closing his eyes and looking inside.

Void Dragon Vein Heaven gradually appeared before his eyes.

Countless dragon veins spread in this world, forming long and narrow continents!

Countless incense creatures looted each other on the long and narrow dragon vein continent.

But neither side can defend, you seize it, I seize it, forming an endless loop of torture without end.

[Chapter 1826: Qibao Tree](#)

The former Jiulian host also became one of them.

In the process of plundering each other, these incense creatures will form peculiar aspirations, which will be used as raw materials to make the Seven Treasure Trees.

"Nothing Dragon Vein, Condensation!"

Su Lang used his methods, and the entire world of incense immediately turned into a small orb, just as it was originally condensed.

Immediately after.

Su Lang's thoughts moved, and the virtual spirit universe also appeared concrete, like a scroll with rich colors in front of him.

"Go, merge into one!"

Su Lang put the Void Dragon Vein Orb into the Void Spirit universe.

Suddenly.

It is as if a spherical ice cube fell into the hot water.

The surface of the Void Dragon Vein Orb was quickly melted by the space avenue, and its inner world quickly merged into the Void Spirit universe.

On the scroll of the virtual spirit universe, there is a vague colorful tree, which is the Seven Treasure Tree!

With the emergence of Qibao Miaoshu.

The countless incense that originally floated in the Void Spirit universe will immediately swarm toward it!

Countless incense aspirations have been integrated into the Seven Treasure Tree, making it clearer and clearer, as if it were going to come out of the picture scroll!

but.

Although the current Qibao Miaoshu is also very vivid, the details are still vague, and more incense and willingness are needed to improve it!

"It seems to be formed soon!"

"Seven Treasure Trees, super treasures that can't be brushed!"

"Well, after the Seven Treasure Tree is completed, I can try other treasures, such as the Chaos Clock, Zhuxian Sword, etc.!"

"..."

While thinking about it, Su Lang smiled expectantly!

Immediately after.

He took the Void Spirit Universe into his body again, and immediately called Yaochi Yiran and Yaochi Zhimeng out of the Soul Chasing Emperor Palace.

Chu Xiaobei and the others also followed, and staying in the Soul Chasing Emperor Palace was not a very comfortable thing.

"Wow!"

"The buildings here are so familiar!"

"It's very similar to the architecture of our main city in hot summer!"

"Yeah, it reminds me of the scene when I took the two of you shopping around. Yiran also bought a lot of clothes and jewelry with us!"

"Haha, really nostalgic!"

"..."

Chu Xiaobei Ji Ruxue and Murong Xianxian looked at the surrounding buildings, remembering many good memories like Su Lang, and they couldn't help chatting.

But Yaochi Yiran and Yaochi Zhimeng were shocked.

"This is...Xiyunxing!!!"

"His Majesty Su Lang has recovered the Xiyun Star Territory!"

"Oh my God, the Tongtian Temple was destroyed so quickly and the entire Xiyun Star Region was recovered. His Majesty Su Lang is almost countless times stronger than the entire Xinghai Region combined!"

"..."

Yaochi Yiran and Yaochi Zhimeng looked side by side at the city in front of them, their excitement was beyond words and could not be concealed.

"Yao Chi Yiran."

Su Lang's friendly voice came.

"Yi Ran is here, Your Majesty Su Lang!"

Yaochi Yiran shuddered slightly and turned to salute Su Lang, as did Yaochi Zhimeng.

"All the powerhouses in the Xiyun Star Territory have fallen."

"But their remnants should still exist in some corners of the planet."

"Therefore, I plan to try the secret technique of resurrection studied by Si Yuxiang and the others, and resurrect them all! Do you have this secret technique on your body?"

Su Lang helped Yaochi Yiran up and asked softly.

"Yes, Your Majesty Human Ancestor!"

"Here, remember to be very detailed!"

Yaochi Zhimeng yelled in excitement immediately, and immediately took out a storage ring and offered his hands to Su Lang.

"Ok!"

"Let me see first!"

Su Lang took the storage ring, opened it, and found a large jade slip inside, exuding a very powerful aura.

Just look at it and you can see the avenue of life and death almost manifested above!

"It seems that Si Yuxiang and Yuan Yue are very savvy."

"I don't know what kind of peculiar personality they have now become under the influence of the incense aspiration."

Some thoughts flashed in Su Lang's mind, and at the same time he recorded all the exercises in the jade slip in his mind.

This is a godless secret technique.

There are so many things involved and very obscure.

But for Su Lang, he only needs to learn by rote.

[Chapter 1827: Corpse Earth Origin Soul Reincarnation Technique](#)

"promise!"

"After reading it, I will return it to you."

Su Lang handed the storage ring directly to Yaochi Zhimeng.

"what!?"

"That's it!?"

"It doesn't need to be detailed...Ay, you are an ancestor, how can I measure you by ordinary people's standards, I'm so stupid!"

Yaochi Zhimeng was shocked at first, and immediately saw Su Lang's playful smile, and suddenly realized that he was making a fuss.

His Majesty Human Ancestor is a strong man who can recover a whole star field in a short time.

This level of combat power is already comparable to the original level!

With the insights of a high-level building from the beginning of the primordial stage, it is simply too simple to finish reading an exercise.

Of course, it will take some time to practice, right?

Yaochi Zhimeng thought so.

And Su Lang had already put the exercises on the vacant Wushu villain.

Presumably, with the current abnormal training speed of the martial arts villain, he will soon be able to finish the practice of this godless secret technique!

"Yiran, go, let's go shopping!"

"Yes, although the entire city is empty, it's good to walk around and relax!"

"Ling'er, Xiaomei, Ye Lin, Mo Lu...and you, Zhi Meng! Let's get together!"

"..."

Looking at the familiar architectural style, Chu Xiaobei and others couldn't help but dragged everyone to go shopping.

quickly.

There was no one running beside Su Lang.

"Hi, you guys are happy!"

Su Lang clicked the corner of his mouth, sat down on the spot, and began to take a serious...

In a blink of an eye, I don't know how long it took.

"Ding! "The Reincarnation Technique of Corpse Earth Origin Soul" has reached the founding level!"

The system prompt sounds.

A large number of exercises and uprights were immediately imprinted in Su Lang's soul, making him directly grasp it.

It can be said.

Now Su Lang is familiar with this secret technique than the founder of Si Yuxiang.

Because this secret technique was created by Si Yuxiang and all Xuanhu inheritors.

Each of them is responsible for one part, and cannot achieve the founding level in other parts!

"The Reincarnation Technique of Corpse Earth Origin Soul!"

"Using the soil formed by the dead body when the strong fell as raw material, summon the remnants of souls that have not yet dissipated, and revive them!"

"The principle seems to be quite simple, but it is very difficult to use, especially this kind of situation where you die without preparation."

"If you prepare a place to sit and transform in advance, the success rate can reach ninety-nine percent, but now, it's estimated to be only two to thirty percent."

Su Lang sighed in his heart, and he didn't know how many remnants of those strong men who sacrificed heroically still existed.

Take a breath.

Su Lang unfolded his mental power and began to search for 'corpse soil'.

As a quasi-primary level, and the strength of his soul exceeds that of other strong people, his mental power detection range has reached a radius of one trillion miles!

And the detection ability is also stronger.

Not to mention that there is a bonus for the "Kaiju Micro Mystery Act".

quickly.

Su Lang discovered the soil where the corpses of a large number of human bloodline creatures were fused, and many of them were of the Supreme Emperor!

"Resurrect as many as you can."

"Allowing them to live their second life happily is also a reward for them desperately defending the satellite sea large area group."

Su Lang smiled slightly, collected the corpses of the strong men that had been discovered, and immediately began a large-scale investigation again.

Not long.

The entire planet has been explored by Su Lang, once again collecting the corpses of hundreds of thousands of strong men.

It's not that Su Lang didn't want to resurrect those weak.

The key is that it is not easy to keep a corpse in a terrifying battle.

The overwhelming majority of the strong will be destroyed and turned into ashes, let alone the weak.

According to information provided by some human beings living in the Xiyun Star Territory.

The powerhouses of the Xiyun Star Territory insisted all the way by relying on the starfield array, and finally fought a decisive battle on the Xiyun Star. Almost all the powerhouses died here.

Su Lang also asked the clones to search on the one hundred and fifty life planets, but did not find a suitable corpse soil.

At this moment.

Su Lang brought the 600,000 pieces of corpse soil he found to the place where Xiyun Star had the most aura.

Soon.

Six hundred thousand copies of corpse soil were allocated to a large number of heaven, material and earth treasures, buried in the soil, and peculiar tombstones were erected on them.

What is written on the tombstone is not the name of the owner of the corpse soil, but a series of patterns.

After everything is ready.

"The Origin Soul Calling Spirit Secret Technique!"

Su Lang flew high into the sky, suspended above 600,000 pieces of corpse soil, his countless innate energy turned into a giant bell-like bell!

Immediately after.

The big clock shook slowly.

"Boom—!!!"

"Boom—!!!"

"..."

The peculiar bells that trembled the soul spread throughout Xiyun Star.

In countless corners of the planet, traces of remnant souls flew towards the big clock like swallows returning home!

[Chapter 1828: Origin soul corpse soil, the dead return](#)

quickly.

There are countless remnants of souls entering the sea like a hundred rivers into the sea into the source soul summoning the bell of Su Lang condensed.

The giant clock, which was originally translucent, has also become pitch black.

And there are countless black mists constantly surging inside, as if there are fierce beasts rolling and roaring inside!

"Yuanhunjing!"

Su Lang thought, another magical power unfolded.

The Yuanhun Zhaoling Great Bell immediately began to tremble slightly, and a strange force acted on the dark mist.

Not long.

The black mist disappeared, leaving only a translucent soul.

"where is this?"

"Am I not dead? No, I am dead, where am I now?"

"What happened to Xiyun star, did it finally block the Tongtian Temple, what about the Xinghai domain group?"

"I am not reconciled, I want to kill those monks who are heinous!"

"..."

Inside the big clock, countless remnants of souls recovered a trace of clarity, and immediately a lot of thoughts arose.

And at this moment.

"Source Soul Corpse Soil, the dead return!"

Su Lang pinched the tactics with both hands, a strange twisting force swallowed the big clock, and immediately wrapped the remnants of the soul into the tombstones!

Immediately after.

The peculiar red energy fused with the twisted power, soul and the shards of the Origin Soul Summoning Bell began to infiltrate the mysterious formation pattern on the tombstone, and flowed along the pattern toward the corpse buried in the new grave.

When all the energy is integrated into the corpse soil.

Click, click, click.

Each tombstone grinned with countless cracks, turned into fly ash and disappeared between the sky and the earth.

Su Lang was suspended in the sky, silently looking at the earth full of new graves, and waited silently.

After a stick of incense.

at last.

A hand broke out of the new grave, and then a woman slowly crawled out of it.

The woman's skin was delicate and tender, her face was youthful, her eyes were full of confusion.

"Who am I? I am Xue Keting!"

"But, where am I? Is this familiar breath Xiyunxing?"

"Didn't I die? Why did I rise again?"

Xue Keting's heart was full of countless questions, and then she noticed a young handsome and gentle man floating in the clouds.

"you're awake."

Su Lang looked at her gently, with a smile on the corner of his mouth and joy in his eyes.

"You are... the ancestor!!"

Xue Keting saw Su Lang's face clearly, and instantly opened her mouth, her eyes open in disbelief.

"it's me!"

Su Lang smiled slightly, "I have regained the entire Xiyun Star Territory, and you have also been resurrected by me using the Corpse Earth Origin Soul Reincarnation Technique."

"Master Renzu, it's really you!?"

Xue Keting called with excitement, tears came into her eyes immediately.

Resurrecting from death, and seeing Su Lang who had worshipped countless times in her life, how could she not be excited.

"Okay don't cry, put on your clothes."

Su Lang smiled and waved his hand gently, and a set of robe suddenly appeared on Xue Keting.

"Yes! Thank you, Lord Renzu!"

Xue Keting's face turned red, and immediately bowed down.

"They are going to wake up too."

"Next, you will dress them as soon as possible, and then you will be responsible for solving their doubts. After that, I have something to ask you."

Su Lang smiled and waved his hand, Xuan even closed his eyes and began to calm down.

The reincarnation technique of corpse soil source soul is a godless secret method.

Although he was at the quasi-prime primacy level, he could resurrect more than 600,000 powerhouses at once, and the cost was not small.

quickly.

A strong human being with human blood crawled out of the grave.

Before they came back to their senses, they found that they had an extra set of clothes!

Immediately after.

Xue Keting would run up to them and explain the cause of the matter to them.

"what?"

"That's Master Renzu!?"

"Master Renzu recovered the entire Xiyun Star Territory and resurrected us!?"

"But Master Renzu has disappeared for three billion years, how could he suddenly appear?"

"What about other planets in the Xiyun star field, why can't I see other planets?"

"The corpse soil source soul reincarnation technique is the top secret of our Xinghai domain group. The person who resurrected us cannot be a foreigner, it must be an ancestor!"

[Chapter 1829: Resurrect 600,000 strong people in one go](#)

"..."

Some of the resurrected powerhouses immediately believed in Xue Keting, and bowed down in a respectful salute to Su Lang.

Others have the same suspicions as Ayu back then, raising many doubts.

Of course, the joy of resurrection far overwhelmed their doubts. Although everyone had different opinions, they did not quarrel.

Gradually.

All of the more than 600,000 powerful men have been resurrected, one after another, Emperor Wu, Great Emperor, Quasi-Godless, and Godless-level standing on the grave looking up at Su Lang in the sky.

"Master Renzu!"

"All personnel have been resurrected!"

When Xue Keting came to Su Lang, she was originally Godless, so she was the first to resurrect.

So she has a great say in these 600,000 people.

"I understand."

Su Lang slowly opened his eyes, looked at more than 600,000 excited and suspicious strong men, waved his hand and released the clone!

Suddenly!

A quasi-primary level clone appeared in front of everyone.

"This is... the ancestor? Many ancestors!?"

"What the **** is going on, my god, every one is a human ancestor, and every one is a quasi-primordial powerhouse comparable to the abbot of Tongtian!"

"I see, Renzu is everywhere!"

"..."

When all the resurrected strong men saw Su Lang's clones, they were stunned with horror, and most of the suspicion in their hearts disappeared!

from their perspective.

Such an incredible thing can only be done by the legendary ancestor!

"These are the clones of the deity."

"The Xinghai domain group was attacked by the Tongtian Temple, the black dragon star domain was shattered, and the Xiyun star domain fell."

"And now, all the planets have been recovered by me and placed in the life universe of the clone. I will show you now."

While talking, Su Lang made the avatars open the channel of life universe, so that all the resurrected powerhouses could see the planets.

In addition, people like Yu Gaochang and He Yuanxin were also released to testify.

Now everyone had no doubts, only surprise, excitement and admiration were left in their hearts.

"The descendants of the human race will see Lord Renzu!"

"Unscrupulous children and grandchildren knocked on Master Renzu, please take us back to the Xinghai domain group!"

"Master Renzu..."

A statue of Emperor Wu, the Great, and the Supreme Emperor knelt down and continued to bow down, and a large amount of incense and aspiration power directly poured into Su Lang's virtual spirit universe.

"The deity will take you back to the Great Star Sea."

Su Lang looked around at the crowd and asked, "But now the Xinghai domain group is missing, do you have any clues available?"

The problem arises.

Everyone looked at each other, and then shook their heads blankly.

The Xiyun Star Territory was beaten away from the Xinghai Great Territory Group, and since then, they have lost contact with the Xinghai Great Territory.

"are not there?"

Su Lang frowned slightly, "It seems that I can only use the souls of Abbot Ben Huan and Tong Tian to search for it and give it a try."

at this time.

"Master Renzu! The juniors know a little clue."

It turned out that Xue Keting came to Su Lang with excitement on her face.

"Oh? Say it!" Su Lang was surprised.

"Return to Lord Renzu!"

"When the younger generation died in battle, their souls were more intact!"

"Therefore, Zeng dimly felt that the Xiyun star field had undergone several transitions in a short period of time!"

"And Tongtian Temple is definitely not reconciled, they are definitely hunting down the Xinghai domain group!"

Xue Keting said with a look of excitement, "So, the direction they are going must be the place where the Xinghai domain group once appeared!"

"This makes sense!"

"As expected to be the smartest supreme empress in the Xiyun Star Territory!"

"Well, as long as we find out where the Xiyun Star Territory has passed before, we can determine the way forward!"

"..."

The strong people talked and nodded in admiration.

"A good way indeed."

"You wait, I will investigate the place where the Xiyun Star Territory has jumped!"

Su Lang also smiled and nodded, and immediately dispatched the avatar incarnate, turning it into a goddess class, and dispatching it in all directions.

Not only the clones, but countless treasure hunt flying flying gliders have also been dispatched. They have collected the breath of the Xiyun Star Territory, which is more powerful than the clones.

[Chapter 1830: The direction of the Xinghai domain group](#)

At this moment.

Countless treasure hunting flying flying gliders and nearly ten thousand avatars are like a large net unfolding in the water, and their spirits are constantly scanning the surroundings.

I don't know how long it took.

A treasure hunting flying flying glider finally found a place where huge spatial fluctuations remained!

And there is still the breath left by the Xiyun Star Territory!

"Based on these two points, it has been possible to determine the direction of the Xiyun star field."

"But it's not enough insurance. You need to find a few points and verify it."

Su Lang touched his chin for some thought, and then let the clones and the treasure hunting flying flying fly continue searching around.

Not long.

One clone found the second place where the large-scale space transition remained, and sent a treasure hunt flying flying glider to see, and indeed, there was still the breath of Xiyun star.

The two points discovered so far and the position of Xiyun Star at this time are almost three points and one line, which can completely determine the transition direction of the Xiyun star field.

Two more points were quickly found, almost in a straight line with the current three points.

"That's the right direction!"

"When I first arrived in the Xiyun Star Territory, Tongtian Temple was planning to make a leap."

"The reason should be that they got the intelligence of the appearance of the Xinghai domain group!"

"The Xinghai domain group has just appeared, if I rush to it early, I will definitely find it!"

After some analysis, Su Lang nodded and determined the next plan.

Soon.

He informed Xue Keting and others about the matter, and immediately aroused worship again.

It's not easy to find the traces of the transition in the endless starry sky. For them, even if the traces of the transition disappeared, they might not be able to find it.

"Next I will take Xi Yunxing into the universe of life of the clone."

"If you want to visit other planets, you can tell me directly."

While talking, Su Lang released the clone again, and then expanded the universe of life, allowing channels to appear in front of everyone.

"Lord Renzu, the juniors are not from Xiyunxing."

Xue Keting said immediately, "The younger generation's home star is Xi Yuxing, I want to see Xi Yuxing."

"Okay, as you longed for."

Su Lang smiled faintly, and immediately took Xue Keting into the life universe in a certain body while waving his hand, and landed on Xiyu Star.

See the familiar planet.

Saw the countless familiar creatures.

Xue Keting couldn't help but burst into tears, she was back!

Next.

The rest of the powerhouses have also put forward demands, basically wanting to return to their home planet to see, and naturally there are those who stay on Xiyun star.

Su Lang satisfied them all and took them one by one into the life planet they wanted to go to.

quickly.

There are only more than 20,000 powerhouses left on Xiyunxing. They were originally born and raised by Xiyunxing.

"Time is running out, it's time to leave!"

Su Lang thought, a clone caught Chu Xiaobei and the others all in front of him.

The girls obviously still had some meaning, but they still obediently entered the Soul Chasing Emperor Palace.

Immediately after.

Su Lang asked the clone to install Xiyun Star into the universe of life.

So far, Xiyunxing's 151 natural life planets were all accepted by him.

"Clone dispatch!"

Su Lang hovered in the lonely void, constantly dispatching clones, chasing in the established direction.

During the period, the treasure hunt flying flying flying gliders were released from time to time to search to prevent leftover places.

And just when Su Lang constantly shuttled through countless star regions, looking for the star sea large region group.

In the Tianmi continent.

There is a super giant mountain that is extremely tall, almost comparable to a blue star!

This huge mountain is white, and the exposed rocks and the like are golden!

Under the sun's rays, the entire giant peak looks extremely sacred, and one can't help but worship at a glance.

even.

For the surrounding creatures in the range of tens of millions of light-years, this Joling Tianshan Mountain is their sun!

On the Juelling Tianshan, only a few small courtyards were built, called Hui Miao An, which was the cave house of Hui Jue, a strong man in the early stage!

The Buddhist monks in the Primordial Realm are the true Buddhas.

Compared with the group of monks in Leiyin Temple, they can only be said to be little novice monks.
