[Chapter 1831: Jiuling Tianshan Huijue Nun](#)

At this moment.

Bai Yingying, above the golden Jueling Tianshan, suddenly heard a cold snort with endless anger.

Originally the sun was shining brightly, and the sky of clear sky turned black in an instant!

"The Buddha is angry!"

"The anger of the Buddha is comparable to the anger of the world and the anger of the world!"

"Madam Buddha, calm down your anger!"

"..."

Countless Huimiaoan followers fell to the ground, their faces praying sincerely

Immediately after.

I saw a bald nun wearing a white gauze, white cassock and holding a white whisk, flying out of the yards on the Joling Tianshan, and onto the endless sky!

This person is the master of Master Benhuanni, Huijuezheng Buddha.

"Golden Lotus Sky Buddha Dharma, open!"

Standing on the sky, the Buddha of Huijuezheng straightly unfolded his dharma, and instantly turned into a giant Buddha statue surrounded by countless white lotus and golden lotus.

His face was smiling, and his face was full of compassion.

Countless believers within tens of millions of light-years saw this terrifying Buddha statue, and could not help but bow down to the ground more humble.

"My Buddha!"

"Ben Huan fought against the fall of evil spirits outside the land of Buddha, and needs your help to resurrect!"

Huijuezheng Buddha spoke lightly, his voice spreading throughout Huimiaoan's site accompanied by countless falling smallpox and rising golden lotus.

Soon.

She threw a broken relic from her hand and suspended it in the sky.

Immediately afterwards, a huge but weird wave suddenly spread out, and in an instant it enveloped the entire Huimiaoan area.

In this weird fluctuation.

The Buddha of Huimiaoan, who was kneeling on the ground, could not count clearly, showed his obsession and kept chanting scriptures in his mouth.

Immediately after.

Their souls started to burn, and then turned into countless other aspirations, rushing to the sky like backflowing water.

It is clear that the soul is burning.

However, they could not perceive any pain at all.

They who became Huimiaoan's Buddhists have fallen to the point where they are deprived of their pain.

And the more the soul is consumed, the brighter their eyes!

When the light in that eye reaches its extreme, it is when the soul is completely annihilated!

quickly.

There are countless Huimiaoan Buddha's souls completely transformed into aspirations.

His body also turned into a golden corpse, and was looked at with admiration by other Buddhists.

Such a scene, a normal person will definitely be terrified!

At this moment.

Countless Buddhists sacrificed their lives, condensing countless special Buddhist aspirations, and poured into the broken relic.

quickly.

The crack on the relic was repaired and became immaculate.

A trace of remnant soul and a drop of blood in the relic continued to merge and grow, and soon took on an embryonic shape.

however.

The chill in Huijuezheng's eyes grew stronger!

Because the true spirit of the Buddha heart of Ben Huan has not returned to the relic at all, and cannot be reincarnated.

The flesh-and-blood embryos condensed at this time have no use for eggs at all.

"Why is this!?"

"With the methods I used for Benhuan in advance, coupled with the protection of the fragments of Juexin's dust, Benhuan will not completely fall!"

"Even if the true fall, the true spirit of the Buddha's heart should have escaped, but now..."

Huijue frowned, "Could it be that the person who did it was too low-level and powerful? The original stage appeared in that group of mysterious people?"

Thought of this.

She could not help showing a trace of vigilance and jealousy in her eyes, and immediately used her magical powers to pass the news out.

Time passed slowly.

In a blink of an eye, half a day passed!

Su Lang's clone and the treasure hunt flying flying through countless spaces, passing through a large number of star regions, and seeing many unique cultivation civilizations.

of course.

Those cultivation civilizations are still based on martial arts.

Su Lang was very interested in these cultivation civilizations and dazzling star regions, but did not have time to travel.

Because the later the time, the more likely the Xinghai domain group to leave the current place!

And just as Su Lang frowned slightly because he could not find Xinghai Dayu Yuqing for a long time.

A strange giant twisted star field appeared in the field of vision of a certain treasure hunting flying glider.

It is like an endless gray starry behemoth, constantly twisting its body and moving forward slowly.

Su Lang noticed it for the first time, immediately dispatched the clone, and used the clone to replace it to reach the periphery of the Twisting Star Territory.

[Chapter 1832: This breath is a bit familiar](#)

"The power of time and space!!"

As soon as he stood firm, Su Lang noticed very strong temporal and spatial fluctuations.

Like time fluctuations, he has observed countless times in the turbulence of time in the land of exile.

And time and space fluctuations have also been observed several times, such as the gate of exile and the opening of the coffin of the Nine Dragons.

So he recognized the turbulence of time and space in the periphery of this distorted star field for the first time!

"The super-giant star field that envelops the turbulent flow of time and space must be the star sea large field group!"

Su Lang's eyes showed endless joy and excitement, "I finally found you, Xinghai Dayu, hahahaha, I'm back!"

He could not wait to return to the star field at this time to see the changes in the star field, especially the changes in Canglan Star!

In the chasing soul emperor palace.

Chu Xiaobei and the others also discovered Su Lang's excitement, and immediately understood that Su Lang had found the Xinghai large area group.

As a result, everyone immediately cheered again and again, very excited.

"set off!"

"Return to the star field!"

Su Lang's eyes flashed with a sharp light, and his figure flashed across countless spaces and came to the periphery of the turbulent flow of time and space.

At this time, the turbulence of time and space is obviously already weak by countless times, and the power is not very powerful.

The Abbot Tongtian who connected to Tiansi and other quasi-prime primaries, can also work together to break it, and infiltrate the large area of Xinghai.

Su Lang guessed.

When the temporal turbulence first appeared, it must be very terrifying.

Only in this way can Xinghai Dayu last three billion years!

In addition, during this period of time, forces such as the Tongtian Temple that had been altered in the Xinghai large area group were discovered, and they were helpless.

After the power of the temporal turbulence weakened, the timeline of the Xinghai domain group gradually returned to normal.

The turbulence of time and space as a protective cover was also greatly reduced, and it was breached by Tongtian Temple.

At this time, the turbulence of time and space can only be wrapped around the large area of Xinghai, and from time to time there will be an ultra-long-distance space leap.

Moreover, this spatial transition should be disordered at first, but then it became a single direction.

There are more and more star fields that I have crossed around.

Su Lang speculated that the location of the Xinghai domain group at this time is probably closer to the center of the boundless universe!

"I don't want that much!"

"As long as you enter the star field and see the star Yan and the others, many problems can be solved."

"After all, they are strong people who live from start to finish!"

Su Lang took a deep breath, and his thoughts moved, the sky and eight-sided shield suddenly flashed, condensing a large amount of twisting power to form a shield!

Immediately after.

Su Lang directly rushed into the turbulence of time and space!

Rumble!

A large amount of time and space turbulence crazily crashed on the shield formed by the eight-sided shield of the sky, consuming countless twisting power.

Moreover, the spatial turbulence in the space-time turbulence is easy to deal with, but the time turbulence is very difficult.

Su Lang did not grasp the time rules at all at this time.

There is almost no defensive ability in the face of time turbulence!

but.

Tianjia's eight-sided shield showed its terrifying characteristics at this time-100% to catch the attack!

Those time turbulences that act on Su Lang can obviously penetrate countless defenses and fall on Su Lang.

However, he was attracted by Tianjia's eight-sided shield, and all fell on the shield body.

Suddenly.

Ah Jiang was tortured to death under the turbulence of time.

He is also a flesh and blood creature at this time, and he has a lifespan, so he will be constantly cut back in the turbulence of time.

Fortunately, as a flesh and blood creature sublimated as a weapon, Ah Jiang's lifespan is many times longer than that of the general quasi-taichu.

And the power of time turbulence is not very powerful, so the reduction of lifespan can only be said to be a drop in the bucket.

But just as Su Lang traveled through the turbulent time and space quickly.

Rumble!

A terrifying attack suddenly came!

This attack unexpectedly took advantage of the surrounding space-time turbulence and gathered them together, exerting a combat power far surpassing ordinary quasi-tai!

Tianjia's eight-sided shield blocked this attack, and the shield formed by its twisting power unexpectedly showed countless cracks.

But then, the second attack followed!

"what!"

"This breath is a bit familiar!"

Su Lang raised his eyebrows, pinched with one hand, and the Youtian Sword appeared in his hand, slashing towards the front!

Suddenly.

The twisting power of Youtian Sword that was full of endless destructive power offset the opponent's attack.

At the same time, the figure that launched the attack also appeared in Su Lang's vision!

[Chapter 1833: Gu Linge, it's your kid](#)

"who!?"

"Dare to trespass into the Xinghai domain group, today I must...Senior Su Lang!!!"

The figure in the turbulence of time and space rushed to the vicinity of Su Lang fiercely.

"Hahaha!"

"Gu Linge, I didn't expect it to be your kid!"

"Yes, I have become a quasi-prime now, not bad, not bad!"

Su Lang looked at the young man whose eyes were about to fall out of horror, and suddenly laughed.

The person here is Gu Linge.

That is, the talented warrior who Su Lang rescued from the cicada dragon star Yuan Jiawan at the beginning, the disciple of the supreme emperor Qi Yunkai.

"You...you are really Senior Su Lang!?"

When Gu Linge saw Su Lang say his name, he burst into surprise.

"Yes!"

Su Lang smiled, "Where is your master Qi Yunkai?"

"Master he..."

Gu Linge's face darkened, and he whispered, "Seriously injured and dying..."

But it's halfway through.

His surprise was slowly suppressed by the doubts in his heart, and a trace of vigilance and fear appeared in his eyes.

"Senior Su Lang, is it really you?"

"You obviously went to the place of exile. The time flow there is ten thousand times that of the Xinghai area."

"It stands to reason that 30 trillion years have passed since the Land of Exile, how could you still be alive?"

Gu Linge narrowed his eyes, "Could it be that you are pretending to be, you are not Senior Su Lang at all!"

"You have this vigilance, I am very pleased."

"I'll explain it to you, after I go to the exile..."

Su Lang smiled faintly, and Xuan even explained the ins and outs of the matter to Gu Linge.

Immediately afterwards, he brought up the scene where he was rescued from Yuan Longlie and others, and the details were not bad.

This immediately made Gu Linge's vigilance dissipated again.

Seeing this scene, Su Lang was ready to call out Chu Xiaobei and others, and by the way call out the clone again, let Gu Linge take a good look.

But at this moment.

"Gu Linge!"

"Who broke into our Xinghai domain group? Have you killed it!?"

"Hey, what are you doing without doing anything, can't you beat it?"

"..."

Two human figures flew over from the turbulent time and space in the distance, with some peculiar shields on their bodies, which could block the erosion of the turbulent time and space to a certain extent.

Because Gu Linge was the first to discover the strangeness here, he took the lead.

They also immediately supported it, and it took only two sentences to feel this, and I have to say that the efficiency is really high.

And these two people turned out to be quasi-too junior strong.

Moreover, Su Lang didn't know him, it was a rookie who grew up later.

"Not bad!"

"Yan Hengxing is indeed suitable to be a leader."

When Su Lang saw these quasi-primaries, he immediately gave Yan Xingxing a compliment in his heart. at the same time.

"Lin Wu, Jiang Xuan, you are here!"

"Look at who is back, it is Senior Su Lang, Master Renzu!!"

Gu Lingge turned to look at Lin Wu and Jiang Xuan who were flying over, with surprise and excitement on his face.

"what!?"

"Master Renzu!?"

Lin Wu and Jiang Xuan were immediately shocked when they heard this, and they flew closer. Looking through the turbulence of time and space, they immediately saw Su Lang's face clearly!

Both of them grew up listening to Su Lang's deeds.

Since sensible, I have worshipped and prayed in front of Su Lang's statue every day. Su Lang's face has been carved into their souls!

So at first glance, they could see that Su Lang and Renzu were really exactly the same.

"This this this!"

"Really Lord Renzu!?"

"Something's wrong, Gu Linge, you were deceived. He is not Ancestor at all, and Master Renzu has disappeared for three billion years!"

"Yeah, I have grown up so much, and I have never seen the real Ancestor, how can he suddenly appear in front of me, fake!"

"Quickly, who are you, forget it, dare to pretend to be a great ancestor, and dare to trespass into the star sea area without authorization, a capital crime!!"

"Gu Linge, let's go together and kill him!!"

After Lin Wu and Jiang Xuan had a pleasant surprise, they immediately denied Gu Linge and directly took out their weapons to kill Su Lang!

[Chapter 1834: The rising star Lin Wuhe Jiang Xuan](#)

"Oh, don't do it yet..."

Gu Lingge just believed in Su Lang a little bit. At this time, Lin Wu and Jiang Xuanyi said that they suddenly became suspicious.

But Lin Wu and Jiang Xuan didn't listen to Gu Linge's words at all, the weapons in their hands had already reached Su Lang's face.

"Well, I didn't believe me casually, not bad."

Su Lang showed a satisfied smile, with the Youtian Sword in his hand, a powerful twisting force burst out instantly!

Rumble!

The aftermath of the terrifying battle dispersed.

Lin Wu and Jiang Xuan were swarmed by infinite power and flew out, their faces full of horror.

"He is so strong!?"

"Don't care if he is strong or not, he satirized us just now, kill!"

Lin Wu and Jiang Xuan glanced at each other, taking Su Lang's praise as a satire, and then stared at them, and then killed them again!

Seeing this scene, Gu Linge suddenly became entangled, wondering if he should make a move.

And just now!

"Okay, stop."

Su Lang smiled faintly, and more than ninety avatars suddenly appeared around him, surrounding them all.

Suddenly.

A strong quasi-primordial aura was pressed down, as if huge mountains fell on Lin Wu and Jiang Xuan.

"what!?"

"Approximately a hundred quasi Taichu!?"

"This, how is this possible, how did they appear!?"

"They all look like human ancestors, what are their identities?"

"..."

Lin Wu and Jiang Xuan's expressions changed suddenly, holding weapons and leaning against each other back to back, looking at Su Lang's clone in horror.

Gu Lingge immediately flew to Lin Wu and Jiang Xuan's side, looking at Su Lang's deity incomparably entangled.

"Let's go, let's talk when we go in."

"Don't you feel bad about consuming your life in this turbulent time and space?"

Su Lang rolled his eyes, and then flew towards the star sea with the three of them.

"No, you can't let the unidentified people enter our Xinghai domain!"

"But, we are not the opponent of this person at all now, if he wants to kill us, he will just kill us!"

"I think this is Senior Renzu Su Lang, don't be too alarmed."

"Hey, idiot Gu Linge, you are a billion years older than us!"

"How do you speak, I am your senior!"

"Don't make a noise, ask for support!"

"..."

The three of them were encumbered by Su Lang's clones and flew into the large area of Xinghai. While making a low noise, they sent out a distress signal in a special way.

Su Lang did not stop this.

The distress signal of the three Gu Lingge will surely attract many powerful people, and even the powerful people from the entire Xinghai domain group will come.

And this is exactly what Su Lang wanted.

He never wanted to see someone explain it again, see someone explain it again.

Everyone gathers together, er, no, it's explained clearly together, isn't it beautiful.

quickly.

Su Lang and more than 90 clones took Gu Lingge, Lin Wu, and Jiang Xuan through the barriers of time and space turbulence and entered the Xinghai domain group.

But before Su Lang could admire the surrounding starry sky, a large crowd of people gathered around!

"fast!"

"Start the space-time traction device!"

"Warriors below the quasi-primary period enter the Xinghai Five Elements Twisting Array, guarding their respective nodes!"

"All the quasi-prime, prepare to fight! For the Xinghai domain group, never regret it!"

"For the Xinghai domain group, never regret it!"

"Don't regret it!"

"..."

Accompanied by a series of violent roars, the terrifying humane will condense, almost forming a giant starry sky.

A well-known strong man looked at Su Lang's direction with death.

The formation, which was distorted like a thick colorful oil painting, was also unfolded, displaying a power that was not inferior to the quasi-primary level, firmly locking Su Lang!

At this moment!

All the power of the Xinghai domain group was presented in front of Su Lang.

Because they were treated as enemies, Su Lang also clearly saw their courageous will to face strong enemies.

Everyone, regardless of their cultivation level, is good!

Su Lang looked at this scene with joy and kept nodding.

[Chapter 1835: His Majesty Su Lang is back!](#)

He looked around at everyone.

Yan Hengxing, An Xin, Xiao Ning, Zhu Xin, Zhu Lan, Si Yuxiao, Si Yuxiang, Yuan Yue, Void, Yuehong, Qingqiu, Hongxiu, Xiaojing, Ni Qianzhou, Li Yu, and many other familiar faces Imprinted.

at the same time.

They were also looking at Su Lang, the screams in their mouths stopped abruptly, and the expressions on their faces were stagnant!

suddenly!

Surprising shouts burst out from their mouths!

"Yan Xingxing knocked on the patriarch—!!!"

"Su...Your Majesty Su Lang—!!!"

"It's the master, the master! The master is back!"

"The old servant Chiri is a new prisoner, knock on the master! Welcome the master back!"

"Master, I...I am empty, you still remember me!"

"..."

Countless strong men knelt down with a smile, and bowed to Su Lang.

Among them are the leaders of the current Xinghai domain group, Yanxingxing, and many high-level powerhouses of the domain group!

These people are all the old department of Su Lang.

Almost all of them were collected by Su Lang's soul fire, so the moment they saw Su Lang, they had no doubts!

of course.

These old ministries are only part of the high-level powerhouses, and even part of the entire power of the entire Xinghai domain group.

In contrast, more people are not Su Lang's old members.

Therefore, seeing Yanxingxing and other quasi-primary powerhouses and the Supreme Emperor kneeling down, he immediately showed an incredible expression like a ghost!

Immediately after.

These incredible powerhouses also returned to their senses one after another, and they bowed down in surprise!

"Oh my God, Master Yanxingxing has bowed down!"

"That... is really an ancestor! The younger generation of the Xuanyu fairy clan, see your Majesty Su Lang!"

"The younger Jiao Qinwu descendants, knock on your Majesty Su Lang!"

"Younger Langya Star Territory Li Wuyuan, knock on Master Renzu!"

"..."

More and more powerful men bowed down to Su Lang, and countless incense and aspirations swarmed!

Beside Gu Linge, Lin Wu and Jiang Xuan were completely dumbfounded.

They never expected that the person who shouted and killed himself was really human ancestor Su Lang!

Suddenly the two of them were embarrassed, and then they kept thinking about whether they insulted Su Lang!

At last.

Both of them were relieved, thanks to the quality education promoted by Xinghai Dayu all the year round, they failed to verbally abuse Su Lang!

"Junior Lin Wu!"

"Junior Jiang Xuan!"

"Knock to your majesty the great ancestor!"

The two of them took a deep breath and bowed down to Su Lang respectfully.

"Not bad!"

"During my absence, you did a great job, and you deserve a reward!"

Su Lang laughed loudly, and countless perfect quality pills emerged from the wave of his hand, accurately falling in front of the strong.

"Your Majesty Su Lang! Ouuuuu!"

"Thanks to the Lord for the reward, the next servant will live up to the mission!"

"..."

Countless strong men were moved to tears!

What a familiar scene, Su Lang used to wave his hands and sprinkled a lot of pills for them to eat, so that they could quickly break through the realm.

"Get up all."

"What kind of man is crying and crying?"

"Today I don't have any good pill. I will refine a good one before I can bring you to the next level!"

Su Lang carried his right hand and looked at everyone in Xinghai Dayu with a smile on his face.

"Yes, patriarch!"

"Originally, we had hoped to be dim, and we were ready to go to the Heavenly Continent to find like-minded forces to join forces, and we were also ready to sacrifice for the entire region."

"But when the patriarch returns, we don't have to worry anymore, because under the leadership of the patriarch, we will win!"

"Patriarch, this is the authority certificate of the group leader of the Xinghai domain, please accept it!"

Yan Hingxing flew to Su Lang with great excitement, and finally showed a surprise smile on his face that had been serious and sad all the year round.

He offered a unique blue star model to Su Lang, which was to transfer the rule of the Xinghai domain group.

however.

"what?"

"The credentials of the group owner of the Xinghai domain? No!"

"It would be troublesome for me to manage a stubborn group, and let me control the star field group, get out!"

Su Lang refused Yan Hingxing straight away. He had thrown the matter to Yan Hingxing long ago, and he was a shopkeeper himself, and he would not care about it at this time.

[Chapter 1836: Keep working on me!](#)

"This....."

"Patriarch, the subordinates seem to be unable to do anything..."

Yan Hingxing smiled bitterly and withdrew the certificate of authority, and his vicissitudes of life showed deep exhaustion and weakness.

Three billion years.

He worked hard to develop the human race, experienced countless battles, conspiracies, and suffered countless injuries.

Coupled with the horrible torrent of time, he felt that he really couldn't hold it.

"Can't do it? A joke!"

Su Lang laughed loudly, "I will refine the pill for you later, and I will let you break through to the Primordial Beginning Realm in two days and continue to work for me!"

"Patriarch...!"

Yan Hingxing knelt on the ground and shouted, his face was full of dumbfounding expressions.

"how?"

Su Lang raised his eyebrows, "Do you want to retire?"

"Do not!"

Yan Hingxing took a deep breath and bowed earnestly, "Hingxing will fulfill its mission and supervise the Xinghai region for the patriarch!"

"It's about the same."

Su Lang laughed, then pointed to Yanxingxing's forehead, "Concentrate and hold your breath!"

"Yes!"

Yan Xingxing's eyes lit up, and he knew that Su Lang was going to use that magical method for himself!

Three billion years ago, he enjoyed such a favor.

However, unlike what he imagined, what Su Lang instilled in him this time turned out to be a technique!

A godless technique called "Deadwood Condensation of Sources of Life" can delay the attenuation of life, almost tailor-made for him now!

"This exercise is for you to use temporarily, lest you suddenly die, and I will suffer a big loss."

Su Lang chuckled, and then asked again, "Do you have any weapons to use? Where are they? I don't seem to see any weapons that are too basic!"

This statement came out.

Yan Hingxing suddenly showed a wry smile and helplessness again.

"Master Patriarch..."

"We have gathered the power of the entire region, and only then used some Supreme Emperor soldiers and formations to create a quasi-primary-level star region array."

"That's it, it was done according to the method you used to create the Five Elements Heaven. Because the technology is not at home, we have spent a lot of resources and a lot of manpower, and it hurts to think about it."

Yan Hingxing looked at the starfield array that the Xinghai area was proud of, and his heart was ashamed.

Although Su Lang created an emperor-level formation at the beginning, it was different from this quasi-primordial formation.

But Yan Hingxing knew that Su Lang's growth rate was definitely far faster than everyone present. The formations and weapons created by Su Lang, the entire Xinghai domain group combined did not deserve shoes!

"Haha, actually you guys have done a good job!"

"And this aspect is not your specialty. Your advantage lies in the fast cultivation speed."

"Look, there are so many in the beginning, very good!"

Su Lang smiled and patted Yan Xingxing's shoulder, "Next you continue to keep this energy, don't let go just because I'm back, you know!"

"Yes!!"

Yan Hingxing knocked his head heavily and took his command loudly.

The rest of the people also kowtow one after another, and Qi Qi said yes, everyone is struggling to perform well in front of Su Lang!

"Ok!"

"While everyone is here."

Su Lang smiled and nodded, "Now I will refine weapons and pills for everyone, and go collect the materials!"

"Yes, patriarch!"

Yan Hingxing got up, and then went down to collect materials.

Countless strong people also heard Su Lang's words, and they were suddenly surprised.

Some of them had personally experienced Su Lang's alchemy refining tools and rewarded everyone.

More people have grown up listening to these stories. How can they not be excited when they see that the rumored things happen to themselves!

And just as everyone was excited, even more exciting words came from Su Lang.

"By the way, there is one thing I forgot to say."

"When I came back, I recaptured the Black Dragon Remnant Domain and the Xiyun Star Domain by the way, and the Tongtian Temple was destroyed by me."

"Now, it's time for these two star regions to return to the Xinghai domain group!"

Su Lang looked around at everyone and waved his hand while talking.

The clones immediately opened the life universe channel and released life planets one after another.

At the same time, Chu Xiaobei and others were also released from the Soul Chasing Emperor Palace.

[Chapter 1837: This star field array should be changed](#)

"Hey, you deserve to be Renzu Sir, waved your hand and destroyed the Tongtian Temple!"

"Tongtian Temple that broke through our star field is destroyed, and the Black Dragon Remnant and Xiyun Star Field have returned, hahahaha!"

"Look, it's the planet in the Blue Dragon Region of the Black Dragon Remnant, I've been there!"

"That is Xiyunxing, that is Xiyuxing, that is..."

"Look, the Supreme Empress of Yaochi, and the Supreme Empress Xue Keting, Yu Gaochang, and He Yuanxin Zhun Supreme... They are all alive!"

"Look at those three... are the women who accompanied Ren Zu, and are our ancestors!"

"They have written ten sacred books, recording many scenes from the primitive era, as well as fragments of the life of the ancestors. My family has a billion-year-old sacred book!"

"Look at that one, she has the aura of a beast on her body, as if she is a family of unicorns!"

"..."

Countless strong men saw the familiar planets and strong men, and tears burst into their eyes.

When I saw Chu Xiaobei and the others, he burst out again, like a mortal seeing a legendary mythical figure!

Simultaneously.

Chu Xiaobei and others were also extremely excited!

"came back!"

"We are finally back, haha!"

"Unexpectedly, the Xinghai area has become so lively. There are so many people. The city must be very prosperous. I don't know how many novelties have appeared. It seems to be a stroll!"

"This...is this the Xinghai domain group? There are so many powerful people, they actually recognized my Qilin's identity!"

"Huh! Isn't that Yuehong and Hongxiu? Hurry up and call them over!"

"..."

Chu Xiaobei everyone whispered in excitement, then they saw a large number of familiar people and called out loudly.

Yue Hong and the others were flattered, and immediately flew up to talk to Chu Xiaobei and others.

Seeing this scene, Su Lang smiled and looked at the old people who had not come forward to recognize each other.

The former alchemy master An Xin Guliang and his classmate Xiao Ning Guliang were both outstanding human beings, and at this time they had reached the quasi-primary level.

"Master Anxin, Guliang Xiao Ning, Master Lu Bai..."

Su Lang also smiled and beckoned to those old people, with joy and emotion in his heart.

The joy is naturally because they are alive, and the emotion is because some of them have passed away forever, such as Yun Yemeng, Jiang Wu, Huangfuqin, Bi Yulin, etc...

At this time.

An Xin and others stepped forward and came to Su Lang.

"Subordinates pay homage to the patriarch!"

The crowd bowed and saluted.

"Don't be polite."

Su Lang immediately helped them up and chatted with a smile.

At first, because of the difference in identity, everyone couldn't let go.

But when we talked about old things, scenes of memories appeared in my mind, and the feeling of closeness immediately spread.

Both Xiao Ning and An Xin gradually revealed their true feelings. Although they had gone through countless years, they had never looked for a partner like Yaochi Yiran, and at this time they also unintentionally showed shyness.

After a moment of reminiscence.

Yan Hingxing had already brought countless treasures of heaven and earth collected from everyone to Su Lang.

Xiao Ning, An Xin and others immediately took out all the belongings and gave them to Su Lang.

"Next, I will refine some pills and weapons for everyone."

"But before that, this star field array should be changed!"

Su Lang looked at the formation of the sky, and immediately saw it thoroughly and mastered it.

This formation is extremely complicated and consumes countless materials, but it has not reached the power it should have.

"Array control · Dispersion!"

Su Lang gently waved his hand, and the formation that filled the entire star field collapsed instantly, and immediately turned into countless materials, falling into his hands like a long whale absorbing water.

However, Su Lang did not disassemble the weapons and parts that already possessed the spirit of weapons, because they were also heroes.

The collapse of the quasi-primary star field at the fingertips of Su Lang immediately caused everyone's horror, awe and worship.

This is the quasi-too junior's big formation, resisting countless attacks, and has existed for more than two billion years.

But in the blink of an eye!

From then on, they got a glimpse of the tip of Su Lang's iceberg, making it hard for them to believe how tall and vast the complete iceberg would be.

And just now!

[Chapter 1838: Renzu can not use common sense!](#)

"One-key mixer!"

While Su Lang waved his hand, countless materials turned into powerful godless soldiers!

This scene instantly shocked countless strong people!

Su Lang has the legend of super-defying weapons, and they all grew up listening.

However, when I saw it with my own eyes, I realized that those legends did not reflect one ten thousandth of Su Lang's refining skills!

"Weapon evolution!"

Su Lang waved his hand again, and the old weapons in the previous formation were upgraded one after another, and his aura suddenly soared!

"Thanks to the ancestors for rebuilding!"

A famous instrument spirit walked out of the body and bowed with gratitude to Su Lang!

The countless powerhouses who had been shocked were even more shocked in an instant, all of them were dumbfounded, their mouths opened wide, and they could squeeze two fists!

God!

How could he be promoted to the weapon in an instant, what a tactic against the sky! ?

at this time!

"One-click enhanced start!"

Su Lang sipped softly, and all the Godless soldiers in front of him strengthened once, and their level increased again!

The lowest level Godless Soldiers have reached the Sandu level!

Suddenly.

The countless strong men who were so shocked that they were dumbfounded were even slow in their thinking.

Those are hundreds of godless soldiers, all of them are promoted in the wave of their hands. They dare not brag, dare not do it in their dreams!

"go with!"

Su Lang gave a light drink, and the weapons were immediately placed in predetermined positions by clones, arranged like stars!

Immediately!

"A thought is formed!"

Su Lang waved his big hand again, and countless formations appeared within tens of trillions of miles!

And as the clones continue to move, they expand and spread until they cover the entire Xinghai domain group!

You know this is the Xinghai domain group!

A large area of Xinghai is the size of an exile!

A domain group with seventy-two domains is more than seventy times the size of the land of exile!

Such a vast starry sky is filled with countless formations, which is beyond everyone's imagination!

The countless powerhouses who saw this scene crashed directly, completely unable to think!

They can't imagine how this is done!

Some people even suspect that they are dreaming, and then ask others to beat him...

suddenly!

Some people murmured: "The ancestors can't use common sense!"

As soon as this remark came out, countless people were immediately awakened!

Human ancestors cannot use common sense. This is the sentence that appears the most in countless legends about human ancestors.

Often the narrator will sigh with emotion after telling a story about the ancestor

——Ren Zu can't use common sense, let alone we can guess!

"Yes!"

"Master Renzu cannot use common sense at all!"

"For me, such a scene is totally incredible, but for the ancestors, it is just the most common thing."

"Human ancestors are human ancestors, an existence that I will never surpass for countless millions of years. That is the ancestor I waited for!"

"I really want to call Master Renzu to grandpa!"

"Dreams go to you!"

"Ok!!!"

"..."

The eyes of countless strong men returned to light, and the eyes of Su Lang were full of admiration. This was a conviction from the bottom of my heart!

at this time!

"Xinghai Huanyu United Array, come!"

Su Lang's soft shout spread all over the star field in an instant!

Immediately afterwards, the super large formations that filled the entire star sea domain group started all together.

First, those godless soldiers as skeletons emit violent light, like a real galaxy that wraps up the entire star sea domain!

Immediately after.

The formation around the Godless Soldier also immediately cooled down.

The dazzling light illuminates the entire area of the star sea transparently, and the dark and lonely space becomes clear!

Soon.

The light slowly converged, and the light in the large area of the star sea returned to normal again.

but.

The "Milky Way" that envelops the entire star-sea region is still shining, giving people an endless sense of security.

"Oh my God!"

"The entire star field was illuminated just now!"

"Master Ren Ancestor gave a soft drink, the star field completely turned into daylight, and the voice of the master human race fell, and the star field returned to darkness. What a supernatural power!"

"..."

[Chapter 1839: The elixir is like galaxy constant sand](#)

"Look at the Milky Way!"

"That is our brand-new star field group array, far surpassing the previous one by many times!"

"Haha, I'm waiting for safety, there are people guarding the ancestors, I don't have to worry anymore!"

"Master Renzu is too great, worship you!"

"..."

Countless warriors exclaimed and talked, and immediately bowed and thanked Su Lang.

Suddenly.

It is also the countless incense and wishing force to enter the virtual spirit universe, pouring into the Seven Treasure Tree, making it further clear and solid.

"Xinghai Huanyu United Array has been completed!"

"This formation is composed of 90,000 types, a total of 4.9 million godless formations, and 666 godless soldiers!"

"Its protective ability has reached the pinnacle of the quasi-primary level. If hundreds of quasi-prime primaries are all involved, they cannot be broken!"

"Even if you encounter a powerhouse of the Primordial Beginning Stage, you can still fight for a few breaths of time, and you won't be directly destroyed!"

Su Lang's voice reached everyone's ears, making him tremble with excitement.

In fact, there was one more thing Su Lang didn't tell them.

Then this Xinghai Huanyu United Array can lock on each planet, so that the clone can be included in the life universe for refuge in the first time.

The reason for not saying.

It was Su Lang who didn't want everyone to lose their sense of crisis completely.

They have countless courage and will to fight, and the will to die rather than regret!

These cannot be obliterated by ease!

"Although the Xinghai Huanyu United Array is relatively strong."

"But it's still too weak to face the strong."

"Everyone must not slacken their efforts and must work hard to cultivate. Don't think that your current cultivation base is very weak and you can only serve as cannon fodder to die!"

"Remember, I am born to be useful! And I will also let your light shine to the extreme!"

Su Lang looked around at the crowd, his tone was sonorous, utterly decisive, and everyone looked serious!

"just now!"

"I will refine the pill for you. You can eat as much as you can, and you will eat it until you are about to die!"

Su Lang regained a smile on his face, and then began to use the one-key alchemy function to refine the pill.

Suddenly.

Countless **** pill, elixir pill, emperor pill, great pill, and even godless pill were refined.

And all these medicines are of perfect quality!

Suddenly.

Everyone looked stupid as they watched Su Lang's formation before, and their heads couldn't move!

After a while.

When the scent of countless elixirs diffused, making them refreshed and refreshed, they came back to their senses.

"Oh my God!"

"There are so many elixirs, just like constant sand!"

"All are perfect quality pills, it's incredible!"

"Calm down, read it to me-Renzu can't use common sense!"

"Ren Zu can't use common sense!"

"Worship!!"

Countless people exclaimed again and again, and finally bowed down again, with expressions of worship, joy, excitement and excitement on their faces.

Su Lang's refining medicine is really too much!

Because he himself only took the godless-level pill, even if it had the strengthening function, it was difficult to strengthen the elixir emperor pill to the level of the quasi-primary beginning.

So the materials of those 'low-level' medicines were of no use at all.

And how many materials are there?

Starting from the place of exile, killing a large number of the Supreme Emperor, and obtaining countless materials in the Ship of Ten Thousand Domains!

Later, Linglian Temple and Tongtian Temple were destroyed, and the resources of the entire Xinghai domain group were also obtained at this time!

I don't know how many low-level alchemy materials add up!

Although it consumes a lot of enhanced functions during this period, the rest is completely countless!

And this time.

Su Lang refined all these materials into a pill.

One less material can be used for each material!

And you can directly refining five pills!

In other words, these materials can exert five times the limit value, and the number of refined medicines is even more unimaginable!

now.

Su Lang was standing there, and then countless pills flew out of his sleeves, rushing to Yanxingxing constantly, allowing him to complete the troublesome task of distributing.

"God, too much, too much!!"

"The alchemy method of the patriarch is more terrifying than remembered, it really cannot be calculated with common sense!"

Yan Xingxing stuffed all the pills refined by Su Lang into the universe of life, and his whole body was shaking with excitement!

[Chapter 1840: Change all shotguns!](#)

With these pills.

The strength of the entire Xinghai domain must at least rise to a great level!

Of course, the quasi-primary-level ceiling is not so easy to break through.

Then you need to understand the most difficult rule of the universe-time!

Time passed slowly.

Su Lang finally finished refining the pill.

Countless elixirs gathered in the starry sky of Yanxing's life universe, and yet another planet was formed!

This is a planet of pills!

Every inch of land above is an elixir, and the fragrance of the elixir alone is endlessly powerful!

"Patriarch!"

"Should I distribute the pill to everyone?"

Yan Hengxing was so excited that he swallowed wildly, and he was already gloomy!

"and many more!"

"Don't I have no refining equipment yet?"

"You don't have suitable weapons, how can you fight the enemy?"

Su Lang stopped Yan Hengxing directly, with a smile on his face.

"Yes Yes Yes!"

"Singling was too excited for a while, I forgot it!!"

Yan Hingxing nodded his head in a hurry. He was extremely majestic in the usual days, and now he was about to become Su Lang's flattery.

"Um~~!"

"Well, you guys, the materials of the weapon are not bad, but they have refined a relatively ordinary Godless soldier!"

"I will gather some materials for you to refine better weapons."

While talking, Su Lang activated the one-key enhancement and weapon refining functions to refine weapons for the powerhouses of the Xinghai domain.

These weapons are also first refined into an ordinary four-du and five-du godless soldier, which will soon be strengthened to seven-du and eight-du!

No matter how high it is, there is no way, because the material is not enough.

The weapons of Qidu and Badu were sufficient in the hands of Zhun Taichu.

Moreover, these weapons are all refined by Su Lang with his own ideas, and they can cooperate with each other and even fit together!

In this way, the power can be greatly increased!

quickly.

Su Lang refined more than a dozen weapons of Badu and below, and distributed them to Yanxingxing and other quasi-primary and high-level godless weapons.

"Wow!"

"This spear was specially made for me by Renzu!"

"It's great, I like such a long gun, I promise to scream the enemy!"

Lin Wu looked at the thick black and red gun in his hand, the light in his eyes was as bright as a light bulb.

"Humph!"

"Master Renzu obviously prefers me!"

"Look at my long whip. It can be soft or hard, long or short. When it's soft, it can restrain and whip the enemy, and when it's hard, it can also be used as a growth gun. It can also scream the enemy!"

Jiang Xuan took out a red long whip in his hand and showed it to everyone!

really.

This long whip can be soft or hard, long or short, and it's so varied that it's impossible to guess!

When everyone saw it, they said that the long whip was very strong, and gave Jiang Xuan envious eyes.

"Humph!"

Jiang Xuan showed a satisfied and arrogant expression, and he was very energetic and extremely happy.

"cut!"

"What's so good about!"

"I will fight your long whip with my spear the next day!"

Lin Wu looked at Jiang Xuan and snorted, his face full of dissatisfaction.

"Okay!"

"Fight for one fight, fight for one fight!"

Jiang Xuanjie smiled, "Look at me not yelling at you!"

...

Gu Linge next to him looked at the two treasures of Jiang Xuan and Lin Wu, smiled and shook his head, and then hid the magic treasure of the Eight Duo scissors in his hand.

at the same time.

The rest of the powerhouses, such as Si Yuxiao and others, also got their own Supreme Emperor soldiers one after another, and they all smiled with excitement.

Those who didn't get the weapon were extremely envious, and looked at Su Lang eagerly.

"Don't worry."

"I have left you the materials and will build special weapons for you!"

Su Lang smiled faintly, and even began to refine a brand new weapon.

This time.

What he refined was the Nine Ranked Emperor Weapon, an armor suitable for both the Great Emperor and the Wu Emperor!

The role of this kind of armor is to complement the warrior, and exert a more terrifying power!
quickly.

One by one, palm-sized black tokens were refined.

These tokens are actually the body of the armor, named Shura War God armor!

When the warrior instills energy into it, the token will turn into an armor that fits the warrior completely, covering the whole body, enhancing all aspects of attributes, and also transforming energy weapons, super pulling wind!
